(2) **Validity of Dispositions** – ~~Despite any limitations or restrictions on a Disposition that may arise by contract or by operation of any applicable law of the Province or any consent requirement applicable to a Disposition that may arise by operation of any applicable law of the Province, a~~**A** Disposition by IESO **of all or any part of the IESO Funding Shortfall** to an Absolute Assignee ~~made under the Financing Plan~~, or **a Disposition of all or any part of an Investment Interest** by one Absolute Assignee to another Absolute Assignee made under the Financing Plan, shall be permitted and when made shall be valid and enforceable in accordance with the terms of the related Disposition Document and shall be effective to confer upon the Absolute Assignee thereof a valid property right and interest in, to and under the ~~applicable~~**IESO Funding Shortfall or** Investment Interest**, as applicable** (or relevant portion thereof) in accordance with the terms of such Disposition, provided that the parties to the applicable Disposition Document have expressly stated therein that such Disposition is a sale or other absolute transfer. Without limiting the foregoing, any Disposition that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as a true sale and absolute transfer of the ~~Regulatory Asset Owner's applicable~~**IESO Funding Shortfall or an Absolute Assignee's** right, title~~,~~ and interest in, to and under ~~the Regulatory Asset~~**an Investment Interest, as applicable** (or relevant portion thereof), and not merely as a Pledge thereof, and upon such Disposition the assigner or seller under the applicable Disposition Document shall retain no right, title or interest in the **IESO Funding Shortfall or** Investment Interest **(or relevant portion thereof)** subject to the Disposition, including all rights under the **IESO Funding Shortfall or** Investment Interest arising after such Disposition. **[NTD: Subject to review by Osler/dealers.]**

(3) **Perfection and Priority of Dispositions** – Any Disposition of an interest in a Regulatory Asset shall be vested, valid, binding and perfected from the time when such Disposition is made. Such Disposition shall be perfected, vested, valid and binding as against the **IESO or** transferring Regulatory Asset Owner**, as applicable,** and all other persons who have claims of any kind (whether in tort, contract or otherwise) against **IESO or** the transferring Regulatory Asset Owner, **as the case may be,** irrespective of whether such persons have notice of the Disposition and the property rights and interests acquired by the Absolute Assignee under such Disposition shall be free and clear of any liens in favour of such other persons.

(4) **Validity of Pledges** – ~~Despite any limitations or restriction on a Pledge that may arise by contract or by operation of any applicable law of the Province or any consent~~

~~requirement applicable to a Pledge that may arise by operation of any applicable law of the Province, a~~**A** Pledge by an Absolute Assignee may be made to secure any ~~related~~ Funding Obligation and when made shall be valid and enforceable in accordance with its terms and shall be effective to confer upon the Pledgee a valid security interest in, to and in respect of the related Investment Interest in accordance with the terms of the Pledge. ~~Other than as required by the Financing Plan, no~~**No** consent of**, or notice to,** any person shall be required to give effect to a Pledge made to secure any Funding Obligation.

(5) **Perfection and Priority of Pledges** - For purposes of the *Personal Property Security Act* (the "PPSA"), the Regulatory Asset shall be intangible personal property and any Pledge made by an Absolute Assignee in respect of a Funding Obligation **shall, subject to the terms thereof, give rise to a security interest of which the PPSA applies, and** may be perfected by filing a financing statement under the PPSA on that basis. All proceeds of a related Investment Interest that are subject to such a Pledge that are received by the Absolute Assignee shall immediately be subject to the such Pledge, and the security interest in such proceeds shall be perfected pursuant to the PPSA.~~17~~**14** A Pledge perfected under the PPSA shall be a continuously perfected security interest and shall have priority over any other lien or security interest, created by operation of law or otherwise, that may attach to the property rights and interests in the Investment Interest subject to the Pledge unless the Pledgee has otherwise agreed in writing. ~~Subject to the terms of the Collective Action Agreement, a~~**A** Pledgee shall have a perfected security interest in a related Investment Interest, including the Absolute Assignee's rights and interests in and to Transition Charge Collections or other related proceeds in respect of the Investment Interest and that are deposited in any Regulatory Asset Account or other account of any Electricity Distributor, IESO, Alternative Collection Agent or other person who may have commingled such Transition Charge Collections or such other proceeds with other funds. All provisions of the PPSA shall apply to the Regulatory Asset on the basis that it is intangible personal property, except to the extent otherwise provided in this Section 6(5).

(6) **Enforcement of Property Rights** – The rights of any Regulatory Asset Owner to collect and enforce its rights and interests in, to or in respect of the Regulatory Asset shall be exercised in the manner set forth in Article 5.

(7) **Owners of a Specified Portion of the Regulatory Asset** – A Regulatory Asset Owner may effect a Disposition to an Absolute Assignee of a specified portion of its rights and interests in the Regulatory Asset, including by way of a Disposition of a divided or an undivided interest therein as specified in a related Disposition Document~~, in each case under the Financing Plan~~. In no circumstance may the specified portions of the rights and interests in the Regulatory Asset owned by all Regulatory Asset Owners be greater than all of the rights and interests that comprise the Regulatory Asset in the aggregate.

(8) **Collective Action Required** – If a Regulatory Asset Owner's rights and interests in the Regulatory Asset comprises less than the entire property right and interest constituted by the Regulatory Asset, such Regulatory Asset Owner shall only enforce such right and interest on a collective and coordinated basis with each other Regulatory Asset Owner in accordance with the Collective Rights Agreement. **[NTD: Move to Regulations.]**

~~17~~**14** Consider whether to simply leave this and have a financing statement be filed under the PPSA. This would normalize the security interest and reduce any adverse suggestion that security would not otherwise arise.

Article 7 – Establishment of the Fair Allocation Plan[1815] **[NTD: Move entire Article 7 to Regulations, other than 7(1) and 7(2).]**

(1) **Adoption of the Fair Allocation Plan** – The Delegate may, [by written declaration,] designate and adopt a Fair Allocation Plan in compliance with Article 7. The Fair Allocation Plan so designated and adopted shall be the Fair Allocation Plan for all purposes of this Act, except if amended, amended and restated or terminated by a further written declaration made by the Delegate in compliance with Section 7(4).**[the Regulations]**

(2) **Principles and Parameters** – A Fair Allocation Plan shall seek to allocate Future Fair Share of Green Transition Benefits across present and future Retail Consumer Groups**Regulated Consumers** on a basis that the Delegate, in its sole and absolute discretion, determines to be equitable, having regard to the following principles and parameters:

[NTD: E&Y will need to see the guidelines of the Fair Allocation Plan set in reference to parameters that will allow it to establish a modeling curve]

- **[Inflation period: (between November 2017 – and April 2022) bill increases need to be capped at inflation (assumed at 2% for modeling purposes)]**
- **[Transition Period: (May 2022- April 2027) bills increased at a consistent rate which is set so that the borrowing will not exceed the Trust's capacity, which is determined by the Finance Service Manager]**
- **[Amortization Period: (May 2027-April 2047) equitable distribution of Finance Amount among Regulated Consumers]**

1. Future Fair Share of Green Transition Benefits should be allocated over the period ending on the Program End Date.

2. <*The Fair Allocation Plan should specify the Reference Periods for the purpose of* >identifying applicable Retail Consumer Groups and <*allocating Future Fair Share of Green Transition Benefits among* >them< *on a relative basis over time.* >

2. 3. The share of Future Fair Share of Green Transition Benefits allocable to a particular Retail**Regulated** Consumer Group in respect of a Reference Period should be proportionate to a reasonable assessment of the benefits of the Green Generation Initiative to the Retail**such Regulated** Consumer Group over such Reference Period**, other than**> *in exceptional circumstances*<**.**

[1815] The idea is that the Fair Allocation Plan will be set once at the outset based on the principles and parameters described here, all as applied based on information available and the reasonable expectations and discretion of the delegate at such time. If the expectations are not fulfilled (e.g., generators may choose to retire their facilities at the end of their current procurement contracts and not invest in extending service lives to secure further procurement contracts), the Fair Allocation Plan will be unaffected, unless it is specifically amended (assuming amendments will be permitted by the legislation).

4. The share of Future Fair Share of Green Transition Benefits to be allocated to a Retail Consumer Group and any future Retail Consumer Group at a particular time should not exceed the Estimated Future Green Transition Benefits, measured in respect of the Reference Periods following such particular time and to the Program End Date.

5. No future Retail Consumer Group should be allocated an unreasonably disproportionate share of Estimated Future Green Transition Benefits. Except<- *in exceptional circumstances*> or in the case of any reallocation of an Over-Assessed Amount as contemplated in 7, below, the Future Fair Share of Green Transition Benefits to be allocated under a Fair Allocation Plan to any future Retail Consumer Group should have regard to *[Insert formula if a year-over-year maximum amount is determined to be appropriate].*

3. 6. The time value of money should be reflected in the Fair Allocation Plan, in order to equate the relative values of the nominal allocations of Future Fair Share of Green Transition Benefits, calculated in current dollars, to future Retail Consumer Groups over time.>*The Fair Allocation Plan should specify the Reference Periods for the purpose of* <>*allocating Future Fair Share of Green Transition Benefits among* <**Regulated Consumers**> *on a relative basis over time.* <

7. To the extent there has been an Over-Assessed Amount, the Fair Allocation Plan may determine that an adjustment should fairly be made to rebate Retail Consumers for such an amount, by reducing the costs otherwise attributable under the Act to such Retail Consumers. The relative costs of the Green Generation Initiative are reflected under the Act by the attribution of Transition Charges to such Consumer Groups, based on the Financing Plan seeking to track the allocations of benefits under the Fair Allocation Plan. Accordingly, the Maximum Transition Charge Amount determined for one or more Retail Consumer Groups having regard to the Fair Allocation Plan otherwise applicable may be appropriately reduced to recognize the effect of the Over-Assessed Amount. In such a case, a determination to reduce the Maximum Transition Charge Amount applicable for certain related Reference Periods should have regard to the principle that the corresponding rebate should be extended to benefit the Consumer Group or Consumer Groups in closest proximity to the Legislative Implementation Date.

(3) Attribution Methodology – The Fair Allocation Plan shall specify the Attribution Methodology for the purposes of allocating the Period Transition**Finance** Charges across the Retail**Regulated** Consumers of a particular Retail Consumer Group. The Attribution Methodology shall result in an attribution of such Transition Charges that is considered by the Delegate to be equitable, and may have regard to such principles and parameters as may be further set forth in a Regulation.; **provided that**> *the Attribution Methodology* <**shall not be used to limit the recovery of Transition Charges. [NTD: Can the methodology be adjusted outside an amendment? If so, the rating agencies need to understand the limits of any adjustment.]**

(4) Amendments of the Fair Allocation Plan – The Fair Allocation Plan may be amended, amended and restated or terminated by the Delegate, provided that such amendment, amendment and restatement or termination shall (a) not be inconsistent with the principles and parameters set forth in (2) or (3), above, or the Regulation ~~and~~, (b) comply with any restrictions or limitations specified with respect thereto in any Funding Obligation~~.~~**, and (c) not impair any Regulatory Asset, outstanding Funding Obligation or any Transition Charges. [NTD: If the Fair Allocation Plan is amended, there should be no further Regulatory Assets until the revised Fair Allocation Plan and corresponding Financing Plan have been approved.]**

Article 8 – The IESO ~~Retained Interest~~Funding Shortfall

(1) ~~Maintain Books of Account~~ ~~– IESO may maintain books of account to record the IESO Retained Interest Amount and all adjustments thereto from time to time. Such books of account shall be determinative with respect to the amount of IESO's related regulatory asset.~~**Recording of IESO Funding Shortfall -- IESO will record any IESO Funding Shortfall in its books.**

~~**(2) Limitation on Additions** – IESO shall not record additions to the IESO Retained Interest Amount in respect of IESO Funding Shortfalls (a) if such additions are restricted by the terms of any Disposition Document or the Collective Action Agreement, or (b) on or after •, 2017.~~

(2) ~~**(3)**~~ **Dispositions** – IESO may effect a Disposition **of all or any part of the IESO Funding Shortfall** to an Absolute Assignee if (a) the ~~Absolute Assignee has or will concurrently become bound by the Collective Rights Agreement; (b) the~~ Disposition is effected pursuant to a Disposition Agreement duly executed by IESO; **and** (~~c~~**b**) the Financial Services ~~Agent~~**Manager** confirms in writing that the Disposition **complies with any restrictions or limitations specified with respect thereto in any documents evidencing the Funding Obligations and** is permitted under the Financing Plan~~; and (d) the net proceeds payable to IESO from the sale of the related Investment Interest would not exceed the IESO Retained Interest Amount immediately before the time of such Disposition~~.

(3) ~~**(4)**~~ **No Continuing Interest in any Investment Interest** – IESO shall have no continuing right or interest in any ~~Investment Interest~~**IESO Funding Shortfall** subject to a Disposition effected by IESO under a Disposition Document to which IESO is a party~~and IESO shall not assert any such right or interest or take or omit to take any action to exercise or enforce its rights or interests under the IESO Retained Interest if such action or omission would impede or obstruct the rights of any Absolute Assignee or a Pledgee to enforce its rights and interests in any Investment Interest, except if IESO is expressly permitted to take or omit to take such action, respectively, under the related Disposition Document or the Collective Rights Agreement.~~

~~**(5) IESO Financing Costs** – IESO shall be entitled in good faith to incur reasonable financing costs (including interest and other reasonable financing charges) reflecting market terms and conditions and which are payable in arrears, in order to finance its ownership of the IESO Retained Interest from time to time. **(6) IESO Recoveries** –~~

IESO shall, in respect of a month, be entitled to receive from IESO Remittances on a related Settlement Date the amount (if any) available to IESO under Section 5(6)(b).

Article 9 – The Financing Plan [NTD: Move all of Article 9 to Regulations other than 9(1).]

(1) Power to Prepare, Implement and Amend the Financing Plan – The Financial Services AgentManager shall be authorized to prepare, implement and amend a financing plan for the Financing Entities> *and propose the adoption*< of such financing plan as the Financing Plan. (4) OEB Review of Financing Plan – The [OEB] [shall] undertake an annual review of the records maintained by the Financial Services AgentManager for the purpose of confirming that the Funding Obligations incurred and the Finance Amounts paid by or on behalf of the Absolute Assignees were incurred and paid, respectively, in material conformity with the Financing Plan. [NTD: We would prefer that this be dealt with by an attestation prepared by an officer of the Financial Services Manager.]

(5) Replacement of the Administrative AgentFinancial Services Manager – If the OEB identifies deficiencies or makes recommendations in its review under Section 9(4), the Administrative AgentFinancial Services Manager shall take reasonable measures to remedy such deficiencies if remediable, and shall in any event have regard to the recommendations of the OEB in relation to further actions undertaken by the Financial Services AgentManager under the Financing Plan. If the Financial Services AgentManager is unwilling or unable to reflect such recommendations in relation to such further actions, the Delegate may by written declaration designate one or more other persons who shall thereafter become the Financial Services. Manager. Any replacement must comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations.

(6) Obligation to Apply IESO Remittances – The Financial Services AgentManager shall ensure that amounts transferred to it under Article 5, as agent for and on behalf of the Absolute Assignees, or otherwise in respect of or as proceeds from an applicable Investment Interest shall only be applied or used to pay related Finance Amounts when

they are due and payable and for no other purpose. **[NTD: This can be dealt with by contract.]**

(7) Non-Recourse – The Financing Plan shall be implemented so that Funding Obligations incurred shall be without recourse to or to any assets of the Electricity Distributors, IESO, any Alternative Servicer, any Alternative Collection Agent, the Financial Services Agent**Manager**, the OEB, the Province or the Lieutenant Governor in Council **or Her Majesty in right of Ontario**, other than if and to the extent that such persons or entities are liable for the performance of obligations or duties arising under this Act or expressly agree to become liable pursuant to any Funding Obligation or obligation in relation to a Finance Amount. [All Funding Obligations shall contain a statement to the following effect: "Neither the full faith and credit nor the taxing power of the Province of Ontario is pledged to the payment of the principal of, or interest on, this [obligation].]

(8) Incurrences are Binding – Notwithstanding anything to the contrary in this Act, each**Each** Disposition made to or by an Absolute Assignee and**,** all amounts payable or becoming due and payable by or on behalf of an Absolute Assignee under or in connection with any obligation purporting to be a Funding Obligation **and each Pledge entered into by an Absolute Assignee**, shall be **valid and** binding for the purposes of this Act, including in determining the amount of related Transition Charges, despite**notwithstanding** any impairment or defect resulting from such failure**defect in the manner in incurrence or any inconsistency with the Fair Allocation Plan or the Financing Plan**.

[Article 10 – Compliance Matters[19][16]

(1) Right of the [OEB] to Inspect Books and Records - For the purpose of investigating compliance with the provisions of this Act, the OEB shall have the right, jurisdiction, power and authority to examine the books and records of *[Insert names if any]*.

(2) [OPG's Rate Settings – When setting other rates for or in respect of OPG, the OEB shall not take into account (a) the administrative or servicing fees charged by OPG as Financial Services Agent**Manager** [in excess of the actual incremental costs incurred by such person of providing administrative or servicing services]; (b) the cost consequences to OPG of being the Financial Services Agent**Manager**; or (c) the consequence of OPG consolidating the assets and liabilities of any Financing Entity for OPG's accounting purposes, in each case in setting any regulated payment amounts for OPG.][20][17]

[19][16] As noted above, the outcome of any regulatory action undertaken by the OEB will not affect Funding Obligations that have been incurred under the Financing Plan. This Article and any potential role for the Auditor General is still under consideration.

[20][17] As an alternative to this provision, consider clarifying under s. 78.1(4) of the OEB Act (which currently gives the OEB discretion in setting payment amounts subject to O. Reg. 53/05) that the OEB in setting OPG payment amounts for prescribed generation shall not consider OPG's role as Administrative Agent**Financial Services Manager** of any Financing Entities associated with the Fair Hydro initiative, perhaps with the exception of any operating fees that may be received by OPG for performing that role.

Article 11 – Undertaking of the ~~Lieutenant Governor in Council~~[21]Her Majesty in right of Ontario[18]

in each case including through the introduction of any bill or the passing of any legislation or regulation having such effect.

In the event of a market disruption that renders it impossible to refinance debt when required (or where financing of amounts required to service the debt is not available because of a market disruption where the Financing Entity was relying on such further issuance of debt until the recovery is set to begin to fund interest), either the Province must step in and payout the debt or there must be the right to recover the debt from ratepayers as it becomes due, notwithstanding the intended rate cut.

(4) Compensation for Failure – Absolute Assignees shall be compensated by Her Majesty in right of Ontario for any losses suffered by them as a result of any failure by ~~the Lieutenant Governor in Council~~Her Majesty in right of Ontario to comply with its undertakings and agreements in this Article 11.~~22~~19

Schedule 2

Requirements Applicable to Alternative Invoicing Agent/ Alternative Collection Agent

[To be considered.]

Schedule 3[24]

Principles and Parameters for Establishing the Financing Plan

The following principles and parameters provide a guideline as to what a Financing Plan should address:

~~(1)~~ ~~in respect of each Reference Period, make reference to the allocations of Future Fair Share of Green Transition Benefits to each Reference Group contemplated by the Fair Allocation Plan;~~

~~(2)~~ ~~estimate IESO Funding Shortfalls for each Reference Period;~~

~~(3)~~ ~~consider alternative funding arrangements suitable to fund the estimated IESO Funding Shortfalls, including short term and/or long term Funding Obligations;~~

(1) ~~(9)~~ consider quantities, maturities, payment obligations, prepayment or redemption rights and such other features of Funding Obligations so that payments made for a Reference Period reasonably correspond to the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

(2) ~~(4)~~ if the anticipated amount of any Repayment (together with payments of other Finance Amounts) to be made in respect of a Reference Period would materially exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable ~~Retail Consumer Group~~**Regulated Consumers** under the then current Fair Allocation Plan, diligent efforts should be made to determine whether a Refinancing or deferral of such Repayment may be reasonably and cost-effectively effected based on then prevailing market terms, conditions an circumstances;

(3) ~~(5)~~ reflect the assumptions and requirements specified in any contemplated Funding Obligation (e.g., any limit on the maximum amount of Transition Charges charged to a hypothetical ~~Retail~~**Regulated** Consumer relative to his or her monthly electricity bill, as prescribed by any rating agency that ascribes its credit rating to or in respect of the Funding Obligation **[having regard to the application of the ~~Allocation~~Attribution Methodology][NTD: Are the words in square brackets necessary?]**);

(4) require the Financial Services Manager, for and on behalf of each Regulatory Asset Owner, to use diligent efforts to manage Finance Amounts to be borne by Ratepayers;

(5) include a proposal regarding the compensation of the Financial Services Manager that reflects market terms and conditions; and

(6) ~~incur Funding Obligations from time to time on the best terms available at such time for a financing transaction of the size and type contemplated, and having regarding to the following parameters:~~**require that the Financial Services Manager report annually to**

~~a. whether the Absolute Assignees will require committed access to short term liquidity to cover estimated IESO Funding Shortfalls prior to incurring fixed term Funding Obligations, and the amount and repayment terms of any such required liquidity; provided that any Repayment required to be made under the terms of such short term liquidity would not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;~~

~~b. the basis upon which the Financial Services Agent will select the term to maturity of any other Funding Obligations; provided that any Repayments required to be made under the terms of such Funding Obligations should not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;~~

~~c. the basis upon which the interest rates applicable to such Funding Obligations would be determined;~~

~~d. the reference capital or finance market in which such Funding Obligation would be incurred, including markets outside of Canada if considered by the Financial Services Agent to be appropriate in the circumstances;~~

~~f. the basis upon which the Financial Services Agent will select counterparties under any transaction to be entered into by an Absolute Assignee, including any paying agent, servicer, cash manager, liquidity provider, hedge counterparty, account bank, lender, note trustee, security trustee, paying agent, registrar/transfer agent, financial services agent, arranger or manager;~~

~~g. the basis upon which the Financial Services Agent will manage counterparty risk, including by providing for maximum counterparty exposure limits having regard~~

to concentration, credit and other identified risks with respect to individual counterparties or countries;

h. the basis upon which the Financial Services Agent will negotiate and settle Finance Amounts, including the amount of any Redemption Amounts, Finance Reserve Deposits and Additional Funding Charges;

(7) the basis upon which Funding Obligations may be redeemed, prepaid, repurchased or otherwise affected, having regard for the need to minimize debt service charges and other Funding Costs, and the need to maintain a stable funding platform to finance the IESO Funding Shortfalls from time to time on a basis that is consistent with the allocations of Future Fair Share of Green Transition Benefits to applicable Reference Groups under the Fair Allocation Plan;

(8) the basis upon which any Repayments, Funding Costs and Redemption Amounts will be paid, including any defeasance, sinking fund or through other reserves or liquidity facilities;

(9) the basis upon which fees, charges, expenses, costs, indemnities, reimbursements and other amounts payable to or for the benefit of the Financial Services Agent and other agents and service providers to the Absolute Assignees may be determined, allocated and paid;

(15) describe the requirements applicable to any special purchase entity that will purchase an Investment Interest, including proposed capitalization, governance, and restrictions on their powers and activities; and

Fair_Hydro_Act Torys_Osler Mark-up April 11 2017 Draft (Torys-Oslers_Apr....pdf

CONFIDENTIAL AND PRIVILEGED

Preliminary Draft for Discussion Purposes Only

"Fair Hydro Act"

Article 1 – Purpose

The Province has and continues to encourage the construction and development of facilities for the long-term operation and generation of electricity in the Province using sustainable, lower carbon-based technologies such as new gas-fired generation, renewable facilities, energy from waste and biomass, including under the Province's various procurement, standard offer, feed in tariff and other similar programs (the "Green Generation Initiative"). The long-term benefits of the Green Generation Initiative accrue over time and have benefited and will continue to benefit present and future electricity consumers in the Province.

The out-of-market costs of the Green Generation Initiative are currently passed through to electricity consumers by way of a monthly adjustment amount (the "Green Costs Adjustment"), which in turn forms part of the overall adjustment calculated by the Independent Electricity System Operator ("IESO") pursuant to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* (the "Global Adjustment").

The Green Costs Adjustment is currently determined each month by reference to the amounts paid by IESO to the generators of electricity in the Province under the Green Generation Initiative. These amounts paid by the IESO arise because IESO has entered into long-term procurement contracts with such generators in order to provide them with revenue certainty, and in turn to encourage the generators to develop technologies and to construct and develop facilities consistent with the Green Generation Initiative. **[NTD: This statement is not correct in respect of all IESO procurement contracts.]** It has been determined that the useful lives of many of the assets developed under the Green Generation Initiative will be in excess of the respective terms of their respective procurement contracts.

Since the benefits to past, present and future electricity consumers from the Green Generation Initiative will not necessarily coincide with the costs currently attributed through the Green Costs Adjustment, based on the respective terms of the applicable procurement contracts, it has been determined that the rate at which the costs associated with the Green Generation Initiative should be passed through to Regulated Consumers (as defined in Article 2) should be more closely aligned with the benefits that such Regulated Consumers have derived and are expected to derive from the Green Generation Initiative over time. This realignment will be based on general principles and parameters that establish a reasonable basis for measuring and allocating the relative costs and benefits of the Green Generation Initiative equitably across present and future Regulated Consumers (the "Fair Allocation Plan"). **[NTD: There is no explanation as to why realignment is limited to Regulated Consumers.]**

If the Fair Allocation Plan determines that the equitable allocation of the costs associated with the Green Generation Initiative to the Regulated Consumers of a particular time period should be reduced below the amount that currently would be charged based on the Green Costs Adjustment, then the amount payable by such Regulated Consumers and in turn available to IESO will, in the aggregate, be less than the amount payable by the IESO to the generators in

respect of such period. In this case, IESO will need to obtain funding from another source to cover such a shortfall. If a funding obligation is incurred to cover such a shortfall during any period, the repayment of such funding obligation will be required in a future period, and any related repayments, finance costs, hedging costs and other transaction costs incurred will become payable in future periods. In order for IESO to obtain a reliable and committed source of cash flows to enable IESO to repay such funding amounts when they become due and payable, this Act imposes irrevocable and non-bypassable financial obligations on Regulated Consumers to pay amounts incurred in respect of such funding obligations when they become due and payable and establishes a right to invoice and collect such amounts. The right and interest in and to collect such financial obligations will take the form of the Regulatory Asset contemplated in this Act, which will constitute property rights and interests. Interests in the Regulatory Asset may be sold and absolutely assigned by IESO to one or more financing entities, which in turn will finance their acquired interests by incurring funding obligations. The incurrence and payment of such funding obligations will be administered on behalf of such financing entities by a financial services manager under the Financing Plan contemplated in this Act.

[NTD: Our strong preference is to limit the introduction to the next paragraph and move defined terms from the previous paragraphs to Article 2]

The purpose of this Act is to establish the basis upon which intergenerational fairness can be achieved by charging the costs and benefits of the Green Generation Initiative to present and future Regulated Consumers on an equitable and cost effective basis.

Article 2 – Definitions

In this Act: **[NTD: It would be preferable to use plain language definitions in the legislation and leave the more detailed definitions to either the regulations or the agreements contemplated hereunder.]**

> "Absolute Assignee" means a person to whom a Regulatory Asset Owner effects a Disposition other than as security.
>
> "Actual" means, in relation to costs, expenses or payments in respect of Funding Obligations during a Reference Period, the actual amount of such costs, expenses or payments paid or made (net of any Finance Reserve Withdrawals applied to pay such amounts), which amounts shall be recorded by the Financial Services Manager whose records shall be determinative for the purposes of this Act except to the extent of a manifest calculation error.
>
> "Additional Funding Charges" means, for a Reference Period, the fees, charges, expenses, costs, indemnities, reimbursements and other amounts (including any applicable tax amounts) that are or become payable by or on behalf of the Absolute Assignee during the Reference Period and that were incurred or committed to directly or indirectly by the Absolute Assignee in connection with the incurrence of Funding Obligations under the Financing Plan (whether at the time of such incurrence or over the term of the Funding Obligation and whether directly or indirectly), including without limitation such amounts as may be prescribed.
>
> **[NTD: See section 5(11). Remove this concept globally.]**

"Alternative Servicer" means a person appointed under Section 4(8) to assume the obligations of the Servicer under Article 4, as agent for and on behalf of the Regulatory Asset Owners. **[NTD: We see this, in effect, as the same thing as the IESO Successor; that is, replacement of the master Servicer.]**

"Assessed Past Green Transition Costs" means, in respect of a Measurement Date, the aggregate of the imputed costs of the Green Generation Initiative (expressed as an equivalent to current dollars), as reflected in the calculation of the Green Costs Adjustment, which have been charged to Retail Customers through the Global Adjustment on or prior to the Measurement Date.

"Attribution Methodology"[1] means the methodology specified in the Fair Allocation Plan for allocating the Period Finance Charges for a Reference Period to Regulated Consumers. **[NTD: We understood that the Ministry accepted that the transition charge would be a volumetric rate.][NTD: Can be moved to Regulations.]**

"Collected Amount Adjustment" means, in respect of a True-Up Period, the amount (which may be a negative amount) calculated by the Servicer or the Financial Services Manager, as applicable, equal to (a) the Estimate of the Finance Amount for the True-Up Period, minus (b) the sum of all Transition Charge Collections for the True-Up Period.[2]

"Collective Rights Agreement" means an agreement among all of the Regulatory Asset Owners (including each Absolute Assignee), each Pledgee, and the Financial Services Manager that governs the enforcement of their respective rights and interests in, to and under the Regulatory Asset on a coordinated and collective basis. **[NTD: Move to Regulations.]**

"Delegate" means any of the following person or persons designated in writing from time to time by the Minister of Energy to undertake the actions and perform the responsibilities ascribed to the "Delegate" under this Act: ●. **[NTD: Why is this delegation of authority necessary? This requires further discussion and clarity as to which entity or entities that the Province can select as the Delegate; for example, it would not be acceptable for the Province to select the OEB to be the Delegate. If this is required, an acceptable delegate would be a stakeholder committee comprised of representatives from the Ministry of Energy, the OEB, the IESO, and OPG. In addition, the regulation should prescribe how the stakeholder committee would operate.]**

"Disposition" means an assignment, transfer, conveyance, sale, contribution, set-over, exchange or other disposition of (a) IESO's right to recover all or any portion of an IESO Funding Shortfall or (b) an Investment Interest to an Absolute Assignee, in each case pursuant to a Disposition Document.

---

[1] This allocation may be volumetric or some combination of a flat amount and a volumetric charge. Further discussion is required. H&W has raised a concern regarding possible adverse changes after the fact and rating agency considerations. Consider whether hard-coding in the legislation makes sense.

[2] This would pick up adjustments based on actual collection experience, changes in the Regulated Consumer base, changes in the actual costs (versus earlier estimates) included in the Transition Charge calculation, etc.

"Disposition Document" means the agreement, deed, conveyance, instrument or other document under which IESO or an Absolute Assignee effects a Disposition to an Absolute Assignee.

"Electricity Distributor" means a rate regulated distributor licensed under Part V of the *Ontario Energy Board Act, 1998*, together with and its successors.

"Electricity Distributor Remittances" means, for an Electricity Distributor on a Remittance Date, all Transition Charge Collections received or deemed to be received **[NTD: estimated to be received? will each Electricity Distributor know?]** by the Electricity Distributor prior to the Remittance Date and that have not otherwise been remitted to Servicer or if applicable the Alternative Collection Agent in accordance with Section 5(3), including the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5.

"Electricity Invoice" means an invoice issued by an Electricity Distributor (or in its stead, by an Alternative Collection Agent), by the Servicer or by a Retailer, in each case to a Regulated Consumer that is served by the Electricity Distributor's distribution system in respect of electricity charges, including the cost of electricity, delivery and regulatory charges and related services and amounts incurred, assessed or charged in respect of connectivity to such Electricity Distributor's distribution system and in respect of applicable Transition Charges to be charged to the Regulated Consumer under this Act. **[NTD: The Alternative Servicer should only invoice for Transition Charges, not the entire invoice. Also, to avoid confusion, we suggest using the word "invoice" in reference to what the IESO sends out to distributors, and "bills" in reference to what distributors send out to consumers.]**

"Estimate" means (a) in relation to costs, expenses or payments in respect of Funding Obligations or any Finance Amount for a Reference Period, the estimated amount of such costs, expenses or payments determined by the Financial Services Manager; and (b) in relation to an assessment of the benefits of the Green Generation Initiative to Regulated Consumers, the estimated value (in current dollars) of such benefits determined by the Delegate, in each case having regard to the applicable principles and parameters set out in Schedule 1, which estimated amounts shall be determinative as the applicable estimate for the purposes of this Act except to the extent of a manifest calculation error.

"Estimated Future Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that are expected to accrue to Regulated Consumers from the establishment and implementation of the Green Generation Initiative during the period from the Measurement Date to the Program-End Date.

"Estimated Past Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that have accrued to Regulated Consumers from the establishment and implementation of the Green Generation Initiative up to and including the Measurement Date.

"Finance Reserve Withdrawals" means, for a Reference Period, the amount withdrawn during the Reference Period from deposits previously made to pre-fund, collateralize, over-collateralize or establish reserves for the payment of Funding Obligations or to pay amounts in respect of related contingencies that had been specified in the Financing Plan. **[NTD: Move this to regulation.]**

"Financial Services Manager" means OPG or, following any Replacement Event involving OPG, such other person who may be appointed as the financial services manager of the Absolute Assignees under the Financing Plan in compliance with the requirements set out in Schedule 2.[3]

"Financing Entity" means any entity established at the initiative of and managed by the Financial Services Manager to support the Financing Plan.[4]

"Financing Plan" means the written plan prepared by the Financial Services Manager in accordance with Article 9, as the same may be amended, amended and restated or terminated by the Financial Services Manager in accordance with Article 9 from time to time.

"Funding Obligation" means, in respect of an Absolute Assignee, each payment obligation (including, without limitation, each obligation to pay: principal, interest, premiums and other financing charge payments; pass-through payments; payment obligations arising under or in respect of derivatives; payment obligations owing to service providers, Financial Services Managers, finance entity intermediaries, capital markets intermediaries, advisors, lenders, credit enhancement providers, liquidity providers, disbursement counterparties, regulatory agencies and rating agencies; and all Additional Funding Charges) incurred by or on behalf of the Absolute Assignee under

---

[3] There must only be one Financial Services Manager.

[4] MOE to confirm that the legislation will provide that any Financing Entity that is a wholly-owned subsidiary of OPG (1) would not be subject to Part VI of the *Electricity Act* (Ontario) and (2) in the case of any Financing Entity that is a trust, any income of such trust (for purposes of the *Income Tax Act* (Canada) or the *Taxation Act, 2007* Ontario)) which is paid or made payable to OPG or a wholly-owned subsidiary of OPG as a beneficiary of such trust will not be taken into account in calculating the amount of a payment required to be made by OPG (or such subsidiary) by section 89 or 90 of the Electricity Act.

the Financing Plan, including any Refinancing of another such payment obligation incurred by or on behalf of such Absolute Assignee.

"Future Fair Share of Green Transition Benefits" means, in respect of a Measurement Date, the sum of (a) the Over-Assessed Amount; and (b) the Estimated Future Green Transition Benefits, in each case as of the Measurement Date.

"Green Costs Adjustment" has the meaning given in Article 1.

"Green Generation Initiative" has the meaning given in Article 1.

"IESO" means the Independent Electricity System Operator created pursuant to Part II of the *Electricity Act, 1998*.

"IESO Electricity Distribution Receipts" means, for a month, the sum of all amounts payable by Electricity Distributors to IESO , during the month pursuant to section • of the *Electricity Act* in respect of Regulated Consumers. **[NTD: IESO indicates that it likely does not work to express in regards to "amounts payable by the LDCs" because settlement between the IESO and LDCs entails payments by LDCs to the IESO and then credits/debits by the IESO to LDCs to reflect RPP shortfalls/overages.]**

"IESO Funding Shortfall" means, for a month, the amount, if any, by which (a) the IESO Electricity Distribution Receipts that would be payable to IESO for the month if determined without regard to this Act and without regard to the changes made to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* with respect to the Global Adjustment concurrently with this Act, exceeds (b) the IESO Electricity Distribution Receipts payable to IESO for the month[5].To the extent reasonably necessary to give effect to this Act, or any transaction contemplated hereby, IESO shall calculate the IESO Funding Shortfall for any month taking into account information provided by the Electricity Distributors and (i) such calculation shall be binding for all purposes; and (ii) any demonstrated inaccuracy in the calculation for any month (including any such resulting from inaccuracies in the information provided by Electricity Distributors) shall be accounted for by adjusting the IESO Funding Shortfall for a subsequent month. **[NTD: Need to add the mechanism for IESO to record this shortfall because without that there is no Regulatory Asset. This IESO Funding Shortfall is the regulatory asset owned by IESO.]**

"IESO Remittances" means, for a Settlement Date, all Electricity Distributor Remittances received by IESO or if applicable the Alternative Collection Agent prior to the Settlement Date and that have not otherwise been remitted to the Regulatory Asset Owners (each with respect to its Regulatory Asset) in accordance with Section 5(6), including the proceeds of any enforcement action undertaken by IESO or if applicable the Alternative

[5] This has been recast to recognize that the shortfall in the first 4.5 years could exceed the entire GA amount. A more refined approach to describing the concept may be considered.

Collection Agent to recover payment of amounts payable by Electricity Distributors to IESO in accordance with Article 5.

"IESO Successor" means the entity appointed by the Province to succeed to the rights and obligations of IESO as the entity responsible for managing the Province's electricity system.

"Period Finance Charges" means, for a Reference Period, the sum of (a) the Estimate of the Finance Amount (b) the True-Up Amount in respect of the applicable True-Up Period and (c) an adjustment amount as may be prescribed to account for estimated collection shortfalls and collection delays in respect of amounts under (a) and (b).

"Pledge" means, in respect of an Investment Interest of an Absolute Assignee, a lien, mortgage, charge or security interest granted to or in favour of a Pledgee by the Absolute Assignee in, to and over all or a specified portion (including a specified portion on a divided basis or by way of an undivided interest) of the Investment Interest.

"Refinancing" means, in respect of a Funding Obligation incurred by or on behalf of an Absolute Assignee, that the Funding Obligation is repaid or repurchased for cancellation by or on behalf of the Absolute Assignee by applying the net proceeds obtained by the Absolute Assignee incurring one or more other Funding Obligations.

"Regulated Consumer" means consumers of electricity in the Province as prescribed.

[NTD: There are a number of issues with this definition. First, the word "Retail" is a source of confusion as it implies customers of licensed retailers. Really, the purpose of the term is to define the group of consumers that are eligible to receive the benefit of the Fair Hydro program and who will bear the cost of the program over the long term. We have proposed "Regulated Consumer" but you could also use the term "Eligible Consumer" or "Fair Hydro Eligible Consumer" and for purposes of the legislation to say that it is a member of a class of consumers prescribed by the regulations for purposes of the relevant section of the legislation. The regulation would then describe who is in the class. Second, it may not be appropriate to rely on the class of consumers prescribed for the purposes of s. 79.16 or under the OREC Act. Section 79.16 is the section that defines the class of RPP consumers. We understand that the "Fair Hydro Eligible Consumers" are not an identical class to that which is eligible for the RPP or for the Ontario Rebate for Electricity Consumers. For example, we have heard that Fair Hydro Eligible Consumers will (a) exclude consumers served by independent power authorities (certain remote communities not served by Hydro One Remotes), and (b) include consumers served by licensed unit sub-metering providers, licensed retailers and certain consumers served directly by the IESO (which may or may not be captured by the classes under 79.16 or OREC). Third, it is not clear why consumers with contracts with retailers who use retailer consolidated billing are removed from the first part of the definition but then added back into the second part of the definition. Fourth, Retailers do not necessarily have physical electricity assets that would be connected to the grid. Some just sell or offer contracts for electricity. As such, the first few lines after (b) are problematic. Fifth, the phrase "purchase electric generation services from a provider of electric generation services other than the owner of the Province's transmission and distribution system assets" does not make sense. A consumer does not purchase generation services from a transmitter or distributor. Rather, a consumer receives distribution services from a distributor. In addition to charging for its distribution services, the distributor also charges the associated

transmission costs and commodity costs associated with the volumes delivered. Those commodity costs are the price of the electricity itself and are almost entirely made up of the amounts determined under the global adjustment. Sixth, the phrase "whether or not the transmission and distribution system assets continue to be owned or operated by Electricity Distributors or operated by IESO" does not make sense. Transmission assets are owned and operated by transmitters. Distribution assets are owned and operated by distributors. The IESO does not own but does administer and direct the operation of the transmission system.]

"Regulatory Asset" means the property rights and interests described in Section 6(1), which collectively is comprised of each Investment Interest.

"Regulatory Asset Account" means (a) for an Electricity Distributor, any bank account into which the Electricity Distributor deposits or receives Transition Charge Collections; and (b) for the Servicer, any bank account into which Servicer deposits or receives Transition Charges, Electricity Distributor Remittances or IESO Remittances.

"Regulatory Asset Owner" means each Absolute Assignee, as owner of its Investment Interest or Investment Interests, and "Regulatory Asset Owners" means collectively each such Absolute Assignee, who together own the entirety of the Regulatory Asset and are required to exercise their individual rights of ownership in accordance with Section 6(7).

"Related Rights" means, with respect to a Regulatory Asset Owner's Investment Interest, all rights of any kind (whether in tort, contract or otherwise) that attach or are attendant or incidental to any of the other property rights or interests that comprise such Investment Interest.

"Remittance Date" means, in respect of an Electricity Distributor, each day on which it is required to remit Electricity Distribution Remittances to Servicer or if applicable the Alternative Collection Agent as specified in accordance with any Funding Obligation or, if no such day is specified in accordance with any Funding Obligation, then the Business Day **[NTD: Not defined.]** preceding each Settlement Date. **[NTD: Move to Regulations. Remittances will be in accordance with the current rules.]**

"Repayment Obligation" means an obligation to repay or to provide for the repayment (including by making a related Finance Reserve Deposit) of, all or a portion of the amount advanced to the Absolute Assignee under a Funding Obligation.

"Repayment" means a payment by an Absolute Assignee made to satisfy a Repayment Obligation, other than to the extent that the payment is made by applying the proceeds of a Refinancing or from Finance Reserve Withdrawals.

"Replacement Event" means any event specified as such in a Funding Obligation.

"Retailer" means a person who is licensed under Part V of the *Ontario Energy Board Act, 1998* to retail electricity.

"Retailer Consolidated Billing" has the same meaning as in the *Retail Settlement Code* issued by the Ontario Energy Board.

"Servicer" means IESO or IESO Successor, as agent for and on behalf of the Regulatory Asset Owners, for the purposes set forth in Article 4.

"Settlement Date" means the [last Business Day of any month].

"Transition Charge" means, the amount recoverable from a Regulated Consumer in respect of a Reference Period, being the Period Finance Charge as allocated to such Regulated Consumer in accordance with Article 4(3) on a monthly basis. **[NTD: This needs to be grossed up to account for variability associated with expected uncollectables and remittance delays.]** **[NTD: Do not need to create parallel process. The definition should be linked to the OEB process for determining the volumetric rate as part of the RPP process (see s. 4(2)). The OEB will determine volumetric rate based on forecast consumption, number of consumers, etc. to recover the Period Finance Charges.]**

"Transition Charge Collection" means any amount received **[or deemed by this Act to have been received]** by the Absolute Assignees upon the collection of a Transition Charge paid by or on behalf of a Regulated Consumer, including any proceeds arising from the exercise and enforcement of any related rights and interests under or in respect of the Regulatory Asset.

"True-Up Amount" means, in respect of a Reference Period, the amount (which may be a negative amount) calculated by the Financial Services Manager equal to (a) the Actual Finance Amount for such related True-Up Period, minus (b) the Estimate of the Finance Amount for the related True-Up Period, , plus (c) the Collected Amount Adjustment for such related True-Up Period. **[NTD: need to discuss how this will work for our true-up. What about prior period shortages? An example of how this works needs to be provided.]**

"True-Up Period" means, in relation to a Reference Period, the immediately preceding Reference Period.

"Undertaking of Her Majesty in right of Ontario" means the undertaking of Her Majesty in right of Ontario given under Section 11(2).

Article 3 – Transition Charges

(1) **Regulated Consumer Obligation to Pay a Transition Charge** – Each Regulated Consumer shall pay each Transition Charge charged to it in any Electricity Invoice issued to such Regulated Consumer by its Electricity Distributor or by an Alternative Servicer under Section 4(1), in each case on the terms of payment specified in the related Electricity Invoice.

(2) **Indebtedness of Regulated Consumers** – Until paid, a Transition Charge charged to a Regulated Consumer in an Electricity Invoice shall, together with any applicable late payment fees and finance charges arising under the terms of the Electricity Invoice with respect to such Transition Charge, constitute non-bypassable indebtedness of the

Regulated Consumer to the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset. Such indebtedness shall constitute a single and separate[6] debt obligation owing by the Regulated Consumer, which subject to Article 5 may be enforced independently from any other payment obligation or indebtedness owing by the Regulated Consumer under the Electricity Invoice or otherwise.[7]

(3) No Set-Off or Reduction – A Regulated Consumer may not set-off or reduce (by counterclaim, defense or otherwise) the amount payable by it in respect of any Transition Charge, including any set-off against or in respect of any amount owing or becoming payable to such Regulated Consumer by its Electricity Distributor, any Regulatory Asset Owner or any other person.

(4) Allocation of Regulated Consumer Payments – If an Electricity Distributor receives a payment made by or on behalf of a Regulated Consumer in respect of amounts due and payable under one or more Electricity Invoices that is less than the total amount payable thereunder, such payment shall be subject to rights and benefits that are no less favourable than the treatment accorded to other amounts payable to the IESO by the Electricity Distributor.

(5) Transition Charges are Irrevocable – The Transition Charges arising under or in respect of Funding Obligations (including any adjustments based on modifications to such Funding Obligations made in compliance with the Financing Plan or as a result of amendments to the Financing Plan made in accordance with Section 9(3)) are deemed to be irrevocable, final and effective without any further action, except to the extent of manifest calculation error. For greater certainty, a Transition Charge may include Finance Amounts for a Reference Period regardless of whether the payment of such Finance Amounts are inconsistent with the Fair Allocation Plan applicable at the time such payments are due and payable, and regardless of whether the related Funding Obligation was properly incurred under the Financing Plan. In no case shall a Funding Obligation incurred under the Financing Plan be affected by a subsequent amendment to the Fair Allocation Plan.

(6) True-Up of Transition Charges? – [NTD: Include specifics regarding the true-up of the charges and the process for the true-up, but move to Regulations. The True-Up Mechanism should require the Transition Charges to be reviewed and adjusted semi-annually to ensure the expected recovery of amounts sufficient to timely provide all payments in respect of Funding Obligations, provided that in some cases it may need to be adjusted more frequently than semi-annually, e.g., as part of a refinancing.]

(7) Commencement of Invoicing and Collection of Transition Charges – [NTD: Please confirm that as drafted, Transition Charges will begin on the Measurement Date.]

---

[6] Determine if this is critical for rating and markets. Logistics under consideration.

[7] Torys has also suggested that deemed conditions of licenses for distributors, retailers and unit sub-metering providers, could be included as conditions, to require them to collect and remit amounts in accordance with this legislation. Consider if it is helpful to integrate the existing regulatory scheme for invoicing and collections (regarding RPP) in the legislation.

Article 4 – Invoicing of Transition Charges [NTD: Move Article 4 sections (1) to (4) to Regulations. Also note, these sections remain subject to further due diligence by the Dealers.]

(1) **Inclusion of Transition Charges in Electricity Invoices** – Each Electricity Distributor and if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, specify the Transition Charge to be charged to a Regulated Consumer pursuant to Section 4(4) in respect of a related Reference Period in each Electricity Invoice issued by the Electricity Distributor or if applicable by the Alternative Servicer to the Regulated Consumer in respect of such Reference Period. Upon the inclusion of a Transition Charge in an Electricity Invoice, the obligation to pay such amount shall be binding on the applicable Regulated Consumer. **[NTD: Must capture bills issued to eligible consumers served by unit sub-metering providers, retailers and the IESO – not just distributors][NTD: This provision also needs to address the inclusion of Transition Charges in invoices from the IESO to the LDC, consistent with the current process of how the IESO bills LDCs.]**

(2) **Calculation of the Period Finance Charge** – Not later than [35] days prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services Manager on its behalf) shall provide the OEB with written notice of each Estimate of a Finance Amount payable by it or on its behalf in respect of the Reference Period. Not later than one month prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services Manager on its behalf) shall calculate the Period Finance Charge applicable to the Reference Period having regard to such amounts specified by the Servicer, which calculations, information and amounts shall be accepted by the OEB and shall be determinative, except to the extent of manifest calculation error or misstatement.

(3) **Calculation and Attribution of Transition Charges** – Not later than 25 days prior to the first day of a Reference Period, the OEB shall apply the Attribution Methodology to determine the allocation of the Transition Charge for each Regulated Consumer. **[NTD: We think the OEB would be determining the Fair Hydro recovery rate (on a volumetric basis) that distributors would then be required to charge to consumers]**

(4) **Notice of Transition Charges** – Not later than 20 days prior to the first day of a Reference Period, the OEB shall inform each Electricity Distributor and if applicable any Alternative Servicer of the Transition Charges to be specified in the Electricity Invoices to be issued to each Regulated Consumer who is served by the Electricity Distributor.

(5) **Adjustments** – The amount of any Transition Charge charged to a Regulated Consumer and specified as such in an Electricity Invoice shall be determinative of the amount of indebtedness created thereby and owing in respect of such Transition Charge, except to the extent of any manifest calculation error.

(6) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 4 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 4 to impose, attribute, charge, bill and invoice the Transition Charges.

(7) **IESO Successor** – Any IESO Successor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of IESO under Article 4 in the same manner and to the same extent as IESO, including the obligation to calculate and provide notice of Transition Charges.

(8) **Appointment of an Alternative Servicer** – If a Replacement Event occurs in respect of any Electricity Distributor, the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Servicer to perform some or all of the obligations and duties required to be undertaken by such Electricity Distributor under this Article 4, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Servicer shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor. Any Electricity Distributor that is replaced under this Section 4(8) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in the performance of such obligations and duties to the Alternative Servicer and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Servicer to perform such obligations and duties on behalf of the Regulatory Asset Owners. **[NTD: We would expect the IESO to manage this in accordance with its normal business practices.]**

(9) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, the Servicer, Alternative Servicer or any other person who may be authorized to issue Electricity Invoices to Regulated Consumers for a failure to impose, attribute, charge, bill or invoice Transition Charges or to otherwise comply with this Act. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure and may make any interim or final order it thinks fit in this regard. **[NTD: We would like to see the sections on "Standing" to bring an action to remain in the legislation (as opposed to being moved to the regulations as we believe we previously suggested) as we see those provisions as part of ensuring a rigorous enforcement scheme for the Financing Entity (and so something that should be difficult for the Province to change going forward).]**

(10) **No Set-Off or Reduction –** No Servicer or Electricity Distributor may set off or reduce (by counterclaim, defence or otherwise) the amount payable by it pursuant to this Article 4.

(11) **Regulations** – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Servicer to ensure that Transition Charges are properly charged to Regulated Consumers and specified as such in Electricity Invoices.

Article 5 – Collections and Remittances [NTD: Move Article 5 sections (3), (6), (9), (12), (13) and (14) to Regulations.]

(1) **Duty to Collect as Agent** – Electricity Distributors or if applicable any Alternative Collection Agent shall, as an agent of the Servicer, collect amounts owing by Regulated Consumers in respect of Transition Charges charged to such Regulated Consumers in

Electricity Invoices issued by the Electricity Distributor or if applicable such Alternative Collection Agent all in accordance with the Regulations. **[NTD: The obligation to collect and remit the Transition Charge should be included as a deemed condition of license for electricity distributors (and retailers and unit sub-metering providers).]**

(2) **Segregation of Transition Charge Collections** – An Electricity Distributor or if applicable any Alternative Collection Agent shall promptly segregate Transition Charge Collections from other payments received by it from Regulated Consumers and deposit such Transition Charge Collections into its Regulatory Asset Account.[8] **[NTD: Determine if this is critical for rating and markets or if segregation can occur in the hands of the IESO]** Prior to and following a deposit of Transition Charge Collections having been made into its Regulatory Asset Account, the Electricity Distributor or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners or its Pledgee.

(3) **Electricity Distributor Remittances** – On each applicable Remittance Date, an Electricity Distributor shall remit all amounts invoiced by the IESO on account of the Transition Charge in respect of the related Reference Period to or to the account of Servicer or if applicable the Alternative Collection Agent. **[NTD: It is the Dealers expectation that the Transition Charge will be paid on the same basis as other amounts invoiced by the IESO, failing which, they will need to be remitted daily.]**

(4) **Duty to Collect Electricity Distributor Remittances** – Servicer or if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, accept and collect Electricity Distributor Remittances from Electricity Distributors and Transition Charge Collections from Regulated Consumers that pay their Electricity Invoices directly to IESO on the same basis as it accepts and collects other charges from such Regulated Consumers.[9]

(5) **Segregation of Electricity Distributor Remittances** – Servicer and if applicable the Alternative Collection Agent shall promptly segregate Electricity Distributor Remittances from other payments received or held by it and deposit such Electricity Distributor Remittances into its Regulatory Asset Account. Prior to and following a deposit of Electricity Distributor Remittances having been made into its Regulatory Asset Account, Servicer or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners or Pledgee.

(6) **Servicer Remittances** – On each Settlement Date[10], Servicer shall remit all amounts on deposit in its Regulatory Asset Account to or to the account of the Absolute Assignees an amount equal to the Investment Remittance for the related month.

---

[8] Consider trying to attach to existing LDC credit enhancements and provide parallel coverage for customer losses.

[9] Consider building this obligation into a deemed condition of licence for the IESO.

[10] Consider frequency of remittances in light of rating requirements. US rating agencies favour daily remittances.

(7) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 5 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 5 to collect Transition Charges and make remittances of Electricity Distributor Remittances.

(8) **IESO Successors** – IESO Successors shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of IESO under Article 5 in the same manner and to the same extent as IESO, including the obligation to collect Transition Charge Collections, Electricity Distributor Remittances and to remit IESO Remittances.

(9) **Owners of Distribution Assets** - If any person other than an Electricity Distributor acquires distribution system assets in the Province or invoices or collects electricity distribution rates in the Province[11], then such person shall, if requested by the Absolute Assignees, be obligated to act diligently to (a) facilitate the invoicing and collection of any Transition Charges applicable to Regulated Consumers connected to such person's distribution system assets; (b) allocate partial payments by Regulated Consumers as provided in this Act; (c) exercise all enforcement rights of the Absolute Assignees for the benefit of an Absolute Assignee; and (d) remit any Transition Charge Collections to the Absolute Assignees or Pledgees, as applicable, each in accordance with its Investment Interest. **[NTD: Such acquisition of a distribution system would require the person to be an electricity distributor; consider deleting since this is covered off by Section 5(7).]**

(10) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, Servicer, the Alternative Collection Agent, any owner of electricity distribution system assets in the Province or any other person who may be authorized to collect electricity distribution and use charges from Regulated Consumers for a failure to collect Transition Charges, remit or collect Electricity Distributor Remittances or remit IESO Remittances, as and to the extent applicable under Article 5, or to otherwise comply with this Act. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure and may make any interim or final order it thinks fit in this regard.

(11) **Not Used. [NTD: The Servicer should manage this process.**]

(12) **No Set-off, etc.** - The Regulatory Asset, including rights in Transition Charges, Transition Charge Collections, and the interests of a Regulatory Asset Owner, an Absolute Assignee and a Pledgee therein, may not be setoff or reduced (including by counterclaim, surcharge or defense) by any Regulated Consumer, any Electricity Distributor, Servicer, Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or in connection with any default, bankruptcy, reorganization or other insolvency proceeding of any Electricity Distributor, Servicer,

[11] This is in anticipation of a possible future restructuring of the distribution system.

Alternative Collection Agent or any owner of distribution system assets in the Province, any affiliate or successor thereof or any other entity or otherwise.[12]

(13) **Sequestration** – If any Electricity Distributor, Servicer, the Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or entity authorized to collect Transition Charges, defaults on any required remittance of Transition Charge Collections, Electricity Distribution Remittances or IESO Remittances under Article 5, any court in the Province, upon application by and of the Absolute Assignees acting collectively under the Collective Action Agreement and without limiting any other remedies otherwise available to the Absolute Assignees or Pledgees, shall order the sequestration and payment of the Transition Charge Collections, Electricity Distribution Remittances and IESO Remittances, as applicable, for the benefit of the Absolute Assignees, each with respect to its Investment Interest, and the Pledgees as applicable.[13]

[NTD: Suggest considering a more typical remedy such as the ability to appoint a receiver. Concept should be moved to Regulations.]

(14) Regulations – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to Servicer, any Electricity Distributor or any Alternative Collection Agent to ensure that rights, interests, entitlements, benefits and proceeds in, to, under and from the Regulatory Asset are of fully realized by some or all of the Absolute Assignees and Pledgees.

Article 6 – The Regulatory Asset

[NTD: We believe that the statute should impose a time limit on the ability of IESO to create additional Regulatory Assets under this Act. It is our expectation that this will be no later than 10 years after the commencement of the program.]

[NTD: In addition, additional language is required to address the acquisition of the Regulatory Asset by the Financing Entity, including reference to the consideration being provided for it, funding upfront costs.]

[NTD: The sale of Regulatory Assets must be restricted to Financing Entities controlled by a single entity (initially, OPG).]

[NTD: For greater certainty, a Financing Entity will not be required to purchase Regulatory Assets from IESO.]

---

[12] Consider whether it makes sense to create a "deemed collection" payment obligation on Electricity Distributors to the extent a Regulated Consumer reduces its payment of Transition Charges, despite this language. Same for Electricity Distributor Remittances and IESO Remittances.

[13] Consider adding or substituting this provision for a right to appoint a receiver.

(1) **Composition** – The Regulatory Asset shall constitute a current and irrevocable property right and interest consisting, collectively, of the following rights and interests (without duplication):

a. the right of a Regulatory Asset Owner to record its portion of the Regulatory Asset in its accounts;

b. the right to impose, bill, invoice, collect and receive Transition Charges from Regulated Consumers, including the right to determine the amount of Transition Charges in accordance with this Act;

c. the right to enforce the obligations and indebtedness of each Regulated Consumer to pay the Transition Charges charged to the Regulated Consumer from time to time in accordance with Article 3, together with all related late payment fees or interest charges arising in respect thereof under the related Electricity Invoices; **[NTD: Do we really want and need the ability for the Financing Entities to chase after individual consumers?] [NTD: This should be the right to provide notices to the OEB of the amounts required for recovery, which the OEB would then be required to accept for purposes of determining the amount of Transition Charges to be charged to consumers]**

d. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Servicer to impose, attribute, charge, bill and invoice the Transition Charges in accordance with Article 4;

e. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Collection Agent to collect, receive and remit amounts received by it in respect of Transition Charges as Electricity Distributor Remittances to or to the account of Servicer or if applicable the Alternative Collection Agent in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5;

f. the right to enforce the duties and obligations of Servicer and if applicable the Alternative Collection Agent to collect and receive Electricity Distributor Remittances and to remit IESO Remittances to or to the accounts of the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset, in each case in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by it to recover payment of Electricity Distributor Remittances in accordance with Article 5;

g. the right to receive and collect all Transition Charge Collections, all Electricity Distributor Remittances and all IESO Remittances in accordance with Article 5;

h. all rights and entitlements under each Regulatory Asset Account and all amounts on deposit in any such Regulatory Asset Account;

i. all Related Rights; and

j. all revenue, collections, claims, payments, money and proceeds of or derived from the rights described in (a) through (i), regardless of whether such revenue, collections, claims, payments and proceeds are imposed, invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

A Regulatory Asset and the property rights and interests therein shall exist whether or not Transition Charges have been imposed, charged, invoiced, accrued or collected and notwithstanding that the imposition, attribution, invoicing and collection of Transition Charges will depend on further actions that may not have occurred. The Regulatory Asset shall continue to exist until all Funding Obligations and Additional Funding Charges have been paid in full.

(2) **Validity of Dispositions** – A Disposition by IESO of all or any part of the IESO Funding Shortfall to an Absolute Assignee, or a Disposition of all or any part of an Investment Interest by one Absolute Assignee to another Absolute Assignee made under the Financing Plan, shall be permitted and when made shall be valid and enforceable in accordance with the terms of the related Disposition Document and shall be effective to confer upon the Absolute Assignee thereof a valid property right and interest in, to and under the IESO Funding Shortfall or Investment Interest, as applicable (or relevant portion thereof) in accordance with the terms of such Disposition, provided that the parties to the applicable Disposition Document have expressly stated therein that such Disposition is a sale or other absolute transfer. Without limiting the foregoing, any Disposition that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as a true sale and absolute transfer of the IESO Funding Shortfall or an Absolute Assignee's right, title and interest in, to and under an Investment Interest, as applicable (or relevant portion thereof), and not merely as a Pledge thereof, and upon such Disposition the assigner or seller under the applicable Disposition Document shall retain no right, title or interest in the IESO Funding Shortfall or Investment Interest (or relevant portion thereof) subject to the Disposition, including all rights under the IESO Funding Shortfall or Investment Interest arising after such Disposition. **[NTD: Subject to review by Osler/dealers.]**

(3) **Perfection and Priority of Dispositions** – Any Disposition of an interest in a Regulatory Asset shall be vested, valid, binding and perfected from the time when such Disposition is made. Such Disposition shall be perfected, vested, valid and binding as against the IESO or transferring Regulatory Asset Owner, as applicable, and all other persons who have claims of any kind (whether in tort, contract or otherwise) against IESO or the transferring Regulatory Asset Owner, as the case may be, irrespective of whether such persons have notice of the Disposition and the property rights and interests acquired by the Absolute Assignee under such Disposition shall be free and clear of any liens in favour of such other persons.

(4) **Validity of Pledges** – A Pledge by an Absolute Assignee may be made to secure any Funding Obligation and when made shall be valid and enforceable in accordance with its terms and shall be effective to confer upon the Pledgee a valid security interest in, to and in respect of the related Investment Interest in accordance with the terms of the

Pledge. No consent of, or notice to, any person shall be required to give effect to a Pledge made to secure any Funding Obligation.

(5) **Perfection and Priority of Pledges** - For purposes of the *Personal Property Security Act* (the "PPSA"), the Regulatory Asset shall be intangible personal property and any Pledge made by an Absolute Assignee in respect of a Funding Obligation shall, subject to the terms thereof, give rise to a security interest of which the PPSA applies, and may be perfected by filing a financing statement under the PPSA on that basis. All proceeds of a related Investment Interest that are subject to such a Pledge that are received by the Absolute Assignee shall immediately be subject to the such Pledge, and the security interest in such proceeds shall be perfected pursuant to the PPSA.[14] A Pledge perfected under the PPSA shall be a continuously perfected security interest and shall have priority over any other lien or security interest, created by operation of law or otherwise, that may attach to the property rights and interests in the Investment Interest subject to the Pledge unless the Pledgee has otherwise agreed in writing. A Pledgee shall have a perfected security interest in a related Investment Interest, including the Absolute Assignee's rights and interests in and to Transition Charge Collections or other related proceeds in respect of the Investment Interest and that are deposited in any Regulatory Asset Account or other account of any Electricity Distributor, IESO, Alternative Collection Agent or other person who may have commingled such Transition Charge Collections or such other proceeds with other funds. All provisions of the PPSA shall apply to the Regulatory Asset on the basis that it is intangible personal property, except to the extent otherwise provided in this Section 6(5).

(6) **Enforcement of Property Rights** – The rights of any Regulatory Asset Owner to collect and enforce its rights and interests in, to or in respect of the Regulatory Asset shall be exercised in the manner set forth in Article 5.

(7) **Owners of a Specified Portion of the Regulatory Asset** – A Regulatory Asset Owner may effect a Disposition to an Absolute Assignee of a specified portion of its rights and interests in the Regulatory Asset, including by way of a Disposition of a divided or an undivided interest therein as specified in a related Disposition Document. In no circumstance may the specified portions of the rights and interests in the Regulatory Asset owned by all Regulatory Asset Owners be greater than all of the rights and interests that comprise the Regulatory Asset in the aggregate.

(8) **Collective Action Required** – If a Regulatory Asset Owner's rights and interests in the Regulatory Asset comprises less than the entire property right and interest constituted by the Regulatory Asset, such Regulatory Asset Owner shall only enforce such right and interest on a collective and coordinated basis with each other Regulatory Asset Owner in accordance with the Collective Rights Agreement. **[NTD: Move to Regulations.]**

---

[14] Consider whether to simply leave this and have a financing statement be filed under the PPSA. This would normalize the security interest and reduce any adverse suggestion that security would not otherwise arise.

Article 7 – Establishment of the Fair Allocation Plan[15] [NTD: Move entire Article 7 to Regulations, other than 7(1) and 7(2).]

(1) **Adoption of the Fair Allocation Plan** – The Delegate may, by written declaration, designate and adopt a Fair Allocation Plan in compliance with Article 7. The Fair Allocation Plan so designated and adopted shall be the Fair Allocation Plan for all purposes of this Act, except if amended, amended and restated or terminated by a further written declaration made by the Delegate in compliance with **[the Regulations]**

(2) **Principles and Parameters** – A Fair Allocation Plan shall seek to allocate Future Fair Share of Green Transition Benefits across present and future Regulated Consumers on a basis that the Delegate, in its sole and absolute discretion, determines to be equitable, having regard to the following principles and parameters:

[NTD: E&Y will need to see the guidelines of the Fair Allocation Plan set in reference to parameters that will allow it to establish a modeling curve]

- [**Inflation period**: (between November 2017 – and April 2022) bill increases need to be capped at inflation (assumed at 2% for modeling purposes)]

- [**Transition Period**: (May 2022- April 2027) bills increased at a consistent rate which is set so that the borrowing will not exceed the Trust's capacity, which is determined by the Finance Service Manager]

- [**Amortization Period**: (May 2027-April 2047) equitable distribution of Finance Amount among Regulated Consumers]

1. Future Fair Share of Green Transition Benefits should be allocated over the period ending on the Program End Date.

2. The share of Future Fair Share of Green Transition Benefits allocable to a particular Regulated Consumer in respect of a Reference Period should be proportionate to a reasonable assessment of the benefits of the Green Generation Initiative to such Regulated Consumer over such Reference Period, other than in exceptional circumstances.

3. The Fair Allocation Plan should specify the Reference Periods for the purpose of allocating Future Fair Share of Green Transition Benefits among Regulated Consumers on a relative basis over time.

---

15 The idea is that the Fair Allocation Plan will be set once at the outset based on the principles and parameters described here, all as applied based on information available and the reasonable expectations and discretion of the delegate at such time. If the expectations are not fulfilled (e.g., generators may choose to retire their facilities at the end of their current procurement contracts and not invest in extending service lives to secure further procurement contracts), the Fair Allocation Plan will be unaffected, unless it is specifically amended (assuming amendments will be permitted by the legislation).

(3) **Attribution Methodology** – The Fair Allocation Plan shall specify the Attribution Methodology for the purposes of allocating the Period Finance Charges across the Regulated Consumers. The Attribution Methodology shall result in an attribution of such Transition Charges that is considered by the Delegate to be equitable, and may have regard to such principles and parameters as may be further set forth in a Regulation; provided that the Attribution Methodology shall not be used to limit the recovery of Transition Charges. **[NTD: Can the methodology be adjusted outside an amendment? If so, the rating agencies need to understand the limits of any adjustment.]**

(4) **Amendments of the Fair Allocation Plan** – The Fair Allocation Plan may be amended, amended and restated or terminated by the Delegate, provided that such amendment, amendment and restatement or termination shall (a) not be inconsistent with the principles and parameters set forth in (2) or (3), above, or the Regulation, (b) comply with any restrictions or limitations specified with respect thereto in any Funding Obligation, and (c) not impair any Regulatory Asset, outstanding Funding Obligation or any Transition Charges. **[NTD: If the Fair Allocation Plan is amended, there should be no further Regulatory Assets until the revised Fair Allocation Plan and corresponding Financing Plan have been approved.]**

Article 8 – The IESO Funding Shortfall

(1) **Recording of IESO Funding Shortfall** -- IESO will record any IESO Funding Shortfall in its books.

(2) **Dispositions** – IESO may effect a Disposition of all or any part of the IESO Funding Shortfall to an Absolute Assignee if (a) the Disposition is effected pursuant to a Disposition Agreement duly executed by IESO; and (b) the Financial Services Manager confirms in writing that the Disposition complies with any restrictions or limitations specified with respect thereto in any documents evidencing the Funding Obligations and is permitted under the Financing Plan.

(3) **No Continuing Interest in any Investment Interest** – IESO shall have no continuing right or interest in any IESO Funding Shortfall subject to a Disposition effected by IESO under a Disposition Document to which IESO is a party.

Article 9 – The Financing Plan [NTD: Move all of Article 9 to Regulations other than 9(1).]

(1) **Power to Prepare, Implement and Amend the Financing Plan** – The Financial Services Manager shall be authorized to prepare, implement and amend a financing plan for the Financing Entities and propose the adoption of such financing plan as the Financing Plan for the purposes of this Act. The Financial Services Manager shall have the right to withdraw its financing plan as the Financing Plan at any time if it determines that implementing the Financing Plan in such manner would not be in the best interests of a Financing Entity.

(2) Principles and Parameters of the Financing Plan – The Financing Plan shall establish the basis for each Absolute Assignee's funding decisions having regard to the principles and parameters set forth in Schedule 3.

(3) OEB Approval – Any Additional Funding Charge payable to the Financial Services Manager in respect of services provided by the Financial Services Manager (other than third party costs) shall be subject to review and approval by the OEB.

(4) Review of Financing Plan – The [OEB] shall undertake an annual review of the records maintained by the Financial Services Manager for the purpose of confirming that the Funding Obligations incurred and the Finance Amounts paid by or on behalf of the Absolute Assignees were incurred and paid, respectively, in material conformity with the Financing Plan. **[NTD: We would prefer that this be dealt with by an attestation prepared by an officer of the Financial Services Manager.]**

(5) Replacement of the Financial Services Manager – If the OEB identifies deficiencies or makes recommendations in its review under Section 9(4), the Financial Services Manager shall take reasonable measures to remedy such deficiencies if remediable, and shall in any event have regard to the recommendations of the OEB in relation to further actions undertaken by the Financial Services Manager under the Financing Plan. If the Financial Services Manager is unwilling or unable to reflect such recommendations in relation to such further actions, the Delegate may by written declaration designate one or more other persons who shall thereafter become the Financial Services Manager. Any replacement must comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations.

(6) Obligation to Apply IESO Remittances – The Financial Services Manager shall ensure that amounts transferred to it under Article 5, as agent for and on behalf of the Absolute Assignees, or otherwise in respect of or as proceeds from an applicable Investment Interest shall only be applied or used to pay related Finance Amounts when they are due and payable and for no other purpose. **[NTD: This can be dealt with by contract.]**

(7) Non-Recourse – The Financing Plan shall be implemented so that Funding Obligations incurred shall be without recourse to or to any assets of the Electricity Distributors, IESO, any Alternative Servicer, any Alternative Collection Agent, the Financial Services Manager, the OEB or Her Majesty in right of Ontario, other than if and to the extent that such persons or entities are liable for the performance of obligations or duties arising under this Act or expressly agree to become liable pursuant to any Funding Obligation or obligation in relation to a Finance Amount.

(8) Incurrences are Binding – Each Disposition made to or by an Absolute Assignee, all amounts payable or becoming due and payable by or on behalf of an Absolute Assignee under or in connection with any obligation purporting to be a Funding Obligation and each Pledge entered into by an Absolute Assignee, shall be valid and binding, including in determining the amount of related Transition Charges, notwithstanding any defect in the manner in incurrence or any inconsistency with the Fair Allocation Plan or the Financing Plan.

[Article 10 – Compliance Matters[16]

(1) Right of the [OEB] to Inspect Books and Records - For the purpose of investigating compliance with the provisions of this Act, the OEB shall have the right, jurisdiction, power and authority to examine the books and records of *[Insert names if any]*.

(2) [OPG's Rate Settings – When setting other rates for or in respect of OPG, the OEB shall not take into account (a) the administrative or servicing fees charged by OPG as Financial Services Manager [in excess of the actual incremental costs incurred by such person of providing administrative or servicing services]; (b) the cost consequences to OPG of being the Financial Services Manager; or (c) the consequence of OPG consolidating the assets and liabilities of any Financing Entity for OPG's accounting purposes, in each case in setting any regulated payment amounts for OPG.][17]

Article 11 – Undertaking of the Her Majesty in right of Ontario[18]

(1) No Action to limit, alter, or impair or terminate Transition Charges, the Regulatory Asset or Collections – Her Majesty in right of Ontario shall not in any way take or permit (including by any agency or administrative body) any action to reduce, impair, postpone or terminate the obligation of Regulated Consumers to pay Transition Charges or to impair the Regulatory Asset or the collection or recovery of Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances, either directly or indirectly, including through the introduction of any bill or the passing of any legislation or regulation having such effect. The amount of Transition Charges determined under this Act shall not be subject in any way to reduction, impairment, postponement or termination as a result of any action taken or failure by Her Majesty in right of Ontario (including by any agency or administrative body), including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(2) Undertaking and Agreement – Her Majesty in right of Ontario shall not:

---

[16] As noted above, the outcome of any regulatory action undertaken by the OEB will not affect Funding Obligations that have been incurred under the Financing Plan. This Article and any potential role for the Auditor General is still under consideration.

[17] As an alternative to this provision, consider clarifying under s. 78.1(4) of the OEB Act (which currently gives the OEB discretion in setting payment amounts subject to O. Reg. 53/05) that the OEB in setting OPG payment amounts for prescribed generation shall not consider OPG's role as Financial Services Manager of any Financing Entities associated with the Fair Hydro initiative, perhaps with the exception of any operating fees that may be received by OPG for performing that role.

[18] Under consideration, including the dealers' request for a "servicer guarantee" and a "contractual guarantee" to address a "Change of Law" or if all or a portion of the legislation is *ultra vires*, requiring (at the lenders option), the Province to pay principal and interest on the outstanding debt until maturity or payout the entire debt including any make-wholes.

In the event of a market disruption that renders it impossible to refinance debt when required (or where financing of amounts required to service the debt is not available because of a market disruption where the Financing Entity was relying on such further issuance of debt until the recovery is set to begin to fund interest), either the Province must step in and payout the debt or there must be the right to recover the debt from ratepayers as it becomes due, notwithstanding the intended rate cut.

(a) in any way take or permit any action that limits, alters or impairs the value of any Investment Interest;

(b) except as required by the estimates and adjustments made in determining the True-up Amount, reduce, alter or impair Transition Charges that are imposed, billed, invoiced, collected and remitted for the benefit of the Absolute Assignees or any Pledgee from time to time;

(c) permit the amendment, amendment and restatement or termination of the Fair Allocation Plan if such amendment, amendment and restatement or termination would adversely affect the validity or enforceability of any Funding Obligation or the rights of an Absolute Assignee or Pledgee thereunder, or would not otherwise comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations,

in each case including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(3) **Successor IESO** – If IESO is restructured, dissolved or becomes insolvent or is otherwise incapable of performing its obligations under this Act, an IESO Successor shall immediately be established by Her Majesty in right of Ontario to perform such obligations.

(4) **Compensation for Failure** – Absolute Assignees shall be compensated by Her Majesty in right of Ontario for any losses suffered by them as a result of any failure by Her Majesty in right of Ontario to comply with its undertakings and agreements in this Article 11.[19]

(5) **No Wind-up of Financing Entity**. No Financing Entity may be voluntarily wound up, liquidated or dissolved until one year after all of its Funding Obligations are repaid. **[NTD: This concept can be contained in the Regulations.]**

(6) **References to the Undertaking and Agreement** – Any non-confidential reference to the Undertaking of the Her Majesty in right of Ontario, including in marketing materials and other documentation authorized for use by the Administrative in connection with any Funding Obligation, may be made provided that [*Add conditions to protect the Province*].

Article 12 – Regulations

Regulations may be made under this Act for the purposes described in Sections •,•,• and • and may be promulgated for any of the following purposes:

(a) to set standards and measures regarding the commercially reasonable requirements of the Province associated with an Absolute Assignee incurring Funding Obligations or becoming obligated to pay any Finance Amount, including to establish guidelines regarding all-in funding costs; permitted Additional

[19] Requested by Dealers. For discussion.

Funding Charges; required maturities and redemption and termination rights of Funding Obligations; liquidity requirements, in each case to a Financing Plan that is consistent in its effect with the Fair Allocation Plan;

(b) to establish and empower one or more regulated entities to undertake decision-making activities with respect to this Act;

(c) to set out reasonable requirements regarding the appointment or retention of advisors, agents, service providers, contract counterparties, including in relation to 'market terms and conditions' parameters;

(d) to provide for audit and compliance standards applicable to those persons who are or may become obligated or have duties that arise under this Act [or under any Funding Obligation];

(e) to provide for any pre-vetting and approval requirements in relation to any incurrence by an Absolute Assignee of any Funding Obligation or obligation to pay any Finance Amount; and

(f) to provide for appeal and due process considerations in connection with the establishment, adoption, implementation and review of the Fair Allocation Plan or the Financing Plan.

Article 13- Miscellaneous[20]

(1) **Choice of law** – The law governing, as applicable, the validity, enforceability, attachment, perfection, priority and exercise of remedies with respect to the transfer of an interest or right or creation of a security interest in the Regulatory Asset, any Transition Charge or the Undertaking of the Province shall be the laws of the Province.

(2) **Conflict of law** – In the event of conflict between this Act and any other law of the Province regarding the attachment, assignment or perfection, or the effect of perfection, or priority of any Disposition or Pledge, this Act shall govern to the extent of the conflict.

(3) **No further acts or approvals required** - Notwithstanding any provisions of any law of the Province to the contrary, no approvals, notices or authorizations other than those specified in this Act shall be required with respect to the actions to be taken in compliance with this Act, including under the Financing Plan or in relation to the establishment of the Fair Allocation Plan, and the transactions and contracts authorized in or contemplated by this Act or the Financing Plan, including the incurrence of any Funding Obligation, any Disposition, any Pledge or in the payment and performance of any attendant or incidental contract and any related expenses incurred to facilitate the preparation and implementation of the Financing Plan.

(4) **Effect of invalidity after the Incurrence of any Funding Obligation** - Effective on the date that a Funding Obligation is incurred under this Act, if any provision of this Act is held to be invalid or is invalidated, superseded, replaced, repealed or expires for any reason, that occurrence shall not affect any action allowed under this Act that is taken by any person who is or may become obligated or have duties that arise under this Act and any such action shall remain in full force and effect.

(5) **Severability** - If any Article, Section, paragraph or subparagraph of this Act or the application thereof to any person, circumstance or transaction is held by a court of competent jurisdiction to be unconstitutional or invalid, the unconstitutionality or invalidity shall not affect the constitutionality or validity of any other Article, Section, paragraph or subparagraph of this act or its application or validity to any person, circumstance or transaction, including the irrevocability of Transition Charges, the validity of the Regulatory Asset, the incurrence of any Funding Obligation, any Disposition, any Pledge, or the collection and recovery of Transition Charge Collections. To these ends, the Legislature hereby declares that the provisions of this Act are intended to be severable and that the Legislature would have enacted this Act even if any Article, Section, paragraph or subparagraph of this Act held to be unconstitutional or invalid had not been included in this Act.

Guidelines for Estimates

[To be considered.]

Schedule 2

Requirements Applicable to Alternative Invoicing Agent/ Alternative Collection Agent

[To be considered.]

Schedule 3

Principles and Parameters for Establishing the Financing Plan

The following principles and parameters provide a guideline as to what a Financing Plan should address:

(1) consider quantities, maturities, payment obligations, prepayment or redemption rights and such other features of Funding Obligations so that payments made for a Reference Period reasonably correspond to the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

(2) if the anticipated amount of any Repayment (together with payments of other Finance Amounts) to be made in respect of a Reference Period would materially exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable Regulated Consumers under the then current Fair Allocation Plan, diligent efforts should be made to determine whether a Refinancing or deferral of such Repayment may be reasonably and cost-effectively effected based on then prevailing market terms, conditions an circumstances;

(3) reflect the assumptions and requirements specified in any contemplated Funding Obligation (e.g., any limit on the maximum amount of Transition Charges charged to a hypothetical Regulated Consumer relative to his or her monthly electricity bill, as prescribed by any rating agency that ascribes its credit rating to or in respect of the Funding Obligation **[having regard to the application of the Attribution Methodology][NTD: Are the words in square brackets necessary?]**);

(4) require the Financial Services Manager, for and on behalf of each Regulatory Asset Owner, to use diligent efforts to manage Finance Amounts to be borne by Ratepayers;

(5) include a proposal regarding the compensation of the Financial Services Manager that reflects market terms and conditions; and

(6) require that the Financial Services Manager report annually to the Ministry of Energy on the operation of the Financing Plan including, in particular, with respect to the amount and terms of the Funding Obligations incurred and the sufficiency of such Funding Obligations for the purpose of funding the estimated Funding Shortfalls in accordance with the Fair Allocation Plan.

Stephen,

We are sitting down with the Dealers now working on a comprehensive mark-up that we will send later today, but it will not be ready by 2 PM. CONFIDENTIAL AND PRIVILEGED

Preliminary Draft for Discussion Purposes Only

"Fair Hydro Act"

Article 1 – Purpose

The Province has and continues to encourage the construction and development of facilities for the long-term operation and generation of electricity in the Province using sustainable, lower carbon-based technologies such as new gas-fired generation, renewable facilities, energy from waste and biomass, including under the Province's various procurement, standard offer, feed in tariff and other similar programs (the "Green Generation Initiative"). The long-term benefits of the Green Generation Initiative accrue over time and have benefited and will **continue to** benefit present and future electricity consumers in the Province.

The ~~imputed~~**out-of-market** costs of the Green Generation Initiative are currently passed through to electricity consumers by way of a monthly adjustment amount (the "Green Costs Adjustment"), which in turn forms part of the overall adjustment calculated by the Independent Electricity System Operator ("IESO") pursuant to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* (the "Global Adjustment"). ~~The Global Adjustment is included as a charge billed to electricity consumers in their monthly electricity invoices.~~

The Green Costs Adjustment is currently determined each month by reference to the amounts paid by IESO to the generators of electricity in the Province under the Green Generation Initiative~~, which may be higher than prevailing market price for electricity. These differences~~**. These amounts paid by the IESO** arise because IESO has entered into long-term procurement contracts with such generators in order to provide them with ~~long-term price~~**revenue** certainty ~~for electricity~~, and in turn to encourage the generators to develop technologies and to construct and develop facilities consistent with the Green Generation Initiative. ~~In general, whenever amounts payable under these procurement contracts exceed the market price for electricity, the Green Costs Adjustment passes through the amount of such differences as part of the monthly charge to electricity consumers. Such amount then becomes available to IESO to meet its obligations under the~~ **[NTD: This statement is not correct in respect of all IESO procurement contracts.]** It has been determined that the useful lives of many of the assets ~~encouraged by~~**developed under** the Green Generation Initiative will be ~~well~~ in excess of the respective terms of ~~the related~~**their respective** procurement contracts~~, and in many cases may extend over more than one generation of electricity consumers~~.

Since the benefits to past, present and future electricity consumers from the Green Generation Initiative will not necessarily coincide with the costs currently attributed through the Green Costs Adjustment, based on the respective ~~durations~~**terms** of the **applicable** procurement contracts, it has been determined that the rate at which the costs associated with the Green Generation Initiative should be passed through to ~~Retail~~**Regulated** Consumers (as defined in Article 2) should be more closely aligned with the benefits that such ~~Retail~~**Regulated** Consumers have derived and are expected to derive from the Green Generation Initiative over time. This realignment will be based on **general** principles and parameters that establish a reasonable basis for measuring and allocating the relative costs and benefits of the Green Generation Initiative equitably across present and future ~~Retail~~**Regulated** Consumers (the "Fair Allocation

Plan"). **[NTD: There is no explanation as to why realignment is limited to Regulated Consumers.]**

If the Fair Allocation Plan determines that the equitable allocation of the costs associated with the Green Generation Initiative to the ~~Retail~~**Regulated** Consumers of a particular time period should be reduced below the amount that currently would be charged based on the Green Costs Adjustment, then the amount payable by such ~~Retail~~**Regulated** Consumers and in turn available to IESO will, in the aggregate, be less than the amount payable by the IESO to the generators in respect of such period. In this case**,** IESO will need to obtain funding from another source to cover such a shortfall. If a funding obligation is incurred ~~by IESO~~ to cover such a shortfall during ~~one~~**any** period, the repayment of such funding obligation will be required in a future period, and any related repayments, finance costs, hedging costs and other transaction costs incurred will become payable in ~~one or more~~ future periods. In order for IESO to obtain a reliable and committed source of cash flows to enable IESO to repay such funding amounts when they become due and payable, this Act imposes irrevocable and non-bypassable financial obligations on ~~Retail~~**Regulated** Consumers to pay amounts incurred in respect of such funding obligations when they become due and payable and establishes a right to invoice and collect such amounts. The right and interest in and to collect such financial obligations will take the form of the Regulatory Asset contemplated in this Act, which will constitute property rights and interests. Interests in the Regulatory Asset may be sold and absolutely assigned by IESO to one or more financing entities, which in turn will finance their acquired interests by incurring funding obligations. The incurrence and payment of such funding obligations will be administered on behalf **of** such financing entities by a financial services ~~agent~~**manager** under the Financing Plan contemplated in this Act. ~~The Financing Plan will seek to reasonably match the payment obligations arising under such funding obligations, to be borne by the future Retail Consumers of the period in which such payment obligations become due, with the benefits of the Green Generation Initiative allocated to such future Retail Consumers under the Fair Allocation Plan.~~

[NTD: Our strong preference is to limit the introduction to the next paragraph and move defined terms from the previous paragraphs to Article 2]

The purpose of this Act is to establish the basis upon which intergenerational fairness can be achieved by charging the costs and benefits of the Green Generation Initiative to present and future ~~Retail~~**Regulated** Consumers on an equitable and cost effective basis.

Article 2 ~~–~~ Definitions

In this Act: **[NTD: It would be preferable to use plain language definitions in the legislation and leave the more detailed definitions to either the regulations or the agreements contemplated hereunder.]**

"Absolute Assignee" means a person to whom a Regulatory Asset Owner effects a Disposition **other than as security**.

"Actual" means, in relation to costs, expenses or payments in respect of Funding Obligations during a Reference Period, the actual amount of such costs, expenses or payments paid or made (net of any Finance Reserve Withdrawals applied to pay such amounts), which amounts shall be recorded by the Financial Services ~~Agent~~**Manager**

whose records shall be determinative for the purposes of this Act except to the extent of a manifest calculation error.

Remove this concept globally.]**

"Alternative Servicer" means a person appointed under Section 4(8) to assume the obligations of the Servicer under Article 4, as agent for and on behalf of the Regulatory Asset Owners. **[NTD: We see this, in effect, as the same thing as the IESO Successor; that is, replacement of the master Servicer.]**

[1] ~~Confirm that this will be based on forecast volumes of demand (like RPP). To the extent amounts do not get recovered due to differences between forecast and actual, those may be identified and caught by the True-Up.~~

"Assessed Past Green Transition Costs" means, in respect of a Measurement Date, the aggregate of the imputed costs of the Green Generation Initiative (expressed as an equivalent to current dollars), as reflected in the calculation of the Green Costs Adjustment, which have been charged to Retail Customers through the Global Adjustment on or prior to the Measurement Date.

[NTD: Why is this delegation of authority necessary? This requires further discussion and clarity as to which entity or entities that the Province can select as the Delegate; for example, it would not be acceptable for the Province to select the OEB to be the Delegate. If this is required, an acceptable delegate would be a stakeholder committee comprised of representatives from the Ministry of Energy, the OEB, the IESO, and OPG. In addition, the regulation should prescribe how the stakeholder committee would operate.]**

"Disposition" means an assignment, transfer, conveyance, sale, contribution, set-over, exchange or other disposition of **(a) IESO's right to recover all or any portion of an IESO Funding Shortfall or (b)** an Investment Interest to an Absolute Assignee**, in each case** pursuant to a Disposition Document.

[21] This allocation may be volumetric or some combination of a flat amount and a volumetric charge. Further discussion is required. H&W has raised a concern regarding possible adverse changes after the fact and rating agency considerations. Consider whether hard-coding in the legislation makes sense.

[32] This would pick up adjustments based on actual collection experience, changes in the ~~retail consumer~~**Regulated Consumer** base, changes in the actual costs (versus earlier estimates) included in the Transition Charge calculation, etc.

Also, to avoid confusion, we suggest using the word "invoice" in reference to what the IESO sends out to distributors, and "bills" in reference to what distributors send out to consumers.]**

"Estimate" means (a) in relation to costs, expenses or payments in respect of Funding Obligations or any Finance Amount for a Reference Period, the estimated amount of such costs, expenses or payments determined by the Financial Services ~~Agent~~**Manager**; and (b) in relation to an assessment of the benefits of the Green Generation Initiative to ~~any Retail Consumer Group~~**Regulated Consumers**, the estimated value (in current dollars) of such benefits determined by the Delegate, in each case having regard to the applicable principles and parameters set out in Schedule 1, which estimated amounts shall be determinative as the applicable estimate for the purposes of this Act except to the extent of a manifest calculation error.

"IESO Electricity Distribution Receipts" means, for a month, the sum of all amounts payable by Electricity Distributors to IESO , during the month pursuant to section • of the *Electricity Act* in respect of Regulated Consumers. "Regulated Consumer" means consumers of electricity in the Province as prescribed.

[NTD: There are a number of issues with this definition. First, the word "Retail" is a source of confusion as it implies customers of licensed retailers. Really, the purpose of the term is to define the group of consumers that are eligible to receive the benefit of the Fair Hydro program and who will bear the cost of the program over the long term. We have proposed "Regulated Consumer" but you could also use the term "Eligible Consumer" or "Fair Hydro Eligible Consumer" and for purposes of the legislation to say that it is a member of a class of consumers prescribed by the regulations for purposes of the relevant section of the legislation. The regulation would then describe who is in the class. Second, it may not be appropriate to rely on the class of consumers prescribed for the purposes of s. 79.16 or under the OREC Act. Section 79.16 is the section that defines the class of RPP consumers. We understand that the "Fair Hydro Eligible Consumers" are not an identical class to that which is eligible for the RPP or for> ***the Ontario Rebate for Electricity Consumers***<. For example, we have heard that Fair Hydro Eligible Consumers will (a) exclude consumers served by independent power authorities (certain remote communities not served by Hydro One Remotes), and (b) include consumers served by licensed unit sub-metering providers, licensed retailers and certain consumers served directly by the IESO (which may or may not be captured by the classes under 79.16 or OREC). Third, it is not clear why consumers with contracts with retailers who use retailer consolidated billing are removed from the first part of the definition but then added back into the second part of the definition. Fourth, Retailers do not necessarily have physical electricity assets that would be connected to the grid. Some just sell or offer contracts for electricity. As such, the first few lines after (b) are problematic. Fifth, the phrase "purchase electric generation services from a provider of electric generation services other than the owner of the Province's transmission and distribution system assets" does not make sense. A consumer does not purchase generation services from a transmitter or distributor. Rather, a consumer receives distribution services from a distributor. In addition to charging for its distribution services, the distributor also charges the associated transmission costs and commodity costs associated with the volumes delivered. Those commodity costs are the price of the electricity itself and are almost entirely made up of the amounts determined under the global adjustment. Sixth, the phrase "**>*whether or not the transmission and distribution system assets continue to be owned or operated by Electricity Distributors or operated by IESO*<**" does not make sense. Transmission assets are owned and operated by transmitters. Distribution assets are owned and operated by distributors. The IESO does not own but does administer and direct the operation of the transmission system.]

[NTD: This needs to be grossed up to account for variability associated with expected uncollectables and remittance delays.] [NTD: Do not need to create parallel process. The definition should be linked to the OEB process for determining the volumetric rate as part of the RPP process (see s. 4(2)). The OEB will determine volumetric rate based on forecast consumption, number of consumers, etc. to recover the Period Finance Charges.]**

"Transition Charge Collection" means any amount received **[or deemed by this Act to have been received] by the Absolute Assignees** upon the collection of a Transition Charge paid by or on behalf of a ~~Retail~~**Regulated** Consumer, including any proceeds arising from the exercise and enforcement of any related rights and interests under or in respect of the Regulatory Asset.

What about prior period shortages? An example of how this works needs to be provided.]**

(2) **Indebtedness of RetailRegulated Consumers** – Until paid, a Transition Charge charged to a RetailRegulated Consumer in an Electricity Invoice shall, together with any applicable late payment fees and finance charges arising under the terms of the Electricity Invoice with respect to such Transition Charge, constitute non-bypassable indebtedness of the RetailRegulated Consumer to the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset. Such indebtedness shall constitute a single and separate[86] debt obligation owing by the RetailRegulated Consumer, which subject to Article 5 may be enforced independently from any other payment obligation or indebtedness owing by the RetailRegulated Consumer under the Electricity Invoice or otherwise.[97]

(3) **No Set-Off or Reduction** – A RetailRegulated Consumer may not set-off or reduce (by counterclaim, defense or otherwise) the amount payable by it in respect of any Transition Charge, including any set-off against or in respect of any amount owing or becoming payable to such RetailRegulated Consumer by its Electricity Distributor, any Regulatory Asset Owner or any other person.

(4) **Allocation of RetailRegulated Consumer Payments** – If an Electricity Distributor receives a payment made by or on behalf of a RetailRegulated Consumer in respect of amounts due and payable under one or more Electricity Invoices that is less than the total amount payable thereunder, such payment shall be allocated on a *pro rata* basis to the payment of related Transition Charges and other invoiced amounts and the amount so allocated as a payment of related Transition Charges shall be deemed to constitute a Transition Charge Collectionsubject to rights and benefits that are no less favourable than the treatment accorded to other amounts payable to the IESO by the Electricity Distributor.

(5) **Transition Charges are Irrevocable** – The Transition Charges arising under or in respect of Funding Obligations incurred under the Financing Plan (including any

adjustments based on modifications to such Funding Obligations made in compliance with the Financing Plan or as a result of amendments to the Financing Plan made in accordance with Section 9(3)) are deemed to be irrevocable, final and effective without any further action, except to the extent of manifest calculation error. For greater certainty, a Transition Charge may include Finance Amounts for a Reference Period regardless of whether or not the payment of such Finance Amounts are inconsistent with the Fair Allocation Plan applicable at the time such payments are due and payable, and regardless of whether or not the related Funding Obligation was properly incurred under the Financing Plan. In no case shall a Funding Obligation incurred under the Financing Plan be affected by a subsequent amendment to the Fair Allocation Plan.

The True-Up Mechanism should require the Transition Charges to be reviewed and adjusted semi-annually to ensure the expected recovery of amounts sufficient to timely provide all payments in respect of Funding Obligations, provided that in some cases it may need to be adjusted more frequently than semi-annually, e.g., as part of a refinancing.]

[NTD: Must capture bills issued to eligible consumers served by unit sub-metering providers, retailers and the IESO – not just distributors][NTD: This provision also needs to address the inclusion of Transition Charges in invoices from the IESO to the LDC, consistent with the current process of how the IESO bills LDCs.]

(2) **Calculation of the Period ~~Transition~~Finance Charge** – Not later than [35] days prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services ~~Agent~~Manager on its behalf) shall provide the OEB with written notice of each Estimate of a Finance Amount payable by it or on its behalf in respect of the Reference Period. ~~[35] days prior to the first day of a Reference Period, IESO or Successor IESO if applicable shall specify the IESO Retained Interest Amount and any IESO Financing Costs that are due and payable and remain unpaid on such day.~~ Not later than one month prior to the first day of a Reference Period, ~~the OEB~~each Absolute Assignee (or the Financial Services Manager on its behalf) shall calculate the Period ~~Transition~~Finance Charge applicable to the Reference Period ~~based on the calculations and information set forth in such written notices received from the Absolute Assignees~~

and based onhaving regard to such amounts specified by IESO or Successor IESOthe Servicer, which calculations, information and amounts shall be accepted by the OEB and shall be determinative, except to the extent of manifest calculation error or misstatement.

(3) **Calculation and Attribution of Transition Charges** – Not later than 25 days prior to the first day of a Reference Period, the OEB shall apply the Attribution Methodology to determine the Allocation Factorallocation of the Transition Charge for each RetailRegulated Consumer of the applicable Retail Consumer Group. **[NTD: We think the OEB would be determining the Fair Hydro recovery rate (on a volumetric basis) that distributors would then be required to charge to consumers]**

(4) **Notice of Transition Charges** – Not later than 20 days prior to the first day of a Reference Period, the OEB shall inform each Electricity Distributor and if applicable any Alternative Servicer of the Transition Charges to be specified in the Electricity Invoices to be issued to each RetailRegulated Consumer of the applicable Retail Consumer Group who has a billing address inwho is served by the Electricity Distributor's Service Area.

(5) **Adjustments** – The amount of any Transition Charge charged to a RetailRegulated Consumer and specified as such in an Electricity Invoice shall be determinative of the amount of indebtedness created thereby and owing in respect of such Transition Charge, except to the extent of any manifest calculation error.

(6) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 4 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 4 to impose, attribute, charge, bill and invoice the Transition Charges.

(7) **IESO Successor** – Any IESO Successor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of IESO under Article 4 in the same manner and to the same extent as IESO, including the obligation to calculate and provide notice of Transition Charges.

(8) **Appointment of an Alternative Servicer** – If a Replacement Event occurs in respect of any Electricity Distributor, the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Servicer to perform some or all of the obligations and duties required to be undertaken by such Electricity Distributor under this Article 4, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Servicer shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor. Any Electricity Distributor that is replaced under this Section 4(8) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in the performance of such obligations and duties to the Alternative Servicer and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Servicer to perform such obligations and duties on behalf of the Regulatory Asset Owners. **[NTD: We would expect the IESO to manage this in accordance with its normal business practices.]**

(9) Absolute Assignees have Standing – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, the Servicer, Alternative Servicer or any other person who may be authorized to issue Electricity Invoices to ~~Retail~~**Regulated** Consumers for a failure to impose, attribute, charge, bill or invoice Transition Charges **or to otherwise comply with this Act**. [NTD: We would like to see the sections on "Standing" to bring an action to remain in the legislation (as opposed to being moved to the regulations as we believe we previously suggested) as we see those provisions as part of ensuring a rigorous enforcement scheme for the Financing Entity (and so something that should be difficult for the Province to change going forward).]**

(10) No Set-Off or Reduction – No Servicer or Electricity Distributor may set off or reduce (by counterclaim, defence or otherwise) the amount payable by it pursuant to this Article 4.

(11) Regulations – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Servicer to ensure that Transition Charges are properly charged to ~~Retail~~**Regulated** Consumers and specified as such in Electricity Invoices.

Article 5 – Collections and Remittances [NTD: Move Article 5 sections (3), (6), (9), (12), (13) and (14) to Regulations.]

[NTD: The obligation to collect and remit the Transition Charge should be included as a deemed condition of license for electricity distributors (and retailers and unit sub-metering providers).]**

(2) **Segregation of Transition Charge Collections** – An Electricity Distributor or if applicable any Alternative Collection Agent shall promptly segregate Transition Charge Collections from other payments received by it from ~~Retail~~**Regulated** Consumers and deposit such Transition Charge Collections into its Regulatory Asset Account.[11][8] **[NTD: Determine if this is critical for rating and markets or if segregation can occur in the hands of the IESO]** Prior to and following a deposit of Transition Charge Collections having been made into its Regulatory Asset Account, the Electricity Distributor or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners **or its Pledgee**.

(4) **Duty to Collect Electricity Distributor Remittances** – ~~IESO~~**Servicer** or if applicable any Alternative ~~Collection Agent~~**Servicer** shall, as an agent of the Regulatory Asset Owners, ~~undertake [diligent][reasonable] efforts to~~ accept and collect Electricity Distributor Remittances from Electricity Distributors and Transition Charge Collections from ~~Retail~~**Regulated** Consumers that pay their Electricity Invoices directly to IESO~~.~~[12] **on the same basis as it accepts and collects other charges from such Regulated Consumers.**[9]

(5) **Segregation of Electricity Distributor Remittances** – ~~IESO~~**Servicer** and if applicable the Alternative Collection Agent shall promptly segregate Electricity Distributor Remittances from other payments received or held by it and deposit such Electricity Distributor Remittances into its Regulatory Asset Account. Prior to and following a deposit of Electricity Distributor Remittances having been made into its Regulatory Asset Account, ~~IESO~~**Servicer** or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners **or Pledgee**.

(6) ~~**IESO**~~**Servicer Remittances** – On each Settlement Date[13]10, ~~IESO and if applicable the Alternative Collection Agent~~**Servicer** shall remit all amounts on deposit in its Regulatory Asset Account ~~(a) first,~~ to or to the account of the Absolute Assignees an amount equal to the Investment Remittance for the related month ~~and (b) second, to IESO (including by IESO retaining such amount) an amount equal to the lesser of (i) the Maximum IESO Recovery for the related month and (ii) the IESO Retained Interest Amount as of the Settlement Date~~.

(7) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 5 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 5 to collect Transition Charges and make remittances of Electricity Distributor Remittances.

(8) **IESO** ~~**Successor**~~**Successors** – IESO ~~Successor~~**Successors** shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of IESO under Article 5 in the same manner and to the same extent as IESO, including the obligation to collect Transition Charge Collections, Electricity Distributor Remittances and to remit IESO Remittances.

(9) **Owners of Distribution Assets** - If any person other than an Electricity Distributor acquires distribution system assets in the Province or invoices or collects electricity distribution rates in the Province[14]11, then such person shall, if requested by the Absolute Assignees, be obligated to act diligently to (a) facilitate the invoicing and collection of any Transition Charges applicable to ~~Retail~~**Regulated** Consumers ~~in its~~

[NTD: Such acquisition of a distribution system would require the person to be an electricity distributor; consider deleting since this is covered off by Section 5(7).]

(10) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESOServicer, the Alternative Collection Agent, any owner of electricity distribution system assets in the Province or any other person who may be authorized to collect electricity distribution and use charges from RetailRegulated Consumers for a failure to collect Transition Charges, remit or collect Electricity Distributor Remittances or remit IESO Remittances, as and to the extent applicable under Article 5.5, or to otherwise comply with this Act. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure and may make any interim or final order it thinks fit in this regard.

(11) **Appointment of an Alternative Collection Agent –** If a Replacement Event occurs in respect of any Electricity Distributor or IESO, the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Collection Agent to perform some or all of the collection, segregation and remittance obligations otherwise required to be undertaken by such Electricity Distributor or IESO, as applicable, under Article 5, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Collection Agent shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor or IESO, as applicable. Any Electricity Distributor or IESO, as applicable, that is replaced under this Section 5(11) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in, to and over the Regulatory Asset, including its Regulatory Asset Account, to the Alternative Collection Agent and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Collection Agent to enforce the Regulatory Asset on behalf of the Absolute Assignees.Not Used. [NTD: The Servicer should manage this process.]

(12) **No Set-off, etc.** - The Regulatory Asset, including rights in Transition Charges, Transition Charge Collections, and the interests of a Regulatory Asset Owner, an Absolute Assignee and a Pledgee therein, may not be setoff or reduced (including by counterclaim, surcharge or defense) by any RetailRegulated Consumer, any Electricity Distributor, IESOServicer, Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or in connection with any default, bankruptcy, reorganization or other insolvency proceeding of any Electricity Distributor,

~~IESO~~Servicer, Alternative Collection Agent or any owner of distribution system assets in the Province, any affiliate or successor thereof or any other entity or otherwise.[~~15~~12]

(13) **Sequestration** – If any Electricity Distributor, ~~IESO~~Servicer, the Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or entity authorized to collect Transition Charges, defaults on any required remittance of Transition Charge Collections, Electricity Distribution Remittances or IESO Remittances under Article 5, any court in the Province, upon application by and of the Absolute Assignees acting collectively under the Collective Action Agreement and without limiting any other remedies otherwise available to the Absolute Assignees or Pledgees, shall order the sequestration and payment of the Transition Charge Collections, Electricity Distribution Remittances and IESO Remittances, as applicable, for the benefit of the Absolute Assignees, each with respect to its Investment Interest, and the Pledgees as applicable.[~~16~~13]

[NTD: Suggest considering a more typical remedy such as the ability to appoint a receiver. Concept should be moved to Regulations.]

(14) Regulations – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to ~~IESO~~Servicer, any Electricity Distributor or any Alternative Collection Agent to ensure that rights, interests, entitlements, benefits and proceeds in, to, under and from the Regulatory Asset are of fully realized by some or all of the Absolute Assignees and Pledgees.

Article 6 – The Regulatory Asset

[NTD: We believe that the statute should impose a time limit on the ability of IESO to create additional Regulatory Assets under this Act. It is our expectation that this will be no later than 10 years after the commencement of the program.]

[NTD: In addition, additional language is required to address the acquisition of the Regulatory Asset by the Financing Entity, including reference to the consideration being provided for it, funding upfront costs.]

[NTD: The sale of Regulatory Assets must be restricted to Financing Entities controlled by a single entity (initially, OPG).]

[NTD: For greater certainty, a Financing Entity will not be required to purchase Regulatory Assets from IESO.]

(1) **Composition** – The Regulatory Asset shall constitute a current and irrevocable property right and interest consisting, collectively, of the following rights and interests (without duplication):

[~~15~~12] Consider whether it makes sense to create a "deemed collection" payment obligation on Electricity Distributors to the extent a ~~Retail~~Regulated Consumer reduces its payment of Transition Charges, despite this language. Same for Electricity Distributor Remittances and IESO Remittances.

[~~16~~13] Consider adding or substituting this provision for a right to appoint a receiver.

b. the right to impose, bill, invoice, collect and receive Transition Charges from ~~Retail~~**Regulated** Consumers, including the right to determine the amount of Transition Charges in accordance with this Act;

c. the right to enforce the obligations and indebtedness of each ~~Retail~~**Regulated** Consumer to pay the Transition Charges charged to the ~~Retail~~**Regulated** Consumer from time to time in accordance with Article 3, together with all related late payment fees or interest charges arising in respect thereof under the related Electricity Invoices; **[NTD: Do we really want and need the ability for the Financing Entities to chase after individual consumers?] [NTD: This should be the right to provide notices to the OEB of the amounts required for recovery, which the OEB would then be required to accept for purposes of determining the amount of Transition Charges to be charged to consumers]**

d. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Servicer to impose, attribute, charge, bill and invoice the Transition Charges in accordance with Article 4;

e. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Collection Agent to collect, receive and remit amounts received by it in respect of Transition Charges as Electricity Distributor Remittances to or to the account of ~~IESO~~**Servicer** or if applicable the Alternative Collection Agent in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5;

f. the right to enforce the duties and obligations of ~~IESO~~**Servicer** and if applicable the Alternative Collection Agent to collect and receive Electricity Distributor Remittances and to remit IESO Remittances to or to the accounts of the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset, in each case in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by it to recover payment of Electricity Distributor Remittances in accordance with Article 5;

g. the right to receive and collect all Transition Charge Collections, all Electricity Distributor Remittances and all IESO Remittances in accordance with Article 5;

h. all rights and entitlements under each Regulatory Asset Account and all amounts on deposit in any such Regulatory Asset Account;

i. all Related Rights; and

j. all revenue, collections, claims, payments, money and proceeds of or derived from the rights described in (a) through (i), regardless of whether such revenue, collections, claims, payments and proceeds are imposed, invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

A Regulatory Asset and the property rights and interests therein shall exist whether or not Transition Charges have been imposed, charged, invoiced, accrued or collected and notwithstanding that the imposition, attribution, invoicing and collection of Transition Charges will depend on further actions that may not have occurred. **The Regulatory Asset shall continue to exist until all Funding Obligations and Additional Funding Charges have been paid in full.**

(2) **Validity of Dispositions** – ~~Despite any limitations or restrictions on a Disposition that may arise by contract or by operation of any applicable law of the Province or any consent requirement applicable to a Disposition that may arise by operation of any applicable law of the Province, a~~**A** Disposition by IESO **of all or any part of the IESO Funding Shortfall** to an Absolute Assignee ~~made under the Financing Plan~~, or **a Disposition of all or any part of an Investment Interest** by one Absolute Assignee to another Absolute Assignee made under the Financing Plan, shall be permitted and when made shall be valid and enforceable in accordance with the terms of the related Disposition Document and shall be effective to confer upon the Absolute Assignee thereof a valid property right and interest in, to and under the ~~applicable~~**IESO Funding Shortfall or** Investment Interest**, as applicable** (or relevant portion thereof) in accordance with the terms of such Disposition, provided that the parties to the applicable Disposition Document have expressly stated therein that such Disposition is a sale or other absolute transfer. Without limiting the foregoing, any Disposition that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as a true sale and absolute transfer of the ~~Regulatory Asset Owner's applicable~~**IESO Funding Shortfall or an Absolute Assignee's** right, title~~,~~ and interest in, to and under ~~the Regulatory Asset~~**an Investment Interest, as applicable** (or relevant portion thereof), and not merely as a Pledge thereof, and upon such Disposition the assigner or seller under the applicable Disposition Document shall retain no right, title or interest in the **IESO Funding Shortfall or** Investment Interest **(or relevant portion thereof)** subject to the Disposition, including all rights under the **IESO Funding Shortfall or** Investment Interest arising after such Disposition. **[NTD: Subject to review by Osler/dealers.]**

(3) **Perfection and Priority of Dispositions** – Any Disposition of an interest in a Regulatory Asset shall be vested, valid, binding and perfected from the time when such Disposition is made. Such Disposition shall be perfected, vested, valid and binding as against the **IESO or** transferring Regulatory Asset Owner**, as applicable,** and all other persons who have claims of any kind (whether in tort, contract or otherwise) against **IESO or** the transferring Regulatory Asset Owner, **as the case may be,** irrespective of whether such persons have notice of the Disposition and the property rights and interests acquired by the Absolute Assignee under such Disposition shall be free and clear of any liens in favour of such other persons.

(4) **Validity of Pledges** – ~~Despite any limitations or restriction on a Pledge that may arise by contract or by operation of any applicable law of the Province or any consent~~

~~requirement applicable to a Pledge that may arise by operation of any applicable law of the Province, a~~**A** Pledge by an Absolute Assignee may be made to secure any ~~related~~ Funding Obligation and when made shall be valid and enforceable in accordance with its terms and shall be effective to confer upon the Pledgee a valid security interest in, to and in respect of the related Investment Interest in accordance with the terms of the Pledge. ~~Other than as required by the Financing Plan, no~~**No** consent of**, or notice to,** any person shall be required to give effect to a Pledge made to secure any Funding Obligation.

(5) **Perfection and Priority of Pledges** - For purposes of the *Personal Property Security Act* (the "PPSA"), the Regulatory Asset shall be intangible personal property and any Pledge made by an Absolute Assignee in respect of a Funding Obligation **shall, subject to the terms thereof, give rise to a security interest of which the PPSA applies, and** may be perfected by filing a financing statement under the PPSA on that basis. All proceeds of a related Investment Interest that are subject to such a Pledge that are received by the Absolute Assignee shall immediately be subject to the such Pledge, and the security interest in such proceeds shall be perfected pursuant to the PPSA.~~17~~**14** A Pledge perfected under the PPSA shall be a continuously perfected security interest and shall have priority over any other lien or security interest, created by operation of law or otherwise, that may attach to the property rights and interests in the Investment Interest subject to the Pledge unless the Pledgee has otherwise agreed in writing. ~~Subject to the terms of the Collective Action Agreement, a~~**A** Pledgee shall have a perfected security interest in a related Investment Interest, including the Absolute Assignee's rights and interests in and to Transition Charge Collections or other related proceeds in respect of the Investment Interest and that are deposited in any Regulatory Asset Account or other account of any Electricity Distributor, IESO, Alternative Collection Agent or other person who may have commingled such Transition Charge Collections or such other proceeds with other funds. All provisions of the PPSA shall apply to the Regulatory Asset on the basis that it is intangible personal property, except to the extent otherwise provided in this Section 6(5).

(6) **Enforcement of Property Rights** – The rights of any Regulatory Asset Owner to collect and enforce its rights and interests in, to or in respect of the Regulatory Asset shall be exercised in the manner set forth in Article 5.

(7) **Owners of a Specified Portion of the Regulatory Asset** – A Regulatory Asset Owner may effect a Disposition to an Absolute Assignee of a specified portion of its rights and interests in the Regulatory Asset, including by way of a Disposition of a divided or an undivided interest therein as specified in a related Disposition Document~~, in each case under the Financing Plan~~. In no circumstance may the specified portions of the rights and interests in the Regulatory Asset owned by all Regulatory Asset Owners be greater than all of the rights and interests that comprise the Regulatory Asset in the aggregate.

(8) **Collective Action Required** – If a Regulatory Asset Owner's rights and interests in the Regulatory Asset comprises less than the entire property right and interest constituted by the Regulatory Asset, such Regulatory Asset Owner shall only enforce such right and interest on a collective and coordinated basis with each other Regulatory Asset Owner in accordance with the Collective Rights Agreement. **[NTD: Move to Regulations.]**

~~17~~**14** Consider whether to simply leave this and have a financing statement be filed under the PPSA. This would normalize the security interest and reduce any adverse suggestion that security would not otherwise arise.

Article 7 – Establishment of the Fair Allocation Plan[1815] **[NTD: Move entire Article 7 to Regulations, other than 7(1) and 7(2).]**

(1) **Adoption of the Fair Allocation Plan** – The Delegate may, [by written declaration,] designate and adopt a Fair Allocation Plan in compliance with Article 7. The Fair Allocation Plan so designated and adopted shall be the Fair Allocation Plan for all purposes of this Act, except if amended, amended and restated or terminated by a further written declaration made by the Delegate in compliance with Section 7(4).**[the Regulations]**

(2) **Principles and Parameters** – A Fair Allocation Plan shall seek to allocate Future Fair Share of Green Transition Benefits across present and future Retail Consumer Groups**Regulated Consumers** on a basis that the Delegate, in its sole and absolute discretion, determines to be equitable, having regard to the following principles and parameters:

[NTD: E&Y will need to see the guidelines of the Fair Allocation Plan set in reference to parameters that will allow it to establish a modeling curve]

- **[Inflation period: (between November 2017 – and April 2022) bill increases need to be capped at inflation (assumed at 2% for modeling purposes)]**
- **[Transition Period: (May 2022- April 2027) bills increased at a consistent rate which is set so that the borrowing will not exceed the Trust's capacity, which is determined by the Finance Service Manager]**
- **[Amortization Period: (May 2027-April 2047) equitable distribution of Finance Amount among Regulated Consumers]**

1. Future Fair Share of Green Transition Benefits should be allocated over the period ending on the Program End Date.

2. <*The Fair Allocation Plan should specify the Reference Periods for the purpose of* >identifying applicable Retail Consumer Groups and <*allocating Future Fair Share of Green Transition Benefits among* >them< *on a relative basis over time.* >

2. 3. The share of Future Fair Share of Green Transition Benefits allocable to a particular Retail**Regulated** Consumer Group in respect of a Reference Period should be proportionate to a reasonable assessment of the benefits of the Green Generation Initiative to the Retail**such Regulated** Consumer Group over such Reference Period**, other than**> *in exceptional circumstances*<**.**

[1815] The idea is that the Fair Allocation Plan will be set once at the outset based on the principles and parameters described here, all as applied based on information available and the reasonable expectations and discretion of the delegate at such time. If the expectations are not fulfilled (e.g., generators may choose to retire their facilities at the end of their current procurement contracts and not invest in extending service lives to secure further procurement contracts), the Fair Allocation Plan will be unaffected, unless it is specifically amended (assuming amendments will be permitted by the legislation).

4. The share of Future Fair Share of Green Transition Benefits to be allocated to a Retail Consumer Group and any future Retail Consumer Group at a particular time should not exceed the Estimated Future Green Transition Benefits, measured in respect of the Reference Periods following such particular time and to the Program End Date.

5. No future Retail Consumer Group should be allocated an unreasonably disproportionate share of Estimated Future Green Transition Benefits. Except<- *in exceptional circumstances*> or in the case of any reallocation of an Over-Assessed Amount as contemplated in 7, below, the Future Fair Share of Green Transition Benefits to be allocated under a Fair Allocation Plan to any future Retail Consumer Group should have regard to *[Insert formula if a year-over-year maximum amount is determined to be appropriate].*

3. 6. The time value of money should be reflected in the Fair Allocation Plan, in order to equate the relative values of the nominal allocations of Future Fair Share of Green Transition Benefits, calculated in current dollars, to future Retail Consumer Groups over time.>*The Fair Allocation Plan should specify the Reference Periods for the purpose of* <>*allocating Future Fair Share of Green Transition Benefits among* <**Regulated Consumers**> *on a relative basis over time.* <

7. To the extent there has been an Over-Assessed Amount, the Fair Allocation Plan may determine that an adjustment should fairly be made to rebate Retail Consumers for such an amount, by reducing the costs otherwise attributable under the Act to such Retail Consumers. The relative costs of the Green Generation Initiative are reflected under the Act by the attribution of Transition Charges to such Consumer Groups, based on the Financing Plan seeking to track the allocations of benefits under the Fair Allocation Plan. Accordingly, the Maximum Transition Charge Amount determined for one or more Retail Consumer Groups having regard to the Fair Allocation Plan otherwise applicable may be appropriately reduced to recognize the effect of the Over-Assessed Amount. In such a case, a determination to reduce the Maximum Transition Charge Amount applicable for certain related Reference Periods should have regard to the principle that the corresponding rebate should be extended to benefit the Consumer Group or Consumer Groups in closest proximity to the Legislative Implementation Date.

(3) Attribution Methodology – The Fair Allocation Plan shall specify the Attribution Methodology for the purposes of allocating the Period Transition**Finance** Charges across the Retail**Regulated** Consumers of a particular Retail Consumer Group. The Attribution Methodology shall result in an attribution of such Transition Charges that is considered by the Delegate to be equitable, and may have regard to such principles and parameters as may be further set forth in a Regulation.; **provided that**> *the Attribution Methodology* <**shall not be used to limit the recovery of Transition Charges. [NTD: Can the methodology be adjusted outside an amendment? If so, the rating agencies need to understand the limits of any adjustment.]**

(4) Amendments of the Fair Allocation Plan – The Fair Allocation Plan may be amended, amended and restated or terminated by the Delegate, provided that such amendment, amendment and restatement or termination shall (a) not be inconsistent with the principles and parameters set forth in (2) or (3), above, or the Regulation ~~and~~, (b) comply with any restrictions or limitations specified with respect thereto in any Funding Obligation~~.~~**, and (c) not impair any Regulatory Asset, outstanding Funding Obligation or any Transition Charges. [NTD: If the Fair Allocation Plan is amended, there should be no further Regulatory Assets until the revised Fair Allocation Plan and corresponding Financing Plan have been approved.]**

Such books of account shall be determinative with respect to the amount of IESO's related regulatory asset.~~**Recording of IESO Funding Shortfall -- IESO will record any IESO Funding Shortfall in its books.**

~~**(2) Limitation on Additions** – IESO shall not record additions to the IESO Retained Interest Amount in respect of IESO Funding Shortfalls (a) if such additions are restricted by the terms of any Disposition Document or the Collective Action Agreement, or (b) on or after •, 2017.~~

~~**(5) IESO Financing Costs** – IESO shall be entitled in good faith to incur reasonable financing costs (including interest and other reasonable financing charges) reflecting market terms and conditions and which are payable in arrears, in order to finance its ownership of the IESO Retained Interest from time to time. **(6) IESO Recoveries** –~~

IESO shall, in respect of a month, be entitled to receive from IESO Remittances on a related Settlement Date the amount (if any) available to IESO under Section 5(6)(b).

Article 9 – The Financing Plan [NTD: Move all of Article 9 to Regulations other than 9(1).]

(1) Power to Prepare, Implement and Amend the Financing Plan – The Financial Services AgentManager shall be authorized to prepare, implement and amend a financing plan for the Financing Entities> *and propose the adoption*< of such financing plan as the Financing Plan. If the Financial Services Agent is unwilling or unable to prepare< *and propose the adoption*> of the Financing Plan, the Delegate may by written declaration designate one or more other persons who shall be authorized to prepare, implement and amend the Financing Plan for the purposes of this Act. [NTD: We would prefer that this be dealt with by an attestation prepared by an officer of the Financial Services Manager.]

(5) Replacement of the Administrative AgentFinancial Services Manager – If the OEB identifies deficiencies or makes recommendations in its review under Section 9(4), the Administrative AgentFinancial Services Manager shall take reasonable measures to remedy such deficiencies if remediable, and shall in any event have regard to the recommendations of the OEB in relation to further actions undertaken by the Financial Services AgentManager under the Financing Plan. If the Financial Services AgentManager is unwilling or unable to reflect such recommendations in relation to such further actions, the Delegate may by written declaration designate one or more other persons who shall thereafter become the Financial Services. Manager. Any replacement must comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations.

(6) Obligation to Apply IESO Remittances – The Financial Services AgentManager shall ensure that amounts transferred to it under Article 5, as agent for and on behalf of the Absolute Assignees, or otherwise in respect of or as proceeds from an applicable Investment Interest shall only be applied or used to pay related Finance Amounts when

they are due and payable and for no other purpose. **[NTD: This can be dealt with by contract.]**

(7) Non-Recourse – The Financing Plan shall be implemented so that Funding Obligations incurred shall be without recourse to or to any assets of the Electricity Distributors, IESO, any Alternative Servicer, any Alternative Collection Agent, the Financial Services Agent**Manager**, the OEB, the Province or the Lieutenant Governor in Council **or Her Majesty in right of Ontario**, other than if and to the extent that such persons or entities are liable for the performance of obligations or duties arising under this Act or expressly agree to become liable pursuant to any Funding Obligation or obligation in relation to a Finance Amount. [All Funding Obligations shall contain a statement to the following effect: "Neither the full faith and credit nor the taxing power of the Province of Ontario is pledged to the payment of the principal of, or interest on, this [obligation].]

(8) Incurrences are Binding – Notwithstanding anything to the contrary in this Act, each**Each** Disposition made to or by an Absolute Assignee and**,** all amounts payable or becoming due and payable by or on behalf of an Absolute Assignee under or in connection with any obligation purporting to be a Funding Obligation **and each Pledge entered into by an Absolute Assignee**, shall be **valid and** binding for the purposes of this Act, including in determining the amount of related Transition Charges, despite**notwithstanding** any impairment or defect resulting from such failure**defect in the manner in incurrence or any inconsistency with the Fair Allocation Plan or the Financing Plan**.

[Article 10 – Compliance Matters[19][16]

(2) [OPG's Rate Settings – When setting other rates for or in respect of OPG, the OEB shall not take into account (a) the administrative or servicing fees charged by OPG as Financial Services Agent**Manager** [in excess of the actual incremental costs incurred by such person of providing administrative or servicing services]; (b) the cost consequences to OPG of being the Financial Services Agent**Manager**; or (c) the consequence of OPG consolidating the assets and liabilities of any Financing Entity for OPG's accounting purposes, in each case in setting any regulated payment amounts for OPG.][20][17]

[19][16] As noted above, the outcome of any regulatory action undertaken by the OEB will not affect Funding Obligations that have been incurred under the Financing Plan. This Article and any potential role for the Auditor General is still under consideration.

[20][17] As an alternative to this provision, consider clarifying under s. 78.1(4) of the OEB Act (which currently gives the OEB discretion in setting payment amounts subject to O. Reg. 53/05) that the OEB in setting OPG payment amounts for prescribed generation shall not consider OPG's role as Administrative Agent**Financial Services Manager** of any Financing Entities associated with the Fair Hydro initiative, perhaps with the exception of any operating fees that may be received by OPG for performing that role.

Article 11 – Undertaking of the ~~Lieutenant Governor in Council~~[21]Her Majesty in right of Ontario[18]

(1) No Action to limit, alter, or impair or terminate Transition Charges, the Regulatory Asset or Collections – ~~The [Lieutenant Governor in Council]~~**Her Majesty in right of Ontario** shall not in any way take or permit **(including by any agency or administrative body)** any action to reduce, impair, postpone or terminate the obligation of ~~Retail~~**Regulated** Consumers to pay Transition Charges or to impair the Regulatory Asset or the collection or recovery of Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances, either directly or indirectly, including through the introduction of any bill or the passing of any legislation or regulation having such effect. The amount of Transition Charges determined under this Act shall not be subject in any way to reduction, impairment, postponement or termination as a result of any action taken or failure by ~~the Lieutenant Governor in Council~~**Her Majesty in right of Ontario (including by any agency or administrative body)**, including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(2) Undertaking and Agreement – ~~The [Lieutenant Governor in Council]~~**Her Majesty in right of Ontario** shall not:

(c) permit the amendment, amendment and restatement or termination of the Fair Allocation Plan if such amendment , amendment and restatement or termination would adversely affect the validity or enforceability of any Funding Obligation or the rights of an Absolute Assignee or Pledgee thereunder, **or would not otherwise comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations,**

in each case including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(3) Successor IESO – If IESO is restructured, dissolved or becomes insolvent or is otherwise incapable of performing its obligations under this Act, **an IESO** Successor ~~IESO~~ shall **immediately** be established **by Her Majesty in right of Ontario** to perform such obligations.

~~21~~[18] Under consideration, including the dealers' request for a "servicer guarantee" and a "contractual guarantee" to address a "Change of Law" or if all or a portion of the legislation is *ultra vires*, requiring (at the lenders option), the Province to pay principal and interest on the outstanding debt until maturity or payout the entire debt including any make-wholes. ⊥
In the event of a market disruption that renders it impossible to refinance debt when required (or where financing of amounts required to service the debt is not available because of a market disruption where the Financing Entity was relying on such further issuance of debt until the recovery is set to begin to fund interest), either the Province must step in and payout the debt or there must be the right to recover the debt from ratepayers as it becomes due, notwithstanding the intended rate cut.

(4) Compensation for Failure – Absolute Assignees shall be compensated by Her Majesty in right of Ontario for any losses suffered by them as a result of any failure by ~~the Lieutenant Governor in Council~~Her Majesty in right of Ontario to comply with its undertakings and agreements in this Article 11.~~22~~19

(5) No Wind-up of Financing Entity. No Financing Entity may be voluntarily wound up, liquidated or dissolved until one year after all of its Funding Obligations are repaid. [NTD: This concept can be contained in the Regulations.]

(6) References to the Undertaking and Agreement – Any non-confidential reference to the Undertaking of the ~~Lieutenant Governor in Council~~Her Majesty in right of Ontario, including in marketing materials and other documentation authorized for use by the Administrative in connection with any Funding Obligation, may be made provided that [*Add conditions to protect the Province*].

Article 12 – Regulations

Regulations may be made under this Act for the purposes described in Sections •,•,• and • and may be promulgated for any of the following purposes:

(a) to set standards and measures regarding the commercially reasonable requirements of the Province associated with an Absolute Assignee incurring Funding Obligations or becoming obligated to pay any Finance Amount, including to establish guidelines regarding all-in funding costs; permitted Additional Funding Charges; required maturities and redemption and termination rights of Funding Obligations; liquidity requirements, in each case to a Financing Plan that is consistent in its effect with the Fair Allocation Plan;

(b) to establish and empower one or more regulated entities to undertake decision-making activities with respect to this Act;

(c) to set out reasonable requirements regarding the appointment or retention of advisors, agents, service providers, contract counterparties, including in relation to 'market terms and conditions' parameters;

(4) **Effect of invalidity after the Incurrence of any Funding Obligation** - Effective on the date that a Funding Obligation is incurred under this Act, if any provision of this Act is held to be invalid or is invalidated, superseded, replaced, repealed or expires for any reason, that occurrence shall not affect any action allowed under this Act that is taken by any person who is or may become obligated or have duties that arise under this Act and any such action shall remain in full force and effect.

(5) **Severability** - If any Article, Section, paragraph or subparagraph of this Act or the application thereof to any person, circumstance or transaction is held by a court of competent jurisdiction to be unconstitutional or invalid, the unconstitutionality or invalidity shall not affect the constitutionality or validity of any other Article, Section, paragraph or subparagraph of this act or its application or validity to any person, circumstance or transaction, including the irrevocability of Transition Charges, the validity of the Regulatory Asset, the incurrence of any Funding Obligation, any Disposition, any Pledge, or the collection and recovery of Transition Charge Collections. Schedule 3[24]

Principles and Parameters for Establishing the Financing Plan

The following principles and parameters provide a guideline as to what a Financing Plan should address:

~~(1)~~ ~~in respect of each Reference Period, make reference to the allocations of Future Fair Share of Green Transition Benefits to each Reference Group contemplated by the Fair Allocation Plan;~~

~~(2)~~ ~~estimate IESO Funding Shortfalls for each Reference Period;~~

~~(3)~~ ~~consider alternative funding arrangements suitable to fund the estimated IESO Funding Shortfalls, including short term and/or long term Funding Obligations;~~

(1) ~~(9)~~ consider quantities, maturities, payment obligations, prepayment or redemption rights and such other features of Funding Obligations so that payments made for a Reference Period reasonably correspond to the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

(2) ~~(4)~~ if the anticipated amount of any Repayment (together with payments of other Finance Amounts) to be made in respect of a Reference Period would materially exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable ~~Retail Consumer Group~~**Regulated Consumers** under the then current Fair Allocation Plan, diligent efforts should be made to determine whether a Refinancing or deferral of such Repayment may be reasonably and cost-effectively effected based on then prevailing market terms, conditions an circumstances;

(3) ~~(5)~~ reflect the assumptions and requirements specified in any contemplated Funding Obligation (e.g., any limit on the maximum amount of Transition Charges charged to a hypothetical ~~Retail~~**Regulated** Consumer relative to his or her monthly electricity bill, as prescribed by any rating agency that ascribes its credit rating to or in respect of the Funding Obligation **[having regard to the application of the ~~Allocation~~Attribution Methodology][NTD: Are the words in square brackets necessary?]**);

(4) require the Financial Services Manager, for and on behalf of each Regulatory Asset Owner, to use diligent efforts to manage Finance Amounts to be borne by Ratepayers;

(5) include a proposal regarding the compensation of the Financial Services Manager that reflects market terms and conditions; and

(6) ~~incur Funding Obligations from time to time on the best terms available at such time for a financing transaction of the size and type contemplated, and having regarding to the following parameters:~~**require that the Financial Services Manager report annually to**

~~b. the basis upon which the Financial Services Agent will select the term to maturity of any other Funding Obligations; provided that any Repayments required to be made under the terms of such Funding Obligations should not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;~~

~~c. the basis upon which the interest rates applicable to such Funding Obligations would be determined;~~

(7) the basis upon which Funding Obligations may be redeemed, prepaid, repurchased or otherwise affected, having regard for the need to minimize debt service charges and other Funding Costs, and the need to maintain a stable funding platform to finance the IESO Funding Shortfalls from time to time on a basis that is consistent with the allocations of Future Fair Share of Green Transition Benefits to applicable Reference Groups under the Fair Allocation Plan;

(8) the basis upon which any Repayments, Funding Costs and Redemption Amounts will be paid, including any defeasance, sinking fund or through other reserves or liquidity facilities;

(9) the basis upon which fees, charges, expenses, costs, indemnities, reimbursements and other amounts payable to or for the benefit of the Financial Services Agent and other agents and service providers to the Absolute Assignees may be determined, allocated and paid;

Fair_Hydro_Act Torys_Osler Mark-up April 11 2017 Draft (Torys-Oslers_Apr....pdf

CONFIDENTIAL AND PRIVILEGED

Preliminary Draft for Discussion Purposes Only

"Fair Hydro Act"

Article 1 – Purpose

The Province has and continues to encourage the construction and development of facilities for the long-term operation and generation of electricity in the Province using sustainable, lower carbon-based technologies such as new gas-fired generation, renewable facilities, energy from waste and biomass, including under the Province's various procurement, standard offer, feed in tariff and other similar programs (the "Green Generation Initiative"). The long-term benefits of the Green Generation Initiative accrue over time and have benefited and will continue to benefit present and future electricity consumers in the Province.

The out-of-market costs of the Green Generation Initiative are currently passed through to electricity consumers by way of a monthly adjustment amount (the "Green Costs Adjustment"), which in turn forms part of the overall adjustment calculated by the Independent Electricity System Operator ("IESO") pursuant to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* (the "Global Adjustment").

The Green Costs Adjustment is currently determined each month by reference to the amounts paid by IESO to the generators of electricity in the Province under the Green Generation Initiative. These amounts paid by the IESO arise because IESO has entered into long-term procurement contracts with such generators in order to provide them with revenue certainty, and in turn to encourage the generators to develop technologies and to construct and develop facilities consistent with the Green Generation Initiative. **[NTD: This statement is not correct in respect of all IESO procurement contracts.]** It has been determined that the useful lives of many of the assets developed under the Green Generation Initiative will be in excess of the respective terms of their respective procurement contracts.

Since the benefits to past, present and future electricity consumers from the Green Generation Initiative will not necessarily coincide with the costs currently attributed through the Green Costs Adjustment, based on the respective terms of the applicable procurement contracts, it has been determined that the rate at which the costs associated with the Green Generation Initiative should be passed through to Regulated Consumers (as defined in Article 2) should be more closely aligned with the benefits that such Regulated Consumers have derived and are expected to derive from the Green Generation Initiative over time. This realignment will be based on general principles and parameters that establish a reasonable basis for measuring and allocating the relative costs and benefits of the Green Generation Initiative equitably across present and future Regulated Consumers (the "Fair Allocation Plan"). **[NTD: There is no explanation as to why realignment is limited to Regulated Consumers.]**

If the Fair Allocation Plan determines that the equitable allocation of the costs associated with the Green Generation Initiative to the Regulated Consumers of a particular time period should be reduced below the amount that currently would be charged based on the Green Costs Adjustment, then the amount payable by such Regulated Consumers and in turn available to IESO will, in the aggregate, be less than the amount payable by the IESO to the generators in

respect of such period. In this case, IESO will need to obtain funding from another source to cover such a shortfall. If a funding obligation is incurred to cover such a shortfall during any period, the repayment of such funding obligation will be required in a future period, and any related repayments, finance costs, hedging costs and other transaction costs incurred will become payable in future periods. In order for IESO to obtain a reliable and committed source of cash flows to enable IESO to repay such funding amounts when they become due and payable, this Act imposes irrevocable and non-bypassable financial obligations on Regulated Consumers to pay amounts incurred in respect of such funding obligations when they become due and payable and establishes a right to invoice and collect such amounts. The right and interest in and to collect such financial obligations will take the form of the Regulatory Asset contemplated in this Act, which will constitute property rights and interests. Interests in the Regulatory Asset may be sold and absolutely assigned by IESO to one or more financing entities, which in turn will finance their acquired interests by incurring funding obligations. The incurrence and payment of such funding obligations will be administered on behalf of such financing entities by a financial services manager under the Financing Plan contemplated in this Act.

[NTD: Our strong preference is to limit the introduction to the next paragraph and move defined terms from the previous paragraphs to Article 2]

The purpose of this Act is to establish the basis upon which intergenerational fairness can be achieved by charging the costs and benefits of the Green Generation Initiative to present and future Regulated Consumers on an equitable and cost effective basis.

Article 2 – Definitions

In this Act: **[NTD: It would be preferable to use plain language definitions in the legislation and leave the more detailed definitions to either the regulations or the agreements contemplated hereunder.]**

> "Absolute Assignee" means a person to whom a Regulatory Asset Owner effects a Disposition other than as security.
>
> "Actual" means, in relation to costs, expenses or payments in respect of Funding Obligations during a Reference Period, the actual amount of such costs, expenses or payments paid or made (net of any Finance Reserve Withdrawals applied to pay such amounts), which amounts shall be recorded by the Financial Services Manager whose records shall be determinative for the purposes of this Act except to the extent of a manifest calculation error.
>
> "Additional Funding Charges" means, for a Reference Period, the fees, charges, expenses, costs, indemnities, reimbursements and other amounts (including any applicable tax amounts) that are or become payable by or on behalf of the Absolute Assignee during the Reference Period and that were incurred or committed to directly or indirectly by the Absolute Assignee in connection with the incurrence of Funding Obligations under the Financing Plan (whether at the time of such incurrence or over the term of the Funding Obligation and whether directly or indirectly), including without limitation such amounts as may be prescribed.
>
> **[NTD: See section 5(11). Remove this concept globally.]**

"Alternative Servicer" means a person appointed under Section 4(8) to assume the obligations of the Servicer under Article 4, as agent for and on behalf of the Regulatory Asset Owners. **[NTD: We see this, in effect, as the same thing as the IESO Successor; that is, replacement of the master Servicer.]**

"Assessed Past Green Transition Costs" means, in respect of a Measurement Date, the aggregate of the imputed costs of the Green Generation Initiative (expressed as an equivalent to current dollars), as reflected in the calculation of the Green Costs Adjustment, which have been charged to Retail Customers through the Global Adjustment on or prior to the Measurement Date.

"Attribution Methodology"[1] means the methodology specified in the Fair Allocation Plan for allocating the Period Finance Charges for a Reference Period to Regulated Consumers. **[NTD: We understood that the Ministry accepted that the transition charge would be a volumetric rate.][NTD: Can be moved to Regulations.]**

"Collected Amount Adjustment" means, in respect of a True-Up Period, the amount (which may be a negative amount) calculated by the Servicer or the Financial Services Manager, as applicable, equal to (a) the Estimate of the Finance Amount for the True-Up Period, minus (b) the sum of all Transition Charge Collections for the True-Up Period.[2]

"Collective Rights Agreement" means an agreement among all of the Regulatory Asset Owners (including each Absolute Assignee), each Pledgee, and the Financial Services Manager that governs the enforcement of their respective rights and interests in, to and under the Regulatory Asset on a coordinated and collective basis. **[NTD: Move to Regulations.]**

"Delegate" means any of the following person or persons designated in writing from time to time by the Minister of Energy to undertake the actions and perform the responsibilities ascribed to the "Delegate" under this Act: ●. **[NTD: Why is this delegation of authority necessary? This requires further discussion and clarity as to which entity or entities that the Province can select as the Delegate; for example, it would not be acceptable for the Province to select the OEB to be the Delegate. If this is required, an acceptable delegate would be a stakeholder committee comprised of representatives from the Ministry of Energy, the OEB, the IESO, and OPG. In addition, the regulation should prescribe how the stakeholder committee would operate.]**

"Disposition" means an assignment, transfer, conveyance, sale, contribution, set-over, exchange or other disposition of (a) IESO's right to recover all or any portion of an IESO Funding Shortfall or (b) an Investment Interest to an Absolute Assignee, in each case pursuant to a Disposition Document.

---

[1] This allocation may be volumetric or some combination of a flat amount and a volumetric charge. Further discussion is required. H&W has raised a concern regarding possible adverse changes after the fact and rating agency considerations. Consider whether hard-coding in the legislation makes sense.

[2] This would pick up adjustments based on actual collection experience, changes in the Regulated Consumer base, changes in the actual costs (versus earlier estimates) included in the Transition Charge calculation, etc.

"Disposition Document" means the agreement, deed, conveyance, instrument or other document under which IESO or an Absolute Assignee effects a Disposition to an Absolute Assignee.

"Electricity Distributor" means a rate regulated distributor licensed under Part V of the *Ontario Energy Board Act, 1998*, together with and its successors.

"Electricity Distributor Remittances" means, for an Electricity Distributor on a Remittance Date, all Transition Charge Collections received or deemed to be received **[NTD: estimated to be received? will each Electricity Distributor know?]** by the Electricity Distributor prior to the Remittance Date and that have not otherwise been remitted to Servicer or if applicable the Alternative Collection Agent in accordance with Section 5(3), including the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5.

"Electricity Invoice" means an invoice issued by an Electricity Distributor (or in its stead, by an Alternative Collection Agent), by the Servicer or by a Retailer, in each case to a Regulated Consumer that is served by the Electricity Distributor's distribution system in respect of electricity charges, including the cost of electricity, delivery and regulatory charges and related services and amounts incurred, assessed or charged in respect of connectivity to such Electricity Distributor's distribution system and in respect of applicable Transition Charges to be charged to the Regulated Consumer under this Act. **[NTD: The Alternative Servicer should only invoice for Transition Charges, not the entire invoice. Also, to avoid confusion, we suggest using the word "invoice" in reference to what the IESO sends out to distributors, and "bills" in reference to what distributors send out to consumers.]**

"Estimate" means (a) in relation to costs, expenses or payments in respect of Funding Obligations or any Finance Amount for a Reference Period, the estimated amount of such costs, expenses or payments determined by the Financial Services Manager; and (b) in relation to an assessment of the benefits of the Green Generation Initiative to Regulated Consumers, the estimated value (in current dollars) of such benefits determined by the Delegate, in each case having regard to the applicable principles and parameters set out in Schedule 1, which estimated amounts shall be determinative as the applicable estimate for the purposes of this Act except to the extent of a manifest calculation error.

"IESO Electricity Distribution Receipts" means, for a month, the sum of all amounts payable by Electricity Distributors to IESO , during the month pursuant to section • of the *Electricity Act* in respect of Regulated Consumers. **[NTD: IESO indicates that it likely does not work to express in regards to "amounts payable by the LDCs" because settlement between the IESO and LDCs entails payments by LDCs to the IESO and then credits/debits by the IESO to LDCs to reflect RPP shortfalls/overages.]**

"IESO Funding Shortfall" means, for a month, the amount, if any, by which (a) the IESO Electricity Distribution Receipts that would be payable to IESO for the month if determined without regard to this Act and without regard to the changes made to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* with respect to the Global Adjustment concurrently with this Act, exceeds (b) the IESO Electricity Distribution Receipts payable to IESO for the month[5].To the extent reasonably necessary to give effect to this Act, or any transaction contemplated hereby, IESO shall calculate the IESO Funding Shortfall for any month taking into account information provided by the Electricity Distributors and (i) such calculation shall be binding for all purposes; and (ii) any demonstrated inaccuracy in the calculation for any month (including any such resulting from inaccuracies in the information provided by Electricity Distributors) shall be accounted for by adjusting the IESO Funding Shortfall for a subsequent month. **[NTD: Need to add the mechanism for IESO to record this shortfall because without that there is no Regulatory Asset. This IESO Funding Shortfall is the regulatory asset owned by IESO.]**

"IESO Remittances" means, for a Settlement Date, all Electricity Distributor Remittances received by IESO or if applicable the Alternative Collection Agent prior to the Settlement Date and that have not otherwise been remitted to the Regulatory Asset Owners (each with respect to its Regulatory Asset) in accordance with Section 5(6), including the proceeds of any enforcement action undertaken by IESO or if applicable the Alternative

[5] This has been recast to recognize that the shortfall in the first 4.5 years could exceed the entire GA amount. A more refined approach to describing the concept may be considered.

"Regulated Consumer" means consumers of electricity in the Province as prescribed.

[NTD: There are a number of issues with this definition. First, the word "Retail" is a source of confusion as it implies customers of licensed retailers. Really, the purpose of the term is to define the group of consumers that are eligible to receive the benefit of the Fair Hydro program and who will bear the cost of the program over the long term. We have proposed "Regulated Consumer" but you could also use the term "Eligible Consumer" or "Fair Hydro Eligible Consumer" and for purposes of the legislation to say that it is a member of a class of consumers prescribed by the regulations for purposes of the relevant section of the legislation. The regulation would then describe who is in the class. Second, it may not be appropriate to rely on the class of consumers prescribed for the purposes of s. 79.16 or under the OREC Act. Section 79.16 is the section that defines the class of RPP consumers. We understand that the "Fair Hydro Eligible Consumers" are not an identical class to that which is eligible for the RPP or for the Ontario Rebate for Electricity Consumers. For example, we have heard that Fair Hydro Eligible Consumers will (a) exclude consumers served by independent power authorities (certain remote communities not served by Hydro One Remotes), and (b) include consumers served by licensed unit sub-metering providers, licensed retailers and certain consumers served directly by the IESO (which may or may not be captured by the classes under 79.16 or OREC). Third, it is not clear why consumers with contracts with retailers who use retailer consolidated billing are removed from the first part of the definition but then added back into the second part of the definition. Fourth, Retailers do not necessarily have physical electricity assets that would be connected to the grid. Some just sell or offer contracts for electricity. As such, the first few lines after (b) are problematic. Fifth, the phrase "purchase electric generation services from a provider of electric generation services other than the owner of the Province's transmission and distribution system assets" does not make sense. A consumer does not purchase generation services from a transmitter or distributor. Rather, a consumer receives distribution services from a distributor. In addition to charging for its distribution services, the distributor also charges the associated

transmission costs and commodity costs associated with the volumes delivered. Those commodity costs are the price of the electricity itself and are almost entirely made up of the amounts determined under the global adjustment. Sixth, the phrase "whether or not the transmission and distribution system assets continue to be owned or operated by Electricity Distributors or operated by IESO" does not make sense. Transmission assets are owned and operated by transmitters. Distribution assets are owned and operated by distributors. The IESO does not own but does administer and direct the operation of the transmission system.]

"Regulatory Asset" means the property rights and interests described in Section 6(1), which collectively is comprised of each Investment Interest.

"Regulatory Asset Account" means (a) for an Electricity Distributor, any bank account into which the Electricity Distributor deposits or receives Transition Charge Collections; and (b) for the Servicer, any bank account into which Servicer deposits or receives Transition Charges, Electricity Distributor Remittances or IESO Remittances.

"Related Rights" means, with respect to a Regulatory Asset Owner's Investment Interest, all rights of any kind (whether in tort, contract or otherwise) that attach or are attendant or incidental to any of the other property rights or interests that comprise such Investment Interest.

"Remittance Date" means, in respect of an Electricity Distributor, each day on which it is required to remit Electricity Distribution Remittances to Servicer or if applicable the Alternative Collection Agent as specified in accordance with any Funding Obligation or, if no such day is specified in accordance with any Funding Obligation, then the Business Day **[NTD: Not defined.]** preceding each Settlement Date. **[NTD: Move to Regulations. Remittances will be in accordance with the current rules.]**

"Repayment Obligation" means an obligation to repay or to provide for the repayment (including by making a related Finance Reserve Deposit) of, all or a portion of the amount advanced to the Absolute Assignee under a Funding Obligation.

"Repayment" means a payment by an Absolute Assignee made to satisfy a Repayment Obligation, other than to the extent that the payment is made by applying the proceeds of a Refinancing or from Finance Reserve Withdrawals.

"Replacement Event" means any event specified as such in a Funding Obligation.

"Retailer" means a person who is licensed under Part V of the *Ontario Energy Board Act, 1998* to retail electricity.

"Retailer Consolidated Billing" has the same meaning as in the *Retail Settlement Code* issued by the Ontario Energy Board.

"Servicer" means IESO or IESO Successor, as agent for and on behalf of the Regulatory Asset Owners, for the purposes set forth in Article 4.

"Settlement Date" means the [last Business Day of any month].

"Transition Charge" means, the amount recoverable from a Regulated Consumer in respect of a Reference Period, being the Period Finance Charge as allocated to such Regulated Consumer in accordance with Article 4(3) on a monthly basis. **[NTD: This needs to be grossed up to account for variability associated with expected uncollectables and remittance delays.]** **[NTD: Do not need to create parallel process. The definition should be linked to the OEB process for determining the volumetric rate as part of the RPP process (see s. 4(2)). The OEB will determine volumetric rate based on forecast consumption, number of consumers, etc. to recover the Period Finance Charges.]**

"Transition Charge Collection" means any amount received **[or deemed by this Act to have been received]** by the Absolute Assignees upon the collection of a Transition Charge paid by or on behalf of a Regulated Consumer, including any proceeds arising from the exercise and enforcement of any related rights and interests under or in respect of the Regulatory Asset.

What about prior period shortages? An example of how this works needs to be provided.]**

"True-Up Period" means, in relation to a Reference Period, the immediately preceding Reference Period.

"Undertaking of Her Majesty in right of Ontario" means the undertaking of Her Majesty in right of Ontario given under Section 11(2).

Article 3 – Transition Charges

(1) **Regulated Consumer Obligation to Pay a Transition Charge** – Each Regulated Consumer shall pay each Transition Charge charged to it in any Electricity Invoice issued to such Regulated Consumer by its Electricity Distributor or by an Alternative Servicer under Section 4(1), in each case on the terms of payment specified in the related Electricity Invoice.

(2) **Indebtedness of Regulated Consumers** – Until paid, a Transition Charge charged to a Regulated Consumer in an Electricity Invoice shall, together with any applicable late payment fees and finance charges arising under the terms of the Electricity Invoice with respect to such Transition Charge, constitute non-bypassable indebtedness of the

Regulated Consumer to the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset. Such indebtedness shall constitute a single and separate[6] debt obligation owing by the Regulated Consumer, which subject to Article 5 may be enforced independently from any other payment obligation or indebtedness owing by the Regulated Consumer under the Electricity Invoice or otherwise.[7]

(3) No Set-Off or Reduction – A Regulated Consumer may not set-off or reduce (by counterclaim, defense or otherwise) the amount payable by it in respect of any Transition Charge, including any set-off against or in respect of any amount owing or becoming payable to such Regulated Consumer by its Electricity Distributor, any Regulatory Asset Owner or any other person.

(4) Allocation of Regulated Consumer Payments – If an Electricity Distributor receives a payment made by or on behalf of a Regulated Consumer in respect of amounts due and payable under one or more Electricity Invoices that is less than the total amount payable thereunder, such payment shall be subject to rights and benefits that are no less favourable than the treatment accorded to other amounts payable to the IESO by the Electricity Distributor.

(5) Transition Charges are Irrevocable – The Transition Charges arising under or in respect of Funding Obligations (including any adjustments based on modifications to such Funding Obligations made in compliance with the Financing Plan or as a result of amendments to the Financing Plan made in accordance with Section 9(3)) are deemed to be irrevocable, final and effective without any further action, except to the extent of manifest calculation error. For greater certainty, a Transition Charge may include Finance Amounts for a Reference Period regardless of whether the payment of such Finance Amounts are inconsistent with the Fair Allocation Plan applicable at the time such payments are due and payable, and regardless of whether the related Funding Obligation was properly incurred under the Financing Plan. In no case shall a Funding Obligation incurred under the Financing Plan be affected by a subsequent amendment to the Fair Allocation Plan.

(6) True-Up of Transition Charges? – [NTD: Include specifics regarding the true-up of the charges and the process for the true-up, but move to Regulations. The True-Up Mechanism should require the Transition Charges to be reviewed and adjusted semi-annually to ensure the expected recovery of amounts sufficient to timely provide all payments in respect of Funding Obligations, provided that in some cases it may need to be adjusted more frequently than semi-annually, e.g., as part of a refinancing.]

(7) Commencement of Invoicing and Collection of Transition Charges – [NTD: Please confirm that as drafted, Transition Charges will begin on the Measurement Date.]

---

[6] Determine if this is critical for rating and markets. Logistics under consideration.

[7] Torys has also suggested that deemed conditions of licenses for distributors, retailers and unit sub-metering providers, could be included as conditions, to require them to collect and remit amounts in accordance with this legislation. Consider if it is helpful to integrate the existing regulatory scheme for invoicing and collections (regarding RPP) in the legislation.

Article 4 – Invoicing of Transition Charges [NTD: Move Article 4 sections (1) to (4) to Regulations. Also note, these sections remain subject to further due diligence by the Dealers.]

(1) **Inclusion of Transition Charges in Electricity Invoices** – Each Electricity Distributor and if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, specify the Transition Charge to be charged to a Regulated Consumer pursuant to Section 4(4) in respect of a related Reference Period in each Electricity Invoice issued by the Electricity Distributor or if applicable by the Alternative Servicer to the Regulated Consumer in respect of such Reference Period. Upon the inclusion of a Transition Charge in an Electricity Invoice, the obligation to pay such amount shall be binding on the applicable Regulated Consumer. **[NTD: Must capture bills issued to eligible consumers served by unit sub-metering providers, retailers and the IESO – not just distributors][NTD: This provision also needs to address the inclusion of Transition Charges in invoices from the IESO to the LDC, consistent with the current process of how the IESO bills LDCs.]**

(2) **Calculation of the Period Finance Charge** – Not later than [35] days prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services Manager on its behalf) shall provide the OEB with written notice of each Estimate of a Finance Amount payable by it or on its behalf in respect of the Reference Period. Not later than one month prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services Manager on its behalf) shall calculate the Period Finance Charge applicable to the Reference Period having regard to such amounts specified by the Servicer, which calculations, information and amounts shall be accepted by the OEB and shall be determinative, except to the extent of manifest calculation error or misstatement.

(3) **Calculation and Attribution of Transition Charges** – Not later than 25 days prior to the first day of a Reference Period, the OEB shall apply the Attribution Methodology to determine the allocation of the Transition Charge for each Regulated Consumer. **[NTD: We think the OEB would be determining the Fair Hydro recovery rate (on a volumetric basis) that distributors would then be required to charge to consumers]**

(4) **Notice of Transition Charges** – Not later than 20 days prior to the first day of a Reference Period, the OEB shall inform each Electricity Distributor and if applicable any Alternative Servicer of the Transition Charges to be specified in the Electricity Invoices to be issued to each Regulated Consumer who is served by the Electricity Distributor.

(5) **Adjustments** – The amount of any Transition Charge charged to a Regulated Consumer and specified as such in an Electricity Invoice shall be determinative of the amount of indebtedness created thereby and owing in respect of such Transition Charge, except to the extent of any manifest calculation error.

(6) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 4 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 4 to impose, attribute, charge, bill and invoice the Transition Charges.

(7) **IESO Successor** – Any IESO Successor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of IESO under Article 4 in the same manner and to the same extent as IESO, including the obligation to calculate and provide notice of Transition Charges.

(8) **Appointment of an Alternative Servicer** – If a Replacement Event occurs in respect of any Electricity Distributor, the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Servicer to perform some or all of the obligations and duties required to be undertaken by such Electricity Distributor under this Article 4, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Servicer shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor. Any Electricity Distributor that is replaced under this Section 4(8) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in the performance of such obligations and duties to the Alternative Servicer and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Servicer to perform such obligations and duties on behalf of the Regulatory Asset Owners. **[NTD: We would expect the IESO to manage this in accordance with its normal business practices.]**

(9) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, the Servicer, Alternative Servicer or any other person who may be authorized to issue Electricity Invoices to Regulated Consumers for a failure to impose, attribute, charge, bill or invoice Transition Charges or to otherwise comply with this Act. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure and may make any interim or final order it thinks fit in this regard. **[NTD: We would like to see the sections on "Standing" to bring an action to remain in the legislation (as opposed to being moved to the regulations as we believe we previously suggested) as we see those provisions as part of ensuring a rigorous enforcement scheme for the Financing Entity (and so something that should be difficult for the Province to change going forward).]**

(10) **No Set-Off or Reduction –** No Servicer or Electricity Distributor may set off or reduce (by counterclaim, defence or otherwise) the amount payable by it pursuant to this Article 4.

(11) **Regulations** – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Servicer to ensure that Transition Charges are properly charged to Regulated Consumers and specified as such in Electricity Invoices.

Article 5 – Collections and Remittances [NTD: Move Article 5 sections (3), (6), (9), (12), (13) and (14) to Regulations.]

(1) **Duty to Collect as Agent** – Electricity Distributors or if applicable any Alternative Collection Agent shall, as an agent of the Servicer, collect amounts owing by Regulated Consumers in respect of Transition Charges charged to such Regulated Consumers in

Electricity Invoices issued by the Electricity Distributor or if applicable such Alternative Collection Agent all in accordance with the Regulations. **[NTD: The obligation to collect and remit the Transition Charge should be included as a deemed condition of license for electricity distributors (and retailers and unit sub-metering providers).]**

(2) **Segregation of Transition Charge Collections** – An Electricity Distributor or if applicable any Alternative Collection Agent shall promptly segregate Transition Charge Collections from other payments received by it from Regulated Consumers and deposit such Transition Charge Collections into its Regulatory Asset Account.[8] **[NTD: Determine if this is critical for rating and markets or if segregation can occur in the hands of the IESO]** Prior to and following a deposit of Transition Charge Collections having been made into its Regulatory Asset Account, the Electricity Distributor or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners or its Pledgee.

(3) **Electricity Distributor Remittances** – On each applicable Remittance Date, an Electricity Distributor shall remit all amounts invoiced by the IESO on account of the Transition Charge in respect of the related Reference Period to or to the account of Servicer or if applicable the Alternative Collection Agent. **[NTD: It is the Dealers expectation that the Transition Charge will be paid on the same basis as other amounts invoiced by the IESO, failing which, they will need to be remitted daily.]**

(4) **Duty to Collect Electricity Distributor Remittances** – Servicer or if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, accept and collect Electricity Distributor Remittances from Electricity Distributors and Transition Charge Collections from Regulated Consumers that pay their Electricity Invoices directly to IESO on the same basis as it accepts and collects other charges from such Regulated Consumers.[9]

(5) **Segregation of Electricity Distributor Remittances** – Servicer and if applicable the Alternative Collection Agent shall promptly segregate Electricity Distributor Remittances from other payments received or held by it and deposit such Electricity Distributor Remittances into its Regulatory Asset Account. Prior to and following a deposit of Electricity Distributor Remittances having been made into its Regulatory Asset Account, Servicer or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners or Pledgee.

(6) **Servicer Remittances** – On each Settlement Date[10], Servicer shall remit all amounts on deposit in its Regulatory Asset Account to or to the account of the Absolute Assignees an amount equal to the Investment Remittance for the related month.

[8] Consider trying to attach to existing LDC credit enhancements and provide parallel coverage for customer losses.

[9] Consider building this obligation into a deemed condition of licence for the IESO.

[10] Consider frequency of remittances in light of rating requirements. US rating agencies favour daily remittances.

(7) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 5 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 5 to collect Transition Charges and make remittances of Electricity Distributor Remittances.

(8) **IESO Successors** – IESO Successors shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of IESO under Article 5 in the same manner and to the same extent as IESO, including the obligation to collect Transition Charge Collections, Electricity Distributor Remittances and to remit IESO Remittances.

(9) **Owners of Distribution Assets** - If any person other than an Electricity Distributor acquires distribution system assets in the Province or invoices or collects electricity distribution rates in the Province[11], then such person shall, if requested by the Absolute Assignees, be obligated to act diligently to (a) facilitate the invoicing and collection of any Transition Charges applicable to Regulated Consumers connected to such person's distribution system assets; (b) allocate partial payments by Regulated Consumers as provided in this Act; (c) exercise all enforcement rights of the Absolute Assignees for the benefit of an Absolute Assignee; and (d) remit any Transition Charge Collections to the Absolute Assignees or Pledgees, as applicable, each in accordance with its Investment Interest. **[NTD: Such acquisition of a distribution system would require the person to be an electricity distributor; consider deleting since this is covered off by Section 5(7).]**

(10) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, Servicer, the Alternative Collection Agent, any owner of electricity distribution system assets in the Province or any other person who may be authorized to collect electricity distribution and use charges from Regulated Consumers for a failure to collect Transition Charges, remit or collect Electricity Distributor Remittances or remit IESO Remittances, as and to the extent applicable under Article 5, or to otherwise comply with this Act. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure and may make any interim or final order it thinks fit in this regard.

(11) **Not Used. [NTD: The Servicer should manage this process.**]

(12) **No Set-off, etc.** - The Regulatory Asset, including rights in Transition Charges, Transition Charge Collections, and the interests of a Regulatory Asset Owner, an Absolute Assignee and a Pledgee therein, may not be setoff or reduced (including by counterclaim, surcharge or defense) by any Regulated Consumer, any Electricity Distributor, Servicer, Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or in connection with any default, bankruptcy, reorganization or other insolvency proceeding of any Electricity Distributor, Servicer,

[11] This is in anticipation of a possible future restructuring of the distribution system.

Alternative Collection Agent or any owner of distribution system assets in the Province, any affiliate or successor thereof or any other entity or otherwise.[12]

(13) **Sequestration** – If any Electricity Distributor, Servicer, the Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or entity authorized to collect Transition Charges, defaults on any required remittance of Transition Charge Collections, Electricity Distribution Remittances or IESO Remittances under Article 5, any court in the Province, upon application by and of the Absolute Assignees acting collectively under the Collective Action Agreement and without limiting any other remedies otherwise available to the Absolute Assignees or Pledgees, shall order the sequestration and payment of the Transition Charge Collections, Electricity Distribution Remittances and IESO Remittances, as applicable, for the benefit of the Absolute Assignees, each with respect to its Investment Interest, and the Pledgees as applicable.[13]

[NTD: Suggest considering a more typical remedy such as the ability to appoint a receiver. Concept should be moved to Regulations.]

(14) Regulations – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to Servicer, any Electricity Distributor or any Alternative Collection Agent to ensure that rights, interests, entitlements, benefits and proceeds in, to, under and from the Regulatory Asset are of fully realized by some or all of the Absolute Assignees and Pledgees.

Article 6 – The Regulatory Asset

[NTD: We believe that the statute should impose a time limit on the ability of IESO to create additional Regulatory Assets under this Act. It is our expectation that this will be no later than 10 years after the commencement of the program.]

[NTD: In addition, additional language is required to address the acquisition of the Regulatory Asset by the Financing Entity, including reference to the consideration being provided for it, funding upfront costs.]

[NTD: The sale of Regulatory Assets must be restricted to Financing Entities controlled by a single entity (initially, OPG).]

[NTD: For greater certainty, a Financing Entity will not be required to purchase Regulatory Assets from IESO.]

---

[12] Consider whether it makes sense to create a "deemed collection" payment obligation on Electricity Distributors to the extent a Regulated Consumer reduces its payment of Transition Charges, despite this language. Same for Electricity Distributor Remittances and IESO Remittances.

[13] Consider adding or substituting this provision for a right to appoint a receiver.

(1) **Composition** – The Regulatory Asset shall constitute a current and irrevocable property right and interest consisting, collectively, of the following rights and interests (without duplication):

a. the right of a Regulatory Asset Owner to record its portion of the Regulatory Asset in its accounts;

b. the right to impose, bill, invoice, collect and receive Transition Charges from Regulated Consumers, including the right to determine the amount of Transition Charges in accordance with this Act;

c. the right to enforce the obligations and indebtedness of each Regulated Consumer to pay the Transition Charges charged to the Regulated Consumer from time to time in accordance with Article 3, together with all related late payment fees or interest charges arising in respect thereof under the related Electricity Invoices; **[NTD: Do we really want and need the ability for the Financing Entities to chase after individual consumers?] [NTD: This should be the right to provide notices to the OEB of the amounts required for recovery, which the OEB would then be required to accept for purposes of determining the amount of Transition Charges to be charged to consumers]**

d. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Servicer to impose, attribute, charge, bill and invoice the Transition Charges in accordance with Article 4;

e. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Collection Agent to collect, receive and remit amounts received by it in respect of Transition Charges as Electricity Distributor Remittances to or to the account of Servicer or if applicable the Alternative Collection Agent in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5;

f. the right to enforce the duties and obligations of Servicer and if applicable the Alternative Collection Agent to collect and receive Electricity Distributor Remittances and to remit IESO Remittances to or to the accounts of the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset, in each case in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by it to recover payment of Electricity Distributor Remittances in accordance with Article 5;

g. the right to receive and collect all Transition Charge Collections, all Electricity Distributor Remittances and all IESO Remittances in accordance with Article 5;

h. all rights and entitlements under each Regulatory Asset Account and all amounts on deposit in any such Regulatory Asset Account;

i. all Related Rights; and

j. all revenue, collections, claims, payments, money and proceeds of or derived from the rights described in (a) through (i), regardless of whether such revenue, collections, claims, payments and proceeds are imposed, invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

A Regulatory Asset and the property rights and interests therein shall exist whether or not Transition Charges have been imposed, charged, invoiced, accrued or collected and notwithstanding that the imposition, attribution, invoicing and collection of Transition Charges will depend on further actions that may not have occurred. The Regulatory Asset shall continue to exist until all Funding Obligations and Additional Funding Charges have been paid in full.

(2) **Validity of Dispositions** – A Disposition by IESO of all or any part of the IESO Funding Shortfall to an Absolute Assignee, or a Disposition of all or any part of an Investment Interest by one Absolute Assignee to another Absolute Assignee made under the Financing Plan, shall be permitted and when made shall be valid and enforceable in accordance with the terms of the related Disposition Document and shall be effective to confer upon the Absolute Assignee thereof a valid property right and interest in, to and under the IESO Funding Shortfall or Investment Interest, as applicable (or relevant portion thereof) in accordance with the terms of such Disposition, provided that the parties to the applicable Disposition Document have expressly stated therein that such Disposition is a sale or other absolute transfer. Without limiting the foregoing, any Disposition that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as a true sale and absolute transfer of the IESO Funding Shortfall or an Absolute Assignee's right, title and interest in, to and under an Investment Interest, as applicable (or relevant portion thereof), and not merely as a Pledge thereof, and upon such Disposition the assigner or seller under the applicable Disposition Document shall retain no right, title or interest in the IESO Funding Shortfall or Investment Interest (or relevant portion thereof) subject to the Disposition, including all rights under the IESO Funding Shortfall or Investment Interest arising after such Disposition. **[NTD: Subject to review by Osler/dealers.]**

(3) **Perfection and Priority of Dispositions** – Any Disposition of an interest in a Regulatory Asset shall be vested, valid, binding and perfected from the time when such Disposition is made. Such Disposition shall be perfected, vested, valid and binding as against the IESO or transferring Regulatory Asset Owner, as applicable, and all other persons who have claims of any kind (whether in tort, contract or otherwise) against IESO or the transferring Regulatory Asset Owner, as the case may be, irrespective of whether such persons have notice of the Disposition and the property rights and interests acquired by the Absolute Assignee under such Disposition shall be free and clear of any liens in favour of such other persons.

(4) **Validity of Pledges** – A Pledge by an Absolute Assignee may be made to secure any Funding Obligation and when made shall be valid and enforceable in accordance with its terms and shall be effective to confer upon the Pledgee a valid security interest in, to and in respect of the related Investment Interest in accordance with the terms of the

Pledge. No consent of, or notice to, any person shall be required to give effect to a Pledge made to secure any Funding Obligation.

(5) **Perfection and Priority of Pledges** - For purposes of the *Personal Property Security Act* (the "PPSA"), the Regulatory Asset shall be intangible personal property and any Pledge made by an Absolute Assignee in respect of a Funding Obligation shall, subject to the terms thereof, give rise to a security interest of which the PPSA applies, and may be perfected by filing a financing statement under the PPSA on that basis. All proceeds of a related Investment Interest that are subject to such a Pledge that are received by the Absolute Assignee shall immediately be subject to the such Pledge, and the security interest in such proceeds shall be perfected pursuant to the PPSA.[14] A Pledge perfected under the PPSA shall be a continuously perfected security interest and shall have priority over any other lien or security interest, created by operation of law or otherwise, that may attach to the property rights and interests in the Investment Interest subject to the Pledge unless the Pledgee has otherwise agreed in writing. A Pledgee shall have a perfected security interest in a related Investment Interest, including the Absolute Assignee's rights and interests in and to Transition Charge Collections or other related proceeds in respect of the Investment Interest and that are deposited in any Regulatory Asset Account or other account of any Electricity Distributor, IESO, Alternative Collection Agent or other person who may have commingled such Transition Charge Collections or such other proceeds with other funds. All provisions of the PPSA shall apply to the Regulatory Asset on the basis that it is intangible personal property, except to the extent otherwise provided in this Section 6(5).

(6) **Enforcement of Property Rights** – The rights of any Regulatory Asset Owner to collect and enforce its rights and interests in, to or in respect of the Regulatory Asset shall be exercised in the manner set forth in Article 5.

(7) **Owners of a Specified Portion of the Regulatory Asset** – A Regulatory Asset Owner may effect a Disposition to an Absolute Assignee of a specified portion of its rights and interests in the Regulatory Asset, including by way of a Disposition of a divided or an undivided interest therein as specified in a related Disposition Document. In no circumstance may the specified portions of the rights and interests in the Regulatory Asset owned by all Regulatory Asset Owners be greater than all of the rights and interests that comprise the Regulatory Asset in the aggregate.

(8) **Collective Action Required** – If a Regulatory Asset Owner's rights and interests in the Regulatory Asset comprises less than the entire property right and interest constituted by the Regulatory Asset, such Regulatory Asset Owner shall only enforce such right and interest on a collective and coordinated basis with each other Regulatory Asset Owner in accordance with the Collective Rights Agreement. **[NTD: Move to Regulations.]**

---

[14] Consider whether to simply leave this and have a financing statement be filed under the PPSA. This would normalize the security interest and reduce any adverse suggestion that security would not otherwise arise.

Article 7 – Establishment of the Fair Allocation Plan[15] [NTD: Move entire Article 7 to Regulations, other than 7(1) and 7(2).]

(1) **Adoption of the Fair Allocation Plan** – The Delegate may, by written declaration, designate and adopt a Fair Allocation Plan in compliance with Article 7. The Fair Allocation Plan so designated and adopted shall be the Fair Allocation Plan for all purposes of this Act, except if amended, amended and restated or terminated by a further written declaration made by the Delegate in compliance with **[the Regulations]**

(2) **Principles and Parameters** – A Fair Allocation Plan shall seek to allocate Future Fair Share of Green Transition Benefits across present and future Regulated Consumers on a basis that the Delegate, in its sole and absolute discretion, determines to be equitable, having regard to the following principles and parameters:

[NTD: E&Y will need to see the guidelines of the Fair Allocation Plan set in reference to parameters that will allow it to establish a modeling curve]

- [**Inflation period**: (between November 2017 – and April 2022) bill increases need to be capped at inflation (assumed at 2% for modeling purposes)]

- [**Transition Period**: (May 2022- April 2027) bills increased at a consistent rate which is set so that the borrowing will not exceed the Trust's capacity, which is determined by the Finance Service Manager]

- [**Amortization Period**: (May 2027-April 2047) equitable distribution of Finance Amount among Regulated Consumers]

1. Future Fair Share of Green Transition Benefits should be allocated over the period ending on the Program End Date.

2. The share of Future Fair Share of Green Transition Benefits allocable to a particular Regulated Consumer in respect of a Reference Period should be proportionate to a reasonable assessment of the benefits of the Green Generation Initiative to such Regulated Consumer over such Reference Period, other than in exceptional circumstances.

3. The Fair Allocation Plan should specify the Reference Periods for the purpose of allocating Future Fair Share of Green Transition Benefits among Regulated Consumers on a relative basis over time.

---

15 The idea is that the Fair Allocation Plan will be set once at the outset based on the principles and parameters described here, all as applied based on information available and the reasonable expectations and discretion of the delegate at such time. If the expectations are not fulfilled (e.g., generators may choose to retire their facilities at the end of their current procurement contracts and not invest in extending service lives to secure further procurement contracts), the Fair Allocation Plan will be unaffected, unless it is specifically amended (assuming amendments will be permitted by the legislation).

(3) **Attribution Methodology** – The Fair Allocation Plan shall specify the Attribution Methodology for the purposes of allocating the Period Finance Charges across the Regulated Consumers. The Attribution Methodology shall result in an attribution of such Transition Charges that is considered by the Delegate to be equitable, and may have regard to such principles and parameters as may be further set forth in a Regulation; provided that the Attribution Methodology shall not be used to limit the recovery of Transition Charges. **[NTD: Can the methodology be adjusted outside an amendment? If so, the rating agencies need to understand the limits of any adjustment.]**

(4) **Amendments of the Fair Allocation Plan** – The Fair Allocation Plan may be amended, amended and restated or terminated by the Delegate, provided that such amendment, amendment and restatement or termination shall (a) not be inconsistent with the principles and parameters set forth in (2) or (3), above, or the Regulation, (b) comply with any restrictions or limitations specified with respect thereto in any Funding Obligation, and (c) not impair any Regulatory Asset, outstanding Funding Obligation or any Transition Charges. **[NTD: If the Fair Allocation Plan is amended, there should be no further Regulatory Assets until the revised Fair Allocation Plan and corresponding Financing Plan have been approved.]**

Article 8 – The IESO Funding Shortfall

(1) **Recording of IESO Funding Shortfall** -- IESO will record any IESO Funding Shortfall in its books.

(2) **Dispositions** – IESO may effect a Disposition of all or any part of the IESO Funding Shortfall to an Absolute Assignee if (a) the Disposition is effected pursuant to a Disposition Agreement duly executed by IESO; and (b) the Financial Services Manager confirms in writing that the Disposition complies with any restrictions or limitations specified with respect thereto in any documents evidencing the Funding Obligations and is permitted under the Financing Plan.

(3) **No Continuing Interest in any Investment Interest** – IESO shall have no continuing right or interest in any IESO Funding Shortfall subject to a Disposition effected by IESO under a Disposition Document to which IESO is a party.

Article 9 – The Financing Plan [NTD: Move all of Article 9 to Regulations other than 9(1).]

(1) **Power to Prepare, Implement and Amend the Financing Plan** – The Financial Services Manager shall be authorized to prepare, implement and amend a financing plan for the Financing Entities and propose the adoption of such financing plan as the Financing Plan for the purposes of this Act. The Financial Services Manager shall have the right to withdraw its financing plan as the Financing Plan at any time if it determines that implementing the Financing Plan in such manner would not be in the best interests of a Financing Entity.

(2) Principles and Parameters of the Financing Plan – The Financing Plan shall establish the basis for each Absolute Assignee's funding decisions having regard to the principles and parameters set forth in Schedule 3.

(3) OEB Approval – Any Additional Funding Charge payable to the Financial Services Manager in respect of services provided by the Financial Services Manager (other than third party costs) shall be subject to review and approval by the OEB.

(4) Review of Financing Plan – The [OEB] shall undertake an annual review of the records maintained by the Financial Services Manager for the purpose of confirming that the Funding Obligations incurred and the Finance Amounts paid by or on behalf of the Absolute Assignees were incurred and paid, respectively, in material conformity with the Financing Plan. **[NTD: We would prefer that this be dealt with by an attestation prepared by an officer of the Financial Services Manager.]**

(5) Replacement of the Financial Services Manager – If the OEB identifies deficiencies or makes recommendations in its review under Section 9(4), the Financial Services Manager shall take reasonable measures to remedy such deficiencies if remediable, and shall in any event have regard to the recommendations of the OEB in relation to further actions undertaken by the Financial Services Manager under the Financing Plan. If the Financial Services Manager is unwilling or unable to reflect such recommendations in relation to such further actions, the Delegate may by written declaration designate one or more other persons who shall thereafter become the Financial Services Manager. Any replacement must comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations.

(6) Obligation to Apply IESO Remittances – The Financial Services Manager shall ensure that amounts transferred to it under Article 5, as agent for and on behalf of the Absolute Assignees, or otherwise in respect of or as proceeds from an applicable Investment Interest shall only be applied or used to pay related Finance Amounts when they are due and payable and for no other purpose. **[NTD: This can be dealt with by contract.]**

(7) Non-Recourse – The Financing Plan shall be implemented so that Funding Obligations incurred shall be without recourse to or to any assets of the Electricity Distributors, IESO, any Alternative Servicer, any Alternative Collection Agent, the Financial Services Manager, the OEB or Her Majesty in right of Ontario, other than if and to the extent that such persons or entities are liable for the performance of obligations or duties arising under this Act or expressly agree to become liable pursuant to any Funding Obligation or obligation in relation to a Finance Amount.

(8) Incurrences are Binding – Each Disposition made to or by an Absolute Assignee, all amounts payable or becoming due and payable by or on behalf of an Absolute Assignee under or in connection with any obligation purporting to be a Funding Obligation and each Pledge entered into by an Absolute Assignee, shall be valid and binding, including in determining the amount of related Transition Charges, notwithstanding any defect in the manner in incurrence or any inconsistency with the Fair Allocation Plan or the Financing Plan.

[Article 10 – Compliance Matters[16]

(1) Right of the [OEB] to Inspect Books and Records - For the purpose of investigating compliance with the provisions of this Act, the OEB shall have the right, jurisdiction, power and authority to examine the books and records of *[Insert names if any]*.

(2) [OPG's Rate Settings – When setting other rates for or in respect of OPG, the OEB shall not take into account (a) the administrative or servicing fees charged by OPG as Financial Services Manager [in excess of the actual incremental costs incurred by such person of providing administrative or servicing services]; (b) the cost consequences to OPG of being the Financial Services Manager; or (c) the consequence of OPG consolidating the assets and liabilities of any Financing Entity for OPG's accounting purposes, in each case in setting any regulated payment amounts for OPG.][17]

Article 11 – Undertaking of the Her Majesty in right of Ontario[18]

(1) No Action to limit, alter, or impair or terminate Transition Charges, the Regulatory Asset or Collections – Her Majesty in right of Ontario shall not in any way take or permit (including by any agency or administrative body) any action to reduce, impair, postpone or terminate the obligation of Regulated Consumers to pay Transition Charges or to impair the Regulatory Asset or the collection or recovery of Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances, either directly or indirectly, including through the introduction of any bill or the passing of any legislation or regulation having such effect. The amount of Transition Charges determined under this Act shall not be subject in any way to reduction, impairment, postponement or termination as a result of any action taken or failure by Her Majesty in right of Ontario (including by any agency or administrative body), including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(2) Undertaking and Agreement – Her Majesty in right of Ontario shall not:

---

[16] As noted above, the outcome of any regulatory action undertaken by the OEB will not affect Funding Obligations that have been incurred under the Financing Plan. This Article and any potential role for the Auditor General is still under consideration.

[17] As an alternative to this provision, consider clarifying under s. 78.1(4) of the OEB Act (which currently gives the OEB discretion in setting payment amounts subject to O. Reg. 53/05) that the OEB in setting OPG payment amounts for prescribed generation shall not consider OPG's role as Financial Services Manager of any Financing Entities associated with the Fair Hydro initiative, perhaps with the exception of any operating fees that may be received by OPG for performing that role.

[18] Under consideration, including the dealers' request for a "servicer guarantee" and a "contractual guarantee" to address a "Change of Law" or if all or a portion of the legislation is *ultra vires*, requiring (at the lenders option), the Province to pay principal and interest on the outstanding debt until maturity or payout the entire debt including any make-wholes.

In the event of a market disruption that renders it impossible to refinance debt when required (or where financing of amounts required to service the debt is not available because of a market disruption where the Financing Entity was relying on such further issuance of debt until the recovery is set to begin to fund interest), either the Province must step in and payout the debt or there must be the right to recover the debt from ratepayers as it becomes due, notwithstanding the intended rate cut.

(a) in any way take or permit any action that limits, alters or impairs the value of any Investment Interest;

(b) except as required by the estimates and adjustments made in determining the True-up Amount, reduce, alter or impair Transition Charges that are imposed, billed, invoiced, collected and remitted for the benefit of the Absolute Assignees or any Pledgee from time to time;

(c) permit the amendment, amendment and restatement or termination of the Fair Allocation Plan if such amendment, amendment and restatement or termination would adversely affect the validity or enforceability of any Funding Obligation or the rights of an Absolute Assignee or Pledgee thereunder, or would not otherwise comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations,

in each case including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(3) **Successor IESO** – If IESO is restructured, dissolved or becomes insolvent or is otherwise incapable of performing its obligations under this Act, an IESO Successor shall immediately be established by Her Majesty in right of Ontario to perform such obligations.

(4) **Compensation for Failure** – Absolute Assignees shall be compensated by Her Majesty in right of Ontario for any losses suffered by them as a result of any failure by Her Majesty in right of Ontario to comply with its undertakings and agreements in this Article 11.[19]

(5) **No Wind-up of Financing Entity**. No Financing Entity may be voluntarily wound up, liquidated or dissolved until one year after all of its Funding Obligations are repaid. **[NTD: This concept can be contained in the Regulations.]**

(6) **References to the Undertaking and Agreement** – Any non-confidential reference to the Undertaking of the Her Majesty in right of Ontario, including in marketing materials and other documentation authorized for use by the Administrative in connection with any Funding Obligation, may be made provided that [*Add conditions to protect the Province*].

Article 12 – Regulations

Regulations may be made under this Act for the purposes described in Sections •,•,• and • and may be promulgated for any of the following purposes:

(a) to set standards and measures regarding the commercially reasonable requirements of the Province associated with an Absolute Assignee incurring Funding Obligations or becoming obligated to pay any Finance Amount, including to establish guidelines regarding all-in funding costs; permitted Additional

[19] Requested by Dealers. For discussion.

Funding Charges; required maturities and redemption and termination rights of Funding Obligations; liquidity requirements, in each case to a Financing Plan that is consistent in its effect with the Fair Allocation Plan;

(b) to establish and empower one or more regulated entities to undertake decision-making activities with respect to this Act;

(c) to set out reasonable requirements regarding the appointment or retention of advisors, agents, service providers, contract counterparties, including in relation to 'market terms and conditions' parameters;

(d) to provide for audit and compliance standards applicable to those persons who are or may become obligated or have duties that arise under this Act [or under any Funding Obligation];

(e) to provide for any pre-vetting and approval requirements in relation to any incurrence by an Absolute Assignee of any Funding Obligation or obligation to pay any Finance Amount; and

(f) to provide for appeal and due process considerations in connection with the establishment, adoption, implementation and review of the Fair Allocation Plan or the Financing Plan.

Article 13- Miscellaneous[20]

(1) **Choice of law** – The law governing, as applicable, the validity, enforceability, attachment, perfection, priority and exercise of remedies with respect to the transfer of an interest or right or creation of a security interest in the Regulatory Asset, any Transition Charge or the Undertaking of the Province shall be the laws of the Province.

(2) **Conflict of law** – In the event of conflict between this Act and any other law of the Province regarding the attachment, assignment or perfection, or the effect of perfection, or priority of any Disposition or Pledge, this Act shall govern to the extent of the conflict.

(3) **No further acts or approvals required** - Notwithstanding any provisions of any law of the Province to the contrary, no approvals, notices or authorizations other than those specified in this Act shall be required with respect to the actions to be taken in compliance with this Act, including under the Financing Plan or in relation to the establishment of the Fair Allocation Plan, and the transactions and contracts authorized in or contemplated by this Act or the Financing Plan, including the incurrence of any Funding Obligation, any Disposition, any Pledge or in the payment and performance of any attendant or incidental contract and any related expenses incurred to facilitate the preparation and implementation of the Financing Plan.

---

[20] OPG would like the specific amendments related to OPG to be included in the Bill.]

(4) **Effect of invalidity after the Incurrence of any Funding Obligation** - Effective on the date that a Funding Obligation is incurred under this Act, if any provision of this Act is held to be invalid or is invalidated, superseded, replaced, repealed or expires for any reason, that occurrence shall not affect any action allowed under this Act that is taken by any person who is or may become obligated or have duties that arise under this Act and any such action shall remain in full force and effect.

(5) **Severability** - If any Article, Section, paragraph or subparagraph of this Act or the application thereof to any person, circumstance or transaction is held by a court of competent jurisdiction to be unconstitutional or invalid, the unconstitutionality or invalidity shall not affect the constitutionality or validity of any other Article, Section, paragraph or subparagraph of this act or its application or validity to any person, circumstance or transaction, including the irrevocability of Transition Charges, the validity of the Regulatory Asset, the incurrence of any Funding Obligation, any Disposition, any Pledge, or the collection and recovery of Transition Charge Collections. To these ends, the Legislature hereby declares that the provisions of this Act are intended to be severable and that the Legislature would have enacted this Act even if any Article, Section, paragraph or subparagraph of this Act held to be unconstitutional or invalid had not been included in this Act.

Schedule 1

Guidelines for Estimates

[To be considered.]

Schedule 2

Requirements Applicable to Alternative Invoicing Agent/ Alternative Collection Agent

[To be considered.]

Schedule 3

Principles and Parameters for Establishing the Financing Plan

The following principles and parameters provide a guideline as to what a Financing Plan should address:

(1) consider quantities, maturities, payment obligations, prepayment or redemption rights and such other features of Funding Obligations so that payments made for a Reference Period reasonably correspond to the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

(2) if the anticipated amount of any Repayment (together with payments of other Finance Amounts) to be made in respect of a Reference Period would materially exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable Regulated Consumers under the then current Fair Allocation Plan, diligent efforts should be made to determine whether a Refinancing or deferral of such Repayment may be reasonably and cost-effectively effected based on then prevailing market terms, conditions an circumstances;

(3) reflect the assumptions and requirements specified in any contemplated Funding Obligation (e.g., any limit on the maximum amount of Transition Charges charged to a hypothetical Regulated Consumer relative to his or her monthly electricity bill, as prescribed by any rating agency that ascribes its credit rating to or in respect of the Funding Obligation **[having regard to the application of the Attribution Methodology][NTD: Are the words in square brackets necessary?]**);

(4) require the Financial Services Manager, for and on behalf of each Regulatory Asset Owner, to use diligent efforts to manage Finance Amounts to be borne by Ratepayers;

(5) include a proposal regarding the compensation of the Financial Services Manager that reflects market terms and conditions; and

(6) require that the Financial Services Manager report annually to the Ministry of Energy on the operation of the Financing Plan including, in particular, with respect to the amount and terms of the Funding Obligations incurred and the sufficiency of such Funding Obligations for the purpose of funding the estimated Funding Shortfalls in accordance with the Fair Allocation Plan.

Steve,
We have been corresponding with Torys today and are in the process of preparing a consolidated mark-up reflecting comments from the Dealers and OPG, which will also incorporate some of the comments received this evening from the IESO/Stikemans. We will circulate the consolidated mark-up before tomorrow's meeting.

CONFIDENTIAL AND PRIVILEGED

Preliminary Draft for Discussion Purposes Only

"Fair Hydro Act"

Article 1 – Purpose

The Province has and continues to encourage the construction and development of facilities for the long-term operation and generation of electricity in the Province using sustainable, lower carbon-based technologies such as new gas-fired generation, renewable facilities, energy from waste and biomass, including under the Province's various procurement, standard offer, feed in tariff and other similar programs (the "Green Generation Initiative"). The long-term benefits of the Green Generation Initiative accrue over time and have benefited and will **continue to** benefit present and future electricity consumers in the Province.

The ~~imputed~~**out-of-market** costs of the Green Generation Initiative are currently passed through to electricity consumers by way of a monthly adjustment amount (the "Green Costs Adjustment"), which in turn forms part of the overall adjustment calculated by the Independent Electricity System Operator ("IESO") pursuant to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* (the "Global Adjustment"). ~~The Global Adjustment is included as a charge billed to electricity consumers in their monthly electricity invoices.~~

The Green Costs Adjustment is currently determined each month by reference to the amounts paid by IESO to the generators of electricity in the Province under the Green Generation Initiative~~, which may be higher than prevailing market price for electricity. These differences~~**. These amounts paid by the IESO** arise because IESO has entered into long-term procurement contracts with such generators in order to provide them with ~~long-term price~~**revenue** certainty ~~for electricity~~, and in turn to encourage the generators to develop technologies and to construct and develop facilities consistent with the Green Generation Initiative. ~~In general, whenever amounts payable under these procurement contracts exceed the market price for electricity, the Green Costs Adjustment passes through the amount of such differences as part of the monthly charge to electricity consumers. Such amount then becomes available to IESO to meet its obligations under the~~ **[NTD: This statement is not correct in respect of all IESO procurement contracts.]** It has been determined that the useful lives of many of the assets ~~encouraged by~~**developed under** the Green Generation Initiative will be ~~well~~ in excess of the respective terms of ~~the related~~**their respective** procurement contracts~~, and in many cases may extend over more than one generation of electricity consumers~~.

Since the benefits to past, present and future electricity consumers from the Green Generation Initiative will not necessarily coincide with the costs currently attributed through the Green Costs Adjustment, based on the respective ~~durations~~**terms** of the **applicable** procurement contracts, it has been determined that the rate at which the costs associated with the Green Generation Initiative should be passed through to ~~Retail~~**Regulated** Consumers (as defined in Article 2) should be more closely aligned with the benefits that such ~~Retail~~**Regulated** Consumers have derived and are expected to derive from the Green Generation Initiative over time. This realignment will be based on **general** principles and parameters that establish a reasonable basis for measuring and allocating the relative costs and benefits of the Green Generation Initiative equitably across present and future ~~Retail~~**Regulated** Consumers (the "Fair Allocation

Plan"). **[NTD: There is no explanation as to why realignment is limited to Regulated Consumers.]**

If the Fair Allocation Plan determines that the equitable allocation of the costs associated with the Green Generation Initiative to the ~~Retail~~**Regulated** Consumers of a particular time period should be reduced below the amount that currently would be charged based on the Green Costs Adjustment, then the amount payable by such ~~Retail~~**Regulated** Consumers and in turn available to IESO will, in the aggregate, be less than the amount payable by the IESO to the generators in respect of such period. In this case**,** IESO will need to obtain funding from another source to cover such a shortfall. If a funding obligation is incurred ~~by IESO~~ to cover such a shortfall during ~~one~~**any** period, the repayment of such funding obligation will be required in a future period, and any related repayments, finance costs, hedging costs and other transaction costs incurred will become payable in ~~one or more~~ future periods. In order for IESO to obtain a reliable and committed source of cash flows to enable IESO to repay such funding amounts when they become due and payable, this Act imposes irrevocable and non-bypassable financial obligations on ~~Retail~~**Regulated** Consumers to pay amounts incurred in respect of such funding obligations when they become due and payable and establishes a right to invoice and collect such amounts. The right and interest in and to collect such financial obligations will take the form of the Regulatory Asset contemplated in this Act, which will constitute property rights and interests. Interests in the Regulatory Asset may be sold and absolutely assigned by IESO to one or more financing entities, which in turn will finance their acquired interests by incurring funding obligations. The incurrence and payment of such funding obligations will be administered on behalf **of** such financing entities by a financial services ~~agent~~**manager** under the Financing Plan contemplated in this Act. ~~The Financing Plan will seek to reasonably match the payment obligations arising under such funding obligations, to be borne by the future Retail Consumers of the period in which such payment obligations become due, with the benefits of the Green Generation Initiative allocated to such future Retail Consumers under the Fair Allocation Plan.~~

[NTD: Our strong preference is to limit the introduction to the next paragraph and move defined terms from the previous paragraphs to Article 2]

The purpose of this Act is to establish the basis upon which intergenerational fairness can be achieved by charging the costs and benefits of the Green Generation Initiative to present and future ~~Retail~~**Regulated** Consumers on an equitable and cost effective basis.

Article 2 ~~–~~ Definitions

In this Act: **[NTD: It would be preferable to use plain language definitions in the legislation and leave the more detailed definitions to either the regulations or the agreements contemplated hereunder.]**

"Absolute Assignee" means a person to whom a Regulatory Asset Owner effects a Disposition **other than as security**.

"Actual" means, in relation to costs, expenses or payments in respect of Funding Obligations during a Reference Period, the actual amount of such costs, expenses or payments paid or made (net of any Finance Reserve Withdrawals applied to pay such amounts), which amounts shall be recorded by the Financial Services ~~Agent~~**Manager**

whose records shall be determinative for the purposes of this Act except to the extent of a manifest calculation error.

"Additional Funding Charges" means, for a Reference Period ~~in respect of an Absolute Assignee~~, the fees, charges, expenses, costs, indemnities, reimbursements and other amounts (including any applicable tax amounts) that are or become payable by or on behalf of the Absolute Assignee during the Reference Period and that were incurred or committed to directly or indirectly by the Absolute Assignee in connection with the incurrence of Funding Obligations under the Financing Plan (whether at the time of such incurrence or over the term of the Funding Obligation and whether directly or indirectly), including ~~(without duplication and without limitation): (a) any payment required under an ancillary agreement entered into by, or by the Financial Services Agent on behalf of, the Absolute Assignee under the Financing Plan; (b) any federal, provincial or local taxes, payments in lieu of taxes, franchise fees or license fees imposed on the Absolute Assignee or incurred by on behalf of the Absolute Assignee under any obligation to pay tax gross-up amounts to counterparties under Funding Obligations; (c) any amounts payable to the Financial Services Agent, including amounts payable to its advisors and outside counsel; (d) any amounts incurred to prepare, confirm, amend and implement the Financing Plan; (e) any amounts payable to any Alternative Collection Agent or Alternative Servicer, including amounts payable to each's advisors and outside counsel; (f) any amounts incurred to make the calculations, determinations or confirmations to be made by or on behalf of the Absolute Assignee; (g) any servicing fees and expenses; (h) any trustee fees and expenses; (i) any legal fees, expenses and disbursements; (j) any accounting fees and expenses; (k) any administrative fees and expenses; (l) any manager or director fees of a Financing Entity; (m) any registration fees and expenses; (n) any placement fees, underwriting fees, fees and related issuing expenses; (o) any rating agency fees; and (p) any other related fees, charges, expenses, costs, indemnities, reimbursements and other amounts that are approved in good faith by the Financial Services Agent for recovery and payment under the Financing Plan~~**without limitation such amounts as may be prescribed**.

~~"Allocation Factor" means, in respect of a Retail Consumer for a Reference Period, the number (expressed as a percentage) determined in respect of the Retail Consumer by the OEB based on the application of< *the Attribution Methodology* >in respect of the Reference Period.[1]~~

~~"Alternative Collection Agent" means a person appointed under Section 5(11) and in compliance with the requirements set out in Schedule 2 to assume the collection activities and activities of any Electricity Distributor or IESO under Article 5, as agent for and on behalf of the Regulatory Asset Owners.~~ **[NTD: See section 5(11). Remove this concept globally.]**

"Alternative Servicer" means a person appointed under Section 4(8) to assume the obligations of the Servicer under Article 4, as agent for and on behalf of the Regulatory Asset Owners. **[NTD: We see this, in effect, as the same thing as the IESO Successor; that is, replacement of the master Servicer.]**

[1] ~~Confirm that this will be based on forecast volumes of demand (like RPP). To the extent amounts do not get recovered due to differences between forecast and actual, those may be identified and caught by the True-Up.~~

"Assessed Past Green Transition Costs" means, in respect of a Measurement Date, the aggregate of the imputed costs of the Green Generation Initiative (expressed as an equivalent to current dollars), as reflected in the calculation of the Green Costs Adjustment, which have been charged to Retail Customers through the Global Adjustment on or prior to the Measurement Date.

"Attribution Methodology"[21] means the methodology specified in the Fair Allocation Plan for allocating the Period ~~Transition~~**Finance** Charges for a Reference Period to ~~individual Retail Consumers of the applicable Retail Consumer Group based on its Allocation Factor.~~**Regulated Consumers. [NTD: We understood that the Ministry accepted that the transition charge would be a volumetric rate.][NTD: Can be moved to Regulations.]**

"Collected Amount Adjustment" means, in respect of a True-Up Period, the amount (which may be a negative amount) calculated by the Servicer or the Financial Services ~~Agent~~**Manager**, as applicable, equal to (a) the Estimate of the Finance Amount for the True-Up Period, minus (b) the sum of all Transition Charge Collections for the True-Up Period.[32]

"Collective Rights Agreement" means an agreement among all of the Regulatory Asset Owners (including each Absolute Assignee) ~~and~~**,** each Pledgee**, and the Financial Services Manager** that governs the enforcement of their respective rights and interests in, to and under the Regulatory Asset on a coordinated and collective basis.[4] **[NTD: Move to Regulations.]**

"Delegate" means **any of** the **following** person or persons designated in writing from time to time by the Minister of Energy to undertake the actions and perform the responsibilities ascribed to the "Delegate" under this Act~~.~~**: ●. [NTD: Why is this delegation of authority necessary? This requires further discussion and clarity as to which entity or entities that the Province can select as the Delegate; for example, it would not be acceptable for the Province to select the OEB to be the Delegate. If this is required, an acceptable delegate would be a stakeholder committee comprised of representatives from the Ministry of Energy, the OEB, the IESO, and OPG. In addition, the regulation should prescribe how the stakeholder committee would operate.]**

"Disposition" means an assignment, transfer, conveyance, sale, contribution, set-over, exchange or other disposition of **(a) IESO's right to recover all or any portion of an IESO Funding Shortfall or (b)** an Investment Interest to an Absolute Assignee**, in each case** pursuant to a Disposition Document.

"Disposition Document" means the agreement, deed, conveyance, instrument or other document under which ~~a Regulatory Asset Owner~~**IESO or an Absolute Assignee** effects a Disposition to an Absolute Assignee.

[21] This allocation may be volumetric or some combination of a flat amount and a volumetric charge. Further discussion is required. H&W has raised a concern regarding possible adverse changes after the fact and rating agency considerations. Consider whether hard-coding in the legislation makes sense.

[32] This would pick up adjustments based on actual collection experience, changes in the ~~retail consumer~~**Regulated Consumer** base, changes in the actual costs (versus earlier estimates) included in the Transition Charge calculation, etc.

[4] ~~Consider adding the Financial Services Agent and the Servicer as parties.~~

"Electricity Distributor" means~~, in respect of a Service Area, the~~ **a** rate regulated distributor licensed under Part V of the *Ontario Energy Board Act, ~~1998~~* ~~in respect of such Service Area,~~***1998,*** together with and its successors.

"Electricity Distributor Remittances" means, for an Electricity Distributor on a Remittance Date, all Transition Charge Collections received or deemed to be received **[NTD: estimated to be received? will each Electricity Distributor know?]** by the Electricity Distributor prior to the Remittance Date and that have not otherwise been remitted to ~~IESO~~**Servicer** or if applicable the Alternative Collection Agent in accordance with Section 5(3), including the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5.

"Electricity Invoice" means an invoice issued by ~~any of a~~**an** Electricity Distributor (or in its stead, by an Alternative ~~Servicer~~**Collection Agent**), by the Servicer or by a Retailer, in each case to a ~~Retail~~**Regulated** Consumer that is served by the Electricity Distributor's distribution system in respect of electricity charges, including the cost of electricity, delivery and regulatory charges and related services and amounts incurred, assessed or charged in respect of connectivity to ~~a distribution network in the~~**such** Electricity Distributor's ~~designated Service Area~~**distribution system** and in respect of applicable Transition Charges to be charged to the ~~Retail~~**Regulated** Consumer under this Act. **[NTD: The Alternative Servicer should only invoice for Transition Charges, not the entire invoice. Also, to avoid confusion, we suggest using the word "invoice" in reference to what the IESO sends out to distributors, and "bills" in reference to what distributors send out to consumers.]**

"IESO Electricity Distribution Receipts" means, for a month, the sum of all amounts payable by Electricity Distributors to IESO , during the month pursuant to section • of the *Electricity Act* in respect of Regulated Consumers. "Regulated Consumer" means consumers of electricity in the Province as prescribed.

[NTD: There are a number of issues with this definition. First, the word "Retail" is a source of confusion as it implies customers of licensed retailers. Really, the purpose of the term is to define the group of consumers that are eligible to receive the benefit of the Fair Hydro program and who will bear the cost of the program over the long term. We have proposed "Regulated Consumer" but you could also use the term "Eligible Consumer" or "Fair Hydro Eligible Consumer" and for purposes of the legislation to say that it is a member of a class of consumers prescribed by the regulations for purposes of the relevant section of the legislation. The regulation would then describe who is in the class. Second, it may not be appropriate to rely on the class of consumers prescribed for the purposes of s. 79.16 or under the OREC Act. Section 79.16 is the section that defines the class of RPP consumers. We understand that the "Fair Hydro Eligible Consumers" are not an identical class to that which is eligible for the RPP or for> ***the Ontario Rebate for Electricity Consumers***<. For example, we have heard that Fair Hydro Eligible Consumers will (a) exclude consumers served by independent power authorities (certain remote communities not served by Hydro One Remotes), and (b) include consumers served by licensed unit sub-metering providers, licensed retailers and certain consumers served directly by the IESO (which may or may not be captured by the classes under 79.16 or OREC). Third, it is not clear why consumers with contracts with retailers who use retailer consolidated billing are removed from the first part of the definition but then added back into the second part of the definition. Fourth, Retailers do not necessarily have physical electricity assets that would be connected to the grid. Some just sell or offer contracts for electricity. As such, the first few lines after (b) are problematic. Fifth, the phrase "purchase electric generation services from a provider of electric generation services other than the owner of the Province's transmission and distribution system assets" does not make sense. A consumer does not purchase generation services from a transmitter or distributor. Rather, a consumer receives distribution services from a distributor. In addition to charging for its distribution services, the distributor also charges the associated transmission costs and commodity costs associated with the volumes delivered. Those commodity costs are the price of the electricity itself and are almost entirely made up of the amounts determined under the global adjustment. Sixth, the phrase "**>*whether or not the transmission and distribution system assets continue to be owned or operated by Electricity Distributors or operated by IESO*<**" does not make sense. Transmission assets are owned and operated by transmitters. Distribution assets are owned and operated by distributors. The IESO does not own but does administer and direct the operation of the transmission system.]

[NTD: This needs to be grossed up to account for variability associated with expected uncollectables and remittance delays.] [NTD: Do not need to create parallel process. The definition should be linked to the OEB process for determining the volumetric rate as part of the RPP process (see s. 4(2)). The OEB will determine volumetric rate based on forecast consumption, number of consumers, etc. to recover the Period Finance Charges.]**

"Transition Charge Collection" means any amount received **[or deemed by this Act to have been received] by the Absolute Assignees** upon the collection of a Transition Charge paid by or on behalf of a ~~Retail~~**Regulated** Consumer, including any proceeds arising from the exercise and enforcement of any related rights and interests under or in respect of the Regulatory Asset.

(1) **RetailRegulated Consumer Obligation to Pay a Transition Charge** – Each RetailRegulated Consumer shall pay each Transition Charge charged to it in any Electricity Invoice issued to such RetailRegulated Consumer by its Electricity Distributor or by an Alternative Servicer under Section 4(1), in each case on the terms of payment specified in the related Electricity Invoice.

(2) **Indebtedness of RetailRegulated Consumers** – Until paid, a Transition Charge charged to a RetailRegulated Consumer in an Electricity Invoice shall, together with any applicable late payment fees and finance charges arising under the terms of the Electricity Invoice with respect to such Transition Charge, constitute non-bypassable indebtedness of the RetailRegulated Consumer to the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset. Such indebtedness shall constitute a single and separate[86] debt obligation owing by the RetailRegulated Consumer, which subject to Article 5 may be enforced independently from any other payment obligation or indebtedness owing by the RetailRegulated Consumer under the Electricity Invoice or otherwise.[97]

(3) **No Set-Off or Reduction** – A RetailRegulated Consumer may not set-off or reduce (by counterclaim, defense or otherwise) the amount payable by it in respect of any Transition Charge, including any set-off against or in respect of any amount owing or becoming payable to such RetailRegulated Consumer by its Electricity Distributor, any Regulatory Asset Owner or any other person.

(4) **Allocation of RetailRegulated Consumer Payments** – If an Electricity Distributor receives a payment made by or on behalf of a RetailRegulated Consumer in respect of amounts due and payable under one or more Electricity Invoices that is less than the total amount payable thereunder, such payment shall be allocated on a *pro rata* basis to the payment of related Transition Charges and other invoiced amounts and the amount so allocated as a payment of related Transition Charges shall be deemed to constitute a Transition Charge Collectionsubject to rights and benefits that are no less favourable than the treatment accorded to other amounts payable to the IESO by the Electricity Distributor.

(5) **Transition Charges are Irrevocable** – The Transition Charges arising under or in respect of Funding Obligations incurred under the Financing Plan (including any

Consider if it is helpful to integrate the existing regulatory scheme for invoicing and collections (regarding RPP) in the legislation.

adjustments based on modifications to such Funding Obligations made in compliance with the Financing Plan or as a result of amendments to the Financing Plan made in accordance with Section 9(3)) are deemed to be irrevocable, final and effective without any further action, except to the extent of manifest calculation error. For greater certainty, a Transition Charge may include Finance Amounts for a Reference Period regardless of whether or not the payment of such Finance Amounts are inconsistent with the Fair Allocation Plan applicable at the time such payments are due and payable, and regardless of whether or not the related Funding Obligation was properly incurred under the Financing Plan. In no case shall a Funding Obligation incurred under the Financing Plan be affected by a subsequent amendment to the Fair Allocation Plan.

(6) True-Up of Transition Charges? – [NTD: Include specifics regarding the true-up of the charges and the process for the true-up, but move to Regulations. The True-Up Mechanism should require the Transition Charges to be reviewed and adjusted semi-annually to ensure the expected recovery of amounts sufficient to timely provide all payments in respect of Funding Obligations, provided that in some cases it may need to be adjusted more frequently than semi-annually, e.g., as part of a refinancing.]

(7) Commencement of Invoicing and Collection of Transition Charges – [NTD: Please confirm that as drafted, Transition Charges will begin on the Measurement Date.]

Article 4 – Invoicing of Transition Charges [NTD: Move Article 4 sections (1) to (4) to Regulations. Also note, these sections remain subject to further due diligence by the Dealers.]

(1) **Inclusion of Transition Charges in Electricity Invoices** – Each Electricity Distributor and if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, specify the Transition Charge to be charged to a ~~Retail~~Regulated Consumer pursuant to Section 4(4) in respect of a related Reference Period in each Electricity Invoice issued by the Electricity Distributor or if applicable by the Alternative Servicer to the ~~Retail~~Regulated Consumer in respect of such Reference Period. Upon the inclusion of a Transition Charge in an Electricity Invoice, the obligation to pay such amount shall be binding on the applicable ~~Retail Consumer.~~Regulated Consumer. [NTD: Must capture bills issued to eligible consumers served by unit sub-metering providers, retailers and the IESO – not just distributors][NTD: This provision also needs to address the inclusion of Transition Charges in invoices from the IESO to the LDC, consistent with the current process of how the IESO bills LDCs.]

(2) **Calculation of the Period ~~Transition~~Finance Charge** – Not later than [35] days prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services ~~Agent~~Manager on its behalf) shall provide the OEB with written notice of each Estimate of a Finance Amount payable by it or on its behalf in respect of the Reference Period. ~~[35] days prior to the first day of a Reference Period, IESO or Successor IESO if applicable shall specify the IESO Retained Interest Amount and any IESO Financing Costs that are due and payable and remain unpaid on such day.~~ Not later than one month prior to the first day of a Reference Period, ~~the OEB~~each Absolute Assignee (or the Financial Services Manager on its behalf) shall calculate the Period ~~Transition~~Finance Charge applicable to the Reference Period ~~based on the calculations and information set forth in such written notices received from the Absolute Assignees~~

and based onhaving regard to such amounts specified by IESO or Successor IESOthe Servicer, which calculations, information and amounts shall be accepted by the OEB and shall be determinative, except to the extent of manifest calculation error or misstatement.

(3) **Calculation and Attribution of Transition Charges** – Not later than 25 days prior to the first day of a Reference Period, the OEB shall apply the Attribution Methodology to determine the Allocation Factorallocation of the Transition Charge for each RetailRegulated Consumer of the applicable Retail Consumer Group. **[NTD: We think the OEB would be determining the Fair Hydro recovery rate (on a volumetric basis) that distributors would then be required to charge to consumers]**

(6) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 4 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 4 to impose, attribute, charge, bill and invoice the Transition Charges.

(8) **Appointment of an Alternative Servicer** – If a Replacement Event occurs in respect of any Electricity Distributor, the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Servicer to perform some or all of the obligations and duties required to be undertaken by such Electricity Distributor under this Article 4, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Servicer shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor. Any Electricity Distributor that is replaced under this Section 4(8) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in the performance of such obligations and duties to the Alternative Servicer and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Servicer to perform such obligations and duties on behalf of the Regulatory Asset Owners. **[NTD: We would expect the IESO to manage this in accordance with its normal business practices.]**

(9) Absolute Assignees have Standing – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, the Servicer, Alternative Servicer or any other person who may be authorized to issue Electricity Invoices to ~~Retail~~**Regulated** Consumers for a failure to impose, attribute, charge, bill or invoice Transition Charges **or to otherwise comply with this Act**. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure~~.~~ **and may make any interim or final order it thinks fit in this regard. [NTD: We would like to see the sections on "Standing" to bring an action to remain in the legislation (as opposed to being moved to the regulations as we believe we previously suggested) as we see those provisions as part of ensuring a rigorous enforcement scheme for the Financing Entity (and so something that should be difficult for the Province to change going forward).]**

(10) No Set-Off or Reduction – No Servicer or Electricity Distributor may set off or reduce (by counterclaim, defence or otherwise) the amount payable by it pursuant to this Article 4.

(11) Regulations – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Servicer to ensure that Transition Charges are properly charged to ~~Retail~~**Regulated** Consumers and specified as such in Electricity Invoices.

Article 5 – Collections and Remittances [NTD: Move Article 5 sections (3), (6), (9), (12), (13) and (14) to Regulations.]

(1) **Duty to Collect as Agent** – Electricity Distributors or if applicable any Alternative Collection Agent shall, as an agent of the ~~Regulatory Asset Owners, undertake [diligent][reasonable][10] efforts to~~**Servicer,** collect amounts owing by ~~Retail~~**Regulated** Consumers in respect of Transition Charges charged to such ~~Retail~~**Regulated** Consumers in Electricity Invoices issued by the Electricity Distributor or if applicable such Alternative Collection Agent~~.~~ **all in accordance with the Regulations. [NTD: The obligation to collect and remit the Transition Charge should be included as a deemed condition of license for electricity distributors (and retailers and unit sub-metering providers).]**

(2) **Segregation of Transition Charge Collections** – An Electricity Distributor or if applicable any Alternative Collection Agent shall promptly segregate Transition Charge Collections from other payments received by it from ~~Retail~~**Regulated** Consumers and deposit such Transition Charge Collections into its Regulatory Asset Account.[11][8] **[NTD: Determine if this is critical for rating and markets or if segregation can occur in the hands of the IESO]** Prior to and following a deposit of Transition Charge Collections having been made into its Regulatory Asset Account, the Electricity Distributor or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners **or its Pledgee**.

(3) **Electricity Distributor Remittances** – On each applicable Remittance Date, an Electricity Distributor shall remit all **amounts invoiced by the IESO on account of the**

Transition Charge ~~Collections received by it from Retail Consumers~~ in respect of the related Reference Period to or to the account of ~~IESO~~**Servicer** or if applicable the Alternative Collection Agent. **[NTD: It is the Dealers expectation that the Transition Charge will be paid on the same basis as other amounts invoiced by the IESO, failing which, they will need to be remitted daily.]**

(4) **Duty to Collect Electricity Distributor Remittances** – ~~IESO~~**Servicer** or if applicable any Alternative ~~Collection Agent~~**Servicer** shall, as an agent of the Regulatory Asset Owners, ~~undertake [diligent][reasonable] efforts to~~ accept and collect Electricity Distributor Remittances from Electricity Distributors and Transition Charge Collections from ~~Retail~~**Regulated** Consumers that pay their Electricity Invoices directly to IESO~~.~~[12] **on the same basis as it accepts and collects other charges from such Regulated Consumers.**[9]

(5) **Segregation of Electricity Distributor Remittances** – ~~IESO~~**Servicer** and if applicable the Alternative Collection Agent shall promptly segregate Electricity Distributor Remittances from other payments received or held by it and deposit such Electricity Distributor Remittances into its Regulatory Asset Account. Prior to and following a deposit of Electricity Distributor Remittances having been made into its Regulatory Asset Account, ~~IESO~~**Servicer** or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners **or Pledgee**.

(6) ~~**IESO**~~**Servicer Remittances** – On each Settlement Date[13]10, ~~IESO and if applicable the Alternative Collection Agent~~**Servicer** shall remit all amounts on deposit in its Regulatory Asset Account ~~(a) first,~~ to or to the account of the Absolute Assignees an amount equal to the Investment Remittance for the related month ~~and (b) second, to IESO (including by IESO retaining such amount) an amount equal to the lesser of (i) the Maximum IESO Recovery for the related month and (ii) the IESO Retained Interest Amount as of the Settlement Date~~.

(7) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 5 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 5 to collect Transition Charges and make remittances of Electricity Distributor Remittances.

(8) **IESO** ~~**Successor**~~**Successors** – IESO ~~Successor~~**Successors** shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of IESO under Article 5 in the same manner and to the same extent as IESO, including the obligation to collect Transition Charge Collections, Electricity Distributor Remittances and to remit IESO Remittances.

(9) **Owners of Distribution Assets** - If any person other than an Electricity Distributor acquires distribution system assets in the Province or invoices or collects electricity distribution rates in the Province[14]11, then such person shall, if requested by the Absolute Assignees, be obligated to act diligently to (a) facilitate the invoicing and collection of any Transition Charges applicable to ~~Retail~~**Regulated** Consumers ~~in its~~

[12]9 Consider building this obligation into a deemed condition of licence for the IESO.

applicable service area, including all consumers connected to the electricitysuch person's distribution system assets and taking electric delivery service located within such service area; (b) allocate partial payments by RetailRegulated Consumers as provided in this Act; (c) exercise all enforcement rights of the Absolute Assignees for the benefit of an Absolute Assignee; and (d) remit any Transition Charge Collections to the Absolute Assignees or Pledgees, as applicable, each in accordance with its Investment Interest. [NTD: Such acquisition of a distribution system would require the person to be an electricity distributor; consider deleting since this is covered off by Section 5(7).]

(10) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESOServicer, the Alternative Collection Agent, any owner of electricity distribution system assets in the Province or any other person who may be authorized to collect electricity distribution and use charges from RetailRegulated Consumers for a failure to collect Transition Charges, remit or collect Electricity Distributor Remittances or remit IESO Remittances, as and to the extent applicable under Article 5.5, or to otherwise comply with this Act. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure and may make any interim or final order it thinks fit in this regard.

(11) **Appointment of an Alternative Collection Agent –** If a Replacement Event occurs in respect of any Electricity Distributor or IESO, the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Collection Agent to perform some or all of the collection, segregation and remittance obligations otherwise required to be undertaken by such Electricity Distributor or IESO, as applicable, under Article 5, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Collection Agent shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor or IESO, as applicable. Any Electricity Distributor or IESO, as applicable, that is replaced under this Section 5(11) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in, to and over the Regulatory Asset, including its Regulatory Asset Account, to the Alternative Collection Agent and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Collection Agent to enforce the Regulatory Asset on behalf of the Absolute Assignees.Not Used. [NTD: The Servicer should manage this process.]

(12) **No Set-off, etc.** - The Regulatory Asset, including rights in Transition Charges, Transition Charge Collections, and the interests of a Regulatory Asset Owner, an Absolute Assignee and a Pledgee therein, may not be setoff or reduced (including by counterclaim, surcharge or defense) by any RetailRegulated Consumer, any Electricity Distributor, IESOServicer, Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or in connection with any default, bankruptcy, reorganization or other insolvency proceeding of any Electricity Distributor,

~~IESO~~Servicer, Alternative Collection Agent or any owner of distribution system assets in the Province, any affiliate or successor thereof or any other entity or otherwise.[~~15~~12]

(13) **Sequestration** – If any Electricity Distributor, ~~IESO~~Servicer, the Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or entity authorized to collect Transition Charges, defaults on any required remittance of Transition Charge Collections, Electricity Distribution Remittances or IESO Remittances under Article 5, any court in the Province, upon application by and of the Absolute Assignees acting collectively under the Collective Action Agreement and without limiting any other remedies otherwise available to the Absolute Assignees or Pledgees, shall order the sequestration and payment of the Transition Charge Collections, Electricity Distribution Remittances and IESO Remittances, as applicable, for the benefit of the Absolute Assignees, each with respect to its Investment Interest, and the Pledgees as applicable.[~~16~~13]

[NTD: Suggest considering a more typical remedy such as the ability to appoint a receiver. Concept should be moved to Regulations.]

(14) Regulations – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to ~~IESO~~Servicer, any Electricity Distributor or any Alternative Collection Agent to ensure that rights, interests, entitlements, benefits and proceeds in, to, under and from the Regulatory Asset are of fully realized by some or all of the Absolute Assignees and Pledgees.

Article 6 – The Regulatory Asset

[NTD: We believe that the statute should impose a time limit on the ability of IESO to create additional Regulatory Assets under this Act. It is our expectation that this will be no later than 10 years after the commencement of the program.]

[NTD: In addition, additional language is required to address the acquisition of the Regulatory Asset by the Financing Entity, including reference to the consideration being provided for it, funding upfront costs.]

[NTD: The sale of Regulatory Assets must be restricted to Financing Entities controlled by a single entity (initially, OPG).]

[NTD: For greater certainty, a Financing Entity will not be required to purchase Regulatory Assets from IESO.]

(1) **Composition** – The Regulatory Asset shall constitute a current and irrevocable property right and interest consisting, collectively, of the following rights and interests (without duplication):

[~~15~~12] Consider whether it makes sense to create a "deemed collection" payment obligation on Electricity Distributors to the extent a ~~Retail~~Regulated Consumer reduces its payment of Transition Charges, despite this language. Same for Electricity Distributor Remittances and IESO Remittances.

[~~16~~13] Consider adding or substituting this provision for a right to appoint a receiver.

a. the right of ~~IESO (i)~~**a Regulatory Asset Owner** to record its ~~IESO Retained Interest in its accounts in accordance with Section 8(1), having a stated amount from time to time equal to the IESO Retained Interest Amount; and (ii) to receive IESO Recoveries from time to time in accordance with Section 5(6)(b)~~**portion of the Regulatory Asset in its accounts**;

b. the right to impose, bill, invoice, collect and receive Transition Charges from ~~Retail~~**Regulated** Consumers, including the right to determine the amount of Transition Charges in accordance with this Act;

c. the right to enforce the obligations and indebtedness of each ~~Retail~~**Regulated** Consumer to pay the Transition Charges charged to the ~~Retail~~**Regulated** Consumer from time to time in accordance with Article 3, together with all related late payment fees or interest charges arising in respect thereof under the related Electricity Invoices; **[NTD: Do we really want and need the ability for the Financing Entities to chase after individual consumers?] [NTD: This should be the right to provide notices to the OEB of the amounts required for recovery, which the OEB would then be required to accept for purposes of determining the amount of Transition Charges to be charged to consumers]**

d. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Servicer to impose, attribute, charge, bill and invoice the Transition Charges in accordance with Article 4;

e. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Collection Agent to collect, receive and remit amounts received by it in respect of Transition Charges as Electricity Distributor Remittances to or to the account of ~~IESO~~**Servicer** or if applicable the Alternative Collection Agent in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5;

f. the right to enforce the duties and obligations of ~~IESO~~**Servicer** and if applicable the Alternative Collection Agent to collect and receive Electricity Distributor Remittances and to remit IESO Remittances to or to the accounts of the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset, in each case in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by it to recover payment of Electricity Distributor Remittances in accordance with Article 5;

g. the right to receive and collect all Transition Charge Collections, all Electricity Distributor Remittances and all IESO Remittances in accordance with Article 5;

h. all rights and entitlements under each Regulatory Asset Account and all amounts on deposit in any such Regulatory Asset Account;

i. all Related Rights; and

j. all revenue, collections, claims, payments, money and proceeds of or derived from the rights described in (a) through (i), regardless of whether such revenue, collections, claims, payments and proceeds are imposed, invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

A Regulatory Asset and the property rights and interests therein shall exist whether or not Transition Charges have been imposed, charged, invoiced, accrued or collected and notwithstanding that the imposition, attribution, invoicing and collection of Transition Charges will depend on further actions that may not have occurred. **The Regulatory Asset shall continue to exist until all Funding Obligations and Additional Funding Charges have been paid in full.**

(2) **Validity of Dispositions** – ~~Despite any limitations or restrictions on a Disposition that may arise by contract or by operation of any applicable law of the Province or any consent requirement applicable to a Disposition that may arise by operation of any applicable law of the Province, a~~**A** Disposition by IESO **of all or any part of the IESO Funding Shortfall** to an Absolute Assignee ~~made under the Financing Plan~~, or **a Disposition of all or any part of an Investment Interest** by one Absolute Assignee to another Absolute Assignee made under the Financing Plan, shall be permitted and when made shall be valid and enforceable in accordance with the terms of the related Disposition Document and shall be effective to confer upon the Absolute Assignee thereof a valid property right and interest in, to and under the ~~applicable~~**IESO Funding Shortfall or** Investment Interest**, as applicable** (or relevant portion thereof) in accordance with the terms of such Disposition, provided that the parties to the applicable Disposition Document have expressly stated therein that such Disposition is a sale or other absolute transfer. Without limiting the foregoing, any Disposition that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as a true sale and absolute transfer of the ~~Regulatory Asset Owner's applicable~~**IESO Funding Shortfall or an Absolute Assignee's** right, title~~,~~ and interest in, to and under ~~the Regulatory Asset~~**an Investment Interest, as applicable** (or relevant portion thereof), and not merely as a Pledge thereof, and upon such Disposition the assigner or seller under the applicable Disposition Document shall retain no right, title or interest in the **IESO Funding Shortfall or** Investment Interest **(or relevant portion thereof)** subject to the Disposition, including all rights under the **IESO Funding Shortfall or** Investment Interest arising after such Disposition. **[NTD: Subject to review by Osler/dealers.]**

(3) **Perfection and Priority of Dispositions** – Any Disposition of an interest in a Regulatory Asset shall be vested, valid, binding and perfected from the time when such Disposition is made. Such Disposition shall be perfected, vested, valid and binding as against the **IESO or** transferring Regulatory Asset Owner**, as applicable,** and all other persons who have claims of any kind (whether in tort, contract or otherwise) against **IESO or** the transferring Regulatory Asset Owner, **as the case may be,** irrespective of whether such persons have notice of the Disposition and the property rights and interests acquired by the Absolute Assignee under such Disposition shall be free and clear of any liens in favour of such other persons.

(4) **Validity of Pledges** – ~~Despite any limitations or restriction on a Pledge that may arise by contract or by operation of any applicable law of the Province or any consent~~

~~requirement applicable to a Pledge that may arise by operation of any applicable law of the Province, a~~**A** Pledge by an Absolute Assignee may be made to secure any ~~related~~ Funding Obligation and when made shall be valid and enforceable in accordance with its terms and shall be effective to confer upon the Pledgee a valid security interest in, to and in respect of the related Investment Interest in accordance with the terms of the Pledge. ~~Other than as required by the Financing Plan, no~~**No** consent of**, or notice to,** any person shall be required to give effect to a Pledge made to secure any Funding Obligation.

(5) **Perfection and Priority of Pledges** - For purposes of the *Personal Property Security Act* (the "PPSA"), the Regulatory Asset shall be intangible personal property and any Pledge made by an Absolute Assignee in respect of a Funding Obligation **shall, subject to the terms thereof, give rise to a security interest of which the PPSA applies, and** may be perfected by filing a financing statement under the PPSA on that basis. All proceeds of a related Investment Interest that are subject to such a Pledge that are received by the Absolute Assignee shall immediately be subject to the such Pledge, and the security interest in such proceeds shall be perfected pursuant to the PPSA.~~17~~**14** A Pledge perfected under the PPSA shall be a continuously perfected security interest and shall have priority over any other lien or security interest, created by operation of law or otherwise, that may attach to the property rights and interests in the Investment Interest subject to the Pledge unless the Pledgee has otherwise agreed in writing. ~~Subject to the terms of the Collective Action Agreement, a~~**A** Pledgee shall have a perfected security interest in a related Investment Interest, including the Absolute Assignee's rights and interests in and to Transition Charge Collections or other related proceeds in respect of the Investment Interest and that are deposited in any Regulatory Asset Account or other account of any Electricity Distributor, IESO, Alternative Collection Agent or other person who may have commingled such Transition Charge Collections or such other proceeds with other funds. All provisions of the PPSA shall apply to the Regulatory Asset on the basis that it is intangible personal property, except to the extent otherwise provided in this Section 6(5).

(6) **Enforcement of Property Rights** – The rights of any Regulatory Asset Owner to collect and enforce its rights and interests in, to or in respect of the Regulatory Asset shall be exercised in the manner set forth in Article 5.

(7) **Owners of a Specified Portion of the Regulatory Asset** – A Regulatory Asset Owner may effect a Disposition to an Absolute Assignee of a specified portion of its rights and interests in the Regulatory Asset, including by way of a Disposition of a divided or an undivided interest therein as specified in a related Disposition Document~~, in each case under the Financing Plan~~. In no circumstance may the specified portions of the rights and interests in the Regulatory Asset owned by all Regulatory Asset Owners be greater than all of the rights and interests that comprise the Regulatory Asset in the aggregate.

(8) **Collective Action Required** – If a Regulatory Asset Owner's rights and interests in the Regulatory Asset comprises less than the entire property right and interest constituted by the Regulatory Asset, such Regulatory Asset Owner shall only enforce such right and interest on a collective and coordinated basis with each other Regulatory Asset Owner in accordance with the Collective Rights Agreement. **[NTD: Move to Regulations.]**

~~17~~**14** Consider whether to simply leave this and have a financing statement be filed under the PPSA. This would normalize the security interest and reduce any adverse suggestion that security would not otherwise arise.

Article 7 – Establishment of the Fair Allocation Plan[1815] **[NTD: Move entire Article 7 to Regulations, other than 7(1) and 7(2).]**

(1) **Adoption of the Fair Allocation Plan** – The Delegate may, [by written declaration,] designate and adopt a Fair Allocation Plan in compliance with Article 7. The Fair Allocation Plan so designated and adopted shall be the Fair Allocation Plan for all purposes of this Act, except if amended, amended and restated or terminated by a further written declaration made by the Delegate in compliance with Section 7(4).**[the Regulations]**

(2) **Principles and Parameters** – A Fair Allocation Plan shall seek to allocate Future Fair Share of Green Transition Benefits across present and future Retail Consumer Groups**Regulated Consumers** on a basis that the Delegate, in its sole and absolute discretion, determines to be equitable, having regard to the following principles and parameters:

[NTD: E&Y will need to see the guidelines of the Fair Allocation Plan set in reference to parameters that will allow it to establish a modeling curve]

- **[Inflation period: (between November 2017 – and April 2022) bill increases need to be capped at inflation (assumed at 2% for modeling purposes)]**
- **[Transition Period: (May 2022- April 2027) bills increased at a consistent rate which is set so that the borrowing will not exceed the Trust's capacity, which is determined by the Finance Service Manager]**
- **[Amortization Period: (May 2027-April 2047) equitable distribution of Finance Amount among Regulated Consumers]**

1. Future Fair Share of Green Transition Benefits should be allocated over the period ending on the Program End Date.

2. <*The Fair Allocation Plan should specify the Reference Periods for the purpose of* >identifying applicable Retail Consumer Groups and <*allocating Future Fair Share of Green Transition Benefits among* >them< *on a relative basis over time.* >

2. 3. The share of Future Fair Share of Green Transition Benefits allocable to a particular Retail**Regulated** Consumer Group in respect of a Reference Period should be proportionate to a reasonable assessment of the benefits of the Green Generation Initiative to the Retail**such Regulated** Consumer Group over such Reference Period**, other than**> *in exceptional circumstances*<**.**

[1815] The idea is that the Fair Allocation Plan will be set once at the outset based on the principles and parameters described here, all as applied based on information available and the reasonable expectations and discretion of the delegate at such time. If the expectations are not fulfilled (e.g., generators may choose to retire their facilities at the end of their current procurement contracts and not invest in extending service lives to secure further procurement contracts), the Fair Allocation Plan will be unaffected, unless it is specifically amended (assuming amendments will be permitted by the legislation).

4. The share of Future Fair Share of Green Transition Benefits to be allocated to a Retail Consumer Group and any future Retail Consumer Group at a particular time should not exceed the Estimated Future Green Transition Benefits, measured in respect of the Reference Periods following such particular time and to the Program End Date.

5. No future Retail Consumer Group should be allocated an unreasonably disproportionate share of Estimated Future Green Transition Benefits. Except<- *in exceptional circumstances*> or in the case of any reallocation of an Over-Assessed Amount as contemplated in 7, below, the Future Fair Share of Green Transition Benefits to be allocated under a Fair Allocation Plan to any future Retail Consumer Group should have regard to *[Insert formula if a year-over-year maximum amount is determined to be appropriate].*

3. 6. The time value of money should be reflected in the Fair Allocation Plan, in order to equate the relative values of the nominal allocations of Future Fair Share of Green Transition Benefits, calculated in current dollars, to future Retail Consumer Groups over time.>*The Fair Allocation Plan should specify the Reference Periods for the purpose of* <>*allocating Future Fair Share of Green Transition Benefits among* <**Regulated Consumers**> *on a relative basis over time.* <

7. To the extent there has been an Over-Assessed Amount, the Fair Allocation Plan may determine that an adjustment should fairly be made to rebate Retail Consumers for such an amount, by reducing the costs otherwise attributable under the Act to such Retail Consumers. The relative costs of the Green Generation Initiative are reflected under the Act by the attribution of Transition Charges to such Consumer Groups, based on the Financing Plan seeking to track the allocations of benefits under the Fair Allocation Plan. Accordingly, the Maximum Transition Charge Amount determined for one or more Retail Consumer Groups having regard to the Fair Allocation Plan otherwise applicable may be appropriately reduced to recognize the effect of the Over-Assessed Amount. In such a case, a determination to reduce the Maximum Transition Charge Amount applicable for certain related Reference Periods should have regard to the principle that the corresponding rebate should be extended to benefit the Consumer Group or Consumer Groups in closest proximity to the Legislative Implementation Date.

(3) Attribution Methodology – The Fair Allocation Plan shall specify the Attribution Methodology for the purposes of allocating the Period Transition**Finance** Charges across the Retail**Regulated** Consumers of a particular Retail Consumer Group. The Attribution Methodology shall result in an attribution of such Transition Charges that is considered by the Delegate to be equitable, and may have regard to such principles and parameters as may be further set forth in a Regulation.; **provided that**> *the Attribution Methodology* <**shall not be used to limit the recovery of Transition Charges. [NTD: Can the methodology be adjusted outside an amendment? If so, the rating agencies need to understand the limits of any adjustment.]**

(4) Amendments of the Fair Allocation Plan – The Fair Allocation Plan may be amended, amended and restated or terminated by the Delegate, provided that such amendment, amendment and restatement or termination shall (a) not be inconsistent with the principles and parameters set forth in (2) or (3), above, or the Regulation ~~and~~, (b) comply with any restrictions or limitations specified with respect thereto in any Funding Obligation~~.~~**, and (c) not impair any Regulatory Asset, outstanding Funding Obligation or any Transition Charges. [NTD: If the Fair Allocation Plan is amended, there should be no further Regulatory Assets until the revised Fair Allocation Plan and corresponding Financing Plan have been approved.]**

Article 8 – The IESO ~~Retained Interest~~Funding Shortfall

(1) ~~Maintain Books of Account~~ ~~– IESO may maintain books of account to record the IESO Retained Interest Amount and all adjustments thereto from time to time. Such books of account shall be determinative with respect to the amount of IESO's related regulatory asset.~~**Recording of IESO Funding Shortfall -- IESO will record any IESO Funding Shortfall in its books.**

~~**(2) Limitation on Additions** – IESO shall not record additions to the IESO Retained Interest Amount in respect of IESO Funding Shortfalls (a) if such additions are restricted by the terms of any Disposition Document or the Collective Action Agreement, or (b) on or after •, 2017.~~

(2) ~~**(3)**~~ **Dispositions** – IESO may effect a Disposition **of all or any part of the IESO Funding Shortfall** to an Absolute Assignee if (a) the ~~Absolute Assignee has or will concurrently become bound by the Collective Rights Agreement; (b) the~~ Disposition is effected pursuant to a Disposition Agreement duly executed by IESO; **and** (~~c~~**b**) the Financial Services ~~Agent~~**Manager** confirms in writing that the Disposition **complies with any restrictions or limitations specified with respect thereto in any documents evidencing the Funding Obligations and** is permitted under the Financing Plan~~; and (d) the net proceeds payable to IESO from the sale of the related Investment Interest would not exceed the IESO Retained Interest Amount immediately before the time of such Disposition~~.

(3) ~~**(4)**~~ **No Continuing Interest in any Investment Interest** – IESO shall have no continuing right or interest in any ~~Investment Interest~~**IESO Funding Shortfall** subject to a Disposition effected by IESO under a Disposition Document to which IESO is a party~~and IESO shall not assert any such right or interest or take or omit to take any action to exercise or enforce its rights or interests under the IESO Retained Interest if such action or omission would impede or obstruct the rights of any Absolute Assignee or a Pledgee to enforce its rights and interests in any Investment Interest, except if IESO is expressly permitted to take or omit to take such action, respectively, under the related Disposition Document or the Collective Rights Agreement.~~

~~**(5) IESO Financing Costs** – IESO shall be entitled in good faith to incur reasonable financing costs (including interest and other reasonable financing charges) reflecting market terms and conditions and which are payable in arrears, in order to finance its ownership of the IESO Retained Interest from time to time. **(6) IESO Recoveries** –~~

IESO shall, in respect of a month, be entitled to receive from IESO Remittances on a related Settlement Date the amount (if any) available to IESO under Section 5(6)(b).

Article 9 – The Financing Plan [NTD: Move all of Article 9 to Regulations other than 9(1).]

(1) Power to Prepare, Implement and Amend the Financing Plan – The Financial Services AgentManager shall be authorized to prepare, implement and amend a financing plan for the Financing Entities> *and propose the adoption*< of such financing plan as the Financing Plan. If the Financial Services Agent is unwilling or unable to prepare< *and propose the adoption*> of the Financing Plan, the Delegate may by written declaration designate one or more other persons who shall be authorized to prepare, implement and amend the Financing Plan for the purposes of this Act. The Financial Services Manager shall have the right to withdraw its financing plan as the Financing Plan at any time if it determines that implementing the Financing Plan in such manner would not be in the best interests of a Financing Entity.

(2) TermsPrinciples and ConditionsParameters of the Financing Plan – The Financing Plan shall establish the basis for each Absolute Assignee's funding decisions. The Financing Plan shall have having regard to the principles and parameters set forth in Schedule 3 and such other conditions and requirements as may be specified in a written declaration of the Delegate or in accordance with the Regulation.3.

(3) OEB Approval – Any Additional Funding Charge payable to or for the benefit of the Financial Services AgentManager in respect of services provided by the Financial Services Manager (other than third party costs) shall be subject to review and approval by the OEB.

(4) OEB Review of Financing Plan – The [OEB] [shall] undertake an annual review of the records maintained by the Financial Services AgentManager for the purpose of confirming that the Funding Obligations incurred and the Finance Amounts paid by or on behalf of the Absolute Assignees were incurred and paid, respectively, in material conformity with the Financing Plan. [NTD: We would prefer that this be dealt with by an attestation prepared by an officer of the Financial Services Manager.]

(5) Replacement of the Administrative AgentFinancial Services Manager – If the OEB identifies deficiencies or makes recommendations in its review under Section 9(4), the Administrative AgentFinancial Services Manager shall take reasonable measures to remedy such deficiencies if remediable, and shall in any event have regard to the recommendations of the OEB in relation to further actions undertaken by the Financial Services AgentManager under the Financing Plan. If the Financial Services AgentManager is unwilling or unable to reflect such recommendations in relation to such further actions, the Delegate may by written declaration designate one or more other persons who shall thereafter become the Financial Services. Manager. Any replacement must comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations.

(6) Obligation to Apply IESO Remittances – The Financial Services AgentManager shall ensure that amounts transferred to it under Article 5, as agent for and on behalf of the Absolute Assignees, or otherwise in respect of or as proceeds from an applicable Investment Interest shall only be applied or used to pay related Finance Amounts when

they are due and payable and for no other purpose. **[NTD: This can be dealt with by contract.]**

(7) Non-Recourse – The Financing Plan shall be implemented so that Funding Obligations incurred shall be without recourse to or to any assets of the Electricity Distributors, IESO, any Alternative Servicer, any Alternative Collection Agent, the Financial Services Agent**Manager**, the OEB, the Province or the Lieutenant Governor in Council **or Her Majesty in right of Ontario**, other than if and to the extent that such persons or entities are liable for the performance of obligations or duties arising under this Act or expressly agree to become liable pursuant to any Funding Obligation or obligation in relation to a Finance Amount. [All Funding Obligations shall contain a statement to the following effect: "Neither the full faith and credit nor the taxing power of the Province of Ontario is pledged to the payment of the principal of, or interest on, this [obligation].]

(8) Incurrences are Binding – Notwithstanding anything to the contrary in this Act, each**Each** Disposition made to or by an Absolute Assignee and**,** all amounts payable or becoming due and payable by or on behalf of an Absolute Assignee under or in connection with any obligation purporting to be a Funding Obligation **and each Pledge entered into by an Absolute Assignee**, shall be **valid and** binding for the purposes of this Act, including in determining the amount of related Transition Charges, despite**notwithstanding** any impairment or defect resulting from such failure**defect in the manner in incurrence or any inconsistency with the Fair Allocation Plan or the Financing Plan**.

[Article 10 – Compliance Matters[19][16]

(1) Right of the [OEB] to Inspect Books and Records - For the purpose of investigating compliance with the provisions of this Act, the OEB shall have the right, jurisdiction, power and authority to examine the books and records of *[Insert names if any]*.

(2) [OPG's Rate Settings – When setting other rates for or in respect of OPG, the OEB shall not take into account (a) the administrative or servicing fees charged by OPG as Financial Services Agent**Manager** [in excess of the actual incremental costs incurred by such person of providing administrative or servicing services]; (b) the cost consequences to OPG of being the Financial Services Agent**Manager**; or (c) the consequence of OPG consolidating the assets and liabilities of any Financing Entity for OPG's accounting purposes, in each case in setting any regulated payment amounts for OPG.][20][17]

[19][16] As noted above, the outcome of any regulatory action undertaken by the OEB will not affect Funding Obligations that have been incurred under the Financing Plan. This Article and any potential role for the Auditor General is still under consideration.

[20][17] As an alternative to this provision, consider clarifying under s. 78.1(4) of the OEB Act (which currently gives the OEB discretion in setting payment amounts subject to O. Reg. 53/05) that the OEB in setting OPG payment amounts for prescribed generation shall not consider OPG's role as Administrative Agent**Financial Services Manager** of any Financing Entities associated with the Fair Hydro initiative, perhaps with the exception of any operating fees that may be received by OPG for performing that role.

Article 11 – Undertaking of the ~~Lieutenant Governor in Council~~[21]Her Majesty in right of Ontario[18]

(1) No Action to limit, alter, or impair or terminate Transition Charges, the Regulatory Asset or Collections – ~~The [Lieutenant Governor in Council]~~**Her Majesty in right of Ontario** shall not in any way take or permit **(including by any agency or administrative body)** any action to reduce, impair, postpone or terminate the obligation of ~~Retail~~**Regulated** Consumers to pay Transition Charges or to impair the Regulatory Asset or the collection or recovery of Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances, either directly or indirectly, including through the introduction of any bill or the passing of any legislation or regulation having such effect. The amount of Transition Charges determined under this Act shall not be subject in any way to reduction, impairment, postponement or termination as a result of any action taken or failure by ~~the Lieutenant Governor in Council~~**Her Majesty in right of Ontario (including by any agency or administrative body)**, including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(2) Undertaking and Agreement – ~~The [Lieutenant Governor in Council]~~**Her Majesty in right of Ontario** shall not:

(a) in any way take or permit any action that limits, alters or impairs the value of any Investment Interest;

(b) except as required by the estimates and adjustments made in determining the True-up Amount, reduce, alter or impair Transition Charges that are imposed, billed, invoiced, collected and remitted for the benefit of the Absolute Assignees or any Pledgee from time to time;

(c) permit the amendment, amendment and restatement or termination of the Fair Allocation Plan if such amendment , amendment and restatement or termination would adversely affect the validity or enforceability of any Funding Obligation or the rights of an Absolute Assignee or Pledgee thereunder, **or would not otherwise comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations,**

in each case including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(3) Successor IESO – If IESO is restructured, dissolved or becomes insolvent or is otherwise incapable of performing its obligations under this Act, **an IESO** Successor ~~IESO~~ shall **immediately** be established **by Her Majesty in right of Ontario** to perform such obligations.

~~21~~[18] Under consideration, including the dealers' request for a "servicer guarantee" and a "contractual guarantee" to address a "Change of Law" or if all or a portion of the legislation is *ultra vires*, requiring (at the lenders option), the Province to pay principal and interest on the outstanding debt until maturity or payout the entire debt including any make-wholes. ⊥
In the event of a market disruption that renders it impossible to refinance debt when required (or where financing of amounts required to service the debt is not available because of a market disruption where the Financing Entity was relying on such further issuance of debt until the recovery is set to begin to fund interest), either the Province must step in and payout the debt or there must be the right to recover the debt from ratepayers as it becomes due, notwithstanding the intended rate cut.

(4) Compensation for Failure – Absolute Assignees shall be compensated by Her Majesty in right of Ontario for any losses suffered by them as a result of any failure by ~~the Lieutenant Governor in Council~~Her Majesty in right of Ontario to comply with its undertakings and agreements in this Article 11.~~22~~19

(5) No Wind-up of Financing Entity. No Financing Entity may be voluntarily wound up, liquidated or dissolved until one year after all of its Funding Obligations are repaid. [NTD: This concept can be contained in the Regulations.]

(6) References to the Undertaking and Agreement – Any non-confidential reference to the Undertaking of the ~~Lieutenant Governor in Council~~Her Majesty in right of Ontario, including in marketing materials and other documentation authorized for use by the Administrative in connection with any Funding Obligation, may be made provided that [*Add conditions to protect the Province*].

Article 12 – Regulations

Regulations may be made under this Act for the purposes described in Sections •,•,• and • and may be promulgated for any of the following purposes:

(a) to set standards and measures regarding the commercially reasonable requirements of the Province associated with an Absolute Assignee incurring Funding Obligations or becoming obligated to pay any Finance Amount, including to establish guidelines regarding all-in funding costs; permitted Additional Funding Charges; required maturities and redemption and termination rights of Funding Obligations; liquidity requirements, in each case to a Financing Plan that is consistent in its effect with the Fair Allocation Plan;

(b) to establish and empower one or more regulated entities to undertake decision-making activities with respect to this Act;

(c) to set out reasonable requirements regarding the appointment or retention of advisors, agents, service providers, contract counterparties, including in relation to 'market terms and conditions' parameters;

(d) to provide for audit and compliance standards applicable to those persons who are or may become obligated or have duties that arise under this Act [or under any Funding Obligation];

(1) **Choice of law** – The law governing, as applicable, the validity, enforceability, attachment, perfection, priority and exercise of remedies with respect to the transfer of an interest or right or creation of a security interest in the Regulatory Asset, any Transition Charge or the Undertaking of the Province shall be the laws of the Province.

(2) **Conflict of law** – In the event of conflict between this Act and any other law of the Province regarding the attachment, assignment or perfection, or the effect of perfection, or priority of any Disposition or Pledge, this Act shall govern to the extent of the conflict.

(4) **Effect of invalidity after the Incurrence of any Funding Obligation** - Effective on the date that a Funding Obligation is incurred under this Act, if any provision of this Act is held to be invalid or is invalidated, superseded, replaced, repealed or expires for any reason, that occurrence shall not affect any action allowed under this Act that is taken by any person who is or may become obligated or have duties that arise under this Act and any such action shall remain in full force and effect.

(5) **Severability** - If any Article, Section, paragraph or subparagraph of this Act or the application thereof to any person, circumstance or transaction is held by a court of competent jurisdiction to be unconstitutional or invalid, the unconstitutionality or invalidity shall not affect the constitutionality or validity of any other Article, Section, paragraph or subparagraph of this act or its application or validity to any person, circumstance or transaction, including the irrevocability of Transition Charges, the validity of the Regulatory Asset, the incurrence of any Funding Obligation, any Disposition, any Pledge, or the collection and recovery of Transition Charge Collections. To these ends, the Legislature hereby declares that the provisions of this Act are intended to be severable and that the Legislature would have enacted this Act even if any Article, Section, paragraph or subparagraph of this Act held to be unconstitutional or invalid had not been included in this Act.

Principles and Parameters for Establishing the Financing Plan

The following principles and parameters provide a guideline as to what a Financing Plan should address:

~~(1)~~ ~~in respect of each Reference Period, make reference to the allocations of Future Fair Share of Green Transition Benefits to each Reference Group contemplated by the Fair Allocation Plan;~~

~~(2)~~ ~~estimate IESO Funding Shortfalls for each Reference Period;~~

~~(3)~~ ~~consider alternative funding arrangements suitable to fund the estimated IESO Funding Shortfalls, including short term and/or long term Funding Obligations;~~

(1) ~~(9)~~ consider quantities, maturities, payment obligations, prepayment or redemption rights and such other features of Funding Obligations so that payments made for a Reference Period reasonably correspond to the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

(2) ~~(4)~~ if the anticipated amount of any Repayment (together with payments of other Finance Amounts) to be made in respect of a Reference Period would materially exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable ~~Retail Consumer Group~~**Regulated Consumers** under the then current Fair Allocation Plan, diligent efforts should be made to determine whether a Refinancing or deferral of such Repayment may be reasonably and cost-effectively effected based on then prevailing market terms, conditions an circumstances;

(3) ~~(5)~~ reflect the assumptions and requirements specified in any contemplated Funding Obligation (e.g., any limit on the maximum amount of Transition Charges charged to a hypothetical ~~Retail~~**Regulated** Consumer relative to his or her monthly electricity bill, as prescribed by any rating agency that ascribes its credit rating to or in respect of the Funding Obligation **[having regard to the application of the ~~Allocation~~Attribution Methodology][NTD: Are the words in square brackets necessary?]**);

(4) require the Financial Services Manager, for and on behalf of each Regulatory Asset Owner, to use diligent efforts to manage Finance Amounts to be borne by Ratepayers;

(5) include a proposal regarding the compensation of the Financial Services Manager that reflects market terms and conditions; and

(6) ~~incur Funding Obligations from time to time on the best terms available at such time for a financing transaction of the size and type contemplated, and having regarding to the following parameters:~~**require that the Financial Services Manager report annually to**

~~b. the basis upon which the Financial Services Agent will select the term to maturity of any other Funding Obligations; provided that any Repayments required to be made under the terms of such Funding Obligations should not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;~~

~~c. the basis upon which the interest rates applicable to such Funding Obligations would be determined;~~

~~d. the reference capital or finance market in which such Funding Obligation would be incurred, including markets outside of Canada if considered by the Financial Services Agent to be appropriate in the circumstances;~~

~~e. the currency of payments under such Funding Obligations and, if the Funding Obligations are denominated in a currency other than Canadian dollars, the basis upon which the Financial Services Agent shall cause the applicable Absolute Assignee to enter into hedging transactions to mitigate currency risk, including acceptable minimum and maximum coverage levels, having regard to the availability of related derivatives having notional amounts corresponding to the repayment and maturity profile of such Funding Obligations;~~

~~f. the basis upon which the Financial Services Agent will select counterparties under any transaction to be entered into by an Absolute Assignee, including any paying agent, servicer, cash manager, liquidity provider, hedge counterparty, account bank, lender, note trustee, security trustee, paying agent, registrar/transfer agent, financial services agent, arranger or manager;~~

(7) the basis upon which Funding Obligations may be redeemed, prepaid, repurchased or otherwise affected, having regard for the need to minimize debt service charges and other Funding Costs, and the need to maintain a stable funding platform to finance the IESO Funding Shortfalls from time to time on a basis that is consistent with the allocations of Future Fair Share of Green Transition Benefits to applicable Reference Groups under the Fair Allocation Plan;

(8) the basis upon which any Repayments, Funding Costs and Redemption Amounts will be paid, including any defeasance, sinking fund or through other reserves or liquidity facilities;

(9) the basis upon which fees, charges, expenses, costs, indemnities, reimbursements and other amounts payable to or for the benefit of the Financial Services Agent and other agents and service providers to the Absolute Assignees may be determined, allocated and paid;

(13) the transmittal to [the IESO] of information related to the amounts to be included in the determination of the Period Transition Charge for a Reference Period;

(14) the basis upon which any Disposition may be made or effected by an Absolute Assignee, including parameters for determining the purchase price for the interest in the Regulatory Asset that is the subject matter of such Disposition, and any consents and releases that may be usefully obtained in connection with such Disposition;

(15) describe the requirements applicable to any special purchase entity that will purchase an Investment Interest, including proposed capitalization, governance, and restrictions on their powers and activities; and

Fair_Hydro_Act Torys_Osler Mark-up April 11 2017 Draft (Torys-Oslers_Apr....pdf

CONFIDENTIAL AND PRIVILEGED

Preliminary Draft for Discussion Purposes Only

"Fair Hydro Act"

Article 1 – Purpose

The Province has and continues to encourage the construction and development of facilities for the long-term operation and generation of electricity in the Province using sustainable, lower carbon-based technologies such as new gas-fired generation, renewable facilities, energy from waste and biomass, including under the Province's various procurement, standard offer, feed in tariff and other similar programs (the "Green Generation Initiative"). The long-term benefits of the Green Generation Initiative accrue over time and have benefited and will continue to benefit present and future electricity consumers in the Province.

The out-of-market costs of the Green Generation Initiative are currently passed through to electricity consumers by way of a monthly adjustment amount (the "Green Costs Adjustment"), which in turn forms part of the overall adjustment calculated by the Independent Electricity System Operator ("IESO") pursuant to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* (the "Global Adjustment").

The Green Costs Adjustment is currently determined each month by reference to the amounts paid by IESO to the generators of electricity in the Province under the Green Generation Initiative. These amounts paid by the IESO arise because IESO has entered into long-term procurement contracts with such generators in order to provide them with revenue certainty, and in turn to encourage the generators to develop technologies and to construct and develop facilities consistent with the Green Generation Initiative. **[NTD: This statement is not correct in respect of all IESO procurement contracts.]** It has been determined that the useful lives of many of the assets developed under the Green Generation Initiative will be in excess of the respective terms of their respective procurement contracts.

Since the benefits to past, present and future electricity consumers from the Green Generation Initiative will not necessarily coincide with the costs currently attributed through the Green Costs Adjustment, based on the respective terms of the applicable procurement contracts, it has been determined that the rate at which the costs associated with the Green Generation Initiative should be passed through to Regulated Consumers (as defined in Article 2) should be more closely aligned with the benefits that such Regulated Consumers have derived and are expected to derive from the Green Generation Initiative over time. This realignment will be based on general principles and parameters that establish a reasonable basis for measuring and allocating the relative costs and benefits of the Green Generation Initiative equitably across present and future Regulated Consumers (the "Fair Allocation Plan"). **[NTD: There is no explanation as to why realignment is limited to Regulated Consumers.]**

If the Fair Allocation Plan determines that the equitable allocation of the costs associated with the Green Generation Initiative to the Regulated Consumers of a particular time period should be reduced below the amount that currently would be charged based on the Green Costs Adjustment, then the amount payable by such Regulated Consumers and in turn available to IESO will, in the aggregate, be less than the amount payable by the IESO to the generators in

respect of such period. In this case, IESO will need to obtain funding from another source to cover such a shortfall. If a funding obligation is incurred to cover such a shortfall during any period, the repayment of such funding obligation will be required in a future period, and any related repayments, finance costs, hedging costs and other transaction costs incurred will become payable in future periods. In order for IESO to obtain a reliable and committed source of cash flows to enable IESO to repay such funding amounts when they become due and payable, this Act imposes irrevocable and non-bypassable financial obligations on Regulated Consumers to pay amounts incurred in respect of such funding obligations when they become due and payable and establishes a right to invoice and collect such amounts. The right and interest in and to collect such financial obligations will take the form of the Regulatory Asset contemplated in this Act, which will constitute property rights and interests. Interests in the Regulatory Asset may be sold and absolutely assigned by IESO to one or more financing entities, which in turn will finance their acquired interests by incurring funding obligations. The incurrence and payment of such funding obligations will be administered on behalf of such financing entities by a financial services manager under the Financing Plan contemplated in this Act.

[NTD: Our strong preference is to limit the introduction to the next paragraph and move defined terms from the previous paragraphs to Article 2]

The purpose of this Act is to establish the basis upon which intergenerational fairness can be achieved by charging the costs and benefits of the Green Generation Initiative to present and future Regulated Consumers on an equitable and cost effective basis.

Article 2 – Definitions

In this Act: **[NTD: It would be preferable to use plain language definitions in the legislation and leave the more detailed definitions to either the regulations or the agreements contemplated hereunder.]**

> "Absolute Assignee" means a person to whom a Regulatory Asset Owner effects a Disposition other than as security.
>
> "Actual" means, in relation to costs, expenses or payments in respect of Funding Obligations during a Reference Period, the actual amount of such costs, expenses or payments paid or made (net of any Finance Reserve Withdrawals applied to pay such amounts), which amounts shall be recorded by the Financial Services Manager whose records shall be determinative for the purposes of this Act except to the extent of a manifest calculation error.
>
> "Additional Funding Charges" means, for a Reference Period, the fees, charges, expenses, costs, indemnities, reimbursements and other amounts (including any applicable tax amounts) that are or become payable by or on behalf of the Absolute Assignee during the Reference Period and that were incurred or committed to directly or indirectly by the Absolute Assignee in connection with the incurrence of Funding Obligations under the Financing Plan (whether at the time of such incurrence or over the term of the Funding Obligation and whether directly or indirectly), including without limitation such amounts as may be prescribed.
>
> **[NTD: See section 5(11). Remove this concept globally.]**

"Alternative Servicer" means a person appointed under Section 4(8) to assume the obligations of the Servicer under Article 4, as agent for and on behalf of the Regulatory Asset Owners. **[NTD: We see this, in effect, as the same thing as the IESO Successor; that is, replacement of the master Servicer.]**

"Assessed Past Green Transition Costs" means, in respect of a Measurement Date, the aggregate of the imputed costs of the Green Generation Initiative (expressed as an equivalent to current dollars), as reflected in the calculation of the Green Costs Adjustment, which have been charged to Retail Customers through the Global Adjustment on or prior to the Measurement Date.

"Attribution Methodology"[1] means the methodology specified in the Fair Allocation Plan for allocating the Period Finance Charges for a Reference Period to Regulated Consumers. **[NTD: We understood that the Ministry accepted that the transition charge would be a volumetric rate.][NTD: Can be moved to Regulations.]**

"Collected Amount Adjustment" means, in respect of a True-Up Period, the amount (which may be a negative amount) calculated by the Servicer or the Financial Services Manager, as applicable, equal to (a) the Estimate of the Finance Amount for the True-Up Period, minus (b) the sum of all Transition Charge Collections for the True-Up Period.[2]

"Collective Rights Agreement" means an agreement among all of the Regulatory Asset Owners (including each Absolute Assignee), each Pledgee, and the Financial Services Manager that governs the enforcement of their respective rights and interests in, to and under the Regulatory Asset on a coordinated and collective basis. **[NTD: Move to Regulations.]**

"Delegate" means any of the following person or persons designated in writing from time to time by the Minister of Energy to undertake the actions and perform the responsibilities ascribed to the "Delegate" under this Act: ●. **[NTD: Why is this delegation of authority necessary? This requires further discussion and clarity as to which entity or entities that the Province can select as the Delegate; for example, it would not be acceptable for the Province to select the OEB to be the Delegate. If this is required, an acceptable delegate would be a stakeholder committee comprised of representatives from the Ministry of Energy, the OEB, the IESO, and OPG. In addition, the regulation should prescribe how the stakeholder committee would operate.]**

"Disposition" means an assignment, transfer, conveyance, sale, contribution, set-over, exchange or other disposition of (a) IESO's right to recover all or any portion of an IESO Funding Shortfall or (b) an Investment Interest to an Absolute Assignee, in each case pursuant to a Disposition Document.

---

[1] This allocation may be volumetric or some combination of a flat amount and a volumetric charge. Further discussion is required. H&W has raised a concern regarding possible adverse changes after the fact and rating agency considerations. Consider whether hard-coding in the legislation makes sense.

[2] This would pick up adjustments based on actual collection experience, changes in the Regulated Consumer base, changes in the actual costs (versus earlier estimates) included in the Transition Charge calculation, etc.

"Disposition Document" means the agreement, deed, conveyance, instrument or other document under which IESO or an Absolute Assignee effects a Disposition to an Absolute Assignee.

"Electricity Distributor" means a rate regulated distributor licensed under Part V of the *Ontario Energy Board Act, 1998*, together with and its successors.

"Electricity Distributor Remittances" means, for an Electricity Distributor on a Remittance Date, all Transition Charge Collections received or deemed to be received **[NTD: estimated to be received? will each Electricity Distributor know?]** by the Electricity Distributor prior to the Remittance Date and that have not otherwise been remitted to Servicer or if applicable the Alternative Collection Agent in accordance with Section 5(3), including the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5.

"Electricity Invoice" means an invoice issued by an Electricity Distributor (or in its stead, by an Alternative Collection Agent), by the Servicer or by a Retailer, in each case to a Regulated Consumer that is served by the Electricity Distributor's distribution system in respect of electricity charges, including the cost of electricity, delivery and regulatory charges and related services and amounts incurred, assessed or charged in respect of connectivity to such Electricity Distributor's distribution system and in respect of applicable Transition Charges to be charged to the Regulated Consumer under this Act. **[NTD: The Alternative Servicer should only invoice for Transition Charges, not the entire invoice. Also, to avoid confusion, we suggest using the word "invoice" in reference to what the IESO sends out to distributors, and "bills" in reference to what distributors send out to consumers.]**

"Estimate" means (a) in relation to costs, expenses or payments in respect of Funding Obligations or any Finance Amount for a Reference Period, the estimated amount of such costs, expenses or payments determined by the Financial Services Manager; and (b) in relation to an assessment of the benefits of the Green Generation Initiative to Regulated Consumers, the estimated value (in current dollars) of such benefits determined by the Delegate, in each case having regard to the applicable principles and parameters set out in Schedule 1, which estimated amounts shall be determinative as the applicable estimate for the purposes of this Act except to the extent of a manifest calculation error.

"Estimated Future Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that are expected to accrue to Regulated Consumers from the establishment and implementation of the Green Generation Initiative during the period from the Measurement Date to the Program-End Date.

"Estimated Past Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that have accrued to Regulated Consumers from the establishment and implementation of the Green Generation Initiative up to and including the Measurement Date.

"Fair Allocation Plan" has the meaning given in Article 1.

"Finance Amount" means, for a Reference Period, the sum (without duplication) of the following amounts that are or become payable during the Reference Period in respect of all Absolute Assignees: (a) Repayments; (b) Net Funding Costs; (c) Redemption Amounts; (d) Finance Reserve Deposits; and (e) Additional Funding Charges.

"Finance Reserve Deposits" means, for a Reference Period, the amount by which (a) deposits made or to be made during the Reference Period in order to pre-fund, collateralize, over-collateralize or establish reserves for the ultimate payment of Funding Obligations or for related contingencies specified in the Financing Plan, exceed (b) any Finance Reserve Withdrawals. **[NTD: Move this to regulation.]**

"Finance Reserve Withdrawals" means, for a Reference Period, the amount withdrawn during the Reference Period from deposits previously made to pre-fund, collateralize, over-collateralize or establish reserves for the payment of Funding Obligations or to pay amounts in respect of related contingencies that had been specified in the Financing Plan. **[NTD: Move this to regulation.]**

"Financial Services Manager" means OPG or, following any Replacement Event involving OPG, such other person who may be appointed as the financial services manager of the Absolute Assignees under the Financing Plan in compliance with the requirements set out in Schedule 2.[3]

"Financing Entity" means any entity established at the initiative of and managed by the Financial Services Manager to support the Financing Plan.[4]

"Financing Plan" means the written plan prepared by the Financial Services Manager in accordance with Article 9, as the same may be amended, amended and restated or terminated by the Financial Services Manager in accordance with Article 9 from time to time.

"Funding Obligation" means, in respect of an Absolute Assignee, each payment obligation (including, without limitation, each obligation to pay: principal, interest, premiums and other financing charge payments; pass-through payments; payment obligations arising under or in respect of derivatives; payment obligations owing to service providers, Financial Services Managers, finance entity intermediaries, capital markets intermediaries, advisors, lenders, credit enhancement providers, liquidity providers, disbursement counterparties, regulatory agencies and rating agencies; and all Additional Funding Charges) incurred by or on behalf of the Absolute Assignee under

---

[3] There must only be one Financial Services Manager.

[4] MOE to confirm that the legislation will provide that any Financing Entity that is a wholly-owned subsidiary of OPG (1) would not be subject to Part VI of the *Electricity Act* (Ontario) and (2) in the case of any Financing Entity that is a trust, any income of such trust (for purposes of the *Income Tax Act* (Canada) or the *Taxation Act, 2007* Ontario)) which is paid or made payable to OPG or a wholly-owned subsidiary of OPG as a beneficiary of such trust will not be taken into account in calculating the amount of a payment required to be made by OPG (or such subsidiary) by section 89 or 90 of the Electricity Act.

the Financing Plan, including any Refinancing of another such payment obligation incurred by or on behalf of such Absolute Assignee.

"Future Fair Share of Green Transition Benefits" means, in respect of a Measurement Date, the sum of (a) the Over-Assessed Amount; and (b) the Estimated Future Green Transition Benefits, in each case as of the Measurement Date.

"Global Adjustment" has the meaning given in Article 1.

"Green Costs Adjustment" has the meaning given in Article 1.

"Green Generation Initiative" has the meaning given in Article 1.

"IESO" means the Independent Electricity System Operator created pursuant to Part II of the *Electricity Act, 1998*.

"IESO Electricity Distribution Receipts" means, for a month, the sum of all amounts payable by Electricity Distributors to IESO , during the month pursuant to section • of the *Electricity Act* in respect of Regulated Consumers. **[NTD: IESO indicates that it likely does not work to express in regards to "amounts payable by the LDCs" because settlement between the IESO and LDCs entails payments by LDCs to the IESO and then credits/debits by the IESO to LDCs to reflect RPP shortfalls/overages.]**

"IESO Funding Shortfall" means, for a month, the amount, if any, by which (a) the IESO Electricity Distribution Receipts that would be payable to IESO for the month if determined without regard to this Act and without regard to the changes made to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* with respect to the Global Adjustment concurrently with this Act, exceeds (b) the IESO Electricity Distribution Receipts payable to IESO for the month[5].To the extent reasonably necessary to give effect to this Act, or any transaction contemplated hereby, IESO shall calculate the IESO Funding Shortfall for any month taking into account information provided by the Electricity Distributors and (i) such calculation shall be binding for all purposes; and (ii) any demonstrated inaccuracy in the calculation for any month (including any such resulting from inaccuracies in the information provided by Electricity Distributors) shall be accounted for by adjusting the IESO Funding Shortfall for a subsequent month. **[NTD: Need to add the mechanism for IESO to record this shortfall because without that there is no Regulatory Asset. This IESO Funding Shortfall is the regulatory asset owned by IESO.]**

"IESO Remittances" means, for a Settlement Date, all Electricity Distributor Remittances received by IESO or if applicable the Alternative Collection Agent prior to the Settlement Date and that have not otherwise been remitted to the Regulatory Asset Owners (each with respect to its Regulatory Asset) in accordance with Section 5(6), including the proceeds of any enforcement action undertaken by IESO or if applicable the Alternative

[5] This has been recast to recognize that the shortfall in the first 4.5 years could exceed the entire GA amount. A more refined approach to describing the concept may be considered.

Collection Agent to recover payment of amounts payable by Electricity Distributors to IESO in accordance with Article 5.

"IESO Successor" means the entity appointed by the Province to succeed to the rights and obligations of IESO as the entity responsible for managing the Province's electricity system.

"Investment Interest" means an ownership interest in, to or under the Regulatory Asset that is acquired by an Absolute Assignee pursuant to a Disposition.

"Regulated Consumer" means consumers of electricity in the Province as prescribed.

[NTD: There are a number of issues with this definition. First, the word "Retail" is a source of confusion as it implies customers of licensed retailers. Really, the purpose of the term is to define the group of consumers that are eligible to receive the benefit of the Fair Hydro program and who will bear the cost of the program over the long term. We have proposed "Regulated Consumer" but you could also use the term "Eligible Consumer" or "Fair Hydro Eligible Consumer" and for purposes of the legislation to say that it is a member of a class of consumers prescribed by the regulations for purposes of the relevant section of the legislation. The regulation would then describe who is in the class. Second, it may not be appropriate to rely on the class of consumers prescribed for the purposes of s. 79.16 or under the OREC Act. Section 79.16 is the section that defines the class of RPP consumers. We understand that the "Fair Hydro Eligible Consumers" are not an identical class to that which is eligible for the RPP or for the Ontario Rebate for Electricity Consumers. For example, we have heard that Fair Hydro Eligible Consumers will (a) exclude consumers served by independent power authorities (certain remote communities not served by Hydro One Remotes), and (b) include consumers served by licensed unit sub-metering providers, licensed retailers and certain consumers served directly by the IESO (which may or may not be captured by the classes under 79.16 or OREC). Third, it is not clear why consumers with contracts with retailers who use retailer consolidated billing are removed from the first part of the definition but then added back into the second part of the definition. Fourth, Retailers do not necessarily have physical electricity assets that would be connected to the grid. Some just sell or offer contracts for electricity. As such, the first few lines after (b) are problematic. Fifth, the phrase "purchase electric generation services from a provider of electric generation services other than the owner of the Province's transmission and distribution system assets" does not make sense. A consumer does not purchase generation services from a transmitter or distributor. Rather, a consumer receives distribution services from a distributor. In addition to charging for its distribution services, the distributor also charges the associated

transmission costs and commodity costs associated with the volumes delivered. Those commodity costs are the price of the electricity itself and are almost entirely made up of the amounts determined under the global adjustment. Sixth, the phrase "whether or not the transmission and distribution system assets continue to be owned or operated by Electricity Distributors or operated by IESO" does not make sense. Transmission assets are owned and operated by transmitters. Distribution assets are owned and operated by distributors. The IESO does not own but does administer and direct the operation of the transmission system.]

"Regulatory Asset" means the property rights and interests described in Section 6(1), which collectively is comprised of each Investment Interest.

"Regulatory Asset Account" means (a) for an Electricity Distributor, any bank account into which the Electricity Distributor deposits or receives Transition Charge Collections; and (b) for the Servicer, any bank account into which Servicer deposits or receives Transition Charges, Electricity Distributor Remittances or IESO Remittances.

"Regulatory Asset Owner" means each Absolute Assignee, as owner of its Investment Interest or Investment Interests, and "Regulatory Asset Owners" means collectively each such Absolute Assignee, who together own the entirety of the Regulatory Asset and are required to exercise their individual rights of ownership in accordance with Section 6(7).

"Related Rights" means, with respect to a Regulatory Asset Owner's Investment Interest, all rights of any kind (whether in tort, contract or otherwise) that attach or are attendant or incidental to any of the other property rights or interests that comprise such Investment Interest.

"Remittance Date" means, in respect of an Electricity Distributor, each day on which it is required to remit Electricity Distribution Remittances to Servicer or if applicable the Alternative Collection Agent as specified in accordance with any Funding Obligation or, if no such day is specified in accordance with any Funding Obligation, then the Business Day **[NTD: Not defined.]** preceding each Settlement Date. **[NTD: Move to Regulations. Remittances will be in accordance with the current rules.]**

"Repayment Obligation" means an obligation to repay or to provide for the repayment (including by making a related Finance Reserve Deposit) of, all or a portion of the amount advanced to the Absolute Assignee under a Funding Obligation.

"Repayment" means a payment by an Absolute Assignee made to satisfy a Repayment Obligation, other than to the extent that the payment is made by applying the proceeds of a Refinancing or from Finance Reserve Withdrawals.

"Replacement Event" means any event specified as such in a Funding Obligation.

"Retailer" means a person who is licensed under Part V of the *Ontario Energy Board Act, 1998* to retail electricity.

"Retailer Consolidated Billing" has the same meaning as in the *Retail Settlement Code* issued by the Ontario Energy Board.

"Servicer" means IESO or IESO Successor, as agent for and on behalf of the Regulatory Asset Owners, for the purposes set forth in Article 4.

"Settlement Date" means the [last Business Day of any month].

"Transition Charge" means, the amount recoverable from a Regulated Consumer in respect of a Reference Period, being the Period Finance Charge as allocated to such Regulated Consumer in accordance with Article 4(3) on a monthly basis. **[NTD: This needs to be grossed up to account for variability associated with expected uncollectables and remittance delays.]** **[NTD: Do not need to create parallel process. The definition should be linked to the OEB process for determining the volumetric rate as part of the RPP process (see s. 4(2)). The OEB will determine volumetric rate based on forecast consumption, number of consumers, etc. to recover the Period Finance Charges.]**

"Transition Charge Collection" means any amount received **[or deemed by this Act to have been received]** by the Absolute Assignees upon the collection of a Transition Charge paid by or on behalf of a Regulated Consumer, including any proceeds arising from the exercise and enforcement of any related rights and interests under or in respect of the Regulatory Asset.

"True-Up Amount" means, in respect of a Reference Period, the amount (which may be a negative amount) calculated by the Financial Services Manager equal to (a) the Actual Finance Amount for such related True-Up Period, minus (b) the Estimate of the Finance Amount for the related True-Up Period, , plus (c) the Collected Amount Adjustment for such related True-Up Period. **[NTD: need to discuss how this will work for our true-up. What about prior period shortages? An example of how this works needs to be provided.]**

"True-Up Period" means, in relation to a Reference Period, the immediately preceding Reference Period.

"Undertaking of Her Majesty in right of Ontario" means the undertaking of Her Majesty in right of Ontario given under Section 11(2).

Article 3 – Transition Charges

(1) **Regulated Consumer Obligation to Pay a Transition Charge** – Each Regulated Consumer shall pay each Transition Charge charged to it in any Electricity Invoice issued to such Regulated Consumer by its Electricity Distributor or by an Alternative Servicer under Section 4(1), in each case on the terms of payment specified in the related Electricity Invoice.

(2) **Indebtedness of Regulated Consumers** – Until paid, a Transition Charge charged to a Regulated Consumer in an Electricity Invoice shall, together with any applicable late payment fees and finance charges arising under the terms of the Electricity Invoice with respect to such Transition Charge, constitute non-bypassable indebtedness of the

Regulated Consumer to the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset. Such indebtedness shall constitute a single and separate[6] debt obligation owing by the Regulated Consumer, which subject to Article 5 may be enforced independently from any other payment obligation or indebtedness owing by the Regulated Consumer under the Electricity Invoice or otherwise.[7]

(3) No Set-Off or Reduction – A Regulated Consumer may not set-off or reduce (by counterclaim, defense or otherwise) the amount payable by it in respect of any Transition Charge, including any set-off against or in respect of any amount owing or becoming payable to such Regulated Consumer by its Electricity Distributor, any Regulatory Asset Owner or any other person.

(4) Allocation of Regulated Consumer Payments – If an Electricity Distributor receives a payment made by or on behalf of a Regulated Consumer in respect of amounts due and payable under one or more Electricity Invoices that is less than the total amount payable thereunder, such payment shall be subject to rights and benefits that are no less favourable than the treatment accorded to other amounts payable to the IESO by the Electricity Distributor.

(5) Transition Charges are Irrevocable – The Transition Charges arising under or in respect of Funding Obligations (including any adjustments based on modifications to such Funding Obligations made in compliance with the Financing Plan or as a result of amendments to the Financing Plan made in accordance with Section 9(3)) are deemed to be irrevocable, final and effective without any further action, except to the extent of manifest calculation error. For greater certainty, a Transition Charge may include Finance Amounts for a Reference Period regardless of whether the payment of such Finance Amounts are inconsistent with the Fair Allocation Plan applicable at the time such payments are due and payable, and regardless of whether the related Funding Obligation was properly incurred under the Financing Plan. In no case shall a Funding Obligation incurred under the Financing Plan be affected by a subsequent amendment to the Fair Allocation Plan.

(6) True-Up of Transition Charges? – [NTD: Include specifics regarding the true-up of the charges and the process for the true-up, but move to Regulations. The True-Up Mechanism should require the Transition Charges to be reviewed and adjusted semi-annually to ensure the expected recovery of amounts sufficient to timely provide all payments in respect of Funding Obligations, provided that in some cases it may need to be adjusted more frequently than semi-annually, e.g., as part of a refinancing.]

(7) Commencement of Invoicing and Collection of Transition Charges – [NTD: Please confirm that as drafted, Transition Charges will begin on the Measurement Date.]

---

[6] Determine if this is critical for rating and markets. Logistics under consideration.

[7] Torys has also suggested that deemed conditions of licenses for distributors, retailers and unit sub-metering providers, could be included as conditions, to require them to collect and remit amounts in accordance with this legislation. Consider if it is helpful to integrate the existing regulatory scheme for invoicing and collections (regarding RPP) in the legislation.

Article 4 – Invoicing of Transition Charges [NTD: Move Article 4 sections (1) to (4) to Regulations. Also note, these sections remain subject to further due diligence by the Dealers.]

(1) **Inclusion of Transition Charges in Electricity Invoices** – Each Electricity Distributor and if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, specify the Transition Charge to be charged to a Regulated Consumer pursuant to Section 4(4) in respect of a related Reference Period in each Electricity Invoice issued by the Electricity Distributor or if applicable by the Alternative Servicer to the Regulated Consumer in respect of such Reference Period. Upon the inclusion of a Transition Charge in an Electricity Invoice, the obligation to pay such amount shall be binding on the applicable Regulated Consumer. **[NTD: Must capture bills issued to eligible consumers served by unit sub-metering providers, retailers and the IESO – not just distributors][NTD: This provision also needs to address the inclusion of Transition Charges in invoices from the IESO to the LDC, consistent with the current process of how the IESO bills LDCs.]**

(2) **Calculation of the Period Finance Charge** – Not later than [35] days prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services Manager on its behalf) shall provide the OEB with written notice of each Estimate of a Finance Amount payable by it or on its behalf in respect of the Reference Period. Not later than one month prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services Manager on its behalf) shall calculate the Period Finance Charge applicable to the Reference Period having regard to such amounts specified by the Servicer, which calculations, information and amounts shall be accepted by the OEB and shall be determinative, except to the extent of manifest calculation error or misstatement.

(3) **Calculation and Attribution of Transition Charges** – Not later than 25 days prior to the first day of a Reference Period, the OEB shall apply the Attribution Methodology to determine the allocation of the Transition Charge for each Regulated Consumer. **[NTD: We think the OEB would be determining the Fair Hydro recovery rate (on a volumetric basis) that distributors would then be required to charge to consumers]**

(4) **Notice of Transition Charges** – Not later than 20 days prior to the first day of a Reference Period, the OEB shall inform each Electricity Distributor and if applicable any Alternative Servicer of the Transition Charges to be specified in the Electricity Invoices to be issued to each Regulated Consumer who is served by the Electricity Distributor.

(5) **Adjustments** – The amount of any Transition Charge charged to a Regulated Consumer and specified as such in an Electricity Invoice shall be determinative of the amount of indebtedness created thereby and owing in respect of such Transition Charge, except to the extent of any manifest calculation error.

(6) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 4 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 4 to impose, attribute, charge, bill and invoice the Transition Charges.

(7) **IESO Successor** – Any IESO Successor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of IESO under Article 4 in the same manner and to the same extent as IESO, including the obligation to calculate and provide notice of Transition Charges.

(8) **Appointment of an Alternative Servicer** – If a Replacement Event occurs in respect of any Electricity Distributor, the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Servicer to perform some or all of the obligations and duties required to be undertaken by such Electricity Distributor under this Article 4, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Servicer shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor. Any Electricity Distributor that is replaced under this Section 4(8) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in the performance of such obligations and duties to the Alternative Servicer and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Servicer to perform such obligations and duties on behalf of the Regulatory Asset Owners. **[NTD: We would expect the IESO to manage this in accordance with its normal business practices.]**

(9) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, the Servicer, Alternative Servicer or any other person who may be authorized to issue Electricity Invoices to Regulated Consumers for a failure to impose, attribute, charge, bill or invoice Transition Charges or to otherwise comply with this Act. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure and may make any interim or final order it thinks fit in this regard. **[NTD: We would like to see the sections on "Standing" to bring an action to remain in the legislation (as opposed to being moved to the regulations as we believe we previously suggested) as we see those provisions as part of ensuring a rigorous enforcement scheme for the Financing Entity (and so something that should be difficult for the Province to change going forward).]**

(10) **No Set-Off or Reduction –** No Servicer or Electricity Distributor may set off or reduce (by counterclaim, defence or otherwise) the amount payable by it pursuant to this Article 4.

(11) **Regulations** – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Servicer to ensure that Transition Charges are properly charged to Regulated Consumers and specified as such in Electricity Invoices.

Article 5 – Collections and Remittances [NTD: Move Article 5 sections (3), (6), (9), (12), (13) and (14) to Regulations.]

(1) **Duty to Collect as Agent** – Electricity Distributors or if applicable any Alternative Collection Agent shall, as an agent of the Servicer, collect amounts owing by Regulated Consumers in respect of Transition Charges charged to such Regulated Consumers in

Electricity Invoices issued by the Electricity Distributor or if applicable such Alternative Collection Agent all in accordance with the Regulations. **[NTD: The obligation to collect and remit the Transition Charge should be included as a deemed condition of license for electricity distributors (and retailers and unit sub-metering providers).]**

(2) **Segregation of Transition Charge Collections** – An Electricity Distributor or if applicable any Alternative Collection Agent shall promptly segregate Transition Charge Collections from other payments received by it from Regulated Consumers and deposit such Transition Charge Collections into its Regulatory Asset Account.[8] **[NTD: Determine if this is critical for rating and markets or if segregation can occur in the hands of the IESO]** Prior to and following a deposit of Transition Charge Collections having been made into its Regulatory Asset Account, the Electricity Distributor or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners or its Pledgee.

(3) **Electricity Distributor Remittances** – On each applicable Remittance Date, an Electricity Distributor shall remit all amounts invoiced by the IESO on account of the Transition Charge in respect of the related Reference Period to or to the account of Servicer or if applicable the Alternative Collection Agent. **[NTD: It is the Dealers expectation that the Transition Charge will be paid on the same basis as other amounts invoiced by the IESO, failing which, they will need to be remitted daily.]**

(4) **Duty to Collect Electricity Distributor Remittances** – Servicer or if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, accept and collect Electricity Distributor Remittances from Electricity Distributors and Transition Charge Collections from Regulated Consumers that pay their Electricity Invoices directly to IESO on the same basis as it accepts and collects other charges from such Regulated Consumers.[9]

(5) **Segregation of Electricity Distributor Remittances** – Servicer and if applicable the Alternative Collection Agent shall promptly segregate Electricity Distributor Remittances from other payments received or held by it and deposit such Electricity Distributor Remittances into its Regulatory Asset Account. Prior to and following a deposit of Electricity Distributor Remittances having been made into its Regulatory Asset Account, Servicer or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners or Pledgee.

(6) **Servicer Remittances** – On each Settlement Date[10], Servicer shall remit all amounts on deposit in its Regulatory Asset Account to or to the account of the Absolute Assignees an amount equal to the Investment Remittance for the related month.

---

[8] Consider trying to attach to existing LDC credit enhancements and provide parallel coverage for customer losses.

[9] Consider building this obligation into a deemed condition of licence for the IESO.

[10] Consider frequency of remittances in light of rating requirements. US rating agencies favour daily remittances.

(7) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 5 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 5 to collect Transition Charges and make remittances of Electricity Distributor Remittances.

(8) **IESO Successors** – IESO Successors shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of IESO under Article 5 in the same manner and to the same extent as IESO, including the obligation to collect Transition Charge Collections, Electricity Distributor Remittances and to remit IESO Remittances.

(9) **Owners of Distribution Assets** - If any person other than an Electricity Distributor acquires distribution system assets in the Province or invoices or collects electricity distribution rates in the Province[11], then such person shall, if requested by the Absolute Assignees, be obligated to act diligently to (a) facilitate the invoicing and collection of any Transition Charges applicable to Regulated Consumers connected to such person's distribution system assets; (b) allocate partial payments by Regulated Consumers as provided in this Act; (c) exercise all enforcement rights of the Absolute Assignees for the benefit of an Absolute Assignee; and (d) remit any Transition Charge Collections to the Absolute Assignees or Pledgees, as applicable, each in accordance with its Investment Interest. **[NTD: Such acquisition of a distribution system would require the person to be an electricity distributor; consider deleting since this is covered off by Section 5(7).]**

(10) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, Servicer, the Alternative Collection Agent, any owner of electricity distribution system assets in the Province or any other person who may be authorized to collect electricity distribution and use charges from Regulated Consumers for a failure to collect Transition Charges, remit or collect Electricity Distributor Remittances or remit IESO Remittances, as and to the extent applicable under Article 5, or to otherwise comply with this Act. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure and may make any interim or final order it thinks fit in this regard.

(11) **Not Used. [NTD: The Servicer should manage this process.**]

(12) **No Set-off, etc.** - The Regulatory Asset, including rights in Transition Charges, Transition Charge Collections, and the interests of a Regulatory Asset Owner, an Absolute Assignee and a Pledgee therein, may not be setoff or reduced (including by counterclaim, surcharge or defense) by any Regulated Consumer, any Electricity Distributor, Servicer, Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or in connection with any default, bankruptcy, reorganization or other insolvency proceeding of any Electricity Distributor, Servicer,

[11] This is in anticipation of a possible future restructuring of the distribution system.

Alternative Collection Agent or any owner of distribution system assets in the Province, any affiliate or successor thereof or any other entity or otherwise.[12]

(13) **Sequestration** – If any Electricity Distributor, Servicer, the Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or entity authorized to collect Transition Charges, defaults on any required remittance of Transition Charge Collections, Electricity Distribution Remittances or IESO Remittances under Article 5, any court in the Province, upon application by and of the Absolute Assignees acting collectively under the Collective Action Agreement and without limiting any other remedies otherwise available to the Absolute Assignees or Pledgees, shall order the sequestration and payment of the Transition Charge Collections, Electricity Distribution Remittances and IESO Remittances, as applicable, for the benefit of the Absolute Assignees, each with respect to its Investment Interest, and the Pledgees as applicable.[13]

[NTD: Suggest considering a more typical remedy such as the ability to appoint a receiver. Concept should be moved to Regulations.]

(14) Regulations – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to Servicer, any Electricity Distributor or any Alternative Collection Agent to ensure that rights, interests, entitlements, benefits and proceeds in, to, under and from the Regulatory Asset are of fully realized by some or all of the Absolute Assignees and Pledgees.

Article 6 – The Regulatory Asset

[NTD: We believe that the statute should impose a time limit on the ability of IESO to create additional Regulatory Assets under this Act. It is our expectation that this will be no later than 10 years after the commencement of the program.]

[NTD: In addition, additional language is required to address the acquisition of the Regulatory Asset by the Financing Entity, including reference to the consideration being provided for it, funding upfront costs.]

[NTD: The sale of Regulatory Assets must be restricted to Financing Entities controlled by a single entity (initially, OPG).]

[NTD: For greater certainty, a Financing Entity will not be required to purchase Regulatory Assets from IESO.]

---

[12] Consider whether it makes sense to create a "deemed collection" payment obligation on Electricity Distributors to the extent a Regulated Consumer reduces its payment of Transition Charges, despite this language. Same for Electricity Distributor Remittances and IESO Remittances.

[13] Consider adding or substituting this provision for a right to appoint a receiver.

(1) **Composition** – The Regulatory Asset shall constitute a current and irrevocable property right and interest consisting, collectively, of the following rights and interests (without duplication):

a. the right of a Regulatory Asset Owner to record its portion of the Regulatory Asset in its accounts;

b. the right to impose, bill, invoice, collect and receive Transition Charges from Regulated Consumers, including the right to determine the amount of Transition Charges in accordance with this Act;

c. the right to enforce the obligations and indebtedness of each Regulated Consumer to pay the Transition Charges charged to the Regulated Consumer from time to time in accordance with Article 3, together with all related late payment fees or interest charges arising in respect thereof under the related Electricity Invoices; **[NTD: Do we really want and need the ability for the Financing Entities to chase after individual consumers?] [NTD: This should be the right to provide notices to the OEB of the amounts required for recovery, which the OEB would then be required to accept for purposes of determining the amount of Transition Charges to be charged to consumers]**

d. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Servicer to impose, attribute, charge, bill and invoice the Transition Charges in accordance with Article 4;

e. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Collection Agent to collect, receive and remit amounts received by it in respect of Transition Charges as Electricity Distributor Remittances to or to the account of Servicer or if applicable the Alternative Collection Agent in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5;

f. the right to enforce the duties and obligations of Servicer and if applicable the Alternative Collection Agent to collect and receive Electricity Distributor Remittances and to remit IESO Remittances to or to the accounts of the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset, in each case in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by it to recover payment of Electricity Distributor Remittances in accordance with Article 5;

g. the right to receive and collect all Transition Charge Collections, all Electricity Distributor Remittances and all IESO Remittances in accordance with Article 5;

h. all rights and entitlements under each Regulatory Asset Account and all amounts on deposit in any such Regulatory Asset Account;

i. all Related Rights; and

j. all revenue, collections, claims, payments, money and proceeds of or derived from the rights described in (a) through (i), regardless of whether such revenue, collections, claims, payments and proceeds are imposed, invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

A Regulatory Asset and the property rights and interests therein shall exist whether or not Transition Charges have been imposed, charged, invoiced, accrued or collected and notwithstanding that the imposition, attribution, invoicing and collection of Transition Charges will depend on further actions that may not have occurred. The Regulatory Asset shall continue to exist until all Funding Obligations and Additional Funding Charges have been paid in full.

(2) **Validity of Dispositions** – A Disposition by IESO of all or any part of the IESO Funding Shortfall to an Absolute Assignee, or a Disposition of all or any part of an Investment Interest by one Absolute Assignee to another Absolute Assignee made under the Financing Plan, shall be permitted and when made shall be valid and enforceable in accordance with the terms of the related Disposition Document and shall be effective to confer upon the Absolute Assignee thereof a valid property right and interest in, to and under the IESO Funding Shortfall or Investment Interest, as applicable (or relevant portion thereof) in accordance with the terms of such Disposition, provided that the parties to the applicable Disposition Document have expressly stated therein that such Disposition is a sale or other absolute transfer. Without limiting the foregoing, any Disposition that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as a true sale and absolute transfer of the IESO Funding Shortfall or an Absolute Assignee's right, title and interest in, to and under an Investment Interest, as applicable (or relevant portion thereof), and not merely as a Pledge thereof, and upon such Disposition the assigner or seller under the applicable Disposition Document shall retain no right, title or interest in the IESO Funding Shortfall or Investment Interest (or relevant portion thereof) subject to the Disposition, including all rights under the IESO Funding Shortfall or Investment Interest arising after such Disposition. **[NTD: Subject to review by Osler/dealers.]**

(3) **Perfection and Priority of Dispositions** – Any Disposition of an interest in a Regulatory Asset shall be vested, valid, binding and perfected from the time when such Disposition is made. Such Disposition shall be perfected, vested, valid and binding as against the IESO or transferring Regulatory Asset Owner, as applicable, and all other persons who have claims of any kind (whether in tort, contract or otherwise) against IESO or the transferring Regulatory Asset Owner, as the case may be, irrespective of whether such persons have notice of the Disposition and the property rights and interests acquired by the Absolute Assignee under such Disposition shall be free and clear of any liens in favour of such other persons.

(4) **Validity of Pledges** – A Pledge by an Absolute Assignee may be made to secure any Funding Obligation and when made shall be valid and enforceable in accordance with its terms and shall be effective to confer upon the Pledgee a valid security interest in, to and in respect of the related Investment Interest in accordance with the terms of the

Pledge. No consent of, or notice to, any person shall be required to give effect to a Pledge made to secure any Funding Obligation.

(5) **Perfection and Priority of Pledges** - For purposes of the *Personal Property Security Act* (the "PPSA"), the Regulatory Asset shall be intangible personal property and any Pledge made by an Absolute Assignee in respect of a Funding Obligation shall, subject to the terms thereof, give rise to a security interest of which the PPSA applies, and may be perfected by filing a financing statement under the PPSA on that basis. All proceeds of a related Investment Interest that are subject to such a Pledge that are received by the Absolute Assignee shall immediately be subject to the such Pledge, and the security interest in such proceeds shall be perfected pursuant to the PPSA.[14] A Pledge perfected under the PPSA shall be a continuously perfected security interest and shall have priority over any other lien or security interest, created by operation of law or otherwise, that may attach to the property rights and interests in the Investment Interest subject to the Pledge unless the Pledgee has otherwise agreed in writing. A Pledgee shall have a perfected security interest in a related Investment Interest, including the Absolute Assignee's rights and interests in and to Transition Charge Collections or other related proceeds in respect of the Investment Interest and that are deposited in any Regulatory Asset Account or other account of any Electricity Distributor, IESO, Alternative Collection Agent or other person who may have commingled such Transition Charge Collections or such other proceeds with other funds. All provisions of the PPSA shall apply to the Regulatory Asset on the basis that it is intangible personal property, except to the extent otherwise provided in this Section 6(5).

(6) **Enforcement of Property Rights** – The rights of any Regulatory Asset Owner to collect and enforce its rights and interests in, to or in respect of the Regulatory Asset shall be exercised in the manner set forth in Article 5.

(7) **Owners of a Specified Portion of the Regulatory Asset** – A Regulatory Asset Owner may effect a Disposition to an Absolute Assignee of a specified portion of its rights and interests in the Regulatory Asset, including by way of a Disposition of a divided or an undivided interest therein as specified in a related Disposition Document. In no circumstance may the specified portions of the rights and interests in the Regulatory Asset owned by all Regulatory Asset Owners be greater than all of the rights and interests that comprise the Regulatory Asset in the aggregate.

(8) **Collective Action Required** – If a Regulatory Asset Owner's rights and interests in the Regulatory Asset comprises less than the entire property right and interest constituted by the Regulatory Asset, such Regulatory Asset Owner shall only enforce such right and interest on a collective and coordinated basis with each other Regulatory Asset Owner in accordance with the Collective Rights Agreement. **[NTD: Move to Regulations.]**

[14] Consider whether to simply leave this and have a financing statement be filed under the PPSA. This would normalize the security interest and reduce any adverse suggestion that security would not otherwise arise.

Article 7 – Establishment of the Fair Allocation Plan[15] [NTD: Move entire Article 7 to Regulations, other than 7(1) and 7(2).]

(1) **Adoption of the Fair Allocation Plan** – The Delegate may, by written declaration, designate and adopt a Fair Allocation Plan in compliance with Article 7. The Fair Allocation Plan so designated and adopted shall be the Fair Allocation Plan for all purposes of this Act, except if amended, amended and restated or terminated by a further written declaration made by the Delegate in compliance with **[the Regulations]**

(2) **Principles and Parameters** – A Fair Allocation Plan shall seek to allocate Future Fair Share of Green Transition Benefits across present and future Regulated Consumers on a basis that the Delegate, in its sole and absolute discretion, determines to be equitable, having regard to the following principles and parameters:

[NTD: E&Y will need to see the guidelines of the Fair Allocation Plan set in reference to parameters that will allow it to establish a modeling curve]

- [**Inflation period**: (between November 2017 – and April 2022) bill increases need to be capped at inflation (assumed at 2% for modeling purposes)]

- [**Transition Period**: (May 2022- April 2027) bills increased at a consistent rate which is set so that the borrowing will not exceed the Trust's capacity, which is determined by the Finance Service Manager]

- [**Amortization Period**: (May 2027-April 2047) equitable distribution of Finance Amount among Regulated Consumers]

1. Future Fair Share of Green Transition Benefits should be allocated over the period ending on the Program End Date.

2. The share of Future Fair Share of Green Transition Benefits allocable to a particular Regulated Consumer in respect of a Reference Period should be proportionate to a reasonable assessment of the benefits of the Green Generation Initiative to such Regulated Consumer over such Reference Period, other than in exceptional circumstances.

3. The Fair Allocation Plan should specify the Reference Periods for the purpose of allocating Future Fair Share of Green Transition Benefits among Regulated Consumers on a relative basis over time.

---

15 The idea is that the Fair Allocation Plan will be set once at the outset based on the principles and parameters described here, all as applied based on information available and the reasonable expectations and discretion of the delegate at such time. If the expectations are not fulfilled (e.g., generators may choose to retire their facilities at the end of their current procurement contracts and not invest in extending service lives to secure further procurement contracts), the Fair Allocation Plan will be unaffected, unless it is specifically amended (assuming amendments will be permitted by the legislation).

(3) **Attribution Methodology** – The Fair Allocation Plan shall specify the Attribution Methodology for the purposes of allocating the Period Finance Charges across the Regulated Consumers. The Attribution Methodology shall result in an attribution of such Transition Charges that is considered by the Delegate to be equitable, and may have regard to such principles and parameters as may be further set forth in a Regulation; provided that the Attribution Methodology shall not be used to limit the recovery of Transition Charges. **[NTD: Can the methodology be adjusted outside an amendment? If so, the rating agencies need to understand the limits of any adjustment.]**

(4) **Amendments of the Fair Allocation Plan** – The Fair Allocation Plan may be amended, amended and restated or terminated by the Delegate, provided that such amendment, amendment and restatement or termination shall (a) not be inconsistent with the principles and parameters set forth in (2) or (3), above, or the Regulation, (b) comply with any restrictions or limitations specified with respect thereto in any Funding Obligation, and (c) not impair any Regulatory Asset, outstanding Funding Obligation or any Transition Charges. **[NTD: If the Fair Allocation Plan is amended, there should be no further Regulatory Assets until the revised Fair Allocation Plan and corresponding Financing Plan have been approved.]**

Article 8 – The IESO Funding Shortfall

(1) **Recording of IESO Funding Shortfall** -- IESO will record any IESO Funding Shortfall in its books.

(2) **Dispositions** – IESO may effect a Disposition of all or any part of the IESO Funding Shortfall to an Absolute Assignee if (a) the Disposition is effected pursuant to a Disposition Agreement duly executed by IESO; and (b) the Financial Services Manager confirms in writing that the Disposition complies with any restrictions or limitations specified with respect thereto in any documents evidencing the Funding Obligations and is permitted under the Financing Plan.

(3) **No Continuing Interest in any Investment Interest** – IESO shall have no continuing right or interest in any IESO Funding Shortfall subject to a Disposition effected by IESO under a Disposition Document to which IESO is a party.

Article 9 – The Financing Plan [NTD: Move all of Article 9 to Regulations other than 9(1).]

(1) **Power to Prepare, Implement and Amend the Financing Plan** – The Financial Services Manager shall be authorized to prepare, implement and amend a financing plan for the Financing Entities and propose the adoption of such financing plan as the Financing Plan for the purposes of this Act. The Financial Services Manager shall have the right to withdraw its financing plan as the Financing Plan at any time if it determines that implementing the Financing Plan in such manner would not be in the best interests of a Financing Entity.

(2) Principles and Parameters of the Financing Plan – The Financing Plan shall establish the basis for each Absolute Assignee's funding decisions having regard to the principles and parameters set forth in Schedule 3.

(3) OEB Approval – Any Additional Funding Charge payable to the Financial Services Manager in respect of services provided by the Financial Services Manager (other than third party costs) shall be subject to review and approval by the OEB.

(4) Review of Financing Plan – The [OEB] shall undertake an annual review of the records maintained by the Financial Services Manager for the purpose of confirming that the Funding Obligations incurred and the Finance Amounts paid by or on behalf of the Absolute Assignees were incurred and paid, respectively, in material conformity with the Financing Plan. **[NTD: We would prefer that this be dealt with by an attestation prepared by an officer of the Financial Services Manager.]**

(5) Replacement of the Financial Services Manager – If the OEB identifies deficiencies or makes recommendations in its review under Section 9(4), the Financial Services Manager shall take reasonable measures to remedy such deficiencies if remediable, and shall in any event have regard to the recommendations of the OEB in relation to further actions undertaken by the Financial Services Manager under the Financing Plan. If the Financial Services Manager is unwilling or unable to reflect such recommendations in relation to such further actions, the Delegate may by written declaration designate one or more other persons who shall thereafter become the Financial Services Manager. Any replacement must comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations.

(6) Obligation to Apply IESO Remittances – The Financial Services Manager shall ensure that amounts transferred to it under Article 5, as agent for and on behalf of the Absolute Assignees, or otherwise in respect of or as proceeds from an applicable Investment Interest shall only be applied or used to pay related Finance Amounts when they are due and payable and for no other purpose. **[NTD: This can be dealt with by contract.]**

(7) Non-Recourse – The Financing Plan shall be implemented so that Funding Obligations incurred shall be without recourse to or to any assets of the Electricity Distributors, IESO, any Alternative Servicer, any Alternative Collection Agent, the Financial Services Manager, the OEB or Her Majesty in right of Ontario, other than if and to the extent that such persons or entities are liable for the performance of obligations or duties arising under this Act or expressly agree to become liable pursuant to any Funding Obligation or obligation in relation to a Finance Amount.

(8) Incurrences are Binding – Each Disposition made to or by an Absolute Assignee, all amounts payable or becoming due and payable by or on behalf of an Absolute Assignee under or in connection with any obligation purporting to be a Funding Obligation and each Pledge entered into by an Absolute Assignee, shall be valid and binding, including in determining the amount of related Transition Charges, notwithstanding any defect in the manner in incurrence or any inconsistency with the Fair Allocation Plan or the Financing Plan.

[Article 10 – Compliance Matters[16]

(1) Right of the [OEB] to Inspect Books and Records - For the purpose of investigating compliance with the provisions of this Act, the OEB shall have the right, jurisdiction, power and authority to examine the books and records of *[Insert names if any]*.

(2) [OPG's Rate Settings – When setting other rates for or in respect of OPG, the OEB shall not take into account (a) the administrative or servicing fees charged by OPG as Financial Services Manager [in excess of the actual incremental costs incurred by such person of providing administrative or servicing services]; (b) the cost consequences to OPG of being the Financial Services Manager; or (c) the consequence of OPG consolidating the assets and liabilities of any Financing Entity for OPG's accounting purposes, in each case in setting any regulated payment amounts for OPG.][17]

Article 11 – Undertaking of the Her Majesty in right of Ontario[18]

(1) No Action to limit, alter, or impair or terminate Transition Charges, the Regulatory Asset or Collections – Her Majesty in right of Ontario shall not in any way take or permit (including by any agency or administrative body) any action to reduce, impair, postpone or terminate the obligation of Regulated Consumers to pay Transition Charges or to impair the Regulatory Asset or the collection or recovery of Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances, either directly or indirectly, including through the introduction of any bill or the passing of any legislation or regulation having such effect. The amount of Transition Charges determined under this Act shall not be subject in any way to reduction, impairment, postponement or termination as a result of any action taken or failure by Her Majesty in right of Ontario (including by any agency or administrative body), including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(2) Undertaking and Agreement – Her Majesty in right of Ontario shall not:

---

[16] As noted above, the outcome of any regulatory action undertaken by the OEB will not affect Funding Obligations that have been incurred under the Financing Plan. This Article and any potential role for the Auditor General is still under consideration.

[17] As an alternative to this provision, consider clarifying under s. 78.1(4) of the OEB Act (which currently gives the OEB discretion in setting payment amounts subject to O. Reg. 53/05) that the OEB in setting OPG payment amounts for prescribed generation shall not consider OPG's role as Financial Services Manager of any Financing Entities associated with the Fair Hydro initiative, perhaps with the exception of any operating fees that may be received by OPG for performing that role.

[18] Under consideration, including the dealers' request for a "servicer guarantee" and a "contractual guarantee" to address a "Change of Law" or if all or a portion of the legislation is *ultra vires*, requiring (at the lenders option), the Province to pay principal and interest on the outstanding debt until maturity or payout the entire debt including any make-wholes.

In the event of a market disruption that renders it impossible to refinance debt when required (or where financing of amounts required to service the debt is not available because of a market disruption where the Financing Entity was relying on such further issuance of debt until the recovery is set to begin to fund interest), either the Province must step in and payout the debt or there must be the right to recover the debt from ratepayers as it becomes due, notwithstanding the intended rate cut.

(a) in any way take or permit any action that limits, alters or impairs the value of any Investment Interest;

(b) except as required by the estimates and adjustments made in determining the True-up Amount, reduce, alter or impair Transition Charges that are imposed, billed, invoiced, collected and remitted for the benefit of the Absolute Assignees or any Pledgee from time to time;

(c) permit the amendment, amendment and restatement or termination of the Fair Allocation Plan if such amendment, amendment and restatement or termination would adversely affect the validity or enforceability of any Funding Obligation or the rights of an Absolute Assignee or Pledgee thereunder, or would not otherwise comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations,

in each case including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(3) **Successor IESO** – If IESO is restructured, dissolved or becomes insolvent or is otherwise incapable of performing its obligations under this Act, an IESO Successor shall immediately be established by Her Majesty in right of Ontario to perform such obligations.

(4) **Compensation for Failure** – Absolute Assignees shall be compensated by Her Majesty in right of Ontario for any losses suffered by them as a result of any failure by Her Majesty in right of Ontario to comply with its undertakings and agreements in this Article 11.[19]

(5) **No Wind-up of Financing Entity**. No Financing Entity may be voluntarily wound up, liquidated or dissolved until one year after all of its Funding Obligations are repaid. **[NTD: This concept can be contained in the Regulations.]**

(6) **References to the Undertaking and Agreement** – Any non-confidential reference to the Undertaking of the Her Majesty in right of Ontario, including in marketing materials and other documentation authorized for use by the Administrative in connection with any Funding Obligation, may be made provided that [*Add conditions to protect the Province*].

Article 12 – Regulations

Regulations may be made under this Act for the purposes described in Sections •,•,• and • and may be promulgated for any of the following purposes:

(a) to set standards and measures regarding the commercially reasonable requirements of the Province associated with an Absolute Assignee incurring Funding Obligations or becoming obligated to pay any Finance Amount, including to establish guidelines regarding all-in funding costs; permitted Additional

Funding Charges; required maturities and redemption and termination rights of Funding Obligations; liquidity requirements, in each case to a Financing Plan that is consistent in its effect with the Fair Allocation Plan;

(b) to establish and empower one or more regulated entities to undertake decision-making activities with respect to this Act;

(c) to set out reasonable requirements regarding the appointment or retention of advisors, agents, service providers, contract counterparties, including in relation to 'market terms and conditions' parameters;

(d) to provide for audit and compliance standards applicable to those persons who are or may become obligated or have duties that arise under this Act [or under any Funding Obligation];

(e) to provide for any pre-vetting and approval requirements in relation to any incurrence by an Absolute Assignee of any Funding Obligation or obligation to pay any Finance Amount; and

(f) to provide for appeal and due process considerations in connection with the establishment, adoption, implementation and review of the Fair Allocation Plan or the Financing Plan.

Article 13- Miscellaneous[20]

(1) **Choice of law** – The law governing, as applicable, the validity, enforceability, attachment, perfection, priority and exercise of remedies with respect to the transfer of an interest or right or creation of a security interest in the Regulatory Asset, any Transition Charge or the Undertaking of the Province shall be the laws of the Province.

(2) **Conflict of law** – In the event of conflict between this Act and any other law of the Province regarding the attachment, assignment or perfection, or the effect of perfection, or priority of any Disposition or Pledge, this Act shall govern to the extent of the conflict.

(3) **No further acts or approvals required** - Notwithstanding any provisions of any law of the Province to the contrary, no approvals, notices or authorizations other than those specified in this Act shall be required with respect to the actions to be taken in compliance with this Act, including under the Financing Plan or in relation to the establishment of the Fair Allocation Plan, and the transactions and contracts authorized in or contemplated by this Act or the Financing Plan, including the incurrence of any Funding Obligation, any Disposition, any Pledge or in the payment and performance of any attendant or incidental contract and any related expenses incurred to facilitate the preparation and implementation of the Financing Plan.

[20] OPG would like the specific amendments related to OPG to be included in the Bill.]

(4) **Effect of invalidity after the Incurrence of any Funding Obligation** - Effective on the date that a Funding Obligation is incurred under this Act, if any provision of this Act is held to be invalid or is invalidated, superseded, replaced, repealed or expires for any reason, that occurrence shall not affect any action allowed under this Act that is taken by any person who is or may become obligated or have duties that arise under this Act and any such action shall remain in full force and effect.

(5) **Severability** - If any Article, Section, paragraph or subparagraph of this Act or the application thereof to any person, circumstance or transaction is held by a court of competent jurisdiction to be unconstitutional or invalid, the unconstitutionality or invalidity shall not affect the constitutionality or validity of any other Article, Section, paragraph or subparagraph of this act or its application or validity to any person, circumstance or transaction, including the irrevocability of Transition Charges, the validity of the Regulatory Asset, the incurrence of any Funding Obligation, any Disposition, any Pledge, or the collection and recovery of Transition Charge Collections. To these ends, the Legislature hereby declares that the provisions of this Act are intended to be severable and that the Legislature would have enacted this Act even if any Article, Section, paragraph or subparagraph of this Act held to be unconstitutional or invalid had not been included in this Act.

[To be considered.]

Schedule 2

Requirements Applicable to Alternative Invoicing Agent/ Alternative Collection Agent

[To be considered.]

Schedule 3

Principles and Parameters for Establishing the Financing Plan

The following principles and parameters provide a guideline as to what a Financing Plan should address:

(1) consider quantities, maturities, payment obligations, prepayment or redemption rights and such other features of Funding Obligations so that payments made for a Reference Period reasonably correspond to the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

(2) if the anticipated amount of any Repayment (together with payments of other Finance Amounts) to be made in respect of a Reference Period would materially exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable Regulated Consumers under the then current Fair Allocation Plan, diligent efforts should be made to determine whether a Refinancing or deferral of such Repayment may be reasonably and cost-effectively effected based on then prevailing market terms, conditions an circumstances;

(3) reflect the assumptions and requirements specified in any contemplated Funding Obligation (e.g., any limit on the maximum amount of Transition Charges charged to a hypothetical Regulated Consumer relative to his or her monthly electricity bill, as prescribed by any rating agency that ascribes its credit rating to or in respect of the Funding Obligation **[having regard to the application of the Attribution Methodology][NTD: Are the words in square brackets necessary?]**);

(4) require the Financial Services Manager, for and on behalf of each Regulatory Asset Owner, to use diligent efforts to manage Finance Amounts to be borne by Ratepayers;

(5) include a proposal regarding the compensation of the Financial Services Manager that reflects market terms and conditions; and

(6) require that the Financial Services Manager report annually to the Ministry of Energy on the operation of the Financing Plan including, in particular, with respect to the amount and terms of the Funding Obligations incurred and the sufficiency of such Funding Obligations for the purpose of funding the estimated Funding Shortfalls in accordance with the Fair Allocation Plan.

Hi Michel.

Further to our recent discussion, I was hoping you could confirm the expected accounting impact on the Province's books if OPG's results were to be reported on an IFRS (IFRS14) basis. In particular, I have received the following response from OPG regarding the impact of ARO related differences. Perhaps I am taking too simplistic approach, but I would have thought that certain accounting differences between USGAAP and IFRS would be 'cushioned' by the fact that OPG would still expect to be able to recover the costs under a USGAAP basis.

I am currently out of the office, but perhaps we can set up a short call for early next week to discuss?

Thanks in advance.

Nadine

Can you provide clarification regarding OPG's ability to continue rate regulated asset treatment for non-discount rate changes in the year of an ONFA update? You mentioned that IFRS is more rigid in its application of rate regulated accounting, but I would have thought that as long as the types of costs are recoverable under US GAAP (regardless of timing), that they would continue to be reflected on OPG's balance sheet.

By way of recap, the two categories of ARO-related differences for OPG between IFRS and US GAAP are 1) discount rates, and 2) treatment of certain lifecycle costs capitalized under US GAAP that are either expensed in the same period or recognized at a later date under IFRS.

In applying IFRS 14 as part of the IFRS analysis for Provincial consolidation purposes, OPG can include regulatory assets and liabilities only to the extent that: 1) there are differences between IFRS accounting and US GAAP-based cost recovery methodology authorized by the OEB, and 2) these differences are recoverable from ratepayers. Because the costs of the Bruce facilities are determined by the OEB under US GAAP, it is generally expected that the full amount of IFRS-US GAAP accounting differences for ARO related to these stations would be captured by a regulatory balance. However, this

is not the case for some differences related to the Pickering and Darlington facilities because the OEB recovery methodology for these stations does not include an accounting accretion expense component for the time value of money.

Non-discount rate changes can include changes in economic assumptions (e.g., escalation rates), operating assumptions, timing of cash flows, used fuel or waste volumes, and the like. All of these are revaluated in a comprehensive manner in conjunction with each ONFA reference plan update. It has also been OPG's practice under US GAAP (and IFRS) to adjust the accounting ARO for certain non-discount rate changes if they occur between ONFA reference plan updates, provided the change is known, material and identifiable. An example of this would be the anticipated change to the accounting service lives of the Bruce B units following announcement of a contract for their refurbishment. As noted in response to Question 2, in and of itself, making a change between ONFA reference plan updates for a factor such as station end-of-life dates is not expected to trigger a change to OPG's IFRS discount rate established at the time of the most recent ONFA reference plan update.

Whether part of a comprehensive revaluation in conjunction with the ONFA reference plan update or not, where non-discount rate changes impact ARO lifecycle costs that are accounted for differently under IFRS and US GAAP, the full value of the differences for Pickering and Darlington is not expected to be offset by a regulatory balance. The regulatory balance recognized for these stations would be the US GAAP value expected to be recovered from, or repaid to ratepayers in the future.

For example, under IFRS, a change in certain lifecycle costs associated with previously generated nuclear waste or fuel would be expensed in full in the current period, whereas these costs would be capitalized by OPG under US GAAP. The IFRS expense would be measured using the IFRS discount rate; the US GAAP capitalized costs would be calculated using the US GAAP discount rate. Given that the accounting accretion expense for Pickering and Darlington is not recoverable under the OEB methodology, the IFRS regulatory balance would be recorded based on the US GAAP recoverable amount (i.e. the amount capitalized under US GAAP). This means that the portion of IFRS expense equal to the difference between IFRS and US GAAP amounts due to different discount rates would not be offset by a regulatory balance, resulting in income statement volatility under IFRS.

All,
This afternoon's meeting focused primarily on the regs related to the social programs, although we did briefly walk through the Part II reg on the FHP that was circulated for review. There aren't any accounting related issues with the social programs that would warrant your review of those regs at this time.
The ministry advised that a General reg for the FHP would be forthcoming and that there is an IESO borrowing reg (very short) as well (but it doesn't sound like it would raise any acctg issues).
If we receive additional info, we'll pass it along.
Thanks.
Nadine

Hi Kim – just thinking about one of the questions from the session earlier today – prior to the Fair Hydro Act, what rate did the OFA lend to the IESO re: the financing used by the IESO to bridge the difference between payments made to the generators and payments received from the LDCs (e.g. the variance account that had to be settled within 12 months). – Was it at market or the provincial cost of borrowing, or something in between?

Introduction

Ontario's consolidated financial reports are prepared in accordance with the accounting principles for governments recommended by the Public Sector Accounting Board (PSAB) of the Chartered Professional Accountants of Canada (CPA Canada). In order to meet the needs of users, including the legislature and the public, for accountability in government reporting and decision making, it is essential that public sector financial statements reflect the economic substance of the government's activities.

In assessing the appropriate accounting treatment for the Fair Hydro Plan, as it relates to the Global Adjustment Refinancing (GA Refinancing) on the Province's consolidated financial ~~reports~~statements, the Office of the Provincial Controller considered the authoritative guidance issued by PSAB, as well as the accounting assessments of IESO and OPG management, including the accounting opinions of their external accounting advisors. Given the complexity of the ~~FHP model~~GA Refinancing structure, the exercise of professional judgement is necessary to ensure that key financial reporting objectives of transparency and accountability are best served. ~~At this time, accounting standards, both domestically and internationally, continue to evolve.~~ This accounting analysis considers currently available information, including efforts underway by the International Accounting Standards Board as related to rate regulated accounting. It also draws upon publicly available information including previous studies and bases for conclusions dealing with rate-regulated accounting, both in the public sector and the private sector.

Background:

In March 2017, the Government of Ontario (the Province) announced its Fair Hydro Plan (FHP). The FHP will reduce electricity bills for Regulated Price Plan (RPP) customers ~~(*as well as*including consumers who receive the 8% rebate as specified in the Ontario Rebate for Electricity Act, 2016)~~ by approximately 25% for a period of one year, starting in the summer of 2017, and limit the increase in electricity bills to the rate of inflation over the following four years.

The measures that make up the 25% average reduction include:

1. Spreading the cost of Ontario's clean energy ~~electricity~~ investments over the expected lifecycle of the generation infrastructure assets. This is expected to account for 15-17% of the overall reduction.
2. Shifting the cost of the Ontario Electricity Support Program (OESP) and Rural or Remote Rate Protection (RRRP) program from ratepayers to ~~provincial revenues~~taxpayer-funded programs.
3. An 8% rebate equal to the provincial portion of the HST, which took effect on January 1, 2017.

Under the first measure, the Province will borrow funds to pay a portion of current Global Adjustment related costs which are included in electricity costs, thereby temporarily reducing the amount paid by eligible ratepayers. The deferred amounts will be recoverable through future rates~~,~~ ~~Province will recover the borrowed funds,~~ including interest and other costs~~,~~ from ratepayers over an estimated 18-year period starting in approximately 2028. In other words, the impact of the #1 above is fully borne by the ratepayers – it is a shift in the timing of payment for the clean energy investments, while the impacts of #2 and #3 are reducing the cost to the ratepayer, but at the cost of the taxpayer.

Objective

The objective of this memo is to assess the impact of the first measure of the FHP (~~ie~~ i.e. ~~Deferred~~deferred recovery of clean energy costs) on the consolidated financial statements of the Province. **[NTD – Consider if document should discuss #2 and #3. This would contrast the different treatment by the Province]**

Background

The Ontario Energy Board (OEB) has been established by the Province to be Ontario's independent energy regulator.

In accordance with Section 78(3.1) of the Ontario Energy Board Act, 1998 (the OEB Act), the OEB is responsible for determining electricity commodity prices for RPP consumers. Section 78(3.3) of the OEB Act requires the OEB to forecast the cost of electricity used by RPP consumers and ensure the prices they are charged reflect that cost. The forecasting process is highly complex and involves numerous estimates. As a result, the OEB regulatory framework allows for variances ~~differences arise~~ between the actual cost of supplying electricity and the amount collected from RPP consumers.

In setting the rates for RPP consumers, Section 78(3.3) of the OEB Act requires the OEB to ~~clear~~ allow for recovery of any such differences through rates over a 12-month period. This is achieved through a price adjustment charged or credited to RPP consumers. This adjustment forms part of the Global Adjustment paid by consumers.

The Independent Electricity System Operator (IESO) is the administrator of Ontario's wholesale electricity market. The IESO settles the market with all participants, both buyers and sellers, ~~but it does not buy or sell electricity itself~~as an agent.

Under existing legislation, ~~It is~~ the IESO ~~that experiences and, therefore,~~ is required to fund~~,~~ any cash shortfall relating to differences arising between the actual cost of supplying electricity and the amount collected from RPP consumers. In accordance with Section 25.33(5) of the Electricity Act, 1998 (the Electricity Act), the IESO ~~is required to~~has established and maintains a variance account to track these temporary differences (the original variance account) for subsequent recovery from ratepayers. Cash shortfalls in the IESO arising from the original variance account are funded through financing provided by the OFA~~by XXX~~.

As described below, once the FHP is implemented, the timing associated with recovery of IESO costs to purchase generation which is supplied ~~cost of supplying electricity~~ to RPP consumers will no longer be fully collected over a 12-month period, but over the longer period defined by legislation.

As part of its role as market administrator, the IESO calculates the market price for electricity (the Market Clearing Price, or MCP) by running the bids and offers of the market participants through an algorithm. The actual cost of supplying (clean energy) electricity, however, is generally greater than the MCP. From a government policy perspective, it is understood that d~~D~~ecisions of what is in the public interest ~~-~~regarding electricity generation in Ontario are not based solely on economics, but rather they are also influenced by environmental, social and political factors. ~~as well.~~ When the costs associated with generation of ~~a~~ clean energy ~~generator invests in~~are ~~a~~relatively~~are~~ relatively less economic, ~~facility, the~~ excess costs (including a reasonable rate of return thereon) are ~~currently being~~ recovered from

Commented [NPP4]: Is the counterparty to the energy contracts

Commented [CV5]: To confirm if it is ever less – its theoretically possible, but I'm not sure it has ever happened.

consumers and paid to generators ~~over a the twenty year contract period (e.g. 20 years).~~based on the terms of the contract with the generator (e.g. 20 years).

Under the FHP, while generators would continue to be paid over ~~a twenty year~~the period as contracted, ~~but~~ the amounts paid by the IESO to the generators would be ~~are~~ recovered from ~~the consumers~~ratepayers over a longer thirty year period. Deferring the recovery of these costs from the consumers on a longer-term basis would ~~creates~~create a ~~significant~~ significant interim cash shortfall ~~in~~ for the IESO.

Similar to the existing variance account which tracks the variance between price paid and recovered for the clean energy generation purchased by the IESO, Section 24(1) of the Ontario Fair Hydro Plan Act (the FHP Act) requires the IESO to establish and maintain a separate variance account to track the cash shortfall specifically resulting from the implementation of the FHP (the FHP variance account). Due to the longer recovery period, and additional recoverable financing and management fee costs, the balance in the account is forecast to increase significantly. The balance in this variance account is defined in Section 1(1) of the FHP Act to be a regulatory asset[1]. The IESO is entitled under Section 25 of the FHP Act to recover the regulatory asset from RPP consumers in the future, which will be achieved through the OEB setting rates to allow for such recovery. Section 26 of the FHP Act also permits the IESO to transfer or sell the regulatory asset to a financing entity to fund its cash shortfall, thus commoditizing the future cash flow stream. ~~.~~

~~-~~The Province has requested that OPG administer the GA~~C~~ deferral, because of OPG's participation in the market, regulatory knowledge and the potential ability to consolidate the activity and accounting with OPG. To fulfill this role, OPG intends to establish a financing entity (OPG Trust) to purchase the IESO's regulatory asset on a monthly basis, ~~thus helping to and~~to eliminate any cash shortfall in the IESO. Through this arrangement, OPG Trust will finance these purchases through a combination of provincial borrowing (flowed through OPG as an equity investment), amounts advanced from OPG and direct borrowing from capital markets.

Basis of Accounting

In accordance with PSAS 1300.07, the government reporting entity (GRE) for the Province comprises government components and those organizations that are controlled by the government.

As defined in the Introduction to PSAS, the following types of organizations are controlled by the government: (a) government business enterprises (GBE), government non-for profit organizations (GNPO), and other government organizations (OGO).

GNPOs and OGOs are considered government units and, in accordance with PSAS 1300.27, are consolidated in the GRE on a line-by-line basis. For consolidation purposes, the financial information of government units is required to be prepared in accordance with PSAS.

GBEs, on the other hand, are accounted for in the GRE using the modified equity method as prescribed by PSAS 1300.35. Under the modified equity method, which is described in detail in PSAS 3070, INVESTMENTS IN GOVERNMENT BUSINESS ENTERPRISES, the equity method of accounting is modified

[1] To avoid confusion in the remainder of this document, the term regulatory asset will refer to the defined term in the FHP Act and the term regulated asset or rate-regulated asset (RRA) will refer to an asset recognized for accounting purposes.

Commented [NPP10]: OGOs have a choice of reporting under IFRS or PSAS. For consolidation purposes, would if reported on IFRS, would have to be converted to PSAS
CV – I think this is OK because it is only dealing with consolidation

only to the extent that the GBE's accounting principles (which are required to be IFRS in accordance with paragraph 17 of the Introduction to PSAS) are not adjusted to conform to those of the government.

As documented in Schedule 8 to the consolidated financial statements of the Province, the IESO is an OGO and OPG is a GBE. Accordingly, the accounting for these entities in the GRE is as follows:

ENTITY	CLASSIFICATION	ACCOUNTING METHOD	Stand-alone entity f/s GAAP	Provincial CFS
IESO	OGO	Consolidation	PSAS ~~or IFRS~~	PSAS
OPG	GBE	Modified equity method	~~IFRS (reports on~~ US GAAP~~)~~	IFRS (including IFRS14)

This memo does not reconsider the classification of these existing entities.

As discussed in detail in a subsequent section, OPG expects that it will control OPG Trust. If this is the case, OPG Trust will be consolidated by OPG and, therefore, reflected in the GRE through the modified equity accounting of OPG under IFRS. If, however, it is determined that OPG Trust is controlled by the Province, OPG Trust will be consolidated in the GRE on a line-by-line basis under PSAS.

Commented [NPP11]: Might the trust be considered a GBE? It would be a publicly accountable enterprise and self-sustaining. See chapter 9 (?) of Y2K report – referenced by Cindy as increasing relevance to IESO situation (self-sustaining).CV – as a trust, I'm not sure it will meet the criteria.

Example

For simplicity, the following example will be used in this document to illustrate the accounting impact of the FHP on the various entities involved:

- Ratepayer bill is currently $588, and the 17% reduction related to the FHP is $100.
- The Province directly borrows 44%, or $44, to make an equity contribution to OPG, which OPG then loans to OPG Trust.
- OPG directly borrows 5%, or $5, and loans it to OPG Trust.
- OPG Trust directly borrows 51%, or $51, from capital markets.

Analysis

IESO

The IESO is presently classified as an OGO and has elected to prepare~~s~~ its standalone, general purpose financial statements in accordance with PSAS, which is consistent with the basis of presentation required for purposes of consolidating the IESO into the GRE. Under PSAS, the IESO would also have the option of reporting based on IFRS. If the IESO were classified as a GBE, it would also report based on IFRS. Since the IESO has rate regulated balances, it would likely report using IFRS14, consistent with the IFRS related information provided by both Hydro One and OPG which are rate regulated.

Commented [CV12]: Nadine – let's discuss – not sure this is necessary and could be confusing as to why we are adding this.

Current State

Effective January 1, 2016, the IESO adopted on a retrospective basis a new accounting policy that requires its market-settlement activities to be reflected in the financial statements. Under the new policy, the IESO's financial statements do not include the revenue and expenses of the financial

Commented [CV13]: We should provide some additional context to this statement – e.g. what the market settlement activities are

transactions of market participants within the IESO-administered markets. This indicates IESO management has taken the position that the IESO is an agent, not a principal, in the IESO-administered markets and, accordingly, records revenue on a net basis.

PSAS doesn't provide any specific guidance as to how it should be determined whether an entity is acting as a principal or an agent in the context of revenue recognition, but both IFRS and ~~both~~ US GAAP do. The relevant guidance in IFRS is as follows:

IAS 18.8

Revenue includes only the gross inflows of economic benefits received and receivable by the entity on its own account. Amounts collected on behalf of third parties such as sales taxes, goods and services taxes and value added taxes are not economic benefits which flow to the entity and do not result in increases in equity. Therefore, they are excluded from revenue. Similarly, in an agency relationship, the gross inflows of economic benefits include amounts collected on behalf of the principal and which do not result in increases in equity for the entity. The amounts collected on behalf of the principal are not revenue. Instead, revenue is the amount of commission.

IAS 18.IE21

Determining whether an entity is acting as a principal or as an agent (2009 amendment).

Paragraph 8 states that 'in an agency relationship, the gross inflows of economic benefits include amounts collected on behalf of the principal and which do not result in increases in equity for the entity. The amounts collected on behalf of the principal are not revenue. Instead, revenue is the amount of commission.' Determining whether an entity is acting as a principal or as an agent requires judgement and consideration of all relevant facts and circumstances.

An entity is acting as a principal when it has exposure to the significant risks and rewards associated with the sale of goods or the rendering of services. Features that indicate that an entity is acting as a principal include:

- *a) the entity has the primary responsibility for providing the goods or services to the customer or for fulfilling the order, for example by being responsible for the acceptability of the products or services ordered or purchased by the customer;*
- *b) the entity has inventory risk before or after the customer order, during shipping or on return;*
- *c) the entity has latitude in establishing prices, either directly or indirectly, for example by providing additional goods or services; and*
- *d) the entity bears the customer's credit risk for the amount receivable from the customer.*

An entity is acting as an agent when it does not have exposure to the significant risks and rewards associated with the sale of goods or the rendering of services. One feature indicating that an entity is acting as an agent is that the amount the entity earns is predetermined, being either a fixed fee per transaction or a stated percentage of the amount billed to the customer.

Application of the above IFRS guidance supports the conclusion that the IESO is an agent in the market-settlement process and, therefore, recognizing revenue on a net basis is appropriate. IESO has completed a more thorough analysis of their position that it is an agent in the settlement of the market and reconsideration of that decision is not the topic of this memo.

The IESO is required by legislation to carry out its operations without the purpose of gain or profit, making the IESO a self-sustaining entity. ~~So, generally speaking,~~ O~~o~~ther than the amounts the IESO is permitted to keep in accordance with its own rate order from the OEB to cover its internal operating costs, all amounts the IESO receives from market participants must be paid out to other market participants who have regulatory or contractual rights to receive payments from those collected amounts.

In the context of applying the principal vs. agent guidance, the amounts the IESO is permitted to keep in accordance with its own rate order from the OEB to cover its internal operating costs are recorded as system fee revenue in the IESO's financial statements. System fees are not characterized as being part

Commented [CV14]: We need to deal with its ability to recover costs and not incur a lost re: the addition of the concept of self-sustaining.

Commented [npp15]: I had understood that the IESO was recovering for costs already incurred vs. pre-collecting.

Commented [npp16]: IESO earns revenue from outside parties (not within the e GRE except for OPG and then it is at commercial terms). The definition of a GBE does not require independence nor profit, but rather self-sustaining. In fact, a case might be made for the IESO to be accounted for as a GBE.

of the IESO-administered markets. Accordingly, any references to the IESO-administered markets in this document exclude system fees.

As stated in the IESO financial statements, the IESO-administered markets is a balancing system, and as such, the net position of market accounts will ultimately settle to a nil balance in accordance with market rules. However, due to settlement timing differences, the net position of market accounts will not be in a nil position from a cash flow perspective at the end of any reporting period.

This raises a question as to how a cash flow deficit related to the market-settlement process should be accounted for in the financial statements of the IESO. Two approaches are as follows:

1. The cash flow deficit is recognized as an asset when it occurs and then derecognized in the period in which it is settled. Under this approach, the net position of market accounts will always be in a nil balance in the IESO's balance sheet and there is no impact on the IESO's income statement.
2. The cash flow deficit is recognized as a charge to income when it occurs and then reversed through income in the period in which it is settled.

IESO management has concluded it is appropriate to recognize existing cash flow deficits arising from the market-settlement process as an asset. This is evidenced by the fact the components of the market accounts net to a nil closing balance at year end in the IESO's financial statements for the year ended December 31, 2016. These financial statements also explicitly state there is no impact to the accumulated deficit or revenues and expenses as the IESO is not party to these transactions as per the market rules.

Commented [CV17]: Is this a direct quote from the IESO f/s?

Although the IESO's financial statements include the following accounting policy on regulated assets and liabilities, the asset relating to the cash flow deficit discussed above has not been specifically ~~identified~~ labeled as a regulated asset:

As a rate-regulated entity, the IESO, in appropriate circumstances establishes regulated assets or liabilities and thereby defers the impact on the statement of operations of certain expenses or revenues because they are probable to be collected or refunded to market participants through future billings. The IESO has applied guidance from United States Generally Accepted Accounting Principles (US GAAP) Topic 980, Regulated Operations, in this policy.

Commented [npp18]: Could include reference that this same basis is used by OPG, H1 and many other rate regulated entities in Canada (including those which report based on IFRS14).

The only two balances specifically ~~identified~~ labeled as being recognized in the IESO's financial statements under the above policy are (i) unrecovered smart metering expenses, and (ii) unrecovered PSAB transition items. IESO management has, however, indicated in discussions that the cash flow deficit/surplus associated with the original variance account is also considered to be a regulated asset/liability under ASC 980 even though it has been ~~recorded~~ presented as part of the Market Accounts balances in the statement of financial position.

Impact of FHP

The implementation of the FHP results in the IESO establishing and maintaining the FHP variance account to track the resulting cash flow deficit, the balance of which is defined for the purposes of ~~under~~ the FHP Act to be a 'regulatory asset'.

The act of legislating the balance in the FHP variance account to be a regulatory asset does not, in and of itself, ~~support~~ result in its recognition as an asset for accounting purposes. Accordingly, the primary issue at hand is whether the legislated regulatory asset is eligible for recognition as an asset in the financial statements of the IESO and subsequently ~~on~~in the Province's consolidated financial statements both of which are ~~also~~ prepared on a PSAS basis.~~.~~

Commented [npp19]: In other words, the Province has not 'legislated' the accounting for the deferred amounts as regulatory assets on the Province's books. (The AG has suggested such, so this may be the source of her confusion).

Commented [npp20]: Deleted the 'PSAS' reference given that under different circumstances the entity might report on IFRS (as an OGO, or as a GBE) and report the assets as RRA under IFRS14.

When the standalone financial statements of the IESO are considered in isolation, the impact of the conclusion reached on this issue ~~is~~ would be eliminated to the extent the regulatory asset has been sold to OPG Trust ~~at~~by the end of the reporting period. The conclusion remains significant, however, due to its impact on the consolidated financial statements of the GRE, which is discussed in a later section.

Commented [CV21]: Is this true – if there were no RRA at the onset, I don't think the accounting in the IESO would be the same.

Commented [NPP22]: Didn't it have to be a regulatory asset in order for OPG Trust to buy it and account for it as an intangible asset.

As noted above, the IESO has adopted a policy to apply the U.S. GAAP guidance in ASC 980 in connection with accounting for rate regulated assets. IESO management has applied this guidance and concluded the regulatory asset created by the FHP can be recognized as a regulated asset for accounting purposes in the financial statements of the IESO. The IESO's auditors, KPMG, concur with this position, as evidenced from the following excerpt from a draft letter issued by KPMG on May 16, 2017 (the KPMG Letter):

We have considered the foregoing analysis and management's conclusion. We concur that the variance account created by Bill 132 will meet the criteria for the recognition of a regulatory asset stated in ASC 980-340-25-1. Furthermore, we have also considered the criteria stated in ASC 980-10-15-2 and believe that IESO should be allowed to continue to use the guidance for regulated operations of Topic 980.

Recognizing the regulatory asset as a regulated asset for accounting purposes in the financial statements of the IESO in accordance with ASC 980 is appropriate only if all of the following conditions are met:

a) the operations of the IESO (or the relevant portion thereof) are within the scope of ASC 980 based on the criteria in ASC 980-10-15-2,
b) the FHP variance account meets the criteria in ASC 980-340-25-1 for capitalization as a regulatory asset, and
c) ASC 980 is an appropriate source of GAAP under PSAS.

Each of these items is addressed in turn:

a) Scope of ASC 980

ASC 980-10-15-2 states the following:

The guidance in the Regulated Operations Topic applies to general-purpose external financial statements of an entity that has regulated operations that meet all of the following criteria:

a) The entity's rates for regulated services or products provided to its customers are established by or are subject to approval by an independent, third-party regulator or by its own governing board empowered by statute or contract to establish rates that bind customers.
b) The regulated rates are designed to recover the specific entity's costs of providing the regulated services or products. This criterion is intended to be applied to the substance of the regulation, rather than its form. If an entity's regulated rates are based on the costs of a group of entities and the entity is so large in relation to the group of entities that its costs are, in essence, the group's costs, the regulation would meet this criterion for that entity.
c) In view of the demand for the regulated services or products and the level of competition, direct and indirect, it is reasonable to assume that rates set at levels that will recover the entity's costs can be charged to and collected from customers.

The Office of the Auditor General of Ontario (OAGO) does not believe the IESO meets the criteria to be within the scope of ASC 980. This is evidenced by the following statement included in *Legislated Accounting Included in Bill 132, Including the Proposed Ontario Fair Hydro Plan Act, 2017 – Submission to Standing Committee on Justice Policy* dated May 25, 2017 (OAGO Submission):

Moreover, IESO is not engaging in rate-regulated activities, and the contracts under its administration were never subject to rate regulation.

Commented [NPP23]: Insert ref to GAAP hierarchy.

Commented [npp24]: The OPA had also accounted for the balances as assets (consistency w.r.t. the CFS treatment).

OPA Accounting Treatment for Regula

Commented [CV25R24]: Not sure this is as relevant as the OPA had a receivable from the IESO at that time.

Commented [NPP26]: Insert reference to consistency with previous treatment of OPA (2013 Terry Gabriel email).

~~The statement made by the OAG does not appear to be a fair reflection of the facts.~~ Ontario's electricity industry is rate-regulated. Rates paid by electricity consumers are regulated by the OEB such that over time rates equal cost plus, where applicable, a reasonable rate of return. Providing electricity to consumers involves several different parties, including generators, transmitters, distributors and the IESO. Some of these parties engage in rate-regulated activities, some do not.

The IESO serves an important and active role in Ontario's electricity market, irrespective of the fact that it records market transactions on net basis in the financial statements. The IESO balances the supply of and demand for electricity in Ontario and directs its flow across the province's transmission lines, oversees the wholesale electricity market, where the price of energy is determined, and administers the rules that govern the market. In determining whether the IESO has regulated operations, the focus is on whether the rates the IESO charges its customers are regulated and not whether the costs incurred by the IESO are regulated (although a number of them are).

The following supports the position of IESO management that the above criteria are met and the IESO's operations are within the scope of ASC 980:

The entity's rates for regulated services or products provided to its customers are established by or are subject to approval by an independent, third-party regulator or by its own governing board empowered by statute or contract to establish rates that bind customers.
As noted in a research paper issued in 2001 by a taskforce established by the CICA (the CICA Research Report), there is a view held by some that, with respect to rate regulation in the public sector, there is usually no *independent, third-party regulator* because the government controls both the enterprise and the regulatory agency. Accordingly, it is important to point out that independence is not required to meet the criteria in ASC 980-10-15-2(a). The requirement is an *independent, third-party regulator* or *its own governing board empowered by statute or contract*. In fact, paragraph 64 of the Basis for Conclusions for FAS 71, ACCOUNTING FOR THE EFFECTS OF CERTAIN TYPES OF REGULATION (which is the pre-codified version of ASC 980), specifically states that the criteria in ASC 980-10-15-2(a) was modified so as not to preclude application by government utilities with rates set by their own governing board. The OEB has been established by the Province to be Ontario's independent energy regulator and, therefore, is considered the governing board of the IESO. The OEB's mandate and authority come from the *Ontario Energy Board Act, 1998*, the *Electricity Act, 1998*, and a number of other provincial statutes. As described in more detail below, the IESO's rates are established in accordance with these statutes. In the context of its market-settlement role, the IESO's 'customers' are the Market Participants buying electricity from the IESO-controlled grid. All Market Participants are required to execute a Participation Agreement with the IESO. In accordance with Article 3.1 of the standard Participation Agreement, each Market Participant has agreed to be bound by and to comply with all of the provisions of the Market Rules, which includes the following: *Chapter 9, Section 1.2.3* *Notwithstanding any other provision within the market rules, market participants shall remit to the IESO such applicable settlement amounts and other payments as may be required under the relevant provisions of the Electricity Act, 1998, the Ontario Energy Board Act, 1998 and any related regulations, as amended from time to time.*

The IESO's operations meet the criteria in ASC 980-10-15-2(a) because the rates charged by the IESO are based on statutes. As discussed in more detail below, the rates are designed to recover the IESO's expenditure for providing the regulated services and the pass-through costs related to the energy purchased from the generators and to government programs.

The main components of invoices issued by the IESO to Market Participants are as follows:

- Commodity Charges
  - Hourly Ontario Energy Price
  - Global Adjustment
- Wholesale Market Service Charges
  - IESO Administration Fee
  - Uplift Charges
  - Rural and Remote Electricity Rate Protection
- Wholesale Transmission Charges
- Debt Retirement Charge

Each component is determined as follows:

Commodity Charges

In accordance with Section 25.33(1) of the Electricity Act, the IESO is required to price electricity to recover costs:

Electricity pricing to reflect costs

IESO to make adjustments

25.33 (1) The IESO shall, through its billing and settlement systems, make adjustments in accordance with the regulations that ensure that, over time, payments by classes of market participants in Ontario that are prescribed by regulation reflect,

a) amounts paid to generators, the Financial Corporation and distributors, whether the amounts are determined under the market rules or under section 78.1, 78.2 or 78.5 of the Ontario Energy Board Act, 1998;

b) amounts paid to entities with whom the IESO has a procurement contract, as determined under the procurement contract; and

c) such amounts as may be prescribed that are paid or incurred by the IESO in relation to the Ontario Fair Hydro Plan Act, 2017. *2014, c. 7, Sched. 7, s. 8 (1); 2017, c. 16, Sched. 1, s. 43 (2).*

Market Participants are initially invoiced for consumed electricity at the Hourly Ontario Energy Price (HOEP), which is calculated as the average of the twelve market clearing prices set in each hour. In accordance with Section 25.33(5) of the Electricity Act, the IESO is required to track differences between the amounts invoiced to Market Participants at HOEP and actual costs incurred in a variance account:

Variance accounts

(5) The IESO shall establish and maintain such variance accounts as may be necessary to record all amounts payable or receivable by it under this section or under the Ontario Fair Hydro Plan Act, 2017. *2004, c. 23, Sched. A, s. 37; 2014, c. 7, Sched. 7, s. 8 (5); 2017, c. 16, Sched. 1, s. 43 (5).*

Sections 3.1 and 3.3 of the OEB Act require the variance account to be settled over a twelve-month period, which is done through the Global Adjustment on a Market Participant's invoice:

Annual rate plan and separate rates for situations prescribed by regulation

(3.1) The Board shall, in accordance with rules prescribed by the regulations, approve or fix separate rates for the retailing of electricity,

a) to such different classes of consumers as may be prescribed by the regulations; and

b) for such different situations as may be prescribed by the regulations. 2004, c. 23, Sched. B, s. 14 (1).

Rates to reflect cost of electricity

(3.3) In approving or fixing rates under subsection (3.1),

a) the Board shall forecast the cost of electricity to be consumed by the consumers to whom the rates apply, taking into consideration the adjustments required under section 25.33 of the Electricity Act, 1998 *and shall ensure that the rates reflect these costs; and*

b) the Board shall take into account balances in the IESO's variance accounts established under section 25.33 of the Electricity Act, 1998 *and shall make adjustments with a view to eliminating those balances within 12 months or such shorter time periods as the Minister may direct. 2004, c. 23, Sched. B, s. 14 (1); 2014, c. 7, Sched. 23, s. 6 (2).*

Although the implementation of the FHP involves the deferral of costs over an extended period of time, it does not change the IESO's obligation under the OEB Act to price electricity to recover incurred costs in full. The deferral relating to the FHP is tracked in a separate variance account in accordance with Section 24(1) of the Fair Hydro Plan Act, 2017 (the FHP Act):

Variance account to be established, maintained

24 (1) The IESO shall establish and maintain a variance account in which it records the following:

1. The IESO deferral for each month.

2. All payments received by the IESO resulting from the exercise of the right of recovery under section 25 and any transfer under section 26.

3. Such other adjustments as may be prescribed, including adjustments in respect of the period that commences on or after May 1, 2017 and before the day this section comes into force.

The right for the IESO to recover the variance account is set out in Section 25 of the FHP Act:

Regulatory asset established

25 (1) Effective May 1, 2017, the IESO has the right, exercisable in accordance with this Act and the regulations, to recover the balance recorded in the variance account from specified consumers.

Board to set rates

(2) Subject to subsection (3), the Board shall, from time to time and in accordance with the regulations, determine and set rates payable by specified consumers to allow for the IESO to recover the balance recorded in the variance account.

Limitation

(3) The IESO shall not be entitled to collect all or part of the balance recorded in the variance account from specified consumers before May 1, 2021.

Wholesale Market Service Charges

The IESO charges Market Participants administrative fees to operate the wholesale electricity market and manage the electric power system in Ontario. These fees are required to be approved by the OEB under Section 25(1) of the Electricity Act on an annual basis.

Review of requirements and fees

25 (1) The IESO shall, at least 60 days before the beginning of each fiscal year, submit its proposed expenditure and revenue requirements for the fiscal year and the fees it proposes to charge during the fiscal year to the Board for review, but shall not do so until after the Minister approves the IESO's proposed business plan for the fiscal year under section 24. 2014, c. 7, Sched. 7, s. 3 (1).

Uplift charges

Need details

RRRP charges

The RRRP program provides a rate subsidy to rural and remote residential customers who face higher distribution costs. Under the FHP Act, the cost of the RRRP program has shifted from ratepayers to provincial revenues and, therefore, is no longer a component of the IESO's invoice.

Wholesale Transmission Charge

This charge to LDCs and some large consumers covers the cost incurred by transmission companies to construct and maintain the high-voltage transmission lines needed to transport electricity from generating stations to LDCs or consumers. In accordance with Section 78(1) of the OEB Act, the rate for this service is approved by the OEB.

Debt Retirement Charge

When the Ontario electricity sector was restructured in April 1999, the Ontario Electricity Financial Corporation (OEFC) ~~inherited~~ took on $20.9 million of stranded debt from Ontario Hydro. The OEFC services and retires the stranded debt with cash flows from a number of sources in the electricity sector, one of those currently being debt retirement charges paid by certain ratepayers (ratepayers cease paying debt retirement charges April 1, 2018).

Under Regulation 494/01, DEBT RETIREMENT CHARGE – ADMINISTRATION, the IESO is appointed as a collector of debt retirement charges (Section 2) and is required to collect a debt retirement charge on behalf of the OEFA from every entity who withdraws electricity from the IESO-controlled grid (Section 6(2)). The prescribed rate for the debt retirement charge is set out in Regulation 493/01, DEBT RETIREMENT CHARGE – RATES AND EXEMPTIONS.

The regulated rates are designed to recover the specific entity's costs of providing the regulated services or products.

As discussed in detail above, the IESO is required by statute to set prices to recover costs.

In view of the demand for the regulated services or products and the level of competition, direct and indirect, it is reasonable to assume that rates set at levels that will recover the entity's costs can be charged to and collected from customers.

As discussed in detail above, the IESO is required by statute to set prices to recover costs.

The majority of the monthly amount invoiced by the IESO to Market Participants represents a direct flow through of costs as they are incurred, but there are certain types of costs for which recovery may be deferred. For those deferred costs, the IESO is dependent on the future consumption of electricity by rate-payers to fully recover costs.

Based on relatively short recovery periods, it is reasonable to assume there will be sufficient demand to recover the deferred costs that currently exist. Specifically:

- RPP and RRRP variance accounts are recovered over twelve months in accordance with Section 3.3(b) of the OEB Act. *(Note - Under the FHP, responsibility for the cost of the RRRP program is being transferred to the Provincial budget and rate-payers will no longer be directly charged)*

Commented [NPP27]: Not sure what these are. Ask IESO?

Commented [CV28]: I'm not sure that all of these costs have shifted –certainly the new aspect has – there was an RRRP program previously -- we will confirm with Energy

Commented [CV29]: To determine if there is anything else to add from IESO's analysis.

Also – to confirm whether we want to add any content re: the regulatory

Commented [CV30]: See previous comment – we will confirm with Energy whether all of the RRRP is transferred or just some of it.

- The Smart Metering Entity charge is recovered over the period from May 1, 2013 to October 31, 2018 in accordance with XX.

Under the FHP, responsibility for the cost of the OESP program is being transferred to the Provincial budget and rate-payers will no longer be ~~directly~~ charged for the cost of this program. The OESP variance account, which is currently in a credit balance, will be used to fund the cost of the program until depleted.

Although the timing of the recovery of the FHP variance account has not yet been established by the OEB, the wording and intent of the proposed legislation is clear that it is intended by law to be recoverable over a period of 30 years. Given the nature and extent of customer demand for the power generated and distributed in Ontario, both at this time and projected in the future, it is reasonable to conclude that there will be sufficient demand to recover the regulatory asset. As with the other criteria, this will need to be continually evaluated throughout the recovery period.

Commented [CV31]: To confirm what we are adding – the statute reference?

Commented [npp32]: Insert reference to LTEP or the Ontario Planning Outlook. Ontario-Planning-Outlook-September2016.pdf Could also seek narrative from IESO.

In addition to the general scope requirements of ASC 980 discussed above, specific consideration is made as to whether the following scope exception in ASC 980-10-15-7 applies to the FHP:

The guidance in the Regulated Operations Topic does not apply to any of the following transactions:

a) Accounting for price controls that are imposed by governmental action in times of emergency, high inflation, or other unusual conditions, or accounting for contracts in general. However, if the terms of a contract between an entity and its customer are subject to regulation and the criteria of paragraph 980-10-15-2 are met with respect to that contract, the guidance in this Topic shall apply.

Based on the discussion below, this scope exemption is not applicable to the FHP.

Electricity cost reductions resulting from the FHP do not represent price controls imposed by the Province in a time of emergency, high inflation, or other unusual conditions. As noted in the 2017 budget speech, the 2017 Ontario Budget – A Stronger, Healthier Ontario, the FHP is a fairer way to share the costs of building a cleaner, more modern and reliable electricity generation system. In particular, the budget speech states:

Commented [NPP33]: Navigant report/other support

Recognizing that existing electricity infrastructure is expected to last for decades to come, the Province would refinance the cost of those capital investments to ensure that system costs are more equitably distributed over time.

The following paragraph from the Basis for Conclusion for FAS 71 also provides some insight as to the specific concerns relating to government imposed price controls that resulted in the scope exception in ASC 980-10-15-7(a):

70. The first scope limitation of paragraph 8—excluding accounting for price controls imposed by governmental action in times of emergency, high inflation, or other unusual conditions—was included in the Discussion Memorandum. Price controls imposed in periods of unusual conditions are not expected to be applied consistently over an extended period. Indeed, their duration usually is limited by statute. In that environment, assurance of future benefits cannot be provided by probable future actions of the price control regulator because that regulator may not exist at a given future date.

The implementation of the FHP does not create the type of environment described in FAS 71.BC70 as it is governed by the OEB and there is no concern the OEB will not continue to exist.

The second part of the scope exception in ASC 980-10-15-7(a) relating to the accounting for contracts is further explained in the following paragraph from the Basis for Conclusion for FAS 71:

71. Accounting for contracts in general was also excluded from the scope of the Discussion Memorandum. The economic effects of cost reimbursement contracts are in some respects similar to the economic effects of the type of regulation addressed by this Statement. However, most contracts tend to be relatively short-term, whereas regulation of enterprises covered by this Statement is expected to continue beyond the foreseeable future. The Board noted that other authoritative literature addresses contract accounting and concluded that it should exclude the general issue of contract accounting from the scope of this Statement.

Although the impetus for the FHP relates to term of contracts the IESO has entered into with certain generators, the FHP does not change the existing accounting for these contracts.

Application of ASC 980-340-25-1 to the regulatory asset

ASC 980-340-25-1 states the following:

Rate actions of a regulator can provide reasonable assurance of the existence of an asset. An entity shall capitalize all or part of an incurred cost that would otherwise be charged to expense if both of the following criteria are met:

Field Code Changed

Field Code Changed

- *a) It is probable (as defined in Topic 450) that future revenue in an amount at least equal to the capitalized cost will result from inclusion of that cost in allowable costs for rate-making purposes.*
- *b) Based on available evidence, the future revenue will be provided to permit recovery of the previously incurred cost rather than to provide for expected levels of similar future costs. If the revenue will be provided through an automatic rate-adjustment clause, this criterion requires that the regulator's intent clearly be to permit recovery of the previously incurred cost.*

A cost that does not meet these asset recognition criteria at the date the cost is incurred shall be recognized as a regulatory asset when it does meet those criteria at a later date.

The following supports the IESO's position that the FHP variance account meets the above criteria for capitalization:

It is probable (as defined in Topic 450) that future revenue in an amount at least equal to the capitalized cost will result from inclusion of that cost in allowable costs for rate-making purposes.
The following excerpts from the FHP Act make it clear that the IESO is entitled to recover the regulatory asset through rates in the future:

Variance account to be established, maintained

24 (1) The IESO shall establish and maintain a variance account in which it records the following:

1. The IESO deferral for each month.

2. All payments received by the IESO resulting from the exercise of the right of recovery under section 25 and any transfer under section 26.

3. Such other adjustments as may be prescribed, including adjustments in respect of the period that commences on or after May 1, 2017 and before the day this section comes into force.

Recording determinative

(2) Subject to the correction of any obvious error by the IESO, its recording of the balance in the variance account is determinative of the balance as of the time of the recording.

Regulatory asset established

25 (1) Effective May 1, 2017, the IESO has the right, exercisable in accordance with this Act and the regulations, to recover the balance recorded in the variance account from specified consumers.

Board to set rates

(2) Subject to subsection (3), the Board shall, from time to time and in accordance with the regulations, determine and set rates payable by specified consumers to allow for the IESO to recover the balance recorded in the variance account.

Limitation

(3) The IESO shall not be entitled to collect all or part of the balance recorded in the variance account from specified consumers before May 1, 2021.

The recovery of the regulatory asset is, however, dependent on future consumption of electricity by rate-payers. Although the timing of the recovery of the regulatory asset has not yet been established by statute, the recovery period is intended to be 30 years. Given the nature and extent of customer demand for the power generated and distributed in Ontario, both at this time and projected in the future, it is reasonable to conclude that it is probable there will be sufficient demand in the future to recover the regulatory asset. This conclusion, which is supported by Figure 19: Ontario's Forecast Electricity Production in Achieving Balance – Ontario's Long-Term Energy Plan, will need to be continually evaluated throughout the recovery period. The willingness of unrelated third parties (e.g. investors) to fund the purchase of the regulatory asset from the IESO by OPG Trust also demonstrates the belief that sufficient demand will exist to permit its future recovery.

Commented [CV34]: Are we including this Figure in this memo

Based on available evidence, the future revenue will be provided to permit recovery of the previously incurred cost rather than to provide for expected levels of similar future costs. If the revenue will be provided through an automatic rate-adjustment clause, this criterion requires that the regulator's intent clearly be to permit recovery of the previously incurred cost.

Based on the above excerpts from the FHP Act, it is clear the IESO will be recovering costs previously incurred rather than providing for expected levels of similar future costs.

ASC 980 is an acceptable source of guidance under PSAS

Commented [NPP35]: Important consideration if GBEs were ever consolidated on a line by line basis. Other RR entities in Canada use US GAAP (recognized under auditing standards as a fair presentation framework--- companies receive clean audit opinions. Companies reporting RRA under IFRS14 are reporting based on ASC 980))

In assessing whether ASC 980-340-25-1 is an acceptable source of guidance under PSAS, Paragraph 5 of PSAS 1150, GENERALLY ACCEPTED ACCOUNTED PRINCIPLES, states the following:

When the primary sources of GAAP do not deal with the accounting and reporting in financial statements of transactions or events encountered by the public sector reporting entity, or additional guidance is needed to apply a primary source to specific circumstances, the selection of an appropriate accounting

policy requires the exercise of professional judgment. In these circumstances, a public sector reporting entity should adopt accounting policies and disclosures that are consistent with:

a) the primary sources of GAAP; and

b) the application of the concepts described in FINANCIAL STATEMENT CONCEPTS, Section PS 1000.

Related guidance is also provided in PSAS 1150.18-.20:

Paragraphs PS 1150.19-.24 identify some of the other sources that a public sector reporting entity might consult to assist in selecting accounting policies and disclosures that comply with paragraph PS 1150.05.

Pronouncements issued by other bodies authorized to issue accounting standards may be useful sources to consult. For example, accounting pronouncements published with the authority of the Canadian Accounting Standards Board (AcSB), International Accounting Standards Board (IASB), US Federal Accounting Standards Advisory Board (FASAB), US Governmental Accounting Standards Board (GASB), or International Public Sector Accounting Standards Board (IPSASB) are often important sources to consult on matters not covered by primary sources of GAAP or for assistance in applying a primary source of GAAP to specific circumstances.

When a public sector reporting entity chooses to consult a source described in paragraph PS 1150.19, it applies professional judgment and evaluates the source in the context of the relative manner in which the standard setter requires its pronouncements to be applied, as well as in the context of the related pronouncement. When an accounting standard setter does not have a conceptual framework that is similar to the concepts referred to in paragraph PS 1150.05(b), the public sector reporting entity needs to ensure that the selected source is consistent with those concepts.

Since PSAS does not specifically address the treatment of costs incurred that will be recovered through regulatory operations in future periods, the IESO would not be precluded from following the guidance in ASC 980-340-25-1. However, PSAS 1000.05 makes it clear that in order to do so, it must first be demonstrated that such guidance is consistent with the application of the concepts described in PSAS 1000, FINANCIAL STATEMENT CONCEPTS.

The relevant guidance in PSAS 1000 relating to the recognition of an asset is as follows:

PSAS 1000.35

Assets are economic resources controlled by a government as a result of past transactions or events and from which future economic benefits are expected to be obtained.

PSAS 1000.36

Assets have three essential characteristics:

a) they embody future economic benefits that involve a capacity, singly or in combination with other assets, to provide goods and services, to provide future cash inflows, or to reduce cash outflows;
b) the public sector entity can control the economic resource and access to the future economic benefits; and
c) the transaction or event giving rise to the public sector entity's control has already occurred.

PSAS 1000.37

Commented [npp36]: Economic inflows will be generated through rates, not taxes. Not reflecting the RRA on the books of the government would distort the relevance of the financial reports of the Province.

An item is not an asset of a government if it lacks one or more of the essential characteristics listed in the preceding paragraph. Thus, for example, an item does not qualify as an asset of a government if the item involves:

- *a) no future economic benefit;*
- *b) future economic benefit, but the government cannot obtain it; or*
- *c) future economic benefit that the government may obtain, but the events or circumstances that give the government control of the benefit have not yet occurred*

The following supports the IESO's position that the regulatory asset possesses the three essential characteristics of an asset:

Embody future economic benefits that involve a capacity, singly or in combination with other assets, to provide goods and services, to provide future cash inflows, or to reduce cash outflows

The following excerpts from the FHP Act make it clear that the IESO is entitled to recover the regulatory asset through rates in the future:

Variance account to be established, maintained

24 (1) The IESO shall establish and maintain a variance account in which it records the following:

1. The IESO deferral for each month.

2. All payments received by the IESO resulting from the exercise of the right of recovery under section 25 and any transfer under section 26.

3. Such other adjustments as may be prescribed, including adjustments in respect of the period that commences on or after May 1, 2017 and before the day this section comes into force.

Recording determinative

(2) Subject to the correction of any obvious error by the IESO, its recording of the balance in the variance account is determinative of the balance as of the time of the recording.

Regulatory asset established

25 (1) Effective May 1, 2017, the IESO has the right, exercisable in accordance with this Act and the regulations, to recover the balance recorded in the variance account from specified consumers.

Board to set rates

(2) Subject to subsection (3), the Board shall, from time to time and in accordance with the regulations, determine and set rates payable by specified consumers to allow for the IESO to recover the balance recorded in the variance account.

Limitation

(3) The IESO shall not be entitled to collect all or part of the balance recorded in the variance account from specified consumers before May 1, 2021.

Accordingly, the regulatory asset, by statute, has the capacity to provide future cash inflows.

Commented [npp37]: Similarly the Y2K report concluded that the RRA/Ls met the definitions of assets and liabilities.

While perhaps obvious, paragraph 13 of PSAS 3210, ASSETS, confirms the generation of future cash flows represents a future economic benefit:

The future economic benefits embodied in an asset may also be in the form of generating future cash inflows. Cash inflows benefit the public sector entity because cash can be used to purchase or to provide goods and services, redistribute wealth or settle liabilities. Benefits in the form of cash inflows relate to resources, such as loans receivable, inventory for resale and portfolio investments. Also, some public sector resources generate cash inflows because they have user fees associated with them.

The ability of the regulatory asset to generate future cash flows is dependent on the future consumption of electricity by rate-payers. Although the timing of the recovery of the regulatory asset

has not yet been established by statute, the recovery period is intended to be 30 years. Given the nature and extent of customer demand for the power generated and distributed in Ontario, both at this time and projected in the future, sufficient demand is expected to exist in the future to recover the regulatory asset. This conclusion, which is supported by Figure 19: Ontario's Forecast Electricity Production in Achieving Balance – Ontario's Long-Term Energy Plan, will need to be continually evaluated throughout the recovery period. The willingness of unrelated third parties to fund the purchase of the regulatory asset from the IESO by OPG Trust also demonstrates the belief that sufficient demand will exist to permit its future recovery.

Commented [CV38]: Are there other examples to provide as analogies – anything in tangible capital assets?

The public sector entity can control the economic resource and access to the future economic benefits

Paragraph 16 of PSAS 3210, ASSETS, states the following:

A public sector entity controls the economic resource and access to the future economic benefits when it:

- *a) can benefit from the economic resource through its capacity to provide goods and services, to provide future cash inflows or to reduce cash outflows;*
- *b) can deny or regulate access to those benefits by others; and*
- *c) is exposed to the risks associated with the economic resource.*

The IESO can benefit from the regulatory asset through its capacity to provide future cash inflows in one of two ways:

1. *Collection through future rates*

Section 25 of the FHP gives the IESO the right to recover the regulatory asset through future rates:

Regulatory asset established

25 (1) Effective May 1, 2017, the IESO has the right, exercisable in accordance with this Act and the regulations, to recover the balance recorded in the variance account from specified consumers.

Board to set rates

(2) Subject to subsection (3), the Board shall, from time to time and in accordance with the regulations, determine and set rates payable by specified consumers to allow for the IESO to recover the balance recorded in the variance account.

2. *Sale to a financing entity*

Section 26 of the FHP Act permits the IESO to sell the regulatory asset:

26 (1) The IESO may from time to time, in accordance with this Act and the regulations, transfer a specified portion of the regulatory asset to a financing entity in accordance with this section.

Agreement

(2) An agreement between the IESO and a financing entity in relation to the transfer of a specified portion of the regulatory asset shall provide for consideration of a payment by the financing entity to the IESO in an amount equal to the amount of the specified portion.

Effect of payment

(3) Upon receipt by the IESO of the payment by the financing entity,

(a) the balance in the variance account shall be reduced by the amount of the payment;

(b) the regulatory asset shall be adjusted accordingly;

(c) the financing entity shall acquire a corresponding investment interest; and

(d) the IESO shall retain no further right, title or interest in the corresponding investment interest.

Since (a) the statutory right to recover the regulatory asset belongs solely to the IESO, and (b) the IESO is permitted, but not required, to sell the regulatory asset, the IESO can deny or regulate access to the future economic benefits of the regulatory asset by others.

The IESO is exposed to the risks associated with the regulatory asset, with the primary risk being that collection through the mechanism set out in Section 25 of the FHP Act is dependent on the future consumption of electricity by rate-payers.

The above analysis supports the position that the IESO controls the regulatory asset and access to the future economic benefits.

In reaching this conclusion, consideration was given to the following excerpt included on Page 37 of the 2008 Annual Report of the OAGO:

With regard to the second characteristic, we simply point again to the legacy of the former Ontario Hydro and its stranded debt. This in our view provides concrete evidence that even in monopoly situations governments do not have sufficient assurance that an enterprise will generate enough profits in future years to recover all of its past costs.

Although there needs to be sufficient assurance regarding the recovery of past costs, all relevant facts and circumstances need to be taken into consideration. Accordingly, the stranded debt of Ontario Hydro can be a relevant to the analysis, but not determinative on its own.

The transaction or event giving rise to the public sector entity's control has already occurred

When evaluating whether a transaction or event gives rise to control, the following guidance from PSAS 3210, ASSETS, provides helpful guidance:

.26
The past transaction or event that gives rise to control of an economic resource resulting from exchange agreements or contracts usually occurs at the point of exchange. This arises when substantially all the benefits and risks of ownership have been transferred to the public sector entity and normally coincides with the disbursement of funds, exchange of other assets or assumption of liabilities.
.28
The existence of a law, by-law or policy in relation to a particular program is not a past transaction or event that gives rise to control of an economic resource. Control does not exist until the underlying event occurs.
.29
The past transaction or event giving rise to control of an economic resource must have occurred by the financial statement date. Legislation having retroactive application cannot create a past transaction or event. Any economic resources related to that legislation would be accounted for in the current and relevant future periods, not in the period of the effective date of the legislation.

In the case of the regulatory asset, the above guidance in PSAS 3210 makes it clear that it is not the statute itself that is the transaction or event giving rise to the asset, it is the incurrence of costs for which recovery is provided for under statute. Accordingly, control over the economic benefits of the regulatory asset occurs when the IESO incurs a cash flow deficit that is recorded in the FHP variance account in accordance with Section 24(1) of the FHP Act:

Commented [CV39]: What was the context of this excerpt?

Commented [npp40]: Consider expanding to acknowledge that regular assessments of probable recovery would be necessary, and that if facts revealed risk, then an appropriate revaluation would be undertaken

Commented [npp41]: Similar position in Tory's letter.

24 (1) The IESO shall establish and maintain a variance account in which it records the following:

1. The IESO deferral for each month.

2. All payments received by the IESO resulting from the exercise of the right of recovery under section 25 and any transfer under section 26.

3. Such other adjustments as may be prescribed, including adjustments in respect of the period that commences on or after May 1, 2017 and before the day this section comes into force.

At this point in time, the IESO has incurred a cash outflow for which it is entitled to recover under Section 25 of the FHP Act:

Regulatory asset established

25 (1) Effective May 1, 2017, the IESO has the right, exercisable in accordance with this Act and the regulations, to recover the balance recorded in the variance account from specified consumers.

Board to set rates

(2) Subject to subsection (3), the Board shall, from time to time and in accordance with the regulations, determine and set rates payable by specified consumers to allow for the IESO to recover the balance recorded in the variance account.

The following excerpt from the IFRS Staff Paper on Rate-Regulated Activities prepared for discussion at the June 2017 IASB meeting presents a consistent view and dismisses the potential dissenting view that the transaction or event giving rise to the IESO's control is the future consumption of electricity by rate-payers:

A right arises from the rate-adjustment mechanism if the entity has already partially or fully fulfilled a regulatory requirement (past event) but the current regulated rate does not yet reflect the compensation that the entity is entitled to in exchange. Even though the entity cannot compel its customers to buy the regulated goods or services, the entity's right to charge an increased future regulated rate has the potential to produce for the entity an inflow of economic benefits that are not available to other parties. That right will be consumed as the entity includes the rate increase in future regulated rates and will lead to an inflow of economic benefits if customers pay the increased future regulated rate for the future delivery of goods or services.

Another potential dissenting view is contained on page 37 of the 2008 Annual Report of the OAGO:

With regard to the third characteristic, we do not believe that a rate-regulation decision can be considered a transaction or event giving rise to an asset or obligation because, as stated above, from the level of the government's consolidated financial statements such a decision is an internal event between two government-controlled entities. An equivalent analysis for rate-regulated liabilities leads to the same conclusion. PSAB standards preclude the inclusion of both gains and losses from such inter-company transactions. Therefore, our contention is that, at the consolidated financial statement level, rate-regulated assets and liabilities have no place and should be removed upon consolidation of the government's controlled entities.

It should be noted, however, that the OAGO's belief that a rate-regulation decision cannot be considered a transaction or event giving rise to an asset or obligation is not contrary to the IESO's position. As noted above, it is not the statute itself that is being considered the transaction or event giving rise to the asset, it is the incurrence of costs for which recovery is provided for under statute.

In addition, one could argue the creation of the relevant statutes is not an internal event from the point of view of the consolidated government. Statutes must be passed by the Legislative Assembly of Ontario to become law. Since the Legislative Assembly is comprised of elected members, it can be viewed as the government's governing body.

Concluding the regulatory asset possesses the three essential characteristics of an asset in PSAS 1000.05 then begs the question as to whether the application of the guidance in ASC 980 is even necessary in this particular situation. Consistent with the statement in ASC 980 –340-25-1 that *rate actions of a regulator can provide reasonable assurance of the existence of an asset,* ASC 980 provides guidance as to how to apply the primary source of PSAS in the regulatory environment.

In a letter from the OAGO to the Board of Directors of the IESO dated June 22, 2017 (the OAGO Letter), the OAGO makes the following statement:

The definitions of an asset in the PSAS and FASB Conceptual Framework are similar. Similar to PSAS, rate regulated deferral accounts do not generally meet the definition of an asset in the FASB's Conceptual Framework.

However, the following excerpts from the Basis for Conclusions for FAS 71 (paragraph 58 in particular), clearly support that ASC 980 is an application of, not an exception from, the basic definition of an asset in the Conceptual Framework:

Economic Effects of Regulation

56. The second threshold issue in the Discussion Memorandum was: "Does rate regulation introduce an economic dimension in some circumstances that should affect the application of generally accepted accounting principles to rate-regulated enterprises?"

57. Most respondents to the Discussion Memorandum indicated that rate regulation does introduce such an economic dimension in some circumstances. Respondents cited the cause-and-effect relationship of costs and revenues as the principal economic effect of regulation that affects accounting for regulated enterprises. They noted that cost might be one factor used by unregulated enterprises to establish prices, but it would often not be the most important factor. Usually, prices are limited by the market. An unregulated enterprise might desire to price its goods or services at a level that would recover all costs and a reasonable profit; however, the market might not permit that price. Alternatively, an unregulated enterprise might be able to increase its prices and its profit if competition does not limit its prices. In either case, cost often is not the principal determinant of prices. In contrast, for an enterprise with prices regulated on the basis of its costs, allowable costs are the principal factor that influences its prices.

58. The economic effect cited by most respondents is the ability of a regulatory action to create a future economic benefit—the essence of an asset. For example, consider a regulated enterprise that incurs costs to repair damage caused by a major storm. If the regulator approves recovery of the costs through rates over some future period or is expected to do so, the rate action of the regulator creates a new asset that offsets the reduction in the damaged asset. The enterprise has probable future economic benefits—the additional revenue that will result from including the cost in allowable costs for rate-making purposes. The future benefits are obtained or controlled by the enterprise as a result of a past event—incurring the cost that results in the rate order. Thus, the criteria of Concepts Statement 3 for an asset are met.

The fact that many Canadian rate-regulated entities recognized regulated assets under Part V of the CPA Canada Handbook – *Pre-changeover Accounting Standards* (Part V GAAP) further supports the position that regulated assets do meet the basic definition of an asset under PSAS. Although Part V GAAP refers to rate regulation in several standards, it does not include cost capitalization guidance equivalent to ASC 980-340-25-1. It does, however, specify in paragraph 32B of Section 1100, *Generally accepted accounting principles*, that Section 1100 applies to the recognition and measurement of assets and liabilities arising from rate regulation beginning January 1, 2009. Since Section 1100.04 only permits the

Commented [npp42]: And where reporting under IFRS14, ASC980 continues to be the basis for reporting such assets.

use of an alternate source of GAAP if it is consistent with Part V GAAP, regulated assets need to meet the basic definition of an asset under Part V GAAP in order to be recognized. The Part V GAAP definition of an asset in Section 1000, *Financial Statement Concepts* is consistent with the PSAS definition.

The OAGO Letter suggests that IFRS should be consulted prior to referring to ASC 980 under PSAS's GAAP hierarchy in PSAS 1150 and points out the following:

- In 2005 the International Financial Reporting Interpretations Committee (IFRIC) indicated the US GAAP recognition criteria for regulated assets were not fully consistent with IFRS and could not be applied by analogy.
- When the question of rate regulated accounting was posed to the IFRIC again in 2008, the IFRIC noted the topic had been previously addressed and there was a well-established practice of first time IFRS adopters ceasing rate regulated accounting and removing regulatory deferral accounts from their financial statements.
- In the Basis for Conclusions on IFRS 14, IFRS 14.BC30 noted the differences in the recognition criteria between IFRS and ASC 980 resulted in almost all existing regulatory deferral accounts being derecognized upon transition to IFRS.

It should be noted, however, that the IASB's project on rate-regulated activities is still in progress and the OAGO Letter does not reference more recent and relevant activity. In September 2014, the IASB issued Discussion Paper DP/2014/02, *Reporting the Financial Effects of Rate Regulation*. The Discussion Paper presents the opposing views as to whether regulatory deferral account balances meet the definitions of an asset or a liability and specifically states the following in paragraph 5.09:

Consequently, the IASB has not formed a preliminary view on whether regulatory deferral account balances meet either the current or proposed revised Conceptual Framework definitions of an asset and a liability. It will use the input received from the responses to this Discussion Paper and the Conceptual Framework project to help it assess whether to develop any specific accounting guidance or requirements for rate-regulated activities.

In addition, the most recent paper issued by the IASB staff in June 2017 includes the following:

17. During the May 2017 Board meeting we also considered the interaction between the definitions of assets and liabilities and the characteristics of defined rate regulation (see paragraphs 5 and 6). We concluded that a combination of those characteristics suggested that the rights and obligations created by the rate-adjustment mechanism are assets and liabilities, as those terms are expected to be defined in the forthcoming revised Conceptual Framework for Financial Reporting.

The Exposure Draft ED/2015/3, *Conceptual Framework for Financial Reporting*, defines an asset as follows:

4.5 An asset is a present economic resource controlled by the entity as a result of past events.
4.6 An economic resource is a right that has the potential to produce economic benefits.

This recent activity suggests that it would be premature to assume that the IASB will conclude that regulatory deferral account balances will not meet the definitions of an asset or a liability.

Once it is determined that the regulatory asset meets the basic characteristics of an asset in PSAS 1000.36, consideration also needs to be made as to what type of asset it is. This is important because PSAS 1000.58 does not permit the recognition of intangible assets:

In the absence of appropriate public sector recognition and measurement criteria for intangibles, all intangibles, including those that have been purchased, developed, constructed or inherited in right of the Crown, are not recognized as assets in government financial statements. The intangible often called "human capital" that embodies the talent or intellectual capital of government employees is not recognized as an asset under existing accounting principles.

PSAS 1000 identifies two types of assets: financial assets and non-financial assets and provides the following commentary:

.39 Financial assets are assets that could be used to discharge existing liabilities or finance future operations and are not for consumption in the normal course of operations.

.40 A financial asset is any asset that is:

- *a) Cash*
- *b) a realizable asset that is convertible to cash;*
- *c) a contractual right to receive cash or another financial asset from another party;*
- *d) a contractual right to exchange financial instruments with another party under conditions that are potentially favourable to the government;*
- *e) an equity instrument of another entity;*
- *f) an investment in a government business enterprise or government business partnership;*
- *g) a financial claim on an outside organization or individual; or*
- *h) an inventory or item for sale that meets the criteria in FINANCIAL STATEMENT PRESENTATION, paragraph PS 1201.055.*

.41 Non-financial assets include tangible capital assets, and other assets such as prepaid expenses and inventories of supplies.

.42 Non-financial assets are acquired, constructed or developed assets that do not normally provide resources to discharge existing liabilities, but instead:

- *a) are normally employed to deliver government services;*
- *b) may be consumed in the normal course of operations; and*
- *c) are not for sale in the normal course of operations.*

PSAS 3210, ASSETS, also provides some relevant guidance:

.24 Non-financial resources include all items of a fixed or permanent nature (such as tangible capital property), claims to goods and services (such as prepaid items) and consumable goods (such as inventories of supplies). Non-financial resources also include intangibles, Crown lands and natural resources.

.25 Certain non-financial resources are, however, not given accounting recognition as assets in government financial statements. For example, all government intangibles, and all natural resources and Crown lands that have not been purchased by the government, are not given accounting recognition in government financial statements. A government's non-financial assets, as defined in FINANCIAL STATEMENT CONCEPTS, Section PS 1000, comprise the recognized non-financial resources of a government.

The regulatory asset does not meet the criteria in PSAS 1000.40 to be a financial asset as it does not represent a current contractual right to receive cash. Accordingly, the regulatory asset is a non-financial resource. As noted above, to be recognized as an asset in the financial statements a non-financial resource cannot be an intangible.

Commented [CV43]: To discuss – non financial assets are quite narrowly defined as well.

Although PSAS does not permit the recognition of intangibles, it also does not provide a definition of intangibles. While PSAS 1000.40 provides a finite list of items that represent financial assets, the guidance in PSAS 1000.41-.42 on non-financial assets is less definitive, using words like “such as” and “normally”. In absence of specific guidance in PSAS as to what constitutes an intangible, U.S. GAAP is

probably the most appropriate source to consult, in light of the fact that it deals specifically with regulated assets.

Under U.S. GAAP, a regulated asset is not treated as an intangible. ASC 980 contains separate subsections for 'Intangibles – Goodwill and Other' and 'Other Assets and Deferred Costs' and regulated assets are included in the guidance on 'Other Assets and Deferred Costs'. Consistent with the treatment under U.S. GAAP, the regulatory asset is categorized as an other asset under PSAS and recognized in the financial statements.

……

Debits and Credits

Based on the example provided earlier, the IESO pays the contracted power generator $400 for electricity used by the ratepayer and collects $300 from the ratepayer through their local distribution company (LDC). The $100 recovery shortfall is recorded in a variance account created by Bill 132 and deemed to be a regulatory asset. The IESO sells the regulatory asset to OPG Trust for $100 to obtain cash to make up the shortfall.

The accounting for the above transactions in the financial statements of the IESO, which are prepared in accordance with PSAS, depends on whether the regulatory asset is eligible for recognition as an asset for accounting purposes under PSAS. To avoid confusion in the remainder of this document, the term regulatory asset will refer to the defined term in the FHP Act and the term regulated asset or rate-regulated asset (RRA) will refer to an asset recognized for accounting purposes. The following table illustrates the journal entries to be booked by the IESO under both scenarios:

Scenario A – Regulated Asset			**Scenario B – Not a Regulated Asset**		
Market Settlement					
DR	Cash	300	DR	Cash	300
DR	Asset	100	DR	Expense	100
CR	Cash	(400)	CR	Cash	(400)
Sale of Regulatory Asset to OPG Trust					
DR	Cash	100	DR	Cash	100
CR	Asset	(100)	CR	Gain	(100)

At any given point in time, the accounting result will be the same under both scenarios provided the cash shortfall has been fully funded. If a funding deficit exists, however, the deficit would be recognized as an asset under Scenario A and recognized as an expense under Scenario B. A funding deficit may arise due to, for example, temporary timing differences between the creation and sale of a regulatory asset. A funding deficit may also arise if OPG Trust (or another financing entity) ceases to purchase the IESO's regulatory assets on an on-going basis.

Business Case
Complex Accounting Services
(KPMG – Rate Regulated Balances)

Objectives

Office of the Treasury Board (OTB), Office of the Provincial Controller Division (OPCD) requires the services of a public accounting firm with expertise in International Financial Reporting Standards (IFRS) as applicable to rate-regulated entities to assist in assessing and documenting the impact of a potential change in accounting for Hydro One and Ontario Power Generation on the Province's 2014/15 Public Accounts.

The assistance of a specialist on interpretation and application of IFRS, specifically as related the Province's rate regulated entities, will be beneficial in managing accounting and audit risks, as well as providing additional insights to OPCD on potential future fiscal impacts on both the Province's balance sheet and statement of operations.

The term of the agreement is to be for a period of 8 months and it is anticipated that the agreement will be executed on or around February 12, 2015.

Deliverables:

Working with management of OPCD's Accounting Policy and Financial Reporting Branch (APFR), the provider of complex accounting services related to IFRS as related to the Province's rate regulated entities, will provide assistance in assessing and documenting key considerations and recommendations for the following:

- The potential impact of IAS14 (transitional standard for rate-regulated entities) on the Province's 2014/15 Public Accounts and future years for Hydro One and Ontario Power Generation.
- The potential impact of IAS 14 on other Provincial entities including OEFC and IESO/OPA.
- The potential impact of an ultimate decision by the International Accounting Standards Board which does not reflect rate regulated activities consistent with past practice under Canadian GAAP or US GAAP.

If required, it is anticipated that the service provider will work with OPCD to present findings and analysis to the Office of the Auditor General in relation to planning for the 2014/15 Public Accounts. The service provider may also be called upon to participate in internal discussions to inform decisions regarding Provincial policy regarding the most appropriate accounting basis for the Province to apply in consolidation of OPG and H1 on the Province's books (i.e. IAS14 vs. US GAAP).

Procurement Methodology

In accordance with the MBC Procurement Directive, and as a Division of TBS, the Office of the Provincial Controller has identified the firm of KPMG from the existing General Management Vendor of Record as the preferred service provider.

Key factors in the decision included familiarity with the Province's rate-regulated entities and reporting thereby through past consultations on IFRS-related matters; experience in having provided advice and guidance to entities in the rate-regulated sector regarding the interpretation of the recently issued transitionary standard, IAS14. In particular, Michel Picard of KPMG has been actively involved in consulting with stakeholders in the Canadian electricity sector regarding rate regulated accounting, and providing support for the IASB's project on rate regulated accounting. OPCD has participated in discussions with Mr. Picard and representatives of OPG and Hydro One on matters related to interpretation of the IASB's interim standard. Mr. Picard is considered to be the best resource available to provide the required level of assistance.

As the estimated value of the contract is less than $25K, the Director of Accounting Policy and Financial Reporting will provide necessary authorization.

Ministry Consultation/Co-ordination

Both OEFC and the Ministry of Energy are aware of outstanding issues related to a potential change in basis for accounting for H1 and OPG effective January 1, 2015. OPCD continues to keep these key stakeholders informed of our progress on this matter and to solicit input where appropriate.

Alternative Sources of Information Required

Alternatives were considered, however the nature of services required for this particular purpose are most efficiently, economically and expediently obtained through this method. Internal OPS resources are not able to accommodate this requirement.

Time Lines

February 23, 2015 – February 12, 2016

Cost

These services are estimated to cost approximately $25,000.

Approvals (DOA):

Since the value is estimated to be $25,000, only the approval of the Director, Accounting Policy and Financial Reporting is required.

Business Case complex accounting service Deloitte Inc GBE and CL Final.pdf

Business Case
Complex Accounting Services
(Deloitte Inc. – GBE Consolidation and Contaminated Sites)

Objectives

Office of the Treasury Board (OTB), Office of the Provincial Controller Division (OPCD) requires the services of a public accounting firm to assist in assessing and documenting positions on accounting for the Province's government business enterprises under Public Sector Accounting Standards, including consideration of potential legislative options. In addition, OPCD may require specialized assistance to proactively address potential accounting and/or audit risks associated with implementing the public sector accounting board's (PSAB) new standard on contaminated land.

Timing of this engagement is critical to provide input to OPCD's analysis of risks and alternatives to help inform decisions, and to best positioned OPCD to defend a position to the AG and other stakeholders once it has been decided upon. In particular, the results of this engagement will help to inform decisions on potential regulations to address:

- The basis upon which GBEs should be consolidated (modified equity)
- The basis of reporting to be applied in consolidation of GBEs (especially as related to Hydro One and OPG)
- Dealing with accounting policy changes for GBEs with different reporting year-ends than the Province (i.e. December 31st) on the Province's financial reports.

In addition, OPCD may require assistance to help inform and defend positions to the AG in regards to implementation of PSAB's new standard on contaminated land.

The term of the agreement is to be for a period of 12 months and it is anticipated that the agreement will be executed on or around February 12, 2015.

Deliverables:

Working with management of OPCD's Accounting Policy and Financial Reporting Branch (APFR), the provider of complex accounting services related to:

1. Consolidation of the Province's GBEs will provide assistance in assessing and documenting key considerations and recommendations for each of the following:

    - The basis upon which GBEs should be consolidated (modified equity)
    - The basis of reporting to be applied in consolidation of GBEs (especially as related to Hydro One and OPG)
    - Dealing with accounting policy changes for GBEs with different reporting year-ends than the Province (i.e. December 31st) on the Province's financial reports.

2. Interpretation and implementation of PSAB's new standard on contaminated land as it relates to reporting in the Province's consolidated financial statements.

If required, it is anticipated that the service provider will work with OPCD to present findings and analysis to the Office of the Auditor General in relation to planning for the 2014/15 Public Accounts.

Procurement Methodology

In accordance with the MBC Procurement Directive, and as a Division of TBS, the Office of the Provincial Controller has selected Deloitte Inc. from the existing General Management Vendor of Record as the preferred service provider.

Key factors in the decision included familiarity with public sector accounting standards (PSAB), the province's accounting policies and in particular complexities related to the accounting for the Province's rate-regulated entities on the Province's consolidated financial statements.

Deloitte Inc.'s previous work on a complex accounting assignment related to consolidation of various electricity sector entities (OEFC, OPA, H1 and OPG) will be valuable in assessing the impact of various options on the reported results of various electricity sector entities (e.g. dedicated revenue for OEFC).

Deloitte Inc. has also been engaged by the Office of the Internal Auditor to provide advice and assurance on practical aspects related to implementation of PSAB's new standard on contaminated land as well as implementation of a centralized management process of land remediation. Engagement of Deloitte Inc. to provide potential support to OPCD on accounting and financial reporting matters related to PSAB's new standard is considered the most effective and economical alternative.

As the estimated value of the contract is less than $25K, the Director of Accounting Policy and Financial Reporting will provide necessary authorization.

Ministry Consultation/Co-ordination

Both OEFC and the Ministry of Energy are aware of outstanding issues related to a potential change in basis for accounting for H1 and OPG effective January 1, 2015. OPCD continues to keep these key stakeholders informed of our progress on this matter and to solicit input where appropriate.

Hi all,

These revisions were sent out by Steve last evening. Please review to ensure all the comments at the meeting yesterday were captured. Also, please review s. 4.01 in particular as based on discussions with Steve last evening the language was modified a bit to change it so the Province may disagree with the amount for the protection agreement maximum proposed by OPG on reasons related to the inconsistencies or inaccuracies as opposed to agreeing as opposed to confirming agreement. Please let us know if you have comments on this. Thanks.

Please find enclosed revised drafts of the Change of Law Protection Agreement and the Change of Law Process Agreement. I have also enclosed redlines to the drafts which Stephen circulated on November 2nd. The revised drafts and comments contained in these two agreements are a consolidation of comments from Osler and Torys. Please note that we have not had an opportunity to discuss all of the revisions and comments

contained in these revised drafts with OPG and the Dealers and therefore, are subject to any further comments which the Dealers and OPG may have.

The initial drafts of these two agreement have not been provided to the rating agencies for their review and therefore, further revisions may be required following their review and comment once drafts have been provided to them to review.

Subject: Change of Law Protection Agreement and Change of Law Process Agreement

Rima, Krista, Nina and Michael,

Here are drafts of the Change of Law Protection Agreement and Change of Law Process Agreement. Please note that while various people at the Province have provided considerable thought and input into these drafts, they remain subject to on-going review, comment and consideration (including where indicated in the drafts) by the Province, and of course remain subject to ultimate consideration and approval by the Ministers. This circulation is for discussion purposes only. Please feel free to circulate these drafts to OPG, E&Y, Osler and the Dealers, reflecting that understanding.

We propose that a consolidated mark-up be prepared that reflects all of the issues that you or those others may have, and ideally reflects input from the rating agencies. Once that mark-up is available, we propose that a meeting of interested parties be held to resolve any outstanding issues.

In the meantime, please feel free to call Malle, Toby, Tom, Alena or me if you have questions or concerns.

Regards, Steve

1.08 Severability

Each of the provisions contained in this Agreement is distinct and severable and a declaration of invalidity or unenforceability of any such provision or part thereof by a court of competent jurisdiction will not affect the validity or enforceability of any other provision hereof. To the extent permitted by applicable law, the parties waive any provision of law which renders any provision of this Agreement invalid or unenforceable in any respect. The parties will engage in good faith negotiations to replace any provision which is declared invalid or unenforceable with a valid and enforceable provision, the economic effect of which comes as close as possible to that of the invalid or unenforceable provision which it replaces.

1.09 Governing Law

THIS AGREEMENT WILL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE PROVINCE OF ONTARIO AND THE FEDERAL LAWS OF CANADA APPLICABLE THEREIN, AND THE OBLIGATIONS, RIGHTS AND REMEDIES OF THE PARTIES HEREUNDER SHALL BE DETERMINED IN ACCORDANCE WITH SUCH LAWS.

Except as expressly provided in this Agreement, no amendment or waiver of this Agreement will be binding unless executed in writing by the party to be bound thereby. A party's failure or delay in exercising any right under this Agreement will not operate as a waiver of that right. A single or partial exercise of any right will not preclude a party from any other or further exercise of that right or the exercise of any other right.

1.16 Interest Act

For the purpose of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest to which any rate of interest payable under this Agreement that is calculated on any basis other than a full calendar year is equivalent may be determined by multiplying such rate by a fraction, the numerator of which is the actual number of days in the calendar year in which such yearly rate of interest is to be ascertained and the denominator of which is the number of days comprising such other basis. The parties further agree that for the purposes of the *Interest Act* (Canada), (i) the principle of deemed reinvestment of interest shall not apply to any interest calculation under this Agreement, and (ii) the rates of interest stipulated in this Agreement are intended to be nominal rates and not effective rates or yields.

1.17 Currency

1.18 References to Acts of the Financing Entity ~~Trustee~~

1.19 Judgment Currency

(a) If for the purpose of obtaining judgment in any court or for any other purposes (other than conversions specifically provided for in the agreement under which an Approved Obligation arises), it is necessary to convert any amount due under this Agreement from the currency in which it is due (the "**Original Currency**") into another currency (the "**Second Currency**"), the rate of exchange applied shall be that at which, in accordance with normal banking procedures, the purchaser could purchase, in the New York foreign exchange market, the Original Currency with the Second Currency on the date on which judgment is given. The obligation of the Province in respect of any Original Currency due from it to the Indenture Trustee under this Agreement shall, notwithstanding any judgment or payment in such other currency, be discharged only to the extent that, on the Business Day following receipt of any sum so paid or adjudged to be due under this Agreement in the

Second Currency, the Indenture Trustee may, in accordance with normal banking procedures, purchase in the New York foreign exchange market the Original Currency with the amount of the Second Currency so paid or so adjudged to be due; and if the amount of the Original Currency so purchased is less than the amount originally due in the Original Currency, the ~~Financing Entity~~Province shall indemnify the Indenture Trustee against such loss.

(b) The term "rate of exchange" in this Section 1.19 means the spot rate at which the Indenture Trustee, in accordance with normal practice, is able on the relevant date to purchase the Original Currency with the Second Currency and includes any premium and costs of exchange payable in connection with such purchase.

ARTICLE II
AGREEMENT TO PERFORM APPROVED OBLIGATIONS

2.01 Limited Guarantee

(a) Upon the occurrence of a Protection Event, the Indenture Trustee may provide a written demand, in the form attached as Exhibit A (a "**Payment Demand**"), to the Province requiring the Province to pay the amount of the Approved Obligations ~~owing~~that would have been payable from Available Collections had the Protection Event not occurred[3] from time to time by the Financing Entity to the Indenture Trustee as and when they become due and payable, without Acceleration[1]. A Payment Demand will not be valid with respect to an Approved Obligation until the amount claimed becomes due and payable in respect of the Approved Obligation, ~~(~~without Acceleration~~)~~, in accordance with the Trust Indenture and has not otherwise been paid by the Financing Entity.

(b) Following receipt of a valid Payment Demand under Subsection 2.01(a), the Province shall pay the amounts ~~owing~~that would have been payable from Available Collections had the Protection Event not occurred by the Financing Entity to the Indenture Trustee, on behalf of the applicable Beneficiaries, in respect of each Approved Obligation[2], in each case as and when the Approved Obligation becomes due and payable in accordance with its terms and on its scheduled, specified or determined

[3] The amount "owing" under an obligation (i.e., balloon) will different from the amount available to be paid in respect of such owed amount (based on Available Collections). The Province is not obligated to pay more than the obligations that would have been paid from CEAs had they been collected.

~~[1] Consider mechanics for notifying the Province regarding the specific amounts payable and their due dates. Consider attaching a detailed schedule of payments under the Payment Demand and the respective due date of each payment.~~

~~[2] Under Subsection 5(3) of the Act, the Province can guarantee only obligations "associated with an investment interest". The guarantee in Section 2.01 of the draft agreement guarantees "Approved Obligations", which in turn relies on the definition of Primary Obligations. The connection between a Primary Obligations and an "investment interest" is therefore crucial. Blakes is considering how to more precisely connect these concepts.~~

payment date, as determined without regard to any Acceleration or rights of Acceleration arising under the Approved Obligation, in each case by the Province depositing or causing the deposit of the applicable payment amount into the ~~Collection Account~~ Protection Account[4] on or before the day on which the applicable Approved Obligation becomes due and payable in accordance with its terms (the "**Limited Guarantee**"). For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation~~, including (i) any amounts that are or become payable as a result of the exercise of an option of the Financing Entity following a Protection Event, and (ii) amounts required to be deposited by or on behalf of the Financing Entity into any Capital Account, Finance Reserve Account or a Supplemental Reserve Account~~.

(c) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

(d) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation.

(e) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits.

2.02 ~~Gross-up~~Intentionally Deleted.

~~[All amounts payable by the Province under this Agreement shall be made free and clear of and without deduction for or on account of any present or future taxes, charges, fees, levies, duties or withholdings of any kind. If the Province is obliged to deduct or withhold an amount in respect of any such taxes, charges, fees, levies, duties or withholdings, then in such event the Province shall deposit into the Collection Account such additional amount as is necessary to ensure that the Indenture Trustee receives (on an after-tax basis, after payment of any and all income taxes on such additional amounts) an amount equal to the full amount otherwise due and payable in respect of the related Approved Obligation, net of any such taxes, charges, fees, levies, duties or withholdings.]~~[3]

[4] Province needs to see how the Trust Indenture will be modified to address addition of Protection Account (i.e., payment mechanics; Protection Account to be part of the Collateral; mechanics of how funds move to Collection Account; absence of equitable claims; etc.). Province will need to know that all amounts will be applied for their intended purposes without undermining Province's step-in and subrogation rights.

[3] ~~Under consideration.~~

2.03 Absence of Set-off

~~The~~Subject to applicable law, the Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

2.04 Payment into ~~Collection~~Protection Account[5] in Satisfaction

(a) On or before the date of delivery of a Payment Demand to the Province, the Indenture Trustee shall cause to be established and maintained an Eligible Deposit Account (the "**Protection Account**") in the name of the Indenture Trustee, bearing a designation clearly indicating that the funds and other property credited thereto are held for the benefit of the Indenture Trustee and the Beneficiaries. The Protection Account shall be under the control of the Indenture Trustee for the benefit of the Beneficiaries. If, at any time, the institution holding the Protection Account ceases to be an Eligible Institution, the FSM shall notify the Indenture Trustee, and the Indenture Trustee upon being notified in writing of such ineligibility (or the FSM on its behalf) shall within 30 days (or such longer period, not to exceed 45 days, so long as the Rating Agency Condition is satisfied) establish a new Protection Account that is an Eligible Deposit Account and shall transfer any funds or other property from such Protection Account to such new Protection Account. From the date each such new Protection Account is established, it shall be the "Protection Account." for purposes of this Agreement. Funds credited to the Protection Account will be invested and held in accordance with Section 7.03 of the Trust Indenture on the basis that it is an Issuer Account.

(b) Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Indenture Trustee shall apply the full amount paid by the Province into the ~~Collection~~Protection Account in respect of an Approved Obligation to pay the corresponding amount due and payable to the applicable Beneficiaries under the Approved Obligation.[4] Upon a payment having been made by or on behalf of the Province into the ~~Collection~~Protection Account in respect of an Approved Obligation, the amount so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiaries and thereby reduce the amount due and payable ~~under~~to such Beneficiaries in respect of the Approved Obligation, whereupon an affected Beneficiary shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved

[5] Use of Protection Account to be considered by Province after required modifications to Trust Indenture have been provided.

[4] ~~This will need to operate in tandem with the Trust Indenture waterfall. The idea is that the Approved Obligations may not necessarily follow the sequence of the "payment waterfall" included in the Trust Indenture, and so amounts from the Province would need to operate independently.~~

Obligation to the extent so paid[5]6. For greater certainty, the obligations arising in respect of the Approved Obligation shall not be reduced by such payment as the Province shall become entitled to the rights contemplated under Section 5.01 in relation to such continuing obligations.

2.05 Certain Waivers

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety.

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

2.06 Additional Security

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

2.07 Continuing Liability of the Province

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Approved Obligations, whether such recovery or payment over is effected by any judgment,

[5] ~~Consider how Beneficiary rights under Obligations Secured will be amended under an agreement to which a Beneficiary is not directly a party. To achieve a binding relationship, a~~[6] A corresponding provision ~~should appear in~~needs to be added to the Trust Indenture and each other contract under which the Obligation Secured arises, ~~to the effect~~so that the Beneficiaries ~~will be deemed to be~~are bound by these applications and the agreement of the Indenture Trustee under this Agreement.

decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

2.08 Continuance of the Limited Guarantee

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations, or until the Province is no longer required to provide and perform the Limited Guarantee in accordance with Section 6.03~~]~~.

2.09 Modifications of Approved Obligations

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements and this Agreement, to:

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine,

provided, however, that the Indenture Trustee shall not permit any change, modification, alteration, amendment, supplement, extension, renewal, compromise, novation, replacement, suspension or waiver of the terms of all or any part of the Approved Obligations or any Collateral therefor expect with the prior written consent of the Province having first been obtained.

ARTICLE III
THE INDENTURE TRUSTEE

3.01 The Indenture Trustee

This Agreement is made in favour of the Indenture Trustee in its capacity as trustee under the Trust Indenture. Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the Indenture Trustee hereunder, but nevertheless, the Indenture Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Agreement. All provisions of the Trust Indenture for the protection of the Indenture Trustee or for facilitating the administration of the trusts or otherwise relating to the Indenture Trustee solely as to its holding of the rights thereunder shall apply *mutatis mutandis* to this Agreement and the Indenture Trustee's duties hereunder.

3.02 Acceptance of Trusts

The Indenture Trustee hereby accepts the trusts hereof and agrees to carry out and discharge the same unless and until a new trustee shall be appointed as contemplated in Section 3.01.

ARTICLE IV

~~RIGHTS OF THE~~ PROVINCE MATTERS

5.01 Assignment and Subrogation

~~Upon paying an amount in respect of an Approved Obligation:~~

~~(a) to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee; or~~

~~(b) as a result of assuming the Financing Entity's obligations in respect of all Obligations Secured under Article VI,~~

(a) Upon paying an amount in respect of an Approved Obligation to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee, the

[7] Province wants this mechanic embedded in the adherence conditions so it is explicitly understood and mechanically contemplated as the way the Province be sure future Limited Guarantees are cut-off opposite the indenture trustee.

Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation to the extent of such payment, including (i) the right and entitlement to be paid and receive distributions of such amount by the Financing Entity in accordance with and in the priority applicable to the Approved Obligation applicable in respect of the payment under the Trust Indenture, (ii) the benefits of the related Collateral and (iii) all proceeds therefrom. The Province shall have and be entitled to enforce all rights and interests (including as a ~~secured party~~Specified Creditor under the Trust Indenture~~)~~ on the basis contemplated in Section 5.01(b)), under and in respect of such Approved Obligation as an absolute assignee of the applicable Beneficiary, with effect from and after the time of such payment, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing by the Beneficiary to the Financing Entity and unaffected by any other rights or equities that arise thereafter as between the Beneficiary and the Financing Entity. The Indenture Trustee shall recognize the Province as being entitled to all of the rights, interests and entitlements of the Beneficiary (including~~, if applicable, as a Noteholder~~ as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)) in respect and to the extent of the Approved Obligation so paid, determined as of the time of payment, for all purposes under the Trust Indenture, and the Province shall be treated as a Specified Creditor in respect thereof for all purposes under the Trust Indenture and any other agreement under which the Approved Obligation arises.

(a) The Province (i) acknowledges and agrees in favour of the Indenture Trustee that, upon being subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation in accordance with Section 5.01(a), the Province, in its capacity as a Specified Creditor, will be subject to the provisions applicable to Specified Creditors under the Trust Indenture, including **[Section 7.11 (Payments Held in Trust), Section 8.12 (Limitation on Suits), Sections 7.04 and 8.13 (Payment Priorities), Section 8.14 (Limited Recourse) and Section 16.01 (No Petition) thereof]** and (ii) confirms that the Indenture Trustee shall send notices to the Province, in its capacity as a Specified Creditor, in accordance with Section 9.02.

5.02 Priorities

For greater certainty, the rights, interests and entitlements of the Province as an assignee and subrogee of and with respect to an Approved Obligation shall rank equally with the rights, interests and entitlements of a Beneficiary for whom a Limited Guarantee payment is made in respect of, and to the extent of the payment made to satisfy, the Approved Obligation and the Province shall not be subject to postponement or subordination with respect thereto except to the extent of the priorities established in relation to the Approved Obligation under the Trust Indenture.

~~5.03 Voting Rights under "Outstanding Notes"~~

~~Notwithstanding the last three sentences of the definition of "Outstanding" in the Trust Indenture[7]:~~

~~(a) Notes in connection with Approved Obligations in respect of which the Province has rights and interest pursuant to Section 5.01 shall be regarded as "Outstanding" within the meaning of the Trust Indenture; and~~

~~(b) in determining whether Noteholders of the requisite principal amount of Notes that are Outstanding (as defined in the Trust Indenture) have taken any Action under the Trust Indenture, and for the purposes of Article X of the Trust Indenture, the Province shall be deemed to have the amount of Outstanding (as defined in the Trust Indenture) Notes in proportion to its interest in such Notes based on the amounts that the Province has paid in respect of Approved Obligations under this Agreement.~~

5.03 ~~5.04~~ Province May Perform Other Program Agreement Covenants.

If the Financing Entity fails to perform any covenant under any Program Agreement, the Province may (but, except as expressly provided for under this Agreement, shall not be obligated to) perform such covenant on behalf of the Financing Entity. If the Province performs such a covenant on behalf of the Financing Entity, all sums expended or advanced by the Province in so performing the covenant will bear interest at the rate of interest determined by the Province to reflect market terms and conditions for a borrowing made by the Province at the relevant time from the date of expenditure until repayment by the Financing Entity and will (together with such interest) be paid by the Financing Entity upon demand and will until paid form part of the Obligations Secured subject to Sections **[7.04 and 8.13]** of the Trust Indenture and constitute a Finance Amount.[8]

5.04 Representations and Warranties

The Province hereby represents and warrants that:

(a) the execution, delivery and performance of this Agreement by the Province have been authorized by all necessary action on the part of the Province;

(b) the execution, delivery and performance of this Agreement by the Province do not result in the violation of any applicable law; and

(c) this Agreement has been duly executed and delivered by the Province.

[7] ~~This concept needs to be reflected in the Trust Indenture.~~

[8] ~~General Regulation to be revised such that "Finance Amount" picks up guarantor amounts. Under consideration by MOE~~ Payments to be addressed in the Trust Indenture like servicer advances under the waterfall provisions.

ARTICLE VI
NOTICE OF ASSUMPTION OF OBLIGATIONS SECURED

6.01 Delivery of Assumption Notice

Following the occurrence of a Protection Event, the Province may provide notice (in the form of Exhibit B) to the Indenture Trustee, in accordance with the terms of the Process Agreement, that the Province has elected to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor (the "**Assumption Notice**"). The Assumption Notice shall specify the date on which the assignment and assumption of the Obligations Secured will be effective (the "**Assumption Closing Date**").

6.02 Cooperation to Implement the Assignment and Assumption

The Indenture Trustee, the FSM, the Financing Entity and the Province will cooperate and use best efforts to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the Assumption Closing Date.[9]

6.03 Effect of Assumption

On the date that the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province becomes effective (the "**Assumption Effective Date**"), the Province shall no longer be required to provide and perform the Limited Guarantee~~.~~ but will instead become a primary obligor under the Obligations Secured assumed pursuant to and in accordance with an applicable Assumption Agreement. For greater certainty, the obligations of the Province so assumed will not be secured obligations of the Province and the obligees thereof will have no right, interest or claim to or in respect of the Collateral or any proceeds therefrom. **[NTD: Need to move Article VI of the Change of Law Process Agreement into this Article VI and amend accordingly.[10] Also, we will need to attach the form of Assumption Agreement as an Exhibit to this Agreement that will be used for the assignment and assumption of all Obligations Secured. Contrary to the statement in Section 6.02(f) of the Change of Law Protection Agreement, there will not be a separate form of Assumption Agreement for each Obligation Secured.[11]]**

6.04 Interim Period

Until the effective time of the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province on the Assumption Effective Date, the Province shall continue to perform and be obligated under the Limited Guarantee.

---

[9] Further details regarding obtaining of third party consents and rating agency approvals to be ~~considered~~provided by OPG.

[10] The idea was to not burden the external agreement with the necessary steps for the Province to be in a position to step-in. If the preference is to include more in this external agreement, the Province will not object subject to further consideration of drafting issues.

[11] It has been assumed that there may be variations depending on the nature of the underlying obligations. A root form of Assumption Agreement, modified to conform substantially to that form in connection with a particular obligation, was the idea. To be further discussed.

6.05 Rights in respect of the Assets Comprising the Collateral

Upon assuming the Financing Entity's obligations in respect of all Obligations Secured under Article VI, the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the Financing Entity's rights and interests under and in respect of the assets, property and undertaking comprising the Collateral and all proceeds therefrom, free and clear of any liens, encumbrances or restrictions arising under or as a result of the Trust Indenture. The Province shall have and be entitled to enforce all such rights and interests as an absolute assignee of the Financing Entity, with effect from and after the time of such assumption, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing to the Financing Entity and unaffected by any other rights, interests or equities that arise thereafter in respect of the assets, property and undertaking comprising the Collateral as between the Beneficiaries and the Financing Entity. The Indenture Trustee shall thereupon recognize the Province as the absolute owner of the assets, property and undertaking comprising the Collateral.

ARTICLE VII

the execution, delivery and performance by it of this Agreement and other documents to which it is a party;

(c) each of this Agreement and the other documents to which it is a party has been duly executed and delivered by the Indenture Trustee and constitutes its legal, valid and binding obligation in accordance with its terms; and

~~(a) The Indenture Trustee shall not execute instruments to release Collateral from the Security Interest of the Trust Indenture, or convey the Indenture Trustee's interest (which is held by the Indenture Trustee for the benefit of the Specified Creditors) in the same, unless and until the rights and interests of the Province under Section 5.01 or otherwise as an assignee of any of the Obligations Secured or as a subrogee have been satisfied in full and the Province has no continuing obligations under this Agreement.~~

~~(b) The Province shall be entitled to receive at least 10 Business Days' written notice when the Indenture Trustee proposes to take any action pursuant to Subsection 7.04(a), accompanied by copies of any instruments involved.~~

~~7.05 Right to Notice and Attend Meetings~~

~~The Financing Entity shall ensure that the Province receives advance notice of any meeting or proposed written resolution of Specified Creditors (or any of them) and the Province and its legal advisers shall be permitted to attend and be represented at any meeting of such Specified Creditors.~~

ARTICLE VIII
SUSPENSION OF ADHERENCE FOR NEW PRIMARY OBLIGATIONS

8.01 ~~Suspension Notice~~Suspension Notice

A written notice in the form of Exhibit C (a "**Suspension Notice**") may be provided by the Province to the Indenture Trustee, the FSM and the Financing Entity:

(a) ~~shall be provided by the FSM or the Province to the Indenture Trustee promptly following~~upon the Province becoming aware of the occurrence of a Program Breach; and

(b) ~~may be provided by the Province to the Indenture Trustee, the FSM and the Financing Entity~~ following the occurrence of a Breach Event that has not been waived in writing by the Province.

8.02 Suspension

If a Suspension Notice has been provided under Section 8.01 (the provision of such notice being a "**Suspension Event**"), the ~~Financing Entity~~Limited Guarantee shall not ~~incur~~apply in respect of any ~~new or additional Obligation Secured and shall not amend or terminate any existing Obligation Secured except with the prior written consent of the Province~~Obligation Secured incurred on or after the time such Suspension Notice is delivered. 8.04 No Impact on Adherence

For greater certainty, the occurrence of Suspension Event or a failure by the FSM or the Financing Entity to perform its covenants under this Agreement will not invalidate or extinguish the obligations of the Province under the Limited Guarantee in respect of Approved Obligations in existence prior to the occurrence of the Suspension Event, nor will it in any way impact the Obligations Secured which are assumed by the Province in accordance with Article VI.

ARTICLE IX
MISCELLANEOUS

9.01 Term of Agreement

This Agreement will continue until the later of:

(a) the date that no amount is or may become due and payable by the Province under the Limited Guarantee; and

(b) the date that a Termination Notice delivered in accordance with Section 8.03 is received by the Indenture Trustee, the FSM and the Financing Entity.

[12] The suspension right in favour of the Province is intended to allow the Province to cut-off future obligations under this Agreement, but not affect rights that have arisen prior to the suspension notice. The termination notice is a further step that allows the Province to bring this agreement to an end, but that only happens (under section 9.01) after all amounts capable of becoming due under the Limited Guarantee have been paid (i.e., the last obligation incurred prior to the suspension notice has been satisfied), including as a result of an assumption under Art VI.

This **AGREEMENT**, among Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), ~~Ontario Power Generation Inc., as the Manager and~~Computershare Trust Company of Canada, in its capacity as ~~Manager~~trustee (the "**Financing Entity Trustee**") of Fair Hydro Trust, a trust ~~settled by the FSM~~ under the laws of the Province of Ontario (the "**Financing Entity**")[1], Ontario Power Generation Inc., in its capacity as Manager of the Financing Entity~~"), Ontario Power Generation Inc.~~ and in its capacity as the Financial Services Manager in accordance with the Act (the "**FSM**") and BNY Trust Company of Canada, a trust company existing under the laws of Canada, as Indenture Trustee ~~and in its capacity as trustee for the Beneficiaries in accordance with the Trust Indenture~~, is made and entered into as of [■], 2017.

RECITALS

Pursuant to Subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**"), the Lieutenant Governor in Council may by order, authorize the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to agree to guarantee or indemnify certain debts, obligations, securities or undertakings associated with an Investment Interest.

Pursuant to an Order in Council dated as of ■ (the "**OIC**"), the Lieutenant Governor in Council has, among other things, authorized the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to enter into one or more agreements to guarantee or indemnify the debts, obligations, securities or undertakings of one or more financing entities established or caused to be established pursuant to Subsection 22(2) of the Act by the FSM and that may incur Funding Obligations in connection with one or more Investment Interests.

Pursuant to a Declaration of Trust[2] dated as of ■, 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

The ~~FSM, as agent of the~~ Financing Entity Trustee, in its capacity as trustee of the Financing Entity, and the Indenture Trustee are parties to the Trust Indenture and propose to create and issue series of notes, bonds and other securities as contemplated therein, and to provide security over the assets and undertaking of the Financing Entity in respect of such notes, bonds and securities, as well as other Obligations Secured.

The Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, have determined to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the

time the Approved Obligation is incurred or amended. This Agreement sets out the terms and conditions of such protections and assurances.

The FSM and the Province will concurrently enter into the Process Agreement, under which the FSM will agree to perform certain related activities and to provide certain assurances on which the Province will rely, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation and ensuring that the Province's assumption right may be exercised without impediment on the terms and conditions contemplated in this Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of the Province, the Financing Entity, the FSM and the Indenture Trustee, in accordance with the Act, the OIC and the Trust Indenture, have been done.

AGREEMENT OF THE PARTIES

In consideration of the respective agreements herein contained, the parties hereto covenant and agree as follows:

Any statement of account prepared by the Indenture Trustee as regards the Primary Obligations shall constitute *prima facie* evidence of the amount which, as at the date of the statement so prepared, is due and payable by the Financing Entity to the Beneficiaries and/or the Indenture Trustee and the Province hereby acknowledges and agrees that, absent manifest error, it shall be bound by each such statement. 1.07 ~~1.06~~ Successors and Assigns

All covenants and agreements in this Agreement by the parties will bind their respective successors and permitted assigns, whether so expressed or not. All covenants and agreements of the Indenture Trustee, the Financing Entity, the Financing Entity Trustee or the FSM in this Agreement shall bind their respective successors, co-trustees and agents.

1.08 ~~1.07~~ Severability

Each of the provisions contained in this Agreement is distinct and severable and a declaration of invalidity or unenforceability of any such provision or part thereof by a court of competent jurisdiction will not affect the validity or enforceability of any other provision hereof. To the extent permitted by applicable law, the parties waive any provision of law which renders any provision of this Agreement invalid or unenforceable in any respect. The parties will engage in good faith negotiations to replace any provision which is declared invalid or unenforceable with a valid and enforceable provision, the economic effect of which comes as close as possible to that of the invalid or unenforceable provision which it replaces.

1.09 ~~1.08~~ Governing Law

THIS AGREEMENT WILL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE PROVINCE OF ONTARIO AND THE FEDERAL LAWS OF CANADA APPLICABLE THEREIN, AND THE OBLIGATIONS, RIGHTS AND REMEDIES OF THE PARTIES HEREUNDER SHALL BE DETERMINED IN ACCORDANCE WITH SUCH LAWS.

1.15 ~~1.14~~ Waiver, Amendment

Except as expressly provided in this Agreement, no amendment or waiver of this Agreement will be binding unless executed in writing by the party to be bound thereby. No waiver of any provision of this Agreement will constitute a waiver of any other provision nor will any waiver of any provision of this Agreement constitute a continuing waiver unless otherwise expressly provided. A party's failure or delay in exercising any right under this Agreement will not operate as a waiver of that right. For the purpose of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest to which any rate of interest payable under this Agreement that is calculated on any basis other than a full calendar year is equivalent may be determined by multiplying such rate by a fraction, the numerator of which is the actual number of days in the calendar year in which such yearly rate of interest is to be ascertained and the denominator of which is the number of days comprising such other basis. The parties further agree that for the purposes of the *Interest Act* (Canada), (i) the principle of deemed reinvestment of interest shall not apply to any interest calculation under this Agreement, and (ii) the rates of interest stipulated in this Agreement are intended to be nominal rates and not effective rates or yields.

1.17 ~~1.16~~ Currency

Unless stated otherwise, all amounts herein are stated in Canadian Dollars.

1.18 ~~1.17~~ References to Acts of the Financing Entity

For greater certainty, where any reference is made in this Agreement, or in any other instrument executed pursuant hereto or contemplated hereby to which the Financing Entity or the Financing Entity Trustee, as trustee of the Financing Entity, is party, to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against, or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to (i) the Financing Entity or (ii) the Financing Entity Trustee, such reference shall be construed and applied for all purposes as if it referred to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to, ~~the FSM as agent for~~ the Financing Entity Trustee ~~(in its capacity~~ as trustee of the Financing Entity~~). [NTD: Discuss whether the Financing Entity Trustee should be a party to this Agreement and references to the Financing Entity Trustee re-inserted into this section and others.]~~.

1.19 ~~1.18~~ Judgment Currency

(a) If for the purpose of obtaining judgment in any court or for any other purposes (other than conversions specifically provided for in the agreement under which an Approved Obligation arises), it is necessary to convert any amount due under this Agreement from the currency in which it is due (the "**Original Currency**") into another currency (the "**Second Currency**"), the rate of exchange applied shall be that at which, in accordance with normal banking procedures, the purchaser could purchase, in the New York foreign exchange market, the Original Currency with the Second Currency on the date on which judgment is given. The obligation of the Province in respect of any Original Currency due from it to the Indenture Trustee under this Agreement shall,

notwithstanding any judgment or payment in such other currency, be discharged only to the extent that, on the Business Day following receipt of any sum so paid or adjudged to be due under this Agreement in the Second Currency, the Indenture Trustee may, in accordance with normal banking procedures, purchase in the New York foreign exchange market the Original Currency with the amount of the Second Currency so paid or so adjudged to be due; and if the amount of the Original Currency so purchased is less than the amount originally due in the Original Currency, the Province shall indemnify the Indenture Trustee against such loss.

(b) The term "rate of exchange" in this Section 1.19 means the spot rate at which the Indenture Trustee, in accordance with normal practice, is able on the relevant date to purchase the Original Currency with the Second Currency and includes any premium and costs of exchange payable in connection with such purchase.

ARTICLE II
AGREEMENT TO PERFORM APPROVED OBLIGATIONS

2.01 Limited Guarantee

(a) Upon the occurrence of a Protection Event, the Indenture Trustee may provide a written demand, in the form attached as Exhibit A (a "**Payment Demand**"), to the Province requiring the Province to pay the amount of the Approved Obligations ~~owing~~that would have been payable from Available Collections had the Protection Event not occurred[3] from time to time by the Financing Entity to the Indenture Trustee as and when they become due and payable[1], without Acceleration. A Payment Demand will not be valid with respect to an Approved Obligation until the amount claimed becomes due and payable in respect of the Approved Obligation, ~~,~~ without Acceleration, in accordance with the Trust Indenture and has not otherwise been paid by the Financing Entity.

(b) Following receipt of a valid Payment Demand under Subsection 2.01(a), the Province shall pay the amounts ~~owing~~that would have been payable from Available Collections had the Protection Event not occurred by the Financing Entity to the Indenture Trustee, on behalf of the applicable Beneficiaries, in respect of each Approved Obligation[2], in each case as

[3] The amount "owing" under an obligation (i.e., balloon) will different from the amount available to be paid in respect of such owed amount (based on Available Collections). The Province is not obligated to pay more than the obligations that would have been paid from CEAs had they been collected.

[1] ~~Consider mechanics for notifying the Province regarding the specific amounts payable and their due dates. Consider attaching a detailed schedule of payments under the Payment Demand and the respective due date of each payment.~~

[2] ~~Under Subsection 5(3) of the Act, the Province can guarantee only obligations "associated with an investment interest". The guarantee in Section 2.01 of the draft agreement guarantees "Approved Obligations", which in turn relies on the definition of Primary Obligations. The connection between a Primary Obligations and an "investment interest" is therefore crucial. Blakes is considering how to more precisely connect these concepts.~~

and when the Approved Obligation becomes due and payable in accordance with its terms and on its scheduled, specified or determined payment date, as determined without regard to any Acceleration or rights of Acceleration arising under the Approved Obligation, in each case by the Province depositing or causing the deposit of the applicable payment amount into the Protection Account ~~5 Business Days prior to the fifteen day of each calendar month~~[4] on or before the day on which the applicable Approved Obligation becomes due and payable in accordance with its terms (the "**Limited Guarantee**"). For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation.

(c) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

(d) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation.

(e) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits.

2.02 ~~Gross-up~~Intentionally Deleted.

~~All amounts payable by the Province under this Agreement shall be made free and clear of and without deduction for or on account of any present or future taxes, charges, fees, levies, duties or withholdings of any kind. If the Province is obliged to deduct or withhold an amount in respect of any such taxes, charges, fees, levies, duties or withholdings, then in such event the Province shall deposit into the Protection Account such additional amount as is necessary to ensure that the Indenture Trustee receives (on an after tax basis, after payment of any and all income taxes on such additional amounts) an amount equal to the full amount otherwise due and payable in respect of the related Approved Obligation, net of any such taxes, charges, fees, levies, duties or withholdings.~~

2.03 Absence of Set-off

~~The~~Subject to applicable law, the Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as

[4] Province needs to see how the Trust Indenture will be modified to address addition of Protection Account (i.e., payment mechanics; Protection Account to be part of the Collateral; mechanics of how funds move to Collection Account; absence of equitable claims; etc.). Province will need to know that all amounts will be applied for their intended purposes without undermining Province's step-in and subrogation rights.

required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

2.04 Payment into Protection Account[5] in Satisfaction

(a) On or before the date of delivery of a Payment Demand to the Province, the Indenture Trustee shall cause to be established and maintained an Eligible Deposit Account (the "**Protection Account**") in the name of the Indenture Trustee, bearing a designation clearly indicating that the funds and other property credited thereto are held for the benefit of the Indenture Trustee and the Beneficiaries. The Protection Account shall be under the control of the Indenture Trustee for the benefit of the Beneficiaries. If, at any time, the institution holding the Protection Account ceases to be an Eligible Institution, the FSM shall notify the Indenture Trustee, and the Indenture Trustee upon being notified in writing of such ineligibility (or the FSM on its behalf) shall within 30 days (or such longer period, not to exceed 45 days, so long as the Rating Agency Condition is satisfied) establish a new Protection Account that is an Eligible Deposit Account and shall transfer any funds or other property from such Protection Account to such new Protection Account. From the date each such new Protection Account is established, it shall be the "Protection Account." for purposes of this Agreement. Funds credited to the Protection Account will be invested and held in accordance with Section 7.03 of the Trust Indenture ~~as if~~on the basis that it ~~were~~is an Issuer Account.

(b) Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Indenture Trustee shall apply the full amount paid by the Province into the Protection Account in respect of an Approved Obligation to pay the corresponding amount due and payable to the applicable Beneficiaries under the Approved Obligation. Upon a payment having been made by or on behalf of the Province into the Protection Account in respect of an Approved Obligation, the amount so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiaries and thereby reduce the amount due and payable ~~under~~to such Beneficiaries in respect of the Approved Obligation, whereupon an affected Beneficiary shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid~~3~~[6]. For greater certainty, the obligations arising in respect of the Approved Obligation shall not be reduced by such payment as the Province shall become

[5] Use of Protection Account to be considered by Province after required modifications to Trust Indenture have been provided.

~~3 Consider how Beneficiary rights under Obligations Secured will be amended under an agreement to which a Beneficiary is not directly a party. To achieve a binding relationship, a~~[6] A corresponding provision ~~should appear in~~needs to be added to the Trust Indenture and each other contract under which the Obligation Secured arises, ~~to the effect~~so that the Beneficiaries ~~will be deemed to be~~are bound by these applications and the agreement of the Indenture Trustee under this Agreement. ~~Please see our addition in Section 9.08. The Specified Creditors already make the necessary acknowledgement in Article 5 of the Trust Indenture. Isn't this also addressed in section 1.03 above?~~

entitled to the rights contemplated under Section 5.01 in relation to such continuing obligations.

2.05 Certain Waivers

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety. ~~**[NTD: Further consideration required as to whether there should be a waiver of any other equitable defences.]**~~

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

2.06 Additional Security

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

2.07 Continuing Liability of the Province

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Approved Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

2.08 Continuance of the Limited Guarantee

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations ~~and termination of the Trust Indenture~~, or until the Province is no longer required to provide and perform the Limited Guarantee in accordance with Section 6.03.

2.09 Modifications of Approved Obligations

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements and this Agreement, to:

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

HER MAJESTY THE QUEEN IN RIGHT OF ONTARIO, AS REPRESENTED BY THE MINISTER OF ENERGY AND THE MINISTER OF FINANCE

AND

ONTARIO POWER GENERATION INC.[, AS FINANCIAL SERVICES MANAGER[1]]

CHANGE OF LAW PROCESS AGREEMENT

Dated as of [■], 2017

[1] OPG to consider if this agreement should form part of the overall covenant pattern (Program Agreement). We assume not. If OPG signs as FSM, consider the potential impact on the Trust, if the FSM is considered to be contracting on behalf of the Trust as principal. The intention was to keep these terms 'behind the scenes' and as between OPG and the Province.

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**")[, as Financial Services Manager for the Financing Entity in accordance with the Act,] is made and entered into as of [■], 2017.

RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.

Pursuant to a Declaration of Trust dated as of [■], 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.[1]

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended.

Prior to entering into this Agreement, the [FSM] provided the Province with copies of certain of the Transaction Documents, and the Province has confirmed by a notice delivered to [the FSM] that the reviewed forms (as further described in such notice) shall be Reviewed Documentation for the purposes of this Agreement.

This Agreement sets out the obligations [the FSM] has agreed to perform and assurances [the FSM] has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation, maintaining information related to the Program Agreements and the Approved Obligations, and ensuring that the Province's assumption rights pursuant to Article VI of the Change of Law Protection Agreement may be exercised without impediment on the terms and conditions contemplated in this Agreement and the Change of Law Protection Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of [the FSM], and of the Province in accordance with the Act, have been done.

[1] ~~Note: This draft only addresses the first Financing Entity. If additional financing entities are established, revisions to this Agreement may be made at that time, in context. Any additional financing entities contemplated should be as contemplated in the Financing Plan.~~

ARTICLE VI
ELECTION[2] TO ASSUME APPROVED OBLIGATIONS~~[2]~~

6.01 Election by the Province

At any time following the occurrence of a Protection Event, the Province may (but shall not be obligated) elect to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor. To make such election, the Province shall duly complete and deliver to [the FSM] a notice in the form of Exhibit A (an "**Election Notice**"), which in turn will set forth the form of agreement (an "**Assumption Agreement**") setting forth the material terms and conditions under which the Province would assume and become obligated under each of the Obligations Secured. The Election Notice shall, among other things, specify the date on which the Province proposes to assume the Obligations Secured, which date shall be no earlier than 20 Business Days following delivery of the Election Notice to [the FSM] (the "**Proposed Assumption Date**").

6.02 Details regarding Obligations Secured

Promptly following the delivery of the Election Notice to [the FSM], [the FSM] shall provide the following information and documentation to the Province:

(a) a summary of the amounts that will be owing under all Obligations Secured as of the Proposed Assumption Date, together with a detailed schedule setting out the dates on which such amounts will become due and payable under the Obligations Secured;

(b) a summary of the rights arising under the Obligations Secured that permit the Financing Entity to assign the Obligations Secured to the Province, including details regarding any conditions precedent to such assignment and the related assumption becoming effective and any notices, filings, consents or other actions that will be required in order to implement and effect such assignment and assumption;

(c) current versions of all documentation under which the Obligations Secured arise;

(d) copies of all correspondence exchanged between OPG, as the FSM, or the Financing Entity, on the one hand, and any Specified Creditor, Rating Agency or the Indenture Trustee, on the other hand, in each case that may reasonably be considered to be material to the assumption and performance of the Obligations Secured by the Province;

[2] OPG's proposal to move Art VI to the Protection Agreement is not consistent with the original basis for the Process Agreement - to keep the details and plumbing out of the "external" document. If we move toward putting all of this into the Protection Agreement, it will raise additional drafting issues (e.g., we will have to have a parallel "Breach Event" concept in the Protection Agreement that will deal with these sorts of undertakings and allow for a suspension of the Limited Guarantee). OPG to advise if that approach is preferred.

~~[2] Note to Province/Blakes: Article 6 to be moved and merged with Article 6 of the Change of Law Protection Agreement with appropriate revisions. It is more appropriate in that agreement. See also the comments in Article 6 of the Change of Law Protection Agreement.~~

(e) all income tax returns and assessments, financial statements and notices of proceedings of or pertaining to the Financing Entity or its business and any documentation related thereto, including any pleadings, appeals, objections, qualifications or other similar materials in respect of the Financing Entity or any Program Agreement; and

(f) the form of Assumption Agreement in respect of the assignment and assumption of all Obligations Secured ~~is~~ attached as Exhibit E to the Change of Law Protection Agreement.[3]

6.03 Settlement of Terms

Within ~~20~~30 Business Days following receipt by the Province of the information and documentation to be provided under Section 6.02, the Province shall confirm in writing whether or not it will proceed with the assignment and assumption of the Obligations Secured and, if it will be proceeding with the assignment and assumption, the date on which the Province intends that assignment and assumption will be effected, which may not be earlier than the Proposed Assumption Date. If it will be proceeding with such assignment and assumption, the Province will deliver an Assumption Notice as contemplated under Section 6.01 of the Change of Law Protection Agreement, which will specify such date as the "Assumption Closing Date" for the purposes thereof.

6.04 Cooperation to Implement the Assignment and Assumption

[The FSM] shall cooperate with the Province and will use commercially reasonable efforts to cause the Financing Entity to cooperate, and shall use its commercially reasonable efforts, to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the applicable Assumption Closing Date.[4]

6.05 Terms of Obligations Secured

In order to permit the Province to assume the Obligations Secured in the circumstances contemplated herein, [the FSM ~~will use commercially reasonable efforts to~~] shall cause the Financing Entity ~~to, use commercially reasonably efforts~~ to ensure that all Obligations Secured permit such an assignment to and assumption by the Province substantially in accordance with the terms and on the basis contemplated in the Assumption Agreement, without any penalty or make-whole payment, or any requirement for further consent, approval or agreement, or alternatively, in the case of any Obligations Secured entered into by or on behalf of the Financing Entity for the provision of on-going services to the Financing Entity permitting the satisfaction and termination of such Obligations Secured on or prior to the effective time of such assumption without any acceleration of future fees, profits or other like amounts~~; provided that, this Section 6.05 shall not apply to any Obligations Secured~~, other than to the extent of payment obligations

[3] ~~Note to Province: A~~Torys to provide a draft of the proposed form of global Assumption Agreement for all Obligations Secured ~~is required. It is impractical to have an~~. The Province may be guided by OPG on this, but we note that it seems simplistic to think that the same assumption agreement ~~for each type of Obligation Secured~~will work for swaps, debt and service obligations.

[4] ~~Note: Further details regarding obtaining of third party consents and rating agency approvals to be considered.~~

arise under market standard mark-to-market payment terms and conditions included on a commercially reasonable basis under a Derivative Agreement.[~~5~~4]

ARTICLE VII
BREACH EVENTS

7.01 Breach Events

"**Breach Event**" shall mean the occurrence or existence of any one or more of the following:

(a) a default in the performance, or breach, of any covenants of [the FSM] under this Agreement, which continues for ~~sixty~~thirty (~~60~~30) days after written notice by the Province to [the FSM] of such default or breach;

(b) any representation or warranty made by [the FSM] in this Agreement, any certification made in a Process Certificate, or any certification made in a certificate contemplated by Section ~~4.03~~4.02 of the Change of Law Protection Agreement, proves to be incorrect on the date made and, if curable, is not cured within ~~sixty~~thirty (~~60~~30) days after written notice by the Province to [the FSM] of such misrepresentation; or

(c) OPG is no longer the Manager or actions have been taken by or on behalf of the Indenture Trustee to remove OPG as the Manager. ~~**[NTD: The FSM is a statutory role and OPG can only be removed as FSM by the Province.]**~~

7.02 Notice on Breach Event

If any Breach Event shall have occurred and not been waived in writing by the Province, the Province shall have the right at its option, upon written notice to [the FSM], and in addition to and not in substitution for any other remedies available hereunder at law or equity, to provide a Suspension Notice to the Indenture Trustee, [the FSM] and the Financing Entity in accordance with the terms of the Change of Law Protection Agreement.

[~~5~~] ~~Note:~~ [4]The Trust Indenture will need to ~~include a clause providing that~~permit the obligations of the Financing Entity to the Indenture Trustee and the Noteholders ~~may~~to be assigned to and assumed by the Province in accordance with an assumption agreement, substantially in ~~the~~a form of agreement to be set out in an exhibit to the Trust Indenture. ~~**[NTD: The form of Assumption Agreement shall**~~The Province agrees that the same form of the assumption agreement should also be an exhibit to the Change of Law Protection Agreement ~~**(consistent with our comment to move Article 6 here to the Change of Law Protection Agreement). We**~~, The Trust Indenture will need to be revised to ensure that the Province's assignment and assumption right is fully contemplated and may be implemented without any requirement for further Specified Creditor or other third party consents. Among other changes, it is contemplated that Torys will add the following to the MTI to ~~**otherwise**~~ address ~~**your comment**~~this requirement: (i) Specified Creditors will be required to acknowledge the rights of the Province to assume the Obligations Secured ~~**pursuant to Sections 5.01(f) and 5.03(b) of the MTI, and (ii) we will add language in section 11.01 of the MTI that allows**~~on the basis contemplated in the form of assumption agreement, and (ii) the Indenture Trustee will be permitted to enter into and give effect to the global Assumption Agreement without the consent of Specified Creditors or any other third parties.~~**]**

Draft: November 14, 2017

HER MAJESTY THE QUEEN IN RIGHT OF ONTARIO, AS REPRESENTED BY THE MINISTER OF ENERGY AND THE MINISTER OF FINANCE

AND

ONTARIO POWER GENERATION INC.[, AS FINANCIAL SERVICES MANAGER[1]]

CHANGE OF LAW PROCESS AGREEMENT

Dated as of [■], 2017

[1] OPG to consider if this agreement should form part of the overall covenant pattern (Program Agreement). We assume not. If OPG signs as FSM, consider the potential impact on the Trust, if the FSM is considered to be contracting on behalf of the Trust as principal. The intention was to keep these terms 'behind the scenes' and as between OPG and the Province.

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**")[, as Financial Services Manager for the Financing Entity in accordance with the Act,] is made and entered into as of [■], 2017.

RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.

Pursuant to a Declaration of Trust dated as of [■], 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended.

Prior to entering into this Agreement, the [FSM] provided the Province with copies of certain of the Transaction Documents, and the Province has confirmed by a notice delivered to [the FSM] that the reviewed forms (as further described in such notice) shall be Reviewed Documentation for the purposes of this Agreement.

This Agreement sets out the obligations [the FSM] has agreed to perform and assurances [the FSM] has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation, maintaining information related to the Program Agreements and the Approved Obligations, and ensuring that the Province's assumption rights pursuant to Article VI of the Change of Law Protection Agreement may be exercised without impediment on the terms and conditions contemplated in this Agreement and the Change of Law Protection Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of [the FSM], and of the Province in accordance with the Act, have been done.

AGREEMENT OF THE PARTIES

In consideration of the respective agreements herein contained, the parties hereto covenant and agree as follows:

2.02 Covenants

(a) [The FSM] shall use commercially reasonable efforts to cause the Financing Entity to:

(i) punctually perform and observe all of its obligations and agreements contained in the Program Agreements;

(ii) ensure that all Obligations Secured are incurred pursuant to and in accordance with the terms and conditions of the Trust Indenture;

(iii) ensure that no obligations other than the Obligations Secured are incurred by or on behalf of the Financing Entity;

(iv) not engage in any business other than as permitted under the Declaration of Trust or the other Program Agreements and activities ancillary thereto; and

(v) not:

(A) amend, supplement, modify, restate or replace or waive or consent to a postponement of compliance with the terms and conditions on the part of any other party to any of the Program Agreements, if any such supplementation, amendment, modification, restatement or replacement or waiver or consent could reasonably be considered to be materially prejudicial to the rights or interests of the Province under the Change of Law Protection Agreement;

(B) consent to the resignation of the Manager under the Management Agreement; or

(C) permit the validity or effectiveness of the Change of Law Protection Agreement to be impaired.

(b) [The FSM] shall:

(i) comply, and shall use commercially reasonable efforts to cause compliance by the Financing Entity, with the Act, the General Regulation and any other enactment related thereto;

(ii) promptly notify the Province of the creation of any Funding Obligation that is not or would not be an Approved Obligation; and

(iii) after the occurrence of any Protection Event (or any event that with the passage of time or the giving of notice would be a Protection Event), not, without the Province's prior written consent, permit the Financing Entity to exercise any redemption, pre-payment, early termination or extension right in respect of any Approved Obligation or exercise any other election or privilege in respect of any Approved Obligation, in each case if as a result the obligations applicable to the Approved Obligation under the Change of Law Protection Agreement would be accelerated, delayed or otherwise affected.

(c) Nothing in this Agreement shall limit the obligations of the Province under the Indemnity Agreement by the Province in favour of OPG dated June 1, 2017 and to the extent of any conflict between this Agreement and such Indemnity Agreement, in respect of any matter relating to the Province's obligations to indemnify the FSM, the latter shall prevail. [For clarity, OPG's obligations under this Agreement are solely in its capacity as the FSM.]

ARTICLE III
PROCESS CERTIFICATE

3.01 Process Certificate

[The FSM] shall deliver a certificate (the "**Process Certificate**"), signed by the Chief Financial Officer and the Treasurer of OPG (or their respective designees, provided that such designees are also executive officers of OPG) and addressed to the Province, on the earlier of (i) one Business Day prior to the incurrence or any amendment of a Primary Obligation, and (ii) on the Business Day on which the financial terms of such Primary Obligation are definitively determined (including the interest or discount rate applicable to any notes, bonds or other securities), setting out the following with respect to such Primary Obligation:

(a) the material terms of the Primary Obligation pertaining to (i) in the case of notes, bonds or other securities, the principal amount, interest or discount rate, third party fees, term to maturity, amortization, redemption or extension features, structure and coupon frequency, as applicable, and (ii) in the case of a Derivative Agreement, the notional amount, financial terms and pricing, benchmarks, payment structures and early termination rights;

(b) if an existing Primary Obligation is proposed to be amended, material details respecting such amendment, including regarding the applicable details set forth in Subsection 3.01(a), as the context requires;

(c) a statement to the effect that: (i) the Primary Obligation to be incurred or amended (1) will arise under terms and conditions that are Substantially in the Form of the Reviewed Documentation applicable thereto; (2) in the opinion of the signatories to the Process Certificate, are reasonably incurred or effected in compliance with the Act, the General Regulation, any other enactments related thereto and the applicable Financing Plan; (3) are of a type and are on terms that a reasonably prudent financial services manager would incur in similar circumstances; and (4) reflect, in all material respects, arm's length terms and conditions; and (ii) any Disclosure Document used in connection with the offering and sale of notes, bonds or other securities is Substantially in the Form of the Reviewed Documentation;

(d) a statement confirming that any disclosure made in respect of the Primary Obligation (including any Disclosure Document, press release or other written communication prepared for dissemination to third parties in relation to the Primary Obligation) that refers to or describes the terms, effect or adherence of or to this Agreement or the Change of Law Protection Agreement has been made available for review to the Province prior to use or dissemination and the Province provided its written consent to such use or dissemination, other than where such disclosure was substantially the same as a disclosure previously made and for which the Province had previously provided its written consent;

(e) a statement that no Breach Event has occurred on or prior to the date of the Process Certificate, unless such Breach Event has been waived by the Province in writing; and

(f) confirmation that, at the time the Primary Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments under the Primary Obligation, together with all other outstanding amounts due or becoming due in the future in respect of Repayments under all Approved Obligations, do not and will not exceed the Protection Agreement Maximum; for clarity, Repayments under Obligations Secured owing in currencies other than Canadian dollars and in respect of which a Derivative Agreement has been entered into to hedge related currency exposures shall be valued for this purpose on the basis of the hedged value expressed in Canadian dollars for so long as such Derivative Agreement is in good standing.

3.02 Acknowledgment

The parties acknowledge that the Process Certificate is the "process certificate" referred to in Subsection 4.02(b) of the Change of Law Protection Agreement.

3.03 Meaning of "Reviewed Documentation"

For the purposes of Subsection 3.01(c), the term "Reviewed Documentation" shall mean each Transaction Document (including any change, addition or supplement thereto) that, at the relevant time:

(a) is a Transaction Document provided to the Province prior to the making of this Agreement and in respect of which the notice contemplated in the fifth recital to this Agreement has been delivered by the Province to [the FSM]; or

(b) is a Transaction Document provided to the Province in accordance with Subsection 2.01(b) that has been accepted by the Province, as confirmed by way of a written notice of acceptance from the Province delivered to [the FSM].

3.04 Meaning of "Substantially in the Form"

For the purposes of Subsection 3.01(c), the term "Substantially in the Form" shall mean:

(a) with respect to the Reviewed Documentation referred to in clauses (i) to (xi) of the definition of "Transaction Documents", that there are no differences between the proposed documents and such Reviewed Documentation that could result in a change in the material terms or conditions applicable to the applicable Primary Obligation, including regarding the timing of or circumstances under which related payments are or may become due or accrue (including as a result of any default, acceleration, termination, wind-up, liquidation or realization), or that would affect the Province's rights of subrogation or assignment (including pursuant to Section 5.01 or Article VI of the Change of Law Protection Agreement) or its interests as a subrogee or an assignee, that would arise as a

result of performing the Limited Guarantee in respect of the applicable Primary Obligation or upon the assumption of obligations in accordance with Article VI of the Change of Law Protection Agreement; provided, however, that the foregoing does not apply to any variable terms to be set forth in the proposed documents as are reasonably contemplated in the Reviewed Documentation, including the particular financial terms, rates and levels set forth in the proposed documents other than to the extent that the forms of Reviewed Documentation themselves specify specific requirements, limitations or parameters with respect to such financial terms, rates, levels and parameters; and

(b) with respect to the Reviewed Documentation referred to in clause (xii) of the definition of "Transaction Documents", that there are no material differences between the form and substance of the proposed Disclosure Document and such form of Disclosure Document and that the proposed Disclosure Document complies in all material respects with all applicable securities disclosure requirements relating to the Primary Obligation subject to distribution thereunder.

ARTICLE IV
PROTECTION AGREEMENT MAXIMUM

4.01 Protection Agreement Maximum

(a) Not less than 15 Business Days prior to the proposed incurrence of the first Funding Obligation, OPG shall, as the FSM, deliver to the Province: (i) a forecast setting out OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the next following 24 month period (the "**Initial Forecast Period**"), which expectations shall be consistent with the Financing Plan (the "**Initial Forecast**"); and (ii) notice of the initial Protection Agreement Maximum, which may not exceed the Initial Forecast.

(b) Not more than 10 Business Days following receipt of the Initial Forecast and notice of the initial Protection Agreement Maximum from OPG pursuant to Section 4.01(a), the Province may disagree with the Initial Forecast and the initial Protection Agreement Maximum on the basis that (i) there appears to be inaccuracies in the Financing Plan or the Initial Forecast, (ii) the Initial Forecast is inconsistent with the Financing Plan, or (iii) the initial Protection Agreement Maximum is not less than the Initial Forecast. If the Province disagrees, OPG shall discuss any discrepancies with the Province, address any inaccuracies and inconsistencies to the reasonable satisfaction of the Province, and the initial Protection Agreement Maximum will be revised accordingly and confirmed by an amended notice to the Province.

(c) Between nine (9) and twelve (12) months prior to the end of the Initial Forecast Period, OPG shall, as the FSM, deliver to the Province an updated forecast setting out the sum of (1) the aggregate amount of Repayments that will arise in the future under Approved Obligations that are then outstanding and (2) OPG's

expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the period ending 24 months following the Initial Forecast Period, which expectation shall be consistent with the then applicable Financing Plan. Such updated forecast shall be further updated on a similar basis with respect to each successive 24 month period or more frequently with the consent of the Province if at any time OPG has knowledge that the most recent forecast is materially inaccurate (the Initial Forecast and each such updated forecast, each a "**Forecast**"). Together with each Forecast, OPG shall also provide a revised Protection Agreement Maximum, which may not exceed such Forecast.

(d) Not more than 10 Business Days following receipt of any further Forecast and notice of the revised Protection Agreement Maximum from OPG pursuant to Section 4.01(c), the Province may disagree with such further Forecast or revised Protection Agreement Maximum on the basis that (i) there appears to be inaccuracies in the Financing Plan or such further Forecast, (ii) the further Forecast is inconsistent with the Financing Plan, or (iii) the revised Protection Agreement Maximum is not less than the further Forecast. If the Province disagrees, OPG shall discuss any discrepancies with the Province, address any inaccuracies and inconsistencies to the reasonable satisfaction of the Province, and the revised Protection Agreement Maximum will be further revised accordingly and confirmed by an amended notice to the Province.

(e) For clarity, Repayments under Obligations Secured owing in currencies other than Canadian dollars and in respect of which a Derivative Agreement has been entered into to hedge related currency exposures shall be valued for the purposes of this Section 4.01 on the basis of the hedged value expressed in Canadian dollars for so long as such Derivative Agreement is in good standing.

ARTICLE V
REPRESENTATIONS AND WARRANTIES

5.01 Representations and Warranties of [the FSM]

[The FSM] represents and warrants that on the date hereof and on each day that a Primary Obligation is incurred or amended:

(a) The Financing Entity is a trust duly constituted and validly existing under the laws of the Province of Ontario, is duly qualified to carry on its business in each jurisdiction in which it carries on business, and has the power and authority to perform the acts that OPG, as the FSM, may cause it to perform pursuant to this Agreement and to own its property and carry on its business in accordance with the Program Agreements.

(b) OPG is a corporation duly constituted and validly existing under the laws of the Province of Ontario and has the power and authority to enter into and perform its

obligations under this Agreement and all instruments and agreements delivered pursuant hereto.

(c) OPG has been validly appointed, and has irrecovably accepted such appointment, as the FSM in accordance with the Act. OPG has the power and authority to enter into and perform its obligations as the FSM under the Program Agreements and all instruments and agreements delivered pursuant thereto.

(d) The execution, delivery and performance of this Agreement and every instrument or agreement delivered pursuant hereto or in its capacity as the FSM has been or will be duly authorized by all requisite action by OPG and constitute a valid and binding obligation in accordance with its terms subject to (i) applicable bankruptcy, insolvency, moratorium and similar laws at the time in effect affecting the rights of creditors generally, and (ii) equitable principles which may limit the availability of certain remedies, including the remedy of specific performance.

(e) There are no actions, suits or proceedings pending or, to the knowledge of OPG, threatened against or affecting the Financing Entity at law or in equity or before or by any Governmental Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of the Financing Entity or in the ability of the Financing Entity to perform its obligations under the Program Agreements.

(f) There are no actions, suits or proceedings pending or, to the knowledge of OPG, threatened against or affecting OPG at law or in equity or before or by any Governmental Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of OPG or in the ability of the OPG to perform its obligations under this Agreement or any Program Agreements.

(g) The performance by the Financing Entity of the Program Agreements does not conflict with, will not conflict with, does not result in, and will not result in, any breach of, and does not constitute, a default under, the Declaration of Trust or any agreements or instruments to which the Financing Entity is a party or by which it or any of its property and assets are bound.

(h) Neither the execution nor delivery of this Agreement, the Program Agreements nor any agreements or instruments delivered pursuant hereto or thereto, the consummation of the transactions herein or therein, nor compliance with the terms, conditions and provisions hereof or thereof conflicts with or will conflict with, or results or will result in any breach of, or constitutes a default under, any of the provisions of the constating documents of OPG or any agreements or instruments to which OPG is a party or by which it or any of its property and assets are bound.

(i) No consent, approval or authorization of, or declaration, registration, filing or qualification with, or giving of notice to, or taking of any other action in respect of, any Governmental Authority on the part of OPG is required in connection with the execution and delivery of this Agreement, the Program Agreements or any agreements or instruments delivered pursuant hereto or thereto or the consummation of any of the transactions contemplated hereby or thereby or in connection with the enforcement of this Agreement, the Program Agreements or any agreements or instruments delivered pursuant hereto or thereto, except those which have been obtained.

5.02 Representations and Warranties of the Province

The Province hereby represents and warrants that:

(a) the execution, delivery and performance of this Agreement by the Province have been authorized by all necessary action on the part of the Province;

(b) the execution, delivery and performance of this Agreement by the Province do not result in the violation of any applicable law; and

(c) this Agreement has been duly executed and delivered by the Province.

ARTICLE VI
ELECTION[2] TO ASSUME APPROVED OBLIGATIONS

6.01 Election by the Province

At any time following the occurrence of a Protection Event, the Province may (but shall not be obligated) elect to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor. To make such election, the Province shall duly complete and deliver to [the FSM] a notice in the form of Exhibit A (an "**Election Notice**"), which in turn will set forth the form of agreement (an "**Assumption Agreement**") setting forth the material terms and conditions under which the Province would assume and become obligated under each of the Obligations Secured. The Election Notice shall, among other things, specify the date on which the Province proposes to assume the Obligations Secured, which date shall be no earlier than 20 Business Days following delivery of the Election Notice to [the FSM] (the "**Proposed Assumption Date**").

6.02 Details regarding Obligations Secured

Promptly following the delivery of the Election Notice to [the FSM], [the FSM] shall provide the following information and documentation to the Province:

[2] OPG's proposal to move Art VI to the Protection Agreement is not consistent with the original basis for the Process Agreement - to keep the details and plumbing out of the "external" document. If we move toward putting all of this into the Protection Agreement, it will raise additional drafting issues (e.g., we will have to have a parallel "Breach Event" concept in the Protection Agreement that will deal with these sorts of undertakings and allow for a suspension of the Limited Guarantee). OPG to advise if that approach is preferred.

(a) a summary of the amounts that will be owing under all Obligations Secured as of the Proposed Assumption Date, together with a detailed schedule setting out the dates on which such amounts will become due and payable under the Obligations Secured;

(b) a summary of the rights arising under the Obligations Secured that permit the Financing Entity to assign the Obligations Secured to the Province, including details regarding any conditions precedent to such assignment and the related assumption becoming effective and any notices, filings, consents or other actions that will be required in order to implement and effect such assignment and assumption;

(c) current versions of all documentation under which the Obligations Secured arise;

(d) copies of all correspondence exchanged between OPG, as the FSM, or the Financing Entity, on the one hand, and any Specified Creditor, Rating Agency or the Indenture Trustee, on the other hand, in each case that may reasonably be considered to be material to the assumption and performance of the Obligations Secured by the Province;

(e) all income tax returns and assessments, financial statements and notices of proceedings of or pertaining to the Financing Entity or its business and any documentation related thereto, including any pleadings, appeals, objections, qualifications or other similar materials in respect of the Financing Entity or any Program Agreement; and

(f) the form of Assumption Agreement in respect of the assignment and assumption of all Obligations Secured attached as Exhibit E to the Change of Law Protection Agreement.[3]

6.03 Settlement of Terms

Within 30 Business Days following receipt by the Province of the information and documentation to be provided under Section 6.02, the Province shall confirm in writing whether or not it will proceed with the assignment and assumption of the Obligations Secured and, if it will be proceeding with the assignment and assumption, the date on which the Province intends that assignment and assumption will be effected, which may not be earlier than the Proposed Assumption Date. If it will be proceeding with such assignment and assumption, the Province will deliver an Assumption Notice as contemplated under Section 6.01 of the Change of Law Protection Agreement, which will specify such date as the "Assumption Closing Date" for the purposes thereof.

[3] Torys to provide a draft of the proposed form of global Assumption Agreement for all Obligations Secured. The Province may be guided by OPG on this, but we note that it seems simplistic to think that the same assumption agreement will work for swaps, debt and service obligations.

6.04 Cooperation to Implement the Assignment and Assumption

[The FSM] shall cooperate with the Province and will use commercially reasonable efforts to cause the Financing Entity to cooperate, and shall use its commercially reasonable efforts, to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the applicable Assumption Closing Date.

6.05 Terms of Obligations Secured

In order to permit the Province to assume the Obligations Secured in the circumstances contemplated herein, [the FSM] shall cause the Financing Entity to ensure that all Obligations Secured permit such an assignment to and assumption by the Province substantially in accordance with the terms and on the basis contemplated in the Assumption Agreement, without any penalty or make-whole payment, or any requirement for further consent, approval or agreement, or alternatively, in the case of any Obligations Secured entered into by or on behalf of the Financing Entity for the provision of on-going services to the Financing Entity permitting the satisfaction and termination of such Obligations Secured on or prior to the effective time of such assumption without any acceleration of future fees, profits or other like amounts, other than to the extent of payment obligations arise under market standard mark-to-market payment terms and conditions included on a commercially reasonable basis under a Derivative Agreement.[4]

ARTICLE VII
BREACH EVENTS

7.01 Breach Events

"**Breach Event**" shall mean the occurrence or existence of any one or more of the following:

(a) a default in the performance, or breach, of any covenants of [the FSM] under this Agreement, which continues for thirty (30) days after written notice by the Province to [the FSM] of such default or breach;

(b) any representation or warranty made by [the FSM] in this Agreement, any certification made in a Process Certificate, or any certification made in a certificate contemplated by Section 4.02 of the Change of Law Protection Agreement, proves to be incorrect on the date made and, if curable, is not cured

[4]The Trust Indenture will need to permit the obligations of the Financing Entity to the Indenture Trustee and the Noteholders to be assigned to and assumed by the Province in accordance with an assumption agreement, substantially in a form of agreement to be set out in an exhibit to the Trust Indenture. The Province agrees that the same form of the assumption agreement should also be an exhibit to the Change of Law Protection Agreement. The Trust Indenture will need to be revised to ensure that the Province's assignment and assumption right is fully contemplated and may be implemented without any requirement for further Specified Creditor or other third party consents. Among other changes, it is contemplated that Torys will add the following to the MTI to address this requirement: (i) Specified Creditors will be required to acknowledge the rights of the Province to assume the Obligations Secured on the basis contemplated in the form of assumption agreement, and (ii) the Indenture Trustee will be permitted to enter into and give effect to the global Assumption Agreement without the consent of Specified Creditors or any other third parties.

within thirty (30) days after written notice by the Province to [the FSM] of such misrepresentation; or

(c) OPG is no longer the Manager or actions have been taken by or on behalf of the Indenture Trustee to remove OPG as the Manager.

7.02 Notice on Breach Event

If any Breach Event shall have occurred and not been waived in writing by the Province, the Province shall have the right at its option, upon written notice to [the FSM], and in addition to and not in substitution for any other remedies available hereunder at law or equity, to provide a Suspension Notice to the Indenture Trustee, [the FSM] and the Financing Entity in accordance with the terms of the Change of Law Protection Agreement.

ARTICLE VIII

AND

ONTARIO POWER GENERATION INC.[, AS FINANCIAL SERVICES MANAGER[1]]

CHANGE OF LAW PROCESS AGREEMENT

Dated as of [■], 2017

[1] OPG to consider if this agreement should form part of the overall covenant pattern (Program Agreement). We assume not. If OPG signs as FSM, consider the potential impact on the Trust, if the FSM is considered to be contracting on behalf of the Trust as principal. The intention was to keep these terms 'behind the scenes' and as between OPG and the Province.

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**")~~,~~[, as Financial Services Manager for the Financing Entity in accordance with the Act,] is made and entered into as of [■], 2017.

RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.

Pursuant to a Declaration of Trust dated as of [■], 2017, ~~the FSM established~~ the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.[1]

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended.

Prior to entering into this Agreement, ~~OPG~~the [FSM] provided the Province with copies of certain of the Transaction Documents, and the Province has confirmed by a notice delivered to ~~OPG~~[the FSM] that the reviewed forms (as further described in such notice) shall be Reviewed Documentation for the purposes of this Agreement.

This Agreement sets out the obligations ~~OPG~~[the FSM] has agreed to perform and assurances ~~OPG~~[the FSM] has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation, maintaining information related to the Program Agreements and the Approved Obligations, and ensuring that the Province's assumption rights pursuant to Article VI of the Change of Law Protection Agreement may be exercised without impediment on the terms and conditions contemplated in this Agreement and the Change of Law Protection Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of ~~OPG~~[the FSM], and of the Province in accordance with the Act, have been done.

[1] ~~Note: This draft only addresses the first Financing Entity. If additional financing entities are established, revisions to this Agreement may be made at that time, in context. Any additional financing entities contemplated should be as contemplated in the Financing Plan.~~

(b) a summary of the rights arising under the Obligations Secured that permit the Financing Entity to assign the Obligations Secured to the Province, including details regarding any conditions precedent to such assignment and the related assumption becoming effective and any notices, filings, consents or other actions that will be required in order to implement and effect such assignment and assumption;

(c) current versions of all documentation under which the Obligations Secured arise;

(d) copies of all correspondence exchanged between OPG, as the FSM, or the Financing Entity, on the one hand, and any Specified Creditor, Rating Agency or the Indenture Trustee, on the other hand, in each case that may reasonably be considered to be material to the assumption and performance of the Obligations Secured by the Province;

(e) all income tax returns and assessments, financial statements and notices of proceedings of or pertaining to the Financing Entity or its business and any

[2] OPG's proposal to move Art VI to the Protection Agreement is not consistent with the original basis for the Process Agreement - to keep the details and plumbing out of the "external" document. If we move toward putting all of this into the Protection Agreement, it will raise additional drafting issues (e.g., we will have to have a parallel "Breach Event" concept in the Protection Agreement that will deal with these sorts of undertakings and allow for a suspension of the Limited Guarantee). OPG to advise if that approach is preferred.

documentation related thereto, including any pleadings, appeals, objections, qualifications or other similar materials in respect of the Financing Entity or any Program Agreement; and

(f) ~~a draft version of~~ the form of Assumption Agreement ~~prepared in relation to each Obligation Secured, prepared in accordance with and having regard to the requirements of the relevant agreement(s) under which the Obligation Secured arises.~~in respect of the assignment and assumption of all Obligations Secured attached as Exhibit E to the Change of Law Protection Agreement.[3]

6.03 Settlement of Terms

Within ~~20~~30 Business Days following receipt by the Province of the information and documentation to be provided under Section 6.02, the Province shall confirm in writing whether or not it will proceed with the assignment and assumption of the Obligations Secured and, if it will be proceeding with the assignment and assumption, the date on which the Province intends that assignment and assumption will be effected, which may not be earlier than the Proposed Assumption Date. If it will be proceeding with such assignment and assumption, the Province will deliver an Assumption Notice as contemplated under Section 6.01 of the Change of Law Protection Agreement, which will specify such date as the "Assumption Closing Date" for the purposes thereof.

6.04 Cooperation to Implement the Assignment and Assumption

~~OPG~~[The FSM] shall cooperate with the Province and~~, as FSM,~~ will use commercially reasonable efforts to cause the Financing Entity to cooperate, and ~~each~~ shall use its ~~best~~commercially reasonable efforts, to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the applicable Assumption Closing Date.~~3~~

6.05 Terms of Obligations Secured

In order to permit the Province to assume the Obligations Secured in the circumstances contemplated herein, ~~OPG will, and as~~[the FSM~~, will~~] shall cause the Financing Entity to~~,~~ ensure that all Obligations Secured permit such an assignment to and assumption by the Province substantially in accordance with the terms and on the basis contemplated in the Assumption Agreement, without any penalty or make-whole payment, or any requirement for further consent, approval or agreement, or alternatively, in the case of any Obligations Secured entered into by or on behalf of the Financing Entity for the provision of on-going services to the Financing Entity~~,~~ permitting the satisfaction and termination of such Obligations Secured on or prior to the effective time of such assumption without any acceleration of future fees, profits or other like amounts, other than to the extent of payment obligations arise under market standard

[3] Torys to provide a draft of the proposed form of global Assumption Agreement for all Obligations Secured. The Province may be guided by OPG on this, but we note that it seems simplistic to think that the same assumption agreement will work for swaps, debt and service obligations.

mark-to-market payment terms and conditions included on a commercially reasonable basis under a Derivative Agreement.[4]

ARTICLE VII
BREACH EVENTS

7.01 Breach Events

"**Breach Event**" shall mean the occurrence or existence of any one or more of the following:

(a) a default in the performance, or breach, of any covenants of ~~OPG~~[the FSM] under this Agreement ~~(including in respect of its role as FSM under any Program Agreement)~~, which continues for thirty (30) days after written notice by the Province to [the FSM] of such default or breach;

(b) any representation or warranty made by ~~OPG~~[the FSM] in this Agreement, any certification made in a Process Certificate, or any certification made in a certificate contemplated by Section ~~4.03~~4.02 of the Change of Law Protection Agreement, proves to be incorrect on the date made and, if curable, is not cured within thirty (30) days after written notice by the Province to [the FSM] of such misrepresentation; or

(c) OPG is no longer the ~~FSM, the Administrative Agent or the~~ Manager or actions have been taken by or on behalf of the Indenture Trustee to remove OPG as ~~the FSM, the Administrative Agent or~~ the Manager.

7.02 Notice on Breach Event

If any Breach Event shall have occurred and not been waived in writing by the Province, the Province shall have the right at its option, upon written notice to ~~OPG~~[the FSM], and in addition to and not in substitution for any other remedies available hereunder at law or equity, to provide a Suspension Notice to the Indenture Trustee, [the FSM] and the Financing Entity in accordance with the terms of the Change of Law Protection Agreement.

[4] ~~Note:~~ The Trust Indenture will need to ~~include a clause providing that~~permit the obligations of the Financing Entity to the Indenture Trustee and the Noteholders ~~may~~to be assigned to and assumed by the Province in accordance with an assumption agreement, substantially in ~~the~~a form of agreement to be set out in an exhibit to the Trust Indenture. The Province agrees that the same form of the assumption agreement should also be an exhibit to the Change of Law Protection Agreement. The Trust Indenture will need to be revised to ensure that the Province's assignment and assumption right is fully contemplated and may be implemented without any requirement for further Specified Creditor or other third party consents. Among other changes, it is contemplated that Torys will add the following to the MTI to address this requirement: (i) Specified Creditors will be required to acknowledge the rights of the Province to assume the Obligations Secured on the basis contemplated in the form of assumption agreement, and (ii) the Indenture Trustee will be permitted to enter into and give effect to the global Assumption Agreement without the consent of Specified Creditors or any other third parties.

HER MAJESTY THE QUEEN IN RIGHT OF ONTARIO, AS REPRESENTED BY THE MINISTER OF ENERGY AND THE MINISTER OF FINANCE

AND

COMPUTERSHARE TRUST COMPANY OF CANADA, AS TRUSTEE OF FAIR HYDRO TRUST

AND

ONTARIO POWER GENERATION INC., AS FINANCIAL SERVICES MANAGER

AND

BNY TRUST COMPANY OF CANADA, AS INDENTURE TRUSTEE

CHANGE OF LAW PROTECTION AGREEMENT

Dated as of [■], 2017

This **AGREEMENT**, among Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), Computershare Trust Company of Canada, in its capacity as trustee (the "**Financing Entity Trustee**") of Fair Hydro Trust, a trust under the laws of the Province of Ontario (the "**Financing Entity**")[1], Ontario Power Generation Inc., in its capacity as Manager of the Financing Entity and in its capacity as the Financial Services Manager in accordance with the Act (the "**FSM**") and BNY Trust Company of Canada, a trust company existing under the laws of Canada, as Indenture Trustee, is made and entered into as of [■], 2017.

RECITALS

Pursuant to Subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**"), the Lieutenant Governor in Council may by order, authorize the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to agree to guarantee or indemnify certain debts, obligations, securities or undertakings associated with an Investment Interest.

Pursuant to an Order in Council dated as of ■ (the "**OIC**"), the Lieutenant Governor in Council has, among other things, authorized the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to enter into one or more agreements to guarantee or indemnify the debts, obligations, securities or undertakings of one or more financing entities established or caused to be established pursuant to Subsection 22(2) of the Act by the FSM and that may incur Funding Obligations in connection with one or more Investment Interests.

Pursuant to a Declaration of Trust[2] dated as of ■, 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

The Financing Entity Trustee, in its capacity as trustee of the Financing Entity, and the Indenture Trustee are parties to the Trust Indenture and propose to create and issue series of notes, bonds and other securities as contemplated therein, and to provide security over the assets and undertaking of the Financing Entity in respect of such notes, bonds and securities, as well as other Obligations Secured.

The Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, have determined to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended. This Agreement sets out the terms and conditions of such protections and assurances.

---

[1] Province needs the Trust as a party to be assured of its rights of subrogation, step-in, etc.

[2] Torys to confirm that Trust is a "financing entity" under OFHPA. Under definition, FSM to establish or cause to be established. DofT indicates Computershare declares trust. Need to have this confirmed for purposes of authority under OFHPA 5(3), among other things.

The FSM and the Province will concurrently enter into the Process Agreement, under which the FSM will agree to perform certain related activities and to provide certain assurances on which the Province will rely, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation and ensuring that the Province's assumption right may be exercised without impediment on the terms and conditions contemplated in this Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of the Province, the Financing Entity, the FSM and the Indenture Trustee, in accordance with the Act, the OIC and the Trust Indenture, have been done.

AGREEMENT OF THE PARTIES

To the extent permitted by applicable law, the parties waive any provision of law which renders any provision of this Agreement invalid or unenforceable in any respect. The parties will engage in good faith negotiations to replace any provision which is declared invalid or unenforceable with a valid and enforceable provision, the economic effect of which comes as close as possible to that of the invalid or unenforceable provision which it replaces.

A single or partial exercise of any right will not preclude a party from any other or further exercise of that right or the exercise of any other right.

1.16 Interest Act

For the purpose of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest to which any rate of interest payable under this Agreement that is calculated on any basis other than a full calendar year is equivalent may be determined by multiplying such rate by a fraction, the numerator of which is the actual number of days in the calendar year in which such

yearly rate of interest is to be ascertained and the denominator of which is the number of days comprising such other basis. The parties further agree that for the purposes of the *Interest Act* (Canada), (i) the principle of deemed reinvestment of interest shall not apply to any interest calculation under this Agreement, and (ii) the rates of interest stipulated in this Agreement are intended to be nominal rates and not effective rates or yields.

1.17 Currency

Unless stated otherwise, all amounts herein are stated in Canadian Dollars.

1.18 References to Acts of the Financing Entity

For greater certainty, where any reference is made in this Agreement, or in any other instrument executed pursuant hereto or contemplated hereby to which the Financing Entity or the Financing Entity Trustee, as trustee of the Financing Entity, is party, to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against, or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to (i) the Financing Entity or (ii) the Financing Entity Trustee, such reference shall be construed and applied for all purposes as if it referred to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to, the Financing Entity Trustee as trustee of the Financing Entity.

1.19 Judgment Currency

(a) If for the purpose of obtaining judgment in any court or for any other purposes (other than conversions specifically provided for in the agreement under which an Approved Obligation arises), it is necessary to convert any amount due under this Agreement from the currency in which it is due (the "**Original Currency**") into another currency (the "**Second Currency**"), the rate of exchange applied shall be that at which, in accordance with normal banking procedures, the purchaser could purchase, in the New York foreign exchange market, the Original Currency with the Second Currency on the date on which judgment is given. The obligation of the Province in respect of any Original Currency due from it to the Indenture Trustee under this Agreement shall, notwithstanding any judgment or payment in such other currency, be discharged only to the extent that, on the Business Day following receipt of any sum so paid or adjudged to be due under this Agreement in the Second Currency, the Indenture Trustee may, in accordance with normal banking procedures, purchase in the New York foreign exchange market the Original Currency with the amount of the Second Currency so paid or so adjudged to be due; and if the amount of the Original Currency so purchased is less than the amount originally due in the Original Currency, the Province shall indemnify the Indenture Trustee against such loss.

(b) The term "rate of exchange" in this Section 1.19 means the spot rate at which the Indenture Trustee, in accordance with normal practice, is able on the relevant date to purchase the Original Currency with the Second Currency and includes any premium and costs of exchange payable in connection with such purchase.

ARTICLE II
AGREEMENT TO PERFORM APPROVED OBLIGATIONS

2.01 Limited Guarantee

(a) Upon the occurrence of a Protection Event, the Indenture Trustee may provide a written demand, in the form attached as Exhibit A (a "**Payment Demand**"), to the Province requiring the Province to pay the amount of the Approved Obligations that would have been payable from Available Collections had the Protection Event not occurred[3] from time to time by the Financing Entity to the Indenture Trustee as and when they become due and payable, without Acceleration. A Payment Demand will not be valid with respect to an Approved Obligation until the amount claimed becomes due and payable in respect of the Approved Obligation, without Acceleration, in accordance with the Trust Indenture and has not otherwise been paid by the Financing Entity.

(b) Following receipt of a valid Payment Demand under Subsection 2.01(a), the Province shall pay the amounts that would have been payable from Available Collections had the Protection Event not occurred by the Financing Entity to the Indenture Trustee, on behalf of the applicable Beneficiaries, in respect of each Approved Obligation, in each case as and when the Approved Obligation becomes due and payable in accordance with its terms and on its scheduled, specified or determined payment date, as determined without regard to any Acceleration or rights of Acceleration arising under the Approved Obligation, in each case by the Province depositing or causing the deposit of the applicable payment amount into the Protection Account[4] on or before the day on which the applicable Approved Obligation becomes due and payable in accordance with its terms (the "**Limited Guarantee**"). For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation.

(c) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

---

[3] The amount "owing" under an obligation (i.e., balloon) will different from the amount available to be paid in respect of such owed amount (based on Available Collections). The Province is not obligated to pay more than the obligations that would have been paid from CEAs had they been collected.

[4] Province needs to see how the Trust Indenture will be modified to address addition of Protection Account (i.e., payment mechanics; Protection Account to be part of the Collateral; mechanics of how funds move to Collection Account; absence of equitable claims; etc.). Province will need to know that all amounts will be applied for their intended purposes without undermining Province's step-in and subrogation rights.

(d) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation.

(e) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits.

2.02 Intentionally Deleted.

2.03 Absence of Set-off

Subject to applicable law, the Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

2.04 Payment into Protection Account[5] in Satisfaction

(a) On or before the date of delivery of a Payment Demand to the Province, the Indenture Trustee shall cause to be established and maintained an Eligible Deposit Account (the "**Protection Account**") in the name of the Indenture Trustee, bearing a designation clearly indicating that the funds and other property credited thereto are held for the benefit of the Indenture Trustee and the Beneficiaries. The Protection Account shall be under the control of the Indenture Trustee for the benefit of the Beneficiaries. If, at any time, the institution holding the Protection Account ceases to be an Eligible Institution, the FSM shall notify the Indenture Trustee, and the Indenture Trustee upon being notified in writing of such ineligibility (or the FSM on its behalf) shall within 30 days (or such longer period, not to exceed 45 days, so long as the Rating Agency Condition is satisfied) establish a new Protection Account that is an Eligible Deposit Account and shall transfer any funds or other property from such Protection Account to such new Protection Account. From the date each such new Protection Account is established, it shall be the "Protection Account." for purposes of this Agreement. Funds credited to the Protection Account will be invested and held in accordance with Section 7.03 of the Trust Indenture on the basis that it is an Issuer Account.

(b) Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Indenture Trustee shall apply the full amount paid by the Province into the Protection Account in respect of an Approved Obligation to pay the corresponding amount

[5] Use of Protection Account to be considered by Province after required modifications to Trust Indenture have been provided.

due and payable to the applicable Beneficiaries under the Approved Obligation. Upon a payment having been made by or on behalf of the Province into the Protection Account in respect of an Approved Obligation, the amount so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiaries and thereby reduce the amount due and payable to such Beneficiaries in respect of the Approved Obligation, whereupon an affected Beneficiary shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid[6]. For greater certainty, the obligations arising in respect of the Approved Obligation shall not be reduced by such payment as the Province shall become entitled to the rights contemplated under Section 5.01 in relation to such continuing obligations.

2.05 Certain Waivers

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety.

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

2.06 Additional Security

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

[6] A corresponding provision needs to be added to the Trust Indenture and each other contract under which the Obligation Secured arises, so that the Beneficiaries are bound by these applications and the agreement of the Indenture Trustee under this Agreement.

2.07 Continuing Liability of the Province

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Approved Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

2.08 Continuance of the Limited Guarantee

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations, or until the Province is no longer required to provide and perform the Limited Guarantee in accordance with Section 6.03.

2.09 Modifications of Approved Obligations

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements and this Agreement, to:

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine,

provided, however, that the Indenture Trustee shall not permit any change, modification, alteration, amendment, supplement, extension, renewal, compromise, novation, replacement, suspension or waiver of the terms of all or any part of the Approved Obligations or any Collateral therefor expect with the prior written consent of the Province having first been obtained.

ARTICLE III
THE INDENTURE TRUSTEE

3.01 The Indenture Trustee

This Agreement is made in favour of the Indenture Trustee in its capacity as trustee under the Trust Indenture. Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the Indenture Trustee hereunder, but nevertheless, the Indenture Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Agreement. All provisions of the Trust Indenture for the protection of the Indenture Trustee or for facilitating the administration of the trusts or otherwise relating to the Indenture Trustee solely as to its holding of the rights thereunder shall apply *mutatis mutandis* to this Agreement and the Indenture Trustee's duties hereunder.

3.02 Acceptance of Trusts

The Indenture Trustee hereby accepts the trusts hereof and agrees to carry out and discharge the same unless and until a new trustee shall be appointed as contemplated in Section 3.01.

ARTICLE IV
APPROVED OBLIGATIONS

4.01 Approval Process

A Primary Obligation shall constitute an Approved Obligation if the Adherence Conditions applicable thereto have been satisfied.

4.02 Adherence Conditions

The following shall be the Adherence Conditions applicable in relation to a Primary Obligation:

(a) the Primary Obligation is contemplated under the Trust Indenture as an Obligation Secured; and

(b) the FSM delivers a certificate signed by the Chief Financial Officer and the Treasurer of OPG (or their respective designees, provided that such designees are executive officers of OPG and, for clarity, such certificate is to be provided by such officers in their capacity as officers of OPG acting in its capacity as FSM) and addressed to the Indenture Trustee, prior to the earlier of (i) one Business Day prior to the incurrence or any amendment of the Primary Obligation, and (ii) on the Business Day on which the financial terms of the Primary Obligation are definitively determined (including the interest or discount rate applicable to any notes, bonds or other securities), confirming that the FSM has delivered to the Province a Process Certificate in accordance with Section **[3.01]** of the Process Agreement; and

(c) the Province has not provided a Suspension Notice to the Indenture Trustee, the FSM and the Financing Entity in accordance with the terms of this Agreement. [7]

4.03 Evidence of Satisfaction

A closing certificate delivered in accordance with Section 4.02 in connection with an incurrence or amendment of a Primary Obligation shall be determinative as to whether the applicable Adherence Conditions with respect thereto have been satisfied, notwithstanding that such certificate may include inaccuracies, be incomplete or otherwise be defective or deficient, and such closing certificate may be relied upon by any addressee as conclusive evidence of same.

ARTICLE V
PROVINCE MATTERS

5.01 Assignment and Subrogation

(a) Upon paying an amount in respect of an Approved Obligation to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee, the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation to the extent of such payment, including (i) the right and entitlement to be paid and receive distributions of such amount by the Financing Entity in accordance with and in the priority applicable to the Approved Obligation applicable in respect of the payment under the Trust Indenture, (ii) the benefits of the related Collateral and (iii) all proceeds therefrom. The Province shall have and be entitled to enforce all rights and interests (including as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)), under and in respect of such Approved Obligation as an absolute assignee of the applicable Beneficiary, with effect from and after the time of such payment, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing by the Beneficiary to the Financing Entity and unaffected by any other rights or equities that arise thereafter as between the Beneficiary and the Financing Entity. The Indenture Trustee shall recognize the Province as being entitled to all of the rights, interests and entitlements of the Beneficiary (including as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)) in respect and to the extent of the Approved Obligation so paid, determined as of the time of payment, for all purposes under the Trust Indenture, and the Province shall be treated as a Specified Creditor in respect thereof for all purposes under the Trust Indenture and any other agreement under which the Approved Obligation arises.

[7] Province wants this mechanic embedded in the adherence conditions so it is explicitly understood and mechanically contemplated as the way the Province be sure future Limited Guarantees are cut-off opposite the indenture trustee.

(a) The Province (i) acknowledges and agrees in favour of the Indenture Trustee that, upon being subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation in accordance with Section 5.01(a), the Province, in its capacity as a Specified Creditor, will be subject to the provisions applicable to Specified Creditors under the Trust Indenture, including **[Section 7.11 (Payments Held in Trust), Section 8.12 (Limitation on Suits), Sections 7.04 and 8.13 (Payment Priorities), Section 8.14 (Limited Recourse) and Section 16.01 (No Petition) thereof]** and (ii) confirms that the Indenture Trustee shall send notices to the Province, in its capacity as a Specified Creditor, in accordance with Section 9.02.

5.02 Priorities

For greater certainty, the rights, interests and entitlements of the Province as an assignee and subrogee of and with respect to an Approved Obligation shall rank equally with the rights, interests and entitlements of a Beneficiary for whom a Limited Guarantee payment is made in respect of, and to the extent of the payment made to satisfy, the Approved Obligation and the Province shall not be subject to postponement or subordination with respect thereto except to the extent of the priorities established in relation to the Approved Obligation under the Trust Indenture.

5.03 Province May Perform Other Program Agreement Covenants.

If the Financing Entity fails to perform any covenant under any Program Agreement, the Province may (but, except as expressly provided for under this Agreement, shall not be obligated to) perform such covenant on behalf of the Financing Entity. If the Province performs such a covenant on behalf of the Financing Entity, all sums expended or advanced by the Province in so performing the covenant will bear interest at the rate of interest determined by the Province to reflect market terms and conditions for a borrowing made by the Province at the relevant time from the date of expenditure until repayment by the Financing Entity and will (together with such interest) be paid by the Financing Entity upon demand and will until paid form part of the Obligations Secured subject to Sections **[7.04 and 8.13]** of the Trust Indenture and constitute a Finance Amount.[8]

5.04 Representations and Warranties

The Province hereby represents and warrants that:

(a) the execution, delivery and performance of this Agreement by the Province have been authorized by all necessary action on the part of the Province;

(b) the execution, delivery and performance of this Agreement by the Province do not result in the violation of any applicable law; and

(c) this Agreement has been duly executed and delivered by the Province.

[8] Payments to be addressed in the Trust Indenture like servicer advances under the waterfall provisions.

ARTICLE VI
NOTICE OF ASSUMPTION OF OBLIGATIONS SECURED

6.01 Delivery of Assumption Notice

Following the occurrence of a Protection Event, the Province may provide notice (in the form of Exhibit B) to the Indenture Trustee, in accordance with the terms of the Process Agreement, that the Province has elected to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor (the "**Assumption Notice**"). The Assumption Notice shall specify the date on which the assignment and assumption of the Obligations Secured will be effective (the "**Assumption Closing Date**").

6.02 Cooperation to Implement the Assignment and Assumption

The Indenture Trustee, the FSM, the Financing Entity and the Province will cooperate and use best efforts to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the Assumption Closing Date.[9]

6.03 Effect of Assumption

On the date that the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province becomes effective (the "**Assumption Effective Date**"), the Province shall no longer be required to provide and perform the Limited Guarantee but will instead become a primary obligor under the Obligations Secured assumed pursuant to and in accordance with an applicable Assumption Agreement. For greater certainty, the obligations of the Province so assumed will not be secured obligations of the Province and the obligees thereof will have no right, interest or claim to or in respect of the Collateral or any proceeds therefrom. **[NTD: Need to move Article VI of the Change of Law Process Agreement into this Article VI and amend accordingly.[10] Also, we will need to attach the form of Assumption Agreement as an Exhibit to this Agreement that will be used for the assignment and assumption of all Obligations Secured. Contrary to the statement in Section 6.02(f) of the Change of Law Protection Agreement, there will not be a separate form of Assumption Agreement for each Obligation Secured. [11]]**

6.04 Interim Period

Until the effective time of the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province on the Assumption Effective Date, the Province shall continue to perform and be obligated under the Limited Guarantee.

---

[9] Further details regarding obtaining of third party consents and rating agency approvals to be provided by OPG.

[10] The idea was to not burden the external agreement with the necessary steps for the Province to be in a position to step-in. If the preference is to include more in this external agreement, the Province will not object subject to further consideration of drafting issues.

[11] It has been assumed that there may be variations depending on the nature of the underlying obligations. A root form of Assumption Agreement, modified to conform substantially to that form in connection with a particular obligation, was the idea. To be further discussed.

6.05 Rights in respect of the Assets Comprising the Collateral

Upon assuming the Financing Entity's obligations in respect of all Obligations Secured under Article VI, the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the Financing Entity's rights and interests under and in respect of the assets, property and undertaking comprising the Collateral and all proceeds therefrom, free and clear of any liens, encumbrances or restrictions arising under or as a result of the Trust Indenture. The Province shall have and be entitled to enforce all such rights and interests as an absolute assignee of the Financing Entity, with effect from and after the time of such assumption, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing to the Financing Entity and unaffected by any other rights, interests or equities that arise thereafter in respect of the assets, property and undertaking comprising the Collateral as between the Beneficiaries and the Financing Entity. The Indenture Trustee shall thereupon recognize the Province as the absolute owner of the assets, property and undertaking comprising the Collateral.

ARTICLE VII
INDENTURE TRUSTEE MATTERS

7.01 Limited Recourse

No recourse may be taken, directly or indirectly, with respect to the obligations of the Financing Entity under this Agreement, or any certificate or other writing delivered in connection herewith or therewith, against (a) the Financing Entity Trustee in its individual capacity, (b) any owner of a beneficial interest in the Financing Entity or (c) any partner, owner, beneficiary, agent, officer, director, employee or agent of the Financing Entity Trustee in its individual capacity, any holder of a beneficial interest in the Financing Entity or the Financing Entity Trustee or of any successor or assign of the Financing Entity Trustee in its individual capacity, except as any such Person may have expressly agreed (it being understood that the Financing Entity Trustee has no such obligations in its individual capacity).

7.02 Not Responsible for Recitals or Issuance of Notes

The recitals contained herein will be taken as the statements of the Province and the FSM, and the Indenture Trustee assumes no responsibility for their correctness. The Indenture Trustee makes no representations as to the validity or sufficiency of this Agreement.

7.03 Representations and Covenants of the Indenture Trustee

The Indenture Trustee represents, warrants and covenants that:

(a) the Indenture Trustee is a trust company organized, existing and in good standing under the laws of Canada;

(b) the Indenture Trustee has full power and authority to execute, deliver and perform this Agreement and has taken all necessary action to authorize the execution,

delivery and performance by it of this Agreement and other documents to which it is a party;

(c) each of this Agreement and the other documents to which it is a party has been duly executed and delivered by the Indenture Trustee and constitutes its legal, valid and binding obligation in accordance with its terms; and

(d) the Indenture Trustee is authorized to carry on the business of a trust company in each of the provinces and territories of Canada.

ARTICLE VIII
SUSPENSION OF ADHERENCE FOR NEW PRIMARY OBLIGATIONS

8.01 Suspension Notice

A written notice in the form of Exhibit C (a "**Suspension Notice**") may be provided by the Province to the Indenture Trustee, the FSM and the Financing Entity:

(a) upon the Province becoming aware of the occurrence of a Program Breach; and

(b) following the occurrence of a Breach Event that has not been waived in writing by the Province.

8.02 Suspension

If a Suspension Notice has been provided under Section 8.01 (the provision of such notice being a "**Suspension Event**"), the Limited Guarantee shall not apply in respect of any Obligation Secured incurred on or after the time such Suspension Notice is delivered. For greater certainty, the rights of the Province under Article VI shall apply in respect of all Obligations Secured, including if incurred on or after the time such Suspension Notice is delivered.

8.03 Termination Notice

On (a) the occurrence of a Suspension Event or (b) the Assumption Effective Date, the Province may provide to the Indenture Trustee, the FSM and the Financing Entity a notice in the form of Exhibit D (a "**Termination Notice**").[12]

8.04 No Impact on Adherence

For greater certainty, the occurrence of Suspension Event or a failure by the FSM or the Financing Entity to perform its covenants under this Agreement will not invalidate or extinguish the obligations of the Province under the Limited Guarantee in respect of Approved Obligations

[12] The suspension right in favour of the Province is intended to allow the Province to cut-off future obligations under this Agreement, but not affect rights that have arisen prior to the suspension notice. The termination notice is a further step that allows the Province to bring this agreement to an end, but that only happens (under section 9.01) after all amounts capable of becoming due under the Limited Guarantee have been paid (i.e., the last obligation incurred prior to the suspension notice has been satisfied), including as a result of an assumption under Art VI.

in existence prior to the occurrence of the Suspension Event, nor will it in any way impact the Obligations Secured which are assumed by the Province in accordance with Article VI.

ARTICLE IX

February 17, 2017

Dear Mr. Bosco:

We have completed our engagement to assist you with understanding the accounting treatment for conservation and demand initiative costs. Our engagement was performed in accordance with our Statement of Work dated January 10, 2017 under our Agreement during the period January 13 to February 17, 2017. You requested that we amend the original Report to include consideration of the application of the US Governmental Accounting Standards Board guidance. This Report replaces the previously issued report dated January 19, 2017.

Results of our work

Based on our procedures performed during the period January 13 to February 17, 2017, we prepared the attached Report for your use. Management of the Company reviewed these documents for completeness, accuracy and reasonableness. Decisions regarding the Company's application of CPA Public Sector Accounting Standards ("PSAS") were made solely by the Company's management.

Background

Under the Statement of Work, our scope of services was to assist you with understanding the accounting for conservation incentive costs. The Ministry of Energy is currently exploring a potential financing arrangement for conservation and demand management ("CDM") initiative programs that would see the IESO borrow funds from the Ontario Financing Authority ("OFA") to fund eligible CDM costs.

Scope of our work

In connection with our engagement, we held discussions with and made inquiries of the IESO's personnel. We also obtained and read the Company's financial statements, certain limited accounting records, and certain computations prepared by the IESO.

The procedures performed by us is included in our Statement of Work. There were no differences between the procedures set forth in this Report and those set forth in our Statement of Work.

Our work was performed under the direction of yourself and was based on inquiries of, and discussions with, you. We have not sought to confirm the accuracy of the data or the information and explanations provided by management.

We did not provide a professional opinion on the application of accounting principles pursuant to Chartered Professional Accountants of Canada ("CPA Canada") or the AICPA's Standards for Reports on the Application of Accounting Principles (as amended and interpreted).

DRAFT

The procedures that we performed were advisory in nature and do not constitute an audit or review in accordance with CPA Canada, PCAOB or AICPA auditing or attestation standards, nor do they constitute an examination of prospective financial statements in accordance with standards established by the American Institute of Certified Public Accountants. Additionally, the procedures do not address the effectiveness of internal controls over financial reporting under National Instrument 52-109 issued by the Canadian Securities Administrators or Section 404 of the Sarbanes-Oxley Act. Accordingly, we express no opinion or any other form of assurance on the historical or prospective financial statements, management representations or other data of the Company included in or underlying the accompanying information. While we believe the information obtained is substantially responsive to your request, we are not in a position to assess its sufficiency for your purposes. In addition, we have no responsibility to update the Report for events or circumstances occurring after the date of the Report.

Our work has been limited in scope and time, and more detailed procedures may reveal issues that this engagement has not.

Restrictions on the use of our Report

This Report is intended solely for the information and use of the management of the IESO, and is not intended to be and should not be used by anyone other than these specified parties. EY therefore assumes no responsibility to any user of the Report other than IESO. Any other persons who choose to rely on our Report do so entirely at their own risk.

We appreciate the cooperation and assistance provided to us during the course of our work. If you have any questions, please call Nadira Singh at (416) 943-3896 or me at (416) 943-2094.

IESO – Accounting for Conservation Costs

i. Background

The Independent Electricity System Operator ("IESO") is in the process of evaluating the accounting implications of a potential change to the recovery method of conservation costs.

The IESO is a non-profit entity, owned by the government of Ontario, and is governed by the Ministry of Energy ("Minister") and operates pursuant to a license granted by the Ontario Energy Board ("OEB"). As part of the IESO's operations, it is required to submit its proposed expenditures, revenue requirements and fees for the coming year to the OEB for review and approval. The submission may be made only with the approval of the IESO business plan by the Ministry of Energy.

As part of the IESO's operations, it facilitates conservation and demand management ("CDM") initiatives in Ontario, whereby local distribution companies ("LDC") incur expenditures in accordance with the CDM guidelines prescribed by the IESO. The IESO then reimburses the LDCs on a dollar-for-dollar basis. Currently, the IESO is reimbursed through the global adjustment mechanism in the fiscal year in which the expenditure is incurred as outlined in Ontario regulation 429/04 Adjustments under the Act and as provided by the Minister per the directive dated March 31, 2014, *2015-2020 Conservation First Framework.* The IESO receives this reimbursement from the LDCs who collect the global adjustments directly from ratepayers. The calculation of the global adjustment is the difference between the Hourly Ontario Electricity Price ("HOEP") and:

- Ontario Power Generation's regulated nuclear and hydro generation;
- IESO (including former Ontario Power Authority) contracts with generators and suppliers of conservation;
- Contracted rates administered by the Ontario Electricity Financial Corporation paid to existing generators.

The Ministry of Energy has granted authority to the IESO to collect the CDM incentive costs as part of the global adjustment.

The Ministry of Energy is currently exploring a potential financing arrangement for CDM programs that would see the IESO borrow funds from the Ontario Financing Authority ("OFA") to fund eligible CDM costs. This loan would be recognized as a financial liability by IESO. The CDM costs would then be recovered through the global adjustment over an extended period of time. The accounting alternatives for the underlying CDM costs and the loan interest in accordance with Public Sector Accounting Standards is discussed herein.

ii. Accounting guidance

Presently, the IESO accounts for CDM costs as an asset at the time an invoice is received from the entity that has incurred the CDM expenditure eligible for reimbursement (e.g. DR Asset; CR Accounts Payable to the LDC). At the end of each month, the IESO takes the sum of the amounts requested for reimbursement and includes this sum in its submission in the calculation of the total global adjustment for the month. Once the global adjustment is calculated by the IESO, the amount is charged to customers by the LDCs (on the IESO's behalf) and the IESO receives the funds in the subsequent month.

To address the accounting considerations of the inclusion of the CDM costs in the global adjustment over an extended recovery period (that will be determined by the Minister), the IESO must consider the guidance prescribed by the CPA Public Sector Accounting Standards ("PSAS"). PSAS does not provide specific

DRAFT

guidance to address the accounting for assets that will be recovered through rates from various customers over future years

In the absence of PSAS that specifically applies to a transaction, professional judgement is required to apply an appropriate accounting policy that is consistent with primary sources and financial statement concepts of PSAS. Other accounting pronouncements may be useful but are not required to be consulted as noted in paragraphs 18 to 22 of PS 1150 *Generally accepted accounting principles* which addresses other sources that may be referenced:

> *.19 Pronouncements issued by other bodies authorized to issue accounting standards may be useful sources to consult. For example, accounting pronouncements published with the authority of the Canadian Accounting Standards Board (AcSB), International Accounting Standards Board (IASB), US Federal Accounting Standards Advisory Board (FASAB), US Governmental Accounting Standards Board (GASB), or International Public Sector Accounting Standards Board (IPSASB) are often important sources to consult on matters not covered by primary sources of GAAP or for assistance in applying a primary source of GAAP to specific circumstances.*
>
> *.20 When a public sector reporting entity chooses to consult a source described in paragraph PS 1150.19, it applies professional judgment and evaluates the source in the context of the relative manner in which the standard setter requires its pronouncements to be applied, as well as in the context of the related pronouncement. When an accounting standard setter does not have a conceptual framework that is similar to the concepts referred to in paragraph PS 1150.05(b), the public sector reporting entity needs to ensure that the selected source is consistent with those concepts.*

Consequently, to evaluate the accounting considerations of the accounting for CDM costs being evaluated by the IESO, other sources of GAAP may be considered. The following sources of GAAP were reviewed to determine whether specific guidance was provided addressing the recognition of assets related to regulatory activities:

1) Accounting Standards for Private Enterprises (“ASPE”) as issued by the Canadian Accounting Standards Board (“AcSB”)/ CPA provides the following guidance:

   AcG 19 *Disclosures by entities subject to rate regulation* provides guidance related to the presentation of financial information related to entities with rate regulated activities *when a separate asset or liability has been recognized solely as a result of the effects of rate regulation (AcG 19* paragraph 7(c)).

2) The guidance issued by the US Governmental Accounting Standards Board (“US GASB”) addresses accounting for regulated operations in GASB S62—*Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA* Pronouncements. The GASB S62 standard provides clear guidance that regulatory assets may be recognized to the extent certain criteria are met.

3) US GAAP, as issued by the Financial Accounting Standards Board (“FASB”) does provide guidance to address such activities in ASC 980 *Regulated Operations,* addresses the recognition of regulatory assets.

4) IFRS as issued by the IASB no longer precludes the recognition of regulatory assets and liabilities a rate-regulated entity’s financial statements. Rather, the IASB issued a standard, IFRS 14 *Regulatory deferral accounts*, which provides the following relevant guidance:

DRAFT

Paragraph 2(a) of IFRS 14 notes that the objective of the Standard was to:

> *limit changes to the accounting policies that were applied in accordance with previous generally accepted accounting principles (previous GAAP) for regulatory deferral account balances, which are primarily related to the presentation of these accounts;*

Additionally, paragraph 10 of IFRS 14 notes:

> *Paragraphs 11–12 of IAS 8 specify sources of requirements and guidance that management is required or permitted to consider in developing an accounting policy for an item, if no relevant Standard applies specifically to that item. This Standard exempts an entity from applying paragraph 11 of IAS 8 to its accounting policies for the recognition, measurement, impairment and derecognition of regulatory deferral account balances. Consequently, entities that recognise regulatory deferral account balances, either as separate items or as part of the carrying value of other assets and liabilities, in accordance with their previous GAAP, are permitted to continue to recognise those balances in accordance with this Standard through the exemption from paragraph 11 of IAS 8, subject to any presentation changes required by paragraphs 18–19 of this Standard.*

This IFRS was issued in response to North American entities potentially transitioning to IFRS, because there was a lack of guidance that permitted the continued separate accounting treatment for regulatory assets and liabilities recognized as a result of rate regulated activities. The guidance above, permits rate-regulated entities upon first-time adoption of IFRS to continue to recognize regulatory assets and liabilities in accordance with the framework that was applied previously (i.e. generally, entities recognized assets in accordance with the guidance of ASC 980 (US entities) or AcG 19 (Canadian entities)).

Given the above-noted guidance, an entity can look to the other accounting frameworks while also ensuring that when judgment is applied, the resulting accounting policy is not inconsistent with the accounting guidance of PSAS. For this reason, the evaluation of accounting considerations in the development of the proposed accounting treatment for the recovery of CDM costs, is considered in the following order:

1) Can an asset be recognized in accordance with PS 1000 *Financial statement concepts* as prescribed by PSAS?

2) Can the IESO reference the guidance of other accounting frameworks to support the recognition of the reimbursement of CDM costs as an asset?

3) Failing the above, is the most appropriate accounting treatment to recognize the reimbursement of CDM costs as an expense of the current period and simply recognize revenue in future periods when the cost is recovered?

1. Qualification of reimbursement of CDM costs as an asset in accordance with PSAS:

Although PSAS does not specifically address the recognition of costs incurred that will be recovered through regulatory operations in future periods, this does not result in the conclusion that such costs cannot be recognized as an asset. In particular, paragraph 5 of PS 1150 notes:

> *.05 When the primary sources of GAAP do not deal with the accounting and reporting in financial statements of transactions or events encountered by the public sector reporting entity, or*

DRAFT

additional guidance is needed to apply a primary source to specific circumstances, the selection of an appropriate accounting policy requires the exercise of professional judgment. In these circumstances, a public sector reporting entity should adopt accounting policies and disclosures that are consistent with:

(a) the primary sources of GAAP; and

(b) the application of the concepts described in FINANCIAL STATEMENT CONCEPTS, Section PS 1000.

In this case, the IESO would consider whether an asset could be supported by the guidance noted in PS 1000 *Financial statement concepts*, as follows:

Recognition of an asset

Paragraphs 35-37:

.35 Assets are economic resources controlled by a government as a result of past transactions or events and from which future economic benefits are expected to be obtained.

.36 Assets have three essential characteristics:

a) they embody future economic benefits that involve a capacity, singly or in combination with other assets, to provide goods and services, to provide future cash inflows, or to reduce cash outflows;

b) the public sector entity can control the economic resource and access to the future economic benefits; and

c) the transaction or event giving rise to the public sector entity's control has already occurred. [Former paragraph PS 1000.36 retained in Archived Pronouncements.]

.37 An item is not an asset of a government if it lacks one or more of the essential characteristics listed in the preceding paragraph. Thus, for example, an item does not qualify as an asset of a government if the item involves:

(a) no future economic benefit;

(b) future economic benefit, but the government cannot obtain it; or

(c) future economic benefit that the government may obtain, but the events or circumstances that give the government control of the benefit have not yet occurred.

In evaluating the costs incurred by the IESO to reimburse the LDCs, an argument could be made to support the recognition of the costs as an asset as the costs meet the three essential characteristics prescribed by PS 1000. Particularly:

- ***Future economic benefits*** – the CDM costs incurred by the IESO are made to reimburse eligible expenditures from market participants or third-party delivery agents (e.g. an LDC). The IESO can expect to generate future economic benefits from the reimbursement of these expenditures because: a) it has a license with the OEB to operate as a system operator and recover reasonable costs incurred (as noted below) and b) it is mandated by the Minister to charge ratepayers the global adjustment, which results in future cash inflows to recover the reimbursed costs.

DRAFT

Paragraph 13 of PS 3210 *Assets* notes:

.13 *The future economic benefits embodied in an asset may also be in the form of generating future cash inflows. Cash inflows benefit the public sector entity because cash can be used to purchase or to provide goods and services, redistribute wealth or settle liabilities. Benefits in the form of cash inflows relate to resources, such as loans receivable, inventory for resale and portfolio investments. Also, some public sector resources generate cash inflows because they have user fees associated with them.*

The global adjustment that is charged to ratepayers and calculated by the IESO is not subject to the review or approval of the Ontario Electricity Board ("OEB"). Accordingly, there is limited risk with respect to the IESO's ability to recover the reimbursement costs incurred – even if the costs are recovered over an extended period of time, as the OEB does not have the ability to reject the recovery of these costs. While risk is limited, the recovery of the CDM expenditures reimbursed by the IESO is dependent on future transactions with electricity customers.

Also, while not specifically governed by the OEB, the IESO's license with the OEB provides that reasonable costs of its activities will be recovered:

> 13 *Fees and Charges*
>
> 13.1 *The Licensee may impose fees and charges to recover the cost of its activities in accordance with an order of the Board, or as permitted by law.*
>
> 14 *Books of Accounts and Financial Reporting*
>
> 14.3 *Unless otherwise provided by law, the Licensee shall, no less than 60 days before the beginning of the Licensee's fiscal year submit the Licensee's proposed expenditure and revenue requirements for the following fiscal year and the fees it proposes to charge during that year to the Board for review and approval. The Licensee's submission shall include a copy of the Licensee's annual business plan for the fiscal year as approved by the Minister under section 24 of the Electricity Act.*

Through its mandate from the Ministry of Energy, which provides the IESO with the right to recover costs, in combination with the IESO's license with the OEB, to the extent that CDM costs are incurred (past transaction) in accordance with the IESO's mandate from the Ministry of Energy, these cash inflows (and thus, future economic benefits) are expected to be recovered.

- ***Public sector entity control's economic resource and access to economic benefits*** – The IESO controls access to the future cash inflows that are generated from the incurrence of the CDM expenditures, as it is the IESO who has the mandate from the Ministry of Energy to incur these CDM costs and it is also the IESO who has the directive from this Minister to recover the CDM costs through the global adjustment mechanism charged to rate payers. Specifically, the Electricity Act 1998 notes the following:

> ***Electricity pricing to reflect costs***
>
> ***IESO to make adjustments***
>
> *25.33 (1) The IESO shall, through its billing and settlement systems, make adjustments in accordance with the regulations that ensure that, over time, payments by classes of market participants in Ontario that are prescribed by regulation reflect,*
>
> *a. amounts paid to generators, the Financial Corporation and distributors, whether the amounts are determined under the market rules or under section 78.1, 78.2 or 78.5 of the Ontario Energy Board Act, 1998; and*

DRAFT

b. *amounts paid to entities with whom the IESO has a procurement contract, as determined under the procurement contract. 2014, c. 7, Sched. 7, s. 8 (1).*

Paragraph 16 of PS 3210 provides additional guidance regarding control of an economic resource and access to future economic benefits, which notes that the public entity:

a) *Can benefit from the economic resource through its capacity to provide goods and services, to provide future cash inflows or to reduce cash outflows;*

b) *Can deny or regulate access to those benefits by others; and*

c) *Is exposed to the risks associated with the economic resource.*

As outlined previously, the IESO has control over the economic resource, as it is the sole entity that is entitled to the cash inflows from ratepayers[1]. Furthermore, while risk is limited, the IESO is exposed to the risk associated with the economic resource – as the Ministry of Energy could change their directive or calculation of the global adjustment, or there could be a change in the economic environment (as discussed above) and thus, alter the ability of the IESO to recover the costs.

- ***Transaction or event giving rise to public sector entity's control has already occurred*** – When evaluating whether a transaction or event gives rise to control, paragraphs 26 and 27 of PS 3210 provides helpful guidance:

  The past transaction or event that gives rise to control of an economic resource resulting from exchange agreements or contracts usually occurs at the point of exchange. This arises when substantially all the benefits and risks of ownership have been transferred to the public sector entity and normally coincides with the disbursement of funds, exchange of other assets or assumption of liabilities.

  Meeting the eligibility criteria under an authorized transfer often determines the past transaction or event giving rise to control of an economic resource in non-exchange contracts or agreements. Shared cost agreements (reimbursement arrangements) are an example where the control of an economic resource arises when the recipient incurs eligible expenditures.

  Consistent with the guidance in paragraph 26, control over the economic benefits of the IESO's reimbursement via the global adjustment mechanism from the LDC occurs once the IESO has distributed funds to the LDC. At this point in time, the IESO has incurred a cash outflow for which it is entitled to recover through the global adjustment as prescribed by the Ministry of Energy and the Electricity Act 1998.

Based on the characteristics, as prescribed by PS 1000 and the additional guidance of PS 3210, the cash outflows disbursed by the IESO to reimburse CDM costs to LDCs could meet the definition of an asset in PS 1000.

In accordance with the principles of PSAS, there are generally two types of assets that the IESO may consider recognizing 1) financial asset; or 2) non-financial asset. To classify the asset, it must fall into one of the two categories.

[1] Although the administrative framework provides that LDCs invoice the global adjustment to ratepayers on the IESO's behalf, the IESO has sole entitlement to the cash inflows that result from the global adjustment. All global adjustment amounts collected by LDCs are required to be submitted to the IESO.

Financial asset

.39 ***Financial assets*** *are assets that could be used to discharge existing liabilities or finance future operations and are not for consumption in the normal course of operations.*

.40 *A financial asset is any asset that is:*

a) *cash;*

b) *a realizable asset that is convertible to cash;*

c) *a contractual right to receive cash or another financial asset from another party;*

d) *a contractual right to exchange financial instruments with another party under conditions that are potentially favourable to the government;*

e) *an equity instrument of another entity;*

f) *an investment in a government business enterprise or government business partnership;*

g) *a financial claim on an outside organization or individual; or*

h) *an inventory or item for sale that meets the criteria in FINANCIAL STATEMENT PRESENTATION, paragraph PS 1201.055.*

Based on the guidance of PS 1000, paragraphs 39 and 40, it may be difficult to substantiate the IESO's reimbursement of costs is a financial asset. The costs incurred by the IESO creates a right to recover costs as mandated by the Ministry of Energy. However, there is no contract with a specific ratepayer who ultimately reimburses the IESO for the costs incurred if the IESO calculates the global adjustment (i.e. its recovery mechanism) and this amount is then disbursed to all ratepayers in Ontario (regardless of whether an individual ratepayer benefited from the cost incurred). Furthermore, to the extent that a current ratepayer moves outside of Ontario, it could in fact result in a new ratepayer having to incur the additional charge to permit the IESO to recover its costs. It is difficult to argue that there is a contractual right to receive cash from another party, because legislation and the regulatory framework result in the right to future cash inflows from a pool of ratepayers.

An alternative view may be that the LDCs represent the counterparty to the IESO whereby the LDC is responsible for paying the IESO the global adjustment whether or not payment is ultimately received from the ratepayer. In this circumstance, the IESO can argue that a financial asset should be recognized for its contractual right to receive cash is from each specific LDC. An assessment of who is obligated for the global adjustment (e.g. an assessment of whether the LDC is the agent facilitating cash collection or is the entity obligated to pay the amount) would need to support this alternative.

Non-Financial asset

.41 *Non-financial assets include tangible capital assets, and other assets such as prepaid expenses and inventories of supplies.*

.42 *Non-financial assets are acquired, constructed or developed assets that do not normally provide resources to discharge existing liabilities, but instead:*

DRAFT

(a) are normally employed to deliver government services;

(b) may be consumed in the normal course of operations; and

(c) are not for sale in the normal course of operations.

Another accounting treatment could be a 'non-financial asset' in accordance with paragraphs 41 and 42 of PS 1000. This accounting treatment may be supportable under the PSAS guidance as an 'other asset'. The reimbursement of CDM costs, results in the incurrence of an upfront cost in which the entity will benefit from economic benefits over a period of time.

Subsequent measurement of a non-financial asset

To the extent that the recognition of an asset is supported under the framework discussed above, the entity would then be required to draw the asset down over the recovery period (i.e. as cash is collected from ratepayers through the global adjustment mechanism). The presentation of the 'draw' down of the asset is dependent upon the IESO's accounting for the global adjustment. To the extent that funds received from the global adjustment are recognized in revenue rather than to directly reduce the asset then the IESO might consider recognizing the draw-down of the asset as a reduction in revenues. Nonetheless, depending on the IESO's view of its role (i.e. principal versus agent) or its view of the nature of costs incurred, an alternative accounting treatment may result. For instance, if the IESO is an agent, then it may reduce the asset balance directly for those amounts collected by way of the global adjustment rather than recording two separate entries for the recognition of revenue (i.e. global adjustment) and reduction of revenue (i.e. over the recovery period). At this time, the IESO has not completed a principal versus agency assessment.

Demonstrating that the CDM costs will meet the definition of a financial or non-financial asset is challenging and the IESO may not be able to support either view and should consider if referencing another accounting framework to inform an accounting policy for these costs may be required as discussed below.

2. Reference to other accounting frameworks:

As previously noted above, other accounting frameworks as issued by the AcSB, GASB, FASB and IASB provide accounting guidance related to the recognition of expenditures as an asset due to rate regulated operations. When referencing the other frameworks, it is important that the costs qualify as an asset under the framework set forth by PSAS to ensure that the principles of PSAS are not violated, and only then can reference to other frameworks be made to record the reimbursement of costs as an asset.

As the IASB and AcSB do not provide detailed guidance, the IESO could explore whether the costs incurred meet the specific criteria established by GASB S62 as note below; however consideration will need to be given to the consistent application of an accounting policy to all similar existing rate regulated assets and whether an established accounting policy is already in place that would require criteria to be met to change this policy:

476. Paragraphs 476–500 may be applied to activities reported in business-type activities that have regulated operations that meet all of the following criteria:

a. The regulated business-type activity's rates for regulated services provided to its customers are established by or are subject to approval by an independent, third-party regulator or by its own governing board empowered by statute or contract to establish rates that bind customers.

DRAFT

b. The regulated rates are designed to recover the specific regulated business-type activity's costs of providing the regulated services.

c. In view of the demand for the regulated services or products and the level of competition, direct and indirect, it is reasonable to assume that rates set at levels that will recover the regulated business-type activity's costs can be charged to and collected from customers. This criterion requires consideration of anticipated changes in levels of demand or competition during the recovery period for any capitalized costs.

To the extent that the criteria of paragraph 476 of GASB S62 are met, paragraph 480 then provides the following guidance:

480. Rate actions of a regulator can provide a business-type activity with reasonable assurance of the existence of an asset. A regulated business-type activity should capitalize all or part of an incurred cost that otherwise would be charged to expense if both of the following criteria are met:

a. It is probable that future revenue in an amount at least equal to the capitalized cost will result from inclusion of that cost in allowable costs for rate-making purposes.

b. Based on available evidence, the future revenue will be provided to permit recovery of the previously incurred cost rather than to provide for expected levels of similar future costs. If the revenue will be provided through an automatic rate-adjustment clause, this criterion requires that the regulator's intent clearly be to permit recovery of the previously incurred cost.

By referencing the guidance of GASB S62, the IESO must first establish that it meets the criteria of paragraph 476. In doing so, the IESO should consider:

a. Established rates for regulated services (GASB S62.474 (a)) - The IESO's business activity rates are regulated services subject to approval. In this particular instance, the IESO's CDM expenditures are governed by legislation, Electricity Act 1998 as noted above, and by its own governing board, being, the Ministry of Energy. The Ministry of Energy has established the calculation of the global adjustment mechanism[2], which in turn, is charged to the ultimate customer who consumes the energy.

b. Regulated rates are designed to recover specific costs (GASB S62.474 (b)) - One element of the global adjustment mechanism is designed to recover the CDM expenditures that the IESO reimburses to the respective LDCs. As the IESO's regulated business activities support the LDCs delivery of energy to customers, these costs form an integral part of the IESO's regulated services to support the transmission and distribution of energy in Ontario.

c. Demand for regulated activities results in reasonable assumption that established rates will be collected and will recover cost of activities (GASB S62.474(c)) - Given that the structure of the IESO is a not-for-profit entity governed by the Electricity Act of 1998 and regulated by the Ontario Energy Board to support the transmission and distribution of energy to customers in Ontario, rates approved to be charged to customers are designed to recover the IESO's costs. Since the reimbursement of CDM expenditures is a program initiated and mandated by the Ministry of Energy, an entity that also controls the Ontario Energy Board, the IESO would need to examine and support whether the CDM expenditures will be recovered through cash inflows from customers through the global adjustment mechanism. For example, the historic demand and dependency and projected demand for electricity could be used to support a judgment or assertion by the IESO that there is no significant risk that future demand levels decline and diminish to the extent that IESO would not be able to recover the reimbursement of CDM expenditures through rates (i.e. global adjustment mechanism).

[2] Section 1.7 of the directive from the Ministry of Energy dated March 31, 2014 titled *2015-2020 Conservation First Framework* provides that the Ontario Power Authority (now merged into the IESO) may "*recover payments made under the Province-Wide Distributor CDM Programs and Local Distributor CDM Programs from the Global Adjustment Mechanism up to the budget established…"*

If the IESO can demonstrate that CDM expenditures meet the criteria as noted above, the fact pattern may support recognition of a regulatory asset in accordance with paragraph 480 of GASB S62. The IESO could consider:

a. Probability of future revenues (GASB S62.480 (a)) - The global adjustment mechanism explicitly includes recovery of the CDM expenditures. The directive from the Ministry of Energy could support the IESO's assertion that it is at least probable that future revenue will be generated in an amount at least equal to the capitalized cost related to the CDM expenditures. The IESO will need to assess if the global adjustment is considered future revenue (i.e. as part of the analysis of principal versus agent).

b. Recovery of previously incurred costs (GASB S62.480 (b)) - The IESO recovers the CDM expenditures through the global adjustment mechanism. The calculation of the portion of the global adjustment mechanism that relates to the CDM expenditures is determined by the amount that the IESO has approved to reimburse the LDC (e.g. the LDC requests reimbursement for costs it has *incurred* related to the CDM Requirement[3] and if all criteria are met, the IESO then approves the costs for reimbursement). For this reason, there is evidence that the future revenue earned from the global adjustment mechanism permits the recovery of previously incurred costs (i.e. not future costs).

Using the GASB S62 accounting guidance, and the related considerations noted above, the IESO may be able to reference GASB S62 to support the recognition of CDM expenditures as an asset by way of the GAAP hierarchy prescribed by PS 1150, paragraph 19, which explicitly references GASB as a secondary source of GAAP in the event that PSAS does not address a particular transaction. However, the IESO would also need to consider whether it is appropriate to refer to the GASB. First, consideration should be given to whether the GASB accounting guidance to capitalize rate regulated assets is consistent with the primary sources and financial statement concepts of PSAS. This may be challenging as it was noted in a paper prepared by the PSAB Conceptual Task Force *Consultation Paper 2: Measuring Financial Performance in Public Sector Financial Statements,* that the existing model in the PSA Handbook takes predominately an asset and liability view whereas standards set by the GASB is a financial statement presentation model based on a revenue and expense view. That said, the definition of an asset is similar under both the PSAS and GASB standards (GASB Concepts Statement 4[4]) and because rate regulated assets are not classified as deferred outflows of resources (GASB S65) but rather assets, it may be possible to use the GAAP hierarchy to refer to GASB to formulate an accounting policy. GASB S65 *Items Previously Recognized as Assets and Liabilities* was applicable for periods beginning after December 15, 2012. In paragraph 48 of GASB S65, rate regulated assets retained the definition of an asset and these assets were not required to be reclassified as a deferred outflow which is defined as the consumption of net assets by the government that is applicable to a future period. Secondly, any existing policy that the IESO currently applies to any other assets that could be considered rate regulated assets would require an evaluation of whether an accounting policy change from expensing to one that capitalizes rate regulated assets meets the criteria that the new accounting policy results in a more appropriate presentation of events or transactions in the IESO's financial statements (PS 2120, paragraph 2).

An alternative view is that it is inappropriate to reference GASB S62 because GASB has provided a special accommodation to permit the capitalization of rate regulated assets when they would otherwise be expensed. If an entity that applies PSAS, determines that the definition of an asset under PS 1000 is not met then for the IESO to use a special accommodation in another framework to avoid expensing the CDM costs would not be appropriate.

[3] The Ministry of Energy issued a CDM Directive as per its letter re: 2015-2020 Conservation First Framework, which instructed the Ontario Energy Board to amend the license of each licensed electricity distributor to add a condition that specifies the distributor would make CDM programs available to customers in its licensed area. The CDM programs are required to achieve reductions in electricity consumption. As part of this, the distributor is required to make province-wide CDM programs, funded by the OPA (now the IESO) available to all customers in its licensed service area.

[4] GASB Concepts Statement 4, paragraph 8, defines assets as '*resources with present service capacity that the government presently controls*.'

If the IESO does adopt an accounting policy to capitalize the CDM costs there are examples of entities that capitalize similar rate regulated assets that prepare their financial statements in accordance with GASB in the United States. For instance, the Long Island Power Authority ("LIPA") is an organization that is responsible for supplying electricity to customers within a specified service area. LIPA recognizes regulatory assets on its statement of net position in accordance with the guidance of GASB S62.

The FASB also includes accounting guidance related to the accounting for regulated activities in ASC 980-340-25-1 as follows:

> *Rate actions of a regulator can provide reasonable assurance of the existence of an asset. An entity shall capitalize all or part of an incurred cost that would otherwise be charged to expense if both of the following criteria are met:*
>
> *a) It is probable (as defined in Topic 450) that future revenue in an amount at least equal to the capitalized cost will result from inclusion of that cost in allowable costs for rate-making purposes.*
>
> *b) Based on available evidence, the future revenue will be provided to permit recovery of the previously incurred cost rather than to provide for expected levels of similar future costs. If the revenue will be provided through an automatic rate-adjustment clause, this criterion requires that the regulator's intent clearly be to permit recovery of the previously incurred cost.*
>
> *A cost that does not meet these asset recognition criteria at the date the cost is incurred shall be recognized as a regulatory asset when it does meet those criteria at a later date.*

The guidance provided by US GAAP notes that to the extent that a regulator provides reasonable assurance of the existence of an asset, then the entity should capitalize the incurred cost that would have otherwise been expensed. In this case, the Ministry of Energy has provided that the IESO will be able to recover its costs through the global adjustment mechanism[5]. As a result, the IESO can support meeting criterion a) of 980-340-25-1 that it is probable that future revenue will equal the cost capitalized as the IESO will include those reimbursed CDM costs in its calculation of the global adjustment charged to rate payers. Furthermore, the IESO can support criterion b) is met, because the future recovery relates only to those costs paid by the IESO to reimburse eligible CDM costs.

To further support this accounting position, there are system operators (i.e. similar to the IESO) in the United States who recognize regulatory assets. As an example, ISO New England Inc., a not-for-profit organization that regulates the flow of transactions in accordance with the Federal Energy Regulatory Commission ("FERC") recognizes regulatory assets for those costs incurred subject to rate recovery mechanisms. The ISO New England Inc. operates in a very similar manner to the IESO, in that both organizations are government regulated, system operators who manage the flow of electricity transactions and are not-for-profit. While ISO New England Inc. prepares its financial statements in accordance with US GAAP, rather than GASB, ISO New England Inc.'s treatment of regulatory items is indicative that the capitalization of expenditures related to regulated activities is not an unreasonable treatment for entities of this nature.

As the application of the hierarchy is a choice and not a requirement, another entity with the same fact pattern could account for the recovery of CDM expenditures differently.

Subsequent measurement of asset

To the extent that the recognition of an asset is supported under one of the frameworks discussed above, the entity would then draw the asset down over the recovery period (i.e. as cash is collected from ratepayers

[5] Section 1.7 of the directive from the Ministry of Energy dated March 31, 2014 titled *2015-2020 Conservation First Framework* provides that the Ontario Power Authority (now merged into the IESO) may "*recover payments made under the Province-Wide Distributor CDM Programs and Local Distributor CDM Programs from the Global Adjustment Mechanism up to the budget established…"*

DRAFT

through the global adjustment mechanism). The presentation of the draw down of the asset is dependent upon the IESO's accounting for the global adjustment. To the extent that funds received from the global adjustment are recognized in revenue then the IESO might consider recognizing the recovery of the asset as a reduction in revenues (contra revenue account). Nonetheless, depending on the IESO's view of its role (i.e. principal vs. agent) or its view of the nature of costs incurred, an alternative accounting treatment may result. For instance, if the IESO is an agent, then it may reduce the asset balance directly for those amounts collected by way of the global adjustment – rather than recording two separate entries for the recognition of revenue (i.e. global adjustment) and reduction of revenue (i.e. recovery of asset).

3. Expensing expenditures as incurred

Failing the ability to support that an asset can be recognized from alternatives (1) and (2) above, the IESO would be required to record the reimbursement of an LDC's eligible CDM expenditures as an expense in the period incurred.

Paragraphs 49 to 51 of PS 1000 provide the following guidance related to expenses:

.49 Expenses, including losses, are decreases in economic resources, either by way of decreases in assets or increases in liabilities, resulting from the operations, transactions and events of the accounting period.

.50 Expenses include the cost of economic resources consumed in and identifiable with the operations of the accounting period. For example, the cost of tangible capital assets is amortized to expenses as the assets are used in delivering government programs (see TANGIBLE CAPITAL ASSETS, Section PS 3150). Expenses do not include debt repayments or transfers to other governmental units in the government reporting entity.

.51 Losses can arise from peripheral or incidental transactions and events affecting a government. Such transactions and events include the disposition of assets purchased for use and not for resale, and the liquidation or refinancing of debt.

By referencing paragraphs 49 to 51, it can be noted that the reimbursement of an LDC's CDM expenditures do indeed result in an immediate decrease in the IESO's economic resources – as noted in paragraph 49. If it cannot be substantiated that an asset can be recorded due to the future economic benefits expected to be received through the global adjustment – these expenditures must be recorded as an expense.

4. Accounting for interest costs

The accounting for interest costs related to the loan being considered to finance the IESO's recovery of CDM costs incurred over an extended period of time would be dependent on how the Ministry of Energy proposes that the IESO will recover these costs. To the extent that the Minister revises the calculation of the global adjustment, then the IESO may be able to recognize an asset for these costs (i.e. see the arguments listed in sections (1) and (2) above).

If the Ministry of Energy proposes that the IESO recover the interest costs through the revenue requirement, the IESO will need to evaluate its ability to recover the interest costs through future rates. To the extent that the there is significant risk associated with recovering these costs, interest costs should be recognized as an expense in the current period. Otherwise, the IESO may be able to capitalize the interest costs as an asset by applying the arguments in sections (1) and (2) noted above.

If a recovery mechanism is not established for the interest costs related to the loan, the interest costs would be recognized as an expense of the current period.

Dear Mr. Bosco:

We have completed our engagement to assist you with understanding the accounting treatment for conservation and demand initiative costs. Our engagement was performed in accordance with our Statement of Work dated January 10, 2017 under our Agreement during the period January 13 to February 17, 2017. You requested that we amend the original Report to include consideration of the application of the US Governmental Accounting Standards Board guidance. This Report replaces the previously issued report dated January 19, 2017.

Results of our work

Based on our procedures performed during the period January 13 to February 17, 2017, we prepared the attached Report for your use. IESO – Accounting for Conservation Costs

i. Background

The Independent Electricity System Operator ("IESO") is in the process of evaluating the accounting implications of a potential change to the recovery method of conservation costs.

The IESO is a non-profit entity, owned by the government of Ontario, and is governed by the Ministry of Energy ("Minister") and operates pursuant to a license granted by the Ontario Energy Board ("OEB"). As part of the IESO's operations, it is required to submit its proposed expenditures, revenue requirements and fees for the coming year to the OEB for review and approval. The submission may be made only with the approval of the IESO business plan by the Ministry of Energy.

As part of the IESO's operations, it facilitates conservation and demand management ("CDM") initiatives in Ontario, whereby local distribution companies ("LDC") incur expenditures in accordance with the CDM guidelines prescribed by the IESO. The IESO then reimburses the LDCs on a dollar-for-dollar basis. Currently, the IESO is reimbursed through the global adjustment mechanism in the fiscal year in which the expenditure is incurred as outlined in Ontario regulation 429/04 Adjustments under the Act and as provided by the Minister per the directive dated March 31, 2014, *2015-2020 Conservation First Framework.* The IESO receives this reimbursement from the LDCs who collect the global adjustments directly from ratepayers. The calculation of the global adjustment is the difference between the Hourly Ontario Electricity Price ("HOEP") and:

- Ontario Power Generation's regulated nuclear and hydro generation;
- IESO (including former Ontario Power Authority) contracts with generators and suppliers of conservation;
- Contracted rates administered by the Ontario Electricity Financial Corporation paid to existing generators.

The Ministry of Energy has granted authority to the IESO to collect the CDM incentive costs as part of the global adjustment.

The Ministry of Energy is currently exploring a potential financing arrangement for CDM programs that would see the IESO borrow funds from the Ontario Financing Authority ("OFA") to fund eligible CDM costs. This loan would be recognized as a financial liability by IESO. The CDM costs would then be recovered through the global adjustment over an extended period of time. The accounting alternatives for the underlying CDM costs and the loan interest in accordance with Public Sector Accounting Standards is discussed herein.

ii. Accounting guidance

Presently, the IESO accounts for CDM costs as an asset at the time an invoice is received from the entity that has incurred the CDM expenditure eligible for reimbursement (e.g. DR Asset; CR Accounts Payable to the LDC). At the end of each month, the IESO takes the sum of the amounts requested for reimbursement and includes this sum in its submission in the calculation of the total global adjustment for the month. Once the global adjustment is calculated by the IESO, the amount is charged to customers by the LDCs (on the IESO's behalf) and the IESO receives the funds in the subsequent month.

To address the accounting considerations of the inclusion of the CDM costs in the global adjustment over an extended recovery period (that will be determined by the Minister), the IESO must consider the guidance prescribed by the CPA Public Sector Accounting Standards ("PSAS"). PSAS does not provide specific

DRAFT

guidance to address the accounting for assets that will be recovered through rates from various customers over future years

In the absence of PSAS that specifically applies to a transaction, professional judgement is required to apply an appropriate accounting policy that is consistent with primary sources and financial statement concepts of PSAS. Other accounting pronouncements may be useful but are not required to be consulted as noted in paragraphs 18 to 22 of PS 1150 *Generally accepted accounting principles* which addresses other sources that may be referenced:

> *.19 Pronouncements issued by other bodies authorized to issue accounting standards may be useful sources to consult. For example, accounting pronouncements published with the authority of the Canadian Accounting Standards Board (AcSB), International Accounting Standards Board (IASB), US Federal Accounting Standards Advisory Board (FASAB), US Governmental Accounting Standards Board (GASB), or International Public Sector Accounting Standards Board (IPSASB) are often important sources to consult on matters not covered by primary sources of GAAP or for assistance in applying a primary source of GAAP to specific circumstances.*
>
> *.20 When a public sector reporting entity chooses to consult a source described in paragraph PS 1150.19, it applies professional judgment and evaluates the source in the context of the relative manner in which the standard setter requires its pronouncements to be applied, as well as in the context of the related pronouncement. When an accounting standard setter does not have a conceptual framework that is similar to the concepts referred to in paragraph PS 1150.05(b), the public sector reporting entity needs to ensure that the selected source is consistent with those concepts.*

Consequently, to evaluate the accounting considerations of the accounting for CDM costs being evaluated by the IESO, other sources of GAAP may be considered. The following sources of GAAP were reviewed to determine whether specific guidance was provided addressing the recognition of assets related to regulatory activities:

1) Accounting Standards for Private Enterprises (“ASPE”) as issued by the Canadian Accounting Standards Board (“AcSB”)/ CPA provides the following guidance:

   AcG 19 *Disclosures by entities subject to rate regulation* provides guidance related to the presentation of financial information related to entities with rate regulated activities *when a separate asset or liability has been recognized solely as a result of the effects of rate regulation (AcG 19* paragraph 7(c)).

2) The guidance issued by the US Governmental Accounting Standards Board (“US GASB”) addresses accounting for regulated operations in GASB S62—*Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA* Pronouncements. The GASB S62 standard provides clear guidance that regulatory assets may be recognized to the extent certain criteria are met.

3) US GAAP, as issued by the Financial Accounting Standards Board (“FASB”) does provide guidance to address such activities in ASC 980 *Regulated Operations,* addresses the recognition of regulatory assets.

4) IFRS as issued by the IASB no longer precludes the recognition of regulatory assets and liabilities a rate-regulated entity’s financial statements. Rather, the IASB issued a standard, IFRS 14 *Regulatory deferral accounts*, which provides the following relevant guidance:

DRAFT

Paragraph 2(a) of IFRS 14 notes that the objective of the Standard was to:

> *limit changes to the accounting policies that were applied in accordance with previous generally accepted accounting principles (previous GAAP) for regulatory deferral account balances, which are primarily related to the presentation of these accounts;*

Additionally, paragraph 10 of IFRS 14 notes:

> *Paragraphs 11–12 of IAS 8 specify sources of requirements and guidance that management is required or permitted to consider in developing an accounting policy for an item, if no relevant Standard applies specifically to that item. This Standard exempts an entity from applying paragraph 11 of IAS 8 to its accounting policies for the recognition, measurement, impairment and derecognition of regulatory deferral account balances. Consequently, entities that recognise regulatory deferral account balances, either as separate items or as part of the carrying value of other assets and liabilities, in accordance with their previous GAAP, are permitted to continue to recognise those balances in accordance with this Standard through the exemption from paragraph 11 of IAS 8, subject to any presentation changes required by paragraphs 18–19 of this Standard.*

This IFRS was issued in response to North American entities potentially transitioning to IFRS, because there was a lack of guidance that permitted the continued separate accounting treatment for regulatory assets and liabilities recognized as a result of rate regulated activities. The guidance above, permits rate-regulated entities upon first-time adoption of IFRS to continue to recognize regulatory assets and liabilities in accordance with the framework that was applied previously (i.e. generally, entities recognized assets in accordance with the guidance of ASC 980 (US entities) or AcG 19 (Canadian entities)).

Given the above-noted guidance, an entity can look to the other accounting frameworks while also ensuring that when judgment is applied, the resulting accounting policy is not inconsistent with the accounting guidance of PSAS. For this reason, the evaluation of accounting considerations in the development of the proposed accounting treatment for the recovery of CDM costs, is considered in the following order:

1) Can an asset be recognized in accordance with PS 1000 *Financial statement concepts* as prescribed by PSAS?

2) Can the IESO reference the guidance of other accounting frameworks to support the recognition of the reimbursement of CDM costs as an asset?

3) Failing the above, is the most appropriate accounting treatment to recognize the reimbursement of CDM costs as an expense of the current period and simply recognize revenue in future periods when the cost is recovered?

1. Qualification of reimbursement of CDM costs as an asset in accordance with PSAS:

Although PSAS does not specifically address the recognition of costs incurred that will be recovered through regulatory operations in future periods, this does not result in the conclusion that such costs cannot be recognized as an asset. In particular, paragraph 5 of PS 1150 notes:

> *.05 When the primary sources of GAAP do not deal with the accounting and reporting in financial statements of transactions or events encountered by the public sector reporting entity, or*

DRAFT

additional guidance is needed to apply a primary source to specific circumstances, the selection of an appropriate accounting policy requires the exercise of professional judgment. In these circumstances, a public sector reporting entity should adopt accounting policies and disclosures that are consistent with:

(a) the primary sources of GAAP; and

(b) the application of the concepts described in FINANCIAL STATEMENT CONCEPTS, Section PS 1000.

In this case, the IESO would consider whether an asset could be supported by the guidance noted in PS 1000 *Financial statement concepts*, as follows:

Recognition of an asset

Paragraphs 35-37:

.35 Assets are economic resources controlled by a government as a result of past transactions or events and from which future economic benefits are expected to be obtained.

.36 Assets have three essential characteristics:

a) they embody future economic benefits that involve a capacity, singly or in combination with other assets, to provide goods and services, to provide future cash inflows, or to reduce cash outflows;

b) the public sector entity can control the economic resource and access to the future economic benefits; and

c) the transaction or event giving rise to the public sector entity's control has already occurred. [Former paragraph PS 1000.36 retained in Archived Pronouncements.]

.37 An item is not an asset of a government if it lacks one or more of the essential characteristics listed in the preceding paragraph. Thus, for example, an item does not qualify as an asset of a government if the item involves:

(a) no future economic benefit;

(b) future economic benefit, but the government cannot obtain it; or

(c) future economic benefit that the government may obtain, but the events or circumstances that give the government control of the benefit have not yet occurred.

In evaluating the costs incurred by the IESO to reimburse the LDCs, an argument could be made to support the recognition of the costs as an asset as the costs meet the three essential characteristics prescribed by PS 1000. Particularly:

- ***Future economic benefits*** – the CDM costs incurred by the IESO are made to reimburse eligible expenditures from market participants or third-party delivery agents (e.g. an LDC). The IESO can expect to generate future economic benefits from the reimbursement of these expenditures because: a) it has a license with the OEB to operate as a system operator and recover reasonable costs incurred (as noted below) and b) it is mandated by the Minister to charge ratepayers the global adjustment, which results in future cash inflows to recover the reimbursed costs.

DRAFT

Paragraph 13 of PS 3210 *Assets* notes:

.13 *The future economic benefits embodied in an asset may also be in the form of generating future cash inflows. Cash inflows benefit the public sector entity because cash can be used to purchase or to provide goods and services, redistribute wealth or settle liabilities. Benefits in the form of cash inflows relate to resources, such as loans receivable, inventory for resale and portfolio investments. Also, some public sector resources generate cash inflows because they have user fees associated with them.*

The global adjustment that is charged to ratepayers and calculated by the IESO is not subject to the review or approval of the Ontario Electricity Board ("OEB"). Accordingly, there is limited risk with respect to the IESO's ability to recover the reimbursement costs incurred – even if the costs are recovered over an extended period of time, as the OEB does not have the ability to reject the recovery of these costs. While risk is limited, the recovery of the CDM expenditures reimbursed by the IESO is dependent on future transactions with electricity customers.

Also, while not specifically governed by the OEB, the IESO's license with the OEB provides that reasonable costs of its activities will be recovered:

> 13 *Fees and Charges*
>
> 13.1 *The Licensee may impose fees and charges to recover the cost of its activities in accordance with an order of the Board, or as permitted by law.*
>
> 14 *Books of Accounts and Financial Reporting*
>
> 14.3 *Unless otherwise provided by law, the Licensee shall, no less than 60 days before the beginning of the Licensee's fiscal year submit the Licensee's proposed expenditure and revenue requirements for the following fiscal year and the fees it proposes to charge during that year to the Board for review and approval. The Licensee's submission shall include a copy of the Licensee's annual business plan for the fiscal year as approved by the Minister under section 24 of the Electricity Act.*

Through its mandate from the Ministry of Energy, which provides the IESO with the right to recover costs, in combination with the IESO's license with the OEB, to the extent that CDM costs are incurred (past transaction) in accordance with the IESO's mandate from the Ministry of Energy, these cash inflows (and thus, future economic benefits) are expected to be recovered.

- ***Public sector entity control's economic resource and access to economic benefits*** – The IESO controls access to the future cash inflows that are generated from the incurrence of the CDM expenditures, as it is the IESO who has the mandate from the Ministry of Energy to incur these CDM costs and it is also the IESO who has the directive from this Minister to recover the CDM costs through the global adjustment mechanism charged to rate payers. Specifically, the Electricity Act 1998 notes the following:

> ***Electricity pricing to reflect costs***
>
> ***IESO to make adjustments***
>
> *25.33 (1) The IESO shall, through its billing and settlement systems, make adjustments in accordance with the regulations that ensure that, over time, payments by classes of market participants in Ontario that are prescribed by regulation reflect,*
>
> *a. amounts paid to generators, the Financial Corporation and distributors, whether the amounts are determined under the market rules or under section 78.1, 78.2 or 78.5 of the Ontario Energy Board Act, 1998; and*

DRAFT

b. *amounts paid to entities with whom the IESO has a procurement contract, as determined under the procurement contract. 2014, c. 7, Sched. 7, s. 8 (1).*

Paragraph 16 of PS 3210 provides additional guidance regarding control of an economic resource and access to future economic benefits, which notes that the public entity:

a) *Can benefit from the economic resource through its capacity to provide goods and services, to provide future cash inflows or to reduce cash outflows;*

b) *Can deny or regulate access to those benefits by others; and*

c) *Is exposed to the risks associated with the economic resource.*

As outlined previously, the IESO has control over the economic resource, as it is the sole entity that is entitled to the cash inflows from ratepayers[1]. Furthermore, while risk is limited, the IESO is exposed to the risk associated with the economic resource – as the Ministry of Energy could change their directive or calculation of the global adjustment, or there could be a change in the economic environment (as discussed above) and thus, alter the ability of the IESO to recover the costs.

- ***Transaction or event giving rise to public sector entity's control has already occurred*** – When evaluating whether a transaction or event gives rise to control, paragraphs 26 and 27 of PS 3210 provides helpful guidance:

  The past transaction or event that gives rise to control of an economic resource resulting from exchange agreements or contracts usually occurs at the point of exchange. This arises when substantially all the benefits and risks of ownership have been transferred to the public sector entity and normally coincides with the disbursement of funds, exchange of other assets or assumption of liabilities.

  Meeting the eligibility criteria under an authorized transfer often determines the past transaction or event giving rise to control of an economic resource in non-exchange contracts or agreements. Shared cost agreements (reimbursement arrangements) are an example where the control of an economic resource arises when the recipient incurs eligible expenditures.

  Consistent with the guidance in paragraph 26, control over the economic benefits of the IESO's reimbursement via the global adjustment mechanism from the LDC occurs once the IESO has distributed funds to the LDC. At this point in time, the IESO has incurred a cash outflow for which it is entitled to recover through the global adjustment as prescribed by the Ministry of Energy and the Electricity Act 1998.

Based on the characteristics, as prescribed by PS 1000 and the additional guidance of PS 3210, the cash outflows disbursed by the IESO to reimburse CDM costs to LDCs could meet the definition of an asset in PS 1000.

In accordance with the principles of PSAS, there are generally two types of assets that the IESO may consider recognizing 1) financial asset; or 2) non-financial asset. To classify the asset, it must fall into one of the two categories.

[1] Although the administrative framework provides that LDCs invoice the global adjustment to ratepayers on the IESO's behalf, the IESO has sole entitlement to the cash inflows that result from the global adjustment. All global adjustment amounts collected by LDCs are required to be submitted to the IESO.

Financial asset

.39 ***Financial assets*** *are assets that could be used to discharge existing liabilities or finance future operations and are not for consumption in the normal course of operations.*

.40 *A financial asset is any asset that is:*

a) *cash;*

b) *a realizable asset that is convertible to cash;*

c) *a contractual right to receive cash or another financial asset from another party;*

d) *a contractual right to exchange financial instruments with another party under conditions that are potentially favourable to the government;*

e) *an equity instrument of another entity;*

f) *an investment in a government business enterprise or government business partnership;*

g) *a financial claim on an outside organization or individual; or*

h) *an inventory or item for sale that meets the criteria in FINANCIAL STATEMENT PRESENTATION, paragraph PS 1201.055.*

Based on the guidance of PS 1000, paragraphs 39 and 40, it may be difficult to substantiate the IESO's reimbursement of costs is a financial asset. The costs incurred by the IESO creates a right to recover costs as mandated by the Ministry of Energy. However, there is no contract with a specific ratepayer who ultimately reimburses the IESO for the costs incurred if the IESO calculates the global adjustment (i.e. its recovery mechanism) and this amount is then disbursed to all ratepayers in Ontario (regardless of whether an individual ratepayer benefited from the cost incurred). Furthermore, to the extent that a current ratepayer moves outside of Ontario, it could in fact result in a new ratepayer having to incur the additional charge to permit the IESO to recover its costs. It is difficult to argue that there is a contractual right to receive cash from another party, because legislation and the regulatory framework result in the right to future cash inflows from a pool of ratepayers.

An alternative view may be that the LDCs represent the counterparty to the IESO whereby the LDC is responsible for paying the IESO the global adjustment whether or not payment is ultimately received from the ratepayer. In this circumstance, the IESO can argue that a financial asset should be recognized for its contractual right to receive cash is from each specific LDC. An assessment of who is obligated for the global adjustment (e.g. an assessment of whether the LDC is the agent facilitating cash collection or is the entity obligated to pay the amount) would need to support this alternative.

Non-Financial asset

.41 *Non-financial assets include tangible capital assets, and other assets such as prepaid expenses and inventories of supplies.*

.42 *Non-financial assets are acquired, constructed or developed assets that do not normally provide resources to discharge existing liabilities, but instead:*

DRAFT

(a) are normally employed to deliver government services;

(b) may be consumed in the normal course of operations; and

(c) are not for sale in the normal course of operations.

Another accounting treatment could be a 'non-financial asset' in accordance with paragraphs 41 and 42 of PS 1000. This accounting treatment may be supportable under the PSAS guidance as an 'other asset'. The reimbursement of CDM costs, results in the incurrence of an upfront cost in which the entity will benefit from economic benefits over a period of time.

Subsequent measurement of a non-financial asset

To the extent that the recognition of an asset is supported under the framework discussed above, the entity would then be required to draw the asset down over the recovery period (i.e. as cash is collected from ratepayers through the global adjustment mechanism). The presentation of the 'draw' down of the asset is dependent upon the IESO's accounting for the global adjustment. To the extent that funds received from the global adjustment are recognized in revenue rather than to directly reduce the asset then the IESO might consider recognizing the draw-down of the asset as a reduction in revenues. Nonetheless, depending on the IESO's view of its role (i.e. principal versus agent) or its view of the nature of costs incurred, an alternative accounting treatment may result. For instance, if the IESO is an agent, then it may reduce the asset balance directly for those amounts collected by way of the global adjustment rather than recording two separate entries for the recognition of revenue (i.e. global adjustment) and reduction of revenue (i.e. over the recovery period). At this time, the IESO has not completed a principal versus agency assessment.

Demonstrating that the CDM costs will meet the definition of a financial or non-financial asset is challenging and the IESO may not be able to support either view and should consider if referencing another accounting framework to inform an accounting policy for these costs may be required as discussed below.

2. Reference to other accounting frameworks:

As previously noted above, other accounting frameworks as issued by the AcSB, GASB, FASB and IASB provide accounting guidance related to the recognition of expenditures as an asset due to rate regulated operations. When referencing the other frameworks, it is important that the costs qualify as an asset under the framework set forth by PSAS to ensure that the principles of PSAS are not violated, and only then can reference to other frameworks be made to record the reimbursement of costs as an asset.

As the IASB and AcSB do not provide detailed guidance, the IESO could explore whether the costs incurred meet the specific criteria established by GASB S62 as note below; however consideration will need to be given to the consistent application of an accounting policy to all similar existing rate regulated assets and whether an established accounting policy is already in place that would require criteria to be met to change this policy:

476. Paragraphs 476–500 may be applied to activities reported in business-type activities that have regulated operations that meet all of the following criteria:

a. The regulated business-type activity's rates for regulated services provided to its customers are established by or are subject to approval by an independent, third-party regulator or by its own governing board empowered by statute or contract to establish rates that bind customers.

DRAFT

b. The regulated rates are designed to recover the specific regulated business-type activity's costs of providing the regulated services.

c. In view of the demand for the regulated services or products and the level of competition, direct and indirect, it is reasonable to assume that rates set at levels that will recover the regulated business-type activity's costs can be charged to and collected from customers. This criterion requires consideration of anticipated changes in levels of demand or competition during the recovery period for any capitalized costs.

To the extent that the criteria of paragraph 476 of GASB S62 are met, paragraph 480 then provides the following guidance:

480. Rate actions of a regulator can provide a business-type activity with reasonable assurance of the existence of an asset. A regulated business-type activity should capitalize all or part of an incurred cost that otherwise would be charged to expense if both of the following criteria are met:

a. It is probable that future revenue in an amount at least equal to the capitalized cost will result from inclusion of that cost in allowable costs for rate-making purposes.

b. Based on available evidence, the future revenue will be provided to permit recovery of the previously incurred cost rather than to provide for expected levels of similar future costs. If the revenue will be provided through an automatic rate-adjustment clause, this criterion requires that the regulator's intent clearly be to permit recovery of the previously incurred cost.

By referencing the guidance of GASB S62, the IESO must first establish that it meets the criteria of paragraph 476. In doing so, the IESO should consider:

a. Established rates for regulated services (GASB S62.474 (a)) - The IESO's business activity rates are regulated services subject to approval. In this particular instance, the IESO's CDM expenditures are governed by legislation, Electricity Act 1998 as noted above, and by its own governing board, being, the Ministry of Energy. The Ministry of Energy has established the calculation of the global adjustment mechanism[2], which in turn, is charged to the ultimate customer who consumes the energy.

b. Regulated rates are designed to recover specific costs (GASB S62.474 (b)) - One element of the global adjustment mechanism is designed to recover the CDM expenditures that the IESO reimburses to the respective LDCs. As the IESO's regulated business activities support the LDCs delivery of energy to customers, these costs form an integral part of the IESO's regulated services to support the transmission and distribution of energy in Ontario.

c. Demand for regulated activities results in reasonable assumption that established rates will be collected and will recover cost of activities (GASB S62.474(c)) - Given that the structure of the IESO is a not-for-profit entity governed by the Electricity Act of 1998 and regulated by the Ontario Energy Board to support the transmission and distribution of energy to customers in Ontario, rates approved to be charged to customers are designed to recover the IESO's costs. Since the reimbursement of CDM expenditures is a program initiated and mandated by the Ministry of Energy, an entity that also controls the Ontario Energy Board, the IESO would need to examine and support whether the CDM expenditures will be recovered through cash inflows from customers through the global adjustment mechanism. For example, the historic demand and dependency and projected demand for electricity could be used to support a judgment or assertion by the IESO that there is no significant risk that future demand levels decline and diminish to the extent that IESO would not be able to recover the reimbursement of CDM expenditures through rates (i.e. global adjustment mechanism).

[2] Section 1.7 of the directive from the Ministry of Energy dated March 31, 2014 titled *2015-2020 Conservation First Framework* provides that the Ontario Power Authority (now merged into the IESO) may "*recover payments made under the Province-Wide Distributor CDM Programs and Local Distributor CDM Programs from the Global Adjustment Mechanism up to the budget established…"*

If the IESO can demonstrate that CDM expenditures meet the criteria as noted above, the fact pattern may support recognition of a regulatory asset in accordance with paragraph 480 of GASB S62. The IESO could consider:

a. Probability of future revenues (GASB S62.480 (a)) - The global adjustment mechanism explicitly includes recovery of the CDM expenditures. The directive from the Ministry of Energy could support the IESO's assertion that it is at least probable that future revenue will be generated in an amount at least equal to the capitalized cost related to the CDM expenditures. The IESO will need to assess if the global adjustment is considered future revenue (i.e. as part of the analysis of principal versus agent).

b. Recovery of previously incurred costs (GASB S62.480 (b)) - The IESO recovers the CDM expenditures through the global adjustment mechanism. The calculation of the portion of the global adjustment mechanism that relates to the CDM expenditures is determined by the amount that the IESO has approved to reimburse the LDC (e.g. the LDC requests reimbursement for costs it has *incurred* related to the CDM Requirement[3] and if all criteria are met, the IESO then approves the costs for reimbursement). For this reason, there is evidence that the future revenue earned from the global adjustment mechanism permits the recovery of previously incurred costs (i.e. not future costs).

Using the GASB S62 accounting guidance, and the related considerations noted above, the IESO may be able to reference GASB S62 to support the recognition of CDM expenditures as an asset by way of the GAAP hierarchy prescribed by PS 1150, paragraph 19, which explicitly references GASB as a secondary source of GAAP in the event that PSAS does not address a particular transaction. However, the IESO would also need to consider whether it is appropriate to refer to the GASB. First, consideration should be given to whether the GASB accounting guidance to capitalize rate regulated assets is consistent with the primary sources and financial statement concepts of PSAS. This may be challenging as it was noted in a paper prepared by the PSAB Conceptual Task Force *Consultation Paper 2: Measuring Financial Performance in Public Sector Financial Statements,* that the existing model in the PSA Handbook takes predominately an asset and liability view whereas standards set by the GASB is a financial statement presentation model based on a revenue and expense view. That said, the definition of an asset is similar under both the PSAS and GASB standards (GASB Concepts Statement 4[4]) and because rate regulated assets are not classified as deferred outflows of resources (GASB S65) but rather assets, it may be possible to use the GAAP hierarchy to refer to GASB to formulate an accounting policy. GASB S65 *Items Previously Recognized as Assets and Liabilities* was applicable for periods beginning after December 15, 2012. In paragraph 48 of GASB S65, rate regulated assets retained the definition of an asset and these assets were not required to be reclassified as a deferred outflow which is defined as the consumption of net assets by the government that is applicable to a future period. Secondly, any existing policy that the IESO currently applies to any other assets that could be considered rate regulated assets would require an evaluation of whether an accounting policy change from expensing to one that capitalizes rate regulated assets meets the criteria that the new accounting policy results in a more appropriate presentation of events or transactions in the IESO's financial statements (PS 2120, paragraph 2).

An alternative view is that it is inappropriate to reference GASB S62 because GASB has provided a special accommodation to permit the capitalization of rate regulated assets when they would otherwise be expensed. If an entity that applies PSAS, determines that the definition of an asset under PS 1000 is not met then for the IESO to use a special accommodation in another framework to avoid expensing the CDM costs would not be appropriate.

[3] The Ministry of Energy issued a CDM Directive as per its letter re: 2015-2020 Conservation First Framework, which instructed the Ontario Energy Board to amend the license of each licensed electricity distributor to add a condition that specifies the distributor would make CDM programs available to customers in its licensed area. The CDM programs are required to achieve reductions in electricity consumption. As part of this, the distributor is required to make province-wide CDM programs, funded by the OPA (now the IESO) available to all customers in its licensed service area.

[4] GASB Concepts Statement 4, paragraph 8, defines assets as '*resources with present service capacity that the government presently controls*.'

If the IESO does adopt an accounting policy to capitalize the CDM costs there are examples of entities that capitalize similar rate regulated assets that prepare their financial statements in accordance with GASB in the United States. For instance, the Long Island Power Authority ("LIPA") is an organization that is responsible for supplying electricity to customers within a specified service area. LIPA recognizes regulatory assets on its statement of net position in accordance with the guidance of GASB S62.

The FASB also includes accounting guidance related to the accounting for regulated activities in ASC 980-340-25-1 as follows:

> *Rate actions of a regulator can provide reasonable assurance of the existence of an asset. An entity shall capitalize all or part of an incurred cost that would otherwise be charged to expense if both of the following criteria are met:*
>
> *a) It is probable (as defined in Topic 450) that future revenue in an amount at least equal to the capitalized cost will result from inclusion of that cost in allowable costs for rate-making purposes.*
>
> *b) Based on available evidence, the future revenue will be provided to permit recovery of the previously incurred cost rather than to provide for expected levels of similar future costs. If the revenue will be provided through an automatic rate-adjustment clause, this criterion requires that the regulator's intent clearly be to permit recovery of the previously incurred cost.*
>
> *A cost that does not meet these asset recognition criteria at the date the cost is incurred shall be recognized as a regulatory asset when it does meet those criteria at a later date.*

The guidance provided by US GAAP notes that to the extent that a regulator provides reasonable assurance of the existence of an asset, then the entity should capitalize the incurred cost that would have otherwise been expensed. In this case, the Ministry of Energy has provided that the IESO will be able to recover its costs through the global adjustment mechanism[5]. As a result, the IESO can support meeting criterion a) of 980-340-25-1 that it is probable that future revenue will equal the cost capitalized as the IESO will include those reimbursed CDM costs in its calculation of the global adjustment charged to rate payers. Furthermore, the IESO can support criterion b) is met, because the future recovery relates only to those costs paid by the IESO to reimburse eligible CDM costs.

To further support this accounting position, there are system operators (i.e. similar to the IESO) in the United States who recognize regulatory assets. As an example, ISO New England Inc., a not-for-profit organization that regulates the flow of transactions in accordance with the Federal Energy Regulatory Commission ("FERC") recognizes regulatory assets for those costs incurred subject to rate recovery mechanisms. The ISO New England Inc. operates in a very similar manner to the IESO, in that both organizations are government regulated, system operators who manage the flow of electricity transactions and are not-for-profit. While ISO New England Inc. prepares its financial statements in accordance with US GAAP, rather than GASB, ISO New England Inc.'s treatment of regulatory items is indicative that the capitalization of expenditures related to regulated activities is not an unreasonable treatment for entities of this nature.

As the application of the hierarchy is a choice and not a requirement, another entity with the same fact pattern could account for the recovery of CDM expenditures differently.

Subsequent measurement of asset

To the extent that the recognition of an asset is supported under one of the frameworks discussed above, the entity would then draw the asset down over the recovery period (i.e. as cash is collected from ratepayers

[5] Section 1.7 of the directive from the Ministry of Energy dated March 31, 2014 titled *2015-2020 Conservation First Framework* provides that the Ontario Power Authority (now merged into the IESO) may "*recover payments made under the Province-Wide Distributor CDM Programs and Local Distributor CDM Programs from the Global Adjustment Mechanism up to the budget established…"*

DRAFT

through the global adjustment mechanism). The presentation of the draw down of the asset is dependent upon the IESO's accounting for the global adjustment. To the extent that funds received from the global adjustment are recognized in revenue then the IESO might consider recognizing the recovery of the asset as a reduction in revenues (contra revenue account). Nonetheless, depending on the IESO's view of its role (i.e. principal vs. agent) or its view of the nature of costs incurred, an alternative accounting treatment may result. For instance, if the IESO is an agent, then it may reduce the asset balance directly for those amounts collected by way of the global adjustment – rather than recording two separate entries for the recognition of revenue (i.e. global adjustment) and reduction of revenue (i.e. recovery of asset).

3. Expensing expenditures as incurred

Failing the ability to support that an asset can be recognized from alternatives (1) and (2) above, the IESO would be required to record the reimbursement of an LDC's eligible CDM expenditures as an expense in the period incurred.

Paragraphs 49 to 51 of PS 1000 provide the following guidance related to expenses:

.49 Expenses, including losses, are decreases in economic resources, either by way of decreases in assets or increases in liabilities, resulting from the operations, transactions and events of the accounting period.

.50 Expenses include the cost of economic resources consumed in and identifiable with the operations of the accounting period. For example, the cost of tangible capital assets is amortized to expenses as the assets are used in delivering government programs (see TANGIBLE CAPITAL ASSETS, Section PS 3150). Expenses do not include debt repayments or transfers to other governmental units in the government reporting entity.

.51 Losses can arise from peripheral or incidental transactions and events affecting a government. Such transactions and events include the disposition of assets purchased for use and not for resale, and the liquidation or refinancing of debt.

By referencing paragraphs 49 to 51, it can be noted that the reimbursement of an LDC's CDM expenditures do indeed result in an immediate decrease in the IESO's economic resources – as noted in paragraph 49. If it cannot be substantiated that an asset can be recorded due to the future economic benefits expected to be received through the global adjustment – these expenditures must be recorded as an expense.

4. Accounting for interest costs

The accounting for interest costs related to the loan being considered to finance the IESO's recovery of CDM costs incurred over an extended period of time would be dependent on how the Ministry of Energy proposes that the IESO will recover these costs. To the extent that the Minister revises the calculation of the global adjustment, then the IESO may be able to recognize an asset for these costs (i.e. see the arguments listed in sections (1) and (2) above).

If the Ministry of Energy proposes that the IESO recover the interest costs through the revenue requirement, the IESO will need to evaluate its ability to recover the interest costs through future rates. To the extent that the there is significant risk associated with recovering these costs, interest costs should be recognized as an expense in the current period. Otherwise, the IESO may be able to capitalize the interest costs as an asset by applying the arguments in sections (1) and (2) noted above.

If a recovery mechanism is not established for the interest costs related to the loan, the interest costs would be recognized as an expense of the current period.

As requested, we have updated the model for OPG and Trust based on the parameters specified – bills of $100, $105, $95 over the next 3 years as outlined in your illustration. We have to add in the interest portion for reflect the recovery in your example. Also, we wanted to note that the example in your illustration is based on deferral of actual bill (not the GA amount), which is different from our understanding of how the deferral would work. But I trust the illustration is sufficient to illustrate OPG's and the Trust's accounting for your purposes.

As mentioned before, I understand that this is a simplified model, but some additional features could be added at a later date when there is sufficient certainty. For example:

o the financing model would include debt at different rates based on the tranche and the rate implicitly charged to customers would be determined based on the ultimate model and the legislation (may not be the same as the debt financing rate)

o the Trust may have embedded features which may be introduce variability into the Trust.

Alec/John,
To help us better understand the interest impact on the Province overall, it would be helpful if you could complete the interest related entries in the original model (attached) for OPG and OPGTrust, for the first couple of years.
Also, we wondered if could share any details on how the billing is anticipated to work (based on discussions you may have had with the Ministry of Energy).
We will monitor our emails for your response.
Thanks in advance.

Our comments:

- We cannot verify the IESO entries, but assuming that KPMG is looking at that.

- The current proposal is to have the Trust collect revenue from customers, so the Trust should recognize revenue (which comprise of interest and other recovery amounts) before we start collecting the principal amount from the customers (i.e. before year 5) (see the table below as an illustration)

- I understand that this is a simplified model, but some additional features should be added at a later date when we have more certainty:

o the financing model would include debt at different rates based on the tranche and the rate implicitly charged to customers would be determined based on the ultimate model and the legislation (may not be the same as the debt financing rate)

o the Trust will have embedded features which will introduce other variability into the Trust

John/Alec,

In advance of next Monday's FPC meeting, we would like to confirm our understanding of the net fiscal impact under the Electricity Rate Mitigation model as currently envisioned. Attached for your review is a model outlining the transactions and impacts as we understand them. The net impact on interest expense to OFA and the Trust appears on lines AS 40 – AS 42.

We would appreciate your comments on the attached as well as any suggestions on how to address the net fiscal impact over the term of the proposal, today if possible.

Regards,
Nadine

Hi John. Definitely not OK. This paper was written for a very specific purpose (as per disclaimer in the letter) and per discussion with internal lawyers yesterday, no longer relevant given it was written in 2011 in anticipation of us converting to IFRS (some things happened with the Supreme Court since then that weaken some of the arguments in the letter)

Hi John.

I am writing to seek your confirmation on the use of an extract from Torys LLP's previous correspondence on regulatory accounting for purposes of OPCD' accounting paper on the FHP. In particular, we would like to include the following extract:

In April 2011, Torys LLP issued a letter to OPG relating to the legal basis of OPG's regulatory deferral and variance accounts which, as evidenced by the following excerpts, also takes the position that the transaction or event giving rise to the asset is the incurrence of costs for which recovery is provided for under statute:

OPG's deferral and variance accounts are established either by regulation or by orders of the Ontario Energy Board (the "OEB") through the proper exercise of its jurisdiction as the administrative tribunal responsible for regulating the electricity industry in Ontario. The establishing of such an account pursuant to regulation or the granting of approval by the OEB to establish such an account confers upon OPG a right to record amounts in the account and to account for the amounts recorded on the basis that they have been prudently incurred.

The OEB has broad jurisdiction in setting payment amounts for OPG and it would not be reasonable for the legislature to have given the OEB the legislative power to authorize the establishment of accounts without also giving the OEB the power to dispose of the amounts recorded in such accounts, including in circumstances where there is no future output. Moreover, to interpret the applicable legislation in a manner that only allows for payment amounts on a volumetric basis is in our view unreasonable because it would not be consistent with the rules of statutory interpretation.

Please confirm that you are OK with us including the reference.

Regards,

Nadine

Hi Lee Anne,

Further to our call this morning, attached are the docs sent Nov 27 ("CLPA") and the most current final versions we have received. Note the topic of conversation had this week with counsel was around "material effect" defined on page 28 of the Protection Agreement and page 20 of the Process Agreement.

I have some time at 11 or 2pm today to check back in on the pension merger issues – let me know if either of those times work.

Cheers,

Hi Lee Anne,

Just a quick follow-up from our call Friday, attached are the 'final draft' guarantee agreements. As mentioned, the "protection" is the guarantee arrangement with the dealers, and the "process" is how the financing will work through between the province

and OPG.

Happy to discuss,
Mark

CHANGE OF LAW PROTECTION AGREEMENT

Dated as of [■], 2017

[1] This Agreement and the Process Agreement will need to be effective on closing but signed and held in escrow as soon as they are settled and prior to pricing of the term deal.

[2] Please advise if there are any further issues with the Manager signing the Protection Agreement on behalf of the Trust? If so, can you please explain the issue. The Manager is currently signing all Program Agreements on behalf of the Trust and has authority to do so. We would like the Manager to sign this Agreement on behalf of the Trust.

This **AGREEMENT**, among Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), Computershare Trust Company of Canada, in its capacity as trustee (the "**Financing Entity Trustee**") of Fair Hydro Trust, a trust under the laws of the Province of Ontario (the "**Financing Entity**"), Ontario Power Generation Inc., in its capacity as Manager of the Financing Entity and in its capacity as the Financial Services Manager in accordance with the Act (the "**FSM**") and BNY Trust Company of Canada, a trust company existing under the laws of Canada, as Indenture Trustee, is made and entered into as of [■], 2017.

RECITALS

Pursuant to Subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**"), the Lieutenant Governor in Council may by order, authorize the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to agree to guarantee or indemnify certain debts, obligations, securities or undertakings associated with an Investment Interest.

Pursuant to an Order in Council dated as of ■ (the "**OIC**"), the Lieutenant Governor in Council has, among other things, authorized the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to enter into one or more agreements to guarantee or indemnify the debts, obligations, securities or undertakings of one or more financing entities established or caused to be established pursuant to Subsection 22(2) of the Act by the FSM and that may incur Funding Obligations in connection with one or more Investment Interests.

Pursuant to a Declaration of Trust[3] dated as of ■, 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

The Financing Entity Trustee, in its capacity as trustee of the Financing Entity, and the Indenture Trustee are parties to the Trust Indenture and propose to create and issue series of notes, bonds and other securities as contemplated therein, and to provide security over the assets and undertaking of the Financing Entity in respect of such notes, bonds and securities, as well as other Obligations Secured.

The Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, have determined to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Primary Obligations that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred. This Agreement sets out the terms and conditions of such protections and assurances.

---

[3] We are comfortable on this point because OPG has retained Computershare as issuer trustee. The recitals of the Declaration of Trust provide that Computershare has established the Trust at the request of the FSM. We can also provide you with a copy of the Computershare engagement letter upon request.

All things necessary to make this Agreement a valid and legally binding agreement of the Province, the Financing Entity, the FSM and the Indenture Trustee, in accordance with the Act, the OIC and the Trust Indenture, have been done.

To the extent permitted by applicable law, the parties waive any provision of law which renders any provision of this Agreement invalid or unenforceable in any respect.

1.09 Governing Law

THIS AGREEMENT WILL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE PROVINCE OF ONTARIO AND THE FEDERAL LAWS OF CANADA APPLICABLE THEREIN, AND THE OBLIGATIONS, RIGHTS AND REMEDIES OF THE PARTIES HEREUNDER SHALL BE DETERMINED IN ACCORDANCE WITH SUCH LAWS.

1.10 Proceedings Against the Crown Act

NOTHING IN THIS AGREEMENT OR THE PROGRAM AGREEMENTS AFFECTS THE RIGHTS, PROTECTIONS AND IMMUNITIES OF THE CROWN UNDER THE PROCEEDINGS AGAINST THE CROWN ACT (ONTARIO).

1.11 Attornment

EACH PARTY SUBMITS TO THE EXCLUSIVE JURISDICTION OF ANY ONTARIO COURTS SITTING IN TORONTO IN ANY ACTION, APPLICATION, REFERENCE OR OTHER PROCEEDING ARISING OUT OF OR RELATED TO THIS AGREEMENT. THE PARTIES HERETO HEREBY WAIVE ANY RIGHT THEY MAY HAVE TO REQUIRE A TRIAL BY JURY OF ANY PROCEEDING COMMENCED IN CONNECTION WITH THIS AGREEMENT.

1.12 Counterparts; Electronic Delivery

This Agreement may be executed in any number of counterparts, each of which so executed will be deemed to be an original, but all such counterparts will together constitute one and the same instrument. Delivery of an executed signature page to this Agreement by a party by electronic transmission will be as effective as delivery of a manually executed copy of the Agreement by such party.

1.13 Change of Law Protection Agreement Referred to in the Trust Indenture

This Agreement is the "Change of Law Protection Agreement" referred to in the Trust Indenture.

1.14 Non-Business Days

Whenever any payment to be made hereunder shall be stated to be due, any period of time would begin or end, any calculation is to be made or any other action to be taken hereunder shall be stated to be required to be taken, on a day other than a Business Day, then (notwithstanding any other provision of this Agreement) such payment shall be made, such period of time shall begin or end, such calculations shall be made and such other action shall be taken on the next succeeding Business Day.

1.15 Waiver, Amendment

Except as expressly provided in this Agreement, no amendment or waiver of this Agreement will be binding unless executed in writing by the party to be bound thereby. No waiver of any provision of this Agreement will constitute a waiver of any other provision nor will any waiver of any provision of this Agreement constitute a continuing waiver unless otherwise expressly provided. A party's failure or delay in exercising any right under this Agreement will not operate as a waiver of that right. A single or partial exercise of any right will not preclude a party from any other or further exercise of that right or the exercise of any other right.

1.16 Interest Act

For the purpose of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest to which any rate of interest payable under this Agreement that is calculated on any basis other than a full calendar year is equivalent may be determined by multiplying such rate by a fraction, the numerator of which is the actual number of days in the calendar year in which such yearly rate of interest is to be ascertained and the denominator of which is the number of days comprising such other basis. The parties further agree that for the purposes of the *Interest Act* (Canada), (i) the principle of deemed reinvestment of interest shall not apply to any interest calculation under this Agreement, and (ii) the rates of interest stipulated in this Agreement are intended to be nominal rates and not effective rates or yields.

1.17 Currency

Unless stated otherwise, all amounts herein are stated in Canadian Dollars.

1.18 References to Acts of the Financing Entity

For greater certainty, where any reference is made in this Agreement, or in any other instrument executed pursuant hereto or contemplated hereby to which the Financing Entity or the Financing Entity Trustee, as trustee of the Financing Entity, is party, to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against, or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to (i) the Financing Entity or (ii) the Financing Entity Trustee, such reference shall be construed and applied for all purposes as if it referred to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to, the Financing Entity Trustee as trustee of the Financing Entity.

1.19 Judgment Currency

(a) If for the purpose of obtaining judgment in any court or for any other purposes (other than conversions specifically provided for in the agreement under which an Approved Obligation arises), it is necessary to convert any amount due under this Agreement from the currency in which it is due (the "**Original Currency**") into another currency (the "**Second Currency**"), the rate of exchange applied shall be that at which, in accordance with normal banking procedures, the purchaser could purchase, in the New York foreign exchange market, the Original Currency with the Second Currency on the date on which judgment is given. The obligation of the Province in respect of any Original Currency due from it to the Indenture Trustee under this Agreement shall, notwithstanding any judgment or payment in such other currency, be discharged only to the extent that, on the Business Day following receipt of any sum so paid or adjudged to be due under this Agreement in the Second Currency, the Indenture Trustee may, in accordance with normal banking procedures, purchase in the New York foreign exchange market the Original Currency with the amount of the Second Currency so paid or so adjudged to be due; and if the amount of the Original Currency so purchased is less than the amount originally due in the Original Currency, the Province shall indemnify the Indenture Trustee against such loss.

(b) The term "rate of exchange" in this Section 1.19 means the spot rate at which the Indenture Trustee, in accordance with normal practice, is able on the relevant date to purchase the Original Currency with the Second Currency and includes any premium and costs of exchange payable in connection with such purchase.

ARTICLE II
AGREEMENT TO PERFORM APPROVED OBLIGATIONS

2.01 Limited Guarantee

(a) Upon the occurrence of a Protection Event, the Indenture Trustee may deliver a written demand, substantially in the form attached as Exhibit A (a "**Payment Demand**"), to the Province requiring the Province to make payments in respect of the Approved Obligations at the times, in the amounts and subject to the requirements specified in this Agreement. From and after such delivery of a Payment Demand, the Province shall make the following payments in respect of the Approved Obligations (the "**Limited Guarantee**"), and the Financing Entity shall pay, and the Province shall be entitled to be paid, the Subrogation Amounts specified below, on the specified Guarantee Payment Date:

i. Not less than 3 Business Days prior to each day when any payment or payments are to be made in respect of one or more Approved Obligations occurring after such delivery of a Payment Demand and prior to the Assumption Effective Date, if any, (a "**Guarantee Payment Date**"), the Manager shall deliver a written statement setting forth the Aggregate Approved Obligations Amount, if any, in respect of the Approved Obligations that are due and payable on such Guarantee Payment Date, together with a detailed description identifying such Approved Obligations and the nature and amount of payments due and payable thereunder on the Guarantee Payment Date, the aggregate outstanding amount payable by the Financing Entity under such Approved Obligations as of the date of the Guarantor Settlement Statement, and details regarding any default in performance by any party obligated thereunder (a "**Guarantor Settlement Statement**")[4].

ii. On each such Guarantee Payment Date, the Province shall deposit the Aggregate Approved Obligations Amount into the Protection Account.

iii. On each such Guarantee Payment Date, the Financing Entity and the Indenture Trustee shall ensure that the amounts on deposit in the Protection Account are applied to pay each Beneficiary to whom an amount is due and payable under an Approved Obligation on the Guarantee Payment Date the Approved Obligation Amount for such Beneficiary in respect of such Approved Obligation on such Guarantee Payment Date; provided that if the amount deposited pursuant to clause 2.01(a)ii is insufficient to pay all such Approved Obligation Amounts in full, the amount on deposit in the Protection Account on the Guarantee Payment Date shall be applied to pay Beneficiaries in the order of priority in which such Approved Obligations are payable under the payment

[4] Given timing, we would appreciate if the parties did not negotiate this form now.

provisions of the Trust Indenture applicable to the making of such payments on the Guarantee Payment Date (each, a "**Beneficiary Payee**").

iv. On any Guarantee Payment Date on which an amount is paid by the Province pursuant to clause 2.01(a)ii, the applicable payment provisions of the Trust Indenture shall, notwithstanding the express terms of such provisions set forth in the Trust Indenture, be applied and operate on the following basis:

(A) the amount payable to a Beneficiary Payee in respect of an Approved Obligation from amounts available under such payment provisions on such Guarantee Payment Date shall be reduced by the amount paid to the Beneficiary Payee pursuant to clause 2.01(a)iii in respect of such Approved Obligation on such Guarantee Payment Date;

(B) the Province shall be paid the lesser of (x) the amount payable to a Beneficiary Payee in respect of an Approved Obligation from amounts available to pay the Beneficiary Payee under such payment provisions on the Guarantee Payment Date, determined without regard to subclause 2.01(a)iv(A), and (y) the amount paid to the Beneficiary Payee pursuant to clause 2.01(a)iii in respect of such Approved Obligation on the Guarantee Payment Date (such payments to the Province being "**Subrogation Amounts**"); and[5]

(C) no Beneficiary having a right to be paid an amount in respect of an Approved Obligation that ranks equal with or subordinate to an Approved Obligation in respect of which an amount is payable to the Province under subclause 2.01(a)iv(B) shall be entitled to make any claim or assert any right in or to the amounts paid or payable to the Province under such subclause (including any right or reimbursement, contribution or indemnity) and no such Beneficiary shall have any right or interest in, to or under the Collateral or any proceeds therefrom in respect of such amounts.

v. On any Guarantee Payment Date, the Indenture Trustee shall release and pay to the Province free and clear of any Liens any amount remaining on deposit in the Protection Account that has not been applied to pay

[5] We thought this section required tweaking to reflect the intention of the parties.

Beneficiary Payees on the Guarantee Payment Date in accordance with clause 2.01(a)iii.

vi. In preparing any payment instructions under the Trust Indenture, the Manager shall reflect the amounts payable for the Guarantee Payment Date under Section 2.01(a).

(b) The Province shall, as a payee of Subrogation Amounts and any amounts payable under clause 2.01(a)(iv)(B), be a "Specified Creditor" under the Trust Indenture and have the benefit of the Collateral thereunder.

(c) For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation and will be limited to the right to receive the Approved Obligation Amounts, if any, for payment to Beneficiary Payees and will be subject to the priorities and to the Province's rights to Subrogation Amounts, set forth in Section 2.01(a).

(d) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

(e) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid by the Province when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation by their terms.

(f) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee (and to the Beneficiaries, to the extent they are permitted to exercise any rights, interests, or elections under and in accordance with the Trust Indenture) under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits; provided that, for greater certainty, economic loss shall not include any amount in respect of any amount due and payable to a Beneficiary Payee under the Limited Guarantee.

2.02 Intentionally Deleted.

2.03 Absence of Set-off

Subject to applicable law, the Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

2.04 Payment into Protection Account in Satisfaction

(a) On or before the date of delivery of a Payment Demand to the Province, the Indenture Trustee shall cause to be established and maintained an Eligible Deposit Account (the "**Protection Account**") in the name of the Indenture Trustee, bearing a designation clearly indicating that the funds and other property credited thereto are held for the benefit of the Indenture Trustee and the Beneficiaries. The Protection Account shall be under the control of the Indenture Trustee for the benefit of the Beneficiaries. If, at any time, the institution holding the Protection Account ceases to be an Eligible Institution, the FSM shall notify the Indenture Trustee, and the Indenture Trustee upon being notified in writing of such ineligibility (or the FSM on its behalf) shall within 30 days (or such longer period, not to exceed 45 days, so long as the Rating Agency Condition is satisfied) establish a new Protection Account that is an Eligible Deposit Account and shall transfer any funds or other property from such Protection Account to such new Protection Account. From the date each such new Protection Account is established, it shall be the "Protection Account" for purposes of this Agreement. Funds credited to the Protection Account will be invested and held in accordance with Section **[7.03]** of the Trust Indenture on the basis that it is an Issuer Account.

(b) Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Financing Entity and the Indenture Trustee shall ensure that all amounts paid by the Province into the Protection Account on a Guarantee Payment Date in respect of an Approved Obligation are applied to pay the amounts due and payable to the Beneficiaries as and to the extent provided for in Section 2.01(a). Upon a payment having been made by or on behalf of the Province into the Protection Account, the amounts so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiaries as provided for in Section 2.01(a) and thereby reduce the amount due and payable to such Beneficiaries in respect of the applicable Approved Obligations, whereupon an affected Beneficiary shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid. For greater certainty, the obligations arising in respect of an applicable Approved Obligation shall not be reduced by such payment as the Province shall become entitled to be paid related Subrogation Amounts and the rights contemplated under Section 2.01(a) and Section 5.01 in relation to such continuing obligations.

2.05 Certain Waivers

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety.

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

2.06 Additional Security

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

2.07 Continuing Liability of the Province

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Approved Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

2.08 Continuance of the Limited Guarantee

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations in accordance with Section 9.01.[6]

2.09 Modifications of Approved Obligations

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements and this Agreement, to:

[6] We made this change to be consistent with the termination clause in section 9.01.

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine.

ARTICLE III
THE INDENTURE TRUSTEE

3.01 The Indenture Trustee

This Agreement is made in favour of the Indenture Trustee in its capacity as trustee under the Trust Indenture. Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the Indenture Trustee hereunder, but nevertheless, the Indenture Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Agreement. All provisions of the Trust Indenture for the protection of the Indenture Trustee or for facilitating the administration of the trusts or otherwise relating to the Indenture Trustee solely as to its holding of the rights thereunder shall apply *mutatis mutandis* to this Agreement and the Indenture Trustee's duties hereunder.

3.02 Acceptance of Trusts

The Indenture Trustee hereby accepts the trusts hereof and agrees to carry out and discharge the same unless and until a new trustee shall be appointed as contemplated in Section 3.01.

ARTICLE IV
APPROVED OBLIGATIONS

4.01 Approval Process

A Primary Obligation shall constitute an Approved Obligation if (i) the Adherence Conditions applicable thereto have been satisfied at the time the Primary Obligation was incurred, or (ii) the Province, in its sole discretion, agrees it is an Approved Obligation.

4.02 Adherence Conditions[7]

The following shall be the Adherence Conditions applicable in relation to each Certified Primary Obligation:

(a) the Certified Primary Obligation when incurred is an Obligation Secured under the Trust Indenture; and

(b) OPG, as FSM, delivers a certificate signed by the Chief Financial Officer and the Treasurer of OPG, or any two Executive Officers of OPG (for clarity, such certificate is to be provided by such officers in their capacity as officers of OPG acting in its capacity as FSM) and addressed to the Indenture Trustee, on or before the incurrence of a Certified Primary Obligation[8] (provided that delivery may not be more than 5 Business Days before the incurrence of the Certified Primary Obligation), confirming that OPG has provided to the Province all certifications required by the Province in connection with the incurrence of such Certified Primary Obligation; and

(c) in respect of a Certified Primary Obligation other than a Refinancing, the Province has not provided a Suspension Notice to the Indenture Trustee, OPG and the Financing Entity.

For greater certainty, (y) satisfaction of the Adherence Conditions for a Certified Primary Obligation shall be deemed satisfaction of the Adherence Conditions in respect of all principal, interest and other amounts owing under the Certified Primary Obligation, as such Certified Primary Obligation may be amended, restated, supplemented or otherwise modified from time to time, and (z) there shall be no Adherence Conditions applicable in relation to a Primary Obligation that is not a Certified Primary Obligation.

4.03 Evidence of Satisfaction

A closing certificate delivered in accordance with Section 4.02(b) in connection with an incurrence of a Certified Primary Obligation shall be determinative as to whether the applicable Adherence Conditions with respect thereto have been satisfied, notwithstanding that such certificate may include inaccuracies, be incomplete or otherwise be defective or deficient, and such closing certificate may be relied upon by any addressee as conclusive evidence of same. A closing certificate that purports on its face to be signed by officers specified in Section 4.02(b) may be relied upon by any addressee without further enquiry or evidence as to the incumbency

[7] We would propose that the certification in section 4.02(b) of the Protection Agreement track the requirements of section 3.01 of the Process Agreement to ensure that the two sections are consistent. Accordingly, we have revised section 4.02(b) of the Protection Agreement to state the certificate delivered to the Indenture Trustee under this section should confirm that all certifications to the Province required in connection with the incurrence of such Certified Primary Obligations have been delivered to the Province.

[8] We tried to address all parties concerns expressed at our last meeting by this language. The Province can be assured that no certificate earlier than 5 Business Days prior to incurring the Certified Primary Obligation is delivered and the dealers have comfort that the clause is not too prescriptive.

or signatures of such officers. If a closing certificate is not delivered in accordance with the timing requirements of Section 4.02(b), such certificate may be delivered at a later date, and be effective as if it had been delivered in accordance with the timing requirement of Section 4.02(b), if at the time such certificate was required to be delivered OPG had delivered to the Province all certifications required by the Province in connection with the incurrence of a Certified Primary Obligation.[9]

ARTICLE V
PROVINCE MATTERS

5.01 Assignment and Subrogation

(a) Upon paying an amount in respect of an Approved Obligation to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee, the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation to the extent of such payment, including (i) the right and entitlement to be paid and receive the related Subrogation Amounts, (ii) the benefits of the related Collateral and (iii) all proceeds therefrom. The Province shall have and be entitled to enforce all rights and interests (including as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)), under and in respect of such Approved Obligation to the extent of the payment by the Province in respect of the Approved Obligation as an absolute assignee of the applicable Beneficiary, with effect from and after the time of such payment, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing by the Beneficiary to the Financing Entity and unaffected by any other rights or equities that arise thereafter as between the Beneficiary and the Financing Entity. The Indenture Trustee shall recognize the Province as being entitled to all of the rights, interests and entitlements of the Beneficiary (including as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)) in respect and to the extent of the Approved Obligation so paid, determined as of the time of payment, for all purposes under the Trust Indenture, and the Province shall be treated as a Specified Creditor in respect thereof for all purposes under the Trust Indenture and any other agreement under which the Approved Obligation arises.

(b) The Province (i) acknowledges and agrees in favour of the Indenture Trustee that, upon being subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation in accordance with Section 5.01(a), the Province, in its capacity as a Specified Creditor, will be subject to the provisions applicable to Specified Creditors under the Trust Indenture, including **[Sections 7.04 through 7.11 and 8.13 (Payment Priorities),**

[9] This additional language was added to address the concerns of the dealers and Oslers discussed at our last meeting.

Section 7.12 (Payments Held in Trust), Section 8.11 (Control by Controlling Class Creditors), Section 8.12 (Limitation on Suits), Section 8.14 (Limited Recourse), Section 9.14 (Communications to Specified Creditors) and Section 16.01 (No Petition)]; (ii) consents, requests and authorizes the Issuer and the Indenture Trustee to (x) add the Province to the register of Specified Creditors described in subsection **[13.13(b)]** of the Trust Indenture and (y) disseminate the notice details of the Province to other Specified Creditors for the purposes set out in subsection **[9.14(b)]** of the Trust Indenture, and (iii) confirms that the Indenture Trustee shall send notices to the Province, in its capacity as a Specified Creditor, in accordance with Section 9.02.[10]

5.02 Priorities

For greater certainty, the rights, interests and entitlements of the Province as an assignee or subrogee, as applicable, of and with respect to an Approved Obligation shall rank equally with the rights, interests and entitlements of a Beneficiary to whom a Limited Guarantee payment is made in respect of, and to the extent of the payment made to satisfy, the Approved Obligation and the Province shall not be subject to postponement or subordination with respect thereto except to the extent of the priorities established in relation to the Approved Obligation under the Trust Indenture in the manner and to the extent contemplated in Section 2.01.

5.03 Intentionally Deleted

5.04 Representations and Warranties

The Province hereby represents and warrants that:

(a) the execution and delivery of, and the performance of its obligations under, this Agreement by the Province have been authorized by all necessary action on the part of the Province;

(b) the execution and delivery of, and the performance of its obligations under, this Agreement by the Province do not result in the violation of any applicable law; and

(c) this Agreement has been duly executed and delivered by the Province.

[10] These changes were made to conform to the latest draft of the Trust Indenture, a copy of which will be circulated soon.

ARTICLE VI
NOTICE OF ASSUMPTION OF CERTAIN OBLIGATIONS SECURED[11]

6.01 Delivery of Assumption Notice

Following the occurrence of a Protection Event, the Province may (but shall not be obligated to) provide notice (in the form of Exhibit B) to the Indenture Trustee that the Province has elected to assume the Financing Entity's obligations in respect of all Obligations Secured permitted to be assumed by their terms (the "**Assumption Notice**"). The Assumption Notice shall specify the date on which the assignment and assumption of such Obligations Secured will be effective (each such date being an "**Assumption Closing Date**").[12]

6.02 Cooperation to Implement the Assignment and Assumption

The Indenture Trustee, the FSM, the Financing Entity and the Province will cooperate and use best efforts to complete the assignment and assumption of the Obligations Secured referenced in Section 6.01 by and from the Financing Entity to and by the Province by the applicable Assumption Closing Date.

6.03 Effect of Assignment and Assumption

On the date that the assignment and assumption of the Obligations Secured referenced in Section 6.01 by and from the Financing Entity to and by the Province becomes effective (the "**Assumption Effective Date**"), the Province shall no longer be required to provide and perform the Limited Guarantee but will instead become a primary obligor under such Obligations Secured assumed pursuant to and in accordance with an applicable Assumption Agreement. For greater certainty, the obligations of the Province so assumed will not be secured obligations of the Province and the obligees thereof will have no right, interest or claim to or in respect of the Collateral or any proceeds therefrom.

6.04 Interim Period

Until the effective time of the assignment and assumption of the Obligations Secured referenced in Section 6.01 by and from the Financing Entity to and by the Province on the Assumption Effective Date, the Province shall continue to perform and be obligated under the Limited Guarantee with respect to those Obligations Secured.

---

[11] Please see Torys' cover email to explain changes made in this Article and the related Article in the Process Agreement. Section 6.05 was deleted since it was not applicable in a context where only some of the Obligations Secured would be assumed.

[12] It is not realistic to think that the assumptions of Secured Obligations will all occur on one day. We think it has to happen on a contract by contract basis. As a Secured Obligation is assumed, the Limited Guarantee falls away with respect to it (it becomes a "zero" item in the waterfalls).

ARTICLE VII
INDENTURE TRUSTEE MATTERS

7.01 Limited Recourse

No recourse may be taken, directly or indirectly, with respect to the obligations of the Financing Entity under this Agreement, or any certificate or other writing delivered in connection herewith or therewith, against (a) the Financing Entity Trustee in its individual capacity, (b) any owner of a beneficial interest in the Financing Entity or (c) any partner, owner, beneficiary, agent, officer, director, employee or agent of the Financing Entity Trustee in its individual capacity, any holder of a beneficial interest in the Financing Entity or the Financing Entity Trustee or of any successor or assign of the Financing Entity Trustee in its individual capacity, except as any such Person may have expressly agreed (it being understood that the Financing Entity Trustee has no such obligations in its individual capacity).

7.02 Not Responsible for Recitals

The recitals contained herein will be taken as the statements of the Province, the Financing Entity and the FSM, and the Indenture Trustee assumes no responsibility for their correctness. The Indenture Trustee makes no representations as to the validity or sufficiency of this Agreement.

7.03 Representations and Covenants of the Indenture Trustee[13]

The Indenture Trustee represents, warrants and covenants that:

(a) the Indenture Trustee is a trust company organized, existing and in good standing under the laws of Canada; and

(b) the Indenture Trustee is authorized to carry on the business of a trust company in each of the provinces and territories of Canada.

ARTICLE VIII
SUSPENSION OF ADHERENCE FOR NEW PRIMARY OBLIGATIONS

8.01 Suspension Notice

Upon:

(a) a Program Breach; or

(b) a default in the performance, or breach, of any covenants or representations of the FSM to the Province in connection with an incurrence or amendment of Primary

[13] The Indenture Trustee asked us to delete these representations. They will not provide these types of representations without attaining a legal opinion from outside counsel. To avoid delay, we would ask that the parties agree to this deletion.

Obligations, which continues for thirty (30) days after written notice by the Province to the FSM of such default or breach; or

(c) the FSM no longer being the Manager or actions having been taken by or on behalf of the Indenture Trustee to remove the FSM as the Manager,

the Province may declare that the Limited Guarantee under this Agreement shall not apply to any Primary Obligations incurred[14] on or after such declaration, other than any Refinancing of a Primary Obligation in respect of which the Adherence Conditions had previously been satisfied, by delivering a written notice in the form of Exhibit C (a "**Suspension Notice**") to the Province to the Indenture Trustee, the FSM and the Financing Entity.[15]

8.02 Suspension

If a Suspension Notice has been provided under Section 8.01 (the provision of such notice being a "**Suspension Event**"), the Limited Guarantee shall not apply in respect of any Primary Obligation incurred[16] on or after the time such Suspension Notice is delivered, other than any Refinancing of a Primary Obligation in respect of which the Adherence Conditions had previously been satisfied. For greater certainty, the rights of the Province under Article VI shall apply in respect of the Obligations Secured referenced in Section 6.01, including if incurred on or after the time such Suspension Notice is delivered.[17]

8.03 No Impact on Adherence

For greater certainty, the occurrence of Suspension Event or a failure by the FSM or the Financing Entity to perform its covenants under this Agreement will not invalidate or extinguish the obligations of the Province under the Limited Guarantee in respect of Approved Obligations in existence prior to the occurrence of the Suspension Event or in respect of any Refinancing of a Primary Obligation in respect of which the Adherence Conditions had previously been satisfied, nor will it in any way impact the Obligations Secured which are assumed by the Province in accordance with ARTICLE VI.

[14] We will need the ability to amend the Primary Obligations after a Suspension Notice to deal with the Suspension Notice itself.

[15] OPG has confirmed that it is problematic from an accounting perspective to give the Province a broad right to suspend at any time. As discussed in the meeting, we therefore reintroduced the concept of the Program Breach and Breach Event but we made the breach event generic to ensure we do not have to reference the Process Agreement in this document.

[16] We will need the ability to amend the Primary Obligations after a Suspension Notice to deal with the Suspension Notice itself.

[17] We have deleted the concept of the termination notice since it no longer serves a purpose and is potentially confusing to the reader.

ARTICLE IX
MISCELLANEOUS

9.01 Term of Agreement

This Agreement will continue until the date that no amount is or may become due and payable by the Province under the Limited Guarantee.

9.02 Notices

Any notice or other communication required or permitted to be given hereunder will be in writing and will be given by prepaid first-class mail, by facsimile or other means of electronic communication or by hand-delivery as hereinafter provided. Any such notice or other communication, if mailed by prepaid first-class mail at any time other than during a general discontinuance of postal service due to strike, lockout or otherwise, will be deemed to have been received on the fourth Business Day after the post-marked date thereof, or if sent by facsimile or other means of electronic communication, will be deemed to have been received on the Business Day following the sending, or if delivered by hand will be deemed to have been received at the time it is delivered to the applicable address noted below either to the individual designated below or to an individual at such address having apparent authority to accept deliveries on behalf of the addressee. Notice of change of address will also be governed by this Section. HER MAJESTY THE QUEEN IN RIGHT OF ONTARIO, AS REPRESENTED BY THE MINISTER OF ENERGY AND THE MINISTER OF FINANCE

AND

ONTARIO POWER GENERATION INC.

CHANGE OF LAW PROCESS AGREEMENT[1]

Dated as of [■], 2017

[1] This Agreement and the Protection Agreement will need to be effective on closing but signed and held in escrow as soon as they are settled and prior to pricing of the term deal.

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**") is made and entered into as of [■], 2017.

RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.

Pursuant to a Declaration of Trust dated as of [■], 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.[2]

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Primary Obligations that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions.

Prior to entering into this Agreement, OPG provided the Province with the proposed forms of the Transaction Documents listed on Exhibit "A", and the Province has not objected to such forms and has confirmed to OPG that such Transaction Documents constitute "Reference Documentation" for purposes of this Agreement.

Prior to entering into this Agreement, OPG, as the FSM, provided the Province with the initial Financing Plan attached hereto as Exhibit "B" (the "**Initial Financing Plan**"), and the Province has not objected to such Initial Financing Plan.

Prior to entering into this Agreement, OPG, as the FSM, provided to the Province (i) the initial forecast attached hereto as Exhibit "C" (the "**Initial Forecast**") setting out OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the 24 month period following the date hereof (the "**Initial Forecast Period**"); and (ii) notice of the initial Protection Agreement Maximum of C$■ (the "**Initial Protection Agreement Maximum**").[3]

---

[2] We are comfortable on this point because OPG has retained Computershare as issuer trustee. The recitals of the Declaration of Trust provide that Computershare has established the Trust at the request of the FSM. We can also provide you with a copy of the Computershare engagement letter upon request.

[3] Given that this Agreement would now be delivered on or immediately prior to closing, we thought it would be acceptable to reference these initial items as delivered versus as future deliverables. Please note that OPG is working

The Province has not objected to the Initial Forecast and the Initial Protection Agreement Maximum on the basis that (i) there does not appear to be inaccuracies in the Initial Financing Plan or the Initial Forecast, (ii) the Initial Forecast is consistent with the Initial Financing Plan, and (iii) the Initial Protection Agreement Maximum is less than the Initial Forecast.

This Agreement sets out the obligations OPG has agreed to perform and assurances OPG has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the Adherence Conditions have been satisfied, maintaining information related to the Program Agreements and the Approved Obligations, and ensuring that the Province's assumption rights pursuant to Article VI of the Change of Law Protection Agreement may be exercised without impediment on the terms and conditions contemplated in this Agreement and the Change of Law Protection Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of OPG and the Province, have been done.

(ii) punctually perform and observe all of its (including as the FSM and as Manager) obligations and agreements contained in the Program Agreements;

(iii) promptly notify the Province of the creation of any Funding Obligation that is not or would not be an Approved Obligation; and

(iv) after the occurrence of any Protection Event[5], not, without the Province's prior written consent, permit the Financing Entity to exercise any redemption, pre-payment, early termination or extension right in respect of any Approved Obligation or exercise any other election or privilege in respect of any Approved Obligation, in each case if as a result the obligations applicable to the Approved Obligation under the Change of Law Protection Agreement would be accelerated, delayed or otherwise affected.

(c) For greater certainty, the parties hereto acknowledge and agree that OPG's obligations under this Agreement are subject to (i) OPG's obligations as FSM under the Act, and (ii) OPG's obligations under the Management Agreement.[6]

(d) Nothing in this Agreement nor in the Change of Law Protection Agreement[7] shall limit the obligations of the Province under the Indemnity Agreement by the

[4] Please see our cover note regarding the proposed assumption by the Province. Lawyers to discuss if appropriate mechanics for the first two deals are possible given timing.

[5] OPG is not in a position to be aware of events that may lead to a Protection Event.

[6] We would like to ensure that there is an acknowledgement that OPG has certain obligations under the Act and the Management Agreement.

[7] This language has extra-contractual implications and so its meaning as between only 2 of the parties to the Protection Agreement is uncertain. Torys to explain intention. Torys: This provision is intended to clarify that neither the Protection Agreement nor the Process Agreement supersedes or otherwise amends the Province's obligations under the Provincial Indemnity Agreement. It is effectively an acknowledgment by the Province in **Error! Unknown document property name.**

Province in favour of OPG dated June 1, 2017 (as amended, the "**Indemnity Agreement**") and to the extent of any conflict between this Agreement, the Change of Law Protection Agreement and such Indemnity Agreement, in respect of any matter relating to the Province's obligations to indemnify OPG, the Indemnity Agreement shall prevail.

ARTICLE III
PROCESS CERTIFICATE

3.01 Process Certificate[8]

OPG shall deliver a certificate (the "**Process Certificate**"), signed by the Chief Financial Officer and the Treasurer of OPG or any two Executive Officers of OPG (for clarity, such certificate is to be provided by such officers in their capacity as officers of OPG acting in its capacity as FSM) and addressed to the Province, on or before the incurrence of a Certified Primary Obligation (provided that delivery may not be more than 5 Business Days before the incurrence of the Certified Primary Obligation), setting out the following with respect to such Certified Primary Obligation:

(a) the material terms of the Certified Primary Obligation pertaining to (i) in the case of notes, bonds or other securities, the principal amount, interest or discount rate, third party fees, term to maturity, amortization, redemption or extension features, structure and coupon frequency, as applicable, and (ii) in the case of a Master Agreement[9], events of default, termination events and any amendment to the standard terms of the Master Agreement relating to the calculation of termination amounts (and, for greater certainty, it shall not be necessary to set out the terms of any trade confirmation);

(b) a statement to the effect that: (i) the Certified Primary Obligation to be incurred (1) will arise under terms and conditions that are Substantially in the Form of the Reference Documentation applicable thereto; (2) in the opinion of the signatories to the Process Certificate, are reasonably incurred or effected in compliance with the Act, the General Regulation, any other enactments related thereto and the applicable Financing Plan; (3) are of a type and are on terms that a reasonably prudent financial services manager would incur in similar circumstances; and

favour of OPG and does not involve the other parties to the Protection Agreement and so we are comfortable including it here only. However, we do not have an issue with putting an equivalent clause in the Protection Agreement if that is preferable from your perspective.

[8] The Process Certificate conforms to the certificate delivered under the Change of Law Protection Agreement including the changes to ensure that the Process Certificate is only provided here when a concurrent certificate is required to be delivered by OPG under the Protection Agreement. Without this consistency, the obligations can become confusing and the intent of the parties of when Primary Obligations are subject to the adherence conditions may not be clear.

[9] Since we agreed at our meeting that OPG only needs to provide a certificate under section 4.02 of the Change of Law Protection Agreement when they enter into a Master Agreement (and not the broader concept of the Derivative Agreement), we had to revise the language here to conform to what would be expected to be found in a Master Agreement.

(4) reflect, in all material respects, arm's length terms and conditions; and (ii) any Disclosure Document used in connection with the offering and sale of notes, bonds or other securities is Substantially in the Form of the Reference Documentation;

(c) a statement confirming that any disclosure made in respect of the Certified Primary Obligation (including any Disclosure Document, press release or other written communication prepared for dissemination to third parties in relation to the Certified Primary Obligation) that refers to or describes the terms, effect or adherence of or to this Agreement or the Change of Law Protection Agreement has been made available to the Province prior to use or dissemination, other than where such disclosure was substantially the same as a disclosure previously made;

(d) a statement that no Breach Event has occurred on or prior to the date of the Process Certificate, unless such Breach Event has been waived by the Province in writing; and

(e) confirmation that, at the time the Certified Primary Obligation is incurred, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments under the Certified Primary Obligation, together with all other outstanding amounts due or becoming due in the future in respect of Repayments under all Approved Obligations, do not and will not exceed the then applicable Protection Agreement Maximum; for clarity, Repayments under Obligations Secured owing in currencies other than Canadian dollars will be determined on the date the Process Certificate is delivered hereunder in accordance with the following:

(i) where a Derivative Agreement has been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the hedged value expressed in Canadian dollars; and

(ii) where a Derivative Agreement has not been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the noon spot rate for conversions of any currencies into Canadian dollars.

3.02 Acknowledgement[10]

The Province acknowledges and agrees that, concurrent with the delivery of the Process Certificate pursuant to Section 3.01 of this Agreement, the Chief Financial Officer and the Treasurer of OPG or any two Executive Officers of OPG (for clarity, such certificate is to be provided by such officers in their capacity as officers of OPG acting in its capacity as FSM) are authorized to deliver the certificate referred to in Subsection **[4.02(b)]** of the Change of Law Protection Agreement to the Indenture Trustee confirming that OPG has delivered all required

certifications to the Province in connection with the incurrence of the Certified Primary Obligations in respect of which the certificate in Subsection **[4.02(b)]** of the Change of Law Protection Agreement is being delivered; provided that, upon receipt of a Suspension Notice under the Change of Law Protection Agreement, OPG covenants not to deliver any further certificates to the Indenture Trustee under Subsection **[4.02(b)]** of the Change of Law Protection Agreement other than in connection with a Refinancing.[11]

3.03 Meaning of "Reference Documentation"

For the purposes of Subsection 3.01(b), the term "Reference Documentation" shall mean each Transaction Document (including any change, addition or supplement thereto) that, at the relevant time:

(a) is a Transaction Document provided to, and not objected to by, the Province prior to the making of this Agreement, as contemplated in the fifth recital to this Agreement; or

(b) is a Transaction Document provided to the Province in accordance with Subsection 2.01(b) that has not been objected to by the Province, by delivery of an objection notice in writing delivered to OPG, within 10 Business Days after it is provided to the Province.

3.04 Meaning of "Substantially in the Form"

For the purposes of Subsection 3.01(b), the term "Substantially in the Form" shall mean:

(a) with respect to the Reference Documentation referred to in clauses (i) to (xi) of the definition of "Transaction Documents", that there are no differences between the proposed documents and such Reference Documentation that could result in a change in the material terms or conditions applicable to the applicable Primary Obligation, including regarding the timing of or circumstances under which related payments are or may become due or accrue (including as a result of any default, acceleration, termination, wind-up, liquidation or realization), or that would affect the Province's rights of subrogation or assignment (including pursuant to **[Section 5.01 or Article VI]** of the Change of Law Protection Agreement) or its interests as a subrogee or an assignee, that would arise as a result of performing the Limited Guarantee in respect of the applicable Primary Obligation or upon the assumption of obligations in accordance with **[Article VI]** of the Change of Law Protection Agreement; provided, however, that the foregoing does not apply to any variable terms to be set forth in the proposed documents as are reasonably contemplated in the Reference Documentation, including the particular financial terms, rates and levels set forth in the proposed documents other than to the extent that the forms of Reference Documentation

themselves specify specific requirements, limitations or parameters with respect to such financial terms, rates, levels and parameters; and

(b) with respect to the Reference Documentation referred to in clause (xii) of the definition of "Transaction Documents", that there are no material differences between the form and substance of the proposed Disclosure Document and such form of Disclosure Document and that the proposed Disclosure Document complies in all material respects with all applicable securities disclosure requirements relating to the Primary Obligation subject to distribution thereunder.

ARTICLE IV
PROTECTION AGREEMENT MAXIMUM

4.01 Protection Agreement Maximum[12]

(a) Between nine (9) and twelve (12) months prior to the end of the Initial Forecast Period, OPG shall, as the FSM, deliver to the Province an updated forecast setting out the sum of (1) the aggregate amount of Repayments that will arise in the future under Approved Obligations that are then outstanding and (2) OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the period ending 24 months following the Initial Forecast Period, which expectation shall be consistent with the then applicable Financing Plan. Such updated forecast shall be further updated on a similar basis with respect to each successive 24 month period or more frequently if at any time OPG has knowledge that the most recent forecast is materially inaccurate (the Initial Forecast and each such updated forecast, each a "**Forecast**"). Together with each Forecast, OPG shall also provide a revised Protection Agreement Maximum, which may not exceed such Forecast.

(b) Not more than 10 Business Days, or such lesser period as the Province may agree to in writing, following receipt of any further Forecast and notice of the revised Protection Agreement Maximum from OPG pursuant to Section 4.01(a), the Province may disagree with such further Forecast or revised Protection Agreement Maximum on the basis that (i) there appears to be inaccuracies in the Financing Plan or such further Forecast, (ii) the further Forecast is inconsistent with the Financing Plan, or (iii) the revised Protection Agreement Maximum is more than the further Forecast. If the Province disagrees, OPG shall discuss any discrepancies with the Province, address any inaccuracies and inconsistencies to the reasonable satisfaction of the Province and OPG, and the revised Protection Agreement Maximum will be further revised accordingly and confirmed by an amended notice to the Province.

[12] Per an earlier footnote, the items in previous draft (a) and (b) were moved to the recitals.

(c) For clarity, Repayments under Obligations Secured owing in currencies other than Canadian dollars will be valued at the time to be determined for the purposes of this Section 4.01 in accordance with the following:

(i) where a Derivative Agreement has been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the hedged value expressed in Canadian dollars; and

(ii) where a Derivative Agreement has not been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the noon spot rate for conversions of any currencies into Canadian dollars.

(d) The execution, delivery and performance of this Agreement and every instrument or agreement delivered pursuant hereto or in its capacity as the FSM has been or will be duly authorized by all requisite action by OPG and constitute a valid and binding obligation in accordance with its terms subject to (i) applicable bankruptcy, insolvency, moratorium and similar laws at the time in effect affecting the rights of creditors generally, and (ii) equitable principles which may limit the availability of certain remedies, including the remedy of specific performance.

(e) There are no actions, suits or proceedings pending or, to the knowledge of OPG, threatened against or affecting the Financing Entity at law or in equity or before or by any Governmental Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of the Financing Entity or in the ability of the Financing Entity to perform its obligations under the Program Agreements.

(f) There are no actions, suits or proceedings pending or, to the knowledge of OPG, threatened against or affecting OPG at law or in equity or before or by any Governmental Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of OPG or in the ability of the OPG to perform its obligations under this Agreement or any Program Agreements.

(g) The performance by the Financing Entity of the Program Agreements does not conflict with, will not conflict with, does not result in, and will not result in, any breach of, and does not constitute, a default under, the Declaration of Trust or any agreements or instruments to which the Financing Entity is a party or by which it or any of its property and assets are bound.

(h) Neither the execution nor delivery of this Agreement, the Program Agreements nor any agreements or instruments delivered pursuant hereto or thereto, the consummation of the transactions herein or therein, nor compliance with the terms, conditions and provisions hereof or thereof conflicts with or will conflict with, or results or will result in any breach of, or constitutes a default under, any of the provisions of the constating documents of OPG or any agreements or instruments to which OPG is a party or by which it or any of its property and assets are bound.

(i) No consent, approval or authorization of, or declaration, registration, filing or qualification with, or giving of notice to, or taking of any other action in respect of, any Governmental Authority on the part of OPG is required in connection with the execution and delivery of this Agreement, the Program Agreements or any agreements or instruments delivered pursuant hereto or thereto or the consummation of any of the transactions contemplated hereby or thereby or in connection with the enforcement of this Agreement, the Program Agreements or any agreements or instruments delivered pursuant hereto or thereto, except those which have been obtained.

(a) the execution and delivery of, and the performance of its obligations under, this Agreement by the Province have been authorized by all necessary action on the part of the Province;

ARTICLE VI
PROCESS FOR ELECTION TO ASSUME APPROVED OBLIGATIONS[13]

6.01 Election by the Province

Pursuant to Section 6.01 of the Change of Law Protection Agreement, at any time following the occurrence of a Protection Event, the Province may (but shall not be obligated) elect to assume the Financing Entity's obligations in respect of all Obligations Secured permitted to be assumed by their terms as obligor and debtor by giving notice to the Indenture Trustee. Prior to determining whether or not to exercise its election, the Province may deliver to OPG a notice in the form of Exhibit "D" (an "**Election Information Notice**"). The Election Information Notice shall, among other things, specify the date or dates on which the Province proposes to assume the Obligations Secured referred to in this Section 6.01, which date or dates shall be no earlier than 60 days[14] following delivery of the Election Information Notice to OPG (with respect to each such Obligation Secured, the "**Proposed Assumption Date**").

6.02 Details regarding Obligations Secured

Within 10 Business Days following the delivery of the Election Information Notice to OPG, OPG shall provide the following information and documentation to the Province:

(a) a summary of the amounts that will be owing under the Obligations Secured referred to in Section 6.01 as of the Proposed Assumption Date, together with a detailed schedule setting out the dates on which such amounts will become due and payable under such Obligations Secured;

(b) a summary of the rights arising under the Obligations Secured referred to in Section 6.01 that permit the Province to assume such Obligations Secured, including details regarding any conditions precedent to such assignment and the related assumption becoming effective and any notices, filings, consents or other actions that will be required in order to implement and effect such assignment and assumption;

(c) current versions of all documentation under which the Obligations Secured referred to in Section 6.01 arise;

[13] Please see Torys' cover email to explain changes made in this Article and the related Article in the Protection Agreement. Section 6.05 was deleted and moved up as a covenant in section 2.02(a)(v)(D).

[14] This process will take time and require appropriate notice to holders of the applicable Obligations Secured.

(d) copies of all correspondence exchanged between OPG, as the FSM, or the Financing Entity, on the one hand, and any Specified Creditor, Rating Agency or the Indenture Trustee, on the other hand, in each case that may reasonably be considered to be material to the assumption and performance of the Obligations Secured referred to in Section 6.01 by the Province; and

(e) all income tax returns and assessments, financial statements and notices of proceedings of or pertaining to the Financing Entity or its business and any documentation related thereto, including any pleadings, appeals, objections, qualifications or other similar materials in respect of the Financing Entity or any Program Agreement.

6.03 Settlement of Terms

Following receipt and consideration by the Province of the information and documentation to be provided under Section 6.02, the Province shall confirm in writing whether or not it expects to proceed with the assignment and assumption of the Obligations Secured referred to in Section 6.01 and, if it will be proceeding with the assignment and assumption, the date on which the Province expects that assignment and assumption will be effected. If it will be proceeding with such assignment and assumption, the Province will deliver an Assumption Notice as contemplated under Section **[6.01]** of the Change of Law Protection Agreement. A decision not to proceed with an election at any time will not limit the Province from proceeding with an election at a later date, including by issuing a further Election Information Notice, and Article VI of this Agreement shall continue to apply unaffected.

6.04 Cooperation to Implement the Assignment and Assumption

OPG shall cooperate with the Province and, as FSM, shall use commercially reasonable efforts to cause the Financing Entity to cooperate, and shall use its commercially reasonable efforts, to complete the assignment and assumption of the Obligations Secured referred to in Section 6.01 by and from the Financing Entity to and by the Province, by the applicable Assumption Closing Date.

_Fair Hydro -- Change of Law Process Agreement.pdf

Draft: December 13, 2017

HER MAJESTY THE QUEEN IN RIGHT OF ONTARIO, AS REPRESENTED BY THE MINISTER OF ENERGY AND THE MINISTER OF FINANCE

AND

ONTARIO POWER GENERATION INC.

CHANGE OF LAW PROCESS AGREEMENT

Dated as of [■], 2017

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**") is made and entered into as of [■], 2017.

RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.

Pursuant to a Declaration of Trust dated as of [■], 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the applicable Adherence Conditions.

Prior to entering into this Agreement, OPG provided the Province with the final forms of certain of the Transaction Documents, as described on Exhibit "A", and the Province has not objected to such forms and hereby confirms to OPG that such Transaction Documents will constitute "Reference Documentation" for purposes of this Agreement.

Prior to entering into this Agreement, OPG, as the FSM, provided the Minister of Energy, in compliance with the Act, with the initial Financing Plan, which includes the initial forecast (the "**Initial Forecast**") setting out OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Obligations Secured to be incurred during the 24 month period from December 1, 2017 to November 30, 2019 (the "**Initial Forecast Period**"). Prior to entering into this Agreement, OPG provided the Province with the initial Protection Agreement Maximum (the "**Initial Protection Agreement Maximum**"). The Province has received the initial Financing Plan and has not disagreed with the Initial Forecast or the Initial Protection Agreement Maximum on the basis of an apparent inaccuracy in the Initial Forecast, an inconsistency between the Initial Forecast and the initial Financing Plan, or as a result of the Initial Protection Agreement Maximum being more than the Initial Forecast.

This Agreement sets out the obligations OPG has agreed to perform and assurances OPG has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the applicable Adherence Conditions have been satisfied and maintaining information related to the Program Agreements and the Approved Obligations.

All things necessary to make this Agreement a valid and legally binding agreement of OPG and the Province, have been done.

AGREEMENT OF THE PARTIES

In consideration of the respective agreements herein contained, the parties hereto covenant and agree as follows:

ARTICLE II
COVENANTS OF OPG

2.01 Deliveries to the Province

(a) OPG shall promptly deliver to the Province a copy of any proposed change to or replacement of the Financing Plan.

(i) any proposed material change in the terms or conditions applicable to a Primary Obligation in a previously provided Transaction Document becoming effective or otherwise being used; provided, however, that a proposed change in particular financial terms, rates or levels shall not constitute a material change, and

(ii) any additional, supplemental or replacement Transaction Document becoming effective or otherwise being used,

OPG shall deliver to the Province a copy of such proposed change to the Transaction Document and any such additional, supplemental or replacement Transaction Document.

(c) Without limiting Subsection 2.01(b), and except as has previously been provided to the Province under Subsection 2.01(b), promptly following (i) any change, modification, alteration, amendment, supplement, extension, renewal, compromise, novation, replacement, suspension or waiver of the terms of all or any part of the Approved Obligations or any Collateral therefor being made, (ii) any new, additional, supplemental or replacement instruments, documents, agreements or security being used or granted in connection with all or any part of the Approved Obligations, or (iii) any waiver, release, reconveyance, termination, abandonment, subordination, exchange, substitution, transfer, compound, compromise, liquidation or enforcement of all or any part of the Approved Obligations or any security or guarantee therefor being effected, OPG shall deliver to the Province a detailed description of such event and the reasons for it together with any related documents, agreements and instruments.

(d) Promptly following any incurrence of a Funding Obligation or any amendment of a Funding Obligation, OPG shall provide the Province with electronic copies of all related Governing Documents and all other closing documents executed by or on behalf of the Financing Entity in connection with such incurrence or amendment that would affect the Financing Entity's assets or obligations (including, for greater certainty, any related Disclosure Document) and which have not been previously provided to the Province.

(e) Promptly upon request, OPG shall provide the Province with such additional information and documentation as the Province reasonably requests in order to enable the Province to assess the nature and extent of its obligations under the Change of Law Protection Agreement.

2.02 Covenants

(a) OPG shall use commercially reasonable efforts to cause the Financing Entity to:

(i) punctually perform and observe all of the Financing Entity's obligations and agreements contained in the Program Agreements;

(ii) ensure that all Obligations Secured are incurred pursuant to and in accordance with the terms and conditions of the Trust Indenture;

(iii) ensure that no obligations other than the Obligations Secured are incurred by or on behalf of the Financing Entity;

(iv) not engage in any business other than as permitted under the Declaration of Trust or the other Program Agreements and activities ancillary thereto; and

(v) not (unless waived in writing by the Province):

(A) amend, supplement, modify, restate or replace or waive or consent to a postponement of compliance with the terms and conditions on the part of any other party to any of the Program Agreements, if any such supplementation, amendment, modification, restatement, replacement, waiver or consent could reasonably be considered to have a Material Effect; provided, however, that the foregoing does not apply to any supplement, amendment, modification, restatement, replacement, waiver or consent in respect of particular financial terms, rates or levels;

(B) extend, renew, compromise, novate, replace, suspend, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, liquidate or enforce the terms of all or any part of the Approved Obligations or any Collateral, if any such action could reasonably be considered to have a Material Effect; provided, however, that the foregoing does not apply to any such action taken in respect of particular financial terms, rates or levels; or

(C) permit the validity or effectiveness of the Change of Law Protection Agreement to be impaired.

(b) If any action restricted pursuant to Section 2.02(a)(v) is reflected in a delivery required to be made by OPG to the Province pursuant to Section 2.01(b) and is not objected to by the Province under Section 3.04(b), the Province shall be

deemed to have waived its rights in respect of such action under Section 2.02(a)(v).

(c) OPG shall:

(i) comply, and shall use commercially reasonable efforts to cause compliance by the Financing Entity, with the Act, the General Regulation and any other enactment related thereto;

(ii) punctually perform and observe all of its (including as the FSM and as Manager) obligations and agreements contained in the Program Agreements;

(iii) promptly notify the Province of the creation of any Funding Obligation that is not or would not be an Approved Obligation; and

(iv) notify the Province of (1) the occurrence of any Breach Event and any Program Breach, in each case within 2 Business Days of any such occurrence, and (2) any event or circumstance known to OPG that with the passage of time or the giving of notice would be a Breach Event or a Program Breach, in each case within 1 Business Day of OPG first becoming aware of such event or circumstance; and

(v) after the occurrence of any Protection Event (or any event or circumstance known to OPG that with the passage of time or the giving of notice would be a Protection Event), not, without the Province's prior written consent, permit the Financing Entity to exercise any redemption, pre-payment, early termination or extension right in respect of any Approved Obligation or exercise any other election or privilege in respect of any Approved Obligation, in each case if as a result the obligations applicable to the Approved Obligation under the Change of Law Protection Agreement would be accelerated, delayed or otherwise affected.

(d) The Province and OPG acknowledge that their obligations to each other under the Indemnity Agreement between the Province and OPG dated June 1, 2017 (as amended, the "**Indemnity Agreement**") are not amended by this Agreement and continue in full force and effect, notwithstanding that this Agreement is entered into subsequent to the Indemnity Agreement.

(e) The Province and OPG acknowledge that their obligations to each other under the Indemnity Agreement are not amended by the Change of Law Protection Agreement and continue in full force and effect, notwithstanding that the Change of Law Protection Agreement was entered into subsequent to the Indemnity Agreement.

ARTICLE III
PROCESS CERTIFICATE

3.01 Process Certificate

OPG shall deliver a certificate (the "**Process Certificate**"), signed by the Chief Financial Officer and the Treasurer of OPG or any two Executive Officers of OPG (for clarity, such certificate is to be provided by such officers in their capacity as officers of OPG acting in its capacity as FSM) and addressed to the Province, on or before the incurrence or any amendment of a Funding Obligation, other than any Funding Obligation under which not more than $5,000,000 in the aggregate may become payable by the Financing Entity (provided that delivery may not be more than 5 Business Days before the incurrence or amendment of the Funding Obligation), setting out the following with respect to such Funding Obligation:

(a) the material terms of the Funding Obligation pertaining to (i) in the case of notes, bonds or other securities, the principal amount, interest or discount rate, third party fees, term to maturity, amortization, redemption or extension features, structure and coupon frequency, as applicable, and (ii) in the case of a Derivative Agreement, OPG's best estimate of the expected notional amount, financial terms and pricing, benchmarks, payment structures and early termination rights;

(b) if an existing Funding Obligation is proposed to be amended, material details respecting such amendment, including regarding the applicable details set forth in Subsection 3.01(a), as the context requires;

(c) a statement to the effect that: (i) the Funding Obligation to be incurred or amended (1) will arise under terms and conditions that are Substantially in the Form of the Reference Documentation applicable thereto; (2) in the opinion of the signatories to the Process Certificate, are reasonably incurred or effected in compliance with the Act, the General Regulation, any other enactments related thereto and the applicable Financing Plan; (3) are of a type and are on terms that a reasonably prudent financial services manager would incur in similar circumstances; and (4) reflect, in all material respects, arm's length terms and conditions; and (ii) any Disclosure Document used in connection with the offering and sale of notes, bonds or other securities is Substantially in the Form of the Reference Documentation;

(d) a statement confirming that any disclosure made in respect of the Funding Obligation (including any Disclosure Document, press release or other written communication prepared for dissemination to third parties in relation to the Funding Obligation) that refers to or describes the terms, effect or adherence of or to this Agreement or the Change of Law Protection Agreement has been made available to the Province prior to use or dissemination, other than where such disclosure was substantially the same as a disclosure previously made;

(e) a statement that no Breach Event has occurred on or prior to the date of the Process Certificate, unless such Breach Event has been waived by the Province in writing; and

(f) confirmation that, at the time the Funding Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments under the Funding Obligation, together with all other outstanding amounts due or becoming due in the future in respect of Repayments under all Approved Obligations, do not and will not exceed the Protection Agreement Maximum applicable on the date that the Process Certificate is delivered; for clarity, Repayments under Obligations Secured owing in currencies other than Canadian dollars will be determined on the date the Process Certificate is delivered hereunder in accordance with the following:

(i) where a Derivative Agreement has been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the hedged value expressed in Canadian dollars; and

(ii) where a Derivative Agreement has not been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the noon spot rate for conversions of any currencies into Canadian dollars.

3.02 Acknowledgement regarding delivery of certificate under Change of Law Protection Agreement

The Province acknowledges and agrees that, concurrent with the delivery of the Process Certificate pursuant to Section 3.01 of this Agreement, the Chief Financial Officer and the Treasurer of OPG or any two Executive Officers of OPG (for clarity, such certificate is to be provided by such officers in their capacity as officers of OPG acting in its capacity as FSM) are authorized to deliver the certificate referred to in Subsection 4.02(a)(ii) of the Change of Law Protection Agreement to the Indenture Trustee confirming that OPG has complied with all of its obligations to the Province and internal requirements and processes in connection with adherence of the Limited Guarantee to the incurrence of the Certified Primary Obligations in respect of which the certificate in Subsection 4.02(a)(ii) of the Change of Law Protection Agreement is being delivered; provided that, upon receipt of a Suspension Notice under the Change of Law Protection Agreement, OPG covenants not to deliver any further certificates to the Indenture Trustee under Subsection 4.02(a)(ii) of the Change of Law Protection Agreement.

3.03 Acknowledgement regarding delivery of Suspension Notice

The parties acknowledge and agree that the Province is entitled to deliver a Suspension Notice under Section 7.01 of the Change of Law Protection Agreement if a Program Breach or Breach Event has occurred. The Province agrees not to deliver a Suspension Notice pursuant to Section 7.01 of the Change of Law Protection Agreement unless a Program Breach or a Breach Event has occurred.

3.04 Meaning of "Reference Documentation"

For the purposes of Subsection 3.01(c), the term "Reference Documentation" shall mean each Transaction Document that, at the relevant time:

(a) is a Transaction Document listed on Exhibit "A"; or

(b) is a Transaction Document (including any amended or amended and restated Transaction Document) provided to the Province in accordance with Subsection 2.01(b) that has not been objected to by the Province, by delivery of an objection notice in writing delivered to OPG, within 10 Business Days after it is provided to the Province; provided that the Province (i) shall only be entitled to deliver an objection notice if the Transaction Document (including any amended or amended and restated Transaction Document) has a Material Effect and (ii) shall not be entitled to deliver an objection notice in respect of any Post-Suspension Refinancing.

3.05 Meaning of "Substantially in the Form"

For the purposes of Subsection 3.01(c), the term "Substantially in the Form" shall mean:

(a) with respect to the Reference Documentation referred to in clauses (i) to (xi) of the definition of "Transaction Documents", that there are no differences between the proposed documents and such Reference Documentation that could result in a change in the material terms or conditions applicable to the applicable Primary Obligation that could have a Material Effect; provided, however, that the foregoing does not apply to any particular financial terms, rates or levels; and

(b) with respect to the Reference Documentation referred to in clause (xii) of the definition of "Transaction Documents", that there are no material differences between the form and substance of the proposed Disclosure Document and such form of Disclosure Document and that the proposed Disclosure Document complies in all material respects with all applicable securities disclosure requirements relating to the Primary Obligation subject to distribution thereunder.

ARTICLE IV
PROTECTION AGREEMENT MAXIMUM

4.01 Protection Agreement Maximum

(a) Between nine (9) and twelve (12) months prior to the end of the Initial Forecast Period, OPG shall, as the FSM, deliver to the Province an updated forecast setting out the sum of (1) the aggregate amount of Repayments that will arise in the future under Obligations Secured that are then outstanding and (2) OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Obligations Secured to be incurred during the period ending 24 months following the Initial Forecast Period, which expectation shall be consistent with the then applicable Financing Plan. Such updated forecast

shall be further updated on a similar basis with respect to each successive 24 month period or more frequently if at any time OPG has knowledge that the most recent forecast is materially inaccurate (the Initial Forecast and each such updated forecast, each a "**Forecast**"). Together with each Forecast, OPG shall also provide a revised Protection Agreement Maximum, which may not exceed such Forecast.

(b) Not more than 10 Business Days, or such lesser period as the Province may agree to in writing, following receipt of any further Forecast and notice of the revised Protection Agreement Maximum from OPG pursuant to Section 4.01(a), the Province may disagree with such further Forecast or revised Protection Agreement Maximum on the basis that (i) there appears to be inaccuracies in such further Forecast, (ii) the further Forecast is inconsistent with the Financing Plan, or (iii) the revised Protection Agreement Maximum is more than the further Forecast. If the Province disagrees, OPG shall discuss any discrepancies with the Province, address any inaccuracies and inconsistencies to the reasonable satisfaction of the Province and OPG, and the revised Protection Agreement Maximum will be further revised accordingly and confirmed by an amended notice to the Province.

(c) For clarity, Repayments under Obligations Secured owing in currencies other than Canadian dollars will be valued at the time to be determined for the purposes of this Section 4.01 in accordance with the following:

(i) where a Derivative Agreement has been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the hedged value expressed in Canadian dollars; and

(ii) where a Derivative Agreement has not been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the noon spot rate for conversions of any currencies into Canadian dollars.

(g) The performance by the Financing Entity of the Program Agreements does not conflict with, will not conflict with, does not result in, and will not result in, any breach of, and does not constitute, a default under, the Declaration of Trust or any agreements or instruments to which the Financing Entity is a party or by which it or any of its property and assets are bound.

RECITALS

Pursuant to Subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**"), the Lieutenant Governor in Council may by order, authorize the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to agree to guarantee or indemnify certain debts, obligations, securities or undertakings associated with an Investment Interest.

Pursuant to an Order in Council 1981/2017 (the "**OIC**"), the Lieutenant Governor in Council has, among other things, authorized the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to enter into one or more agreements to guarantee or indemnify the debts, obligations, securities or undertakings of one or more financing entities established or caused to be established pursuant to Subsection 22(2) of the Act by the FSM and that may incur Funding Obligations in connection with one or more Investment Interests.

Pursuant to a Declaration of Trust dated as of ■, 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

The Financing Entity Trustee, in its capacity as trustee of the Financing Entity, and the Indenture Trustee are parties to the Trust Indenture and propose to create and issue series of notes, bonds and other securities as contemplated therein, and to provide security over the assets and undertaking of the Financing Entity in respect of such notes, bonds and securities, as well as other Obligations Secured.

The Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, have determined to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Primary Obligations that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred. This Agreement sets out the terms and conditions of such protections and assurances.

All things necessary to make this Agreement a valid and legally binding agreement of the Province, the Financing Entity, the FSM and the Indenture Trustee, in accordance with the Act, the OIC and the Trust Indenture, have been done.

From and after such delivery of a

Payment Demand, the Province shall make the following payments in respect of the Approved Obligations (the "**Limited Guarantee**"), the Financing Entity shall pay, and the Province shall be entitled to be paid, the Subrogation Amounts specified below, and the following terms shall apply:

i. Not less than three (3) Business Days prior to each day when any payment or payments are to be made in respect of one or more Approved Obligations occurring after such delivery of a Payment Demand (each such day, a "**Guarantee Payment Date**"), the Manager shall deliver a written statement setting forth the Aggregate Approved Obligations Amount, if any, in respect of the Approved Obligations that are due and payable on such Guarantee Payment Date, together with a detailed description identifying such Approved Obligations and the nature and amount of payments due and payable thereunder on the Guarantee Payment Date, the aggregate outstanding amount payable by the Financing Entity under such Approved Obligations as of the date of such written statement, and details regarding any default in performance by any party obligated thereunder.

ii. On each such Guarantee Payment Date, the Province shall deposit the Aggregate Approved Obligations Amount into the Protection Account.

iii. On each such Guarantee Payment Date, the Financing Entity and the Indenture Trustee shall ensure that the amounts on deposit in the Protection Account are applied to pay each Beneficiary to whom an amount is due and payable under an Approved Obligation on the Guarantee Payment Date the Approved Obligation Amount for such Beneficiary in respect of such Approved Obligation on such Guarantee Payment Date; provided that if the amount deposited pursuant to clause 2.01(a)ii is insufficient to pay all such Approved Obligation Amounts in full, the amount on deposit in the Protection Account on the Guarantee Payment Date shall be applied to pay Beneficiaries in the order of priority in which such Approved Obligations are payable under the payment provisions of the Trust Indenture applicable to the making of such payments on the Guarantee Payment Date (each, a "**Beneficiary Payee**" and each payment made to a Beneficiary Payee on a Guarantee Payment Date, a "**Guarantee Payment**").

iv. On the first Guarantee Payment Date and on each subsequent Guarantee Payment Date, Payment Date or other day on which any amount is required to be paid in respect of any Obligations Secured under the Trust Indenture (a "**Subrogation Payment Date**"), the Issuer and the Indenture Trustee shall ensure that the applicable payment provisions of the Trust Indenture shall be applied and operate on the following basis:

(A) If such day is a Guarantee Payment Date, then for each Approved Obligation for which amounts are paid to a

Beneficiary Payee on such day pursuant to clause 2.01(a)iii in respect of principal, interest or any other amounts ("**Payable Approved Amounts**"), the amounts payable by the Financing Entity in respect of such amounts for such Approved Obligation shall be reduced by the respective amounts of such payments to the Beneficiary Payee, and equivalent amounts shall be payable by the Financing Entity to the Province as "**Subrogation Amounts**" in respect of such Approved Obligations, such Subrogation Amounts being payable in the same order of priority and with the same entitlements accruing to the Province as applied in respect of the related Payable Approved Amounts which were previously owing to the Beneficiary Payee, and to reflect this subrogation the payments set out in clause 2.01(a)iv(B) below shall be made by the Financing Entity.

(B) If the Province has made all deposits required to be made by it on each Guarantee Payment Date occurring on or before such day in accordance with clause 2.01(a)ii (or the related Approved Obligation Amounts have otherwise all been paid in full), then in respect of each Approved Obligation for which any related Subrogation Amounts have not yet been paid in full to the Province, the Financing Entity shall pay to the Province from amounts available under the Trust Indenture payment provisions and in accordance with the priority of payment provisions in the Trust Indenture the amount that would be payable on such date in satisfaction of the relevant Payable Approved Amounts, as determined without regard to any Guarantee Payment paid on any Guarantee Payment Date and also without regard to the corresponding reduction of the amounts owing to present and former Beneficiary Payees pursuant to subclause 2.01(a)iv(A) up to the amount of the unpaid related Subrogation Amounts.

(C) No Beneficiary having a right to be paid an amount in respect of an Approved Obligation, and no other Person entitled under an Obligation Secured, in each case that ranks equal with or subordinate to the Payable Approved Amount in respect of which a Subrogation Amount is payable to the Province under subclause 2.01(a)iv(B), shall be entitled to make any claim or assert any right in or to the amounts paid or payable to the Province under such subclause (including any right of set-off, offset, reimbursement, contribution or indemnity) and no such Beneficiary or other Person shall have any right or

interest in, to or under the Collateral or any proceeds therefrom in respect of any such Subrogation Amount.

(D) For greater certainty, the entitlements of the Province in respect of Subrogation Amounts arising in respect of Payable Approved Obligations that are interest and principal obligations on Notes shall be treated for all purposes of the Trust Indenture as interest and principal obligations, respectively, arising under Notes having the same priority as and any applicable voting rights under the related Approved Obligations, and accordingly the Province (and any successor, assignee or transferee of such entitlements) shall be entitled to all of the rights, entitlements, interests and privileges of a Holder of such a Notes in accordance with the Trust Indenture, as supplemented by the Supplemental Indenture or other indenture document under which the related Approved Obligations were issued.

(b) On each Guarantee Payment Date and upon demand by the Province, the Indenture Trustee shall release and pay to the Province free and clear of any Liens any amount remaining on deposit in the Protection Account that has not been applied to pay Guarantee Payments to Beneficiary Payees on the Guarantee Payment Date in accordance with clause 2.01(a)iii or that otherwise remains on deposit in the Protection Account on the relevant date.

(c) In preparing any payment instructions under the Trust Indenture, the Manager shall reflect the amounts payable under Section 2.01(a), if applicable.

(d) The Province shall, as a payee of Subrogation Amounts under clause 2.01(a)iv(B) and as a payee of any amounts payable under clause 2.01(b), be a "Specified Creditor" under the Trust Indenture and have the benefit of the Collateral thereunder.

(e) For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation and will be limited to the right to receive the Approved Obligation Amounts, if any, for payment to Beneficiary Payees and will be subject to the priorities and to the Province's rights to Subrogation Amounts, set forth in Section 2.01(a).

(f) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

(g) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid by the Province when required herein

shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation by their terms.

(h) Any amount payable to the Province in respect of a Subrogation Amount shall bear interest from and including the date of payment by the Province of the related Guarantee Payment to but excluding the date of payment of the Subrogation Amount to the Province, such interest to accrue at the rate equivalent to the applicable interest rate borne by the related Approved Obligation, and such interest amounts shall be added to their respective Subrogated Amounts and shall consequently be payable in the same priority as the relevant Subrogated Amount under clause 2.01(a)iv(B), all such accruing interest amounts to be calculated and added to the Subrogation Amounts by the Manager in its discretion acting in a commercially reasonable fashion.

(i) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee (and to the Beneficiaries, to the extent they are permitted to exercise any rights, interests, or elections under and in accordance with the Trust Indenture) under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits; provided that, for greater certainty, economic loss shall not include any amount in respect of any amount due and payable to a Beneficiary Payee under the Limited Guarantee.

2.02 Intentionally Deleted.

2.03 Absence of Set-off

Subject to applicable law, the Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

2.04 Payment into Protection Account in Satisfaction

(a) On or before the date of delivery of a Payment Demand to the Province, the Indenture Trustee shall cause to be established and maintained an Eligible Deposit Account (the "**Protection Account**") in the name of the Indenture Trustee, bearing a designation clearly indicating that the funds and other property credited thereto are held for the benefit of the Indenture Trustee and the Beneficiaries. The Protection Account shall be under the control of the Indenture Trustee for the benefit of the Beneficiaries. If, at any time, the institution holding the Protection Account ceases to be an Eligible Institution, the FSM shall notify the Indenture Trustee, and the Indenture Trustee upon being notified in writing of such ineligibility (or the FSM on its behalf) shall within 30 days (or such longer period, not to exceed 45 days, so long as the Rating Agency Condition is satisfied) establish a new Protection Account that is an Eligible Deposit Account and shall

transfer any funds or other property from such Protection Account to such new Protection Account. From the date each such new Protection Account is established, it shall be the "Protection Account" for purposes of this Agreement. Funds credited to the Protection Account will be invested and held in accordance with Section **[7.03]** of the Trust Indenture on the basis that it is an Issuer Account.

(b) Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Financing Entity and the Indenture Trustee shall ensure that all amounts paid by the Province into the Protection Account on a Guarantee Payment Date in respect of an Approved Obligation are applied to pay the amounts due and payable to the Beneficiary Payee as and to the extent provided for in Section 2.01(a). Upon a payment having been made by or on behalf of the Province into the Protection Account, the amounts so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiary Payee as provided for in Section 2.01(a) and thereby reduce the amount due and payable to such Beneficiary Payee in respect of the applicable Approved Obligations, whereupon an affected Beneficiary Payee shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid. For greater certainty, the obligations arising in respect of an applicable Approved Obligation shall not be reduced by such payment as the Province shall become entitled to be paid related Subrogation Amounts and the rights contemplated under Section 2.01(a) and Section 5.01 in relation to such continuing obligations.

2.05 <u>Certain Waivers</u>

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety.

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

2.06 Additional Security

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

2.07 Continuing Liability of the Province

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Approved Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

2.08 Continuance of the Limited Guarantee

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations in accordance with Section 8.01.

2.09 Modifications of Approved Obligations

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements and this Agreement, to:

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine.

ARTICLE III
THE INDENTURE TRUSTEE

3.01 The Indenture Trustee

This Agreement is made in favour of the Indenture Trustee in its capacity as trustee under the Trust Indenture. Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the Indenture Trustee hereunder, but nevertheless, the Indenture Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Agreement. All provisions of the Trust Indenture for the protection of the Indenture Trustee or for facilitating the administration of the trusts or otherwise relating to the Indenture Trustee solely as to its holding of the rights thereunder shall apply *mutatis mutandis* to this Agreement and the Indenture Trustee's duties hereunder.

3.02 Acceptance of Trusts

The Indenture Trustee hereby accepts the trusts hereof and agrees to carry out and discharge the same unless and until a new trustee shall be appointed as contemplated in Section 3.01.

ARTICLE IV
APPROVED OBLIGATIONS

4.01 Approval Process

Except in respect of any Primary Obligation to which the Limited Guarantee will not apply on or after a Suspension Notice is delivered in accordance with Section 7.02, a Primary Obligation that is not a Certified Primary Obligation shall be an Approved Obligation. A Certified Primary Obligation shall constitute an Approved Obligation if (i) the Adherence Conditions applicable thereto have been satisfied at the time the Primary Obligation was incurred or (ii) the Province, in its sole discretion, designates in writing that it is an Approved Obligation.

4.02 Adherence Conditions

(a) The following shall be the Adherence Conditions applicable in relation to each Certified Primary Obligation:

i. the Certified Primary Obligation when incurred is an Obligation Secured under the Trust Indenture; and

ii. OPG, as FSM, delivers an Adherence Compliance Certificate in the form attached hereto as Exhibit B signed by the Chief Financial Officer and the Treasurer of OPG, or any two Executive Officers of OPG (for clarity, such certificate is to be provided by such officers in their capacity as officers of OPG acting in its capacity as FSM) and addressed to the Indenture Trustee, on or before the incurrence of the Certified Primary Obligation (provided that delivery may not be more than 5 Business Days before the incurrence of the Certified Primary Obligation); and

iii. the Province has not provided a Suspension Notice to the Indenture Trustee, OPG and the Financing Entity.

(b) Without limiting any obligations of OPG to the Province arising other than pursuant to this Agreement, satisfaction of the Adherence Conditions for a Certified Primary Obligation shall be deemed satisfaction of the Adherence Conditions in respect of all principal, interest and other amounts owing under the Certified Primary Obligation, as such Certified Primary Obligation may be amended, restated, supplemented or modified from time to time.

(c) For greater certainty, there shall be no Adherence Conditions applicable in relation to a Primary Obligation that is not a Certified Primary Obligation.

4.03 Evidence of Satisfaction

An Adherence Compliance Certificate delivered in accordance with clause 4.02(a)ii shall be determinative as to whether the applicable Adherence Condition with respect thereto has been satisfied, notwithstanding that such certificate may include inaccuracies, be incomplete or otherwise be defective or deficient, and such closing certificate may be relied upon by any addressee as conclusive evidence of same. An Adherence Compliance Certificate that purports on its face to be signed by officers specified in clause 4.02(a)ii may be relied upon by any addressee without further enquiry or evidence as to the incumbency or signatures of such officers. If an Adherence Compliance Certificate is not delivered in accordance with the timing requirements of clause 4.02(a)ii such certificate may be delivered at a later date, and be effective as if it had been delivered in accordance with the timing requirement of clause 4.02(a)ii if at the time such certificate was otherwise required to be delivered OPG had delivered to the Province all certifications required by the Province in connection with the adherence of the Limited Guarantee to the Certified Primary Obligation.

ARTICLE V
PROVINCE MATTERS

5.01 Assignment and Subrogation

(a) Upon paying an amount in respect of an Approved Obligation to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee, the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation to the extent of such payment, and shall be entitled to (i) the right and entitlement to be paid and receive the related Subrogation Amounts, (ii) the benefits of the related Collateral and (iii) all proceeds therefrom. The Province shall have and be entitled to enforce all rights and interests (including as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)), under and in respect of such Approved Obligation to the extent of the payment by the Province in respect of the Approved Obligation as an absolute assignee of the applicable Beneficiary, with effect from and after the time of such payment, without any

further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing by the Beneficiary to the Financing Entity and unaffected by any other rights or equities that arise thereafter as between the Beneficiary and the Financing Entity. The Indenture Trustee shall recognize the Province as being entitled to all of the rights, interests and entitlements of the Beneficiary (including as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)) in respect and to the extent of the Approved Obligation so paid, determined as of the time of payment, for all purposes under the Trust Indenture, and the Province shall be treated as a Specified Creditor in respect thereof for all purposes under the Trust Indenture and any other agreement under which the Approved Obligation arises.

(b) The Province (i) acknowledges and agrees in favour of the Indenture Trustee that, upon being subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation in accordance with Section 5.01(a), the Province, in its capacity as a Specified Creditor, will be subject to the provisions applicable to Specified Creditors under the Trust Indenture, including Sections **[7.04]** through **[7.11]** and **[8.13]** (Payment Priorities), Section **[7.12]** (Payments Held in Trust), Section **[8.11]** (Control by Controlling Class Creditors), Section **[8.12]** (Limitation on Suits), Section **[8.14]** (Limited Recourse), Article IX (The Indenture Trustee), including all limitations of liability thereunder, Section **[9.14]** (Communications to Specified Creditors) and Section **[16.01]** (No Petition); (ii) consents, requests and authorizes the Issuer and the Indenture Trustee to (x) add the Province to the register of Specified Creditors described in subsection **[13.13(b)]** of the Trust Indenture and (y) disseminate the notice details of the Province to other Specified Creditors for the purposes set out in subsection **[9.14(b)]** of the Trust Indenture, and (iii) confirms that it will execute and deliver, or cause to be executed and delivered, all such further agreements, documents and instruments in connection with this Section 5.01 as the Indenture Trustee may request from time to time for the purpose of giving effect to the terms of this Section 5.01.

5.02 <u>Priorities</u>

For greater certainty, the rights, interests and entitlements of the Province as an assignee and subrogee of and with respect to an Approved Obligation and the Payable Approved Amounts thereunder shall rank equally with the rights, interests and entitlements of a Beneficiary to whom a Limited Guarantee payment is made in respect of, and to the extent of the payment made to satisfy, the Approved Obligation and the Province shall not be subject to postponement or subordination with respect thereto except to the extent of the priorities established in relation to the Approved Obligation under the Trust Indenture in the manner and to the extent contemplated in Section **[7.10]** of the Trust Indenture.

5.03 Intentionally Deleted

(a) the execution and delivery of, and the performance of its obligations under, this Agreement by the Province have been authorized by all necessary action on the part of the Province;

(b) the execution and delivery of, and the performance of its obligations under, this Agreement by the Province do not result in the violation of any applicable law; and

(c) this Agreement has been duly executed and delivered by the Province.

ARTICLE VI
INDENTURE TRUSTEE MATTERS

6.01 Limited Recourse

No recourse may be taken, directly or indirectly, with respect to the obligations of the Financing Entity under this Agreement, or any certificate or other writing delivered in connection herewith or therewith, against (a) the Financing Entity Trustee in its individual capacity, (b) any owner of a beneficial interest in the Financing Entity or (c) any partner, owner, beneficiary, agent, officer, director, employee or agent of the Financing Entity Trustee in its individual capacity, any holder of a beneficial interest in the Financing Entity or the Financing Entity Trustee or of any successor or assign of the Financing Entity Trustee in its individual capacity, except as any such Person may have expressly agreed (it being understood that the Financing Entity Trustee has no such obligations in its individual capacity).

6.02 Not Responsible for Recitals

The recitals contained herein will be taken as the statements of the Province, the Financing Entity and the FSM, and the Indenture Trustee assumes no responsibility for their correctness. The Indenture Trustee makes no representations as to the validity or sufficiency of this Agreement.

6.03 Representations and Covenants of the Indenture Trustee

The Indenture Trustee represents, warrants and covenants that:

(a) the Indenture Trustee is a trust company organized, existing and in good standing under the laws of Canada;

(b) the Indenture Trustee has full power and authority to execute, deliver and perform this Agreement and has taken all necessary action to authorize the execution, delivery and performance by it of this Agreement;

(c) this Agreement has been duly executed and delivered by the Indenture Trustee and constitutes its legal, valid and binding obligation in accordance with its terms; and

(d) the Indenture Trustee is authorized to carry on the business of a trust company in each of the provinces and territories of Canada. If, notwithstanding the provisions of this subsection 6.03(d), the Indenture Trustee ceases to be so authorized to carry on business, the validity and enforceability of this Agreement shall not be affected in any manner whatsoever by reason only of such event.

ARTICLE VII
SUSPENSION OF ADHERENCE FOR NEW PRIMARY OBLIGATIONS

7.01 Suspension Notice

Upon:

(a) a Program Breach;

(b) a default in the performance, or breach, of any covenants of OPG, as FSM, or OPG, in its corporate capacity, in each case to the Province in connection with its obligations to the Province pursuant to internal requirements and processes in connection with the provision or adherence of the Limited Guarantee to or in respect of any Certified Primary Obligation and the expiration of any applicable cure period;

(c) a representation or warranty made by OPG or a certification made by one or more officers of OPG, in each case whether as FSM or in its corporate capacity, to the Province in connection with its obligations to the Province and its internal requirements and processes in connection with the provision or adherence of the Limited Guarantee to or in respect of any Certified Primary Obligations, proves to be incorrect in any material respect on the date made and the expiration of any applicable cure period; or

(d) the FSM no longer being the Manager or actions having been taken by or on behalf of the Indenture Trustee to remove the FSM as the Manager;

the Province may deliver a written notice in the form of Exhibit C (a "**Suspension Notice**") to the Indenture Trustee, the FSM and the Financing Entity.

7.02 Suspension

If a Suspension Notice has been provided under Section 7.01 (the provision of such notice being a "**Suspension Event**"), the Limited Guarantee shall not apply in respect of: (i) any Primary Obligation incurred, excluding Post-Suspension Refinancings, or (ii) any amendment of any Primary Obligation that has a Material Effect, unless otherwise agreed to by the Province, in each case, on or after the time such Suspension Notice is delivered.

7.03 Additional Right of the Province Regarding Post-Suspension Refinancings

Following the occurrence of a Suspension Event, the Limited Guarantee shall continue to apply in respect of any Post-Suspension Refinancing (for greater certainty, without regard to the satisfaction of any Adherence Conditions); provided that prior to the Financing Entity incurring any Primary Obligation constituting a Post-Suspension Refinancing, the Manager shall provide the Province with at least 30 days' notice of its intention to seek a Post-Suspension Refinancing and prior to incurrence, which notice shall describe the material covenants, events of default, representations and warranties and indemnities of the Financing Entity and other material terms, excluding financial terms, rates and levels, and that shall be in respect of the full amount of the amount becoming due and payable in respect of the applicable Primary Obligation less amounts otherwise available to the Financing Entity from other available or committed sources (the "**Proposal**"), and during such 30 day period the Province may, but is not obligated to, offer to fund such Post-Suspension Refinancing or arrange for another Person to fund such Post-Suspension Refinancing on the same terms as set out in the Proposal or on such other terms as may be considered by the Province to be not more onerous on the Financing Entity and that are acceptable on that basis to the Financing Entity, acting reasonably. If, within such 30-day period, the Province elects to offer to fund such Post-Suspension Refinancing as provided in the preceding sentence, the Manager shall accept such offer; however, if the Province does not elect to offer to fund such Post-Suspension Refinancing, the Manager shall cause the Financing Entity to incur Primary Obligations constituting such a Post-Suspension Refinancing on substantially the same terms (excluding, for greater certainty, any financial terms, rates or levels) as those set out in the Proposal if the Post-Suspension Refinancing can be completed by the Financing Entity in compliance with the Act, or on such other terms as would not have a Material Effect, without taking into account any financial terms, rates or levels.

7.04 No Impact on Adherence

For greater certainty, the occurrence of a Suspension Event or a failure by the FSM or the Financing Entity to perform its covenants under this Agreement will not invalidate or extinguish the obligations of the Province under the Limited Guarantee in respect of Approved Obligations in existence prior to the occurrence of the Suspension Event or in respect of any Post-Suspension Refinancing.

In conversation with OPG, KPMG and E&Y, it seems that the regulatory option to financing costs during the moratorium period is a good approach to pursue. Attached is the material Michael previously sent. Can we touch on next steps, if not tomorrow early next week? thanks

Hi Carolyn,

Attached for discussion is an outline of a potential regulatory option that may enable the financing entity's cost recovery from the market. This has not been socialized outside the IESO and its advisors. We wanted to send it to you so you could assess whether it seemed viable, including from a regulation making authority perspective.

Please let me know if you would like to discuss.

Regards,

Michael

Privileged & Confidential Draft

Regulatory Option for Temporary Funding of Financing Entity's Cost/Interests

For discussion purposes, the following is a potential regulatory mechanism whereby IESO market settlement mechanisms might be used to fund the financing entity's costs until the clean energy adjustment may be charged to specified consumers. This is subject to the there being sufficient regulation making authority to enact the regulations contemplated below.

1. A regulation could be passed (possibly pursuant to section 26(1) of FHA) requiring IESO, as part of the regulatory asset transfer, to fund financing entity's costs/interest in relation to such transferred regulatory asset for the period during which the clean energy adjustment may not be recovered from specified consumers. The regulation may indicate these funding amounts will be added to the global adjustment (GA) but only allocated to specified consumers (i.e. not form part of GA payable by Class A or Class B consumers who are not also specified consumers under Fair Hydro).
    a. This regulatory funding mechanism would be similar to other existing mechanisms whereby a third party's costs are funded from the GA via IESO settlement processes. For example, section 26.1 of the Ontario Energy Board Act creates a mechanism for IESO to collect costs incurred by the Ministry from consumers. Likewise, section 78.5 of the Ontario Energy Board Act requires the IESO to make payments to distributors with respect to amounts approved by the OEB for CDM programs and to recover such payment amounts from prescribed consumers as part of the GA.

2. A regulation could be passed (or amend O. Reg for 430/04 and/or O. Reg 429/04) pursuant to section 25.33(1)(c) and 25.33(2)(c) of the Electricity Act:

    - prescribing funding amounts incurred/paid for by the IESO pursuant to paragraph 1 above

    - prescribing specified consumers (as defined in Fair Hydro Act) as class of market participants and class of consumers for which adjustments will be made relating to funding amounts

    - prescribing, as necessary, payment adjustments and variance account treatment

3. If the above regulations were passed, amounts the IESO invoices electricity vendors monthly would include each electricity vendor's proportionate share of the funding amount. Proportionate share would likely be determined based on volume of electricity withdrawn by the electricity vendor's specified consumers during that month compared to total electricity withdrawn by all specified consumers in province for that month.

4. Difference between gross amounts billed by IESO to electricity vendors (which include funding amounts referred to above) and net amounts received by IESO from electricity vendors taking into account fair hydro adjustment constitutes IESO deferral (s. 23, FHA and s. 15, O. Reg 206/17).

5. IESO deferral is included in a variance account (s. 24(1), FHA)

6. All amounts in variance account constitute a regulatory asset (s. 25, FHA), which the IESO:

    - may transfer to the financing entity (s. 26(1), FHA)

    - or, if any balance remains in the variance account, recover through OEB-approved rates from specified consumers on or after May 1, 2021 (s. 25, FHA)

1.02 Compliance Certificates and Opinions

Upon any application or request by the Issuer to the Indenture Trustee to take any action under any provision of this Indenture, the Issuer will furnish to the Indenture Trustee (i) an Issuer's Certificate stating that all conditions precedent, if any, provided for in this Indenture relating to the proposed action have been complied with, and (ii) an Opinion of Counsel stating that, in the opinion of such counsel, all such conditions precedent, if any, have been complied with, except that in the case of any such application or request as to which the furnishing of such documents are specifically required by any provision of this Indenture relating to such particular application or request, no additional certificate or opinion need be furnished.

Any certificate or opinion of the Issuer may be based, insofar as it relates to legal matters, upon a certificate or opinion of, or representations by, counsel, unless the Issuer knows, or in the exercise of reasonable care should know, that the certificate or opinion or representations are erroneous. Any such certificate or opinion of, or representation by, counsel may be based, insofar as it relates to factual matters, upon a certificate or opinion of, or representations by, the Issuer stating that the information with respect to such factual matters is in the possession of the Issuer, unless such counsel knows, or in the exercise of reasonable care should know, that the certificate or opinion or representations are erroneous.

1.04 Actions by Noteholders

(a) Any request, demand, authorization, direction, notice, consent, resolution, waiver or other action (collectively, an "**Action**") provided by this Indenture to be given or taken by Noteholders of any Class, Series or Tranche may be embodied in and evidenced by one or more instruments of substantially similar tenor signed by such Noteholders in person or by an agent duly appointed in writing. In addition, any Action provided by this Indenture to be given or taken by such Noteholders may, alternatively, be embodied in and evidenced by the record of such Noteholders voting in favor thereof, either in person or by proxies duly appointed in writing, at any meeting of Noteholders duly called and held in accordance with the provisions

of Article X or a combination of such instruments and any such record. Except as herein otherwise expressly provided, such Action will become effective when such instrument or instruments or record are delivered to the Indenture Trustee, and, where it is hereby expressly required, to the Issuer. Proof of execution of any such instrument or of a writing appointing any such agent, or the holding by any Person of a Note, will be sufficient for any purpose of this Indenture and (subject to Section 9.01) conclusive in favor of the Indenture Trustee and the Issuer, if made in the manner provided in this Section 1.04. The record of any meeting of Noteholders shall be proved in the manner provided in Article X.

(b) The fact and date of the execution of any such instrument or writing, or the authority of the person executing the same, may be proved in any manner which the Indenture Trustee deems sufficient.

(c) (i) The ownership of Registered Notes will be proved by the Note Register.

(ii) The ownership of Bearer Notes or coupons will be proved by the production of such Bearer Notes or coupons or by a certificate, satisfactory to the Issuer and the Indenture Trustee, executed, as depositary, by any bank, trust company, recognized securities dealer, as depositary, wherever situated, satisfactory to the Issuer. Each such certificate will be dated and will state that on the date thereof a Bearer Note or coupon bearing a specified serial number was deposited with or exhibited to such bank, trust company or recognized securities dealer by the Person named in such certificate. Any such certificate may be issued in respect of one or more Bearer Notes or coupons specified therein. The holding by the Person named in any such certificate of any Bearer Note specified therein will be presumed to continue for a period of one year from the date of such certificate unless at the time of any determination of such holding (A) another certificate bearing a later date is issued in respect of the same Bearer Note or coupon produced, (B) the Bearer Note or coupon specified in such certificate is produced by some other Person or (C) the Bearer Note or coupon specified in such certificate has ceased to be Outstanding.

(d) The fact and date of execution of any such instrument or writing, the authority of the Person executing the same and the principal amount and serial numbers of Bearer Notes held by the Person so executing such instrument or writing and the date of holding the same may also be proved in any other manner which the Indenture Trustee deems sufficient; and the Indenture Trustee may in any instance require further proof with respect to any of the matters referred to in this Section 1.04.

(e) If the Issuer will solicit from the Noteholders any Action, the Issuer may, at its option, by an Issuer Certificate, fix in advance a record date for the determination of Noteholders entitled to give such Action, but the Issuer will have no obligation to do so. If the Issuer does not so fix a record date, such record date will be the later of 30 days before the first solicitation of such Action or the date of the most recent

list of Noteholders furnished to the Indenture Trustee pursuant to Section 13.13 before such solicitation. Such Action may be given before or after the record date, but only the Noteholders of record at the close of business on the record date will be deemed to be Noteholders for the purposes of determining whether Noteholders of the requisite proportion of Outstanding Notes have authorized or agreed or consented to such Action, and for that purpose the Outstanding Notes will be computed as of the record date; provided that no such authorization, agreement or consent by the Noteholders on the record date will be deemed effective unless it will become effective pursuant to the provisions of this Indenture not later than 6 months after the record date.

(f) Any Action by a Noteholder will bind the holder of every Note issued upon the transfer thereof or in exchange therefor or in lieu thereof, in respect of anything done or suffered to be done by the Indenture Trustee or the Issuer in reliance thereon whether or not notation of such Action is made upon such Note.

(g) Without limiting the foregoing, a Noteholder entitled hereunder to take any Action hereunder with regard to any particular Note may do so with regard to all or any part of the principal amount of such Note or by one or more duly appointed agents each of which may do so pursuant to such appointment with regard to all or any part of such principal amount. Any notice given or Action taken by a Noteholder or its agents with regard to different parts of such principal amount pursuant to this paragraph shall have the same effect as if given or taken by separate Noteholders of each such different part.

(h) Without limiting the generality of the foregoing, unless otherwise specified pursuant to one or more Supplemental Indentures, a Noteholder, including a Depository that is the holder of a Global Note, may make, give or take, by a proxy or proxies duly appointed in writing, any Action provided in this Indenture to be made, given or taken by Noteholders, and a Depository that is the holder of a Global Note may provide its proxy or proxies to the beneficial owners of interests in or security entitlements to any such Global Note through such Depository's standing instructions and customary practices.

(i) The Issuer may fix a record date for the purpose of determining the Persons who are beneficial owners of interests in or security entitlements to any Global Note held by a Depository entitled under the procedures of such Depository to make, give or take, by a proxy or proxies duly appointed in writing, any Action provided in this Indenture to be made, given or taken by Noteholders. If such a record date is fixed, the Noteholders on such record date or their duly appointed proxy or proxies, and only such Persons, shall be entitled to make, give or take such Action, whether or not such Noteholders remain Noteholders after such record date. No such Action shall be valid or effective if made, given or taken more than six months days after such record date.

1.05 Actions of Other Specified Creditors

Any Action provided by this Indenture to be given or taken by any Specified Creditor (other than Noteholders) may be embodied in and evidenced by one or more instruments of substantially similar tenor signed by such Specified Creditor in person or an agent duly appointed in writing. Proof of execution of any such instrument or of a writing appointing any such agent will be sufficient for any purpose of this Indenture and (subject to Section 9.01) conclusive in favour of the Indenture Trustee and the Issuer, if made in the manner provided in Section 1.04(b).

1.06 Effect of Headings and Table of Contents

The Article and Section headings herein and the Table of Contents are for convenience only and will not affect the construction hereof.

1.07 Successors and Assigns

All covenants and agreements in this Indenture by the Issuer will bind its successors and assigns, whether so expressed or not. All covenants and agreements of the Indenture Trustee in this Indenture shall bind its successors, co-trustees and agents of the Indenture Trustee.

1.08 Severability

In case any provision in this Indenture or in the Notes will be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions will not in any way be affected or impaired thereby.

1.09 Governing Law

EACH PARTY SUBMITS TO THE EXCLUSIVE JURISDICTION OF ANY ONTARIO COURTS SITTING IN TORONTO IN ANY ACTION, APPLICATION, REFERENCE OR OTHER PROCEEDING ARISING OUT OF OR RELATED TO THIS INDENTURE. 1.13 Interest Act

For the purpose of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest to which any rate of interest payable under this Indenture that is calculated on any basis other than a full calendar year is equivalent may be determined by multiplying such rate by a fraction, the numerator of which is the actual number of days in the calendar year in which such yearly rate of interest is to be ascertained and the denominator of which is the number of days comprising such other basis. The parties further agree that for the purposes of the *Interest Act* (Canada), (i) the principle of deemed reinvestment of interest shall not apply to any interest calculation under this Indenture or the Notes, and (ii) the rates of interest stipulated in this Indenture or the Notes are intended to be nominal rates and not effective rates or yields.

The obligation of the Issuer in respect of any Original Currency due from it to the Indenture Trustee under this Indenture shall, notwithstanding any judgment or payment in such other currency, be discharged only to the extent that, on the Business Day following receipt of any sum so paid or adjudged to be due under this Indenture in the Second Currency, the Indenture Trustee may, in accordance with normal banking procedures, purchase in the New York foreign exchange market the Original Currency with the amount of the Second Currency so paid or so adjudged to be due; and if the amount of the Original Currency so purchased is less than the amount originally due in the Original Currency, the Issuer shall indemnify the Indenture Trustee against such loss.

(d) The Issuer will from time to time promptly pay and discharge all PPSA recording and filing fees, charges and Taxes relating to this Indenture, any amendments hereto and any other instruments of further assurance.

(e) Without limiting the generality of subsection 2.02(c) or (d):

(i) The Issuer will cause this Indenture, all amendments and supplements hereto and all financing statements and all amendments to such financing statements and any other necessary documents covering the Indenture Trustee's right, title and interest in and to the Collateral to be promptly recorded, registered and filed, and at all times to be kept recorded, registered and filed, all in such manner and in such places as may be required by applicable law fully to preserve and protect the right, title and interest of the Indenture Trustee in and to all property comprising the Collateral. Subject to the express terms of this Indenture, until the Issuer Funding Obligations have become due and payable pursuant to Section 8.02, the Issuer will be permitted to possess and use the Collateral in connection with the activities of the Issuer, including, without limitation, the right to (a) exercise all of its rights and perform all of its obligations under each Program Agreement without consultation with or the consent of the Indenture Trustee, and (b) use the funds in any Issuer Account for any purpose not in violation of this Indenture or the Program Agreements.

2.04 Suits To Protect the Collateral

Subject to the provisions of this Indenture, the Indenture Trustee will have the power to institute and to maintain such suits and proceedings as it may deem expedient to prevent any impairment of the Collateral by any acts which may be unlawful or in violation of this Indenture, and such suits and proceedings as the Indenture Trustee may deem expedient to preserve or protect the interests of the Specified Creditors and the interests of the Indenture Trustee in the Collateral

(including the power to institute and maintain suits or proceedings to restrain the enforcement of, or compliance with, any legislative or other governmental enactment, rule or order that may be unconstitutional or otherwise invalid if the enforcement of, or compliance with, such enactment, rule or order would impair the Security Interest or be prejudicial to the interests of the Specified Creditors or the Indenture Trustee).

2.05 Purchaser Protected

In no event will any purchaser in good faith of any property purported to be released hereunder be bound to ascertain the authority of the Indenture Trustee to execute the release or to inquire as to the satisfaction of any conditions required by the provisions hereof for the exercise of such authority or to see to the application of any consideration given by such purchaser or other transferee; nor will any purchaser or other transferee of any property or rights permitted by this Article II to be sold be under any obligation to ascertain or inquire into the authority of the Issuer to make any such sale or other transfer.

2.06 Powers Exercisable by Receiver or Indenture Trustee

In case the Collateral shall be in the possession of a receiver or trustee lawfully appointed, the powers conferred in this Article II upon the Issuer with respect to the release, sale or other disposition of such property may be exercised by such receiver or trustee, and an instrument signed by such receiver or trustee shall be deemed the equivalent of any similar instrument of the Issuer or of any officer or officers thereof required by the provisions of this Article II.

2.07 Determinations Relating to Collateral

In the event (i) the Indenture Trustee shall receive any written request from the Issuer for consent or approval with respect to any matter or thing relating to any Collateral or the Issuer's obligations with respect thereto, (ii) there shall be due to or from the Indenture Trustee under the provisions hereof any performance or the delivery of any instrument, or (iii) the Indenture Trustee shall become aware of any nonperformance by the Issuer of any covenant or any breach of any representation or warranty of the Issuer set forth in this Indenture, then, in each such event, the Indenture Trustee shall be entitled to hire experts, consultants, agents and attorneys to advise the Indenture Trustee on the manner in which the Indenture Trustee should respond to such request or render any requested performance or response to such nonperformance or breach (the expenses of which will be reimbursed to the Indenture Trustee pursuant to Section 9.05). The Indenture Trustee will be fully protected in the taking of any action recommended or approved by any such expert, consultant, agent or attorney, or agreed to by Extraordinary Resolution of Debtholders of Controlling Class Obligations.

2.08 Satisfaction and Discharge of Indenture

(a) The Issuer may at any time, for the purpose of obtaining the satisfaction and discharge of this Indenture with respect to any Class, Series or Tranche of Notes or for any other purpose, pay, or by an Issuer Certificate direct any Paying Agent to pay, to the Indenture Trustee all sums held in trust by the Issuer or such Paying Agent in respect of each and every Class, Series or Tranche of Funding Obligations as to which it seeks to discharge this Indenture or, if for any other purpose, all sums

so held in trust by the Issuer in respect of all Notes, such sums to be held by the Indenture Trustee upon the same trusts as those upon which such sums were held by the Issuer or such Paying Agent; and, upon such payment by any Paying Agent to the Indenture Trustee, such Paying Agent will be released from all further liability with respect to such money.

(b) This Indenture will cease to be of further effect with respect to any Class, Series or Tranche of Funding Obligations (except as to any surviving rights of transfer or exchange of Notes of that Class, Series or Tranche expressly provided for herein or in any form of Note for that Class, Series or Tranche), and the Indenture Trustee, on demand of and at the expense of the Issuer, will execute proper instruments acknowledging satisfaction and discharge of this Indenture as to that Class, Series or Tranche, when:

(i) all Notes of that Class, Series or Tranche theretofore outstanding (other than (A) Notes of that Class, Series or Tranche which have been destroyed, lost or stolen and which have been replaced or paid as provided in Section 16.05(b), and (B) Funding Obligations of that Class, Series or Tranche for whose payment money has theretofore been deposited in trust or segregated and held in trust by the Issuer and thereafter repaid to the Issuer or discharged from that trust, as provided in Section 16.05(b)) have been delivered to the Indenture Trustee for cancellation or been cancelled;

(ii) the Issuer has paid or caused to be paid all other sums payable under the Indenture (including payments to the Indenture Trustee pursuant to Section 9.05) by the Issuer with respect to the Funding Obligations of that Class, Series or Tranche; and

(iii) the Issuer has delivered to the Indenture Trustee an Issuer Certificate and an Opinion of Counsel each stating that all conditions precedent herein provided for relating to the satisfaction and discharge of this Indenture with respect to the Notes of that Class, Series or Tranche have been complied with.

Notwithstanding the satisfaction and discharge of this Indenture with respect to any Class, Series or Tranche of Notes, the obligations of the Issuer to the Indenture Trustee with respect to that Class, Series or Tranche of Notes under Section 9.05 and the obligations of the Indenture Trustee under Sections 7.12 and 16.05(b) will survive such satisfaction and discharge.

2.09 Release of all Collateral

(a) Subject to the payment of its fees and expenses pursuant to Section 9.05, the Indenture Trustee shall, at the request of the Issuer or when otherwise required by the provisions of this Indenture, execute instruments to release Collateral from the Security Interest of this Indenture, or convey the Indenture Trustee's interest (which is held by the Indenture Trustee for the benefit of the Specified Creditors) in the same, in a manner and under circumstances which are not inconsistent with the

provisions of this Indenture. No party relying upon an instrument executed by the Indenture Trustee as provided in this Article II will be bound to ascertain the Indenture Trustee's authority, inquire into the satisfaction of any conditions precedent or see to the application of any funds.

(b) Upon delivery of an Officer's Certificate of the Issuer certifying that all Issuer Funding Obligations and all other Obligations Secured have been satisfied and discharged by complying with the provisions of this Article II and all applicable Program Agreements, the Indenture Trustee shall execute and deliver such releases, termination statements and other instruments (in recordable form, where appropriate) as the Issuer may reasonably request evidencing the termination of the Security Interest created by this Indenture.

(c) The Issuer and the Specified Creditors shall be entitled to receive at least 10 days' written notice when the Indenture Trustee proposes to take any action pursuant to clause (a), accompanied by copies of any instruments involved, and the Indenture Trustee shall also be entitled to require, as a condition to such action, an Opinion of Counsel, stating the legal effect of any such action, outlining the steps required to complete the same, and concluding that all conditions precedent to the taking of such action have been complied with. Counsel rendering any such opinion may rely, without independent investigation, on the accuracy and validity of any certificate or other instrument delivered to the Indenture Trustee in connection with any such action.

2.10 Certain Commercial Law Representations and Warranties

The Issuer hereby makes the following representations and warranties. Such representations and warranties shall survive until the termination of this Indenture. Such representations and warranties speak of the date that a Lien in the Collateral is granted to the Indenture Trustee and shall not be waived by any of the parties to this Indenture unless the Rating Agency Condition is satisfied.

(a) This Indenture constitutes the grant of a first priority perfected Lien by the Issuer to the Indenture Trustee in the Collateral which, in the case of the existing Collateral and the proceeds thereof, is enforceable upon execution and delivery of this Indenture or, with respect to after-acquired property, as of the date such property is acquired, and which will be enforceable with respect to the Collateral hereafter and thereafter created and the proceeds thereof upon such creation. Upon the filing of the assignments, financing statements and continuation statements (and other documents where applicable) and, in the case of after-acquired Collateral and the proceeds thereof, upon its creation, the Indenture Trustee shall have a first priority perfected Lien in such property and proceeds.

(b) At the time of its grant of any Lien in the Collateral pursuant to this Indenture, the Issuer owned and had good and marketable title to such Collateral free and clear of any Lien of any other Person (other than Permitted Liens).

(c) The Issuer has caused the filing of all appropriate financing statements in the proper filing office in the Province of Ontario under applicable law in order to perfect the Security Interest.

(d) Other than the Security Interest, the Issuer has not pledged, assigned, sold, granted a Lien in, or otherwise conveyed, the Collateral. The Issuer has not authorized the filing of and is not aware of any financing statements against the Issuer that include a description of the Collateral other than any financing statement relating to the Security Interest or that has been terminated. The Issuer is not aware of any judgment or Tax lien filings against the Issuer.

3.04 Notes Issuable in the Form of a Global Note

(a) If the Issuer establishes that the Notes of a particular Class, Series or Tranche are to be issued in whole or in part in the form of one or more Global Notes, then the Issuer will execute and the Indenture Trustee or its agent will, in accordance with Section 4.03 and the Issuer Certificate delivered to the Indenture Trustee or its agent thereunder, authenticate and deliver, such Global Note or Notes, which, unless otherwise provided in the Related Supplemental Indenture (i) will represent, and will be denominated in an amount equal to the aggregate Stated Principal Amount (or in the case of Discount Notes, the aggregate Stated Principal Amount at the Principal Payment Due Date of such Notes) of the Outstanding Notes of such Class, Series or Tranche to be represented by such Global Note or Notes, or such portion thereof as the Issuer will specify in an Issuer Certificate, (ii) in the case of Registered Notes, will be registered in the name of the Depository for such Global Note or Notes or its nominee, (iii) will be delivered by the Indenture Trustee or its agent to the Depository or pursuant to the Depository's instruction, (iv) if applicable, will bear a legend substantially to the following effect: (A) "Unless this Note is presented by an authorized representative of The Depository Trust Company ("**DTC**"), to Fair Hydro Trust (the "**Issuer**") or its agent for registration of transfer, exchange or payment, and any Note issued is registered in the name of Cede & Co. or in such other name as is requested by an authorized representative of DTC (and any payment is made to Cede & Co. or to such other entity as is requested by an authorized representative of DTC), any transfer, pledge or other use hereof for value or otherwise by or to any Person is wrongful inasmuch as the registered owner hereof, Cede & Co., has an interest herein", or (B) "Unless this Note is presented by an authorized representative of CDS Clearing and Depository Services Inc. ("**CDS**"), to Fair Hydro Trust (the "**Issuer**") or its agent for registration of transfer, exchange or payment, and any Note issued is registered in the name of CDS & Co. or in such other name as is requested by an authorized representative of CDS (and any payment is made to CDS & Co. or to such other entity as is requested by an authorized representative of CDS), any transfer, pledge or other use hereof for value or otherwise by or to any Person is wrongful since the

registered owner hereof, CDS & Co., has a property interest in the securities represented by this Note and it is a violation of its rights for another Person to hold, transfer or deal with this Note", and (v) may bear such other legend as the Issuer, upon advice of counsel, deems to be applicable. **[NTD: Indenture Trustee to review forms of legends.]**

(b) Notwithstanding any other provisions of this Section 3.04 or of Section 4.05, and subject to the provisions of paragraph (c) below, unless the terms of a Global Note or the Related Supplemental Indenture expressly permit such Global Note to be exchanged in whole or in part for individual Notes, a Global Note may be transferred, in whole but not in part and in the manner provided in Section 4.05, only to a nominee of the Depository for such Global Note, or to the Depository, or a successor Depository for such Global Note selected or approved by the Issuer, or to a nominee of such successor Depository.

(c) With respect to Notes issued within the United States or Canada, unless otherwise specified in the Related Supplemental Indenture, or with respect to Notes issued outside the United States and Canada, if specified in the Related Supplemental Indenture:

(i) If at any time the Depository for a Global Note notifies the Issuer that it is unwilling or unable to continue as Depository for such Global Note or if at any time the Depository for the Notes for such Class, Series or Tranche ceases to be a clearing agency registered under the Securities Exchange Act, or other applicable statute or regulation, in the case of Notes issued within the United States, or ceases to be a clearing agency registered under the *Securities Act* (Ontario), or other applicable statute or regulation, in the case of Notes issued within Canada, the Issuer will appoint a successor Depository with respect to such Global Note. If a successor Depository for such Global Note is not appointed by the Issuer within 90 days after the Issuer receives such notice or becomes aware of such ineligibility, the Issuer will execute, and the Indenture Trustee or its agent, upon receipt of an Issuer Certificate requesting the authentication and delivery of individual Notes of such Class, Series or Tranche in exchange for such Global Note, will authenticate and deliver, individual Notes of such Class, Series or Tranche of like tenor and terms in definitive form in an aggregate Stated Principal Amount equal to the Stated Principal Amount of the Global Note in exchange for such Global Note.

(ii) The Issuer may at any time and in its sole discretion determine that the Notes of any Class, Series or Tranche or portion thereof issued or issuable in the form of one or more Global Notes will no longer be represented by such Global Note or Notes. In such event the Issuer will execute, and the Indenture Trustee, upon receipt of a written request by the Issuer for the authentication and delivery of individual Notes of such Class, Series or Tranche in exchange in whole or in part for such Global Note, will authenticate and deliver individual Notes of such Class, Series or Tranche

of like tenor and terms in definitive form in an aggregate Stated Principal Amount equal to the Stated Principal Amount of such Global Note or Notes representing such Class, Series or Tranche or portion thereof in exchange for such Global Note or Notes.

(iii) If any Event of Default has occurred and is continuing and Noteholders holding more than 50% of the unpaid Outstanding Dollar Principal Amount of the Global Notes of all Series advise the Indenture Trustee and the Depository that Global Notes are no longer in the best interest of the Noteholders, the holders of Global Notes may exchange such Notes for individual Notes.

(iv) In any exchange provided for in any of the preceding three paragraphs, the Issuer will execute and the Indenture Trustee or its agent will authenticate and deliver individual Notes in definitive registered form in authorized denominations. Upon the exchange of the entire Stated Principal Amount of a Global Note for individual Notes, such Global Note will be canceled by the Indenture Trustee or its agent. Except as provided in the preceding paragraphs, Notes issued in exchange for a Global Note pursuant to this Section 3.04 will be registered in such names and in such authorized denominations as the Depository for such Global Note, pursuant to instructions from its direct or indirect participants or otherwise, will instruct the Indenture Trustee or the Note Registrar. The Indenture Trustee or the Note Registrar will deliver such Notes to the Persons in whose names such Notes are so registered.

3.05 Temporary Global Notes and Permanent Global Notes

(a) If specified in the Related Supplemental Indenture for any Series, all or any portion of a Global Note may initially be issued in the form of a single temporary global Bearer Note or Registered Note (the "**Temporary Global Note**"), without interest coupons, in the denomination of the entire aggregate principal amount of such Series and substantially in the form set forth in the exhibit with respect thereto attached to the Related Supplemental Indenture. The Temporary Global Note will be authenticated by the Indenture Trustee upon the same conditions, in substantially the same manner and with the same effect as the Notes in definitive form. The Temporary Global Note may be exchanged as described below or in the Related Supplemental Indenture for permanent global Bearer Notes or Registered Notes (the "**Permanent Global Notes**").

(b) Unless otherwise provided in the Related Supplemental Indenture, exchanges of beneficial interests in or security entitlements to Temporary Global Notes for beneficial interests in or security entitlements to Permanent Global Notes will be made as provided in this subsection 3.05(b). The Manager will, upon its determination of the date of completion of the distribution of the Notes of such Series, so advise the Indenture Trustee, the Issuer, the Foreign Depository, and each foreign clearing agency forthwith. Without unnecessary delay, but in any event not

prior to the Exchange Date, the Issuer will execute and deliver to the Indenture Trustee at the office of its designated agent outside Canada and the United States Permanent Global Notes in bearer or registered form (as specified in the Related Supplemental Indenture) in an aggregate principal amount equal to the Outstanding Currency Specific Dollar Principal Amount of such Series of Notes. Bearer Notes so issued and delivered may have coupons attached. The Temporary Global Note may be exchanged for an equal aggregate principal amount of Permanent Global Notes only on or after the Exchange Date. A United States Person may exchange its beneficial interest in or security entitlement to the Temporary Global Note only for an equal aggregate principal amount of Permanent Global Notes in registered form bearing the applicable legend set forth in the form of Registered Note attached to the Related Supplemental Indenture and having a minimum denomination of 500,000 units of the applicable currency, which may be in temporary form if the Issuer so elects. The Issuer may waive the 500,000 minimum denomination requirement if it so elects. Upon any demand for exchange for Permanent Global Notes in accordance with this subsection 3.05(b), the Issuer will cause the Indenture Trustee to authenticate and deliver the Permanent Global Notes to the Noteholder (x) outside Canada or the United States, in the case of Bearer Notes and (y) according to the instructions of the Noteholder, in the case of Registered Notes. Upon receipt of such certification, the Indenture Trustee will cause the Temporary Global Note to be endorsed in accordance with subsection 3.05(d). Any exchange as provided in this Section 3.05 will be made free of charge to the Noteholders and the beneficial owners of the Temporary Global Note and to the beneficial owners of the Permanent Global Note issued in exchange, except that a Person receiving the Permanent Global Note must bear the cost of insurance, postage, transportation and the like in the event that such Person does not receive such Permanent Global Note in person at the offices of a foreign clearing agency or Foreign Depository.

(c) The delivery to the Indenture Trustee by a foreign clearing agency or Foreign Depository of any written statement referred to above may be relied upon by the Issuer and the Indenture Trustee as conclusive evidence that a corresponding certification or certifications has or have been delivered to such foreign clearing agency or Foreign Depository pursuant to the terms of this Indenture.

(d) Upon any such exchange of all or a portion of the Temporary Global Note for a Permanent Global Note(s), such Temporary Global Note will be endorsed by or on behalf of the Indenture Trustee to reflect the reduction of its principal amount by an amount equal to the aggregate principal amount of such Permanent Global Note(s). Until so exchanged in full, such Temporary Global Note will in all respects be entitled to the same benefits under this Indenture as Permanent Global Notes authenticated and delivered hereunder except that the beneficial owners of such Temporary Global Note will not be entitled to receive payments of interest on the Notes until they have exchanged their beneficial interests in or security entitlements to such Temporary Global Note for Permanent Global Notes.

3.06 Beneficial Ownership of Global Notes

Until definitive Notes have been issued to the applicable Noteholders pursuant to Section 3.04 or as otherwise specified in any Related Supplemental Indenture:

(a) the Issuer and the Indenture Trustee may deal with the applicable Depository and the Depository's participants for all purposes (including the making of distributions) as the authorized representatives of the respective Note Owners; and

(b) the rights of the respective Note Owners will be exercised only through the Depository and the Depository's participants. Unless and until Notes in definitive form are issued pursuant to Section 3.04, the Depository will make book-entry transfers among the Depository's participants and receive and transmit distributions of principal and interest on the related Notes to such Depository's participants in accordance with the Depository's applicable procedures from time to time.

For purposes of any provision of this Indenture requiring or permitting Actions with the consent of, or at the direction of, Noteholders evidencing a specified percentage of the Outstanding Dollar Principal Amount of Outstanding Notes, such direction or consent may be given by Note Owners (acting through the Depository and the Depository's participants) owning interests in or security entitlements to Notes evidencing the requisite percentage of principal amount of Notes in accordance with the applicable procedures of the Depository.

3.07 Notices to Depository

Whenever any notice or other communication is required to be given to Noteholders with respect to which book-entry Notes have been issued, unless and until Notes in definitive form will have been issued to the related Note Owners, the Indenture Trustee will give all such notices and communications to the applicable clearing agency or Depository.

3.08 CUSIP Numbers

In issuing the Notes, the Issuer may use "CUSIP" numbers (if then generally in use), and, if so, the Indenture Trustee shall use such CUSIP numbers in notices of redemption as a convenience to Noteholders; provided that, subject to Section 9.01, any such notice may state that (a) no representation is made as to the correctness of such CUSIP numbers as printed on the related Notes or as contained in any notice of redemption, (b) reliance may be placed only on the other identification numbers, if any, printed on the Notes and (c) any such redemption shall not be affected by any defect in or omission of such CUSIP numbers. The Issuer will promptly provide the Indenture Trustee with written notice of any change in the CUSIP numbers for any Outstanding Note.

all upon such terms as may be determined in or pursuant to the Related Supplemental Indenture.

(g) The Notes of each Class, Series or Tranche will be distinguished from the Notes of each other Class, Series or Tranche in such manner, reasonably satisfactory to the Indenture Trustee, as the Issuer may determine.

(h) Any terms or provisions in respect of the Notes of any Class, Series or Tranche issued under this Indenture may be determined pursuant to this Section 4.01 by providing in the Related Supplemental Indenture for the method by which such terms or provisions will be determined.

4.02 Denominations

The Notes of each Series or Tranche will be issuable in such denominations and currency as will be provided in the provisions of this Indenture or in or pursuant to the Related Supplemental Indenture. (b) Notes bearing the manual, facsimile or other electronic signatures of individuals who were at any time a Responsible Officer of the Issuer will bind the Issuer, notwithstanding that such individuals or any of them have ceased to hold such offices before the authentication and delivery of such Notes or did not hold such offices at the date of issuance of such Notes.

(c) At any time and from time to time after the execution and delivery of this Indenture, the Issuer may deliver Notes executed by the Issuer to the Indenture Trustee for authentication; and the Indenture Trustee will, upon request by an Issuer Certificate, authenticate and deliver such Notes as provided in this Indenture and not otherwise.

(d) Before any such authentication and delivery, the Indenture Trustee will be entitled to receive, in addition to any Officer's Certificate and Opinion of Counsel required to be furnished to the Indenture Trustee pursuant to Section 1.02, the Issuer Certificate and any other opinion or certificate relating to the issuance of the Series or Tranche of Notes required to be furnished pursuant to Section 3.02 or Article V.

(e) The Indenture Trustee will not be required to authenticate such Notes if the issue thereof will adversely affect the Indenture Trustee's own rights, duties or immunities under the Notes and this Indenture.

(f) Unless otherwise provided in the form of Note for any Series or Tranche, all Notes will be dated the date of their authentication.

(g) No Note will be entitled to any benefit under this Indenture or be valid or obligatory for any purpose unless there appears on such Note a Certificate of Authentication executed by the Indenture Trustee by manual signature of an authorized signatory, and such certificate upon any Note will be conclusive evidence, and the only evidence, that such Note has been duly authenticated and delivered hereunder.

4.04 Temporary Notes

(a) Pending the preparation of definitive Notes of any Series or Tranche, the Issuer may execute, and, upon receipt of the documents required by Section 4.03, the Indenture Trustee will authenticate and deliver, temporary Notes which are printed, lithographed, typewritten, mimeographed or otherwise produced, in any authorized denomination, substantially of the tenor of the definitive Notes in lieu of which they are issued and with such appropriate insertions, omissions, substitutions and other variations as the Issuer may determine, as evidenced by the Issuer's execution of such Notes.

(b) If temporary Notes of any Series or Tranche are issued, the Issuer will cause definitive Notes of such Series or Tranche to be prepared without unreasonable delay. After the preparation of definitive Notes, the temporary Notes of such Series or Tranche will be exchangeable for definitive Notes of such Series or Tranche upon surrender of the temporary Notes of such Series or Tranche at the office or agency of the Issuer in a Place of Payment, without charge to the Noteholder; and upon surrender for cancellation of any one or more temporary Notes the Issuer will execute and the Indenture Trustee will authenticate and deliver in exchange therefor a like Stated Principal Amount of definitive Notes of such Series or Tranche of authorized denominations and of like tenor and terms. Until so exchanged the temporary Notes of such Series or Tranche will in all respects be entitled to the same benefits under this Indenture as definitive Notes of such Series or Tranche.

4.05 Registration, Transfer and Exchange

(a) The Issuer will keep or cause to be kept a register (herein sometimes referred to as the "**Note Register**") in which, subject to such reasonable regulations as it may prescribe, the Issuer will provide for the registration of Registered Notes, or of

Registered Notes of a particular Class, Series or Tranche, and for transfers of Registered Notes or of Registered Notes of such Class, Series or Tranche. Any such register will be in written form or in any other form capable of being converted into written form within a reasonable time. At all reasonable times, the information contained in such register or registers will be available for inspection by the Indenture Trustee at the office or agency to be maintained by the Issuer as provided in Section 13.03.

(b) Subject to Section 3.04, upon surrender for transfer of any Registered Note of any Class, Series or Tranche at the office or agency of the Issuer in a Place of Payment, the Issuer will execute, and, upon receipt of such surrendered Note, the Indenture Trustee will authenticate and deliver, in the name of the designated transferee or transferees, one or more new Registered Notes of such Class, Series or Tranche of any authorized denominations, of a like aggregate Stated Principal Amount, Principal Payment Due Date and Principal Payment Default Date and of like terms.

(c) Subject to Section 3.04, at the option of the Noteholder, Notes of any Class, Series or Tranche may be exchanged for other Notes of such Class, Series or Tranche of any authorized denominations, of a like aggregate Stated Principal Amount, Principal Payment Due Date and Principal Payment Default Date and of like terms, upon surrender of the Notes to be exchanged at the office or agency of the Issuer in a Place of Payment. Registered Notes, including Registered Notes received in exchange for Bearer Notes, may not be exchanged for Bearer Notes. At the option of the holder of a Bearer Note, subject to applicable laws and regulations, Bearer Notes may be exchanged for other Bearer Notes or Registered Notes (of the same Class, Series and Tranche of Notes) of authorized denominations of like aggregate fractional undivided interests in the Noteholders' interest, upon surrender of the Bearer Notes to be exchanged at an office or agency of the Note Registrar located outside Canada and the United States. Each Bearer Note surrendered pursuant to this Section 4.05 will have attached thereto all unmatured coupons; provided, however, that any Bearer Note, so surrendered after the close of business on the last day of the month preceding the relevant Payment Date need not have attached the coupon relating to such Payment Date. Whenever any Notes are so surrendered for exchange, the Issuer will execute, and the Indenture Trustee will authenticate and deliver (in the case of Bearer Notes, outside Canada and the United States), the Notes which the Noteholders making the exchange are entitled to receive.

(d) All Notes issued upon any transfer or exchange of Notes will be the valid and legally binding obligations of the Issuer, evidencing the same debt, and entitled to the same benefits under this Indenture, as the Notes surrendered upon such transfer or exchange.

(e) Every Note presented or surrendered for transfer or exchange will (if so required by the Issuer or the Indenture Trustee) be duly endorsed, or be accompanied by a written instrument of transfer in form satisfactory to the Issuer and the Note Registrar duly executed, by the Noteholder or his attorney duly authorized in writing.

(f) Unless otherwise provided in the Note to be transferred or exchanged, no service charge will be made on any Noteholder for any transfer or exchange of Notes, but the Issuer may (unless otherwise provided in such Note) require payment of a sum sufficient to cover any Tax or other governmental charge that may be imposed in connection with any transfer or exchange of Notes before the transfer or exchange will be complete, other than exchanges pursuant to Section 4.04 or Section 11.05 not involving any transfer.

(g) None of the Issuer, the Note Registrar or the Indenture Trustee shall be required (i) to issue, register the transfer of or exchange any Notes of any Class, Series or Tranche during a period beginning at the opening of business 15 days before the day of selection of Notes of such Class, Series or Tranche to be redeemed and ending at the close of business on (A) if Notes of such Class, Series or Tranche are issuable only as Registered Notes, the day of the mailing of the relevant notice of redemption of Registered Notes of such Class, Series or Tranche so selected for redemption or (B) if Notes of the Class, Series or Tranche are issuable as Bearer Notes, the day of the first publication of the relevant notice of redemption or, if Notes of the Class, Series or Tranche are also issuable as Registered Notes and there is no publication, the mailing of the relevant notice of redemption or (ii) to register the transfer or exchange of any Notes or portions thereof so selected for redemption.

(h) Notwithstanding anything herein to the contrary, the exchange of Bearer Notes into Registered Notes shall be subject to applicable laws and regulations in effect at the time of exchange; none of the Issuer, the Indenture Trustee or the Note Registrar shall exchange any Bearer Notes into Registered Notes if it has received an Opinion of Counsel that as a result of such exchanges the Issuer would suffer adverse consequences under the Canadian or United States federal income tax laws and regulations then in effect, or the income tax laws of the jurisdiction of the holder of the Bearer Note, and the Issuer has delivered to the Indenture Trustee an Issuer Certificate directing the Indenture Trustee not to make such exchanges unless and until the Indenture Trustee receives a subsequent Issuer Certificate to the contrary. The Issuer shall deliver copies of such Issuer Certificates to the Note Registrar.

(i) None of the Issuer, the Indenture Trustee, any agent of the Indenture Trustee, any Paying Agent or the Note Registrar will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership of a Global Note or for maintaining, supervising or reviewing any records relating to such beneficial ownership.

(j) The Issuer initially appoints the Indenture Trustee to act as Note Registrar for the Registered Notes on its behalf. The Issuer may at any time and from time to time authorize any Person to act as Note Registrar in place of the Indenture Trustee with respect to any Class, Series or Tranche of Notes issued under this Indenture.

(k) Registration of transfer of Notes containing the following legend or to which the following legend is applicable:

THIS NOTE HAS NOT BEEN AND WILL NOT BE REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE "**SECURITIES ACT**"), OR ANY OTHER APPLICABLE U.S. STATE SECURITIES LAWS AND, ACCORDINGLY, MAY NOT BE OFFERED OR SOLD WITHIN THE UNITED STATES OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, U.S. PERSONS EXCEPT IN ACCORDANCE WITH THE TRUST INDENTURE AND THE INDENTURE SUPPLEMENT AND PURSUANT TO AN EXEMPTION FROM REGISTRATION UNDER THE SECURITIES ACT OR PURSUANT TO AN EFFECTIVE REGISTRATION STATEMENT UNDER THE SECURITIES ACT.

will be effected only if such transfer is made pursuant to an effective registration statement under the U.S. Securities Act, or is exempt from the registration requirements under the U.S. Securities Act. In the event that registration of a transfer is to be made in reliance upon an exemption from the registration requirements under the U.S. Securities Act other than Rule 144A under the U.S. Securities Act or Rule 903 or Rule 904 of Regulation S under the U.S. Securities Act, the transferor or the transferee will deliver, at its expense, to the Issuer and the Indenture Trustee, an investment letter from the transferee, substantially in a form appended to a Supplemental Indenture authorizing the applicable Series of Notes or such other form as the Issuer may determine, and no registration of transfer will be made until such letter is so delivered.

Notes issued upon registration or transfer of, or Notes issued in exchange for, Notes bearing the legend referred to above will also bear such legend and any other legends required by the Related Supplemental Indenture unless the Issuer, the Indenture Trustee and the Note Registrar receive an Opinion of Counsel, satisfactory to each of them, to the effect that such legend may be removed.

Whenever a Note containing the legend referred to above is presented to the Note Registrar for registration of transfer, the Note Registrar will promptly seek instructions from the Issuer regarding such transfer and will be entitled to receive an Issuer Certificate prior to registering any such transfer. The Issuer hereby agrees to indemnify the Note Registrar and the Indenture Trustee and to hold each of them harmless against any loss, liability or expense incurred without negligence or bad faith on their part arising out of or in connection with actions taken or omitted by them in relation to any such instructions furnished pursuant to this clause. The Indenture Trustee shall have no obligation or duty to monitor, determine or inquire as to compliance with any restrictions on transfer imposed under this Indenture, the Related Supplemental Indenture, or under applicable law with respect to any transfer of any interest in any Note other than to require delivery of such certificates and other documentation or evidence as are expressly required by, and to do so if and when expressly required by the terms of, this Indenture, and to examine the same to determine substantial compliance as to form with the express requirements hereof.

(l) By acquiring a Note, each Noteholder that is a United States Person will be deemed to represent, warrant and covenant that either: (i) it is not acquiring the Note (or any interest therein) with the assets of a Benefit Plan or a governmental, church or non-U.S. plan that is subject to any federal, state, local or other non-U.S. law that is substantially similar to Section 406 of ERISA or Section 4975 of the Internal Revenue Code ("**Similar Law**"); or (ii) (A) the Note is rated at least "BBB-" or its equivalent by a nationally recognized statistical rating agency at the time of purchase or transfer, and (B) the acquisition, holding and disposition of the Note will not give rise to a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Internal Revenue Code or a violation of any Similar Law.

4.06 Mutilated, Destroyed, Lost and Stolen Notes

(a) If (i) any mutilated Note (together, in the case of Bearer Notes, with all unmatured coupons, if any, appertaining thereto) is surrendered to the Indenture Trustee or the Note Registrar, or the Issuer, the Note Registrar or the Indenture Trustee receive evidence to their satisfaction of the destruction, loss or theft of any Note, and (ii) there is delivered to the Issuer, the Note Registrar or the Indenture Trustee such security or indemnity as may be required by them to save each of them harmless, then, in the absence of notice to the Issuer, the Note Registrar or the Indenture Trustee that such Note has been acquired by a protected purchaser, the Issuer will execute and upon its request the Indenture Trustee will authenticate and deliver (in the case of Bearer Notes, outside the United States), in exchange for or in lieu of any such mutilated, destroyed, lost or stolen Note, a new Note of like tenor, Class, Series or Tranche, Principal Payment Due Date, Principal Payment Default Date and Stated Principal Amount, bearing a number not contemporaneously Outstanding.

(b) In case any such mutilated, destroyed, lost or stolen Note has become or is about to become due and payable, the Issuer in its discretion may, instead of issuing a new Note, pay such Note.

(c) Upon the issuance of any new Note under this Section 4.06, the Issuer may require the payment of a sum sufficient to cover any Tax or other governmental charge that may be imposed in relation thereto and any other expenses (including the fees and expenses of the Indenture Trustee) connected therewith.

(d) Every new Note issued pursuant to this Section 4.06 in lieu of any destroyed, lost or stolen Note will constitute an original additional contractual obligation of the Issuer, whether or not the destroyed, lost or stolen Note will be at any time enforceable by anyone, and will be entitled to all the benefits of this Indenture equally and proportionately with any and all other Notes of the same Class, Series or Tranche duly issued hereunder.

(e) The provisions of this Section 4.06 are exclusive and will preclude (to the extent lawful) all other rights and remedies with respect to the replacement or payment of mutilated, destroyed, lost or stolen Notes.

4.07 Persons Entitled to Payment

(a) Unless otherwise provided with respect to such Note pursuant to Section 4.01, interest payable on any Registered Note will be paid to the Person in whose name that Note (or one or more Predecessor Notes) is registered at the close of business on the most recent Record Date and interest payable on any Bearer Note will be paid to the bearer of that Note (or the applicable coupon).

(b) Subject to clause (a), each Note delivered under this Indenture upon transfer of or in exchange for or in lieu of any other Note will carry the rights to interest accrued or principal accreted and unpaid, and to accrue or accrete, which were carried by such other Note.

(c) Title to any Bearer Note, including any coupons appertaining thereto, shall pass by delivery. The Issuer, the Indenture Trustee, the Manager and any agent of the Issuer, the Indenture Trustee or the Manager may treat the Person who is proved to be the owner of such Note pursuant to subsection 1.04(c) as the owner of such Note for the purpose of receiving payment of principal of and (subject to this Section 4.07) interest on such Note and for all other purposes whatsoever, whether or not such Note be overdue, and none of the Issuer, the Indenture Trustee, the Manager or any agent of the Issuer, the Indenture Trustee or the Manager will be affected by notice to the contrary.

(d) Delivery of a Note to the Paying Agent by the holder of such Note shall, upon payment thereof, be a good discharge to the Issuer of all obligations evidenced by such Note. The Paying Agent shall not be bound to enquire into the title of any such Noteholder, save as ordered by a court of competent jurisdiction or as required by statute, nor shall it be bound to see to the execution of any trust affecting the ownership of any Note or be affected by notice of any equity that may be subsisting in respect thereof.

(e) In the case of the death of one or more joint registered owners, the principal money of and interest, if any, on a Note may be paid to the survivor or survivors of such registered Noteholders whose receipt thereof, accompanied by the delivery of such Note, shall constitute a valid discharge to the Issuer and the Paying Agent.

(f) Any payment of principal or interest on any Note which is due on a day other than a Business Day shall be payable on the next succeeding Business Day without adjustment for interest thereon and such payment shall be deemed to have been made with the same force and effect as if made on the due date.

(g) Upon the Paying Agent's reasonable request therefor, the Issuer will (i) provide the Paying Agent with any information in its possession or (ii) assist the Paying Agent (to the extent necessary and it is commercially reasonable for the Issuer to do so)

to obtain information, in each case, to the extent such information is required by the Paying Agent to comply with its tax reporting and withholding obligations under applicable law with respect to payments to be made to Specified Creditors pursuant to this Indenture and the other Program Agreements, unless the Issuer is prohibited from doing so by applicable law or an obligation of confidentiality by which the Issuer is bound.

4.08 Cancellation

All Notes surrendered for payment, redemption, repurchase, transfer, conversion or exchange will, if surrendered to any Person other than the Indenture Trustee, be delivered to the Indenture Trustee and, if not already canceled, will be promptly canceled by it. The Issuer may at any time deliver to the Indenture Trustee for cancellation any Notes previously authenticated and delivered hereunder which the Issuer may have acquired in any manner whatsoever, and all Notes so delivered will be promptly canceled by the Indenture Trustee. No Note will be authenticated in lieu of or in exchange for any Notes canceled as provided in this Section 4.08, except as expressly permitted by this Indenture. The Indenture Trustee will dispose of all canceled Notes in accordance with its customary procedures and will deliver a certificate of such disposition to the Issuer.

4.09 Protection of Notes

The Indenture Trustee shall acknowledge receipt of the Notes so delivered by signing and returning to the Issuer an acknowledgement of receipt of the Notes, such acknowledgement to be in a form satisfactory to the Issuer.

(b) The Indenture Trustee's responsibility for any Notes held in its custody hereunder shall be limited to using the same diligence in physically safeguarding such Notes as it does for its own securities. The Indenture Trustee shall account for the unissued Notes held in its custody whenever so required by the Issuer. If at any time the Indenture Trustee shall discover that any of such Notes have been lost, damaged, destroyed, stolen or misappropriated, it shall promptly advise the Issuer thereof and identify, to the extent practicable, such Notes.

4.10 New Issuances of Notes

(a) There are no restrictions on the timing or amount of any additional issuance of Notes of an Outstanding Series or Tranche of a Class of Notes, so long as the conditions described in Article V are satisfied. As of the date of any additional issuance of Notes of an Outstanding Series or Tranche of Notes, the Stated Principal Amount and Outstanding Dollar Principal Amount of that Series or Tranche will be increased to reflect the principal amount of the additional Notes. If the additional Notes are a Series or Tranche of Notes that has the benefit of a Derivative Agreement, the Issuer will enter into a Derivative Agreement for the benefit of the additional Notes. A Series Capital Reserve Account may be established for the sole purpose of allowing the Issuer to accumulate funds to be used to make repayments in respect of Issuer Funding Obligations. Details of any period of accumulation and the amounts to be accumulated shall be specified in the Related Funding Obligation Agreement. Payments of Available Collections out of the Collection Account shall be credited to a Series Capital Reserve Account, to the extent that there is a requirement for funds in such Series Capital Reserve Account, in accordance with the terms of the applicable Funding Obligation Agreement and Section 7.04. A Series Finance Reserve Account may be established for the purpose of allowing the Issuer to reserve funds to pay finance charges (including, without limitation, interest and payments under Derivative Agreements) for a Series of Issuer Funding Obligations. Payments of Available Collections out of the Collection Account shall be credited to a Series Finance Reserve Account, to the extent that there is a requirement for funds in such Series Finance Reserve Account, in accordance with the terms of the applicable Funding Obligation Agreement and Section 7.04. Each Series Finance Reserve Account shall be under the control of the Indenture Trustee for the benefit of the Indenture Trustee and the applicable Specified Creditors. If, at any time, the institution holding a Series Finance Reserve Account ceases to be an Eligible Institution, the Manager shall notify the Indenture Trustee, and the Indenture Trustee upon being notified in writing of such ineligibility (or the Manager on its behalf) shall within 30 days (or such longer period, not to exceed 45 calendar days, so long as the Rating Agency Condition is satisfied) establish a new Series Finance Reserve Account that is an Eligible Deposit Account and shall transfer any funds or other property to such new Series Finance Reserve Account. From the date each such

new Series Finance Reserve Account is established, it shall be a "Series Finance Reserve Account." Each Series Finance Reserve Account shall be a "finance reserve account" under, and as defined under, the Fair Hydro Act Regulations.

Notwithstanding the foregoing, funds held by the Indenture Trustee in any of the Issuer Accounts will be invested in Eligible Investments that will mature so that a sufficient amount of such funds shall be available to the extent required to pay all Obligations Secured that are payable on the following Payment Date.

(b) All funds from time to time credited to the Issuer Accounts pursuant to this Indenture and the Funding Obligation Agreements, and all investments made with such funds, if any, are property of the Issuer until such time as they are allocated or paid to satisfy Obligations Secured and will be held by the Indenture Trustee in the Issuer Accounts as part of the Collateral as herein provided, subject to withdrawal by the Paying Agent or the Indenture Trustee for the purposes specified herein.

ARTICLE VIII
EVENTS OF DEFAULT AND REMEDIES

8.01 Events of Default

[NTD: to be determined if certain events of default should be triggered on a series by series basis.]

"**Event of Default**," wherever used herein, means any one of the following events (whatever the reason for such Event of Default and whether it will be voluntary or involuntary or be effected by operation of law or pursuant to any judgment, decree or order of any court or any order, rule or regulation of any Governmental Authority):

(a) a default by the Issuer in the payment of any interest on any Controlling Class Obligations when such interest becomes due and payable, and continuance of such default for a period of [5] days following the date on which such interest became due and payable;

(b) a default by the Issuer in the payment of any principal of any Controlling Class Obligations at its Principal Payment Default Date;

(c) any representation or warranty contained in Section 12.01 proves to be incorrect in any material respect when made and such incorrect representation or warranty if capable of being remedied by the Issuer, has not been remedied for a period of 60 days after notice thereof has been given, by registered or certified mail, to the Issuer by the Indenture Trustee or to the Issuer and the Indenture Trustee by Debtholders holding at least 25% of the Outstanding Dollar Principal Amount of all Controlling Class Obligations, a written notice specifying such default or breach and requesting it to be remedied and stating that such notice is a "Notice of Default" hereunder and, as a result of such default, the interests of such Debtholders are materially and adversely affected and continue to be materially and adversely affected during the 60-day period;

(d) a default in the performance, or breach, of any covenant of the Issuer in this Indenture in respect of any Controlling Class Obligations (other than an agreement, covenant or warranty a default in the performance of which or the breach of which is elsewhere specifically dealt with in this Section 8.01), all of such covenants in this Indenture which are not expressly stated to be for the benefit of a particular Series of Issuer Funding Obligations being deemed to be in respect of all Series of Issuer Funding Obligations for this purpose, and continuance of such default or breach for a period of 60 days after notice thereof has been given, by registered or certified mail, to the Issuer by the Indenture Trustee or to the Issuer and the Indenture Trustee by Debtholders holding at least 25% of the Outstanding Dollar Principal Amount of all Controlling Class Obligations, a written notice specifying such default or breach and requesting it to be remedied and stating that such notice is a "Notice of Default" hereunder and, as a result of such default, the interests of such Debtholders are materially and adversely affected and continue to be materially and adversely affected during the 60-day period;

(e) an Insolvency Event in respect of the Issuer;

(f) the Change of Law Protection Agreement ceases to be in full force and effect against the Province and if the Province does not, within 10 days of receipt of notice of such agreement not being in full force and effect, cause such agreement to be in full force and effect or replace such agreement with a new agreement that is in form and substance satisfactory to Debtholders of Controlling Class Obligations, acting reasonably, pursuant to an Ordinary Resolution;

(g) the validity of the Change of Law Protection Agreement or the applicability thereof to the Province or to any Controlling Class Obligations or any other obligations purported to be secured thereby or any material part thereof shall be disaffirmed in writing by or on behalf of the Province; or

For greater certainty, failure to pay amounts owing pursuant to a Derivative Agreement shall not constitute an Event of Default.

8.02 Acceleration of Maturity; Rescission and Annulment

[NTD: to be determined if acceleration should be determined on a series by series basis.]

(a) If an Event of Default (other than an Event of Default described in clause (e), (f) or (g) of Section 8.01) occurs and is continuing, then and in each and every such case, unless the principal of all the Controlling Class Obligations shall have already become due and payable, either the Indenture Trustee or Debtholders holding not less than 50% of the Outstanding Dollar Principal Amount of all Controlling Class Obligations (treated as one class), by notice in writing to the Issuer (and to the Indenture Trustee if given by such Debtholders), may declare the Outstanding Dollar Principal Amount of all Issuer Funding Obligations (other than Derivative Funding Obligations) and all interest accrued or principal accreted and unpaid (if any) thereon to be due and payable immediately, and upon any such declaration the same will become and will be immediately due and payable, notwithstanding anything in this Indenture or any Funding Obligation Agreement to the contrary.

(b) If an Event of Default described in clause (e), (f) or (g) of Section 8.01 occurs and is continuing, then all Series of Issuer Funding Obligations (other than Derivative Funding Obligations) will automatically be and become immediately due and payable by the Issuer, without notice or demand to any Person, and the Issuer will automatically and immediately be obligated to pay off the Issuer Funding Obligations.

(c) At any time after such a declaration of acceleration has been made or an automatic acceleration has occurred with respect to the Issuer Funding Obligations (other than Derivative Funding Obligations) and before a judgment or decree for payment of the money due has been obtained by the Indenture Trustee as hereinafter provided in this Article VIII, Debtholders of Controlling Class Obligations may, by Extraordinary Resolution, rescind and annul such declaration and its consequences if:

(i) the Issuer has paid or deposited with the Indenture Trustee a sum sufficient to pay (A) all overdue installments of interest on the Controlling Class Obligations, (B) the principal of any Controlling Class Obligations which have become due otherwise than by such declaration of acceleration, and interest thereon at the rate or rates prescribed therefor by the terms of the Related Funding Obligation Agreements, to the extent that payment of such interest is lawful, (C) interest upon overdue installments of interest at the rate or rates prescribed therefor by the terms of the Related Funding Obligation Agreements, to the extent that payment of such interest is lawful, and (D) all sums paid by the Indenture Trustee hereunder and the reasonable compensation, expenses and disbursements of the Indenture Trustee, its

agents and counsel and all other amounts due to the Indenture Trustee under Section 9.05; and

(ii) all Events of Default other than the nonpayment of the principal of the Controlling Class Obligations which has become due solely by such acceleration, have been cured or waived as provided in Section 8.03.

(d) If, at any time, any Event of Default capable of being remedied has been remedied by the Issuer to the satisfaction of the Indenture Trustee: (i) the Security Interest will no longer be or be deemed to be enforceable by reason of such Event of Default; (ii) any rights which had become vested in the Indenture Trustee by virtue thereof will be and be deemed to be cancelled as fully and to the same extent as though no such Event of Default had occurred; and (iii) the Indenture Trustee will, or will instruct any receiver appointed pursuant to this Indenture to restore to the Issuer any Collateral in the possession of the Indenture Trustee or receiver, as the case may be.

(e) No such rescission will affect any subsequent default or impair any right consequent thereon.

8.03 Waiver of Past Defaults

Subject to Section 8.02(c), Debtholders of Controlling Class Obligations may, by Ordinary Resolution, waive any past default hereunder and its consequences. Upon any such waiver, such default will cease to exist, and any Event of Default arising therefrom will be deemed to have been cured, for every purpose of this Indenture; but no such waiver will extend to any subsequent or other default or impair any right consequent thereon.

8.04 Notice of Defaults

(a) Within 90 days after the occurrence of any Event of Default of which the Indenture Trustee has received written notice:

(i) the Indenture Trustee will transmit by mail to all Registered Noteholders, as their names and addresses appear in the Note Register, notice of such default;

(ii) the Indenture Trustee will notify all holders of Bearer Notes by publication of notice of such default in an Authorized Newspaper, or as otherwise provided in the Related Supplemental Indenture;

(iii) the Indenture Trustee will give prompt written notification thereof to the other Debtholders and all other Specified Creditors; and

(iv) the Indenture Trustee will give prompt written notification thereof to the Rating Agencies, unless such default will have been cured or waived;

provided, however, that, except in the case of a default in the payment of the principal of or interest on any Issuer Funding Obligations, the Indenture Trustee will be protected in withholding such notice if and so long as a Responsible Officer of the Indenture Trustee in good faith determines that the withholding of such notice is in the interests of the Specified Creditors.

(b) When such notice of an occurrence of an Event of Default has been given and the Event of Default is thereafter cured, notice that the Event of Default is no longer continuing shall be given by the Indenture Trustee to Persons to whom notice was sent pursuant to Section 8.04(a) within a reasonable time, but not exceeding 30 days in any event, after the Indenture Trustee receives notice from the applicable Debtholders that the Event of Default has been cured.

8.05 Remedies Generally

Subject to subsections 8.02(c) and (d), and Section 8.03, if, with respect to any Controlling Class Obligations, such Controlling Class Obligation has become due and payable pursuant to Section 8.02 and the Issuer has failed to pay such Controlling Class Obligation, the Indenture Trustee (subject, however, to compliance with the provisions of Section 9.02(d) with respect to the giving of indemnity and funds) may proceed to realize upon the Security Interest and to enforce the rights of the Indenture Trustee and of the Specified Creditors to whom Obligations Secured are owed by (i) application to any court of competent jurisdiction for an order of sequestration and payment of amounts in respect of clean energy adjustments, collections or remittances in accordance with the Act, (ii) possession of the Collateral, (iii) appointment of a receiver with respect to the Collateral, (iv) proceedings in any court of competent jurisdiction for the appointment of a receiver or for sale of the Collateral or any part thereof, or for foreclosure, (v) subject to Section 10.02, exercise any of the rights of the Issuer under any of the Program Agreements, including the right to replace the Manager or the Servicer in accordance with Section 8.10, or (vi) any other action, suit, remedy or proceeding authorized or permitted by this Indenture or by applicable law or by equity.

8.06 Default Interest and Expenses

The Issuer covenants that if:

(a) the Issuer defaults in the payment of interest on any Series of Issuer Funding Obligations when such interest becomes due and payable and such default continues for a period of 65 days following the date on which such interest became due and payable, or

(b) the Issuer defaults in the payment of the principal amount of any Series of Issuer Funding Obligations on the Principal Payment Default Date thereof;

the Issuer will, upon demand of the Indenture Trustee, pay (subject to the allocation provided in this Article VIII and any Related Funding Obligation Agreement) to the Indenture Trustee, for the benefit of the Debtholders of any such Issuer Funding Obligations, the whole amount then due and payable on any such Issuer Funding Obligations for principal and interest, with interest, to the extent that payment of such interest will be legally enforceable, upon the overdue principal and

upon overdue installments of interest, (i) in the case of interest-bearing Issuer Funding Obligations, at the rate of interest applicable to the principal amount thereof, unless otherwise specified in the Related Funding Obligation Agreement; and (ii) in the case of Discount Notes, as specified in the Related Supplemental Indenture, and in addition thereto, will pay such further amount as will be sufficient to cover the costs and expenses of collection, including the reasonable compensation, expenses, disbursements and advances of the Indenture Trustee, its agents and counsel and all other amounts due to the Indenture Trustee under Section 9.05.

If the Issuer fails to pay such amounts forthwith upon such demand, the Indenture Trustee may, if the Issuer Funding Obligations have been accelerated in accordance with Section 8.02, take immediate steps to enforce the Security Interest, including instituting, in its own name and as trustee of an express trust, a judicial proceeding seeking the appointment of a receiver or a judicial proceeding for the collection of the sums so due and unpaid, and may directly prosecute such proceeding to judgment or final decree, and the Indenture Trustee may enforce the same against the Issuer and collect the money adjudged or decreed to be payable in the manner provided by applicable law out of the Collateral, wherever situated.

8.07 Indenture Trustee May File Proofs of Claim

In case of the pendency of any receivership, insolvency, liquidation, bankruptcy or other similar proceeding relative to the Issuer or the property of the Issuer, the Indenture Trustee (irrespective of whether the principal of the Issuer Funding Obligations will then be due and payable as therein expressed or by declaration or otherwise) will be entitled and empowered by intervention in such proceeding or otherwise:

(a) to file and prove a claim for the whole amount of principal, interest, fees and other amounts owing and unpaid in respect of the Issuer Funding Obligations and to file such other papers or documents as may be necessary and advisable in order to have the claims of the Indenture Trustee (including any claim for the reasonable compensation, expenses, disbursements and advances of the Indenture Trustee, its agents and counsel and all other amounts due to the Indenture Trustee under Section 9.05) and of the Specified Creditors allowed in such judicial proceeding, and

(b) to collect and receive any funds or other property payable or deliverable on any such claims and to distribute the same;

and any receiver, assignee, trustee, liquidator or other similar official in any such proceeding is hereby authorized by each Specified Creditor to make such payment to the Indenture Trustee, and in the event that the Indenture Trustee will consent to the making of such payments directly to the Specified Creditors, to pay to the Indenture Trustee any amount due to it for the reasonable compensation, expenses, disbursements and advances of the Indenture Trustee, its agents and counsel, and any other amounts due to the Indenture Trustee under Section 9.05.

Nothing herein contained will be deemed to authorize the Indenture Trustee to authorize or consent to or accept or adopt on behalf of any Specified Creditor any plan of reorganization, arrangement, adjustment or composition affecting the Issuer Funding Obligations or the rights of

any Specified Creditors, or to authorize the Indenture Trustee to vote in respect of the claim of any Specified Creditor in any such proceeding.

8.08 Indenture Trustee May Enforce Claims Without Possession of Notes

All rights of action and claims under this Indenture or the Notes of any Class, Series or Tranche may be prosecuted and enforced by the Indenture Trustee without the possession of any of the Notes of such Class, Series or Tranche or the production thereof in any proceeding relating thereto, and any such proceeding instituted by the Indenture Trustee will be brought in its own name as trustee of an express trust.

8.09 Indenture Trustee May Elect to Hold the Collateral

Following an acceleration of Issuer Funding Obligations in accordance with Section 8.02, the Indenture Trustee may elect to continue to hold the Collateral and apply distributions on the Collateral in accordance with the distribution provisions of Section 8.13.

8.10 Termination by Indenture Trustee of Manager and Servicer

Upon the occurrence and during the continuance of an Event of Default, the Indenture Trustee shall have the right to (and, upon receipt of an Extraordinary Resolution of Debtholders of Controlling Class Obligations to that effect, shall) terminate the appointment of the then existing Manager under the Management Agreement and/or the Servicer under the Master Transfer and Servicing Agreement, and appoint new Persons under such agreements in accordance with such direction, provided that the Issuer shall have the right to reinstate any appointee under such agreements at such time as the Event of Default is no longer continuing.

8.11 Control by Debtholders

Subject to Section 10.02(b), Debtholders of Controlling Class Obligations will, by Ordinary Resolution, have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Indenture Trustee, or exercising any trust or power conferred on the Indenture Trustee with respect to all Issuer Funding Obligations, provided that:

(a) the Indenture Trustee will have the right to decline to follow any such direction if the Indenture Trustee, being advised by counsel, determines that the action so directed may not lawfully be taken or would conflict with this Indenture, or if the Indenture Trustee in good faith determines that the proceedings so directed would involve it in personal liability or be unjustly prejudicial to the Debtholders of Controlling Class Obligations not taking part in such direction; and

(b) the Indenture Trustee may take any other action permitted hereunder deemed proper by the Indenture Trustee which is not inconsistent with such direction.

8.12 Limitation on Suits

To the fullest extent permitted by applicable law, no Specified Creditor will have any right to institute any proceeding, judicial or otherwise, with respect to this Indenture, or for the appointment of a receiver or trustee or similar official, or for any other remedy hereunder, unless:

(a) the Issuer or a Debtholder has previously given written notice to the Indenture Trustee of a continuing Event of Default;

(b) Debtholders of Controlling Class Obligations, by way of Ordinary Resolution, have made written request to the Indenture Trustee to institute proceedings in respect of such Event of Default in the name of the Indenture Trustee hereunder;

(c) such Debtholders of Controlling Class Obligations have offered to the Indenture Trustee (when so requested by the Indenture Trustee) indemnity reasonably satisfactory to it against the costs, expenses and liabilities to be incurred in compliance with such request; and

(d) the Indenture Trustee, for 60 days after the Indenture Trustee has received such notice, request and offer of indemnity has failed to institute any such proceeding;

it being understood and intended that no one or more Specified Creditors will have any right in any manner whatsoever by virtue of, or by availing of, any provision of this Indenture to affect, disturb or prejudice the rights of any other Specified Creditor, or to obtain or to seek to obtain priority or preference over any other Specified Creditor or to enforce any right under this Indenture, except in the manner herein provided and for the benefit of all Specified Creditors.

8.13 Application of Money Following an Event of Default

Subject to the following paragraph, upon the occurrence and during the continuance of an Event of Default which has been accelerated in accordance with Section 8.02, any money or other property standing in each Issuer Account or otherwise received by the Indenture Trustee pursuant to this Article VIII will be applied in the order of priority specified in this Section 8.13, *pro rata* in proportion to the claims represented by each subclause, except as otherwise specifically provided below:

(a) First, to the payment or remittance of all Taxes exigible for which a Governmental Authority is given priority over the Specified Creditors under the laws of the applicable jurisdiction;

Notwithstanding the foregoing, amounts on deposit in a Series Account established solely for the benefit of one or more Series of Issuer Funding Obligations shall first be used to satisfy all obligations owing to those Specified Creditors for whom such Series Account was established. If any amounts remain following such application, such amounts shall be applied in accordance with the priorities set out above.

8.14 Limited Recourse

(a) Notwithstanding any other provision of this Indenture to the contrary, the obligation to pay principal of or interest on any Issuer Funding Obligation or any other amount payable to any Specified Creditor will be without recourse to the Indenture Trustee, the Issuer Trustee, the Manager or any Affiliate, officer, employee, member or director of any of them, and the satisfaction of the obligation of the Issuer to pay principal of or interest on any Issuer Funding Obligation or any other amount payable to any Specified Creditor will be subject to the allocation and payment provisions of this Indenture and any Related Funding Obligation Agreement, and limited to amounts available from the Collateral.

(b) No recourse may be taken, directly or indirectly, with respect to the obligations of the Issuer under the Issuer Funding Obligations or under this Indenture, or any certificate or other writing delivered in connection herewith or therewith, against (i) the Issuer Trustee in its individual capacity, (ii) any owner of a beneficial interest in the Issuer or (iii) any partner, owner, beneficiary, agent, officer, director, employee or agent of the Issuer Trustee in its individual capacity, any holder of a beneficial interest in the Issuer or the Issuer Trustee or of any successor or assign of the Issuer Trustee in its individual capacity, except as any such Person may have expressly agreed (it being understood that the Issuer Trustee has no such obligations in its individual capacity).

(c) Under no circumstances shall the Manager or any of its Affiliates be deemed an obligor or guarantor or otherwise deemed to be responsible for payment from its own funds of principal, interest, dividends or other amounts due on the Collateral, the Issuer Funding Obligations or any other Obligations Secured.

8.15 Restoration of Rights and Remedies

If the Indenture Trustee or any Specified Creditor (to the extent and in the manner provided for in Section 8.12) has instituted any proceeding to enforce any right or remedy under this

Indenture and such proceeding has been discontinued or abandoned for any reason, then and in every such case the Issuer, the Indenture Trustee and the Specified Creditors will, subject to any determination in such proceeding, be restored severally and respectively to their former positions hereunder, and thereafter all rights and remedies of the Indenture Trustee and the Specified Creditors will continue as though no such proceeding had been instituted.

8.16 Rights and Remedies Cumulative

No right or remedy herein conferred upon or reserved to the Indenture Trustee or to the Specified Creditors is intended to be exclusive of any other right or remedy, and every right and remedy will, to the extent permitted by applicable law, be cumulative and in addition to every other right and remedy given hereunder or now or hereafter existing at law or in equity or otherwise. The assertion or employment of any right or remedy hereunder, or otherwise, will not prevent the concurrent assertion or employment of any other appropriate right or remedy.

8.17 Delay or Omission Not Waiver

No delay or omission of the Indenture Trustee or of any Specified Creditor to exercise any right or remedy accruing upon any Event of Default will impair any such right or remedy or constitute a waiver of any such Event of Default or an acquiescence therein. Every right and remedy given by this Article VIII or by applicable law to the Indenture Trustee or to the Specified Creditors may be exercised from time to time, and as often as may be deemed expedient, by the Indenture Trustee or by the Specified Creditors, as the case may be.

8.18 Waiver of Stay or Extension Laws

The Issuer covenants (to the extent that it may lawfully do so) that it will not at any time insist upon, or plead, or in any manner whatsoever claim or take the benefit or advantage of, any stay or extension law wherever enacted, now or at any time hereafter in force, which may affect the covenants or the performance of this Indenture; and the Issuer (to the extent that it may lawfully do so) hereby expressly waives all benefit or advantage of any such law, and covenants that it will not hinder, delay or impede the execution of any power herein granted to the Indenture Trustee, but will suffer and permit the execution of every such power as though no such law had been enacted.

8.19 Indenture Trustee Appointed Attorney

The Issuer irrevocably constitutes and appoints the Indenture Trustee and any officer or employee thereof, with full power of substitution, as its true and lawful attorney coupled with an interest with full power and authority in the name of the Issuer or in its own name, in its discretion, upon the occurrence and during the continuance of any Event of Default, for the purpose of carrying out the terms of this Indenture to take all appropriate action and to execute any and all documents and instruments which may be necessary or desirable to accomplish the purposes hereof, and without limiting the generality of the foregoing, hereby gives the Indenture Trustee the power and right on behalf of the Issuer, without notice to or assent by the Issuer, to the extent permitted by applicable law, to do the following:

(a) to ask for, demand, sue for, collect and receive all and any monies due or becoming due with respect to the Collateral;

(b) to receive, take, endorse, assign and deliver any and all cheques, notes, drafts, acceptances, documents and other negotiable and non-negotiable instruments, documents and chattel paper taken or received by the Indenture Trustee in connection therewith and herewith; and

(c) to commence, file, prosecute, defend, settle, compromise or adjust any claim, suit, action or proceeding with respect to the Collateral.

8.20 Disclaimer of Marshalling

In the event that the Security Interest shall become enforceable and the Indenture Trustee shall have determined or become bound to enforce the same, the Issuer covenants not to invoke the doctrine of marshalling or any other equitable principle for the purpose of requiring the Indenture Trustee to realize or to have realized on any particular asset forming part of the Collateral.

ARTICLE IX
THE INDENTURE TRUSTEE

9.01 Certain Duties and Responsibilities

(a) The Indenture Trustee undertakes to perform such duties and only such duties as are specifically set forth in this Indenture with respect to the Obligations Secured, and no implied covenants or obligations will be read into this Indenture against the Indenture Trustee.

(b) In the exercise of the rights and duties prescribed or conferred by the terms of this Indenture, the Indenture Trustee will act honestly and in good faith with a view to the best interests of the Specified Creditors as a whole and exercise that degree of care, diligence and skill that a reasonably prudent trustee would exercise in comparable circumstances.

(c) In the absence of bad faith on its part, the Indenture Trustee may, with respect to any Obligations Secured, conclusively rely, as to the truth of the statements and the correctness of the opinions expressed therein, upon certificates or opinions furnished to the Indenture Trustee and conforming to the requirements of this Indenture; but in the case of any such certificates or opinions which by any provision hereof are specifically required to be furnished to the Indenture Trustee, the Indenture Trustee will be under a duty to examine the same to determine whether or not they substantially conform to the requirements of this Indenture (but need not confirm or investigate the accuracy of any mathematical calculations or other facts stated therein).

(d) No provision of this Indenture will be construed to relieve the Indenture Trustee from liability for its own negligent action, its own negligent failure to act, or its own willful misconduct, except that:

(i) this clause (d) will not be construed to limit the effect of subsection 9.01(a);

(ii) the Indenture Trustee will not be liable for any error of judgment made in good faith by a Responsible Officer of the Indenture Trustee, unless it will be proved that the Indenture Trustee was negligent in ascertaining the pertinent facts;

(iii) the Indenture Trustee will not be liable with respect to any action taken or omitted to be taken by it in good faith if so directed by Extraordinary Resolution, relating to the time, method and place of conducting any proceeding for any remedy available to the Indenture Trustee, or exercising any trust or power conferred upon the Indenture Trustee, under this Indenture with respect to the Obligations Secured; and

(iv) no provision of this Indenture will require the Indenture Trustee to expend or risk its own funds or otherwise incur any financial liability in the performance of any of its duties hereunder, or in the exercise of any of its rights or powers.

(e) Whether or not therein expressly so provided, every provision of this Indenture relating to the conduct or affecting the liability of or affording protection to the Indenture Trustee will be subject to the provisions of this Section 9.01.

9.02 Certain Rights of Indenture Trustee

Except as otherwise provided in Section 9.01:

(a) the Indenture Trustee may conclusively rely and will be protected in acting or refraining from acting upon any resolution, certificate, statement, instrument, opinion, report, notice, request, direction, consent, order, bond, debenture or other paper or document (whether in its original, facsimile or other electronic form) believed by it to be genuine and to have been signed or presented by the proper party or parties;

(b) whenever in the administration of this Indenture the Indenture Trustee will deem it desirable that a matter be proved or established before taking, suffering or omitting any action hereunder, the Indenture Trustee (unless other evidence be herein specifically prescribed) may, in the absence of bad faith on its part, rely upon an Officer's Certificate;

(c) the Indenture Trustee may consult with counsel of its own selection and the advice of such counsel or any Opinion of Counsel will be full and complete authorization and protection in respect of any action taken, suffered or omitted by it hereunder in good faith and in reliance thereon;

(d) the Indenture Trustee will be under no obligation to exercise any of the rights or powers vested in it by this Indenture at the request or direction of any of the Specified Creditors pursuant to this Indenture, unless such Specified Creditors shall have offered to the Indenture Trustee security or indemnity reasonably satisfactory to it against the costs, expenses and liabilities which might be incurred by it in compliance with such request or direction;

(e) the Indenture Trustee will not be bound to make any investigation into the facts or matters stated in any resolution, certificate, statement, instrument, opinion, report, notice, request, direction, consent, order, bond, debenture or other paper or document, but the Indenture Trustee, in its discretion, may make such further inquiry or investigation into such facts or matters as it may see fit, and, if the Indenture Trustee will determine to make such further inquiry or investigation, it will be entitled to examine the books, records and premises of the Issuer, personally or by agent or attorney;

(f) the Indenture Trustee may execute any of the trusts or powers hereunder or perform any duties hereunder either directly or by or through agents or attorneys and the Indenture Trustee will not be responsible for any misconduct or negligence on the part of any agent or attorney appointed with due care by it hereunder;

(g) the Indenture Trustee will not be responsible for filing any financing statements or continuation statements in connection with the Obligations Secured or the Security Interest, but will cooperate with the Issuer in connection with the filing of such financing statements or amendments to such financing statements;

(h) the Indenture Trustee shall not be deemed to have notice of any default (including any Servicer Default or Event of Default) unless a Responsible Officer of the Indenture Trustee has actual knowledge thereof or unless written notice of any event which is in fact such a default is received by the Indenture Trustee at the Corporate Trust Office of the Indenture Trustee, and such notice references the Issuer Funding Obligations and this Indenture;

(i) the rights, privileges, protections, immunities and benefits given to the Indenture Trustee, including, without limitation, its right to be indemnified, are extended to, and shall be enforceable by, the Indenture Trustee in each of its capacities hereunder, and each agent, custodian and other person employed to act hereunder;

(j) the Indenture Trustee shall not be liable for any action taken, suffered or omitted to be taken by it in good faith and reasonably believed by it to be authorized or within the discretion or rights or powers conferred upon it by this Indenture;

(k) the Indenture Trustee shall be entitled to and may rely absolutely upon the Payment Instruction and the Indenture Trustee will have no obligation to calculate any amount due or owing or to be allocated as provided in this Indenture, including interest or principal for any Issuer Funding Obligations;

(l) the Indenture Trustee will be entitled to rely and act upon any direction, order, instruction, notice or communication provided to it under this Indenture which is sent to it by Electronic Methods. The Indenture Trustee shall have no liability for any losses, liabilities, costs or expenses incurred by it as a result of such reliance upon or compliance with such instructions or directions. The Issuer agrees: (i) to assume all risks arising out of the use of such Electronic Methods to submit instructions and directions to the Indenture Trustee, including without limitation the risk of the Indenture Trustee acting on unauthorized instructions, and the risk of interception and misuse by third parties; (ii) that it is fully informed of the protections and risks associated with the various methods of transmitting instructions to the Indenture Trustee and that there may be more secure methods of transmitting instructions than the method(s) selected by the Issuer; and (iii) that the security procedures (if any) to be followed in connection with its transmission of instructions provide to it a commercially reasonable degree of protection in light of its particular needs and circumstances; and

(m) the Indenture Trustee will not be liable for any consequential, punitive or special damages.

9.03 Not Responsible for Recitals or Issuer Funding Obligations

The recitals contained herein and in the Funding Obligation Agreements, except the Certificates of Authentication, will be taken as the statements of the Issuer, and the Indenture Trustee assumes no responsibility for their correctness. The Indenture Trustee makes no representations as to the validity or sufficiency of this Indenture or of the Funding Obligation Agreements. The Indenture Trustee will not be accountable for the use or application by the Issuer of Notes, Borrowings or the proceeds thereof.

9.04 May Hold Notes

The Indenture Trustee, the Issuer Trustee, any Paying Agent, the Note Registrar, the Manager or any other agent of the Issuer, in its individual or any other capacity, may become the owner or pledgee of Notes and, subject to subsection 9.07(e) and applicable legislation, may otherwise deal with the Issuer with the same rights it would have if it were not Indenture Trustee, Issuer Trustee, Paying Agent, Note Registrar, Manager or such other agent.

9.05 Compensation and Reimbursement; Limit on Compensation Reimbursement and Indemnity

(a) The Issuer agrees:

(i) to pay to the Indenture Trustee from time to time reasonable compensation (or, for so long as BNY Trust Company of Canada is the Indenture Trustee, such amount as has been mutually agreed upon in writing) for all services rendered by it hereunder (which compensation will not be limited by any provision of law in regard to the compensation of a trustee of an express trust);

(ii) except as otherwise expressly provided herein, to reimburse the Indenture Trustee upon its request for all reasonable expenses, disbursements and advances incurred or made by the Indenture Trustee in accordance with any provision of this Indenture (including the reasonable compensation and the reasonable expenses and disbursements of its agents and counsel), except any such expense, disbursement or advance as may be attributable to its own negligence or bad faith; and

(iii) to indemnify the Indenture Trustee for, and to hold it harmless against, any and all loss, liability, expense, claim, damage or injury incurred without negligence or bad faith on its part, arising out of or in connection with the acceptance or administration of the trusts hereunder, including the costs and expenses of defending itself against any claim or liability (whether asserted by the Issuer, any Specified Creditor or any other Person) in connection with the exercise or performance of any of its powers or duties hereunder.

The Indenture Trustee will have no recourse to any asset of the Issuer other than funds available pursuant to Section 7.04 or 8.13, or to any Person other than the Issuer.

(b) This Section 9.05 will survive the termination of this Indenture and the resignation or replacement of the Indenture Trustee under Section 9.07.

9.06 Corporate Indenture Trustee Required; Eligibility

There will at all times be an Indenture Trustee hereunder which will be either a bank, a trust company or a corporation organized and doing business under the laws of Canada or of any province or territory thereof, authorized under such laws to carry on a trust business as contemplated hereby in each of the provinces and territories of Canada. The Issuer may not, nor may any Person directly or indirectly controlling, controlled by, or under common control with the Issuer, serve as Indenture Trustee. If at any time the Indenture Trustee will cease to be eligible in accordance with the provisions of this Section 9.06, it will resign immediately in the manner and with the effect hereinafter specified in this Article IX.

9.07 Resignation and Removal; Appointment of Successor

(a) No resignation or removal of the Indenture Trustee and no appointment of a successor Indenture Trustee pursuant to this Article IX will become effective until the acceptance of appointment by the successor Indenture Trustee under Section 9.08.

(b) The Indenture Trustee may resign at any time by giving written notice thereof to the Issuer. If an instrument of acceptance by a successor Indenture Trustee shall not have been delivered to the Indenture Trustee within 30 days after the giving of such notice of resignation, the resigning Indenture Trustee may petition any court of competent jurisdiction for the appointment of a successor Indenture Trustee.

(c) The Indenture Trustee may be removed at any time by Ordinary Resolution of the Debtholders of Controlling Class Obligations delivered to the Indenture Trustee and to the Issuer. If an instrument of acceptance by a successor Indenture Trustee shall not have been delivered to the Indenture Trustee within 30 days after the giving of such notice of removal, the Indenture Trustee being removed may petition any court of competent jurisdiction for the appointment of a successor Indenture Trustee.

(d) If at any time:

(i) the Indenture Trustee ceases to be eligible under Section 9.06 and fails to resign after written request therefor by the Issuer or by any Debtholder of Controlling Class Obligations, or

(ii) the Indenture Trustee becomes incapable of acting, or

(iii) the Indenture Trustee is adjudged bankrupt or insolvent or a receiver of the Indenture Trustee or of its property is appointed, or any public officer takes charge or control of the Indenture Trustee or of its property or affairs for the purpose of rehabilitation, conservation or liquidation,

(e) The Indenture Trustee shall resign if a material conflict of interest arises in its role as a trustee under this Indenture that is not eliminated within 90 days after the Indenture Trustee becomes aware that it has such a material conflict of interest. Forthwith after the Indenture Trustee becomes aware that it has a material conflict of interest, it shall provide the Issuer with written notice of the nature of that conflict. If, notwithstanding the foregoing provisions of this subsection 9.07(e), the Indenture Trustee has such a material conflict of interest, the validity and enforceability of this Indenture and of the Funding Obligation Agreements shall not be affected in any manner whatsoever by reason only of the existence of such material conflict of interest. If the Indenture Trustee contravenes the foregoing provisions of this subsection 9.07(e), any interested Person may apply to a court of competent jurisdiction for an order that the Indenture Trustee be replaced as trustee hereunder. The Indenture Trustee represents to the Issuer that at the time of the execution and delivery hereof no material conflict of interest exists in the Indenture Trustee's role as a fiduciary hereunder.

(f) If the Indenture Trustee resigns, is removed or becomes incapable of acting, or if a vacancy shall occur in the office of the Indenture Trustee for any cause, the Issuer will promptly appoint a successor Indenture Trustee. If, within one (1) year after

such resignation, removal or incapacity, or the occurrence of such vacancy, a successor Indenture Trustee is appointed by Ordinary Resolution of Debtholders of Controlling Class Obligations delivered to the Issuer and the retiring Indenture Trustee, the successor Indenture Trustee so appointed will, forthwith upon its acceptance of such appointment, become the successor Indenture Trustee and supersede the successor Indenture Trustee appointed by the Issuer. If no successor Indenture Trustee shall have been so appointed by the Issuer or Debtholders of Controlling Class Obligations and accepted in the manner hereinafter provided, any Debtholder of Controlling Class Obligations who has been a *bona fide* Debtholder of Controlling Class Obligations for at least six (6) months may, on behalf of itself and all other Debtholders, petition any court of competent jurisdiction for the appointment of a successor Indenture Trustee.

(g) The Issuer will give written notice of each resignation and each removal of the Indenture Trustee and each appointment of a successor Indenture Trustee to each Specified Creditor as provided in Article XV and to each Rating Agency. To facilitate delivery of such notice, upon request by the Issuer, the retiring Indenture Trustee shall provide to the Issuer a list of all Specified Creditors. Each notice will include the name of the successor Indenture Trustee and the address of its Corporate Trust Office.

(h) Upon such resignation, the Indenture Trustee shall be discharged from all further duties and liabilities under this Indenture.

9.08 <u>Acceptance of Appointment by Successor</u>

Every successor Indenture Trustee appointed hereunder will execute, acknowledge and deliver to the Issuer and to the predecessor Indenture Trustee an instrument accepting such appointment, with a copy to the Rating Agencies, and thereupon the resignation or removal of the predecessor Indenture Trustee will become effective, and such successor Indenture Trustee, without any further act, deed or conveyance, will become vested with all the rights, powers, trusts and duties of the predecessor Indenture Trustee; but, on request of the Issuer or the successor Indenture Trustee, such predecessor Indenture Trustee will, upon payment of its reasonable charges, if any, execute and deliver an instrument transferring to such successor Indenture Trustee all the rights, powers and trusts of the predecessor Indenture Trustee, and will duly assign, transfer and deliver to such successor Indenture Trustee all property and money held by such predecessor Indenture Trustee hereunder, subject nevertheless to its Lien, if any, provided for in Section 9.05. Upon request of any such successor Indenture Trustee, the Issuer will execute any and all instruments for more fully and certainly vesting in and confirming to such successor Indenture Trustee all such rights, powers and trusts.

No successor Indenture Trustee will accept its appointment unless at the time of such acceptance, such successor Indenture Trustee will be qualified and eligible under this Article IX.

9.09 Merger, Conversion, Consolidation or Succession to Business

Any corporation into which the Indenture Trustee may be merged or converted or with which it may be consolidated, or any corporation resulting from any merger, conversion or consolidation to which the Indenture Trustee shall be a party, or any corporation succeeding to all or substantially all of the corporate trust business of the Indenture Trustee, will be the successor of the Indenture Trustee hereunder, provided such corporation shall be otherwise qualified and eligible under this Article IX, without the execution or filing of any paper or any further act on the part of any of the parties hereto. The Indenture Trustee shall give prompt written notice of such merger, conversion, consolidation or succession to the Issuer and the Rating Agencies. In case any Notes shall have been authenticated, but not delivered, by the Indenture Trustee then in office, any successor by merger, conversion or consolidation to such authenticating Indenture Trustee may adopt such authentication and deliver the Notes so authenticated with the same effect as if such successor Indenture Trustee had itself authenticated such Notes.

9.10 Trust Indenture Legislation

(a) In this Article IX, the term "**applicable legislation**" means the provisions, if any, of the *Trust and Loan Companies Act* (Canada) and any other statute of Canada or a province thereof, and of regulations under any such statute, in each case, as amended, restated or re-enacted from time to time, relating to trust indentures and to the rights, duties and obligations of trustees under trust indentures and of entities issuing debt obligations under trust indentures, to the extent that in the opinion of counsel to the Issuer such provisions are at the time in force and applicable to this Indenture.

(b) If and to the extent that any provision of this Indenture limits, qualifies or conflicts with a mandatory requirement of applicable legislation, such mandatory requirement shall prevail.

(c) The Issuer and the Indenture Trustee agree that each will at all times in relation to this Indenture and any action to be taken hereunder, observe and comply with and be entitled to the benefits of applicable legislation.

9.11 Representations and Covenants of the Indenture Trustee

The Indenture Trustee represents, warrants and covenants that:

(a) the Indenture Trustee is a trust company organized, existing and in good standing under the laws of Canada;

(b) the Indenture Trustee has full power and authority to execute, deliver and perform this Indenture and has taken all necessary action to authorize the execution, delivery and performance by it of this Indenture and other documents to which it is a party;

(c) each of this Indenture and the other documents to which it is a party has been duly executed and delivered by the Indenture Trustee and constitutes its legal, valid and binding obligation in accordance with its terms; and

(d) the Indenture Trustee is authorized to carry on the business of a trust company in each of the provinces and territories of Canada. If, notwithstanding the provisions of this subsection 9.11(d), the Indenture Trustee ceases to be so authorized to carry on business, the validity and enforceability of this Indenture and the Funding Obligation Agreements shall not be affected in any manner whatsoever by reason only of such event.

9.12 Indenture Trustee's Application for Instructions from the Issuer

Any application by the Indenture Trustee for written instructions from the Issuer may, at the option of the Indenture Trustee, set forth in writing any action proposed to be taken or omitted by the Indenture Trustee under and in accordance with this Indenture and the date on and/or after which such action shall be taken or such omission shall be effective; provided that such application shall make specific reference to this Section 9.12. The Indenture Trustee shall not be liable for any action taken by, or omission of, the Indenture Trustee in accordance with a proposal included in such application on or after the date specified in such application (which date shall not be less than five (5) Business Days after the date the Issuer actually receives such application, unless the Issuer shall have consented in writing to any earlier date) unless prior to taking any such action (or the effective date in the case of an omission), the Indenture Trustee shall have received written instructions in response to such application specifying the action be taken or omitted.

9.13 Appointment of Co-Trustee or Separate Indenture Trustee

(a) Notwithstanding any other provisions of this Indenture, at any time, for the purpose of meeting any legal requirements of any relevant jurisdiction, the Indenture Trustee shall have the power and shall execute and deliver all instruments, subject to the prior written consent of the Manager, which consent shall not be unreasonably withheld, to appoint one or more Persons reasonably acceptable to the Issuer to act as a co-trustee or co-trustees, or separate trustee or separate trustees, of all or any part of the Issuer's property, and to vest in such Person or Persons, in such capacity and for the benefit of the Specified Creditors, such title to the Issuer's property, or any part thereof, and, subject to the other provisions of this Section 9.13, such powers, duties, obligations, rights and trusts as the Indenture Trustee may consider necessary or desirable. No co-trustee or separate trustee hereunder shall be required to meet the terms of eligibility as a successor trustee under Section 9.06 and no notice to Specified Creditors of the appointment of any co-trustee or separate trustee shall be required under Section 9.07.

(b) Every separate trustee and co-trustee shall, to the extent permitted by applicable law, be appointed and act subject to the following provisions and conditions:

(i) all rights, powers, duties and obligations conferred or imposed upon the Indenture Trustee shall be conferred or imposed upon and exercised or performed by the Indenture Trustee and such separate trustee or co-trustee jointly (it being understood that such separate trustee or co-trustee is not authorized to act separately without the Indenture Trustee joining in such act), except to the extent that under any law of any jurisdiction in which any

particular act or acts are to be performed, the Indenture Trustee shall be incompetent or unqualified to perform such act or acts, in which event such rights, powers, duties and obligations (including the holding of title to the Issuer's property or any portion thereof in any such jurisdiction) shall be exercised and performed singly by such separate trustee or co-trustee, but solely at the direction of the Indenture Trustee;

(ii) no trustee hereunder shall be personally liable by reason of any act or omission of any other trustee hereunder; and

(iii) the Indenture Trustee may at any time accept the resignation of or remove any separate trustee or co-trustee.

(c) Any notice, request or other writing given to the Indenture Trustee shall be deemed to have been given to each of the then separate trustees and co-trustees, as effectively as if given to each of them. Every instrument appointing any separate trustee or co-trustee shall refer to this Indenture and the conditions of this Article IX. Each separate trustee and co-trustee, upon its acceptance of the trusts conferred, shall be vested with the estates or property specified in its instrument of appointment, either jointly with the Indenture Trustee or separately, as may be provided therein, subject to all the provisions of this Indenture, specifically including every provision of this Indenture relating to the conduct of, affecting the liability of, or affording protection to, the Indenture Trustee. Every such instrument shall be filed with the Indenture Trustee.

(d) Any separate trustee or co-trustee may at any time appoint the Indenture Trustee, its agent or attorney-in-fact with full power and authority, to the extent not prohibited by applicable law, to do any lawful act under or in respect of this Indenture on its behalf and in its name. If any separate trustee or co-trustee shall die, become incapable of acting, resign or be removed, all of its estates, properties, rights, remedies and trusts shall vest in and be exercised by the Indenture Trustee, to the extent permitted by applicable law, without the appointment of a new or successor trustee.

9.14 Preservation of Information; Communications to Debtholders

(a) The Indenture Trustee will preserve, in as current a form as is reasonably practicable, the names and addresses of Registered Noteholders contained in the most recent list furnished to the Indenture Trustee as provided in Section 13.13 and the names and addresses of Registered Noteholders received by the Indenture Trustee in its capacity as Note Registrar. The Indenture Trustee may destroy any list furnished to it as provided in Section 13.13 upon receipt of a new list so furnished. The Indenture Trustee will also preserve, in as current a form as is reasonably practicable, the names and addresses of all other Specified Creditors received by the Indenture Trustee pursuant to subsections 5.01(f) and 5.03(b).

(b) If three or more Debtholders of any Class, Series or Tranche (hereinafter referred to as "**applicants**") (or, if there are less than three such Debtholders, all of the Debtholders) apply in writing to the Indenture Trustee, and furnish to the Indenture Trustee reasonable proof that each such applicant has owned an Issuer Funding Obligation of such Class, Series or Tranche for a period of at least six (6) months preceding the date of such application, and such application states that the applicants desire to communicate with all Debtholders (or such subset thereof as will be specified) with respect to their rights under this Indenture or under the applicable Issuer Funding Obligations and is accompanied by a copy of the form of proxy or other communication which such applicants propose to transmit, then the Indenture Trustee will, within five (5) Business Days after the receipt of such application, at its election, either:

(i) afford such applicants access to the information preserved at the time by the Indenture Trustee in accordance with subsection 9.14(a), or

(ii) inform such applicants as to the approximate number of Debtholders of all Issuer Funding Obligations (or such subset thereof as will be specified), as the case may be, whose names and addresses appear in the information preserved at the time by the Indenture Trustee in accordance with subsection 9.14(a) and as to the approximate cost of mailing to such Debtholders the form of proxy or other communication, if any, specified in such application.

If the Indenture Trustee shall elect not to afford such applicants access to such information, the Indenture Trustee shall, upon the written request of such applicants, mail to each applicable Lender and to each holder of a Registered Note of the applicable Classes, Series and Tranches whose names and addresses appear in the information preserved at the time by the Indenture Trustee in accordance with subsection 9.14(a), a copy of the form of proxy or other communication which is specified in such request, with reasonable promptness after a tender to the Indenture Trustee of the material to be mailed and of payment, or provision for the payment, of the reasonable expenses of mailing, unless, within five days after such tender, the Indenture Trustee shall mail to such applicants, together with a copy of the material to be mailed, a written statement to the effect that, in the opinion of the Indenture Trustee, such mailing would be contrary to the best interests of the Debtholders for which such mailing is intended or would be in violation of applicable law. Such written statement will specify the basis of such opinion.

(c) Every Debtholder agrees with the Issuer and the Indenture Trustee that neither the Issuer nor the Indenture Trustee will be held accountable by reason of the disclosure of any such information as to the names and addresses of the Debtholders in accordance with subsection 9.14(b), regardless of the source from which such information was derived, and that the Indenture Trustee will not be held accountable by reason of mailing any material pursuant to a request made under subsection 9.14(b).

9.15 Acceptance of Trusts by Indenture Trustee

The Indenture Trustee hereby accepts the trusts in this Indenture and agrees to perform the same upon the terms and conditions herein set forth.

9.16 Paying Agent

(a) The Paying Agent, on behalf of the Indenture Trustee, will make distributions to Specified Creditors from the Collection Account or other applicable Issuer Account pursuant to the provisions of this Indenture and any applicable Program Agreement and will report the amounts of such distributions to the Indenture Trustee. Any Paying Agent will have the revocable power to withdraw funds from the Collection Account or other applicable Issuer Account for the purpose of making the distributions referred to above.

(b) The Indenture Trustee may revoke such power and remove the Paying Agent if the Indenture Trustee determines in its sole discretion that the Paying Agent has failed to perform its obligations under this Indenture in any material respect. The Paying Agent upon removal will return all funds in its possession to the Indenture Trustee.

(c) The Issuer will cause each Paying Agent (other than the Indenture Trustee) to execute and deliver to the Indenture Trustee an instrument in which such Paying Agent will agree with the Indenture Trustee (and if the Indenture Trustee acts as Paying Agent, it so agrees), subject to the provisions of this Section 9.16, that such Paying Agent will:

(i) hold all sums held by it for the payment of principal of, interest, fees or other amounts in trust for the benefit of the Persons entitled thereto until such sums will be paid to such Persons or otherwise disposed of as herein provided;

(ii) if such Paying Agent is not the Indenture Trustee, give the Indenture Trustee notice of any default by the Issuer in the making of any such payment of principal or interest on any Issuer Funding Obligations;

(iii) if such Paying Agent is not the Indenture Trustee, at any time during the continuance of any such default, upon the written request of the Indenture Trustee, forthwith pay to the Indenture Trustee all sums so held in trust by such Paying Agent;

(iv) open and maintain appropriate records with respect to each Note; record by appropriate entries therein each payment made on account of interest, principal, fees and other amounts owing with respect to each such Note. For the purposes thereof, the Paying Agent shall provide to the Issuer and the Indenture Trustee satisfactory evidence of each payment as soon as practicable after making such payment. The failure to record, or any error in recording, any such payment shall not, however, limit or otherwise affect the obligations of the Issuer as to the principal amount or accrued interest

owing with respect to any Note. Such records of payment shall be conclusive evidence of the unpaid principal balance and interest owing in respect of the Notes in the absence of demonstrable error;

(v) immediately resign as a Paying Agent and, if such Paying Agent is not the Indenture Trustee, forthwith pay to the Indenture Trustee all sums held by it in trust for the payment of Issuer Funding Obligations if at any time it ceases to meet the standards described in this Section 9.16 required to be met by a Paying Agent at the time of its appointment; and

(vi) comply with all requirements of the Income Tax Act or any other applicable tax law with respect to the withholding from any payments made by it on any amounts contemplated under this Indenture of any applicable withholding taxes imposed thereon and with respect to any applicable reporting requirements in connection therewith.

(d) Each Paying Agent, if not OPG, will at all times have, or be a wholly owned subsidiary of a corporation which has, a combined capital and surplus of at least $50,000,000 and be subject to supervision or examination by a Canadian federal, provincial or territorial authority or be regulated by or subject to the supervision or examination of a Governmental Authority of a nation that is a member of the Organization for Economic Co-operation and Development. If such Paying Agent publishes reports of condition at least annually, pursuant to law or to the requirements of the aforesaid supervising or examining authority, then for the purposes of this subsection 9.16(d), the combined capital and surplus of such Paying Agent will be deemed to be its combined capital and surplus as set forth in its most recent report of condition as so published.

ARTICLE X
MEETINGS

10.01 Conduct of Meetings

Meetings of Debtholders of any Class, Series or Tranche, of all Issuer Funding Obligations or of all Controlling Class Obligations, as the case may be, may be convened, held and conducted in the following manner:

(a) At any time, and from time to time, the Indenture Trustee or the Issuer may, and the Indenture Trustee shall, on receipt of a written request of the Issuer or a requisition signed by Debtholders of a particular Class, Series or Tranche, of all Issuer Funding Obligations, **[of Controlling Class Obligations of a Series]** or of all Controlling Class Obligations (each of such groups of Debtholders being a "**Debtholder Group**"), as the case may be, holding at least 25% of the aggregate Outstanding Dollar Principal Amount of that Debtholder Group, convene a meeting of the Debtholders of that Debtholder Group. If the Indenture Trustee fails to convene a meeting after 30 days of being duly required by the Issuer or such Debtholders, the Issuer or such Debtholders may themselves convene such meeting

and, in the case of a meeting called by such Debtholders, the notice calling such meeting may be signed by such Person as those Debtholders specify. Every such meeting shall be held in the City of Toronto or such other place in Ontario, Canada as the Indenture Trustee may in any case determine or approve.

(b) At least 7 days' prior notice of any meeting shall be given to the Debtholders of the applicable Debtholder Group to which such meeting relates and to the Issuer, unless the meeting has been called by the Issuer, and such notice shall state the date, time and the place the meeting is to be held and shall specify, in general terms, the nature of the business to be transacted. It shall not be necessary to specify in the notice the text of the resolutions to be passed. Subject to Section 10.01(c), notices shall be given in the manner set forth in Article XV and a copy thereof shall be delivered to the Indenture Trustee unless the meeting has been called by it. It shall not be necessary to specify in the notice of any adjournment of a meeting the nature of the business to be transacted at the adjourned meeting. The non-receipt of any such notice by a Debtholder shall not invalidate any resolution passed at such meeting.

(c) At any meeting of a Debtholders Group, subject as herein provided, a quorum shall consist of two or more Persons present in person or by proxy holding either personally or as proxies not less than 25% of the Outstanding Dollar Principal Amount of the Issuer Funding Obligations of the applicable Debtholder Group entitled to vote at such meeting. If a quorum is not present on the date for which the meeting is called within 30 minutes after the time fixed for the holding of such meeting, the meeting shall be adjourned to be held at a place and upon a date and at an hour to be fixed by the Indenture Trustee who shall give not less than 7 days' notice of the date and time to which such meeting is to be adjourned and at such adjourned meeting a quorum shall consist of the Debtholders of that Debtholder Group then and there represented in person or by proxy and entitled to vote at such meeting.

(d) An individual, who need not be a Debtholder, nominated in writing by the Indenture Trustee shall be chairman of the meeting (a "**Chairman**"). If no individual is so nominated or if the individual nominated is not present within 25 minutes after the time fixed for the holding of the meeting, the Debtholders and proxies for Debtholders present shall choose one of their number to be Chairman.

(e) Every question submitted to a meeting, except matters requiring an Extraordinary Resolution, shall be decided by a majority of the votes given on a show of hands or, if a poll shall be requested as hereinafter provided, by a majority of the votes cast on the poll (in either case, an "**Ordinary Resolution**") and shall be binding on all Debtholders of the Debtholder Group. On a show of hands, each Debtholder who is present, whether in person or by proxy, will have one vote for every $1,000 of Outstanding Dollar Principal Amount of applicable Issuer Funding Obligations of which he or she shall be the Debtholder. A poll shall be taken on every Extraordinary Resolution and otherwise whenever requested by a Debtholder or its proxy. On a poll, each Debtholder shall have one vote for every $1,000 of Outstanding Dollar Principal Amount of applicable Issuer Funding Obligations of

which he or she shall be the Debtholder. Votes may be given in person or by proxy and a proxy need not be a Debtholder. If at any meeting a poll is so demanded as aforesaid on the election of a Chairman or on a question of adjournment, it shall be taken forthwith. If at any meeting a poll is so demanded on any other question, or an Extraordinary Resolution is to be voted upon, a poll shall be taken in such manner and either at once or after an adjournment as the Chairman directs. The result of a poll shall be deemed to be the decision of the meeting at which the poll was demanded and shall be binding on all Debtholders of the applicable Debtholder Group. In the case of joint Registered Noteholders, any one of them present in person or by proxy at the meeting may vote in the absence of the other or others but, if more than one of them is present in person or by proxy, they shall vote together in respect of the Notes of which they are joint Registered Noteholders.

10.02 Powers Exercisable by Ordinary Resolution and Extraordinary Resolution

(a) In addition to any powers hereinbefore given, Debtholders of a Class, Series or Tranche of Issuer Funding Obligations shall by Ordinary Resolution have the power to:

(i) require the Indenture Trustee (subject to receipt by the Indenture Trustee of reasonable funding and indemnity) to exercise or refrain from exercising any of the powers conferred upon it by this Indenture insofar as they apply solely to such Class, Series or Tranche or by the Related Funding Obligation Agreement;

(ii) sanction, insofar as they apply to the Class, Series or Tranche, the release of the Issuer from its covenants and obligations hereunder;

(iii) subject to the provisions of this Indenture or of the Related Funding Obligation Agreement, sanction any change whatsoever to any provision of the Issuer Funding Obligations of such Class, Series or Tranche which shall be agreed to by the Issuer and any modification, alteration, abrogation, compromise or arrangement of or in respect of the rights of the Debtholders of such Class, Series or Tranche or the Indenture Trustee against the Issuer, whether such rights shall arise under the provisions of this Indenture or otherwise;

(iv) subject to the provisions of this Indenture, assent to any modification of or change in or addition to or omission from the provisions contained in this Indenture, a Related Supplemental Indenture or any instrument ancillary or supplementary hereto or thereto, in each case, insofar as they apply to the Class, Series or Tranche, which shall be agreed to by the Issuer and to authorize the Indenture Trustee to concur in and execute any deed, instrument or agreement embodying any such modification, change, addition or omission or any other deeds, documents or writings authorized by such Ordinary Resolution; provided that no such assent shall be

necessary for any modification of or change in or addition otherwise permitted hereunder or under a Related Supplemental Indenture; and

(v) take any other Action authorized by this Indenture or a Related Supplemental Indenture to be taken by Ordinary Resolution of the Debtholders of a Class, Series or Tranche of Issuer Funding Obligations.

(b) In addition to any powers hereinbefore given, Debtholders of the Controlling Class Obligations shall by Extraordinary Resolution have the power to:

(i) after the Security Interest has become enforceable, authorize the Indenture Trustee to accept, in satisfaction or partial satisfaction, all or any part of the Collateral;

(ii) after the Security Interest has become enforceable, sanction the selling of the Collateral or any part thereof or interest therein;

(iii) after the Security Interest has become enforceable, authorize the Indenture Trustee or any other Person to bid or tender at any sale of the Collateral or any part thereof and take such actions in connection with such sale as it determines to be in the best interests of all Debtholders of Controlling Class Obligations;

(iv) assent to any compromise or arrangement by the Issuer with any creditor, creditors or class or classes of creditors or with the holders of any securities of the Issuer whose claims are payable from the Collateral;

(v) restrain any Debtholder from taking or instituting any suit, action or proceeding for the purpose of realizing on the Collateral or for the execution of any trust or power hereunder or for the appointment of a liquidator, receiver or trustee in bankruptcy or to have the Issuer liquidated or for any other remedy hereunder and to direct such Debtholder to waive any Event of Default on which any suit or proceeding is founded;

(vi) require the Indenture Trustee (subject to receipt by the Indenture Trustee of reasonable funding and indemnity) to exercise or refrain from exercising any other powers conferred upon it by this Indenture of general application to all Classes of Issuer Funding Obligations, including the exercise of any rights of the Issuer under any of the Program Agreements upon the occurrence and during the continuance of an Event of Default, or cancel any declaration of acceleration made pursuant to Article VIII upon such terms and/or conditions as may be decided;

(vii) authorize the Indenture Trustee, in the event of the Issuer making an authorized assignment or proposal or in the event of an administrator, trustee, receiver or liquidator being appointed under any applicable bankruptcy or insolvency legislation for and on behalf of all Specified Creditors and, in addition to any claim or debt provided or made for its own

account as Indenture Trustee hereunder, to file and prove a claim or debt against the Issuer or its property for an amount equivalent to the aggregate amount which may be payable in respect of all Issuer Funding Obligations, to value the Collateral, and to vote such claim or debt at meetings of creditors and generally act for and on behalf of all Debtholders in such proceedings as such Extraordinary Resolution may provide;

(viii) appoint a committee with power and authority (subject to such limitations, if any, as may be prescribed in such Extraordinary Resolution) to exercise, and to direct the Indenture Trustee to exercise, on behalf of all Debtholders of Controlling Class Obligations, such of the powers of such Debtholders as are exercisable by Extraordinary Resolution or other resolution as shall be included in the Extraordinary Resolution appointing the committee. The Extraordinary Resolution making such appointment may provide for payment of the expenses and disbursements of and compensation to such committee from the Collateral. Such committee shall consist of such number of Persons as shall be prescribed in the Extraordinary Resolution appointing it and the members need not themselves be Debtholders. Each such committee may elect a chairman and may make regulations respecting its quorum, the calling of its meetings, the filling of vacancies occurring in its number and its procedures generally. Such regulations may provide that the committee may act at a meeting at which a quorum is present or may act by minutes signed by the number of members thereof necessary to constitute a quorum. All acts of any such committee within the authority delegated to it shall be binding upon all Debtholders. Neither the committee nor any member thereof shall be liable for any loss arising from or in connection with any action taken or omitted to be taken by them in good faith;

(ix) take any other action authorized by this Indenture to be taken by Extraordinary Resolution; and

(x) permit the creation of any Lien on the Collateral that is prior to the Security Interest.

(c) The foregoing powers shall be deemed to be several and cumulative and not dependent on each other and the exercise of one or more of such powers, or any combination of such powers, from time to time, shall not be deemed to exhaust the rights of the Debtholders to exercise such power or powers, or combinations of powers, thereafter from time to time. No powers exercisable by Extraordinary Resolution shall derogate in any way from any rights of the Issuer under or pursuant to this Indenture. The Issuer shall give the Rating Agency notice of any Extraordinary Resolution adopted.

10.03 Extraordinary Resolution

An Extraordinary Resolution, adopted in accordance with the provisions hereof, shall be binding upon each and every Debtholder and each other Specified Creditor and their respective

heirs, executors, administrators, successors and assigns, whether present or absent, and the Indenture Trustee (subject to the provisions for funding and its indemnity herein contained) shall be bound to give effect thereto accordingly.

Except as expressly provided to the contrary in this Indenture, no action shall be taken at a meeting of the Debtholders of a Debtholder Group which changes any provision of this Indenture or changes or prejudices the exercise of any right of any Debtholder except by Extraordinary Resolution of the Debtholders of Controlling Class Obligations.

10.04 Declaration by Chairman of Result of Vote

At any meeting of the Debtholders of any Debtholder Group in cases where no poll is required or requested, a declaration made by the Chairman that a resolution has been carried, or carried by any particular majority, or lost, shall be conclusive evidence thereof.

10.05 Minutes

Minutes of all resolutions and proceedings at every such meeting, as aforesaid, shall be made and duly entered in books to be provided from time to time for that purpose by an agent of the Issuer at the expense of the Issuer and any such minutes, as aforesaid, if signed by the Chairman of the meeting at which such resolutions were passed or proceedings had shall be *prima facie* evidence of the matters therein stated and, until the contrary is proved, every such meeting in respect of the proceedings of which minutes shall have been made shall be deemed to have been duly held and convened and all resolutions passed or proceedings had thereat to have been duly passed and had.

10.06 Signed Instruments

Any resolution or instrument signed in one or more counterparts by (a) Debtholders holding not less than 50% of the aggregate Outstanding Dollar Principal Amount of Issuer Funding Obligations of a Debtholder Group, in the case of matters capable of being decided by Ordinary Resolution, and (b) Debtholders holding not less than 66⅔% of the aggregate Outstanding Dollar Principal Amount of Issuer Funding Obligations of all Controlling Class Obligations in the case of matters required to be decided by Extraordinary Resolution, shall, in either case, have the same force and effect as a resolution duly passed at a meeting of such Debtholders by the affirmative vote of all of the votes cast upon a poll. Notice of any Ordinary Resolution or Extraordinary Resolution passed in accordance with this Section 10.06 shall be given by the Indenture Trustee to all applicable Debtholders within 30 days of the date on which such Ordinary Resolution or Extraordinary Resolution was passed.

10.07 Persons Who May Attend

Each Debtholder, by their respective officers, directors, employees, and the legal advisers of such parties, may attend any meeting of Debtholders.

10.08 Binding Effect of Resolutions

Every Ordinary Resolution and every Extraordinary Resolution passed in accordance with the provisions of this Article X at a meeting of Debtholders of a Debtholder Group will be binding upon all of the Debtholders of such Debtholder Group whether present at or absent from such meeting, and every instrument in writing signed by Debtholders in accordance with Section 10.06 will be binding upon all of the Debtholders of such Debtholder Group, whether signatories thereto or not, and the Indenture Trustee will be bound to give effect accordingly to every such Ordinary Resolution, Extraordinary Resolution and instrument in writing. For greater certainty, any Extraordinary Resolution shall bind all Debtholders in accordance with Section 10.03.

10.09 Notes Regarded as Not Outstanding for Certain Purposes

If, in the opinion of the Indenture Trustee and upon receipt of an Issuer Certificate in respect of the following, any business to be transacted at any meeting of Debtholders or any action to be taken or power exercised by instrument in writing under Section 10.06 does not materially adversely affect the rights of the Debtholders of one or more particular Class, Series or Tranche of Issuer Funding Obligations, the provisions of this Article X shall apply as if the Issuer Funding Obligations of that Class, Series or Tranche were not outstanding, and no notice of any such meeting need be given to the Debtholders of that Class, Series or Tranche.

ARTICLE XI
SUPPLEMENTAL INDENTURES

11.01 Supplemental Indentures and Amendments Without Consent of Specified Creditors

Without the consent of Specified Creditors but with 10 Business Days' prior notice to each Rating Agency, the Issuer and the Indenture Trustee, at any time and from time to time, and upon delivery by the Issuer to the Indenture Trustee of an Issuer Certificate to the effect that the Issuer reasonably believes that such amendment will not have an Adverse Effect and is not reasonably expected to have an Adverse Effect at any time in the future, the Issuer may amend this Indenture, including any Supplemental Indenture or enter into one or more Supplemental Indentures, in form satisfactory to the Indenture Trustee, for any of the following purposes:

(a) to evidence the succession or successive successions of another Financing Entity to the Issuer, and the assumption by any such successor of the covenants of the Issuer herein and in the Notes; or

(f) to add any additional Events of Default in respect of any or all Classes, Series or Tranches of Issuer Funding Obligations; or

(g) to provide for the consolidation of any Financing Entity and the Issuer into a single Person or the transfer of assets in any Financing Entity to the Issuer; or

(h) if IESO is replaced under the Master Transfer and Servicing Agreement as Servicer, to make any necessary changes to this Indenture or any other related document; or

(i) to provide for additional forms of Credit Enhancement for any Class, Series or Tranche of Issuer Funding Obligations; or

(l) to qualify for sale treatment under generally accepted accounting principles.

Additionally, notwithstanding any provision of this Article XI to the contrary and in addition to clauses (a) through (l) above, the Issuer and the Indenture Trustee may amend this Indenture, including any Supplemental Indenture, without the consent of any Specified Creditor, to modify, eliminate or add to the provisions of this Indenture (i) to facilitate compliance with any amendment to any change of law or regulation which applies to the Issuer or the transactions governed by the Program Agreements, or (ii) to cause the provisions hereof to conform to or be consistent with or in furtherance of the statements made with respect to this Indenture in any applicable offering document; in each case, provided that the Issuer shall deliver to the Indenture Trustee an Issuer Certificate to the effect that (A) the Issuer reasonably believes that such amendment will not have an Adverse Effect and is not reasonably expected to have an Adverse Effect at any time in the future or (B) such amendment is required to remain in compliance with any change of law or regulation which applies to the Issuer or the transactions governed by the Program Agreements, or such amendment is required to cause the provisions hereof to conform to or be consistent with or in furtherance of the statements made with respect to this Indenture in any applicable offering document.

Additionally, notwithstanding any provision of this Article XI to the contrary and in addition to clauses (a) through (l) above and the immediately preceding paragraph, this Indenture, including any Supplemental Indenture, may also be amended by the Issuer and the Indenture

Trustee, without the consent of any Specified Creditor, for the purpose of (i) adding any provisions to, or changing in any manner or eliminating any of the provisions of, this Indenture or any Supplemental Indenture or (ii) modifying in any manner the rights of the Specified Creditors under this Indenture or any Supplemental Indenture; provided, however, that (A) the Issuer shall deliver to the Indenture Trustee an Issuer Certificate to the effect that the Issuer reasonably believes that such amendment will not have an Adverse Effect and is not reasonably expected to have an Adverse Effect at any time in the future, and (B) the Rating Agency Condition shall be satisfied.

Additionally, notwithstanding any provision of this Article XI to the contrary and in addition to clauses (a) through (l) above and the immediately preceding paragraphs, this Indenture, including any Supplemental Indenture, may also be amended by the Issuer and the Indenture Trustee, without the consent of any Specified Creditor, to provide for those changes necessary for compliance with securities law requirements or banking laws or regulations; provided, however, that (i) the Issuer shall deliver to the Indenture Trustee an Issuer Certificate to the effect that the Issuer reasonably believes that such amendment will not have an Adverse Effect and is not reasonably expected to have an Adverse Effect at any time in the future, and (ii) the Rating Agency Condition shall be satisfied.

The Issuer shall send a copy of any amendment to this Indenture or any Supplemental Indenture to each Rating Agency.

The Indenture Trustee may, but shall not be obligated to, enter into any amendment which adversely affects the Indenture Trustee's rights, duties, benefits, protections, privileges or immunities under this Indenture or otherwise.

11.02 Supplemental Indentures and Amendments with Consent of Debtholders

In addition to any amendment permitted pursuant to Section 11.01, with prior notice to each Rating Agency and the consent of Debtholders of each Class, Series or Tranche of Issuer Funding Obligations affected by such amendment of this Indenture, including any Supplemental Indenture, by Ordinary Resolution delivered to the Issuer and the Indenture Trustee, the Issuer and the Indenture Trustee may enter into an amendment of this Indenture or any Supplemental Indenture for the purpose of adding any provisions to, or changing in any manner or eliminating any of the provisions of, this Indenture or of modifying in any manner the rights of the Debtholders of each such Class, Series or Tranche of Issuer Funding Obligations under this Indenture or any Supplemental Indenture; provided, however, that no such amendment of this Indenture or any Supplemental Indenture will, without the consent of each Debtholder of Issuer Funding Obligations affected thereby:

(a) change the scheduled payment date of any payment of interest on any Issuer Funding Obligation, or change a Principal Payment Due Date or Principal Payment Default Date of any Issuer Funding Obligation;

(b) reduce the principal amount of, or the interest rate on any Note, or change the method of computing the Outstanding Dollar Principal Amount, the Outstanding Currency Specific Dollar Principal Amount or the Outstanding Dollar Principal Amount in a manner that is adverse to any Debtholders;

(c) reduce the amount of a Discount Note payable upon its acceleration;

(d) reduce the percentage in Outstanding Dollar Principal Amount of Issuer Funding Obligations of any Class, Series or Tranche, the consent of whose holders is required for any such amendment, or the consent of whose holders is required for any waiver of compliance with the provisions of this Indenture or of defaults hereunder and their consequences, provided for in this Indenture;

(e) modify any of the provisions of this Section 11.02 or Section 8.03, except to increase any percentage of Debtholders required to consent to any such amendment or to provide that other provisions of this Indenture cannot be modified or waived without the consent of the Debtholders affected thereby;

(f) change any Place of Payment where any principal of, or interest on, any Note is payable, unless otherwise provided in the Related Supplemental Indenture; or

(g) change the method of computing the amount of principal of, or interest on, any Note on any date.

An amendment of this Indenture or a Supplemental Indenture which changes or eliminates any covenant or other provision of this Indenture which has expressly been included solely for the benefit of one or more particular Classes, Series or Tranches of Issuer Funding Obligations, or which modifies the rights of the Debtholders of such Class, Series or Tranche with respect to such covenant or other provision, will be deemed not to affect the rights under this Indenture of the Debtholders of any other Class, Series or Tranche of Issuer Funding Obligations.

It will not be necessary for any Ordinary Resolution under this Section 11.02 to approve the particular form of any proposed amendment or Supplemental Indenture, but it will be sufficient if such Ordinary Resolution will approve the substance thereof.

11.03 Execution of Amendments and Supplemental Indentures

In executing or accepting the additional trusts created by any amendment of this Indenture or Supplemental Indenture permitted by this Article XI or the modifications thereby of the trusts created by this Indenture, the Indenture Trustee will be provided with, and (subject to Section 9.01) will be fully protected in relying upon, an Opinion of Counsel stating that the execution of such amendment or Supplemental Indenture is authorized or permitted by this Indenture and that all conditions precedent thereto have been satisfied. The Indenture Trustee may, but will not (except to the extent required in the case of an amendment or Supplemental Indenture entered into under subsection 11.01(e)) be obligated to, enter into any such amendment or Supplemental Indenture which affects the Indenture Trustee's own rights, duties or immunities under this Indenture or otherwise.

11.04 Effect of Amendments and Supplemental Indentures

Upon the execution of any amendment of this Indenture or any Supplemental Indenture under this Article XI, this Indenture and/or such Supplemental Indenture will be modified in accordance therewith with respect to each Class, Series or Tranche of Issuer Funding Obligations

affected thereby, or all Issuer Funding Obligations, as the case may be, and such amendment or Supplemental Indenture will form a part of this Indenture and such Supplemental Indenture for all purposes; and every holder of Issuer Funding Obligations theretofore or thereafter incurred and every other Specified Creditor will be bound thereby to the extent provided therein.

11.05 Reference in Notes to Supplemental Indentures

Notes authenticated and delivered after the execution of any amendment of this Indenture or any Supplemental Indenture pursuant to this Article XI may, and will if required by the Indenture Trustee, bear a notation in form approved by the Indenture Trustee as to any matter provided for in such amendment or Supplemental Indenture. If the Issuer will so determine, new Notes so modified as to conform, in the opinion of the Indenture Trustee and the Issuer, to any such amendment or Supplemental Indenture may be prepared and executed by the Issuer and authenticated and delivered by the Indenture Trustee in exchange for Outstanding Notes.

ARTICLE XII

effect affecting the rights of creditors generally, and (ii) equitable principles which may limit the availability of certain remedies, including the remedy of specific performance.

(e) There are no actions, suits or proceedings pending or, to the knowledge of the Issuer, threatened against or affecting the Issuer at law or in equity or before or by any Governmental Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of the Issuer or in the ability of the Issuer to perform its obligations under this Indenture, the other Program Agreements executed by it or any agreement or instrument delivered pursuant hereto or thereto; and the Issuer is not aware of any existing ground on which such action, suit or proceeding might be commenced with any reasonable likelihood of success or of any default with respect to any judgment, order, writ, injunction, decree, award, rule or regulation of any court, arbitrator or Governmental Authority, which, either separately or in the aggregate, would result in any such material adverse change.

(i) No consent, approval or authorization of, or declaration, registration, filing or qualification with, or giving of notice to, or taking of any other action in respect of, any Governmental Authority on the part of the Issuer is required in connection with the execution and delivery of this Indenture, the other Program Agreements executed by it or any agreements or instruments delivered pursuant hereto or thereto or the consummation of any of the transactions contemplated hereby or in

13.01 Payment of Principal and Interest

With respect to each Class, Series or Tranche of Issuer Funding Obligations, the Issuer will duly and punctually pay the principal of and interest on such Issuer Funding Obligations in accordance with their terms, this Indenture and any Related Funding Obligation Agreement, and will duly comply with all the other terms, agreements and conditions contained in, or made in this Indenture and any Funding Obligation Agreement.

The Issuer will maintain an office or agency in each Place of Payment where Notes may be presented or surrendered for payment, where Notes may be surrendered for transfer or exchange and where notices and demands to or upon the Issuer in respect of the Notes and this Indenture may be served. The Issuer will give prompt written notice to the Indenture Trustee of the location, and of any change in the location, of such office or agency. If at any time the Issuer will fail to maintain such office or agency or will fail to furnish the Indenture Trustee with the address thereof, such presentations, surrenders, notices and demands may be made or served at the Corporate Trust Office of the Indenture Trustee, and the Issuer hereby appoints the Indenture Trustee its agent to receive all such presentations, surrenders, notices and demands.

The Issuer may also from time to time designate one or more other offices or agencies where the Notes of one or more Classes, Series or Tranches may be presented or surrendered for any or all of such purposes specified above and may constitute and appoint one or more Paying Agents for the payments of such Notes, in one or more other cities, and may from time to time rescind such designations and appointments; provided, however, that no such designation, appointment or rescission shall in any matter relieve the Issuer of its obligations to maintain an office or agency in each Place of Payment for Notes of any Class, Series or Tranche for such purposes. The Issuer will give prompt written notice to the Indenture Trustee of any such designation or rescission and of any change in the location of any such other office or agency. Unless and until the Issuer rescinds one or more of such appointments, the Issuer hereby appoints the Indenture Trustee, as its Paying Agent in Toronto, Ontario with respect to all Series, Classes and Tranches of Notes having a Place of Payment in the City of Toronto, Ontario.

13.04 Legal Existence

The Issuer will do or cause to be done all things necessary to preserve and keep in full force and effect its legal existence and maintain its status as a Financing Entity.

13.05 Separateness Covenants

The Issuer will take all reasonable steps to maintain the Issuer's identity as a distinct entity with assets and liabilities distinct from those of the Manager and any of its Affiliates. Without limiting the generality of the foregoing and in addition to the other covenants set forth herein, the Issuer shall:

(a) not identify the offices of the Manager or any Affiliate thereof as its offices (by signage or otherwise);

(b) not identify the telephone number of the Manager as its telephone number and it will not utilize the stationery, invoices or cheques of the Manager;

(c) conduct all transactions with the Manager strictly on an arm's length basis and in good faith, allocate all overhead expenses for items shared between the Issuer and the Manager on the basis of actual use to the extent practicable and, to the extent such allocation is not practicable, on a basis reasonably related to actual use;

(d) conduct its affairs strictly in accordance with the Declaration of Trust, and observe all necessary, appropriate and trust formalities;

(e) maintain the Issuer's books and records separate from those of the Manager or any Affiliate thereof and otherwise readily identifiable as its own assets rather than assets of the Manager or any Affiliate thereof;

(f) prepare its financial statements separately from those of the Manager and ensure that any consolidated financial statements of the Manager that include the Issuer have notes clearly stating that the Issuer is a separate entity;

(g) only maintain bank accounts or other depository accounts to which the Issuer alone is the account party (or where the Issuer Trustee or the Indenture Trustee will maintain them on behalf of the Issuer), and from which only the Issuer or its agent has the power to make withdrawals;

(h) pay all of the Issuer's operating expenses from the Issuer's own assets (including, for greater certainty, reimbursing the Manager for any such expenses);

(i) continuously maintain the resolutions, agreements and other instruments of the Issuer underlying the transactions described in the Program Agreements as official records of the Issuer separately identified and held apart from the records of the Manager;

(j) maintain its property in such a manner that it is not costly or difficult to segregate, ascertain or otherwise identify its individual assets from or against those of the Manager or any Affiliate thereof; and

(k) not become liable to any Person for any obligations of the Manager or any Affiliate thereof.

13.06 Compliance with Laws

The Issuer will comply with the requirements of all applicable laws, the noncompliance with which would, individually or in the aggregate, materially and adversely affect the ability of the Issuer to perform its obligations under the Program Agreements.

13.07 Performance of Obligations

(a) The Issuer will punctually perform and observe all of its obligations and agreements contained in this Indenture, the Declaration of Trust, the Master Transfer and Servicing Agreement, the other Program Agreements and in the instruments and agreements relating to the Collateral, including but not limited to filing or causing to be filed all PPSA financing statements and amendments thereto required to be filed by the terms of this Indenture in accordance with and within the time periods provided for herein.

(b) The Issuer (i) will diligently pursue any and all actions to enforce its rights under each instrument or agreement included in the Collateral and (ii) will not take any action and will use its best efforts not to permit any action to be taken by others that would release any Person from any of such Person's covenants or obligations under any such instrument or agreement or that would result in the amendment, hypothecation, subordination, termination or discharge of, or impair the validity or effectiveness of, any such instrument or agreement, except, in each case, as expressly provided in this Indenture, the Master Transfer and Servicing Agreement or any other Program Agreement.

(c) The Issuer will enforce the Servicer's compliance with and performance of all of the Servicer's material obligations under the Master Transfer and Servicing Agreement. The Issuer will enforce the Manager's compliance with and performance of all of the Manager's material obligations under the Management Agreement.

13.08 Funding Obligations

The Issuer will ensure that all indebtedness is incurred pursuant to and in accordance with Article V.

13.09 Financial Statements

The Issuer will deliver or cause to be delivered to the Indenture Trustee and the Rating Agencies within 140 days after the end of each fiscal year audited financial statements of the Issuer

for the fiscal year, including the balance sheet and statements of income, retained earnings and changes in financial position of the Issuer, and within 90 days after the end of each fiscal quarter, other than the fiscal quarter of the Issuer ending on the fiscal year end of the Issuer, unaudited financial statements of the Issuer for such fiscal quarter of the Issuer, including the balance sheet and statements of income, retained earnings and changes in financial position of the Issuer.

13.10 Statement as to Compliance

The Issuer will deliver to the Indenture Trustee and the Rating Agencies, on or before March 31 of each year, beginning in 2018, a written statement signed by a Responsible Officer of the Issuer stating that:

(a) a review of the activities of the Issuer during the prior year and of the Issuer's performance under this Indenture and under the terms of the Notes has been made under such Responsible Officer's supervision; and

(b) to the best of such Responsible Officer's knowledge, based on such review, the Issuer has complied in all material respects with all conditions and covenants under this Indenture throughout such year and that no Event of Default has occurred (without regard to any grace period or requirement of notice), or, if there has been a material default in the fulfillment of any such condition or covenant or an Event of Default has occurred (without regard to any grace period or requirement of notice), specifying each such default known to such Responsible Officer and the nature and status thereof.

13.11 Payment Instruction

Promptly after the receipt by the Issuer of each Monthly Report under the Master Transfer and Servicing Agreement, the Issuer will, in cooperation with the Manager, complete the Payment Instruction and deliver a copy thereof to the Indenture Trustee and the Paying Agent (if the Paying Agent is not the Indenture Trustee).

13.12 Notice of Events of Default

The Issuer agrees to give the Indenture Trustee and the Rating Agencies prompt written notice of (i) each Event of Default, (ii) each breach on the part of the Issuer or the Servicer of its respective obligations under the Master Transfer and Servicing Agreement, (iii) each breach on the part of the Manager of its obligations under the Management Agreement, and (iv) any default of the Issuer or a Derivative Counterparty under a Derivative Agreement.

13.13 Issuer To Furnish Indenture Trustee Names and Addresses of Specified Creditors

(a) The Issuer will furnish or cause to be furnished to the Indenture Trustee:

(i) not more than 15 days after each Record Date, in such form as the Indenture Trustee may reasonably require, a list of the names and addresses of the Registered Noteholders of such Classes, Series or Tranches as of such date, and

(ii) at such other times as the Indenture Trustee may request in writing, within 30 days after the receipt by the Issuer of any such request, a list of similar form and content as of a date not more than 15 days before the time such list is furnished;

provided, however, that so long as the Indenture Trustee is the Note Registrar, no such lists shall be required to be furnished.

(b) Upon written request from the Indenture Trustee, within 30 days after the receipt by the Issuer of any such request, the Issuer will furnish or cause to be furnished to the Indenture Trustee a list of the names and addresses of all other Specified Creditors.

13.14 Other Positive Covenants

The Issuer will:

(a) in the event that the Issuer shall be required to file tax returns, the Manager shall prepare or shall cause to be prepared such tax returns and shall provide such tax returns to the Issuer for signature at least five (5) Business Days before such tax returns are due to be filed. The Issuer, in accordance with the terms of each applicable Supplemental Indenture, shall also prepare or shall cause to be prepared all tax information required by applicable law to be distributed to any Noteholder and shall deliver such information to the Indenture Trustee at least 5 Business Days prior to the date it is required by applicable law to be distributed to any Noteholder. The Indenture Trustee, upon written request, will furnish the Manager with all such information known to the Indenture Trustee as may be reasonably requested and required in connection with the preparation of all tax returns of the Issuer;

(b) pay or cause to be paid all Taxes levied, assessed or imposed upon the Issuer and its property or any part thereof, as and when the same become due and payable; provided that the Issuer may protest the payment of any such Taxes if it is acting in good faith and if it either provides the Indenture Trustee with cash in an amount sufficient to satisfy the same or otherwise satisfies the Indenture Trustee that its interests are not prejudiced thereby and the Rating Agency Condition is satisfied;

(c) upon the written request of the Indenture Trustee, use reasonable commercial efforts, following any (i) termination or resignation of the Servicer, the Manager or the Paying Agent or, in each case, any successor thereof; or (ii) termination, non-renewal or expiry of a Liquidity Agreement or a Credit Enhancement Agreement (other than, in the latter case, a termination, non-renewal or expiry which occurs because neither party thereto has any further obligation thereunder), to appoint and enter into an agreement with a successor to such Servicer, Manager or Paying Agent, or replace or renew such Liquidity Agreement or Credit Enhancement Agreement, in form and substance the same as the applicable provisions in the previously existing Program Agreement and will notify the Indenture Trustee and the Rating Agencies of each such occurrence and new agreement, and will execute

and deliver all Supplemental Indentures and amendments hereto and all instruments of further assurance and other instruments and will take other and further action as the Indenture Trustee, relying on the advice of counsel, may consider necessary or advisable to assign and render subject to this Indenture any such agreement; and

13.15 Rule 144A Information

For so long as Notes of any Class, Series or Tranche are "restricted securities" within the meaning of Rule 144(a)(3) under the Securities Exchange Act, the Issuer agrees to provide to any Noteholder of such Class, Series or Tranche and to any prospective purchaser of Notes designated by such Noteholder, upon the request of such Noteholder or prospective purchaser, any information required to be provided to such Noteholder or prospective purchaser to satisfy the conditions set forth in Rule 144A(d)(4) under the Securities Exchange Act.

13.16 Further Instruments and Acts

Upon request of the Indenture Trustee or as necessary, the Issuer will execute and deliver such further instruments and do such further acts (including, but not limited to, disclosing or causing to be disclosed information) as may be reasonably necessary or proper to carry out more effectively the purpose of this Indenture.

13.17 No Other Business

The Issuer will not engage in any business other than as permitted under the Declaration of Trust or the other Program Agreements and activities ancillary thereto.

13.18 Amendments to Program Agreements

(a) The Issuer will not:

(i) amend, supplement, modify, restate or replace, or waive or consent to a postponement of compliance with the terms and conditions on the part of any other party to, any of the Funding Obligation Agreements (other than this Indenture and Derivative Agreements) if any such supplementation, amendment, modification, restatement or replacement, or waiver or consent, could reasonably be considered to be materially prejudicial to the rights or interests of any Specified Creditor, except as expressly permitted

by such Specified Creditor, and unless the Rating Agency Condition is satisfied; or

(ii) consent, if consent is required, to the resignation of the Manager under the Management Agreement unless the Rating Agency Condition is satisfied.

(b) The Issuer will not amend the Declaration of Trust if such amendment would have an Adverse Effect or would reasonably be expected to have an Adverse Effect at any time in the future; provided that if an amendment would have, or would reasonably be expected to have, an Adverse Effect, such amendment may only be made with the consent of the Debtholders affected thereby, acting pursuant to an Ordinary Resolution.

13.19 Issuer May Consolidate, Etc., Only on Certain Terms

The Issuer shall not consolidate or merge with or into any other Person, or sell, convey, exchange, transfer or otherwise dispose of any of its properties or assets included in the Collateral to any Person (in this Section 13.19, a "**transaction**"), unless:

(a) the Person (if other than the Issuer) formed by or surviving the consolidation or merger, or the Person that acquires by conveyance or transfer the properties and assets of the Issuer the conveyance or transfer of which is restricted, as applicable, shall: (i) be a Financing Entity, (ii) be organized and existing under the laws of Canada or any province or territory thereof, (iii) not be a Non-resident, (iv) not be subject to regulation as an "investment company" under the Investment Company Act, (v) expressly assume, pursuant to an assignment and/or assumption agreement or supplement executed and delivered to the Indenture Trustee, in a form satisfactory to the Indenture Trustee, the due and punctual payment of all Obligations Secured then outstanding and the performance or observance of every agreement and covenant of the Issuer in this Indenture and the other Program Agreements to which the Issuer is a party; and (vi) in the case of a conveyance or transfer only, expressly agree, by means of such assignment and/or assumption agreement or supplement, that (A) all right, title and interest so conveyed or transferred is subject and subordinate to the Security Interest, and (B) it shall make all filings required by applicable securities laws in connection with the Notes;

16.03 U.S. Tax Treatment

The Issuer and each Noteholder that is a United States Person agree that the Notes are intended to be debt for United States federal, state and local income and franchise tax purposes and agree to treat the Notes accordingly for all such purposes, unless otherwise required by a taxing authority. Each Noteholder that is a United States Person further agrees that it will cause any Note Owner that is a United States Person acquiring an interest in a Note through it to comply with this Indenture as to treatment as indebtedness for United States federal, state and local income and franchise tax purposes as described in this Section 16.02.

16.04 Alternate Payment Provisions

The Indenture Trustee shall give such notice to the Note Registrar and the Paying Agent at the time such notice is given to Noteholders.

(b) Notwithstanding a final distribution to the Noteholders of any Class, Series or Tranche of Notes (or the termination of the Issuer), except as otherwise provided in this paragraph, all funds then on deposit in any Series Account allocated solely to such Noteholders shall continue to be held in trust for the benefit of such Noteholders, and the Paying Agent or the Indenture Trustee shall pay such funds to such Noteholders upon surrender of their Notes, if certificated. In the event that all such Noteholders shall not surrender their Notes for cancellation within 6 months after the date specified in the notice from the Indenture Trustee described in paragraph (a), the Indenture Trustee shall give a second notice to the remaining such Noteholders to surrender their Notes for cancellation and receive the final distribution with respect thereto (which surrender and payment, in the case of Bearer Notes, shall be outside the United States **[and Canada]**). If within one year after the second notice all such Notes shall not have been surrendered for cancellation, the Indenture Trustee may take appropriate steps, or may appoint an agent to take appropriate steps, to contact the remaining such Noteholders concerning surrender of their Notes, and the cost thereof shall be paid out of the funds in the Collection Account or any Series Account held for the benefit of such Noteholders. The Indenture Trustee and the Paying Agent shall pay to the Issuer any monies held by them for the payment of principal or interest that remains unclaimed for 2 years. After payment to the Issuer, Noteholders entitled to the

money must look to the Issuer for payment as general creditors unless an applicable abandoned property law designates another Person.

16.06 Force Majeure

In no event shall the Indenture Trustee or the Issuer Trustee be responsible or liable for any failure or delay in the performance of its obligations hereunder arising out of or caused by, directly or indirectly, forces beyond its control, including, without limitation, strikes, work stoppages, accidents, acts of war or terrorism, civil or military disturbances, nuclear or natural catastrophes or acts of God, and interruptions, loss or malfunctions of utilities, communications or computer (software and hardware) services; it being understood that the Indenture Trustee and the Issuer Trustee shall use reasonable efforts which are consistent with accepted practices in the banking industry to resume performance as soon as practicable under the circumstances.

1.04 Actions by Noteholders

(a) Any request, demand, authorization, direction, notice, consent, **resolution,** waiver or other action (collectively, an "**Action**") provided by this Indenture to be given or taken by Noteholders of any **Class,** Series~~, Class~~ or Tranche may be embodied in and evidenced by one or more instruments of substantially similar tenor signed by such Noteholders in person or by an agent duly appointed in writing. ~~If Notes~~

~~of a Series, Class or Tranche are issuable in whole or in part as Bearer Notes~~**In addition**, any Action provided by this Indenture to be given or taken by such Noteholders may, alternatively, be embodied in and evidenced by the record of such Noteholders voting in favor thereof, either in person or by proxies duly appointed in writing, at any meeting of Noteholders duly called and held in accordance with the provisions of Article X or a combination of such instruments and any such record. Except as herein otherwise expressly provided, such Action will become effective when such instrument or instruments or record are delivered to the Indenture Trustee, and, where it is hereby expressly required, to the Issuer. Proof of execution of any such instrument or of a writing appointing any such agent, or the holding by any Person of a Note, will be sufficient for any purpose of this Indenture and (subject to Section 9.01) conclusive in favor of the Indenture Trustee and the Issuer, if made in the manner provided in this Section 1.04. The record of any meeting of Noteholders shall be proved in the manner provided in Article X.

(b) ~~The fact and date of the execution by any Person of any such instrument or writing may be proved by the affidavit of a witness to such execution or by the certificate of any notary public or other officer authorized by applicable law to take acknowledgments of deeds, certifying that the individual signing such instrument or writing acknowledged to him the execution thereof. Where such execution is by an officer of a corporation or limited liability company, or a partner of a partnership, on behalf of such corporation, limited liability company or partnership, such certificate or affidavit will also constitute sufficient proof of his or her authority.~~ The fact and date of the execution of any such instrument or writing, or the authority of the person executing the same, may ~~also~~ be proved in any ~~other~~ manner which the Indenture Trustee deems sufficient.

(c) (i) The ownership of Registered Notes will be proved by the Note Register.

(ii) The ownership of Bearer Notes or coupons will be proved by the production of such Bearer Notes or coupons or by a certificate, satisfactory to the Issuer and the Indenture Trustee, executed, as depositary, by any bank, trust company, recognized securities dealer, as depositary, wherever situated, satisfactory to the Issuer. Each such certificate will be dated and will state that on the date thereof a Bearer Note or coupon bearing a specified serial number was deposited with or exhibited to such bank, trust company or recognized securities dealer by the Person named in such certificate. Any such certificate may be issued in respect of one or more Bearer Notes or coupons specified therein. The holding by the Person named in any such certificate of any Bearer Note specified therein will be presumed to continue for a period of one year from the date of such certificate unless at the time of any determination of such holding (A) another certificate bearing a later date is issued in respect of the same Bearer Note or coupon produced, (B) the Bearer Note or coupon specified in such certificate is produced by some other Person or (C) the Bearer Note or coupon specified in such certificate has ceased to be Outstanding.

(d) The fact and date of execution of any such instrument or writing, the authority of the Person executing the same and the principal amount and serial numbers of Bearer Notes held by the Person so executing such instrument or writing and the date of holding the same may also be proved in any other manner which the Indenture Trustee deems sufficient; and the Indenture Trustee may in any instance require further proof with respect to any of the matters referred to in this Section 1.04.

(e) If the Issuer will solicit from the Noteholders any Action, the Issuer may, at its option, by an Issuer Certificate, fix in advance a record date for the determination of Noteholders entitled to give such Action, but the Issuer will have no obligation to do so. If the Issuer does not so fix a record date, such record date will be the later of 30 days before the first solicitation of such Action or the date of the most recent list of Noteholders furnished to the Indenture Trustee pursuant to Section 13.13 before such solicitation. Such Action may be given before or after the record date, but only the Noteholders of record at the close of business on the record date will be deemed to be Noteholders for the purposes of determining whether Noteholders of the requisite proportion of Outstanding Notes have authorized or agreed or consented to such Action, and for that purpose the Outstanding Notes will be computed as of the record date; provided that no such authorization, agreement or consent by the Noteholders on the record date will be deemed effective unless it will become effective pursuant to the provisions of this Indenture not later than 6 months after the record date.

(f) Any Action by a Noteholder will bind the holder of every Note issued upon the transfer thereof or in exchange therefor or in lieu thereof, in respect of anything done or suffered to be done by the Indenture Trustee or the Issuer in reliance thereon whether or not notation of such Action is made upon such Note.

(g) Without limiting the foregoing, a Noteholder entitled hereunder to take any Action hereunder with regard to any particular Note may do so with regard to all or any part of the principal amount of such Note or by one or more duly appointed agents each of which may do so pursuant to such appointment with regard to all or any part of such principal amount. Any notice given or Action taken by a Noteholder or its agents with regard to different parts of such principal amount pursuant to this paragraph shall have the same effect as if given or taken by separate Noteholders of each such different part.

(h) Without limiting the generality of the foregoing, unless otherwise specified ~~pursuant to Section 4.01 or~~ pursuant to one or more Supplemental Indentures, a Noteholder, including a Depository that is the holder of a Global Note, may make, give or take, by a proxy or proxies duly appointed in writing, any Action provided in this Indenture to be made, given or taken by Noteholders, and a Depository that is the holder of a Global Note may provide its proxy or proxies to the beneficial owners of interests in or security entitlements to any such Global Note through such Depository's standing instructions and customary practices.

(i) The Issuer may fix a record date for the purpose of determining the Persons who are beneficial owners of interests in or security entitlements to any Global Note held by a Depository entitled under the procedures of such Depository to make, give or take, by a proxy or proxies duly appointed in writing, any Action provided in this Indenture to be made, given or taken by Noteholders. If such a record date is fixed, the Noteholders on such record date or their duly appointed proxy or proxies, and only such Persons, shall be entitled to make, give or take such Action, whether or not such Noteholders remain Noteholders after such record date. No such Action shall be valid or effective if made, given or taken more than ~~90~~**six months** days after such record date.

1.05 Actions of Other Specified Creditors

Any Action provided by this Indenture to be given or taken by any Specified Creditor (other than Noteholders) may be embodied in and evidenced by one or more instruments of substantially similar tenor signed by such Specified Creditor in person or an agent duly appointed in writing. Proof of execution of any such instrument or of a writing appointing any such agent will be sufficient for any purpose of this Indenture and (subject to Section 9.01) conclusive in favour of the Indenture Trustee and the Issuer, if made in the manner provided in Section 1.04(b).

1.13 Interest Act

For the purpose of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest to which any rate of interest payable under this Indenture that is calculated on any basis other than a full calendar year is equivalent may be determined by multiplying such rate by a fraction, the numerator of which is the actual number of days in the calendar year in which such yearly rate of interest is to be ascertained and the denominator of which is the number of days comprising such other basis. The parties further agree that for the purposes of the *Interest Act* (Canada), (i) the principle of deemed reinvestment of interest shall not apply to any interest calculation under this Indenture or the Notes, and (ii) the rates of interest stipulated in this Indenture or the Notes are intended to be nominal rates and not effective rates or yields.

2.10 Certain Commercial Law Representations and Warranties

The Issuer hereby makes the following representations and warranties. Such representations and warranties shall survive until the termination of this Indenture. Such representations and warranties speak of the date that a Lien in the Collateral is granted to the Indenture Trustee and shall not be waived by any of the parties to this Indenture unless the Rating Agency Condition is satisfied.

(a) This Indenture constitutes the grant of a first priority perfected Lien by the Issuer to the Indenture Trustee in the Collateral which, in the case of the existing Collateral and the proceeds thereof, is enforceable upon execution and delivery of this Indenture or, with respect to after-acquired property, as of the date such property is acquired, and which will be enforceable with respect to the Collateral hereafter and thereafter created and the proceeds thereof upon such creation. The Temporary Global Note may be exchanged as described below or in the Related Supplemental Indenture for permanent global Bearer Notes or Registered Notes (the "**Permanent Global Notes**").

(b) Unless otherwise provided in the Related Supplemental Indenture, exchanges of beneficial interests in or security entitlements to Temporary Global Notes for beneficial interests in or security entitlements to Permanent Global Notes will be made as provided in this subsection 3.05(b). The Manager will, upon its determination of the date of completion of the distribution of the Notes of such Series~~, Class or Tranche~~, so advise the Indenture Trustee, the Issuer, the Foreign Depository, and each foreign clearing agency forthwith. (d) Upon any such exchange of all or a portion of the Temporary Global Note for a Permanent Global Note(s), such Temporary Global Note will be endorsed by or on behalf of the Indenture Trustee to reflect the reduction of its principal amount by an amount equal to the aggregate principal amount of such Permanent Global Note(s). Until so exchanged in full, such Temporary Global Note will in all respects be entitled to the same benefits under this Indenture as Permanent Global Notes authenticated and delivered hereunder except that the beneficial owners of such Temporary Global Note will not be entitled to receive payments of interest on the Notes until they have exchanged their beneficial interests in or security entitlements to such Temporary Global Note for Permanent Global Notes.

Each Bearer Note surrendered pursuant to this Section 4.05 will have attached thereto all unmatured coupons; provided, however, that any Bearer Note, so surrendered after the close of business on the last day of the month preceding the relevant Payment Date need not have attached the coupon relating to such Payment Date. Whenever any Notes are so surrendered for exchange, the Issuer will execute, and the Indenture Trustee will authenticate and deliver (in the case of Bearer Notes, outside Canada and the United States), the Notes which the Noteholders making the exchange are entitled to receive.

(d) All Notes issued upon any transfer or exchange of Notes will be the valid and legally binding obligations of the Issuer, evidencing the same debt, and entitled to the same benefits under this Indenture, as the Notes surrendered upon such transfer or exchange.

(e) Every Note presented or surrendered for transfer or exchange will (if so required by the Issuer or the Indenture Trustee) be duly endorsed, or be accompanied by a written instrument of transfer in form satisfactory to the Issuer and the Note Registrar duly executed, by the Noteholder or his attorney duly authorized in writing.

(f) Unless otherwise provided in the Note to be transferred or exchanged, no service charge will be made on any Noteholder for any transfer or exchange of Notes, but the Issuer may (unless otherwise provided in such Note) require payment of a sum sufficient to cover any Tax or other governmental charge that may be imposed in connection with any transfer or exchange of Notes before the transfer or exchange will be complete, other than exchanges pursuant to Section 4.04 or Section 11.05 not involving any transfer.

(g) None of the Issuer, the Note Registrar or the Indenture Trustee shall be required (i) to issue, register the transfer of or exchange any Notes of any **Class,** Series~~, Class~~ or Tranche during a period beginning at the opening of business 15 days

before the day of selection of Notes of such **Class,** Series~~, Class~~ or Tranche to be redeemed and ending at the close of business on (A) if Notes of such **Class,** Series~~, Class~~ or Tranche are issuable only as Registered Notes, the day of the mailing of the relevant notice of redemption of Registered Notes of such **Class,** Series~~, Class~~ or Tranche so selected for redemption or (B) if Notes of the **Class,** Series~~, Class~~ or Tranche are issuable as Bearer Notes, the day of the first publication of the relevant notice of redemption or, if Notes of the **Class,** Series~~, Class~~ or Tranche are also issuable as Registered Notes and there is no publication, the mailing of the relevant notice of redemption or (ii) to register the transfer or exchange of any Notes or portions thereof so selected for redemption.

(h) Notwithstanding anything herein to the contrary, the exchange of Bearer Notes into Registered Notes shall be subject to applicable laws and regulations in effect at the time of exchange; none of the Issuer, the Indenture Trustee or the Note Registrar shall exchange any Bearer Notes into Registered Notes if it has received an Opinion of Counsel that as a result of such exchanges the Issuer would suffer adverse consequences under the Canadian or United States federal income tax laws and regulations then in effect, or the income tax laws of the jurisdiction of the holder of the Bearer Note, and the Issuer has delivered to the Indenture Trustee an Issuer Certificate directing the Indenture Trustee not to make such exchanges unless and until the Indenture Trustee receives a subsequent Issuer Certificate to the contrary. The Issuer shall deliver copies of such Issuer Certificates to the Note Registrar.

(i) None of the Issuer, the Indenture Trustee, any agent of the Indenture Trustee, any Paying Agent or the Note Registrar will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership of a Global Note or for maintaining, supervising or reviewing any records relating to such beneficial ownership.

(j) The Issuer initially appoints the Indenture Trustee to act as Note Registrar for the Registered Notes on its behalf. Notes issued upon registration or transfer of, or Notes issued in exchange for, Notes bearing the legend referred to above will also bear such legend and any other legends required by the Related Supplemental Indenture unless the Issuer, the Indenture Trustee and the Note Registrar receive an Opinion of Counsel, satisfactory to each of them, to the effect that such legend may be removed.

Whenever a Note containing the legend referred to above is presented to the Note Registrar for registration of transfer, the Note Registrar will promptly seek instructions from the Issuer regarding such transfer and will be entitled to receive an Issuer Certificate prior to registering any such transfer. The Issuer hereby agrees to indemnify the Note Registrar and the Indenture Trustee and to hold each of them harmless against any loss, liability or expense incurred without negligence or bad faith on their part arising out of or in connection with actions taken or omitted by them in relation to any such instructions furnished pursuant to this clause. The Indenture Trustee shall have no obligation or duty to monitor, determine or inquire as to compliance with any restrictions on transfer imposed under this Indenture, the Related Supplemental Indenture, or under applicable law with respect to any transfer of any interest in any Note other than to require delivery of such certificates and other documentation or evidence as are expressly required by, and to do so if and when expressly required by the terms of, this Indenture, and to examine the same to determine substantial compliance as to form with the express requirements hereof.

(l) By acquiring a Note, each Noteholder that is a United States Person will be deemed to represent, warrant and covenant that either: (i) it is not acquiring the Note (or any interest therein) with the assets of a Benefit Plan or a governmental, church or non-U.S. plan that is subject to any federal, state, local or other non-U.S. law that is substantially similar to Section 406 of ERISA or Section 4975 of the Internal Revenue Code ("**Similar Law**"); or (ii) (A) the Note is rated at least "BBB-" or its equivalent by a nationally recognized statistical rating agency at the time of purchase or transfer, and (B) the acquisition, holding and disposition of the Note will not give rise to a non-exempt prohibited transaction

(b) In case any such mutilated, destroyed, lost or stolen Note has become or is about to become due and payable, the Issuer in its discretion may, instead of issuing a new Note, pay such Note.

(c) Upon the issuance of any new Note under this Section 4.06, the Issuer may require the payment of a sum sufficient to cover any Tax or other governmental charge that may be imposed in relation thereto and any other expenses (including the fees and expenses of the Indenture Trustee) connected therewith.

(d) Every new Note issued pursuant to this Section 4.06 in lieu of any destroyed, lost or stolen Note will constitute an original additional contractual obligation of the Issuer, whether or not the destroyed, lost or stolen Note will be at any time enforceable by anyone, and will be entitled to all the benefits of this Indenture equally and proportionately with any and all other Notes of the same **Class,** Series~~, Class~~ or Tranche duly issued hereunder.

(e) In the case of the death of one or more joint registered owners, the principal money of and interest, if any, on a Note may be paid to the survivor or survivors of such registered Noteholders whose receipt thereof, accompanied by the delivery of such Note, shall constitute a valid discharge to the Issuer and the Paying Agent.

(f) Any payment of principal or interest on any Note which is due on a day other than a Business Day shall be payable on the next succeeding Business Day without adjustment for interest thereon and such payment shall be deemed to have been made with the same force and effect as if made on the due date.

(g) Upon the Paying Agent's reasonable request therefor, the Issuer will (i) provide the Paying Agent with any information in its possession or (ii) assist the Paying Agent (to the extent necessary and it is commercially reasonable for the Issuer to do so) to obtain information, in each case, to the extent such information is required by the Paying Agent to comply with its tax reporting and withholding obligations under applicable law with respect to payments to be made to Specified Creditors pursuant to this Indenture and the other Program Agreements, unless the Issuer is prohibited from doing so by applicable law or an obligation of confidentiality by which the Issuer is bound.

The Indenture Trustee shall acknowledge receipt of the Notes so delivered by signing and returning to the Issuer an acknowledgement of receipt of the Notes, such acknowledgement to be in a form satisfactory to the Issuer.

(b) The Indenture Trustee's responsibility for any Notes held in its custody hereunder shall be limited to using the same diligence in physically safeguarding such Notes as it does for its own securities. (d) a default in the performance, or breach, of any covenant of the Issuer in this Indenture in respect of any Controlling Class Obligations (other than an agreement, covenant or warranty a default in the performance of which or the breach of which is elsewhere specifically dealt with in this Section 8.01), all of such covenants in this Indenture which are not expressly stated to be for the benefit of a particular Series of Issuer Funding Obligations being deemed to be in respect of all Series of Issuer Funding Obligations for this purpose, and continuance of such default or breach for a period of ~~90~~**60** days after notice thereof has been given, by registered or certified mail, to the Issuer by the Indenture Trustee or to the Issuer and the Indenture Trustee by Debtholders holding at least 25% of the Outstanding Dollar Principal Amount of all Controlling Class Obligations, a written notice specifying such default or breach and requesting it to be remedied and stating that such notice is a "Notice of

8.02 Acceleration of Maturity; Rescission and Annulment

[NTD: to be determined if acceleration should be determined on a series by series basis.]

(a) If an Event of Default (other than an Event of Default described in clause (e), (f) or (g) of Section 8.01) occurs and is continuing, then and in each and every such case, unless the principal of all the Controlling Class Obligations shall have already become due and payable, either the Indenture Trustee or Debtholders holding not less than 50% of the Outstanding Dollar Principal Amount of all Controlling Class Obligations (treated as one class), by notice in writing to the Issuer (and to the Indenture Trustee if given by such Debtholders), may declare the Outstanding Dollar Principal Amount of all Issuer Funding Obligations (other than Derivative Funding Obligations) and all interest accrued or principal accreted and unpaid (if any) thereon to be due and payable immediately, and upon any such declaration the same will become and will be immediately due and payable, notwithstanding anything in this Indenture or any Funding Obligation Agreement to the contrary.

(b) If an Event of Default described in clause (e), (f) or (g) of Section 8.01 occurs and is continuing, then all Series of Issuer Funding Obligations (other than Derivative Funding Obligations) will automatically be and become immediately due and payable by the Issuer, without notice or demand to any Person, and the Issuer will

automatically and immediately be obligated to pay off the Issuer Funding Obligations.

(c) At any time after such a declaration of acceleration has been made or an automatic acceleration has occurred with respect to the Issuer Funding Obligations (other than Derivative Funding Obligations) and before a judgment or decree for payment of the money due has been obtained by the Indenture Trustee as hereinafter provided in this Article VIII, Debtholders of Controlling Class Obligations may, by Extraordinary Resolution, rescind and annul such declaration and its consequences if:

(i) the Issuer has paid or deposited with the Indenture Trustee a sum sufficient to pay (A) all overdue installments of interest on the Controlling Class Obligations, (B) the principal of any Controlling Class Obligations which have become due otherwise than by such declaration of acceleration, and interest thereon at the rate or rates prescribed therefor by the terms of the Related Funding Obligation Agreements, to the extent that payment of such interest is lawful, (C) interest upon overdue installments of interest at the rate or rates prescribed therefor by the terms of the Related Funding Obligation Agreements, to the extent that payment of such interest is lawful, and (D) all sums paid by the Indenture Trustee hereunder and the reasonable compensation, expenses and disbursements of the Indenture Trustee, its agents and counsel and all other amounts due to the Indenture Trustee under Section 9.05; and

(ii) all Events of Default other than the nonpayment of the principal of the Controlling Class Obligations which has become due solely by such acceleration, have been cured or waived as provided in Section 8.03.

(d) If, at any time, any Event of Default capable of being remedied has been remedied by the Issuer to the satisfaction of the Indenture Trustee: (i) the Security Interest will no longer be or be deemed to be enforceable by reason of such Event of Default; (ii) any rights which had become vested in the Indenture Trustee by virtue thereof will be and be deemed to be cancelled as fully and to the same extent as though no such Event of Default had occurred; and (iii) the Indenture Trustee will, or will instruct any receiver appointed pursuant to this Indenture to restore to the Issuer any Collateral in the possession of the Indenture Trustee or receiver, as the case may be.

(e) No such rescission will affect any subsequent default or impair any right consequent thereon.

8.03 Waiver of Past Defaults

Subject to Section 8.02(c), Debtholders of Controlling Class Obligations may, by Ordinary Resolution, waive any past default hereunder and its consequences. Upon any such waiver, such default will cease to exist, and any Event of Default arising therefrom will be

deemed to have been cured, for every purpose of this Indenture; but no such waiver will extend to any subsequent or other default or impair any right consequent thereon.

8.04 Notice of Defaults

(a) Within 90 days after the occurrence of any Event of Default of which the Indenture Trustee has received written notice:

(i) the Indenture Trustee will transmit by mail to all Registered Noteholders, as their names and addresses appear in the Note Register, notice of such default;

(ii) the Indenture Trustee will notify all holders of Bearer Notes by publication of notice of such default in an Authorized Newspaper, or as otherwise provided in the Related Supplemental Indenture;

(iii) the Indenture Trustee will give prompt written notification thereof to the other Debtholders and all other Specified Creditors; and

(iv) the Indenture Trustee will give prompt written notification thereof to the Rating Agencies, unless such default will have been cured or waived;

provided, however, that, except in the case of a default in the payment of the principal of or interest on any Issuer Funding Obligations, the Indenture Trustee will be protected in withholding such notice if and so long as a Responsible Officer of the Indenture Trustee in good faith determines that the withholding of such notice is in the interests of the Specified Creditors.

(b) When such notice of an occurrence of an Event of Default has been given and the Event of Default is thereafter cured, notice that the Event of Default is no longer continuing shall be given by the Indenture Trustee to Persons to whom notice was sent pursuant to Section 8.04(a) within a reasonable time, but not exceeding 30 days in any event, after the Indenture Trustee receives notice from the applicable Debtholders that the Event of Default has been cured.

8.05 Remedies Generally

(a) the Indenture Trustee will have the right to decline to follow any such direction if the Indenture Trustee, being advised by counsel, determines that the action so directed may not lawfully be taken or would conflict with this Indenture, or if the Indenture Trustee in good faith determines that the proceedings so directed would involve it in personal liability or be unjustly prejudicial to the Debtholders of Controlling Class Obligations not taking part in such direction; and

(b) the Indenture Trustee may take any other action permitted hereunder deemed proper by the Indenture Trustee which is not inconsistent with such direction.

8.12 Limitation on Suits

8.14 Limited Recourse

(a) Notwithstanding any other provision of this Indenture to the contrary, the obligation to pay principal of or interest on any Issuer Funding Obligation or any other amount payable to any Specified Creditor will be without recourse to the Indenture Trustee, the Issuer Trustee, the Manager or any Affiliate, officer, employee, member or director of any of them, and the satisfaction of the obligation of the Issuer to pay principal of or interest on any Issuer Funding Obligation or any other amount payable to any Specified Creditor will be subject to the allocation and payment provisions of this Indenture and any Related Funding Obligation Agreement, and limited to amounts available from the Collateral.

(b) No recourse may be taken, directly or indirectly, with respect to the obligations of the Issuer under the Issuer Funding Obligations or under this Indenture, or any certificate or other writing delivered in connection herewith or therewith, against (i) the Issuer Trustee in its individual capacity, (ii) any owner of a beneficial interest in the Issuer or (iii) any partner, owner, beneficiary, agent, officer, director, employee or agent of the Issuer Trustee in its individual capacity, any holder of a beneficial interest in the Issuer or the Issuer Trustee or of any successor or assign of the Issuer Trustee in its individual capacity, except as any such Person may have expressly agreed (it being understood that the Issuer Trustee has no such obligations in its individual capacity).

(c) Under no circumstances shall the Manager or any of its Affiliates be deemed an obligor or guarantor or otherwise deemed to be responsible for payment from its own funds of principal, interest, dividends or other amounts due on the Collateral, the Issuer Funding Obligations or any other Obligations Secured.

8.15 Restoration of Rights and Remedies

If the Indenture Trustee or any Specified Creditor (to the extent and in the manner provided for in Section 8.12) has instituted any proceeding to enforce any right or remedy under this Indenture and such proceeding has been discontinued or abandoned for any reason, then and in every such case the Issuer, the Indenture Trustee and the Specified Creditors will, subject to any determination in such proceeding, be restored severally and respectively to their former positions hereunder, and thereafter all rights and remedies of the Indenture Trustee and the Specified Creditors will continue as though no such proceeding had been instituted.

8.16 Rights and Remedies Cumulative

No right or remedy herein conferred upon or reserved to the Indenture Trustee or to the Specified Creditors is intended to be exclusive of any other right or remedy, and every right and remedy will, to the extent permitted by applicable law, be cumulative and in addition to every other right and remedy given hereunder or now or hereafter existing at law or in equity or otherwise. The assertion or employment of any right or remedy hereunder, or otherwise, will not prevent the concurrent assertion or employment of any other appropriate right or remedy.

8.17 Delay or Omission Not Waiver

No delay or omission of the Indenture Trustee or of any Specified Creditor to exercise any right or remedy accruing upon any Event of Default will impair any such right or remedy or constitute a waiver of any such Event of Default or an acquiescence therein. Every right and remedy given by this Article VIII or by applicable law to the Indenture Trustee or to the Specified Creditors may be exercised from time to time, and as often as may be deemed expedient, by the Indenture Trustee or by the Specified Creditors, as the case may be.

8.18 Waiver of Stay or Extension Laws

The Issuer covenants (to the extent that it may lawfully do so) that it will not at any time insist upon, or plead, or in any manner whatsoever claim or take the benefit or advantage of, any stay or extension law wherever enacted, now or at any time hereafter in force, which may affect the covenants or the performance of this Indenture; and the Issuer (to the extent that it may lawfully do so) hereby expressly waives all benefit or advantage of any such law, and covenants that it will not hinder, delay or impede the execution of any power herein granted to the Indenture Trustee, but will suffer and permit the execution of every such power as though no such law had been enacted.

8.19 Indenture Trustee Appointed Attorney

The Issuer irrevocably constitutes and appoints the Indenture Trustee and any officer or employee thereof, with full power of substitution, as its true and lawful attorney coupled with an interest with full power and authority in the name of the Issuer or in its own name, in its discretion, upon the occurrence and during the continuance of any Event of Default, for the purpose of carrying out the terms of this Indenture to take all appropriate action and to execute any and all documents and instruments which may be necessary or desirable to accomplish the purposes hereof, and without limiting the generality of the foregoing, hereby gives the Indenture Trustee the power and right on behalf of the Issuer, without notice to or assent by the Issuer, to the extent permitted by applicable law, to do the following:

In the event that the Security Interest shall become enforceable and the Indenture Trustee shall have determined or become bound to enforce the same, the Issuer covenants not to invoke the doctrine of marshalling or any other equitable principle for the purpose of requiring the

Indenture Trustee to realize or to have realized on any particular asset forming part of the Collateral.

ARTICLE IX
THE INDENTURE TRUSTEE

9.01 Certain Duties and Responsibilities

(a) The Indenture Trustee undertakes to perform such duties and only such duties as are specifically set forth in this Indenture with respect to the Obligations Secured, and no implied covenants or obligations will be read into this Indenture against the Indenture Trustee.

(b) In the exercise of the rights and duties prescribed or conferred by the terms of this Indenture, the Indenture Trustee will act honestly and in good faith with a view to the best interests of the Specified Creditors as a whole and exercise that degree of care, diligence and skill that a reasonably prudent trustee would exercise in comparable circumstances.

(c) In the absence of bad faith on its part, the Indenture Trustee may, with respect to any Obligations Secured, conclusively rely, as to the truth of the statements and the correctness of the opinions expressed therein, upon certificates or opinions furnished to the Indenture Trustee and conforming to the requirements of this Indenture; but in the case of any such certificates or opinions which by any provision hereof are specifically required to be furnished to the Indenture Trustee, the Indenture Trustee will be under a duty to examine the same to determine whether or not they substantially conform to the requirements of this Indenture (but need not confirm or investigate the accuracy of any mathematical calculations or other facts stated therein).

(d) No provision of this Indenture will be construed to relieve the Indenture Trustee from liability for its own negligent action, its own negligent failure to act, or its own willful misconduct, except that:

(i) this clause (d) will not be construed to limit the effect of subsection 9.01(a);

(ii) the Indenture Trustee will not be liable for any error of judgment made in good faith by a Responsible Officer of the Indenture Trustee, unless it will be proved that the Indenture Trustee was negligent in ascertaining the pertinent facts;

(iii) the Indenture Trustee will not be liable with respect to any action taken or omitted to be taken by it in good faith if so directed by Extraordinary Resolution, relating to the time, method and place of conducting any proceeding for any remedy available to the Indenture Trustee, or exercising any trust or power conferred upon the Indenture Trustee, under this Indenture with respect to the Obligations Secured; and

(iv) no provision of this Indenture will require the Indenture Trustee to expend or risk its own funds or otherwise incur any financial liability in the performance of any of its duties hereunder, or in the exercise of any of its rights or powers.

(e) Whether or not therein expressly so provided, every provision of this Indenture relating to the conduct or affecting the liability of or affording protection to the Indenture Trustee will be subject to the provisions of this Section 9.01.

9.02 Certain Rights of Indenture Trustee

Except as otherwise provided in Section 9.01:

(a) the Indenture Trustee may conclusively rely and will be protected in acting or refraining from acting upon any resolution, certificate, statement, instrument, opinion, report, notice, request, direction, consent, order, bond, debenture or other paper or document (whether in its original, facsimile or other electronic form) believed by it to be genuine and to have been signed or presented by the proper party or parties;

(b) whenever in the administration of this Indenture the Indenture Trustee will deem it desirable that a matter be proved or established before taking, suffering or omitting any action hereunder, the Indenture Trustee (unless other evidence be herein specifically prescribed) may, in the absence of bad faith on its part, rely upon an Officer's Certificate;

(c) the Indenture Trustee may consult with counsel of its own selection and the advice of such counsel or any Opinion of Counsel will be full and complete authorization and protection in respect of any action taken, suffered or omitted by it hereunder in good faith and in reliance thereon;

(d) the Indenture Trustee will be under no obligation to exercise any of the rights or powers vested in it by this Indenture at the request or direction of any of the Specified Creditors pursuant to this Indenture, unless such Specified Creditors shall have offered to the Indenture Trustee security or indemnity reasonably satisfactory to it against the costs, expenses and liabilities which might be incurred by it in compliance with such request or direction;

(e) the Indenture Trustee will not be bound to make any investigation into the facts or matters stated in any resolution, certificate, statement, instrument, opinion, report, notice, request, direction, consent, order, bond, debenture or other paper or document, but the Indenture Trustee, in its discretion, may make such further inquiry or investigation into such facts or matters as it may see fit, and, if the Indenture Trustee will determine to make such further inquiry or investigation, it will be entitled to examine the books, records and premises of the Issuer, personally or by agent or attorney;

(f) the Indenture Trustee may execute any of the trusts or powers hereunder or perform any duties hereunder either directly or by or through agents or attorneys and the Indenture Trustee will not be responsible for any misconduct or negligence on the part of any agent or attorney appointed with due care by it hereunder;

(g) the Indenture Trustee will not be responsible for filing any financing statements or continuation statements in connection with the Obligations Secured or the Security Interest, but will cooperate with the Issuer in connection with the filing of such financing statements or amendments to such financing statements;

(h) the Indenture Trustee shall not be deemed to have notice of any default (including any Servicer Default or Event of Default) unless a Responsible Officer of the Indenture Trustee has actual knowledge thereof or unless written notice of any event which is in fact such a default is received by the Indenture Trustee at the Corporate Trust Office of the Indenture Trustee, and such notice references the Issuer Funding Obligations and this Indenture;

(i) the rights, privileges, protections, immunities and benefits given to the Indenture Trustee, including, without limitation, its right to be indemnified, are extended to, and shall be enforceable by, the Indenture Trustee in each of its capacities hereunder, and each agent, custodian and other person employed to act hereunder;

(j) the Indenture Trustee shall not be liable for any action taken, suffered or omitted to be taken by it in good faith and reasonably believed by it to be authorized or within the discretion or rights or powers conferred upon it by this Indenture;

(k) the Indenture Trustee shall be entitled to and may rely absolutely upon the Payment Instruction and the Indenture Trustee will have no obligation to calculate any amount due or owing or to be allocated as provided in this Indenture, including interest or principal for any Issuer Funding Obligations;

(l) the Indenture Trustee will be entitled to rely and act upon any direction, order, instruction, notice or communication provided to it under this Indenture which is sent to it by Electronic Methods. The Indenture Trustee shall have no liability for any losses, liabilities, costs or expenses incurred by it as a result of such reliance upon or compliance with such instructions or directions. The Issuer agrees: (i) to assume all risks arising out of the use of such Electronic Methods to submit instructions and directions to the Indenture Trustee, including without limitation the risk of the Indenture Trustee acting on unauthorized instructions, and the risk of interception and misuse by third parties; (ii) that it is fully informed of the protections and risks associated with the various methods of transmitting instructions to the Indenture Trustee and that there may be more secure methods of transmitting instructions than the method(s) selected by the Issuer; and (iii) that the security procedures (if any) to be followed in connection with its transmission of instructions provide to it a commercially reasonable degree of protection in light of its particular needs and circumstances; and

(m) the Indenture Trustee will not be liable for any consequential, punitive or special damages.

9.03 Not Responsible for Recitals or Issuer Funding Obligations

The recitals contained herein and in the Funding Obligation Agreements, except the Certificates of Authentication, will be taken as the statements of the Issuer, and the Indenture Trustee assumes no responsibility for their correctness. The Indenture Trustee makes no representations as to the validity or sufficiency of this Indenture or of the Funding Obligation Agreements. The Indenture Trustee will not be accountable for the use or application by the Issuer of Notes, Borrowings or the proceeds thereof.

9.04 May Hold Notes

The Indenture Trustee, the Issuer Trustee, any Paying Agent, the Note Registrar, the Manager or any other agent of the Issuer, in its individual or any other capacity, may become the owner or pledgee of Notes and, subject to subsection 9.07(e) and applicable legislation, may otherwise deal with the Issuer with the same rights it would have if it were not Indenture Trustee, Issuer Trustee, Paying Agent, Note Registrar, Manager or such other agent.

9.05 Compensation and Reimbursement; Limit on Compensation Reimbursement and Indemnity

(a) The Issuer agrees:

(i) to pay to the Indenture Trustee from time to time reasonable compensation (or, for so long as ~~[Indenture Trustee]~~**BNY Trust Company of Canada** is the Indenture Trustee, such amount as has been mutually agreed upon in writing) for all services rendered by it hereunder (which compensation will not be limited by any provision of law in regard to the compensation of a trustee of an express trust);

(ii) except as otherwise expressly provided herein, to reimburse the Indenture Trustee upon its request for all reasonable expenses, disbursements and advances incurred or made by the Indenture Trustee in accordance with any provision of this Indenture (including the reasonable compensation and the reasonable expenses and disbursements of its agents and counsel), except any such expense, disbursement or advance as may be attributable to its own negligence or bad faith; and

(iii) to indemnify the Indenture Trustee for, and to hold it harmless against, any and all loss, liability, expense, claim, damage or injury incurred without negligence or bad faith on its part, arising out of or in connection with the acceptance or administration of the trusts hereunder, including the costs and expenses of defending itself against any claim or liability (whether asserted by the Issuer, any Specified Creditor or any other Person) in connection with the exercise or performance of any of its powers or duties hereunder.

The Indenture Trustee will have no recourse to any asset of the Issuer other than funds available pursuant to Section 7.04 or 8.13, or to any Person other than the Issuer.

(b) This Section 9.05 will survive the termination of this Indenture and the resignation or replacement of the Indenture Trustee under Section 9.07.

9.06 Corporate Indenture Trustee Required; Eligibility

There will at all times be an Indenture Trustee hereunder which will be either a bank, a trust company or a corporation organized and doing business under the laws of Canada or of any province or territory thereof, authorized under such laws to carry on a trust business as contemplated hereby in each of the provinces and territories of Canada. The Issuer may not, nor may any Person directly or indirectly controlling, controlled by, or under common control with the Issuer, serve as Indenture Trustee. If at any time the Indenture Trustee will cease to be eligible in accordance with the provisions of this Section 9.06, it will resign immediately in the manner and with the effect hereinafter specified in this Article IX.

9.07 Resignation and Removal; Appointment of Successor

(a) No resignation or removal of the Indenture Trustee and no appointment of a successor Indenture Trustee pursuant to this Article IX will become effective until the acceptance of appointment by the successor Indenture Trustee under Section 9.08.

(b) The Indenture Trustee may resign at any time by giving written notice thereof to the Issuer. If an instrument of acceptance by a successor Indenture Trustee shall not have been delivered to the Indenture Trustee within 30 days after the giving of such notice of resignation, the resigning Indenture Trustee may petition any court of competent jurisdiction for the appointment of a successor Indenture Trustee.

(c) The Indenture Trustee may be removed at any time by Ordinary Resolution of the Debtholders of Controlling Class Obligations delivered to the Indenture Trustee and to the Issuer. If an instrument of acceptance by a successor Indenture Trustee shall not have been delivered to the Indenture Trustee within 30 days after the giving of such notice of removal, the Indenture Trustee being removed may petition any court of competent jurisdiction for the appointment of a successor Indenture Trustee.

(d) If at any time:

(i) the Indenture Trustee ceases to be eligible under Section 9.06 and fails to resign after written request therefor by the Issuer or by any Debtholder of Controlling Class Obligations, or

(ii) the Indenture Trustee becomes incapable of acting, or

(iii) the Indenture Trustee is adjudged bankrupt or insolvent or a receiver of the Indenture Trustee or of its property is appointed, or any public officer takes charge or control of the Indenture Trustee or of its property or affairs for the purpose of rehabilitation, conservation or liquidation,

then, in any such case, (A) the Issuer may remove the Indenture Trustee, or (B) subject to Article XI, any Debtholder of Controlling Class Obligations who has been a *bona fide* Debtholder of Controlling Class Obligations for at least six (6) months may, on behalf of itself and all other Debtholders, petition any court of competent jurisdiction for the removal of the Indenture Trustee and the appointment of a successor Indenture Trustee.

(e) The Indenture Trustee shall resign if a material conflict of interest arises in its role as a trustee under this Indenture that is not eliminated within 90 days after the Indenture Trustee becomes aware that it has such a material conflict of interest. Forthwith after the Indenture Trustee becomes aware that it has a material conflict of interest, it shall provide the Issuer with written notice of the nature of that conflict. If, notwithstanding the foregoing provisions of this subsection 9.07(e), the Indenture Trustee has such a material conflict of interest, the validity and enforceability of this Indenture and of the Funding Obligation Agreements shall not be affected in any manner whatsoever by reason only of the existence of such material conflict of interest. If the Indenture Trustee contravenes the foregoing provisions of this subsection 9.07(e), any interested Person may apply to a court of competent jurisdiction for an order that the Indenture Trustee be replaced as trustee hereunder. The Indenture Trustee represents to the Issuer that at the time of the execution and delivery hereof no material conflict of interest exists in the Indenture Trustee's role as a fiduciary hereunder.

(f) If the Indenture Trustee resigns, is removed or becomes incapable of acting, or if a vacancy shall occur in the office of the Indenture Trustee for any cause, the Issuer will promptly appoint a successor Indenture Trustee. If, within one (1) year after such resignation, removal or incapacity, or the occurrence of such vacancy, a successor Indenture Trustee is appointed by Ordinary Resolution of Debtholders of Controlling Class Obligations delivered to the Issuer and the retiring Indenture Trustee, the successor Indenture Trustee so appointed will, forthwith upon its acceptance of such appointment, become the successor Indenture Trustee and supersede the successor Indenture Trustee appointed by the Issuer. If no successor Indenture Trustee shall have been so appointed by the Issuer or Debtholders of Controlling Class Obligations and accepted in the manner hereinafter provided, any Debtholder of Controlling Class Obligations who has been a *bona fide* Debtholder of Controlling Class Obligations for at least six (6) months may, on behalf of itself and all other Debtholders, petition any court of competent jurisdiction for the appointment of a successor Indenture Trustee.

(g) The Issuer will give written notice of each resignation and each removal of the Indenture Trustee and each appointment of a successor Indenture Trustee to each Specified Creditor as provided in Article XV and to each Rating Agency. To

facilitate delivery of such notice, upon request by the Issuer, the retiring Indenture Trustee shall provide to the Issuer a list of all Specified Creditors. Each notice will include the name of the successor Indenture Trustee and the address of its Corporate Trust Office.

(h) Upon such resignation, the Indenture Trustee shall be discharged from all further duties and liabilities under this Indenture.

9.08 Acceptance of Appointment by Successor

Every successor Indenture Trustee appointed hereunder will execute, acknowledge and deliver to the Issuer and to the predecessor Indenture Trustee an instrument accepting such appointment, with a copy to the Rating Agencies, and thereupon the resignation or removal of the predecessor Indenture Trustee will become effective, and such successor Indenture Trustee, without any further act, deed or conveyance, will become vested with all the rights, powers, trusts and duties of the predecessor Indenture Trustee; but, on request of the Issuer or the successor Indenture Trustee, such predecessor Indenture Trustee will, upon payment of its reasonable charges, if any, execute and deliver an instrument transferring to such successor Indenture Trustee all the rights, powers and trusts of the predecessor Indenture Trustee, and will duly assign, transfer and deliver to such successor Indenture Trustee all property and money held by such predecessor Indenture Trustee hereunder, subject nevertheless to its Lien, if any, provided for in Section 9.05. Upon request of any such successor Indenture Trustee, the Issuer will execute any and all instruments for more fully and certainly vesting in and confirming to such successor Indenture Trustee all such rights, powers and trusts.

No successor Indenture Trustee will accept its appointment unless at the time of such acceptance, such successor Indenture Trustee will be qualified and eligible under this Article IX.

9.09 Merger, Conversion, Consolidation or Succession to Business

Any corporation into which the Indenture Trustee may be merged or converted or with which it may be consolidated, or any corporation resulting from any merger, conversion or consolidation to which the Indenture Trustee shall be a party, or any corporation succeeding to all or substantially all of the corporate trust business of the Indenture Trustee, will be the successor of the Indenture Trustee hereunder, provided such corporation shall be otherwise qualified and eligible under this Article IX, without the execution or filing of any paper or any further act on the part of any of the parties hereto. The Indenture Trustee shall give prompt written notice of such merger, conversion, consolidation or succession to the Issuer and the Rating Agencies. In case any Notes shall have been authenticated, but not delivered, by the Indenture Trustee then in office, any successor by merger, conversion or consolidation to such authenticating Indenture Trustee may adopt such authentication and deliver the Notes so authenticated with the same effect as if such successor Indenture Trustee had itself authenticated such Notes.

9.10 Trust Indenture Legislation

(a) In this Article IX, the term "**applicable legislation**" means the provisions, if any, of the *Trust and Loan Companies Act* (Canada) and any other statute of Canada or

a province thereof, and of regulations under any such statute, in each case, as amended, restated or re-enacted from time to time, relating to trust indentures and to the rights, duties and obligations of trustees under trust indentures and of entities issuing debt obligations under trust indentures, to the extent that in the opinion of counsel to the Issuer such provisions are at the time in force and applicable to this Indenture.

(b) If and to the extent that any provision of this Indenture limits, qualifies or conflicts with a mandatory requirement of applicable legislation, such mandatory requirement shall prevail.

(c) The Issuer and the Indenture Trustee agree that each will at all times in relation to this Indenture and any action to be taken hereunder, observe and comply with and be entitled to the benefits of applicable legislation.

9.11 Representations and Covenants of the Indenture Trustee

The Indenture Trustee represents, warrants and covenants that:

(a) the Indenture Trustee is a trust company organized, existing and in good standing under the laws of Canada;

(b) the Indenture Trustee has full power and authority to execute, deliver and perform this Indenture and has taken all necessary action to authorize the execution, delivery and performance by it of this Indenture and other documents to which it is a party;

(c) each of this Indenture and the other documents to which it is a party has been duly executed and delivered by the Indenture Trustee and constitutes its legal, valid and binding obligation in accordance with its terms; and

(d) the Indenture Trustee is authorized to carry on the business of a trust company in each of the provinces and territories of Canada. If, notwithstanding the provisions of this subsection 9.11(d), the Indenture Trustee ceases to be so authorized to carry on business, the validity and enforceability of this Indenture and the Funding Obligation Agreements shall not be affected in any manner whatsoever by reason only of such event.

9.12 Indenture Trustee's Application for Instructions from the Issuer

Any application by the Indenture Trustee for written instructions from the Issuer may, at the option of the Indenture Trustee, set forth in writing any action proposed to be taken or omitted by the Indenture Trustee under and in accordance with this Indenture and the date on and/or after which such action shall be taken or such omission shall be effective; provided that such application shall make specific reference to this Section 9.12. The Indenture Trustee shall not be liable for any action taken by, or omission of, the Indenture Trustee in accordance with a proposal included in such application on or after the date specified in such application (which date shall not be less than five (5) Business Days after the date the Issuer actually receives such

application, unless the Issuer shall have consented in writing to any earlier date) unless prior to taking any such action (or the effective date in the case of an omission), the Indenture Trustee shall have received written instructions in response to such application specifying the action be taken or omitted.

9.13 Appointment of Co-Trustee or Separate Indenture Trustee

(a) Notwithstanding any other provisions of this Indenture, at any time, for the purpose of meeting any legal requirements of any **relevant** jurisdiction ~~in which any part of the Issuer's property may at the time be located~~, the Indenture Trustee shall have the power and shall execute and deliver all instruments, subject to the prior written consent of the Manager, which consent shall not be unreasonably withheld, to appoint one or more Persons reasonably acceptable to the Issuer to act as a co-trustee or co-trustees, or separate trustee or separate trustees, of all or any part of the Issuer's property, and to vest in such Person or Persons, in such capacity and for the benefit of the Specified Creditors, such title to the Issuer's property, or any part thereof, and, subject to the other provisions of this Section 9.13, such powers, duties, obligations, rights and trusts as the Indenture Trustee may consider necessary or desirable. No co-trustee or separate trustee hereunder shall be required to meet the terms of eligibility as a successor trustee under Section 9.06 and no notice to Specified Creditors of the appointment of any co-trustee or separate trustee shall be required under Section 9.07.

(b) Every separate trustee and co-trustee shall, to the extent permitted by applicable law, be appointed and act subject to the following provisions and conditions:

(i) all rights, powers, duties and obligations conferred or imposed upon the Indenture Trustee shall be conferred or imposed upon and exercised or performed by the Indenture Trustee and such separate trustee or co-trustee jointly (it being understood that such separate trustee or co-trustee is not authorized to act separately without the Indenture Trustee joining in such act), except to the extent that under any law of any jurisdiction in which any particular act or acts are to be performed, the Indenture Trustee shall be incompetent or unqualified to perform such act or acts, in which event such rights, powers, duties and obligations (including the holding of title to the Issuer's property or any portion thereof in any such jurisdiction) shall be exercised and performed singly by such separate trustee or co-trustee, but solely at the direction of the Indenture Trustee;

(ii) no trustee hereunder shall be personally liable by reason of any act or omission of any other trustee hereunder; and

(iii) the Indenture Trustee may at any time accept the resignation of or remove any separate trustee or co-trustee.

(c) Any notice, request or other writing given to the Indenture Trustee shall be deemed to have been given to each of the then separate trustees and co-trustees, as

effectively as if given to each of them. Every instrument appointing any separate trustee or co-trustee shall refer to this Indenture and the conditions of this Article IX. Each separate trustee and co-trustee, upon its acceptance of the trusts conferred, shall be vested with the estates or property specified in its instrument of appointment, either jointly with the Indenture Trustee or separately, as may be provided therein, subject to all the provisions of this Indenture, specifically including every provision of this Indenture relating to the conduct of, affecting the liability of, or affording protection to, the Indenture Trustee. Every such instrument shall be filed with the Indenture Trustee.
