Thanks for the suggestion – makes sense. We can strip the reference to the Electricity Act, and propose a more general subsection 2.

Thanks,

Hi Sarah,

Based on the information we have to date, I don't think we were thinking of imposing that same limitation of 12 month period but I see your point. I reread IESO request letter and suggest we do this instead to avoid lots of initial changes:

I. Change purpose to only state "short-term" needs:

1) Proceeds of Advances may be used only for short term financing requirements due to cash flow timing differences incurred as a result of IESO's role in the implementation and administration of the Ontario Fair Hydro Plan Act, 2017.

II. Leave subsection 2 in there for now.

If IESO has issues, they can raise it in their comments back. Should we need "medium-term" financing, we can amend the agreement later as needed.

Thoughts?

Salman

HI Salman,

One quick question re: subsection 2 below. Subsection 2 was added in amendment#7 of the $975M OFA-IESO existing credit facility; I think the idea was to ensure that any advance under the facility isn't rolled over for the entire term of the agreement, but that any one advance is limited to 12 months of rolls. Notwithstanding the reference to the Electricity Act in subsection 2, is the intention with this new credit facility to limit rolls to a 12 month period for any particular advance?

Thanks,

Sarah

Hi William,

In being consistent with the Directive, I think the purpose of the credit facility can be

written as follows, subject to any additional comments:

1) Proceeds of Advances may be used only for short to medium term financing requirements due to cash flow timing differences incurred as a result of IESO's role in the implementation and administration of the Ontario Fair Hydro Plan Act, 2017.

I don't think subsection 2 applies. When sending this to IESO, I recommend that we highlight the entire section and have them confirm or provide further details, especially the reference to the 423/04 regulation.

Salman

Hi Toby and Salman,

May I ask both of your assistance in defining the use of proceeds from the IESO credit facility below?

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized

to borrow funds pursuant to Regulation 423/04 made under the Electricity Act, 1998, subject to the following conditions:

(1) Proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and,

(2) With the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by the IESO under 25.33 of the Electricity Act, 1998, the IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance."

Toby, once Lisa has finished reviewing the IESO credit facility, I will implement her suggested changes and then circulate the draft for your review and comment.

Best regards,

at such time and on such other terms and conditions including the payment of interest as follows;

(a) the Borrower shall be entitled to advances of the loan (an "Advance") in such amounts and at such times as it requires provided that the aggregate amount advanced shall not exceed Two Billion Dollars;

(d) the Borrower shall pay to the Lender interest on each Advance at a rate which is determined as follows

(i) from the date of Advance to (but excluding) the date of repayment the Borrower shall pay to the Lender interest on the Advance at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for ninety days or longer, the interest rate shall be reset on the last day of each ninety day period (the "Reset Date") to the yield earned on ninety day Province of Ontario treasury bills on the Reset Date as determined by the Province;

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently loaned to third parties again, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Lender on that portion of the Advance included in any subsequent loan, and so on, until the Advance shall be repaid to the Province in full;

(e) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(f) despite paragraph (b), interest on any portion of an Advance made to the Borrower under the loan that is loaned by the Borrower as a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the Borrower receives payment of interest under the relevant Third Party Loan; and

Commented [WT13]:

Commented [WT14R13]: Confirmed last advance will be 7 calendar days before the CF agreement expires.

Commented [WT15]: Discussed the language with Carlos Yep. He is satisfied that Section 3.3.2 and 3.3.3 provides choice of either repayment or advance for a further period. The reset rate would apply to the portion that is extended. Unless I'm not understanding the question.

Commented [LS16]: This section and accompanying form needs further consideration/amendments. Need to add a provision re: interest rate for any such extension if applicable (unless treated as a late payment). LEGAL to review again.

Commented [LS17]: Once this section is finalized, please ensure Election Notice is consistent.

Commented [WT18]: Lisa, I confirmed this w/ Carlos and he is satisfied with the original wording. Below is how they use the fields.

(3) The calculation of interest on a Continued Advance shall be determined in accordance with Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. Hi Patrick,

As the OIC package was going through our OFA approvals, we have now been directed that the OIC amount should be $2.0 billion, with an expiry date of June 30, 2047, to line up with the IESO request and the term of the FHP.

I'll recirculate the updated LRC package once I get a finalized version in place. Could we update the OIC to reflect this as I know it may take some time.

Let us know.

Thank you,

Salman

MEMORANDUM TO: Scott Thompson
Deputy Minister of Finance

FROM: Gadi Mayman
Chief Executive Officer

SUBJECT: **Approval of an Order in Council related to the proposed Fair Hydro Act**

Attached for the Minister's approval and signature is an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans will allow the OFA to on-lend to the Independent Electricity Systems Operator ("IESO") as required under the Province's proposed Fair Hydro Act.

Under the mechanism in the proposed Fair Hydro Act, the IESO requires a revolving credit facility to cover clean energy costs if for some reason the Trust, at any time, chooses not to purchase a portion of the deferred Global Adjustment amounts. For the OFA to lend to the IESO, the OFA must be able to borrow from the Minister of Finance to on-lend. This proposed OIC authorizes the Minister of Finance to lend up to Canadian $3.5 billion to the OFA.

Attached for your signature is a memorandum from you to the Minister requesting that the Minister approve the OIC. This OIC is on track to be approved on June 27, 2017 together with proposed submission related to the proposed Fair Hydro Act.

Staff are available to address any questions you may have regarding this matter.

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA")~~CIPA~~, which will authorize the Minister of Finance to provide ~~a~~ loan(s) to the OFA in an amount of up to $3.5 billion. This authorization will be valid between the date of ~~this approval~~the OIC and ~~March 31~~June 30, 2053.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- This proposed OIC is required to fulfil the commitments under the proposed Fair Hydro Act. The timing of this OIC is critical to ensure borrowing authority for the OFA is available as it will be required to provide financing arrangements upon the enactment of the proposed Fair Hydro Plan Act.

- ~~—~~

s. 2 Approach and Intended Outcomes

- The OFA provides financing to government entities as directed by the Minister of Finance. For the OFA to on-lend, the OFA borrows from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to fulfil the commitments under the proposed Fair Hydro Act.

- The OFA will be required to provide a revolving credit facility for market liquidity purposes related to the on-going Fair Hydro Plan Act. In particular, the OFA will be lending to the Independent Electricity System Operator ("IESO").

- A key element of the proposed Fair Hydro Plan Act results in the IESO to incur a funding shortfall and unilaterally selling that shortfall as an asset to

OPG Trust. The proposed legislation does not compel OPG Trust to purchase any portion of the regulatory asset. As a result, IESO requires short-term financing in place in the event if for some reason the OPG Trust, at any time, chooses not to purchase a portion of the deferred Global Adjustment amounts under the proposed Fair Hydro Plan Act.

- IESO has currently requested that the OFA provide a revolving credit facility of up to $2 billion to support its role in the Fair Hydro Plan implementation. The $2 billion request from IESO is based on current data which could change in order to maintain the Fair Hydro Plan Act and the OIC authorization is $3.5 billion is to ensure there is sufficient contingency in place once the implementation begins..

- For the OFA to accommodate this request, the OFA can only on-lend funds borrowed from the Minister of Finance, which are authorized under an OIC, hence this request.

- The Minister of Finance will be required to provide a Directive to the OFA for any loans made as a result of this OIC and will subject to the of $3.5 billion set by this OIC.

s. 3 Direction and Urgency

Note appendices here, or ERASE, e.g.
See Appendix X, Variance Memo

- As announced on March 2, 2017 and highlighted as a commitment in Budget 2017, the Province intends to implement the Fair Hydro Plan which would reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the borrowing and on-lending capacity is instrumental in implementing the proposed Fair Hydro Plan.
- The Fair Hydro Plan ~~and its related proposed Fair Hydro~~ Act are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be approved concurrently as it is a crucial component of the successfully implementing the Fair Hydro Plan.
- The related Cabinet Minute XXXXX is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend to the OFA. Subject to the terms and conditions of a Directive from the Minister of

Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's Cost of Funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. ~~The~~A Dd~~i~~irective from the Minister will be required that will provide direction on~~provides details on~~ how the OFA can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed Fair Hydro Plan and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed Fair Hydro Plan. The related Cabinet note for the initiative should be referred to.

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the OFA in an amount of up to $3.5 billion. This authorization will be valid between the date of the OIC and June 30, 2053.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- This proposed OIC is required to fulfil the commitments under the proposed Fair Hydro Act. The timing of this OIC is critical to ensure borrowing authority for the OFA is available as it will be required to provide financing arrangements upon the enactment of the proposed Fair Hydro Plan Act.

s. 2 Approach and Intended Outcomes

- The OFA provides financing to government entities as directed by the Minister of Finance. For the OFA to on-lend, the OFA borrows from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to fulfil the commitments under the proposed Fair Hydro Act.

- The OFA will be required to provide a revolving credit facility for market liquidity purposes related to the on-going Fair Hydro Plan Act. In particular, the OFA will be lending to the Independent Electricity System Operator ("IESO").

- A key element of the proposed Fair Hydro Plan Act results in the IESO to incur a funding shortfall and unilaterally selling that shortfall as an asset to OPG Trust. The proposed legislation does not compel OPG Trust to purchase any portion of the regulatory asset. As a result, IESO requires short-term

financing in place in the event if for some reason the OPG Trust, at any time, chooses not to purchase a portion of the deferred Global Adjustment amounts under the proposed Fair Hydro Plan Act.

- IESO has currently requested that the OFA provide a revolving credit facility of up to $2 billion to support its role in the Fair Hydro Plan implementation. The $2 billion request from IESO is based on current data which could change in order to maintain the Fair Hydro Plan Act and the OIC authorization is $3.5 billion is to ensure there is sufficient contingency in place once the implementation begins..

- For the OFA to accommodate this request, the OFA can only on-lend funds borrowed from the Minister of Finance, which are authorized under an OIC, hence this request.

- The Minister of Finance will be required to provide a Directive to the OFA for any loans made as a result of this OIC and will subject to the of $3.5 billion set by this OIC.

s. 3 Direction and Urgency

Note appendices here, or ERASE, e.g.
See Appendix X, Variance Memo

- As announced on March 2, 2017 and highlighted as a commitment in Budget 2017, the Province intends to implement the Fair Hydro Plan which would reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the borrowing and on-lending capacity is instrumental in implementing the proposed Fair Hydro Plan.
- The Fair Hydro Plan Act are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be approved concurrently as it is a crucial component of the successfully implementing the Fair Hydro Plan.
- The related Cabinet Minute XXXXX is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend to the OFA. Subject to the terms and conditions of a Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's Cost of Funds.

- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister will be required that will provide direction on how the OFA can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed Fair Hydro Plan and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed Fair Hydro Plan. The related Cabinet note for the initiative should be referred to.

Hi Patrick,

As the OIC package was going through our OFA approvals, we have now been directed that the OIC amount should be $2.0 billion, with an expiry date of June 30, 2047, to line up with the IESO request and the term of the FHP.

I'll recirculate the updated LRC package once I get a finalized version in place. Could we update the OIC to reflect this as I know it may take some time.

Let us know.

Thank you,

Salman

Outstanding Business Issues – Ontario Fair Hydro Plan
Briefing Note

PURPOSE
Provide an overview of a few of the key remaining outstanding business issues that OPG and the Province are working through

BUSINESS ISSUES

1. **Provincial Support Agreement Term Sheet (~~Service and~~ Performance and Payment Guarantees)**
   - As part of the OFHP, the IESO will create and sell a regulatory asset to the OPG financing entity
   - In order to provide assurances to those with claims against the Financing Entity (eg. Holders of debt), and support credit ratings, the Province is providing both a Service Guarantee and a Performance Guarantee to ensure that the obligations of the IESO are carried out including obligations related to collecting and remitting clean energy adjustments.
   - **Next Steps:**
     - OPG and OFA and working towards the development of a term sheet
     - Timing: Guarantees are required to support rating agency review which is expected by the end of July

2. **Payments in Lieu of Taxes (PILs) Exemption**
   - The Province would like to minimize to the extent possible , the PILs payable by the OPG financing vehicle, as those costs will be recovered from ratepayers
   - The Province is considering regulation changes to exempt the income arising as a consequence of the Fair Hydro Plan from PILs
   - As part of the OFHP, the financing entity will raise debt and acquire "investment assets" from the IESO. Given the unique nature of the investment assets, there are no specific rules which govern the manner which investment assets should be treated for tax purposes, and further analysis is required to ensure the cost of the investment assets are appropriately recognized as a deduction or offset in computing the income of the financing entity
   - **Next Steps:**
     - The Ministries of Finance, OFA and OPG are working together to determine required regulation changes
     - Timing: [Next steps for a decision / when is a decision required / when would these regulation changes occur]

3. **Fair Hydro Plan - Master Subscription Agreement Term Sheet (Equity Injection Process)**

- OPG will require equity injections on a monthly basis in order to maintain its capital structure, and will require flexibility in order to issue shares as needed by the Province
- The Ministry of Energy received appropriation for $1.1B through PRRT to support equity injections for the 2017-18 period, and will continue to provide multi-year forecasts each year through PRRT
- **Next Steps:**
    - The Ministry of Energy, OFA and OPG are working through the short term mechanics of this process which will ultimately feed into a Master Subscription Agreement. A draft term sheet is underway.
    - Timing: OPG will require the ability to issue equity in July, so mechanics and agreements should be finalized in June

4. **Management Fees**
    - OPG will be providing all required services to the Trust as part of the OFHP, including planning, strategy, financing, deal execution etc.
    - The legislation allows OPG to establish and charge a management fee for those services in accordance with the regulations which are currently in development
    - OPG and OEB are currently working together on a management fee structure that balances the interests of minimizing costs and satisfying accounting consolidation requirements
    - **Next Steps:**
        - OPG and OEB will bring forward a recommended framework for developing management fees
        - Timing: For incorporation into regulations being brought forward in June

5. **IESO – Increased Credit Facilities**
    - The OPG financing entity has the right to purchase the regulatory asset from IESO but does not have to purchase it.
    - IESO is working with the OFA to increase the credit facilities in the event that the OPG financing entity does not purchase the regulatory asset
    - **Next Steps:**
        - OFA is drafting a new agreement for a $2 billion credit facility for the OFA to lend funds to IESO for FHP purposes. Concurrently, the OFA is seeking LRC approval for a new $2 billion OIC, as well as a Directive from the Minister of Finance, which are both necessary for the OFA to lend funds to IESO under the new Credit Facility. .....
        - Timing: The OIC is scheduled as item for the June 27, 2017 LRC meeting. The Directive and Credit Facility Agreement are currently being drafted, to be in place by July 1st, 2017.....

Hi Sarah and Malle,

As we have been working on the documents and OIC for the new OFA-IESO FHP credit facility, I was looking at the existing OFA OIC 675/97 (see page 10 of the attached .pdf) which underpins the existing 975M OFA-IESO credit facility as well as various other OFA loans. While there are no active IESO advances under this loan, there are other active OFA loans to third parties under this OIC.

Accompanying the 675/97 (on p. 14 of the attached .pdf) is a form of prom note issued by the OFA to the Minister of Finance on any loans the OFA borrows from the Minister in relation to that OIC. I am trying to locate the executed prom note for this OIC675/97. We have looked in the Documentation safe and it is not in there.

Would you have any record of this prom note having been executed?

Thanks,
Sarah

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow Six Hundred and Fifty-six Million Dollars from the Minister of Finance and has been authorized to do so by a borrowing by-law in accordance with the Act and approved by the Minister of Finance;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Six Hundred and Fifty-six Million Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus accrued interest shall be fully repaid by August 31, 2029;

(d) each advance (an "Advance") made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of advance to (but excluding) the date of repayment, the Advance shall bear interest at a per annum rate equivalent to the interest rate paid on ninety day Province of Ontario treasury bills (determined as at the auction date immediately preceding the date of the Advance), provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the "Reset Date") to the interest rate paid on ninety day Province of Ontario treasury bills as at the auction date immediately preceding the Reset Date for such ninety day period;

(ii) in the event that moneys included in an Advance are subsequently loaned by the OFA to third parties for the purposes contemplated in the Act, (a "Third Party Loan") the rate of interest payable by the OFA to the Province on the portion of the Advance so loaned may be adjusted at the option of the OFA effective as of the date of the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to either:

(A) the per annum rate of interest payable to the OFA under the Third Party Loan, or

(B) the per annum rate of interest payable to the OFA under the Third Party Loan less 25 basis points,

until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently loaned to third parties again, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance included in any subsequent loan, and so on, until the Advance shall be repaid to the Province in full;

MEMORANDUM TO: The Honourable Ernie Eves
Minister of Finance

SUBJECT: **Ontario Financing Authority 1999-2000 Borrowing OIC**

Attached for your approval and signature is an Order in Council (OIC) authorizing the Province to lend up to $656 Million to the Ontario Financing Authority ("OFA").

The amount authorized to be borrowed by the OFA from the Province will provide financing to Ontario Housing Corporation, Ontario Northland Transportation Commission and other public bodies. The borrowed funds can only be on-lent to these public bodies by the OFA for projects that have received approval from Management Board of Cabinet or the Minister of Finance or for specific lines of credit for cash management purposes.

The attached material contains supporting briefing notes and schedules. Staff are available to brief you should you have any questions regarding the OIC.

If you approve this request, will you please sign the proposed OIC so that it may be place on the agenda for the Cabinet meeting scheduled for March 10, 1999.

Bryne Purchase
Deputy Minister

ONTARIO FINANCING AUTHORITY

Issue:

An Order in Council (OIC) authorizing the Ontario Financing Authority (OFA) to borrow up to $656 million from the Province.

Comments:

- The OIC for $656 million will fund the OFA's lending requirements for the 1999/2000 fiscal year.

- The $656 million will be loaned to meet Government committments to Ontario Housing Corporation, Ontario Northland Transportation Commission and other public bodies as per attached schedule showing the projected use of funds for these organizations as well as the previous fiscal year advances.

- The OFA lends funds to public bodies, as an intermediary of the Province subject to the conditions and restrictions of the OFA Lending Policy.

- The OFA Lending Policy requires that the OFA Board approve an annual borrowing plan for the OFA that identifies;

  (i) the OFA's borrowing requirements for the year from the Province and any other sources; and

  (ii) the projects or purposes for which the borrowed funds will be used, including loans to public bodies for specific projects and contingencies.

- All necessary OFA Board and Management Board approvals must be in place before the OFA will execute this borrowing authority and on-lend funds to any government agency.

- Interest will be paid by the OFA to the Province under one of the following rates:

  - the Provincial 90-day Treasury Bill rate,
  - the rates charged by OFA on the corresponding loans by the OFA to government agencies, or
  - less 25 basis points on the said loans.

  This flexibility will allow the OFA to match the terms of the loan from the Province to the terms of the loans made by the OFA to government agencies.

RECOMMENDATION:

- Approval of the OIC authorizing a loan up to $656 million to the OFA.

1999-00 REVIEW OF OFA LENDING POLICY: FOR OFA LENDING UNDERTAKEN as an INTERMEDIARY of the PROVINCE

Issue

- Review of the OFA Lending Policy for lending activities undertaken where the OFA is acting as an intermediary of the Province.

Recommendation

- It is recommended that the OFA Board make no changes to the current OFA Lending Policy for the year 1999-00. No amendments are required to the Lending Policy since it still accurately reflects the lending activities of the OFA, and no change is anticipated in those lending activities.

Background

- Under the current Lending Policy, the OFA:

  (i) does not lend to public bodies, other than as an intermediary of the Province, without the prior approval of the OFA Board;

  (ii) advances loans to Crown Agencies and Other Public Bodies where the Province supports the provision of Provincial financing and it is advantageous to the Province for the OFA to provide the loan; and

  (iii) does not receive a fee from the Province or earn a profit for lending activities where it is acting as an intermediary on behalf of the Province.

- The Lending Policy requires that an annual borrowing plan for the OFA be provided to the OFA Board for approval along with a report outlining the status of all loans outstanding.

- Where Cabinet, Management Board of Cabinet or the Minister of Finance requests the OFA to advance a loan to a public body or authorizes the public body to borrow from the OFA, no further OFA Board approval is required.

- Where the Province has approved Provincial financing to a public body without specifying the role of the OFA, the OFA will advance the loan if:

  – the CEO of the OFA and the Director of Corporate Finance or a committee of the OFA Board or the Board has authorized the OFA to advance the loan; and

- there is sufficient allocation for the loan in the annual borrowing plan.

- The OFA will adhere to the lending terms and conditions outlined in the Lending Policy unless otherwise requested by Cabinet, Management Board of Cabinet or the Minister of Finance.

Promissory Note

For value received, the Ontario Financing Authority (the "Borrower") promises to pay to Her Majesty the Queen in right of Ontario as represented by the Minister of Finance, Province of Ontario (the "Lender") at the City of Toronto in lawful money of Canada, the lesser of;

(i) Two Billion One Hundred and Sixty Million Dollars; and
(ii) the aggregate unpaid principal balance of all advances made by the Lender as recorded on the reverse of this note or on any attachment described below;

at such time and on such other terms and conditions including the payment of interest as follows;

(a) the Borrower shall be entitled to advances of the loan (an "Advance") in such amounts and at such times as it requires;

(b) the Borrower shall be entitled to repay Advances plus accrued interest either in whole or in part and at such time or times as it determines provided that all Advances plus accrued interest shall be fully repaid by August 31, 2027;

(c) the Borrower shall be entitled to use the loan as a revolving credit facility allowing for successive advances of moneys repaid under the loan; provided that the maximum principal amount of the loan outstanding at any time shall not exceed Two Billion One Hundred and Fifty-Five Million Dollars;

(d) the Borrower shall pay to the Lender interest on each Advance at a rate which is determined as follows:

(i) from the date of advance to (but excluding) the date of repayment the Borrower shall pay to the Lender interest on the Advance at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills (determined as at the auction date immediately preceding the date of the Advance), provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the "Reset Date") to the yield earned on ninety day Province of Ontario treasury bills as at the auction date immediately preceding the Reset Date for such ninety day period;

(ii) in the event that moneys included in an Advance are subsequently loaned by the Borrower to third parties for the purposes contemplated in the Act, (a "Third Party Loan") the rate of interest payable by the Borrower to the Lender on the portion of the Advance so loaned may be adjusted at the option of the Borrower effective as of the date of the Third Party Loan so that the per annum rate of interest payable by the Borrower on such moneys is equivalent to either

(A) the per annum rate of interest payable to the Borrower under the Third Party Loan, or

(B) the per annum rate of interest payable to the Borrower under the Third Party Loan less 25 basis points,

rather than the rate specified in subparagraph (i), until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance;

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently loaned to third parties again, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Lender on that portion of the Advance included in any subsequent loan, and so on, until the Advance shall be repaid to the Province in full; and

(e) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year.

The undersigned authorizes the Lender to record on the reverse of this note or on any attachment to this note all advances, repayments and prepayments of principal and interest and the unpaid balance of principal from time to time. The undersigned agrees that in the absence of manifest error the record kept by the Lender on this note or any attachment shall be conclusive evidence of the matters recorded, provided that the failure of the Lender to record or correctly record any amount or date shall not affect the obligation of the undersigned to pay the outstanding principal amount of the Advances and interest.

Hi Sarah and Malle,
As we have been working on the documents and OIC for the new OFA-IESO FHP credit facility, I was looking at the existing OFA OIC 675/97 (see page 10 of the attached .pdf) which underpins the existing 975M OFA-IESO credit facility as well as various other OFA loans. While there are no active IESO advances under this loan, there are other active OFA loans to third parties under this OIC. Accompanying the 675/97 (on p. 14 of the attached .pdf) is a form of prom note issued by the OFA to the Minister of Finance on any loans the OFA borrows from the Minister in relation to that OIC. I am trying to locate the executed prom note for this OIC675/97. We have looked in the Documentation safe and it is not in there.
Would you have any record of this prom note having been executed?
Thanks,
Sarah

MEMORANDUM TO: The Honourable Ernie Eves
Minister of Finance

SUBJECT: **Ontario Financing Authority 1999-2000 Borrowing OIC**

Attached for your approval and signature is an Order in Council (OIC) authorizing the Province to lend up to $656 Million to the Ontario Financing Authority ("OFA").

The amount authorized to be borrowed by the OFA from the Province will provide financing to Ontario Housing Corporation, Ontario Northland Transportation Commission and other public bodies. The borrowed funds can only be on-lent to these public bodies by the OFA for projects that have received approval from Management Board of Cabinet or the Minister of Finance or for specific lines of credit for cash management purposes.

The attached material contains supporting briefing notes and schedules. Staff are available to brief you should you have any questions regarding the OIC.

If you approve this request, will you please sign the proposed OIC so that it may be place on the agenda for the Cabinet meeting scheduled for March 10, 1999.

Bryne Purchase
Deputy Minister

ONTARIO FINANCING AUTHORITY

Issue:

An Order in Council (OIC) authorizing the Ontario Financing Authority (OFA) to borrow up to $656 million from the Province.

Comments:

- The OIC for $656 million will fund the OFA's lending requirements for the 1999/2000 fiscal year.

- The $656 million will be loaned to meet Government committments to Ontario Housing Corporation, Ontario Northland Transportation Commission and other public bodies as per attached schedule showing the projected use of funds for these organizations as well as the previous fiscal year advances.

- The OFA lends funds to public bodies, as an intermediary of the Province subject to the conditions and restrictions of the OFA Lending Policy.

- The OFA Lending Policy requires that the OFA Board approve an annual borrowing plan for the OFA that identifies;

  (i) the OFA's borrowing requirements for the year from the Province and any other sources; and

  (ii) the projects or purposes for which the borrowed funds will be used, including loans to public bodies for specific projects and contingencies.

- All necessary OFA Board and Management Board approvals must be in place before the OFA will execute this borrowing authority and on-lend funds to any government agency.

- Interest will be paid by the OFA to the Province under one of the following rates:

  - the Provincial 90-day Treasury Bill rate,
  - the rates charged by OFA on the corresponding loans by the OFA to government agencies, or
  - less 25 basis points on the said loans.

  This flexibility will allow the OFA to match the terms of the loan from the Province to the terms of the loans made by the OFA to government agencies.

RECOMMENDATION:

- Approval of the OIC authorizing a loan up to $656 million to the OFA.

1999-00 REVIEW OF OFA LENDING POLICY: FOR OFA LENDING UNDERTAKEN as an INTERMEDIARY of the PROVINCE

Issue

- Review of the OFA Lending Policy for lending activities undertaken where the OFA is acting as an intermediary of the Province.

Recommendation

- It is recommended that the OFA Board make no changes to the current OFA Lending Policy for the year 1999-00. No amendments are required to the Lending Policy since it still accurately reflects the lending activities of the OFA, and no change is anticipated in those lending activities.

Background

- Under the current Lending Policy, the OFA:

  (i) does not lend to public bodies, other than as an intermediary of the Province, without the prior approval of the OFA Board;

  (ii) advances loans to Crown Agencies and Other Public Bodies where the Province supports the provision of Provincial financing and it is advantageous to the Province for the OFA to provide the loan; and

  (iii) does not receive a fee from the Province or earn a profit for lending activities where it is acting as an intermediary on behalf of the Province.

- The Lending Policy requires that an annual borrowing plan for the OFA be provided to the OFA Board for approval along with a report outlining the status of all loans outstanding.

- Where Cabinet, Management Board of Cabinet or the Minister of Finance requests the OFA to advance a loan to a public body or authorizes the public body to borrow from the OFA, no further OFA Board approval is required.

- Where the Province has approved Provincial financing to a public body without specifying the role of the OFA, the OFA will advance the loan if:

  – the CEO of the OFA and the Director of Corporate Finance or a committee of the OFA Board or the Board has authorized the OFA to advance the loan; and

- there is sufficient allocation for the loan in the annual borrowing plan.

- The OFA will adhere to the lending terms and conditions outlined in the Lending Policy unless otherwise requested by Cabinet, Management Board of Cabinet or the Minister of Finance.

Hi Linda,

As a matter of prudence, I just wanted to check with you on one aspect of the draft OIC for OFA to make loans to IESO under the proposed credit facility in relation to the Fair Hydro Plan. The OIC package will be delivered today to the DMO, but I wanted to confirm with you that the rates that under the Section (c) of the attached OIC are still appropriate (perhaps it is I should be asking Mike?, but since this is IESO related, I wanted to check with you first).

Section (c) deals with the rates the OFA pays to the Minister for any funds it borrows, and is essentially the same as the OFA's existing OIC from 1999. Section (c)(i) says if the OFA simply borrows funds from the Minister (which have not been loaned to a third party), the OFA pays the rate equal to **the 90 day ONT T-Bill yield.** Section(c)(ii) says that if the OFA uses the borrowed monies to fund 3rd party loans, then the rate will **be equivalent to rate of interest payable to the OFA under 3rd party loan less an amount as may be determined by the Minister of Finance** in respect of such Third Party Loan or a class of such Third Party Loans.

Please let me know your thoughts.

Thanks,

Sarah

Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Three Billion Five Hundred Million Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Three Billion Five Hundred Million Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by June 30, 2053;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

a) le prêt peut être consenti selon les montants et aux moments qui conviennent à l'OOF;

b) le remboursement des avances consenties au titre du prêt, plus les intérêts courus, peut à tout moment être effectué en totalité ou en partie, pourvu que le prêt et les intérêts courus soient entièrement remboursés au plus tard le 30 juin 2053;

c) chaque avance (« avance ») faite au titre du prêt autorisé par les présentes portera intérêt au taux est fixé comme suit :

(i) de la date où elle a été faite jusqu'à la date (non comprise) de son remboursement, l'avance portera intérêt à un taux annuel équivalant au rendement gagné sur des bons du Trésor de la province de l'Ontario de quatre-vingt-dix jours à la date précédant la date de l'avance fixée par la province, pourvu que ce taux d'intérêt soit rajusté le dernier jour de chaque période de quatre-vingt-dix jours (« date de rajustement ») selon le rendement gagné sur de tels bons du Trésor immédiatement avant la date de rajustement pour une période de quatre-vingt-dix jours décidée par la province, si l'avance est impayée pendant plus de quatre-vingt-dix jours;

(ii) dans l'éventualité où l'OOF se servirait de sommes comprises dans une avance pour financer des prêts à des tiers, le taux d'intérêt à payer par l'OOF à la province sur la partie de l'avance ainsi utilisée sera rajusté à la date à laquelle la partie de l'avance sera utilisée pour le financement du prêt à un tiers de façon que le taux d'intérêt annuel à payer par l'OOF sur de telles sommes soit équivalent à ce

dernier taux moins un montant que pourra fixer le ministre des Finances à l'égard d'un tel prêt ou d'une telle catégorie de prêt, jusqu'à la date (non comprise) à laquelle le prêt à un tiers sera remboursé, date à laquelle le taux d'intérêt établi au sous-alinéa (i) s'appliquera de nouveau à cette partie de l'avance;

(iii) dans l'éventualité où les sommes décrites au sous-alinéa (ii), une fois remboursées, seraient ultérieurement utilisées pour le financement de prêts à des tiers, le sous-alinéa (ii) s'appliquera de nouveau dans l'établissement du taux d'intérêt à payer à la province sur la partie de l'avance utilisée à cette fin, et ainsi de suite, jusqu'à ce que l'avance ait été remboursée intégralement à la province;

(iv) malgré les sous-alinéas (ii) et (iii), dans l'éventualité où aucun intérêt ne serait payable à l'OOF au titre d'un prêt à un tiers, aucun intérêt ne sera à payer par l'OOF sur la partie de l'avance ainsi utilisée et dans la mesure où les conditions du prêt à un tiers prévoient le report du paiement d'intérêts courus pour une période, le paiement d'intérêts au titre d'une avance ou d'une partie d'une avance sera également reporté pour une période d'égale durée;

d) l'intérêt payable relativement à toute période de moins d'un an sera calculé en fonction du nombre de jours réellement compris dans cette période, par rapport à une année comptant 365 jours;

e) par dérogation à l'alinéa a) ci-dessus, l'intérêt sur toute partie d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers est calculé comme il est indiqué ci-dessus, mais cet intérêt devient payable uniquement dans la mesure où l'OOF reçoit un paiement d'intérêts au titre du prêt à un tiers;

f) par dérogation à l'alinéa b) ci-dessus, toute partie du capital d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers devient payable uniquement dans la mesure où l'OOF reçoit un remboursement du capital au titre du prêt à un tiers

g) le prêt autorisé en vertu des présentes sera attesté par un billet à ordre.

Subject:	Question - OIC for new IESO Credit Facility
Date:	Tuesday, May 30, 2017 9:30:09 AM
Attachments:	CIPA OIC s.22 May 2017 (v.2) - ENG and FRE.DOCX

Hi Linda,

As a matter of prudence, I just wanted to check with you on one aspect of the draft OIC for OFA to make loans to IESO under the proposed credit facility in relation to the Fair Hydro Plan. The OIC package will be delivered today to the DMO, but I wanted to confirm with you that the rates that under the Section (c) of the attached OIC are still appropriate (perhaps it is I should be asking Mike?, but since this is IESO related, I wanted to check with you first).

Section (c) deals with the rates the OFA pays to the Minister for any funds it borrows, and is essentially the same as the OFA's existing OIC from 1999. Section (c)(i) says if the OFA simply borrows funds from the Minister (which have not been loaned to a third party), the OFA pays the rate equal to **the 90 day ONT T-Bill yield.** Section(c)(ii) says that if the OFA uses the borrowed monies to fund 3rd party loans, then the rate will **be equivalent to rate of interest payable to the OFA under 3rd party loan less an amount as may be determined by the Minister of Finance** in respect of such Third Party Loan or a class of such Third Party Loans.

Please let me know your thoughts.

Thanks,

Sarah

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Three Billion Five Hundred Million Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Three Billion Five Hundred Million Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by June 30, 2053;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

ATTENDU QUE le ministre des Finances peut, en vertu du paragraphe 22 (1) de la *Loi de 1993 sur le plan d'investissement* (la « Loi »), acheter des valeurs mobilières des personnes morales créées en vertu du paragraphe 2 (1) de la Loi ou leur consentir des prêts selon les montants, aux moments et aux conditions que le lieutenant-gouverneur en conseil estime opportuns;

Thank you, Andrea.
I've made a few changes – I thought maybe quarterly may suffice. Could you please fill in the OIC numbers below, and provide any other edits you think are necessary.
Because our goal is to make Corporate Finance responsible for the information, I'm thinking we keep the cleaned up version for ourselves, and send them a version without the TAS reconciliation. We can, however, note in the spreadsheet any key noticeable differences in the spreadsheet that "we became aware of" in touching base with Accounting (i.e. 47 vs. 40 million).
I'll then send out the e-mail.
Thanks,

Subject: (Draft Response) OFA Loan Update as at May 5, 2017

Sarah,

Draft email is as follows- not sure if you want to attach current rendition of the May 5 , 2017 spreadsheet but assumed yes at this point.

Hi Mara,

We sent the Loans spreadsheet to Corporate Finance as part of practice undertaken previously by Documentation and Corporate Finance to verify outstanding loan amounts under the OFA's existing lending OICs (currently there are two OIC YYY and ZZZ).

For OFA lending OICs, Documentation assists in obtaining new lending OICs if the existing OICs are not sufficient to cover relevant OFA Loans (the existing lending OICs are over 15 years old, so there has been no need to obtain a new OIC in some time). However, since Documentation does not originate the loans/loan agreements, Documentation is reliant on Corporate Finance for the provision and verification of OFA lending activity under such OICs in order to ensure that it is fully captured in OIC tables and the OFA does not exceed the borrowing authority under the applicable OICs. In order to keep the table up to date, we propose sending the spreadsheet on a quarterly basis for Corporate Finance to confirm. We will need to clarify the impact of capitalized interest and how it is determined as it seems unclear (the source and impact on amounts allocated under the OICs) based on past reporting. We have not specified Capitalized Interest or Repayments at this point.

Note that we have made changes to the spreadsheet since we initially sent it to Corporate Finance on May 8, 2017. The current iteration is attached for consideration then further discussion to ensure consensus.

It is our understanding that Corporate Finance, with the assistance of OFA legal, prepares an annual lending directive which includes an estimate of the approved annual OFA lending. During the course of this process, OFA legal confirms with Corporate Finance whether there is sufficient authority under existing OIC's or whether a new OFA lending OIC must be sought.

In the past, Accounting has not provided/verified the loan information as it impacts OIC tables. With the implementation of OLMS, we are aware that information flows/inputs may have been affected. In the event that the introduction of OLMS means existing processes need to change, Corporate

Finance and Documentation will need to coordinate with Accounting on the best approach.

Hi Andrea,
Corporate Finance does not administer the OFA loans or the OLMS. To confirm amounts repaid, capitalized interest, etc. you should contact OFA's Accounting group (Siva Nathan). Also, I believe that the maturity date noted for the Ontario Infrastructure and Lands Corporation line of credit is incorrect. OILC's last line of credit expired in June 2016. We recently started working with IO on a new line of credit facility but the details have yet to be finalized. In addition, we have been in discussion with MAESD regarding providing loans totalling $300M to colleges and universities in 2017-18 for energy retrofit projects but this loan program has yet to go forward for Treasury Board and Cabinet approval.
Thanks,
Mara

Hi,
Please find attached the updated listing of the OFA Loans as at May 5, 2017. We used the Oct 31, 2013 as the base and then we removed (moved to bottom) what seemed to have matured or no longer exist based on OLMS (current loan system), added new and updated Borrowing Authority Allocated based on OLMS as applicable. We adjusted some maturity dates (OILC and OEFC lines of credit maturity dates) which were incorrect based on documentation in place.
The last update was a joint effort between Documentation and Salman in 2013. We ask that Corporate Finance review to ensure its agreement with the attached update dated May 5, 2017. We are aware of no new school loans but we rely on Corporate Finance for updated information

regarding new loans.
Let me know should you have any questions or concerns.

Hi Mara,
We sent the Loans spreadsheet to Corporate Finance as part of practice undertaken previously by Documentation and Corporate Finance to verify outstanding loan amounts under the OFA's existing lending OICs (currently there are two OIC 675/97 and 767/99).
For OFA lending OICs, Documentation assists in obtaining new lending OICs if the existing OICs are not sufficient to cover relevant OFA Loans (the existing lending OICs are over 15 years old, so there

The current iteration is attached for consideration then further discussion to ensure consensus. Note that the allocated amounts highlighted in orange represent what we believe to be the amount of authority that should be deemed used/allocated. Likewise, for the calculation of the remaining authority the orange represents our final calculation.

It is our understanding that Corporate Finance, with the assistance of OFA legal, prepares an annual lending directive which includes an estimate of the approved annual OFA lending. Hi Lisa,
Sarah's group is working on the agreement and the terms of the agreement, at a high level, are what were included in IESO's request letter, which the OFA appears to have agreed to.
I think the directive covers the key terms of the request which were in the request letter from IESO and anything further will be subject to any negotiation between OFA and IESO. If a specific term is in the directive language is causing an issue, we could leave it out?
It may look like a lot of track changes, but most of them are just moving things around.
I just don't want the directive to be similar to the term sheet since the term sheet may change if need be and the directive still needs flexibility for any negotiation that may need to occur.
Happy to share it with MOF legal as is as well.

Salman

Hi Salman,
In my view it would be prudent to develop a term sheet prior to finalizing the draft directive as it is currently missing details. Is this a possibility? Once I receive a term sheet I will create a new draft of the directive.

Hi Lisa,
I've made some changes to the directive, some based on our discussion and some based on an example of another directive I found for a line of credit (see pdf attached, albeit between OEFC and IESO). You'll see that there are still some questions to confirm, so we can leave those comments in.
If you can take a look at the drafting and if you're okay with it (feel free to make additional changes), I will clean it up and circulate to CMD/senior management for another review and to gauge some feedback on the remaining questions.
Accordingly, I can drop by any time today to discuss further.
Thank you again,
Salman

In my view it would be prudent to develop a term sheet prior to finalizing the draft directive as it is currently missing details. Is this a possibility? Once I receive a term sheet I will create a new draft of the directive.

Hi Lisa and Salman,
I note that IESO made the following for the term of the credit facility request in their attached letter:

- 5 year term - to align with the FHP's initial period of deferral of electricity prices plus a contingency period (i.e. to September 30, 2022);

I think that an the actual date should be referenced in the OIC, since they are asking for slightly in excess of a 5 year period.
I think we would usually want to run the draft directive by Patrick as LSB as well?
Thanks,
Sarah

Commented [SQ25R4]: This will be subject to how the agreement is set up. Will need to speak with Carlos.

As of now, IESO is requesting that advances be allowed for as minimum as 7-days. There is no equivalent rate for a 7-day borrowing. Initial conversations with CMD suggested we simply do "if advance less than 30 days, use 30-day t-bill" – or similarly, since advances are expected to be no more than 95 days, simply use 90-day t-bill rate for all advances.

Commented [SQ26]: OIC expires on December 31, 2047. However, changing this date to match IESO request, so suggesting for this to state "5-year after date of corresponding credit agreement.

Commented [LS7]: IESO is requesting 5 year term. New directive after 5 years?

Pursuant to Orders in Council ###/##, made under subsection 22(1) of the *Capital Investment Plan Act, 1993,* the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for the Loan made under the authority of this Directive, the amount of the spread retained by the OFA shall be equal totwenty-five (25) basis points.

Commented [LS8]: For further discussion.

Commented [SQ29]: For senior management:

Should the spread be retained like most other loan agreements? Or should we remit this back to Province.

Commented [SQ25R4]: This will be subject to how the agreement is set up. Will need to speak with Carlos.

As of now, IESO is requesting that advances be allowed for as minimum as 7-days. There is no equivalent rate for a 7-day borrowing. Initial conversations with CMD suggested we simply do "if advance less than 30 days, use 30-day t-bill" – or similarly, since advances are expected to be no more than 95 days, simply use 90-day t-bill rate for all advances.

Commented [SQ26]: OIC expires on December 31, 2047. However, changing this date to match IESO request, so suggesting for this to state "5-year after date of corresponding credit agreement.

Commented [LS7]: IESO is requesting 5 year term. New directive after 5 years?

Pursuant to Orders in Council ###/##, made under subsection 22(1) of the *Capital Investment Plan Act, 1993,* the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for the Loan made under the authority of this Directive, the amount of the spread retained by the OFA shall be equal totwenty-five (25) basis points.

Commented [LS8]: For further discussion.

Commented [SQ29]: For senior management:

Should the spread be retained like most other loan agreements? Or should we remit this back to Province.

Hi Lisa,

I've made some changes to the directive, some based on our discussion and some based on an example of another directive I found for a line of credit (see pdf attached, albeit between OEFC and IESO). You'll see that there are still some questions to confirm, so we can leave those comments in.

If you can take a look at the drafting and if you're okay with it (feel free to make additional changes), I will clean it up and circulate to CMD/senior management for another review and to gauge some feedback on the remaining questions.

Accordingly, I can drop by any time today to discuss further.

Thank you again,
Salman

Hi Lisa,

I've made some changes to the directive, some based on our discussion and some based on an example of another directive I found for a line of credit (see pdf attached, albeit between OEFC and IESO). You'll see that there are still some questions to confirm, so we can leave those comments in.

If you can take a look at the drafting and if you're okay with it (feel free to make additional changes), I will clean it up and circulate to CMD/senior management for another review and to gauge some feedback on the remaining questions.

Accordingly, I can drop by any time today to discuss further.

Thank you Sarah. Just to clarify – there should be an amending agreement and a new credit facility agreement. Is documentation working on both of these?

Hi Lisa,
Sarah's group is working on the agreement and the terms of the agreement, at a high level, are what were included in IESO's request letter, which the OFA appears to have agreed to.
I think the directive covers the key terms of the request which were in the request letter from IESO and anything further will be subject to any negotiation between OFA and IESO. If a specific term is in the directive language is causing an issue, we could leave it out?
It may look like a lot of track changes, but most of them are just moving things around.
I just don't want the directive to be similar to the term sheet since the term sheet may change if need be and the directive still needs flexibility for any negotiation that may need to occur.
Happy to share it with MOF legal as is as well.
Regards,
Salman

Hi Salman,
In my view it would be prudent to develop a term sheet prior to finalizing the draft directive as it is currently missing details. Is this a possibility? Once I receive a term sheet I will create a new draft of the directive.
Thank you,
Lisa

Hi Lisa,
I've made some changes to the directive, some based on our discussion and some based on an example of another directive I found for a line of credit (see pdf attached, albeit between OEFC and IESO). You'll see that there are still some questions to confirm, so we can leave those comments in.
If you can take a look at the drafting and if you're okay with it (feel free to make additional changes), I will clean it up and circulate to CMD/senior management for another review and to gauge some feedback on the remaining questions.
Accordingly, I can drop by any time today to discuss further.
Thank you again,
Salman

Thanks, Lisa.
I've accepted your changes and cleaned up the draft. Based on Salman's comment, I've removed the question IESO regarding "medium" term vs short term advances.
As such, I only have one comment box left as an inquiry for IESO.
I cleaned up one typo, and the title on the Grid Note was in the wrong place.
Will – Would you please format the grid note to be on one page and resend to us.

(a) to file and prove a claim for all amounts owing und this Agreement and to file such other papers or documents as may be necessary or advisable in order to have the claims of the OFA (including any claim for fees and disbursements of the OFA, its agents and counsel) allowed in such judicial proceeding; and

The assertion or employment of any right or remedy hereunder, or otherwise, shall not prevent the concurrent assertion or employment of any other appropriate right or remedy.

Section 5.6 Delay or Omission not Waiver.

No delay or omission of the OFA to exercise any right or remedy accruing upon any Event of Default shall impair any such right or remedy or constitute a waiver of any such Event of Default or an acquiescence therein. Every right or remedy given by this Article 5 or by law to OFA may be exercised from time to time, and as often as may be deemed expedient, by the OFA.

Thanks, Lisa.
I've accepted your changes and cleaned up the draft. Based on Salman's comment, I've removed the question IESO regarding "medium" term vs short term advances.
As such, I only have one comment box left as an inquiry for IESO.
I cleaned up one typo, and the title on the Grid Note was in the wrong place.
Will – Would you please format the grid note to be on one page and resend to us.

Hi Malle,

This is just a heads-up that we have been requested by Mike Manning to draft a non-disclosure agreement for hiring a dealer to advise on certain pricing matters for Hydro. I have very little information and Opal is seeking more detail, but I have been told that this is needed ASAP.

I don't recall Documentation ever drafting such an agreement, but perhaps you have some experience.

I am copying Kelly, as he is just finding out now that I will be asking his assistance to work on this.

I'll touch base with you in the morning when I have more detail.

Thanks,
Sarah

Hi Sarah,
Attached is CEFD comments/markup. Was waiting for one last confirmation but might as well send this out to you to which you seemed to have incorporated already.
For your 2 comments, highlighted below, the first question we need confirmed from IESO is their requirement. We prefer to go the route of doing the FHP requirement separately as well, so we need confirmation on if the requirement is $1.5 billion or is there anything else they would have used the $975M one for. We may need to reduce the $975M one.
Would you have LRC dates for June/July? Just trying to see how the timelines would fit in. You had mentioned you may have a table with some dates, just so we can work backwards.
Thanks,
Salman

Thank you, Salman
I asked Mike Manning about the changing the draw period from the current 28-95 days, to 7-95 days, and he is fine with that change.

Mike also is fine with the proposed "interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 percent per annum", as it exactly matches the rate on the current $975M facility.

Just so we agree on IESO's requested in terms of setting up the credit facility, is it also your understanding that IESO wishes to:

1) amend the $975M to allow for FHP draws and to reduce the draw period to 7-95 days, but the expiry date will remain unchanged at **December 31, 2019**, and;
2) have a new FHP exclusive facility for the requested additional $1,500M commitment expiring September 30, 2022, with the terms outlined in the letter.

Have you also received confirmation that OFA will be funding the new $1,500M commitment?

Thanks,

Sarah

Hello John,

I'm not sure if you've seen the attached letter as of yet. We have received this request from IESO to set-up a credit facility for IESO to borrow $1,500M to fund the Fair Hydro Program.

IESO indicates that they either wish to have the existing $975M credit facility between the OFA and IESO increased by $1,500M (incorporating their proposed provisions) or to have a separate $1,500M credit facility altogether. I'm aware that there have some discussions around this. Do you know if it has been decided if OFA or OEFC should provide this facility?

Thanks,

Sarah

Call me @ 905.403.6944 to discuss (…Ken can we discuss the interest exp/income flows when you have a moment).

As mentioned the current $975M supports the RPP today which will be transitioned to the new FH going forward – for this draft as discussed with my CFO I have left the $975M as is but will seek to use for FH too.

Thank you, Salman
I asked Mike Manning about the changing the draw period from the current 28-95 days, to 7-95 days, and he is fine with that change.
Mike also is fine with the proposed "interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 percent per annum", as it exactly matches the rate on the current $975M facility.
Just so we agree on IESO's requested in terms of setting up the credit facility, is it also your understanding that IESO wishes to:

1) amend the $975M to allow for FHP draws and to reduce the draw period to 7-95 days, but the expiry date will remain unchanged at **December 31, 2019**, and;
2) have a new FHP exclusive facility for the requested additional $1,500M commitment expiring September 30, 2022, with the terms outlined in the letter.

Have you also received confirmation that OFA will be funding the new $1,500M commitment?
Thanks,
Sarah

Hello John,

I'm not sure if you've seen the attached letter as of yet. We have received this request from IESO to set-up a credit facility for IESO to borrow $1,500M to fund the Fair Hydro Program.

IESO indicates that they either wish to have the existing $975M credit facility between the OFA and IESO increased by $1,500M (incorporating their proposed provisions) or to have a separate $1,500M credit facility altogether. I'm aware that there have some discussions around this. Do you know if it has been decided if OFA or OEFC should provide this facility?

Thanks,

Sarah

Hi Sarah,
Attached is CEFD comments/markup. Was waiting for one last confirmation but might as well send this out to you to which you seemed to have incorporated already.
For your 2 comments, highlighted below, the first question we need confirmed from IESO is their requirement. We prefer to go the route of doing the FHP requirement separately as well, so we need confirmation on if the requirement is $1.5 billion or is there anything else they would have used the $975M one for. We may need to reduce the $975M one.
Would you have LRC dates for June/July? Just trying to see how the timelines would fit in. You had mentioned you may have a table with some dates, just so we can work backwards.
Thanks,
Salman

Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan~~rogram~~**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its inten~~s~~tion to implement the proposed Fair Hydro Plan~~program~~ (FHP) to reduce electricity prices for eligible consumers in the province. Proposed l~~L~~egislation ~~is expected to be~~was introduced this month for the program. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that to support the IESO's role in implementation it will need greater credit liquidity than currently exists.

The existing credit facility between the IESO and the Ontario Financing Authority~~'s~~ (OFA) is $975 million. The IESO proposes that an additional facility/commitment be provided in the amount of $1,500 million. This would enable the IESO to provide interim financing for the FHP's spreading out of global adjustment costs~~smoothing~~ for a period of several months, if needed.

We suggest the OFA's current $975 million agreement and the new separate (or co-mingled) FHP agreement consider the following key provisions:

- FHP: 5 year term to align with the FHP's initial period of deferral of electricity prices~~, period~~ plus a few months of contingency (i.e., to September 30, 2022);
- FHP: interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 per cent per annum;
- FHP: drawings to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers;
- Existing $975 million facility: draws to permit for FHP purposes until the credit agreement for FHP purposes has been made available; and

Commented [A1]: Please confirm that the requirement is $1.5 billion as it is preferred to keep the $975M separate from FHP.

Commented [A2]: It is preferred that a separate credit facility be set up for FHP purposes. OFA is working to obtain the appropriate approvals required. Option to use the existing facility may be exercised if timing does not permit putting in place a new credit facility.

Commented [A3]: Can CMD provide comments on this? Sufficient?

Commented [A4]: Overall, would it be better to purely separate out the FHP borrowing – so a larger than $1.5 bn new facility, and potentially shrink the existing $975 facility?

Commented [A5]: $975 million agreement is for purposes outlined under section 25.33 of the Electricity Act. Seems FHP would fall under that but legal to confirm. Either way, agreement purpose would need to be amended.

- $975 million: a reduction in the 28 days minimum draw for the existing facility to a minimum of 7 days to a maximum of 95 days;

Commented [A6]: Subject to OFA Capital Markets.

Should the IESO find that there is persistent~~consistent~~ usage of these facilities we will contact the OFA for further arrangements.

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facility(ies) and we will provide such evidence for the OFA's records.

We appreciate the OFA's continue support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Dear Mr. Mayman,

As you are aware the Ontario government has announced its inten~~s~~tion to implement the proposed Fair Hydro Plan~~program~~ (FHP) to reduce electricity prices for eligible consumers in the province. Proposed l~~L~~egislation ~~is expected to be~~was introduced this month for the program. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that to support the IESO's role in implementation it will need greater credit liquidity than currently exists.

The existing credit facility between the IESO and the Ontario Financing Authority~~'s~~ (OFA) is $975 million. The IESO proposes that an additional facility/commitment be provided in the amount of $1,500 million. This would enable the IESO to provide interim financing for the FHP's spreading out of global adjustment costs~~smoothing~~ for a period of several months, if needed.

We suggest the OFA's current $975 million agreement and the new separate (or co-mingled) FHP agreement consider the following key provisions:

- FHP: 5 year term to align with the FHP's initial period of deferral of electricity prices~~, period~~ plus a few months of contingency (i.e., to September 30, 2022);
- FHP: interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 per cent per annum;
- FHP: drawings to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers;
- Existing $975 million facility: draws to permit for FHP purposes until the credit agreement for FHP purposes has been made available; and

Commented [A1]: Please confirm that the requirement is $1.5 billion as it is preferred to keep the $975M separate from FHP.

Commented [A2]: It is preferred that a separate credit facility be set up for FHP purposes. OFA is working to obtain the appropriate approvals required. Option to use the existing facility may be exercised if timing does not permit putting in place a new credit facility.

Commented [A3]: Can CMD provide comments on this? Sufficient?

Commented [A4]: Overall, would it be better to purely separate out the FHP borrowing – so a larger than $1.5 bn new facility, and potentially shrink the existing $975 facility?

Commented [A5]: $975 million agreement is for purposes outlined under section 25.33 of the Electricity Act. Seems FHP would fall under that but legal to confirm. Either way, agreement purpose would need to be amended.

- $975 million: a reduction in the 28 days minimum draw for the existing facility to a minimum of 7 days to a maximum of 95 days;

Commented [A6]: Subject to OFA Capital Markets.

Should the IESO find that there is persistent~~consistent~~ usage of these facilities we will contact the OFA for further arrangements.

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facility(ies) and we will provide such evidence for the OFA's records.

We appreciate the OFA's continue support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

DRAFT

Thank you, Salman
I asked Mike Manning about the changing the draw period from the current 28-95 days, to 7-95 days, and he is fine with that change.
Mike also is fine with the proposed "interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 percent per annum", as it exactly matches the rate on the current $975M facility.
Just so we agree on IESO's requested in terms of setting up the credit facility, is it also your understanding that IESO wishes to:

1) amend the $975M to allow for FHP draws and to reduce the draw period to 7-95 days, but the expiry date will remain unchanged at **December 31, 2019**, and;
2) have a new FHP exclusive facility for the requested additional $1,500M commitment expiring September 30, 2022, with the terms outlined in the letter.

Have you also received confirmation that OFA will be funding the new $1,500M commitment?
Thanks,
Sarah

Hello John,
I'm not sure if you've seen the attached letter as of yet. We have received this request from IESO to set-up a credit facility for IESO to borrow $1,500M to fund the Fair Hydro Program.
IESO indicates that they either wish to have the existing $975M credit facility between the OFA and IESO increased by $1,500M (incorporating their proposed provisions) or to have a separate $1,500M credit facility altogether. I'm aware that there have some discussions around this. Do you know if it has been decided if OFA or OEFC should provide this facility?
Thanks,
Sarah

See attached draft letter we hope to issue this week – for your comments (will appreciate by Thursday this week if any).
I did speak with Moody's on April 28 to obtain their feedback.
Call me @ 905.403.6944 to discuss (…Ken can we discuss the interest exp/income flows when you have a moment).
As mentioned the current $975M supports the RPP today which will be transitioned to the new FH going forward – for this draft as discussed with my CFO I have left the $975M as is but will seek to use for FH too.

1) IESO has requested "a reduction in the 28 days minimum draw for the existing facility to a minimum of 7 days to a maximum of 95 days." Currently the $975M OFA-IESO credit facility permits draws between 28 and 95 days. 2) IESO has requested the "interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 percent per annum". Hi Mike, Ken,
Did you have comments on the letter? Staff here have made some initial comments. IESO wanted to issue this this week.
I think on the last call, we had talked about it being cleaner to have a separate facility for the FHP. The draft letter seems to have a potential for IESO drawing both on the new facility and the existing one. Does that work for you?
Do the timelines and spread wording work for you?

Subject: FW: DRAFT IESO FH credit letter

Hello John,

I'm not sure if you've seen the attached letter as of yet. We have received this request from IESO to set-up a credit facility for IESO to borrow $1,500M to fund the Fair Hydro Program.

IESO indicates that they either wish to have the existing $975M credit facility between the OFA and IESO increased by $1,500M (incorporating their proposed provisions) or to have a separate $1,500M credit facility altogether. I'm aware that there have some discussions around this. Do you know if it has been decided if OFA or OEFC should provide this facility?

Thanks,
Sarah

See attached draft letter we hope to issue this week – for your comments (will appreciate by Thursday this week if any).

I did speak with Moody's on April 28 to obtain their feedback.

Call me @ 905.403.6944 to discuss (…Ken can we discuss the interest exp/income flows when you have a moment).

As mentioned the current $975M supports the RPP today which will be transitioned to the new FH going forward – for this draft as discussed with my CFO I have left the $975M as is but will seek to use for FH too.

Hi Mike,
I'm coordinating with John Kim on particulars of IESO's attached request, but would appreciate your input on the following:

1) IESO has requested "a reduction in the 28 days minimum draw for the existing facility to a minimum of 7 days to a maximum of 95 days." Currently the $975M OFA-IESO credit facility permits draws between 28 and 95 days. Is it acceptable to reduce the minimum amount to 7 days for the existing facility (to also be applied to the requested additional $1,500M commitment)?
2) IESO has requested the "interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 percent per annum". The current $975M OFA-IESO Credit Facility provides for this same rate. Would this rate be acceptable on the requested additional $1,500M commitment?

Thanks,
Sarah

Re: **IESO Credit Requirements for the 2017 Fair Hydro Program**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the Fair Hydro program (FHP) to reduce electricity prices for consumers in the province. Legislation is expected to be introduced this month for the program. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that to support the IESO's role in implementation it will need greater credit liquidity than currently exists.

The existing credit facility between the IESO and the Ontario Financing Authority's (OFA) is $975 million. The IESO proposes that an additional facility/commitment be provided in the amount of $1,500 million. This would enable the IESO to provide interim financing for the FHP's global adjustment smoothing for a period of several months if needed.

We suggest the OFA's current $975 million agreement and the new separate (or co-mingled) FHP agreement consider the following key provisions:

- FHP: 5 year term to align with the FHP's deferral of electricity prices period plus a few months of contingency (i.e. September 30, 2022);
- FHP: interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 percent per annum;
- FHP: drawings to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers;
- $975 million: draws to permit for FHP purposes; and
- $975 million: a reduction in the 28 days minimum draw for the existing facility to a minimum of 7 days to a maximum of 95 days;

Should the IESO find that there is consistent usage of these facilities we will contact the OFA

for further arrangements.

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facility(ies) and we will provide such evidence for the OFA's records.

We appreciate the OFA's continue support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Hi Will,
We have the attached request from IESO to set-up a credit facility for IESO to borrow $1,500 to fund the Fair Hydro Program. I am going to ask you to work on this file, please.
Currently, IESO has credit facilities with the OFA and OEFC.
The $975M facility referred to in the attached letter is an existing credit facility between the OFA and IESO. The original agreement for the credit facility, signed in 2005, was between the OPA and OFA. However, in 2014/2015, the OPA and IESO merged to simply form "IESO". Hence, the 2005 OPA-OFA credit facility became the OFA-IESO credit facility.
IESO is asking to either modify the $975M OFA-IESO credit facility to include an additional $1,500 with the proposed provisions in the letter **OR** to set up a new credit facility with the proposed provisions in the letter. It is not certain which route we should be going yet, and whether the credit facility for the $1500M should be with the OFA or OEFC.
The first step is to review the original $975M OFA-IESO credit facility agreement to see how the provisions that are being proposed compare to provisions in the agreement.. You'll note that there

are 9 amending agreements, but Lenin has included history for eight of the agreements(attached). I believe the 9th amending agreement extends the date (among possibly amended provisions) I think the best way to do this is to prepare a chart to compare the proposed provisions (the 5 bullet points in the letter) to the existing provisions in the agreement.
The files are located here:
Z:\Users\CMB\Documentation\IESO-OPA Merger\ONTARIO POWER AUTHORITY\Credit Agreement
This file is time sensitive, so I would need a draft by end of day tomorrow, please. If you need Andrea to assist with T-Bills and IO Loans tomorrow, please let me know. Your other projects can be put on the back burner.
Thanks,
Sarah

Hi Will,
We have the attached request from IESO to set-up a credit facility for IESO to borrow $1,500 to fund the Fair Hydro Program. I am going to ask you to work on this file, please.
Currently, IESO has credit facilities with the OFA and OEFC.
The $975M facility referred to in the attached letter is an existing credit facility between the OFA and IESO. The original agreement for the credit facility, signed in 2005, was between the OPA and OFA. However, in 2014/2015, the OPA and IESO merged to simply form "IESO". Hence, the 2005 OPA-OFA credit facility became the OFA-IESO credit facility.
IESO is asking to either modify the $975M OFA-IESO credit facility to include an additional $1,500 with the proposed provisions in the letter **OR** to set up a new credit facility with the proposed provisions in the letter. It is not certain which route we should be going yet, and whether the credit facility for the $1500M should be with the OFA or OEFC.
The first step is to review the original $975M OFA-IESO credit facility agreement to see how the provisions that are being proposed compare to provisions in the agreement.. You'll note that there

are 9 amending agreements, but Lenin has included history for eight of the agreements(attached). I believe the 9th amending agreement extends the date (among possibly amended provisions) I think the best way to do this is to prepare a chart to compare the proposed provisions (the 5 bullet points in the letter) to the existing provisions in the agreement.
The files are located here:

This file is time sensitive, so I would need a draft by end of day tomorrow, please. If you need Andrea to assist with T-Bills and IO Loans tomorrow, please let me know. Your other projects can be put on the back burner.
Thanks,
Sarah

Hi Mike, Ken,
Did you have comments on the letter? Staff here have made some initial comments. IESO wanted to issue this this week.
I think on the last call, we had talked about it being cleaner to have a separate facility for the FHP. The draft letter seems to have a potential for IESO drawing both on the new facility and the existing one. Does that work for you?
Do the timelines and spread wording work for you?

IESO is asking to either modify the $975M OFA-IESO credit facility to include an additional $1,500 with the proposed provisions in the letter **OR** to set up a new credit facility with the proposed provisions in the letter. It is not certain which route we should be going yet, and whether the credit facility for the $1500M should be with the OFA or OEFC.
The first step is to review the original $975M OFA-IESO credit facility agreement to see how the provisions that are being proposed compare to provisions in the agreement.. You'll note that there are 9 amending agreements, but Lenin has included history for eight of the agreements(attached). I believe the 9th amending agreement extends the date (among possibly amended provisions) I think the best way to do this is to prepare a chart to compare the proposed provisions (the 5 bullet points in the letter) to the existing provisions in the agreement.

This file is time sensitive, so I would need a draft by end of day tomorrow, please. If you need Andrea to assist with T-Bills and IO Loans tomorrow, please let me know. Your other projects can be put on the back burner.
Thanks,
Sarah

Hi Sarah,
Attached is CEFD comments/markup. Was waiting for one last confirmation but might as well send this out to you to which you seemed to have incorporated already.
For your 2 comments, highlighted below, the first question we need confirmed from IESO is their requirement. We prefer to go the route of doing the FHP requirement separately as well, so we need confirmation on if the requirement is $1.5 billion or is there anything else they would have used the $975M one for. We may need to reduce the $975M one.
Would you have LRC dates for June/July? Just trying to see how the timelines would fit in. You had mentioned you may have a table with some dates, just so we can work backwards.
Thanks,
Salman

Thank you, Salman
I asked Mike Manning about the changing the draw period from the current 28-95 days, to 7-95

days, and he is fine with that change.
Mike also is fine with the proposed "interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 percent per annum", as it exactly matches the rate on the current $975M facility.
Just so we agree on IESO's requested in terms of setting up the credit facility, is it also your understanding that IESO wishes to:

1) amend the $975M to allow for FHP draws and to reduce the draw period to 7-95 days, but the expiry date will remain unchanged at **December 31, 2019**, and;
2) have a new FHP exclusive facility for the requested additional $1,500M commitment expiring September 30, 2022, with the terms outlined in the letter.

Have you also received confirmation that OFA will be funding the new $1,500M commitment?
Thanks,
Sarah

IESO indicates that they either wish to have the existing $975M credit facility between the OFA and IESO increased by $1,500M (incorporating their proposed provisions) or to have a separate $1,500M credit facility altogether. I'm aware that there have some discussions around this. Do you know if it has been decided if OFA or OEFC should provide this facility?

Attached is CEFD comments/markup. Was waiting for one last confirmation but might as well send this out to you to which you seemed to have incorporated already.
For your 2 comments, highlighted below, the first question we need confirmed from IESO is their requirement. We prefer to go the route of doing the FHP requirement separately as well, so we need confirmation on if the requirement is $1.5 billion or is there anything else they would have used the $975M one for. We may need to reduce the $975M one.
Would you have LRC dates for June/July? Just trying to see how the timelines would fit in. You had mentioned you may have a table with some dates, just so we can work backwards.
Thanks,
Salman

Thank you, Salman
I asked Mike Manning about the changing the draw period from the current 28-95 days, to 7-95 days, and he is fine with that change.
Mike also is fine with the proposed "interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 percent per annum", as it exactly matches the rate on the current $975M facility.

Just so we agree on IESO's requested in terms of setting up the credit facility, is it also your understanding that IESO wishes to:

1) amend the $975M to allow for FHP draws and to reduce the draw period to 7-95 days, but the expiry date will remain unchanged at **December 31, 2019**, and;
2) have a new FHP exclusive facility for the requested additional $1,500M commitment expiring September 30, 2022, with the terms outlined in the letter.

Have you also received confirmation that OFA will be funding the new $1,500M commitment?
Thanks,
Sarah

Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan~~rogram~~**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its inten~~s~~tion to implement the proposed Fair Hydro Plan~~program~~ (FHP) to reduce electricity prices for eligible consumers in the province. Proposed l~~L~~egislation ~~is expected to be~~was introduced this month for the program. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that to support the IESO's role in implementation it will need greater credit liquidity than currently exists.

The existing credit facility between the IESO and the Ontario Financing Authority~~'s~~ (OFA) is $975 million. The IESO proposes that an additional facility/commitment be provided in the amount of $1,500 million. This would enable the IESO to provide interim financing for the FHP's spreading out of global adjustment costs~~smoothing~~ for a period of several months, if needed.

We suggest the OFA's current $975 million agreement and the new separate (or co-mingled) FHP agreement consider the following key provisions:

- FHP: 5 year term to align with the FHP's initial period of deferral of electricity prices~~, period~~ plus a few months of contingency (i.e., to September 30, 2022);
- FHP: interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 per cent per annum;
- FHP: drawings to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers;
- Existing $975 million facility: draws to permit for FHP purposes until the credit agreement for FHP purposes has been made available; and

Commented [A1]: Please confirm that the requirement is $1.5 billion as it is preferred to keep the $975M separate from FHP.

Commented [A2]: It is preferred that a separate credit facility be set up for FHP purposes. OFA is working to obtain the appropriate approvals required. Option to use the existing facility may be exercised if timing does not permit putting in place a new credit facility.

Commented [A3]: This is rate is the same as in the existing $975M Credit Facility and is acceptable.

Commented [A4]: Overall, would it be better to purely separate out the FHP borrowing – so a larger than $1.5 bn new facility, and potentially shrink the existing $975 facility?

Commented [A5]: $975 million agreement is for purposes outlined under section 25.33 of the Electricity Act. Seems FHP would fall under that but legal to confirm. Either way, agreement purpose would need to be amended.

- $975 million: a reduction in the 28 days minimum draw for the existing facility to a minimum of 7 days to a maximum of 95 days;

Commented [A6]: Agree that 28 minimum draw may be reduced to 7 days.

Should the IESO find that there is persistent~~consistent~~ usage of these facilities we will contact the OFA for further arrangements.

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facility(ies) and we will provide such evidence for the OFA's records.

We appreciate the OFA's continue support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

I'm not sure if you've seen the attached letter as of yet. We have received this request from IESO to set-up a credit facility for IESO to borrow $1,500M to fund the Fair Hydro Program.

IESO indicates that they either wish to have the existing $975M credit facility between the OFA and IESO increased by $1,500M (incorporating their proposed provisions) or to have a separate $1,500M credit facility altogether. I'm aware that there have some discussions around this. Do you know if it has been decided if OFA or OEFC should provide this facility?

Thanks,

Hello Ken,
As you were a recipient on this original e-mail from Anthony Martinello at IESO, I thought I would run CMD and CEFD's comments by you so far. I understand from Salman that Ron will be providing some additional comments shortly.
Ken, do you have any comments on IESO's letter? IESO has requested a response by today.
Thanks,
Sarah

Hi Sarah,
Attached is CEFD comments/markup. Was waiting for one last confirmation but might as well send this out to you to which you seemed to have incorporated already.
For your 2 comments, highlighted below, the first question we need confirmed from IESO is their requirement. We prefer to go the route of doing the FHP requirement separately as well, so we need confirmation on if the requirement is $1.5 billion or is there anything else they would have used the $975M one for. We may need to reduce the $975M one.
Would you have LRC dates for June/July? Just trying to see how the timelines would fit in. You had mentioned you may have a table with some dates, just so we can work backwards.
Thanks,
Salman

Thank you, Salman
I asked Mike Manning about the changing the draw period from the current 28-95 days, to 7-95 days, and he is fine with that change.

Mike also is fine with the proposed "interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 percent per annum", as it exactly matches the rate on the current $975M facility.

Just so we agree on IESO's requested in terms of setting up the credit facility, is it also your understanding that IESO wishes to:

1) amend the $975M to allow for FHP draws and to reduce the draw period to 7-95 days, but the expiry date will remain unchanged at **December 31, 2019**, and;
2) have a new FHP exclusive facility for the requested additional $1,500M commitment expiring September 30, 2022, with the terms outlined in the letter.

Have you also received confirmation that OFA will be funding the new $1,500M commitment?

Thanks,

Sarah

Hello John,

I'm not sure if you've seen the attached letter as of yet. We have received this request from IESO to set-up a credit facility for IESO to borrow $1,500M to fund the Fair Hydro Program.

IESO indicates that they either wish to have the existing $975M credit facility between the OFA and IESO increased by $1,500M (incorporating their proposed provisions) or to have a separate $1,500M credit facility altogether. I'm aware that there have some discussions around this. Do you know if it has been decided if OFA or OEFC should provide this facility?

Thanks,

Sarah

See attached draft letter we hope to issue this week – for your comments (will appreciate by Thursday this week if any).

I did speak with Moody's on April 28 to obtain their feedback.

Call me @ 905.403.6944 to discuss (…Ken can we discuss the interest exp/income flows when you have a moment).

As mentioned the current $975M supports the RPP today which will be transitioned to the new FH going forward – for this draft as discussed with my CFO I have left the $975M as is but will seek to use for FH too.

Hi all,
Thanks for the meeting today. Attached is a clean version of the directive. I don't we decided on whether we wanted the OIC mentioned in the directive, so I removed it for now since Ken was also of the view it was really not needed for this. Happy to add it back in if needed as I'm sure we may have at least another draft once we share this a little broader to senior management.
I also changed the font and made it two pages so that the signature page fits better.

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation and administration of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of providing short to medium term financing related to the OFHP.

The OFA will be borrowing funds for this requested credit facility under the authority of OIC ###, pursuant to which the Minister of Finance is authorized to lend a maximum of $2 billion.

Therefore:

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate equal to the Province's cost of funds based on the terms of the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread.

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than September 30, 2022.

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

Pursuant to OIC ####, the Minister of Finance is authorized to lend a maximum of $2 billion to the OFA for the credit facility

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of short to medium term financing related to the OFHP.

~~The OFA will be borrowing funds for this requested credit facility under the authority of OIC ###.~~

Therefore:

i) **Line of Credit**

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate established as of [insert], equal to the Province's cost of funds as based on the term as set out the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread ~~to cover the OFA's lending costs~~ ("~~Cost Recovery Fee~~Spread").

- ~~Advances under t~~The Line of Credit will only be made at the request and on the recommendation of the Minister of Energy.

Commented [LS1]: Program area to confirm; differs from LRC form

Commented [SQ22R1]: Mentioned in s1 of LRC form:

oThis will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017* as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.

Commented [SQ23]: Should this be mentioned in the second Whereas recital?

Commented [LS4]: Program area

Commented [SQ25R4]: This is a revolving credit facility, rates would be established as the OFA deems necessary, as set out in the Credit Agreement.

Commented [SQ26]: This is simply a spread – I would not classify this as a cost recovery fee.

Commented [LS7]: Business decision; program area to confirm.

Commented [SQ28R7]: Not Advances. Only the Agreement itself.

Commented [LS9]: Further discussion required. This may require the Minister of Energy to be a party to the loan agreement.

Commented [SQ210R9]: This is incorrect. The Credit Agreement will be made at the request of and recommendation of Minister of Energy, if at all – not the advances. Minister of Energy won't be a party to the proposed agreement.

DRAFT

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than ~~five years after the execution of the Credit Agreement~~September 30, 2022.

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

ii) Retention of spread

Pursuant to Order in Council ####, made under sub-section 22(1) of CIPA, the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for the Line of Credit made under the authority of this Directive, the amount of the spread retained by the OFA shall be for the amount of the ~~Cost Recovery Fee~~Spread as set out above.

Dated , 2017

Charles Sousa

Minister of Finance

Commented [LS11]: Is this reasonable given the principal amount of the line? Previous draft provided had 40 year term (as per draft OIC). IESO has requested 5 year term in letter dated 05/12/17,

Commented [SQ212R11]: We made the decision to do the OIC for the entire OFHP period in order to avoid going back to LRC for a new OIC as we expect the requirement for a credit facility will be there.
The Directive is more aligned with the ask from IESO, and is meant to be a little tighter on the terms.

As per IESO request and previous drafts, this should say September 30, 2022.

Commented [LS13]: Confirm authorization is contained in new OIC

Commented [LS14]: As previously discussed, this is a business decision. My understanding is that this is generally retained only where there is commercial risk. Should this be remitted back to the Province?

Commented [SQ215R14]: We will be retaining this to remain consistent with past credit facility – unless otherwise advised.

Hi all,
Thanks for the meeting today. Attached is a clean version of the directive. I don't we decided on whether we wanted the OIC mentioned in the directive, so I removed it for now since Ken was also of the view it was really not needed for this. Happy to add it back in if needed as I'm sure we may have at least another draft once we share this a little broader to senior management.
I also changed the font and made it two pages so that the signature page fits better.

Hello Mike,

Per your conversation with Opal, attached is a form of Non-Disclosure Agreement that can be sent to Ministry of Energy for their consideration.

You may note to MOE that the agreement may still require some additional detail, and that we have highlighted for them on the first page of the draft a number of issues that they may want to consider incorporating, including the clarification of the scope services provided and any relevant conflicts of interest. They may also want to consider entering into a separate agreement for advisory services, as discussed on the first page of the draft.

Thanks,
Sarah

Hi William,

The answer to your question is yes. I will leave the interest rate language as is in the draft agreement – it is a reasonable description of the interest rate setting process that you have described.

Hello Lisa,

Regarding:

"The question therefore is, is the language in Section 3.4 an accurate representation (provides enough flexibility for the trader)if a trader was to apply the 3 month cost of funds for borrowing a borrowing request at 45 days for example. If not, please provide suggestive language for flexibility".

I discussed the wording in Section 3.4 (2) with Carlos. Currently there is a system limitation that only allows Trading to select a 1 month and a 3 month cost of funds and as an operational decision not to use linear interpolation. In light of these operational limitations Carlos is of the view that the current wording in Section 3.4 (2) below is satisfactory.

Let me know if you have any additional concerns.

Thanks,

Will

Hello Lisa,

I've reviewed 5 agreements and they all seem to generally to be worded similarly or a variation of the same meaning. Let me know if you require more information.

"All such costs, charges and expenses shall bear interest at the Province's cost of funds (plus any applicable spread as determined by the Ontario Financing Authority)"

Hi William,

Can you please confirm the exact process for determining the rate? Is it interpolation? Do you have precedent agreements with such language? Or perhaps MOF Legal might have some precedents.

Thank you,

Hello Lisa,

Please find the OFHP IESO OFA Credit Facility Agreement, agreement comparison and the original agreement.

Question:

Section 3.4 Interest on Advances.

To date all advances/rollovers under IESO OFA Credit Facility $975 million (28-95 days) have been approximately 30 days and there has been no circumstances where the term has exceeded 30days and the 1 month cost of funds for borrowing with a similar term has always applied.

Right now for the new OFHP IESO OFA Credit Facility advances will range from 7 – 95 days and either the 1 month or the 3 month cost of funds for borrowing will apply.

The question therefore is, is the language in Section 3.4 an accurate representation (provides enough flexibility for the trader)if a trader was to apply the 3 month cost of funds for borrowing a borrowing request at 45 days for example. If not, please provide suggestive language for flexibility.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the OFA's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest

HI Will and Lisa,

In looking at the draft Directive, I noted that the purpose of the credit facility is to provide "**short to medium** term financing related to the OFHP". Given these parameters, I thought it appropriate to remove the reference to "short-term" credit facility in the agreement, and to just call it a credit facility.

I've also made the following amendments:

- I've shortened the recitals.
- For consistency, I've gone the through the document, and added "the" in front of IESO where it was missing. I've done the same thing for "OFA."
- I've changed some reference from the "Province" to the "OFA" under section 2.9 and in the definition of Credit Facility.

Thanks,
Sarah

Question:

Section 3.4 Interest on Advances.

To date all advances/rollovers under IESO OFA Credit Facility $975 million (28-95 days) have been approximately 30 days and there has been no circumstances where the term has exceeded 30days and the 1 month cost of funds for borrowing with a similar term has always applied.

Right now for the new OFHP IESO OFA Credit Facility advances will range from 7 – 95 days and either the 1 month or the 3 month cost of funds for borrowing will apply.

The question therefore is, is the language in Section 3.4 an accurate representation (provides enough flexibility for the trader)if a trader was to apply the 3 month cost of funds for borrowing a borrowing request at 45 days for example. If not, please provide suggestive language for flexibility.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the OFA's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest

Will

Hi William,
I started looking at this agreement and realized that you have copied the terms of the Directive into the recital – they do not belong there. Can you please delete these and provide me with a blacklined compare version from the original agreement for ease of reference?
Thank you,
Lisa

HI Will and Lisa,

In looking at the draft Directive, I noted that the purpose of the credit facility is to provide "**short to medium** term financing related to the OFHP". Given these parameters, I thought it appropriate to remove the reference to "short-term" credit facility in the agreement, and to just call it a credit facility.

I've also made the following amendments:

- I've shortened the recitals.
- For consistency, I've gone the through the document, and added "the" in front of IESO where it was missing. I've done the same thing for "OFA."
- I've changed some reference from the "Province" to the "OFA" under section 2.9 and in the definition of Credit Facility.

Thanks,

Sarah

Subject: FW: FHP IESO OFA Short Term Credit Facility Agreement (Draft)

Hello Lisa,

Please find the OFHP IESO OFA Credit Facility Agreement, agreement comparison and the original agreement.

Question:

Section 3.4 Interest on Advances.

To date all advances/rollovers under IESO OFA Credit Facility $975 million (28-95 days) have been approximately 30 days and there has been no circumstances where the term has exceeded 30days and the 1 month cost of funds for borrowing with a similar term has always applied.

Right now for the new OFHP IESO OFA Credit Facility advances will range from 7 – 95 days and either the 1 month or the 3 month cost of funds for borrowing will apply.

The question therefore is, is the language in Section 3.4 an accurate representation (provides enough flexibility for the trader)if a trader was to apply the 3 month cost of funds for borrowing a borrowing request at 45 days for example. If not, please provide suggestive language for flexibility.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the OFA's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest

Will

Hello Lisa,

I've reviewed 5 agreements and they all seem to generally to be worded similarly or a variation of the same meaning. Let me know if you require more information.

Hi William,

Can you please confirm the exact process for determining the rate? Is it interpolation? Do you have precedent agreements with such language? Or perhaps MOF Legal might have some precedents.

Thank you,

Lisa

Hello Lisa,

Please find the OFHP IESO OFA Credit Facility Agreement, agreement comparison and the original agreement.

Question:

Section 3.4 Interest on Advances.

To date all advances/rollovers under IESO OFA Credit Facility $975 million (28-95 days) have been approximately 30 days and there has been no circumstances where the term has exceeded 30days and the 1 month cost of funds for borrowing with a similar term has always applied.

Right now for the new OFHP IESO OFA Credit Facility advances will range from 7 – 95 days and either the 1 month or the 3 month cost of funds for borrowing will apply.

The question therefore is, is the language in Section 3.4 an accurate representation (provides enough flexibility for the trader)if a trader was to apply the 3 month cost of funds for borrowing a borrowing request at 45 days for example. If not, please provide suggestive language for flexibility.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the OFA's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest

Thanks,
Will

Hi William,
Can you please confirm the exact process for determining the rate? Is it interpolation? Do you have precedent agreements with such language? Or perhaps MOF Legal might have some precedents.
Thank you,
Lisa

HI Will and Lisa,

In looking at the draft Directive, I noted that the purpose of the credit facility is to provide "**short to medium** term financing related to the OFHP". Given these parameters, I thought it appropriate to remove the reference to "short-term" credit facility in the agreement, and to just call it a credit facility.

I've also made the following amendments:

- I've shortened the recitals.
- For consistency, I've gone the through the document, and added "the" in front of IESO where it was missing. I've done the same thing for "OFA."
- I've changed some reference from the "Province" to the "OFA" under section 2.9 and in the definition of Credit Facility.

Thanks,

Sarah

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the OFA's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Commented [WT2]: Question for Lisa, other agreements stop taking advances one month before the agreement is set to expire. Since FHP has a 7 day minimum advancement should this be moved upto September 23, 2022?

Section 3.2 **Procedure for Advances.**

(1) Subject to Section 3.3(3), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a **"Borrowing Notice")** shall be substantially in the form of Schedule 1, shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance, and (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall be not later than 7 days and not later than 95 days after the date of the requested Advance. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2

outstanding principal amount of the grid promissory note. Such notations, in the absence of manifest error, shall be prima facie evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will

be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the IESO promissory note in respect of Advances held by it.

HI Will and Lisa,

In looking at the draft Directive, I noted that the purpose of the credit facility is to provide "**short to medium** term financing related to the OFHP". Given these parameters, I thought it appropriate to remove the reference to "short-term" credit facility in the agreement, and to just call it a credit facility.

I've also made the following amendments:

- I've shortened the recitals.
- For consistency, I've gone the through the document, and added "the" in front of IESO where it was missing. I've done the same thing for "OFA."
- I've changed some reference from the "Province" to the "OFA" under section 2.9 and in the definition of Credit Facility.

Thanks,

Sarah

Hello Lisa,

Please find the OFHP IESO OFA Credit Facility Agreement, agreement comparison and the original agreement.

Question:

Section 3.4 Interest on Advances.

To date all advances/rollovers under IESO OFA Credit Facility $975 million (28-95 days) have been

approximately 30 days and there has been no circumstances where the term has exceeded 30days and the 1 month cost of funds for borrowing with a similar term has always applied.
Right now for the new OFHP IESO OFA Credit Facility advances will range from 7 – 95 days and either the 1 month or the 3 month cost of funds for borrowing will apply.
The question therefore is, is the language in Section 3.4 an accurate representation (provides enough flexibility for the trader)if a trader was to apply the 3 month cost of funds for borrowing a borrowing request at 45 days for example. If not, please provide suggestive language for flexibility.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the OFA's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest

Thanks,
Will

Hi William,
I started looking at this agreement and realized that you have copied the terms of the Directive into the recital – they do not belong there. Can you please delete these and provide me with a blacklined compare version from the original agreement for ease of reference?
Thank you,

Hi Will,
With regard to the following section:

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 423/04 made under the Electricity Act, 1998, subject to the following conditions:

(1) Proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and,

(2) With the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by the IESO under 25.33 of the Electricity Act, 1998, the IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance."

Please reach out directly to Salman and Toby (cc' Lisa) to get their assistance in defining the use of proceeds for the IESO credit facility.
Also, Toby is going to need to review the credit facility agreement. Once Lisa comes back with her comments, you'll need to go through the draft, revise it accordingly, then you can let Lisa know that you will circulate to Toby so he can provide any comments as well. It would be best to give Toby the head's up that it will be coming.
Thanks,

Hello Lisa,
Please find the OFHP IESO OFA Credit Facility Agreement, agreement comparison and the original agreement.
Question:
Section 3.4 Interest on Advances.
To date all advances/rollovers under IESO OFA Credit Facility $975 million (28-95 days) have been approximately 30 days and there has been no circumstances where the term has exceeded 30days and the 1 month cost of funds for borrowing with a similar term has always applied.
Right now for the new OFHP IESO OFA Credit Facility advances will range from 7 – 95 days and either the 1 month or the 3 month cost of funds for borrowing will apply.
The question therefore is, is the language in Section 3.4 an accurate representation (provides enough

flexibility for the trader)if a trader was to apply the 3 month cost of funds for borrowing a borrowing request at 45 days for example. If not, please provide suggestive language for flexibility.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the OFA's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest

HI Will and Lisa,
In looking at the draft Directive, I noted that the purpose of the credit facility is to provide "**short to medium** term financing related to the OFHP". Given these parameters, I thought it appropriate to remove the reference to "short-term" credit facility in the agreement, and to just call it a credit facility.
I've also made the following amendments:

- I've shortened the recitals.
- For consistency, I've gone the through the document, and added "the" in front of IESO where it was missing. I've done the same thing for "OFA."
- I've changed some reference from the "Province" to the "OFA" under section 2.9 and in the definition of Credit Facility.

Thanks,
Sarah

HI Will and Lisa,
In looking at the draft Directive, I noted that the purpose of the credit facility is to provide "**short to medium** term financing related to the OFHP". Given these parameters, I thought it appropriate to remove the reference to "short-term" credit facility in the agreement, and to just call it a credit facility.
I've also made the following amendments:

- I've shortened the recitals.
- For consistency, I've gone the through the document, and added "the" in front of IESO where it was missing. I've done the same thing for "OFA."
- I've changed some reference from the "Province" to the "OFA" under section 2.9 and in the definition of Credit Facility.

Thanks,
Sarah

Hello Lisa,
Please find the OFHP IESO OFA Credit Facility Agreement, agreement comparison and the original agreement.
Question:
Section 3.4 Interest on Advances.
To date all advances/rollovers under IESO OFA Credit Facility $975 million (28-95 days) have been approximately 30 days and there has been no circumstances where the term has exceeded 30days and the 1 month cost of funds for borrowing with a similar term has always applied.
Right now for the new OFHP IESO OFA Credit Facility advances will range from 7 – 95 days and either the 1 month or the 3 month cost of funds for borrowing will apply.
The question therefore is, is the language in Section 3.4 an accurate representation (provides enough flexibility for the trader)if a trader was to apply the 3 month cost of funds for borrowing a borrowing

request at 45 days for example. If not, please provide suggestive language for flexibility.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the OFA's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest

Thanks,
Will

"The question therefore is, is the language in Section 3.4 an accurate representation (provides enough flexibility for the trader)if a trader was to apply the 3 month cost of funds for borrowing a borrowing request at 45 days for example. If not, please provide suggestive language for flexibility".
I discussed the wording in Section 3.4 (2) with Carlos. Currently there is a system limitation that only allows Trading to select a 1 month and a 3 month cost of funds and as an operational decision not to use linear interpolation. In light of these operational limitations Carlos is of the view that the current wording in Section 3.4 (2) below is satisfactory.
Let me know if you have any additional concerns.

Hi William,

I started looking at this agreement and realized that you have copied the terms of the Directive into the recital – they do not belong there. Can you please delete these and provide me with a blacklined compare version from the original agreement for ease of reference?

Thank you,

Lisa

Hi Kelly,
I'm going to draw you into the nebulous world of FHP and am going to ask you to get familiar as you can with the attached information Opal has provided. This is still considered confidential. Essentially she looking to see, based on the information she's been provided, if you might be able to attempt to connect how this information fits together in order to better understand how the FHP is being structured.
Opal mentioned something to the effect that OPG is going to Energy to submit its request for a capital infusion, Energy is coming to the Province, the Province is investing funds in OPG and will get some shares in OPG. OPG will then go form some type of trust and invest those funds. Clear as mud? Thought so.
In other words, could you please review the docs and do your best to figure it out based on the information provided? If you have any comments or questions on the docs that are worth raising, please let me know.

Thanks,
Sarah

Hi Sarah,

The FHP seems to be taking shape but (as should be reasonably expected) much of the information is coming to me in bits and pieces. Would be good to have a Doc staff familiar with this as more info becomes available or is being developed. It's being kept at a fairly high level at this time, but don't want to be surprised if Documentation is needed to jump in. I've included the emails on the subject to help provide some context – they aren't all helpful though. What I've sent is for review and provide opportunity to comment as well as to ask questions.

The IESO will sell the right to collect deferred future revenue from ratepayers to the SPV in return for Global adjustment funding cash proceeds.
(The Province is providing both a service guarantee and a performance guarantee to ensure that the obligations of the IESO are carried out).

Notes:

* Tranche C sub debt from OPG via Capital Markets 5%

** Tranche B sub debt from OPG via OEFC 39% + Tranche C sub debt from OPG via OEFC 5%

*** Tranche A senior debt from Capital Markets 51%

The SPV structure is used to accomplish the following:

- SPV holds the right to charge customers for the benefit of debt holders;
- Allows the financing vehicle to be separated from OPG as an SPV structure is set up as generally single purpose entities with no other operations that could add risk to the SPV, dilute debt holder rights, allow parties from other operations to claim rights to the future recovery from customers or allow these other parties to initiate bankruptcy proceedings;
- Enables SPV to potentially get a higher credit rating than OPG;
- Supports consolidation with OPG provided accounting requirements arc satisfied;

This approach supports a number of objectives of the Global Adjustment Recovery Right:

- 51% external senior debt supports separation of the SPV from the Province
- 5% junior subordinated debt establishes OPG's "at risk" equity which supports separation of the SPV from the Province
- Subordinated debt provides flexibility to the financing structure and additional credit support to external debt holders
- Subordinated debt sourced from OPG (mainly funded by equity injection from the Province) minimizes impact on OPG credit metrics reducing risk of an OPG rating downgrade that could result in the SPV being consolidated directly with the Province as the SPY would be considered an arm of the Province.

Potential Documents For Documentation Review (where OEFC or OFA or Province are a party):

OEFC – OPG equity master subscription agreement term sheet (June)

Provincial service and performance guarantees re IESO

IESO needs a backstop credit facility in the event the SPV does not, or cannot, purchase “assets” from IESO (right to collect electricity bill payments).

Other documents look to me to be “indirect”, but we may be asked to comment on sub debt docs and the like (but the parties are the SPV and the bond market).

(ii) the aggregate unpaid principal balance of all advances made by the Lender as recorded on the reverse of this note or on any attachment described below;

at such time and on such other terms and conditions including the payment of interest as follows;

(a) the Borrower shall be entitled to advances of the loan (an "Advance") in such amounts and at such times as it requires provided that the aggregate amount advanced shall not exceed ~~$2.0 billion~~Two Billion Dollars;

(b) the Borrower shall be entitled to repay Advances either in whole or in part and at such time or times as it determines provided that all Advances plus any accrued interest shall be fully repaid by December 31, 2047;

(c) the Borrower shall be entitled to use the loan as a revolving credit facility allowing for successive advances of moneys repaid under the loan; provided that the maximum principal~~le~~ amount of the loan outstanding at any time shall not exceed ~~$2.0 billion~~Two Billion Dollars;

(d) the Borrower shall pay to the Lender interest on each Advance at a rate which is determined as follows

(i) from the date of Advance to (but excluding) the date of repayment the Borrower shall pay to the Lender interest on the Advance at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for ninety days or longer, the interest rate shall be reset on the last day of each ninety day period (the "Reset Date") to the yield earned on ninety day Province of Ontario treasury bills on the Reset Date as determined by the Province;

(ii) in the event that moneys included in an Advance are subsequently loaned by the Borrower to third parties for the purposes contemplated in the Act, (a "Third Party Loan") the rate of interest payable by the Borrower to the Lender on the portion of the Advance so loaned shall be adjusted at the option of the OFA effective as of the date of the Third Party Loan so that the per annum rate of interest payable by the Borrower on such moneys is equivalent to either:

(A) the per annum rate of interest payable to the Borrower under the Third Party Loan, or

(B) the per annum rate of interest payable to the Borrower under the Third Party Loan less an amount not exceeding 40 basis points,

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently loaned to third parties again, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Lender on that portion of the Advance included in any subsequent loan, and so on, until the Advance shall be repaid to the Province in full;

(d) despite subparagraphs (c)(ii) and (iii) in the event that no interest is payable to the Borrower under a Third Party Loan, no- interest shall be payable by the Borrower on the portion of the Advance so loaned and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period;

(e) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(f) despite paragraph (b), interest on any portion of an Advance made to the Borrower under the loan that is loaned by the Borrower as a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the Borrower receives payment of interest under the relevant Third Party Loan; and

(g) despite paragraph (b), any portion of the principal of an Advance made to the Borrower under the loan that is loaned by the Borrower as a Third Party Loan shall become payable only to the extent the Borrower receives repayment of principal under the relevant Third Party Loan.

2009 – 40 basis points

Read the wording in the draft OIC in terms of the wording to include, then check with Lisa to see what type of additional written authorization is required for the Minister to specify 'the amount determined by the Minister of Finance" or is this handled by the Directive that is being drafted

that in the absence of manifest enor the record kept by the Lender on this note or any attachment shall be conclusive evidence of the matters recorded, provided that the failure of the Lender to record or correctly record any amount or date shall not affect the obligation of the undersigned to pay the outstanding principal amount of the Advances and interest.

Hi Sarah
Attached is a document (ppt) that Ryan and I put together that shows the structure of the FHP, largely based on OPG's "whitepaper" of February 27th and relevant info gleaned from what was attached.
I can walk you through it.

Hi Kelly,
I'm going to draw you into the nebulous world of FHP and am going to ask you to get familiar as you can with the attached information Opal has provided. This is still considered confidential. Essentially she looking to see, based on the information she's been provided, if you might be able to attempt to connect how this information fits together in order to better understand how the FHP is being structured.
Opal mentioned something to the effect that OPG is going to Energy to submit its request for a capital infusion, Energy is coming to the Province, the Province is investing funds in OPG and will get some shares in OPG. OPG will then go form some type of trust and invest those funds. Clear as mud? Thought so.
In other words, could you please review the docs and do your best to figure it out based on the information provided? If you have any comments or questions on the docs that are worth raising, please let me know.

Thanks,
Sarah

Subject: FHP

Hi Sarah,

The FHP seems to be taking shape but (as should be reasonably expected) much of the information is coming to me in bits and pieces. Would be good to have a Doc staff familiar with this as more info becomes available or is being developed. It's being kept at a fairly high level at this time, but don't want to be surprised if Documentation is needed to jump in. I've included the emails on the subject to help provide some context – they aren't all helpful though. What I've sent is for review and provide opportunity to comment as well as to ask questions.

Docs for review/comment/question:

Subordinated Debt Term Sheet
Outstanding Business Issues Ontario Fair Hydro Plan markup_cy1
Term Sheet Master Subscription draft May 26
Provincial Support Agreement May 12 MOF draft comments
Term Sheet – Provincial Support Agreement May 12

Thanks,
Opal.

Yes. That makes sense. I confirmed it in the docs. What Carlos shows is correct.
We were really in the weeds on this one start to finish.

Hi Kelly,
Unless the agreement (or any docs) specifies rounding the decimal to 3 places (which I don't think is the case), we go with what Carlos' input. If I recall, OEFC simply gets to set the rate. Once you scan through the docs to confirm, you can reply to Olga to that OFA's rate is correct.
Thank you all for your help in resolving this.

Mystery solved, but should we note use the rate on the note of 1.7673%?

The difference is 1 day of interest plus 1.767% vs 1.7673%. The note has 1.7673% on it.

Jun30,2017 $265,776.16 + 87,139.73 = $352.915.89
90M X 1.767% X 61/365 + 30M X 1.767%x60/365
Dec31,2017 $795,150.00 +265,050.00 = $1,060,200
90M X 1.767% X 0.5 + 30M X 1.767% x 0.5
the IESO calculation are different because
(1) using 1.7673% instead of 1.767%
(2)not calculating an extra day on $90M
Jun30,2017 $261,463.56 + 87,154.52 = $348.618.08

Hi Carlos

I received this request from Olga at IESO and I am at home today. Do you have access to the system to verify what this should be (officially)? When I calculate at home on my calculator, it seems a bit out.

Yes. That makes sense. I confirmed it in the docs. What Carlos shows is correct.
We were really in the weeds on this one start to finish.

Hi Kelly,
Unless the agreement (or any docs) specifies rounding the decimal to 3 places (which I don't think is the case), we go with what Carlos' input. If I recall, OEFC simply gets to set the rate. Once you scan through the docs to confirm, you can reply to Olga to that OFA's rate is correct.
Thank you all for your help in resolving this.

Mystery solved, but should we note use the rate on the note of 1.7673%?

The difference is 1 day of interest plus 1.767% vs 1.7673%. The note has 1.7673% on it.

Attached are the cashflows and my ITS tickets.
Jun30,2017 $265,776.16 + 87,139.73 = $352.915.89
90M X 1.767% X 61/365 + 30M X 1.767%x60/365
Dec31,2017 $795,150.00 +265,050.00 = $1,060,200
90M X 1.767% X 0.5 + 30M X 1.767% x 0.5
the IESO calculation are different because
(1) using 1.7673% instead of 1.767%
(2)not calculating an extra day on $90M
Jun30,2017 $261,463.56 + 87,154.52 = $348.618.08
90M X 1.7673% X 60/365 + 30M X 1.7673%x60/365
Dec31,2017 $795,285.00 +265,095.00 = $1,060,380

Hi Carlos

I received this request from Olga at IESO and I am at home today. Do you have access to the system to verify what this should be (officially)? When I calculate at home on my calculator, it seems a bit out.

Hi Kelly,
Unless the agreement (or any docs) specifies rounding the decimal to 3 places (which I don't think is the case), we go with what Carlos' input. If I recall, OEFC simply gets to set the rate. Once you scan through the docs to confirm, you can reply to Olga to that OFA's rate is correct.
Thank you all for your help in resolving this.

Mystery solved, but should we note use the rate on the note of 1.7673%?

The difference is 1 day of interest plus 1.767% vs 1.7673%. The note has 1.7673% on it.

Attached are the cashflows and my ITS tickets.
Jun30,2017 $265,776.16 + 87,139.73 = $352.915.89
90M X 1.767% X 61/365 + 30M X 1.767%x60/365
Dec31,2017 $795,150.00 +265,050.00 = $1,060,200
90M X 1.767% X 0.5 + 30M X 1.767% x 0.5
the IESO calculation are different because
(1) using 1.7673% instead of 1.767%
(2)not calculating an extra day on $90M
Jun30,2017 $261,463.56 + 87,154.52 = $348.618.08
90M X 1.7673% X 60/365 + 30M X 1.7673%x60/365

Subject: FW: IESO $120MM Note - Interest Payment Schedule

Hi Carlos

I received this request from Olga at IESO and I am at home today. Do you have access to the system to verify what this should be (officially)? When I calculate at home on my calculator, it seems a bit out.

Ya. I never dealt with all that admin stuff before…we just turned it over to loan admin. We have to closely examine draft directives in the future…there was stuff in there that contradicted the wat things are done it appears. Now I know that.

Yes. That makes sense. I confirmed it in the docs. What Carlos shows is correct.
We were really in the weeds on this one start to finish.

Hi Kelly,
Unless the agreement (or any docs) specifies rounding the decimal to 3 places (which I don't think is the case), we go with what Carlos' input. If I recall, OEFC simply gets to set the rate. Once you scan through the docs to confirm, you can reply to Olga to that OFA's rate is correct.
Thank you all for your help in resolving this.

Mystery solved, but should we note use the rate on the note of 1.7673%?

The difference is 1 day of interest plus 1.767% vs 1.7673%. The note has 1.7673% on it.

Jun30,2017 $265,776.16 + 87,139.73 = $352.915.89
90M X 1.767% X 61/365 + 30M X 1.767%x60/365

90M X 1.767% X 0.5 + 30M X 1.767% x 0.5
the IESO calculation are different because
(1) using 1.7673% instead of 1.767%
(2)not calculating an extra day on $90M

Hi Carlos

I received this request from Olga at IESO and I am at home today. Do you have access to the system to verify what this should be (officially)? When I calculate at home on my calculator, it seems a bit out.

Hi Everyone,

Please note that we had to split the IESO credit facility of $975 mm into two (one for $500 mm and the second for $475 mm) because IESO borrowed under two different projects – (1) Rural or Remote Electricity Rate Protection Variance; and, (2) Regulated Price Plan Variance. The reason for this is limitation is OLMS, the new loans system. We are working on getting this fixed. However, I think we need clarification whether IESO can only borrow under 1 project.

Kelly, can you please let us know if there is an issue with IESO borrowing under two different projects?

Thanks, Risa

Hi San

Currently, there does not appear to be a $475MM facility. There is an OFA – IESO (previously OPA) $975MM facility that has been around for several years. It is in the process of being amended and decreased to $475MM, but this is not yet complete. As such, there is no agreement for a $475MM facility as of now. I sent Risa a copy of the existing $975MM facility a while back. If you want a copy, please let me know.

Hi San

Currently, there does not appear to be a $475MM facility. There is an OFA – IESO (previously OPA) $975MM facility that has been around for several years. It is in the process of being amended and decreased to $475MM, but this is not yet complete. As such, there is no agreement for a $475MM facility as of now. I sent Risa a copy of the existing $975MM facility a while back. If you want a copy, please let me know.

Hi Everyone,

Please note that we had to split the IESO credit facility of $975 mm into two (one for $500 mm and the second for $475 mm) because IESO borrowed under two different projects – (1) Rural or Remote Electricity Rate Protection Variance; and, (2) Regulated Price Plan Variance. The reason for this is limitation is OLMS, the new loans system. We are working on getting this fixed. However, I think we need clarification whether IESO can only borrow under 1 project.

Kelly, can you please let us know if there is an issue with IESO borrowing under two different projects?

Thanks, Risa

Please find attached the executed Incumbency Certificate. Unfortunately, I was in a meeting when our GC/Corporate Secretary arrived briefly on premises to sign the documents, and the Certified Resolution was inadvertently not signed, and he is no longer at our site. If it's ok with you, I will arrange to have the Resolution signed on Monday. Please let me know if that would be a problem. I can confirm as counsel that the form of the Resolution was agreed between me and him yesterday.

Kelly is currently at lunch, so I'm unable to confirm with him whether he asked you to e-mail to a .pdf version of the executed Note Agreement and Executed Note in their entirety to us (vs. just signature pages). We need to the complete version in order for our traders to effect the transaction in our system today, so if you are still able e-mail those .pdf of those docs once executed on your side, that would be greatly appreciated.

Here are (hopefully) my final comments on the Agreements:

1. Re the Note Agreement (attached), I had to fix some formatting – the para (c) intro clause had accidentally been absorbed into the preceding section (b), so I broke it back out, and then opened quotes for the beginning of the 2.16 adder (there were close quotes but not open). Also, I had to insert the word “be” in the Note for correct grammar (it was in the main body language but not in the Note). I also removed one double period. Other than that, I just formatted it so the last page is not a signature block only.
2. Re the Revolving Credit Agreement, I am ok with that. Only question I have is what the Grid should look like to attach to the Note. When I print the Note for signing, there will not actually be any kind of real Grid showing numbers. Are you able to complete the Grid itself now and send it to me so I can have it for the signor to see when signing the Note ? Or is that not feasible or normal practice?

Thanks
Victor

Hi Victor,
Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.
2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.
I think we are in good shape. Fingers crossed.
Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.
3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,
Victor

Hi Victor,
Kelly is currently at lunch, so I'm unable to confirm with him whether he asked you to e-mail to a .pdf version of the executed Note Agreement and Executed Note in their entirety to us (vs. just signature pages). We need to the complete version in order for our traders to effect the transaction in our system today, so you could kindly e-mail those docs once executed on your side, that would be greatly appreciated.
Thanks,
Sarah

Here are (hopefully) my final comments on the Agreements:

1. Re the Note Agreement (attached), I had to fix some formatting – the para (c) intro clause had accidentally been absorbed into the preceding section (b), so I broke it back out, and then opened quotes for the beginning of the 2.16 adder (there were close quotes but not open). Also, I had to insert the word "be" in the Note for correct grammar (it was in the main body language but not in the Note). I also removed one double period. Other than that, I just formatted it so the last page is not a signature block only.
2. Re the Revolving Credit Agreement, I am ok with that. Only question I have is what the Grid should look like to attach to the Note. When I print the Note for signing, there will not

actually be any kind of real Grid showing numbers. Are you able to complete the Grid itself now and send it to me so I can have it for the signor to see when signing the Note ? Or is that not feasible or normal practice?

Thanks

Hi Sarah - could you resend the attachments you sent in your 4:58 email yesterday (shows up as 5:07 too). For some reason the Note Agreement is on a magenta background, and I want to make sure I am looking at the right documents. It's a long story but the problem may be on this end and it's best if you could just resend.
Thanks

Hi Victor,
Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.
2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.
I think we are in good shape. Fingers crossed.
Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove

reference to that from the agreement, but apparently missed one of the three references.

3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,

Victor

The Note and Revolving Facility have been tidied up for a few typos.
I think we are in good shape. Fingers crossed.
Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.
3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,
Victor

Hi Victor,
We can sign in counterparts.
Kelly is currently at lunch, so I'm unable to confirm with him whether he asked you to e-mail to a .pdf version of the executed Note Agreement and Executed Note in their entirety to us (vs. just signature pages). We need to the complete version in order for our traders to effect the transaction in our system today, so if you are still able e-mail those .pdf of those docs once executed on your side, that would be greatly appreciated.
Thanks,
Sarah

FYI, we will courier to you two signed originals of both Agreements, and one of the Promissory Notes, along with the Incumbency Cert and Board Resolution. If these get to you in time this afternoon for your signor to sign, then he can sign and you can return an original to us. If you decide to just sign in counterpart only, feel free to do so – I attach the exact versions of the Agreements that we are signing, so you can use the signature pages. In that case, please send us a copy of the agreement signed on behalf of OEFC once available.

Here are (hopefully) my final comments on the Agreements:

1. Re the Note Agreement (attached), I had to fix some formatting – the para (c) intro clause had accidentally been absorbed into the preceding section (b), so I broke it back out, and then opened quotes for the beginning of the 2.16 adder (there were close quotes but not open). Also, I had to insert the word "be" in the Note for correct grammar (it was in the main body language but not in the Note). I also removed one double period. Other than that, I just formatted it so the last page is not a signature block only.
2. Re the Revolving Credit Agreement, I am ok with that. Only question I have is what the Grid should look like to attach to the Note. When I print the Note for signing, there will not actually be any kind of real Grid showing numbers. Are you able to complete the Grid itself now and send it to me so I can have it for the signor to see when signing the Note ? Or is that not feasible or normal practice?

Thanks

Hi Victor:

Should I send everything to you, or Kim Marshall, or someone else once they are ready for execution? We are working on language to cover off the 2 components of the “new” $120MM note, consisting of the $90MM roll and the $30MM new money. We should have something fairly soon and hope to execute everything tomorrow.

Hi Anthony
I think we are close to getting the agreements signed. Could you ensure that the board resolution is provided to me as soon as possible? Also, to whom should the docs be couriered and what is the address to ensure the least amount of wasted time?

Here are (hopefully) my final comments on the Agreements:

1. Re the Note Agreement (attached), I had to fix some formatting – the para (c) intro clause had accidentally been absorbed into the preceding section (b), so I broke it back out, and then opened quotes for the beginning of the 2.16 adder (there were close quotes but not open). Also, I had to insert the word “be” in the Note for correct grammar (it was in the main body

language but not in the Note). I also removed one double period. Other than that, I just formatted it so the last page is not a signature block only.

2. Re the Revolving Credit Agreement, I am ok with that. Only question I have is what the Grid should look like to attach to the Note. When I print the Note for signing, there will not actually be any kind of real Grid showing numbers. Are you able to complete the Grid itself now and send it to me so I can have it for the signor to see when signing the Note ? Or is that not feasible or normal practice?

Thanks
Victor

Hi Victor,
Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.
2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.
I think we are in good shape. Fingers crossed.
Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them

from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.
3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?
Thanks,
Victor

Hi Victor:

Should I send everything to you, or Kim Marshall, or someone else once they are ready for execution? We are working on language to cover off the 2 components of the “new” $120MM note, consisting of the $90MM roll and the $30MM new money. We should have something fairly soon and hope to execute everything tomorrow.

Here are (hopefully) my final comments on the Agreements:

1. Re the Note Agreement (attached), I had to fix some formatting – the para (c) intro clause had accidentally been absorbed into the preceding section (b), so I broke it back out, and then opened quotes for the beginning of the 2.16 adder (there were close quotes but not open). Also, I had to insert the word "be" in the Note for correct grammar (it was in the main body language but not in the Note). I also removed one double period. Other than that, I just formatted it so the last page is not a signature block only.
2. Re the Revolving Credit Agreement, I am ok with that. Only question I have is what the Grid should look like to attach to the Note. When I print the Note for signing, there will not actually be any kind of real Grid showing numbers. Are you able to complete the Grid itself now and send it to me so I can have it for the signor to see when signing the Note ? Or is that not feasible or normal practice?

Thanks
Victor

It's a long story but the problem may be on this end and it's best if you could just resend.

Hi Victor,
Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.
2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.
I think we are in good shape. Fingers crossed.
Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them

from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.
3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,

Victor

Hi Victor:

Should I send everything to you, or Kim Marshall, or someone else once they are ready for execution? We are working on language to cover off the 2 components of the "new" $120MM note, consisting of the $90MM roll and the $30MM new money. We should have something fairly soon and hope to execute everything tomorrow.

Here are (hopefully) my final comments on the Agreements:

1. Re the Note Agreement (attached), I had to fix some formatting – the para (c) intro clause had accidentally been absorbed into the preceding section (b), so I broke it back out, and then opened quotes for the beginning of the 2.16 adder (there were close quotes but not open). Also, I had to insert the word "be" in the Note for correct grammar (it was in the main body language but not in the Note). I also removed one double period. Other than that, I just formatted it so the last page is not a signature block only.
2. Re the Revolving Credit Agreement, I am ok with that. Only question I have is what the Grid should look like to attach to the Note. When I print the Note for signing, there will not actually be any kind of real Grid showing numbers. Are you able to complete the Grid itself now and send it to me so I can have it for the signor to see when signing the Note ? Or is that not feasible or normal practice?

Hi Victor,
Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.
2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.
I think we are in good shape. Fingers crossed.
Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them

from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.
3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,

Victor

Hi Sarah - could you resend the attachments you sent in your 4:58 email yesterday (shows up as 5:07 too). For some reason the Note Agreement is on a magenta background, and I want to make sure I am looking at the right documents. It's a long story but the problem may be on this end and it's best if you could just resend.

Hi Victor,
Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.
2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.
I think we are in good shape. Fingers crossed.
Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.
3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,
Victor

Please find attached the executed Incumbency Certificate. Unfortunately, I was in a meeting when our GC/Corporate Secretary arrived briefly on premises to sign the documents, and the Certified Resolution was inadvertently not signed, and he is no longer at our site. If it's ok with you, I will arrange to have the Resolution signed on Monday. Please let me know if that would be a problem. I can confirm as counsel that the form of the Resolution was agreed between me and him yesterday.

Hi Victor,

We can sign in counterparts.

Kelly is currently at lunch, so I'm unable to confirm with him whether he asked you to e-mail to a .pdf version of the executed Note Agreement and Executed Note in their entirety to us (vs. just signature pages). We need to the complete version in order for our traders to effect the transaction in our system today, so if you are still able e-mail those .pdf of those docs once executed on your side, that would be greatly appreciated.

Thanks,

If you decide to just sign in counterpart only, feel free to do so – I attach the exact versions of the Agreements that we are signing, so you can use the signature pages. In that case, please send us a copy of the agreement signed on behalf of OEFC once available.

Here are (hopefully) my final comments on the Agreements:

1. Re the Note Agreement (attached), I had to fix some formatting – the para (c) intro clause had accidentally been absorbed into the preceding section (b), so I broke it back out, and then opened quotes for the beginning of the 2.16 adder (there were close quotes but not open). Also, I had to insert the word "be" in the Note for correct grammar (it was in the main body language but not in the Note). I also removed one double period. Other than that, I just formatted it so the last page is not a signature block only.
2. Re the Revolving Credit Agreement, I am ok with that. Only question I have is what the Grid should look like to attach to the Note. When I print the Note for signing, there will not actually be any kind of real Grid showing numbers. Are you able to complete the Grid itself now and send it to me so I can have it for the signor to see when signing the Note ? Or is that not feasible or normal practice?

Thanks

Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.
3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,
Victor

HI Lisa,

Victor has signed off on the agreements, with the small formatting/corrective changes per 1. Below. The last draft is attached. Kelly is arranging for execution in counterparts. Hurrah!

Thanks,

Here are (hopefully) my final comments on the Agreements:

1. Re the Note Agreement (attached), I had to fix some formatting – the para (c) intro clause had accidentally been absorbed into the preceding section (b), so I broke it back out, and then opened quotes for the beginning of the 2.16 adder (there were close quotes but not open). Also, I had to insert the word "be" in the Note for correct grammar (it was in the main body language but not in the Note). I also removed one double period. Other than that, I just formatted it so the last page is not a signature block only.
2. Re the Revolving Credit Agreement, I am ok with that. Only question I have is what the Grid should look like to attach to the Note. When I print the Note for signing, there will not actually be any kind of real Grid showing numbers. Are you able to complete the Grid itself now and send it to me so I can have it for the signor to see when signing the Note ? Or is that not feasible or normal practice?

Thanks

Victor

Hi Victor,

Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.
2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.

I think we are in good shape. Fingers crossed.

Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. Here are (hopefully) my final comments on the Agreements:

1. Re the Note Agreement (attached), I had to fix some formatting – the para (c) intro clause had accidentally been absorbed into the preceding section (b), so I broke it back out, and then opened quotes for the beginning of the 2.16 adder (there were close quotes but not open). Also, I had to insert the word "be" in the Note for correct grammar (it was in the main body language but not in the Note). I also removed one double period. Other than that, I just formatted it so the last page is not a signature block only.
2. Re the Revolving Credit Agreement, I am ok with that. Only question I have is what the Grid should look like to attach to the Note. When I print the Note for signing, there will not actually be any kind of real Grid showing numbers. Are you able to complete the Grid itself now and send it to me so I can have it for the signor to see when signing the Note ? Or is that not feasible or normal practice?

Thanks
Victor

Hi Sarah - could you resend the attachments you sent in your 4:58 email yesterday (shows up as 5:07 too). For some reason the Note Agreement is on a magenta background, and I want to make sure I am looking at the right documents. It's a long story but the problem may be on this end and it's best if you could just resend.
Thanks

Subject: RE: IESO Amendments
Hi Victor,
Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.
2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.
I think we are in good shape. Fingers crossed.
Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Importance: High
Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the

"market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.

3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,

Victor

Should I send everything to you, or Kim Marshall, or someone else once they are ready for execution? We are working on language to cover off the 2 components of the "new" $120MM note,

consisting of the $90MM roll and the $30MM new money. We should have something fairly soon and hope to execute everything tomorrow.

I am not sure what this means re the Notes we have to execute - they don't specify a rate but a way of calculating a rate. I am comfortable with the latter, especially since we have accepted that you will tell us what that rate is.
Please advise asap if this is acceptable (ie to leave the Notes as drafted) so that I will be in a position to finalize the form of the Notes.
Thanks
Victor

Hi Victor
Also, just to confirm/ clarify how the insertion of the rate on the note works. We also do this procedure for OPG term borrowings. We receive an executed note ahead of a draw with the rate left blank. Once the traders can confirm the rate (in this case it can only be done Monday, May 1, obviously not Sunday nor today), I write the rate on the note in blue pen and get a copy of the note back to you by courier that day (which will be Monday).

Hi Sarah - could you resend the attachments you sent in your 4:58 email yesterday (shows up as 5:07 too). For some reason the Note Agreement is on a magenta background, and I want to make sure I am looking at the right documents. It's a long story but the problem may be on this end and it's best if you could just resend.
Thanks

Hi Victor,
Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate

periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.

2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.
I think we are in good shape. Fingers crossed.
Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.
3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's

Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?
Thanks,
Victor

Hi Sarah - could you resend the attachments you sent in your 4:58 email yesterday (shows up as 5:07 too). For some reason the Note Agreement is on a magenta background, and I want to make sure I am looking at the right documents. It's a long story but the problem may be on this end and it's best if you could just resend.

Thanks
Victor

Hi Victor,
Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.
2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.
I think we are in good shape. Fingers crossed.
Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them

from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.
3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,

Victor

Hi Victor:

Should I send everything to you, or Kim Marshall, or someone else once they are ready for execution? We are working on language to cover off the 2 components of the "new" $120MM note, consisting of the $90MM roll and the $30MM new money. We should have something fairly soon and hope to execute everything tomorrow.

Hi Victor,

Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.
2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.

I think we are in good shape. Fingers crossed.

Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.
3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,

Victor

Hi Victor:

Should I send everything to you, or Kim Marshall, or someone else once they are ready for execution? We are working on language to cover off the 2 components of the "new" $120MM note, consisting of the $90MM roll and the $30MM new money. We should have something fairly soon and hope to execute everything tomorrow.

Hi Victor,

Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.
2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.

I think we are in good shape. Fingers crossed.

Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Importance: High

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.
3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,

Victor

Hi Victor:

Should I send everything to you, or Kim Marshall, or someone else once they are ready for execution? We are working on language to cover off the 2 components of the "new" $120MM note, consisting of the $90MM roll and the $30MM new money. We should have something fairly soon and hope to execute everything tomorrow.

Please find attached the executed Incumbency Certificate. Unfortunately, I was in a meeting when our GC/Corporate Secretary arrived briefly on premises to sign the documents, and the Certified Resolution was inadvertently not signed, and he is no longer at our site. If it's ok with you, I will arrange to have the Resolution signed on Monday. Please let me know if that would be a problem. I can confirm as counsel that the form of the Resolution was agreed between me and him yesterday.

Hi Victor,

We can sign in counterparts.

Kelly is currently at lunch, so I'm unable to confirm with him whether he asked you to e-mail to a .pdf version of the executed Note Agreement and Executed Note in their entirety to us (vs. just signature pages). We need to the complete version in order for our traders to effect the transaction in our system today, so if you are still able e-mail those .pdf of those docs once executed on your side, that would be greatly appreciated.

Thanks,

If these get to you in time this afternoon for your signor to sign, then he can sign and you can return an original to us. If you decide to just sign in counterpart only, feel free to do so – I attach the exact versions of the Agreements that we are signing, so you can use the signature pages. In that case, please send us a copy of the agreement signed on behalf of OEFC once available.

Here are (hopefully) my final comments on the Agreements:

1. Re the Note Agreement (attached), I had to fix some formatting – the para (c) intro clause had accidentally been absorbed into the preceding section (b), so I broke it back out, and then opened quotes for the beginning of the 2.16 adder (there were close quotes but not open). Also, I had to insert the word "be" in the Note for correct grammar (it was in the main body language but not in the Note). I also removed one double period. Other than that, I just formatted it so the last page is not a signature block only.
2. Re the Revolving Credit Agreement, I am ok with that. Only question I have is what the Grid should look like to attach to the Note. When I print the Note for signing, there will not actually be any kind of real Grid showing numbers. Are you able to complete the Grid itself now and send it to me so I can have it for the signor to see when signing the Note ? Or is that not feasible or normal practice?

Thanks

Hi Victor,

Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.
2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.

I think we are in good shape. Fingers crossed.

Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.
3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,
Victor

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.
3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?
Thanks,
Victor

Hi Victor:

Should I send everything to you, or Kim Marshall, or someone else once they are ready for execution? We are working on language to cover off the 2 components of the “new” $120MM note, consisting of the $90MM roll and the $30MM new money. We should have something fairly soon and hope to execute everything tomorrow.

Hi Victor:
Should I send everything to you, or Kim Marshall, or someone else once they are ready for execution? We are working on language to cover off the 2 components of the "new" $120MM note, consisting of the $90MM roll and the $30MM new money. We should have something fairly soon and hope to execute everything tomorrow.

Hi Victor,
We can sign in counterparts.
Kelly is currently at lunch, so I'm unable to confirm with him whether he asked you to e-mail to a .pdf version of the executed Note Agreement and Executed Note in their entirety to us (vs. just signature pages). We need to the complete version in order for our traders to effect the transaction in our system today, so if you are still able e-mail those .pdf of those docs once executed on your side, that would be greatly appreciated.
Thanks,
Sarah

If these get to you in time this afternoon for your signor to sign, then he can sign and you can return an original to us. If you decide to just sign in counterpart only, feel free to do so – I attach the exact versions of the Agreements that we are signing, so you can use the signature pages. In that case, please send us a copy of the agreement signed on behalf of OEFC once available.

Here are (hopefully) my final comments on the Agreements:

1. Re the Note Agreement (attached), I had to fix some formatting – the para (c) intro clause had accidentally been absorbed into the preceding section (b), so I broke it back out, and then opened quotes for the beginning of the 2.16 adder (there were close quotes but not open). Also, I had to insert the word “be” in the Note for correct grammar (it was in the main body language but not in the Note). I also removed one double period. Other than that, I just formatted it so the last page is not a signature block only.
2. Re the Revolving Credit Agreement, I am ok with that. Only question I have is what the Grid should look like to attach to the Note. When I print the Note for signing, there will not actually be any kind of real Grid showing numbers. Are you able to complete the Grid itself now and send it to me so I can have it for the signor to see when signing the Note ? Or is that not feasible or normal practice?

Thanks
Victor

Hi Sarah - could you resend the attachments you sent in your 4:58 email yesterday (shows up as 5:07 too). For some reason the Note Agreement is on a magenta background, and I want to make sure I am looking at the right documents. It's a long story but the problem may be on this end and it's best if you could just resend.

Hi Victor,
Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.
2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.
I think we are in good shape. Fingers crossed.
Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.
3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,
Victor
