Attachment 1: Fair Hydro Plan Act (April 20 2017) Consultation v3.docx

---

Hi Cindy

Not sure whether you have had a chance to review the latest version of the proposed legislation, if you have not yet provided comments, hopefully you can include ours as well given that the OFA comments are directed primarily towards the accounting and financing aspects of the draft legislation.

It appears that the clean energy adjustment (CEA) that is detailed in Part 3 is the mechanism for the recovery of the financing costs of the Trust from implementation to the point when repayment kicks in. Page 13 provides the computation of the CEA which is further detailed in Schedule 1, though note that Schedule 1 is still missing the section outlining how the funding costs are to be computed.

Now the way the accounting model works is that the interest costs or CEA will be recovered from the ratepayer via the invoice. In essence the deferral or the Clean Energy Benefit (CEB) includes the financing costs on the accumulated debt and is offset by another line, presumably the CEA, netting the CEB down to the required percentage of the GA.

Now page 11 under Rate Determination prescribes a 25% reduction in the invoice amount, however, nowhere does the legislation indicate the components of the 25%. However, page 8 prescribes what should be invoiced but specifically excludes penalties or interest.

In essence the draft may benefit from a restructuring as follows:

· Part 2 which prescribes the 25% reduction should be in Part 1 and should define

the components of the 25% either within the legislation or in a Schedule.

· The Sections on the 25% reduction should be followed by the specifics of what should be invoiced (now on page 8) and the components of the invoice should include the financing costs or CEA.

· The IESO funding shortfall on page 22 is a little confusing since the draft legislation prescribes the setting up of the regulatory asset that is equal to the funding shortfall and the sale of said asset. If the asset is sold then IESO has no funding shortfall to recover post May 1, 2022 as prescribed in Subsection 2 of page 22. Perhaps this section should be linked to the Financing Plan and the ability of the IESO to recover and remit as prescribed in the Financing Plan.

Thanks Cindy and happy to discuss either today at 647-202 -4373 or Monday.

All - Please find attached the next turn in the consultation draft (v.3) of the proposed legislation. We have been working to address the feedback that you provided earlier in the week. A number of points remain in progress. As with the earlier versions, by sharing this document, we hope to continue to advance our discussions.

Our timeline has been extended and we are now working to a pens down date of April 28th. We will not get another extension. Accordingly, we ask for your detailed, written comments on the draft, which we require no later than Sunday at noon.

We will continue to work on the bill in the interim, so earlier instructions are helpful to us. With your input on this timeline, we expect to be able to provide one more circulation around Tuesday or Wednesday next week.

We have not had the opportunity to add notes or to update our crosswalk to the Blakes summary document.

We look forward to receiving your written comments.

All - Please find attached the draft “Intergenerational Fairness in Hydro Rates Act, 2017”. A tremendous amount of work has gone into getting to this draft and much more work is required to get this ready for the House. The goal of sharing this document now is to further the process we have engaged in over the last weeks. In the attached, we have included notes to try to address where the drafting is not yet consistent with our thinking. These notes are neither comprehensive nor complete. They are intended

only as flags and as colour to the draft. We have not forgotten the comments that you have already provided and we are continuing to working through the translation of the commercial terms we have been discussing into legislative language.

For ease of reference, included with the draft bill are the partially updated Blakes' summary, a chart that attempts links the articles in that document to the sections of the bill (which is imperfectly numbered at best) and excerpts from the Electricity Act and the Ontario Energy Board Act, related to the consequential amendments.

In your review, please focus on the broad stroke concepts, rather than the minutia, and keep in mind the cascade of instruments that will be required – legislation first, then regulations and finally commercial agreements. We look forward to discussing the broader concepts on Monday

The Government of Ontario is committed to fostering the development of a clean, modern and reliable electricity system with a diverse supply mix. The Government is also committed to removing barriers to and promoting opportunities for renewable and clean energy projects.[1]

The Government of Ontario has established a regulatory framework related to the generation and sale of electricity, which has promoted and continues to promote significant investment to enable phasing out of coal fired generation, modernizing sites and facilities in the Province for the generation of electrical energy and the production therefrom,[2] and conservation and demand management.

The Government of Ontario is committed to ensuring that the costs of these investments, and the raising of money to fund the investments,[3] are allocated fairly among present and future generations of consumers.

Therefore, Her Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:

Sub-meter customers

(3) A specified consumer who provides electricity to a sub-meter customer and any unit sub-meter provider who provides unit sub-metering for the specified consumer shall ensure that the rate payable by each sub-meter customer is the rate determined under subsection (2).

(a) determined by the Board within seven business days after this section receives Royal Assent; and

(b) effective as of the first day of the calendar month immediately following the determination.

Fair adjustment, May 1, 2018 to April 30, 2022

7xx. The Lieutenant Governor in Council may, [to more fairly measure and allocate the clean energy costs and clean energy benefits among present and future generations of specified consumers,] make regulations prescribing the rate for electricity payable by specified consumers and sub-meter customers during the period beginning on May 1, 2018 and ending on April 30, 2022.

True up amount

(2) For the purposes of paragraph 2 of subsection (1), the Lieutenant Governor in Council may make regulations prescribing the method for determining the true up amount, having regard to the following principles:

1. The true up amount should serve to ensure that the collection of the clean energy adjustment is sufficient to pay the estimated finance amount when it is due.

2. The method for determining the true up amount should take into account historical and reasonably foreseeable,

Confidential Draft

The amount, if any, by which the estimated [clean energy costs] [clean energy benefits] to be allocated to specified consumers in respect of the reference period exceeds the estimated amount of [the global adjustment] that would be borne by the specified consumers in respect of clean energy costs [in the absence of this Act].

2. An allocable portion of the value of any fair adjustment, determined in accordance with subsection (3).

Principles

(2) In calculating the fair allocation amount [or in developing the fair allocation calculation?], subject to subsection (3), the Financial Services Manager shall have regard to the following principles:

Attachment 1: Fair Hydro Plan Act (April 20 2017) Consultation v3.docx

---

Hi Cindy

Not sure whether you have had a chance to review the latest version of the proposed legislation, if you have not yet provided comments, hopefully you can include ours as well given that the OFA comments are directed primarily towards the accounting and financing aspects of the draft legislation.

It appears that the clean energy adjustment (CEA) that is detailed in Part 3 is the mechanism for the recovery of the financing costs of the Trust from implementation to the point when repayment kicks in. Page 13 provides the computation of the CEA which is further detailed in Schedule 1, though note that Schedule 1 is still missing the section outlining how the funding costs are to be computed.

Now the way the accounting model works is that the interest costs or CEA will be recovered from the ratepayer via the invoice. In essence the deferral or the Clean Energy Benefit (CEB) includes the financing costs on the accumulated debt and is offset by another line, presumably the CEA, netting the CEB down to the required percentage of the GA.

Now page 11 under Rate Determination prescribes a 25% reduction in the invoice amount, however, nowhere does the legislation indicate the components of the 25%. However, page 8 prescribes what should be invoiced but specifically excludes penalties or interest.

In essence the draft may benefit from a restructuring as follows:

· Part 2 which prescribes the 25% reduction should be in Part 1 and should define

the components of the 25% either within the legislation or in a Schedule.

· The Sections on the 25% reduction should be followed by the specifics of what should be invoiced (now on page 8) and the components of the invoice should include the financing costs or CEA.

· The IESO funding shortfall on page 22 is a little confusing since the draft legislation prescribes the setting up of the regulatory asset that is equal to the funding shortfall and the sale of said asset. If the asset is sold then IESO has no funding shortfall to recover post May 1, 2022 as prescribed in Subsection 2 of page 22. Perhaps this section should be linked to the Financing Plan and the ability of the IESO to recover and remit as prescribed in the Financing Plan.

Thanks Cindy and happy to discuss either today at 647-202 -4373 or Monday.

All - Please find attached the next turn in the consultation draft (v.3) of the proposed legislation. We have been working to address the feedback that you provided earlier in the week. A number of points remain in progress. As with the earlier versions, by sharing this document, we hope to continue to advance our discussions.

Our timeline has been extended and we are now working to a pens down date of April 28th. We will not get another extension. Accordingly, we ask for your detailed, written comments on the draft, which we require no later than Sunday at noon.

We will continue to work on the bill in the interim, so earlier instructions are helpful to us. With your input on this timeline, we expect to be able to provide one more circulation around Tuesday or Wednesday next week.

We have not had the opportunity to add notes or to update our crosswalk to the Blakes summary document.

We look forward to receiving your written comments.

Subject: Ontario Fair Hydro Plan

All - Please find attached the draft “Intergenerational Fairness in Hydro Rates Act, 2017”. A tremendous amount of work has gone into getting to this draft and much more work is required to get this ready for the House. The goal of sharing this document now is to further the process we have engaged in over the last weeks. In the attached, we have included notes to try to address where the drafting is not yet consistent with our thinking. These notes are neither comprehensive nor complete. They are intended

only as flags and as colour to the draft. We have not forgotten the comments that you have already provided and we are continuing to working through the translation of the commercial terms we have been discussing into legislative language.

For ease of reference, included with the draft bill are the partially updated Blakes' summary, a chart that attempts links the articles in that document to the sections of the bill (which is imperfectly numbered at best) and excerpts from the Electricity Act and the Ontario Energy Board Act, related to the consequential amendments.

In your review, please focus on the broad stroke concepts, rather than the minutia, and keep in mind the cascade of instruments that will be required – legislation first, then regulations and finally commercial agreements. We look forward to discussing the broader concepts on Monday

Preamble

The Government of Ontario is committed to fostering the development of a clean, modern and reliable electricity system with a diverse supply mix. The Government is also committed to removing barriers to and promoting opportunities for renewable and clean energy projects.[1]

The Government of Ontario has established a regulatory framework related to the generation and sale of electricity, which has promoted and continues to promote significant investment to enable phasing out of coal fired generation, modernizing sites and facilities in the Province for the generation of electrical energy and the production therefrom,[2] and conservation and demand management.

The Government of Ontario is committed to ensuring that the costs of these investments, and the raising of money to fund the investments,[3] are allocated fairly among present and future generations of consumers.

(a) determined by the Board within seven business days after this section receives Royal Assent; and

(b) effective as of the first day of the calendar month immediately following the determination.

Confidential Draft

Transition

Fair adjustment, May 1, 2018 to April 30, 2022

7xx. The Lieutenant Governor in Council may, [to more fairly measure and allocate the clean energy costs and clean energy benefits among present and future generations of specified consumers,] make regulations prescribing the rate for electricity payable by specified consumers and sub-meter customers during the period beginning on May 1, 2018 and ending on April 30, 2022.

PART III
CLEAN ENERGY ADJUSTMENT

Specified consumers to pay clean energy adjustment

Irrevocability of clean energy adjustment

9xx. (1) The amount of the clean energy adjustment shown on an invoice issued to a specified consumer under this Act is determinative of the amount of the consumer's indebtedness created by the adjustment and is irrevocable upon invoicing the consumer and may not be set off or by passed.

Exception

(2) Subsection (1) does not apply to the extent that there is a calculation error by the electricity vendor.

Determination of clean energy adjustment

True up amount

(2) For the purposes of paragraph 2 of subsection (1), the Lieutenant Governor in Council may make regulations prescribing the method for determining the true up amount, having regard to the following principles:

1. The true up amount should serve to ensure that the collection of the clean energy adjustment is sufficient to pay the estimated finance amount when it is due.

2. The method for determining the true up amount should take into account historical and reasonably foreseeable,

Confidential Draft

i. differences between amounts billed and amounts collected due to various factors, including applicable taxes, consumer defaults and delays, billing lags and write-offs, and

Pro rating of payments

(3) If an electricity vendor receives a payment made by or on behalf of a specified consumer in respect of amounts payable under one or more invoices and the amount paid is less than the total amount payable, the electricity vendor shall allocate the payment on a pro rata basis to the clean energy adjustment and other amounts payable under the relevant invoices in respect of electricity charges for the same invoice period.

Held in trust

(4) All of the following amounts received by an electricity vendor shall, until paid to or for the benefit of the investment asset owner in accordance with subsection (5), be held in trust for the investment asset owners or a secured party to whom a security interest in an investment interest is granted under this Act:

(a) fairly measuring and allocating the estimated clean energy costs and estimated clean energy benefits among the specified consumers in respect of each reference period; and

(b) aligning funding obligations that may be incurred during each reference period with the allocation of the estimated clean energy costs and estimated clean energy benefits across present and future generations of specified consumers.

Amount

(1.1) The fair allocation amount in respect of a reference period is the sum of the following amounts:

1. The amount, if any, by which the estimated [clean energy costs] [clean energy benefits] to be allocated to specified consumers in respect of the reference period exceeds the estimated amount of [the global adjustment] that would be borne by the specified consumers in respect of clean energy costs [in the absence of this Act].

2. An allocable portion of the value of any fair adjustment, determined in accordance with subsection (3).

Principles

(2) In calculating the fair allocation amount [or in developing the fair allocation calculation?], subject to subsection (3), the Financial Services Manager shall have regard to the following principles:

Confidential Draft

1. Clean energy costs allocated to the specified consumers in respect of a reference period should be allocated in proportion to the clean energy benefits attributed to the specified consumers in respect of the reference period.

2. The clean energy benefits attributed to the specified consumers in respect of a reference period should be determined based on *[Insert principles]*.

3. The fair allocation calculation should include reasonable assumptions regarding the following:

    i. The time value of money or the rate of inflation, for the purpose of equating nominal amounts over time.

    ii. The expected number of specified consumers for each reference period.

    iii. The expected electricity consumption rates for each reference period.

Allocation of fair adjustment

(3) If, before the Financial Services Manager has calculated the fair allocation amount in respect of a reference period, a fair adjustment has been made under Part II in respect of the reference period, the calculation shall include a portion of the value of the fair adjustment in the fair allocation calculation for each future reference period.

Principles

(2) In preparing the Financing Plan, the Financial Services Manager shall have regard to the following principles:

1. Any incurrence of a funding obligation should reasonably align the expected finance amount determined under Schedule 1 that would become due and payable during a reference period with the fair allocation amount determined for the reference period under this Part as of the time of the incurrence, in each case after reducing the fair allocation calculation by the amount of any fair adjustment for the reference period.

2. Incurrences and transfers should be implemented in a manner that, as the Financial Services Manager considers to be reasonable, is cost effective and reflects prevailing market terms and conditions.

3. Reasonable assumptions should be made regarding such matters as may be prescribed.

[Note for reference: List of items for consideration in regulation: (a) anticipated IESO funding shortfalls and related transfer amounts; (b) the maturities of funding obligations; (c) the availability of refinancings, redemption opportunities and liquidity terms and conditions in order to achieve the objective contemplated in section X(1)(a); (d) the availability of currency and interest rate hedging facilities for the purpose of mitigating any differences between the expected finance amounts becoming due and payable during a reference period and the fair allocation amount for the reference period; (d) the amount and potential variability of interest rates and related financing costs; (e) available capital markets in which funding obligations may be incurred.]

Amendments to approved plan

(3) The Financial Services Manager may amend the Financing Plan at any time, without the approval of the Minister, subject to the requirements set out in this section.

Limitation, first five year period

(4) In respect of each reference period from May 1, 2017 to April 30, 2022, no funding obligation shall be incurred that would become payable during the reference period and result in a clean energy adjustment for the reference period unless,

Confidential Draft

(a) no fair adjustment has been made under Part II in respect of the reference period; or

(b) if a fair adjustment has been made under Part II in respect of the reference period, the funding obligations incurred would not be payable during the reference period in an amount that exceeds the [difference between the fair allocation amount for the reference period and the amount of the fair adjustment for the reference period].

Confidentiality of plan

(4) The Financing Plan is deemed to be a record subject to section 17 of the *Freedom of Information and Protection of Privacy Act.*

Implementation of Financing Plan

17xx. (1) The Financial Services Manager shall incur funding obligations and make transfers in material conformity with the applicable Financing Plan.

Same

(2) For greater certainty, section [paramountcy of funding obligations] applies despite the failure of the Financial Services Manager to comply with subsection (1).

Prohibition

(3) The Financial Services Manager shall not provide for funding obligations to be incurred with any recourse to any assets of an electricity vendor, the Board, the Province or the Lieutenant Governor in Council, except to the extent that any of these persons or entities may be liable to perform obligations or duties arising under this Act or under the express terms of a funding obligation.

All - Please find attached the next turn in the consultation draft (v.3) of the proposed legislation. We have been working to address the feedback that you provided earlier in the week. A number of points remain in progress. As with the earlier versions, by sharing this document, we hope to continue to advance our discussions.

Our timeline has been extended and we are now working to a pens down date of April 28th. We will not get another extension. Accordingly, we ask for your detailed, written comments on the draft, which we require no later than Sunday at noon.

We will continue to work on the bill in the interim, so earlier instructions are helpful to us. With your input on this timeline, we expect to be able to provide one more circulation around Tuesday or Wednesday next week.

We have not had the opportunity to add notes or to update our crosswalk to the Blakes summary document.

We look forward to receiving your written comments.

Subject: Ontario Fair Hydro Plan

All - Please find attached the draft “Intergenerational Fairness in Hydro Rates Act, 2017”. A tremendous amount of work has gone into getting to this draft and much more work is required to get this ready for the House. The goal of sharing this document now is to further the process we have engaged in over the last weeks. In the attached, we have included notes to try to address where the drafting is not yet consistent with our thinking. These notes are neither comprehensive nor complete. They are intended only as flags and as colour to the draft. We have not forgotten the comments that you have already provided and we are continuing to working through the translation of the commercial terms we have been discussing into legislative language.

For ease of reference, included with the draft bill are the partially updated Blakes’ summary, a chart that attempts links the articles in that document to the sections of the bill (which is imperfectly numbered at best) and excerpts from the Electricity Act and the Ontario Energy Board Act, related to the consequential amendments.

In your review, please focus on the broad stroke concepts, rather than the minutia, and keep in mind the cascade of instruments that will be required – legislation first, then regulations and finally commercial agreements. We look forward to discussing the broader concepts on Monday

Preamble

The Government of Ontario is committed to fostering the development of a clean, modern and reliable electricity system with a diverse supply mix. The Government is also committed to removing barriers to and promoting opportunities for renewable and clean energy projects.[1] These commitments can only be achieved if costs are shared fairly among consumers, today and in the future.

Electricity rates have risen for two key reasons. First, decades of under-investment in the electricity system resulted in the need to invest more than $50 billion in generation, transmission and distribution assets to ensure the system is clean and reliable. Second, the decision to eliminate Ontario's use of coal and produce clean, renewable power has created additional costs.

The actions taken to achieve a clean, modern and reliable electricity system have resulted in significant costs to consumers today. The burden of financing these system improvements and funding key programs has unfairly fallen almost entirely on the shoulders of today's consumers.

The Government of Ontario is committed to ensuring that the costs of financing these investments and the associated charges to consumers are allocated fairly among present and future generations of consumers.

Recognizing that the electricity infrastructure that has been built and the policy decisions that have been made will create benefits for years to come, costs should be allocated fairly over time, so that consumers in the future pay their fair share for the benefits that they receive from the investments already made.

2. A portion of the value of any fair adjustment that has been made under Part II in respect of any previous reference period.

Principles

(2) In calculating the estimated clean energy costs and estimated clean energy benefits to be allocated to specified consumers in respect of a reference period, the Financial Services Manager shall [comply with the regulations and] have regard to the following principles:

Confidential Draft

3. The fair allocation calculation should include reasonable assumptions regarding the following:

Confidential Draft

Principles

Any incurrence of a funding obligation should reasonably align with the estimated finance amount, as determined in accordance with the regulations, that would, subject to any refinancing, become due and payable during a reference period with the fair allocation amount determined in respect of the reference period under this Part as of the time of the incurrence, in each case after reducing the fair allocation calculation by the amount of any fair adjustment in respect of the reference period.

2. Incurrences should be implemented in a manner that, in the opinion of the Financial Services Manager, is reasonable, cost effective and that reflects prevailing market terms and conditions.

3. Reasonable assumptions should be made regarding such matters as may be prescribed.

Limitation, first five year period

(4) In respect of each reference period from May 1, 2017 to April 30, 2022, no funding obligation shall be incurred that would become payable during the reference period and result in amounts payable in respect of the clean energy adjustment in respect of the reference period unless,

(a) no fair adjustment has been made under Part II in respect of the reference period; or

(b) if a fair adjustment has been made under Part II in respect of the reference period, the funding obligations incurred would not be payable during the reference period in an amount that exceeds the [difference between the fair allocation amount in respect of the reference period and the amount of the fair adjustment in respect of the reference period].

Nadine,

I had a discussion today with Kevin Travers (KPMG Partner on the OPA account) and the topic of the OPA's regulatory assets and liabilities came up. In general the discussion was around whether or not the OPA position that the regulatory assets and liabilities are acceptably defined as financial assets and liabilities under the new PSAB standards. Kevin expressed KPMG's position that there is reasonable justification for our position. Should you wish to understand KPMG's position further, Kevin is willing to discuss this with you and can be reached at 416 228 7004.

Hi Nadine,

Glad we could be of help. 1 addition to the reference below I was just informed of … in reference to the Ontario Energy Board Act, it should include the year of inception (1998). It should read:

"… Ontario Energy Board Act, 1998 … "

Thanks,

Kevin

Subject: Provincial Protection Agreement - Dealer Comments

All,

We (Osler and the dealers) have discussed the several drafts of the Provincial Protections and Assurances Term Sheet that were circulated yesterday. Below are the issues the dealers would like to discuss. We understand that a meeting is being arranged for Monday.

1. In several places, the term sheet provides that decisions will be made by the Ministers or by the Ministers and the Financing Entity/Manager. There is no reference to the Indenture Trustee/dealers. For example, the third sentence of the document provides that the agreement will include "*such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate.*" Either all anticipated parties to the definitive agreement should have the benefit of statements of this nature or they should not be included.

2. The clause headed Specified Claims refers to “payment obligations” that are secured. Is there an intention to exclude any Obligations Secured (to use the Trust Indenture term)?

3. There was a request to expand the scope of the regulations covered to include “connected” regulations; the intention being to include the regulations relating to the recovery of interest during the moratorium period through the Global Adjustment. The Province did not make the requested change. Will these GA regulations be covered? They need to be.

4. While we understand the IESO LC for defaulted LDCs and the step-up pricing for warehouse take-out risk are not specifically the subject of this agreement, they are substitutes for provincial protections that were originally requested. We need to have confirmation that these issues have been resolved.

5. The requirement that the change of law have a “material” adverse effect is not acceptable.

6. We do not want the phrase “in a final and non-appealable judgement” being included in the *ultra vires* provision. Investors will be looking for timely payment.

7. We need it to be clear that the exclusion for “economic loss or loss of profits” does not cover the obvious economic loss/loss of profits that occurs when debt is not paid. The exclusion of consequential, special or punitive damages should be sufficient.

8. We need to understand exactly what is contemplated by an obligation to pay under the heading “Obligation to Pay Specified Claims” versus the option to assume under the heading of “Optional Assumption”. We do not see a distinction. We also note that in the subrogation section there is a reference to the Obligor as guarantor. Our view is that if a Protection Event occurs, the Province assumes all the obligations and is subrogated to all of the rights of the specified creditors against the Financing Entity and in respect of the clean energy adjustment. The Province can then retain as little or as much of the existing structure as it sees fit.

9. A proposal was made to address the issues arising from a post-default acceleration of the funding obligations by giving the province an option to assume the funding obligations to avoid acceleration. If that option is to be pursued, it would need to be in this term sheet. If it is not the solution, what is the solution?

10. We understand that the obligor approval mechanic has been deferred. Investors will need a provision that contemplates either (a) before each funding obligation is incurred, explicit confirmation by the Province that the provincial protection will apply to the protection, or (b) a process for non-specific approvals that the Financing Entity and the Province agree to implement that includes a provision to the effect that if a funding obligation is issued, the provincial protection is applicable. Put another way, the investors will have no obligation to insure that the province and the Financing Entity/Manager followed their agreed process for approvals.

We look forward to discussing.

All, attached are draft responses to the DBRS questions on the Change of Law Protection Agreement prepared by Torys. The attached is being circulated to all parties for review concurrently. We prepared the attached responses based on the most recent drafts of the agreements circulated by Torys (as a reminder, Nina circulated revised drafts last Friday (Nov 24) and I sent around a few minor updates on Wednesday of this week).

In order to ensure we are continuing to advance the rating agency process at an appropriate pace to meet our end of year financing deadline, OPG would like to respond these questions **by no later than Monday**. As such, we would appreciate if Osler and Blakes/the Province could let us know as soon as possible (and by Monday) if they are comfortable with the attached responses or if they have any comments. I would note that a few of the draft responses depend on whether or not the Province has accepted the language as proposed by Torys/Osler in the most recent drafts circulated.

In addition, we would appreciate if the Province could advise when we should expect to

see revised drafts of the Change of Law agreements – I understand that John Lee has discussed with the business folks and relayed that the documents will need to be circulated today in order to meet our deadlines.

Thanks,

Rima

Malle, Steve and Osler Team, attached are rating agency comments on the change of law protection agreement just received from DBRS. We are reviewing these concurrently but are circulating to all parties now in the interests of time (you will see that many of the comments are simply to provide notices to the rating agencies of certain events and there are also some questions about the subrogation mechanics that Blakes/Osler/Torys will need to consider).

Malle and Steve, I expect you previously received the comments communicated to the

dealers from Moodys – for ease of reference, I am attaching those comments to this email as well.

Subject: RE: UPDATED - Fair Hydro -- Change of Law Agreements

Malle and Steve, we received a few minor comments from the indenture trustee on the Protection Agreement which are reflected in the attached blackline. We also updated the attached change of law agreements to reflect the following:

n Provide the correct cross-reference in the definition of “executive officers”.

n Update the list of Initial Reference Documentation in Schedule A to the Process Agreement to remove the references to the term debt supplements, Master ISDA and OM (since the term deal is no longer closing this year, we are anticipating that those documents may not be finalized prior to execution of the change of law documents).

n A minor change to Section 3.01(e) of the Process Certificate provisions – as we were drafting the form of this certificate for OPG, we realized that the clause didn’t work as drafted because it required OPG to make a forward-looking certification tied to a rolling Protection Agreement Maximum. Whenever certified primary obligations are incurred, OPG will certify that the principal payable under those certified primary obligations (together with all other principal repayments in respect of Approved Obligations as of

that date) do not exceed the Protection Agreement Maximum at the time of incurrence.

Blacklines are to the versions Nina circulated on Friday. Happy to discuss if you have any questions.

Thanks,

Rima

Hi Malle, I appreciate there may have been more blacklining than you expected, but we didn't view the changes as deviating from our business discussion last week. From our perspective, the changes were mainly clean up in nature and we tried to include explanatory footnotes to the revisions so you understood our rationale for the changes. The only point we think we need to discuss is how the assumption is intended to work given that we understand the Province is no longer requiring a right to exchange the Fair Hydro bonds with Provincial bonds — this wasn't a point we discussed in any detail in our meeting so I think we we need to just talk through how we think this would work and then address in the docs as appropriate.

We are on standby and will make ourselves available to discuss at your convenience.

Thanks,

Rima

As a follow up to my email below and given the challenges with all our schedules, we thought it prudent to block off some time on Monday to discuss the revised

Change of Law Agreements. I can confirm that Torys is available for a call between 9:30 am and 2 pm on Monday. Please let us know what times work for you in that window and we will circulate a dial-in.

Blakes team,

Please find attached consolidated comments from the dealers and OPG (and their counsels) on the draft documents circulated below. These changes are drafting changes and clean up changes that reflect our discussions from earlier this week where we addressed all the open business points. Where we changed a concept or revised the drafting, we provided an explanation in the footnote to assist in your review.

The one substantive point we think requires further discussion is on the assumption mechanics; we understand that the Province is no longer seeking an exchange right. Once you have digested these new drafts, we'd like to schedule a lawyers call early next week to finalize them.

Best Regards,
Nina

Hi Rima. Here are my mark-ups of the agreements Torys circulated yesterday afternoon. These versions have not been reviewed by the Province, but are being circulated to this group to facilitate a discussion shortly at your office. They are/remain subject to Province input, etc. We propose to gather at your office at 5:45, if that makes sense to you. Regards, Steve

DBRS Comments (Change of Law Protection Agreement).pdf

DBRS Comments on Change of Law Protection Agreement

Below are DBRS comments on the draft Change of Law Protection Agreement sent to DBRS on November 22. Our responses are noted below each comment.

(1) Will there be a legal opinion addressing the binding nature and enforceability of the Protection Agreement on its terms?

> ***Torys Response***: Yes, legal opinions regarding the enforceability of the Change of Law Protection Agreement will be delivered on closing (subject to customary limitations for enforceability opinions delivered in respect of contracts executed by the Province).

(2) Section 1.15: DBRS expects any material amendment or material waiver to the agreement to be subject to a RAC and prompt notice of any other amendments/waivers/consents.

> ***Torys Response***: We will make these changes.

(3) Section 2.01: Please provide DBRS prompt written notice of a Protection Event.

> ***Torys Response***: We will make this change.

(4) Section 2.01 (a): "Payment Date" is not defined in this Agreement. Is the reference to the Guarantee Payment Date?

> ***Torys Response***: This was a typo. The reference to "Payment Date" will be changed to "Guarantee Payment Date".

(5) Section 2.01 (a)(iv)(ii): Subrogated Amounts: this calculation is confusing and seems to missing the next prong "y". Is the subrogated amount the amount that has been actually paid to the Beneficiary by the Province in relation to the amounts payable from amounts available?

> ***Torys Response***: This will be revised to refer to the lesser of (x) and (y).

(6) To the extent the amounts paid by the Province into the Protection Account exceed the amounts payable to Beneficiary from amounts available – is that excess the subrogation amount or is that excess just returned to the Province?

> ***Torys Response***: Any excess amount would be returned to the Province.

(7) As a general comment: With respect to subrogation amounts owing to the Province - the Province seems to maintain a subrogated claim against the Financing Entity that has the same ranking as the Beneficiary obligation that has been paid by the Province and that subrogated claim is to be paid on the same date the amounts on deposit in the Protection Account are paid to the Beneficiary (i.e. the Province's subrogated claim becomes a Specified Creditor under the Trust Indenture and potentially ranks in priority or pari passu to all other securityholders claims depending on applicable Beneficiary's obligation's respective ranking within the trust indenture waterfall). How will this subrogated claim be satisfied – from what resources? Why has the right

of subrogation of the guarantor (the Province) not been postponed until after all the rated obligations have been paid in full?

> ***Torys Response***: Prior to a Protection Event, payments owing to Specified Creditors are satisfied through collection of the Clean Energy Adjustment amounts. Upon the occurrence of a Protection Event and delivery of a Payment Demand, the Province will be required to make all payments under Approved Obligations (i.e. Specified Creditors will be looking to the Province to make payments when due, instead of relying on the collection of Clean Energy Adjustment amounts). However, notwithstanding the occurrence of a Protection Event triggering the Limited Guarantee, the Fair Hydro program may remain in place and Clean Energy Adjustments may continue to be billed and collected. In such a circumstance, while the Province will be required to make payments under all Approved Obligations as they come due, the Province (in place of Specified Creditors) would be entitled to receive any Clean Energy Adjustment amounts that are billed and collected i.e. the Clean Energy Adjustment amounts constitute the Subrogated Amounts.

(8) Section 4.02: Adherence Obligations: With respect to Funding Obligations under a certain amount that do not need to meet the Adherence Conditions, what would those Funding Obligations consist of? Are these limited amounts still treated as Primary Obligations pursuant to which the guarantee obligation applies?

> ***Torys Response***: All Funding Obligations (and all other finance amounts) constitute Primary Obligations pursuant to which the Change of Law Protection Agreement applies; however, there is a subset of Funding Obligations for which the Adherence Conditions must be satisfied.
>
> The Agreement will be revised to make clear that there are no Adherence Conditions applicable to Funding Obligations that are not "Certified Primary Obligations". "Certified Primary Obligations" will mean Primary Obligations that are payment obligations that are: (i) incurred by or on behalf of the Financing Entity to fund its ownership of an Investment Interest or to repay payment obligations that were incurred by or on behalf of the Financing Entity to fund its ownership of an Investment Interest, (ii) incurred by or on behalf of the Financing Entity upon the Financing Entity entering into a Derivative Agreement, in which case the Certified Primary Obligation therefor shall be the Master Agreement applicable to such Derivative Agreement and not each individual trade confirmation, or (iii) incurred by or on behalf of the Financing Entity upon entering into a contract that has a term of more than three (3) years which is not terminable by the Financing Entity giving three (3) years' notice or less and aggregate payments by the Financing Entity thereunder during the term of such contract is in excess of C$5,000,000 (that, for greater certainty, is not otherwise captured in clauses (i) and (ii) above).

(9) Section 4.03: Is 4.02(b)(x) a typo? There is no "x" in 4.02(b)?

> ***Torys Response***: This is a typo and will be corrected.

(10) Section 5.01 (a): As per the question above on section 2.01(a)(iv)(ii), please clarify how the Subrogation Amount is calculated (if not based on the actual amount paid by the Province in respect of amounts payable).

Torys Response: Please see response to question (7) above.

(11) Section 6.01: Why is it at the Province's election to provide the Indenture Trustee notice of the Province's election to assume the Financing Entity's Obligations Secured? Under what circumstances would the Province decide not to provide the Indenture Trustee notice of its election to assume? In any event, DBRS expects to receive prompt written notice of an election to assume and copy of any such Assumption Notice.

Torys Response: As described in response to question (7), upon the occurrence of a Protection Event and delivery of a Payment Demand, the Limited Guarantee is triggered and the Province is obligated to make all payments in respect of Approved Obligations. However, notwithstanding the Limited Guarantee taking effect, the Financing Entity will continue to exist and the entire program structure may stay in place (and Clean Energy Adjustment amounts may continue to be billed and collected). The assumption right of the Province has been included to provide the Province with the flexibility to wind-up the Financing Entity and dismantle the program by assuming all of the Obligations Secured. In either case, following the occurrence of a Protection Event, the Province will be obligated to make all payments in respect of Approved Obligations.

We will add a rating agency notice requirement and a covenant to deliver to the rating agencies a copy of the Assumption Notice as requested.

(12) Section 6.04: How long can the Interim Period be in effect during the implementation and completion of the assumption terms? Are the securityholders and Indenture Trustee stayed from accelerating and enforcing if there is an Event of Default under the rated notes during the Interim Period? Are there any other restrictions on the SPV Financing Entity and/or the securityholders during the Interim Period?

Torys Response: The details of any assignment and assumption by the Province will be addressed in the supplemental indenture relating to a particular issuance of Funding Obligations. Securityholders and the Indenture Trustee will not be stayed from accelerating and enforcing if there is an Event of Default under the rated notes during the interim period.

While there are no restrictions on the Financing Entity during the interim period, under a process agreement between OPG and the Province, after the occurrence of any Protection Event, OPG has agreed that it shall not, without the Province's prior written consent, permit the Financing Entity to exercise any redemption, pre-payment, early termination or extension right in respect of any Approved Obligation or exercise any other election or privilege in respect of any Approved Obligation, in each case if as a result the obligations applicable to the Approved Obligation under the Change of Law Protection Agreement would be accelerated, delayed or otherwise affected.

(13) Section 8.01: Under this section the Province may declare at any time for any reason that the guarantee shall not apply to any Obligation Secured incurred on after the date of such declaration (other than the refinancing of a previously incurred funding obligation) by delivering a "Suspension Notice" to the Indenture Trustee/OPG/SPV.

Please provide DBRS with prompt written notice of any such Suspension Notice.

Torys Response: We will make this change.

Please confirm how the Suspension Notice would apply with respect to refinancing, increases or issuances up the program limits under the Warehouse Supplement. For example if a suspension notice is issued does the suspension apply to any issuance of notes for the purposes of refinancing outstanding ABCP? Or does this type of refinancing fall within the carve-out from a suspension notice, "Refinancing of a Primary Obligation" noted in this section 8.01?" Further, will issuances after the Suspension Notice but up to the program limit or already permitted increases be subject to a Suspension Notice?

Torys Response: Any debt issued on a refinancing of a Primary Obligation in respect of which the Adherence Conditions had been satisfied prior to delivery of the Suspension Notice (which will include the debt issuable under the Warehouse Supplement) will continue to have the benefit of the Limited Guarantee following the delivery of the Suspension Notice. In other words, any debt issued on the refinancing of "protected debt" will continue to be "protected debt" following the Suspension Notice. Except for refinancing of protected debt, no other Primary Obligations incurred after the delivery of a Suspension Notice will have the benefit of the Limited Guarantee.

(16) Section 8.03: Please provide DBRS with prompt written notice of any such Termination Notice.

Torys Response: We will make this change.

(17) Section 9.03: Please provide DBRS with prompt written notice of any assignment.

Torys Response: We will make this change.

(18) Definitions: Approved Obligation Amount (subsection (b)): Where an acceleration has occurred, how will this calculation address circumstances under which the CEA is no longer able to be charged or collected? Where amounts that would be available to be paid is compromised in some way and acceleration has occurred, could the Approved Obligation Amount be nil?

Torys Response: Subsection (b) of the definition of an Approved Obligation Amount provides that this amount is to be determined on the assumption that the amount available for allocation to Specified Creditors is equal to the estimated finance amount determined in respect of such reference period divided by the number of months in the reference period. In other words, the amount payable under the Limited Guarantee following a Protection Event would be determined in the same way that the amount payable through CEA collections would have been determined prior to the Protection Event. The

Approved Obligation Amount is by definition a positive amount payable in respect of an Approved Obligation and could therefore not be a nil amount.

The TPA, section 1.1 (g) requires us to add a reference for the definition of "non-controlled trust". This does not exist.

However, control is explained in GOVERNMENT REPORTING ENTITY, paragraphs PS 1300.07-.24.

The lawyer needs to change the reference to say that it should not meet the control as defined in paragraphs PS 1300.07-.24.

Thanks for the update Mark. This is certainly supportive of the control conclusion that was reached, as well as the logic of the arguments presented.

Cheers

Hi Michel,

Yes, I mimicked the worksheet provided in January for the 2018 AGM. I calculated 81% attendance with 59% Province --- lower due to the secondary offering but still above 50% -- with 63% of minority s/h participation in the vote. That is consistent with the argument we've put forth that we still vote the majority at the AGM even at <50%.

Cheers,

Mark

Nadine,

The TPA, section 1.1 (g) requires us to add a reference for the definition of "non-controlled trust". This does not exist.

However, control is explained in GOVERNMENT REPORTING ENTITY, paragraphs PS 1300.07-.24.

The lawyer needs to change the reference to say that it should not meet the control as defined in paragraphs PS 1300.07-.24.

Hi Alex:

Please find attached tracked and clean versions of the TPA and Declaration of Trust. Tracked versions are tracked from the versions you had shared on March 13. You will note that there are comments in the TPA and Declaration indicating areas that we are working with Blakes to finalize.

We would recommend, as discussed, that Hydro One share these current versions with KPMG, as well as Computershare, so that we can work to resolve identified issues.

Can Hydro One advise if it will not be possible to share comments back with us for 3 PM tomorrow?

We would like to set up a call tomorrow afternoon to discuss comments. Can you advise of a preferred time for a call?

A few other follow-ups:

· We have confirmed internally that Computershare can establish an interim Trust account using their existing banking relationship with BNF. Can you confirm once this (and the TPA/Decl if you agree to share) is communicated with Computershare?

· Can you please share the Computershare Trustee(s) contact details? We understand that the Trustees will have to be recognized in the Declaration of Trust.

· Can you share the administrative service agreement for the Ministry's review today? Our interest in seeing this is to have comfort that it will be ready for signing by Computershare on Monday or Tuesday of next week.

Thanks again to you and your team for working with us on these tight timelines.

- Emma

(ii) electricity use and efficiency levels of non-commercial electricity customers;

(iii) specific regional indicators of economic weakness and need; and/or

(iv) such other factors as the Trustee may determine are relevant, including based on the submissions, advice and recommendations of Electricity Distributors made on the basis and in accordance with the delegations contemplated by the Permitted Delegations Annex or any applicable Administrative Services Agreement.

1.3 An efficient basis upon which to allocate funds to the Primary Beneficiaries across different areas and regions within the Province may be based on the designated areas and regions serviced by the Electricity Distributors operating within the Province.

1.4 The designated Electricity Distributor for an area or region in which a Primary Beneficiary resides will:

(i) be a reliable source for the purpose of assessing and confirming whether the Primary Beneficiary satisfies the Selection Factors;

(ii) be an efficient intermediary for the purpose of communicating with the Primary Beneficiary, including regarding the availability, terms, conditions and intended purposes of [Project][8];

(iii) be able to efficiently integrate and reflect any distribution payments determined to be made to the Primary Beneficiary within its established practices, procedures and systems; and

(iv) have established contractual arrangements with the Primary Beneficiary that may apply to the protection and confidentiality of information provided by or respecting the Primary Beneficiary, which information may be useful in the consideration by the Electricity Distributor in its assessment of whether the Primary Beneficiary satisfies the Selection Factors, which information may not otherwise be available or readily accessible or verifiable by the Trustee.

1.5 The designated Electricity Distributor for an area or region in which a Primary Beneficiary resides will have market and utilization information that may be useful in assessing the relative needs of Primary Beneficiaries within its designated area or region. Such information will be relevant in assessing the extent to which one such Primary Beneficiary's financial needs and the merits of its Energy Plan are greater or more compelling than those of another such Primary Beneficiary, which comparison may be relevant to the extent that the funds allocable to the Primary Beneficiaries resident in the area or region are otherwise insufficient to meet the requests for funding by all such Primary Beneficiaries.

[8] Consider if the Trustees should control the messaging to ensure consistency across the Province.

1.6 Accordingly, it is consistent with the purposes of the Trust that the recommendations of Electricity Distributors be utilized and relied upon by the Trustee to guide the process of identifying particular Primary Beneficiaries for distributions under the [Project].

1.7 If an Electricity Distributor for a particular area or region is unable or unwilling to assess or confirm the application of the Selection Factors to Primary Beneficiaries residing in the area or region or to make recommendations in relation to such matters, one or more of the following may provide a suitable alternative source of information and for information gathering, assessment and confirmation purposes in relation to such area or region:

(i) other Electricity Distributors operating in adjacent or other areas or regions in the Province;

(ii) the Ontario Energy Board;

(iii) the Independent Electricity System Operator; and

(iv) anyone else having relevant expertise and access to information regarding the electricity market of the Province, in each case as may be considered relevant by the Trustee.

1.8 To the extent that privacy law or other legal requirements limit an Electricity Distributor from providing or making available specific information respecting the application of the Selection Factors to a particular Primary Beneficiary or group of Primary Beneficiaries, it may be appropriate to redact or make generic affected information regarding such Primary Beneficiary in connection with the identification and confirmation of a Primary Beneficiary's eligibility and participation in the [Project]. If such limitations or restrictions would limit an Electricity Distributor from providing or confirming the name of a particular Primary Beneficiary to the Trustee, then it should be sufficient that such information may be obtained or disseminated on a confidential basis if and when required by the Trustee for the proper administration of the Trust and on that basis such impediments should not disqualify a Primary Beneficiary from participating in the benefits of the [Project], to the extent that the confidential record-keeping of the Electricity Distributor would be available in connection with the application of any applicable legal process predicated on the identification of such Primary Beneficiary for the purposes of substantiating its rights as a Primary Beneficiary of the Trust or as to the validity or subsistence of the Trust.

2. Eligible Measures

2.1 Eligible Measures shall be identified having regard to the following (the "**Measures Factors**"):

(i) [NTD: Insert generic list of considerations relevant to the identification of the applicable spending uses].

2.2 In identifying and applying the Measures Factors, Electricity Distributors will have expertise in assessing the suitability of efficiency and conservation measures in their

respective areas and regions, which may differ across areas and regions across the Province based on factors (among other things) such as the climate, geography, density, electricity infrastructure, residential structures, and electricity use rates applicable within such areas or regions.

2.3 Unless otherwise specified by the Trustees, the measures specified in Schedule A to this Principles Annex will be considered.

3. Other

3.1 It is expected that administrative expenses of the Board of Trustees and its members, including any expenses relating to the Trust, to the establishment of the [Affordability Fund] and any expenses related to the implementation and operation of the [Project] by or through Electricity Distributors and other relevant entities, will be recognized and subject to reimbursement in accordance with the principles outlined in the [Province's Transfer Payment Accountability Directive/Travel, Meal and Hospitality Expenses Directive][9], in the form attached to Schedule B to this Principles Annex.

3.2 The Trustee is expected to conduct its activities to ensure that, as more specifically contemplated in the Transfer Payment Agreement:

(i) the Assets are applied are spent prudently and in furtherance of the purpose set forth in the Declaration;

(ii) the Trustee is accountable to the Province for activities undertaking in connection with the Project;

(iii) it complies with the Province's request for any independent verification or audit determined to be necessary or appropriate by the Province;

(iv) the Province will be entitled and has reserved its right to demand the return of the Assets if the Province determined that they are not being used for the purposes and applied in the manner as set forth or contemplated in the Declaration.

3.3 Electricity Distributors are not intended to directly profit from distributions of funds made from the Trust, although it is recognized that the objectives of electricity efficiency and conservation of Primary Beneficiaries located in the service area or region of an Electricity Distributor, and the cost savings and improved credit worthiness of such Primary Beneficiaries, may be financially beneficial to the Electricity Distributor.

3.4 Distributions from the Trust are intended to allow receiving Primary Beneficiaries to undertake Eligible Measures at no or minimal personal cost.

3.5 It is expected that the Trust Assets will be distributed to Primary Beneficiaries during the period from the Original Trustee Replacement Date to [the Final Distribution Date] [March 31, 2019].

PERMITTED DELEGATION ANNEX

1. Under Section 4.2(d) of the Declaration, the Trustee has the power to: (A) appoint, employ or retain Administrative Services Agents for the purpose of discharging its duties and obligations under the Declaration; and (B) enter into, perform, enforce and amend Administrative Services Agreements.

2. In accordance with [Section 4.2] of the Declaration, consistent with the principles set forth in the Principles Annex, the Trustee or its agent will seek to enter into one or more Administrative Services Agreements with individual Electricity Distributors under which the Electricity Distributors will act as Administrative Service Agents to the Trustee. In this manner, the Trustee will delegate certain of its powers and duties to the Electricity Distributors.

3. Under Section 5.1 of the Declaration, to the extent the Trustee has delegated any of its duties or powers, it shall be deemed to have satisfied the Standard of Care in respect of the subject matter of such delegation, subject to the Trustee's overall duty to exercise prudent oversight thereof. The Trustee is entitled to rely on an Electricity Distributor to discharge the duties delegated to it, as Administrative Services Agent, pursuant to an Administrative Services Agreement as described in this Annex.

4. Accordingly, and without limiting the Trust's right to delegate under the Declaration, the Trust will be permitted to, and should seek to, enter into Administrative Services Agreements with Electricity Distributors in order to provide for the following:

    a. **Identification of Applicable Primary Beneficiary Payees and Determination of Individual Distribution Amounts**

        i. Each Electricity Distributor will make an initial assessment of the financial needs of Primary Beneficiaries within its designated service area or region, having regard to [NTD: specify relevant economic data and reference material], in order to prepare and provide to the Trustee an estimate of the number of Primary Beneficiaries who the Electricity Distributor reasonably expects would satisfy the Selection Factors (as defined in clause 1.1 "Identification of Primary Beneficiary Payees" of the Principles Annex).

        ii. Each Electricity Distributor will make an initial assessment of the measures it would recommend be included as Eligible Measures, having regard to [NTD: specify relevant considerations], in order to prepare and provide to the Trustee an estimate of the average cost per Primary Beneficiary Payee (as defined below) of such Eligible Measures that the Electricity Distributor reasonably expects would apply in respect of Primary Beneficiaries resident in its service area or region.

        iii. Based on the product of (i) and (ii), above, and such other considerations as it considers to be directly relevant, each Electricity Distributor will make a written recommendation to the Trustee regarding the aggregate funding amount that the Electricity Distributor anticipates would be utilized under the

[Project] by Primary Beneficiaries in its service area or region (the "**Local Funding Estimate**"). Such recommendation will be accompanied, when submitted to the Trustee, by a detailed explanation regarding the assumptions, financial parameters, suitability considerations and other information underlying the Local Funding Estimate (including the type of information contemplated by "[Insert]" under the Principles Annex, which will be relied upon by the Trustee in its assessment regarding the allocation of available funding to or for the benefit of the Primary Beneficiaries across the specified areas and regions of the Province.

iv. The Trustee will inform the Electricity Distributor regarding the aggregate of the amount determined by the Trustee to be made available under the [Project] for Primary Beneficiaries in the Electricity Distributor's designated service area or region (for each LDC, its "**Maximum LDC Allocation**") and as to any maximum amount that may be paid to or for the benefit of any single Primary Beneficiary [or group of related Primary Beneficiaries] located in the servicer area or region of the Electricity Distributor (the "**Maximum Primary Beneficiary Amount**"). The Maximum LDC Amount and Maximum Primary Beneficiary Amount may vary between designated areas and regions, the Primary Beneficiaries within such areas and regions, and may be increased by the Trustee from time to time in its discretion.

v. Each Electricity Distributor will apply the principles set forth under ["Identification of Primary Beneficiary Payees" in the Principles Annex] to identify and make recommendations to the Trustee regarding the amount of funds (if any) to be distributed to or for the benefit of Primary Beneficiaries resident within its designated service area or region from time to time (the "**Primary Beneficiary Payees**").

vi. Each Electricity Distributor will ensure that the aggregate of the amounts it recommends be distributed to or for the benefit of Primary Beneficiary Payees from time to time does not exceed (1) its Maximum LDC Allocation and (2) for any single Primary Beneficiary [or group of related Primary Beneficiaries] located in the servicer area or region of the Electricity Distributor, the Maximum Primary Beneficiary Amount.

vii. The Trustee will provide written confirmation to each Electricity Distributor:

1. Either (x) that the recommendations specified of the Electricity Distributor in clause (v), above, have been accepted, or (y) as to the specific reasons for any non-acceptance;

2. The identity of each Primary Beneficiary Payee resident in the Electricity Distributor's service area or region and its residential address;

3. The amount of the distribution to be paid to or for the benefit of each such Primary Beneficiary Payee.

b. **Making of Distributions**

i. Promptly after the Trustee confirms the identity of a Primary Beneficiary Payee resident in a Electricity Distributor's service area or region and the amount of the distribution to be paid to or for the benefit of such Primary Beneficiary Payee, the Trustee will arrange for payment to the Electricity Distributor an amount equal to the amount of such distribution.

ii. Promptly upon receipt of funds in respect of a distribution to a Primary Beneficiary Payee, the Electricity Distributor will arrange for payment of the full amount of such distribution to or for the benefit of the Primary Beneficiary Payee, without reduction or set-off.

c. **Reporting, Record-Keeping, Inspection and Disclosure**

i. The Electricity Distributor will provide to the Trustee quarterly and annual reports ("**Reports**") for the duration of the Administrative Services Agreement.

ii. The Electricity Distributor will keep and maintain all financial records and non-financial documents and records relating to the provision of services under the Administrative Services Agreement. [Specify required records regarding individual Primary Beneficiary Payees]

iii. The Trustee, its authorized representatives or an independent auditor may, at its own expense, on twenty-four hours' notice to the Electricity Distributor and during normal business hours, inspect the records of and information respecting the Electricity Distributor to confirm its compliance with the Administrative Services Agreement, including its process for determining the Primary Beneficiary Payees, distribution amounts and the delivery of funds to [or for the benefit of] the Primary Beneficiary Payees. The Trustee, its authorized representatives or an independent auditor may inspect and copy all records and documents kept in accordance with the Administrative Services Agreement and conduct an audit or investigation of the Electricity Distributor in respect of the identification of the applicable Primary Beneficiary Payees, the amount of distributions made to or for the benefit of the Primary Beneficiary Payees; and the delivery of funds to or for the benefit of the Primary Beneficiary Payees.

d. **Standard of Care**

i. The Electricity Distributor will perform its duties provided under the Administrative Services Agreement exercising the degree of care, diligence and skill that a reasonably prudent Person would exercise in comparable circumstances.

ii. In recommending Primary Beneficiary Payees to the Trustee, the Electricity Distributor will seek to avoid actual, potential or perceived conflicts of interest.

e. **Expenses**

i. The Electricity Distributor will be eligible to receive reasonable compensation and reimbursement of its actual out-of-pocket costs associated with the performance of its duties under the Administrative Services Agreement, subject to compliance with the Province's Travel, Meal and Hospitality Expenses Directive. Such compensation amounts and reimbursement entitlements will be specified in the Administrative Services Agreement.

SCHEDULE "C"

PROJECT

For the purposes of this Agreement, the "Project" is the distribution of the Funds in accordance with the Declaration of Trust.

The Project will be completed subject to the requirements of the Budget and in accordance with the Principles set forth in Annex A.

Notwithstanding anything else contained in the Agreement or the Declaration of Trust, until such time as each of the following conditions have been completed to the satisfaction of the Province (the "Requirements"), the Recipient shall not distribute any Funds to any Beneficiary.

1. Procedures shall be developed and implemented for (i) identifying trustees who are individuals resident in Ontario to replace Computershare Trust Company of Canada as the sole trustee of the Recipient, and (ii) the making of decisions by the trustees of the Recipient and more generally, for the governance of the Recipient.

2. Computershare Trust Company of Canada shall be replaced as the sole trustee of the Recipient with three or more individual trustees identified in accordance with the procedures developed under clause 1.

3. An administrative services agreement shall have been developed and entered into by the Recipient and the administrative services agent providing for the administrative services necessary for the operation of the Recipient and the execution of the Project.

4. Procedures will be developed and implemented under which Local Distribution Companies (as defined in the Declaration of Trust) will assist with (i) the identification of Beneficiaries, and (ii) the distribution of Funds to or for the benefit of such Beneficiaries.

5. Insurance requirement

Each of the Requirements may be accomplished by the Recipient entering into such agreements as may be necessary or expedient, including, without limitation, an amendment or amendment and restatement of the Declaration of Trust. The Province shall provide notice in writing to the Recipient when the Requirements have been completed to the satisfaction of the Province. Funds may be expended to pay the expenses of the Trustee in completing the Requirements.

Commented [A4]: We will look to refine this, but the intent is for Trustees to have insurance in place before funds are flowed.

Under the previous draft, if there was a lawsuit against a Trustee, expenses and any liabilities would be covered by the Trust (indemnification).

Instead, we are proposing that a line of insurance be established that a Trustee would access to cover lawsuit related expenses and liabilities.

The intention is to protect the Trust funds and for them to be not used for lawsuit related liabilities.

Commented [A5]: We will be refining this content further

Commented [A4]: We will look to refine this, but the intent is for Trustees to have insurance in place before funds are flowed.

Under the previous draft, if there was a lawsuit against a Trustee, expenses and any liabilities would be covered by the Trust (indemnification).

Instead, we are proposing that a line of insurance be established that a Trustee would access to cover lawsuit related expenses and liabilities.

The intention is to protect the Trust funds and for them to be not used for lawsuit related liabilities.

PRINCIPLES ANNEX

Commented [A1]: Content in the annex will be further refined

Commented [A2]: KPMG to comment on 'control' implications.

The following principles apply in relation to the administration of the Trust:

1. Identification of Primary Beneficiary Payees

1.1 A Primary Beneficiary should not receive a benefit from the Trust unless at the time of consideration it satisfies each of the following criteria (the "**Selection Factors**"):

(i) it is an [owner-occupied,], [non-commercial] [not for profit] electricity customer;

(ii) it has [committed] [made arrangements] [proposed] [indicated its willingness] to undertake measures (its "**Energy Plan**") to improve the electricity efficiency and/or promote the conservation of electricity at its Ontario residence;

(iii) its Energy Plan involves one or more Eligible Measures as may be designated by the Trustee from time to time from;

(iv) it confirms that:

1. the primary purpose of its Energy Plan is the conservation and efficient use by the Primary Beneficiary of electricity, and is not for the purposes of the Primary Beneficiary making a profit;

2. it would otherwise not have the financial resources to undertake [the Eligible Measures] included in its Energy Plan;

3. the Eligible Measures to be undertaken by it under its Energy Plan would not otherwise be eligible for reimbursement from third parties, including under any efficiency or conservation program implemented by a government, governmental agency or third party energy subsidy program;

(v) it has demonstrated a need for financial assistance on the basis that its periodic electricity bills represent a financial burden, relative to its available financial resources; and

(vi) such other criteria as the Trustee may determine, including based on the recommendations of Electricity Distributors made on the basis and in accordance with the delegations contemplated by the Permitted Delegations Annex or any applicable Administrative Services Agreement.

1.2 The availability of funds to the Primary Beneficiaries should be allocated on an equitable and consistent basis across different areas and regions within the Province, having regard to:

(i) broad economic parameters of economic activity and the financial resources of the residents of the areas and regions;

(ii) electricity use and efficiency levels of non-commercial electricity customers;

(iii) specific regional indicators of economic weakness and need; and/or

(iv) such other factors as the Trustee may determine are relevant, including based on the submissions, advice and recommendations of Electricity Distributors made on the basis and in accordance with the delegations contemplated by the Permitted Delegations Annex or any applicable Administrative Services Agreement.

1.3 An efficient basis upon which to allocate funds to the Primary Beneficiaries across different areas and regions within the Province may be based on the designated areas and regions serviced by the Electricity Distributors operating within the Province.

1.4 The designated Electricity Distributor for an area or region in which a Primary Beneficiary resides will:

(i) be a reliable source for the purpose of assessing and confirming whether the Primary Beneficiary satisfies the Selection Factors;

(ii) be an efficient intermediary for the purpose of communicating with the Primary Beneficiary, including regarding the availability, terms, conditions and intended purposes of [Project][8];

(iii) be able to efficiently integrate and reflect any distribution payments determined to be made to the Primary Beneficiary within its established practices, procedures and systems; and

(iv) have established contractual arrangements with the Primary Beneficiary that may apply to the protection and confidentiality of information provided by or respecting the Primary Beneficiary, which information may be useful in the consideration by the Electricity Distributor in its assessment of whether the Primary Beneficiary satisfies the Selection Factors, which information may not otherwise be available or readily accessible or verifiable by the Trustee.

1.5 The designated Electricity Distributor for an area or region in which a Primary Beneficiary resides will have market and utilization information that may be useful in assessing the relative needs of Primary Beneficiaries within its designated area or region. Such information will be relevant in assessing the extent to which one such Primary Beneficiary's financial needs and the merits of its Energy Plan are greater or more compelling than those of another such Primary Beneficiary, which comparison may be relevant to the extent that the funds allocable to the Primary Beneficiaries resident in the area or region are otherwise insufficient to meet the requests for funding by all such Primary Beneficiaries.

1.6 Accordingly, it is consistent with the purposes of the Trust that the recommendations of Electricity Distributors be utilized and relied upon by the Trustee to guide the process of identifying particular Primary Beneficiaries for distributions under the [Project].

[8] Consider if the Trustees should control the messaging to ensure consistency across the Province.

1.7 If an Electricity Distributor for a particular area or region is unable or unwilling to assess or confirm the application of the Selection Factors to Primary Beneficiaries residing in the area or region or to make recommendations in relation to such matters, one or more of the following may provide a suitable alternative source of information and for information gathering, assessment and confirmation purposes in relation to such area or region:

(i) other Electricity Distributors operating in adjacent or other areas or regions in the Province;

(ii) the Ontario Energy Board;

(iii) the Independent Electricity System Operator; and

(iv) anyone else having relevant expertise and access to information regarding the electricity market of the Province, in each case as may be considered relevant by the Trustee.

1.8 To the extent that privacy law or other legal requirements limit an Electricity Distributor from providing or making available specific information respecting the application of the Selection Factors to a particular Primary Beneficiary or group of Primary Beneficiaries, it may be appropriate to redact or make generic affected information regarding such Primary Beneficiary in connection with the identification and confirmation of a Primary Beneficiary's eligibility and participation in the [Project]. If such limitations or restrictions would limit an Electricity Distributor from providing or confirming the name of a particular Primary Beneficiary to the Trustee, then it should be sufficient that such information may be obtained or disseminated on a confidential basis if and when required by the Trustee for the proper administration of the Trust and on that basis such impediments should not disqualify a Primary Beneficiary from participating in the benefits of the [Project], to the extent that the confidential record-keeping of the Electricity Distributor would be available in connection with the application of any applicable legal process predicated on the identification of such Primary Beneficiary for the purposes of substantiating its rights as a Primary Beneficiary of the Trust or as to the validity or subsistence of the Trust.

2. Eligible Measures

2.1 Eligible Measures shall be identified having regard to the following (the "**Measures Factors**"):

(i) [NTD: Insert generic list of considerations relevant to the identification of the applicable spending uses].

2.2 In identifying and applying the Measures Factors, Electricity Distributors will have expertise in assessing the suitability of efficiency and conservation measures in their respective areas and regions, which may differ across areas and regions across the Province based on factors (among other things) such as the climate, geography, density, electricity infrastructure, residential structures, and electricity use rates applicable within such areas or regions.

2.3 Unless otherwise specified by the Trustees, the measures specified in Schedule A to this Principles Annex will be considered.

3. Other

3.1 It is expected that administrative expenses of the Board of Trustees and its members, including any expenses relating to the Trust, to the establishment of the [Affordability Fund] and any expenses related to the implementation and operation of the [Project] by or through Electricity Distributors and other relevant entities, will be recognized and subject to reimbursement in accordance with the principles outlined in the [Province's Transfer Payment Accountability Directive/Travel, Meal and Hospitality Expenses Directive][9], in the form attached to Schedule B to this Principles Annex.

3.2 The Trustee is expected to conduct its activities to ensure that, as more specifically contemplated in the Transfer Payment Agreement:

(i) the Assets are applied are spent prudently and in furtherance of the purpose set forth in the Declaration;

(ii) the Trustee is accountable to the Province for activities undertaking in connection with the Project;

(iii) it complies with the Province's request for any independent verification or audit determined to be necessary or appropriate by the Province;

(iv) the Province will be entitled and has reserved its right to demand the return of the Assets if the Province determined that they are not being used for the purposes and applied in the manner as set forth or contemplated in the Declaration.

3.3 Electricity Distributors are not intended to directly profit from distributions of funds made from the Trust, although it is recognized that the objectives of electricity efficiency and conservation of Primary Beneficiaries located in the service area or region of an Electricity Distributor, and the cost savings and improved credit worthiness of such Primary Beneficiaries, may be financially beneficial to the Electricity Distributor.

3.4 Distributions from the Trust are intended to allow receiving Primary Beneficiaries to undertake Eligible Measures at no or minimal personal cost.

3.5 It is expected that the Trust Assets will be distributed to Primary Beneficiaries during the period from the Original Trustee Replacement Date to [the Final Distribution Date] [March 31, 2019].

PERMITTED DELEGATION ANNEX

1. Under Section 4.2(d) of the Declaration, the Trustee has the power to: (A) appoint, employ or retain Administrative Services Agents for the purpose of discharging its duties and obligations under the Declaration; and (B) enter into, perform, enforce and amend Administrative Services Agreements.

2. In accordance with [Section 4.2] of the Declaration, consistent with the principles set forth in the Principles Annex, the Trustee or its agent will seek to enter into one or more Administrative Services Agreements with individual Electricity Distributors under which the Electricity Distributors will act as Administrative Service Agents to the Trustee. In this manner, the Trustee will delegate certain of its powers and duties to the Electricity Distributors.

3. Under Section 5.1 of the Declaration, to the extent the Trustee has delegated any of its duties or powers, it shall be deemed to have satisfied the Standard of Care in respect of the subject matter of such delegation, subject to the Trustee's overall duty to exercise prudent oversight thereof. The Trustee is entitled to rely on an Electricity Distributor to discharge the duties delegated to it, as Administrative Services Agent, pursuant to an Administrative Services Agreement as described in this Annex.

4. Accordingly, and without limiting the Trust's right to delegate under the Declaration, the Trust will be permitted to, and should seek to, enter into Administrative Services Agreements with Electricity Distributors in order to provide for the following:

    a. **Identification of Applicable Primary Beneficiary Payees and Determination of Individual Distribution Amounts**

        i. Each Electricity Distributor will make an initial assessment of the financial needs of Primary Beneficiaries within its designated service area or region, having regard to [NTD: specify relevant economic data and reference material], in order to prepare and provide to the Trustee an estimate of the number of Primary Beneficiaries who the Electricity Distributor reasonably expects would satisfy the Selection Factors (as defined in clause 1.1 "Identification of Primary Beneficiary Payees" of the Principles Annex).

        ii. Each Electricity Distributor will make an initial assessment of the measures it would recommend be included as Eligible Measures, having regard to [NTD: specify relevant considerations], in order to prepare and provide to the Trustee an estimate of the average cost per Primary Beneficiary Payee (as defined below) of such Eligible Measures that the Electricity Distributor reasonably expects would apply in respect of Primary Beneficiaries resident in its service area or region.

        iii. Based on the product of (i) and (ii), above, and such other considerations as it considers to be directly relevant, each Electricity Distributor will make a written recommendation to the Trustee regarding the aggregate funding amount that the Electricity Distributor anticipates would be utilized under the

[Project] by Primary Beneficiaries in its service area or region (the "**Local Funding Estimate**"). Such recommendation will be accompanied, when submitted to the Trustee, by a detailed explanation regarding the assumptions, financial parameters, suitability considerations and other information underlying the Local Funding Estimate (including the type of information contemplated by "[Insert]" under the Principles Annex, which will be relied upon by the Trustee in its assessment regarding the allocation of available funding to or for the benefit of the Primary Beneficiaries across the specified areas and regions of the Province.

iv. The Trustee will inform the Electricity Distributor regarding the aggregate of the amount determined by the Trustee to be made available under the [Project] for Primary Beneficiaries in the Electricity Distributor's designated service area or region (for each LDC, its "**Maximum LDC Allocation**") and as to any maximum amount that may be paid to or for the benefit of any single Primary Beneficiary [or group of related Primary Beneficiaries] located in the servicer area or region of the Electricity Distributor (the "**Maximum Primary Beneficiary Amount**"). The Maximum LDC Amount and Maximum Primary Beneficiary Amount may vary between designated areas and regions, the Primary Beneficiaries within such areas and regions, and may be increased by the Trustee from time to time in its discretion.

v. Each Electricity Distributor will apply the principles set forth under ["Identification of Primary Beneficiary Payees" in the Principles Annex] to identify and make recommendations to the Trustee regarding the amount of funds (if any) to be distributed to or for the benefit of Primary Beneficiaries resident within its designated service area or region from time to time (the "**Primary Beneficiary Payees**").

vi. Each Electricity Distributor will ensure that the aggregate of the amounts it recommends be distributed to or for the benefit of Primary Beneficiary Payees from time to time does not exceed (1) its Maximum LDC Allocation and (2) for any single Primary Beneficiary [or group of related Primary Beneficiaries] located in the servicer area or region of the Electricity Distributor, the Maximum Primary Beneficiary Amount.

vii. The Trustee will provide written confirmation to each Electricity Distributor:

1. Either (x) that the recommendations specified of the Electricity Distributor in clause (v), above, have been accepted, or (y) as to the specific reasons for any non-acceptance;

2. The identity of each Primary Beneficiary Payee resident in the Electricity Distributor's service area or region and its residential address;

3. The amount of the distribution to be paid to or for the benefit of each such Primary Beneficiary Payee.

b. **Making of Distributions**

i. Promptly after the Trustee confirms the identity of a Primary Beneficiary Payee resident in a Electricity Distributor's service area or region and the amount of the distribution to be paid to or for the benefit of such Primary Beneficiary Payee, the Trustee will arrange for payment to the Electricity Distributor an amount equal to the amount of such distribution.

ii. Promptly upon receipt of funds in respect of a distribution to a Primary Beneficiary Payee, the Electricity Distributor will arrange for payment of the full amount of such distribution to or for the benefit of the Primary Beneficiary Payee, without reduction or set-off.

c. **Reporting, Record-Keeping, Inspection and Disclosure**

i. The Electricity Distributor will provide to the Trustee quarterly and annual reports ("**Reports**") for the duration of the Administrative Services Agreement.

ii. The Electricity Distributor will keep and maintain all financial records and non-financial documents and records relating to the provision of services under the Administrative Services Agreement. [Specify required records regarding individual Primary Beneficiary Payees]

iii. The Trustee, its authorized representatives or an independent auditor may, at its own expense, on twenty-four hours' notice to the Electricity Distributor and during normal business hours, inspect the records of and information respecting the Electricity Distributor to confirm its compliance with the Administrative Services Agreement, including its process for determining the Primary Beneficiary Payees, distribution amounts and the delivery of funds to [or for the benefit of] the Primary Beneficiary Payees. The Trustee, its authorized representatives or an independent auditor may inspect and copy all records and documents kept in accordance with the Administrative Services Agreement and conduct an audit or investigation of the Electricity Distributor in respect of the identification of the applicable Primary Beneficiary Payees, the amount of distributions made to or for the benefit of the Primary Beneficiary Payees; and the delivery of funds to or for the benefit of the Primary Beneficiary Payees.

d. **Standard of Care**

i. The Electricity Distributor will perform its duties provided under the Administrative Services Agreement exercising the degree of care, diligence and skill that a reasonably prudent Person would exercise in comparable circumstances.

ii. In recommending Primary Beneficiary Payees to the Trustee, the Electricity Distributor will seek to avoid actual, potential or perceived conflicts of interest.

e. **Expenses**

i. The Electricity Distributor will be eligible to receive reasonable compensation and reimbursement of its actual out-of-pocket costs associated with the performance of its duties under the Administrative Services Agreement, subject to compliance with the Province's Travel, Meal and Hospitality Expenses Directive. Such compensation amounts and reimbursement entitlements will be specified in the Administrative Services Agreement.

Subject: RE: Affordability Fund - Declaration of Trust and Transfer Pricing Agreement

Thanks Alex and understood re: sharing finals with Computershare.

Also, our counsel has drafted the following to assist in Hydro One and KPMG's review of the documents:

Our mark-up addresses the tensions that exist among (1) the requirements to recognize the Trust as non-controlled for government year-end accounting purposes, (2) the practical need for the LDCs to lead the identification and allocations to eligible participants processes (3) the desire for the ultimate customers in need to be the reference group of beneficiaries (4) the legal requirements to create a valid trust under Ontario law and (5) the practical limitations associated with addressing and contracting relevant LDC participation prior to March 31, while achieving sufficient contractual certainty for the Province and legal purposes.

To balance these tensions, we have suggested the following (subject to accounting input and practical input from Hydro One):

(1) the Declaration contemplates the following 3 time periods:

a. Initially, Computershare will be the trustee and will simply sit on the funds. Hydro One will provide very basic administrative services during this initial period. Computershare, acting on the recommendations of an "Advisory Committee" will appoint its replacement – a "Board of Trustees" (this is contemplated in a Trustee Replacement Annex to the Declaration).

b. Once the Board of Trustees is in place, administrative services agreements will be entered into with LDCs. To give the LDCs a wide scope to identify funding recipients within their service areas, a broad and specific delegation is described in the "Permitted Delegations Annex", which frames out what the basic and key terms of the ultimate Administrative Services Agreements with the LDCs will entail. That level of detail is required to enable the broad Trustee delegation, without upending the validity of the Trust for legal purposes. The Board of Trustees will maintain supervisory responsibility over the LDCs actions, but will be permitted to rely on the recommendations of the LDCs. Under these arrangements, the find will be divided by region and then LDCs will have wide discretion to recommend distributions, in each case subject to the principles set out in a "Principles Annex".

c. Once the program is to be wound up (either because of a default by the Trust, the Trustee's determine that all funding has been appropriately provided for or a final end-date occurs), any remaining funds will be paid to charitable beneficiaries identified from among a pre-determined slate. The amount available to the charities in the circumstance where a default of the Trust has occurred will be net of the amount the Province will be entitled to be paid (i.e., the remaining Assets) from the Trust under the Transfer Payment Agreement.

(2) From March 31, all of the discretion to deal with the Trust Assets will reside with Computershare or the Board, or by delegation to the LDCs where a suitable contract is signed by the Trust with the LDCs. The Province will not maintain control of the Assets, and all steps contemplated in (1) will not be affected by the Province other than (in substance):

a. To the extent the Province is represented on the Advisory Committee or the Board;

b. The Province has rights to require payment of remaining Assets under the Transfer Agreement on an "event of default"; or

c. The Province has certain reporting, audit and compliance rights, essentially to affect the intended purpose of the Trust in its implementation (and with remedies under

the Transfer Payment Agreement, including a right to be paid the undistributed Assets or to pursue contract remedies (including specific performance).

Otherwise, the terms of the Trust will be determined at the outset and determined and affected by non-governmental entities. We understand that these continuing ties to the Trust would not be contrary to the accounting principles applicable for government year-end treatment as a non-controlled trust entity.

Based on this drafting approach, Blakes believes on a preliminary basis that the validity issues associated with the Trust can be adequately addressed.

Hi Alex:

Please find attached tracked and clean versions of the TPA and Declaration of Trust. Tracked versions are tracked from the versions you had shared on March 13. You will note that there are comments in the TPA and Declaration indicating areas that we are working with Blakes to finalize.

We would recommend, as discussed, that Hydro One share these current versions with KPMG, as well as Computershare, so that we can work to resolve identified issues.

Can Hydro One advise if it will not be possible to share comments back with us for 3 PM tomorrow?

We would like to set up a call tomorrow afternoon to discuss comments. Can you advise of a preferred time for a call?

A few other follow-ups:

· We have confirmed internally that Computershare can establish an interim Trust account using their existing banking relationship with BNF. Can you confirm once this (and the TPA/Decl if you agree to share) is communicated with Computershare?

· Can you please share the Computershare Trustee(s) contact details? We understand that the Trustees will have to be recognized in the Declaration of Trust.

· Can you share the administrative service agreement for the Ministry's

review today? Our interest in seeing this is to have comfort that it will be ready for signing by Computershare on Monday or Tuesday of next week.

Thanks again to you and your team for working with us on these tight timelines.

Hi Nadine,

I went back to the Basis for Conclusion for IFRS 14 and found the following:

BC15 The IASB acknowledges the difficult practice problems related to this issue. The IASB has, therefore, decided to issue this Standard, which allows entities that currently recognise regulatory deferral account balances in accordance with their previous GAAP to continue to do so when making the transition to IFRS. In accordance with paragraph 5, an entity is only eligible to apply this Standard if it:

(a) is subject to oversight and/or approval from an authorised body (the rate regulator);

(b) recognised regulatory deferral account balances in its financial statements in accordance with its previous GAAP; and

(c) elected to apply the requirements of this Standard in its first IFRS financial statements.

BC16 Consequently, an entity that does not recognise regulatory deferral account balances in accordance with its previous GAAP in the period immediately preceding its first IFRS financial statements is not eligible to apply this Standard in order to start recognising such balances. An entity would not, therefore, be eligible if, for example:

(a) the entity did not have any relevant rate-regulated activities in the period before it made the transition to IFRS but then acquires or commences rate-regulated activities after the date that it adopts IFRS; or

(b) the entity is a newly formed business and adopts IFRS in its first IFRS financial statements.

So even if the government's newly formed entity is registered with the SEC and prepares its standalone statements in accordance with US GAAP, I don't think it will be eligible to use IFRS 14 because it will be adopting IFRS for government reporting purposes at the same time it begins reporting under US GAAP (inception).

Please let me know your thoughts.

Hi Nadine,

The intention of the footnote is as you indicate.

I was basing the footnote on the following excerpt. My interpretation is that OGOs can't use 4200 (4200 is for government NPOs). Perhaps I'm looking in the wrong spot or misinterpreting. Your thoughts?

Lee Anne

.16 For purposes of determining the appropriate standards, a government organization may be classified as:

(a) a government business enterprise;

(b) a government not-for-profit organization; or

(c) an other government organization.

.17 For purposes of preparing general purpose financial statements, government business enterprises apply the standards for publicly accountable enterprises in Part I of the CPA Canada Handbook – Accounting.

.18 For purposes of preparing general purpose financial statements, government

not-for-profit organizations apply the standards for not-for-profit organizations in the PSA Handbook or the standards in the PSA Handbook without Sections PS 4200 to PS 4270 (the PS 4200 series). [2]

.19 For purposes of preparing general purpose financial statements, other government organizations would normally apply the standards for governments in the PSA Handbook. When these standards do not meet their financial statement users' needs, the standards applicable to publicly accountable enterprises in Part I of the CPA Canada Handbook – Accounting should be considered. The standards determined to be most appropriate should be disclosed and consistently applied.

Lee Anne,

I'm just reviewing the paper and had a question on the footnotes to the attached table. I think that the purposes FN1 is to reference the fact that OGOs have a choice to use IFRS as well, where it may better meet user needs. In fact, OGOs an use PSAS, PSAS +4200 or IFRS. I just wanted to clarify the intention, and suggest that we might want to consider rewording for clarity.

Thanks.

Addedum to the SOW OTB.pdf

[Province of Ontario, Treasury Board Secretariat Letterhead]

June 9, 2017

Mr. Michel Picard
Partner
KPMG LLP
333 Bay Street, Suite 4600
Toronto ON M5H 2S5

Mr. Picard

RE: RFS-TBS-OTB-OPCD-21

This letter shall serve as an addendum to the Statement of Work for Management Consulting Services between KPMG LLP ("KPMG") and Her Majesty the Queen in Right of Ontario dated June 7, 2017 (the "SOW"), and to the extent of any conflict shall supersede the terms of the SOW and of the Master Services Agreement for Management Consulting Services between the parties dated June 16, 2014 (the "MSA").

In connection with the SOW, the Office of the Treasury Board (the "OTB"), in representation of Her Majesty the Queen in Right of Ontario, hereby agrees as follows:

1. Prior to being required to undertake any particular project or services under the SOW, KPMG shall be entitled to perform the necessary conflict of interest, independence and other legal, regulatory and professional standards compliance assessment processes. In the event that KPMG determines, in its sole discretion, that it is unable to undertake or to continue to undertake any particular project or services under the SOW due to potential non-compliance with applicable law, regulation or professional standards, KPMG shall promptly inform the OTB in writing and shall, without liability, be entitled to immediately terminate any non-compliant aspects of such project or services, or to revise the scope or other characteristics of such project or services in order that they conform with applicable law, regulation and professional standards. OTB shall provide KPMG with such information regarding a potential project or service as KPMG reasonably requires in order to undertake the legal, regulatory and professional standards compliance assessment processes referred to above.
2. In order for KPMG to undertake the legal, regulatory and professional standards compliance assessment processes described above, OTB acknowledges that it may be necessary for KPMG to disclose to certain third parties, namely existing and/or prior clients of KPMG, certain information in respect of any proposed project or services under the SOW. Prior to making any such disclosure, KPMG shall obtain the consent of OTB. Should OTB refuse to provide such consent, OTB acknowledges that KPMG may be unable to accept or to continue a project or service, and agrees that KPMG shall have no liability as a result thereof.
3. OTB acknowledges that KPMG has been requested by the Auditor General of Ontario (the "AGO") to advise her of any projects or services being provided to the Province of Ontario or a ministry, department, agency or other subdivision thereof, that may have an impact on her duties. Accordingly, OTB agrees that KPMG shall be entitled to advise the AGO of any projects or services provided to OTB under the SOW, and to answer such questions as the AGO may have in respect of such projects or services. OTB further acknowledges that it is aware that the AGO

has disagreed with KPMG's assessment of the availability of Regulatory Rate Accounting in the context of an accounting advisory engagement for the Independent Electricity Systems Operator (Ontario) ("IESO"), and has raised concerns as to whether KPMG was able to provide IESO with such advice pursuant to applicable professional standards. OTB has entered into the SOW with KPMG notwithstanding the foregoing.

4. Additional Terms and Conditions - The following terms and conditions are hereby added to the SOW:

    a. OTB will designate individual(s) who possesses suitable skill, knowledge and/or experience, preferably within senior management, to oversee all services provided by KPMG under the SOW;

    b. OTB will be responsible for making all final decisions with respect to any accounting positions taken and applied by OTB;

    c. OTB will evaluate the adequacy and results of the services performed by KPMG, and will accept responsibility for the results of the services performed by KPMG;

    d. OTB will make all management decisions and perform all management functions with respect to the services provided by KPMG under the SOW. KPMG's analysis will be limited to providing accounting support for specific accounting and reporting matters, and the OTB will be responsible for any conclusions reached; and

    e. KPMG's work will be under the direction and supervision of OTB, who will have the ultimate responsibility for the accuracy of the information provided to KPMG and for reviewing the work performed by KPMG.

5. KPMG's first project under the SOW shall be to provide advice in respect of whether Hydro One is controlled by the Province of Ontario such that Hydro One may be consolidated for provincial accounting purposes using the modified equity accounting method. In this regard, the OTB acknowledges that Hydro One is an audit client of KPMG and is a registrant with the United States Securities and Exchange Commission (the "SEC"). As such, in performing this project for the OTB, the OTB acknowledges that KPMG is required to comply with SEC independence requirements, and that such requirements will have an impact on the specific services that KPMG is able to provide to the OTB in respect of this project. By way of example, and not limitation, in providing the OTB with advice in respect of the control assessment of Hydro One, KPMG:

    a. is unable to provide any conclusions as to the control of Hydro One; rather, any such conclusions must be reached by OTB, although KPMG may verify whether the conclusions reached by OTB are supported by the relevant accounting standards;

    b. will limit its role to outlining the relevant accounting standards and options available to OTB with respect to Hydro One, including KPMG's interpretation of the application of relevant accounting guidance based only upon facts and interpretations provided by OTB;

    c. will not take the lead in any discussions or dealings with the AGO or any other third party in respect of the assessment of the control of Hydro One, but may be present during, and provide technical accounting assistance in connection with, such discussions or dealings;

d. will not provide an opinion with respect to OTB's assessment of or position regarding the control of Hydro One, but may provide technical accounting assistance in the preparation of such document;

e. will provide assistance drafting background information regarding the facts and circumstances surrounding the matter, subject to management's confirmation of the existence and accuracy of the facts presented;

f. will provide assistance explaining how applicable accounting literature applies to the matter;

g. will provide management with example memoranda or disclosures from other companies which have dealt with similar matters, for the consideration of management;

h. will provide sample (but not actual) journal entries to effect the accounting treatment for the matter, which must be limited to example illustrations of applying the accounting literature on the subject; and

i. will review management's preliminary conclusions.

6. Conflicts of Interest - Based on the information provided to KPMG in respect of the first project under the SOW as described in #5 above, KPMG confirms that it does not have a legal or professional conflict of interest in connection with such first project. However, as the definition of the term "conflict of interest" in the MSA goes beyond legal and professional conflicts of interest to also potentially capture business conflicts, KPMG hereby advises the OTB that it is the auditor of Hydro One, and that KPMG performs significant tax and advisory services for Hydro One.

   Out of an abundance of caution, KPMG will establish an ethical wall between the engagement team performing work in respect of the first project under the SOW and the engagement team performing the audit of Hydro One.

   OTB acknowledges the foregoing potential business conflict, and is comfortable proceeding with the first project under the SOW notwithstanding such potential business conflict.

Cindy, Nadine,

We had a meeting with the OEB today. They do not believe they have a role to play in the review of the GAM recovery if the legislation is not leaving any room for them to regulate.

See my comments below on the analysis.

This will be discussed on Monday. Happy to chat before if needed.

Subject: ASC 980

Kim,

Further to our meeting of today, I have the following comments:

1. Based on the following requirements, I believe IESO can only recognize a regulatory asset if the activities are rate regulated i.e. meet the criteria in par. 15-2.

980-10-15-2 The guidance in the Regulated Operations Topic applies to general-purpose external financial statements of an entity that has regulated operations that meet all of the following criteria:

a. A) The entity's rates for regulated services or products provided to its customers are established by or are subject to approval by an independent, third-party regulator or by its own governing board empowered by statute or contract to establish rates that bind customers. [Is this test met – maybe another body could regulate the GAM recovery but it needs to be a body that meet the requirements in 980-10-15-7 below)

b. b) The regulated rates are designed to recover the specific entity's costs of providing the regulated

services or products. This criterion is intended to be applied to the substance of the regulation, rather than its form. If an entity's regulated rates are based on the costs of a group of entities and the entity is so large in relation to the group of entities that its costs are, in essence, the group's costs, the regulation would meet this criterion for that entity.

c. C) In view of the demand for the regulated services or products and the level of competition, direct and indirect, it is reasonable to assume that rates set at levels that will recover the entity's costs can be charged to and collected from customers. This criterion requires consideration of anticipated changes in levels of demand or competition during the recovery period for any capitalized costs. This last criterion is not intended as a requirement that the entity earn a fair return on shareholders' investment under all conditions; an entity can earn less than a fair return for many reasons unrelated to the ability to bill and collect rates that will recover allowable costs<https://workspaces.ema.kworld.kpmg.com/aro/AROWeb/documentwindow.aspx?from=Doc&ref=US_FASB_COD_TOC_980_10&sec=4&q=&csw=>. For example, mild weather might reduce demand for energy utility services. In that case, rates that were expected to recover an entity's allowable costs might not do so. The resulting decreased earnings do not demonstrate an inability to charge and collect rates that would recover the entity's costs; rather, they demonstrate the uncertainty inherent in estimating weather conditions. This requirement must also be evaluated in light of the circumstances. For example, if the entity has an exclusive franchise to provide regulated services or products in an area and competition from other services or products is minimal, there is usually a reasonable expectation that it will continue to meet the other criteria. Exclusive franchises can be revoked, but they seldom are. If the entity has no exclusive franchise but has made the very large capital investment required to provide either the regulated services or products or an acceptable substitute, future competition also may be unlikely.

2. As indicated in par. 15-4, if the “market books” are not rate regulated then IESO cannot adopt regulatory accounting – ie cannot recognize regulatory assets. I was under the impression that the RPP variance accounts were approved by the OEB. Today, I learned that they are not.

980-10-15-4 If some of an entity's operations are regulated and meet the criteria of paragraph 980-10-15-2, this Topic shall be applied to only that portion of the entity's operations.

3. According to 5-08, IESO needs an accounting order from a regulator.

980-10-05-8 Unless an accounting order indicates the way a cost will be handled for rate-making purposes, it causes no economic effects that would justify deviation from the GAAP applicable to business entities in general. The mere issuance of an accounting order not tied to rate treatment does not change an entity's economic resources or obligations. In other words, the economic effect of regulatory decisions—not the mere existence of regulation—is the pervasive factor that determines the application of GAAP.

4. According to 15-7, you need a regulator that is not a party to the contract.

980-10-15-7 The guidance in the Regulated Operations Topic does not apply to any of the following transactions:

a. a) Accounting for price controls that are imposed by governmental action in times of emergency, high inflation, or other unusual conditions, or accounting for contracts in general. However, if the terms of a contract between an entity and its customer are subject to regulation and the criteria of paragraph 980-10-15-2 are met with respect to that contract, the guidance in this Topic shall apply.

b. C) The criterion in paragraph 980-10-15-2(a)<https://workspaces.ema.kworld.kpmg.com/aro/AROWeb/documentwindow.aspx?from=Doc&ref=US_FASB_COD_TOC_980_10&sec=4&q=&csw=#US_FASB_ASC_980_010_15_2> is intended to exclude contractual arrangements in which the government, or another party that could be viewed as a regulator, is a party to a contract and is the entity's principal customer.

5. I am not sure how to read this next par.

980-10-05-7 Accounting requirements that are not directly related to the economic effects of rate actions may be imposed on regulated businesses by orders of regulatory authorities and occasionally by court decisions or statutes. This does not necessarily mean that those accounting requirements conform with generally accepted accounting principles (GAAP). For example, a regulatory authority may order an entity to capitalize<https://workspaces.ema.kworld.kpmg.com/aro/AROWeb/documentwindow.aspx?from=Doc&ref=US_FASB_COD_TOC_980_10&sec=4&q=&csw=> and amortize a cost that would be charged to income currently by an unregulated entity. Unless capitalization of that cost is appropriate under this Topic, GAAP requires the regulated entity to charge the cost to current income.

I still believe that absent a rate regulator or a governing body approving the rates, then there is no recognition of regulatory asset.

Since the MOE can change the rule, I would suggest that the OEB Act be amended requiring the OEB to oversee the GAM recovery.

Can we discuss over the weekend?

What would be the impact if IESO was not allowed to recognize a regulatory asset?

Assuming that the right is sold to OPG on a daily basis, then IESO would have an expense for the energy cost and a revenue for the sale of an unrecognized right for the same amount. Since IESO is acting as an agent then the revenue and expense would be shown net.

Hi Kamil.

There is a call later today to discuss the Affordability Fund Trust (see details below). I understand that Samir is not in the office, so he may not be able to participate. You will likely receive an invitation shortly. In the meantime, I am just sharing the relevant documents for the call. Hi Alex:

Please find attached tracked and clean versions of the TPA and Declaration of Trust. Tracked versions are tracked from the versions you had shared on March 13. You will note that there are comments in the TPA and Declaration indicating areas that we are working with Blakes to finalize.

We would recommend, as discussed, that Hydro One share these current versions with KPMG, as well as Computershare, so that we can work to resolve identified issues.

Can Hydro One advise if it will not be possible to share comments back with us for 3 PM tomorrow?

We would like to set up a call tomorrow afternoon to discuss comments. Can you advise of a preferred time for a call?

A few other follow-ups:

· We have confirmed internally that Computershare can establish an interim Trust account using their existing banking relationship with BNF. Can you confirm once this (and the TPA/Decl if you agree to share) is communicated with Computershare?

· Can you please share the Computershare Trustee(s) contact details? We understand that the Trustees will have to be recognized in the Declaration of Trust.

· Can you share the administrative service agreement for the Ministry's review today? Our interest in seeing this is to have comfort that it will be ready for signing by Computershare on Monday or Tuesday of next week.

Thanks again to you and your team for working with us on these tight timelines.

- Emma

PRINCIPLES ANNEX

The following principles apply in relation to the administration of the Trust:

1. Identification of Primary Beneficiary Payees

1.1 A Primary Beneficiary should not receive a benefit from the Trust unless at the time of consideration it satisfies each of the following criteria (the "**Selection Factors**"):

(i) it is an [owner-occupied,], [non-commercial] [not for profit] electricity customer;

(ii) it has [committed] [made arrangements] [proposed] [indicated its willingness] to undertake measures (its "**Energy Plan**") to improve the electricity efficiency and/or promote the conservation of electricity at its Ontario residence;

(iii) its Energy Plan involves one or more Eligible Measures as may be designated by the Trustee from time to time from;

(iv) it confirms that:

1. the primary purpose of its Energy Plan is the conservation and efficient use by the Primary Beneficiary of electricity, and is not for the purposes of the Primary Beneficiary making a profit;

2. it would otherwise not have the financial resources to undertake [the Eligible Measures] included in its Energy Plan;

3. the Eligible Measures to be undertaken by it under its Energy Plan would not otherwise be eligible for reimbursement from third parties, including under any efficiency or conservation program implemented by a government, governmental agency or third party energy subsidy program;

(v) it has demonstrated a need for financial assistance on the basis that its periodic electricity bills represent a financial burden, relative to its available financial resources; and

(vi) such other criteria as the Trustee may determine, including based on the recommendations of Electricity Distributors made on the basis and in accordance with the delegations contemplated by the Permitted Delegations Annex or any applicable Administrative Services Agreement.

1.2 The availability of funds to the Primary Beneficiaries should be allocated on an equitable and consistent basis across different areas and regions within the Province, having regard to:

(i) broad economic parameters of economic activity and the financial resources of the residents of the areas and regions;

Commented [A1]: Content in the annex will be further refined

Commented [A2]: KPMG to comment on 'control' implications.

(ii) electricity use and efficiency levels of non-commercial electricity customers;

(iii) specific regional indicators of economic weakness and need; and/or

(iv) such other factors as the Trustee may determine are relevant, including based on the submissions, advice and recommendations of Electricity Distributors made on the basis and in accordance with the delegations contemplated by the Permitted Delegations Annex or any applicable Administrative Services Agreement.

1.3 An efficient basis upon which to allocate funds to the Primary Beneficiaries across different areas and regions within the Province may be based on the designated areas and regions serviced by the Electricity Distributors operating within the Province.

1.4 The designated Electricity Distributor for an area or region in which a Primary Beneficiary resides will:

(i) be a reliable source for the purpose of assessing and confirming whether the Primary Beneficiary satisfies the Selection Factors;

(ii) be an efficient intermediary for the purpose of communicating with the Primary Beneficiary, including regarding the availability, terms, conditions and intended purposes of [Project][8];

(iii) be able to efficiently integrate and reflect any distribution payments determined to be made to the Primary Beneficiary within its established practices, procedures and systems; and

(iv) have established contractual arrangements with the Primary Beneficiary that may apply to the protection and confidentiality of information provided by or respecting the Primary Beneficiary, which information may be useful in the consideration by the Electricity Distributor in its assessment of whether the Primary Beneficiary satisfies the Selection Factors, which information may not otherwise be available or readily accessible or verifiable by the Trustee.

1.5 The designated Electricity Distributor for an area or region in which a Primary Beneficiary resides will have market and utilization information that may be useful in assessing the relative needs of Primary Beneficiaries within its designated area or region. Such information will be relevant in assessing the extent to which one such Primary Beneficiary's financial needs and the merits of its Energy Plan are greater or more compelling than those of another such Primary Beneficiary, which comparison may be relevant to the extent that the funds allocable to the Primary Beneficiaries resident in the area or region are otherwise insufficient to meet the requests for funding by all such Primary Beneficiaries.

[8] Consider if the Trustees should control the messaging to ensure consistency across the Province.

1.6 Accordingly, it is consistent with the purposes of the Trust that the recommendations of Electricity Distributors be utilized and relied upon by the Trustee to guide the process of identifying particular Primary Beneficiaries for distributions under the [Project].

1.7 If an Electricity Distributor for a particular area or region is unable or unwilling to assess or confirm the application of the Selection Factors to Primary Beneficiaries residing in the area or region or to make recommendations in relation to such matters, one or more of the following may provide a suitable alternative source of information and for information gathering, assessment and confirmation purposes in relation to such area or region:

(i) other Electricity Distributors operating in adjacent or other areas or regions in the Province;

(ii) the Ontario Energy Board;

(iii) the Independent Electricity System Operator; and

(iv) anyone else having relevant expertise and access to information regarding the electricity market of the Province, in each case as may be considered relevant by the Trustee.

1.8 To the extent that privacy law or other legal requirements limit an Electricity Distributor from providing or making available specific information respecting the application of the Selection Factors to a particular Primary Beneficiary or group of Primary Beneficiaries, it may be appropriate to redact or make generic affected information regarding such Primary Beneficiary in connection with the identification and confirmation of a Primary Beneficiary's eligibility and participation in the [Project]. If such limitations or restrictions would limit an Electricity Distributor from providing or confirming the name of a particular Primary Beneficiary to the Trustee, then it should be sufficient that such information may be obtained or disseminated on a confidential basis if and when required by the Trustee for the proper administration of the Trust and on that basis such impediments should not disqualify a Primary Beneficiary from participating in the benefits of the [Project], to the extent that the confidential record-keeping of the Electricity Distributor would be available in connection with the application of any applicable legal process predicated on the identification of such Primary Beneficiary for the purposes of substantiating its rights as a Primary Beneficiary of the Trust or as to the validity or subsistence of the Trust.

2. Eligible Measures

2.1 Eligible Measures shall be identified having regard to the following (the "**Measures Factors**"):

(i) [NTD: Insert generic list of considerations relevant to the identification of the applicable spending uses].

2.2 In identifying and applying the Measures Factors, Electricity Distributors will have expertise in assessing the suitability of efficiency and conservation measures in their

respective areas and regions, which may differ across areas and regions across the Province based on factors (among other things) such as the climate, geography, density, electricity infrastructure, residential structures, and electricity use rates applicable within such areas or regions.

2.3 Unless otherwise specified by the Trustees, the measures specified in Schedule A to this Principles Annex will be considered.

3. Other

3.1 It is expected that administrative expenses of the Board of Trustees and its members, including any expenses relating to the Trust, to the establishment of the [Affordability Fund] and any expenses related to the implementation and operation of the [Project] by or through Electricity Distributors and other relevant entities, will be recognized and subject to reimbursement in accordance with the principles outlined in the [Province's Transfer Payment Accountability Directive/Travel, Meal and Hospitality Expenses Directive][9], in the form attached to Schedule B to this Principles Annex.

3.2 The Trustee is expected to conduct its activities to ensure that, as more specifically contemplated in the Transfer Payment Agreement:

(i) the Assets are applied are spent prudently and in furtherance of the purpose set forth in the Declaration;

(ii) the Trustee is accountable to the Province for activities undertaking in connection with the Project;

(iii) it complies with the Province's request for any independent verification or audit determined to be necessary or appropriate by the Province;

(iv) the Province will be entitled and has reserved its right to demand the return of the Assets if the Province determined that they are not being used for the purposes and applied in the manner as set forth or contemplated in the Declaration.

3.3 Electricity Distributors are not intended to directly profit from distributions of funds made from the Trust, although it is recognized that the objectives of electricity efficiency and conservation of Primary Beneficiaries located in the service area or region of an Electricity Distributor, and the cost savings and improved credit worthiness of such Primary Beneficiaries, may be financially beneficial to the Electricity Distributor.

3.4 Distributions from the Trust are intended to allow receiving Primary Beneficiaries to undertake Eligible Measures at no or minimal personal cost.

3.5 It is expected that the Trust Assets will be distributed to Primary Beneficiaries during the period from the Original Trustee Replacement Date to [the Final Distribution Date] [March 31, 2019].

PERMITTED DELEGATION ANNEX

1. Under Section 4.2(d) of the Declaration, the Trustee has the power to: (A) appoint, employ or retain Administrative Services Agents for the purpose of discharging its duties and obligations under the Declaration; and (B) enter into, perform, enforce and amend Administrative Services Agreements.

2. In accordance with [Section 4.2] of the Declaration, consistent with the principles set forth in the Principles Annex, the Trustee or its agent will seek to enter into one or more Administrative Services Agreements with individual Electricity Distributors under which the Electricity Distributors will act as Administrative Service Agents to the Trustee. In this manner, the Trustee will delegate certain of its powers and duties to the Electricity Distributors.

3. Under Section 5.1 of the Declaration, to the extent the Trustee has delegated any of its duties or powers, it shall be deemed to have satisfied the Standard of Care in respect of the subject matter of such delegation, subject to the Trustee's overall duty to exercise prudent oversight thereof. The Trustee is entitled to rely on an Electricity Distributor to discharge the duties delegated to it, as Administrative Services Agent, pursuant to an Administrative Services Agreement as described in this Annex.

4. Accordingly, and without limiting the Trust's right to delegate under the Declaration, the Trust will be permitted to, and should seek to, enter into Administrative Services Agreements with Electricity Distributors in order to provide for the following:

    a. **Identification of Applicable Primary Beneficiary Payees and Determination of Individual Distribution Amounts**

        i. Each Electricity Distributor will make an initial assessment of the financial needs of Primary Beneficiaries within its designated service area or region, having regard to [NTD: specify relevant economic data and reference material], in order to prepare and provide to the Trustee an estimate of the number of Primary Beneficiaries who the Electricity Distributor reasonably expects would satisfy the Selection Factors (as defined in clause 1.1 "Identification of Primary Beneficiary Payees" of the Principles Annex).

        ii. SCHEDULE "C"

PROJECT

For the purposes of this Agreement, the "Project" is the distribution of the Funds in accordance with the Declaration of Trust.

The Project will be completed subject to the requirements of the Budget and in accordance with the Principles set forth in Annex A.

Notwithstanding anything else contained in the Agreement or the Declaration of Trust, until such time as each of the following conditions have been completed to the satisfaction of the Province (the "Requirements"), the Recipient shall not distribute any Funds to any Beneficiary.

1. Procedures shall be developed and implemented for (i) identifying trustees who are individuals resident in Ontario to replace Computershare Trust Company of Canada as the sole trustee of the Recipient, and (ii) the making of decisions by the trustees of the Recipient and more generally, for the governance of the Recipient.

2. Computershare Trust Company of Canada shall be replaced as the sole trustee of the Recipient with three or more individual trustees identified in accordance with the procedures developed under clause 1.

3. An administrative services agreement shall have been developed and entered into by the Recipient and the administrative services agent providing for the administrative services necessary for the operation of the Recipient and the execution of the Project.

4. Procedures will be developed and implemented under which Local Distribution Companies (as defined in the Declaration of Trust) will assist with (i) the identification of Beneficiaries, and (ii) the distribution of Funds to or for the benefit of such Beneficiaries.

5. Insurance requirement

Each of the Requirements may be accomplished by the Recipient entering into such agreements as may be necessary or expedient, including, without limitation, an amendment or amendment and restatement of the Declaration of Trust. The Province shall provide notice in writing to the Recipient when the Requirements have been completed to the satisfaction of the Province. Funds may be expended to pay the expenses of the Trustee in completing the Requirements.

Commented [A4]: We will look to refine this, but the intent is for Trustees to have insurance in place before funds are flowed.

Under the previous draft, if there was a lawsuit against a Trustee, expenses and any liabilities would be covered by the Trust (indemnification).

Instead, we are proposing that a line of insurance be established that a Trustee would access to cover lawsuit related expenses and liabilities.

The intention is to protect the Trust funds and for them to be not used for lawsuit related liabilities.

Commented [A5]: We will be refining this content further

SCHEDULE "D"

2. Only actual (excluding HST) incurred expenditures of the Trust are eligible for reimbursement as administrative expenses.

3. It is expected any travel, meals and hospitality expenses by the Recipient will be consistent with the Province's Travel, Meal and Hospitality Expenses Directive. Commented [A4]: We will look to refine this, but the intent is for Trustees to have insurance in place before funds are flowed.

Under the previous draft, if there was a lawsuit against a Trustee, expenses and any liabilities would be covered by the Trust (indemnification).

Instead, we are proposing that a line of insurance be established that a Trustee would access to cover lawsuit related expenses and liabilities.

The intention is to protect the Trust funds and for them to be not used for lawsuit related liabilities.

PRINCIPLES ANNEX

Commented [A1]: Content in the annex will be further refined

Commented [A2]: KPMG to comment on 'control' implications.

The following principles apply in relation to the administration of the Trust:

1. Identification of Primary Beneficiary Payees

1.1 A Primary Beneficiary should not receive a benefit from the Trust unless at the time of consideration it satisfies each of the following criteria (the "**Selection Factors**"):

(i) it is an [owner-occupied,], [non-commercial] [not for profit] electricity customer;

(ii) it has [committed] [made arrangements] [proposed] [indicated its willingness] to undertake measures (its "**Energy Plan**") to improve the electricity efficiency and/or promote the conservation of electricity at its Ontario residence;

(iii) its Energy Plan involves one or more Eligible Measures as may be designated by the Trustee from time to time from;

(iv) it confirms that:

1. the primary purpose of its Energy Plan is the conservation and efficient use by the Primary Beneficiary of electricity, and is not for the purposes of the Primary Beneficiary making a profit;

2. it would otherwise not have the financial resources to undertake [the Eligible Measures] included in its Energy Plan;

3. the Eligible Measures to be undertaken by it under its Energy Plan would not otherwise be eligible for reimbursement from third parties, including under any efficiency or conservation program implemented by a government, governmental agency or third party energy subsidy program;

(v) it has demonstrated a need for financial assistance on the basis that its periodic electricity bills represent a financial burden, relative to its available financial resources; and

(vi) such other criteria as the Trustee may determine, including based on the recommendations of Electricity Distributors made on the basis and in accordance with the delegations contemplated by the Permitted Delegations Annex or any applicable Administrative Services Agreement.

1.2 The availability of funds to the Primary Beneficiaries should be allocated on an equitable and consistent basis across different areas and regions within the Province, having regard to:

(i) broad economic parameters of economic activity and the financial resources of the residents of the areas and regions;

(ii) electricity use and efficiency levels of non-commercial electricity customers;

(iii) specific regional indicators of economic weakness and need; and/or

(iv) such other factors as the Trustee may determine are relevant, including based on the submissions, advice and recommendations of Electricity Distributors made on the basis and in accordance with the delegations contemplated by the Permitted Delegations Annex or any applicable Administrative Services Agreement.

1.3 An efficient basis upon which to allocate funds to the Primary Beneficiaries across different areas and regions within the Province may be based on the designated areas and regions serviced by the Electricity Distributors operating within the Province.

1.4 The designated Electricity Distributor for an area or region in which a Primary Beneficiary resides will:

(i) be a reliable source for the purpose of assessing and confirming whether the Primary Beneficiary satisfies the Selection Factors;

(ii) be an efficient intermediary for the purpose of communicating with the Primary Beneficiary, including regarding the availability, terms, conditions and intended purposes of [Project][8];

(iii) be able to efficiently integrate and reflect any distribution payments determined to be made to the Primary Beneficiary within its established practices, procedures and systems; and

(iv) have established contractual arrangements with the Primary Beneficiary that may apply to the protection and confidentiality of information provided by or respecting the Primary Beneficiary, which information may be useful in the consideration by the Electricity Distributor in its assessment of whether the Primary Beneficiary satisfies the Selection Factors, which information may not otherwise be available or readily accessible or verifiable by the Trustee.

1.5 The designated Electricity Distributor for an area or region in which a Primary Beneficiary resides will have market and utilization information that may be useful in assessing the relative needs of Primary Beneficiaries within its designated area or region. Such information will be relevant in assessing the extent to which one such Primary Beneficiary's financial needs and the merits of its Energy Plan are greater or more compelling than those of another such Primary Beneficiary, which comparison may be relevant to the extent that the funds allocable to the Primary Beneficiaries resident in the area or region are otherwise insufficient to meet the requests for funding by all such Primary Beneficiaries.

1.6 Accordingly, it is consistent with the purposes of the Trust that the recommendations of Electricity Distributors be utilized and relied upon by the Trustee to guide the process of identifying particular Primary Beneficiaries for distributions under the [Project].

[8] Consider if the Trustees should control the messaging to ensure consistency across the Province.

1.7 If an Electricity Distributor for a particular area or region is unable or unwilling to assess or confirm the application of the Selection Factors to Primary Beneficiaries residing in the area or region or to make recommendations in relation to such matters, one or more of the following may provide a suitable alternative source of information and for information gathering, assessment and confirmation purposes in relation to such area or region:

(i) other Electricity Distributors operating in adjacent or other areas or regions in the Province;

(ii) the Ontario Energy Board;

(iii) the Independent Electricity System Operator; and

(iv) anyone else having relevant expertise and access to information regarding the electricity market of the Province, in each case as may be considered relevant by the Trustee.

1.8 To the extent that privacy law or other legal requirements limit an Electricity Distributor from providing or making available specific information respecting the application of the Selection Factors to a particular Primary Beneficiary or group of Primary Beneficiaries, it may be appropriate to redact or make generic affected information regarding such Primary Beneficiary in connection with the identification and confirmation of a Primary Beneficiary's eligibility and participation in the [Project]. If such limitations or restrictions would limit an Electricity Distributor from providing or confirming the name of a particular Primary Beneficiary to the Trustee, then it should be sufficient that such information may be obtained or disseminated on a confidential basis if and when required by the Trustee for the proper administration of the Trust and on that basis such impediments should not disqualify a Primary Beneficiary from participating in the benefits of the [Project], to the extent that the confidential record-keeping of the Electricity Distributor would be available in connection with the application of any applicable legal process predicated on the identification of such Primary Beneficiary for the purposes of substantiating its rights as a Primary Beneficiary of the Trust or as to the validity or subsistence of the Trust.

2. Eligible Measures

2.1 Eligible Measures shall be identified having regard to the following (the "**Measures Factors**"):

(i) [NTD: Insert generic list of considerations relevant to the identification of the applicable spending uses].

2.2 In identifying and applying the Measures Factors, Electricity Distributors will have expertise in assessing the suitability of efficiency and conservation measures in their respective areas and regions, which may differ across areas and regions across the Province based on factors (among other things) such as the climate, geography, density, electricity infrastructure, residential structures, and electricity use rates applicable within such areas or regions.

2.3 Unless otherwise specified by the Trustees, the measures specified in Schedule A to this Principles Annex will be considered.

3. Other

3.1 It is expected that administrative expenses of the Board of Trustees and its members, including any expenses relating to the Trust, to the establishment of the [Affordability Fund] and any expenses related to the implementation and operation of the [Project] by or through Electricity Distributors and other relevant entities, will be recognized and subject to reimbursement in accordance with the principles outlined in the [Province's Transfer Payment Accountability Directive/Travel, Meal and Hospitality Expenses Directive][9], in the form attached to Schedule B to this Principles Annex.

3.2 The Trustee is expected to conduct its activities to ensure that, as more specifically contemplated in the Transfer Payment Agreement:

(i) the Assets are applied are spent prudently and in furtherance of the purpose set forth in the Declaration;

(ii) the Trustee is accountable to the Province for activities undertaking in connection with the Project;

(iii) it complies with the Province's request for any independent verification or audit determined to be necessary or appropriate by the Province;

(iv) the Province will be entitled and has reserved its right to demand the return of the Assets if the Province determined that they are not being used for the purposes and applied in the manner as set forth or contemplated in the Declaration.

3.3 Electricity Distributors are not intended to directly profit from distributions of funds made from the Trust, although it is recognized that the objectives of electricity efficiency and conservation of Primary Beneficiaries located in the service area or region of an Electricity Distributor, and the cost savings and improved credit worthiness of such Primary Beneficiaries, may be financially beneficial to the Electricity Distributor.

3.4 Distributions from the Trust are intended to allow receiving Primary Beneficiaries to undertake Eligible Measures at no or minimal personal cost.

3.5 It is expected that the Trust Assets will be distributed to Primary Beneficiaries during the period from the Original Trustee Replacement Date to [the Final Distribution Date] [March 31, 2019].

[9] NTD: Ministry to confirm applicable Directive(s).

SCHEDULE B TO THE PRINCIPLES ANNEX
PERMITTED EXPENSE REIMBURSEMENTS

[NTD: Insert the Province's Transfer Payment Accountability Directive/Travel, Meal and Hospitality Expenses Directive]

PERMITTED DELEGATION ANNEX

1. Under Section 4.2(d) of the Declaration, the Trustee has the power to: (A) appoint, employ or retain Administrative Services Agents for the purpose of discharging its duties and obligations under the Declaration; and (B) enter into, perform, enforce and amend Administrative Services Agreements.

2. In accordance with [Section 4.2] of the Declaration, consistent with the principles set forth in the Principles Annex, the Trustee or its agent will seek to enter into one or more Administrative Services Agreements with individual Electricity Distributors under which the Electricity Distributors will act as Administrative Service Agents to the Trustee. In this manner, the Trustee will delegate certain of its powers and duties to the Electricity Distributors.

3. Under Section 5.1 of the Declaration, to the extent the Trustee has delegated any of its duties or powers, it shall be deemed to have satisfied the Standard of Care in respect of the subject matter of such delegation, subject to the Trustee's overall duty to exercise prudent oversight thereof. The Trustee is entitled to rely on an Electricity Distributor to discharge the duties delegated to it, as Administrative Services Agent, pursuant to an Administrative Services Agreement as described in this Annex.

4. Accordingly, and without limiting the Trust's right to delegate under the Declaration, the Trust will be permitted to, and should seek to, enter into Administrative Services Agreements with Electricity Distributors in order to provide for the following:

    a. **Identification of Applicable Primary Beneficiary Payees and Determination of Individual Distribution Amounts**

        i. Each Electricity Distributor will make an initial assessment of the financial needs of Primary Beneficiaries within its designated service area or region, having regard to [NTD: specify relevant economic data and reference material], in order to prepare and provide to the Trustee an estimate of the number of Primary Beneficiaries who the Electricity Distributor reasonably expects would satisfy the Selection Factors (as defined in clause 1.1 "Identification of Primary Beneficiary Payees" of the Principles Annex).

        ii. Each Electricity Distributor will make an initial assessment of the measures it would recommend be included as Eligible Measures, having regard to [NTD: specify relevant considerations], in order to prepare and provide to the Trustee an estimate of the average cost per Primary Beneficiary Payee (as defined below) of such Eligible Measures that the Electricity Distributor reasonably expects would apply in respect of Primary Beneficiaries resident in its service area or region.

        iii. Based on the product of (i) and (ii), above, and such other considerations as it considers to be directly relevant, each Electricity Distributor will make a written recommendation to the Trustee regarding the aggregate funding amount that the Electricity Distributor anticipates would be utilized under the

[Project] by Primary Beneficiaries in its service area or region (the "**Local Funding Estimate**"). Such recommendation will be accompanied, when submitted to the Trustee, by a detailed explanation regarding the assumptions, financial parameters, suitability considerations and other information underlying the Local Funding Estimate (including the type of information contemplated by "[Insert]" under the Principles Annex, which will be relied upon by the Trustee in its assessment regarding the allocation of available funding to or for the benefit of the Primary Beneficiaries across the specified areas and regions of the Province.

iv. The Trustee will inform the Electricity Distributor regarding the aggregate of the amount determined by the Trustee to be made available under the [Project] for Primary Beneficiaries in the Electricity Distributor's designated service area or region (for each LDC, its "**Maximum LDC Allocation**") and as to any maximum amount that may be paid to or for the benefit of any single Primary Beneficiary [or group of related Primary Beneficiaries] located in the servicer area or region of the Electricity Distributor (the "**Maximum Primary Beneficiary Amount**"). The Maximum LDC Amount and Maximum Primary Beneficiary Amount may vary between designated areas and regions, the Primary Beneficiaries within such areas and regions, and may be increased by the Trustee from time to time in its discretion.

v. Each Electricity Distributor will apply the principles set forth under ["Identification of Primary Beneficiary Payees" in the Principles Annex] to identify and make recommendations to the Trustee regarding the amount of funds (if any) to be distributed to or for the benefit of Primary Beneficiaries resident within its designated service area or region from time to time (the "**Primary Beneficiary Payees**").

vi. Each Electricity Distributor will ensure that the aggregate of the amounts it recommends be distributed to or for the benefit of Primary Beneficiary Payees from time to time does not exceed (1) its Maximum LDC Allocation and (2) for any single Primary Beneficiary [or group of related Primary Beneficiaries] located in the servicer area or region of the Electricity Distributor, the Maximum Primary Beneficiary Amount.

vii. The Trustee will provide written confirmation to each Electricity Distributor:

1. Either (x) that the recommendations specified of the Electricity Distributor in clause (v), above, have been accepted, or (y) as to the specific reasons for any non-acceptance;

2. The identity of each Primary Beneficiary Payee resident in the Electricity Distributor's service area or region and its residential address;

3. The amount of the distribution to be paid to or for the benefit of each such Primary Beneficiary Payee.

b. **Making of Distributions**

i. Promptly after the Trustee confirms the identity of a Primary Beneficiary Payee resident in a Electricity Distributor's service area or region and the amount of the distribution to be paid to or for the benefit of such Primary Beneficiary Payee, the Trustee will arrange for payment to the Electricity Distributor an amount equal to the amount of such distribution.

ii. Promptly upon receipt of funds in respect of a distribution to a Primary Beneficiary Payee, the Electricity Distributor will arrange for payment of the full amount of such distribution to or for the benefit of the Primary Beneficiary Payee, without reduction or set-off.

c. **Reporting, Record-Keeping, Inspection and Disclosure**

i. The Electricity Distributor will provide to the Trustee quarterly and annual reports ("**Reports**") for the duration of the Administrative Services Agreement.

ii. The Electricity Distributor will keep and maintain all financial records and non-financial documents and records relating to the provision of services under the Administrative Services Agreement. [Specify required records regarding individual Primary Beneficiary Payees]

iii. The Trustee, its authorized representatives or an independent auditor may, at its own expense, on twenty-four hours' notice to the Electricity Distributor and during normal business hours, inspect the records of and information respecting the Electricity Distributor to confirm its compliance with the Administrative Services Agreement, including its process for determining the Primary Beneficiary Payees, distribution amounts and the delivery of funds to [or for the benefit of] the Primary Beneficiary Payees. The Trustee, its authorized representatives or an independent auditor may inspect and copy all records and documents kept in accordance with the Administrative Services Agreement and conduct an audit or investigation of the Electricity Distributor in respect of the identification of the applicable Primary Beneficiary Payees, the amount of distributions made to or for the benefit of the Primary Beneficiary Payees; and the delivery of funds to or for the benefit of the Primary Beneficiary Payees.

d. **Standard of Care**

i. The Electricity Distributor will perform its duties provided under the Administrative Services Agreement exercising the degree of care, diligence and skill that a reasonably prudent Person would exercise in comparable circumstances.

ii. In recommending Primary Beneficiary Payees to the Trustee, the Electricity Distributor will seek to avoid actual, potential or perceived conflicts of interest.

e. **Expenses**

i. The Electricity Distributor will be eligible to receive reasonable compensation and reimbursement of its actual out-of-pocket costs associated with the performance of its duties under the Administrative Services Agreement, subject to compliance with the Province's Travel, Meal and Hospitality Expenses Directive. Such compensation amounts and reimbursement entitlements will be specified in the Administrative Services Agreement.

Subject: RE: Affordability Fund - Declaration of Trust and Transfer Pricing Agreement

Thanks Alex and understood re: sharing finals with Computershare.

Also, our counsel has drafted the following to assist in Hydro One and KPMG's review of the documents:

Our mark-up addresses the tensions that exist among (1) the requirements to recognize the Trust as non-controlled for government year-end accounting purposes, (2) the practical need for the LDCs to lead the identification and allocations to eligible participants processes (3) the desire for the ultimate customers in need to be the reference group of beneficiaries (4) the legal requirements to create a valid trust under Ontario law and (5) the practical limitations associated with addressing and contracting relevant LDC participation prior to March 31, while achieving sufficient contractual certainty for the Province and legal purposes.

To balance these tensions, we have suggested the following (subject to accounting input and practical input from Hydro One):

(1) the Declaration contemplates the following 3 time periods:

a. Initially, Computershare will be the trustee and will simply sit on the funds. Hydro One will provide very basic administrative services during this initial period. Computershare, acting on the recommendations of an "Advisory Committee" will appoint its replacement – a "Board of Trustees" (this is contemplated in a Trustee Replacement Annex to the Declaration).

b. Once the Board of Trustees is in place, administrative services agreements will be entered into with LDCs. To give the LDCs a wide scope to identify funding recipients within their service areas, a broad and specific delegation is described in the "Permitted Delegations Annex", which frames out what the basic and key terms of the ultimate Administrative Services Agreements with the LDCs will entail. That level of detail is required to enable the broad Trustee delegation, without upending the validity of the Trust for legal purposes. The Board of Trustees will maintain supervisory responsibility over the LDCs actions, but will be permitted to rely on the recommendations of the LDCs. Under these arrangements, the find will be divided by region and then LDCs will have wide discretion to recommend distributions, in each case subject to the principles set out in a "Principles Annex".

c. Once the program is to be wound up (either because of a default by the Trust, the Trustee's determine that all funding has been appropriately provided for or a final end-date occurs), any remaining funds will be paid to charitable beneficiaries identified from among a pre-determined slate. The amount available to the charities in the circumstance where a default of the Trust has occurred will be net of the amount the Province will be entitled to be paid (i.e., the remaining Assets) from the Trust under the Transfer Payment Agreement.

(2) From March 31, all of the discretion to deal with the Trust Assets will reside with Computershare or the Board, or by delegation to the LDCs where a suitable contract is signed by the Trust with the LDCs. The Province will not maintain control of the Assets, and all steps contemplated in (1) will not be affected by the Province other than (in substance):

a. To the extent the Province is represented on the Advisory Committee or the Board;

b. The Province has rights to require payment of remaining Assets under the Transfer Agreement on an "event of default"; or

c. The Province has certain reporting, audit and compliance rights, essentially to affect the intended purpose of the Trust in its implementation (and with remedies under

the Transfer Payment Agreement, including a right to be paid the undistributed Assets or to pursue contract remedies (including specific performance).

Otherwise, the terms of the Trust will be determined at the outset and determined and affected by non-governmental entities. We understand that these continuing ties to the Trust would not be contrary to the accounting principles applicable for government year-end treatment as a non-controlled trust entity.

Based on this drafting approach, Blakes believes on a preliminary basis that the validity issues associated with the Trust can be adequately addressed.

Hi Alex:

Please find attached tracked and clean versions of the TPA and Declaration of Trust. Tracked versions are tracked from the versions you had shared on March 13. You will note that there are comments in the TPA and Declaration indicating areas that we are working with Blakes to finalize.

We would recommend, as discussed, that Hydro One share these current versions with KPMG, as well as Computershare, so that we can work to resolve identified issues.

Can Hydro One advise if it will not be possible to share comments back with us for 3 PM tomorrow?

We would like to set up a call tomorrow afternoon to discuss comments. Can you advise of a preferred time for a call?

A few other follow-ups:

· We have confirmed internally that Computershare can establish an interim Trust account using their existing banking relationship with BNF. Can you confirm once this (and the TPA/Decl if you agree to share) is communicated with Computershare?

· Can you please share the Computershare Trustee(s) contact details? We understand that the Trustees will have to be recognized in the Declaration of Trust.

· Can you share the administrative service agreement for the Ministry's

review today? Our interest in seeing this is to have comfort that it will be ready for signing by Computershare on Monday or Tuesday of next week.

Thanks again to you and your team for working with us on these tight timelines.

PRINCIPLES ANNEX

The following principles apply in relation to the administration of the Trust:

1. Identification of Primary Beneficiary Payees

1.1 A Primary Beneficiary should not receive a benefit from the Trust unless at the time of consideration it satisfies each of the following criteria (the "**Selection Factors**"):

(i) it is an [owner-occupied,], [non-commercial] [not for profit] electricity customer;

(ii) it has [committed] [made arrangements] [proposed] [indicated its willingness] to undertake measures (its "**Energy Plan**") to improve the electricity efficiency and/or promote the conservation of electricity at its Ontario residence;

(iii) its Energy Plan involves one or more Eligible Measures as may be designated by the Trustee from time to time from;

(iv) it confirms that:

1. the primary purpose of its Energy Plan is the conservation and efficient use by the Primary Beneficiary of electricity, and is not for the purposes of the Primary Beneficiary making a profit;

2. it would otherwise not have the financial resources to undertake [the Eligible Measures] included in its Energy Plan;

3. the Eligible Measures to be undertaken by it under its Energy Plan would not otherwise be eligible for reimbursement from third parties, including under any efficiency or conservation program implemented by a government, governmental agency or third party energy subsidy program;

(v) it has demonstrated a need for financial assistance on the basis that its periodic electricity bills represent a financial burden, relative to its available financial resources; and

(vi) such other criteria as the Trustee may determine, including based on the recommendations of Electricity Distributors made on the basis and in accordance with the delegations contemplated by the Permitted Delegations Annex or any applicable Administrative Services Agreement.

1.2 The availability of funds to the Primary Beneficiaries should be allocated on an equitable and consistent basis across different areas and regions within the Province, having regard to:

(i) broad economic parameters of economic activity and the financial resources of the residents of the areas and regions;

Commented [A1]: Content in the annex will be further refined

Commented [A2]: KPMG to comment on 'control' implications.

(ii) electricity use and efficiency levels of non-commercial electricity customers;

(iii) specific regional indicators of economic weakness and need; and/or

(iv) such other factors as the Trustee may determine are relevant, including based on the submissions, advice and recommendations of Electricity Distributors made on the basis and in accordance with the delegations contemplated by the Permitted Delegations Annex or any applicable Administrative Services Agreement.

1.3 An efficient basis upon which to allocate funds to the Primary Beneficiaries across different areas and regions within the Province may be based on the designated areas and regions serviced by the Electricity Distributors operating within the Province.

1.4 The designated Electricity Distributor for an area or region in which a Primary Beneficiary resides will:

(i) be a reliable source for the purpose of assessing and confirming whether the Primary Beneficiary satisfies the Selection Factors;

(ii) be an efficient intermediary for the purpose of communicating with the Primary Beneficiary, including regarding the availability, terms, conditions and intended purposes of [Project][8];

(iii) be able to efficiently integrate and reflect any distribution payments determined to be made to the Primary Beneficiary within its established practices, procedures and systems; and

(iv) have established contractual arrangements with the Primary Beneficiary that may apply to the protection and confidentiality of information provided by or respecting the Primary Beneficiary, which information may be useful in the consideration by the Electricity Distributor in its assessment of whether the Primary Beneficiary satisfies the Selection Factors, which information may not otherwise be available or readily accessible or verifiable by the Trustee.

1.5 The designated Electricity Distributor for an area or region in which a Primary Beneficiary resides will have market and utilization information that may be useful in assessing the relative needs of Primary Beneficiaries within its designated area or region. Such information will be relevant in assessing the extent to which one such Primary Beneficiary's financial needs and the merits of its Energy Plan are greater or more compelling than those of another such Primary Beneficiary, which comparison may be relevant to the extent that the funds allocable to the Primary Beneficiaries resident in the area or region are otherwise insufficient to meet the requests for funding by all such Primary Beneficiaries.

[8] Consider if the Trustees should control the messaging to ensure consistency across the Province.

1.6 Accordingly, it is consistent with the purposes of the Trust that the recommendations of Electricity Distributors be utilized and relied upon by the Trustee to guide the process of identifying particular Primary Beneficiaries for distributions under the [Project].

1.7 If an Electricity Distributor for a particular area or region is unable or unwilling to assess or confirm the application of the Selection Factors to Primary Beneficiaries residing in the area or region or to make recommendations in relation to such matters, one or more of the following may provide a suitable alternative source of information and for information gathering, assessment and confirmation purposes in relation to such area or region:

(i) other Electricity Distributors operating in adjacent or other areas or regions in the Province;

(ii) the Ontario Energy Board;

(iii) the Independent Electricity System Operator; and

(iv) anyone else having relevant expertise and access to information regarding the electricity market of the Province, in each case as may be considered relevant by the Trustee.

1.8 To the extent that privacy law or other legal requirements limit an Electricity Distributor from providing or making available specific information respecting the application of the Selection Factors to a particular Primary Beneficiary or group of Primary Beneficiaries, it may be appropriate to redact or make generic affected information regarding such Primary Beneficiary in connection with the identification and confirmation of a Primary Beneficiary's eligibility and participation in the [Project]. If such limitations or restrictions would limit an Electricity Distributor from providing or confirming the name of a particular Primary Beneficiary to the Trustee, then it should be sufficient that such information may be obtained or disseminated on a confidential basis if and when required by the Trustee for the proper administration of the Trust and on that basis such impediments should not disqualify a Primary Beneficiary from participating in the benefits of the [Project], to the extent that the confidential record-keeping of the Electricity Distributor would be available in connection with the application of any applicable legal process predicated on the identification of such Primary Beneficiary for the purposes of substantiating its rights as a Primary Beneficiary of the Trust or as to the validity or subsistence of the Trust.

2. Eligible Measures

2.1 Eligible Measures shall be identified having regard to the following (the "**Measures Factors**"):

(i) [NTD: Insert generic list of considerations relevant to the identification of the applicable spending uses].

2.2 In identifying and applying the Measures Factors, Electricity Distributors will have expertise in assessing the suitability of efficiency and conservation measures in their

respective areas and regions, which may differ across areas and regions across the Province based on factors (among other things) such as the climate, geography, density, electricity infrastructure, residential structures, and electricity use rates applicable within such areas or regions.

2.3 Unless otherwise specified by the Trustees, the measures specified in Schedule A to this Principles Annex will be considered.

3. Other

3.1 It is expected that administrative expenses of the Board of Trustees and its members, including any expenses relating to the Trust, to the establishment of the [Affordability Fund] and any expenses related to the implementation and operation of the [Project] by or through Electricity Distributors and other relevant entities, will be recognized and subject to reimbursement in accordance with the principles outlined in the [Province's Transfer Payment Accountability Directive/Travel, Meal and Hospitality Expenses Directive][9], in the form attached to Schedule B to this Principles Annex.

3.2 The Trustee is expected to conduct its activities to ensure that, as more specifically contemplated in the Transfer Payment Agreement:

(i) the Assets are applied are spent prudently and in furtherance of the purpose set forth in the Declaration;

(ii) the Trustee is accountable to the Province for activities undertaking in connection with the Project;

(iii) it complies with the Province's request for any independent verification or audit determined to be necessary or appropriate by the Province;

(iv) the Province will be entitled and has reserved its right to demand the return of the Assets if the Province determined that they are not being used for the purposes and applied in the manner as set forth or contemplated in the Declaration.

3.3 Electricity Distributors are not intended to directly profit from distributions of funds made from the Trust, although it is recognized that the objectives of electricity efficiency and conservation of Primary Beneficiaries located in the service area or region of an Electricity Distributor, and the cost savings and improved credit worthiness of such Primary Beneficiaries, may be financially beneficial to the Electricity Distributor.

3.4 Distributions from the Trust are intended to allow receiving Primary Beneficiaries to undertake Eligible Measures at no or minimal personal cost.

3.5 It is expected that the Trust Assets will be distributed to Primary Beneficiaries during the period from the Original Trustee Replacement Date to [the Final Distribution Date] [March 31, 2019].

PERMITTED DELEGATION ANNEX

1. Under Section 4.2(d) of the Declaration, the Trustee has the power to: (A) appoint, employ or retain Administrative Services Agents for the purpose of discharging its duties and obligations under the Declaration; and (B) enter into, perform, enforce and amend Administrative Services Agreements.

2. In accordance with [Section 4.2] of the Declaration, consistent with the principles set forth in the Principles Annex, the Trustee or its agent will seek to enter into one or more Administrative Services Agreements with individual Electricity Distributors under which the Electricity Distributors will act as Administrative Service Agents to the Trustee. In this manner, the Trustee will delegate certain of its powers and duties to the Electricity Distributors.

3. Under Section 5.1 of the Declaration, to the extent the Trustee has delegated any of its duties or powers, it shall be deemed to have satisfied the Standard of Care in respect of the subject matter of such delegation, subject to the Trustee's overall duty to exercise prudent oversight thereof. The Trustee is entitled to rely on an Electricity Distributor to discharge the duties delegated to it, as Administrative Services Agent, pursuant to an Administrative Services Agreement as described in this Annex.

4. Accordingly, and without limiting the Trust's right to delegate under the Declaration, the Trust will be permitted to, and should seek to, enter into Administrative Services Agreements with Electricity Distributors in order to provide for the following:

    a. **Identification of Applicable Primary Beneficiary Payees and Determination of Individual Distribution Amounts**

        i. Each Electricity Distributor will make an initial assessment of the financial needs of Primary Beneficiaries within its designated service area or region, having regard to [NTD: specify relevant economic data and reference material], in order to prepare and provide to the Trustee an estimate of the number of Primary Beneficiaries who the Electricity Distributor reasonably expects would satisfy the Selection Factors (as defined in clause 1.1 "Identification of Primary Beneficiary Payees" of the Principles Annex).

        ii. Each Electricity Distributor will make an initial assessment of the measures it would recommend be included as Eligible Measures, having regard to [NTD: specify relevant considerations], in order to prepare and provide to the Trustee an estimate of the average cost per Primary Beneficiary Payee (as defined below) of such Eligible Measures that the Electricity Distributor reasonably expects would apply in respect of Primary Beneficiaries resident in its service area or region.

        iii. Based on the product of (i) and (ii), above, and such other considerations as it considers to be directly relevant, each Electricity Distributor will make a written recommendation to the Trustee regarding the aggregate funding amount that the Electricity Distributor anticipates would be utilized under the

[Project] by Primary Beneficiaries in its service area or region (the "**Local Funding Estimate**"). Such recommendation will be accompanied, when submitted to the Trustee, by a detailed explanation regarding the assumptions, financial parameters, suitability considerations and other information underlying the Local Funding Estimate (including the type of information contemplated by "[Insert]" under the Principles Annex, which will be relied upon by the Trustee in its assessment regarding the allocation of available funding to or for the benefit of the Primary Beneficiaries across the specified areas and regions of the Province.

iv. The Trustee will inform the Electricity Distributor regarding the aggregate of the amount determined by the Trustee to be made available under the [Project] for Primary Beneficiaries in the Electricity Distributor's designated service area or region (for each LDC, its "**Maximum LDC Allocation**") and as to any maximum amount that may be paid to or for the benefit of any single Primary Beneficiary [or group of related Primary Beneficiaries] located in the servicer area or region of the Electricity Distributor (the "**Maximum Primary Beneficiary Amount**"). The Maximum LDC Amount and Maximum Primary Beneficiary Amount may vary between designated areas and regions, the Primary Beneficiaries within such areas and regions, and may be increased by the Trustee from time to time in its discretion.

v. Each Electricity Distributor will apply the principles set forth under ["Identification of Primary Beneficiary Payees" in the Principles Annex] to identify and make recommendations to the Trustee regarding the amount of funds (if any) to be distributed to or for the benefit of Primary Beneficiaries resident within its designated service area or region from time to time (the "**Primary Beneficiary Payees**").

vi. Each Electricity Distributor will ensure that the aggregate of the amounts it recommends be distributed to or for the benefit of Primary Beneficiary Payees from time to time does not exceed (1) its Maximum LDC Allocation and (2) for any single Primary Beneficiary [or group of related Primary Beneficiaries] located in the servicer area or region of the Electricity Distributor, the Maximum Primary Beneficiary Amount.

vii. The Trustee will provide written confirmation to each Electricity Distributor:

1. Either (x) that the recommendations specified of the Electricity Distributor in clause (v), above, have been accepted, or (y) as to the specific reasons for any non-acceptance;

2. The identity of each Primary Beneficiary Payee resident in the Electricity Distributor's service area or region and its residential address;

3. The amount of the distribution to be paid to or for the benefit of each such Primary Beneficiary Payee.

b. **Making of Distributions**

i. Promptly after the Trustee confirms the identity of a Primary Beneficiary Payee resident in a Electricity Distributor's service area or region and the amount of the distribution to be paid to or for the benefit of such Primary Beneficiary Payee, the Trustee will arrange for payment to the Electricity Distributor an amount equal to the amount of such distribution.

ii. Promptly upon receipt of funds in respect of a distribution to a Primary Beneficiary Payee, the Electricity Distributor will arrange for payment of the full amount of such distribution to or for the benefit of the Primary Beneficiary Payee, without reduction or set-off.

c. **Reporting, Record-Keeping, Inspection and Disclosure**

i. The Electricity Distributor will provide to the Trustee quarterly and annual reports ("**Reports**") for the duration of the Administrative Services Agreement.

ii. The Electricity Distributor will keep and maintain all financial records and non-financial documents and records relating to the provision of services under the Administrative Services Agreement. [Specify required records regarding individual Primary Beneficiary Payees]

iii. The Trustee, its authorized representatives or an independent auditor may, at its own expense, on twenty-four hours' notice to the Electricity Distributor and during normal business hours, inspect the records of and information respecting the Electricity Distributor to confirm its compliance with the Administrative Services Agreement, including its process for determining the Primary Beneficiary Payees, distribution amounts and the delivery of funds to [or for the benefit of] the Primary Beneficiary Payees. SCHEDULE "C"

PROJECT

For the purposes of this Agreement, the "Project" is the distribution of the Funds in accordance with the Declaration of Trust.

The Project will be completed subject to the requirements of the Budget and in accordance with the Principles set forth in Annex A.

Notwithstanding anything else contained in the Agreement or the Declaration of Trust, until such time as each of the following conditions have been completed to the satisfaction of the Province (the "Requirements"), the Recipient shall not distribute any Funds to any Beneficiary.

1. Procedures shall be developed and implemented for (i) identifying trustees who are individuals resident in Ontario to replace Computershare Trust Company of Canada as the sole trustee of the Recipient, and (ii) the making of decisions by the trustees of the Recipient and more generally, for the governance of the Recipient.

2. Computershare Trust Company of Canada shall be replaced as the sole trustee of the Recipient with three or more individual trustees identified in accordance with the procedures developed under clause 1.

3. An administrative services agreement shall have been developed and entered into by the Recipient and the administrative services agent providing for the administrative services necessary for the operation of the Recipient and the execution of the Project.

4. Procedures will be developed and implemented under which Local Distribution Companies (as defined in the Declaration of Trust) will assist with (i) the identification of Beneficiaries, and (ii) the distribution of Funds to or for the benefit of such Beneficiaries.

5. Insurance requirement

Each of the Requirements may be accomplished by the Recipient entering into such agreements as may be necessary or expedient, including, without limitation, an amendment or amendment and restatement of the Declaration of Trust. The Province shall provide notice in writing to the Recipient when the Requirements have been completed to the satisfaction of the Province. Funds may be expended to pay the expenses of the Trustee in completing the Requirements.

Commented [A4]: We will look to refine this, but the intent is for Trustees to have insurance in place before funds are flowed.

Under the previous draft, if there was a lawsuit against a Trustee, expenses and any liabilities would be covered by the Trust (indemnification).

Instead, we are proposing that a line of insurance be established that a Trustee would access to cover lawsuit related expenses and liabilities.

The intention is to protect the Trust funds and for them to be not used for lawsuit related liabilities.

Commented [A5]: We will be refining this content further

Commented [A4]: We will look to refine this, but the intent is for Trustees to have insurance in place before funds are flowed.

Under the previous draft, if there was a lawsuit against a Trustee, expenses and any liabilities would be covered by the Trust (indemnification).

Instead, we are proposing that a line of insurance be established that a Trustee would access to cover lawsuit related expenses and liabilities.

The intention is to protect the Trust funds and for them to be not used for lawsuit related liabilities.

Commented [A5]: We will be refining this content further

PRINCIPLES ANNEX

Commented [A1]: Content in the annex will be further refined

Commented [A2]: KPMG to comment on 'control' implications.

The following principles apply in relation to the administration of the Trust:

1. Identification of Primary Beneficiary Payees

1.1 A Primary Beneficiary should not receive a benefit from the Trust unless at the time of consideration it satisfies each of the following criteria (the "**Selection Factors**"):

(i) it is an [owner-occupied,], [non-commercial] [not for profit] electricity customer;

(ii) it has [committed] [made arrangements] [proposed] [indicated its willingness] to undertake measures (its "**Energy Plan**") to improve the electricity efficiency and/or promote the conservation of electricity at its Ontario residence;

(iii) its Energy Plan involves one or more Eligible Measures as may be designated by the Trustee from time to time from;

(iv) it confirms that:

1. the primary purpose of its Energy Plan is the conservation and efficient use by the Primary Beneficiary of electricity, and is not for the purposes of the Primary Beneficiary making a profit;

2. it would otherwise not have the financial resources to undertake [the Eligible Measures] included in its Energy Plan;

3. the Eligible Measures to be undertaken by it under its Energy Plan would not otherwise be eligible for reimbursement from third parties, including under any efficiency or conservation program implemented by a government, governmental agency or third party energy subsidy program;

(v) it has demonstrated a need for financial assistance on the basis that its periodic electricity bills represent a financial burden, relative to its available financial resources; and

(vi) such other criteria as the Trustee may determine, including based on the recommendations of Electricity Distributors made on the basis and in accordance with the delegations contemplated by the Permitted Delegations Annex or any applicable Administrative Services Agreement.

1.2 The availability of funds to the Primary Beneficiaries should be allocated on an equitable and consistent basis across different areas and regions within the Province, having regard to:

(i) broad economic parameters of economic activity and the financial resources of the residents of the areas and regions;

(ii) electricity use and efficiency levels of non-commercial electricity customers;

(iii) specific regional indicators of economic weakness and need; and/or

(iv) such other factors as the Trustee may determine are relevant, including based on the submissions, advice and recommendations of Electricity Distributors made on the basis and in accordance with the delegations contemplated by the Permitted Delegations Annex or any applicable Administrative Services Agreement.

1.3 An efficient basis upon which to allocate funds to the Primary Beneficiaries across different areas and regions within the Province may be based on the designated areas and regions serviced by the Electricity Distributors operating within the Province.

1.4 The designated Electricity Distributor for an area or region in which a Primary Beneficiary resides will:

(i) be a reliable source for the purpose of assessing and confirming whether the Primary Beneficiary satisfies the Selection Factors;

(ii) be an efficient intermediary for the purpose of communicating with the Primary Beneficiary, including regarding the availability, terms, conditions and intended purposes of [Project][8];

(iii) be able to efficiently integrate and reflect any distribution payments determined to be made to the Primary Beneficiary within its established practices, procedures and systems; and

(iv) have established contractual arrangements with the Primary Beneficiary that may apply to the protection and confidentiality of information provided by or respecting the Primary Beneficiary, which information may be useful in the consideration by the Electricity Distributor in its assessment of whether the Primary Beneficiary satisfies the Selection Factors, which information may not otherwise be available or readily accessible or verifiable by the Trustee.

1.5 The designated Electricity Distributor for an area or region in which a Primary Beneficiary resides will have market and utilization information that may be useful in assessing the relative needs of Primary Beneficiaries within its designated area or region. Such information will be relevant in assessing the extent to which one such Primary Beneficiary's financial needs and the merits of its Energy Plan are greater or more compelling than those of another such Primary Beneficiary, which comparison may be relevant to the extent that the funds allocable to the Primary Beneficiaries resident in the area or region are otherwise insufficient to meet the requests for funding by all such Primary Beneficiaries.

1.6 Accordingly, it is consistent with the purposes of the Trust that the recommendations of Electricity Distributors be utilized and relied upon by the Trustee to guide the process of identifying particular Primary Beneficiaries for distributions under the [Project].

[8] Consider if the Trustees should control the messaging to ensure consistency across the Province.

1.7 If an Electricity Distributor for a particular area or region is unable or unwilling to assess or confirm the application of the Selection Factors to Primary Beneficiaries residing in the area or region or to make recommendations in relation to such matters, one or more of the following may provide a suitable alternative source of information and for information gathering, assessment and confirmation purposes in relation to such area or region:

(i) other Electricity Distributors operating in adjacent or other areas or regions in the Province;

(ii) the Ontario Energy Board;

(iii) the Independent Electricity System Operator; and

(iv) anyone else having relevant expertise and access to information regarding the electricity market of the Province, in each case as may be considered relevant by the Trustee.

1.8 To the extent that privacy law or other legal requirements limit an Electricity Distributor from providing or making available specific information respecting the application of the Selection Factors to a particular Primary Beneficiary or group of Primary Beneficiaries, it may be appropriate to redact or make generic affected information regarding such Primary Beneficiary in connection with the identification and confirmation of a Primary Beneficiary's eligibility and participation in the [Project]. If such limitations or restrictions would limit an Electricity Distributor from providing or confirming the name of a particular Primary Beneficiary to the Trustee, then it should be sufficient that such information may be obtained or disseminated on a confidential basis if and when required by the Trustee for the proper administration of the Trust and on that basis such impediments should not disqualify a Primary Beneficiary from participating in the benefits of the [Project], to the extent that the confidential record-keeping of the Electricity Distributor would be available in connection with the application of any applicable legal process predicated on the identification of such Primary Beneficiary for the purposes of substantiating its rights as a Primary Beneficiary of the Trust or as to the validity or subsistence of the Trust.

2. Eligible Measures

2.1 Eligible Measures shall be identified having regard to the following (the "**Measures Factors**"):

(i) [NTD: Insert generic list of considerations relevant to the identification of the applicable spending uses].

2.2 In identifying and applying the Measures Factors, Electricity Distributors will have expertise in assessing the suitability of efficiency and conservation measures in their respective areas and regions, which may differ across areas and regions across the Province based on factors (among other things) such as the climate, geography, density, electricity infrastructure, residential structures, and electricity use rates applicable within such areas or regions.

2.3 Unless otherwise specified by the Trustees, the measures specified in Schedule A to this Principles Annex will be considered.

3. Other

3.1 It is expected that administrative expenses of the Board of Trustees and its members, including any expenses relating to the Trust, to the establishment of the [Affordability Fund] and any expenses related to the implementation and operation of the [Project] by or through Electricity Distributors and other relevant entities, will be recognized and subject to reimbursement in accordance with the principles outlined in the [Province's Transfer Payment Accountability Directive/Travel, Meal and Hospitality Expenses Directive][9], in the form attached to Schedule B to this Principles Annex.

3.2 The Trustee is expected to conduct its activities to ensure that, as more specifically contemplated in the Transfer Payment Agreement:

(i) the Assets are applied are spent prudently and in furtherance of the purpose set forth in the Declaration;

(ii) the Trustee is accountable to the Province for activities undertaking in connection with the Project;

(iii) it complies with the Province's request for any independent verification or audit determined to be necessary or appropriate by the Province;

(iv) the Province will be entitled and has reserved its right to demand the return of the Assets if the Province determined that they are not being used for the purposes and applied in the manner as set forth or contemplated in the Declaration.

3.3 Electricity Distributors are not intended to directly profit from distributions of funds made from the Trust, although it is recognized that the objectives of electricity efficiency and conservation of Primary Beneficiaries located in the service area or region of an Electricity Distributor, and the cost savings and improved credit worthiness of such Primary Beneficiaries, may be financially beneficial to the Electricity Distributor.

3.4 Distributions from the Trust are intended to allow receiving Primary Beneficiaries to undertake Eligible Measures at no or minimal personal cost.

3.5 It is expected that the Trust Assets will be distributed to Primary Beneficiaries during the period from the Original Trustee Replacement Date to [the Final Distribution Date] [March 31, 2019].

[9] NTD: Ministry to confirm applicable Directive(s).

PERMITTED EXPENSE REIMBURSEMENTS

[NTD: Insert the Province's Transfer Payment Accountability Directive/Travel, Meal and Hospitality Expenses Directive]

PERMITTED DELEGATION ANNEX

1. Under Section 4.2(d) of the Declaration, the Trustee has the power to: (A) appoint, employ or retain Administrative Services Agents for the purpose of discharging its duties and obligations under the Declaration; and (B) enter into, perform, enforce and amend Administrative Services Agreements.

2. In accordance with [Section 4.2] of the Declaration, consistent with the principles set forth in the Principles Annex, the Trustee or its agent will seek to enter into one or more Administrative Services Agreements with individual Electricity Distributors under which the Electricity Distributors will act as Administrative Service Agents to the Trustee. In this manner, the Trustee will delegate certain of its powers and duties to the Electricity Distributors.

3. Under Section 5.1 of the Declaration, to the extent the Trustee has delegated any of its duties or powers, it shall be deemed to have satisfied the Standard of Care in respect of the subject matter of such delegation, subject to the Trustee's overall duty to exercise prudent oversight thereof. The Trustee is entitled to rely on an Electricity Distributor to discharge the duties delegated to it, as Administrative Services Agent, pursuant to an Administrative Services Agreement as described in this Annex.

4. Accordingly, and without limiting the Trust's right to delegate under the Declaration, the Trust will be permitted to, and should seek to, enter into Administrative Services Agreements with Electricity Distributors in order to provide for the following:

    a. **Identification of Applicable Primary Beneficiary Payees and Determination of Individual Distribution Amounts**

        i. Each Electricity Distributor will make an initial assessment of the financial needs of Primary Beneficiaries within its designated service area or region, having regard to [NTD: specify relevant economic data and reference material], in order to prepare and provide to the Trustee an estimate of the number of Primary Beneficiaries who the Electricity Distributor reasonably expects would satisfy the Selection Factors (as defined in clause 1.1 "Identification of Primary Beneficiary Payees" of the Principles Annex).

        ii. Each Electricity Distributor will make an initial assessment of the measures it would recommend be included as Eligible Measures, having regard to [NTD: specify relevant considerations], in order to prepare and provide to the Trustee an estimate of the average cost per Primary Beneficiary Payee (as defined below) of such Eligible Measures that the Electricity Distributor reasonably expects would apply in respect of Primary Beneficiaries resident in its service area or region.

        iii. Based on the product of (i) and (ii), above, and such other considerations as it considers to be directly relevant, each Electricity Distributor will make a written recommendation to the Trustee regarding the aggregate funding amount that the Electricity Distributor anticipates would be utilized under the

[Project] by Primary Beneficiaries in its service area or region (the "**Local Funding Estimate**"). Such recommendation will be accompanied, when submitted to the Trustee, by a detailed explanation regarding the assumptions, financial parameters, suitability considerations and other information underlying the Local Funding Estimate (including the type of information contemplated by "[Insert]" under the Principles Annex, which will be relied upon by the Trustee in its assessment regarding the allocation of available funding to or for the benefit of the Primary Beneficiaries across the specified areas and regions of the Province.

iv. The Trustee will inform the Electricity Distributor regarding the aggregate of the amount determined by the Trustee to be made available under the [Project] for Primary Beneficiaries in the Electricity Distributor's designated service area or region (for each LDC, its "**Maximum LDC Allocation**") and as to any maximum amount that may be paid to or for the benefit of any single Primary Beneficiary [or group of related Primary Beneficiaries] located in the servicer area or region of the Electricity Distributor (the "**Maximum Primary Beneficiary Amount**"). The Maximum LDC Amount and Maximum Primary Beneficiary Amount may vary between designated areas and regions, the Primary Beneficiaries within such areas and regions, and may be increased by the Trustee from time to time in its discretion.

v. Each Electricity Distributor will apply the principles set forth under ["Identification of Primary Beneficiary Payees" in the Principles Annex] to identify and make recommendations to the Trustee regarding the amount of funds (if any) to be distributed to or for the benefit of Primary Beneficiaries resident within its designated service area or region from time to time (the "**Primary Beneficiary Payees**").

vi. Each Electricity Distributor will ensure that the aggregate of the amounts it recommends be distributed to or for the benefit of Primary Beneficiary Payees from time to time does not exceed (1) its Maximum LDC Allocation and (2) for any single Primary Beneficiary [or group of related Primary Beneficiaries] located in the servicer area or region of the Electricity Distributor, the Maximum Primary Beneficiary Amount.

vii. The Trustee will provide written confirmation to each Electricity Distributor:

1. Either (x) that the recommendations specified of the Electricity Distributor in clause (v), above, have been accepted, or (y) as to the specific reasons for any non-acceptance;

2. The identity of each Primary Beneficiary Payee resident in the Electricity Distributor's service area or region and its residential address;

3. The amount of the distribution to be paid to or for the benefit of each such Primary Beneficiary Payee.

b. **Making of Distributions**

i. Promptly after the Trustee confirms the identity of a Primary Beneficiary Payee resident in a Electricity Distributor's service area or region and the amount of the distribution to be paid to or for the benefit of such Primary Beneficiary Payee, the Trustee will arrange for payment to the Electricity Distributor an amount equal to the amount of such distribution.

ii. Promptly upon receipt of funds in respect of a distribution to a Primary Beneficiary Payee, the Electricity Distributor will arrange for payment of the full amount of such distribution to or for the benefit of the Primary Beneficiary Payee, without reduction or set-off.

c. **Reporting, Record-Keeping, Inspection and Disclosure**

i. The Electricity Distributor will provide to the Trustee quarterly and annual reports ("**Reports**") for the duration of the Administrative Services Agreement.

ii. The Electricity Distributor will keep and maintain all financial records and non-financial documents and records relating to the provision of services under the Administrative Services Agreement. [Specify required records regarding individual Primary Beneficiary Payees]

iii. The Trustee, its authorized representatives or an independent auditor may, at its own expense, on twenty-four hours' notice to the Electricity Distributor and during normal business hours, inspect the records of and information respecting the Electricity Distributor to confirm its compliance with the Administrative Services Agreement, including its process for determining the Primary Beneficiary Payees, distribution amounts and the delivery of funds to [or for the benefit of] the Primary Beneficiary Payees. The Trustee, its authorized representatives or an independent auditor may inspect and copy all records and documents kept in accordance with the Administrative Services Agreement and conduct an audit or investigation of the Electricity Distributor in respect of the identification of the applicable Primary Beneficiary Payees, the amount of distributions made to or for the benefit of the Primary Beneficiary Payees; and the delivery of funds to or for the benefit of the Primary Beneficiary Payees.

d. **Standard of Care**

i. The Electricity Distributor will perform its duties provided under the Administrative Services Agreement exercising the degree of care, diligence and skill that a reasonably prudent Person would exercise in comparable circumstances.

ii. In recommending Primary Beneficiary Payees to the Trustee, the Electricity Distributor will seek to avoid actual, potential or perceived conflicts of interest.

e. **Expenses**

i. The Electricity Distributor will be eligible to receive reasonable compensation and reimbursement of its actual out-of-pocket costs associated with the performance of its duties under the Administrative Services Agreement, subject to compliance with the Province's Travel, Meal and Hospitality Expenses Directive. Such compensation amounts and reimbursement entitlements will be specified in the Administrative Services Agreement.

[Other matters you may consider dealing with here include compliance with privacy law/confidentiality/legal considerations and requirements; money laundering; preparation of accounting and tax statements by the Trust; compliance with regulatory laws; representation in product warranty claims (to the extent the Trust is sued in connection with a purchase of Eligible Measures); flowing money to suppliers of Eligible Measures; appropriate reps and indemnities from LDCs; specific reporting of cash and allocations; logistics of banking and cash flow mechanics and related record-keeping; production of information for Trustee to satisfy legal requirements applicable to the Trust (i.e., tax; record keeping); preparation of tax remittances for beneficiaries; preparation of reports for the Government and cooperation with other compliance by the Trust with the TPA; required communications to Primary Beneficiaries on behalf of the Trust (including to comply with applicable laws); preparation and submission of applications, etc., that may be contemplated by the [Project]; termination scenarios]

Subject: RE: Affordability Fund - Declaration of Trust and Transfer Pricing Agreement

Thanks Alex and understood re: sharing finals with Computershare.

Also, our counsel has drafted the following to assist in Hydro One and KPMG's review of the documents:

Our mark-up addresses the tensions that exist among (1) the requirements to recognize the Trust as non-controlled for government year-end accounting purposes, (2) the practical need for the LDCs to lead the identification and allocations to eligible participants processes (3) the desire for the ultimate customers in need to be the reference group of beneficiaries (4) the legal requirements to create a valid trust under Ontario law and (5) the practical limitations associated with addressing and contracting relevant LDC participation prior to March 31, while achieving sufficient contractual certainty for the Province and legal purposes.

To balance these tensions, we have suggested the following (subject to accounting input and practical input from Hydro One):

(1) the Declaration contemplates the following 3 time periods:

a. Initially, Computershare will be the trustee and will simply sit on the funds. Hydro One will provide very basic administrative services during this initial period. Computershare, acting on the recommendations of an "Advisory Committee" will appoint its replacement – a "Board of Trustees" (this is contemplated in a Trustee Replacement Annex to the Declaration).

b. Once the Board of Trustees is in place, administrative services agreements will be entered into with LDCs. To give the LDCs a wide scope to identify funding recipients within their service areas, a broad and specific delegation is described in the "Permitted Delegations Annex", which frames out what the basic and key terms of the ultimate Administrative Services Agreements with the LDCs will entail. That level of detail is required to enable the broad Trustee delegation, without upending the validity of the Trust for legal purposes. The Board of Trustees will maintain supervisory responsibility over the LDCs actions, but will be permitted to rely on the recommendations of the LDCs. Under these arrangements, the find will be divided by region and then LDCs will have wide discretion to recommend distributions, in each case subject to the principles set out in a "Principles Annex".

c. Once the program is to be wound up (either because of a default by the Trust, the Trustee's determine that all funding has been appropriately provided for or a final end-date occurs), any remaining funds will be paid to charitable beneficiaries identified from among a pre-determined slate. The amount available to the charities in the circumstance where a default of the Trust has occurred will be net of the amount the Province will be entitled to be paid (i.e., the remaining Assets) from the Trust under the Transfer Payment Agreement.

(2) From March 31, all of the discretion to deal with the Trust Assets will reside with Computershare or the Board, or by delegation to the LDCs where a suitable contract is signed by the Trust with the LDCs. The Province will not maintain control of the Assets, and all steps contemplated in (1) will not be affected by the Province other than (in substance):

a. To the extent the Province is represented on the Advisory Committee or the Board;

b. The Province has rights to require payment of remaining Assets under the Transfer Agreement on an "event of default"; or

c. The Province has certain reporting, audit and compliance rights, essentially to affect the intended purpose of the Trust in its implementation (and with remedies under

the Transfer Payment Agreement, including a right to be paid the undistributed Assets or to pursue contract remedies (including specific performance).

Otherwise, the terms of the Trust will be determined at the outset and determined and affected by non-governmental entities. We understand that these continuing ties to the Trust would not be contrary to the accounting principles applicable for government year-end treatment as a non-controlled trust entity.

Based on this drafting approach, Blakes believes on a preliminary basis that the validity issues associated with the Trust can be adequately addressed.

Hi Alex:

Please find attached tracked and clean versions of the TPA and Declaration of Trust. Tracked versions are tracked from the versions you had shared on March 13. You will note that there are comments in the TPA and Declaration indicating areas that we are working with Blakes to finalize.

We would recommend, as discussed, that Hydro One share these current versions with KPMG, as well as Computershare, so that we can work to resolve identified issues.

Can Hydro One advise if it will not be possible to share comments back with us for 3 PM tomorrow?

We would like to set up a call tomorrow afternoon to discuss comments. Can you advise of a preferred time for a call?

A few other follow-ups:

· We have confirmed internally that Computershare can establish an interim Trust account using their existing banking relationship with BNF. Can you confirm once this (and the TPA/Decl if you agree to share) is communicated with Computershare?

· Can you please share the Computershare Trustee(s) contact details? We understand that the Trustees will have to be recognized in the Declaration of Trust.

· Can you share the administrative service agreement for the Ministry's

review today? Our interest in seeing this is to have comfort that it will be ready for signing by Computershare on Monday or Tuesday of next week.

Thanks again to you and your team for working with us on these tight timelines.

Hi Emma.
With regards to the second item, please see the last Q&A on the Trust guidance which indicates that the item should not be contentious from a control perspective. That said, if you want to minimize risks, you could refer to the direction as an 'expectation' which would be similar to what we did when funds per provided to municipalities under the Investing in Ontario Act.

Hi Stephen,

We've had two questions come up following the call this afternoon, and would appreciate if you could consider tomorrow as you finalize the next version of the documents:

First, we would like to change tack with the charities annex/list and instead simply establish that the Trust would consult with the Ontario Energy Board to identify charities. This will allow an up to date consideration of which charities to flow money to, based on their need/function at that point in time, and could also assist with Trustee decision-making (vs. a long list).

Second, this is a hypothetical question for now, but the government may wish to promote the program, through its own marketing or further through direct branding, e.g. putting the Trillium logo on materials sent to beneficiaries. Would this need to be established in either/both documents (TPA and Deed)? Can it be established without having control implications? Nadine, it would be helpful if you could weigh in on this.

Thank you again,
Emma

I've discussed with the team and we have no desire to change the language in the Deed with regard to rules for the Advisory Committee (AC). However, we will be increasing the number of AC members to 7 in total. Thanks...

It's a bit of a conflict to be part of a process that appoints one or more of its members, so the optics are poor. We have not set rules for the AC, so I suppose we could specifically provide for it if it's important to you. Steve

Hi Stephen, a question has come up with regards to the Advisory Committee members that I am hoping you can help address:

Would an advisory committee member would be precluded from being a trustee? Is there any provision in the draft declaration that would prevent this (I am not aware of any such provision), I think the answer is no.

I think the answer is that an advisory committee member could be considered by the committee as a potential trustee, but it would be up to the committee to decide/recommend.

Hoping you can clarify, thanks...

Hi Stephen,

Please find comments from Osler and KPMG attached (PDFs). We have incorporated these with comments from our Provincial Controller's Office ("OPC", Nadine cc'd) in the Word versions, also attached.

Many outstanding comments relate to control issues that will need to be resolved by OPC and KPMG. There will be a call scheduled tomorrow to resolve. We have requested that Blakes be invited.

One of the remaining policy/legal aspects is Osler's recommendation that the principles be allowed to be amended by the Trust, including to account for refinements in the purpose over time. We think this is reasonable and are comfortable with allowing the Trust to amend over time, with input from the Province and with the Province kept informed of amendments.

Finally, there was a placeholder for a list of charities to serve as Residual Beneficiaries. Find attached a list of agencies who help deliver energy support programs in the province. A list is maintained by the Ontario Energy Board (the province's energy regulatory) and we have included only those attached who are CRA-listed charities. We will be reviewing this further on Monday and may come back with slight refinements, but would suggest incorporating as is for now.

As noted on the call today, to meet timelines, our aim would be to send the TPA and Declaration to Computershare by end of day Monday. Could you advise us by early Monday if you see this as feasible? Again, we appreciate your continued efforts on these challenging timelines.

If you have any questions over the weekend, please email.

Thank you again,
Emma

Possible to move up the call to earlier today?

Secondly, we drafted a timeline for phase 2 when the funds have flowed to CS and we need to consult with the LDC community and revise the Declaration of Trust. See attached and let me know if you have any concerns.

Thirdly, you've identified a Board of Trustees to select the trustees following CS. Who are you suggesting is on the Board?

Thanks Alex and understood re: sharing finals with Computershare.

Also, our counsel has drafted the following to assist in Hydro One and KPMG's review of the documents:

Our mark-up addresses the tensions that exist among (1) the requirements to recognize the Trust as non-controlled for government year-end accounting purposes, (2) the practical need for the LDCs to lead

the identification and allocations to eligible participants processes (3) the desire for the ultimate customers in need to be the reference group of beneficiaries (4) the legal requirements to create a valid trust under Ontario law and (5) the practical limitations associated with addressing and contracting relevant LDC participation prior to March 31, while achieving sufficient contractual certainty for the Province and legal purposes.

To balance these tensions, we have suggested the following (subject to accounting input and practical input from Hydro One):

(1) the Declaration contemplates the following 3 time periods:

a. Initially, Computershare will be the trustee and will simply sit on the funds. Hydro One will provide very basic administrative services during this initial period. Computershare, acting on the recommendations of an "Advisory Committee" will appoint its replacement – a "Board of Trustees" (this is contemplated in a Trustee Replacement Annex to the Declaration).

b. Once the Board of Trustees is in place, administrative services agreements will be entered into with LDCs. To give the LDCs a wide scope to identify funding recipients within their service areas, a broad and specific delegation is described in the "Permitted Delegations Annex", which frames out what the basic and key terms of the ultimate Administrative Services Agreements with the LDCs will entail. That level of detail is required to enable the broad Trustee delegation, without upending the validity of the Trust for legal purposes. The Board of Trustees will maintain supervisory responsibility over the LDCs actions, but will be permitted to rely on the recommendations of the LDCs. Under these arrangements, the find will be divided by region and then LDCs will have wide discretion to recommend distributions, in each case subject to the principles set out in a "Principles Annex".

c. Once the program is to be wound up (either because of a default by the Trust, the Trustee's determine that all funding has been appropriately provided for or a final end-date occurs), any remaining funds will be paid to charitable beneficiaries identified from among a pre-determined slate. The amount available to the charities in the circumstance where a default of the Trust has occurred will be net of the amount the Province will be entitled to be paid (i.e., the remaining Assets) from the Trust under the Transfer Payment Agreement.

(2) From March 31, all of the discretion to deal with the Trust Assets will reside with Computershare or the Board, or by delegation to the LDCs where a suitable contract is signed by the Trust with the LDCs. The Province will not maintain control of the Assets, and all steps contemplated in (1) will not be affected by the Province other than (in substance):

a. To the extent the Province is represented on the Advisory Committee or the Board;

b. The Province has rights to require payment of remaining Assets under the Transfer Agreement on an "event of default"; or

c. The Province has certain reporting, audit and compliance rights, essentially to affect the intended purpose of the Trust in its implementation (and with remedies under the Transfer Payment Agreement, including a right to be paid the undistributed Assets or to pursue contract remedies (including specific performance).

Otherwise, the terms of the Trust will be determined at the outset and determined and affected by non-governmental entities. We understand that these continuing ties to the Trust would not be contrary to the accounting principles applicable for government year-end treatment as a non-controlled trust entity.

Based on this drafting approach, Blakes believes on a preliminary basis that the validity issues associated with the Trust can be adequately addressed.

Hi Alex:

Please find attached tracked and clean versions of the TPA and Declaration of Trust. Tracked versions are tracked from the versions you had shared on March 13. You will note that there are comments in the TPA and Declaration indicating areas that we are working with Blakes to finalize.

We would recommend, as discussed, that Hydro One share these current versions with KPMG, as well as Computershare, so that we can work to resolve identified issues.

Can Hydro One advise if it will not be possible to share comments back with us for 3 PM tomorrow?

We would like to set up a call tomorrow afternoon to discuss comments. Can you advise of a preferred time for a call?

A few other follow-ups:

· We have confirmed internally that Computershare can establish an interim Trust account using their existing banking relationship with BNF. Can you confirm once this (and the TPA/Decl if you agree to share) is communicated with Computershare?

· Can you please share the Computershare Trustee(s) contact details? We understand that the Trustees will have to be recognized in the Declaration of Trust.

· Can you share the administrative service agreement for the Ministry's review today? Our interest in seeing this is to have comfort that it will be ready for signing by Computershare on Monday or Tuesday of next week.

Thanks again to you and your team for working with us on these tight timelines.

Trusts Guidance.pdf

ACCOUNTING CONSIDERATIONS FOR GOVERNMENT-FUNDED TRUSTS

Purpose:

The purpose of this guidance is to explore accounting-related considerations related to government-funded trusts which are established by the government to fund a specific purpose or activity. This guidance deals specifically with the difference between controlled and non-controlled trusts, the introduction of accountability provisions which can now be reflected in trust agreements, and key timing considerations for trusts contemplated towards year-end. It is important that these factors be taken into account when establishing a trust, in order to achieve the intended fiscal impact and appropriate accountability over the use of public funds.

Introduction:

Trusts are usually established by way of trust declaration or trust agreement, and are one of several means by which the government can direct funding to support key policy initiatives. Simply stated, trustees hold title to property for the benefit of, and stand in a fiduciary relationship to the beneficiaries. Trustees are accountable to third parties (beneficiaries) for the use and disposition of trust assets and for the funds derived from those trust activities. The trust itself is not a separate legal entity. The trustees carry out the activities of the trust in the name of the trustees.

Generally, direct year-end transfers are the preferred alternative over trusts where the province wants to retain ultimate decision-making authority regarding amounts to be transferred to recipients. Direct transfers are more appropriate where the identity of eligible transfer payment recipients is known and the amounts to be transferred to each recipient can be or has been determined.

Year-end transfers to a trust might be considered where the province desires to delegate to third parties ultimate decision-making authority regarding allocation of amounts amongst eligible beneficiaries.

A trust must be valid for legal purposes in order to be recognized for accounting purposes. Key requirements for a trust to be valid include: an intention to create a trust (‘certainty of intention’), certainty of subject-matter of the trust (“certainty of subject matter”) and the objects of the trust must be certain (‘certainty of objects”). There are generally two different types of trust, a trust in which the objects are the “beneficiaries” and trust in which the objects are a “purpose” (e.g. for charitable purposes). Where a trust is under serious consideration, it is imperative that ministries seek legal advice to ensure that the contemplated trust will be valid.

Trustees are obligated to follow the terms of the trust declaration or trust agreement which will usually detail the powers and duties of the trustees including the number of trustees and how decisions will be made by the trustees.

Controlled versus Non-Controlled Government-Funded Trusts

From an accounting perspective, it is important to distinguish whether the design and governance of a particular trust results in the trust being controlled by the Province for accounting purposes. Control stems from the nature of the relationship between the government and the trust. Financial and operating policies are principles that determine how an organization conducts its activities. The ability to govern these policies is an important element of government control.

The means by which a trust is established, the government's representation among the trustees, the government's involvement in the trust's governance processes and ability to impact trustee discretion in decision-making are but some of the factors to be considered in assessing whether a trust is 'controlled' or 'not controlled' by the government.

In establishing a trust, it is important to achieve the intended relationship between the province and the trust in order to achieve the intended fiscal impact.

Non-Controlled Trusts:

Where trusts are not controlled by the Province, they are excluded from the government reporting entity. For non-controlled trusts, the following accounting would apply to trust funding:

- Where funds provided to the "trust" are unconditional, the Province would record a transfer payment expense for any transfers approved in the current period (and flowed by finalization of public accounts).

- Where funds provided to the "trust" are conditional (i.e. upon the trust completing some specific task or result), the Province would initially record funding to the trust as a prepaid expense until the conditions are met at which time the Province would record a transfer payment expense, with the corresponding credit to prepaid expense. This may occur over a number of fiscal years.

In determining whether a trust is controlled, there are a variety of ways that a government might be perceived to be governing the financial and operating policies of a trust. These include:

- Eliminating or significantly limiting the ability of the trustees to make future decisions
- Directing the financial and operating policies of the trust
- Overruling, modifying or vetoing the financial and operating policies established by the trust.

Specific factors that should be considered in establishing a non-controlled trust include:

- Government representation in the trustees (should be in a minority position), and non-government trustees should be nominated by non-government sources
- Government influence over day-to-day trust governance and trustee discretion to make decisions (e.g. selection of eligibility criteria, selection of recipients).
- degree of influence over how funds are disbursed (i.e. the Declaration of Trust can provide general guidelines but not be overly prescriptive)
- the government's power to unilaterally appoint or remove the majority of trustees

- the government's on-going access to the trust's assets, or right to direct decisions regarding the flow of those assets to specific beneficiaries
- the government's unilateral power to dissolve the trust, except under specified circumstances as stipulated by the trust agreement (i.e. corrective action)
- the government's ability to establish or amend the policies used by the trust to manage accounting, personnel, deployment of resources, etc.

In some cases, it may be advantageous for ministries to provide administrative support to trusts. In these cases it is important that the extent of such support is not so pervasive as to influence or direct the day-to-day financial or operating policies of the trust, otherwise the trust will be deemed controlled and will be subject to consolidation in the government reporting entity.

Controlled Trusts:

If the Province controls the trust (for example, through its power to appoint a majority of the trustees on the board of trustees), the Province would be deemed to have control of the trust, resulting in the trust being accounted for in the same manner as other organizations controlled by the province (i.e. on a consolidated basis). As a result, the Province's contribution to the trust would not be expensed when it is transferred, but rather over time as the funds are disbursed to trust beneficiaries.

Accountability Related Considerations:

The Auditor General has confirmed that the new accountability provisions developed for one-time transfers can also be applied to trusts without impacting the expense treatment of any transfers to non-controlled trusts.

These new accountability provisions will enable the government and the Legislature to:

- obtain assurance that a trust is spending public funds prudently and for the purposes intended and to take corrective action if it is not;
- ensure ministerial accountability to the Legislative Assembly for the trust's activities; and
- ensure that the province is able to take corrective action where warranted and as stipulated under terms of the trust agreement.

It should also be noted that the Auditor General's Act now allows the Province's Legislative Auditor to conduct special audits of any person or organization receiving transfers from the government, including trusts.

To enhance accountability controls over government transfers to non-controlled trusts, Ministries can consider incorporating some or all of the following accountability provisions as part of their trust agreement/declaration without impacting the accounting treatment of the trust.

The inclusion of any of these provisions should not result in a trust being assessed as 'controlled'. Note that the key determinant in identifying appropriate provisions for any

individual trust is a ministry's assessment of the **risk** associated with a particular trust, as per the Transfer Payment Directive.

1. **Description of intended use of trust funds**;
    - specific purpose(s) for which the funds are to be used;
    - description of intended recipients and related eligibility criteria*; and,
    - the nature of eligible expenditures relevant to the transfers.

    *Note: avoid *overly prescriptive* eligibility criteria which would effectively eliminate or significantly limit the trustees' discretion to make funding decisions.

2. **Requirement for information**
    - Information to be provided by the trust at a future date (e.g. requirement for trustees to advise the government of trustee-developed performance criteria, and provide annual assessments against those criteria)

3. **Report-back requirement for Public Accountability**
    - information to be provided by the trust at a future date with respect to the stewardship and payment of transfer funds (e.g. audited financial statements, audited list of recipients and amounts funded).

4. **Right to independent verification/audit**
    - The Province reserves the right to audit any transfer payment recipients. The trust agreement should make reference to this fact.

5. **Right to take corrective action**
    - Where stipulated under the trust agreement, the Province reserves the right to re-direct unused funds where results of a trust assessment (where required by the trust agreement) indicate original purpose of the trust is not being achieved, or if there remain unused funds at the end of the trust term.
    - Province may also reserve the right to extend the term of the trust agreement, where funds remain at the end of the trust period.

To qualify for in-year expense treatment, the non-controlled trusts must satisfy the following:

- the decision to establish the trust must have been approved by Treasury Board/Management Board of Cabinet and ratified by Cabinet by March 31st;
- the ministry providing the transfer must have approved appropriations and spending authority by March 31st;
- Trustees must have been identified and signed the trust declaration or agreement to establish a valid trust by March 31st ;
- the trust must be set up and ready to receive funds, and a nominal amount transferred to the trust by March 31s;t ; and,
- the government should have communicated publicly (e.g. in the Budget document) the pending or final establishment of the trust.

In addition, all remaining funds beyond those initially transferred at March 31st should be transferred to the trust by June 30th.

Trusts
Questions and Answers

Question: *Where a trust is announced in the Budget document, must the trust be established by March 31st, or could such a trust be established shortly thereafter without impacting the expensing of transfers to the trust in 2007-08?*

Answer: *A trust would have to be established prior to the end of a fiscal period in order to satisfy the recognition criteria for government transfers. If the intended recipient for a government transfer does not exist at March 31st, the province cannot record a payable owing to it under existing accounting standards.*

Question*: Does the transfer of funds to a non-controlled trust need to occur by March 31st or before the date of Public Accounts finalization?*

Answer: *Consistent with the new requirements for one-time transfers, as long as the trust is established by March 31st, the transfer is authorized and a reasonable estimate of the amount can be made, cash payments can be made after year-end.*

Question: *Can beneficiaries of a non-controlled trust include consolidated entities provided that the ultimate selection of recipients is at the discretion of the Trustees?*

Answer: *Any amounts provided to a trust which are in turn be provided to an organization inside the government reporting entity should not be expensed at the time of the transfer to the trust. Any amount that is flowed to a trust with the intention of subsequently flowing the funds to a consolidated entity should not be recorded as an expense to the government.*

Question: *Can a Ministry provide administrative support to a trust without compromising the non-controlled status of the trust?*

Answer: *The government can provide administrative support as long as the extent of government administrative support is <u>not so pervasive</u> so that the government is in substance establishing and managing the trust's policies in the areas of accounting, personnel, compensation, collective bargaining or deployment of resources. Where such administrative support is assessed*

as pervasive, it could impair the trust's non-controlled trust and the trust will be consolidated onto the province's financial statements.

Can the following clauses appear in a trust agreement for a non-controlled trust to ensure adequate accountability over public funds without impacting the expense treatment of such trusts?

***Question**: Specific description of purpose of the trust (possibly including nominal allocation among various objectives)*
Answer: Yes.

***Question:** Can the trust agreement include a specific description of the intended groups of beneficiaries and detailed eligibility criteria.*

***Answer:** Specificity should be applied cautiously, so as not to limit the discretion of the trustees in their subsequent grant making processes. For the trust to be considered 'not controlled' it should not be seen as 'establishing the trust's fundamental purpose and eliminating or significantly limiting the ability of the trust to make future decisions by predetermining the financial and operating policies of the trust.*

***Question:** Can trustees stipulate that funding is to be provided to beneficiaries on a cost-sharing basis?*
***Answer:** Yes.*

***Question:** Can the trust agreement include a requirement for a trust to report back to the province on trustee-established performance criteria and results, audit of financial statements, audited recipients and amounts, confirmation that trustees communicated to beneficiaries the intended purpose of the funding, etc.*
***Answer:** Yes.*

***Question**: Requirement for Trust to publicly post communications on existence, availability of funds, eligibility criteria, recipients and amounts granted to each recipient.*
***Answer:** Yes*

***Question:** Inclusion of a 'suggested' drawdown schedule over a period of years, with discretion left to Trustees as to actual results.*
***Answer:** The inclusion of a drawdown schedule is not suggested for one-time, up-front transfers.*

***Question:** Trust agreement can suggest accountability provisions which might be attached by Trustees to beneficiary payments (e.g. specific purpose of funding, requirement for report-back, right to audit, corrective actions).*
***Answer:** Yes*

***Question:** Trust agreement to reserve the province's right to re-direct any unspent funds to specified parties (e.g. non-consolidated entities or another non-controlled trust) at the end of the trust term, or alternatively to extend the term of the trust where unspent funds remain.*

Answer: *Yes*

Question*: Can the trust agreement include the requirement for evaluations of the trust at certain times (e.g. years 3, 7, 10 of the trust agreement), with the right for the government to decide either to terminate the trust (corrective action) based on the results of the assessment, or extend the trust beyond the initial term as per the agreement.*
Answer: *Yes.*

Question: *Trust agreement can require Trustees to request as part of the funding process that beneficiaries acknowledge receipt of government funding in their public communications on specific projects.*
Answer: *Yes.*

Hi Emma:

Possible to move up the call to earlier today?

Secondly, we drafted a timeline for phase 2 when the funds have flowed to CS and we need to consult with the LDC community and revise the Declaration of Trust. See attached and let me know if you have any concerns.

Thirdly, you've identified a Board of Trustees to select the trustees following CS. Who are you suggesting is on the Board?

Thanks Alex and understood re: sharing finals with Computershare.

Also, our counsel has drafted the following to assist in Hydro One and KPMG's review of the documents:

Our mark-up addresses the tensions that exist among (1) the requirements to recognize the Trust as non-controlled for government year-end accounting purposes, (2) the practical need for the LDCs to lead the identification and allocations to eligible participants processes (3) the desire for the ultimate customers in need to be the reference group of beneficiaries (4) the legal requirements to create a valid trust under Ontario law and (5) the practical limitations associated with addressing and contracting relevant LDC participation prior to March 31, while achieving sufficient contractual certainty for the Province and legal purposes.

To balance these tensions, we have suggested the following (subject to accounting input and practical input from Hydro One):

(1) the Declaration contemplates the following 3 time periods:

a. Initially, Computershare will be the trustee and will simply sit on the funds. Hydro One will provide very basic administrative services during this initial period. Computershare, acting on the recommendations of an "Advisory Committee" will appoint its replacement – a "Board of Trustees" (this is contemplated in a Trustee Replacement Annex to the Declaration).

b. Once the Board of Trustees is in place, administrative services agreements will be entered into with LDCs. To give the LDCs a wide scope to identify funding recipients within their service areas, a broad and specific delegation is described in the "Permitted Delegations Annex", which frames out what the basic and key terms of the ultimate Administrative Services Agreements with the LDCs will entail. That level of detail is required to enable the broad Trustee delegation, without upending the validity of the Trust for legal purposes. The Board of Trustees will maintain supervisory responsibility over the LDCs actions, but will be permitted to rely on the recommendations of the LDCs. Under these arrangements, the find will be divided by region and then LDCs will have wide discretion to recommend distributions, in each case subject to the principles set out in a "Principles Annex".

c. Once the program is to be wound up (either because of a default by the Trust, the Trustee's determine that all funding has been appropriately provided for or a final end-date occurs), any remaining funds will be paid to charitable beneficiaries identified from among a pre-determined slate. The amount available to the charities

in the circumstance where a default of the Trust has occurred will be net of the amount the Province will be entitled to be paid (i.e., the remaining Assets) from the Trust under the Transfer Payment Agreement.

(2) From March 31, all of the discretion to deal with the Trust Assets will reside with Computershare or the Board, or by delegation to the LDCs where a suitable contract is signed by the Trust with the LDCs. The Province will not maintain control of the Assets, and all steps contemplated in (1) will not be affected by the Province other than (in substance):

a. To the extent the Province is represented on the Advisory Committee or the Board;

b. The Province has rights to require payment of remaining Assets under the Transfer Agreement on an "event of default"; or

c. The Province has certain reporting, audit and compliance rights, essentially to affect the intended purpose of the Trust in its implementation (and with remedies under the Transfer Payment Agreement, including a right to be paid the undistributed Assets or to pursue contract remedies (including specific performance).

Otherwise, the terms of the Trust will be determined at the outset and determined and affected by non-governmental entities. We understand that these continuing ties to the Trust would not be contrary to the accounting principles applicable for government year-end treatment as a non-controlled trust entity.

Based on this drafting approach, Blakes believes on a preliminary basis that the validity issues associated with the Trust can be adequately addressed.

We would like to set up a call tomorrow afternoon to discuss comments. Can you advise of a preferred time for a call?

A few other follow-ups:

· We have confirmed internally that Computershare can establish an interim Trust account using their existing banking relationship with BNF. Can you confirm once this (and the TPA/Decl if you agree to share) is communicated with Computershare?

· Can you please share the Computershare Trustee(s) contact details? We understand that the Trustees will have to be recognized in the Declaration of Trust.

· Can you share the administrative service agreement for the Ministry's review today? Our interest in seeing this is to have comfort that it will be ready for signing by Computershare on Monday or Tuesday of next week.

Thanks again to you and your team for working with us on these tight timelines.

PRINCIPLES ANNEX

Commented [A1]: Content in the annex will be further refined

Commented [A2]: KPMG to comment on 'control' implications.

and Province's auditors – it is "their" consolidation issue also

The following principles apply in relation to the administration of the Trust:

1. Identification of Primary Beneficiary Payees This is fine

1.1 A Primary Beneficiary should not receive a benefit from the Trust unless at the time of consideration it satisfies each of the following criteria (the "**Selection Factors**"):

(i) it is an [owner-occupied,], [non-commercial] [not for profit] electricity customer;

(ii) it has [committed] [made arrangements] [proposed] [indicated its willingness] to undertake measures (its "**Energy Plan**") to improve the electricity efficiency and/or promote the conservation of electricity at its Ontario residence;

(iii) its Energy Plan involves one or more Eligible Measures as may be designated by the Trustee from time to time from;

(iv) it confirms that:

1. the primary purpose of its Energy Plan is the conservation and efficient use by the Primary Beneficiary of electricity, and is not for the purposes of the Primary Beneficiary making a profit;

2. it would otherwise not have the financial resources to undertake [the Eligible Measures] included in its Energy Plan;

3. the Eligible Measures to be undertaken by it under its Energy Plan would not otherwise be eligible for reimbursement from third parties, including under any efficiency or conservation program implemented by a government, governmental agency or third party energy subsidy program;

(v) it has demonstrated a need for financial assistance on the basis that its periodic electricity bills represent a financial burden, relative to its available financial resources; and

(vi) such other criteria as the Trustee may determine, including based on the recommendations of Electricity Distributors made on the basis and in accordance with the delegations contemplated by the Permitted Delegations Annex or any applicable Administrative Services Agreement.

1.2 The availability of funds to the Primary Beneficiaries should be allocated on an equitable and consistent basis across different areas and regions within the Province, having regard to:

(i) broad economic parameters of economic activity and the financial resources of the residents of the areas and regions;

(ii) electricity use and efficiency levels of non-commercial electricity customers;

(iii) specific regional indicators of economic weakness and need; and/or

(iv) such other factors as the Trustee may determine are relevant, including based on the submissions, advice and recommendations of Electricity Distributors made on the basis and in accordance with the delegations contemplated by the Permitted Delegations Annex or any applicable Administrative Services Agreement.

1.3 An efficient basis upon which to allocate funds to the Primary Beneficiaries across different areas and regions within the Province may be based on the designated areas and regions serviced by the Electricity Distributors operating within the Province.

1.4 The designated Electricity Distributor for an area or region in which a Primary Beneficiary resides will:

(i) be a reliable source for the purpose of assessing and confirming whether the Primary Beneficiary satisfies the Selection Factors;

(ii) be an efficient intermediary for the purpose of communicating with the Primary Beneficiary, including regarding the availability, terms, conditions and intended purposes of [Project][5];

(iii) be able to efficiently integrate and reflect any distribution payments determined to be made to the Primary Beneficiary within its established practices, procedures and systems; and

(iv) have established contractual arrangements with the Primary Beneficiary that may apply to the protection and confidentiality of information provided by or respecting the Primary Beneficiary, which information may be useful in the consideration by the Electricity Distributor in its assessment of whether the Primary Beneficiary satisfies the Selection Factors, which information may not otherwise be available or readily accessible or verifiable by the Trustee.

1.5 The designated Electricity Distributor for an area or region in which a Primary Beneficiary resides will have market and utilization information that may be useful in assessing the relative needs of Primary Beneficiaries within its designated area or region. Such information will be relevant in assessing the extent to which one such Primary Beneficiary's financial needs and the merits of its Energy Plan are greater or more compelling than those of another such Primary Beneficiary, which comparison may be relevant to the extent that the funds allocable to the Primary Beneficiaries resident in the area or region are otherwise insufficient to meet the requests for funding by all such Primary Beneficiaries.

[5] Consider if the Trustees should control the messaging to ensure consistency across the Province.

1.6 Accordingly, it is consistent with the purposes of the Trust that the recommendations of Electricity Distributors be utilized and relied upon by the Trustee to guide the process of identifying particular Primary Beneficiaries for distributions under the [Project].

1.7 If an Electricity Distributor for a particular area or region is unable or unwilling to assess or confirm the application of the Selection Factors to Primary Beneficiaries residing in the area or region or to make recommendations in relation to such matters, one or more of the following may provide a suitable alternative source of information and for information gathering, assessment and confirmation purposes in relation to such area or region:

(i) other Electricity Distributors operating in adjacent or other areas or regions in the Province;

(ii) the Ontario Energy Board;

(iii) the Independent Electricity System Operator; and

(iv) anyone else having relevant expertise and access to information regarding the electricity market of the Province, in each case as may be considered relevant by the Trustee.

1.8 To the extent that privacy law or other legal requirements limit an Electricity Distributor from providing or making available specific information respecting the application of the Selection Factors to a particular Primary Beneficiary or group of Primary Beneficiaries, it may be appropriate to redact or make generic affected information regarding such Primary Beneficiary in connection with the identification and confirmation of a Primary Beneficiary's eligibility and participation in the [Project]. If such limitations or restrictions would limit an Electricity Distributor from providing or confirming the name of a particular Primary Beneficiary to the Trustee, then it should be sufficient that such information may be obtained or disseminated on a confidential basis if and when required by the Trustee for the proper administration of the Trust and on that basis such impediments should not disqualify a Primary Beneficiary from participating in the benefits of the [Project], to the extent that the confidential record-keeping of the Electricity Distributor would be available in connection with the application of any applicable legal process predicated on the identification of such Primary Beneficiary for the purposes of substantiating its rights as a Primary Beneficiary of the Trust or as to the validity or subsistence of the Trust.

2. Eligible Measures

2.1 Eligible Measures shall be identified having regard to the following (the "**Measures Factors**"):

(i) [NTD: Insert generic list of considerations relevant to the identification of the applicable spending uses].

2.2 In identifying and applying the Measures Factors, Electricity Distributors will have expertise in assessing the suitability of efficiency and conservation measures in their

respective areas and regions, which may differ across areas and regions across the Province based on factors (among other things) such as the climate, geography, density, electricity infrastructure, residential structures, and electricity use rates applicable within such areas or regions.

2.3 Unless otherwise specified by the Trustees, the measures specified in Schedule A to this Principles Annex will be considered.

important - I read but seems pretty benign

3. Other

3.1 It is expected that administrative expenses of the Board of Trustees and its members, including any expenses relating to the Trust, to the establishment of the [Affordability Fund] and any expenses related to the implementation and operation of the [Project] by or through Electricity Distributors and other relevant entities, will be recognized and subject to reimbursement in accordance with the principles outlined in the [Province's Transfer Payment Accountability Directive/Travel, Meal and Hospitality Expenses Directive][9], in the form attached to Schedule B to this Principles Annex.

3.2 The Trustee is expected to conduct its activities to ensure that, as more specifically contemplated in the Transfer Payment Agreement:

(i) the Assets are applied are spent prudently and in furtherance of the purpose set forth in the ~~Declaration~~;

(ii) the Trustee is accountable to the Province for activities undertaking in connection with the Project;

Watch word "accountable" - I prefer "reports annually The results of its activities, for info purposes

(iii) it complies with the Province's request for any independent verification or audit determined to be necessary or appropriate by the Province; ← OK.

(iv) the Province will be entitled and has reserved its right to demand the return of the Assets if the Province determined that they are not being used for the purposes and applied in the manner as set forth or contemplated in the Declaration.

nope! "ruling from the grave"

3.3 Electricity Distributors are not intended to directly profit from distributions of funds made from the Trust, although it is recognized that the objectives of electricity efficiency and conservation of Primary Beneficiaries located in the service area or region of an Electricity Distributor, and the cost savings and improved credit worthiness of such Primary Beneficiaries, may be financially beneficial to the Electricity Distributor.

3.4 Distributions from the Trust are intended to allow receiving Primary Beneficiaries to undertake Eligible Measures at no or minimal personal cost.

3.5 It is expected that the Trust Assets will be distributed to Primary Beneficiaries during the period from the Original Trustee Replacement Date to [the Final Distribution Date] [March 31, 2019].

PERMITTED DELEGATION ANNEX

1. Under Section 4.2(d) of the Declaration, the Trustee has the power to: (A) appoint, employ or retain Administrative Services Agents for the purpose of discharging its duties and obligations under the Declaration; and (B) enter into, perform, enforce and amend Administrative Services Agreements.

2. In accordance with [Section 4.2] of the Declaration, consistent with the principles set forth in the Principles Annex, the Trustee or its agent will seek to enter into one or more Administrative Services Agreements with individual Electricity Distributors under which the Electricity Distributors will act as Administrative Service Agents to the Trustee. In this manner, the Trustee will delegate certain of its powers and duties to the Electricity Distributors.

3. Under Section 5.1 of the Declaration, to the extent the Trustee has delegated any of its duties or powers, it shall be deemed to have satisfied the Standard of Care in respect of the subject matter of such delegation, subject to the Trustee's overall duty to exercise prudent oversight thereof. The Trustee is entitled to rely on an Electricity Distributor to discharge the duties delegated to it, as Administrative Services Agent, pursuant to an Administrative Services Agreement as described in this Annex.

4. Accordingly, and without limiting the Trust's right to delegate under the Declaration, the Trust will be permitted to, and should seek to, enter into Administrative Services Agreements with Electricity Distributors in order to provide for the following:

    a. **Identification of Applicable Primary Beneficiary Payees and Determination of Individual Distribution Amounts**

        i. Each Electricity Distributor will make an initial assessment of the financial needs of Primary Beneficiaries within its designated service area or region, having regard to [NTD: specify relevant economic data and reference material], in order to prepare and provide to the Trustee an estimate of the number of Primary Beneficiaries who the Electricity Distributor reasonably expects would satisfy the Selection Factors (as defined in clause 1.1 "Identification of Primary Beneficiary Payees" of the Principles Annex).

        ii. Each Electricity Distributor will make an initial assessment of the measures it would recommend be included as Eligible Measures, having regard to [NTD: specify relevant considerations], in order to prepare and provide to the Trustee an estimate of the average cost per Primary Beneficiary Payee (as defined below) of such Eligible Measures that the Electricity Distributor reasonably expects would apply in respect of Primary Beneficiaries resident in its service area or region.

        iii. Based on the product of (i) and (ii), above, and such other considerations as it considers to be directly relevant, each Electricity Distributor will make a written recommendation to the Trustee regarding the aggregate funding amount that the Electricity Distributor anticipates would be utilized under the

[Project] by Primary Beneficiaries in its service area or region (the "**Local Funding Estimate**"). Such recommendation will be accompanied, when submitted to the Trustee, by a detailed explanation regarding the assumptions, financial parameters, suitability considerations and other information underlying the Local Funding Estimate (including the type of information contemplated by "[Insert]" under the Principles Annex, which will be relied upon by the Trustee in its assessment regarding the allocation of available funding to or for the benefit of the Primary Beneficiaries across the specified areas and regions of the Province.

iv. Commented [A4]: We will look to refine this, but the intent is for Trustees to have insurance in place before funds are flowed.

Under the previous draft, if there was a lawsuit against a Trustee, expenses and any liabilities would be covered by the Trust (indemnification).

Instead, we are proposing that a line of insurance be established that a Trustee would access to cover lawsuit related expenses and liabilities.

The intention is to protect the Trust funds and for them to be not used for lawsuit related liabilities.

Also, our counsel has drafted the following to assist in Hydro One and KPMG's review of the documents:

Our mark-up addresses the tensions that exist among (1) the requirements to recognize the Trust as non-controlled for government year-end accounting purposes, (2) the practical need for the LDCs to lead the identification and allocations to eligible participants processes (3) the desire for the ultimate customers in need to be the reference group of beneficiaries (4) the legal requirements to create a valid trust under Ontario law and (5) the practical limitations associated with addressing and contracting relevant LDC participation prior to March 31, while achieving sufficient contractual certainty for the Province and legal purposes.

To balance these tensions, we have suggested the following (subject to accounting input and practical input from Hydro One):

(1) the Declaration contemplates the following 3 time periods:

a. Initially, Computershare will be the trustee and will simply sit on the funds. Hydro One will provide very basic administrative services during this initial period. Computershare, acting on the recommendations of an "Advisory Committee" will appoint its replacement – a "Board of Trustees" (this is contemplated in a Trustee Replacement Annex to the Declaration).

b. Once the Board of Trustees is in place, administrative services agreements will be entered into with LDCs. To give the LDCs a wide scope to identify funding recipients within their service areas, a broad and specific delegation is described in the "Permitted Delegations Annex", which frames out what the basic and key terms of the ultimate Administrative Services Agreements with the LDCs will entail. That level of detail is required to enable the broad Trustee delegation, without upending the validity of the Trust for legal purposes. The Board of Trustees will maintain supervisory responsibility over the LDCs actions, but will be permitted to rely on the recommendations of the LDCs. Under these arrangements, the find will be divided by region and then LDCs will have wide discretion to recommend distributions, in each case subject to the principles set out in a "Principles Annex".

c. Once the program is to be wound up (either because of a default by the Trust, the Trustee's determine that all funding has been appropriately provided for or a final end-date occurs), any remaining funds will be paid to charitable beneficiaries identified from among a pre-determined slate. The amount available to the charities in the circumstance where a default of the Trust has occurred will be net of the amount the Province will be entitled to be paid (i.e., the remaining Assets) from the Trust under the Transfer Payment Agreement.

(2) From March 31, all of the discretion to deal with the Trust Assets will reside with Computershare or the Board, or by delegation to the LDCs where a suitable contract is signed by the Trust with the LDCs. The Province will not maintain control of the Assets, and all steps contemplated in (1) will not be affected by the Province other than (in substance):

a. To the extent the Province is represented on the Advisory Committee or the Board;

b. The Province has rights to require payment of remaining Assets under the Transfer Agreement on an "event of default"; or

c. The Province has certain reporting, audit and compliance rights, essentially to affect the intended purpose of the Trust in its implementation (and with remedies under the Transfer Payment Agreement, including a right to be paid the undistributed Assets or to pursue contract remedies (including specific performance).

Otherwise, the terms of the Trust will be determined at the outset and determined and affected by non-governmental entities. We understand that these continuing ties to the Trust would not be contrary to the accounting principles applicable for government year-end treatment as a non-controlled trust entity.

Based on this drafting approach, Blakes believes on a preliminary basis that the validity issues associated with the Trust can be adequately addressed.

[5] NTD: This section will be integrated into the additional provisions dealing with the Board of Trustees.

(ii) electricity use and efficiency levels of non-commercial electricity customers;

(iii) specific regional indicators of economic weakness and need; and/or

(iv) such other factors as the Trustee may determine are relevant, including based on the submissions, advice and recommendations of Electricity Distributors made on the basis and in accordance with the delegations contemplated by the Permitted Delegations Annex or any applicable Administrative Services Agreement.

1.3 An efficient basis upon which to allocate funds to the Primary Beneficiaries across different areas and regions within the Province may be based on the designated areas and regions serviced by the Electricity Distributors operating within the Province.

1.4 The designated Electricity Distributor for an area or region in which a Primary Beneficiary resides will:

(i) be a reliable source for the purpose of assessing and confirming whether the Primary Beneficiary satisfies the Selection Factors;

(ii) be an efficient intermediary for the purpose of communicating with the Primary Beneficiary, including regarding the availability, terms, conditions and intended purposes of [Project][5];

(iii) be able to efficiently integrate and reflect any distribution payments determined to be made to the Primary Beneficiary within its established practices, procedures and systems; and

(iv) have established contractual arrangements with the Primary Beneficiary that may apply to the protection and confidentiality of information provided by or respecting the Primary Beneficiary, which information may be useful in the consideration by the Electricity Distributor in its assessment of whether the Primary Beneficiary satisfies the Selection Factors, which information may not otherwise be available or readily accessible or verifiable by the Trustee.

1.5 The designated Electricity Distributor for an area or region in which a Primary Beneficiary resides will have market and utilization information that may be useful in assessing the relative needs of Primary Beneficiaries within its designated area or region. Such information will be relevant in assessing the extent to which one such Primary Beneficiary's financial needs and the merits of its Energy Plan are greater or more compelling than those of another such Primary Beneficiary, which comparison may be relevant to the extent that the funds allocable to the Primary Beneficiaries resident in the area or region are otherwise insufficient to meet the requests for funding by all such Primary Beneficiaries.

are these obligations, conditions or "wishes"?

[5] Consider if the Trustees should control the messaging to ensure consistency across the Province.

1.6 Accordingly, it is consistent with the purposes of the Trust that the recommendations of Electricity Distributors be utilized and relied upon by the Trustee to guide the process of identifying particular Primary Beneficiaries for distributions under the [Project].

1.7 If an Electricity Distributor for a particular area or region is unable or unwilling to assess or confirm the application of the Selection Factors to Primary Beneficiaries residing in the area or region or to make recommendations in relation to such matters, one or more of the following may provide a suitable alternative source of information and for information gathering, assessment and confirmation purposes in relation to such area or region:

(i) other Electricity Distributors operating in adjacent or other areas or regions in the Province;

(ii) the Ontario Energy Board;

(iii) the Independent Electricity System Operator; and

(iv) anyone else having relevant expertise and access to information regarding the electricity market of the Province, in each case as may be considered relevant by the Trustee.

1.8 To the extent that privacy law or other legal requirements limit an Electricity Distributor from providing or making available specific information respecting the application of the Selection Factors to a particular Primary Beneficiary or group of Primary Beneficiaries, it may be appropriate to redact or make generic affected information regarding such Primary Beneficiary in connection with the identification and confirmation of a Primary Beneficiary's eligibility and participation in the [Project]. If such limitations or restrictions would limit an Electricity Distributor from providing or confirming the name of a particular Primary Beneficiary to the Trustee, then it should be sufficient that such information may be obtained or disseminated on a confidential basis if and when required by the Trustee for the proper administration of the Trust and on that basis such impediments should not disqualify a Primary Beneficiary from participating in the benefits of the [Project], to the extent that the confidential record-keeping of the Electricity Distributor would be available in connection with the application of any applicable legal process predicated on the identification of such Primary Beneficiary for the purposes of substantiating its rights as a Primary Beneficiary of the Trust or as to the validity or subsistence of the Trust.

2. Eligible Measures

2.1 Eligible Measures shall be identified having regard to the following (the "**Measures Factors**"):

(i) [NTD: Insert generic list of considerations relevant to the identification of the applicable spending uses].

it would be much more certain to use HAP + heat pumps -

2.2 In identifying and applying the Measures Factors, Electricity Distributors will have expertise in assessing the suitability of efficiency and conservation measures in their

respective areas and regions, which may differ across areas and regions across the Province based on factors (among other things) such as the climate, geography, density, electricity infrastructure, residential structures, and electricity use rates applicable within such areas or regions.

2.3 Unless otherwise specified by the Trustees, the measures specified in Schedule A to this Principles Annex will be considered.

3. Other

3.1 It is expected that administrative expenses of the Board of Trustees and its members, including any expenses relating to the Trust, to the establishment of the [Affordability Fund] and any expenses related to the implementation and operation of the [Project] by or through Electricity Distributors and other relevant entities, will be recognized and subject to reimbursement in accordance with the principles outlined in the [Province's Transfer Payment Accountability Directive/Travel, Meal and Hospitality Expenses Directive][3], in the form attached as Schedule B to this Principles Annex.

3.2 The Trustee is expected to conduct its activities to ensure that, as more specifically contemplated in the Transfer Payment Agreement:

(i) the Assets are applied are spent prudently and in furtherance of the purpose set forth in the ~~Declaration~~;

(ii) the Trustee is accountable to the Province for activities ~~undertaking~~ undertaken in connection with the Project;

(iii) it complies with the Province's request for any independent verification or audit determined to be necessary or appropriate by the Province;

(iv) the Province will be entitled and has reserved its right to demand the return of the Assets if the Province ~~determined~~ determines that they are not being used for the purposes and applied in the manner as set forth or contemplated in the Declaration.

3.3 Electricity Distributors are not intended to directly profit from distributions of funds made from the Trust, although it is recognized that the objectives of electricity efficiency and conservation of Primary Beneficiaries located in the service area or region of an Electricity Distributor, and the cost savings and improved credit worthiness of such Primary Beneficiaries, may be financially beneficial to the Electricity Distributor.

3.4 Distributions from the Trust are intended to allow receiving Primary Beneficiaries to undertake Eligible Measures at no or minimal personal cost.

3.5 It is expected that the Trust Assets will be distributed to Primary Beneficiaries during the period from the Original Trustee Replacement Date to [the Final Distribution Date] [March 31, 2019].

Notwithstanding anything else contained in the Agreement or the Declaration of Trust, until such time as each of the following conditions have been completed to the satisfaction of the Province (the "Requirements"), the Recipient shall not distribute any Funds to any Beneficiary. **[Blakes comment: We will be refining this content further]**

1. Procedures shall be developed and implemented for (i) identifying trustees who are individuals resident in Ontario to replace Computershare Trust Company of Canada as the sole trustee of the Recipient, and (ii) the making of decisions by the trustees of the Recipient and more generally, for the governance of the Recipient.

2. Computershare Trust Company of Canada shall be replaced as the sole trustee of the Recipient with three or more individual trustees identified in accordance with the procedures developed under clause 1.

3. An administrative services agreement shall have been developed and entered into by the Recipient and the administrative services agent providing for the administrative services necessary for the operation of the Recipient and the execution of the Project.

4. Procedures will be developed and implemented under which Local Distribution Companies (as defined in the Declaration of Trust) will assist with (i) the identification of Beneficiaries, and (ii) the distribution of Funds to or for the benefit of such Beneficiaries.

5. Insurance requirement **[Blakes Comment: We will look to refine this, but the intent is for Trustees to have insurance in place before funds are flowed. Under the previous draft, if there was a lawsuit against a Trustee, expenses and any liabilities would be covered by the Trust (indemnification). Instead, we are proposing that a line of insurance be established that a Trustee would access to cover lawsuit related expenses and liabilities. The intention is to protect the Trust funds and for them to be not used for lawsuit related liabilities.]**

Each of the Requirements may be accomplished by the Recipient entering into such agreements as may be necessary or expedient, including, without limitation, an amendment or amendment and restatement of the Declaration of Trust. The Province shall provide notice in writing to the Recipient when the Requirements have been completed to the satisfaction of the Province. Funds may be expended to pay the expenses of the Trustee in completing the Requirements.

(D) to value the Assets and determine the net income of the Trust; and

(E) to make any filings, elections and submissions (including in respect of taxation matters) in connection with the Trust's compliance with applicable laws and regulatory requirements; and

(ii) the Trustee may pay remuneration and reimbursements from the Assets for services performed for it or on its behalf in the discharge of the trusts hereof without taxation for costs or fees of any counsel, solicitor or attorney.

Without limiting the foregoing, it is expected that the Board of Trustees will seek to enter into Implementation Agreements with Electricity Distributors for the purposes contemplated by the Permitted Delegations Annex, and on such terms and conditions (including terms and conditions as to the payment of reasonable fees and expenses) not inconsistent therewith as the Trustee, in its sole and absolute discretion, may consider appropriate or advisable.

(h) ***Power to Operate Accounts.*** The Trustee shall have the power to (i) open and operate accounts at any chartered bank, trust company or other financial institution in Canada or

elsewhere, as the Trustee in its sole and absolute discretion may consider appropriate or advisable; (ii) deposit therein any moneys or securities forming part of the Assets whether or not such deposits will earn interest; (iii) withdraw such deposits at such times and in such manner as the Trustee may determine; (iv) draw, make, endorse, deposit or otherwise deal in cheques, bills of exchange, promissory notes, drafts and other kinds of instruments and securities; and (v) enter into contracts or agreements with any such chartered bank, trust company or other financial institution containing such terms and provisions as the Trustee, in its sole and absolute discretion, may consider appropriate or advisable. In connection therewith, the Trustee shall have no liability or responsibility for any loss which may occur by reason of the failure of any such chartered bank, trust company or other financial institution.

(i) ***Power to Collect, etc.*** The Trustee shall have the power to (i) collect, sue for, receive and give receipts for all sums of money or other property due to the Trust; (ii) consent to extensions of time for payment or to the renewal of any securities or obligations; (iii) engage or intervene in, prosecute, defend, compound, compromise, abandon or adjust by arbitration or otherwise, any demands, claims, actions, suits or proceedings relating to the Trust or the Assets; (iv) exercise any and all remedies available to the Trustee under any agreement or as may otherwise be available, including any power of foreclosure or sale available at law; (v) in connection with any such foreclosure or sale, purchase or otherwise acquire title to any property and to convey good title thereto free of any and all trusts hereby established, or to take or retake possession of any property secured under any agreement or instrument; (vi) extend the time, with or without security, for the payment or delivery of any debts or property; (vii) execute and deliver releases, acquittances, discharges, agreements or other instruments related thereto; and (viii) pay or satisfy any debts or claims upon any evidence that the Trustee, in its sole and absolute discretion, may determine to be sufficient.

(j) ***Power to Obtain Insurance***. The Trustee shall have the power to enter into contracts for or in relation to or otherwise obtain policies of insurance for the purpose of insuring the risks associated with the Trust, including to insure the Trustee (including the members of the Board of Trustees) against any risk of loss associated with assuming and performing the duties as Trustee. Without limiting the foregoing, it is expected that the Board of Trustees will obtain commercial general liability insurance from insurers having a secure A.M. Best rating of B+ or greater, or the equivalent, that in the opinion of the Recipient a prudent person similar to the Recipient would maintain, and having an inclusive limit of not less than $2,000,000 per occurrence and providing for contractual liability coverage.

(k) ***Power to Pay Trustee's Fees.*** The Original Trustee shall be entitled to be paid and receive the fees set forth in the Original Trustee's schedule of fees delivered as of or prior to the date hereof as compensation for its services under this Declaration, and to be reimbursed for its out-of-pocket expenses reasonably incurred, in each case from the Assets and without the approval of any Beneficiary or any court. The Original Trustee shall be entitled, in its sole and absolute discretion, to withdraw funds from time to time for such purpose from any account of the Trust. Members of the Board of Trustees shall be entitled to reimbursement for and in respect of their out-of-pocket expenses reasonably incurred in discharging their respective duties and obligations under this Declaration, in each case without the approval of any Beneficiary or any court, provided that the members of the Board of Trustees have general regard to sorts of limitations as are set forth in the "Travel, Meal and Hospitality Expenses Directive of the

Province" specified and amended by the Province from time to time, a copy of the current version of which is attached as Exhibit 1 to the Principles Annex.

(l) ***Power to Pay Taxes.*** The Trustee shall have the power to (i) pay, deduct, withhold or remit any taxes or assessments which are required by law to be paid, deducted, withheld or remitted together with or from any payment made by the Trustee; (ii) pay all taxes or assessments of whatever kind or nature imposed upon or against the Trust or the Trustee in connection with the Assets or any part thereof; (iii) collect and remit all taxes and assessments of whatever kind or nature required to be collected and remitted by the Trust or the Trustee in connection with their activities or the Assets or any part thereof; (iv) appeal, settle or compromise tax claims or liabilities; and (v) for the foregoing purposes, to make such returns, elections and submissions and do all such other acts and things as the Trustee, in its sole and absolute discretion, may consider appropriate or advisable.

(m) ***Power to Appoint Auditors.*** The Trustee shall have the power to select and appoint and discharge and re-appoint, in its sole and absolute discretion, an auditor or auditors of the Trust and to settle and pay the fees of any such auditor or auditors from any account of the Trust.

(n) ***Form of Accounts.*** The Trustee shall have the power to determine and change from time to time, in its sole and absolute discretion, the method or form in which the accounts of the Trust will be kept and shall not be required to keep or provide accounts in the form usually required by law to be kept or provided by trustees; provided that such method or form reasonably complies with generally accepted accounting principles in effect in Canada to the extent applicable.

(o) ***Title to Assets.*** The Trustee shall have the power to cause all or any part of the Assets to be held by or registered, in its sole and absolute discretion, in the name of any Person.

(p) ***Delegation of Discretion***. The Trustee shall have the power to delegate the right and power to exercise, or concur in the exercise of any discretion or power, conferred on the Trustee in this Declaration or conferred by law to any one or more of its directors, officers, employees, agents, representatives or to such other Person, as the Trustee, in its sole and absolute discretion, may think is appropriate or advisable, including to one or more Administrative Services Agents under an Administrative Services Agreement and to one or more Implementation Agents and their respective employees, officers and directors under a related Implementation Agreement entered into by the Trust substantially on the basis contemplated in the Permitted Delegations Annex. In particular, the Trustee shall have the power to accept, rely on and follow the recommendations of an Electricity Distributor made under and having regard to the Permitted Delegation Annex with respect to the identification of, and the determination of distributions (if any) to be made to, any Primary Beneficiary, except if and in so far as the Trustee has actual knowledge that (1) such Primary Beneficiary did not in fact satisfy the "Selection Factors" specified in the Principles Annex as of the applicable time of determination; and/or (ii) the amount recommended to be distributed to the Primary Beneficiary was not calculated in substantial compliance with, or was calculated in a manner that is manifestly contrary to the requirements set forth or contemplated in, the Permitted Delegation Annex or the applicable Implementation Agreement.

(q) ***Additional Powers.*** The Trustee shall have the power to perform and do all such other acts, to take such steps and to execute all such deeds, transfers, assignments, agreements and

other documents and instruments as the Trustee, in its sole and absolute discretion, may consider appropriate or advisable for the carrying out of any of its powers hereunder or of any of the activities of the Trust as herein contemplated, or for the carrying out, promotion or advancement of the interests of the Trust, whether or not any of such acts, things, documents or instruments are herein expressly mentioned. Any good faith determination by the Trustee as to what is necessary, desirable or appropriate to carry out its powers or activities of the Trust as contemplated under this Declaration or to carry out, promote or advance the interests of the Trust shall be conclusive. Any construction of this Declaration or any determination as to the activities of the Trust or the existence of any power or authority hereunder made in good faith by the Trustee, relying upon the advice of counsel, shall be conclusive. In construing the provisions of this Declaration, there shall be a presumption in favour of a grant of power to the Trustee.

SECTION 5
CONCERNING THE TRUSTEE

5.1 Duty of Trustee

In performing its duties and exercising its powers under this Declaration, the Trustee shall act honestly, in good faith and with a view to the best interests of the Trust and the Beneficiaries and shall exercise that degree of care, diligence and skill that a reasonably prudent trustee would exercise in comparable circumstances (the "**Standard of Care**"). The Trustee shall observe and act in accordance with the terms of, and shall observe and comply with the limitations and restrictions set forth in, this Declaration, including having due regard to the principles set forth in the Principles Annex. To the extent that the Trustee has so delegated any of its duties or powers, it shall be deemed to have satisfied the Standard of Care in respect of the subject matter of such delegation, subject to the Trustee's overall duty as a trustee to exercise prudent oversight in relation to such delegation. Unless required by law, the Trustee will not be required to give any security, bonds or sureties in any jurisdiction for the performance of any of its duties and obligations under this Declaration. The Trustee (including the individual members of the Board of Trustees) will not be required to devote its entire time to the trust activities.

5.2 Limitation of Liability

The Trustee shall not be personally liable in tort, contract or otherwise to any Beneficiary or any other Person for any loss or diminution in the value of the Assets, or for any action or failure to act on the part of the Trustee or any of its employees or agents or any other Person, and shall not be subject to any personal liability for any debts, liabilities, obligations, claims, demands, judgments, costs, charges or expenses incurred by or against the Trust, howsoever arising, and resort will be had solely to the Assets for the payment, performance or satisfaction thereof. No property or assets of the Trustee, owned in its personal capacity or otherwise, will be subject to levy, execution or other enforcement procedure**s** with respect to any obligation under this Declaration. However, the foregoing limitations in this Section shall not apply where the Trustee has demonstrated gross negligence, bad faith, fraud or wilful misconduct.

5.3 Liability of Trustee under Contracts

Any document or instrument creating a liability or obligation of the Trust or of the Trustee will be conclusively deemed to have been executed by the Trustee only in its capacity as Trustee of

the Trust and will be binding upon the Trustee only in its capacity as trustee hereunder and resort may not be had to, nor recourse or satisfaction be sought from, the property of the Trustee other than the Assets, whether owned by its in its personal capacity or in any other capacity other than in its capacity as Trustee of the Trust, or from its employees or agents, and in all cases resort will be had solely to the Assets for the payment, performance or satisfaction of any such liability or obligation. However, the foregoing limitations in this Section shall not apply where the Trustee has demonstrated gross negligence, bad faith, fraud or wilful misconduct. Each document or instrument creating a liability or obligation of the Trust or of the Trustee shall contain a provision providing for the aforesaid limitation of liability.

5.4 Funds of the Trustee

The Trustee shall not be required to expend or risk its own funds or otherwise incur financial liability in the performance of any of its duties hereunder, or in the exercise of any of its rights or powers.

5.5 Indemnification of Trustee

In addition to and without limiting any other protection hereunder or otherwise by law of the Trustee and its respective employees, agents, representatives and assigns (in this Section 5.5, collectively, the "**Representatives**"), the Trustee and its respective Representatives shall be indemnified, defended and saved harmless out of the Assets from, against and in respect of any and all liabilities arising or related to actions taken or omitted to be taken by any agent of the Trustee, losses, claims (including any claim arising out of the assessment of any tax on income by a taxing authority), damages, penalties, fines, actions, suits, demands, levies, assessments, costs, charges, expenses and disbursements (including, without limitation, any and all legal and advisor fees and disbursements) (in this Section 5.5, collectively, the "**Liabilities**") of whatever kind or nature which may at any time be suffered by, imposed upon, incurred by or asserted against the Trustee and its Representatives, whether groundless or otherwise, howsoever arising from or out of any act, omission or error of the Trustee, in each case made in connection with its acting as Trustee hereunder, in each case except and to the extent that the Liabilities are a result from or are caused by gross negligence, wilful misconduct, bad faith or fraud. Further, except as provided in section 5.2, the Trustee shall not be liable to any Beneficiary for any loss or damage relating to any matter regarding the Trust, including any loss or diminution in value of the Assets. Notwithstanding any other provision hereof, the obligations provided for in this section 5.5 shall survive any termination of the Trust, whether by reason of removal or resignation of the Trustee, termination or discharge of this Declaration or otherwise.

5.6 Reliance upon Advice

Subject to section 5.1, in performing its duties and exercising its powers hereunder, the Trustee may rely and may act or not act, and shall be fully protected in relying and acting or not acting, upon (a) any statement, telecopy or other electronic means of communication, writing, notice, resolution, report, opinion or other document or conversation believed by it to be genuine and correct and to have been signed, sent or made by the proper Person; (b) any opinion or advice received or information obtained from auditors, solicitors, or other professional advisers, whether retained by the Trustee or otherwise, and shall not be responsible or held liable for any loss or damage resulting from so relying or acting or not acting; and (c) the advice and actions of any

Administrative Services Agent or Implementation Agent, including in connection with the delegations and reliances contemplated under the Permitted Delegations Annex. For greater certainty, it shall not be necessary for the Trustee to ascertain whether or not the Persons who have executed, signed or otherwise issued, authenticated or receipted such papers, writings or documents (including any Administrative Services Agreement or any Implementation Agreement or any other contract entered into by the Trustee) have authority to do so or that they are the same Persons named therein or otherwise to pass upon any requirement of such papers, writing or documents that may be essential for their validity or effectiveness or upon the truth and acceptability.

5.7 Replacement of the Original Trustee

The Persons identified in the Trustee Replacement Annex are hereby appointed to comprise the Advisory Committee contemplated therein (the "**Advisory Committee**"). The Original Trustee shall promptly request that the Advisory Committee make recommendations with respect to the composition of the "Board of Trustees", as contemplated by the Trustee Replacement Annex. The Original Trustee shall have no duty or obligation to investigate the basis for any of the Advisory Committee's recommendations and may rely on such recommendations without any duty of enquiry, supervision or oversight with respect to the activities and decision-making processes adopted by the Advisory Committee in its discretion, in full satisfaction of the Original Trustee's Standard of Care with respect to such matters hereunder. Except where it is manifestly apparent to the Original Trustee that the individuals recommended by the Advisory Committee to become members of such Board of Trustees are disqualified from so acting on the basis of manifest non-compliance with the "Selection Factors" set forth in the Trustee Replacement Annex, the Original Trustee shall appoint, as members of the Board of Trustees, the six (five voting and one non-voting) individuals recommended for appointment to the Board of Trustees by the Advisory Committee. If the Original Trustee declines to appoint any individual recommended by the Advisory Committee, the Original Trustee will promptly request that the Advisory Committee provide a further recommendation whom the Original Trustee shall appoint as a member of the Board of Trustees unless it is manifestly apparent to the Original Trustee that the individual so recommended is also disqualified from so acting on the basis of manifest non-compliance with the "Selection Factors" set forth in the Trustee Replacement Annex,. Upon the appointment of such six individuals pursuant to this provision and their agreement to act as members of the Board of Trustees, the Original Trustee shall be deemed to have resigned and shall cease to be a trustee (such resignation occurring on the "**Original Trustee Replacement Date**").

5.8 Rules and Procedures of the Board of Trustees

(a) ***Initial Requirements***. As soon as practicable and in any event no later than one month following the Original Trustee Replacement Date, the Board of Trustees id expected to meet to take such decisions and actions as they deem necessary to ensure the proper management and administration of the Trust. The date (and location if in person) of the initial meeting shall be determined by a majority of the Board of Trustees.

(b) ***Meetings.*** Subject to the Board of Trustees' discretion to make such rules and procedures that they may deem desirable, meetings of the Board of Trustees may be held at such time and place as the trustee members of the Board of Trustees may agree upon or as they may

fix by resolution for the purpose or if the meeting is called as hereinafter mentioned then at such time as may be designated in the notice calling the meeting. A meeting of the Board of Trustees may be called at any time by any two members of the Board of Trustees by two Business Days' notice given to the members of the Board of Trustees. No notice of any Board of Trustees' meeting shall be necessary when a quorum is present if those comprising the quorum consent to the transaction of the affairs of the Trust and the absent trustee or trustees, if any, either before or after the meeting shall waive in writing notice of the meeting. Meetings of the Board of Trustees may be conducted in person, by telephone, or in such other manner as determined by the Board of Trustees. The Board of Trustees may elect a Chairperson.

(c) ***Quorum.*** At any meeting of the Board of Trustees, a majority of the voting members of the Board of Trustees shall be a quorum irrespective of the number of members in office. The decision of the majority of the voting members where quorum exists shall govern and shall be binding for all purposes and shall be acted upon and carried out in the same manner and with the same effect as if all the voted members concurred therein; provided always that in the case of equality of votes the Chairperson, if any, shall not be entitled to cast a second or deciding vote.

(d) ***Power to Adopt Rules and Procedures.*** The Board of Trustees may make such rules and procedures not inconsistent herewith as it may deem desirable for the proper management and administration of the Trust and the discharge of the responsibilities of the Board of Trustees.

(e) ***Replacement of Members of the Board of Trustees***. The Board of Trustees shall have the power to replace any vacancy arising following the Original Trustee Replacement Date according to such rules and procedures as they deem appropriate subject to compliance with the Selection Factors specified in Trustee Replacement Annex and having regard for such considerations necessary to ensure that the composition of the Board of Trustees will be able to discharge its responsibilities in respect of the Declaration. If necessary, the Board of Trustees may fill any vacancy by application to the Courts of Ontario in the event of an unfilled vacancy.

(f) ***Decisions of the Board of Trustees.*** Decisions and actions of the Board of Trustees shall be made by voting, with each individual voting member having one vote. Subject to quorum requirements, a majority vote shall be determinative in respect of such decisions and actions. Subject to quorum requirements, any decision or action taken by the majority of voting members will represent the decision or action of the Trustee, and not any member of the Board of Trustees.

(g) ***Conflicts of Interest.*** With respect to any matter before the Board of Trustees, to the extent of a conflict of interest, whether actual, perceived or potential, involving a member of the Board of Trustees' personal interests and a matter concerning the Trust, such member shall abstain from voting on the matter or taking any other discretionary action on the matter. For the purposes of the foregoing, no member of the Board of Trustees shall be deemed to have a conflict by reason only that the member holds any office or position with an Electricity Distributor, social services agency or governmental or quasi-governmental agency or entity (such as the Independent Electricity System Operator); provided, however, that in relation to any decision of the Board of Trustees pertaining specifically to a particular Electricity Distributor, any member of the Board of Trustees who is a director, officer or employee of the Electricity Distributor would be expected to recuse himself or herself from participating in deliberations, discussions or voting in respect of such decision.

(h) ***Expense Reimbursements to Members of the Board of Trustees.*** Members of the Board of Trustees shall be entitled to reimbursement for and in respect of their out-of-pocket expenses reasonably incurred in discharging their duties and obligations as members of the Board of Trustees. Members of the Board of Trustees shall serve without compensation.

5.9 Confidentiality

Notwithstanding the resignation or removal and discharge from the trusts and powers reposed in and conferred on the Trustee by this Declaration, or the termination of this Declaration, the Trustee so resigning or removed shall continue to treat as confidential all information relating to the Trust, the Assets and the Beneficiaries and shall only be entitled to make disclosures concerning such information if disclosure is required in the performance of the functions of the resigning or removed Trustee or is ordered by a court of competent jurisdiction or is otherwise required by law. The Trustee shall not be responsible or liable to any Person for any loss or damage arising out of or in any way sustained or incurred in any way relating to any such required disclosure. The obligations arising under this section 5.9 shall survive the termination of the Trust.

5.10 Vesting in Successor Trustee

Any successor trustee (including any reconstituted Board of Trustees) shall automatically become vested with the Assets and with the same powers, rights, duties, responsibilities and trusts as if it, he or she had originally been named as Trustee under this Declaration, without the requirement of any further instrument or act or conveyance, and the Trustee ceasing to act shall execute all such transfers and other documents and do all such other acts or things as may be necessary or desirable to assign, transfer, deliver to, and vest in, the successor trustee, upon the trusts expressed in this Declaration, all the Assets and all the rights, powers and trusts of the Trustee ceasing to act. The expense of any act, document, deed or other instrument or thing required under this Section 5.10, including for greater certainty, outstanding fees and unreimbursed expenses of the Trustee (including any member of the Board of Trustees) ceasing to act, shall be satisfied from the Assets.

5.11 Execution of Instruments

The Trustee shall have the power to execute all deeds, transfers, agreements, promissory notes and other instruments on behalf of the Trust. Such power may be exercised by any one or more Administrative Services Agents acting in accordance with any delegated right to do so pursuant to an applicable Administrative Services Agreement or by any one or more Implementation Agents acting in accordance with any delegated right to do so pursuant to an applicable Implementation Agreement, and any such execution of instrument by an Administrative Services Agent, acting in such capacity as agent of the Trust pursuant to the terms and conditions of an Administrative Services Agreement or by an Implementation Agent acting in such capacity as agent of the Trust pursuant to the terms and conditions of an Implementation Agreement shall in each case be deemed to be a proper execution of such instrument by the Trustee and shall be binding for all purposes on the Trust.

5.12 Decisions by the Trustee

If there is more than one Trustee, decisions of the Trust may be made by a majority of Trustees eligible to vote on the applicable matter. Whenever the Trustees are unable to agree in relation to the commission or omission of any act or howsoever in the execution of the Trust, the decision of a majority of such Trustees shall prevail.

SECTION 6
AMENDMENTS AND SUPPLEMENTS

6.1 Amendments

Subject to the requirements of the Transfer Payment Agreement, the Trustee shall have the power in its sole and absolute discretion from time to time without the approval of any Beneficiary or any court to amend, vary, supplement, replace or restate this Declaration in its entirety or any portion thereof; provided, however that it is expected that any amendment shall be consistent with the intent of the principles set forth in the Principles Annex and with the intended scope and effect of the permitted delegations and activities of any Implementation Agent pursuant to the Permitted Delegations Annex. Without in any way limiting the foregoing, any such amendments, variations, supplements, replacements or restatements may:

(a) add provisions for the replacement of or appointment of additional trustees to act with the Original Trustee prior to the Original Trustee Replacement Date;

(b) in the case of the Original Trustee, add provisions to those contemplated in the Trustee Replacement Annex in respect of the appointment of the members and the formation and empowerment of the Board of Trustees;

(c) in the case of the Original Trustee, vary the terms and requirements applicable to the duties, responsibilities, obligations, liabilities, indemnities, protections, limitations, restrictions, compensation, expense reimbursements and such other matters, in each case as the Advisory Committee may indicate are necessary to be made in order to attract and receive confirmation of appointment of appropriately qualified individuals that the Advisory Committee specifies are to be appointed as members of the Board of Trustees in accordance with its recommendations;

(e) add to or reasonably clarify the principles set forth in the Principles Annex;

(j) specify supplemental procedures for the identification of Primary Beneficiaries and the exchange of information with Electricity Distributors in connection with identifying such Primary Beneficiaries; or

(k) specify procedures for the transfer and transmission of funds from the Trust or any Implementation Agent acting on its behalf and with delegated responsibility over funds constituting Assets, to or for the benefit of, Beneficiaries or their designated representatives, payees or assignees.

6.2 Supplemental Declarations

The Trustee is authorized to execute any supplemental declaration of trust (including one or more amendments and restatements from time to time of this Declaration) to give effect to amendments to this Declaration made pursuant to section 6.1.

SECTION 7
TERMINATION

7.1 Duration

Subject to sections 7.2 and 7.3, the Trust will continue in full force and effect so long as there are any Assets and until all of the debts, liabilities and obligations of the Trust have been paid and satisfied in full.

7.2 Termination and Distribution of Assets

The Trustee shall terminate the Trust and wind up its affairs as soon as practicable after the Final Distribution Date. In connection with the termination of the Trust, the Trustee shall identify the Residual Beneficiaries and distribute or cause to be distributed the remaining Assets, in cash or in kind or partly in each, to the Residual Beneficiaries, in each case in accordance with section 3.3. Despite the foregoing, the Trust will only be terminated and wound up after the Trustee, in its sole and absolute discretion, determines that all debts, liabilities and obligations of the Trust have been paid or otherwise adequately provided for and satisfied and upon receipt of such releases, indemnities and discharges as the Trustee, relying on the opinion of counsel, deems necessary for the protection of the Beneficiaries and for its own protection.

7.3 Distribution of Assets on Final Distribution Date

PRINCIPLES ANNEX

The Trustee shall have regard to, but shall not be specifically bound by, the following principles in applying its discretion in relation to the administration of the Trust:

1. Identification of Primary Beneficiary Payees

1.1 Except in exceptional circumstances, a Primary Beneficiary would not be expected to receive a benefit from the Trust unless at the time of consideration it satisfies, in addition to the requirements contemplated in the definition of "Primary Beneficiary", each of the following criteria (the "**Selection Factors**"):

(i) it has a participant agreement with an applicable Electricity Distributor to undertake measures (its "**Energy Plan**") to improve the electricity efficiency and/or promote the conservation of electricity at its Ontario residence;

(ii) its Energy Plan involves one or more Eligible Measures, as may be designated by the Trustee from time to time from;

(iii) it confirms that:

1. the primary purpose of its Energy Plan is the conservation and efficient use by the Primary Beneficiary of electricity, and is not for the purposes of the Primary Beneficiary making a profit;

2. it would otherwise not have the financial resources to undertake the Eligible Measures included in its Energy Plan; and

3. it would otherwise not be eligible to receive amounts in respect of the Eligible Measures as a HAP Eligible Person;

(iv) it has demonstrated a need for financial assistance on the basis that its periodic electricity bills represent a financial burden, relative to its available financial resources; and

(v) such other criteria as the Trustee may determine, including based on the recommendations of Electricity Distributors or other knowledgeable Persons made on the basis and having regard to the delegations contemplated by the Permitted Delegations Annex or any applicable Implementation Agreement.

1.2 It is recognized that, in furthering the Purpose, an efficient basis upon which to allocate funds to the Primary Beneficiaries across different areas and regions within Ontario may be based on the areas and regions serviced by the Electricity Distributors operating within Ontario.

1.3 It would not be contrary to the Purposes if funds are made available by the Trustee to the Primary Beneficiaries unequally across different areas and regions within Ontario, and it is expected that in making such an unequal division it would be appropriate to have regard to:

(i) broad economic parameters of economic activity and the specific financial resources of the residents of the areas and regions, in each case as an indication of the relative need of such residents across the areas and regions;

(ii) electricity use and efficiency levels of residential electricity customers across the areas and regions;

(iii) specific regional indicators of economic weakness and need; and

(iv) such other factors as the Trustee may determine are relevant, including based on the submissions, advice and recommendations of Electricity Distributors or other knowledgeable Persons made on the basis and having regard to the delegations contemplated by the Permitted Delegations Annex or any applicable implementation Agreement.

1.4 It is recognized that, in furthering the Purpose, the designated Electricity Distributor for an area or region in which a Primary Beneficiary resides would be expected to:

(i) be a reliable source for the purpose of assessing and confirming whether the Primary Beneficiary satisfies the Selection Factors;

(ii) be an efficient intermediary for the purpose of communicating with the Primary Beneficiary, including with respect to matters such as regarding the availability, terms, conditions and intended purposes of Program;

(iii) be able to facilitate an efficient payment of distribution determined to be made to or on behalf of the Primary Beneficiary, having regard to the Electricity Distributor's established practices, procedures and systems for dealing with its customers; and

(iv) have established contractual arrangements with the Primary Beneficiary that may apply to the protection and confidentiality of information provided by or respecting the Primary Beneficiary, which information may be useful in the consideration by the Electricity Distributor in its assessment of whether the Primary Beneficiary satisfies the Selection Factors, which information may not otherwise be available or readily accessible or verifiable by the Trustee.

1.5 It is recognized that, in furthering the Purpose, the Electricity Distributor for an area or region in which a Primary Beneficiary resides will have market and utilization information that may be useful in assessing the relative needs of Primary Beneficiaries within its area or region. Such information is expected to be relevant in assessing the extent to which one such Primary Beneficiary's financial needs and the merits of its Energy Plan are greater or more compelling than those of another such Primary Beneficiary, which comparison may be relevant to the extent that the funds allocable to the Primary Beneficiaries resident in the area or region are otherwise insufficient to meet the requests for funding by all such Primary Beneficiaries.

1.6 Accordingly, it is recognized that, in furthering the Purpose, it is consistent with the Purpose that the recommendations of Electricity Distributors be utilized and relied upon

by the Trustee to guide the process of identifying particular Primary Beneficiaries in making distributions to the Primary Beneficiaries.

1.7 If an Electricity Distributor for a particular area or region is unable or unwilling to assess or confirm the application of the Selection Factors to Primary Beneficiaries residing in the area or region or to make recommendations in relation to such matters, one or more of the following may provide a suitable alternative source of information and for information gathering, assessment and confirmation purposes in relation to such area or region:

(i) other Electricity Distributors operating in adjacent or other areas or regions in Ontario;

(ii) the Ontario Energy Board;

(iii) the Independent Electricity System Operator; and

(iv) anyone else having relevant expertise and access to information regarding the electricity market of the Province, in each case as may be considered relevant by the Trustee.

1.8 To the extent that privacy law or other legal requirements limit an Electricity Distributor from providing or making available specific information respecting the application of the Selection Factors to a particular Primary Beneficiary or group of Primary Beneficiaries, it is recognized that, in furthering the Purpose, it may be appropriate to redact or make generic affected information regarding such Primary Beneficiary in connection with the identification and confirmation of a Primary Beneficiary's eligibility and participation in the Program. If such limitations or restrictions would limit an Electricity Distributor from providing or confirming the name of a particular Primary Beneficiary to the Trustee, then it should be sufficient that such information may be obtained or disseminated on a confidential basis if and when required by the Trustee for the proper administration of the Trust and on that basis such impediments should not disqualify a Primary Beneficiary from participating in the benefits of the Program, provided that the confidential record-keeping of the Electricity Distributor would be available in connection with the application of any applicable legal process predicated on the identification of such Primary Beneficiary for the purposes of substantiating its rights as a Primary Beneficiary of the Trust or as to the validity or subsistence of the Trust.

2. Eligible Measures

2.1 It is expected that the Trust will identify eligible measures that, taking into consideration the principles set forth in the Principles Annex, have regard to the following (the "**Measures Factors**"):

(i) is the measure generally expected to result in reduced electricity consumption by a Primary Beneficiary if properly installed and used;

(ii) is the measure recognized under another Provincial program as being appropriate for achieving electricity conservation among a population analogous to the Primary Beneficiaries;

(iii) does the measure present any unacceptable health or safety considerations, either with respect to the Primary Beneficiary, a party providing or installing the measure, or the physical environment;

(iv) is the measure broadly available to residents across different areas and regions of the Province; or

(v) is the measure a requirement or precursor to another measure, the other measure being one which meets any of the other Measures Factors.

2.2 In identifying and applying the Measures Factors, Electricity Distributors would be expected to have expertise in assessing the suitability of efficiency and conservation measures in their respective areas and regions, which may differ across areas and regions across the Province based on factors (among other things) such as the climate, geography, density, electricity infrastructure, residential structures, and electricity use rates applicable within such areas or regions.

2.3 The measures specified in Schedule A to this Principles Annex may initially be considered to be consistent with the Measures Factors (subject to change as contemplated under the Permitted Delegations Annex).

3. Promotion of the Program

3.1 It is expected that the Trustee will undertake or engage others to undertake diligent efforts to promote the availability, terms and benefits of the Program to Primary Beneficiaries, including by establishing consistent communications through the Electricity Distributors.

3.2 It is expected that the Trustee will acknowledge the financial support of the Province in connection with the establishment and the funding for the Program, including in any external communications to or marketing directed at the Electricity Distributors and the Primary and Residual Beneficiaries. In its delegation of any duties or powers to the Electricity Distributors through Implementation Agreements it is expected that Electricity Distributors will acknowledge the financial support of the Province in connection with the program including in any communications or marketing to Primary Beneficiaries.

4. Conduct of the Trust and the Program

4.1 It is expected that administrative expenses of the Board of Trustees and its members, including any expenses relating to the Trust, to the establishment of the Trust and any expenses related to the implementation and operation of the Program, including by or through Electricity Distributors and other relevant entities, will be recognized and subject to reimbursement on a basis that is substantially consistent with the accountability provisions contemplated in the Transfer Payment Agreement and the principles in the

Province's Travel, Meal and Hospitality Expenses Directive, as set out in Schedule B to this Principles Annex.

4.2 The Trustee is expected to conduct its activities in a manner that complies in all material respects with the Transfer Payment Agreement, including to:

(i) act prudently and in furtherance of the Purpose;

(ii) report not less frequently than annually the results of its activities for information purposes to the Province in connection with the Program;

(iii) comply with the Province's request for any independent verification or audit if determined to be necessary or appropriate by the Province;

(iv) return Assets that have not been distributed if it is determined that the Trustee has breached its Standard of Care in discharging its material duties under the Declaration, and has not cured such material breach despite having been given a reasonable opportunity by the Province to do so in light of the circumstances of such material breach, with the result that all or a significant part of the Assets have not been or are not being applied and distributed in furtherance of the Purpose or are being applied and distributed in a manner that is directly contrary or without regard to the Purpose.

4.3 Electricity Distributors are not intended to directly profit from distributions of funds made from the Trust, although it is recognized that the objectives of electricity efficiency and conservation of Primary Beneficiaries located in the service area or region of an Electricity Distributor, and the cost savings and improved credit worthiness of such Primary Beneficiaries, may be financially beneficial to the Electricity Distributor.

4.4 Distributions from the Trust are intended to allow receiving Primary Beneficiaries to undertake Eligible Measures at no or minimal personal cost.

4.5 Without in any way limiting the discretion of the Board of Trustees to extend the period during which the benefits of the Program may be available to the Primary Beneficiaries, up to and including the Final Distribution Date, it is expected that the Trust Assets would be distributed to Primary Beneficiaries during the period from the Original Trustee Replacement Date to April 30, 2019.

PERMITTED DELEGATION ANNEX

1. Under section 4.2(g) of the Declaration, the Trustee has the power to: (a) appoint, employ or retain Implementation Agents for the purpose of discharging its duties and obligations under the Declaration; and (b) enter into, perform, enforce and amend Implementation Agreements.

2. In accordance with section 4.2(g) of the Declaration, consistent with the principles set forth in the Principles Annex, the Trustee or its agent will seek to enter into one or more Implementation Agreements with individual Electricity Distributors under which the Electricity Distributors will act as Implementation Agents to the Trustee. In this manner, the Trustee will delegate certain of its powers and duties to the Electricity Distributors.

3. Under section 5.1 of the Declaration, to the extent the Trustee has delegated any of its duties or powers, it shall be deemed to have satisfied the Standard of Care in respect of the subject matter of such delegation, subject to the Trustee's overall duty to exercise prudent oversight thereof. The Trustee is entitled to rely on an Electricity Distributor to discharge the duties delegated to it, as Implementation Agent, pursuant to an Implementation Agreement as described in this Annex.

4. Accordingly, and without limiting the Trustee's right to delegate under the Declaration and its other rights, powers and discretion as Trustee, the Trustee will be permitted to, and is expected to seek to, enter into Implementation Agreements with Electricity Distributors in order to further the Purpose. Without limiting the Trustee's discretion to negotiate and settle the terms and conditions of such Implementation Agreements, it is expected that such Implementation Agreements will include customary terms and conditions for an administrative services arrangement of this type and, in addition, would (subject to the acceptance and agreement of the applicable Electricity Distributor counterparty) address the following points in particular:

    a. **Identification of Applicable Primary Beneficiary Payees and Determination of Individual Distribution Amounts**

        i. Each Electricity Distributor would make an initial assessment of the financial needs of Primary Beneficiaries within its designated service area or region, having regard to the Selection Factors set forth in section 1.3 of the Principles Annex, together with applicable economic data, in order to prepare and provide to the Trustee an estimate of the number of Primary Beneficiaries who the Electricity Distributor reasonably expects would satisfy the Selection Factors.

        ii. Each Electricity Distributor would make an initial assessment of the measures it would recommend be included as Eligible Measures, having regard to the Measures Factors set forth in section 2.1 of the Principles Annex, in order to prepare and provide to the Trustee an estimate of the average cost per Primary Beneficiary Payee (as defined below) of such Eligible Measures that the Electricity Distributor reasonably expects would apply in respect of Primary Beneficiaries resident in its service area or region.

iii. Based on the product of (i) and (ii), above, and such other considerations as it considers to be directly relevant, each Electricity Distributor would make a written recommendation to the Trustee regarding the aggregate funding amount that the Electricity Distributor anticipates would be utilized under the Program by the Primary Beneficiaries resident in its service area or region (the "**Local Funding Estimate**"). Such recommendation would be accompanied, when submitted to the Trustee, by a detailed explanation regarding the assumptions, financial parameters, suitability considerations and other information underlying the Local Funding Estimate (including the type of information contemplated by the Selections Factors and the Measures Factors, which would be relied upon by the Trustee in its assessment regarding the allocation of available funding to or for the benefit of the Primary Beneficiaries across the specified areas and regions of Ontario.

iv. The Trustee would inform the Electricity Distributor regarding the aggregate of the amount determined by the Trustee to be made available under the Program for Primary Beneficiaries in the Electricity Distributor's designated service area or region (for each Electricity Distributor, its "**Maximum Electricity Distributor Allocation**") and as to any maximum amount that may be paid to or for the benefit of any single Primary Beneficiary located in the servicer area or region of the Electricity Distributor (the "**Maximum Primary Beneficiary Amount**"). The Maximum Electricity Distributor Allocation and Maximum Primary Beneficiary Amount may vary between areas and regions, among the Primary Beneficiaries within such areas and regions, and may be increased by the Trustee from time to time in its discretion.

v. Each Electricity Distributor would apply the principles set forth under "Identification of Primary Beneficiary Payees" in the Principles Annex to identify and make recommendations to the Trustee regarding the amount of funds (if any) to be distributed to or for the benefit of Primary Beneficiaries resident within its service area or region from time to time (the "**Primary Beneficiary Payees**").

vi. Each Electricity Distributor would ensure that the aggregate of the amounts it recommends be distributed to or for the benefit of Primary Beneficiary Payees from time to time does not exceed (1) its Maximum Electricity Distributor Allocation and (2) for any single Primary Beneficiary located in the service area or region of the Electricity Distributor, the lesser of (x) the applicable Maximum Primary Beneficiary Amount and (y) the estimated costs (including any applicable taxes, but excluding any amount payable to the Electricity Distributor by or on behalf of the Primary Beneficiary) to be incurred by or on behalf of such Primary Beneficiary (whether or not such costs have been paid or remain outstanding) in respect of Eligible Measures applied or to be applied in respect of the Primary Beneficiary's Ontario residence.

vii. The Trustee would provide written confirmation to each Electricity Distributor:

1. Either (x) that the recommendations specified of the Electricity Distributor in clause (v), above, have been accepted, or (y) as to the specific reasons for any non-acceptance; and

2. The amount of the distributions to be paid to or for the benefit of each Primary Beneficiary Payee that is resident in the Electricity Distributor's service area or region.

viii. With respect to each Primary Beneficiary resident in a Electricity Distributor's service area or region that is confirmed as a Primary Beneficiary Payee, the Electricity Distributor would provide the Trustee written confirmation as to:

1. The identity of such Primary Beneficiary Payee; and

2. The amount of the distribution paid to or for the benefit of such Primary Beneficiary Payee.

ix. If the amount of a distribution to be made to a Primary Beneficiary Payee is based on the estimated costs to be incurred by or on behalf of such Primary Beneficiary and, prior to making the distribution to the Primary Beneficiary Payee, the Electricity Distributor determines that the actual costs (including any applicable taxes but excluding any amount payable to the Electricity Distributor by or on behalf of the Primary Beneficiary) incurred or to be incurred by or on behalf of such Primary Beneficiary in respect of Eligible Measures applied or to be applied in respect of the Primary Beneficiary's Ontario residence has or would be less than such estimated costs, then the amount to be distributed to the Primary Beneficiary shall be based on such actual costs.

b. **Making of Distributions to Primary Beneficiaries**

i. It is expected that promptly after the Trustee confirms the identity of a Primary Beneficiary Payee resident in an Electricity Distributor's service area or region and the amount of the distribution to be paid to or for the benefit of such Primary Beneficiary Payee, the Trustee would arrange for payment to or on the direction of the Electricity Distributor of an amount equal to the amount of such distribution.

ii. It is expected that promptly upon receipt of funds in respect of a distribution to be made to a Primary Beneficiary Payee, the Electricity Distributor would arrange for payment of the full amount of such distribution to or for the benefit of the Primary Beneficiary Payee (including by direct payment to a third party of, or as a reimbursement or rebate of, the costs of applicable Eligible Measures installed at the residence of and for the benefit of the Primary Beneficiary Payee), without reduction or set-off by the Electricity Distributor.

iii. If the amount paid to an Electricity Distributor in respect of a distribution to be made to a Primary Beneficiary exceeds the actual amount of the

distribution made to or on behalf of the Primary Beneficiary, it is expected that the Trustee would require Electricity Distributor to return such excess to the Trustee, whereupon the proceeds of such returned amount shall continue to form part of the Assets.

c. **Establishment of Operational, Administrative, Record-Keeping and Other Systems and Policies by Electricity Distributors to facilitate the Program**

i. It is expected that the Electricity Distributor would establish such operational, administrative, record-keeping and other systems and policies as are necessary to facilitate the Program and perform its duties under the Implementation Agreement, including systems or policies to: identify Primary Beneficiary Payees; comply with applicable privacy and regulatory laws; communicate with Primary Beneficiaries on behalf of the Trust; assess Eligible Measures; determine the Local Funding Estimate; monitor its recommendations to the Trustee against its Maximum Electricity Distributor Allocation and the Maximum Primary Beneficiary Amount; receive funds from the Trust in respect of distributions to the Primary Beneficiary Payees and transfer such funds to the appropriate recipients for the benefit of the Primary Beneficiary Payees; preparation and timely delivery to Primary Beneficiary Payees of such documents as are required by the *Income Tax Act* (Canada); and create and maintain records in respect of the foregoing.

ii. The Electricity Distributor would set up a separate bank account for the purpose of receiving funds from the Trust in respect of distributions to the Primary Beneficiary Payees and the transfer of such funds to the appropriate recipients for the benefit of the Primary Beneficiary Payees.

d. **Reporting, Record-Keeping, Inspection and Disclosure and Compliance Matters**

i. The Electricity Distributor would provide record-keeping, clerical and bookkeeping services relating to all matters relating to its recommendations and the performance of its other duties and obligations under its Implementation Agreement.

ii. The Electricity Distributor would keep and maintain all financial records and non-financial documents and records relating to the provision of services under its Implementation Agreement.

iii. The Electricity Distributor would provide to the Trustee quarterly and annual reports ("**Reports**") for the duration of its Implementation Agreement. Such Reports would set out, among other things, the amounts of the distributions paid to or for the benefit of applicable Primary Beneficiary Payees, the average distribution amount per such Primary Beneficiary Payee, the Eligible Measures for which distributions have been made, and the uptake of energy efficiency measures.

iv. The Electricity Distributor would agree to provide to the Trustee such information as is necessary for the Trustee to (v) comply with applicable law;

(w) prepare financial statements for the Trust; (x) prepare and submit such documents as are required under the *Income Tax Act* (Canada); (y) comply with the Trust's applicable obligations under the Transfer Payment Agreement; and (z) such other matters as the Trustee reasonably requests.

v. The Trustee, its authorized representatives or an independent auditor would be permitted to, at its own expense, on twenty-four hours' notice to the Electricity Distributor and during normal business hours, inspect the records of and information respecting the Electricity Distributor to confirm its compliance with the Implementation Agreement, including regarding its processes for recommending the Primary Beneficiary Payees and their respective distribution amounts and regarding the delivery of Trust funds on behalf of the Trustee to or for the benefit of the Primary Beneficiary Payees.

e. **Standard of Care**

i. The Electricity Distributor would be required to agree to perform its duties provided under the Implementation Agreement exercising the degree of care, diligence and skill that a reasonably prudent Person would exercise in comparable circumstances.

ii. In performing its duties under the Implementation Agreement (including the recommending of Primary Beneficiary Payees to the Trustee), the Electricity Distributor would be required to agree to seek to avoid actual, potential or perceived conflicts of interest.

iii. The Electricity Distributor would be required to agree that it would not, in performing its obligations under the Implementation Agreement, take any action which it knows or ought reasonably to know would cause the Trustee or the Trust to be in violation of any law, rule or regulation applicable to it.

f. **Expenses**

The Electricity Distributor would be eligible to receive reasonable compensation and reimbursement of its actual out-of-pocket costs associated with the performance of its duties and obligations under the Implementation Agreement, subject to compliance with requirements substantially equivalent to the Province's Travel, Meal and Hospitality Expenses Directive. Such compensation amounts and reimbursement entitlements would be specified in the Implementation Agreement.

g. **Representations**

The Electricity Distributor would make customary representations to the Trust regarding, among other things, its legal capacity; authorization; non-contravention of law or material contract to which it is a party; and the enforceability of the Implementation Agreement.

h. **Indemnification**

The Electricity Distributor would be required to agree to provide customary indemnities to the Trust and the Trustee from and against claims, damages and liabilities which the Trust or Trustee may suffer or incur as the result of any breach of the Agreement by the Electricity Distributor or its representatives.

(b) ***Meetings.*** Subject to the Board of Trustees' discretion to make such rules and procedures that they may deem desirable, meetings of the Board of Trustees may be held at such time and place as the trustee members of the Board of Trustees may agree upon or as they may fix by

resolution for the purpose or if the meeting is called as hereinafter mentioned then at such time as may be designated in the notice calling the meeting. A meeting of the Board of Trustees may be called at any time by any two members of the Board of Trustees by two Business Days' notice given to the members of the Board of Trustees. No notice of any Board of Trustees' meeting shall be necessary when a quorum is present if those comprising the quorum consent to the transaction of the affairs of the Trust and the absent trustee or trustees, if any, either before or after the meeting shall waive in writing notice of the meeting. Meetings of the Board of Trustees may be conducted in person, by telephone, or in such other manner as determined by the Board of Trustees. The Board of Trustees may elect a Chairperson.

(c) ***Quorum.*** At any meeting of the Board of Trustees, a majority of the voting members of the Board of Trustees shall be a quorum irrespective of the number of members in office. The decision of the majority of the voting members where quorum exists shall govern and shall be binding for all purposes and shall be acted upon and carried out in the same manner and with the same effect as if all the voted members concurred therein; provided always that in the case of equality of votes the Chairperson, if any, shall not be entitled to cast a second or deciding vote.

(d) ***Power to Adopt Rules and Procedures.*** The Board of Trustees may make such rules and procedures not inconsistent herewith as it may deem desirable for the proper management and administration of the Trust and the discharge of the responsibilities of the Board of Trustees.

(e) ***Replacement of Members of the Board of Trustees***. The Board of Trustees shall have the power to replace any vacancy arising following the Original Trustee Replacement Date according to such rules and procedures as they deem appropriate subject to compliance with the Selection Factors specified in Trustee Replacement Annex and having regard for such considerations necessary to ensure that the composition of the Board of Trustees will be able to discharge its responsibilities in respect of the Declaration. If necessary, the Board of Trustees may fill any vacancy by application to the Courts of Ontario in the event of an unfilled vacancy.

(f) ***Decisions of the Board of Trustees.*** Decisions and actions of the Board of Trustees shall be made by voting, with each individual voting member having one vote. Subject to quorum requirements, a majority vote shall be determinative in respect of such decisions and actions. Subject to quorum requirements, any decision or action taken by the majority of voting members will represent the decision or action of the Trustee, and not any member of the Board of Trustees.

(g) ***Conflicts of Interest.*** With respect to any matter before the Board of Trustees, to the extent of a conflict of interest, whether actual, perceived or potential, involving a member of the Board of Trustees' personal interests and a matter concerning the Trust, such member shall abstain from voting on the matter or taking any other discretionary action on the matter. For the purposes of the foregoing, no member of the Board of Trustees shall be deemed to have a conflict by reason only that the member holds any office or position with an Electricity Distributor, social services agency or governmental or quasi-governmental agency or entity (such as the Independent Electricity System Operator); provided, however, that in relation to any decision of the Board of Trustees pertaining specifically to a particular Electricity Distributor, any member of the Board of Trustees who is a director, officer or employee of the Electricity Distributor would be expected to recuse himself or herself from participating in deliberations, discussions or voting in respect of such decision.

(h) ***Expense Reimbursements to Members of the Board of Trustees.*** Members of the Board of Trustees shall be entitled to reimbursement for and in respect of their out-of-pocket expenses reasonably incurred in discharging their duties and obligations as members of the Board of Trustees. Members of the Board of Trustees shall serve without compensation.

5.9 Confidentiality

Notwithstanding the resignation or removal and discharge from the trusts and powers reposed in and conferred on the Trustee by this Declaration, or the termination of this Declaration, the Trustee so resigning or removed shall continue to treat as confidential all information relating to the Trust, the Assets and the Beneficiaries and shall only be entitled to make disclosures concerning such information if disclosure is required in the performance of the functions of the resigning or removed Trustee or is ordered by a court of competent jurisdiction or is otherwise required by law. The Trustee shall not be responsible or liable to any Person for any loss or damage arising out of or in any way sustained or incurred in any way relating to any such required disclosure. The obligations arising under this section 5.9 shall survive the termination of the Trust.

5.10 Vesting in Successor Trustee

Any successor trustee (including any reconstituted Board of Trustees) shall automatically become vested with the Assets and with the same powers, rights, duties, responsibilities and trusts as if it, he or she had originally been named as Trustee under this Declaration, without the requirement of any further instrument or act or conveyance, and the Trustee ceasing to act shall execute all such transfers and other documents and do all such other acts or things as may be necessary or desirable to assign, transfer, deliver to, and vest in, the successor trustee, upon the trusts expressed in this Declaration, all the Assets and all the rights, powers and trusts of the Trustee ceasing to act. The expense of any act, document, deed or other instrument or thing required under this Section 5.10, including for greater certainty, outstanding fees and unreimbursed expenses of the Trustee (including any member of the Board of Trustees) ceasing to act, shall be satisfied from the Assets.

5.11 Execution of Instruments

The Trustee shall have the power to execute all deeds, transfers, agreements, promissory notes and other instruments on behalf of the Trust. Such power may be exercised by any one or more Administrative Services Agents acting in accordance with any delegated right to do so pursuant to an applicable Administrative Services Agreement or by any one or more Implementation Agents acting in accordance with any delegated right to do so pursuant to an applicable Implementation Agreement, and any such execution of instrument by an Administrative Services Agent, acting in such capacity as agent of the Trust pursuant to the terms and conditions of an Administrative Services Agreement or by an Implementation Agent acting in such capacity as agent of the Trust pursuant to the terms and conditions of an Implementation Agreement shall in each case be deemed to be a proper execution of such instrument by the Trustee and shall be binding for all purposes on the Trust.

5.12 Decisions by the Trustee

If there is more than one Trustee, decisions of the Trust may be made by a majority of Trustees eligible to vote on the applicable matter. Whenever the Trustees are unable to agree in relation to the commission or omission of any act or howsoever in the execution of the Trust, the decision of a majority of such Trustees shall prevail.

SECTION 6

Subject to the requirements of the Transfer Payment Agreement, the Trustee shall have the power in its sole and absolute discretion from time to time without the approval of any Beneficiary or any court to amend, vary, supplement, replace or restate this Declaration in its entirety or any portion thereof; provided, however that it is expected that any amendment shall be consistent with the intent of the principles set forth in the Principles Annex and with the intended scope and effect of the permitted delegations and activities of any Implementation Agent pursuant to the Permitted Delegations Annex. Without in any way limiting the foregoing, any such amendments, variations, supplements, replacements or restatements may:

(a) add provisions for the replacement of or appointment of additional trustees to act with the Original Trustee prior to the Original Trustee Replacement Date;

PRINCIPLES ANNEX

The Trustee shall have regard to, but shall not be specifically bound by, the following principles in applying its discretion in relation to the administration of the Trust:

1. Identification of Primary Beneficiary Payees

1.1 Except in exceptional circumstances, a Primary Beneficiary would not be expected to receive a benefit from the Trust unless at the time of consideration it satisfies, in addition to the requirements contemplated in the definition of "Primary Beneficiary", each of the following criteria (the "**Selection Factors**"):

(i) it has a participant agreement with an applicable Electricity Distributor to undertake measures (its "**Energy Plan**") to improve the electricity efficiency and/or promote the conservation of electricity at its Ontario residence;

(ii) its Energy Plan involves one or more Eligible Measures, as may be designated by the Trustee from time to time from;

(iii) it confirms that:

1. the primary purpose of its Energy Plan is the conservation and efficient use by the Primary Beneficiary of electricity, and is not for the purposes of the Primary Beneficiary making a profit;

2. it would otherwise not have the financial resources to undertake the Eligible Measures included in its Energy Plan; and

3. it would otherwise not be eligible to receive amounts in respect of the Eligible Measures as a HAP Eligible Person;

(iv) it has demonstrated a need for financial assistance on the basis that its periodic electricity bills represent a financial burden, relative to its available financial resources; and

(v) such other criteria as the Trustee may determine, including based on the recommendations of Electricity Distributors or other knowledgeable Persons made on the basis and having regard to the delegations contemplated by the Permitted Delegations Annex or any applicable Implementation Agreement.

1.2 It is recognized that, in furthering the Purpose, an efficient basis upon which to allocate funds to the Primary Beneficiaries across different areas and regions within Ontario may be based on the areas and regions serviced by the Electricity Distributors operating within Ontario.

1.3 It would not be contrary to the Purposes if funds are made available by the Trustee to the Primary Beneficiaries unequally across different areas and regions within Ontario, and it is expected that in making such an unequal division it would be appropriate to have regard to:

(i) broad economic parameters of economic activity and the specific financial resources of the residents of the areas and regions, in each case as an indication of the relative need of such residents across the areas and regions;

(ii) electricity use and efficiency levels of residential electricity customers across the areas and regions;

(iii) specific regional indicators of economic weakness and need; and

(iv) such other factors as the Trustee may determine are relevant, including based on the submissions, advice and recommendations of Electricity Distributors or other knowledgeable Persons made on the basis and having regard to the delegations contemplated by the Permitted Delegations Annex or any applicable implementation Agreement.

1.4 It is recognized that, in furthering the Purpose, the designated Electricity Distributor for an area or region in which a Primary Beneficiary resides would be expected to:

(i) be a reliable source for the purpose of assessing and confirming whether the Primary Beneficiary satisfies the Selection Factors;

(ii) be an efficient intermediary for the purpose of communicating with the Primary Beneficiary, including with respect to matters such as regarding the availability, terms, conditions and intended purposes of Program;

(iii) be able to facilitate an efficient payment of distribution determined to be made to or on behalf of the Primary Beneficiary, having regard to the Electricity Distributor's established practices, procedures and systems for dealing with its customers; and

(iv) have established contractual arrangements with the Primary Beneficiary that may apply to the protection and confidentiality of information provided by or respecting the Primary Beneficiary, which information may be useful in the consideration by the Electricity Distributor in its assessment of whether the Primary Beneficiary satisfies the Selection Factors, which information may not otherwise be available or readily accessible or verifiable by the Trustee.

1.5 It is recognized that, in furthering the Purpose, the Electricity Distributor for an area or region in which a Primary Beneficiary resides will have market and utilization information that may be useful in assessing the relative needs of Primary Beneficiaries within its area or region. Such information is expected to be relevant in assessing the extent to which one such Primary Beneficiary's financial needs and the merits of its Energy Plan are greater or more compelling than those of another such Primary Beneficiary, which comparison may be relevant to the extent that the funds allocable to the Primary Beneficiaries resident in the area or region are otherwise insufficient to meet the requests for funding by all such Primary Beneficiaries.

1.6 Accordingly, it is recognized that, in furthering the Purpose, it is consistent with the Purpose that the recommendations of Electricity Distributors be utilized and relied upon

by the Trustee to guide the process of identifying particular Primary Beneficiaries in making distributions to the Primary Beneficiaries.

1.7 If an Electricity Distributor for a particular area or region is unable or unwilling to assess or confirm the application of the Selection Factors to Primary Beneficiaries residing in the area or region or to make recommendations in relation to such matters, one or more of the following may provide a suitable alternative source of information and for information gathering, assessment and confirmation purposes in relation to such area or region:

(i) other Electricity Distributors operating in adjacent or other areas or regions in Ontario;

(ii) the Ontario Energy Board;

(iii) the Independent Electricity System Operator; and

(iv) anyone else having relevant expertise and access to information regarding the electricity market of the Province, in each case as may be considered relevant by the Trustee.

1.8 To the extent that privacy law or other legal requirements limit an Electricity Distributor from providing or making available specific information respecting the application of the Selection Factors to a particular Primary Beneficiary or group of Primary Beneficiaries, it is recognized that, in furthering the Purpose, it may be appropriate to redact or make generic affected information regarding such Primary Beneficiary in connection with the identification and confirmation of a Primary Beneficiary's eligibility and participation in the Program. If such limitations or restrictions would limit an Electricity Distributor from providing or confirming the name of a particular Primary Beneficiary to the Trustee, then it should be sufficient that such information may be obtained or disseminated on a confidential basis if and when required by the Trustee for the proper administration of the Trust and on that basis such impediments should not disqualify a Primary Beneficiary from participating in the benefits of the Program, provided that the confidential record-keeping of the Electricity Distributor would be available in connection with the application of any applicable legal process predicated on the identification of such Primary Beneficiary for the purposes of substantiating its rights as a Primary Beneficiary of the Trust or as to the validity or subsistence of the Trust.

2. Eligible Measures

2.1 It is expected that the Trust will identify eligible measures that, taking into consideration the principles set forth in the Principles Annex, have regard to the following (the "**Measures Factors**"):

(i) is the measure generally expected to result in reduced electricity consumption by a Primary Beneficiary if properly installed and used;

(ii) is the measure recognized under another Provincial program as being appropriate for achieving electricity conservation among a population analogous to the Primary Beneficiaries;

(iii) does the measure present any unacceptable health or safety considerations, either with respect to the Primary Beneficiary, a party providing or installing the measure, or the physical environment;

(iv) is the measure broadly available to residents across different areas and regions of the Province; or

(v) is the measure a requirement or precursor to another measure, the other measure being one which meets any of the other Measures Factors.

2.2 In identifying and applying the Measures Factors, Electricity Distributors would be expected to have expertise in assessing the suitability of efficiency and conservation measures in their respective areas and regions, which may differ across areas and regions across the Province based on factors (among other things) such as the climate, geography, density, electricity infrastructure, residential structures, and electricity use rates applicable within such areas or regions.

2.3 The measures specified in Schedule A to this Principles Annex may initially be considered to be consistent with the Measures Factors (subject to change as contemplated under the Permitted Delegations Annex).

3. Promotion of the Program

3.1 It is expected that the Trustee will undertake or engage others to undertake diligent efforts to promote the availability, terms and benefits of the Program to Primary ~~and Residual~~ Beneficiaries, including by establishing consistent communications through the Electricity Distributors.

3.2 It is expected that the Trustee will acknowledge the financial support of the Province in connection with the establishment and the funding for the Program, including in any external communications to or marketing directed at the Electricity Distributors and the Primary and Residual Beneficiaries. In its delegation of any duties or powers to the Electricity Distributors through Implementation Agreements it is expected that Electricity Distributors will acknowledge the financial support of the Province in connection with the program including in any communications or marketing to Primary Beneficiaries.

4. Conduct of the Trust and the Program

4.1 It is expected that administrative expenses of the Board of Trustees and its members, including any expenses relating to the Trust, to the establishment of the Trust and any expenses related to the implementation and operation of the Program, including by or through Electricity Distributors and other relevant entities, will be recognized and subject to reimbursement on a basis that is substantially consistent with the accountability provisions contemplated in the Transfer Payment Agreement and the principles in the

Province's Travel, Meal and Hospitality Expenses Directive, ~~the current form of which attached~~ as set out in Schedule B to this Principles Annex.

4.2 The Trustee is expected to conduct its activities in a manner that complies in all material respects with the Transfer Payment Agreement, including to:

(i) act prudently and in furtherance of the Purpose;

(ii) report not less frequently than annually the results of its activities for information purposes to the Province in connection with the Program;

(iii) comply with the Province's request for any independent verification or audit if determined to be necessary or appropriate by the Province;

(iv) return Assets that have not been distributed if it is determined that the Trustee has breached its Standard of Care in discharging its material duties under the Declaration, and has not cured such material breach despite having been given a reasonable opportunity by the Province to do so in light of the circumstances of such material breach, with the result that all or a significant part of the Assets have not been or are not being applied and distributed in furtherance of the Purpose or are being applied and distributed in a manner that is directly contrary or without regard to the Purpose.

4.3 Electricity Distributors are not intended to directly profit from distributions of funds made from the Trust, although it is recognized that the objectives of electricity efficiency and conservation of Primary Beneficiaries located in the service area or region of an Electricity Distributor, and the cost savings and improved credit worthiness of such Primary Beneficiaries, may be financially beneficial to the Electricity Distributor.

4.4 Distributions from the Trust are intended to allow receiving Primary Beneficiaries to undertake Eligible Measures at no or minimal personal cost.

4.5 Without in any way limiting the discretion of the Board of Trustees to extend the period during which the benefits of the Program may be available to the Primary Beneficiaries, up to and including the Final Distribution Date, it is expected that the Trust Assets would be distributed to Primary Beneficiaries during the period from the Original Trustee Replacement Date to April 30, 2019.

PERMITTED DELEGATION ANNEX

1. Under section 4.2(g) of the Declaration, the Trustee has the power to: (a) appoint, employ or retain Implementation Agents for the purpose of discharging its duties and obligations under the Declaration; and (b) enter into, perform, enforce and amend Implementation Agreements.

2. In accordance with section 4.2(g) of the Declaration, consistent with the principles set forth in the Principles Annex, the Trustee or its agent will seek to enter into one or more Implementation Agreements with individual Electricity Distributors under which the Electricity Distributors will act as Implementation Agents to the Trustee. In this manner, the Trustee will delegate certain of its powers and duties to the Electricity Distributors.

3. Under section 5.1 of the Declaration, to the extent the Trustee has delegated any of its duties or powers, it shall be deemed to have satisfied the Standard of Care in respect of the subject matter of such delegation, subject to the Trustee's overall duty to exercise prudent oversight thereof. The Trustee is entitled to rely on an Electricity Distributor to discharge the duties delegated to it, as Implementation Agent, pursuant to an Implementation Agreement as described in this Annex.

4. Accordingly, and without limiting the Trustee's right to delegate under the Declaration and its other rights, powers and discretion as Trustee, the Trustee will be permitted to, and is expected to seek to, enter into Implementation Agreements with Electricity Distributors in order to further the Purpose. Without limiting the Trustee's discretion to negotiate and settle the terms and conditions of such Implementation Agreements, it is expected that such Implementation Agreements will include customary terms and conditions for an administrative services arrangement of this type and, in addition, would (subject to the acceptance and agreement of the applicable Electricity Distributor counterparty) address the following points in particular:

    a. **Identification of Applicable Primary Beneficiary Payees and Determination of Individual Distribution Amounts**

        i. Each Electricity Distributor would make an initial assessment of the financial needs of Primary Beneficiaries within its designated service area or region, having regard to the Selection Factors set forth in section 1.3 of the Principles Annex, together with applicable economic data, in order to prepare and provide to the Trustee an estimate of the number of Primary Beneficiaries who the Electricity Distributor reasonably expects would satisfy the Selection Factors.

        ii. Each Electricity Distributor would make an initial assessment of the measures it would recommend be included as Eligible Measures, having regard to the Measures Factors set forth in section 2.1 of the Principles Annex, in order to prepare and provide to the Trustee an estimate of the average cost per Primary Beneficiary Payee (as defined below) of such Eligible Measures that the Electricity Distributor reasonably expects would apply in respect of Primary Beneficiaries resident in its service area or region.

iii. Based on the product of (i) and (ii), above, and such other considerations as it considers to be directly relevant, each Electricity Distributor would make a written recommendation to the Trustee regarding the aggregate funding amount that the Electricity Distributor anticipates would be utilized under the Program by the Primary Beneficiaries resident in its service area or region (the "**Local Funding Estimate**"). Such recommendation would be accompanied, when submitted to the Trustee, by a detailed explanation regarding the assumptions, financial parameters, suitability considerations and other information underlying the Local Funding Estimate (including the type of information contemplated by the Selections Factors and the Measures Factors, which would be relied upon by the Trustee in its assessment regarding the allocation of available funding to or for the benefit of the Primary Beneficiaries across the specified areas and regions of Ontario.

iv. The Trustee would inform the Electricity Distributor regarding the aggregate of the amount determined by the Trustee to be made available under the Program for Primary Beneficiaries in the Electricity Distributor's designated service area or region (for each Electricity Distributor, its "**Maximum Electricity Distributor Allocation**") and as to any maximum amount that may be paid to or for the benefit of any single Primary Beneficiary located in the servicer area or region of the Electricity Distributor (the "**Maximum Primary Beneficiary Amount**"). The Maximum Electricity Distributor Allocation and Maximum Primary Beneficiary Amount may vary between areas and regions, among the Primary Beneficiaries within such areas and regions, and may be increased by the Trustee from time to time in its discretion.

v. Each Electricity Distributor would apply the principles set forth under "Identification of Primary Beneficiary Payees" in the Principles Annex to identify and make recommendations to the Trustee regarding the amount of funds (if any) to be distributed to or for the benefit of Primary Beneficiaries resident within its service area or region from time to time (the "**Primary Beneficiary Payees**").

vi. Each Electricity Distributor would ensure that the aggregate of the amounts it recommends be distributed to or for the benefit of Primary Beneficiary Payees from time to time does not exceed (1) its Maximum Electricity Distributor Allocation and (2) for any single Primary Beneficiary located in the service area or region of the Electricity Distributor, the lesser of (x) the applicable Maximum Primary Beneficiary Amount and (y) the estimated costs (including any applicable taxes, but excluding any amount payable to the Electricity Distributor by or on behalf of the Primary Beneficiary) to be incurred by or on behalf of such Primary Beneficiary (whether or not such costs have been paid or remain outstanding) in respect of Eligible Measures applied or to be applied in respect of the Primary Beneficiary's Ontario residence.

vii. The Trustee would provide written confirmation to each Electricity Distributor:

1. Either (x) that the recommendations specified of the Electricity Distributor in clause (v), above, have been accepted, or (y) as to the specific reasons for any non-acceptance; and

2. The amount of the distributions to be paid to or for the benefit of each Primary Beneficiary Payee that is resident in the Electricity Distributor's service area or region.

viii. With respect to each Primary Beneficiary resident in a Electricity Distributor's service area or region that is confirmed as a Primary Beneficiary Payee, the Electricity Distributor would provide the Trustee written confirmation as to:

1. The identity of such Primary Beneficiary Payee; and

2. The amount of the distribution paid to or for the benefit of such Primary Beneficiary Payee.

ix. If the amount of a distribution to be made to a Primary Beneficiary Payee is based on the estimated costs to be incurred by or on behalf of such Primary Beneficiary and, prior to making the distribution to the Primary Beneficiary Payee, the Electricity Distributor determines that the actual costs (including any applicable taxes but excluding any amount payable to the Electricity Distributor by or on behalf of the Primary Beneficiary) incurred or to be incurred by or on behalf of such Primary Beneficiary in respect of Eligible Measures applied or to be applied in respect of the Primary Beneficiary's Ontario residence has or would be less than such estimated costs, then the amount to be distributed to the Primary Beneficiary shall be based on such actual costs.

b. **Making of Distributions to Primary Beneficiaries**

i. It is expected that promptly after the Trustee confirms the identity of a Primary Beneficiary Payee resident in an Electricity Distributor's service area or region and the amount of the distribution to be paid to or for the benefit of such Primary Beneficiary Payee, the Trustee would arrange for payment to or on the direction of the Electricity Distributor of an amount equal to the amount of such distribution.

ii. It is expected that promptly upon receipt of funds in respect of a distribution to be made to a Primary Beneficiary Payee, the Electricity Distributor would arrange for payment of the full amount of such distribution to or for the benefit of the Primary Beneficiary Payee (including by direct payment to a third party of, or as a reimbursement or rebate of, the costs of applicable Eligible Measures installed at the residence of and for the benefit of the Primary Beneficiary Payee), without reduction or set-off by the Electricity Distributor.

iii. If the amount paid to an Electricity Distributor in respect of a distribution to be made to a Primary Beneficiary exceeds the actual amount of the distribution made to or on behalf of the Primary Beneficiary, it is expected that the Trustee would require Electricity Distributor to return such excess to the Trustee, whereupon the proceeds of such returned amount shall continue to form part of the Assets.

c. **Establishment of Operational, Administrative, Record-Keeping and Other Systems and Policies by Electricity Distributors to facilitate the Program**

i. It is expected that the Electricity Distributor would establish such operational, administrative, record-keeping and other systems and policies as are necessary to facilitate the Program and perform its duties under the Implementation Agreement, including systems or policies to: identify Primary Beneficiary Payees; comply with applicable privacy and regulatory laws; communicate with Primary Beneficiaries on behalf of the Trust; assess Eligible Measures; determine the Local Funding Estimate; monitor its recommendations to the Trustee against its Maximum Electricity Distributor Allocation and the Maximum Primary Beneficiary Amount; receive funds from the Trust in respect of distributions to the Primary Beneficiary Payees and transfer such funds to the appropriate recipients for the benefit of the Primary Beneficiary Payees; preparation and timely delivery to Primary Beneficiary Payees of such documents as are required by the *Income Tax Act* (Canada); and create and maintain records in respect of the foregoing.

ii. The Electricity Distributor would set up a separate bank account for the purpose of receiving funds from the Trust in respect of distributions to the Primary Beneficiary Payees and the transfer of such funds to the appropriate recipients for the benefit of the Primary Beneficiary Payees.

d. **Reporting, Record-Keeping, Inspection and Disclosure and Compliance Matters**

i. The Electricity Distributor would provide record-keeping, clerical and bookkeeping services relating to all matters relating to its recommendations and the performance of its other duties and obligations under its Implementation Agreement.

ii. The Electricity Distributor would keep and maintain all financial records and non-financial documents and records relating to the provision of services under its Implementation Agreement.

iii. The Electricity Distributor would provide to the Trustee quarterly and annual reports ("**Reports**") for the duration of its Implementation Agreement. Such Reports would set out, among other things, the amounts of the distributions paid to or for the benefit of applicable Primary Beneficiary Payees, the average distribution amount per such Primary Beneficiary Payee, the Eligible Measures for which distributions have been made, and the uptake of energy efficiency measures.

iv. The Electricity Distributor would agree to provide to the Trustee such information as is necessary for the Trustee to (v) comply with applicable law; (w) prepare financial statements for the Trust; (x) prepare and submit such documents as are required under the *Income Tax Act* (Canada); (y) comply with the Trust's applicable obligations under the Transfer Payment Agreement; and (z) such other matters as the Trustee reasonably requests.

v. The Trustee, its authorized representatives or an independent auditor would be permitted to, at its own expense, on twenty-four hours' notice to the Electricity Distributor and during normal business hours, inspect the records of and information respecting the Electricity Distributor to confirm its compliance with the Implementation Agreement, including regarding its processes for recommending the Primary Beneficiary Payees and their respective distribution amounts and regarding the delivery of Trust funds on behalf of the Trustee to or for the benefit of the Primary Beneficiary Payees.

e. **Standard of Care**

i. The Electricity Distributor would be required to agree to perform its duties provided under the Implementation Agreement exercising the degree of care, diligence and skill that a reasonably prudent Person would exercise in comparable circumstances.

ii. In performing its duties under the Implementation Agreement (including the recommending of Primary Beneficiary Payees to the Trustee), the Electricity Distributor would be required to agree to seek to avoid actual, potential or perceived conflicts of interest.

iii. The Electricity Distributor would be required to agree that it would not, in performing its obligations under the Implementation Agreement, take any action which it knows or ought reasonably to know would cause the Trustee or the Trust to be in violation of any law, rule or regulation applicable to it.

f. **Expenses**

The Electricity Distributor would be eligible to receive reasonable compensation and reimbursement of its actual out-of-pocket costs associated with the performance of its duties and obligations under the Implementation Agreement, subject to compliance with requirements substantially equivalent to the Province's Travel, Meal and Hospitality Expenses Directive. Such compensation amounts and reimbursement entitlements would be specified in the Implementation Agreement.

g. **Representations**

The Electricity Distributor would make customary representations to the Trust regarding, among other things, its legal capacity; authorization; non-contravention of law or material contract to which it is a party; and the enforceability of the Implementation Agreement.

h. **Indemnification**

The Electricity Distributor would be required to agree to provide customary indemnities to the Trust and the Trustee from and against claims, damages and liabilities which the Trust or Trustee may suffer or incur as the result of any breach of the Agreement by the Electricity Distributor or its representatives.

ANNEX A

Principles

The Trustee shall have regard to, but shall not be specifically bound by, the following principles in applying its discretion in relation to the administration of the Trust:

4. Identification of Primary Beneficiary Payees

4.1 Except in exceptional circumstances, a Primary Beneficiary would not be expected to receive a benefit from the Trust unless at the time of consideration it satisfies, in addition to the requirements contemplated in the definition of "Primary Beneficiary", each of the following criteria (the "**Selection Factors**"):

(i) it has a participant agreement with an applicable Electricity Distributor to undertake measures (its "**Energy Plan**") to improve the electricity efficiency and/or promote the conservation of electricity at its Ontario residence;

(ii) its Energy Plan involves one or more Eligible Measures, as may be designated by the Trustee from time to time from;

(iii) it confirms that:

1. the primary purpose of its Energy Plan is the conservation and efficient use by the Primary Beneficiary of electricity, and is not for the purposes of the Primary Beneficiary making a profit;

2. it would otherwise not have the financial resources to undertake the Eligible Measures included in its Energy Plan; and

3. it would otherwise not be eligible to receive amounts in respect of the Eligible Measures as a HAP Eligible Person;

(iv) it has demonstrated a need for financial assistance on the basis that its periodic electricity bills represent a financial burden, relative to its available financial resources; and

(v) such other criteria as the Trustee may determine, including based on the recommendations of Electricity Distributors or other knowledgeable Persons made on the basis and having regard to the delegations contemplated by the Permitted Delegations Annex or any applicable Implementation Agreement.

4.2 It is recognized that, in furthering the Purpose, an efficient basis upon which to allocate funds to the Primary Beneficiaries across different areas and regions within Ontario may be based on the areas and regions serviced by the Electricity Distributors operating within Ontario.

4.3 It would not be contrary to the Purposes if funds are made available by the Trustee to the Primary Beneficiaries unequally across different areas and regions within Ontario, and it is expected that in making such an unequal division it would be appropriate to have regard to:

(i) broad economic parameters of economic activity and the specific financial resources of the residents of the areas and regions, in each case as an indication of the relative need of such residents across the areas and regions;

(ii) electricity use and efficiency levels of residential electricity customers across the areas and regions;

(iii) specific regional indicators of economic weakness and need; and

(iv) such other factors as the Trustee may determine are relevant, including based on the submissions, advice and recommendations of Electricity Distributors or other knowledgeable Persons made on the basis and having regard to the delegations contemplated by the Permitted Delegations Annex or any applicable implementation Agreement.

4.4 It is recognized that, in furthering the Purpose, the designated Electricity Distributor for an area or region in which a Primary Beneficiary resides would be expected to:

(i) be a reliable source for the purpose of assessing and confirming whether the Primary Beneficiary satisfies the Selection Factors;

(ii) be an efficient intermediary for the purpose of communicating with the Primary Beneficiary, including with respect to matters such as regarding the availability, terms, conditions and intended purposes of Program;

(iii) be able to facilitate an efficient payment of distribution determined to be made to or on behalf of the Primary Beneficiary, having regard to the Electricity Distributor's established practices, procedures and systems for dealing with its customers; and

(iv) have established contractual arrangements with the Primary Beneficiary that may apply to the protection and confidentiality of information provided by or respecting the Primary Beneficiary, which information may be useful in the consideration by the Electricity Distributor in its assessment of whether the Primary Beneficiary satisfies the Selection Factors, which information may not otherwise be available or readily accessible or verifiable by the Trustee.

4.5 It is recognized that, in furthering the Purpose, the Electricity Distributor for an area or region in which a Primary Beneficiary resides will have market and utilization information that may be useful in assessing the relative needs of Primary Beneficiaries within its area or region. Such information is expected to be relevant in assessing the extent to which one such Primary Beneficiary's financial needs and the merits of its Energy Plan are greater or more compelling than those of another such Primary Beneficiary, which comparison may be relevant to the extent that the funds allocable to the Primary Beneficiaries resident in the area or region are otherwise insufficient to meet the requests for funding by all such Primary Beneficiaries.

4.6 Accordingly, it is recognized that, in furthering the Purpose, it is consistent with the Purpose that the recommendations of Electricity Distributors be utilized and relied upon by the Trustee to guide the process of identifying particular Primary Beneficiaries in making distributions to the Primary Beneficiaries.

4.7 If an Electricity Distributor for a particular area or region is unable or unwilling to assess or confirm the application of the Selection Factors to Primary Beneficiaries residing in the area or region or to make recommendations in relation to such matters, one or more of the following may provide a suitable alternative source of information and for information gathering, assessment and confirmation purposes in relation to such area or region:

(i) other Electricity Distributors operating in adjacent or other areas or regions in Ontario;

(ii) the Ontario Energy Board;

(iii) the Independent Electricity System Operator; and

(iv) anyone else having relevant expertise and access to information regarding the electricity market of the Province, in each case as may be considered relevant by the Trustee.

4.8 To the extent that privacy law or other legal requirements limit an Electricity Distributor from providing or making available specific information respecting the application of the Selection Factors to a particular Primary Beneficiary or group of Primary Beneficiaries, it is recognized that, in furthering the Purpose, it may be appropriate to redact or make generic affected information regarding such Primary Beneficiary in connection with the identification and confirmation of a Primary Beneficiary's eligibility and participation in the Program. If such limitations or restrictions would limit an Electricity Distributor from providing or confirming the name of a particular Primary Beneficiary to the Trustee, then it should be sufficient that such information may be obtained or disseminated on a confidential basis if and when required by the Trustee for the proper administration of the Trust and on that basis such impediments should not disqualify a Primary Beneficiary from participating in the benefits of the Program, provided that the confidential record-keeping of the Electricity Distributor would be available in connection with the application of any applicable legal process predicated on the identification of such Primary Beneficiary for the purposes of substantiating its rights as a Primary Beneficiary of the Trust or as to the validity or subsistence of the Trust.

5. Eligible Measures

5.1 It is expected that the Trust will identify eligible measures that, taking into consideration the principles set forth in the Principles Annex, have regard to the following (the "**Measures Factors**"):

(i) is the measure generally expected to result in reduced electricity consumption by a Primary Beneficiary if properly installed and used;

(ii) is the measure recognized under another Provincial program as being appropriate for achieving electricity conservation among a population analogous to the Primary Beneficiaries;

(iii) does the measure present any unacceptable health or safety considerations, either with respect to the Primary Beneficiary, a party providing or installing the measure, or the physical environment;

(iv) is the measure broadly available to residents across different areas and regions of the Province; or

(v) is the measure a requirement or precursor to another measure, the other measure being one which meets any of the other Measures Factors.

5.2 In identifying and applying the Measures Factors, Electricity Distributors would be expected to have expertise in assessing the suitability of efficiency and conservation measures in their respective areas and regions, which may differ across areas and regions across the Province based on factors (among other things) such as the climate, geography, density, electricity infrastructure, residential structures, and electricity use rates applicable within such areas or regions.

5.3 The measures specified in Schedule A to this Principles Annex may initially be considered to be consistent with the Measures Factors (subject to change as contemplated under the Permitted Delegations Annex).

6. Promotion of the Program

6.1 It is expected that the Trustee will undertake or engage others to undertake diligent efforts to promote the availability, terms and benefits of the Program to Primary Beneficiaries, including by establishing consistent communications through the Electricity Distributors.

6.2 It is expected that the Trustee will acknowledge the financial support of the Province in connection with the establishment and the funding for the Program, including in any external communications to or marketing directed at the Electricity Distributors and the Primary and Residual Beneficiaries. In its delegation of any duties or powers to the Electricity Distributors through Implementation Agreements it is expected that Electricity Distributors will acknowledge the financial support of the Province in connection with the program including in any communications or marketing to Primary Beneficiaries.

7. Conduct of the Trust and the Program

7.1 It is expected that administrative expenses of the Board of Trustees and its members, including any expenses relating to the Trust, to the establishment of the Trust and any expenses related to the implementation and operation of the Program, including by or through Electricity Distributors and other relevant entities, will be recognized and subject to reimbursement on a basis that is substantially consistent with the accountability provisions contemplated in the Transfer Payment Agreement and the principles in the Province's Travel, Meal and Hospitality Expenses Directive, as set out in Schedule B to this Principles Annex.

7.2 The Trustee is expected to conduct its activities in a manner that complies in all material respects with the Transfer Payment Agreement, including to:

(i) act prudently and in furtherance of the Purpose;

(ii) report not less frequently than annually the results of its activities for information purposes to the Province in connection with the Program;

(iii) comply with the Province's request for any independent verification or audit if determined to be necessary or appropriate by the Province;

(iv) return Assets that have not been distributed if it is determined that the Trustee has breached its Standard of Care in discharging its material duties under the Declaration, and has not cured such material breach despite having been given a reasonable opportunity by the Province to do so in light of the circumstances of such material breach, with the result that all or a significant part of the Assets have not been or are not being applied and distributed in furtherance of the Purpose or are being applied and distributed in a manner that is directly contrary or without regard to the Purpose.

7.3 Electricity Distributors are not intended to directly profit from distributions of funds made from the Trust, although it is recognized that the objectives of electricity efficiency and conservation of Primary Beneficiaries located in the service area or region of an Electricity Distributor, and the cost savings and improved credit worthiness of such Primary Beneficiaries, may be financially beneficial to the Electricity Distributor.

7.4 Distributions from the Trust are intended to allow receiving Primary Beneficiaries to undertake Eligible Measures at no or minimal personal cost.

7.5 Without in any way limiting the discretion of the Board of Trustees to extend the period during which the benefits of the Program may be available to the Primary Beneficiaries, up to and including the Final Distribution Date, it is expected that the Trust Assets would be distributed to

Primary Beneficiaries during the period from the Original Trustee Replacement Date to April 30, 2019.

ANNEX A

Principles

~~[Insert from Principles Annex once settled in the Declaration of Trust]~~

The Trustee shall have regard to, but shall not be specifically bound by, the following principles in applying its discretion in relation to the administration of the Trust:

4. Identification of Primary Beneficiary Payees

4.1 Except in exceptional circumstances, a Primary Beneficiary would not be expected to receive a benefit from the Trust unless at the time of consideration it satisfies, in addition to the requirements contemplated in the definition of "Primary Beneficiary", each of the following criteria (the "**Selection Factors**"):

(i) it has a participant agreement with an applicable Electricity Distributor to undertake measures (its "**Energy Plan**") to improve the electricity efficiency and/or promote the conservation of electricity at its Ontario residence;

(ii) its Energy Plan involves one or more Eligible Measures, as may be designated by the Trustee from time to time from;

(iii) it confirms that:

1. the primary purpose of its Energy Plan is the conservation and efficient use by the Primary Beneficiary of electricity, and is not for the purposes of the Primary Beneficiary making a profit;

2. it would otherwise not have the financial resources to undertake the Eligible Measures included in its Energy Plan; and

3. it would otherwise not be eligible to receive amounts in respect of the Eligible Measures as a HAP Eligible Person;

(iv) it has demonstrated a need for financial assistance on the basis that its periodic electricity bills represent a financial burden, relative to its available financial resources; and

(v) such other criteria as the Trustee may determine, including based on the recommendations of Electricity Distributors or other knowledgeable Persons made on the basis and having regard to the delegations contemplated by the Permitted Delegations Annex or any applicable Implementation Agreement.

4.2 It is recognized that, in furthering the Purpose, an efficient basis upon which to allocate funds to the Primary Beneficiaries across different areas and regions within Ontario may be based on the areas and regions serviced by the Electricity Distributors operating within Ontario.

4.3 It would not be contrary to the Purposes if funds are made available by the Trustee to the Primary Beneficiaries unequally across different areas and regions within Ontario, and it is expected that in making such an unequal division it would be appropriate to have regard to:

(i) broad economic parameters of economic activity and the specific financial resources of the residents of the areas and regions, in each case as an indication of the relative need of such residents across the areas and regions;

(ii) electricity use and efficiency levels of residential electricity customers across the areas and regions;

(iii) specific regional indicators of economic weakness and need; and

(iv) such other factors as the Trustee may determine are relevant, including based on the submissions, advice and recommendations of Electricity Distributors or other knowledgeable Persons made on the basis and having regard to the delegations contemplated by the Permitted Delegations Annex or any applicable implementation Agreement.

4.4 It is recognized that, in furthering the Purpose, the designated Electricity Distributor for an area or region in which a Primary Beneficiary resides would be expected to:

(i) be a reliable source for the purpose of assessing and confirming whether the Primary Beneficiary satisfies the Selection Factors;

(ii) be an efficient intermediary for the purpose of communicating with the Primary Beneficiary, including with respect to matters such as regarding the availability, terms, conditions and intended purposes of Program;

(iii) be able to facilitate an efficient payment of distribution determined to be made to or on behalf of the Primary Beneficiary, having regard to the Electricity Distributor's established practices, procedures and systems for dealing with its customers; and

(iv) have established contractual arrangements with the Primary Beneficiary that may apply to the protection and confidentiality of information provided by or respecting the Primary Beneficiary, which information may be useful in the consideration by the Electricity Distributor in its assessment of whether the Primary Beneficiary satisfies the Selection Factors, which information may not otherwise be available or readily accessible or verifiable by the Trustee.

4.5 It is recognized that, in furthering the Purpose, the Electricity Distributor for an area or region in which a Primary Beneficiary resides will have market and utilization information that may be useful in assessing the relative needs of Primary Beneficiaries within its area or region. Such information is expected to be relevant in assessing the extent to which one such Primary Beneficiary's financial needs and the merits of its Energy Plan are greater or more compelling than those of another such Primary Beneficiary, which comparison may be relevant to the extent that the funds allocable to the Primary Beneficiaries resident in the area or region are otherwise insufficient to meet the requests for funding by all such Primary Beneficiaries.

4.6 Accordingly, it is recognized that, in furthering the Purpose, it is consistent with the Purpose that the recommendations of Electricity Distributors be utilized and relied upon by the Trustee to guide the process of identifying particular Primary Beneficiaries in making distributions to the Primary Beneficiaries.

4.7 If an Electricity Distributor for a particular area or region is unable or unwilling to assess or confirm the application of the Selection Factors to Primary Beneficiaries residing in the area or region or to make recommendations in relation to such matters, one or more of the following may provide a suitable alternative source of information and for information gathering, assessment and confirmation purposes in relation to such area or region:

(i) other Electricity Distributors operating in adjacent or other areas or regions in Ontario;

(ii) the Ontario Energy Board;

(iii) the Independent Electricity System Operator; and

(iv) anyone else having relevant expertise and access to information regarding the electricity market of the Province, in each case as may be considered relevant by the Trustee.

4.8 To the extent that privacy law or other legal requirements limit an Electricity Distributor from providing or making available specific information respecting the application of the Selection Factors to a particular Primary Beneficiary or group of Primary Beneficiaries, it is recognized that, in furthering the Purpose, it may be appropriate to redact or make generic affected information regarding such Primary Beneficiary in connection with the identification and confirmation of a Primary Beneficiary's eligibility and participation in the Program. If such limitations or restrictions would limit an Electricity Distributor from providing or confirming the name of a particular Primary Beneficiary to the Trustee, then it should be sufficient that such information may be obtained or disseminated on a confidential basis if and when required by the Trustee for the proper administration of the Trust and on that basis such impediments should not disqualify a Primary Beneficiary from participating in the benefits of the Program, provided that the confidential record-keeping of the Electricity Distributor would be available in connection with the application of any applicable legal process predicated on the identification of such Primary Beneficiary for the purposes of substantiating its rights as a Primary Beneficiary of the Trust or as to the validity or subsistence of the Trust.

5. Eligible Measures

5.1 It is expected that the Trust will identify eligible measures that, taking into consideration the principles set forth in the Principles Annex, have regard to the following (the "**Measures Factors**"):

(i) is the measure generally expected to result in reduced electricity consumption by a Primary Beneficiary if properly installed and used;

(ii) is the measure recognized under another Provincial program as being appropriate for achieving electricity conservation among a population analogous to the Primary Beneficiaries;

(iii) does the measure present any unacceptable health or safety considerations, either with respect to the Primary Beneficiary, a party providing or installing the measure, or the physical environment;

(iv) is the measure broadly available to residents across different areas and regions of the Province; or

(v) is the measure a requirement or precursor to another measure, the other measure being one which meets any of the other Measures Factors.

5.2 In identifying and applying the Measures Factors, Electricity Distributors would be expected to have expertise in assessing the suitability of efficiency and conservation measures in their respective areas and regions, which may differ across areas and regions across the Province based on factors (among other things) such as the climate, geography, density, electricity infrastructure, residential structures, and electricity use rates applicable within such areas or regions.

5.3 The measures specified in Schedule A to this Principles Annex may initially be considered to be consistent with the Measures Factors (subject to change as contemplated under the Permitted Delegations Annex).

6. Promotion of the Program

6.1 It is expected that the Trustee will undertake or engage others to undertake diligent efforts to promote the availability, terms and benefits of the Program to Primary Beneficiaries, including by establishing consistent communications through the Electricity Distributors.

6.2 It is expected that the Trustee will acknowledge the financial support of the Province in connection with the establishment and the funding for the Program, including in any external communications to or marketing directed at the Electricity Distributors and the Primary and Residual Beneficiaries. In its delegation of any duties or powers to the Electricity Distributors through Implementation Agreements it is expected that Electricity Distributors will acknowledge the financial support of the Province in connection with the program including in any communications or marketing to Primary Beneficiaries.

7. Conduct of the Trust and the Program

7.1 It is expected that administrative expenses of the Board of Trustees and its members, including any expenses relating to the Trust, to the establishment of the Trust and any expenses related to the implementation and operation of the Program, including by or through Electricity Distributors and other relevant entities, will be recognized and subject to reimbursement on a basis that is substantially consistent with the accountability provisions contemplated in the Transfer Payment Agreement and the principles in the Province's Travel, Meal and Hospitality Expenses Directive, as set out in Schedule B to this Principles Annex.

7.2 The Trustee is expected to conduct its activities in a manner that complies in all material respects with the Transfer Payment Agreement, including to:

(i) act prudently and in furtherance of the Purpose;

(ii) report not less frequently than annually the results of its activities for information purposes to the Province in connection with the Program;

(iii) comply with the Province's request for any independent verification or audit if determined to be necessary or appropriate by the Province;

(iv) return Assets that have not been distributed if it is determined that the Trustee has breached its Standard of Care in discharging its material duties under the Declaration, and has not cured such material breach despite having been given a reasonable opportunity by the Province to do so in light of the circumstances of such material breach, with the result that all or a significant part of the Assets have not been or are not being applied and distributed in furtherance of the Purpose or are being applied and distributed in a manner that is directly contrary or without regard to the Purpose.

7.3 Electricity Distributors are not intended to directly profit from distributions of funds made from the Trust, although it is recognized that the objectives of electricity efficiency and conservation of Primary Beneficiaries located in the service area or region of an Electricity Distributor, and the cost savings and improved credit worthiness of such Primary Beneficiaries, may be financially beneficial to the Electricity Distributor.

7.4 Distributions from the Trust are intended to allow receiving Primary Beneficiaries to undertake Eligible Measures at no or minimal personal cost.

7.5 Without in any way limiting the discretion of the Board of Trustees to extend the period during which the benefits of the Program may be available to the Primary Beneficiaries, up to and including the Final Distribution Date, it is expected that the Trust Assets would be distributed to Primary Beneficiaries during the period from the Original Trustee Replacement Date to April 30, 2019.

Except where it is manifestly apparent to the Original Trustee that the individuals recommended by the Advisory Committee to become members of such Board of Trustees are disqualified from so acting on the basis of manifest non-compliance with the "Selection Factors" set forth in the Trustee Replacement Annex, the Original Trustee shall appoint, as members of the Board of Trustees, the six (five voting and one non-voting) individuals recommended for appointment to the Board of Trustees by the Advisory Committee. If the Original Trustee declines to appoint any individual recommended by the Advisory Committee, the Original Trustee will promptly request that the Advisory Committee provide a further recommendation whom the Original Trustee shall appoint as a member of the Board of Trustees unless it is manifestly apparent to the Original Trustee that the individual so recommended is also disqualified from so acting on the basis of manifest non-compliance with the "Selection Factors" set forth in the Trustee Replacement Annex,. Upon the appointment of such six individuals pursuant to this provision and their agreement to act as members of the Board of Trustees, the Original Trustee shall be deemed to have resigned and shall cease to be a trustee (such resignation occurring on the "**Original Trustee Replacement Date**").

5.8 Rules and Procedures of the Board of Trustees

(a) ***Initial Requirements***. As soon as practicable and in any event no later than one month following the Original Trustee Replacement Date, the Board of Trustees id expected to meet to take such decisions and actions as they deem necessary to ensure the proper management and administration of the Trust. The date (and location if in person) of the initial meeting shall be determined by a majority of the Board of Trustees.

(b) ***Meetings.*** Subject to the Board of Trustees' discretion to make such rules and procedures that they may deem desirable, meetings of the Board of Trustees may be held at such time and place as the trustee members of the Board of Trustees may agree upon or as they may

fix by resolution for the purpose or if the meeting is called as hereinafter mentioned then at such time as may be designated in the notice calling the meeting. A meeting of the Board of Trustees may be called at any time by any two members of the Board of Trustees by two Business Days' notice given to the members of the Board of Trustees. No notice of any Board of Trustees' meeting shall be necessary when a quorum is present if those comprising the quorum consent to the transaction of the affairs of the Trust and the absent trustee or trustees, if any, either before or after the meeting shall waive in writing notice of the meeting. Meetings of the Board of Trustees may be conducted in person, by telephone, or in such other manner as determined by the Board of Trustees. The Board of Trustees may elect a Chairperson.

(c) ***Quorum.*** At any meeting of the Board of Trustees, a majority of the voting members of the Board of Trustees shall be a quorum irrespective of the number of members in office. The decision of the majority of the voting members where quorum exists shall govern and shall be binding for all purposes and shall be acted upon and carried out in the same manner and with the same effect as if all the voted members concurred therein; provided always that in the case of equality of votes the Chairperson, if any, shall not be entitled to cast a second or deciding vote.

(d) ***Power to Adopt Rules and Procedures.*** The Board of Trustees may make such rules and procedures not inconsistent herewith as it may deem desirable for the proper management and administration of the Trust and the discharge of the responsibilities of the Board of Trustees.

(e) ***Replacement of Members of the Board of Trustees***. The Board of Trustees shall have the power to replace any vacancy arising following the Original Trustee Replacement Date according to such rules and procedures as they deem appropriate subject to compliance with the Selection Factors specified in Trustee Replacement Annex and having regard for such considerations necessary to ensure that the composition of the Board of Trustees will be able to discharge its responsibilities in respect of the Declaration. If necessary, the Board of Trustees may fill any vacancy by application to the Courts of Ontario in the event of an unfilled vacancy.

(f) ***Decisions of the Board of Trustees.*** Decisions and actions of the Board of Trustees shall be made by voting, with each individual voting member having one vote. Subject to quorum requirements, a majority vote shall be determinative in respect of such decisions and actions. Subject to quorum requirements, any decision or action taken by the majority of voting members will represent the decision or action of the Trustee, and not any member of the Board of Trustees.

(g) ***Conflicts of Interest.*** With respect to any matter before the Board of Trustees, to the extent of a conflict of interest, whether actual, perceived or potential, involving a member of the Board of Trustees' personal interests and a matter concerning the Trust, such member shall abstain from voting on the matter or taking any other discretionary action on the matter. For the purposes of the foregoing, no member of the Board of Trustees shall be deemed to have a conflict by reason only that the member holds any office or position with an Electricity Distributor, social services agency or governmental or quasi-governmental agency or entity (such as the Independent Electricity System Operator); provided, however, that in relation to any decision of the Board of Trustees pertaining specifically to a particular Electricity Distributor, any member of the Board of Trustees who is a director, officer or employee of the Electricity Distributor would be expected to recuse himself or herself from participating in deliberations, discussions or voting in respect of such decision.

(h) ***Expense Reimbursements to Members of the Board of Trustees.*** Members of the Board of Trustees shall be entitled to reimbursement for and in respect of their out-of-pocket expenses reasonably incurred in discharging their duties and obligations as members of the Board of Trustees. Members of the Board of Trustees shall serve without compensation.

5.9 Confidentiality

Notwithstanding the resignation or removal and discharge from the trusts and powers reposed in and conferred on the Trustee by this Declaration, or the termination of this Declaration, the Trustee so resigning or removed shall continue to treat as confidential all information relating to the Trust, the Assets and the Beneficiaries and shall only be entitled to make disclosures concerning such information if disclosure is required in the performance of the functions of the resigning or removed Trustee or is ordered by a court of competent jurisdiction or is otherwise required by law. The Trustee shall not be responsible or liable to any Person for any loss or damage arising out of or in any way sustained or incurred in any way relating to any such required disclosure. Any successor trustee (including any reconstituted Board of Trustees) shall automatically become vested with the Assets and with the same powers, rights, duties, responsibilities and trusts as if it, he or she had originally been named as Trustee under this Declaration, without the requirement of any further instrument or act or conveyance, and the Trustee ceasing to act shall execute all such transfers and other documents and do all such other acts or things as may be necessary or desirable to assign, transfer, deliver to, and vest in, the successor trustee, upon the trusts expressed in this Declaration, all the Assets and all the rights, powers and trusts of the Trustee ceasing to act. The expense of any act, document, deed or other instrument or thing required under this Section 5.10, including for greater certainty, outstanding fees and unreimbursed expenses of the Trustee (including any member of the Board of Trustees) ceasing to act, shall be satisfied from the Assets.

5.11 Execution of Instruments

The Trustee shall have the power to execute all deeds, transfers, agreements, promissory notes and other instruments on behalf of the Trust. Such power may be exercised by any one or more Administrative Services Agents acting in accordance with any delegated right to do so pursuant to an applicable Administrative Services Agreement or by any one or more Implementation Agents acting in accordance with any delegated right to do so pursuant to an applicable Implementation Agreement, and any such execution of instrument by an Administrative Services Agent, acting in such capacity as agent of the Trust pursuant to the terms and conditions of an Administrative Services Agreement or by an Implementation Agent acting in such capacity as agent of the Trust pursuant to the terms and conditions of an Implementation Agreement shall in each case be deemed to be a proper execution of such instrument by the Trustee and shall be binding for all purposes on the Trust.

5.12 Decisions by the Trustee

If there is more than one Trustee, decisions of the Trust may be made by a majority of Trustees eligible to vote on the applicable matter. Whenever the Trustees are unable to agree in relation to the commission or omission of any act or howsoever in the execution of the Trust, the decision of a majority of such Trustees shall prevail.

PRINCIPLES ANNEX

The Trustee shall have regard to, but shall not be specifically bound by, the following principles in applying its discretion in relation to the administration of the Trust:

1. Identification of Primary Beneficiary Payees

1.1 Except in exceptional circumstances, a Primary Beneficiary would not be expected to receive a benefit from the Trust unless at the time of consideration it satisfies, in addition to the requirements contemplated in the definition of "Primary Beneficiary", each of the following criteria (the "**Selection Factors**"):

(i) it has a participant agreement with an applicable Electricity Distributor to undertake measures (its "**Energy Plan**") to improve the electricity efficiency and/or promote the conservation of electricity at its Ontario residence;

(ii) its Energy Plan involves one or more Eligible Measures, as may be designated by the Trustee from time to time from;

(iii) it confirms that:

1. the primary purpose of its Energy Plan is the conservation and efficient use by the Primary Beneficiary of electricity, and is not for the purposes of the Primary Beneficiary making a profit;

2. it would otherwise not have the financial resources to undertake the Eligible Measures included in its Energy Plan; and

3. it would otherwise not be eligible to receive amounts in respect of the Eligible Measures as a HAP Eligible Person;

(iv) it has demonstrated a need for financial assistance on the basis that its periodic electricity bills represent a financial burden, relative to its available financial resources; and

(v) such other criteria as the Trustee may determine, including based on the recommendations of Electricity Distributors or other knowledgeable Persons made on the basis and having regard to the delegations contemplated by the Permitted Delegations Annex or any applicable Implementation Agreement.

1.2 It is recognized that, in furthering the Purpose, an efficient basis upon which to allocate funds to the Primary Beneficiaries across different areas and regions within Ontario may be based on the areas and regions serviced by the Electricity Distributors operating within Ontario.

1.3 It would not be contrary to the Purposes if funds are made available by the Trustee to the Primary Beneficiaries unequally across different areas and regions within Ontario, and it is expected that in making such an unequal division it would be appropriate to have regard to:

(i) broad economic parameters of economic activity and the specific financial resources of the residents of the areas and regions, in each case as an indication of the relative need of such residents across the areas and regions;

(ii) electricity use and efficiency levels of residential electricity customers across the areas and regions;

(iii) specific regional indicators of economic weakness and need; and

(iv) such other factors as the Trustee may determine are relevant, including based on the submissions, advice and recommendations of Electricity Distributors or other knowledgeable Persons made on the basis and having regard to the delegations contemplated by the Permitted Delegations Annex or any applicable implementation Agreement.

1.4 It is recognized that, in furthering the Purpose, the designated Electricity Distributor for an area or region in which a Primary Beneficiary resides would be expected to:

(i) be a reliable source for the purpose of assessing and confirming whether the Primary Beneficiary satisfies the Selection Factors;

(ii) be an efficient intermediary for the purpose of communicating with the Primary Beneficiary, including with respect to matters such as regarding the availability, terms, conditions and intended purposes of Program;

(iii) be able to facilitate an efficient payment of distribution determined to be made to or on behalf of the Primary Beneficiary, having regard to the Electricity Distributor's established practices, procedures and systems for dealing with its customers; and

(iv) have established contractual arrangements with the Primary Beneficiary that may apply to the protection and confidentiality of information provided by or respecting the Primary Beneficiary, which information may be useful in the consideration by the Electricity Distributor in its assessment of whether the Primary Beneficiary satisfies the Selection Factors, which information may not otherwise be available or readily accessible or verifiable by the Trustee.

1.5 It is recognized that, in furthering the Purpose, the Electricity Distributor for an area or region in which a Primary Beneficiary resides will have market and utilization information that may be useful in assessing the relative needs of Primary Beneficiaries within its area or region. Such information is expected to be relevant in assessing the extent to which one such Primary Beneficiary's financial needs and the merits of its Energy Plan are greater or more compelling than those of another such Primary Beneficiary, which comparison may be relevant to the extent that the funds allocable to the Primary Beneficiaries resident in the area or region are otherwise insufficient to meet the requests for funding by all such Primary Beneficiaries.

1.6 Accordingly, it is recognized that, in furthering the Purpose, it is consistent with the Purpose that the recommendations of Electricity Distributors be utilized and relied upon

by the Trustee to guide the process of identifying particular Primary Beneficiaries in making distributions to the Primary Beneficiaries.

1.7 If an Electricity Distributor for a particular area or region is unable or unwilling to assess or confirm the application of the Selection Factors to Primary Beneficiaries residing in the area or region or to make recommendations in relation to such matters, one or more of the following may provide a suitable alternative source of information and for information gathering, assessment and confirmation purposes in relation to such area or region:

(i) other Electricity Distributors operating in adjacent or other areas or regions in Ontario;

(ii) the Ontario Energy Board;

(iii) the Independent Electricity System Operator; and

(iv) anyone else having relevant expertise and access to information regarding the electricity market of the Province, in each case as may be considered relevant by the Trustee.

1.8 To the extent that privacy law or other legal requirements limit an Electricity Distributor from providing or making available specific information respecting the application of the Selection Factors to a particular Primary Beneficiary or group of Primary Beneficiaries, it is recognized that, in furthering the Purpose, it may be appropriate to redact or make generic affected information regarding such Primary Beneficiary in connection with the identification and confirmation of a Primary Beneficiary's eligibility and participation in the Program. If such limitations or restrictions would limit an Electricity Distributor from providing or confirming the name of a particular Primary Beneficiary to the Trustee, then it should be sufficient that such information may be obtained or disseminated on a confidential basis if and when required by the Trustee for the proper administration of the Trust and on that basis such impediments should not disqualify a Primary Beneficiary from participating in the benefits of the Program, provided that the confidential record-keeping of the Electricity Distributor would be available in connection with the application of any applicable legal process predicated on the identification of such Primary Beneficiary for the purposes of substantiating its rights as a Primary Beneficiary of the Trust or as to the validity or subsistence of the Trust.

2. Eligible Measures

2.1 It is expected that the Trust will identify eligible measures that, taking into consideration the principles set forth in the Principles Annex, have regard to the following (the "**Measures Factors**"):

(i) is the measure generally expected to result in reduced electricity consumption by a Primary Beneficiary if properly installed and used;

(ii) is the measure recognized under another Provincial program as being appropriate for achieving electricity conservation among a population analogous to the Primary Beneficiaries;

(iii) does the measure present any unacceptable health or safety considerations, either with respect to the Primary Beneficiary, a party providing or installing the measure, or the physical environment;

(iv) is the measure broadly available to residents across different areas and regions of the Province; or

(v) is the measure a requirement or precursor to another measure, the other measure being one which meets any of the other Measures Factors.

2.2 In identifying and applying the Measures Factors, Electricity Distributors would be expected to have expertise in assessing the suitability of efficiency and conservation measures in their respective areas and regions, which may differ across areas and regions across the Province based on factors (among other things) such as the climate, geography, density, electricity infrastructure, residential structures, and electricity use rates applicable within such areas or regions.

2.3 The measures specified in Schedule A to this Principles Annex may initially be considered to be consistent with the Measures Factors (subject to change as contemplated under the Permitted Delegations Annex).

3. Promotion of the Program

3.1 It is expected that the Trustee will undertake or engage others to undertake diligent efforts to promote the availability, terms and benefits of the Program to Primary Beneficiaries, including by establishing consistent communications through the Electricity Distributors.

3.2 It is expected that the Trustee will acknowledge the financial support of the Province in connection with the establishment and the funding for the Program, including in any external communications to or marketing directed at the Electricity Distributors and the Primary and Residual Beneficiaries. In its delegation of any duties or powers to the Electricity Distributors through Implementation Agreements it is expected that Electricity Distributors will acknowledge the financial support of the Province in connection with the program including in any communications or marketing to Primary Beneficiaries.

4. Conduct of the Trust and the Program

4.1 It is expected that administrative expenses of the Board of Trustees and its members, including any expenses relating to the Trust, to the establishment of the Trust and any expenses related to the implementation and operation of the Program, including by or through Electricity Distributors and other relevant entities, will be recognized and subject to reimbursement on a basis that is substantially consistent with the accountability provisions contemplated in the Transfer Payment Agreement and the principles in the

Province's Travel, Meal and Hospitality Expenses Directive, as set out in Schedule B to this Principles Annex.

4.2 The Trustee is expected to conduct its activities in a manner that complies in all material respects with the Transfer Payment Agreement, including to:

(i) act prudently and in furtherance of the Purpose;

(ii) report not less frequently than annually the results of its activities for information purposes to the Province in connection with the Program;

(iii) comply with the Province's request for any independent verification or audit if determined to be necessary or appropriate by the Province;

(iv) return Assets that have not been distributed if it is determined that the Trustee has breached its Standard of Care in discharging its material duties under the Declaration, and has not cured such material breach despite having been given a reasonable opportunity by the Province to do so in light of the circumstances of such material breach, with the result that all or a significant part of the Assets have not been or are not being applied and distributed in furtherance of the Purpose or are being applied and distributed in a manner that is directly contrary or without regard to the Purpose.

4.3 Electricity Distributors are not intended to directly profit from distributions of funds made from the Trust, although it is recognized that the objectives of electricity efficiency and conservation of Primary Beneficiaries located in the service area or region of an Electricity Distributor, and the cost savings and improved credit worthiness of such Primary Beneficiaries, may be financially beneficial to the Electricity Distributor.

4.4 Distributions from the Trust are intended to allow receiving Primary Beneficiaries to undertake Eligible Measures at no or minimal personal cost.

4.5 Without in any way limiting the discretion of the Board of Trustees to extend the period during which the benefits of the Program may be available to the Primary Beneficiaries, up to and including the Final Distribution Date, it is expected that the Trust Assets would be distributed to Primary Beneficiaries during the period from the Original Trustee Replacement Date to April 30, 2019.

1. Under section 4.2(g) of the Declaration, the Trustee has the power to: (a) appoint, employ or retain Implementation Agents for the purpose of discharging its duties and obligations under the Declaration; and (b) enter into, perform, enforce and amend Implementation Agreements.

2. In accordance with section 4.2(g) of the Declaration, consistent with the principles set forth in the Principles Annex, the Trustee or its agent will seek to enter into one or more Implementation Agreements with individual Electricity Distributors under which the Electricity Distributors will act as Implementation Agents to the Trustee. In this manner, the Trustee will delegate certain of its powers and duties to the Electricity Distributors.

3. Under section 5.1 of the Declaration, to the extent the Trustee has delegated any of its duties or powers, it shall be deemed to have satisfied the Standard of Care in respect of the subject matter of such delegation, subject to the Trustee's overall duty to exercise prudent oversight thereof. The Trustee is entitled to rely on an Electricity Distributor to discharge the duties delegated to it, as Implementation Agent, pursuant to an Implementation Agreement as described in this Annex.

4. Accordingly, and without limiting the Trustee's right to delegate under the Declaration and its other rights, powers and discretion as Trustee, the Trustee will be permitted to, and is expected to seek to, enter into Implementation Agreements with Electricity Distributors in order to further the Purpose. Without limiting the Trustee's discretion to negotiate and settle the terms and conditions of such Implementation Agreements, it is expected that such Implementation Agreements will include customary terms and conditions for an administrative services arrangement of this type and, in addition, would (subject to the acceptance and agreement of the applicable Electricity Distributor counterparty) address the following points in particular:

    a. **Identification of Applicable Primary Beneficiary Payees and Determination of Individual Distribution Amounts**

        i. Each Electricity Distributor would make an initial assessment of the financial needs of Primary Beneficiaries within its designated service area or region, having regard to the Selection Factors set forth in section 1.3 of the Principles Annex, together with applicable economic data, in order to prepare and provide to the Trustee an estimate of the number of Primary Beneficiaries who the Electricity Distributor reasonably expects would satisfy the Selection Factors.

        ii. Each Electricity Distributor would make an initial assessment of the measures it would recommend be included as Eligible Measures, having regard to the Measures Factors set forth in section 2.1 of the Principles Annex, in order to prepare and provide to the Trustee an estimate of the average cost per Primary Beneficiary Payee (as defined below) of such Eligible Measures that the Electricity Distributor reasonably expects would apply in respect of Primary Beneficiaries resident in its service area or region.

iii. Based on the product of (i) and (ii), above, and such other considerations as it considers to be directly relevant, each Electricity Distributor would make a written recommendation to the Trustee regarding the aggregate funding amount that the Electricity Distributor anticipates would be utilized under the Program by the Primary Beneficiaries resident in its service area or region (the "**Local Funding Estimate**"). Such recommendation would be accompanied, when submitted to the Trustee, by a detailed explanation regarding the assumptions, financial parameters, suitability considerations and other information underlying the Local Funding Estimate (including the type of information contemplated by the Selections Factors and the Measures Factors, which would be relied upon by the Trustee in its assessment regarding the allocation of available funding to or for the benefit of the Primary Beneficiaries across the specified areas and regions of Ontario.

iv. The Trustee would inform the Electricity Distributor regarding the aggregate of the amount determined by the Trustee to be made available under the Program for Primary Beneficiaries in the Electricity Distributor's designated service area or region (for each Electricity Distributor, its "**Maximum Electricity Distributor Allocation**") and as to any maximum amount that may be paid to or for the benefit of any single Primary Beneficiary located in the servicer area or region of the Electricity Distributor (the "**Maximum Primary Beneficiary Amount**"). The Maximum Electricity Distributor Allocation and Maximum Primary Beneficiary Amount may vary between areas and regions, among the Primary Beneficiaries within such areas and regions, and may be increased by the Trustee from time to time in its discretion.

v. Each Electricity Distributor would apply the principles set forth under "Identification of Primary Beneficiary Payees" in the Principles Annex to identify and make recommendations to the Trustee regarding the amount of funds (if any) to be distributed to or for the benefit of Primary Beneficiaries resident within its service area or region from time to time (the "**Primary Beneficiary Payees**").

vi. Each Electricity Distributor would ensure that the aggregate of the amounts it recommends be distributed to or for the benefit of Primary Beneficiary Payees from time to time does not exceed (1) its Maximum Electricity Distributor Allocation and (2) for any single Primary Beneficiary located in the service area or region of the Electricity Distributor, the lesser of (x) the applicable Maximum Primary Beneficiary Amount and (y) the estimated costs (including any applicable taxes, but excluding any amount payable to the Electricity Distributor by or on behalf of the Primary Beneficiary) to be incurred by or on behalf of such Primary Beneficiary (whether or not such costs have been paid or remain outstanding) in respect of Eligible Measures applied or to be applied in respect of the Primary Beneficiary's Ontario residence.

vii. The Trustee would provide written confirmation to each Electricity Distributor:

1. Either (x) that the recommendations specified of the Electricity Distributor in clause (v), above, have been accepted, or (y) as to the specific reasons for any non-acceptance; and

2. The amount of the distributions to be paid to or for the benefit of each Primary Beneficiary Payee that is resident in the Electricity Distributor's service area or region.

viii. With respect to each Primary Beneficiary resident in a Electricity Distributor's service area or region that is confirmed as a Primary Beneficiary Payee, the Electricity Distributor would provide the Trustee written confirmation as to:

1. The identity of such Primary Beneficiary Payee; and

2. The amount of the distribution paid to or for the benefit of such Primary Beneficiary Payee.

ix. If the amount of a distribution to be made to a Primary Beneficiary Payee is based on the estimated costs to be incurred by or on behalf of such Primary Beneficiary and, prior to making the distribution to the Primary Beneficiary Payee, the Electricity Distributor determines that the actual costs (including any applicable taxes but excluding any amount payable to the Electricity Distributor by or on behalf of the Primary Beneficiary) incurred or to be incurred by or on behalf of such Primary Beneficiary in respect of Eligible Measures applied or to be applied in respect of the Primary Beneficiary's Ontario residence has or would be less than such estimated costs, then the amount to be distributed to the Primary Beneficiary shall be based on such actual costs.

b. **Making of Distributions to Primary Beneficiaries**

i. It is expected that promptly after the Trustee confirms the identity of a Primary Beneficiary Payee resident in an Electricity Distributor's service area or region and the amount of the distribution to be paid to or for the benefit of such Primary Beneficiary Payee, the Trustee would arrange for payment to or on the direction of the Electricity Distributor of an amount equal to the amount of such distribution.

ii. It is expected that promptly upon receipt of funds in respect of a distribution to be made to a Primary Beneficiary Payee, the Electricity Distributor would arrange for payment of the full amount of such distribution to or for the benefit of the Primary Beneficiary Payee (including by direct payment to a third party of, or as a reimbursement or rebate of, the costs of applicable Eligible Measures installed at the residence of and for the benefit of the Primary Beneficiary Payee), without reduction or set-off by the Electricity Distributor.

iii. If the amount paid to an Electricity Distributor in respect of a distribution to be made to a Primary Beneficiary exceeds the actual amount of the

distribution made to or on behalf of the Primary Beneficiary, it is expected that the Trustee would require Electricity Distributor to return such excess to the Trustee, whereupon the proceeds of such returned amount shall continue to form part of the Assets.

c. **Establishment of Operational, Administrative, Record-Keeping and Other Systems and Policies by Electricity Distributors to facilitate the Program**

i. It is expected that the Electricity Distributor would establish such operational, administrative, record-keeping and other systems and policies as are necessary to facilitate the Program and perform its duties under the Implementation Agreement, including systems or policies to: identify Primary Beneficiary Payees; comply with applicable privacy and regulatory laws; communicate with Primary Beneficiaries on behalf of the Trust; assess Eligible Measures; determine the Local Funding Estimate; monitor its recommendations to the Trustee against its Maximum Electricity Distributor Allocation and the Maximum Primary Beneficiary Amount; receive funds from the Trust in respect of distributions to the Primary Beneficiary Payees and transfer such funds to the appropriate recipients for the benefit of the Primary Beneficiary Payees; preparation and timely delivery to Primary Beneficiary Payees of such documents as are required by the *Income Tax Act* (Canada); and create and maintain records in respect of the foregoing.

ii. The Electricity Distributor would set up a separate bank account for the purpose of receiving funds from the Trust in respect of distributions to the Primary Beneficiary Payees and the transfer of such funds to the appropriate recipients for the benefit of the Primary Beneficiary Payees.

d. **Reporting, Record-Keeping, Inspection and Disclosure and Compliance Matters**

i. The Electricity Distributor would provide record-keeping, clerical and bookkeeping services relating to all matters relating to its recommendations and the performance of its other duties and obligations under its Implementation Agreement.

ii. The Electricity Distributor would keep and maintain all financial records and non-financial documents and records relating to the provision of services under its Implementation Agreement.

Such Reports would set out, among other things, the amounts of the distributions paid to or for the benefit of applicable Primary Beneficiary Payees, the average distribution amount per such Primary Beneficiary Payee, the Eligible Measures for which distributions have been made, and the uptake of energy efficiency measures.

iv. The Electricity Distributor would agree to provide to the Trustee such information as is necessary for the Trustee to (v) comply with applicable law;

(w) prepare financial statements for the Trust; (x) prepare and submit such documents as are required under the *Income Tax Act* (Canada); (y) comply with the Trust's applicable obligations under the Transfer Payment Agreement; and (z) such other matters as the Trustee reasonably requests.

v. The Trustee, its authorized representatives or an independent auditor would be permitted to, at its own expense, on twenty-four hours' notice to the Electricity Distributor and during normal business hours, inspect the records of and information respecting the Electricity Distributor to confirm its compliance with the Implementation Agreement, including regarding its processes for recommending the Primary Beneficiary Payees and their respective distribution amounts and regarding the delivery of Trust funds on behalf of the Trustee to or for the benefit of the Primary Beneficiary Payees.

e. **Standard of Care**

i. The Electricity Distributor would be required to agree to perform its duties provided under the Implementation Agreement exercising the degree of care, diligence and skill that a reasonably prudent Person would exercise in comparable circumstances.

ii. In performing its duties under the Implementation Agreement (including the recommending of Primary Beneficiary Payees to the Trustee), the Electricity Distributor would be required to agree to seek to avoid actual, potential or perceived conflicts of interest.

iii. The Electricity Distributor would be required to agree that it would not, in performing its obligations under the Implementation Agreement, take any action which it knows or ought reasonably to know would cause the Trustee or the Trust to be in violation of any law, rule or regulation applicable to it.

f. **Expenses**

The Electricity Distributor would be eligible to receive reasonable compensation and reimbursement of its actual out-of-pocket costs associated with the performance of its duties and obligations under the Implementation Agreement, subject to compliance with requirements substantially equivalent to the Province's Travel, Meal and Hospitality Expenses Directive. Such compensation amounts and reimbursement entitlements would be specified in the Implementation Agreement.

g. **Representations**

h. **Indemnification**

If an investment of Assets in Eligible Investments would not be authorized under the applicable trust laws of Ontario, the Trustee shall nevertheless be permitted to make an investment of the Assets in such Eligible Investments. The Trustee will have no liability for the diminution in the value of any investment in Eligible Investments made hereunder.

(e) ***Power to Dispose of Assets.*** The Trustee shall have the power to sell, convey, assign, transfer, exchange and in any other manner dispose of the Assets or any part or parts thereof free and clear of any and all trusts established under this Declaration, by public or private sale, for cash or on credit, with or without advertisement, and subject to such restrictions, stipulations, agreements and reservations as the Trustee in its sole and absolute discretion may consider appropriate or advisable, and to execute and deliver and perform any agreement, deed, conveyance, transfer or other document or instrument in connection with the foregoing.

(A) act for and on behalf of the Trust in connection with any and all matters in any way relating to the negotiation, settlement, entering into, amending, performance and enforcement of the Transfer Payment Agreement, the Administrative Services Agreements, the Implementation Agreements, and any other agreements and contracts to which the Trust becomes a party in accordance with this Declaration;

(E) to make any filings, elections and submissions (including in respect of taxation matters) in connection with the Trust's compliance with applicable laws and regulatory requirements; and

(ii) the Trustee may pay remuneration and reimbursements from the Assets for services performed for it or on its behalf in the discharge of the trusts hereof without taxation for costs or fees of any counsel, solicitor or attorney.

Without limiting the foregoing, it is expected that the Board of Trustees will seek to enter into Implementation Agreements with Electricity Distributors for the purposes contemplated by the Permitted Delegations Annex, and on such terms and conditions (including terms and conditions as to the payment of reasonable fees and expenses) not inconsistent therewith as the Trustee, in its sole and absolute discretion, may consider appropriate or advisable.

(h) ***Power to Operate Accounts.*** The Trustee shall have the power to (i) open and operate accounts at any chartered bank, trust company or other financial institution in Canada or

In connection therewith, the Trustee shall have no liability or responsibility for any loss which may occur by reason of the failure of any such chartered bank, trust company or other financial institution.

(i) ***Power to Collect, etc.*** The Trustee shall have the power to (i) collect, sue for, receive and give receipts for all sums of money or other property due to the Trust; (ii) consent to extensions of time for payment or to the renewal of any securities or obligations; (iii) engage or intervene in, prosecute, defend, compound, compromise, abandon or adjust by arbitration or otherwise, any demands, claims, actions, suits or proceedings relating to the Trust or the Assets; (iv) exercise any and all remedies available to the Trustee under any agreement or as may otherwise be available, including any power of foreclosure or sale available at law; (v) in connection with any such foreclosure or sale, purchase or otherwise acquire title to any property and to convey good title thereto free of any and all trusts hereby established, or to take or retake possession of any property secured under any agreement or instrument; (vi) extend the time, with or without security, for the payment or delivery of any debts or property; (vii) execute and deliver releases, acquittances, discharges, agreements or other instruments related thereto; and (viii) pay or satisfy any debts or claims upon any evidence that the Trustee, in its sole and absolute discretion, may determine to be sufficient.

The Trustee shall have the power to enter into contracts for or in relation to or otherwise obtain policies of insurance for the purpose of insuring the risks associated with the Trust, including to insure the Trustee (including the members of the Board of Trustees) against any risk of loss associated with assuming and performing the duties as Trustee. Without limiting the foregoing, it is expected that the Board of Trustees will obtain commercial general liability insurance from insurers having a secure A.M. Best rating of B+ or greater, or the equivalent, that in the opinion of the Recipient a prudent person similar to the Recipient would maintain, and having an inclusive limit of not less than $2,000,000 per occurrence and providing for contractual liability coverage.

(k) ***Power to Pay Trustee's Fees.*** The Original Trustee shall be entitled to be paid and receive the fees set forth in the Original Trustee's schedule of fees delivered as of or prior to the date hereof as compensation for its services under this Declaration, and to be reimbursed for its out-of-pocket expenses reasonably incurred, in each case from the Assets and without the approval of any Beneficiary or any court. The Original Trustee shall be entitled, in its sole and absolute discretion, to withdraw funds from time to time for such purpose from any account of the Trust. Members of the Board of Trustees shall be entitled to reimbursement for and in respect of their out-of-pocket expenses reasonably incurred in discharging their respective duties and obligations under this Declaration, in each case without the approval of any Beneficiary or any court, provided that the members of the Board of Trustees have general regard to sorts of limitations as are set forth in the "Travel, Meal and Hospitality Expenses Directive of the

Province" specified and amended by the Province from time to time, a copy of the current version of which is attached as Exhibit 1 to the Principles Annex.

(l) ***Power to Pay Taxes.*** The Trustee shall have the power to (i) pay, deduct, withhold or remit any taxes or assessments which are required by law to be paid, deducted, withheld or remitted together with or from any payment made by the Trustee; (ii) pay all taxes or assessments of whatever kind or nature imposed upon or against the Trust or the Trustee in connection with the Assets or any part thereof; (iii) collect and remit all taxes and assessments of whatever kind or nature required to be collected and remitted by the Trust or the Trustee in connection with their activities or the Assets or any part thereof; (iv) appeal, settle or compromise tax claims or liabilities; and (v) for the foregoing purposes, to make such returns, elections and submissions and do all such other acts and things as the Trustee, in its sole and absolute discretion, may consider appropriate or advisable.

(o) ***Title to Assets.*** The Trustee shall have the power to cause all or any part of the Assets to be held by or registered, in its sole and absolute discretion, in the name of any Person.

(p) ***Delegation of Discretion***. The Trustee shall have the power to delegate the right and power to exercise, or concur in the exercise of any discretion or power, conferred on the Trustee in this Declaration or conferred by law to any one or more of its directors, officers, employees, agents, representatives or to such other Person, as the Trustee, in its sole and absolute discretion, may think is appropriate or advisable, including to one or more Administrative Services Agents under an Administrative Services Agreement and to one or more Implementation Agents and their respective employees, officers and directors under a related Implementation Agreement entered into by the Trust substantially on the basis contemplated in the Permitted Delegations Annex. In particular, the Trustee shall have the power to accept, rely on and follow the recommendations of an Electricity Distributor made under and having regard to the Permitted Delegation Annex with respect to the identification of, and the determination of distributions (if any) to be made to, any Primary Beneficiary, except if and in so far as the Trustee has actual knowledge that (1) such Primary Beneficiary did not in fact satisfy the "Selection Factors" specified in the Principles Annex as of the applicable time of determination; and/or (ii) the amount recommended to be distributed to the Primary Beneficiary was not calculated in substantial compliance with, or was calculated in a manner that is manifestly contrary to the requirements set forth or contemplated in, the Permitted Delegation Annex or the applicable Implementation Agreement.

(q) ***Additional Powers.*** The Trustee shall have the power to perform and do all such other acts, to take such steps and to execute all such deeds, transfers, assignments, agreements and

other documents and instruments as the Trustee, in its sole and absolute discretion, may consider appropriate or advisable for the carrying out of any of its powers hereunder or of any of the activities of the Trust as herein contemplated, or for the carrying out, promotion or advancement of the interests of the Trust, whether or not any of such acts, things, documents or instruments are herein expressly mentioned. Any good faith determination by the Trustee as to what is necessary, desirable or appropriate to carry out its powers or activities of the Trust as contemplated under this Declaration or to carry out, promote or advance the interests of the Trust shall be conclusive. Any construction of this Declaration or any determination as to the activities of the Trust or the existence of any power or authority hereunder made in good faith by the Trustee, relying upon the advice of counsel, shall be conclusive. In construing the provisions of this Declaration, there shall be a presumption in favour of a grant of power to the Trustee.

SECTION 5
CONCERNING THE TRUSTEE

5.1 Duty of Trustee

In performing its duties and exercising its powers under this Declaration, the Trustee shall act honestly, in good faith and with a view to the best interests of the Trust and the Beneficiaries and shall exercise that degree of care, diligence and skill that a reasonably prudent trustee would exercise in comparable circumstances (the "**Standard of Care**"). The Trustee shall observe and act in accordance with the terms of, and shall observe and comply with the limitations and restrictions set forth in, this Declaration, including having due regard to the principles set forth in the Principles Annex. To the extent that the Trustee has so delegated any of its duties or powers, it shall be deemed to have satisfied the Standard of Care in respect of the subject matter of such delegation, subject to the Trustee's overall duty as a trustee to exercise prudent oversight in relation to such delegation. Unless required by law, the Trustee will not be required to give any security, bonds or sureties in any jurisdiction for the performance of any of its duties and obligations under this Declaration. The Trustee (including the individual members of the Board of Trustees) will not be required to devote its entire time to the trust activities.

5.2 Limitation of Liability

The Trustee shall not be personally liable in tort, contract or otherwise to any Beneficiary or any other Person for any loss or diminution in the value of the Assets, or for any action or failure to act on the part of the Trustee or any of its employees or agents or any other Person, and shall not be subject to any personal liability for any debts, liabilities, obligations, claims, demands, judgments, costs, charges or expenses incurred by or against the Trust, howsoever arising, and resort will be had solely to the Assets for the payment, performance or satisfaction thereof. No property or assets of the Trustee, owned in its personal capacity or otherwise, will be subject to levy, execution or other enforcement procedure**s** with respect to any obligation under this Declaration. However, the foregoing limitations in this Section shall not apply where the Trustee has demonstrated gross negligence, bad faith, fraud or wilful misconduct.

5.3 Liability of Trustee under Contracts

Any document or instrument creating a liability or obligation of the Trust or of the Trustee will be conclusively deemed to have been executed by the Trustee only in its capacity as Trustee of

the Trust and will be binding upon the Trustee only in its capacity as trustee hereunder and resort may not be had to, nor recourse or satisfaction be sought from, the property of the Trustee other than the Assets, whether owned by its in its personal capacity or in any other capacity other than in its capacity as Trustee of the Trust, or from its employees or agents, and in all cases resort will be had solely to the Assets for the payment, performance or satisfaction of any such liability or obligation. However, the foregoing limitations in this Section shall not apply where the Trustee has demonstrated gross negligence, bad faith, fraud or wilful misconduct. Each document or instrument creating a liability or obligation of the Trust or of the Trustee shall contain a provision providing for the aforesaid limitation of liability.

5.4 Funds of the Trustee

The Trustee shall not be required to expend or risk its own funds or otherwise incur financial liability in the performance of any of its duties hereunder, or in the exercise of any of its rights or powers.

5.5 Indemnification of Trustee

In addition to and without limiting any other protection hereunder or otherwise by law of the Trustee and its respective employees, agents, representatives and assigns (in this Section 5.5, collectively, the "**Representatives**"), the Trustee and its respective Representatives shall be indemnified, defended and saved harmless out of the Assets from, against and in respect of any and all liabilities arising or related to actions taken or omitted to be taken by any agent of the Trustee, losses, claims (including any claim arising out of the assessment of any tax on income by a taxing authority), damages, penalties, fines, actions, suits, demands, levies, assessments, costs, charges, expenses and disbursements (including, without limitation, any and all legal and advisor fees and disbursements) (in this Section 5.5, collectively, the "**Liabilities**") of whatever kind or nature which may at any time be suffered by, imposed upon, incurred by or asserted against the Trustee and its Representatives, whether groundless or otherwise, howsoever arising from or out of any act, omission or error of the Trustee, in each case made in connection with its acting as Trustee hereunder, in each case except and to the extent that the Liabilities are a result from or are caused by gross negligence, wilful misconduct, bad faith or fraud. Further, except as provided in section 5.2, the Trustee shall not be liable to any Beneficiary for any loss or damage relating to any matter regarding the Trust, including any loss or diminution in value of the Assets. Notwithstanding any other provision hereof, the obligations provided for in this section 5.5 shall survive any termination of the Trust, whether by reason of removal or resignation of the Trustee, termination or discharge of this Declaration or otherwise.

5.6 Reliance upon Advice

Subject to section 5.1, in performing its duties and exercising its powers hereunder, the Trustee may rely and may act or not act, and shall be fully protected in relying and acting or not acting, upon (a) any statement, telecopy or other electronic means of communication, writing, notice, resolution, report, opinion or other document or conversation believed by it to be genuine and correct and to have been signed, sent or made by the proper Person; (b) any opinion or advice received or information obtained from auditors, solicitors, or other professional advisers, whether retained by the Trustee or otherwise, and shall not be responsible or held liable for any loss or damage resulting from so relying or acting or not acting; and (c) the advice and actions of any

Administrative Services Agent or Implementation Agent, including in connection with the delegations and reliances contemplated under the Permitted Delegations Annex. For greater certainty, it shall not be necessary for the Trustee to ascertain whether or not the Persons who have executed, signed or otherwise issued, authenticated or receipted such papers, writings or documents (including any Administrative Services Agreement or any Implementation Agreement or any other contract entered into by the Trustee) have authority to do so or that they are the same Persons named therein or otherwise to pass upon any requirement of such papers, writing or documents that may be essential for their validity or effectiveness or upon the truth and acceptability.

5.7 Replacement of the Original Trustee

The Persons identified in the Trustee Replacement Annex are hereby appointed to comprise the Advisory Committee contemplated therein (the "**Advisory Committee**"). The Original Trustee shall promptly request that the Advisory Committee make recommendations with respect to the composition of the "Board of Trustees", as contemplated by the Trustee Replacement Annex. The Original Trustee shall have no duty or obligation to investigate the basis for any of the Advisory Committee's recommendations and may rely on such recommendations without any duty of enquiry, supervision or oversight with respect to the activities and decision-making processes adopted by the Advisory Committee in its discretion, in full satisfaction of the Original Trustee's Standard of Care with respect to such matters hereunder. Except where it is manifestly apparent to the Original Trustee that the individuals recommended by the Advisory Committee to become members of such Board of Trustees are disqualified from so acting on the basis of manifest non-compliance with the "Selection Factors" set forth in the Trustee Replacement Annex, the Original Trustee shall appoint, as members of the Board of Trustees, the six (five voting and one non-voting) individuals recommended for appointment to the Board of Trustees by the Advisory Committee. If the Original Trustee declines to appoint any individual recommended by the Advisory Committee, the Original Trustee will promptly request that the Advisory Committee provide a further recommendation whom the Original Trustee shall appoint as a member of the Board of Trustees unless it is manifestly apparent to the Original Trustee that the individual so recommended is also disqualified from so acting on the basis of manifest non-compliance with the "Selection Factors" set forth in the Trustee Replacement Annex,. Upon the appointment of such six individuals pursuant to this provision and their agreement to act as members of the Board of Trustees, the Original Trustee shall be deemed to have resigned and shall cease to be a trustee (such resignation occurring on the "**Original Trustee Replacement Date**").

5.8 Rules and Procedures of the Board of Trustees

(a) ***Initial Requirements***. As soon as practicable and in any event no later than one month following the Original Trustee Replacement Date, the Board of Trustees id expected to meet to take such decisions and actions as they deem necessary to ensure the proper management and administration of the Trust. The date (and location if in person) of the initial meeting shall be determined by a majority of the Board of Trustees.

(b) ***Meetings.*** Subject to the Board of Trustees' discretion to make such rules and procedures that they may deem desirable, meetings of the Board of Trustees may be held at such time and place as the trustee members of the Board of Trustees may agree upon or as they may fix by

resolution for the purpose or if the meeting is called as hereinafter mentioned then at such time as may be designated in the notice calling the meeting. A meeting of the Board of Trustees may be called at any time by any two members of the Board of Trustees by two Business Days' notice given to the members of the Board of Trustees. No notice of any Board of Trustees' meeting shall be necessary when a quorum is present if those comprising the quorum consent to the transaction of the affairs of the Trust and the absent trustee or trustees, if any, either before or after the meeting shall waive in writing notice of the meeting. Meetings of the Board of Trustees may be conducted in person, by telephone, or in such other manner as determined by the Board of Trustees. The Board of Trustees may elect a Chairperson.

(c) ***Quorum.*** At any meeting of the Board of Trustees, a majority of the voting members of the Board of Trustees shall be a quorum irrespective of the number of members in office. The decision of the majority of the voting members where quorum exists shall govern and shall be binding for all purposes and shall be acted upon and carried out in the same manner and with the same effect as if all the voted members concurred therein; provided always that in the case of equality of votes the Chairperson, if any, shall not be entitled to cast a second or deciding vote.

(d) ***Power to Adopt Rules and Procedures.*** The Board of Trustees may make such rules and procedures not inconsistent herewith as it may deem desirable for the proper management and administration of the Trust and the discharge of the responsibilities of the Board of Trustees.

(e) ***Replacement of Members of the Board of Trustees***. The Board of Trustees shall have the power to replace any vacancy arising following the Original Trustee Replacement Date according to such rules and procedures as they deem appropriate subject to compliance with the Selection Factors specified in Trustee Replacement Annex and having regard for such considerations necessary to ensure that the composition of the Board of Trustees will be able to discharge its responsibilities in respect of the Declaration. If necessary, the Board of Trustees may fill any vacancy by application to the Courts of Ontario in the event of an unfilled vacancy.

(f) ***Decisions of the Board of Trustees.*** Decisions and actions of the Board of Trustees shall be made by voting, with each individual voting member having one vote. Subject to quorum requirements, a majority vote shall be determinative in respect of such decisions and actions. Subject to quorum requirements, any decision or action taken by the majority of voting members will represent the decision or action of the Trustee, and not any member of the Board of Trustees.

(g) ***Conflicts of Interest.*** With respect to any matter before the Board of Trustees, to the extent of a conflict of interest, whether actual, perceived or potential, involving a member of the Board of Trustees' personal interests and a matter concerning the Trust, such member shall abstain from voting on the matter or taking any other discretionary action on the matter. For the purposes of the foregoing, no member of the Board of Trustees shall be deemed to have a conflict by reason only that the member holds any office or position with an Electricity Distributor, social services agency or governmental or quasi-governmental agency or entity (such as the Independent Electricity System Operator); provided, however, that in relation to any decision of the Board of Trustees pertaining specifically to a particular Electricity Distributor, any member of the Board of Trustees who is a director, officer or employee of the Electricity Distributor would be expected to recuse himself or herself from participating in deliberations, discussions or voting in respect of such decision.

(h) ***Expense Reimbursements to Members of the Board of Trustees.*** Members of the Board of Trustees shall be entitled to reimbursement for and in respect of their out-of-pocket expenses reasonably incurred in discharging their duties and obligations as members of the Board of Trustees. Members of the Board of Trustees shall serve without compensation.

5.9 Confidentiality

Notwithstanding the resignation or removal and discharge from the trusts and powers reposed in and conferred on the Trustee by this Declaration, or the termination of this Declaration, the Trustee so resigning or removed shall continue to treat as confidential all information relating to the Trust, the Assets and the Beneficiaries and shall only be entitled to make disclosures concerning such information if disclosure is required in the performance of the functions of the resigning or removed Trustee or is ordered by a court of competent jurisdiction or is otherwise required by law. The Trustee shall not be responsible or liable to any Person for any loss or damage arising out of or in any way sustained or incurred in any way relating to any such required disclosure. The obligations arising under this section 5.9 shall survive the termination of the Trust.

5.10 Vesting in Successor Trustee

Any successor trustee (including any reconstituted Board of Trustees) shall automatically become vested with the Assets and with the same powers, rights, duties, responsibilities and trusts as if it, he or she had originally been named as Trustee under this Declaration, without the requirement of any further instrument or act or conveyance, and the Trustee ceasing to act shall execute all such transfers and other documents and do all such other acts or things as may be necessary or desirable to assign, transfer, deliver to, and vest in, the successor trustee, upon the trusts expressed in this Declaration, all the Assets and all the rights, powers and trusts of the Trustee ceasing to act. The expense of any act, document, deed or other instrument or thing required under this Section 5.10, including for greater certainty, outstanding fees and unreimbursed expenses of the Trustee (including any member of the Board of Trustees) ceasing to act, shall be satisfied from the Assets.

5.11 Execution of Instruments

The Trustee shall have the power to execute all deeds, transfers, agreements, promissory notes and other instruments on behalf of the Trust. Such power may be exercised by any one or more Administrative Services Agents acting in accordance with any delegated right to do so pursuant to an applicable Administrative Services Agreement or by any one or more Implementation Agents acting in accordance with any delegated right to do so pursuant to an applicable Implementation Agreement, and any such execution of instrument by an Administrative Services Agent, acting in such capacity as agent of the Trust pursuant to the terms and conditions of an Administrative Services Agreement or by an Implementation Agent acting in such capacity as agent of the Trust pursuant to the terms and conditions of an Implementation Agreement shall in each case be deemed to be a proper execution of such instrument by the Trustee and shall be binding for all purposes on the Trust.

5.12 Decisions by the Trustee

If there is more than one Trustee, decisions of the Trust may be made by a majority of Trustees eligible to vote on the applicable matter. Whenever the Trustees are unable to agree in relation to the commission or omission of any act or howsoever in the execution of the Trust, the decision of a majority of such Trustees shall prevail.

SECTION 6
AMENDMENTS AND SUPPLEMENTS

6.1 Amendments

Subject to the requirements of the Transfer Payment Agreement, the Trustee shall have the power in its sole and absolute discretion from time to time without the approval of any Beneficiary or any court to amend, vary, supplement, replace or restate this Declaration in its entirety or any portion thereof; provided, however that it is expected that any amendment shall be consistent with the intent of the principles set forth in the Principles Annex and with the intended scope and effect of the permitted delegations and activities of any Implementation Agent pursuant to the Permitted Delegations Annex. Without in any way limiting the foregoing, any such amendments, variations, supplements, replacements or restatements may:

The Trustee is authorized to execute any supplemental declaration of trust (including one or more amendments and restatements from time to time of this Declaration) to give effect to amendments to this Declaration made pursuant to section 6.1.

SECTION 7

Subject to sections 7.2 and 7.3, the Trust will continue in full force and effect so long as there are any Assets and until all of the debts, liabilities and obligations of the Trust have been paid and satisfied in full.

7.2 Termination and Distribution of Assets

The Trustee shall terminate the Trust and wind up its affairs as soon as practicable after the Final Distribution Date. In connection with the termination of the Trust, the Trustee shall identify the Residual Beneficiaries and distribute or cause to be distributed the remaining Assets, in cash or in kind or partly in each, to the Residual Beneficiaries, in each case in accordance with section 3.3. Despite the foregoing, the Trust will only be terminated and wound up after the Trustee, in its sole and absolute discretion, determines that all debts, liabilities and obligations of the Trust have been paid or otherwise adequately provided for and satisfied and upon receipt of such releases, indemnities and discharges as the Trustee, relying on the opinion of counsel, deems necessary for the protection of the Beneficiaries and for its own protection.

PRINCIPLES ANNEX

The Trustee shall have regard to, but shall not be specifically bound by, the following principles in applying its discretion in relation to the administration of the Trust:

1. Identification of Primary Beneficiary Payees

1.1 Except in exceptional circumstances, a Primary Beneficiary would not be expected to receive a benefit from the Trust unless at the time of consideration it satisfies, in addition to the requirements contemplated in the definition of "Primary Beneficiary", each of the following criteria (the "**Selection Factors**"):

(i) it has a participant agreement with an applicable Electricity Distributor to undertake measures (its "**Energy Plan**") to improve the electricity efficiency and/or promote the conservation of electricity at its Ontario residence;

(ii) its Energy Plan involves one or more Eligible Measures, as may be designated by the Trustee from time to time from;

(iii) it confirms that:

1. the primary purpose of its Energy Plan is the conservation and efficient use by the Primary Beneficiary of electricity, and is not for the purposes of the Primary Beneficiary making a profit;

2. it would otherwise not have the financial resources to undertake the Eligible Measures included in its Energy Plan; and

3. it would otherwise not be eligible to receive amounts in respect of the Eligible Measures as a HAP Eligible Person;

(iv) it has demonstrated a need for financial assistance on the basis that its periodic electricity bills represent a financial burden, relative to its available financial resources; and

(v) such other criteria as the Trustee may determine, including based on the recommendations of Electricity Distributors or other knowledgeable Persons made on the basis and having regard to the delegations contemplated by the Permitted Delegations Annex or any applicable Implementation Agreement.

1.2 It is recognized that, in furthering the Purpose, an efficient basis upon which to allocate funds to the Primary Beneficiaries across different areas and regions within Ontario may be based on the areas and regions serviced by the Electricity Distributors operating within Ontario.

1.3 It would not be contrary to the Purposes if funds are made available by the Trustee to the Primary Beneficiaries unequally across different areas and regions within Ontario, and it is expected that in making such an unequal division it would be appropriate to have regard to:

(i) broad economic parameters of economic activity and the specific financial resources of the residents of the areas and regions, in each case as an indication of the relative need of such residents across the areas and regions;

(ii) electricity use and efficiency levels of residential electricity customers across the areas and regions;

(iii) specific regional indicators of economic weakness and need; and

(iv) such other factors as the Trustee may determine are relevant, including based on the submissions, advice and recommendations of Electricity Distributors or other knowledgeable Persons made on the basis and having regard to the delegations contemplated by the Permitted Delegations Annex or any applicable implementation Agreement.

1.4 It is recognized that, in furthering the Purpose, the designated Electricity Distributor for an area or region in which a Primary Beneficiary resides would be expected to:

(i) be a reliable source for the purpose of assessing and confirming whether the Primary Beneficiary satisfies the Selection Factors;

(ii) be an efficient intermediary for the purpose of communicating with the Primary Beneficiary, including with respect to matters such as regarding the availability, terms, conditions and intended purposes of Program;

(iii) be able to facilitate an efficient payment of distribution determined to be made to or on behalf of the Primary Beneficiary, having regard to the Electricity Distributor's established practices, procedures and systems for dealing with its customers; and

(iv) have established contractual arrangements with the Primary Beneficiary that may apply to the protection and confidentiality of information provided by or respecting the Primary Beneficiary, which information may be useful in the consideration by the Electricity Distributor in its assessment of whether the Primary Beneficiary satisfies the Selection Factors, which information may not otherwise be available or readily accessible or verifiable by the Trustee.

1.5 It is recognized that, in furthering the Purpose, the Electricity Distributor for an area or region in which a Primary Beneficiary resides will have market and utilization information that may be useful in assessing the relative needs of Primary Beneficiaries within its area or region. Such information is expected to be relevant in assessing the extent to which one such Primary Beneficiary's financial needs and the merits of its Energy Plan are greater or more compelling than those of another such Primary Beneficiary, which comparison may be relevant to the extent that the funds allocable to the Primary Beneficiaries resident in the area or region are otherwise insufficient to meet the requests for funding by all such Primary Beneficiaries.

1.6 Accordingly, it is recognized that, in furthering the Purpose, it is consistent with the Purpose that the recommendations of Electricity Distributors be utilized and relied upon

by the Trustee to guide the process of identifying particular Primary Beneficiaries in making distributions to the Primary Beneficiaries.

1.7 If an Electricity Distributor for a particular area or region is unable or unwilling to assess or confirm the application of the Selection Factors to Primary Beneficiaries residing in the area or region or to make recommendations in relation to such matters, one or more of the following may provide a suitable alternative source of information and for information gathering, assessment and confirmation purposes in relation to such area or region:

(i) other Electricity Distributors operating in adjacent or other areas or regions in Ontario;

(ii) the Ontario Energy Board;

(iii) the Independent Electricity System Operator; and

(iv) anyone else having relevant expertise and access to information regarding the electricity market of the Province, in each case as may be considered relevant by the Trustee.

1.8 To the extent that privacy law or other legal requirements limit an Electricity Distributor from providing or making available specific information respecting the application of the Selection Factors to a particular Primary Beneficiary or group of Primary Beneficiaries, it is recognized that, in furthering the Purpose, it may be appropriate to redact or make generic affected information regarding such Primary Beneficiary in connection with the identification and confirmation of a Primary Beneficiary's eligibility and participation in the Program. If such limitations or restrictions would limit an Electricity Distributor from providing or confirming the name of a particular Primary Beneficiary to the Trustee, then it should be sufficient that such information may be obtained or disseminated on a confidential basis if and when required by the Trustee for the proper administration of the Trust and on that basis such impediments should not disqualify a Primary Beneficiary from participating in the benefits of the Program, provided that the confidential record-keeping of the Electricity Distributor would be available in connection with the application of any applicable legal process predicated on the identification of such Primary Beneficiary for the purposes of substantiating its rights as a Primary Beneficiary of the Trust or as to the validity or subsistence of the Trust.

2. Eligible Measures

2.1 It is expected that the Trust will identify eligible measures that, taking into consideration the principles set forth in the Principles Annex, have regard to the following (the "**Measures Factors**"):

(i) is the measure generally expected to result in reduced electricity consumption by a Primary Beneficiary if properly installed and used;

(ii) is the measure recognized under another Provincial program as being appropriate for achieving electricity conservation among a population analogous to the Primary Beneficiaries;

(iii) does the measure present any unacceptable health or safety considerations, either with respect to the Primary Beneficiary, a party providing or installing the measure, or the physical environment;

(iv) is the measure broadly available to residents across different areas and regions of the Province; or

(v) is the measure a requirement or precursor to another measure, the other measure being one which meets any of the other Measures Factors.

2.2 In identifying and applying the Measures Factors, Electricity Distributors would be expected to have expertise in assessing the suitability of efficiency and conservation measures in their respective areas and regions, which may differ across areas and regions across the Province based on factors (among other things) such as the climate, geography, density, electricity infrastructure, residential structures, and electricity use rates applicable within such areas or regions.

2.3 The measures specified in Schedule A to this Principles Annex may initially be considered to be consistent with the Measures Factors (subject to change as contemplated under the Permitted Delegations Annex).

3. Promotion of the Program

3.1 It is expected that the Trustee will undertake or engage others to undertake diligent efforts to promote the availability, terms and benefits of the Program to Primary ~~and Residual~~ Beneficiaries, including by establishing consistent communications through the Electricity Distributors.

3.2 It is expected that the Trustee will acknowledge the financial support of the Province in connection with the establishment and the funding for the Program, including in any external communications to or marketing directed at the Electricity Distributors and the Primary and Residual Beneficiaries. In its delegation of any duties or powers to the Electricity Distributors through Implementation Agreements it is expected that Electricity Distributors will acknowledge the financial support of the Province in connection with the program including in any communications or marketing to Primary Beneficiaries.

4. Conduct of the Trust and the Program

4.1 It is expected that administrative expenses of the Board of Trustees and its members, including any expenses relating to the Trust, to the establishment of the Trust and any expenses related to the implementation and operation of the Program, including by or through Electricity Distributors and other relevant entities, will be recognized and subject to reimbursement on a basis that is substantially consistent with the accountability provisions contemplated in the Transfer Payment Agreement and the principles in the

Province's Travel, Meal and Hospitality Expenses Directive, ~~the current form of which attached~~ as set out in Schedule B to this Principles Annex.

4.2 The Trustee is expected to conduct its activities in a manner that complies in all material respects with the Transfer Payment Agreement, including to:

(i) act prudently and in furtherance of the Purpose;

(ii) report not less frequently than annually the results of its activities for information purposes to the Province in connection with the Program;

(iii) comply with the Province's request for any independent verification or audit if determined to be necessary or appropriate by the Province;

(iv) return Assets that have not been distributed if it is determined that the Trustee has breached its Standard of Care in discharging its material duties under the Declaration, and has not cured such material breach despite having been given a reasonable opportunity by the Province to do so in light of the circumstances of such material breach, with the result that all or a significant part of the Assets have not been or are not being applied and distributed in furtherance of the Purpose or are being applied and distributed in a manner that is directly contrary or without regard to the Purpose.

4.3 Electricity Distributors are not intended to directly profit from distributions of funds made from the Trust, although it is recognized that the objectives of electricity efficiency and conservation of Primary Beneficiaries located in the service area or region of an Electricity Distributor, and the cost savings and improved credit worthiness of such Primary Beneficiaries, may be financially beneficial to the Electricity Distributor.

4.4 Distributions from the Trust are intended to allow receiving Primary Beneficiaries to undertake Eligible Measures at no or minimal personal cost.

4.5 Without in any way limiting the discretion of the Board of Trustees to extend the period during which the benefits of the Program may be available to the Primary Beneficiaries, up to and including the Final Distribution Date, it is expected that the Trust Assets would be distributed to Primary Beneficiaries during the period from the Original Trustee Replacement Date to April 30, 2019.

PERMITTED DELEGATION ANNEX

1. Under section 4.2(g) of the Declaration, the Trustee has the power to: (a) appoint, employ or retain Implementation Agents for the purpose of discharging its duties and obligations under the Declaration; and (b) enter into, perform, enforce and amend Implementation Agreements.

2. In accordance with section 4.2(g) of the Declaration, consistent with the principles set forth in the Principles Annex, the Trustee or its agent will seek to enter into one or more Implementation Agreements with individual Electricity Distributors under which the Electricity Distributors will act as Implementation Agents to the Trustee. In this manner, the Trustee will delegate certain of its powers and duties to the Electricity Distributors.

3. Under section 5.1 of the Declaration, to the extent the Trustee has delegated any of its duties or powers, it shall be deemed to have satisfied the Standard of Care in respect of the subject matter of such delegation, subject to the Trustee's overall duty to exercise prudent oversight thereof. The Trustee is entitled to rely on an Electricity Distributor to discharge the duties delegated to it, as Implementation Agent, pursuant to an Implementation Agreement as described in this Annex.

4. Accordingly, and without limiting the Trustee's right to delegate under the Declaration and its other rights, powers and discretion as Trustee, the Trustee will be permitted to, and is expected to seek to, enter into Implementation Agreements with Electricity Distributors in order to further the Purpose. Without limiting the Trustee's discretion to negotiate and settle the terms and conditions of such Implementation Agreements, it is expected that such Implementation Agreements will include customary terms and conditions for an administrative services arrangement of this type and, in addition, would (subject to the acceptance and agreement of the applicable Electricity Distributor counterparty) address the following points in particular:

    a. **Identification of Applicable Primary Beneficiary Payees and Determination of Individual Distribution Amounts**

        i. Each Electricity Distributor would make an initial assessment of the financial needs of Primary Beneficiaries within its designated service area or region, having regard to the Selection Factors set forth in section 1.3 of the Principles Annex, together with applicable economic data, in order to prepare and provide to the Trustee an estimate of the number of Primary Beneficiaries who the Electricity Distributor reasonably expects would satisfy the Selection Factors.

        ii. Each Electricity Distributor would make an initial assessment of the measures it would recommend be included as Eligible Measures, having regard to the Measures Factors set forth in section 2.1 of the Principles Annex, in order to prepare and provide to the Trustee an estimate of the average cost per Primary Beneficiary Payee (as defined below) of such Eligible Measures that the Electricity Distributor reasonably expects would apply in respect of Primary Beneficiaries resident in its service area or region.

iii. Based on the product of (i) and (ii), above, and such other considerations as it considers to be directly relevant, each Electricity Distributor would make a written recommendation to the Trustee regarding the aggregate funding amount that the Electricity Distributor anticipates would be utilized under the Program by the Primary Beneficiaries resident in its service area or region (the "**Local Funding Estimate**"). Such recommendation would be accompanied, when submitted to the Trustee, by a detailed explanation regarding the assumptions, financial parameters, suitability considerations and other information underlying the Local Funding Estimate (including the type of information contemplated by the Selections Factors and the Measures Factors, which would be relied upon by the Trustee in its assessment regarding the allocation of available funding to or for the benefit of the Primary Beneficiaries across the specified areas and regions of Ontario.

iv. The Trustee would inform the Electricity Distributor regarding the aggregate of the amount determined by the Trustee to be made available under the Program for Primary Beneficiaries in the Electricity Distributor's designated service area or region (for each Electricity Distributor, its "**Maximum Electricity Distributor Allocation**") and as to any maximum amount that may be paid to or for the benefit of any single Primary Beneficiary located in the servicer area or region of the Electricity Distributor (the "**Maximum Primary Beneficiary Amount**"). The Maximum Electricity Distributor Allocation and Maximum Primary Beneficiary Amount may vary between areas and regions, among the Primary Beneficiaries within such areas and regions, and may be increased by the Trustee from time to time in its discretion.

v. Each Electricity Distributor would apply the principles set forth under "Identification of Primary Beneficiary Payees" in the Principles Annex to identify and make recommendations to the Trustee regarding the amount of funds (if any) to be distributed to or for the benefit of Primary Beneficiaries resident within its service area or region from time to time (the "**Primary Beneficiary Payees**").

vi. Each Electricity Distributor would ensure that the aggregate of the amounts it recommends be distributed to or for the benefit of Primary Beneficiary Payees from time to time does not exceed (1) its Maximum Electricity Distributor Allocation and (2) for any single Primary Beneficiary located in the service area or region of the Electricity Distributor, the lesser of (x) the applicable Maximum Primary Beneficiary Amount and (y) the estimated costs (including any applicable taxes, but excluding any amount payable to the Electricity Distributor by or on behalf of the Primary Beneficiary) to be incurred by or on behalf of such Primary Beneficiary (whether or not such costs have been paid or remain outstanding) in respect of Eligible Measures applied or to be applied in respect of the Primary Beneficiary's Ontario residence.

vii. The Trustee would provide written confirmation to each Electricity Distributor:

1. Either (x) that the recommendations specified of the Electricity Distributor in clause (v), above, have been accepted, or (y) as to the specific reasons for any non-acceptance; and

2. The amount of the distributions to be paid to or for the benefit of each Primary Beneficiary Payee that is resident in the Electricity Distributor's service area or region.

viii. With respect to each Primary Beneficiary resident in a Electricity Distributor's service area or region that is confirmed as a Primary Beneficiary Payee, the Electricity Distributor would provide the Trustee written confirmation as to:

1. The identity of such Primary Beneficiary Payee; and

2. The amount of the distribution paid to or for the benefit of such Primary Beneficiary Payee.

ix. If the amount of a distribution to be made to a Primary Beneficiary Payee is based on the estimated costs to be incurred by or on behalf of such Primary Beneficiary and, prior to making the distribution to the Primary Beneficiary Payee, the Electricity Distributor determines that the actual costs (including any applicable taxes but excluding any amount payable to the Electricity Distributor by or on behalf of the Primary Beneficiary) incurred or to be incurred by or on behalf of such Primary Beneficiary in respect of Eligible Measures applied or to be applied in respect of the Primary Beneficiary's Ontario residence has or would be less than such estimated costs, then the amount to be distributed to the Primary Beneficiary shall be based on such actual costs.

b. **Making of Distributions to Primary Beneficiaries**

i. It is expected that promptly after the Trustee confirms the identity of a Primary Beneficiary Payee resident in an Electricity Distributor's service area or region and the amount of the distribution to be paid to or for the benefit of such Primary Beneficiary Payee, the Trustee would arrange for payment to or on the direction of the Electricity Distributor of an amount equal to the amount of such distribution.

ii. It is expected that promptly upon receipt of funds in respect of a distribution to be made to a Primary Beneficiary Payee, the Electricity Distributor would arrange for payment of the full amount of such distribution to or for the benefit of the Primary Beneficiary Payee (including by direct payment to a third party of, or as a reimbursement or rebate of, the costs of applicable Eligible Measures installed at the residence of and for the benefit of the Primary Beneficiary Payee), without reduction or set-off by the Electricity Distributor.

iii. If the amount paid to an Electricity Distributor in respect of a distribution to be made to a Primary Beneficiary exceeds the actual amount of the distribution made to or on behalf of the Primary Beneficiary, it is expected that the Trustee would require Electricity Distributor to return such excess to the Trustee, whereupon the proceeds of such returned amount shall continue to form part of the Assets.

c. **Establishment of Operational, Administrative, Record-Keeping and Other Systems and Policies by Electricity Distributors to facilitate the Program**

i. It is expected that the Electricity Distributor would establish such operational, administrative, record-keeping and other systems and policies as are necessary to facilitate the Program and perform its duties under the Implementation Agreement, including systems or policies to: identify Primary Beneficiary Payees; comply with applicable privacy and regulatory laws; communicate with Primary Beneficiaries on behalf of the Trust; assess Eligible Measures; determine the Local Funding Estimate; monitor its recommendations to the Trustee against its Maximum Electricity Distributor Allocation and the Maximum Primary Beneficiary Amount; receive funds from the Trust in respect of distributions to the Primary Beneficiary Payees and transfer such funds to the appropriate recipients for the benefit of the Primary Beneficiary Payees; preparation and timely delivery to Primary Beneficiary Payees of such documents as are required by the *Income Tax Act* (Canada); and create and maintain records in respect of the foregoing.

ii. The Electricity Distributor would set up a separate bank account for the purpose of receiving funds from the Trust in respect of distributions to the Primary Beneficiary Payees and the transfer of such funds to the appropriate recipients for the benefit of the Primary Beneficiary Payees.

d. **Reporting, Record-Keeping, Inspection and Disclosure and Compliance Matters**

i. The Electricity Distributor would provide record-keeping, clerical and bookkeeping services relating to all matters relating to its recommendations and the performance of its other duties and obligations under its Implementation Agreement.

ii. The Electricity Distributor would keep and maintain all financial records and non-financial documents and records relating to the provision of services under its Implementation Agreement.

iii. The Electricity Distributor would provide to the Trustee quarterly and annual reports ("**Reports**") for the duration of its Implementation Agreement. Such Reports would set out, among other things, the amounts of the distributions paid to or for the benefit of applicable Primary Beneficiary Payees, the average distribution amount per such Primary Beneficiary Payee, the Eligible Measures for which distributions have been made, and the uptake of energy efficiency measures.

iv. The Electricity Distributor would agree to provide to the Trustee such information as is necessary for the Trustee to (v) comply with applicable law; (w) prepare financial statements for the Trust; (x) prepare and submit such documents as are required under the *Income Tax Act* (Canada); (y) comply with the Trust's applicable obligations under the Transfer Payment Agreement; and (z) such other matters as the Trustee reasonably requests.

v. The Trustee, its authorized representatives or an independent auditor would be permitted to, at its own expense, on twenty-four hours' notice to the Electricity Distributor and during normal business hours, inspect the records of and information respecting the Electricity Distributor to confirm its compliance with the Implementation Agreement, including regarding its processes for recommending the Primary Beneficiary Payees and their respective distribution amounts and regarding the delivery of Trust funds on behalf of the Trustee to or for the benefit of the Primary Beneficiary Payees.

e. **Standard of Care**

i. The Electricity Distributor would be required to agree to perform its duties provided under the Implementation Agreement exercising the degree of care, diligence and skill that a reasonably prudent Person would exercise in comparable circumstances.

ii. In performing its duties under the Implementation Agreement (including the recommending of Primary Beneficiary Payees to the Trustee), the Electricity Distributor would be required to agree to seek to avoid actual, potential or perceived conflicts of interest.

iii. The Electricity Distributor would be required to agree that it would not, in performing its obligations under the Implementation Agreement, take any action which it knows or ought reasonably to know would cause the Trustee or the Trust to be in violation of any law, rule or regulation applicable to it.

f. **Expenses**

The Electricity Distributor would be eligible to receive reasonable compensation and reimbursement of its actual out-of-pocket costs associated with the performance of its duties and obligations under the Implementation Agreement, subject to compliance with requirements substantially equivalent to the Province's Travel, Meal and Hospitality Expenses Directive. Such compensation amounts and reimbursement entitlements would be specified in the Implementation Agreement.

g. **Representations**

The Electricity Distributor would make customary representations to the Trust regarding, among other things, its legal capacity; authorization; non-contravention of law or material contract to which it is a party; and the enforceability of the Implementation Agreement.

h. **Indemnification**

The Electricity Distributor would be required to agree to provide customary indemnities to the Trust and the Trustee from and against claims, damages and liabilities which the Trust or Trustee may suffer or incur as the result of any breach of the Agreement by the Electricity Distributor or its representatives.

The Trustee shall have regard to, but shall not be specifically bound by, the following principles in applying its discretion in relation to the administration of the Trust:

4. Identification of Primary Beneficiary Payees

4.1 Except in exceptional circumstances, a Primary Beneficiary would not be expected to receive a benefit from the Trust unless at the time of consideration it satisfies, in addition to the requirements contemplated in the definition of "Primary Beneficiary", each of the following criteria (the "**Selection Factors**"):

(i) it has a participant agreement with an applicable Electricity Distributor to undertake measures (its "**Energy Plan**") to improve the electricity efficiency and/or promote the conservation of electricity at its Ontario residence;

(ii) its Energy Plan involves one or more Eligible Measures, as may be designated by the Trustee from time to time from;

(iii) it confirms that:

1. the primary purpose of its Energy Plan is the conservation and efficient use by the Primary Beneficiary of electricity, and is not for the purposes of the Primary Beneficiary making a profit;

2. it would otherwise not have the financial resources to undertake the Eligible Measures included in its Energy Plan; and

3. it would otherwise not be eligible to receive amounts in respect of the Eligible Measures as a HAP Eligible Person;

(iv) it has demonstrated a need for financial assistance on the basis that its periodic electricity bills represent a financial burden, relative to its available financial resources; and

(v) such other criteria as the Trustee may determine, including based on the recommendations of Electricity Distributors or other knowledgeable Persons made on the basis and having regard to the delegations contemplated by the Permitted Delegations Annex or any applicable Implementation Agreement.

4.2 It is recognized that, in furthering the Purpose, an efficient basis upon which to allocate funds to the Primary Beneficiaries across different areas and regions within Ontario may be based on the areas and regions serviced by the Electricity Distributors operating within Ontario.

4.3 It would not be contrary to the Purposes if funds are made available by the Trustee to the Primary Beneficiaries unequally across different areas and regions within Ontario, and it is expected that in making such an unequal division it would be appropriate to have regard to:

(i) broad economic parameters of economic activity and the specific financial resources of the residents of the areas and regions, in each case as an indication of the relative need of such residents across the areas and regions;

(ii) electricity use and efficiency levels of residential electricity customers across the areas and regions;

(iii) specific regional indicators of economic weakness and need; and

(iv) such other factors as the Trustee may determine are relevant, including based on the submissions, advice and recommendations of Electricity Distributors or other knowledgeable Persons made on the basis and having regard to the delegations contemplated by the Permitted Delegations Annex or any applicable implementation Agreement.

4.4 It is recognized that, in furthering the Purpose, the designated Electricity Distributor for an area or region in which a Primary Beneficiary resides would be expected to:

(i) be a reliable source for the purpose of assessing and confirming whether the Primary Beneficiary satisfies the Selection Factors;

(ii) be an efficient intermediary for the purpose of communicating with the Primary Beneficiary, including with respect to matters such as regarding the availability, terms, conditions and intended purposes of Program;

(iii) be able to facilitate an efficient payment of distribution determined to be made to or on behalf of the Primary Beneficiary, having regard to the Electricity Distributor's established practices, procedures and systems for dealing with its customers; and

(iv) have established contractual arrangements with the Primary Beneficiary that may apply to the protection and confidentiality of information provided by or respecting the Primary Beneficiary, which information may be useful in the consideration by the Electricity Distributor in its assessment of whether the Primary Beneficiary satisfies the Selection Factors, which information may not otherwise be available or readily accessible or verifiable by the Trustee.

4.5 It is recognized that, in furthering the Purpose, the Electricity Distributor for an area or region in which a Primary Beneficiary resides will have market and utilization information that may be useful in assessing the relative needs of Primary Beneficiaries within its area or region. Such information is expected to be relevant in assessing the extent to which one such Primary Beneficiary's financial needs and the merits of its Energy Plan are greater or more compelling than those of another such Primary Beneficiary, which comparison may be relevant to the extent that the funds allocable to the Primary Beneficiaries resident in the area or region are otherwise insufficient to meet the requests for funding by all such Primary Beneficiaries.

4.6 Accordingly, it is recognized that, in furthering the Purpose, it is consistent with the Purpose that the recommendations of Electricity Distributors be utilized and relied upon by the Trustee to guide the process of identifying particular Primary Beneficiaries in making distributions to the Primary Beneficiaries.

4.7 If an Electricity Distributor for a particular area or region is unable or unwilling to assess or confirm the application of the Selection Factors to Primary Beneficiaries residing in the area or region or to make recommendations in relation to such matters, one or more of the following may provide a suitable alternative source of information and for information gathering, assessment and confirmation purposes in relation to such area or region:

(i) other Electricity Distributors operating in adjacent or other areas or regions in Ontario;

(ii) the Ontario Energy Board;

(iii) the Independent Electricity System Operator; and

(iv) anyone else having relevant expertise and access to information regarding the electricity market of the Province, in each case as may be considered relevant by the Trustee.

4.8 To the extent that privacy law or other legal requirements limit an Electricity Distributor from providing or making available specific information respecting the application of the Selection Factors to a particular Primary Beneficiary or group of Primary Beneficiaries, it is recognized that, in furthering the Purpose, it may be appropriate to redact or make generic affected information regarding such Primary Beneficiary in connection with the identification and confirmation of a Primary Beneficiary's eligibility and participation in the Program. If such limitations or restrictions would limit an Electricity Distributor from providing or confirming the name of a particular Primary Beneficiary to the Trustee, then it should be sufficient that such information may be obtained or disseminated on a confidential basis if and when required by the Trustee for the proper administration of the Trust and on that basis such impediments should not disqualify a Primary Beneficiary from participating in the benefits of the Program, provided that the confidential record-keeping of the Electricity Distributor would be available in connection with the application of any applicable legal process predicated on the identification of such Primary Beneficiary for the purposes of substantiating its rights as a Primary Beneficiary of the Trust or as to the validity or subsistence of the Trust.

5. Eligible Measures

5.1 It is expected that the Trust will identify eligible measures that, taking into consideration the principles set forth in the Principles Annex, have regard to the following (the "**Measures Factors**"):

(i) is the measure generally expected to result in reduced electricity consumption by a Primary Beneficiary if properly installed and used;

(ii) is the measure recognized under another Provincial program as being appropriate for achieving electricity conservation among a population analogous to the Primary Beneficiaries;

(iii) does the measure present any unacceptable health or safety considerations, either with respect to the Primary Beneficiary, a party providing or installing the measure, or the physical environment;

(iv) is the measure broadly available to residents across different areas and regions of the Province; or

(v) is the measure a requirement or precursor to another measure, the other measure being one which meets any of the other Measures Factors.

5.2 In identifying and applying the Measures Factors, Electricity Distributors would be expected to have expertise in assessing the suitability of efficiency and conservation measures in their respective areas and regions, which may differ across areas and regions across the Province based on factors (among other things) such as the climate, geography, density, electricity infrastructure, residential structures, and electricity use rates applicable within such areas or regions.

5.3 The measures specified in Schedule A to this Principles Annex may initially be considered to be consistent with the Measures Factors (subject to change as contemplated under the Permitted Delegations Annex).

6. Promotion of the Program

6.1 It is expected that the Trustee will undertake or engage others to undertake diligent efforts to promote the availability, terms and benefits of the Program to Primary Beneficiaries, including by establishing consistent communications through the Electricity Distributors.

6.2 It is expected that the Trustee will acknowledge the financial support of the Province in connection with the establishment and the funding for the Program, including in any external communications to or marketing directed at the Electricity Distributors and the Primary and Residual Beneficiaries. In its delegation of any duties or powers to the Electricity Distributors through Implementation Agreements it is expected that Electricity Distributors will acknowledge the financial support of the Province in connection with the program including in any communications or marketing to Primary Beneficiaries.

7. Conduct of the Trust and the Program

7.1 It is expected that administrative expenses of the Board of Trustees and its members, including any expenses relating to the Trust, to the establishment of the Trust and any expenses related to the implementation and operation of the Program, including by or through Electricity Distributors and other relevant entities, will be recognized and subject to reimbursement on a basis that is substantially consistent with the accountability provisions contemplated in the Transfer Payment Agreement and the principles in the Province's Travel, Meal and Hospitality Expenses Directive, as set out in Schedule B to this Principles Annex.

7.2 The Trustee is expected to conduct its activities in a manner that complies in all material respects with the Transfer Payment Agreement, including to:

(i) act prudently and in furtherance of the Purpose;

(ii) report not less frequently than annually the results of its activities for information purposes to the Province in connection with the Program;

(iii) comply with the Province's request for any independent verification or audit if determined to be necessary or appropriate by the Province;

(iv) return Assets that have not been distributed if it is determined that the Trustee has breached its Standard of Care in discharging its material duties under the Declaration, and has not cured such material breach despite having been given a reasonable opportunity by the Province to do so in light of the circumstances of such material breach, with the result that all or a significant part of the Assets have not been or are not being applied and distributed in furtherance of the Purpose or are being applied and distributed in a manner that is directly contrary or without regard to the Purpose.

7.3 Electricity Distributors are not intended to directly profit from distributions of funds made from the Trust, although it is recognized that the objectives of electricity efficiency and conservation of Primary Beneficiaries located in the service area or region of an Electricity Distributor, and the cost savings and improved credit worthiness of such Primary Beneficiaries, may be financially beneficial to the Electricity Distributor.

7.4 Distributions from the Trust are intended to allow receiving Primary Beneficiaries to undertake Eligible Measures at no or minimal personal cost.

7.5 Without in any way limiting the discretion of the Board of Trustees to extend the period during which the benefits of the Program may be available to the Primary Beneficiaries, up to and including the Final Distribution Date, it is expected that the Trust Assets would be distributed to

Primary Beneficiaries during the period from the Original Trustee Replacement Date to April 30, 2019.
