Subject: RE: OFHP - Ontario Fair Hydro Plan,

Hi Will,

I think that in the case of the Province's loans to the OFA under the authority of this OIC, the interest rate payable by the OFA is set out as objectively as possible in the OIC.

Subparagraph (c)(i) sets out that the interest rate applicable is the yield earned on 90 day Province of Ontario treasury bills and if the loan advance is outstanding longer than 90 days, then it is reset.

Subparagraph (c)(ii) provides that if the OFA lends out the money to a third party public body (e.g. IESO), then the rate of interest that the OFA will pay to the Province during the period that the OFA-public body loan is outstanding is the interest rate that the OFA receives on that public body loan less the spread that is set by the Minister of Finance in the directive. So again this should be automatic and a straight forward calculation.

So I think that there is not a decision to be made, but more an implementation of what the OIC says.

S. 22 of CIPA does not have a provision that provides for delegation of the Minister of Finance's power in the OIC. Perhaps it would be better if it did have this provision so it would be clearer who actually exercises some of the day to day powers on behalf of the Minister. However, the OIC is drafted to set the terms of the borrowing including the interest rate as objectively as possible However, because of the lack of the delegation in the OIC, this is why the Minister of Finance determines the spread in the directive. Once the spread is determined it can't be adjusted except by the Minister.

If you would like to discuss this please let me know. Are there any difficulties arising as a result of this in terms of the directive. I have copied both Patrick and Toby here. Toby is the MOF Legal contact on the directive and the IESO loan.

Thanks.

Hello Patrick,

We are drafting the Directive and want some clarification around who at the OFA has the authority to "adjust" the portion of the Advance for the amount of 25bps as determined by the Minister of Finance. Are you aware of anything officially saying that Mike Manning for example can make this decision?

According to OFHP OIC, section C(ii) "…..

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a "Third Party Loan"), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

ii) Retention of spread

Pursuant to Order in Council ####, made under sub-section 22(1) of CIPA, the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for the Line of Credit made under the authority of this Directive, the amount of the spread retained by the OFA shall be for the amount of the Spread as set out above.

Which would you suggest?
Option 1 (I know you haven't seen the agreement yet)– define the terms.

Hi William,
In being consistent with the Directive, I think the purpose of the credit facility can be written as follows, subject to any additional comments:

1) Proceeds of Advances may be used only for short to medium term financing requirements due to cash flow timing differences incurred as a result of IESO's role in the implementation and administration of the Ontario Fair Hydro Plan Act, 2017.

I don't think subsection 2 applies. When sending this to IESO, I recommend that we highlight the entire section and have them confirm or provide further details, especially the reference to the 423/04 regulation.

Salman

Hi Toby and Salman,

May I ask both of your assistance in defining the use of proceeds from the IESO credit facility below?

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 423/04 made under the Electricity Act, 1998, subject to the following conditions:

(1) Proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and,

(2) With the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by the IESO under 25.33 of the Electricity Act, 1998, the IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance."

Toby, once Lisa has finished reviewing the IESO credit facility, I will implement her suggested changes and then circulate the draft for your review and comment.

Hi Toby/all,
I had a quick chat with Bruno as well and it may be best to leave it a little open in an effort to remain consistent with what we know for now. We can suggest IESO provide some more details in this statement for clarity based on how they see the borrowings to occur.

Salman

I agree with Salman, though I wonder if we should be more specific about what short to medium term means, or better to leave it open depending on circumstances?

Hi William,
In being consistent with the Directive, I think the purpose of the credit facility can be written as follows, subject to any additional comments:

1) Proceeds of Advances may be used only for short to medium term financing requirements due to cash flow timing differences incurred as a result of IESO's role in the implementation and administration of the Ontario Fair Hydro Plan Act, 2017.

I don't think subsection 2 applies. When sending this to IESO, I recommend that we highlight the entire section and have them confirm or provide further details, especially the reference to the 423/04 regulation.

Salman

Subject: OFHP IESO OFA Credit Facility (Use of Proceeds)

Hi Toby and Salman,

May I ask both of your assistance in defining the use of proceeds from the IESO credit facility below?

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 423/04 made under the Electricity Act, 1998, subject to the following conditions:

(1) Proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and,

(2) With the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by the IESO under 25.33 of the Electricity Act, 1998, the IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance."

Toby, once Lisa has finished reviewing the IESO credit facility, I will implement her suggested changes and then circulate the draft for your review and comment.

Promissory Note

For value received, the Ontario Financing Authority (the "Borrower") promises to pay to Her Majesty the Queen in right of Ontario as represented by the Minister of Finance, Province of Ontario (the "Lender") at the City of Toronto in lawful money of Canada, the lesser of:

(i) Two Billion Dollars; and
(ii) the aggregate unpaid principal balance of all advances made by the Lender as recorded on the reverse of this note or on any attachment described below;

at such time and on such other terms and conditions including the payment of interest as follows;

(a) the Borrower shall be entitled to advances of the loan (an "Advance") in such amounts and at such times as it requires provided that the aggregate amount advanced shall not exceed Two Billion Dollars;

(b) the Borrower shall be entitled to repay Advances either in whole or in part and at such time or times as it determines provided that all Advances plus any accrued interest shall be fully repaid by December 31, 2047;

(c) the Borrower shall be entitled to use the loan as a revolving credit facility allowing for successive advances of moneys repaid under the loan; provided that the maximum principal amount of the loan outstanding at any time shall not exceed Two Billion Dollars;

(d) the Borrower shall pay to the Lender interest on each Advance at a rate which is determined as follows

(i) from the date of Advance to (but excluding) the date of repayment the Borrower shall pay to the Lender interest on the Advance at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for ninety days or longer, the interest rate shall be reset on the last day of each ninety day period (the "Reset Date") to the yield earned on ninety day Province of Ontario treasury bills on the Reset Date as determined by the Province;

(ii) in the event that moneys included in an Advance are subsequently loaned by the Borrower to third parties for the purposes contemplated in the Act, (a "Third Party Loan") the rate of interest payable by the Borrower to the Lender on the portion of the Advance so loaned shall be adjusted at the option of the OFA effective as of the date of the Third Party Loan so that the per annum rate of interest payable by the Borrower on such moneys is equivalent to either:

(A) the per annum rate of interest payable to the Borrower under the Third Party Loan, or

(B) the per annum rate of interest payable to the Borrower under the Third Party Loan less an amount not exceeding 25 basis points,

rather than the rate specified in subparagraph (i), until (but excluding) the date on which the Third Party Loan is repaid to the OFA, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently loaned to third parties again, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Lender on that portion of the Advance included in any subsequent loan, and so on, until the Advance shall be repaid to the Province in full;

(d) despite subparagraphs (c)(ii) and (iii) in the event that no interest is payable to the Borrower under a Third Party Loan, no- interest shall be payable by the Borrower on the portion of the Advance so loaned and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period;

(e) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(f) despite paragraph (b), interest on any portion of an Advance made to the Borrower under the loan that is loaned by the Borrower as a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the Borrower receives payment of interest under the relevant Third Party Loan; and

(g) despite paragraph (b), any portion of the principal of an Advance made to the Borrower under the loan that is loaned by the Borrower as a Third Party Loan shall become payable only to the extent the Borrower receives repayment of principal under the relevant Third Party Loan.

The undersigned authorizes the Lender to record on the reverse of this note or on any attachment to this note all advances, repayments and prepayments of principal and interest and the unpaid balance of principal from time to time. The undersigned agrees

Commented [WT17]: Discussed the language with Carlos Yep. He is satisfied that Section 3.3.2 and 3.3.3 provides choice of either repayment or advance for a further period. The reset rate would apply to the portion that is extended. Unless I'm not understanding the question.

Commented [LS18]: This section and accompanying form needs further consideration/amendments. Need to add a provision re: interest rate for any such extension if applicable (unless treated as a late payment). LEGAL to review again.

Hi Salman,

As discussed, we've been drafting up to the 11th hour to try to get this to IESO by end of day today. We're still putting on the final touches, but if you wouldn't mind taking a look at this draft to ensure that it is consistent with FHP purposes, and is consistent with the Directive, that would be great. My apologies for the short notice.

Thanks,

Sarah

Hi Lisa,

My apologies – in addition to the changes below, I noted one more change.

Under 3.3(2), I took out the word Continued in the first sentence, as I think is the accurate intention

Each notice to continue an Advance for a further period (an "Election Notice") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the ~~Continued~~ Advance, and in each case, not later than 10:00 a.m. (Toronto time).

Otherwise, there are no other changes from my last version.

Thanks,

Sarah

Hi Lisa,

Please find attached the revised draft, based on our conversation (I also included the blacklined comparison directly against your 12:38 p.m. version, for your reference).

Particularly, could please review the election notice language and comment if you think it is now consistent with the new wording of section 3.3 (2). I also note Toby's comments are for clarification and do not change the drafting of your previous version, so we're okay to work off this version for further edits.

I am available at 647-278-9718 at any time.

Thanks,

Sarah

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "Grid Note"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance, including any Advance for which all or a portion of which is continued by election under Section 3.3; (b) the applicable rate of interest for each Advance; (c) the Repayment Date of each Advance; (d) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (e) the outstanding principal amount of the Grid Note. Such notations, in the absence of manifest error, shall be prima facie evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Commented [SH5]: Does this need any tweeking to take into account our definition of "Continued Advance" under 3.2 (2)?

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "Continued Advance") for a further period of 7 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

Commented [SH6]: Changed per Carlos' description of how advance works and converstation with Lisa

(2) Each notice to continue an Advance for a further period (an "Election Notice") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the ~~Continued~~ Advance, and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Advance to which the election request applies~~;~~ ~~(b) the Repayment Date of the proposed Continued~~

Commented [SH7]: Think this should just be the Advance.

~~Advance;~~ (b~~c~~b) the new aggregate total amount of the proposed Continued Advance~~[including accrued interest];~~ and (c~~d~~c) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 7 days and not later than 95 days after the current Repayment Date. If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance as set out in ~~accordance with~~ Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(4) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(5) The Credit Facility shall at all times rank pari passu with all other unsubordinated Indebtedness of the IESO, subject to the existence of any Permitted Liens of the IESO.

(6) All amounts owing in respect of the Advances shall be paid without exercising any right or set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

~~(3)~~ (3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Commented [SH8]: Deleted (b), since this is reflected in (d)

Commented [LS9]: NTD: As discussed please clarify calculation of interest on Advance continued by election in Section 3.4.

Commented [SH10R9]: Changed per discussion with Lisa, based on Carlos' description of application of interest rate.

Hi Salman,

As discussed, we've been drafting up to the 11th hour to try to get this to IESO by end of day today. We're still putting on the final touches, but if you wouldn't mind taking a look at this draft to ensure that it is consistent with FHP purposes, and is consistent with the Directive, that would be great. My apologies for the short notice.

Thanks,

Sarah

Hi Lisa,

My apologies – in addition to the changes below, I noted one more change.

Under 3.3(2), I took out the word Continued in the first sentence, as I think is the accurate intention

Each notice to continue an Advance for a further period (an "Election Notice") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the ~~Continued~~ Advance, and in each case, not later than 10:00 a.m. (Toronto time).

Otherwise, there are no other changes from my last version.

Thanks,

Sarah

Hi Lisa,

Please find attached the revised draft, based on our conversation (I also included the blacklined comparison directly against your 12:38 p.m. version, for your reference).

Particularly, could please review the election notice language and comment if you think it is now consistent with the new wording of section 3.3 (2). I also note Toby's comments are for clarification and do not change the drafting of your previous version, so we're okay to work off this version for further edits.

I am available at 647-278-9718 at any time.

Thanks,

Sarah

If an Event of Default occurs and is continuing, the OFA may proceed to protect and enforce the rights vested in it by this Agreement either by suit in equity or by action at law or by proceedings in bankruptcy or otherwise, whether for the specific enforcement of any covenant or agreement contained in this Agreement or in aid of the exercise of any power granted in this Agreement, or to enforce any other legal or equitable right vested in the OFA by this Agreement or by law.

Section 5.4 OFA May File Proof of Claim.

If proceedings for the receivership, insolvency, liquidation, bankruptcy, winding-up, reorganization, arrangement or composition of the IESO under any applicable law are pending, or if a receiver, trustee, custodian or other similar official shall have been appointed for the property of the IESO, or if any other judicial proceedings relative to the IESO, its creditors or its property are pending, the OFA shall be entitled and empowered, by intention in such proceeding or otherwise:

(a) to file and prove a claim for all amounts owing und this Agreement and to file such other papers or documents as may be necessary or advisable in order to have the claims of the OFA (including any claim for fees and disbursements of the OFA, its agents and counsel) allowed in such judicial proceeding; and
(b) to collect and receive any moneys or other property payable or deliverable on any such claim.

Section 5.5 Rights and Remedies Cumulative.

No right or remedy herein conferred upon or reserved to the OFA is intended to be exclusive of any other such right or remedy, and every such right and remedy shall, to the extent permitted by law, be cumulative and in addition to every other right and remedy given hereunder or now or hereafter existing at law or in equity or otherwise. The assertion or employment of any right or remedy hereunder, or otherwise, shall not prevent the concurrent assertion or employment of any other appropriate right or remedy.

Section 5.6 Delay or Omission not Waiver.

No delay or omission of the OFA to exercise any right or remedy accruing upon any Event of Default shall impair any such right or remedy or constitute a waiver of any such Event of Default or an acquiescence therein. Every right or remedy given by this Article 5 or by law to OFA may be exercised from time to time, and as often as may be deemed expedient, by the OFA.

Apologies, regarding the French translation. 1) I had updated using my high school French and 2) in the translation I had missed updating the change in date from June to December 31, 2017. I have revised in attached "4 – CIPA s.22…" , but of course, this should be reviewed.

Hi Patrick,

As the OIC package was going through our OFA approvals, we have now been directed that the OIC amount should be $2.0 billion, with an expiry date of June 30, 2047, to line up with the IESO request and the term of the FHP.

I'll recirculate the updated LRC package once I get a finalized version in place. Could we update the OIC to reflect this as I know it may take some time.

Let us know.

Thank you,

Salman

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the Ontario Financing Authority ("OFA") in an amount of up to $2.0 billion. Under the proposed OIC, repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- Existing OICs authorize the Minister of Finance to provide loans to the OFA, and in turn the OFA has provided loans and credit facilities to colleges, school boards and other public bodies such as Infrastructure Ontario, IESO, Ontario Lottery and Gaming Corporation and Liquor Control Board of Ontario.

- This proposed OIC is required to increase the authority of the Minister of Finance to lend to the OFA which will provide the OFA with the capacity to provide additional loans to the Independent Electricity System Operator ("IESO").
    - This will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017* as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.
    - The timing of this OIC is critical to ensure that borrowing authority for the OFA is available to provide the IESO its requested financing arrangements under the *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide additional loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA would be directed to provide a credit facility to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. During this period, Global Adjustment amounts collected from ratepayers will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The *Ontario Fair Hydro Plan Act, 2017* gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to a financing entity.
    - It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
    - The cash received from selling the regulatory asset will be used by the IESO to fund the current Global Adjustment shortfall.

- There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017 (planned for later in summer 2017; however, exact timing is subject to actual implementation). Even once the SPV is set up to borrow, there is expected to be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

- As a result, IESO requires short-term financing to be in place for initial and expected monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

- It is proposed that the OIC authorizes the OFA to borrow an additional $2.0 billion, which would be in addition to existing authority for the Minister of Finance to provide loans to the OFA, to ensure that there is sufficient borrowing authority in place for the OFA to meet the IESO requested requirements.

- If approved, the Minister of Finance will subsequently provide a Directive to the OFA to direct it to provide credit facilities to the IESO.
    - The OFA currently provides a credit facility to the IESO of $975 million.
    - The IESO has requested that the existing credit facility be reduced to $475 million, and a new credit facility be provided of $2.0 billion, for a total amount of $2.475 billion.

s. 3 Direction and Urgency

- The Province passed legislation on May 31, 2017 to implement the *Ontario Fair Hydro Plan Act, 2017,* which will reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in supporting implementation of the *Ontario Fair Hydro Plan Act, 2017*.
- Ministry of Energy proposed regulations under the *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be submitted for approval concurrently as it supports a crucial component of the successfully implementation of the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend an additional amount of $2.0 billion to the OFA. Subject to the terms and conditions of a

Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and, therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister may provide direction to the OFA on how it can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan. Upon approval, the Minister of Finance will have authorization to provide a loan to the OFA with a directive on how the loan can be used.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017*. The related Cabinet note for the initiative should be referred to.

MEMORANDUM TO: Scott Thompson
Deputy Minister of Finance

FROM: Gadi Mayman
Chief Executive Officer

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for the Minister's review and consideration is a submission for an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's *Ontario Fair Hydro Plan Act, 2017*, subject to the approval of the Legislature.

IESO has requested that the OFA provide a revolving credit facility of $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. During this period, Global Adjustment amounts collected from ratepayers will be insufficient to fund the IESO's contractual obligations to electricity producers and service providers. The *Ontario Fair Hydro Plan Act, 2017* gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to a financing entity. It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV"), an OPG special purpose vehicle or trust. The cash received from selling the regulatory asset would be used by the IESO to fund the current Global Adjustment shortfall.

../2

There is expected to be initial and ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017 (planned for later in summer 2017; however, exact timing is subject to actual implementation). Even once the SPV is set up to borrow, there is expected to be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the proposed legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

As a result, IESO requires short-term financing to be in place for initial and expected monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

The OFA obtains the funding it needs to carry out its lending programs by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to an additional Canadian $2.0 billion to the OFA. In addition, in order for the OFA to provide the IESO its requested credit facility, a direction from the Minister of Finance to the OFA under CIPA will also be required, which the OFA will seek following an approval of the OIC.

Attached for your signature is a memorandum from you to the Minister requesting that the Minister recommend the OIC. This OIC is on track to be considered at LRC on June 27, 2017 together with proposed Ministry of Energy submission for regulations related to the *Ontario Fair Hydro Plan Act, 2017.*

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Two Billion Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

Hi Patrick,

As the OIC package was going through our OFA approvals, we have now been directed that the OIC amount should be $2.0 billion, with an expiry date of June 30, 2047, to line up with the IESO request and the term of the FHP.

I'll recirculate the updated LRC package once I get a finalized version in place. Could we update the OIC to reflect this as I know it may take some time.

Let us know.

Thank you,

Salman

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the Ontario Financing Authority ("OFA") in an amount of up to $2.0 billion. Under the proposed OIC, repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by [December 31, 2047].

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- Existing OICs authorize the Minister of Finance to provide loans to the OFA under which the OFA has provided loans and credit facilities to colleges, school boards and other public agencies such as Infrastructure Ontario, IESO, Ontario Lottery and Gaming Corporation and Liquor Control Board of Ontario.

- This proposed OIC is required to expand the overall Minister of Finance lending authority to the OFA to allow the OFA to provide loans under credit facilities requested by the Independent Electricity System Operator ("IESO").
    - This will help the IESO to fulfil the commitments under the proposed Fair Hydro Act, 2017, under anticipated and potential timing differences in the implementation of the proposed Fair Hydro Plan.
    - The timing of this OIC is critical to ensure borrowing authority for the OFA is available to provide the IESO its requested financing arrangements upon the enactment of the proposed *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide additional loans to

the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the proposed *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation of the proposed arrangements, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the on-going *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA would be directed to provide a credit facility to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the proposed *Ontario Fair Hydro Plan Act, 2017,* the IESO would incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. Global Adjustment amounts initially collected will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The proposed *Ontario Fair Hydro Plan Act, 2017* allows the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell that asset.
    - It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
    - The cash received would be used by the IESO to fund the current Global Adjustment shortfall.

- However, there is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017. Even once the SPV is set up to borrow, there may be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the proposed legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

- As a result, IESO requires short-term financing to be in place for initial and potential monthly timing differences, or in the event that the OPG SPV, at any

time, does not purchase a portion of the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of up to $2 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.
  It is proposed that the OIC authorization be for $2.0 billion, which would be in addition to existing authority for the Minister of Finance to provide loans to the OFA, to ensure that there is sufficient borrowing authority in place for the OFA to meet the IESO requirements.

- If approved, the Minister of Finance will subsequently provide a Directive to the OFA to direct it to provide credit facilities to the IESO in an amount not to exceed $2.5 billion.
  - The OFA currently provides a credit facility to the IESO of $975 million.
  - The IESO has requested that the existing credit facility be reduced to $475 million, and a new credit facility be provided of $2 billion, for a total amount of $2.475 million.

s. 3 Direction and Urgency

- As announced on March 2, 2017, and highlighted as a commitment in Budget 2017, the Province intends to implement the *Ontario Fair Hydro Plan Act, 2017,* which would reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in supporting implementation of the proposed *Ontario Fair Hydro Plan Act, 2017*.
- Ministry of Energy proposed regulations under the proposed *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be submitted for approval concurrently as it supports a crucial component of the successfully implementation of the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend an additional amount of $2 billion to the OFA. Subject to the terms and conditions of a Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and, therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister will be required that will provide direction to the OFA on how it can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed Fair Hydro Plan. The related Cabinet note for the initiative should be referred to.

MEMORANDUM TO: Scott Thompson
Deputy Minister of Finance

FROM: Gadi Mayman
Chief Executive Officer

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for the Minister's review and consideration is a submission for an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's proposed *Ontario Fair Hydro Plan Act, 2017*, subject to the approval of the Legislature.

IESO has requested that the OFA provide a revolving credit facility of up to $2 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

Under the proposed *Ontario Fair Hydro Plan Act, 2017,* the IESO would incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. Global Adjustment amounts initially collected will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers. The proposed *Ontario Fair Hydro Plan Act, 2017* allows the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell that asset. It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV"), an OPG special purpose vehicle or trust). The cash received would be used by the IESO to fund the current Global Adjustment shortfall.

../2

There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017. Even once the SPV is set up to borrow, there may be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the proposed legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

As a result, IESO requires short-term financing to be in place for initial and potential monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

The OFA obtains the funding it needs to carry out its lending programs by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to an additional Canadian $2.0 billion to the OFA. In addition, in order for the OFA to provide the IESO its requested credit facility, a direction from the Minister of Finance to the OFA under CIPA will also be required.

Attached for your signature is a memorandum from you to the Minister requesting that the Minister recommend the OIC. This OIC is on track to be considered at LRC on June 27, 2017 together with proposed Ministry of Energy submission for regulations related to the proposed *Ontario Fair Hydro Plan Act, 2017.*

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Two Billion Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by [December 31, 2047];

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

MEMORANDUM TO: The Honourable Charles Sousa
Minister of Finance

FROM: Scott Thompson
Deputy Minister of Finance

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for your approval and signature is an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to on-lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's proposed *Ontario Fair Hydro Plan Act, 2017.*

Under the mechanism in the proposed *Ontario Fair Hydro Plan Act, 2017*, the IESO would incur a funding shortfall as the IESO will not collect sufficient Global Adjustment amounts to fund the IESO's contractual obligations to electricity producers and service providers in the current period, but instead defer some of those amounts to be collected in the future. The IESO has requested a revolving credit facility to cover any such funding shortfalls if the financing entity to be established by OPG ("OPG SPV"), at any time, chooses not to purchase a portion of the regulatory asset which would consist of the right to recover the funding shortfall from specified consumers in future as set out in the proposed *Ontario Fair Hydro Plan Act, 2017.*

The OFA obtains the funding it needs to carry out its lending program by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to Canadian $3.5 billion to the OFA. In addition, in order for the OFA to make the loan to the IESO, a direction from the Minister of Finance under CIPA will also be required.

Hi Sarah,
We have not contemplated a directive for the entire $3.5 billion. The IESO request is for $2 billion, and so it would not align if the Minister is directing a much larger amount.
The entire facility is to be used for in the case "…OPG SPV not purchase the regulatory asset". The contingency is in place in case things do not go according to plan – and if that does transpire, we may not have time for a new OIC to increase the amount. The use of the contingency would like trigger everyone to see what the next steps should while provide additional cover.
That being said, a Minister's directive is quicker to obtain than a new OIC, and so leaving some level of approval authority with the Minister was envisioned. This may change as we start to prepare a directive as well and get feedback from ADM/DMO as this OIC package gets their attention.
I hope that helps?

I note that approval form talks about the directive being signed for $3.5b, but we had discussed that the Directive would be for $2 billion to match the credit facility.
I haven't seen the draft directive, however, it makes sense to me the directive would be for $3.5 billion, including wording to the effect that $2 billion is approved initially for the credit facility, with up to the additional $1.5 available to be approved by Minister should the OPG SPV not purchase the regulatory asset. Is something like this being contemplated?

Hi Sarah,

We have not contemplated a directive for the entire $3.5 billion. The IESO request is for $2 billion, and so it would not align if the Minister is directing a much larger amount.

The entire facility is to be used for in the case "…OPG SPV not purchase the regulatory asset". The contingency is in place in case things do not go according to plan – and if that does transpire, we may not have time for a new OIC to increase the amount. The use of the contingency would like trigger everyone to see what the next steps should while provide additional cover.

That being said, a Minister's directive is quicker to obtain than a new OIC, and so leaving some level of approval authority with the Minister was envisioned. This may change as we start to prepare a directive as well and get feedback from ADM/DMO as this OIC package gets their attention.

I hope that helps?

Regards,
Salman

Hi Salman,

I note that approval form talks about the directive being signed for $3.5b, but we had discussed that the Directive would be for $2 billion to match the credit facility.

I haven't seen the draft directive, however, it makes sense to me the directive would be for $3.5 billion, including wording to the effect that $2 billion is approved initially for the credit facility, with up to the additional $1.5 available to be approved by Minister should the OPG SPV not purchase the regulatory asset. Is something like this being contemplated?

Thanks,
Sarah

The package is due tomorrow, so we would need to sort this out today.

Deputy Minister _____ Date _____

Minister _____ Date _____

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the OFA in an amount of up to $3.5 billion. Under the proposed OIC, loan(s) could be advanced during the period ~~This authorization will be valid~~ between the effective date of the OIC and June 30, 2053.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- This proposed OIC is required to allow the OFA to provide loans to the IESO and will help to fulfil the commitments under the proposed Fair Hydro Act, 2017. The timing of this OIC is critical to ensure borrowing authority for the OFA is available as it will be required to provide financing arrangements upon the enactment of the proposed *Fair Hydro ~~Plan~~ Act, 2017*. [NTD: This is the name of the proposed Act – do we sometimes want to refer to the Fair Hydro Plan versus the Act?]

s. 2 Approach and Intended Outcomes

- Under CIPA, ~~T~~the OFA provides financing to public bodies ~~government entities~~ as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. ~~For the OFA to on-lend, the OFA borrows from the Province.~~ This OIC would authorize the Minister of Finance under section 22 of CIPA to provide loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the proposed *Fair Hydro Act, 2017*.

- It is expected that as part of the implementation of the proposed arrangements, the Minister of Finance will direct ~~T~~the OFA ~~will be required~~ to provide a revolving credit facility for ~~market~~ short term financing and liquidity purposes [NTD: is it for market liquidity purposes? Isn't it to cover any

shortfall?] related to the on-going *Fair Hydro Plan Act, 2017*. In particular, the OFA will be lending to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- A key element of the proposed Fair Hydro Plan Act results in the IESO ~~to incurring a~~incurring a funding shortfall. This funding shortfall arises because the IESO will not collect enough Global Adjustment amounts to fund the IESO's contractual obligations to electricity producers and service providers in the current period, but instead defer some of those amounts to be collected in the future. The Fair Hydro Plan allows the IESO to sell the right ~~[due to the deferral of collecting Global Adjustment amounts?]…[explain more accurately]. and The IESO unilaterally will selling that right~~ to recover ~~that~~those deferred amounts ~~shortfall~~ from specified consumers in the future ~~shortfall as an~~ (the "regulatory asset"). It is anticipated that the regulatory asset will be purchased by ~~to~~ the financing entity to be established by OPG ("OPG ~~Trust~~SPV") [NTD: My understanding is that it is expected to be a trust, but it is not certain yet and no benefit to narrowing here]. The proposed legislation does not require ~~compel~~ the OPG ~~Trust~~ SPV to purchase any portion of the regulatory asset. As a result, IESO requires short-term financing in place in the event ~~if~~ that ~~for some reason~~ the OPG ~~Trust~~SPV, at any time, does ~~chooses~~ not ~~to~~ purchase a portion of the regulatory asset ~~deferred Global Adjustment amounts~~ under the proposed *Fair Hydro ~~Plan~~ Act, 2017*.~~.~~ This short-term financing may also be required before the OPG SPV is operating and before it has its own financing in place to purchase the regulatory asset.~~-~~

- IESO has ~~currently~~ requested that the OFA provide a revolving credit facility of up to $2 billion to support its role in the *Fair Hydro Act ~~Plan~~, 2017* implementation. The $2 billion request from IESO is based on current data which could change in order to maintain the *Fair Hydro ~~Plan~~ Act, 2017* and it is proposed that the OIC authorization be~~is~~ $3.5 billion ~~is~~ to ensure there is sufficient contingency in place once the implementation begins..

- For the OFA to accommodate this request, the OFA requires additional borrowing authority from the Minister of Finance to ensure that it has sufficient funds to lend~~can only on-lend funds borrowed from the Minister of Finance, which are authorized under an OIC,~~ hence this request for an OIC.

- The Minister of Finance will be required to provide a Directive to the OFA to direct it to make loans to the IESO in an amount not to exceed ~~for any loans made as a result of this OIC and will subject to the of~~ $3.5 billion. ~~set by this OIC.~~

s. 3 Direction and Urgency

Note appendices here, or ERASE, e.g.
See Appendix X, Variance Memo

- As announced on March 2, 2017 and highlighted as a commitment in Budget 2017, the Province intends to implement the Fair Hydro Plan which would reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and ~~on-~~lending capacity is instrumental in implementing the proposed Fair Hydro Plan.
- Subject to the approval of the Legislature of the *Fair Hydro Act, 2017*, t~~T~~he Fair Hydro Plan ~~Act are~~is expected to track for Cabinet approval by end of June 2017. [What is tracking to Cabinet? Not the legislation because it has already been approved by Cabinet? Is it regulations? What else?] It is expected that this OIC also be approved concurrently as it is a crucial component of the successfully implementing the Fair Hydro Plan.
- The related Cabinet Minute XXXXX is tracking for June 27, 2017 date. [can we get a copy?]

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend to the OFA. Subject to the terms and conditions of a Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's Cost of Funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister will be required that will provide direction on how the OFA can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed *Fair Hydro Act, 2017* ~~Plan~~ and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed Fair Hydro Plan. The related Cabinet note for the initiative should be referred to. [Can we get a copy of this related note?]

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act* – ~~related to the proposed *Fair Hydro Act*~~**

Attached for the Minister's approval and signature is an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would~~will~~ allow the OFA to ~~on~~ lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation ~~as required under~~ of the Province's proposed *Fair Hydro Act*, *2017*, subject to the approval of the Legislature.

Under the mechanism in the proposed *Fair Hydro Act*, *2017*, the IESO would incur a funding shortfall because the IESO will not collect enough Global Adjustment amounts to fund the IESO's contractual obligations to electricity producers and service providers in the current period, but instead defer some of those amounts to be collected in the future. ~~as a result of [the deferral of the collection of Global Adjustment amounts related to clean energy costs.].~~ ~~t~~The IESO has requested ~~requires~~ a revolving credit facility to cover any such funding shortfalls ~~clean energy costs~~ if ~~for some reason~~ the financing entity to be established by OPG –("OPG SPV~~Trust~~"), at any time, chooses not to purchase a portion of the regulatory asset which would consist of the right to recover the funding shortfall from specified consumers in future as set out in the *Fair Hydro Act, 2017.*~~, . the deferred Global Adjustment amounts, .~~

The OFA obtains the funding it needs to carry out its lending program by borrowing from the Province~~;~~. ~~For the OFA to lend to the IESO, the OFA must be able to borrow from the Minister of Finance to on-lend.~~ This proposed OIC authorizes the Minister of Finance to lend up to Canadian $3.5 billion to the OFA. In addition, in order for the OFA

to make the loan to the IESO, a direction from the Minister of Finance under CIPA will be required in future. [NTD: will this come forward in future after June 27th?]

Attached for your signature is a memorandum from you to the Minister requesting that the Minister recommend ~~approve~~ the OIC. This OIC is on track to be considered~~approved~~ on June 27, 2017 together with proposed submission related to the proposed *Fair Hydro Act*, *2017*.

MEMORANDUM TO: The Honourable Charles Sousa
Minister of Finance

FROM: Scott Thompson
Deputy Minister of Finance

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act*~~related to the proposed Fair Hydro Act~~**

Attached for your approval and signature is an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance ~~obtaining authorization~~ to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would~~will~~ allow the OFA to on-lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of~~as required under~~ the Province's proposed *Fair Hydro Act, 2017.*

Formatted: Font: Italic

Under the mechanism in the proposed *Fair Hydro Act, 2017*, the IESO would incur a funding shortfall because the IESO will not collect enough Global Adjustment amounts to fund the IESO's contractual obligations to electricity producers and service providers in the current period, but instead defer some of those amounts to be collected in the future. The IESO has requested a revolving credit facility to cover any such funding shortfalls if the financing entity to be established by OPG ("OPG SPV"), at any time, chooses not to purchase a portion of the regulatory asset which would consist of the right to recover the funding shortfall from specified consumers in future as set out in the *Fair Hydro Act, 2017*.

The OFA obtains the funding it needs to carry out its lending program by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to Canadian $3.5 billion to the OFA. In addition, in order for the OFA to make the loan to the IESO, a direction from the Minister of Finance under CIPA will be required in future.

~~Under the mechanism in the proposed *Fair Hydro Act*, the IESO requires a revolving credit facility to cover clean energy costs if for some reason the Trust, at any time, chooses not to purchase a portion of the deferred Global Adjustment amounts. For the OFA to lend to the IESO, the OFA must be able to borrow from the Minister of Finance to on-lend. This proposed OIC authorizes the Minister of Finance to lend up to Canadian $3.5 billion to the OFA.~~

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Three Billion Five Hundred Million Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Three Billion Five Hundred Million Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by June 30, 2053;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

HI Opal,
Before I left on Thursday evening, you had mentioned that you thought the OIC should be in the amount of $3 billion and not $3.5 billion. I was wondering if on Friday you had reached out to CEFD to discuss this?
The package is due tomorrow, so we would need to sort this out today.
Thanks,
Sarah

Minister _____ Date _____

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the OFA in an amount of up to $3.5 billion. Under the proposed OIC, loan(s) could be advanced during the period ~~This authorization will be valid~~ between the effective date of the OIC and June 30, 2053.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- This proposed OIC is required to allow the OFA to provide loans to the IESO and will help to fulfil the commitments under the proposed Fair Hydro Act, 2017. The timing of this OIC is critical to ensure borrowing authority for the OFA is available as it will be required to provide financing arrangements upon the enactment of the proposed *Fair Hydro ~~Plan~~ Act, 2017*. [NTD: This is the name of the proposed Act – do we sometimes want to refer to the Fair Hydro Plan versus the Act?]

s. 2 Approach and Intended Outcomes

- Under CIPA, ~~T~~the OFA provides financing to public bodies ~~government entities~~ as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. ~~For the OFA to on-lend, the OFA borrows from the Province.~~ This OIC would authorize the Minister of Finance under section 22 of CIPA to provide loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the proposed *Fair Hydro Act, 2017*.

- It is expected that as part of the implementation of the proposed arrangements, the Minister of Finance will direct ~~T~~the OFA ~~will be required~~ to provide a revolving credit facility for ~~market~~ short term financing and liquidity purposes [NTD: is it for market liquidity purposes? Isn't it to cover any

shortfall?] related to the on-going *Fair Hydro Plan Act, 2017*. In particular, the OFA will be lending to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- A key element of the proposed Fair Hydro Plan Act results in the IESO ~~to incurring a~~incurring a funding shortfall. This funding shortfall arises because the IESO will not collect enough Global Adjustment amounts to fund the IESO's contractual obligations to electricity producers and service providers in the current period, but instead defer some of those amounts to be collected in the future. The Fair Hydro Plan allows the IESO to sell the right ~~[due to the deferral of collecting Global Adjustment amounts?]…[explain more accurately]. and The IESO unilaterally will selling that right~~ to recover ~~that~~those deferred amounts ~~shortfall~~ from specified consumers in the future ~~shortfall as an~~ (the "regulatory asset"). It is anticipated that the regulatory asset will be purchased by ~~to~~ the financing entity to be established by OPG ("OPG ~~Trust~~SPV") [NTD: My understanding is that it is expected to be a trust, but it is not certain yet and no benefit to narrowing here]. The proposed legislation does not require ~~compel~~ the OPG ~~Trust~~ SPV to purchase any portion of the regulatory asset. As a result, IESO requires short-term financing in place in the event ~~if~~ that ~~for some reason~~ the OPG ~~Trust~~SPV, at any time, does ~~chooses~~ not ~~to~~ purchase a portion of the regulatory asset ~~deferred Global Adjustment amounts~~ under the proposed *Fair Hydro ~~Plan~~ Act, 2017*.~~.~~ This short-term financing may also be required before the OPG SPV is operating and before it has its own financing in place to purchase the regulatory asset.~~-~~

- IESO has ~~currently~~ requested that the OFA provide a revolving credit facility of up to $2 billion to support its role in the *Fair Hydro Act ~~Plan~~, 2017* implementation. The $2 billion request from IESO is based on current data which could change in order to maintain the *Fair Hydro ~~Plan~~ Act, 2017* and it is proposed that the OIC authorization be~~is~~ $3.5 billion ~~is~~ to ensure there is sufficient contingency in place once the implementation begins..

- For the OFA to accommodate this request, the OFA requires additional borrowing authority from the Minister of Finance to ensure that it has sufficient funds to lend~~can only on-lend funds borrowed from the Minister of Finance, which are authorized under an OIC,~~ hence this request for an OIC.

- The Minister of Finance will be required to provide a Directive to the OFA to direct it to make loans to the IESO in an amount not to exceed ~~for any loans made as a result of this OIC and will subject to the of~~ $3.5 billion. ~~set by this OIC.~~

s. 3 Direction and Urgency

Note appendices here, or ERASE, e.g.
See Appendix X, Variance Memo

- As announced on March 2, 2017 and highlighted as a commitment in Budget 2017, the Province intends to implement the Fair Hydro Plan which would reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and ~~on-~~lending capacity is instrumental in implementing the proposed Fair Hydro Plan.
- Subject to the approval of the Legislature of the *Fair Hydro Act, 2017*, t~~T~~he Fair Hydro Plan ~~Act are~~is expected to track for Cabinet approval by end of June 2017. [What is tracking to Cabinet? Not the legislation because it has already been approved by Cabinet? Is it regulations? What else?] It is expected that this OIC also be approved concurrently as it is a crucial component of the successfully implementing the Fair Hydro Plan.
- The related Cabinet Minute XXXXX is tracking for June 27, 2017 date. [can we get a copy?]

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend to the OFA. Subject to the terms and conditions of a Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's Cost of Funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister will be required that will provide direction on how the OFA can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed *Fair Hydro Act, 2017* ~~Plan~~ and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed Fair Hydro Plan. The related Cabinet note for the initiative should be referred to. [Can we get a copy of this related note?]

MEMORANDUM TO: The Honourable Charles Sousa
Minister of Finance

FROM: Scott Thompson
Deputy Minister of Finance

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act*~~related to the proposed Fair Hydro Act~~**

Attached for your approval and signature is an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance ~~obtaining authorization~~ to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would~~will~~ allow the OFA to on-lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of~~as required under~~ the Province's proposed *Fair Hydro Act, 2017.*

Formatted: Font: Italic

Under the mechanism in the proposed *Fair Hydro Act, 2017*, the IESO would incur a funding shortfall because the IESO will not collect enough Global Adjustment amounts to fund the IESO's contractual obligations to electricity producers and service providers in the current period, but instead defer some of those amounts to be collected in the future. The IESO has requested a revolving credit facility to cover any such funding shortfalls if the financing entity to be established by OPG ("OPG SPV"), at any time, chooses not to purchase a portion of the regulatory asset which would consist of the right to recover the funding shortfall from specified consumers in future as set out in the *Fair Hydro Act, 2017*.

The OFA obtains the funding it needs to carry out its lending program by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to Canadian $3.5 billion to the OFA. In addition, in order for the OFA to make the loan to the IESO, a direction from the Minister of Finance under CIPA will be required in future.

~~Under the mechanism in the proposed *Fair Hydro Act*, the IESO requires a revolving credit facility to cover clean energy costs if for some reason the Trust, at any time, chooses not to purchase a portion of the deferred Global Adjustment amounts. For the OFA to lend to the IESO, the OFA must be able to borrow from the Minister of Finance to on-lend. This proposed OIC authorizes the Minister of Finance to lend up to Canadian $3.5 billion to the OFA.~~

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Three Billion Five Hundred Million Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Three Billion Five Hundred Million Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by June 30, 2053;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

d) l'intérêt payable relativement à toute période de moins d'un an sera calculé en fonction du nombre de jours réellement compris dans cette période, par rapport à une année comptant 365 jours;

e) par dérogation à l'alinéa a) ci-dessus, l'intérêt sur toute partie d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers est calculé comme il est indiqué ci-dessus, mais cet intérêt devient payable uniquement dans la mesure où l'OOF reçoit un paiement d'intérêts au titre du prêt à un tiers;

f) par dérogation à l'alinéa b) ci-dessus, toute partie du capital d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers devient payable uniquement dans la mesure où l'OOF reçoit un remboursement du capital au titre du prêt à un tiers

g) le prêt autorisé en vertu des présentes sera attesté par un billet à ordre.

Hi All,
As you may be aware The Fair Hydro Act was passed today. As a result we updated language in the materials. E.g., ~~*proposed*~~ *Ontario Fair Hydro Act, 2017.* No content changes. I think these updates affected the first three attached documents but not the 4th , i.e., the OIC.

Apologies, regarding the French translation. 1) I had updated using my high school French and 2) in the translation I had missed updating the change in date from June to December 31, 2017. I have revised in attached "4 – CIPA s.22…" , but of course, this should be reviewed.

Hi Patrick,

As the OIC package was going through our OFA approvals, we have now been directed that the OIC amount should be $2.0 billion, with an expiry date of June 30, 2047, to line up with the IESO request and the term of the FHP.

I'll recirculate the updated LRC package once I get a finalized version in place. Could we update the OIC to reflect this as I know it may take some time.

Let us know.

Thank you,

Salman

Minister _____ Date _____

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the Ontario Financing Authority ("OFA") in an amount of up to $2.0 billion. Under the proposed OIC, repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- Existing OICs authorize the Minister of Finance to provide loans to the OFA, and in turn the OFA has provided loans and credit facilities to colleges, school boards and other public bodies such as Infrastructure Ontario, IESO, Ontario Lottery and Gaming Corporation and Liquor Control Board of Ontario.

- This proposed OIC is required to increase the authority of the Minister of Finance to lend to the OFA which will provide the OFA with the capacity to provide additional loans to the Independent Electricity System Operator ("IESO").
    - This will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017* as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.
    - The timing of this OIC is critical to ensure that borrowing authority for the OFA is available to provide the IESO its requested financing arrangements under the *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide additional loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA would be directed to provide a credit facility to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. During this period, Global Adjustment amounts collected from ratepayers will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The *Ontario Fair Hydro Plan Act, 2017* gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to a financing entity.
    - It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
    - The cash received from selling the regulatory asset will be used by the IESO to fund the current Global Adjustment shortfall.

- There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017 (planned for later in summer 2017; however, exact timing is subject to actual implementation). Even once the SPV is set up to borrow, there is expected to be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

- As a result, IESO requires short-term financing to be in place for initial and expected monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

- It is proposed that the OIC authorizes the OFA to borrow an additional $2.0 billion, which would be in addition to existing authority for the Minister of Finance to provide loans to the OFA, to ensure that there is sufficient borrowing authority in place for the OFA to meet the IESO requested requirements.

- If approved, the Minister of Finance will subsequently provide a Directive to the OFA to direct it to provide credit facilities to the IESO.
    - The OFA currently provides a credit facility to the IESO of $975 million.
    - The IESO has requested that the existing credit facility be reduced to $475 million, and a new credit facility be provided of $2.0 billion, for a total amount of $2.475 billion.

s. 3 Direction and Urgency

- The Province passed legislation on May 31, 2017 to implement the *Ontario Fair Hydro Plan Act, 2017,* which will reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in supporting implementation of the *Ontario Fair Hydro Plan Act, 2017*.
- Ministry of Energy proposed regulations under the *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be submitted for approval concurrently as it supports a crucial component of the successfully implementation of the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend an additional amount of $2.0 billion to the OFA. Subject to the terms and conditions of a

Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and, therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister may provide direction to the OFA on how it can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan. Upon approval, the Minister of Finance will have authorization to provide a loan to the OFA with a directive on how the loan can be used.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017*. The related Cabinet note for the initiative should be referred to.

MEMORANDUM TO: Scott Thompson
Deputy Minister of Finance

FROM: Gadi Mayman
Chief Executive Officer

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for the Minister's review and consideration is a submission for an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's *Ontario Fair Hydro Plan Act, 2017*, subject to the approval of the Legislature.

IESO has requested that the OFA provide a revolving credit facility of $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. During this period, Global Adjustment amounts collected from ratepayers will be insufficient to fund the IESO's contractual obligations to electricity producers and service providers. The *Ontario Fair Hydro Plan Act, 2017* gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to a financing entity. It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV"), an OPG special purpose vehicle or trust. The cash received from selling the regulatory asset would be used by the IESO to fund the current Global Adjustment shortfall.

../2

There is expected to be initial and ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017 (planned for later in summer 2017; however, exact timing is subject to actual implementation). Even once the SPV is set up to borrow, there is expected to be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the proposed legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

As a result, IESO requires short-term financing to be in place for initial and expected monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

The OFA obtains the funding it needs to carry out its lending programs by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to an additional Canadian $2.0 billion to the OFA. In addition, in order for the OFA to provide the IESO its requested credit facility, a direction from the Minister of Finance to the OFA under CIPA will also be required, which the OFA will seek following an approval of the OIC.

Attached for your signature is a memorandum from you to the Minister requesting that the Minister recommend the OIC. This OIC is on track to be considered at LRC on June 27, 2017 together with proposed Ministry of Energy submission for regulations related to the *Ontario Fair Hydro Plan Act, 2017.*

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Two Billion Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

d) l'intérêt payable relativement à toute période de moins d'un an sera calculé en fonction du nombre de jours réellement compris dans cette période, par rapport à une année comptant 365 jours;

e) par dérogation à l'alinéa a) ci-dessus, l'intérêt sur toute partie d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers est calculé comme il est indiqué ci-dessus, mais cet intérêt devient payable uniquement dans la mesure où l'OOF reçoit un paiement d'intérêts au titre du prêt à un tiers;

f) par dérogation à l'alinéa b) ci-dessus, toute partie du capital d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers devient payable uniquement dans la mesure où l'OOF reçoit un remboursement du capital au titre du prêt à un tiers

g) le prêt autorisé en vertu des présentes sera attesté par un billet à ordre.

Hi All,
As you may be aware The Fair Hydro Act was passed today. As a result we updated language in the materials. E.g., ~~*proposed*~~ *Ontario Fair Hydro Act, 2017.* No content changes. I think these updates affected the first three attached documents but not the 4th , i.e., the OIC.

Apologies, regarding the French translation. 1) I had updated using my high school French and 2) in the translation I had missed updating the change in date from June to December 31, 2017. I have revised in attached "4 – CIPA s.22…" , but of course, this should be reviewed.
Thanks

Hi Patrick,

As the OIC package was going through our OFA approvals, we have now been directed that the OIC amount should be $2.0 billion, with an expiry date of June 30, 2047, to line up with the IESO request and the term of the FHP.

I'll recirculate the updated LRC package once I get a finalized version in place. Could we update the OIC to reflect this as I know it may take some time.

Let us know.

Thank you,

Salman

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the Ontario Financing Authority ("OFA") in an amount of up to $2.0 billion. Under the proposed OIC, repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- Existing OICs authorize the Minister of Finance to provide loans to the OFA, and in turn the OFA has provided loans and credit facilities to colleges, school boards and other public bodies such as Infrastructure Ontario, IESO, Ontario Lottery and Gaming Corporation and Liquor Control Board of Ontario.

- This proposed OIC is required to increase the authority of the Minister of Finance to lend to the OFA which will provide the OFA with the capacity to provide additional loans to the Independent Electricity System Operator ("IESO").
    - This will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017* as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.
    - The timing of this OIC is critical to ensure that borrowing authority for the OFA is available to provide the IESO its requested financing arrangements under the *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide additional loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA would be directed to provide a credit facility to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. During this period, Global Adjustment amounts collected from ratepayers will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The *Ontario Fair Hydro Plan Act, 2017* gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to a financing entity.
    - It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
    - The cash received from selling the regulatory asset will be used by the IESO to fund the current Global Adjustment shortfall.

- There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017 (planned for later in summer 2017; however, exact timing is subject to actual implementation). Even once the SPV is set up to borrow, there is expected to be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

- As a result, IESO requires short-term financing to be in place for initial and expected monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

- It is proposed that the OIC authorizes the OFA to borrow an additional $2.0 billion, which would be in addition to existing authority for the Minister of Finance to provide loans to the OFA, to ensure that there is sufficient borrowing authority in place for the OFA to meet the IESO requested requirements.

- If approved, the Minister of Finance will subsequently provide a Directive to the OFA to direct it to provide credit facilities to the IESO.
    - The OFA currently provides a credit facility to the IESO of $975 million.
    - The IESO has requested that the existing credit facility be reduced to $475 million, and a new credit facility be provided of $2.0 billion, for a total amount of $2.475 billion.

s. 3 Direction and Urgency

- The Province passed legislation on May 31, 2017 to implement the *Ontario Fair Hydro Plan Act, 2017,* which will reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in supporting implementation of the *Ontario Fair Hydro Plan Act, 2017*.
- Ministry of Energy proposed regulations under the *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be submitted for approval concurrently as it supports a crucial component of the successfully implementation of the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend an additional amount of $2.0 billion to the OFA. Subject to the terms and conditions of a

Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and, therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister may provide direction to the OFA on how it can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan. Upon approval, the Minister of Finance will have authorization to provide a loan to the OFA with a directive on how the loan can be used.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017*. The related Cabinet note for the initiative should be referred to.

MEMORANDUM TO: Scott Thompson
Deputy Minister of Finance

FROM: Gadi Mayman
Chief Executive Officer

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for the Minister's review and consideration is a submission for an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's *Ontario Fair Hydro Plan Act, 2017*, subject to the approval of the Legislature.

IESO has requested that the OFA provide a revolving credit facility of $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. During this period, Global Adjustment amounts collected from ratepayers will be insufficient to fund the IESO's contractual obligations to electricity producers and service providers. The *Ontario Fair Hydro Plan Act, 2017* gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to a financing entity. It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV"), an OPG special purpose vehicle or trust. The cash received from selling the regulatory asset would be used by the IESO to fund the current Global Adjustment shortfall.

../2

There is expected to be initial and ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017 (planned for later in summer 2017; however, exact timing is subject to actual implementation). Even once the SPV is set up to borrow, there is expected to be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the proposed legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

As a result, IESO requires short-term financing to be in place for initial and expected monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

The OFA obtains the funding it needs to carry out its lending programs by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to an additional Canadian $2.0 billion to the OFA. In addition, in order for the OFA to provide the IESO its requested credit facility, a direction from the Minister of Finance to the OFA under CIPA will also be required, which the OFA will seek following an approval of the OIC.

Attached for your signature is a memorandum from you to the Minister requesting that the Minister recommend the OIC. This OIC is on track to be considered at LRC on June 27, 2017 together with proposed Ministry of Energy submission for regulations related to the *Ontario Fair Hydro Plan Act, 2017.*

MEMORANDUM TO: The Honourable Charles Sousa
Minister of Finance

FROM: Scott Thompson
Deputy Minister of Finance

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for your approval and signature is a submission for an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's *Ontario Fair Hydro Plan Act, 2017.*

IESO has requested that the OFA provide a revolving credit facility of $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. During this period, Global Adjustment amounts collected from ratepayers will be insufficient to fund the IESO's contractual obligations to electricity producers and service providers. The *Ontario Fair Hydro Plan Act, 2017* gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to a financing entity. It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV"), an OPG special purpose vehicle or trust. The cash received from selling the regulatory asset would be used by the IESO to fund the current Global Adjustment shortfall.

../2

There is expected to be initial and ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017 (planned for later in summer 2017; however, exact timing is subject to actual implementation). Even once the SPV is set up to borrow, there is expected to be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

As a result, IESO requires short-term financing to be in place for initial and expected monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset

The OFA obtains the funding it needs to carry out its lending programs by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to an additional Canadian $2.0 billion to the OFA. In addition, in order for the OFA to provide the IESO its requested credit facility, a direction from the Minister of Finance to the OFA under CIPA will also be required, which the OFA will seek following an approval of the OIC.

Staff of the Ontario Financing Authority are available to address any questions you may have regarding this matter.

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Two Billion Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

Hi All,
As you may be aware The Fair Hydro Act was passed today. As a result we updated language in the materials. E.g., ~~*proposed*~~ *Ontario Fair Hydro Act, 2017.* No content changes. I think these updates affected the first three attached documents but not the 4th , i.e., the OIC.
Thanks

Hi Patrick
Apologies, regarding the French translation. 1) I had updated using my high school French and 2) in the translation I had missed updating the change in date from June to December 31, 2017. I have revised in attached "4 – CIPA s.22…" , but of course, this should be reviewed.

Hi Patrick,

As the OIC package was going through our OFA approvals, we have now been directed that the OIC amount should be $2.0 billion, with an expiry date of June 30, 2047, to line up with the IESO request and the term of the FHP.

I'll recirculate the updated LRC package once I get a finalized version in place. Could we update the OIC to reflect this as I know it may take some time.

Let us know.

Thank you,

Salman

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the Ontario Financing Authority ("OFA") in an amount of up to $2.0 billion. Under the proposed OIC, repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- Existing OICs authorize the Minister of Finance to provide loans to the OFA, and in turn the OFA has provided loans and credit facilities to colleges, school boards and other public bodies such as Infrastructure Ontario, IESO, Ontario Lottery and Gaming Corporation and Liquor Control Board of Ontario.

- This proposed OIC is required to increase the authority of the Minister of Finance to lend to the OFA which will provide the OFA with the capacity to provide additional loans to the Independent Electricity System Operator ("IESO").
    - This will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017* as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.
    - The timing of this OIC is critical to ensure that borrowing authority for the OFA is available to provide the IESO its requested financing arrangements under the *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide additional loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA would be directed to provide a credit facility to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. During this period, Global Adjustment amounts collected from ratepayers will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The *Ontario Fair Hydro Plan Act, 2017* gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to a financing entity.
    - It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
    - The cash received from selling the regulatory asset will be used by the IESO to fund the current Global Adjustment shortfall.

- There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017 (planned for later in summer 2017; however, exact timing is subject to actual implementation). Even once the SPV is set up to borrow, there is expected to be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

- As a result, IESO requires short-term financing to be in place for initial and expected monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

- It is proposed that the OIC authorizes the OFA to borrow an additional $2.0 billion, which would be in addition to existing authority for the Minister of Finance to provide loans to the OFA, to ensure that there is sufficient borrowing authority in place for the OFA to meet the IESO requested requirements.

- If approved, the Minister of Finance will subsequently provide a Directive to the OFA to direct it to provide credit facilities to the IESO.
    - The OFA currently provides a credit facility to the IESO of $975 million.
    - The IESO has requested that the existing credit facility be reduced to $475 million, and a new credit facility be provided of $2.0 billion, for a total amount of $2.475 billion.

s. 3 Direction and Urgency

- The Province passed legislation on May 31, 2017 to implement the *Ontario Fair Hydro Plan Act, 2017,* which will reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in supporting implementation of the *Ontario Fair Hydro Plan Act, 2017*.
- Ministry of Energy proposed regulations under the *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be submitted for approval concurrently as it supports a crucial component of the successfully implementation of the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend an additional amount of $2.0 billion to the OFA. Subject to the terms and conditions of a

Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and, therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister may provide direction to the OFA on how it can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan. Upon approval, the Minister of Finance will have authorization to provide a loan to the OFA with a directive on how the loan can be used.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017*. The related Cabinet note for the initiative should be referred to.

MEMORANDUM TO: Scott Thompson
Deputy Minister of Finance

FROM: Gadi Mayman
Chief Executive Officer

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for the Minister's review and consideration is a submission for an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's *Ontario Fair Hydro Plan Act, 2017*, subject to the approval of the Legislature.

IESO has requested that the OFA provide a revolving credit facility of $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. During this period, Global Adjustment amounts collected from ratepayers will be insufficient to fund the IESO's contractual obligations to electricity producers and service providers. The *Ontario Fair Hydro Plan Act, 2017* gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to a financing entity. It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV"), an OPG special purpose vehicle or trust. The cash received from selling the regulatory asset would be used by the IESO to fund the current Global Adjustment shortfall.

../2

There is expected to be initial and ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017 (planned for later in summer 2017; however, exact timing is subject to actual implementation). Even once the SPV is set up to borrow, there is expected to be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the proposed legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

As a result, IESO requires short-term financing to be in place for initial and expected monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

The OFA obtains the funding it needs to carry out its lending programs by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to an additional Canadian $2.0 billion to the OFA. In addition, in order for the OFA to provide the IESO its requested credit facility, a direction from the Minister of Finance to the OFA under CIPA will also be required, which the OFA will seek following an approval of the OIC.

Attached for your signature is a memorandum from you to the Minister requesting that the Minister recommend the OIC. This OIC is on track to be considered at LRC on June 27, 2017 together with proposed Ministry of Energy submission for regulations related to the *Ontario Fair Hydro Plan Act, 2017.*

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Two Billion Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

Hi All,

As you may be aware The Fair Hydro Act was passed today. As a result we updated language in the materials. E.g., ~~*proposed*~~ *Ontario Fair Hydro Act, 2017.* No content changes. I think these updates affected the first three attached documents but not the 4th , i.e., the OIC.

Thanks

Apologies, regarding the French translation. 1) I had updated using my high school French and 2) in the translation I had missed updating the change in date from June to December 31, 2017. I have revised in attached "4 – CIPA s.22…" , but of course, this should be reviewed.

Hi Patrick,

As the OIC package was going through our OFA approvals, we have now been directed that the OIC amount should be $2.0 billion, with an expiry date of June 30, 2047, to line up with the IESO request and the term of the FHP.

I'll recirculate the updated LRC package once I get a finalized version in place. Could we update the OIC to reflect this as I know it may take some time.

Let us know.

Thank you,

Salman

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the Ontario Financing Authority ("OFA") in an amount of up to $2.0 billion. Under the proposed OIC, repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by [December 31, 2047].

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- Existing OICs authorize the Minister of Finance to provide loans to the OFA under which the OFA has provided loans and credit facilities to colleges, school boards and other public agencies such as Infrastructure Ontario, IESO, Ontario Lottery and Gaming Corporation and Liquor Control Board of Ontario.

- This proposed OIC is required to increase the overall Minister of Finance lending authority to the OFA to allow the OFA to provide loans under credit facilities requested by the Independent Electricity System Operator ("IESO").
    - This will help the IESO to fulfil the commitments under the proposed Fair Hydro Act, 2017, under anticipated and potential timing differences in the implementation of the proposed Fair Hydro Plan.
    - The timing of this OIC is critical to ensure borrowing authority for the OFA is available to provide the IESO its requested financing arrangements upon the enactment of the proposed *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide additional loans to

the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the on-going *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA would be directed to provide a credit facility to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. Global Adjustment amounts initially collected will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The *Ontario Fair Hydro Plan Act, 2017* allows the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell that asset.
    - It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
    - The cash received will be used by the IESO to fund the current Global Adjustment shortfall.

- There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017. Even once the SPV is set up to borrow, there may be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

- As a result, IESO requires short-term financing to be in place for initial and potential monthly timing differences, or in the event that the OPG SPV, at any

time, does not purchase a portion of the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of up to $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

- It is proposed that the OIC authorization be for $2.0 billion, which would be in addition to existing authority for the Minister of Finance to provide loans to the OFA, to ensure that there is sufficient borrowing authority in place for the OFA to meet the IESO requirements.

- If approved, the Minister of Finance will subsequently provide a Directive to the OFA to direct it to provide credit facilities to the IESO in an amount not to exceed $2.5 billion.
    - The OFA currently provides a credit facility to the IESO of $975 million.
    - The IESO has requested that the existing credit facility be reduced to $475 million, and a new credit facility be provided of $2.0 billion, for a total amount of $2.475 million.

s. 3 Direction and Urgency

- The Province passed legislation on May 31, 2017 to implement the *Ontario Fair Hydro Plan Act, 2017,* which will reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in supporting implementation of the *Ontario Fair Hydro Plan Act, 2017*.
- Ministry of Energy proposed regulations under the proposed *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be submitted for approval concurrently as it supports a crucial component of the successfully implementation of the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend an additional amount of $2.0 billion to the OFA. Subject to the terms and conditions of a Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and, therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister will be required that will provide direction to the OFA on how it can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan. Upon approval, the Minister of Finance will have authorization to provide a loan to the OFA with a directive on how the loan can be used.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017*. The related Cabinet note for the initiative should be referred to.

MEMORANDUM TO: Scott Thompson
Deputy Minister of Finance

FROM: Gadi Mayman
Chief Executive Officer

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for the Minister's review and consideration is a submission for an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's *Ontario Fair Hydro Plan Act, 2017*, subject to the approval of the Legislature.

IESO has requested that the OFA provide a revolving credit facility of up to $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. Global Adjustment amounts initially collected will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers. The *Ontario Fair Hydro Plan Act, 2017* allows the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell that asset. It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV"), an OPG special purpose vehicle or trust. The cash received would be used by the IESO to fund the current Global Adjustment shortfall.

../2

There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017. Even once the SPV is set up to borrow, there may be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the proposed legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

As a result, IESO requires short-term financing to be in place for initial and potential monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

The OFA obtains the funding it needs to carry out its lending programs by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to an additional Canadian $2.0 billion to the OFA. In addition, in order for the OFA to provide the IESO its requested credit facility, a direction from the Minister of Finance to the OFA under CIPA will also be required.

Attached for your signature is a memorandum from you to the Minister requesting that the Minister recommend the OIC. This OIC is on track to be considered at LRC on June 27, 2017 together with proposed Ministry of Energy submission for regulations related to the *Ontario Fair Hydro Plan Act, 2017.*

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Two Billion Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by [December 31, 2047];

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

f) par dérogation à l'alinéa b) ci-dessus, toute partie du capital d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers devient payable uniquement dans la mesure où l'OOF reçoit un remboursement du capital au titre du prêt à un tiers

Hi All,

As you may be aware The Fair Hydro Act was passed today. As a result we updated language in the materials. E.g., ~~*proposed*~~ *Ontario Fair Hydro Act, 2017.* No content changes. I think these updates affected the first three attached documents but not the 4th , i.e., the OIC.

Thanks

Hi Patrick
Apologies, regarding the French translation. 1) I had updated using my high school French and 2) in the translation I had missed updating the change in date from June to December 31, 2017. I have revised in attached "4 – CIPA s.22…" , but of course, this should be reviewed.

Hi Patrick,

As the OIC package was going through our OFA approvals, we have now been directed that the OIC amount should be $2.0 billion, with an expiry date of June 30, 2047, to line up with the IESO request and the term of the FHP.

I'll recirculate the updated LRC package once I get a finalized version in place. Could we update the OIC to reflect this as I know it may take some time.

Let us know.

Thank you,

Salman

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the Ontario Financing Authority ("OFA") in an amount of up to $2.0 billion. Under the proposed OIC, repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by [December 31, 2047].

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- Existing OICs authorize the Minister of Finance to provide loans to the OFA under which the OFA has provided loans and credit facilities to colleges, school boards and other public agencies such as Infrastructure Ontario, IESO, Ontario Lottery and Gaming Corporation and Liquor Control Board of Ontario.

- This proposed OIC is required to increase the overall Minister of Finance lending authority to the OFA to allow the OFA to provide loans under credit facilities requested by the Independent Electricity System Operator ("IESO").
    - This will help the IESO to fulfil the commitments under the proposed Fair Hydro Act, 2017, under anticipated and potential timing differences in the implementation of the proposed Fair Hydro Plan.
    - The timing of this OIC is critical to ensure borrowing authority for the OFA is available to provide the IESO its requested financing arrangements upon the enactment of the proposed *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide additional loans to

the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the on-going *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA would be directed to provide a credit facility to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. Global Adjustment amounts initially collected will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The *Ontario Fair Hydro Plan Act, 2017* allows the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell that asset.
    - It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
    - The cash received will be used by the IESO to fund the current Global Adjustment shortfall.

- There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017. Even once the SPV is set up to borrow, there may be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

- As a result, IESO requires short-term financing to be in place for initial and potential monthly timing differences, or in the event that the OPG SPV, at any

time, does not purchase a portion of the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of up to $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

- It is proposed that the OIC authorization be for $2.0 billion, which would be in addition to existing authority for the Minister of Finance to provide loans to the OFA, to ensure that there is sufficient borrowing authority in place for the OFA to meet the IESO requirements.

- If approved, the Minister of Finance will subsequently provide a Directive to the OFA to direct it to provide credit facilities to the IESO in an amount not to exceed $2.5 billion.
    - The OFA currently provides a credit facility to the IESO of $975 million.
    - The IESO has requested that the existing credit facility be reduced to $475 million, and a new credit facility be provided of $2.0 billion, for a total amount of $2.475 million.

s. 3 Direction and Urgency

- The Province passed legislation on May 31, 2017 to implement the *Ontario Fair Hydro Plan Act, 2017,* which will reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in supporting implementation of the *Ontario Fair Hydro Plan Act, 2017*.
- Ministry of Energy proposed regulations under the proposed *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be submitted for approval concurrently as it supports a crucial component of the successfully implementation of the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend an additional amount of $2.0 billion to the OFA. Subject to the terms and conditions of a Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and, therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister will be required that will provide direction to the OFA on how it can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan. Upon approval, the Minister of Finance will have authorization to provide a loan to the OFA with a directive on how the loan can be used.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017*. The related Cabinet note for the initiative should be referred to.

MEMORANDUM TO: Scott Thompson
Deputy Minister of Finance

FROM: Gadi Mayman
Chief Executive Officer

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for the Minister's review and consideration is a submission for an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's *Ontario Fair Hydro Plan Act, 2017*, subject to the approval of the Legislature.

IESO has requested that the OFA provide a revolving credit facility of up to $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. Global Adjustment amounts initially collected will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers. The *Ontario Fair Hydro Plan Act, 2017* allows the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell that asset. It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV"), an OPG special purpose vehicle or trust. The cash received would be used by the IESO to fund the current Global Adjustment shortfall.

../2

There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017. Even once the SPV is set up to borrow, there may be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the proposed legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

As a result, IESO requires short-term financing to be in place for initial and potential monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

The OFA obtains the funding it needs to carry out its lending programs by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to an additional Canadian $2.0 billion to the OFA. In addition, in order for the OFA to provide the IESO its requested credit facility, a direction from the Minister of Finance to the OFA under CIPA will also be required.

Attached for your signature is a memorandum from you to the Minister requesting that the Minister recommend the OIC. This OIC is on track to be considered at LRC on June 27, 2017 together with proposed Ministry of Energy submission for regulations related to the *Ontario Fair Hydro Plan Act, 2017.*

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Two Billion Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by [December 31, 2047];

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

f) par dérogation à l'alinéa b) ci-dessus, toute partie du capital d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers devient payable uniquement dans la mesure où l'OOF reçoit un remboursement du capital au titre du prêt à un tiers

Hi Patrick,

As the OIC package was going through our OFA approvals, we have now been directed that the OIC amount should be $2.0 billion, with an expiry date of June 30, 2047, to line up with the IESO request and the term of the FHP.

I'll recirculate the updated LRC package once I get a finalized version in place. Could we update the OIC to reflect this as I know it may take some time.

Let us know.

Thank you,

Salman

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the Ontario Financing Authority ("OFA") in an amount of up to $2.0 billion. Under the proposed OIC, repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by [December 31, 2047].

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- Existing OICs authorize the Minister of Finance to provide loans to the OFA under which the OFA has provided loans and credit facilities to colleges, school boards and other public agencies such as Infrastructure Ontario, IESO, Ontario Lottery and Gaming Corporation and Liquor Control Board of Ontario.

- This proposed OIC is required to expand the overall Minister of Finance lending authority to the OFA to allow the OFA to provide loans under credit facilities requested by the Independent Electricity System Operator ("IESO").
    - This will help the IESO to fulfil the commitments under the proposed Fair Hydro Act, 2017, under anticipated and potential timing differences in the implementation of the proposed Fair Hydro Plan.
    - The timing of this OIC is critical to ensure borrowing authority for the OFA is available to provide the IESO its requested financing arrangements upon the enactment of the proposed *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide additional loans to

the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the proposed *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation of the proposed arrangements, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the on-going *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA would be directed to provide a credit facility to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the proposed *Ontario Fair Hydro Plan Act, 2017,* the IESO would incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. Global Adjustment amounts initially collected will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The proposed *Ontario Fair Hydro Plan Act, 2017* allows the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell that asset.
    - It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
    - The cash received would be used by the IESO to fund the current Global Adjustment shortfall.

- However, there is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017. Even once the SPV is set up to borrow, there may be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the proposed legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

- As a result, IESO requires short-term financing to be in place for initial and potential monthly timing differences, or in the event that the OPG SPV, at any

time, does not purchase a portion of the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of up to $2 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.
  It is proposed that the OIC authorization be for $2.0 billion, which would be in addition to existing authority for the Minister of Finance to provide loans to the OFA, to ensure that there is sufficient borrowing authority in place for the OFA to meet the IESO requirements.

- If approved, the Minister of Finance will subsequently provide a Directive to the OFA to direct it to provide credit facilities to the IESO in an amount not to exceed $2.5 billion.
  - The OFA currently provides a credit facility to the IESO of $975 million.
  - The IESO has requested that the existing credit facility be reduced to $475 million, and a new credit facility be provided of $2 billion, for a total amount of $2.475 million.

s. 3 Direction and Urgency

- As announced on March 2, 2017, and highlighted as a commitment in Budget 2017, the Province intends to implement the *Ontario Fair Hydro Plan Act, 2017,* which would reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in supporting implementation of the proposed *Ontario Fair Hydro Plan Act, 2017*.
- Ministry of Energy proposed regulations under the proposed *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be submitted for approval concurrently as it supports a crucial component of the successfully implementation of the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend an additional amount of $2 billion to the OFA. Subject to the terms and conditions of a Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and, therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister will be required that will provide direction to the OFA on how it can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed Fair Hydro Plan. The related Cabinet note for the initiative should be referred to.

MEMORANDUM TO: Scott Thompson
Deputy Minister of Finance

FROM: Gadi Mayman
Chief Executive Officer

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for the Minister's review and consideration is a submission for an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's proposed *Ontario Fair Hydro Plan Act, 2017*, subject to the approval of the Legislature.

IESO has requested that the OFA provide a revolving credit facility of up to $2 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

Under the proposed *Ontario Fair Hydro Plan Act, 2017,* the IESO would incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. Global Adjustment amounts initially collected will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers. The proposed *Ontario Fair Hydro Plan Act, 2017* allows the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell that asset. It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV"), an OPG special purpose vehicle or trust). The cash received would be used by the IESO to fund the current Global Adjustment shortfall.

../2

There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017. Even once the SPV is set up to borrow, there may be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the proposed legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

As a result, IESO requires short-term financing to be in place for initial and potential monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

The OFA obtains the funding it needs to carry out its lending programs by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to an additional Canadian $2.0 billion to the OFA. In addition, in order for the OFA to provide the IESO its requested credit facility, a direction from the Minister of Finance to the OFA under CIPA will also be required.

Attached for your signature is a memorandum from you to the Minister requesting that the Minister recommend the OIC. This OIC is on track to be considered at LRC on June 27, 2017 together with proposed Ministry of Energy submission for regulations related to the proposed *Ontario Fair Hydro Plan Act, 2017.*

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Two Billion Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by [December 31, 2047];

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

Hi Patrick,

As the OIC package was going through our OFA approvals, we have now been directed that the OIC amount should be $2.0 billion, with an expiry date of June 30, 2047, to line up with the IESO request and the term of the FHP.

I'll recirculate the updated LRC package once I get a finalized version in place. Could we update the OIC to reflect this as I know it may take some time.

Let us know.

Thank you,

Salman

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the Ontario Financing Authority ("OFA") in an amount of up to $2.0 billion. Under the proposed OIC, repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by [December 31, 2047].

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- Existing OICs authorize the Minister of Finance to provide loans to the OFA under which the OFA has provided loans and credit facilities to colleges, school boards and other public agencies such as Infrastructure Ontario, IESO, Ontario Lottery and Gaming Corporation and Liquor Control Board of Ontario.

- This proposed OIC is required to expand the overall Minister of Finance lending authority to the OFA to allow the OFA to provide loans under credit facilities requested by the Independent Electricity System Operator ("IESO").
    - This will help the IESO to fulfil the commitments under the proposed Fair Hydro Act, 2017, under anticipated and potential timing differences in the implementation of the proposed Fair Hydro Plan.
    - The timing of this OIC is critical to ensure borrowing authority for the OFA is available to provide the IESO its requested financing arrangements upon the enactment of the proposed *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide additional loans to

the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the proposed *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation of the proposed arrangements, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the on-going *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA would be directed to provide a credit facility to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the proposed *Ontario Fair Hydro Plan Act, 2017,* the IESO would incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. Global Adjustment amounts initially collected will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The proposed *Ontario Fair Hydro Plan Act, 2017* allows the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell that asset.
    - It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
    - The cash received would be used by the IESO to fund the current Global Adjustment shortfall.

- However, there is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017. Even once the SPV is set up to borrow, there may be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the proposed legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

- As a result, IESO requires short-term financing to be in place for initial and potential monthly timing differences, or in the event that the OPG SPV, at any

time, does not purchase a portion of the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of up to $2 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.
  It is proposed that the OIC authorization be for $2.0 billion, which would be in addition to existing authority for the Minister of Finance to provide loans to the OFA, to ensure that there is sufficient borrowing authority in place for the OFA to meet the IESO requirements.

- If approved, the Minister of Finance will subsequently provide a Directive to the OFA to direct it to provide credit facilities to the IESO in an amount not to exceed $2.5 billion.
  - The OFA currently provides a credit facility to the IESO of $975 million.
  - The IESO has requested that the existing credit facility be reduced to $475 million, and a new credit facility be provided of $2 billion, for a total amount of $2.475 million.

s. 3 Direction and Urgency

- As announced on March 2, 2017, and highlighted as a commitment in Budget 2017, the Province intends to implement the *Ontario Fair Hydro Plan Act, 2017,* which would reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in supporting implementation of the proposed *Ontario Fair Hydro Plan Act, 2017*.
- Ministry of Energy proposed regulations under the proposed *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be submitted for approval concurrently as it supports a crucial component of the successfully implementation of the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend an additional amount of $2 billion to the OFA. Subject to the terms and conditions of a Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and, therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister will be required that will provide direction to the OFA on how it can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed Fair Hydro Plan. The related Cabinet note for the initiative should be referred to.

MEMORANDUM TO: Scott Thompson
Deputy Minister of Finance

FROM: Gadi Mayman
Chief Executive Officer

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for the Minister's review and consideration is a submission for an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's proposed *Ontario Fair Hydro Plan Act, 2017*, subject to the approval of the Legislature.

IESO has requested that the OFA provide a revolving credit facility of up to $2 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

Under the proposed *Ontario Fair Hydro Plan Act, 2017,* the IESO would incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. Global Adjustment amounts initially collected will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers. The proposed *Ontario Fair Hydro Plan Act, 2017* allows the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell that asset. It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV"), an OPG special purpose vehicle or trust). The cash received would be used by the IESO to fund the current Global Adjustment shortfall.

../2

There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017. Even once the SPV is set up to borrow, there may be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the proposed legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

As a result, IESO requires short-term financing to be in place for initial and potential monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

The OFA obtains the funding it needs to carry out its lending programs by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to an additional Canadian $2.0 billion to the OFA. In addition, in order for the OFA to provide the IESO its requested credit facility, a direction from the Minister of Finance to the OFA under CIPA will also be required.

Attached for your signature is a memorandum from you to the Minister requesting that the Minister recommend the OIC. This OIC is on track to be considered at LRC on June 27, 2017 together with proposed Ministry of Energy submission for regulations related to the proposed *Ontario Fair Hydro Plan Act, 2017.*

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Two Billion Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by [December 31, 2047];

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

Hi Patrick

Apologies, regarding the French translation. 1) I had updated using my high school French and 2) in the translation I had missed updating the change in date from June to December 31, 2017. I have revised in attached "4 – CIPA s.22…" , but of course, this should be reviewed.

Thanks

Hi Patrick,

As the OIC package was going through our OFA approvals, we have now been directed that the OIC amount should be $2.0 billion, with an expiry date of June 30, 2047, to line up with the IESO request and the term of the FHP.

I'll recirculate the updated LRC package once I get a finalized version in place. Could we update the OIC to reflect this as I know it may take some time.

Let us know.

Thank you,

Salman

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the Ontario Financing Authority ("OFA") in an amount of up to $2.0 billion. Under the proposed OIC, repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by [December 31, 2047].

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- Existing OICs authorize the Minister of Finance to provide loans to the OFA under which the OFA has provided loans and credit facilities to colleges, school boards and other public agencies such as Infrastructure Ontario, IESO, Ontario Lottery and Gaming Corporation and Liquor Control Board of Ontario.

- This proposed OIC is required to expand the overall Minister of Finance lending authority to the OFA to allow the OFA to provide loans under credit facilities requested by the Independent Electricity System Operator ("IESO").
    - This will help the IESO to fulfil the commitments under the proposed Fair Hydro Act, 2017, under anticipated and potential timing differences in the implementation of the proposed Fair Hydro Plan.
    - The timing of this OIC is critical to ensure borrowing authority for the OFA is available to provide the IESO its requested financing arrangements upon the enactment of the proposed *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide additional loans to

the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the proposed *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation of the proposed arrangements, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the on-going *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA would be directed to provide a credit facility to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the proposed *Ontario Fair Hydro Plan Act, 2017,* the IESO would incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. Global Adjustment amounts initially collected will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The proposed *Ontario Fair Hydro Plan Act, 2017* allows the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell that asset.
    - It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
    - The cash received would be used by the IESO to fund the current Global Adjustment shortfall.

- However, there is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017. Even once the SPV is set up to borrow, there may be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the proposed legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

- As a result, IESO requires short-term financing to be in place for initial and potential monthly timing differences, or in the event that the OPG SPV, at any

time, does not purchase a portion of the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of up to $2 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.
  It is proposed that the OIC authorization be for $2.0 billion, which would be in addition to existing authority for the Minister of Finance to provide loans to the OFA, to ensure that there is sufficient borrowing authority in place for the OFA to meet the IESO requirements.

- If approved, the Minister of Finance will subsequently provide a Directive to the OFA to direct it to provide credit facilities to the IESO in an amount not to exceed $2.5 billion.
  - The OFA currently provides a credit facility to the IESO of $975 million.
  - The IESO has requested that the existing credit facility be reduced to $475 million, and a new credit facility be provided of $2 billion, for a total amount of $2.475 million.

s. 3 Direction and Urgency

- As announced on March 2, 2017, and highlighted as a commitment in Budget 2017, the Province intends to implement the *Ontario Fair Hydro Plan Act, 2017,* which would reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in supporting implementation of the proposed *Ontario Fair Hydro Plan Act, 2017*.
- Ministry of Energy proposed regulations under the proposed *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be submitted for approval concurrently as it supports a crucial component of the successfully implementation of the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend an additional amount of $2 billion to the OFA. Subject to the terms and conditions of a Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and, therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister will be required that will provide direction to the OFA on how it can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan.

s.7 Stakeholder Consultations

MEMORANDUM TO: Scott Thompson
Deputy Minister of Finance

FROM: Gadi Mayman
Chief Executive Officer

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for the Minister's review and consideration is a submission for an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's proposed *Ontario Fair Hydro Plan Act, 2017*, subject to the approval of the Legislature.

IESO has requested that the OFA provide a revolving credit facility of up to $2 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

Under the proposed *Ontario Fair Hydro Plan Act, 2017,* the IESO would incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. Global Adjustment amounts initially collected will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers. The proposed *Ontario Fair Hydro Plan Act, 2017* allows the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell that asset. It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV"), an OPG special purpose vehicle or trust). The cash received would be used by the IESO to fund the current Global Adjustment shortfall.

../2

There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017. Even once the SPV is set up to borrow, there may be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the proposed legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

As a result, IESO requires short-term financing to be in place for initial and potential monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

The OFA obtains the funding it needs to carry out its lending programs by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to an additional Canadian $2.0 billion to the OFA. In addition, in order for the OFA to provide the IESO its requested credit facility, a direction from the Minister of Finance to the OFA under CIPA will also be required.

Attached for your signature is a memorandum from you to the Minister requesting that the Minister recommend the OIC. This OIC is on track to be considered at LRC on June 27, 2017 together with proposed Ministry of Energy submission for regulations related to the proposed *Ontario Fair Hydro Plan Act, 2017.*

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Two Billion Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by [December 31, 2047];

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

f) par dérogation à l'alinéa b) ci-dessus, toute partie du capital d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers devient payable uniquement dans la mesure où l'OOF reçoit un remboursement du capital au titre du prêt à un tiers

Hi Salman and Patrick,

I just wanted to flag something that I've noticed from the . The letter for the credit facility request states a expiry of the new FHP credit facility agreement for 5 years. The OIC is for 30 years. This OIC is maturity based on similar OFA OICs permitting the OFA to borrow from the Minister and to onlend to third parties.

I'm not sure if there is a rationale for ha

As you may be aware The Fair Hydro Act was passed today. As a result we updated language in the materials. E.g., ~~*proposed*~~ *Ontario Fair Hydro Act, 2017.* No content changes. I think these updates

affected the first three attached documents but not the 4th , i.e., the OIC.

Apologies, regarding the French translation. 1) I had updated using my high school French and 2) in the translation I had missed updating the change in date from June to December 31, 2017. I have revised in attached "4 – CIPA s.22…" , but of course, this should be reviewed.

Hi Patrick,
As the OIC package was going through our OFA approvals, we have now been directed that the OIC amount should be $2.0 billion, with an expiry date of June 30, 2047, to line up with the IESO request and the term of the FHP.
I'll recirculate the updated LRC package once I get a finalized version in place. Could we update the OIC to reflect this as I know it may take some time.

Let us know.
Thank you,
Salman

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the Ontario Financing Authority ("OFA") in an amount of up to $2.0 billion. Under the proposed OIC, repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by ~~[~~December 31, 2047~~]~~.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- Existing OICs authorize the Minister of Finance to provide loans to the OFA ~~under which~~, and in turn ~~-~~the OFA has provided loans and credit facilities to colleges, school boards and other public bodies ~~agencies~~ such as Infrastructure Ontario, IESO, Ontario Lottery and Gaming Corporation and Liquor Control Board of Ontario.

- This proposed OIC is required to increase the ~~overall~~authority of the Minister of Finance ~~lending authority~~ to lend to the OFA ~~to allow~~ which will provide the OFA with the capacity to provide loans ~~under credit facilities requested by~~to the Independent Electricity System Operator ("IESO").
    - This will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017*~~, under anticipated and potential timing differences~~ as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.
    - The timing of this OIC is critical to ensure that borrowing authority for the OFA is available to provide the IESO its requested financing arrangements under ~~upon the enactment of~~ the *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the

Minister of Finance under section 22 of CIPA to provide additional loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the ~~ on-going~~ *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA would be directed to provide a credit facility to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. At certain times Global Adjustment amounts ~~initially~~ collected from ratepayers will~~, therefore,~~ be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The *Ontario Fair Hydro Plan Act, 2017* ~~allows~~gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to finance that ~~asset~~deferral.
    - It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
    - The cash received from selling the regulatory asset will be used by the IESO to fund the current Global Adjustment shortfall.

- There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017. Even once the SPV is set up to borrow, there may be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

- As a result, IESO requires short-term financing to be in place for initial and potential monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of up to $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

- It is proposed that the OIC ~~authorization be for~~authorize the OFA to borrow an additional $2.0 billion, which would be in addition to existing authority for the Minister of Finance to provide loans to the OFA, to ensure that there is sufficient borrowing authority in place for the OFA to meet the IESO requested requirements.

- If approved, the Minister of Finance will subsequently provide a Directive to the OFA to direct it to provide credit facilities to the IESO in an amount not to exceed $2.05 ~~5~~ billion.
    - The OFA currently provides a credit facility to the IESO of $975 million.
    - The IESO has requested that the existing credit facility be reduced to $475 million, and a new credit facility be provided of $2.0 billion, for a total amount of $2.475 million.

s. 3 Direction and Urgency

- The Province passed legislation on May 31, 2017 to implement the *Ontario Fair Hydro Plan Act, 2017,* which will reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in supporting implementation of the *Ontario Fair Hydro Plan Act, 2017*.
- Ministry of Energy proposed regulations under the *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be submitted for approval concurrently as it supports a crucial component of the successfully implementation of the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend an additional amount of $2.0 billion to the OFA. Subject to the terms and conditions of a Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and, therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister ~~will be required that will~~may provide direction to the OFA on how it can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan. Upon approval, the Minister of Finance will have authorization to provide a loan to the OFA with a directive on how the loan can be used.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017*. The related Cabinet note for the initiative should be referred to.

MEMORANDUM TO: Scott Thompson
Deputy Minister of Finance

FROM: Gadi Mayman
Chief Executive Officer

SUBJECT: **Approval of an Order in Council under section 22 of the *Capital Investment Plan Act***

Attached for the Minister's review and consideration is a submission for an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan(s) to the Ontario Financing Authority ("OFA"). The proceeds from these loans would allow the OFA to lend to the Independent Electricity Systems Operator ("IESO") in connection with the implementation of the Province's *Ontario Fair Hydro Plan Act, 2017*, subject to the approval of the Legislature.

IESO has requested that the OFA provide a revolving credit facility of up to $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. At certain times, Global Adjustment amounts ~~initially~~ collected from ratepayers will ~~, therefore,~~ be insufficient to fund the IESO's contractual obligations to electricity producers and service providers. The *Ontario Fair Hydro Plan Act, 2017* gives~~allows~~ the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to finance that deferral~~that asset~~. It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG SPV"), an OPG special purpose vehicle or trust. The cash received from selling the regulatory asset would be used by the IESO to fund the current Global Adjustment shortfall.

There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017. Even once the SPV is set up to borrow, there may be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the proposed legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

As a result, IESO requires short-term financing to be in place for initial and potential monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

The OFA obtains the funding it needs to carry out its lending programs by borrowing from the Province. This proposed OIC authorizes the Minister of Finance to lend up to an additional Canadian $2.0 billion to the OFA. In addition, in order for the OFA to provide the IESO its requested credit facility, a direction from the Minister of Finance to the OFA under CIPA will also be required.

Attached for your signature is a memorandum from you to the Minister requesting that the Minister recommend the OIC. This OIC is on track to be considered at LRC on June 27, 2017 together with proposed Ministry of Energy submission for regulations related to the *Ontario Fair Hydro Plan Act, 2017.*

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Two Billion Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

Hi Sarah and Malle,

As we have been working on the documents and OIC for the new OFA-IESO FHP credit facility, I was looking at the existing OFA OIC 675/97 (see page 10 of the attached .pdf) which underpins the existing 975M OFA-IESO credit facility as well as various other OFA loans. While there are no active IESO advances under this loan, there are other active OFA loans to third parties under this OIC. Accompanying the 675/97 (on p. 14 of the attached .pdf) is a form of prom note issued by the OFA to the Minister of Finance on any loans the OFA borrows from the Minister in relation to that OIC. I am trying to locate the executed prom note for this OIC675/97. We have looked in the Documentation safe and it is not in there.

Would you have any record of this prom note having been executed?

Thanks,

Sarah

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow Six Hundred and Fifty-six Million Dollars from the Minister of Finance and has been authorized to do so by a borrowing by-law in accordance with the Act and approved by the Minister of Finance;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Six Hundred and Fifty-six Million Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(ii) in the event that moneys included in an Advance are subsequently loaned by the OFA to third parties for the purposes contemplated in the Act, (a "Third Party Loan") the rate of interest payable by the OFA to the Province on the portion of the Advance so loaned may be adjusted at the option of the OFA effective as of the date of the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to either:

(A) the per annum rate of interest payable to the OFA under the Third Party Loan, or

(B) the per annum rate of interest payable to the OFA under the Third Party Loan less 25 basis points,

until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently loaned to third parties again, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance included in any subsequent loan, and so on, until the Advance shall be repaid to the Province in full;

(e) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(f) the loan hereby authorized shall be evidenced by a promissory note in a form acceptable to the Minister of Finance.

MEMORANDUM TO: The Honourable Ernie Eves
Minister of Finance

SUBJECT: **Ontario Financing Authority 1999-2000 Borrowing OIC**

Attached for your approval and signature is an Order in Council (OIC) authorizing the Province to lend up to $656 Million to the Ontario Financing Authority ("OFA").

The amount authorized to be borrowed by the OFA from the Province will provide financing to Ontario Housing Corporation, Ontario Northland Transportation Commission and other public bodies. The borrowed funds can only be on-lent to these public bodies by the OFA for projects that have received approval from Management Board of Cabinet or the Minister of Finance or for specific lines of credit for cash management purposes.

The attached material contains supporting briefing notes and schedules. Staff are available to brief you should you have any questions regarding the OIC.

If you approve this request, will you please sign the proposed OIC so that it may be place on the agenda for the Cabinet meeting scheduled for March 10, 1999.

Bryne Purchase
Deputy Minister

ONTARIO FINANCING AUTHORITY

Issue:

An Order in Council (OIC) authorizing the Ontario Financing Authority (OFA) to borrow up to $656 million from the Province.

Comments:

- The OIC for $656 million will fund the OFA's lending requirements for the 1999/2000 fiscal year.

- The $656 million will be loaned to meet Government committments to Ontario Housing Corporation, Ontario Northland Transportation Commission and other public bodies as per attached schedule showing the projected use of funds for these organizations as well as the previous fiscal year advances.

- The OFA lends funds to public bodies, as an intermediary of the Province subject to the conditions and restrictions of the OFA Lending Policy.

- The OFA Lending Policy requires that the OFA Board approve an annual borrowing plan for the OFA that identifies;

  (i) the OFA's borrowing requirements for the year from the Province and any other sources; and

  (ii) the projects or purposes for which the borrowed funds will be used, including loans to public bodies for specific projects and contingencies.

- All necessary OFA Board and Management Board approvals must be in place before the OFA will execute this borrowing authority and on-lend funds to any government agency.

- Interest will be paid by the OFA to the Province under one of the following rates:

  - the Provincial 90-day Treasury Bill rate,
  - the rates charged by OFA on the corresponding loans by the OFA to government agencies, or
  - less 25 basis points on the said loans.

  This flexibility will allow the OFA to match the terms of the loan from the Province to the terms of the loans made by the OFA to government agencies.

RECOMMENDATION:

- Approval of the OIC authorizing a loan up to $656 million to the OFA.

1999-00 REVIEW OF OFA LENDING POLICY: FOR OFA LENDING UNDERTAKEN as an INTERMEDIARY of the PROVINCE

Issue

- Review of the OFA Lending Policy for lending activities undertaken where the OFA is acting as an intermediary of the Province.

Recommendation

- It is recommended that the OFA Board make no changes to the current OFA Lending Policy for the year 1999-00. No amendments are required to the Lending Policy since it still accurately reflects the lending activities of the OFA, and no change is anticipated in those lending activities.

Background

- Under the current Lending Policy, the OFA:

  (i) does not lend to public bodies, other than as an intermediary of the Province, without the prior approval of the OFA Board;

  (ii) advances loans to Crown Agencies and Other Public Bodies where the Province supports the provision of Provincial financing and it is advantageous to the Province for the OFA to provide the loan; and

  (iii) does not receive a fee from the Province or earn a profit for lending activities where it is acting as an intermediary on behalf of the Province.

- The Lending Policy requires that an annual borrowing plan for the OFA be provided to the OFA Board for approval along with a report outlining the status of all loans outstanding.

- Where Cabinet, Management Board of Cabinet or the Minister of Finance requests the OFA to advance a loan to a public body or authorizes the public body to borrow from the OFA, no further OFA Board approval is required.

- Where the Province has approved Provincial financing to a public body without specifying the role of the OFA, the OFA will advance the loan if:

  – the CEO of the OFA and the Director of Corporate Finance or a committee of the OFA Board or the Board has authorized the OFA to advance the loan; and

- there is sufficient allocation for the loan in the annual borrowing plan.

- The OFA will adhere to the lending terms and conditions outlined in the Lending Policy unless otherwise requested by Cabinet, Management Board of Cabinet or the Minister of Finance.

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor, by and with the advice and concurrence of the Executive Council, orders that:

Sur la recommandation du soussigné, le lieutenant-gouverneur, sur l'avis et avec le consentement du Conseil des ministres, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow Two Billion One Hundred and Sixty Million Dollars from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion One Hundred and Sixty Million Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(c) the OFA shall be entitled to use the loan as a revolving credit facility allowing for successive advances of moneys repaid under the loan; provided that the maximum principal amount of the loan outstanding at any time shall not exceed Two Billion One Hundred and Sixty Million Dollars;

(d) each advance (an "Advance") made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills (determined as at the auction date immediately preceding the date of the Advance), provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the "Reset Date") to the yield earned on ninety day Province of Ontario treasury bills as at the auction date immediately preceding the Reset Date for such ninety day period;

(ii) in the event that moneys included in an Advance are subsequently loaned by the OFA to third parties for the purposes contemplated in the Act, (a "Third Party Loan") the rate of interest payable by the OFA to the Province on the portion of the Advance so loaned may be adjusted at the option of the OFA effective as of the date of the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to either:

(A) the per annum rate of interest payable to the OFA under the Third Party Loan, or

(B) the per annum rate of interest payable to the OFA under the Third Party Loan less 25 basis points,

until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently loaned to third parties again, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance included in any subsequent loan, and so on, until the Advance shall be repaid to the Province in full;

(e) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

Hi Sarah and Malle,

As we have been working on the documents and OIC for the new OFA-IESO FHP credit facility, I was looking at the existing OFA OIC 675/97 (see page 10 of the attached .pdf) which underpins the existing 975M OFA-IESO credit facility as well as various other OFA loans. While there are no active IESO advances under this loan, there are other active OFA loans to third parties under this OIC. Accompanying the 675/97 (on p. 14 of the attached .pdf) is a form of prom note issued by the OFA to the Minister of Finance on any loans the OFA borrows from the Minister in relation to that OIC. I am trying to locate the executed prom note for this OIC675/97. We have looked in the Documentation safe and it is not in there.

Would you have any record of this prom note having been executed?

Thanks,

Sarah

MEMORANDUM TO: The Honourable Ernie Eves
Minister of Finance

SUBJECT: **Ontario Financing Authority 1999-2000 Borrowing OIC**

Attached for your approval and signature is an Order in Council (OIC) authorizing the Province to lend up to $656 Million to the Ontario Financing Authority ("OFA").

The amount authorized to be borrowed by the OFA from the Province will provide financing to Ontario Housing Corporation, Ontario Northland Transportation Commission and other public bodies. The borrowed funds can only be on-lent to these public bodies by the OFA for projects that have received approval from Management Board of Cabinet or the Minister of Finance or for specific lines of credit for cash management purposes.

The attached material contains supporting briefing notes and schedules. Staff are available to brief you should you have any questions regarding the OIC.

If you approve this request, will you please sign the proposed OIC so that it may be place on the agenda for the Cabinet meeting scheduled for March 10, 1999.

Bryne Purchase
Deputy Minister

ONTARIO FINANCING AUTHORITY

Issue:

An Order in Council (OIC) authorizing the Ontario Financing Authority (OFA) to borrow up to $656 million from the Province.

Comments:

- The OIC for $656 million will fund the OFA's lending requirements for the 1999/2000 fiscal year.

- The $656 million will be loaned to meet Government committments to Ontario Housing Corporation, Ontario Northland Transportation Commission and other public bodies as per attached schedule showing the projected use of funds for these organizations as well as the previous fiscal year advances.

- The OFA lends funds to public bodies, as an intermediary of the Province subject to the conditions and restrictions of the OFA Lending Policy.

- The OFA Lending Policy requires that the OFA Board approve an annual borrowing plan for the OFA that identifies;

  (i) the OFA's borrowing requirements for the year from the Province and any other sources; and

  (ii) the projects or purposes for which the borrowed funds will be used, including loans to public bodies for specific projects and contingencies.

- All necessary OFA Board and Management Board approvals must be in place before the OFA will execute this borrowing authority and on-lend funds to any government agency.

- Interest will be paid by the OFA to the Province under one of the following rates:

  - the Provincial 90-day Treasury Bill rate,
  - the rates charged by OFA on the corresponding loans by the OFA to government agencies, or
  - less 25 basis points on the said loans.

  This flexibility will allow the OFA to match the terms of the loan from the Province to the terms of the loans made by the OFA to government agencies.

RECOMMENDATION:

- Approval of the OIC authorizing a loan up to $656 million to the OFA.

1999-00 REVIEW OF OFA LENDING POLICY: FOR OFA LENDING UNDERTAKEN as an INTERMEDIARY of the PROVINCE

Issue

- Review of the OFA Lending Policy for lending activities undertaken where the OFA is acting as an intermediary of the Province.

Recommendation

- It is recommended that the OFA Board make no changes to the current OFA Lending Policy for the year 1999-00. No amendments are required to the Lending Policy since it still accurately reflects the lending activities of the OFA, and no change is anticipated in those lending activities.

Background

- Under the current Lending Policy, the OFA:

  (i) does not lend to public bodies, other than as an intermediary of the Province, without the prior approval of the OFA Board;

  (ii) advances loans to Crown Agencies and Other Public Bodies where the Province supports the provision of Provincial financing and it is advantageous to the Province for the OFA to provide the loan; and

  (iii) does not receive a fee from the Province or earn a profit for lending activities where it is acting as an intermediary on behalf of the Province.

- The Lending Policy requires that an annual borrowing plan for the OFA be provided to the OFA Board for approval along with a report outlining the status of all loans outstanding.

- Where Cabinet, Management Board of Cabinet or the Minister of Finance requests the OFA to advance a loan to a public body or authorizes the public body to borrow from the OFA, no further OFA Board approval is required.

- Where the Province has approved Provincial financing to a public body without specifying the role of the OFA, the OFA will advance the loan if:

  – the CEO of the OFA and the Director of Corporate Finance or a committee of the OFA Board or the Board has authorized the OFA to advance the loan; and

- there is sufficient allocation for the loan in the annual borrowing plan.

- The OFA will adhere to the lending terms and conditions outlined in the Lending Policy unless otherwise requested by Cabinet, Management Board of Cabinet or the Minister of Finance.

Subject: RE: Question - OIC for new IESO Credit Facility

Hi Mike,

The OIC is drafted using wording that is similar to the wording already being used in the existing OICs where the OFA borrows money from the Minister (i.e. underpinning college loans, existing IESO-OFA Credit Facility, etc.).

The OIC permits the OFA a couple of options:

(i) the OFA simply borrows funds from the Minister without lending to 3rd parties. In that case, the OFA would pay to the Minister at a rate equal to **the 90 day ONT T-Bill yield, reset every 90 days.** For **the purpose of this OIC (**that is, for the OFA to lend funds to IESO) **this provision would not be used**.

(ii) the OFA borrows funds from the Minister and then lends those funds to 3rd parties. In this case, the OFA would pay the Minister at the rate **equivalent to the rate of interest payable to the OFA under 3rd party loan, less an amount as may be determined by the Minister of Finance** in respect of such Third Party Loan or a class of such Third Party Loans. This would be the section applicable to for the OFA lending to IESO. In this circumstance, the OFA can charge IESO Ontario's cost plus 25bps; the OFA would then pay the Minister at this rate, less an amount as may be determined by the Minister.

So the short answer is that, under option (ii), the OFA can charge IESO's cost of plus 25 bps, and then the OFA must pay the Minister at the same rate on the funds, less an amount determined by the Minister. The fact that the Minister decides the amount to be deducted gives us flexibility in determining the spread to deduct when paying back the Province.

The only time option (i) comes into play is IF the OFA ever wants to borrow funds from the Minister without lending those funds to third parties.

Hi Sarah:

Are you saying the wording in the OIC is general and that we can charge IESO Ontario's cost plus 25 bps separately?

Thanks, Mike

Subject: FW: Question - OIC for new IESO Credit Facility

Hi Mike,

I originally sent this e-mail below to Linda and she thought it looked fine, but she thought I should also run it by you.

As part of putting in place the new credit facility between IESO and the OFA, a new OIC is required for the OFA to borrow from the Province, so the Province may in turn make loans to IESO. As matter of prudence, I am asking is for you to review the rates that the OFA pays to the Province in the OIC are still appropriate. The OIC package must go to the DMO today.

In short, the rates included in the OIC are effectively the same as the existing OIC underpinning the $975 million credit facility between the OFA and IESO. Specifically, section(c)(ii) of the OIC says if the OFA uses the borrowed monies to fund 3rd party loans, then the rate will **be equivalent to rate of interest payable to the OFA under 3rd party loan less an amount as may be determined by the Minister of Finance** in respect of such Third Party Loan or a class of such Third Party Loans.

The OIC also contains a more general borrowing rate. That is, Section (c)(i) says if the OFA simply borrows funds from the Minister (which have not been loaned to a third party), the OFA pays the rate equal to **the 90 day ONT T-Bill yield.** However, for the purposes of this OIC, it is unlikely that this section would ever be used.

Again, both rates above are consistent with existing OICs.

Please let me if these rates look okay.

Thanks,

Sarah

Subject: Question - OIC for new IESO Credit Facility

Hi Linda,

As a matter of prudence, I just wanted to check with you on one aspect of the draft OIC for OFA to make loans to IESO under the proposed credit facility in relation to the Fair Hydro Plan. The OIC package will be delivered today to the DMO, but I wanted to confirm with you that the rates that under the Section (c) of the attached OIC are still appropriate (perhaps it is I should be asking Mike?, but since this is IESO related, I wanted to check with you first).

Section (c) deals with the rates the OFA pays to the Minister for any funds it borrows, and is essentially the same as the OFA's existing OIC from 1999. Section (c)(i) says if the OFA simply borrows funds from the Minister (which have not been loaned to a third party), the OFA pays the rate equal to **the 90 day ONT T-Bill yield.** Section(c)(ii) says that if the OFA uses the borrowed monies to fund 3rd party loans, then the rate will **be equivalent to rate of interest payable to the OFA under 3rd party loan less an amount as may be determined by the Minister of Finance** in respect of such Third Party Loan or a class of such Third Party Loans.

Please let me know your thoughts.

Thanks,

Sarah

AND WHEREAS the OFA wishes to borrow up to Three Billion Five Hundred Million Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Three Billion Five Hundred Million Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by June 30, 2053;

Hi Linda,

As a matter of prudence, I just wanted to check with you on one aspect of the draft OIC for OFA to make loans to IESO under the proposed credit facility in relation to the Fair Hydro Plan. The OIC package will be delivered today to the DMO, but I wanted to confirm with you that the rates that under the Section (c) of the attached OIC are still appropriate (perhaps it is I should be asking Mike?, but since this is IESO related, I wanted to check with you first).

Section (c) deals with the rates the OFA pays to the Minister for any funds it borrows, and is essentially the same as the OFA's existing OIC from 1999. Section (c)(i) says if the OFA simply borrows funds from the Minister (which have not been loaned to a third party), the OFA pays the rate equal to **the 90 day ONT T-Bill yield.** Section(c)(ii) says that if the OFA uses the borrowed monies to fund 3rd party loans, then the rate will **be equivalent to rate of interest payable to the OFA under 3rd party loan less an amount as may be determined by the Minister of Finance** in respect of such Third Party Loan or a class of such Third Party Loans.

Please let me know your thoughts.

Hi Patrick,

I just wanted to ask you a question, please, for my own knowledge, regarding section (c)(ii) of the OIC. The OIC states:

(c) each advance (an "Advance") made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the "Reset Date") to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a "Third Party Loan"), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

In relation to the above highlighted section, how would the 'Minister' specify the amount to be deducted? Unlike the two existing OICS (attached) the OFA uses for lending to 3rd parties which overtly specify the rates, our draft OIC provides discretion to the Minister. I'm not aware of how/if the Minister's authority to determine the amount to be deducted has somehow been delegated to the OFA (perhaps this is a question for Sarah Neville?), or would this be included in the Minister's directive for the credit facility?

Thanks,

Sarah

Subject: Question - OIC for new IESO Credit Facility

Hi Linda,

As a matter of prudence, I just wanted to check with you on one aspect of the draft OIC for OFA to make loans to IESO under the proposed credit facility in relation to the Fair Hydro Plan. The OIC package will be delivered today to the DMO, but I wanted to confirm with you that the rates that under the Section (c) of the attached OIC are still appropriate (perhaps it is I should be asking Mike?, but since this is IESO related, I wanted to check with you first).

Section (c) deals with the rates the OFA pays to the Minister for any funds it borrows, and is essentially the same as the OFA's existing OIC from 1999. Section (c)(i) says if the OFA simply borrows funds from the Minister (which have not been loaned to a third party), the OFA pays the rate equal to **the 90 day ONT T-Bill yield.** Section(c)(ii) says that if the OFA uses the borrowed monies to fund 3rd party loans, then the rate will **be equivalent to rate of interest payable to the OFA under 3rd party loan less an amount as may be determined by the Minister of Finance** in respect of such Third Party Loan or a class of such Third Party Loans.

Please let me know your thoughts.

Thanks,

Sarah

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

Hi Patrick,

I just wanted to ask you a question, please, for my own knowledge, regarding section (c)(ii) of the OIC. The OIC states:

(c) each advance (an "Advance") made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the "Reset Date") to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

Subject: RE: Question - OIC for new IESO Credit Facility

Hi Mike,
The OIC is drafted using wording that is similar to the wording already being used in the existing OICs where the OFA borrows money from the Minister (i.e. underpinning college loans, existing IESO-OFA Credit Facility, etc.).
The OIC permits the OFA a couple of options:

(i) the OFA simply borrows funds from the Minister without lending to 3rd parties. In that case, the OFA would pay to the Minister at a rate equal to **the 90 day ONT T-Bill yield, reset every 90 days.** For **the purpose of this OIC (**that is, for the OFA to lend funds to IESO) **this provision would not be used**.

(ii) the OFA borrows funds from the Minister and then lends those funds to 3rd parties. In this case, the OFA would pay the Minister at the rate **equivalent to the rate of interest payable to the OFA under 3rd party loan, less an amount as may be determined by the Minister of Finance** in respect of such Third Party Loan or a class of such Third Party Loans. This would be the section applicable to for the OFA lending to IESO. In this circumstance, the OFA can charge IESO Ontario's cost plus 25bps; the OFA would then pay the Minister at this rate, less an amount as may be determined by the Minister.

So the short answer is that, under option (ii), the OFA can charge IESO's cost of plus 25 bps, and then the OFA must pay the Minister at the same rate on the funds, less an amount determined by the Minister. The fact that the Minister decides the amount to be deducted gives us flexibility in determining the spread to deduct when paying back the Province.
The only time option (i) comes into play is IF the OFA ever wants to borrow funds from the Minister without lending those funds to third parties.

Hi Mike,

I originally sent this e-mail below to Linda and she thought it looked fine, but she thought I should also run it by you.

As part of putting in place the new credit facility between IESO and the OFA, a new OIC is required for the OFA to borrow from the Province, so the Province may in turn make loans to IESO. As matter of prudence, I am asking is for you to review the rates that the OFA pays to the Province in the OIC are still appropriate. The OIC package must go to the DMO today.

In short, the rates included in the OIC are effectively the same as the existing OIC underpinning the $975 million credit facility between the OFA and IESO. Specifically, section(c)(ii) of the OIC says if the OFA uses the borrowed monies to fund 3rd party loans, then the rate will **be equivalent to rate of interest payable to the OFA under 3rd party loan less an amount as may be determined by the Minister of Finance** in respect of such Third Party Loan or a class of such Third Party Loans.

The OIC also contains a more general borrowing rate. That is, Section (c)(i) says if the OFA simply borrows funds from the Minister (which have not been loaned to a third party), the OFA pays the rate equal to **the 90 day ONT T-Bill yield.** However, for the purposes of this OIC, it is unlikely that this section would ever be used.

Again, both rates above are consistent with existing OICs.

Please let me if these rates look okay.

Thanks,

Sarah

Hi Linda,

As a matter of prudence, I just wanted to check with you on one aspect of the draft OIC for OFA to make loans to IESO under the proposed credit facility in relation to the Fair Hydro Plan. The OIC package will be delivered today to the DMO, but I wanted to confirm with you that the rates that under the Section (c) of the attached OIC are still appropriate (perhaps it is I should be asking Mike?, but since this is IESO related, I wanted to check with you first).

Section (c) deals with the rates the OFA pays to the Minister for any funds it borrows, and is essentially the same as the OFA's existing OIC from 1999. Section (c)(i) says if the OFA simply borrows funds from the Minister (which have not been loaned to a third party), the OFA pays the rate equal to **the 90 day ONT T-Bill yield.** Section(c)(ii) says that if the OFA uses the borrowed monies to fund 3rd party loans, then the rate will **be equivalent to rate of interest payable to the OFA under 3rd party loan less an amount as may be determined by the Minister of Finance** in respect of such Third Party Loan or a class of such Third Party Loans.

When he gets back to his office, and if he is free, could you please let him know that I was looking to please get his attention to take a look at the e-mail. I don't think it would take long for him to attend to; I just want to ensure that a couple of rates look ok in an OIC.

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

dernier taux moins un montant que pourra fixer le ministre des Finances à l'égard d'un tel prêt ou d'une telle catégorie de prêt, jusqu'à la date (non comprise) à laquelle le prêt à un tiers sera remboursé, date à laquelle le taux d'intérêt établi au sous-alinéa (i) s'appliquera de nouveau à cette partie de l'avance;

(iii) dans l'éventualité où les sommes décrites au sous-alinéa (ii), une fois remboursées, seraient ultérieurement utilisées pour le financement de prêts à des tiers, le sous-alinéa (ii) s'appliquera de nouveau dans l'établissement du taux d'intérêt à payer à la province sur la partie de l'avance utilisée à cette fin, et ainsi de suite, jusqu'à ce que l'avance ait été remboursée intégralement à la province;

Hi Anis,
I'm working from home today, as was hoping to get Mike's attention on an e-mail that I sent to him below. I just IM'd him, but see that his status is inactive. This is fairly time sensitive, as this relates to a package that must go to the DMO today.
When he gets back to his office, and if he is free, could you please let him know that I was looking to please get his attention to take a look at the e-mail. I don't think it would take long for him to attend to; I just want to ensure that a couple of rates look ok in an OIC.
Thanks,
Sarah

Hi Mike,
I originally sent this e-mail below to Linda and she thought it looked fine, but she thought I should also run it by you.
As part of putting in place the new credit facility between IESO and the OFA, a new OIC is required for the OFA to borrow from the Province, so the Province may in turn make loans to IESO. As matter of prudence, I am asking is for you to review the rates that the OFA pays to the Province in the OIC are still appropriate. The OIC package must go to the DMO today.
In short, the rates included in the OIC are effectively the same as the existing OIC underpinning the $975 million credit facility between the OFA and IESO. Specifically, section(c)(ii) of the OIC says if the OFA uses the borrowed monies to fund 3rd party loans, then the rate will **be equivalent to rate of interest payable to the OFA under 3rd party loan less an amount as may be determined by the Minister of Finance** in respect of such Third Party Loan or a class of such Third Party Loans.
The OIC also contains a more general borrowing rate. That is, Section (c)(i) says if the OFA simply borrows funds from the Minister (which have not been loaned to a third party), the OFA pays the rate equal to **the 90 day ONT T-Bill yield.** However, for the purposes of this OIC, it is unlikely that this section would ever be used.
Again, both rates above are consistent with existing OICs.
Please let me if these rates look okay.
Thanks,
Sarah

Subject: Question - OIC for new IESO Credit Facility

Hi Linda,

As a matter of prudence, I just wanted to check with you on one aspect of the draft OIC for OFA to make loans to IESO under the proposed credit facility in relation to the Fair Hydro Plan. The OIC package will be delivered today to the DMO, but I wanted to confirm with you that the rates that under the Section (c) of the attached OIC are still appropriate (perhaps it is I should be asking Mike?, but since this is IESO related, I wanted to check with you first).

Section (c) deals with the rates the OFA pays to the Minister for any funds it borrows, and is essentially the same as the OFA's existing OIC from 1999. Section (c)(i) says if the OFA simply borrows funds from the Minister (which have not been loaned to a third party), the OFA pays the rate equal to **the 90 day ONT T-Bill yield.** Section(c)(ii) says that if the OFA uses the borrowed monies to fund 3rd party loans, then the rate will **be equivalent to rate of interest payable to the OFA under 3rd party loan less an amount as may be determined by the Minister of Finance** in respect of such Third Party Loan or a class of such Third Party Loans.

Please let me know your thoughts.

Thanks,

Sarah

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Three Billion Five Hundred Million Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Three Billion Five Hundred Million Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by June 30, 2053;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

ATTENDU QUE le ministre des Finances peut, en vertu du paragraphe 22 (1) de la *Loi de 1993 sur le plan d'investissement* (la « Loi »), acheter des valeurs mobilières des personnes morales créées en vertu du paragraphe 2 (1) de la Loi ou leur consentir des prêts selon les montants, aux moments et aux conditions que le lieutenant-gouverneur en conseil estime opportuns;

ATTENDU QUE l'Office ontarien de financement (l'« OOF ») est une personne morale créée en vertu du paragraphe 2 (1) de la Loi;

ATTENDU QUE, conformément au paragraphe 6 (3) de la Loi, le pouvoir qu'ont les personnes morales créées en vertu du paragraphe 2 (1) de la Loi de contracter des emprunts et d'émettre des valeurs mobilières, entre autres, ne peut être exercé qu'aux termes d'un règlement administratif approuvé par le ministre des Finances;

ATTENDU QUE l'OOF souhaite emprunter jusqu'à concurrence de trois milliards cinq cent millions de dollars en monnaie légale du Canada du ministre des Finances et qu'il a été autorisé à le faire par un règlement administratif d'emprunt approuvé conformément à la Loi;

PAR CONSÉQUENT :

en vertu du paragraphe 22 (1) de la Loi, le ministre des Finances est autorisé à prêter un montant maximal de trois milliards cinq cent millions de dollars en monnaie légale du Canada à l'OOF, aux conditions suivantes :

a) le prêt peut être consenti selon les montants et aux moments qui conviennent à l'OOF;

b) le remboursement des avances consenties au titre du prêt, plus les intérêts courus, peut à tout moment être effectué en totalité ou en partie, pourvu que le prêt et les intérêts courus soient entièrement remboursés au plus tard le 30 juin 2053;

c) chaque avance (« avance ») faite au titre du prêt autorisé par les présentes portera intérêt au taux est fixé comme suit :

(i) de la date où elle a été faite jusqu'à la date (non comprise) de son remboursement, l'avance portera intérêt à un taux annuel équivalant au rendement gagné sur des bons du Trésor de la province de l'Ontario de quatre-vingt-dix jours à la date précédant la date de l'avance fixée par la province, pourvu que ce taux d'intérêt soit rajusté le dernier jour de chaque période de quatre-vingt-dix jours (« date de rajustement ») selon le rendement gagné sur de tels bons du Trésor immédiatement avant la date de rajustement pour une période de quatre-vingt-dix jours décidée par la province, si l'avance est impayée pendant plus de quatre-vingt-dix jours;

(ii) dans l'éventualité où l'OOF se servirait de sommes comprises dans une avance pour financer des prêts à des tiers, le taux d'intérêt à payer par l'OOF à la province sur la partie de l'avance ainsi utilisée sera rajusté à la date à laquelle la partie de l'avance sera utilisée pour le financement du prêt à un tiers de façon que le taux d'intérêt annuel à payer par l'OOF sur de telles sommes soit équivalent à ce

dernier taux moins un montant que pourra fixer le ministre des Finances à l'égard d'un tel prêt ou d'une telle catégorie de prêt, jusqu'à la date (non comprise) à laquelle le prêt à un tiers sera remboursé, date à laquelle le taux d'intérêt établi au sous-alinéa (i) s'appliquera de nouveau à cette partie de l'avance;

(iii) dans l'éventualité où les sommes décrites au sous-alinéa (ii), une fois remboursées, seraient ultérieurement utilisées pour le financement de prêts à des tiers, le sous-alinéa (ii) s'appliquera de nouveau dans l'établissement du taux d'intérêt à payer à la province sur la partie de l'avance utilisée à cette fin, et ainsi de suite, jusqu'à ce que l'avance ait été remboursée intégralement à la province;

(iv) malgré les sous-alinéas (ii) et (iii), dans l'éventualité où aucun intérêt ne serait payable à l'OOF au titre d'un prêt à un tiers, aucun intérêt ne sera à payer par l'OOF sur la partie de l'avance ainsi utilisée et dans la mesure où les conditions du prêt à un tiers prévoient le report du paiement d'intérêts courus pour une période, le paiement d'intérêts au titre d'une avance ou d'une partie d'une avance sera également reporté pour une période d'égale durée;

d) l'intérêt payable relativement à toute période de moins d'un an sera calculé en fonction du nombre de jours réellement compris dans cette période, par rapport à une année comptant 365 jours;

e) par dérogation à l'alinéa a) ci-dessus, l'intérêt sur toute partie d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers est calculé comme il est indiqué ci-dessus, mais cet intérêt devient payable uniquement dans la mesure où l'OOF reçoit un paiement d'intérêts au titre du prêt à un tiers;

f) par dérogation à l'alinéa b) ci-dessus, toute partie du capital d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers devient payable uniquement dans la mesure où l'OOF reçoit un remboursement du capital au titre du prêt à un tiers

g) le prêt autorisé en vertu des présentes sera attesté par un billet à ordre.

Hi Mike,
I originally sent this e-mail below to Linda and she thought it looked fine, but she thought I should also run it by you.
As part of putting in place the new credit facility between IESO and the OFA, a new OIC is required for the OFA to borrow from the Province, so the Province may in turn make loans to IESO. As matter of prudence, I am asking is for you to review the rates that the OFA pays to the Province in the OIC are still appropriate. The OIC package must go to the DMO today.
In short, the rates included in the OIC are effectively the same as the existing OIC underpinning the $975 million credit facility between the OFA and IESO. Specifically, section(c)(ii) of the OIC says if the OFA uses the borrowed monies to fund 3rd party loans, then the rate will **be equivalent to rate of interest payable to the OFA under 3rd party loan less an amount as may be determined by the Minister of Finance** in respect of such Third Party Loan or a class of such Third Party Loans.
The OIC also contains a more general borrowing rate. That is, Section (c)(i) says if the OFA simply borrows funds from the Minister (which have not been loaned to a third party), the OFA pays the rate equal to **the 90 day ONT T-Bill yield.** However, for the purposes of this OIC, it is unlikely that this section would ever be used.
Again, both rates above are consistent with existing OICs.
Please let me if these rates look okay.
Thanks,
Sarah

Subject: Question - OIC for new IESO Credit Facility
Hi Linda,
As a matter of prudence, I just wanted to check with you on one aspect of the draft OIC for OFA to make loans to IESO under the proposed credit facility in relation to the Fair Hydro Plan. The OIC package will be delivered today to the DMO, but I wanted to confirm with you that the rates that under the Section (c) of the attached OIC are still appropriate (perhaps it is I should be asking Mike?, but since this is IESO related, I wanted to check with you first).
Section (c) deals with the rates the OFA pays to the Minister for any funds it borrows, and is essentially the same as the OFA's existing OIC from 1999. Section (c)(i) says if the OFA simply borrows funds from the Minister (which have not been loaned to a third party), the OFA pays the rate equal to **the 90 day ONT T-Bill yield.** Section(c)(ii) says that if the OFA uses the borrowed monies to fund 3rd party loans, then the rate will **be equivalent to rate of interest payable to the OFA under 3rd party loan less an amount as may be determined by the Minister of Finance** in respect of such Third Party Loan or a class of such Third Party Loans.

Please let me know your thoughts.

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Three Billion Five Hundred Million Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Three Billion Five Hundred Million Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by June 30, 2053;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

Subject: RE: Question - OIC for new IESO Credit Facility

Hi Mike,

The OIC is drafted using wording that is similar to the wording already being used in the existing OICs where the OFA borrows money from the Minister (i.e. underpinning college loans, existing IESO-OFA Credit Facility, etc.).

The OIC permits the OFA a couple of options:

(i) the OFA simply borrows funds from the Minister without lending to 3rd parties. In that case, the OFA would pay to the Minister at a rate equal to **the 90 day ONT T-Bill yield, reset every 90 days.** For **the purpose of this OIC (**that is, for the OFA to lend funds to IESO) **this provision would not be used**.

(ii) the OFA borrows funds from the Minister and then lends those funds to 3rd parties. In this case, the OFA would pay the Minister at the rate **equivalent to the rate of interest payable to the OFA under 3rd party loan, less an amount as may be determined by the Minister of Finance** in respect of such Third Party Loan or a class of such Third Party Loans. This would be the section applicable to for the OFA lending to IESO. In this circumstance, the OFA can charge IESO Ontario's cost plus 25bps; the OFA would then pay the Minister at this rate, less an amount as may be determined by the Minister.

So the short answer is that, under option (ii), the OFA can charge IESO's cost of plus 25 bps, and then the OFA must pay the Minister at the same rate on the funds, less an amount determined by the Minister. The fact that the Minister decides the amount to be deducted gives us flexibility in determining the spread to deduct when paying back the Province.

The only time option (i) comes into play is IF the OFA ever wants to borrow funds from the Minister without lending those funds to third parties.

Hi Sarah:

Are you saying the wording in the OIC is general and that we can charge IESO Ontario's cost plus 25 bps separately?

Thanks, Mike

Hi Sarah,

One of our investment managers has requested we sign a trading annex to allow them to trade futures in our account. Would someone in documentation be able to look at the Annex and see if the provisions are standard or if anything stands out?

Mara is reviewing the document as well and has a few questions. I understand your team works with a lawyer at MOF for matters similar to these; can you share their contact information?

Thanks,
Kevin

Trading Annex to ~~IMA~~the Investment Management Agreement

Reference is made to the Investment Management Agreement ("**IMA**") between Ontario Power Generation Inc. ("**OPG**"), Ontario Financing Authority ("**OFA**", together with OPG, the "**Client**"), and BlackRock Asset Management Canada Limited (the "**Manager**"), dated October 26, 2016.

If there is any conflict between any term in this trading annex and the IMA, the relevant term in the IMA is to prevail.

Capitalised terms used, but not otherwise defined, in this trading annex will have the meaning given to such terms in the IMA, whether directly or by reference.

1. **Trading Agreements**

1.1 *Authorization*. ~~Reference is made to the Investment Management Agreement between Ontario Power Generation Inc. ("**OPG**"), Ontario Financing Authority ("**OFA**"), and BlackRock Asset Management Canada Limited (the "**Manager**"), dated October 26, 2016.~~ Subject to the Mandate, and in accordance with the IMA, ~~Investment Guidelines,~~ to the extent the Manager is permitted to transact in a particular investment product (each such transaction, an "**Authorized Transaction**" and each such product, an "**Authorized Product**"), ~~OPG and OFA~~ the Client hereby authorizes and appoints the Manager to act as agent for and on behalf of ~~OPG~~ the Client and in the name of ~~OPG~~the Client, to:

(i) *Enter into Trading Agreements* negotiate, enter into and amend any trading agreement, including without limitation any collateral agreement or arrangement (whether by title transfer or security interest), for Authorized Products determined by BlackRock to be necessary or advisable, including any service provider agreements, including but not limited to agreements to confirm FX and Futures transactions, ancillary agreements for trading derivatives (including agreements with Markit, ICELink and/or Triana) , trading platform and exchange agreements, clearinghouse agreements or similar types of agreements to which the Client is a party (collectively, "**Trading Agreements**");

(ii) *Effect Transactions in Authorized Products* purchase, sell, settle, close-out and generally deal in any manner with any and all Authorized Products, perform any and all obligations and exercise any and all rights under the Trading Agreements, and sign, deliver, give and receive instructions in respect of payments and transfers for Authorized Products; and

(iii) *Open Accounts* establish one or more accounts in the name of the Trust, with such brokers or dealers as the Manager deems advisable, for the purpose of trading Authorized Products, and to complete and execute all account opening documents and agreements, and provide relevant "know your customer" and other information regarding ~~OPG~~the Client and its account(s), as required or advisable.

1.2 *Aggregation of Orders and "Block" Execution*. ~~OPG~~The Client acknowledges and agrees that, subject to the ~~[Investment Guidelines]~~Mandate and consistent with its ~~[~~fiduciary duties to ~~OPG~~the Client and with its internal policies and procedures regarding fairly and equitably allocating investment opportunities among its clients, the Manager is authorized and permitted in its discretion to aggregate or bunch orders for ~~OPG~~the Client with similar orders for other clients of the Manager, and/or to execute single or bunched orders as "block" transactions, which may be subject to different trading or regulatory treatment than those applicable to smaller "non-block" transactions, and where applicable, to allocate such bunched or block orders among accounts following execution.

Commented [ST1]: BlackRock has not sent these referenced documents for review. OPG to follow-up.

~~1.3 *Delegation of Trade Execution*. OPG acknowledges and agrees that the Manager may delegate trade execution and other functions under or in connection with any Trading Agreement to other entities directly or indirectly wholly owned by BlackRock, Inc.; *provided* that any such delegation shall in no way relieve the Manager of any of its obligations hereunder.~~

Commented [EW2]: OPG asked BlackRock to explain the need to include this provision in the NF version but not the PF version. OPG pointed out that the equivalent provision they are depending on for the PF version exists in the NF version (section 5.3).

OPG suggests to delete this provision and put it back to BlackRock to explain the need to include this.

1.43 *Trading Agreement Disclosures*. ~~OPG~~The Client represents that it has read, understands and acknowledges the Trading Agreement Disclosures in Schedule A hereto.

2. **~~OPG~~ Client Representations for Trading Agreements**

2.1 Trading Agreements typically require the Manager to provide certain representations and warranties on behalf of ~~OPG~~the Client. In order to enable the Manager to make such representations on ~~OPG~~the Client's behalf, ~~OPG~~the Client acknowledges, represents, warrants and agrees that:

(ii) it owns and invests, on a discretionary basis, at least USD 100 million in securities (excluding securities issued by its affiliates);

(iii) subject to the Investment Mandate, assets it has provided to the Manager for management may be transferred by the Manager as collateral or margin free and clear of any lien, pledge, claim, charge or encumbrance granted directly by it; and

The definition is very broad and could capture insurance company accounts, pension trusts, banks and non-U.S. enterprises. While such entities may be excluded or exempt from substantive regulation (for example, by being formed, operated and offered completely outside of the U.S.), such entities may technically fall under the Commodity Pool definition.

Schedule A Trading Agreement Disclosures

Form of Trading Agreements.

To the extent ~~OPG~~the Client has authorized the Manager to enter into one or more Trading Agreements, unless otherwise agreed with ~~OPG~~the Client, the Manager will typically add ~~OPG~~the Client to "umbrella" forms of Trading Agreements that it has negotiated on behalf of its clients generally by identifying the Client on a schedule to such Trading Agreement. Such agreements may be amended from time to time at the Manager's discretion.

Such agreements typically include certain representations, warranties, waivers, indemnities and other provisions addressing, among other things, governing law, jurisdiction, waiver of trial by jury, arbitration and waiver of sovereign immunity. Unless otherwise agreed with ~~OPG~~the Client, as agent for ~~OPG~~the Client under the Trading Agreements the Manager expects to, among other things:

(i) consent to the use of New York or English law as the governing law of the agreement;
(ii) consent to the jurisdiction of the courts of New York State and federal courts located in New York City, or the courts of England;
(iii) agree to waive rights to trial by jury;
(iv) agree to binding arbitration; and
(v) agree to a waiver of certain immunities (including sovereign immunity).

Trade Reporting

In the event that an authorized product is subject to trade reporting in a particular jurisdiction, ~~OPG~~the Client understands and acknowledges that ~~OPG~~the Client's counterparties to such trades, or other market participants such as clearinghouses, trading platforms or affirmation platforms, may be required to report details of such trades, including, without limitation, disclosing trade information to a registered "swap data repository" or "trade repository" and/or to relevant regulators, and that such disclosures could result in certain anonymous transaction and pricing data becoming available to the public.

Select Trading Venues and Intermediaries

The Manager will select trading and clearing venues, counterparties and intermediaries and make such elections or determinations regarding the manner in which authorized transactions are executed as the Manager believes is advisable or necessary under applicable law. ~~OPG~~the Client understands that the use of certain trading venues, counterparties or intermediaries may subject ~~OPG~~the Client to certain rules or jurisdictions that it may not otherwise have been subject.

IESO_OFA FEP 2017 Credit Letter v3 draft.docx

Hi Opal,

The **current** $975 OFA-IESO credit facility provides for advances to be repaid no earlier than 28 days and no later than 95 days. Amendment number 9 (attached) contains the form of borrowing notice as Schedule 1 (which is page 5 of the .pdf); please let me know if you would like Will to print out the borrowing notice for you.

Per IESO's attached requests, they are requesting minimum borrowing period on the existing credit facility to be **reduced from 28 days to 7 days**.

That means that for the new $2 billion credit facility, as well as the existing facility (which will also be reduced from $975 million to $475 million), **the time period for advances to be repaid will be no earlier than 7 days and no later than 95 days.**

Thanks,

Sarah

Hi Sarah,

Mike had 2 questions.

1. What is the min and max time for borrowing notices in r the new IESO FHP agreement, as well as under the amending agreement? I believe there are also election notices under the agreement as well, so out of an abundance of caution, lets provide that as well.

2. What's the status of being able to charge Metrolinx for work already done so far re: fuel hedging. I think this is something that was being worked on – I thought by Siva- but asking in case you know.

Thanks,

Opal

Re: **IESO Credit Requirements for the 2017 Fair Hydro Program**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the Fair Hydro program (FHP) to reduce electricity prices for consumers in the province. Legislation is expected to be introduced this month for the program. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that to support the IESO's role in implementation it will need greater credit liquidity than currently exists.

The existing credit facility between the IESO and the Ontario Financing Authority's (OFA) is $975 million. The IESO proposes that an additional facility/commitment be provided in the amount of $1,500 million. This would enable the IESO to provide interim financing for the FHP's global adjustment smoothing for a period of several months if needed.

We suggest the OFA's current $975 million agreement and the new separate (or co-mingled) FHP agreement consider the following key provisions:

- FHP: 5 year term to align with the FHP's deferral of electricity prices period plus a few months of contingency (i.e. September 30, 2022);
- FHP: interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 percent per annum;
- FHP: drawings to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers;
- $975 million: draws to permit for FHP purposes; and
- $975 million: a reduction in the 28 days minimum draw for the existing facility to a minimum of 7 days to a maximum of 95 days;

Should the IESO find that there is consistent usage of these facilities we will contact the OFA

for further arrangements.

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facility(ies) and we will provide such evidence for the OFA's records.

We appreciate the OFA's continue support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Hi Sarah,

Mike had 2 questions.

1. What is the min and max time for borrowing notices in r the new IESO FHP agreement, as well as under the amending agreement? I believe there are also election notices under the agreement as well, so out of an abundance of caution, lets provide that as well.

2. What's the status of being able to charge Metrolinx for work already done so far re: fuel hedging. I think this is something that was being worked on – I thought by Siva- but asking in case you know.

Thanks,

Re: **IESO Credit Requirements for the 2017 Fair Hydro Program**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the Fair Hydro program (FHP) to reduce electricity prices for consumers in the province. Legislation is expected to be introduced this month for the program. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that to support the IESO's role in implementation it will need greater credit liquidity than currently exists.

The existing credit facility between the IESO and the Ontario Financing Authority's (OFA) is $975 million. The IESO proposes that an additional facility/commitment be provided in the amount of $1,500 million. This would enable the IESO to provide interim financing for the FHP's global adjustment smoothing for a period of several months if needed.

We suggest the OFA's current $975 million agreement and the new separate (or co-mingled) FHP agreement consider the following key provisions:

- FHP: 5 year term to align with the FHP's deferral of electricity prices period plus a few months of contingency (i.e. September 30, 2022);
- FHP: interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 percent per annum;
- FHP: drawings to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers;
- $975 million: draws to permit for FHP purposes; and
- $975 million: a reduction in the 28 days minimum draw for the existing facility to a minimum of 7 days to a maximum of 95 days;

Should the IESO find that there is consistent usage of these facilities we will contact the OFA

for further arrangements.

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facility(ies) and we will provide such evidence for the OFA's records.

We appreciate the OFA's continue support and look forward to working with you. Please contact me should you need anything further.

Re: **IESO Credit Requirements for the 2017 Fair Hydro Program**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the Fair Hydro program (FHP) to reduce electricity prices for consumers in the province. Legislation is expected to be introduced this month for the program. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that to support the IESO's role in implementation it will need greater credit liquidity than currently exists.

The existing credit facility between the IESO and the Ontario Financing Authority's (OFA) is $975 million. The IESO proposes that an additional facility/commitment be provided in the amount of $1,500 million. This would enable the IESO to provide interim financing for the FHP's global adjustment smoothing for a period of several months if needed.

We suggest the OFA's current $975 million agreement and the new separate (or co-mingled) FHP agreement consider the following key provisions:

- FHP: 5 year term to align with the FHP's deferral of electricity prices period plus a few months of contingency (i.e. September 30, 2022);
- FHP: interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 percent per annum;
- FHP: drawings to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers;
- $975 million: draws to permit for FHP purposes; and
- $975 million: a reduction in the 28 days minimum draw for the existing facility to a minimum of 7 days to a maximum of 95 days;

Should the IESO find that there is consistent usage of these facilities we will contact the OFA

for further arrangements.

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facility(ies) and we will provide such evidence for the OFA's records.

We appreciate the OFA's continue support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

DRAFT

Hi Elizabeth,
Mike was asking Opal the second question below on Metrolinx cost recovery. I know that you've helped circulate the Metrolinx cost recovery spreadsheet before (on Siva's behalf to CMD folks?)– would you know where this stands?
Thanks,
Sarah

Hi Sarah,
Mike had 2 questions.
1. What is the min and max time for borrowing notices in the IESO agreements? I believe there are also election notices under the agreement as well, so out of an abundance of caution, lets provide that as well.
2. What's the status of being able to charge Metrolinx for work already done so far re: fuel hedging. I think this is something that was being worked on – I thought by Siva- but asking in case you know.
Thanks,
Opal

IESO_OFA FEP 2017 Credit Letter v3 draft.docx

Hi Opal,

The **current** $975 OFA-IESO credit facility provides for advances to be repaid no earlier than 28 days and no later than 95 days. Amendment number 9 (attached) contains the form of borrowing notice as Schedule 1 (which is page 5 of the .pdf); please let me know if you would like Will to print out the borrowing notice for you.

Per IESO's attached requests, they are requesting minimum borrowing period on the existing credit facility to be **reduced from 28 days to 7 days**.

That means that for the new $2 billion credit facility, as well as the existing facility (which will also be reduced from $975 million to $475 million), **the time period for advances to be repaid will be no earlier than 7 days and no later than 95 days.**

Thanks,

Sarah

Re: **IESO Credit Requirements for the 2017 Fair Hydro Program**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the Fair Hydro program (FHP) to reduce electricity prices for consumers in the province. Legislation is expected to be introduced this month for the program. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that to support the IESO's role in implementation it will need greater credit liquidity than currently exists.

The existing credit facility between the IESO and the Ontario Financing Authority's (OFA) is $975 million. The IESO proposes that an additional facility/commitment be provided in the amount of $1,500 million. This would enable the IESO to provide interim financing for the FHP's global adjustment smoothing for a period of several months if needed.

We suggest the OFA's current $975 million agreement and the new separate (or co-mingled) FHP agreement consider the following key provisions:

- FHP: 5 year term to align with the FHP's deferral of electricity prices period plus a few months of contingency (i.e. September 30, 2022);
- FHP: interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 percent per annum;
- FHP: drawings to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers;
- $975 million: draws to permit for FHP purposes; and
- $975 million: a reduction in the 28 days minimum draw for the existing facility to a minimum of 7 days to a maximum of 95 days;

Should the IESO find that there is consistent usage of these facilities we will contact the OFA

for further arrangements.

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facility(ies) and we will provide such evidence for the OFA's records.

We appreciate the OFA's continue support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

DRAFT

Hi Sarah

Carlos says they definitely won't be getting even $1. Their benefit is internal knowledge building in advance of what is going on so they may have a better opportunity in getting business from the spv itself.

IESO shall make each such payment in Canadian Dollars

Section 2.6 Evidence of Indebtedness.

IESO authorizes OEFC to open and maintain records evidencing IESO's obligations under this Agreement and to record therein all advances, interest rates, accrued interest, payments of principal and interest and the aggregate principal and accrued interest outstanding from time to time under this Agreement. IESO agrees that the records kept by the OEFC in the absence of manifest error, shall be prima facie evidence of the indebtedness of IESO and the matters recorded provided that the failure of the OEFC to record or correctly record any amount or date shall not affect the obligation of IESO to repay the aggregate principal amounts and accrued interest thereon owing under this Agreement.

ARTICLE 3
ADVANCES AND INTEREST

Section 3.1 Advances.

OEFC agrees, on the terms and conditions of this Agreement, to make Advances to IESO under the Credit Facility on the first Business Day of each month from and including May 3, 2010 to and including April 1, 2013.

Section 3.2 Procedure for Advances.

(1) Each Advance shall be made subject to four Business Day's prior notice given not later than 10:00 a.m. (Toronto time) by IESO to OEFC. Each notice of an Advance (a **"Borrowing Notice"**) shall be substantially in the form of Schedule 1, shall be irrevocable and binding on IESO and shall specify (a) the requested date of the Advance (the **"Advance Date"**), and (b) the principal amount of the Advance which shall be in a minimum amount of $1,000,000.00 (unless otherwise agreed to by OEFC), and in increments of $1,000,000.00 (or such other increments as may be agreed to by OEFC). OEFC will make the principal amount of each Advance available to IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, IESO shall execute and deliver to OEFC a grid promissory note (the "Note") in respect of Advances substantially in the form of Schedule 2. IESO authorizes OEFC to record on the grid promissory note (a) the date and amount of each Advance; (b) the applicable rate of interest for each Advance; (c) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (d) the outstanding principal amount of the grid promissory note. Such notations, in the absence of manifest error, shall be prima facie evidence of the such advances and repayments; provided that the failure of OEFC to record any amount, rate or date shall not affect the obligation of IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

(3) In the event that funds are not received by IESO on the Advance Date, IESO and OEFC agree to take all steps necessary to amend the date of the Advance, without amending the Interest Rate that was agreed to with respect to such Advance.

(4) The Note shall at all times rank *pari passu* with all other unsubordinated Indebtedness of IESO, subject to the existence of any Permitted Liens of IESO.

(5) All amounts owing in respect of the Advances shall be paid without exercising any right or set off or counterclaim by IESO.

Section 3.3 Interest on Advances.

(1) IESO shall pay interest on the principal amount of each Advance then outstanding in accordance with this Section 3.3 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the first Interest Payment Date following the date of the Advance, at the rate equal to the Interest Rate, and shall be payable on the Interest Payment Date for such Advance. The amount of interest payable on an Advance will be calculated by OEFC by dividing the Interest Rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance then outstanding and further multiplying the result by the number of days in the period from the date of the Advance to the Interest Payment Date.

(i) If an Advance is outstanding on an Interest Payment Date, the interest rate applicable to such Advance shall be reset automatically by OEFC on that date (the "Interest Reset Date"), at the Interest Rate determined as of the Interest Reset Date.

(ii) For each Advance, OEFC shall notify IESO via email of the Interest Rate on the Advance Date and on each Interest Reset Date.

(3) Upon four Business Days prior notice by IESO, OEFC may at its discretion agree to capitalize the interest on any Advance on an Interest Payment Date, which shall be determined in the following manner: each such interest payment due on the Interest Payment Date shall be deemed to form part of the principal amount of the outstanding Advance and interest shall accrue and be payable thereon in accordance with Section 3.3(2). OEFC shall record on the grid forming part of the note: (a) the date and amount of the new Advance; (b) the applicable rate of interest for the Advance; and (c) the outstanding principal amount of the grid promissory note.

(4) Interest shall accrue on the principal amount of each Advance at the Interest Rate as determined from time to time, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default.

Section 3.4 Computations of Interest.

(1) All computations of interest shall be made by OEFC taking into account the actual number of days (including the first day but excluding the last day) occurring in the period for which such interest is payable on the basis of a year of 365 days or 366 days, as the case may be.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any

period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

Section 3.5 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, IESO shall not be obliged to make any payments of interest or other amounts payable to OEFC hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by OEFC of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada), as amended from time to time).

(2) In the event that any such payments are limited or prohibited as provided in Section 3.5(1), OEFC shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 3.6 Conditions Precedent

The obligation of OEFC to make the Advances pursuant to Section 2.1 is subject to the following conditions being met to OEFC's satisfaction at the time of making each Advance:

(a) that the representations and warranties of IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing and no event or condition has occurred, which, with the lapse of time or the giving of notice or both would constitute an Event of Default;

(c) that there shall, in the reasonable opinion of OEFC, have been no material adverse change in the financial condition of IESO; and

(d) that OEFC has received such other documentation which it has reasonably requested to ensure that IESO is in compliance with the terms and conditions of this Agreement, including certified true copies of any necessary resolutions including resolutions authorizing the borrowing and authorized signatories.

Section 4.5 Insurance.

IESO will cause all property owned by IESO or any Material Subsidiary which is of a character usually insured by companies operating similar businesses to be insured and kept insured with reputable insurers (which may include associations or other organizations for mutual or reciprocal insurance) against loss or damage by fire or other hazards or risks of the nature and to the extent that such property is usually insured by companies operating similar businesses.

Subject to Sections 3.6 and 5.2, IESO shall repay each Advance on the applicable Repayment Date or Adjusted Repayment Date, as the case may be and in any event, shall repay all Advances Outstanding, together with all accrued interest and all other amounts owing hereunder in full on or before April 30, 2013.

Commented [KR11]: As above is Mandatory repayment the appropriate concept here. I would assume since the Facility is paying out an existing facility that it is anticipated that there will be a balance outstanding over a significant period.

Section 2.5 Prepayments.

(1) IESO is not entitled to prepay any part of the Advances Outstanding or the interest accrued thereon without the prior written consent of OEFC.

Section 2.6 Advances and Payments under this Agreement.

(1) OEFC shall make Advances to IESO under this Agreement to the order of IESO by wire transfer of immediately available funds in accordance with wire transfer instructions given by IESO to OEFC from time to time, or in such other manner as IESO may specify to OEFC from time to time.

(2) IESO shall make any payment required hereunder to be made by it to OEFC, to or to the order of OEFC, by wire transfer of immediately available funds in accordance with wire

transfer instruction given by OEFC to IESO from time to time, or in such other manner as OEFC may specify to IESO from time to time. IESO shall make each such payment in Canadian Dollars

ADVANCES AND INTEREST

Section 3.1 Advances.

OEFC agrees, on the terms and conditions of this Agreement, to make Advances to IESO under the Credit -Facility on the first ~~any~~ Business Day of any month up to and including ~~prior to~~ April 1 ,2013.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(3), each Advance shall be made ~~on~~subject to four Business Day's prior notice given not later than 10:00 a.m. (Toronto time) by IESO to OEFC. Each notice of an Advance (a **"Borrowing Notice"**) shall be substantially in the form of Schedule 1, shall be irrevocable and binding on IESO and shall specify (a) the requested date of the Advance (the **"Advance Date"**), and (b) the principal amount of the Advance which shall be in a minimum amount of $1,000,000.00 (unless otherwise agreed to by OEFC), and in increments of $1,000,000.00 (or such other increments as may be agreed to by OEFC), (c) the Repayment Date of the Advance, which shall be not later than 1 month~~, 2 months or 3 months~~ after the requested date of the Advance, and (d) the Interest Payment Date. OEFC will make the principal amount of each Advance available to IESO in accordance with Article 2.

Issue of Notes

(2) On or before the date of the first Advance hereunder, IESO shall execute and deliver to OEFC an executed grid promissory note (the "Note") in the principal amount of the Commitment ~~respect of Advances~~ substantially in the form of Schedule 3. IESO authorizes OEFC to record on the grid promissory note (a) the date and amount of each Advance, including any Advance all or a portion of which is continued by election under Section 3.3; (b) the applicable rate of interest for each Advance; (c) the Repayment Date of each Advance; (d) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (e) the outstanding principal amount of the grid promissory note. Such notations, in the absence of manifest error, shall be prima facie evidence of the such advances and repayments; provided that the failure of OEFC to record any amount, rate or date shall not affect the obligation of IESO to pay the

Commented [LS12]: See added language in definition. The advance will only be the first of each month.

Commented [KR13]:

Commented [LS14]: The rate set for these loans is one month so the repayment date is one month. The amount could remain outstanding for the term of the facility but they will have to elect to roll the amount each month. Interest needs to be paid on the amount monthly. IESO wants the ability to repay amounts monthly so this is why it is set up this way.

Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

(3) In the event that funds are not received by IESO on the Advance Date, IESO and OEFC agree to take all steps necessary to amend the date of the Advance and the applicable Repayment Date, without amending the interest rate that was agreed to with respect to such Advance.

(4) The Note shall at all times rank *pari passu* with all other unsubordinated Indebtedness of IESO, subject to the existence of any Permitted Liens of IESO.

(5) All amounts owing in respect of the Advances shall be paid without exercising any right or set off or counterclaim by IESO.

Commented [LS15]: See question above

Commented [PR16]: This is covered in section 3.4.

Commented [PR17]: Purpose of this provision is unclear. Would IESO ever have a right of set off against OEFC, i.e. would OEFC ever owe a debt to IESO? Deleted text also appears unnecessary.

Commented [AP18]: Included set off provision "just in case" mstances should change at some furutre date.

Section 3.3 Elections Regarding Advances.

(1) IESO may elect to continue all or a portion of the principal amount of any Advance for a further period of 1 month, ~~2 months or 3 months~~ beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each election to continue an Advance for a further period or to defer payment of interest by converting into an new Advance shall be made four Business Day's prior notice given, in each case, not later than 10:00 a.m. (Toronto time) by IESO to OEFC. Each such notice (an **"Election Notice"**) shall be given substantially in the form of Schedule 1 and shall be irrevocable and binding upon IESO. If IESO fails to deliver an Election Notice to OEFC for any Advance as provided herein, such Advance shall be repayable in the applicable Repayment Date.

(3) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

Section 3.4 Interest on Advances.

(1) IESO shall pay interest on the principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual

Commented [LS19]: Interest will be paid monthly. If IESO wants to roll interest, it becomes part of the principal outstanding.

Commented [LS20]:

rate equal to the Province's cost of funds for borrowings with a similar term as determined by OEFC plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by OEFC by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance. If any Repayment Date is not a Business Day, such Repayment Date will be adjusted to the following Business Day, (the "Adjusted Repayment Date"), and notwithstanding Section 1.5 of this Agreement, additional interest shall accrue daily on the principal amount of each Advance at the interest rate applicable, both before and after the date such principal amount or interest thereron becomes due and both before and after Default, and shall be payable together with the principal amount of the Advance on the Adjusted Repayment Date.

OEFC shall notify IESO of the ~~Applicable Spread and Base Rate~~ Interest Rate in writing by no later than 2:00 p.m. the day ~~before~~ of the Advance Date

Commented [AP21]: When and how to you intend to advise IESO of interest rate?

Interest shall accrue daily on the principal amount of each Note from and including the date of the Note to but excluding the Repayment Date of such Advance, at an annual rate equal to the aggregate of the ~~Base~~Interest Rate and the Applicable Spread (both before and after the date such principal amount or interest thereon becomes due and both before and after Default) and shall be payable ~~in equal semi-annual installments~~ monthly on the Interest Payment Dates. Notwithstanding the foregoing, whenever it is necessary to compute interest in respect of the Notes for a period of less than one full year, other than such equal semi-annual installments, such interest shall be calculated on the basis of the actual number of days elapsed in a year of 365 days or 366 days, as the case may be.

(3) If IESO elects to continue an Advance in accordance with Section 3.3(2), OEFC shall determine the interest rate applicable ~~after~~ on the original Repayments Date of the Advance and endorse the said rate on the grid forming part of IESO promissory note in respect of Advances held by it.

Section 3.5 Computations of Interest.

(1) All computations of interest shall be made by OEFC taking into account the actual number of days (including the first day but excluding the last day) occurring in the period for which such interest is payable on the basis of a year of 365 days or 366 days, as the case may be.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

Section 3.6 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, IESO shall not be obliged to make any payments of interest or other amounts payable to OEFC hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by OEFC of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada), as amended from time to time).

(2) In the event that any such payments are limited or prohibited as provided in Section 3.6(1), OEFC shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 3.7 Conditions Precedent

The obligation of OEFC to make the Advances pursuant to Section 2.1 is subject to the following conditions being met to OEFC's satisfaction at the time of making each Advance:

(a) that the representations and warranties of IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing and no event or condition has occurred, which, with the lapse of time or the giving of notice or both would constitute an Event of Default;

(c) that there shall, in the reasonable opinion of OEFC, have been no material adverse change in the financial condition of IESO; and

(d) that OEFC has received such other documentation which it has reasonably requested to ensure that IESO is in compliance with the terms and conditions of this Agreement, including certified true copies of any necessary resolutions including resolutions authorizing the borrowing and authorized signatories.

ARTICLE 4
COVENANTS OF IESO

Section 4.1 Payment of Advances.

IESO will duly and punctually pay or cause to be paid all amounts owing under this Agreement in accordance with the terms and subject to the conditions of this Agreement.

Section 4.2 Use of Proceeds

The monies advanced under this Agreement shall be used only by IESO for the purposes set out in Section 2.3.

Section 4.3 IESO will Maintain its Corporate Existence.

Subject to Section 6.1, IESO will at all times maintain its corporate existence.

Section 4.4 Maintenance of Properties.

IESO will cause all property owned by IESO or any Material Subsidiary to be maintained and kept in good condition, repair and working order, all as in the judgment of IESO or any Material Subsidiary may be necessary for the proper operation of such property, except as and to the extent that IESO or any Material Subsidiary may be prevented from doing so by fire, strikes, lockouts, walkouts, labour unrest, acts of God, inability to obtain labour or materials, enemy action, governmental restrictions, civil commotion, or unavoidable casualty or similar causes; provided, however, that nothing in this Section 4.4 shall prevent IESO or any Material Subsidiary from discontinuing the maintenance of any such property or decommissioning any such property if such discontinuance or decommissioning is, in the judgment of IESO or any Material Subsidiary, desirable in the conduct of its business or the business of any such Material Subsidiary, or has been directly or indirectly requested or required by the Province of Ontario.

Section 4.5 Insurance.

IESO will cause all property owned by IESO or any Material Subsidiary which is of a character usually insured by companies operating similar businesses to be insured and kept insured with reputable insurers (which may include associations or other organizations for mutual or reciprocal insurance) against loss or damage by fire or other hazards or risks of the nature and to the extent that such property is usually insured by companies operating similar businesses.

Section 4.6 Conduct of Business.

Subject to Section 4.3, IESO will, and will cause the Subsidiaries to, carry on and conduct their respective businesses in a proper, efficient and business-like manner and in accordance with good business practice.

Section 4.7 Negative Pledge.

IESO will not, and will not permit any Material Subsidiary to, create, incur or assume any Lien, charging the interest of IESO or any Material Subsidiary in any property, to secure any obligations (including any Indebtedness) unless, at or prior to the time such Lien is created, incurred or assumed, all amounts owing under this Agreement are secured equally and rateably with any and all such obligations secured or to be secured by such Lien, for so long as such obligations shall be secured, provided, however, that the foregoing covenant shall not prevent, restrict or apply to any of the following:

(a) the creation, incurrence or assumption of any Purchase Money Mortgage;

(b) the grant of any Lien in the normal course of business to any banks or financial institutions for present or future indebtedness of IESO or any Material Subsidiary to such banks or financial institutions payable on demand or having an original term to maturity less than 18 months;

(c) Permitted Liens;

(d) any extension, renewal or replacement of any of the Liens referred to in Sections 4.6(a), (b) or (c), provided that the principal amount secured by any such Lien outstanding immediately before such extension, renewal or replacement or refunding is not thereby increased; and

(e) any Lien charging the interest of IESO or any Material Subsidiary in any property to secure any Indebtedness, other than any Lien referred to in Sections 4.6(a), (b) or (c), provided that, at the time such Lien is created, incurred or assumed, the principal amount of such Indebtedness, together with the aggregate principal amount of all other Indebtedness secured by Liens permitted pursuant to this Section 4.6(e) which is outstanding at such time does not exceed 10% of Consolidated Assets at such time.

Section 4.8 Payment of OEFC Expenses.

IESO will, on demand, reimburse and indemnify OEFC for all reasonable costs, charges and expenses, including reasonable fees and disbursements of its agents and counsel, incurred by

OEFC in connection with the preservation of rights under or enforcement of this Agreement at any time during the continuance of a Default or Event of Default. All such costs, charges and expenses shall bear interest at the Province's cost of funds plus 0.25 percent per annum (as determined by OEFC) calculated and payable monthly not in advance from in each case from the date on which OEFC incurs the cost, charge or expense until the date on which IESO reimbursement OEFC therefor. OEFC agrees, acting reasonably, to invoice IESO for any such costs, charges and expense as they are incurred, together with interest at the aforesaid rate (with interest on overdue interest).

Section 4.9 Reporting Requirements.

IESO covenants to provide to OEFC, or at its direction, to the Province of Ontario and the Ontario Financing Authority,

(a) any available information respecting its financial position which may be reasonably requested by OEFC, the Province of Ontario or the Ontario Financing Authority from time to time; and

~~(a)~~(b) any additional reports or supporting documentation which may be reasonably requested by the OEFC, the Province of Ontario or the Ontario Financing Authority from time to time.

Commented [PR22]: I think the additional reporting requirement should be included in the covenants section. I note also that the Borrowing Notice requires IESO to certify that the funds are being used for the purposes set out in the agreement. I think the additional language is broad enough to cover reporting regarding the use of funds. Ken – please advise if you think more specific language is required.

ARTICLE 5

The assertion or employment of any right or remedy hereunder, or otherwise, shall not prevent the concurrent assertion or employment of any other appropriate right or remedy.

Date:	Wednesday, April 26, 2017 11:02:02 AM
Attachments:	IESO Revolving Credit Facility Amending Agreement No 6 OFA Legal Comment....doc
Importance:	High

Hello All,

Lisa and I discussed a concern expressed by IESO's counsel yesterday regarding the reference of "costs related to the market renewals" program in the second recital of the attached amending agreement.

> ***AND WHEREAS*** *IESO and OEFC wish to amend the Agreement to increase the revolving line of credit from a principal amount of CDN $95 million to a principal amount of up to CDN $160 million to provide funding for IESO Corporate Requirements (as defined herein)* **and costs related to the market renewals program**;

The wording of the Directive states,

> It is now desirable to increase the Line of Credit to a principal amount of up to C$160 million to provide temporary funding for IESO corporate requirements and costs related to the market renewals program, and to extend the mandatory repayment date

IESO in the draft amending agreement defines "IESO Corporate Requirements" to mean any borrowing authorized by O. Reg. 280/14. IESO's counsel has stated that the market renewals program requirements would be authorized under O. Reg 280/14.

We would propose changing the second recital to incorporate 'market renewal program' under IESO Corporate Requirements, such that the second recital would read:

> ***AND WHEREAS*** *IESO and OEFC wish to amend the Agreement to increase the revolving line of credit from a principal amount of CDN $95 million to a principal amount of up to CDN $160 million to provide funding for IESO Corporate Requirements (as defined herein)* ~~and costs related to the market renewals program~~;

SALMAN: Is there any reason this **cannot** be done? i.e. was there a specific reason for singling out "costs related to the market renewals program" in the Directive? As a note, IESO's counsel asked to see the Directive. I am unsure whether in drafting the directive, if they ever would have gotten a copy, or if they typically would?

Lisa has schedule a meeting a 1 p.m. to discuss this. Lisa, since this seems to be the only outstanding issue (we are fine with the suggestions discussed on the other draft), that it may only be necessary for you and Salman to let us know if the proposed solution above is acceptable. We are available to discuss if I have not reflected the issue accurately.

Thanks,
Sarah

Importance:	High

Hello All,

Lisa and I discussed a concern expressed by IESO's counsel yesterday regarding the reference of "costs related to the market renewals" program in the second recital of the attached amending agreement.

> ***AND WHEREAS*** *IESO and OEFC wish to amend the Agreement to increase the revolving line of credit from a principal amount of CDN $95 million to a principal amount of up to CDN $160 million to provide funding for IESO Corporate Requirements (as defined herein)* **and costs related to the market renewals program**;

The wording of the Directive states,

> It is now desirable to increase the Line of Credit to a principal amount of up to C$160 million to provide temporary funding for IESO corporate requirements and costs related to the market renewals program, and to extend the mandatory repayment date

IESO in the draft amending agreement defines "IESO Corporate Requirements" to mean any borrowing authorized by O. Reg. 280/14. IESO's counsel has stated that the market renewals program requirements would be authorized under O. Reg 280/14.

We would propose changing the second recital to incorporate 'market renewal program' under IESO Corporate Requirements, such that the second recital would read:

> ***AND WHEREAS*** *IESO and OEFC wish to amend the Agreement to increase the revolving line of credit from a principal amount of CDN $95 million to a principal amount of up to CDN $160 million to provide funding for IESO Corporate Requirements (as defined herein)* ~~and costs related to the market renewals program~~;

SALMAN: Is there any reason this **cannot** be done? i.e. was there a specific reason for singling out "costs related to the market renewals program" in the Directive? As a note, IESO's counsel asked to see the Directive. I am unsure whether in drafting the directive, if they ever would have gotten a copy, or if they typically would?

Lisa has schedule a meeting a 1 p.m. to discuss this. Lisa, since this seems to be the only outstanding issue (we are fine with the suggestions discussed on the other draft), that it may only be necessary for you and Salman to let us know if the proposed solution above is acceptable. We are available to discuss if I have not reflected the issue accurately.

Thanks,

Sarah

DIRECTIVE

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR LINE OF CREDIT

TO: ONTARIO FINANCING AUTHORITY

Whereas:

Pursuant to a directive dated December 22, 2004 the Minister of Finance approved and directed the Ontario Financing Authority ("OFA") to make loans (the "Loans") to the Ontario Power Authority ("OPA") from time to time, as considered necessary by the OPA to meet its purposes, up to the maximum aggregate amount of $500 million, and to enter into a revolving credit facility agreement setting out the terms of the Loans (the "Credit Agreement").

Pursuant to a further directive dated October 3, 2005 the Minister of Finance approved and directed the OFA to increase the maximum aggregate amount of the Loans from $500 million to $975 million.

Effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the Electricity Act, 1998 (the "Amalgamation") with the name Independent Electricity System Operator (the "IESO"). Under the Amalgamation the obligations of the OPA became obligations of the amalgamated corporation.

The IESO has requested that that the OFA decrease the maximum aggregate amount of the Loans from $975 million to $475 million to eliminate duplicate credit needs for the purpose of the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

DIRECTIVE

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR LINE OF CREDIT

TO: ONTARIO FINANCING AUTHORITY

Whereas:

Pursuant to a directive dated December 22, 2004 the Minister of Finance approved and directed the Ontario Financing Authority ("OFA") to make loans (the "Loans") to the Ontario Power Authority ("OPA") from time to time, as considered necessary by the OPA to meet its purposes, up to the maximum aggregate amount of $500 million, and to enter into a revolving credit facility agreement setting out the terms of the Loans (the "Credit Agreement").

Pursuant to a further directive dated October 3, 2005 the Minister of Finance approved and directed the OFA to increase the maximum aggregate amount of the Loans from $500 million to $975 million.

Effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the Electricity Act, 1998 (the "Amalgamation") with the name Independent Electricity System Operator (the "IESO"). Under the Amalgamation the obligations of the OPA became obligations of the amalgamated corporation.

The IESO has requested that that the OFA decrease the maximum aggregate amount of the Loans from $975 million to $475 million to eliminate duplicate credit needs for the purpose of the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

Commented [LS1]: Program area to confirm

Therefore:

Pursuant to sub-section 16(2) of the *Capital Investment Plan Act, 1993*, the OFA is directed to amend the Credit Agreement to decrease the maximum aggregate amount of the Loans from $975 million to $475 million.

Hi Lisa/all,

I thought I'd take this time to send around some background information that you may or may not have – just to ensure we're working from the same documents for reference.

Please see attached:

1) LRC Approval Form: Some background notes on the OIC being recommended for approval for the June 27, 2017 LRC/Cabinet date.
2) Proposed OIC: OIC being recommended for approval for the June 27, 2017 LRC/Cabinet date.
3) Request Letter from IESO outlined some of the key terms of the proposed agreement. OFA agrees with the request.
4) To help facilitate, I used an older directive (Algonquin College from 2011), did a new version for this agreement. Defer to Lisa on the language though.

Timing:

- Unless otherwise instructed, we are looking to have the agreement in place for July 1, 2017 (business day: July 3, 2017).
- We're hoping that we can finalize the directive by next week. Both the agreement and the directive are expected to be worked on simultaneously.
- We should aim to get a first draft agreement to IESO as soon as we can as well.
- OIC should be in approved for Tuesday, June 27, 2017.

As I type this, I do not think we can have the directive signed before the OIC is approved since the directive makes reference to the OIC. Any thoughts on this are welcome.

Happy to discuss further once you have reviewed, as needed.

Thank you,

Salman

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the Ontario Financing Authority ("OFA") in an amount of up to $2.0 billion. Under the proposed OIC, repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- Existing OICs authorize the Minister of Finance to provide loans to the OFA, and in turn the OFA has provided loans and credit facilities to colleges, school boards and other public bodies such as Infrastructure Ontario, IESO, Ontario Lottery and Gaming Corporation and Liquor Control Board of Ontario.

- This proposed OIC is required to increase the authority of the Minister of Finance to lend to the OFA which will provide the OFA with the capacity to provide additional loans to the Independent Electricity System Operator ("IESO").
    - This will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017* as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.
    - The timing of this OIC is critical to ensure that borrowing authority for the OFA is available to provide the IESO its requested financing arrangements under the *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide additional loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA would be directed to provide a credit facility to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. During this period, Global Adjustment amounts collected from ratepayers will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The *Ontario Fair Hydro Plan Act, 2017* gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to a financing entity.
    - It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
    - The cash received from selling the regulatory asset will be used by the IESO to fund the current Global Adjustment shortfall.

- There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017 (planned for later in summer 2017; however, exact timing is subject to actual implementation). Even once the SPV is set up to borrow, there is expected to be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

- As a result, IESO requires short-term financing to be in place for initial and expected monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

- It is proposed that the OIC authorizes the OFA to borrow an additional $2.0 billion, which would be in addition to existing authority for the Minister of Finance to provide loans to the OFA, to ensure that there is sufficient borrowing authority in place for the OFA to meet the IESO requested requirements.

- If approved, the Minister of Finance will subsequently provide a Directive to the OFA to direct it to provide credit facilities to the IESO.
    - The OFA currently provides a credit facility to the IESO of $975 million.
    - The IESO has requested that the existing credit facility be reduced to $475 million, and a new credit facility be provided of $2.0 billion, for a total amount of $2.475 billion.

s. 3 Direction and Urgency

- The Province passed legislation on May 31, 2017 to implement the *Ontario Fair Hydro Plan Act, 2017,* which will reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in supporting implementation of the *Ontario Fair Hydro Plan Act, 2017*.
- Ministry of Energy proposed regulations under the *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be submitted for approval concurrently as it supports a crucial component of the successfully implementation of the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend an additional amount of $2.0 billion to the OFA. Subject to the terms and conditions of a

Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and, therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister may provide direction to the OFA on how it can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan. Upon approval, the Minister of Finance will have authorization to provide a loan to the OFA with a directive on how the loan can be used.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017*. The related Cabinet note for the initiative should be referred to.

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the proposed Fair Hydro Plan (FHP) to reduce electricity prices for eligible consumers in the province. Proposed legislation was introduced this month for the FHP. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that in order to support the IESO's role in FHP implementation it will need greater credit liquidity than currently exists.

An existing credit facility between the IESO and the Ontario Financing Authority (OFA) is currently available for $975 million which includes support for the current Regulated Price Plan (RPP) program. The IESO proposes that a separate and additional credit facility be provided by either the OFA or Ontario Electricity Financial Corporation (OEFC) to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and interest tracking.

IESO's FHP Credit Requirements and Rationale

Below we have outlined the IESO's expected credit needs including the current OFA facility as follows:

	OFA:IESO Facility	New FHP facility
Current credit facilities	$975 million	$ -
Reduction due to FHP	($500 million)	$ -
Increase due to FHP	$ -	$2,000 million
Totals Credit Facilities	$475 million	$2,000 million

The above $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP. In addition, the IESO has had recent discussions with OFA staff to explain the rationale to support the overall $2,000 million FHP commitment.

We suggest the new FHP credit facility consider the following key provisions:

- 5 year term - to align with the FHP's initial period of deferral of electricity prices plus a contingency period (i.e. to September 30, 2022);
- interest charge - to be Province's cost of funds for borrowing with a similar term as determined by OFA / OEFC plus 0.25 percent per annum;
- Draws - to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers; and
- Existing $975 million OFA facility : draws to permit for FHP purposes until a new separate credit agreement for FHP purposes has been made available;

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facilities and we will provide such evidence for your records.

We appreciate your continued support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Kimberly Marshall

Hi Lisa/all,

I thought I'd take this time to send around some background information that you may or may not have – just to ensure we're working from the same documents for reference.

Please see attached:

1) LRC Approval Form: Some background notes on the OIC being recommended for approval for the June 27, 2017 LRC/Cabinet date.
2) Proposed OIC: OIC being recommended for approval for the June 27, 2017 LRC/Cabinet date.
3) Request Letter from IESO outlined some of the key terms of the proposed agreement. OFA agrees with the request.
4) To help facilitate, I used an older directive (Algonquin College from 2011), did a new version for this agreement. Defer to Lisa on the language though.

Timing:

- Unless otherwise instructed, we are looking to have the agreement in place for July 1, 2017 (business day: July 3, 2017).
- We're hoping that we can finalize the directive by next week. Both the agreement and the directive are expected to be worked on simultaneously.
- We should aim to get a first draft agreement to IESO as soon as we can as well.
- OIC should be in approved for Tuesday, June 27, 2017.

As I type this, I do not think we can have the directive signed before the OIC is approved since the directive makes reference to the OIC. Any thoughts on this are welcome.

Happy to discuss further once you have reviewed, as needed.

Thank you,

Salman

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the Ontario Financing Authority ("OFA") in an amount of up to $2.0 billion. Under the proposed OIC, repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- Existing OICs authorize the Minister of Finance to provide loans to the OFA, and in turn the OFA has provided loans and credit facilities to colleges, school boards and other public bodies such as Infrastructure Ontario, IESO, Ontario Lottery and Gaming Corporation and Liquor Control Board of Ontario.

- This proposed OIC is required to increase the authority of the Minister of Finance to lend to the OFA which will provide the OFA with the capacity to provide additional loans to the Independent Electricity System Operator ("IESO").
    - This will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017* as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.
    - The timing of this OIC is critical to ensure that borrowing authority for the OFA is available to provide the IESO its requested financing arrangements under the *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide additional loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA would be directed to provide a credit facility to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. During this period, Global Adjustment amounts collected from ratepayers will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The *Ontario Fair Hydro Plan Act, 2017* gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to a financing entity.
    - It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
    - The cash received from selling the regulatory asset will be used by the IESO to fund the current Global Adjustment shortfall.

- There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017 (planned for later in summer 2017; however, exact timing is subject to actual implementation). Even once the SPV is set up to borrow, there is expected to be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

- As a result, IESO requires short-term financing to be in place for initial and expected monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

- It is proposed that the OIC authorizes the OFA to borrow an additional $2.0 billion, which would be in addition to existing authority for the Minister of Finance to provide loans to the OFA, to ensure that there is sufficient borrowing authority in place for the OFA to meet the IESO requested requirements.

- If approved, the Minister of Finance will subsequently provide a Directive to the OFA to direct it to provide credit facilities to the IESO.
    - The OFA currently provides a credit facility to the IESO of $975 million.
    - The IESO has requested that the existing credit facility be reduced to $475 million, and a new credit facility be provided of $2.0 billion, for a total amount of $2.475 billion.

s. 3 Direction and Urgency

- The Province passed legislation on May 31, 2017 to implement the *Ontario Fair Hydro Plan Act, 2017,* which will reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in supporting implementation of the *Ontario Fair Hydro Plan Act, 2017*.
- Ministry of Energy proposed regulations under the *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be submitted for approval concurrently as it supports a crucial component of the successfully implementation of the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend an additional amount of $2.0 billion to the OFA. Subject to the terms and conditions of a

Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and, therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister may provide direction to the OFA on how it can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan. Upon approval, the Minister of Finance will have authorization to provide a loan to the OFA with a directive on how the loan can be used.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017*. The related Cabinet note for the initiative should be referred to.

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the proposed Fair Hydro Plan (FHP) to reduce electricity prices for eligible consumers in the province. Proposed legislation was introduced this month for the FHP. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that in order to support the IESO's role in FHP implementation it will need greater credit liquidity than currently exists.

An existing credit facility between the IESO and the Ontario Financing Authority (OFA) is currently available for $975 million which includes support for the current Regulated Price Plan (RPP) program. The IESO proposes that a separate and additional credit facility be provided by either the OFA or Ontario Electricity Financial Corporation (OEFC) to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and interest tracking.

IESO's FHP Credit Requirements and Rationale

Below we have outlined the IESO's expected credit needs including the current OFA facility as follows:

	OFA:IESO Facility	New FHP facility
Current credit facilities	$975 million	$ -
Reduction due to FHP	($500 million)	$ -
Increase due to FHP	$ -	$2,000 million
Totals Credit Facilities	$475 million	$2,000 million

The above $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP. In addition, the IESO has had recent discussions with OFA staff to explain the rationale to support the overall $2,000 million FHP commitment.

We suggest the new FHP credit facility consider the following key provisions:

- 5 year term - to align with the FHP's initial period of deferral of electricity prices plus a contingency period (i.e. to September 30, 2022);
- interest charge - to be Province's cost of funds for borrowing with a similar term as determined by OFA / OEFC plus 0.25 percent per annum;
- Draws - to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers; and
- Existing $975 million OFA facility : draws to permit for FHP purposes until a new separate credit agreement for FHP purposes has been made available;

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facilities and we will provide such evidence for your records.

We appreciate your continued support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Kimberly Marshall

Hello-

By way of follow up on our discussions about this yesterday, I just spoke with Malle and she has advised that Toby will be working on the loan agreement from the MOF perspective as he has involvement in other aspects of the implementation of the plan.

In addition, Malle reminded me that there will be need to be a Promissory Note between OFA and the Province in respect of the on-lending authorized by OIC. I assume this is part of the routine process but just flag it as another moving part.

Thanks very much,

Sarah

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

Pursuant to OIC ####, the Minister of Finance is authorized to lend a maximum of $2 billion to the OFA for the credit facility

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of short to medium term financing related to the OFHP.

~~The OFA will be borrowing funds for this requested credit facility under the authority of OIC ###.~~

Therefore:

i) **Line of Credit**

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate established as of [insert], equal to the Province's cost of funds as based on the term as set out the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread ~~to cover the OFA's lending costs~~ ("~~Cost Recovery Fee~~Spread").

- ~~Advances under t~~The Line of Credit will only be made at the request and on the recommendation of the Minister of Energy.

Commented [LS1]: Program area to confirm; differs from LRC form

Commented [SQ22R1]: Mentioned in s1 of LRC form:

oThis will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017* as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.

Commented [SQ23]: Should this be mentioned in the second Whereas recital?

Commented [LS4]: Program area

Commented [SQ25R4]: This is a revolving credit facility, rates would be established as the OFA deems necessary, as set out in the Credit Agreement.

Commented [SQ26]: This is simply a spread – I would not classify this as a cost recovery fee.

Commented [LS7]: Business decision; program area to confirm.

Commented [SQ28R7]: Not Advances. Only the Agreement itself.

Commented [LS9]: Further discussion required. This may require the Minister of Energy to be a party to the loan agreement.

Commented [SQ210R9]: This is incorrect. The Credit Agreement will be made at the request of and recommendation of Minister of Energy, if at all – not the advances. Minister of Energy won't be a party to the proposed agreement.

DRAFT

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than ~~five years after the execution of the Credit Agreement~~September 30, 2022.

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

ii) Retention of spread

Pursuant to Order in Council ####, made under sub-section 22(1) of CIPA, the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. Commented [LS11]: Is this reasonable given the principal amount of the line? Previous draft provided had 40 year term (as per draft OIC). IESO has requested 5 year term in letter dated 05/12/17,

Commented [SQ212R11]: We made the decision to do the OIC for the entire OFHP period in order to avoid going back to LRC for a new OIC as we expect the requirement for a credit facility will be there.
The Directive is more aligned with the ask from IESO, and is meant to be a little tighter on the terms.

As per IESO request and previous drafts, this should say September 30, 2022.

Commented [LS13]: Confirm authorization is contained in new OIC

Commented [LS14]: As previously discussed, this is a business decision. My understanding is that this is generally retained only where there is commercial risk. Should this be remitted back to the Province?

Commented [SQ215R14]: We will be retaining this to remain consistent with past credit facility – unless otherwise advised.

Hi Lisa,
I'm going to be out between 9:45 a.m. and about 12:30 p.m.
If there's anything that you think it would be helpful to discuss on the IESO agreement, I'm free to come down after that.
Toby would be looking at the agreement as well. In the interest of time, I'm thinking it may be worth bringing in Toby at the point when you've finished your review, if feasible. I'm away tomorrow, but I'm hoping that we can get the agreement in good enough shape to send to IESO tomorrow.
Thanks,
Sarah

Hi Salman and Patrick,

I was sick yesterday and did not have the opportunity to comment on the drafts. Please see my comments, attached.

Patrick – my understanding (through Dimitri working on the other OFA OIC for name changes) is that the materials for the June 27th LRC are due to be delivered to the DMO office by EOD tomorrow. Is this your understanding? Salman – if this is the case, this OIC package will need to be signed by Gadi tomorrow and delivered to Patrick tomorrow for LSB's sign-off as well (Patrick I'm assuming you would be delivering the package).

Salman, you'll also have to make sure that a) the item has been entered into EVISTA by the DMO and you have the EVISTA number and 2) that you have made them aware that the package is coming. To that point, you should also coordinate with Anna in Gadi's office to let her know that you will have package for signing by Gadi and to confirm his availability. You'll need a covering blue sign-off sheet. Let me know if you need some of the 'special blue paper' for printing.

Finally, on the LRC approval form, you can insert the following as the Policy Advisor at the DMO: DMO contact: Jonathan Tekle 416-325-8736. You should be able to touch base with Jonathan to confirm the following information for your LRC Approval Form:

Hi Sarah/Patrick,

For your review, attached is the revised LRC note and draft memos. We've also asked DMO to let us

know about timeline and obtaining an EVISTA number for this.

I'm not in the office rest of the week but will have limited access to my emails, but please do cc' Shajee and Bruno on emails in case there is something urgent.

Will keep you posted on any further developments.

LRC Ministry Approval Form – version 10.02

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA")~~CIPA~~, which will authorize the Minister of Finance to provide ~~a~~ loan(s) to the OFA in an amount of up to $3.5 billion. This authorization will be valid between the date of ~~this approval~~the OIC is approved and ~~March 31~~June 30, 2053.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA authorized by the Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- This proposed OIC is required to fulfil the commitments under the proposed Fair Hydro Act. The timing of this OIC is critical to ensure borrowing authority for the OFA is available as it will be required to provide financing arrangements upon the enactment of the proposed Fair Hydro Plan Act.

-

s. 2 Approach and Intended Outcomes

- The OFA provides financing to government entities as directed by the Minister of Finance. For the OFA to on-lend, the OFA borrows from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to fulfil the commitments under the proposed Fair Hydro Act.

- The OFA will be required to provide a revolving credit facility for market liquidity purposes related to the on-going Fair Hydro Plan Act. In particular, the OFA will be lending to the Independent Electricity System Operator ("IESO").

- A key element of the proposed Fair Hydro Plan Act results in the IESO ~~to~~ incurring a funding shortfall and unilaterally selling that shortfall as an asset to

Commented [SH2]: For consistency, "the" in front of "IESO" needs to be included throughout the document or excluded throughout (see paragraphs below, where "the" is missing)

OPG Trust. The proposed legislation does not compel OPG Trust to purchase any portion of the regulatory asset. As a result, IESO requires short-term financing in place in the event ~~if for some reason~~ the OPG Trust, at any time, chooses not to purchase a portion of the deferred Global Adjustment amounts under the proposed Fair Hydro Plan Act.

- IESO has currently requested that the OFA provide a revolving credit facility of up to $2 billion to support its role in the Fair Hydro Plan implementation. The $2 billion request from IESO is based on current data; it is possible that the data (?) may ~~which could~~ change and ~~in order to maintain the Fair Hydro Plan Act and the OIC authorization is~~ an amount of $3.5 billion is required for the OIC to ensure there is sufficient contingency in order to maintain the Fair Hydro Plan Act once ~~in place once~~ the implementation begins~~.~~.

- For the OFA to accommodate this request, an OIC must be approved to permit the OFA to ~~can only~~ on-lend funds borrowed from the Minister of Finance.
  ~~, which are authorized under an OIC, hence this request.~~

- The Minister of Finance will be required to provide a Directive to the OFA for any loans made as a result of this OIC and will subject to the of $3.5 billion set by this OIC.

s. 3 Direction and Urgency

Note appendices here, or ERASE, e.g.
See Appendix X, Variance Memo

- As announced on March 2, 2017 and highlighted as a commitment in the 2017 Ontario Budget ~~2017~~, the Province intends to implement the Fair Hydro Plan which would reduce electricity bills by 25 per cent on average for eligible households.

- The ability for the OFA to have the borrowing and on-lending capacity is instrumental in implementing the proposed Fair Hydro Plan.

- The Fair Hydro Plan ~~and its related proposed Fair Hydro~~ Act ~~are~~ is expected to track for Cabinet approval by end of June 2017. It is expected that this OIC will also be approved concurrently, as it is a crucial component of the successfull~~y~~ implement~~ing~~ation of the Fair Hydro Plan.

- The related Cabinet Minute XXXXX is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend to the OFA. Subject to the terms and conditions of a Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's Cost of Funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and therefore, no fiscal impact is expected.

Commented [SH3]: Not sure if this is required, but if so, it may be better use plain language, as cost of funds may be an unfamiliar term to non-finance folks.

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. ~~The~~A D~~d~~irective from the Minister will be required that will provide direction on~~provides details on~~ how the OFA can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed Fair Hydro Plan and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed Fair Hydro Plan. The related Cabinet note for the initiative should be referred to.

Deputy Minister of Finance

FROM: Gadi Mayman
Chief Executive Officer

SUBJECT: **Approval of an Order in Council related to the proposed Fair Hydro Act**

Attached for the Minister's approval and signature is an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan~~(s)~~ to the Ontario Financing Authority ("OFA"). The proceeds from these loans will allow the OFA to on-lend to the Independent Electricity Systems Operator ("IESO") as required under the Province's proposed Fair Hydro Plan Act.

Under the mechanism in the proposed Fair Hydro Plan Act, the IESO requires a revolving credit facility to cover clean energy costs if for some reason the Trust, at any time, chooses not to purchase a portion of the deferred Global Adjustment amounts. For the OFA to lend to the IESO, the OFA must be able to borrow from the Minister of Finance to on-lend. This proposed OIC authorizes the Minister of Finance to lend up to Canadian $3.5 billion to the OFA.

Commented [SH1]: Not sure if this level of description is required? Is it possible to delete and to combine the 1st and 2nd paragraphs ?

Attached for your signature is a memorandum from you to the Minister requesting that the Minister approve the OIC. This OIC is on track to be approved on June 27, 2017 together with proposed submission related to the proposed Fair Hydro Plan Act.

Since we have a tracking number, can this wait a few days? I note that Gadi is away this week anyways (Ron is acting) and DMO is aware of this. I assume if its okay with DMO, we can wait?

LRC Ministry Approval Form – version 10.02

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA")~~CIPA~~, which will authorize the Minister of Finance to provide ~~a~~ loan(s) to the OFA in an amount of up to $3.5 billion. This authorization will be valid between the date of ~~this approval~~the OIC is approved and ~~March 31~~June 30, 2053.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA authorized by the Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- This proposed OIC is required to fulfil the commitments under the proposed Fair Hydro Act. The timing of this OIC is critical to ensure borrowing authority for the OFA is available as it will be required to provide financing arrangements upon the enactment of the proposed Fair Hydro Plan Act.

-

s. 2 Approach and Intended Outcomes

- The OFA provides financing to government entities as directed by the Minister of Finance. For the OFA to on-lend, the OFA borrows from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to fulfil the commitments under the proposed Fair Hydro Act.

- The OFA will be required to provide a revolving credit facility for market liquidity purposes related to the on-going Fair Hydro Plan Act. In particular, the OFA will be lending to the Independent Electricity System Operator ("IESO").

- A key element of the proposed Fair Hydro Plan Act results in the IESO ~~to~~ incurring a funding shortfall and unilaterally selling that shortfall as an asset to

Commented [SH2]: For consistency, "the" in front of "IESO" needs to be included throughout the document or excluded throughout (see paragraphs below, where "the" is missing)

OPG Trust. The proposed legislation does not compel OPG Trust to purchase any portion of the regulatory asset. As a result, IESO requires short-term financing in place in the event ~~if for some reason~~ the OPG Trust, at any time, chooses not to purchase a portion of the deferred Global Adjustment amounts under the proposed Fair Hydro Plan Act.

- IESO has currently requested that the OFA provide a revolving credit facility of up to $2 billion to support its role in the Fair Hydro Plan implementation. The $2 billion request from IESO is based on current data; it is possible that the data (?) may ~~which could~~ change and ~~in order to maintain the Fair Hydro Plan Act and the OIC authorization is~~ an amount of $3.5 billion is required for the OIC to ensure there is sufficient contingency in order to maintain the Fair Hydro Plan Act once ~~in place once~~ the implementation begins~~.~~.

- For the OFA to accommodate this request, an OIC must be approved to permit the OFA to ~~can only~~ on-lend funds borrowed from the Minister of Finance.
  ~~, which are authorized under an OIC, hence this request.~~

- The Minister of Finance will be required to provide a Directive to the OFA for any loans made as a result of this OIC and will subject to the of $3.5 billion set by this OIC.

s. 3 Direction and Urgency

Note appendices here, or ERASE, e.g.
See Appendix X, Variance Memo

- As announced on March 2, 2017 and highlighted as a commitment in the 2017 Ontario Budget ~~2017~~, the Province intends to implement the Fair Hydro Plan which would reduce electricity bills by 25 per cent on average for eligible households.

Formatted: Indent: Left: 0.25", No bullets or numbering

- The ability for the OFA to have the borrowing and on-lending capacity is instrumental in implementing the proposed Fair Hydro Plan.

- The Fair Hydro Plan ~~and its related proposed Fair Hydro~~ Act ~~are~~ is expected to track for Cabinet approval by end of June 2017. It is expected that this OIC will also be approved concurrently, as it is a crucial component of the successfull~~y~~ implement~~ing~~ation of the Fair Hydro Plan.

Formatted: Indent: Left: 0.25", No bullets or numbering

- The related Cabinet Minute XXXXX is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend to the OFA. Subject to the terms and conditions of a Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's Cost of Funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and therefore, no fiscal impact is expected.

Commented [SH3]: Not sure if this is required, but if so, it may be better use plain language, as cost of funds may be an unfamiliar term to non-finance folks.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. ~~The~~A D~~d~~irective from the Minister will be required that will provide direction on~~provides details on~~ how the OFA can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed Fair Hydro Plan and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's proposed Fair Hydro Plan. The related Cabinet note for the initiative should be referred to.

MEMORANDUM TO: Scott Thompson
Deputy Minister of Finance

FROM: Gadi Mayman
Chief Executive Officer

SUBJECT: **Approval of an Order in Council related to the proposed Fair Hydro Act**

Attached for the Minister's approval and signature is an Order in Council ("OIC") under section 22 of the *Capital Investment Plan Act* ("CIPA") for the purpose of authorizing the Minister of Finance to make loan~~(s)~~ to the Ontario Financing Authority ("OFA"). The proceeds from these loans will allow the OFA to on-lend to the Independent Electricity Systems Operator ("IESO") as required under the Province's proposed Fair Hydro Plan Act.

Under the mechanism in the proposed Fair Hydro Plan Act, the IESO requires a revolving credit facility to cover clean energy costs if for some reason the Trust, at any time, chooses not to purchase a portion of the deferred Global Adjustment amounts. For the OFA to lend to the IESO, the OFA must be able to borrow from the Minister of Finance to on-lend. This proposed OIC authorizes the Minister of Finance to lend up to Canadian $3.5 billion to the OFA.

Commented [SH1]: Not sure if this level of description is required? Is it possible to delete and to combine the 1st and 2nd paragraphs ?

Attached for your signature is a memorandum from you to the Minister requesting that the Minister approve the OIC. This OIC is on track to be approved on June 27, 2017 together with proposed submission related to the proposed Fair Hydro Plan Act.

Staff are available to address any questions you may have regarding this matter.

Since we have a tracking number, can this wait a few days? I note that Gadi is away this week anyways (Ron is acting) and DMO is aware of this. I assume if its okay with DMO, we can wait?

Hello Mike,

Per your conversation with Opal, attached is a sample Non-Disclosure Agreement that can be sent to Ministry of Energy for their consideration.

You may note to MOE that the agreement is still fairly general in nature, and that we have highlighted for them on the first page of the draft a number of issues that they may want to consider incorporating in their draft including the clarification of the scope services provided and any relevant conflicts of interest. They may also want to consider entering into a separate agreement for advisory services, as discussed on the first page of the draft.

Thanks,

Please find attached a draft of a Non-Disclosure Agreement respecting obtaining advice from a financial adviser with respect to the Ontario Fair Hydro Plan.

Please note that this draft is preliminary, and we have a number of questions and concerns that are set out in the draft. We would like to point out that there is no agreement setting out the scope or nature of the services and the basis on which those services would be provided including the standard that is required from the adviser as well as conflict of interest requirements and other issues, and that the NDA does not replace such an agreement.

We have also attached a scan of an agreement that the OFA negotiated in 2004 to hire an adviser for a project relating to electricity finance as an example of such an agreement and the types of provisions that could be considered for inclusion in such an agreement.

Confidential and Privileged Legal Advice – April 1, 2017 – MOF LSB
Note regarding this NDA and the retention of an adviser:

We have a number of questions relating to this NDA, and issues that should be considered in retaining an adviser:

- We have not been able to confirm what the scope of the advice being sought is. If the advice is restricted to advising on market timing and potential demand for certain securities, this is more limited than broader advice relating to structuring the transaction;
- We think it should be clear who the adviser is working for, and how the advice will be presented to the Province. If the advice is going to be to the Ministry of Energy or the Minister of Finance, will be given through the OFA?;
- Are there potential conflicts of interest between the adviser's role as an adviser and as a potential underwriter or other business of the adviser?

In addition, it should be considered whether it is appropriate to have an adviser without an agreement for the services that the adviser would be providing. The NDA protects the Province with respect to the disclosure of the information to third parties, but it does not set out the role, responsibilities or other matters relating to conflicts or other duties of the adviser. Terms of such an agreement that may be considered in such a context include:

- Scope of engagement;
- Performance Warranty – setting out the standard to which the adviser is to carry out the work and provide advice;
- Copyright and IP provisions;

The provisions of this Article shall survive any termination or expiry of the Agreement.

ARTICLE 5 - CONFIDENTIALITY AND FIPPA

5.01 **Confidentiality and Promotion Restrictions**
Any publicity or publications related to the Agreement shall be at the sole discretion of the OFA. The OFA may, in its sole discretion, acknowledge the Deliverables provided by the Supplier in any such publicity or publication. The Supplier shall not make use of its association with the OFA without the prior written consent of the OFA. Without limiting the generality of this paragraph, the Supplier shall not, among other things, at any time directly or indirectly communicate with the media in relation to the Agreement unless it has first obtained the express written authorization to do so by the OFA.

5.02 **OFA, OPG, and the Government Confidential Information**

During and following the Term, the Supplier shall (a) keep all Confidential Information confidential and secure; (b) limit the disclosure of Confidential Information to only (i) those employees who have a need to know it and who have been specifically authorized to have such disclosure (ii) and to the other suppliers that have been retained subject to similar confidentiality obligations by OFA and identified by OFA to the Supplier for the sole purpose of providing to OFA or assisting the Supplier in providing to OFA the Deliverables pursuant to the Agreement and then only to the extent they need to know the Confidential Information for such purpose; (c) not directly or indirectly disclose, destroy, exploit or use any Confidential Information (except for the purpose of providing the Deliverables, or except if required by order of a court or tribunal), without first obtaining: (i) the written consent of OFA and (ii) in respect of any Confidential Information about any third-party, the written consent of such third-party; (d) provide Confidential Information to OFA on demand; and (e) deliver all Confidential Information to OFA before the termination or expiry of the Term, with no copy or portion kept by the Supplier, except that the Supplier may retain one copy for due diligence defence purposes, which copy shall be held securely and in accordance with the terms of this Agreement.

5.03 **Restrictions on Copying**

The Supplier shall not copy any Confidential Information, in whole or in part, unless copying is essential for the provision of the Deliverables. On each copy made by the Supplier, the Supplier must reproduce all notices which appear on the original.

5.04 **Injunctive and Other Relief**

The Supplier acknowledges that breach of any provisions of this Article may cause irreparable harm to OFA, the Province or to any third-party to whom OFA owes a duty of confidence, and that the injury to OFA, the Province or to any third-party may be difficult to calculate and inadequately compensable in damages. The Supplier agrees that each of OFA and the Province is entitled to obtain injunctive relief (without proving any damage sustained by it or by any third-party) or any other remedy against any actual or potential breach of the provisions of this Article.

5.05 **Notice and Protective Order**

If the Supplier or any of its directors, officers, employees, agents, representatives or advisors become legally compelled to disclose any Confidential Information, the Supplier will provide OFA with prompt notice to that effect in order to allow OFA or the Province, as the case may be, to seek one or more protective orders or other appropriate remedies to prevent or limit such disclosure, and it shall co-operate with OFA and the Province and their respective legal counsel to the fullest extent. If such protective orders or other remedies are not obtained, the Supplier will disclose only that portion of Confidential Information which the Supplier is legally compelled to disclose, only to such person or persons to which the Supplier is legally compelled to disclose, and the Supplier shall provide notice to each such recipient (in co-operation with legal counsel for OFA or the Province, as the case may be) that such Confidential Information is confidential and subject to non-disclosure on terms and conditions equal to those contained in the Agreement and, if possible, shall obtain each recipient's written agreement to receive and use such Confidential Information subject to those terms and conditions.

5.06 **Notification of Confidentiality Provisions**

The Supplier shall notify each of its partners, employees, directors, and officers and subcontractors who have access to any of the Confidential Information ("the Notified Parties") of the obligations contained in the Agreement with respect to the confidentiality of the Confidential Information and the restrictions on disclosure and use of the Confidential Information. The Supplier has advised or will advise, as the case may be, the Notified Parties of their obligations concerning the confidentiality of the Confidential Information and shall obtain the agreement of each of the Notified Parties to abide by the terms and conditions of the Agreement. The Supplier agrees to enforce such obligations to the extent required to prevent unauthorised disclosure of Confidential Information and to prevent any partner, employee, director, or officer (the "Representatives") from making unauthorised use of Confidential Information. The Supplier agrees to be responsible for any breach of confidentiality by any of the Representatives and agrees to indemnify OFA and the Province and OPG for all damages, costs, expenses, losses, claims or actions arising from any failure by the Supplier or any of the Representatives to comply with the confidentiality obligations in the Agreement. The Supplier acknowledges that OFA holds the benefit of the indemnity in trust for itself and the Province and that OFA can enforce such indemnity on behalf of the Province. The Supplier also acknowledges and agrees that the Province can enforce such indemnity directly against the Supplier.

5.07 **FIPPA Records and Compliance**
The Supplier and OFA acknowledge and agree that FIPPA applies to and governs all Records and may require the disclosure of such Records to third parties. Furthermore, the Supplier agrees:

(a) to keep Records secure;

(b) to provide Records to OFA within five (5) Business Days of being directed to do so by OFA for any reason including an access request or privacy issue;

(c) not to access any Personal Information unless OFA determines, in its sole discretion, that access is permitted under FIPPA and is necessary in order to provide the Deliverables;

(d) not to directly or indirectly use, collect, disclose or destroy any Personal Information for any purposes that are not authorized by OFA;

(e) to ensure the security and integrity of Personal Information and keep it in a physically secure and separate location safe from loss, alteration, destruction or intermingling with other records and databases and to implement, use and maintain the most appropriate products, tools, measures and procedures to do so;

(f) to restrict access to Personal Information to those of its employees who have a need to know it and who have been specifically authorized to have such access for the purpose of providing the Deliverables;

(g) to implement other specific security measures that in the reasonable opinion of OFA would improve the adequacy and effectiveness of the Supplier's measures to ensure the security and integrity of Personal Information and Records generally; and

(h) that any confidential information supplied to OFA or the Province may be disclosed by OFA or the Province where it is obligated to do so under FIPPA, by an order of a court or tribunal or pursuant to a legal proceeding.

5.08 The provisions of this Article shall survive any termination or expiry of the Agreement.

ARTICLE 6 – INTELLECTUAL PROPERTY

6.01 **OFA Intellectual Property**
The Supplier agrees that all Intellectual Property and every other right, title and interest in and to all concepts, techniques, ideas, information and materials, however recorded, (including images and data) provided by OFA or the Province to the Supplier shall remain the sole property of OFA or the Province, as the case may be, at all times.

6.02 **No Use of Insignia**
The Supplier shall not use any insignia or logo of OFA or the Province.

6.03 **Ownership of Intellectual Property**
OFA on behalf of the Province shall be the sole owner of any Newly Created Intellectual Property. The Supplier irrevocably assigns to and in favour of OFA and OFA accepts every right, title and interest in and to all Newly Created Intellectual Property in the Deliverables, immediately following the creation thereof, for all time. OFA grants to the Province a perpetual, world-wide, non-exclusive, irrevocable, transferable, royalty-free, fully paid-up right and licence: (a) to use, execute, display, distribute, perform and reproduce, in any form, the Newly Created Intellectual Property in the Deliverables (b) to use, execute, make, have made, have used, display, distribute perform, reproduce and prepare, in any form, Derivative Work based on the Newly Created Intellectual Property in the Deliverables and (c) to practise and have practised any process or method (or both) associated with such Derivative Work;

To the extent that any of the Deliverables include, in whole or in part, the Supplier's Intellectual Property, the Supplier grants to OFA and the Province a licence to use that Supplier Intellectual

Property in the manner contemplated in this Article, the total consideration for which shall be payment of the Rates on the terms and to the Supplier by OFA.

6.04 **Presumption Governing Ownership**

The presumption governing the Agreement shall be that OFA on behalf of the Province shall be the sole owner of any Intellectual Property in any form contained in any of the Deliverables. If the Supplier's Intellectual Property forms any part of the Deliverables, the Supplier shall notify OFA of such prior to the delivery of the particular Deliverable containing any such Supplier Intellectual Property. In the absence of any such notice the presumption shall remain that OFA is the sole owner of any Intellectual Property contained in the Deliverables.

6.05 **Supplier's Grant of Licence**

For those parts of the Deliverables that are Supplier Intellectual Property, the Supplier grants to OFA and the Province, a perpetual, world-wide, non-exclusive, irrevocable, transferable, royalty-free, fully paid-up right and licence: (a) to use, execute, display, distribute, perform and reproduce, in any form, copies of those Deliverables and to practice and have practised any process or method (or both) associated with such Deliverables; and (b) to use, execute, make, have made, have used, display, distribute, perform, reproduce and prepare, in any form, Derivative Work based on those Deliverables and to practise and have practised any process or method (or both) associated with such Derivative Work; and (c) authorize other Persons including agents, contractors or sub-contractors to do any of the former on behalf of OFA or the Province, provided that the OFA and the Province shall be entitled to use and authorize other Persons to use the Supplier Intellectual Property for the purposes of the Province only and not for resale or other commercial exploitation thereof.

6.06 **No Restrictive Material in Deliverables**

The Supplier waives, and shall not incorporate into any Deliverables anything that would restrict the right of OFA or the Province to modify, further develop or otherwise use the Deliverables in any way that OFA or the Province deems necessary, or that would prevent OFA or the Province from entering into any contract with any contractor other than the Supplier for the modification, further development of or other use of the Deliverables. However, to the extent that any of the Deliverables constitutes any professional opinion, judgement or financial advice of the Supplier, the preceding sentence will not restrict or prevent the Supplier from addressing such opinions, judgements and financial advice solely to the OFA and the Province or from including customary assumptions, qualifications and limitations respecting reliance by parties other than the Indemnified Parties in such Deliverables.

6.07 **Supplier Representation and Warranty Regarding Third-Party Intellectual Property**

The Supplier represents and warrants that the provision of the Deliverables shall not infringe or induce the infringement of any Third-Party Intellectual Property rights. The Supplier further represents and warrants that it has obtained assurances with respect to any Third-Party Intellectual Property that any rights of integrity or any other moral rights associated therewith have been waived.

6.08 **Moral Rights**

The Supplier shall obtain waivers of all rights of integrity and any other moral rights in relation to the Deliverables from its employees, volunteers, agents and subcontractors and from any other party in the position to assert such rights in relation to any of the Deliverables, which waivers may be invoked without restriction by any person authorized by OFA or the Province to use the Deliverables.

6.09 **Copyright Notice**

The Supplier shall place a copyright notice in the following form on all recorded Deliverables it provides to OFA:

"© Queen's Printer for Ontario, 2004"

6.10 **Further Assurances Regarding Copyright**

At the request of OFA, at any time or from time to time, the Supplier shall execute and agrees to cause anyone in the position to assert rights of integrity or any other moral right (including its employees, volunteers, agents and subcontractors) to execute a written assignment of copyright and waiver of moral rights in the applicable Deliverable to the OFA in the forms set out in Schedule 2. The Supplier shall assist OFA in preparing any Canadian copyright registration that OFA considers appropriate. The Supplier will obtain or execute any other document reasonably required by OFA to protect the Intellectual Property of OFA.

6.11 **OFA May Prescribe Further Compliance**
OFA reserves the right to prescribe the specific manner in which the Supplier shall perform its obligations relating to this Article.

6.12 The provisions of this Article shall survive any termination or expiry of the Agreement.

ARTICLE 7 – CONFLICT OF INTEREST

7.01 The Supplier acknowledges it owes the OFA and the Province of Ontario a duty to promote the interests of OFA and the Province of Ontario in carrying out the Services. The overriding obligation the Supplier is to avoid actual or perceived conflicts between its private interests and those of OFA and the Province (including OFA and OEFC).

7.02 The Supplier shall not, in its provision of the Deliverables, engage in any activity, business or undertaking, whether as Supplier or otherwise, that could create a conflict of interest or potential conflict of interest. Included in the prohibitions on the Supplier are the following:

(a) engaging in any activity, business or undertaking that may conflict or be perceived as conflicting with the performance by the Supplier of the duties and obligations under this Agreement;

(b) directly or indirectly benefiting from any activity related to this Agreement otherwise than as specifically contemplated by this Agreement;

(c) circumstances where the supplier's other commitments, relationships or financial interests (i) could or could be seen to exercise an improper influence over the objective, unbiased and impartial exercise of its independent judgement; or (ii) could or could be seen to compromise, impair or be incompatible with the effective performance of its contractual obligations;

7.03 If required by the OFA for the purpose of complying with section 7.02 , the Supplier agrees to:

(b) file and cause its partners, directors, officers or employees who are providing the Services under this Agreement to file with the OFA declarations disclosing their interests in a manner equivalent to that set out in Section 13 of O.Reg 435/97 and their personal relationships (if any) with the firms and named individuals employed by or affiliated with OPG or any OEB licensed wholesale or retail electricity market participant in Ontario; and

(c) cause its partners, directors, officers or employees who are providing the Deliverables under this Agreement to execute confidentiality undertakings and provide copies to the OFA.

Upon the occurrence of any change in circumstance that renders any certificate or information filed or provided by the Supplier either incorrect or incomplete, the Supplier shall forthwith notify the OFA as set out in this Article of the change in circumstance in detail.

7.04 If any activities or prior activities of the Supplier could constitute an actual or potential conflict of interest in respect of this Agreement, the Supplier shall without delay make full, true and plain disclosure to the OFA of all relevant information about the particular activity, business or undertaking in question to the satisfaction of the OFA or its agent and abide by the decision of the OFA.

7.05 Upon any disclosure made by a Supplier or any other person in relation to the activities of the Supplier, of any activity, business or undertaking that could create a conflict of interest in respect of this Agreement, the OFA may, in its sole discretion:

(a) require that the Supplier:
  (i) deliver further and detailed particulars of the activity, business or undertaking;
  (ii) elect between the continuation of the Agreement and the continuation of the activity, business or undertaking concerned; and/or

(iii) institute measures which in the opinion of the OFA eliminate, resolve, isolate, diminish or nullify any perceived conflict of interest;

(b) terminate the Agreement effective upon written notice to such effect, and/or

(c) take such other steps as may be necessary to address the conflict including the institution of proceedings.

Where the OFA recommends that the Supplier take certain action, or refrain from taking certain action, the Supplier shall abide by the recommendation. The Supplier's failure to do so may result in the termination of the Supplier's Agreement in the sole discretion of the OFA.

7.06 Information disclosed by the Supplier to the OFA as contemplated under section 7.05 is confidential and shall not be disclosed to any person, except:

(a) on the consent of all parties;
(b) as required by law or by the order of a tribunal or court;
(c) such persons, if any, as the Supplier or the OFA may consult in respect of the conflict of interest; or
(d) in any proceedings between the OFA and the Supplier for breach of obligations under Article 7.

ARTICLE 8 – INDEMNITY AND INSURANCE

8.01 **Supplier Indemnity**
The Supplier hereby agrees to indemnify and hold harmless the Indemnified Parties from and against any and all liability, loss, costs, damages and expenses (including legal, expert and consultant fees), causes of action, actions, claims, demands, lawsuits or other proceedings, (collectively, "Claims"), by whomever made, sustained, brought or prosecuted, including for third party bodily injury (including death), personal injury and property damage arising from the negligence, errors, omissions or wilful misconduct of the Supplier, its subcontractors or their respective directors, partners, officers, agents, employees or independent contractors in the course of performance of the Supplier's obligations under, or otherwise in connection with, the Agreement. The Supplier acknowledges that OFA holds the benefit of the indemnity in trust for itself and the Province and that OFA can enforce such indemnity on behalf of the Province. The Supplier also acknowledges and agrees that the Province can enforce such indemnity directly against the Supplier.

8.02 **Supplier's Insurance**
The Supplier shall maintain errors & omissions liability insurance (external coverage and/or self-insured coverage), insuring liability for errors and omissions in the performance or failure to perform the services contemplated in this agreement, in the amount not less than $5,000,000 per claim and in the annual aggregate.

8.03 **Supplier Participation in Proceedings**
The Supplier shall, at its expense, to the extent requested by OFA or the Province participate in or conduct the defence of any Claim against any Indemnified Parties referred to in this Article and any negotiations for their settlement. OFA or the Province may elect to participate in or conduct the defence of any such Claim by notifying the Supplier in writing of such election without prejudice to any other rights or remedies of OFA or the Province under the Agreement, at law or in equity. Each party participating in the defence shall do so by actively participating with the other's counsel. No settlement shall be entered into by the Supplier unless it has obtained the prior written approval of OFA or the Province, as the case may be. If the Supplier is requested by OFA or the Province to participate in or conduct the defence of any such Claim, OFA or the Province agrees to co-operate with and assist the Supplier to the fullest extent possible in the Claim and any related settlement negotiations. If OFA or the Province conducts the defence of any such Claim, the Supplier agrees to co-operate with and assist OFA or the Province to the fullest extent possible in the Claim and any related settlement negotiations; provided that no settlement of such Claim shall be entered into by any Indemnified Party unless it has obtained the prior written consent of the Supplier, such consent not to be unreasonably withheld.

8.04 The provisions of this Article survive the termination or expiry of the Agreement.

ARTICLE 9 – TERMINATION, EXPIRY AND EXTENSION

9.01 **Immediate Termination of Agreement**
OFA may immediately terminate the Agreement upon giving notice to the Supplier where:

(a) the Supplier is adjudged bankrupt, is insolvent, makes a general assignment for the benefit of its creditors or a receiver, liquidator or similar official is appointed on account of the Supplier's insolvency;

(b) the Supplier breaches any provision in Article 5 (Confidentiality and FIPPA) of the Agreement;

(f) the Supplier subcontracts for the provision of part or all of the Deliverables or assigns the Agreement without first obtaining the written approval of OFA; or

(g) the Supplier's acts or omissions constitute a substantial failure of performance;

and the above rights of termination are in addition to all other rights of termination available at law, or events of termination by operation of law.

9.02 **Dispute Resolution by Rectification Notice**
Subject to section 9.01, where the Supplier fails to comply with any of its obligations under the Agreement, OFA may issue a rectification notice to the Supplier setting out the manner and timeframe for rectification. Within seven (7) Business Days of receipt of that notice the Supplier shall either (a) comply with that rectification notice; or (b) provide a rectification plan satisfactory to OFA. If the Supplier fails to either comply with that rectification notice or provide a satisfactory rectification plan, OFA may immediately terminate the Agreement. Where the Supplier has been given a prior rectification notice, the same subsequent type of non-compliance by the Supplier shall allow OFA to immediately terminate the Agreement.

9.03 **Termination on Notice**
OFA reserves the right to terminate the Agreement, without cause, upon five (5) days written notice with or without cause.

9.04 **Termination for Non-Appropriation**
If this Agreement extends into a Fiscal Year subsequent to its execution, continuation of the Agreement is conditional upon an appropriation of moneys by the Legislature of Ontario (the "Legislature") sufficient to satisfy payments due under the Agreement. In the event that such moneys are not available as a result of: (i) non-appropriation by the Legislature for the Fiscal Year in which payment becomes due; and (ii) the payment being neither charged nor chargeable to an appropriation of the Legislature for a previous Fiscal Year, the OFA may terminate the Agreement upon giving notice to the Supplier and such termination shall be effective on the date of the beginning of the first Fiscal Year for which funds have not been appropriated.

9.05 **Supplier's Obligations on Termination**
The Supplier shall, in addition to its other obligations under the Agreement and at law:

9.06 **Supplier's Payment Upon Termination**
OFA shall only be responsible for the payment of the Deliverables provided under the Agreement up to and including the effective date of any termination. Termination shall not relieve the Supplier of its warranties and other responsibilities relating to the Deliverables performed or money paid. In addition to its other rights of hold back or set off, OFA may hold back payment or set off against any payments owed if the Supplier fails to comply with its obligations on termination.

9.07 **Termination in Addition to Other Rights**
The express rights of termination in the Agreement are in addition to and shall in no way limit any rights or remedies of OFA under the Agreement, at law or in equity

9.08 **Expiry of Agreement**

Please find attached a draft of a Non-Disclosure Agreement respecting obtaining advice from a financial adviser with respect to the Ontario Fair Hydro Plan.

Please note that this draft is preliminary, and we have a number of questions and concerns that are set out in the draft. We would like to point out that there is no agreement setting out the scope or nature of the services and the basis on which those services would be provided including the standard that is required from the adviser as well as conflict of interest requirements and other issues, and that the NDA does not replace such an agreement.

We have also attached a scan of an agreement that the OFA negotiated in 2004 to hire an adviser for a project relating to electricity finance as an example of such an agreement and the types of provisions that could be considered for inclusion in such an agreement.

Confidential and Privileged Legal Advice – April 1, 2017 – MOF LSB
Note regarding this NDA and the retention of an adviser:

We have a number of questions relating to this NDA, and issues that should be considered in retaining an adviser:

- We have not been able to confirm what the scope of the advice being sought is. If the advice is restricted to advising on market timing and potential demand for certain securities, this is more limited than broader advice relating to structuring the transaction;
- We think it should be clear who the adviser is working for, and how the advice will be presented to the Province. If the advice is going to be to the Ministry of Energy or the Minister of Finance, will be given through the OFA?;
- Are there potential conflicts of interest between the adviser's role as an adviser and as a potential underwriter or other business of the adviser?

In addition, it should be considered whether it is appropriate to have an adviser without an agreement for the services that the adviser would be providing. The NDA protects the Province with respect to the disclosure of the information to third parties, but it does not set out the role, responsibilities or other matters relating to conflicts or other duties of the adviser. Terms of such an agreement that may be considered in such a context include:

- Scope of engagement;
- Performance Warranty – setting out the standard to which the adviser is to carry out the work and provide advice;
- Copyright and IP provisions;
- Conflict of interest provisions – setting out the primary duties of the adviser and how they must conduct themselves with respect to any potential conflicts;
- Indemnities – setting out the adviser's indemnities to the OFA for certain risks.

Should the Supplier require the substitution or replacement of any of the individuals named in Schedule 1 (Proposal), it is understood and agreed that any proposed replacement must possess similar or greater qualifications than the individual named in Schedule 1 (Proposal). The Supplier shall not claim fees for any replacement individual greater than the Rates established under Schedule 1 (Proposal). The Supplier shall not use any insignia or logo of OFA or the Province.

6.03 **Ownership of Intellectual Property**
OFA on behalf of the Province shall be the sole owner of any Newly Created Intellectual Property. The Supplier irrevocably assigns to and in favour of OFA and OFA accepts every right, title and interest in and to all Newly Created Intellectual Property in the Deliverables, immediately following the creation thereof, for all time. OFA grants to the Province a perpetual, world-wide, non-exclusive, irrevocable, transferable, royalty-free, fully paid-up right and licence: (a) to use, execute, display, distribute, perform and reproduce, in any form, the Newly Created Intellectual Property in the Deliverables (b) to use, execute, make, have made, have used, display, distribute perform, reproduce and prepare, in any form, Derivative Work based on the Newly Created Intellectual Property in the Deliverables and (c) to practise and have practised any process or method (or both) associated with such Derivative Work;

To the extent that any of the Deliverables include, in whole or in part, the Supplier's Intellectual Property, the Supplier grants to OFA and the Province a licence to use that Supplier Intellectual

Property in the manner contemplated in this Article, the total consideration for which shall be payment of the Rates on the terms and to the Supplier by OFA.

6.04 **Presumption Governing Ownership**

The presumption governing the Agreement shall be that OFA on behalf of the Province shall be the sole owner of any Intellectual Property in any form contained in any of the Deliverables. If the Supplier's Intellectual Property forms any part of the Deliverables, the Supplier shall notify OFA of such prior to the delivery of the particular Deliverable containing any such Supplier Intellectual Property. In the absence of any such notice the presumption shall remain that OFA is the sole owner of any Intellectual Property contained in the Deliverables.

6.05 **Supplier's Grant of Licence**

For those parts of the Deliverables that are Supplier Intellectual Property, the Supplier grants to OFA and the Province, a perpetual, world-wide, non-exclusive, irrevocable, transferable, royalty-free, fully paid-up right and licence: (a) to use, execute, display, distribute, perform and reproduce, in any form, copies of those Deliverables and to practice and have practised any process or method (or both) associated with such Deliverables; and (b) to use, execute, make, have made, have used, display, distribute, perform, reproduce and prepare, in any form, Derivative Work based on those Deliverables and to practise and have practised any process or method (or both) associated with such Derivative Work; and (c) authorize other Persons including agents, contractors or sub-contractors to do any of the former on behalf of OFA or the Province, provided that the OFA and the Province shall be entitled to use and authorize other Persons to use the Supplier Intellectual Property for the purposes of the Province only and not for resale or other commercial exploitation thereof.

6.06 **No Restrictive Material in Deliverables**

The Supplier waives, and shall not incorporate into any Deliverables anything that would restrict the right of OFA or the Province to modify, further develop or otherwise use the Deliverables in any way that OFA or the Province deems necessary, or that would prevent OFA or the Province from entering into any contract with any contractor other than the Supplier for the modification, further development of or other use of the Deliverables. However, to the extent that any of the Deliverables constitutes any professional opinion, judgement or financial advice of the Supplier, the preceding sentence will not restrict or prevent the Supplier from addressing such opinions, judgements and financial advice solely to the OFA and the Province or from including customary assumptions, qualifications and limitations respecting reliance by parties other than the Indemnified Parties in such Deliverables.

6.07 **Supplier Representation and Warranty Regarding Third-Party Intellectual Property**

The Supplier represents and warrants that the provision of the Deliverables shall not infringe or induce the infringement of any Third-Party Intellectual Property rights. The Supplier further represents and warrants that it has obtained assurances with respect to any Third-Party Intellectual Property that any rights of integrity or any other moral rights associated therewith have been waived.

6.08 **Moral Rights**

The Supplier shall obtain waivers of all rights of integrity and any other moral rights in relation to the Deliverables from its employees, volunteers, agents and subcontractors and from any other party in the position to assert such rights in relation to any of the Deliverables, which waivers may be invoked without restriction by any person authorized by OFA or the Province to use the Deliverables.

6.09 **Copyright Notice**

The Supplier shall place a copyright notice in the following form on all recorded Deliverables it provides to OFA:

"© Queen's Printer for Ontario, 2004"

6.10 **Further Assurances Regarding Copyright**

At the request of OFA, at any time or from time to time, the Supplier shall execute and agrees to cause anyone in the position to assert rights of integrity or any other moral right (including its employees, volunteers, agents and subcontractors) to execute a written assignment of copyright and waiver of moral rights in the applicable Deliverable to the OFA in the forms set out in Schedule 2. The Supplier shall assist OFA in preparing any Canadian copyright registration that OFA considers appropriate. The Supplier will obtain or execute any other document reasonably required by OFA to protect the Intellectual Property of OFA.

6.11 **OFA May Prescribe Further Compliance**
OFA reserves the right to prescribe the specific manner in which the Supplier shall perform its obligations relating to this Article.

6.12 The provisions of this Article shall survive any termination or expiry of the Agreement.

ARTICLE 7 – CONFLICT OF INTEREST

7.01 The Supplier acknowledges it owes the OFA and the Province of Ontario a duty to promote the interests of OFA and the Province of Ontario in carrying out the Services. The overriding obligation the Supplier is to avoid actual or perceived conflicts between its private interests and those of OFA and the Province (including OFA and OEFC).

7.02 The Supplier shall not, in its provision of the Deliverables, engage in any activity, business or undertaking, whether as Supplier or otherwise, that could create a conflict of interest or potential conflict of interest. Included in the prohibitions on the Supplier are the following:

(a) engaging in any activity, business or undertaking that may conflict or be perceived as conflicting with the performance by the Supplier of the duties and obligations under this Agreement;

(b) directly or indirectly benefiting from any activity related to this Agreement otherwise than as specifically contemplated by this Agreement;

(c) circumstances where the supplier's other commitments, relationships or financial interests (i) could or could be seen to exercise an improper influence over the objective, unbiased and impartial exercise of its independent judgement; or (ii) could or could be seen to compromise, impair or be incompatible with the effective performance of its contractual obligations;

7.03 If required by the OFA for the purpose of complying with section 7.02 , the Supplier agrees to:

(a) file with the OFA a Plan to Prevent Conflict of Interest in respect of any particular actual or potential conflict of interest;

(b) file and cause its partners, directors, officers or employees who are providing the Services under this Agreement to file with the OFA declarations disclosing their interests in a manner equivalent to that set out in Section 13 of O.Reg 435/97 and their personal relationships (if any) with the firms and named individuals employed by or affiliated with OPG or any OEB licensed wholesale or retail electricity market participant in Ontario; and

(c) cause its partners, directors, officers or employees who are providing the Deliverables under this Agreement to execute confidentiality undertakings and provide copies to the OFA.

Upon the occurrence of any change in circumstance that renders any certificate or information filed or provided by the Supplier either incorrect or incomplete, the Supplier shall forthwith notify the OFA as set out in this Article of the change in circumstance in detail.

7.04 If any activities or prior activities of the Supplier could constitute an actual or potential conflict of interest in respect of this Agreement, the Supplier shall without delay make full, true and plain disclosure to the OFA of all relevant information about the particular activity, business or undertaking in question to the satisfaction of the OFA or its agent and abide by the decision of the OFA.

7.05 Upon any disclosure made by a Supplier or any other person in relation to the activities of the Supplier, of any activity, business or undertaking that could create a conflict of interest in respect of this Agreement, the OFA may, in its sole discretion:

(a) require that the Supplier:
  (i) deliver further and detailed particulars of the activity, business or undertaking;
  (ii) elect between the continuation of the Agreement and the continuation of the activity, business or undertaking concerned; and/or

(iii) institute measures which in the opinion of the OFA eliminate, resolve, isolate, diminish or nullify any perceived conflict of interest;

(b) terminate the Agreement effective upon written notice to such effect, and/or

(c) take such other steps as may be necessary to address the conflict including the institution of proceedings.

Where the OFA recommends that the Supplier take certain action, or refrain from taking certain action, the Supplier shall abide by the recommendation. The Supplier's failure to do so may result in the termination of the Supplier's Agreement in the sole discretion of the OFA.

7.06 Information disclosed by the Supplier to the OFA as contemplated under section 7.05 is confidential and shall not be disclosed to any person, except:

(a) on the consent of all parties;
(b) as required by law or by the order of a tribunal or court;
(c) such persons, if any, as the Supplier or the OFA may consult in respect of the conflict of interest; or
(d) in any proceedings between the OFA and the Supplier for breach of obligations under Article 7.

ARTICLE 8 – INDEMNITY AND INSURANCE

8.01 **Supplier Indemnity**
The Supplier hereby agrees to indemnify and hold harmless the Indemnified Parties from and against any and all liability, loss, costs, damages and expenses (including legal, expert and consultant fees), causes of action, actions, claims, demands, lawsuits or other proceedings, (collectively, "Claims"), by whomever made, sustained, brought or prosecuted, including for third party bodily injury (including death), personal injury and property damage arising from the negligence, errors, omissions or wilful misconduct of the Supplier, its subcontractors or their respective directors, partners, officers, agents, employees or independent contractors in the course of performance of the Supplier's obligations under, or otherwise in connection with, the Agreement. The Supplier acknowledges that OFA holds the benefit of the indemnity in trust for itself and the Province and that OFA can enforce such indemnity on behalf of the Province. The Supplier also acknowledges and agrees that the Province can enforce such indemnity directly against the Supplier.

8.02 **Supplier's Insurance**
The Supplier shall maintain errors & omissions liability insurance (external coverage and/or self-insured coverage), insuring liability for errors and omissions in the performance or failure to perform the services contemplated in this agreement, in the amount not less than $5,000,000 per claim and in the annual aggregate.

8.03 **Supplier Participation in Proceedings**
The Supplier shall, at its expense, to the extent requested by OFA or the Province participate in or conduct the defence of any Claim against any Indemnified Parties referred to in this Article and any negotiations for their settlement. OFA or the Province may elect to participate in or conduct the defence of any such Claim by notifying the Supplier in writing of such election without prejudice to any other rights or remedies of OFA or the Province under the Agreement, at law or in equity. Each party participating in the defence shall do so by actively participating with the other's counsel. No settlement shall be entered into by the Supplier unless it has obtained the prior written approval of OFA or the Province, as the case may be. If the Supplier is requested by OFA or the Province to participate in or conduct the defence of any such Claim, OFA or the Province agrees to co-operate with and assist the Supplier to the fullest extent possible in the Claim and any related settlement negotiations. If OFA or the Province conducts the defence of any such Claim, the Supplier agrees to co-operate with and assist OFA or the Province to the fullest extent possible in the Claim and any related settlement negotiations; provided that no settlement of such Claim shall be entered into by any Indemnified Party unless it has obtained the prior written consent of the Supplier, such consent not to be unreasonably withheld.

8.04 The provisions of this Article survive the termination or expiry of the Agreement.

ARTICLE 9 – TERMINATION, EXPIRY AND EXTENSION

9.01 **Immediate Termination of Agreement**
OFA may immediately terminate the Agreement upon giving notice to the Supplier where:

(a) the Supplier is adjudged bankrupt, is insolvent, makes a general assignment for the benefit of its creditors or a receiver, liquidator or similar official is appointed on account of the Supplier's insolvency;

(b) the Supplier breaches any provision in Article 5 (Confidentiality and FIPPA) of the Agreement;

(c) the Supplier breaches any provision in Article 7 (Conflict of Interest) of the Agreement;

(d) the Supplier, prior to or after executing the Agreement, makes a material misrepresentation or omission or provides materially inaccurate information to OFA;

(e) the Supplier undergoes a change in control which, in the sole opinion of OFA, adversely affects the Supplier's ability to satisfy some or all of its obligations under the Agreement;

(f) the Supplier subcontracts for the provision of part or all of the Deliverables or assigns the Agreement without first obtaining the written approval of OFA; or

(g) the Supplier's acts or omissions constitute a substantial failure of performance;

and the above rights of termination are in addition to all other rights of termination available at law, or events of termination by operation of law.

9.02 **Dispute Resolution by Rectification Notice**
Subject to section 9.01, where the Supplier fails to comply with any of its obligations under the Agreement, OFA may issue a rectification notice to the Supplier setting out the manner and timeframe for rectification. Within seven (7) Business Days of receipt of that notice the Supplier shall either (a) comply with that rectification notice; or (b) provide a rectification plan satisfactory to OFA. If the Supplier fails to either comply with that rectification notice or provide a satisfactory rectification plan, OFA may immediately terminate the Agreement. Where the Supplier has been given a prior rectification notice, the same subsequent type of non-compliance by the Supplier shall allow OFA to immediately terminate the Agreement.

9.03 **Termination on Notice**
OFA reserves the right to terminate the Agreement, without cause, upon five (5) days written notice with or without cause.

9.04 **Termination for Non-Appropriation**
If this Agreement extends into a Fiscal Year subsequent to its execution, continuation of the Agreement is conditional upon an appropriation of moneys by the Legislature of Ontario (the "Legislature") sufficient to satisfy payments due under the Agreement. In the event that such moneys are not available as a result of: (i) non-appropriation by the Legislature for the Fiscal Year in which payment becomes due; and (ii) the payment being neither charged nor chargeable to an appropriation of the Legislature for a previous Fiscal Year, the OFA may terminate the Agreement upon giving notice to the Supplier and such termination shall be effective on the date of the beginning of the first Fiscal Year for which funds have not been appropriated.

9.05 **Supplier's Obligations on Termination**
The Supplier shall, in addition to its other obligations under the Agreement and at law:

(a) provide OFA with a report detailing (i) the current state of the provision of Deliverables by the Supplier at the date of termination; and (ii) any other information requested by OFA pertaining to the provision of the Deliverables and performance of the Agreement;

(b) execute such documentation as may be required by OFA to give effect to the termination of the Agreement;

(c) comply with any other instructions provided by OFA, including but not limited to instructions for facilitating the transfer of its obligations to another Person; and

(d) return or destroy Confidential Information under secure conditions, as requested by the OFA and provide a certificate of an officer of the Supplier confirming that all Confidential Information has been returned or destroyed, subject to the right to retain one copy as set out in Section 5.02.

9.06 **Supplier's Payment Upon Termination**
OFA shall only be responsible for the payment of the Deliverables provided under the Agreement up to and including the effective date of any termination. Termination shall not relieve the Supplier of its warranties and other responsibilities relating to the Deliverables performed or money paid. In addition to its other rights of hold back or set off, OFA may hold back payment or set off against any payments owed if the Supplier fails to comply with its obligations on termination.

9.07 **Termination in Addition to Other Rights**
The express rights of termination in the Agreement are in addition to and shall in no way limit any rights or remedies of OFA under the Agreement, at law or in equity

9.08 **Expiry of Agreement**
The Agreement shall expire at the end of the Term.

9.09 The provisions of this Article survive the termination or expiry of the Agreement.

IN WITNESS WHEREOF the parties hereto have executed the Agreement effective as of the date first above written.

Considerations regarding this NDA and the retention of an adviser:

Some issues that should be considered in retaining an adviser:

- Exactly what is the scope of the advice being sought. If the advice is restricted to advising on market timing and potential demand for certain securities, this is more limited than broader advice relating to structuring the transaction;
- It should be clear who the adviser is working for, and how the advice will be presented to the Province.
- Are there potential conflicts of interest between the adviser's role as an adviser and as a potential underwriter or other business of the adviser?

In addition, it should be considered whether it is appropriate to have an adviser without an agreement for the services that the adviser would be providing. The NDA protects the Province with respect to the disclosure of the information to third parties, but it does not set out the role, responsibilities or other matters relating to conflicts or other duties of the adviser. Terms of such an agreement that may be considered in such a context include:

- Scope of engagement;
- Performance Warranty – setting out the standard to which the adviser is to carry out the work and provide advice;
- Copyright and IP provisions;
- Conflict of interest provisions – setting out the primary duties of the adviser and how they must conduct themselves with respect to any potential conflicts;
- Indemnities – setting out the adviser's indemnities to the MOE for certain risks.

~~**Note regarding this NDA and the retention of an adviser:**~~

~~We have a number of questions relating to this NDA, and issues that should be considered in retaining an adviser:~~

- ~~We have not been able to confirm what the scope of the advice being sought is. If the advice is restricted to advising on market timing and potential demand for certain securities, this is more limited than broader advice relating to structuring the transaction;~~

- ~~We think it should be clear who the adviser is working for, and how the advice will be presented to the Province. If the advice is going to be to the Ministry of Energy or the Minister of Finance, will be given through the OFA?;~~
- ~~Are there potential conflicts of interest between the adviser's role as an adviser and as a potential underwriter or other business of the adviser?~~

~~In addition, it should be considered whether it is appropriate to have an adviser without an agreement for the services that the adviser would be providing. The NDA protects the Province with respect to the disclosure of the information to third parties, but it does not set out the role, responsibilities or other matters relating to conflicts or other duties of the adviser. H Linda,

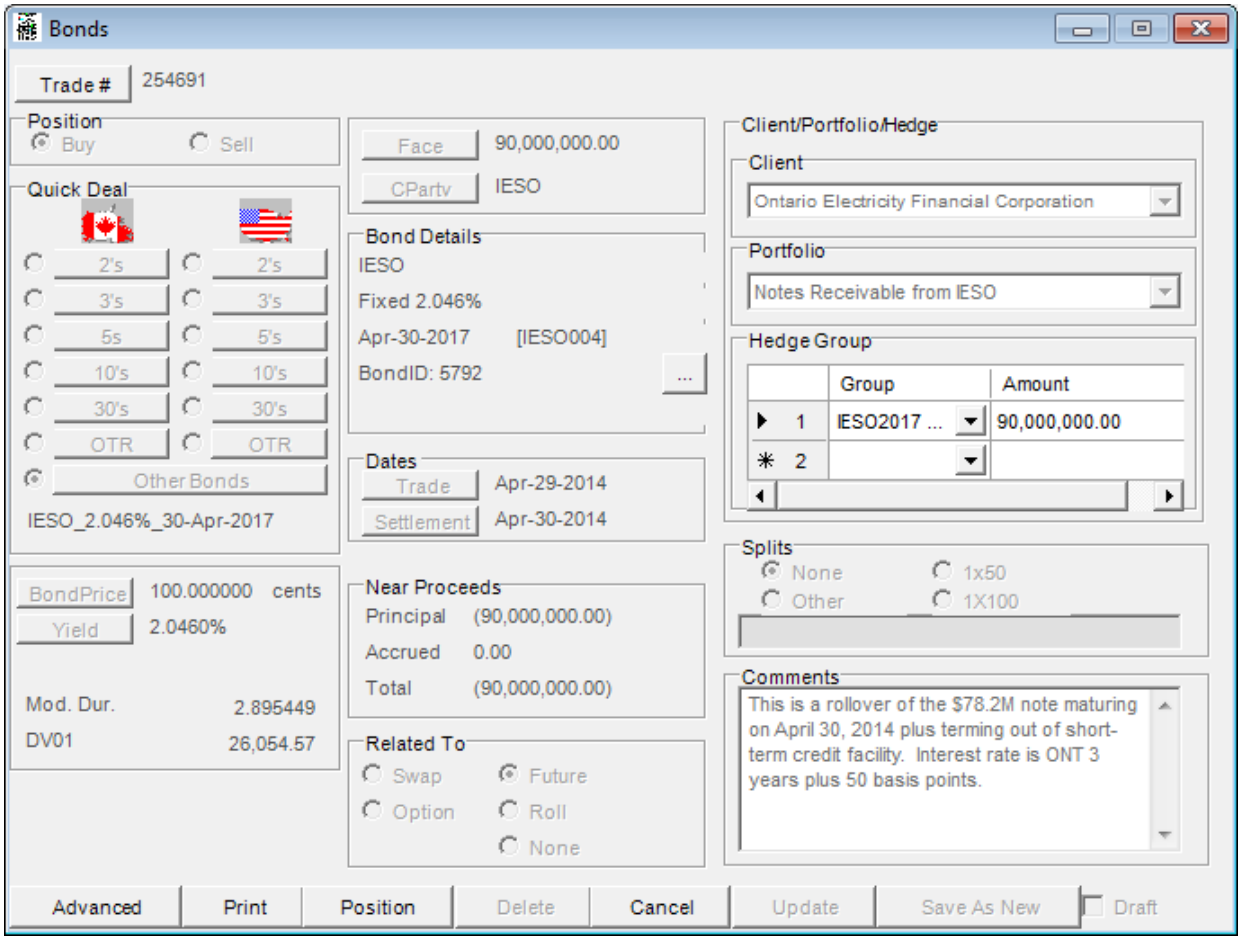
As you know, the OEFC-IESO $90M Note (trade below) is maturing on April 30th, and will be rolled over and increased to $120M per the signed directive (attached).



We are currently finalizing the agreement to be executed on Friday since the$90M note matures on Sunday, April 30th (with repayment due on May 1st).

Last time the note was increased back in April 2014, the trade was entered in ITS by Carlos. In speaking to Carlos about the note, and the forthcoming rollover and increase to $120M, Carlos was not yet aware of the that this transaction will be occurring. Lenin is not here to ask, but do you recall how this would have been communicated to Carlos (and Cash/Settlements) the previous time the note was rolled over and increased? As always, Documentation will be circulating an e-mail confirming the relevant details once we have fully executed the Agreement on Friday; is anything else required on our part?

Thanks,

Sarah

Whereas:

Under a directive dated April 8, 2014 issued by the Minister of Finance pursuant to sub-section 74(1) of the *Electricity Act, 1998,* Ontario Electricity Financial Corporation ("OEFC") was directed to lend to the Independent System Operator ("IESO") a principal amount of C$90 million (the "2014 Loan") for the purpose of refinancing debt in the principal amount of C$78.2 million owing from IESO to OEFC that matured on April 30, 2014 and to refinance $11.8 million owing under a revolving credit facility agreement between OEFC and IESO.

The terms of the 2014 Loan are set out in an agreement for the issuance of a note between IESO and OEFC dated April 1, 1999, as amended by amending agreement 1 dated March 23, 2000, amending agreement 2 dated April 23, 2009, amending agreement 3 dated May 1, 2011, amending agreement 4 dated May 1, 2013, and amending agreement 5 dated April 30, 2014 (as so amended, the "Loan Agreement").

It is now desirable to increase the 2014 Loan to a principal amount of up to C$120 million, and to extend the maturity date of the 2014 Loan to June 30, 2020.

Therefore:

Pursuant to sub-section 74(1) of the Electricity Act, 1998, OEFC is directed to lend to the IESO a principal amount of up to C$120 million (the "2017 Loan") during the period from May 1, 2017, to June 30, 2020 for the purpose of refinancing the 2014 Loan and to fund new IESO capital expenditures.

The 2017 Loan shall be subject to the following terms:

- The term of the 2017 Loan shall be for the period from May 1, 2017 to June 30, 2020.
- Interest shall be payable on the 2017 Loan at a rate established as of May 1, 2017, based on the Province of Ontario's cost of borrowing for the period from May 1, 2017 to June 30, 2020, determined by the Chief Executive Officer of OEFC or the Chief Operating Officer of OEFC, or by a person designated by either of them, plus fifty basis points (0.50%).
- The Loan shall be subject to such other terms as OEFC deems appropriate.

The terms of the 2017 Loan shall be set out in an amendment to the Loan Agreement between OEFC and the IESO.

ii) Retention of spread

Pursuant to Order in Council ####, made under sub-section 22(1) of CIPA, the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for the Line of Credit made under the authority of this Directive, the amount of the spread retained by the OFA shall be for the amount of the Spread as set out above.

DIRECTIVE

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

Pursuant to OIC ####, the Minister of Finance is authorized to lend a maximum of $2 billion to the OFA for the credit facility

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of short to medium term financing related to the OFHP.

~~The OFA will be borrowing funds for this requested credit facility under the authority of OIC ###.~~

Therefore:

i) **Line of Credit**

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate established as of [insert], equal to the Province's cost of funds as based on the term as set out the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread ~~to cover the OFA's lending costs~~ ("~~Cost Recovery Fee~~Spread").

- ~~Advances under t~~The Line of Credit will only be made at the request and on the recommendation of the Minister of Energy.

Commented [LS1]: Program area to confirm; differs from LRC form

Commented [SQ22R1]: Mentioned in s1 of LRC form:

oThis will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017* as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.

Commented [SQ23]: Should this be mentioned in the second Whereas recital?

Commented [LS4]: Program area

Commented [SQ25R4]: This is a revolving credit facility, rates would be established as the OFA deems necessary, as set out in the Credit Agreement.

Commented [SQ26]: This is simply a spread – I would not classify this as a cost recovery fee.

Commented [LS7]: Business decision; program area to confirm.

Commented [SQ28R7]: Not Advances. Only the Agreement itself.

Commented [LS9]: Further discussion required. This may require the Minister of Energy to be a party to the loan agreement.

Commented [SQ210R9]: This is incorrect. The Credit Agreement will be made at the request of and recommendation of Minister of Energy, if at all – not the advances. Minister of Energy won't be a party to the proposed agreement.

DRAFT

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than ~~five years after the execution of the Credit Agreement~~September 30, 2022.

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

ii) Retention of spread

Pursuant to Order in Council ####, made under sub-section 22(1) of CIPA, the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for the Line of Credit made under the authority of this Directive, the amount of the spread retained by the OFA shall be for the amount of the ~~Cost Recovery Fee~~Spread as set out above.

Dated , 2017

Charles Sousa

Minister of Finance

Commented [LS11]: Is this reasonable given the principal amount of the line? Previous draft provided had 40 year term (as per draft OIC). IESO has requested 5 year term in letter dated 05/12/17,

Commented [SQ212R11]: We made the decision to do the OIC for the entire OFHP period in order to avoid going back to LRC for a new OIC as we expect the requirement for a credit facility will be there.
The Directive is more aligned with the ask from IESO, and is meant to be a little tighter on the terms.

As per IESO request and previous drafts, this should say September 30, 2022.

Commented [LS13]: Confirm authorization is contained in new OIC

Commented [LS14]: As previously discussed, this is a business decision. My understanding is that this is generally retained only where there is commercial risk. Should this be remitted back to the Province?

Commented [SQ215R14]: We will be retaining this to remain consistent with past credit facility – unless otherwise advised.

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

Pursuant to OIC ####, the Minister of Finance is authorized to lend a maximum of $2 billion to the OFA for the credit facility

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of short to medium term financing related to the OFHP.

~~The OFA will be borrowing funds for this requested credit facility under the authority of OIC ###.~~

Therefore:

i) **Line of Credit**

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate established as of [insert], equal to the Province's cost of funds as based on the term as set out the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread ~~to cover the OFA's lending costs~~ ("~~Cost Recovery Fee~~Spread").

- ~~Advances under t~~The Line of Credit will only be made at the request and on the recommendation of the Minister of Energy.

Commented [LS1]: Program area to confirm; differs from LRC form

Commented [SQ22R1]: Mentioned in s1 of LRC form:

oThis will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017* as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.

Commented [SQ23]: Should this be mentioned in the second Whereas recital?

Commented [LS4]: Program area

Commented [SQ25R4]: This is a revolving credit facility, rates would be established as the OFA deems necessary, as set out in the Credit Agreement.

Commented [SQ26]: This is simply a spread – I would not classify this as a cost recovery fee.

Commented [LS7]: Business decision; program area to confirm.

Commented [SQ28R7]: Not Advances. Only the Agreement itself.

Commented [LS9]: Further discussion required. This may require the Minister of Energy to be a party to the loan agreement.

Commented [SQ210R9]: This is incorrect. The Credit Agreement will be made at the request of and recommendation of Minister of Energy, if at all – not the advances. Minister of Energy won't be a party to the proposed agreement.

DRAFT

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than ~~five years after the execution of the Credit Agreement~~September 30, 2022.

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

ii) Retention of spread

Pursuant to Order in Council ####, made under sub-section 22(1) of CIPA, the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for the Line of Credit made under the authority of this Directive, the amount of the spread retained by the OFA shall be for the amount of the ~~Cost Recovery Fee~~Spread as set out above.

Dated , 2017

Charles Sousa

Minister of Finance

Commented [LS11]: Is this reasonable given the principal amount of the line? Previous draft provided had 40 year term (as per draft OIC). IESO has requested 5 year term in letter dated 05/12/17,

Commented [SQ212R11]: We made the decision to do the OIC for the entire OFHP period in order to avoid going back to LRC for a new OIC as we expect the requirement for a credit facility will be there.
The Directive is more aligned with the ask from IESO, and is meant to be a little tighter on the terms.

As per IESO request and previous drafts, this should say September 30, 2022.

Commented [LS13]: Confirm authorization is contained in new OIC

Commented [LS14]: As previously discussed, this is a business decision. My understanding is that this is generally retained only where there is commercial risk. Should this be remitted back to the Province?

Commented [SQ215R14]: We will be retaining this to remain consistent with past credit facility – unless otherwise advised.

DRAFT

ii) Retention of spread

Pursuant to Order in Council ####, made under sub-section 22(1) of CIPA, the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for the Line of Credit made under the authority of this Directive, the amount of the spread retained by the OFA shall be for the amount of the Spread as set out above.

This is note that Sarah an I met with Mike Manning, Linda Smith and Carlos Yep on the topic of 25bps OFA would charge on advances to IESO and the difference paid to the Province of Ontario. Mike deferred to Ken Kandeepan for a decision. Ken provided instructions not to retain the 25bps for the $2.0 B, OFHP IESO Credit Facility because we currently generate enough profit to cover out operations.

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

Pursuant to OIC ####, the Minister of Finance is authorized to lend a maximum of $2 billion to the OFA for the credit facility

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of short to medium term financing related to the OFHP.

~~The OFA will be borrowing funds for this requested credit facility under the authority of OIC ###.~~

Therefore:

i) **Line of Credit**

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate established as of [insert], equal to the Province's cost of funds as based on the term as set out the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread ~~to cover the OFA's lending costs~~ ("~~Cost Recovery Fee~~Spread").

- ~~Advances under t~~The Line of Credit will only be made at the request and on the recommendation of the Minister of Energy.

Commented [LS1]: Program area to confirm; differs from LRC form

Commented [SQ22R1]: Mentioned in s1 of LRC form:

oThis will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017* as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.

Commented [SQ23]: Should this be mentioned in the second Whereas recital?

Commented [LS4]: Program area

Commented [SQ25R4]: This is a revolving credit facility, rates would be established as the OFA deems necessary, as set out in the Credit Agreement.

Commented [SQ26]: This is simply a spread – I would not classify this as a cost recovery fee.

Commented [LS7]: Business decision; program area to confirm.

Commented [SQ28R7]: Not Advances. Only the Agreement itself.

Commented [LS9]: Further discussion required. This may require the Minister of Energy to be a party to the loan agreement.

Commented [SQ210R9]: This is incorrect. The Credit Agreement will be made at the request of and recommendation of Minister of Energy, if at all – not the advances. Minister of Energy won't be a party to the proposed agreement.

DRAFT

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than ~~five years after the execution of the Credit Agreement~~September 30, 2022.

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

ii) Retention of spread

Pursuant to Order in Council ####, made under sub-section 22(1) of CIPA, the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for the Line of Credit made under the authority of this Directive, the amount of the spread retained by the OFA shall be for the amount of the ~~Cost Recovery Fee~~Spread as set out above.

Minister of Finance

Commented [LS11]: Is this reasonable given the principal amount of the line? Previous draft provided had 40 year term (as per draft OIC). IESO has requested 5 year term in letter dated 05/12/17,

Commented [SQ212R11]: We made the decision to do the OIC for the entire OFHP period in order to avoid going back to LRC for a new OIC as we expect the requirement for a credit facility will be there.
The Directive is more aligned with the ask from IESO, and is meant to be a little tighter on the terms.

As per IESO request and previous drafts, this should say September 30, 2022.

Commented [LS13]: Confirm authorization is contained in new OIC

Commented [LS14]: As previously discussed, this is a business decision. My understanding is that this is generally retained only where there is commercial risk. Should this be remitted back to the Province?

Commented [SQ215R14]: We will be retaining this to remain consistent with past credit facility – unless otherwise advised.

This is note that Sarah an I met with Mike Manning, Linda Smith and Carlos Yep on the topic of 25bps OFA would charge on advances to IESO and the difference paid to the Province of Ontario. Mike deferred to Ken Kandeepan for a decision.
Ken provided instructions not to retain the 25bps for the $2.0 B,
OFA will charge the 25bps spread but the 25bps will go towards interest on debt.
OFHP IESO Credit Facility because we currently generate enough profit to cover out operations.

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Two Billion Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

DIRECTIVE

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

Pursuant to OIC ####, the Minister of Finance is authorized to lend a maximum of $2 billion to the OFA for the credit facility

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of short to medium term financing related to the OFHP.

~~The OFA will be borrowing funds for this requested credit facility under the authority of OIC ###.~~

Therefore:

i) **Line of Credit**

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate established as of [insert], equal to the Province's cost of funds as based on the term as set out the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread ~~to cover the OFA's lending costs~~ ("~~Cost Recovery Fee~~Spread").

- ~~Advances under t~~The Line of Credit will only be made at the request and on the recommendation of the Minister of Energy.

Commented [LS1]: Program area to confirm; differs from LRC form

Commented [SQ22R1]: Mentioned in s1 of LRC form:

oThis will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017* as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.

Commented [SQ23]: Should this be mentioned in the second Whereas recital?

Commented [LS4]: Program area

Commented [SQ25R4]: This is a revolving credit facility, rates would be established as the OFA deems necessary, as set out in the Credit Agreement.

Commented [SQ26]: This is simply a spread – I would not classify this as a cost recovery fee.

Commented [LS7]: Business decision; program area to confirm.

Commented [SQ28R7]: Not Advances. Only the Agreement itself.

Commented [LS9]: Further discussion required. This may require the Minister of Energy to be a party to the loan agreement.

Commented [SQ210R9]: This is incorrect. The Credit Agreement will be made at the request of and recommendation of Minister of Energy, if at all – not the advances. Minister of Energy won't be a party to the proposed agreement.

DRAFT

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than ~~five years after the execution of the Credit Agreement~~September 30, 2022.

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

ii) Retention of spread

Pursuant to Order in Council ####, made under sub-section 22(1) of CIPA, the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for the Line of Credit made under the authority of this Directive, the amount of the spread retained by the OFA shall be for the amount of the ~~Cost Recovery Fee~~Spread as set out above.

Dated , 2017

Charles Sousa

Minister of Finance

Commented [LS11]: Is this reasonable given the principal amount of the line? Previous draft provided had 40 year term (as per draft OIC). IESO has requested 5 year term in letter dated 05/12/17,

Commented [SQ212R11]: We made the decision to do the OIC for the entire OFHP period in order to avoid going back to LRC for a new OIC as we expect the requirement for a credit facility will be there.
The Directive is more aligned with the ask from IESO, and is meant to be a little tighter on the terms.

As per IESO request and previous drafts, this should say September 30, 2022.

Commented [LS13]: Confirm authorization is contained in new OIC

Commented [LS14]: As previously discussed, this is a business decision. My understanding is that this is generally retained only where there is commercial risk. Should this be remitted back to the Province?

Commented [SQ215R14]: We will be retaining this to remain consistent with past credit facility – unless otherwise advised.

DRAFT

ii) Retention of spread

Pursuant to Order in Council ####, made under sub-section 22(1) of CIPA, the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for the Line of Credit made under the authority of this Directive, the amount of the spread retained by the OFA shall be for the amount of the Spread as set out above.

Hello Toby,

Please find the enclosed draft of the OFHP IESO OFA Credit Agreement. There are a few points I need to clear up with OFA Legal. I wanted to give you enough time to review, make comments and to see if there are any "show stoppers" we need to clear up. A few questions require you reply in yellow. Optimistically we wish to give IESO a copy by Monday.

Commented [WT6R5]: IESO $60 million Credit Facility 2010, Ken Russel discussed and settled this matter with then manager Annette Pivnick. We tend to provide for future possibilities even if the entity does not have subsidiaries at the time of the agreement.

Commented [WT8R7]: Agreed.

We would like to keep this for future credit facilities.

Commented [LS11]: I don't think this is necessary. Otherwise there are already references to "Credit Facility" throughout. There are also references to "Grid Note" in Schedule 3.

Commented [WT12R11]: This seems fine. I'll discuss with Sarah.

Hi Salman,

Thanks for the suggestion – makes sense. We can strip the reference to the Electricity Act, and propose a more general subsection 2.

Thanks,
Sarah

Hi Sarah,

Based on the information we have to date, I don't think we were thinking of imposing that same limitation of 12 month period but I see your point. I reread IESO request letter and suggest we do this instead to avoid lots of initial changes:

I. Change purpose to only state "short-term" needs:

1) Proceeds of Advances may be used only for short term financing requirements due to cash flow timing differences incurred as a result of IESO's role in the implementation and

administration of the Ontario Fair Hydro Plan Act, 2017.

II. Leave subsection 2 in there for now.

If IESO has issues, they can raise it in their comments back. Should we need "medium-term" financing, we can amend the agreement later as needed.

Thoughts?

Regards,
Salman

HI Salman,

One quick question re: subsection 2 below. Subsection 2 was added in amendment#7 of the $975M OFA-IESO existing credit facility; I think the idea was to ensure that any advance under the facility isn't rolled over for the entire term of the agreement, but that any one advance is limited to 12 months of rolls. Notwithstanding the reference to the Electricity Act in subsection 2, is the intention with this new credit facility to limit rolls to a 12 month period for any particular advance?

Thanks,
Sarah

Hi Toby/all,

I had a quick chat with Bruno as well and it may be best to leave it a little open in an effort to remain consistent with what we know for now. We can suggest IESO provide some more details in this statement for clarity based on how they see the borrowings to occur.

Hi William,

In being consistent with the Directive, I think the purpose of the credit facility can be written as follows, subject to any additional comments:

1) Proceeds of Advances may be used only for short to medium term financing requirements due to cash flow timing differences incurred as a result of IESO's role in the implementation and administration of the Ontario Fair Hydro Plan Act, 2017.

I don't think subsection 2 applies. When sending this to IESO, I recommend that we highlight the entire section and have them confirm or provide further details, especially the reference to the 423/04 regulation.

Salman

Subject: OFHP IESO OFA Credit Facility (Use of Proceeds)

Hi Toby and Salman,

May I ask both of your assistance in defining the use of proceeds from the IESO credit facility below?

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 423/04 made under the Electricity Act, 1998, subject to the following conditions:

(1) Proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and,

(2) With the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by the IESO under 25.33 of the Electricity Act, 1998, the IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance."

Toby, once Lisa has finished reviewing the IESO credit facility, I will implement her suggested changes and then circulate the draft for your review and comment.

Hello Toby,

Please find the enclosed draft of the OFHP IESO OFA Credit Agreement. There are a few points I need to clear up with OFA Legal. I wanted to give you enough time to review, make comments and to see if there are any "show stoppers" we need to clear up. A few questions require you reply in yellow. Optimistically we wish to give IESO a copy by Monday.

Commented [LS9]: Why was this added here? Please confirm with Carlos if necessary. Otherwise delete definitions/references throughout.

Commented [WT10R9]: Swap terminations can/may incur losses. This language was added in the IESO $60 million Credit Facility Agreement 2010 and $700 million OPG Credit Facility 2017.
We would like to keep this for future credit facilities.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance for a further period of 7 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

Commented [WT37R34]: Correction made above.

Commented [LS38]: Change to defined term throughout

Commented [WT39R38]: Will discuss with Sarah H. that this format is fine.

Commented [WT40]: Discussed the language with Carlos Yep. He is satisfied that Section 3.3.2 and 3.3.3 provides choice of either repayment or advance for a further period. The reset rate would apply to the portion that is extended. Unless I'm not understanding the question.

Commented [LS41]: This section and accompanying form needs further consideration/amendments. Need to add a provision re: interest rate for any such extension if applicable (unless treated as a late payment). LEGAL to review again.

Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the ~~IESO~~ Grid Note ~~promissory note~~ in respect of Advances held by it.
