Sarah,

Draft email is as follows- not sure if you want to attach current rendition of the May 5 , 2017 spreadsheet but assumed yes at this point.

Hi Mara,

Documentation assists in obtaining OFA lending OIC's. However, Documentation does not originate the loans/loan agreements and is reliant on Corporate Finance for the provision and verification of borrowing activity under such OIC's in order to ensure that lending activity is captured in OIC tables and the OFA does not exceed the borrowing authority under the applicable OIC's. A such, we propose sending the spreadsheet on a monthly basis for Corporate Finance to confirm. We will need to clarify the impact of capitalized interest and how it is determined as it seems unclear (the source and impact on amounts allocated under the OICs) based on past reporting. We have not specified Capitalized Interest or Repayments at this point. Note that we have made changes to the spreadsheet since we initially sent it to Corporate Finance on May 8, 2017. The current iteration is attached for consideration then further discussion to ensure consensus.

It is our understanding that Corporate Finance, with the assistance of OFA legal, prepares an annual lending directive which includes an estimate of the approved annual OFA lending. During the course of this process, OFA legal confirms with Corporate Finance whether there is sufficient authority under existing OIC's or whether a new OFA lending OIC must be sought.

In the past, Accounting has not provided/verified the loan information as it impacts OIC tables. With the implementation of OLMS, we are aware that information flows/inputs may have been affected. In the event that the introduction of OLMS means existing processes need to change, Corporate Finance and Documentation will need to coordinate with Accounting on the best approach.

Hi Andrea,

Corporate Finance does not administer the OFA loans or the OLMS. To confirm amounts repaid, capitalized interest, etc. you should contact OFA's Accounting group (Siva Nathan). Also, I believe that the maturity date noted for the Ontario Infrastructure and Lands Corporation line of credit is incorrect. OILC's last line of credit expired in June 2016. We recently started working with IO on a new line of credit facility but the details have yet to be finalized. In addition, we have been in discussion with MAESD regarding providing loans totalling $300M to colleges and universities in 2017-18 for energy retrofit projects but this loan program has yet to go forward for Treasury Board and Cabinet approval.

Thanks,

Mara

Subject: OFA Loan Update as at May 5, 2017

Hi,

Please find attached the updated listing of the OFA Loans as at May 5, 2017. We used the Oct 31, 2013 as the base and then we removed (moved to bottom) what seemed to have matured or no longer exist based on OLMS (current loan system), added new and updated Borrowing Authority Allocated based on OLMS as applicable. We adjusted some maturity dates (OILC and OEFC lines of credit maturity dates) which were incorrect based on documentation in place.

The last update was a joint effort between Documentation and Salman in 2013. We ask that Corporate Finance review to ensure its agreement with the attached update dated May 5, 2017.

We are aware of no new school loans but we rely on Corporate Finance for updated information regarding new loans.

Let me know should you have any questions or concerns.

Hi Sarah,

Please find the revised Amending Agreement 10. According to Risa, if there are no new requests for advancements the balance is the same as the two grid notes sent to Olga. I asked who would cross out and initial the incorrect $975,000,000 Loan Limit and she offered to create a new grid not correcting this. She says a correction will take very little time.

I suspect Anthony of IESO can provide with the as-of-date to include in the Amending Agreement.

Commented [LS13]: Make sure definition updated.

Commented [WT14]:

Commented [WT15]: Confirmed last advance will be 7 calendar days before the CF agreement expires.

Commented [SH16]: Does this need any tweeking to take into account our definition of "Continued Advance" under 3.2 (2)?

Commented [LS17]: Please see changes

Commented [WT18]: Discussed the language with Carlos Yep. He is satisfied that Section 3.3.2 and 3.3.3 provides choice of either repayment or advance for a further period. The reset rate would apply to the portion that is extended. Unless I'm not understanding the question.

Commented [LS19]: This section and accompanying form needs further consideration/amendments. Need to add a provision re: interest rate for any such extension if applicable (unless treated as a late payment). LEGAL to review again.

Commented [SH21]: Think this should just be the Advance.

Credit Facility Grid Note

Subject: Credit Facility - Lending to IESO
Date: Tuesday, May 09, 2017 3:44:18 PM
Attachments: History of OPA Amending Agreements.doc

Hi Will,

We have the attached request from IESO to set-up a credit facility for IESO to borrow $1,500 to fund the Fair Hydro Program. I am going to ask you to work on this file, please.

Currently, IESO has credit facilities with the OFA and OEFC.

The $975M facility referred to in the attached letter is an existing credit facility between the OFA and IESO. The original agreement for the credit facility, signed in 2005, was between the OPA and OFA. However, in 2014/2015, the OPA and IESO merged to simply form "IESO". Hence, the 2005 OPA-OFA credit facility became the OFA-IESO credit facility.

IESO is asking to either modify the $975M OFA-IESO credit facility to include an additional $1,500 with the proposed provisions in the letter **OR** to set up a new credit facility with the proposed provisions in the letter. It is not certain which route we should be going yet, and whether the credit facility for the $1500M should be with the OFA or OEFC.

The first step is to review the original $975M OFA-IESO credit facility agreement to see how the provisions that are being proposed compare to provisions in the agreement.. You'll note that there are 9 amending agreements, but Lenin has included history for eight of the agreements(attached). I believe the 9th amending agreement extends the date (among possibly amended provisions) It think the best way to do this is to prepare a chart to compare the proposed provisions (the 5 bullet points in the letter) to the existing provisions in the agreement.

The files are located here:

This file is time sensitive, so I would need a draft by end of day tomorrow, please. If you need Andrea to assist with T-Bills and IO Loans tomorrow, please let me know. Your other projects can be put on the back burner.

Thanks,
Sarah

Hi Malle,

This is just a heads-up that we have been requested by Mike Manning to draft a non-disclosure agreement for hiring a dealer to advise on certain pricing matters for Hydro. I have very little information and Opal is seeking more detail, but I have been told that this is needed ASAP.

I don't recall Documentation ever drafting such an agreement, but perhaps you have some experience.

I am copying Kelly, as he is just finding out now that I will be asking his assistance to work on this.

I'll touch base with you in the morning when I have more detail.

Thanks,

DIRECTIVE

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

Pursuant to OIC ####, the Minister of Finance is authorized to lend a maximum of $2 billion

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of short to medium term financing related to the OFHP.

Commented [LS1]: Program area to confirm; differs from LRC form

The OFA will be borrowing funds for this requested credit facility under the authority of OIC ###.

Therefore:

i) **Line of Credit**

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate established as of [insert], equal to the Province's cost of funds as based on the term as set out the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread to cover the OFA's lending costs ("Cost Recovery Fee").

Commented [LS2]: Program area

- Advances under the Line of Credit will only be made at the request and on the recommendation of the Minister of Energy.

Commented [LS3]: Business decision; program area to confirm.

Commented [LS4]: Further discussion required. This may require the Minister of Energy to be a party to the loan agreement.

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than five years after the execution of the Credit Agreement.

Commented [LS5]: Is this reasonable given the principal amount of the line? Previous draft provided had 40 year term (as per draft OIC). IESO has requested 5 year term in letter dated 05/12/17,

DRAFT

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

ii) Retention of spread

Pursuant to Order in Council ####, made under sub-section 22(1) of CIPA, the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for the Line of Credit made under the authority of this Directive, the amount of the spread retained by the OFA shall be for the amount of the Cost Recovery Fee as set out above.

Commented [LS6]: Confirm authorization is contained in new OIC

Commented [LS7]: As previously discussed, this is a business decision. My understanding is that this is generally retained only where there is commercial risk. Should this be remitted back to the Province?

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

Pursuant to OIC ####, the Minister of Finance is authorized to lend a maximum of $2 billion

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of short to medium term financing related to the OFHP.

Commented [LS1]: Program area to confirm; differs from LRC form

The OFA will be borrowing funds for this requested credit facility under the authority of OIC ###.

Therefore:

i) **Line of Credit**

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate established as of [insert], equal to the Province's cost of funds as based on the term as set out the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread to cover the OFA's lending costs ("Cost Recovery Fee").

Commented [LS2]: Program area

- Advances under the Line of Credit will only be made at the request and on the recommendation of the Minister of Energy.

Commented [LS3]: Business decision; program area to confirm.

Commented [LS4]: Further discussion required. This may require the Minister of Energy to be a party to the loan agreement.

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than five years after the execution of the Credit Agreement.

Commented [LS5]: Is this reasonable given the principal amount of the line? Previous draft provided had 40 year term (as per draft OIC). IESO has requested 5 year term in letter dated 05/12/17,

DRAFT

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

ii) Retention of spread

Pursuant to Order in Council ####, made under sub-section 22(1) of CIPA, the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for the Line of Credit made under the authority of this Directive, the amount of the spread retained by the OFA shall be for the amount of the Cost Recovery Fee as set out above.

Commented [LS6]: Confirm authorization is contained in new OIC

Commented [LS7]: As previously discussed, this is a business decision. My understanding is that this is generally retained only where there is commercial risk. Should this be remitted back to the Province?

Hello Mike,

Per your conversation with Opal, attached is a form of Non-Disclosure Agreement that can be sent to Ministry of Energy for their consideration.

You may note to MOE that the agreement may still require some additional detail, and that we have highlighted for them on the first page of the draft a number of issues that they may want to consider incorporating, including the clarification of the scope services provided and any relevant conflicts of interest. They may also want to consider entering into a separate agreement for advisory services, as discussed on the first page of the draft.

Thanks,

Sarah

Considerations regarding this NDA and the retention of an adviser:

Some issues that should be considered in retaining an adviser:

- Exactly what is the scope of the advice being sought. If the advice is restricted to advising on market timing and potential demand for certain securities, this is more limited than broader advice relating to structuring the transaction;
- It should be clear who the adviser is working for, and how the advice will be presented to the Province.
- Are there potential conflicts of interest between the adviser's role as an adviser and as a potential underwriter or other business of the adviser?

In addition, it should be considered whether it is appropriate to have an adviser without an agreement for the services that the adviser would be providing. The NDA protects the Province with respect to the disclosure of the information to third parties, but it does not set out the role, responsibilities or other matters relating to conflicts or other duties of the adviser. Terms of such an agreement that may be considered in such a context include:

- Scope of engagement;
- Performance Warranty – setting out the standard to which the adviser is to carry out the work and provide advice;
- Copyright and IP provisions;
- Conflict of interest provisions – setting out the primary duties of the adviser and how they must conduct themselves with respect to any potential conflicts;
- Indemnities – setting out the adviser's indemnities to the MOE for certain risks.

ADVANCES

Section 3.1 Advances.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Short-Term Credit Facility from time to time on any Business Day prior to August 31, 2022.

Commented [WT2]: Question for Lisa, other agreements stop taking advances one month before the agreement is set to expire. Since FHP has a 7 day minimum advancement should this be moved upto September 23, 2022?

Section 3.2 **Procedure for Advances.**

(1) Subject to Section 3.3(3), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a **"Borrowing Notice")** shall be substantially in the form of Schedule 1, shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance, and (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall be not later than 7 days and not later than 95 days after the date of the requested Advance. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3. The IESO authorizes the OFA to record on the grid promissory note (a) the date and amount of each Advance, including any Advance all or a portion of which is continued by election under Section 3.3; (b) the applicable rate of interest for each Advance; (c) the Repayment Date of each Advance; (d) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (e) the

outstanding principal amount of the grid promissory note. Such notations, in the absence of manifest error, shall be prima facie evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance for a further period of 7 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each election to continue an Advance for a further period shall be made one Business Day's prior notice given, in each case, not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each such notice (an **"Election Notice")** shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify (a) the requested date of the proposed election, (b) the aggregate principal election amount, and (c) the new Repayment Date, which shall be no earlier than 7 days and not later than 95 days after the current Repayment Date. If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(4) The Note shall at all times rank *pari passu* with all other unsubordinated Indebtedness of IESO, subject to the existence of any Permitted Liens of IESO.

(5) All amounts owing in respect of the Advances shall be paid without exercising any right or set off or counterclaim by IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the OFA's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will

be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the IESO promissory note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the IESO to make the Advances pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO; and

Hi Sarah,

The FHP seems to be taking shape but (as should be reasonably expected) much of the information is coming to me in bits and pieces. Would be good to have a Doc staff familiar with this as more info becomes available or is being developed. It's being kept at a fairly high level at this time, but don't want to be surprised if Documentation is needed to jump in. I've included the emails on the subject to help provide some context – they aren't all helpful though. What I've sent is for review and provide opportunity to comment as well as to ask questions.

FINANCING TRUST – PERFORMANCE FEE TO OPG

BACKGROUND

Ontario Power Generation Inc. (OPG) has been appointed the Financial Services Manager under the Fair Hydro Plan Act, 2017 to, among other things evaluate whether funding obligations should be incurred by the Trust for the purpose of acquiring and financing an investment interest. A performance fee relating to the funding obligations will be meaningful and allow OPG to make decisions that will significantly impact its return. The Act as drafted enables OPG to achieve its accounting objective of consolidation of the Trust with OPG, and the ability to earn a return and take on risk, through its control of the Trust.. The objective therefore is to recommend a reasonable variable performance fee structure for OPG to earn a return from the Trust, and meet the accounting requirement.

ANALYSIS OF ACCOUNTING REQUIREMENT

To support the accounting consolidation, OPG's variable performance return will be accomplished through the followings:

a. The cash flow from the investment asset shall include interest determined based on a relevant benchmark that is appropriate relative to the investment asset, plus an appropriate margin consistent with the relevant market and other risks
b. OPG shall have the authority to determine the financing strategy, which will vary the financing costs with the objective of enabling the Trust to achieve a more favorable return compared to the benchmark for interest on the investment asset
c. The Trust shall establish different classes of debt (senior, subordinated and the most subordinated). The classes would allow the Trust to delineate financing of lower risk investment and investment that would bear higher residual risk. The delineation would limit OPG's self-funded investment to a reasonable level in order to allow OPG to remain a self-sustaining entity.
d. OPG shall, through its ownership of the most subordinated liability, be able to capture and retain the pricing difference between cost of financing and benchmark for interest on the investment asset, or any residual risk of investment asset. The targeted return of the subordinated debt should be reflective of the underlying risks and compensate holders for active management that would be required.

PERFORMANCE FEE ANALYSIS

Based on the accounting requirements, the recommendation is for OPG to establish a variable performance fee structure as follows:

As the Trust may issue both long term bonds and medium term notes, benchmarks based on various terms, will be established on an annual basis, subject to the following methodology:

- Benchmarks will be established as the sum of (1) reference rate, and (2) spread
    - Both reference rate and spread will be term dependant

- For bond/note issuance, reference rate will be GOC rate of equivalent term
- Reference rate will be based on consensus forecast provided by various financial institutions

- Benchmarks will be established based on the weighted average rate of incremental debt issuance at the Trust level
- If the actual weighted average rate is lower than the corresponding benchmark, OPG will realize a gain, otherwise a loss
- Variable performance fee, i.e. gain/loss, is applicable only to OPG's investment in the Trust (5% of the funding requirement), and is capped at benchmark weighted average rate +/-1%

An example illustrating this structure is detailed in Appendix 1

APPENDIX 1

The illustration is based on the expected Trust debt structure as follows:

	Risk Profile	Source	% of Total Funding Requirement
Tranche A Senior Debt	the least risky	Capital Markets	51%
Tranche B Sub Debt	In between A&C	OPG via OEFC	39%
Tranche C Sub Debt	the most risky	OPG via OEFC	5%
		OPG via Capital Markets	5%

1. Benchmark is to be established at each year end for Trust issuance next year. In this example, assuming the following benchmark is established as of end of Yr 1

		Benchmark
Tranche A	51%	4.25%
Tranche B Sub Debt	39%	5.50%
Tranche C Sub Debt	10%	6.50%
Weighted Average Rate		**5.0%**

2. By the end of Yr 2, OPG will calculate the actual weighted average rate for all incremental issuance for the year. If the actual weighted average rate is lower than the corresponding benchmark, OPG will realize a gain, otherwise a loss.

	Allocation	Benchmark	Actual
Tranche A	51%	4.25%	5.0%
Tranche B Sub Debt	39%	5.50%	5.60%
Tranche C Sub Debt	10%	6.50%	6.60%
Weighted Average Rate		**5.0%**	5.4%
		Loss	0.4%

3. Variable management fee, i.e. gain/loss, is applicable only to OPG's investment (5% of the Trust funding requirement), and is capped at benchmark weighted average rate +/-1%.

   Based on the example above and assume incremental Trust issuance is $2B, OPG will realize loss of variable performance fee of 0.4M ($2B*5%*0.4%)

Fair Hydro Plan – Subordinated Debt Loan Arrangement
Term Sheet

- Parties: OPG, Fair Hydro Trust, OFA

- In accordance with the Master Subscription Agreement among OPG, OFA and Ministry of Energy, the Province agrees to inject 44% of total funding of GA asset by way of equity subscriptions in OPG, and OPG agrees to use the equity subscription amounts solely for funding the Fair Hydro Trust's subordinated debt (Equity Injection Plan) requirements as part of the Fair Hydro Plan

- OPG will lend the equity injection from the Province to Fair Hydro Trust by way of subordinated debt (one or more mezzanine level)

- Initial credit rating will be assigned to the subordinated debt of Fair Hydro Trust

- Based on monthly funding requirement of GA asset, the Trust will use short term financing, such as bank facilities, and take out bonds once accumulative short term funding reaches certain levels.

- The mechanism to implement Equity Injection Plan will be based on monthly equity injections reflecting funding requirements of GA asset

- Interest rates on the subordinated debt will be established as follows:

    - During the Trust short term financing period when bank facilities are used as funding vehicles, the interest rate on subordinated debt will be the sum of (1) funding rate on senior debt, and (2) additional spread margin of [xx], reflecting the credit rating difference between the senior and subordinated debt

    - At the time when senior bonds are being issued to take out (term out) the short term financing, OPG will seek indicative coupon rates on the subordinated debt from dealers, reflecting the sum of underlying Government of Government of Canada yield of equivalent term and the appropriate credit spread. The average indicative coupon rate from dealers will be calculated and set as the subordinated debt rate. The process will be similar to the one established for pricing of OPG debt drawn from OEFC facilities.

Hi all,

ENE MO asked for a quick note on 4 of the outstanding business issues that are being worked through and are hoping to see something tomorrow morning.

I've pulled together a high level explanation of each of the items and next steps/timing (to the extent I know).

Would greatly appreciate if you guys could take a look and provide any edits/comments today/early tomorrow if possible. I'm also not too involved in a few of these discussions so if there's others within OFA you think should review feel free to pass along.

Thanks in advance,
Kaitlin

Outstanding Business Issues – Ontario Fair Hydro Plan
Briefing Note

PURPOSE
Provide an overview of a few of the key remaining outstanding business issues that OPG and the Province are working through

BUSINESS ISSUES

1. **Provincial Support Agreement Term Sheet (~~Service and~~ Performance and Payment Guarantees)**
   - As part of the OFHP, the IESO will create and sell a regulatory asset to the OPG financing entity
   - In order to provide assurances to those with claims against the Financing Entity (eg. Holders of debt), and support credit ratings, the Province is providing both a Service Guarantee and a Performance Guarantee to ensure that the obligations of the IESO are carried out including obligations related to collecting and remitting clean energy adjustments.
   - **Next Steps:**
     - OPG and OFA and working towards the development of a term sheet
     - Timing: Guarantees are required to support rating agency review which is expected by the end of July

2. **Payments in Lieu of Taxes (PILs) Exemption**
   - The Province would like to minimize to the extent possible , the PILs payable by the OPG financing vehicle, as those costs will be recovered from ratepayers
   - The Province is considering regulation changes to exempt the income arising as a consequence of the Fair Hydro Plan from PILs
   - As part of the OFHP, the financing entity will raise debt and acquire "investment assets" from the IESO. Given the unique nature of the investment assets, there are no specific rules which govern the manner which investment assets should be treated for tax purposes, and further analysis is required to ensure the cost of the investment assets are appropriately recognized as a deduction or offset in computing the income of the financing entity
   - **Next Steps:**
     - The Ministries of Finance, OFA and OPG are working together to determine required regulation changes
     - Timing: [Next steps for a decision / when is a decision required / when would these regulation changes occur]

3. **Fair Hydro Plan - Master Subscription Agreement Term Sheet (Equity Injection Process)**

- OPG will require equity injections on a monthly basis in order to maintain its capital structure, and will require flexibility in order to issue shares as needed by the Province
- The Ministry of Energy received appropriation for $1.1B through PRRT to support equity injections for the 2017-18 period, and will continue to provide multi-year forecasts each year through PRRT
- **Next Steps:**
    - The Ministry of Energy, OFA and OPG are working through the short term mechanics of this process which will ultimately feed into a Master Subscription Agreement. A draft term sheet is underway.
    - Timing: OPG will require the ability to issue equity in July, so mechanics and agreements should be finalized in June

4. Management Fees

- OPG will be providing all required services to the Trust as part of the OFHP, including planning, strategy, financing, deal execution etc.
- The legislation allows OPG to establish and charge a management fee for those services in accordance with the regulations which are currently in development
- OPG and OEB are currently working together on a management fee structure that balances the interests of minimizing costs and satisfying accounting consolidation requirements
- **Next Steps:**
    - OPG and OEB will bring forward a recommended framework for developing management fees
    - Timing: For incorporation into regulations being brought forward in June

5. IESO – Increased Credit Facilities

- The OPG financing entity has the right to purchase the regulatory asset from IESO but does not have to purchase it.
- IESO is working with the OFA to increase the credit facilities in the event that the OPG financing entity does not purchase the regulatory asset
- **Next Steps:**
    - OFA is …..
    - Timing: ……

Thanks Carlos.

In the previous H1 related loans, the Minister of Energy signed the share purchase agreement and the Minister of Finance signed the loan agreement under the authority of an OIC. OFA staff act on behalf of the Minister of Finance in taking certain actions related to the loan. I am not sure that the Minister of Energy can delegate authority under the share purchase agreement for this equity injection (i.e. to make a decision to purchase shares) in the same way that OFA staff would deal with actions under a loan agreement. It may be that if there needs to be some quick turn-around in relation to funding OPG via the equity injection that maybe there might be a services agreement between the OFA and the Ministry of Energy. Perhaps, this only refers to how the money is being flowed and is more of a back-office function, and someone at the Ministry of Energy directs the OFA to take the action.

We will take a look at this term sheet too and provide some comments and questions.

Thanks.

Subject: Equity Injection Term Sheet

Hey John, Carlos,

Attached is a term sheet from OPG that would form the basis of the Equity Injection Agreement. I think this would be an agreement between ENE/OPG and OFA. While it currently says 5 business days in this document Clara flagged that the IESO may be looking for it to be settled in as quickly as 1 day. Given how quick this needs to happen I've included a line about ENE delegating authority to the OFA to manage this monthly process. I think ENE would want to be kept in the loop but I don't think they would need to sign off each month. That being said I haven't run this up the chain at ENE yet or discussed with ENE controllership.

Id defer to you guys for short term mechanics for the most part as you have the experience on the borrowing side. If you could take a look and mark-up where desired then maybe we can chat?

Let me know if you have any questions.

- Minister of Energy/Province approves Equity Injection Plan, and initial equity injection amount for 2017/18 fiscal year, and delegates to appropriate ministry staff authority to implement Equity Injection Plan (**Delegated Authority**)
- Long term, OPG equity requirements will form part of the business planning process in place between OPG and Ministry of Energy, ie, annually OPG to include forecasts of its equity requirements for the upcoming 3 years in its business plan submission -- NOTE: this portion of the business plan is not subject to concurrence by the shareholder
- Ministry of Energy will seek appropriation on an annual basis through PRRT for the amounts requested by OPG for its equity requirements-- NOTE: amount of annual appropriation to cover OPG multi year forecasts

Hi all,

We are also putting together an issues list for discussion with Energy Legal and Blakes and will share it with you as well.

Is there any type of draft term sheet for the proposed financing transaction itself or the master sales and servicing agreement? Any general description of the proposed transaction would be helpful to us.

Thank you.

CONFIDENTIAL AND PRIVILEGED LEGAL ADVICE

ISSUES LIST – PROVINCIAL SUPPORT AGREEMENT DRAFT MAY 12, 2017

1. Guarantor will be the Minister of Energy and the Minister of Finance on behalf of the Province (see. 5(3) of proposed Fair Hydro Act, 2017).

2. Description of proposed beneficiaries of guarantee is very broad. Provides that beneficiary is Indenture trustee under master trust indenture on behalf of itself and all persons that have claims against a Financing Entity secured under the master trust indenture. Persons range from the Financial Services Manager (OPG) to holders of various types of debt and hedge counterparties. Need to clarify which obligations the Province is being requested to guarantee and under what various agreements to determine scope and limit of guarantee. Is there a term sheet for the proposed financing to be issued by the Financing Entity? Is there a request for a guarantee of payment on other back-up or ancillary borrowing and obligations other than those issued in the market? Is there a draft of the Master Trust Indenture?

3. Why does the term of the guarantee continue for one year after the obligations have been repaid?

4. Performance Guarantee – This is also a very broad guarantee of performance of the IESO and all electricity services providers in favour of the same broad group of beneficiaries. How can the Province ensure that these entities perform their obligations practically? Also the Province is to protect beneficiaries from any commingling risk. It is noted that in the event the performance guarantee is unenforceable against the Province, there would be a separate legal obligation in the provincial support agreement to indemnify beneficiaries for any losses. Would there be any trigger events applicable to the obligation to indemnify as there are for the payment guarantee. If not, is this an issue for accounting treatment purposes? Also, is there an overlap between the performance and payment guarantee? So long as the funding obligations are paid on time by the financing entity, is there a need for other guarantees from the Province? Note that the Province does have immunity from specific types of enforcement under the Proceedings against the Crown Act. Is there a sample term sheet for the Master Sale and Servicing Agreement? Which provisions of the proposed bill are being relied on for this – is it section 5(2)? section 33. There doesn't seem to be a mechanism in the Act to replace the IESO as servicer. Should the Guarantee specify that the Province can appoint a replacement servicer?

5. Payment Guarantee Event – Regarding (B) and (C), the interpretation of when the triggering event has occurred will be an issue – is there a way to make it more objective or how can this be handled if there is a dispute? Regarding (D), think that there is going to be more discussion of the need for this provision from a business perspective. However, is this assuming, that the Province is guaranteeing both long term and short

term funding obligations? Need to clarify when and which obligations the province will be guaranteeing?

6. Payment Guarantee – Again it will be necessary to clarify which obligations the province is guaranteeing to understand what the range of payments to be made are. Also, (y) does not seem acceptable to the Province from a business perspective.

7. Limits under Guarantee – The guarantee wording should be clear so that the Province is guaranteeing payment of certain debt or specific obligations only and the Province's liability should be capped. Province should not be exposed to the risk of any other types of damages or losses.

8. Priority of Payments – Until we know who the beneficiaries are and with respect to what obligations, it is difficult to comment on this.

9. Subrogation – Need to ensure that the Province has appropriate recovery rights and not sure that it is appropriate that all beneficiaries are paid in full before Province gets subrogation rights. Also there is no acceleration here and Province really pays on an ongoing basis so how should subrogation work in such a case.

10. Conditions Precedent – Need to know what they are proposed to be.

11. Representations – Need to know what they are proposed to be as Province does not typically provide representations in connection with guarantees it provides.

12. Confidentiality Obligations – Thought the guarantee is part of a public financing so wouldn't the terms all be known?

13. Legal Opinions – Content, who will be providing them and to whom would they be provided.

General Questions on proposed legislation and interaction with guarantee:

14. General review of relevant sections would be appreciated and how the provisions fit with the requirements of the financing. In particular, s. 5, 13, 19, 21, 22, 33, 41 par 7

Provincial Support Agreement Term Sheet

Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") is provided exclusively to the parties listed herein in connection with the draft Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Defined terms used herein have the meanings ascribed to them in the Act. The provincial support agreement (the "**Provincial Support Agreement**") will contain the terms and conditions set out in this Term Sheet in addition to such other representations, warranties, indemnities, and other terms and conditions as the Guarantor and the Beneficiaries (each as defined below) may reasonably require.*

Guarantor:	Her Majesty the Queen in right of Ontario, as represented by the Minister of Energy.
Beneficiaries:	The indenture trustee (together with its successors, the "**Indenture Trustee**") under the master trust indenture (the "**Master Trust Indenture**") on behalf of itself and all other persons having debt or other claims against a Financing Entity secured under the Master Trust Indenture (collectively, the "**Beneficiaries**") including, without limitation, holders of senior and subordinated notes, senior and subordinated lenders, hedge counterparties, credit enhancers, liquidity providers, the Financial Services Manager, the Indenture Trustee, the trustee of the Financing Entity if the Financing Entity is a trust, and any other administrator of the Financing Entity.
Term:	The Guarantor's obligations under the Provincial Support Agreement will continue until **[one year]**[1] after all funding obligations (to be defined to include principal, interest, fees, hedge settlement and termination obligations and other related amounts) of all Financing Entities have been repaid.

[1] This mirrors the requirement expected to be in the Regulations under the Act not to wind up, dissolve or liquidate a Financing Entity until at least one year after all of its Funding Obligations have been repaid.

Performance Guarantee:	Under the Master Sale and Servicing Agreement to be entered into by IESO and the Financing Entity, **[and OPG as Financial Services Manager]** ("**MSSA**"), IESO will have obligations both as a seller and as a servicer. Pursuant to a performance guarantee, the Guarantor will guarantee in favour of the Beneficiaries to perform, or cause the performance of (which may be by way of the appointment of a replacement servicer), the obligations of IESO as servicer under the MSSA and the Act including the obligations of any replacement servicer. The Guarantor will also guarantee the servicing obligations of the electricity vendors under the Act. The servicing obligations covered will include all obligations related to the collecting and remitting of clean energy adjustments and will protect the Beneficiaries from any risks arising from collections of clean energy adjustments being commingled with other amounts. In the event that the performance guarantee is unenforceable against the Guarantor, the Provincial Support Agreement will contemplate a separate legal obligation by the Guarantor to indemnify the Beneficiaries for any losses that result.
Payment Guarantee Event:	A Payment Guarantee Event will occur if: (A) the Legislative Assembly of Ontario repeals the Act; or (B) the Legislative Assembly of Ontario amends the Act or a Regulation thereunder is amended in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest; or (C) a court of competent jurisdiction (i) determines all or a portion of the Act to be *ultra vires* in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest or (ii) declares any funding obligations to be invalid or unenforceable; or (D) funding obligations are due and payable at a time when a market disruption (a period of [six months or more] when capital markets term funding is not available to effect refinancings of funding obligations) is occurring and, in the case of long term funding obligations only, a moratorium or limitation on the imposition and collection of clean energy adjustments to repay such funding obligations is in effect under the Act.

Payment Guarantee:	Upon the occurrence of a Payment Guarantee Event under clauses (A), (B) or (C) of the above definition: (x) the Guarantor shall assume and pay when due (without acceleration) all funding obligations and all other obligations of the Financing Entities to the Beneficiaries by paying all regularly scheduled amounts in respect thereof during the term of each Financing Entity's contractual obligation to such Beneficiaries; and (y) Beneficiaries holding funding obligations consisting of bonds [with a remaining term to maturity of greater than one year] shall have the option to put the bonds to the Financing Entity for a put price equal to 101% of the principal amount thereof plus accrued and unpaid interest. In connection with any put under this clause (y), the Guarantor shall guarantee payment of the put price and any related hedge breakage but shall not be responsible for any other default, penalty, prepayment or make whole amounts.
Limits under Guarantees:	Under no circumstances shall the Guarantor be obligated to indemnify any Beneficiary for special or punitive damages, or loss of profits.
Priority of Payments:	The priority of the Beneficiaries to any payment made by the Guarantor under the Provincial Support Agreement shall be governed by the priority provisions in the Master Trust Indenture.
Subrogation:	Where the Guarantor has repaid all Beneficiaries in full, to the extent of such payments the Guarantor shall be subrogated in and to all the rights of recovery of the Beneficiaries in respect of their applicable indebtedness and obligations and the security granted by a Financing Entity to the Indenture Trustee. After repayment by the Guarantor of all indebtedness and obligations owing to the Beneficiaries, the Indenture Trustee will acknowledge and agree on behalf of the Beneficiaries that the Guarantor is entitled to exercise all of the rights, powers and privileges that the Beneficiaries have or may exercise in respect of the repaid indebtedness and obligations, all in accordance with the terms of the Master Trust Indenture. Prior to the repayment in full of the indebtedness and obligations owed to the Beneficiaries, the Guarantor shall have no rights of subrogation.
Notice Requirements:	The Indenture Trustee will be required to provide notice to the Guarantor of a Payment Guarantee Event and may in such notice demand payment or performance of the Guarantor's obligation under the Provincial Support Agreement, as applicable.

Closing:	Date to be determined but no later than **[**■, 2017**]**. The Closing is the date on which the documents in respect of the MSSA, the Master Trust Indenture and all related documentation are executed and delivered.
Reporting Requirements of a Financing Entity:	The Guarantor will be entitled to receive all reports received by the Indenture Trustee under the Master Trust Indenture.

Hi Sarah,

The FHP seems to be taking shape but (as should be reasonably expected) much of the information is coming to me in bits and pieces. Would be good to have a Doc staff familiar with this as more info becomes available or is being developed. It's being kept at a fairly high level at this time, but don't want to be surprised if Documentation is needed to jump in. I've included the emails on the subject to help provide some context – they aren't all helpful though. What I've sent is for review and provide opportunity to comment as well as to ask questions.

FINANCING TRUST – PERFORMANCE FEE TO OPG

BACKGROUND

Ontario Power Generation Inc. (OPG) has been appointed the Financial Services Manager under the Fair Hydro Plan Act, 2017 to, among other things evaluate whether funding obligations should be incurred by the Trust for the purpose of acquiring and financing an investment interest. A performance fee relating to the funding obligations will be meaningful and allow OPG to make decisions that will significantly impact its return. The Act as drafted enables OPG to achieve its accounting objective of consolidation of the Trust with OPG, and the ability to earn a return and take on risk, through its control of the Trust.. The objective therefore is to recommend a reasonable variable performance fee structure for OPG to earn a return from the Trust, and meet the accounting requirement.

ANALYSIS OF ACCOUNTING REQUIREMENT

To support the accounting consolidation, OPG's variable performance return will be accomplished through the followings:

a. The cash flow from the investment asset shall include interest determined based on a relevant benchmark that is appropriate relative to the investment asset, plus an appropriate margin consistent with the relevant market and other risks
b. OPG shall have the authority to determine the financing strategy, which will vary the financing costs with the objective of enabling the Trust to achieve a more favorable return compared to the benchmark for interest on the investment asset
c. The Trust shall establish different classes of debt (senior, subordinated and the most subordinated). The classes would allow the Trust to delineate financing of lower risk investment and investment that would bear higher residual risk. The delineation would limit OPG's self-funded investment to a reasonable level in order to allow OPG to remain a self-sustaining entity.
d. OPG shall, through its ownership of the most subordinated liability, be able to capture and retain the pricing difference between cost of financing and benchmark for interest on the investment asset, or any residual risk of investment asset. The targeted return of the subordinated debt should be reflective of the underlying risks and compensate holders for active management that would be required.

PERFORMANCE FEE ANALYSIS

Based on the accounting requirements, the recommendation is for OPG to establish a variable performance fee structure as follows:

As the Trust may issue both long term bonds and medium term notes, benchmarks based on various terms, will be established on an annual basis, subject to the following methodology:

- Benchmarks will be established as the sum of (1) reference rate, and (2) spread
    - Both reference rate and spread will be term dependant

- For bond/note issuance, reference rate will be GOC rate of equivalent term
- Reference rate will be based on consensus forecast provided by various financial institutions

- Benchmarks will be established based on the weighted average rate of incremental debt issuance at the Trust level
- If the actual weighted average rate is lower than the corresponding benchmark, OPG will realize a gain, otherwise a loss
- Variable performance fee, i.e. gain/loss, is applicable only to OPG's investment in the Trust (5% of the funding requirement), and is capped at benchmark weighted average rate +/-1%

An example illustrating this structure is detailed in Appendix 1

APPENDIX 1

The illustration is based on the expected Trust debt structure as follows:

	Risk Profile	Source	% of Total Funding Requirement
Tranche A Senior Debt	the least risky	Capital Markets	51%
Tranche B Sub Debt	In between A&C	OPG via OEFC	39%
Tranche C Sub Debt	the most risky	OPG via OEFC	5%
		OPG via Capital Markets	5%

1. Benchmark is to be established at each year end for Trust issuance next year. In this example, assuming the following benchmark is established as of end of Yr 1

		Benchmark
Tranche A	51%	4.25%
Tranche B Sub Debt	39%	5.50%
Tranche C Sub Debt	10%	6.50%
Weighted Average Rate		**5.0%**

2. By the end of Yr 2, OPG will calculate the actual weighted average rate for all incremental issuance for the year. If the actual weighted average rate is lower than the corresponding benchmark, OPG will realize a gain, otherwise a loss.

	Allocation	Benchmark	Actual
Tranche A	51%	4.25%	5.0%
Tranche B Sub Debt	39%	5.50%	5.60%
Tranche C Sub Debt	10%	6.50%	6.60%
Weighted Average Rate		**5.0%**	5.4%
		Loss	0.4%

3. Variable management fee, i.e. gain/loss, is applicable only to OPG's investment (5% of the Trust funding requirement), and is capped at benchmark weighted average rate +/-1%.

   Based on the example above and assume incremental Trust issuance is $2B, OPG will realize loss of variable performance fee of 0.4M ($2B*5%*0.4%)

Fair Hydro Plan – Subordinated Debt Loan Arrangement
Term Sheet

- Parties: OPG, Fair Hydro Trust, OFA

- In accordance with the Master Subscription Agreement among OPG, OFA and Ministry of Energy, the Province agrees to inject 44% of total funding of GA asset by way of equity subscriptions in OPG, and OPG agrees to use the equity subscription amounts solely for funding the Fair Hydro Trust's subordinated debt (Equity Injection Plan) requirements as part of the Fair Hydro Plan

- OPG will lend the equity injection from the Province to Fair Hydro Trust by way of subordinated debt (one or more mezzanine level)

- Initial credit rating will be assigned to the subordinated debt of Fair Hydro Trust

- Based on monthly funding requirement of GA asset, the Trust will use short term financing, such as bank facilities, and take out bonds once accumulative short term funding reaches certain levels.

- The mechanism to implement Equity Injection Plan will be based on monthly equity injections reflecting funding requirements of GA asset

- Interest rates on the subordinated debt will be established as follows:

    - During the Trust short term financing period when bank facilities are used as funding vehicles, the interest rate on subordinated debt will be the sum of (1) funding rate on senior debt, and (2) additional spread margin of [xx], reflecting the credit rating difference between the senior and subordinated debt

    - At the time when senior bonds are being issued to take out (term out) the short term financing, OPG will seek indicative coupon rates on the subordinated debt from dealers, reflecting the sum of underlying Government of Government of Canada yield of equivalent term and the appropriate credit spread. The average indicative coupon rate from dealers will be calculated and set as the subordinated debt rate. The process will be similar to the one established for pricing of OPG debt drawn from OEFC facilities.

Subject: OFHP - Outstanding business issues

Hi all,

ENE MO asked for a quick note on 4 of the outstanding business issues that are being worked through and are hoping to see something tomorrow morning.

I've pulled together a high level explanation of each of the items and next steps/timing (to the extent I know).

Would greatly appreciate if you guys could take a look and provide any edits/comments today/early tomorrow if possible. I'm also not too involved in a few of these discussions so if there's others within OFA you think should review feel free to pass along.

Thanks in advance,
Kaitlin

Outstanding Business Issues – Ontario Fair Hydro Plan
Briefing Note

PURPOSE
Provide an overview of a few of the key remaining outstanding business issues that OPG and the Province are working through

BUSINESS ISSUES

1. **Provincial Support Agreement Term Sheet (~~Service and~~ Performance and Payment Guarantees)**
   - As part of the OFHP, the IESO will create and sell a regulatory asset to the OPG financing entity
   - In order to provide assurances to those with claims against the Financing Entity (eg. Holders of debt), and support credit ratings, the Province is providing both a Service Guarantee and a Performance Guarantee to ensure that the obligations of the IESO are carried out including obligations related to collecting and remitting clean energy adjustments.
   - **Next Steps:**
     - OPG and OFA and working towards the development of a term sheet
     - Timing: Guarantees are required to support rating agency review which is expected by the end of July

2. **Payments in Lieu of Taxes (PILs) Exemption**
   - The Province would like to minimize to the extent possible , the PILs payable by the OPG financing vehicle, as those costs will be recovered from ratepayers
   - The Province is considering regulation changes to exempt the income arising as a consequence of the Fair Hydro Plan from PILs
   - As part of the OFHP, the financing entity will raise debt and acquire "investment assets" from the IESO. Given the unique nature of the investment assets, there are no specific rules which govern the manner which investment assets should be treated for tax purposes, and further analysis is required to ensure the cost of the investment assets are appropriately recognized as a deduction or offset in computing the income of the financing entity
   - **Next Steps:**
     - The Ministries of Finance, OFA and OPG are working together to determine required regulation changes
     - Timing: [Next steps for a decision / when is a decision required / when would these regulation changes occur]

3. **Fair Hydro Plan - Master Subscription Agreement Term Sheet (Equity Injection Process)**

- OPG will require equity injections on a monthly basis in order to maintain its capital structure, and will require flexibility in order to issue shares as needed by the Province
- The Ministry of Energy received appropriation for $1.1B through PRRT to support equity injections for the 2017-18 period, and will continue to provide multi-year forecasts each year through PRRT
- **Next Steps:**
    - The Ministry of Energy, OFA and OPG are working through the short term mechanics of this process which will ultimately feed into a Master Subscription Agreement. A draft term sheet is underway.
    - Timing: OPG will require the ability to issue equity in July, so mechanics and agreements should be finalized in June

4. Management Fees

- OPG will be providing all required services to the Trust as part of the OFHP, including planning, strategy, financing, deal execution etc.
- The legislation allows OPG to establish and charge a management fee for those services in accordance with the regulations which are currently in development
- OPG and OEB are currently working together on a management fee structure that balances the interests of minimizing costs and satisfying accounting consolidation requirements
- **Next Steps:**
    - OPG and OEB will bring forward a recommended framework for developing management fees
    - Timing: For incorporation into regulations being brought forward in June

5. IESO – Increased Credit Facilities

- The OPG financing entity has the right to purchase the regulatory asset from IESO but does not have to purchase it.
- IESO is working with the OFA to increase the credit facilities in the event that the OPG financing entity does not purchase the regulatory asset
- **Next Steps:**
    - OFA is …..
    - Timing: ……

Thanks Carlos.

In the previous H1 related loans, the Minister of Energy signed the share purchase agreement and the Minister of Finance signed the loan agreement under the authority of an OIC. OFA staff act on behalf of the Minister of Finance in taking certain actions related to the loan. I am not sure that the Minister of Energy can delegate authority under the share purchase agreement for this equity injection (i.e. to make a decision to purchase shares) in the same way that OFA staff would deal with actions under a loan agreement. It may be that if there needs to be some quick turn-around in relation to funding OPG via the equity injection that maybe there might be a services agreement between the OFA and the Ministry of Energy. Perhaps, this only refers to how the money is being flowed and is more of a back-office function, and someone at the Ministry of Energy directs the OFA to take the action.

We will take a look at this term sheet too and provide some comments and questions.

Thanks.

Subject: Equity Injection Term Sheet

Hey John, Carlos,

Attached is a term sheet from OPG that would form the basis of the Equity Injection Agreement. I think this would be an agreement between ENE/OPG and OFA. While it currently says 5 business days in this document Clara flagged that the IESO may be looking for it to be settled in as quickly as 1 day. Given how quick this needs to happen I've included a line about ENE delegating authority to the OFA to manage this monthly process. I think ENE would want to be kept in the loop but I don't think they would need to sign off each month. That being said I haven't run this up the chain at ENE yet or discussed with ENE controllership.

Id defer to you guys for short term mechanics for the most part as you have the experience on the borrowing side. If you could take a look and mark-up where desired then maybe we can chat?

Let me know if you have any questions.

Hi all,

We are also putting together an issues list for discussion with Energy Legal and Blakes and will share it with you as well.

Is there any type of draft term sheet for the proposed financing transaction itself or the master sales and servicing agreement? Any general description of the proposed transaction would be helpful to us.

Thank you.

CONFIDENTIAL AND PRIVILEGED LEGAL ADVICE

ISSUES LIST – PROVINCIAL SUPPORT AGREEMENT DRAFT MAY 12, 2017

1. Guarantor will be the Minister of Energy and the Minister of Finance on behalf of the Province (see. 5(3) of proposed Fair Hydro Act, 2017).

2. Description of proposed beneficiaries of guarantee is very broad. Provides that beneficiary is Indenture trustee under master trust indenture on behalf of itself and all persons that have claims against a Financing Entity secured under the master trust indenture. Persons range from the Financial Services Manager (OPG) to holders of various types of debt and hedge counterparties. Need to clarify which obligations the Province is being requested to guarantee and under what various agreements to determine scope and limit of guarantee. Is there a term sheet for the proposed financing to be issued by the Financing Entity? Is there a request for a guarantee of payment on other back-up or ancillary borrowing and obligations other than those issued in the market? Is there a draft of the Master Trust Indenture?

3. Why does the term of the guarantee continue for one year after the obligations have been repaid?

4. Performance Guarantee – This is also a very broad guarantee of performance of the IESO and all electricity services providers in favour of the same broad group of beneficiaries. How can the Province ensure that these entities perform their obligations practically? Also the Province is to protect beneficiaries from any commingling risk. It is noted that in the event the performance guarantee is unenforceable against the Province, there would be a separate legal obligation in the provincial support agreement to indemnify beneficiaries for any losses. Would there be any trigger events applicable to the obligation to indemnify as there are for the payment guarantee. If not, is this an issue for accounting treatment purposes? Also, is there an overlap between the performance and payment guarantee? So long as the funding obligations are paid on time by the financing entity, is there a need for other guarantees from the Province? Note that the Province does have immunity from specific types of enforcement under the Proceedings against the Crown Act. Is there a sample term sheet for the Master Sale and Servicing Agreement? Which provisions of the proposed bill are being relied on for this – is it section 5(2)? section 33. There doesn't seem to be a mechanism in the Act to replace the IESO as servicer. Should the Guarantee specify that the Province can appoint a replacement servicer?

5. Payment Guarantee Event – Regarding (B) and (C), the interpretation of when the triggering event has occurred will be an issue – is there a way to make it more objective or how can this be handled if there is a dispute? Regarding (D), think that there is going to be more discussion of the need for this provision from a business perspective. However, is this assuming, that the Province is guaranteeing both long term and short

term funding obligations? Need to clarify when and which obligations the province will be guaranteeing?

6. Payment Guarantee – Again it will be necessary to clarify which obligations the province is guaranteeing to understand what the range of payments to be made are. Also, (y) does not seem acceptable to the Province from a business perspective.

7. Limits under Guarantee – The guarantee wording should be clear so that the Province is guaranteeing payment of certain debt or specific obligations only and the Province's liability should be capped. Province should not be exposed to the risk of any other types of damages or losses.

8. Priority of Payments – Until we know who the beneficiaries are and with respect to what obligations, it is difficult to comment on this.

9. Subrogation – Need to ensure that the Province has appropriate recovery rights and not sure that it is appropriate that all beneficiaries are paid in full before Province gets subrogation rights. Also there is no acceleration here and Province really pays on an ongoing basis so how should subrogation work in such a case.

10. Conditions Precedent – Need to know what they are proposed to be.

11. Representations – Need to know what they are proposed to be as Province does not typically provide representations in connection with guarantees it provides.

12. Confidentiality Obligations – Thought the guarantee is part of a public financing so wouldn't the terms all be known?

13. Legal Opinions – Content, who will be providing them and to whom would they be provided.

General Questions on proposed legislation and interaction with guarantee:

14. General review of relevant sections would be appreciated and how the provisions fit with the requirements of the financing. In particular, s. 5, 13, 19, 21, 22, 33, 41 par 7

Provincial Support Agreement Term Sheet

Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") is provided exclusively to the parties listed herein in connection with the draft Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Defined terms used herein have the meanings ascribed to them in the Act. The provincial support agreement (the "**Provincial Support Agreement**") will contain the terms and conditions set out in this Term Sheet in addition to such other representations, warranties, indemnities, and other terms and conditions as the Guarantor and the Beneficiaries (each as defined below) may reasonably require.*

Guarantor:	Her Majesty the Queen in right of Ontario, as represented by the Minister of Energy.
Beneficiaries:	The indenture trustee (together with its successors, the "**Indenture Trustee**") under the master trust indenture (the "**Master Trust Indenture**") on behalf of itself and all other persons having debt or other claims against a Financing Entity secured under the Master Trust Indenture (collectively, the "**Beneficiaries**") including, without limitation, holders of senior and subordinated notes, senior and subordinated lenders, hedge counterparties, credit enhancers, liquidity providers, the Financial Services Manager, the Indenture Trustee, the trustee of the Financing Entity if the Financing Entity is a trust, and any other administrator of the Financing Entity.
Term:	The Guarantor's obligations under the Provincial Support Agreement will continue until **[one year]**[1] after all funding obligations (to be defined to include principal, interest, fees, hedge settlement and termination obligations and other related amounts) of all Financing Entities have been repaid.

[1] This mirrors the requirement expected to be in the Regulations under the Act not to wind up, dissolve or liquidate a Financing Entity until at least one year after all of its Funding Obligations have been repaid.

Performance Guarantee:	Under the Master Sale and Servicing Agreement to be entered into by IESO and the Financing Entity, **[and OPG as Financial Services Manager]** ("**MSSA**"), IESO will have obligations both as a seller and as a servicer. Pursuant to a performance guarantee, the Guarantor will guarantee in favour of the Beneficiaries to perform, or cause the performance of (which may be by way of the appointment of a replacement servicer), the obligations of IESO as servicer under the MSSA and the Act including the obligations of any replacement servicer. The Guarantor will also guarantee the servicing obligations of the electricity vendors under the Act. The servicing obligations covered will include all obligations related to the collecting and remitting of clean energy adjustments and will protect the Beneficiaries from any risks arising from collections of clean energy adjustments being commingled with other amounts. In the event that the performance guarantee is unenforceable against the Guarantor, the Provincial Support Agreement will contemplate a separate legal obligation by the Guarantor to indemnify the Beneficiaries for any losses that result.
Payment Guarantee Event:	A Payment Guarantee Event will occur if: (A) the Legislative Assembly of Ontario repeals the Act; or (B) the Legislative Assembly of Ontario amends the Act or a Regulation thereunder is amended in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest; or (C) a court of competent jurisdiction (i) determines all or a portion of the Act to be *ultra vires* in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest or (ii) declares any funding obligations to be invalid or unenforceable; or (D) funding obligations are due and payable at a time when a market disruption (a period of [six months or more] when capital markets term funding is not available to effect refinancings of funding obligations) is occurring and, in the case of long term funding obligations only, a moratorium or limitation on the imposition and collection of clean energy adjustments to repay such funding obligations is in effect under the Act.

Payment Guarantee:	Upon the occurrence of a Payment Guarantee Event under clauses (A), (B) or (C) of the above definition: (x) the Guarantor shall assume and pay when due (without acceleration) all funding obligations and all other obligations of the Financing Entities to the Beneficiaries by paying all regularly scheduled amounts in respect thereof during the term of each Financing Entity's contractual obligation to such Beneficiaries; and (y) Beneficiaries holding funding obligations consisting of bonds [with a remaining term to maturity of greater than one year] shall have the option to put the bonds to the Financing Entity for a put price equal to 101% of the principal amount thereof plus accrued and unpaid interest. In connection with any put under this clause (y), the Guarantor shall guarantee payment of the put price and any related hedge breakage but shall not be responsible for any other default, penalty, prepayment or make whole amounts.
Limits under Guarantees:	Under no circumstances shall the Guarantor be obligated to indemnify any Beneficiary for special or punitive damages, or loss of profits.
Priority of Payments:	The priority of the Beneficiaries to any payment made by the Guarantor under the Provincial Support Agreement shall be governed by the priority provisions in the Master Trust Indenture.
Subrogation:	Where the Guarantor has repaid all Beneficiaries in full, to the extent of such payments the Guarantor shall be subrogated in and to all the rights of recovery of the Beneficiaries in respect of their applicable indebtedness and obligations and the security granted by a Financing Entity to the Indenture Trustee. After repayment by the Guarantor of all indebtedness and obligations owing to the Beneficiaries, the Indenture Trustee will acknowledge and agree on behalf of the Beneficiaries that the Guarantor is entitled to exercise all of the rights, powers and privileges that the Beneficiaries have or may exercise in respect of the repaid indebtedness and obligations, all in accordance with the terms of the Master Trust Indenture. Prior to the repayment in full of the indebtedness and obligations owed to the Beneficiaries, the Guarantor shall have no rights of subrogation.
Notice Requirements:	The Indenture Trustee will be required to provide notice to the Guarantor of a Payment Guarantee Event and may in such notice demand payment or performance of the Guarantor's obligation under the Provincial Support Agreement, as applicable.

Closing:	Date to be determined but no later than **[**■, 2017**]**. The Closing is the date on which the documents in respect of the MSSA, the Master Trust Indenture and all related documentation are executed and delivered.
Reporting Requirements of a Financing Entity:	The Guarantor will be entitled to receive all reports received by the Indenture Trustee under the Master Trust Indenture.
Conditions Precedent to Closing:	Conditions precedent to Closing shall be those conditions set out in the Master Trust Indenture.[2]
Representations:	Customary representations and warranties of the Guarantor.
FIPPA:	Acknowledgement that the Guarantor is bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Guarantor or its agents or representatives in connection with the Transaction Documents may be subject to disclosure in accordance with that act or as otherwise required by law.

NON-DISCLOSURE AGREEMENT

This Non-Disclosure Agreement (the "Agreement") is entered into, and effective from, the ____ day of _____, 20___ by and between The Province of Ontario (the "Province") and TD Securities Inc. ("**TD**"), an Ontario Corporation.

WHEREAS the Province and TD (collectively referred to as the "**Parties**" and each individually as a "**Party**") wish to discuss the Fair Hydro Plan and the associated financings (the "**Transactions**") and wish to clarify the manner in which any Confidential Information of the Province (as hereinafter defined) disclosed in the course of such discussions is to be treated by TD.

NOW THEREFORE, in consideration of the premises and mutual obligations contained herein and for other good and valuable consideration (the receipt and sufficiency of which are hereby acknowledged), the Parties hereby agree as follows:

1. ***Definition of Confidential Information.*** For the purposes of this Agreement, the term "**Confidential Information**" means any information, knowledge, know-how, data, reports, notes, analyses, studies, interpretations, forecasts, audit reports, customer information, works, computer programs, technology, intellectual property, processes, systems, methodologies, ideas, innovations, business information, compilations, lists and other records concerning the business, financial, commercial, trade, and administrative affairs of the Province which, after the date hereof, may become known to TD, whether the form or manifestation of such Confidential Information is oral, written, electronic, digital, graphic, or any other tangible or intangible form whatsoever.

2. ***Protection and Non-Disclosure of Confidential Information.*** TD covenants and agrees that it shall protect the Confidential Information from harm, loss, theft and unauthorized access and that, except as provided herein, it shall not disclose any Confidential Information to any person or use the Confidential Information for any purpose except to the limited extent necessary to assist the Company in evaluating, negotiating and implementing the Transactions. Without limiting the generality of the foregoing, TD shall use at least the same degree of care, but no less than reasonable care, to avoid unauthorized disclosure or use of the Confidential Information as it employs in respect of its own Confidential Information of like importance. Without the prior consent of the other Party and except as otherwise provided herein, neither Party will, and each Party will direct its respective Representatives not to, disclose to any other person: (i) the existence and content of this Agreement; and (ii) the fact that discussions are taking place between the Parties concerning the Transactions.

3. ***Disclosure to Representatives.*** Notwithstanding section 2, TD may disclose the Confidential Information to those of its and its parent's directors, officers, employees, agents, contractors, consultants and legal, financial and other advisors (collectively, "**Representatives**") who need to know the Confidential Information for the purposes of assisting the Company in evaluating, negotiating and implementing the Transactions, provided that such Representatives are advised of the confidential nature of the Confidential Information. TD shall be responsible for any violation of this Agreement by its Representatives.

4. ***Exceptions to Non-Disclosure.*** Notwithstanding any other provisions of this Agreement, the obligations of TD under section 2 of this Agreement shall not apply, or will cease to apply, as the case may be, to Confidential Information if and to the extent that: (i) it was previously known to or in the possession of TD or its Representatives prior to receipt from the

Province; (ii) it is independently developed by or on behalf of TD or its Representatives without reference to the Confidential Information; (iii) it is or becomes publicly available and/or generally known in the industry, other than through a breach of this Agreement; (iv) it is disclosed to TD or its Representatives by a source other than the Province, provided such source is not known by TD or its Representatives to be bound by any contractual, legal or fiduciary obligation of confidentiality to the Province with respect to the information; (v) it is or has been excluded, in writing, from the scope of this Agreement by the Province (but only to the extent of and subject to any terms set out in such written exclusion); or (vi) TD and/or any of its Representatives is required or requested by any court, administrative agency, governmental or regulatory (including self-regulatory) body, stock exchange or securities commission of competent jurisdiction or under any applicable legal process, law, rule, regulation, subpoena, order or decree (collectively, "**Law**") to disclose, reveal or surrender any of the Confidential Information or details regarding the Transactions.

5. ***Required Disclosure.*** With respect to section 4(vi) above, if TD and/or any of its Representatives is required or requested to disclose any of the Confidential Information, TD shall, and if applicable shall direct its Representatives to, if permitted by applicable Law, notify the Province in writing promptly so that the Province may seek, at its own expense, a protective order or other appropriate remedy. In the absence of a protective order or other appropriate remedy, TD agrees to, and if applicable agrees to direct its Representatives to, furnish only that portion of the Confidential Information which is legally required (in the opinion of TD's counsel) and to provide reasonable cooperation to the Province in its effort, at its own expense, to obtain assurance, from the person to whom disclosure must be made, that the Confidential Information will be treated in a manner consistent with section 2 of this Agreement. The prohibitions and obligations in this Agreement related to the disclosure of Confidential Information and details regarding the Transactions shall not apply to any disclosure or proposed disclosure to a regulator having authority over TD or its parent.

6. ***Return or Destruction of Confidential Information.*** The Confidential Information (including any changes, revisions, improvements or modifications thereto) shall remain the Province's property. Upon the request of the Province, TD shall, and shall direct its Representatives to, return or destroy (at TD's option) all of the Confidential Information and provide the Province with written certification of compliance with this section 6. Notwithstanding the foregoing, TD and its Representatives, as applicable, may retain copies of Confidential Information: (i) that TD or its Representatives are required to retain for regulatory, legal and compliance purposes; (ii) that are automatically retained as part of a computer back-up, recovery or similar archival or disaster recovery system; or (iii) that was provided to TD's or its parent's board of directors or any committee thereof.

7. ***Equitable Relief.*** TD acknowledges and agrees that any breach or non-performance by TD of its obligations and duties in connection with this Agreement may cause the Province immediate and irreparable harm for which damages may not be an adequate remedy. Accordingly, TD agrees that the Province may have the right, in addition to its other rights and remedies, to seek equitable relief for any violation of this Agreement.

8. ***No Warranty.*** TD acknowledges and agrees that all Confidential Information is provided on an "as is" basis without any representation, warranty or covenant, express or implied, as to the origin, authorship, usefulness, reliability, fitness for a particular purpose, merchantability, accuracy, timeliness or completeness of any of the Confidential Information.

9. ***No Other Relationships or Agreements.*** The Parties agree that this Agreement is for the purposes of protecting the Confidential Information only and creates no joint venture or partnership or any agency relationship between any of them. The Parties agree that this Agreement does not in any manner whatsoever obligate them to enter into any further agreements or transactions.

10. ***General.*** This Agreement is governed by the laws of the Province of Ontario without regard to its rules on conflicts of law. Neither Party may assign its rights or obligations under this Agreement. No modification or waiver of any provision of this Agreement shall be effective unless in writing and signed by the Party sought to be bound. The headings in this Agreement are for convenience of reference only, are not part of this Agreement, and do not affect its interpretation. This Agreement is the entire agreement between the Parties on non-disclosure of confidential information and supersedes all prior representations and agreements between the Parties on that subject. This Agreement shall expire one year from the date hereof.

NOW THEREFORE, in consideration of the premises and mutual obligations contained herein and for other good and valuable consideration (the receipt and sufficiency of which are hereby acknowledged), the Parties hereby agree as follows:

1. ***Definition of Confidential Information.*** For the purposes of this Agreement, the term "**Confidential Information**" means any information, knowledge, know-how, data, reports, notes, analyses, studies, interpretations, forecasts, audit reports, customer information, works, computer programs, technology, intellectual property, processes, systems, methodologies, ideas, innovations, business information, compilations, lists and other records concerning the business, financial, commercial, trade, and administrative affairs of the Province which, after the date hereof, may become known to TD, whether the form or manifestation of such Confidential Information is oral, written, electronic, digital, graphic, or any other tangible or intangible form whatsoever.

2. ***Protection and Non-Disclosure of Confidential Information.*** TD covenants and agrees that it shall protect the Confidential Information from harm, loss, theft and unauthorized access and that, except as provided herein, it shall not disclose any Confidential Information to any person or use the Confidential Information for any purpose except to the limited extent necessary to assist the Company in evaluating, negotiating and implementing the Transactions. Without limiting the generality of the foregoing, TD shall use at least the same degree of care, but no less than reasonable care, to avoid unauthorized disclosure or use of the Confidential Information as it employs in respect of its own Confidential Information of like importance. Without the prior consent of the other Party and except as otherwise provided herein, neither Party will, and each Party will direct its respective Representatives not to, disclose to any other person: (i) the existence and content of this Agreement; and (ii) the fact that discussions are taking place between the Parties concerning the Transactions.

3. ***Disclosure to Representatives.*** Notwithstanding section 2, TD may disclose the Confidential Information to those of its and its parent's directors, officers, employees, agents, contractors, consultants and legal, financial and other advisors (collectively, "**Representatives**") who need to know the Confidential Information for the purposes of assisting the Company in evaluating, negotiating and implementing the Transactions, provided that such Representatives are advised of the confidential nature of the Confidential Information. TD shall be responsible for any violation of this Agreement by its Representatives.

4. ***Exceptions to Non-Disclosure.*** Notwithstanding any other provisions of this Agreement, the obligations of TD under section 2 of this Agreement shall not apply, or will cease to apply, as the case may be, to Confidential Information if and to the extent that: (i) it was previously known to or in the possession of TD or its Representatives prior to receipt from the

Province; (ii) it is independently developed by or on behalf of TD or its Representatives without reference to the Confidential Information; (iii) it is or becomes publicly available and/or generally known in the industry, other than through a breach of this Agreement; (iv) it is disclosed to TD or its Representatives by a source other than the Province, provided such source is not known by TD or its Representatives to be bound by any contractual, legal or fiduciary obligation of confidentiality to the Province with respect to the information; (v) it is or has been excluded, in writing, from the scope of this Agreement by the Province (but only to the extent of and subject to any terms set out in such written exclusion); or (vi) TD and/or any of its Representatives is required or requested by any court, administrative agency, governmental or regulatory (including self-regulatory) body, stock exchange or securities commission of competent jurisdiction or under any applicable legal process, law, rule, regulation, subpoena, order or decree (collectively, "**Law**") to disclose, reveal or surrender any of the Confidential Information or details regarding the Transactions.

5. ***Required Disclosure.*** With respect to section 4(vi) above, if TD and/or any of its Representatives is required or requested to disclose any of the Confidential Information, TD shall, and if applicable shall direct its Representatives to, if permitted by applicable Law, notify the Province in writing promptly so that the Province may seek, at its own expense, a protective order or other appropriate remedy. NON-DISCLOSURE AGREEMENT

This Non-Disclosure Agreement (the "Agreement") is entered into, and effective from, the ____ day of _____, 20___ by and between The Province of Ontario (the "Province") and TD Securities Inc. ("**TD**"), an Ontario Corporation.

WHEREAS the Province and TD (collectively referred to as the "**Parties**" and each individually as a "**Party**") wish to discuss the Fair Hydro Plan and the associated financings (the "**Transactions**") and wish to clarify the manner in which any Confidential Information of the Province (as hereinafter defined) disclosed in the course of such discussions is to be treated by TD.

NOW THEREFORE, in consideration of the premises and mutual obligations contained herein and for other good and valuable consideration (the receipt and sufficiency of which are hereby acknowledged), the Parties hereby agree as follows:

1. ***Definition of Confidential Information.*** For the purposes of this Agreement, the term "**Confidential Information**" means any information, knowledge, know-how, data, reports, notes, analyses, studies, interpretations, forecasts, audit reports, customer information, works, computer programs, technology, intellectual property, processes, systems, methodologies, ideas, innovations, business information, compilations, lists and other records concerning the business, financial, commercial, trade, and administrative affairs of the Province which, after the date hereof, may become known to TD, whether the form or manifestation of such Confidential Information is oral, written, electronic, digital, graphic, or any other tangible or intangible form whatsoever.

2. ***Protection and Non-Disclosure of Confidential Information.*** TD covenants and agrees that it shall protect the Confidential Information from harm, loss, theft and unauthorized access and that, except as provided herein, it shall not disclose any Confidential Information to any person or use the Confidential Information for any purpose except to the limited extent necessary to assist the Company in evaluating, negotiating and implementing the Transactions. Without limiting the generality of the foregoing, TD shall use at least the same degree of care, but no less than reasonable care, to avoid unauthorized disclosure or use of the Confidential Information as it employs in respect of its own Confidential Information of like importance. Without the prior consent of the other Party and except as otherwise provided herein, neither Party will, and each Party will direct its respective Representatives not to, disclose to any other person: (i) the existence and content of this Agreement; and (ii) the fact that discussions are taking place between the Parties concerning the Transactions.

3. ***Disclosure to Representatives.*** Notwithstanding section 2, TD may disclose the Confidential Information to those of its and its parent's directors, officers, employees, agents, contractors, consultants and legal, financial and other advisors (collectively, "**Representatives**") who need to know the Confidential Information for the purposes of assisting the Company in evaluating, negotiating and implementing the Transactions, provided that such Representatives are advised of the confidential nature of the Confidential Information. TD shall be responsible for any violation of this Agreement by its Representatives.

4. ***Exceptions to Non-Disclosure.*** Notwithstanding any other provisions of this Agreement, the obligations of TD under section 2 of this Agreement shall not apply, or will cease to apply, as the case may be, to Confidential Information if and to the extent that: (i) it was previously known to or in the possession of TD or its Representatives prior to receipt from the

Province; (ii) it is independently developed by or on behalf of TD or its Representatives without reference to the Confidential Information; (iii) it is or becomes publicly available and/or generally known in the industry, other than through a breach of this Agreement; (iv) it is disclosed to TD or its Representatives by a source other than the Province, provided such source is not known by TD or its Representatives to be bound by any contractual, legal or fiduciary obligation of confidentiality to the Province with respect to the information; (v) it is or has been excluded, in writing, from the scope of this Agreement by the Province (but only to the extent of and subject to any terms set out in such written exclusion); or (vi) TD and/or any of its Representatives is required or requested by any court, administrative agency, governmental or regulatory (including self-regulatory) body, stock exchange or securities commission of competent jurisdiction or under any applicable legal process, law, rule, regulation, subpoena, order or decree (collectively, "**Law**") to disclose, reveal or surrender any of the Confidential Information or details regarding the Transactions.

5. ***Required Disclosure.*** With respect to section 4(vi) above, if TD and/or any of its Representatives is required or requested to disclose any of the Confidential Information, TD shall, and if applicable shall direct its Representatives to, if permitted by applicable Law, notify the Province in writing promptly so that the Province may seek, at its own expense, a protective order or other appropriate remedy. In the absence of a protective order or other appropriate remedy, TD agrees to, and if applicable agrees to direct its Representatives to, furnish only that portion of the Confidential Information which is legally required (in the opinion of TD's counsel) and to provide reasonable cooperation to the Province in its effort, at its own expense, to obtain assurance, from the person to whom disclosure must be made, that the Confidential Information will be treated in a manner consistent with section 2 of this Agreement. The prohibitions and obligations in this Agreement related to the disclosure of Confidential Information and details regarding the Transactions shall not apply to any disclosure or proposed disclosure to a regulator having authority over TD or its parent.

6. ***Return or Destruction of Confidential Information.*** The Confidential Information (including any changes, revisions, improvements or modifications thereto) shall remain the Province's property. Upon the request of the Province, TD shall, and shall direct its Representatives to, return or destroy (at TD's option) all of the Confidential Information and provide the Province with written certification of compliance with this section 6. Notwithstanding the foregoing, TD and its Representatives, as applicable, may retain copies of Confidential Information: (i) that TD or its Representatives are required to retain for regulatory, legal and compliance purposes; (ii) that are automatically retained as part of a computer back-up, recovery or similar archival or disaster recovery system; or (iii) that was provided to TD's or its parent's board of directors or any committee thereof.

7. ***Equitable Relief.*** TD acknowledges and agrees that any breach or non-performance by TD of its obligations and duties in connection with this Agreement may cause the Province immediate and irreparable harm for which damages may not be an adequate remedy. Accordingly, TD agrees that the Province may have the right, in addition to its other rights and remedies, to seek equitable relief for any violation of this Agreement.

8. ***No Warranty.*** TD acknowledges and agrees that all Confidential Information is provided on an "as is" basis without any representation, warranty or covenant, express or implied, as to the origin, authorship, usefulness, reliability, fitness for a particular purpose, merchantability, accuracy, timeliness or completeness of any of the Confidential Information.

9. ***No Other Relationships or Agreements.*** The Parties agree that this Agreement is for the purposes of protecting the Confidential Information only and creates no joint venture or partnership or any agency relationship between any of them. The Parties agree that this Agreement does not in any manner whatsoever obligate them to enter into any further agreements or transactions.

10. ***General.*** This Agreement is governed by the laws of the Province of Ontario without regard to its rules on conflicts of law. Neither Party may assign its rights or obligations under this Agreement. No modification or waiver of any provision of this Agreement shall be effective unless in writing and signed by the Party sought to be bound. The headings in this Agreement are for convenience of reference only, are not part of this Agreement, and do not affect its interpretation. This Agreement is the entire agreement between the Parties on non-disclosure of confidential information and supersedes all prior representations and agreements between the Parties on that subject. This Agreement shall expire one year from the date hereof.

Thank you, Andrea.
I've made a few changes – I thought maybe quarterly may suffice. Could you please fill in the OIC numbers below, and provide any other edits you think are necessary.
Because our goal is to make Corporate Finance responsible for the information, I'm thinking we keep the cleaned up version for ourselves, and send them a version without the TAS reconciliation. We can, however, note in the spreadsheet any key noticeable differences in the spreadsheet that "we became aware of" in touching base with Accounting (i.e. 47 vs. 40 million).
I'll then send out the e-mail.
Thanks,
Sarah

Subject: (Draft Response) OFA Loan Update as at May 5, 2017

Sarah,
Draft email is as follows- not sure if you want to attach current rendition of the May 5 , 2017 spreadsheet but assumed yes at this point.
Hi Mara,
We sent the Loans spreadsheet to Corporate Finance as part of practice undertaken previously by Documentation and Corporate Finance to verify outstanding loan amounts under the OFA's existing lending OICs (currently there are two OIC 675/97 and 767/99).
For OFA lending OICs, Documentation assists in obtaining new lending OICs if the existing OICs are not sufficient to cover relevant OFA Loans (the existing lending OICs are over 15 years old, so there has been no need to obtain a new OIC in some time). However, since Documentation does not originate the loans/loan agreements, Documentation is reliant on Corporate Finance for the provision and verification of OFA lending activity under such OICs in order to ensure that it is fully captured in OIC tables and the OFA does not exceed the borrowing authority under the applicable OICs. In order to keep the table up to date, we propose sending the spreadsheet on a quarterly basis for Corporate Finance to confirm. We will need to clarify the impact of capitalized interest and how it is determined as it seems unclear (the source and impact on amounts allocated under the OICs)

based on past reporting. We have not specified Capitalized Interest or Repayments at this point. Note that we have made changes to the spreadsheet since we initially sent it to Corporate Finance on May 8, 2017. The current iteration is attached for consideration then further discussion to ensure consensus. Note that the allocated amounts highlighted in orange represent what we believe to be the amount of authority that should be deemed used/allocated. Likewise, for the calculation of the remaining authority the orange represents our final calculation.

It is our understanding that Corporate Finance, with the assistance of OFA legal, prepares an annual lending directive which includes an estimate of the approved annual OFA lending. During the course of this process, OFA legal confirms with Corporate Finance whether there is sufficient authority under existing OIC's or whether a new OFA lending OIC must be sought.

In the past, Accounting has not provided/verified the loan information as it impacts OIC tables. With the implementation of OLMS, we are aware that information flows/inputs may have been affected. In the event that the introduction of OLMS means existing processes need to change, Corporate Finance and Documentation will need to coordinate with Accounting on the best approach.

Hi Andrea,

Corporate Finance does not administer the OFA loans or the OLMS. To confirm amounts repaid, capitalized interest, etc. you should contact OFA's Accounting group (Siva Nathan). Also, I believe that the maturity date noted for the Ontario Infrastructure and Lands Corporation line of credit is incorrect. OILC's last line of credit expired in June 2016. We recently started working with IO on a new line of credit facility but the details have yet to be finalized. In addition, we have been in discussion with MAESD regarding providing loans totalling $300M to colleges and universities in 2017-18 for energy retrofit projects but this loan program has yet to go forward for Treasury Board and Cabinet approval.

Thanks,
Mara

Subject: OFA Loan Update as at May 5, 2017

Hi,

Please find attached the updated listing of the OFA Loans as at May 5, 2017. We used the Oct 31, 2013 as the base and then we removed (moved to bottom) what seemed to have matured or no longer exist based on OLMS (current loan system), added new and updated Borrowing Authority Allocated based on OLMS as applicable. We adjusted some maturity dates (OILC and OEFC lines of credit maturity dates) which were incorrect based on documentation in place.

The last update was a joint effort between Documentation and Salman in 2013. We ask that Corporate Finance review to ensure its agreement with the attached update dated May 5, 2017.

We are aware of no new school loans but we rely on Corporate Finance for updated information regarding new loans.

Let me know should you have any questions or concerns.

Scott,

As discussed yesterday, I attach a Non-Disclosure Agreement relating to the Fair Hydro Plan and GA Deferral Financing. I hope this is helpful. It is a form which TD has used in the past and we are happy to execute it. Please let me know if you have any questions.

Have a great long weekend.

1. ***Definition of Confidential Information.*** For the purposes of this Agreement, the term "**Confidential Information**" means any information, knowledge, know-how, data, reports, notes, analyses, studies, interpretations, forecasts, audit reports, customer information, works, computer programs, technology, intellectual property, processes, systems, methodologies, ideas, innovations, business information, compilations, lists and other records concerning the business, financial, commercial, trade, and administrative affairs of the Province which, after the date hereof, may become known to TD, whether the form or manifestation of such Confidential Information is oral, written, electronic, digital, graphic, or any other tangible or intangible form whatsoever.

2. ***Protection and Non-Disclosure of Confidential Information.*** TD covenants and agrees that it shall protect the Confidential Information from harm, loss, theft and unauthorized access and that, except as provided herein, it shall not disclose any Confidential Information to any person or use the Confidential Information for any purpose except to the limited extent necessary to assist the Company in evaluating, negotiating and implementing the Transactions. Without limiting the generality of the foregoing, TD shall use at least the same degree of care, but no less than reasonable care, to avoid unauthorized disclosure or use of the Confidential Information as it employs in respect of its own Confidential Information of like importance. Without the prior consent of the other Party and except as otherwise provided herein, neither Party will, and each Party will direct its respective Representatives not to, disclose to any other person: (i) the existence and content of this Agreement; and (ii) the fact that discussions are taking place between the Parties concerning the Transactions.

3. ***Disclosure to Representatives.*** Notwithstanding section 2, TD may disclose the Confidential Information to those of its and its parent's directors, officers, employees, agents, contractors, consultants and legal, financial and other advisors (collectively, "**Representatives**") who need to know the Confidential Information for the purposes of assisting the Company in evaluating, negotiating and implementing the Transactions, provided that such Representatives are advised of the confidential nature of the Confidential Information. 4. ***Exceptions to Non-Disclosure.*** Notwithstanding any other provisions of this Agreement, the obligations of TD under section 2 of this Agreement shall not apply, or will cease to apply, as the case may be, to Confidential Information if and to the extent that: (i) it was previously known to or in the possession of TD or its Representatives prior to receipt from the

Province; (ii) it is independently developed by or on behalf of TD or its Representatives without reference to the Confidential Information; (iii) it is or becomes publicly available and/or generally known in the industry, other than through a breach of this Agreement; (iv) it is disclosed to TD or its Representatives by a source other than the Province, provided such source is not known by TD or its Representatives to be bound by any contractual, legal or fiduciary obligation of confidentiality to the Province with respect to the information; (v) it is or has been excluded, in writing, from the scope of this Agreement by the Province (but only to the extent of and subject to any terms set out in such written exclusion); or (vi) TD and/or any of its Representatives is required or requested by any court, administrative agency, governmental or regulatory (including self-regulatory) body, stock exchange or securities commission of competent jurisdiction or under any applicable legal process, law, rule, regulation, subpoena, order or decree (collectively, "**Law**") to disclose, reveal or surrender any of the Confidential Information or details regarding the Transactions.

5. ***Required Disclosure.*** With respect to section 4(vi) above, if TD and/or any of its Representatives is required or requested to disclose any of the Confidential Information, TD shall, and if applicable shall direct its Representatives to, if permitted by applicable Law, notify the Province in writing promptly so that the Province may seek, at its own expense, a protective order or other appropriate remedy. In the absence of a protective order or other appropriate remedy, TD agrees to, and if applicable agrees to direct its Representatives to, furnish only that portion of the Confidential Information which is legally required (in the opinion of TD's counsel) and to provide reasonable cooperation to the Province in its effort, at its own expense, to obtain assurance, from the person to whom disclosure must be made, that the Confidential Information will be treated in a manner consistent with section 2 of this Agreement. The prohibitions and obligations in this Agreement related to the disclosure of Confidential Information and details regarding the Transactions shall not apply to any disclosure or proposed disclosure to a regulator having authority over TD or its parent.

6. ***Return or Destruction of Confidential Information.*** The Confidential Information (including any changes, revisions, improvements or modifications thereto) shall remain the Province's property. Upon the request of the Province, TD shall, and shall direct its Representatives to, return or destroy (at TD's option) all of the Confidential Information and provide the Province with written certification of compliance with this section 6. 7. ***Equitable Relief.*** TD acknowledges and agrees that any breach or non-performance by TD of its obligations and duties in connection with this Agreement may cause the Province immediate and irreparable harm for which damages may not be an adequate remedy. Accordingly, TD agrees that the Province may have the right, in addition to its other rights and remedies, to seek equitable relief for any violation of this Agreement.

8. ***No Warranty.*** TD acknowledges and agrees that all Confidential Information is provided on an "as is" basis without any representation, warranty or covenant, express or implied, as to the origin, authorship, usefulness, reliability, fitness for a particular purpose, merchantability, accuracy, timeliness or completeness of any of the Confidential Information.

9. ***No Other Relationships or Agreements.*** The Parties agree that this Agreement is for the purposes of protecting the Confidential Information only and creates no joint venture or partnership or any agency relationship between any of them. The Parties agree that this Agreement does not in any manner whatsoever obligate them to enter into any further agreements or transactions.

10. ***General.*** This Agreement is governed by the laws of the Province of Ontario without regard to its rules on conflicts of law. Neither Party may assign its rights or obligations under this Agreement. No modification or waiver of any provision of this Agreement shall be effective unless in writing and signed by the Party sought to be bound. The headings in this Agreement are for convenience of reference only, are not part of this Agreement, and do not affect its interpretation. This Agreement is the entire agreement between the Parties on non-disclosure of confidential information and supersedes all prior representations and agreements between the Parties on that subject. This Agreement shall expire one year from the date hereof.

Hi Lisa and Salman,

I note that IESO made the following for the term of the credit facility request in their attached letter:

- 5 year term - to align with the FHP's initial period of deferral of electricity prices plus a contingency period (i.e. to September 30, 2022);

I think that an the actual date should be referenced in the OIC, since they are asking for slightly in excess of a 5 year period.

I think we would usually want to run the draft directive by Patrick as LSB as well?

Thanks,

Sarah

Hi Lisa,

I've made some changes to the directive, some based on our discussion and some based on an example of another directive I found for a line of credit (see pdf attached, albeit between OEFC and IESO). You'll see that there are still some questions to confirm, so we can leave those comments in.

If you can take a look at the drafting and if you're okay with it (feel free to make additional changes), I will clean it up and circulate to CMD/senior management for another review and to gauge some feedback on the remaining questions.

Accordingly, I can drop by any time today to discuss further.

Thank you again,

Salman

As of now, IESO is requesting that advances be allowed for as minimum as 7-days. There is no equivalent rate for a 7-day borrowing. Initial conversations with CMD suggested we simply do "if advance less than 30 days, use 30-day t-bill" – or similarly, since advances are expected to be no more than 95 days, simply use 90-day t-bill rate for all advances.

Commented [SQ27]: OIC expires on December 31, 2047. However, changing this date to match IESO request, so suggesting for this to state "5-year after date of corresponding credit agreement.

It is hereby determined that for the Loan made under the authority of this Directive, the amount of the spread retained by the OFA shall be equal totwenty-five (25) basis points.

Commented [LS9]: For further discussion.

Commented [SQ210]: For senior management:

Should the spread be retained like most other loan agreements? Or should we remit this back to Province.

Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the proposed Fair Hydro Plan (FHP) to reduce electricity prices for eligible consumers in the province. Proposed legislation was introduced this month for the FHP. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that in order to support the IESO's role in FHP implementation it will need greater credit liquidity than currently exists.

An existing credit facility between the IESO and the Ontario Financing Authority (OFA) is currently available for $975 million which includes support for the current Regulated Price Plan (RPP) program. The IESO proposes that a separate and additional credit facility be provided by either the OFA or Ontario Electricity Financial Corporation (OEFC) to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and interest tracking.

IESO's FHP Credit Requirements and Rationale

Below we have outlined the IESO's expected credit needs including the current OFA facility as follows:

	OFA:IESO Facility	New FHP facility
Current credit facilities	$975 million	$ -
Reduction due to FHP	($500 million)	$ -
Increase due to FHP	$ -	$2,000 million
Totals Credit Facilities	$475 million	$2,000 million

The above $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP. In addition, the IESO has had recent discussions with OFA staff to explain the rationale to support the overall $2,000 million FHP commitment.

We suggest the new FHP credit facility consider the following key provisions:

- 5 year term - to align with the FHP's initial period of deferral of electricity prices plus a contingency period (i.e. to September 30, 2022);
- interest charge - to be Province's cost of funds for borrowing with a similar term as determined by OFA / OEFC plus 0.25 percent per annum;
- Draws - to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers; and
- Existing $975 million OFA facility : draws to permit for FHP purposes until a new separate credit agreement for FHP purposes has been made available;

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facilities and we will provide such evidence for your records.

We appreciate your continued support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Kimberly Marshall

Hi Lisa and Salman,

I note that IESO made the following for the term of the credit facility request in their attached letter:

- 5 year term - to align with the FHP's initial period of deferral of electricity prices plus a contingency period (i.e. to September 30, 2022);

I think that an the actual date should be referenced in the OIC, since they are asking for slightly in excess of a 5 year period.

I think we would usually want to run the draft directive by Patrick as LSB as well?

Thanks,

Sarah

Hi Lisa,

I've made some changes to the directive, some based on our discussion and some based on an example of another directive I found for a line of credit (see pdf attached, albeit between OEFC and IESO). You'll see that there are still some questions to confirm, so we can leave those comments in.

If you can take a look at the drafting and if you're okay with it (feel free to make additional changes), I will clean it up and circulate to CMD/senior management for another review and to gauge some feedback on the remaining questions.

Accordingly, I can drop by any time today to discuss further.

Thank you again,

Salman

Hi Salman,

Further to our discussion this afternoon, please find attached a revised draft reflecting my comments and follow-up items. Once you have had a chance to consider, please set up another meeting or send me a further draft.

Just to confirm, I understand that documentation will be sending me a draft version of the amending agreement and the new agreement for review. Sarah – Please let me know if you would like to discuss.

As of now, IESO is requesting that advances be allowed for as minimum as 7-days. There is no equivalent rate for a 7-day borrowing. Initial conversations with CMD suggested we simply do "if advance less than 30 days, use 30-day t-bill" – or similarly, since advances are expected to be no more than 95 days, simply use 90-day t-bill rate for all advances.

Commented [SQ27]: OIC expires on December 31, 2047. However, changing this date to match IESO request, so suggesting for this to state "5-year after date of corresponding credit agreement.

Commented [LS8]: IESO is requesting 5 year term. New directive after 5 years?

Pursuant to Orders in Council ###/##, made under subsection 22(1) of the *Capital Investment Plan Act, 1993,* the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for the Loan made under the authority of this Directive, the amount of the spread retained by the OFA shall be equal totwenty-five (25) basis points.

Commented [LS9]: For further discussion.

Commented [SQ210]: For senior management:

Should the spread be retained like most other loan agreements? Or should we remit this back to Province.

Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the proposed Fair Hydro Plan (FHP) to reduce electricity prices for eligible consumers in the province. Proposed legislation was introduced this month for the FHP. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that in order to support the IESO's role in FHP implementation it will need greater credit liquidity than currently exists.

An existing credit facility between the IESO and the Ontario Financing Authority (OFA) is currently available for $975 million which includes support for the current Regulated Price Plan (RPP) program. The IESO proposes that a separate and additional credit facility be provided by either the OFA or Ontario Electricity Financial Corporation (OEFC) to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and interest tracking.

IESO's FHP Credit Requirements and Rationale

Below we have outlined the IESO's expected credit needs including the current OFA facility as follows:

	OFA:IESO Facility	New FHP facility
Current credit facilities	$975 million	$ -
Reduction due to FHP	($500 million)	$ -
Increase due to FHP	$ -	$2,000 million
Totals Credit Facilities	$475 million	$2,000 million

The above $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP. In addition, the IESO has had recent discussions with OFA staff to explain the rationale to support the overall $2,000 million FHP commitment.

We suggest the new FHP credit facility consider the following key provisions:

- 5 year term - to align with the FHP's initial period of deferral of electricity prices plus a contingency period (i.e. to September 30, 2022);
- interest charge - to be Province's cost of funds for borrowing with a similar term as determined by OFA / OEFC plus 0.25 percent per annum;
- Draws - to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers; and
- Existing $975 million OFA facility : draws to permit for FHP purposes until a new separate credit agreement for FHP purposes has been made available;

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facilities and we will provide such evidence for your records.

We appreciate your continued support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Kimberly Marshall

Thanks, Lisa.
I've accepted your changes and cleaned up the draft. Based on Salman's comment, I've removed the question IESO regarding "medium" term vs short term advances.
As such, I only have one comment box left as an inquiry for IESO.
I cleaned up one typo, and the title on the Grid Note was in the wrong place.
Will – Would you please format the grid note to be on one page and resend to us.

Thanks, Lisa.
I've accepted your changes and cleaned up the draft. Based on Salman's comment, I've removed the question IESO regarding "medium" term vs short term advances.
As such, I only have one comment box left as an inquiry for IESO.
I cleaned up one typo, and the title on the Grid Note was in the wrong place.
Will – Would you please format the grid note to be on one page and resend to us.
Thanks,
Sarah

I spoke with Mike. Seems that the big guys have been talking and it's all sorted out. It looks like Mike had communicated our two points on the interest rate (it's ok) and the draw period (ok to reduce minimum to 7 days).
We'll wait to hear back from Ron.

Hi Mike, Ken,
Did you have comments on the letter? Staff here have made some initial comments. IESO wanted to issue this this week.
I think on the last call, we had talked about it being cleaner to have a separate facility for the FHP. The draft letter seems to have a potential for IESO drawing both on the new facility and the existing one. Does that work for you?
Do the timelines and spread wording work for you?

I did speak with Moody's on April 28 to obtain their feedback.

As mentioned the current $975M supports the RPP today which will be transitioned to the new FH going forward – for this draft as discussed with my CFO I have left the $975M as is but will seek to use for FH too.

Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan~~rogram~~**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its inten~~s~~tion to implement the proposed Fair Hydro Plan~~program~~ (FHP) to reduce electricity prices for eligible consumers in the province. Proposed l~~L~~egislation ~~is expected to be~~was introduced this month for the program. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that to support the IESO's role in implementation it will need greater credit liquidity than currently exists.

The existing credit facility between the IESO and the Ontario Financing Authority~~'s~~ (OFA) is $975 million. The IESO proposes that an additional facility/commitment be provided in the amount of $1,500 million. This would enable the IESO to provide interim financing for the FHP's spreading out of global adjustment costs~~smoothing~~ for a period of several months, if needed.

We suggest the OFA's current $975 million agreement and the new separate (or co-mingled) FHP agreement consider the following key provisions:

- FHP: 5 year term to align with the FHP's initial period of deferral of electricity prices, ~~period~~ plus a few months of contingency (i.e., to September 30, 2022);
- FHP: interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 per cent per annum;
- FHP: drawings to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers;
- Existing $975 million facility: draws to permit for FHP purposes until the credit agreement for FHP purposes has been made available; and

Commented [A1]: Please confirm that the requirement is $1.5 billion as it is preferred to keep the $975M separate from FHP. And see comment below.

Commented [A2]: It is preferred that a separate credit facility be set up for FHP purposes. OFA is working to obtain the appropriate approvals required. Option to use the existing facility on an interim basis may be exercised if timing does not permit putting in place a new credit facility by the time IESO needs to make a first draw.

Commented [A3]: Overall, would it be better to purely separate out the FHP borrowing – so a larger than $1.5 bn new facility, and potentially shrink the existing $975 facility?

- $975 million: a reduction in the 28 days minimum draw for the existing facility to a minimum of 7 days to a maximum of 95 days;

Should the IESO find that there is persistent~~consistent~~ usage of these facilities we will contact the OFA for further arrangements.

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facility(ies) and we will provide such evidence for the OFA's records.

We appreciate the OFA's continue support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Ken, do you have any comments on IESO's letter? IESO has requested a response by today.

Hi Sarah,
Attached is CEFD comments/markup. Was waiting for one last confirmation but might as well send this out to you to which you seemed to have incorporated already.
For your 2 comments, highlighted below, the first question we need confirmed from IESO is their requirement. We prefer to go the route of doing the FHP requirement separately as well, so we need confirmation on if the requirement is $1.5 billion or is there anything else they would have used the $975M one for. We may need to reduce the $975M one.
Would you have LRC dates for June/July? Just trying to see how the timelines would fit in. You had mentioned you may have a table with some dates, just so we can work backwards.
Thanks,
Salman

Thank you, Salman
I asked Mike Manning about the changing the draw period from the current 28-95 days, to 7-95 days, and he is fine with that change.
Mike also is fine with the proposed "interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 percent per annum", as it exactly matches the rate on the current $975M facility.
Just so we agree on IESO's requested in terms of setting up the credit facility, is it also your understanding that IESO wishes to:

1) amend the $975M to allow for FHP draws and to reduce the draw period to 7-95 days, but the expiry date will remain unchanged at **December 31, 2019**, and;
2) have a new FHP exclusive facility for the requested additional $1,500M commitment expiring September 30, 2022, with the terms outlined in the letter.

Have you also received confirmation that OFA will be funding the new $1,500M commitment?

Thanks,
Sarah

Hello John,
I'm not sure if you've seen the attached letter as of yet. We have received this request from IESO to set-up a credit facility for IESO to borrow $1,500M to fund the Fair Hydro Program.
IESO indicates that they either wish to have the existing $975M credit facility between the OFA and IESO increased by $1,500M (incorporating their proposed provisions) or to have a separate $1,500M credit facility altogether. I'm aware that there have some discussions around this. Do you know if it has been decided if OFA or OEFC should provide this facility?
Thanks,

Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan~~rogram~~**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its inten~~s~~tion to implement the proposed Fair Hydro Plan~~program~~ (FHP) to reduce electricity prices for eligible consumers in the province. Proposed l~~L~~egislation ~~is expected to be~~was introduced this month for the program. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that to support the IESO's role in implementation it will need greater credit liquidity than currently exists.

The existing credit facility between the IESO and the Ontario Financing Authority~~'s~~ (OFA) is $975 million. The IESO proposes that an additional facility/commitment be provided in the amount of $1,500 million. This would enable the IESO to provide interim financing for the FHP's spreading out of global adjustment costs~~smoothing~~ for a period of several months, if needed.

We suggest the OFA's current $975 million agreement and the new separate (or co-mingled) FHP agreement consider the following key provisions:

- FHP: 5 year term to align with the FHP's initial period of deferral of electricity prices~~, period~~ plus a few months of contingency (i.e., to September 30, 2022);
- FHP: interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 per cent per annum;
- FHP: drawings to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers;
- Existing $975 million facility: draws to permit for FHP purposes until the credit agreement for FHP purposes has been made available; and

Commented [A1]: Please confirm that the requirement is $1.5 billion as it is preferred to keep the $975M separate from FHP.

Commented [A2]: It is preferred that a separate credit facility be set up for FHP purposes. OFA is working to obtain the appropriate approvals required. Option to use the existing facility may be exercised if timing does not permit putting in place a new credit facility.

Commented [A3]: This is rate is the same as in the existing $975M Credit Facility and is acceptable.

Commented [A4]: Overall, would it be better to purely separate out the FHP borrowing – so a larger than $1.5 bn new facility, and potentially shrink the existing $975 facility?

Commented [A5]: $975 million agreement is for purposes outlined under section 25.33 of the Electricity Act. Seems FHP would fall under that but legal to confirm. Either way, agreement purpose would need to be amended.

- $975 million: a reduction in the 28 days minimum draw for the existing facility to a minimum of 7 days to a maximum of 95 days;

Commented [A6]: Agree that 28 minimum draw may be reduced to 7 days.

Should the IESO find that there is persistent~~consistent~~ usage of these facilities we will contact the OFA for further arrangements.

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facility(ies) and we will provide such evidence for the OFA's records.

We appreciate the OFA's continue support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Hello Ken,
As you were a recipient on this original e-mail from Anthony Martinello at IESO, I thought I would run CMD and CEFD's comments by you so far. I understand from Salman that Ron will be providing some additional comments shortly.
Ken, do you have any comments on IESO's letter? IESO has requested a response by today.
Thanks,
Sarah

Hi Sarah,
Attached is CEFD comments/markup. Was waiting for one last confirmation but might as well send this out to you to which you seemed to have incorporated already.
For your 2 comments, highlighted below, the first question we need confirmed from IESO is their requirement. We prefer to go the route of doing the FHP requirement separately as well, so we need confirmation on if the requirement is $1.5 billion or is there anything else they would have used the $975M one for. We may need to reduce the $975M one.
Would you have LRC dates for June/July? Just trying to see how the timelines would fit in. You had mentioned you may have a table with some dates, just so we can work backwards.
Thanks,
Salman

Thank you, Salman
I asked Mike Manning about the changing the draw period from the current 28-95 days, to 7-95 days, and he is fine with that change.
Mike also is fine with the proposed "interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 percent per annum", as it exactly matches the rate on the current $975M facility.
Just so we agree on IESO's requested in terms of setting up the credit facility, is it also your understanding that IESO wishes to:

1) amend the $975M to allow for FHP draws and to reduce the draw period to 7-95 days, but the expiry date will remain unchanged at **December 31, 2019**, and;
2) have a new FHP exclusive facility for the requested additional $1,500M commitment expiring September 30, 2022, with the terms outlined in the letter.

Have you also received confirmation that OFA will be funding the new $1,500M commitment?

Thanks,
Sarah

Hi Mike,

I'm coordinating with John Kim on particulars of IESO's attached request, but would appreciate your input on the following:

1) IESO has requested "a reduction in the 28 days minimum draw for the existing facility to a minimum of 7 days to a maximum of 95 days." Currently the $975M OFA-IESO credit facility permits draws between 28 and 95 days. Is it acceptable to reduce the minimum amount to 7 days for the existing facility (to also be applied to the requested additional $1,500M commitment)?

2) IESO has requested the "interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 percent per annum". The current $975M OFA-IESO Credit Facility provides for this same rate. Would this rate be acceptable on the requested additional $1,500M commitment?

Thanks,
Sarah

The original agreement for the credit facility, signed in 2005, was between the OPA and OFA. However, in 2014/2015, the OPA and IESO merged to simply form "IESO". Hence, the 2005 OPA-OFA credit facility became the OFA-IESO credit facility.
IESO is asking to either modify the $975M OFA-IESO credit facility to include an additional $1,500 with the proposed provisions in the letter **OR** to set up a new credit facility with the proposed provisions in the letter. It is not certain which route we should be going yet, and whether the credit facility for the $1500M should be with the OFA or OEFC.
The first step is to review the original $975M OFA-IESO credit facility agreement to see how the provisions that are being proposed compare to provisions in the agreement.. You'll note that there are 9 amending agreements, but Lenin has included history for eight of the agreements(attached). I believe the 9th amending agreement extends the date (among possibly amended provisions) I think the best way to do this is to prepare a chart to compare the proposed provisions (the 5 bullet points in the letter) to the existing provisions in the agreement.

This file is time sensitive, so I would need a draft by end of day tomorrow, please. If you need Andrea to assist with T-Bills and IO Loans tomorrow, please let me know. Your other projects can be put on the back burner.

Re: **IESO Credit Requirements for the 2017 Fair Hydro Program**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the Fair Hydro program (FHP) to reduce electricity prices for consumers in the province. Legislation is expected to be introduced this month for the program. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that to support the IESO's role in implementation it will need greater credit liquidity than currently exists.

The existing credit facility between the IESO and the Ontario Financing Authority's (OFA) is $975 million. The IESO proposes that an additional facility/commitment be provided in the amount of $1,500 million. This would enable the IESO to provide interim financing for the FHP's global adjustment smoothing for a period of several months if needed.

We suggest the OFA's current $975 million agreement and the new separate (or co-mingled) FHP agreement consider the following key provisions:

- FHP: 5 year term to align with the FHP's deferral of electricity prices period plus a few months of contingency (i.e. September 30, 2022);
- FHP: interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 percent per annum;
- FHP: drawings to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers;
- $975 million: draws to permit for FHP purposes; and
- $975 million: a reduction in the 28 days minimum draw for the existing facility to a minimum of 7 days to a maximum of 95 days;

Should the IESO find that there is consistent usage of these facilities we will contact the OFA

for further arrangements.

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facility(ies) and we will provide such evidence for the OFA's records.

We appreciate the OFA's continue support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Hello John,
I'm not sure if you've seen the attached letter as of yet. We have received this request from IESO to set-up a credit facility for IESO to borrow $1,500M to fund the Fair Hydro Program.
IESO indicates that they either wish to have the existing $975M credit facility between the OFA and IESO increased by $1,500M (incorporating their proposed provisions) or to have a separate $1,500M credit facility altogether. I'm aware that there have some discussions around this. Do you know if it has been decided if OFA or OEFC should provide this facility?
Thanks,
Sarah

History of OPA Amending Agreements.doc

Hi Will,
We have the attached request from IESO to set-up a credit facility for IESO to borrow $1,500 to fund the Fair Hydro Program. I am going to ask you to work on this file, please.
Currently, IESO has credit facilities with the OFA and OEFC.
The $975M facility referred to in the attached letter is an existing credit facility between the OFA and IESO. The original agreement for the credit facility, signed in 2005, was between the OPA and OFA. However, in 2014/2015, the OPA and IESO merged to simply form "IESO". Hence, the 2005 OPA-OFA credit facility became the OFA-IESO credit facility.
IESO is asking to either modify the $975M OFA-IESO credit facility to include an additional $1,500 with the proposed provisions in the letter **OR** to set up a new credit facility with the proposed provisions in the letter. It is not certain which route we should be going yet, and whether the credit facility for the $1500M should be with the OFA or OEFC.
The first step is to review the original $975M OFA-IESO credit facility agreement to see how the provisions that are being proposed compare to provisions in the agreement.. You'll note that there are 9 amending agreements, but Lenin has included history for eight of the agreements(attached). I believe the 9th amending agreement extends the date (among possibly amended provisions) I think the best way to do this is to prepare a chart to compare the proposed provisions (the 5 bullet points in the letter) to the existing provisions in the agreement.
The files are located here:
Z:\Users\CMB\Documentation\IESO-OPA Merger\ONTARIO POWER AUTHORITY\Credit Agreement
This file is time sensitive, so I would need a draft by end of day tomorrow, please. If you need Andrea to assist with T-Bills and IO Loans tomorrow, please let me know. Your other projects can be put on the back burner.
Thanks,
Sarah

The existing credit facility between the IESO and the Ontario Financing Authority's (OFA) is $975 million. The IESO proposes that an additional facility/commitment be provided in the amount of $1,500 million. This would enable the IESO to provide interim financing for the FHP's global adjustment smoothing for a period of several months if needed.

We suggest the OFA's current $975 million agreement and the new separate (or co-mingled) FHP agreement consider the following key provisions:

- FHP: 5 year term to align with the FHP's deferral of electricity prices period plus a few months of contingency (i.e. September 30, 2022);
- FHP: interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 percent per annum;
- FHP: drawings to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers;
- $975 million: draws to permit for FHP purposes; and
- $975 million: a reduction in the 28 days minimum draw for the existing facility to a minimum of 7 days to a maximum of 95 days;

Should the IESO find that there is consistent usage of these facilities we will contact the OFA

for further arrangements.

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facility(ies) and we will provide such evidence for the OFA's records.

We appreciate the OFA's continue support and look forward to working with you. Please contact me should you need anything further.

Hi Sarah,
Attached is CEFD comments/markup. Was waiting for one last confirmation but might as well send this out to you to which you seemed to have incorporated already.
For your 2 comments, highlighted below, the first question we need confirmed from IESO is their requirement. We prefer to go the route of doing the FHP requirement separately as well, so we need confirmation on if the requirement is $1.5 billion or is there anything else they would have used the $975M one for. We may need to reduce the $975M one.
Would you have LRC dates for June/July? Just trying to see how the timelines would fit in. You had mentioned you may have a table with some dates, just so we can work backwards.
Thanks,
Salman

Thank you, Salman
I asked Mike Manning about the changing the draw period from the current 28-95 days, to 7-95 days, and he is fine with that change.
Mike also is fine with the proposed "interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 percent per annum", as it exactly matches the rate on the current $975M facility.
Just so we agree on IESO's requested in terms of setting up the credit facility, is it also your understanding that IESO wishes to:

1) amend the $975M to allow for FHP draws and to reduce the draw period to 7-95 days, but the expiry date will remain unchanged at **December 31, 2019**, and;
2) have a new FHP exclusive facility for the requested additional $1,500M commitment expiring September 30, 2022, with the terms outlined in the letter.

Have you also received confirmation that OFA will be funding the new $1,500M commitment?
Thanks,

Hello John,
I'm not sure if you've seen the attached letter as of yet. We have received this request from IESO to set-up a credit facility for IESO to borrow $1,500M to fund the Fair Hydro Program.
IESO indicates that they either wish to have the existing $975M credit facility between the OFA and IESO increased by $1,500M (incorporating their proposed provisions) or to have a separate $1,500M credit facility altogether. I'm aware that there have some discussions around this. Do you know if it has been decided if OFA or OEFC should provide this facility?
Thanks,

Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan~~rogram~~**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its inten~~s~~tion to implement the proposed Fair Hydro Plan~~program~~ (FHP) to reduce electricity prices for eligible consumers in the province. Proposed l~~L~~egislation ~~is expected to be~~was introduced this month for the program. The existing credit facility between the IESO and the Ontario Financing Authority~~'s~~ (OFA) is $975 million. The IESO proposes that an additional facility/commitment be provided in the amount of $1,500 million. This would enable the IESO to provide interim financing for the FHP's spreading out of global adjustment costs~~smoothing~~ for a period of several months, if needed.

We suggest the OFA's current $975 million agreement and the new separate (or co-mingled) FHP agreement consider the following key provisions:

- FHP: 5 year term to align with the FHP's initial period of deferral of electricity prices~~, period~~ plus a few months of contingency (i.e., to September 30, 2022);
- FHP: interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 per cent per annum;
- FHP: drawings to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers;
- Existing $975 million facility: draws to permit for FHP purposes until the credit agreement for FHP purposes has been made available; and

Commented [A1]: Please confirm that the requirement is $1.5 billion as it is preferred to keep the $975M separate from FHP.

Commented [A2]: It is preferred that a separate credit facility be set up for FHP purposes. OFA is working to obtain the appropriate approvals required. Option to use the existing facility may be exercised if timing does not permit putting in place a new credit facility.

Commented [A3]: This is rate is the same as in the existing $975M Credit Facility and is acceptable.

Commented [A4]: Overall, would it be better to purely separate out the FHP borrowing – so a larger than $1.5 bn new facility, and potentially shrink the existing $975 facility?

Commented [A5]: $975 million agreement is for purposes outlined under section 25.33 of the Electricity Act. Seems FHP would fall under that but legal to confirm. Either way, agreement purpose would need to be amended.

- $975 million: a reduction in the 28 days minimum draw for the existing facility to a minimum of 7 days to a maximum of 95 days;

Commented [A6]: Agree that 28 minimum draw may be reduced to 7 days.

Should the IESO find that there is persistent~~consistent~~ usage of these facilities we will contact the OFA for further arrangements.

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facility(ies) and we will provide such evidence for the OFA's records.

We appreciate the OFA's continue support and look forward to working with you. Please contact me should you need anything further.

Hi Anthony,

Staff had a few suggestions/comments.

As discussed on the last call, we had talked about it being cleaner to have a separate facility for the FHP. The draft letter seems to have a potential for IESO drawing both on the new facility and the existing one. While drawing on the existing facility might be needed on an interim basis, it would seem cleaner and more transparent to have that possibility only until a new, separate facility is in place.

See attached draft letter we hope to issue this week – for your comments (will appreciate by Thursday this week if any).

I did speak with Moody's on April 28 to obtain their feedback.

Call me @ 905.403.6944 to discuss (…Ken can we discuss the interest exp/income flows when you have a moment).

As mentioned the current $975M supports the RPP today which will be transitioned to the new FH going forward – for this draft as discussed with my CFO I have left the $975M as is but will seek to use for FH too.

Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan~~rogram~~**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its inten~~s~~tion to implement the proposed Fair Hydro Plan~~program~~ (FHP) to reduce electricity prices for eligible consumers in the province. Proposed l~~L~~egislation ~~is expected to be~~was introduced this month for the program. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that to support the IESO's role in implementation it will need greater credit liquidity than currently exists.

The existing credit facility between the IESO and the Ontario Financing Authority~~'s~~ (OFA) is $975 million. The IESO proposes that an additional facility/commitment be provided in the amount of $1,500 million. This would enable the IESO to provide interim financing for the FHP's spreading out of global adjustment costs~~smoothing~~ for a period of several months, if needed.

We suggest the OFA's current $975 million agreement and the new separate (or co-mingled) FHP agreement consider the following key provisions:

- FHP: 5 year term to align with the FHP's initial period of deferral of electricity prices, ~~period~~ plus a few months of contingency (i.e., to September 30, 2022);
- FHP: interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 per cent per annum;
- FHP: drawings to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers;
- Existing $975 million facility: draws to permit for FHP purposes until the credit agreement for FHP purposes has been made available; and

Commented [A1]: Please confirm that the requirement is $1.5 billion as it is preferred to keep the $975M separate from FHP. And see comment below.

Commented [A2]: It is preferred that a separate credit facility be set up for FHP purposes. OFA is working to obtain the appropriate approvals required. Option to use the existing facility on an interim basis may be exercised if timing does not permit putting in place a new credit facility by the time IESO needs to make a first draw.

Commented [A3]: Overall, would it be better to purely separate out the FHP borrowing – so a larger than $1.5 bn new facility, and potentially shrink the existing $975 facility?

- $975 million: a reduction in the 28 days minimum draw for the existing facility to a minimum of 7 days to a maximum of 95 days;

Should the IESO find that there is persistent~~consistent~~ usage of these facilities we will contact the OFA for further arrangements.

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facility(ies) and we will provide such evidence for the OFA's records.

We appreciate the OFA's continue support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Hi Sarah,
Attached is CEFD comments/markup. Was waiting for one last confirmation but might as well send this out to you to which you seemed to have incorporated already.
For your 2 comments, highlighted below, the first question we need confirmed from IESO is their requirement. We prefer to go the route of doing the FHP requirement separately as well, so we need confirmation on if the requirement is $1.5 billion or is there anything else they would have used the $975M one for. We may need to reduce the $975M one.
Would you have LRC dates for June/July? Just trying to see how the timelines would fit in. You had mentioned you may have a table with some dates, just so we can work backwards.

Thank you, Salman
I asked Mike Manning about the changing the draw period from the current 28-95 days, to 7-95 days, and he is fine with that change.
Mike also is fine with the proposed "interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 percent per annum", as it exactly matches the rate on the current $975M facility.
Just so we agree on IESO's requested in terms of setting up the credit facility, is it also your understanding that IESO wishes to:

1) amend the $975M to allow for FHP draws and to reduce the draw period to 7-95 days, but the expiry date will remain unchanged at **December 31, 2019**, and;
2) have a new FHP exclusive facility for the requested additional $1,500M commitment expiring September 30, 2022, with the terms outlined in the letter.

Have you also received confirmation that OFA will be funding the new $1,500M commitment?
Thanks,

I'm not sure if you've seen the attached letter as of yet. We have received this request from IESO to set-up a credit facility for IESO to borrow $1,500M to fund the Fair Hydro Program.
IESO indicates that they either wish to have the existing $975M credit facility between the OFA and IESO increased by $1,500M (incorporating their proposed provisions) or to have a separate $1,500M credit facility altogether. I'm aware that there have some discussions around this. Do you know if it has been decided if OFA or OEFC should provide this facility?

Hi Anthony,

Staff had a few suggestions/comments.

As discussed on the last call, we had talked about it being cleaner to have a separate facility for the FHP. The draft letter seems to have a potential for IESO drawing both on the new facility and the existing one. While drawing on the existing facility might be needed on an interim basis, it would seem cleaner and more transparent to have that possibility only until a new, separate facility is in place.

I did speak with Moody's on April 28 to obtain their feedback.

Call me @ 905.403.6944 to discuss (…Ken can we discuss the interest exp/income flows when you have a moment).

As mentioned the current $975M supports the RPP today which will be transitioned to the new FH going forward – for this draft as discussed with my CFO I have left the $975M as is but will seek to use for FH too.

Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan~~rogram~~**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its inten~~s~~tion to implement the proposed Fair Hydro Plan~~program~~ (FHP) to reduce electricity prices for eligible consumers in the province. Proposed l~~L~~egislation ~~is expected to be~~was introduced this month for the program. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that to support the IESO's role in implementation it will need greater credit liquidity than currently exists.

The existing credit facility between the IESO and the Ontario Financing Authority~~'s~~ (OFA) is $975 million. The IESO proposes that an additional facility/commitment be provided in the amount of $1,500 million. This would enable the IESO to provide interim financing for the FHP's spreading out of global adjustment costs~~smoothing~~ for a period of several months, if needed.

We suggest the OFA's current $975 million agreement and the new separate (or co-mingled) FHP agreement consider the following key provisions:

- FHP: 5 year term to align with the FHP's initial period of deferral of electricity prices, ~~period~~ plus a few months of contingency (i.e., to September 30, 2022);
- FHP: interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 per cent per annum;
- FHP: drawings to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers;
- Existing $975 million facility: draws to permit for FHP purposes until the credit agreement for FHP purposes has been made available; and

Commented [A1]: Please confirm that the requirement is $1.5 billion as it is preferred to keep the $975M separate from FHP. And see comment below.

Commented [A2]: It is preferred that a separate credit facility be set up for FHP purposes. OFA is working to obtain the appropriate approvals required. Option to use the existing facility on an interim basis may be exercised if timing does not permit putting in place a new credit facility by the time IESO needs to make a first draw.

Commented [A3]: Overall, would it be better to purely separate out the FHP borrowing – so a larger than $1.5 bn new facility, and potentially shrink the existing $975 facility?

- $975 million: a reduction in the 28 days minimum draw for the existing facility to a minimum of 7 days to a maximum of 95 days;

Should the IESO find that there is persistent~~consistent~~ usage of these facilities we will contact the OFA for further arrangements.

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facility(ies) and we will provide such evidence for the OFA's records.

We appreciate the OFA's continue support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Hi Mike,
Just letting you know that there appears to be a communication gap on responding to IESO with regard to their request. Ken, Ron and yourself were recipients of the original request from IESO.
I have been coordinating with Salman/John Kim to combine joint a response to the letter, which I also provided to Ken for comment (see attached letter and e-mail below).
Salman was now just informed me that Ron had this afternoon reached out to Anthony Martinello with CEFD's comments only (attached e-mail).
as you, Ken and Ron as recipients of the original IESO letter, Ron seems to be the communication lead with IESO on this file.
It seems that

Hello Ken,
As you were a recipient on this original e-mail from Anthony Martinello at IESO, I thought I would run CMD and CEFD's comments by you so far. I understand from Salman that Ron will be providing some additional comments shortly.
Ken, do you have any comments on IESO's letter? IESO has requested a response by today.
Thanks,

Hi Sarah,
Attached is CEFD comments/markup. Was waiting for one last confirmation but might as well send this out to you to which you seemed to have incorporated already.
For your 2 comments, highlighted below, the first question we need confirmed from IESO is their requirement. We prefer to go the route of doing the FHP requirement separately as well, so we need confirmation on if the requirement is $1.5 billion or is there anything else they would have used the $975M one for. We may need to reduce the $975M one.
Would you have LRC dates for June/July? Just trying to see how the timelines would fit in. You had mentioned you may have a table with some dates, just so we can work backwards.
Thanks,
Salman

Thank you, Salman
I asked Mike Manning about the changing the draw period from the current 28-95 days, to 7-95 days, and he is fine with that change.
Mike also is fine with the proposed "interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 percent per annum", as it exactly matches the rate on the current $975M facility.
Just so we agree on IESO's requested in terms of setting up the credit facility, is it also your understanding that IESO wishes to:

1) amend the $975M to allow for FHP draws and to reduce the draw period to 7-95 days, but the expiry date will remain unchanged at **December 31, 2019**, and;
2) have a new FHP exclusive facility for the requested additional $1,500M commitment expiring September 30, 2022, with the terms outlined in the letter.

Have you also received confirmation that OFA will be funding the new $1,500M commitment?
Thanks,
Sarah

Hello John,
I'm not sure if you've seen the attached letter as of yet. We have received this request from IESO to set-up a credit facility for IESO to borrow $1,500M to fund the Fair Hydro Program.
IESO indicates that they either wish to have the existing $975M credit facility between the OFA and IESO increased by $1,500M (incorporating their proposed provisions) or to have a separate $1,500M credit facility altogether. I'm aware that there have some discussions around this. Do you know if it has been decided if OFA or OEFC should provide this facility?
Thanks,

Hi Anthony,

Staff had a few suggestions/comments.

As discussed on the last call, we had talked about it being cleaner to have a separate facility for the FHP. The draft letter seems to have a potential for IESO drawing both on the new facility and the existing one. While drawing on the existing facility might be needed on an interim basis, it would seem cleaner and more transparent to have that possibility only until a new, separate facility is in place.

Hi Mike, Ken,
Did you have comments on the letter? Staff here have made some initial comments. IESO wanted to issue this this week.
I think on the last call, we had talked about it being cleaner to have a separate facility for the FHP. The draft letter seems to have a potential for IESO drawing both on the new facility and the existing one. Does that work for you?
Do the timelines and spread wording work for you?

Subject: DRAFT IESO FH credit letter

See attached draft letter we hope to issue this week – for your comments (will appreciate by Thursday this week if any).

I did speak with Moody's on April 28 to obtain their feedback.

Call me @ 905.403.6944 to discuss (…Ken can we discuss the interest exp/income flows when you have a moment).

As mentioned the current $975M supports the RPP today which will be transitioned to the new FH going forward – for this draft as discussed with my CFO I have left the $975M as is but will seek to use for FH too.

Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan~~rogram~~**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its inten~~s~~tion to implement the proposed Fair Hydro Plan~~program~~ (FHP) to reduce electricity prices for eligible consumers in the province. Proposed l~~L~~egislation ~~is expected to be~~was introduced this month for the program. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that to support the IESO's role in implementation it will need greater credit liquidity than currently exists.

The existing credit facility between the IESO and the Ontario Financing Authority~~'s~~ (OFA) is $975 million. The IESO proposes that an additional facility/commitment be provided in the amount of $1,500 million. This would enable the IESO to provide interim financing for the FHP's spreading out of global adjustment costs~~smoothing~~ for a period of several months, if needed.

We suggest the OFA's current $975 million agreement and the new separate (or co-mingled) FHP agreement consider the following key provisions:

- FHP: 5 year term to align with the FHP's initial period of deferral of electricity prices, ~~period~~ plus a few months of contingency (i.e., to September 30, 2022);
- FHP: interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 per cent per annum;
- FHP: drawings to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers;
- Existing $975 million facility: draws to permit for FHP purposes until the credit agreement for FHP purposes has been made available; and

Commented [A1]: Please confirm that the requirement is $1.5 billion as it is preferred to keep the $975M separate from FHP. And see comment below.

Commented [A2]: It is preferred that a separate credit facility be set up for FHP purposes. OFA is working to obtain the appropriate approvals required. Option to use the existing facility on an interim basis may be exercised if timing does not permit putting in place a new credit facility by the time IESO needs to make a first draw.

Commented [A3]: Overall, would it be better to purely separate out the FHP borrowing – so a larger than $1.5 bn new facility, and potentially shrink the existing $975 facility?

- $975 million: a reduction in the 28 days minimum draw for the existing facility to a minimum of 7 days to a maximum of 95 days;

Should the IESO find that there is persistent~~consistent~~ usage of these facilities we will contact the OFA for further arrangements.

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facility(ies) and we will provide such evidence for the OFA's records.

We appreciate the OFA's continue support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

DRAFT

Since the current loan matures May 1, 2011 it seems to me we have to stick with that date for the refinancing loan.

The rate is determined **as of** May 1. I would leave it to the technicians to decide how and when to make that determination. April 29 would seem to be a logical date.

Subject: RE: Directive re IESO loan

Ken,

I've looked at the Directive and it provides as follows:

OEFC to lend IESO $78.2 million during the period from May 1, 2011, to April 30, 2013 for the purpose of refinancing debt owing from IESO to OEFC that matures on May 1, 2011.
The Loan shall be subject to the following terms:

- The term of the Loan shall be two years from May 1, 2011 to April 30, 2013.

Interest shall be payable on the Loan at a rate established as of May 1, 2011, based on the Province of Ontario's cost of borrowing for a two year term, determined by the Chief Executive Officer of OEFC or the Chief Operating Officer of OEFC, or by a person designated by either of them,

Questions & Comments:

(1) May 1, 2011 is not a good business day because it is a Sunday. Is it still intended that the loan commence as of May 1. 2011?

(2) When is the rate actually determined- April 29, 2011?

(3) I don't see any business day conventions in these agreements (Fan please check) so we may want to add some language in this agreement i.e. what happens when a payment date falls on a non business day.

Thanks,

Annette

Ken,

Shouldn't the maturity date be May 1, 2013 instead of April 30, 2013?

To my understanding, the last interest together with the principal should be paid on May 1, 2013, the very next day of the final interest accrual date of April 30, 2013.

Please advise.

Thank you.

Subject: Draft Non-disclosure Agreement

Hello Mike,

Per your conversation with Opal, attached is a form of Non-Disclosure Agreement that can be sent to Ministry of Energy for their consideration.

You may note to MOE that the agreement may still require some additional detail, and that we have highlighted for them on the first page of the draft a number of issues that they may want to consider incorporating, including the clarification of the scope services provided and any relevant conflicts of interest. They may also want to consider entering into a separate agreement for advisory services, as discussed on the first page of the draft.

Thanks,
Sarah

Considerations regarding this NDA and the retention of an adviser:

Some issues that should be considered in retaining an adviser:

- Exactly what is the scope of the advice being sought. If the advice is restricted to advising on market timing and potential demand for certain securities, this is more limited than broader advice relating to structuring the transaction;
- It should be clear who the adviser is working for, and how the advice will be presented to the Province.
- Are there potential conflicts of interest between the adviser's role as an adviser and as a potential underwriter or other business of the adviser?

In addition, it should be considered whether it is appropriate to have an adviser without an agreement for the services that the adviser would be providing. The NDA protects the Province with respect to the disclosure of the information to third parties, but it does not set out the role, responsibilities or other matters relating to conflicts or other duties of the adviser. Terms of such an agreement that may be considered in such a context include:

- Scope of engagement;
- Performance Warranty – setting out the standard to which the adviser is to carry out the work and provide advice;
- Copyright and IP provisions;
- Conflict of interest provisions – setting out the primary duties of the adviser and how they must conduct themselves with respect to any potential conflicts;
- Indemnities – setting out the adviser's indemnities to the MOE for certain risks.

Non-Disclosure Agreement

This Agreement is made effective this day of

Hi Will,

With regard to the following section:

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 423/04 made under the Electricity Act, 1998, subject to the following conditions:

(1) Proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and,

(2) With the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by the IESO under 25.33 of the Electricity Act, 1998, the IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance."

Please reach out directly to Salman and Toby (cc' Lisa) to get their assistance in defining the use of proceeds for the IESO credit facility.

Also, Toby is going to need to review the credit facility agreement. Once Lisa comes back with her comments, you'll need to go through the draft, revise it accordingly, then you can let Lisa know that you will circulate to Toby so he can provide any comments as well. It would be best to give Toby the head's up that it will be coming.

Thanks,

Sarah

Hello Lisa,

Please find the OFHP IESO OFA Credit Facility Agreement, agreement comparison and the original agreement.

Question:

Section 3.4 Interest on Advances.

To date all advances/rollovers under IESO OFA Credit Facility $975 million (28-95 days) have been approximately 30 days and there has been no circumstances where the term has exceeded 30days and the 1 month cost of funds for borrowing with a similar term has always applied.

Right now for the new OFHP IESO OFA Credit Facility advances will range from 7 – 95 days and either the 1 month or the 3 month cost of funds for borrowing will apply.

The question therefore is, is the language in Section 3.4 an accurate representation (provides enough flexibility for the trader)if a trader was to apply the 3 month cost of funds for borrowing a borrowing request at 45 days for example. If not, please provide suggestive language for flexibility.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the OFA's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest

Thanks,
Will

Hello Lisa,
Please find the OFHP IESO OFA Credit Facility Agreement, agreement comparison and the original agreement.
Question:
Section 3.4 Interest on Advances.
To date all advances/rollovers under IESO OFA Credit Facility $975 million (28-95 days) have been approximately 30 days and there has been no circumstances where the term has exceeded 30days and the 1 month cost of funds for borrowing with a similar term has always applied.
Right now for the new OFHP IESO OFA Credit Facility advances will range from 7 – 95 days and either the 1 month or the 3 month cost of funds for borrowing will apply.
The question therefore is, is the language in Section 3.4 an accurate representation (provides enough flexibility for the trader)if a trader was to apply the 3 month cost of funds for borrowing a borrowing request at 45 days for example. If not, please provide suggestive language for flexibility.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the OFA's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest

Will

Hi William,
I started looking at this agreement and realized that you have copied the terms of the Directive into the recital – they do not belong there. Can you please delete these and provide me with a blacklined compare version from the original agreement for ease of reference?
Thank you,
Lisa

Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

Hello Lisa,
Please find the OFHP IESO OFA Credit Facility Agreement, agreement comparison and the original agreement.
Question:
Section 3.4 Interest on Advances.
To date all advances/rollovers under IESO OFA Credit Facility $975 million (28-95 days) have been approximately 30 days and there has been no circumstances where the term has exceeded 30days and the 1 month cost of funds for borrowing with a similar term has always applied.
Right now for the new OFHP IESO OFA Credit Facility advances will range from 7 – 95 days and either the 1 month or the 3 month cost of funds for borrowing will apply.
The question therefore is, is the language in Section 3.4 an accurate representation (provides enough flexibility for the trader)if a trader was to apply the 3 month cost of funds for borrowing a borrowing request at 45 days for example. If not, please provide suggestive language for flexibility.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the OFA's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest

Hi Will,

I note in amendment #7, the following addition is made to the Credit Agreement:

liquidity purposes and to temporarily fund corporate requirements; and,

(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by the OPA under section 25.33 of the Electricity Act, 1998, the OPA is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance."

I think this should be include this in the new credit facility draft as a discussion point with Lisa and Salman (I don't think the reference to 25.33, on the face, would be needed). I think the idea though is to ensure that any loan isn't rolled over for the entire term of the agreement, but that any one advance is limited to 12 months of rolls.

Thanks,

Sarah

Hi Will,

I note in amendment #7, the following addition is made to the Credit Agreement:

liquidity purposes and to temporarily fund corporate requirements; and,

(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by the OPA under section 25.33 of the Electricity Act, 1998, the OPA is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance."

I think this should be include this in the new credit facility draft as a discussion point with Lisa and Salman (I don't think the reference to 25.33, on the face, would be needed). I think the idea though is to ensure that any loan isn't rolled over for the entire term of the agreement, but that any one advance is limited to 12 months of rolls.

Thanks,

Sarah

Section 3.1 Advances.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Short-Term Credit Facility from time to time on any Business Day prior to August 31, 2022.

Commented [WT2]: Question for Lisa, other agreements stop taking advances one month before the agreement is set to expire. Since FHP has a 7 day minimum advancement should this be moved upto September 23, 2022?

Section 3.2 **Procedure for Advances.**

(1) Subject to Section 3.3(3), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a **"Borrowing Notice")** shall be substantially in the form of Schedule 1, shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance, and (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall be not later than 7 days and not later than 95 days after the date of the requested Advance. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3. The IESO authorizes the OFA to record on the grid promissory note (a) the date and amount of each Advance, including any Advance all or a portion of which is continued by election under Section 3.3; (b) the applicable rate of interest for each Advance; (c) the Repayment Date of each Advance; (d) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (e) the

outstanding principal amount of the grid promissory note. Such notations, in the absence of manifest error, shall be prima facie evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance for a further period of 7 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each election to continue an Advance for a further period shall be made one Business Day's prior notice given, in each case, not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each such notice (an **"Election Notice")** shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify (a) the requested date of the proposed election, (b) the aggregate principal election amount, and (c) the new Repayment Date, which shall be no earlier than 7 days and not later than 95 days after the current Repayment Date. If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(4) The Note shall at all times rank *pari passu* with all other unsubordinated Indebtedness of IESO, subject to the existence of any Permitted Liens of IESO.

(5) All amounts owing in respect of the Advances shall be paid without exercising any right or set off or counterclaim by IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the OFA's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will

be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the IESO promissory note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the IESO to make the Advances pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO; and

Hi Will,

With regard to the following section:

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 423/04 made under the Electricity Act, 1998, subject to the following conditions:

(1) Proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and,

(2) With the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by the IESO under 25.33 of the Electricity Act, 1998, the IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance."

Please reach out directly to Salman and Toby (cc' Lisa) to get their assistance in defining the use of proceeds for the IESO credit facility.

Also, Toby is going to need to review the credit facility agreement. Once Lisa comes back with her comments, you'll need to go through the draft, revise it accordingly, then you can let Lisa know that you will circulate to Toby so he can provide any comments as well. It would be best to give Toby the head's up that it will be coming.

Thanks,

Sarah

Subject: FW: FHP IESO OFA Short Term Credit Facility Agreement (Draft)

Hello Lisa,

Please find the OFHP IESO OFA Credit Facility Agreement, agreement comparison and the original agreement.

Question:

Section 3.4 Interest on Advances.

To date all advances/rollovers under IESO OFA Credit Facility $975 million (28-95 days) have been approximately 30 days and there has been no circumstances where the term has exceeded 30days and the 1 month cost of funds for borrowing with a similar term has always applied.

Right now for the new OFHP IESO OFA Credit Facility advances will range from 7 – 95 days and either the 1 month or the 3 month cost of funds for borrowing will apply.

The question therefore is, is the language in Section 3.4 an accurate representation (provides enough flexibility for the trader)if a trader was to apply the 3 month cost of funds for borrowing a borrowing request at 45 days for example. If not, please provide suggestive language for flexibility.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the OFA's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest

Will

Hi William,
I started looking at this agreement and realized that you have copied the terms of the Directive into the recital – they do not belong there. Can you please delete these and provide me with a blacklined compare version from the original agreement for ease of reference?
Thank you,
Lisa

Commented [WT1]: Salman and Lisa, please comment if this regulation still applies?

Commented [WT2]: Comments from Lisa and Salman. This section originated from Amending Agreement 7. Reference from 25.33 may not be required. The key idea seems ensure that any loan isn't rolled over for the entire term of the agreement and limited to 12 months of rolls.

(2) For the purposes of disclosure pursuant to the Interest Act (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding in the next calendar year and the denominator of which is the actual number of days in such period.

Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the IESO promissory note in respect of Advances held by it.

Hi Kelly,
I'm going to draw you into the nebulous world of FHP and am going to ask you to get familiar as you can with the attached information Opal has provided. This is still considered confidential. Essentially she looking to see, based on the information she's been provided, if you might be able to attempt to connect how this information fits together in order to better understand how the FHP is being structured.
Opal mentioned something to the effect that OPG is going to Energy to submit its request for a capital infusion, Energy is coming to the Province, the Province is investing funds in OPG and will get some shares in OPG. OPG will then go form some type of trust and invest those funds. Clear as mud? Thought so.
In other words, could you please review the docs and do your best to figure it out based on the information provided? If you have any comments or questions on the docs that are worth raising, please let me know.
Thanks,
Sarah

Hi Sarah,
The FHP seems to be taking shape but (as should be reasonably expected) much of the information is coming to me in bits and pieces. Would be good to have a Doc staff familiar with this as more info becomes available or is being developed. It's being kept at a fairly high level at this time, but don't want to be surprised if Documentation is needed to jump in. I've included the emails on the subject to help provide some context – they aren't all helpful though. What I've sent is for review and provide opportunity to comment as well as to ask questions.

FINANCING TRUST – PERFORMANCE FEE TO OPG

BACKGROUND

Ontario Power Generation Inc. (OPG) has been appointed the Financial Services Manager under the Fair Hydro Plan Act, 2017 to, among other things evaluate whether funding obligations should be incurred by the Trust for the purpose of acquiring and financing an investment interest. A performance fee relating to the funding obligations will be meaningful and allow OPG to make decisions that will significantly impact its return. The Act as drafted enables OPG to achieve its accounting objective of consolidation of the Trust with OPG, and the ability to earn a return and take on risk, through its control of the Trust.. The objective therefore is to recommend a reasonable variable performance fee structure for OPG to earn a return from the Trust, and meet the accounting requirement.

ANALYSIS OF ACCOUNTING REQUIREMENT

To support the accounting consolidation, OPG's variable performance return will be accomplished through the followings:

a. The cash flow from the investment asset shall include interest determined based on a relevant benchmark that is appropriate relative to the investment asset, plus an appropriate margin consistent with the relevant market and other risks
b. OPG shall have the authority to determine the financing strategy, which will vary the financing costs with the objective of enabling the Trust to achieve a more favorable return compared to the benchmark for interest on the investment asset
c. The Trust shall establish different classes of debt (senior, subordinated and the most subordinated). The classes would allow the Trust to delineate financing of lower risk investment and investment that would bear higher residual risk. The delineation would limit OPG's self-funded investment to a reasonable level in order to allow OPG to remain a self-sustaining entity.
d. OPG shall, through its ownership of the most subordinated liability, be able to capture and retain the pricing difference between cost of financing and benchmark for interest on the investment asset, or any residual risk of investment asset. The targeted return of the subordinated debt should be reflective of the underlying risks and compensate holders for active management that would be required.

PERFORMANCE FEE ANALYSIS

Based on the accounting requirements, the recommendation is for OPG to establish a variable performance fee structure as follows:

As the Trust may issue both long term bonds and medium term notes, benchmarks based on various terms, will be established on an annual basis, subject to the following methodology:

- Benchmarks will be established as the sum of (1) reference rate, and (2) spread
    - Both reference rate and spread will be term dependant

- For bond/note issuance, reference rate will be GOC rate of equivalent term
- Reference rate will be based on consensus forecast provided by various financial institutions

- Benchmarks will be established based on the weighted average rate of incremental debt issuance at the Trust level
- If the actual weighted average rate is lower than the corresponding benchmark, OPG will realize a gain, otherwise a loss
- Variable performance fee, i.e. gain/loss, is applicable only to OPG's investment in the Trust (5% of the funding requirement), and is capped at benchmark weighted average rate +/-1%

An example illustrating this structure is detailed in Appendix 1

APPENDIX 1

The illustration is based on the expected Trust debt structure as follows:

	Risk Profile	Source	% of Total Funding Requirement
Tranche A Senior Debt	the least risky	Capital Markets	51%
Tranche B Sub Debt	In between A&C	OPG via OEFC	39%
Tranche C Sub Debt	the most risky	OPG via OEFC	5%
		OPG via Capital Markets	5%

1. Benchmark is to be established at each year end for Trust issuance next year. In this example, assuming the following benchmark is established as of end of Yr 1

		Benchmark
Tranche A	51%	4.25%
Tranche B Sub Debt	39%	5.50%
Tranche C Sub Debt	10%	6.50%
Weighted Average Rate		**5.0%**

2. By the end of Yr 2, OPG will calculate the actual weighted average rate for all incremental issuance for the year. If the actual weighted average rate is lower than the corresponding benchmark, OPG will realize a gain, otherwise a loss.

	Allocation	Benchmark	Actual
Tranche A	51%	4.25%	5.0%
Tranche B Sub Debt	39%	5.50%	5.60%
Tranche C Sub Debt	10%	6.50%	6.60%
Weighted Average Rate		**5.0%**	5.4%
		Loss	0.4%

3. Variable management fee, i.e. gain/loss, is applicable only to OPG's investment (5% of the Trust funding requirement), and is capped at benchmark weighted average rate +/-1%.

   Based on the example above and assume incremental Trust issuance is $2B, OPG will realize loss of variable performance fee of 0.4M ($2B*5%*0.4%)

Fair Hydro Plan – Subordinated Debt Loan Arrangement
Term Sheet

- Parties: OPG, Fair Hydro Trust, OFA

- In accordance with the Master Subscription Agreement among OPG, OFA and Ministry of Energy, the Province agrees to inject 44% of total funding of GA asset by way of equity subscriptions in OPG, and OPG agrees to use the equity subscription amounts solely for funding the Fair Hydro Trust's subordinated debt (Equity Injection Plan) requirements as part of the Fair Hydro Plan

- OPG will lend the equity injection from the Province to Fair Hydro Trust by way of subordinated debt (one or more mezzanine level)

- Initial credit rating will be assigned to the subordinated debt of Fair Hydro Trust

- Based on monthly funding requirement of GA asset, the Trust will use short term financing, such as bank facilities, and take out bonds once accumulative short term funding reaches certain levels.

- The mechanism to implement Equity Injection Plan will be based on monthly equity injections reflecting funding requirements of GA asset

- Interest rates on the subordinated debt will be established as follows:

    - During the Trust short term financing period when bank facilities are used as funding vehicles, the interest rate on subordinated debt will be the sum of (1) funding rate on senior debt, and (2) additional spread margin of [xx], reflecting the credit rating difference between the senior and subordinated debt

    - At the time when senior bonds are being issued to take out (term out) the short term financing, OPG will seek indicative coupon rates on the subordinated debt from dealers, reflecting the sum of underlying Government of Government of Canada yield of equivalent term and the appropriate credit spread. The average indicative coupon rate from dealers will be calculated and set as the subordinated debt rate. The process will be similar to the one established for pricing of OPG debt drawn from OEFC facilities.

Hi all,

ENE MO asked for a quick note on 4 of the outstanding business issues that are being worked through and are hoping to see something tomorrow morning.

I've pulled together a high level explanation of each of the items and next steps/timing (to the extent I know).

Would greatly appreciate if you guys could take a look and provide any edits/comments today/early tomorrow if possible. I'm also not too involved in a few of these discussions so if there's others within OFA you think should review feel free to pass along.

Thanks in advance,
Kaitlin

Outstanding Business Issues – Ontario Fair Hydro Plan
Briefing Note

PURPOSE
Provide an overview of a few of the key remaining outstanding business issues that OPG and the Province are working through

BUSINESS ISSUES

1. **Provincial Support Agreement Term Sheet (~~Service and~~ Performance and Payment Guarantees)**
   - As part of the OFHP, the IESO will create and sell a regulatory asset to the OPG financing entity
   - In order to provide assurances to those with claims against the Financing Entity (eg. Holders of debt), and support credit ratings, the Province is providing both a Service Guarantee and a Performance Guarantee to ensure that the obligations of the IESO are carried out including obligations related to collecting and remitting clean energy adjustments.
   - **Next Steps:**
     - OPG and OFA and working towards the development of a term sheet
     - Timing: Guarantees are required to support rating agency review which is expected by the end of July

2. **Payments in Lieu of Taxes (PILs) Exemption**
   - The Province would like to minimize to the extent possible , the PILs payable by the OPG financing vehicle, as those costs will be recovered from ratepayers
   - The Province is considering regulation changes to exempt the income arising as a consequence of the Fair Hydro Plan from PILs
   - As part of the OFHP, the financing entity will raise debt and acquire "investment assets" from the IESO. Given the unique nature of the investment assets, there are no specific rules which govern the manner which investment assets should be treated for tax purposes, and further analysis is required to ensure the cost of the investment assets are appropriately recognized as a deduction or offset in computing the income of the financing entity
   - **Next Steps:**
     - The Ministries of Finance, OFA and OPG are working together to determine required regulation changes
     - Timing: [Next steps for a decision / when is a decision required / when would these regulation changes occur]

3. **Fair Hydro Plan - Master Subscription Agreement Term Sheet (Equity Injection Process)**

- OPG will require equity injections on a monthly basis in order to maintain its capital structure, and will require flexibility in order to issue shares as needed by the Province
- The Ministry of Energy received appropriation for $1.1B through PRRT to support equity injections for the 2017-18 period, and will continue to provide multi-year forecasts each year through PRRT
- **Next Steps:**
    - The Ministry of Energy, OFA and OPG are working through the short term mechanics of this process which will ultimately feed into a Master Subscription Agreement. A draft term sheet is underway.
    - Timing: OPG will require the ability to issue equity in July, so mechanics and agreements should be finalized in June

4. Management Fees

- OPG will be providing all required services to the Trust as part of the OFHP, including planning, strategy, financing, deal execution etc.
- The legislation allows OPG to establish and charge a management fee for those services in accordance with the regulations which are currently in development
- OPG and OEB are currently working together on a management fee structure that balances the interests of minimizing costs and satisfying accounting consolidation requirements
- **Next Steps:**

Thanks Carlos.

In the previous H1 related loans, the Minister of Energy signed the share purchase agreement and the Minister of Finance signed the loan agreement under the authority of an OIC. OFA staff act on behalf of the Minister of Finance in taking certain actions related to the loan. I am not sure that the Minister of Energy can delegate authority under the share purchase agreement for this equity injection (i.e. to make a decision to purchase shares) in the same way that OFA staff would deal with actions under a loan agreement. It may be that if there needs to be some quick turn-around in relation to funding OPG via the equity injection that maybe there might be a services agreement between the OFA and the Ministry of Energy. Perhaps, this only refers to how the money is being flowed and is more of a back-office function, and someone at the Ministry of Energy directs the OFA to take the action.

We will take a look at this term sheet too and provide some comments and questions.

Thanks.

Subject: Equity Injection Term Sheet

Hey John, Carlos,

Attached is a term sheet from OPG that would form the basis of the Equity Injection Agreement. I think this would be an agreement between ENE/OPG and OFA. While it currently says 5 business days in this document Clara flagged that the IESO may be looking for it to be settled in as quickly as 1 day. Given how quick this needs to happen I've included a line about ENE delegating authority to the OFA to manage this monthly process. I think ENE would want to be kept in the loop but I don't think they would need to sign off each month. That being said I haven't run this up the chain at ENE yet or discussed with ENE controllership.

Id defer to you guys for short term mechanics for the most part as you have the experience on the borrowing side. If you could take a look and mark-up where desired then maybe we can chat?

Let me know if you have any questions.
Kaitlin

Hi all,

We are also putting together an issues list for discussion with Energy Legal and Blakes and will share it with you as well.

Is there any type of draft term sheet for the proposed financing transaction itself or the master sales and servicing agreement? Any general description of the proposed transaction would be helpful to us.

Thank you.

CONFIDENTIAL AND PRIVILEGED LEGAL ADVICE

ISSUES LIST – PROVINCIAL SUPPORT AGREEMENT DRAFT MAY 12, 2017

1. Guarantor will be the Minister of Energy and the Minister of Finance on behalf of the Province (see. 5(3) of proposed Fair Hydro Act, 2017).

2. Description of proposed beneficiaries of guarantee is very broad. Provides that beneficiary is Indenture trustee under master trust indenture on behalf of itself and all persons that have claims against a Financing Entity secured under the master trust indenture. Persons range from the Financial Services Manager (OPG) to holders of various types of debt and hedge counterparties. Need to clarify which obligations the Province is being requested to guarantee and under what various agreements to determine scope and limit of guarantee. Is there a term sheet for the proposed financing to be issued by the Financing Entity? Is there a request for a guarantee of payment on other back-up or ancillary borrowing and obligations other than those issued in the market? Is there a draft of the Master Trust Indenture?

3. Why does the term of the guarantee continue for one year after the obligations have been repaid?

4. Performance Guarantee – This is also a very broad guarantee of performance of the IESO and all electricity services providers in favour of the same broad group of beneficiaries. How can the Province ensure that these entities perform their obligations practically? Also the Province is to protect beneficiaries from any commingling risk. It is noted that in the event the performance guarantee is unenforceable against the Province, there would be a separate legal obligation in the provincial support agreement to indemnify beneficiaries for any losses. Would there be any trigger events applicable to the obligation to indemnify as there are for the payment guarantee. If not, is this an issue for accounting treatment purposes? Also, is there an overlap between the performance and payment guarantee? So long as the funding obligations are paid on time by the financing entity, is there a need for other guarantees from the Province? Note that the Province does have immunity from specific types of enforcement under the Proceedings against the Crown Act. Is there a sample term sheet for the Master Sale and Servicing Agreement? Which provisions of the proposed bill are being relied on for this – is it section 5(2)? section 33. There doesn't seem to be a mechanism in the Act to replace the IESO as servicer. Should the Guarantee specify that the Province can appoint a replacement servicer?

5. Payment Guarantee Event – Regarding (B) and (C), the interpretation of when the triggering event has occurred will be an issue – is there a way to make it more objective or how can this be handled if there is a dispute? Regarding (D), think that there is going to be more discussion of the need for this provision from a business perspective. However, is this assuming, that the Province is guaranteeing both long term and short

term funding obligations? Need to clarify when and which obligations the province will be guaranteeing?

6. Payment Guarantee – Again it will be necessary to clarify which obligations the province is guaranteeing to understand what the range of payments to be made are. Also, (y) does not seem acceptable to the Province from a business perspective.

7. Limits under Guarantee – The guarantee wording should be clear so that the Province is guaranteeing payment of certain debt or specific obligations only and the Province's liability should be capped. Province should not be exposed to the risk of any other types of damages or losses.

8. Priority of Payments – Until we know who the beneficiaries are and with respect to what obligations, it is difficult to comment on this.

9. Subrogation – Need to ensure that the Province has appropriate recovery rights and not sure that it is appropriate that all beneficiaries are paid in full before Province gets subrogation rights. Also there is no acceleration here and Province really pays on an ongoing basis so how should subrogation work in such a case.

10. Conditions Precedent – Need to know what they are proposed to be.

11. Representations – Need to know what they are proposed to be as Province does not typically provide representations in connection with guarantees it provides.

12. Confidentiality Obligations – Thought the guarantee is part of a public financing so wouldn't the terms all be known?

13. Legal Opinions – Content, who will be providing them and to whom would they be provided.

General Questions on proposed legislation and interaction with guarantee:

14. General review of relevant sections would be appreciated and how the provisions fit with the requirements of the financing. In particular, s. 5, 13, 19, 21, 22, 33, 41 par 7

Provincial Support Agreement Term Sheet

Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") is provided exclusively to the parties listed herein in connection with the draft Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Defined terms used herein have the meanings ascribed to them in the Act. The provincial support agreement (the "**Provincial Support Agreement**") will contain the terms and conditions set out in this Term Sheet in addition to such other representations, warranties, indemnities, and other terms and conditions as the Guarantor and the Beneficiaries (each as defined below) may reasonably require.*

Guarantor:	Her Majesty the Queen in right of Ontario, as represented by the Minister of Energy.
Beneficiaries:	The indenture trustee (together with its successors, the "**Indenture Trustee**") under the master trust indenture (the "**Master Trust Indenture**") on behalf of itself and all other persons having debt or other claims against a Financing Entity secured under the Master Trust Indenture (collectively, the "**Beneficiaries**") including, without limitation, holders of senior and subordinated notes, senior and subordinated lenders, hedge counterparties, credit enhancers, liquidity providers, the Financial Services Manager, the Indenture Trustee, the trustee of the Financing Entity if the Financing Entity is a trust, and any other administrator of the Financing Entity.
Term:	The Guarantor's obligations under the Provincial Support Agreement will continue until **[one year]**[1] after all funding obligations (to be defined to include principal, interest, fees, hedge settlement and termination obligations and other related amounts) of all Financing Entities have been repaid.

[1] This mirrors the requirement expected to be in the Regulations under the Act not to wind up, dissolve or liquidate a Financing Entity until at least one year after all of its Funding Obligations have been repaid.

Performance Guarantee:	Under the Master Sale and Servicing Agreement to be entered into by IESO and the Financing Entity, **[and OPG as Financial Services Manager]** ("**MSSA**"), IESO will have obligations both as a seller and as a servicer. Pursuant to a performance guarantee, the Guarantor will guarantee in favour of the Beneficiaries to perform, or cause the performance of (which may be by way of the appointment of a replacement servicer), the obligations of IESO as servicer under the MSSA and the Act including the obligations of any replacement servicer. The Guarantor will also guarantee the servicing obligations of the electricity vendors under the Act. The servicing obligations covered will include all obligations related to the collecting and remitting of clean energy adjustments and will protect the Beneficiaries from any risks arising from collections of clean energy adjustments being commingled with other amounts. In the event that the performance guarantee is unenforceable against the Guarantor, the Provincial Support Agreement will contemplate a separate legal obligation by the Guarantor to indemnify the Beneficiaries for any losses that result.
