Effective April 30, 2017, OEFC will make an advance to IESO in the amount of $30 million (the "$30 Million Advance"). IESO directs OEFC to apply, and OEFC agrees to apply, the $30 Million Advance, first to repay Advances Outstanding (as such term is defined in the Revolving Credit Facility Agreement), if any, under the Revolving Credit Facility Agreement, with any amount remaining out of the $30 Million Advance after repaying all Advances Outstanding to be used by IESO for the purpose of funding new IESO capital expenditures.

(c) The following sections are added to the Agreement following Section 2.15:

" Section 2.16 Fifth Refinancing Note

On April 30, 2017, IESO shall execute and deliver to OEFC a promissory note in the form attached as Schedule 1 (the "Fifth Refinancing Note") which shall be in an aggregate principal amount equal to $120 million, dated as of April 30, 2017 and maturing on June 30, 2020 and bearing interest at a per annum rate equal to the Province of Ontario's cost of borrowing for the period from April 30, 2017 to June 30, 2020, as determined by the Chief Executive Officer of OEFC or the Chief Operating Officer of OEFC, or by a person designated by either of them, plus fifty basis points (0.50%) (after as well as before default or judgment, with interest on the amounts in default at the same rate). Upon receipt of the Fifth Refinancing Note by OEFC, the Fourth Refinancing Note dated April 30, 2014 shall be of no further force or effect and shall be returned by OEFC to IESO marked "cancelled".

For greater clarity, the Fifth Refinancing Note shall evidence the indebtedness of IESO to OEFC in respect of the principal amount of $90 million under the Fourth Refinancing Note ("Part A") and the additional $30 Million Advance ("Part B"), for a total aggregate principal amount of $120 million.

Notwithstanding Section 1.5 herein, the interest rate on the Fifth Refinancing Note shall be set on Monday, May 1, 2017, with interest accruing on Part A commencing on Sunday, April 30, 2017, and interest accruing on Part B commencing on Monday, May 1, 2017.

Section 2.17 Interest on Fifth Refinancing Note

Notwithstanding Section 1.5 herein, interest on the Fifth Refinancing Note at the rate specified in Section 2.16 shall accrue daily and shall be payable in equal semi-annual instalments on June 30 and December 31(each an "Interest Payment Date"), provided however that the calculation of the amount of the first such interest payment for Part A shall be in respect only of the period from and including April 30, 2017 to but excluding June 30, 2017, and for Part B in respect only of the period from May 1, 2017 to but excluding June 30, 2017.

For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under the Fifth Refinancing Note for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period."

3. **Reference to and Effect on the Agreement.**

On and after this date, each reference in the Agreement to "this Agreement" and each reference to the Agreement in any and all other agreements, documents and instruments delivered by IESO and OEFC shall mean and be a reference to the Agreement as amended by this Amending Agreement. On and after this date, each reference in the Agreement to either "the Note" or "the New Note" and each reference to either "the Note" or "the New Note" in any and all other agreements, documents and instruments delivered by IESO and OEFC shall mean and be a reference to the Fifth Refinancing Note.

4. **Governing Law**

This Amending Agreement shall be construed in accordance with and governed by the laws of the Province of Ontario and the laws of Canada applicable therein.

5. **Counterparts**

This Amending Agreement may be executed in several counterparts, each of which, when so executed, shall be deemed to be an original and which counterparts together shall constitute one and the same agreement.

6. **Enurement**

This Amending Agreement shall be binding upon and shall enure to the benefit of the parties and their respective successors and permitted assigns.

IN ALL OTHER RESPECTS, the Agreement is confirmed by the parties.

IN WITNESS WHEREOF the parties have executed and delivered this Amending Agreement as of the date first written above.

Hi Victor,
We can sign in counterparts.
Kelly is currently at lunch, so I'm unable to confirm with him whether he asked you to e-mail to a .pdf version of the executed Note Agreement and Executed Note in their entirety to us (vs. just signature pages). We need to the complete version in order for our traders to effect the transaction in our system today, so if you are still able e-mail those .pdf of those docs once executed on your side, that would be greatly appreciated.
Thanks,
Sarah

FYI, we will courier to you two signed originals of both Agreements, and one of the Promissory Notes, along with the Incumbency Cert and Board Resolution. If these get to you in time this afternoon for your signor to sign, then he can sign and you can return an original to us. If you decide to just sign in counterpart only, feel free to do so – I attach the exact versions of the Agreements that we are signing, so you can use the signature pages. In that case, please send us a copy of the agreement signed on behalf of OEFC once available.
Thanks,
Victor

Here are (hopefully) my final comments on the Agreements:

1. Re the Note Agreement (attached), I had to fix some formatting – the para (c) intro clause had accidentally been absorbed into the preceding section (b), so I broke it back out, and then opened quotes for the beginning of the 2.16 adder (there were close quotes but not open). Also, I had to insert the word “be” in the Note for correct grammar (it was in the main body language but not in the Note). I also removed one double period. Other than that, I just formatted it so the last page is not a signature block only.
2. Re the Revolving Credit Agreement, I am ok with that. Only question I have is what the Grid should look like to attach to the Note. When I print the Note for signing, there will not actually be any kind of real Grid showing numbers. Are you able to complete the Grid itself now and send it to me so I can have it for the signor to see when signing the Note ? Or is that not feasible or normal practice?

Thanks
Victor

Hi Sarah - could you resend the attachments you sent in your 4:58 email yesterday (shows up as 5:07 too). For some reason the Note Agreement is on a magenta background, and I want to make sure I am looking at the right documents. It's a long story but the problem may be on this end and it's best if you could just resend.

Hi Victor,
Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.
2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.
I think we are in good shape. Fingers crossed.
Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.
3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,
Victor

Hi Victor,
We can sign in counterparts.
Kelly is currently at lunch, so I'm unable to confirm with him whether he asked you to e-mail to a .pdf version of the executed Note Agreement and Executed Note in their entirety to us (vs. just signature pages). We need to the complete version in order for our traders to effect the transaction in our system today, so if you are still able e-mail those .pdf of those docs once executed on your side, that would be greatly appreciated.
Thanks,
Sarah

FYI, we will courier to you two signed originals of both Agreements, and one of the Promissory Notes, along with the Incumbency Cert and Board Resolution. If these get to you in time this afternoon for your signor to sign, then he can sign and you can return an original to us. If you decide to just sign in counterpart only, feel free to do so – I attach the exact versions of the Agreements that we are signing, so you can use the signature pages. In that case, please send us a copy of the agreement signed on behalf of OEFC once available.

Here are (hopefully) my final comments on the Agreements:

1. Re the Note Agreement (attached), I had to fix some formatting – the para (c) intro clause had accidentally been absorbed into the preceding section (b), so I broke it back out, and then opened quotes for the beginning of the 2.16 adder (there were close quotes but not open). Also, I had to insert the word "be" in the Note for correct grammar (it was in the main body language but not in the Note). I also removed one double period. Other than that, I just formatted it so the last page is not a signature block only.
2. Re the Revolving Credit Agreement, I am ok with that. Only question I have is what the Grid should look like to attach to the Note. When I print the Note for signing, there will not actually be any kind of real Grid showing numbers. Are you able to complete the Grid itself now and send it to me so I can have it for the signor to see when signing the Note ? Or is that not feasible or normal practice?

Thanks

Hi Victor,

Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.
2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.

I think we are in good shape. Fingers crossed.

Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.
3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,
Victor

Should I send everything to you, or Kim Marshall, or someone else once they are ready for execution? We are working on language to cover off the 2 components of the "new" $120MM note, consisting of the $90MM roll and the $30MM new money. Kelly is currently at lunch, so I'm unable to confirm with him whether he asked you to e-mail to a .pdf version of the executed Note Agreement and Executed Note in their entirety to us (vs. just signature pages). We need to the complete version in order for our traders to effect the transaction in our system today, so if you are still able e-mail those .pdf of those docs once executed on your side, that would be greatly appreciated.

Here are (hopefully) my final comments on the Agreements:

1. Re the Note Agreement (attached), I had to fix some formatting – the para (c) intro clause had accidentally been absorbed into the preceding section (b), so I broke it back out, and then opened quotes for the beginning of the 2.16 adder (there were close quotes but not open). Also, I had to insert the word "be" in the Note for correct grammar (it was in the main body language but not in the Note). I also removed one double period. Other than that, I just formatted it so the last page is not a signature block only.
2. Re the Revolving Credit Agreement, I am ok with that. Only question I have is what the Grid should look like to attach to the Note. When I print the Note for signing, there will not actually be any kind of real Grid showing numbers. Are you able to complete the Grid itself now and send it to me so I can have it for the signor to see when signing the Note ? Or is that not feasible or normal practice?

Thanks

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as

mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.

2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.
3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,

Victor

Should I send everything to you, or Kim Marshall, or someone else once they are ready for execution? We are working on language to cover off the 2 components of the "new" $120MM note, consisting of the $90MM roll and the $30MM new money. Kelly is currently at lunch, so I'm unable to confirm with him whether he asked you to e-mail to a .pdf version of the executed Note Agreement and Executed Note in their entirety to us (vs. just signature pages). We need to the complete version in order for our traders to effect the transaction in our system today, so if you are still able e-mail those .pdf of those docs once executed on your side, that would be greatly appreciated.

1. Re the Note Agreement (attached), I had to fix some formatting – the para (c) intro clause had accidentally been absorbed into the preceding section (b), so I broke it back out, and then opened quotes for the beginning of the 2.16 adder (there were close quotes but not open). Also, I had to insert the word "be" in the Note for correct grammar (it was in the main body language but not in the Note). I also removed one double period. Other than that, I just formatted it so the last page is not a signature block only.
2. Re the Revolving Credit Agreement, I am ok with that. Only question I have is what the Grid should look like to attach to the Note. When I print the Note for signing, there will not actually be any kind of real Grid showing numbers. Are you able to complete the Grid itself now and send it to me so I can have it for the signor to see when signing the Note ? Or is that not feasible or normal practice?

Subject: RE: IESO Amendments
Importance: High

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.
3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,
Victor

Hi Victor:
Should I send everything to you, or Kim Marshall, or someone else once they are ready for execution? We are working on language to cover off the 2 components of the "new" $120MM note, consisting of the $90MM roll and the $30MM new money. We should have something fairly soon and hope to execute everything tomorrow.

Thank you for summarizing this matter, Sarah. I also note a few things:

- we have removed the word “temporary” before “funding” in the recital to the agreement noted below.
- IESO counsel has explained to me that costs related to the market renewal program would include capital costs such as IT equipment.
- IESO has excluded borrowing for liquidity requirements from its definition of “IESO Corporate Requirements”.

Subject: IESO Concern re: "Market Renewals Program
Importance: High

Hello All,

Lisa and I discussed a concern expressed by IESO’s counsel yesterday regarding the reference of “costs related to the market renewals” program in the second recital of the attached amending agreement.

> ***AND WHEREAS*** *IESO and OEFC wish to amend the Agreement to increase the revolving line of credit from a principal amount of CDN $95 million to a principal amount of up to CDN $160 million to provide funding for IESO Corporate Requirements (as defined herein)* **and costs related to the market renewals program**;

The wording of the Directive states,

> It is now desirable to increase the Line of Credit to a principal amount of up to C$160 million to provide temporary funding for IESO corporate requirements and costs related to the market renewals program, and to extend the mandatory repayment date

IESO in the draft amending agreement defines “IESO Corporate Requirements” to mean any borrowing authorized by O. Reg. 280/14. IESO’s counsel has stated that the market renewals program requirements would be authorized under O. Reg 280/14.

We would propose changing the second recital to incorporate ‘market renewal program’ under IESO Corporate Requirements, such that the second recital would read:

> ***AND WHEREAS*** *IESO and OEFC wish to amend the Agreement to increase the revolving line of credit from a principal amount of CDN $95 million to a principal amount of*

up to CDN $160 million to provide funding for IESO Corporate Requirements (as defined herein) ~~and costs related to the market renewals program~~;

SALMAN: Is there any reason this **cannot** be done? i.e. was there a specific reason for singling out "costs related to the market renewals program" in the Directive? As a note, IESO's counsel asked to see the Directive. I am unsure whether in drafting the directive, if they ever would have gotten a copy, or if they typically would?

Lisa has schedule a meeting a 1 p.m. to discuss this. Lisa, since this seems to be the only outstanding issue (we are fine with the suggestions discussed on the other draft), that it may only be necessary for you and Salman to let us know if the proposed solution above is acceptable. We are available to discuss if I have not reflected the issue accurately.

Thanks,

Sarah

Many Thanks – it is $59.92 different than what I calculated, but it is probably correct, not me. In principle, they seem to have missed the 1 day of interest for the $90MM. I will send this to them. Do we all agree on the subsequent amount of $1,060,380.00 every 6 mos.?

Hi Sarah,
No counsel has been assigned yet. This directive and agreement is related to the Province's Fair Hydro Plan which is set to be effective July 1, 2017.
For the directive timing, we are going to LRC for an OIC for June 27, 2017 and it is expected that prior to that, we will be briefing the Minister of Finance – we'd like our directive package to be ready in the next week or so.
I apologize in advance for the tight timelines but they are not in our control at the moment.

By way of follow up on our discussions about this yesterday, I just spoke with Malle and she has advised that Toby will be working on the loan agreement from the MOF perspective as he has involvement in other aspects of the implementation of the plan.
In addition, Malle reminded me that there will be need to be a Promissory Note between OFA and the Province in respect of the on-lending authorized by OIC. I assume this is part of the routine process but just flag it as another moving part.
Thanks very much,

Hi Sarah N,

I misunderstood your question, please disregard my earlier reply.

Sarah H. is investigating the requirement of a Promissory Note between OFA and the Province.

Hello-

By way of follow up on our discussions about this yesterday, I just spoke with Malle and she has advised that Toby will be working on the loan agreement from the MOF perspective as he has involvement in other aspects of the implementation of the plan.

In addition, Malle reminded me that there will be need to be a Promissory Note between OFA and the Province in respect of the on-lending authorized by OIC. I assume this is part of the routine process but just flag it as another moving part.

Thanks very much,

Sarah

Hello Sarah,
Thank you for your comments. Attached is the revised amending agreement. I tried to combine the note into this agreement. I can't seem to get the margins quite right on the note. We can keep the note and the amending agreement separate.

Hi Will,
You still need to reach out to Sarah Neville to ask who will be assigned to this. Since it seems that Salman has not reached out to OFA Legal, you should e-mail Sarah and cc' Salman to explain what is occurring and to ask who would be able to work on the agreement. You can let Sarah know that Salman is working on the related directive, and he would also require counsel to work that as well, so it would make sense to have the same counsel from OFA legal assigned to the file.

Hi Will,
You still need to reach out to Sarah Neville to ask who will be assigned to this. Since it seems that Salman has not reached out to OFA Legal, you should e-mail Sarah and cc' Salman to explain what is occurring and to ask who would be able to work on the agreement. You can let Sarah know that Salman is working on the related directive, and he would also require counsel to work that as well, so it would make sense to have the same counsel from OFA legal assigned to the file.

Thanks. So IESO borrows from OEFC, Province and OFA? I actually had a list that was last updated in 2016 between OFA and IESO. We must have a listing somewhere of the credit facilities/lending arrangements with IESO. Would be good to locate and get a good picture of the various lending facilities as well as to ensure they are being kept up to date. I agree that these files don't change much over the years – which is a good thing! If you have some time to look into this, that would be great. Thanks.

Hi
The rate reset stuff is done now. I'm attaching what is in the file. There are 2 lists – one for OFA loans and one for OEFC loans, but they are a few years old. Could be that since these, there have only been amendments to the same facilities and nothing new.
There are some excel sheets for OPG loans that Lenin did and saved, but nothing for IESO other than the attached.

HI Will,
On Monday, you initially mentioned that you thought you could provide a draft of the new credit facility today, but some things have gotten in the way. Please let me know what is on your plate (might be coming up) so I can re-delegate if needed. As mentioned, the credit facility is a high priority item which is time sensitive as it must be in place by June 30, and it must be vetted through OFA legal and negotiated with IESO.
Are you able to get provide a draft by tomorrow at 11 a.m.?
Also, please let me know if you have any questions or require any guidance on any points – if you feel it may be beneficial for me to review your draft to this point, I would be happy to do so.
Thanks,
Sarah

Attachments: FHP_IESO_OPA Original Credit Agreement (DRAFT) SH Initial comments.docx
FHP_IESO_OPA Original Credit Agreement (DRAFT) Compare.docx

Hi Will,

I have meetings at 1 and 2 p.m. today, but I wanted to get you the comments I have so far.

To answer your first question, per the IESO letter, the term of the credit facility will expiry September 30, 2022. The OIC is longer dated to provide the OFA flexibility to extend the credit facility, should it be required so we don't need to go for a new OIC.

In providing my comments I looked at existing IESO-OEFC Credit Facility, the ST IO credit facility, the LT IO credit facility and the existing OFA-IESO $975m facility.

The draft you submitted did contain some of the relevant updates, and a good question on the maturity date of the agreement. I can see that you referenced some of the above agreements, so that is helpful to get more 'up to date' provisions. However, it was somewhat challenging for me to go through this first blush, because it appears that you didn't pay attention to a lot of the details. Please note the following:

1 – It important to use spell check and to pay attention to word usage. For example, in reciting the parties you have:

> **ONTARIO FINANCING AUTORITY,** a Crown aency established under the Capital Investment Plance Act, 1993 ("OFA" and together with the IESO, the "Parties")

These typos are easily caught with spell check.

The word *principle* was used a number times where the word *principal*. We are in capital markets and this mistake should not occur. Please also note the importance of proper party referencing. On the cover page, the agreement states the Ontario Power Authority is entering into the agreement, when it should be IESO.

2- Attention to detail must also be paid section referencing (ensure all numbers are in order and not skipping or deleting any) and formatting.

3- An agreement must be internally consistent . You reference both a short-term and long-term credit facility. Look to ensure that there is consistency with one type of facility. Similarly, ensure that if you are using a defined term, that it is defined somewhere in the agreement.

4- You need to ensure that you are incorporating all the substantive changes throughout the document. For example, in the notices at the end of the agreement, a minimum term of 28 days is stated, when it should be 7 days.

5- If you are adding new provisions, it is important to understand those provisions and that they are accurate. For example, in the beginning of the agreement we state that

> **INDEPENDENT ELECTRICTY SYSTEM OPERATOR**, as statutory corporation without share capital existing under the Electricity Act, 1998 ("**IESO**").

However, later a newly added provision reads

> the IESO has been duly incorporated and organized and is validly subsisting under the Ontario Fair Hydro Plan Act, 2017 and is in good standing under the laws of Ontario.

Which one is accurate?

It is has taken me a day to review the and go over the first draft of this. It is similarly important that

you take the time required in order go over the draft to ensure that the above changes/issues are taken into account on the first turn of the agreement that you submit to me.
I've included two versions of the draft. One of the drafts has my comments incorporated with your comments. The other is cleaner, which simply shows my changes on top of your changes. It may be easier to work with the latter version. I'll provide further comments on the next turn of the draft. As noted, this is high priority and time sensitive. Please notify me of any work that you have on your desk re: IO, T-Bills,etc. and I will have Andrea or Ryan cover them while you are working on this file. When I am finished with my meeting this afternoon, I'm free to discuss any of the changes and additions. As I said, these are my comments so far, and I would want to take another passthrough when you have submitted the revised agreement to me.
I'll also look at the amending agreement and the prom note you provided. Thanks for those.
Thanks,
Sarah

Hi Sarah,
Question for you. I understand that advances in this agreement have a minimum of 7 days and a maximum of 95 days in length. In my mind the advances are fairly short and will mature fairly quickly. However, according to the proposed FHP OIC materials it indicates a maturity of Dec 31, 2047. I left some comments in the draft as well. We can discuss this in the morning.
Also, may I come in an hour later as I stayed late to work on this.
Thanks,
Will

On Monday, you initially mentioned that you thought you could provide a draft of the new credit facility today, but some things have gotten in the way. Please let me know what is on your plate (might be coming up) so I can re-delegate if needed. As mentioned, the credit facility is a high priority item which is time sensitive as it must be in place by June 30, and it must be vetted through OFA legal and negotiated with IESO.
Are you able to get provide a draft by tomorrow at 11 a.m.?
Also, please let me know if you have any questions or require any guidance on any points – if you feel it may be beneficial for me to review your draft to this point, I would be happy to do so.
Thanks,
Sarah

Carlos is saying that there will be no financial compensation for the advisor. The benefit to it, is that it will gain insight into how the new structure works and experience with the spv which may be beneficial in obtaining work from the spv in the future. They won't provide for any compensation in the NDA itself.

Hi Kelly,

I have some precedent non-disclosure agreements that I have drafted in the past, but we need some more information.

Here are some questions that will assist:

Is the information being given to all 3 potential advisors or just the one that will be hired?
What type of information is being given? Need a description.
For what purpose is the advisor being given this information? What use will the advisor make of the information?
What is the advisor being hired to do? Pricing/financing issues about what? Need a description of the project or services Can the advisor talk to anyone about the information or the project? i.e. other ministry staff, ministry of energy, OFA, OEFC?
What about internal disclosure within the advisor's company?
Is there a procurement process of any type to hire the advisor?
How much and how will the advisor be paid?
Who are the parties to the agreement? Is it the Province that is hiring the advisor and giving them the information?

What is the consideration for the advisor's agreement for keeping it confidential? i.e. the advisor is being paid to give advice.

I think if we can get some more information along these lines it would be helpful. Also, if the contracting party is the OFA or OEFC then I will need to speak to Sarah Neville.

Thanks.

Hi Kelly,

I have read it over now. Should we have a short call about this. This is a significant project and does the Province/OFA/OEFC plan to hire a financial advisor to advise on aspects of it. Quite possibly there will be more than one advisory contract here as there seem to be capital markets, accounting, etc. issues involved here. Also, looking at the background information, I don't' know that it is necessarily clear who is going to the borrowing whether it's the Province or OEFC and which entity will provide the equity injection (Minister of Energy holds the shares in OPG). So we can't do a non-disclosure agreement in isolation. What information are we giving to the financial advisor and what are we asking them to do?

I think we need more context here and also if it is OEFC hiring the financial advisor, we should be speaking to Sarah Neville too. This is a project that Ronald Kwan's group is involved in.

Ok - looking at the info on page 2 - looks like the OEFC will be looking to "hire" the advisor regarding pricing/ financing the amounts shown in the paper. This advisor will be a member of the current bond syndicate. Mike wants a non - disclosure for this advisor. Given the structure and all the items mentioned in the paper, I would say it should be pretty broad.

Hi Malle

Carlos is saying that there will be no financial compensation for the advisor. The benefit to it, is that it will gain insight into how the new structure works and experience with the spv which may be beneficial in obtaining work from the spv in the future. They won't provide for any compensation in the NDA itself.

Hi Kelly,

I have some precedent non-disclosure agreements that I have drafted in the past, but we need some more information.

Here are some questions that will assist:

Is the information being given to all 3 potential advisors or just the one that will be hired?
What type of information is being given? Need a description.
For what purpose is the advisor being given this information? What use will the advisor make of the information?
What is the advisor being hired to do? Pricing/financing issues about what? Need a description of the project or services Can the advisor talk to anyone about the information or the project? i.e. other ministry staff, ministry of energy, OFA, OEFC?
What about internal disclosure within the advisor's company?

What is the consideration for the advisor's agreement for keeping it confidential? i.e. the advisor is being paid to give advice.

I think if we can get some more information along these lines it would be helpful. Also, if the contracting party is the OFA or OEFC then I will need to speak to Sarah Neville.

Thanks.

Hi Kelly,

I have read it over now. Should we have a short call about this. This is a significant project and does the Province/OFA/OEFC plan to hire a financial advisor to advise on aspects of it. Quite possibly there will be more than one advisory contract here as there seem to be capital markets, accounting, etc. issues involved here. Also, looking at the background information, I don't' know that it is necessarily clear who is going to the borrowing whether it's the Province or OEFC and which entity will provide the equity injection (Minister of Energy holds the shares in OPG). So we can't do a non-disclosure agreement in isolation. What information are we giving to the financial advisor and what are we asking them to do?

I think we need more context here and also if it is OEFC hiring the financial advisor, we should be speaking to Sarah Neville too. This is a project that Ronald Kwan's group is involved in.

Ok - looking at the info on page 2 - looks like the OEFC will be looking to "hire" the advisor regarding pricing/ financing the amounts shown in the paper. This advisor will be a member of the current bond syndicate. Mike wants a non - disclosure for this advisor. Given the structure and all the items mentioned in the paper, I would say it should be pretty broad.

They've hired Blake, Cassels & Graydon as far as I know. Unlikely they will be actually drafting legislation but assuming they will have some input.
The contract should be with the Province.

Hi - I don't think that we should provide any draft legislation to this advisor so I would not include that in the description. I would describe the information more generally. I also don't know that Energy will be hiring outside counsel to draft legislation - maybe they are but we don't know about it so we should reference maybe the Province's legal advisors there. I wonder who Energy is planning to hire for this, if anyone - would think that any legislative drafting would be done by Provincial counsel. Maybe we could provide that Province will let them know who they can share and discuss with as part of project.

Who is going to sign this agreement on behalf of Province? Is it really a contract of the OFA or of the Province?

Hi Kelly,

I have some precedent non-disclosure agreements that I have drafted in the past, but we need some more information.

Here are some questions that will assist:

Is the information being given to all 3 potential advisors or just the one that will be hired?
What type of information is being given? Need a description.
For what purpose is the advisor being given this information? What use will the advisor make of the information?
What is the advisor being hired to do? Pricing/financing issues about what? Need a description of the project or services Can the advisor talk to anyone about the information or the project? i.e. other ministry staff, ministry of energy, OFA, OEFC?

What about internal disclosure within the advisor's company?

What is the consideration for the advisor's agreement for keeping it confidential? i.e. the advisor is being paid to give advice.

I think if we can get some more information along these lines it would be helpful. Also, if the contracting party is the OFA or OEFC then I will need to speak to Sarah Neville.

Thanks.

Hi Kelly,

I have read it over now. Should we have a short call about this. This is a significant project and does the Province/OFA/OEFC plan to hire a financial advisor to advise on aspects of it. Quite possibly there will be more than one advisory contract here as there seem to be capital markets, accounting, etc. issues involved here. Also, looking at the background information, I don't' know that it is necessarily clear who is going to the borrowing whether it's the Province or OEFC and which entity will provide the equity injection (Minister of Energy holds the shares in OPG). So we can't do a non-disclosure agreement in isolation. What information are we giving to the financial advisor and what are we asking them to do?

I think we need more context here and also if it is OEFC hiring the financial advisor, we should be speaking to Sarah Neville too. This is a project that Ronald Kwan's group is involved in.

Ok - looking at the info on page 2 - looks like the OEFC will be looking to "hire" the advisor regarding pricing/ financing the amounts shown in the paper. This advisor will be a member of the current bond syndicate. Mike wants a non - disclosure for this advisor. Given the structure and all the items mentioned in the paper, I would say it should be pretty broad.

They've hired Blake, Cassels & Graydon as far as I know. Unlikely they will be actually drafting legislation but assuming they will have some input.
The contract should be with the Province.

Hi - I don't think that we should provide any draft legislation to this advisor so I would not include that in the description. I would describe the information more generally. I also don't know that Energy will be hiring outside counsel to draft legislation - maybe they are but we don't know about it so we should reference maybe the Province's legal advisors there. I wonder who Energy is planning to hire for this, if anyone - would think that any legislative drafting would be done by Provincial counsel. Maybe we could provide that Province will let them know who they can share and discuss with as part of project.

Who is going to sign this agreement on behalf of Province? Is it really a contract of the OFA or of the Province?

Hi Kelly,

I have some precedent non-disclosure agreements that I have drafted in the past, but we need some more information.

Here are some questions that will assist:

Is the information being given to all 3 potential advisors or just the one that will be hired?
What type of information is being given? Need a description.
For what purpose is the advisor being given this information? What use will the advisor make of the information?
What is the advisor being hired to do? Pricing/financing issues about what? Need a description of the project or services Can the advisor talk to anyone about the information or the project? i.e. other ministry staff, ministry of energy, OFA, OEFC?
What about internal disclosure within the advisor's company?
Is there a procurement process of any type to hire the advisor?
How much and how will the advisor be paid?
Who are the parties to the agreement? Is it the Province that is hiring the advisor and giving them the information?
What is the consideration for the advisor's agreement for keeping it confidential? i.e. the advisor is being paid to give advice.

I think if we can get some more information along these lines it would be helpful. Also, if the contracting party is the OFA or OEFC then I will need to speak to Sarah Neville.

Thanks.

Hi Kelly,

I have read it over now. Should we have a short call about this. This is a significant project and does the Province/OFA/OEFC plan to hire a financial advisor to advise on aspects of it. Quite possibly there will be more than one advisory contract here as there seem to be capital markets, accounting, etc. issues involved here. Also, looking at the background information, I don't' know that it is necessarily clear who is going to the borrowing whether it's the Province or OEFC and which entity will provide the equity injection (Minister of Energy holds the shares in OPG). So we can't do a non-disclosure agreement in isolation. What information are we giving to the financial advisor and what are we asking them to do?

I think we need more context here and also if it is OEFC hiring the financial advisor, we should be speaking to Sarah Neville too. This is a project that Ronald Kwan's group is involved in.

Ok - looking at the info on page 2 - looks like the OEFC will be looking to "hire" the advisor regarding pricing/ financing the amounts shown in the paper. This advisor will be a member of the current bond syndicate. Mike wants a non - disclosure for this advisor. Given the structure and all the items mentioned in the paper, I would say it should be pretty broad.

Hi - I don't think that we should provide any draft legislation to this advisor so I would not include that in the description. I would describe the information more generally. I also don't know that Energy will be hiring outside counsel to draft legislation - maybe they are but we don't know about it so we should reference maybe the Province's legal advisors there. I wonder who Energy is planning to hire for this, if anyone - would think that any legislative drafting would be done by Provincial counsel. Maybe we could provide that Province will let them know who they can share and discuss with as part of project.

Who is going to sign this agreement on behalf of Province? Is it really a contract of the OFA or of the Province?

The only agreement that pertains to the domestic syndicate is the DMTN Dealership Agreement.

Hi Kelly,

I have some precedent non-disclosure agreements that I have drafted in the past, but we need some more information.

Here are some questions that will assist:

Is the information being given to all 3 potential advisors or just the one that will be hired?
What type of information is being given? Need a description.
For what purpose is the advisor being given this information? What use will the advisor make of the information?
What is the advisor being hired to do? Pricing/financing issues about what? Need a description of the project or services Can the advisor talk to anyone about the information or the project? i.e. other ministry staff, ministry of energy, OFA, OEFC?

I think if we can get some more information along these lines it would be helpful. Also, if the contracting party is the OFA or OEFC then I will need to speak to Sarah Neville.

Thanks.

Hi Kelly,

I have read it over now. Should we have a short call about this. This is a significant project and does the Province/OFA/OEFC plan to hire a financial advisor to advise on aspects of it. Quite possibly there will be more than one advisory contract here as there seem to be capital markets, accounting, etc. issues involved here. Also, looking at the background information, I don't' know that it is necessarily clear who is going to the borrowing whether it's the Province or OEFC and which entity will provide the equity injection (Minister of Energy holds the shares in OPG). So we can't do a non-disclosure agreement in isolation. What information are we giving to the financial advisor and what are we asking them to do?

I think we need more context here and also if it is OEFC hiring the financial advisor, we should be speaking to Sarah Neville too. This is a project that Ronald Kwan's group is involved in.

Ok - looking at the info on page 2 - looks like the OEFC will be looking to "hire" the advisor regarding pricing/ financing the amounts shown in the paper. This advisor will be a member of the current bond syndicate. Mike wants a non - disclosure for this advisor. Given the structure and all the items mentioned in the paper, I would say it should be pretty broad.

Is the information being given to all 3 potential advisors or just the one that will be hired?
What type of information is being given? Need a description.
For what purpose is the advisor being given this information? What use will the advisor make of the information?

What is the advisor being hired to do? Pricing/financing issues about what? Need a description of the project or services Can the advisor talk to anyone about the information or the project? i.e. other ministry staff, ministry of energy, OFA, OEFC?
What about internal disclosure within the advisor's company?
Is there a procurement process of any type to hire the advisor?
How much and how will the advisor be paid?
Who are the parties to the agreement? Is it the Province that is hiring the advisor and giving them the information?
What is the consideration for the advisor's agreement for keeping it confidential? i.e. the advisor is being paid to give advice.

I think if we can get some more information along these lines it would be helpful. Also, if the contracting party is the OFA or OEFC then I will need to speak to Sarah Neville.

Thanks.

Hi

Mike is just asking for an agreement for the dealer he hires to advise on pricing/ financing issues. I believe they are talking to RBC, TD and BMO. This request is confined to that. He wants it done by Monday I've been told.

Hi Kelly,

I have read it over now. Should we have a short call about this. This is a significant project and does the Province/OFA/OEFC plan to hire a financial advisor to advise on aspects of it. Quite possibly there will be more than one advisory contract here as there seem to be capital markets, accounting, etc. issues involved here. Also, looking at the background information, I don't' know that it is necessarily clear who is going to the borrowing whether it's the Province or OEFC and which entity will provide the equity injection (Minister of Energy holds the shares in OPG). So we can't do a non-disclosure agreement in isolation. What information are we giving to the financial advisor and what are we asking them to do?

I think we need more context here and also if it is OEFC hiring the financial advisor, we should be speaking to Sarah Neville too. This is a project that Ronald Kwan's group is involved in.

Ok - looking at the info on page 2 - looks like the OEFC will be looking to "hire" the advisor regarding pricing/ financing the amounts shown in the paper. This advisor will be a member of the current bond syndicate. Mike wants a non - disclosure for this advisor. Given the structure and all the items mentioned in the paper, I would say it should be pretty broad.

Carlos is saying that there will be no financial compensation for the advisor. The benefit to it, is that it will gain insight into how the new structure works and experience with the spv which may be beneficial in obtaining work from the spv in the future. They won't provide for any compensation in the NDA itself.

Also, looking at the background information, I don't' know that it is necessarily clear who is going to the borrowing whether it's the Province or OEFC and which entity will provide the equity injection (Minister of Energy holds the shares in OPG). So we can't do a non-disclosure agreement in isolation. What information are we giving to the financial advisor and what are we asking them to do?

I think we need more context here and also if it is OEFC hiring the financial advisor, we should be speaking to Sarah Neville too. This is a project that Ronald Kwan's group is involved in.

In addition to the "non-disclosure" aspect, will there be a contract for OEFC to hire the advisor, ie. What the advisor will do, payment, etc. Sorry haven't read it yet.

Ok - looking at the info on page 2 - looks like the OEFC will be looking to "hire" the advisor regarding pricing/ financing the amounts shown in the paper. This advisor will be a member of the current bond syndicate. Mike wants a non - disclosure for this advisor. Given the structure and all the items mentioned in the paper, I would say it should be pretty broad.

Hi Kelly,

I have read it over now. Should we have a short call about this. This is a significant project and does the Province/OFA/OEFC plan to hire a financial advisor to advise on aspects of it. Quite possibly there will be more than one advisory contract here as there seem to be capital markets, accounting, etc. issues involved here. Also, looking at the background information, I don't' know that it is necessarily clear who is going to the borrowing whether it's the Province or OEFC and which entity will provide the equity injection (Minister of Energy holds the shares in OPG). Hi Kelly,

I have some precedent non-disclosure agreements that I have drafted in the past, but we need some more information.

Here are some questions that will assist:

Is the information being given to all 3 potential advisors or just the one that will be hired?
What type of information is being given? Need a description.
For what purpose is the advisor being given this information? What use will the advisor make of the information?

What is the advisor being hired to do? Pricing/financing issues about what? Need a description of the project or services Can the advisor talk to anyone about the information or the project? i.e. other ministry staff, ministry of energy, OFA, OEFC?
What about internal disclosure within the advisor's company?
Is there a procurement process of any type to hire the advisor?
How much and how will the advisor be paid?
Who are the parties to the agreement? Is it the Province that is hiring the advisor and giving them the information?
What is the consideration for the advisor's agreement for keeping it confidential? i.e. the advisor is being paid to give advice.

I think if we can get some more information along these lines it would be helpful. Also, if the contracting party is the OFA or OEFC then I will need to speak to Sarah Neville.

Thanks.

Mike is just asking for an agreement for the dealer he hires to advise on pricing/ financing issues. I believe they are talking to RBC, TD and BMO. This request is confined to that. He wants it done by Monday I've been told.

Hi Kelly,

I have read it over now. Should we have a short call about this. This is a significant project and does the Province/OFA/OEFC plan to hire a financial advisor to advise on aspects of it. Quite possibly there will be more than one advisory contract here as there seem to be capital markets, accounting, etc. issues involved here. Also, looking at the background information, I don't' know that it is necessarily clear who is going to the borrowing whether it's the Province or OEFC and which entity will provide the equity injection (Minister of Energy holds the shares in OPG). So we can't do a non-disclosure agreement in isolation. What information are we giving to the financial advisor and what are we asking them to do?

I think we need more context here and also if it is OEFC hiring the financial advisor, we should be speaking to Sarah Neville too. This is a project that Ronald Kwan's group is involved in.

Ok - looking at the info on page 2 - looks like the OEFC will be looking to "hire" the advisor regarding pricing/ financing the amounts shown in the paper. This advisor will be a member of the current bond syndicate. Mike wants a non - disclosure for this advisor. Given the structure and all the items mentioned in the paper, I would say it should be pretty broad.

Hi Kelly,

I have read it over now. Should we have a short call about this. This is a significant project and does the Province/OFA/OEFC plan to hire a financial advisor to advise on aspects of it. Quite possibly there will be more than one advisory contract here as there seem to be capital markets, accounting, etc. issues involved here. Also, looking at the background information, I don't' know that it is necessarily clear who is going to the borrowing whether it's the Province or OEFC and which entity will provide the equity injection (Minister of Energy holds the shares in OPG). So we can't do a non-disclosure agreement in isolation. What information are we giving to the financial advisor and what are we asking them to do?

I think we need more context here and also if it is OEFC hiring the financial advisor, we should be speaking to Sarah Neville too. This is a project that Ronald Kwan's group is involved in.

Ok - looking at the info on page 2 - looks like the OEFC will be looking to "hire" the advisor regarding pricing/ financing the amounts shown in the paper. This advisor will be a member of the current bond syndicate. Mike wants a non - disclosure for this advisor. Given the structure and all the items mentioned in the paper, I would say it should be pretty broad.

Is the information being given to all 3 potential advisors or just the one that will be hired?
What type of information is being given? Need a description.
For what purpose is the advisor being given this information? What use will the advisor make of the information?
What is the advisor being hired to do? Pricing/financing issues about what? Need a description of the project or services Can the advisor talk to anyone about the information or the project? i.e. other ministry staff, ministry of energy, OFA, OEFC?
What about internal disclosure within the advisor's company?
Is there a procurement process of any type to hire the advisor?
How much and how will the advisor be paid?
Who are the parties to the agreement? Is it the Province that is hiring the advisor and giving them the information?
What is the consideration for the advisor's agreement for keeping it confidential? i.e. the advisor is being paid to give advice.

I think if we can get some more information along these lines it would be helpful. Also, if the contracting party is the OFA or OEFC then I will need to speak to Sarah Neville.

Thanks.

Hi Malle

Carlos is saying that there will be no financial compensation for the advisor. The benefit to it, is that it will gain insight into how the new structure works and experience with the spv which may be beneficial in obtaining work from the spv in the future. They won't provide for any compensation in the NDA itself.

Hi Kelly,

I have some precedent non-disclosure agreements that I have drafted in the past, but we need some more information.

Here are some questions that will assist:

Is the information being given to all 3 potential advisors or just the one that will be hired?
What type of information is being given? Need a description.
For what purpose is the advisor being given this information? What use will the advisor make of the information?
What is the advisor being hired to do? Pricing/financing issues about what? Need a description of the project or services Can the advisor talk to anyone about the information or the project? i.e. other ministry staff, ministry of energy, OFA, OEFC?

What is the consideration for the advisor's agreement for keeping it confidential? i.e. the advisor is being paid to give advice.

I think if we can get some more information along these lines it would be helpful. Also, if the contracting party is the OFA or OEFC then I will need to speak to Sarah Neville.

Thanks.

Hi Kelly,

I have read it over now. Should we have a short call about this. This is a significant project and does the Province/OFA/OEFC plan to hire a financial advisor to advise on aspects of it. Quite possibly there will be more than one advisory contract here as there seem to be capital markets, accounting, etc. issues involved here. Also, looking at the background information, I don't' know that it is necessarily clear who is going to the borrowing whether it's the Province or OEFC and which entity will provide the equity injection (Minister of Energy holds the shares in OPG). So we can't do a non-disclosure agreement in isolation. What information are we giving to the financial advisor and what are we asking them to do?

I think we need more context here and also if it is OEFC hiring the financial advisor, we should be speaking to Sarah Neville too. This is a project that Ronald Kwan's group is involved in.

Ok - looking at the info on page 2 - looks like the OEFC will be looking to "hire" the advisor regarding pricing/ financing the amounts shown in the paper. This advisor will be a member of the current bond syndicate. Mike wants a non - disclosure for this advisor. Given the structure and all the items mentioned in the paper, I would say it should be pretty broad.

Hi Malle

I just met with Opal and Sarah. Attached is an overview of what is happening. I have not yet read it. Please have a read of it and see if there is an agreement template or something that would work for non - disclosure purposes.

Hi

Mike is just asking for an agreement for the dealer he hires to advise on pricing/ financing issues. I believe they are talking to RBC, TD and BMO. This request is confined to that. He wants it done by Monday I've been told.

Hi Kelly,

I have read it over now. Should we have a short call about this. This is a significant project and does the Province/OFA/OEFC plan to hire a financial advisor to advise on aspects of it. Quite possibly there will be more than one advisory contract here as there seem to be capital markets, accounting, etc. issues involved here. Also, looking at the background information, I don't' know that it is necessarily clear who is going to the borrowing whether it's the Province or OEFC and which entity will provide the equity injection (Minister of Energy holds the shares in OPG). So we can't do a non-disclosure agreement in isolation. What information are we giving to the financial advisor and what are we asking them to do?

I think we need more context here and also if it is OEFC hiring the financial advisor, we should be speaking to Sarah Neville too. This is a project that Ronald Kwan's group is involved in.

In addition to the "non-disclosure" aspect, will there be a contract for OEFC to hire the advisor, ie. What the advisor will do, payment, etc. Sorry haven't read it yet.

Ok - looking at the info on page 2 - looks like the OEFC will be looking to "hire" the advisor regarding pricing/ financing the amounts shown in the paper. This advisor will be a member of the current bond syndicate. Mike wants a non - disclosure for this advisor. Given the structure and all the items mentioned in the paper, I would say it should be pretty broad.

All I've been told is that a nondisclosure is needed. The rest may very well be, but that isn't the assignment for now. I am also assuming that the oefc will borrow on its own account for the equity injection and would be raising the debt for the spv. What is going on here shouldn't be transparent, it seems - hence the need for nondisclosure by the advisor.

All I've been told is that a nondisclosure is needed. The rest may very well be, but that isn't the assignment for now. I am also assuming that the oefc will borrow on its own account for the equity injection and would be raising the debt for the spv. What is going on here shouldn't be transparent, it seems - hence the need for nondisclosure by the advisor.

In addition to the "non-disclosure" aspect, will there be a contract for OEFC to hire the advisor, ie. What the advisor will do, payment, etc. Sorry haven't read it yet.

Ok - looking at the info on page 2 - looks like the OEFC will be looking to "hire" the advisor regarding pricing/ financing the amounts shown in the paper. This advisor will be a member of the current bond syndicate. Mike wants a non - disclosure for this advisor. Given the structure and all the items mentioned in the paper, I would say it should be pretty broad.

Hi Malle

Carlos is saying that there will be no financial compensation for the advisor. The benefit to it, is that it will gain insight into how the new structure works and experience with the spv which may be beneficial in obtaining work from the spv in the future. They won't provide for any compensation in the NDA itself.

Subject: RE: Message from "14-PRT06"

Hi Kelly,

I have some precedent non-disclosure agreements that I have drafted in the past, but we need some more information.

Here are some questions that will assist:

Is the information being given to all 3 potential advisors or just the one that will be hired?
What type of information is being given? Need a description.
For what purpose is the advisor being given this information? What use will the advisor make of the information?
What is the advisor being hired to do? Pricing/financing issues about what? Need a description of the project or services Can the advisor talk to anyone about the information or the project? i.e. other ministry staff, ministry of energy, OFA, OEFC?
What about internal disclosure within the advisor's company?
Is there a procurement process of any type to hire the advisor?
How much and how will the advisor be paid?
Who are the parties to the agreement? Is it the Province that is hiring the advisor and giving them the information?
What is the consideration for the advisor's agreement for keeping it confidential? i.e. the advisor is being paid to give advice.

I think if we can get some more information along these lines it would be helpful. Also, if the contracting party is the OFA or OEFC then I will need to speak to Sarah Neville.

Thanks.

Hi Kelly,

I have read it over now. Should we have a short call about this. This is a significant project and does the Province/OFA/OEFC plan to hire a financial advisor to advise on aspects of it. Quite possibly there will be more

than one advisory contract here as there seem to be capital markets, accounting, etc. issues involved here. Also, looking at the background information, I don't' know that it is necessarily clear who is going to the borrowing whether it's the Province or OEFC and which entity will provide the equity injection (Minister of Energy holds the shares in OPG). So we can't do a non-disclosure agreement in isolation. What information are we giving to the financial advisor and what are we asking them to do?

I think we need more context here and also if it is OEFC hiring the financial advisor, we should be speaking to Sarah Neville too. This is a project that Ronald Kwan's group is involved in.

Hi Malle

Carlos is saying that there will be no financial compensation for the advisor. The benefit to it, is that it will gain insight into how the new structure works and experience with the spv which may be beneficial in obtaining work from the spv in the future. They won't provide for any compensation in the NDA itself.

Hi Kelly,

I have some precedent non-disclosure agreements that I have drafted in the past, but we need some more information.

Here are some questions that will assist:

Is the information being given to all 3 potential advisors or just the one that will be hired?
What type of information is being given? Need a description.
For what purpose is the advisor being given this information? What use will the advisor make of the information?
What is the advisor being hired to do? Pricing/financing issues about what? Need a description of the project or services Can the advisor talk to anyone about the information or the project? i.e. other ministry staff, ministry of energy, OFA, OEFC?
What about internal disclosure within the advisor's company?

Who are the parties to the agreement? Is it the Province that is hiring the advisor and giving them the information?
What is the consideration for the advisor's agreement for keeping it confidential? i.e. the advisor is being paid to give advice.

I think if we can get some more information along these lines it would be helpful. Also, if the contracting party is the OFA or OEFC then I will need to speak to Sarah Neville.

Thanks.

Hi Kelly,

I have read it over now. Should we have a short call about this. This is a significant project and does the Province/OFA/OEFC plan to hire a financial advisor to advise on aspects of it. Quite possibly there will be more

than one advisory contract here as there seem to be capital markets, accounting, etc. issues involved here. Also, looking at the background information, I don't' know that it is necessarily clear who is going to the borrowing whether it's the Province or OEFC and which entity will provide the equity injection (Minister of Energy holds the shares in OPG). So we can't do a non-disclosure agreement in isolation. What information are we giving to the financial advisor and what are we asking them to do?

I think we need more context here and also if it is OEFC hiring the financial advisor, we should be speaking to Sarah Neville too. This is a project that Ronald Kwan's group is involved in.

Ok - looking at the info on page 2 - looks like the OEFC will be looking to "hire" the advisor regarding pricing/ financing the amounts shown in the paper. This advisor will be a member of the current bond syndicate. Mike wants a non - disclosure for this advisor. Given the structure and all the items mentioned in the paper, I would say it should be pretty broad.

Hi Kelly,

I have read it over now. Should we have a short call about this. This is a significant project and does the Province/OFA/OEFC plan to hire a financial advisor to advise on aspects of it. Quite possibly there will be more than one advisory contract here as there seem to be capital markets, accounting, etc. issues involved here. Also, looking at the background information, I don't' know that it is necessarily clear who is going to the borrowing whether it's the Province or OEFC and which entity will provide the equity injection (Minister of Energy holds the shares in OPG). So we can't do a non-disclosure agreement in isolation. What information are we giving to the financial advisor and what are we asking them to do?

I think we need more context here and also if it is OEFC hiring the financial advisor, we should be speaking to Sarah Neville too. This is a project that Ronald Kwan's group is involved in.

Ok - looking at the info on page 2 - looks like the OEFC will be looking to "hire" the advisor regarding pricing/ financing the amounts shown in the paper. This advisor will be a member of the current bond syndicate. Mike wants a non - disclosure for this advisor. Given the structure and all the items mentioned in the paper, I would say it should be pretty broad.

Carlos is saying that there will be no financial compensation for the advisor. The benefit to it, is that it will gain insight into how the new structure works and experience with the spv which may be beneficial in obtaining work from the spv in the future. Mike is just asking for an agreement for the dealer he hires to advise on pricing/ financing issues. I believe they are talking to RBC, TD and BMO. This request is confined to that. He wants it done by Monday I've been told.

Hi Kelly,

I have read it over now. Should we have a short call about this. This is a significant project and does the Province/OFA/OEFC plan to hire a financial advisor to advise on aspects of it. Quite possibly there will be more than one advisory contract here as there seem to be capital markets, accounting, etc. issues involved here. Also, looking at the background information, I don't' know that it is necessarily clear who is going to the borrowing whether it's the Province or OEFC and which entity will provide the equity injection (Minister of Energy holds the shares in OPG). So we can't do a non-disclosure agreement in isolation. What information are we giving to the financial advisor and what are we asking them to do?

I think we need more context here and also if it is OEFC hiring the financial advisor, we should be speaking to Sarah Neville too. This is a project that Ronald Kwan's group is involved in.

Ok - looking at the info on page 2 - looks like the OEFC will be looking to "hire" the advisor regarding pricing/ financing the amounts shown in the paper. This advisor will be a member of the current bond syndicate. Mike wants a non - disclosure for this advisor. Given the structure and all the items mentioned in the paper, I would say it should be pretty broad.

Hi Malle

Carlos is saying that there will be no financial compensation for the advisor. The benefit to it, is that it will gain insight into how the new structure works and experience with the spv which may be beneficial in obtaining work from the spv in the future. They won't provide for any compensation in the NDA itself.

Hi Kelly,

I have some precedent non-disclosure agreements that I have drafted in the past, but we need some more information.

Here are some questions that will assist:

Is the information being given to all 3 potential advisors or just the one that will be hired?
What type of information is being given? Need a description.
For what purpose is the advisor being given this information? What use will the advisor make of the information?
What is the advisor being hired to do? Pricing/financing issues about what? Need a description of the project or services Can the advisor talk to anyone about the information or the project? i.e. other ministry staff, ministry of energy, OFA, OEFC?
What about internal disclosure within the advisor's company?
Is there a procurement process of any type to hire the advisor?
How much and how will the advisor be paid?
Who are the parties to the agreement? Is it the Province that is hiring the advisor and giving them the information?

What is the consideration for the advisor's agreement for keeping it confidential? i.e. the advisor is being paid to give advice.

I think if we can get some more information along these lines it would be helpful. Also, if the contracting party is the OFA or OEFC then I will need to speak to Sarah Neville.

Thanks.

Hi Opal and Sarah
Attached is a draft of the NDA. I discussed the 3 bullet points with Carlos and found the following:

- The advice is regarding the financing structure and alternatives for the spv given the legislation that eventually is drafted. On page 2 of the OPG White Paper, it indicates that all of the percentages shown are "indicative and will be highly dependent on the legislation"… this gives rise to the need for an advisor once the legislation is known.
- Carlos says the OFA will sign the NDA. Sarah - Do you want to send it to the appropriate lawyer in OFA legal?
- The banks/ dealers have the appropriate Chinese Walls in place to deal with conflicts of interest.

I agree with Sarah that the NDA itself should suffice in this instance.

Hi Opal,
Kelly is looking into the first 3 bullet points as the relate to the NDA.
The attached advisory agreement seems to be overkill for the what I understand to be a very narrow scope of advice being given. It seems to me that as long as we state the type of advice being provided in the NDA, with *possibly* a conflict of interest rep in the NDA, I think that would cover what is needed.

Thanks Kelly. I'd suggest you go back to LSB and provide your marked up draft and let them know the reasons for the changes. I'll touch base with Mike as to the status of the work being done on this. LSB will loop in OFA legal (or you can offer to do it).
Thanks,
Opal.

Hi Opal and Sarah
Attached is a draft of the NDA. I discussed the 3 bullet points with Carlos and found the following:

- The advice is regarding the financing structure and alternatives for the spv given the legislation that eventually is drafted. On page 2 of the OPG White Paper, it indicates that all of the percentages shown are "indicative and will be highly dependent on the legislation"… this gives rise to the need for an advisor once the legislation is known.
- Carlos says the OFA will sign the NDA. Sarah - Do you want to send it to the appropriate lawyer in OFA legal?
- The banks/ dealers have the appropriate Chinese Walls in place to deal with conflicts of interest.

I agree with Sarah that the NDA itself should suffice in this instance.
Regards,
Kelly

Hi Opal,

The attached advisory agreement seems to be overkill for the what I understand to be a very narrow scope of advice being given. It seems to me that as long as we state the type of advice being provided in the NDA, with *possibly* a conflict of interest rep in the NDA, I think that would cover what is needed.

Confidential and Privileged Legal Advice – April 1, 2017 – MOF LSB
Note regarding this NDA and the retention of an adviser:

We have a number of questions relating to this NDA, and issues that should be considered in retaining an adviser:

- We have not been able to confirm what the scope of the advice being sought is. If the advice is restricted to advising on market timing and potential demand for certain securities, this is more limited than broader advice relating to structuring the transaction;
- We think it should be clear who the adviser is working for, and how the advice will be presented to the Province. If the advice is going to be to the Ministry of Energy or the Minister of Finance, will be given through the OFA?;
- Are there potential conflicts of interest between the adviser's role as an adviser and as a potential underwriter or other business of the adviser?

In addition, it should be considered whether it is appropriate to have an adviser without an agreement for the services that the adviser would be providing. The NDA protects the Province with respect to the disclosure of the information to third parties, but it does not set out the role, responsibilities or other matters relating to conflicts or other duties of the adviser. Terms of such an agreement that may be considered in such a context include:

- Scope of engagement;
- Performance Warranty – setting out the standard to which the adviser is to carry out the work and provide advice;
- Copyright and IP provisions;
- Conflict of interest provisions – setting out the primary duties of the adviser and how they must conduct themselves with respect to any potential conflicts;
- Indemnities – setting out the adviser's indemnities to the OFA for certain risks.

Attached is a draft of the NDA. I discussed the 3 bullet points with Carlos and found the following:

- The advice is regarding the financing structure and alternatives for the spv given the legislation that eventually is drafted. On page 2 of the OPG White Paper, it indicates that all of the percentages shown are "indicative and will be highly dependent on the legislation"… this gives rise to the need for an advisor once the legislation is known.

- The banks/ dealers have the appropriate Chinese Walls in place to deal with conflicts of interest.

I agree with Sarah that the NDA itself should suffice in this instance.

Hi Kelly,
Thanks for your mark-up. It doesn't seem to be overly complicated.
I think we need to clarify the contracting party. Carlos indicates the "the Province" i.e. OFA and Energy. You can't really have the OFA contracting as the Province – separate entities (OFA contracts as a separate entity under CIPA). We can include Energy under Her Majesty the Queen, since they are a "Ministry", but OFA can't go under the umbrella of HMQ.

I should add – if you look at the white paper that was prepared by OPG, on page 2 there is the proposed structure of the "deal" with the spv included. It is noted that the percentages and types of debt/ equity are subject to change depending on the eventual legislation enacted. It seems to me that this is largely what the Province (OFA/ Energy) need the advisor for – advise on this structure based on what the legislation ends up looking like – simple as that.

Hi Sarah
I have edited Toby's draft and attached it. I think Carlos' previous answers shed light on some of the items raised. It looks to me to be a bit more straightforward than the situation with OPG and CIBC, etc giving rise to the FAS agreement, so not sure that is needed after all.
Bullet 1 seems to be answered by "to provide advice on the structure of financing alternatives for the special purpose vehicle"
We could confirm again with Carlos/ Mike who is receuiving the advice. I left it as the OFA based on his previous response.
For potential conflicts within the advisor, I know they all have their own Chinese Walls in place.

We have also attached a scan of an agreement that the OFA negotiated in 2004 to hire an adviser for a project relating to electricity finance as an example of such an agreement and the types of provisions that could be considered for inclusion in such an agreement.

Hi Opal and Sarah
Attached is a draft of the NDA. I discussed the 3 bullet points with Carlos and found the following:

- The advice is regarding the financing structure and alternatives for the spv given the legislation that eventually is drafted. On page 2 of the OPG White Paper, it indicates that all of the percentages shown are "indicative and will be highly dependent on the legislation"… this gives rise to the need for an advisor once the legislation is known.
- Carlos says the OFA will sign the NDA. Sarah - Do you want to send it to the appropriate lawyer in OFA legal?
- The banks/ dealers have the appropriate Chinese Walls in place to deal with conflicts of interest.

I agree with Sarah that the NDA itself should suffice in this instance.

Kelly

Hi Opal,
Kelly is looking into the first 3 bullet points as the relate to the NDA.
The attached advisory agreement seems to be overkill for the what I understand to be a very narrow scope of advice being given. It seems to me that as long as we state the type of advice being provided in the NDA, with *possibly* a conflict of interest rep in the NDA, I think that would cover what is needed.

Thanks, Kelly.
Could you please 'accept all changes' and save as clean draft.
You can then send it to Mike, along with a covering e-mail something along the lines of:

> Hello Mike,
> Per your conversation with Opal, attached is a sample Non-Disclosure Agreement that can be sent to Ministry of Energy for their consideration.
> You may note to MOE that the agreement is still fairly general in nature, and that we have highlighted for them on the first page of the draft a number of issues that they may want to consider incorporating in their draft including the clarification of the scope services provided and any relevant conflicts of interest. They may also want to consider entering into a separate agreement for advisory services, as discussed on the first page of the draft.

That way Mike can easily 'lift' the wording when sending it onto MOE.
Thanks,
Sarah

Hi Salman,

In the LRC approval form, an amount is quoted up to $3.5 billion.

It's important that we clearly lay out the requirement for the $3.5 billion (source, breakdown) , taking into consideration existing OFA authority under OICs, 675/97 and 767/99. I sent the attached spreadsheet to Mara B. with Documentation's attempt to list all outstanding loans/authority uses under the two relevant OFA public body lending OIC, and indicating that we rely on Corporate Finance to confirm the lending activity. Mara has not responded as of yet to this e-mail, however, I think the remaining amount of authority under these two OICs should be considered.

Let's discuss in more detail at 12:15 p.m.

Subject: RE: OFA Loan Update as at May 5, 2017

Hi Mara,

We sent the Loans spreadsheet to Corporate Finance as part of practice undertaken previously by Documentation and Corporate Finance to verify the authority that has been committed to Public Bodies under the OFA's existing lending OICs (currently there are two OICs, 675/97 and 767/99).

For OFA lending OICs, Documentation assists in obtaining new lending OICs if the existing OICs are not sufficient to cover relevant OFA Loans (the existing lending OICs are over 15 years old, so there has been no need to obtain a new OIC in some time). However, since Documentation does not originate the loans/loan agreements, Documentation is reliant on Corporate Finance for the provision and verification of OFA lending activity under such OICs in order to ensure that it is fully captured in OIC tables and the OFA does not exceed the lending authority under the applicable OICs.

It is our understanding that Corporate Finance, with the assistance of OFA legal, prepares an annual lending directive which includes an estimate of the approved annual OFA lending. During the course of this process, we understand that OFA legal confirms with Corporate Finance whether there is sufficient authority under existing OICs or whether a new OFA lending OIC must be sought. The attached table would be relevant in confirming this.

In order to keep the table up to date, we propose sending the spreadsheet on a quarterly or bi-annual basis for Corporate Finance to confirm. Please note that we have made changes to the spreadsheet since we initially sent it to Corporate Finance on May 8, 2017. The current iteration is

attached for consideration then further discussion to ensure consensus. The allocated amounts highlighted in orange represent what we believe to be the amount of authority that should be deemed used/allocated. Likewise, for the calculation of the remaining authority the orange represents our final calculation. We will need to clarify the impact of capitalized interest and how it is determined as it seems unclear (the source and impact on amounts allocated under the OICs) based on past reporting. We have not specified Capitalized Interest or Repayments at this point.
In the past, Accounting has not provided/verified the loan information as it impacts OIC tables. With the implementation of OLMS, we are aware that information flows/inputs may have been affected. In the event that the introduction of OLMS means existing processes need to change, Corporate Finance and Documentation will need to coordinate with Accounting on the best approach.
Thanks,
Sarah

Hi Andrea,
Corporate Finance does not administer the OFA loans or the OLMS. To confirm amounts repaid, capitalized interest, etc. you should contact OFA's Accounting group (Siva Nathan). Also, I believe that the maturity date noted for the Ontario Infrastructure and Lands Corporation line of credit is incorrect. OILC's last line of credit expired in June 2016. We recently started working with IO on a new line of credit facility but the details have yet to be finalized. In addition, we have been in discussion with MAESD regarding providing loans totalling $300M to colleges and universities in 2017-18 for energy retrofit projects but this loan program has yet to go forward for Treasury Board and Cabinet approval.

Hi,
Please find attached the updated listing of the OFA Loans as at May 5, 2017. We used the Oct 31, 2013 as the base and then we removed (moved to bottom) what seemed to have matured or no longer exist based on OLMS (current loan system), added new and updated Borrowing Authority Allocated based on OLMS as applicable. We adjusted some maturity dates (OILC and OEFC lines of credit maturity dates) which were incorrect based on documentation in place.
The last update was a joint effort between Documentation and Salman in 2013. We ask that Corporate Finance review to ensure its agreement with the attached update dated May 5, 2017. We are aware of no new school loans but we rely on Corporate Finance for updated information regarding new loans.
Let me know should you have any questions or concerns.

Salman –

The OFA's authority to borrow is set out in its' general borrowing by-law, By-Law #12 (see document at below link) which is approved by resolution of the Board and requires the additional approval of the Minister.

Under section 1(a)(i), the by-law permits borrowing by the OFA from the Minister of Finance, such amounts as the Minister of Finance is authorized by OIC to lend to the OFA.

http://portal.ofina.on.ca/sites/ld/ofaboard/administration/ByLaws/General%20Borrowing%20and%20Financing%20By-Law%2012.pdf

So, yes, borrowing from the Province by the OFA must not exceed amounts the Minister is authorized by OIC to lend.

Please let me know if you have questions or would like to discuss further.

Thanks Sarah.

Is it fine to say that the OFA needs to have room within an OIC to be able to lend to an entity (or in other words, an OIC (alongside other approvals like Minister's directive etc) to ensure the OFA can lend? I believe this is true but wanted to get a definite answer.

I've reached out to Sarah Harris on my second questions as well.

Thanks again,
Salman

Hi Salman - Documentation tracks and administers the borrowing OICs. Lenin asked me about the IESO Credit Facility back in the summer and Lisa was assigned as a result of the inquiry (so I've copied her as well). I am not sure but I think Lenin may be away, so I am copying Sarah Harris with your query.

Please let me know if you require anything further.

Subject: OFA Loans and OIC

Hi Sarah,

Hoping you could help or point me in the right direction on this. I'd be happy to give you a call or come up to your office to quickly discuss…

There are two questions I am trying to answer:

1) If my understanding of the legal authorizations required for OFA to lend to entities is correct and that an OIC is needed for any lending the OFA intends to do; and
2) If my understanding is correct, would you have any documents/records to show that a certain OIC was done for the OFA-OPA (now IESO) facility

<u>Background for my two questions:</u>
My current understanding the legal requirements to do an OFA loan (pre- drafting an agreement). It is my understanding that:

- An OIC must authorize the Minister of Finance to lend to the OFA.
- Minister of Finance's Directive must then direct OFA to "on-lend" to Borrower subject to terms and

conditions.

I assume this is the case and with that, I was trying to look for the OIC that would have been completed for the OFA to provide the current $975 million (originally could have been $475 million) revolving credit facility to the IESO (previously OPA). I don't think it was an specific one for this on-lending and it may be an old one. I have attached the most recent OIC that I could find and it makes reference to:

WHEREAS pursuant to Order in Council 675/97 made under subsection 22(1) of the Capital Investment Plan Act, 1993, the Minister of Finance is authorized to lend Two Billion One Hundred and Sixty Million Dollars in lawful money of Canada to the Ontario Financing Authority (the "OF A");

And based on OIC tracking that I had seen in 2013 by OFA Documentation, this $975 million is included under that amount.

Thank you,
Salman

Hi Andrea,
Thanks for updating the spreadsheet. As discussed, I changed the maturity dates for IESO and OILC. Could you please send this the Mara B. and Michael S. and ask them to review to confirm if their information matches on the loans? You can copy Salman, and explain to Mara and Michael that it was last updated with between Documentation and Salman in 2013, and we want to ensure that it is still up to date. You can provide them with the 2013 update, and then let them know that we have removed all the matured loans/partial repayments as far we're able to see, and have updated our information on IESO/IO and there have been no new school board loans (you can touch base with Martine, but I haven't heard of any since my tenure as manager). We rely on Corporate Finance to confirm when/if any new loans are done, so if they could review your updated table to ensure that everything is captured, then the table will be up to date.
Thanks,
Sarah

Subject: OFA will not retain 25bps spread for $2.0B, OFHP IESO Credit Facility

This is note that Sarah an I met with Mike Manning, Linda Smith and Carlos Yep on the topic of 25bps OFA would charge on advances to IESO and the difference paid to the Province of Ontario. Mike deferred to Ken Kandeepan for a decision. Ken provided instructions not to retain the 25bps for the $2.0 B, OFHP IESO Credit Facility because we currently generate enough profit to cover out operations.

According to OFHP OIC, section C(ii) "…..

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a "Third Party Loan"), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

ii) Retention of spread

Pursuant to Order in Council ####, made under sub-section 22(1) of CIPA, the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for the Line of Credit made under the authority of this Directive, the amount of the spread retained by the OFA shall be for the amount of the Spread as set out above.

Hi Salman
Thanks for that information. Please let me know whether it is the same as the last draft (could you also send a copy of what went forward to us)?
To answer your question, it looks to me like "the OFA may make advances to the OPA on any Business Day (as defined in the Loan Agreement) prior to November 30, 2016." So, if they want an advance in December, this will have to be in place by Nov 30th.

Hi Kelly,
Thanks for following up on this. The package is in approvals and we're following up.
Just for my sake, as I know I'll be asked, what is driving the November 30th date? I do realize the December 31, 2016 expiry date and I assume we just want to finish this off before the holidays start up. Any other insight that might be helpful from your end?

I will have our legal review the drafts and respond.
Attached is the draft IESO Board resolution from our secretary– I can have the secretary sign it if needed.
As for the incumbency certificate – do you want just the CFO listed or all officers listed?
Please confirm.

Hi Salman

Thanks for that information. Please let me know whether it is the same as the last draft (could you also send a copy of what went forward to us)?

To answer your question, it looks to me like "the OFA may make advances to the OPA on any Business Day (as defined in the Loan Agreement) prior to November 30, 2016." So, if they want an advance in December, this will have to be in place by Nov 30th.

Hi Kelly,

Thanks for following up on this. The package is in approvals and we're following up.

Just for my sake, as I know I'll be asked, what is driving the November 30th date? I do realize the December 31, 2016 expiry date and I assume we just want to finish this off before the holidays start up. Any other insight that might be helpful from your end?

Thank you,

Hi Salman:

Would you have the Directive related to this request? If so, please send us a draft of the latest version at your earliest convenience. Has the directive changed at all? Can you let us know when it is expected to be signed?

In the v3 I had sent around, I had not remove the language in the recital making reference to the OIC #, which we had agreed did not need to be in the directive. Ron was also okay with leaving it removed.
Attached is v5.

Hi Sarah,
Based on the information we have to date, I don't think we were thinking of imposing that same

limitation of 12 month period but I see your point. I reread IESO request letter and suggest we do this instead to avoid lots of initial changes:

I. Change purpose to only state "short-term" needs:

> 1) Proceeds of Advances may be used only for short term financing requirements due to cash flow timing differences incurred as a result of IESO's role in the implementation and administration of the Ontario Fair Hydro Plan Act, 2017.

II. Leave subsection 2 in there for now.
If IESO has issues, they can raise it in their comments back. Should we need "medium-term" financing, we can amend the agreement later as needed.
Thoughts?
Regards,
Salman

HI Salman,
One quick question re: subsection 2 below. Subsection 2 was added in amendment#7 of the $975M OFA-IESO existing credit facility; I think the idea was to ensure that any advance under the facility isn't rolled over for the entire term of the agreement, but that any one advance is limited to 12 months of rolls. Notwithstanding the reference to the Electricity Act in subsection 2, is the intention with this new credit facility to limit rolls to a 12 month period for any particular advance?
Thanks,
Sarah

Hi Toby and Salman,

May I ask both of your assistance in defining the use of proceeds from the IESO credit facility below?

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 423/04 made under the Electricity Act, 1998, subject to the following conditions:

(1) Proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and,

(2) With the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by the IESO under 25.33 of the Electricity Act, 1998, the IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance."

Toby, once Lisa has finished reviewing the IESO credit facility, I will implement her suggested changes and then circulate the draft for your review and comment.

Hi Toby/all,

I had a quick chat with Bruno as well and it may be best to leave it a little open in an effort to remain consistent with what we know for now. We can suggest IESO provide some more details in this statement for clarity based on how they see the borrowings to occur.

Regards,

Salman

Hi William,

In being consistent with the Directive, I think the purpose of the credit facility can be written as follows, subject to any additional comments:

1) Proceeds of Advances may be used only for short to medium term financing requirements due to cash flow timing differences incurred as a result of IESO's role in the implementation and administration of the Ontario Fair Hydro Plan Act, 2017.

I don't think subsection 2 applies. When sending this to IESO, I recommend that we highlight the entire section and have them confirm or provide further details, especially the reference to the 423/04 regulation.

Salman

Hi Sarah,
Based on the information we have to date, I don't think we were thinking of imposing that same limitation of 12 month period but I see your point. I reread IESO request letter and suggest we do this instead to avoid lots of initial changes:

I. Change purpose to only state "short-term" needs:

> 1) Proceeds of Advances may be used only for short term financing requirements due to cash flow timing differences incurred as a result of IESO's role in the implementation and administration of the Ontario Fair Hydro Plan Act, 2017.

II. Leave subsection 2 in there for now.
If IESO has issues, they can raise it in their comments back. Should we need "medium-term" financing, we can amend the agreement later as needed.
Thoughts?

HI Salman,

One quick question re: subsection 2 below. Subsection 2 was added in amendment#7 of the $975M OFA-IESO existing credit facility; I think the idea was to ensure that any advance under the facility isn't rolled over for the entire term of the agreement, but that any one advance is limited to 12 months of rolls. Notwithstanding the reference to the Electricity Act in subsection 2, is the intention with this new credit facility to limit rolls to a 12 month period for any particular advance?

Thanks,

Hi William,

In being consistent with the Directive, I think the purpose of the credit facility can be written as follows, subject to any additional comments:

1) Proceeds of Advances may be used only for short to medium term financing requirements due to cash flow timing differences incurred as a result of IESO's role in the implementation and

administration of the Ontario Fair Hydro Plan Act, 2017.

I don't think subsection 2 applies. When sending this to IESO, I recommend that we highlight the entire section and have them confirm or provide further details, especially the reference to the 423/04 regulation.

Regards,
Salman

Hi Toby and Salman,

May I ask both of your assistance in defining the use of proceeds from the IESO credit facility below?

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 423/04 made under the Electricity Act, 1998, subject to the following conditions:

(1) Proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and,

(2) With the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by the IESO under 25.33 of the Electricity Act, 1998, the IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance."

Toby, once Lisa has finished reviewing the IESO credit facility, I will implement her suggested changes and then circulate the draft for your review and comment.

Hi Salman,
Thanks for the suggestion – makes sense. We can strip the reference to the Electricity Act, and propose a more general subsection 2.
Thanks,
Sarah

Hi Sarah,
Based on the information we have to date, I don't think we were thinking of imposing that same limitation of 12 month period but I see your point. I reread IESO request letter and suggest we do this instead to avoid lots of initial changes:

I. Change purpose to only state "short-term" needs:

> 1) Proceeds of Advances may be used only for short term financing requirements due to cash flow timing differences incurred as a result of IESO's role in the implementation and administration of the Ontario Fair Hydro Plan Act, 2017.

II. Leave subsection 2 in there for now.
If IESO has issues, they can raise it in their comments back. Should we need "medium-term" financing, we can amend the agreement later as needed.
Thoughts?

Salman

HI Salman,
One quick question re: subsection 2 below. Subsection 2 was added in amendment#7 of the $975M OFA-IESO existing credit facility; I think the idea was to ensure that any advance under the facility isn't rolled over for the entire term of the agreement, but that any one advance is limited to 12 months of rolls. Notwithstanding the reference to the Electricity Act in subsection 2, is the intention with this new credit facility to limit rolls to a 12 month period for any particular advance?
Thanks,

Sarah

HI Salman,

One quick question re: subsection 2 below. Subsection 2 was added in amendment#7 of the $975M OFA-IESO existing credit facility; I think the idea was to ensure that any advance under the facility isn't rolled over for the entire term of the agreement, but that any one advance is limited to 12 months of rolls. Notwithstanding the reference to the Electricity Act in subsection 2, is the intention with this new credit facility to limit rolls to a 12 month period for any particular advance?

Thanks,

Sarah

Hi Toby/all,

I had a quick chat with Bruno as well and it may be best to leave it a little open in an effort to remain consistent with what we know for now. We can suggest IESO provide some more details in this statement for clarity based on how they see the borrowings to occur.

Salman

Hi William,

In being consistent with the Directive, I think the purpose of the credit facility can be written as follows, subject to any additional comments:

1) Proceeds of Advances may be used only for short to medium term financing requirements due

to cash flow timing differences incurred as a result of IESO's role in the implementation and administration of the Ontario Fair Hydro Plan Act, 2017.

I don't think subsection 2 applies. When sending this to IESO, I recommend that we highlight the entire section and have them confirm or provide further details, especially the reference to the 423/04 regulation.

Hi Toby and Salman,

May I ask both of your assistance in defining the use of proceeds from the IESO credit facility below?

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 423/04 made under the Electricity Act, 1998, subject to the following conditions:

(1) Proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and,

(2) With the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by the IESO under 25.33 of the Electricity Act, 1998, the IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance."

Toby, once Lisa has finished reviewing the IESO credit facility, I will implement her suggested changes and then circulate the draft for your review and comment.

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation and administration of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of providing short to medium term financing related to the OFHP.

The OFA will be borrowing funds for this requested credit facility under the authority of OIC ###, pursuant to which the Minister of Finance is authorized to lend a maximum of $2 billion.

Therefore:

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate equal to the Province's cost of funds based on the terms of the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread.

Hi all,
Just to ensure we have the clean copy of the proposed Minister's Directive for this credit facility, please see attached.
In the v3 I had sent around, I had not remove the language in the recital making reference to the OIC #, which we had agreed did not need to be in the directive. Ron was also okay with leaving it removed.
Attached is v5.

Hi Sarah,
Based on the information we have to date, I don't think we were thinking of imposing that same

limitation of 12 month period but I see your point. I reread IESO request letter and suggest we do this instead to avoid lots of initial changes:

I. Change purpose to only state "short-term" needs:

> 1) Proceeds of Advances may be used only for short term financing requirements due to cash flow timing differences incurred as a result of IESO's role in the implementation and administration of the Ontario Fair Hydro Plan Act, 2017.

II. Leave subsection 2 in there for now.
If IESO has issues, they can raise it in their comments back. Should we need "medium-term" financing, we can amend the agreement later as needed.
Thoughts?

Salman

Hi Wil,

I don't have my laptop so can't check versions.

You would have all of my copies though.

What I was showing you yesterday was my first set of comments that I had sent to you so you could under the nature of their inclusion, so that you would be able to answer any of Lisa's questions. You don't need to send it to her, unless you guys decide to take out all references to subsidiary in which case, you will know where to make all the deletions.

Regardless, when Lisa sends back her comments you would need to integrate my lane or comments which I included in my email to both you and Lisa. That is, the draft where I included including "the" in front of every " IESO" and "OFA". I think I mentioned 4 changes in the cover email that I made, which also included changing the recitals. I know that Lisa would have made some of these changes already in the draft that she will be sending back to you; you would need to make any remaining changes in the draft that she sends back to you.

Thanks,

Sarah

Hi Wil,

I don't have my laptop so can't check versions.

You would have all of my copies though.

What I was showing you yesterday was my first set of comments that I had sent to you so you could under the nature of their inclusion, so that you would be able to answer any of Lisa's questions. You don't need to send it to her, unless you guys decide to take out all references to subsidiary in which case, you will know where to make all the deletions.

Regardless, when Lisa sends back her comments you would need to integrate my lane or comments which I included in my email to both you and Lisa. That is, the draft where I included including "the" in front of every " IESO" and "OFA". I think I mentioned 4 changes in the cover email that I made, which also included changing the recitals. I know that Lisa would have made some of these changes already in the draft that she will be sending back to you; you would need to make any remaining changes in the draft that she sends back to you.

Thanks,
Sarah

Thanks Sarah.
Just sending this email to follow-up on our conversation. I was referring to the mechanism as to how IESO pays back their advances, which has been pointed out to me is section 2.6.2. So all is good.

Hi Salman,
Thanks so much for reviewing. I will remove the question to IESO regarding whether medium term financing should be included.
Two days processing is what is included in the current $975 million facility (in the original facility it was actually one day, but in amending agreement #9 we extended to two days). So this should be okay.
The agreement does not specify a prepayment option for IESO; is this something we should be looking to include?
Thanks,
Sarah

Hi Sarah/Lisa,
I took a quick look through (for the sake of time) and made 2 minor comments. I didn't review the conditions precedent etc as they appear to be pretty standard and this agreement is similar to $975 million agreement.

- We decided to leave use of proceeds to say short-term and let IESO tell us otherwise. If we are going to ask them explicitly to confirm whether its short-term or also medium term, we should ask for them for some language on definition. The Directive says "short-term to medium-term", so we would not be offside the Directive if we continue to only say "short-term".
- Is a 2-day notice sufficient for our processing purposes? Typically, its 5 business days but maybe we can ask for 3 business day notice at the least?

One detail I may have missed but didn't see was how does IESO pay us back on the advance? Do

they just EFT the funds to us based on their election notice?

Salman

Hi Salman,
As discussed, we've been drafting up to the 11th hour to try to get this to IESO by end of day today. We're still putting on the final touches, but if you wouldn't mind taking a look at this draft to ensure that it is consistent with FHP purposes, and is consistent with the Directive, that would be great. My apologies for the short notice.
Thanks,
Sarah

Hi Lisa,
My apologies – in addition to the changes below, I noted one more change.
Under 3.3(2), I took out the word Continued in the first sentence, as I think is the accurate intention
Each notice to continue an Advance for a further period (an "Election Notice") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the ~~Continued~~ Advance, and in each case, not later than 10:00 a.m. (Toronto time).
Otherwise, there are no other changes from my last version.
Thanks,

Sarah

Hi Lisa,

Please find attached the revised draft, based on our conversation (I also included the blacklined comparison directly against your 12:38 p.m. version, for your reference).

Particularly, could please review the election notice language and comment if you think it is now consistent with the new wording of section 3.3 (2). I also note Toby's comments are for clarification and do not change the drafting of your previous version, so we're okay to work off this version for further edits.

I am available at 647-278-9718 at any time.

Thanks,

Commented [LS9]: This reg is revoked (re: OPA). Also add reference to new regulation under OFHP?
-, added reg 208/14 under Electricity Act – borrowing authority for IESO.

Commented [LS10]: As per internal e-mail chain. IESO to confirm - Short to medium?

Commented [LS11]: Confirm? Is it appropriate that IESO will provide instructions or should method be at OFA's discretion?

Commented [WT12R11]: This is consistant with other agreements. This is a back office function where IESO provides OFA with destination wire transfer account information. Am I understanding your question correctly?

Commented [LS13R11]: Okay

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. Commented [LS14]: Make sure definition updated.

Commented [WT15]:

Commented [WT16R15]: Confirmed last advance will be 7 calendar days before the CF agreement expires.

Commented [WT17]: Discussed the language with Carlos Yep. He is satisfied that Section 3.3.2 and 3.3.3 provides choice of either repayment or advance for a further period. The reset rate would apply to the portion that is extended. Unless I'm not understanding the question.

Commented [LS18]: This section and accompanying form needs further consideration/amendments. Need to add a provision re: interest rate for any such extension if applicable (unless treated as a late payment). LEGAL to review again.

Commented [LS19]: Once this section is finalized, please ensure Election Notice is consistent.

Commented [WT20]: Lisa, I confirmed this w/ Carlos and he is satisfied with the original wording. Below is how they use the fields.

(3) The calculation of interest on a Continued Advance shall be determined in accordance with Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

Commented [LS24R22]: Add back original language (pre-amendment)

Commented [LS25]: Fix formatting/numbering and amend any corresponding numbering.

Commented [LS26]: Deleted s. 7.1 as n/a in this context

Commented [LS22]: Why was this changed? Appears redundant.

Commented [WT23R22]: I believe this was in a recent agreement. But fair comment. Agreed and amended.

Commented [LS24R22]: Add back original language (pre-amendment)

Commented [LS25]: Fix formatting/numbering and amend any corresponding numbering.

Commented [LS26]: Deleted s. 7.1 as n/a in this context

Hi Lisa,

My apologies – in addition to the changes below, I noted one more change.

Under 3.3(2), I took out the word Continued in the first sentence, as I think is the accurate intention

Each notice to continue an Advance for a further period (an "Election Notice") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the ~~Continued~~ Advance, and in each case, not later than 10:00 a.m. (Toronto time).

Otherwise, there are no other changes from my last version.

Thanks,

Sarah

Hi Lisa,

Please find attached the revised draft, based on our conversation (I also included the blacklined comparison directly against your 12:38 p.m. version, for your reference).

Particularly, could please review the election notice language and comment if you think it is now consistent with the new wording of section 3.3 (2). I also note Toby's comments are for clarification and do not change the drafting of your previous version, so we're okay to work off this version for further edits.

I am available at 647-278-9718 at any time.

Thanks,

Sarah

ADVANCES

Section 3.1 Advances.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(3), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "Borrowing Notice") shall be substantially in the form of Schedule 1, shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance, and (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 7 days and not later than 95 days after the date of the requested Advance. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "Grid Note"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance, including any Advance for which all or a portion of which is continued by election under Section 3.3; (b) the applicable rate of interest for each Advance; (c) the Repayment Date of each Advance; (d) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (e) the outstanding principal amount of the Grid Note. Such notations, in the absence of manifest error, shall be prima facie evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Commented [SH5]: Does this need any tweeking to take into account our definition of "Continued Advance" under 3.2 (2)?

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "Continued Advance") for a further period of 7 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

Commented [SH6]: Changed per Carlos' description of how advance works and converstation with Lisa

(2) Each notice to continue an Advance for a further period (an "Election Notice") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the ~~Continued~~ Advance, and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Advance to which the election request applies~~;~~ ~~(b) the Repayment Date of the proposed Continued~~

Commented [SH7]: Think this should just be the Advance.

~~Advance;~~ (b~~c~~b) the new aggregate total amount of the proposed Continued Advance~~[including accrued interest];~~ and (c~~d~~c) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 7 days and not later than 95 days after the current Repayment Date. If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance as set out in ~~accordance with~~ Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(4) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(5) The Credit Facility shall at all times rank pari passu with all other unsubordinated Indebtedness of the IESO, subject to the existence of any Permitted Liens of the IESO.

(6) All amounts owing in respect of the Advances shall be paid without exercising any right or set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

~~(3)~~ (3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Commented [SH8]: Deleted (b), since this is reflected in (d)

Commented [LS9]: NTD: As discussed please clarify calculation of interest on Advance continued by election in Section 3.4.

Commented [SH10R9]: Changed per discussion with Lisa, based on Carlos' description of application of interest rate.

Hi Lisa,

My apologies – in addition to the changes below, I noted one more change.

Under 3.3(2), I took out the word Continued in the first sentence, as I think is the accurate intention

Each notice to continue an Advance for a further period (an "Election Notice") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the ~~Continued~~ Advance, and in each case, not later than 10:00 a.m. (Toronto time).

Otherwise, there are no other changes from my last version.

Thanks,

Sarah

Hi Lisa,

Please find attached the revised draft, based on our conversation (I also included the blacklined comparison directly against your 12:38 p.m. version, for your reference).

Particularly, could please review the election notice language and comment if you think it is now consistent with the new wording of section 3.3 (2). I also note Toby's comments are for clarification and do not change the drafting of your previous version, so we're okay to work off this version for further edits.

I am available at 647-278-9718 at any time.

Thanks,

Sarah

Commented [LS9]: As per internal e-mail chain. IESO to confirm - Short to medium?

Commented [SH10]: Could IESO please confirm if this is short term or short to medium term.

Commented [LS11]: Confirm? Is it appropriate that IESO will provide instructions or should method be at OFA's discretion?

Commented [WT12R11]: This is consistant with other agreements. This is a back office function where IESO provides OFA with destination wire transfer account information. Am I understanding your question correctly?

Commented [LS13R11]: Okay

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. (1) Subject to Section 3.3(3), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "Borrowing Notice") shall be substantially in the form of Schedule 1, shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance, and (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 7 days and not later than 95 days after the date of the requested Advance. Commented [LS14]: Make sure definition updated.

Commented [WT15]:

Commented [WT16R15]: Confirmed last advance will be 7 calendar days before the CF agreement expires.

Commented [SH17]: Does this need any tweeking to take into account our definition of "Continued Advance" under 3.2 (2)?

Commented [WT18]: Discussed the language with Carlos Yep. He is satisfied that Section 3.3.2 and 3.3.3 provides choice of either repayment or advance for a further period. The reset rate would apply to the portion that is extended. Unless I'm not understanding the question.

Commented [LS19]: This section and accompanying form needs further consideration/amendments. Need to add a provision re: interest rate for any such extension if applicable (unless treated as a late payment). LEGAL to review again.

Commented [SH20]: Changed per Carlos' description of how advance works and converstation with Lisa

Commented [SH21]: Think this should just be the Advance.

Commented [WT22]: Lisa, I confirmed this w/ Carlos and he is satisfied with the original wording. Below is how they use the fields.
Schedule 1 (a) Advance date/settlement date of funds.
Schedule 2 (a) Maturity date of the previous advancement.
Schedule 2(c) New maturity date of extention.

SH: This wording is based on the language of Amending Agreement #9 of the original OPA-OFA 975m credit facility agreement.

Commented [SH23]: Deleted (b), since this is reflected in (d)

~~Advance, (c) the~~ new aggregate total amount of the proposed Continued Advance~~,~~ ~~[including accrued interest];~~ and (~~d~~c) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 7 days and not later than 95 days after the current Repayment Date. If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) The calculation of interest on a Continued Advance ~~-~~shall be determined in ~~accordance with~~the same manner as an Advance as set out in Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(4) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(5) The Credit Facility shall at all times rank pari passu with all other unsubordinated Indebtedness of the IESO, subject to the existence of any Permitted Liens of the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

Commented [LS24]: NTD: As discussed please clarify calculation of interest on Advance continued by election in Section 3.4.

Commented [LS25]: NTD: As discussed please clarify calculation of interest on Advance continued by election in Section 3.4.

Commented [SH26R25]: Changed per discussion with Lisa, based on Carlos' description of application of interest rate.

Hi Lisa,

Please find attached the revised draft, based on our conversation (I also included the blacklined comparison directly against your 12:38 p.m. version, for your reference).

Particularly, could please review the election notice language and comment if you think it is now consistent with the new wording of section 3.3 (2). I also note Toby's comments are for clarification and do not change the drafting of your previous version, so we're okay to work off this version for further edits.

I am available at 647-278-9718 at any time.

Thanks,

Sarah

Hi Lisa,

Please find attached the revised draft, based on our conversation (I also included the blacklined comparison directly against your 12:38 p.m. version, for your reference).

Particularly, could please review the election notice language and comment if you think it is now consistent with the new wording of section 3.3 (2). I also note Toby's comments are for clarification and do not change the drafting of your previous version, so we're okay to work off this version for further edits.

I am available at 647-278-9718 at any time.

Thanks,

Commented [TPW29]: I don't know how this would operate in practice. Hi Salman,
Thanks so much for reviewing. I will remove the question to IESO regarding whether medium term financing should be included.
Two days processing is what is included in the current $975 million facility (in the original facility it was actually one day, but in amending agreement #9 we extended to two days). So this should be okay.
The agreement does not specify a prepayment option for IESO; is this something we should be looking to include?
Thanks,
Sarah

Hi Sarah/Lisa,
I took a quick look through (for the sake of time) and made 2 minor comments. I didn't review the conditions precedent etc as they appear to be pretty standard and this agreement is similar to $975 million agreement.

- We decided to leave use of proceeds to say short-term and let IESO tell us otherwise. If we are going to ask them explicitly to confirm whether its short-term or also medium term, we should ask for them for some language on definition. The Directive says "short-term to medium-term", so we would not be offside the Directive if we continue to only say "short-term".
- Is a 2-day notice sufficient for our processing purposes? Typically, its 5 business days but maybe we can ask for 3 business day notice at the least?

One detail I may have missed but didn't see was how does IESO pay us back on the advance? Do they just EFT the funds to us based on their election notice?
Regards,
Salman

Hi Salman,

As discussed, we’ve been drafting up to the 11th hour to try to get this to IESO by end of day today. We’re still putting on the final touches, but if you wouldn’t mind taking a look at this draft to ensure that it is consistent with FHP purposes, and is consistent with the Directive, that would be great. My apologies for the short notice.
Thanks,
Sarah

My apologies – in addition to the changes below, I noted one more change.
Under 3.3(2), I took out the word Continued in the first sentence, as I think is the accurate intention

Each notice to continue an Advance for a further period (an “Election Notice”) shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the ~~Continued~~ Advance, and in each case, not later than 10:00 a.m. (Toronto time).

Otherwise, there are no other changes from my last version.
Thanks,
Sarah

Hi Lisa,
Please find attached the revised draft, based on our conversation (I also included the blacklined comparison directly against your 12:38 p.m. version, for your reference).
Particularly, could please review the election notice language and comment if you think it is now

consistent with the new wording of section 3.3 (2). I also note Toby's comments are for clarification and do not change the drafting of your previous version, so we're okay to work off this version for further edits.

I am available at 647-278-9718 at any time.

Thanks,

Sarah

Commented [LS8]: This reg is revoked (re: OPA). Also add reference to new regulation under OFHP?
-, added reg 208/14 under Electricity Act – borrowing authority for IESO.

Commented [LS9]: As per internal e-mail chain. IESO to confirm - Short to medium?

Commented [LS10]: Confirm? Is it appropriate that IESO will provide instructions or should method be at OFA's discretion?

Commented [WT11R10]: This is consistant with other agreements. This is a back office function where IESO provides OFA with destination wire transfer account information. Am I understanding your question correctly?

Commented [LS12R10]: Okay

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. Commented [LS13]: Make sure definition updated.

Commented [WT14]:

Commented [WT15R14]: Confirmed last advance will be 7 calendar days before the CF agreement expires.

Commented [WT16]: Discussed the language with Carlos Yep. He is satisfied that Section 3.3.2 and 3.3.3 provides choice of either repayment or advance for a further period. The reset rate would apply to the portion that is extended. Unless I'm not understanding the question.

Commented [LS17]: This section and accompanying form needs further consideration/amendments. Need to add a provision re: interest rate for any such extension if applicable (unless treated as a late payment). LEGAL to review again.

Commented [LS18]: Once this section is finalized, please ensure Election Notice is consistent.

Commented [WT19]: Lisa, I confirmed this w/ Carlos and he is satisfied with the original wording. Below is how they use the fields.
Schedule 1 (a) Advance date/settlement date of funds.
Schedule 2 (a) Maturity date of the previous advancement.
Schedule 2(c) New maturity date of extention.

SH: This wording is based on the language of Amending Agreement #9 of the original OPA-OFA 975m credit facility agreement.

amount of the proposed Continued Advance, [including accrued interest]; and (de) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 7 days and not later than 95 days after the current Repayment Date. If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) The calculation of interest on a Continued Advance shall be determined in accordance with Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

Commented [LS20]: NTD: As discussed please clarify calculation of interest on Advance continued by election in Section 3.4.

Formatted: List Paragraph, No bullets or numbering

~~(3)~~(4) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

~~(4)~~(5) The Credit Facility shall at all times rank pari passu with all other unsubordinated Indebtedness of the IESO, subject to the existence of any Permitted Liens of the IESO.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

(d) that the OFA has received such other documentation which it has reasonably requested to ensure that the IESO is in compliance with the terms and conditions of this Agreement, including certified true copies of any necessary resolutions, a written legal opinion from counsel to the IESO confirming that the borrowing is within the legal powers of the IESO and that the Agreement is a direct, unsecured obligation of the IESO enforceable against the IESO in form satisfactory to the OFA.

ARTICLE 4
COVENANTS OF THE IESO

Section 4.1 Payment of Advances.

The IESO will duly and punctually pay all amounts owing under this Agreement in accordance with the terms and subject to the conditions of this Agreement.

Section 4.~~2~~1 IESO will Maintain its Corporate Existence.

~~Subject to Section 7.1~~ The IESO will at all times maintain its corporate existence.

Section 4.~~3~~2 Maintenance of Properties.

The IESO will cause all property owned by the IESO or any Material Subsidiary to be maintained and kept in good condition, repair an working order, all as in the judgment of the IESO or any Material Subsidiary may be necessary for the proper operation of such property, except as and to the extent that the IESO or any Material Subsidiary may be prevented from doing so by fire, strikes, lockouts, walkouts, labour unrest, acts of God, inability to obtain labour or materials, enemy action, governmental restrictions, civil commotion, or unavoidable casualty or similar causes; provided, however, that nothing in this Section 4.~~3~~2 shall prevent the IESO or any Material Subsidiary from discontinuing the maintenance of any such property or decommissioning any such property if such discontinuance or decommissioning is, in the judgment of the IESO any such Material Subsidiary, desirable in the conduct of its business or the business of any such Material Subsidiary, or has been directly or indirectly requested or required by the Province of Ontario.

Commented [LS21]: Why was this changed? Appears redundant.

Commented [WT22R21]: I believe this was in a recent agreement. But fair comment. Agreed and amended.

Commented [LS23R21]: Add back original language (pre-amendment)

Commented [LS24]: Fix formatting/numbering and amend any corresponding numbering.

Commented [LS25]: Deleted s. 7.1 as n/a in this context

Commented [WT26R25]: Addressed/settled with Ken Russell and Annette Pivnick in 2010 for the IESO $60million credit facility. "Past practice has been to included this language even if not relevant at the present time'. Our preference is to keep this.

Commented [TPW27]: Wording?

Commented [LS28]: Mof Legal to confirm relvant?

SH: To discuss futher with Lisa.

Commented [TPW29]: I don't know how this would operate in practice. I don't know anything about what kind of property IESO may have, or even if they have any real property beyond leases or personal property beyond office equipment etc… I think that this would be a question for IESO or the Ministry of Energy.

Section 4.~~4~~3 Insurance.

The IESO will cause all property owned by the IESO or any Material Subsidiary which is of a character usually insured by companies operating similar businesses to be insured and kept insured with reputable insurers (which may include associations or other organizations for mutual or reciprocal insurance) against loss or damage by fire or other hazards or risks of the mature and to the extent that such property is usually insured by companies operating similar businesses.

Hi Lisa,

Thanks very much for your draft.

Please find attached our comments and changes (including simplifying the comments). For your reference, I've also done a pure blackline comparison against your last version.

We've accepted a lot of your changes and highlight the following remaining issues and changes:

- "Subsidiaries" - we would like to include all references to subsidiaries, as it was deliberately included in the other 2010 IESO-OEFC Credit Facility. We've also included the definition of "Material Subsidiary", which should have been included, as it was in the 2010 Credit Facility

- (ACTION REQUIRED - TOBY) Section 2.2 – Changes accepted, however, Toby to confirm Reg. 280/14 reference? Also, IESO to confirm reference to "short to medium" term.

- (ACTION/DECISION REQUIRED -LISA) Section 3.3 – Does this language actually need to be amended any further? It was based on the language of amending agreement #9 of the original $975m OPA-OFA Credit Facility agreement.

- Section 3.5 – Included the words “a Material Subsidiary” in respect of the MAC clause, per your suggestion

- Original Section 4.1 – Deleted section per your comment, as it is redundant. Section 4 numbering has been re-numbered along with any corresponding references in the agreement.

- “New” Section 4.1 – Keep reference to 7.1, as we prefer to keep this reference, which was also in 2010 IESO-OEFC Credit Facility

- (DECISION REQUIRED – LISA/SARAH) Newly renumbered Section 4.2 – Maintenance of Properties – Would like to discuss with you directly, as this is a little ambiguous role of OFA vs. Province.

- Newly renumbered Section 4.7 – Have included timeframe as “promptly”, per you suggestion of a timeframe

- Original Section 5.1(c) – deleted section as was redundant and referenced the now deleted original section 4.1 (per above). As a result of deletion, references (d), (e), (f), (g), and (h) under section 5.1 have been renumbered

- Section 7.1 –We would like to include section, as it was included in 2010 OEFC-IESO credit facility. Corresponding reference in Section 4.1 should be kept.

I note below that you requested that we do another Documentation/OFA Legal turn before review by LSB, but given the urgent timeframe, and the very few remaining material issues, I thought it prudent to let Toby view what is a relatively final form in substance, so he can flag any major issues from an FHP perspective. Since the agreement must be executed by end of next week and IESO has not yet seen the draft, I am hoping we can strive to get this to IESO by end of day (Friday) to allow sufficient time for IESO to review and provide comments on the draft ASAP early next week..

Thanks,
Sarah

- Section 3.5 – Included the words “a Material Subsidiary” in respect of the MAC clause, per your suggestion

- Original Section 4.1 – Deleted section per your comment, as it is redundant. Section 4 numbering has been re-numbered along with any corresponding references in the agreement.

- “New” Section 4.1 – Keep reference to 7.1, as we prefer to keep this reference, which was also in 2010 IESO-OEFC Credit Facility

- (DECISION REQUIRED – LISA/SARAH) Newly renumbered Section 4.2 – Maintenance of Properties – Would like to discuss with you directly, as this is a little ambiguous role of OFA vs. Province.

- Newly renumbered Section 4.7 – Have included timeframe as “promptly”, per you suggestion of a timeframe

- Original Section 5.1(c) – deleted section as was redundant and referenced the now deleted original section 4.1 (per above). As a result of deletion, references (d), (e), (f), (g), and (h) under section 5.1 have been renumbered

- Section 7.1 –We would like to include section, as it was included in 2010 OEFC-IESO credit facility. Corresponding reference in Section 4.1 should be kept.

I note below that you requested that we do another Documentation/OFA Legal turn before review by LSB, but given the urgent timeframe, and the very few remaining material issues, I thought it prudent to let Toby view what is a relatively final form in substance, so he can flag any major issues from an FHP perspective. Since the agreement must be executed by end of next week and IESO has not yet seen the draft, I am hoping we can strive to get this to IESO by end of day (Friday) to allow sufficient time for IESO to review and provide comments on the draft ASAP early next week..

Thanks,
Sarah

Hi Sarah and William,

Please see my and suggested amendments on the attached. Please review and prepare an additional black-lined version for further OFA Legal review (prior to sending to MOF Legal). There are a number of areas that I’ve identified that require further drafting/consideration.

Thank you,

Lisa

Hi Lisa,

Thanks very much for your draft.

Please find attached our comments and changes (including simplifying the comments). For your reference, I've also done a pure blackline comparison against your last version.

We've accepted a lot of your changes and highlight the following remaining issues and changes:

- **"Subsidiaries**" - we would like to include all references to subsidiaries, as it was deliberately included in the other 2010 IESO-OEFC Credit Facility. We've also included the definition of "**Material Subsidiary**", which should have been included, as it was in the 2010 Credit Facility
- **(ACTION REQUIRED - TOBY) Section 2.2** – Changes accepted, however, Toby to confirm Reg. 280/14 reference? Also, IESO to confirm reference to "short to medium" term.
- **(ACTION/DECISION REQUIRED -LISA) Section 3.3** – Does this language actually need to be amended any further? It was based on the language of amending agreement #9 of the original $975m OPA-OFA Credit Facility agreement.
- **Section 3.5** – Included the words "a Material Subsidiary" in respect of the MAC clause, per your suggestion
- **Original Section 4.1** – Deleted section per your comment, as it is redundant. Section 4 numbering has been re-numbered along with any corresponding references in the agreement.
- **"New" Section 4.1** – Keep reference to 7.1, as we prefer to keep this reference, which was also in 2010 IESO-OEFC Credit Facility
- **(DECISION REQUIRED – LISA/SARAH) Newly renumbered Section 4.2** – Maintenance of Properties – Would like to discuss with you directly, as this is a little ambiguous role of OFA vs. Province.
- **Newly renumbered Section 4.7** – Have included timeframe as "promptly", per you suggestion of a timeframe
- **Original Section 5.1(c**) – deleted section as was redundant and referenced the now deleted original section 4.1 (per above). As a result of deletion, references (d), (e), (f), (g), and (h) under section 5.1 have been renumbered
- **Section 7.1** –We would like to include section, as it was included in 2010 OEFC-IESO credit facility. Corresponding reference in Section 4.1 should be kept.

I note below that you requested that we do another Documentation/OFA Legal turn before review by LSB, but given the urgent timeframe, and the very few remaining material issues, I thought it prudent to let Toby view what is a relatively final form in substance, so he can flag any major issues from an FHP perspective.
