Prior to the repayment in full of the indebtedness and obligations owed to the Beneficiaries, the Guarantor shall have no rights of subrogation.

Hi Kelly,
I'm going to draw you into the nebulous world of FHP and am going to ask you to get familiar as you can with the attached information Opal has provided. This is still considered confidential. Essentially she looking to see, based on the information she's been provided, if you might be able to attempt to connect how this information fits together in order to better understand how the FHP is being structured.
Opal mentioned something to the effect that OPG is going to Energy to submit its request for a capital infusion, Energy is coming to the Province, the Province is investing funds in OPG and will get some shares in OPG. OPG will then go form some type of trust and invest those funds. Clear as mud? Thought so.
In other words, could you please review the docs and do your best to figure it out based on the information provided? If you have any comments or questions on the docs that are worth raising, please let me know.
Thanks,
Sarah

Hi Sarah,
The FHP seems to be taking shape but (as should be reasonably expected) much of the information is coming to me in bits and pieces. Would be good to have a Doc staff familiar with this as more info becomes available or is being developed. It's being kept at a fairly high level at this time, but don't want to be surprised if Documentation is needed to jump in. I've included the emails on the subject to help provide some context – they aren't all helpful though. What I've sent is for review and provide opportunity to comment as well as to ask questions.

FINANCING TRUST – PERFORMANCE FEE TO OPG

BACKGROUND

Ontario Power Generation Inc. (OPG) has been appointed the Financial Services Manager under the Fair Hydro Plan Act, 2017 to, among other things evaluate whether funding obligations should be incurred by the Trust for the purpose of acquiring and financing an investment interest. A performance fee relating to the funding obligations will be meaningful and allow OPG to make decisions that will significantly impact its return. The Act as drafted enables OPG to achieve its accounting objective of consolidation of the Trust with OPG, and the ability to earn a return and take on risk, through its control of the Trust.. The objective therefore is to recommend a reasonable variable performance fee structure for OPG to earn a return from the Trust, and meet the accounting requirement.

ANALYSIS OF ACCOUNTING REQUIREMENT

To support the accounting consolidation, OPG's variable performance return will be accomplished through the followings:

a. The cash flow from the investment asset shall include interest determined based on a relevant benchmark that is appropriate relative to the investment asset, plus an appropriate margin consistent with the relevant market and other risks
b. OPG shall have the authority to determine the financing strategy, which will vary the financing costs with the objective of enabling the Trust to achieve a more favorable return compared to the benchmark for interest on the investment asset
c. The Trust shall establish different classes of debt (senior, subordinated and the most subordinated). The classes would allow the Trust to delineate financing of lower risk investment and investment that would bear higher residual risk. The delineation would limit OPG's self-funded investment to a reasonable level in order to allow OPG to remain a self-sustaining entity.
d. OPG shall, through its ownership of the most subordinated liability, be able to capture and retain the pricing difference between cost of financing and benchmark for interest on the investment asset, or any residual risk of investment asset. The targeted return of the subordinated debt should be reflective of the underlying risks and compensate holders for active management that would be required.

PERFORMANCE FEE ANALYSIS

Based on the accounting requirements, the recommendation is for OPG to establish a variable performance fee structure as follows:

As the Trust may issue both long term bonds and medium term notes, benchmarks based on various terms, will be established on an annual basis, subject to the following methodology:

- Benchmarks will be established as the sum of (1) reference rate, and (2) spread
    - Both reference rate and spread will be term dependant

- For bond/note issuance, reference rate will be GOC rate of equivalent term
- Reference rate will be based on consensus forecast provided by various financial institutions

- Benchmarks will be established based on the weighted average rate of incremental debt issuance at the Trust level
- If the actual weighted average rate is lower than the corresponding benchmark, OPG will realize a gain, otherwise a loss
- Variable performance fee, i.e. gain/loss, is applicable only to OPG's investment in the Trust (5% of the funding requirement), and is capped at benchmark weighted average rate +/-1%

An example illustrating this structure is detailed in Appendix 1

APPENDIX 1

The illustration is based on the expected Trust debt structure as follows:

	Risk Profile	Source	% of Total Funding Requirement
Tranche A Senior Debt	the least risky	Capital Markets	51%
Tranche B Sub Debt	In between A&C	OPG via OEFC	39%
Tranche C Sub Debt	the most risky	OPG via OEFC	5%
		OPG via Capital Markets	5%

1. Benchmark is to be established at each year end for Trust issuance next year. In this example, assuming the following benchmark is established as of end of Yr 1

		Benchmark
Tranche A	51%	4.25%
Tranche B Sub Debt	39%	5.50%
Tranche C Sub Debt	10%	6.50%
Weighted Average Rate		**5.0%**

2. By the end of Yr 2, OPG will calculate the actual weighted average rate for all incremental issuance for the year. If the actual weighted average rate is lower than the corresponding benchmark, OPG will realize a gain, otherwise a loss.

	Allocation	Benchmark	Actual
Tranche A	51%	4.25%	5.0%
Tranche B Sub Debt	39%	5.50%	5.60%
Tranche C Sub Debt	10%	6.50%	6.60%
Weighted Average Rate		**5.0%**	5.4%
		Loss	0.4%

3. Variable management fee, i.e. gain/loss, is applicable only to OPG's investment (5% of the Trust funding requirement), and is capped at benchmark weighted average rate +/-1%.

   Based on the example above and assume incremental Trust issuance is $2B, OPG will realize loss of variable performance fee of 0.4M ($2B*5%*0.4%)

Fair Hydro Plan – Subordinated Debt Loan Arrangement
Term Sheet

- Parties: OPG, Fair Hydro Trust, OFA

- In accordance with the Master Subscription Agreement among OPG, OFA and Ministry of Energy, the Province agrees to inject 44% of total funding of GA asset by way of equity subscriptions in OPG, and OPG agrees to use the equity subscription amounts solely for funding the Fair Hydro Trust's subordinated debt (Equity Injection Plan) requirements as part of the Fair Hydro Plan

- OPG will lend the equity injection from the Province to Fair Hydro Trust by way of subordinated debt (one or more mezzanine level)

- Initial credit rating will be assigned to the subordinated debt of Fair Hydro Trust

- Based on monthly funding requirement of GA asset, the Trust will use short term financing, such as bank facilities, and take out bonds once accumulative short term funding reaches certain levels.

- The mechanism to implement Equity Injection Plan will be based on monthly equity injections reflecting funding requirements of GA asset

- Interest rates on the subordinated debt will be established as follows:

    - During the Trust short term financing period when bank facilities are used as funding vehicles, the interest rate on subordinated debt will be the sum of (1) funding rate on senior debt, and (2) additional spread margin of [xx], reflecting the credit rating difference between the senior and subordinated debt

    - At the time when senior bonds are being issued to take out (term out) the short term financing, OPG will seek indicative coupon rates on the subordinated debt from dealers, reflecting the sum of underlying Government of Government of Canada yield of equivalent term and the appropriate credit spread. The average indicative coupon rate from dealers will be calculated and set as the subordinated debt rate. The process will be similar to the one established for pricing of OPG debt drawn from OEFC facilities.

Subject: OFHP - Outstanding business issues

Hi all,

ENE MO asked for a quick note on 4 of the outstanding business issues that are being worked through and are hoping to see something tomorrow morning.

I've pulled together a high level explanation of each of the items and next steps/timing (to the extent I know).

Would greatly appreciate if you guys could take a look and provide any edits/comments today/early tomorrow if possible. I'm also not too involved in a few of these discussions so if there's others within OFA you think should review feel free to pass along.

Thanks in advance,
Kaitlin

Outstanding Business Issues – Ontario Fair Hydro Plan
Briefing Note

PURPOSE
Provide an overview of a few of the key remaining outstanding business issues that OPG and the Province are working through

BUSINESS ISSUES

1. **Provincial Support Agreement Term Sheet (~~Service and~~ Performance and Payment Guarantees)**
   - As part of the OFHP, the IESO will create and sell a regulatory asset to the OPG financing entity
   - In order to provide assurances to those with claims against the Financing Entity (eg. Holders of debt), and support credit ratings, the Province is providing both a Service Guarantee and a Performance Guarantee to ensure that the obligations of the IESO are carried out including obligations related to collecting and remitting clean energy adjustments.
   - **Next Steps:**
     - OPG and OFA and working towards the development of a term sheet
     - Timing: Guarantees are required to support rating agency review which is expected by the end of July

2. **Payments in Lieu of Taxes (PILs) Exemption**
   - The Province would like to minimize to the extent possible , the PILs payable by the OPG financing vehicle, as those costs will be recovered from ratepayers
   - The Province is considering regulation changes to exempt the income arising as a consequence of the Fair Hydro Plan from PILs
   - As part of the OFHP, the financing entity will raise debt and acquire "investment assets" from the IESO. Given the unique nature of the investment assets, there are no specific rules which govern the manner which investment assets should be treated for tax purposes, and further analysis is required to ensure the cost of the investment assets are appropriately recognized as a deduction or offset in computing the income of the financing entity
   - **Next Steps:**
     - The Ministries of Finance, OFA and OPG are working together to determine required regulation changes
     - Timing: [Next steps for a decision / when is a decision required / when would these regulation changes occur]

3. **Fair Hydro Plan - Master Subscription Agreement Term Sheet (Equity Injection Process)**

- OPG will require equity injections on a monthly basis in order to maintain its capital structure, and will require flexibility in order to issue shares as needed by the Province
- The Ministry of Energy received appropriation for $1.1B through PRRT to support equity injections for the 2017-18 period, and will continue to provide multi-year forecasts each year through PRRT
- **Next Steps:**
    - The Ministry of Energy, OFA and OPG are working through the short term mechanics of this process which will ultimately feed into a Master Subscription Agreement. A draft term sheet is underway.
    - Timing: OPG will require the ability to issue equity in July, so mechanics and agreements should be finalized in June

4. Management Fees

- OPG will be providing all required services to the Trust as part of the OFHP, including planning, strategy, financing, deal execution etc.
- The legislation allows OPG to establish and charge a management fee for those services in accordance with the regulations which are currently in development
- OPG and OEB are currently working together on a management fee structure that balances the interests of minimizing costs and satisfying accounting consolidation requirements
- **Next Steps:**
    - OPG and OEB will bring forward a recommended framework for developing management fees
    - Timing: For incorporation into regulations being brought forward in June

5. IESO – Increased Credit Facilities

- The OPG financing entity has the right to purchase the regulatory asset from IESO but does not have to purchase it.
- IESO is working with the OFA to increase the credit facilities in the event that the OPG financing entity does not purchase the regulatory asset
- **Next Steps:**
    - OFA is …..
    - Timing: ……

Thanks Carlos.

In the previous H1 related loans, the Minister of Energy signed the share purchase agreement and the Minister of Finance signed the loan agreement under the authority of an OIC. OFA staff act on behalf of the Minister of Finance in taking certain actions related to the loan. I am not sure that the Minister of Energy can delegate authority under the share purchase agreement for this equity injection (i.e. to make a decision to purchase shares) in the same way that OFA staff would deal with actions under a loan agreement. It may be that if there needs to be some quick turn-around in relation to funding OPG via the equity injection that maybe there might be a services agreement between the OFA and the Ministry of Energy. Perhaps, this only refers to how the money is being flowed and is more of a back-office function, and someone at the Ministry of Energy directs the OFA to take the action.

We will take a look at this term sheet too and provide some comments and questions.

Thanks.

Subject: Equity Injection Term Sheet

Hey John, Carlos,

Attached is a term sheet from OPG that would form the basis of the Equity Injection Agreement. I think this would be an agreement between ENE/OPG and OFA. While it currently says 5 business days in this document Clara flagged that the IESO may be looking for it to be settled in as quickly as 1 day. Given how quick this needs to happen I've included a line about ENE delegating authority to the OFA to manage this monthly process. I think ENE would want to be kept in the loop but I don't think they would need to sign off each month. That being said I haven't run this up the chain at ENE yet or discussed with ENE controllership.

Id defer to you guys for short term mechanics for the most part as you have the experience on the borrowing side. If you could take a look and mark-up where desired then maybe we can chat?

Let me know if you have any questions.

- Minister of Energy/Province approves Equity Injection Plan, and initial equity injection amount for 2017/18 fiscal year, and delegates to appropriate ministry staff authority to implement Equity Injection Plan (**Delegated Authority**)
- Long term, OPG equity requirements will form part of the business planning process in place between OPG and Ministry of Energy, ie, annually OPG to include forecasts of its equity requirements for the upcoming 3 years in its business plan submission -- NOTE: this portion of the business plan is not subject to concurrence by the shareholder
- Ministry of Energy will seek appropriation on an annual basis through PRRT for the amounts requested by OPG for its equity requirements-- NOTE: amount of annual appropriation to cover OPG multi year forecasts

Hi all,

We are also putting together an issues list for discussion with Energy Legal and Blakes and will share it with you as well.

Is there any type of draft term sheet for the proposed financing transaction itself or the master sales and servicing agreement? Any general description of the proposed transaction would be helpful to us.

Thank you.

CONFIDENTIAL AND PRIVILEGED LEGAL ADVICE

ISSUES LIST – PROVINCIAL SUPPORT AGREEMENT DRAFT MAY 12, 2017

1. Guarantor will be the Minister of Energy and the Minister of Finance on behalf of the Province (see. 5(3) of proposed Fair Hydro Act, 2017).

2. Description of proposed beneficiaries of guarantee is very broad. Provides that beneficiary is Indenture trustee under master trust indenture on behalf of itself and all persons that have claims against a Financing Entity secured under the master trust indenture. Persons range from the Financial Services Manager (OPG) to holders of various types of debt and hedge counterparties. Need to clarify which obligations the Province is being requested to guarantee and under what various agreements to determine scope and limit of guarantee. Is there a term sheet for the proposed financing to be issued by the Financing Entity? Is there a request for a guarantee of payment on other back-up or ancillary borrowing and obligations other than those issued in the market? Is there a draft of the Master Trust Indenture?

3. Why does the term of the guarantee continue for one year after the obligations have been repaid?

4. Performance Guarantee – This is also a very broad guarantee of performance of the IESO and all electricity services providers in favour of the same broad group of beneficiaries. How can the Province ensure that these entities perform their obligations practically? Also the Province is to protect beneficiaries from any commingling risk. It is noted that in the event the performance guarantee is unenforceable against the Province, there would be a separate legal obligation in the provincial support agreement to indemnify beneficiaries for any losses. Would there be any trigger events applicable to the obligation to indemnify as there are for the payment guarantee. If not, is this an issue for accounting treatment purposes? Also, is there an overlap between the performance and payment guarantee? So long as the funding obligations are paid on time by the financing entity, is there a need for other guarantees from the Province? Note that the Province does have immunity from specific types of enforcement under the Proceedings against the Crown Act. Is there a sample term sheet for the Master Sale and Servicing Agreement? Which provisions of the proposed bill are being relied on for this – is it section 5(2)? section 33. There doesn't seem to be a mechanism in the Act to replace the IESO as servicer. Should the Guarantee specify that the Province can appoint a replacement servicer?

5. Payment Guarantee Event – Regarding (B) and (C), the interpretation of when the triggering event has occurred will be an issue – is there a way to make it more objective or how can this be handled if there is a dispute? Regarding (D), think that there is going to be more discussion of the need for this provision from a business perspective. However, is this assuming, that the Province is guaranteeing both long term and short

term funding obligations? Need to clarify when and which obligations the province will be guaranteeing?

6. Payment Guarantee – Again it will be necessary to clarify which obligations the province is guaranteeing to understand what the range of payments to be made are. Also, (y) does not seem acceptable to the Province from a business perspective.

7. Limits under Guarantee – The guarantee wording should be clear so that the Province is guaranteeing payment of certain debt or specific obligations only and the Province's liability should be capped. Province should not be exposed to the risk of any other types of damages or losses.

8. Priority of Payments – Until we know who the beneficiaries are and with respect to what obligations, it is difficult to comment on this.

9. Subrogation – Need to ensure that the Province has appropriate recovery rights and not sure that it is appropriate that all beneficiaries are paid in full before Province gets subrogation rights. Also there is no acceleration here and Province really pays on an ongoing basis so how should subrogation work in such a case.

10. Conditions Precedent – Need to know what they are proposed to be.

11. Representations – Need to know what they are proposed to be as Province does not typically provide representations in connection with guarantees it provides.

12. Confidentiality Obligations – Thought the guarantee is part of a public financing so wouldn't the terms all be known?

13. Legal Opinions – Content, who will be providing them and to whom would they be provided.

General Questions on proposed legislation and interaction with guarantee:

14. General review of relevant sections would be appreciated and how the provisions fit with the requirements of the financing. In particular, s. 5, 13, 19, 21, 22, 33, 41 par 7

Provincial Support Agreement Term Sheet

Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") is provided exclusively to the parties listed herein in connection with the draft Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Defined terms used herein have the meanings ascribed to them in the Act. The provincial support agreement (the "**Provincial Support Agreement**") will contain the terms and conditions set out in this Term Sheet in addition to such other representations, warranties, indemnities, and other terms and conditions as the Guarantor and the Beneficiaries (each as defined below) may reasonably require.*

Guarantor:	Her Majesty the Queen in right of Ontario, as represented by the Minister of Energy.
Beneficiaries:	The indenture trustee (together with its successors, the "**Indenture Trustee**") under the master trust indenture (the "**Master Trust Indenture**") on behalf of itself and all other persons having debt or other claims against a Financing Entity secured under the Master Trust Indenture (collectively, the "**Beneficiaries**") including, without limitation, holders of senior and subordinated notes, senior and subordinated lenders, hedge counterparties, credit enhancers, liquidity providers, the Financial Services Manager, the Indenture Trustee, the trustee of the Financing Entity if the Financing Entity is a trust, and any other administrator of the Financing Entity.
Term:	The Guarantor's obligations under the Provincial Support Agreement will continue until **[one year]**[1] after all funding obligations (to be defined to include principal, interest, fees, hedge settlement and termination obligations and other related amounts) of all Financing Entities have been repaid.

[1] This mirrors the requirement expected to be in the Regulations under the Act not to wind up, dissolve or liquidate a Financing Entity until at least one year after all of its Funding Obligations have been repaid.

Performance Guarantee:	Under the Master Sale and Servicing Agreement to be entered into by IESO and the Financing Entity, **[and OPG as Financial Services Manager]** ("**MSSA**"), IESO will have obligations both as a seller and as a servicer. Pursuant to a performance guarantee, the Guarantor will guarantee in favour of the Beneficiaries to perform, or cause the performance of (which may be by way of the appointment of a replacement servicer), the obligations of IESO as servicer under the MSSA and the Act including the obligations of any replacement servicer. The Guarantor will also guarantee the servicing obligations of the electricity vendors under the Act. The servicing obligations covered will include all obligations related to the collecting and remitting of clean energy adjustments and will protect the Beneficiaries from any risks arising from collections of clean energy adjustments being commingled with other amounts. In the event that the performance guarantee is unenforceable against the Guarantor, the Provincial Support Agreement will contemplate a separate legal obligation by the Guarantor to indemnify the Beneficiaries for any losses that result.
Payment Guarantee Event:	A Payment Guarantee Event will occur if: (A) the Legislative Assembly of Ontario repeals the Act; or (B) the Legislative Assembly of Ontario amends the Act or a Regulation thereunder is amended in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest; or (C) a court of competent jurisdiction (i) determines all or a portion of the Act to be *ultra vires* in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest or (ii) declares any funding obligations to be invalid or unenforceable; or (D) funding obligations are due and payable at a time when a market disruption (a period of [six months or more] when capital markets term funding is not available to effect refinancings of funding obligations) is occurring and, in the case of long term funding obligations only, a moratorium or limitation on the imposition and collection of clean energy adjustments to repay such funding obligations is in effect under the Act.

Payment Guarantee:	Upon the occurrence of a Payment Guarantee Event under clauses (A), (B) or (C) of the above definition: (x) the Guarantor shall assume and pay when due (without acceleration) all funding obligations and all other obligations of the Financing Entities to the Beneficiaries by paying all regularly scheduled amounts in respect thereof during the term of each Financing Entity's contractual obligation to such Beneficiaries; and (y) Beneficiaries holding funding obligations consisting of bonds [with a remaining term to maturity of greater than one year] shall have the option to put the bonds to the Financing Entity for a put price equal to 101% of the principal amount thereof plus accrued and unpaid interest. In connection with any put under this clause (y), the Guarantor shall guarantee payment of the put price and any related hedge breakage but shall not be responsible for any other default, penalty, prepayment or make whole amounts.
Limits under Guarantees:	Under no circumstances shall the Guarantor be obligated to indemnify any Beneficiary for special or punitive damages, or loss of profits.
Priority of Payments:	The priority of the Beneficiaries to any payment made by the Guarantor under the Provincial Support Agreement shall be governed by the priority provisions in the Master Trust Indenture.
Subrogation:	Where the Guarantor has repaid all Beneficiaries in full, to the extent of such payments the Guarantor shall be subrogated in and to all the rights of recovery of the Beneficiaries in respect of their applicable indebtedness and obligations and the security granted by a Financing Entity to the Indenture Trustee. After repayment by the Guarantor of all indebtedness and obligations owing to the Beneficiaries, the Indenture Trustee will acknowledge and agree on behalf of the Beneficiaries that the Guarantor is entitled to exercise all of the rights, powers and privileges that the Beneficiaries have or may exercise in respect of the repaid indebtedness and obligations, all in accordance with the terms of the Master Trust Indenture. Prior to the repayment in full of the indebtedness and obligations owed to the Beneficiaries, the Guarantor shall have no rights of subrogation.
Notice Requirements:	The Indenture Trustee will be required to provide notice to the Guarantor of a Payment Guarantee Event and may in such notice demand payment or performance of the Guarantor's obligation under the Provincial Support Agreement, as applicable.

Closing:	Date to be determined but no later than **[**■, 2017**]**. The Closing is the date on which the documents in respect of the MSSA, the Master Trust Indenture and all related documentation are executed and delivered.

Hi Sarah
This is what I referred to in my other email from Olga. Is there a system that we can pull the expected interest payments off of? I calculate more owing on the first payment – 1 day of interest on $90MM at 1.7673%, or $4,357.73 more than they show below.

Hi Carlos

I received this request from Olga at IESO and I am at home today. Do you have access to the system to verify what this should be (officially)? When I calculate at home on my calculator, it seems a bit out.

Hi Sarah,
I have a problem in PBFS regarding rolling the IESO line of credit. I have the maturity date of the overall loan facility as November 30, 2016, but IESO is rolling today's maturity to December 21, 2016. Since Lenin isn't here, I don't know who to go to in Documentation regarding looking up the maturity date of the Agreement. Can you please have someone send me a copy of the most recent signed agreement so I can see when the maturity date of the facility is.
Thanks, Risa

Subject: RE: IESO - Rural or Remote Electricity Rate Protection Variance

Hi Everyone,

Please note that we had to split the IESO credit facility of $975 mm into two (one for $500 mm and the second for $475 mm) because IESO borrowed under two different projects – (1) Rural or Remote Electricity Rate Protection Variance; and, (2) Regulated Price Plan Variance. The reason for this is limitation is OLMS, the new loans system. We are working on getting this fixed. However, I think we need clarification whether IESO can only borrow under 1 project.

Kelly, can you please let us know if there is an issue with IESO borrowing under two different projects?

Thanks, Risa

Hi San

Currently, there does not appear to be a $475MM facility. There is an OFA – IESO (previously OPA) $975MM facility that has been around for several years. It is in the process of being amended and decreased to $475MM, but this is not yet complete. As such, there is no agreement for a $475MM facility as of now. I sent Risa a copy of the existing $975MM facility a while back. If you want a copy, please let me know.

Hi Everyone,

Please note that we had to split the IESO credit facility of $975 mm into two (one for $500 mm and the second for $475 mm) because IESO borrowed under two different projects – (1) Rural or Remote Electricity Rate Protection Variance; and, (2) Regulated Price Plan Variance. The reason for this is limitation is OLMS, the new loans system. We are working on getting this fixed. However, I think we need clarification whether IESO can only borrow under 1 project.

Kelly, can you please let us know if there is an issue with IESO borrowing under two different projects?

Thanks, Risa

Hi San

Currently, there does not appear to be a $475MM facility. There is an OFA – IESO (previously OPA) $975MM facility that has been around for several years. It is in the process of being amended and decreased to $475MM, but this is not yet complete. As such, there is no agreement for a $475MM facility as of now. I sent Risa a copy of the existing $975MM facility a while back. If you want a copy, please let me know.

Hi Victor,

We can sign in counterparts.

Kelly is currently at lunch, so I'm unable to confirm with him whether he asked you to e-mail to a .pdf version of the executed Note Agreement and Executed Note in their entirety to us (vs. just signature pages). We need to the complete version in order for our traders to effect the transaction in our system today, so if you are still able e-mail those .pdf of those docs once executed on your side, that would be greatly appreciated.

Thanks,

FYI, we will courier to you two signed originals of both Agreements, and one of the Promissory Notes, along with the Incumbency Cert and Board Resolution. If these get to you in time this afternoon for your signor to sign, then he can sign and you can return an original to us. If you decide to just sign in counterpart only, feel free to do so – I attach the exact versions of the Agreements that we are signing, so you can use the signature pages. In that case, please send us a copy of the agreement signed on behalf of OEFC once available.

Thanks,

Victor

Here are (hopefully) my final comments on the Agreements:

1. Re the Note Agreement (attached), I had to fix some formatting – the para (c) intro clause had accidentally been absorbed into the preceding section (b), so I broke it back out, and then opened quotes for the beginning of the 2.16 adder (there were close quotes but not open). Also, I had to insert the word "be" in the Note for correct grammar (it was in the main body language but not in the Note). I also removed one double period. Other than that, I just formatted it so the last page is not a signature block only.
2. Re the Revolving Credit Agreement, I am ok with that. Only question I have is what the Grid should look like to attach to the Note. When I print the Note for signing, there will not actually be any kind of real Grid showing numbers. Are you able to complete the Grid itself now and send it to me so I can have it for the signor to see when signing the Note ? Or is that not feasible or normal practice?

Thanks

Hi Sarah - could you resend the attachments you sent in your 4:58 email yesterday (shows up as 5:07 too). For some reason the Note Agreement is on a magenta background, and I want to make sure I am looking at the right documents. It's a long story but the problem may be on this end and it's best if you could just resend.

Thanks

Hi Victor,

Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.
2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.

I think we are in good shape. Fingers crossed.

Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.
3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,
Victor

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.
3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,
Victor

Hi Victor:

Should I send everything to you, or Kim Marshall, or someone else once they are ready for execution? We are working on language to cover off the 2 components of the "new" $120MM note, consisting of the $90MM roll and the $30MM new money. We should have something fairly soon and hope to execute everything tomorrow.

Hi Victor:

Should I send everything to you, or Kim Marshall, or someone else once they are ready for execution? We are working on language to cover off the 2 components of the "new" $120MM note, consisting of the $90MM roll and the $30MM new money. We should have something fairly soon and hope to execute everything tomorrow.

Please find attached the executed Incumbency Certificate. Unfortunately, I was in a meeting when our GC/Corporate Secretary arrived briefly on premises to sign the documents, and the Certified Resolution was inadvertently not signed, and he is no longer at our site. If it's ok with you, I will arrange to have the Resolution signed on Monday. Please let me know if that would be a problem. I can confirm as counsel that the form of the Resolution was agreed between me and him yesterday.

Hi Kelly and Sarah - Attached are pdfs of the signed Agreements and Notes. I am just waiting for our GC/Corp Secretary to arrive to sign the Incumbency Cert and Certified Resolution, but will forward those as soon as available. I thought you should have the Agreements and Notes asap in case you need to transact before a certain hour this afternoon.

We can sign in counterparts.
Kelly is currently at lunch, so I'm unable to confirm with him whether he asked you to e-mail to a .pdf version of the executed Note Agreement and Executed Note in their entirety to us (vs. just signature pages). We need to the complete version in order for our traders to effect the transaction in our system today, so if you are still able e-mail those .pdf of those docs once executed on your side, that would be greatly appreciated.
Thanks,

If these get to you in time this afternoon for your signor to sign, then he can sign and you can return an original to us. If you decide to just sign in counterpart only, feel free to do so – I attach the exact versions of the Agreements that we are signing, so you can use the signature pages. In that case, please send us a copy of the agreement signed on behalf of OEFC once available.

Here are (hopefully) my final comments on the Agreements:

1. Re the Note Agreement (attached), I had to fix some formatting – the para (c) intro clause had accidentally been absorbed into the preceding section (b), so I broke it back out, and then opened quotes for the beginning of the 2.16 adder (there were close quotes but not open). Also, I had to insert the word “be” in the Note for correct grammar (it was in the main body language but not in the Note). I also removed one double period. Other than that, I just formatted it so the last page is not a signature block only.
2. Re the Revolving Credit Agreement, I am ok with that. Only question I have is what the Grid should look like to attach to the Note. When I print the Note for signing, there will not actually be any kind of real Grid showing numbers. Are you able to complete the Grid itself now and send it to me so I can have it for the signor to see when signing the Note ? Or is that not feasible or normal practice?

Thanks

Hi Victor,
Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.
2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.
I think we are in good shape. Fingers crossed.
Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the

same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.

3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,

Victor

Importance: High
Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the

same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.

3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,

Victor

Should I send everything to you, or Kim Marshall, or someone else once they are ready for

1. Re the Note Agreement (attached), I had to fix some formatting – the para (c) intro clause had accidentally been absorbed into the preceding section (b), so I broke it back out, and then opened quotes for the beginning of the 2.16 adder (there were close quotes but not open). Other than that, I just formatted it so the last page is not a signature block only.
2. Re the Revolving Credit Agreement, I am ok with that. Only question I have is what the Grid should look like to attach to the Note. It's a long story but the problem may be on this end and it's best if you could just resend.

Hi Victor,

Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.
2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.

I think we are in good shape. Fingers crossed.

Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Hi Sarah - could you resend the attachments you sent in your 4:58 email yesterday (shows up as 5:07 too). For some reason the Note Agreement is on a magenta background, and I want to make sure I am looking at the right documents. It's a long story but the problem may be on this end and it's best if you could just resend.

Thanks

Hi Victor,

Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.
2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.

I think we are in good shape. Fingers crossed.

Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.
3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,
Victor

Hi Victor
Also, just to confirm/ clarify how the insertion of the rate on the note works. We also do this procedure for OPG term borrowings. We receive an executed note ahead of a draw with the rate left blank. Once the traders can confirm the rate (in this case it can only be done Monday, May 1, obviously not Sunday nor today), I write the rate on the note in blue pen and get a copy of the note back to you by courier that day (which will be Monday).

Hi Victor
Let's do it in counterparts. Is that ok? But make sure the original note itself gets sent by courier.

Thanks Kelly - I will review the documents you sent shortly and get back to you.
Just to confirm, assuming I have everything signed by around 2:30 here in Mississauga, would you like me to same-day courier them to you? I would think you would get them before 4:00 but given Toronto traffic, I couldn't guarantee that.

Hi Victor
Also, just to confirm/ clarify how the insertion of the rate on the note works. We also do this procedure for OPG term borrowings. We receive an executed note ahead of a draw with the rate left blank. Once the traders can confirm the rate (in this case it can only be done Monday, May 1, obviously not Sunday nor today), I write the rate on the note in blue pen and get a copy of the note back to you by courier that day (which will be Monday).

Hi Sarah - could you resend the attachments you sent in your 4:58 email yesterday (shows up as 5:07 too). For some reason the Note Agreement is on a magenta background, and I want to make sure I am looking at the right documents. It's a long story but the problem may be on this end and it's best if you could just resend.

Thanks

Hi Victor,

Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.
2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.

I think we are in good shape. Fingers crossed.

Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.
3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,
Victor

I've reviewed these and they look fine to me. The last part of his 2nd question – can't he just do this himself?

Let's discuss.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.
3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the

name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,

Victor

Hi Victor:

Should I send everything to you, or Kim Marshall, or someone else once they are ready for

execution? We are working on language to cover off the 2 components of the "new" $120MM note, consisting of the $90MM roll and the $30MM new money. We should have something fairly soon and hope to execute everything tomorrow.

Please find attached the executed Incumbency Certificate. Unfortunately, I was in a meeting when our GC/Corporate Secretary arrived briefly on premises to sign the documents, and the Certified Resolution was inadvertently not signed, and he is no longer at our site. If it's ok with you, I will arrange to have the Resolution signed on Monday. Please let me know if that would be a problem. I can confirm as counsel that the form of the Resolution was agreed between me and him yesterday.

Hi Victor,

We can sign in counterparts.

Kelly is currently at lunch, so I'm unable to confirm with him whether he asked you to e-mail to a .pdf version of the executed Note Agreement and Executed Note in their entirety to us (vs. just signature pages). We need to the complete version in order for our traders to effect the transaction in our system today, so if you are still able e-mail those .pdf of those docs once executed on your side, that would be greatly appreciated.

Thanks,

Sarah

If these get to you in time this afternoon for your signor to sign, then he can sign and you can return an original to us. If you decide to just sign in counterpart only, feel free to do so – I attach the exact versions of the Agreements that we are signing, so you can use the signature pages. In that case, please send us a copy of the agreement signed on behalf of OEFC once available.

Here are (hopefully) my final comments on the Agreements:

1. Re the Note Agreement (attached), I had to fix some formatting – the para (c) intro clause had accidentally been absorbed into the preceding section (b), so I broke it back out, and then opened quotes for the beginning of the 2.16 adder (there were close quotes but not open). Also, I had to insert the word "be" in the Note for correct grammar (it was in the main body language but not in the Note). I also removed one double period. Other than that, I just formatted it so the last page is not a signature block only.
2. Re the Revolving Credit Agreement, I am ok with that. Only question I have is what the Grid should look like to attach to the Note. When I print the Note for signing, there will not actually be any kind of real Grid showing numbers. Are you able to complete the Grid itself now and send it to me so I can have it for the signor to see when signing the Note ? Or is that not feasible or normal practice?

Thanks

Victor

Hi Sarah - could you resend the attachments you sent in your 4:58 email yesterday (shows up as 5:07 too). For some reason the Note Agreement is on a magenta background, and I want to make sure I am looking at the right documents. It's a long story but the problem may be on this end and it's best if you could just resend.

Thanks

Victor

Hi Victor,

Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.
2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.

I think we are in good shape. Fingers crossed.

Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.
2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.
3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,
Victor

Hi Salman and Patrick,

In starting to draft the credit agreement, I noticed that IESO's request letter only provides for a 5 year term be in place to September 30, 2022, but the OIC is out until 2047. This draft OIC (and draft Directive) has a 30 year maturity, and this maturity reflects a term for similar OFA OICs permitting the OFA to borrow from the Minister and to onlend to third parties (i.e. they mature in 2047), however, I'm not aware of the history on those other OICS as to that maturity date. I note that the loans under the existing OICS go out until 2042, so there is a logic to the 2047 expiry dates of those OICS. I'm not sure if there are specific reasons for the 2047 expiry date, but

thanks

Sarah

Hi Lisa/all,

I thought I'd take this time to send around some background information that you may or may not have – just to ensure we're working from the same documents for reference.

Please see attached:

1) LRC Approval Form: Some background notes on the OIC being recommended for approval for the June 27, 2017 LRC/Cabinet date.
2) Proposed OIC: OIC being recommended for approval for the June 27, 2017 LRC/Cabinet date.
3) Request Letter from IESO outlined some of the key terms of the proposed agreement. OFA agrees with the request.
4) To help facilitate, I used an older directive (Algonquin College from 2011), did a new version for this agreement. Defer to Lisa on the language though.

Timing:

- Unless otherwise instructed, we are looking to have the agreement in place for July 1, 2017 (business day: July 3, 2017).
- We're hoping that we can finalize the directive by next week. Both the agreement and the directive are expected to be worked on simultaneously.
- We should aim to get a first draft agreement to IESO as soon as we can as well.
- OIC should be in approved for Tuesday, June 27, 2017.

As I type this, I do not think we can have the directive signed before the OIC is approved since the directive makes reference to the OIC. Any thoughts on this are welcome.

Happy to discuss further once you have reviewed, as needed.

Thank you,

Salman

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the Ontario Financing Authority ("OFA") in an amount of up to $2.0 billion. Under the proposed OIC, repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- Existing OICs authorize the Minister of Finance to provide loans to the OFA, and in turn the OFA has provided loans and credit facilities to colleges, school boards and other public bodies such as Infrastructure Ontario, IESO, Ontario Lottery and Gaming Corporation and Liquor Control Board of Ontario.

- This proposed OIC is required to increase the authority of the Minister of Finance to lend to the OFA which will provide the OFA with the capacity to provide additional loans to the Independent Electricity System Operator ("IESO").
    - This will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017* as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.
    - The timing of this OIC is critical to ensure that borrowing authority for the OFA is available to provide the IESO its requested financing arrangements under the *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide additional loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA would be directed to provide a credit facility to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. During this period, Global Adjustment amounts collected from ratepayers will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The *Ontario Fair Hydro Plan Act, 2017* gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to a financing entity.
    - It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
    - The cash received from selling the regulatory asset will be used by the IESO to fund the current Global Adjustment shortfall.

- There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017 (planned for later in summer 2017; however, exact timing is subject to actual implementation). Even once the SPV is set up to borrow, there is expected to be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

- As a result, IESO requires short-term financing to be in place for initial and expected monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

- It is proposed that the OIC authorizes the OFA to borrow an additional $2.0 billion, which would be in addition to existing authority for the Minister of Finance to provide loans to the OFA, to ensure that there is sufficient borrowing authority in place for the OFA to meet the IESO requested requirements.

- If approved, the Minister of Finance will subsequently provide a Directive to the OFA to direct it to provide credit facilities to the IESO.
    - The OFA currently provides a credit facility to the IESO of $975 million.
    - The IESO has requested that the existing credit facility be reduced to $475 million, and a new credit facility be provided of $2.0 billion, for a total amount of $2.475 billion.

s. 3 Direction and Urgency

- The Province passed legislation on May 31, 2017 to implement the *Ontario Fair Hydro Plan Act, 2017,* which will reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in supporting implementation of the *Ontario Fair Hydro Plan Act, 2017*.
- Ministry of Energy proposed regulations under the *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be submitted for approval concurrently as it supports a crucial component of the successfully implementation of the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend an additional amount of $2.0 billion to the OFA. Subject to the terms and conditions of a

Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and, therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister may provide direction to the OFA on how it can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan. Upon approval, the Minister of Finance will have authorization to provide a loan to the OFA with a directive on how the loan can be used.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017*. The related Cabinet note for the initiative should be referred to.

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Two Billion Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the proposed Fair Hydro Plan (FHP) to reduce electricity prices for eligible consumers in the province. Proposed legislation was introduced this month for the FHP. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that in order to support the IESO's role in FHP implementation it will need greater credit liquidity than currently exists.

An existing credit facility between the IESO and the Ontario Financing Authority (OFA) is currently available for $975 million which includes support for the current Regulated Price Plan (RPP) program. The IESO proposes that a separate and additional credit facility be provided by either the OFA or Ontario Electricity Financial Corporation (OEFC) to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and interest tracking.

IESO's FHP Credit Requirements and Rationale

Below we have outlined the IESO's expected credit needs including the current OFA facility as follows:

	OFA:IESO Facility	New FHP facility
Current credit facilities	$975 million	$ -
Reduction due to FHP	($500 million)	$ -
Increase due to FHP	$ -	$2,000 million
Totals Credit Facilities	$475 million	$2,000 million

The above $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP. In addition, the IESO has had recent discussions with OFA staff to explain the rationale to support the overall $2,000 million FHP commitment.

We suggest the new FHP credit facility consider the following key provisions:

- 5 year term - to align with the FHP's initial period of deferral of electricity prices plus a contingency period (i.e. to September 30, 2022);
- interest charge - to be Province's cost of funds for borrowing with a similar term as determined by OFA / OEFC plus 0.25 percent per annum;
- Draws - to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers; and
- Existing $975 million OFA facility : draws to permit for FHP purposes until a new separate credit agreement for FHP purposes has been made available;

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facilities and we will provide such evidence for your records.

We appreciate your continued support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Kimberly Marshall

2. A Loan to IESO will only be made at the request and on the recommendation of the Minister of Energy.

3. The OFA will charge interest on the Loan equal to the Province's total cost of funds, including commissions, plus a twenty-five (25) basis point spread ("Spread").

4. All outstanding amounts, including principal and any interest, shall be repaid in full by no later than December 31, 2047.

Commented [SQ22]: Consistent with OIC.

Hello-
By way of follow up on our discussions about this yesterday, I just spoke with Malle and she has advised that Toby will be working on the loan agreement from the MOF perspective as he has involvement in other aspects of the implementation of the plan.
In addition, Malle reminded me that there will be need to be a Promissory Note between OFA and the Province in respect of the on-lending authorized by OIC. I assume this is part of the routine process but just flag it as another moving part.
Thanks very much,
Sarah

Hi Salman and Patrick,

In starting to draft the credit agreement, I noticed that IESO's request letter only provides for a 5 year term be in place to September 30, 2022, but the OIC is out until 2047. This draft OIC (and draft Directive) has a 30 year maturity, and this maturity reflects a term for similar OFA OICs permitting the OFA to borrow from the Minister and to onlend to third parties (i.e. they mature in 2047), however, I'm not aware of the history on those other OICS as to that maturity date. I note that the loans under the existing OICS go out until 2042, so there is a logic to the 2047 expiry dates of those OICS. I'm not sure if there are specific reasons for the 2047 expiry date, but

thanks

Sarah

Subject: IESO Directive and Credit Facility

Hi Lisa/all,

I thought I'd take this time to send around some background information that you may or may not have – just to ensure we're working from the same documents for reference.

Please see attached:

1) LRC Approval Form: Some background notes on the OIC being recommended for approval for the June 27, 2017 LRC/Cabinet date.
2) Proposed OIC: OIC being recommended for approval for the June 27, 2017 LRC/Cabinet date.
3) Request Letter from IESO outlined some of the key terms of the proposed agreement. OFA agrees with the request.
4) To help facilitate, I used an older directive (Algonquin College from 2011), did a new version for this agreement. Defer to Lisa on the language though.

Timing:

- Unless otherwise instructed, we are looking to have the agreement in place for July 1, 2017 (business day: July 3, 2017).
- We're hoping that we can finalize the directive by next week. Both the agreement and the directive are expected to be worked on simultaneously.
- We should aim to get a first draft agreement to IESO as soon as we can as well.
- OIC should be in approved for Tuesday, June 27, 2017.

As I type this, I do not think we can have the directive signed before the OIC is approved since the directive makes reference to the OIC. Any thoughts on this are welcome.

Happy to discuss further once you have reviewed, as needed.

Thank you,

Salman

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the Ontario Financing Authority ("OFA") in an amount of up to $2.0 billion. Under the proposed OIC, repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- Existing OICs authorize the Minister of Finance to provide loans to the OFA, and in turn the OFA has provided loans and credit facilities to colleges, school boards and other public bodies such as Infrastructure Ontario, IESO, Ontario Lottery and Gaming Corporation and Liquor Control Board of Ontario.

- This proposed OIC is required to increase the authority of the Minister of Finance to lend to the OFA which will provide the OFA with the capacity to provide additional loans to the Independent Electricity System Operator ("IESO").
    - This will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017* as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.
    - The timing of this OIC is critical to ensure that borrowing authority for the OFA is available to provide the IESO its requested financing arrangements under the *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide additional loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA would be directed to provide a credit facility to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. During this period, Global Adjustment amounts collected from ratepayers will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The *Ontario Fair Hydro Plan Act, 2017* gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to a financing entity.
    - It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
    - The cash received from selling the regulatory asset will be used by the IESO to fund the current Global Adjustment shortfall.

- There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017 (planned for later in summer 2017; however, exact timing is subject to actual implementation). Even once the SPV is set up to borrow, there is expected to be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

- As a result, IESO requires short-term financing to be in place for initial and expected monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

- It is proposed that the OIC authorizes the OFA to borrow an additional $2.0 billion, which would be in addition to existing authority for the Minister of Finance to provide loans to the OFA, to ensure that there is sufficient borrowing authority in place for the OFA to meet the IESO requested requirements.

- If approved, the Minister of Finance will subsequently provide a Directive to the OFA to direct it to provide credit facilities to the IESO.
    - The OFA currently provides a credit facility to the IESO of $975 million.
    - The IESO has requested that the existing credit facility be reduced to $475 million, and a new credit facility be provided of $2.0 billion, for a total amount of $2.475 billion.

s. 3 Direction and Urgency

- The Province passed legislation on May 31, 2017 to implement the *Ontario Fair Hydro Plan Act, 2017,* which will reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in supporting implementation of the *Ontario Fair Hydro Plan Act, 2017*.
- Ministry of Energy proposed regulations under the *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be submitted for approval concurrently as it supports a crucial component of the successfully implementation of the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend an additional amount of $2.0 billion to the OFA. Subject to the terms and conditions of a

Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and, therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister may provide direction to the OFA on how it can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan. Upon approval, the Minister of Finance will have authorization to provide a loan to the OFA with a directive on how the loan can be used.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017*. The related Cabinet note for the initiative should be referred to.

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Two Billion Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the proposed Fair Hydro Plan (FHP) to reduce electricity prices for eligible consumers in the province. Proposed legislation was introduced this month for the FHP. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that in order to support the IESO's role in FHP implementation it will need greater credit liquidity than currently exists.

An existing credit facility between the IESO and the Ontario Financing Authority (OFA) is currently available for $975 million which includes support for the current Regulated Price Plan (RPP) program. The IESO proposes that a separate and additional credit facility be provided by either the OFA or Ontario Electricity Financial Corporation (OEFC) to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and interest tracking.

IESO's FHP Credit Requirements and Rationale

Below we have outlined the IESO's expected credit needs including the current OFA facility as follows:

	OFA:IESO Facility	New FHP facility
Current credit facilities	$975 million	$ -
Reduction due to FHP	($500 million)	$ -
Increase due to FHP	$ -	$2,000 million
Totals Credit Facilities	$475 million	$2,000 million

The above $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP. In addition, the IESO has had recent discussions with OFA staff to explain the rationale to support the overall $2,000 million FHP commitment.

We suggest the new FHP credit facility consider the following key provisions:

- 5 year term - to align with the FHP's initial period of deferral of electricity prices plus a contingency period (i.e. to September 30, 2022);
- interest charge - to be Province's cost of funds for borrowing with a similar term as determined by OFA / OEFC plus 0.25 percent per annum;
- Draws - to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers; and
- Existing $975 million OFA facility : draws to permit for FHP purposes until a new separate credit agreement for FHP purposes has been made available;

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facilities and we will provide such evidence for your records.

We appreciate your continued support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Kimberly Marshall

2. A Loan to IESO will only be made at the request and on the recommendation of the Minister of Energy.

Hi Sarah

As you can see from Rob's email the IESO has a facility with the OFA for almost a $1billion. This facility was given to the OPA and transferred when it merged with the IESO. The OFA financials for Dec 31, 2017 include the drawings to that date of $150M and this is the first time at least in a number of years that this facility has been drawn upon. There may be a question at ARMC as to why the facility was extended by the OFA as opposed to the OEFC.

Thanks

Hope your week is going well.

We received the attached request to review IESO's latest update to their treasury policy which will require Minister of Finance's approval. As applicable, if your teams can review and provide comments, if any, we can consolidate and get back to IESO before they go to their Board in mid-June. We're hoping to get back to IESO early/mid next week.

Please let me know.

Thank you,

Subject: RE: IESO Treasury Policy - likely revising for June 2017

Salman,

Attached is a preliminary draft of the Treasury Policy and Sch A for your review.

Two changes have been made:

1. Permitting Fair Hydro program borrowings – self explanatory rationale; and
2. Increase from $420 million to $500 million in Sch A's Cdn Banks max limit per counter party.

The key rationale for the requested increase from $420 million to $500 million per counterparty is as follows:

• The market price of electricity has increased between 2014 to 2016 by approximately 16%-19% which has continued to result in the IESO managing higher and higher cash-flows and therefore seeking risk appropriate investments in accordance with the Treasury Policy – a large limit will allow the IESO to have more flexibility while being efficient with its cash;

• Over the past few years and relevant today, the availability of short-term (generally 1 day to 7 days which is used a lot by the IESO, and including less than 30 days investment) products such as Treasury Bills, BAs and Term Deposits have been irregular and not reliable for the IESO to find. The IESO generally deals in large amounts (several hundreds of millions) and given the lack of short term

products at the size the IESO needs, the Sch 1 banks have been generally offering Term Deposits for the IESO at very low interest rates because the Banks do not need the IESO monies. In fact, a few banks offer the IESO less than 10bps for Term Deposits – which is significantly lower than Bank of Canada overnight rate and BAs rates. Therefore, a Term Deposit with very low interest yield does not align with a resulting lower counterparty risk for the IESO; and

• The IESO's Transmission Rights balances have in general remained higher than $100 million on average over the last few years despite an IESO target of $20 million. This has resulted in the IESO managing higher cash-flows

- While the Fair Hydro program is likely to not impact the IESO's overall net cash balances (borrow / sell should generally align), the timing of these cash flows may be different at times and the IESO may hold more cash (short term basis) for a few days. The sales/service agreement with OPG Trust has not been completed, and I am just listing this as a contingency in case for some reason IESO holds larger cash balances before paying back the Fair Hydro loans.

Regards.

Hi Anthony,

I wanted to circle back with you on this email, particularly regarding possibly updating the IESO's Treasury Policy. Since it does require the Minister of Finance's approval, the OFA would be involved in obtaining that approval from the Minister. When you do have a markup, please do share it with us. Any details on what the changes would be accomplishing etc would also be helpful.

Salman,

As part of the Fair Hydro initiative, the IESO plans to ask government to permit FHP debt in an update to the O. Reg. 280/14.

In addition, IESO is likely to update its treasury policy (see attached – as approved by IESO Board and Min of Fin in 2015) to permit for the FHP draws/initiative.

I likely may also ask to increase the short term Cdn Sch I banks limits from $420million to $500million.

As part of the treasury policy update I wanted to give you/OFA a fyi and determine if you/OFA wish to comment back to me before I undertake the above changes.

Call me to discuss if easier.

Regards.

IESO FAIR HYDRO PLAN CREDIT FACILITY
MINISTER OF FINANCE LENDING DIRECTIVE

The Independent Electricity System Operator (IESO) has requested a revolving credit facility in an amount of up to $2 billion from the Ontario Financing Authority ("OFA") to support its role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act"). To accommodate this request, the OFA requires a Lending Directive from the Minister of Finance.

- The IESO is requesting the credit facility be in place by July 1, 2017, with an initial term of 5-years plus a contingency of three months (effectively expiring on September 30, 2022).

RECOMMENDATION

- OFA staff recommend the Minister sign the Lending Directive allowing the OFA to lend to the IESO.
  - This will help the IESO to fulfil the commitments under the OFHP Act as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.

MINISTER'S DIRECTIVE

Minister of Finance's Lending Directive would authorize the OFA to provide a revolving credit facility in an amount of up to $2 billion with a maturity date of September 30, 2022. The Lending Directive will also include the following conditions:

- The interest rate charged to IESO on all advances will be based on the Province's cost of funds plus a twenty-five basis point (0.25%) spread.
- The credit facility agreement shall be subject to such other terms as the OFA deems appropriate from time to time.

FISCAL IMPACT

- There would be a relatively small but positive fiscal impact for the Province as a result of this credit facility.
  - The Province receives a small fiscal benefit by adding 25 basis points (i.e., 0.25%) to the Provinces cost of borrowing for funds provided to the IESO under the facility.

- Both the IESO and OFA are consolidated with the Province on a line by line basis. For the OFA and the Province, costs associated with the credit facility are recovered from the IESO. For the IESO, principal and interest associated with the credit facility are recovered from electricity ratepayers.

DETAILS AND ANALYSIS

- On May 31, 2017, the government passed the OFHP Act to enable the implementation of the Ontario Fair Hydro Plan, which will lower electricity bills by 25 per cent on average for eligible residential customers. Eligible farms and small businesses will also receive benefits (essentially for those eligible for the Regulated Price Plan).
- Under the OFHP Act, the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment ("GA") charge to ratepayers will be deferred to the future.
- During this period, GA amounts collected from ratepayers will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The OFHP Act gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset (i.e., the shortfall) to a financing entity.
  - It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
  - The cash received from selling the regulatory asset will be used by the IESO to fund the incurred GA shortfall.

- Although IESO will not need long-term borrowing for its role in this process, it is expected to need short-term financing to manage initial and ongoing IESO cash flow requirement timing differences.
  - The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017 (planned for later in summer 2017; however, exact timing is subject to actual implementation).
  - Even once the SPV is set up to borrow, there is expected to be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO.
  - Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

Current Status

- An existing credit facility between the IESO and the OFA is currently available for $975 million which includes support for the current Regulated Price Plan (RPP) program. The IESO has proposed that a separate and additional credit facility be provided to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and tracking of related interest costs.
- As a result, the IESO has proposed to reduce the current $975 million credit facility by $500 million and create a new FHP facility in the amount of $2 billion.
  - The $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP.
  - Specific terms of the agreement are being negotiated between the IESO and OFA.

	OFA: IESO Facility	**New Proposed FHP Facility**
Current Credit Facilities	$975 million	$ -
Reduction due to FHP	$(500 million)	$ -
Increase due to FHP	$ -	$2,000 million
Total Credit Facilities	**$475 million**	**$2,000 million**

BACKGROUND

- The IESO is a not-for-profit corporate entity established in 1998 by the *Electricity Act, 1998*. It is governed by an independent Board of Directors and its Chair and Directors are appointed by the Province.
- The IESO has full statute-based authority for establishing, monitoring and enforcing reliability standards in the province. All the companies that make up the power system in Ontario must meet the IESO's standards.
- Its fees and licences to operate are set by the Ontario Energy Board and it operates independently of all other participants in the electricity market.

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation and administration of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate equal to the Province's cost of funds based on the terms of the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread.

The credit facility is being requested by the IESO and will be used to support its role in the implementation and administration as prescribed under the Ontario Fair Hydro Plan Act, 2017 ("OFHP Act").

Under the OFHP Act, the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment ("GA") charge to ratepayers will be deferred to the future. During this period, GA amounts collected from ratepayers will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers. The OFHP Act gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset (i.e., the shortfall) to a financing entity.

- It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
- The cash received from selling the regulatory asset will be used by the IESO to fund the incurred GA shortfall.

Although IESO will not need long-term borrowing for its role in this process, it is expected to need short-term financing to manage initial and ongoing IESO cash flow requirement timing differences.

…2

An existing credit facility between the IESO and the OFA is currently available for $975 million which includes support for the current Regulated Price Plan (RPP) program. The IESO has proposed that a separate and additional credit facility be provided to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and tracking of related interest costs.

- As a result, the IESO has proposed to reduce the current $975 million credit facility by $500 million and create a new FHP facility in the amount of $2 billion.
- The $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP

Attached is a briefing note for your consideration, as well as a Lending Directive for the your signature that would direct OFA to provide a $2 billion revolving credit facility to the IESO, with a maturity date of September 30, 2022, an interest rate of Province's cost of funds plus a twenty-five basis point spread and any other terms the OFA deems appropriate.

Should a briefing be required, staff would be pleased to discuss this matter at your convenience.

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation and administration of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of providing short to medium term financing related to the OFHP.

Therefore:

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate equal to the Province's cost of funds based on the terms of the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread.

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than September 30, 2022.

Hi Lisa/Malle,

As part of the Fair Hydro Plan implementation, IESO has requested a revolving credit facility from the OFA to support its role in the implementation and participation under the FHP. IESO FAIR HYDRO PLAN CREDIT FACILITY
MINISTER OF FINANCE LENDING DIRECTIVE

The Independent Electricity System Operator (IESO) has requested a revolving credit facility in an amount of up to $2 billion from the Ontario Financing Authority ("OFA") to support its role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act"). To accommodate this request, the OFA requires a Lending Directive from the Minister of Finance.

- The IESO is requesting the credit facility be in place by July 1, 2017, with an initial term of 5-years plus a contingency of three months (effectively expiring on September 30, 2022).

RECOMMENDATION

- OFA staff recommend the Minister sign the Lending Directive allowing the OFA to lend to the IESO.
  - This will help the IESO to fulfil the commitments under the OFHP Act as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.

MINISTER'S DIRECTIVE

Minister of Finance's Lending Directive would authorize the OFA to provide a revolving credit facility in an amount of up to $2 billion with a maturity date of September 30, 2022. The Lending Directive will also include the following conditions:

- The interest rate charged to IESO on all advances will be based on the Province's cost of funds plus a twenty-five basis point (0.25%) spread.
- The credit facility agreement shall be subject to such other terms as the OFA deems appropriate from time to time.

FISCAL IMPACT

- There would be a relatively small but positive fiscal impact for the Province as a result of this credit facility.
  - The Province receives a small fiscal benefit by adding 25 basis points (i.e., 0.25%) to the Provinces cost of borrowing for funds provided to the IESO under the facility.

- Both the IESO and OFA are consolidated with the Province on a line by line basis. For the OFA and the Province, costs associated with the credit facility are recovered from the IESO. For the IESO, principal and interest associated with the credit facility are recovered from electricity ratepayers.

DETAILS AND ANALYSIS

- On May 31, 2017, the government passed the OFHP Act to enable the implementation of the Ontario Fair Hydro Plan, which will lower electricity bills by 25 per cent on average for eligible residential customers. Eligible farms and small businesses will also receive benefits (essentially for those eligible for the Regulated Price Plan).
- Under the OFHP Act, the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment ("GA") charge to ratepayers will be deferred to the future.
- During this period, GA amounts collected from ratepayers will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The OFHP Act gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset (i.e., the shortfall) to a financing entity.
  - It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
  - The cash received from selling the regulatory asset will be used by the IESO to fund the incurred GA shortfall.

- Although IESO will not need long-term borrowing for its role in this process, it is expected to need short-term financing to manage initial and ongoing IESO cash flow requirement timing differences.
  - The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017 (planned for later in summer 2017; however, exact timing is subject to actual implementation).
  - Even once the SPV is set up to borrow, there is expected to be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO.
  - Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

Current Status

- An existing credit facility between the IESO and the OFA is currently available for $975 million which includes support for the current Regulated Price Plan (RPP) program. The IESO has proposed that a separate and additional credit facility be provided to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and tracking of related interest costs.
- As a result, the IESO has proposed to reduce the current $975 million credit facility by $500 million and create a new FHP facility in the amount of $2 billion.
  - The $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP.
  - Specific terms of the agreement are being negotiated between the IESO and OFA.

	OFA: IESO Facility	**New Proposed FHP Facility**
Current Credit Facilities	$975 million	$ -
Reduction due to FHP	$(500 million)	$ -
Increase due to FHP	$ -	$2,000 million
Total Credit Facilities	**$475 million**	**$2,000 million**

BACKGROUND

- The IESO is a not-for-profit corporate entity established in 1998 by the *Electricity Act, 1998*. It is governed by an independent Board of Directors and its Chair and Directors are appointed by the Province.
- The IESO has full statute-based authority for establishing, monitoring and enforcing reliability standards in the province. All the companies that make up the power system in Ontario must meet the IESO's standards.
- Its fees and licences to operate are set by the Ontario Energy Board and it operates independently of all other participants in the electricity market.

A separate facility for the FHP is preferable to ensure operational efficiency and tracking of related interest costs.

- As a result, the IESO has proposed to reduce the current $975 million credit facility by $500 million and create a new FHP facility in the amount of $2 billion.
- The $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP

Attached is a briefing note for your consideration, as well as a Lending Directive for the your signature that would direct OFA to provide a $2 billion revolving credit facility to the IESO, with a maturity date of September 30, 2022, an interest rate of Province's cost of funds plus a twenty-five basis point spread and any other terms the OFA deems appropriate.

Should a briefing be required, staff would be pleased to discuss this matter at your convenience.

DIRECTIVE

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation and administration of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of providing short to medium term financing related to the OFHP.

Therefore:

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate equal to the Province's cost of funds based on the terms of the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread.

DRAFT

../2

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than September 30, 2022.

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

Dated:

Charles Sousa
Minister of Finance

Hi Sarah,
Question for you. I understand that advances in this agreement have a minimum of 7 days and a maximum of 95 days in length. In my mind the advances are fairly short and will mature fairly quickly. However, according to the proposed FHP OIC materials it indicates a maturity of Dec 31, 2047. I left some comments in the draft as well. We can discuss this in the morning.
Also, may I come in an hour later as I stayed late to work on this.
Thanks,
Will

HI Will,

On Monday, you initially mentioned that you thought you could provide a draft of the new credit facility today, but some things have gotten in the way. Please let me know what is on your plate (might be coming up) so I can re-delegate if needed. As mentioned, the credit facility is a high priority item which is time sensitive as it must be in place by June 30, and it must be vetted through OFA legal and negotiated with IESO.

Are you able to get provide a draft by tomorrow at 11 a.m.?

Also, please let me know if you have any questions or require any guidance on any points – if you feel it may be beneficial for me to review your draft to this point, I would be happy to do so.

Thanks,

Sarah

Hi Sarah,
Question for you. I understand that advances in this agreement have a minimum of 7 days and a maximum of 95 days in length. In my mind the advances are fairly short and will mature fairly quickly. However, according to the proposed FHP OIC materials it indicates a maturity of Dec 31, 2047. I left some comments in the draft as well. We can discuss this in the morning.
Also, may I come in an hour later as I stayed late to work on this.
Thanks,
Will

HI Will,
On Monday, you initially mentioned that you thought you could provide a draft of the new credit facility today, but some things have gotten in the way. Please let me know what is on your plate (might be coming up) so I can re-delegate if needed. As mentioned, the credit facility is a high priority item which is time sensitive as it must be in place by June 30, and it must be vetted through OFA legal and negotiated with IESO.
Are you able to get provide a draft by tomorrow at 11 a.m.?
Also, please let me know if you have any questions or require any guidance on any points – if you feel it may be beneficial for me to review your draft to this point, I would be happy to do so.
Thanks,
Sarah

Hi Sarah,
Question for you. I understand that advances in this agreement have a minimum of 7 days and a maximum of 95 days in length. In my mind the advances are fairly short and will mature fairly quickly. However, according to the proposed FHP OIC materials it indicates a maturity of Dec 31, 2047. I left some comments in the draft as well. We can discuss this in the morning.
Also, may I come in an hour later as I stayed late to work on this.
Thanks,
Will

HI Will,
On Monday, you initially mentioned that you thought you could provide a draft of the new credit facility today, but some things have gotten in the way. Please let me know what is on your plate (might be coming up) so I can re-delegate if needed. As mentioned, the credit facility is a high priority item which is time sensitive as it must be in place by June 30, and it must be vetted through OFA legal and negotiated with IESO.
Are you able to get provide a draft by tomorrow at 11 a.m.?
Also, please let me know if you have any questions or require any guidance on any points – if you feel it may be beneficial for me to review your draft to this point, I would be happy to do so.
Thanks,
Sarah

Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the proposed Fair Hydro Plan (FHP) to reduce electricity prices for eligible consumers in the province. Proposed legislation was introduced this month for the FHP. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that in order to support the IESO's role in FHP implementation it will need greater credit liquidity than currently exists.

An existing credit facility between the IESO and the Ontario Financing Authority (OFA) is currently available for $975 million which includes support for the current Regulated Price Plan (RPP) program. The IESO proposes that a separate and additional credit facility be provided by either the OFA or Ontario Electricity Financial Corporation (OEFC) to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and interest tracking.

IESO's FHP Credit Requirements and Rationale

Below we have outlined the IESO's expected credit needs including the current OFA facility as follows:

	OFA:IESO Facility	New FHP facility
Current credit facilities	$975 million	$ -
Reduction due to FHP	($500 million)	$ -
Increase due to FHP	$ -	$2,000 million
Totals Credit Facilities	$475 million	$2,000 million

The above $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP. In addition, the IESO has had recent discussions with OFA staff to explain the rationale to support the overall $2,000 million FHP commitment.

We suggest the new FHP credit facility consider the following key provisions:

- 5 year term - to align with the FHP's initial period of deferral of electricity prices plus a contingency period (i.e. to September 30, 2022);
- interest charge - to be Province's cost of funds for borrowing with a similar term as determined by OFA / OEFC plus 0.25 percent per annum;
- Draws - to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers; and
- Existing $975 million OFA facility : draws to permit for FHP purposes until a new separate credit agreement for FHP purposes has been made available;

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facilities and we will provide such evidence for your records.

We appreciate your continued support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Kimberly Marshall

The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that in order to support the IESO's role in FHP implementation it will need greater credit liquidity than currently exists.

An existing credit facility between the IESO and the Ontario Financing Authority (OFA) is currently available for $975 million which includes support for the current Regulated Price Plan (RPP) program. The IESO proposes that a separate and additional credit facility be provided by either the OFA or Ontario Electricity Financial Corporation (OEFC) to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and interest tracking.

IESO's FHP Credit Requirements and Rationale

Below we have outlined the IESO's expected credit needs including the current OFA facility as follows:

	OFA:IESO Facility	New FHP facility
Current credit facilities	$975 million	$ -
Reduction due to FHP	($500 million)	$ -
Increase due to FHP	$ -	$2,000 million
Totals Credit Facilities	$475 million	$2,000 million

The above $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP. In addition, the IESO has had recent discussions with OFA staff to explain the rationale to support the overall $2,000 million FHP commitment.

We suggest the new FHP credit facility consider the following key provisions:

- 5 year term - to align with the FHP's initial period of deferral of electricity prices plus a contingency period (i.e. to September 30, 2022);
- interest charge - to be Province's cost of funds for borrowing with a similar term as determined by OFA / OEFC plus 0.25 percent per annum;
- Draws - to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers; and
- Existing $975 million OFA facility : draws to permit for FHP purposes until a new separate credit agreement for FHP purposes has been made available;

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facilities and we will provide such evidence for your records.

We appreciate your continued support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Kimberly Marshall

Hi Sarah,
Question for you. I understand that advances in this agreement have a minimum of 7 days and a maximum of 95 days in length. In my mind the advances are fairly short and will mature fairly quickly. However, according to the proposed FHP OIC materials it indicates a maturity of Dec 31, 2047. I left some comments in the draft as well. We can discuss this in the morning.
Also, may I come in an hour later as I stayed late to work on this.
Thanks,
Will

HI Will,

On Monday, you initially mentioned that you thought you could provide a draft of the new credit facility today, but some things have gotten in the way. Please let me know what is on your plate (might be coming up) so I can re-delegate if needed. As mentioned, the credit facility is a high priority item which is time sensitive as it must be in place by June 30, and it must be vetted through OFA legal and negotiated with IESO.

Are you able to get provide a draft by tomorrow at 11 a.m.?

Also, please let me know if you have any questions or require any guidance on any points – if you feel it may be beneficial for me to review your draft to this point, I would be happy to do so.

Thanks,

Sarah

Hi Malle

Carlos is saying that there will be no financial compensation for the advisor. The benefit to it, is that it will gain insight into how the new structure works and experience with the spv which may be beneficial in obtaining work from the spv in the future. They won't provide for any compensation in the NDA itself.

What type of information is being given? Need a description.
For what purpose is the advisor being given this information? What use will the advisor make of the information?
What is the advisor being hired to do? Pricing/financing issues about what? Need a description of the project or services Can the advisor talk to anyone about the information or the project? i.e. other ministry staff, ministry of energy, OFA, OEFC?
What about internal disclosure within the advisor's company?
Is there a procurement process of any type to hire the advisor?
How much and how will the advisor be paid?
Who are the parties to the agreement? Is it the Province that is hiring the advisor and giving them the information?
What is the consideration for the advisor's agreement for keeping it confidential? i.e. the advisor is being paid to give advice.

I think if we can get some more information along these lines it would be helpful. Also, if the contracting party is the OFA or OEFC then I will need to speak to Sarah Neville.

Thanks.

Mike is just asking for an agreement for the dealer he hires to advise on pricing/ financing issues. I believe they are talking to RBC, TD and BMO. This request is confined to that. He wants it done by Monday I've been told.

Hi Kelly,

I have read it over now. Should we have a short call about this. This is a significant project and does the Province/OFA/OEFC plan to hire a financial advisor to advise on aspects of it. Quite possibly there will be more than one advisory contract here as there seem to be capital markets, accounting, etc. issues involved here. Also, looking at the background information, I don't' know that it is necessarily clear who is going to the borrowing whether it's the Province or OEFC and which entity will provide the equity injection (Minister of Energy holds the shares in OPG). So we can't do a non-disclosure agreement in isolation. What information are we giving to the financial advisor and what are we asking them to do?

I think we need more context here and also if it is OEFC hiring the financial advisor, we should be speaking to Sarah Neville too. This is a project that Ronald Kwan's group is involved in.

Ok - looking at the info on page 2 - looks like the OEFC will be looking to "hire" the advisor regarding pricing/ financing the amounts shown in the paper. This advisor will be a member of the current bond syndicate. Mike wants a non - disclosure for this advisor. Given the structure and all the items mentioned in the paper, I would say it should be pretty broad.

Hi Malle

Carlos is saying that there will be no financial compensation for the advisor. The benefit to it, is that it will gain insight into how the new structure works and experience with the spv which may be beneficial in obtaining work from the spv in the future. They won't provide for any compensation in the NDA itself.

Hi Kelly,

I have some precedent non-disclosure agreements that I have drafted in the past, but we need some more information.

Here are some questions that will assist:

Is the information being given to all 3 potential advisors or just the one that will be hired?
What type of information is being given? Need a description.
For what purpose is the advisor being given this information? What use will the advisor make of the information?
What is the advisor being hired to do? Pricing/financing issues about what? Need a description of the project or services Can the advisor talk to anyone about the information or the project? i.e. other ministry staff, ministry of energy, OFA, OEFC?
What about internal disclosure within the advisor's company?

What is the consideration for the advisor's agreement for keeping it confidential? i.e. the advisor is being paid to give advice.

I think if we can get some more information along these lines it would be helpful. Also, if the contracting party is the OFA or OEFC then I will need to speak to Sarah Neville.

Thanks.

Hi Kelly,

I have read it over now. Should we have a short call about this. This is a significant project and does the Province/OFA/OEFC plan to hire a financial advisor to advise on aspects of it. Quite possibly there will be more than one advisory contract here as there seem to be capital markets, accounting, etc. issues involved here. Also, looking at the background information, I don't' know that it is necessarily clear who is going to the borrowing whether it's the Province or OEFC and which entity will provide the equity injection (Minister of Energy holds the shares in OPG). So we can't do a non-disclosure agreement in isolation. What information are we giving to the financial advisor and what are we asking them to do?

I think we need more context here and also if it is OEFC hiring the financial advisor, we should be speaking to Sarah Neville too. This is a project that Ronald Kwan's group is involved in.

Ok - looking at the info on page 2 - looks like the OEFC will be looking to "hire" the advisor regarding pricing/ financing the amounts shown in the paper. This advisor will be a member of the current bond syndicate. Mike wants a non - disclosure for this advisor. Given the structure and all the items mentioned in the paper, I would say it should be pretty broad.

Subject: RE: Message from "14-PRT06"

Hi Kelly,

I have read it over now. Should we have a short call about this. This is a significant project and does the Province/OFA/OEFC plan to hire a financial advisor to advise on aspects of it. Quite possibly there will be more than one advisory contract here as there seem to be capital markets, accounting, etc. issues involved here. Also, looking at the background information, I don't' know that it is necessarily clear who is going to the borrowing whether it's the Province or OEFC and which entity will provide the equity injection (Minister of Energy holds the shares in OPG). So we can't do a non-disclosure agreement in isolation. What information are we giving to the financial advisor and what are we asking them to do?

I think we need more context here and also if it is OEFC hiring the financial advisor, we should be speaking to Sarah Neville too. This is a project that Ronald Kwan's group is involved in.

In addition to the "non-disclosure" aspect, will there be a contract for OEFC to hire the advisor, ie. What the advisor will do, payment, etc. Sorry haven't read it yet.

Ok - looking at the info on page 2 - looks like the OEFC will be looking to "hire" the advisor regarding pricing/ financing the amounts shown in the paper. This advisor will be a member of the current bond syndicate. Mike wants a non - disclosure for this advisor. Given the structure and all the items mentioned in the paper, I would say it should be pretty broad.

Mr. Serge Imbrogno
Deputy Minister,
Ministry of Energy
4th Floor, Hearst Block

Toronto, Ontario

Dear Deputy:

Below is a summary of OPG's preliminary views on the implementation of the Province's proposed Global Adjustment Smoothing Account and financing structure. These views are contingent on the proposed terms and conditions that were sent to the Ministry of Energy on February 21, 2017.

Understanding that the finalization of the legal terms, the Trust indentures, financing structure and other detailed terms will take several months and will involve collaboration between legal counsel, input from capital markets, parties involved and other stakeholders, this letter is intended to provide the guideline and framework which could form the foundation of the plan.

Please do not hesitate to contact me if you have any questions regarding this summary.

Background:

The Province has indicated that it will take steps to reduce electricity bills in the near term. It has identified reductions in the Global Adjustment Charge (GAC) charged to electricity customers as a means to achieve its policy goals. The Province is proposing to temporarily reduce the amount of the GAC charged to electricity customers (primarily RPP-eligible customers). The exact quantum and duration of the program is still not known but based on discussions with the Province GAC charges of approximately $2-5B per year for the next 5-10 years would be deferred and collected over future periods commencing after the deferral period. A combination of senior debt and subordinated debt (mainly sourced by additional equity from the shareholder) would be issued to fund the amount deferred. The financing cost of the debt and other costs of running the program would form part of the amounts recovered from customers over the term of the program.

Ontario's Fair Hydro Plan → 2.5b for 10 years, will max. annual interest cost of $1.4b

The Province has requested that OPG administer the GAC deferral, because of OPG's participation in the market, regulatory knowledge and the potential ability to consolidate the activity and accounting with OPG. Given the significant amount of financing required for the GAC deferral, OPG has developed a financing structure (depicted below) to:

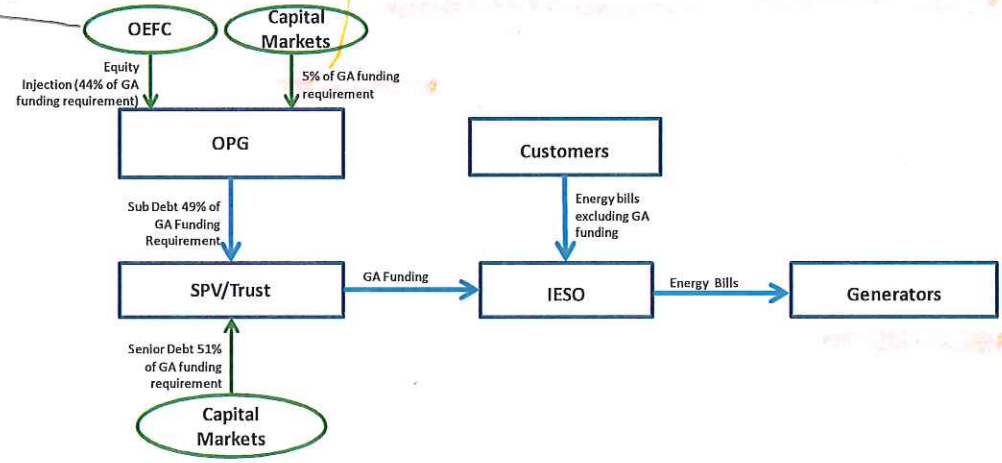
- restrict the risk to OPG;

- maximize the cost-effectiveness of the Trust or the Special Purpose Vehicle ("SPV") financing vehicle; and
- allow for consolidation into OPG financial statements.

The success of this structure is dependent on achieving a number of objectives which are reviewed in the following sections:

A. Ability to Recognize an Asset and Record Revenue
B. Ability to Consolidate the SPV into OPG
C. Ability to Finance
D. External Assessment
E. Risk Summary

All of the percentages shown in the graphic below are indicative and will be highly dependent on the legislation that the Province will enact:



Process:

The IESO will effectively sell the 'right to collect' deferred future revenue from ratepayers (GA Recovery Right asset) to the SPV in return for cash proceeds. In order for the SPV to purchase this asset the SPV will obtain the financing from two key sources: 51% directly from capital markets and 49% as subordinated debt from OPG. OPG will obtain 44% of this financing as an equity injection from the Province and 5% from capital markets.

A. Ability to Recognize an Asset and Record Revenue

Accounting Requirements under International Financial Reporting Standards (IFRS)

1) It is our understanding that the IESO and KPMG have concluded that the sale of this 'right to collect' future revenue (or regulatory asset) is not a financing transaction and will not be recorded as a financial liability. Based on that conclusion, the right to collect will be accounted for as an intangible asset in the SPV.

2) In order to the SPV to record this right as an intangible asset, the right must meet the following conditions:
   - The intangible asset must be separable and arise from a contractual or legal right (i.e. mandated by the Legislation and SPV Indenture Agreement).
   - The SPV must have the control and power to obtain future economic benefits from the intangible asset.
   - The SPV must be able to demonstrate that the intangible asset is purchased at fair value.

How & by whom is the revenue being paid by the SPV from OPG thru OEB?

3) In order for the SPV to recognize appropriate revenue to offset any ongoing costs, the Legislation must require interest, carrying and administrative costs to be paid to the SPV on a monthly basis. This may result in additional amounts to be deferred to achieve the desired customer impact. Payment of revenue to the SPV is also important to service the interest expenses of the debt.

B. Ability to Consolidate the SPV into OPG under IFRS

OPG 'Control' of the SPV - Accounting Requirements

1) In order to meet the accounting definition of 'control', accounting guidance must be considered. There are no bright lines to determine whether OPG has exposure, or rights, to variable returns from its involvement with the SPV, or whether it has the ability to affect the returns of the SPV through its power over the SPV. Rather, all facts and circumstances are considered when assessing whether an entity has control over another entity. Based on the relevant accounting guidance under IFRS, OPG has proposed terms necessary to demonstrate that OPG has control over the SPV. OPG's external auditors, Ernst & Young, has provided their concurrence that based on the information provided to them to date that the following conditions should permit consolidation of the SPV by OPG.

Directive:

1. The SPV must be undertaken by OPG as a business initiative on its merits. A Shareholder Directive is to be limited to direct OPG to investigate the option of establishing a SPV vehicle to administer, finance and operate the Global Adjustment plan. The control, risk and rewards of that SPV will determine its consolidation into OPG as a business enterprise.

SPV:

2. The SPV should not operate in a predetermined way such that OPG does not have decision-making authority over the SPV's ongoing activities after its formation (i.e. should not operate on 'autopilot').
3. OPG must have the ability to appoint and remove the Trustee (or Board of Trustees), with no veto right by the Province. No party shall have the ability to remove OPG from its role and authority in the SPV.
4. The Province cannot have the right to veto OPG's decisions about the relevant activities of the SPV. OPG must have the power over the relevant activities of the SPV and be compensated. The relevant activities of the SPV include (but are not limited to) the evaluation and decisions on financing alternatives, duration, and the strategy to minimize financing costs. OPG must have the power to establish operating and capital budgets of the SPV.
5. OPG must have the power to determine or change operating and financing policies of the SPV, which will affect the variability of risks and returns.
6. The Province or its agencies must not directly or indirectly fund (through debt or equity) more than 50% of the following:
    - The SPV
    - Any of OPG's investments in the most subordinated debt of the Trust
7. OPG must own greater than 50% of the most subordinated debt and targeted to be no less than 5%[1] of the total debt of the SPV. Such ownership must be financed entirely by OPG through operating cash flows or external debt, without assistance from Provincial sources. A quantitative analysis should be performed at a later date to corroborate the appropriateness of the 5% threshold to support that the 5% subordinated debt investment is sufficient to absorb most of the expected variability in the SPV.
8. OPG must have the ability to earn variable returns by exercising its authority, which shall be accomplished as follows:

[1] While the rest of the letter refers to a 10% investment in the most junior subordinated debt with OPG owning 5%, it should be noted that OPG should own more than 50% of the most subordinate debt. For simplicity, the degree to which OPG's ownership beyond 50% is not shown in this letter.

a. The cash flow from the restructured asset shall include interest determined based on a relevant benchmark that is appropriate relative to the restructured asset, plus an appropriate margin consistent with the relevant market and other risks
b. OPG shall have the authority to determine the financing strategy, which will vary the financing costs with the objective of enabling the SPV to achieve a more favourable return compared to the return from the restructured asset
c. The SPV shall establish classes of liabilities (senior, subordinated and the most subordinated). The classes would allow the SPV to delineate financing of lower risk investment and investment that would bear higher residual risk. The delineation would limit OPG's self-funded investment to a reasonable level in order to allow OPG to remain a self-sustaining entity.
d. OPG shall, through its ownership of the most subordinated liability, be able to capture and retain the pricing difference between cost of financing and benchmark for interest on the restructured asset, or any residual risk of restructured asset. The targeted return of the subordinated liability should be reflective of the underlying risks and compensate holders for active management that would be required.
e. OPG should participate in the detailed design of the above and the SPV documentation to ensure that it has substantive power and variability, which will allow OPG's Board of Directors to evaluate the opportunity as a business initiative instead of through a shareholder directive.

Nothwithstanding the above, under certain Defined Forced Majeure for emergency events (e.g. unlikely credit market event or disruption where it is not possible to borrow from the market at a reasonable rate), the OEFC may provide bridge financing beyond the designated percentage for a defined period. The relevant terms should ensure that this temporary measure does not detract from the rights of OPG to direct all of the relevant activities of the SPV. Additionally, OPG should not be protected from risk of loss by the OEFC with respect to its subordinated investment, nor should it lose its right to derive the residual returns should such bridge financing be required.

Legislation

9. The Legislation must require interest, carrying and administrative costs to be paid to the SPV on a monthly basis, so that the SPV is able to recognize appropriate revenue to offset any ongoing costs.
10. The Legislation must dictate the manner in which the restructured asset would be determined, collected, and the period of collection, so that the determination of the restructured asset will not be subject to the Province's decisions on an ongoing basis, but determined based on a formula. Alternatively, the Legislation may allow for an adjustment to the pre-determined deferral formula based on specific parameters that would limit the adjustment to the restructured asset. Adjustments beyond the specific parameters would require approval by the Board of Trustees.
11. The Legislation must be written to avoid legal or constitutional challenges and be irrevocable to reduce the cost of borrowing and with a specific formula which determines the deferral amount. As irrevocability would be difficult under Canadian law one mitigation would be to provide a Provincial guarantee which only applies with cancellation or amendment of the legislation.
12. The spirit of the above terms should be reflected in the SPV Indenture Agreement as well as Legislation, wherever possible.

2) The Trust is expected to be financed as follows:
   - 51% senior secured debt from external markets
   - 39% senior subordinated debt from OPG (via Province equity injection into OPG)

- 10% junior subordinated debt from OPG (5% from external markets and 5% from Province equity injection into OPG).

When assessing control, an investor shall consider the nature of its relationship with other parties and whether those parties are acting on the investor's behalf (i.e. they are 'de facto agents'). If OPG is assessed to be a 'de facto agent' of the Province, it will compromise the ability for OPG to consolidate the Trust. The split above is to meet the following conditions to ensure that OPG is not considered a 'de facto agent' of the Province:

- The Province or its agencies must not directly or indirectly fund (through debt or equity) more than 50% of the following:
  - The Trust
  - Any of OPG's investments in the most subordinated debt of the Trust
- OPG must own greater than 50% of the most subordinated debt and targeted to own no less than 5% of the total debt of the Trust. Such ownership must be financed entirely by OPG through operating cash flows or external debt, without assistance from Provincial sources.

3) The Province will need to conclude on whether OPG still meets the definition of a Government Business Enterprise as defined under Public Sector Accounting Board standards in order to obtain the preferred consolidation treatment after the transaction. We also recommend that the Province to undertake the analysis deemed necessary to confirm the accounting treatment in its consolidated Public Accounts, including if the recognition of the intangible asset would result in an offsetting liability in the Public Accounts.

C. Ability to Finance

Property Right or Right to Collect
Legislative Requirements for Financing
The GA Recovery Right must be structured to encompass the following elements:

- Right to recover from and bill Ontario electricity customers for (1) the principal amount of GA that is being deferred, (2) all interest and other financing costs incurred in respect of the deferral of the GA, (3) all fees, expenses and other administrative costs associated with such financing;
- Repayment/amortization schedule as agreed by the IESO and any purchaser of such GA Recovery Right (or pursuant to a pre-defined schedule/formula that covers all of the purchaser's principal, interest and ongoing financing costs on a monthly basis);
- Repayment/amortization schedule must include a true up mechanism to ensure all costs associated with the deferral can be recovered from customers;
- IESO may dispose of the GA Recovery Right, provided that any such disposition shall be a true sale and absolute transfer to the purchaser of the IESO's right, title and interest in and to the GA Recovery Right;
- Purchaser will have the right to require the IESO (or any successor) to collect the principal amount of GA Recovery Right, together with interest, financing and administration costs, on the agreed repayment/amortization schedule;
- Right must be irrevocable and, if amended by future governments, debt holders have the right of action against the government to recover the amount outstanding including interest, fees, expenses and any damages resulting from the amendment;
- GA Recovery Right will not be subject to any set-off, counterclaim or other defence by the IESO or any successor or affiliated entity; and
- Make certain amendments to the Electricity Act to allow OPG to implement the SPV financing structure (e.g. allowing OPG to create subsidiaries and holding companies, and to have a beneficial interest in the SPV, etc). This would provide flexibility to accommodate possible variations to the financing structure that may be desirable over time.

Detailed legislative requirements are specified in the attachments as follows:

Attachment 1 Legislative requirements to allow deferral of global adjustment amounts to be financeable

Attachment 2 Statutory amendments

The proposed financing structure for the SPV is:

	Risk Profile	Source	% of Total Funding Requirements
Tranche A Senior Debt	The least risky	Capital Markets	51%
Tranche B Sub Debt	In between A&C	OPG via OEFC	39%
Tranche C Sub Debt)	The most risky	OPG via OEFC	5%
		OPG via Capital Markets	5%

SPV structure is used to accomplish the following:

- SPV holds right to charge customers for the benefit of debt holders;
- Allows the financing vehicle to be ring-fenced from OPG as an SPV structure is set up as generally single purpose entities with no other operations that could add risk to the SPV, dilute debt holder rights, allow parties from other operations to claim rights to the future recovery from customers or allow these other parties to initiate bankruptcy proceedings;
- Enables SPV to potentially get a higher credit rating than OPG;
- Supports consolidation with OPG provided accounting requirements are satisfied;

This approach supports a number of objectives of the GA Recovery Right:

- 51% external senior debt supports separation of the SPV from the Province
- 5% junior subordinated debt establishes OPG's "at risk" equity which supports separation of the SPV from the Province
- Subordinated debt provides flexibility to the financing structure and additional credit support to external debt holders
- Subordinated debt sourced from OPG (mainly funded by equity injection from the Province) minimizes impact on OPG credit metrics reducing risk of an OPG rating downgrade that could result in the SPV being consolidated directly with the Province as the SPV would be considered an arm of the Province.

Recent transactions used as precedents are:

Duke Energy Florida Project Finance LLC

5 series of bonds totalling USD$1.3B

Credit rating AAA

August 2016
Amount issued USD$0.5B
Weighted average life of 7 years and weighted average yield of 2.0%

Credit rating AAA

Cumulative outstanding (including previous issuances): USD$4.2B

D. External Assessment

Shakerhill Partners, an external advisor, identified the following items in an assessment of the structure and financeability of the structure:

- The structure is financeable however there are a number of significant risks to the structure:
  - Canadian and Ontario law does not provide the same protection to property right as exists in the US federal and state constitutions to limit the ability of governments to adversely impair contracts to the detriment of the holder;
  - Legislation could mitigate some of the risks – deferred recovery asset to be "uncapped", regular semi-annual true up to ensure recovery, Province provides sufficient committed liquidity to the IESO so that temporary shortfall in recovery does not affect payments to SPV, term of the deferral recovery substantially exceeds the longest maturity of debt of the SPV and that true-up mechanism take account of potential for currency, interest rate and duration mis-match between the debt of the SPV and the recovery mechanism;
  - Size of the program may be too large for Canadian securitization market requiring access to the US securitization market;
- Final maturity of debt should not exceed 30 years from inception of the program
- True up mechanism should be designed such that the forecast of recovery is less than 10% of the customer bill under downside scenarios to limit growth of the deferral balance as a higher portion of the customer bill increases the political risk to debt holders which could result in a lower credit rating and potential impact on financeability
- Securitized debt products are specialized and price at a premium to other fixed rate instruments however a successful program supported by a strong credit rating this premium could shrink over time to a minor spread over Provincial debt
- OPG's credit rating should be maintained provided sufficient equity is injected to maintain credit metrics
- While the structure is not expected to impact the Province there are risks that the program could negatively impact the rating agencies view of the Province's financial management.

E. Risk Summary

i. Consolidation

- Elements of the proposed structure were established to support consolidation of the SPV into OPG. These items may not be sufficient to establish OPG as risk owner of the SPV and the SPV may need to be consolidated directly with the Province.

ii. Financeability

- The legislation establishing the structure and the property right for recovering the financing and associated costs may not be adequate for financing purposes resulting in more expensive financing or an inability to obtain the required external financing.

iii. Cost of Financing

- Future governments may enact legislation that changes the right of the SPV to recover amounts from customers.
- The right to recover amounts from future customers must be irrevocable and subject to full recovery from the government in the event that future governments reduce or eliminate the recovery. A legal structure that is weaker than the precedent US transactions increases the risk to debt holders and the cost of financing.
- Interest rates on bonds in the securitization market are higher than equivalent rated bonds. Rate for a AAA securitization credit is about 50 bps higher than GOC (rated AAA) for a 5 year term. This difference is attributable to the specialized structure of the bond, smaller investor pool for this bond, smaller size of the market and higher perceived risks of the bond.
- Any regulator involvement must not be seen to modify any terms of debt issued or the property right securing the debt as this would increase risk to debt holders.

- It may not be possible to issue debt to match the terms of the deferred asset so shorter term debt would be used which raises risk to re-finance the maturing debt as the market may no longer be interested in this product. As well, underlying reference interest rates may be higher and the market may require a higher spread to invest in this product.
- With the GA Recovery Right program continuing for 10 years, debt issued over this period is subject to changes in both the underlying reference interest rates and appetite of the market for this product.

iv. OPG Credit Rating

- Minimizing the impact of significant additional debt on OPG's credit rating is dependent on higher EBITDA arising from earned income on the GA Recovery Right in excess of external debt. Ability of the SPV to record revenue reflecting the growth in asset value.
- Potential OPG credit rating downgrade if legislative structure is not adequate to support long term recoverability, inability to record revenue from growth in asset value or agencies view equity injection as debt.
- OPG credit rating downgrade could result in loss of GBE status or result in SPV being consolidated directly with the Province.

LEGISLATIVE REQUIREMENTS TO ALLOW DEFERRAL OF GLOBAL ADJUSTMENT AMOUNTS TO BE FINANCEABLE

The IESO currently has a right to collect GA monthly from ratepayers through provisions in the *Electricity Act, 1998*. It is proposed that collection of a certain portion of the monthly GA be deferred for collection in the future, and that the right to recover the deferred GA from ratepayers be used as a basis for structured financing/securitization.

The current proposal is for a trust to be created as a financing vehicle (the "**Trust**") in connection the deferred GA. The Trust will finance the deferral of the GA by purchasing the right to recover such deferred GA from the IESO for the principal amount of the GA being deferred. For example, if the amount of GA that is being deferred is $200 million in a given month, the Trust will purchase from the IESO the right to future recovery of the deferred GA and the associated financing costs (including interest and transaction costs) for $200 million in cash.

The Trust is expected to finance these purchases from the IESO through a combination of senior secured financing raised in the capital markets and subordinated financing from OPG (the funding for which will mostly be from equity injections from the OEFC/Province).

For accounting purposes, OPG will need to have the ability to direct the activities of the Trust, through a services agreement and/or through the Trust's constating document.

Based on securitized financing raised by utilities in the US (backed by utility cost recovery orders) and the current regulatory framework in Ontario, the legislation in Ontario would need to be amended to provide the following, at a minimum:

1. The IESO will be empowered to create an asset (the "**Regulatory Asset**") consisting of all right, title and interest in and to:

   (a) right to recover from and bill Ontario electricity ratepayers for:

   (i) the principal amount of GA that is being deferred for collection;
   (ii) all interest and other financing costs incurred in respect of the deferral of the GA (whether through senior debt raised in the public markets or subordinated debt raised from OPG or others); and
   (iii) (subject to the comments in paragraph 5 below in respect of OPG's internal administrative costs only) all fees, expenses and other administrative costs associated with such financing, including up-front and ongoing financing costs and any indemnity payments;

all on such repayment/amortization schedule as agreed by the IESO and any purchaser of such right (or pursuant to a pre-defined schedule/formula in the legislation that covers all of the purchaser's principal, interest and ongoing financing costs on a monthly basis); and

(b) all revenues, collections, claims, rights to payments, money or proceeds arising from the rights and interests set out in paragraph (a) above, regardless of whether such revenues, collections, claims, rights to payments, money or proceeds are imposed, billed, received, collected or maintained together with or commingled with other revenues, collections, rights to payments, payments, money or proceeds.

2. The IESO may dispose of the Regulatory Assets created from time to time on such terms as the IESO determines in accordance with the terms of directives to be issued to the IESO from time to time by the Minister, provided that any such disposition shall be a true sale and absolute transfer of the IESO's right, title and interest in and to a Regulatory Asset to the purchaser of the Regulatory Asset.

3. The Regulatory Assets will not be subject to any set-off, counterclaim or other defence by the IESO or any successor or affiliated entity thereof.

4. The legislation will need to recognize the Regulatory Assets as amounts that may be recovered by the IESO (e.g. it could be designated as a "GA Deferral" and would be included in the amounts collectible by the IESO through the GA collection mechanism, and would include interest and financing costs).

5. The purchaser of the Regulatory Asset will have the right to require the IESO (or any successor) to collect the principal amount of GA deferred, together with interest, financing and administration costs, on the agreed repayment/amortization schedule. **[NTD: In the LIPA securitization rate order, if the entity that is authorized to collect rates to service the bonds ends up defaulting, there is the ability to request a court to order "sequestration" and payments of amounts owing to the owner of the Regulatory Asset. Consider whether to include a similar right here. Alternatively, consider whether a security interest over the moneys collected by the IESO could be provided to the purchaser.]**

OEB would be provided with oversight over the internal administrative costs collected by the Financing Trust. This could be accomplished by (a) providing the purchaser of the Regulatory Asset with the right to require

the IESO or a successor to collect only the principal amount of GA together with interest and financing costs and third party fees and expenses, and (b) requiring the IESO to collect amounts through the global adjustment and make payments to the purchaser of the Regulatory Asset with respect to the internal administrative costs incurred by the purchaser in connection with the purchase and management of the Regulatory Asset and the Financing Trust, in accordance with the order of the OEB then in effect. Under this mechanism, the OEB would be required to review the purchaser's internal administrative costs through a streamlined process and issue such orders in accordance with rules to be prescribed under a new regulation under the OEB Act, which would clearly limit the OEB's scope of review and could establish the basis for the purchaser to receive an appropriate fee for its services.

6. In the event that any action is taken or permitted by the Province or any regulatory authority that limits, alters, or impairs the value of a Regulatory Asset or reduces the ability of the IESO or the purchaser of the Regulatory Asset to collect or recover the costs associated therewith, the owner of the Regulatory Asset and the holders of any bonds or other securities issued to finance the purchase of the Regulatory Asset, will have a right of action against the Province for any damages suffered as a result of such amendment.

Attachment 2

STATUTORY AMENDMENTS

The following is preliminary and is based on our current understanding of the proposed structure and objectives. For example, we have assumed that the structure will not entail the insertion of a new Holdco between OPG and the Province. As these aspects are refined, some of the suggested amendments described below may not be needed and other aspects that we are not aware of may need to be considered. Accordingly, these suggested amendments are provided for discussion purposes and are subject to change. We would welcome the opportunity to work with OPG and the Ministry on refining the scope and substance of required legislative and regulatory amendments.

A. Amendments to Implement Structure

Certain *Electricity Act, 1998* amendments would be needed to implement the anticipated structure (which we understand, as noted above, would not include a Holdco), as follows:

- **Section 53.1(1):** Amend to permit owning and operating generation facilities through subsidiaries (not only directly through OPG). In addition, amend to permit OPG to administer, manage, loan moneys to and have a beneficial interest in, if applicable, Financing Trust.

- **Section 53.2:** Amend to permit the Minister to acquire, hold, dispose of or otherwise deal with securities or debt obligations of, or any other interest in, OPG or any subsidiaries. This is to accommodate possible variations to the financing structure that may be desirable over time.

- **Section 53.■ (new):** New statutory section to permit the Minister to enter into arrangements relating to an exercise of powers under 53.2.

- **Section 53.■ (new):** New statutory section providing that creditors of Financing Trust have no recourse to the assets of OPG or any of its subsidiaries (other than Financing Trust, if applicable). In addition, consideration should be given as to whether the Act should be amended so that the Financing Trust cannot be wound up or liquidated.

B. Miscellaneous Corporate Items to Address

- **OPG Articles:** Amend the OPG's articles to remove the private company restrictions.

- **MOA with Province:** Consider whether any amendments to OPG's MOA with the Province are required to contemplate the Financing Trust.

C. Amendments Under Electricity Act to Implement GA Smoothing

Based on our understanding that the global adjustment smoothing mechanism is intended to benefit residential and small business customers only and that the Minister will be responsible for determining how much global adjustment smoothing is to be applied in a given month, if any, amendments to the *Electricity Act, 1998* and Ontario Regulation 429/04 (Adjustments Under Section 25.33 of the Act) would be needed to implement the mechanism, as follows:

(i) Electricity Act:

- **Section ■ (New):** Establish a new power for the Minister to make directives to the IESO in relation to the global adjustment smoothing mechanism and, particularly, for purposes of establishing global adjustment smoothing amounts from time to time (expected to be monthly). To the extent possible, the directive power should be drafted so as to limit the ability for a future Minister to require the IESO to do anything that would materially and adversely affect the Financing Trust or its lenders. **[NTD: While our understanding is that the Minister would direct this, we note from other materials we have seen that OPG may instead be recommending a formula approach. It is not clear what the formula would look like, where it would be set out or how it would be applied and by whom]**

- **Paragraph 25.33(1):** This section says that IESO shall make adjustments in accordance with the regulations to ensure that, over time, payments by prescribed classes of market participants reflect amounts paid to OPG, OEFC and distributors, as well as amounts paid to entities with whom IESO has a procurement contract. Add new subsection (c) so as to require IESO to ensure that, over time, payments by prescribed classes of market participants also reflect amounts paid to Financing Trust. **[NTD: Not certain this is needed if only to benefit residential and small business consumers, who are not market participants. May be needed in reference to payments from distributors and retailers]**

- **Paragraph 25.33(2):** This section says that distributors and retailers shall make adjustments in accordance with the regulations to ensure that, over time, payments by prescribed classes of consumers reflect amounts paid to OPG, OEFC and distributors, as well as amounts paid to entities with whom IESO has a procurement contract. Add new subsection (c) so as to require distributors and retailers to ensure that, over time, payments by prescribed classes of consumers also reflect amounts paid to Financing Trust.

- **Note**: As described below, the regulation will need to include new requirements for the IESO to record the global adjustment smoothing amounts in one or more variance accounts and to use those amounts to offset amounts otherwise recorded in the variance accounts under Section 25.33(3) of the Act. For context, we note:

    - Section 25.33(3) says that adjustments under (1) or (2) relating to electricity consumed by consumers whose rates are determined by

the OEB under s. 79.16 of the OEB Act (i.e. RPP Customers) shall instead be made in accordance with the regulations to one or more variance accounts established and maintained by the IESO.

- Section 25.33(4) says IESO, distributors and retailers shall make and receive such payments, set-offs and credits as may be required or permitted by the regulations with respect to consumers described in (3), i.e. RPP Customers.

- Section 25.33(5) says that IESO shall establish and maintain such variance accounts as may be needed to record all amounts payable or receivable by it under 25.33.

(ii) O. Reg. 429/04 (Adjustments Under Section 25.33 of the Act):

- **Section 1(1):** Consider adding definitions for "Financing Trust" and "global adjustment smoothing amount" or such other terms as may be preferred.

- **Section 1.2(1) (New):** Add section providing that, for the purposes of this Regulation, the global adjustment smoothing amount for a month is the amount determined by the IESO in accordance with a directive from the Minister under section ■ of the Electricity Act in respect of the month. **[NTD: See above note re use of Minister directives]**

- **Section 1.2(2) (New):** Consider adding a section providing that the IESO shall publish the global adjustment smoothing amount for a month by no later than the 10th business day of the following month [to align with general publication requirements for global adjustment under s. 1.1(2)].

- **Section 10(1):** Amend formula for calculating Class B GA rate by subtracting the global adjustment smoothing amount for a month from "M", which is the total amount of the global adjustment for the month. The global adjustment smoothing amount could be designated as "X", such that the formula would be (M-X-N)/(P-Q). Define "X" as the global adjustment smoothing amount for the month as determined by the IESO in accordance with the Minister's directive under section ■ of the Electricity Act for the month. **[NTD: See above note re use of Minister directives]**

- **Section 10.1 (New):** Add new section to deal with adjustments under subsection 25.33(3) of the Act, i.e. in respect of RPP consumers. This section should require the IESO to establish, within the variance account(s) it maintains pursuant to subsection 25.33(3) of the Act, one or more subaccounts in which it shall record the global adjustment smoothing amounts applicable to the classes of consumers described in subsection 25.33(3) of the Act. This section must also specify that the IESO shall apply the amounts recorded in the subaccounts against the balances in the variance accounts for purposes of section 79.16(3) of the OEB Act.

- **Note:** This is a key aspect because, when the OEB determines RPP rates, it must take into account the balances in the variance accounts established by the IESO under s. 25.33 of the Electricity Act and make adjustments with a view to eliminating the balances within 12 months. This proposed new section 10.1 causes the IESO to reduce (in the near term) the variance account balances by the global adjustment smoothing amounts, as provided by Financing Trust, thereby enabling the OEB to determine RPP rates that, despite being lower for RPP consumers in the near term, still eliminate the relevant variance account balances within 12 months.

- **Paragraph 11(2)2.ii:** Amend the formula for calculating the allocation of global adjustment for a month to a licensed distributor that is a market participant by subtracting the global adjustment smoothing amount for a month from "M", which has the same meaning as under section 10(1). The global adjustment smoothing amount could be designated as "X", such that the formula would be [(M-X-N) x (R+S-T)]/(P-Q). Define "X" as suggested under section 10(1).

- **Paragraph 11(2)3:** Amend the formula for calculating the allocation of global adjustment for a month to each Class B market participant by subtracting the global adjustment smoothing amount for a month from "M", which has the same meaning as under section 10(1). The global adjustment smoothing amount could be designated as "X", such that the formula would be [(M-X-N) x U]/(P-Q). Define "X" as suggested under section 10(1).

- **Paragraph 16(7)4:** Consider amending the description of "Global Adjustment" that is required to be included on certain invoices so as to inform consumers that their portion of the global adjustment for the month (i) may have been reduced by the application of a global adjustment smoothing amount from the Financing Trust, or (ii) may include amounts payable to the Financing Trust in respect of global adjustment smoothing amounts previously applied.

- **Section 20(1):** This section establishes an obligation for the Ontario Electricity Financial Corporation and every licensed distributor that is a market participant to give the IESO such information as the IESO may require for the purposes of the Regulation in the form specified by the IESO and before the expiry of the period specified by the IESO. Consider amending to extend this obligation to the Financing Trust.

- **Section 20(6):** This section provides that on request by the OEB, the IESO, a licensed distributor, an embedded generator, a retailer or the OEFC shall give the OEB such information relating to this Regulation as the OEB may require, in the form and within the period specified by the OEB. Consider amending to extend this obligation to the Financing Trust.

D. Amendments Under OEB Act to Implement Cost Recovery for Financing Trust

Amendments to the *Ontario Energy Board Act*, including amendments to O. Reg. 95/05 (Classes of Consumers and Determination of Rates) and the introduction of a new regulation, would be needed to implement a cost recovery process for the Financing Trust in relation to the global adjustment smoothing mechanism, potentially with limited OEB oversight, as follows:

(i) Ontario Energy Board Act:

- **Section 78(3.3):** This provision establishes an obligation for the OEB, when determining rates for the retailing of electricity, to take into account balances in variance accounts established under section 25.33 of the Electricity Act and to make adjustments "with a view to eliminating those balances within 12 months or such shorter time periods as the Minister may direct." Consider whether any amendments are needed, and confirm this works with the framework being proposed.

- **Section 78.7 (New):** We understand that the Province may want the OEB to have an oversight role. One possible approach would be to establish a new statutory section establishing that the IESO shall make payments to the Financing Trust with respect to the internal administrative costs incurred by the Financing Trust in connection with the purchase and management of the Regulatory Asset and the Financing Trust. Such payments by the IESO would need to be made in accordance with the order of the OEB then in effect, which orders shall be made by the OEB in accordance with rules prescribed under a new regulation.

    - The new regulation would need to be clear that the OEB does not have jurisdiction to consider the principal amount or any interest, financing costs, third party fees or expenses. Rather, OEB's role would be limited to considering the internal administrative costs of the Financing Trust and ensuring the Financing Trust receives an appropriate fee for its services, all of which would be recovered by the Financing Trust from the IESO, which would collect those amounts in the global adjustment. Note that, if this approach is accepted, the IESO and distributors and retailers would need the authority to collect such amounts as part of the GA and IESO would need the authority to pay such amounts to the Financing Trust. As such, additional amendments would be needed under O. Reg. 429/04.

- **Note:** Section 79.16 of the OEB Act does not require changes, but the significance of this provision should be understood.

    - Section 79.16 gives the OEB responsibility for determining electricity commodity prices for eligible consumers. Eligibility is determined under Reg. 95/05 (Classes of Consumers and Determination of Rates), which is also known as the Regulated Price Plan (RPP) Regulation.
    - Section 4(2) of the RPP Regulation defines RPP-eligible consumers as low volume consumers (i.e. those who annually use less than 150,000 kWh

or such other amount as prescribed), consumers with demand of 50 kW or less, residential consumers that have accounts with distributors, consumers who annually use 150,000 to 250,000 kW of electricity, and consumers who have accounts with distributors if in the farming business.

- Paragraph 6(1)3 of the RPP Regulation provides that "In determining the rates (for RPP-eligible consumers), the Board shall forecast the cost of electricity to be consumed by the consumers to whom the rates apply, taking into consideration adjustments required under section 25.33 of the *Electricity Act, 1998* and shall ensure that the rates reflect those costs."
- The Ontario Energy Board has developed a Regulated Price Plan Manual (revised February 16, 2016) to describe the processes and methodologies it uses for determining electricity commodity prices that are charged to RPP consumers pursuant to Section 79.16 of the OEB Act and paragraph 6(1)3 of the RPP Regulation.

(ii) O. Reg. 95/05 (Classes of Consumers and Determination of Rates)

- **Paragraph 6(1)3:** Amend so as to require the Board, when forecasting the cost of electricity to be consumed by the consumers to whom the rates apply, to take into consideration not only the adjustments required under section 25.33 of the Electricity Act but also the application or prior application of global adjustment smoothing amounts determined by the IESO in accordance with Minister directives under section ■ of the Electricity Act, and to ensure that the RPP rates reflect those amounts. **[NTD: See above note re use of Minister directives]**

(iii) New Regulation (Payments to the Financing Trust)

- If the OEB is to be given the role of reviewing and approving the recovery of OPG's internal administrative costs for the Financing Trust under the potential section 78.7 (see above), then this regulation should describe the process and criteria pursuant through which the OEB would determine the amounts that the IESO would be required to collect through the global adjustment, in accordance with section 25.33 of the Electricity Act, and pay to the Financing Trust in respect of the provision of global adjustment smoothing amounts. This part of the regulation should establish:

    - any reporting requirements from the Financing Trust and/or the IESO to the OEB in connection with the global adjustment smoothing mechanism;
    - the frequency of the OEB making determinations under this part of the regulation;
    - the process through which the OEB shall make these determinations, which should be a streamlined administrative process rather than a public hearing process or, if a hearing is needed, then the scope of the proceeding should be clearly and narrowly constrained so as to deter intervenor involvement, lengthy proceedings and reduce/eliminate risk to recovery by Financing Trust;

- the basis for the OEB's determinations as to the payments that shall be made to the Financing Trust, which should specify that:
  - the Financing Trust shall recover its prudently incurred internal administrative costs on a forecast basis each year;
  - the Financing Trust shall receive an appropriate fee each year (with some guidance as to what would be appropriate); and
  - the approved payment amounts shall be collected by the IESO through the global adjustment and paid to the Financing Trust in accordance with the order of the OEB then in effect. Note that O. Reg. 429/04 would likely need amendments to permit IESO (and distributors and retailers) to collect these amounts through the global adjustment.

Hi Malle

Carlos is saying that there will be no financial compensation for the advisor. The benefit to it, is that it will gain insight into how the new structure works and experience with the spv which may be beneficial in obtaining work from the spv in the future. They won't provide for any compensation in the NDA itself.

Hi Kelly,

I have some precedent non-disclosure agreements that I have drafted in the past, but we need some more information.

Here are some questions that will assist:

Is the information being given to all 3 potential advisors or just the one that will be hired?
What type of information is being given? Need a description.
For what purpose is the advisor being given this information? What use will the advisor make of the information?
What is the advisor being hired to do? Pricing/financing issues about what? Need a description of the project or services Can the advisor talk to anyone about the information or the project? i.e. other ministry staff, ministry of energy, OFA, OEFC?
What about internal disclosure within the advisor's company?

Who are the parties to the agreement? Is it the Province that is hiring the advisor and giving them the information?
What is the consideration for the advisor's agreement for keeping it confidential? i.e. the advisor is being paid to give advice.

I think if we can get some more information along these lines it would be helpful. Also, if the contracting party is the OFA or OEFC then I will need to speak to Sarah Neville.

Thanks.

Subject: RE: Message from "14-PRT06"

Hi Kelly,

I have read it over now. Should we have a short call about this. This is a significant project and does the Province/OFA/OEFC plan to hire a financial advisor to advise on aspects of it. Quite possibly there will be more than one advisory contract here as there seem to be capital markets, accounting, etc. issues involved here. Also, looking at the background information, I don't' know that it is necessarily clear who is going to the borrowing whether it's the Province or OEFC and which entity will provide the equity injection (Minister of Energy holds the shares in OPG). So we can't do a non-disclosure agreement in isolation. What information are we giving to the financial advisor and what are we asking them to do?

I think we need more context here and also if it is OEFC hiring the financial advisor, we should be speaking to Sarah Neville too. This is a project that Ronald Kwan's group is involved in.

In addition to the "non-disclosure" aspect, will there be a contract for OEFC to hire the advisor, ie. What the advisor will do, payment, etc. Sorry haven't read it yet.

Ok - looking at the info on page 2 - looks like the OEFC will be looking to "hire" the advisor regarding pricing/ financing the amounts shown in the paper. This advisor will be a member of the current bond syndicate. Mike wants a non - disclosure for this advisor. Given the structure and all the items mentioned in the paper, I would say it should be pretty broad.

Hi Toby

I made a few small additions/ changes to the attached draft based on what I learned from Carlos. We are told that the OFA will sign it (Mike). It is fairly straightforward. Page 2 of the OPG white paper outlines a structure, but the ultimate draft of the legislation will impact it and advice will be needed once what is in the legislation is clearer. Advice needed is regarding financing alternatives/ structure for the spv. In addition, the banks/ advisor have their own Chinese Walls in place to deal with potential conflicts of interest.

Please confirm if the changes are ok.

Thanks,

Kelly

Please find attached a draft of a Non-Disclosure Agreement respecting obtaining advice from a financial adviser with respect to the Ontario Fair Hydro Plan.

Please note that this draft is preliminary, and we have a number of questions and concerns that are set out in the draft. We would like to point out that there is no agreement setting out the scope or nature of the services and the basis on which those services would be provided including the standard that is required from the adviser as well as conflict of interest requirements and other issues, and that the NDA does not replace such an agreement.

We have also attached a scan of an agreement that the OFA negotiated in 2004 to hire an adviser for a project relating to electricity finance as an example of such an agreement and the types of provisions that could be considered for inclusion in such an agreement.

Confidential and Privileged Legal Advice – April 1, 2017 – MOF LSB
Note regarding this NDA and the retention of an adviser:

We have a number of questions relating to this NDA, and issues that should be considered in retaining an adviser:

- We have not been able to confirm what the scope of the advice being sought is. If the advice is restricted to advising on market timing and potential demand for certain securities, this is more limited than broader advice relating to structuring the transaction;
- We think it should be clear who the adviser is working for, and how the advice will be presented to the Province. If the advice is going to be to the Ministry of Energy or the Minister of Finance, will be given through the OFA?;
- Are there potential conflicts of interest between the adviser's role as an adviser and as a potential underwriter or other business of the adviser?

In addition, it should be considered whether it is appropriate to have an adviser without an agreement for the services that the adviser would be providing. The NDA protects the Province with respect to the disclosure of the information to third parties, but it does not set out the role, responsibilities or other matters relating to conflicts or other duties of the adviser. Terms of such an agreement that may be considered in such a context include:

- Scope of engagement;
- Performance Warranty – setting out the standard to which the adviser is to carry out the work and provide advice;
- Copyright and IP provisions;
- Conflict of interest provisions – setting out the primary duties of the adviser and how they must conduct themselves with respect to any potential conflicts;
- Indemnities – setting out the adviser's indemnities to the OFA for certain risks.

Hi Opal and Sarah
Attached is a draft of the NDA. I discussed the 3 bullet points with Carlos and found the following:

- The advice is regarding the financing structure and alternatives for the spv given the legislation that eventually is drafted. On page 2 of the OPG White Paper, it indicates that all of the percentages shown are "indicative and will be highly dependent on the legislation"… this gives rise to the need for an advisor once the legislation is known.
- Carlos says the OFA will sign the NDA. Sarah - Do you want to send it to the appropriate lawyer in OFA legal?
- The banks/ dealers have the appropriate Chinese Walls in place to deal with conflicts of interest.

I agree with Sarah that the NDA itself should suffice in this instance.

Kelly

Hi Opal,
Kelly is looking into the first 3 bullet points as the relate to the NDA.
The attached advisory agreement seems to be overkill for the what I understand to be a very narrow scope of advice being given. It seems to me that as long as we state the type of advice being provided in the NDA, with *possibly* a conflict of interest rep in the NDA, I think that would cover what is needed.

Hi Opal and Sarah
Attached is a draft of the NDA. I discussed the 3 bullet points with Carlos and found the following:

- The advice is regarding the financing structure and alternatives for the spv given the legislation that eventually is drafted. On page 2 of the OPG White Paper, it indicates that all of the percentages shown are "indicative and will be highly dependent on the legislation"… this gives rise to the need for an advisor once the legislation is known.
- Carlos says the OFA will sign the NDA. Sarah - Do you want to send it to the appropriate lawyer in OFA legal?
- The banks/ dealers have the appropriate Chinese Walls in place to deal with conflicts of interest.

I agree with Sarah that the NDA itself should suffice in this instance.
Regards,
Kelly

Hi Opal,
Kelly is looking into the first 3 bullet points as the relate to the NDA.
The attached advisory agreement seems to be overkill for the what I understand to be a very narrow scope of advice being given. It seems to me that as long as we state the type of advice being provided in the NDA, with *possibly* a conflict of interest rep in the NDA, I think that would cover what is needed.

Please note that this draft is preliminary, and we have a number of questions and concerns that are set out in the draft. We would like to point out that there is no agreement setting out the scope or nature of the services and the basis on which those services would be provided including the standard that is required from the adviser as well as conflict of interest requirements and other issues, and that the NDA does not replace such an agreement.

We have also attached a scan of an agreement that the OFA negotiated in 2004 to hire an adviser for a project relating to electricity finance as an example of such an agreement and the types of provisions that could be considered for inclusion in such an agreement.

Confidential and Privileged Legal Advice – April 1, 2017 – MOF LSB
Note regarding this NDA and the retention of an adviser:

We have a number of questions relating to this NDA, and issues that should be considered in retaining an adviser:

- We have not been able to confirm what the scope of the advice being sought is. If the advice is restricted to advising on market timing and potential demand for certain securities, this is more limited than broader advice relating to structuring the transaction;
- We think it should be clear who the adviser is working for, and how the advice will be presented to the Province. If the advice is going to be to the Ministry of Energy or the Minister of Finance, will be given through the OFA?;
- Are there potential conflicts of interest between the adviser's role as an adviser and as a potential underwriter or other business of the adviser?

In addition, it should be considered whether it is appropriate to have an adviser without an agreement for the services that the adviser would be providing. The NDA protects the Province with respect to the disclosure of the information to third parties, but it does not set out the role, responsibilities or other matters relating to conflicts or other duties of the adviser. Terms of such an agreement that may be considered in such a context include:

- Scope of engagement;
- Performance Warranty – setting out the standard to which the adviser is to carry out the work and provide advice;
- Copyright and IP provisions;
- Conflict of interest provisions – setting out the primary duties of the adviser and how they must conduct themselves with respect to any potential conflicts;
- Indemnities – setting out the adviser's indemnities to the OFA for certain risks.

Should the Supplier require the substitution or replacement of any of the individuals named in Schedule 1 (Proposal), it is understood and agreed that any proposed replacement must possess similar or greater qualifications than the individual named in Schedule 1 (Proposal). The Supplier shall not claim fees for any replacement individual greater than the Rates established under Schedule 1 (Proposal). (e) to ensure the security and integrity of Personal Information and keep it in a physically secure and separate location safe from loss, alteration, destruction or intermingling with other records and databases and to implement, use and maintain the most appropriate products, tools, measures and procedures to do so;

(f) to restrict access to Personal Information to those of its employees who have a need to know it and who have been specifically authorized to have such access for the purpose of providing the Deliverables;

(g) to implement other specific security measures that in the reasonable opinion of OFA would improve the adequacy and effectiveness of the Supplier's measures to ensure the security and integrity of Personal Information and Records generally; and

(h) that any confidential information supplied to OFA or the Province may be disclosed by OFA or the Province where it is obligated to do so under FIPPA, by an order of a court or tribunal or pursuant to a legal proceeding.

6.04 **Presumption Governing Ownership**

The presumption governing the Agreement shall be that OFA on behalf of the Province shall be the sole owner of any Intellectual Property in any form contained in any of the Deliverables. If the Supplier's Intellectual Property forms any part of the Deliverables, the Supplier shall notify OFA of such prior to the delivery of the particular Deliverable containing any such Supplier Intellectual Property. For those parts of the Deliverables that are Supplier Intellectual Property, the Supplier grants to OFA and the Province, a perpetual, world-wide, non-exclusive, irrevocable, transferable, royalty-free, fully paid-up right and licence: (a) to use, execute, display, distribute, perform and reproduce, in any form, copies of those Deliverables and to practice and have practised any process or method (or both) associated with such Deliverables; and (b) to use, execute, make, have made, have used, display, distribute, perform, reproduce and prepare, in any form, Derivative Work based on those Deliverables and to practise and have practised any process or method (or both) associated with such Derivative Work; and (c) authorize other Persons including agents, contractors or sub-contractors to do any of the former on behalf of OFA or the Province, provided that the OFA and the Province shall be entitled to use and authorize other Persons to use the Supplier Intellectual Property for the purposes of the Province only and not for resale or other commercial exploitation thereof.

6.06 **No Restrictive Material in Deliverables**

The Supplier waives, and shall not incorporate into any Deliverables anything that would restrict the right of OFA or the Province to modify, further develop or otherwise use the Deliverables in any way that OFA or the Province deems necessary, or that would prevent OFA or the Province from entering into any contract with any contractor other than the Supplier for the modification, further development of or other use of the Deliverables. However, to the extent that any of the Deliverables constitutes any professional opinion, judgement or financial advice of the Supplier, the preceding sentence will not restrict or prevent the Supplier from addressing such opinions, judgements and financial advice solely to the OFA and the Province or from including customary assumptions, qualifications and limitations respecting reliance by parties other than the Indemnified Parties in such Deliverables.

6.07 **Supplier Representation and Warranty Regarding Third-Party Intellectual Property**

The Supplier represents and warrants that the provision of the Deliverables shall not infringe or induce the infringement of any Third-Party Intellectual Property rights. 6.08 **Moral Rights**

The Supplier shall obtain waivers of all rights of integrity and any other moral rights in relation to the Deliverables from its employees, volunteers, agents and subcontractors and from any other party in the position to assert such rights in relation to any of the Deliverables, which waivers may be invoked without restriction by any person authorized by OFA or the Province to use the Deliverables.

The Supplier shall assist OFA in preparing any Canadian copyright registration that OFA considers appropriate. The Supplier will obtain or execute any other document reasonably required by OFA to protect the Intellectual Property of OFA.

6.11 **OFA May Prescribe Further Compliance**
OFA reserves the right to prescribe the specific manner in which the Supplier shall perform its obligations relating to this Article.

6.12 The provisions of this Article shall survive any termination or expiry of the Agreement.

ARTICLE 7 – CONFLICT OF INTEREST

7.01 The Supplier acknowledges it owes the OFA and the Province of Ontario a duty to promote the interests of OFA and the Province of Ontario in carrying out the Services. The overriding obligation the Supplier is to avoid actual or perceived conflicts between its private interests and those of OFA and the Province (including OFA and OEFC).

7.02 The Supplier shall not, in its provision of the Deliverables, engage in any activity, business or undertaking, whether as Supplier or otherwise, that could create a conflict of interest or potential conflict of interest. Included in the prohibitions on the Supplier are the following:

(b) directly or indirectly benefiting from any activity related to this Agreement otherwise than as specifically contemplated by this Agreement;

(c) circumstances where the supplier's other commitments, relationships or financial interests (i) could or could be seen to exercise an improper influence over the objective, unbiased and impartial exercise of its independent judgement; or (ii) could or could be seen to compromise, impair or be incompatible with the effective performance of its contractual obligations;

7.03 If required by the OFA for the purpose of complying with section 7.02 , the Supplier agrees to:

(b) file and cause its partners, directors, officers or employees who are providing the Services under this Agreement to file with the OFA declarations disclosing their interests in a manner equivalent to that set out in Section 13 of O.Reg 435/97 and their personal relationships (if any) with the firms and named individuals employed by or affiliated with OPG or any OEB licensed wholesale or retail electricity market participant in Ontario; and

(c) cause its partners, directors, officers or employees who are providing the Deliverables under this Agreement to execute confidentiality undertakings and provide copies to the OFA.

Upon the occurrence of any change in circumstance that renders any certificate or information filed or provided by the Supplier either incorrect or incomplete, the Supplier shall forthwith notify the OFA as set out in this Article of the change in circumstance in detail.

7.04 If any activities or prior activities of the Supplier could constitute an actual or potential conflict of interest in respect of this Agreement, the Supplier shall without delay make full, true and plain disclosure to the OFA of all relevant information about the particular activity, business or undertaking in question to the satisfaction of the OFA or its agent and abide by the decision of the OFA.

7.05 Upon any disclosure made by a Supplier or any other person in relation to the activities of the Supplier, of any activity, business or undertaking that could create a conflict of interest in respect of this Agreement, the OFA may, in its sole discretion:

(a) require that the Supplier:

(b) terminate the Agreement effective upon written notice to such effect, and/or

(c) take such other steps as may be necessary to address the conflict including the institution of proceedings.

Where the OFA recommends that the Supplier take certain action, or refrain from taking certain action, the Supplier shall abide by the recommendation. The Supplier's failure to do so may result in the termination of the Supplier's Agreement in the sole discretion of the OFA.

7.06 Information disclosed by the Supplier to the OFA as contemplated under section 7.05 is confidential and shall not be disclosed to any person, except:

(a) on the consent of all parties;

(d) in any proceedings between the OFA and the Supplier for breach of obligations under Article 7.

The Supplier acknowledges that OFA holds the benefit of the indemnity in trust for itself and the Province and that OFA can enforce such indemnity on behalf of the Province. The Supplier also acknowledges and agrees that the Province can enforce such indemnity directly against the Supplier.

8.02 **Supplier's Insurance**
The Supplier shall maintain errors & omissions liability insurance (external coverage and/or self-insured coverage), insuring liability for errors and omissions in the performance or failure to perform the services contemplated in this agreement, in the amount not less than $5,000,000 per claim and in the annual aggregate.

The Supplier shall, at its expense, to the extent requested by OFA or the Province participate in or conduct the defence of any Claim against any Indemnified Parties referred to in this Article and any negotiations for their settlement. OFA or the Province may elect to participate in or conduct the defence of any such Claim by notifying the Supplier in writing of such election without prejudice to any other rights or remedies of OFA or the Province under the Agreement, at law or in equity. Each party participating in the defence shall do so by actively participating with the other's counsel. No settlement shall be entered into by the Supplier unless it has obtained the prior written approval of OFA or the Province, as the case may be. If the Supplier is requested by OFA or the Province to participate in or conduct the defence of any such Claim, OFA or the Province agrees to co-operate with and assist the Supplier to the fullest extent possible in the Claim and any related settlement negotiations. If OFA or the Province conducts the defence of any such Claim, the Supplier agrees to co-operate with and assist OFA or the Province to the fullest extent possible in the Claim and any related settlement negotiations; provided that no settlement of such Claim shall be entered into by any Indemnified Party unless it has obtained the prior written consent of the Supplier, such consent not to be unreasonably withheld.

8.04 The provisions of this Article survive the termination or expiry of the Agreement.

ARTICLE 9 – TERMINATION, EXPIRY AND EXTENSION

9.01 **Immediate Termination of Agreement**
OFA may immediately terminate the Agreement upon giving notice to the Supplier where:

(a) the Supplier is adjudged bankrupt, is insolvent, makes a general assignment for the benefit of its creditors or a receiver, liquidator or similar official is appointed on account of the Supplier's insolvency;

(f) the Supplier subcontracts for the provision of part or all of the Deliverables or assigns the Agreement without first obtaining the written approval of OFA; or

(g) the Supplier's acts or omissions constitute a substantial failure of performance;

and the above rights of termination are in addition to all other rights of termination available at law, or events of termination by operation of law.

9.02 **Dispute Resolution by Rectification Notice**
Subject to section 9.01, where the Supplier fails to comply with any of its obligations under the Agreement, OFA may issue a rectification notice to the Supplier setting out the manner and timeframe for rectification. Within seven (7) Business Days of receipt of that notice the Supplier shall either (a) comply with that rectification notice; or (b) provide a rectification plan satisfactory to OFA. If the Supplier fails to either comply with that rectification notice or provide a satisfactory rectification plan, OFA may immediately terminate the Agreement. Where the Supplier has been given a prior rectification notice, the same subsequent type of non-compliance by the Supplier shall allow OFA to immediately terminate the Agreement.

9.03 **Termination on Notice**
OFA reserves the right to terminate the Agreement, without cause, upon five (5) days written notice with or without cause.

9.04 **Termination for Non-Appropriation**
If this Agreement extends into a Fiscal Year subsequent to its execution, continuation of the Agreement is conditional upon an appropriation of moneys by the Legislature of Ontario (the "Legislature") sufficient to satisfy payments due under the Agreement. In the event that such moneys are not available as a result of: (i) non-appropriation by the Legislature for the Fiscal Year in which payment becomes due; and (ii) the payment being neither charged nor chargeable to an appropriation of the Legislature for a previous Fiscal Year, the OFA may terminate the Agreement upon giving notice to the Supplier and such termination shall be effective on the date of the beginning of the first Fiscal Year for which funds have not been appropriated.

9.05 **Supplier's Obligations on Termination**
The Supplier shall, in addition to its other obligations under the Agreement and at law:

9.06 **Supplier's Payment Upon Termination**
OFA shall only be responsible for the payment of the Deliverables provided under the Agreement up to and including the effective date of any termination. Termination shall not relieve the Supplier of its warranties and other responsibilities relating to the Deliverables performed or money paid. In addition to its other rights of hold back or set off, OFA may hold back payment or set off against any payments owed if the Supplier fails to comply with its obligations on termination.

9.07 **Termination in Addition to Other Rights**
The express rights of termination in the Agreement are in addition to and shall in no way limit any rights or remedies of OFA under the Agreement, at law or in equity

9.08 **Expiry of Agreement**

Hi Opal,

Kelly is looking into the first 3 bullet points as the relate to the NDA.

The attached advisory agreement seems to be overkill for the what I understand to be a very narrow scope of advice being given. It seems to me that as long as we state the type of advice being provided in the NDA, with *possibly* a conflict of interest rep in the NDA, I think that would cover what is needed.

Subject: NDA Agreement

Please find attached a draft of a Non-Disclosure Agreement respecting obtaining advice from a financial adviser with respect to the Ontario Fair Hydro Plan.

Please note that this draft is preliminary, and we have a number of questions and concerns that are set out in the draft. We would like to point out that there is no agreement setting out the scope or nature of the services and the basis on which those services would be provided including the standard that is required from the adviser as well as conflict of interest requirements and other issues, and that the NDA does not replace such an agreement.

We have also attached a scan of an agreement that the OFA negotiated in 2004 to hire an adviser for a project relating to electricity finance as an example of such an agreement and the types of provisions that could be considered for inclusion in such an agreement.

Confidential and Privileged Legal Advice – April 1, 2017 – MOF LSB
Note regarding this NDA and the retention of an adviser:

We have a number of questions relating to this NDA, and issues that should be considered in retaining an adviser:

- We have not been able to confirm what the scope of the advice being sought is. If the advice is restricted to advising on market timing and potential demand for certain securities, this is more limited than broader advice relating to structuring the transaction;
- We think it should be clear who the adviser is working for, and how the advice will be presented to the Province. If the advice is going to be to the Ministry of Energy or the Minister of Finance, will be given through the OFA?;
- Are there potential conflicts of interest between the adviser's role as an adviser and as a potential underwriter or other business of the adviser?

In addition, it should be considered whether it is appropriate to have an adviser without an agreement for the services that the adviser would be providing. The NDA protects the Province with respect to the disclosure of the information to third parties, but it does not set out the role, responsibilities or other matters relating to conflicts or other duties of the adviser. Terms of such an agreement that may be considered in such a context include:

- Scope of engagement;
- Performance Warranty – setting out the standard to which the adviser is to carry out the work and provide advice;
- Copyright and IP provisions;
- Conflict of interest provisions – setting out the primary duties of the adviser and how they must conduct themselves with respect to any potential conflicts;
- Indemnities – setting out the adviser's indemnities to the OFA for certain risks.

However, to the extent that any of the Deliverables constitutes any professional opinion, judgement or financial advice of the Supplier, the preceding sentence will not restrict or prevent the Supplier from addressing such opinions, judgements and financial advice solely to the OFA and the Province or from including customary assumptions, qualifications and limitations respecting reliance by parties other than the Indemnified Parties in such Deliverables.

The Supplier shall assist OFA in preparing any Canadian copyright registration that OFA considers appropriate. The Supplier will obtain or execute any other document reasonably required by OFA to protect the Intellectual Property of OFA.

6.11 **OFA May Prescribe Further Compliance**

6.12 The provisions of this Article shall survive any termination or expiry of the Agreement.

ARTICLE 7 – CONFLICT OF INTEREST

7.01 The Supplier acknowledges it owes the OFA and the Province of Ontario a duty to promote the interests of OFA and the Province of Ontario in carrying out the Services. The overriding obligation the Supplier is to avoid actual or perceived conflicts between its private interests and those of OFA and the Province (including OFA and OEFC).

7.02 The Supplier shall not, in its provision of the Deliverables, engage in any activity, business or undertaking, whether as Supplier or otherwise, that could create a conflict of interest or potential conflict of interest. Included in the prohibitions on the Supplier are the following:

(a) engaging in any activity, business or undertaking that may conflict or be perceived as conflicting with the performance by the Supplier of the duties and obligations under this Agreement;

(b) directly or indirectly benefiting from any activity related to this Agreement otherwise than as specifically contemplated by this Agreement;

(c) circumstances where the supplier's other commitments, relationships or financial interests (i) could or could be seen to exercise an improper influence over the objective, unbiased and impartial exercise of its independent judgement; or (ii) could or could be seen to compromise, impair or be incompatible with the effective performance of its contractual obligations;

7.03 If required by the OFA for the purpose of complying with section 7.02 , the Supplier agrees to:

(a) file with the OFA a Plan to Prevent Conflict of Interest in respect of any particular actual or potential conflict of interest;

(b) file and cause its partners, directors, officers or employees who are providing the Services under this Agreement to file with the OFA declarations disclosing their interests in a manner equivalent to that set out in Section 13 of O.Reg 435/97 and their personal relationships (if any) with the firms and named individuals employed by or affiliated with OPG or any OEB licensed wholesale or retail electricity market participant in Ontario; and

(c) cause its partners, directors, officers or employees who are providing the Deliverables under this Agreement to execute confidentiality undertakings and provide copies to the OFA.

Upon the occurrence of any change in circumstance that renders any certificate or information filed or provided by the Supplier either incorrect or incomplete, the Supplier shall forthwith notify the OFA as set out in this Article of the change in circumstance in detail.

7.04 If any activities or prior activities of the Supplier could constitute an actual or potential conflict of interest in respect of this Agreement, the Supplier shall without delay make full, true and plain disclosure to the OFA of all relevant information about the particular activity, business or undertaking in question to the satisfaction of the OFA or its agent and abide by the decision of the OFA.

7.05 Upon any disclosure made by a Supplier or any other person in relation to the activities of the Supplier, of any activity, business or undertaking that could create a conflict of interest in respect of this Agreement, the OFA may, in its sole discretion:

(a) require that the Supplier:
  (i) deliver further and detailed particulars of the activity, business or undertaking;

(c) take such other steps as may be necessary to address the conflict including the institution of proceedings.

Where the OFA recommends that the Supplier take certain action, or refrain from taking certain action, the Supplier shall abide by the recommendation. The Supplier's failure to do so may result in the termination of the Supplier's Agreement in the sole discretion of the OFA.

7.06 Information disclosed by the Supplier to the OFA as contemplated under section 7.05 is confidential and shall not be disclosed to any person, except:

(a) on the consent of all parties;

The Supplier acknowledges that OFA holds the benefit of the indemnity in trust for itself and the Province and that OFA can enforce such indemnity on behalf of the Province. The Supplier also acknowledges and agrees that the Province can enforce such indemnity directly against the Supplier.

8.02 **Supplier's Insurance**
The Supplier shall maintain errors & omissions liability insurance (external coverage and/or self-insured coverage), insuring liability for errors and omissions in the performance or failure to perform the services contemplated in this agreement, in the amount not less than $5,000,000 per claim and in the annual aggregate.

8.03 **Supplier Participation in Proceedings**
The Supplier shall, at its expense, to the extent requested by OFA or the Province participate in or conduct the defence of any Claim against any Indemnified Parties referred to in this Article and any negotiations for their settlement. OFA or the Province may elect to participate in or conduct the defence of any such Claim by notifying the Supplier in writing of such election without prejudice to any other rights or remedies of OFA or the Province under the Agreement, at law or in equity. Each party participating in the defence shall do so by actively participating with the other's counsel. No settlement shall be entered into by the Supplier unless it has obtained the prior written approval of OFA or the Province, as the case may be. If the Supplier is requested by OFA or the Province to participate in or conduct the defence of any such Claim, OFA or the Province agrees to co-operate with and assist the Supplier to the fullest extent possible in the Claim and any related settlement negotiations. If OFA or the Province conducts the defence of any such Claim, the Supplier agrees to co-operate with and assist OFA or the Province to the fullest extent possible in the Claim and any related settlement negotiations; provided that no settlement of such Claim shall be entered into by any Indemnified Party unless it has obtained the prior written consent of the Supplier, such consent not to be unreasonably withheld.

8.04 The provisions of this Article survive the termination or expiry of the Agreement.

ARTICLE 9 – TERMINATION, EXPIRY AND EXTENSION

9.01 **Immediate Termination of Agreement**
OFA may immediately terminate the Agreement upon giving notice to the Supplier where:

(a) the Supplier is adjudged bankrupt, is insolvent, makes a general assignment for the benefit of its creditors or a receiver, liquidator or similar official is appointed on account of the Supplier's insolvency;

(b) the Supplier breaches any provision in Article 5 (Confidentiality and FIPPA) of the Agreement;

(c) the Supplier breaches any provision in Article 7 (Conflict of Interest) of the Agreement;

(d) the Supplier, prior to or after executing the Agreement, makes a material misrepresentation or omission or provides materially inaccurate information to OFA;

(e) the Supplier undergoes a change in control which, in the sole opinion of OFA, adversely affects the Supplier's ability to satisfy some or all of its obligations under the Agreement;

(f) the Supplier subcontracts for the provision of part or all of the Deliverables or assigns the Agreement without first obtaining the written approval of OFA; or

(g) the Supplier's acts or omissions constitute a substantial failure of performance;

and the above rights of termination are in addition to all other rights of termination available at law, or events of termination by operation of law.

9.02 **Dispute Resolution by Rectification Notice**
Subject to section 9.01, where the Supplier fails to comply with any of its obligations under the Agreement, OFA may issue a rectification notice to the Supplier setting out the manner and timeframe for rectification. Within seven (7) Business Days of receipt of that notice the Supplier shall either (a) comply with that rectification notice; or (b) provide a rectification plan satisfactory to OFA. If the Supplier fails to either comply with that rectification notice or provide a satisfactory rectification plan, OFA may immediately terminate the Agreement. Where the Supplier has been given a prior rectification notice, the same subsequent type of non-compliance by the Supplier shall allow OFA to immediately terminate the Agreement.

9.03 **Termination on Notice**
OFA reserves the right to terminate the Agreement, without cause, upon five (5) days written notice with or without cause.

9.04 **Termination for Non-Appropriation**
If this Agreement extends into a Fiscal Year subsequent to its execution, continuation of the Agreement is conditional upon an appropriation of moneys by the Legislature of Ontario (the "Legislature") sufficient to satisfy payments due under the Agreement. In the event that such moneys are not available as a result of: (i) non-appropriation by the Legislature for the Fiscal Year in which payment becomes due; and (ii) the payment being neither charged nor chargeable to an appropriation of the Legislature for a previous Fiscal Year, the OFA may terminate the Agreement upon giving notice to the Supplier and such termination shall be effective on the date of the beginning of the first Fiscal Year for which funds have not been appropriated.

9.05 **Supplier's Obligations on Termination**
The Supplier shall, in addition to its other obligations under the Agreement and at law:

9.06 **Supplier's Payment Upon Termination**
OFA shall only be responsible for the payment of the Deliverables provided under the Agreement up to and including the effective date of any termination. Termination shall not relieve the Supplier of its warranties and other responsibilities relating to the Deliverables performed or money paid. In addition to its other rights of hold back or set off, OFA may hold back payment or set off against any payments owed if the Supplier fails to comply with its obligations on termination.

9.07 **Termination in Addition to Other Rights**
The express rights of termination in the Agreement are in addition to and shall in no way limit any rights or remedies of OFA under the Agreement, at law or in equity

I should add – if you look at the white paper that was prepared by OPG, on page 2 there is the proposed structure of the "deal" with the spv included. It is noted that the percentages and types of debt/ equity are subject to change depending on the eventual legislation enacted. It seems to me that this is largely what the Province (OFA/ Energy) need the advisor for – advise on this structure based on what the legislation ends up looking like – simple as that.

Hi Sarah
I have edited Toby's draft and attached it. I think Carlos' previous answers shed light on some of the items raised. It looks to me to be a bit more straightforward than the situation with OPG and CIBC, etc giving rise to the FAS agreement, so not sure that is needed after all.
Bullet 1 seems to be answered by "**to provide advice on the structure of financing alternatives for the special purpose vehicle"**
We could confirm again with Carlos/ Mike who is receuiving the advice. I left it as the OFA based on his previous response.
For potential conflicts within the advisor, I know they all have their own Chinese Walls in place.

Subject: NDA Agreement

Please find attached a draft of a Non-Disclosure Agreement respecting obtaining advice from a financial adviser with respect to the Ontario Fair Hydro Plan.
Please note that this draft is preliminary, and we have a number of questions and concerns that are set out in the draft. We would like to point out that there is no agreement setting out the scope or nature of the services and the basis on which those services would be provided including the standard that is required from the adviser as well as conflict of interest requirements and other issues, and that the NDA does not replace such an agreement.
We have also attached a scan of an agreement that the OFA negotiated in 2004 to hire an adviser for a project relating to electricity finance as an example of such an agreement and the types of provisions that could be considered for inclusion in such an agreement.

Confidential and Privileged Legal Advice – April 1, 2017 – MOF LSB
Note regarding this NDA and the retention of an adviser:

We have a number of questions relating to this NDA, and issues that should be considered in retaining an adviser:

- We have not been able to confirm what the scope of the advice being sought is. If the advice is restricted to advising on market timing and potential demand for certain securities, this is more limited than broader advice relating to structuring the transaction;
- We think it should be clear who the adviser is working for, and how the advice will be presented to the Province. If the advice is going to be to the Ministry of Energy or the Minister of Finance, will be given through the OFA?;
- Are there potential conflicts of interest between the adviser's role as an adviser and as a potential underwriter or other business of the adviser?

In addition, it should be considered whether it is appropriate to have an adviser without an agreement for the services that the adviser would be providing. The NDA protects the Province with respect to the disclosure of the information to third parties, but it does not set out the role, responsibilities or other matters relating to conflicts or other duties of the adviser. Terms of such an agreement that may be considered in such a context include:

- Scope of engagement;
- Performance Warranty – setting out the standard to which the adviser is to carry out the work and provide advice;
- Copyright and IP provisions;
- Conflict of interest provisions – setting out the primary duties of the adviser and how they must conduct themselves with respect to any potential conflicts;
- Indemnities – setting out the adviser's indemnities to the OFA for certain risks.

Any failure by OFA to insist in one or more instances upon strict performance by the Supplier of any of the terms or conditions of the Agreement shall not be construed as a waiver by OFA of its right to require strict performance of any such terms or conditions, and the obligations of the Supplier with respect to such performance shall continue in full force and effect.

The Supplier shall not replace or substitute any of the individuals named in Schedule 1 (Proposal) without the prior written approval of OFA, which may not arbitrarily or unreasonably be withheld. Should the Supplier require the substitution or replacement of any of the individuals named in Schedule 1 (Proposal), it is understood and agreed that any proposed replacement must possess similar or greater qualifications than the individual named in Schedule 1 (Proposal). The Supplier shall not claim fees for any replacement individual greater than the Rates established under Schedule 1 (Proposal). The Supplier shall replace any of its personnel if they are unacceptable to OFA because of security risk, incompetence, conflict of interest, breach of confidentiality or improper conduct upon receiving written notice from OFA.

During the Term, and for seven (7) years after the end of the Term, the Supplier shall permit and assist OFA in conducting audits of the operations of the Supplier to verify (a) and (b) above. OFA shall provide the Supplier with at least ten (10) Business Days prior notice of its requirement for such audit.

The provisions of this Article shall survive any termination or expiry of the Agreement.

ARTICLE 5 - CONFIDENTIALITY AND FIPPA

5.01 **Confidentiality and Promotion Restrictions**
Any publicity or publications related to the Agreement shall be at the sole discretion of the OFA. The OFA may, in its sole discretion, acknowledge the Deliverables provided by the Supplier in any such publicity or publication. The Supplier shall not make use of its association with the OFA without the prior written consent of the OFA. 5.04 **Injunctive and Other Relief**

The Supplier acknowledges that breach of any provisions of this Article may cause irreparable harm to OFA, the Province or to any third-party to whom OFA owes a duty of confidence, and that the injury to OFA, the Province or to any third-party may be difficult to calculate and inadequately compensable in damages. The Supplier agrees that each of OFA and the Province is entitled to obtain injunctive relief (without proving any damage sustained by it or by any third-party) or any other remedy against any actual or potential breach of the provisions of this Article.

5.05 **Notice and Protective Order**

If the Supplier or any of its directors, officers, employees, agents, representatives or advisors become legally compelled to disclose any Confidential Information, the Supplier will provide OFA with prompt notice to that effect in order to allow OFA or the Province, as the case may be, to seek one or more protective orders or other appropriate remedies to prevent or limit such disclosure, and it shall co-operate with OFA and the Province and their respective legal counsel to the fullest extent. If such protective orders or other remedies are not obtained, the Supplier will disclose only that portion of Confidential Information which the Supplier is legally compelled to disclose, only to such person or persons to which the Supplier is legally compelled to disclose, and the Supplier shall provide notice to each such recipient (in co-operation with legal counsel for OFA or the Province, as the case may be) that such Confidential Information is confidential and subject to non-disclosure on terms and conditions equal to those contained in the Agreement and, if possible, shall obtain each recipient's written agreement to receive and use such Confidential Information subject to those terms and conditions.

5.06 **Notification of Confidentiality Provisions**

The Supplier shall notify each of its partners, employees, directors, and officers and subcontractors who have access to any of the Confidential Information ("the Notified Parties") of the obligations contained in the Agreement with respect to the confidentiality of the Confidential Information and the restrictions on disclosure and use of the Confidential Information. The Supplier has advised or will advise, as the case may be, the Notified Parties of their obligations concerning the confidentiality of the Confidential Information and shall obtain the agreement of each of the Notified Parties to abide by the terms and conditions of the Agreement. The Supplier agrees to enforce such obligations to the extent required to prevent unauthorised disclosure of Confidential Information and to prevent any partner, employee, director, or officer (the "Representatives") from making unauthorised use of Confidential Information. The Supplier agrees to be responsible for any breach of confidentiality by any of the Representatives and agrees to indemnify OFA and the Province and OPG for all damages, costs, expenses, losses, claims or actions arising from any failure by the Supplier or any of the Representatives to comply with the confidentiality obligations in the Agreement. (g) to implement other specific security measures that in the reasonable opinion of OFA would improve the adequacy and effectiveness of the Supplier's measures to ensure the security and integrity of Personal Information and Records generally; and

(h) that any confidential information supplied to OFA or the Province may be disclosed by OFA or the Province where it is obligated to do so under FIPPA, by an order of a court or tribunal or pursuant to a legal proceeding.

Property in the manner contemplated in this Article, the total consideration for which shall be payment of the Rates on the terms and to the Supplier by OFA.

6.04 **Presumption Governing Ownership**

The presumption governing the Agreement shall be that OFA on behalf of the Province shall be the sole owner of any Intellectual Property in any form contained in any of the Deliverables. If the Supplier's Intellectual Property forms any part of the Deliverables, the Supplier shall notify OFA of such prior to the delivery of the particular Deliverable containing any such Supplier Intellectual Property. In the absence of any such notice the presumption shall remain that OFA is the sole owner of any Intellectual Property contained in the Deliverables.

6.05 **Supplier's Grant of Licence**

For those parts of the Deliverables that are Supplier Intellectual Property, the Supplier grants to OFA and the Province, a perpetual, world-wide, non-exclusive, irrevocable, transferable, royalty-free, fully paid-up right and licence: (a) to use, execute, display, distribute, perform and reproduce, in any form, copies of those Deliverables and to practice and have practised any process or method (or both) associated with such Deliverables; and (b) to use, execute, make, have made, have used, display, distribute, perform, reproduce and prepare, in any form, Derivative Work based on those Deliverables and to practise and have practised any process or method (or both) associated with such Derivative Work; and (c) authorize other Persons including agents, contractors or sub-contractors to do any of the former on behalf of OFA or the Province, provided that the OFA and the Province shall be entitled to use and authorize other Persons to use the Supplier Intellectual Property for the purposes of the Province only and not for resale or other commercial exploitation thereof.

6.06 **No Restrictive Material in Deliverables**

The Supplier waives, and shall not incorporate into any Deliverables anything that would restrict the right of OFA or the Province to modify, further develop or otherwise use the Deliverables in any way that OFA or the Province deems necessary, or that would prevent OFA or the Province from entering into any contract with any contractor other than the Supplier for the modification, further development of or other use of the Deliverables. However, to the extent that any of the Deliverables constitutes any professional opinion, judgement or financial advice of the Supplier, the preceding sentence will not restrict or prevent the Supplier from addressing such opinions, judgements and financial advice solely to the OFA and the Province or from including customary assumptions, qualifications and limitations respecting reliance by parties other than the Indemnified Parties in such Deliverables.

6.07 **Supplier Representation and Warranty Regarding Third-Party Intellectual Property**

The Supplier represents and warrants that the provision of the Deliverables shall not infringe or induce the infringement of any Third-Party Intellectual Property rights. The Supplier further represents and warrants that it has obtained assurances with respect to any Third-Party Intellectual Property that any rights of integrity or any other moral rights associated therewith have been waived.

6.08 **Moral Rights**

The Supplier shall obtain waivers of all rights of integrity and any other moral rights in relation to the Deliverables from its employees, volunteers, agents and subcontractors and from any other party in the position to assert such rights in relation to any of the Deliverables, which waivers may be invoked without restriction by any person authorized by OFA or the Province to use the Deliverables.

The Supplier shall assist OFA in preparing any Canadian copyright registration that OFA considers appropriate. The Supplier will obtain or execute any other document reasonably required by OFA to protect the Intellectual Property of OFA.

6.11 **OFA May Prescribe Further Compliance**
OFA reserves the right to prescribe the specific manner in which the Supplier shall perform its obligations relating to this Article.

6.12 The provisions of this Article shall survive any termination or expiry of the Agreement.

ARTICLE 7 – CONFLICT OF INTEREST

7.01 The Supplier acknowledges it owes the OFA and the Province of Ontario a duty to promote the interests of OFA and the Province of Ontario in carrying out the Services. The overriding obligation the Supplier is to avoid actual or perceived conflicts between its private interests and those of OFA and the Province (including OFA and OEFC).

7.02 The Supplier shall not, in its provision of the Deliverables, engage in any activity, business or undertaking, whether as Supplier or otherwise, that could create a conflict of interest or potential conflict of interest. Included in the prohibitions on the Supplier are the following:

(b) directly or indirectly benefiting from any activity related to this Agreement otherwise than as specifically contemplated by this Agreement;

(c) circumstances where the supplier's other commitments, relationships or financial interests (i) could or could be seen to exercise an improper influence over the objective, unbiased and impartial exercise of its independent judgement; or (ii) could or could be seen to compromise, impair or be incompatible with the effective performance of its contractual obligations;

7.03 If required by the OFA for the purpose of complying with section 7.02 , the Supplier agrees to:

(a) file with the OFA a Plan to Prevent Conflict of Interest in respect of any particular actual or potential conflict of interest;

(b) file and cause its partners, directors, officers or employees who are providing the Services under this Agreement to file with the OFA declarations disclosing their interests in a manner equivalent to that set out in Section 13 of O.Reg 435/97 and their personal relationships (if any) with the firms and named individuals employed by or affiliated with OPG or any OEB licensed wholesale or retail electricity market participant in Ontario; and

(c) cause its partners, directors, officers or employees who are providing the Deliverables under this Agreement to execute confidentiality undertakings and provide copies to the OFA.

Upon the occurrence of any change in circumstance that renders any certificate or information filed or provided by the Supplier either incorrect or incomplete, the Supplier shall forthwith notify the OFA as set out in this Article of the change in circumstance in detail.

7.04 If any activities or prior activities of the Supplier could constitute an actual or potential conflict of interest in respect of this Agreement, the Supplier shall without delay make full, true and plain disclosure to the OFA of all relevant information about the particular activity, business or undertaking in question to the satisfaction of the OFA or its agent and abide by the decision of the OFA.

7.05 Upon any disclosure made by a Supplier or any other person in relation to the activities of the Supplier, of any activity, business or undertaking that could create a conflict of interest in respect of this Agreement, the OFA may, in its sole discretion:

(a) require that the Supplier:
  (i) deliver further and detailed particulars of the activity, business or undertaking;
  (ii) elect between the continuation of the Agreement and the continuation of the activity, business or undertaking concerned; and/or

(iii) institute measures which in the opinion of the OFA eliminate, resolve, isolate, diminish or nullify any perceived conflict of interest;

(b) terminate the Agreement effective upon written notice to such effect, and/or

(c) take such other steps as may be necessary to address the conflict including the institution of proceedings.

Where the OFA recommends that the Supplier take certain action, or refrain from taking certain action, the Supplier shall abide by the recommendation. The Supplier's failure to do so may result in the termination of the Supplier's Agreement in the sole discretion of the OFA.

7.06 Information disclosed by the Supplier to the OFA as contemplated under section 7.05 is confidential and shall not be disclosed to any person, except:

(a) on the consent of all parties;
(b) as required by law or by the order of a tribunal or court;

(d) in any proceedings between the OFA and the Supplier for breach of obligations under Article 7.

The Supplier also acknowledges and agrees that the Province can enforce such indemnity directly against the Supplier.

8.02 **Supplier's Insurance**
The Supplier shall maintain errors & omissions liability insurance (external coverage and/or self-insured coverage), insuring liability for errors and omissions in the performance or failure to perform the services contemplated in this agreement, in the amount not less than $5,000,000 per claim and in the annual aggregate.

8.03 **Supplier Participation in Proceedings**
The Supplier shall, at its expense, to the extent requested by OFA or the Province participate in or conduct the defence of any Claim against any Indemnified Parties referred to in this Article and any negotiations for their settlement. OFA or the Province may elect to participate in or conduct the defence of any such Claim by notifying the Supplier in writing of such election without prejudice to any other rights or remedies of OFA or the Province under the Agreement, at law or in equity. Each party participating in the defence shall do so by actively participating with the other's counsel. No settlement shall be entered into by the Supplier unless it has obtained the prior written approval of OFA or the Province, as the case may be. If OFA or the Province conducts the defence of any such Claim, the Supplier agrees to co-operate with and assist OFA or the Province to the fullest extent possible in the Claim and any related settlement negotiations; provided that no settlement of such Claim shall be entered into by any Indemnified Party unless it has obtained the prior written consent of the Supplier, such consent not to be unreasonably withheld.

8.04 The provisions of this Article survive the termination or expiry of the Agreement.

ARTICLE 9 – TERMINATION, EXPIRY AND EXTENSION

9.01 **Immediate Termination of Agreement**
OFA may immediately terminate the Agreement upon giving notice to the Supplier where:

(a) the Supplier is adjudged bankrupt, is insolvent, makes a general assignment for the benefit of its creditors or a receiver, liquidator or similar official is appointed on account of the Supplier's insolvency;

(b) the Supplier breaches any provision in Article 5 (Confidentiality and FIPPA) of the Agreement;

(c) the Supplier breaches any provision in Article 7 (Conflict of Interest) of the Agreement;

(d) the Supplier, prior to or after executing the Agreement, makes a material misrepresentation or omission or provides materially inaccurate information to OFA;

(e) the Supplier undergoes a change in control which, in the sole opinion of OFA, adversely affects the Supplier's ability to satisfy some or all of its obligations under the Agreement;

(f) the Supplier subcontracts for the provision of part or all of the Deliverables or assigns the Agreement without first obtaining the written approval of OFA; or

(g) the Supplier's acts or omissions constitute a substantial failure of performance;

and the above rights of termination are in addition to all other rights of termination available at law, or events of termination by operation of law.

9.02 **Dispute Resolution by Rectification Notice**
Subject to section 9.01, where the Supplier fails to comply with any of its obligations under the Agreement, OFA may issue a rectification notice to the Supplier setting out the manner and timeframe for rectification. Within seven (7) Business Days of receipt of that notice the Supplier shall either (a) comply with that rectification notice; or (b) provide a rectification plan satisfactory to OFA. If the Supplier fails to either comply with that rectification notice or provide a satisfactory rectification plan, OFA may immediately terminate the Agreement. Where the Supplier has been given a prior rectification notice, the same subsequent type of non-compliance by the Supplier shall allow OFA to immediately terminate the Agreement.

9.03 **Termination on Notice**
OFA reserves the right to terminate the Agreement, without cause, upon five (5) days written notice with or without cause.

9.04 **Termination for Non-Appropriation**
If this Agreement extends into a Fiscal Year subsequent to its execution, continuation of the Agreement is conditional upon an appropriation of moneys by the Legislature of Ontario (the "Legislature") sufficient to satisfy payments due under the Agreement. In the event that such moneys are not available as a result of: (i) non-appropriation by the Legislature for the Fiscal Year in which payment becomes due; and (ii) the payment being neither charged nor chargeable to an appropriation of the Legislature for a previous Fiscal Year, the OFA may terminate the Agreement upon giving notice to the Supplier and such termination shall be effective on the date of the beginning of the first Fiscal Year for which funds have not been appropriated.

9.05 **Supplier's Obligations on Termination**
The Supplier shall, in addition to its other obligations under the Agreement and at law:

(a) provide OFA with a report detailing (i) the current state of the provision of Deliverables by the Supplier at the date of termination; and (ii) any other information requested by OFA pertaining to the provision of the Deliverables and performance of the Agreement;

(b) execute such documentation as may be required by OFA to give effect to the termination of the Agreement;

(c) comply with any other instructions provided by OFA, including but not limited to instructions for facilitating the transfer of its obligations to another Person; and

(d) return or destroy Confidential Information under secure conditions, as requested by the OFA and provide a certificate of an officer of the Supplier confirming that all Confidential Information has been returned or destroyed, subject to the right to retain one copy as set out in Section 5.02.

9.06 **Supplier's Payment Upon Termination**
OFA shall only be responsible for the payment of the Deliverables provided under the Agreement up to and including the effective date of any termination. Termination shall not relieve the Supplier of its warranties and other responsibilities relating to the Deliverables performed or money paid. In addition to its other rights of hold back or set off, OFA may hold back payment or set off against any payments owed if the Supplier fails to comply with its obligations on termination.

9.07 **Termination in Addition to Other Rights**
The express rights of termination in the Agreement are in addition to and shall in no way limit any rights or remedies of OFA under the Agreement, at law or in equity

9.08 **Expiry of Agreement**
The Agreement shall expire at the end of the Term.

9.09 The provisions of this Article survive the termination or expiry of the Agreement.

IN WITNESS WHEREOF the parties hereto have executed the Agreement effective as of the date first above written.

Confidential and Privileged Legal Advice – April 1, 2017 – MOF LSB
Note regarding this NDA and the retention of an adviser:

We have a number of questions relating to this NDA, and issues that should be considered in retaining an adviser:

- We have not been able to confirm what the scope of the advice being sought is. If the advice is restricted to advising on market timing and potential demand for certain securities, this is more limited than broader advice relating to structuring the transaction;
- We think it should be clear who the adviser is working for, and how the advice will be presented to the Province. If the advice is going to be to the Ministry of Energy or the Minister of Finance, will be given through the OFA?;
- Are there potential conflicts of interest between the adviser's role as an adviser and as a potential underwriter or other business of the adviser?

In addition, it should be considered whether it is appropriate to have an adviser without an agreement for the services that the adviser would be providing. The NDA protects the Province with respect to the disclosure of the information to third parties, but it does not set out the role, responsibilities or other matters relating to conflicts or other duties of the adviser. Terms of such an agreement that may be considered in such a context include:

- Scope of engagement;
- Performance Warranty – setting out the standard to which the adviser is to carry out the work and provide advice;
- Copyright and IP provisions;
- Conflict of interest provisions – setting out the primary duties of the adviser and how they must conduct themselves with respect to any potential conflicts;
- Indemnities – setting out the adviser's indemnities to the OFA for certain risks.

I should add – if you look at the white paper that was prepared by OPG, on page 2 there is the proposed structure of the "deal" with the spv included. It is noted that the percentages and types of debt/ equity are subject to change depending on the eventual legislation enacted. It seems to me that this is largely what the Province (OFA/ Energy) need the advisor for – advise on this structure based on what the legislation ends up looking like – simple as that.

Hi Sarah
I have edited Toby's draft and attached it. I think Carlos' previous answers shed light on some of the items raised. It looks to me to be a bit more straightforward than the situation with OPG and CIBC, etc giving rise to the FAS agreement, so not sure that is needed after all.
Bullet 1 seems to be answered by "**to provide advice on the structure of financing alternatives for the special purpose vehicle"**
We could confirm again with Carlos/ Mike who is receuiving the advice. I left it as the OFA based on his previous response.
For potential conflicts within the advisor, I know they all have their own Chinese Walls in place.

Please find attached a draft of a Non-Disclosure Agreement respecting obtaining advice from a financial adviser with respect to the Ontario Fair Hydro Plan.
Please note that this draft is preliminary, and we have a number of questions and concerns that are set out in the draft. We would like to point out that there is no agreement setting out the scope or nature of the services and the basis on which those services would be provided including the standard that is required from the adviser as well as conflict of interest requirements and other issues, and that the NDA does not replace such an agreement.
We have also attached a scan of an agreement that the OFA negotiated in 2004 to hire an adviser for a project relating to electricity finance as an example of such an agreement and the types of provisions that could be considered for inclusion in such an agreement.

Confidential and Privileged Legal Advice – April 1, 2017 – MOF LSB
Note regarding this NDA and the retention of an adviser:

We have a number of questions relating to this NDA, and issues that should be considered in retaining an adviser:

- We have not been able to confirm what the scope of the advice being sought is. If the advice is restricted to advising on market timing and potential demand for certain securities, this is more limited than broader advice relating to structuring the transaction;
- We think it should be clear who the adviser is working for, and how the advice will be presented to the Province. If the advice is going to be to the Ministry of Energy or the Minister of Finance, will be given through the OFA?;

In addition, it should be considered whether it is appropriate to have an adviser without an agreement for the services that the adviser would be providing. The NDA protects the Province with respect to the disclosure of the information to third parties, but it does not set out the role, responsibilities or other matters relating to conflicts or other duties of the adviser. Should the Supplier require the substitution or replacement of any of the individuals named in Schedule 1 (Proposal), it is understood and agreed that any proposed replacement must possess similar or greater qualifications than the individual named in Schedule 1 (Proposal). The Supplier shall not claim fees for any replacement individual greater than the Rates established under Schedule 1 (Proposal). The Supplier irrevocably assigns to and in favour of OFA and OFA accepts every right, title and interest in and to all Newly Created Intellectual Property in the Deliverables, immediately following the creation thereof, for all time. OFA grants to the Province a perpetual, world-wide, non-exclusive, irrevocable, transferable, royalty-free, fully paid-up right and licence: (a) to use, execute, display, distribute, perform and reproduce, in any form, the Newly Created Intellectual Property in the Deliverables (b) to use, execute, make, have made, have used, display, distribute perform, reproduce and prepare, in any form, Derivative Work based on the Newly Created Intellectual Property in the Deliverables and (c) to practise and have practised any process or method (or both) associated with such Derivative Work;

To the extent that any of the Deliverables include, in whole or in part, the Supplier's Intellectual Property, the Supplier grants to OFA and the Province a licence to use that Supplier Intellectual

Property in the manner contemplated in this Article, the total consideration for which shall be payment of the Rates on the terms and to the Supplier by OFA.

6.04 **Presumption Governing Ownership**

The presumption governing the Agreement shall be that OFA on behalf of the Province shall be the sole owner of any Intellectual Property in any form contained in any of the Deliverables. If the Supplier's Intellectual Property forms any part of the Deliverables, the Supplier shall notify OFA of such prior to the delivery of the particular Deliverable containing any such Supplier Intellectual Property. In the absence of any such notice the presumption shall remain that OFA is the sole owner of any Intellectual Property contained in the Deliverables.

6.05 **Supplier's Grant of Licence**

For those parts of the Deliverables that are Supplier Intellectual Property, the Supplier grants to OFA and the Province, a perpetual, world-wide, non-exclusive, irrevocable, transferable, royalty-free, fully paid-up right and licence: (a) to use, execute, display, distribute, perform and reproduce, in any form, copies of those Deliverables and to practice and have practised any process or method (or both) associated with such Deliverables; and (b) to use, execute, make, have made, have used, display, distribute, perform, reproduce and prepare, in any form, Derivative Work based on those Deliverables and to practise and have practised any process or method (or both) associated with such Derivative Work; and (c) authorize other Persons including agents, contractors or sub-contractors to do any of the former on behalf of OFA or the Province, provided that the OFA and the Province shall be entitled to use and authorize other Persons to use the Supplier Intellectual Property for the purposes of the Province only and not for resale or other commercial exploitation thereof.

6.06 **No Restrictive Material in Deliverables**

The Supplier waives, and shall not incorporate into any Deliverables anything that would restrict the right of OFA or the Province to modify, further develop or otherwise use the Deliverables in any way that OFA or the Province deems necessary, or that would prevent OFA or the Province from entering into any contract with any contractor other than the Supplier for the modification, further development of or other use of the Deliverables. However, to the extent that any of the Deliverables constitutes any professional opinion, judgement or financial advice of the Supplier, the preceding sentence will not restrict or prevent the Supplier from addressing such opinions, judgements and financial advice solely to the OFA and the Province or from including customary assumptions, qualifications and limitations respecting reliance by parties other than the Indemnified Parties in such Deliverables.

6.07 **Supplier Representation and Warranty Regarding Third-Party Intellectual Property**

The Supplier represents and warrants that the provision of the Deliverables shall not infringe or induce the infringement of any Third-Party Intellectual Property rights. The Supplier further represents and warrants that it has obtained assurances with respect to any Third-Party Intellectual Property that any rights of integrity or any other moral rights associated therewith have been waived.

6.08 **Moral Rights**

The Supplier shall obtain waivers of all rights of integrity and any other moral rights in relation to the Deliverables from its employees, volunteers, agents and subcontractors and from any other party in the position to assert such rights in relation to any of the Deliverables, which waivers may be invoked without restriction by any person authorized by OFA or the Province to use the Deliverables.

6.09 **Copyright Notice**

The Supplier shall place a copyright notice in the following form on all recorded Deliverables it provides to OFA:

"© Queen's Printer for Ontario, 2004"

6.10 **Further Assurances Regarding Copyright**

At the request of OFA, at any time or from time to time, the Supplier shall execute and agrees to cause anyone in the position to assert rights of integrity or any other moral right (including its employees, volunteers, agents and subcontractors) to execute a written assignment of copyright and waiver of moral rights in the applicable Deliverable to the OFA in the forms set out in Schedule 2. The Supplier shall assist OFA in preparing any Canadian copyright registration that OFA considers appropriate. The Supplier will obtain or execute any other document reasonably required by OFA to protect the Intellectual Property of OFA.

6.11 **OFA May Prescribe Further Compliance**
OFA reserves the right to prescribe the specific manner in which the Supplier shall perform its obligations relating to this Article.

6.12 The provisions of this Article shall survive any termination or expiry of the Agreement.

ARTICLE 7 – CONFLICT OF INTEREST

7.01 The Supplier acknowledges it owes the OFA and the Province of Ontario a duty to promote the interests of OFA and the Province of Ontario in carrying out the Services. The overriding obligation the Supplier is to avoid actual or perceived conflicts between its private interests and those of OFA and the Province (including OFA and OEFC).

7.02 The Supplier shall not, in its provision of the Deliverables, engage in any activity, business or undertaking, whether as Supplier or otherwise, that could create a conflict of interest or potential conflict of interest. Included in the prohibitions on the Supplier are the following:

(a) engaging in any activity, business or undertaking that may conflict or be perceived as conflicting with the performance by the Supplier of the duties and obligations under this Agreement;

(b) directly or indirectly benefiting from any activity related to this Agreement otherwise than as specifically contemplated by this Agreement;

(c) circumstances where the supplier's other commitments, relationships or financial interests (i) could or could be seen to exercise an improper influence over the objective, unbiased and impartial exercise of its independent judgement; or (ii) could or could be seen to compromise, impair or be incompatible with the effective performance of its contractual obligations;

7.03 If required by the OFA for the purpose of complying with section 7.02 , the Supplier agrees to:

(a) file with the OFA a Plan to Prevent Conflict of Interest in respect of any particular actual or potential conflict of interest;

(b) file and cause its partners, directors, officers or employees who are providing the Services under this Agreement to file with the OFA declarations disclosing their interests in a manner equivalent to that set out in Section 13 of O.Reg 435/97 and their personal relationships (if any) with the firms and named individuals employed by or affiliated with OPG or any OEB licensed wholesale or retail electricity market participant in Ontario; and

(c) cause its partners, directors, officers or employees who are providing the Deliverables under this Agreement to execute confidentiality undertakings and provide copies to the OFA.

Upon the occurrence of any change in circumstance that renders any certificate or information filed or provided by the Supplier either incorrect or incomplete, the Supplier shall forthwith notify the OFA as set out in this Article of the change in circumstance in detail.

7.04 If any activities or prior activities of the Supplier could constitute an actual or potential conflict of interest in respect of this Agreement, the Supplier shall without delay make full, true and plain disclosure to the OFA of all relevant information about the particular activity, business or undertaking in question to the satisfaction of the OFA or its agent and abide by the decision of the OFA.

7.05 Upon any disclosure made by a Supplier or any other person in relation to the activities of the Supplier, of any activity, business or undertaking that could create a conflict of interest in respect of this Agreement, the OFA may, in its sole discretion:

(a) require that the Supplier:
  (i) deliver further and detailed particulars of the activity, business or undertaking;
  (ii) elect between the continuation of the Agreement and the continuation of the activity, business or undertaking concerned; and/or

(iii) institute measures which in the opinion of the OFA eliminate, resolve, isolate, diminish or nullify any perceived conflict of interest;

(b) terminate the Agreement effective upon written notice to such effect, and/or

(c) take such other steps as may be necessary to address the conflict including the institution of proceedings.

Where the OFA recommends that the Supplier take certain action, or refrain from taking certain action, the Supplier shall abide by the recommendation. The Supplier's failure to do so may result in the termination of the Supplier's Agreement in the sole discretion of the OFA.

7.06 Information disclosed by the Supplier to the OFA as contemplated under section 7.05 is confidential and shall not be disclosed to any person, except:

(a) on the consent of all parties;
(b) as required by law or by the order of a tribunal or court;
(c) such persons, if any, as the Supplier or the OFA may consult in respect of the conflict of interest; or
(d) in any proceedings between the OFA and the Supplier for breach of obligations under Article 7.

ARTICLE 8 – INDEMNITY AND INSURANCE

8.01 **Supplier Indemnity**
The Supplier hereby agrees to indemnify and hold harmless the Indemnified Parties from and against any and all liability, loss, costs, damages and expenses (including legal, expert and consultant fees), causes of action, actions, claims, demands, lawsuits or other proceedings, (collectively, "Claims"), by whomever made, sustained, brought or prosecuted, including for third party bodily injury (including death), personal injury and property damage arising from the negligence, errors, omissions or wilful misconduct of the Supplier, its subcontractors or their respective directors, partners, officers, agents, employees or independent contractors in the course of performance of the Supplier's obligations under, or otherwise in connection with, the Agreement. The Supplier acknowledges that OFA holds the benefit of the indemnity in trust for itself and the Province and that OFA can enforce such indemnity on behalf of the Province. The Supplier also acknowledges and agrees that the Province can enforce such indemnity directly against the Supplier.

8.02 **Supplier's Insurance**
The Supplier shall maintain errors & omissions liability insurance (external coverage and/or self-insured coverage), insuring liability for errors and omissions in the performance or failure to perform the services contemplated in this agreement, in the amount not less than $5,000,000 per claim and in the annual aggregate.

8.03 **Supplier Participation in Proceedings**
The Supplier shall, at its expense, to the extent requested by OFA or the Province participate in or conduct the defence of any Claim against any Indemnified Parties referred to in this Article and any negotiations for their settlement. OFA or the Province may elect to participate in or conduct the defence of any such Claim by notifying the Supplier in writing of such election without prejudice to any other rights or remedies of OFA or the Province under the Agreement, at law or in equity. Each party participating in the defence shall do so by actively participating with the other's counsel. No settlement shall be entered into by the Supplier unless it has obtained the prior written approval of OFA or the Province, as the case may be. If the Supplier is requested by OFA or the Province to participate in or conduct the defence of any such Claim, OFA or the Province agrees to co-operate with and assist the Supplier to the fullest extent possible in the Claim and any related settlement negotiations. If OFA or the Province conducts the defence of any such Claim, the Supplier agrees to co-operate with and assist OFA or the Province to the fullest extent possible in the Claim and any related settlement negotiations; provided that no settlement of such Claim shall be entered into by any Indemnified Party unless it has obtained the prior written consent of the Supplier, such consent not to be unreasonably withheld.

8.04 The provisions of this Article survive the termination or expiry of the Agreement.

ARTICLE 9 – TERMINATION, EXPIRY AND EXTENSION

9.01 **Immediate Termination of Agreement**
OFA may immediately terminate the Agreement upon giving notice to the Supplier where:

(a) the Supplier is adjudged bankrupt, is insolvent, makes a general assignment for the benefit of its creditors or a receiver, liquidator or similar official is appointed on account of the Supplier's insolvency;

(b) the Supplier breaches any provision in Article 5 (Confidentiality and FIPPA) of the Agreement;

(c) the Supplier breaches any provision in Article 7 (Conflict of Interest) of the Agreement;

(d) the Supplier, prior to or after executing the Agreement, makes a material misrepresentation or omission or provides materially inaccurate information to OFA;

(e) the Supplier undergoes a change in control which, in the sole opinion of OFA, adversely affects the Supplier's ability to satisfy some or all of its obligations under the Agreement;

(f) the Supplier subcontracts for the provision of part or all of the Deliverables or assigns the Agreement without first obtaining the written approval of OFA; or

(g) the Supplier's acts or omissions constitute a substantial failure of performance;

and the above rights of termination are in addition to all other rights of termination available at law, or events of termination by operation of law.

9.02 **Dispute Resolution by Rectification Notice**
Subject to section 9.01, where the Supplier fails to comply with any of its obligations under the Agreement, OFA may issue a rectification notice to the Supplier setting out the manner and timeframe for rectification. Within seven (7) Business Days of receipt of that notice the Supplier shall either (a) comply with that rectification notice; or (b) provide a rectification plan satisfactory to OFA. If the Supplier fails to either comply with that rectification notice or provide a satisfactory rectification plan, OFA may immediately terminate the Agreement. Where the Supplier has been given a prior rectification notice, the same subsequent type of non-compliance by the Supplier shall allow OFA to immediately terminate the Agreement.

9.03 **Termination on Notice**
OFA reserves the right to terminate the Agreement, without cause, upon five (5) days written notice with or without cause.

9.04 **Termination for Non-Appropriation**
If this Agreement extends into a Fiscal Year subsequent to its execution, continuation of the Agreement is conditional upon an appropriation of moneys by the Legislature of Ontario (the "Legislature") sufficient to satisfy payments due under the Agreement. In the event that such moneys are not available as a result of: (i) non-appropriation by the Legislature for the Fiscal Year in which payment becomes due; and (ii) the payment being neither charged nor chargeable to an appropriation of the Legislature for a previous Fiscal Year, the OFA may terminate the Agreement upon giving notice to the Supplier and such termination shall be effective on the date of the beginning of the first Fiscal Year for which funds have not been appropriated.

9.05 **Supplier's Obligations on Termination**
The Supplier shall, in addition to its other obligations under the Agreement and at law:

(a) provide OFA with a report detailing (i) the current state of the provision of Deliverables by the Supplier at the date of termination; and (ii) any other information requested by OFA pertaining to the provision of the Deliverables and performance of the Agreement;

(b) execute such documentation as may be required by OFA to give effect to the termination of the Agreement;

(c) comply with any other instructions provided by OFA, including but not limited to instructions for facilitating the transfer of its obligations to another Person; and

(d) return or destroy Confidential Information under secure conditions, as requested by the OFA and provide a certificate of an officer of the Supplier confirming that all Confidential Information has been returned or destroyed, subject to the right to retain one copy as set out in Section 5.02.

9.06 **Supplier's Payment Upon Termination**
OFA shall only be responsible for the payment of the Deliverables provided under the Agreement up to and including the effective date of any termination. Termination shall not relieve the Supplier of its warranties and other responsibilities relating to the Deliverables performed or money paid. In addition to its other rights of hold back or set off, OFA may hold back payment or set off against any payments owed if the Supplier fails to comply with its obligations on termination.

9.07 **Termination in Addition to Other Rights**
The express rights of termination in the Agreement are in addition to and shall in no way limit any rights or remedies of OFA under the Agreement, at law or in equity

9.08 **Expiry of Agreement**
The Agreement shall expire at the end of the Term.

9.09 The provisions of this Article survive the termination or expiry of the Agreement.

IN WITNESS WHEREOF the parties hereto have executed the Agreement effective as of the date first above written.

Confidential and Privileged Legal Advice – April 1, 2017 – MOF LSB
Note regarding this NDA and the retention of an adviser:

We have a number of questions relating to this NDA, and issues that should be considered in retaining an adviser:

- We have not been able to confirm what the scope of the advice being sought is. If the advice is restricted to advising on market timing and potential demand for certain securities, this is more limited than broader advice relating to structuring the transaction;
- We think it should be clear who the adviser is working for, and how the advice will be presented to the Province. If the advice is going to be to the Ministry of Energy or the Minister of Finance, will be given through the OFA?;
- Are there potential conflicts of interest between the adviser's role as an adviser and as a potential underwriter or other business of the adviser?

In addition, it should be considered whether it is appropriate to have an adviser without an agreement for the services that the adviser would be providing. The NDA protects the Province with respect to the disclosure of the information to third parties, but it does not set out the role, responsibilities or other matters relating to conflicts or other duties of the adviser. Terms of such an agreement that may be considered in such a context include:

- Scope of engagement;
- Performance Warranty – setting out the standard to which the adviser is to carry out the work and provide advice;
- Copyright and IP provisions;
- Conflict of interest provisions – setting out the primary duties of the adviser and how they must conduct themselves with respect to any potential conflicts;
- Indemnities – setting out the adviser's indemnities to the OFA for certain risks.

Hi Sarah

I have edited Toby's draft and attached it. I think Carlos' previous answers shed light on some of the items raised. It looks to me to be a bit more straightforward than the situation with OPG and CIBC, etc giving rise to the FAS agreement, so not sure that is needed after all.

Bullet 1 seems to be answered by "to provide advice on the structure of financing alternatives for the special purpose vehicle"

We could confirm again with Carlos/ Mike who is receiving the advice. I left it as the OFA based on his previous response.

For potential conflicts within the advisor, I know they all have their own Chinese Walls in place.

Subject: NDA Agreement

Please find attached a draft of a Non-Disclosure Agreement respecting obtaining advice from a financial adviser with respect to the Ontario Fair Hydro Plan.

Please note that this draft is preliminary, and we have a number of questions and concerns that are set out in the draft. We would like to point out that there is no agreement setting out the scope or nature of the services and the basis on which those services would be provided including the standard that is required from the adviser as well as conflict of interest requirements and other issues, and that the NDA does not replace such an agreement.

We have also attached a scan of an agreement that the OFA negotiated in 2004 to hire an adviser for a project relating to electricity finance as an example of such an agreement and the types of provisions that could be considered for inclusion in such an agreement.

Confidential and Privileged Legal Advice – April 1, 2017 – MOF LSB
Note regarding this NDA and the retention of an adviser:

We have a number of questions relating to this NDA, and issues that should be considered in retaining an adviser:

- We have not been able to confirm what the scope of the advice being sought is. If the advice is restricted to advising on market timing and potential demand for certain securities, this is more limited than broader advice relating to structuring the transaction;
- We think it should be clear who the adviser is working for, and how the advice will be presented to the Province. If the advice is going to be to the Ministry of Energy or the Minister of Finance, will be given through the OFA?;
- Are there potential conflicts of interest between the adviser's role as an adviser and as a potential underwriter or other business of the adviser?

In addition, it should be considered whether it is appropriate to have an adviser without an agreement for the services that the adviser would be providing. The NDA protects the Province with respect to the disclosure of the information to third parties, but it does not set out the role, responsibilities or other matters relating to conflicts or other duties of the adviser. Terms of such an agreement that may be considered in such a context include:

- Scope of engagement;
- Performance Warranty – setting out the standard to which the adviser is to carry out the work and provide advice;
- Copyright and IP provisions;
- Conflict of interest provisions – setting out the primary duties of the adviser and how they must conduct themselves with respect to any potential conflicts;
- Indemnities – setting out the adviser's indemnities to the OFA for certain risks.

Any publicity or publications related to the Agreement shall be at the sole discretion of the OFA. The OFA may, in its sole discretion, acknowledge the Deliverables provided by the Supplier in any such publicity or publication. The Supplier shall not make use of its association with the OFA without the prior written consent of the OFA. Without limiting the generality of this paragraph, the Supplier shall not, among other things, at any time directly or indirectly communicate with the media in relation to the Agreement unless it has first obtained the express written authorization to do so by the OFA.

5.02 **OFA, OPG, and the Government Confidential Information**

During and following the Term, the Supplier shall (a) keep all Confidential Information confidential and secure; (b) limit the disclosure of Confidential Information to only (i) those employees who have a need to know it and who have been specifically authorized to have such disclosure (ii) and to the other suppliers that have been retained subject to similar confidentiality obligations by OFA and identified by OFA to the Supplier for the sole purpose of providing to OFA or assisting the Supplier in providing to OFA the Deliverables pursuant to the Agreement and then only to the extent they need to know the Confidential Information for such purpose; (c) not directly or indirectly disclose, destroy, exploit or use any Confidential Information (except for the purpose of providing the Deliverables, or except if required by order of a court or tribunal), without first obtaining: (i) the written consent of OFA and (ii) in respect of any Confidential Information about any third-party, the written consent of such third-party; (d) provide Confidential Information to OFA on demand; and (e) deliver all Confidential Information to OFA before the termination or expiry of the Term, with no copy or portion kept by the Supplier, except that the Supplier may retain one copy for due diligence defence purposes, which copy shall be held securely and in accordance with the terms of this Agreement.

5.03 **Restrictions on Copying**

The Supplier shall not copy any Confidential Information, in whole or in part, unless copying is essential for the provision of the Deliverables. On each copy made by the Supplier, the Supplier must reproduce all notices which appear on the original.

5.04 **Injunctive and Other Relief**

The Supplier acknowledges that breach of any provisions of this Article may cause irreparable harm to OFA, the Province or to any third-party to whom OFA owes a duty of confidence, and that the injury to OFA, the Province or to any third-party may be difficult to calculate and inadequately compensable in damages. The Supplier agrees that each of OFA and the Province is entitled to obtain injunctive relief (without proving any damage sustained by it or by any third-party) or any other remedy against any actual or potential breach of the provisions of this Article.

5.05 **Notice and Protective Order**

If the Supplier or any of its directors, officers, employees, agents, representatives or advisors become legally compelled to disclose any Confidential Information, the Supplier will provide OFA with prompt notice to that effect in order to allow OFA or the Province, as the case may be, to seek one or more protective orders or other appropriate remedies to prevent or limit such disclosure, and it shall co-operate with OFA and the Province and their respective legal counsel to the fullest extent. If such protective orders or other remedies are not obtained, the Supplier will disclose only that portion of Confidential Information which the Supplier is legally compelled to disclose, only to such person or persons to which the Supplier is legally compelled to disclose, and the Supplier shall provide notice to each such recipient (in co-operation with legal counsel for OFA or the Province, as the case may be) that such Confidential Information is confidential and subject to non-disclosure on terms and conditions equal to those contained in the Agreement and, if possible, shall obtain each recipient's written agreement to receive and use such Confidential Information subject to those terms and conditions.

5.06 **Notification of Confidentiality Provisions**

The Supplier shall notify each of its partners, employees, directors, and officers and subcontractors who have access to any of the Confidential Information ("the Notified Parties") of the obligations contained in the Agreement with respect to the confidentiality of the Confidential Information and the restrictions on disclosure and use of the Confidential Information. The Supplier has advised or will advise, as the case may be, the Notified Parties of their obligations concerning the confidentiality of the Confidential Information and shall obtain the agreement of each of the Notified Parties to abide by the terms and conditions of the Agreement. The Supplier agrees to enforce such obligations to the extent required to prevent unauthorised disclosure of Confidential Information and to prevent any partner, employee, director, or officer (the "Representatives") from making unauthorised use of Confidential Information. The Supplier agrees to be responsible for any breach of confidentiality by any of the Representatives and agrees to indemnify OFA and the Province and OPG for all damages, costs, expenses, losses, claims or actions arising from any failure by the Supplier or any of the Representatives to comply with the confidentiality obligations in the Agreement. The Supplier acknowledges that OFA holds the benefit of the indemnity in trust for itself and the Province and that OFA can enforce such indemnity on behalf of the Province. The Supplier also acknowledges and agrees that the Province can enforce such indemnity directly against the Supplier.

5.07 **FIPPA Records and Compliance**
The Supplier and OFA acknowledge and agree that FIPPA applies to and governs all Records and may require the disclosure of such Records to third parties. Furthermore, the Supplier agrees:

(a) to keep Records secure;

(b) to provide Records to OFA within five (5) Business Days of being directed to do so by OFA for any reason including an access request or privacy issue;

(c) not to access any Personal Information unless OFA determines, in its sole discretion, that access is permitted under FIPPA and is necessary in order to provide the Deliverables;

(d) not to directly or indirectly use, collect, disclose or destroy any Personal Information for any purposes that are not authorized by OFA;

(e) to ensure the security and integrity of Personal Information and keep it in a physically secure and separate location safe from loss, alteration, destruction or intermingling with other records and databases and to implement, use and maintain the most appropriate products, tools, measures and procedures to do so;

(f) to restrict access to Personal Information to those of its employees who have a need to know it and who have been specifically authorized to have such access for the purpose of providing the Deliverables;

(g) to implement other specific security measures that in the reasonable opinion of OFA would improve the adequacy and effectiveness of the Supplier's measures to ensure the security and integrity of Personal Information and Records generally; and

(h) that any confidential information supplied to OFA or the Province may be disclosed by OFA or the Province where it is obligated to do so under FIPPA, by an order of a court or tribunal or pursuant to a legal proceeding.

5.08 The provisions of this Article shall survive any termination or expiry of the Agreement.

ARTICLE 6 – INTELLECTUAL PROPERTY

6.01 **OFA Intellectual Property**
The Supplier agrees that all Intellectual Property and every other right, title and interest in and to all concepts, techniques, ideas, information and materials, however recorded, (including images and data) provided by OFA or the Province to the Supplier shall remain the sole property of OFA or the Province, as the case may be, at all times.

To the extent that any of the Deliverables include, in whole or in part, the Supplier's Intellectual Property, the Supplier grants to OFA and the Province a licence to use that Supplier Intellectual

Property in the manner contemplated in this Article, the total consideration for which shall be payment of the Rates on the terms and to the Supplier by OFA.

6.04 **Presumption Governing Ownership**

The presumption governing the Agreement shall be that OFA on behalf of the Province shall be the sole owner of any Intellectual Property in any form contained in any of the Deliverables. If the Supplier's Intellectual Property forms any part of the Deliverables, the Supplier shall notify OFA of such prior to the delivery of the particular Deliverable containing any such Supplier Intellectual Property. In the absence of any such notice the presumption shall remain that OFA is the sole owner of any Intellectual Property contained in the Deliverables.

6.05 **Supplier's Grant of Licence**

For those parts of the Deliverables that are Supplier Intellectual Property, the Supplier grants to OFA and the Province, a perpetual, world-wide, non-exclusive, irrevocable, transferable, royalty-free, fully paid-up right and licence: (a) to use, execute, display, distribute, perform and reproduce, in any form, copies of those Deliverables and to practice and have practised any process or method (or both) associated with such Deliverables; and (b) to use, execute, make, have made, have used, display, distribute, perform, reproduce and prepare, in any form, Derivative Work based on those Deliverables and to practise and have practised any process or method (or both) associated with such Derivative Work; and (c) authorize other Persons including agents, contractors or sub-contractors to do any of the former on behalf of OFA or the Province, provided that the OFA and the Province shall be entitled to use and authorize other Persons to use the Supplier Intellectual Property for the purposes of the Province only and not for resale or other commercial exploitation thereof.

6.06 **No Restrictive Material in Deliverables**

The Supplier waives, and shall not incorporate into any Deliverables anything that would restrict the right of OFA or the Province to modify, further develop or otherwise use the Deliverables in any way that OFA or the Province deems necessary, or that would prevent OFA or the Province from entering into any contract with any contractor other than the Supplier for the modification, further development of or other use of the Deliverables. However, to the extent that any of the Deliverables constitutes any professional opinion, judgement or financial advice of the Supplier, the preceding sentence will not restrict or prevent the Supplier from addressing such opinions, judgements and financial advice solely to the OFA and the Province or from including customary assumptions, qualifications and limitations respecting reliance by parties other than the Indemnified Parties in such Deliverables.

6.07 **Supplier Representation and Warranty Regarding Third-Party Intellectual Property**

The Supplier represents and warrants that the provision of the Deliverables shall not infringe or induce the infringement of any Third-Party Intellectual Property rights. The Supplier further represents and warrants that it has obtained assurances with respect to any Third-Party Intellectual Property that any rights of integrity or any other moral rights associated therewith have been waived.

6.08 **Moral Rights**

The Supplier shall obtain waivers of all rights of integrity and any other moral rights in relation to the Deliverables from its employees, volunteers, agents and subcontractors and from any other party in the position to assert such rights in relation to any of the Deliverables, which waivers may be invoked without restriction by any person authorized by OFA or the Province to use the Deliverables.

6.09 **Copyright Notice**

The Supplier shall place a copyright notice in the following form on all recorded Deliverables it provides to OFA:

"© Queen's Printer for Ontario, 2004"

6.10 **Further Assurances Regarding Copyright**

At the request of OFA, at any time or from time to time, the Supplier shall execute and agrees to cause anyone in the position to assert rights of integrity or any other moral right (including its employees, volunteers, agents and subcontractors) to execute a written assignment of copyright and waiver of moral rights in the applicable Deliverable to the OFA in the forms set out in Schedule 2. The Supplier shall assist OFA in preparing any Canadian copyright registration that OFA considers appropriate. The Supplier will obtain or execute any other document reasonably required by OFA to protect the Intellectual Property of OFA.

6.11 **OFA May Prescribe Further Compliance**
OFA reserves the right to prescribe the specific manner in which the Supplier shall perform its obligations relating to this Article.

6.12 The provisions of this Article shall survive any termination or expiry of the Agreement.

ARTICLE 7 – CONFLICT OF INTEREST

7.01 The Supplier acknowledges it owes the OFA and the Province of Ontario a duty to promote the interests of OFA and the Province of Ontario in carrying out the Services. The overriding obligation the Supplier is to avoid actual or perceived conflicts between its private interests and those of OFA and the Province (including OFA and OEFC).

7.02 The Supplier shall not, in its provision of the Deliverables, engage in any activity, business or undertaking, whether as Supplier or otherwise, that could create a conflict of interest or potential conflict of interest. Included in the prohibitions on the Supplier are the following:

(b) directly or indirectly benefiting from any activity related to this Agreement otherwise than as specifically contemplated by this Agreement;

(c) cause its partners, directors, officers or employees who are providing the Deliverables under this Agreement to execute confidentiality undertakings and provide copies to the OFA.

Upon the occurrence of any change in circumstance that renders any certificate or information filed or provided by the Supplier either incorrect or incomplete, the Supplier shall forthwith notify the OFA as set out in this Article of the change in circumstance in detail.

7.04 If any activities or prior activities of the Supplier could constitute an actual or potential conflict of interest in respect of this Agreement, the Supplier shall without delay make full, true and plain disclosure to the OFA of all relevant information about the particular activity, business or undertaking in question to the satisfaction of the OFA or its agent and abide by the decision of the OFA.

7.05 Upon any disclosure made by a Supplier or any other person in relation to the activities of the Supplier, of any activity, business or undertaking that could create a conflict of interest in respect of this Agreement, the OFA may, in its sole discretion:

(a) require that the Supplier:
  (i) deliver further and detailed particulars of the activity, business or undertaking;
  (ii) elect between the continuation of the Agreement and the continuation of the activity, business or undertaking concerned; and/or

(iii) institute measures which in the opinion of the OFA eliminate, resolve, isolate, diminish or nullify any perceived conflict of interest;

(b) terminate the Agreement effective upon written notice to such effect, and/or

(c) take such other steps as may be necessary to address the conflict including the institution of proceedings.

Where the OFA recommends that the Supplier take certain action, or refrain from taking certain action, the Supplier shall abide by the recommendation. The Supplier's failure to do so may result in the termination of the Supplier's Agreement in the sole discretion of the OFA.

7.06 Information disclosed by the Supplier to the OFA as contemplated under section 7.05 is confidential and shall not be disclosed to any person, except:

(a) on the consent of all parties;
(b) as required by law or by the order of a tribunal or court;
(c) such persons, if any, as the Supplier or the OFA may consult in respect of the conflict of interest; or
(d) in any proceedings between the OFA and the Supplier for breach of obligations under Article 7.

The Supplier acknowledges that OFA holds the benefit of the indemnity in trust for itself and the Province and that OFA can enforce such indemnity on behalf of the Province. The Supplier also acknowledges and agrees that the Province can enforce such indemnity directly against the Supplier.

8.02 **Supplier's Insurance**
The Supplier shall maintain errors & omissions liability insurance (external coverage and/or self-insured coverage), insuring liability for errors and omissions in the performance or failure to perform the services contemplated in this agreement, in the amount not less than $5,000,000 per claim and in the annual aggregate.

The Supplier shall, at its expense, to the extent requested by OFA or the Province participate in or conduct the defence of any Claim against any Indemnified Parties referred to in this Article and any negotiations for their settlement. OFA or the Province may elect to participate in or conduct the defence of any such Claim by notifying the Supplier in writing of such election without prejudice to any other rights or remedies of OFA or the Province under the Agreement, at law or in equity. Each party participating in the defence shall do so by actively participating with the other's counsel. No settlement shall be entered into by the Supplier unless it has obtained the prior written approval of OFA or the Province, as the case may be. If the Supplier is requested by OFA or the Province to participate in or conduct the defence of any such Claim, OFA or the Province agrees to co-operate with and assist the Supplier to the fullest extent possible in the Claim and any related settlement negotiations. If OFA or the Province conducts the defence of any such Claim, the Supplier agrees to co-operate with and assist OFA or the Province to the fullest extent possible in the Claim and any related settlement negotiations; provided that no settlement of such Claim shall be entered into by any Indemnified Party unless it has obtained the prior written consent of the Supplier, such consent not to be unreasonably withheld.

8.04 The provisions of this Article survive the termination or expiry of the Agreement.

ARTICLE 9 – TERMINATION, EXPIRY AND EXTENSION

9.01 **Immediate Termination of Agreement**

(g) the Supplier's acts or omissions constitute a substantial failure of performance;

and the above rights of termination are in addition to all other rights of termination available at law, or events of termination by operation of law.

9.02 **Dispute Resolution by Rectification Notice**
Subject to section 9.01, where the Supplier fails to comply with any of its obligations under the Agreement, OFA may issue a rectification notice to the Supplier setting out the manner and timeframe for rectification. Within seven (7) Business Days of receipt of that notice the Supplier shall either (a) comply with that rectification notice; or (b) provide a rectification plan satisfactory to OFA. If the Supplier fails to either comply with that rectification notice or provide a satisfactory rectification plan, OFA may immediately terminate the Agreement. Where the Supplier has been given a prior rectification notice, the same subsequent type of non-compliance by the Supplier shall allow OFA to immediately terminate the Agreement.

9.03 **Termination on Notice**
OFA reserves the right to terminate the Agreement, without cause, upon five (5) days written notice with or without cause.

9.04 **Termination for Non-Appropriation**
If this Agreement extends into a Fiscal Year subsequent to its execution, continuation of the Agreement is conditional upon an appropriation of moneys by the Legislature of Ontario (the "Legislature") sufficient to satisfy payments due under the Agreement. In the event that such moneys are not available as a result of: (i) non-appropriation by the Legislature for the Fiscal Year in which payment becomes due; and (ii) the payment being neither charged nor chargeable to an appropriation of the Legislature for a previous Fiscal Year, the OFA may terminate the Agreement upon giving notice to the Supplier and such termination shall be effective on the date of the beginning of the first Fiscal Year for which funds have not been appropriated.

9.06 **Supplier's Payment Upon Termination**
OFA shall only be responsible for the payment of the Deliverables provided under the Agreement up to and including the effective date of any termination. Termination shall not relieve the Supplier of its warranties and other responsibilities relating to the Deliverables performed or money paid. In addition to its other rights of hold back or set off, OFA may hold back payment or set off against any payments owed if the Supplier fails to comply with its obligations on termination.

9.07 **Termination in Addition to Other Rights**

Confidential and Privileged Legal Advice – April 1, 2017 – MOF LSB
Note regarding this NDA and the retention of an adviser:

We have a number of questions relating to this NDA, and issues that should be considered in retaining an adviser:

- We have not been able to confirm what the scope of the advice being sought is. If the advice is restricted to advising on market timing and potential demand for certain securities, this is more limited than broader advice relating to structuring the transaction;
- We think it should be clear who the adviser is working for, and how the advice will be presented to the Province. If the advice is going to be to the Ministry of Energy or the Minister of Finance, will be given through the OFA?;
- Are there potential conflicts of interest between the adviser's role as an adviser and as a potential underwriter or other business of the adviser?

In addition, it should be considered whether it is appropriate to have an adviser without an agreement for the services that the adviser would be providing. The NDA protects the Province with respect to the disclosure of the information to third parties, but it does not set out the role, responsibilities or other matters relating to conflicts or other duties of the adviser. Terms of such an agreement that may be considered in such a context include:

- Scope of engagement;
- Performance Warranty – setting out the standard to which the adviser is to carry out the work and provide advice;
- Copyright and IP provisions;
- Conflict of interest provisions – setting out the primary duties of the adviser and how they must conduct themselves with respect to any potential conflicts;
- Indemnities – setting out the adviser's indemnities to the OFA for certain risks.

Hi Sarah

I have edited Toby's draft and attached it. I think Carlos' previous answers shed light on some of the items raised. It looks to me to be a bit more straightforward than the situation with OPG and CIBC, etc giving rise to the FAS agreement, so not sure that is needed after all.

Bullet 1 seems to be answered by "to provide advice on the structure of financing alternatives for the special purpose vehicle"

We could confirm again with Carlos/ Mike who is receiving the advice. I left it as the OFA based on his previous response.

For potential conflicts within the advisor, I know they all have their own Chinese Walls in place.

Subject: NDA Agreement

Please find attached a draft of a Non-Disclosure Agreement respecting obtaining advice from a financial adviser with respect to the Ontario Fair Hydro Plan.

Please note that this draft is preliminary, and we have a number of questions and concerns that are set out in the draft. We would like to point out that there is no agreement setting out the scope or nature of the services and the basis on which those services would be provided including the standard that is required from the adviser as well as conflict of interest requirements and other issues, and that the NDA does not replace such an agreement.

We have also attached a scan of an agreement that the OFA negotiated in 2004 to hire an adviser for a project relating to electricity finance as an example of such an agreement and the types of provisions that could be considered for inclusion in such an agreement.

Confidential and Privileged Legal Advice – April 1, 2017 – MOF LSB
Note regarding this NDA and the retention of an adviser:

We have a number of questions relating to this NDA, and issues that should be considered in retaining an adviser:

- We have not been able to confirm what the scope of the advice being sought is. If the advice is restricted to advising on market timing and potential demand for certain securities, this is more limited than broader advice relating to structuring the transaction;
- We think it should be clear who the adviser is working for, and how the advice will be presented to the Province. If the advice is going to be to the Ministry of Energy or the Minister of Finance, will be given through the OFA?;
- Are there potential conflicts of interest between the adviser's role as an adviser and as a potential underwriter or other business of the adviser?

In addition, it should be considered whether it is appropriate to have an adviser without an agreement for the services that the adviser would be providing. The NDA protects the Province with respect to the disclosure of the information to third parties, but it does not set out the role, responsibilities or other matters relating to conflicts or other duties of the adviser. Terms of such an agreement that may be considered in such a context include:

- Scope of engagement;
- Performance Warranty – setting out the standard to which the adviser is to carry out the work and provide advice;
- Copyright and IP provisions;
- Conflict of interest provisions – setting out the primary duties of the adviser and how they must conduct themselves with respect to any potential conflicts;
- Indemnities – setting out the adviser's indemnities to the OFA for certain risks.

The Supplier shall commence performance upon receipt of instructions and advice from OFA.

3.02 **Performance Warranty**

The Supplier hereby represents and warrants that the Deliverables shall be provided fully and diligently in a professional and competent manner by persons qualified and skilled in their occupations and furthermore that all Deliverables will be provided in accordance with (a) the Agreement; (b) Industry Standards; and (c) Requirements of Law. If any of the Deliverables, in the opinion of OFA, are inadequately provided or require corrections, the Supplier shall forthwith make the necessary corrections at its own expense as specified by OFA in a rectification notice.

3.03 **Notification by Supplier to OFA**

During the Term, the Supplier shall notify OFA promptly of (a) any contradictions, discrepancies or errors found or noted in the Agreement; (b) supplementary details, instructions or directions that do not correspond with those contained in the Agreement; and (c) any omissions or other faults that become evident and should be corrected in order to provide the Deliverables in accordance with the Agreement and Requirements of Law.

3.04 **Condonation Not a Waiver**

Any failure by OFA to insist in one or more instances upon strict performance by the Supplier of any of the terms or conditions of the Agreement shall not be construed as a waiver by OFA of its right to require strict performance of any such terms or conditions, and the obligations of the Supplier with respect to such performance shall continue in full force and effect.

3.05 **Changes By Written Amendment Only**

Any changes to the Agreement shall be by written amendment executed by the parties. No changes shall be effective or shall be carried out in the absence of such an amendment.

3.06 **Supplier to Comply With Reasonable Change Requests**

OFA may, in writing, request changes to the Agreement, which may include altering, adding to, or deleting any of the Deliverables. The Supplier shall comply with all reasonable OFA change requests and the performance of such request shall be in accordance with the terms and conditions of the Agreement. If the Supplier is unable to comply with the change request, it shall promptly notify OFA and provide reasons for such non-compliance. In any event, any such change request shall not be effective until a written amendment reflecting the change has been executed by the parties.

3.07 **Pricing for Requested Changes**

Where an OFA change request includes an increase in the scope of the previously contemplated Deliverables, OFA shall set out, in its change request, the proposed prices for the contemplated changes. Where the Rates in effect at the time of the change request:

(i) includes pricing for the type of goods or services contemplated in the change request, the Supplier shall not unreasonably refuse to provide those goods or services at prices consistent with those Rates; or

(ii) are silent to the applicable price for the particular goods or services contemplated in the change request, the price shall be negotiated between the OFA and the Supplier within a reasonable period of time;

and in any event, such change request shall not become effective until a written amendment reflecting the change has been executed by the parties.

3.08 **Work Volumes**

The Supplier acknowledges that it is providing the Deliverables to OFA on a non-exclusive basis. OFA makes no representation regarding the volume of goods and services required under the Agreement. OFA reserves the right to contract with other parties for the same or similar goods and services as those provided by the Supplier and reserves the right to obtain the same or similar goods and services internally or to not acquire such services from the Supplier.

3.09 **Performance by Specified Individuals Only**

The Supplier agrees that to the extent that specific individuals are named in Schedule 1 (Proposal) as being responsible for the provision of the Deliverables, only those individuals shall provide the Deliverables under the Agreement. The Supplier shall not replace or substitute any of the individuals named in Schedule 1 (Proposal) without the prior written approval of OFA, which may not arbitrarily or unreasonably be withheld. Should the Supplier require the substitution or replacement of any of the individuals named in Schedule 1 (Proposal), it is understood and agreed that any proposed replacement must possess similar or greater qualifications than the individual named in Schedule 1 (Proposal). The Supplier shall not claim fees for any replacement individual greater than the Rates established under Schedule 1 (Proposal). The Supplier shall replace any of its personnel if they are unacceptable to OFA because of security risk, incompetence, conflict of interest, breach of confidentiality or improper conduct upon receiving written notice from OFA.

3.10 **Facility Rules**

Should the Supplier be required to attend on OFA or Provincial property, the Supplier shall obey all fire, safety and other applicable rules of the facility. All damage to an OFA or Provincial facility and/or equipment, or any mishaps or accidents involving OFA and/or Provincial personnel, facilities and/or equipment shall be reported immediately to the OFA Representative.

3.11 **OFA Rights and Remedies and Supplier Obligations Not Limited to Agreement**

The express rights and remedies of OFA and obligations of the Supplier set out in the Agreement are in addition to and shall not limit any other rights and remedies available to OFA or any other obligations of the Supplier at law or in equity.

ARTICLE 4 - PAYMENT FOR PERFORMANCE

4.01 **Payment of Rates Including Approved Disbursements and Expenses**

OFA shall, subject to the Supplier's compliance with the provisions of the Agreement, pay the Supplier for the Deliverables provided at the Rates established under the Agreement. All disbursements or expenses shall be reasonable and air travel and accommodation expenses be approved in advance by the OFA, acting reasonably.

4.02 **Default Billing and Payment Process**
Unless the parties expressly set out an alternative billing and payment process in Schedule 1, the following process shall govern:

(a) the Supplier shall provide the OFA with a monthly billing statement no later than ten (10) Business Days after the end of each month and that billing statement shall include (i) the reference number assigned to the Agreement by the OFA; (ii) a brief description of the Deliverables provided for the relevant month; and (iii) any disbursements, expenses or taxes, if payable by OFA, identified as separate items;

(b) the OFA shall approve or reject the billing statement within fifteen (15) Business Days and in the event that the OFA rejects the billing statement, it shall so advise the Supplier promptly in writing and the Supplier shall provide additional information as required by the OFA to substantiate the billing statement; and

(c) each billing statement must be approved by the OFA before any payment is released and payment shall be made within thirty (30) Business Days of such approval;

and any subparagraph set out above that is not expressly replaced in Schedule 1 with an alternative provision shall remain in full force and effect.

4.03 **Hold Back or Set Off**
OFA may hold back payment or set off against payment if, in the opinion of the OFA acting reasonably, the Supplier has failed to comply with any requirements of the Agreement.

4.04 **Additional Charges**
There shall be no other charges payable by OFA under the Agreement to the Supplier other than the Rates established under the Agreement.

4.05 **Payment of Taxes and Duties**
Unless otherwise stated, the Supplier shall pay all applicable taxes, including excise taxes incurred by or on the Supplier's behalf with respect to the Agreement.

4.06 **OFA GST Exempt**
The OFA hereby certifies that the Deliverables are required for the use of the Crown and are therefore not subject to the federal Goods and Services Tax.

4.07 **Document Retention and Audit**
For seven (7) years after the expiration of the Term the Supplier shall maintain all necessary records to substantiate (a) all charges and payments under the Agreement and (b) that the Deliverables were provided in accordance with the Agreement and with Requirements of Law. During the Term, and for seven (7) years after the end of the Term, the Supplier shall permit and assist OFA in conducting audits of the operations of the Supplier to verify (a) and (b) above. OFA shall provide the Supplier with at least ten (10) Business Days prior notice of its requirement for such audit.

The provisions of this Article shall survive any termination or expiry of the Agreement.

ARTICLE 5 - CONFIDENTIALITY AND FIPPA

5.01 **Confidentiality and Promotion Restrictions**
Any publicity or publications related to the Agreement shall be at the sole discretion of the OFA. The OFA may, in its sole discretion, acknowledge the Deliverables provided by the Supplier in any such publicity or publication. The Supplier shall not make use of its association with the OFA without the prior written consent of the OFA. Without limiting the generality of this paragraph, the Supplier shall not, among other things, at any time directly or indirectly communicate with the media in relation to the Agreement unless it has first obtained the express written authorization to do so by the OFA.

5.02 **OFA, OPG, and the Government Confidential Information**

During and following the Term, the Supplier shall (a) keep all Confidential Information confidential and secure; (b) limit the disclosure of Confidential Information to only (i) those employees who have a need to know it and who have been specifically authorized to have such disclosure (ii) and to the other suppliers that have been retained subject to similar confidentiality obligations by OFA and identified by OFA to the Supplier for the sole purpose of providing to OFA or assisting the Supplier in providing to OFA the Deliverables pursuant to the Agreement and then only to the extent they need to know the Confidential Information for such purpose; (c) not directly or indirectly disclose, destroy, exploit or use any Confidential Information (except for the purpose of providing the Deliverables, or except if required by order of a court or tribunal), without first obtaining: (i) the written consent of OFA and (ii) in respect of any Confidential Information about any third-party, the written consent of such third-party; (d) provide Confidential Information to OFA on demand; and (e) deliver all Confidential Information to OFA before the termination or expiry of the Term, with no copy or portion kept by the Supplier, except that the Supplier may retain one copy for due diligence defence purposes, which copy shall be held securely and in accordance with the terms of this Agreement.

5.03 **Restrictions on Copying**

The Supplier shall not copy any Confidential Information, in whole or in part, unless copying is essential for the provision of the Deliverables. On each copy made by the Supplier, the Supplier must reproduce all notices which appear on the original.

5.04 **Injunctive and Other Relief**

The Supplier acknowledges that breach of any provisions of this Article may cause irreparable harm to OFA, the Province or to any third-party to whom OFA owes a duty of confidence, and that the injury to OFA, the Province or to any third-party may be difficult to calculate and inadequately compensable in damages. The Supplier agrees that each of OFA and the Province is entitled to obtain injunctive relief (without proving any damage sustained by it or by any third-party) or any other remedy against any actual or potential breach of the provisions of this Article.

5.05 **Notice and Protective Order**

If the Supplier or any of its directors, officers, employees, agents, representatives or advisors become legally compelled to disclose any Confidential Information, the Supplier will provide OFA with prompt notice to that effect in order to allow OFA or the Province, as the case may be, to seek one or more protective orders or other appropriate remedies to prevent or limit such disclosure, and it shall co-operate with OFA and the Province and their respective legal counsel to the fullest extent. If such protective orders or other remedies are not obtained, the Supplier will disclose only that portion of Confidential Information which the Supplier is legally compelled to disclose, only to such person or persons to which the Supplier is legally compelled to disclose, and the Supplier shall provide notice to each such recipient (in co-operation with legal counsel for OFA or the Province, as the case may be) that such Confidential Information is confidential and subject to non-disclosure on terms and conditions equal to those contained in the Agreement and, if possible, shall obtain each recipient's written agreement to receive and use such Confidential Information subject to those terms and conditions.

5.06 **Notification of Confidentiality Provisions**

The Supplier shall notify each of its partners, employees, directors, and officers and subcontractors who have access to any of the Confidential Information ("the Notified Parties") of the obligations contained in the Agreement with respect to the confidentiality of the Confidential Information and the restrictions on disclosure and use of the Confidential Information. The Supplier has advised or will advise, as the case may be, the Notified Parties of their obligations concerning the confidentiality of the Confidential Information and shall obtain the agreement of each of the Notified Parties to abide by the terms and conditions of the Agreement. The Supplier agrees to enforce such obligations to the extent required to prevent unauthorised disclosure of Confidential Information and to prevent any partner, employee, director, or officer (the "Representatives") from making unauthorised use of Confidential Information. The Supplier agrees to be responsible for any breach of confidentiality by any of the Representatives and agrees to indemnify OFA and the Province and OPG for all damages, costs, expenses, losses, claims or actions arising from any failure by the Supplier or any of the Representatives to comply with the confidentiality obligations in the Agreement. The Supplier acknowledges that OFA holds the benefit of the indemnity in trust for itself and the Province and that OFA can enforce such indemnity on behalf of the Province. The Supplier also acknowledges and agrees that the Province can enforce such indemnity directly against the Supplier.

5.07 **FIPPA Records and Compliance**
The Supplier and OFA acknowledge and agree that FIPPA applies to and governs all Records and may require the disclosure of such Records to third parties. Furthermore, the Supplier agrees:

(a) to keep Records secure;

(b) to provide Records to OFA within five (5) Business Days of being directed to do so by OFA for any reason including an access request or privacy issue;

(c) not to access any Personal Information unless OFA determines, in its sole discretion, that access is permitted under FIPPA and is necessary in order to provide the Deliverables;

(d) not to directly or indirectly use, collect, disclose or destroy any Personal Information for any purposes that are not authorized by OFA;

(e) to ensure the security and integrity of Personal Information and keep it in a physically secure and separate location safe from loss, alteration, destruction or intermingling with other records and databases and to implement, use and maintain the most appropriate products, tools, measures and procedures to do so;

(f) to restrict access to Personal Information to those of its employees who have a need to know it and who have been specifically authorized to have such access for the purpose of providing the Deliverables;

(g) to implement other specific security measures that in the reasonable opinion of OFA would improve the adequacy and effectiveness of the Supplier's measures to ensure the security and integrity of Personal Information and Records generally; and

(h) that any confidential information supplied to OFA or the Province may be disclosed by OFA or the Province where it is obligated to do so under FIPPA, by an order of a court or tribunal or pursuant to a legal proceeding.

5.08 The provisions of this Article shall survive any termination or expiry of the Agreement.

ARTICLE 6 – INTELLECTUAL PROPERTY

6.01 **OFA Intellectual Property**
The Supplier agrees that all Intellectual Property and every other right, title and interest in and to all concepts, techniques, ideas, information and materials, however recorded, (including images and data) provided by OFA or the Province to the Supplier shall remain the sole property of OFA or the Province, as the case may be, at all times.

6.02 **No Use of Insignia**
The Supplier shall not use any insignia or logo of OFA or the Province.

6.03 **Ownership of Intellectual Property**
OFA on behalf of the Province shall be the sole owner of any Newly Created Intellectual Property. The Supplier irrevocably assigns to and in favour of OFA and OFA accepts every right, title and interest in and to all Newly Created Intellectual Property in the Deliverables, immediately following the creation thereof, for all time. OFA grants to the Province a perpetual, world-wide, non-exclusive, irrevocable, transferable, royalty-free, fully paid-up right and licence: (a) to use, execute, display, distribute, perform and reproduce, in any form, the Newly Created Intellectual Property in the Deliverables (b) to use, execute, make, have made, have used, display, distribute perform, reproduce and prepare, in any form, Derivative Work based on the Newly Created Intellectual Property in the Deliverables and (c) to practise and have practised any process or method (or both) associated with such Derivative Work;

To the extent that any of the Deliverables include, in whole or in part, the Supplier's Intellectual Property, the Supplier grants to OFA and the Province a licence to use that Supplier Intellectual

Property in the manner contemplated in this Article, the total consideration for which shall be payment of the Rates on the terms and to the Supplier by OFA.

6.04 **Presumption Governing Ownership**

The presumption governing the Agreement shall be that OFA on behalf of the Province shall be the sole owner of any Intellectual Property in any form contained in any of the Deliverables. If the Supplier's Intellectual Property forms any part of the Deliverables, the Supplier shall notify OFA of such prior to the delivery of the particular Deliverable containing any such Supplier Intellectual Property. In the absence of any such notice the presumption shall remain that OFA is the sole owner of any Intellectual Property contained in the Deliverables.

6.05 **Supplier's Grant of Licence**

For those parts of the Deliverables that are Supplier Intellectual Property, the Supplier grants to OFA and the Province, a perpetual, world-wide, non-exclusive, irrevocable, transferable, royalty-free, fully paid-up right and licence: (a) to use, execute, display, distribute, perform and reproduce, in any form, copies of those Deliverables and to practice and have practised any process or method (or both) associated with such Deliverables; and (b) to use, execute, make, have made, have used, display, distribute, perform, reproduce and prepare, in any form, Derivative Work based on those Deliverables and to practise and have practised any process or method (or both) associated with such Derivative Work; and (c) authorize other Persons including agents, contractors or sub-contractors to do any of the former on behalf of OFA or the Province, provided that the OFA and the Province shall be entitled to use and authorize other Persons to use the Supplier Intellectual Property for the purposes of the Province only and not for resale or other commercial exploitation thereof.

6.06 **No Restrictive Material in Deliverables**

The Supplier waives, and shall not incorporate into any Deliverables anything that would restrict the right of OFA or the Province to modify, further develop or otherwise use the Deliverables in any way that OFA or the Province deems necessary, or that would prevent OFA or the Province from entering into any contract with any contractor other than the Supplier for the modification, further development of or other use of the Deliverables. However, to the extent that any of the Deliverables constitutes any professional opinion, judgement or financial advice of the Supplier, the preceding sentence will not restrict or prevent the Supplier from addressing such opinions, judgements and financial advice solely to the OFA and the Province or from including customary assumptions, qualifications and limitations respecting reliance by parties other than the Indemnified Parties in such Deliverables.

6.07 **Supplier Representation and Warranty Regarding Third-Party Intellectual Property**

The Supplier represents and warrants that the provision of the Deliverables shall not infringe or induce the infringement of any Third-Party Intellectual Property rights. The Supplier further represents and warrants that it has obtained assurances with respect to any Third-Party Intellectual Property that any rights of integrity or any other moral rights associated therewith have been waived.

6.08 **Moral Rights**

The Supplier shall obtain waivers of all rights of integrity and any other moral rights in relation to the Deliverables from its employees, volunteers, agents and subcontractors and from any other party in the position to assert such rights in relation to any of the Deliverables, which waivers may be invoked without restriction by any person authorized by OFA or the Province to use the Deliverables.

6.09 **Copyright Notice**

The Supplier shall place a copyright notice in the following form on all recorded Deliverables it provides to OFA:

"© Queen's Printer for Ontario, 2004"

6.10 **Further Assurances Regarding Copyright**

At the request of OFA, at any time or from time to time, the Supplier shall execute and agrees to cause anyone in the position to assert rights of integrity or any other moral right (including its employees, volunteers, agents and subcontractors) to execute a written assignment of copyright and waiver of moral rights in the applicable Deliverable to the OFA in the forms set out in Schedule 2. The Supplier shall assist OFA in preparing any Canadian copyright registration that OFA considers appropriate. The Supplier will obtain or execute any other document reasonably required by OFA to protect the Intellectual Property of OFA.

6.11 **OFA May Prescribe Further Compliance**
OFA reserves the right to prescribe the specific manner in which the Supplier shall perform its obligations relating to this Article.

6.12 The provisions of this Article shall survive any termination or expiry of the Agreement.

ARTICLE 7 – CONFLICT OF INTEREST

7.01 The Supplier acknowledges it owes the OFA and the Province of Ontario a duty to promote the interests of OFA and the Province of Ontario in carrying out the Services. The overriding obligation the Supplier is to avoid actual or perceived conflicts between its private interests and those of OFA and the Province (including OFA and OEFC).

7.02 The Supplier shall not, in its provision of the Deliverables, engage in any activity, business or undertaking, whether as Supplier or otherwise, that could create a conflict of interest or potential conflict of interest. Included in the prohibitions on the Supplier are the following:

(a) engaging in any activity, business or undertaking that may conflict or be perceived as conflicting with the performance by the Supplier of the duties and obligations under this Agreement;

(b) directly or indirectly benefiting from any activity related to this Agreement otherwise than as specifically contemplated by this Agreement;

(c) circumstances where the supplier's other commitments, relationships or financial interests (i) could or could be seen to exercise an improper influence over the objective, unbiased and impartial exercise of its independent judgement; or (ii) could or could be seen to compromise, impair or be incompatible with the effective performance of its contractual obligations;

7.03 If required by the OFA for the purpose of complying with section 7.02 , the Supplier agrees to:

(a) file with the OFA a Plan to Prevent Conflict of Interest in respect of any particular actual or potential conflict of interest;

(b) file and cause its partners, directors, officers or employees who are providing the Services under this Agreement to file with the OFA declarations disclosing their interests in a manner equivalent to that set out in Section 13 of O.Reg 435/97 and their personal relationships (if any) with the firms and named individuals employed by or affiliated with OPG or any OEB licensed wholesale or retail electricity market participant in Ontario; and

(c) cause its partners, directors, officers or employees who are providing the Deliverables under this Agreement to execute confidentiality undertakings and provide copies to the OFA.

Upon the occurrence of any change in circumstance that renders any certificate or information filed or provided by the Supplier either incorrect or incomplete, the Supplier shall forthwith notify the OFA as set out in this Article of the change in circumstance in detail.

7.04 If any activities or prior activities of the Supplier could constitute an actual or potential conflict of interest in respect of this Agreement, the Supplier shall without delay make full, true and plain disclosure to the OFA of all relevant information about the particular activity, business or undertaking in question to the satisfaction of the OFA or its agent and abide by the decision of the OFA.

7.05 Upon any disclosure made by a Supplier or any other person in relation to the activities of the Supplier, of any activity, business or undertaking that could create a conflict of interest in respect of this Agreement, the OFA may, in its sole discretion:

(a) require that the Supplier:
  (i) deliver further and detailed particulars of the activity, business or undertaking;
  (ii) elect between the continuation of the Agreement and the continuation of the activity, business or undertaking concerned; and/or

(iii) institute measures which in the opinion of the OFA eliminate, resolve, isolate, diminish or nullify any perceived conflict of interest;

(b) terminate the Agreement effective upon written notice to such effect, and/or

(c) take such other steps as may be necessary to address the conflict including the institution of proceedings.

Where the OFA recommends that the Supplier take certain action, or refrain from taking certain action, the Supplier shall abide by the recommendation. The Supplier's failure to do so may result in the termination of the Supplier's Agreement in the sole discretion of the OFA.

7.06 Information disclosed by the Supplier to the OFA as contemplated under section 7.05 is confidential and shall not be disclosed to any person, except:

(a) on the consent of all parties;
(b) as required by law or by the order of a tribunal or court;
(c) such persons, if any, as the Supplier or the OFA may consult in respect of the conflict of interest; or
(d) in any proceedings between the OFA and the Supplier for breach of obligations under Article 7.

ARTICLE 8 – INDEMNITY AND INSURANCE

8.01 **Supplier Indemnity**
The Supplier hereby agrees to indemnify and hold harmless the Indemnified Parties from and against any and all liability, loss, costs, damages and expenses (including legal, expert and consultant fees), causes of action, actions, claims, demands, lawsuits or other proceedings, (collectively, "Claims"), by whomever made, sustained, brought or prosecuted, including for third party bodily injury (including death), personal injury and property damage arising from the negligence, errors, omissions or wilful misconduct of the Supplier, its subcontractors or their respective directors, partners, officers, agents, employees or independent contractors in the course of performance of the Supplier's obligations under, or otherwise in connection with, the Agreement. The Supplier acknowledges that OFA holds the benefit of the indemnity in trust for itself and the Province and that OFA can enforce such indemnity on behalf of the Province. The Supplier also acknowledges and agrees that the Province can enforce such indemnity directly against the Supplier.

8.02 **Supplier's Insurance**
The Supplier shall maintain errors & omissions liability insurance (external coverage and/or self-insured coverage), insuring liability for errors and omissions in the performance or failure to perform the services contemplated in this agreement, in the amount not less than $5,000,000 per claim and in the annual aggregate.

8.03 **Supplier Participation in Proceedings**
The Supplier shall, at its expense, to the extent requested by OFA or the Province participate in or conduct the defence of any Claim against any Indemnified Parties referred to in this Article and any negotiations for their settlement. OFA or the Province may elect to participate in or conduct the defence of any such Claim by notifying the Supplier in writing of such election without prejudice to any other rights or remedies of OFA or the Province under the Agreement, at law or in equity. Each party participating in the defence shall do so by actively participating with the other's counsel. No settlement shall be entered into by the Supplier unless it has obtained the prior written approval of OFA or the Province, as the case may be. If the Supplier is requested by OFA or the Province to participate in or conduct the defence of any such Claim, OFA or the Province agrees to co-operate with and assist the Supplier to the fullest extent possible in the Claim and any related settlement negotiations. If OFA or the Province conducts the defence of any such Claim, the Supplier agrees to co-operate with and assist OFA or the Province to the fullest extent possible in the Claim and any related settlement negotiations; provided that no settlement of such Claim shall be entered into by any Indemnified Party unless it has obtained the prior written consent of the Supplier, such consent not to be unreasonably withheld.

8.04 The provisions of this Article survive the termination or expiry of the Agreement.

ARTICLE 9 – TERMINATION, EXPIRY AND EXTENSION

9.01 **Immediate Termination of Agreement**
OFA may immediately terminate the Agreement upon giving notice to the Supplier where:

(a) the Supplier is adjudged bankrupt, is insolvent, makes a general assignment for the benefit of its creditors or a receiver, liquidator or similar official is appointed on account of the Supplier's insolvency;

(b) the Supplier breaches any provision in Article 5 (Confidentiality and FIPPA) of the Agreement;

(d) the Supplier, prior to or after executing the Agreement, makes a material misrepresentation or omission or provides materially inaccurate information to OFA;

(e) the Supplier undergoes a change in control which, in the sole opinion of OFA, adversely affects the Supplier's ability to satisfy some or all of its obligations under the Agreement;

(f) the Supplier subcontracts for the provision of part or all of the Deliverables or assigns the Agreement without first obtaining the written approval of OFA; or

(g) the Supplier's acts or omissions constitute a substantial failure of performance;

and the above rights of termination are in addition to all other rights of termination available at law, or events of termination by operation of law.

9.02 **Dispute Resolution by Rectification Notice**
Subject to section 9.01, where the Supplier fails to comply with any of its obligations under the Agreement, OFA may issue a rectification notice to the Supplier setting out the manner and timeframe for rectification. Within seven (7) Business Days of receipt of that notice the Supplier shall either (a) comply with that rectification notice; or (b) provide a rectification plan satisfactory to OFA. If the Supplier fails to either comply with that rectification notice or provide a satisfactory rectification plan, OFA may immediately terminate the Agreement. Where the Supplier has been given a prior rectification notice, the same subsequent type of non-compliance by the Supplier shall allow OFA to immediately terminate the Agreement.

9.03 **Termination on Notice**
OFA reserves the right to terminate the Agreement, without cause, upon five (5) days written notice with or without cause.

9.04 **Termination for Non-Appropriation**
If this Agreement extends into a Fiscal Year subsequent to its execution, continuation of the Agreement is conditional upon an appropriation of moneys by the Legislature of Ontario (the "Legislature") sufficient to satisfy payments due under the Agreement. In the event that such moneys are not available as a result of: (i) non-appropriation by the Legislature for the Fiscal Year in which payment becomes due; and (ii) the payment being neither charged nor chargeable to an appropriation of the Legislature for a previous Fiscal Year, the OFA may terminate the Agreement upon giving notice to the Supplier and such termination shall be effective on the date of the beginning of the first Fiscal Year for which funds have not been appropriated.

9.05 **Supplier's Obligations on Termination**
The Supplier shall, in addition to its other obligations under the Agreement and at law:

(a) provide OFA with a report detailing (i) the current state of the provision of Deliverables by the Supplier at the date of termination; and (ii) any other information requested by OFA pertaining to the provision of the Deliverables and performance of the Agreement;

(b) execute such documentation as may be required by OFA to give effect to the termination of the Agreement;

(c) comply with any other instructions provided by OFA, including but not limited to instructions for facilitating the transfer of its obligations to another Person; and

(d) return or destroy Confidential Information under secure conditions, as requested by the OFA and provide a certificate of an officer of the Supplier confirming that all Confidential Information has been returned or destroyed, subject to the right to retain one copy as set out in Section 5.02.

9.06 **Supplier's Payment Upon Termination**
OFA shall only be responsible for the payment of the Deliverables provided under the Agreement up to and including the effective date of any termination. Termination shall not relieve the Supplier of its warranties and other responsibilities relating to the Deliverables performed or money paid. In addition to its other rights of hold back or set off, OFA may hold back payment or set off against any payments owed if the Supplier fails to comply with its obligations on termination.

9.07 **Termination in Addition to Other Rights**
The express rights of termination in the Agreement are in addition to and shall in no way limit any rights or remedies of OFA under the Agreement, at law or in equity

9.08 **Expiry of Agreement**

Confidential and Privileged Legal Advice – April 1, 2017 – MOF LSB
Note regarding this NDA and the retention of an adviser:

We have a number of questions relating to this NDA, and issues that should be considered in retaining an adviser:

- We have not been able to confirm what the scope of the advice being sought is. If the advice is restricted to advising on market timing and potential demand for certain securities, this is more limited than broader advice relating to structuring the transaction;
- We think it should be clear who the adviser is working for, and how the advice will be presented to the Province. If the advice is going to be to the Ministry of Energy or the Minister of Finance, will be given through the OFA?;
- Are there potential conflicts of interest between the adviser's role as an adviser and as a potential underwriter or other business of the adviser?

In addition, it should be considered whether it is appropriate to have an adviser without an agreement for the services that the adviser would be providing. The NDA protects the Province with respect to the disclosure of the information to third parties, but it does not set out the role, responsibilities or other matters relating to conflicts or other duties of the adviser. Terms of such an agreement that may be considered in such a context include:

- Scope of engagement;
- Performance Warranty – setting out the standard to which the adviser is to carry out the work and provide advice;
- Copyright and IP provisions;
- Conflict of interest provisions – setting out the primary duties of the adviser and how they must conduct themselves with respect to any potential conflicts;
- Indemnities – setting out the adviser's indemnities to the OFA for certain risks.

I am forwarding this to Sarah Neville as well, as the OFA is the party to the agreement, so OFA Legal needs to review this as well.

Hi Toby

I made a few small additions/ changes to the attached draft based on what I learned from Carlos. We are told that the OFA will sign it (Mike). It is fairly straightforward. Page 2 of the OPG white paper outlines a structure, but the ultimate draft of the legislation will impact it and advice will be needed once what is in the legislation is clearer. Advice needed is regarding financing alternatives/ structure for the spv. In addition, the banks/ advisor have their own Chinese Walls in place to deal with potential conflicts of interest.

Please confirm if the changes are ok.

Thanks,

Kelly

Subject: NDA Agreement

Please find attached a draft of a Non-Disclosure Agreement respecting obtaining advice from a financial adviser with respect to the Ontario Fair Hydro Plan.

Please note that this draft is preliminary, and we have a number of questions and concerns that are set out in the draft. We would like to point out that there is no agreement setting out the scope or nature of the services and the basis on which those services would be provided including the standard that is required from the adviser as well as conflict of interest requirements and other issues, and that the NDA does not replace such an agreement.

We have also attached a scan of an agreement that the OFA negotiated in 2004 to hire an adviser for a project relating to electricity finance as an example of such an agreement and the types of provisions that could be considered for inclusion in such an agreement.

Confidential and Privileged Legal Advice – April 1, 2017 – MOF LSB
Note regarding this NDA and the retention of an adviser:

We have a number of questions relating to this NDA, and issues that should be considered in retaining an adviser:

- We have not been able to confirm what the scope of the advice being sought is. If the advice is restricted to advising on market timing and potential demand for certain securities, this is more limited than broader advice relating to structuring the transaction;
- We think it should be clear who the adviser is working for, and how the advice will be presented to the Province. If the advice is going to be to the Ministry of Energy or the Minister of Finance, will be given through the OFA?;
- Are there potential conflicts of interest between the adviser's role as an adviser and as a potential underwriter or other business of the adviser?

In addition, it should be considered whether it is appropriate to have an adviser without an agreement for the services that the adviser would be providing. The NDA protects the Province with respect to the disclosure of the information to third parties, but it does not set out the role, responsibilities or other matters relating to conflicts or other duties of the adviser. Terms of such an agreement that may be considered in such a context include:

- Scope of engagement;
- Performance Warranty – setting out the standard to which the adviser is to carry out the work and provide advice;
- Copyright and IP provisions;
- Conflict of interest provisions – setting out the primary duties of the adviser and how they must conduct themselves with respect to any potential conflicts;
- Indemnities – setting out the adviser's indemnities to the OFA for certain risks.

HI Andrea and Kelly,
Since Andrea is familiar with OICs, and Kelly is familiar with the IESO agreements, may I ask you to jointly look into the request below, while concurrently referring to Sarah Neville's attached e-mail. Andrea, you are familiar with the OICs, as you helped verify that they still exists as at March 31, 2017 (attached).
I don't know which spreadsheet that Salman is referring to regarding tracking the remaining authority. Per Lenin's attached e-mail, he says "I cannot however, comment on any loans or transactions undertaken under the OICs. Documentation does not keep track of this. I believe that corporate finance keeps track of this information. As such the supporting documentation I can provide is copies of the OIC's in question."
Thanks,
Sarah

Hi Sarah,
Hoping you're the person for this but please let me know otherwise.
I was hoping you could provide a copy of OICs the OFA has received for lending purposes, specifically, OICs 675/1997 and 767/1999. I am trying to see which, if at all, OIC authorized the amounts that OFA has to on-lend to the OPA (now IESO), re: $975 million agreement. I remember Lenin had once sent a spreadsheet tracking the availability remaining under the OICs and the OPA/IESO $975M facility was on there.
Thank you,
Salman

Salman –

The OFA's authority to borrow is set out in its' general borrowing by-law, By-Law #12 (see document at below link) which is approved by resolution of the Board and requires the additional approval of the Minister.

Under section 1(a)(i), the by-law permits borrowing by the OFA from the Minister of Finance, such amounts as the Minister of Finance is authorized by OIC to lend to the OFA.

http://portal.ofina.on.ca/sites/ld/ofaboard/administration/ByLaws/General%20Borrowing%20and%20Financing%20By-Law%2012.pdf

So, yes, borrowing from the Province by the OFA must not exceed amounts the Minister is authorized by OIC to lend.

Please let me know if you have questions or would like to discuss further.

Thanks Sarah.

Is it fine to say that the OFA needs to have room within an OIC to be able to lend to an entity (or in other words, an OIC (alongside other approvals like Minister's directive etc) to ensure the OFA can lend? I believe this is true but wanted to get a definite answer.

I've reached out to Sarah Harris on my second questions as well.

Thanks again,

Hi Salman - Documentation tracks and administers the borrowing OICs. Subject: OFA Loans and OIC

Hi Sarah,

Hoping you could help or point me in the right direction on this. I'd be happy to give you a call or come up to your office to quickly discuss…

There are two questions I am trying to answer:

1) If my understanding of the legal authorizations required for OFA to lend to entities is correct and that an OIC is needed for any lending the OFA intends to do; and
2) If my understanding is correct, would you have any documents/records to show that a certain OIC was done for the OFA-OPA (now IESO) facility

Background for my two questions:
My current understanding the legal requirements to do an OFA loan (pre- drafting an agreement). It is my understanding that:

- An OIC must authorize the Minister of Finance to lend to the OFA.
- Minister of Finance's Directive must then direct OFA to "on-lend" to Borrower subject to terms and conditions.

I assume this is the case and with that, I was trying to look for the OIC that would have been completed for the OFA to provide the current $975 million (originally could have been $475 million) revolving credit facility to the IESO (previously OPA). I don't think it was an specific one for this on-lending and it may be an old one. I have attached the most recent OIC that I could find and it makes reference to:

WHEREAS pursuant to Order in Council 675/97 made under subsection 22(1) of the Capital Investment Plan Act, 1993, the Minister of Finance is authorized to lend Two Billion One Hundred and Sixty Million Dollars in lawful money of Canada to the Ontario Financing Authority (the "OF A");

And based on OIC tracking that I had seen in 2013 by OFA Documentation, this $975 million is included

under that amount.

Thank you,
Salman

Hi San,

Sarah asked me to address this request

The only changes are as follows:

OIC 1883/06 - $800,000,000 - the amended maturity date is June 1, 2041 (previously November 1, 2032).
OIC 2144/07 - $2,000,000,000 - the amended maturity date is June 1, 2041 (previously December 1, 2037).

and the changes have been made to the OFA Summary attached.

These updates take into account the amendment to the maturity dates incorporated in OIC 844/2008 (attached for your reference).

Other than that:

I can confirm that the total OIC amounts remains unchanged as of March 31, 2017. I can also confirm that there have been no additional OICs. I cannot however, comment on any loans or transactions undertaken under the OICs. Documentation does not keep track of this. If needed, I believe that Corporate Finance keeps track of this information. As such the supporting documentation provided is comprised of copies of the OIC's in question.

Andrea

Good morning Siva,

I can confirm that the total OIC amounts remains unchanged as of March 31, 2016. I can also confirm that there have been no additional OICs. I cannot however, comment on any loans or transactions undertaken under the OICs. Documentation does not keep track of this. I believe that corporate finance keeps track of this information. As such the supporting documentation I can provide is copies of the OIC's in question.

Thank you,
Lenin

On the recommendation of the undersigned, the Lieutenant Governor, by and with the advice and concurrence of the Executive Council, orders that:

Sur la recommandation du soussigné, le lieutenant-gouverneur, sur l'avis et avec le consentement du Conseil des ministres, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow Two Billion One Hundred and Sixty Million Dollars from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion One Hundred and Sixty Million Dollars in lawful money of Canada to the OFA on the following terms and conditions:

RE OIC Total Amount for OFA Loans.msg

HI Andrea and Kelly,

Since Andrea is familiar with OICs, and Kelly is familiar with the IESO agreements, may I ask you to jointly look into the request below, while concurrently referring to Sarah Neville's attached e-mail. Andrea, you are familiar with the OICs, as you helped verify that they still exists as at March 31, 2017 (attached).

I don't know which spreadsheet that Salman is referring to regarding tracking the remaining authority. Per Lenin's attached e-mail, he says "I cannot however, comment on any loans or transactions undertaken under the OICs. Documentation does not keep track of this. I believe that corporate finance keeps track of this information. As such the supporting documentation I can provide is copies of the OIC's in question."

Thanks,
Sarah

Hi Sarah,

Hoping you're the person for this but please let me know otherwise.

I was hoping you could provide a copy of OICs the OFA has received for lending purposes, specifically, OICs 675/1997 and 767/1999. I am trying to see which, if at all, OIC authorized the amounts that OFA has to on-lend to the OPA (now IESO), re: $975 million agreement. I remember Lenin had once sent a spreadsheet tracking the availability remaining under the OICs and the OPA/IESO $975M facility was on there.

Thank you,
Salman

Salman –

The OFA's authority to borrow is set out in its' general borrowing by-law, By-Law #12 (see document at below link) which is approved by resolution of the Board and requires the additional approval of the Minister.

Under section 1(a)(i), the by-law permits borrowing by the OFA from the Minister of Finance, such amounts as the Minister of Finance is authorized by OIC to lend to the OFA.

http://portal.ofina.on.ca/sites/ld/ofaboard/administration/ByLaws/General%20Borrowing%20and%20Financing%20By-Law%2012.pdf

So, yes, borrowing from the Province by the OFA must not exceed amounts the Minister is authorized by OIC to lend.

Please let me know if you have questions or would like to discuss further.

Thanks Sarah.

Is it fine to say that the OFA needs to have room within an OIC to be able to lend to an entity (or in other words, an OIC (alongside other approvals like Minister's directive etc) to ensure the OFA can lend? I believe this is true but wanted to get a definite answer.

I've reached out to Sarah Harris on my second questions as well.

Thanks again,
Salman

Hi Salman - Documentation tracks and administers the borrowing OICs. Lenin asked me about the IESO Credit Facility back in the summer and Lisa was assigned as a result of the inquiry (so I've copied her as well). I am not sure but I think Lenin may be away, so I am copying Sarah Harris with your query.

Please let me know if you require anything further.

Subject: OFA Loans and OIC

Hi Sarah,

Hoping you could help or point me in the right direction on this. I'd be happy to give you a call or come up to your office to quickly discuss…

There are two questions I am trying to answer:

1) If my understanding of the legal authorizations required for OFA to lend to entities is correct and that an OIC is needed for any lending the OFA intends to do; and
2) If my understanding is correct, would you have any documents/records to show that a certain OIC was done for the OFA-OPA (now IESO) facility

Background for my two questions:
My current understanding the legal requirements to do an OFA loan (pre- drafting an agreement). It is my understanding that:

- An OIC must authorize the Minister of Finance to lend to the OFA.
- Minister of Finance's Directive must then direct OFA to "on-lend" to Borrower subject to terms and conditions.

I assume this is the case and with that, I was trying to look for the OIC that would have been completed for the OFA to provide the current $975 million (originally could have been $475 million) revolving credit facility to the IESO (previously OPA). I don't think it was an specific one for this on-lending and it may be an old one. I have attached the most recent OIC that I could find and it makes reference to:

WHEREAS pursuant to Order in Council 675/97 made under subsection 22(1) of the Capital Investment Plan Act, 1993, the Minister of Finance is authorized to lend Two Billion One Hundred and Sixty Million Dollars in lawful money of Canada to the Ontario Financing Authority (the "OF A");

And based on OIC tracking that I had seen in 2013 by OFA Documentation, this $975 million is included

under that amount.

Thank you,
Salman

Hi San,

Sarah asked me to address this request

The only changes are as follows:

OIC 1883/06 - $800,000,000 - the amended maturity date is June 1, 2041 (previously November 1, 2032).

OIC 2144/07 - $2,000,000,000 - the amended maturity date is June 1, 2041 (previously December 1, 2037).

and the changes have been made to the OFA Summary attached.

These updates take into account the amendment to the maturity dates incorporated in OIC 844/2008 (attached for your reference).

Other than that:

I can confirm that the total OIC amounts remains unchanged as of March 31, 2017. I can also confirm that there have been no additional OICs. I cannot however, comment on any loans or transactions undertaken under the OICs. Documentation does not keep track of this. If needed, I believe that Corporate Finance keeps track of this information. As such the supporting documentation provided is comprised of copies of the OIC's in question.

Andrea

Good morning Siva,

I can confirm that the total OIC amounts remains unchanged as of March 31, 2016. I can also confirm that there have been no additional OICs. I cannot however, comment on any loans or transactions undertaken under the OICs. Documentation does not keep track of this. I believe that corporate finance keeps track of this information. As such the supporting documentation I can provide is copies of the OIC's in question.

Thank you,

Lenin

Décret

On the recommendation of the undersigned, the Lieutenant Governor, by and with the advice and concurrence of the Executive Council, orders that:

Sur la recommandation du soussigné, le lieutenant-gouverneur, sur l'avis et avec le consentement du Conseil des ministres, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow Two Billion One Hundred and Sixty Million Dollars from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion One Hundred and Sixty Million Dollars in lawful money of Canada to the OFA on the following terms and conditions:
