Commented [WT16R15]: Confirmed last advance will be 7 calendar days before the CF agreement expires.

Commented [WT17]: Discussed the language with Carlos Yep. He is satisfied that Section 3.3.2 and 3.3.3 provides choice of either repayment or advance for a further period. The reset rate would apply to the portion that is extended. Unless I'm not understanding the question.

Commented [LS18]: This section and accompanying form needs further consideration/amendments. Need to add a provision re: interest rate for any such extension if applicable (unless treated as a late payment). LEGAL to review again.

Commented [WT19]: Lisa, I confirmed this w/ Carlos and he is satisfied with the original wording. Below is how they use the fields.
Schedule 1 (a) Advance date/settlement date of funds.
Schedule 2 (a) Maturity date of the previous advancement.
Schedule 2(c) New maturity date of extention.

SH: This wording is based on the language of Amending Agreement #9 of the original OPA-OFA 975m credit facility agreement.

Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Hi Lisa,

Thanks very much for your draft.

Please find attached our comments and changes (including simplifying the comments). For your reference, I've also done a pure blackline comparison against your last version.

We've accepted a lot of your changes and highlight the following remaining issues and changes:

- **"Subsidiaries**" - we would like to include all references to subsidiaries, as it was deliberately included in the other 2010 IESO-OEFC Credit Facility. We've also included the definition of "**Material Subsidiary**", which should have been included, as it was in the 2010 Credit Facility
- **(ACTION REQUIRED - TOBY) Section 2.2** – Changes accepted, however, Toby to confirm Reg. 280/14 reference? Also, IESO to confirm reference to "short to medium" term.
- **(ACTION/DECISION REQUIRED -LISA) Section 3.3** – Does this language actually need to be amended any further? It was based on the language of amending agreement #9 of the original $975m OPA-OFA Credit Facility agreement.
- **Section 3.5** – Included the words "a Material Subsidiary" in respect of the MAC clause, per your suggestion
- **Original Section 4.1** – Deleted section per your comment, as it is redundant. Section 4 numbering has been re-numbered along with any corresponding references in the agreement.
- **"New" Section 4.1** – Keep reference to 7.1, as we prefer to keep this reference, which was also in 2010 IESO-OEFC Credit Facility
- **(DECISION REQUIRED – LISA/SARAH) Newly renumbered Section 4.2** – Maintenance of Properties – Would like to discuss with you directly, as this is a little ambiguous role of OFA vs. Province.
- **Newly renumbered Section 4.7** – Have included timeframe as "promptly", per you suggestion of a timeframe
- **Original Section 5.1(c**) – deleted section as was redundant and referenced the now deleted original section 4.1 (per above). As a result of deletion, references (d), (e), (f), (g), and (h) under section 5.1 have been renumbered
- **Section 7.1** –We would like to include section, as it was included in 2010 OEFC-IESO credit facility. Corresponding reference in Section 4.1 should be kept.

I note below that you requested that we do another Documentation/OFA Legal turn before review by LSB, but given the urgent timeframe, and the very few remaining material issues, I thought it prudent to let Toby view what is a relatively final form in substance, so he can flag any major issues from an FHP perspective. Since the agreement must be executed by end of next week and IESO has not yet seen the draft, I am hoping we can strive to get this to IESO by end of day (Friday) to allow sufficient time for IESO to review and provide comments on the draft ASAP early next week..

Thanks,

Sarah

Hi Sarah and William,

Please see my and suggested amendments on the attached. Please review and prepare an additional black-lined version for further OFA Legal review (prior to sending to MOF Legal). There are a number of areas that I've identified that require further drafting/consideration.

Thank you,

Hi Salman,
Thanks so much for reviewing. I will remove the question to IESO regarding whether medium term financing should be included.
Two days processing is what is included in the current $975 million facility (in the original facility it was actually one day, but in amending agreement #9 we extended to two days). So this should be okay.
The agreement does not specify a prepayment option for IESO; is this something we should be looking to include?
Thanks,
Sarah

Hi Salman,

As discussed, we’ve been drafting up to the 11th hour to try to get this to IESO by end of day today. We’re still putting on the final touches, but if you wouldn’t mind taking a look at this draft to ensure that it is consistent with FHP purposes, and is consistent with the Directive, that would be great. My apologies for the short notice.
Thanks,
Sarah

Hi Lisa,
My apologies – in addition to the changes below, I noted one more change.
Under 3.3(2), I took out the word Continued in the first sentence, as I think is the accurate intention

Each notice to continue an Advance for a further period (an “Election Notice”) shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the ~~Continued~~ Advance, and in each case, not later than 10:00 a.m. (Toronto time).

Otherwise, there are no other changes from my last version.
Thanks,
Sarah

Hi Lisa,
Please find attached the revised draft, based on our conversation (I also included the blacklined comparison directly against your 12:38 p.m. version, for your reference).
Particularly, could please review the election notice language and comment if you think it is now

consistent with the new wording of section 3.3 (2). I also note Toby's comments are for clarification and do not change the drafting of your previous version, so we're okay to work off this version for further edits.

I am available at 647-278-9718 at any time.

Thanks,

Hi Salman,

As discussed, we've been drafting up to the 11th hour to try to get this to IESO by end of day today. We're still putting on the final touches, but if you wouldn't mind taking a look at this draft to ensure that it is consistent with FHP purposes, and is consistent with the Directive, that would be great. My apologies for the short notice.

Thanks,
Sarah

Hi Lisa,
My apologies – in addition to the changes below, I noted one more change.
Under 3.3(2), I took out the word Continued in the first sentence, as I think is the accurate intention

Each notice to continue an Advance for a further period (an "Election Notice") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the ~~Continued~~ Advance, and in each case, not later than 10:00 a.m. (Toronto time).

Otherwise, there are no other changes from my last version.
Thanks,
Sarah

Hi Lisa,
Please find attached the revised draft, based on our conversation (I also included the blacklined comparison directly against your 12:38 p.m. version, for your reference).
Particularly, could please review the election notice language and comment if you think it is now consistent with the new wording of section 3.3 (2). I also note Toby's comments are for clarification and do not change the drafting of your previous version, so we're okay to work off this version for further edits.
I am available at 647-278-9718 at any time.
Thanks,
Sarah

-, added reg 208/14 under Electricity Act – borrowing authority for IESO.

Commented [SH4]: Could IESO please confirm if this is short term or short to medium term.

Commented [SQ25R4]: If it is also medium term, please provide language around defining what "short-term" vs. "medium-term" would be.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(3), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "Borrowing Notice") shall be substantially in the form of Schedule 1, shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance, and (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 7 days and not later than 95 days after the date of the requested Advance. Such notations, in the absence of manifest error, shall be prima facie evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Commented [SQ26]: Is this sufficient timing on our end? Typically it is 5 business days, but maybe we can say at least 3-business days?

Commented [SH7]: Does this need any tweeking to take into account our definition of "Continued Advance" under 3.2 (2)?

Commented [SH8]: Changed per Carlos' description of how advance works and converstation with Lisa

Commented [SH9]: Think this should just be the Advance.

~~Advance;~~ (bc~~b~~) the new aggregate total amount of the proposed Continued Advance~~[including accrued interest];~~ and (cd~~c~~) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 7 days and not later than 95 days after the current Repayment Date. If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance as set out in ~~accordance with~~ Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(4) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

~~(3)~~ (3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Commented [SH10]: Deleted (b), since this is reflected in (d)

Commented [LS11]: NTD: As discussed please clarify calculation of interest on Advance continued by election in Section 3.4.

Commented [SH12R11]: Changed per discussion with Lisa, based on Carlos' description of application of interest rate.

Section 3.5 Conditions Precedent

Hi Sarah/Lisa,

I took a quick look through (for the sake of time) and made 2 minor comments. I didn't review the conditions precedent etc as they appear to be pretty standard and this agreement is similar to $975 million agreement.

- We decided to leave use of proceeds to say short-term and let IESO tell us otherwise. If we are going to ask them explicitly to confirm whether its short-term or also medium term, we should ask for them for some language on definition. The Directive says "short-term to medium-term", so we would not be offside the Directive if we continue to only say "short-term".
- Is a 2-day notice sufficient for our processing purposes? Typically, its 5 business days but maybe we can ask for 3 business day notice at the least?

One detail I may have missed but didn't see was how does IESO pay us back on the advance? Do they just EFT the funds to us based on their election notice?

Regards,

Salman

Hi Salman,

As discussed, we've been drafting up to the 11th hour to try to get this to IESO by end of day today. We're still putting on the final touches, but if you wouldn't mind taking a look at this draft to ensure that it is consistent with FHP purposes, and is consistent with the Directive, that would be great. My apologies for the short notice.

Thanks,
Sarah

Hi Lisa,
My apologies – in addition to the changes below, I noted one more change.
Under 3.3(2), I took out the word Continued in the first sentence, as I think is the accurate intention

Each notice to continue an Advance for a further period (an "Election Notice") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the ~~Continued~~ Advance, and in each case, not later than 10:00 a.m. (Toronto time).

Otherwise, there are no other changes from my last version.
Thanks,
Sarah

Hi Lisa,
Please find attached the revised draft, based on our conversation (I also included the blacklined comparison directly against your 12:38 p.m. version, for your reference).
Particularly, could please review the election notice language and comment if you think it is now consistent with the new wording of section 3.3 (2). I also note Toby's comments are for clarification and do not change the drafting of your previous version, so we're okay to work off this version for further edits.
I am available at 647-278-9718 at any time.
Thanks,
Sarah

Hi Salman,

As discussed, we've been drafting up to the 11th hour to try to get this to IESO by end of day today. We're still putting on the final touches, but if you wouldn't mind taking a look at this draft to ensure that it is consistent with FHP purposes, and is consistent with the Directive, that would be great. My apologies for the short notice.

Thanks,

Hi Lisa,

My apologies – in addition to the changes below, I noted one more change.

Under 3.3(2), I took out the word Continued in the first sentence, as I think is the accurate intention

Each notice to continue an Advance for a further period (an "Election Notice") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the ~~Continued~~ Advance, and in each case, not later than 10:00 a.m. (Toronto time).

Otherwise, there are no other changes from my last version.

Thanks,

Please find attached the revised draft, based on our conversation (I also included the blacklined comparison directly against your 12:38 p.m. version, for your reference).
Particularly, could please review the election notice language and comment if you think it is now consistent with the new wording of section 3.3 (2). I also note Toby's comments are for clarification and do not change the drafting of your previous version, so we're okay to work off this version for further edits.

Hi Salman,
Thanks so much for reviewing. I will remove the question to IESO regarding whether medium term financing should be included.
Two days processing is what is included in the current $975 million facility (in the original facility it was actually one day, but in amending agreement #9 we extended to two days). So this should be okay.
The agreement does not specify a prepayment option for IESO; is this something we should be looking to include?
Thanks,
Sarah

Hi Sarah/Lisa,
I took a quick look through (for the sake of time) and made 2 minor comments. I didn't review the conditions precedent etc as they appear to be pretty standard and this agreement is similar to $975 million agreement.

- We decided to leave use of proceeds to say short-term and let IESO tell us otherwise. If we are going to ask them explicitly to confirm whether its short-term or also medium term, we should ask for them for some language on definition. The Directive says "short-term to medium-term", so we would not be offside the Directive if we continue to only say "short-term".
- Is a 2-day notice sufficient for our processing purposes? Typically, its 5 business days but maybe we can ask for 3 business day notice at the least?

One detail I may have missed but didn't see was how does IESO pay us back on the advance? Do

they just EFT the funds to us based on their election notice?
Regards,
Salman

As the OIC package was going through our OFA approvals, we have now been directed that the OIC amount should be $2.0 billion, with an expiry date of June 30, 2047, to line up with the IESO request and the term of the FHP.

I'll recirculate the updated LRC package once I get a finalized version in place. Could we update the OIC to reflect this as I know it may take some time.

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the Ontario Financing Authority ("OFA") in an amount of up to $2.0 billion. Under the proposed OIC, repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by ~~[~~December 31, 2047~~]~~.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- Existing OICs authorize the Minister of Finance to provide loans to the OFA ~~under which~~, and in turn ~~-~~the OFA has provided loans and credit facilities to colleges, school boards and other public bodies ~~agencies~~ such as Infrastructure Ontario, IESO, Ontario Lottery and Gaming Corporation and Liquor Control Board of Ontario.

- This proposed OIC is required to increase the ~~overall~~authority of the Minister of Finance ~~lending authority~~ to lend to the OFA ~~to allow~~ which will provide the OFA with the capacity to provide loans ~~under credit facilities requested by~~to the Independent Electricity System Operator ("IESO").
    - This will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017*~~, under anticipated and potential timing differences~~ as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.
    - The timing of this OIC is critical to ensure that borrowing authority for the OFA is available to provide the IESO its requested financing arrangements under ~~upon the enactment of~~ the *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the

Minister of Finance under section 22 of CIPA to provide additional loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the ~~ on-going~~ *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA would be directed to provide a credit facility to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. At certain times Global Adjustment amounts ~~initially~~ collected from ratepayers will~~, therefore,~~ be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The *Ontario Fair Hydro Plan Act, 2017* ~~allows~~gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to finance that ~~asset~~deferral.
    - It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
    - The cash received from selling the regulatory asset will be used by the IESO to fund the current Global Adjustment shortfall.

- There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017. Even once the SPV is set up to borrow, there may be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

- As a result, IESO requires short-term financing to be in place for initial and potential monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of up to $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

- It is proposed that the OIC ~~authorization be for~~authorize the OFA to borrow an additional $2.0 billion, which would be in addition to existing authority for the Minister of Finance to provide loans to the OFA, to ensure that there is sufficient borrowing authority in place for the OFA to meet the IESO requested requirements.

- If approved, the Minister of Finance will subsequently provide a Directive to the OFA to direct it to provide credit facilities to the IESO in an amount not to exceed $2.05 ~~5~~ billion.
    - The OFA currently provides a credit facility to the IESO of $975 million.
    - The IESO has requested that the existing credit facility be reduced to $475 million, and a new credit facility be provided of $2.0 billion, for a total amount of $2.475 million.

s. 3 Direction and Urgency

- The Province passed legislation on May 31, 2017 to implement the *Ontario Fair Hydro Plan Act, 2017,* which will reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in supporting implementation of the *Ontario Fair Hydro Plan Act, 2017*.
- Ministry of Energy proposed regulations under the *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be submitted for approval concurrently as it supports a crucial component of the successfully implementation of the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend an additional amount of $2.0 billion to the OFA. Subject to the terms and conditions of a Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and, therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister ~~will be required that will~~may provide direction to the OFA on how it can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan. Upon approval, the Minister of Finance will have authorization to provide a loan to the OFA with a directive on how the loan can be used.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017*. The related Cabinet note for the initiative should be referred to.

MEMORANDUM TO: Scott Thompson
Deputy Minister of Finance

FROM: Gadi Mayman
Chief Executive Officer

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for the Minister's review and consideration is a submission for an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's *Ontario Fair Hydro Plan Act, 2017*, subject to the approval of the Legislature.

IESO has requested that the OFA provide a revolving credit facility of up to $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. At certain times, Global Adjustment amounts ~~initially~~ collected from ratepayers will ~~, therefore,~~ be insufficient to fund the IESO's contractual obligations to electricity producers and service providers. The *Ontario Fair Hydro Plan Act, 2017* gives~~allows~~ the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to finance that deferral~~that asset~~. It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV"), an OPG special purpose vehicle or trust. The cash received from selling the regulatory asset would be used by the IESO to fund the current Global Adjustment shortfall.

There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017. Even once the SPV is set up to borrow, there may be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the proposed legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

As a result, IESO requires short-term financing to be in place for initial and potential monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

The OFA obtains the funding it needs to carry out its lending programs by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to an additional Canadian $2.0 billion to the OFA. In addition, in order for the OFA to provide the IESO its requested credit facility, a direction from the Minister of Finance to the OFA under CIPA will also be required.

Attached for your signature is a memorandum from you to the Minister requesting that the Minister recommend the OIC. This OIC is on track to be considered at LRC on June 27, 2017 together with proposed Ministry of Energy submission for regulations related to the *Ontario Fair Hydro Plan Act, 2017.*

MEMORANDUM TO: The Honourable Charles Sousa
Minister of Finance

FROM: Scott Thompson
Deputy Minister of Finance

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for your approval and signature is a submission for an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's *Ontario Fair Hydro Plan Act, 2017.*

IESO has requested that the OFA provide a revolving credit facility of up to $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. At certain times, Global Adjustment amounts ~~initially~~ collected from ratepayers will~~, therefore,~~ be insufficient to fund the IESO's contractual obligations to electricity producers and service providers. The *Ontario Fair Hydro Plan Act, 2017* gives~~allows~~ the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to finance that deferral ~~that asset~~. It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV"), an OPG special purpose vehicle or trust. The cash received from selling the regulatory asset would be used by the IESO to fund the current Global Adjustment shortfall.

There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017. Even once the SPV is set up to borrow, there may be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

As a result, IESO requires short-term financing to be in place for initial and potential monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset

The OFA obtains the funding it needs to carry out its lending programs by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to an additional Canadian $2.0 billion to the OFA. In addition, in order for the OFA to provide the IESO its requested credit facility, a direction from the Minister of Finance to the OFA under CIPA will also be required.

Staff of the Ontario Financing Authority are available to address any questions you may have regarding this matter.

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Two Billion Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

Hi Patrick
Apologies, regarding the French translation. 1) I had updated using my high school French and 2) in the translation I had missed updating the change in date from June to December 31, 2017. I have revised in attached "4 – CIPA s.22…" , but of course, this should be reviewed.
Thanks

Hi Patrick,

As the OIC package was going through our OFA approvals, we have now been directed that the OIC amount should be $2.0 billion, with an expiry date of June 30, 2047, to line up with the IESO request and the term of the FHP.

I'll recirculate the updated LRC package once I get a finalized version in place. Could we update the OIC to reflect this as I know it may take some time.

Let us know.

Thank you,

Salman

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the Ontario Financing Authority ("OFA") in an amount of up to $2.0 billion. Under the proposed OIC, repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by [December 31, 2047].

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- Existing OICs authorize the Minister of Finance to provide loans to the OFA under which the OFA has provided loans and credit facilities to colleges, school boards and other public agencies such as Infrastructure Ontario, IESO, Ontario Lottery and Gaming Corporation and Liquor Control Board of Ontario.

- This proposed OIC is required to increase the overall Minister of Finance lending authority to the OFA to allow the OFA to provide loans under credit facilities requested by the Independent Electricity System Operator ("IESO").
    - This will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017*, under anticipated and potential timing differences in the implementation of the Fair Hydro Plan.
    - The timing of this OIC is critical to ensure borrowing authority for the OFA is available to provide the IESO its requested financing arrangements upon the enactment of the *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide additional loans to

the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the on-going *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA would be directed to provide a credit facility to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. Global Adjustment amounts initially collected will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The *Ontario Fair Hydro Plan Act, 2017* allows the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell that asset.
    - It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
    - The cash received will be used by the IESO to fund the current Global Adjustment shortfall.

- There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017. Even once the SPV is set up to borrow, there may be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

- As a result, IESO requires short-term financing to be in place for initial and potential monthly timing differences, or in the event that the OPG SPV, at any

time, does not purchase a portion of the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of up to $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

- It is proposed that the OIC authorization be for $2.0 billion, which would be in addition to existing authority for the Minister of Finance to provide loans to the OFA, to ensure that there is sufficient borrowing authority in place for the OFA to meet the IESO requirements.

- If approved, the Minister of Finance will subsequently provide a Directive to the OFA to direct it to provide credit facilities to the IESO in an amount not to exceed $2.5 billion.
    - The OFA currently provides a credit facility to the IESO of $975 million.
    - The IESO has requested that the existing credit facility be reduced to $475 million, and a new credit facility be provided of $2.0 billion, for a total amount of $2.475 million.

s. 3 Direction and Urgency

- The Province passed legislation on May 31, 2017 to implement the *Ontario Fair Hydro Plan Act, 2017,* which will reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in supporting implementation of the *Ontario Fair Hydro Plan Act, 2017*.
- Ministry of Energy proposed regulations under the *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be submitted for approval concurrently as it supports a crucial component of the successfully implementation of the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend an additional amount of $2.0 billion to the OFA. Subject to the terms and conditions of a Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and, therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister will be required that will provide direction to the OFA on how it can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan. Upon approval, the Minister of Finance will have authorization to provide a loan to the OFA with a directive on how the loan can be used.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017*. The related Cabinet note for the initiative should be referred to.

Hi Patrick
Apologies, regarding the French translation. 1) I had updated using my high school French and 2) in the translation I had missed updating the change in date from June to December 31, 2017. I have revised in attached "4 – CIPA s.22…" , but of course, this should be reviewed.
Thanks
Bruno

Hi Patrick,

As the OIC package was going through our OFA approvals, we have now been directed that the OIC amount should be $2.0 billion, with an expiry date of June 30, 2047, to line up with the IESO request and the term of the FHP.

I'll recirculate the updated LRC package once I get a finalized version in place. Could we update the OIC to reflect this as I know it may take some time.

Let us know.

Thank you,

Salman

1. Approval of Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act, 1993 ("CIPA"),* authorizing the Minister of Finance to make a loan to the Ontario Financing Authority ("OFA").

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the Ontario Financing Authority ("OFA") in an amount of up to $2.0 billion. Under the proposed OIC, repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by [December 31, 2047].

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- Existing OICs authorize the Minister of Finance to provide loans to the OFA under which the OFA has provided loans and credit facilities to colleges, school boards and other public agencies such as Infrastructure Ontario, IESO, Ontario Lottery and Gaming Corporation and Liquor Control Board of Ontario.

- This proposed OIC is required to increase the overall Minister of Finance lending authority to the OFA to allow the OFA to provide loans under credit facilities requested by the Independent Electricity System Operator ("IESO").
    - This will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017*, under anticipated and potential timing differences in the implementation of the Fair Hydro Plan.
    - The timing of this OIC is critical to ensure borrowing authority for the OFA is available to provide the IESO its requested financing arrangements upon the enactment of the *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide additional loans to

the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the on-going *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA would be directed to provide a credit facility to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. Global Adjustment amounts initially collected will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The *Ontario Fair Hydro Plan Act, 2017* allows the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell that asset.
    - It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
    - The cash received will be used by the IESO to fund the current Global Adjustment shortfall.

- There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017. Even once the SPV is set up to borrow, there may be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

- As a result, IESO requires short-term financing to be in place for initial and potential monthly timing differences, or in the event that the OPG SPV, at any

time, does not purchase a portion of the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of up to $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

- It is proposed that the OIC authorization be for $2.0 billion, which would be in addition to existing authority for the Minister of Finance to provide loans to the OFA, to ensure that there is sufficient borrowing authority in place for the OFA to meet the IESO requirements.

- If approved, the Minister of Finance will subsequently provide a Directive to the OFA to direct it to provide credit facilities to the IESO in an amount not to exceed $2.5 billion.
    - The OFA currently provides a credit facility to the IESO of $975 million.
    - The IESO has requested that the existing credit facility be reduced to $475 million, and a new credit facility be provided of $2.0 billion, for a total amount of $2.475 million.

s. 3 Direction and Urgency

- The Province passed legislation on May 31, 2017 to implement the *Ontario Fair Hydro Plan Act, 2017,* which will reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in supporting implementation of the *Ontario Fair Hydro Plan Act, 2017*.
- Ministry of Energy proposed regulations under the *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be submitted for approval concurrently as it supports a crucial component of the successfully implementation of the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend an additional amount of $2.0 billion to the OFA. Subject to the terms and conditions of a Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and, therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister will be required that will provide direction to the OFA on how it can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan. Upon approval, the Minister of Finance will have authorization to provide a loan to the OFA with a directive on how the loan can be used.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017*. The related Cabinet note for the initiative should be referred to.

MEMORANDUM TO: Scott Thompson
Deputy Minister of Finance

FROM: Gadi Mayman
Chief Executive Officer

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for the Minister's review and consideration is a submission for an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's proposed *Ontario Fair Hydro Plan Act, 2017*, subject to the approval of the Legislature.

IESO has requested that the OFA provide a revolving credit facility of up to $2 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

Under the proposed *Ontario Fair Hydro Plan Act, 2017,* the IESO would incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. Global Adjustment amounts initially collected will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers. The proposed *Ontario Fair Hydro Plan Act, 2017* allows the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell that asset. It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV"), an OPG special purpose vehicle or trust). The cash received would be used by the IESO to fund the current Global Adjustment shortfall.

../2

There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017. Even once the SPV is set up to borrow, there may be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the proposed legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

As a result, IESO requires short-term financing to be in place for initial and potential monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

The OFA obtains the funding it needs to carry out its lending programs by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to an additional Canadian $2.0 billion to the OFA. In addition, in order for the OFA to provide the IESO its requested credit facility, a direction from the Minister of Finance to the OFA under CIPA will also be required.

Attached for your signature is a memorandum from you to the Minister requesting that the Minister recommend the OIC. This OIC is on track to be considered at LRC on June 27, 2017 together with proposed Ministry of Energy submission for regulations related to the proposed *Ontario Fair Hydro Plan Act, 2017.*

Staff are available to address any questions you may have regarding this matter.

It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV"), an OPG special purpose vehicle or trust). The cash received would be used by the IESO to fund the current Global Adjustment shortfall.

../2

There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017. Even once the SPV is set up to borrow, there may be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the proposed legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

As a result, IESO requires short-term financing to be in place for initial and potential monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset

The OFA obtains the funding it needs to carry out its lending programs by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to an additional Canadian $2.0 billion to the OFA. In addition, in order for the OFA to provide the IESO its requested credit facility, a direction from the Minister of Finance to the OFA under CIPA will also be required.

Staff of the Ontario Financing Authority are available to address any questions you may have regarding this matter.

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Two Billion Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by [December 31, 2047];

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

Hi Patrick,

As the OIC package was going through our OFA approvals, we have now been directed that the OIC amount should be $2.0 billion, with an expiry date of June 30, 2047, to line up with the IESO request and the term of the FHP.

I'll recirculate the updated LRC package once I get a finalized version in place. Could we update the OIC to reflect this as I know it may take some time.

Let us know.

Thank you,

Salman

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the Ontario Financing Authority ("OFA") in an amount of up to $2.0 billion. Under the proposed OIC, repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by [December 31, 2047].

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- Existing OICs authorize the Minister of Finance to provide loans to the OFA under which the OFA has provided loans and credit facilities to colleges, school boards and other public agencies such as Infrastructure Ontario, IESO, Ontario Lottery and Gaming Corporation and Liquor Control Board of Ontario.

- This proposed OIC is required to expand the overall Minister of Finance lending authority to the OFA to allow the OFA to provide loans under credit facilities requested by the Independent Electricity System Operator ("IESO").
    - This will help the IESO to fulfil the commitments under the proposed Fair Hydro Act, 2017, under anticipated and potential timing differences in the implementation of the proposed Fair Hydro Plan.
    - The timing of this OIC is critical to ensure borrowing authority for the OFA is available to provide the IESO its requested financing arrangements upon the enactment of the proposed *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide additional loans to

the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the proposed *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation of the proposed arrangements, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the on-going *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA would be directed to provide a credit facility to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the proposed *Ontario Fair Hydro Plan Act, 2017,* the IESO would incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. Global Adjustment amounts initially collected will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The proposed *Ontario Fair Hydro Plan Act, 2017* allows the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell that asset.
    - It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
    - The cash received would be used by the IESO to fund the current Global Adjustment shortfall.

- However, there is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017. Even once the SPV is set up to borrow, there may be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the proposed legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

- As a result, IESO requires short-term financing to be in place for initial and potential monthly timing differences, or in the event that the OPG SPV, at any

time, does not purchase a portion of the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of up to $2 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.
  It is proposed that the OIC authorization be for $2.0 billion, which would be in addition to existing authority for the Minister of Finance to provide loans to the OFA, to ensure that there is sufficient borrowing authority in place for the OFA to meet the IESO requirements.

- If approved, the Minister of Finance will subsequently provide a Directive to the OFA to direct it to provide credit facilities to the IESO in an amount not to exceed $2.5 billion.
  - The OFA currently provides a credit facility to the IESO of $975 million.
  - The IESO has requested that the existing credit facility be reduced to $475 million, and a new credit facility be provided of $2 billion, for a total amount of $2.475 million.

s. 3 Direction and Urgency

- As announced on March 2, 2017, and highlighted as a commitment in Budget 2017, the Province intends to implement the *Ontario Fair Hydro Plan Act, 2017,* which would reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in supporting implementation of the proposed *Ontario Fair Hydro Plan Act, 2017*.
- Ministry of Energy proposed regulations under the proposed *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be submitted for approval concurrently as it supports a crucial component of the successfully implementation of the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend an additional amount of $2 billion to the OFA. Subject to the terms and conditions of a Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and, therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister will be required that will provide direction to the OFA on how it can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed Fair Hydro Plan. The related Cabinet note for the initiative should be referred to.

MEMORANDUM TO: Scott Thompson
Deputy Minister of Finance

FROM: Gadi Mayman
Chief Executive Officer

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for the Minister's review and consideration is a submission for an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's proposed *Ontario Fair Hydro Plan Act, 2017*, subject to the approval of the Legislature.

IESO has requested that the OFA provide a revolving credit facility of up to $2 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

Under the proposed *Ontario Fair Hydro Plan Act, 2017,* the IESO would incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. Global Adjustment amounts initially collected will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers. The proposed *Ontario Fair Hydro Plan Act, 2017* allows the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell that asset. It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV"), an OPG special purpose vehicle or trust). The cash received would be used by the IESO to fund the current Global Adjustment shortfall.

../2

There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017. Even once the SPV is set up to borrow, there may be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the proposed legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

As a result, IESO requires short-term financing to be in place for initial and potential monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

The OFA obtains the funding it needs to carry out its lending programs by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to an additional Canadian $2.0 billion to the OFA. In addition, in order for the OFA to provide the IESO its requested credit facility, a direction from the Minister of Finance to the OFA under CIPA will also be required.

Attached for your signature is a memorandum from you to the Minister requesting that the Minister recommend the OIC. This OIC is on track to be considered at LRC on June 27, 2017 together with proposed Ministry of Energy submission for regulations related to the proposed *Ontario Fair Hydro Plan Act, 2017.*

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Two Billion Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by [December 31, 2047];

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

d) l'intérêt payable relativement à toute période de moins d'un an sera calculé en fonction du nombre de jours réellement compris dans cette période, par rapport à une année comptant 365 jours;

e) par dérogation à l'alinéa a) ci-dessus, l'intérêt sur toute partie d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers est calculé comme il est indiqué ci-dessus, mais cet intérêt devient payable uniquement dans la mesure où l'OOF reçoit un paiement d'intérêts au titre du prêt à un tiers;

f) par dérogation à l'alinéa b) ci-dessus, toute partie du capital d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers devient payable uniquement dans la mesure où l'OOF reçoit un remboursement du capital au titre du prêt à un tiers

Salman,
I agree. Let me give you a call in a few minutes. For the OIC, one independent box I think you should just check with OFA Legal is in relation to the by-law referenced in the recital for the OIC:
AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may **only be exercised under the authority of a by-law that has been approved by the Minister of Finance**;
I think it's worth checking with Sarah Neville that we do have an existing by-law which covers this new OIC. If not, this will need to be drafted ASAP. The board meets in mid June as far as I understand.

Its just an illusion.
Speaking of which, I am now starting on the directive package. We should probably start with drafting the credit agreement as well… maybe we can discuss when you have a moment. I'd like to get OFA legal engaged for the directive and agreement. It may help to still engage MOF legal for the agreement itself as they are likely more aware of the intricacies of FHP etc. Thoughts?
I will be out of the office tomorrow and Thursday (have a course) – maybe we can chat Friday if you're around?
Thanks again,
Salman

MOF legal has signed off already ☺. We're expecting to get the package back from them. Ron is already reviewing the electronic version of the package, so ADMO will coordinate with Gadi's office. Our usual process is that MOF legal signs first before going to Ron/Gadi – or at least ensure MOF legal is satisfied with package. So we followed the same process this time around for this.
Thanks again for all your help so far. Time crunch but it should get done, fingers crossed.

No worries. You'll need definitely need Ron and Gadi to sign before it is delivered to Patrick today, so if you haven't had the chance to touch base with Anna Strathy for Gadi to sign, I suggest calling her to give the head's up as soon as you can. Gadi is often in and out and you'll definitely want to pin him down.

Hi Salman,

One quick suggestion, if you haven't done so already. Consider scanning the entire package including the signed off blue sheet prior to sending it to Legal, and the memo signed by Gadi. It's helpful to have on hand when there are questions, and good to have on record.

Thanks,

Salman and Patrick,

I just realized, as a matter of prudence, the rates in sections (c)(i) and (c)(ii) of the OIC should be

checked with the trading floor (Linda or Mike). I know they are essentially the same as the existing 1997 and 1999 OFA OICs. I don't expect any difference, but in particular, I just want to ensure the 90 day t-bill rate under (c)(i) is still the appropriate. Frankly, I'm not familiar with a practical circumstance (c)(i) would apply to. I know time is tight, so I've already e-mailed Linda and will let you know.

Thanks for all your comments. I've incorporated all the changes. I do want to note that the Act is called Ontario Fair Hydro Plan Act, 2017, so I've made those updates to the note.
We have not received Energy's Cabinet note but will continue to see if they can provide. Our understanding is that it is the regulations that are tracking but will double check again.
I will aim to get the package to MOF legal later today, if not, by first thing tomorrow morning.
See attached latest version.

Hi All,

As you may be aware The Fair Hydro Act was passed today. As a result we updated language in the materials. E.g., ~~*proposed*~~ *Ontario Fair Hydro Act, 2017.* No content changes. I think these updates affected the first three attached documents but not the 4th , i.e., the OIC.

Thanks

Hi Patrick

Apologies, regarding the French translation. 1) I had updated using my high school French and 2) in the translation I had missed updating the change in date from June to December 31, 2017. I have revised in attached "4 – CIPA s.22…" , but of course, this should be reviewed.

Thanks

Hi Patrick,

As the OIC package was going through our OFA approvals, we have now been directed that the OIC amount should be $2.0 billion, with an expiry date of June 30, 2047, to line up with the IESO request and the term of the FHP.

I'll recirculate the updated LRC package once I get a finalized version in place. Could we update the OIC to reflect this as I know it may take some time.

Let us know.

Thank you,

Salman

Salman,
I agree. Let me give you a call in a few minutes. For the OIC, one independent box I think you should just check with OFA Legal is in relation to the by-law referenced in the recital for the OIC:
AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may **only be exercised under the authority of a by-law that has been approved by the Minister of Finance**;
I think it's worth checking with Sarah Neville that we do have an existing by-law which covers this new OIC. If not, this will need to be drafted ASAP. The board meets in mid June as far as I understand.

Its just an illusion.
Speaking of which, I am now starting on the directive package. We should probably start with drafting the credit agreement as well… maybe we can discuss when you have a moment. I'd like to get OFA legal engaged for the directive and agreement. It may help to still engage MOF legal for the agreement itself as they are likely more aware of the intricacies of FHP etc. Thoughts?
I will be out of the office tomorrow and Thursday (have a course) – maybe we can chat Friday if you're around?
Thanks again,

MOF legal has signed off already ☺. We're expecting to get the package back from them. Ron is already reviewing the electronic version of the package, so ADMO will coordinate with Gadi's office. Our usual process is that MOF legal signs first before going to Ron/Gadi – or at least ensure MOF legal is satisfied with package. So we followed the same process this time around for this.

Its just an illusion.
Speaking of which, I am now starting on the directive package. We should probably start with drafting the credit agreement as well… maybe we can discuss when you have a moment. I'd like to get OFA legal engaged for the directive and agreement. It may help to still engage MOF legal for the agreement itself as they are likely more aware of the intricacies of FHP etc. Thoughts?
I will be out of the office tomorrow and Thursday (have a course) – maybe we can chat Friday if you're around?
Thanks again,
Salman

MOF legal has signed off already ☺. We're expecting to get the package back from them. Ron is already reviewing the electronic version of the package, so ADMO will coordinate with Gadi's office. Our usual process is that MOF legal signs first before going to Ron/Gadi – or at least ensure MOF legal is satisfied with package. So we followed the same process this time around for this.
Thanks again for all your help so far. Time crunch but it should get done, fingers crossed.

No worries. You'll need definitely need Ron and Gadi to sign before it is delivered to Patrick today, so if you haven't had the chance to touch base with Anna Strathy for Gadi to sign, I suggest calling her to give the head's up as soon as you can. Gadi is often in and out and you'll definitely want to pin him down.

Hi Salman,

One quick suggestion, if you haven't done so already. Consider scanning the entire package including the signed off blue sheet prior to sending it to Legal, and the memo signed by Gadi. It's helpful to have on hand when there are questions, and good to have on record.

Thanks,

Salman and Patrick,

I just realized, as a matter of prudence, the rates in sections (c)(i) and (c)(ii) of the OIC should be checked with the trading floor (Linda or Mike). I know they are essentially the same as the existing 1997 and 1999 OFA OICs. I don't expect any difference, but in particular, I just want to ensure the 90 day t-bill rate under (c)(i) is still the appropriate. Frankly, I'm not familiar with a practical circumstance (c)(i) would apply to. I know time is tight, so I've already e-mailed Linda and will let you know.

We have not received Energy's Cabinet note but will continue to see if they can provide. Our understanding is that it is the regulations that are tracking but will double check again.
I will aim to get the package to MOF legal later today, if not, by first thing tomorrow morning.

Thanks Sarah.
C(ii) would apply to this situation and the rate is determined by the Minister of Finance – hopefully its not an issue.
Attached is the latest package. I'm told I have to get it over to MOF legal for sign off before Ron/Gadi sign off today.
Patrick – I can have a co-op student drop it off in the next hour if you're around (or leave it at reception) (as soon as we hear back from Sarah re: below) – would you be able to get sign off by early afternoon?
Thanks,
Salman

Salman and Patrick,
I just realized, as a matter of prudence, the rates in sections (c)(i) and (c)(ii) of the OIC should be checked with the trading floor (Linda or Mike). I know they are essentially the same as the existing 1997 and 1999 OFA OICs. I don't expect any difference, but in particular, I just want to ensure the 90 day t-bill rate under (c)(i) is still the appropriate. Frankly, I'm not familiar with a practical circumstance (c)(i) would apply to. I know time is tight, so I've already e-mailed Linda and will let you know.

Hi Patrick/Sarah,
Thanks for all your comments. I've incorporated all the changes. I do want to note that the Act is called Ontario Fair Hydro Plan Act, 2017, so I've made those updates to the note.
We have not received Energy's Cabinet note but will continue to see if they can provide. Our understanding is that it is the regulations that are tracking but will double check again.
I will aim to get the package to MOF legal later today, if not, by first thing tomorrow morning.
See attached latest version.

MOF legal has signed off already ☺. We're expecting to get the package back from them. Ron is already reviewing the electronic version of the package, so ADMO will coordinate with Gadi's office. Our usual process is that MOF legal signs first before going to Ron/Gadi – or at least ensure MOF legal is satisfied with package. So we followed the same process this time around for this.
Thanks again for all your help so far. Time crunch but it should get done, fingers crossed.

No worries. Sarah: Please let me know if anything comes back from Linda – I don't think there will be an issue but hoping if there is any, its flagged.

Salman and Patrick,

I just realized, as a matter of prudence, the rates in sections (c)(i) and (c)(ii) of the OIC should be

checked with the trading floor (Linda or Mike). I know they are essentially the same as the existing 1997 and 1999 OFA OICs. I don't expect any difference, but in particular, I just want to ensure the 90 day t-bill rate under (c)(i) is still the appropriate. Frankly, I'm not familiar with a practical circumstance (c)(i) would apply to. I know time is tight, so I've already e-mailed Linda and will let you know.

Hi Patrick/Sarah,

Thanks for all your comments. I've incorporated all the changes. I do want to note that the Act is called Ontario Fair Hydro Plan Act, 2017, so I've made those updates to the note.

We have not received Energy's Cabinet note but will continue to see if they can provide. Our understanding is that it is the regulations that are tracking but will double check again.

I will aim to get the package to MOF legal later today, if not, by first thing tomorrow morning.

See attached latest version.

No worries. You'll need definitely need Ron and Gadi to sign before it is delivered to Patrick today, so if you haven't had the chance to touch base with Anna Strathy for Gadi to sign, I suggest calling her to give the head's up as soon as you can. Gadi is often in and out and you'll definitely want to pin him down.

One quick suggestion, if you haven't done so already. Consider scanning the entire package including the signed off blue sheet prior to sending it to Legal, and the memo signed by Gadi. It's helpful to have on hand when there are questions, and good to have on record.

Subject: FW: OIC s22 CIPA - OFA-IESO

Hi All,

As you may be aware The Fair Hydro Act was passed today. As a result we updated language in the materials. E.g., ~~*proposed*~~ *Ontario Fair Hydro Act, 2017.* No content changes. I think these updates affected the first three attached documents but not the 4th , i.e., the OIC.

Thanks

Bruno

Hi Patrick

Apologies, regarding the French translation. 1) I had updated using my high school French and 2) in the translation I had missed updating the change in date from June to December 31, 2017. I have revised in attached "4 – CIPA s.22…" , but of course, this should be reviewed.

Thanks

Hi Patrick,

As the OIC package was going through our OFA approvals, we have now been directed that the OIC amount should be $2.0 billion, with an expiry date of June 30, 2047, to line up with the IESO request and the term of the FHP.

I'll recirculate the updated LRC package once I get a finalized version in place. Could we update the OIC to reflect this as I know it may take some time.

Let us know.

Thank you,

Salman

Hi Salman,
One quick suggestion, if you haven't done so already. Consider scanning the entire package including the signed off blue sheet prior to sending it to Legal, and the memo signed by Gadi. It's helpful to have on hand when there are questions, and good to have on record.
Thanks,

Salman and Patrick,
I just realized, as a matter of prudence, the rates in sections (c)(i) and (c)(ii) of the OIC should be checked with the trading floor (Linda or Mike). I know they are essentially the same as the existing 1997 and 1999 OFA OICs. I don't expect any difference, but in particular, I just want to ensure the 90 day t-bill rate under (c)(i) is still the appropriate. Frankly, I'm not familiar with a practical circumstance (c)(i) would apply to. I know time is tight, so I've already e-mailed Linda and will let you know.

We have not received Energy's Cabinet note but will continue to see if they can provide. Our understanding is that it is the regulations that are tracking but will double check again.

I will aim to get the package to MOF legal later today, if not, by first thing tomorrow morning.

Hi Patrick/Sarah,

Thanks for all your comments. I've incorporated all the changes. I do want to note that the Act is

called Ontario Fair Hydro Plan Act, 2017, so I've made those updates to the note.
We have not received Energy's Cabinet note but will continue to see if they can provide. Our understanding is that it is the regulations that are tracking but will double check again.
I will aim to get the package to MOF legal later today, if not, by first thing tomorrow morning.
See attached latest version.

Salman and Patrick,
I just realized, as a matter of prudence, the rates in sections (c)(i) and (c)(ii) of the OIC should be checked with the trading floor (Linda or Mike). I know they are essentially the same as the existing 1997 and 1999 OFA OICs. I don't expect any difference, but in particular, I just want to ensure the 90 day t-bill rate under (c)(i) is still the appropriate. Attached is the latest package. I'm told I have to get it over to MOF legal for sign off before Ron/Gadi sign off today.

Patrick – I can have a co-op student drop it off in the next hour if you're around (or leave it at reception) (as soon as we hear back from Sarah re: below) – would you be able to get sign off by early afternoon?

Salman and Patrick,

I just realized, as a matter of prudence, the rates in sections (c)(i) and (c)(ii) of the OIC should be checked with the trading floor (Linda or Mike). I know they are essentially the same as the existing 1997 and 1999 OFA OICs. I don't expect any difference, but in particular, I just want to ensure the 90 day t-bill rate under (c)(i) is still the appropriate. Frankly, I'm not familiar with a practical circumstance (c)(i) would apply to. I know time is tight, so I've already e-mailed Linda and will let you know.

Hi Sarah,
Could I please get a copy of the package that went to the DMO/MO? I seem to only have earlier drafts. I'm assuming here that Salman passed a copy of the package to you
Thanks,
Opal.

HI Opal,
Before I left on Thursday evening, you had mentioned that you thought the OIC should be in the amount of $3 billion and not $3.5 billion. I was wondering if on Friday you had reached out to CEFD to discuss this?
The package is due tomorrow, so we would need to sort this out today.
Thanks,
Sarah

I just realized, as a matter of prudence, the rates in sections (c)(i) and (c)(ii) of the OIC should be checked with the trading floor (Linda or Mike). I know they are essentially the same as the existing 1997 and 1999 OFA OICs. I don't expect any difference, but in particular, I just want to ensure the 90 day t-bill rate under (c)(i) is still the appropriate. Frankly, I'm not familiar with a practical circumstance (c)(i) would apply to. I know time is tight, so I've already e-mailed Linda and will let you know.

I just realized, as a matter of prudence, the rates in sections (c)(i) and (c)(ii) of the OIC should be checked with the trading floor (Linda or Mike). I know they are essentially the same as the existing 1997 and 1999 OFA OICs. I don't expect any difference, but in particular, I just want to ensure the 90 day t-bill rate under (c)(i) is still the appropriate. Frankly, I'm not familiar with a practical circumstance (c)(i) would apply to. I know time is tight, so I've already e-mailed Linda and will let you know.

Hi Patrick/Sarah,
Thanks for all your comments. I've incorporated all the changes. I do want to note that the Act is called Ontario Fair Hydro Plan Act, 2017, so I've made those updates to the note.
We have not received Energy's Cabinet note but will continue to see if they can provide. Our understanding is that it is the regulations that are tracking but will double check again.
I will aim to get the package to MOF legal later today, if not, by first thing tomorrow morning.
See attached latest version.

MEMORANDUM TO: The Honourable Charles Sousa
Minister of Finance

FROM: Scott Thompson
Deputy Minister of Finance

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for your approval and signature is an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to ~~on-~~lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's proposed *Ontario Fair Hydro Plan Act, 2017.*

Under the proposed *Ontario Fair Hydro Plan Act, 2017,* the IESO would incur a funding shortfall in the early years as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. Global Adjustment amounts initially collected will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers. The proposed *Ontario Fair Hydro Plan Act, 2017* allows the IESO to sell the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset"). It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV"). The cash received would be used by the IESO to fund the current Global Adjustment shortfall. The proposed legislation, however, does not require the OPG SPV to purchase any portion of the regulatory asset. As a result, IESO requires short-term financing to be in place in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

../2

The OFA obtains the funding it needs to carry out its lending program by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to Canadian $3.5 billion to the OFA. In addition, in order for the OFA to make the loan to the IESO, a direction from the Minister of Finance under CIPA will also be required.

Staff of the Ontario Financing Authority are available to address any questions you may have regarding this matter.

Scott Thompson

Salman and Patrick,

I just realized, as a matter of prudence, the rates in sections (c)(i) and (c)(ii) of the OIC should be checked with the trading floor (Linda or Mike). I know they are essentially the same as the existing 1997 and 1999 OFA OICs. Hi Patrick/Sarah,

Thanks for all your comments. I've incorporated all the changes. I do want to note that the Act is called Ontario Fair Hydro Plan Act, 2017, so I've made those updates to the note.

We have not received Energy's Cabinet note but will continue to see if they can provide. Our understanding is that it is the regulations that are tracking but will double check again.

I will aim to get the package to MOF legal later today, if not, by first thing tomorrow morning.

See attached latest version.

MEMORANDUM TO: The Honourable Charles Sousa
Minister of Finance

FROM: Scott Thompson
Deputy Minister of Finance

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for your approval and signature is an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to ~~on-~~lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's proposed *Ontario Fair Hydro Plan Act, 2017.*

Under the proposed *Ontario Fair Hydro Plan Act, 2017,* the IESO would incur a funding shortfall in the early years as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. Global Adjustment amounts initially collected will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers. The proposed *Ontario Fair Hydro Plan Act, 2017* allows the IESO to sell the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset"). It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV"). The cash received would be used by the IESO to fund the current Global Adjustment shortfall. The proposed legislation, however, does not require the OPG SPV to purchase any portion of the regulatory asset. As a result, IESO requires short-term financing to be in place in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

../2

The OFA obtains the funding it needs to carry out its lending program by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to Canadian $3.5 billion to the OFA. In addition, in order for the OFA to make the loan to the IESO, a direction from the Minister of Finance under CIPA will also be required.

Staff of the Ontario Financing Authority are available to address any questions you may have regarding this matter.

Salman and Patrick,

I just realized, as a matter of prudence, the rates in sections (c)(i) and (c)(ii) of the OIC should be checked with the trading floor (Linda or Mike). I know they are essentially the same as the existing 1997 and 1999 OFA OICs. I don't expect any difference, but in particular, I just want to ensure the 90 day t-bill rate under (c)(i) is still the appropriate. Frankly, I'm not familiar with a practical circumstance (c)(i) would apply to. I know time is tight, so I've already e-mailed Linda and will let you know.

Hi Patrick,
As the OIC package was going through our OFA approvals, we have now been directed that the OIC amount should be $2.0 billion, with an expiry date of June 30, 2047, to line up with the IESO request and the term of the FHP.
I'll recirculate the updated LRC package once I get a finalized version in place. Could we update the

OIC to reflect this as I know it may take some time.
Let us know.
Thank you,
Salman

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the Ontario Financing Authority ("OFA") in an amount of up to $2.0 billion. Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- Existing OICs authorize the Minister of Finance to provide loans to the OFA, and in turn the OFA has provided loans and credit facilities to colleges, school boards and other public bodies such as Infrastructure Ontario, IESO, Ontario Lottery and Gaming Corporation and Liquor Control Board of Ontario.

- This proposed OIC is required to increase the authority of the Minister of Finance to lend to the OFA which will provide the OFA with the capacity to provide additional loans to the Independent Electricity System Operator ("IESO").
    - This will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017* as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.
    - The timing of this OIC is critical to ensure that borrowing authority for the OFA is available to provide the IESO its requested financing arrangements under the *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide additional loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA would be directed to provide a credit facility to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. During this period, Global Adjustment amounts collected from ratepayers will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The *Ontario Fair Hydro Plan Act, 2017* gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to a financing entity.
    - It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
    - The cash received from selling the regulatory asset will be used by the IESO to fund the current Global Adjustment shortfall.

- There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017 (planned for later in summer 2017; however, exact timing is subject to actual implementation). Even once the SPV is set up to borrow, there is expected to be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

- As a result, IESO requires short-term financing to be in place for initial and expected monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

- It is proposed that the OIC authorizes the OFA to borrow an additional $2.0 billion, which would be in addition to existing authority for the Minister of Finance to provide loans to the OFA, to ensure that there is sufficient borrowing authority in place for the OFA to meet the IESO requested requirements.

- If approved, the Minister of Finance will subsequently provide a Directive to the OFA to direct it to provide credit facilities to the IESO.
    - The OFA currently provides a credit facility to the IESO of $975 million.
    - The IESO has requested that the existing credit facility be reduced to $475 million, and a new credit facility be provided of $2.0 billion, for a total amount of $2.475 billion.

s. 3 Direction and Urgency

- The Province passed legislation on May 31, 2017 to implement the *Ontario Fair Hydro Plan Act, 2017,* which will reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in supporting implementation of the *Ontario Fair Hydro Plan Act, 2017*.
- Ministry of Energy proposed regulations under the *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be submitted for approval concurrently as it supports a crucial component of the successfully implementation of the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend an additional amount of $2.0 billion to the OFA. Subject to the terms and conditions of a

Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and, therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister may provide direction to the OFA on how it can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan. Upon approval, the Minister of Finance will have authorization to provide a loan to the OFA with a directive on how the loan can be used.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017*. The related Cabinet note for the initiative should be referred to.

MEMORANDUM TO: Scott Thompson
Deputy Minister of Finance

FROM: Gadi Mayman
Chief Executive Officer

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for the Minister's review and consideration is a submission for an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's *Ontario Fair Hydro Plan Act, 2017*, subject to the approval of the Legislature.

IESO has requested that the OFA provide a revolving credit facility of $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. During this period, Global Adjustment amounts collected from ratepayers will be insufficient to fund the IESO's contractual obligations to electricity producers and service providers. The *Ontario Fair Hydro Plan Act, 2017* gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to a financing entity. It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV"), an OPG special purpose vehicle or trust. The cash received from selling the regulatory asset would be used by the IESO to fund the current Global Adjustment shortfall.

../2

There is expected to be initial and ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017 (planned for later in summer 2017; however, exact timing is subject to actual implementation). Even once the SPV is set up to borrow, there is expected to be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the proposed legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

As a result, IESO requires short-term financing to be in place for initial and expected monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

The OFA obtains the funding it needs to carry out its lending programs by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to an additional Canadian $2.0 billion to the OFA. In addition, in order for the OFA to provide the IESO its requested credit facility, a direction from the Minister of Finance to the OFA under CIPA will also be required, which the OFA will seek following an approval of the OIC.

Attached for your signature is a memorandum from you to the Minister requesting that the Minister recommend the OIC. This OIC is on track to be considered at LRC on June 27, 2017 together with proposed Ministry of Energy submission for regulations related to the *Ontario Fair Hydro Plan Act, 2017.*

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Two Billion Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

e) par dérogation à l'alinéa a) ci-dessus, l'intérêt sur toute partie d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers est calculé comme il est indiqué ci-dessus, mais cet intérêt devient payable uniquement dans la mesure où l'OOF reçoit un paiement d'intérêts au titre du prêt à un tiers;

f) par dérogation à l'alinéa b) ci-dessus, toute partie du capital d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers devient payable uniquement dans la mesure où l'OOF reçoit un remboursement du capital au titre du prêt à un tiers

g) le prêt autorisé en vertu des présentes sera attesté par un billet à ordre.

Thanks Sarah.
C(ii) would apply to this situation and the rate is determined by the Minister of Finance – hopefully its not an issue.
Attached is the latest package. I'm told I have to get it over to MOF legal for sign off before Ron/Gadi sign off today.
Patrick – I can have a co-op student drop it off in the next hour if you're around (or leave it at reception) (as soon as we hear back from Sarah re: below) – would you be able to get sign off by early afternoon?

Salman and Patrick,
I just realized, as a matter of prudence, the rates in sections (c)(i) and (c)(ii) of the OIC should be checked with the trading floor (Linda or Mike). I know they are essentially the same as the existing 1997 and 1999 OFA OICs. I don't expect any difference, but in particular, I just want to ensure the 90 day t-bill rate under (c)(i) is still the appropriate. Frankly, I'm not familiar with a practical circumstance (c)(i) would apply to. I know time is tight, so I've already e-mailed Linda and will let you know.

Hi Patrick/Sarah,
Thanks for all your comments. I've incorporated all the changes. I do want to note that the Act is called Ontario Fair Hydro Plan Act, 2017, so I've made those updates to the note.
We have not received Energy's Cabinet note but will continue to see if they can provide. Our understanding is that it is the regulations that are tracking but will double check again.
I will aim to get the package to MOF legal later today, if not, by first thing tomorrow morning.
See attached latest version.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- This proposed OIC is required to allow the OFA to provide loans to the IESO and will help to fulfil the commitments under the proposed Fair Hydro Act, 2017. The timing of this OIC is critical to ensure borrowing authority for the OFA is available as it will be required to provide financing arrangements upon the enactment of the proposed *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the proposed *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation of the proposed arrangements, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the on-going *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA will be lending to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the proposed *Ontario Fair Hydro Plan Act, 2017,* the IESO would incur a funding shortfall in the early years as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. Global Adjustment amounts initially collected will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers. The proposed *Ontario Fair Hydro Plan Act, 2017* allows the IESO to sell the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset"). It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV"). The cash received would be used by the IESO to fund the current Global Adjustment shortfall. The proposed legislation, however, does not require the OPG SPV to purchase any portion of the regulatory asset. As a result, IESO requires short-term financing to be in place in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset. This short-term financing may also be required before the OPG SPV is operating and before it has its own financing in place to purchase the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of up to $2 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*. The $2 billion request from IESO is based on current data and assumptions which could change, therefore, it is proposed that the OIC authorization be $3.5 billion to ensure that there is sufficient contingency in place once the implementation begins.

- For the OFA to accommodate this request, the OFA requires additional borrowing authority from the Minister of Finance to ensure that it has sufficient funds to lend, hence the current request for an OIC.

- The Minister of Finance will be required to provide a Directive to the OFA to direct it to make loans to the IESO in an amount not to exceed $3.5 billion.

s. 3 **Direction and Urgency**

- As announced on March 2, 2017 and highlighted as a commitment in Budget 2017, the Province intends to implement the *Ontario Fair Hydro Plan Act, 2017* which would reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in implementing the proposed *Ontario Fair Hydro Plan Act, 2017*.

- Regulations under the proposed *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be approved concurrently as it is a crucial component of the successfully implementing the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend to the OFA. Subject to the terms and conditions of a Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister will be required that will provide direction on how the OFA can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed Fair Hydro Plan. The related Cabinet note for the initiative should be referred to.

MEMORANDUM TO: Scott Thompson

FROM: Gadi Mayman
Chief Executive Officer

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for the Minister's approval and signature is an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's proposed *Ontario Fair Hydro Plan Act, 2017*, subject to the approval of the Legislature.

Under the proposed *Ontario Fair Hydro Plan Act, 2017,* the IESO would incur a funding shortfall in the early years as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. Global Adjustment amounts initially collected will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers. The proposed *Ontario Fair Hydro Plan Act, 2017* allows the IESO to sell the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset"). It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV"). The cash received would be used by the IESO to fund the current Global Adjustment shortfall. The proposed legislation, however, does not require the OPG SPV to purchase any portion of the regulatory asset. As a result, IESO requires short-term financing to be in place in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

The OFA obtains the funding it needs to carry out its lending program by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to Canadian $3.5 billion to the OFA. In addition, in order for the OFA to make the loan to the IESO, a direction from the Minister of Finance under CIPA will also be required.

Attached for your signature is a memorandum from you to the Minister requesting that the Minister recommend the OIC. This OIC is on track to be considered on June 27, 2017 together with proposed submission related to the proposed *Ontario Fair Hydro Plan Act, 2017.*

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Three Billion Five Hundred Million Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Three Billion Five Hundred Million Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by June 30, 2053;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

PAR CONSÉQUENT :

en vertu du paragraphe 22 (1) de la Loi, le ministre des Finances est autorisé à prêter un montant maximal de trois milliards cinq cent millions de dollars en monnaie légale du Canada à l'OOF, aux conditions suivantes :

a) le prêt peut être consenti selon les montants et aux moments qui conviennent à l'OOF;

b) le remboursement des avances consenties au titre du prêt, plus les intérêts courus, peut à tout moment être effectué en totalité ou en partie, pourvu que le prêt et les intérêts courus soient entièrement remboursés au plus tard le 30 juin 2053;

e) par dérogation à l'alinéa a) ci-dessus, l'intérêt sur toute partie d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers est calculé comme il est indiqué ci-dessus, mais cet intérêt devient payable uniquement dans la mesure où l'OOF reçoit un paiement d'intérêts au titre du prêt à un tiers;

f) par dérogation à l'alinéa b) ci-dessus, toute partie du capital d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers devient payable uniquement dans la mesure où l'OOF reçoit un remboursement du capital au titre du prêt à un tiers

g) le prêt autorisé en vertu des présentes sera attesté par un billet à ordre.

Thanks Sarah.
C(ii) would apply to this situation and the rate is determined by the Minister of Finance – hopefully its not an issue.
Attached is the latest package. I'm told I have to get it over to MOF legal for sign off before Ron/Gadi sign off today.
Patrick – I can have a co-op student drop it off in the next hour if you're around (or leave it at reception) (as soon as we hear back from Sarah re: below) – would you be able to get sign off by early afternoon?
Thanks,

Salman and Patrick,
I just realized, as a matter of prudence, the rates in sections (c)(i) and (c)(ii) of the OIC should be checked with the trading floor (Linda or Mike). I know they are essentially the same as the existing 1997 and 1999 OFA OICs. I don't expect any difference, but in particular, I just want to ensure the 90 day t-bill rate under (c)(i) is still the appropriate. Frankly, I'm not familiar with a practical circumstance (c)(i) would apply to. I know time is tight, so I've already e-mailed Linda and will let you know.

Hi Patrick/Sarah,
Thanks for all your comments. I've incorporated all the changes. I do want to note that the Act is called Ontario Fair Hydro Plan Act, 2017, so I've made those updates to the note.
We have not received Energy's Cabinet note but will continue to see if they can provide. Our understanding is that it is the regulations that are tracking but will double check again.
I will aim to get the package to MOF legal later today, if not, by first thing tomorrow morning.
See attached latest version.

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the OFA in an amount of up to $3.5 billion. Under the proposed OIC, loan(s) could be advanced during the period between the effective date of the OIC and June 30, 2053.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- This proposed OIC is required to allow the OFA to provide loans to the IESO and will help to fulfil the commitments under the proposed Fair Hydro Act, 2017. The timing of this OIC is critical to ensure borrowing authority for the OFA is available as it will be required to provide financing arrangements upon the enactment of the proposed *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the proposed *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation of the proposed arrangements, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the on-going *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA will be lending to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the proposed *Ontario Fair Hydro Plan Act, 2017,* the IESO would incur a funding shortfall in the early years as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. Global Adjustment amounts initially collected will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers. The proposed *Ontario Fair Hydro Plan Act, 2017* allows the IESO to sell the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset"). It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV"). The cash received would be used by the IESO to fund the current Global Adjustment shortfall. The proposed legislation, however, does not require the OPG SPV to purchase any portion of the regulatory asset. As a result, IESO requires short-term financing to be in place in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset. This short-term financing may also be required before the OPG SPV is operating and before it has its own financing in place to purchase the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of up to $2 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*. The $2 billion request from IESO is based on current data and assumptions which could change, therefore, it is proposed that the OIC authorization be $3.5 billion to ensure that there is sufficient contingency in place once the implementation begins.

- For the OFA to accommodate this request, the OFA requires additional borrowing authority from the Minister of Finance to ensure that it has sufficient funds to lend, hence the current request for an OIC.

- The Minister of Finance will be required to provide a Directive to the OFA to direct it to make loans to the IESO in an amount not to exceed $3.5 billion.

s. 3 **Direction and Urgency**

- As announced on March 2, 2017 and highlighted as a commitment in Budget 2017, the Province intends to implement the *Ontario Fair Hydro Plan Act, 2017* which would reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in implementing the proposed *Ontario Fair Hydro Plan Act, 2017*.

- Regulations under the proposed *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be approved concurrently as it is a crucial component of the successfully implementing the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend to the OFA. Subject to the terms and conditions of a Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister will be required that will provide direction on how the OFA can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed Fair Hydro Plan. The related Cabinet note for the initiative should be referred to.

MEMORANDUM TO: Scott Thompson
Deputy Minister of Finance

FROM: Gadi Mayman
Chief Executive Officer

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for the Minister's approval and signature is an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's proposed *Ontario Fair Hydro Plan Act, 2017*, subject to the approval of the Legislature.

Under the proposed *Ontario Fair Hydro Plan Act, 2017,* the IESO would incur a funding shortfall in the early years as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. Global Adjustment amounts initially collected will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers. The proposed *Ontario Fair Hydro Plan Act, 2017* allows the IESO to sell the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset"). It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV"). The cash received would be used by the IESO to fund the current Global Adjustment shortfall. The proposed legislation, however, does not require the OPG SPV to purchase any portion of the regulatory asset. As a result, IESO requires short-term financing to be in place in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

../2

The OFA obtains the funding it needs to carry out its lending program by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to Canadian $3.5 billion to the OFA. In addition, in order for the OFA to make the loan to the IESO, a direction from the Minister of Finance under CIPA will also be required.

Attached for your signature is a memorandum from you to the Minister requesting that the Minister recommend the OIC. This OIC is on track to be considered on June 27, 2017 together with proposed submission related to the proposed *Ontario Fair Hydro Plan Act, 2017.*

Staff are available to address any questions you may have regarding this matter.

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Three Billion Five Hundred Million Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Three Billion Five Hundred Million Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by June 30, 2053;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

ATTENDU QUE l'Office ontarien de financement (l'« OOF ») est une personne morale créée en vertu du paragraphe 2 (1) de la Loi;

ATTENDU QUE, conformément au paragraphe 6 (3) de la Loi, le pouvoir qu'ont les personnes morales créées en vertu du paragraphe 2 (1) de la Loi de contracter des emprunts et d'émettre des valeurs mobilières, entre autres, ne peut être exercé qu'aux termes d'un règlement administratif approuvé par le ministre des Finances;

ATTENDU QUE l'OOF souhaite emprunter jusqu'à concurrence de trois milliards cinq cent millions de dollars en monnaie légale du Canada du ministre des Finances et qu'il a été autorisé à le faire par un règlement administratif d'emprunt approuvé conformément à la Loi;

PAR CONSÉQUENT :

en vertu du paragraphe 22 (1) de la Loi, le ministre des Finances est autorisé à prêter un montant maximal de trois milliards cinq cent millions de dollars en monnaie légale du Canada à l'OOF, aux conditions suivantes :

a) le prêt peut être consenti selon les montants et aux moments qui conviennent à l'OOF;

b) le remboursement des avances consenties au titre du prêt, plus les intérêts courus, peut à tout moment être effectué en totalité ou en partie, pourvu que le prêt et les intérêts courus soient entièrement remboursés au plus tard le 30 juin 2053;

c) chaque avance (« avance ») faite au titre du prêt autorisé par les présentes portera intérêt au taux est fixé comme suit :

(i) de la date où elle a été faite jusqu'à la date (non comprise) de son remboursement, l'avance portera intérêt à un taux annuel équivalant au rendement gagné sur des bons du Trésor de la province de l'Ontario de quatre-vingt-dix jours à la date précédant la date de l'avance fixée par la province, pourvu que ce taux d'intérêt soit rajusté le dernier jour de chaque période de quatre-vingt-dix jours (« date de rajustement ») selon le rendement gagné sur de tels bons du Trésor immédiatement avant la date de rajustement pour une période de quatre-vingt-dix jours décidée par la province, si l'avance est impayée pendant plus de quatre-vingt-dix jours;

(ii) dans l'éventualité où l'OOF se servirait de sommes comprises dans une avance pour financer des prêts à des tiers, le taux d'intérêt à payer par l'OOF à la province sur la partie de l'avance ainsi utilisée sera rajusté à la date à laquelle la partie de l'avance sera utilisée pour le financement du prêt à un tiers de façon que le taux d'intérêt annuel à payer par l'OOF sur de telles sommes soit équivalent à ce

dernier taux moins un montant que pourra fixer le ministre des Finances à l'égard d'un tel prêt ou d'une telle catégorie de prêt, jusqu'à la date (non comprise) à laquelle le prêt à un tiers sera remboursé, date à laquelle le taux d'intérêt établi au sous-alinéa (i) s'appliquera de nouveau à cette partie de l'avance;

(iii) dans l'éventualité où les sommes décrites au sous-alinéa (ii), une fois remboursées, seraient ultérieurement utilisées pour le financement de prêts à des tiers, le sous-alinéa (ii) s'appliquera de nouveau dans l'établissement du taux d'intérêt à payer à la province sur la partie de l'avance utilisée à cette fin, et ainsi de suite, jusqu'à ce que l'avance ait été remboursée intégralement à la province;

f) par dérogation à l'alinéa b) ci-dessus, toute partie du capital d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers devient payable uniquement dans la mesure où l'OOF reçoit un remboursement du capital au titre du prêt à un tiers

g) le prêt autorisé en vertu des présentes sera attesté par un billet à ordre.

Salman and Patrick,
I just realized, as a matter of prudence, the rates in sections (c)(i) and (c)(ii) of the OIC should be checked with the trading floor (Linda or Mike). I know they are essentially the same as the existing 1997 and 1999 OFA OICs. I don't expect any difference, but in particular, I just want to ensure the 90 day t-bill rate under (c)(i) is still the appropriate. Frankly, I'm not familiar with a practical circumstance (c)(i) would apply to. I know time is tight, so I've already e-mailed Linda and will let you know.

Hi Patrick/Sarah,
Thanks for all your comments. I've incorporated all the changes. I do want to note that the Act is called Ontario Fair Hydro Plan Act, 2017, so I've made those updates to the note.
We have not received Energy's Cabinet note but will continue to see if they can provide. Our understanding is that it is the regulations that are tracking but will double check again.
I will aim to get the package to MOF legal later today, if not, by first thing tomorrow morning.

EXPLANATORY NOTE

The Bill enacts a new Act and makes amendments to the *Electricity Act, 1998* and the *Ontario Energy Board Act, 1998*.

SCHEDULE 1
ONTARIO FAIR HYDRO PLAN ACT, 2017

The Schedule enacts the *Ontario Fair Hydro Plan Act, 2017*. The Act establishes a framework under which the costs and benefits associated with the "clean energy initiative" are to be allocated among present and future consumers of electricity. The "clean energy initiative" is defined in Part I as consisting of the policies of the Government of Ontario related to such matters as eliminating coal generation and fostering the growth of and investment in clean, modern and reliable energy sources and technologies.

Under Part II, the Ontario Energy Board is required to determine reduced electricity rates and to determine other adjustments to be made for certain classes of consumers in respect of specified periods of time. For example, for the class of consumers referred to as "regulated rate consumers", the electricity rates payable for the period beginning on July 1, 2017 and ending on April 30, 2018 are the rates, as determined by the Board, that would achieve a 25 per cent reduction in certain costs for a hypothetical member of the class who meets prescribed criteria. Details regarding the determinations are prescribed by regulations.

Part III requires certain electricity consumers to pay an amount in respect of the "clean energy adjustment". The clean energy adjustment is determined by the Financial Services Manager in accordance with rules set out in the Act and the regulations. (Section 18 of the Act appoints Ontario Power Generation Inc. as the Financial Services Manager.) Part III also specifies the roles and responsibilities of electricity vendors and the Independent Electricity System Operator ("IESO") with respect to the collection and remittance of amounts in respect of the clean energy adjustment.

Part IV requires the Minister of Energy to calculate a "fair allocation amount" by taking specified steps in accordance with principles and assumptions set out in the Act. For example, the Act provides that the purpose of calculating the fair allocation amount is to measure and allocate the estimated clean energy costs and estimated clean energy benefits fairly among certain consumers. Part IV also requires the Financial Services Manager to prepare a written plan entitled the "Financing Plan", which is to be used to evaluate whether potential funding obligations should be incurred. Principles and limitations regarding the preparation and implementation of the plan are provided.

Part V requires the IESO to determine the "IESO deferral" in accordance with the regulations and to establish and maintain a variance account in which it records the IESO deferral each month. A "regulatory asset" is created under section 25; the IESO has the right to recover the balance recorded in the variance account from certain consumers. The IESO is authorized to transfer a specified portion of the regulatory asset to a financing entity; this transfer results in the creation of the investment asset and the acquisition by the transferee of a corresponding "investment interest". Various rules respecting the validity and priority of a transfer of an investment asset are set out.

In Part VI, rules in respect of the "investment asset" are provided. Section 29 provides that the investment asset constitutes a current and irrevocable property right and interest, consisting collectively of various specified rights and interests of investment interest owners. Rules respecting the validity and priority of such a transfer and the granting of a security interest by an investment interest owner are included.

Part VII deals with various miscellaneous matters, including regulation-making authority of the Lieutenant Governor in Council.

The *Electricity Act, 1998* and the *Ontario Energy Board Act, 1998* are amended to address various matters relating to the enactment of the new Act. For example, the objects of the IESO and Ontario Power Generation Inc. are expanded to address powers and duties under the new Act.

SCHEDULE 2
AMENDMENTS TO THE ONTARIO ENERGY BOARD ACT, 1998

The *Ontario Energy Board Act, 1998* is amended. Among the amendments:

1. Section 79 of the Act is amended so that compensation for the rate protection provided to certain classes of rural or remote consumers may be funded out of money appropriated by the Legislature, rather than by consumers.
2. Section 79.2 of the Act, which governs the Ontario Electricity Support Program, is repealed and replaced. The program is continued, but will be funded out of money appropriated by the Legislature after the variance account maintained by the Independent Electricity System Operator, formerly established under the Plan, is exhausted, rather than by consumers. There are provisions relating to the sharing, use and disclosure of information relating to the administration of the Ontario Electricity Support Program.

3. Programs are established to aid certain distribution rate-protected residential consumers and on-reserve consumers.
4. Various amendments of a technical and administrative nature are made to support the implementation and oversight of these programs including provisions related to auditing, record-keeping, inspections and inquiries, offences and penalties.

Bill 132 **2017**

An Act to enact the Ontario Fair Hydro Plan Act, 2017 and to make amendments to the Electricity Act, 1998 and the Ontario Energy Board Act, 1998

Preamble

The Government of Ontario is committed to fostering the development of a clean, modern and reliable electricity system with a diverse supply mix. The Government is also committed to removing barriers to and promoting opportunities for renewable and clean energy projects. These commitments can only be achieved if costs are shared fairly among consumers, today and in the future.

Electricity rates have risen for two key reasons. First, decades of under-investment in the electricity system resulted in the need to invest more than $50 billion in generation, transmission and distribution assets to ensure the system is clean and reliable. Second, the decision to eliminate Ontario's use of coal and produce clean, renewable power has created additional costs.

The actions taken to achieve a clean, modern and reliable electricity system have resulted in significant costs to residential consumers. The burden of financing these system improvements and funding key programs has unfairly fallen almost entirely on the shoulders of those consumers.

The Government of Ontario is committed to ensuring that the costs of financing these investments and the associated charges to consumers are allocated fairly among present and future generations.

Recognizing that the electricity infrastructure that has been built and the policy decisions that have been made will create benefits for years to come, costs should be allocated fairly over time, so that residential consumers in the future pay their fair share for the benefits that they receive from the investments already made.

Comparison rates

(2) The comparison rates are the rates that would have been effective May 1, 2017 if they had been determined by the Board solely using the method prescribed by the regulations made under clause 79.16 (1) (b) of the *Ontario Energy Board Act, 1998*, without taking into account any forecasted impact of any other provisions of this Act.

Subsequent adjustments

11 (1) Despite clause 79.16 (1) (b) of the *Ontario Energy Board Act, 1998* and subject to subsection (2), the Lieutenant Governor in Council may prescribe the methodology to be applied by the Board after April 30, 2018 for the purpose of determining,

Regulations re true up amount

(2) The Lieutenant Governor in Council shall, in making regulations with respect to the determination of the true up amount, have regard to the following principles:

1. The true up amount should serve to ensure that the collection of the clean energy adjustment is sufficient to pay the finance amount when it is due.

Held in trust

(5) Payments received by an electricity vendor from or on behalf of specified consumers in respect of the clean energy adjustment and all proceeds of the payments shall, until remitted to the IESO for the benefit of the investment interest owners in accordance with subsection (6), be held by each electricity vendor in trust for the benefit of the investment interest owners.

FAIR ALLOCATION AMOUNT

Minister to calculate fair allocation amount

20 (1) Subject to subsections (2) and (3), before the first funding obligation is incurred the Minister shall calculate a fair allocation amount in respect of each reference period, applying such method as the Minister considers appropriate and in accordance with the following steps:

1. Determine the estimated clean energy costs and estimated clean energy benefits allocated to specified consumers in respect of the reference period.
2. Determine the estimated reduction in the amounts payable by specified consumers as a result of determinations of the Board under Part II in respect of all previous reference periods, including the estimated reduction in clean energy costs described in clause (a) of the definition of "clean energy costs" in subsection 1 (1) that would otherwise have been payable by specified consumers in the absence of this Act.
3. Determine the amount, if any, by which the determination under paragraph 1 exceeds the determination under paragraph 2.
4. Calculate the sum of the amount determined under paragraph 3 and such other amounts as may be prescribed.

Principles

(2) In calculating the fair allocation amount, the Minister shall have regard to the following principles:

1. The purpose of calculating the fair allocation amount is to measure and allocate the estimated clean energy costs and estimated clean energy benefits fairly among the specified consumers in respect of each reference period.
2. Calculations should be made having regard to the need to align each fair allocation amount with the estimated finance amount payable during the reference period.

Principles

(3) In preparing the Financing Plan, the Financial Services Manager shall have regard to the following principles:

1. Funding obligations should be incurred such that, along with any funding obligations already incurred, the estimated finance amount that would, subject to any refinancing, become due and payable during a reference period will reasonably align with the fair allocation amount determined in respect of the reference period, in each case after reducing the fair allocation amount to reflect determinations of the Board under Part II in respect of the reference period.

Limitation

Rights of investment interest owner

(3) No change made by the IESO to the balance in the variance account shall, if the previous balance was relied upon by an investment interest owner in the context of a transfer under section 26, affect the rights acquired by the investment interest owner under the transfer.

Same

(2) Without limiting subsection (1), any transfer agreement that states an intention of the parties for the IESO to dispose of a specified portion of the regulatory asset and to assign, convey or sell a corresponding investment interest shall be treated for all purposes as an absolute assignment, conveyance, disposition and sale of the IESO's right to recover the corresponding amount in the variance account and not merely as a security interest.

Deemed perfection, etc.

(3) At the time a transfer of the regulatory asset is made under section 26, the transfer shall be deemed to have been and shall be perfected, vested, valid and binding as against the transferor and all other persons who have claims of any kind against the transferor.

Transfer of investment interest

30 An investment interest owner may transfer all or a portion of an investment interest to any other investment interest owner, including by way of a transfer of a divided or an undivided interest, in accordance with the Financing Plan.

Validity of transfer

31 (1) A transfer of an investment interest under this Act is a valid and enforceable sale and absolute transfer of the investment interest and confers upon the transferee a valid property right and interest in, to and under the applicable investment interest acquired in accordance with the terms of the transfer.

Same

(2) Without limiting subsection (1), a transfer that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as an absolute transfer of an investment interest owner's right, title and interest in, to and under an investment interest, and not merely as a security interest, and upon such absolute transfer the transferor shall retain no right, title or interest in the investment interest subject to the transfer, including all rights to the investment interest arising after the transfer.

Deemed perfection, etc.

Investment interest owner may grant security interest

32 (1) An investment interest owner may grant a security interest over all or a specified portion of its right, title and interest in, to and under the investment interest to or in favour of any person to secure a funding obligation.

Validity

(2) A security interest granted under this Act shall be valid and enforceable in accordance with its terms.

Perfection and priority of security interests

(3) All provisions of the *Personal Property Security Act* shall apply to the investment asset and each investment interest on the basis that the investment asset and each investment interest is intangible personal property, except as otherwise provided for in this section, and any granting of a security interest by an investment interest owner to secure a funding obligation shall, subject to the terms of the funding obligation, give rise to a security interest in respect of which that Act applies and may be perfected by registering a financing statement under that Act on that basis.

Proceeds

(4) All proceeds of an investment interest that are subject to the security interest and that are received by the investment interest owner shall immediately be subject to the security interest and shall be perfected without any physical delivery of the proceeds, registration of any financing statement or any further act.

Perfection

(5) The security interest shall be a continuously perfected security interest and shall have priority over any other lien, created by operation of law or otherwise, that may subsequently attach to the property rights and interests in the investment interest subject to the security interest, unless the person to whom the security interest has been granted consents otherwise.

Same

(6) The person to whom the security interest has been granted shall have a perfected security interest in revenues or other proceeds that are deposited in any account of any electricity vendor, an agent of an electricity vendor or other person who may have commingled such revenues or other proceeds with other funds.

MEMORANDUM TO: The Honourable Charles Sousa
Minister of Finance

FROM: Scott Thompson
Deputy Minister of Finance

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for your approval and signature is an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to on-lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's proposed *Ontario Fair Hydro Plan Act, 2017.*

Under the mechanism in the proposed *Ontario Fair Hydro Plan Act, 2017*, the IESO would incur a funding shortfall as the IESO will not collect sufficient Global Adjustment amounts to fund the IESO's contractual obligations to electricity producers and service providers in the current period, but instead defer some of those amounts to be collected in the future. The IESO has requested a revolving credit facility to cover any such funding shortfalls if the financing entity to be established by OPG ("OPG SPV"), at any time, chooses not to purchase a portion of the regulatory asset which would consist of the right to recover the funding shortfall from specified consumers in future as set out in the proposed *Ontario Fair Hydro Plan Act, 2017.*

The OFA obtains the funding it needs to carry out its lending program by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to Canadian $3.5 billion to the OFA. In addition, in order for the OFA to make the loan to the IESO, a direction from the Minister of Finance under CIPA will also be required.

Staff of the Ontario Financing Authority are available to address any questions you may have regarding this matter.

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Three Billion Five Hundred Million Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Three Billion Five Hundred Million Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by June 30, 2053;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

ATTENDU QUE le ministre des Finances peut, en vertu du paragraphe 22 (1) de la *Loi de 1993 sur le plan d'investissement* (la « Loi »), acheter des valeurs mobilières des personnes morales créées en vertu du paragraphe 2 (1) de la Loi ou leur consentir des prêts selon les montants, aux moments et aux conditions que le lieutenant-gouverneur en conseil estime opportuns;

ATTENDU QUE l'Office ontarien de financement (l'« OOF ») est une personne morale créée en vertu du paragraphe 2 (1) de la Loi;

ATTENDU QUE, conformément au paragraphe 6 (3) de la Loi, le pouvoir qu'ont les personnes morales créées en vertu du paragraphe 2 (1) de la Loi de contracter des emprunts et d'émettre des valeurs mobilières, entre autres, ne peut être exercé qu'aux termes d'un règlement administratif approuvé par le ministre des Finances;

ATTENDU QUE l'OOF souhaite emprunter jusqu'à concurrence de trois milliards cinq cent millions de dollars en monnaie légale du Canada du ministre des Finances et qu'il a été autorisé à le faire par un règlement administratif d'emprunt approuvé conformément à la Loi;

PAR CONSÉQUENT :

en vertu du paragraphe 22 (1) de la Loi, le ministre des Finances est autorisé à prêter un montant maximal de trois milliards cinq cent millions de dollars en monnaie légale du Canada à l'OOF, aux conditions suivantes :

a) le prêt peut être consenti selon les montants et aux moments qui conviennent à l'OOF;

b) le remboursement des avances consenties au titre du prêt, plus les intérêts courus, peut à tout moment être effectué en totalité ou en partie, pourvu que le prêt et les intérêts courus soient entièrement remboursés au plus tard le 30 juin 2053;

c) chaque avance (« avance ») faite au titre du prêt autorisé par les présentes portera intérêt au taux est fixé comme suit :

(i) de la date où elle a été faite jusqu'à la date (non comprise) de son remboursement, l'avance portera intérêt à un taux annuel équivalant au rendement gagné sur des bons du Trésor de la province de l'Ontario de quatre-vingt-dix jours à la date précédant la date de l'avance fixée par la province, pourvu que ce taux d'intérêt soit rajusté le dernier jour de chaque période de quatre-vingt-dix jours (« date de rajustement ») selon le rendement gagné sur de tels bons du Trésor immédiatement avant la date de rajustement pour une période de quatre-vingt-dix jours décidée par la province, si l'avance est impayée pendant plus de quatre-vingt-dix jours;

(ii) dans l'éventualité où l'OOF se servirait de sommes comprises dans une avance pour financer des prêts à des tiers, le taux d'intérêt à payer par l'OOF à la province sur la partie de l'avance ainsi utilisée sera rajusté à la date à laquelle la partie de l'avance sera utilisée pour le financement du prêt à un tiers de façon que le taux d'intérêt annuel à payer par l'OOF sur de telles sommes soit équivalent à ce

dernier taux moins un montant que pourra fixer le ministre des Finances à l'égard d'un tel prêt ou d'une telle catégorie de prêt, jusqu'à la date (non comprise) à laquelle le prêt à un tiers sera remboursé, date à laquelle le taux d'intérêt établi au sous-alinéa (i) s'appliquera de nouveau à cette partie de l'avance;

(iii) dans l'éventualité où les sommes décrites au sous-alinéa (ii), une fois remboursées, seraient ultérieurement utilisées pour le financement de prêts à des tiers, le sous-alinéa (ii) s'appliquera de nouveau dans l'établissement du taux d'intérêt à payer à la province sur la partie de l'avance utilisée à cette fin, et ainsi de suite, jusqu'à ce que l'avance ait été remboursée intégralement à la province;

(iv) malgré les sous-alinéas (ii) et (iii), dans l'éventualité où aucun intérêt ne serait payable à l'OOF au titre d'un prêt à un tiers, aucun intérêt ne sera à payer par l'OOF sur la partie de l'avance ainsi utilisée et dans la mesure où les conditions du prêt à un tiers prévoient le report du paiement d'intérêts courus pour une période, le paiement d'intérêts au titre d'une avance ou d'une partie d'une avance sera également reporté pour une période d'égale durée;

d) l'intérêt payable relativement à toute période de moins d'un an sera calculé en fonction du nombre de jours réellement compris dans cette période, par rapport à une année comptant 365 jours;

e) par dérogation à l'alinéa a) ci-dessus, l'intérêt sur toute partie d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers est calculé comme il est indiqué ci-dessus, mais cet intérêt devient payable uniquement dans la mesure où l'OOF reçoit un paiement d'intérêts au titre du prêt à un tiers;

f) par dérogation à l'alinéa b) ci-dessus, toute partie du capital d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers devient payable uniquement dans la mesure où l'OOF reçoit un remboursement du capital au titre du prêt à un tiers

g) le prêt autorisé en vertu des présentes sera attesté par un billet à ordre.

Minister _____ Date _____

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the OFA in an amount of up to $3.5 billion. Under the proposed OIC, loan(s) could be advanced during the period between the effective date of the OIC and June 30, 2053.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- This proposed OIC is required to allow the OFA to provide loans to the IESO and will help to fulfil the commitments under the proposed Fair Hydro Act, 2017. The timing of this OIC is critical to ensure borrowing authority for the OFA is available as it will be required to provide financing arrangements upon the enactment of the proposed *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the proposed *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation of the proposed arrangements, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the on-going *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA will be lending to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- A key element of the proposed Ontario Fair Hydro Plan Act results in the IESO incurring a funding shortfall. This funding shortfall arises because the IESO will not collect enough Global Adjustment amounts to fund the IESO's contractual obligations to electricity producers and service providers in the current period, but instead defer some of those amounts to be collected in the future. The proposed *Ontario Fair Hydro Plan Act, 2017* allows the IESO to sell the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset"). It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV"). The proposed legislation does not require the OPG SPV to purchase any portion of the regulatory asset. As a result, IESO requires short-term financing in place in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset under the proposed *Ontario Fair Hydro Plan Act, 2017.* This short-term financing may also be required before the OPG SPV is operating and before it has its own financing in place to purchase the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of up to $2 billion to support its role in the *Ontario Fair Hydro Plan Act, 2017* implementation. The $2 billion request from IESO is based on current data which could change in order to maintain the *Ontario Fair Hydro Plan Act, 2017* and it is proposed that the OIC authorization be $3.5 billion to ensure there is sufficient contingency in place once the implementation begins.

- For the OFA to accommodate this request, the OFA requires additional borrowing authority from the Minister of Finance to ensure that it has sufficient funds to lend hence this request for an OIC.

- The Minister of Finance will be required to provide a Directive to the OFA to direct it to make loans to the IESO in an amount not to exceed $3.5 billion.

s. 3 **Direction and Urgency**

- As announced on March 2, 2017 and highlighted as a commitment in Budget 2017, the Province intends to implement the Fair Hydro Plan which would reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in implementing the proposed Fair Hydro Plan.

- Subject to the approval of the Legislature of the *Fair Hydro Act, 2017,* the Fair Hydro Plan is expected to track for Cabinet approval by end of June 2017. [What is tracking to Cabinet? Not the legislation because it has already been approved by Cabinet? Is it regulations? What else?] It is expected that this OIC also be approved concurrently as it is a crucial component of the successfully implementing the Fair Hydro Plan.
- A related Cabinet Minute XXXXX is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend to the OFA. Subject to the terms and conditions of a Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister will be required that will provide direction on how the OFA can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed Fair Hydro Plan. The related Cabinet note for the initiative should be referred to.

MEMORANDUM TO: Scott Thompson
Deputy Minister of Finance

FROM: Gadi Mayman
Chief Executive Officer

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for the Minister's approval and signature is an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's proposed *Ontario Fair Hydro Plan Act, 2017*, subject to the approval of the Legislature.

Under the mechanism in the proposed *Ontario Fair Hydro Plan Act, 2017*, the IESO would incur a funding shortfall as the IESO will not collect sufficient Global Adjustment amounts to fund the IESO's contractual obligations to electricity producers and service providers in the current period, but instead defer some of those amounts to be collected in the future. The IESO has requested a revolving credit facility to cover any such funding shortfalls if the financing entity to be established by OPG ("OPG SPV"), at any time, chooses not to purchase a portion of the regulatory asset which would consist of the right to recover the funding shortfall from specified consumers in future as set out in the proposed *Ontario Fair Hydro Plan Act, 2017.*

The OFA obtains the funding it needs to carry out its lending program by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to Canadian $3.5 billion to the OFA. In addition, in order for the OFA to make the loan to the IESO, a direction from the Minister of Finance under CIPA will also be required.

Attached for your signature is a memorandum from you to the Minister requesting that the Minister recommend the OIC. This OIC is on track to be considered on June 27, 2017 together with proposed submission related to the proposed *Ontario Fair Hydro Plan Act, 2017.*

Hi Patrick/Sarah,

Thanks for all your comments. I've incorporated all the changes. I do want to note that the Act is called Ontario Fair Hydro Plan Act, 2017, so I've made those updates to the note.

We have not received Energy's Cabinet note but will continue to see if they can provide. Our understanding is that it is the regulations that are tracking but will double check again.

I will aim to get the package to MOF legal later today, if not, by first thing tomorrow morning.

See attached latest version.

Bill 132

An Act to enact the Ontario Fair Hydro Plan Act, 2017 and to make amendments to the Electricity Act, 1998 and the Ontario Energy Board Act, 1998

The Hon. G. Thibeault
Minister of Energy

Government Bill

1st Reading May 11, 2017

3rd Reading

EXPLANATORY NOTE

The Bill enacts a new Act and makes amendments to the *Electricity Act, 1998* and the *Ontario Energy Board Act, 1998*.

SCHEDULE 1
ONTARIO FAIR HYDRO PLAN ACT, 2017

The Schedule enacts the *Ontario Fair Hydro Plan Act, 2017*. The Act establishes a framework under which the costs and benefits associated with the "clean energy initiative" are to be allocated among present and future consumers of electricity. The "clean energy initiative" is defined in Part I as consisting of the policies of the Government of Ontario related to such matters as eliminating coal generation and fostering the growth of and investment in clean, modern and reliable energy sources and technologies.

Under Part II, the Ontario Energy Board is required to determine reduced electricity rates and to determine other adjustments to be made for certain classes of consumers in respect of specified periods of time. For example, for the class of consumers referred to as "regulated rate consumers", the electricity rates payable for the period beginning on July 1, 2017 and ending on April 30, 2018 are the rates, as determined by the Board, that would achieve a 25 per cent reduction in certain costs for a hypothetical member of the class who meets prescribed criteria. Details regarding the determinations are prescribed by regulations.

Part III requires certain electricity consumers to pay an amount in respect of the "clean energy adjustment". The clean energy adjustment is determined by the Financial Services Manager in accordance with rules set out in the Act and the regulations. (Section 18 of the Act appoints Ontario Power Generation Inc. as the Financial Services Manager.) Part III also specifies the roles and responsibilities of electricity vendors and the Independent Electricity System Operator ("IESO") with respect to the collection and remittance of amounts in respect of the clean energy adjustment.

Part IV requires the Minister of Energy to calculate a "fair allocation amount" by taking specified steps in accordance with principles and assumptions set out in the Act. For example, the Act provides that the purpose of calculating the fair allocation amount is to measure and allocate the estimated clean energy costs and estimated clean energy benefits fairly among certain consumers. Part IV also requires the Financial Services Manager to prepare a written plan entitled the "Financing Plan", which is to be used to evaluate whether potential funding obligations should be incurred. Principles and limitations regarding the preparation and implementation of the plan are provided.

Part V requires the IESO to determine the "IESO deferral" in accordance with the regulations and to establish and maintain a variance account in which it records the IESO deferral each month. A "regulatory asset" is created under section 25; the IESO has the right to recover the balance recorded in the variance account from certain consumers. The IESO is authorized to transfer a specified portion of the regulatory asset to a financing entity; this transfer results in the creation of the investment asset and the acquisition by the transferee of a corresponding "investment interest". Various rules respecting the validity and priority of a transfer of an investment asset are set out.

In Part VI, rules in respect of the "investment asset" are provided. Section 29 provides that the investment asset constitutes a current and irrevocable property right and interest, consisting collectively of various specified rights and interests of investment interest owners. Rules respecting the validity and priority of such a transfer and the granting of a security interest by an investment interest owner are included.

Part VII deals with various miscellaneous matters, including regulation-making authority of the Lieutenant Governor in Council.

The *Electricity Act, 1998* and the *Ontario Energy Board Act, 1998* are amended to address various matters relating to the enactment of the new Act. For example, the objects of the IESO and Ontario Power Generation Inc. are expanded to address powers and duties under the new Act.

SCHEDULE 2
AMENDMENTS TO THE ONTARIO ENERGY BOARD ACT, 1998

The *Ontario Energy Board Act, 1998* is amended. Among the amendments:

1. Section 79 of the Act is amended so that compensation for the rate protection provided to certain classes of rural or remote consumers may be funded out of money appropriated by the Legislature, rather than by consumers.
2. Section 79.2 of the Act, which governs the Ontario Electricity Support Program, is repealed and replaced. The program is continued, but will be funded out of money appropriated by the Legislature after the variance account maintained by the Independent Electricity System Operator, formerly established under the Plan, is exhausted, rather than by consumers. There are provisions relating to the sharing, use and disclosure of information relating to the administration of the Ontario Electricity Support Program.

3. Programs are established to aid certain distribution rate-protected residential consumers and on-reserve consumers.
4. Various amendments of a technical and administrative nature are made to support the implementation and oversight of these programs including provisions related to auditing, record-keeping, inspections and inquiries, offences and penalties.

Bill 132 **2017**

An Act to enact the Ontario Fair Hydro Plan Act, 2017 and to make amendments to the Electricity Act, 1998 and the Ontario Energy Board Act, 1998

Preamble

The Government of Ontario is committed to fostering the development of a clean, modern and reliable electricity system with a diverse supply mix. The Government is also committed to removing barriers to and promoting opportunities for renewable and clean energy projects. These commitments can only be achieved if costs are shared fairly among consumers, today and in the future.

Electricity rates have risen for two key reasons. First, decades of under-investment in the electricity system resulted in the need to invest more than $50 billion in generation, transmission and distribution assets to ensure the system is clean and reliable. Second, the decision to eliminate Ontario's use of coal and produce clean, renewable power has created additional costs.

The actions taken to achieve a clean, modern and reliable electricity system have resulted in significant costs to residential consumers. The burden of financing these system improvements and funding key programs has unfairly fallen almost entirely on the shoulders of those consumers.

The Government of Ontario is committed to ensuring that the costs of financing these investments and the associated charges to consumers are allocated fairly among present and future generations.

Recognizing that the electricity infrastructure that has been built and the policy decisions that have been made will create benefits for years to come, costs should be allocated fairly over time, so that residential consumers in the future pay their fair share for the benefits that they receive from the investments already made.

Limitation

(4) In respect of each reference period from July 1, 2017 to April 30, 2021, no funding obligation shall be incurred that would result in amounts payable in respect of the clean energy adjustment in respect of the reference period unless,

(a) the amounts are payable in respect of a reference period in respect of which the Board has not made any determinations under Part II; or

(b) if the Board has made a determination under Part II in respect of the reference period, the funding obligations incurred would not result in amounts payable in respect of the clean energy adjustment during the reference period in an amount that exceeds the limit determined in accordance with the regulations.

Same

(2) Without limiting subsection (1), any transfer agreement that states an intention of the parties for the IESO to dispose of a specified portion of the regulatory asset and to assign, convey or sell a corresponding investment interest shall be treated for all purposes as an absolute assignment, conveyance, disposition and sale of the IESO's right to recover the corresponding amount in the variance account and not merely as a security interest.

Deemed perfection, etc.

(3) At the time a transfer of the regulatory asset is made under section 26, the transfer shall be deemed to have been and shall be perfected, vested, valid and binding as against the transferor and all other persons who have claims of any kind against the transferor.

Priority of transfer

(4) Subsection (3) applies regardless of whether the persons who have claims have received notice of the transfer and the property rights and interests acquired by the transferee shall have priority over any liens in favour of those persons.

PART VI
THE INVESTMENT ASSET

Investment asset established

28 (1) The transfer of a specified portion of the regulatory asset under section 26 creates an investment asset or, if it is not the first transfer, adds to the investment asset.

Same

(2) Upon transfer of a specified portion of the regulatory asset under section 26 to a financing entity, the investment asset resulting from the transfer is immediately vested in the financing entity, free and clear of any adverse claim.

Investment asset, irrevocable rights and interests

29 (1) The investment asset constitutes a current and irrevocable property right and interest consisting, collectively, of the following rights and interests of investment interest owners:

1. The right and interest to impose, invoice, collect, receive and recover the clean energy adjustment from specified consumers, including the right to determine the clean energy adjustment in accordance with this Act.
2. The right to receive, collect and recover the clean energy adjustment that is imposed, invoiced and recoverable under this Act, including any amounts in respect of the clean energy adjustment that are held by electricity vendors, the IESO and other prescribed parties.
3. All rights and entitlements under such accounts as may be prescribed by regulation and all amounts on deposit in such accounts.

4. The right to enforce the duties and obligations under this Act of each electricity vendor to impose, attribute, charge and invoice for the clean energy adjustment.
5. The right to enforce the duties and obligations under this Act of each electricity vendor and the IESO to collect, receive and remit amounts received by it in respect of the clean energy adjustment, including all collections and the proceeds of any enforcement action undertaken by any electricity vendor to recover payment of the clean energy adjustment.
6. All rights of any kind related to any of the other property rights or interests that comprise the investment interest, including any rights to receive funding rebates.
7. All revenue, collections, claims, payments, money and proceeds of or derived from the rights described in paragraphs 1 to 6, regardless of whether it is invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

Not affected by failure to impose etc. clean energy adjustment

(2) An investment interest is not affected by any failure to impose, attribute, invoice, accrue or collect amounts in respect of the clean energy adjustment.

No set off, etc.

(3) The investment asset shall not be set off,

(a) by a consumer, an electricity vendor, the IESO, an agent of the investment interest owners or an owner in the Province of a distribution system within the meaning of the *Electricity Act, 1998*;

(b) in connection with any default of a person mentioned in clause (a); or

(c) by any affiliate or successor of a person mentioned in clause (a).

Exercise of rights

(4) The rights of the investment interest owners to collect the clean energy adjustment and enforce their rights and interests in, to and in respect of the investment asset against a specified consumer shall be exercised in accordance with Part III of this Act.

Collective action required

(5) If one investment interest owner owns a right or interest in the investment asset that comprises less than the entire property right and interest constituted by the investment asset, the right or interest shall only be enforced by the investment interest owner collectively and in coordination with all other investment interest owners, and any agreement among that collective in furtherance of the collective action shall be valid and binding on the investment interest owners as a collective in accordance with its terms.

Transfer of investment interest

30 An investment interest owner may transfer all or a portion of an investment interest to any other investment interest owner, including by way of a transfer of a divided or an undivided interest, in accordance with the Financing Plan.

Validity of transfer

31 (1) A transfer of an investment interest under this Act is a valid and enforceable sale and absolute transfer of the investment interest and confers upon the transferee a valid property right and interest in, to and under the applicable investment interest acquired in accordance with the terms of the transfer.

Same

(2) Without limiting subsection (1), a transfer that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as an absolute transfer of an investment interest owner's right, title and interest in, to and under an investment interest, and not merely as a security interest, and upon such absolute transfer the transferor shall retain no right, title or interest in the investment interest subject to the transfer, including all rights to the investment interest arising after the transfer.

Deemed perfection, etc.

(3) At the time a transfer of an investment interest is made, the transfer shall be deemed to have been and shall be perfected as described in the *Personal Property Security Act*, vested, valid and binding as against the transferor and all other persons who have claims of any kind against the transferor.

Priority of transfer, assignment, etc.

(4) Subsection (3) applies regardless of whether the persons who have claims have received notice of the transfer, and the property rights and interests acquired by the investment interest owner shall have priority over any liens in favour of such other persons.

Investment interest owner may grant security interest

32 (1) An investment interest owner may grant a security interest over all or a specified portion of its right, title and interest in, to and under the investment interest to or in favour of any person to secure a funding obligation.

Validity

(2) A security interest granted under this Act shall be valid and enforceable in accordance with its terms.

Perfection and priority of security interests

(3) All provisions of the *Personal Property Security Act* shall apply to the investment asset and each investment interest on the basis that the investment asset and each investment interest is intangible personal property, except as otherwise provided for in this section, and any granting of a security interest by an investment interest owner to secure a funding obligation shall, subject to the terms of the funding obligation, give rise to a security interest in respect of which that Act applies and may be perfected by registering a financing statement under that Act on that basis.

Proceeds

(4) All proceeds of an investment interest that are subject to the security interest and that are received by the investment interest owner shall immediately be subject to the security interest and shall be perfected without any physical delivery of the proceeds, registration of any financing statement or any further act.

Perfection

(5) The security interest shall be a continuously perfected security interest and shall have priority over any other lien, created by operation of law or otherwise, that may subsequently attach to the property rights and interests in the investment interest subject to the security interest, unless the person to whom the security interest has been granted consents otherwise.

Same

(6) The person to whom the security interest has been granted shall have a perfected security interest in revenues or other proceeds that are deposited in any account of any electricity vendor, an agent of an electricity vendor or other person who may have commingled such revenues or other proceeds with other funds.

Notice required

(7) The secured party shall be entitled to exercise the rights of an investment interest owner only after the secured party has given notice of the enforcement of its security interest to the IESO.

Interpretation

(8) For the purposes of this section, a security interest is perfected when it is perfected as described in the *Personal Property Security Act.*

MEMORANDUM TO: The Honourable Charles Sousa
Minister of Finance

FROM: Scott Thompson
Deputy Minister of Finance

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for your approval and signature is an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to on-lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's proposed *Ontario Fair Hydro Plan Act, 2017.*

Under the mechanism in the proposed *Ontario Fair Hydro Plan Act, 2017*, the IESO would incur a funding shortfall as the IESO will not collect sufficient Global Adjustment amounts to fund the IESO's contractual obligations to electricity producers and service providers in the current period, but instead defer some of those amounts to be collected in the future. The IESO has requested a revolving credit facility to cover any such funding shortfalls if the financing entity to be established by OPG ("OPG SPV"), at any time, chooses not to purchase a portion of the regulatory asset which would consist of the right to recover the funding shortfall from specified consumers in future as set out in the proposed *Ontario Fair Hydro Plan Act, 2017.*

The OFA obtains the funding it needs to carry out its lending program by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to Canadian $3.5 billion to the OFA. In addition, in order for the OFA to make the loan to the IESO, a direction from the Minister of Finance under CIPA will also be required.

Staff of the Ontario Financing Authority are available to address any questions you may have regarding this matter.

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Three Billion Five Hundred Million Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Three Billion Five Hundred Million Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by June 30, 2053;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

Minister _____ Date _____

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the OFA in an amount of up to $3.5 billion. Under the proposed OIC, loan(s) could be advanced during the period between the effective date of the OIC and June 30, 2053.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- This proposed OIC is required to allow the OFA to provide loans to the IESO and will help to fulfil the commitments under the proposed Fair Hydro Act, 2017. The timing of this OIC is critical to ensure borrowing authority for the OFA is available as it will be required to provide financing arrangements upon the enactment of the proposed *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the proposed *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation of the proposed arrangements, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the on-going *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA will be lending to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- A key element of the proposed Ontario Fair Hydro Plan Act results in the IESO incurring a funding shortfall. This funding shortfall arises because the IESO will not collect enough Global Adjustment amounts to fund the IESO's contractual obligations to electricity producers and service providers in the current period, but instead defer some of those amounts to be collected in the future. The proposed *Ontario Fair Hydro Plan Act, 2017* allows the IESO to sell the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset"). It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV"). The proposed legislation does not require the OPG SPV to purchase any portion of the regulatory asset. As a result, IESO requires short-term financing in place in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset under the proposed *Ontario Fair Hydro Plan Act, 2017.* This short-term financing may also be required before the OPG SPV is operating and before it has its own financing in place to purchase the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of up to $2 billion to support its role in the *Ontario Fair Hydro Plan Act, 2017* implementation. The $2 billion request from IESO is based on current data which could change in order to maintain the *Ontario Fair Hydro Plan Act, 2017* and it is proposed that the OIC authorization be $3.5 billion to ensure there is sufficient contingency in place once the implementation begins.

- For the OFA to accommodate this request, the OFA requires additional borrowing authority from the Minister of Finance to ensure that it has sufficient funds to lend hence this request for an OIC.

- The Minister of Finance will be required to provide a Directive to the OFA to direct it to make loans to the IESO in an amount not to exceed $3.5 billion.

s. 3 **Direction and Urgency**

- As announced on March 2, 2017 and highlighted as a commitment in Budget 2017, the Province intends to implement the Fair Hydro Plan which would reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in implementing the proposed Fair Hydro Plan.

- Subject to the approval of the Legislature of the *Fair Hydro Act, 2017,* the Fair Hydro Plan is expected to track for Cabinet approval by end of June 2017. [What is tracking to Cabinet? Not the legislation because it has already been approved by Cabinet? Is it regulations? What else?] It is expected that this OIC also be approved concurrently as it is a crucial component of the successfully implementing the Fair Hydro Plan.
- A related Cabinet Minute XXXXX is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend to the OFA. Subject to the terms and conditions of a Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister will be required that will provide direction on how the OFA can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed Fair Hydro Plan. The related Cabinet note for the initiative should be referred to.

MEMORANDUM TO: Scott Thompson
Deputy Minister of Finance

FROM: Gadi Mayman
Chief Executive Officer

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for the Minister's approval and signature is an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's proposed *Ontario Fair Hydro Plan Act, 2017*, subject to the approval of the Legislature.

Under the mechanism in the proposed *Ontario Fair Hydro Plan Act, 2017*, the IESO would incur a funding shortfall as the IESO will not collect sufficient Global Adjustment amounts to fund the IESO's contractual obligations to electricity producers and service providers in the current period, but instead defer some of those amounts to be collected in the future. The IESO has requested a revolving credit facility to cover any such funding shortfalls if the financing entity to be established by OPG ("OPG SPV"), at any time, chooses not to purchase a portion of the regulatory asset which would consist of the right to recover the funding shortfall from specified consumers in future as set out in the proposed *Ontario Fair Hydro Plan Act, 2017.*

The OFA obtains the funding it needs to carry out its lending program by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to Canadian $3.5 billion to the OFA. In addition, in order for the OFA to make the loan to the IESO, a direction from the Minister of Finance under CIPA will also be required.

../2

Attached for your signature is a memorandum from you to the Minister requesting that the Minister recommend the OIC. This OIC is on track to be considered on June 27, 2017 together with proposed submission related to the proposed *Ontario Fair Hydro Plan Act, 2017.*

Staff are available to address any questions you may have regarding this matter.

Hi Sarah,
We have not contemplated a directive for the entire $3.5 billion. The IESO request is for $2 billion, and so it would not align if the Minister is directing a much larger amount.
The entire facility is to be used for in the case "…OPG SPV not purchase the regulatory asset". The contingency is in place in case things do not go according to plan – and if that does transpire, we may not have time for a new OIC to increase the amount. The use of the contingency would like trigger everyone to see what the next steps should while provide additional cover.
That being said, a Minister's directive is quicker to obtain than a new OIC, and so leaving some level of approval authority with the Minister was envisioned. This may change as we start to prepare a directive as well and get feedback from ADM/DMO as this OIC package gets their attention.
I hope that helps?

Regards,
Salman

Hi Salman,
I note that approval form talks about the directive being signed for $3.5b, but we had discussed that the Directive would be for $2 billion to match the credit facility.
I haven't seen the draft directive, however, it makes sense to me the directive would be for $3.5 billion, including wording to the effect that $2 billion is approved initially for the credit facility, with up to the additional $1.5 available to be approved by Minister should the OPG SPV not purchase the regulatory asset. Is something like this being contemplated?
Thanks,
Sarah

Hi All,

As you may be aware The Fair Hydro Act was passed today. As a result we updated language in the

materials. E.g., ~~*proposed*~~ *Ontario Fair Hydro Act, 2017.* No content changes. I think these updates affected the first three attached documents but not the 4th , i.e., the OIC.
Thanks

Hi Patrick
Apologies, regarding the French translation. 1) I had updated using my high school French and 2) in the translation I had missed updating the change in date from June to December 31, 2017. I have

revised in attached "4 – CIPA s.22…" , but of course, this should be reviewed.
Thanks

Hi Patrick,
As the OIC package was going through our OFA approvals, we have now been directed that the OIC amount should be $2.0 billion, with an expiry date of June 30, 2047, to line up with the IESO request and the term of the FHP.
I'll recirculate the updated LRC package once I get a finalized version in place. Could we update the

OIC to reflect this as I know it may take some time.
Let us know.
Thank you,
Salman

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the Ontario Financing Authority ("OFA") in an amount of up to $2.0 billion. Under the proposed OIC, repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- Existing OICs authorize the Minister of Finance to provide loans to the OFA, and in turn the OFA has provided loans and credit facilities to colleges, school boards and other public bodies such as Infrastructure Ontario, IESO, Ontario Lottery and Gaming Corporation and Liquor Control Board of Ontario.

- This proposed OIC is required to increase the authority of the Minister of Finance to lend to the OFA which will provide the OFA with the capacity to provide additional loans to the Independent Electricity System Operator ("IESO").
    - This will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017* as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.
    - The timing of this OIC is critical to ensure that borrowing authority for the OFA is available to provide the IESO its requested financing arrangements under the *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide additional loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA would be directed to provide a credit facility to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. During this period, Global Adjustment amounts collected from ratepayers will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The *Ontario Fair Hydro Plan Act, 2017* gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to a financing entity.
    - It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
    - The cash received from selling the regulatory asset will be used by the IESO to fund the current Global Adjustment shortfall.

- There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017 (planned for later in summer 2017; however, exact timing is subject to actual implementation). Even once the SPV is set up to borrow, there is expected to be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

- As a result, IESO requires short-term financing to be in place for initial and expected monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

- It is proposed that the OIC authorizes the OFA to borrow an additional $2.0 billion, which would be in addition to existing authority for the Minister of Finance to provide loans to the OFA, to ensure that there is sufficient borrowing authority in place for the OFA to meet the IESO requested requirements.

- If approved, the Minister of Finance will subsequently provide a Directive to the OFA to direct it to provide credit facilities to the IESO.
    - The OFA currently provides a credit facility to the IESO of $975 million.
    - The IESO has requested that the existing credit facility be reduced to $475 million, and a new credit facility be provided of $2.0 billion, for a total amount of $2.475 billion.

s. 3 Direction and Urgency

- The Province passed legislation on May 31, 2017 to implement the *Ontario Fair Hydro Plan Act, 2017,* which will reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in supporting implementation of the *Ontario Fair Hydro Plan Act, 2017*.
- Ministry of Energy proposed regulations under the *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be submitted for approval concurrently as it supports a crucial component of the successfully implementation of the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend an additional amount of $2.0 billion to the OFA. Subject to the terms and conditions of a

Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and, therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister may provide direction to the OFA on how it can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan. Upon approval, the Minister of Finance will have authorization to provide a loan to the OFA with a directive on how the loan can be used.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017*. The related Cabinet note for the initiative should be referred to.

MEMORANDUM TO: Scott Thompson
Deputy Minister of Finance

FROM: Gadi Mayman
Chief Executive Officer

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for the Minister's review and consideration is a submission for an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's *Ontario Fair Hydro Plan Act, 2017*, subject to the approval of the Legislature.

IESO has requested that the OFA provide a revolving credit facility of $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. During this period, Global Adjustment amounts collected from ratepayers will be insufficient to fund the IESO's contractual obligations to electricity producers and service providers. The *Ontario Fair Hydro Plan Act, 2017* gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to a financing entity. It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV"), an OPG special purpose vehicle or trust. The cash received from selling the regulatory asset would be used by the IESO to fund the current Global Adjustment shortfall.

../2

There is expected to be initial and ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017 (planned for later in summer 2017; however, exact timing is subject to actual implementation). Even once the SPV is set up to borrow, there is expected to be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the proposed legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

As a result, IESO requires short-term financing to be in place for initial and expected monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

The OFA obtains the funding it needs to carry out its lending programs by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to an additional Canadian $2.0 billion to the OFA. In addition, in order for the OFA to provide the IESO its requested credit facility, a direction from the Minister of Finance to the OFA under CIPA will also be required, which the OFA will seek following an approval of the OIC.

Attached for your signature is a memorandum from you to the Minister requesting that the Minister recommend the OIC. This OIC is on track to be considered at LRC on June 27, 2017 together with proposed Ministry of Energy submission for regulations related to the *Ontario Fair Hydro Plan Act, 2017.*

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Two Billion Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

(iv) malgré les sous-alinéas (ii) et (iii), dans l'éventualité où aucun intérêt ne serait payable à l'OOF au titre d'un prêt à un tiers, aucun intérêt ne sera à payer par l'OOF sur la partie de l'avance ainsi utilisée et dans la mesure où les conditions du prêt à un tiers prévoient le report du paiement d'intérêts courus pour une période, le paiement d'intérêts au titre d'une avance ou d'une partie d'une avance sera également reporté pour une période d'égale durée;

d) l'intérêt payable relativement à toute période de moins d'un an sera calculé en fonction du nombre de jours réellement compris dans cette période, par rapport à une année comptant 365 jours;

e) par dérogation à l'alinéa a) ci-dessus, l'intérêt sur toute partie d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers est calculé comme il est indiqué ci-dessus, mais cet intérêt devient payable uniquement dans la mesure où l'OOF reçoit un paiement d'intérêts au titre du prêt à un tiers;

f) par dérogation à l'alinéa b) ci-dessus, toute partie du capital d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers devient payable uniquement dans la mesure où l'OOF reçoit un remboursement du capital au titre du prêt à un tiers

Hi Opal,
The directive is for $2B initially for the credit facility. The $1.5 B is provided as a contingency post implementation if the OPG SPV opts not to purchase any portion of the regulatory asset (sine there is not legislation requiring them to do so).

Hi Sarah,
No I did not. From the materials you attached, it seems that we (OFA) don't even know the exact situations that will give rise to the loans from the credit facility. Won't be the first time we have excess borrowing authority sitting around. The Minister will be providing a directive for $3.5B when the IESO requested a credit facility for only $2B.
Has it happened before where the directive is for an amount greater than the credit facility? Or is the plan for IESO to get a $3.5B credit facility?

HI Opal,
Before I left on Thursday evening, you had mentioned that you thought the OIC should be in the amount of $3 billion and not $3.5 billion. I was wondering if on Friday you had reached out to CEFD to discuss this?
The package is due tomorrow, so we would need to sort this out today.
Thanks,

Approvals required prior to LRC

	Committee and date	Cabinet Date
Policy

Deputy Minister _____ Date _____

Minister _____ Date _____

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the OFA in an amount of up to $3.5 billion. Under the proposed OIC, loan(s) could be advanced during the period ~~This authorization will be valid~~ between the effective date of the OIC and June 30, 2053.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- This proposed OIC is required to allow the OFA to provide loans to the IESO and will help to fulfil the commitments under the proposed Fair Hydro Act, 2017. The timing of this OIC is critical to ensure borrowing authority for the OFA is available as it will be required to provide financing arrangements upon the enactment of the proposed *Fair Hydro ~~Plan~~ Act, 2017*. [NTD: This is the name of the proposed Act – do we sometimes want to refer to the Fair Hydro Plan versus the Act?]

s. 2 Approach and Intended Outcomes

- Under CIPA, ~~T~~the OFA provides financing to public bodies ~~government entities~~ as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. ~~For the OFA to on-lend, the OFA borrows from the Province.~~ This OIC would authorize the Minister of Finance under section 22 of CIPA to provide loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the proposed *Fair Hydro Act, 2017*.

- It is expected that as part of the implementation of the proposed arrangements, the Minister of Finance will direct ~~T~~the OFA ~~will be required~~ to provide a revolving credit facility for ~~market~~ short term financing and liquidity purposes [NTD: is it for market liquidity purposes? Isn't it to cover any

shortfall?] related to the on-going *Fair Hydro Plan Act, 2017*. In particular, the OFA will be lending to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- A key element of the proposed Fair Hydro Plan Act results in the IESO ~~to incurring a~~incurring a funding shortfall. This funding shortfall arises because the IESO will not collect enough Global Adjustment amounts to fund the IESO's contractual obligations to electricity producers and service providers in the current period, but instead defer some of those amounts to be collected in the future. The Fair Hydro Plan allows the IESO to sell the right ~~[due to the deferral of collecting Global Adjustment amounts?]…[explain more accurately]. and The IESO unilaterally will selling that right~~ to recover ~~that~~those deferred amounts ~~shortfall~~ from specified consumers in the future ~~shortfall as an~~ (the "regulatory asset"). It is anticipated that the regulatory asset will be purchased by ~~to~~ the financing entity to be established by OPG ("OPG ~~Trust~~SPV") [NTD: My understanding is that it is expected to be a trust, but it is not certain yet and no benefit to narrowing here]. The proposed legislation does not require ~~compel~~ the OPG ~~Trust~~ SPV to purchase any portion of the regulatory asset. As a result, IESO requires short-term financing in place in the event ~~if~~ that ~~for some reason~~ the OPG ~~Trust~~SPV, at any time, does ~~chooses~~ not ~~to~~ purchase a portion of the regulatory asset ~~deferred Global Adjustment amounts~~ under the proposed *Fair Hydro ~~Plan~~ Act, 2017*.~~.~~ This short-term financing may also be required before the OPG SPV is operating and before it has its own financing in place to purchase the regulatory asset.~~-~~

- IESO has ~~currently~~ requested that the OFA provide a revolving credit facility of up to $2 billion to support its role in the *Fair Hydro Act ~~Plan~~, 2017* implementation. The $2 billion request from IESO is based on current data which could change in order to maintain the *Fair Hydro ~~Plan~~ Act, 2017* and it is proposed that the OIC authorization be~~is~~ $3.5 billion ~~is~~ to ensure there is sufficient contingency in place once the implementation begins..

- For the OFA to accommodate this request, the OFA requires additional borrowing authority from the Minister of Finance to ensure that it has sufficient funds to lend~~can only on-lend funds borrowed from the Minister of Finance, which are authorized under an OIC,~~ hence this request for an OIC.

- The Minister of Finance will be required to provide a Directive to the OFA to direct it to make loans to the IESO in an amount not to exceed ~~for any loans made as a result of this OIC and will subject to the of~~ $3.5 billion. ~~set by this OIC.~~

s. 3 Direction and Urgency

Note appendices here, or ERASE, e.g.
See Appendix X, Variance Memo

- As announced on March 2, 2017 and highlighted as a commitment in Budget 2017, the Province intends to implement the Fair Hydro Plan which would reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and ~~on-~~lending capacity is instrumental in implementing the proposed Fair Hydro Plan.
- Subject to the approval of the Legislature of the *Fair Hydro Act, 2017*, t~~T~~he Fair Hydro Plan ~~Act are~~is expected to track for Cabinet approval by end of June 2017. [What is tracking to Cabinet? Not the legislation because it has already been approved by Cabinet? Is it regulations? What else?] It is expected that this OIC also be approved concurrently as it is a crucial component of the successfully implementing the Fair Hydro Plan.
- The related Cabinet Minute XXXXX is tracking for June 27, 2017 date. [can we get a copy?]

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend to the OFA. Subject to the terms and conditions of a Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's Cost of Funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister will be required that will provide direction on how the OFA can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed *Fair Hydro Act, 2017* ~~Plan~~ and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed Fair Hydro Plan. The related Cabinet note for the initiative should be referred to. [Can we get a copy of this related note?]

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act* – ~~related to the proposed *Fair Hydro Act*~~**

Attached for the Minister's approval and signature is an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would~~will~~ allow the OFA to ~~on~~ lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation ~~as required under~~ of the Province's proposed *Fair Hydro Act*, *2017*, subject to the approval of the Legislature.

Under the mechanism in the proposed *Fair Hydro Act*, *2017*, the IESO would incur a funding shortfall because the IESO will not collect enough Global Adjustment amounts to fund the IESO's contractual obligations to electricity producers and service providers in the current period, but instead defer some of those amounts to be collected in the future. ~~as a result of [the deferral of the collection of Global Adjustment amounts related to clean energy costs.].~~ ~~t~~The IESO has requested ~~requires~~ a revolving credit facility to cover any such funding shortfalls ~~clean energy costs~~ if ~~for some reason~~ the financing entity to be established by OPG –("OPG SPV~~Trust~~"), at any time, chooses not to purchase a portion of the regulatory asset which would consist of the right to recover the funding shortfall from specified consumers in future as set out in the *Fair Hydro Act, 2017.*~~, . the deferred Global Adjustment amounts, .~~

The OFA obtains the funding it needs to carry out its lending program by borrowing from the Province~~;~~. ~~For the OFA to lend to the IESO, the OFA must be able to borrow from the Minister of Finance to on-lend.~~ This proposed OIC authorizes the Minister of Finance to lend up to Canadian $3.5 billion to the OFA. In addition, in order for the OFA

to make the loan to the IESO, a direction from the Minister of Finance under CIPA will be required in future. [NTD: will this come forward in future after June 27th?]

Attached for your signature is a memorandum from you to the Minister requesting that the Minister recommend ~~approve~~ the OIC. This OIC is on track to be considered~~approved~~ on June 27, 2017 together with proposed submission related to the proposed *Fair Hydro Act*, *2017*.

MEMORANDUM TO: The Honourable Charles Sousa
Minister of Finance

FROM: Scott Thompson
Deputy Minister of Finance

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act*~~related to the proposed Fair Hydro Act~~**

Attached for your approval and signature is an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance ~~obtaining authorization~~ to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would~~will~~ allow the OFA to on-lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of~~as required under~~ the Province's proposed *Fair Hydro Act, 2017.*

Formatted: Font: Italic

Under the mechanism in the proposed *Fair Hydro Act, 2017*, the IESO would incur a funding shortfall because the IESO will not collect enough Global Adjustment amounts to fund the IESO's contractual obligations to electricity producers and service providers in the current period, but instead defer some of those amounts to be collected in the future. The IESO has requested a revolving credit facility to cover any such funding shortfalls if the financing entity to be established by OPG ("OPG SPV"), at any time, chooses not to purchase a portion of the regulatory asset which would consist of the right to recover the funding shortfall from specified consumers in future as set out in the *Fair Hydro Act, 2017*.

The OFA obtains the funding it needs to carry out its lending program by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to Canadian $3.5 billion to the OFA. In addition, in order for the OFA to make the loan to the IESO, a direction from the Minister of Finance under CIPA will be required in future.

~~Under the mechanism in the proposed *Fair Hydro Act*, the IESO requires a revolving credit facility to cover clean energy costs if for some reason the Trust, at any time, chooses not to purchase a portion of the deferred Global Adjustment amounts. For the OFA to lend to the IESO, the OFA must be able to borrow from the Minister of Finance to on-lend. This proposed OIC authorizes the Minister of Finance to lend up to Canadian $3.5 billion to the OFA.~~

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Three Billion Five Hundred Million Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Three Billion Five Hundred Million Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by June 30, 2053;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

a) le prêt peut être consenti selon les montants et aux moments qui conviennent à l'OOF;

b) le remboursement des avances consenties au titre du prêt, plus les intérêts courus, peut à tout moment être effectué en totalité ou en partie, pourvu que le prêt et les intérêts courus soient entièrement remboursés au plus tard le 30 juin 2053;

Minister _____ Date _____

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the OFA in an amount of up to $3.5 billion. Under the proposed OIC, loan(s) could be advanced during the period ~~This authorization will be valid~~ between the effective date of the OIC and June 30, 2053.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- This proposed OIC is required to allow the OFA to provide loans to the IESO and will help to fulfil the commitments under the proposed Fair Hydro Act, 2017. The timing of this OIC is critical to ensure borrowing authority for the OFA is available as it will be required to provide financing arrangements upon the enactment of the proposed *Fair Hydro ~~Plan~~ Act, 2017*. [NTD: This is the name of the proposed Act – do we sometimes want to refer to the Fair Hydro Plan versus the Act?]

s. 2 Approach and Intended Outcomes

- Under CIPA, ~~T~~the OFA provides financing to public bodies ~~government entities~~ as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. ~~For the OFA to on-lend, the OFA borrows from the Province.~~ This OIC would authorize the Minister of Finance under section 22 of CIPA to provide loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the proposed *Fair Hydro Act, 2017*.

- It is expected that as part of the implementation of the proposed arrangements, the Minister of Finance will direct ~~T~~the OFA ~~will be required~~ to provide a revolving credit facility for ~~market~~ short term financing and liquidity purposes [NTD: is it for market liquidity purposes? Isn't it to cover any

shortfall?] related to the on-going *Fair Hydro Plan Act, 2017*. In particular, the OFA will be lending to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- A key element of the proposed Fair Hydro Plan Act results in the IESO ~~to incurring a~~incurring a funding shortfall. This funding shortfall arises because the IESO will not collect enough Global Adjustment amounts to fund the IESO's contractual obligations to electricity producers and service providers in the current period, but instead defer some of those amounts to be collected in the future. The Fair Hydro Plan allows the IESO to sell the right ~~[due to the deferral of collecting Global Adjustment amounts?]…[explain more accurately]. and The IESO unilaterally will selling that right~~ to recover ~~that~~those deferred amounts ~~shortfall~~ from specified consumers in the future ~~shortfall as an~~ (the "regulatory asset"). It is anticipated that the regulatory asset will be purchased by ~~to~~ the financing entity to be established by OPG ("OPG ~~Trust~~SPV") [NTD: My understanding is that it is expected to be a trust, but it is not certain yet and no benefit to narrowing here]. The proposed legislation does not require ~~compel~~ the OPG ~~Trust~~ SPV to purchase any portion of the regulatory asset. As a result, IESO requires short-term financing in place in the event ~~if~~ that ~~for some reason~~ the OPG ~~Trust~~SPV, at any time, does ~~chooses~~ not ~~to~~ purchase a portion of the regulatory asset ~~deferred Global Adjustment amounts~~ under the proposed *Fair Hydro ~~Plan~~ Act, 2017*.~~.~~ This short-term financing may also be required before the OPG SPV is operating and before it has its own financing in place to purchase the regulatory asset.~~-~~

- IESO has ~~currently~~ requested that the OFA provide a revolving credit facility of up to $2 billion to support its role in the *Fair Hydro Act ~~Plan~~, 2017* implementation. The $2 billion request from IESO is based on current data which could change in order to maintain the *Fair Hydro ~~Plan~~ Act, 2017* and it is proposed that the OIC authorization be~~is~~ $3.5 billion ~~is~~ to ensure there is sufficient contingency in place once the implementation begins..

- For the OFA to accommodate this request, the OFA requires additional borrowing authority from the Minister of Finance to ensure that it has sufficient funds to lend~~can only on-lend funds borrowed from the Minister of Finance, which are authorized under an OIC,~~ hence this request for an OIC.

- The Minister of Finance will be required to provide a Directive to the OFA to direct it to make loans to the IESO in an amount not to exceed ~~for any loans made as a result of this OIC and will subject to the of~~ $3.5 billion. ~~set by this OIC.~~

s. 3 Direction and Urgency

Note appendices here, or ERASE, e.g.
See Appendix X, Variance Memo

- As announced on March 2, 2017 and highlighted as a commitment in Budget 2017, the Province intends to implement the Fair Hydro Plan which would reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and ~~on-~~lending capacity is instrumental in implementing the proposed Fair Hydro Plan.
- Subject to the approval of the Legislature of the *Fair Hydro Act, 2017*, t~~T~~he Fair Hydro Plan ~~Act are~~is expected to track for Cabinet approval by end of June 2017. [What is tracking to Cabinet? Not the legislation because it has already been approved by Cabinet? Is it regulations? What else?] It is expected that this OIC also be approved concurrently as it is a crucial component of the successfully implementing the Fair Hydro Plan.
- The related Cabinet Minute XXXXX is tracking for June 27, 2017 date. [can we get a copy?]

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend to the OFA. Subject to the terms and conditions of a Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's Cost of Funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister will be required that will provide direction on how the OFA can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed *Fair Hydro Act, 2017* ~~Plan~~ and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed Fair Hydro Plan. The related Cabinet note for the initiative should be referred to. [Can we get a copy of this related note?]

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

Hi Salman,
I think the DMO would need to get the ok from CO, so I would ask DMO specifically what the latest acceptable cut off would be. I doubt Monday would be a problem, though.

Hi Sarah,
Thanks for this. DMO is aware and we now have a tracking number: OICNA-13188.
Since we have a tracking number, can this wait a few days? I note that Gadi is away this week anyways (Ron is acting) and DMO is aware of this. I assume if its okay with DMO, we can wait?
Thanks,
Salman

Hi Salman and Patrick,
I was sick yesterday and did not have the opportunity to comment on the drafts. Please see my comments, attached.
Patrick – my understanding (through Dimitri working on the other OFA OIC for name changes) is that the materials for the June 27th LRC are due to be delivered to the DMO office by EOD tomorrow. Is this your understanding? Salman – if this is the case, this OIC package will need to be signed by Gadi tomorrow and delivered to Patrick tomorrow for LSB's sign-off as well (Patrick I'm assuming you would be delivering the package).
Salman, you'll also have to make sure that a) the item has been entered into EVISTA by the DMO and you have the EVISTA number and 2) that you have made them aware that the package is coming. To that point, you should also coordinate with Anna in Gadi's office to let her know that you will have package for signing by Gadi and to confirm his availability. You'll need a covering blue sign-off sheet. Let me know if you need some of the 'special blue paper' for printing.
Finally, on the LRC approval form, you can insert the following as the Policy Advisor at the DMO: DMO contact: Jonathan Tekle 416-325-8736. You should be able to touch base with Jonathan to confirm the following information for your LRC Approval Form:

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA")~~CIPA~~, which will authorize the Minister of Finance to provide ~~a~~ loan(s) to the OFA in an amount of up to $3.5 billion. This authorization will be valid between the date of ~~this approval~~the OIC is approved and ~~March 31~~June 30, 2053.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA authorized by the Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- This proposed OIC is required to fulfil the commitments under the proposed Fair Hydro Act. The timing of this OIC is critical to ensure borrowing authority for the OFA is available as it will be required to provide financing arrangements upon the enactment of the proposed Fair Hydro Plan Act.

-

s. 2 Approach and Intended Outcomes

- The OFA provides financing to government entities as directed by the Minister of Finance. For the OFA to on-lend, the OFA borrows from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to fulfil the commitments under the proposed Fair Hydro Act.

- The OFA will be required to provide a revolving credit facility for market liquidity purposes related to the on-going Fair Hydro Plan Act. In particular, the OFA will be lending to the Independent Electricity System Operator ("IESO").

- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and therefore, no fiscal impact is expected.

MEMORANDUM TO: Scott Thompson
Deputy Minister of Finance

FROM: Gadi Mayman
Chief Executive Officer

SUBJECT: **Approval of an Order in Council related to the proposed Fair Hydro Act**

Attached for the Minister's approval and signature is an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan~~(s)~~ to the Ontario Financing Authority ("OFA"). The proceeds from these loans will allow the OFA to on-lend to the Independent Electricity Systems Operator ("IESO") as required under the Province's proposed Fair Hydro Plan Act.

Under the mechanism in the proposed Fair Hydro Plan Act, the IESO requires a revolving credit facility to cover clean energy costs if for some reason the Trust, at any time, chooses not to purchase a portion of the deferred Global Adjustment amounts. For the OFA to lend to the IESO, the OFA must be able to borrow from the Minister of Finance to on-lend. This proposed OIC authorizes the Minister of Finance to lend up to Canadian $3.5 billion to the OFA.

Commented [SH1]: Not sure if this level of description is required? Is it possible to delete and to combine the 1st and 2nd paragraphs ?

Attached for your signature is a memorandum from you to the Minister requesting that the Minister approve the OIC. This OIC is on track to be approved on June 27, 2017 together with proposed submission related to the proposed Fair Hydro Plan Act.

As a result, IESO requires short-term financing in place in the event ~~if for some reason~~ the OPG Trust, at any time, chooses not to purchase a portion of the deferred Global Adjustment amounts under the proposed Fair Hydro Plan Act.

- IESO has currently requested that the OFA provide a revolving credit facility of up to $2 billion to support its role in the Fair Hydro Plan implementation. - The Minister of Finance will be required to provide a Directive to the OFA for any loans made as a result of this OIC and will subject to the of $3.5 billion set by this OIC.

- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and therefore, no fiscal impact is expected.

MEMORANDUM TO: Scott Thompson
Deputy Minister of Finance

FROM: Gadi Mayman
Chief Executive Officer

SUBJECT: **Approval of an Order in Council related to the proposed Fair Hydro Act**

Attached for the Minister's approval and signature is an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan~~(s)~~ to the Ontario Financing Authority ("OFA"). The proceeds from these loans will allow the OFA to on-lend to the Independent Electricity Systems Operator ("IESO") as required under the Province's proposed Fair Hydro Plan Act.

Under the mechanism in the proposed Fair Hydro Plan Act, the IESO requires a revolving credit facility to cover clean energy costs if for some reason the Trust, at any time, chooses not to purchase a portion of the deferred Global Adjustment amounts. For the OFA to lend to the IESO, the OFA must be able to borrow from the Minister of Finance to on-lend. This proposed OIC authorizes the Minister of Finance to lend up to Canadian $3.5 billion to the OFA.

Commented [SH1]: Not sure if this level of description is required? Is it possible to delete and to combine the 1st and 2nd paragraphs ?

Attached for your signature is a memorandum from you to the Minister requesting that the Minister approve the OIC. This OIC is on track to be approved on June 27, 2017 together with proposed submission related to the proposed Fair Hydro Plan Act.

Staff are available to address any questions you may have regarding this matter.

Apologies, regarding the French translation. 1) I had updated using my high school French and 2) in the translation I had missed updating the change in date from June to December 31, 2017. I have

revised in attached "4 – CIPA s.22…" , but of course, this should be reviewed.

Hi Patrick
Apologies, regarding the French translation. 1) I had updated using my high school French and 2) in the translation I had missed updating the change in date from June to December 31, 2017. I have revised in attached “4 – CIPA s.22…” , but of course, this should be reviewed.
Thanks
Bruno

Hi Patrick,

As the OIC package was going through our OFA approvals, we have now been directed that the OIC amount should be $2.0 billion, with an expiry date of June 30, 2047, to line up with the IESO request and the term of the FHP.

I'll recirculate the updated LRC package once I get a finalized version in place. Could we update the OIC to reflect this as I know it may take some time.

Let us know.

Thank you,

Salman

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the Ontario Financing Authority ("OFA") in an amount of up to $2.0 billion. Under the proposed OIC, repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by ~~[~~December 31, 2047~~]~~.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- Existing OICs authorize the Minister of Finance to provide loans to the OFA ~~under which~~, and in turn ~~-~~the OFA has provided loans and credit facilities to colleges, school boards and other public bodies ~~agencies~~ such as Infrastructure Ontario, IESO, Ontario Lottery and Gaming Corporation and Liquor Control Board of Ontario.

- This proposed OIC is required to increase the ~~overall~~authority of the Minister of Finance ~~lending authority~~ to lend to the OFA ~~to allow~~ which will provide the OFA with the capacity to provide loans ~~under credit facilities requested by~~to the Independent Electricity System Operator ("IESO").
    - This will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017*~~, under anticipated and potential timing differences~~ as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.
    - The timing of this OIC is critical to ensure that borrowing authority for the OFA is available to provide the IESO its requested financing arrangements under ~~upon the enactment of~~ the *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the

Minister of Finance under section 22 of CIPA to provide additional loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the ~~ on-going~~ *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA would be directed to provide a credit facility to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. At certain times Global Adjustment amounts ~~initially~~ collected from ratepayers will~~, therefore,~~ be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The *Ontario Fair Hydro Plan Act, 2017* ~~allows~~gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to finance that ~~asset~~deferral.
    - It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
    - The cash received from selling the regulatory asset will be used by the IESO to fund the current Global Adjustment shortfall.

- There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017. Even once the SPV is set up to borrow, there may be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

- As a result, IESO requires short-term financing to be in place for initial and potential monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of up to $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

- It is proposed that the OIC ~~authorization be for~~authorize the OFA to borrow an additional $2.0 billion, which would be in addition to existing authority for the Minister of Finance to provide loans to the OFA, to ensure that there is sufficient borrowing authority in place for the OFA to meet the IESO requested requirements.

- If approved, the Minister of Finance will subsequently provide a Directive to the OFA to direct it to provide credit facilities to the IESO in an amount not to exceed $2.05 ~~5~~ billion.
    - The OFA currently provides a credit facility to the IESO of $975 million.
    - The IESO has requested that the existing credit facility be reduced to $475 million, and a new credit facility be provided of $2.0 billion, for a total amount of $2.475 million.

s. 3 Direction and Urgency

- The Province passed legislation on May 31, 2017 to implement the *Ontario Fair Hydro Plan Act, 2017,* which will reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in supporting implementation of the *Ontario Fair Hydro Plan Act, 2017*.
- Ministry of Energy proposed regulations under the *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be submitted for approval concurrently as it supports a crucial component of the successfully implementation of the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend an additional amount of $2.0 billion to the OFA. Subject to the terms and conditions of a Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and, therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister ~~will be required that will~~may provide direction to the OFA on how it can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan. Upon approval, the Minister of Finance will have authorization to provide a loan to the OFA with a directive on how the loan can be used.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017*. The related Cabinet note for the initiative should be referred to.

MEMORANDUM TO: Scott Thompson
Deputy Minister of Finance

FROM: Gadi Mayman
Chief Executive Officer

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for the Minister's review and consideration is a submission for an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's *Ontario Fair Hydro Plan Act, 2017*, subject to the approval of the Legislature.

IESO has requested that the OFA provide a revolving credit facility of up to $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. At certain times, Global Adjustment amounts ~~initially~~ collected from ratepayers will ~~, therefore,~~ be insufficient to fund the IESO's contractual obligations to electricity producers and service providers. The *Ontario Fair Hydro Plan Act, 2017* gives~~allows~~ the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to finance that deferral~~that asset~~. It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV"), an OPG special purpose vehicle or trust. The cash received from selling the regulatory asset would be used by the IESO to fund the current Global Adjustment shortfall.

There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017. Even once the SPV is set up to borrow, there may be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the proposed legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

As a result, IESO requires short-term financing to be in place for initial and potential monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

The OFA obtains the funding it needs to carry out its lending programs by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to an additional Canadian $2.0 billion to the OFA. In addition, in order for the OFA to provide the IESO its requested credit facility, a direction from the Minister of Finance to the OFA under CIPA will also be required.

Attached for your signature is a memorandum from you to the Minister requesting that the Minister recommend the OIC. This OIC is on track to be considered at LRC on June 27, 2017 together with proposed Ministry of Energy submission for regulations related to the *Ontario Fair Hydro Plan Act, 2017.*

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Two Billion Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

d) l'intérêt payable relativement à toute période de moins d'un an sera calculé en fonction du nombre de jours réellement compris dans cette période, par rapport à une année comptant 365 jours;

e) par dérogation à l'alinéa a) ci-dessus, l'intérêt sur toute partie d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers est calculé comme il est indiqué ci-dessus, mais cet intérêt devient payable uniquement dans la mesure où l'OOF reçoit un paiement d'intérêts au titre du prêt à un tiers;

f) par dérogation à l'alinéa b) ci-dessus, toute partie du capital d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers devient payable uniquement dans la mesure où l'OOF reçoit un remboursement du capital au titre du prêt à un tiers

As you may be aware The Fair Hydro Act was passed today. As a result we updated language in the materials. E.g., ~~*proposed*~~ *Ontario Fair Hydro Act, 2017.* No content changes. I think these updates affected the first three attached documents but not the 4th , i.e., the OIC.

As the OIC package was going through our OFA approvals, we have now been directed that the OIC amount should be $2.0 billion, with an expiry date of June 30, 2047, to line up with the IESO request and the term of the FHP.

I'll recirculate the updated LRC package once I get a finalized version in place. Could we update the OIC to reflect this as I know it may take some time.

Let us know.

Hi Sarah and Malle,
As we have been working on the documents and OIC for the new OFA-IESO FHP credit facility, I was looking at the existing OFA OIC 675/97 (see page 10 of the attached .pdf) which underpins the existing 975M OFA-IESO credit facility as well as various other OFA loans. While there are no active IESO advances under this loan, there are other active OFA loans to third parties under this OIC. Accompanying the 675/97 (on p. 14 of the attached .pdf) is a form of prom note issued by the OFA to the Minister of Finance on any loans the OFA borrows from the Minister in relation to that OIC. I am trying to locate the executed prom note for this OIC675/97. We have looked in the Documentation safe and it is not in there.
Would you have any record of this prom note having been executed?

Hi Patrick,

I just wanted to ask you a question, please, for my own knowledge, regarding section (c)(ii) of the OIC. The OIC states:

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the "Reset Date") to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a "Third Party Loan"), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

In relation to the above highlighted section, how would the 'Minister' specify the amount to be deducted? Unlike the two existing OICS (attached) the OFA uses for lending to 3rd parties which overtly specify the rates, our draft OIC provides discretion to the Minister. I'm not aware of how/if the Minister's authority to determine the amount to be deducted has somehow been delegated to the OFA (perhaps this is a question for Sarah Neville?), or would this be included in the Minister's directive for the credit facility?

Thanks,
Sarah

Hi Linda,

As a matter of prudence, I just wanted to check with you on one aspect of the draft OIC for OFA to make loans to IESO under the proposed credit facility in relation to the Fair Hydro Plan. The OIC package will be delivered today to the DMO, but I wanted to confirm with you that the rates that under the Section (c) of the attached OIC are still appropriate (perhaps it is I should be asking Mike?, but since this is IESO related, I wanted to check with you first).

Section (c) deals with the rates the OFA pays to the Minister for any funds it borrows, and is essentially the same as the OFA's existing OIC from 1999. Section (c)(i) says if the OFA simply borrows funds from the Minister (which have not been loaned to a third party), the OFA pays the rate equal to the 90 day ONT T-Bill yield. Section(c)(ii) says that if the OFA uses the borrowed monies to fund 3rd party loans, then the rate will be equivalent to rate of interest payable to the OFA under 3rd party loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans.

Please let me know your thoughts.

DIRECTIVE
MINISTER OF FINANCE
LOAN TO ONTARIO LOTTERY AND GAMING CORPORATION

To: Ontario Financing Authority ("OFA")

WHEREAS the Ontario Lottery and Gaming Corporation ("OLG") has requested a loan from the OFA for the purpose of financing the development and implementation of its Gaming Management System ("GMS") Program;

AND WHEREAS the Minister of Finance issued a Directive to the OFA, dated December 4th, 2012, which referenced a loan to the OLG for the purpose of upgrading the GMS (the "2012 Directive");

AND WHEREAS this directive replaces the 2012 Directive for the purposes of the GMS.

THEREFORE:

Pursuant to subsection 16(2) of the *Capital Investment Plan Act, 1993*, the OFA is directed to lend to the OLG a maximum principal aggregate amount of up to C$35,200,000, plus accrued interest, available in two loan facilities (the "Loan"), on the terms set forth below, for the purpose of financing the development and implementation of the GMS Program.

- The term of the Loan shall be as follows:
  - Facility 1: Non-revolving facility during the development and implementation phase of the GMS Program.
  - Facility 2: up to 5-year term loan following project completion.

- Interest on Facility 1 shall be payable at the Province of Ontario's cost of funds, as determined by the OFA, plus a spread to recover the OFA's lending costs (the "Cost Recovery Fee") and, in addition to the Cost Recovery Fee, a spread to reflect commercial rates (the "Commercial Spread"). The rates for both the Cost Recovery Fee and the Commercial Spread shall be specified in the OFA's Lending Policy, as amended from time to time.

- Interest on Facility 2 shall be payable at the Province of Ontario's cost of funds for an amortizing bond equal to the term of the Facility 2 loan, as determined by the OFA, plus the Cost Recovery Fee and the Commercial Spread.

- The Loan shall be conditional upon approval for the Loan being given under subsection 28 (1) of the *Financial Administration Act;*

- The Loan shall be subject to such terms and conditions as are consistent with this directive and the OFA's Lending Policy, and which are approved from time to time in writing by the Chief Executive Officer of the OFA or the Assistant Deputy

Minister, Corporate and Electricity Finance Division, OFA, or by a person designated by either of them.

The terms of the Loan shall be set out in a loan agreement to be entered into between the OFA and OLG.

Pursuant to Orders in Council 675/97, 767/99, 1883/2006, 2144/2007, 300/2010 and 163/2012, all as amended, made under subsection 22(1) of the *Capital Investment Plan Act, 1993,* the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that the amount of the spread to be retained by the OFA for the Loan shall be equal to the sum of the Cost Recovery Fee and the Commercial Spread.

Hi Mike,

I originally sent this e-mail below to Linda and she thought it looked fine, but she thought I should also run it by you.

As part of putting in place the new credit facility between IESO and the OFA, a new OIC is required for the OFA to borrow from the Province, so the Province may in turn make loans to IESO. As matter of prudence, I am asking is for you to review the rates that the OFA pays to the Province in the OIC are still appropriate. The OIC package must go to the DMO today.

In short, the rates included in the OIC are effectively the same as the existing OIC underpinning the $975 million credit facility between the OFA and IESO. Specifically, section(c)(ii) of the OIC says if the

OFA uses the borrowed monies to fund 3rd party loans, then the rate will **be equivalent to rate of interest payable to the OFA under 3rd party loan less an amount as may be determined by the Minister of Finance** in respect of such Third Party Loan or a class of such Third Party Loans.
The OIC also contains a more general borrowing rate. That is, Section (c)(i) says if the OFA simply borrows funds from the Minister (which have not been loaned to a third party), the OFA pays the rate equal to **the 90 day ONT T-Bill yield.** However, for the purposes of this OIC, it is unlikely that this section would ever be used.
Again, both rates above are consistent with existing OICs.
Please let me if these rates look okay.
Thanks,
Sarah

As matter of prudence, I am asking is for you to review the rates that the OFA pays to the Province in the OIC are still appropriate. The OIC package must go to the DMO today.

In short, the rates included in the OIC are effectively the same as the existing OIC underpinning the $975 million credit facility between the OFA and IESO. Specifically, section(c)(ii) of the OIC says if the

OFA uses the borrowed monies to fund 3rd party loans, then the rate will **be equivalent to rate of interest payable to the OFA under 3rd party loan less an amount as may be determined by the Minister of Finance** in respect of such Third Party Loan or a class of such Third Party Loans.
The OIC also contains a more general borrowing rate. That is, Section (c)(i) says if the OFA simply borrows funds from the Minister (which have not been loaned to a third party), the OFA pays the rate equal to **the 90 day ONT T-Bill yield.** However, for the purposes of this OIC, it is unlikely that this section would ever be used.
Again, both rates above are consistent with existing OICs.
Please let me if these rates look okay.
Thanks,
Sarah

Hi Linda,
As a matter of prudence, I just wanted to check with you on one aspect of the draft OIC for OFA to make loans to IESO under the proposed credit facility in relation to the Fair Hydro Plan. The OIC package will be delivered today to the DMO, but I wanted to confirm with you that the rates that under the Section (c) of the attached OIC are still appropriate (perhaps it is I should be asking Mike?, but since this is IESO related, I wanted to check with you first).
Section (c) deals with the rates the OFA pays to the Minister for any funds it borrows, and is essentially the same as the OFA's existing OIC from 1999. Section (c)(i) says if the OFA simply borrows funds from the Minister (which have not been loaned to a third party), the OFA pays the rate equal to **the 90 day ONT T-Bill yield.** Section(c)(ii) says that if the OFA uses the borrowed monies to fund 3rd party loans, then the rate will **be equivalent to rate of interest payable to the OFA under 3rd party loan less an amount as may be determined by the Minister of Finance** in respect of such Third Party Loan or a class of such Third Party Loans.

Hi Anis,

I'm working from home today, as was hoping to get Mike's attention on an e-mail that I sent to him below. I just IM'd him, but see that his status is inactive. This is fairly time sensitive, as this relates to a package that must go to the DMO today.

When he gets back to his office, and if he is free, could you please let him know that I was looking to please get his attention to take a look at the e-mail. I don't think it would take long for him to attend to; I just want to ensure that a couple of rates look ok in an OIC.

Thanks,

Hi Patrick,

I just wanted to ask you a question, please, for my own knowledge, regarding section (c)(ii) of the OIC. The OIC states:

(c) each advance (an "Advance") made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the "Reset Date") to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a "Third Party Loan"), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on

which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

In relation to the above highlighted section, how would the 'Minister' specify the amount to be deducted? Unlike the two existing OICS (attached) the OFA uses for lending to 3rd parties which overtly specify the rates, our draft OIC provides discretion to the Minister. I'm not aware of how/if the Minister's authority to determine the amount to be deducted has somehow been delegated to the OFA (perhaps this is a question for Sarah Neville?), or would this be included in the Minister's directive for the credit facility?

Thanks,
Sarah

Hi Linda,

As a matter of prudence, I just wanted to check with you on one aspect of the draft OIC for OFA to make loans to IESO under the proposed credit facility in relation to the Fair Hydro Plan. The OIC package will be delivered today to the DMO, but I wanted to confirm with you that the rates that under the Section (c) of the attached OIC are still appropriate (perhaps it is I should be asking Mike?, but since this is IESO related, I wanted to check with you first).

Section (c) deals with the rates the OFA pays to the Minister for any funds it borrows, and is essentially the same as the OFA's existing OIC from 1999. Section (c)(i) says if the OFA simply borrows funds from the Minister (which have not been loaned to a third party), the OFA pays the rate equal to the 90 day ONT T-Bill yield. Section(c)(ii) says that if the OFA uses the borrowed monies to fund 3rd party loans, then the rate will be equivalent to rate of interest payable to the OFA under 3rd party loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans.

Please let me know your thoughts.

Thanks,
Sarah

Hi Mike,

The OIC is drafted using wording that is similar to the wording already being used in the existing OICs where the OFA borrows money from the Minister (i.e. underpinning college loans, existing IESO-OFA Credit Facility, etc.).

The OIC permits the OFA a couple of options:

(i) the OFA simply borrows funds from the Minister without lending to 3rd parties. In that case, the OFA would pay to the Minister at a rate equal to **the 90 day ONT T-Bill yield, reset every 90 days.** For **the purpose of this OIC (**that is, for the OFA to lend funds to IESO) **this provision would not be used**.

(ii) the OFA borrows funds from the Minister and then lends those funds to 3rd parties. In this case, the OFA would pay the Minister at the rate **equivalent to the rate of interest payable to the OFA under 3rd party loan, less an amount as may be determined by the Minister of Finance** in respect of such Third Party Loan or a class of such Third Party Loans. This would be the section applicable to for the OFA lending to IESO. In this circumstance, the OFA can charge IESO Ontario's cost plus 25bps; the OFA would then pay the Minister at this rate, less an amount as may be determined by the Minister.

So the short answer is that, under option (ii), the OFA can charge IESO's cost of plus 25 bps, and then the OFA must pay the Minister at the same rate on the funds, less an amount determined by the Minister. The fact that the Minister decides the amount to be deducted gives us flexibility in determining the spread to deduct when paying back the Province.

The only time option (i) comes into play is IF the OFA ever wants to borrow funds from the Minister without lending those funds to third parties.

Hi Mike,

I originally sent this e-mail below to Linda and she thought it looked fine, but she thought I should

also run it by you.
As part of putting in place the new credit facility between IESO and the OFA, a new OIC is required for the OFA to borrow from the Province, so the Province may in turn make loans to IESO. As matter of prudence, I am asking is for you to review the rates that the OFA pays to the Province in the OIC are still appropriate. The OIC package must go to the DMO today.
In short, the rates included in the OIC are effectively the same as the existing OIC underpinning the $975 million credit facility between the OFA and IESO. Specifically, section(c)(ii) of the OIC says if the OFA uses the borrowed monies to fund 3rd party loans, then the rate will **be equivalent to rate of interest payable to the OFA under 3rd party loan less an amount as may be determined by the Minister of Finance** in respect of such Third Party Loan or a class of such Third Party Loans.
The OIC also contains a more general borrowing rate. That is, Section (c)(i) says if the OFA simply borrows funds from the Minister (which have not been loaned to a third party), the OFA pays the rate equal to **the 90 day ONT T-Bill yield.** However, for the purposes of this OIC, it is unlikely that this section would ever be used.
Again, both rates above are consistent with existing OICs.
Please let me if these rates look okay.
Thanks,
Sarah

Subject: Re: Question - OIC for new IESO Credit Facility

Hi Sarah,

I'll take a closer look and will let you know asap. I think we amended all CIPA OIC's back in 2012 to include this provision so I'll see if we have briefing materials. I think It's handled in the directive but will confirm.

Cc: [Salman Qadir <Salman.Qadir@ofina.on.ca>]

Hi Patrick,

I just wanted to ask you a question, please, for my own knowledge, regarding section (c)(ii) of the OIC. The OIC states:

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the "Reset Date") to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a "Third Party Loan"), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

In relation to the above highlighted section, how would the 'Minister' specify the amount to be deducted? Unlike the two existing OICS (attached) the OFA uses for lending to 3rd parties which overtly specify the rates, our draft OIC provides discretion to the Minister. I'm not aware of how/if the Minister's authority to determine the amount to be deducted has somehow been delegated to the OFA (perhaps this is a question for Sarah Neville?), or would this be included in the Minister's directive for the credit facility?

Thanks,
Sarah

Subject: Question - OIC for new IESO Credit Facility

Hi Linda,

As a matter of prudence, I just wanted to check with you on one aspect of the draft OIC for OFA to make loans to IESO under the proposed credit facility in relation to the Fair Hydro Plan. The OIC package will be delivered today to the DMO, but I wanted to confirm with you that the rates that under the Section (c) of the attached OIC are still appropriate (perhaps it is I should be asking Mike?, but since this is IESO related, I wanted to check with you first).

Section (c) deals with the rates the OFA pays to the Minister for any funds it borrows, and is essentially the same as the OFA's existing OIC from 1999. Section (c)(i) says if the OFA simply borrows funds from the Minister (which have not been loaned to a third party), the OFA pays the rate equal to the 90 day ONT T-Bill yield. Section(c)(ii) says that if the OFA uses the borrowed monies to fund 3rd party loans, then the rate will be equivalent to rate of interest payable to the OFA under 3rd party loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans.

Please let me know your thoughts.

Thanks,
Sarah

LOAN TO ONTARIO LOTTERY AND GAMING CORPORATION

To: Ontario Financing Authority ("OFA")

WHEREAS the Ontario Lottery and Gaming Corporation ("OLG") has requested a loan from the OFA for the purpose of financing the development and implementation of its Gaming Management System ("GMS") Program;

AND WHEREAS the Minister of Finance issued a Directive to the OFA, dated December 4th, 2012, which referenced a loan to the OLG for the purpose of upgrading the GMS (the "2012 Directive");

AND WHEREAS this directive replaces the 2012 Directive for the purposes of the GMS.

THEREFORE:

Pursuant to subsection 16(2) of the *Capital Investment Plan Act, 1993*, the OFA is directed to lend to the OLG a maximum principal aggregate amount of up to C$35,200,000, plus accrued interest, available in two loan facilities (the "Loan"), on the terms set forth below, for the purpose of financing the development and implementation of the GMS Program.

- The term of the Loan shall be as follows:
  - Facility 1: Non-revolving facility during the development and implementation phase of the GMS Program.
  - Facility 2: up to 5-year term loan following project completion.

- Interest on Facility 1 shall be payable at the Province of Ontario's cost of funds, as determined by the OFA, plus a spread to recover the OFA's lending costs (the "Cost Recovery Fee") and, in addition to the Cost Recovery Fee, a spread to reflect commercial rates (the "Commercial Spread"). The rates for both the Cost Recovery Fee and the Commercial Spread shall be specified in the OFA's Lending Policy, as amended from time to time.

- Interest on Facility 2 shall be payable at the Province of Ontario's cost of funds for an amortizing bond equal to the term of the Facility 2 loan, as determined by the OFA, plus the Cost Recovery Fee and the Commercial Spread.

- The Loan shall be conditional upon approval for the Loan being given under subsection 28 (1) of the *Financial Administration Act;*

- The Loan shall be subject to such terms and conditions as are consistent with this directive and the OFA's Lending Policy, and which are approved from time to time in writing by the Chief Executive Officer of the OFA or the Assistant Deputy

Minister, Corporate and Electricity Finance Division, OFA, or by a person designated by either of them.

The terms of the Loan shall be set out in a loan agreement to be entered into between the OFA and OLG.

Pursuant to Orders in Council 675/97, 767/99, 1883/2006, 2144/2007, 300/2010 and 163/2012, all as amended, made under subsection 22(1) of the *Capital Investment Plan Act, 1993,* the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that the amount of the spread to be retained by the OFA for the Loan shall be equal to the sum of the Cost Recovery Fee and the Commercial Spread.

Update with the FHP Agreement.

1. Page number issue – Yesterday I asked Karin (18k expert) for some assistance with Word and how to fix my issue with automated page formatting. She was unable to help after some difficulty. She recommended that I copy each page to a new document and reformat each page. There was possibly some hidden codes that transferred over when I converted the original agreement from PDF to Word format. I copied each page and reformatted each page last night. OK, thanks.
2. Grid Note - I noticed the original grid note (portrait style) did not resemble the current grid note available on OLMS. I created a New Grid Note (landscape style) to be included in the agreement. I noticed when I include a landscape document in Word, it effects the proceeding pages to landscape as well. I'm figuring out how to fix this. No need to reformat. The grid note table is representative. The table is updated in the system and can be printed out.
3. Cost of funds over 40 days – I discovered that previously Cash Management and Settlements handled the Borrowing Notice requests. Carlos/Trading has taken over this task (thus the confusion of when to use 1 month cost of funds vs 3 month cost of funds. OK, could you please describe for the me the process still of how that would work from the time IESO decides it needs an advance to the point where the advance details are finalized (including how Carlos determines how to apply the cost of the borrowing for a given period, since we need to confirm the wording in the agreement is correct i.e. specifically, we say in the agreement that the rate is the cost of funds for a 'similar' term, and we want to understand if that term ("similar") accurately describes what is being done in practice).
4. Procedure update – IESO no longer executes the grid note. Borrowing notice is sent to Settlements and Cash Management. The Borrowing Notice is sent to Carlos. Carlos prices the request. Settlements sends the grid note to IESO and the trade is settled. IESO must execute the grid note or it is not a valid evidence of indebtedness.

I will be working on this items today and try my very best to get a copy to Lisa as soon as possible today.

Thanks for letting me know.
Also, with a potential move to two way CSAs, Sab brought up the idea that we may want to reconsider clearing due to costs. Given his credit background and recent bank experience, I asked him provide any initial information he might think is helpful in a discussion. I told him we considered clearing back in 2011-2012, but that was when we had a strong position for one way CSA with no CVA, DVA, FVA, KVA, XVA or LKJLKJLKJVA charges. I'm open to ideas that have merit.
For the two way CSAs that Mike is thinking about, he was considering initial margin (an independent amount) as well?

Completely unrelated but – Mike is being told by the banks that they are using, almost exclusively, cash as collateral. Too many charges apply if they use securities. Depending on what Patrick finds out – we may want to set up a call with one of the banks to discuss. Mike is pushing that off till later in July because of being too busy to address it now, but we should keep our eyes on this. sounds like he would be amenable to using cash collateral in place of securities sometime in the future. Maybe the risk of lack of priority falls away with the north American c-parties because there would be many warning signs if they were going "south".

Hi Sarah,
Mike had 2 questions.
1. What is the min and max time for borrowing notices in the IESO agreements? I believe there are also election notices under the agreement as well, so out of an abundance of caution, lets provide that as well.
2. What's the status of being able to charge Metrolinx for work already done so far re: fuel hedging. I think this is something that was being worked on – I thought by Siva- but asking in case you know.
Thanks,
Opal

Hi Elizabeth,
Instead of making you look through previous e-mails, would you have any objection if I contacted Siva directly (cc'ing you) to ask for a copy of the spreadsheet he has been working on? I would let him know that know that I may not have e-mailed you the most up to date information, and that I could like to provide with the information if it needs to be updated.
I think this was an oversight on my part; I am sorry if I may have caused any confusion.

Thanks for letting me know.
Also, with a potential move to two way CSAs, Sab brought up the idea that we may want to reconsider clearing due to costs. Given his credit background and recent bank experience, I asked him provide any initial information he might think is helpful in a discussion. I told him we considered clearing back in 2011-2012, but that was when we had a strong position for one way CSA with no CVA, DVA, FVA, KVA, XVA or LKJLKJLKJVA charges. I'm open to ideas that have merit.
For the two way CSAs that Mike is thinking about, he was considering initial margin (an independent amount) as well?

Completely unrelated but – Mike is being told by the banks that they are using, almost exclusively, cash as collateral. Too many charges apply if they use securities. Depending on what Patrick finds out – we may want to set up a call with one of the banks to discuss. Mike is pushing that off till later in July because of being too busy to address it now, but we should keep our eyes on this. sounds like he would be amenable to using cash collateral in place of securities sometime in the future. Maybe the risk of lack of priority falls away with the north American c-parties because there would be many warning signs if they were going "south".

Subject: follow up from meeting

Hi Sarah,
Mike had 2 questions.
1. What is the min and max time for borrowing notices in r the new IESO FHP agreement, as well as under the amending agreement? I believe there are also election notices under the agreement as well, so out of an abundance of caution, lets provide that as well.
2. What's the status of being able to charge Metrolinx for work already done so far re: fuel hedging. I think this is something that was being worked on – I thought by Siva- but asking in case you know.
Thanks,
Opal

Completely unrelated but – Mike is being told by the banks that they are using, almost exclusively, cash as collateral. Too many charges apply if they use securities. Depending on what Patrick finds out – we may want to set up a call with one of the banks to discuss. Mike is pushing that off till later in July because of being too busy to address it now, but we should keep our eyes on this. sounds like he would be amenable to using cash collateral in place of securities sometime in the future. Both actually came to ask about the OIC for IESO and whether they could have a copy, ask about timing or enter some info about it in the financial statements for the auditor. I said no. while they were here I asked about the services provided by OFA for Metrolinx.

Hi Opal,

The **current** $975 OFA-IESO credit facility provides for advances to be repaid no earlier than 28 days and no later than 95 days. Amendment number 9 (attached) contains the form of borrowing notice as Schedule 1 (which is page 5 of the .pdf); please let me know if you would like Will to print out the borrowing notice for you.

Per IESO's attached requests, they are requesting minimum borrowing period on the existing credit facility to be **reduced from 28 days to 7 days**.

That means that for the new $2 billion credit facility, as well as the existing facility (which will also be reduced from $975 million to $475 million), **the time period for advances to be repaid will be no earlier than 7 days and no later than 95 days.**

Thanks,

Thanks for letting me know.
Also, with a potential move to two way CSAs, Sab brought up the idea that we may want to reconsider clearing due to costs. Given his credit background and recent bank experience, I asked him provide any initial information he might think is helpful in a discussion. I told him we considered clearing back in 2011-2012, but that was when we had a strong position for one way CSA with no CVA, DVA, FVA, KVA, XVA or LKJLKJLKJVA charges. I'm open to ideas that have merit.
For the two way CSAs that Mike is thinking about, he was considering initial margin (an independent amount) as well?

For finalizing the OIC, the dollar value should be $3.5 billion and the expiry/maturity date of the OIC should be June 30, 2053.

Hi Salman,

Thanks for the clarification. Assuming that the June 27th is an additional meeting day after the June 20th date', I think we would have at least a couple more days to get sign-offs on the LRC package.

Let's have a chat with Patrick about the feasibility of including the OIC *into* Energy's package.

Other than 10:30 am. to 11:30 a.m. I am free to chat. Please let me know what would work for you.

Hi Sarah,

Can definitely chat today. Just a few comments on your points:

- I actually do not have a EVISTA number, that was just the template example (red text). We have reached out to DMO etc on this as well. We also had a quick chat with CO and Energy and there was the appetite to add this to Energy's submission. We were only told of two dates, later being June 27 and an earlier date of June 14, 2017. I think this is the question we have posed – do we need our own EVISTA number and tracking or can this is part of Energy's package. Acknowledging the timelines, we believed having a package ready and signed off by Minister of Finance to be inserted into Energy's package would work – I'm just unsure whether that is plausible and the whether the rules require us to have our own EVISTA number.
- I have not been given concrete dates except that FHP is aiming for a July 1 implementation, hence the requirement for the OIC. This is something I also wanted to speak with you about as we should start working on drafting the credit agreement itself, alongside the directive as you mentioned. Working on getting an update on this today.

Hi Salman,

I just have a couple of comments, one is for Patrick's consideration.

A few points on process:

- I see you have an EVISTA number already for this file. I just want to confirm with you that this is applicable to this specific OIC i.e. you have made a request through EVISTA through the DMO to include this item specifically (not applying Energy's EVISTA number its items) for the relevant LRC date. I am also a little confused (perhaps Patrick can provide some insight) as to June 27th Cabinet date. My understanding is that if this OIC is going for approval in June, it would be going to LRC on June 20th (per attached calendar). If the June 20th LRC date is used then, according the attached LRC schedule, the item must be entered into EVISTA this morning and the final signed off package would need to be at the DMO on by EOD today. The timing to get sign-offs this package through for the June 20th LRC would be very difficult.
- The package needs to be accompanied by a LRC Blue Approval Form. I've attached a sample for our last OIC which you would need to fill out with the specifics of this OIC. It needs to be printed on special blue paper, which I have available.
- I think we should have a quick chat this morning to determine this should and can actually track with Energy. I am not clear as to the exact urgency of when the OFA will need to begin borrowing and making loans in relation to the OIC. If this this can wait until the next LRC date, I frankly think it is much more realistic and preferable. What is the desired timeframe put into place the new IESO OFA FHP Credit Facility? In addition to the new OIC, I think a directive would be required as well? Patrick and Salman, would you be available at 9:30 a.m. to discuss?

Thanks,

Sarah

Hi Sarah and Patrick,

As an update and also for your review/feedback (if any), attached is a draft LRC note for the OIC. I'm hoping to get this to Ron by EOD tomorrow if possible – at least a draft.

Here are some updates with respect to timelines:

- Energy will be going to Cabinet twice, once on June 27 for approval of their regs (and possibly on June 14 as well)
- We're hoping that this can track together with that package from Energy.

Energy actually just asked whether this would go together in one package to Cabinet or if Finance will do this separately… I'm not sure I understand what that would require – maybe we can chat if you have any insight? We know this has to get Minister of Finance's sign off…

Thanks,

Salman

Hello Bruno and Salman,

As discussed, I will be sending a few files for the OIC package.

The package usually consists of

1) An LRC Approval form which is essentially the 'briefing' note for the OIC.
2) The unsigned OIC
3) A letter from Gadi to Scott Thompson
4) A letter from Scott Thompson to Charles Sousa.

I've attached the Template LRC Approval Form. It has instructions on how to fill it out. I've also attached for your reference the example of the last LRC form we filled out.

I touched based with Patrick at LSB who provided you with the form of the OIC, and I'm looping him in with us on these OIC communications. Patrick – would you have an example of the completed LRC form that was provided for School Boards in 2014 which may also be used as a reference for completing this Form?

I'll send you an example of the letters (3 and 4 above) that will accompany the package.

Thanks,

Sarah

Hi Sarah

I don't believe we've exchange emails yet, but I'm a manager in the Electricity Finance Branch. Salman was updating me on discussions around the OIC for the IESO credit facility. For a start, I want to confirm that, we are proceeding on assumption that the credit facility would be with OFA. We do not have a lot of experience with the whole OIC process, so I was wondering if you could spare a few minutes, at your convenience, to meet with us. . I understand that your office handles OICs, so a quick chat may help guide us on how we can work together on this. I.e., documentation necessary and other process issues.

At the moment we're trying to get the upcoming LRC schedule so that we know what dates we might be working towards. Let us know when you have some time. We could come to your office, or if you prefer we could set up a teleconference.

Thanks

Hi Salman,

Thanks for the clarification. Assuming that the June 27th is an additional meeting day after the June 20th date', I think we would have at least a couple more days to get sign-offs on the LRC package. Let's have a chat with Patrick about the feasibility of including the OIC *into* Energy's package. Other than 10:30 am. to 11:30 a.m. I am free to chat. Please let me know what would work for you.

Hi Sarah,

Can definitely chat today. Just a few comments on your points:

- I actually do not have a EVISTA number, that was just the template example (red text). We have reached out to DMO etc on this as well. We also had a quick chat with CO and Energy and there was the appetite to add this to Energy's submission. We were only told of two dates, later being June 27 and an earlier date of June 14, 2017. I think this is the question we have posed – do we need our own EVISTA number and tracking or can this is part of Energy's package. Acknowledging the timelines, we believed having a package ready and signed off by Minister of Finance to be inserted into Energy's package would work – I'm just unsure whether that is plausible and the whether the rules require us to have our own EVISTA number.
- I have not been given concrete dates except that FHP is aiming for a July 1 implementation, hence the requirement for the OIC. This is something I also wanted to speak with you about as we should start working on drafting the credit agreement itself, alongside the directive as you mentioned. Working on getting an update on this today.

Hi Salman,

I just have a couple of comments, one is for Patrick's consideration.

A few points on process:

- I see you have an EVISTA number already for this file. I just want to confirm with you that this is applicable to this specific OIC i.e. you have made a request through EVISTA through the DMO to include this item specifically (not applying Energy's EVISTA number its items) for the relevant LRC date. I am also a little confused (perhaps Patrick can provide some insight) as to June 27th Cabinet date. My understanding is that if this OIC is going for approval in June, it would be going

to LRC on June 20th (per attached calendar). If the June 20th LRC date is used then, according the attached LRC schedule, the item must be entered into EVISTA this morning and the final signed off package would need to be at the DMO on by EOD today. The timing to get sign-offs this package through for the June 20th LRC would be very difficult.

- The package needs to be accompanied by a LRC Blue Approval Form. I've attached a sample for our last OIC which you would need to fill out with the specifics of this OIC. It needs to be printed on special blue paper, which I have available.
- I think we should have a quick chat this morning to determine this should and can actually track with Energy. I am not clear as to the exact urgency of when the OFA will need to begin borrowing and making loans in relation to the OIC. If this this can wait until the next LRC date, I frankly think it is much more realistic and preferable. What is the desired timeframe put into place the new IESO OFA FHP Credit Facility? In addition to the new OIC, I think a directive would be required as well? Patrick and Salman, would you be available at 9:30 a.m. to discuss?

Thanks,
Sarah

Hi Sarah and Patrick,
As an update and also for your review/feedback (if any), attached is a draft LRC note for the OIC. I'm hoping to get this to Ron by EOD tomorrow if possible – at least a draft.
Here are some updates with respect to timelines:

- Energy will be going to Cabinet twice, once on June 27 for approval of their regs (and possibly on June 14 as well)
- We're hoping that this can track together with that package from Energy.

Energy actually just asked whether this would go together in one package to Cabinet or if Finance will do this separately… I'm not sure I understand what that would require – maybe we can chat if you have any insight? We know this has to get Minister of Finance's sign off…
Thanks,
Salman

Hello Bruno and Salman,
As discussed, I will be sending a few files for the OIC package.
The package usually consists of

1) An LRC Approval form which is essentially the 'briefing' note for the OIC.
2) The unsigned OIC

3) A letter from Gadi to Scott Thompson
4) A letter from Scott Thompson to Charles Sousa.

I've attached the Template LRC Approval Form. It has instructions on how to fill it out. I've also attached for your reference the example of the last LRC form we filled out.

I touched based with Patrick at LSB who provided you with the form of the OIC, and I'm looping him in with us on these OIC communications. Patrick – would you have an example of the completed LRC form that was provided for School Boards in 2014 which may also be used as a reference for completing this Form?

I'll send you an example of the letters (3 and 4 above) that will accompany the package.

Thanks,

Sarah

Hi Sarah

I don't believe we've exchange emails yet, but I'm a manager in the Electricity Finance Branch. Salman was updating me on discussions around the OIC for the IESO credit facility. For a start, I want to confirm that, we are proceeding on assumption that the credit facility would be with OFA. We do not have a lot of experience with the whole OIC process, so I was wondering if you could spare a few minutes, at your convenience, to meet with us. . I understand that your office handles OICs, so a quick chat may help guide us on how we can work together on this. I.e., documentation necessary and other process issues.

At the moment we're trying to get the upcoming LRC schedule so that we know what dates we might be working towards. Let us know when you have some time. We could come to your office, or if you prefer we could set up a teleconference.

Thanks

Hi Salman,

Thanks for the clarification. Assuming that the June 27th is an additional meeting day after the June 20th date', I think we would have at least a couple more days to get sign-offs on the LRC package.
Let's have a chat with Patrick about the feasibility of including the OIC *into* Energy's package.
Other than 10:30 am. to 11:30 a.m. I am free to chat. Please let me know what would work for you.

Hi Sarah,

Can definitely chat today. Just a few comments on your points:

- I actually do not have a EVISTA number, that was just the template example (red text). We have reached out to DMO etc on this as well. We also had a quick chat with CO and Energy and there was the appetite to add this to Energy's submission. We were only told of two dates, later being June 27 and an earlier date of June 14, 2017. I think this is the question we have posed – do we need our own EVISTA number and tracking or can this is part of Energy's package. Acknowledging the timelines, we believed having a package ready and signed off by Minister of Finance to be inserted into Energy's package would work – I'm just unsure whether that is plausible and the whether the rules require us to have our own EVISTA number.
- I have not been given concrete dates except that FHP is aiming for a July 1 implementation, hence the requirement for the OIC. This is something I also wanted to speak with you about as we should start working on drafting the credit agreement itself, alongside the directive as you mentioned. Working on getting an update on this today.

Hi Salman,

I just have a couple of comments, one is for Patrick's consideration.

A few points on process:

- I see you have an EVISTA number already for this file. I just want to confirm with you that this is applicable to this specific OIC i.e. you have made a request through EVISTA through the DMO to include this item specifically (not applying Energy's EVISTA number its items) for the relevant LRC date. I am also a little confused (perhaps Patrick can provide some insight) as to June 27th Cabinet date. My understanding is that if this OIC is going for approval in June, it would be going to LRC on June 20th (per attached calendar). If the June 20th LRC date is used then, according the attached LRC schedule, the item must be entered into EVISTA this morning and the final signed off package would need to be at the DMO on by EOD today. The timing to get sign-offs this package through for the June 20th LRC would be very difficult.
- The package needs to be accompanied by a LRC Blue Approval Form. I've attached a sample for our last OIC which you would need to fill out with the specifics of this OIC. It needs to be printed on special blue paper, which I have available.
- I think we should have a quick chat this morning to determine this should and can actually track with Energy. I am not clear as to the exact urgency of when the OFA will need to begin borrowing and making loans in relation to the OIC. If this this can wait until the next LRC date, I frankly think it is much more realistic and preferable. What is the desired timeframe put into place the new IESO OFA FHP Credit Facility? In addition to the new OIC, I think a directive would be required as well? Patrick and Salman, would you be available at 9:30 a.m. to discuss?

Thanks,

Sarah

Hi Sarah and Patrick,

As an update and also for your review/feedback (if any), attached is a draft LRC note for the OIC. I'm hoping to get this to Ron by EOD tomorrow if possible – at least a draft.

Here are some updates with respect to timelines:

- Energy will be going to Cabinet twice, once on June 27 for approval of their regs (and possibly on June 14 as well)
- We're hoping that this can track together with that package from Energy.

Energy actually just asked whether this would go together in one package to Cabinet or if Finance will do this separately… I'm not sure I understand what that would require – maybe we can chat if you have any insight? We know this has to get Minister of Finance's sign off…

Thanks,
Salman

Hello Bruno and Salman,

As discussed, I will be sending a few files for the OIC package.

The package usually consists of

1) An LRC Approval form which is essentially the 'briefing' note for the OIC.
2) The unsigned OIC
3) A letter from Gadi to Scott Thompson
4) A letter from Scott Thompson to Charles Sousa.

I've attached the Template LRC Approval Form. It has instructions on how to fill it out. I've also attached for your reference the example of the last LRC form we filled out.

I touched based with Patrick at LSB who provided you with the form of the OIC, and I'm looping him in with us on these OIC communications. Patrick – would you have an example of the completed LRC form that was provided for School Boards in 2014 which may also be used as a reference for completing this Form?

I'll send you an example of the letters (3 and 4 above) that will accompany the package.

Thanks,
Sarah

Hi Sarah

I don't believe we've exchange emails yet, but I'm a manager in the Electricity Finance Branch. Salman was updating me on discussions around the OIC for the IESO credit facility. For a start, I want to confirm that, we are proceeding on assumption that the credit facility would be with OFA. We do not have a lot of experience with the whole OIC process, so I was wondering if you could spare a few minutes, at your convenience, to meet with us. . I understand that your office handles OICs, so a quick chat may help guide us on how we can work together on this. I.e., documentation necessary and other process issues.

At the moment we're trying to get the upcoming LRC schedule so that we know what dates we might be working towards. Let us know when you have some time. We could come to your office, or if you prefer we could set up a teleconference.

Thanks

Hi Salman,

Thanks for the clarification. Assuming that the June 27th is an additional meeting day after the June 20th date', I think we would have at least a couple more days to get sign-offs on the LRC package. Let's have a chat with Patrick about the feasibility of including the OIC *into* Energy's package. Other than 10:30 am. to 11:30 a.m. I am free to chat. Please let me know what would work for you.

Hi Sarah,
Can definitely chat today. Just a few comments on your points:

- I actually do not have a EVISTA number, that was just the template example (red text). We have reached out to DMO etc on this as well. We also had a quick chat with CO and Energy and there was the appetite to add this to Energy's submission. We were only told of two dates, later being June 27 and an earlier date of June 14, 2017. I think this is the question we have posed – do we need our own EVISTA number and tracking or can this is part of Energy's package. Acknowledging the timelines, we believed having a package ready and signed off by Minister of Finance to be inserted into Energy's package would work – I'm just unsure whether that is plausible and the whether the rules require us to have our own EVISTA number.
- I have not been given concrete dates except that FHP is aiming for a July 1 implementation, hence the requirement for the OIC. This is something I also wanted to speak with you about as we should start working on drafting the credit agreement itself, alongside the directive as

you mentioned. Working on getting an update on this today.

Hi Salman,

I just have a couple of comments, one is for Patrick's consideration.

A few points on process:

- I see you have an EVISTA number already for this file. I just want to confirm with you that this is applicable to this specific OIC i.e. you have made a request through EVISTA through the DMO to include this item specifically (not applying Energy's EVISTA number its items) for the relevant LRC date. I am also a little confused (perhaps Patrick can provide some insight) as to June 27th Cabinet date. My understanding is that if this OIC is going for approval in June, it would be going to LRC on June 20th (per attached calendar). If the June 20th LRC date is used then, according the attached LRC schedule, the item must be entered into EVISTA this morning and the final signed off package would need to be at the DMO on by EOD today. The timing to get sign-offs this package through for the June 20th LRC would be very difficult.
- The package needs to be accompanied by a LRC Blue Approval Form. I've attached a sample for our last OIC which you would need to fill out with the specifics of this OIC. It needs to be printed on special blue paper, which I have available.
- I think we should have a quick chat this morning to determine this should and can actually track with Energy. I am not clear as to the exact urgency of when the OFA will need to begin borrowing and making loans in relation to the OIC. If this this can wait until the next LRC date, I frankly think it is much more realistic and preferable. What is the desired timeframe put into place the new IESO OFA FHP Credit Facility? In addition to the new OIC, I think a directive would be required as well? Patrick and Salman, would you be available at 9:30 a.m. to discuss?

Thanks,

Sarah

Hi Sarah and Patrick,

As an update and also for your review/feedback (if any), attached is a draft LRC note for the OIC. I'm hoping to get this to Ron by EOD tomorrow if possible – at least a draft.

Here are some updates with respect to timelines:

- Energy will be going to Cabinet twice, once on June 27 for approval of their regs (and possibly on June 14 as well)
- We're hoping that this can track together with that package from Energy.

Energy actually just asked whether this would go together in one package to Cabinet or if Finance will do this separately… I'm not sure I understand what that would require – maybe we can chat if you have any insight? We know this has to get Minister of Finance's sign off…
Thanks,
Salman

Hello Bruno and Salman,
As discussed, I will be sending a few files for the OIC package.
The package usually consists of

1) An LRC Approval form which is essentially the 'briefing' note for the OIC.
2) The unsigned OIC
3) A letter from Gadi to Scott Thompson
4) A letter from Scott Thompson to Charles Sousa.

I've attached the Template LRC Approval Form. It has instructions on how to fill it out. I've also attached for your reference the example of the last LRC form we filled out.
I touched based with Patrick at LSB who provided you with the form of the OIC, and I'm looping him in with us on these OIC communications. Patrick – would you have an example of the completed LRC form that was provided for School Boards in 2014 which may also be used as a reference for completing this Form?
I'll send you an example of the letters (3 and 4 above) that will accompany the package.
Thanks,
Sarah

Hi Sarah
I don't believe we've exchange emails yet, but I'm a manager in the Electricity Finance Branch. Salman was updating me on discussions around the OIC for the IESO credit facility. For a start, I want to confirm that, we are proceeding on assumption that the credit facility would be with OFA. We do not have a lot of experience with the whole OIC process, so I was wondering if you could spare a few minutes, at your convenience, to meet with us. . I understand that your office handles OICs, so a quick chat may help guide us on how we can work together on this. I.e., documentation necessary and other process issues.
At the moment we're trying to get the upcoming LRC schedule so that we know what dates we might be working towards. Let us know when you have some time. We could come to your office, or if you prefer we could set up a teleconference.

Hello Bruno and Salman,
As discussed, I will be sending a few files for the OIC package.
The package usually consists of

1) An LRC Approval form which is essentially the 'briefing' note for the OIC.
2) The unsigned OIC
3) A letter from Gadi to Scott Thompson
4) A letter from Scott Thompson to Charles Sousa.

I've attached the Template LRC Approval Form. It has instructions on how to fill it out. I've also attached for your reference the example of the last LRC form we filled out.

I touched based with Patrick at LSB who provided you with the form of the OIC, and I'm looping him in with us on these OIC communications. Patrick – would you have an example of the completed LRC form that was provided for School Boards in 2014 which may also be used as a reference for completing this Form?

I'll send you an example of the letters (3 and 4 above) that will accompany the package.

Thanks,

Sarah

Hi Sarah

I don't believe we've exchange emails yet, but I'm a manager in the Electricity Finance Branch. Salman was updating me on discussions around the OIC for the IESO credit facility. For a start, I want to confirm that, we are proceeding on assumption that the credit facility would be with OFA. We do not have a lot of experience with the whole OIC process, so I was wondering if you could spare a few minutes, at your convenience, to meet with us. . I understand that your office handles OICs, so a quick chat may help guide us on how we can work together on this. I.e., documentation necessary and other process issues.

At the moment we're trying to get the upcoming LRC schedule so that we know what dates we might be working towards. Let us know when you have some time. We could come to your office, or if you prefer we could set up a teleconference.

Thanks

Hi Salman,

Thanks for the clarification. Assuming that the June 27th is an additional meeting day after the June 20th date', I think we would have at least a couple more days to get sign-offs on the LRC package.

Let's have a chat with Patrick about the feasibility of including the OIC *into* Energy's package.

Other than 10:30 am. to 11:30 a.m. I am free to chat. Please let me know what would work for you.

Hi Sarah,

Can definitely chat today. Just a few comments on your points:

- I actually do not have a EVISTA number, that was just the template example (red text). We have reached out to DMO etc on this as well. We also had a quick chat with CO and Energy and

there was the appetite to add this to Energy's submission. We were only told of two dates, later being June 27 and an earlier date of June 14, 2017. I think this is the question we have posed – do we need our own EVISTA number and tracking or can this is part of Energy's package. Acknowledging the timelines, we believed having a package ready and signed off by Minister of Finance to be inserted into Energy's package would work – I'm just unsure whether that is plausible and the whether the rules require us to have our own EVISTA number.

- I have not been given concrete dates except that FHP is aiming for a July 1 implementation, hence the requirement for the OIC. This is something I also wanted to speak with you about as we should start working on drafting the credit agreement itself, alongside the directive as you mentioned. Working on getting an update on this today.

Hi Salman,

I just have a couple of comments, one is for Patrick's consideration.

A few points on process:

- I see you have an EVISTA number already for this file. I just want to confirm with you that this is applicable to this specific OIC i.e. you have made a request through EVISTA through the DMO to include this item specifically (not applying Energy's EVISTA number its items) for the relevant LRC date. I am also a little confused (perhaps Patrick can provide some insight) as to June 27th Cabinet date. My understanding is that if this OIC is going for approval in June, it would be going to LRC on June 20th (per attached calendar). If the June 20th LRC date is used then, according the attached LRC schedule, the item must be entered into EVISTA this morning and the final signed off package would need to be at the DMO on by EOD today. The timing to get sign-offs this package through for the June 20th LRC would be very difficult.
- The package needs to be accompanied by a LRC Blue Approval Form. I've attached a sample for our last OIC which you would need to fill out with the specifics of this OIC. It needs to be printed on special blue paper, which I have available.
- I think we should have a quick chat this morning to determine this should and can actually track with Energy. I am not clear as to the exact urgency of when the OFA will need to begin borrowing and making loans in relation to the OIC. If this this can wait until the next LRC date, I frankly think it is much more realistic and preferable. What is the desired timeframe put into place the new IESO OFA FHP Credit Facility? In addition to the new OIC, I think a directive would be required as well? Patrick and Salman, would you be available at 9:30 a.m. to discuss?

Thanks,

Sarah

Hi Sarah and Patrick,

As an update and also for your review/feedback (if any), attached is a draft LRC note for the OIC. I'm hoping to get this to Ron by EOD tomorrow if possible – at least a draft.

Here are some updates with respect to timelines:

- Energy will be going to Cabinet twice, once on June 27 for approval of their regs (and possibly on June 14 as well)
- We're hoping that this can track together with that package from Energy.

Energy actually just asked whether this would go together in one package to Cabinet or if Finance will do this separately… I'm not sure I understand what that would require – maybe we can chat if you have any insight? We know this has to get Minister of Finance's sign off…

We also had a quick chat with CO and Energy and there was the appetite to add this to Energy's submission. We were only told of two dates, later being June 27 and an earlier date of June 14, 2017. I think this is the question we have posed – do we need our own EVISTA number and tracking or can this is part of Energy's package. Acknowledging the timelines, we believed having a package ready and signed off by Minister of Finance to be inserted into Energy's package would work – I'm just unsure whether that is plausible and the whether the rules require us to have our own EVISTA number.
- I have not been given concrete dates except that FHP is aiming for a July 1 implementation, hence the requirement for the OIC. This is something I also wanted to speak with you about as we should start working on drafting the credit agreement itself, alongside the directive as you mentioned. Working on getting an update on this today.

Hi Salman,

I just have a couple of comments, one is for Patrick's consideration.

A few points on process:

- I see you have an EVISTA number already for this file. I just want to confirm with you that this is applicable to this specific OIC i.e. you have made a request through EVISTA through the DMO to include this item specifically (not applying Energy's EVISTA number its items) for the relevant LRC date. I am also a little confused (perhaps Patrick can provide some insight) as to June 27th Cabinet date. My understanding is that if this OIC is going for approval in June, it would be going to LRC on June 20th (per attached calendar). If the June 20th LRC date is used then, according the attached LRC schedule, the item must be entered into EVISTA this morning and the final signed off package would need to be at the DMO on by EOD today. The timing to get sign-offs this package through for the June 20th LRC would be very difficult.
- The package needs to be accompanied by a LRC Blue Approval Form. I've attached a sample for our last OIC which you would need to fill out with the specifics of this OIC. It needs to be printed on special blue paper, which I have available.
- I think we should have a quick chat this morning to determine this should and can actually track with Energy. I am not clear as to the exact urgency of when the OFA will need to begin borrowing and making loans in relation to the OIC. If this this can wait until the next LRC date, I

frankly think it is much more realistic and preferable. What is the desired timeframe put into place the new IESO OFA FHP Credit Facility? In addition to the new OIC, I think a directive would be required as well? Patrick and Salman, would you be available at 9:30 a.m. to discuss?

Thanks,
Sarah

Hi Sarah and Patrick,

As an update and also for your review/feedback (if any), attached is a draft LRC note for the OIC. I'm hoping to get this to Ron by EOD tomorrow if possible – at least a draft.

Here are some updates with respect to timelines:

- Energy will be going to Cabinet twice, once on June 27 for approval of their regs (and possibly on June 14 as well)
- We're hoping that this can track together with that package from Energy.

Energy actually just asked whether this would go together in one package to Cabinet or if Finance will do this separately… I'm not sure I understand what that would require – maybe we can chat if you have any insight? We know this has to get Minister of Finance's sign off…

Thanks,
Salman

Hello Bruno and Salman,

As discussed, I will be sending a few files for the OIC package.

The package usually consists of

1) An LRC Approval form which is essentially the 'briefing' note for the OIC.
2) The unsigned OIC
3) A letter from Gadi to Scott Thompson
4) A letter from Scott Thompson to Charles Sousa.

I've attached the Template LRC Approval Form. It has instructions on how to fill it out. I've also attached for your reference the example of the last LRC form we filled out.

I touched based with Patrick at LSB who provided you with the form of the OIC, and I'm looping him in with us on these OIC communications. Patrick – would you have an example of the completed LRC form that was provided for School Boards in 2014 which may also be used as a reference for completing this Form?

I'll send you an example of the letters (3 and 4 above) that will accompany the package.

Thanks,
Sarah

Hi Sarah

I don't believe we've exchange emails yet, but I'm a manager in the Electricity Finance Branch. Salman was updating me on discussions around the OIC for the IESO credit facility. For a start, I want to confirm that, we are proceeding on assumption that the credit facility would be with OFA. We do not have a lot of experience with the whole OIC process, so I was wondering if you could spare a few minutes, at your convenience, to meet with us. . I understand that your office handles OICs, so a quick chat may help guide us on how we can work together on this. I.e., documentation necessary and other process issues.

At the moment we're trying to get the upcoming LRC schedule so that we know what dates we might be working towards. Let us know when you have some time. We could come to your office, or if you prefer we could set up a teleconference.

Thanks

Policy

Minister _____ Date _____

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of CIPA, which will authorize the Minister of Finance to provide a loan to the OFA in an amount of up to $3.5 billion. This authorization will be valid between the date of this approval and March 31, 2053.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA authorized by LGIC. Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- This proposed OIC is required to fulfil the commitments under the proposed Fair Hydro Act. The timing of this OIC is critical to ensure borrowing authority for the OFA is available as it will be required to provide financing arrangements upon the enactment of the proposed Fair Hydro Act.

Commented [SH1]: Should describe how this number was determined/ its source.

Patrick: Should the two existing OFA lending OICs for the OFA also be mentioned as background?

s. 2 Approach and Intended Outcomes

- The OFA provides financing to government entities as directed by the Minister of Finance. For the OFA to on-lend, the OFA borrows from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide loans to the OFA.
- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.
- This proposed OIC is required to fulfil the commitments under the proposed Fair Hydro Act.

s. 3 Direction and Urgency

Note appendices here, or ERASE, e.g.
See Appendix X, Variance Memo

- As announced on March 2, 2017 and highlighted as a commitment in Budget 2017, the Province intends to implement the Fair Hydro Plan which would reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the borrowing and on-lending capacity is instrumental in implementing the proposed Fair Hydro Plan.
- The Fair Hydro Plan and its related proposed Fair Hydro Act are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC

also be approved concurrently as it is a crucial component of the successfully implementing the Fair Hydro Plan.

- The related Cabinet Minute XXXXX is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend to the OFA. Subject to the terms and conditions of a Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's Cost of Funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. The directive from the Minister will be required that provides details on how the OFA can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed Fair Hydro Plan and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed Fair Hydro Plan. The related Cabinet note for the initiative should be referred to.

LRC Blue Approval Form Refinancing OIC 2017.pdf

Hi Salman,

I just have a couple of comments, one is for Patrick's consideration.

A few points on process:

- I see you have an EVISTA number already for this file. I just want to confirm with you that this is applicable to this specific OIC i.e. you have made a request through EVISTA through the DMO to include this item specifically (not applying Energy's EVISTA number its items) for the relevant LRC date. I am also a little confused (perhaps Patrick can provide some insight) as to June 27th Cabinet date. My understanding is that if this OIC is going for approval in June, it would be going to LRC on June 20th (per attached calendar). If the June 20th LRC date is used then, according the attached LRC schedule, the item must be entered into EVISTA this morning and the final signed off package would need to be at the DMO on by EOD today. The timing to get sign-offs this package through for the June 20th LRC would be very difficult.
- The package needs to be accompanied by a LRC Blue Approval Form. I've attached a sample for our last OIC which you would need to fill out with the specifics of this OIC. It needs to be printed on special blue paper, which I have available.
- I think we should have a quick chat this morning to determine this should and can actually track with Energy. I am not clear as to the exact urgency of when the OFA will need to begin borrowing and making loans in relation to the OIC. If this this can wait until the next LRC date, I frankly think it is much more realistic and preferable. What is the desired timeframe put into place the new IESO OFA FHP Credit Facility? In addition to the new OIC, I think a directive would be required as well? Patrick and Salman, would you be available at 9:30 a.m. to discuss?

Thanks,

Sarah

Hi Sarah and Patrick,

As an update and also for your review/feedback (if any), attached is a draft LRC note for the OIC. I'm hoping to get this to Ron by EOD tomorrow if possible – at least a draft.

Here are some updates with respect to timelines:

- Energy will be going to Cabinet twice, once on June 27 for approval of their regs (and possibly on June 14 as well)
- We're hoping that this can track together with that package from Energy.

Energy actually just asked whether this would go together in one package to Cabinet or if Finance

will do this separately… I'm not sure I understand what that would require – maybe we can chat if you have any insight? We know this has to get Minister of Finance's sign off…
Thanks,
Salman

Hello Bruno and Salman,
As discussed, I will be sending a few files for the OIC package.
The package usually consists of

1) An LRC Approval form which is essentially the 'briefing' note for the OIC.
2) The unsigned OIC
3) A letter from Gadi to Scott Thompson
4) A letter from Scott Thompson to Charles Sousa.

I've attached the Template LRC Approval Form. It has instructions on how to fill it out. I've also attached for your reference the example of the last LRC form we filled out.
I touched based with Patrick at LSB who provided you with the form of the OIC, and I'm looping him in with us on these OIC communications. Patrick – would you have an example of the completed LRC form that was provided for School Boards in 2014 which may also be used as a reference for completing this Form?
I'll send you an example of the letters (3 and 4 above) that will accompany the package.
Thanks,
Sarah

Hi Sarah
I don't believe we've exchange emails yet, but I'm a manager in the Electricity Finance Branch. Salman was updating me on discussions around the OIC for the IESO credit facility. For a start, I want to confirm that, we are proceeding on assumption that the credit facility would be with OFA. We do not have a lot of experience with the whole OIC process, so I was wondering if you could spare a few minutes, at your convenience, to meet with us. . I understand that your office handles OICs, so a quick chat may help guide us on how we can work together on this. I.e., documentation necessary and other process issues.
At the moment we're trying to get the upcoming LRC schedule so that we know what dates we might be working towards. Let us know when you have some time. We could come to your office, or if you prefer we could set up a teleconference.
Thanks

Proposed Items for Review

1. Approval of Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act, 1993 ("CIPA"),* authorizing the Minister of Finance to make a loan to the Ontario Financing Authority (OFA).

Approvals required prior to LRC

	Committee and date	Cabinet Date
Policy		
TB/MBC		June 27, 2017

Deputy Minister _____ Date _____

Minister _____ Date _____

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of CIPA, which will authorize the Minister of Finance to provide a loan to the OFA in an amount of up to $3.5 billion. This authorization will be valid between the date of this approval and March 31, 2053.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA authorized by LGIC. Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- This proposed OIC is required to fulfil the commitments under the proposed Fair Hydro Act. The timing of this OIC is critical to ensure borrowing authority for the OFA is available as it will be required to provide financing arrangements upon the enactment of the proposed Fair Hydro Act.

Commented [SH1]: Should describe how this number was determined/ its source.

Patrick: Should the two existing OFA lending OICs for the OFA also be mentioned as background?

s. 2 Approach and Intended Outcomes

- The OFA provides financing to government entities as directed by the Minister of Finance. For the OFA to on-lend, the OFA borrows from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide loans to the OFA.
- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.
- This proposed OIC is required to fulfil the commitments under the proposed Fair Hydro Act.

s. 3 Direction and Urgency

Note appendices here, or ERASE, e.g.
See Appendix X, Variance Memo

- As announced on March 2, 2017 and highlighted as a commitment in Budget 2017, the Province intends to implement the Fair Hydro Plan which would reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the borrowing and on-lending capacity is instrumental in implementing the proposed Fair Hydro Plan.
- The Fair Hydro Plan and its related proposed Fair Hydro Act are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC

also be approved concurrently as it is a crucial component of the successfully implementing the Fair Hydro Plan.

- The related Cabinet Minute XXXXX is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend to the OFA. Subject to the terms and conditions of a Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's Cost of Funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. The directive from the Minister will be required that provides details on how the OFA can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed Fair Hydro Plan and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed Fair Hydro Plan. The related Cabinet note for the initiative should be referred to.

I don't believe we've exchange emails yet, but I'm a manager in the Electricity Finance Branch. Salman was updating me on discussions around the OIC for the IESO credit facility. For a start, I want to confirm that, we are proceeding on assumption that the credit facility would be with OFA. We do not have a lot of experience with the whole OIC process, so I was wondering if you could spare a few minutes, at your convenience, to meet with us. . I understand that your office handles OICs, so a quick chat may help guide us on how we can work together on this. I.e., documentation necessary and other process issues.
At the moment we're trying to get the upcoming LRC schedule so that we know what dates we might be working towards. Let us know when you have some time. We could come to your office, or if you prefer we could set up a teleconference.

1. Approval of Order in Council ("OIC") under section 21 of the *Financial Administration Act* ("FAA") authorizing the refinancing of matured and maturing debt

Approvals required prior to LRC

	Committee and date	Cabinet Date
Policy	No approval needed	
TB/MBC	No approval needed	

Deputy Minister _____ Date _____

Minister _____ Date _____

s. 1 Proposal and Context

- Approval is sought for an OIC under section 21 of the FAA, which will authorize the Province to refinance matured and maturing debt in the amount of approximately $3.9 billion during the period of June 21, 2015 to June 1, 2017.

- A detailed schedule identifying the relevant securities is attached to the proposed OIC. The schedule was prepared and checked separately by two OFA staff, and its accuracy was verified by the Accounting and Reporting section of OFA Finance and Treasury Division.

- The FAA provides the Province with the authority to refinance maturing debt within the period commencing one year before and ending one year after the date on which the debt matured or was purchased and cancelled.

- The timing of this OIC is critical to ensure that borrowing authority flowing from securities maturing in the prescribed period is not lost and will provide the Province the legal authority to continue to meet its borrowing requirement.

- This proposed OIC is routine business for the Province. The most recent refinancing OIC under the FAA was OIC 111/2016 made on January 27, 2016 in the amount of approximately $10.5 billion.

s. 2 Approach and Intended Outcomes

- Borrowing authority ensures the Province has continued access to the capital markets. The Province has two sources of borrowing authority, the Loan Act and the FAA. The Loan Act borrowing authority is used to finance new debt and the FAA borrowing authority is used to refinance matured and maturing debt. Separate OICs are required in order to use the two authorities.

s. 3 Direction and Urgency

- This OIC is being put forward by the Minister of Finance.

- The timing of this OIC is critical to ensure that borrowing authority flowing from securities that have matured and are maturing in the prescribed period is not lost.

s. 4 Impact Assessment and Costs

- With this OIC, the Province will have borrowing authority available to refinance maturing debt and take advantage of market opportunities when they arise. Payment of principal and interest on borrowing by the Province is a charge on and payable out of the Consolidated Revenue Fund under section 19 of the FAA.

s. 5 Implementation

- If the OIC is approved and signed, the Province will not lose borrowing authority maturing during the period prescribed by the FAA, and which is required for the refinancing of matured or maturing debt.

s. 6 Delivery and Results Tracking

- The Province accesses long-term borrowing opportunities both in the domestic and international markets. On the domestic front, the Province issues a variety of instruments including fixed rate and floating rate bonds and Ontario Savings Bonds. The Province also issues fixed rate and floating rate bonds in the international markets.

Hello Bruno and Salman,
As discussed, I will be sending a few files for the OIC package.
The package usually consists of

1) An LRC Approval form which is essentially the 'briefing' note for the OIC.
2) The unsigned OIC
3) A letter from Gadi to Scott Thompson
4) A letter from Scott Thompson to Charles Sousa.

I've attached the Template LRC Approval Form. It has instructions on how to fill it out. I've also attached for your reference the example of the last LRC form we filled out.
I touched based with Patrick at LSB who provided you with the form of the OIC, and I'm looping him in with us on these OIC communications. Patrick – would you have an example of the completed LRC form that was provided for School Boards in 2014 which may also be used as a reference for completing this Form?
I'll send you an example of the letters (3 and 4 above) that will accompany the package.
Thanks,
Sarah

Hi Salman,

Thanks for the clarification. Assuming that the June 27th is an additional meeting day after the June 20th date', I think we would have at least a couple more days to get sign-offs on the LRC package.

Let's have a chat with Patrick about the feasibility of including the OIC *into* Energy's package.

Other than 10:30 am. to 11:30 a.m. I am free to chat. Please let me know what would work for you.

Hi Sarah,

Can definitely chat today. Just a few comments on your points:

- I actually do not have a EVISTA number, that was just the template example (red text). We have reached out to DMO etc on this as well. We also had a quick chat with CO and Energy and

there was the appetite to add this to Energy's submission. We were only told of two dates, later being June 27 and an earlier date of June 14, 2017. I think this is the question we have posed – do we need our own EVISTA number and tracking or can this is part of Energy's package. Acknowledging the timelines, we believed having a package ready and signed off by Minister of Finance to be inserted into Energy's package would work – I'm just unsure whether that is plausible and the whether the rules require us to have our own EVISTA number.

- I have not been given concrete dates except that FHP is aiming for a July 1 implementation, hence the requirement for the OIC. This is something I also wanted to speak with you about as we should start working on drafting the credit agreement itself, alongside the directive as you mentioned. Working on getting an update on this today.

Hi Salman,

I just have a couple of comments, one is for Patrick's consideration.

A few points on process:

- I see you have an EVISTA number already for this file. I just want to confirm with you that this is applicable to this specific OIC i.e. you have made a request through EVISTA through the DMO to include this item specifically (not applying Energy's EVISTA number its items) for the relevant LRC date. I am also a little confused (perhaps Patrick can provide some insight) as to June 27th Cabinet date. My understanding is that if this OIC is going for approval in June, it would be going to LRC on June 20th (per attached calendar). If the June 20th LRC date is used then, according the attached LRC schedule, the item must be entered into EVISTA this morning and the final signed off package would need to be at the DMO on by EOD today. The timing to get sign-offs this package through for the June 20th LRC would be very difficult.
- The package needs to be accompanied by a LRC Blue Approval Form. I've attached a sample for our last OIC which you would need to fill out with the specifics of this OIC. It needs to be printed on special blue paper, which I have available.
- I think we should have a quick chat this morning to determine this should and can actually track with Energy. I am not clear as to the exact urgency of when the OFA will need to begin borrowing and making loans in relation to the OIC. If this this can wait until the next LRC date, I frankly think it is much more realistic and preferable. What is the desired timeframe put into place the new IESO OFA FHP Credit Facility? In addition to the new OIC, I think a directive would be required as well? Patrick and Salman, would you be available at 9:30 a.m. to discuss?

Thanks,

Sarah

Hi Sarah and Patrick,

As an update and also for your review/feedback (if any), attached is a draft LRC note for the OIC. I'm hoping to get this to Ron by EOD tomorrow if possible – at least a draft.

Here are some updates with respect to timelines:

- Energy will be going to Cabinet twice, once on June 27 for approval of their regs (and possibly on June 14 as well)
- We're hoping that this can track together with that package from Energy.

Energy actually just asked whether this would go together in one package to Cabinet or if Finance will do this separately… I'm not sure I understand what that would require – maybe we can chat if you have any insight? We know this has to get Minister of Finance's sign off…

Thanks,

Salman

Hello Bruno and Salman,

As discussed, I will be sending a few files for the OIC package.

The package usually consists of

1) An LRC Approval form which is essentially the 'briefing' note for the OIC.
2) The unsigned OIC
3) A letter from Gadi to Scott Thompson
4) A letter from Scott Thompson to Charles Sousa.

I've attached the Template LRC Approval Form. It has instructions on how to fill it out. I've also attached for your reference the example of the last LRC form we filled out.

I touched based with Patrick at LSB who provided you with the form of the OIC, and I'm looping him in with us on these OIC communications. Patrick – would you have an example of the completed LRC form that was provided for School Boards in 2014 which may also be used as a reference for completing this Form?

I'll send you an example of the letters (3 and 4 above) that will accompany the package.

Thanks,

Sarah

Hi Sarah

I don't believe we've exchange emails yet, but I'm a manager in the Electricity Finance Branch. Salman was updating me on discussions around the OIC for the IESO credit facility. For a start, I want

to confirm that, we are proceeding on assumption that the credit facility would be with OFA. We do not have a lot of experience with the whole OIC process, so I was wondering if you could spare a few minutes, at your convenience, to meet with us. . I understand that your office handles OICs, so a quick chat may help guide us on how we can work together on this. I.e., documentation necessary and other process issues.

At the moment we're trying to get the upcoming LRC schedule so that we know what dates we might be working towards. Let us know when you have some time. We could come to your office, or if you prefer we could set up a teleconference.

Thanks

A few points on process:

- I see you have an EVISTA number already for this file. I just want to confirm with you that this is applicable to this specific OIC i.e. you have made a request through EVISTA through the DMO to include this item specifically (not applying Energy's EVISTA number its items) for the relevant LRC date. I am also a little confused (perhaps Patrick can provide some insight) as to June 27th Cabinet date. My understanding is that if this OIC is going for approval in June, it would be going to LRC on June 20th (per attached calendar). If the June 20th LRC date is used then, according the attached LRC schedule, the item must be entered into EVISTA this morning and the final signed off package would need to be at the DMO on by EOD today. The timing to get sign-offs this package through for the June 20th LRC would be very difficult.
- The package needs to be accompanied by a LRC Blue Approval Form. I've attached a sample for our last OIC which you would need to fill out with the specifics of this OIC. It needs to be printed on special blue paper, which I have available.
- I think we should have a quick chat this morning to determine this should and can actually track with Energy. I am not clear as to the exact urgency of when the OFA will need to begin borrowing and making loans in relation to the OIC. If this this can wait until the next LRC date, I frankly think it is much more realistic and preferable. What is the desired timeframe put into place the new IESO OFA FHP Credit Facility? In addition to the new OIC, I think a directive would be required as well? Patrick and Salman, would you be available at 9:30 a.m. to discuss?

Thanks,

Sarah

Hi Sarah and Patrick,

As an update and also for your review/feedback (if any), attached is a draft LRC note for the OIC. I'm hoping to get this to Ron by EOD tomorrow if possible – at least a draft.

Here are some updates with respect to timelines:

- Energy will be going to Cabinet twice, once on June 27 for approval of their regs (and possibly on June 14 as well)
- We're hoping that this can track together with that package from Energy.

Energy actually just asked whether this would go together in one package to Cabinet or if Finance will do this separately… I'm not sure I understand what that would require – maybe we can chat if you have any insight? We know this has to get Minister of Finance's sign off…
Thanks,
Salman

Thanks for the clarification. Assuming that the June 27th is an additional meeting day after the June 20th date', I think we would have at least a couple more days to get sign-offs on the LRC package. Let's have a chat with Patrick about the feasibility of including the OIC *into* Energy's package. Other than 10:30 am. to 11:30 a.m. I am free to chat. Please let me know what would work for you.

Hi Sarah,

Can definitely chat today. Just a few comments on your points:

- I actually do not have a EVISTA number, that was just the template example (red text). We have reached out to DMO etc on this as well. We also had a quick chat with CO and Energy and there was the appetite to add this to Energy's submission. We were only told of two dates, later being June 27 and an earlier date of June 14, 2017. I think this is the question we have posed – do we need our own EVISTA number and tracking or can this is part of Energy's package. Acknowledging the timelines, we believed having a package ready and signed off by Minister of Finance to be inserted into Energy's package would work – I'm just unsure whether that is plausible and the whether the rules require us to have our own EVISTA number.
- I have not been given concrete dates except that FHP is aiming for a July 1 implementation, hence the requirement for the OIC. This is something I also wanted to speak with you about as we should start working on drafting the credit agreement itself, alongside the directive as you mentioned. Working on getting an update on this today.

Hi Salman,

Thanks for the clarification. Assuming that the June 27th is an additional meeting day after the June 20th date', I think we would have at least a couple more days to get sign-offs on the LRC package. Let's have a chat with Patrick about the feasibility of including the OIC *into* Energy's package. Other than 10:30 am. to 11:30 a.m. I am free to chat. Please let me know what would work for you.

Hi Sarah,

Can definitely chat today. Just a few comments on your points:

- I actually do not have a EVISTA number, that was just the template example (red text). We have reached out to DMO etc on this as well. We also had a quick chat with CO and Energy and there was the appetite to add this to Energy's submission. We were only told of two dates, later being June 27 and an earlier date of June 14, 2017. I think this is the question we have posed – do we need our own EVISTA number and tracking or can this is part of Energy's package. Acknowledging the timelines, we believed having a package ready and signed off by Minister of Finance to be inserted into Energy's package would work – I'm just unsure whether that is plausible and the whether the rules require us to have our own EVISTA number.
- I have not been given concrete dates except that FHP is aiming for a July 1 implementation, hence the requirement for the OIC. This is something I also wanted to speak with you about as we should start working on drafting the credit agreement itself, alongside the directive as you mentioned. Working on getting an update on this today.

Hi Salman,

I just have a couple of comments, one is for Patrick's consideration.

A few points on process:

- I see you have an EVISTA number already for this file. I just want to confirm with you that this is applicable to this specific OIC i.e. you have made a request through EVISTA through the DMO to include this item specifically (not applying Energy's EVISTA number its items) for the relevant LRC date. I am also a little confused (perhaps Patrick can provide some insight) as to June 27th Cabinet date. My understanding is that if this OIC is going for approval in June, it would be going to LRC on June 20th (per attached calendar). If the June 20th LRC date is used then, according the attached LRC schedule, the item must be entered into EVISTA this morning and the final signed off package would need to be at the DMO on by EOD today. The timing to get sign-offs this package through for the June 20th LRC would be very difficult.
- The package needs to be accompanied by a LRC Blue Approval Form. I've attached a sample for our last OIC which you would need to fill out with the specifics of this OIC. It needs to be printed on special blue paper, which I have available.
- I think we should have a quick chat this morning to determine this should and can actually track with Energy. I am not clear as to the exact urgency of when the OFA will need to begin borrowing and making loans in relation to the OIC. If this this can wait until the next LRC date, I frankly think it is much more realistic and preferable. What is the desired timeframe put into place the new IESO OFA FHP Credit Facility? In addition to the new OIC, I think a directive would be required as well? Patrick and Salman, would you be available at 9:30 a.m. to discuss?

Thanks,
Sarah

Hi Sarah and Patrick,
As an update and also for your review/feedback (if any), attached is a draft LRC note for the OIC. I'm hoping to get this to Ron by EOD tomorrow if possible – at least a draft.
Here are some updates with respect to timelines:

- Energy will be going to Cabinet twice, once on June 27 for approval of their regs (and possibly on June 14 as well)
- We're hoping that this can track together with that package from Energy.

Energy actually just asked whether this would go together in one package to Cabinet or if Finance will do this separately… I'm not sure I understand what that would require – maybe we can chat if you have any insight? We know this has to get Minister of Finance's sign off…
Thanks,
Salman

Hello Bruno and Salman,
As discussed, I will be sending a few files for the OIC package.
The package usually consists of

1) An LRC Approval form which is essentially the 'briefing' note for the OIC.
2) The unsigned OIC
3) A letter from Gadi to Scott Thompson
4) A letter from Scott Thompson to Charles Sousa.

I've attached the Template LRC Approval Form. It has instructions on how to fill it out. I've also attached for your reference the example of the last LRC form we filled out.
I touched based with Patrick at LSB who provided you with the form of the OIC, and I'm looping him in with us on these OIC communications. Patrick – would you have an example of the completed LRC form that was provided for School Boards in 2014 which may also be used as a reference for completing this Form?
I'll send you an example of the letters (3 and 4 above) that will accompany the package.
Thanks,
Sarah

I understand that your office handles OICs, so a quick chat may help guide us on how we can work together on this. I.e., documentation necessary and other process issues.

At the moment we're trying to get the upcoming LRC schedule so that we know what dates we might be working towards. Let us know when you have some time. We could come to your office, or if you prefer we could set up a teleconference.

Thanks

Hi. We, do have sample non disclosure agreements that we have used for transactions ie providing info for persons to make bids for example. I am going to be at meetings from 9 to 11.

Hi Malle,

This is just a heads-up that we have been requested by Mike Manning to draft a non-disclosure agreement for hiring a dealer to advise on certain pricing matters for Hydro. I have very little information and Opal is seeking more detail, but I have been told that this is needed ASAP.

I don't recall Documentation ever drafting such an agreement, but perhaps you have some experience.

I am copying Kelly, as he is just finding out now that I will be asking his assistance to work on this.

I'll touch base with you in the morning when I have more detail.

Thanks,
Sarah

Thank you, Malle.

I'll hopefully have a more complete picture after 11, and then hopefully we can find a sample that is a fairly close match.

As mentioned the current $975M supports the RPP today which will be transitioned to the new FH going forward – for this draft as discussed with my CFO I have left the $975M as is but will seek to use for FH too.

Hi Victor,

Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.
2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.

I think we are in good shape. Fingers crossed.

Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them from the forms of notes in each respective schedule). Given the rate is

set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.

3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,

Victor

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.
2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.
I think we are in good shape. Fingers crossed.
Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.
3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,
Victor

Hi Victor:

Should I send everything to you, or Kim Marshall, or someone else once they are ready for execution? We are working on language to cover off the 2 components of the "new" $120MM note, consisting of the $90MM roll and the $30MM new money. We should have something fairly soon and hope to execute everything tomorrow.

Hi Victor,

Other than me confirming the form of interest rate to be listed at the top of the $120M note, are you okay with the last drafts of the agreements? If so, could you please prepare execution versions of the agreements. I will have an answer for you on the interest rate reference for the note tomorrow morning. I just need to confirm internally - nothing contentious.

Olga and I connected earlier this afternoon, so we are on track there.

Thanks,

Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.
3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,
Victor

Hi Victor:

Should I send everything to you, or Kim Marshall, or someone else once they are ready for execution? We are working on language to cover off the 2 components of the “new” $120MM note, consisting of the $90MM roll and the $30MM new money. We should have something fairly soon and hope to execute everything tomorrow.

Thanks Sarah - I have arranged a window when I will get the agreements and other documents signed tomorrow between 145 and 230 so I really need executable forms of all documents by say 1230 tomorrow if at all possible.

I will be working from our Mississauga office which is where my signors will be. I understand we can arrange same day delivery of the documents from Mississauga to Toronto if you require that.

I am hoping you had a chance to speak with Olga Whitely regarding the operations side of all of this today.

Hi Victor,
Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.
2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.
I think we are in good shape. Fingers crossed.
Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Subject: IESO Concern re: "Market Renewals Program
Importance: High

Hello All,

Lisa and I discussed a concern expressed by IESO’s counsel yesterday regarding the reference of “costs related to the market renewals” program in the second recital of the attached amending agreement.

> ***AND WHEREAS*** *IESO and OEFC wish to amend the Agreement to increase the revolving line of credit from a principal amount of CDN $95 million to a principal amount of up to CDN $160 million to provide funding for IESO Corporate Requirements (as defined herein)* **and costs related to the market renewals program**;

The wording of the Directive states,

IESO in the draft amending agreement defines “IESO Corporate Requirements” to mean any borrowing authorized by O. Reg. 280/14. IESO’s counsel has stated that the market renewals program requirements would be authorized under O. Reg 280/14.

We would propose changing the second recital to incorporate ‘market renewal program’ under IESO Corporate Requirements, such that the second recital would read:

> ***AND WHEREAS*** *IESO and OEFC wish to amend the Agreement to increase the revolving line of credit from a principal amount of CDN $95 million to a principal amount of up to CDN $160 million to provide funding for IESO Corporate Requirements (as defined herein)* ~~and costs related to the market renewals program~~;

SALMAN: Is there any reason this **cannot** be done? i.e. was there a specific reason for singling out “costs related to the market renewals program” in the Directive? As a note, IESO’s counsel asked to see the Directive. I am unsure whether in drafting the directive, if they ever would have gotten a copy, or if they typically would?

Lisa has schedule a meeting a 1 p.m. to discuss this. Lisa, since this seems to be the only outstanding issue (we are fine with the suggestions discussed on the other draft), that it may only be necessary for you and Salman to let us know if the proposed solution above is acceptable. We are available to discuss if I have not reflected the issue accurately.

Thanks,
Sarah

HI Will,

On Monday, you initially mentioned that you thought you could provide a draft of the new credit facility today, but some things have gotten in the way. Please let me know what is on your plate (might be coming up) so I can re-delegate if needed. As mentioned, the credit facility is a high priority item which is time sensitive as it must be in place by June 30, and it must be vetted through OFA legal and negotiated with IESO.

Are you able to get provide a draft by tomorrow at 11 a.m.?

Also, please let me know if you have any questions or require any guidance on any points – if you feel it may be beneficial for me to review your draft to this point, I would be happy to do so.

Thanks,
Sarah

Good morning Sarah,

Hi Wil,

I don't have my laptop so can't check versions.

You would have all of my copies though.

What I was showing you yesterday was my first set of comments that I had sent to you so you could under the nature of their inclusion, so that you would be able to answer any of Lisa's questions. You don't need to send it to her, unless you guys decide to take out all references to subsidiary in which case, you will know where to make all the deletions.

Regardless, when Lisa sends back her comments you would need to integrate my lane or comments which I included in my email to both you and Lisa. That is, the draft where I included including "the" in front of every " IESO" and "OFA". I think I mentioned 4 changes in the cover email that I made, which also included changing the recitals. I know that Lisa would have made some of these changes already in the draft that she will be sending back to you; you would need to make any remaining changes in the draft that she sends back to you.

Thanks,
Sarah

Hi Lisa,

Thanks very much for your draft.

Please find attached our comments and changes (including simplifying the comments). For your reference, I've also done a pure blackline comparison against your last version.

We've accepted a lot of your changes and highlight the following remaining issues and changes:

- "Subsidiaries" - we would like to include all references to subsidiaries, as it was deliberately included in the other 2010 IESO-OEFC Credit Facility. We've also included the definition of "Material Subsidiary", which should have been included, as it was in the 2010 Credit Facility

- (ACTION REQUIRED - TOBY) Section 2.2 – Changes accepted, however, Toby to confirm Reg. 280/14 reference? Also, IESO to confirm reference to "short to medium" term.

- (ACTION/DECISION REQUIRED -LISA) Section 3.3 – Does this language actually need to be amended any further? It was based on the language of amending agreement #9 of the original $975m OPA-OFA Credit Facility agreement.

- Section 3.5 – Included the words "a Material Subsidiary" in respect of the MAC clause, per your suggestion

- Original Section 4.1 – Deleted section per your comment, as it is redundant. Section 4 numbering has been re-numbered along with any corresponding references in the agreement.

- "New" Section 4.1 – Keep reference to 7.1, as we prefer to keep this reference, which was also in 2010 IESO-OEFC Credit Facility

- (DECISION REQUIRED – LISA/SARAH) Newly renumbered Section 4.2 – Maintenance of Properties – Would like to discuss with you directly, as this is a little ambiguous role of OFA vs. Province.

- Newly renumbered Section 4.7 – Have included timeframe as “promptly”, per you suggestion of a timeframe

- Original Section 5.1(c) – deleted section as was redundant and referenced the now deleted original section 4.1 (per above). As a result of deletion, references (d), (e), (f), (g), and (h) under section 5.1 have been renumbered

- Section 7.1 –We would like to include section, as it was included in 2010 OEFC-IESO credit facility. Corresponding reference in Section 4.1 should be kept.

I note below that you requested that we do another Documentation/OFA Legal turn before review by LSB, but given the urgent timeframe, and the very few remaining material issues, I thought it prudent to let Toby view what is a relatively final form in substance, so he can flag any major issues from an FHP perspective. Since the agreement must be executed by end of next week and IESO has not yet seen the draft, I am hoping we can strive to get this to IESO by end of day (Friday) to allow sufficient time for IESO to review and provide comments on the draft ASAP early next week..

Thanks,
Sarah

Hi Patrick

Apologies, regarding the French translation. 1) I had updated using my high school French and 2) in the translation I had missed updating the change in date from June to December 31, 2017. I have revised in attached "4 – CIPA s.22…" , but of course, this should be reviewed.

Subject: OIC s22 CIPA - OFA-IESO

Hi Patrick,

As the OIC package was going through our OFA approvals, we have now been directed that the OIC amount should be $2.0 billion, with an expiry date of June 30, 2047, to line up with the IESO request and the term of the FHP.

I'll recirculate the updated LRC package once I get a finalized version in place. Could we update the OIC to reflect this as I know it may take some time.

Let us know.

Thank you,
Salman

Hi Sarah,

Thanks for this. DMO is aware and we now have a tracking number: OICNA-13188.

Since we have a tracking number, can this wait a few days? I note that Gadi is away this week anyways (Ron is acting) and DMO is aware of this. I assume if its okay with DMO, we can wait?

Thanks,
Salman

Hi Salman and Patrick,

I was sick yesterday and did not have the opportunity to comment on the drafts. Please see my comments, attached.

Patrick – my understanding (through Dimitri working on the other OFA OIC for name changes) is that the materials for the June 27th LRC are due to be delivered to the DMO office by EOD tomorrow. Is this your understanding? Salman – if this is the case, this OIC package will need to be signed by Gadi tomorrow and delivered to Patrick tomorrow for LSB's sign-off as well (Patrick I'm assuming you would be delivering the package).

Salman, you'll also have to make sure that a) the item has been entered into EVISTA by the DMO and you have the EVISTA number and 2) that you have made them aware that the package is coming. To that point, you should also coordinate with Anna in Gadi's office to let her know that you will have package for signing by Gadi and to confirm his availability. You'll need a covering blue sign-off sheet. Let me know if you need some of the 'special blue paper' for printing.

Finally, on the LRC approval form, you can insert the following as the Policy Advisor at the DMO: DMO contact: Jonathan Tekle 416-325-8736. You should be able to touch base with Jonathan to confirm the following information for your LRC Approval Form:

Cabinet Office Policy	[name] [title] Cabinet Office

Sarah

Hi Sarah/Patrick,

For your review, attached is the revised LRC note and draft memos. We've also asked DMO to let us know about timeline and obtaining an EVISTA number for this.

I'm not in the office rest of the week but will have limited access to my emails, but please do cc' Shajee and Bruno on emails in case there is something urgent.

Will keep you posted on any further developments.

Thank you,

Hi Patrick

Apologies, regarding the French translation. 1) I had updated using my high school French and 2) in the translation I had missed updating the change in date from June to December 31, 2017. I have revised in attached "4 – CIPA s.22…" , but of course, this should be reviewed.

Thanks

Hi Patrick,

I just wanted to ask you a question, please, for my own knowledge, regarding section (c)(ii) of the OIC. The OIC states:

(c) each advance (an "Advance") made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the "Reset Date") to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a "Third Party Loan"), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

In relation to the above highlighted section, how would the 'Minister' specify the amount to be deducted? Unlike the two existing OICS (attached) the OFA uses for lending to 3rd parties which overtly specify the rates, our draft OIC provides discretion to the Minister. I'm not aware of how/if the Minister's authority to determine the amount to be deducted has somehow been delegated to the OFA (perhaps this is a question for Sarah Neville?), or would this be included in the Minister's directive for the credit facility?

Thanks,

Sarah

Hi Linda,

As a matter of prudence, I just wanted to check with you on one aspect of the draft OIC for OFA to make loans to IESO under the proposed credit facility in relation to the Fair Hydro Plan. The OIC package will be delivered today to the DMO, but I wanted to confirm with you that the rates that under the Section (c) of the attached OIC are still appropriate (perhaps it is I should be asking Mike?, but since this is IESO related, I wanted to check with you first).

Section (c) deals with the rates the OFA pays to the Minister for any funds it borrows, and is essentially the same as the OFA's existing OIC from 1999. Section (c)(i) says if the OFA simply borrows funds from the Minister (which have not been loaned to a third party), the OFA pays the rate equal to the 90 day ONT T-Bill yield. Section(c)(ii) says that if the OFA uses the borrowed monies to fund 3rd party loans, then the rate will be equivalent to rate of interest payable to the OFA under 3rd party loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans.

Please let me know your thoughts.

Thanks,
Sarah

Hi Will,

Could you please update this list to reflect the inclusion of Amending Agreement 9 as well as the current Amending Agreement 10 you are working on?

Once that is done, please send to Lisa so she has some history, as well as file in Z:\Users\CMB\Documentation\IESO-OPA Merger\ONTARIO POWER AUTHORITY\Credit Agreement .

There is already the existing copy in that file, so you'll have to replace it with your updated version

Thanks,

Sarah

Update with the FHP Agreement.

1. Page number issue – Yesterday I asked Karin (18k expert) for some assistance with Word and how to fix my issue with automated page formatting. She was unable to help after some difficulty. She recommended that I copy each page to a new document and reformat each page. There was possibly some hidden codes that transferred over when I converted the original agreement from PDF to Word format. I copied each page and reformatted each page last night.

2. Grid Note - I noticed the original grid note (portrait style) did not resemble the current grid note available on OLMS. I created a New Grid Note (landscape style) to be included in the agreement. I noticed when I include a landscape document in Word, it effects the proceeding pages to landscape as well. I'm figuring out how to fix this.

3. Cost of funds over 40 days – I discovered that previously Cash Management and Settlements handled the Borrowing Notice requests. Carlos/Trading has taken over this task (thus the confusion of when to use 1 month cost of funds vs 3 month cost of funds.

4. Procedure update – IESO no longer executes the grid note. Borrowing notice is sent to Settlements and Cash Management. The Borrowing Notice is sent to Carlos. Carlos prices the request. Settlements sends the grid note to IESO and the trade is settled.

I will be working on this items today and try my very best to get a copy to Lisa as soon as possible today.

Hi Sarah,
Mike had 2 questions.
1. What is the min and max time for borrowing notices in the IESO agreements? I believe there are also election notices under the agreement as well, so out of an abundance of caution, lets provide that as well.
2. What's the status of being able to charge Metrolinx for work already done so far re: fuel hedging. I think this is something that was being worked on – I thought by Siva- but asking in case you know.
Thanks,
Opal

Hi Sarah

I don't believe we've exchange emails yet, but I'm a manager in the Electricity Finance Branch. Salman was updating me on discussions around the OIC for the IESO credit facility. For a start, I want to confirm that, we are proceeding on assumption that the credit facility would be with OFA. We do not have a lot of experience with the whole OIC process, so I was wondering if you could spare a few minutes, at your convenience, to meet with us. . I understand that your office handles OICs, so a quick chat may help guide us on how we can work together on this. I.e., documentation necessary and other process issues.

At the moment we're trying to get the upcoming LRC schedule so that we know what dates we might be working towards. Let us know when you have some time. We could come to your office, or if you prefer we could set up a teleconference.

Thanks

Bruno

Hi Sarah
Carlos says they definitely won't be getting even $1. Their benefit is internal knowledge building in advance of what is going on so they may have a better opportunity in getting business from the spv itself.
