Attached are two documents prepared in conjunction with our KPMG advisors. The first outlines the proposed adoption by the IESO of the guidance in *ASC980 Regulated Operations* and the recognition of regulatory assets, as a more appropriate and transparent presentation in our financial statements.

The second is associated with the potential recognition and de-recognition of the regulatory assets associated with the IESO's role under the Global Adjustment Smoothing Account.

The conclusions of the second analysis are based on the structure of the account as the IESO currently understands it, and may vary depending on the final legislative materials.

We are available to address any questions you may have on these matters.

Sincerely,

Bruce B. Campbell

Attach.

White Paper - Adoption of the guidance in ASC 980 Regulated Operations

Independent Electricity System Operator ("IESO" or the "Company") is considering making changes in its accounting policies to reflect the balances of market participants within the IESO-administered markets (see separate technical analysis) and the economic impacts of rate regulation, as the changes would result in a more appropriate presentation of events or transactions in its financial statements.

Issue being considered in this document is: Can the IESO adopt the guidance in ASC 980 *Regulated Operations (US GAAP in FASB)*?

Background and Assumptions

The facts, circumstances, and assumptions relevant to the specific transactions are as follows:

1. The IESO's legal status is a not-for-profit, non-taxable, corporation established pursuant to Part II of the *Electricity Act, 1998*. IESO is classified as an Other Governmental Organization and prepares its financial statements in accordance with Canadian public sector accounting standards (PSAB).
2. IESO is rate regulated by the OEB in accordance with the Electricity Act, 1998 and the Ontario Energy Board ("OEB") Act, 1998 but currently does not recognize the economic impacts of rate regulation in its general purpose financial statements.
3. The IESO is required to obtain approval from the OEB under s. 25(1) of the Electricity Act, 1998 for the approval of its own expenditures, revenue requirement and fees. The last rate approval was obtained on December 29, 2016[1].
4. The OEB issued a Decision and Order on March 28, 2013 that permits IESO to recover the MDMR costs (the Smart Metering Charge) (see Appendix A). *(i.e. Costs incurred in the past will be fully recovered through future rates)*
5. Furthermore, in accordance with the *Electricity Act, 1998* and the *OEB Act, 1998*, the IESO has approved variance accounts to record all amounts payable or receivable by it in connection with the amounts paid to generators, the Financial Corporation, distributors and to entities with whom the IESO has a procurement contract. (i.e. costs incurred in the past will be fully recovered through future rates)
6. The IESO would change its accounting policies to permit the recognition of the economic impacts of rate regulation as from the 2016 financial year. IESO would adopt the guidance of ASC 980 *Regulated Operations* to better reflect the economic substance of its operations and enhance the transparency and accountability of its financial reporting.

Appropriate Accounting Principle

PS2120.02, "*a change in an accounting policy may be made… if it is considered that the change would result in a more appropriate presentation of events or transactions in the financial statements of the government."*

PS1150.05 "*When the primary sources of GAAP do not deal with the accounting and reporting in financial statements of transactions or events encountered by the public sector reporting entity, or additional guidance is needed to apply a primary source to specific circumstances, the selection of an appropriate accounting policy requires the exercise of professional judgment. In these circumstances, a public sector reporting entity should adopt accounting policies and disclosures that are consistent with:*

[1] http://www.rds.ontarioenergyboard.ca/webdrawer/webdrawer.dll/webdrawer/rec/556699/view/Dec_Order_IESO_20161229.PDF

(a) the primary sources of GAAP; and

(b) the application of the concepts described in FINANCIAL STATEMENT CONCEPTS, Section PS 1000."

PS1150.19 "*Pronouncements issued by other bodies authorized to issue accounting standards may be useful sources to consult. For example, accounting pronouncements published with the authority of the Canadian Accounting Standards Board (AcSB), International Accounting Standards Board (IASB), US Federal Accounting Standards Advisory Board (FASB), US Governmental Accounting Standards Board (GASB), or International Public Sector Accounting Standards Board (IPSASB) are often important sources to consult on matters not covered by primary sources of GAAP or for assistance in applying a primary source of GAAP to specific circumstances.*"

PS1150.08 "A public sector reporting entity consults sources other than primary sources of GAAP to assist in selecting accounting policies and disclosures only when these sources comply with paragraph PS1150.05. The public sector reporting entity evaluates sources in selecting the appropriate accounting policies and disclosures based on all of the following criteria:

(a) The specificity of the source — A source that deals with the specific circumstances is likely to be more relevant than one from which the public sector reporting entity must analogize.

(b) The authority of the issuer or author — A source issued by an accounting standard setter in its own jurisdiction is likely to be more relevant than a source issued by others in the same jurisdiction.

(c) The continued relevance of the source — The passage of time may diminish the relevance of certain sources.

(d) The development process for the source — A source developed after extensive consultation and debate is likely to be more relevant than a source developed without such discipline."

PS1150.10 "PSAB considers a source to be consistent with the concepts in paragraph PS 1150.05(b) when the guidance in that source is compatible with the (i) qualitative characteristics of financial information, (ii) the elements of financial statements, and (iii) the recognition and measurement criteria in paragraph PS 1150.05(b)."

PS1000.58 "In the absence of appropriate public sector recognition and measurement criteria for intangibles, all intangibles, including those that have been purchased, developed, constructed or inherited in right of the Crown, are not recognized as assets in government financial statements. The intangible often called "human capital" that embodies the talent or intellectual capital of government employees is not recognized as an asset under existing accounting principles."

PS3210.03 "*Assets are economic resources controlled by a public sector entity as a result of past transactions or events and from which future economic benefits are expected to be obtained."*

PS3210.04 "Assets have three essential characteristics:

(a) They embody future economic benefits that involve a capacity, singly or in combination with other assets, to provide goods and services, to provide future cash inflows, or to reduce cash outflows.

(b) The public sector entity can control the economic resource and access to the future economic benefits.

(c) The transaction or event giving rise to the public sector entity's control has already occurred."

Issue: Can the IESO adopt the guidance in ASC 980 *Regulated Operations*?

In accordance with PS2120.02, the IESO can reflect the economic impacts of rate regulation only if it is considered that the change of accounting policy would result in a more appropriate presentation of events or transactions in the financial statements of the government. As mentioned in the Agenda ref. 9A of the IASB meeting of February 2017[2], rate regulated entities have long argued that, without recognizing regulatory assets and regulatory liabilities, the entity's performance is distorted by the rate regulator's intervention in the imposition of performance obligations on the entity and the timing of cash flows from the ratepayers.

[2] http://www.ifrs.org/Meetings/MeetingDocs/IASB/2017/February/AP09-Rate-regulated-Activities.pdf

The recognition of regulatory assets and liabilities would better reflect the economic substance of IESO's operations and enhance the transparency and accountability of its financial reporting. For example, during the period from 2007 to April 2013 the IESO incurred costs relating to the Smart Meter Program amounting to $90.9 million, and these costs were expensed and are included in the accumulated deficit. In the absence of applicable regulatory accounting under PSAS, the IESO was unable to recognize a regulatory asset for this charge, despite receiving a rate order to recover it over the period from May 1, 2013 to October 31, 2018. Should the IESO choose to adopt ASC 980, a regulatory asset for the Smart Metering Charge would be recognized at December 31, 2016 for an amount of approximately $21.6 million, which would represent the remaining unamortized amount that would have been reported if the asset was recognized originally in 2013.

PSAS does not address accounting concepts in a rate regulated environment. Since there is no guidance in PSAS regarding the recognition and measurement of regulatory assets and liabilities, IESO may consider other sources based upon PSAS 1150.05 in the GAAP hierarchy to determine appropriate accounting policies in a rate regulated environment.

Within AcSB, Accounting Standards for Private Enterprises (ASPE) defines a rate regulated entity but provides no guidance on regulatory assets and liabilities however requires disclosure of such balances if they are recognized. IASB has not completed their project on rate regulated activities and current standards only include a holding standard based upon what was done under previous GAAP. It will be important for the IESO to monitor the IASB's ongoing project on rate regulated activities as this may affect the recognition, measurement, presentation and disclosures of the regulatory assets and liabilities. Both FASB and GASB have guidance on accounting in a regulatory environment. IPSASB does not provide any guidance on accounting by rate regulated entities.

It is important to note that rate regulated entities in Canada that prepare their general purpose financial statements in accordance with US GAAP (e.g. Hydro One and Ontario Power Generation), ASPE (e.g. the three Fortis subsidiaries in Ontario), as well as those rate regulated entities that are eligible to elect to apply the requirements of IFRS 14 and elected to do so when they adopted IFRS (e.g. over 60 LDCs in Ontario), generally all recognize regulatory deferral and variance accounts in accordance with US GAAP accounting principles set out ASC 980 *Regulated Operations.*

Statement 62 issued by GASB in December 2010 is effective for financial statements for periods beginning after December 15, 2011. The objective of the Statement is to incorporate into the GASB's authoritative literature certain accounting and financial reporting guidance that is included in the Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989, which does not conflict with or contradict GASB pronouncements. Paragraphs 476–500 may be applied to activities reported in business-type activities that have regulated operations that meet all of the three criteria in paragraph 476 as follows:

(a) The regulated business-type activity's rates for regulated services provided to its customers are established by or are subject to approval by an independent, third-party regulator or by its own governing board empowered by statute or contract to establish rates that bind customers.

(b) The regulated rates are designed to recover the specific regulated business-type activity's costs of providing the regulated services.

(c) In view of the demand for the regulated services or products and the level of competition, direct and indirect, it is reasonable to assume that rates set at levels that will recover the regulated business-type activity's costs can be charged to and collected from customers. This criterion requires consideration of anticipated changes in levels of demand or competition during the recovery period for any capitalized costs.

The criteria above and the guidance in paragraphs 476-500 are based on ASC 980 *Regulated Operations*.

It is also important to note that in its statement of financial position, the Ontario Electricity Financial Corporation ("OEFC"), which reports under Canadian public sector accounting standards, recognizes a net unamortized liability balance for power purchase contracts, as detailed in the summary of significant accounting policies:

"The liability for power purchase contracts was originally calculated by discounting estimated losses over the life of the contracts. Under the *Electricity Restructuring Act, 2004*, OEFC began receiving actual contract prices for power from electricity consumers, effective January 1, 2005, and no longer incurs losses on these power purchase contracts. At that time, the Ministry of Finance estimated that the bulk of the liability would be eliminated over 12 years as existing electricity contracts expire. As a result, the bulk of the liability is being amortized to revenue over that period."

Although this liability is not defined as a regulatory liability in the OEFC's financial statements, the argument can be made that it substantively meets the definition under ASC 980 of a regulatory liability, as the OEFC had no further obligation and should have reversed the liability into income. After consultation with the AG at that time, it was decided to amortize the gain over the remaining term of the contracts.

In summary

Rate regulated entities in North America reporting under US GAAP, ASPE, IFRS (entities which have elected to use IFRS 14) and GASB generally all recognize regulatory deferral and variance accounts in accordance with US GAAP accounting principles based on ASC 980 *Regulated Operations* (see Appendix B for the accounting framework used by the Canadian rate regulated entities).

Evaluation of Other Sources of GAAP

When looking to other sources of GAAP, PSAS requires the other sources of GAAP to be evaluated

1. *as to whether they are consistent with accounting policies and disclosure within PSAS,*
2. *as to whether they are consistent with the application of concepts in PS 1000 and*
3. *as to all of the following criteria:*
    - *(a) Source deals with the specific circumstance*
    - *(b) Source is issued by an accounting standard setter*
    - *(c) Source continues to be relevant*
    - *(d) Source uses a consultative process and deliberation when developing policies*

As required by PS 1150.05(b), we need to analyze whether the concepts in the other source (i.e. ASC 980) are compatible with the (i) qualitative characteristics of financial information, (ii) the elements of financial statements, and (iii) the recognition and measurement criteria in PS 1000.

(i) Qualitative Characteristics of Financial Information

FASB	**PSAS 1000**	**Evaluation**
Concepts and objectives are for both business and non-business organizations as well as governmental units (Concept #4.3 to 4.5)	Public, legislators, councilors, investors, analysts, other governments (par. 14)	FASB considers governmental units
Financial reporting should: – Be useful in making resource allocation decisions – Be useful in assessing services and ability to provide services – Be useful in assessing management stewardship and performance – Provide information about economic resources, obligations, net resources and changes in them (Concept # 4.33-.54)	Financial statements should be relevant to the needs of the users and reliable. Relevance is achieved through timeliness, predictability and accountability value. Reliable information has the following characteristics: representational faithfulness, completeness, neutrality, conservatism and verifiability. (par. 28-29)	Similar

(ii) Elements of Financial Statements

FASB	PSAS	Evaluation
Assets		
Probable future economic benefits obtained or controlled by the entity as a result of past transactions or events. (Concept #6.25-.34)	Economic resources controlled by a government as a result of past transactions or event and from which future economic benefits are expected to be obtained. (par. 35)	Essential characteristics similar
Liabilities		
Probable future sacrifices of economic benefits arising from present obligations of the entity to transfer assets or provide services in the future as a result of past transactions or events. (Concept #6.35-.43)	Present obligations to others arising from past transactions or events, the settlement of which is expected to result in the future sacrifice of economic benefits with little or no discretion to avoid settlement. (par. 44)	Essential characteristics similar
Revenues		
Inflows from delivering or producing goods, rendering services or other activities that constitute the entity's central operations. (Concept #6.78-.79)	Increases in economic resources resulting from operations, transactions and events of the accounting period. (par. 46)	Similar
Expenses		
Outflows from delivering or producing goods, rendering services or carrying out other activities that constitute the entity's central operations. (Concept # 6.80-.81)	Decreases in economic resources resulting from operations, transactions and events of the accounting period. (par. 49)	Similar

(iii) Recognition Criteria

FASB	PSAS	Evaluation
To be recognized, an item must meet the definition of an element of the financial statements, must be measurable with sufficient reliability, be relevant and be reliable. (Concept # 5.64)	Item must have an appropriate basis of measurement, a reasonable estimate can be made of the amount and if the item involves obtaining or giving up future economic benefits, it is expected those benefits will be obtained or given up. (par. 55)	Similar

(iii) Measurement Criteria

FASB	PSAS	Evaluation
Measurement basis dependent upon nature of item. Historical cost basis, replacement cost, market value. (Concept # 5.65-.70)	Primarily using historical cost basis. Replacement cost and realizable value are also used, but in limited circumstances. (par. 60)	Similar

Criteria of PS 1150.08

Criteria	Evaluation
Source deals with the specific circumstance	Yes, ASC 980 Regulated Operations
Source is issued by an accounting standard setter	Yes, FASB
Source continues to be relevant	Yes, still used by rate regulated entities
Source uses a consultative process and deliberation when developing policies	Yes, comprehensive consultative process and deliberation

Evaluation whether regulatory assets meet the definition of Assets as per Section PS3210

PS3210 defines assets as *"economic resources controlled by a public sector entity as a result of past transactions or events and from which future economic benefits are expected to be obtained."* (par. 03)

The analysis of the three essential characteristics as defined by PS3210.4 are analyzed in the next table.

Characteristics	Additional guidance	Comments
They embody future economic benefits that involve a capacity, singly or in combination with other assets, to provide goods and services, to provide future cash inflows, or to reduce cash outflows. (par. 4(a))	The essence of assets are their future economic benefits. Assets embody future economic benefits that allow public sector entities to achieve their objectives. The future economic benefits embodied in assets involve a capacity, singly or in combination with other assets, to provide goods and services, to provide future cash inflows or to reduce cash outflows. (par. 11) The future economic benefits embodied in an asset may also be in the form of generating future cash inflows. Cash inflows benefit the public sector entity because cash can be used to purchase or to provide goods and services, redistribute wealth or settle liabilities. (par. 13)	The economic benefit embodied in the variance accounts (i.e regulatory asset) is the right to collect the incurred costs from ratepayers in order to settle the liability for the energy already consumed by the ratepayers. The electricity Act, 1998 ("EA") section 25.33(1) states: "*The IESO shall, through its billing and settlement systems, make adjustments in accordance with the regulations that ensure that, over time, payments by classes of market participants in Ontario that are prescribed by regulation reflect,* *a) amounts paid to generators, the Financial Corporation and distributors, whether the amounts are determined under the market rules or under section 78.1, 78.2 or 78.5 of the Ontario Energy Board Act, 1998; and* *b) amounts paid to entities with whom the IESO has a procurement contract, as determined under the procurement contract."*
The public sector entity can control the economic resource and access to the future economic benefits. (par. 4(b))	Economic resources can arise from, but are not limited to, the following: government's own legislation (for example, taxes, fines and penalties); (par. 08(c)) A public sector entity controls the economic resource and access to the	The economic resources is the right created by the legislation that the energy costs IESO incurs will result in future cash flows. In the regulatory environments, incurring costs creates an enforceable right to set rates at a level that permits

	future economic benefits when it: a. can benefit from the economic resource through its capacity to provide goods and services, to provide future cash inflows or to reduce cash outflows; b. can deny or regulate access to those benefits by others; and c. is exposed to the risks associated with the economic resource. (par.16)	IESO to recover those costs. The adjustment of future rates is the mechanism the OEB uses to implement the right. Currently, the EA section 25.33(5) states: *"The IESO shall establish and maintain such variance accounts as may be necessary to record all amounts payable or receivable by it under this section."* The legislation would be amended to permit IESO to collect specifically the deferral of the energy costs and the related interest and administrative costs.
The transaction or event giving rise to the public sector entity's control has already occurred. (par.4(c))	It is the occurrence of a past transaction or event on or before the financial statement date that distinguishes a present economic resource controlled by a public sector entity from an economic resource that may be controlled by a public sector entity in the future. (par. 25) The past transaction or event that gives rise to control of an economic resource resulting from exchange agreements or contracts usually occurs at the point of exchange. This arises when substantially all the benefits and risks of ownership have been transferred to the public sector entity and normally coincides with the disbursement of funds, exchange of other assets or assumption of liabilities. (par. 26)	The past event giving rise to IESO's control occurs as the energy cost is incurred, as IESO has a right to collect it from the ratepayers.
Conclusion: The right to collect the deferral of the energy costs and the related interest and administrative costs meets the definition of assets.		

When concepts are in conflict with PSAS then PSAS prevails (PS 1150.12). For example, PSAS does not recognize intangible assets (PS 3150.03, .14 and PS1000.58). So if regulatory assets are considered to be intangible assets, they would not be allowed to be recognized through another source of GAAP.

It is worth noting that the economic impacts of rate regulation are not recognized under US GAAP as intangible assets as the FASB has specific guidance to deal with this type of asset. It is also worth noting that the IASB has an ongoing project on rate regulated activities and are currently developing an accounting model based on the principles of IFRS 15 *Revenue from contracts with customers* to provide a principle-based framework for recognizing regulatory assets (see Agenda Ref. 9 for the IASB meeting on February 23, 2017). Furthermore, the Summary Comment Letter Analysis related to the ED/2009/8 on Rate Regulated Activities published by the IASB in July 2009 states on page 2 of 50:

"The International Financial Reporting Interpretations Committee ("IFRIC") observed that it had previously discussed whether a regulatory asset should be recognized in the context of service concession arrangements, either as deferred costs or as an intangible asset to reflect an expectation that the entity will

recover these costs as part of the price charged in future periods. It had concluded that entities applying IFRSs should recognize only assets that qualified for recognition in accordance with the IASB's *Framework for the Preparation and Presentation of Financial Statements* and relevant accounting standards, such as IAS 11 *Construction Contracts*, IAS 18 *Revenue*, IAS 16 *Property, Plant and Equipment* and IAS 38 *Intangible Assets*."

Entities that are not eligible to elect to apply the requirements of IFRS 14 do not recognize regulatory assets because in 2009 the IFRIC determined they did not meet the criteria for recognition of an intangible asset under IAS 38.

Therefore, we can conclude that ASC 980 is NOT in conflict with PS 3150.03, .14 and PS1000.58 with respect to intangible assets.

Conclusion:
FASB is appropriate to use as "*other source of GAAP"*. FASB standard ASC 980 has extensive guidance for rate regulated entities including the recognition of regulatory assets and use of rate regulated accounting by IESO would be consistent with current reporting practices of H1, OPG and OEFC.

Appendix A:

Extract from the "DECISION and ORDER issued by the OEB on March 28, 2013" available on the IFRS website

Proceeding on the Ontario Energy Board's own motion to review the options for and ultimately determine the appropriate allocation and recovery of the Smart Metering Charge pursuant to section 19 of the Ontario Energy Board Act, 1998.

THE BOARD ORDERS THAT:

Effective May 1, 2013, the Smart Metering Entity charge to be levied and collected by the Smart Metering Entity from all Distributors identified in the Board's annual Yearbook of Electricity Distributors shall be $0.788 per month for each Residential and General Service <50kW customers for each distributor. The Smart Metering Entity charge shall be in effect from May 1, 2013 to October 31, 2018. The number of Residential and General Service <50kW customers to which the Smart Metering Entity charge will be applied to shall be in accordance with the methodology set forth in the Settlement Agreement attached as Appendix A.

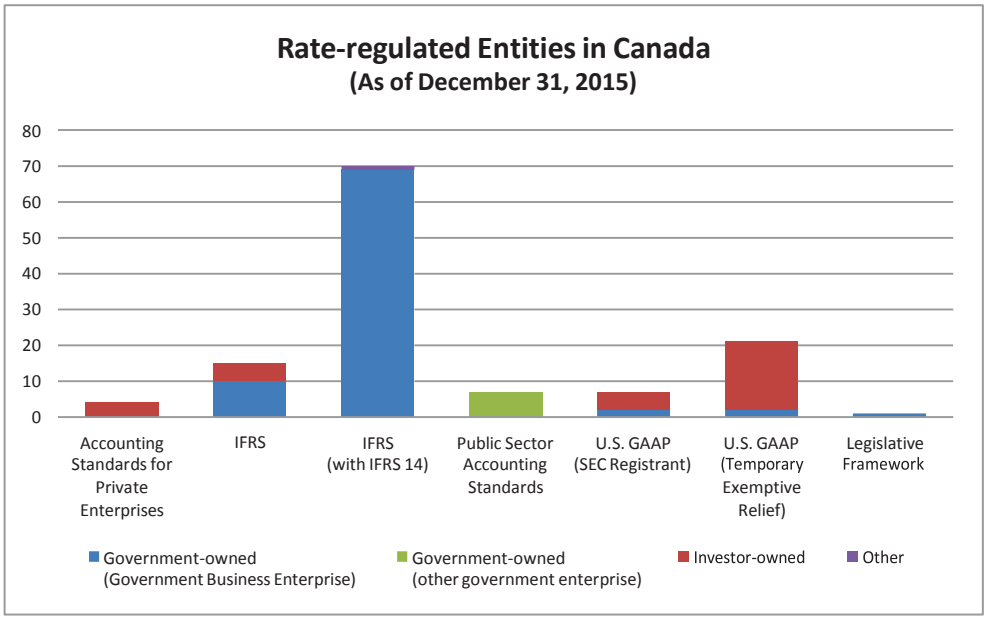
Appendix B:

Extract from the "Accounting Standards Advisory Forum Agenda Ref: 3A dated September 29, 2016" available on the IFRS website

Canadian Rate-regulated Entities

18. The accounting framework landscape for Canadian rate-regulated entities is currently diverse. For annual periods beginning on or after January 1, 2015, rate-regulated entities that are Canadian publicly accountable enterprises are required to apply IFRS. Rate-regulated entities that adopted IFRS for the first time after IFRS 14 *Regulatory Deferral Accounts* was issued continue to recognize these balances. Government Business Enterprises (which operate to generate a profit or on a break-even basis) that are also rate-regulated entities are also directed to apply standards applicable to for-profit entities, and thus apply IFRS. Canadian securities legislation permits dual-listed entities (i.e., Canadian entities also registered with the U.S. Securities and Exchange Commission) to apply U.S. GAAP in the normal course. Temporary exemptive relief is also available from the Canadian Securities Administrators that permits rate-regulated entities that are not dual-listed to apply U.S. GAAP in place of IFRS. If a rate-regulated entity is not a publicly accountable enterprise or a Government Business Enterprise, additional accounting framework options may also include Accounting Standards for Private Enterprises or Public Sector Accounting Standards. A non-GAAP reporting framework is used when legislated by the provincial owner of a government-owned rate-regulated entity.

19. As of December 31, 2015, there were approximately 125 rate-regulated entities in Canada. These entities mainly range in size from small entities owned by municipal governments to large investor-owned entities or entities owned by provincial governments.



Source: Information compiled based on audited financial statements for fiscal year 2015, or information from rate filings that confirmed the accounting framework used by these entities. Due to data collection constraints, the population could be slightly larger.

20. The chart above highlights two key points:

(a) The majority of investor-owned entities have chosen U.S. GAAP over IFRS. A few entities that are not reporting issuers apply Accounting Standards for Private Enterprises. Both U.S. GAAP and Accounting Standards for Private Enterprises permit the recognition of balances arising from rate regulation. Several entities that apply U.S. GAAP have told us this choice was influenced by the need to provide their users with financial statements that accurately reflect the economics of their business. Further, some entities presently using the temporary exemptive relief described in paragraph18 have said they are considering incurring the cost and effort necessary to become a registrant of the U.S. Securities and Exchange Commission in order to have the permanent ability to apply U.S. GAAP. While such a decision could be primarily for business reasons such as the entity expanding its operations into the U.S., it could also be attributed to the continuing uncertainty about the ultimate outcome of the IASB's Rate-regulated Activities project and the approaching expiry date of the securities regulators' exemptive relief.

(b) Public sector entities that are Government Business Enterprises tend to apply IFRS. The majority of these entities is made up of several large provincially-owned utilities, and many small municipally-owned local distribution utilities that do not issue debt or list in the U.S. stock market, and are not subject to Canadian securities legislation. As a result, they cannot apply U.S. GAAP. As shown in the chart, many of these entities adopted IFRS for the first time after the IASB issued IFRS 14, which allowed them to continue their previous accounting practices for rate-regulated activities.

21. Within the pool of government-owned rate-regulated entities, there are entities that do not meet the characteristics of Government Business Enterprises and are required to apply Public Sector Accounting Standards.

22. The data on the different accounting frameworks in Canada is unique. It demonstrates that when given a choice, rate-regulated entities select an accounting framework that captures the effects of rate regulation on their financial position and financial performance in order to communicate more decision-useful information to users.

White Paper on the Province's proposed Global Adjustment Smoothing Account

Below is a summary of IESO's preliminary views on the implementation of the Province's proposed Global Adjustment Smoothing Account.

Understanding that the finalization of the legal terms, the financing structure and other detailed terms will take several months and will involve collaboration between legal counsel, parties involved and other stakeholders, this letter is intended to provide the guideline and framework which could form the foundation of the plan.

Issues being considered in this document are:

Issue #1: Can the IESO recognize deferral or variance accounts related to the annual Global Adjustment Smoothing Account as a regulatory asset on its statement of financial position?

Issue #2: Can the IESO derecognize the deferral or variance accounts related to the Global Adjustment Smoothing Account upon sale to the OPG Trust**?**

1. Recognition of regulatory assets (deferral and variance accounts)

Background and Assumptions for issue #1

The facts, circumstances, and assumptions relevant to the specific transactions are as follows:

1. The IESO's legal status is a not-for-profit, non-taxable, corporation established pursuant to Part II of the *Electricity Act, 1998*. IESO is classified as an Other Governmental Organization and prepares its financial statements in accordance with Canadian public sector accounting standards (PSAB).
2. IESO is rate regulated by the OEB in accordance with the Electricity Act, 1998 and the Ontario Energy Board ("OEB") Act, 1998 but currently does not recognize the economic impacts of rate regulation in its general purpose financial statements.
3. The IESO is required to obtain approval from the OEB under s. 25(1) of the Electricity Act, 1998 for the approval of its own expenditures, revenue requirement and fees. The last rate approval was obtained on December 29, 2016[1].
4. The OEB issued a Decision and Order on March 28, 2013 that permits IESO to recover the MDMR costs (the Smart Metering Charge) (see Appendix A). *(i.e. Costs incurred in the past will be fully recovered through future rates)*
5. Furthermore, in accordance with the *Electricity Act, 1998* and the *OEB Act, 1998*, the IESO has approved variance accounts to record all amounts payable or receivable by it in connection with the amounts paid to generators, the Financial Corporation, distributors and to entities with whom the IESO has a procurement contract. (i.e. costs incurred in the past will be fully recovered through future rates)
6. The province is contemplating deferring the recovery of a portion of the annual Global Adjustment Smoothing Account (comprised primarily of the electricity costs paid to the generators) over a period of 25-30 years, so that costs incurred would be fully recovered through future rates.
7. The *Electricity Act, 1998* and the *OEB Act, 1998* would be amended through legislation to require the deferral of the recovery of the Global Adjustment Smoothing Account and the future recovery in rates charged to customers.

[1] http://www.rds.ontarioenergyboard.ca/webdrawer/webdrawer.dll/webdrawer/rec/556699/view/Dec_Order_IESO 20161229.PDF

8. The OEB would grant generic deferral or variance accounts to capture the difference between the amounts paid to generators and others, and the amounts collected in rates. Furthermore, the interest and ancillary costs related to the contemplated transaction would also be included in future rates charged to customers. In summary, the legislation would create a right to collect the incurred cost.

9. The IESO would change its accounting policies to permit the recognition of the economic impacts of rate regulation as from the 2016 financial year. IESO would adopt the guidance of ASC 980 *Regulated Operations* to better reflect the economic substance of its operations and enhance the transparency and accountability of its financial reporting.

Appropriate Accounting Principle for issue #1

ASC 980 Regulated Operations

- 980-10-15-2 *"The guidance in the Regulated Operations Topic applies to general-purpose external financial statements of an entity that has regulated operations that meet all of the following criteria:*

  (a) The entity's rates for regulated services or products provided to its customers are established by or are subject to approval by an independent, third-party regulator or by its own governing board empowered by statute or contract to establish rates that bind customers.

  (b) The regulated rates are designed to recover the specific entity's costs of providing the regulated services or products. This criterion is intended to be applied to the substance of the regulation, rather than its form. If an entity's regulated rates are based on the costs of a group of entities and the entity is so large in relation to the group of entities that its costs are, in essence, the group's costs, the regulation would meet this criterion for that entity.

  (c) In view of the demand for the regulated services or products and the level of competition, direct and indirect, it is reasonable to assume that rates set at levels that will recover the entity's costs can be charged to and collected from customers. This criterion requires consideration of anticipated changes in levels of demand or competition during the recovery period for any capitalized costs."

- 980-10-20 Glossary, Definition of incurred costs *"A cost arising from cash paid out or obligation to pay for an acquired asset or service, a loss from any cause that has been sustained and has been or must be paid for."*

- 980-10-05-8 "*Unless an accounting order indicates the way a cost will be handled for rate-making purposes, it causes no economic effects that would justify deviation from the GAAP applicable to business entities in general. The mere issuance of an accounting order not tied to rate treatment does not change an entity's economic resources or obligations. In other words, the economic effect of regulatory decisions—not the mere existence of regulation—is the pervasive factor that determines the application of GAAP.980-340 – Other Assets and Deferred Costs."*

- 980-340-25-1 "*Rate actions of a regulator can provide reasonable assurance of the existence of an asset. An entity shall capitalize all or part of an incurred cost that would otherwise be charged to expense if both of the following criteria are met:*

  (a) It is probable (as defined in Topic 450) that future revenue in an amount at least equal to the capitalized cost will result from inclusion of that cost in allowable costs for rate-making purposes.

  (b) Based on available evidence, the future revenue will be provided to permit recovery of the previously incurred cost rather than to provide for expected levels of similar future costs. If the revenue will be provided through an automatic rate-adjustment clause, this criterion requires that the regulator's intent clearly be to permit recovery of the previously incurred cost.

  A cost that does not meet these asset recognition criteria at the date the cost is incurred shall be recognized as a regulatory asset when it does meet those criteria at a later date."

- 980-340-40-1: "*If at any time an entity's incurred cost no longer meets the criteria for the capitalization of an incurred cost (see paragraph 980-340-25-1), that cost shall be charged to earnings."*

- 980-350-50-1: "*In some cases, a regulator may permit an entity to include a cost that would be charged to expense by an unregulated entity as an allowable cost over a period of time by amortizing that cost for rate-making purposes, but the regulator does not include the unrecovered amount in the rate base. That procedure does not provide a return on investment during the recovery period. If recovery of such major costs is provided without a return on investment during the recovery period, the entity shall disclose the remaining amounts of such assets and the remaining recovery period applicable to them.*"
- 980-340-55-2: "*In some cases, a regulator may approve rates that are intended to recover an incurred cost over an extended period without a return on the unrecovered cost during the recovery period.*"
- 980-340-55-3: "*The regulator's action provides reasonable assurance of the existence of an asset (see paragraph 980-340-25-1). Accordingly, the regulated entity would capitalize the cost and amortize it over the period during which it will be allowed for rate-making purposes. That cost would not be recorded at discounted present value. An exception to this general rule is provided for costs of abandoned plants.*"

Issue #1: Can the IESO recognize deferral or variance accounts related to the annual Global Adjustment Smoothing Account as a regulatory asset on its statement of financial position?

US GAAP includes special accounting provisions that are applicable to entities with activities that are subject to rate regulation (see White Paper - Adoption of the Guidance in ASC 980 Regulated Operations). The result is that rate regulated entities are required to recognize regulatory assets and liabilities provided the following three criteria are met:

Criteria	Comment	Evaluation
The entity's rates for regulated services or products provided to its customers are established by or are subject to approval by an independent, third-party regulator or by its own governing board empowered by statute or contract to establish rates that bind customers.	IESO has unrecognized variance accounts related to the MDMR (smart meters), that have been approved by the OEB in accordance with the Electricity Act and the OEB Act (see Appendix A). It is important to note that Hydro One and OPG are both consolidated into the province's books, are both regulated by the OEB and their respective regulatory assets and liabilities are reported in the province's books.	Met
The regulated rates are designed to recover the specific entity's costs of providing the regulated services or products.	Currently, the rates approved by the OEB are designed to recover the IESO's costs of providing the regulated services and the pass-through related to the energy purchased from the generators. The contemplated transaction is based on the fact that the OEB would grant generic deferral or variance accounts to capture the difference between the amounts paid to generators and others, and the amounts collected in rates. Furthermore, the interest and ancillary costs related to the contemplated transaction would also be included in future rates charged to customers. In summary, the legislation would create a right to collect the incurred costs.	Met

In view of the demand for the regulated services or products and the level of competition, direct and indirect, it is reasonable to assume that rates set at levels that will recover the entity's costs can be charged to and collected from customers. This criterion requires consideration of anticipated changes in levels of demand or competition during the recovery period for any capitalized costs.”	Since the deferral or variance accounts would be sold to the OPG Trust at least on a monthly basis and cash would be received on the same day, this criteria would be met. This criteria would need to be monitored on a yearly basis to ensure that IESO and the OPG Trust would be able to recover the future deferred amount taking into account the levels of demand or competition during the recovery period.	Met
Conclusion: The three criteria would be met.		

Conclusion: Based on the assumptions mentioned above, IESO should be able to recognize a regulatory asset for the deferral of the annual Global Adjustment Smoothing Account. As mentioned in the ASC 980 guidance above, it is important that an accounting order be issued by the OEB which indicates the way the incurred costs would be handled for rate-making purposes as the OEB's action provides reasonable assurance of the existence of a regulatory asset.

2. Derecognition of regulatory assets (deferral and variance accounts)

Background and Assumptions for issue #2

The facts, circumstances, and assumptions relevant to the specific transactions are as follows:

1. The annual Global Adjustment Smoothing Account that would be deferred in the deferral or variance accounts (the "Asset") would be significant.
2. The IESO does not currently have the financial capability to finance the Asset and is contemplating selling the Asset to a Trust to be set-up by OPG (the "OPG Trust").
3. The OPG Trust would be consolidated by OPG.
4. Proposed terms of the sale agreement between the IESO and the OPG Trust:
   - The sale contract would be structured as an absolute sale, which would assign future economic benefits or cash flows related to the Asset exclusively to the OPG Trust.
   - The arrangement would be structured whereby there is no recourse or obligations remaining of IESO related to the Asset.
   - The arrangement is not considered to be a financing transaction as IESO would have no obligations to the OPG Trust after the Asset is sold to the OPG Trust.
   - IESO would not retain any rights or benefits from the Asset.
   - IESO would not have any rights to interest or penalties on the Asset once it has been transferred to the OPG Trust.
   - The contract would be clear that IESO cannot pledge the Asset as collateral to obtain future cash flows or financing.
   - IESO would continue to collect related cash flows on the OPG Trust's behalf and remit those cash flows to the OPG Trust without material delay. In addition, IESO would not be entitled to reinvest such cash flows, except for investments in cash or cash equivalents during the short settlement period from the collection date to the date of required remittance to the OPG Trust, and interest earned on such cash and cash equivalents is passed to the OPG Trust. The contract would define IESO's role strictly as that of agent, under a pass-through arrangement.
   - Servicing, origination, and arrangement fees, would be collected by IESO in rates charged to ratepayers as part of its market dealings.
   - The Asset would be sold to the OPG Trust at least, on a monthly basis and cash would be received on the same day.

Appropriate Accounting Principles for issue #2

Public Sector Accounting Standard ("PSAS") 3210, *Assets*, defines an asset as "…*economic resources controlled by a government as a result of past transactions or events and from which future economic benefits are expected to be obtained*." [par. 3]

.04 *"Assets have three essential characteristics:*

(a) they embody future economic benefits that involve a capacity, singly or in combination with other assets, to provide goods and services, to provide future cash inflows, or to reduce cash outflows;

(b) the public sector entity can control the economic resource and access to the future economic benefits; and

(c) the transaction or event giving rise to the public sector entity's control has already occurred."

.22 *"Control of an economic resource and of access to the future economic benefits are essential characteristics of an asset, whereas possession or ownership is not*."

.24 *"A public sector entity may act as trustee when it administers trusts on behalf of the beneficiaries specified in the agreement or statute. As trustee, the public sector entity merely administers the assets, following the terms*

and conditions set out in the agreement. It does not control the asset because it does not have access to the future economic benefits. Those benefits flow to the beneficiaries."

As noted in PS1000 Financial statement concepts:

.37 *"An item is not an asset of a government if it lacks one or more of the essential characteristics listed in the preceding paragraph. Thus, for example, an item does not qualify as an asset of a government if the item involves:*

(a) no future economic benefit;

(b) future economic benefit, but the government cannot obtain it; or

(c) future economic benefit that the government may obtain, but the events or circumstances that give the government control of the benefit have not yet occurred."

As noted in PS3450, derecognition of a financial liability:

.042 *"A government should remove a financial liability (or part of a financial liability) from its statement of financial position when, and only when, it is extinguished (i.e., when the obligation specified in the contract is discharged or cancelled, or expires)."*

.043 *"A financial liability (or part of a financial liability) is extinguished when the debtor either:*

(a) discharges the liability (or part of it) by paying the creditor, normally with cash, other financial assets, goods or services; or

(b) is legally released from primary responsibility for the liability (or part of it) either by process of law or by the creditor. (When the debtor has given a guarantee, this condition may still be met.)"

.046 "*Payment to a third party, including a trust (sometimes called "in-substance defeasance"), does not, by itself, relieve the debtor of its primary obligation to the creditor in the absence of legal release."*

.047 "*If a debtor pays a third party to assume an obligation and notifies its creditor that the third party has assumed its debt obligation, the debtor does not derecognize the debt obligation, unless the condition in paragraph PS 3450.043(b) is met. If the debtor pays a third party to assume an obligation and obtains a legal release from its creditor, the debtor has extinguished the debt. However, if the debtor agrees to make payments on the debt to the third party or direct to the original creditor, the debtor recognizes a new debt obligation to the third party."*

Issue #2: Can the IESO derecognize the deferral or variance accounts related to the annual Global Adjustment Smoothing Account upon sale to the OPG Trust?

PS3210 does not specifically address the derecognition of a regulatory asset as the concept of a regulatory asset does not exist under PSAS.

As mentioned above, regulatory assets do not meet the definition of intangible asset or financial asset. Specifically, regulatory assets do not meet the definition of financial asset because they are imposed on customers through the tariff (i.e., imposed by the OEB) and do not represent a right to receive payments from another party as a result of a contract.

More generally, PSAS.3210.37 suggests that an asset would no longer be recognized when it fails to meet the definition of an asset.

Based on PS1000.37(b), an item does not qualify as an asset of a government if the item involves future economic benefit, but the government cannot obtain it.

Based on the assumptions mentioned above, the legal title of the Asset would be transferred to the OPG Trust, as well as, ALL risks and rewards, including the following:

- the contract would define IESO's role strictly as that of agent, under a pass-through arrangement;
- all cash flows related to the Asset would be transferred without material delay to the OPG Trust;
- rights to interest or penalties on the Asset would be for the benefits of the OPG Trust;
- IESO cannot pledge the Asset; and
- no recourse or obligations remaining of IESO related to the Asset.

IESO should also evaluate whether the sale of the Asset should in fact be considered as a borrowing arrangement. In the absence of detailed guidance on this subject, we can analogize to the guidance in PS3450 *Financial Instruments* for the derecognition of a financial liability. Par. 43 states that *"A financial liability (or part of a financial liability) is extinguished when the debtor is legally released from primary responsibility for the liability (or part of it) either by process of law or by the creditor. (When the debtor has given a guarantee, this condition may still be met.)"* Based on the assumptions mentioned above, since the legal title of the Asset would be transferred to the OPG Trust, as well as, ALL risks and rewards, it can be concluded that the sale of the Asset is not a borrowing arrangement.

Conclusion: Based on the proposed terms of the sale agreement between the IESO and OPG Trust mentioned above, the deferral or variance accounts would be derecognized at the point where the IESO would derive no future economic benefit from it. This would occur where the IESO ultimately transfers the rights, risk and rewards related to those deferral or variance accounts to the OPG Trust. This would occur on the receipt of cash from the OPG Trust.

Appendix A:

Extract from the "DECISION and ORDER issued by the OEB on March 28, 2013" available on the IFRS website

Proceeding on the Ontario Energy Board's own motion to review the options for and ultimately determine the appropriate allocation and recovery of the Smart Metering Charge pursuant to section 19 of the Ontario Energy Board Act, 1998.

THE BOARD ORDERS THAT:

Effective May 1, 2013, the Smart Metering Entity charge to be levied and collected by the Smart Metering Entity from all Distributors identified in the Board's annual Yearbook of Electricity Distributors shall be $0.788 per month for each Residential and General Service <50kW customers for each distributor. The Smart Metering Entity charge shall be in effect from May 1, 2013 to October 31, 2018. The number of Residential and General Service <50kW customers to which the Smart Metering Entity charge will be applied to shall be in accordance with the methodology set forth in the Settlement Agreement attached as Appendix A.

Global Adjustment Deferral_White Paper_OPG r1a.pdf

February 27, 2017

Mr. Serge Imbrogno
Deputy Minister,
Ministry of Energy
4th Floor, Hearst Block
900 Bay Street
Toronto, Ontario
M7A 2E1

Dear Deputy:

Below is a summary of OPG's preliminary views on the implementation of the Province's proposed Global Adjustment Smoothing Account and financing structure. These views are contingent on the proposed terms and conditions that were sent to the Ministry of Energy on February 21, 2017.

Understanding that the finalization of the legal terms, the Trust indentures, financing structure and other detailed terms will take several months and will involve collaboration between legal counsel, input from capital markets, parties involved and other stakeholders, this letter is intended to provide the guideline and framework which could form the foundation of the plan.

Please do not hesitate to contact me if you have any questions regarding this summary.

Sincerely,

Mr. Ken Hartwick
Chief Financial Officer and Senior Vice President, Finance
Ontario Power Generation
W: 416-592-6985
C: 647-544-6985
ken.hartwick@ opg.com

cc. Jeff Lyash, President and CEO, OPG

Background:

The Province has indicated that it will take steps to reduce electricity bills in the near term. It has identified reductions in the Global Adjustment Charge (GAC) charged to electricity customers as a means to achieve its policy goals. The Province is proposing to temporarily reduce the amount of the GAC charged to electricity customers (primarily RPP-eligible customers). The exact quantum and duration of the program is still not known but based on discussions with the Province GAC charges of approximately $2-5B per year for the next 5-10 years would be deferred and collected over future periods commencing after the deferral period. A combination of senior debt and subordinated debt (mainly sourced by additional equity from the shareholder) would be issued to fund the amount deferred. The financing cost of the debt and other costs of running the program would form part of the amounts recovered from customers over the term of the program.

The Province has requested that OPG administer the GAC deferral, because of OPG's participation in the market, regulatory knowledge and the potential ability to consolidate the activity and accounting with OPG. Given the significant amount of financing required for the GAC deferral, OPG has developed a financing structure (depicted below) to:

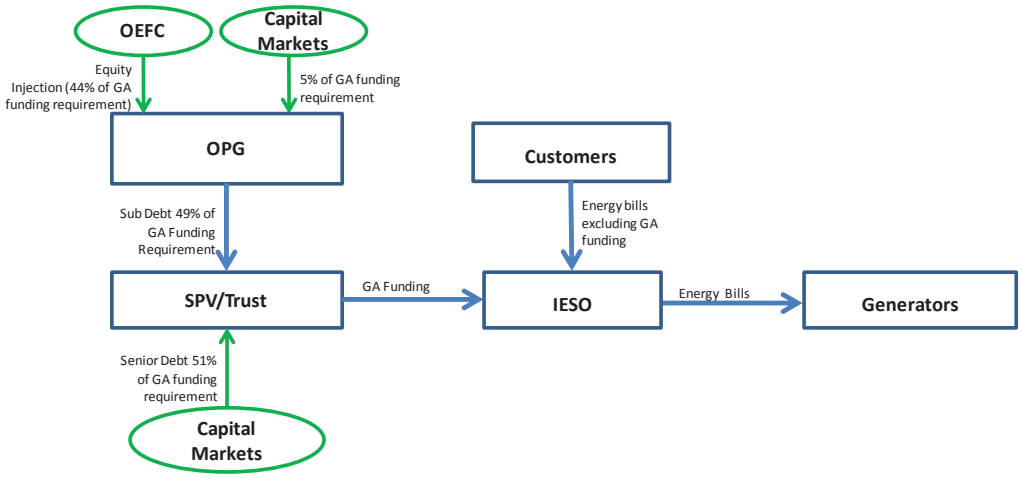
- restrict the risk to OPG;

- maximize the cost-effectiveness of the Trust or the Special Purpose Vehicle ("SPV") financing vehicle; and
- allow for consolidation into OPG financial statements.

The success of this structure is dependent on achieving a number of objectives which are reviewed in the following sections:

A. Ability to Recognize an Asset and Record Revenue
B. Ability to Consolidate the SPV into OPG
C. Ability to Finance
D. External Assessment
E. Risk Summary

All of the percentages shown in the graphic below are indicative and will be highly dependent on the legislation that the Province will enact:



Process:

The IESO will effectively sell the 'right to collect' deferred future revenue from ratepayers (GA Recovery Right asset) to the SPV in return for cash proceeds. In order for the SPV to purchase this asset the SPV will obtain the financing from two key sources: 51% directly from capital markets and 49% as subordinated debt from OPG. OPG will obtain 44% of this financing as an equity injection from the Province and 5% from capital markets.

A. Ability to Recognize an Asset and Record Revenue

Accounting Requirements under International Financial Reporting Standards (IFRS)

1) It is our understanding that the IESO and KPMG have concluded that the sale of this 'right to collect' future revenue (or regulatory asset) is not a financing transaction and will not be recorded as a financial liability. Based on that conclusion, the right to collect will be accounted for as an intangible asset in the SPV.

2) In order to the SPV to record this right as an intangible asset, the right must meet the following conditions:
   - The intangible asset must be separable and arise from a contractual or legal right (i.e. mandated by the Legislation and SPV Indenture Agreement).
   - The SPV must have the control and power to obtain future economic benefits from the intangible asset.
   - The SPV must be able to demonstrate that the intangible asset is purchased at fair value.

3) In order for the SPV to recognize appropriate revenue to offset any ongoing costs, the Legislation must require interest, carrying and administrative costs to be paid to the SPV on a monthly basis. This may result in additional amounts to be deferred to achieve the desired customer impact. Payment of revenue to the SPV is also important to service the interest expenses of the debt.

B. Ability to Consolidate the SPV into OPG under IFRS

OPG 'Control' of the SPV - Accounting Requirements

1) In order to meet the accounting definition of 'control', accounting guidance must be considered. There are no bright lines to determine whether OPG has exposure, or rights, to variable returns from its involvement with the SPV, or whether it has the ability to affect the returns of the SPV through its power over the SPV. Rather, all facts and circumstances are considered when assessing whether an entity has control over another entity. Based on the relevant accounting guidance under IFRS, OPG has proposed terms necessary to demonstrate that OPG has control over the SPV. OPG's external auditors, Ernst & Young, has provided their concurrence that based on the information provided to them to date that the following conditions should permit consolidation of the SPV by OPG.

Directive:

1. The SPV must be undertaken by OPG as a business initiative on its merits. A Shareholder Directive is to be limited to direct OPG to investigate the option of establishing a SPV vehicle to administer, finance and operate the Global Adjustment plan. The control, risk and rewards of that SPV will determine its consolidation into OPG as a business enterprise.

SPV:

2. The SPV should not operate in a predetermined way such that OPG does not have decision-making authority over the SPV's ongoing activities after its formation (i.e. should not operate on 'autopilot').
3. OPG must have the ability to appoint and remove the Trustee (or Board of Trustees), with no veto right by the Province. No party shall have the ability to remove OPG from its role and authority in the SPV.
4. The Province cannot have the right to veto OPG's decisions about the relevant activities of the SPV. OPG must have the power over the relevant activities of the SPV and be compensated. The relevant activities of the SPV include (but are not limited to) the evaluation and decisions on financing alternatives, duration, and the strategy to minimize financing costs. OPG must have the power to establish operating and capital budgets of the SPV.
5. OPG must have the power to determine or change operating and financing policies of the SPV, which will affect the variability of risks and returns.
6. The Province or its agencies must not directly or indirectly fund (through debt or equity) more than 50% of the following:
    - The SPV
    - Any of OPG's investments in the most subordinated debt of the Trust
7. OPG must own greater than 50% of the most subordinated debt and targeted to be no less than 5%[1] of the total debt of the SPV. Such ownership must be financed entirely by OPG through operating cash flows or external debt, without assistance from Provincial sources. A quantitative analysis should be performed at a later date to corroborate the appropriateness of the 5% threshold to support that the 5% subordinated debt investment is sufficient to absorb most of the expected variability in the SPV.
8. OPG must have the ability to earn variable returns by exercising its authority, which shall be accomplished as follows:

[1] While the rest of the letter refers to a 10% investment in the most junior subordinated debt with OPG owning 5%, it should be noted that OPG should own more than 50% of the most subordinate debt. For simplicity, the degree to which OPG's ownership beyond 50% is not shown in this letter.

a. The cash flow from the restructured asset shall include interest determined based on a relevant benchmark that is appropriate relative to the restructured asset, plus an appropriate margin consistent with the relevant market and other risks
b. OPG shall have the authority to determine the financing strategy, which will vary the financing costs with the objective of enabling the SPV to achieve a more favourable return compared to the return from the restructured asset
c. The SPV shall establish classes of liabilities (senior, subordinated and the most subordinated). The classes would allow the SPV to delineate financing of lower risk investment and investment that would bear higher residual risk. The delineation would limit OPG's self-funded investment to a reasonable level in order to allow OPG to remain a self-sustaining entity.
d. OPG shall, through its ownership of the most subordinated liability, be able to capture and retain the pricing difference between cost of financing and benchmark for interest on the restructured asset, or any residual risk of restructured asset. The targeted return of the subordinated liability should be reflective of the underlying risks and compensate holders for active management that would be required.
e. OPG should participate in the detailed design of the above and the SPV documentation to ensure that it has substantive power and variability, which will allow OPG's Board of Directors to evaluate the opportunity as a business initiative instead of through a shareholder directive.

Nothwithstanding the above, under certain Defined Forced Majeure for emergency events (e.g. unlikely credit market event or disruption where it is not possible to borrow from the market at a reasonable rate), the OEFC may provide bridge financing beyond the designated percentage for a defined period. The relevant terms should ensure that this temporary measure does not detract from the rights of OPG to direct all of the relevant activities of the SPV. Additionally, OPG should not be protected from risk of loss by the OEFC with respect to its subordinated investment, nor should it lose its right to derive the residual returns should such bridge financing be required.

Legislation

9. The Legislation must require interest, carrying and administrative costs to be paid to the SPV on a monthly basis, so that the SPV is able to recognize appropriate revenue to offset any ongoing costs.
10. The Legislation must dictate the manner in which the restructured asset would be determined, collected, and the period of collection, so that the determination of the restructured asset will not be subject to the Province's decisions on an ongoing basis, but determined based on a formula. Alternatively, the Legislation may allow for an adjustment to the pre-determined deferral formula based on specific parameters that would limit the adjustment to the restructured asset. Adjustments beyond the specific parameters would require approval by the Board of Trustees.
11. The Legislation must be written to avoid legal or constitutional challenges and be irrevocable to reduce the cost of borrowing and with a specific formula which determines the deferral amount. As irrevocability would be difficult under Canadian law one mitigation would be to provide a Provincial guarantee which only applies with cancellation or amendment of the legislation.
12. The spirit of the above terms should be reflected in the SPV Indenture Agreement as well as Legislation, wherever possible.

2) The Trust is expected to be financed as follows:
   - 51% senior secured debt from external markets
   - 39% senior subordinated debt from OPG (via Province equity injection into OPG)

- 10% junior subordinated debt from OPG (5% from external markets and 5% from Province equity injection into OPG).

When assessing control, an investor shall consider the nature of its relationship with other parties and whether those parties are acting on the investor's behalf (i.e. they are 'de facto agents'). If OPG is assessed to be a 'de facto agent' of the Province, it will compromise the ability for OPG to consolidate the Trust. The split above is to meet the following conditions to ensure that OPG is not considered a 'de facto agent' of the Province:

- The Province or its agencies must not directly or indirectly fund (through debt or equity) more than 50% of the following:
  - The Trust
  - Any of OPG's investments in the most subordinated debt of the Trust
- OPG must own greater than 50% of the most subordinated debt and targeted to own no less than 5% of the total debt of the Trust. Such ownership must be financed entirely by OPG through operating cash flows or external debt, without assistance from Provincial sources.

3) The Province will need to conclude on whether OPG still meets the definition of a Government Business Enterprise as defined under Public Sector Accounting Board standards in order to obtain the preferred consolidation treatment after the transaction. We also recommend that the Province to undertake the analysis deemed necessary to confirm the accounting treatment in its consolidated Public Accounts, including if the recognition of the intangible asset would result in an offsetting liability in the Public Accounts.

C. Ability to Finance

Property Right or Right to Collect
Legislative Requirements for Financing
The GA Recovery Right must be structured to encompass the following elements:

- Right to recover from and bill Ontario electricity customers for (1) the principal amount of GA that is being deferred, (2) all interest and other financing costs incurred in respect of the deferral of the GA, (3) all fees, expenses and other administrative costs associated with such financing;
- Repayment/amortization schedule as agreed by the IESO and any purchaser of such GA Recovery Right (or pursuant to a pre-defined schedule/formula that covers all of the purchaser's principal, interest and ongoing financing costs on a monthly basis);
- Repayment/amortization schedule must include a true up mechanism to ensure all costs associated with the deferral can be recovered from customers;
- IESO may dispose of the GA Recovery Right, provided that any such disposition shall be a true sale and absolute transfer to the purchaser of the IESO's right, title and interest in and to the GA Recovery Right;
- Purchaser will have the right to require the IESO (or any successor) to collect the principal amount of GA Recovery Right, together with interest, financing and administration costs, on the agreed repayment/amortization schedule;
- Right must be irrevocable and, if amended by future governments, debt holders have the right of action against the government to recover the amount outstanding including interest, fees, expenses and any damages resulting from the amendment;
- GA Recovery Right will not be subject to any set-off, counterclaim or other defence by the IESO or any successor or affiliated entity; and
- Make certain amendments to the Electricity Act to allow OPG to implement the SPV financing structure (e.g. allowing OPG to create subsidiaries and holding companies, and to have a beneficial interest in the SPV, etc). This would provide flexibility to accommodate possible variations to the financing structure that may be desirable over time.

Detailed legislative requirements are specified in the attachments as follows:

Attachment 1 Legislative requirements to allow deferral of global adjustment amounts to be financeable

Attachment 2 Statutory amendments

The proposed financing structure for the SPV is:

	Risk Profile	Source	% of Total Funding Requirements
Tranche A Senior Debt	The least risky	Capital Markets	51%
Tranche B Sub Debt	In between A&C	OPG via OEFC	39%
Tranche C Sub Debt)	The most risky	OPG via OEFC	5%
		OPG via Capital Markets	5%

SPV structure is used to accomplish the following:

- SPV holds right to charge customers for the benefit of debt holders;
- Allows the financing vehicle to be ring-fenced from OPG as an SPV structure is set up as generally single purpose entities with no other operations that could add risk to the SPV, dilute debt holder rights, allow parties from other operations to claim rights to the future recovery from customers or allow these other parties to initiate bankruptcy proceedings;
- Enables SPV to potentially get a higher credit rating than OPG;
- Supports consolidation with OPG provided accounting requirements are satisfied;

This approach supports a number of objectives of the GA Recovery Right:

- 51% external senior debt supports separation of the SPV from the Province
- 5% junior subordinated debt establishes OPG's "at risk" equity which supports separation of the SPV from the Province
- Subordinated debt provides flexibility to the financing structure and additional credit support to external debt holders
- Subordinated debt sourced from OPG (mainly funded by equity injection from the Province) minimizes impact on OPG credit metrics reducing risk of an OPG rating downgrade that could result in the SPV being consolidated directly with the Province as the SPV would be considered an arm of the Province.

Recent transactions used as precedents are:

Duke Energy Florida Project Finance LLC
June 2016
5 series of bonds totalling USD$1.3B
Weighted average life from 2 to 19 years with interest rates from 1.2% to 3.1%
Credit rating AAA

Utility Debt Securitization Authority
Sponsored by Long Island Power Authority
March 2016
Amount issued USD$0.6B
Weighted average life of 12 years and weighted average yield of 2.7%

August 2016
Amount issued USD$0.5B
Weighted average life of 7 years and weighted average yield of 2.0%

Credit rating AAA

Cumulative outstanding (including previous issuances): USD$4.2B

D. External Assessment

Shakerhill Partners, an external advisor, identified the following items in an assessment of the structure and financeability of the structure:

- The structure is financeable however there are a number of significant risks to the structure:
  - Canadian and Ontario law does not provide the same protection to property right as exists in the US federal and state constitutions to limit the ability of governments to adversely impair contracts to the detriment of the holder;
  - Legislation could mitigate some of the risks – deferred recovery asset to be "uncapped", regular semi-annual true up to ensure recovery, Province provides sufficient committed liquidity to the IESO so that temporary shortfall in recovery does not affect payments to SPV, term of the deferral recovery substantially exceeds the longest maturity of debt of the SPV and that true-up mechanism take account of potential for currency, interest rate and duration mis-match between the debt of the SPV and the recovery mechanism;
  - Size of the program may be too large for Canadian securitization market requiring access to the US securitization market;
- Final maturity of debt should not exceed 30 years from inception of the program
- True up mechanism should be designed such that the forecast of recovery is less than 10% of the customer bill under downside scenarios to limit growth of the deferral balance as a higher portion of the customer bill increases the political risk to debt holders which could result in a lower credit rating and potential impact on financeability
- Securitized debt products are specialized and price at a premium to other fixed rate instruments however a successful program supported by a strong credit rating this premium could shrink over time to a minor spread over Provincial debt
- OPG's credit rating should be maintained provided sufficient equity is injected to maintain credit metrics
- While the structure is not expected to impact the Province there are risks that the program could negatively impact the rating agencies view of the Province's financial management.

E. Risk Summary

i. Consolidation

- Elements of the proposed structure were established to support consolidation of the SPV into OPG. These items may not be sufficient to establish OPG as risk owner of the SPV and the SPV may need to be consolidated directly with the Province.

ii. Financeability

- The legislation establishing the structure and the property right for recovering the financing and associated costs may not be adequate for financing purposes resulting in more expensive financing or an inability to obtain the required external financing.

iii. Cost of Financing

- Future governments may enact legislation that changes the right of the SPV to recover amounts from customers.
- The right to recover amounts from future customers must be irrevocable and subject to full recovery from the government in the event that future governments reduce or eliminate the recovery. A legal structure that is weaker than the precedent US transactions increases the risk to debt holders and the cost of financing.
- Interest rates on bonds in the securitization market are higher than equivalent rated bonds. Rate for a AAA securitization credit is about 50 bps higher than GOC (rated AAA) for a 5 year term. This difference is attributable to the specialized structure of the bond, smaller investor pool for this bond, smaller size of the market and higher perceived risks of the bond.
- Any regulator involvement must not be seen to modify any terms of debt issued or the property right securing the debt as this would increase risk to debt holders.

- It may not be possible to issue debt to match the terms of the deferred asset so shorter term debt would be used which raises risk to re-finance the maturing debt as the market may no longer be interested in this product. As well, underlying reference interest rates may be higher and the market may require a higher spread to invest in this product.
- With the GA Recovery Right program continuing for 10 years, debt issued over this period is subject to changes in both the underlying reference interest rates and appetite of the market for this product.

iv. OPG Credit Rating

- Minimizing the impact of significant additional debt on OPG's credit rating is dependent on higher EBITDA arising from earned income on the GA Recovery Right in excess of external debt. Ability of the SPV to record revenue reflecting the growth in asset value.
- Potential OPG credit rating downgrade if legislative structure is not adequate to support long term recoverability, inability to record revenue from growth in asset value or agencies view equity injection as debt.
- OPG credit rating downgrade could result in loss of GBE status or result in SPV being consolidated directly with the Province.

Attachment 1

LEGISLATIVE REQUIREMENTS TO ALLOW DEFERRAL OF GLOBAL ADJUSTMENT AMOUNTS TO BE FINANCEABLE

The IESO currently has a right to collect GA monthly from ratepayers through provisions in the *Electricity Act, 1998*. It is proposed that collection of a certain portion of the monthly GA be deferred for collection in the future, and that the right to recover the deferred GA from ratepayers be used as a basis for structured financing/securitization.

The current proposal is for a trust to be created as a financing vehicle (the "**Trust**") in connection the deferred GA. The Trust will finance the deferral of the GA by purchasing the right to recover such deferred GA from the IESO for the principal amount of the GA being deferred. For example, if the amount of GA that is being deferred is $200 million in a given month, the Trust will purchase from the IESO the right to future recovery of the deferred GA and the associated financing costs (including interest and transaction costs) for $200 million in cash.

The Trust is expected to finance these purchases from the IESO through a combination of senior secured financing raised in the capital markets and subordinated financing from OPG (the funding for which will mostly be from equity injections from the OEFC/Province).

For accounting purposes, OPG will need to have the ability to direct the activities of the Trust, through a services agreement and/or through the Trust's constating document.

Based on securitized financing raised by utilities in the US (backed by utility cost recovery orders) and the current regulatory framework in Ontario, the legislation in Ontario would need to be amended to provide the following, at a minimum:

1. The IESO will be empowered to create an asset (the "**Regulatory Asset**") consisting of all right, title and interest in and to:

   (a) right to recover from and bill Ontario electricity ratepayers for:

   (i) the principal amount of GA that is being deferred for collection;
   (ii) all interest and other financing costs incurred in respect of the deferral of the GA (whether through senior debt raised in the public markets or subordinated debt raised from OPG or others); and
   (iii) (subject to the comments in paragraph 5 below in respect of OPG's internal administrative costs only) all fees, expenses and other administrative costs associated with such financing, including up-front and ongoing financing costs and any indemnity payments;

all on such repayment/amortization schedule as agreed by the IESO and any purchaser of such right (or pursuant to a pre-defined schedule/formula in the legislation that covers all of the purchaser's principal, interest and ongoing financing costs on a monthly basis); and

(b) all revenues, collections, claims, rights to payments, money or proceeds arising from the rights and interests set out in paragraph (a) above, regardless of whether such revenues, collections, claims, rights to payments, money or proceeds are imposed, billed, received, collected or maintained together with or commingled with other revenues, collections, rights to payments, payments, money or proceeds.

2. The IESO may dispose of the Regulatory Assets created from time to time on such terms as the IESO determines in accordance with the terms of directives to be issued to the IESO from time to time by the Minister, provided that any such disposition shall be a true sale and absolute transfer of the IESO's right, title and interest in and to a Regulatory Asset to the purchaser of the Regulatory Asset.

3. The Regulatory Assets will not be subject to any set-off, counterclaim or other defence by the IESO or any successor or affiliated entity thereof.

4. The legislation will need to recognize the Regulatory Assets as amounts that may be recovered by the IESO (e.g. it could be designated as a "GA Deferral" and would be included in the amounts collectible by the IESO through the GA collection mechanism, and would include interest and financing costs).

5. The purchaser of the Regulatory Asset will have the right to require the IESO (or any successor) to collect the principal amount of GA deferred, together with interest, financing and administration costs, on the agreed repayment/amortization schedule. **[NTD: In the LIPA securitization rate order, if the entity that is authorized to collect rates to service the bonds ends up defaulting, there is the ability to request a court to order "sequestration" and payments of amounts owing to the owner of the Regulatory Asset. Consider whether to include a similar right here. Alternatively, consider whether a security interest over the moneys collected by the IESO could be provided to the purchaser.]**

OEB would be provided with oversight over the internal administrative costs collected by the Financing Trust. This could be accomplished by (a) providing the purchaser of the Regulatory Asset with the right to require

the IESO or a successor to collect only the principal amount of GA together with interest and financing costs and third party fees and expenses, and (b) requiring the IESO to collect amounts through the global adjustment and make payments to the purchaser of the Regulatory Asset with respect to the internal administrative costs incurred by the purchaser in connection with the purchase and management of the Regulatory Asset and the Financing Trust, in accordance with the order of the OEB then in effect. Under this mechanism, the OEB would be required to review the purchaser's internal administrative costs through a streamlined process and issue such orders in accordance with rules to be prescribed under a new regulation under the OEB Act, which would clearly limit the OEB's scope of review and could establish the basis for the purchaser to receive an appropriate fee for its services.

6. In the event that any action is taken or permitted by the Province or any regulatory authority that limits, alters, or impairs the value of a Regulatory Asset or reduces the ability of the IESO or the purchaser of the Regulatory Asset to collect or recover the costs associated therewith, the owner of the Regulatory Asset and the holders of any bonds or other securities issued to finance the purchase of the Regulatory Asset, will have a right of action against the Province for any damages suffered as a result of such amendment.

STATUTORY AMENDMENTS

The following is preliminary and is based on our current understanding of the proposed structure and objectives. For example, we have assumed that the structure will not entail the insertion of a new Holdco between OPG and the Province. As these aspects are refined, some of the suggested amendments described below may not be needed and other aspects that we are not aware of may need to be considered. Accordingly, these suggested amendments are provided for discussion purposes and are subject to change. We would welcome the opportunity to work with OPG and the Ministry on refining the scope and substance of required legislative and regulatory amendments.

A. Amendments to Implement Structure

Certain *Electricity Act, 1998* amendments would be needed to implement the anticipated structure (which we understand, as noted above, would not include a Holdco), as follows:

- **Section 53.1(1):** Amend to permit owning and operating generation facilities through subsidiaries (not only directly through OPG). In addition, amend to permit OPG to administer, manage, loan moneys to and have a beneficial interest in, if applicable, Financing Trust.

- **Section 53.2:** Amend to permit the Minister to acquire, hold, dispose of or otherwise deal with securities or debt obligations of, or any other interest in, OPG or any subsidiaries. This is to accommodate possible variations to the financing structure that may be desirable over time.

- **Section 53.■ (new):** New statutory section to permit the Minister to enter into arrangements relating to an exercise of powers under 53.2.

- **Section 53.■ (new)**: New statutory section providing that creditors of Financing Trust have no recourse to the assets of OPG or any of its subsidiaries (other than Financing Trust, if applicable). In addition, consideration should be given as to whether the Act should be amended so that the Financing Trust cannot be wound up or liquidated.

B. Miscellaneous Corporate Items to Address

- **OPG Articles:** Amend the OPG's articles to remove the private company restrictions.

- **MOA with Province:** Consider whether any amendments to OPG's MOA with the Province are required to contemplate the Financing Trust.

C. Amendments Under Electricity Act to Implement GA Smoothing

Based on our understanding that the global adjustment smoothing mechanism is intended to benefit residential and small business customers only and that the Minister will be responsible for determining how much global adjustment smoothing is to be applied in a given month, if any, amendments to the *Electricity Act, 1998* and Ontario Regulation 429/04 (Adjustments Under Section 25.33 of the Act) would be needed to implement the mechanism, as follows:

(i) Electricity Act:

- **Section ■ (New):** Establish a new power for the Minister to make directives to the IESO in relation to the global adjustment smoothing mechanism and, particularly, for purposes of establishing global adjustment smoothing amounts from time to time (expected to be monthly). To the extent possible, the directive power should be drafted so as to limit the ability for a future Minister to require the IESO to do anything that would materially and adversely affect the Financing Trust or its lenders. **[NTD: While our understanding is that the Minister would direct this, we note from other materials we have seen that OPG may instead be recommending a formula approach. It is not clear what the formula would look like, where it would be set out or how it would be applied and by whom]**

- **Paragraph 25.33(1):** This section says that IESO shall make adjustments in accordance with the regulations to ensure that, over time, payments by prescribed classes of market participants reflect amounts paid to OPG, OEFC and distributors, as well as amounts paid to entities with whom IESO has a procurement contract. Add new subsection (c) so as to require IESO to ensure that, over time, payments by prescribed classes of market participants also reflect amounts paid to Financing Trust. **[NTD: Not certain this is needed if only to benefit residential and small business consumers, who are not market participants. May be needed in reference to payments from distributors and retailers]**

- **Paragraph 25.33(2):** This section says that distributors and retailers shall make adjustments in accordance with the regulations to ensure that, over time, payments by prescribed classes of consumers reflect amounts paid to OPG, OEFC and distributors, as well as amounts paid to entities with whom IESO has a procurement contract. Add new subsection (c) so as to require distributors and retailers to ensure that, over time, payments by prescribed classes of consumers also reflect amounts paid to Financing Trust.

- **Note**: As described below, the regulation will need to include new requirements for the IESO to record the global adjustment smoothing amounts in one or more variance accounts and to use those amounts to offset amounts otherwise recorded in the variance accounts under Section 25.33(3) of the Act. For context, we note:

    - Section 25.33(3) says that adjustments under (1) or (2) relating to electricity consumed by consumers whose rates are determined by

the OEB under s. 79.16 of the OEB Act (i.e. RPP Customers) shall instead be made in accordance with the regulations to one or more variance accounts established and maintained by the IESO.

- Section 25.33(4) says IESO, distributors and retailers shall make and receive such payments, set-offs and credits as may be required or permitted by the regulations with respect to consumers described in (3), i.e. RPP Customers.

- Section 25.33(5) says that IESO shall establish and maintain such variance accounts as may be needed to record all amounts payable or receivable by it under 25.33.

(ii) O. Reg. 429/04 (Adjustments Under Section 25.33 of the Act):

- **Section 1(1):** Consider adding definitions for "Financing Trust" and "global adjustment smoothing amount" or such other terms as may be preferred.

- **Section 1.2(1) (New):** Add section providing that, for the purposes of this Regulation, the global adjustment smoothing amount for a month is the amount determined by the IESO in accordance with a directive from the Minister under section ■ of the Electricity Act in respect of the month. **[NTD: See above note re use of Minister directives]**

- **Section 1.2(2) (New):** Consider adding a section providing that the IESO shall publish the global adjustment smoothing amount for a month by no later than the 10th business day of the following month [to align with general publication requirements for global adjustment under s. 1.1(2)].

- **Section 10(1):** Amend formula for calculating Class B GA rate by subtracting the global adjustment smoothing amount for a month from "M", which is the total amount of the global adjustment for the month. The global adjustment smoothing amount could be designated as "X", such that the formula would be (M-X-N)/(P-Q). Define "X" as the global adjustment smoothing amount for the month as determined by the IESO in accordance with the Minister's directive under section ■ of the Electricity Act for the month. **[NTD: See above note re use of Minister directives]**

- **Section 10.1 (New):** Add new section to deal with adjustments under subsection 25.33(3) of the Act, i.e. in respect of RPP consumers. This section should require the IESO to establish, within the variance account(s) it maintains pursuant to subsection 25.33(3) of the Act, one or more subaccounts in which it shall record the global adjustment smoothing amounts applicable to the classes of consumers described in subsection 25.33(3) of the Act. This section must also specify that the IESO shall apply the amounts recorded in the subaccounts against the balances in the variance accounts for purposes of section 79.16(3) of the OEB Act.

  - **Note:** This is a key aspect because, when the OEB determines RPP rates, it must take into account the balances in the variance accounts established by the IESO under s. 25.33 of the Electricity Act and make adjustments with a view to eliminating the balances within 12 months. This proposed new section 10.1 causes the IESO to reduce (in the near term) the variance account balances by the global adjustment smoothing amounts, as provided by Financing Trust, thereby enabling the OEB to determine RPP rates that, despite being lower for RPP consumers in the near term, still eliminate the relevant variance account balances within 12 months.

- **Paragraph 11(2)2.ii:** Amend the formula for calculating the allocation of global adjustment for a month to a licensed distributor that is a market participant by subtracting the global adjustment smoothing amount for a month from "M", which has the same meaning as under section 10(1). The global adjustment smoothing amount could be designated as "X", such that the formula would be [(M-X-N) x (R+S-T)]/(P-Q). Define "X" as suggested under section 10(1).

- **Paragraph 11(2)3:** Amend the formula for calculating the allocation of global adjustment for a month to each Class B market participant by subtracting the global adjustment smoothing amount for a month from "M", which has the same meaning as under section 10(1). The global adjustment smoothing amount could be designated as "X", such that the formula would be [(M-X-N) x U]/(P-Q). Define "X" as suggested under section 10(1).

- **Paragraph 16(7)4:** Consider amending the description of "Global Adjustment" that is required to be included on certain invoices so as to inform consumers that their portion of the global adjustment for the month (i) may have been reduced by the application of a global adjustment smoothing amount from the Financing Trust, or (ii) may include amounts payable to the Financing Trust in respect of global adjustment smoothing amounts previously applied.

- **Section 20(1):** This section establishes an obligation for the Ontario Electricity Financial Corporation and every licensed distributor that is a market participant to give the IESO such information as the IESO may require for the purposes of the Regulation in the form specified by the IESO and before the expiry of the period specified by the IESO. Consider amending to extend this obligation to the Financing Trust.

- **Section 20(6):** This section provides that on request by the OEB, the IESO, a licensed distributor, an embedded generator, a retailer or the OEFC shall give the OEB such information relating to this Regulation as the OEB may require, in the form and within the period specified by the OEB. Consider amending to extend this obligation to the Financing Trust.

D. Amendments Under OEB Act to Implement Cost Recovery for Financing Trust

Amendments to the *Ontario Energy Board Act*, including amendments to O. Reg. 95/05 (Classes of Consumers and Determination of Rates) and the introduction of a new regulation, would be needed to implement a cost recovery process for the Financing Trust in relation to the global adjustment smoothing mechanism, potentially with limited OEB oversight, as follows:

(i) Ontario Energy Board Act:

- **Section 78(3.3):** This provision establishes an obligation for the OEB, when determining rates for the retailing of electricity, to take into account balances in variance accounts established under section 25.33 of the Electricity Act and to make adjustments "with a view to eliminating those balances within 12 months or such shorter time periods as the Minister may direct." Consider whether any amendments are needed, and confirm this works with the framework being proposed.

- **Section 78.7 (New):** We understand that the Province may want the OEB to have an oversight role. One possible approach would be to establish a new statutory section establishing that the IESO shall make payments to the Financing Trust with respect to the internal administrative costs incurred by the Financing Trust in connection with the purchase and management of the Regulatory Asset and the Financing Trust. Such payments by the IESO would need to be made in accordance with the order of the OEB then in effect, which orders shall be made by the OEB in accordance with rules prescribed under a new regulation.

    - The new regulation would need to be clear that the OEB does not have jurisdiction to consider the principal amount or any interest, financing costs, third party fees or expenses. Rather, OEB's role would be limited to considering the internal administrative costs of the Financing Trust and ensuring the Financing Trust receives an appropriate fee for its services, all of which would be recovered by the Financing Trust from the IESO, which would collect those amounts in the global adjustment. Note that, if this approach is accepted, the IESO and distributors and retailers would need the authority to collect such amounts as part of the GA and IESO would need the authority to pay such amounts to the Financing Trust. As such, additional amendments would be needed under O. Reg. 429/04.

- **Note:** Section 79.16 of the OEB Act does not require changes, but the significance of this provision should be understood.

    - Section 79.16 gives the OEB responsibility for determining electricity commodity prices for eligible consumers. Eligibility is determined under Reg. 95/05 (Classes of Consumers and Determination of Rates), which is also known as the Regulated Price Plan (RPP) Regulation.
    - Section 4(2) of the RPP Regulation defines RPP-eligible consumers as low volume consumers (i.e. those who annually use less than 150,000 kWh

or such other amount as prescribed), consumers with demand of 50 kW or less, residential consumers that have accounts with distributors, consumers who annually use 150,000 to 250,000 kW of electricity, and consumers who have accounts with distributors if in the farming business.

- Paragraph 6(1)3 of the RPP Regulation provides that "In determining the rates (for RPP-eligible consumers), the Board shall forecast the cost of electricity to be consumed by the consumers to whom the rates apply, taking into consideration adjustments required under section 25.33 of the *Electricity Act, 1998* and shall ensure that the rates reflect those costs."
- The Ontario Energy Board has developed a Regulated Price Plan Manual (revised February 16, 2016) to describe the processes and methodologies it uses for determining electricity commodity prices that are charged to RPP consumers pursuant to Section 79.16 of the OEB Act and paragraph 6(1)3 of the RPP Regulation.

(ii) O. Reg. 95/05 (Classes of Consumers and Determination of Rates)

- **Paragraph 6(1)3:** Amend so as to require the Board, when forecasting the cost of electricity to be consumed by the consumers to whom the rates apply, to take into consideration not only the adjustments required under section 25.33 of the Electricity Act but also the application or prior application of global adjustment smoothing amounts determined by the IESO in accordance with Minister directives under section ■ of the Electricity Act, and to ensure that the RPP rates reflect those amounts. **[NTD: See above note re use of Minister directives]**

(iii) New Regulation (Payments to the Financing Trust)

- If the OEB is to be given the role of reviewing and approving the recovery of OPG's internal administrative costs for the Financing Trust under the potential section 78.7 (see above), then this regulation should describe the process and criteria pursuant through which the OEB would determine the amounts that the IESO would be required to collect through the global adjustment, in accordance with section 25.33 of the Electricity Act, and pay to the Financing Trust in respect of the provision of global adjustment smoothing amounts. This part of the regulation should establish:

    - any reporting requirements from the Financing Trust and/or the IESO to the OEB in connection with the global adjustment smoothing mechanism;
    - the frequency of the OEB making determinations under this part of the regulation;
    - the process through which the OEB shall make these determinations, which should be a streamlined administrative process rather than a public hearing process or, if a hearing is needed, then the scope of the proceeding should be clearly and narrowly constrained so as to deter intervenor involvement, lengthy proceedings and reduce/eliminate risk to recovery by Financing Trust;

- the basis for the OEB's determinations as to the payments that shall be made to the Financing Trust, which should specify that:
  - the Financing Trust shall recover its prudently incurred internal administrative costs on a forecast basis each year;
  - the Financing Trust shall receive an appropriate fee each year (with some guidance as to what would be appropriate); and
  - the approved payment amounts shall be collected by the IESO through the global adjustment and paid to the Financing Trust in accordance with the order of the OEB then in effect. Note that O. Reg. 429/04 would likely need amendments to permit IESO (and distributors and retailers) to collect these amounts through the global adjustment.

Global Adjustment Deferral - White Paper - Terms to MOE Feb 21_2017.pdf

GA Smoothing – OPG Accounting Considerations

- An SPV/Trust is a stand-alone entity able to conduct business separately under a Trust agreement

The conditions required for OPG to consolidate the SPV/Trust are outlined in the following table

Issue	Response
1. Decision Making	• OPG must have decision making authority on the operation of the SPV/Trust (without a veto right by the Province), including naming of trustees, establishing operating plans and budgets, setting or changing financing policies. • The SPV/Trust while operating within the legislation, must be controlled by OPG to operate freely and to alter terms and conditions not specified in the legislation to ensure recovery of the deferred amounts
2. Business Risk	• The SPV/Trust must have variability of returns as a normal business enterprise would, including such things as interest charged on deferred amounts, decisions on how to finance these deferred amounts, the ability to make / lose and keep any spread from financing
3. Funding	• The Province cannot directly or indirectly fund more than 50% of SPV/Trust or any investment in the SPV/Trust • OPG must own at least 50% of the most exposed equity /sub-debt in the SPV/Trust
4. Directive	• Directive that is issued should not be prescriptive or direct OPG to set up this business. The directive should only be “guiding” i.e. to allow OPG to evaluate options and put forward to the OPG Board a recommended plan for Shareholder approval

GA Smoothing – OPG Accounting Considerations - continued

Issue	Response
5. Other required Attributes:	The legislation that supports the formation of the SPV/Trust must have the following attributes: • Must require interest, carrying and administrative costs be paid to the Trust to allow for Revenue recognition • The amount to be deferred must either be specified or be calculated based on a specific formula that is not subject to ongoing decision making by the Province. **The Province cannot have the ability to override this formula** • Legislation should be written to avoid the possibility of being revoked with wording to ensure the SPV/Trust and its debt holders would have their capital guaranteed and paid for directly by the Province if such a situation were to happen • The spirit of the legislation should be reflected in the Trust Indenture Agreement

GA Financing Structure Requirements

KEY ELEMENTS REQUIRED TO ENSURE THE DEFERRAL OF GA CHARGES CAN BE FINANCED:

Creation of Strong Property Rights

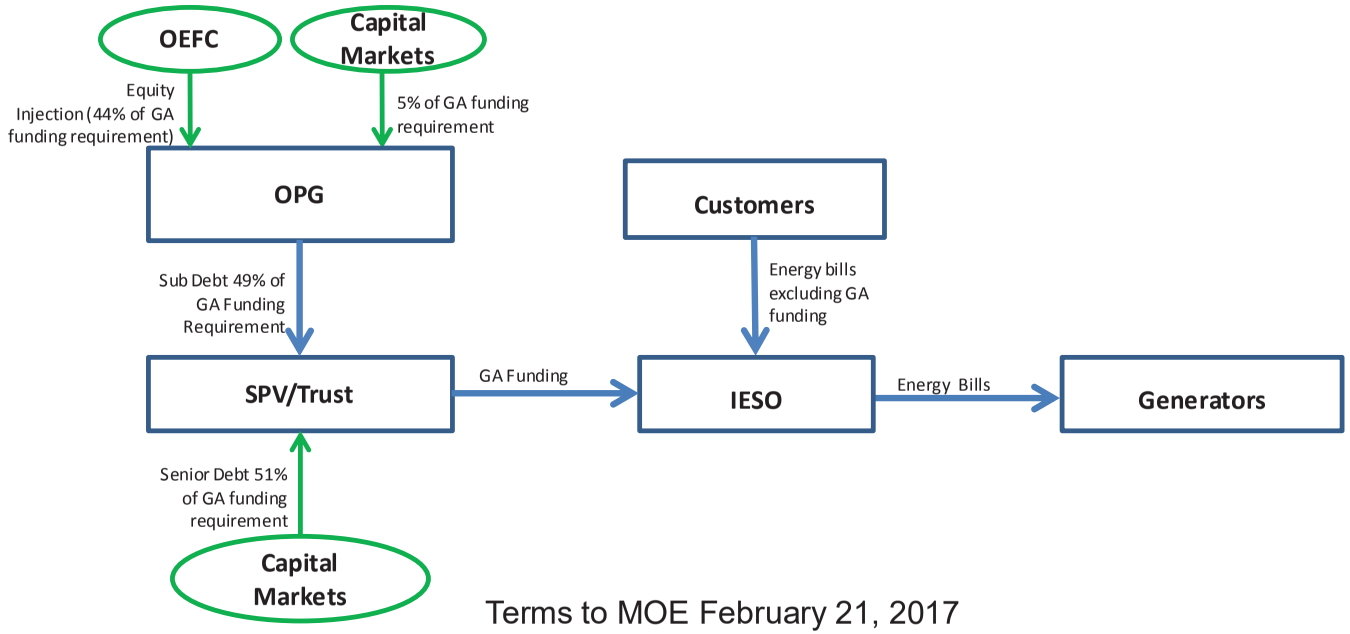
- Legislation enshrines the ability of the IESO to create a Right to charge customers in the future for the Global Adjustment (GA) deferred today including principal amount deferred, interest and other financing costs on the amount deferred and fees, expenses and other administrative costs.
- The Right can be sold to an appropriate Trust or Special Purpose Vehicle (SPV) to obtain funds to pay amounts due to generators under contracts or regulation. These SPVs are generally single purpose entities with no other operations that could add risk to the entity, dilute debt holder rights, allow parties from other operations to claim rights to the future recovery from customers or allow these other parties to initiate bankruptcy proceedings.
- Right must be irrevocable and if the Right is amended by future governments the debt holders have the right of action against the government to recover the amount outstanding including interest, fees, expenses and any damages resulting from the amendment.
- Right must specify the recovery period or the mechanism for setting the recovery rate including true up of the rate to ensure all amounts are recovered

Economic Factors

- Limits on the recovery amount (principal, interest, fees and expenses) charged to customers in future periods must have compensating elements such as longer recovery period to ensure the full amount deferred plus interest, financing and other administration costs is recovered from customers.
- Need to balance customer relief with debt holder risk. Longer recovery periods and larger deferred balances increase risk to the debt holder of future government intervention.
- The amount required by the SPV to purchase and service the Right will be funded 51% from debt holders, 5% from OPG through capital markets and 44% from OPG via equity injection to OPG from the Province. The funding from OPG will be loaned to the SPV as subordinated debt.

GA Financing Structure Requirements - continued

- SPV will be used to raise the GA financing and ring fence OPG from its legal obligations
- SPV will be structured to allow for GBE accounting consolidation into OPG
- Given that SPV will be consolidated into OPG for accounting purposes, the significant amount of debt required to fund the GA deferral will have a severe impact on OPG's credit rating. If 100% of the requirement is funded by debt OPG would be downgraded.
- To manage this exposure and minimize the cost of funding. The required funding would be split into 2 buckets:
    1. 56% from capital markets, and
    2. The remainder provided by the Province via equity injection, which would be loaned to SPV as subordinated debt.
- The use of equity to fund a portion of the GA deferral also allows for an improvement in both Net Income and EBITDA as incremental revenue is captured by the increase in the value of the deferral which would offset the fiscal impact of the borrowing at Province level.
- Credit rating metrics are generally maintained within established limits.



Terms to MOE February 21, 2017

PSAB INDICATORs OF CONTROL.pdf

INDICATORs OF CONTROL
Government has the power to unilaterally appoint or remove a majority of the members of the governing body of the organization
Government has ongoing access to the assets of the organization, has the ability to direct the ongoing use of those assets, or has ongoing responsibility for losses
Government holds the majority of the voting shares or a "golden share" that confers the power to govern the financial and operating policies of the organization
Government has the unilateral power to dissolve the organization and thereby access its assets and become responsible for its obligations

Other indicators that may provide evidence of control exist when the government has the power to:

Provide significant input into the appointment of members of the governing body of the organization by appointing a majority of those members from a list of nominees provided by others or being otherwise involved in the appointment or removal of a significant number of members
Appoint or remove the CEO or other key personnel
Establish or amend the mission or mandate of the organization
Approve the business plans or budgets for the organization and require amendments, either on a net or line-by-line basis
Establish borrowing or investment limits or restrict the organization's investments
Restrict the revenue-generating capacity of the organization, notably the sources of revenue
Establish or amend the policies that the organization uses to manage, such as those relating to accounting, personnel, compensation, collective bargaining or deployment of resources

Toronto, ON M7A 2E1

Dear Deputy Imbrogno:

Attached are two documents prepared in conjunction with our KPMG advisors. The first outlines the proposed adoption by the IESO of the guidance in *ASC980 Regulated Operations* and the recognition of regulatory assets, as a more appropriate and transparent presentation in our financial statements.

The second is associated with the potential recognition and de-recognition of the regulatory assets associated with the IESO's role under the Global Adjustment Smoothing Account.

The conclusions of the second analysis are based on the structure of the account as the IESO currently understands it, and may vary depending on the final legislative materials.

We are available to address any questions you may have on these matters.

Sincerely,

Bruce B. Campbell

Attach.

White Paper - Adoption of the guidance in ASC 980 Regulated Operations

Independent Electricity System Operator ("IESO" or the "Company") is considering making changes in its accounting policies to reflect the balances of market participants within the IESO-administered markets (see separate technical analysis) and the economic impacts of rate regulation, as the changes would result in a more appropriate presentation of events or transactions in its financial statements.

Issue being considered in this document is: Can the IESO adopt the guidance in ASC 980 *Regulated Operations (US GAAP in FASB)*?

Background and Assumptions

The facts, circumstances, and assumptions relevant to the specific transactions are as follows:

1. The IESO's legal status is a not-for-profit, non-taxable, corporation established pursuant to Part II of the *Electricity Act, 1998*. IESO is classified as an Other Governmental Organization and prepares its financial statements in accordance with Canadian public sector accounting standards (PSAB).
2. IESO is rate regulated by the OEB in accordance with the Electricity Act, 1998 and the Ontario Energy Board ("OEB") Act, 1998 but currently does not recognize the economic impacts of rate regulation in its general purpose financial statements.
3. The IESO is required to obtain approval from the OEB under s. 25(1) of the Electricity Act, 1998 for the approval of its own expenditures, revenue requirement and fees. The last rate approval was obtained on December 29, 2016[1].
4. The OEB issued a Decision and Order on March 28, 2013 that permits IESO to recover the MDMR costs (the Smart Metering Charge) (see Appendix A). *(i.e. Costs incurred in the past will be fully recovered through future rates)*
5. Furthermore, in accordance with the *Electricity Act, 1998* and the *OEB Act, 1998*, the IESO has approved variance accounts to record all amounts payable or receivable by it in connection with the amounts paid to generators, the Financial Corporation, distributors and to entities with whom the IESO has a procurement contract. (i.e. costs incurred in the past will be fully recovered through future rates)
6. The IESO would change its accounting policies to permit the recognition of the economic impacts of rate regulation as from the 2016 financial year. IESO would adopt the guidance of ASC 980 *Regulated Operations* to better reflect the economic substance of its operations and enhance the transparency and accountability of its financial reporting.

Appropriate Accounting Principle

PS2120.02, "*a change in an accounting policy may be made… if it is considered that the change would result in a more appropriate presentation of events or transactions in the financial statements of the government."*

PS1150.05 "*When the primary sources of GAAP do not deal with the accounting and reporting in financial statements of transactions or events encountered by the public sector reporting entity, or additional guidance is needed to apply a primary source to specific circumstances, the selection of an appropriate accounting policy requires the exercise of professional judgment. In these circumstances, a public sector reporting entity should adopt accounting policies and disclosures that are consistent with:*

[1] http://www.rds.ontarioenergyboard.ca/webdrawer/webdrawer.dll/webdrawer/rec/556699/view/Dec_Order_IESO_20161229.PDF

(a) the primary sources of GAAP; and

(b) the application of the concepts described in FINANCIAL STATEMENT CONCEPTS, Section PS 1000."

PS1150.19 "*Pronouncements issued by other bodies authorized to issue accounting standards may be useful sources to consult. For example, accounting pronouncements published with the authority of the Canadian Accounting Standards Board (AcSB), International Accounting Standards Board (IASB), US Federal Accounting Standards Advisory Board (FASB), US Governmental Accounting Standards Board (GASB), or International Public Sector Accounting Standards Board (IPSASB) are often important sources to consult on matters not covered by primary sources of GAAP or for assistance in applying a primary source of GAAP to specific circumstances.*"

PS1150.08 "A public sector reporting entity consults sources other than primary sources of GAAP to assist in selecting accounting policies and disclosures only when these sources comply with paragraph PS1150.05. The public sector reporting entity evaluates sources in selecting the appropriate accounting policies and disclosures based on all of the following criteria:

(a) The specificity of the source — A source that deals with the specific circumstances is likely to be more relevant than one from which the public sector reporting entity must analogize.

(b) The authority of the issuer or author — A source issued by an accounting standard setter in its own jurisdiction is likely to be more relevant than a source issued by others in the same jurisdiction.

(c) The continued relevance of the source — The passage of time may diminish the relevance of certain sources.

(d) The development process for the source — A source developed after extensive consultation and debate is likely to be more relevant than a source developed without such discipline."

PS1150.10 "PSAB considers a source to be consistent with the concepts in paragraph PS 1150.05(b) when the guidance in that source is compatible with the (i) qualitative characteristics of financial information, (ii) the elements of financial statements, and (iii) the recognition and measurement criteria in paragraph PS 1150.05(b)."

PS1000.58 "In the absence of appropriate public sector recognition and measurement criteria for intangibles, all intangibles, including those that have been purchased, developed, constructed or inherited in right of the Crown, are not recognized as assets in government financial statements. The intangible often called "human capital" that embodies the talent or intellectual capital of government employees is not recognized as an asset under existing accounting principles."

PS3210.03 "*Assets are economic resources controlled by a public sector entity as a result of past transactions or events and from which future economic benefits are expected to be obtained."*

PS3210.04 "Assets have three essential characteristics:

(a) They embody future economic benefits that involve a capacity, singly or in combination with other assets, to provide goods and services, to provide future cash inflows, or to reduce cash outflows.

(b) The public sector entity can control the economic resource and access to the future economic benefits.

(c) The transaction or event giving rise to the public sector entity's control has already occurred."

Issue: Can the IESO adopt the guidance in ASC 980 *Regulated Operations*?

In accordance with PS2120.02, the IESO can reflect the economic impacts of rate regulation only if it is considered that the change of accounting policy would result in a more appropriate presentation of events or transactions in the financial statements of the government. As mentioned in the Agenda ref. 9A of the IASB meeting of February 2017[2], rate regulated entities have long argued that, without recognizing regulatory assets and regulatory liabilities, the entity's performance is distorted by the rate regulator's intervention in the imposition of performance obligations on the entity and the timing of cash flows from the ratepayers.

[2] http://www.ifrs.org/Meetings/MeetingDocs/IASB/2017/February/AP09-Rate-regulated-Activities.pdf

The recognition of regulatory assets and liabilities would better reflect the economic substance of IESO's operations and enhance the transparency and accountability of its financial reporting. For example, during the period from 2007 to April 2013 the IESO incurred costs relating to the Smart Meter Program amounting to $90.9 million, and these costs were expensed and are included in the accumulated deficit. In the absence of applicable regulatory accounting under PSAS, the IESO was unable to recognize a regulatory asset for this charge, despite receiving a rate order to recover it over the period from May 1, 2013 to October 31, 2018. Should the IESO choose to adopt ASC 980, a regulatory asset for the Smart Metering Charge would be recognized at December 31, 2016 for an amount of approximately $21.6 million, which would represent the remaining unamortized amount that would have been reported if the asset was recognized originally in 2013.

PSAS does not address accounting concepts in a rate regulated environment. Since there is no guidance in PSAS regarding the recognition and measurement of regulatory assets and liabilities, IESO may consider other sources based upon PSAS 1150.05 in the GAAP hierarchy to determine appropriate accounting policies in a rate regulated environment.

Within AcSB, Accounting Standards for Private Enterprises (ASPE) defines a rate regulated entity but provides no guidance on regulatory assets and liabilities however requires disclosure of such balances if they are recognized. IASB has not completed their project on rate regulated activities and current standards only include a holding standard based upon what was done under previous GAAP. It will be important for the IESO to monitor the IASB's ongoing project on rate regulated activities as this may affect the recognition, measurement, presentation and disclosures of the regulatory assets and liabilities. Both FASB and GASB have guidance on accounting in a regulatory environment. IPSASB does not provide any guidance on accounting by rate regulated entities.

It is important to note that rate regulated entities in Canada that prepare their general purpose financial statements in accordance with US GAAP (e.g. Hydro One and Ontario Power Generation), ASPE (e.g. the three Fortis subsidiaries in Ontario), as well as those rate regulated entities that are eligible to elect to apply the requirements of IFRS 14 and elected to do so when they adopted IFRS (e.g. over 60 LDCs in Ontario), generally all recognize regulatory deferral and variance accounts in accordance with US GAAP accounting principles set out ASC 980 *Regulated Operations.*

Statement 62 issued by GASB in December 2010 is effective for financial statements for periods beginning after December 15, 2011. The objective of the Statement is to incorporate into the GASB's authoritative literature certain accounting and financial reporting guidance that is included in the Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989, which does not conflict with or contradict GASB pronouncements. Paragraphs 476–500 may be applied to activities reported in business-type activities that have regulated operations that meet all of the three criteria in paragraph 476 as follows:

(a) The regulated business-type activity's rates for regulated services provided to its customers are established by or are subject to approval by an independent, third-party regulator or by its own governing board empowered by statute or contract to establish rates that bind customers.

(b) The regulated rates are designed to recover the specific regulated business-type activity's costs of providing the regulated services.

(c) In view of the demand for the regulated services or products and the level of competition, direct and indirect, it is reasonable to assume that rates set at levels that will recover the regulated business-type activity's costs can be charged to and collected from customers. This criterion requires consideration of anticipated changes in levels of demand or competition during the recovery period for any capitalized costs.

The criteria above and the guidance in paragraphs 476-500 are based on ASC 980 *Regulated Operations*.

It is also important to note that in its statement of financial position, the Ontario Electricity Financial Corporation ("OEFC"), which reports under Canadian public sector accounting standards, recognizes a net unamortized liability balance for power purchase contracts, as detailed in the summary of significant accounting policies:

"The liability for power purchase contracts was originally calculated by discounting estimated losses over the life of the contracts. Under the *Electricity Restructuring Act, 2004*, OEFC began receiving actual contract prices for power from electricity consumers, effective January 1, 2005, and no longer incurs losses on these power purchase contracts. At that time, the Ministry of Finance estimated that the bulk of the liability would be eliminated over 12 years as existing electricity contracts expire. As a result, the bulk of the liability is being amortized to revenue over that period."

Although this liability is not defined as a regulatory liability in the OEFC's financial statements, the argument can be made that it substantively meets the definition under ASC 980 of a regulatory liability, as the OEFC had no further obligation and should have reversed the liability into income. After consultation with the AG at that time, it was decided to amortize the gain over the remaining term of the contracts.

In summary

Rate regulated entities in North America reporting under US GAAP, ASPE, IFRS (entities which have elected to use IFRS 14) and GASB generally all recognize regulatory deferral and variance accounts in accordance with US GAAP accounting principles based on ASC 980 *Regulated Operations* (see Appendix B for the accounting framework used by the Canadian rate regulated entities).

Evaluation of Other Sources of GAAP

When looking to other sources of GAAP, PSAS requires the other sources of GAAP to be evaluated

1. *as to whether they are consistent with accounting policies and disclosure within PSAS,*
2. *as to whether they are consistent with the application of concepts in PS 1000 and*
3. *as to all of the following criteria:*
    - *(a) Source deals with the specific circumstance*
    - *(b) Source is issued by an accounting standard setter*
    - *(c) Source continues to be relevant*
    - *(d) Source uses a consultative process and deliberation when developing policies*

As required by PS 1150.05(b), we need to analyze whether the concepts in the other source (i.e. ASC 980) are compatible with the (i) qualitative characteristics of financial information, (ii) the elements of financial statements, and (iii) the recognition and measurement criteria in PS 1000.

(i) Qualitative Characteristics of Financial Information

FASB	**PSAS 1000**	**Evaluation**
Concepts and objectives are for both business and non-business organizations as well as governmental units (Concept #4.3 to 4.5)	Public, legislators, councilors, investors, analysts, other governments (par. 14)	FASB considers governmental units
Financial reporting should: – Be useful in making resource allocation decisions – Be useful in assessing services and ability to provide services – Be useful in assessing management stewardship and performance – Provide information about economic resources, obligations, net resources and changes in them (Concept # 4.33-.54)	Financial statements should be relevant to the needs of the users and reliable. Relevance is achieved through timeliness, predictability and accountability value. Reliable information has the following characteristics: representational faithfulness, completeness, neutrality, conservatism and verifiability. (par. 28-29)	Similar

(ii) Elements of Financial Statements

FASB	PSAS	Evaluation
Assets		
Probable future economic benefits obtained or controlled by the entity as a result of past transactions or events. (Concept #6.25-.34)	Economic resources controlled by a government as a result of past transactions or event and from which future economic benefits are expected to be obtained. (par. 35)	Essential characteristics similar
Liabilities		
Probable future sacrifices of economic benefits arising from present obligations of the entity to transfer assets or provide services in the future as a result of past transactions or events. (Concept #6.35-.43)	Present obligations to others arising from past transactions or events, the settlement of which is expected to result in the future sacrifice of economic benefits with little or no discretion to avoid settlement. (par. 44)	Essential characteristics similar
Revenues		
Inflows from delivering or producing goods, rendering services or other activities that constitute the entity's central operations. (Concept #6.78-.79)	Increases in economic resources resulting from operations, transactions and events of the accounting period. (par. 46)	Similar
Expenses		
Outflows from delivering or producing goods, rendering services or carrying out other activities that constitute the entity's central operations. (Concept # 6.80-.81)	Decreases in economic resources resulting from operations, transactions and events of the accounting period. (par. 49)	Similar

(iii) Recognition Criteria

FASB	PSAS	Evaluation
To be recognized, an item must meet the definition of an element of the financial statements, must be measurable with sufficient reliability, be relevant and be reliable. (Concept # 5.64)	Item must have an appropriate basis of measurement, a reasonable estimate can be made of the amount and if the item involves obtaining or giving up future economic benefits, it is expected those benefits will be obtained or given up. (par. 55)	Similar

(iii) Measurement Criteria

FASB	PSAS	Evaluation
Measurement basis dependent upon nature of item. Historical cost basis, replacement cost, market value. (Concept # 5.65-.70)	Primarily using historical cost basis. Replacement cost and realizable value are also used, but in limited circumstances. (par. 60)	Similar

Criteria of PS 1150.08

Criteria	Evaluation
Source deals with the specific circumstance	Yes, ASC 980 Regulated Operations
Source is issued by an accounting standard setter	Yes, FASB
Source continues to be relevant	Yes, still used by rate regulated entities
Source uses a consultative process and deliberation when developing policies	Yes, comprehensive consultative process and deliberation

Evaluation whether regulatory assets meet the definition of Assets as per Section PS3210

PS3210 defines assets as *"economic resources controlled by a public sector entity as a result of past transactions or events and from which future economic benefits are expected to be obtained."* (par. 03)

The analysis of the three essential characteristics as defined by PS3210.4 are analyzed in the next table.

Characteristics	Additional guidance	Comments
They embody future economic benefits that involve a capacity, singly or in combination with other assets, to provide goods and services, to provide future cash inflows, or to reduce cash outflows. (par. 4(a))	The essence of assets are their future economic benefits. Assets embody future economic benefits that allow public sector entities to achieve their objectives. The future economic benefits embodied in assets involve a capacity, singly or in combination with other assets, to provide goods and services, to provide future cash inflows or to reduce cash outflows. (par. 11) The future economic benefits embodied in an asset may also be in the form of generating future cash inflows. Cash inflows benefit the public sector entity because cash can be used to purchase or to provide goods and services, redistribute wealth or settle liabilities. (par. 13)	The economic benefit embodied in the variance accounts (i.e regulatory asset) is the right to collect the incurred costs from ratepayers in order to settle the liability for the energy already consumed by the ratepayers. The electricity Act, 1998 ("EA") section 25.33(1) states: "*The IESO shall, through its billing and settlement systems, make adjustments in accordance with the regulations that ensure that, over time, payments by classes of market participants in Ontario that are prescribed by regulation reflect,* *a) amounts paid to generators, the Financial Corporation and distributors, whether the amounts are determined under the market rules or under section 78.1, 78.2 or 78.5 of the Ontario Energy Board Act, 1998; and* *b) amounts paid to entities with whom the IESO has a procurement contract, as determined under the procurement contract."*
The public sector entity can control the economic resource and access to the future economic benefits. (par. 4(b))	Economic resources can arise from, but are not limited to, the following: government's own legislation (for example, taxes, fines and penalties); (par. 08(c)) A public sector entity controls the economic resource and access to the	The economic resources is the right created by the legislation that the energy costs IESO incurs will result in future cash flows. In the regulatory environments, incurring costs creates an enforceable right to set rates at a level that permits

	future economic benefits when it: a. can benefit from the economic resource through its capacity to provide goods and services, to provide future cash inflows or to reduce cash outflows; b. can deny or regulate access to those benefits by others; and c. is exposed to the risks associated with the economic resource. (par.16)	IESO to recover those costs. The adjustment of future rates is the mechanism the OEB uses to implement the right. Currently, the EA section 25.33(5) states: *"The IESO shall establish and maintain such variance accounts as may be necessary to record all amounts payable or receivable by it under this section."* The legislation would be amended to permit IESO to collect specifically the deferral of the energy costs and the related interest and administrative costs.
The transaction or event giving rise to the public sector entity's control has already occurred. (par.4(c))	It is the occurrence of a past transaction or event on or before the financial statement date that distinguishes a present economic resource controlled by a public sector entity from an economic resource that may be controlled by a public sector entity in the future. (par. 25) The past transaction or event that gives rise to control of an economic resource resulting from exchange agreements or contracts usually occurs at the point of exchange. This arises when substantially all the benefits and risks of ownership have been transferred to the public sector entity and normally coincides with the disbursement of funds, exchange of other assets or assumption of liabilities. (par. 26)	The past event giving rise to IESO's control occurs as the energy cost is incurred, as IESO has a right to collect it from the ratepayers.
Conclusion: The right to collect the deferral of the energy costs and the related interest and administrative costs meets the definition of assets.		

When concepts are in conflict with PSAS then PSAS prevails (PS 1150.12). For example, PSAS does not recognize intangible assets (PS 3150.03, .14 and PS1000.58). So if regulatory assets are considered to be intangible assets, they would not be allowed to be recognized through another source of GAAP.

It is worth noting that the economic impacts of rate regulation are not recognized under US GAAP as intangible assets as the FASB has specific guidance to deal with this type of asset. It is also worth noting that the IASB has an ongoing project on rate regulated activities and are currently developing an accounting model based on the principles of IFRS 15 *Revenue from contracts with customers* to provide a principle-based framework for recognizing regulatory assets (see Agenda Ref. 9 for the IASB meeting on February 23, 2017). Furthermore, the Summary Comment Letter Analysis related to the ED/2009/8 on Rate Regulated Activities published by the IASB in July 2009 states on page 2 of 50:

"The International Financial Reporting Interpretations Committee ("IFRIC") observed that it had previously discussed whether a regulatory asset should be recognized in the context of service concession arrangements, either as deferred costs or as an intangible asset to reflect an expectation that the entity will

recover these costs as part of the price charged in future periods. It had concluded that entities applying IFRSs should recognize only assets that qualified for recognition in accordance with the IASB's *Framework for the Preparation and Presentation of Financial Statements* and relevant accounting standards, such as IAS 11 *Construction Contracts*, IAS 18 *Revenue*, IAS 16 *Property, Plant and Equipment* and IAS 38 *Intangible Assets*."

Entities that are not eligible to elect to apply the requirements of IFRS 14 do not recognize regulatory assets because in 2009 the IFRIC determined they did not meet the criteria for recognition of an intangible asset under IAS 38.

Therefore, we can conclude that ASC 980 is NOT in conflict with PS 3150.03, .14 and PS1000.58 with respect to intangible assets.

Conclusion:
FASB is appropriate to use as "*other source of GAAP"*. FASB standard ASC 980 has extensive guidance for rate regulated entities including the recognition of regulatory assets and use of rate regulated accounting by IESO would be consistent with current reporting practices of H1, OPG and OEFC.

Appendix A:

Extract from the "DECISION and ORDER issued by the OEB on March 28, 2013" available on the IFRS website

Proceeding on the Ontario Energy Board's own motion to review the options for and ultimately determine the appropriate allocation and recovery of the Smart Metering Charge pursuant to section 19 of the Ontario Energy Board Act, 1998.

THE BOARD ORDERS THAT:

Effective May 1, 2013, the Smart Metering Entity charge to be levied and collected by the Smart Metering Entity from all Distributors identified in the Board's annual Yearbook of Electricity Distributors shall be $0.788 per month for each Residential and General Service <50kW customers for each distributor. The Smart Metering Entity charge shall be in effect from May 1, 2013 to October 31, 2018. The number of Residential and General Service <50kW customers to which the Smart Metering Entity charge will be applied to shall be in accordance with the methodology set forth in the Settlement Agreement attached as Appendix A.

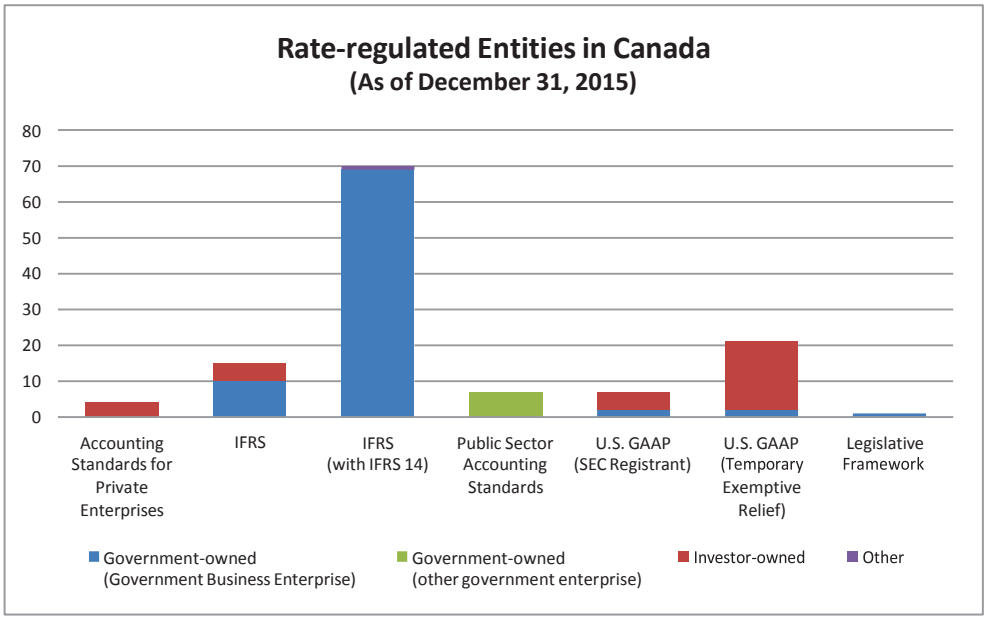
Appendix B:

Extract from the "Accounting Standards Advisory Forum Agenda Ref: 3A dated September 29, 2016" available on the IFRS website

Canadian Rate-regulated Entities

18. The accounting framework landscape for Canadian rate-regulated entities is currently diverse. For annual periods beginning on or after January 1, 2015, rate-regulated entities that are Canadian publicly accountable enterprises are required to apply IFRS. Rate-regulated entities that adopted IFRS for the first time after IFRS 14 *Regulatory Deferral Accounts* was issued continue to recognize these balances. Government Business Enterprises (which operate to generate a profit or on a break-even basis) that are also rate-regulated entities are also directed to apply standards applicable to for-profit entities, and thus apply IFRS. Canadian securities legislation permits dual-listed entities (i.e., Canadian entities also registered with the U.S. Securities and Exchange Commission) to apply U.S. GAAP in the normal course. Temporary exemptive relief is also available from the Canadian Securities Administrators that permits rate-regulated entities that are not dual-listed to apply U.S. GAAP in place of IFRS. If a rate-regulated entity is not a publicly accountable enterprise or a Government Business Enterprise, additional accounting framework options may also include Accounting Standards for Private Enterprises or Public Sector Accounting Standards. A non-GAAP reporting framework is used when legislated by the provincial owner of a government-owned rate-regulated entity.

19. As of December 31, 2015, there were approximately 125 rate-regulated entities in Canada. These entities mainly range in size from small entities owned by municipal governments to large investor-owned entities or entities owned by provincial governments.



Source: Information compiled based on audited financial statements for fiscal year 2015, or information from rate filings that confirmed the accounting framework used by these entities. Due to data collection constraints, the population could be slightly larger.

20. The chart above highlights two key points:

(a) The majority of investor-owned entities have chosen U.S. GAAP over IFRS. A few entities that are not reporting issuers apply Accounting Standards for Private Enterprises. Both U.S. GAAP and Accounting Standards for Private Enterprises permit the recognition of balances arising from rate regulation. Several entities that apply U.S. GAAP have told us this choice was influenced by the need to provide their users with financial statements that accurately reflect the economics of their business. Further, some entities presently using the temporary exemptive relief described in paragraph18 have said they are considering incurring the cost and effort necessary to become a registrant of the U.S. Securities and Exchange Commission in order to have the permanent ability to apply U.S. GAAP. While such a decision could be primarily for business reasons such as the entity expanding its operations into the U.S., it could also be attributed to the continuing uncertainty about the ultimate outcome of the IASB's Rate-regulated Activities project and the approaching expiry date of the securities regulators' exemptive relief.

(b) Public sector entities that are Government Business Enterprises tend to apply IFRS. The majority of these entities is made up of several large provincially-owned utilities, and many small municipally-owned local distribution utilities that do not issue debt or list in the U.S. stock market, and are not subject to Canadian securities legislation. As a result, they cannot apply U.S. GAAP. As shown in the chart, many of these entities adopted IFRS for the first time after the IASB issued IFRS 14, which allowed them to continue their previous accounting practices for rate-regulated activities.

21. Within the pool of government-owned rate-regulated entities, there are entities that do not meet the characteristics of Government Business Enterprises and are required to apply Public Sector Accounting Standards.

22. The data on the different accounting frameworks in Canada is unique. It demonstrates that when given a choice, rate-regulated entities select an accounting framework that captures the effects of rate regulation on their financial position and financial performance in order to communicate more decision-useful information to users.

White Paper on the Province's proposed Global Adjustment Smoothing Account

Below is a summary of IESO's preliminary views on the implementation of the Province's proposed Global Adjustment Smoothing Account.

Understanding that the finalization of the legal terms, the financing structure and other detailed terms will take several months and will involve collaboration between legal counsel, parties involved and other stakeholders, this letter is intended to provide the guideline and framework which could form the foundation of the plan.

Issues being considered in this document are:

Issue #1: Can the IESO recognize deferral or variance accounts related to the annual Global Adjustment Smoothing Account as a regulatory asset on its statement of financial position?

Issue #2: Can the IESO derecognize the deferral or variance accounts related to the Global Adjustment Smoothing Account upon sale to the OPG Trust**?**

1. Recognition of regulatory assets (deferral and variance accounts)

Background and Assumptions for issue #1

The facts, circumstances, and assumptions relevant to the specific transactions are as follows:

1. The IESO's legal status is a not-for-profit, non-taxable, corporation established pursuant to Part II of the *Electricity Act, 1998*. IESO is classified as an Other Governmental Organization and prepares its financial statements in accordance with Canadian public sector accounting standards (PSAB).
2. IESO is rate regulated by the OEB in accordance with the Electricity Act, 1998 and the Ontario Energy Board ("OEB") Act, 1998 but currently does not recognize the economic impacts of rate regulation in its general purpose financial statements.
3. The IESO is required to obtain approval from the OEB under s. 25(1) of the Electricity Act, 1998 for the approval of its own expenditures, revenue requirement and fees. The last rate approval was obtained on December 29, 2016[1].
4. The OEB issued a Decision and Order on March 28, 2013 that permits IESO to recover the MDMR costs (the Smart Metering Charge) (see Appendix A). *(i.e. Costs incurred in the past will be fully recovered through future rates)*
5. Furthermore, in accordance with the *Electricity Act, 1998* and the *OEB Act, 1998*, the IESO has approved variance accounts to record all amounts payable or receivable by it in connection with the amounts paid to generators, the Financial Corporation, distributors and to entities with whom the IESO has a procurement contract. (i.e. costs incurred in the past will be fully recovered through future rates)
6. The province is contemplating deferring the recovery of a portion of the annual Global Adjustment Smoothing Account (comprised primarily of the electricity costs paid to the generators) over a period of 25-30 years, so that costs incurred would be fully recovered through future rates.
7. The *Electricity Act, 1998* and the *OEB Act, 1998* would be amended through legislation to require the deferral of the recovery of the Global Adjustment Smoothing Account and the future recovery in rates charged to customers.

[1] http://www.rds.ontarioenergyboard.ca/webdrawer/webdrawer.dll/webdrawer/rec/556699/view/Dec_Order_IESO 20161229.PDF

8. The OEB would grant generic deferral or variance accounts to capture the difference between the amounts paid to generators and others, and the amounts collected in rates. Furthermore, the interest and ancillary costs related to the contemplated transaction would also be included in future rates charged to customers. In summary, the legislation would create a right to collect the incurred cost.

9. The IESO would change its accounting policies to permit the recognition of the economic impacts of rate regulation as from the 2016 financial year. IESO would adopt the guidance of ASC 980 *Regulated Operations* to better reflect the economic substance of its operations and enhance the transparency and accountability of its financial reporting.

Appropriate Accounting Principle for issue #1

ASC 980 Regulated Operations

- 980-10-15-2 *"The guidance in the Regulated Operations Topic applies to general-purpose external financial statements of an entity that has regulated operations that meet all of the following criteria:*

  (a) The entity's rates for regulated services or products provided to its customers are established by or are subject to approval by an independent, third-party regulator or by its own governing board empowered by statute or contract to establish rates that bind customers.

  (b) The regulated rates are designed to recover the specific entity's costs of providing the regulated services or products. This criterion is intended to be applied to the substance of the regulation, rather than its form. If an entity's regulated rates are based on the costs of a group of entities and the entity is so large in relation to the group of entities that its costs are, in essence, the group's costs, the regulation would meet this criterion for that entity.

  (c) In view of the demand for the regulated services or products and the level of competition, direct and indirect, it is reasonable to assume that rates set at levels that will recover the entity's costs can be charged to and collected from customers. This criterion requires consideration of anticipated changes in levels of demand or competition during the recovery period for any capitalized costs."

- 980-10-20 Glossary, Definition of incurred costs *"A cost arising from cash paid out or obligation to pay for an acquired asset or service, a loss from any cause that has been sustained and has been or must be paid for."*

- 980-10-05-8 "*Unless an accounting order indicates the way a cost will be handled for rate-making purposes, it causes no economic effects that would justify deviation from the GAAP applicable to business entities in general. The mere issuance of an accounting order not tied to rate treatment does not change an entity's economic resources or obligations. In other words, the economic effect of regulatory decisions—not the mere existence of regulation—is the pervasive factor that determines the application of GAAP.980-340 – Other Assets and Deferred Costs."*

- 980-340-25-1 "*Rate actions of a regulator can provide reasonable assurance of the existence of an asset. An entity shall capitalize all or part of an incurred cost that would otherwise be charged to expense if both of the following criteria are met:*

  (a) It is probable (as defined in Topic 450) that future revenue in an amount at least equal to the capitalized cost will result from inclusion of that cost in allowable costs for rate-making purposes.

  (b) Based on available evidence, the future revenue will be provided to permit recovery of the previously incurred cost rather than to provide for expected levels of similar future costs. If the revenue will be provided through an automatic rate-adjustment clause, this criterion requires that the regulator's intent clearly be to permit recovery of the previously incurred cost.

  A cost that does not meet these asset recognition criteria at the date the cost is incurred shall be recognized as a regulatory asset when it does meet those criteria at a later date."

- 980-340-40-1: "*If at any time an entity's incurred cost no longer meets the criteria for the capitalization of an incurred cost (see paragraph 980-340-25-1), that cost shall be charged to earnings."*

- 980-350-50-1: "*In some cases, a regulator may permit an entity to include a cost that would be charged to expense by an unregulated entity as an allowable cost over a period of time by amortizing that cost for rate-making purposes, but the regulator does not include the unrecovered amount in the rate base. That procedure does not provide a return on investment during the recovery period. If recovery of such major costs is provided without a return on investment during the recovery period, the entity shall disclose the remaining amounts of such assets and the remaining recovery period applicable to them.*"
- 980-340-55-2: "*In some cases, a regulator may approve rates that are intended to recover an incurred cost over an extended period without a return on the unrecovered cost during the recovery period.*"
- 980-340-55-3: "*The regulator's action provides reasonable assurance of the existence of an asset (see paragraph 980-340-25-1). Accordingly, the regulated entity would capitalize the cost and amortize it over the period during which it will be allowed for rate-making purposes. That cost would not be recorded at discounted present value. An exception to this general rule is provided for costs of abandoned plants.*"

Issue #1: Can the IESO recognize deferral or variance accounts related to the annual Global Adjustment Smoothing Account as a regulatory asset on its statement of financial position?

US GAAP includes special accounting provisions that are applicable to entities with activities that are subject to rate regulation (see White Paper - Adoption of the Guidance in ASC 980 Regulated Operations). The result is that rate regulated entities are required to recognize regulatory assets and liabilities provided the following three criteria are met:

Criteria	Comment	Evaluation
The entity's rates for regulated services or products provided to its customers are established by or are subject to approval by an independent, third-party regulator or by its own governing board empowered by statute or contract to establish rates that bind customers.	IESO has unrecognized variance accounts related to the MDMR (smart meters), that have been approved by the OEB in accordance with the Electricity Act and the OEB Act (see Appendix A). It is important to note that Hydro One and OPG are both consolidated into the province's books, are both regulated by the OEB and their respective regulatory assets and liabilities are reported in the province's books.	Met
The regulated rates are designed to recover the specific entity's costs of providing the regulated services or products.	Currently, the rates approved by the OEB are designed to recover the IESO's costs of providing the regulated services and the pass-through related to the energy purchased from the generators. The contemplated transaction is based on the fact that the OEB would grant generic deferral or variance accounts to capture the difference between the amounts paid to generators and others, and the amounts collected in rates. Furthermore, the interest and ancillary costs related to the contemplated transaction would also be included in future rates charged to customers. In summary, the legislation would create a right to collect the incurred costs.	Met

In view of the demand for the regulated services or products and the level of competition, direct and indirect, it is reasonable to assume that rates set at levels that will recover the entity's costs can be charged to and collected from customers. This criterion requires consideration of anticipated changes in levels of demand or competition during the recovery period for any capitalized costs.”	Since the deferral or variance accounts would be sold to the OPG Trust at least on a monthly basis and cash would be received on the same day, this criteria would be met. This criteria would need to be monitored on a yearly basis to ensure that IESO and the OPG Trust would be able to recover the future deferred amount taking into account the levels of demand or competition during the recovery period.	Met
Conclusion: The three criteria would be met.		

Conclusion: Based on the assumptions mentioned above, IESO should be able to recognize a regulatory asset for the deferral of the annual Global Adjustment Smoothing Account. As mentioned in the ASC 980 guidance above, it is important that an accounting order be issued by the OEB which indicates the way the incurred costs would be handled for rate-making purposes as the OEB's action provides reasonable assurance of the existence of a regulatory asset.

2. Derecognition of regulatory assets (deferral and variance accounts)

Background and Assumptions for issue #2

The facts, circumstances, and assumptions relevant to the specific transactions are as follows:

1. The annual Global Adjustment Smoothing Account that would be deferred in the deferral or variance accounts (the "Asset") would be significant.
2. The IESO does not currently have the financial capability to finance the Asset and is contemplating selling the Asset to a Trust to be set-up by OPG (the "OPG Trust").
3. The OPG Trust would be consolidated by OPG.
4. Proposed terms of the sale agreement between the IESO and the OPG Trust:
   - The sale contract would be structured as an absolute sale, which would assign future economic benefits or cash flows related to the Asset exclusively to the OPG Trust.
   - The arrangement would be structured whereby there is no recourse or obligations remaining of IESO related to the Asset.
   - The arrangement is not considered to be a financing transaction as IESO would have no obligations to the OPG Trust after the Asset is sold to the OPG Trust.
   - IESO would not retain any rights or benefits from the Asset.
   - IESO would not have any rights to interest or penalties on the Asset once it has been transferred to the OPG Trust.
   - The contract would be clear that IESO cannot pledge the Asset as collateral to obtain future cash flows or financing.
   - IESO would continue to collect related cash flows on the OPG Trust's behalf and remit those cash flows to the OPG Trust without material delay. In addition, IESO would not be entitled to reinvest such cash flows, except for investments in cash or cash equivalents during the short settlement period from the collection date to the date of required remittance to the OPG Trust, and interest earned on such cash and cash equivalents is passed to the OPG Trust. The contract would define IESO's role strictly as that of agent, under a pass-through arrangement.
   - Servicing, origination, and arrangement fees, would be collected by IESO in rates charged to ratepayers as part of its market dealings.
   - The Asset would be sold to the OPG Trust at least, on a monthly basis and cash would be received on the same day.

Appropriate Accounting Principles for issue #2

Public Sector Accounting Standard ("PSAS") 3210, *Assets*, defines an asset as "…*economic resources controlled by a government as a result of past transactions or events and from which future economic benefits are expected to be obtained*." [par. 3]

.04 *"Assets have three essential characteristics:*

(a) they embody future economic benefits that involve a capacity, singly or in combination with other assets, to provide goods and services, to provide future cash inflows, or to reduce cash outflows;

(b) the public sector entity can control the economic resource and access to the future economic benefits; and

(c) the transaction or event giving rise to the public sector entity's control has already occurred."

.22 *"Control of an economic resource and of access to the future economic benefits are essential characteristics of an asset, whereas possession or ownership is not*."

.24 *"A public sector entity may act as trustee when it administers trusts on behalf of the beneficiaries specified in the agreement or statute. As trustee, the public sector entity merely administers the assets, following the terms*

and conditions set out in the agreement. It does not control the asset because it does not have access to the future economic benefits. Those benefits flow to the beneficiaries."

As noted in PS1000 Financial statement concepts:

.37 *"An item is not an asset of a government if it lacks one or more of the essential characteristics listed in the preceding paragraph. Thus, for example, an item does not qualify as an asset of a government if the item involves:*

(a) no future economic benefit;

(b) future economic benefit, but the government cannot obtain it; or

(c) future economic benefit that the government may obtain, but the events or circumstances that give the government control of the benefit have not yet occurred."

As noted in PS3450, derecognition of a financial liability:

.042 *"A government should remove a financial liability (or part of a financial liability) from its statement of financial position when, and only when, it is extinguished (i.e., when the obligation specified in the contract is discharged or cancelled, or expires)."*

.043 *"A financial liability (or part of a financial liability) is extinguished when the debtor either:*

(a) discharges the liability (or part of it) by paying the creditor, normally with cash, other financial assets, goods or services; or

(b) is legally released from primary responsibility for the liability (or part of it) either by process of law or by the creditor. (When the debtor has given a guarantee, this condition may still be met.)"

.046 "*Payment to a third party, including a trust (sometimes called "in-substance defeasance"), does not, by itself, relieve the debtor of its primary obligation to the creditor in the absence of legal release."*

.047 "*If a debtor pays a third party to assume an obligation and notifies its creditor that the third party has assumed its debt obligation, the debtor does not derecognize the debt obligation, unless the condition in paragraph PS 3450.043(b) is met. If the debtor pays a third party to assume an obligation and obtains a legal release from its creditor, the debtor has extinguished the debt. However, if the debtor agrees to make payments on the debt to the third party or direct to the original creditor, the debtor recognizes a new debt obligation to the third party."*

Issue #2: Can the IESO derecognize the deferral or variance accounts related to the annual Global Adjustment Smoothing Account upon sale to the OPG Trust?

PS3210 does not specifically address the derecognition of a regulatory asset as the concept of a regulatory asset does not exist under PSAS.

As mentioned above, regulatory assets do not meet the definition of intangible asset or financial asset. Specifically, regulatory assets do not meet the definition of financial asset because they are imposed on customers through the tariff (i.e., imposed by the OEB) and do not represent a right to receive payments from another party as a result of a contract.

More generally, PSAS.3210.37 suggests that an asset would no longer be recognized when it fails to meet the definition of an asset.

Based on PS1000.37(b), an item does not qualify as an asset of a government if the item involves future economic benefit, but the government cannot obtain it.

Based on the assumptions mentioned above, the legal title of the Asset would be transferred to the OPG Trust, as well as, ALL risks and rewards, including the following:

- the contract would define IESO's role strictly as that of agent, under a pass-through arrangement;
- all cash flows related to the Asset would be transferred without material delay to the OPG Trust;
- rights to interest or penalties on the Asset would be for the benefits of the OPG Trust;
- IESO cannot pledge the Asset; and
- no recourse or obligations remaining of IESO related to the Asset.

IESO should also evaluate whether the sale of the Asset should in fact be considered as a borrowing arrangement. In the absence of detailed guidance on this subject, we can analogize to the guidance in PS3450 *Financial Instruments* for the derecognition of a financial liability. Par. 43 states that *"A financial liability (or part of a financial liability) is extinguished when the debtor is legally released from primary responsibility for the liability (or part of it) either by process of law or by the creditor. (When the debtor has given a guarantee, this condition may still be met.)"* Based on the assumptions mentioned above, since the legal title of the Asset would be transferred to the OPG Trust, as well as, ALL risks and rewards, it can be concluded that the sale of the Asset is not a borrowing arrangement.

Conclusion: Based on the proposed terms of the sale agreement between the IESO and OPG Trust mentioned above, the deferral or variance accounts would be derecognized at the point where the IESO would derive no future economic benefit from it. This would occur where the IESO ultimately transfers the rights, risk and rewards related to those deferral or variance accounts to the OPG Trust. This would occur on the receipt of cash from the OPG Trust.

Appendix A:

Extract from the "DECISION and ORDER issued by the OEB on March 28, 2013" available on the IFRS website

Proceeding on the Ontario Energy Board's own motion to review the options for and ultimately determine the appropriate allocation and recovery of the Smart Metering Charge pursuant to section 19 of the Ontario Energy Board Act, 1998.

THE BOARD ORDERS THAT:

Effective May 1, 2013, the Smart Metering Entity charge to be levied and collected by the Smart Metering Entity from all Distributors identified in the Board's annual Yearbook of Electricity Distributors shall be $0.788 per month for each Residential and General Service <50kW customers for each distributor. The Smart Metering Entity charge shall be in effect from May 1, 2013 to October 31, 2018. The number of Residential and General Service <50kW customers to which the Smart Metering Entity charge will be applied to shall be in accordance with the methodology set forth in the Settlement Agreement attached as Appendix A.

Global Adjustment Deferral_White Paper_OPG r1a.pdf

February 27, 2017

Mr. Serge Imbrogno
Deputy Minister,
Ministry of Energy
4th Floor, Hearst Block
900 Bay Street
Toronto, Ontario
M7A 2E1

Dear Deputy:

Below is a summary of OPG's preliminary views on the implementation of the Province's proposed Global Adjustment Smoothing Account and financing structure. These views are contingent on the proposed terms and conditions that were sent to the Ministry of Energy on February 21, 2017.

Understanding that the finalization of the legal terms, the Trust indentures, financing structure and other detailed terms will take several months and will involve collaboration between legal counsel, input from capital markets, parties involved and other stakeholders, this letter is intended to provide the guideline and framework which could form the foundation of the plan.

Please do not hesitate to contact me if you have any questions regarding this summary.

Sincerely,

Mr. Ken Hartwick
Chief Financial Officer and Senior Vice President, Finance
Ontario Power Generation
W: 416-592-6985
C: 647-544-6985
ken.hartwick@ opg.com

cc. Jeff Lyash, President and CEO, OPG

Background:

The Province has indicated that it will take steps to reduce electricity bills in the near term. It has identified reductions in the Global Adjustment Charge (GAC) charged to electricity customers as a means to achieve its policy goals. The Province is proposing to temporarily reduce the amount of the GAC charged to electricity customers (primarily RPP-eligible customers). The exact quantum and duration of the program is still not known but based on discussions with the Province GAC charges of approximately $2-5B per year for the next 5-10 years would be deferred and collected over future periods commencing after the deferral period. A combination of senior debt and subordinated debt (mainly sourced by additional equity from the shareholder) would be issued to fund the amount deferred. The financing cost of the debt and other costs of running the program would form part of the amounts recovered from customers over the term of the program.

The Province has requested that OPG administer the GAC deferral, because of OPG's participation in the market, regulatory knowledge and the potential ability to consolidate the activity and accounting with OPG. Given the significant amount of financing required for the GAC deferral, OPG has developed a financing structure (depicted below) to:

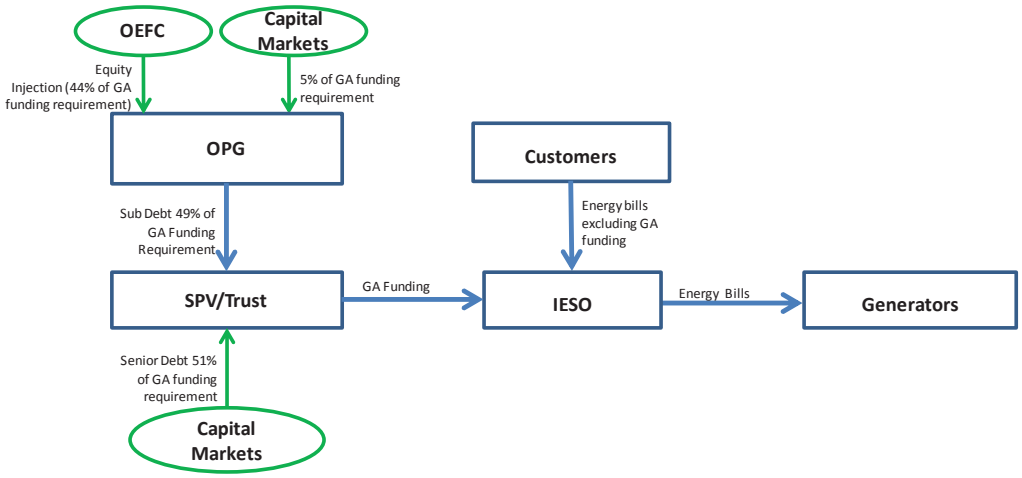
- restrict the risk to OPG;

- maximize the cost-effectiveness of the Trust or the Special Purpose Vehicle ("SPV") financing vehicle; and
- allow for consolidation into OPG financial statements.

The success of this structure is dependent on achieving a number of objectives which are reviewed in the following sections:

A. Ability to Recognize an Asset and Record Revenue
B. Ability to Consolidate the SPV into OPG
C. Ability to Finance
D. External Assessment
E. Risk Summary

All of the percentages shown in the graphic below are indicative and will be highly dependent on the legislation that the Province will enact:



Process:

The IESO will effectively sell the 'right to collect' deferred future revenue from ratepayers (GA Recovery Right asset) to the SPV in return for cash proceeds. In order for the SPV to purchase this asset the SPV will obtain the financing from two key sources: 51% directly from capital markets and 49% as subordinated debt from OPG. OPG will obtain 44% of this financing as an equity injection from the Province and 5% from capital markets.

A. Ability to Recognize an Asset and Record Revenue

Accounting Requirements under International Financial Reporting Standards (IFRS)

1) It is our understanding that the IESO and KPMG have concluded that the sale of this 'right to collect' future revenue (or regulatory asset) is not a financing transaction and will not be recorded as a financial liability. Based on that conclusion, the right to collect will be accounted for as an intangible asset in the SPV.

2) In order to the SPV to record this right as an intangible asset, the right must meet the following conditions:
   - The intangible asset must be separable and arise from a contractual or legal right (i.e. mandated by the Legislation and SPV Indenture Agreement).
   - The SPV must have the control and power to obtain future economic benefits from the intangible asset.
   - The SPV must be able to demonstrate that the intangible asset is purchased at fair value.

3) In order for the SPV to recognize appropriate revenue to offset any ongoing costs, the Legislation must require interest, carrying and administrative costs to be paid to the SPV on a monthly basis. This may result in additional amounts to be deferred to achieve the desired customer impact. Payment of revenue to the SPV is also important to service the interest expenses of the debt.

B. Ability to Consolidate the SPV into OPG under IFRS

OPG 'Control' of the SPV - Accounting Requirements

1) In order to meet the accounting definition of 'control', accounting guidance must be considered. There are no bright lines to determine whether OPG has exposure, or rights, to variable returns from its involvement with the SPV, or whether it has the ability to affect the returns of the SPV through its power over the SPV. Rather, all facts and circumstances are considered when assessing whether an entity has control over another entity. Based on the relevant accounting guidance under IFRS, OPG has proposed terms necessary to demonstrate that OPG has control over the SPV. OPG's external auditors, Ernst & Young, has provided their concurrence that based on the information provided to them to date that the following conditions should permit consolidation of the SPV by OPG.

Directive:

1. The SPV must be undertaken by OPG as a business initiative on its merits. A Shareholder Directive is to be limited to direct OPG to investigate the option of establishing a SPV vehicle to administer, finance and operate the Global Adjustment plan. The control, risk and rewards of that SPV will determine its consolidation into OPG as a business enterprise.

SPV:

2. The SPV should not operate in a predetermined way such that OPG does not have decision-making authority over the SPV's ongoing activities after its formation (i.e. should not operate on 'autopilot').
3. OPG must have the ability to appoint and remove the Trustee (or Board of Trustees), with no veto right by the Province. No party shall have the ability to remove OPG from its role and authority in the SPV.
4. The Province cannot have the right to veto OPG's decisions about the relevant activities of the SPV. OPG must have the power over the relevant activities of the SPV and be compensated. The relevant activities of the SPV include (but are not limited to) the evaluation and decisions on financing alternatives, duration, and the strategy to minimize financing costs. OPG must have the power to establish operating and capital budgets of the SPV.
5. OPG must have the power to determine or change operating and financing policies of the SPV, which will affect the variability of risks and returns.
6. The Province or its agencies must not directly or indirectly fund (through debt or equity) more than 50% of the following:
    - The SPV
    - Any of OPG's investments in the most subordinated debt of the Trust
7. OPG must own greater than 50% of the most subordinated debt and targeted to be no less than 5%[1] of the total debt of the SPV. Such ownership must be financed entirely by OPG through operating cash flows or external debt, without assistance from Provincial sources. A quantitative analysis should be performed at a later date to corroborate the appropriateness of the 5% threshold to support that the 5% subordinated debt investment is sufficient to absorb most of the expected variability in the SPV.
8. OPG must have the ability to earn variable returns by exercising its authority, which shall be accomplished as follows:

[1] While the rest of the letter refers to a 10% investment in the most junior subordinated debt with OPG owning 5%, it should be noted that OPG should own more than 50% of the most subordinate debt. For simplicity, the degree to which OPG's ownership beyond 50% is not shown in this letter.

a. The cash flow from the restructured asset shall include interest determined based on a relevant benchmark that is appropriate relative to the restructured asset, plus an appropriate margin consistent with the relevant market and other risks
b. OPG shall have the authority to determine the financing strategy, which will vary the financing costs with the objective of enabling the SPV to achieve a more favourable return compared to the return from the restructured asset
c. The SPV shall establish classes of liabilities (senior, subordinated and the most subordinated). The classes would allow the SPV to delineate financing of lower risk investment and investment that would bear higher residual risk. The delineation would limit OPG's self-funded investment to a reasonable level in order to allow OPG to remain a self-sustaining entity.
d. OPG shall, through its ownership of the most subordinated liability, be able to capture and retain the pricing difference between cost of financing and benchmark for interest on the restructured asset, or any residual risk of restructured asset. The targeted return of the subordinated liability should be reflective of the underlying risks and compensate holders for active management that would be required.
e. OPG should participate in the detailed design of the above and the SPV documentation to ensure that it has substantive power and variability, which will allow OPG's Board of Directors to evaluate the opportunity as a business initiative instead of through a shareholder directive.

Nothwithstanding the above, under certain Defined Forced Majeure for emergency events (e.g. unlikely credit market event or disruption where it is not possible to borrow from the market at a reasonable rate), the OEFC may provide bridge financing beyond the designated percentage for a defined period. The relevant terms should ensure that this temporary measure does not detract from the rights of OPG to direct all of the relevant activities of the SPV. Additionally, OPG should not be protected from risk of loss by the OEFC with respect to its subordinated investment, nor should it lose its right to derive the residual returns should such bridge financing be required.

Legislation

9. The Legislation must require interest, carrying and administrative costs to be paid to the SPV on a monthly basis, so that the SPV is able to recognize appropriate revenue to offset any ongoing costs.
10. The Legislation must dictate the manner in which the restructured asset would be determined, collected, and the period of collection, so that the determination of the restructured asset will not be subject to the Province's decisions on an ongoing basis, but determined based on a formula. Alternatively, the Legislation may allow for an adjustment to the pre-determined deferral formula based on specific parameters that would limit the adjustment to the restructured asset. Adjustments beyond the specific parameters would require approval by the Board of Trustees.
11. The Legislation must be written to avoid legal or constitutional challenges and be irrevocable to reduce the cost of borrowing and with a specific formula which determines the deferral amount. As irrevocability would be difficult under Canadian law one mitigation would be to provide a Provincial guarantee which only applies with cancellation or amendment of the legislation.
12. The spirit of the above terms should be reflected in the SPV Indenture Agreement as well as Legislation, wherever possible.

2) The Trust is expected to be financed as follows:
   - 51% senior secured debt from external markets
   - 39% senior subordinated debt from OPG (via Province equity injection into OPG)

- 10% junior subordinated debt from OPG (5% from external markets and 5% from Province equity injection into OPG).

When assessing control, an investor shall consider the nature of its relationship with other parties and whether those parties are acting on the investor's behalf (i.e. they are 'de facto agents'). If OPG is assessed to be a 'de facto agent' of the Province, it will compromise the ability for OPG to consolidate the Trust. The split above is to meet the following conditions to ensure that OPG is not considered a 'de facto agent' of the Province:

- The Province or its agencies must not directly or indirectly fund (through debt or equity) more than 50% of the following:
  - The Trust
  - Any of OPG's investments in the most subordinated debt of the Trust
- OPG must own greater than 50% of the most subordinated debt and targeted to own no less than 5% of the total debt of the Trust. Such ownership must be financed entirely by OPG through operating cash flows or external debt, without assistance from Provincial sources.

3) The Province will need to conclude on whether OPG still meets the definition of a Government Business Enterprise as defined under Public Sector Accounting Board standards in order to obtain the preferred consolidation treatment after the transaction. We also recommend that the Province to undertake the analysis deemed necessary to confirm the accounting treatment in its consolidated Public Accounts, including if the recognition of the intangible asset would result in an offsetting liability in the Public Accounts.

C. Ability to Finance

Property Right or Right to Collect
Legislative Requirements for Financing
The GA Recovery Right must be structured to encompass the following elements:

- Right to recover from and bill Ontario electricity customers for (1) the principal amount of GA that is being deferred, (2) all interest and other financing costs incurred in respect of the deferral of the GA, (3) all fees, expenses and other administrative costs associated with such financing;
- Repayment/amortization schedule as agreed by the IESO and any purchaser of such GA Recovery Right (or pursuant to a pre-defined schedule/formula that covers all of the purchaser's principal, interest and ongoing financing costs on a monthly basis);
- Repayment/amortization schedule must include a true up mechanism to ensure all costs associated with the deferral can be recovered from customers;
- IESO may dispose of the GA Recovery Right, provided that any such disposition shall be a true sale and absolute transfer to the purchaser of the IESO's right, title and interest in and to the GA Recovery Right;
- Purchaser will have the right to require the IESO (or any successor) to collect the principal amount of GA Recovery Right, together with interest, financing and administration costs, on the agreed repayment/amortization schedule;
- Right must be irrevocable and, if amended by future governments, debt holders have the right of action against the government to recover the amount outstanding including interest, fees, expenses and any damages resulting from the amendment;
- GA Recovery Right will not be subject to any set-off, counterclaim or other defence by the IESO or any successor or affiliated entity; and
- Make certain amendments to the Electricity Act to allow OPG to implement the SPV financing structure (e.g. allowing OPG to create subsidiaries and holding companies, and to have a beneficial interest in the SPV, etc). This would provide flexibility to accommodate possible variations to the financing structure that may be desirable over time.

Detailed legislative requirements are specified in the attachments as follows:

Attachment 1 Legislative requirements to allow deferral of global adjustment amounts to be financeable

Attachment 2 Statutory amendments

The proposed financing structure for the SPV is:

	Risk Profile	Source	% of Total Funding Requirements
Tranche A Senior Debt	The least risky	Capital Markets	51%
Tranche B Sub Debt	In between A&C	OPG via OEFC	39%
Tranche C Sub Debt)	The most risky	OPG via OEFC	5%
		OPG via Capital Markets	5%

SPV structure is used to accomplish the following:

- SPV holds right to charge customers for the benefit of debt holders;
- Allows the financing vehicle to be ring-fenced from OPG as an SPV structure is set up as generally single purpose entities with no other operations that could add risk to the SPV, dilute debt holder rights, allow parties from other operations to claim rights to the future recovery from customers or allow these other parties to initiate bankruptcy proceedings;
- Enables SPV to potentially get a higher credit rating than OPG;
- Supports consolidation with OPG provided accounting requirements are satisfied;

This approach supports a number of objectives of the GA Recovery Right:

- 51% external senior debt supports separation of the SPV from the Province
- 5% junior subordinated debt establishes OPG's "at risk" equity which supports separation of the SPV from the Province
- Subordinated debt provides flexibility to the financing structure and additional credit support to external debt holders
- Subordinated debt sourced from OPG (mainly funded by equity injection from the Province) minimizes impact on OPG credit metrics reducing risk of an OPG rating downgrade that could result in the SPV being consolidated directly with the Province as the SPV would be considered an arm of the Province.

Recent transactions used as precedents are:

Duke Energy Florida Project Finance LLC
June 2016
5 series of bonds totalling USD$1.3B
Weighted average life from 2 to 19 years with interest rates from 1.2% to 3.1%
Credit rating AAA

Utility Debt Securitization Authority
Sponsored by Long Island Power Authority
March 2016
Amount issued USD$0.6B
Weighted average life of 12 years and weighted average yield of 2.7%

August 2016
Amount issued USD$0.5B
Weighted average life of 7 years and weighted average yield of 2.0%

Credit rating AAA

Cumulative outstanding (including previous issuances): USD$4.2B

D. External Assessment

Shakerhill Partners, an external advisor, identified the following items in an assessment of the structure and financeability of the structure:

- The structure is financeable however there are a number of significant risks to the structure:
  - Canadian and Ontario law does not provide the same protection to property right as exists in the US federal and state constitutions to limit the ability of governments to adversely impair contracts to the detriment of the holder;
  - Legislation could mitigate some of the risks – deferred recovery asset to be "uncapped", regular semi-annual true up to ensure recovery, Province provides sufficient committed liquidity to the IESO so that temporary shortfall in recovery does not affect payments to SPV, term of the deferral recovery substantially exceeds the longest maturity of debt of the SPV and that true-up mechanism take account of potential for currency, interest rate and duration mis-match between the debt of the SPV and the recovery mechanism;
  - Size of the program may be too large for Canadian securitization market requiring access to the US securitization market;
- Final maturity of debt should not exceed 30 years from inception of the program
- True up mechanism should be designed such that the forecast of recovery is less than 10% of the customer bill under downside scenarios to limit growth of the deferral balance as a higher portion of the customer bill increases the political risk to debt holders which could result in a lower credit rating and potential impact on financeability
- Securitized debt products are specialized and price at a premium to other fixed rate instruments however a successful program supported by a strong credit rating this premium could shrink over time to a minor spread over Provincial debt
- OPG's credit rating should be maintained provided sufficient equity is injected to maintain credit metrics
- While the structure is not expected to impact the Province there are risks that the program could negatively impact the rating agencies view of the Province's financial management.

E. Risk Summary

i. Consolidation

- Elements of the proposed structure were established to support consolidation of the SPV into OPG. These items may not be sufficient to establish OPG as risk owner of the SPV and the SPV may need to be consolidated directly with the Province.

ii. Financeability

- The legislation establishing the structure and the property right for recovering the financing and associated costs may not be adequate for financing purposes resulting in more expensive financing or an inability to obtain the required external financing.

iii. Cost of Financing

- Future governments may enact legislation that changes the right of the SPV to recover amounts from customers.
- The right to recover amounts from future customers must be irrevocable and subject to full recovery from the government in the event that future governments reduce or eliminate the recovery. A legal structure that is weaker than the precedent US transactions increases the risk to debt holders and the cost of financing.
- Interest rates on bonds in the securitization market are higher than equivalent rated bonds. Rate for a AAA securitization credit is about 50 bps higher than GOC (rated AAA) for a 5 year term. This difference is attributable to the specialized structure of the bond, smaller investor pool for this bond, smaller size of the market and higher perceived risks of the bond.
- Any regulator involvement must not be seen to modify any terms of debt issued or the property right securing the debt as this would increase risk to debt holders.

- It may not be possible to issue debt to match the terms of the deferred asset so shorter term debt would be used which raises risk to re-finance the maturing debt as the market may no longer be interested in this product. As well, underlying reference interest rates may be higher and the market may require a higher spread to invest in this product.
- With the GA Recovery Right program continuing for 10 years, debt issued over this period is subject to changes in both the underlying reference interest rates and appetite of the market for this product.

iv. OPG Credit Rating

- Minimizing the impact of significant additional debt on OPG's credit rating is dependent on higher EBITDA arising from earned income on the GA Recovery Right in excess of external debt. Ability of the SPV to record revenue reflecting the growth in asset value.
- Potential OPG credit rating downgrade if legislative structure is not adequate to support long term recoverability, inability to record revenue from growth in asset value or agencies view equity injection as debt.
- OPG credit rating downgrade could result in loss of GBE status or result in SPV being consolidated directly with the Province.

Attachment 1

LEGISLATIVE REQUIREMENTS TO ALLOW DEFERRAL OF GLOBAL ADJUSTMENT AMOUNTS TO BE FINANCEABLE

The IESO currently has a right to collect GA monthly from ratepayers through provisions in the *Electricity Act, 1998*. It is proposed that collection of a certain portion of the monthly GA be deferred for collection in the future, and that the right to recover the deferred GA from ratepayers be used as a basis for structured financing/securitization.

The current proposal is for a trust to be created as a financing vehicle (the "**Trust**") in connection the deferred GA. The Trust will finance the deferral of the GA by purchasing the right to recover such deferred GA from the IESO for the principal amount of the GA being deferred. For example, if the amount of GA that is being deferred is $200 million in a given month, the Trust will purchase from the IESO the right to future recovery of the deferred GA and the associated financing costs (including interest and transaction costs) for $200 million in cash.

The Trust is expected to finance these purchases from the IESO through a combination of senior secured financing raised in the capital markets and subordinated financing from OPG (the funding for which will mostly be from equity injections from the OEFC/Province).

For accounting purposes, OPG will need to have the ability to direct the activities of the Trust, through a services agreement and/or through the Trust's constating document.

Based on securitized financing raised by utilities in the US (backed by utility cost recovery orders) and the current regulatory framework in Ontario, the legislation in Ontario would need to be amended to provide the following, at a minimum:

1. The IESO will be empowered to create an asset (the "**Regulatory Asset**") consisting of all right, title and interest in and to:

   (a) right to recover from and bill Ontario electricity ratepayers for:

   (i) the principal amount of GA that is being deferred for collection;
   (ii) all interest and other financing costs incurred in respect of the deferral of the GA (whether through senior debt raised in the public markets or subordinated debt raised from OPG or others); and
   (iii) (subject to the comments in paragraph 5 below in respect of OPG's internal administrative costs only) all fees, expenses and other administrative costs associated with such financing, including up-front and ongoing financing costs and any indemnity payments;

all on such repayment/amortization schedule as agreed by the IESO and any purchaser of such right (or pursuant to a pre-defined schedule/formula in the legislation that covers all of the purchaser's principal, interest and ongoing financing costs on a monthly basis); and

(b) all revenues, collections, claims, rights to payments, money or proceeds arising from the rights and interests set out in paragraph (a) above, regardless of whether such revenues, collections, claims, rights to payments, money or proceeds are imposed, billed, received, collected or maintained together with or commingled with other revenues, collections, rights to payments, payments, money or proceeds.

2. The IESO may dispose of the Regulatory Assets created from time to time on such terms as the IESO determines in accordance with the terms of directives to be issued to the IESO from time to time by the Minister, provided that any such disposition shall be a true sale and absolute transfer of the IESO's right, title and interest in and to a Regulatory Asset to the purchaser of the Regulatory Asset.

3. The Regulatory Assets will not be subject to any set-off, counterclaim or other defence by the IESO or any successor or affiliated entity thereof.

4. The legislation will need to recognize the Regulatory Assets as amounts that may be recovered by the IESO (e.g. it could be designated as a "GA Deferral" and would be included in the amounts collectible by the IESO through the GA collection mechanism, and would include interest and financing costs).

5. The purchaser of the Regulatory Asset will have the right to require the IESO (or any successor) to collect the principal amount of GA deferred, together with interest, financing and administration costs, on the agreed repayment/amortization schedule. **[NTD: In the LIPA securitization rate order, if the entity that is authorized to collect rates to service the bonds ends up defaulting, there is the ability to request a court to order "sequestration" and payments of amounts owing to the owner of the Regulatory Asset. Consider whether to include a similar right here. Alternatively, consider whether a security interest over the moneys collected by the IESO could be provided to the purchaser.]**

OEB would be provided with oversight over the internal administrative costs collected by the Financing Trust. This could be accomplished by (a) providing the purchaser of the Regulatory Asset with the right to require

the IESO or a successor to collect only the principal amount of GA together with interest and financing costs and third party fees and expenses, and (b) requiring the IESO to collect amounts through the global adjustment and make payments to the purchaser of the Regulatory Asset with respect to the internal administrative costs incurred by the purchaser in connection with the purchase and management of the Regulatory Asset and the Financing Trust, in accordance with the order of the OEB then in effect. Under this mechanism, the OEB would be required to review the purchaser's internal administrative costs through a streamlined process and issue such orders in accordance with rules to be prescribed under a new regulation under the OEB Act, which would clearly limit the OEB's scope of review and could establish the basis for the purchaser to receive an appropriate fee for its services.

6. In the event that any action is taken or permitted by the Province or any regulatory authority that limits, alters, or impairs the value of a Regulatory Asset or reduces the ability of the IESO or the purchaser of the Regulatory Asset to collect or recover the costs associated therewith, the owner of the Regulatory Asset and the holders of any bonds or other securities issued to finance the purchase of the Regulatory Asset, will have a right of action against the Province for any damages suffered as a result of such amendment.

STATUTORY AMENDMENTS

The following is preliminary and is based on our current understanding of the proposed structure and objectives. For example, we have assumed that the structure will not entail the insertion of a new Holdco between OPG and the Province. As these aspects are refined, some of the suggested amendments described below may not be needed and other aspects that we are not aware of may need to be considered. Accordingly, these suggested amendments are provided for discussion purposes and are subject to change. We would welcome the opportunity to work with OPG and the Ministry on refining the scope and substance of required legislative and regulatory amendments.

A. Amendments to Implement Structure

Certain *Electricity Act, 1998* amendments would be needed to implement the anticipated structure (which we understand, as noted above, would not include a Holdco), as follows:

- **Section 53.1(1):** Amend to permit owning and operating generation facilities through subsidiaries (not only directly through OPG). In addition, amend to permit OPG to administer, manage, loan moneys to and have a beneficial interest in, if applicable, Financing Trust.

- **Section 53.2:** Amend to permit the Minister to acquire, hold, dispose of or otherwise deal with securities or debt obligations of, or any other interest in, OPG or any subsidiaries. This is to accommodate possible variations to the financing structure that may be desirable over time.

- **Section 53.■ (new):** New statutory section to permit the Minister to enter into arrangements relating to an exercise of powers under 53.2.

- **Section 53.■ (new)**: New statutory section providing that creditors of Financing Trust have no recourse to the assets of OPG or any of its subsidiaries (other than Financing Trust, if applicable). In addition, consideration should be given as to whether the Act should be amended so that the Financing Trust cannot be wound up or liquidated.

B. Miscellaneous Corporate Items to Address

- **OPG Articles:** Amend the OPG's articles to remove the private company restrictions.

- **MOA with Province:** Consider whether any amendments to OPG's MOA with the Province are required to contemplate the Financing Trust.

C. Amendments Under Electricity Act to Implement GA Smoothing

Based on our understanding that the global adjustment smoothing mechanism is intended to benefit residential and small business customers only and that the Minister will be responsible for determining how much global adjustment smoothing is to be applied in a given month, if any, amendments to the *Electricity Act, 1998* and Ontario Regulation 429/04 (Adjustments Under Section 25.33 of the Act) would be needed to implement the mechanism, as follows:

(i) Electricity Act:

- **Section ■ (New):** Establish a new power for the Minister to make directives to the IESO in relation to the global adjustment smoothing mechanism and, particularly, for purposes of establishing global adjustment smoothing amounts from time to time (expected to be monthly). To the extent possible, the directive power should be drafted so as to limit the ability for a future Minister to require the IESO to do anything that would materially and adversely affect the Financing Trust or its lenders. **[NTD: While our understanding is that the Minister would direct this, we note from other materials we have seen that OPG may instead be recommending a formula approach. It is not clear what the formula would look like, where it would be set out or how it would be applied and by whom]**

- **Paragraph 25.33(1):** This section says that IESO shall make adjustments in accordance with the regulations to ensure that, over time, payments by prescribed classes of market participants reflect amounts paid to OPG, OEFC and distributors, as well as amounts paid to entities with whom IESO has a procurement contract. Add new subsection (c) so as to require IESO to ensure that, over time, payments by prescribed classes of market participants also reflect amounts paid to Financing Trust. **[NTD: Not certain this is needed if only to benefit residential and small business consumers, who are not market participants. May be needed in reference to payments from distributors and retailers]**

- **Paragraph 25.33(2):** This section says that distributors and retailers shall make adjustments in accordance with the regulations to ensure that, over time, payments by prescribed classes of consumers reflect amounts paid to OPG, OEFC and distributors, as well as amounts paid to entities with whom IESO has a procurement contract. Add new subsection (c) so as to require distributors and retailers to ensure that, over time, payments by prescribed classes of consumers also reflect amounts paid to Financing Trust.

- **Note**: As described below, the regulation will need to include new requirements for the IESO to record the global adjustment smoothing amounts in one or more variance accounts and to use those amounts to offset amounts otherwise recorded in the variance accounts under Section 25.33(3) of the Act. For context, we note:

    - Section 25.33(3) says that adjustments under (1) or (2) relating to electricity consumed by consumers whose rates are determined by

the OEB under s. 79.16 of the OEB Act (i.e. RPP Customers) shall instead be made in accordance with the regulations to one or more variance accounts established and maintained by the IESO.

- Section 25.33(4) says IESO, distributors and retailers shall make and receive such payments, set-offs and credits as may be required or permitted by the regulations with respect to consumers described in (3), i.e. RPP Customers.

- Section 25.33(5) says that IESO shall establish and maintain such variance accounts as may be needed to record all amounts payable or receivable by it under 25.33.

(ii) O. Reg. 429/04 (Adjustments Under Section 25.33 of the Act):

- **Section 1(1):** Consider adding definitions for "Financing Trust" and "global adjustment smoothing amount" or such other terms as may be preferred.

- **Section 1.2(1) (New):** Add section providing that, for the purposes of this Regulation, the global adjustment smoothing amount for a month is the amount determined by the IESO in accordance with a directive from the Minister under section ■ of the Electricity Act in respect of the month. **[NTD: See above note re use of Minister directives]**

- **Section 1.2(2) (New):** Consider adding a section providing that the IESO shall publish the global adjustment smoothing amount for a month by no later than the 10th business day of the following month [to align with general publication requirements for global adjustment under s. 1.1(2)].

- **Section 10(1):** Amend formula for calculating Class B GA rate by subtracting the global adjustment smoothing amount for a month from "M", which is the total amount of the global adjustment for the month. The global adjustment smoothing amount could be designated as "X", such that the formula would be (M-X-N)/(P-Q). Define "X" as the global adjustment smoothing amount for the month as determined by the IESO in accordance with the Minister's directive under section ■ of the Electricity Act for the month. **[NTD: See above note re use of Minister directives]**

- **Section 10.1 (New):** Add new section to deal with adjustments under subsection 25.33(3) of the Act, i.e. in respect of RPP consumers. This section should require the IESO to establish, within the variance account(s) it maintains pursuant to subsection 25.33(3) of the Act, one or more subaccounts in which it shall record the global adjustment smoothing amounts applicable to the classes of consumers described in subsection 25.33(3) of the Act. This section must also specify that the IESO shall apply the amounts recorded in the subaccounts against the balances in the variance accounts for purposes of section 79.16(3) of the OEB Act.

  - **Note:** This is a key aspect because, when the OEB determines RPP rates, it must take into account the balances in the variance accounts established by the IESO under s. 25.33 of the Electricity Act and make adjustments with a view to eliminating the balances within 12 months. This proposed new section 10.1 causes the IESO to reduce (in the near term) the variance account balances by the global adjustment smoothing amounts, as provided by Financing Trust, thereby enabling the OEB to determine RPP rates that, despite being lower for RPP consumers in the near term, still eliminate the relevant variance account balances within 12 months.

- **Paragraph 11(2)2.ii:** Amend the formula for calculating the allocation of global adjustment for a month to a licensed distributor that is a market participant by subtracting the global adjustment smoothing amount for a month from "M", which has the same meaning as under section 10(1). The global adjustment smoothing amount could be designated as "X", such that the formula would be [(M-X-N) x (R+S-T)]/(P-Q). Define "X" as suggested under section 10(1).

- **Paragraph 11(2)3:** Amend the formula for calculating the allocation of global adjustment for a month to each Class B market participant by subtracting the global adjustment smoothing amount for a month from "M", which has the same meaning as under section 10(1). The global adjustment smoothing amount could be designated as "X", such that the formula would be [(M-X-N) x U]/(P-Q). Define "X" as suggested under section 10(1).

- **Paragraph 16(7)4:** Consider amending the description of "Global Adjustment" that is required to be included on certain invoices so as to inform consumers that their portion of the global adjustment for the month (i) may have been reduced by the application of a global adjustment smoothing amount from the Financing Trust, or (ii) may include amounts payable to the Financing Trust in respect of global adjustment smoothing amounts previously applied.

- **Section 20(1):** This section establishes an obligation for the Ontario Electricity Financial Corporation and every licensed distributor that is a market participant to give the IESO such information as the IESO may require for the purposes of the Regulation in the form specified by the IESO and before the expiry of the period specified by the IESO. Consider amending to extend this obligation to the Financing Trust.

- **Section 20(6):** This section provides that on request by the OEB, the IESO, a licensed distributor, an embedded generator, a retailer or the OEFC shall give the OEB such information relating to this Regulation as the OEB may require, in the form and within the period specified by the OEB. Consider amending to extend this obligation to the Financing Trust.

D. Amendments Under OEB Act to Implement Cost Recovery for Financing Trust

Amendments to the *Ontario Energy Board Act*, including amendments to O. Reg. 95/05 (Classes of Consumers and Determination of Rates) and the introduction of a new regulation, would be needed to implement a cost recovery process for the Financing Trust in relation to the global adjustment smoothing mechanism, potentially with limited OEB oversight, as follows:

(i) Ontario Energy Board Act:

- **Section 78(3.3):** This provision establishes an obligation for the OEB, when determining rates for the retailing of electricity, to take into account balances in variance accounts established under section 25.33 of the Electricity Act and to make adjustments "with a view to eliminating those balances within 12 months or such shorter time periods as the Minister may direct." Consider whether any amendments are needed, and confirm this works with the framework being proposed.

- **Section 78.7 (New):** We understand that the Province may want the OEB to have an oversight role. One possible approach would be to establish a new statutory section establishing that the IESO shall make payments to the Financing Trust with respect to the internal administrative costs incurred by the Financing Trust in connection with the purchase and management of the Regulatory Asset and the Financing Trust. Such payments by the IESO would need to be made in accordance with the order of the OEB then in effect, which orders shall be made by the OEB in accordance with rules prescribed under a new regulation.

    - The new regulation would need to be clear that the OEB does not have jurisdiction to consider the principal amount or any interest, financing costs, third party fees or expenses. Rather, OEB's role would be limited to considering the internal administrative costs of the Financing Trust and ensuring the Financing Trust receives an appropriate fee for its services, all of which would be recovered by the Financing Trust from the IESO, which would collect those amounts in the global adjustment. Note that, if this approach is accepted, the IESO and distributors and retailers would need the authority to collect such amounts as part of the GA and IESO would need the authority to pay such amounts to the Financing Trust. As such, additional amendments would be needed under O. Reg. 429/04.

- **Note:** Section 79.16 of the OEB Act does not require changes, but the significance of this provision should be understood.

    - Section 79.16 gives the OEB responsibility for determining electricity commodity prices for eligible consumers. Eligibility is determined under Reg. 95/05 (Classes of Consumers and Determination of Rates), which is also known as the Regulated Price Plan (RPP) Regulation.
    - Section 4(2) of the RPP Regulation defines RPP-eligible consumers as low volume consumers (i.e. those who annually use less than 150,000 kWh

or such other amount as prescribed), consumers with demand of 50 kW or less, residential consumers that have accounts with distributors, consumers who annually use 150,000 to 250,000 kW of electricity, and consumers who have accounts with distributors if in the farming business.

- Paragraph 6(1)3 of the RPP Regulation provides that "In determining the rates (for RPP-eligible consumers), the Board shall forecast the cost of electricity to be consumed by the consumers to whom the rates apply, taking into consideration adjustments required under section 25.33 of the *Electricity Act, 1998* and shall ensure that the rates reflect those costs."
- The Ontario Energy Board has developed a Regulated Price Plan Manual (revised February 16, 2016) to describe the processes and methodologies it uses for determining electricity commodity prices that are charged to RPP consumers pursuant to Section 79.16 of the OEB Act and paragraph 6(1)3 of the RPP Regulation.

(ii) O. Reg. 95/05 (Classes of Consumers and Determination of Rates)

- **Paragraph 6(1)3:** Amend so as to require the Board, when forecasting the cost of electricity to be consumed by the consumers to whom the rates apply, to take into consideration not only the adjustments required under section 25.33 of the Electricity Act but also the application or prior application of global adjustment smoothing amounts determined by the IESO in accordance with Minister directives under section ■ of the Electricity Act, and to ensure that the RPP rates reflect those amounts. **[NTD: See above note re use of Minister directives]**

(iii) New Regulation (Payments to the Financing Trust)

- If the OEB is to be given the role of reviewing and approving the recovery of OPG's internal administrative costs for the Financing Trust under the potential section 78.7 (see above), then this regulation should describe the process and criteria pursuant through which the OEB would determine the amounts that the IESO would be required to collect through the global adjustment, in accordance with section 25.33 of the Electricity Act, and pay to the Financing Trust in respect of the provision of global adjustment smoothing amounts. This part of the regulation should establish:

    - any reporting requirements from the Financing Trust and/or the IESO to the OEB in connection with the global adjustment smoothing mechanism;
    - the frequency of the OEB making determinations under this part of the regulation;
    - the process through which the OEB shall make these determinations, which should be a streamlined administrative process rather than a public hearing process or, if a hearing is needed, then the scope of the proceeding should be clearly and narrowly constrained so as to deter intervenor involvement, lengthy proceedings and reduce/eliminate risk to recovery by Financing Trust;

- the basis for the OEB's determinations as to the payments that shall be made to the Financing Trust, which should specify that:
  - the Financing Trust shall recover its prudently incurred internal administrative costs on a forecast basis each year;
  - the Financing Trust shall receive an appropriate fee each year (with some guidance as to what would be appropriate); and
  - the approved payment amounts shall be collected by the IESO through the global adjustment and paid to the Financing Trust in accordance with the order of the OEB then in effect. Note that O. Reg. 429/04 would likely need amendments to permit IESO (and distributors and retailers) to collect these amounts through the global adjustment.

Global Adjustment Deferral - White Paper - Terms to MOE Feb 21_2017.pdf

GA Smoothing – OPG Accounting Considerations

- An SPV/Trust is a stand-alone entity able to conduct business separately under a Trust agreement

The conditions required for OPG to consolidate the SPV/Trust are outlined in the following table

Issue	Response
1. Decision Making	• OPG must have decision making authority on the operation of the SPV/Trust (without a veto right by the Province), including naming of trustees, establishing operating plans and budgets, setting or changing financing policies. • The SPV/Trust while operating within the legislation, must be controlled by OPG to operate freely and to alter terms and conditions not specified in the legislation to ensure recovery of the deferred amounts
2. Business Risk	• The SPV/Trust must have variability of returns as a normal business enterprise would, including such things as interest charged on deferred amounts, decisions on how to finance these deferred amounts, the ability to make / lose and keep any spread from financing
3. Funding	• The Province cannot directly or indirectly fund more than 50% of SPV/Trust or any investment in the SPV/Trust • OPG must own at least 50% of the most exposed equity /sub-debt in the SPV/Trust
4. Directive	• Directive that is issued should not be prescriptive or direct OPG to set up this business. The directive should only be “guiding” i.e. to allow OPG to evaluate options and put forward to the OPG Board a recommended plan for Shareholder approval

GA Smoothing – OPG Accounting Considerations - continued

Issue	Response
5. Other required Attributes:	The legislation that supports the formation of the SPV/Trust must have the following attributes: • Must require interest, carrying and administrative costs be paid to the Trust to allow for Revenue recognition • The amount to be deferred must either be specified or be calculated based on a specific formula that is not subject to ongoing decision making by the Province. **The Province cannot have the ability to override this formula** • Legislation should be written to avoid the possibility of being revoked with wording to ensure the SPV/Trust and its debt holders would have their capital guaranteed and paid for directly by the Province if such a situation were to happen • The spirit of the legislation should be reflected in the Trust Indenture Agreement

GA Financing Structure Requirements

KEY ELEMENTS REQUIRED TO ENSURE THE DEFERRAL OF GA CHARGES CAN BE FINANCED:

Creation of Strong Property Rights

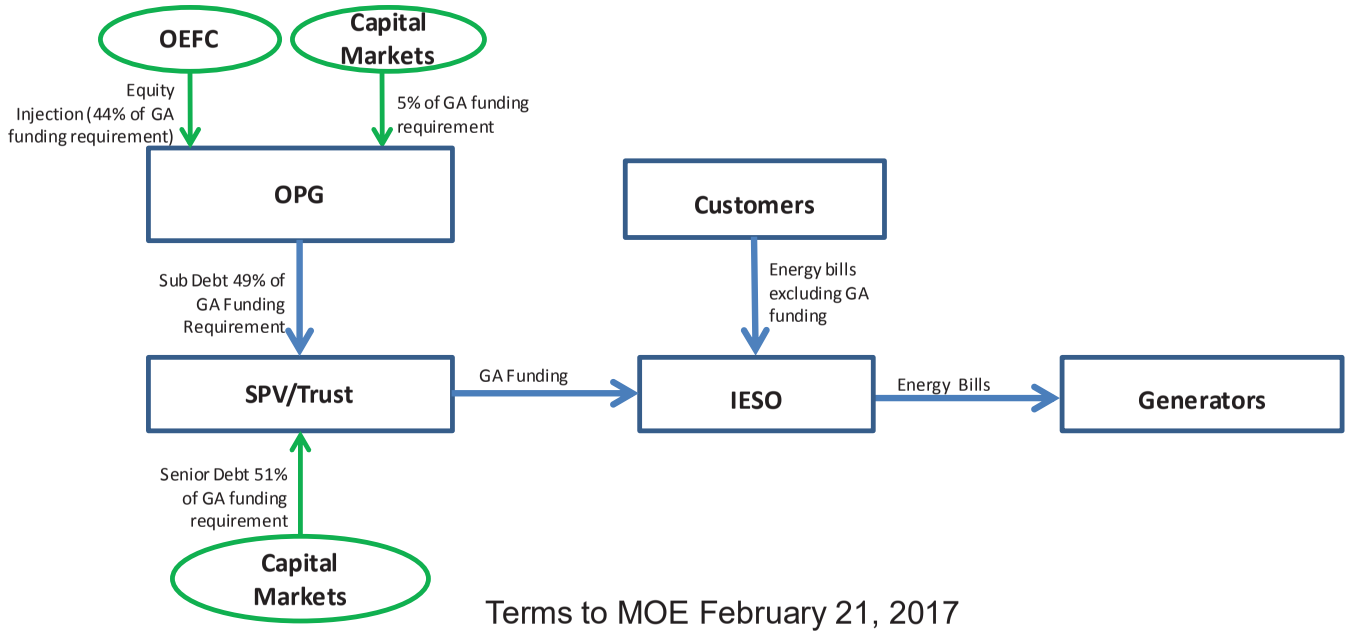
- Legislation enshrines the ability of the IESO to create a Right to charge customers in the future for the Global Adjustment (GA) deferred today including principal amount deferred, interest and other financing costs on the amount deferred and fees, expenses and other administrative costs.
- The Right can be sold to an appropriate Trust or Special Purpose Vehicle (SPV) to obtain funds to pay amounts due to generators under contracts or regulation. These SPVs are generally single purpose entities with no other operations that could add risk to the entity, dilute debt holder rights, allow parties from other operations to claim rights to the future recovery from customers or allow these other parties to initiate bankruptcy proceedings.
- Right must be irrevocable and if the Right is amended by future governments the debt holders have the right of action against the government to recover the amount outstanding including interest, fees, expenses and any damages resulting from the amendment.
- Right must specify the recovery period or the mechanism for setting the recovery rate including true up of the rate to ensure all amounts are recovered

Economic Factors

- Limits on the recovery amount (principal, interest, fees and expenses) charged to customers in future periods must have compensating elements such as longer recovery period to ensure the full amount deferred plus interest, financing and other administration costs is recovered from customers.
- Need to balance customer relief with debt holder risk. Longer recovery periods and larger deferred balances increase risk to the debt holder of future government intervention.
- The amount required by the SPV to purchase and service the Right will be funded 51% from debt holders, 5% from OPG through capital markets and 44% from OPG via equity injection to OPG from the Province. The funding from OPG will be loaned to the SPV as subordinated debt.

GA Financing Structure Requirements - continued

- SPV will be used to raise the GA financing and ring fence OPG from its legal obligations
- SPV will be structured to allow for GBE accounting consolidation into OPG
- Given that SPV will be consolidated into OPG for accounting purposes, the significant amount of debt required to fund the GA deferral will have a severe impact on OPG's credit rating. If 100% of the requirement is funded by debt OPG would be downgraded.
- To manage this exposure and minimize the cost of funding. The required funding would be split into 2 buckets:
    1. 56% from capital markets, and
    2. The remainder provided by the Province via equity injection, which would be loaned to SPV as subordinated debt.
- The use of equity to fund a portion of the GA deferral also allows for an improvement in both Net Income and EBITDA as incremental revenue is captured by the increase in the value of the deferral which would offset the fiscal impact of the borrowing at Province level.
- Credit rating metrics are generally maintained within established limits.



Terms to MOE February 21, 2017

PSAB INDICATORs OF CONTROL.pdf

INDICATORs OF CONTROL
Government has the power to unilaterally appoint or remove a majority of the members of the governing body of the organization
Government has ongoing access to the assets of the organization, has the ability to direct the ongoing use of those assets, or has ongoing responsibility for losses
Government holds the majority of the voting shares or a "golden share" that confers the power to govern the financial and operating policies of the organization
Government has the unilateral power to dissolve the organization and thereby access its assets and become responsible for its obligations

Other indicators that may provide evidence of control exist when the government has the power to:

Provide significant input into the appointment of members of the governing body of the organization by appointing a majority of those members from a list of nominees provided by others or being otherwise involved in the appointment or removal of a significant number of members
Appoint or remove the CEO or other key personnel
Establish or amend the mission or mandate of the organization
Approve the business plans or budgets for the organization and require amendments, either on a net or line-by-line basis
Establish borrowing or investment limits or restrict the organization's investments
Restrict the revenue-generating capacity of the organization, notably the sources of revenue
Establish or amend the policies that the organization uses to manage, such as those relating to accounting, personnel, compensation, collective bargaining or deployment of resources

Subject: Legislative Drafting Call Requested Friday March 3
Date: Thursday, March 02, 2017 19:27:56

Hello Everyone,

Sorry that this email is coming late this evening. I understand we need to get this phone call booked for tomorrow - can you please let me know if 1:30 pm works.

I will be placing a hold in your calendars.

Thank you

Colleen

Letter to IESO Chair and Board of Directors.pdf

Office of the Auditor General of Ontario
Bureau de la vérificatrice générale de l'Ontario

June 22, 2017

Mr. Timothy O'Neill
Chair, Board of Directors
Independent Electricity System Operator
1600-120 Adelaide Street West
Toronto, ON M5H 1T1

Dear Mr. O'Neill and Board Members:

Thank you for taking the time to meet with us on June 14, 2017 so that we could outline our significant concern regarding IESO's adoption of US GAAP – *FASB Accounting Standards Codification (ASC) 980 – Regulated Operations* to record rate regulated deferral accounts in its December 31, 2016 financial statements.

As mentioned at our meeting, I am sending this letter to outline, in Attachment 1, my Office's technical position regarding the adoption of rate regulated accounting in a government organization's financial statements that is using Public Sector Accounting Standards (PSAS) and other contextual information. We do not agree that rate regulated accounting is permitted under PSAS. Our position is supported by many experts from whom we obtained advice in the application of PSAS in Canada.

Based on our research, the IESO will be the only government organization in Canada to have recorded regulatory assets on its PSAS based financial statements. This creates a significant Canadian precedent for financial statements prepared under the PSAS Conceptual Framework.

The attachment to this letter outlines where we disagree with the information presented in IESO's White Paper titled, "*Adoption of the guidance in ASC 980 Regulated Operations*" and identifies where the White Paper did not address key issues that should have been presented to the IESO Board when making its decision to approve the adoption of the use of rate regulated accounting in a PSAS set of financial statements.

Based on the technical arguments provided in the attachment, the strength of support that we have for our position and existing practices for similar organizations in other jurisdictions across Canada, I strongly encourage the Board to reconsider your decision.

In my capacity as Auditor General of Ontario, I am writing to formally recommend that the Board review this new information with IESO's management and amend and reissue IESO's December 31, 2016 financial statements without the restatement and adoption of rate regulated accounting. I understand and recognize that the preparation and issuance of these financial statements are the responsibility of IESO's management and its Board and this is your decision to make.

My staff and I welcome the opportunity to meet with you again to further discuss the attached document or any related matters.

Please feel free to contact me at 416-327-1326 if you have any questions regarding the contents of this letter or attachment or require further information. After your consideration of this new information, please notify me of your decision prior to Friday, July 21, 2017.

Yours sincerely,

Bonnie Lysyk
Auditor General

c. Bruce Campbell, President and Chief Executive Officer, IESO
Peter Gregg, Incoming President and Chief Executive Officer, IESO
Kim Marshall, Vice-President, Corporate Services and CFO, IESO

Adoption of Rate Regulated Accounting in IESO's financial statements

Background

As an organization controlled by the Province, IESO must apply the Public Sector Accounting (PSA) Handbook in the preparation of its financial statements. In the introduction to the PSA Handbook, the Public Sector Accounting Standards (PSAS) gives IESO the option, as an "other government organization" (OGO), to use the accounting provisions in the PSA Handbook or the accounting provisions of Part I of the CPA Canada Handbook – International Financial Reporting Standards (IFRS). IESO adopted PSAS as its basis of accounting.

In its December 31, 2016 financial statements IESO adopted rate regulated accounting for the first time. IESO cited the generally accepted accounting principles (GAAP) Hierarchy in section 1150 of the PSA Handbook in its decision to adopt the provisions in the United States (US) Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 980, *Regulated Operations*.

IESO outlined its reasons for adopting ASC 980 in its White Paper titled "*Adoption of the guidance in ASC 980 Regulated Operations*" (the "White Paper").

Facts

- The IESO's legal status is a non-taxable, not-for-profit, corporation established pursuant to Part II of the Electricity Act, 1998.
- IESO has been classified as an Other Governmental Organization (OGO) as defined by paragraph .08 of the *Introduction to Public Sector Accounting Standards* in PSAS.
- Appendix A to the *Introduction to Public Sector Accounting Standards* outlines that an OGO has the choice to adopt either PSAS or IFRS for the reporting of its financial results.
- IESO has adopted and prepares its financial statements in accordance with PSAS.
- PSAS does not explicitly permit the recognition, measurement, presentation or disclosure of rate-regulated activities.
- US GAAP has retained a rate-regulated accounting standard for a number of years (formally known as SFAS 71, now ASC 980 – *Regulated Operations*)
- The International Accounting Standards Board (IASB) issued a new interim standard: IFRS 14, *Regulatory Deferral Accounts* in January 2014.

IESO's White Paper

IESO's White Paper discusses the issue of whether the IESO can adopt the guidance in ASC 980 *Regulated Operations (*US GAAP issued by FASB*)*. There are some points that the White Paper does not properly or adequately address including: whether rate regulated deferral accounts meet the definition of an asset under PSAS; how IESO has applied the explicit exemption outlined in US GAAP ASC 980 to not follow GAAP when adopting rate regulated accounting (an exemption that is not contained in PSAS); and whether IFRS is a more relevant source of GAAP to first consult according to PSAS's GAAP Hierarchy, prior to looking to ASC 980.

We have detailed the following points below:

- Rate regulated deferral accounts do not meet the definition of an asset under PSAS.
- IESO has improperly adopted an exemption to not follow GAAP under ASC 980 that is not in PSAS.
- IESO should have consulted IFRS prior to ASC 980 when applying the GAAP Hierarchy.

Regulatory deferral accounts do not meet the definition of an asset under PSAS

The definition of an asset is outlined in PS 1000, *Financial Statement Concepts* (often referred to as the PSAS Conceptual Framework):

.35 ***Assets*** *are economic resources controlled by a government as a result of past transactions or events and from which future economic benefits are expected to be obtained.*

.36 Assets have three essential characteristics:

(a) they embody future economic benefits that involve a capacity, singly or in combination with other assets, to provide goods and services, to provide future cash inflows, or to reduce cash outflows;

(b) the public sector entity can control the economic resource and access to the future economic benefits; and

(c) the transaction or event giving rise to the public sector entity's control has already occurred.

.37 An item is not an asset of a government if it lacks one or more of the essential characteristics listed in the preceding paragraph. Thus, for example, an item does not qualify as an asset of a government if the item involves:

(a) no future economic benefit;

(b) future economic benefit, but the government cannot obtain it; or

(c) future economic benefit that the government may obtain, but the events or circumstances that give the government control of the benefit have not yet occurred.

Under PS 1000.36, an asset must have all three characteristics of the definition of an asset to be recognized as an asset. With respect to rate regulated deferral accounts:

- PS 1000.36 (a) - The deferral of today's costs and its future recovery from ratepayers would be considered an economic resource for which IESO will benefit from in the future due to the right to charge higher fees. (**Meets Criterion**) The IESO White Paper agrees with this assessment.

- PS 1000.36 (b) - IESO does not yet have the ability to control the benefit outlined under PS 1000.36 (a). The contractual right to the future revenues is dependent on both the

continuation of regulatory approval from the OEB to collect the higher fees in the future (i.e. OEB must ensure that costs continue to be "just and reasonable") and the provision of electricity to ratepayers in the future at higher rates (i.e. OEB must ensure that the future higher fees continue to be charged to the appropriate set of ratepayers who benefited from the original costs). The OEB controls the right to recover the costs in the future not the IESO, as IESO's White Paper suggests. (**Does Not Meet Criterion**) This is contrary to the IESO management's interpretation of this characteristic —IESO contends that that IESO established control at the time that the OEB made its original decision regarding the Smart Meter database costs.

- PS 1000.36 (c) - The transaction or event that gives control of the benefit to IESO is the consumption of electricity by ratepayers in the future, for which higher rates can be charged (not IESO incurring the original costs as IESO's White Paper suggests). This transaction will not occur until future years. That is, the transaction that will give rise to the IESO having control over the benefit will not occur until the year that the costs incurred are actually recovered through higher future hydro rates. (**Does Not Meet Criterion**) This is contrary to the IESO's interpretation of this characteristic— IESO contends that the transaction giving IESO control over the benefit was the OEB's original decision regarding the Smart Meter database costs.

As rate regulated deferral accounts do not meet all three characteristics of an asset under PSAS, they do not meet the definition of an asset.

In order to adopt rate regulated accounting under PSAS or any set of accounting standards, an exemption from following the generally accepted accounting principles must be allowed by the accounting standard setter. PSAS contains no exemption to allow entities to record rate regulated deferral accounts.

Application of the Exemption by IESO to not follow GAAP

In its White Paper supporting the adoption of ASC 980, IESO noted that:

"PSAS does not address accounting concepts in a rate regulated environment. Since there is no guidance in PSAS regarding the recognition and measurement of regulatory assets and liabilities, IESO may consult other sources based upon the direction of PSAS 1150.05 in the GAAP hierarchy to determine appropriate accounting policies in a rate regulated environment."

IESO's White Paper outlines that the PSA Handbook does not explicitly state that the recording of deferral accounts is inappropriate. In response, we have analyzed the application of the GAAP Hierarchy by IESO.

PS 1150 *Generally Accepted Accounting Principles* – Application of the GAAP Hierarchy

The PSA Handbook outlines the following process for applying other sources of GAAP when PSAS does not explicitly address with the accounting and reporting of transactions or events encountered by the public sector reporting entity in PS 1150. Extracts from PS 1150 regarding other sources GAAP are presented below:

.05 *When the primary sources of GAAP do not deal with the accounting and reporting in financial statements of transactions or events encountered by the public sector reporting entity, or additional guidance is needed to apply a primary source to specific circumstances, the selection of an appropriate accounting policy requires the exercise of professional judgment. In these circumstances, a public sector reporting entity should adopt accounting policies and disclosures that are consistent with:*

(a) the primary sources of GAAP; and

(b) the application of the concepts described in FINANCIAL STATEMENT CONCEPTS, Section PS 1000. [APRIL 2005]

.08 *A public sector reporting entity consults sources other than primary sources of GAAP to assist in selecting accounting policies and disclosures only when these sources comply with paragraph PS 1150.05. The public sector reporting entity evaluates sources in selecting the appropriate accounting policies and disclosures based on all of the following criteria:*

(a) The specificity of the source — A source that deals with the specific circumstances is likely to be more relevant than one from which the public sector reporting entity must analogize.

(b) The authority of the issuer or author — A source issued by an accounting standard setter in its own jurisdiction is likely to be more relevant than a source issued by others in the same jurisdiction.

(c) The continued relevance of the source — The passage of time may diminish the relevance of certain sources.

(d) The development process for the source — A source developed after extensive consultation and debate is likely to be more relevant than a source developed without such discipline.

Other sources

.18 *Paragraphs PS 1150.19-.24 identify some of the other sources that a public sector reporting entity might consult to assist in selecting accounting policies and disclosures that comply with paragraph PS 1150.05.*

.19 *Pronouncements issued by other bodies authorized to issue accounting standards may be useful sources to consult. For example, accounting pronouncements published with the authority of the Canadian Accounting Standards Board (AcSB), International Accounting Standards Board (IASB), US Federal Accounting Standards Advisory Board (FASAB), US Governmental Accounting Standards Board (GASB), or International Public Sector Accounting Standards Board (IPSASB) are often important sources to consult on matters not covered by primary sources of GAAP or for assistance in applying a primary source of GAAP to specific circumstances.*

.20 *When a public sector reporting entity chooses to consult a source described in paragraph PS 1150.19, it applies professional judgment and evaluates the source in the context of the relative manner in which the standard setter requires its pronouncements to be applied, as well as in the context of the related pronouncement. When an accounting standard setter does not have a conceptual framework that is similar to the concepts referred to in paragraph PS 1150.05(b), the public sector reporting entity needs to ensure that the selected source is consistent with those concepts.*

.21 *In exercising professional judgment, a public sector reporting entity might wish to consult exposure drafts and other documents approved by the Board for public comment when no primary source of GAAP applies to the particular situation. The requirements of any existing accounting pronouncement that would be affected by the proposals in draft material remain in force until the effective date of the superseding material. Since the proposals in draft material are subject to revision, public sector reporting entities need to consider the consequences of any changes that may be made to the proposals as they are finalized. A document at a more advanced stage of the consultation process supersedes earlier versions.*

.22 *CPA Canada research reports and studies may also be consulted to the extent that they comply with paragraph PS 1150.05. In addition, organizations other than the Board may issue guidance indicating how primary sources of GAAP may be applied in particular circumstances. Since the guidance in these sources has not received Board approval, the views of the Board may differ. Therefore, caution needs to be exercised in using these sources.*

.23 *Accounting textbooks, journals, studies and articles that take the Canadian public sector environment into account are consulted in preference to those that do not.*

.24 *Sometimes, a practice has been established that does not result from written material. The relevance of such a practice is demonstrated by its compliance with paragraph PS 1150.05 and not by its general use.*

FASB's ASC 980 is contained within US GAAP under the section of standards with industry specific guidance. The definitions of an asset in the PSAS and FASB Conceptual Frameworks are similar. Similar to PSAS, rate regulated deferral accounts do not generally meet the definition of an asset in FASB's Conceptual Framework.

As noted above, in order for IESO (an OGO following PSAS) to look to the principles of ASC 980 for guidance in developing an accounting policy to recognize deferral accounts, the fundamental principles underlying the recognition of such assets would have to be consistent with all PSAS primary sources of GAAP and with the PSAS Conceptual Framework outlined in PS 1000.

However, FASB's ASC 980-10-05-7 outlines that the provisions of ASC 980 can be followed for entities that meet the criteria to apply rate regulated accounting even if the accounting requirements under ASC 980 do not conform to GAAP (i.e. under US GAAP, rate regulated deferral accounts can be recorded even if they don't meet the definition of an asset). These entities' financial statements can still be said to be a fair presentation of financial position and results under US GAAP. However, PSAS specifically states that exceptions from GAAP are not permitted to be described as GAAP (see PS 1150.13).

This exemption from following GAAP when adopting the provisions under ASC 980 is crucial to the adoption of rate regulated accounting because, as noted above, rate regulated deferral accounts do not meet the definition of an asset under PSAS. PSAS does not contain the explicit exception that is included in ASC 980 that would be required to adopt the rate regulated accounting provisions outlined in ASC 980. Accordingly, as the specific guidance of FASB is not consistent with the general recognition criteria of assets in PSAS's Conceptual Framework, applying the guidance outlined in ASC 980 is not permitted.

IESO's White Paper does not outline the rationale for IESO adopting the ASC 980 GAAP exemption where there is no such exemption in the PSA Handbook. As the paper does not address the application of this exemption under US GAAP, we find it necessary to point out that the Board's approval to adopt rate regulated accounting in IESO's financial statements would include their approval to apply this GAAP exemption when recording rate regulated assets, even though no such exemption exists in PSAS.

As the rationale for applying the exemption in ASC980-10-05-7 by IESO was not outlined in IESO's White Paper, we inquired about this justification and were told the following. IESO could adopt the exemption to not follow GAAP based on industry practice that was in place under Part V of the CPA Canada Handbook – *Pre-changeover Accounting Standards.* Part V was the primary source of GAAP for public reporting entities in Canada just prior to the adoption of IFRS as GAAP in January 2010 for public reporting entities, including other government organizations, by the Accounting Standards Board (AcSB).

We were further told that in the past, rate regulated entities reporting under Part V typically applied the exemption under ASC 980 to depart from GAAP and recorded regulatory deferral accounts because, similar to PSAS, Part V did not address the accounting for rate regulated activities —and now IESO was following the same approach based on this past industry practice.

According to the GAAP hierarchy, PS 1150.24 states that when a practice has been established that does not result from written material (i.e. industry practice), the relevance of such a practice is demonstrated by its compliance with paragraph 1150.05 (i.e. the primary sources of GAAP and the PSAS Conceptual Framework outlined in PS 1000) and not by its general use. Applying the exemption under ASC 980-10-05-7 is not in compliance with the GAAP Hierarchy (PS 1150.05) as it is an exemption from following GAAP and the PSAS Conceptual Framework.

Upon further review of Part V, we note that, unlike PSAS that does not specifically address accounting for rate regulated deferrals, the Part V standards referred to rate regulation in the Generally Accepted Accounting Principles section, five other sections of the standards[1], and in an accounting guideline that specifically addressed disclosure requirements. It is useful to point out that Part V only allowed rate regulated accounting in certain circumstances. These were explicit exemptions from Part V's framework.

Part V is no longer a primary source of GAAP; therefore, so industry practice under Part V is no longer relevant. IESO currently reports its results under PSAS. It is not appropriate for IESO to apply the exemption to depart from GAAP under ASC 980 to adopt rate regulated accounting. In addition, IESO did not apply rate regulated accounting provisions when IESO previously reported under Part V, prior to transitioning to PSAS.

An argument has also been put forth that IESO is a singularly unique organization in that it has regulated activities and reports under PSAS. In September 2016, the staff of the Canadian Accounting Standards Board (AcSB) prepared a paper, that was included in Appendix B to IESO's White Paper, for discussion at AcSB's Accounting Standards Advisory Forum. In paragraph 19 of this paper, a chart was presented that noted that they had found approximately 7-8 rate regulated entities that report under PSAS. Through discussion with AcSB staff, we determined that the entities referred to in the paper were either Territory energy companies or municipal electric utilities. We examined the publicly available financial statements for these entities (some reported their results through municipal financial statements). We confirmed that none of the entities that are reporting under PSAS actually recognized any rate regulated deferral accounts on their financial statements. Based on our research, IESO is the first organization in Canada reporting under PSAS to determine that the adoption of rate regulated accounting under PSAS is appropriate.

[1] Part V standards referred to rate regulated enterprises in Section 1100 Generally Accepted Accounting Principles, 1300 Differential Reporting, 3061 Property, Plant and Equipment, 3465 Income Taxes, 3475 Disposal of Long-Lived Assets and Discontinued Operations, and 3862, 3863 Financial Instruments – Presentation and Disclosure.

Factors indicating that IFRS should be consulted prior to referring ASC 980 under PSAS's GAAP Hierarchy (PS 1150)

Some factors include:

- As an "other government organization", IESO has the option of adopting PSAS or IFRS for publicly reporting its financial results under the *Introduction to Public Sector Accounting Standards*, meaning that PSAB formally acknowledges that IFRS as an acceptable reporting framework for certain public sector entities;
- IFRS has been adopted with the authority of the Canadian Accounting Standards Board (AcSB) in the CPA Handbook (a source of GAAP specifically mentioned in PS 1150.19); FASB is not specifically referred to in the GAAP Hierarchy);
- Similar to PSAS, IFRS has been adopted by an accounting standard setter in Canada as opposed to FASB that has been issued by an accounting standard setter in the United States (other sources of GAAP under the GAAP hierarchy are more relevant when they are issued in the same jurisdiction, i.e. Canada);
- IASB follows a similar process for developing and issuing new standards as PSAB (i.e. engaging stakeholders in extensive consultation and debate (as outlined in PS1150.08 (d)); and
- IASB has specifically addressed the question as to whether the provisions of ASC 980 could be applied by an entity that reports their financial results under IFRS using the IFRS GAAP Hierarchy standards which are outlined in International Accounting Standard 8, *IAS 8 – Accounting Policies, Changes in Accounting Estimates and Errors.*

IASB has specifically addressed whether an entity that is reporting under IFRS could apply the rate regulated accounting provisions of SFAS 71 (currently ASC 980) under the IFRS GAAP hierarchy. In June 2005, the IFRS Interpretations Committee (IFRIC) was posed with the question of whether an entity applying IFRS could apply SFAS 71 to apply US GAAP rate regulated accounting by way of applying its GAAP hierarchy outlined under IAS 8 (note: IFRS contains "GAAP hierarchy" requirements under IAS 8.10-12 consistent with those in PS 1150 outlined above). The IFRIC determined that the recognition and measurement criteria between IFRS and SFAS 71 were not consistent. Therefore, the Committee decided that entities applying IFRS could not apply SFAS 71, and rather could only recognize assets and liabilities to the extent they met IFRS recognition requirements.

PSAS and IFRS have consistent definitions for the various financial statement concepts within their conceptual frameworks. As noted above under PS 1150.05 (b), a public sector reporting entity should adopt accounting policies and disclosures that are consistent with the application of the concepts described in PS 1000, Financial Statement Concepts,.

Under the IFRS Conceptual Framework for Financial Reporting assets are resources controlled by the entity as a result of past events from which future economic benefits are expected to flow to the entity. Assets are recognized when it is probable that the future economic benefits will flow to the entity and that the asset has a cost or value that can be measured reliably.

Under PSAS Financial Statement Concepts (PS 1000.36), assets embody future economic benefits, controlled by an entity, as a result of past transactions or events. PS 1000.55 sets out the general recognition criteria as requiring a reasonable estimate of the amount involved and for it to be expected that future benefits will be obtained.

Regulatory deferral accounts do not meet the general definitions and recognition criteria under either PSAS or IFRS. The two reporting frameworks have consistent general definitions and recognition criteria for regulatory deferral accounts. It is therefore reasonable to conclude that, similar to the determination by IFRIC concerning the establishment of regulatory deferral accounts under IFRS based on ASC 980, an entity applying PSAS would not be permitted to apply rate regulated accounting in the absence of a standard specifically allowing for this accounting treatment.

Further to the IFRIC discussion in 2005, in January of 2008, the question of rate regulated accounting was again posed to IFRIC. IFRIC noted that the topic had been previously addressed and that there was a well-established practice of first time IFRS adopters ceasing rate regulated accounting and removing regulatory deferral accounts from their financial statements. This supported the conclusion that rate regulated accounting could not be applied under the existing IFRS standards. However, at that time, the IFRIC did note that the use of rate regulated accounting is widespread in jurisdictions not applying IFRS. The IASB therefore undertook a project to determine whether to establish a standard which would specifically provide criteria to allow recognition of regulatory deferral accounts, otherwise not recognizable under IFRS.

Since the establishment of the IASB's project to discuss the appropriateness of recognizing regulatory deferral accounts under IFRS, an interim standard, IFRS 14, was issued to address rate regulated accounting for first time adopters of IFRS. IFRS 14 does not actually contain recognition or measurement guidance for regulatory deferral accounts. Instead, it is a provisional standard, which only instructs first time adopters to continue following their previous accounting policies for recognition and measurement of regulatory deferral accounts. IFRS 14 did not change the conceptual framework of IFRS to generally allow for the recording of regulatory deferral accounts that would make the IFRIC discussions in 2005 and 2008 on the topic less relevant per PS1150.08 (b). IFRS 14 is an interim standard, in placewhile the IASB's project on rate regulated activities progresses, provided to allow first time adopters of IFRS a narrow exemption to other IFRS recognition criteria to encourage such entities to adopt IFRS without need to eliminate past practice, .

In the basis for conclusions on IFRS 14, IFRS 14.BC30 noted that the differences in the recognition criteria between IFRS and ASC 980 resulted in almost all existing regulatory deferral accounts being de-recognized upon transition to IFRS. IFRS 14 allowed a "grandfathering" of an entity's previous GAAP policies for first time adopters of IFRS, but did not indicate that such accounts meet the IFRS asset recognition criteria. The IASB's project on rate regulated activities is currently at a preliminary discussion paper stage and it is unclear at this point what the eventual outcome will be. IFRS 14 was issued in April 2014 with an effective date of fiscal periods beginning on or after January 1, 2016 with earlier adoption permitted. The introduction to Part I of the CPA Handbook Accounting required publicly accountable

entities subject to rate regulation and following AcG-19 under Part V to transition to IFRS by annual periods beginning on or after January 1, 2015.

An entity, such as IESO, whose previous GAAP did not allow the recognition of rate-regulated assets and liabilities, or that had not adopted a rate regulated asset policy under its previous GAAP, would not be allowed to recognize them on first time application of IFRS. This essentially means that since IESO had not previously recognized regulatory deferral accounts under PSAS, it would also not be able to recognize them upon adoption of IFRS, even if it now chooses to adopt IFRS as its financial reporting framework as permitted under the *Introduction to Public Sector Accounting Standards*.

Evidence that PSAS Addresses Deferrals

More recently, PSAB has addressed deferrals in a more general sense as part of their project on *Concepts Underlying Financial Performance* in 2015. This project, which is currently still in progress, sought input from stakeholders regarding potential changes to the conceptual framework of PSAS. In Consultation Paper 2 and Consultation Paper 3 of this project, PSAB's Conceptual Framework Task Force asked whether stakeholders supported a revenue and expense view which was deferral based, as opposed to the asset and liability based framework currently used in PSAS. The question around a deferral based approach addressed whether it was appropriate to reflect revenues and expenses in periods "to which they relate" through use of deferral accounts rather than recognizing assets and liabilities only when the current definition of an asset or liability is met. The fact the Conceptual Framework Task Force presented this "deferral" model as a deviation from the current PSAS reporting model which demonstrates that it is the Task Force's view that under the current reporting model assets and liabilities should only be recognized when the definition and recognition criteria of an asset and liability are met. In other words, the current model does not contemplate the creation of deferral accounts to smooth results over time.

Ontario Fair Hydro Plan

IESO's White paper indicated that "the recognition of regulatory assets would better reflect the economic substance of IESO's operations and enhance the transparency and accountability of its financial reporting." Per our discussions with you on June 14, 2017, you noted that the proposed *Ontario Fair Hydro Plan Act, 2017* (the "Act") was also a catalyst for the decision to investigate the adoption of rate regulated accounting by IESO. We understand that the Board and its Audit Committee analyzed the decision to adopt rate regulated accounting on its own merits for IESO relating to the Smart Meter database costs as of December 31, 2016. However, we would like to present the following additional information to the Board regarding the legislated deferral account that is being considered under the Act.

The accounting provisions under FASB's ASC 980 do not apply to the "deferral" that is being contemplated under the Act.

FASB's Paragraph 980-10-15-7 (a) specifically outlines transactions that are not within the scope of ASC 980:

"15-7 The guidance in the Regulated Operations Topic does not apply to any of the following transactions:

> a) Accounting for price controls that are imposed by governmental action in times of emergency, high inflation, or other unusual conditions, or accounting for contracts in general. However, if the terms of a contract between an entity and its customer are subject to regulation and the criteria of paragraph 980-10-15-2: are met with respect to that contract, the guidance in this Topic shall apply."

As noted in the 2017 budget speech, the *2017 Ontario Budget – A Stronger, Healthier Ontario*, and in other public speeches by the government introducing the Ontario Fair Hydro Plan, the government is proposing to institute government price controls (25% reduction for a 4-year period) due to rapidly increasing hydro rates. As noted above, ASC 980 does not apply to accounting for transactions that arise as a result of price controls imposed by government.

Based on our review of the financial transactions proposed under the Act, the Act will legislate a regulatory deferral account to help smooth the high costs of contracts included in the Global Adjustment Account for the purchase of power generated (including contracts for wind, solar, and natural gas generated power) from third-party power generators by IESO on behalf of ratepayers. The terms and conditions within these contracts being considered for cost smoothing were established through negotiations with the third-party power generators and were not subject to rate regulation by the Ontario Energy Board (OEB). As noted above, ASC 980 does not apply to accounting for contracts whose terms and conditions were not subject to rate regulation.

In addition, the accounting provisions outlined in ASC paragraph 980-10-15-2 apply in general to the operations and activities of power generators themselves and not the activities of an organization, such as IESO, who is purchasing the power on behalf of ratepayers.

It has been presented that the Act will facilitate the establishment of an irrevocable right to collect money from future ratepayers once the OEB deliberates on the appropriateness of costs to be deferred and the right has been sold to the financing entity outlined in the Act (proposed to be an OPG administered trust). However, in the absence of being able to set up this right to collect money as a rate regulated deferral account, this right would be classified as an intangible asset under PSAS. Intangible assets cannot be recognized as assets according to PS 1000.58.

As a result of not being able to record the legislated deferral account, the portion of the payments to the generators for which LDCs are collecting 25% less from ratepayers would be charged to the

operating expenses of IESO. This cash shortfall/expense would have to be funded to make IESO's financial result whole. Under the legislated accounting under the Act, this shortfall would be made up by the sale of the legislated right to recover the shortfall from OPG Trust. This treatment would create a gain in IESO's income statement representing the amounts received from OPG Trust for a right that has no book value recorded in IESO's financial statements. This gain would offset the payment shortfall/ expense. However, from the Province's Consolidated Financial Statements perspective, this gain would be eliminated because it was generated as a result of a transaction with another government-controlled entity within the government reporting entity. PS 2500 – *Basic Principles of Consolidation* paragraph PS 2500.15 states, "Inter-governmental unit gains and losses arising on the sale or transfer of assets and liabilities remaining within the government reporting entity should be eliminated." This would also be the case if IESO was a government business enterprise. PS 3070 - *Investments in Government Enterprises* paragraph .30 states, "Inter-organizational gains and losses are, however, eliminated on assets remaining within the government reporting entity at the financial statement date."

Further in substance, the legislated transaction would be more akin to a financing transaction than an asset sale. In this case, instead of recording a gain on the sale of the legislated right to recovery, IESO would record a due to OPG Trust liability account to offset the cash shortfall. Under the Fair Hydro Plan, the legislated transaction would lead to the liability and expense impact of the 25% cash shortfall to be reflected in the Province's Consolidated Financial Statements.

As such, the adoption of rate regulated accounting by IESO would not facilitate the structured accounting treatment proposed in the Ontario Fair Hydro Plan to record the effects of the 25% hydro rate reduction without affecting the net debt of the Province.

Market Account Transactions

IESO has introduced market accounts into its December 31, 2016 financial statements. Per note 2 e) to these financial statements:

> *"The IESO records the market accounts assets, liabilities and amounts due to and from market participants held on behalf of the IESO-administered markets in its statements of financial position. The IESO-administered markets is a balancing system, and as such, the net position of market accounts will settle to a $nil balance in accordance with market rules."*

Note 3 to these financial statements:

> *"In addition, as of January 1, 2016, the IESO changed its accounting policy regarding the recognition of market accounts assets and liabilities on the statement of financial position...*
>
> *There is no impact on the accumulated deficit or revenues and expenses as IESO is not party to these transactions as per the market rules."*

In form, these accounts are a representation of the flow of funds between the ratepayers via the distributors and the power generators. The basis for including the market accounts on these financial statements for the first time is unclear from reading the memorandum to the IESO Board dated March 13, 2017 regarding the change in accounting policy. Previous analysis by PricewaterhouseCoopers in 2003 and IESO management in 2015 concluded that the financial statements should not include the financial transactions of market participants with the IESO-administered markets. This was because the market accounts did not meet the definition of assets and liabilities under PSAS in relation to IESO. The Board should ensure that individual balances that are included as assets and liabilities in the market accounts meet the definition of assets and liabilities under PS1000.35-.37 and PS 1000.44-.45 respectively if there are to be included on IESO's financial statements.

In addition to the status quo (i.e. not including market accounts), there are three scenarios that should be considered in regards to these market accounts on IESO's financial statements:

1. IESO is acting as trustee over the distribution of the funds from the distributors to the generators
2. IESO is acting as a cash conduit or a flow-through vehicle regarding the distribution of funds from the distributors to the generators
3. IESO is responsible for the amounts and they should treated as revenues and operating expenses

We consider the accounting implications of these alternatives below.

1. IESO acting as a trustee

If these amounts have been considered to be a trust per the Market Rules, PS 1300 - *Government Reporting Entity* notes that trusts that are administered by a government or government organization are excluded from the government reporting entity and the assets and activities of the trust are excluded from the government's reporting entity.

Extract PS 1300 – Government Reporting Entity

TRUSTS UNDER ADMINISTRATION

.40 *Trusts administered by a government or government organization should be excluded from the government reporting entity.* [JUNE 1996]

.41 Trusts are defined as property that has been conveyed or assigned to a trustee to be administered as directed by agreement or statute. In a trust relationship, the trustee holds title to property for the benefit of, and stands in a fiduciary relationship to, the beneficiary.

.42 To meet the definition in paragraph PS 1300.41, the property conveyed or assigned to the government or government organization acting as a trustee, must be provided to fulfill a particular objective of the donor of the property conveyed or assigned. The government or government organization would merely administer the terms and conditions embodied in the agreement and has no unilateral authority to change the conditions set out in the trust indenture. For this reason, the assets and activities of the trust are excluded from the government's reporting entity.

.44 *Government financial statements should disclose, in a note or schedule, a description of trusts under administration by a government or government organization, and a summary of trust balances. [JUNE 1996]*

However, in order for IESO to meet the definition of a trustee, it can only administer the property conveyed or assigned in accordance with the terms and conditions embodied in the agreement. The agreement would reflect the particular objective of the donor. In this case, the donor would be the local distribution companies. And the beneficiary would be the power generators. IESO would not have any unilateral authority to change the conditions set out in the trust indenture.

From this perspective, there is no trust indenture from the donor, i.e., the local distribution companies directing how the funds would be used for the benefit of the power generators.

Further, IESO manages the contracts of the power generators and is not merely an administrator. As noted in note 1 a) of its 2016 financial statements (selected excerpt):

> *"The objects of the IESO as contained in the Electricity Act, 1998, and Ontario Regulation 288/14 are as follows:*
> - *to engage in activities related to contracting for the procurement of electricity supply, electricity capacity and conservation resources"*

2. IESO acting as a flow-through vehicle

If these amounts are considered to be a flow-through arrangement per the Market Rules, both PS 3410, *Government Transfers* and PS 3510, *Tax Revenue* note that flow-through amounts should not be shown as revenue and expense (balance sheet only). It would appear that given the accounting policy change in 2016, and note 3 to the financial statements, IESO considers these market accounts as reflecting a flow-through arrangement. In accordance with the PSA Handbook, a flow-through arrangement does not affect the net assets of an organization.

Extract PS 3410 - Government Transfers

.06 Government transfers do not include:

(a) taxes or other money collected by one government on behalf of another government or organization, including local government requisitions; and

(b) flow-through arrangements where a government (read government organization) agrees to act merely as an intermediary to administer funds on behalf of another party and has no decisions regarding the use of the money.

Taxes or other money collected by one government on behalf of another and subsequently disbursed to that other government are not government transfers. Similarly when funds are received as a result of an administrative flow-through arrangement in which a recipient government serves only as a cash conduit (i.e., it has no direct financial involvement in the program or decision making capability in relation to the program) the receipt and disbursement of cash would not be recognized as transfers in that recipient's financial statements.

Extract PS 3510, Tax Revenue

.12 A government may impose a tax on behalf of another government or other public sector entity (for example, a school board or transits that is outside the reporting entity) pursuant to an existing agreement or legislation in place at the financial statement date that is purely a flow-through arrangement. Such a flow-through arrangement might arise as a result of a community charter that requires the province to exercise its taxing authority to impose a tax on behalf of a municipality when deemed appropriate by the municipality. Evidence that such a flow-through arrangement exists would require:

(a) details in the terms of the agreement or relevant legislation mandating that the proceeds of the tax be passed directly from the government imposing the tax on behalf of others to the other government or public sector entity named in the agreement or legislation; and

(b) that the government imposing the tax on behalf of others act merely as an intermediary to impose the tax on behalf of another government or public sector entity and have no existing ability to make decisions regarding the use of the funds or unilaterally cease the flow-through.

In such flow-through arrangements, the government imposing the tax on behalf of others would not recognize tax revenue in accordance with paragraph PS 3510.08. A government may impose a tax on behalf of another government or public sector entity without also collecting that tax on behalf of the other government or entity.

.14 Amounts collected as an agent of the government or other third parties will not give rise to an increase in net assets or revenue of the agent.

In accordance with the PSA Handbook, assets and liabilities can be reported on the statement of financial position without recording revenues and expenses provided the amounts meet the test of being a flow-through arrangement.

In a flow-through arrangement, IESO has no direct involvement in the program or decision making capability in relation to the program. IESO is responsible for procuring supply, capacity and conservation measures as noted above.

3. IESO is responsible for amounts included the Market Accounts

If IESO was responsible for transactions included in the Market Accounts, these transactions would have to run through IESO's statement of operations.

Use of Market Accounts to Record the Transactions proposed by the Ontario Fair Hydro Plan

Regardless of whether the Board and management conclude that IESO can continue to apply a FASB exemption to not follow GAAP and adopt the provisions of ASC 980 in financial statements prepared in accordance with PSAS after considering the information that we have presented above, it would be inappropriate to record rate regulated deferral balances in the market accounts. By definition as flow through amounts, IESO is not party to the transactions within the market accounts. IESO is a conduit/agent for the settlement of the market transactions. The activities reflected in the market accounts are not rate regulated activities of the IESO; as such, they would not be subject to the provisions of ASC 980 within IESO's financial statements.

In the absence of rate regulated accounting, the right to recover balances subject to rate regulation would be considered an intangible asset and would be expressly prohibited from being recorded as an asset by the IESO under PS 1000.58. These balances would otherwise be reported as revenues or

expenses without rate regulated accounting on IESO's financial statements. In this case if rate regulated balances are being accounted for as flow through arrangements, they would have to be recorded on IESO's statement of operations and therefore not be permitted to be recorded within the market accounts.

Market accounts should always be in balance (assets must equal liabilities). In our view, the market accounts were recorded in the December 31, 2016 statements, in part, to put in place a mechanism to enable the recording of the regulatory deferral account proposed as part of the Ontario Fair Hydro Plan within the market accounts. This would be needed to record the IESO cash shortfall resulting from the 25% reduction of collection from the LDCs as a regulatory deferral account to balance the market accounts. If this accounting was permitted, this amount would not appear on IESO's operational portion of their financial statements. Since rate regulated accounting is not appropriate for the legislated deferral account proposed by the Ontario Fair Hydro Plan, this accounting through the market accounts would not be permitted as the assets and liabilities would be out of balance.

Market accounts HBN - August 23 2017 v1.pdf

Hi Kim – Attached is a house book note for the market accounts – there is one question for you in there re: describing IESO's role with the LDCs (I took the description for the role with the generators from KPMG's memo, but didn't see a similar one for LDCs).

Also – Bharat is going to reach out to Susan or yourself re: why the amounts owed to the generators in 2014 in the OPA f/s (less than $500M) are so much lower than the balances at the end of March 2017 ($1.6 billion) – are we comparing apples to oranges?

Thanks,

Market accounts HBN - August 23 2017 v1_1.pdf

Confidential **Drafted: August 23, 2017**

FAIR HYDRO PLAN ACCOUNTING (GLOBAL ADJUSTMENT REFINANCING)

ISSUE: Why did the Auditor General qualify her opinion on the 2016-17 consolidated financial statements for including the market accounts of IESO in the consolidated financial statements?

CONTEXT: The Auditor General included the following qualification in her opinion on the 2016-17 consolidated financial statements:

> As described in Note 16c to these consolidated financial statements, the IESO changed its accounting policy and applied it retroactively to recognize market account assets and liabilities. The market accounts track mainly buy and sell transactions between market participants (electricity power generators and power distributors). These market accounts, as recorded on the Province of Ontario's consolidated financial statements are not assets and liabilities of the Province of Ontario. The Government has no access or discretion to use the market account assets for their own benefit, nor does the Government have an obligation to settle the market account liabilities in the event of default by market participants. As a result, Other Assets and Other Liabilities are both overstated by $1.652 billion (2016- $1.443 billion). There is no effect on the Consolidated Statement of Operations.

KEY MESSAGES:

- IESO financial statements are prepared in accordance with Public Sector Accounting Standards (PSAS) and audited by a public accounting firm. IESO received an unqualified audit opinion on their December 31, 2016 financial statements that included the market accounts.
- IESO revisited its accounting for the market accounts in 2016 to determine what accounting policy was more transparent to the users of the financial statements.

- In completing its research, IESO analyzed the accounting used by the other independent system operators in North America, of which one is in Alberta and the balance (7) are in the United States. Seven of eight of these entities (excluding IESO) recognize the assets and liabilities of the market participants on a gross basis (i.e. they recognize their market accounts in their financial statements as IESO now does.) While none of these other entities prepare their financial statements in accordance with PSAS, the definitions of an asset and liability are very similar between PSAS and the accounting frameworks used by the North American ISOs (US GAAP and GASB).

- 2016 is not the first year that amounts due to power generators have been included in the financial statements.

    - IESO is the amalgamation of the former IESO and the Ontario Power Authority (OPA).

    - OPA, when it was a standalone entity, prepared its financial statements in accordance with Public Sector Accounting Standards, and recognized on its financial statements, the amounts due to the power generators and the amounts due from the IESO. These financial statements were audited by a public accounting firm, and an unqualified opinion was issued. The inclusion of the amounts due to the power generators was not raised as a concern by the current auditor general in 2013-14 or 2014-15 or by previous auditors general in the years since the OPA was established in fiscal 2004-2005.

    - OPA and IESO were amalgamated during 2015-16 and 2015-16 was the only year that balances related to a portion of the market accounts were not included in the province's consolidated financial statements.

- IESO is the contractual counterparty to the legal agreements with market participants – both power generators and local distribution companies. IESO has the responsibility for procuring supply, capacity and conservation measures, all of

which are managed through the contracting with the generators. While IESO does not take ownership or control of the power generated prior to delivery to the ultimate consumers, it is nonetheless a party to the contracts, with an obligation to settle the market by paying the power generators and collecting from the local distribution entities, supporting recognition of the assets and liabilities.

Hi Lee Anne.

Just sending a note to confirm if we've landed classification as a financial asset for the FHP assets of IESO? The highlighted sections below seem to represent the nature of the balances. Your thoughts?

Thanks.

Nadine

PSAS 1000 identifies two types of assets: financial assets and non-financial assets and provides the following commentary:

.39 Financial assets are assets that could be used to discharge existing liabilities or finance future operations and are not for consumption in the normal course of operations.

.40 A financial asset is any asset that is:

a) Cash

b) a realizable asset that is convertible to cash;

c) a contractual right to receive cash or another financial asset from another party;

d) a contractual right to exchange financial instruments with another party under conditions that are potentially favourable to the government;

e) an equity instrument of another entity;

f) an investment in a government business enterprise or government business partnership;

g) a financial claim on an outside organization or individual; or

h) an inventory or item for sale that meets the criteria in FINANCIAL STATEMENT PRESENTATION, paragraph PS 1201.055.

Hi all,

Are there any other draft agreements that are available for review by the Province that would provide more precision respecting the context in which this provincial support is to operate. For example, the Master Sales and Servicing Agreement? Torys' comment mentions the "MTSA" – which agreement is this? Is there a draft trust indenture? Torys also asks about what is meant by the "Approval Requirement" and it is difficult to answer these questions without having a fuller picture of the various agreements.

Thank you.

Scott:

Further to our discussion on the outstanding issues, please find below the comments from the Dealers on the "Markup" of the Provincial Protection and Assurance term sheet.

As noted below, the next step should be to get the appropriate parties from the Province to sit down with the dealers and OPG to go over the points and agree on a basis to move forward.

We should try to do that sometime next week. Let us know what times work on the Province side and we will coordinate with the Dealers & counsels.

John/Les/Ken,

Please find below an issues list on the Province's comments on the Provincial Protection and Assurances Term Sheet (formerly the Provincial Support Agreement). This list reflects input from the dealers, Oslers and Torys. Please let us know if you have any additional comments or questions. If not, will you be reaching out to the Province to schedule a meeting next week (with the dealers, OPG, the Province and their counsels) to discuss these points? The dealers and their counsel don't see value in exchanging further drafts of the term sheet until they have had an opportunity to meet with the Province. We agree with this approach and are happy to assist in coordinating a meeting for next week. It would also be helpful to hear the Province's rationale and concerns for making some of these changes. Please let us know.

Many thanks,

Nina

1. The Servicing Guarantee:

(a) It is written in favour of only the financing entity. However, in the MTSA, we are asking for covenants directly in favour of Indenture Trustee. The Indenture Trustee/specified creditors should have the direct benefit of the guarantee rather than relying on an indirect security interest in the servicing guarantee.

(b) It should be clarified that the servicing obligations of the electricity vendors are covered.

(c) If the guarantee is unenforceable, we should fall back to an indemnity, not a “functionally equivalent direct covenant” which is an uncertain concept.

(d) We don’t want an exclusion for economic loss. That may cover whatever losses the specified creditors do suffer.

2. Change of Law.

(a) This should be written as a guarantee not an indemnity.

(b) It should be directly in favour of the Indenture Trustee/specified creditors and it should cover all the “finance amount” and not just funding obligations.

(c) We do not want the guarantee to be provided by another entity which is in turn guaranteed by Ontario. It should come directly from Ontario.

(d) There should be no “materiality” threshold for a claim. If obligations are not paid in full, then there should be a claim.

(e) The choice to assume or accelerate should be at the option of the holders, not the guarantor.

(f) If accelerated, then the 1% premium should be payable. This is a voluntary termination by the Province.

3. Undertaking Regarding Mismatches (market disruption)

(a) At best this structure defers the discussion of protection for a market disruption. At worst, it is impractical that take-out financing needs to be arranged in advance of each warehouse financing. We should rely on a definition of market disruption.

4. Approvals.

(a) Province to clarify what is contemplated under the heading “Approval Requirement”. Is Province proposing to approve any obligation incurred by the Financing Entity?

(b) Approval under Section 28 of the *Financial Administration Act* to be attained (in case the OFHPA is declared void in its entirety).

Subject: EXTERNAL – Comments on Provincial Protection and Assurances Term Sheet - Fair Hydro

*** Exercise caution. This is an EXTERNAL email. DO NOT open attachments or click links from unknown senders or unexpected email. ***

John/Les/Ken,

Please find below an issues list on the Province’s comments on the Provincial Protection and Assurances Term Sheet (formerly the Provincial Support Agreement). This list reflects input from the dealers, Oslers and Torys. Please let us know if you have any additional comments or questions. If not, will you be reaching out to the Province to schedule a meeting next week (with the dealers, OPG, the Province and their counsels) to discuss these points? The dealers and their counsel don’t see value in exchanging further drafts of the term sheet until they have had an opportunity to meet

with the Province. We agree with this approach and are happy to assist in coordinating a meeting for next week. It would also be helpful to hear the Province's rationale and concerns for making some of these changes. Please let us know.

Many thanks,

Nina

1. The Servicing Guarantee:

(a) It is written in favour of only the financing entity. However, in the MTSA, we are asking for covenants directly in favour of Indenture Trustee. The Indenture Trustee/specified creditors should have the direct benefit of the guarantee rather than relying on an indirect security interest in the servicing guarantee.

(b) It should be clarified that the servicing obligations of the electricity vendors are covered.

(c) If the guarantee is unenforceable, we should fall back to an indemnity, not a "functionally equivalent direct covenant" which is an uncertain concept.

(d) We don't want an exclusion for economic loss. That may cover whatever losses the specified creditors do suffer.

2. Change of Law.

(a) This should be written as a guarantee not an indemnity.

(b) It should be directly in favour of the Indenture Trustee/specified creditors and it should cover all the "finance amount" and not just funding obligations.

(c) We do not want the guarantee to be provided by another entity which is in turn guaranteed by Ontario. It should come directly from Ontario.

(d) There should be no "materiality" threshold for a claim. If obligations are not paid in full, then there should be a claim.

(e) The choice to assume or accelerate should be at the option of the holders, not the guarantor.

(f) If accelerated, then the 1% premium should be payable. This is a voluntary termination by the Province.

3. Undertaking Regarding Mismatches (market disruption)

(a) At best this structure defers the discussion of protection for a market disruption. At worst, it is impractical that take-out financing needs to be arranged in advance of each warehouse financing. We should rely on a definition of market disruption.

4. Approvals.

(a) Province to clarify what is contemplated under the heading “Approval Requirement”. Is Province proposing to approve any obligation incurred by the Financing Entity?

(b) Approval under Section 28 of the *Financial Administration Act* to be attained (in case the OFHPA is declared void in its entirety).

Hi Everyone,

Following up on our Thursday discussion I'd like to set up a call with OPG this week – could 10am on Wednesday work? Should anyone from TD be included in this discussion as well?

Thanks,

Kaitlin

Good suggestion from Gadi – we should probably touch base internally in advance of meeting with OPG. I wonder if we could try for a quick 30 min phone call either tomorrow or Friday.

I will reach out to OPG to set something up for next week.

Hi,

Please see the following comments from OPG / Torys on the guarantees.

I wonder if we are now at a point we should suggest sitting down with OPG on this perhaps early next week.

Thanks,

Scott

Scott:

Further to our discussion on the outstanding issues, please find below the comments from the Dealers on the “Markup” of the Provincial Protection and Assurance term sheet.

As noted below, the next step should be to get the appropriate parties from the Province to sit down with the dealers and OPG to go over the points and agree on a basis to move forward.

We should try to do that sometime next week. Let us know what times work on the Province side and we will coordinate with the Dealers & counsels.

Subject: RE: EXTERNAL – Delivery of Reference Documentation to Province

Thanks for the update, Malle.

I'm not sure how this materiality discussion will relate to the Province commenting on the OM. The base form of the OM was not envisioned as of December 20th, and so it is unclear to me that the material effect discussion is relevant for that purpose.

I have been expecting that the Province would be quite involved in the production of the OM, and not just for information purposes.

To illustrate the sorts of items I would anticipate being relevant to the Province in reviewing the OM, I attach a partial mark-up of the Nov 17th OM (the only one we ever saw) to show how (among other things) the narratives included at that time were not aligned with the legislation. The partial mark-up is a comparison to the version circulated by Alena that included James Rehob's comments. Also, as you know, the Change of Law terms were substantially settled after November 17th, and so those portions of the OM will also be quite different.

Generally, the sorts of things I think the Province may be concerned about in reviewing the OM will include:

(a) ensuring that the description of the Protection Agreement is accurate and does not overstate the Province's obligations,

(b) ensuring that the limitations contemplated in s. 40 of OFHPA and s.19 of the General Regulation have been observed,

(c) eliminating any implied/moral undertakings by the Province to bondholders,

(d) scrutinizing any "risk factors", particularly as they might relate to the context in which Protection Events may arise,

(e) confirming any disclosures regarding the Province's (Ministers') roles, including in setting the "fair allocation amount", accepting the "Financing Plan" provided to the Minister of Energy, etc.,

(f) ensuring that any description of the Crown, Crown immunity, the OFHPA, the regulations made under it, the OIC, the authority of the LGIC, the provisions of the Electricity Act and related regulations and processes, the Financing Plan, the electricity market regulatory infrastructure and other relevant legal principles and contexts are all properly and accurately described (recognizing the risk that any statement may be attributed to the Province based on its close proximity to the program, and could become consequential in any future legal process that seeks to interpret the statute),

(g) scrutinizing disclosures that could later become evidence in any legal proceeding that would challenge the validity of the OFHPA and related laws,

(h) confirming any “electricity market” disclosures that could impact on underlying considerations, such as the potential for and impact of off-grid migration and by-pass risks, and

(i) the propriety of disclosures regarding matters that could impact on the pricing or rating of the issued bonds.

(This list was previously included in my November 22nd due diligence note to the Province's lawyer team.)

In addition, the Province will need to confirm how James Rehob's earlier comments have been reflected in the OM.

Given all this and the offering timing described by Torys, I think it makes sense to insist on getting the OM now and confirming with OPG that the Province will be taking a careful look at the document, which will take some time (at least 5 business days), and so that could impact the overall timing.

I will be tied up from 930 to 1030, but then free until 1145.

Regards, Steve

Subject: FW: EXTERNAL – Delivery of Reference Documentation to Province

As you know prior to the warehouse closing we were sent informally drafts of the reference documents as they developed. Since Dec 20th we have received no further drafts of these documents. I don't understand whether it is OPG's plan that they send final transactions documents today (10 days before) and then the Province has the right to object based on the parameters of "material effect" as defined in the Process Agreement. A draft of the investor presentation was circulated to the Province and some comments were being collected yesterday by Energy and the OFA.

"“Material Effect” means a material adverse effect on the obligations or the rights of the Province under the Limited Guarantee, the Change of Law Protection Agreement or this Agreement that relates to, and in each case, differs in any material respect from the terms or conditions applicable to any other Transaction Document that forms part of the Reference Documentation at the relevant time, the following: (i) the timing of or circumstances under which related payments would or may become due or accrue (including as a result of any default, acceleration, termination, wind-up, liquidation or realization) that, in each case, is inconsistent with the Fair Allocation Amount; (ii) the appointment, obligations or duties of OPG as the

Manager; (iii) the existence, powers or authority of the Financing Entity or the Financing Entity Trustee; (iv) the obligations of the Indenture Trustee to or in respect of the Province as a Specified Creditor; (v) the payment provisions and associated priorities set forth in the Trust Indenture; (vi) compliance by the FSM with the then applicable Financing Plan; (vii) compliance by the FSM or the Financing Entity with the Act or the General Regulation; or (viii) the Province's rights of subrogation or assignment (including pursuant to Sections 1.05, 2.01 or 5.01 of the Change of Law Protection Agreement) or its interests as a subrogee or an assignee, that would arise as a result of performing the Limited Guarantee in respect of the applicable Primary Obligation."

Thanks,

Malle

Subject: RE: EXTERNAL – Delivery of Reference Documentation to Province

Hi Malle, Alena and Toby, Happy New Year to all of you. John forwarded the email below and attached

and asked that I connect with you and provide an update. I have included the business folks on this email to make sure we are all on the same page. As John notes below, we had been working towards being in a position to commence marketing for the term deal on January 15th but if marketing is pushed to January 22 or later, then a waiver of the 10 business day requirement should not be necessary. I will let our respective clients advise us on that point and we can come back to the logistics/process for obtaining a waiver should we need one.

We are planning on delivering the following additional reference documentation to the Province tomorrow:

(1) Supplemental Indenture for the Series 2018-1 Term Notes

(2) Supplemental Indenture for the Series 2018-1 Subordinated Term Notes

(3) Supplemental Indenture for the Series 2018-1 Junior Subordinated Term Notes

(4) Agency Agreement

(5) Offering Memorandum (including the investor presentation attached as an exhibit to the OM)

(6) Term Sheet supplementing the Offering Memorandum

As you may recall, under the change of law process agreement, all deliveries are required to be made by mail, fax or delivered by hand to each of the Ministers and Deputy Ministers of the MOF and the MOE. To comply with the agreement, we plan on hand delivering the above documents to each of the Ministers and Deputy Ministers tomorrow. We can also email all of these documents to all of you and anyone else you would like us to send these to (in addition to Scott Thompson, Gadi Mayman, Anna Strathy, David McLean, Jonathan Tekle, Mike Manning and Ken Kandeepan -- as requested in Ken's email below). I believe that earlier drafts of all of the term supplemental indentures and the agency agreement were previously circulated to you -- for ease of reference, please let us know if it would be helpful for us to include blacklines to the last versions we sent to you in the email.

Let us know if you agree with the above approach, and feel free to reach out if you have any questions or would like to discuss.

Malle, you had also asked about delivery of the documents from the warehouse closing -- closing books are in progress and we expect to have those ready for circulation next week. Again, in order to comply with the change of law process agreement, the electronic closing books will be delivered to the Ministers and Deputy Ministers of each of the MOF and MOE, but we are happy to also send a copy to others on your instruction.

Thanks,

Rima

Ken/Steen:

We are operating under the assumption that it was the Province desire to execute the term deal as early as possible in 2018 which would involve a launch on the 15th. If the preference is now to adhere to the 10 business day requirement and not waive it we are happy to do so and commence marketing later in the month on the 22nd.

Please advise and we will adjust the work plan accordingly.

John

*** Exercise caution. This is an EXTERNAL email. DO NOT open attachments or click links from unknown senders or unexpected email. *** _____

Hi John

I spoke to our DM's office and Scott's email is Scott.Thompson@ontario.ca, As required by the Process Agreement between the Province and OPG, pls forward the documents pertaining to the upcoming term deal by email to Scott with a cc to the following:

Gadi Mayman, Anna Strathy, David McLean (cc'ed above), Jonathan Tekle (also cc'ed above), Mike and myself.

Given that the Process Agreement requires OPG to also provide the same documents to MOE, I am cc'ing Steen and Tim so that they can inform their DM's Office as well.

With regard to the waiver, pls see Malle's comments below, it would also be useful if OPG were to provide

a rationale as to why waiving the 10 business days requirement which may allow for term debt issuance in mid-January by the Trust is more beneficial than issuance either later in the same month or early February.

Thanks

Ken k

Subject: Re: Waiver Process

It would be very helpful if OPG and Torys could provide to us a timetable and schedule for delivery of reference documents that are being prepared and when do we expect to get them and when is the proposed issuance. On that basis we can review the timing and determine whether a waiver will be necessary and if it is how it might be processed. Unfortunately we haven't received any updates or draft documents since the closing of the warehouse deal. Also is there a plan for distributing to the Province the documents from the warehouse closing?

Thanks

Malle

Subject: RE: EXTERNAL – RE: Diligence Questions

I should add that the waiver of the 10 BD requirement needs to be executed in writing by the Province (which means we will need signatures from each Minister). Will that be achievable? If not, perhaps we can proceed on the basis of an email waiver with the waiver signed by the Ministers to follow as soon as possible. Sorry but it is going to be a pain in the butt navigating through this agreement … hopefully the Province will realize that and agree to make some amendments!

*** Exercise caution. This is an EXTERNAL email. DO NOT open attachments or click links from unknown senders or unexpected email. ***

John and Les, further to our discussion earlier today about the change of law protection agreement and the rating agency/dealer/Osler request to delete the word "materially" from the change of law triggering events – attached is a revised draft of the definition of a Protection Event that removes the word materially while addressing the Province's concern that they don't want a change in some unrelated law or reg to trigger the guarantee (we just moved down some of the general change in law triggers so they only trigger the guarantee if the change actually results in the FE not having sufficient funds to pay obligations when due (so if conservation legislation was passed, that would only trigger a protection event if that law prevented the FE from collecting enough CEA amounts to pay its obligations when due).

As we mentioned on our call, if you want to float an alternative to try and bridge the gap

on this point, you could send this to the Province and let them raise it with Osler/the dealers/the rating agencies in their revised draft of the change of law protection agreement as a compromise position. However, as we discussed, I think if some sort of compromise is going to be suggested, it is best coming directly from the Province.

Let us know if you have any questions.

Rima

Please find enclosed revised drafts of the Change of Law Protection Agreement and the Change of Law Process Agreement. I have also enclosed redlines to the drafts which Stephen circulated on November 2nd. The revised drafts and comments contained in these two agreements are a consolidation of comments from Osler and Torys. Please note that we have not had an opportunity to discuss all of the revisions and comments contained in these revised drafts with OPG and the Dealers and therefore, are subject to any further comments which the Dealers and OPG may have.

The initial drafts of these two agreement have not been provided to the rating agencies for their review and therefore, further revisions may be required following

their review and comment once drafts have been provided to them to review.

Regards, Rocco?????

Subject: Change of Law Protection Agreement and Change of Law Process Agreement

Rima, Krista, Nina and Michael,

Here are drafts of the Change of Law Protection Agreement and Change of Law Process Agreement. Please note that while various people at the Province have provided considerable thought and input into these drafts, they remain subject to on-going review, comment and consideration (including where indicated in the drafts) by the Province, and of course remain subject to ultimate consideration and approval by the Ministers. This circulation is for discussion purposes only. Please feel free to circulate these drafts to OPG, E&Y, Osler and the Dealers, reflecting that understanding.

We propose that a consolidated mark-up be prepared that reflects all of the issues that you or those others may have, and ideally reflects input from the rating agencies. Once that mark-up is available, we propose that a meeting of interested parties be held to resolve any outstanding issues.

In the meantime, please feel free to call Malle, Toby, Tom, Alena or me if you have questions or concerns.

Regards, Steve

Subject: RE: EXTERNAL – RE: Change of Law Protection Agreement and Change of Law Process Agreement
Date: Thursday, November 09, 2017 16:33:52

Hi Cindy,

Had a quick chat with Ken … maybe we can connect after Agenda Review?

From: Ken Kandeepan [mailto:Ken.Kandeepan@ofina.on.ca]
Sent: November 9, 2017 7:26 AM

Subject: Fwd: EXTERNAL – RE: Change of Law Protection Agreement and Change of Law Process Agreement

Hi Cindy and Mark

Pls see attached, we are meeting with Gadi this morning to go through the changes from OPG.

Much appreciated if you can do the same from the perspective of any potential impact to the Province's accounting and reporting and of course any other issues.

Thanks

Ken k

*** Exercise caution. This is an EXTERNAL email. DO NOT open attachments or click links from unknown senders or unexpected email. ***

Please find enclosed revised drafts of the Change of Law Protection Agreement and the Change of Law Process Agreement. I have also enclosed redlines to the drafts which Stephen circulated on November 2nd. The revised drafts and comments contained in these two agreements are a consolidation of comments from Osler and Torys. Please note that we have not had an opportunity to discuss all of the revisions and comments contained in these revised drafts with OPG and the Dealers and therefore, are subject to any further comments which the Dealers and OPG may have.

The initial drafts of these two agreement have not been provided to the rating

agencies for their review and therefore, further revisions may be required following their review and comment once drafts have been provided to them to review.

Subject: Change of Law Protection Agreement and Change of Law Process Agreement

Rima, Krista, Nina and Michael,

Here are drafts of the Change of Law Protection Agreement and Change of Law Process Agreement. Please note that while various people at the Province have provided considerable thought and input into these drafts, they remain subject to on-going review, comment and consideration (including where indicated in the drafts) by the Province, and of course remain subject to ultimate consideration and approval by the Ministers. This circulation is for discussion purposes only. Please feel free to circulate these drafts to OPG, E&Y, Osler and the Dealers, reflecting that understanding.

We propose that a consolidated mark-up be prepared that reflects all of the issues that you or those others may have, and ideally reflects input from the rating agencies. Once that mark-up is available, we propose that a meeting of interested parties be held to resolve any outstanding issues.

In the meantime, please feel free to call Malle, Toby, Tom, Alena or me if you have questions or concerns.

Regards, Steve

Dear Toby,

Just checking to see if you have had a chance to review our comments and whether the Province had any questions. We expect that the change of law protection agreement will be a topic of discussion at the Thursday morning rate-mitigation meeting and wanted to identify/address any questions from the Province beforehand if possible. Appreciate if you could let us know.

Regards,

Les

*** Exercise caution. This is an EXTERNAL email. DO NOT open attachments or click links from unknown senders or unexpected email. ***

Toby,

Thank you for your draft proposal; we have set out below our conceptual comments and concerns on it. Please note that the points below remain subject to the continuing review of OPG. Please also note that we have not yet sought the dealers' views on the proposal. We think it is premature to do so until we settle these points amongst

ourselves and a revised draft of the proposal is circulated reflecting our agreement.

As further discussed below, your proposal deviates in some key ways from what we proposed in our email of September 19 (attached) and raises the accounting and operational issues we tried to avoid in the September 19th proposal. Given the need to settle the Protection Agreement as soon as possible, we'd appreciate if we could discuss these points early next week.

Best Regards,

Nina

Accounting Issues:

E&Y has concerns from an accounting perspective with the level of Provincial oversight and input on certain parts of the process, namely:

-that OPG will likely have to go back to the Province on each incurrence of debt and they will have to do so prior to that incurrence

-that OPG must certify and provide a lot of detailed reporting with respect to each incurrence of debt
-the level of frequency of reporting in general (not just the certifications/information noted above but also the contemplated annual forecasts and quarterly updates of those forecasts)

-the negative pledge with respect to the exercise of certain options on the debt

-the fact that OPG must give notice to the Province when incurring funding obligations that are expressly excluded from the Protection Agreement

Taken as a whole, we understand that E&Y sees all of this as the Province exerting a level of control on the debt that no typical guarantor would have. Please also advise if the Province's accountants have reviewed the proposal.

Practical Issues:

- The procedural steps to bind the Province are lengthy and complicated. From our perspective, as drafted, OPG will likely have to seek Provincial approval on each debt issuance (which weakens the accounting as discussed above). The dealers and their counsel will have a reaction to the proposed adherence conditions but query whether there is value in setting out the adherence conditions in the Protection Agreement itself. Setting aside the mechanics of how we get there, the dealers want comfort that the incurrence of obligations by the financing entity will be covered by the Protection Agreement. We would propose that the mechanics of any approval process (once we settle the terms of that process) be the subject of a separate procedures agreement or memo from the Province to OPG, whereby the Province delegates to OPG the ability to bind the Province under the Protection Agreement with respect to an incurrence of obligations so long as the adherence conditions in the procedures agreement or memo have been met. The Protection Agreement would then simply state that, upon OPG certifying to the indenture trustee that the adherence conditions have been satisfied under the procedures agreement/memo, the Province will be deemed to be bound under the Protection Agreement with respect to the specific obligations incurred at the time of the certification.
- In addition to the accounting concerns, the level of detail and frequency of reporting required present timing and operational issues. For example, as part of the adherence conditions, you are asking for details on the interest rate. However, pricing will in part be driven off whether that specific incurrence will have the benefits of the Protection Agreement.

Drafting Issues:

- Please refer to the existing terminology of the Act to ensure there is certainty on the obligations covered under the Protection Agreement. We think the best way for you to approach this would be to refer to all finance amounts and then expressly carve out what you are proposing not be covered.
- We'd like to understand the reason OPG's management fees have been excluded. We assume you do not intend for OPG's reimbursement costs (costs incurred by OPG on behalf of the Financing Entity) to be excluded? Please advise why taxes are being excluded?
- There are a few references to "exceed the maximum amount specified therefor in the applicable governing document". Please advise what is being contemplated here.
- We have a number of other drafting comments which we'll revisit once we've settled on the conceptual points above and have reviewed a revised draft of the document.

Rima,

Further to our earlier conversations, please find attached our proposed process for confirmation of application of the Protection Agreement.

We would be happy to discuss further when you have had a chance to review.

Best

Subject: Fair Hydro -- Change of Law Assumption Agreement

Steve, Malle and Toby, further to our meeting the other day, set out below for your review is a proposal on the Provincial approval process under the Change of Law Assumption Agreement. Once we have your feedback on this, we will need to share it with Osler and the accountants and as John mentioned, we are under some time pressure to bring this to a resolution prior to the upcoming June 29 OPG Board meeting. We look forward to your comments, and feel free to reach out if you have any questions. -- Rima

Obligor Approval

The Change of Law Assumption Agreement will apply to all Specified Claims relating to Funding Obligations that are incurred by an Eligible Financing Entity in accordance with the Obligor's approval process. The definition of Specified Claims to be mutually agreed by all parties.

In order for a Financing Entity to become designated as an Eligible Financing Entity by the Obligor, prior to the initial issuance of Funding Obligations by such Financing Entity, the Obligor will be provided with copies of the following documents (collectively the "Program Documents") for review:

(i) the constating documents of such Financing Entity;

(ii) the management agreement between the Financing Entity and OPG;

(iii) the master transfer and servicing agreement between the Financing Entity and the IESO;

(iv) the master trust indenture governing the issuance of Funding Obligations by the Financing Entity;

(v) a form of supplemental indenture governing the issuance of bonds, issuable in series, by the Financing Entity;

(vi) a form of note purchase agreement or credit agreement governing the issuance of short term Funding Obligations by the Financing Entity;

(vii) a form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the Financing Entity from time to time; and

(viii) such other documents as may be requested by the Obligor.

Once a Financing Entity is designated by the Obligor as an Eligible Financing Entity, it will not be necessary for the Obligor to approve the documentation related to specific issuances of Funding Obligations; however, OPG will be expected to notify the Obligor of any new material program documentation or any material amendments to existing program documentation before such new documentation or amendments become effective. The failure of OPG to provide any such notice will not invalidate the application of the Change of Law Assumption Agreement to any Specified Claims.

It will not be necessary for the Obligor to approve each new issuance of Funding Obligations provided that such Funding Obligations are issued in accordance with following:

(1) The Funding Obligations are issued in accordance with agreements that contain: (a) covenants of the Eligible Financing Entity that are no more onerous in any material respect and (b) events of default that are consistent in all material respects, respectively, with the covenants of the Eligible Financing Entity and events of default contained in the draft Program Documents.

(2) At least [30 days] prior to the initial issuance of Funding Obligations by an Eligible Financing Entity, OPG will provide the Obligor with a forecast of the principal amount and expected term of the Funding Obligations that OPG expects such Eligible Financing Entity to issue in accordance with the Financing Plan in the next two years (a “Two Year Forecast”). The execution of the Change of Law Assumption Agreement in respect of such Eligible Financing Entity shall constitute the Obligor’s approval of the issuance of Funding Obligations by such Eligible Financing Entity in accordance with the Two Year Forecast.

(3) OPG shall provide the Obligor with an updated Two Year Forecast between 9 and 12 months prior to the expiry of each current Two Year Forecast.

(4) Unless the Obligor provides OPG with a written notice no later than 3 months prior to the date following receipt of the current Two Year Forecast that the Change of Law Assumption Agreement will be inapplicable with respect to new Funding Obligations incurred following the expiry of the current Two Year Forecast, the Obligor will be deemed to approve the application of the Change of Law Assumption Agreement to all Funding Obligations incurred up to the expiry of the new Two Year Forecast.

At the time of issuance of Funding Obligations by an Eligible Financing Entity, the Financing Entity will provide (i) any required certifications to the underwriters/agents that such Funding Obligations are covered by the Change of Law Assumption Agreement; and (ii) notice to the Obligor of the material terms of the Funding Obligations issued, together with electronic copies of the final executed Program Documents.

Attachment 1: Term Sheet - Provincial Protection Agreement - Sept 18 - Blackline.pdf
Attachment 2: FHP Memo - Draft V5 17-Aug-2017_cv.docx

Hi Lee Anne,

Cindy and I had an opportunity to do a review of the memo, and some comments have been updated. We've also included the draft protection agreement (a.k.a. term sheet) for the debt financing. We are not able to have our call on Friday morning, but if you have any comments, if you could let us know by Friday, that would be helpful as we are taking this item to Treasury Board on Monday.

We can discuss in more detail at our scheduled in-person meeting as well.

Happy to discuss,

Mark

Hi Jenny and John,

We are pulling together our overall analysis of the FHP from the Province's consolidated perspective (working with advisors from EY on this) and we want to include an analysis of OPG's issues re: treatment of the asset as an intangible and consolidation of the trust. Is there an analysis re: the intangible that you can share with us and have you updated your analysis re: the consolidation of the trust (the last version we saw speaks to what needs to be in place vs. what is in place)?

Thanks,

Cindy

Term Sheet - Provincial Protection Agreement - Sept 18 - Blackline.pdf

Provincial Protections and Assurances

Indicative Term Sheet

Ontario Fair Hydro Plan Act, 2017

*This indicative term sheet (the "**Term Sheet**") relates to transactions contemplated to be undertaken under the Ontario Fair Hydro Plan Act, 2017 (the "**Act**") and the regulations made thereunder (the "**Regulation**"). This Term Sheet is to be held confidential. Unless otherwise specified, defined terms used herein have the meanings ascribed to them in the Act. The provincial protection and assurance arrangements contemplated in this Term Sheet will include such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate. This Term Sheet is not intended to create any obligations or be binding.*

Change of Law Protection Agreement:	A Change of Law Protection Agreement will be among the Obligor, a Financing Entity and an Indenture Trustee, acting for and on behalf of the Beneficiaries in accordance with a Trust Indenture.
Obligor:	The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together.
Indenture Trustee:	An indenture trustee, acting for itself and on behalf of other persons entitled under an applicable Trust Indenture.
Beneficiaries:	The Indenture Trustee, acting for itself and on behalf of other persons entitled under Specified Claims.
Specified Claims:	Payment obligations of the Financing Entity that are secured under the Trust Indenture and that are approved as contemplated below under Obligor Approval.
Protection Events:	Any of the following would constitute a Protection Event: (A) (1) the Legislature repeals (and does not replace on an equivalent basis) or amends the Act or any portion thereof; (2) the Legislature enacts or amends any other statute; (3) the Lieutenant Governor in Council repeals (and does not replace on an equivalent basis) or amends the Regulation made under the Act or any portion thereof; or (4) the Lieutenant Governor in Council, a minister of the Crown, an official of the government or a board or commission all the members of which are appointed by the Lieutenant Governor in Council

	makes or amends any "regulation" (as defined in Part III of the *Legislation Act, 2006*); (5) there is a change in the organization or structure of the IESO or Ontario's electricity market undertaken at the initiative of the Province or an entity controlled by the Province, in each case, that [materially][1] and adversely affects (a) the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims, or (b) the Change of Law Protection Agreement or any of the agreements under which Specified Claims arise, other than if the Indenture Trustee has confirmed in writing that the affect under such agreements is otherwise acceptable; or (B) a court of competent jurisdiction [in a final and non-appealable judgement][2] determines that all or a portion of the Act or the Regulation is *ultra vires* or invalid in a way that [materially][3] and adversely affects the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims.
Obligation to Pay Specified Claims:	Upon the occurrence of a Protection Event, the Indenture Trustee will have the right to require the Obligor to pay the Specified Claims owing by the Financing Entity when they become due and payable (without acceleration). The exercise of such right by the Indenture Trustee in accordance with the Trust Indenture shall constitute the only remedy available under the Change of Law Protection Agreement. Under no circumstances shall the Obligor be obligated to pay or indemnify a Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits.
Subrogation:	Upon paying a Specified Claim to a Beneficiary, the Obligor as guarantor shall have rights of subrogation, including becoming entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Specified Claim, including the security interest in each related investment interest and related property of the Financing Entity.

[1] Under consideration to assess the marketability implications of materiality threshold.

[2] Under consideration to assess the marketability implications of this phrase.

[3] See footnote 1, above.

Optional Assumption:	At any time following the occurrence of a Protection Event, the Obligor shall be entitled (but not obligated) to assume the Financing Entity's obligations in respect of Specified Claims as obligor and debtor. The Financing Entity (including through the Financial Services Manager) will ensure that Specified Claims permit such an assumption by the Obligor without any penalty or make-whole payment (or, in the case of any contract for the provision of on-going services to the Financing Entity, the satisfaction and termination of the Specified Claims without any acceleration of future fees, profits or other like amounts), or any requirement for further consent, approval or agreement.
Term:	The Change of Law Protection Agreement will continue for as long as any Specified Claim remains outstanding.
Obligor Approval:	The process by which a Specified Claim will become subject to the Change of Law Protection Agreement will be determined by the Minister of Finance and Minister of Energy in negotiation with the Financing Entity.
FIPPA:	The Change of Law Protection Agreement will acknowledge that the Obligor will be bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Obligor, or any agent or representative of the Obligor in connection with the Change of Law Protection Agreement, may be subject to disclosure in accordance with the act or as otherwise required by law.
Representations and Warranties:	To be determined by the Minister of Finance and Minister of Energy in negotiation with the Financing Entity.
Confidentiality Obligations:	To be determined based on what would be customary and appropriate for similar types of arrangements and is acceptable to the Obligor and the Financing Entity.
Governing Law:	Province of Ontario.

FHP Memo - Draft V5 17-Aug-2017_cv.pdf

Disclaimer

Ernst & Young LLP (“EY”) prepared the attached Report only for the OPCD. EY did not perform its services on behalf of, or to serve the needs of, any other person or entity. Accordingly, EY expressly disclaims any duties or obligations to any other person or entity based its use of the attached Report. Any other person or entity must perform its own due diligence inquiries and procedures for all purposes, including, but not limited to, satisfying itself as to the financial condition and control environment of the Province or any of the other entities involved, as well as the appropriateness of the accounting for any particular situation addressed by the Report.

EY did not perform an audit, review, examination or other form of attestation (as those terms are defined by the CPA Canada) of the financial statements of the Province or any other entities involved. Accordingly, EY did not express any form of assurance on the accounting matters, financial statements, any financial or other information or internal controls of the Province or any of the other entities involved. EY did not conclude on the appropriate accounting treatment based on specific facts or recommend which accounting policy/treatment the Province or any of the other entities involved should select or adopt.

The observations relating to accounting matters that EY provided to the OPCD were designed to assist them in reaching their own conclusions and do not constitute our concurrence with or support of the accounting or reporting of the Province or the other entities involved. The Province and the other entities involved are each responsible for the preparation of their own financial statements, including all of the judgments inherent in preparing them.

Introduction

Ontario's consolidated financial reports are prepared in accordance with the accounting principles for governments recommended by the Public Sector Accounting Board (PSAB) of the Chartered Professional Accountants of Canada (CPA Canada). In order to meet the needs of users, including the legislature and the public, for accountability in government reporting and for decision making, it is essential that public sector financial statements reflect the economic substance of the government's activities.

In March 2017, the Government of Ontario (the Province) announced its Fair Hydro Plan (FHP). In assessing the appropriate accounting treatment for the Global Adjustment refinancing (GA Refinancing) component of the FHP on Ontario's consolidated financial statements, the Office of the Provincial Controller considered the authoritative guidance issued by PSAB, as well as the accounting assessments of the Independent Electricity System Operator (IESO) and Ontario Power Generation (OPG) management~~, including the accounting opinions views of their external accounting advisors~~ and their external auditors and/or advisors. Given the complexity of the GA Refinancing structure, the exercise of professional judgement is necessary to ensure that key financial reporting objectives of transparency and accountability are best served. ~~This accounting analysis considers currently available information, including efforts underway by the International Accounting Standards Board as related to rate regulated accounting. It also draws upon publicly available information including previous studies and bases for conclusions dealing with rate-regulated accounting, both in the public sector and the private sector.~~

Background

The FHP will reduce electricity bills for Regulated Price Plan (RPP) customers (as well as those non-RPP consumers who receive the 8% rebate as specified in the Ontario Rebate for Electricity Act, 2016) by approximately 25% for a period of one year, starting in the summer of 2017, and limit the increase in electricity bills to the rate of inflation over ~~the following~~ four years.

Because distribution rates vary across the province and customers use different amounts of electricity, the goal in calculating the new RPP electricity prices is to achieve a 25% reduction for a "proxy" customer, which is established under the Fair Hydro Act, 2017 and related regulations (FHP Act) as a residential customer of Toronto Hydro who uses 750 kWh of electricity a month, pays time-of-use RPP electricity prices and has the time-of-use consumption profile of a typical residential customer.

The measures that make up the 25% average reduction include:

1. Spreading the cost of Ontario's clean energy investments over the expected lifecycle of the generation infrastructure assets. This is expected to account for 18-19% of the overall reduction.
2. Shifting the cost of the Ontario Electricity Support Program (OESP) and Rural or Remote Rate Protection (RRRP) program from ratepayers to taxpayer-funded programs.
3. An 8% rebate equal to the provincial portion of the HST, which took effect on January 1, 2017.

Under the first measure, the Province (i.e. the government reporting entity) will borrow funds to pay a portion of current electricity costs, thereby temporarily reducing the amount paid by eligible ratepayers. The deferred amounts, including interest and other costs, will be recoverable from ratepayers through future rates over ~~an estimated 18-year period starting in approximately 2028~~a future period, ending in 30 years (2047). In other words, the impact of #1 above is fully borne by the ratepayers – it is a shift in the timing of payment for the clean energy investments, while the impacts of #2 and #3 are reducing the cost to the ratepayer, but at the cost of the taxpayer.

Objective

The objective of this memo is to assess the appropriate accounting for the first measure of the FHP (i.e. deferred recovery of clean energy costs) on the consolidated financial statements of the Province in accordance with PSAS. **[NTD – Consider if document should discuss #2 and #3. This would contrast the different treatment by the Province]**

Commented [VC(1]: Agreed – need to have the accounting documented

Background

The Ontario Energy Board (OEB) has been established by the Province to be Ontario's independent energy regulator.

Commented [VC(2]: ? do we need to document the independence of the regulator – evidence –supreme court case re: OPG

Prior to consideration of the FHP Act, ~~I~~in accordance with Section 78(3.1) of the Ontario Energy Board Act, 1998 (the OEB Act), the OEB is responsible for determining electricity commodity prices for RPP consumers. Section 78(3.3) of the OEB Act requires the OEB to forecast the cost of electricity used by RPP consumers and ensure the prices they are charged reflect that cost. The rate setting process is highly complex and involves numerous forecasts and estimates. As a result, the OEB regulatory framework allows for variances between the actual cost of supplying electricity and the amount collected from RPP consumers.

In setting the rates for RPP consumers, Section 78(3.3) of the OEB Act requires the OEB to settle any such variances through rates over a 12-month period. This is achieved through a price adjustment charged or credited to RPP consumers. This adjustment forms part of the Global Adjustment paid by consumers.

The IESO is the administrator of Ontario's wholesale electricity market. The IESO settles the market with all participants, as an agent.

As part of its role as market administrator, the IESO calculates the market price for electricity (the Market Clearing Price, or MCP) by running the bids and offers of the market participants through an algorithm. The actual cost of supplying electricity, however, is ~~greater~~ higher or lower than the MCP. The actual cost can be higher than the MCP as certain generators are paid additional amounts relating to the cost of clean energy initiatives they have undertaken. From a government policy perspective, decisions as to what is in the best interest of the public regarding electricity generation in Ontario are not based solely on economics, they are also influenced by environmental, social and political factors. Accordingly, generators may receive compensation for investing in clean energy infrastructure when it is relatively less economical. In these instances, the IESO (and previously the ~~XXX~~Ontario Power Authority) entered into contracts to pay the generators the~~r excess~~ costs (plus a reasonable rate of return thereon) over an extended period of time, typically 20 years. The amounts paid to the generators under the terms of these contracts that are in excess of the MCP are currently included in the rates set by the OEB (as part of the Global Adjustment) with the intention they will be recovered from consumers in the same

period they are paid to the generators. As previously noted, the complexity of the rate setting process results in variances between the amount paid to the generators and the amount collected from RPP consumers.

Under existing legislation, the IESO is required to fund any cash shortfall relating to differences arising between the actual cost of supplying electricity and the amount collected from RPP consumers. In accordance with Section 25.33(5) of the Electricity Act, 1998 (the Electricity Act), the IESO has established and maintains a variance account to track these temporary differences (the original variance account) for subsequent settlement with ratepayers. Cash shortfalls in the IESO arising from the original variance account are funded through financing provided by the OFA.

As described below, once the FHP is implemented, the cost of supplying electricity to RPP consumers that is paid to generators will no longer be fully collected over a 12-month period.

Under the FHP, while generators would continue to be paid over a twenty year period as contracted, the amounts paid by the IESO to the generators would be recovered from ratepayers over a ~~thirty year~~longer period. Deferring the recovery of these costs from the consumers on a longer-term basis would create a significant interim cash shortfall for the IESO.

Section 24(1) of the Ontario Fair Hydro Plan Act (the FHP Act) requires that IESO establish and maintain a variance account (separate from the original variance account described above) to track the cash shortfall specifically resulting from the implementation of the FHP (the FHP variance account). Due to the longer recovery period, and additional recoverable financing and management fee costs, the balance in the account is forecast to increase significantly. The balance in this variance account is defined in Section 1(1) of the FHP Act to be a regulatory asset[1]. The IESO is entitled under Section 25 of the FHP Act to recover the regulatory asset from RPP consumers in the future, which will be achieved through the OEB setting rates to allow for such recovery. This role of the OEB is not dissimilar to its current role with respect to the setting of RPP rates to recover the global adjustment, albeit over 12 months. Section 26 of the FHP Act also permits the IESO to transfer or sell the regulatory asset to a financing entity to fund its cash shortfall, thus commoditizing the future cash flow stream.

The Province has requested that OPG administer the deferral of the Global Adjustment under the FHP because of OPG's participation in the market and~~,~~ the regulatory knowledge OPG possesses ~~and the expected ability to consolidate the accounting of the related activity in the financial statements of OPG~~. To fulfill this role, OPG intends to establish a financing entity (OPG Trust) ~~which would have a choice~~ to purchase the IESO's regulatory asset on a monthly basis ~~which would~~and eliminate any cash shortfall in the IESO. OPG Trust will not be required to purchase the regulatory assets from IESO. Reasons for it deciding not to purchase the regulatory assets could relate to a capital markets disruption such that OPG Trust would not be able to finance the acquisition. ~~Through this arrangement,~~ OPG Trust ~~will~~ intends to finance these purchases through a combination of provincial borrowing (flowed through OPG as an equity investment), amounts advanced from OPG and direct borrowing from capital markets.

Basis of Accounting

[1] To avoid confusion in the remainder of this document, the term regulatory asset will refer to the defined term in the FHP Act and the term regulated asset or rate-regulated asset (RRA) will refer to an asset recognized for accounting purposes.

In accordance with PSAS 1300.07, the government reporting entity (GRE) for the Province comprises government components and those organizations that are controlled by the government.

As defined in the Introduction to PSAS, the following types of organizations are controlled by the government: (a) government business enterprises (GBE), government non-for profit organizations (GNPO), and other government organizations (OGO).

GNPOs and OGOs are considered government units and, in accordance with PSAS 1300.27, are consolidated in the GRE on a line-by-line basis. For consolidation purposes, the financial information of government units is required to be prepared in accordance with PSAS.

GBEs, on the other hand, are accounted for in the GRE using the modified equity method as prescribed by PSAS 1300.35. Under the modified equity method, which is described in detail in PSAS 3070, INVESTMENTS IN GOVERNMENT BUSINESS ENTERPRISES, the equity method of accounting is modified only to the extent that the GBE's accounting principles (which are required to be IFRS in accordance with paragraph 17 of the Introduction to PSAS) are not adjusted to conform to those of the government.

As documented in Schedule 8 to the consolidated financial statements of the Province, the IESO is an OGO and OPG is a GBE. The current accounting for these entities is as follows:

		ENTITY STATEMENTS	GRE STATEMENTS	
ENTITY	**CLASSIFICATION**	**GAAP**	**ACCOUNTING METHOD**	**GAAP**
IESO	OGO	PSAS[1]	Consolidation	PSAS
OPG	GBE	US GAAP[2]	Modified equity method	IFRS[3]

1. For purposes of preparing general purpose financial statements, an OGO applies PSAS unless those standards do not meet the needs of its financial statement users. In that situation, IFRS should be considered and the most appropriate set of standards applied.
2. Although a GBE is required to apply IFRS for purposes of preparing general purpose financial statements, the Ontario Securities Commission has approved an exemption that allows OPG to apply US GAAP up to January 1, 2019 for purposes of filing its financial statements with the OSC. ~~Nonetheless,~~ US GAAP to IFRS adjustments are made for the purposes of preparing the consolidated provincial accounts.
3. OPG applies IFRS 14, which permits it to continue to account for rate-regulated activities using US GAAP guidance for purposes of determining the differences between US GAAP and IFRS. ~~for its general purpose financial statements~~.

This memo does not reconsider the classification of these existing entities (i.e., such classifications are based on past published Public Accounts).

As discussed in detail in a subsequent section, OPG expects that under IFRS it will be considered to control OPG Trust. As such, ~~If this is the case,~~ OPG Trust will be consolidated by OPG and, therefore, reflected in the GRE through the modified equity accounting of OPG under IFRS. ~~If, however, it is determined that OPG Trust is controlled by the Province, OPG Trust will either (a) be consolidated in the GRE on a line-by-line basis under PSAS determined to be an OGO, or (b) reflected in the GRE through modified equity accounting under IFRS if determined to be a GBE.~~

Example

For simplicity, the following example will be used in this document to illustrate the accounting impact of the FHP on the various entities involved:

- Ratepayer bill is currently $588, and the 17% reduction related to the FHP is $100.

- The Province directly borrows 44%, or $44, to make an equity contribution to OPG, which OPG then loans to OPG Trust.
- OPG directly borrows 5%, or $5, and loans it to OPG Trust.
- OPG Trust directly borrows 51%, or $51, from capital markets.

Analysis

IESO

The IESO is presently classified as an OGO and prepares its standalone, general purpose financial statements in accordance with PSAS based on an assessment of its user needs, which is consistent with the basis of presentation required for purposes of consolidating the IESO into the GRE. ~~Under PSAS, the entity has selected to apply PSAB accounting standards to meet its user needs.~~

Current State

Effective January 1, 2016, the IESO adopted on a retrospective basis a new accounting policy that requires its market-settlement activities[2] to be reflected in the financial statements. Under the new policy, the assets and liabilities recognized on the IESO's statement of financial position relating to the IESO-administered markets include cash, amounts due from market participants, interest receivable, revolving line of credit, HST receivable, amounts due to market participants and other liabilities. The IESO statement of operations and accumulated surplus does not include the revenue and expenses of the financial transactions of market participants within the IESO-administered markets. This indicates IESO management has taken the position that the IESO is an agent, not a principal, in the IESO-administered markets and, accordingly, records revenue on a net basis.

PSAS does no~~'~~t provide any specific guidance as to how it should be determined whether an entity is acting as a principal or an agent in the context of revenue recognition, but both IFRS and US GAAP do. The relevant guidance in IFRS is as follows:

IAS 18.8

Revenue includes only the gross inflows of economic benefits received and receivable by the entity on its own account. Amounts collected on behalf of third parties such as sales taxes, goods and services taxes and value added taxes are not economic benefits which flow to the entity and do not result in increases in equity. Therefore, they are excluded from revenue. Similarly, in an agency relationship, the gross inflows of economic benefits include amounts collected on behalf of the principal and which do not result in increases in equity for the entity. The amounts collected on behalf of the principal are not revenue. Instead, revenue is the amount of commission.

IAS 18.IE21

Determining whether an entity is acting as a principal or as an agent (2009 amendment).

Paragraph 8 states that 'in an agency relationship, the gross inflows of economic benefits include amounts collected on behalf of the principal and which do not result in increases in equity for the entity. The amounts collected on behalf of the principal are not revenue. Instead, revenue is the amount of commission.' Determining whether an entity is acting as a principal or as an agent requires judgement and consideration of all relevant facts and circumstances.

[2] The IESO ~~itself does not buy or sell electricity. It~~ administers the wholesale electricity market by authorizing market participants, publishing system forecasts and market information, producing statements and invoices, and performing financial settlement transactions for the markets.

An entity is acting as a principal when it has exposure to the significant risks and rewards associated with the sale of goods or the rendering of services. Features that indicate that an entity is acting as a principal include:

a) the entity has the primary responsibility for providing the goods or services to the customer or for fulfilling the order, for example by being responsible for the acceptability of the products or services ordered or purchased by the customer;
b) the entity has inventory risk before or after the customer order, during shipping or on return;
c) the entity has latitude in establishing prices, either directly or indirectly, for example by providing additional goods or services; and
d) the entity bears the customer's credit risk for the amount receivable from the customer.

An entity is acting as an agent when it does not have exposure to the significant risks and rewards associated with the sale of goods or the rendering of services. One feature indicating that an entity is acting as an agent is that the amount the entity earns is predetermined, being either a fixed fee per transaction or a stated percentage of the amount billed to the customer.

Application of the above IFRS guidance supports the conclusion that the IESO is an agent in the market-settlement process and, therefore, recognizing revenue on a net basis is appropriate. IESO has completed a more thorough analysis of their position that it is an agent in the settlement of the market and reconsideration of that decision is not the topic of this memo.

The IESO is required by legislation to carry out its operations without the purpose of gain or profit. Other than the amounts the IESO is permitted to keep in accordance with its own rate order from the OEB to cover its internal operating costs, which makes it a self-sustaining entity, all amounts the IESO receives from market participants must be paid out to other market participants who have regulatory or contractual rights to receive payments from those collected amounts.

Commented [VC(3]: Does the legislation speak to IESO incurring a loss?

In the context of applying the principal vs. agent guidance, the amounts the IESO is permitted to keep in accordance with its own rate order from the OEB to cover its internal operating costs are recorded as system fee revenue in the IESO financial statements. System fees are not characterized as being part of the IESO-administered markets. Accordingly, any references to the IESO-administered markets in this document exclude system fees.

As stated in the IESO financial statements, the IESO-administered markets is a balancing system, and as such, the net position of market accounts will ultimately settle to a nil balance in accordance with market rules. However, due to settlement timing differences, the net position of market accounts will not be in a nil position from a cash flow perspective at the end of any reporting period.

This raises a question as to how a cash flow deficit related to the market-settlement process should be accounted for in the financial statements of the IESO. Two approaches are as follows:

1. The cash flow deficit is recognized as an asset when it occurs and then derecognized in the period in which it is settled. Under this approach, the net position of market accounts will always be in a nil balance in the IESO's balance sheet and there is no impact on the IESO's income statement.
2. The cash flow deficit is recognized as a charge to income when it occurs and then reversed through income in the period in which it is settled.

IESO management has concluded it is appropriate to recognize existing cash flow deficits arising from the market-settlement process as an asset. This is evidenced by the fact the components of the market accounts net to a nil closing balance at year end in the IESO financial statements for the year ended December 31, 2016. These financial statements also explicitly state there is no impact to the accumulated deficit or revenues and expenses as the IESO is not party to these transactions as per the market rules. This treatment is consistent with the conclusion that the IESO is acting as an agent in the market-settlement process.

Commented [VC(4]: Is there a reference for this statement?

Although the IESO's financial statements include the following accounting policy on regulated assets and liabilities, the asset relating to the cash flow deficit discussed above has not been specifically labeled as a regulated asset:

As a rate-regulated entity, the IESO, in appropriate circumstances establishes regulated assets or liabilities and thereby defers the impact on the statement of operations of certain expenses or revenues because they are probable to be collected or refunded to market participants through future billings. The IESO has applied guidance from United States Generally Accepted Accounting Principles (US GAAP) Topic 980, Regulated Operations, in this policy.

The only two balances specifically labeled as being recognized in the IESO's financial statements under the above policy are (i) unrecovered smart metering expenses, and (ii) unrecovered PSAB transition items. IESO management has, however, indicated in discussions that the cash flow deficit/surplus associated with the original variance account is also considered to be a regulated asset/liability under ASC 980 even though it has been presented as part of the Market Accounts balances in the statement of financial position.

Impact of FHP

The implementation of the FHP results in the IESO establishing and maintaining the FHP variance account to track the resulting cash flow deficit, the balance of which is defined for the purposes of the FHP Act to be a 'regulatory asset'. This variance account is similar in nature to the current variance account established under Section 25.33(5) of the Electricity Act, 1998 , discussed in the Background Section to this memo.

The act of legislating the balance in the FHP variance account to be a regulatory asset does not, in and of itself, result in its recognition as an asset for accounting purposes. Accordingly, the primary issue at hand is whether the legislated regulatory asset is eligible for recognition as an asset in both the standalone financial statements of the IESO and the consolidated financial statements of the GRE. As discussed in a later section, the conclusion reached with respect to the appropriate accounting for the FHP in the standalone financial statements of the IESO as an OGO reporting under PSAS may impact the consolidated financial statements of the GRE.

As noted above, the IESO has adopted a policy to apply the U.S. GAAP guidance in ASC 980 in connection with accounting for rate regulated assets. IESO management has applied this guidance and concluded the regulatory asset created by the FHP can be recognized as a regulated asset for accounting purposes in the financial statements of the IESO. The IESO's auditors, KPMG, concur with this position, as evidenced from the following excerpt from a draft letter issued by KPMG on May 16, 2017 (the KPMG Letter):

We have considered the foregoing analysis and management's conclusion. We concur that the variance account created by Bill 132 will meet the criteria for the recognition of a regulatory asset stated in ASC 980-340-25-1. Furthermore, we have also considered the criteria stated in ASC 980-10-15-2 and believe that IESO should be allowed to continue to use the guidance for regulated operations of Topic 980.

Recognizing the regulatory asset as a regulated asset for accounting purposes in the financial statements of the IESO in accordance with ASC 980 is appropriate only if all of the following conditions are met:

a) the operations of the IESO (or the relevant portion thereof) are within the scope of ASC 980 based on the criteria in ASC 980-10-15-2,
b) the FHP variance account meets the criteria in ASC 980-340-25-1 for capitalization as a regulatory asset, and
c) ASC 980 is an appropriate source of GAAP under PSAS.

Each of these items is addressed in turn:

a) Scope of ASC 980

ASC 980-10-15-2 states the following:

The guidance in the Regulated Operations Topic applies to general-purpose external financial statements of an entity that has regulated operations that meet all of the following criteria:

a) The entity's rates for regulated services or products provided to its customers are established by or are subject to approval by an independent, third-party regulator or by its own governing board empowered by statute or contract to establish rates that bind customers.
b) The regulated rates are designed to recover the specific entity's costs of providing the regulated services or products. This criterion is intended to be applied to the substance of the regulation, rather than its form. If an entity's regulated rates are based on the costs of a group of entities and the entity is so large in relation to the group of entities that its costs are, in essence, the group's costs, the regulation would meet this criterion for that entity.
c) In view of the demand for the regulated services or products and the level of competition, direct and indirect, it is reasonable to assume that rates set at levels that will recover the entity's costs can be charged to and collected from customers.

The Office of the Auditor General of Ontario (OAGO) has publicly stated that it does not believe the IESO meets the criteria to be within the scope of ASC 980. This is evidenced by the following statement included in *Legislated Accounting Included in Bill 132, Including the Proposed Ontario Fair Hydro Plan Act, 2017 – Submission to Standing Committee on Justice Policy* dated May 25, 2017 (OAGO Submission):

Moreover, IESO is not engaging in rate-regulated activities, and the contracts under its administration were never subject to rate regulation.

Ontario's electricity industry is rate-regulated. Rates paid by electricity consumers are regulated by the OEB such that over time rates equal cost plus, where applicable, a reasonable rate of return. Providing electricity to consumers involves several different parties, including generators, transmitters, distributors and the IESO. Some of these parties engage in rate-regulated activities, some do not.

The IESO serves an important and active role in Ontario's electricity market, irrespective of the fact that it records market transactions on net basis in the financial statements. The IESO balances the supply of and demand for electricity in Ontario and directs its flow across the province's transmission lines, oversees the wholesale electricity market, where the price of energy is determined, and administers the rules that govern the market. In determining whether the IESO has regulated operations, the focus is on whether the rates the IESO charges its customers are regulated and not whether the costs incurred by the IESO are regulated (although a number of them are).

The following supports the position of IESO management that the above criteria are met and the IESO's operations are within the scope of ASC 980:

The entity's rates for regulated services or products provided to its customers are established by or are subject to approval by an independent, third-party regulator or by its own governing board empowered by statute or contract to establish rates that bind customers.
As noted in a research paper issued in 2001 by a taskforce established by the CICA (the CICA Research Report), there is a view held by some that, with respect to rate regulation in the public sector, there is usually no *independent, third-party regulator* because the government controls both the enterprise and the regulatory agency. Accordingly, it is important to point out that independence is not required to meet the criteria in ASC 980-10-15-2(a). The requirement is an *independent, third-party regulator* or *its own governing board empowered by statute or contract*. In fact, paragraph 64 of the Basis for Conclusions for FAS 71, ACCOUNTING FOR THE EFFECTS OF CERTAIN TYPES OF REGULATION (which is the pre-codified version of ASC 980), specifically states that the criteria in ASC 980-10-15-2(a) was modified so as not to preclude application by government utilities with rates set by their own governing board. The OEB has been established by the Province to be Ontario's independent energy regulator and, therefore, is considered the governing board of the IESO. The OEB's mandate and authority come from the *Ontario Energy Board Act, 1998*, the *Electricity Act, 1998*, and a number of other provincial statutes. As described in more detail below, the IESO's rates are established in accordance with these statutes. In the context of its market-settlement role, the IESO's 'customers' are the Market Participants buying electricity from the IESO-controlled grid. All Market Participants are required to execute a Participation Agreement with the IESO. In accordance with Article 3.1 of the standard Participation Agreement, each Market Participant has agreed to be bound by and to comply with all of the provisions of the Market Rules, which includes the following: *Chapter 9, Section 1.2.3* *Notwithstanding any other provision within the market rules, market participants shall remit to the IESO such applicable settlement amounts and other payments as may be required under the relevant provisions of the Electricity Act, 1998, the Ontario Energy Board Act, 1998 and any related regulations, as amended from time to time.* The IESO's operations meet the criteria in ASC 980-10-15-2(a) because the rates charged by the IESO are based on statutes. As discussed in more detail below, the rates are designed to recover the IESO's

expenditure for providing the regulated services and the pass-through costs related to the energy purchased from the generators and to government programs.

The main components of invoices issued by the IESO to Market Participants are as follows:

- Commodity Charges
  - Hourly Ontario Energy Price
  - Global Adjustment
- Wholesale Market Service Charges
  - IESO Administration Fee
  - Uplift Charges
  - Rural and Remote Electricity Rate Protection
- Wholesale Transmission Charges
- Debt Retirement Charge

Each component is determined as follows:

Commodity Charges

In accordance with Section 25.33(1) of the Electricity Act, the IESO is required to price electricity to recover costs:

Electricity pricing to reflect costs

IESO to make adjustments

25.33 (1) The IESO shall, through its billing and settlement systems, make adjustments in accordance with the regulations that ensure that, over time, payments by classes of market participants in Ontario that are prescribed by regulation reflect,

a) amounts paid to generators, the Financial Corporation and distributors, whether the amounts are determined under the market rules or under section 78.1, 78.2 or 78.5 of the Ontario Energy Board Act, 1998;

b) amounts paid to entities with whom the IESO has a procurement contract, as determined under the procurement contract; and

c) such amounts as may be prescribed that are paid or incurred by the IESO in relation to the Ontario Fair Hydro Plan Act, 2017. *2014, c. 7, Sched. 7, s. 8 (1); 2017, c. 16, Sched. 1, s. 43 (2).*

Market Participants are initially invoiced for consumed electricity at the Hourly Ontario Energy Price (HOEP), which is calculated as the average of the twelve market clearing prices set in each hour. In accordance with Section 25.33(5) of the Electricity Act, the IESO is required to track differences between the amounts invoiced to Market Participants at HOEP and actual costs incurred in a variance account:

Variance accounts

(5) The IESO shall establish and maintain such variance accounts as may be necessary to record all amounts payable or receivable by it under this section or under the Ontario Fair Hydro Plan Act, 2017. *2004, c. 23, Sched. A, s. 37; 2014, c. 7, Sched. 7, s. 8 (5); 2017, c. 16, Sched. 1, s. 43 (5).*

Sections 3.1 and 3.3 of the OEB Act require the variance account to be settled over a twelve-month period, which is done through the Global Adjustment on a Market Participant's invoice:

Annual rate plan and separate rates for situations prescribed by regulation

(3.1) The Board shall, in accordance with rules prescribed by the regulations, approve or fix separate rates for the retailing of electricity,

a) to such different classes of consumers as may be prescribed by the regulations; and

b) for such different situations as may be prescribed by the regulations. 2004, c. 23, Sched. B, s. 14 (1).

Rates to reflect cost of electricity

(3.3) In approving or fixing rates under subsection (3.1),

a) the Board shall forecast the cost of electricity to be consumed by the consumers to whom the rates apply, taking into consideration the adjustments required under section 25.33 of the Electricity Act, 1998 *and shall ensure that the rates reflect these costs; and*

b) the Board shall take into account balances in the IESO's variance accounts established under section 25.33 of the Electricity Act, 1998 *and shall make adjustments with a view to eliminating those balances within 12 months or such shorter time periods as the Minister may direct. 2004, c. 23, Sched. B, s. 14 (1); 2014, c. 7, Sched. 23, s. 6 (2).*

Although the implementation of the FHP involves the deferral of costs over an extended period of time, it does not change the IESO's obligation under the OEB Act to price electricity to recover incurred costs in full. The deferral relating to the FHP is tracked in a separate variance account in accordance with Section 24(1) of the Fair Hydro Plan Act, 2017 (the FHP Act):

Variance account to be established, maintained

24 (1) The IESO shall establish and maintain a variance account in which it records the following:

1. The IESO deferral for each month.

2. All payments received by the IESO resulting from the exercise of the right of recovery under section 25 and any transfer under section 26.

3. Such other adjustments as may be prescribed, including adjustments in respect of the period that commences on or after May 1, 2017 and before the day this section comes into force.

The right for the IESO to recover the variance account is set out in Section 25 of the FHP Act:

Regulatory asset established

25 (1) Effective May 1, 2017, the IESO has the right, exercisable in accordance with this Act and the regulations, to recover the balance recorded in the variance account from specified consumers.

Board to set rates

(2) Subject to subsection (3), the Board shall, from time to time and in accordance with the regulations, determine and set rates payable by specified consumers to allow for the IESO to recover the balance recorded in the variance account.

Limitation

(3) The IESO shall not be entitled to collect all or part of the balance recorded in the variance account from specified consumers before May 1, 2021.

Wholesale Market Service Charges

The IESO charges Market Participants administrative fees to operate the wholesale electricity market and manage the electric power system in Ontario. These fees are required to be approved by the OEB under Section 25(1) of the Electricity Act on an annual basis.

Review of requirements and fees

25 (1) The IESO shall, at least 60 days before the beginning of each fiscal year, submit its proposed expenditure and revenue requirements for the fiscal year and the fees it proposes to charge during the fiscal year to the Board for review, but shall not do so until after the Minister approves the IESO's proposed business plan for the fiscal year under section 24. 2014, c. 7, Sched. 7, s. 3 (1).

Uplift charges

Commented [LAP5]: Uplift charges are comprised of a number of things. To ask IESO for help to summarize succinctly.

Need details

RRRP charges

The RRRP program provides a rate subsidy to rural and remote residential customers who face higher distribution costs. Under the FHP Act, the cost of the RRRP program has shifted from ratepayers to provincial revenues and, therefore, is no longer a component of the IESO~~'s~~ invoice.

Wholesale Transmission Charge

This charge to LDCs and some large consumers covers the cost incurred by transmission companies to construct and maintain the high-voltage transmission lines needed to transport electricity from generating stations to LDCs or consumers. In accordance with Section 78(1) of the OEB Act, the rate for this service is approved by the OEB.

Debt Retirement Charge

When the Ontario electricity sector was restructured in April 1999, the Ontario Electricity Financial Corporation (OEFC) took on $20.9 million of stranded debt from Ontario Hydro. The OEFC services and retires the stranded debt with cash flows from a number of sources in the electricity sector, one of those currently being debt retirement charges paid by certain ratepayers (ratepayers cease paying debt retirement charges April 1, 2018).

Under Regulation 494/01, DEBT RETIREMENT CHARGE – ADMINISTRATION, the IESO is appointed as a collector of debt retirement charges (Section 2) and is required to collect a debt retirement charge on behalf of the OEFA from every entity who withdraws electricity from the IESO-controlled grid (Section 6(2)). The prescribed rate for the debt retirement charge is set out in Regulation 493/01, DEBT RETIREMENT CHARGE – RATES AND EXEMPTIONS.

The regulated rates are designed to recover the specific entity's costs of providing the regulated services or products.

As discussed in detail above, the IESO is required by statute to set prices to recover costs.

In view of the demand for the regulated services or products and the level of competition, direct and indirect, it is reasonable to assume that rates set at levels that will recover the entity's costs can be charged to and collected from customers.

As discussed in detail above, the IESO is required by statute to set prices to recover costs.

The majority of the monthly amount invoiced by the IESO to Market Participants represents a direct flow through of costs as they are incurred, but there are certain types of costs for which recovery may be deferred. For those deferred costs, the IESO is dependent on the future consumption of electricity by rate-payers to fully recover costs.

Based on relatively short recovery periods, it is reasonable to assume there will be sufficient demand to recover the deferred costs that currently exist. Specifically:

- RPP and RRRP variance accounts are recovered over twelve months in accordance with Section 3.3(b) of the OEB Act. *(Note - Under the FHP, responsibility for the cost of the RRRP program is being transferred to the Provincial budget and rate-payers will no longer be directly charged)*

Commented [DM(6]: Will provide ASAP (Following up with IESO)

Commented [DM(7]: Understanding is not all costs have shifted; need to confirm where the line is drawn

Commented [LAP8]: To confirm with Energy if all costs have shifted.

Commented [LAP9]: CV to determine if there is anything else to add from IESO's analysis.

Commented [LAP10]: To confirm with Energy if all costs have shifted.

- The Smart Metering Entity charge is recovered over the period from May 1, 2013 to October 31, 2018 in accordance with OEB Decision and Order EB-2015-0298.

Under the FHP, responsibility for the cost of the OESP program is being transferred to the Provincial budget and rate-payers will no longer be charged for the cost of this program. The OESP variance account, which is currently in a credit balance, will be used to fund the cost of the program until depleted.

Although the timing of the recovery of the FHP variance account has not yet been established by the OEB, the wording and intent of the proposed legislation is clear that it is intended by law to be recoverable over a period of 30 years. Given the nature and extent of customer demand for the power generated and distributed in Ontario, both at this time and projected in the future, it is reasonable to conclude that there will be sufficient demand to recover the regulatory asset. This conclusion, which is supported by Figure 19: Ontario's Forecast Electricity Production in Achieving Balance – Ontario's Long-Term Energy Plan, will need to be continually evaluated throughout the recovery period. The willingness of unrelated third parties to fund the purchase of the regulatory asset from the IESO by OPG Trust also demonstrates the belief that sufficient demand will exist to permit its future recovery.

In addition to the general scope requirements of ASC 980 discussed above, specific consideration is made as to whether the following scope exception in ASC 980-10-15-7 applies to the FHP:

The guidance in the Regulated Operations Topic does not apply to any of the following transactions:

a) *Accounting for price controls that are imposed by governmental action in times of emergency, high inflation, or other unusual conditions, or accounting for contracts in general. However, if the terms of a contract between an entity and its customer are subject to regulation and the criteria of paragraph 980-10-15-2 are met with respect to that contract, the guidance in this Topic shall apply.*

Based on the discussion below, this scope exemption is not applicable to the FHP.

Electricity cost reductions resulting from the FHP do not represent price controls imposed by the Province in a time of emergency, high inflation, or other unusual conditions. As noted in the 2017 budget speech, the 2017 Ontario Budget – A Stronger, Healthier Ontario, the FHP is a fairer way to share the costs of building a cleaner, more modern and reliable electricity generation system. In particular, the budget speech states:

Commented [LAP11]: Consider Navigant report if/when becomes available

Recognizing that existing electricity infrastructure is expected to last for decades to come, the Province would refinance the cost of those capital investments to ensure that system costs are more equitably distributed over time.

The following paragraph from the Basis for Conclusion for FAS 71 also provides some insight as to the specific concerns relating to government imposed price controls that resulted in the scope exception in ASC 980-10-15-7(a):

70. The first scope limitation of paragraph 8—excluding accounting for price controls imposed by governmental action in times of emergency, high inflation, or other unusual conditions—was included in

the Discussion Memorandum. Price controls imposed in periods of unusual conditions are not expected to be applied consistently over an extended period. Indeed, their duration usually is limited by statute. In that environment, assurance of future benefits cannot be provided by probable future actions of the price control regulator because that regulator may not exist at a given future date.

The implementation of the FHP does not create the type of environment described in FAS 71.BC70 as it is governed by the OEB and there is no concern the OEB will not continue to exist.

The second part of the scope exception in ASC 980-10-15-7(a) relating to the accounting for contracts is further explained in the following paragraph from the Basis for Conclusion for FAS 71:

71. Accounting for contracts in general was also excluded from the scope of the Discussion Memorandum. The economic effects of cost reimbursement contracts are in some respects similar to the economic effects of the type of regulation addressed by this Statement. However, most contracts tend to be relatively short-term, whereas regulation of enterprises covered by this Statement is expected to continue beyond the foreseeable future. The Board noted that other authoritative literature addresses contract accounting and concluded that it should exclude the general issue of contract accounting from the scope of this Statement.

Although the impetus for the FHP relates to term of contracts the IESO has entered into with certain generators, the FHP does not change the existing accounting for these contracts.

Application of ASC 980-340-25-1 to the regulatory asset

ASC 980-340-25-1 states the following:

Rate actions of a regulator can provide reasonable assurance of the existence of an asset. An entity shall capitalize all or part of an incurred cost that would otherwise be charged to expense if both of the following criteria are met:

a) *It is probable (as defined in Topic 450) that future revenue in an amount at least equal to the capitalized cost will result from inclusion of that cost in allowable costs for rate-making purposes.*
b) *Based on available evidence, the future revenue will be provided to permit recovery of the previously incurred cost rather than to provide for expected levels of similar future costs. If the revenue will be provided through an automatic rate-adjustment clause, this criterion requires that the regulator's intent clearly be to permit recovery of the previously incurred cost.*

A cost that does not meet these asset recognition criteria at the date the cost is incurred shall be recognized as a regulatory asset when it does meet those criteria at a later date.

The following supports the IESO's position that the FHP variance account meets the above criteria for capitalization:

It is probable (as defined in Topic 450) that future revenue in an amount at least equal to the capitalized cost will result from inclusion of that cost in allowable costs for rate-making purposes.
The following excerpts from the FHP Act make it clear that the IESO is entitled to recover the regulatory asset through rates in the future:

Variance account to be established, maintained

24 (1) The IESO shall establish and maintain a variance account in which it records the following:

1. The IESO deferral for each month.

2. All payments received by the IESO resulting from the exercise of the right of recovery under section 25 and any transfer under section 26.

3. Such other adjustments as may be prescribed, including adjustments in respect of the period that commences on or after May 1, 2017 and before the day this section comes into force.

Recording determinative

(2) Subject to the correction of any obvious error by the IESO, its recording of the balance in the variance account is determinative of the balance as of the time of the recording.

Regulatory asset established

25 (1) Effective May 1, 2017, the IESO has the right, exercisable in accordance with this Act and the regulations, to recover the balance recorded in the variance account from specified consumers.

Board to set rates

(2) Subject to subsection (3), the Board shall, from time to time and in accordance with the regulations, determine and set rates payable by specified consumers to allow for the IESO to recover the balance recorded in the variance account.

Limitation

(3) The IESO shall not be entitled to collect all or part of the balance recorded in the variance account from specified consumers before May 1, 2021.

The recovery of the regulatory asset is, however, dependent on future consumption of electricity by rate-payers. ~~Although the timing of the recovery of the regulatory asset has not yet been established by statute, the~~The recovery period is intended to be 30 years. Given the nature and extent of customer demand for the power generated and distributed in Ontario, both at this time and projected in the future, it is reasonable to conclude that it is probable there will be sufficient demand in the future to recover the regulatory asset. This conclusion, which is supported by Figure 19: Ontario's Forecast Electricity Production in Achieving Balance – Ontario's Long-Term Energy Plan (Appendix B), will need to be continually evaluated throughout the recovery period.

The willingness of unrelated third parties (e.g., investors) to fund the purchase of the regulatory asset from the IESO by OPG Trust also demonstrates the belief that sufficient demand will exist to permit its future recovery.

Based on available evidence, the future revenue will be provided to permit recovery of the previously incurred cost rather than to provide for expected levels of similar future costs. If the revenue will be provided through an automatic rate-adjustment clause, this criterion requires that the regulator's intent clearly be to permit recovery of the previously incurred cost.

Based on the above excerpts from the FHP Act, it is clear the IESO will be recovering costs previously incurred rather than providing for expected levels of similar future costs.

The IESO is considered an agent in the market-settlement process and, therefore, recognizes revenue on a net basis. Although this conclusion impacts whether the recovery of costs through rates are presented as revenue in the financial statements of the IESO, it is not considered to preclude these amounts from being considered 'future revenue' for purposes of assessing the criteria in ASC 980-340-25-1. In fact, the capitalization of the incurred costs in the FHP variance account preserves the treatment of the IESO as

Commented [VC(12]: Suggest we expand this analysis – not sure this is technically true (the price set would just be very high), but practically, this would probably not be permitted to occur

Commented [LAP13]: Once the terms of the guarantee are finalized, I think we should comment (if true) that the guarantee relates to regulatory changes and does not cover lack of demand.

CV – will share a copy of the current agreement – does not cover lack of demand

an agent (i.e., if these costs are not capitalized, it results the recognition of costs in the period incurred and the recognition of revenue in a subsequent period when electricity is consumed, which, in effect, is gross presentation). To put another way, not capitalizing the costs in FHP variance account treats the IESO as a principal in the transaction by showing costs and revenue.

Is ASC 980 an acceptable source of guidance under PSAS[3]

In assessing whether ASC 980-340-25-1 is an acceptable source of guidance under PSAS, Paragraph 5 of PSAS 1150, GENERALLY ACCEPTED ACCOUNTED PRINCIPLES, states the following:

When the primary sources of GAAP do not deal with the accounting and reporting in financial statements of transactions or events encountered by the public sector reporting entity, or additional guidance is needed to apply a primary source to specific circumstances, the selection of an appropriate accounting policy requires the exercise of professional judgment. In these circumstances, a public sector reporting entity should adopt accounting policies and disclosures that are consistent with:

a) the primary sources of GAAP; and

b) the application of the concepts described in FINANCIAL STATEMENT CONCEPTS, Section PS 1000.

Related guidance is also provided in PSAS 1150.18-.20:

Paragraphs PS 1150.19-.24 identify some of the other sources that a public sector reporting entity might consult to assist in selecting accounting policies and disclosures that comply with paragraph PS 1150.05.

Pronouncements issued by other bodies authorized to issue accounting standards may be useful sources to consult. For example, accounting pronouncements published with the authority of the Canadian Accounting Standards Board (AcSB), International Accounting Standards Board (IASB), US Federal Accounting Standards Advisory Board (FASAB), US Governmental Accounting Standards Board (GASB), or International Public Sector Accounting Standards Board (IPSASB) are often important sources to consult on matters not covered by primary sources of GAAP or for assistance in applying a primary source of GAAP to specific circumstances.

When a public sector reporting entity chooses to consult a source described in paragraph PS 1150.19, it applies professional judgment and evaluates the source in the context of the relative manner in which the standard setter requires its pronouncements to be applied, as well as in the context of the related pronouncement. When an accounting standard setter does not have a conceptual framework that is similar to the concepts referred to in paragraph PS 1150.05(b), the public sector reporting entity needs to ensure that the selected source is consistent with those concepts.

Since PSAS does not specifically address the treatment of costs incurred that will be recovered through regulatory operations in future periods, the IESO would not be precluded from following the guidance in ASC 980-340-25-1 (i.e., silence under PSAS on this specific topic does not, on its own, mean that such guidance is to be ignored). However, PSAS 1000.05 makes it clear that in order to do so, it must first be

[3] If the accounting for GBEs were to change in the future such that line by line consolidation is required using PSAS, the importance of this consideration increases significantly.

demonstrated that such guidance is consistent with the application of the concepts described in PSAS 1000, FINANCIAL STATEMENT CONCEPTS.

The relevant guidance in PSAS 1000 relating to the recognition of an asset is as follows:

PSAS 1000.35

Assets are economic resources controlled by a government as a result of past transactions or events and from which future economic benefits are expected to be obtained.

PSAS 1000.36

Assets have three essential characteristics:

a) *they embody future economic benefits that involve a capacity, singly or in combination with other assets, to provide goods and services, to provide future cash inflows, or to reduce cash outflows;*
b) *the public sector entity can control the economic resource and access to the future economic benefits; and*
c) *the transaction or event giving rise to the public sector entity's control has already occurred.*

PSAS 1000.37

An item is not an asset of a government if it lacks one or more of the essential characteristics listed in the preceding paragraph. Thus, for example, an item does not qualify as an asset of a government if the item involves:

a) *no future economic benefit;*
b) *future economic benefit, but the government cannot obtain it; or*
c) *future economic benefit that the government may obtain, but the events or circumstances that give the government control of the benefit have not yet occurred*

The following supports the IESO's position that the regulatory asset possesses the three essential characteristics of an asset:

Embody future economic benefits that involve a capacity, singly or in combination with other assets, to provide goods and services, to provide future cash inflows, or to reduce cash outflows
The following excerpts from the FHP Act make it clear that the IESO is entitled to recover the regulatory asset through rates in the future:

Variance account to be established, maintained

24 (1) The IESO shall establish and maintain a variance account in which it records the following:

1. The IESO deferral for each month.

2. All payments received by the IESO resulting from the exercise of the right of recovery under section 25 and any transfer under section 26.

3. Such other adjustments as may be prescribed, including adjustments in respect of the period that commences on or after May 1, 2017 and before the day this section comes into force.

Recording determinative

(2) Subject to the correction of any obvious error by the IESO, its recording of the balance in the variance account is determinative of the balance as of the time of the recording.

Regulatory asset established

25 (1) Effective May 1, 2017, the IESO has the right, exercisable in accordance with this Act and the regulations, to recover the balance recorded in the variance account from specified consumers.

Board to set rates

(2) Subject to subsection (3), the Board shall, from time to time and in accordance with the regulations, determine and set rates payable by specified consumers to allow for the IESO to recover the balance recorded in the variance account.

Limitation

(3) The IESO shall not be entitled to collect all or part of the balance recorded in the variance account from specified consumers before May 1, 2021.

Accordingly, the regulatory asset, by statute, has the capacity to provide future cash inflows.

While perhaps obvious, paragraph 13 of PSAS 3210, ASSETS, confirms the generation of future cash flows represents a future economic benefit:

The future economic benefits embodied in an asset may also be in the form of generating future cash inflows. Cash inflows benefit the public sector entity because cash can be used to purchase or to provide goods and services, redistribute wealth or settle liabilities. Benefits in the form of cash inflows relate to resources, such as loans receivable, inventory for resale and portfolio investments. Also, some public sector resources generate cash inflows because they have user fees associated with them.

The ability of the regulatory asset to generate future cash flows is dependent on the future consumption of electricity by rate-payers. Although the timing of the recovery of the regulatory asset has not yet been established by statute, the recovery period is intended to be 30 years. Given the nature and extent of customer demand for the power generated and distributed in Ontario, both at this time and projected in the future, sufficient demand is expected to exist in the future to recover the regulatory asset. This conclusion, which is supported by Figure 19: Ontario's Forecast Electricity Production in Achieving Balance – Ontario's Long-Term Energy Plan, will need to be continually evaluated throughout the recovery period.

The willingness of unrelated third parties to fund the purchase of the regulatory asset from the IESO by OPG Trust also demonstrates the belief that sufficient demand will exist to permit its future recovery.

The guidance on forgivable loans in PSAS 3050, Loans receivable, provides an example where an asset can be recognized under PSAS based on the existence of sufficient evidence of a reasonable expectation of its recovery.

Commented [VC(14]: To update based on the new LTEP to be issued this fall.

Commented [LAP15]: Once the terms of the guarantee are finalized, I think we should comment (if true) that the guarantee relates to regulatory changes and does not cover lack of demand.

Also need to consider whether a different conclusion is reached on consolidation

CV -- agreed

The public sector entity can control the economic resource and access to the future economic benefits

Paragraph 16 of PSAS 3210, ASSETS, states the following:

A public sector entity controls the economic resource and access to the future economic benefits when it:

- *a) can benefit from the economic resource through its capacity to provide goods and services, to provide future cash inflows or to reduce cash outflows;*
- *b) can deny or regulate access to those benefits by others; and*
- *c) is exposed to the risks associated with the economic resource.*

The IESO can benefit from the regulatory asset through its capacity to provide future cash inflows in one of two ways:

1. *Collection through future rates*

Section 25 of the FHP gives the IESO the right to recover the regulatory asset through future rates:

Regulatory asset established

25 (1) Effective May 1, 2017, the IESO has the right, exercisable in accordance with this Act and the regulations, to recover the balance recorded in the variance account from specified consumers.

Board to set rates

(2) Subject to subsection (3), the Board shall, from time to time and in accordance with the regulations, determine and set rates payable by specified consumers to allow for the IESO to recover the balance recorded in the variance account.

2. *Sale to a financing entity*

Section 26 of the FHP Act permits the IESO to sell the regulatory asset:

26 (1) The IESO may from time to time, in accordance with this Act and the regulations, transfer a specified portion of the regulatory asset to a financing entity in accordance with this section.

Agreement

(2) An agreement between the IESO and a financing entity in relation to the transfer of a specified portion of the regulatory asset shall provide for consideration of a payment by the financing entity to the IESO in an amount equal to the amount of the specified portion.

Effect of payment

(3) Upon receipt by the IESO of the payment by the financing entity,

- *(a) the balance in the variance account shall be reduced by the amount of the payment;*
- *(b) the regulatory asset shall be adjusted accordingly;*
- *(c) the financing entity shall acquire a corresponding investment interest; and*
- *(d) the IESO shall retain no further right, title or interest in the corresponding investment interest.*

Since (a) the statutory right to recover the regulatory asset belongs solely to the IESO, and (b) the IESO is permitted, but not required, to sell the regulatory asset, the IESO can deny or regulate access to the future economic benefits of the regulatory asset by others.

The IESO is exposed to the risks associated with the regulatory asset, with the primary risk being that collection through the mechanism set out in Section 25 of the FHP Act is dependent on the future consumption of electricity by rate-payers.

The above analysis supports the position that the IESO controls the regulatory asset and access to the future economic benefits.

Commented [LAP16]: Once terms of guarantee are finalized, need to consider if it impacts this discussion. Impact may not be at IESO level, but on consolidation.

Commented [VC(17)]: See previous point – to reference to that discussion.

In reaching this conclusion, consideration was given to the following excerpt included on Page 37 of the 2008 Annual Report of the OAGO:

With regard to the second characteristic, we simply point again to the legacy of the former Ontario Hydro and its stranded debt. This in our view provides concrete evidence that even in monopoly situations governments do not have sufficient assurance that an enterprise will generate enough profits in future years to recover all of its past costs.

Although there needs to be sufficient assurance regarding the recovery of past costs, all relevant facts and circumstances need to be taken into consideration. Accordingly, the stranded debt of Ontario Hydro ~~can~~ may be relevant to the analysis, but not determinative on its own. As noted in the previous section, the recoverability of past costs will be continually assessed.

The transaction or event giving rise to the public sector entity's control has already occurred

When evaluating whether a transaction or event gives rise to control, the following guidance from PSAS 3210, ASSETS, provides helpful guidance:

.26
The past transaction or event that gives rise to control of an economic resource resulting from exchange agreements or contracts usually occurs at the point of exchange. This arises when substantially all the benefits and risks of ownership have been transferred to the public sector entity and normally coincides with the disbursement of funds, exchange of other assets or assumption of liabilities.
.28
The existence of a law, by-law or policy in relation to a particular program is not a past transaction or event that gives rise to control of an economic resource. Control does not exist until the underlying event occurs.
.29
The past transaction or event giving rise to control of an economic resource must have occurred by the financial statement date. Legislation having retroactive application cannot create a past transaction or event. Any economic resources related to that legislation would be accounted for in the current and relevant future periods, not in the period of the effective date of the legislation.

In the case of the regulatory asset, the above guidance in PSAS 3210 makes it clear that it is not the statute itself that is the transaction or event giving rise to the asset, it is the incurrence of costs for which recovery is provided for under statute. Accordingly, control over the economic benefits of the regulatory asset occurs when the IESO incurs a cash flow deficit that is recorded in the FHP variance account in accordance with Section 24(1) of the FHP Act:

24 (1) The IESO shall establish and maintain a variance account in which it records the following:

1. The IESO deferral for each month.

2. All payments received by the IESO resulting from the exercise of the right of recovery under section 25 and any transfer under section 26.

3. Such other adjustments as may be prescribed, including adjustments in respect of the period that commences on or after May 1, 2017 and before the day this section comes into force.

At this point in time, the IESO has incurred a cash outflow for which it is entitled to recover under Section 25 of the FHP Act:

Regulatory asset established

25 (1) Effective May 1, 2017, the IESO has the right, exercisable in accordance with this Act and the regulations, to recover the balance recorded in the variance account from specified consumers.

Board to set rates

(2) Subject to subsection (3), the Board shall, from time to time and in accordance with the regulations, determine and set rates payable by specified consumers to allow for the IESO to recover the balance recorded in the variance account.

The following excerpt from the IFRS Staff Paper on Rate-Regulated Activities prepared for discussion at the June 2017 IASB meeting presents a consistent view and dismisses the potential dissenting view that the transaction or event giving rise to the IESO's control is the future consumption of electricity by rate-payers:

A right arises from the rate-adjustment mechanism if the entity has already partially or fully fulfilled a regulatory requirement (past event) but the current regulated rate does not yet reflect the compensation that the entity is entitled to in exchange. Even though the entity cannot compel its customers to buy the regulated goods or services, the entity's right to charge an increased future regulated rate has the potential to produce for the entity an inflow of economic benefits that are not available to other parties. That right will be consumed as the entity includes the rate increase in future regulated rates and will lead to an inflow of economic benefits if customers pay the increased future regulated rate for the future delivery of goods or services.

Another potential dissenting view is contained on page 37 of the 2008 Annual Report of the OAGO:

With regard to the third characteristic, we do not believe that a rate-regulation decision can be considered a transaction or event giving rise to an asset or obligation because, as stated above, from the level of the government's consolidated financial statements such a decision is an internal event between two government-controlled entities. An equivalent analysis for rate-regulated liabilities leads to the same conclusion. PSAB standards preclude the inclusion of both gains and losses from such inter-company transactions. Therefore, our contention is that, at the consolidated financial statement level, rate-regulated assets and liabilities have no place and should be removed upon consolidation of the government's controlled entities.

It should be noted, however, that the OAGO's belief that a rate-regulation decision cannot be considered a transaction or event giving rise to an asset or obligation is not contrary to the IESO position. As noted above, it is not the statute itself that is being considered the transaction or event giving rise to the asset, it is the incurrence of costs for which recovery is provided for under statute.

In addition, one could argue the creation of the relevant statutes is not an internal event from the point of view of the consolidated government. Statutes must be passed by the Legislative Assembly of Ontario to become law. Since the Legislative Assembly is comprised of elected members, it can be viewed as the government's governing body.

Concluding the regulatory asset possesses the three essential characteristics of an asset in PSAS 1000.05 then begs the question as to whether the application of the guidance in ASC 980 is even necessary in this particular situation. Consistent with the statement in ASC 980 –340-25-1 that *rate actions of a regulator can provide reasonable assurance of the existence of an asset,* ASC 980 provides guidance as to how to apply the primary source of PSAS in the regulatory environment.

In a letter from the OAGO to the Board of Directors of the IESO dated June 22, 2017 (the OAGO Letter), the OAGO makes the following statement:

The definitions of an asset in the PSAS and FASB Conceptual Framework are similar. Similar to PSAS, rate regulated deferral accounts do not generally meet the definition of an asset in the FASB's Conceptual Framework.

However, the following excerpts from the Basis for Conclusions for FAS 71 (paragraph 58 in particular), clearly support that ASC 980 is an application of, not an exception from, the basic definition of an asset in the Conceptual Framework:

Economic Effects of Regulation

56. The second threshold issue in the Discussion Memorandum was: "Does rate regulation introduce an economic dimension in some circumstances that should affect the application of generally accepted accounting principles to rate-regulated enterprises?"

57. Most respondents to the Discussion Memorandum indicated that rate regulation does introduce such an economic dimension in some circumstances. Respondents cited the cause-and-effect relationship of costs and revenues as the principal economic effect of regulation that affects accounting for regulated enterprises. They noted that cost might be one factor used by unregulated enterprises to establish prices, but it would often not be the most important factor. Usually, prices are limited by the market. An unregulated enterprise might desire to price its goods or services at a level that would recover all costs and a reasonable profit; however, the market might not permit that price. Alternatively, an unregulated enterprise might be able to increase its prices and its profit if competition does not limit its prices. In either case, cost often is not the principal determinant of prices. In contrast, for an enterprise with prices regulated on the basis of its costs, allowable costs are the principal factor that influences its prices.

58. The economic effect cited by most respondents is the ability of a regulatory action to create a future economic benefit—the essence of an asset. For example, consider a regulated enterprise that incurs costs to repair damage caused by a major storm. If the regulator approves recovery of the costs through rates over some future period or is expected to do so, the rate action of the regulator creates a new asset that offsets the reduction in the damaged asset. The enterprise has probable future economic benefits—the additional revenue that will result from including the cost in allowable costs for rate-making purposes. The future benefits are obtained or controlled by the enterprise as a result of a past event—incurring the cost that results in the rate order. Thus, the criteria of Concepts Statement 3 for an asset are met.

The fact that many Canadian rate-regulated entities recognized regulated assets under Part V of the CPA Canada Handbook – *Pre-changeover Accounting Standards* (Part V GAAP) further supports the position that regulated assets do meet the basic definition of an asset under PSAS. Although Part V GAAP refers to rate regulation in several standards, it does not include cost capitalization guidance equivalent to ASC 980-340-25-1. It does, however, specify in paragraph 32B of Section 1100, *Generally accepted accounting principles*, that Section 1100 applies to the recognition and measurement of assets and liabilities arising from rate regulation beginning January 1, 2009. Since Section 1100.04 only permits the use of an alternate source of GAAP if it is consistent with Part V GAAP, regulated assets need to meet the basic definition of an asset under Part V GAAP in order to be recognized. The Part V GAAP definition of an asset in Section 1000, *Financial Statement Concepts* is consistent with the PSAS definition.

The CICA Research Report also concluded regulated assets meet the basic definition of an asset under Part V GAAP:

In the Study Group's view, the economic benefits and obligations created by rate regulation and resulting from past transactions or events, and the changes in these amounts, meet the definition of a financial statement element set out in Handbook Section 1000.

The OAGO Letter suggests that IFRS should be consulted prior to referring to ASC 980 under PSAS's GAAP hierarchy in PSAS 1150 and points out the following:

- In 2005 the International Financial Reporting Interpretations Committee (IFRIC) indicated the US GAAP recognition criteria for regulated assets were not fully consistent with IFRS and could not be applied by analogy.
- When the question of rate regulated accounting was posed to the IFRIC again in 2008, the IFRIC noted the topic had been previously addressed and there was a well-established practice of first time IFRS adopters ceasing rate regulated accounting and removing regulatory deferral accounts from their financial statements.
- In the Basis for Conclusions on IFRS 14, IFRS 14.BC30 noted the differences in the recognition criteria between IFRS and ASC 980 resulted in almost all existing regulatory deferral accounts being derecognized upon transition to IFRS.

While PSAS does not prescribe an ordering of consideration for sources other than primary sources, the statements made with respect to IFRS by the OAG have been considered. It should be noted, however, that the IASB's project on rate-regulated activities is still in progress and the OAGO Letter does not reference more recent and relevant activity. In September 2014, the IASB issued Discussion Paper DP/2014/02, *Reporting the Financial Effects of Rate Regulation*. The Discussion Paper presents the opposing views as to whether regulatory deferral account balances meet the definitions of an asset or a liability and specifically states the following in paragraph 5.09:

Consequently, the IASB has not formed a preliminary view on whether regulatory deferral account balances meet either the current or proposed revised Conceptual Framework definitions of an asset and a liability. It will use the input received from the responses to this Discussion Paper and the Conceptual Framework project to help it assess whether to develop any specific accounting guidance or requirements for rate-regulated activities.

In addition, the most recent paper issued by the IASB staff in June 2017 includes the following:

17. During the May 2017 Board meeting we also considered the interaction between the definitions of assets and liabilities and the characteristics of defined rate regulation (see paragraphs 5 and 6). We concluded that a combination of those characteristics suggested that the rights and obligations created by the rate-adjustment mechanism are assets and liabilities, as those terms are expected to be defined in the forthcoming revised Conceptual Framework for Financial Reporting.

The Exposure Draft ED/2015/3, *Conceptual Framework for Financial Reporting*, defines an asset as follows:

4.5 An asset is a present economic resource controlled by the entity as a result of past events.
4.6 An economic resource is a right that has the potential to produce economic benefits.

This recent activity suggests that it would be premature to assume that the IASB will conclude that regulatory deferral account balances will not meet the definitions of an asset or a liability.

Once it is determined that the regulatory asset meets the basic characteristics of an asset in PSAS 1000.36, consideration also needs to be made as to what type of asset it is. This is important because PSAS 1000.58 does not permit the recognition of intangible assets:

In the absence of appropriate public sector recognition and measurement criteria for intangibles, all intangibles, including those that have been purchased, developed, constructed or inherited in right of the Crown, are not recognized as assets in government financial statements. The intangible often called "human capital" that embodies the talent or intellectual capital of government employees is not recognized as an asset under existing accounting principles.

PSAS 1000 identifies two types of assets: financial assets and non-financial assets and provides the following commentary:

.39 Financial assets are assets that could be used to discharge existing liabilities or finance future operations and are not for consumption in the normal course of operations.

.40 A financial asset is any asset that is:

- *a) Cash*
- *b) a realizable asset that is convertible to cash;*
- *c) a contractual right to receive cash or another financial asset from another party;*
- *d) a contractual right to exchange financial instruments with another party under conditions that are potentially favourable to the government;*
- *e) an equity instrument of another entity;*
- *f) an investment in a government business enterprise or government business partnership;*
- *g) a financial claim on an outside organization or individual; or*
- *h) an inventory or item for sale that meets the criteria in FINANCIAL STATEMENT PRESENTATION, paragraph PS 1201.055.*

.41 Non-financial assets include tangible capital assets, and other assets such as prepaid expenses and inventories of supplies.

.42 Non-financial assets are acquired, constructed or developed assets that do not normally provide resources to discharge existing liabilities, but instead:

- *a) are normally employed to deliver government services;*
- *b) may be consumed in the normal course of operations; and*
- *c) are not for sale in the normal course of operations.*

PSAS 3210, ASSETS, also provides some relevant guidance:

.24 Non-financial resources include all items of a fixed or permanent nature (such as tangible capital property), claims to goods and services (such as prepaid items) and consumable goods (such as inventories of supplies). Non-financial resources also include intangibles, Crown lands and natural resources.

.25 Certain non-financial resources are, however, not given accounting recognition as assets in government financial statements. For example, all government intangibles, and all natural resources and Crown lands that have not been purchased by the government, are not given accounting recognition in government financial statements. A government's non-financial assets, as defined in FINANCIAL STATEMENT CONCEPTS, Section PS 1000, comprise the recognized non-financial resources of a government.

Although PSAS does not permit the recognition of intangibles, it also does not provide a definition of intangibles. In absence of specific guidance in PSAS as to what constitutes an intangible, U.S. GAAP is probably the most appropriate source to consult, in light of the fact that it deals specifically with regulated assets. Under U.S. GAAP, a regulated asset is not treated as an intangible. ASC 980 contains separate subsections for 'Intangibles – Goodwill and Other' and 'Other Assets and Deferred Costs' and regulated assets are included in the guidance on 'Other Assets and Deferred Costs'.

In accordance with PSAS 1201.040(a), financial assets are presented separately on the statement of financial position. The IESO classifies its regulated assets (i.e., the original variance account and the

regulated assets relating to unrecovered smart metering expenses and unrecovered PSAB transition items) as financial assets.

Although the regulatory asset created under the FHP does not clearly meet the definition of either a financial asset or a non-financial asset under PSAS, ~~Consistent with these other regulated assets, the regulatory asset created under the FHP meets the definition~~ it possesses characteristics more consistent with that of a financial asset ~~in PSAS 1000.39~~ since it will be available to discharge existing liabilities or finance future operations and is not for consumption in the normal course of operations.

The FHP is expected to be executed in a manner such that the regulatory asset will be available to discharge existing liabilities or finance future operations in the short term through its commoditization (i.e., transfer to the OPG Trust). However, even if not commoditized, the regulatory asset will ~~Although the regulatory asset is not~~be available to discharge existing liabilities or finance future operations in the future similar to, for example, a long-term receivable. ~~existing at the date of the statement of financial position, that is no different than, for example, a long-term accounts receivable.~~

By recognizing the regulatory asset ~~as a~~in a manner consistent with that of a financial asset, the FHP will have a neutral impact on both the Province's net debt and accumulated deficit, which appears appropriate and aligned ~~-~~with the intent of guidance in PSAS 1100, Financial statement objectives:

Financial statements should present information to describe the government's financial position at the end of the accounting period. Such information should be useful in evaluating:

a) *the government's ability to finance its activities and to meet its liabilities and contractual obligations; and*
b) *the government's ability to provide future services.*

A government's net debt is an important indicator of a government's financial position, highlighting the financial affordability of future government service provision. A net debt position represents a "lien" on the ability of the government to apply financial resources and future revenues to provide services. Non-financial assets are added to net debt to calculate the other indicator of a government's financial position — its accumulated surplus or deficit. Non-financial assets are "prepaid service potential". Reporting a government's recognized non-financial resources as part of its financial position provides information necessary for a more complete understanding of a government's debt position, financial position and future operating requirements.

Governments provide public services and redistribute wealth for a variety of social and economic purposes. To meet those objectives, governments need information about the cost of services and the affordability of services. An understanding of the extent of the financial "lien" the government has on its ability to provide future services as a result of past transactions and events is essential information. Governments also need to have an appreciation of the magnitude of the total economic resources they have on hand to deliver services. A government's net financial resources / net debt position, assessed in combination with the non-financial resources position of the government, provides a measure of the net recognized economic resources available to the government at the financial statement date to provide services in the future.

If the regulatory asset is not recognized ~~as~~ in a manner consistent with that of a financial asset by the GRE, the Province's net debt will increase significantly, suggesting that the Province has a much higher future revenue requirement. This would be inaccurate, however, since the regulatory asset is going to be recovered under statute from electricity consumers, not taxpayers.

Commented [LAP18]: Consider need to specifically address PS 3450.

Commented [LAP19]: Consider if Balanced Budget Legislation should be addressed

Additionally, while an increase in net debt and/or accumulated deficit in the financial statements of the GRE would be an indicator the Province's financial position has deteriorated in accordance with PSAS 1200.036, the FHP is designed to, in substance, have a neutral impact on the Province's financial position.

Sale of the Regulatory Asset [NTD – Need to consider impact of guarantee when finalized, but may only impact at consolidated level if IESO not a party to guarantee]

Commented [VC(20]: To add

As discussed above, IESO management has concluded the regulatory asset created by the FHP can be recognized as a regulated asset for accounting purposes in the financial statements of the IESO in accordance with the guidance in ASC 980.

Since the IESO does not have the financial capability to finance the regulatory asset, OPG intends to establish a financing entity (OPG Trust) to purchase the IESO's regulatory asset on a monthly basis to eliminate any cash shortfall in the IESO. Through this arrangement, OPG Trust will finance these purchases through a combination of provincial borrowing (flowed through OPG as an equity investment), amounts advanced from OPG and direct borrowing from capital markets.

The sale of the regulatory asset to OPG Trust is permitted under Section 26 of the FHP Act:

> *26 (1) The IESO may from time to time, in accordance with this Act and the regulations, transfer a specified portion of the regulatory asset to a financing entity in accordance with this section.*
>
> *Agreement*
>
> *(2) An agreement between the IESO and a financing entity in relation to the transfer of a specified portion of the regulatory asset shall provide for consideration of a payment by the financing entity to the IESO in an amount equal to the amount of the specified portion.*
>
> *Effect of payment*
>
> *(3) Upon receipt by the IESO of the payment by the financing entity,*
>
> *(a) the balance in the variance account shall be reduced by the amount of the payment;*
>
> *(b) the regulatory asset shall be adjusted accordingly;*
>
> *(c) the financing entity shall acquire a corresponding investment interest; and*
>
> *(d) the IESO shall retain no further right, title or interest in the corresponding investment interest.*

Consideration needs to be made as to whether the sale of the regulatory asset is accounted for as a sale transaction or a financing transaction. If treated as a sale transaction, the existing regulated asset is derecognized (DR Expense, CR Regulated Asset) and the cash received is recognized as sales proceeds (DR Cash, CR Revenue). Since the cash proceeds received are equal to the book value of the regulated asset, there is no net impact to income. If treated as a financing transaction, the existing regulated asset continues to be recognized and the cash proceeds received are treated as a loan (DR Cash, CR Payable).

Commented [VC(21]: Do you think IESO should recognize revenue and expense – vs. a gain of NIL?

IESO management has concluded the sale of the regulatory asset to OPG Trust will result in the derecognition of the regulated asset (i.e., sale transaction). The IESO's auditors, KPMG, concur with this position, as evidenced from the following excerpt from the KPMG Letter:

We have considered the foregoing analysis and management's conclusion. We concur that the regulatory asset should be derecognized on transfer to the OPG Trust as IESO no longer has rights or future economic benefits associated with the asset.

PSAS provides little guidance relating to the derecognition of an asset. In particular, PSAS 1000, *Financial statement concepts*, PSAS 3210, *Assets*, and PSAS 3450, *Financial instruments*, are all silent on

the topic. Although the transfer of the regulatory asset is not within the scope of PSAS 3430, *Restructuring Transactions*, the following derecognition guidance in this standard provides some relevant insight:

.21 Individual assets and liabilities transferred in a restructuring transaction should be derecognized by the transferor if they no longer meet the definitions of assets and liabilities and applicable recognition criteria at the restructuring date.

.24 When a transferor continues to be involved in the individual assets and/or liabilities it transferred to a recipient subsequent to the restructuring date, it would assess the nature and extent of its continued involvement against the definitions of assets and liabilities and applicable recognition criteria to evaluate whether:

(a) derecognition of the asset and liability transferred would be appropriate; and
(b) its continued involvement gives rise to a new asset or new liability that needs to be recognized.

.25 A new asset or new liability may arise from a restructuring due to a transferor's continued involvement in the individual assets and liabilities transferred (for example, if it agrees to guarantee repayment of all or a portion of a transferred liability or leases back a portion of a transferred asset). As the new asset or new liability is not transferred, together with related program or operating responsibilities, they are not part of the restructuring transaction. They would be accounted for in accordance with individual Sections of the PSA Handbook by both the transferors and recipients.

The IESO should derecognize the regulated asset when transferred to OPG Trust if it no longer meets the definition of an asset in PSAS 1000.35-.36. However, consideration should also be made as to whether the IESO has any continued involvement in the regulatory asset that would result in the recognition of a new asset and/or a new liability (i.e. financing transaction).

The following supports the IESO's position that subsequent to the transfer to OPG Trust, the regulatory asset no longer possesses the three essential characteristics of an asset in PSAS 1000.36 and, therefore, should be derecognized:

Embody future economic benefits that involve a capacity, singly or in combination with other assets, to provide goods and services, to provide future cash inflows, or to reduce cash outflows
The future economic benefits embodied in the regulated asset are realized by the IESO through the transfer of the regulatory asset to OPG Trust in exchange for cash. As noted above, under Section 26(2)(d) of the FHP, the IESO retains no further right, title or interest in the regulatory asset transferred to OPG Trust. Accordingly, there is no remaining future economic benefit to the IESO.
The public sector entity can control the economic resource and access to the future economic benefits
Although the IESO will collect funds on behalf of OPG Trust, the following sections of the FHP support that control of and access to the future economic benefits of the regulatory asset pass to OPG Trust: *Section 16 - IESO to receive amounts* *2) The IESO shall, as agent of the investment interest owners, receive amounts in respect of the clean energy adjustment paid to it from electricity vendors in accordance with the market rules made under section 32 of the Electricity Act, 1998 or the regulations.*

4) All amounts received by the IESO in respect of the clean energy adjustment shall, until remitted to or for the benefit of the investment interest owner, be held in trust by the IESO for the investment interest owners. *5) The IESO shall remit amounts received by it in respect of the clean energy adjustment, inclusive of interest earned on the amounts referred to in subsection (1), to or for the benefit of the investment interest owners in accordance with the regulations.* *Section 29 - Irrevocable rights and interests* *1) The investment asset constitutes a current and irrevocable property right and interest consisting, collectively, of the following rights and interests of investment interest owners:* *1. The right and interest to impose, invoice, collect, receive and recover the clean energy adjustment from specified consumers, including the right to determine the clean energy adjustment in accordance with this Act.* *2. The right to receive, collect and recover the clean energy adjustment that is imposed, invoiced and recoverable under this Act, including any amounts in respect of the clean energy adjustment that are held by electricity vendors, IESO and other prescribed parties.*
The transaction or event giving rise to the public sector entity's control has already occurred
Not applicable as IESO does not control.

As previously noted, the IESO relinquishes its rights, title and interest in the regulatory asset upon transfer to OPG Trust. Subsequent to the transfer, the IESO's only continuing involvement is to act as agent of OPG Trust, which involves receiving funds and holding them in trust on behalf of OPG Trust. This level of continuing involvement does not result in the recognition of a new asset and/or a new liability by the IESO. Accordingly, it is appropriate to account for the transfer of the regulatory asset as a sale and derecognize the regulated asset.

Derecognition of the regulated asset is also consistent with ASC 980. ASC 980-340-40-1 provides the following guidance on the derecognition of an asset that has been recognized in accordance with ASC 980-340-25-1:

If at any time an entity's incurred cost no longer meets the criteria for the capitalization of an incurred cost (see paragraph 980-340-25-1), that cost shall be charged to earnings.

In order for an incurred cost to be capitalized, ASC 980-340-25-1(a) requires the following:

It is probable (as defined in Topic 450) that future revenue in an amount at least equal to the capitalized cost will result from inclusion of that cost in allowable costs for rate-making purposes.

The capitalization criterion in ASC 980-340-25-1(a) is no longer met after the regulatory asset is transferred to OPG Trust because there are no future cash inflows that benefit the IESO. As mentioned above, the IESO realized the economic benefits associated with the regulatory asset upon the transfer. In accordance with Section 16 of the FHP, any future cash collected by the IESO is on behalf of OPG Trust.

.....

Debits and Credits

Based on the example provided earlier, the IESO pays the contracted power generator $400 for electricity used by the ratepayer and collects $300 from the ratepayer through their local distribution company (LDC). The $100 recovery shortfall is recorded in a variance account created by Bill 132 and deemed to be a regulatory asset. The IESO sells the regulatory asset to OPG Trust for $100 to obtain cash to make up the shortfall.

The accounting for the above transactions in the financial statements of the IESO, which are prepared in accordance with PSAS are set out in Scenario A in the table below. For comparison purposes, Scenario B in the table below sets out the accounting if it is determined ~~, depends on whether~~ the regulatory asset is not eligible for recognition as an asset ~~for accounting purposes~~ under PSAS. ~~To avoid confusion in the remainder of this document, the term regulatory asset will refer to the defined term in the FHP Act and the term regulated asset or rate-regulated asset (RRA) will refer to an asset recognized for accounting purposes. The following table illustrates the journal entries to be booked by the IESO under both scenarios:~~

Scenario A – Regulated Asset			Scenario B – Not a Regulated Asset		
Market Settlement					
DR	Cash	300	DR	Cash	300
DR	Asset	100	DR	Expense	100
CR	Cash	(400)	CR	Cash	(400)
Sale of Regulatory Asset to OPG Trust					
DR	Cash	100	DR	Cash	100
CR	Revenue	(100)	CR	Gain	(100)
DR	Expense	100			
CR	Asset	(100)	~~CR~~	~~Gain~~	~~(100)~~

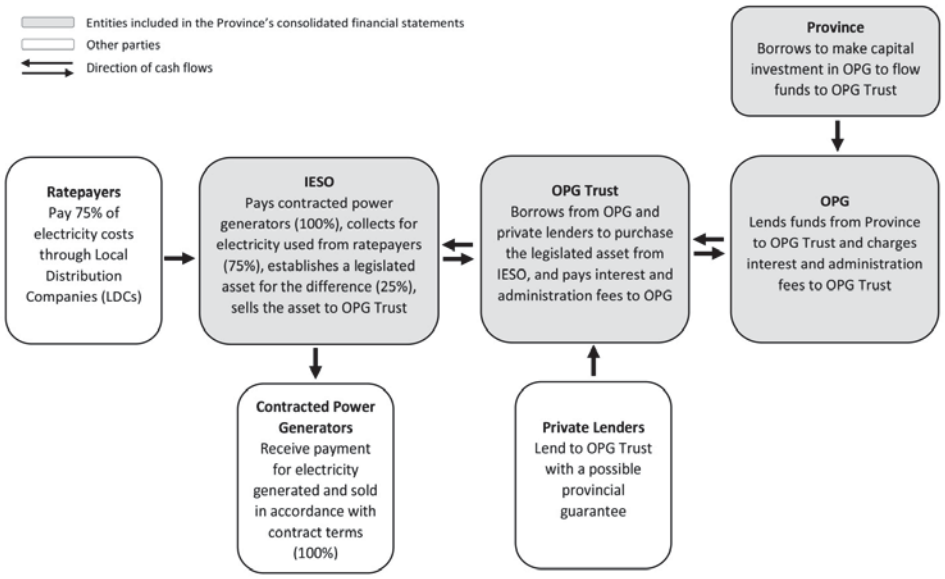
Commented [OPCD22]: Consider inserting 2 additional lines for impact on net debt and impact on annual surplus/deficit? If not sold by the end of the year, will have a loss on the IESO f/s and the province's f/s.

Commented [LAP23]: Maybe better to do once we add the consolidation section which would reverse the gain.

At any given point in time, the accounting result will be the same under both scenarios provided the cash shortfall has been fully funded. If a funding deficit exists, however, the deficit would be recognized as an asset under Scenario A and recognized as an expense under Scenario B. A funding deficit may arise due to, for example, temporary timing differences between the creation and sale of a regulatory asset. A funding deficit may also arise if OPG Trust (or another financing entity) ceases to purchase the IESO's regulatory assets on an on-going basis.

APPENDIX A

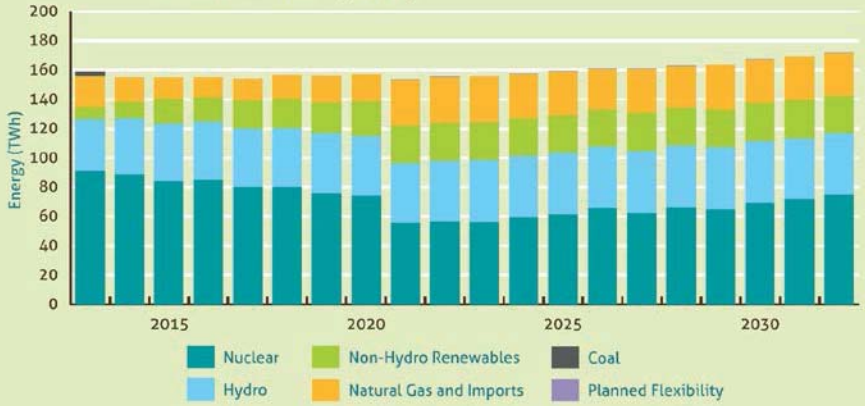
Proposed Legislated Transaction Structure
Prepared by the Office of the Auditor General of Ontario



Commented [OPCD24]: Can chart be expanded to include impact on CFS (consolidation of IESO reflecting RRA on CFS, Interest Income from OPG through revenue of GBE will help to offset borrowing costs incurred by Province on equity injection).

APPENDIX B

Figure 19: Ontario's Forecast Electricity Production (TWh)



Notes: The Planned Flexibility identified in Figure 19 is required to meet peak requirements and represents less than 1 TWh of energy per year. Forecasting of electricity production includes the expectation of imports and exports of electricity in all years. Imports and exports are an important component in managing the operation of the electricity system. As a result, electricity production forecast exceeds the forecast Ontario consumer demand.

Subject: RE: EY/OPCD Status Updates
Date: Friday, November 03, 2017 09:48:47

Good morning, Suzie,

Items we're tracking that we need to follow-up on:

- Final protection agreement (guarantee)
- FE control assessment
- Overview – stranded debt transaction (referenced in AG report)
- impact of interest during moratorium; regulations
- "legislated" accounting – perspective
- Status/impact of L/C re: small LDCs
- Intangible assets (OPG)

If there's any you think are missing, happy to add. The protection agreement is on fast-track to land very soon, and the FHP regs are currently tracking through approvals. We'll update on our next call.

Thanks,
Mark

Subject: RE: EY/OPCD Status Updates

Hi Mark:

That is fine from my end. Are you able to send us the list of outstanding work that you were pulling together so that we can review and add as appropriate? Also, any news on guarantee or regs?

Thanks,

Suzie

Hi All,

Cindy is away tomorrow and there are some deliverables I had promised that I still need to compile, so I'm going to suggest (unless there is opposition) that we cancel tomorrow's call. Apologies for the late notification.

If there's anything you think we should check in on, please let me know and we can still do that.

Will send you those products by EOD tomorrow.

Cheers,

Mark

Mark Donaldson, CPA, CMA

Hi Everyone – thanks for the time yesterday.

I updated Cindy and we decided what we would like to do is prepare an addendum to our position paper that speaks to the response provided by the OAGO and identifies any new positions raised. In so doing, the addendum can then refer back to specific positions discussed in the paper and/or expand on them and confirm how our position does (or doesn't) change based on the response. This document will be an internal file document for future reference.

Hope that provides more clarity on how we want to proceed. Given the time available to us, perhaps we can schedule some time to do a quick check-in next Friday morning, if that works?

Thanks … happy to chat further anytime.

Mark

Normally, in a related party transaction, one party would set up an asset the other party should have a liability (or a reduction of asset). Given this principle, in my view, the proper accounting should be a hit to the Province or IESO books to offset the asset on the sale to OPG reflecting the sale of future cash inflows. Without a regulatory asset, this would result in the deferred amount flowing through the provincial deficit.

Thanks John.

I was thinking that the asset was sold on a daily basis but not necessarily settle on a daily basis.

The reason of the daily sale was to match the energy cost incurred to avoid having an accounting loss.

Instead of daily, the sale could take place on, at least, on a monthly basis to avoid any accounting impact on IESO's monthly income statement. The settlement should be made to meet the cash outflows requirement.

I believe there is a risk for the AG to refuse rate regulated accounting under PSAB. Without the intervention of the OEB, OPG should be able to get a better rating of the bonds.

Sent from my iPhone

On Feb 25, 2017, at 13:05, MAUTI John -FIN & C CTRL <john.mauti@opg.com<mailto:john.mauti@opg.com>> wrote:

Michel,
I believe this approach increases the risk of seeing through what this transaction is and having it hit the Provincial deficit immediately. Plus, the transaction would incorrectly be viewed as an OPG only transaction with the GA rebate being on account of OPG.

We've discussed the optics in the past of the IESO not showing the acquisition / set up of an asset through the "speed" with which it is absorbed and picked up by OPG. We've taken it to the extreme of the position that the asset is never on the IESO's books because it settles daily (so it's not a tranche on a quarterly or semi annual basis but basically 365 tranches per year).

What you're suggesting is that OPG recognizes an asset that the IESO so no ability to set up on its own. Doing it daily does not change that fact in my opinion.

My suggestion:
“Desire to be involved” was never a criteria for this plan..... why not compel the OEB to adhere to the legislation and write them in to limit their involvement to ensuring the recovery is as per allowed in the legislation (no ability to alter or really make any decision other than the legislation and subsequent regulation are being followed). Legislation and regulation that directs the OEB to do things is standard practice and is not something that the OEB can determine or dictate.

Thanks
John Mauti

Subject: EXTERNAL – New thinking

*** Exercise caution. This is an EXTERNAL email. DO NOT open attachments or click links from unknown senders or unexpected email. ***

All,

As you know by now, the OEB believes that they should not be involved with the approval process of the regulatory asset.

In the absence of regulatory accounting, PSAB requires that the energy purchased (the unrecognized regulatory asset) be expensed immediately.

If the sale contract would be set-up in a way that the unrecognized asset is sold to the OPG Trust on a daily basis, then an offsetting revenue would be recorded.

As IESO is an agent for the market participants, IESO is showing the market transactions in the income statement on a net basis.

Therefore, no impact on the income statement and the sale would be recorded as a receivable from the OPG Trust.

The accounting treatment in the IESO’s books should not impact the nature of the asset purchased by the OPG Trust, as I believe it would still be considered an intangible asset.

The new accounting approach would:

· not require the approval of the OEB;
· not require IESO to adopt regulatory accounting under PSAB; and
· permit the legislation to be as tight as possible for the right to collect the intangible asset; and
· not require the consolidation of the market books.

I would appreciate your comments on the proposed approach above.

Ps: Is this the magic that Andrew was expecting!

Good suggestion from Gadi – we should probably touch base internally in advance of meeting with OPG. I wonder if we could try for a quick 30 min phone call either tomorrow or Friday.

I will reach out to OPG to set something up for next week.

Hi,

Please see the following comments from OPG / Torys on the guarantees.

I wonder if we are now at a point we should suggest sitting down with OPG on this perhaps early next week.

Thanks,

Scott

Scott:

Further to our discussion on the outstanding issues, please find below the comments from the Dealers on the "Markup" of the Provincial Protection and Assurance term sheet.

As noted below, the next step should be to get the appropriate parties from the Province to sit down with the dealers and OPG to go over the points and agree on a basis to move forward.

We should try to do that sometime next week. Let us know what times work on the Province side and we will coordinate with the Dealers & counsels.

John

Subject: EXTERNAL – Comments on Provincial Protection and Assurances Term Sheet - Fair Hydro

*** Exercise caution. This is an EXTERNAL email. DO NOT open attachments or click links from unknown senders or unexpected email. ***

John/Les/Ken,

Please find below an issues list on the Province's comments on the Provincial Protection and Assurances Term Sheet (formerly the Provincial Support Agreement). This list reflects input from the dealers, Oslers and Torys. Please let us know if you have any additional comments or questions. If not, will you be reaching out to the Province to schedule a meeting next week (with the dealers, OPG, the Province and their counsels) to discuss these points? The dealers and their counsel don't see value in exchanging further drafts of the term sheet until they have had an opportunity to meet with the Province. We agree with this approach and are happy to assist in coordinating a meeting for next week. It would also be helpful to hear the Province's rationale and concerns for making some of these changes. Please let us know.

Many thanks,

Nina

1. The Servicing Guarantee:

(a) It is written in favour of only the financing entity. However, in the MTSA, we are asking for covenants directly in favour of Indenture Trustee. The Indenture Trustee/specified creditors should have the direct benefit of the guarantee rather than relying on an indirect security interest in the servicing guarantee.

(b) It should be clarified that the servicing obligations of the electricity vendors are covered.

(c) If the guarantee is unenforceable, we should fall back to an indemnity, not a "functionally equivalent direct covenant" which is an uncertain concept.

(d) We don't want an exclusion for economic loss. That may cover whatever losses the specified creditors do suffer.

2. Change of Law.

(a) This should be written as a guarantee not an indemnity.

(b) It should be directly in favour of the Indenture Trustee/specified creditors and it should cover all the “finance amount” and not just funding obligations.

(c) We do not want the guarantee to be provided by another entity which is in turn guaranteed by Ontario. It should come directly from Ontario.

(d) There should be no “materiality” threshold for a claim. If obligations are not paid in full, then there should be a claim.

(e) The choice to assume or accelerate should be at the option of the holders, not the guarantor.

(f) If accelerated, then the 1% premium should be payable. This is a voluntary termination by the Province.

3. Undertaking Regarding Mismatches (market disruption)

(a) At best this structure defers the discussion of protection for a market disruption. At worst, it is impractical that take-out financing needs to be arranged in advance of each warehouse financing. We should rely on a definition of market disruption.

4. Approvals.

(a) Province to clarify what is contemplated under the heading “Approval Requirement”. Is Province proposing to approve any obligation incurred by the Financing Entity?

(b) Approval under Section 28 of the *Financial Administration Act* to be attained (in case the OFHPA is declared void in its entirety).

Stephen,

I am attaching our revised version of the draft legislation, together with a blackline against the last version that you circulated to this group. It is being circulated to OPG at the same time as everyone else and so remains subject to their comments. Also, this draft reflects input that we received from the Dealers and their counsel although they too will be receiving our revised draft without having seen an earlier version.

Subject: "Fair" Legislation (Discussion Draft)

Thanks for your comments, Michael. The attached version picks up many of your, Peter's and H&W's comments. In some cases it defers consideration, pending dealer input (such as your suggestion of tracking individual, standalone Regulatory Assets per transaction; delinking the investors from the LDCs, in favour of having IESO be the main servicer; and deleting some of the US precedent language). The regulatory input included in your mark-up was particularly helpful, although not easily dealt with tonight without the Province's input, so many of those points have simply been brought forward with additional footnotes for now. The manner and extent of delegations (primarily the Financing Plan and the Fair Allocation Plan), the nature of OEB review and regulatory actions, the scope of the undertaking and other similar issues, are still under consideration by MOE. Your comments to the effect that nothing can affect a funding obligation once incurred were referenced, as I think that is a pervasive and correct idea. The ultimate location of provisions (Part of the Electricity Act; new Act; Regulations) is still under consideration – for now it's all in this document to facilitate this group review. Finally, there are a number of "validity" type points, which arose in your mark-up and which we are still thinking about. We can discuss those further in the morning. Steve

Subject: Torys Comments on Blakes Draft Legislation

All,

I am attaching our comments on the last version of the draft legislation sent to us by Blakes. Both a clean and blacklined version are attached.

This is being distributed to OPG at the same time as everyone else and so remains subject to their comments as this is very much a work in process.

We also just received comments from Hunton & Williams but in the interests of time we have not been able to include those in our mark up, but expect to be in a position to raise any of their big issues at our meeting tomorrow. Also, I will send their comments separately to Blakes.

Regards,

Michael K. Feldman

FHP OEB

The draft as currently configured departs some way from the original intent of the FHP, which was expressed as relating to refinancing the Global Adjustment as an input to the RPP.

The OEB suggests that it would be simpler, more in keeping with the announcement and the current regulatory structure in place in Ontario, and and still familiar enough to the Markets to use the RPP approach currently in place, by leveraging existing IESO processes and OEB regulatory tools.

The approach of having each ratepayer obligated is problematic as it raises serious enforcement issues, is unnecessary as will be explained further below, and does not work as a component of RPP.

<u>Using current RPP price setting regime</u>

- The new proposed commercial regime proposed in the April 6th draft is different from the regime that Ontario currently has and would likely be more costly to set up. It essentially sets up a parallel collection scheme in order to provide commercial certainty. This parallel regime which has as a tenet that each individual rate payer is a debtor, is not necessary, as an effective scheme is already in place.

- Currently a Ratepayer pays its commodity charges based on usage under the Regulated Price plan (RPP).)This is accomplished through the RPP price setting exercise undertaken by the Board, in accordance with The OEB Act section 79(16) and the accompanying regulation. This system is well established and workable for the type of ratepayers this plan will cover.

- The OEB does not see the value/rationale for a "fixed cost" attribution. If the Allocation Factor is set as a cents/kwh charge, then this charge could be included in RPP and have the advantage of also working as a bypass charge by relying on Gross Load billing (similar to the Debt retirement charge.) for any ratepayer who chooses to load displace/net meter.

- the best approach would be for the Administrator to provide the required information to the IESO and the OEB on the amount to be recovered. Based on that information, the OEB would calculate RPP cost, then design the prices. The bypass charge would be calculated using the cost from the Administrator to calculate a per/kwh amount, in the same way the OEB calculates the RPP Variance settlement factor today that LDCs charge a customer who is exiting the RPP. That same per/kwh should be used for RPP eligible consumers.

- The specified amount if it is a cents/kWh would work for RPP (allocated to TOU) and could be used for calculating some form of amount owing (for bypass).The Transition Charge could be billed on a Gross Load basis so that whether a ratepayer was net metered or had complete load displacement there would still be a charge each month, just as there was for DRC (all self-generation after 1999 had to pay DRC on a gross load basis.)

- In terms of variances, there could be one RPP variance that would track the difference between what is paid by Ratepayers and what is owed (Transition Charges + Market variance + weather+ exit/bypass payments for Load displacement and net metering).. IESO would need to have a separate variance for the non RPP customers, with similar costs collected.

- the Rights sections would need to be drafted differently so it is clear a Ratepayer Group is responsible (not individual ratepayers) That Ratepayer Group would be the RPP class plus the RPP Eligible class, plus potentially any others one may want to include.

- This approach would be much simpler to draft and for the markets here to understand as it uses existing well understood and enforceable processes . It could follow what is in GA legislation today rather then being completely and wholly new.

<u>Ability to make sure payments are made</u>

- the current draft seeks to ensure that all amounts advanced by Creditors are secure. It does this by making each individual rate payer in effect a debtor, with the OEB and the LDCs acting as enforcers. This is neither desirable nor necessary. (FN 19 –makes the LDCs responsible. This could be a serious issue for the scheme as this could affect credit ratings for the LDCs with a corresponding upward pressure on distribution rates.)

- The charges should not be enforceable against individual ratepayers, but should be enforceable by virtue of requiring the LDCs to collect charges from ratepayers through the RPP rate order. This type of enforcement would rely on existing OEB powers with which the market, including current credit agencies is familiar.

- Under the rates/licensing regime that is in place the OEB can Order/obligate the LDCs to collect an amount (and require compliance with those Orders. The Rate Order would therefore ensure collection and repayment

- There are also other statutory provisions in place which make the payment of the amounts owing secure. See Chapter 9 of IESO's market rules which spells out settlement and billing for various charges; Refer also to sections 25.33 of the Electricity Act (adjustments to ensure prices reflect the cost of electricity) and 32 (market rules) .

- The OEB licensing regime has supported the other government initiatives and can support these processes. The licensing regime, together with the rate orders would support the repayment of the amounts. The whole market/sector today relies on the OEB Licensing and Enforcement powers.

<u>OEB role in approving the Treasury (Financing Plan)</u>

- The OEB agrees that it should not be required to assess the prudence of the Treasury Plan as approved by the OPG trust.

- if there is a desire for some oversight role the OEB would suggest that it be limited to a role akin to the role it was given in the IPSP approval process, which was basically to confirm the Plan meets the government's expectations (some version of what is set out in the Schedule).

- One approach might be to assess the rigour of the process a company designs to issue debt/arrange repayment, and perhaps also an examination of the extent to which the company followed its own plan. This could be akin to the way the OEB would have approved OPA's procurement strategies (but not the results) after an IPSP approval.

<u>OEB role in setting up the regulatory asset</u>

- Legislation has in the past established deferral or variance accounts (IESO, OPG) and in some cases the OEB issued accounting orders as a formality effectively duplicating what is in the regulation, for administrative ease (e.g. OPG COS payment amount orders include accounting orders for all active accounts – old and new) in the absence of further information we cannot comment further on what is contemplated here

<u>Other matters</u>

(FN 16) speaks to expanding the base to include suite-metered customers,the OEB would clarify for the drafters that ALL suite metered customers are customers of Electricity Distributors (as they get supply at bulk meter).

Also in definitions "Electricity Distributor" needs to be tied to rate-regulated, otherwise Cornwall is caught.

SETOR1-#6707378-v3-Fair_Hydro_Act.pdf

CONFIDENTIAL AND PRIVILEGED

Preliminary Draft for Discussion Purposes Only

"Fair Hydro Act"

Article 1 – Purpose

The Province has and continues to encourage the construction and development of facilities for the long-term operation and generation of electricity in the Province using sustainable, lower carbon-based technologies such as new gas-fired generation, renewable facilities, energy from waste and biomass, including under the Province's various procurement, standard offer, feed in tariff and other similar programs (the "Green Generation Initiative"). The long-term benefits of the Green Generation Initiative accrue over time and have benefited and will benefit present and future electricity consumers in the Province.

The imputed costs of the Green Generation Initiative are currently passed through to electricity consumers by way of a monthly adjustment amount (the "Green Costs Adjustment"), which in turn forms part of the overall adjustment calculated by the Independent Electricity System Operator ("IESO") pursuant to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* (the "Global Adjustment"). The Global Adjustment is included as a charge billed to electricity consumers in their monthly electricity invoices.

The Green Costs Adjustment is currently determined each month by reference to the amounts paid by IESO to the generators of electricity in the Province under the Green Generation Initiative, which may be higher than prevailing market price for electricity. These differences arise because IESO has entered into long-term procurement contracts with such generators in order to provide them with long-term price certainty for electricity, and in turn to encourage the generators to develop technologies and to construct and develop facilities consistent with the Green Generation Initiative. In general, whenever amounts payable under these procurement contracts exceed the market price for electricity, the Green Costs Adjustment passes through the amount of such differences as part of the monthly charge to electricity consumers. Such amount then becomes available to IESO to meet its obligations under the procurement contracts. It has been determined that the useful lives of many of the assets encouraged by the Green Generation Initiative will be well in excess of the respective terms of the related procurement contracts, and in many cases may extend over more than one generation of electricity consumers.

Since the benefits to past, present and future electricity consumers from the Green Generation Initiative will not necessarily coincide with the costs currently attributed through the Green Costs Adjustment, based on the respective durations of the procurement contracts, it has been determined that the rate at which the costs associated with the Green Generation Initiative should be passed through to Retail Consumers (as defined in Article 2) should be more closely aligned with the benefits that such Retail Consumers have derived and are expected to derive from the Green Generation Initiative over time. This realignment will be based on principles and parameters that establish a reasonable basis for measuring and allocating the relative costs and benefits of the Green Generation Initiative equitably across present and future Retail Consumers (the "Fair Allocation Plan"). [NTD: The IESO has a number of comments on the

FAP: (i) Is it necessary to include this much detail in the FAP, as opposed to broadly referencing a FAP that will articulate principles/parameters for allocating future deferred amounts, etc., and which will be developed and/or set out in the Regs; (ii) while we appreciate the constitutional issues, we believe there risk in prescribing this much detail in purpose/objects and in how the FAP is engineered, which makes it easier to challenge. Is it not intended to provide for as much flexibility as possible?; (iii) is it intended that the 17% deferred amount is an outcome of the yet to be developed FAP?; (iv) the FAP is in essence a policy-based decision(s) and in the IESO's view would seem to have to necessarily be prepared by the Ministry, albeit with input from relevant experts, including the IESO, LDCs, etc. – as opposed to being delegated to experts]

If the Fair Allocation Plan determines that the equitable allocation of the costs associated with the Green Generation Initiative to the Retail Consumers of a particular time period should be reduced below the amount that currently would be charged based on the Green Costs Adjustment, then the amount payable by such Retail Consumers and in turn available to IESO will, in the aggregate, be less than the amount payable by the IESO to the generators in respect of such period. In this case IESO will need to obtain funding from another source to cover such a shortfall. If a funding obligation is incurred by IESO to cover such a shortfall during one period, the repayment of such funding obligation will be required in a future period, and any related repayments, finance costs, hedging costs and other transaction costs incurred will become payable in one or more future periods. In order for IESO to obtain a reliable and committed source of cash flows to enable IESO to repay such funding amounts when they become due and payable, this Act imposes irrevocable and non-bypassable financial obligations on Retail Consumers to pay amounts incurred in respect of such funding obligations when they become due and payable and establishes a right to invoice and collect such amounts. The right and interest in and to collect such financial obligations will take the form of the Regulatory Asset contemplated in this Act, which will constitute property rights and interests. Interests in the Regulatory Asset may be sold and absolutely assigned by IESO to one or more financing entities, which in turn will finance their acquired interests by incurring funding obligations. The incurrence and payment of such funding obligations will be administered on behalf such financing entities by a financial services agent under the Financing Plan contemplated in this Act. The Financing Plan will seek to reasonably match the payment obligations arising under such funding obligations, to be borne by the future Retail Consumers of the period in which such payment obligations become due, with the benefits of the Green Generation Initiative allocated to such future Retail Consumers under the Fair Allocation Plan.

The purpose of this Act is to establish the basis upon which intergenerational fairness can be achieved by charging the costs and benefits of the Green Generation Initiative to present and future Retail Consumers on an equitable and cost effective basis.

Article 2 - Definitions

In this Act:

> "Absolute Assignee" means a person to whom a Regulatory Asset Owner effects a Disposition.

"Actual" means, in relation to costs, expenses or payments in respect of Funding Obligations during a Reference Period, the actual amount of such costs, expenses or payments paid or made (net of any Finance Reserve Withdrawals applied to pay such amounts), which amounts shall be recorded by the Financial Services Agent whose records shall be determinative for the purposes of this Act except to the extent of a manifest calculation error.

"Additional Funding Charges" means, for a Reference Period in respect of an Absolute Assignee, the fees, charges, expenses, costs, indemnities, reimbursements and other amounts (including any applicable tax amounts) that are or become payable by or on behalf of the Absolute Assignee during the Reference Period and that were incurred or committed to directly or indirectly by the Absolute Assignee in connection with the incurrence of Funding Obligations under the Financing Plan (whether at the time of such incurrence or over the term of the Funding Obligation and whether directly or indirectly), including (without duplication and without limitation): (a) any payment required under an ancillary agreement entered into by, or by the Financial Services Agent on behalf of, the Absolute Assignee under the Financing Plan; (b) any federal, provincial or local taxes, payments in lieu of taxes, franchise fees or license fees imposed on the Absolute Assignee or incurred by on behalf of the Absolute Assignee under any obligation to pay tax gross-up amounts to counterparties under Funding Obligations; (c) any amounts payable to the Financial Services Agent, including amounts payable to its advisors and outside counsel; (d) any amounts incurred to prepare, confirm, amend and implement the Financing Plan; (e) any amounts payable to any Alternative Collection Agent or Alternative Servicer, including amounts payable to each's advisors and outside counsel; (f) any amounts incurred to make the calculations, determinations or confirmations to be made by or on behalf of the Absolute Assignee; (g) any servicing fees and expenses; (h) any trustee fees and expenses; (i) any legal fees, expenses and disbursements; (j) any accounting fees and expenses; (k) any administrative fees and expenses; (l) any manager or director fees of a Financing Entity; (m) any registration fees and expenses; (n) any placement fees, underwriting fees, fees and related issuing expenses; (o) any rating agency fees; and (p) any other related fees, charges, expenses, costs, indemnities, reimbursements and other amounts that are approved in good faith by the Financial Services Agent for recovery and payment under the Financing Plan.

"Allocation Factor" means, in respect of a Retail Consumer for a Reference Period, the number (expressed as a percentage) determined in respect of the Retail Consumer by the OEB based on the application of the Attribution Methodology in respect of the Reference Period.[1] [NTD: Is this needed if OEB determines volumetric rate to recover Period Transition Charge?]

[1] Confirm that this will be based on forecast volumes of demand (like RPP). To the extent amounts do not get recovered due to differences between forecast and actual, those may be identified and caught by the True-Up.

"Alternative Collection Agent" means a person appointed under Section 5(11) and in compliance with the requirements set out in Schedule 2 to assume the obligations of an Electricity Distributor under Article 5.

"Alternative Servicer" means a person appointed under Section 4(8) to assume the obligations of an Electricity Distributor under Article 4.

"Assessed Past Green Transition Costs" means, in respect of a Measurement Date, the aggregate of the imputed costs of the Green Generation Initiative (expressed as an equivalent to current dollars), as reflected in the calculation of the Green Costs Adjustment, which have been charged to Retail Customers through the Global Adjustment on or prior to the Measurement Date.

"Attribution Methodology"[2] means the methodology specified in the Fair Allocation Plan for allocating the Period Transition Charges for a Reference Period to individual Retail Consumers of the applicable Retail Consumer Group based on its Allocation Factor.

"Collected Amount Adjustment" means, in respect of a True-Up Period, the amount (which may be a negative amount) calculated by IESO, a Successor IESO or the Financial Services Agent, as applicable, equal to (a) the Estimate of the Finance Amount for the True-Up Period, minus (b) the sum of all Transition Charge Collections for the True-Up Period.[3]

"Collective Rights Agreement" means an agreement among all of the Regulatory Asset Owners (including each Absolute Assignee) and each Pledgee that governs the enforcement of their respective rights and interests in, to and under the Regulatory Asset on a coordinated and collective basis.[4] [NTD: is there a need to reference this requirement in the legislation?]

"Delegate" means the person or persons designated in writing from time to time by the Minister of Energy to undertake the actions and perform the responsibilities ascribed to the "Delegate" under this Act.

"Disposition" means any actual or purported sale, assignment or transfer of an Investment Interest to an Absolute Assignee, and "Dispose" shall have a corresponding meaning.

---

[2] This allocation may be volumetric or some combination of a flat amount and a volumetric charge. Further discussion is required. H&W has raised a concern regarding possible adverse changes after the fact and rating agency considerations. Consider whether hard-coding in the legislation makes sense.

[3] This would pick up adjustments based on actual collection experience, changes in the retail consumer base, changes in the actual costs (versus earlier estimates) included in the Transition Charge calculation, etc.

[4] Consider adding the Financial Services Agent and the Servicer as parties.

“Disposition Document” means any agreement, deed, conveyance, instrument or other document which relates to a Regulatory Asset or an interest therein. [ND: changes are intended to address partial circularity]

“Electricity Distributor” means, in respect of a Service Area, the rate regulated distributor licensed under Part V of the *Ontario Energy Board Act, 1998* in respect of such Service Area, together with and its successors.

“Electricity Distributor Remittances” means, for an Electricity Distributor on a Remittance Date, all Transition Charge Collections received [or deemed to be received] [NTD: delete deeming language unless it is intended to provide for deemed collections] by the Electricity Distributor prior to the Remittance Date and that have not otherwise been remitted to IESO or if applicable the Alternative Collection Agent in accordance with Section 5(3), including the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5.

“Electricity Invoice” means an invoice issued by any of a Electricity Distributor (or by an Alternative Servicer) to a Retail Consumer that is served by the Electricity Distributor’s distribution system in accordance with Section 4(1) in respect of electricity charges, including the cost of electricity, delivery and regulatory charges and related services and amounts incurred, assessed or charged in respect of connectivity to a distribution network in the Electricity Distributor’s designated Service Area and in respect of applicable Transition Charges to be charged to the Retail Consumer under this Act. [NTD: The Alternative Servicer should only invoice for Transition Charges, not the entire invoice.]

“Estimate” means (a) in relation to costs, expenses or payments in respect of Funding Obligations or any Finance Amount for a Reference Period, the estimated amount of such costs, expenses or payments determined by the Financial Services Agent; and (b) in relation to an assessment of the benefits of the Green Generation Initiative to any Retail Consumer Group, the estimated value (in current dollars) of such benefits determined by the Delegate, in each case having regard to the applicable principles and parameters set out in Schedule 1, which estimated amounts shall be determinative as the applicable estimate for the purposes of this Act except to the extent of a manifest calculation error.

“Estimated Future Green Transition Benefits” means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that are expected to accrue to Retail Consumers from the establishment and implementation of the Green Generation Initiative during the period from the Measurement Date to the Program-End Date.

"Estimated Past Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that have accrued to Retail Consumers from the establishment and implementation of the Green Generation Initiative up to and including the Measurement Date.

"Fair Allocation Plan" has the meaning given in Article 1.

"Finance Amount" means, for a Reference Period in respect of an Absolute Assignee, the sum (without duplication) of the following amounts that are or become payable during the Reference Period by an Absolute Assignee: (a) Repayments; (b) Funding Costs; (c) Redemption Amounts; (d) Finance Reserve Deposits; and (e) Additional Funding Charges. [Should the Repayment Amount not be reduced to anticipate ordinary course refinancings by Finance Entities?]

"Finance Reserve Deposits" means, for a Reference Period, the amount by which (a) deposits made or to be made during the Reference Period in order to pre-fund, collateralize, over-collateralize or establish reserves for the ultimate payment of Funding Obligations or for related contingencies specified in the Financing Plan, exceed (b) any Finance Reserve Withdrawals.

"Finance Reserve Withdrawals" means, for a Reference Period, the amount withdrawn during the Reference Period from deposits previously made to pre-fund, collateralize, over-collateralize or establish reserves for the payment of Funding Obligations or to pay amounts in respect of related contingencies that had been specified in the Financing Plan.

"Financial Services Agent" means OPG or, following any Replacement Event, such other person or persons who may be appointed as the Financial Services Agent of the Absolute Assignees under the Financing Plan in compliance with the requirements set out in Schedule 2.[5]

"Financing Entity" means an entity established in accordance with the Financing Plan to acquire all or an interest in the Regulatory Asset as an Absolute Assignee and to enter into Funding Obligations to finance such acquisition under the Financing Plan.[6]

---

[5] Discuss whether to accommodate multiple Financial Services Agents. MOE to consider.

[6] MOE to confirm that the legislation will provide that any Financing Entity that is a wholly-owned subsidiary of OPG (1) would not be subject to Part VI of the *Electricity Act* (Ontario) and (2) in the case of any Financing Entity that is a trust, any income of such trust (for purposes of the *Income Tax Act* (Canada) or the *Taxation Act, 2007* Ontario)) which is paid or made payable to OPG or a wholly-owned subsidiary of OPG as a beneficiary of such trust will not be taken into account in calculating the amount of a payment required to be made by OPG (or such subsidiary) by section 89 or 90 of the Electricity Act.

"Financing Plan" means the written plan prepared by the Financial Services Agent on behalf of each Absolute Assignee in compliance with Article 9 to set forth the basis upon which, among other things: (a) any Disposition may be made to, financed by or effected by an Absolute Assignee; (b) any Funding Obligations may be incurred by an Absolute Assignee, including any Refinancing; (c) any Pledge may be given or effected; (d) any Funding Obligations may be redeemed, prepaid, repurchased, amended or otherwise effected; (e) any obligations for Additional Funding Charges may be incurred and paid; (f) any Repayments, Funding Costs and Redemption Amounts may be paid or provided for; (g) any Finance Reserve Deposits may be made; (h) any Finance Reserve Withdrawals may be made; (i) the establishment and operation of any Financing Entity may be effected; and (j) the cash flows arising from time to time or otherwise derived from an Investment Interest may otherwise be applied, as the same may be amended, amended and restated or terminated by the Financial Services Agent in compliance with Article 9 from time to time.

"Funding Costs" means, for a Reference Period in respect of an Absolute Assignee, the amount by which (a) the aggregate of all interest and other periodic finance charges accruing due and becoming payable or paid by or on behalf of the Absolute Assignee during the Reference Period in respect of its Funding Obligations, including any standby commitment fees or charges paid to any lender, credit enhancement fees or charges paid to any credit enhancer, liquidity fees or charges paid to any liquidity provider, amounts (including any termination payments) paid under derivatives and any deposit amount made or required to fund or replenish a debt service reserve account or other account established under any indenture, ancillary agreement or other financing document relating to its Funding Obligations, exceeds (b) the aggregate of all amounts received by or on behalf of the Absolute Assignee during the Reference Period [in respect of a Funding Obligation] [NTD: not all receipts may relate to a Funding Obligation] , including from any reimbursement of standby commitment fees or charges paid by a lender, any reimbursement of credit enhancement fees or charges paid by any credit enhancer, any reimbursement of liquidity fees or charges paid by any liquidity provider, any amounts (including any termination payments) paid to the Absolute Assignee under derivatives and any Finance Reserve Withdrawal made or required to be made from a debt service reserve account or other account established under any indenture, ancillary agreement or other financing document relating to the payment of the Funding Costs payable in respect of a Funding Obligation for the Reference Period. [NTD: Make provision for receipts in respect of reserve accounts, i.e Funding Costs should be reduced by interest receipts on reserve accounts]

"Funding Obligation" means, in respect of an Absolute Assignee, each payment obligation (including each obligation to pay: principal, interest, premiums and other financing charge payments; pass-through payments; payment obligations arising under or in respect of derivatives; payment obligations owing to service providers, Financial Services Agents, finance entity intermediaries, capital markets intermediaries, advisors, lenders, credit enhancement providers, liquidity providers, disbursement counterparties, regulatory agencies and rating agencies; and all Additional Funding Charges incurred by

or on behalf of the Absolute Assignee under the Financing Plan, including any Refinancing of another such payment obligation incurred by or on behalf of such Absolute Assignee.

"Future Fair Share of Green Transition Benefits" means, in respect of a Measurement Date, the sum of (a) the Over-Assessed Amount; and (b) the Estimated Future Green Transition Benefits, in each case as of the Measurement Date.

"Generator" means a generator of electricity that is subject to the *Electricity Act, 1998*.

"Global Adjustment" has the meaning given in Article 1.

"Green Costs Adjustment" has the meaning given in Article 1.

"Green Generation Initiative" has the meaning given in Article 1.

"IESO" means (i) the Independent Electricity System Operator created pursuant to Part II of the *Electricity Act, 1998*.

"IESO Available Amount" means, for a Reference Period, the lesser of (a) the amount (if any) by which (i) the Maximum Transition Charge Amount for the Reference Period, exceeds (ii) Period Finance Amount for the Reference Period, and (b) the IESO Retained Interest Amount as of the [35th] day prior to the first day of a Reference Period plus any IESO Financing Costs that are due and payable and remain unpaid as of the [35th] day prior to the first day of a Reference Period.

[NTD: Parking for a moment the commercial law issues around subordination, we are considering whether the conferral upon the IESO of a subordinated residual interest in the Transition Charges cash flow create consolidation issues. It may also impact our ability to book an asset.]

"IESO Electricity Distribution Receipts" means, for a month, the sum of all amounts payable by Electricity Distributors to IESO during the month pursuant to section • of the *Electricity Act*.

"IESO Funding Costs" means, for a Reference Period, the funding costs (if any) incurred by IESO pursuant to Section 8(4) in order to finance its ownership of the IESO Retained Interest during the Reference Period.

"IESO Funding Shortfall" means, for a month, the amount, if any, by which (a) the IESO Electricity Distribution Receipts that would be payable to IESO for the month if determined without regard to this Act and without regard to the changes made to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* with respect to the Global Adjustment concurrently with this Act, exceeds (b) the IESO Electricity Distribution

Receipts payable to IESO for the month[7] [NTD: it likely does not work to express in regards to "amounts payable by the LDCs" because settlement between the IESO and LDC's entails payments by LDCs to the IESO and then credits/debits by the IESO to LDCs to reflect RPP shortfalls/overages]. To the extent reasonably necessary to give effect to this Act, or any transaction contemplated hereby, IESO shall calculate the IESO Funding Shortfall for any month based on information provided by the Electricity Distributors and (i) such calculation shall be binding for all purposes; and (ii) any demonstrated inaccuracy in the calculation for any month (including any such resulting from inaccuracies in the information provided by Electricity Distributors) shall be accounted for by adjusting the IESO Funding Shortfall for a subsequent month.

"IESO Recovery" means each amount remitted to IESO (including by IESO retaining such amount) in respect of the IESO Retained Interest pursuant to Section 5(6)(b), and "IESO Recoveries" means, collectively, all such amounts received by IESO.

"IESO Remittances" means, for a Settlement Date, all Electricity Distributor Remittances received by IESO or an IESO Successor prior to the Settlement Date and that have not otherwise been remitted to the Regulatory Asset Owners (each with respect to its Regulatory Asset) in accordance with Section 5(6), including the proceeds of any enforcement action undertaken by IESO or if applicable the IESO Successor to recover payment of amounts payable by Electricity Distributors to IESO or the IESO Successor in accordance with Article 5.

"IESO Retained Interest" means IESO's right, title and ownership interest (if any) in, to and under the Regulatory Asset, which shall exclude each Investment Interest.

"IESO Retained Interest Amount" means, on a day, (a) the sum of all IESO Funding Shortfalls incurred prior to the day, plus (b) the sum of all IESO Funding Costs incurred prior to the day in accordance with Section 8(4), minus (c) the aggregate net proceeds received by IESO from or on behalf of any Absolute Assignee as consideration for a Disposition prior to the day, and minus (d) the IESO Recoveries received by IESO prior to the day.

"IESO Successor" means any entity appointed by the Province to succeed to the rights and obligations of IESO as the entity responsible for managing the Province's electricity system.

"Investment Interest" means an ownership interest in, to or under the Regulatory Asset that is acquired by an Absolute Assignee pursuant to Section 6(2), which ownership interest may include (without limitation) ownership of a specified portion on a divided basis of the assets comprising the Regulatory Asset and ownership of an undivided

[7] This has been recast to recognize that the shortfall in the first 4.5 years could exceed the entire GA amount. A more refined approach to describing the concept may be considered.

ownership interest in the Regulatory Asset, in each case as may be described in the applicable Disposition Document.

“Investment Remittance” means, for a month, the lesser of (a) the aggregate amount of all IESO Remittances for the month, and (b) the sum of the Finance Amounts due and payable by all Absolute Assignees in respect of the month.

“Maximum IESO Recovery” means, for a month, the amount (if any) by which (a) the IESO Remittances for the month, exceed (b) the sum of all Finance Amounts that are due and payable by Absolute Assignees in respect of the month.

“Maximum Transition Charge Amount” means, for a Reference Period, the aggregate amount of Future Fair Share of Green Transition Benefits that are allocable to the applicable Retail Consumer Group to such Reference Period in accordance with the Fair Allocation Plan. [NTD: When will there be visibility into this process and amount. Is this calculated on a monthly basis or for a Reference Period]

“Measurement Date” means [Insert relevant date around the Legislation Implementation Date] and any other date specified as such under the Fair Allocation Plan.

“OEB” means the Ontario Energy Board, together with its successors.

“OPG” means the corporation incorporated as Ontario Power Generation Inc. under the *Business Corporations Act* on December 1, 1998, together with its successors.

“Over-Assessed Amount” means, in respect of a Measurement Date, the amount (if any) by which (a) the Assessed Past Green Transition Costs, exceeds (b) the Estimated Past Green Transition Benefits, each as determined as of the Measurement Date.

“Period Finance Charges” means, for a Reference Period, the sum of (a) the Estimate of the Finance Amount and (b) the True-Up Amount in respect of the immediately preceding Reference Period.

“Period Transition Charges” means, for a Reference Period, the sum of (a) the Period Finance Charges for the Reference Period and (b) the IESO Available Amount for the Reference Period, calculated in accordance with Section 4(2). [Does this mean that any retained IESO Interest amount is necessarily repaid in the next “Relevant Period, subject to the Maximum Transition Charge Amount?”]

“Pledge” means, in respect of an Investment Interest of an Absolute Assignee, a lien, mortgage, charge or security interest granted to or in favour of a Pledgee by the Absolute Assignee in, to and over all or a specified portion (including a specified portion on a divided basis or by way of an undivided interest) of the Investment Interest.

“Pledgee” means a person to whom an Absolute Assignee grants a Pledge.

"Program End Date" means •, [2047].

"Province" means the Province of Ontario.

"Redemption Amount" means the amount payable by or on behalf of an Absolute Assignee to redeem, prepay or repurchase a Funding Obligation incurred by or on behalf of the Absolute Assignee, including any premium, make-whole or other additional amount becoming payable under the Funding Obligation to give effect to such redemption, prepayment or repurchase.

"Reference Period" means (a) the period from (and including) the Measurement Date to (and including) June 30, 2017, (b) each six month period commencing [May 1st and November 1st] thereafter and (c) any other period specified as such in the Fair Allocation Plan.

"Reference Period Length" means, for a Reference Period, the number of months in the Reference Period.

"Refinancing" means, in respect of a Funding Obligation incurred by or on behalf of an Absolute Assignee, that the Funding Obligation is repaid or repurchased for cancellation by or on behalf of the Absolute Assignee by applying the net proceeds obtained by the Absolute Assignee incurring one or more other Funding Obligations.

"Regulatory Asset" means the property rights and interests described in Section 6(1), which collectively is comprised of the IESO Retained Interest and each Investment Interest.

"Regulatory Asset Account" means (a) for an Electricity Distributor or an Alternative Collection Agent, any bank account into which the Electricity Distributor or such Alternative Collection Agent deposits or receives Transition Charge Collections; (b) for the IESO or an IESO Successor, any bank account into which IESO or the IESO Successor deposits or receives Transition Charges, Electricity Distributor Remittances or IESO Remittances.

"Regulatory Asset Owner" means each of (a) IESO, as owner of (and to the extent of) the IESO Retained Interest and (b) each Absolute Assignee, as owner of its Investment Interest or Investment Interests, and "Regulatory Asset Owners" means collectively IESO and each such Absolute Assignee, who together own the entirety of the Regulatory Asset and are required to exercise their individual rights of ownership in accordance with Section 6(7).

"Related Rights" means all rights of any kind (whether in tort, contract or otherwise) that attach or are attendant or incidental to any of the other property rights or interests that comprise such Regulatory Asset.

"Remittance Date" means, in respect of an Electricity Distributor, each day on which it is required to remit Electricity Distribution Remittances to IESO or if applicable the IESO Successor as specified in accordance with any Funding Obligation or, if no such day is specified in accordance with any Funding Obligation, then the Business Day preceding each Settlement Date.

"Repayment Obligation" means an obligation to repay, redeem or repurchase, or to provide for the repayment, redemption or repurchase (including by making a related Finance Reserve Deposit) of, all or a portion of the amount advanced to the Absolute Assignee under a Funding Obligation.

"Repayment" means a payment by an Absolute Assignee made to satisfy a Repayment Obligation, other than to the extent that the payment is made by applying the proceeds of a Refinancing or from Finance Reserve Withdrawals.

"Replacement Event" [should be defined, perhaps in the regulations]

"Retail Consumer" means:

(a) present and future consumers of electricity in the Province who are (i) consumers designated under section 79.16 of[, and O.Reg 95/05 under,] the *Ontario Energy Board Act, 1998*, or (ii) hold or are deemed to hold an "eligible account" under the *Ontario Rebate for Electricity Consumers Act, 2016*, other than any such consumer who has a contract with a Retailer who uses Retailer Consolidated Billing; and

(b) present and future Retailers who use Retailer Consolidated Billing,

and each case includes all such consumers and Retailers who are connected, directly or indirectly and whether a customer of an Electricity Distributor or not, to the transmission and distribution system assets located in the Province and who are taking electric delivery service within the Province, whether or not such retail consumers produce their own electricity or purchase electric generation services from a provider of electric generation services other than the owner of the Province's transmission and distribution system assets and whether or not the transmission and distribution system assets continue to be owned or operated by Electricity Distributors or operated by IESO.

"Retail Consumer Group" means, in relation to a Reference Period, the Retail Consumers who receive Electricity Invoices during the Reference Period.

"Retailer" means a person who is licensed under Part V of the *Ontario Energy Board Act, 1998* to retail electricity.

"Retailer Consolidated Billing" has the same meaning as in the *Retail Settlement Code* issued by the Ontario Energy Board.

"Service Area" means, in respect of an Electricity Distributor, the geographic area or region in which it is licensed to distribute electricity in accordance with the *Electricity Act, 1998*.

"Settlement Date" means the [last Business Day of any month].

"Transition Charge" means, for a Retail Consumer in respect of a Reference Period, (a) the Period Transition Charge, (b) multiplied by its Allocation Factor in respect of the Reference Period, divided by (c) the applicable Reference Period Length. [NTD: Do not need to create parallel process. The definition should be linked to the OEB process for determining the volumetric rate as part of the RPP process (see s. 4(2)). The OEB will determine volumetric rate based on forecast consumption, number of consumers, etc. to recover the Period Transition Charges.]

"Transition Charge Collection" means any amount received or deemed by this Act to have been received upon the collection of a Transition Charge paid by or on behalf of a Retail Consumer, including any proceeds arising from the exercise and enforcement of any related rights and interests under or in respect of the Regulatory Asset.

"True-Up Amount" means, in respect of a Reference Period, the amount (which may be a negative amount) calculated by the Financial Services Agent equal to (a) the Estimate of the Finance Amount for the related True-Up Period, minus (b) the Actual Finance Amount for such related True-Up Period, plus (c) the Collected Amount Adjustment for such related True-Up Period.

"True-Up Period" means, in relation to a Reference Period, the period from and including the [30th] day immediately preceding the first day of the Reference Period, to but excluding the [30th] day immediately preceding the last day of the Reference Period.

"Undertaking of the Lieutenant Governor in Council" means the undertaking of the Lieutenant Governor in Council given under Section 11(2).

Article 3 – Transition Charges

(1) **Retail Consumer Obligation to Pay a Transition Charge** – Each Retail Consumer shall pay each Transition Charge charged to it in any Electricity Invoice issued to such Retail Consumer by its Electricity Distributor or by an Alternative Servicer under Section 4(1), in each case on the terms of payment specified in the related Electricity Invoice. [Is the intent that IESO can recover the IESO retained interest only through the Transition Charges, subject to the Maximum Transition Charge Amount and after payment of the Assigned Interest?]

(2) **Indebtedness of Retail Consumers** – Until paid, a Transition Charge charged to a Retail Consumer in an Electricity Invoice shall, together with any applicable late payment fees and finance charges arising under the terms of the Electricity Invoice with respect to such Transition Charge, constitute non-bypassable indebtedness of the Retail Consumer

to the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset. Such indebtedness shall constitute a single and separate[8] debt obligation owing by the Retail Consumer, which subject to Article 5 may be enforced independently from any other payment obligation or indebtedness owing by the Retail Consumer under the Electricity Invoice or otherwise.[9]

(3) **No Set-Off or Reduction** – A Retail Consumer may not set-off or reduce (by counterclaim, defense or otherwise) the amount payable by it in respect of any Transition Charge, including any set-off against or in respect of any amount owing or becoming payable to such Retail Consumer by its Electricity Distributor, any Regulatory Asset Owner or any other person.

(4) **Allocation of Retail Consumer Payments** – If an Electricity Distributor receives a payment made by or on behalf of a Retail Consumer in respect of amounts due and payable under one or more Electricity Invoices that is less than the total amount payable thereunder, such payment shall be allocated on a *pro rata* basis to the payment of related Transition Charges and other invoiced amounts and the amount so allocated as a payment of related Transition Charges shall be deemed to constitute a Transition Charge Collection.

(5) **Transition Charges are Irrevocable** – The Transition Charges arising under or in respect of Funding Obligations incurred under the Financing Plan (including any adjustments based on modifications to such Funding Obligations made in compliance with the Financing Plan or as a result of amendments to the Financing Plan made in accordance with Section 9(3)) are deemed to be irrevocable, final and effective without any further action, except to the extent of manifest calculation error. For greater certainty, a Transition Charge may include Finance Amounts for a Reference Period whether or not the payment of such Finance Amounts are inconsistent with the Fair Allocation Plan applicable at the time such payments are due and payable, whether or not the related Funding Obligation was properly incurred under the Financing Plan. In no case shall a Funding Obligation incurred under the Financing Plan be affected by a subsequent amendment to the Fair Allocation Plan.

Article 4 – Invoicing of Transition Charges

(1) **Inclusion of Transition Charges in Electricity Invoices** – Each Electricity Distributor and if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, specify the Transition Charge to be charged to a Retail Consumer pursuant to

---

[8] Determine if this is critical for rating and markets. Logistics under consideration.

[9] Torys has also suggested that deemed conditions of licenses for distributors, retailers and unit sub-metering providers, could be included as conditions, to require them to collect and remit amounts in accordance with this legislation. Consider if it is helpful to integrate the existing regulatory scheme for invoicing and collections (regarding RPP) in the legislation.

Section 4(4) in respect of a related Reference Period in each Electricity Invoice issued by the Electricity Distributor or if applicable by the Alternative Servicer to the Retail Consumer in respect of such Reference Period. Upon the inclusion of a Transition Charge in an Electricity Invoice, the obligation to pay such amount shall be binding on the applicable Retail Consumer.

(2) **Calculation of the Period Transition Charge** – Not later than [35] days prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services Agent on its behalf) shall provide the OEB with written notice of each Estimate of a Finance Amount payable by it or on its behalf in respect of the Reference Period. [35] days prior to the first day of a Reference Period, IESO or Successor IESO if applicable shall specify the IESO Retained Interest Amount and any IESO Financing Costs that are due and payable and remain unpaid on such day. Not later than one month prior to the first day of a Reference Period, the OEB shall calculate the Period Transition Charge applicable to the Reference Period based on the calculations and information set forth in such written notices received from the Absolute Assignees and based on such amounts specified by IESO or Successor IESO, which calculations, information and amounts shall be determinative, except to the extent of manifest calculation error or misstatement.

(3) **Calculation and Attribution of Transition Charges** – Not later than 25 days prior to the first day of a Reference Period, the OEB shall apply the Attribution Methodology to determine the Allocation Factor for each Retail Consumer of the applicable Retail Consumer Group.

(4) **Notice of Transition Charges** – Not later than 20 days prior to the first day of a Reference Period, the OEB shall inform each Electricity Distributor and if applicable any Alternative Servicer of the Transition Charges to be specified in the Electricity Invoices to be issued to each Retail Consumer of the applicable Retail Consumer Group who has a billing address in the Electricity Distributor's Service Area.

(5) **Adjustments** – The amount of any Transition Charge charged to a Retail Consumer and specified as such in an Electricity Invoice shall be determinative of the amount of indebtedness created thereby and owing in respect of such Transition Charge, except to the extent of any manifest calculation error.

(6) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 4 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 4 to impose, attribute, charge, bill and invoice the Transition Charges.

(7) **IESO Successor** – Any IESO Successor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of IESO under Article 4 in the same manner and to the same extent as IESO, including the obligation to calculate and provide notice of Transition Charges.

(8) **Appointment of an Alternative Servicer** – If a Replacement Event occurs in respect of any Electricity Distributor, the Absolute Assignees may appoint an Alternative Servicer to perform some or all of the obligations and duties required to be undertaken by such Electricity Distributor under this Article 4, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Servicer shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor. Any Electricity Distributor that is replaced under this Section 4(8) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in the performance of such obligations and duties to the Alternative Servicer and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Servicer to perform such obligations and duties on behalf of the Regulatory Asset Owners.

(9) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, an Alternative Servicer or any other person who may be authorized to issue Electricity Invoices to Retail Consumers for a failure to impose, attribute, charge, bill or invoice Transition Charges.

(10) **Regulations** – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Servicer to ensure that Transition Charges are properly charged to Retail Consumers and specified as such in Electricity Invoices.

Article 5 – Collections and Remittances

(1) **Duty to Collect as Agent** – Electricity Distributors or if applicable any Alternative Collection Agent shall, as an agent of the Regulatory Asset Owners, undertake [diligent][reasonable][10] efforts to collect amounts owing by Retail Consumers in respect of Transition Charges charged to such Retail Consumers in Electricity Invoices issued by the Electricity Distributor or if applicable such Alternative Collection Agent.

(2) **Segregation of Transition Charge Collections** – An Electricity Distributor or if applicable any Alternative Collection Agent shall promptly segregate Transition Charge Collections from other payments received by it from Retail Consumers and deposit such Transition Charge Collections into its Regulatory Asset Account.[11] Prior to and following a deposit of Transition Charge Collections having been made into its Regulatory Asset Account, the Electricity Distributor or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners.

---

[10] Mirror collection "standard of care" under applicable legislation.

[11] Consider trying to attach to existing LDC credit enhancements and provide parallel coverage for customer losses.

(3) **Electricity Distributor Remittances** – On each applicable Remittance Date, an Electricity Distributor shall remit all Transition Charge Collections received by it from Retail Consumers in respect of the related Reference Period to or to the account of IESO or if applicable the Alternative Collection Agent.

(4) **Duty to Collect Electricity Distributor Remittances** – IESO or if applicable an IESO Successor shall, as an agent of the Regulatory Asset Owners, undertake [diligent][reasonable] efforts to accept and collect Electricity Distributor Remittances from Electricity Distributors and Transition Charge Collections from Retail Consumers that pay their Electricity Invoices directly to IESO.[12]

(5) **Segregation of Electricity Distributor Remittances** – IESO and if applicable an IESO Successor shall promptly segregate Electricity Distributor Remittances from other payments received or held by it and deposit such Electricity Distributor Remittances into its Regulatory Asset Account. Prior to and following a deposit of Electricity Distributor Remittances having been made into its Regulatory Asset Account, IESO or if applicable any IESO Successor shall hold such amounts in trust for the Regulatory Asset Owners.

(6) **IESO Remittances** – (a) on each Settlement Date[13], IESO and if applicable an IESO Successor shall remit all amounts on deposit in its Regulatory Asset Account in respect of the Investment Interest to or to the account of the Absolute Assignees; and (b) on each Settlement Date[14], IESO and if applicable the IESO Successor shall remit all amounts on deposit in its Regulatory Asset Account in respect of the IESO Retained Interest to the IESO. [NTD: to discuss. I had thought that what we had discussed was that IESO could recover the IESO Retained Interest Amount not as part of the Transition Charges, but independently through its own processes. This would require an allocation, but not express subordination. If subordination is required together with a Maximum Transition Charge Amount, consider whether this puts IESO in the position of a residual interest holder and consider impact on ability to book asset, consolidation and prospectus.

(7) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 5 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 5 to collect Transition Charges and make remittances of Electricity Distributor Remittances.

(8) **IESO Successor** – IESO Successor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of IESO under Article 5 in the same

---

[12] Consider building this obligation into a deemed condition of licence for the IESO.

[13] Consider frequency of remittances in light of rating requirements. US rating agencies favour daily remittances.

[14] Consider frequency of remittances in light of rating requirements. US rating agencies favour daily remittances.

manner and to the same extent as IESO, including the obligation to collect Transition Charge Collections, Electricity Distributor Remittances and to remit IESO Remittances.

(9) **Owners of Distribution Assets** - If any person other than an Electricity Distributor acquires distribution system assets in the Province or invoices or collects electricity distribution rates in the Province[15], then such person shall, if requested by the Absolute Assignees, be obligated to act diligently to (a) facilitate the invoicing and collection of any Transition Charges applicable to Retail Consumers in its applicable service area, including all consumers connected to the electricity distribution system assets and taking electric delivery service located within such service area; (b) allocate partial payments by Retail Consumers as provided in this Act; (c) exercise all enforcement rights of the Absolute Assignees for the benefit of an Absolute Assignee; and (d) remit any Transition Charge Collections to the Absolute Assignees or Pledgees, as applicable, each in accordance with its Investment Interest.

(10) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, an Alternative Collection Agent, any owner of electricity distribution system assets in the Province or any other person who may be authorized to collect electricity distribution and use charges from Retail Consumers for a failure to collect Transition Charges, remit or collect Electricity Distributor Remittances or remit IESO Remittances, as and to the extent applicable under Article 5. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure.

(11) **Appointment of an Alternative Collection Agent** – If a Replacement Event occurs in respect of any Electricity Distributor, the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Collection Agent to perform some or all of the collection, segregation and remittance obligations in respect of the Transition Charges otherwise required to be undertaken by such Electricity Distributor, as applicable, under Article 5, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Collection Agent shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor, as applicable. Any Electricity Distributor that is replaced under this Section 5(11) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in, to and over the Regulatory Asset, including its Regulatory Asset Account, to the Alternative Collection Agent and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Collection Agent to enforce the Regulatory Asset on behalf of the Absolute Assignees.

---

[15] This is in anticipation of a possible future restructuring of the distribution system.

(12) **No Set-off, etc.** - The Regulatory Asset, including rights in Transition Charges, Transition Charge Collections, and the interests of a Regulatory Asset Owner, an Absolute Assignee and a Pledgee therein, may not be setoff or reduced (including by counterclaim, surcharge or defense) by any Retail Consumer, any Electricity Distributor, IESO, Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or in connection with any default, bankruptcy, reorganization or other insolvency proceeding of any Electricity Distributor, IESO, Alternative Collection Agent or any owner of distribution system assets in the Province, any affiliate or successor thereof or any other entity or otherwise.[16]

(13) **Sequestration** – If any Electricity Distributor, IESO, the Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or entity authorized to collect Transition Charges, defaults on any required remittance of Transition Charge Collections, Electricity Distribution Remittances or IESO Remittances under Article 5, any court in the Province, upon application by and of the Absolute Assignees acting collectively under the Collective Action Agreement and without limiting any other remedies otherwise available to the Absolute Assignees or Pledgees, shall order the sequestration and payment of the Transition Charge Collections, Electricity Distribution Remittances and IESO Remittances, as applicable, for the benefit of the Absolute Assignees, each with respect to its Investment Interest, and the Pledgees as applicable.[17]

(14) Regulations – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Collection Agent to ensure that rights, interests, entitlements, benefits and proceeds in, to, under and from the Regulatory Asset are of fully realized by some or all of the Absolute Assignees and Pledgees.

Article 6 – The Regulatory Asset

(1) **Composition** – The Regulatory Asset shall constitute a current and irrevocable property right and interest consisting, collectively, of the following rights and interests (without duplication):

a. the right of IESO (i) to record its IESO Retained Interest in its accounts in accordance with Section 8(1), having a stated amount from time to time equal to the IESO Retained Interest Amount; and (ii) to receive IESO Recoveries from time to time in accordance with Section 5(6)(b);

---

[16] Consider whether it makes sense to create a "deemed collection" payment obligation on Electricity Distributors to the extent a Retail Consumer reduces its payment of Transition Charges, despite this language. Same for Electricity Distributor Remittances and IESO Remittances.

[17] Consider adding or substituting this provision for a right to appoint a receiver.

b. the right to impose, bill, invoice, collect and receive Transition Charges from Retail Consumers, including the right to determine the amount of Transition Charges in accordance with this Act;

c. the right to enforce the obligations and indebtedness of each Retail Consumer to pay the Transition Charges charged to the Retail Consumer from time to time in accordance with Article 3, together with all related late payment fees or interest charges arising in respect thereof under the related Electricity Invoices;

d. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Servicer to impose, attribute, charge, bill and invoice the Transition Charges in accordance with Article 4;

e. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Collection Agent to collect, receive and remit amounts received by it in respect of Transition Charges as Electricity Distributor Remittances to or to the account of IESO or if applicable the IESO Successor in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5;

f. the right to enforce the duties and obligations of IESO and if applicable an IESO Successor to collect and receive Electricity Distributor Remittances and to remit IESO Remittances to or to the accounts of the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset, in each case in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by it to recover payment of Electricity Distributor Remittances in accordance with Article 5;

g. the right to receive and collect all Transition Charge Collections, all Electricity Distributor Remittances and all IESO Remittances in accordance with Article 5;

h. all rights and entitlements under each Regulatory Asset Account and all amounts on deposit in any such Regulatory Asset Account;

i. all Related Rights; and

j. all revenue, collections, claims, payments, money and proceeds of or derived from the rights described in (a) through (i), regardless of whether such revenue, collections, claims, payments and proceeds are imposed, invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

A Regulatory Asset and the property rights and interests therein shall exist whether or not Transition Charges have been imposed, charged, invoiced, accrued or collected and

notwithstanding that the imposition, attribution, invoicing and collection of Transition Charges will depend on further actions that may not have occurred.

(2) **Validity of Dispositions** – [NTD: Addressed in Section 13(3)]. IESO may Dispose of all or any part of its interest in a Regulatory Asset in favour of an Absolute Assignee and, any such Disposition, when made, shall be valid and enforceable in accordance with the terms of the related Disposition Document and shall be effective to confer upon the Absolute Assignee thereof a valid property right and interest in, to and under the applicable Investment Interest (or relevant portion thereof) in accordance with the terms of such Disposition. Without limiting the foregoing, any Disposition that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as a true sale and absolute transfer of the Regulatory Asset Owner's applicable right, title, and interest in, to and under the Regulatory Asset (or relevant portion thereof), and not merely as a Pledge thereof. Upon any Disposition the assigner or seller under the applicable Disposition Document shall retain no right, title or interest in the Investment Interest expressed to be subject to the Disposition.

(3) **Perfection and Priority of Dispositions** – Any Disposition of an interest in a Regulatory Asset shall be vested, valid, binding and perfected from the time when such Disposition is made. Such Disposition shall be perfected, vested, valid and binding as against the transferring Regulatory Asset Owner and all other persons who have claims of any kind (whether in tort, contract or otherwise) against the transferring Regulatory Asset Owner, irrespective of whether such persons have notice of the Disposition and the property rights and interests acquired by the Absolute Assignee under such Disposition shall be free and clear of any liens or other adverse interests in favour of such other persons.

(4) **Validity of Pledges** – [NTD: Section 13(3)], a Pledge by an Absolute Assignee may be made to secure any related Funding Obligation and when made shall be valid and enforceable in accordance with its terms and shall be effective to confer upon the Pledgee a valid security interest in, to and in respect of the related Investment Interest in accordance with the terms of the Pledge. Other than as required by the Financing Plan, no consent of any person shall be required to give effect to a Pledge made to secure any Funding Obligation.

(5) **Perfection and Priority of Pledges** - For purposes of the *Personal Property Security Act* (the "PPSA"), the Regulatory Asset shall be intangible personal property and any Pledge made by an Absolute Assignee in respect of a Funding Obligation shall, subject to the terms thereof, give rise to a security interest of which the PPSA applies, and may be perfected by filing a financing statement under the PPSA on that basis. All proceeds of a related Investment Interest that are subject to such a Pledge that are received by the Absolute Assignee shall immediately be subject to the such Pledge, and the security

interest in such proceeds shall be perfected pursuant to the PPSA.[18] A Pledge perfected under the PPSA shall be a continuously perfected security interest and shall have priority over any other lien or security interest, created by operation of law or otherwise, that may attach to the property rights and interests in the Investment Interest subject to the Pledge unless the Pledgee has otherwise agreed in writing. [Covered by the PPSA]

(6) **Enforcement of Property Rights** – The rights of any Regulatory Asset Owner to collect and enforce its rights and interests in, to or in respect of the Regulatory Asset shall be exercised in the manner set forth in Article 5. [Add Default rights of a Pledgee]

(7) **Owners of a Specified Portion of the Regulatory Asset** – A Regulatory Asset Owner may effect a Disposition to an Absolute Assignee of a specified portion of its rights and interests in the Regulatory Asset, including by way of a Disposition of a divided or an undivided interest therein as specified in a related Disposition Document. In no circumstance may the specified portions of the rights and interests in the Regulatory Asset owned by all Regulatory Asset Owners be greater than all of the rights and interests that comprise the Regulatory Asset in the aggregate.

(8) **Collective Action Required** – If a Regulatory Asset Owner's rights and interests in the Regulatory Asset comprises less than the entire property right and interest constituted by the Regulatory Asset, such Regulatory Asset Owner shall only enforce such right and interest on a collective and coordinated basis with each other Regulatory Asset Owner in accordance with the Collective Rights Agreement.

Article 7 – Establishment of the Fair Allocation Plan[19]

(1) **Adoption of the Fair Allocation Plan** – The Delegate may, [by written declaration,] designate and adopt a Fair Allocation Plan in compliance with Article 7. The Fair Allocation Plan so designated and adopted shall be the Fair Allocation Plan for all purposes of this Act, except if amended, amended and restated or terminated by a further written declaration made by the Delegate in compliance with Section 7(4).

(2) **Principles and Parameters** – A Fair Allocation Plan shall seek to allocate Future Fair Share of Green Transition Benefits across present and future Retail Consumer Groups

---

[18] Consider whether to simply leave this and have a financing statement be filed under the PPSA. This would normalize the security interest and reduce any adverse suggestion that security would not otherwise arise.

19 The idea is that the Fair Allocation Plan will be set once at the outset based on the principles and parameters described here, all as applied based on information available and the reasonable expectations and discretion of the delegate at such time. If the expectations are not fulfilled (e.g., generators may choose to retire their facilities at the end of their current procurement contracts and not invest in extending service lives to secure further procurement contracts), the Fair Allocation Plan will be unaffected, unless it is specifically amended (assuming amendments will be permitted by the legislation).

on a basis that the Delegate, in its sole and absolute discretion, determines to be equitable, having regard to the following principles and parameters:

1. Future Fair Share of Green Transition Benefits should be allocated over the period ending on the Program End Date.

2. The Fair Allocation Plan should specify the Reference Periods for the purpose of identifying applicable Retail Consumer Groups and allocating Future Fair Share of Green Transition Benefits among them on a relative basis over time.

3. The share of Future Fair Share of Green Transition Benefits allocable to a particular Retail Consumer Group in respect of a Reference Period should be proportionate to a reasonable assessment of the benefits of the Green Generation Initiative to the Retail Consumer Group over such Reference Period.

4. The share of Future Fair Share of Green Transition Benefits to be allocated to a Retail Consumer Group and any future Retail Consumer Group at a particular time should not exceed the Estimated Future Green Transition Benefits, measured in respect of the Reference Periods following such particular time and to the Program End Date.

5. No future Retail Consumer Group should be allocated an unreasonably disproportionate share of Estimated Future Green Transition Benefits. Except in exceptional circumstances or in the case of any reallocation of an Over-Assessed Amount as contemplated in 7, below, the Future Fair Share of Green Transition Benefits to be allocated under a Fair Allocation Plan to any future Retail Consumer Group should have regard to *[Insert formula if a year-over-year maximum amount is determined to be appropriate]*.

6. The time value of money should be reflected in the Fair Allocation Plan, in order to equate the relative values of the nominal allocations of Future Fair Share of Green Transition Benefits, calculated in current dollars, to future Retail Consumer Groups over time.

7. To the extent there has been an Over-Assessed Amount, the Fair Allocation Plan may determine that an adjustment should fairly be made to rebate Retail Consumers for such an amount, by reducing the costs otherwise attributable under the Act to such Retail Consumers. The relative costs of the Green Generation Initiative are reflected under the Act by the attribution of Transition Charges to such Consumer Groups, based on the Financing Plan seeking to track the allocations of benefits under the Fair Allocation Plan. Accordingly, the Maximum Transition Charge Amount determined for one or more Retail Consumer Groups having regard to the Fair Allocation Plan otherwise applicable may be appropriately reduced to recognize the effect of the Over-Assessed Amount. In such a case, a determination to reduce the Maximum Transition

Charge Amount applicable for certain related Reference Periods should have regard to the principle that the corresponding rebate should be extended to benefit the Consumer Group or Consumer Groups in closest proximity to the Legislative Implementation Date.

(3) **Attribution Methodology** – The Fair Allocation Plan shall specify the Attribution Methodology for the purposes of allocating the Period Transition Charges across the Retail Consumers of a particular Retail Consumer Group. The Attribution Methodology shall result in an attribution of such Transition Charges that is considered by the Delegate to be equitable, and may have regard to such principles and parameters as may be further set forth in a Regulation.

(4) **Amendments of the Fair Allocation Plan** – The Fair Allocation Plan may be amended, amended and restated or terminated by the Delegate, provided that such amendment, amendment and restatement or termination shall (a) not be inconsistent with the principles and parameters set forth in (2) or (3), above, or the Regulation and (b) comply with any restrictions or limitations specified with respect thereto in any Funding Obligation.

Article 8 – The IESO Retained Interest

(1) **Maintain Books of Account** – IESO may maintain books of account to record the IESO Retained Interest Amount and all adjustments thereto from time to time. Such books of account shall be determinative with respect to the amount of IESO's related regulatory asset. [Is this different from the Regulatory Asset or the IESO Retained Interest?]

(2) **[NTD: Leave to agreements]**

(3) **Dispositions** – IESO may, from time to time, effect a Disposition to an Absolute Assignee if (a) the Absolute Assignee has or will concurrently become bound by the Collective Rights Agreement; (b) the Financial Services Agent confirms in writing that the Disposition is permitted under the Financing Plan; and (c) the net proceeds payable to IESO from the sale of the related Investment Interest would not exceed the IESO Retained Interest Amount immediately before the time of such Disposition. [NTD: Is (c) necessary?]

(4) **No Continuing Interest in any Investment Interest** – IESO shall have no continuing right or interest in any Investment Interest subject to a Disposition effected by IESO under a Disposition Document to which IESO is a party.

(5) **IESO Financing Costs** – IESO may incur reasonable financing costs in order to finance its ownership of the IESO Retained Interest.

(6) **IESO Recoveries** – IESO shall, in respect of a month, be entitled to receive from IESO Remittances on a related Settlement Date the amount (if any) available to IESO under Section 5(6)(b).

Article 9 – The Financing Plan

(1) **Power to Prepare, Implement and Amend the Financing Plan** – The Financial Services Agent shall be authorized to prepare, implement and amend the Financing Plan. If the Financial Services Agent is unwilling or unable to prepare and propose the adoption of the Financing Plan, the Delegate may by written declaration designate one or more other persons who shall be authorized to prepare, implement and amend the Financing Plan.

(2) **Terms and Conditions of the Financing Plan** – The Financing Plan shall establish the basis for each Absolute Assignee's funding decisions. The Financing Plan shall have regard to the principles and parameters set forth in Schedule 3 and such other conditions and requirements as may be specified in a written declaration of the Delegate or in accordance with the Regulation.

(3) **OEB Approval** – Any Additional Funding Charge payable to or for the benefit of the Financial Services Agent shall be subject to review and approval by the OEB.

(4) **OEB Review** – The OEB [shall] undertake an annual review of the records maintained by the Financial Services Agent for the purpose of confirming that the Funding Obligations incurred and the Finance Amounts paid by or on behalf of the Absolute Assignees were incurred and paid, respectively, in material conformity with the Financing Plan.

(5) **Replacement of the Administrative Agent** – If the OEB identifies deficiencies or makes recommendations in its review under Section 9(4), the Administrative Agent shall take reasonable measures to remedy such deficiencies if remediable, and shall in any event have regard to the recommendations of the OEB in relation to further actions undertaken by the Financial Services Agent under the Financing Plan. If the Financial Services Agent is unwilling or unable to reflect such recommendations in relation to such further actions, the Delegate may by written declaration designate one or more other persons who shall thereafter become the Financial Services.

(6) **Obligation to Apply IESO Remittances** – The Financial Services Agent shall ensure that amounts transferred to it under Article 5, as agent for and on behalf of the Absolute Assignees, or otherwise in respect of or as proceeds from an applicable Investment Interest shall only be applied or used to pay related Finance Amounts when they are due and payable and for no other purpose.

(7) **Non-Recourse** – The Financing Plan shall be implemented so that Funding Obligations incurred shall be without recourse to or to any assets of the Electricity Distributors, any Alternative Servicer, any Alternative Collection Agent, IESO, any IESO Successor, the Financial Services Agent, the OEB, the Province or the Lieutenant Governor in Council, other than if and to the extent that such persons or entities are liable for the performance of obligations or duties arising under this Act or expressly agree to become liable

pursuant to any Funding Obligation or obligation in relation to a Finance Amount. [All Funding Obligations shall contain a statement to the following effect: "Neither the full faith and credit nor the taxing power of the Province of Ontario is pledged to the payment of the principal of, or interest on, this [obligation].]

(8) Incurrences are Binding – Each Disposition made to or by an Absolute Assignee, all amounts payable or becoming due and payable by or on behalf of an Absolute Assignee under or in connection with any obligation purporting to be a Funding Obligation and each Pledge entered into by an Absolute Assignee, shall be valid and binding, including in determining the amount of related Transition Charges, notwithstanding any defect in the manner in incurrence or any inconsistency with the Fair Allocation Plan or the Financing Plan.

[Article 10 – Compliance Matters[20]

(1) Right of the [OEB] to Inspect Books and Records - For the purpose of investigating compliance with the provisions of this Act, the OEB shall have the right, jurisdiction, power and authority to examine the books and records of *[Insert names if any]*.

(2) [OPG's Rate Settings – When setting other rates for or in respect of OPG, the OEB shall not take into account (a) the administrative or servicing fees charged by OPG as Financial Services Agent [in excess of the actual incremental costs incurred by such person of providing administrative or servicing services]; (b) the cost consequences to OPG of being the Financial Services Agent; or (c) the consequence of OPG consolidating the assets and liabilities of any Financing Entity for OPG's accounting purposes, in each case in setting any regulated payment amounts for OPG.][21]

Article 11 – Undertaking of the Lieutenant Governor in Council[22]

(1) No Action to limit, alter, or impair or terminate Transition Charges, the Regulatory Asset or Collections – The [Lieutenant Governor in Council] shall not in any way take or permit any action to reduce, impair, postpone or terminate the obligation of Retail Consumers to pay Transition Charges or to impair the Regulatory Asset or the collection

---

[20] As noted above, the outcome of any regulatory action undertaken by the OEB will not affect Funding Obligations that have been incurred under the Financing Plan. This Article and any potential role for the Auditor General is still under consideration.

[21] As an alternative to this provision, consider clarifying under s. 78.1(4) of the OEB Act (which currently gives the OEB discretion in setting payment amounts subject to O. Reg. 53/05) that the OEB in setting OPG payment amounts for prescribed generation shall not consider OPG's role as Administrative Agent of any Financing Entities associated with the Fair Hydro initiative, perhaps with the exception of any operating fees that may be received by OPG for performing that role.

[22] Under consideration, including the dealers' request for a "servicer guarantee" and a "contractual guarantee" to address a "Change of Law" or if all or a portion of the legislation is *ultra vires*, requiring (at the lenders option), the Province to pay principal and interest on the outstanding debt until maturity or payout the entire debt including any make-wholes.

or recovery of Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances, either directly or indirectly, including through the introduction of any bill or the passing of any legislation or regulation having such effect. The amount of Transition Charges determined under this Act shall not be subject in any way to reduction, impairment, postponement or termination as a result of any action taken or failure by the Lieutenant Governor in Council, including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(2) **Undertaking and Agreement** – The [Lieutenant Governor in Council] shall not:

(a) in any way take or permit any action that limits, alters or impairs the value of any Investment Interest;

(b) except as required by the estimates and adjustments made in determining the True-up Amount, reduce, alter or impair Transition Charges that are imposed, billed, invoiced, collected and remitted for the benefit of the Absolute Assignees or any Pledgee from time to time;

(c) permit the amendment, amendment and restatement or termination of the Fair Allocation Plan if such amendment , amendment and restatement or termination would adversely affect the validity or enforceability of any Funding Obligation or the rights of an Absolute Assignee or Pledgee thereunder,

in each case including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(3) **Successor IESO** – If IESO is restructured, dissolved or becomes insolvent or is otherwise incapable of performing its obligations under this Act, Successor IESO shall be established to perform such obligations.

(4) **Compensation for Failure** – Absolute Assignees shall be compensated for any losses suffered by them as a result of any failure by the Lieutenant Governor in Council to comply with its undertakings and agreements in this Article 11.[23]

(5) **No Wind-up of Financing Entity**. No Financing Entity may be voluntarily wound up, liquidated or dissolved until one year after all of its Funding Obligations are repaid.

(6) **References to the Undertaking and Agreement** – Any non-confidential reference to the Undertaking of the Lieutenant Governor in Council, including in marketing materials and other documentation authorized for use by the Administrative in connection with any Funding Obligation, may be made provided that [*Add conditions to protect the Province*].

---

[23] Requested by Torys. For discussion.

Article 12 – Regulations

Regulations may be made under this Act for the purposes described in Sections •,•,• and • and may be promulgated for any of the following purposes:

(a) to set standards and measures regarding the commercially reasonable requirements of the Province associated with an Absolute Assignee incurring Funding Obligations or becoming obligated to pay any Finance Amount, including to establish guidelines regarding all-in funding costs; permitted Additional Funding Charges; required maturities and redemption and termination rights of Funding Obligations; liquidity requirements, in each case to a Financing Plan that is consistent in its effect with the Fair Allocation Plan;

(b) to establish and empower one or more regulated entities to undertake decision-making activities with respect to this Act;

(c) to set out reasonable requirements regarding the appointment or retention of advisors, agents, service providers, contract counterparties, including in relation to 'market terms and conditions' parameters;

(d) to provide for audit and compliance standards applicable to those persons who are or may become obligated or have duties that arise under this Act [or under any Funding Obligation];

(e) to provide for any pre-vetting and approval requirements in relation to any incurrence by an Absolute Assignee of any Funding Obligation or obligation to pay any Finance Amount; and

(f) to provide for appeal and due process considerations in connection with the establishment, adoption, implementation and review of the Fair Allocation Plan or the Financing Plan.

Article 13- Miscellaneous[24]

(1) **Choice of law** – The law governing, as applicable, the validity, enforceability, attachment, perfection, priority and exercise of remedies with respect to the transfer of an interest or right or creation of a security interest in the Regulatory Asset, any Transition Charge or the Undertaking of the Province shall be the laws of the Province.

---

[24] OPG would like the specific amendments related to OPG to be included in the Bill.]

(2) **Conflict of law** – In the event of conflict between this Act and any other law of the Province regarding the attachment, assignment or perfection, or the effect of perfection, or priority of any Disposition or Pledge, this Act shall govern to the extent of the conflict.

(3) **No further acts or approvals required** - Notwithstanding any provisions of any law of the Province to the contrary, no approvals, notices or authorizations other than those specified in this Act shall be required with respect to the actions to be taken in compliance with this Act, including under the Financing Plan or in relation to the establishment of the Fair Allocation Plan, and the transactions and contracts authorized in or contemplated by this Act or the Financing Plan, including the incurrence of any Funding Obligation, any Disposition, any Pledge or in the payment and performance of any attendant or incidental contract and any related expenses incurred to facilitate the preparation and implementation of the Financing Plan.

(4) **Effect of invalidity after the Incurrence of any Funding Obligation** - Effective on the date that a Funding Obligation is incurred under this Act, if any provision of this Act is held to be invalid or is invalidated, superseded, replaced, repealed or expires for any reason, that occurrence shall not affect any action allowed under this Act that is taken by any person who is or may become obligated or have duties that arise under this Act and any such action shall remain in full force and effect.

(5) **Severability** - If any Article, Section, paragraph or subparagraph of this Act or the application thereof to any person, circumstance or transaction is held by a court of competent jurisdiction to be unconstitutional or invalid, the unconstitutionality or invalidity shall not affect the constitutionality or validity of any other Article, Section, paragraph or subparagraph of this act or its application or validity to any person, circumstance or transaction, including the irrevocability of Transition Charges, the validity of the Regulatory Asset, the incurrence of any Funding Obligation, any Disposition, any Pledge, or the collection and recovery of Transition Charge Collections. To these ends, the Legislature hereby declares that the provisions of this Act are intended to be severable and that the Legislature would have enacted this Act even if any Article, Section, paragraph or subparagraph of this Act held to be unconstitutional or invalid had not been included in this Act.

Schedule 1

Guidelines for Estimates

[To be considered.]

Schedule 2

Requirements Applicable to Alternative Invoicing Agent/ Alternative Collection Agent

[To be considered.]

Schedule 3[25]

Principles and Parameters for Establishing the Financing Plan

The following principles and parameters provide a guideline as to what a Financing Plan should address:

(1) in respect of each Reference Period, make reference to the allocations of Future Fair Share of Green Transition Benefits to each Reference Group contemplated by the Fair Allocation Plan;

(2) estimate IESO Funding Shortfalls for each Reference Period;

(3) consider alternative funding arrangements suitable to fund the estimated IESO Funding Shortfalls, including short term and/or long term Funding Obligations;

(9) consider quantities, maturities, payment obligations, prepayment or redemption rights and such other features of Funding Obligations so that payments made for a Reference Period reasonably correspond to the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

(4) if the anticipated amount of any Repayment (together with payments of other Finance Amounts) to be made in respect of a Reference Period would materially exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable Retail Consumer Group under the then current Fair Allocation Plan, diligent efforts should be made to determine whether a Refinancing or deferral of such Repayment may be reasonably and cost-effectively effected based on then prevailing market terms, conditions an circumstances;

(5) reflect the assumptions and requirements specified in any contemplated Funding Obligation (e.g., any limit on the maximum amount of Transition Charges charged to a hypothetical Retail Consumer relative to his or her monthly electricity bill, as prescribed by any rating agency that ascribes its credit rating to or in respect of the Funding Obligation having regard to the application of the Allocation Methodology);

(6) incur Funding Obligations from time to time on the best terms available at such time for a financing transaction of the size and type contemplated, and having regarding to the following parameters:

a. whether the Absolute Assignees will require committed access to short term liquidity to cover estimated IESO Funding Shortfalls prior to incurring fixed term Funding Obligations, and the amount and repayment terms of any such required

[25] Awaiting input from Torys based on OPG mark-up of Financing Plan sections.

liquidity; provided that any Repayment required to be made under the terms of such short-term liquidity would not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

b. the basis upon which the Financial Services Agent will select the term to maturity of any other Funding Obligations; provided that any Repayments required to be made under the terms of such Funding Obligations should not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

c. the basis upon which the interest rates applicable to such Funding Obligations would be determined;

d. the reference capital or finance market in which such Funding Obligation would be incurred, including markets outside of Canada if considered by the Financial Services Agent to be appropriate in the circumstances;

e. the currency of payments under such Funding Obligations and, if the Funding Obligations are denominated in a currency other than Canadian dollars, the basis upon which the Financial Services Agent shall cause the applicable Absolute Assignee to enter into hedging transactions to mitigate currency risk, including acceptable minimum and maximum coverage levels, having regard to the availability of related derivatives having notional amounts corresponding to the repayment and maturity profile of such Funding Obligations;

f. the basis upon which the Financial Services Agent will select counterparties under any transaction to be entered into by an Absolute Assignee, including any paying agent, servicer, cash manager, liquidity provider, hedge counterparty, account bank, lender, note trustee, security trustee, paying agent, registrar/transfer agent, financial services agent, arranger or manager;

g. the basis upon which the Financial Services Agent will manage counterparty risk, including by providing for maximum counterparty exposure limits having regard to concentration, credit and other identified risks with respect to individual counterparties or countries;

h. the basis upon which the Financial Services Agent will negotiate and settle Finance Amounts, including the amount of any Redemption Amounts, Finance Reserve Deposits and Additional Funding Charges;

(7) the basis upon which Funding Obligations may be redeemed, prepaid, repurchased or otherwise affected, having regard for the need to minimize debt service charges and other Funding Costs, and the need to maintain a stable funding platform to finance the IESO Funding Shortfalls from time to time on a basis that is consistent with the allocations of Future Fair Share of Green Transition Benefits to applicable Reference Groups under the Fair Allocation Plan;

(8) the basis upon which any Repayments, Funding Costs and Redemption Amounts will be paid, including any defeasance, sinking fund or through other reserves or liquidity facilities;

(9) the basis upon which fees, charges, expenses, costs, indemnities, reimbursements and other amounts payable to or for the benefit of the Financial Services Agent and other agents and service providers to the Absolute Assignees may be determined, allocated and paid;

(10) the timing and basis upon which Finance Reserve Deposits and Finance Reserve Withdrawals may be made;

(11) the basis upon which any obligations for any other Additional Funding Charges may be incurred and paid;

(12) the basis upon which the cash flows arising from time to time or otherwise derived from the Regulatory Asset may otherwise be applied, including in relation to any counterparty enforcement and realization scenario;

(13) the transmittal to [the IESO] of information related to the amounts to be included in the determination of the Period Transition Charge for a Reference Period;

(14) the basis upon which any Disposition may be made or effected by an Absolute Assignee, including parameters for determining the purchase price for the interest in the Regulatory Asset that is the subject matter of such Disposition, and any consents and releases that may be usefully obtained in connection with such Disposition;

(15) describe the requirements applicable to any special purchase entity that will purchase an Investment Interest, including proposed capitalization, governance, and restrictions on their powers and activities; and

(16) the basis on which any Pledge may be given or effected.

CONFIDENTIAL AND PRIVILEGED

Preliminary Draft for Discussion Purposes Only

"Fair Hydro Act"

Article 1 – Purpose

The Province has and continues to encourage the construction and development of facilities for the long-term operation and generation of electricity in the Province using sustainable, lower carbon-based technologies such as new gas-fired generation, renewable facilities, energy from waste and biomass, including under the Province's various procurement, standard offer, feed in tariff and other similar programs (the "Green Generation Initiative"). The long-term benefits of the Green Generation Initiative accrue over time and have benefited and will benefit present and future electricity consumers in the Province.

The imputed costs of the Green Generation Initiative are currently passed through to electricity consumers by way of a monthly adjustment amount (the "Green Costs Adjustment"), which in turn forms part of the overall adjustment calculated by the Independent Electricity System Operator ("IESO") pursuant to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* (the "Global Adjustment"). The Global Adjustment is included as a charge billed to electricity consumers in their monthly electricity invoices.

The Green Costs Adjustment is currently determined each month by reference to the amounts paid by IESO to the generators of electricity in the Province under the Green Generation Initiative, which may be higher than prevailing market price for electricity. These differences arise because IESO has entered into long-term procurement contracts with such generators in order to provide them with long-term price certainty for electricity, and in turn to encourage the generators to develop technologies and to construct and develop facilities consistent with the Green Generation Initiative. In general, whenever amounts payable under these procurement contracts exceed the market price for electricity, the Green Costs Adjustment passes through the amount of such differences as part of the monthly charge to electricity consumers. Such amount then becomes available to IESO to meet its obligations under the procurement contracts. It has been determined that the useful lives of many of the assets encouraged by the Green Generation Initiative will be well in excess of the respective terms of the related procurement contracts, and in many cases may extend over more than one generation of electricity consumers.

Since the benefits to past, present and future electricity consumers from the Green Generation Initiative will not necessarily coincide with the costs currently attributed through the Green Costs Adjustment, based on the respective durations of the procurement contracts, it has been determined that the rate at which the costs associated with the Green Generation Initiative should be passed through to Retail Consumers (as defined in Article 2) should be more closely aligned with the benefits that such Retail Consumers have derived and are expected to derive from the Green Generation Initiative over time. This realignment will be based on principles and parameters that establish a reasonable basis for measuring and allocating the relative costs and benefits of the Green Generation Initiative equitably across present and future Retail Consumers (the "Fair Allocation Plan"). [NTD: The IESO has a number of comments on the FAP: (i) Is it necessary to include this much detail in the FAP, as opposed to broadly referencing a FAP that will articulate principles/parameters for allocating future deferred amounts, etc., and which will be developed and/or set out in the Regs; (ii) while we appreciate the constitutional issues, we believe there risk in prescribing this much detail in purpose/objects and in how the FAP is engineered, which makes it easier to challenge. Is it

not intended to provide for as much flexibility as possible?; (iii) is it intended that the 17% deferred amount is an outcome of the yet to be developed FAP?; (iv) the FAP is in essence a policy-based decision(s) and in the IESO's view would seem to have to necessarily be prepared by the Ministry, albeit with input from relevant experts, including the IESO, LDCs, etc. – as opposed to being delegated to experts]

If the Fair Allocation Plan determines that the equitable allocation of the costs associated with the Green Generation Initiative to the Retail Consumers of a particular time period should be reduced below the amount that currently would be charged based on the Green Costs Adjustment, then the amount payable by such Retail Consumers and in turn available to IESO will, in the aggregate, be less than the amount payable by the IESO to the generators in respect of such period. In this case IESO will need to obtain funding from another source to cover such a shortfall. If a funding obligation is incurred by IESO to cover such a shortfall during one period, the repayment of such funding obligation will be required in a future period, and any related repayments, finance costs, hedging costs and other transaction costs incurred will become payable in one or more future periods. In order for IESO to obtain a reliable and committed source of cash flows to enable IESO to repay such funding amounts when they become due and payable, this Act imposes irrevocable and non-bypassable financial obligations on Retail Consumers to pay amounts incurred in respect of such funding obligations when they become due and payable and establishes a right to invoice and collect such amounts. The right and interest in and to collect such financial obligations will take the form of the Regulatory Asset contemplated in this Act, which will constitute property rights and interests. Interests in the Regulatory Asset may be sold and absolutely assigned by IESO to one or more financing entities, which in turn will finance their acquired interests by incurring funding obligations. The incurrence and payment of such funding obligations will be administered on behalf such financing entities by a financial services agent under the Financing Plan contemplated in this Act. The Financing Plan will seek to reasonably match the payment obligations arising under such funding obligations, to be borne by the future Retail Consumers of the period in which such payment obligations become due, with the benefits of the Green Generation Initiative allocated to such future Retail Consumers under the Fair Allocation Plan.

The purpose of this Act is to establish the basis upon which intergenerational fairness can be achieved by charging the costs and benefits of the Green Generation Initiative to present and future Retail Consumers on an equitable and cost effective basis.

Article 2 - Definitions

In this Act:

"Absolute Assignee" means a person to whom a Regulatory Asset Owner effects a Disposition.

"Actual" means, in relation to costs, expenses or payments in respect of Funding Obligations during a Reference Period, the actual amount of such costs, expenses or payments paid or made (net of any Finance Reserve Withdrawals applied to pay such amounts), which amounts shall be recorded by the Financial Services Agent whose records shall be determinative for the purposes of this Act except to the extent of a manifest calculation error.

"Additional Funding Charges" means, for a Reference Period in respect of an Absolute Assignee, the fees, charges, expenses, costs, indemnities, reimbursements and other amounts (including any applicable tax amounts) that are or become payable by or on behalf of the Absolute Assignee

during the Reference Period and that were incurred or committed to directly or indirectly by the Absolute Assignee in connection with the incurrence of Funding Obligations under the Financing Plan (whether at the time of such incurrence or over the term of the Funding Obligation and whether directly or indirectly), including (without duplication and without limitation): (a) any payment required under an ancillary agreement entered into by, or by the Financial Services Agent on behalf of, the Absolute Assignee under the Financing Plan; (b) any federal, provincial or local taxes, payments in lieu of taxes, franchise fees or license fees imposed on the Absolute Assignee or incurred by on behalf of the Absolute Assignee under any obligation to pay tax gross-up amounts to counterparties under Funding Obligations; (c) any amounts payable to the Financial Services Agent, including amounts payable to its advisors and outside counsel; (d) any amounts incurred to prepare, confirm, amend and implement the Financing Plan; (e) any amounts payable to any Alternative Collection Agent or Alternative Servicer, including amounts payable to each's advisors and outside counsel; (f) any amounts incurred to make the calculations, determinations or confirmations to be made by or on behalf of the Absolute Assignee; (g) any servicing fees and expenses; (h) any trustee fees and expenses; (i) any legal fees, expenses and disbursements; (j) any accounting fees and expenses; (k) any administrative fees and expenses; (l) any manager or director fees of a Financing Entity; (m) any registration fees and expenses; (n) any placement fees, underwriting fees, fees and related issuing expenses; (o) any rating agency fees; and (p) any other related fees, charges, expenses, costs, indemnities, reimbursements and other amounts that are approved in good faith by the Financial Services Agent for recovery and payment under the Financing Plan.

"Allocation Factor" means, in respect of a Retail Consumer for a Reference Period, the number (expressed as a percentage) determined in respect of the Retail Consumer by the OEB based on the application of the Attribution Methodology in respect of the Reference Period.[1] [NTD: Is this needed if OEB determines volumetric rate to recover Period Transition Charge?]

"Alternative Collection Agent" means a person appointed under Section 5(11) and in compliance with the requirements set out in Schedule 2 to assume the ~~collection activities and activities of any~~obligations of an Electricity Distributor ~~or IESO~~ under Article ~~5, as agent for and on behalf of the Regulatory Asset Owners.~~5.

"Alternative Servicer" means a person appointed under Section 4(8) to assume the obligations of ~~the Servicer~~an Electricity Distributor under Article ~~4, as agent for and on behalf of the Regulatory Asset Owners.~~4.

"Assessed Past Green Transition Costs" means, in respect of a Measurement Date, the aggregate of the imputed costs of the Green Generation Initiative (expressed as an equivalent to current dollars),

[1] Confirm that this will be based on forecast volumes of demand (like RPP). To the extent amounts do not get recovered due to differences between forecast and actual, those may be identified and caught by the True-Up.

as reflected in the calculation of the Green Costs Adjustment, which have been charged to Retail Customers through the Global Adjustment on or prior to the Measurement Date.

"Attribution Methodology"[2] means the methodology specified in the Fair Allocation Plan for allocating the Period Transition Charges for a Reference Period to individual Retail Consumers of the applicable Retail Consumer Group based on its Allocation Factor.

"Collected Amount Adjustment" means, in respect of a True-Up Period, the amount (which may be a negative amount) calculated by ~~the Servicer~~IESO, a Successor IESO or the Financial Services Agent, as applicable, equal to (a) the Estimate of the Finance Amount for the True-Up Period, minus (b) the sum of all Transition Charge Collections for the True-Up Period.[3]

"Collective Rights Agreement" means an agreement among all of the Regulatory Asset Owners (including each Absolute Assignee) and each Pledgee that governs the enforcement of their respective rights and interests in, to and under the Regulatory Asset on a coordinated and collective basis.[4] [NTD: is there a need to reference this requirement in the legislation?]

"Delegate" means the person or persons designated in writing from time to time by the Minister of Energy to undertake the actions and perform the responsibilities ascribed to the "Delegate" under this Act.

"Disposition" means ~~an~~any actual or purported sale, assignment~~,~~ or transfer~~, conveyance, sale, contribution, set-over, exchange or other disposition~~ of an Investment Interest to an Absolute Assignee~~ pursuant to a Disposition Document.~~, and "Dispose" shall have a corresponding meaning.

"Disposition Document" means ~~the~~any agreement, deed, conveyance, instrument or other document~~ under~~ which relates to a Regulatory Asset ~~Owner effects a Disposition to an Absolute Assignee~~ or an interest therein. [ND: changes are intended to address partial circularity]

"Electricity Distributor" means, in respect of a Service Area, the rate regulated distributor licensed under Part V of the *Ontario Energy Board Act, 1998* in respect of such Service Area, together with and its successors.

"Electricity Distributor Remittances" means, for an Electricity Distributor on a Remittance Date, all Transition Charge Collections received [or deemed to be received] [NTD: delete deeming language unless it is intended to provide for deemed collections] by the Electricity Distributor prior to the Remittance Date and that have not otherwise been remitted to IESO or if applicable the Alternative Collection Agent in accordance with Section 5(3), including the proceeds of any

---

[2] This allocation may be volumetric or some combination of a flat amount and a volumetric charge. Further discussion is required. H&W has raised a concern regarding possible adverse changes after the fact and rating agency considerations. Consider whether hard-coding in the legislation makes sense.

[3] This would pick up adjustments based on actual collection experience, changes in the retail consumer base, changes in the actual costs (versus earlier estimates) included in the Transition Charge calculation, etc.

[4] Consider adding the Financial Services Agent and the Servicer as parties.

enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5.

"Electricity Invoice" means an invoice issued by any of a Electricity Distributor (or ~~in its stead,~~ by an Alternative Servicer)~~, by the Servicer or by a Retailer, in each case~~ to a Retail Consumer that is served by the Electricity Distributor's distribution system in accordance with Section 4(1) in respect of electricity charges, including the cost of electricity, delivery and regulatory charges and related services and amounts incurred, assessed or charged in respect of connectivity to a distribution network in the Electricity Distributor's designated Service Area and in respect of applicable Transition Charges to be charged to the Retail Consumer under this Act. [NTD: The Alternative Servicer should only invoice for Transition Charges, not the entire invoice.]

"Estimate" means (a) in relation to costs, expenses or payments in respect of Funding Obligations or any Finance Amount for a Reference Period, the estimated amount of such costs, expenses or payments determined by the Financial Services Agent; and (b) in relation to an assessment of the benefits of the Green Generation Initiative to any Retail Consumer Group, the estimated value (in current dollars) of such benefits determined by the Delegate, in each case having regard to the applicable principles and parameters set out in Schedule 1, which estimated amounts shall be determinative as the applicable estimate for the purposes of this Act except to the extent of a manifest calculation error.

"Estimated Future Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that are expected to accrue to Retail Consumers from the establishment and implementation of the Green Generation Initiative during the period from the Measurement Date to the Program-End Date.

"Estimated Past Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that have accrued to Retail Consumers from the establishment and implementation of the Green Generation Initiative up to and including the Measurement Date.

"Fair Allocation Plan" has the meaning given in Article 1.

"Finance Amount" means, for a Reference Period in respect of an Absolute Assignee, the sum (without duplication) of the following amounts that are or become payable during the Reference Period ~~in respect of the~~by an Absolute Assignee: (a) Repayments; (b) Funding Costs; (c) Redemption Amounts; (d) Finance Reserve Deposits; and (e) Additional Funding Charges. [Should the Repayment Amount not be reduced to anticipate ordinary course refinancings by Finance Entities?]

"Finance Reserve Deposits" means, for a Reference Period, the amount by which (a) deposits made or to be made during the Reference Period in order to pre-fund, collateralize, over-collateralize or

establish reserves for the ultimate payment of Funding Obligations or for related contingencies specified in the Financing Plan, exceed (b) any Finance Reserve Withdrawals.

"Finance Reserve Withdrawals" means, for a Reference Period, the amount withdrawn during the Reference Period from deposits previously made to pre-fund, collateralize, over-collateralize or establish reserves for the payment of Funding Obligations or to pay amounts in respect of related contingencies that had been specified in the Financing Plan.

"Financial Services Agent" means OPG or, following any Replacement Event, such other person or persons who may be appointed as the Financial Services Agent of the Absolute Assignees under the Financing Plan in compliance with the requirements set out in Schedule 2.[5]

"Financing Entity" means an entity established in accordance with the Financing Plan to acquire all or an interest in the Regulatory Asset as an Absolute Assignee and to enter into Funding Obligations to finance such acquisition under the Financing Plan.[6]

"Financing Plan" means the written plan prepared by the Financial Services Agent on behalf of each Absolute Assignee in compliance with Article 9 to set forth the basis upon which, among other things: (a) any Disposition may be made to, financed by or effected by an Absolute Assignee; (b) any Funding Obligations may be incurred by an Absolute Assignee, including any Refinancing; (c) any Pledge may be given or effected; (d) any Funding Obligations may be redeemed, prepaid, repurchased, amended or otherwise effected; (e) any obligations for Additional Funding Charges may be incurred and paid; (f) any Repayments, Funding Costs and Redemption Amounts may be paid or provided for; (g) any Finance Reserve Deposits may be made; (h) any Finance Reserve Withdrawals may be made; (i) the establishment and operation of any Financing Entity may be effected; and (j) the cash flows arising from time to time or otherwise derived from an Investment Interest may otherwise be applied, as the same may be amended, amended and restated or terminated by the Financial Services Agent in compliance with Article 9 from time to time.

"Funding Costs" means, for a Reference Period in respect of an Absolute Assignee, the amount by which (a) the aggregate of all interest and other periodic finance charges accruing due and becoming payable or paid by or on behalf of the Absolute Assignee during the Reference Period in respect of its Funding Obligations, including any standby commitment fees or charges paid to any lender, credit enhancement fees or charges paid to any credit enhancer, liquidity fees or charges paid to any liquidity provider, amounts (including any termination payments) paid under derivatives and any deposit amount made or required to fund or replenish a debt service reserve

---

[5] Discuss whether to accommodate multiple Financial Services Agents. MOE to consider.

[6] MOE to confirm that the legislation will provide that any Financing Entity that is a wholly-owned subsidiary of OPG (1) would not be subject to Part VI of the *Electricity Act* (Ontario) and (2) in the case of any Financing Entity that is a trust, any income of such trust (for purposes of the *Income Tax Act* (Canada) or the *Taxation Act, 2007* Ontario)) which is paid or made payable to OPG or a wholly-owned subsidiary of OPG as a beneficiary of such trust will not be taken into account in calculating the amount of a payment required to be made by OPG (or such subsidiary) by section 89 or 90 of the Electricity Act.

account or other account established under any indenture, ancillary agreement or other financing document relating to its Funding Obligations, exceeds (b) the aggregate of all amounts received by or on behalf of the Absolute Assignee during the Reference Period [in respect of a Funding Obligation] [NTD: not all receipts may relate to a Funding Obligation] , including from any reimbursement of standby commitment fees or charges paid by a lender, any reimbursement of credit enhancement fees or charges paid by any credit enhancer, any reimbursement of liquidity fees or charges paid by any liquidity provider, any amounts (including any termination payments) paid to the Absolute Assignee under derivatives and any Finance Reserve Withdrawal made or required to be made from a debt service reserve account or other account established under any indenture, ancillary agreement or other financing document relating to the payment of the Funding Costs payable in respect of a Funding Obligation for the Reference Period. [NTD: Make provision for receipts in respect of reserve accounts, i.e Funding Costs should be reduced by interest receipts on reserve accounts]

"Funding Obligation" means, in respect of an Absolute Assignee, each payment obligation (including each obligation to pay: principal, interest, premiums and other financing charge payments; pass-through payments; payment obligations arising under or in respect of derivatives; payment obligations owing to service providers, Financial Services Agents, finance entity intermediaries, capital markets intermediaries, advisors, lenders, credit enhancement providers, liquidity providers, disbursement counterparties, regulatory agencies and rating agencies; and all Additional Funding Charges incurred by or on behalf of the Absolute Assignee under the Financing Plan, including any Refinancing of another such payment obligation incurred by or on behalf of such Absolute Assignee.

"Future Fair Share of Green Transition Benefits" means, in respect of a Measurement Date, the sum of (a) the Over-Assessed Amount; and (b) the Estimated Future Green Transition Benefits, in each case as of the Measurement Date.

"Generator" means a generator of electricity that is subject to the *Electricity Act, 1998*.

"Global Adjustment" has the meaning given in Article 1.

"Green Costs Adjustment" has the meaning given in Article 1.

"Green Generation Initiative" has the meaning given in Article 1.

"IESO" means (i) the Independent Electricity System Operator created pursuant to Part II of the *Electricity Act, 1998*.

"IESO Available Amount" means, for a Reference Period, the lesser of (a) the amount (if any) by which (i) the Maximum Transition Charge Amount for the Reference Period, exceeds (ii) Period Finance Amount for the Reference Period, and (b) the IESO Retained Interest Amount as of the [35th] day prior to the first day of a Reference Period plus any IESO Financing Costs that are due and payable and remain unpaid as of the [35th] day prior to the first day of a Reference Period.

[NTD: Parking for a moment the commercial law issues around subordination, we are considering whether the conferral upon the IESO of a subordinated residual interest in the Transition Charges cash flow create consolidation issues. It may also impact our ability to book an asset.]

"IESO Electricity Distribution Receipts" means, for a month, the sum of all amounts payable by Electricity Distributors to IESO during the month pursuant to section • of the *Electricity Act*.

"IESO ~~Financing~~Funding Costs" means, for a Reference Period, the ~~financing~~ funding costs (if any) incurred by IESO pursuant to Section 8(4) in order to finance its ownership of the IESO Retained Interest during the Reference Period.

"IESO Funding Shortfall" means, for a month, the amount, if any, by which (a) the IESO Electricity Distribution Receipts that would be payable to IESO for the month if determined without regard to this Act and without regard to the changes made to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* with respect to the Global Adjustment concurrently with this Act, exceeds (b) the IESO Electricity Distribution Receipts payable to IESO for the month[7]~~; provided that if the amount of any such shortfall is determined to have been based on incomplete information, variances or estimates that were inaccurate, an adjustment shall be made in determining the amount of any subsequent shortfall for the month in which the inaccuracy is identified.~~ [NTD: it likely does not work to express in regards to "amounts payable by the LDCs" because settlement between the IESO and LDC's entails payments by LDCs to the IESO and then credits/debits by the IESO to LDCs to reflect RPP shortfalls/overages]. To the extent reasonably necessary to give effect to this Act, or any transaction contemplated hereby, IESO shall calculate the IESO Funding Shortfall for any month based on information provided by the Electricity Distributors and (i) such calculation shall be binding for all purposes; and (ii) any demonstrated inaccuracy in the calculation for any month (including any such resulting from inaccuracies in the information provided by Electricity Distributors) shall be accounted for by adjusting the IESO Funding Shortfall for a subsequent month.

"IESO Recovery" means each amount remitted to IESO (including by IESO retaining such amount) in respect of the IESO Retained Interest pursuant to Section 5(6)(b), and "IESO Recoveries" means, collectively, all such amounts received by IESO.

"IESO Remittances" means, for a Settlement Date, all Electricity Distributor Remittances received by IESO or ~~if applicable the Alternative Collection Agent~~an IESO Successor prior to the Settlement Date and that have not otherwise been remitted to the Regulatory Asset Owners (each with respect to its Regulatory Asset) in accordance with Section 5(6), including the proceeds of any enforcement action undertaken by IESO or if applicable the ~~Alternative Collection Agent~~ IESO Successor to recover payment of amounts payable by Electricity Distributors to IESO or the IESO Successor in accordance with Article 5.

[7] This has been recast to recognize that the shortfall in the first 4.5 years could exceed the entire GA amount. A more refined approach to describing the concept may be considered.

"IESO Retained Interest" means IESO's right, title and ownership interest (if any) in, to and under the Regulatory Asset, which shall exclude each Investment Interest.

"IESO Retained Interest Amount" means, on a day, (a) the sum of all IESO Funding Shortfalls incurred prior to the day, plus (b) the sum of all IESO Funding Costs incurred prior to the day in accordance with Section 8(4), minus (c) the aggregate net proceeds received by IESO from or on behalf of ~~each~~any Absolute Assignee as consideration for ~~the~~a Disposition ~~of each Investment Interest paid to IESO by or on behalf of such Absolute Assignee~~ prior to the day, and minus (d) the IESO Recoveries received by IESO prior to the day.

"IESO Successor" means ~~the~~any entity appointed by the Province to succeed to the rights and obligations of IESO as the entity responsible for managing the Province's electricity system.

"Investment Interest" means an ownership interest in, to or under the Regulatory Asset that is acquired by an Absolute Assignee pursuant to ~~a Disposition~~Section 6(2), which ownership interest may include (without limitation) ownership of a specified portion on a divided basis of the assets comprising the Regulatory Asset and ownership of an undivided ownership interest in the Regulatory Asset, in each case as may be described in the applicable Disposition Document.

"Investment Remittance" means, for a month, the lesser of (a) the aggregate amount of all IESO Remittances for the month, and (b) the sum of the Finance Amounts due and payable by all Absolute Assignees in respect of the month.

"Maximum IESO Recovery" means, for a month, the amount (if any) by which (a) the IESO Remittances for the month, exceed (b) the sum of all Finance Amounts that are due and payable by Absolute Assignees in respect of the month.

"Maximum Transition Charge Amount" means, for a Reference Period, ~~(a)~~ the aggregate amount of Future Fair Share of Green Transition Benefits that are allocable to the applicable Retail Consumer Group to such Reference Period in accordance with the Fair Allocation Plan~~, divided by (b) the applicable~~. [NTD: When will there be visibility into this process and amount. Is this calculated on a monthly basis or for a Reference Period ~~Length.~~]

"Measurement Date" means [Insert relevant date around the Legislation Implementation Date] and any other date specified as such under the Fair Allocation Plan.

"OEB" means the Ontario Energy Board, together with its successors.

"OPG" means the corporation incorporated as Ontario Power Generation Inc. under the *Business Corporations Act* on December 1, 1998, together with its successors.

"Over-Assessed Amount" means, in respect of a Measurement Date, the amount (if any) by which (a) the Assessed Past Green Transition Costs, exceeds (b) the Estimated Past Green Transition Benefits, each as determined as of the Measurement Date.

"Period Finance Charges" means, for a Reference Period, the sum of (a) the Estimate of the Finance Amount and (b) the True-Up Amount in respect of the immediately preceding Reference Period.

"Period Transition Charges" means, for a Reference Period, the sum of (a) the Period Finance Charges for the Reference Period and (b) the IESO Available Amount for the Reference Period~~.~~, calculated in accordance with Section 4(2). [Does this mean that any retained IESO Interest amount is necessarily repaid in the next "Relevant Period, subject to the Maximum Transition Charge Amount?"]

"Pledge" means, in respect of an Investment Interest of an Absolute Assignee, a lien, mortgage, charge or security interest granted to or in favour of a Pledgee by the Absolute Assignee in, to and over all or a specified portion (including a specified portion on a divided basis or by way of an undivided interest) of the Investment Interest.

"Pledgee" means a person to whom an Absolute Assignee grants a Pledge.

"Program End Date" means •, [2047].

"Province" means the Province of Ontario.

"Redemption Amount" means the amount payable by or on behalf of an Absolute Assignee to redeem, prepay or repurchase a Funding Obligation incurred by or on behalf of the Absolute Assignee, including any premium, make-whole or other additional amount becoming payable under the Funding Obligation to give effect to such redemption, prepayment or repurchase.

"Reference Period" means (a) the period from (and including) the Measurement Date to (and including) June 30, 2017, (b) each six month period commencing [May 1st and November 1st] thereafter and (c) any other period specified as such in the Fair Allocation Plan.

"Reference Period Length" means, for a Reference Period, the number of months in the Reference Period.

"Refinancing" means, in respect of a Funding Obligation incurred by or on behalf of an Absolute Assignee, that the Funding Obligation is repaid or repurchased for cancellation by or on behalf of the Absolute Assignee by applying the net proceeds obtained by the Absolute Assignee incurring one or more other Funding Obligations.

"Regulatory Asset" means the property rights and interests described in Section 6(1), which collectively is comprised of the IESO Retained Interest and each Investment Interest.

"Regulatory Asset Account" means (a) for an Electricity Distributor or an Alternative Collection Agent, any bank account into which the Electricity Distributor or such Alternative Collection Agent deposits or receives Transition Charge Collections; (b) for the ~~Servicer~~IESO or an IESO Successor, any bank account into which IESO or the IESO Successor deposits or receives Transition Charges~~, Electricity Distributor Remittances or IESO Remittances; and (c) if applicable, for the Alternative Collection Agent, any bank account into which the Alternative Collection Agent~~

~~deposits or receives Transition Charge Collections~~, Electricity Distributor Remittances or IESO Remittances.

"Regulatory Asset Owner" means each of (a) IESO, as owner of (and to the extent of) the IESO Retained Interest and (b) each Absolute Assignee, as owner of its Investment Interest or Investment Interests, and "Regulatory Asset Owners" means collectively IESO and each such Absolute Assignee, who together own the entirety of the Regulatory Asset and are required to exercise their individual rights of ownership in accordance with Section 6(7).

"Related Rights" means all rights of any kind (whether in tort, contract or otherwise) that attach or are attendant or incidental to any of the other property rights or interests that comprise such Regulatory Asset.

"Remittance Date" means, in respect of an Electricity Distributor, each day on which it is required to remit Electricity Distribution Remittances to IESO or if applicable the ~~Alternative Collection Agent~~IESO Successor as specified in accordance with any Funding Obligation or, if no such day is specified in accordance with any Funding Obligation, then the Business Day preceding each Settlement Date.

"Repayment Obligation" means an obligation to repay, redeem or repurchase, or to provide for the repayment, redemption or repurchase (including by making a related Finance Reserve Deposit) of, all or a portion of the amount advanced to the Absolute Assignee under a Funding Obligation.

"Repayment" means a payment by an Absolute Assignee made to satisfy a Repayment Obligation, other than to the extent that the payment is made by applying the proceeds of a Refinancing or from Finance Reserve Withdrawals.

"Replacement Event" ~~means any event specified as such in a Funding Obligation.~~ [should be defined, perhaps in the regulations]

"Retail Consumer" means:

(a) present and future consumers of electricity in the Province who are (i) consumers designated under section 79.16 of[, and O.Reg 95/05 under,] the *Ontario Energy Board Act, 1998*, or (ii) hold or are deemed to hold an "eligible account" under the *Ontario Rebate for Electricity Consumers Act, 2016*, other than any such consumer who has a contract with a Retailer who uses Retailer Consolidated Billing; and

(b) present and future Retailers who use Retailer Consolidated Billing,

and each case includes all such consumers and Retailers who are connected, directly or indirectly and whether a customer of an Electricity Distributor or not, to the transmission and distribution system assets located in the Province and who are taking electric delivery service within the Province, whether or not such retail consumers produce their own electricity or purchase electric generation services from a provider of electric generation services other than the owner of the Province's transmission and distribution system assets and whether or not the transmission and

distribution system assets continue to be owned or operated by Electricity Distributors or operated by IESO.

"Retail Consumer Group" means, in relation to a Reference Period, the Retail Consumers who receive Electricity Invoices during the Reference Period.

"Retailer" means a person who is licensed under Part V of the *Ontario Energy Board Act, 1998* to retail electricity.

"Retailer Consolidated Billing" has the same meaning as in the *Retail Settlement Code* issued by the Ontario Energy Board.

"Service Area" means, in respect of an Electricity Distributor, the geographic area or region in which it is licensed to distribute electricity in accordance with the *Electricity Act, 1998*.

~~"Servicer" means IESO or IESO Successor, as agent for and on behalf of the Regulatory Asset Owners, for the purposes set forth in Article 4.~~

"Settlement Date" means the [last Business Day of any month].

"Transition Charge" means, for a Retail Consumer in respect of a Reference Period, (a) the Period Transition Charge, (b) multiplied by its Allocation Factor in respect of the Reference Period, divided by (c) the applicable Reference Period Length. [NTD: Do not need to create parallel process. The definition should be linked to the OEB process for determining the volumetric rate as part of the RPP process (see s. 4(2)). The OEB will determine volumetric rate based on forecast consumption, number of consumers, etc. to recover the Period Transition Charges.]

"Transition Charge Collection" means any amount received or deemed by this Act to have been received upon the collection of a Transition Charge paid by or on behalf of a Retail Consumer, including any proceeds arising from the exercise and enforcement of any related rights and interests under or in respect of the Regulatory Asset.

"True-Up Amount" means, in respect of a Reference Period, the amount (which may be a negative amount) calculated by the Financial Services Agent equal to (a) the Estimate of the Finance Amount for the related True-Up Period, minus (b) the Actual Finance Amount for such related True-Up Period, plus (c) the Collected Amount Adjustment for such related True-Up Period.

"True-Up Period" means, in relation to a Reference Period, the period from and including the [30th] day immediately preceding the first day of the Reference Period, to but excluding the [30th] day immediately preceding the last day of the Reference Period.

"Undertaking of the Lieutenant Governor in Council" means the undertaking of the Lieutenant Governor in Council given under Section 11(2).

Article 3 – Transition Charges

(1) **Retail Consumer Obligation to Pay a Transition Charge** – Each Retail Consumer shall pay each Transition Charge charged to it in any Electricity Invoice issued to such Retail Consumer by its

Electricity Distributor or by an Alternative Servicer under Section 4(1), in each case on the terms of payment specified in the related Electricity Invoice. [Is the intent that IESO can recover the IESO retained interest only through the Transition Charges, subject to the Maximum Transition Charge Amount and after payment of the Assigned Interest?]

(2) **Indebtedness of Retail Consumers** – Until paid, a Transition Charge charged to a Retail Consumer in an Electricity Invoice shall, together with any applicable late payment fees and finance charges arising under the terms of the Electricity Invoice with respect to such Transition Charge, constitute non-bypassable indebtedness of the Retail Consumer to the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset. Such indebtedness shall constitute a single and separate[8] debt obligation owing by the Retail Consumer, which subject to Article 5 may be enforced independently from any other payment obligation or indebtedness owing by the Retail Consumer under the Electricity Invoice or otherwise.[9]

(3) **No Set-Off or Reduction** – A Retail Consumer may not set-off or reduce (by counterclaim, defense or otherwise) the amount payable by it in respect of any Transition Charge, including any set-off against or in respect of any amount owing or becoming payable to such Retail Consumer by its Electricity Distributor, any Regulatory Asset Owner or any other person.

(4) **Allocation of Retail Consumer Payments** – If an Electricity Distributor receives a payment made by or on behalf of a Retail Consumer in respect of amounts due and payable under one or more Electricity Invoices that is less than the total amount payable thereunder, such payment shall be allocated on a *pro rata* basis to the payment of related Transition Charges and other invoiced amounts and the amount so allocated as a payment of related Transition Charges shall be deemed to constitute a Transition Charge Collection.

(5) **Transition Charges are Irrevocable** – The Transition Charges arising under or in respect of Funding Obligations incurred under the Financing Plan (including any adjustments based on modifications to such Funding Obligations made in compliance with the Financing Plan or as a result of amendments to the Financing Plan made in accordance with Section 9(3)) are deemed to be irrevocable, final and effective without any further action, except to the extent of manifest calculation error. For greater certainty, a Transition Charge may include Finance Amounts for a Reference Period whether or not the payment of such Finance Amounts are inconsistent with the Fair Allocation Plan applicable at the time such payments are due and payable, whether or not the related Funding Obligation was properly incurred under the Financing Plan. In no case shall a Funding Obligation incurred under the Financing Plan be affected by a subsequent amendment to the Fair Allocation Plan.

Article 4 – Invoicing of Transition Charges

---

[8] Determine if this is critical for rating and markets. Logistics under consideration.

[9] Torys has also suggested that deemed conditions of licenses for distributors, retailers and unit sub-metering providers, could be included as conditions, to require them to collect and remit amounts in accordance with this legislation. Consider if it is helpful to integrate the existing regulatory scheme for invoicing and collections (regarding RPP) in the legislation.

(1) **Inclusion of Transition Charges in Electricity Invoices** – Each Electricity Distributor and if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, specify the Transition Charge to be charged to a Retail Consumer pursuant to Section 4(4) in respect of a related Reference Period in each Electricity Invoice issued by the Electricity Distributor or if applicable by the Alternative Servicer to the Retail Consumer in respect of such Reference Period. Upon the inclusion of a Transition Charge in an Electricity Invoice, the obligation to pay such amount shall be binding on the applicable Retail Consumer.

(2) **Calculation of the Period Transition Charge** – Not later than [35] days prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services Agent on its behalf) shall provide the OEB with written notice of each Estimate of a Finance Amount payable by it or on its behalf in respect of the Reference Period. [35] days prior to the first day of a Reference Period, IESO or Successor IESO if applicable shall specify the IESO Retained Interest Amount and any IESO Financing Costs that are due and payable and remain unpaid on such day. Not later than one month prior to the first day of a Reference Period, the OEB shall calculate the Period Transition Charge applicable to the Reference Period based on the calculations and information set forth in such written notices received from the Absolute Assignees and based on such amounts specified by IESO or Successor IESO, which calculations, information and amounts shall be determinative, except to the extent of manifest calculation error or misstatement.

(3) **Calculation and Attribution of Transition Charges** – Not later than 25 days prior to the first day of a Reference Period, the OEB shall apply the Attribution Methodology to determine the Allocation Factor for each Retail Consumer of the applicable Retail Consumer Group.

(4) **Notice of Transition Charges** – Not later than 20 days prior to the first day of a Reference Period, the OEB shall inform each Electricity Distributor and if applicable any Alternative Servicer of the Transition Charges to be specified in the Electricity Invoices to be issued to each Retail Consumer of the applicable Retail Consumer Group who has a billing address in the Electricity Distributor's Service Area.

(5) **Adjustments** – The amount of any Transition Charge charged to a Retail Consumer and specified as such in an Electricity Invoice shall be determinative of the amount of indebtedness created thereby and owing in respect of such Transition Charge, except to the extent of any manifest calculation error.

(6) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 4 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 4 to impose, attribute, charge, bill and invoice the Transition Charges.

(7) **IESO Successor** – Any IESO Successor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of IESO under Article 4 in the same manner and to the same extent as IESO, including the obligation to calculate and provide notice of Transition Charges.

(8) **Appointment of an Alternative Servicer** – If a Replacement Event occurs in respect of any Electricity Distributor, the Absolute Assignees ~~shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to~~may appoint an Alternative Servicer to perform some or all of the obligations and duties required to be undertaken by such Electricity Distributor under this Article 4, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Servicer shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor. Any Electricity Distributor that is replaced under this Section 4(8) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in the performance of such obligations and duties to the Alternative Servicer and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Servicer to perform such obligations and duties on behalf of the Regulatory Asset Owners.

(9) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, ~~IESO, the Servicer,~~an Alternative Servicer or any other person who may be authorized to issue Electricity Invoices to Retail Consumers for a failure to impose, attribute, charge, bill or invoice Transition Charges. ~~Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure.~~

~~**(10) No Set-Off or Reduction** – No Servicer or Electricity Distributor may set off or reduce (by counterclaim, defence or otherwise) the amount payable by it pursuant to this Article 4.~~

(10) ~~**(11)**~~ **Regulations** – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Servicer to ensure that Transition Charges are properly charged to Retail Consumers and specified as such in Electricity Invoices.

Article 5 – Collections and Remittances

(1) **Duty to Collect as Agent** – Electricity Distributors or if applicable any Alternative Collection Agent shall, as an agent of the Regulatory Asset Owners, undertake [diligent][reasonable][10] efforts to collect amounts owing by Retail Consumers in respect of Transition Charges charged to such Retail Consumers in Electricity Invoices issued by the Electricity Distributor or if applicable such Alternative Collection Agent.

(2) **Segregation of Transition Charge Collections** – An Electricity Distributor or if applicable any Alternative Collection Agent shall promptly segregate Transition Charge Collections from other payments received by it from Retail Consumers and deposit such Transition Charge Collections into its Regulatory Asset Account.[11] Prior to and following a deposit of Transition Charge Collections having been made into its Regulatory Asset Account, the Electricity Distributor or if

[10] Mirror collection "standard of care" under applicable legislation.

[11] Consider trying to attach to existing LDC credit enhancements and provide parallel coverage for customer losses.

applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners.

(3) **Electricity Distributor Remittances** – On each applicable Remittance Date, an Electricity Distributor shall remit all Transition Charge Collections received by it from Retail Consumers in respect of the related Reference Period to or to the account of IESO or if applicable the Alternative Collection Agent.

(4) **Duty to Collect Electricity Distributor Remittances** – IESO or if applicable ~~any Alternative Collection Agent~~an IESO Successor shall, as an agent of the Regulatory Asset Owners, undertake [diligent][reasonable] efforts to accept and collect Electricity Distributor Remittances from Electricity Distributors and Transition Charge Collections from Retail Consumers that pay their Electricity Invoices directly to IESO.[12]

(5) **Segregation of Electricity Distributor Remittances** – IESO and if applicable ~~the Alternative Collection Agent~~an IESO Successor shall promptly segregate Electricity Distributor Remittances from other payments received or held by it and deposit such Electricity Distributor Remittances into its Regulatory Asset Account. Prior to and following a deposit of Electricity Distributor Remittances having been made into its Regulatory Asset Account, IESO or if applicable any ~~Alternative Collection Agent~~IESO Successor shall hold such amounts in trust for the Regulatory Asset Owners.

(6) **IESO Remittances** – ~~On~~(a) on each Settlement Date[13], IESO and if applicable ~~the Alternative Collection Agent~~an IESO Successor shall remit all amounts on deposit in its Regulatory Asset Account ~~(a) first,~~in respect of the Investment Interest to or to the account of the Absolute Assignees ~~an amount equal to the Investment Remittance for the related month and (b) second, to IESO (including by IESO retaining such amount) an amount equal to the lesser of (i) the Maximum IESO Recovery for the related month and (ii)~~; and (b) on each Settlement Date[14], IESO and if applicable the IESO Successor shall remit all amounts on deposit in its Regulatory Asset Account in respect of the IESO Retained Interest ~~Amount as of the Settlement Date.~~to the IESO. [NTD: to discuss. I had thought that what we had discussed was that IESO could recover the IESO Retained Interest Amount not as part of the Transition Charges, but independently through its own processes. This would require an allocation, but not express subordination. If subordination is required together with a Maximum Transition Charge Amount, consider whether this puts IESO in the position of a residual interest holder and consider impact on ability to book asset, consolidation and prospectus.

(7) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 5 in the same manner and to the same extent as such

---

[12] Consider building this obligation into a deemed condition of licence for the IESO.

[13] Consider frequency of remittances in light of rating requirements. US rating agencies favour daily remittances.

[14] Consider frequency of remittances in light of rating requirements. US rating agencies favour daily remittances.

Electricity Distributor, including the obligation under Article 5 to collect Transition Charges and make remittances of Electricity Distributor Remittances.

(8) **IESO Successor** – IESO Successor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of IESO under Article 5 in the same manner and to the same extent as IESO, including the obligation to collect Transition Charge Collections, Electricity Distributor Remittances and to remit IESO Remittances.

(9) **Owners of Distribution Assets** - If any person other than an Electricity Distributor acquires distribution system assets in the Province or invoices or collects electricity distribution rates in the Province[~~14~~15], then such person shall, if requested by the Absolute Assignees, be obligated to act diligently to (a) facilitate the invoicing and collection of any Transition Charges applicable to Retail Consumers in its applicable service area, including all consumers connected to the electricity distribution system assets and taking electric delivery service located within such service area; (b) allocate partial payments by Retail Consumers as provided in this Act; (c) exercise all enforcement rights of the Absolute Assignees for the benefit of an Absolute Assignee; and (d) remit any Transition Charge Collections to the Absolute Assignees or Pledgees, as applicable, each in accordance with its Investment Interest.

(10) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, ~~the~~an Alternative Collection Agent, any owner of electricity distribution system assets in the Province or any other person who may be authorized to collect electricity distribution and use charges from Retail Consumers for a failure to collect Transition Charges, remit or collect Electricity Distributor Remittances or remit IESO Remittances, as and to the extent applicable under Article 5. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure.

(11) **Appointment of an Alternative Collection Agent** – If a Replacement Event occurs in respect of any Electricity Distributor ~~or IESO~~, the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Collection Agent to perform some or all of the collection, segregation and remittance obligations in respect of the Transition Charges otherwise required to be undertaken by such Electricity Distributor ~~or IESO~~, as applicable, under Article 5, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Collection Agent shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor ~~or IESO~~, as applicable. Any Electricity Distributor ~~or IESO, as applicable,~~ that is replaced under this Section 5(11) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in, to and over the Regulatory Asset, including its Regulatory Asset Account, to the Alternative Collection Agent and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to

---

[~~14~~15] This is in anticipation of a possible future restructuring of the distribution system.

permit the Alternative Collection Agent to enforce the Regulatory Asset on behalf of the Absolute Assignees.

(12) **No Set-off, etc.** - The Regulatory Asset, including rights in Transition Charges, Transition Charge Collections, and the interests of a Regulatory Asset Owner, an Absolute Assignee and a Pledgee therein, may not be setoff or reduced (including by counterclaim, surcharge or defense) by any Retail Consumer, any Electricity Distributor, IESO, Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or in connection with any default, bankruptcy, reorganization or other insolvency proceeding of any Electricity Distributor, IESO, Alternative Collection Agent or any owner of distribution system assets in the Province, any affiliate or successor thereof or any other entity or otherwise.[15]16

(13) **Sequestration** – If any Electricity Distributor, IESO, the Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or entity authorized to collect Transition Charges, defaults on any required remittance of Transition Charge Collections, Electricity Distribution Remittances or IESO Remittances under Article 5, any court in the Province, upon application by and of the Absolute Assignees acting collectively under the Collective Action Agreement and without limiting any other remedies otherwise available to the Absolute Assignees or Pledgees, shall order the sequestration and payment of the Transition Charge Collections, Electricity Distribution Remittances and IESO Remittances, as applicable, for the benefit of the Absolute Assignees, each with respect to its Investment Interest, and the Pledgees as applicable.[16]17

(14) Regulations – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Collection Agent to ensure that rights, interests, entitlements, benefits and proceeds in, to, under and from the Regulatory Asset are of fully realized by some or all of the Absolute Assignees and Pledgees.

Article 6 – The Regulatory Asset

(1) **Composition** – The Regulatory Asset shall constitute a current and irrevocable property right and interest consisting, collectively, of the following rights and interests (without duplication):

a. the right of IESO (i) to record its IESO Retained Interest in its accounts in accordance with Section 8(1), having a stated amount from time to time equal to the IESO Retained Interest Amount; and (ii) to receive IESO Recoveries from time to time in accordance with Section 5(6)(b);

---

[15]16 Consider whether it makes sense to create a "deemed collection" payment obligation on Electricity Distributors to the extent a Retail Consumer reduces its payment of Transition Charges, despite this language. Same for Electricity Distributor Remittances and IESO Remittances.

[16]17 Consider adding or substituting this provision for a right to appoint a receiver.

b. the right to impose, bill, invoice, collect and receive Transition Charges from Retail Consumers, including the right to determine the amount of Transition Charges in accordance with this Act;

c. the right to enforce the obligations and indebtedness of each Retail Consumer to pay the Transition Charges charged to the Retail Consumer from time to time in accordance with Article 3, together with all related late payment fees or interest charges arising in respect thereof under the related Electricity Invoices;

d. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Servicer to impose, attribute, charge, bill and invoice the Transition Charges in accordance with Article 4;

e. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Collection Agent to collect, receive and remit amounts received by it in respect of Transition Charges as Electricity Distributor Remittances to or to the account of IESO or if applicable the ~~Alternative Collection Agent~~ IESO Successor in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5;

f. the right to enforce the duties and obligations of IESO and if applicable ~~the Alternative Collection Agent~~an IESO Successor to collect and receive Electricity Distributor Remittances and to remit IESO Remittances to or to the accounts of the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset, in each case in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by it to recover payment of Electricity Distributor Remittances in accordance with Article 5;

g. the right to receive and collect all Transition Charge Collections, all Electricity Distributor Remittances and all IESO Remittances in accordance with Article 5;

h. all rights and entitlements under each Regulatory Asset Account and all amounts on deposit in any such Regulatory Asset Account;

i. all Related Rights; and

j. all revenue, collections, claims, payments, money and proceeds of or derived from the rights described in (a) through (i), regardless of whether such revenue, collections, claims, payments and proceeds are imposed, invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

A Regulatory Asset and the property rights and interests therein shall exist whether or not Transition Charges have been imposed, charged, invoiced, accrued or collected and notwithstanding that the imposition, attribution, invoicing and collection of Transition Charges will depend on further actions that may not have occurred.

(2) **Validity of Dispositions** – ~~Despite any limitations or restrictions on a Disposition that may arise by contract or by operation of any applicable law of the Province or any consent requirement applicable to a Disposition that may arise by operation of any applicable law of the Province, a Disposition by IESO to an Absolute Assignee made under the Financing Plan, or by one Absolute Assignee to another Absolute Assignee made under the Financing Plan, shall be permitted~~[NTD: Addressed in Section 13(3)]. IESO may Dispose of all or any part of its interest in a Regulatory Asset in favour of an Absolute Assignee and, any such Disposition, when made, shall be valid and enforceable in accordance with the terms of the related Disposition Document and shall be effective to confer upon the Absolute Assignee thereof a valid property right and interest in, to and under the applicable Investment Interest (or relevant portion thereof) in accordance with the terms of such Disposition~~, provided that the parties to the applicable Disposition Document have expressly stated therein that such Disposition is a sale or other absolute transfer.~~ . Without limiting the foregoing, any Disposition that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as a true sale and absolute transfer of the Regulatory Asset Owner's applicable right, title, and interest in, to and under the Regulatory Asset (or relevant portion thereof), and not merely as a Pledge thereof~~, and upon such~~. Upon any Disposition the assigner or seller under the applicable Disposition Document shall retain no right, title or interest in the Investment Interest expressed to be subject to the Disposition~~, including all rights under the Investment Interest arising after such Disposition.~~ .

(3) **Perfection and Priority of Dispositions** – Any Disposition of an interest in a Regulatory Asset shall be vested, valid, binding and perfected from the time when such Disposition is made. Such Disposition shall be perfected, vested, valid and binding as against the transferring Regulatory Asset Owner and all other persons who have claims of any kind (whether in tort, contract or otherwise) against the transferring Regulatory Asset Owner, irrespective of whether such persons have notice of the Disposition and the property rights and interests acquired by the Absolute Assignee under such Disposition shall be free and clear of any liens or other adverse interests in favour of such other persons.

(4) **Validity of Pledges** – ~~Despite any limitations or restriction on a Pledge that may arise by contract or by operation of any applicable law of the Province or any consent requirement applicable to a Pledge that may arise by operation of any applicable law of the Province~~[NTD: Section 13(3)], a Pledge by an Absolute Assignee may be made to secure any related Funding Obligation and when made shall be valid and enforceable in accordance with its terms and shall be effective to confer upon the Pledgee a valid security interest in, to and in respect of the related Investment Interest in accordance with the terms of the Pledge. Other than as required by the Financing Plan, no consent of any person shall be required to give effect to a Pledge made to secure any Funding Obligation.

(5) **Perfection and Priority of Pledges** - For purposes of the *Personal Property Security Act* (the "PPSA"), the Regulatory Asset shall be intangible personal property and any Pledge made by an Absolute Assignee in respect of a Funding Obligation shall, subject to the terms thereof, give rise to a security interest of which the PPSA applies, and may be perfected by filing a financing statement

under the PPSA on that basis. All proceeds of a related Investment Interest that are subject to such a Pledge that are received by the Absolute Assignee shall immediately be subject to the such Pledge, and the security interest in such proceeds shall be perfected pursuant to the PPSA.[17][18] A Pledge perfected under the PPSA shall be a continuously perfected security interest and shall have priority over any other lien or security interest, created by operation of law or otherwise, that may attach to the property rights and interests in the Investment Interest subject to the Pledge unless the Pledgee has otherwise agreed in writing. ~~Subject to the terms of the Collective Action Agreement, a Pledgee shall have a perfected security interest in a related Investment Interest, including the Absolute Assignee's rights and interests in and to Transition Charge Collections or other related proceeds in respect of the Investment Interest and that are deposited in any Regulatory Asset Account or other account of any Electricity Distributor, IESO, Alternative Collection Agent or other person who may have commingled such Transition Charge Collections or such other proceeds with other funds. All provisions of the PPSA shall apply to the Regulatory Asset on the basis that it is intangible personal property, except to the extent otherwise provided in this Section 6(5).~~ [Covered by the PPSA]

(6) **Enforcement of Property Rights** – The rights of any Regulatory Asset Owner to collect and enforce its rights and interests in, to or in respect of the Regulatory Asset shall be exercised in the manner set forth in Article 5. [Add Default rights of a Pledgee]

(7) **Owners of a Specified Portion of the Regulatory Asset** – A Regulatory Asset Owner may effect a Disposition to an Absolute Assignee of a specified portion of its rights and interests in the Regulatory Asset, including by way of a Disposition of a divided or an undivided interest therein as specified in a related Disposition Document~~, in each case under the Financing Plan~~. In no circumstance may the specified portions of the rights and interests in the Regulatory Asset owned by all Regulatory Asset Owners be greater than all of the rights and interests that comprise the Regulatory Asset in the aggregate.

(8) **Collective Action Required** – If a Regulatory Asset Owner's rights and interests in the Regulatory Asset comprises less than the entire property right and interest constituted by the Regulatory Asset, such Regulatory Asset Owner shall only enforce such right and interest on a collective and coordinated basis with each other Regulatory Asset Owner in accordance with the Collective Rights Agreement.

Article 7 – Establishment of the Fair Allocation Plan[18][19]

---

[17][18] Consider whether to simply leave this and have a financing statement be filed under the PPSA. This would normalize the security interest and reduce any adverse suggestion that security would not otherwise arise.

[18][19] The idea is that the Fair Allocation Plan will be set once at the outset based on the principles and parameters described here, all as applied based on information available and the reasonable expectations and discretion of the delegate at such time. If the expectations are not fulfilled (e.g., generators may choose to retire their facilities at the end of their current procurement contracts and not invest in extending service lives to secure further procurement contracts), the Fair Allocation Plan will be unaffected, unless it is specifically amended (assuming amendments will be permitted by the legislation).

(1) **Adoption of the Fair Allocation Plan** – The Delegate may, [by written declaration,] designate and adopt a Fair Allocation Plan in compliance with Article 7. The Fair Allocation Plan so designated and adopted shall be the Fair Allocation Plan for all purposes of this Act, except if amended, amended and restated or terminated by a further written declaration made by the Delegate in compliance with Section 7(4).

(2) **Principles and Parameters** – A Fair Allocation Plan shall seek to allocate Future Fair Share of Green Transition Benefits across present and future Retail Consumer Groups on a basis that the Delegate, in its sole and absolute discretion, determines to be equitable, having regard to the following principles and parameters:

1. Future Fair Share of Green Transition Benefits should be allocated over the period ending on the Program End Date.

2. The Fair Allocation Plan should specify the Reference Periods for the purpose of identifying applicable Retail Consumer Groups and allocating Future Fair Share of Green Transition Benefits among them on a relative basis over time.

3. The share of Future Fair Share of Green Transition Benefits allocable to a particular Retail Consumer Group in respect of a Reference Period should be proportionate to a reasonable assessment of the benefits of the Green Generation Initiative to the Retail Consumer Group over such Reference Period.

4. The share of Future Fair Share of Green Transition Benefits to be allocated to a Retail Consumer Group and any future Retail Consumer Group at a particular time should not exceed the Estimated Future Green Transition Benefits, measured in respect of the Reference Periods following such particular time and to the Program End Date.

5. No future Retail Consumer Group should be allocated an unreasonably disproportionate share of Estimated Future Green Transition Benefits. Except in exceptional circumstances or in the case of any reallocation of an Over-Assessed Amount as contemplated in 7, below, the Future Fair Share of Green Transition Benefits to be allocated under a Fair Allocation Plan to any future Retail Consumer Group should have regard to *[Insert formula if a year-over-year maximum amount is determined to be appropriate]*.

6. The time value of money should be reflected in the Fair Allocation Plan, in order to equate the relative values of the nominal allocations of Future Fair Share of Green Transition Benefits, calculated in current dollars, to future Retail Consumer Groups over time.

7. To the extent there has been an Over-Assessed Amount, the Fair Allocation Plan may determine that an adjustment should fairly be made to rebate Retail Consumers for such an amount, by reducing the costs otherwise attributable under the Act to such Retail Consumers. The relative costs of the Green Generation Initiative are reflected under the Act by the attribution of Transition Charges to such Consumer Groups, based on the Financing Plan seeking to track the allocations of benefits under the Fair Allocation Plan. Accordingly, the Maximum Transition Charge Amount determined for one or more Retail

Consumer Groups having regard to the Fair Allocation Plan otherwise applicable may be appropriately reduced to recognize the effect of the Over-Assessed Amount. In such a case, a determination to reduce the Maximum Transition Charge Amount applicable for certain related Reference Periods should have regard to the principle that the corresponding rebate should be extended to benefit the Consumer Group or Consumer Groups in closest proximity to the Legislative Implementation Date.

(3) **Attribution Methodology** – The Fair Allocation Plan shall specify the Attribution Methodology for the purposes of allocating the Period Transition Charges across the Retail Consumers of a particular Retail Consumer Group. The Attribution Methodology shall result in an attribution of such Transition Charges that is considered by the Delegate to be equitable, and may have regard to such principles and parameters as may be further set forth in a Regulation.

(4) **Amendments of the Fair Allocation Plan** – The Fair Allocation Plan may be amended, amended and restated or terminated by the Delegate, provided that such amendment, amendment and restatement or termination shall (a) not be inconsistent with the principles and parameters set forth in (2) or (3), above, or the Regulation and (b) comply with any restrictions or limitations specified with respect thereto in any Funding Obligation.

Article 8 – The IESO Retained Interest

(1) **Maintain Books of Account** – IESO may maintain books of account to record the IESO Retained Interest Amount and all adjustments thereto from time to time. Such books of account shall be determinative with respect to the amount of IESO's related regulatory asset. [Is this different from the Regulatory Asset or the IESO Retained Interest?]

(2) ~~**Limitation on Additions** – IESO shall not record additions to the IESO Retained Interest Amount in respect of IESO Funding Shortfalls (a) if such additions are restricted by the terms of any Disposition Document or the Collective Action Agreement, or (b) on or after •, 2017.~~ **[NTD: Leave to agreements]**

(3) **Dispositions** – IESO may, from time to time, effect a Disposition to an Absolute Assignee if (a) the Absolute Assignee has or will concurrently become bound by the Collective Rights Agreement; (b) the ~~Disposition is effected pursuant to a Disposition Agreement duly executed by IESO; (c) the~~ Financial Services Agent confirms in writing that the Disposition is permitted under the Financing Plan; and (~~d~~c) the net proceeds payable to IESO from the sale of the related Investment Interest would not exceed the IESO Retained Interest Amount immediately before the time of such Disposition. [NTD: Is (c) necessary?]

(4) **No Continuing Interest in any Investment Interest** – IESO shall have no continuing right or interest in any Investment Interest subject to a Disposition effected by IESO under a Disposition Document to which IESO is a party~~ and IESO shall not assert any such right or interest or take or omit to take any action to exercise or enforce its rights or interests under the IESO Retained Interest if such action or omission would impede or obstruct the rights of any Absolute Assignee or a Pledgee to enforce its rights and interests in any Investment Interest, except if IESO is expressly~~

~~permitted to take or omit to take such action, respectively, under the related Disposition Document or the Collective Rights Agreement~~.

(5) **IESO Financing Costs** – IESO ~~shall be entitled in good faith to~~may incur reasonable financing costs ~~(including interest and other reasonable financing charges) reflecting market terms and conditions and which are payable in arrears,~~ in order to finance its ownership of the IESO Retained Interest ~~from time to time.~~ .

(6) **IESO Recoveries** – IESO shall, in respect of a month, be entitled to receive from IESO Remittances on a related Settlement Date the amount (if any) available to IESO under Section 5(6)(b).

Article 9 – The Financing Plan

(1) **Power to Prepare, Implement and Amend the Financing Plan** – The Financial Services Agent shall be authorized to prepare, implement and amend the Financing Plan. If the Financial Services Agent is unwilling or unable to prepare and propose the adoption of the Financing Plan, the Delegate may by written declaration designate one or more other persons who shall be authorized to prepare, implement and amend the Financing Plan.

(2) **Terms and Conditions of the Financing Plan** – The Financing Plan shall establish the basis for each Absolute Assignee's funding decisions. The Financing Plan shall have regard to the principles and parameters set forth in Schedule 3 and such other conditions and requirements as may be specified in a written declaration of the Delegate or in accordance with the Regulation.

(3) **OEB Approval** – Any Additional Funding Charge payable to or for the benefit of the Financial Services Agent shall be subject to review and approval by the OEB.

(4) **OEB Review** – The OEB [shall] undertake an annual review of the records maintained by the Financial Services Agent for the purpose of confirming that the Funding Obligations incurred and the Finance Amounts paid by or on behalf of the Absolute Assignees were incurred and paid, respectively, in material conformity with the Financing Plan.

(5) **Replacement of the Administrative Agent** – If the OEB identifies deficiencies or makes recommendations in its review under Section 9(4), the Administrative Agent shall take reasonable measures to remedy such deficiencies if remediable, and shall in any event have regard to the recommendations of the OEB in relation to further actions undertaken by the Financial Services Agent under the Financing Plan. If the Financial Services Agent is unwilling or unable to reflect such recommendations in relation to such further actions, the Delegate may by written declaration designate one or more other persons who shall thereafter become the Financial Services.

(6) **Obligation to Apply IESO Remittances** – The Financial Services Agent shall ensure that amounts transferred to it under Article 5, as agent for and on behalf of the Absolute Assignees, or otherwise in respect of or as proceeds from an applicable Investment Interest shall only be applied or used to pay related Finance Amounts when they are due and payable and for no other purpose.

(7) Non-Recourse – The Financing Plan shall be implemented so that Funding Obligations incurred shall be without recourse to or to any assets of the Electricity Distributors, ~~IESO,~~ any Alternative Servicer, any Alternative Collection Agent, IESO, any IESO Successor, the Financial Services Agent, the OEB, the Province or the Lieutenant Governor in Council, other than if and to the extent that such persons or entities are liable for the performance of obligations or duties arising under this Act or expressly agree to become liable pursuant to any Funding Obligation or obligation in relation to a Finance Amount. [All Funding Obligations shall contain a statement to the following effect: "Neither the full faith and credit nor the taxing power of the Province of Ontario is pledged to the payment of the principal of, or interest on, this [obligation].]

(8) Incurrences are Binding – ~~Notwithstanding anything to the contrary in this Act, each~~Each Disposition made to or by an Absolute Assignee ~~and~~, all amounts payable or becoming due and payable by or on behalf of an Absolute Assignee under or in connection with any obligation purporting to be a Funding Obligation and each Pledge entered into by an Absolute Assignee, shall be valid and binding ~~for the purposes of this Act~~, including in determining the amount of related Transition Charges, ~~despite~~notwithstanding any ~~impairment or defect resulting from such failure.~~ defect in the manner in incurrence or any inconsistency with the Fair Allocation Plan or the Financing Plan.

[Article 10 – Compliance Matters[~~19~~20]

(1) Right of the [OEB] to Inspect Books and Records - For the purpose of investigating compliance with the provisions of this Act, the OEB shall have the right, jurisdiction, power and authority to examine the books and records of *[Insert names if any]*.

(2) [OPG's Rate Settings – When setting other rates for or in respect of OPG, the OEB shall not take into account (a) the administrative or servicing fees charged by OPG as Financial Services Agent [in excess of the actual incremental costs incurred by such person of providing administrative or servicing services]; (b) the cost consequences to OPG of being the Financial Services Agent; or (c) the consequence of OPG consolidating the assets and liabilities of any Financing Entity for OPG's accounting purposes, in each case in setting any regulated payment amounts for OPG.][~~20~~21]

Article 11 – Undertaking of the Lieutenant Governor in Council[~~21~~22]

[~~19~~20] As noted above, the outcome of any regulatory action undertaken by the OEB will not affect Funding Obligations that have been incurred under the Financing Plan. This Article and any potential role for the Auditor General is still under consideration.

[~~20~~21] As an alternative to this provision, consider clarifying under s. 78.1(4) of the OEB Act (which currently gives the OEB discretion in setting payment amounts subject to O. Reg. 53/05) that the OEB in setting OPG payment amounts for prescribed generation shall not consider OPG's role as Administrative Agent of any Financing Entities associated with the Fair Hydro initiative, perhaps with the exception of any operating fees that may be received by OPG for performing that role.

[~~21~~22] Under consideration, including the dealers' request for a "servicer guarantee" and a "contractual guarantee" to address a "Change of Law" or if all or a portion of the legislation is *ultra vires*, requiring (at the lenders option), the Province to pay principal and interest on the outstanding debt until maturity or payout the entire debt including any make-wholes.

(1) **No Action to limit, alter, or impair or terminate Transition Charges, the Regulatory Asset or Collections** – The [Lieutenant Governor in Council] shall not in any way take or permit any action to reduce, impair, postpone or terminate the obligation of Retail Consumers to pay Transition Charges or to impair the Regulatory Asset or the collection or recovery of Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances, either directly or indirectly, including through the introduction of any bill or the passing of any legislation or regulation having such effect. The amount of Transition Charges determined under this Act shall not be subject in any way to reduction, impairment, postponement or termination as a result of any action taken or failure by the Lieutenant Governor in Council, including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(2) **Undertaking and Agreement** – The [Lieutenant Governor in Council] shall not:

(a) in any way take or permit any action that limits, alters or impairs the value of any Investment Interest;

(b) except as required by the estimates and adjustments made in determining the True-up Amount, reduce, alter or impair Transition Charges that are imposed, billed, invoiced, collected and remitted for the benefit of the Absolute Assignees or any Pledgee from time to time;

(c) permit the amendment, amendment and restatement or termination of the Fair Allocation Plan if such amendment , amendment and restatement or termination would adversely affect the validity or enforceability of any Funding Obligation or the rights of an Absolute Assignee or Pledgee thereunder,

in each case including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(3) **Successor IESO** – If IESO is restructured, dissolved or becomes insolvent or is otherwise incapable of performing its obligations under this Act, Successor IESO shall be established to perform such obligations.

(4) **Compensation for Failure** – Absolute Assignees shall be compensated for any losses suffered by them as a result of any failure by the Lieutenant Governor in Council to comply with its undertakings and agreements in this Article ~~11.~~[22] 11.[23]

(5) **No Wind-up of Financing Entity**. No Financing Entity may be voluntarily wound up, liquidated or dissolved until one year after all of its Funding Obligations are repaid.

(6) **References to the Undertaking and Agreement** – Any non-confidential reference to the Undertaking of the Lieutenant Governor in Council, including in marketing materials and other

---

~~22~~23 Requested by Torys. For discussion.

documentation authorized for use by the Administrative in connection with any Funding Obligation, may be made provided that [*Add conditions to protect the Province*].

Article 12 – Regulations

Regulations may be made under this Act for the purposes described in Sections •,•,• and • and may be promulgated for any of the following purposes:

(a) to set standards and measures regarding the commercially reasonable requirements of the Province associated with an Absolute Assignee incurring Funding Obligations or becoming obligated to pay any Finance Amount, including to establish guidelines regarding all-in funding costs; permitted Additional Funding Charges; required maturities and redemption and termination rights of Funding Obligations; liquidity requirements, in each case to a Financing Plan that is consistent in its effect with the Fair Allocation Plan;

(b) to establish and empower one or more regulated entities to undertake decision-making activities with respect to this Act;

(c) to set out reasonable requirements regarding the appointment or retention of advisors, agents, service providers, contract counterparties, including in relation to 'market terms and conditions' parameters;

(d) to provide for audit and compliance standards applicable to those persons who are or may become obligated or have duties that arise under this Act [or under any Funding Obligation];

(e) to provide for any pre-vetting and approval requirements in relation to any incurrence by an Absolute Assignee of any Funding Obligation or obligation to pay any Finance Amount; and

(f) to provide for appeal and due process considerations in connection with the establishment, adoption, implementation and review of the Fair Allocation Plan or the Financing Plan.

Article 13- Miscellaneous[~~23~~24]

(1) **Choice of law** – The law governing, as applicable, the validity, enforceability, attachment, perfection, priority and exercise of remedies with respect to the transfer of an interest or right or creation of a security interest in the Regulatory Asset, any Transition Charge or the Undertaking of the Province shall be the laws of the Province.

[~~23~~24] OPG would like the specific amendments related to OPG to be included in the Bill.]

(2) **Conflict of law** – In the event of conflict between this Act and any other law of the Province regarding the attachment, assignment or perfection, or the effect of perfection, or priority of any Disposition or Pledge, this Act shall govern to the extent of the conflict.

(3) **No further acts or approvals required** - Notwithstanding any provisions of any law of the Province to the contrary, no approvals, notices or authorizations other than those specified in this Act shall be required with respect to the actions to be taken in compliance with this Act, including under the Financing Plan or in relation to the establishment of the Fair Allocation Plan, and the transactions and contracts authorized in or contemplated by this Act or the Financing Plan, including the incurrence of any Funding Obligation, any Disposition, any Pledge or in the payment and performance of any attendant or incidental contract and any related expenses incurred to facilitate the preparation and implementation of the Financing Plan.

(4) **Effect of invalidity after the Incurrence of any Funding Obligation** - Effective on the date that a Funding Obligation is incurred under this Act, if any provision of this Act is held to be invalid or is invalidated, superseded, replaced, repealed or expires for any reason, that occurrence shall not affect any action allowed under this Act that is taken by any person who is or may become obligated or have duties that arise under this Act and any such action shall remain in full force and effect.

(5) **Severability** - If any Article, Section, paragraph or subparagraph of this Act or the application thereof to any person, circumstance or transaction is held by a court of competent jurisdiction to be unconstitutional or invalid, the unconstitutionality or invalidity shall not affect the constitutionality or validity of any other Article, Section, paragraph or subparagraph of this act or its application or validity to any person, circumstance or transaction, including the irrevocability of Transition Charges, the validity of the Regulatory Asset, the incurrence of any Funding Obligation, any Disposition, any Pledge, or the collection and recovery of Transition Charge Collections. To these ends, the Legislature hereby declares that the provisions of this Act are intended to be severable and that the Legislature would have enacted this Act even if any Article, Section, paragraph or subparagraph of this Act held to be unconstitutional or invalid had not been included in this Act.

Schedule 1

Guidelines for Estimates

[To be considered.]

Schedule 2

Requirements Applicable to Alternative Invoicing Agent/ Alternative Collection Agent

[To be considered.]

Schedule ~~3~~[24]3[25]

Principles and Parameters for Establishing the Financing Plan

The following principles and parameters provide a guideline as to what a Financing Plan should address:

(1) in respect of each Reference Period, make reference to the allocations of Future Fair Share of Green Transition Benefits to each Reference Group contemplated by the Fair Allocation Plan;

(2) estimate IESO Funding Shortfalls for each Reference Period;

(3) consider alternative funding arrangements suitable to fund the estimated IESO Funding Shortfalls, including short term and/or long term Funding Obligations;

(9) consider quantities, maturities, payment obligations, prepayment or redemption rights and such other features of Funding Obligations so that payments made for a Reference Period reasonably correspond to the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

(4) if the anticipated amount of any Repayment (together with payments of other Finance Amounts) to be made in respect of a Reference Period would materially exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable Retail Consumer Group under the then current Fair Allocation Plan, diligent efforts should be made to determine whether a Refinancing or deferral of such Repayment may be reasonably and cost-effectively effected based on then prevailing market terms, conditions an circumstances;

(5) reflect the assumptions and requirements specified in any contemplated Funding Obligation (e.g., any limit on the maximum amount of Transition Charges charged to a hypothetical Retail Consumer relative to his or her monthly electricity bill, as prescribed by any rating agency that ascribes its credit rating to or in respect of the Funding Obligation having regard to the application of the Allocation Methodology);

(6) incur Funding Obligations from time to time on the best terms available at such time for a financing transaction of the size and type contemplated, and having regarding to the following parameters:

a. whether the Absolute Assignees will require committed access to short term liquidity to cover estimated IESO Funding Shortfalls prior to incurring fixed term Funding Obligations, and the amount and repayment terms of any such required liquidity; provided that any Repayment required to be made under the terms of such short-term liquidity would not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that

---

[24][25] Awaiting input from Torys based on OPG mark-up of Financing Plan sections.

would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

b. the basis upon which the Financial Services Agent will select the term to maturity of any other Funding Obligations; provided that any Repayments required to be made under the terms of such Funding Obligations should not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

c. the basis upon which the interest rates applicable to such Funding Obligations would be determined;

d. the reference capital or finance market in which such Funding Obligation would be incurred, including markets outside of Canada if considered by the Financial Services Agent to be appropriate in the circumstances;

e. the currency of payments under such Funding Obligations and, if the Funding Obligations are denominated in a currency other than Canadian dollars, the basis upon which the Financial Services Agent shall cause the applicable Absolute Assignee to enter into hedging transactions to mitigate currency risk, including acceptable minimum and maximum coverage levels, having regard to the availability of related derivatives having notional amounts corresponding to the repayment and maturity profile of such Funding Obligations;

f. the basis upon which the Financial Services Agent will select counterparties under any transaction to be entered into by an Absolute Assignee, including any paying agent, servicer, cash manager, liquidity provider, hedge counterparty, account bank, lender, note trustee, security trustee, paying agent, registrar/transfer agent, financial services agent, arranger or manager;

g. the basis upon which the Financial Services Agent will manage counterparty risk, including by providing for maximum counterparty exposure limits having regard to concentration, credit and other identified risks with respect to individual counterparties or countries;

h. the basis upon which the Financial Services Agent will negotiate and settle Finance Amounts, including the amount of any Redemption Amounts, Finance Reserve Deposits and Additional Funding Charges;

(7) the basis upon which Funding Obligations may be redeemed, prepaid, repurchased or otherwise affected, having regard for the need to minimize debt service charges and other Funding Costs, and the need to maintain a stable funding platform to finance the IESO Funding Shortfalls from time to

time on a basis that is consistent with the allocations of Future Fair Share of Green Transition Benefits to applicable Reference Groups under the Fair Allocation Plan;

(8) the basis upon which any Repayments, Funding Costs and Redemption Amounts will be paid, including any defeasance, sinking fund or through other reserves or liquidity facilities;

(9) the basis upon which fees, charges, expenses, costs, indemnities, reimbursements and other amounts payable to or for the benefit of the Financial Services Agent and other agents and service providers to the Absolute Assignees may be determined, allocated and paid;

(10) the timing and basis upon which Finance Reserve Deposits and Finance Reserve Withdrawals may be made;

(11) the basis upon which any obligations for any other Additional Funding Charges may be incurred and paid;

(12) the basis upon which the cash flows arising from time to time or otherwise derived from the Regulatory Asset may otherwise be applied, including in relation to any counterparty enforcement and realization scenario;

(13) the transmittal to [the IESO] of information related to the amounts to be included in the determination of the Period Transition Charge for a Reference Period;

(14) the basis upon which any Disposition may be made or effected by an Absolute Assignee, including parameters for determining the purchase price for the interest in the Regulatory Asset that is the subject matter of such Disposition, and any consents and releases that may be usefully obtained in connection with such Disposition;

(15) describe the requirements applicable to any special purchase entity that will purchase an Investment Interest, including proposed capitalization, governance, and restrictions on their powers and activities; and

(16) the basis on which any Pledge may be given or effected.

Stephen,

This version does not reflect the top issues raised by the Dealers. We are sitting down with the Dealers now working on a comprehensive mark-up that we will send later today, but it will not be ready by 2 PM. We would like to use tomorrow's meeting to discuss the mark-up we are preparing rather than a further revised version that will not reflect our feedback.

Elliot

Subject: RE: "Fair Hydro Act" Legislative Summary (Discussion Draft)

Importance: High

All - please find attached a revised draft of the summary legislation circulated by Blakes on April 10 which reflects consolidated comments from OPG and the dealers (and their respective counsel). Please note that the attached remains subject to the continuing review of OPG and the dealers. We will have printed copies of the blackline available at today's meeting.

Best Regards,

Nina

Subject: RE: "Fair Hydro Act" Legislative Summary (Discussion Draft)

Steve,

We have been corresponding with Torys today and are in the process of preparing a consolidated mark-up reflecting comments from the Dealers and OPG, which will also incorporate some of the comments received this evening from the IESO/Stikemans. We will circulate the consolidated mark-up before tomorrow's meeting.

Stephen,

This version does not reflect the top issues raised by the Dealers. We are sitting down with the Dealers now working on a comprehensive mark-up that we will send later today, but it will not be ready by 2 PM. We would like to use tomorrow's meeting to discuss the mark-up we are preparing rather than a further revised version that will not reflect our feedback.

TOR_2528-#23107566-v9-_Fair_Hydro_Act_.pdf

CONFIDENTIAL AND PRIVILEGED

Preliminary Draft for Discussion Purposes Only

"Fair Hydro Act"

Article 1 – Purpose

The Province has and continues to encourage the construction and development of facilities for the long-term operation and generation of electricity in the Province using sustainable, lower carbon-based technologies such as new gas-fired generation, renewable facilities, energy from waste and biomass, including under the Province's various procurement, standard offer, feed in tariff and other similar programs (the "Green Generation Initiative"). The long-term benefits of the Green Generation Initiative accrue over time and have benefited and will benefit present and future electricity consumers in the Province.

The imputed costs of the Green Generation Initiative are currently passed through to electricity consumers by way of a monthly adjustment amount (the "Green Costs Adjustment"), which in turn forms part of the overall adjustment calculated by the Independent Electricity System Operator ("IESO") pursuant to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* (the "Global Adjustment"). The Global Adjustment is included as a charge billed to electricity consumers in their monthly electricity invoices.

The Green Costs Adjustment is currently determined each month by reference to the amounts paid by IESO to the generators of electricity in the Province under the Green Generation Initiative, which may be higher than prevailing market price for electricity. These differences arise because IESO has entered into long-term procurement contracts with such generators in order to provide them with long-term price certainty for electricity, and in turn to encourage the generators to develop technologies and to construct and develop facilities consistent with the Green Generation Initiative. In general, whenever amounts payable under these procurement contracts exceed the market price for electricity, the Green Costs Adjustment passes through the amount of such differences as part of the monthly charge to electricity consumers. Such amount then becomes available to IESO to meet its obligations under the procurement contracts. It has been determined that the useful lives of many of the assets encouraged by the Green Generation Initiative will be well in excess of the respective terms of the related procurement contracts, and in many cases may extend over more than one generation of electricity consumers.

Since the benefits to past, present and future electricity consumers from the Green Generation Initiative will not necessarily coincide with the costs currently attributed through the Green Costs Adjustment, based on the respective durations of the procurement contracts, it has been determined that the rate at which the costs associated with the Green Generation Initiative should be passed through to Retail Consumers (as defined in Article 2) should be more closely aligned with the benefits that such Retail Consumers have derived and are expected to derive from the Green Generation Initiative over time. This realignment will be based on principles and parameters that establish a reasonable basis for measuring and allocating the relative costs and benefits of the Green Generation Initiative equitably across present and future Retail Consumers (the "Fair Allocation Plan").

If the Fair Allocation Plan determines that the equitable allocation of the costs associated with the Green Generation Initiative to the Retail Consumers of a particular time period should be reduced below the amount that currently would be charged based on the Green Costs

Adjustment, then the amount payable by such Retail Consumers and in turn available to IESO will, in the aggregate, be less than the amount payable by the IESO to the generators in respect of such period. In this case IESO will need to obtain funding from another source to cover such a shortfall. If a funding obligation is incurred by IESO to cover such a shortfall during one period, the repayment of such funding obligation will be required in a future period, and any related repayments, finance costs, hedging costs and other transaction costs incurred will become payable in one or more future periods. In order for IESO to obtain a reliable and committed source of cash flows to enable IESO to repay such funding amounts when they become due and payable, this Act imposes irrevocable and non-bypassable financial obligations on Retail Consumers to pay amounts incurred in respect of such funding obligations when they become due and payable and establishes a right to invoice and collect such amounts. The right and interest in and to collect such financial obligations will take the form of the Regulatory Asset contemplated in this Act, which will constitute property rights and interests. Interests in the Regulatory Asset may be sold and absolutely assigned by IESO to one or more financing entities, which in turn will finance their acquired interests by incurring funding obligations. The incurrence and payment of such funding obligations will be administered on behalf such financing entities by a financial services agent under the Financing Plan contemplated in this Act. The Financing Plan will seek to reasonably match the payment obligations arising under such funding obligations, to be borne by the future Retail Consumers of the period in which such payment obligations become due, with the benefits of the Green Generation Initiative allocated to such future Retail Consumers under the Fair Allocation Plan.

The purpose of this Act is to establish the basis upon which intergenerational fairness can be achieved by charging the costs and benefits of the Green Generation Initiative to present and future Retail Consumers on an equitable and cost effective basis.

Article 2 - Definitions

In this Act:

> “Absolute Assignee” means a person to whom a Regulatory Asset Owner effects a Disposition.
>
> “Actual” means, in relation to costs, expenses or payments in respect of Funding Obligations during a Reference Period, the actual amount of such costs, expenses or payments paid or made (net of any Finance Reserve Withdrawals applied to pay such amounts), which amounts shall be recorded by the Financial Services Agent whose records shall be determinative for the purposes of this Act except to the extent of a manifest calculation error.
>
> “Additional Funding Charges” means, for a Reference Period in respect of an Absolute Assignee, the fees, charges, expenses, costs, indemnities, reimbursements and other amounts (including any applicable tax amounts) that are or become payable by or on behalf of the Absolute Assignee during the Reference Period and that were incurred or committed to directly or indirectly by the Absolute Assignee in connection with the incurrence of Funding Obligations under the Financing Plan (whether at the time of such incurrence or over the term of the Funding Obligation and whether directly or indirectly), including (without duplication and without limitation): (a) any payment required under an ancillary agreement entered into by, or by the Financial Services Agent on behalf of, the Absolute Assignee under the Financing Plan; (b) any federal, provincial or local taxes, payments in lieu of taxes, franchise fees or license fees imposed on the Absolute

Assignee or incurred by on behalf of the Absolute Assignee under any obligation to pay tax gross-up amounts to counterparties under Funding Obligations; (c) any amounts payable to the Financial Services Agent, including amounts payable to its advisors and outside counsel; (d) any amounts incurred to prepare, confirm, amend and implement the Financing Plan; (e) any amounts payable to any Alternative Collection Agent or Alternative Servicer, including amounts payable to each's advisors and outside counsel; (f) any amounts incurred to make the calculations, determinations or confirmations to be made by or on behalf of the Absolute Assignee; (g) any servicing fees and expenses; (h) any trustee fees and expenses; (i) any legal fees, expenses and disbursements; (j) any accounting fees and expenses; (k) any administrative fees and expenses; (l) any manager or director fees of a Financing Entity; (m) any registration fees and expenses; (n) any placement fees, underwriting fees, fees and related issuing expenses; (o) any rating agency fees; and (p) any other related fees, charges, expenses, costs, indemnities, reimbursements and other amounts that are approved in good faith by the Financial Services Agent for recovery and payment under the Financing Plan.

"Allocation Factor" means, in respect of a Retail Consumer for a Reference Period, the number (expressed as a percentage) determined in respect of the Retail Consumer by the OEB based on the application of the Attribution Methodology in respect of the Reference Period.[1]

"Alternative Collection Agent" means a person appointed under Section 5(11) and in compliance with the requirements set out in Schedule 2 to assume the collection activities and activities of any Electricity Distributor or IESO under Article 5, as agent for and on behalf of the Regulatory Asset Owners.

"Alternative Servicer" means a person appointed under Section 4(8) to assume the obligations of the Servicer under Article 4, as agent for and on behalf of the Regulatory Asset Owners.

"Assessed Past Green Transition Costs" means, in respect of a Measurement Date, the aggregate of the imputed costs of the Green Generation Initiative (expressed as an equivalent to current dollars), as reflected in the calculation of the Green Costs Adjustment, which have been charged to Retail Customers through the Global Adjustment on or prior to the Measurement Date.

"Attribution Methodology"[2] means the methodology specified in the Fair Allocation Plan for allocating the Period Transition Charges for a Reference Period to individual Retail Consumers of the applicable Retail Consumer Group based on its Allocation Factor.

"Collected Amount Adjustment" means, in respect of a True-Up Period, the amount (which may be a negative amount) calculated by the Servicer or the Financial Services

---

[1] Confirm that this will be based on forecast volumes of demand (like RPP). To the extent amounts do not get recovered due to differences between forecast and actual, those may be identified and caught by the True-Up.

[2] This allocation may be volumetric or some combination of a flat amount and a volumetric charge. Further discussion is required. H&W has raised a concern regarding possible adverse changes after the fact and rating agency considerations. Consider whether hard-coding in the legislation makes sense.

Agent, as applicable, equal to (a) the Estimate of the Finance Amount for the True-Up Period, minus (b) the sum of all Transition Charge Collections for the True-Up Period.[3]

"Collective Rights Agreement" means an agreement among all of the Regulatory Asset Owners (including each Absolute Assignee) and each Pledgee that governs the enforcement of their respective rights and interests in, to and under the Regulatory Asset on a coordinated and collective basis.[4]

"Delegate" means the person or persons designated in writing from time to time by the Minister of Energy to undertake the actions and perform the responsibilities ascribed to the "Delegate" under this Act.

"Disposition" means an assignment, transfer, conveyance, sale, contribution, set-over, exchange or other disposition of an Investment Interest to an Absolute Assignee pursuant to a Disposition Document.

"Disposition Document" means the agreement, deed, conveyance, instrument or other document under which a Regulatory Asset Owner effects a Disposition to an Absolute Assignee.

"Electricity Distributor" means, in respect of a Service Area, the rate regulated distributor licensed under Part V of the *Ontario Energy Board Act, 1998* in respect of such Service Area, together with and its successors.

"Electricity Distributor Remittances" means, for an Electricity Distributor on a Remittance Date, all Transition Charge Collections received or deemed to be received by the Electricity Distributor prior to the Remittance Date and that have not otherwise been remitted to IESO or if applicable the Alternative Collection Agent in accordance with Section 5(3), including the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5.

"Electricity Invoice" means an invoice issued by any of a Electricity Distributor (or in its stead, by an Alternative Servicer), by the Servicer or by a Retailer, in each case to a Retail Consumer that is served by the Electricity Distributor's distribution system in respect of electricity charges, including the cost of electricity, delivery and regulatory charges and related services and amounts incurred, assessed or charged in respect of connectivity to a distribution network in the Electricity Distributor's designated Service Area and in respect of applicable Transition Charges to be charged to the Retail Consumer under this Act.

"Estimate" means (a) in relation to costs, expenses or payments in respect of Funding Obligations or any Finance Amount for a Reference Period, the estimated amount of such costs, expenses or payments determined by the Financial Services Agent; and (b) in relation to an assessment of the benefits of the Green Generation Initiative to any

---

[3] This would pick up adjustments based on actual collection experience, changes in the retail consumer base, changes in the actual costs (versus earlier estimates) included in the Transition Charge calculation, etc.

[4] Consider adding the Financial Services Agent and the Servicer as parties.

Retail Consumer Group, the estimated value (in current dollars) of such benefits determined by the Delegate, in each case having regard to the applicable principles and parameters set out in Schedule 1, which estimated amounts shall be determinative as the applicable estimate for the purposes of this Act except to the extent of a manifest calculation error.

"Estimated Future Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that are expected to accrue to Retail Consumers from the establishment and implementation of the Green Generation Initiative during the period from the Measurement Date to the Program-End Date.

"Estimated Past Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that have accrued to Retail Consumers from the establishment and implementation of the Green Generation Initiative up to and including the Measurement Date.

"Fair Allocation Plan" has the meaning given in Article 1.

"Finance Amount" means, for a Reference Period in respect of an Absolute Assignee, the sum (without duplication) of the following amounts that are or become payable during the Reference Period in respect of the Absolute Assignee: (a) Repayments; (b) Funding Costs; (c) Redemption Amounts; (d) Finance Reserve Deposits; and (e) Additional Funding Charges.

"Finance Reserve Deposits" means, for a Reference Period, the amount by which (a) deposits made or to be made during the Reference Period in order to pre-fund, collateralize, over-collateralize or establish reserves for the ultimate payment of Funding Obligations or for related contingencies specified in the Financing Plan, exceed (b) any Finance Reserve Withdrawals.

"Finance Reserve Withdrawals" means, for a Reference Period, the amount withdrawn during the Reference Period from deposits previously made to pre-fund, collateralize, over-collateralize or establish reserves for the payment of Funding Obligations or to pay amounts in respect of related contingencies that had been specified in the Financing Plan.

"Financial Services Agent" means OPG or, following any Replacement Event, such other person or persons who may be appointed as the Financial Services Agent of the Absolute Assignees under the Financing Plan in compliance with the requirements set out in Schedule 2.[5]

[5] Discuss whether to accommodate multiple Financial Services Agents. MOE to consider.

"Financing Entity" means an entity established in accordance with the Financing Plan to acquire all or an interest in the Regulatory Asset as an Absolute Assignee and to enter into Funding Obligations to finance such acquisition under the Financing Plan.[6]

"Financing Plan" means the written plan prepared by the Financial Services Agent on behalf of each Absolute Assignee in compliance with Article 9 to set forth the basis upon which, among other things: (a) any Disposition may be made to, financed by or effected by an Absolute Assignee; (b) any Funding Obligations may be incurred by an Absolute Assignee, including any Refinancing; (c) any Pledge may be given or effected; (d) any Funding Obligations may be redeemed, prepaid, repurchased, amended or otherwise effected; (e) any obligations for Additional Funding Charges may be incurred and paid; (f) any Repayments, Funding Costs and Redemption Amounts may be paid or provided for; (g) any Finance Reserve Deposits may be made; (h) any Finance Reserve Withdrawals may be made; (i) the establishment and operation of any Financing Entity may be effected; and (j) the cash flows arising from time to time or otherwise derived from an Investment Interest may otherwise be applied, as the same may be amended, amended and restated or terminated by the Financial Services Agent in compliance with Article 9 from time to time.

"Funding Costs" means, for a Reference Period in respect of an Absolute Assignee, the amount by which (a) the aggregate of all interest and other periodic finance charges accruing due and becoming payable or paid by or on behalf of the Absolute Assignee during the Reference Period in respect of its Funding Obligations, including any standby commitment fees or charges paid to any lender, credit enhancement fees or charges paid to any credit enhancer, liquidity fees or charges paid to any liquidity provider, amounts (including any termination payments) paid under derivatives and any deposit amount made or required to fund or replenish a debt service reserve account or other account established under any indenture, ancillary agreement or other financing document relating to its Funding Obligations, exceeds (b) the aggregate of all amounts received by or on behalf of the Absolute Assignee during the Reference Period in respect of a Funding Obligation, including from any reimbursement of standby commitment fees or charges paid by a lender, any reimbursement of credit enhancement fees or charges paid by any credit enhancer, any reimbursement of liquidity fees or charges paid by any liquidity provider, any amounts (including any termination payments) paid to the Absolute Assignee under derivatives and any Finance Reserve Withdrawal made or required to be made from a debt service reserve account or other account established under any indenture, ancillary agreement or other financing document relating to the payment of the Funding Costs payable in respect of a Funding Obligation for the Reference Period.

"Funding Obligation" means, in respect of an Absolute Assignee, each payment obligation (including each obligation to pay: principal, interest, premiums and other

---

[6] MOE to confirm that the legislation will provide that any Financing Entity that is a wholly-owned subsidiary of OPG (1) would not be subject to Part VI of the *Electricity Act* (Ontario) and (2) in the case of any Financing Entity that is a trust, any income of such trust (for purposes of the *Income Tax Act* (Canada) or the *Taxation Act, 2007* Ontario)) which is paid or made payable to OPG or a wholly-owned subsidiary of OPG as a beneficiary of such trust will not be taken into account in calculating the amount of a payment required to be made by OPG (or such subsidiary) by section 89 or 90 of the Electricity Act.

financing charge payments; pass-through payments; payment obligations arising under or in respect of derivatives; payment obligations owing to service providers, Financial Services Agents, finance entity intermediaries, capital markets intermediaries, advisors, lenders, credit enhancement providers, liquidity providers, disbursement counterparties, regulatory agencies and rating agencies; and all Additional Funding Charges incurred by or on behalf of the Absolute Assignee under the Financing Plan, including any Refinancing of another such payment obligation incurred by or on behalf of such Absolute Assignee.

"Future Fair Share of Green Transition Benefits" means, in respect of a Measurement Date, the sum of (a) the Over-Assessed Amount; and (b) the Estimated Future Green Transition Benefits, in each case as of the Measurement Date.

"Generator" means a generator of electricity that is subject to the *Electricity Act, 1998*.

"Global Adjustment" has the meaning given in Article 1.

"Green Costs Adjustment" has the meaning given in Article 1.

"Green Generation Initiative" has the meaning given in Article 1.

"IESO" means the Independent Electricity System Operator created pursuant to Part II of the *Electricity Act, 1998*.

"IESO Available Amount" means, for a Reference Period, the lesser of (a) the amount (if any) by which (i) the Maximum Transition Charge Amount for the Reference Period, exceeds (ii) Period Finance Amount for the Reference Period, and (b) the IESO Retained Interest Amount as of the [35th] day prior to the first day of a Reference Period plus any IESO Financing Costs that are due and payable and remain unpaid as of the [35th] day prior to the first day of a Reference Period.

"IESO Electricity Distribution Receipts" means, for a month, the sum of all amounts payable by Electricity Distributors to IESO during the month pursuant to section • of the *Electricity Act*.

"IESO Financing Costs" means, for a Reference Period, the financing costs (if any) incurred by IESO pursuant to Section 8(4) in order to finance its ownership of the IESO Retained Interest during the Reference Period.

"IESO Funding Shortfall" means, for a month, the amount, if any, by which (a) the IESO Electricity Distribution Receipts that would be payable to IESO for the month if determined without regard to this Act and without regard to the changes made to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* with respect to the Global Adjustment concurrently with this Act, exceeds (b) the IESO Electricity Distribution Receipts payable to IESO for the month[7]; provided that if the amount of any such shortfall is determined to have been based on incomplete information, variances or

[7] This has been recast to recognize that the shortfall in the first 4.5 years could exceed the entire GA amount. A more refined approach to describing the concept may be considered.

estimates that were inaccurate, an adjustment shall be made in determining the amount of any subsequent shortfall for the month in which the inaccuracy is identified.

"IESO Recovery" means each amount remitted to IESO (including by IESO retaining such amount) in respect of the IESO Retained Interest pursuant to Section 5(6)(b), and "IESO Recoveries" means, collectively, all such amounts received by IESO.

"IESO Remittances" means, for a Settlement Date, all Electricity Distributor Remittances received by IESO or if applicable the Alternative Collection Agent prior to the Settlement Date and that have not otherwise been remitted to the Regulatory Asset Owners (each with respect to its Regulatory Asset) in accordance with Section 5(6), including the proceeds of any enforcement action undertaken by IESO or if applicable the Alternative Collection Agent to recover payment of amounts payable by Electricity Distributors to IESO in accordance with Article 5.

"IESO Retained Interest" means IESO's right, title and ownership interest (if any) in, to and under the Regulatory Asset, which shall exclude each Investment Interest.

"IESO Retained Interest Amount" means, on a day, (a) the sum of all IESO Funding Shortfalls incurred prior to the day, plus (b) the sum of all IESO Funding Costs incurred prior to the day in accordance with Section 8(4), minus (c) the net proceeds received by IESO from or on behalf of each Absolute Assignee as consideration for the Disposition of each Investment Interest paid to IESO by or on behalf of such Absolute Assignee prior to the day, and minus (d) the IESO Recoveries received by IESO prior to the day.

"IESO Successor" means the entity appointed by the Province to succeed to the rights and obligations of IESO as the entity responsible for managing the Province's electricity system.

"Investment Interest" means an ownership interest in, to or under the Regulatory Asset that is acquired by an Absolute Assignee pursuant to a Disposition, which ownership interest may include (without limitation) ownership of a specified portion on a divided basis of the assets comprising the Regulatory Asset and ownership of an undivided ownership interest in the Regulatory Asset, in each case as may be described in the applicable Disposition Document.

"Investment Remittance" means, for a month, the lesser of (a) the aggregate amount of all IESO Remittances for the month, and (b) the sum of the Finance Amounts due and payable by all Absolute Assignees in respect of the month.

"Maximum IESO Recovery" means, for a month, the amount (if any) by which (a) the IESO Remittances for the month, exceed (b) the sum of all Finance Amounts that are due and payable by Absolute Assignees in respect of the month.

"Maximum Transition Charge Amount" means, for a Reference Period, (a) the aggregate amount of Future Fair Share of Green Transition Benefits that are allocable to the applicable Retail Consumer Group in accordance with the Fair Allocation Plan, divided by (b) the applicable Reference Period Length.

"Measurement Date" means [Insert relevant date around the Legislation Implementation Date] and any other date specified as such under the Fair Allocation Plan.

"OEB" means the Ontario Energy Board, together with its successors.

"OPG" means the corporation incorporated as Ontario Power Generation Inc. under the *Business Corporations Act* on December 1, 1998, together with its successors.

"Over-Assessed Amount" means, in respect of a Measurement Date, the amount (if any) by which (a) the Assessed Past Green Transition Costs, exceeds (b) the Estimated Past Green Transition Benefits, each as determined as of the Measurement Date.

"Period Finance Charges" means, for a Reference Period, the sum of (a) the Estimate of the Finance Amount and (b) the True-Up Amount in respect of the immediately preceding Reference Period.

"Period Transition Charges" means, for a Reference Period, the sum of (a) the Period Finance Charges for the Reference Period and (b) the IESO Available Amount for the Reference Period.

"Pledge" means, in respect of an Investment Interest of an Absolute Assignee, a lien, mortgage, charge or security interest granted to or in favour of a Pledgee by the Absolute Assignee in, to and over all or a specified portion (including a specified portion on a divided basis or by way of an undivided interest) of the Investment Interest.

"Pledgee" means a person to whom an Absolute Assignee grants a Pledge.

"Program End Date" means •, [2047].

"Province" means the Province of Ontario.

"Redemption Amount" means the amount payable by or on behalf of an Absolute Assignee to redeem, prepay or repurchase a Funding Obligation incurred by or on behalf of the Absolute Assignee, including any premium, make-whole or other additional amount becoming payable under the Funding Obligation to give effect to such redemption, prepayment or repurchase.

"Reference Period" means (a) the period from (and including) the Measurement Date to (and including) June 30, 2017, (b) each six month period commencing [May 1st and November 1st] thereafter and (c) any other period specified as such in the Fair Allocation Plan.

"Reference Period Length" means, for a Reference Period, the number of months in the Reference Period.

"Refinancing" means, in respect of a Funding Obligation incurred by or on behalf of an Absolute Assignee, that the Funding Obligation is repaid or repurchased for cancellation by or on behalf of the Absolute Assignee by applying the net proceeds obtained by the Absolute Assignee incurring one or more other Funding Obligations.

"Regulatory Asset" means the property rights and interests described in Section 6(1), which collectively is comprised of the IESO Retained Interest and each Investment Interest.

"Regulatory Asset Account" means (a) for an Electricity Distributor, any bank account into which the Electricity Distributor deposits or receives Transition Charge Collections; (b) for the Servicer, any bank account into which IESO deposits or receives Transition Charges, Electricity Distributor Remittances or IESO Remittances; and (c) if applicable, for the Alternative Collection Agent, any bank account into which the Alternative Collection Agent deposits or receives Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances.

"Regulatory Asset Owner" means each of (a) IESO, as owner of (and to the extent of) the IESO Retained Interest and (b) each Absolute Assignee, as owner of its Investment Interest or Investment Interests, and "Regulatory Asset Owners" means collectively IESO and each such Absolute Assignee, who together own the entirety of the Regulatory Asset and are required to exercise their individual rights of ownership in accordance with Section 6(7).

"Related Rights" means all rights of any kind (whether in tort, contract or otherwise) that attach or are attendant or incidental to any of the other property rights or interests that comprise such Regulatory Asset.

"Remittance Date" means, in respect of an Electricity Distributor, each day on which it is required to remit Electricity Distribution Remittances to IESO or if applicable the Alternative Collection Agent as specified in accordance with any Funding Obligation or, if no such day is specified in accordance with any Funding Obligation, then the Business Day preceding each Settlement Date.

"Repayment Obligation" means an obligation to repay, redeem or repurchase, or to provide for the repayment, redemption or repurchase (including by making a related Finance Reserve Deposit) of, all or a portion of the amount advanced to the Absolute Assignee under a Funding Obligation.

"Repayment" means a payment by an Absolute Assignee made to satisfy a Repayment Obligation, other than to the extent that the payment is made by applying the proceeds of a Refinancing or from Finance Reserve Withdrawals.

"Replacement Event" means any event specified as such in a Funding Obligation.

"Retail Consumer" means:

(a) present and future consumers of electricity in the Province who are (i) consumers designated under section 79.16 of[, and O.Reg 95/05 under,] the *Ontario Energy Board Act, 1998*, or (ii) hold or are deemed to hold an "eligible account" under the *Ontario Rebate for Electricity Consumers Act, 2016*, other than any such consumer who has a contract with a Retailer who uses Retailer Consolidated Billing; and

(b) present and future Retailers who use Retailer Consolidated Billing,

and each case includes all such consumers and Retailers who are connected, directly or indirectly and whether a customer of an Electricity Distributor or not, to the transmission and distribution system assets located in the Province and who are taking electric delivery service within the Province, whether or not such retail consumers produce their

own electricity or purchase electric generation services from a provider of electric generation services other than the owner of the Province's transmission and distribution system assets and whether or not the transmission and distribution system assets continue to be owned or operated by Electricity Distributors or operated by IESO.

"Retail Consumer Group" means, in relation to a Reference Period, the Retail Consumers who receive Electricity Invoices during the Reference Period.

"Retailer" means a person who is licensed under Part V of the *Ontario Energy Board Act, 1998* to retail electricity.

"Retailer Consolidated Billing" has the same meaning as in the *Retail Settlement Code* issued by the Ontario Energy Board.

"Service Area" means, in respect of an Electricity Distributor, the geographic area or region in which it is licensed to distribute electricity in accordance with the *Electricity Act, 1998*.

"Servicer" means IESO or IESO Successor, as agent for and on behalf of the Regulatory Asset Owners, for the purposes set forth in Article 4.

"Settlement Date" means the [last Business Day of any month].

"Transition Charge" means, for a Retail Consumer in respect of a Reference Period, (a) the Period Transition Charge, (b) multiplied by its Allocation Factor in respect of the Reference Period, divided by (c) the applicable Reference Period Length.

"Transition Charge Collection" means any amount received or deemed by this Act to have been received upon the collection of a Transition Charge paid by or on behalf of a Retail Consumer, including any proceeds arising from the exercise and enforcement of any related rights and interests under or in respect of the Regulatory Asset.

"True-Up Amount" means, in respect of a Reference Period, the amount (which may be a negative amount) calculated by the Financial Services Agent equal to (a) the Estimate of the Finance Amount for the related True-Up Period, minus (b) the Actual Finance Amount for such related True-Up Period, plus (c) the Collected Amount Adjustment for such related True-Up Period.

"True-Up Period" means, in relation to a Reference Period, the period from and including the [30th] day immediately preceding the first day of the Reference Period, to but excluding the [30th] day immediately preceding the last day of the Reference Period.

"Undertaking of the Lieutenant Governor in Council" means the undertaking of the Lieutenant Governor in Council given under Section 11(2).

Article 3 – Transition Charges

(1) **Retail Consumer Obligation to Pay a Transition Charge** – Each Retail Consumer shall pay each Transition Charge charged to it in any Electricity Invoice issued to such Retail Consumer by its Electricity Distributor or by an Alternative Servicer under Section 4(1), in each case on the terms of payment specified in the related Electricity Invoice.

(2) **Indebtedness of Retail Consumers** – Until paid, a Transition Charge charged to a Retail Consumer in an Electricity Invoice shall, together with any applicable late payment fees and finance charges arising under the terms of the Electricity Invoice with respect to such Transition Charge, constitute non-bypassable indebtedness of the Retail Consumer to the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset. Such indebtedness shall constitute a single and separate[8] debt obligation owing by the Retail Consumer, which subject to Article 5 may be enforced independently from any other payment obligation or indebtedness owing by the Retail Consumer under the Electricity Invoice or otherwise.[9]

(3) **No Set-Off or Reduction** – A Retail Consumer may not set-off or reduce (by counterclaim, defense or otherwise) the amount payable by it in respect of any Transition Charge, including any set-off against or in respect of any amount owing or becoming payable to such Retail Consumer by its Electricity Distributor, any Regulatory Asset Owner or any other person.

(4) **Allocation of Retail Consumer Payments** – If an Electricity Distributor receives a payment made by or on behalf of a Retail Consumer in respect of amounts due and payable under one or more Electricity Invoices that is less than the total amount payable thereunder, such payment shall be allocated on a *pro rata* basis to the payment of related Transition Charges and other invoiced amounts and the amount so allocated as a payment of related Transition Charges shall be deemed to constitute a Transition Charge Collection.

(5) **Transition Charges are Irrevocable** – The Transition Charges arising under or in respect of Funding Obligations incurred under the Financing Plan (including any adjustments based on modifications to such Funding Obligations made in compliance with the Financing Plan or as a result of amendments to the Financing Plan made in accordance with Section 9(3)) are deemed to be irrevocable, final and effective without any further action, except to the extent of manifest calculation error. For greater certainty, a Transition Charge may include Finance Amounts for a Reference Period whether or not the payment of such Finance Amounts are inconsistent with the Fair Allocation Plan applicable at the time such payments are due and payable, whether or not the related Funding Obligation was properly incurred under the Financing Plan. In no case shall a Funding Obligation incurred under the Financing Plan be affected by a subsequent amendment to the Fair Allocation Plan.

Article 4 – Invoicing of Transition Charges

(1) **Inclusion of Transition Charges in Electricity Invoices** – Each Electricity Distributor and if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, specify the Transition Charge to be charged to a Retail Consumer pursuant to Section 4(4) in respect of a related Reference Period in each Electricity Invoice issued

---

[8] Determine if this is critical for rating and markets. Logistics under consideration.

[9] Torys has also suggested that deemed conditions of licenses for distributors, retailers and unit sub-metering providers, could be included as conditions, to require them to collect and remit amounts in accordance with this legislation. Consider if it is helpful to integrate the existing regulatory scheme for invoicing and collections (regarding RPP) in the legislation.

by the Electricity Distributor or if applicable by the Alternative Servicer to the Retail Consumer in respect of such Reference Period. Upon the inclusion of a Transition Charge in an Electricity Invoice, the obligation to pay such amount shall be binding on the applicable Retail Consumer.

(2) **Calculation of the Period Transition Charge** – Not later than [35] days prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services Agent on its behalf) shall provide the OEB with written notice of each Estimate of a Finance Amount payable by it or on its behalf in respect of the Reference Period. [35] days prior to the first day of a Reference Period, IESO or Successor IESO if applicable shall specify the IESO Retained Interest Amount and any IESO Financing Costs that are due and payable and remain unpaid on such day. Not later than one month prior to the first day of a Reference Period, the OEB shall calculate the Period Transition Charge applicable to the Reference Period based on the calculations and information set forth in such written notices received from the Absolute Assignees and based on such amounts specified by IESO or Successor IESO, which calculations, information and amounts shall be determinative, except to the extent of manifest calculation error or misstatement.

(3) **Calculation and Attribution of Transition Charges** – Not later than 25 days prior to the first day of a Reference Period, the OEB shall apply the Attribution Methodology to determine the Allocation Factor for each Retail Consumer of the applicable Retail Consumer Group.

(4) **Notice of Transition Charges** – Not later than 20 days prior to the first day of a Reference Period, the OEB shall inform each Electricity Distributor and if applicable any Alternative Servicer of the Transition Charges to be specified in the Electricity Invoices to be issued to each Retail Consumer of the applicable Retail Consumer Group who has a billing address in the Electricity Distributor's Service Area.

(5) **Adjustments** – The amount of any Transition Charge charged to a Retail Consumer and specified as such in an Electricity Invoice shall be determinative of the amount of indebtedness created thereby and owing in respect of such Transition Charge, except to the extent of any manifest calculation error.

(6) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 4 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 4 to impose, attribute, charge, bill and invoice the Transition Charges.

(7) **IESO Successor** – Any IESO Successor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of IESO under Article 4 in the same manner and to the same extent as IESO, including the obligation to calculate and provide notice of Transition Charges.

(8) **Appointment of an Alternative Servicer** – If a Replacement Event occurs in respect of any Electricity Distributor, the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Servicer to perform some or all of the obligations and duties required to be undertaken by such Electricity Distributor under this Article 4, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative

Servicer shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor. Any Electricity Distributor that is replaced under this Section 4(8) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in the performance of such obligations and duties to the Alternative Servicer and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Servicer to perform such obligations and duties on behalf of the Regulatory Asset Owners.

(9) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, the Servicer, Alternative Servicer or any other person who may be authorized to issue Electricity Invoices to Retail Consumers for a failure to impose, attribute, charge, bill or invoice Transition Charges. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure.

(10) **No Set-Off or Reduction –** No Servicer or Electricity Distributor may set off or reduce (by counterclaim, defence or otherwise) the amount payable by it pursuant to this Article 4.

(11) **Regulations** – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Servicer to ensure that Transition Charges are properly charged to Retail Consumers and specified as such in Electricity Invoices.

Article 5 – Collections and Remittances

(1) **Duty to Collect as Agent** – Electricity Distributors or if applicable any Alternative Collection Agent shall, as an agent of the Regulatory Asset Owners, undertake [diligent][reasonable][10] efforts to collect amounts owing by Retail Consumers in respect of Transition Charges charged to such Retail Consumers in Electricity Invoices issued by the Electricity Distributor or if applicable such Alternative Collection Agent.

(2) **Segregation of Transition Charge Collections** – An Electricity Distributor or if applicable any Alternative Collection Agent shall promptly segregate Transition Charge Collections from other payments received by it from Retail Consumers and deposit such Transition Charge Collections into its Regulatory Asset Account.[11] Prior to and following a deposit of Transition Charge Collections having been made into its Regulatory Asset Account, the Electricity Distributor or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners.

(3) **Electricity Distributor Remittances** – On each applicable Remittance Date, an Electricity Distributor shall remit all Transition Charge Collections received by it from Retail Consumers in respect of the related Reference Period to or to the account of IESO or if applicable the Alternative Collection Agent.

---

[10] Mirror collection “standard of care” under applicable legislation.

[11] Consider trying to attach to existing LDC credit enhancements and provide parallel coverage for customer losses.

(4) **Duty to Collect Electricity Distributor Remittances** – IESO or if applicable any Alternative Collection Agent shall, as an agent of the Regulatory Asset Owners, undertake [diligent][reasonable] efforts to accept and collect Electricity Distributor Remittances from Electricity Distributors and Transition Charge Collections from Retail Consumers that pay their Electricity Invoices directly to IESO.[12]

(5) **Segregation of Electricity Distributor Remittances** – IESO and if applicable the Alternative Collection Agent shall promptly segregate Electricity Distributor Remittances from other payments received or held by it and deposit such Electricity Distributor Remittances into its Regulatory Asset Account. Prior to and following a deposit of Electricity Distributor Remittances having been made into its Regulatory Asset Account, IESO or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners.

(6) **IESO Remittances** – On each Settlement Date[13], IESO and if applicable the Alternative Collection Agent shall remit all amounts on deposit in its Regulatory Asset Account (a) first, to or to the account of the Absolute Assignees an amount equal to the Investment Remittance for the related month and (b) second, to IESO (including by IESO retaining such amount) an amount equal to the lesser of (i) the Maximum IESO Recovery for the related month and (ii) the IESO Retained Interest Amount as of the Settlement Date.

(7) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 5 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 5 to collect Transition Charges and make remittances of Electricity Distributor Remittances.

(8) **IESO Successor** – IESO Successor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of IESO under Article 5 in the same manner and to the same extent as IESO, including the obligation to collect Transition Charge Collections, Electricity Distributor Remittances and to remit IESO Remittances.

(9) **Owners of Distribution Assets** - If any person other than an Electricity Distributor acquires distribution system assets in the Province or invoices or collects electricity distribution rates in the Province[14], then such person shall, if requested by the Absolute Assignees, be obligated to act diligently to (a) facilitate the invoicing and collection of any Transition Charges applicable to Retail Consumers in its applicable service area, including all consumers connected to the electricity distribution system assets and taking electric delivery service located within such service area; (b) allocate partial payments by Retail Consumers as provided in this Act; (c) exercise all enforcement rights of the Absolute Assignees for the benefit of an Absolute Assignee; and (d) remit any Transition Charge Collections to the Absolute Assignees or Pledgees, as applicable, each in accordance with its Investment Interest.

---

[12] Consider building this obligation into a deemed condition of licence for the IESO.

[13] Consider frequency of remittances in light of rating requirements. US rating agencies favour daily remittances.

[14] This is in anticipation of a possible future restructuring of the distribution system.

(10) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, the Alternative Collection Agent, any owner of electricity distribution system assets in the Province or any other person who may be authorized to collect electricity distribution and use charges from Retail Consumers for a failure to collect Transition Charges, remit or collect Electricity Distributor Remittances or remit IESO Remittances, as and to the extent applicable under Article 5. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure.

(11) **Appointment of an Alternative Collection Agent** – If a Replacement Event occurs in respect of any Electricity Distributor or IESO, the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Collection Agent to perform some or all of the collection, segregation and remittance obligations otherwise required to be undertaken by such Electricity Distributor or IESO, as applicable, under Article 5, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Collection Agent shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor or IESO, as applicable. Any Electricity Distributor or IESO, as applicable, that is replaced under this Section 5(11) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in, to and over the Regulatory Asset, including its Regulatory Asset Account, to the Alternative Collection Agent and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Collection Agent to enforce the Regulatory Asset on behalf of the Absolute Assignees.

(12) **No Set-off, etc.** - The Regulatory Asset, including rights in Transition Charges, Transition Charge Collections, and the interests of a Regulatory Asset Owner, an Absolute Assignee and a Pledgee therein, may not be setoff or reduced (including by counterclaim, surcharge or defense) by any Retail Consumer, any Electricity Distributor, IESO, Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or in connection with any default, bankruptcy, reorganization or other insolvency proceeding of any Electricity Distributor, IESO, Alternative Collection Agent or any owner of distribution system assets in the Province, any affiliate or successor thereof or any other entity or otherwise.[15]

(13) **Sequestration** – If any Electricity Distributor, IESO, the Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or entity authorized to collect Transition Charges, defaults on any required remittance of Transition Charge Collections, Electricity Distribution Remittances or IESO Remittances under Article 5, any court in the Province, upon application by and of the Absolute Assignees acting collectively under the Collective Action Agreement and without limiting any other remedies otherwise available to the Absolute Assignees or Pledgees, shall order the sequestration and payment of the Transition Charge Collections, Electricity

[15] Consider whether it makes sense to create a "deemed collection" payment obligation on Electricity Distributors to the extent a Retail Consumer reduces its payment of Transition Charges, despite this language. Same for Electricity Distributor Remittances and IESO Remittances.

Distribution Remittances and IESO Remittances, as applicable, for the benefit of the Absolute Assignees, each with respect to its Investment Interest, and the Pledgees as applicable.[16]

(14) **Regulations** – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Collection Agent to ensure that rights, interests, entitlements, benefits and proceeds in, to, under and from the Regulatory Asset are of fully realized by some or all of the Absolute Assignees and Pledgees.

Article 6 – The Regulatory Asset

(1) **Composition** – The Regulatory Asset shall constitute a current and irrevocable property right and interest consisting, collectively, of the following rights and interests (without duplication):

a. the right of IESO (i) to record its IESO Retained Interest in its accounts in accordance with Section 8(1), having a stated amount from time to time equal to the IESO Retained Interest Amount; and (ii) to receive IESO Recoveries from time to time in accordance with Section 5(6)(b);

b. the right to impose, bill, invoice, collect and receive Transition Charges from Retail Consumers, including the right to determine the amount of Transition Charges in accordance with this Act;

c. the right to enforce the obligations and indebtedness of each Retail Consumer to pay the Transition Charges charged to the Retail Consumer from time to time in accordance with Article 3, together with all related late payment fees or interest charges arising in respect thereof under the related Electricity Invoices;

d. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Servicer to impose, attribute, charge, bill and invoice the Transition Charges in accordance with Article 4;

e. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Collection Agent to collect, receive and remit amounts received by it in respect of Transition Charges as Electricity Distributor Remittances to or to the account of IESO or if applicable the Alternative Collection Agent in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5;

f. the right to enforce the duties and obligations of IESO and if applicable the Alternative Collection Agent to collect and receive Electricity Distributor Remittances and to remit IESO Remittances to or to the accounts of the

[16] Consider adding or substituting this provision for a right to appoint a receiver.

Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset, in each case in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by it to recover payment of Electricity Distributor Remittances in accordance with Article 5;

g. the right to receive and collect all Transition Charge Collections, all Electricity Distributor Remittances and all IESO Remittances in accordance with Article 5;

h. all rights and entitlements under each Regulatory Asset Account and all amounts on deposit in any such Regulatory Asset Account;

i. all Related Rights; and

j. all revenue, collections, claims, payments, money and proceeds of or derived from the rights described in (a) through (i), regardless of whether such revenue, collections, claims, payments and proceeds are imposed, invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

A Regulatory Asset and the property rights and interests therein shall exist whether or not Transition Charges have been imposed, charged, invoiced, accrued or collected and notwithstanding that the imposition, attribution, invoicing and collection of Transition Charges will depend on further actions that may not have occurred.

(2) **Validity of Dispositions** – Despite any limitations or restrictions on a Disposition that may arise by contract or by operation of any applicable law of the Province or any consent requirement applicable to a Disposition that may arise by operation of any applicable law of the Province, a Disposition by IESO to an Absolute Assignee made under the Financing Plan, or by one Absolute Assignee to another Absolute Assignee made under the Financing Plan, shall be permitted and when made shall be valid and enforceable in accordance with the terms of the related Disposition Document and shall be effective to confer upon the Absolute Assignee thereof a valid property right and interest in, to and under the applicable Investment Interest (or relevant portion thereof) in accordance with the terms of such Disposition, provided that the parties to the applicable Disposition Document have expressly stated therein that such Disposition is a sale or other absolute transfer. Without limiting the foregoing, any Disposition that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as a true sale and absolute transfer of the Regulatory Asset Owner's applicable right, title, and interest in, to and under the Regulatory Asset (or relevant portion thereof), and not merely as a Pledge thereof, and upon such Disposition the assigner or seller under the applicable Disposition Document shall retain no right, title or interest in the Investment Interest subject to the Disposition, including all rights under the Investment Interest arising after such Disposition.

(3) **Perfection and Priority of Dispositions** – Any Disposition of an interest in a Regulatory Asset shall be vested, valid, binding and perfected from the time when such Disposition is made. Such Disposition shall be perfected, vested, valid and binding as against the transferring Regulatory Asset Owner and all other persons who have claims of any kind (whether in tort, contract or otherwise) against the transferring Regulatory Asset Owner, irrespective of whether such persons have notice of the Disposition and

the property rights and interests acquired by the Absolute Assignee under such Disposition shall be free and clear of any liens in favour of such other persons.

(4) **Validity of Pledges** – Despite any limitations or restriction on a Pledge that may arise by contract or by operation of any applicable law of the Province or any consent requirement applicable to a Pledge that may arise by operation of any applicable law of the Province, a Pledge by an Absolute Assignee may be made to secure any related Funding Obligation and when made shall be valid and enforceable in accordance with its terms and shall be effective to confer upon the Pledgee a valid security interest in, to and in respect of the related Investment Interest in accordance with the terms of the Pledge. Other than as required by the Financing Plan, no consent of any person shall be required to give effect to a Pledge made to secure any Funding Obligation.

(5) **Perfection and Priority of Pledges** - For purposes of the *Personal Property Security Act* (the "PPSA"), the Regulatory Asset shall be intangible personal property and any Pledge made by an Absolute Assignee in respect of a Funding Obligation may be perfected by filing a financing statement under the PPSA on that basis. All proceeds of a related Investment Interest that are subject to such a Pledge that are received by the Absolute Assignee shall immediately be subject to the such Pledge, and the security interest in such proceeds shall be perfected pursuant to the PPSA.[17] A Pledge perfected under the PPSA shall be a continuously perfected security interest and shall have priority over any other lien or security interest, created by operation of law or otherwise, that may attach to the property rights and interests in the Investment Interest subject to the Pledge unless the Pledgee has otherwise agreed in writing. Subject to the terms of the Collective Action Agreement, a Pledgee shall have a perfected security interest in a related Investment Interest, including the Absolute Assignee's rights and interests in and to Transition Charge Collections or other related proceeds in respect of the Investment Interest and that are deposited in any Regulatory Asset Account or other account of any Electricity Distributor, IESO, Alternative Collection Agent or other person who may have commingled such Transition Charge Collections or such other proceeds with other funds. All provisions of the PPSA shall apply to the Regulatory Asset on the basis that it is intangible personal property, except to the extent otherwise provided in this Section 6(5).

(6) **Enforcement of Property Rights** – The rights of any Regulatory Asset Owner to collect and enforce its rights and interests in, to or in respect of the Regulatory Asset shall be exercised in the manner set forth in Article 5.

(7) **Owners of a Specified Portion of the Regulatory Asset** – A Regulatory Asset Owner may effect a Disposition to an Absolute Assignee of a specified portion of its rights and interests in the Regulatory Asset, including by way of a Disposition of a divided or an undivided interest therein as specified in a related Disposition Document, in each case under the Financing Plan. In no circumstance may the specified portions of the rights and interests in the Regulatory Asset owned by all Regulatory Asset Owners be greater than all of the rights and interests that comprise the Regulatory Asset in the aggregate.

---

[17] Consider whether to simply leave this and have a financing statement be filed under the PPSA. This would normalize the security interest and reduce any adverse suggestion that security would not otherwise arise.

(8) **Collective Action Required** – If a Regulatory Asset Owner's rights and interests in the Regulatory Asset comprises less than the entire property right and interest constituted by the Regulatory Asset, such Regulatory Asset Owner shall only enforce such right and interest on a collective and coordinated basis with each other Regulatory Asset Owner in accordance with the Collective Rights Agreement.

Article 7 – Establishment of the Fair Allocation Plan[18]

(1) Adoption of the Fair Allocation Plan – The Delegate may, [by written declaration,] designate and adopt a Fair Allocation Plan in compliance with Article 7. The Fair Allocation Plan so designated and adopted shall be the Fair Allocation Plan for all purposes of this Act, except if amended, amended and restated or terminated by a further written declaration made by the Delegate in compliance with Section 7(4).

(2) Principles and Parameters – A Fair Allocation Plan shall seek to allocate Future Fair Share of Green Transition Benefits across present and future Retail Consumer Groups on a basis that the Delegate, in its sole and absolute discretion, determines to be equitable, having regard to the following principles and parameters:

1. Future Fair Share of Green Transition Benefits should be allocated over the period ending on the Program End Date.

2. The Fair Allocation Plan should specify the Reference Periods for the purpose of identifying applicable Retail Consumer Groups and allocating Future Fair Share of Green Transition Benefits among them on a relative basis over time.

3. The share of Future Fair Share of Green Transition Benefits allocable to a particular Retail Consumer Group in respect of a Reference Period should be proportionate to a reasonable assessment of the benefits of the Green Generation Initiative to the Retail Consumer Group over such Reference Period.

4. The share of Future Fair Share of Green Transition Benefits to be allocated to a Retail Consumer Group and any future Retail Consumer Group at a particular time should not exceed the Estimated Future Green Transition Benefits, measured in respect of the Reference Periods following such particular time and to the Program End Date.

5. No future Retail Consumer Group should be allocated an unreasonably disproportionate share of Estimated Future Green Transition Benefits. Except in exceptional circumstances or in the case of any reallocation of an Over-Assessed Amount as contemplated in 7, below, the Future Fair Share of Green Transition Benefits to be allocated under a Fair Allocation Plan to any future

---

18 The idea is that the Fair Allocation Plan will be set once at the outset based on the principles and parameters described here, all as applied based on information available and the reasonable expectations and discretion of the delegate at such time. If the expectations are not fulfilled (e.g., generators may choose to retire their facilities at the end of their current procurement contracts and not invest in extending service lives to secure further procurement contracts), the Fair Allocation Plan will be unaffected, unless it is specifically amended (assuming amendments will be permitted by the legislation).

Retail Consumer Group should have regard to *[Insert formula if a year-over-year maximum amount is determined to be appropriate]*.

6. The time value of money should be reflected in the Fair Allocation Plan, in order to equate the relative values of the nominal allocations of Future Fair Share of Green Transition Benefits, calculated in current dollars, to future Retail Consumer Groups over time.

7. To the extent there has been an Over-Assessed Amount, the Fair Allocation Plan may determine that an adjustment should fairly be made to rebate Retail Consumers for such an amount, by reducing the costs otherwise attributable under the Act to such Retail Consumers. The relative costs of the Green Generation Initiative are reflected under the Act by the attribution of Transition Charges to such Consumer Groups, based on the Financing Plan seeking to track the allocations of benefits under the Fair Allocation Plan. Accordingly, the Maximum Transition Charge Amount determined for one or more Retail Consumer Groups having regard to the Fair Allocation Plan otherwise applicable may be appropriately reduced to recognize the effect of the Over-Assessed Amount. In such a case, a determination to reduce the Maximum Transition Charge Amount applicable for certain related Reference Periods should have regard to the principle that the corresponding rebate should be extended to benefit the Consumer Group or Consumer Groups in closest proximity to the Legislative Implementation Date.

(3) **Attribution Methodology** – The Fair Allocation Plan shall specify the Attribution Methodology for the purposes of allocating the Period Transition Charges across the Retail Consumers of a particular Retail Consumer Group. The Attribution Methodology shall result in an attribution of such Transition Charges that is considered by the Delegate to be equitable, and may have regard to such principles and parameters as may be further set forth in a Regulation.

(4) **Amendments of the Fair Allocation Plan** – The Fair Allocation Plan may be amended, amended and restated or terminated by the Delegate, provided that such amendment, amendment and restatement or termination shall (a) not be inconsistent with the principles and parameters set forth in (2) or (3), above, or the Regulation and (b) comply with any restrictions or limitations specified with respect thereto in any Funding Obligation.

Article 8 – The IESO Retained Interest

(1) **Maintain Books of Account** – IESO may maintain books of account to record the IESO Retained Interest Amount and all adjustments thereto from time to time. Such books of account shall be determinative with respect to the amount of IESO's related regulatory asset.

(2) **Limitation on Additions** – IESO shall not record additions to the IESO Retained Interest Amount in respect of IESO Funding Shortfalls (a) if such additions are restricted by the terms of any Disposition Document or the Collective Action Agreement, or (b) on or after •, 2017.

(3) **Dispositions** – IESO may effect a Disposition to an Absolute Assignee if (a) the Absolute Assignee has or will concurrently become bound by the Collective Rights Agreement; (b) the Disposition is effected pursuant to a Disposition Agreement duly executed by IESO; (c) the Financial Services Agent confirms in writing that the Disposition is permitted under the Financing Plan; and (d) the net proceeds payable to IESO from the sale of the related Investment Interest would not exceed the IESO Retained Interest Amount immediately before the time of such Disposition.

(4) **No Continuing Interest in any Investment Interest** – IESO shall have no continuing right or interest in any Investment Interest subject to a Disposition effected by IESO under a Disposition Document to which IESO is a party and IESO shall not assert any such right or interest or take or omit to take any action to exercise or enforce its rights or interests under the IESO Retained Interest if such action or omission would impede or obstruct the rights of any Absolute Assignee or a Pledgee to enforce its rights and interests in any Investment Interest, except if IESO is expressly permitted to take or omit to take such action, respectively, under the related Disposition Document or the Collective Rights Agreement.

(5) **IESO Financing Costs** – IESO shall be entitled in good faith to incur reasonable financing costs (including interest and other reasonable financing charges) reflecting market terms and conditions and which are payable in arrears, in order to finance its ownership of the IESO Retained Interest from time to time.

(6) **IESO Recoveries** – IESO shall, in respect of a month, be entitled to receive from IESO Remittances on a related Settlement Date the amount (if any) available to IESO under Section 5(6)(b).

Article 9 – The Financing Plan

(1) **Power to Prepare, Implement and Amend the Financing Plan** – The Financial Services Agent shall be authorized to prepare, implement and amend the Financing Plan. If the Financial Services Agent is unwilling or unable to prepare and propose the adoption of the Financing Plan, the Delegate may by written declaration designate one or more other persons who shall be authorized to prepare, implement and amend the Financing Plan.

(2) **Terms and Conditions of the Financing Plan** – The Financing Plan shall establish the basis for each Absolute Assignee's funding decisions. The Financing Plan shall have regard to the principles and parameters set forth in Schedule 3 and such other conditions and requirements as may be specified in a written declaration of the Delegate or in accordance with the Regulation.

(3) **OEB Approval** – Any Additional Funding Charge payable to or for the benefit of the Financial Services Agent shall be subject to review and approval by the OEB.

(4) **OEB Review** – The OEB [shall] undertake an annual review of the records maintained by the Financial Services Agent for the purpose of confirming that the Funding Obligations incurred and the Finance Amounts paid by or on behalf of the Absolute Assignees were incurred and paid, respectively, in material conformity with the Financing Plan.

(5) **Replacement of the Administrative Agent** – If the OEB identifies deficiencies or makes recommendations in its review under Section 9(4), the Administrative Agent shall take reasonable measures to remedy such deficiencies if remediable, and shall in any event have regard to the recommendations of the OEB in relation to further actions undertaken by the Financial Services Agent under the Financing Plan. If the Financial Services Agent is unwilling or unable to reflect such recommendations in relation to such further actions, the Delegate may by written declaration designate one or more other persons who shall thereafter become the Financial Services.

(6) **Obligation to Apply IESO Remittances** – The Financial Services Agent shall ensure that amounts transferred to it under Article 5, as agent for and on behalf of the Absolute Assignees, or otherwise in respect of or as proceeds from an applicable Investment Interest shall only be applied or used to pay related Finance Amounts when they are due and payable and for no other purpose.

(7) **Non-Recourse** – The Financing Plan shall be implemented so that Funding Obligations incurred shall be without recourse to or to any assets of the Electricity Distributors, IESO, any Alternative Servicer, any Alternative Collection Agent, the Financial Services Agent, the OEB, the Province or the Lieutenant Governor in Council, other than if and to the extent that such persons or entities are liable for the performance of obligations or duties arising under this Act or expressly agree to become liable pursuant to any Funding Obligation or obligation in relation to a Finance Amount. [All Funding Obligations shall contain a statement to the following effect: "Neither the full faith and credit nor the taxing power of the Province of Ontario is pledged to the payment of the principal of, or interest on, this [obligation].]

(8) **Incurrences are Binding** – Notwithstanding anything to the contrary in this Act, each Disposition made to or by an Absolute Assignee and all amounts payable or becoming due and payable by or on behalf of an Absolute Assignee under or in connection with any obligation purporting to be a Funding Obligation, shall be binding for the purposes of this Act, including in determining the amount of related Transition Charges, despite any impairment or defect resulting from such failure.

[Article 10 – Compliance Matters[19]

(1) **Right of the [OEB] to Inspect Books and Records** - For the purpose of investigating compliance with the provisions of this Act, the OEB shall have the right, jurisdiction, power and authority to examine the books and records of *[Insert names if any]*.

(2) **[OPG's Rate Settings** – When setting other rates for or in respect of OPG, the OEB shall not take into account (a) the administrative or servicing fees charged by OPG as Financial Services Agent [in excess of the actual incremental costs incurred by such person of providing administrative or servicing services]; (b) the cost consequences to OPG of being the Financial Services Agent; or (c) the consequence of OPG

[19] As noted above, the outcome of any regulatory action undertaken by the OEB will not affect Funding Obligations that have been incurred under the Financing Plan. This Article and any potential role for the Auditor General is still under consideration.

consolidating the assets and liabilities of any Financing Entity for OPG's accounting purposes, in each case in setting any regulated payment amounts for OPG.][20]

Article 11 – Undertaking of the Lieutenant Governor in Council[21]

(1) **No Action to limit, alter, or impair or terminate Transition Charges, the Regulatory Asset or Collections** – The [Lieutenant Governor in Council] shall not in any way take or permit any action to reduce, impair, postpone or terminate the obligation of Retail Consumers to pay Transition Charges or to impair the Regulatory Asset or the collection or recovery of Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances, either directly or indirectly, including through the introduction of any bill or the passing of any legislation or regulation having such effect. The amount of Transition Charges determined under this Act shall not be subject in any way to reduction, impairment, postponement or termination as a result of any action taken or failure by the Lieutenant Governor in Council, including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(2) **Undertaking and Agreement** – The [Lieutenant Governor in Council] shall not:

(a) in any way take or permit any action that limits, alters or impairs the value of any Investment Interest;

(b) except as required by the estimates and adjustments made in determining the True-up Amount, reduce, alter or impair Transition Charges that are imposed, billed, invoiced, collected and remitted for the benefit of the Absolute Assignees or any Pledgee from time to time;

(c) permit the amendment, amendment and restatement or termination of the Fair Allocation Plan if such amendment , amendment and restatement or termination would adversely affect the validity or enforceability of any Funding Obligation or the rights of an Absolute Assignee or Pledgee thereunder,

in each case including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(3) **Successor IESO** – If IESO is restructured, dissolved or becomes insolvent or is otherwise incapable of performing its obligations under this Act, Successor IESO shall be established to perform such obligations.

---

[20] As an alternative to this provision, consider clarifying under s. 78.1(4) of the OEB Act (which currently gives the OEB discretion in setting payment amounts subject to O. Reg. 53/05) that the OEB in setting OPG payment amounts for prescribed generation shall not consider OPG's role as Administrative Agent of any Financing Entities associated with the Fair Hydro initiative, perhaps with the exception of any operating fees that may be received by OPG for performing that role.

[21] Under consideration, including the dealers' request for a "servicer guarantee" and a "contractual guarantee" to address a "Change of Law" or if all or a portion of the legislation is *ultra vires*, requiring (at the lenders option), the Province to pay principal and interest on the outstanding debt until maturity or payout the entire debt including any make-wholes.

(4) **Compensation for Failure** – Absolute Assignees shall be compensated for any losses suffered by them as a result of any failure by the Lieutenant Governor in Council to comply with its undertakings and agreements in this Article 11.[22]

(5) **No Wind-up of Financing Entity**. No Financing Entity may be voluntarily wound up, liquidated or dissolved until one year after all of its Funding Obligations are repaid.

(6) **References to the Undertaking and Agreement** – Any non-confidential reference to the Undertaking of the Lieutenant Governor in Council, including in marketing materials and other documentation authorized for use by the Administrative in connection with any Funding Obligation, may be made provided that [*Add conditions to protect the Province*].

Article 12 – Regulations

Regulations may be made under this Act for the purposes described in Sections •,•,• and • and may be promulgated for any of the following purposes:

(a) to set standards and measures regarding the commercially reasonable requirements of the Province associated with an Absolute Assignee incurring Funding Obligations or becoming obligated to pay any Finance Amount, including to establish guidelines regarding all-in funding costs; permitted Additional Funding Charges; required maturities and redemption and termination rights of Funding Obligations; liquidity requirements, in each case to a Financing Plan that is consistent in its effect with the Fair Allocation Plan;

(b) to establish and empower one or more regulated entities to undertake decision-making activities with respect to this Act;

(c) to set out reasonable requirements regarding the appointment or retention of advisors, agents, service providers, contract counterparties, including in relation to 'market terms and conditions' parameters;

(d) to provide for audit and compliance standards applicable to those persons who are or may become obligated or have duties that arise under this Act [or under any Funding Obligation];

(e) to provide for any pre-vetting and approval requirements in relation to any incurrence by an Absolute Assignee of any Funding Obligation or obligation to pay any Finance Amount; and

(f) to provide for appeal and due process considerations in connection with the establishment, adoption, implementation and review of the Fair Allocation Plan or the Financing Plan.

Article 13- Miscellaneous[23]

---

[22] Requested by Torys. For discussion.

[23] OPG would like the specific amendments related to OPG to be included in the Bill.]

(1) **Choice of law** – The law governing, as applicable, the validity, enforceability, attachment, perfection, priority and exercise of remedies with respect to the transfer of an interest or right or creation of a security interest in the Regulatory Asset, any Transition Charge or the Undertaking of the Province shall be the laws of the Province.

(2) **Conflict of law** – In the event of conflict between this Act and any other law of the Province regarding the attachment, assignment or perfection, or the effect of perfection, or priority of any Disposition or Pledge, this Act shall govern to the extent of the conflict.

(3) **No further acts or approvals required** - Notwithstanding any provisions of any law of the Province to the contrary, no approvals, notices or authorizations other than those specified in this Act shall be required with respect to the actions to be taken in compliance with this Act, including under the Financing Plan or in relation to the establishment of the Fair Allocation Plan, and the transactions and contracts authorized in or contemplated by this Act or the Financing Plan, including the incurrence of any Funding Obligation, any Disposition, any Pledge or in the payment and performance of any attendant or incidental contract and any related expenses incurred to facilitate the preparation and implementation of the Financing Plan.

(4) **Effect of invalidity after the Incurrence of any Funding Obligation** - Effective on the date that a Funding Obligation is incurred under this Act, if any provision of this Act is held to be invalid or is invalidated, superseded, replaced, repealed or expires for any reason, that occurrence shall not affect any action allowed under this Act that is taken by any person who is or may become obligated or have duties that arise under this Act and any such action shall remain in full force and effect.

(5) **Severability** - If any Article, Section, paragraph or subparagraph of this Act or the application thereof to any person, circumstance or transaction is held by a court of competent jurisdiction to be unconstitutional or invalid, the unconstitutionality or invalidity shall not affect the constitutionality or validity of any other Article, Section, paragraph or subparagraph of this act or its application or validity to any person, circumstance or transaction, including the irrevocability of Transition Charges, the validity of the Regulatory Asset, the incurrence of any Funding Obligation, any Disposition, any Pledge, or the collection and recovery of Transition Charge Collections. To these ends, the Legislature hereby declares that the provisions of this Act are intended to be severable and that the Legislature would have enacted this Act even if any Article, Section, paragraph or subparagraph of this Act held to be unconstitutional or invalid had not been included in this Act.

Schedule 1

Guidelines for Estimates

[To be considered.]

Schedule 2

Requirements Applicable to Alternative Invoicing Agent/ Alternative Collection Agent

[To be considered.]

Schedule 3[24]

Principles and Parameters for Establishing the Financing Plan

The following principles and parameters provide a guideline as to what a Financing Plan should address:

(1) in respect of each Reference Period, make reference to the allocations of Future Fair Share of Green Transition Benefits to each Reference Group contemplated by the Fair Allocation Plan;

(2) estimate IESO Funding Shortfalls for each Reference Period;

(3) consider alternative funding arrangements suitable to fund the estimated IESO Funding Shortfalls, including short term and/or long term Funding Obligations;

(9) consider quantities, maturities, payment obligations, prepayment or redemption rights and such other features of Funding Obligations so that payments made for a Reference Period reasonably correspond to the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

(4) if the anticipated amount of any Repayment (together with payments of other Finance Amounts) to be made in respect of a Reference Period would materially exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable Retail Consumer Group under the then current Fair Allocation Plan, diligent efforts should be made to determine whether a Refinancing or deferral of such Repayment may be reasonably and cost-effectively effected based on then prevailing market terms, conditions an circumstances;

(5) reflect the assumptions and requirements specified in any contemplated Funding Obligation (e.g., any limit on the maximum amount of Transition Charges charged to a hypothetical Retail Consumer relative to his or her monthly electricity bill, as prescribed by any rating agency that ascribes its credit rating to or in respect of the Funding Obligation having regard to the application of the Allocation Methodology);

(6) incur Funding Obligations from time to time on the best terms available at such time for a financing transaction of the size and type contemplated, and having regarding to the following parameters:

a. whether the Absolute Assignees will require committed access to short term liquidity to cover estimated IESO Funding Shortfalls prior to incurring fixed term Funding Obligations, and the amount and repayment terms of any such required liquidity; provided that any Repayment required to be made under the terms of such short-term liquidity would not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of

[24] Awaiting input from Torys based on OPG mark-up of Financing Plan sections.

Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

b. the basis upon which the Financial Services Agent will select the term to maturity of any other Funding Obligations; provided that any Repayments required to be made under the terms of such Funding Obligations should not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

c. the basis upon which the interest rates applicable to such Funding Obligations would be determined;

d. the reference capital or finance market in which such Funding Obligation would be incurred, including markets outside of Canada if considered by the Financial Services Agent to be appropriate in the circumstances;

e. the currency of payments under such Funding Obligations and, if the Funding Obligations are denominated in a currency other than Canadian dollars, the basis upon which the Financial Services Agent shall cause the applicable Absolute Assignee to enter into hedging transactions to mitigate currency risk, including acceptable minimum and maximum coverage levels, having regard to the availability of related derivatives having notional amounts corresponding to the repayment and maturity profile of such Funding Obligations;

f. the basis upon which the Financial Services Agent will select counterparties under any transaction to be entered into by an Absolute Assignee, including any paying agent, servicer, cash manager, liquidity provider, hedge counterparty, account bank, lender, note trustee, security trustee, paying agent, registrar/transfer agent, financial services agent, arranger or manager;

g. the basis upon which the Financial Services Agent will manage counterparty risk, including by providing for maximum counterparty exposure limits having regard to concentration, credit and other identified risks with respect to individual counterparties or countries;

h. the basis upon which the Financial Services Agent will negotiate and settle Finance Amounts, including the amount of any Redemption Amounts, Finance Reserve Deposits and Additional Funding Charges;

(7) the basis upon which Funding Obligations may be redeemed, prepaid, repurchased or otherwise affected, having regard for the need to minimize debt service charges and other Funding Costs, and the need to maintain a stable funding platform to finance the IESO Funding Shortfalls from time to time on a basis that is consistent with the allocations of Future Fair Share of Green Transition Benefits to applicable Reference Groups under the Fair Allocation Plan;

(8) the basis upon which any Repayments, Funding Costs and Redemption Amounts will be paid, including any defeasance, sinking fund or through other reserves or liquidity facilities;

(9) the basis upon which fees, charges, expenses, costs, indemnities, reimbursements and other amounts payable to or for the benefit of the Financial Services Agent and other agents and service providers to the Absolute Assignees may be determined, allocated and paid;

(10) the timing and basis upon which Finance Reserve Deposits and Finance Reserve Withdrawals may be made;

(11) the basis upon which any obligations for any other Additional Funding Charges may be incurred and paid;

(12) the basis upon which the cash flows arising from time to time or otherwise derived from the Regulatory Asset may otherwise be applied, including in relation to any counterparty enforcement and realization scenario;

(13) the transmittal to [the IESO] of information related to the amounts to be included in the determination of the Period Transition Charge for a Reference Period;

(14) the basis upon which any Disposition may be made or effected by an Absolute Assignee, including parameters for determining the purchase price for the interest in the Regulatory Asset that is the subject matter of such Disposition, and any consents and releases that may be usefully obtained in connection with such Disposition;

(15) describe the requirements applicable to any special purchase entity that will purchase an Investment Interest, including proposed capitalization, governance, and restrictions on their powers and activities; and

(16) the basis on which any Pledge may be given or effected.

TOR_2528-#23107566-vpdf-_Fair_Hydro_Act_.PDF

CONFIDENTIAL AND PRIVILEGED

Preliminary Draft for Discussion Purposes Only

"Fair Hydro Act" ~~– Part V.2~~

Article 1 – Purpose[1]

~~IESO has entered into Power Contracts with Generators. The agreed-upon reference prices and quantities set out therein were determined based on commitments made by IESO to provide Generators with long-term price certainty, so as~~The Province has and continues to encourage the construction and development of facilities for the ~~purpose of~~ long-term operation and generation of electricity in the Province using sustainable, lower carbon-based technologies such as new gas-fired generation, renewable facilities, energy from waste and biomass, including under the Province's various procurement, standard offer ~~and~~, feed in tariff and other similar programs (the "Green Generation Initiative"). ~~[The terms of the Power Contracts were intended to approximate the anticipated useful life of the related generation assets]; however, it has been determined that the useful life of many of these assets will be well in excess of the actual term of the related Power Contracts and will extend over more than one generation of ratepayers.~~ The long-term benefits of the Green Generation Initiative accrue over time and have benefited and will benefit present and future ~~ratepayers of the Province. Currently, market prices for electricity are less than the reference prices set out in the Power Contracts, leaving a gap in funding which is funded by charging consumers a "Global Adjustment" (part of which is available to IESO to pay this shortfall).~~electricity consumers in the Province.

The imputed costs of the Green Generation Initiative are currently passed through to electricity consumers by way of a monthly adjustment amount (the "Green Costs Adjustment"), which in turn forms part of the overall adjustment calculated by the Independent Electricity System Operator ("IESO") pursuant to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* (the "Global Adjustment"). The Global Adjustment is included as a charge billed to electricity consumers in their monthly electricity invoices.

~~Each month, the IESO determines the Global Adjustment payable by consumers for the consumption~~The Green Costs Adjustment is currently determined each month by reference to the amounts paid by IESO to the generators of electricity in the Province~~. A component of the Global Adjustment is the amount by which the reference prices in the Power Contracts~~ under the Green Generation Initiative, which may be higher than prevailing market price for electricity. These differences arise because IESO has entered into long-term procurement contracts with such generators in order to provide them with long-term price certainty for electricity, and in turn to encourage the generators to develop technologies and to construct and develop facilities consistent with the Green Generation Initiative. In general, whenever amounts payable under these procurement contracts exceed the market price for electricity~~ for the quantities of electricity specified under the Power Contracts for the relevant period[2]. The relationship between the past, present and future benefits to Ratepayers from~~, the Green Costs Adjustment passes through the amount of such differences as part of the monthly charge to electricity consumers. Such amount then becomes available to IESO to meet its obligations under the procurement contracts. It has been determined that the useful lives of many of the assets encouraged by the Green Generation Initiative~~, on the one hand, and the costs of~~ will be well in

[1] ~~Consider the scope and breadth of the Purpose section. This text is considered to be useful to establish the legislative basis for the statute, which text will be useful in the event of a challenge.~~

[2] ~~Consider modifying this to also refer to gas contracts and hydroelectric contracts, which provide for mechanics that are not based on contracts for differences.~~

excess of the respective terms of the related procurement contracts, and in many cases may extend over more than one generation of electricity consumers.

Since the benefits to past, present and future electricity consumers from the Green Generation Initiative ~~borne by past, present and future Ratepayers through their respective allocations of the Global Adjustment, on the other hand, do not necessarily reflect an equitable allocation of such benefits and costs over time, with the result that an adjustment may be appropriate to address inter-generational fairness considerations. Such an adjustment should reflect~~will not necessarily coincide with the costs currently attributed through the Green Costs Adjustment, based on the respective durations of the procurement contracts, it has been determined that the rate at which the costs associated with the Green Generation Initiative should be passed through to Retail Consumers (as defined in Article 2) should be more closely aligned with the benefits that such Retail Consumers have derived and are expected to derive from the Green Generation Initiative over time. This realignment will be based on principles and parameters that ~~can be applied from time to time in order to~~ establish a reasonable basis for measuring and allocating the relative costs and benefits of the Green Generation Initiative ~~across present and future Ratepayers. A plan to allocate such costs and benefits~~ equitably across present and future ~~Ratepayers may be developed based on those principles and parameters (a~~Retail Consumers (the "Fair Allocation Plan").

If ~~a~~the Fair Allocation Plan determines that the equitable allocation of the ~~Global Adjustment to the Ratepayers~~costs associated with the Green Generation Initiative to the Retail Consumers of a particular time period ~~in respect of the Power Contracts~~ should be reduced below the amount ~~otherwise determined,~~that currently would be charged based on the Green Costs Adjustment, then the amount payable by such ~~Ratepayers to Electricity Distributors in respect of such period,~~Retail Consumers and in turn ~~by the Electricity Distributors to the~~available to IESO~~, would~~ will, in the aggregate, be less than the amount payable by the IESO to the ~~Generators under the Power Contracts~~generators in respect of such period. ~~If the difference is greater than any net Power Contract surpluses available to IESO from earlier periods, IESO will have a funding shortfall.[3] In order for IESO to cover such a funding shortfall for a period,~~In this case IESO will need to obtain funding from another source~~, which could include funding from third party sources operating in public and private capital markets~~ to cover such a shortfall. If a funding obligation is incurred ~~in order to enable the~~by IESO to cover such a ~~funding~~ shortfall during one period, the repayment of such funding obligation will be required in a future period, and any related repayments, finance costs, hedging costs and other transaction costs ~~will be~~ incurred ~~and may~~will become payable in one or more ~~other~~future periods. ~~It will be necessary to provide~~In order for IESO to obtain a reliable and committed source of cash flows to enable IESO to repay such funding ~~obligations and to pay related funding costs with certainty when the funding obligations~~amounts when they become due and payable~~. This Part~~, this Act imposes irrevocable and non-bypassable financial obligations ~~of Ratepayers~~on Retail Consumers to pay amounts incurred in respect of such funding obligations when they become due and payable and establishes a right to invoice and collect such amounts . The right and interest in and to collect such financial obligations~~, which~~ will take the form of the Regulatory Asset contemplated in this ~~Part and~~Act, which will constitute property rights and interests. ~~The~~Interests in the Regulatory Asset ~~will~~may be sold and absolutely assigned ~~and will belong~~by IESO to one or more ~~newly created~~ financing entities, which in turn will finance their ~~purchase of such Regulatory Asset~~acquired interests by incurring funding obligations. The incurrence and payment of such funding obligations will be administered on behalf ~~the~~such financing entities by ~~an administrative~~a financial services agent ~~(initially OPG),~~ under the Financing Plan

[3] ~~Confirm whether any RPP forecasting variance is to be included in (i) a funding shortfall; and (ii) related IESO financing costs to be included in Transition Charges.]~~

contemplated in this ~~Part~~Act. The Financing Plan will seek to reasonably match the payment obligations arising under such funding obligations ~~and~~, to be borne by the future ~~Ratepayers~~Retail Consumers of the period in which such payment obligations become due, with the ~~costs and~~ benefits of the Green Generation Initiative ~~charged~~allocated to such future ~~Ratepayers~~Retail Consumers under the Fair Allocation Plan.

The purpose of this ~~Part~~Act is to establish the basis upon which intergenerational fairness can be achieved by charging the costs and benefits of the Green Generation Initiative to present and future ~~Ratepayers~~Retail Consumers on an equitable and cost effective basis.

Article 2 - Definitions

In this ~~Part~~Act:

> "Absolute Assignee" means a person to whom a Regulatory Asset Owner effects a Disposition.
>
> "Actual" means, in relation to costs, expenses or payments in respect of Funding Obligations during a Reference Period, the actual amount of such costs, expenses or payments paid or made (net of any Finance Reserve Withdrawals applied to pay such amounts), which amounts shall be recorded by the ~~Administrative~~Financial Services Agent whose records shall be determinative for the purposes of this ~~Part in~~Act except to the ~~absence~~extent of a manifest calculation error.
>
> "Additional Funding Charges" means, for a Reference Period in respect of an Absolute Assignee, the fees, charges, expenses, costs, indemnities, reimbursements and other amounts (including any applicable tax amounts) that are or become payable by ~~the Regulatory Asset Owners~~or on behalf of the Absolute Assignee during the Reference Period and that were incurred or committed to directly or indirectly by the Absolute Assignee in connection with the incurrence of Funding Obligations under the Financing Plan (whether at the time of such incurrence or over the term of the Funding Obligation and whether directly or indirectly), including (without duplication and without limitation): (a) any payment required under an ancillary agreement entered into by, or by the ~~Administrative~~Financial Services Agent on behalf of, ~~a Regulatory Asset Owner~~the Absolute Assignee under the Financing Plan; (b) any federal, provincial or local taxes, payments in lieu of taxes, franchise fees or license fees imposed on ~~a Regulatory Asset Owner~~the Absolute Assignee or incurred by on behalf of ~~a Regulatory Asset Owner~~the Absolute Assignee under any obligation to pay tax gross-up amounts to counterparties under Funding Obligations; (c) any amounts payable to the ~~Administrative~~Financial Services Agent, including amounts payable to its advisors and outside counsel; (d) any amounts incurred to prepare, confirm, amend and implement the Financing Plan; (e) any amounts payable to any Alternative Collection Agent or Alternative Servicer, including amounts payable to each's advisors and outside counsel; (f) any amounts incurred to make the calculations, determinations or confirmations to be made by or on behalf of ~~a Regulatory Asset Owner~~the Absolute Assignee; (g) any servicing fees and expenses; (h) any trustee fees and expenses; (i) any legal fees, expenses and disbursements; (j) any accounting fees and expenses; (k) any administrative fees and expenses; (l) any manager ~~of~~or director fees of a Financing Entity; (m) any registration fees and expenses; (n) any placement fees, underwriting fees, fees and related issuing expenses; (o) any rating agency fees; and (p) any other related fees, charges, expenses, costs, indemnities, reimbursements and other amounts that are approved in

good faith by the Financial Services Agent for recovery and payment under the Financing Plan.

~~"Administrative Agent" means [OPG] or, following any Replacement Event, such other person or persons who may be appointed as the administrative agent of the Regulatory Asset Owner under the Financing Plan in compliance with the requirements set out in Schedule 2.~~

"Allocation Factor" means, in respect of a ~~Ratepayer~~Retail Consumer for a Reference Period, the number (expressed as a percentage) determined in respect of the ~~Ratepayer~~Retail Consumer by ~~[IESO]~~the OEB based on the application of the Attribution Methodology in respect of the Reference Period.[4][1]

"Alternative Collection Agent" means a person appointed under Section 5(11) and in compliance with the requirements set out in Schedule 2 to assume the collection activities and activities of any Electricity Distributor or IESO under Article 5, as agent for and on behalf of the Regulatory Asset Owners.

"Alternative Servicer" means a person appointed under Section 4(8) to assume the obligations of the Servicer under Article 4, as agent for and on behalf of the Regulatory Asset Owners.

"Assessed Past Green Transition Costs" means, in respect of a Measurement Date, the aggregate of the imputed costs of the Green Generation Initiative (expressed as an equivalent to current dollars), as reflected in the calculation of the Green Costs Adjustment, which have been charged to Retail Customers through the Global Adjustment on or prior to the Measurement Date.

"Attribution Methodology"[~~5~~2] means the methodology specified in the Fair Allocation Plan for allocating the Period Transition Charges for a Reference Period to ~~the~~ individual ~~Ratepayers~~Retail Consumers of the applicable ~~Ratepayer~~Retail Consumer Group based on its Allocation Factor.

~~"Bypass Charge" means [To be developed].~~[6]

"Collected Amount Adjustment" means, in respect of a ~~Reference~~True-Up Period, the amount (which may be a negative amount) calculated by the Servicer or the ~~Administrative~~Financial Services Agent, as applicable, equal to (a) the Estimate of the

[4] ~~Consider basing~~[1] Confirm that this will be based on forecast volumes of demand (like RPP). To the extent amounts do not get recovered due to differences between forecast and actual, those ~~would~~may be identified and ~~rolled into~~caught by the True-Up.

[5] ~~A key question will be how the overall costs will be spread across the rate base. For example, the~~[2] This allocation may be volumetric ~~or not,~~ or some combination of a flat amount and a volumetric charge. ~~This will also impact any discussion regarding any bypass (e.g., grid exit) charge in connection with the bypass discussion~~Further discussion is required. H&W has raised a concern regarding possible adverse changes after the fact and rating agency considerations. Consider whether hard-coding in the legislation makes sense.

[6] ~~Consideration needs to be given to any amount that will be charged to a ratepayer who successfully bypasses (e.g., leaves the grid). In allocating Transition Charges, considerations would include whether to reserve Bypass Charges and spread them over the life of the program, and correspondingly how to factor those into the calculation of Transition Charges.~~

Finance Amount for the True-Up Period, minus (b) the sum of all Transition Charge Collections for the True-Up Period.~~7~~[3]

"Collective Rights Agreement" means an agreement among all of the Regulatory Asset Owners (including each Absolute Assignee) and each Pledgee that governs the enforcement of their respective rights and interests in, to and under the Regulatory Asset on a coordinated and collective basis.[4]

"Delegate" means the person or persons designated in writing from time to time by the Minister of Energy to undertake the actions and perform the responsibilities ascribed to the "Delegate" under this Act.

"Disposition" means an assignment, transfer, conveyance, sale, contribution, set-over, exchange or other disposition of ~~all or a specified portion (including a specified portion on a divided basis or by way of an undivided interest) of a Regulatory Asset Owner's right, title and interest in, to and under the Regulatory Asset~~an Investment Interest to an Absolute Assignee pursuant to a Disposition Document.

"Disposition Document" means the agreement, deed, conveyance, instrument or other document under which a Regulatory Asset Owner effects a Disposition to an Absolute Assignee.

"Electricity Distributor" means, in respect of a Service Area, the rate regulated distributor licensed ~~by the OEB~~under Part V of the *Ontario Energy Board Act, 1998* in respect of such Service Area, together with and its successors.

"Electricity Distributor Remittances" means, for an Electricity Distributor on a Remittance Date, all Transition Charge Collections received or deemed to be received by the Electricity Distributor prior to the Remittance Date and that have not otherwise been remitted to IESO or if applicable the Alternative Collection Agent in accordance with Section 5(3) , including the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5.

"Electricity Invoice" means an invoice issued by ~~an~~any of a Electricity Distributor (or in its stead, by an Alternative Servicer)~~ or~~, by the Servicer or by a Retailer, in each case to a Retail Consumer that is served by the Electricity Distributor's distribution system in respect of electricity charges, including the cost of electricity, delivery and regulatory charges and related services and amounts incurred, assessed or charged in respect of connectivity to a distribution network in the Electricity Distributor's designated Service Area and in respect of applicable Transition Charges to be charged to the Retail Consumer under this Act.

"Estimate" means~~,~~ (a) in relation to costs, expenses or payments in respect of Funding Obligations or any Finance Amount for a Reference Period, the estimated amount of such costs, expenses or payments determined by the ~~Administrative Agent~~Financial Services Agent; and (b) in relation to an assessment of the benefits of the Green Generation Initiative to any Retail Consumer Group, the estimated value (in current

[3] This would pick up adjustments based on actual collection experience, changes in the ~~Consumer Base~~retail consumer base, changes in the actual costs (versus earlier estimates) included in the Transition Charge calculation, etc.

[4] Consider adding the Financial Services Agent and the Servicer as parties.

dollars) of such benefits determined by the Delegate, in each case having regard to the applicable principles and parameters set out in Schedule 1, which estimated amounts shall be determinative as the applicable estimate for the purposes of this ~~Part in~~Act except to the ~~absence~~extent of a manifest calculation error.

"~~Fair Allocation Plan" [has the meaning given in Article 1].~~Estimated Future Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that are expected to accrue to Retail Consumers from the establishment and implementation of the Green Generation Initiative during the period from the Measurement Date to the Program-End Date.

"Estimated Past Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that have accrued to Retail Consumers from the establishment and implementation of the Green Generation Initiative up to and including the Measurement Date.

"Fair Allocation Plan" has the meaning given in Article 1.

"Finance Amount" means, ~~in respect of~~for a Reference Period in respect of an Absolute Assignee, the sum (without duplication) of the following amounts ~~for~~that are or become payable during the Reference Period in respect of the Absolute Assignee: (a) Repayments; (b) Funding Costs; (c) Redemption Amounts; (d) Finance Reserve Deposits; and (e) Additional Funding Charges.~~"Finance Receipts" means, for a Reference Period, all amounts received by or on behalf of the Regulatory Asset Owners during the Reference Period in respect of a Funding Obligation, including from any reimbursement of standby commitment fees or charges paid by a lender, any reimbursement of credit enhancement fees or charges paid by any credit enhancer, any reimbursement of liquidity fees or charges paid by any liquidity provider, any amounts (including any termination payments) paid to the Regulatory Asset Owners under derivatives and any withdrawal made or required to be made from a debt service reserve account or other account established under any indenture, ancillary agreement or other financing document relating to a Funding Obligation.~~

"Finance Reserve Deposits" means, for a Reference Period, the amount by which (a) deposits made or to be made during the Reference Period in order to pre-fund, collateralize, over-collateralize or establish reserves for the ultimate payment of Funding Obligations or for related contingencies specified in the Financing Plan, exceed (b) any Finance Reserve Withdrawals.

"Finance Reserve Withdrawals" means, for a Reference Period, the amount withdrawn during the Reference Period from deposits previously made to pre-fund, collateralize, over-collateralize or establish reserves for the payment of Funding Obligations or to pay amounts in respect of related contingencies that had been specified in the Financing Plan.

"Financial Services Agent" means OPG or, following any Replacement Event, such other person or persons who may be appointed as the Financial Services Agent of the

Absolute Assignees under the Financing Plan in compliance with the requirements set out in Schedule 2.[5]

"Financing Entity" means an entity established in accordance with the Financing Plan to acquire all or an interest in the Regulatory Asset as an Absolute Assignee and to enter into Funding Obligations to finance such acquisition.[8] under the Financing Plan.[6]

"Financing Plan" means the written plan [prepared by the Administrative Agent]Financial Services Agent on behalf of each Absolute Assignee in compliance with Article 89 to set forth the basis upon which, among other things: (a) any Disposition may be made to, financed by or effected by an Absolute Assignee; (b) any Funding Obligations may be incurred in order to fund a Funding Shortfallby an Absolute Assignee, including any Refinancing; (c) any Pledge may be given or effected; (d) any Funding Obligations may be redeemed, prepaid, repurchased, amended or otherwise effected; (e) any obligations for Additional Funding Charges may be incurred and paid; (f) any Repayments, Funding Costs and Redemption Amounts may be paid or provided for; (g) any Finance Reserve Deposits may be made; (h) any Finance Reserve Withdrawals may be made; (i) the establishment and operation of any Financing Entity may be effected; and (ij) the cash flows arising from time to time or otherwise derived from the Regulatory Assetan Investment Interest may otherwise be applied, as the same may be amended, amended and restated or terminated by the Financial Services Agent in compliance with Article 9 from time to time.

"Funding Costs" means, for a Reference Period in respect of an Absolute Assignee, the amount by which (a) the aggregate of all interest and other periodic finance charges accruing due and becoming payable or paid by or on behalf of the Regulatory Asset OwnerAbsolute Assignee during the Reference Period in respect of allits Funding Obligations, including any standby commitment fees or charges paid to any lender, credit enhancement fees or charges paid to any credit enhancer, liquidity fees or charges paid to any liquidity provider, amounts (including any termination payments) paid under derivatives and any deposit amount made or required to fund or replenish a debt service reserve account or other account established under any indenture, ancillary agreement or other financing document relating to aits Funding ObligationObligations, exceeds (b) the aggregate of all Finance Receiptsamounts received by or on behalf of the Absolute Assignee during the Reference Period in respect of a Funding Obligation, including from any reimbursement of standby commitment fees or charges paid by a lender, any reimbursement of credit enhancement fees or charges paid by any credit enhancer, any reimbursement of liquidity fees or charges paid by any liquidity provider, any amounts (including any termination payments) paid to the Absolute Assignee under derivatives and any Finance Reserve Withdrawal made or required to be made from a debt service reserve account or other account established under any indenture, ancillary agreement or other financing document relating to the payment of the Funding Costs payable in respect of a Funding Obligation for the Reference Period.

[5] Discuss whether to accommodate multiple Financial Services Agents. MOE to consider.

[8] OPG has suggested[6] MOE to confirm that the legislation will provide that any Financing Entity that is a wholly-owned subsidiary of OPG (1) would not be subject to Part VI of the *Electricity Act* (Ontario) and (2) in the case of any Financing Entity that is a trust, any income of such trust (for purposes of the *Income Tax Act* (Canada) or the *Taxation Act, 2007* Ontario)) which is paid or made payable to OPG or a wholly-owned subsidiary of OPG as a beneficiary of such trust will not be taken into account in calculating the amount of a payment required to be made by OPG (or such subsidiary) by section 89 or 90 of the Electricity Act. These raise issues for consideration by the stakeholders.

"Funding Obligation" means, in respect of an Absolute Assignee, each payment obligation (including each obligation to pay: principal, interest, premiums and other financing ~~charges, indebtedness,~~charge payments; pass-through payments; payment obligations arising under or in respect of derivatives~~,~~; payment obligations owing to service providers, ~~administrative agents~~Financial Services Agents, finance entity intermediaries, capital markets intermediaries, advisors, lenders, credit enhancement providers, liquidity providers, disbursement counterparties, regulatory agencies and rating agencies; and all ~~taxes payable in connection with the foregoing)~~Additional Funding Charges incurred by or on behalf of ~~a Regulatory Asset Owner~~the Absolute Assignee under the Financing Plan ~~in order to fund a Funding Shortfall for a Reference Period~~, including any Refinancing of another such payment obligation incurred by or on behalf of such Absolute Assignee.[9]

~~"Funding Shortfall" means, for a Reference Period, (a) the amount, if any, by which (i) the IESO Power Contract Net Payment for the Reference Periods, exceeds (ii) the GA Power Contract Contribution for Reference Period, minus (b) the IESO Applied Surplus for the Reference Period.~~[10]Future Fair Share of Green Transition Benefits" means, in respect of a Measurement Date, the sum of (a) the Over-Assessed Amount; and (b) the Estimated Future Green Transition Benefits, in each case as of the Measurement Date.

~~"GA Power Contract Contribution" means, for a Reference Period, the aggregate of the payments to be made by the applicable Ratepayer Group in respect of the portion of the Global Adjustment [attributable to the Power Contracts] in accordance with the Fair Allocation Plan.~~[11]

"Generator" means a generator of electricity that is subject to ~~[this~~the *Electricity Act*~~]~~[12]~~.~~, *1998*.

"Global Adjustment" ~~means the amount calculated from time to time under [Section • of the *Electricity Act*], which includes among other things an amount determined in respect of the costs associated with the Green Generation Initiative, including amounts attributable to the Power Contracts.~~[13]has the meaning given in Article 1.

"Green Costs Adjustment" has the meaning given in Article 1.

"Green Generation Initiative" ~~[~~has the meaning given in Article ~~1]~~.1.

~~[9] OPG has asked whether this should include IESO finance arrangements.~~

~~[10] Consider whether to simplify by referring to the calculations of GA, with vs. without Fair. The issue would be that Fair is then linked into the GA calculation specifically, rather than to the specific assets that are subject to revised amortization under Fair. The constitutional position requires a clear nexus to the assets. Also, confirm whether RPP forecasting variances are to be included.~~

~~[11] IESO to confirm its ability to allocate a shortfall in a given month between what it receives and what it owes under the GA, in order to calculate (a) existing volume-based variances which are rolled into subsequent month GA and trued-up every 6 months under RPP, (b) existing variances attributable to OREC which are funded by the Province, and (c) new variances attributable to Fair Hydro program.]~~

~~[12] Revise once determine whether this will be a standalone Act or remain part of the *Electricity Act*. "Generator is a defined term in other legislation (OEB Act, Electricity Act) so this should ultimately be a distinct term such as "FH Generator" to avoid confusion.~~

~~[13] Note that if adjustments for Fair Hydro program are to be applied after existing GA adjustments, then this may need a new name (such as "FH Adjustment").~~

"IESO" means the Independent Electricity System Operator created pursuant to ~~[insert].~~Part II of the *Electricity Act, 1998*.

"IESO ~~Applied Surplus~~Available Amount" means, for a Reference Period, the lesser of (a) the amount~~,~~ (if any~~,~~) by which (i) the ~~IESO Power Contract Net Payment~~Maximum Transition Charge Amount for the Reference Period, exceeds (ii) ~~the GA Power Contract Contribution~~Period Finance Amount for the Reference Period, and (b) the IESO ~~Unapplied Surplus on the last day of the immediately preceding Reference Period.~~ Retained Interest Amount as of the [35th] day prior to the first day of a Reference Period plus any IESO Financing Costs that are due and payable and remain unpaid as of the [35th] day prior to the first day of a Reference Period.

"IESO Electricity Distribution Receipts" means, for a month, the sum of all amounts payable by Electricity Distributors to IESO during the month pursuant to section • of the *Electricity Act*.

"IESO Financing Costs" means, for a Reference Period, the financing costs (if any) incurred by IESO pursuant to Section 8(4) in order to finance its ownership of the IESO Retained Interest during the Reference Period.

"IESO Funding Shortfall" means, for a month, the amount, if any, by which (a) the IESO Electricity Distribution Receipts that would be payable to IESO for the month if determined without regard to this Act and without regard to the changes made to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* with respect to the Global Adjustment concurrently with this Act, exceeds (b) the IESO Electricity Distribution Receipts payable to IESO for the month[7]; provided that if the amount of any such shortfall is determined to have been based on incomplete information, variances or estimates that were inaccurate, an adjustment shall be made in determining the amount of any subsequent shortfall for the month in which the inaccuracy is identified.

"IESO ~~Power Contract Net Payment" means, for a Reference Period, the amount by which (a) the sum of amounts payable by IESO to the Generators under all Power Contracts for the Reference Period, exceeds (b) the sum of amounts payable by the Generators to IESO under all Power Contracts for the Reference Period.~~Recovery" means each amount remitted to IESO (including by IESO retaining such amount) in respect of the IESO Retained Interest pursuant to Section 5(6)(b), and "IESO Recoveries" means, collectively, all such amounts received by IESO.

~~"IESO Power Contract Net Receipt" means, for a Reference Period, the amount by which (a) the sum of amounts payable by the Generators to IESO under all Power Contracts for the Reference Period, exceeds (b) the sum of amounts payable by IESO to the Generators under all Power Contracts for the Reference Period.~~

"IESO Remittances" means, for a Settlement Date, all Electricity Distributor Remittances received by IESO or if applicable the Alternative Collection Agent prior to the Settlement Date and that have not otherwise been remitted to the Regulatory Asset Owners (each with respect to its Regulatory Asset) in accordance with Section 5(6), including the proceeds of any enforcement action undertaken by IESO or if applicable the Alternative

[7] This has been recast to recognize that the shortfall in the first 4.5 years could exceed the entire GA amount. A more refined approach to describing the concept may be considered.

Collection Agent to recover payment of amounts payable by Electricity Distributors to IESO in accordance with Article 5.

"IESO ~~Successor" means the entity appointed by the Province to succeed to the rights and obligations of IESO as the entity responsible for [managing the Province's power system].~~Retained Interest" means IESO's right, title and ownership interest (if any) in, to and under the Regulatory Asset, which shall exclude each Investment Interest.

"IESO Retained Interest Amount" means, on a day, (a) the sum of all IESO Funding Shortfalls incurred prior to the day, plus (b) the sum of all IESO Funding Costs incurred prior to the day in accordance with Section 8(4), minus (c) the net proceeds received by IESO from or on behalf of each Absolute Assignee as consideration for the Disposition of each Investment Interest paid to IESO by or on behalf of such Absolute Assignee prior to the day, and minus (d) the IESO Recoveries received by IESO prior to the day.

"IESO Successor" means the entity appointed by the Province to succeed to the rights and obligations of IESO as the entity responsible for managing the Province's electricity system.

"Investment Interest" means an ownership interest in, to or under the Regulatory Asset that is acquired by an Absolute Assignee pursuant to a Disposition, which ownership interest may include (without limitation) ownership of a specified portion on a divided basis of the assets comprising the Regulatory Asset and ownership of an undivided ownership interest in the Regulatory Asset, in each case as may be described in the applicable Disposition Document.

"Investment Remittance" means, for a month, the lesser of (a) the aggregate amount of all IESO Remittances for the month, and (b) the sum of the Finance Amounts due and payable by all Absolute Assignees in respect of the month.

"Maximum IESO Recovery" means, for a month, the amount (if any) by which (a) the IESO Remittances for the month, exceed (b) the sum of all Finance Amounts that are due and payable by Absolute Assignees in respect of the month.

"Maximum Transition Charge Amount" means, for a Reference Period, (a) the aggregate amount of Future Fair Share of Green Transition Benefits that are allocable to the applicable Retail Consumer Group in accordance with the Fair Allocation Plan, divided by (b) the applicable Reference Period Length.

"Measurement Date" means [Insert relevant date around the Legislation Implementation Date] and any other date specified as such under the Fair Allocation Plan.

"OEB" means the Ontario Energy Board, together with its successors.

"OPG" means the corporation incorporated as Ontario Power Generation Inc. under the *Business Corporations Act* on December 1, 1998, together with its successors.

~~"IESO Unapplied Surplus" means, at a particular time, the amount, if any, by which (a) the sum of (i) all IESO Power Contract Net Receipts for Reference Periods occurring prior to the time, and (ii) all GA Power Contract Contributions for Reference Periods occurring prior to the time, exceeds (b) the sum of (i) all IESO Power Contract Net~~

~~Payments for Reference Periods occurring prior to the time, and (ii) all IESO Applied Surpluses for Reference Periods occurring prior to the time.~~ Over-Assessed Amount" means, in respect of a Measurement Date, the amount (if any) by which (a) the Assessed Past Green Transition Costs, exceeds (b) the Estimated Past Green Transition Benefits, each as determined as of the Measurement Date.

"Period ~~Transition Charge~~Finance Charges" means, for a Reference Period, the sum of (a) the Estimate of the Finance Amount and (b) the True-Up Amount in respect of the immediately preceding Reference Period.

"Period Transition Charges" means, for a Reference Period, the sum of (a) the Period Finance Charges for the Reference Period and (b) the IESO Available Amount for the Reference Period.

"Pledge" means, in respect of an Investment Interest of an Absolute Assignee, a lien, mortgage, charge or security interest granted to or in favour of a Pledgee by ~~a Regulatory Asset Owner~~the Absolute Assignee in, to and over all or a specified portion (including a specified portion on a divided basis or by way of an undivided interest) of the ~~Regulatory Asset~~Investment Interest.

"Pledgee" means a person to whom ~~a Regulatory Asset Owner~~an Absolute Assignee grants a Pledge.

~~"Power Contracts" means long-term power contracts entered into by IESO with certain Generators, under which IESO has agreed to pay such Generators amounts, determined in respect of quantities of electricity over specified periods, to the extent that applicable market prices for such quantities of electricity during a specified period are less than specified reference prices for such quantities of electricity, and, correspondingly, Generators have agreed to pay IESO amounts if the market prices for such quantities exceed the applicable reference prices for such quantities.~~[14]Program End Date" means •, [2047].

"Province" means the Province of Ontario.

~~"Ratepayer" means present and future [retail] consumers of electricity [in the Province] who are [RPP][or OREC-eligible] consumers, which shall include all such retail consumers who are connected, directly or indirectly and whether a customer of an Electricity Distributor or not, to the transmission and distribution system assets located in the Province and who are taking electric delivery service within the Province, whether or not such retail consumers produce their own electricity or purchase electric generation services from a provider of electric generation services other than the owner of the Province's transmission and distribution system assets and whether or not the transmission and distribution system assets continue to be owned or operated by Electricity Distributors or operated by IESO.~~[15]

~~[14] Consider expanding to include PPAs that are not contracts for differences. Should this contemplate the possibility of additional or amended power contracts?~~

~~[15] Need to describe consumers in a fashion that is broad and not weakened by a bypass risk. Consider terminology to align with the description of the eligible customer class provided by the Ministry, e.g., same as OREC-eligible consumers except for consumers served by Independent Power Authorities (who do not pay GA). Also, consider use of the word "retail", to avoid limiting to customers of retailers and confirm removal of reference to transmission-connected customers.~~

~~"Ratepayer Group" means, in relation to a Reference Period, the Ratepayers who receive Electricity Invoices[16] during the Reference Period.~~

"Redemption Amount" means the amount payable by or on behalf of ~~a Regulatory Asset Owner~~an Absolute Assignee to redeem, prepay or repurchase a Funding Obligation incurred by or on behalf of the Absolute Assignee, including any premium, make-whole or other additional amount becoming payable under the Funding Obligation to give effect to such redemption, prepayment or repurchase.

"Reference Period" means (a) the period from (and including) the ~~[Legislation Implementation~~Measurement Date~~]~~ to (and including) June 30, 2017, (b) each six month period commencing [May 1st and November 1st] thereafter and (c) any other period specified as such in the Fair Allocation Plan.

"Reference Period Length" means, for a Reference Period, the number of months in the Reference Period.

"Refinancing" means ~~that a~~, in respect of a Funding Obligation incurred by or on behalf of an Absolute Assignee, that the Funding Obligation is repaid or repurchased for cancellation by or on behalf of ~~a Regulatory Asset Owner~~the Absolute Assignee by applying the net proceeds obtained by the ~~Regulatory Asset Owner~~Absolute Assignee incurring one or more other Funding Obligations.

"Regulatory Asset" means the property ~~right~~rights and ~~interest~~interests described in Section 6(1), ~~or if the context requires, a specified portion or undivided interest in such property right and interest that is described in the applicable Disposition Document~~which collectively is comprised of the IESO Retained Interest and each Investment Interest.

"Regulatory Asset Account" means (a) for an Electricity Distributor, any bank account into which the Electricity Distributor deposits or receives Transition Charge Collections; (b) for the Servicer, any bank account into which ~~the Servicer~~IESO deposits or receives Transition Charges, Electricity Distributor Remittances or IESO Remittances; and (c) if applicable, for the Alternative Collection Agent, any bank account into which the Alternative Collection Agent deposits or receives Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances.

"Regulatory Asset Owner" means each of (a) IESO, as owner of (and to the extent ~~that it has retained any ownership interest in, to or under the Regulatory Asset~~of) the IESO Retained Interest and (b) each Absolute Assignee, ~~to the extent that it has acquired and owns any ownership interest (including a specified portion on a divided basis or by way of an undivided interest) in, to or under the Regulatory Asset~~as owner of its Investment Interest or Investment Interests, and "Regulatory Asset Owners" means collectively ~~all of the Regulatory Asset Owners~~IESO and each such Absolute Assignee, who together own the entirety of the Regulatory Asset and are required to exercise their individual rights of ownership in accordance with Section 6(7). ~~For greater certainty, where one Regulatory Asset Owner owns the entirety of the Regulatory Asset, "Regulatory Asset Owners" refers to this Regulatory Asset Owner.~~

[16] ~~Expand to include eligible consumers who are not customers of Electricity Distributors (e.g., suite-metered customers).~~

~~"Related Generation Assets" means the [facilities, plants and equipment] constructed, acquired or developed in connection with the Green Generation Initiative.~~

"Related Rights" means~~, with respect to a Regulatory Asset Owner's Regulatory Asset,~~ all rights of any kind (whether in tort, contract or otherwise) that attach or are attendant or incidental to any of the other property rights or interests that comprise such Regulatory Asset.

"Remittance Date" means, in respect of an Electricity Distributor, each day on which it is required to remit Electricity Distribution Remittances to IESO or if applicable the Alternative Collection Agent as specified in accordance with any Funding Obligation or, if no such day is specified in ~~relation to~~accordance with any Funding Obligation, then the Business Day preceding each Settlement Date.

"Repayment Obligation" means an obligation to repay, redeem or repurchase, or to provide for the repayment, redemption or repurchase (including by making a related Finance Reserve Deposit) of, all or a portion of the amount advanced to the ~~Regulatory Asset Owner~~Absolute Assignee under a Funding Obligation.

"Repayment" means a payment by ~~a Regulatory Asset Owner~~an Absolute Assignee made to satisfy a Repayment Obligation, other than to the extent that the payment is made by applying the proceeds of a Refinancing or from Finance Reserve Withdrawals.

"Replacement Event" means any event specified as such in a Funding Obligation.

"Retail Consumer" means:

(a) present and future consumers of electricity in the Province who are (i) consumers designated under section 79.16 of[, and O.Reg 95/05 under,] the *Ontario Energy Board Act, 1998*, or (ii) hold or are deemed to hold an "eligible account" under the *Ontario Rebate for Electricity Consumers Act, 2016*, other than any such consumer who has a contract with a Retailer who uses Retailer Consolidated Billing; and

(b) present and future Retailers who use Retailer Consolidated Billing,

and each case includes all such consumers and Retailers who are connected, directly or indirectly and whether a customer of an Electricity Distributor or not, to the transmission and distribution system assets located in the Province and who are taking electric delivery service within the Province, whether or not such retail consumers produce their own electricity or purchase electric generation services from a provider of electric generation services other than the owner of the Province's transmission and distribution system assets and whether or not the transmission and distribution system assets continue to be owned or operated by Electricity Distributors or operated by IESO.

"Retail Consumer Group" means, in relation to a Reference Period, the Retail Consumers who receive Electricity Invoices during the Reference Period.

"Retailer" means a person who is licensed under Part V of the *Ontario Energy Board Act, 1998* to retail electricity.

"Retailer Consolidated Billing" has the same meaning as in the *Retail Settlement Code* issued by the Ontario Energy Board.

"Service Area" means, in respect of an Electricity Distributor, the geographic area or region in which it is licensed to distribute electricity in accordance with ~~[this~~the *Electricity Act*[17]~~]~~, *1998*.

"Servicer" means ~~[To be determined]~~IESO or IESO Successor, as agent for and on behalf of the Regulatory Asset ~~Owner [To be determined – collective invoicing agent, and consider expanding].~~Owners, for the purposes set forth in Article 4.

"Settlement Date" means the [last Business Day of any month].

"Transition Charge" means, for a ~~Ratepayer~~Retail Consumer in respect of a Reference Period, ~~the sum of~~ (a) ~~[one sixth] of~~ the Period Transition Charge, (b) multiplied by its Allocation Factor ~~and (b) any Bypass Charge charged to the Ratepayer~~ in respect of the Reference Period, divided by (c) the applicable Reference Period Length.

"Transition Charge Collection" means any amount received or deemed by this ~~Part~~Act to have been received upon the collection of a Transition Charge paid by or on behalf of a ~~Ratepayer~~Retail Consumer, including any proceeds arising from the exercise and enforcement of any related rights and interests under or in respect of the Regulatory Asset.

"True-Up Amount" means, in respect of a Reference Period, the amount (which may be a negative amount) calculated by the ~~Administrative~~Financial Services Agent equal to (a) the Estimate of the Finance Amount for the related True-Up Period, minus (b) the Actual Finance Amount for such related True-Up Period, plus (c) the Collected Amount Adjustment for such related True-Up Period.

"True-Up Period" means, in relation to a Reference Period, the period from and including the [30th] day immediately preceding the first day of the Reference Period, to but excluding the [30th] day immediately preceding the last day of the Reference Period.

"Undertaking of the Lieutenant Governor in Council" means the undertaking of the Lieutenant Governor in Council given under Section ~~10~~11(2).

~~"Unrecovered Transition Costs" means the [unrecovered][unamortized] costs incurred in connection with the creation, adoption and implementation of the Green Generation Initiative, including any negative value of the Power Contracts and [other].~~[18]

Article 3 – Transition Charges

(1) **~~Ratepayer~~Retail Consumer Obligation to Pay a Transition Charge** – Each ~~Ratepayer~~Retail Consumer shall pay each Transition Charge charged to it in any Electricity Invoice issued to such ~~Ratepayer~~Retail Consumer by its Electricity Distributor or by an Alternative Servicer under Section 4(1), in each case on the terms of payment specified in the related Electricity Invoice.

~~[17] Revise once determine whether this will be a standalone Act or remain part of the *Electricity Act*.~~
~~[18] Note that this is the term that describes the "asset" that we are amortizing over a longer period of time.~~

(2) **Indebtedness of ~~Ratepayers~~Retail Consumers** – Until paid, a Transition Charge charged to a ~~Ratepayer~~Retail Consumer in an Electricity Invoice shall, together with any applicable late payment fees and finance charges arising under the terms of the Electricity Invoice with respect to such Transition Charge, constitute non-bypassable indebtedness of the ~~Ratepayer~~Retail Consumer to the Regulatory Asset Owners, ~~(~~each with respect to its respective interest in the Regulatory Asset~~)~~. Such indebtedness shall constitute a single and separate[8] debt obligation owing by the ~~Ratepayer~~Retail Consumer, which subject to Article 5 may be enforced independently from any other payment obligation or indebtedness owing by the ~~Ratepayer~~Retail Consumer under the Electricity Invoice or otherwise.~~[19]~~[9]

(3) **No Set-Off or Reduction** – A ~~Ratepayer~~Retail Consumer may not set-off or reduce (by counterclaim, defense or otherwise) the amount payable by it in respect of any Transition Charge, including any set-off against or in respect of any amount owing or becoming payable to such ~~Ratepayer~~Retail Consumer by its Electricity Distributor, any Regulatory Asset Owner or any other person.

(4) **Allocation of ~~Ratepayer~~Retail Consumer Payments** – If an Electricity Distributor receives a payment made by or on behalf of a ~~Ratepayer~~Retail Consumer in respect of amounts due and payable under one or more Electricity Invoices that is less than the total amount payable thereunder, such payment shall be allocated on a *pro rata* basis to the payment of related Transition Charges and other invoiced amounts and the amount so allocated as a payment of related Transition Charges shall be deemed to constitute a Transition Charge Collection.

(5) **Transition Charges are Irrevocable** – The Transition Charges arising under or in respect of Funding Obligations incurred under the Financing Plan (including any adjustments based on modifications to such Funding Obligations made in compliance with the Financing Plan or as a result of amendments to the Financing Plan made in accordance with Section ~~8~~9(3)) are deemed to be irrevocable, final and effective without any further action, ~~in~~except to the ~~absence~~extent of manifest calculation error. For greater certainty, a Transition Charge may include Finance Amounts for a Reference Period whether or not the payment of such Finance Amounts are inconsistent with the Fair Allocation Plan applicable at the time such payments are due and payable, whether or not the related Funding Obligation was properly incurred under the Financing Plan. In no case shall a Funding Obligation incurred under the Financing Plan be affected by a subsequent amendment to the Fair Allocation Plan.

[8] Determine if this is critical for rating and markets. Logistics under consideration.

~~[19] Torys suggests that we not create a debtor/creditor relationship between ratepayers and regulatory asset owners. Instead, ratepayers would only have relationships with electricity distributors and the Fair program would rely on consumers paying distributors and distributors to collecting those amounts and remitting them to IESO. The current draft goes further to bridge the investors more directly with ratepayers. There are differences in the approaches, including reliance from a credit perspective on the LDCs (rather than an ability to replace the individual LDCs with the investors choice). This depends on the credit analysis, and comfort that a later requirement will not be accommodated without a change in the legislation.~~[9] Torys has also suggested that deemed conditions of licenses for distributors, retailers and unit sub-metering providers, could be included as conditions, to require them to collect and remit amounts in accordance with this legislation. ~~Consideration should be given to whether that achieves the same direct relationship and whether the effectiveness of the current regulatory licensing regime should be suggested as the basis~~Consider if it is helpful to integrate the existing regulatory scheme for ~~a market based credit decision.~~invoicing and collections (regarding RPP) in the legislation.

~~(6)~~ ~~**[Anti-avoidance; No-by-pass** – Transition Charges charged to a Ratepayer in respect of any Finance Amount incurred under with the Financing Plan applicable at the time the related Funding Obligation was incurred may not be avoided and shall be [non-by-passable].]~~

Article 4 – Invoicing of Transition Charges[20]

(1) **Inclusion of Transition Charges in Electricity Invoices** – Each Electricity Distributor and if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, specify the Transition Charge to be charged to a ~~Ratepayer~~Retail Consumer pursuant to Section 4(4) in respect of a related Reference Period in each Electricity Invoice issued by the Electricity Distributor or if applicable by the Alternative Servicer to the ~~Ratepayer~~Retail Consumer in respect of such Reference Period. Upon the inclusion of a Transition Charge in an Electricity Invoice, the obligation to pay such amount shall be binding on the applicable ~~Ratepayer~~Retail Consumer.

(2) **Calculation of the Period Transition Charge** – Not later than [35] days prior to the first day of a Reference Period, each ~~Regulatory Asset Owner~~Absolute Assignee (or the ~~Administrative~~Financial Services Agent on its behalf) shall provide the ~~Servicer~~OEB with written notice of each Estimate of a Finance Amount payable by it or on its behalf in respect of the Reference Period. [35] days prior to the first day of a Reference Period, IESO or Successor IESO if applicable shall specify the IESO Retained Interest Amount and any IESO Financing Costs that are due and payable and remain unpaid on such day. Not later than one month prior to the first day of a Reference Period, the ~~Servicer or if applicable the Alternative Servicer~~[21]OEB shall calculate the Period Transition Charge applicable to the Reference Period based on the calculations and information set forth in such written notices received from the ~~Regulatory Asset Owners, which~~Absolute Assignees and based on such amounts specified by IESO or Successor IESO, which calculations, information and amounts shall be determinative ~~in~~, except to the ~~absence~~extent of manifest calculation error or misstatement.

(3) **Calculation and Attribution of Transition Charges** – Not later than 25 days prior to the first day of a Reference Period, the ~~Servicer or if applicable the Alternative Servicer~~OEB shall apply the Attribution Methodology to determine the Allocation Factor for each ~~Ratepayer~~Retail Consumer of the applicable ~~Ratepayer~~Retail Consumer Group.

(4) **Notice of Transition Charges** – Not later than 20 days prior to the first day of a Reference Period, the ~~Servicer or if applicable the Alternative Servicer~~OEB shall inform each Electricity Distributor and if applicable any Alternative Servicer of the Transition Charges to be specified in the Electricity Invoices to be issued to each ~~Ratepayer~~Retail Consumer of the applicable ~~Ratepayer~~Retail Consumer Group who has a billing address in the Electricity Distributor's Service Area.

(5) **Adjustments** – The amount of any Transition Charge charged to a ~~Ratepayer by the Servicer~~Retail Consumer and specified as such in an Electricity Invoice shall be

~~[20] Details concerning Invoicing of Transition Charges (Article 4) and Collections and Remittances (Article 5) are complex. Consider how much of this can be addressed through regulations, or if acceptable based on existing OEB license conditions/codes, IESO market rules/manuals, etc.~~

~~[21] Should this be a designated government official, rather than an agent appointed by investors?~~

determinative of the amount of indebtedness created thereby and owing in respect of such Transition Charge, ~~in~~except to the ~~absence~~extent of any manifest calculation error.

(6) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 4 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 4 to impose, attribute, charge, bill and invoice the Transition Charges.

(7) **IESO Successor** – Any IESO Successor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of IESO under Article 4 in the same manner and to the same extent as IESO, including the obligation to calculate and provide notice of Transition Charges.

(8) **Appointment of an Alternative Servicer** – If a Replacement Event occurs in respect of any Electricity Distributor, the ~~Regulatory Asset Owners~~Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Servicer to perform some or all of the obligations and duties required to be undertaken by such Electricity Distributor under this Article 4, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Servicer shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor. Any Electricity Distributor that is replaced under this Section 4(8) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in the performance of such obligations and duties to the Alternative Servicer and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Servicer to perform such obligations and duties on behalf of the Regulatory Asset Owners.

(9) ~~**Regulatory Asset Owners**~~**Absolute Assignees have Standing** – The ~~Regulatory Asset Owners~~Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, the Servicer, Alternative Servicer or any other person who may be authorized to issue Electricity Invoices to ~~Ratepayers~~Retail Consumers for a failure to impose, attribute, charge, bill or invoice Transition Charges. Any court of the Province ~~[and the OEB]~~ shall have jurisdiction over any actions brought before it by the ~~Regulatory Asset Owners~~Absolute Assignees in relation to any such failure.[22]

(10) **No Set-Off or Reduction –** No Servicer or Electricity Distributor may set off or reduce (by counterclaim, defence or otherwise) the amount payable by it pursuant to this Article 4.

(11) **Regulations** – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor~~,~~ or any Alternative Servicer ~~or any [Alternative Collection Agent]~~ to ensure that Transition Charges are properly charged to ~~Ratepayers~~Retail Consumers and specified as such in Electricity Invoices.

[22] ~~Consider having such matters first go through the OEB, particularly if the obligation to bill, collect or remit is deemed to be a condition of license for distributors, IESO, retailers and unit sub-metering providers, which would be enforceable provisions under the OEB Act and within OEB jurisdiction to enforce.~~

Article 5 – Collections and Remittances

(1) **Duty to Collect as Agent** – Electricity Distributors or if applicable any Alternative Collection Agent shall, as an agent of the Regulatory Asset Owners, undertake [diligent][reasonable][10] efforts~~]~~ to collect amounts owing by ~~Ratepayers~~Retail Consumers in respect of Transition Charges charged to such ~~Ratepayers~~Retail Consumers in Electricity Invoices issued by the Electricity Distributor or if applicable such Alternative Collection Agent.

(2) **Segregation of Transition Charge Collections** – An Electricity Distributor or if applicable any Alternative Collection Agent shall promptly segregate Transition Charge Collections from other payments received by it from ~~Ratepayers~~Retail Consumers and deposit such Transition Charge Collections into its Regulatory Asset Account.[11] Prior to and following a deposit of Transition Charge Collections having been made into its Regulatory Asset Account, the Electricity Distributor or if applicable any Alternative Collection Agent shall hold such amounts in trust for ~~each~~the Regulatory Asset ~~Owner~~Owners.

(3) **Electricity Distributor Remittances** – On each ~~[~~applicable Remittance Date~~]~~, an Electricity Distributor shall remit all Transition Charge Collections received by it from ~~Ratepayers~~Retail Consumers in respect of the related Reference Period to or to the account of IESO or if applicable the Alternative Collection Agent.

(4) **Duty to Collect Electricity Distributor Remittances** – IESO or if applicable any Alternative Collection Agent shall, as an agent of the Regulatory Asset Owners, undertake [diligent][reasonable] efforts to accept and collect Electricity Distributor Remittances from Electricity Distributors and Transition Charge Collections from ~~Ratepayers~~Retail Consumers that pay their Electricity Invoices directly to ~~the Servicer.~~[23]IESO.[12]

(5) **Segregation of Electricity Distributor Remittances** – IESO and if applicable the Alternative Collection Agent shall ~~[~~promptly~~]~~ segregate Electricity Distributor Remittances from other payments received or held by it and deposit such Electricity Distributor Remittances into its Regulatory Asset Account. Prior to and following a deposit of Electricity Distributor Remittances having been made into its Regulatory Asset Account, IESO or if applicable any Alternative Collection Agent shall hold such amounts in trust for ~~each~~the Regulatory Asset ~~Owner~~Owners.

(6) **IESO Remittances** – On each ~~[~~Settlement Date~~]~~[24][13], IESO and if applicable the Alternative Collection Agent shall remit all amounts on deposit in its Regulatory Asset Account (a) first, to or to the account of the ~~Regulatory Asset Owner~~Absolute Assignees an amount equal to the Investment Remittance for the related month and (b) second, to IESO (including by IESO retaining such amount) an amount equal to the lesser of (i) the Maximum IESO Recovery for the related month and (ii) the IESO Retained Interest Amount as of the Settlement Date.

[10] Mirror collection "standard of care" under applicable legislation.
[11] Consider trying to attach to existing LDC credit enhancements and provide parallel coverage for customer losses.
~~[23]~~[12] Consider building this obligation into a deemed condition of licence for the IESO.
~~[24]~~[13] Consider frequency of remittances in light of rating requirements. US rating agencies favour daily remittances.

(7) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 5 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 5 to collect Transition Charges and make remittances of Electricity Distributor Remittances.

(8) **~~Successors of~~ IESO Successor** – ~~Any successor of~~ IESO Successor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of IESO under Article 5 in the same manner and to the same extent as IESO, including the obligation to collect Transition Charge Collections, Electricity Distributor Remittances and to remit IESO Remittances.

(9) **Owners of Distribution Assets** - If any person other than an Electricity Distributor acquires distribution system assets in the Province or invoices or collects electricity distribution rates in the Province~~25~~14, then such person shall, if requested by the ~~Regulatory Asset Owners~~Absolute Assignees, be obligated to act diligently to (a) facilitate the invoicing and collection of any Transition Charges applicable to ~~Ratepayers~~Retail Consumers in its applicable service area, including all consumers connected to the electricity distribution system assets and taking electric delivery service located within such service area; (b) allocate partial payments by ~~Ratepayers~~Retail Consumers as provided in this ~~Part; (c) terminate service to non-paying Ratepayers on the same basis as termination of service is permitted for non-payment of electricity transmission and distribution rates; (d~~Act; (c) exercise all enforcement rights of the ~~Regulatory Asset Owners or Pledgee~~Absolute Assignees for the benefit of ~~a Regulatory Asset Owner or Pledgee~~an Absolute Assignee; and (~~e~~d) remit any Transition Charge Collections to the ~~Regulatory Asset Owner or Pledgee~~Absolute Assignees or Pledgees, as applicable, each in accordance with its ~~Regulatory Asset~~Investment Interest.

(10) **~~Regulatory Asset Owners~~Absolute Assignees have Standing** – The ~~Regulatory Asset Owners and any Pledgee~~Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, the Alternative ~~Servicer~~Collection Agent, any owner of electricity distribution system assets in the Province or any other person who may be authorized to collect electricity distribution and use charges from ~~Ratepayers~~Retail Consumers for a failure to collect Transition Charges, remit or collect Electricity Distributor Remittances or remit IESO Remittances, as and to the extent applicable under Article 5. Any court of the Province ~~[and the OEB]~~ shall have jurisdiction over any actions brought before it by the ~~Regulatory Asset Owners~~Absolute Assignees in relation to any such failure. ~~26~~

(11) **Appointment of an Alternative Collection Agent** – If a Replacement Event occurs in respect of any Electricity Distributor or IESO, the ~~Regulatory Asset Owners~~Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Collection Agent to perform some or all of the collection, segregation and remittance obligations otherwise required to be undertaken by such Electricity Distributor or IESO, as applicable, under Article 5, as and to the extent specified in such appointment. Upon acceptance of such appointment, the

~~25~~14 This is in anticipation of a possible future restructuring of the distribution system. ~~Also, this would cover any OREC-eligible customer (market participant) of IESO.~~

~~26 Consider having such matters first go through the OEB, particularly if the obligation to bill, collect or remit is deemed to be a condition of license for distributors, IESO, retailers and unit sub-metering providers, which would be enforceable provisions under the OEB Act and within OEB jurisdiction to enforce.~~

Alternative Collection Agent shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor or IESO, as applicable. Any Electricity Distributor or IESO, as applicable, that is replaced under this Section 5(11) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in, to and over the Regulatory Asset, including its Regulatory Asset Account, to the Alternative Collection Agent and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Collection Agent to enforce the Regulatory Asset on behalf of the ~~Regulatory Asset Owners~~Absolute Assignees.

(12) **No Set-off, etc.** - The Regulatory Asset, including rights in Transition Charges, Transition Charge Collections, and the interests of a Regulatory Asset Owner, an Absolute Assignee and a Pledgee therein, may not be setoff or reduced (including by counterclaim, surcharge or defense) by any ~~Ratepayer~~Retail Consumer, any Electricity Distributor, IESO, Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or in connection with any default, bankruptcy, reorganization or other insolvency proceeding of any Electricity Distributor, IESO, Alternative Collection Agent or any owner of distribution system assets in the Province, any affiliate or successor thereof or any other entity or otherwise.~~27~~15

(13) **Sequestration** – If any Electricity Distributor, IESO, the Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or entity authorized to collect Transition Charges, defaults on any required remittance of Transition Charge Collections, Electricity Distribution Remittances or IESO Remittances under Article 5, any court in the Province, upon application by ~~the Regulatory Asset Owners or Pledgee~~and of the Absolute Assignees acting collectively under the Collective Action Agreement and without limiting any other remedies otherwise available to the ~~applying party~~Absolute Assignees or Pledgees, shall order the sequestration and payment of the Transition Charge Collections, Electricity Distribution Remittances and IESO Remittances, as applicable, for the benefit of the ~~Regulatory Asset Owners or Pledgee~~Absolute Assignees, each with respect to its ~~Regulatory Asset.~~ Investment Interest, and the Pledgees as applicable.[16]

(14) Regulations – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Collection Agent to ensure that rights, interests, entitlements, benefits and proceeds in, to, under and from the Regulatory Asset are of fully realized by ~~the Regulatory Asset Owner~~some or all of the Absolute Assignees and Pledgees.

Article 6 – The Regulatory Asset

(1) **Composition** – The Regulatory Asset shall constitute ~~an existing, present~~a current and irrevocable property right and interest consisting, collectively, of the following rights and interests ~~of a Regulatory Asset Owner in the following~~ (without duplication):

~~27~~15 Consider whether it makes sense to create a "deemed collection" payment obligation on Electricity Distributors to the extent a ~~Ratepayer~~Retail Consumer reduces its payment of Transition Charges, despite this language~~, and same~~. Same for Electricity Distributor Remittances and IESO Remittances.

[16] Consider adding or substituting this provision for a right to appoint a receiver.

a. the right of ~~a Regulatory Asset Owner to record its portion of the Regulatory Asset in its accounts~~IESO (i) to record its IESO Retained Interest in its accounts in accordance with Section 8(1), having a stated amount from time to time equal to the IESO Retained Interest Amount; and (ii) to receive IESO Recoveries from time to time in accordance with Section 5(6)(b);

b. the right to impose, bill, invoice, collect and receive Transition Charges from ~~Ratepayers~~Retail Consumers, including the right to determine the amount of Transition Charges in accordance with this ~~Part~~Act;

c. the right to enforce the obligations and indebtedness of each ~~Ratepayer~~Retail Consumer to pay the Transition Charges charged to the ~~Ratepayer~~Retail Consumer from time to time in accordance with Article ~~2~~,3, together with all related late payment fees or interest charges arising in respect thereof under the related Electricity Invoices;

d. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Servicer to impose, attribute, charge, bill and invoice the Transition Charges in accordance with Article 4;

e. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Collection Agent to collect, receive and remit amounts received by it in respect of Transition Charges as Electricity Distributor Remittances to or to the account of IESO or if applicable the Alternative Collection Agent in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article ~~4~~5;

f. the right to enforce the duties and obligations of IESO and if applicable the Alternative Collection Agent to collect and receive Electricity Distributor Remittances and to remit IESO Remittances to or to the accounts of the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset, in each case in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by it to recover payment of Electricity Distributor Remittances in accordance with Article ~~4~~5;

g. the right to receive and collect all Transition Charge Collections, all Electricity Distributor Remittances and all IESO Remittances in accordance with Article 5;

h. all rights and entitlements under each Regulatory Asset Account and all amounts on deposit in any such Regulatory Asset Account;

i. all Related Rights; and

j. all revenue, collections, claims, payments, money and proceeds of or derived from the rights described in (a) through (i), regardless of whether such revenue, collections, claims, payments and proceeds are imposed, invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

A Regulatory Asset and the property rights and interests therein shall exist whether or not Transition Charges have been imposed, charged, invoiced, accrued or collected and notwithstanding that the imposition, attribution, invoicing and collection of Transition Charges will depend on further actions that may not have occurred.

(2) **Validity of Dispositions** – Despite any limitations or restrictions on a Disposition that may arise by contract or by operation of any applicable law of the Province ~~[~~or any consent requirement applicable to a Disposition that may arise by ~~contract or by~~ operation of any applicable law of the Province~~]~~, a Disposition by ~~a Regulatory Asset Owner~~IESO to an Absolute Assignee made under the Financing Plan ~~pursuant to a Disposition Document~~, or by one Absolute Assignee to another Absolute Assignee made under the Financing Plan, shall be permitted and when made shall be valid and enforceable in accordance with ~~its~~the terms of the related Disposition Document and shall be effective to confer upon the Absolute Assignee thereof a valid property right and interest in, to and under the ~~Regulatory Asset~~applicable Investment Interest (or relevant portion thereof) in accordance with the terms of such Disposition, provided that the parties to the applicable Disposition Document have expressly stated therein that such Disposition is a sale or other absolute transfer. Without limiting the foregoing, any Disposition that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as a true sale and absolute transfer of the Regulatory Asset Owner's applicable right, title, and interest in, to and under the Regulatory Asset (or relevant portion thereof), and not merely as a Pledge thereof~~. [A Disposition shall not be subject to recharacterization or challenge on any other basis and the validity of a Disposition shall not be affected or impaired by: (a) the commingling of Transition Charge Collections or other proceeds from Transition Charges with other amounts; (b) the retention of any interest (including any partial, residual or subordinated interest, whether direct or indirect) in the Regulatory Asset by the transferring Regulatory Asset Owner; (c) any right to repurchase the Regulatory Asset in favour of the transferring Regulatory Asset Owner; (d) any recourse that an Absolute Assignee may have against the transferring Regulatory Asset Owner; (e) any indemnification rights or obligations provided by the transferring Regulatory Asset Owner; (f) any obligation of the transferring Regulatory Asset Owner to collect and remit Transition Charge Collections on behalf of an Absolute Assignee, including but not limited to, any retention by the transferring Regulatory Asset Owner to bare legal title for the purpose of collecting Transition Charges; or (g) the ascribed or intended treatment of the Disposition by the transferring Regulatory Asset Owner or the Absolute Assignee on any different basis including for tax, financial reporting or other purposes.]~~[28], and upon such Disposition the assigner or seller under the applicable Disposition Document shall retain no right, title or interest in the Investment Interest subject to the Disposition, including all rights under the Investment Interest arising after such Disposition.

(3) **Perfection and Priority of Dispositions** – Any Disposition of an interest in a Regulatory Asset shall be vested, valid, binding and perfected from the time when such Disposition is made. Such Disposition shall be perfected, vested, valid and binding as against the transferring Regulatory Asset Owner and all other persons who have claims of any kind (whether in tort, contract or otherwise) against the transferring Regulatory Asset Owner, irrespective of whether such persons have notice of the Disposition and the property rights and interests acquired by the Absolute Assignee under such Disposition shall be free and clear of any liens in favour of such other persons.

~~[28] Consider if helpful to investors, or delete.~~

(4) **Validity of Pledges** – Despite any limitations or restriction on a Pledge that may arise by contract or by operation of any applicable law of the Province ~~[~~or any consent requirement applicable to a Pledge that may arise by ~~contract or by~~ operation of any applicable law of the Province~~]~~, a Pledge by ~~a Regulatory Asset Owner~~an Absolute Assignee may be made to secure any related Funding Obligation and when made shall be valid and enforceable in accordance with its terms and shall be effective to confer upon the Pledgee a valid security interest in, to and in respect of the ~~Regulatory Asset~~related Investment Interest in accordance with the terms of the Pledge. Other than as required by the Financing Plan, no consent of any person shall be required to give effect to a Pledge made to secure any Funding Obligation.

(5) **Perfection and Priority of Pledges** - ~~Any Pledge made by a~~For purposes of the *Personal Property Security Act* (the "PPSA"), the Regulatory Asset ~~Owner~~shall be intangible personal property and any Pledge made by an Absolute Assignee in respect of a Funding Obligation ~~incurred under the Financing Plan shall be perfected, valid and binding from the time when the Pledge is made and shall be valid and binding as against the Regulatory Asset, the Regulatory Asset Owner making the Pledge and all other persons who have claims of any kind (whether in tort, contract or otherwise) against the Regulatory Asset or the pledging Regulatory Asset Owner, irrespective of whether such persons have notice of the Pledge and the security interests of the Pledgee under such Pledge shall have priority over any liens in favour of such other persons. All proceeds of the Regulatory Asset~~may be perfected by filing a financing statement under the PPSA on that basis. All proceeds of a related Investment Interest that are subject to such a Pledge that are received by the ~~Regulatory Asset Owner~~Absolute Assignee shall immediately be subject to the such Pledge, and the security interest in such proceeds shall be perfected~~, without any physical delivery thereof, registration of any financing statement with respect thereto~~ pursuant to the ~~[~~PPSA~~]~~ ~~or any other further act.~~[29].[17] A Pledge perfected under the PPSA shall be a continuously perfected security interest and shall have priority over any other lien or security interest, created by operation of law or otherwise, that may ~~subsequently~~ attach to the property rights and interests in the ~~Regulatory Asset~~Investment Interest subject to the Pledge unless the Pledgee has otherwise agreed in writing. ~~Any~~Subject to the terms of the Collective Action Agreement, a Pledgee shall have a perfected security interest in a related Investment Interest, including the Absolute Assignee's rights and interests in and to Transition Charge Collections or other related proceeds in respect of the Investment Interest and that are deposited in any Regulatory Asset Account or other account of any Electricity Distributor, IESO, Alternative Collection Agent or other person who may have commingled such Transition Charge Collections or such other proceeds with other funds. ~~[A Pledgee~~All provisions of the PPSA shall ~~cause a financing statement to be filed in respect of a Pledge on the basis that~~apply to the Regulatory Asset on the basis that it is ~~"~~intangible~~"~~ personal property, ~~for informational purposes only under the [PPSA].~~except to the extent otherwise provided in this Section 6(5).

(6) **Enforcement of Property Rights** – The rights of any Regulatory Asset Owner to collect and enforce its rights and interests in, to or in respect of the Regulatory Asset shall be exercised in the manner set forth in Article 5.

(7) **Owners of a Specified Portion of the Regulatory Asset** – A Regulatory Asset Owner may effect a Disposition to an Absolute Assignee of a specified portion of its rights and

~~29~~17 Consider whether to simply leave this and have a financing statement be filed under the PPSA. This would normalize the security interest and reduce any adverse suggestion that security would not otherwise arise.

interests in the Regulatory Asset, including by way of a Disposition of a divided or an undivided interest therein as specified in a related Disposition Document, in each case under the Financing Plan. In no circumstance may the specified portions of the rights and interests in the Regulatory Asset owned by all Regulatory Asset Owners be greater than all of the rights and interests that comprise the Regulatory Asset in the aggregate.

(8) **Collective Action Required** – If a Regulatory Asset Owner's ~~right~~rights and ~~interest~~interests in the Regulatory Asset comprises less than the entire property right and interest constituted by the Regulatory Asset, such Regulatory Asset Owner shall only enforce such right and interest on a collective ~~[~~and ~~joint]~~coordinated basis with each other Regulatory Asset Owner in accordance with the Collective Rights Agreement.[30]

Article 7 – Establishment of the Fair Allocation Plan[31][18]

(1) Adoption of the Fair Allocation Plan – The ~~[Minister of Energy]~~[32]Delegate may , [by written ~~order~~declaration,] designate and adopt a Fair Allocation Plan in compliance with Article 7. The Fair Allocation Plan so designated and adopted shall be the Fair Allocation Plan for all purposes of this ~~Part~~Act, ~~[~~except if amended, amended and restated or terminated by a further written ~~order issued~~declaration made by the ~~Minister of Energy~~Delegate in compliance with Section ~~•]~~7(4).

(2) Principles and Parameters[33] – A Fair Allocation Plan shall seek to allocate ~~Unrecovered~~Future Fair Share of Green Transition ~~Costs~~Benefits across present and future ~~Ratepayer~~Retail Consumer Groups on a basis that the ~~Minister of Energy~~Delegate, in its sole and absolute discretion, determines to be equitable, having regard to the following principles and parameters[34]:

1. ~~Unrecovered~~Future Fair Share of Green Transition ~~Costs~~Benefits should be allocated over ~~a period not to exceed the later of (a) the estimated remaining useful life of the Related Generating Assets and (b) the remaining term of IESO's commitments under the Power Contracts~~the period ending on the Program End Date.

2. The Fair Allocation Plan should specify the Reference Periods ~~(e.g., 6 month periods),~~ for the purpose of identifying applicable ~~Ratepayer~~Retail Consumer Groups and allocating ~~among them responsibility to bear the Unrecovered~~Future Fair Share of Green Transition ~~Costs~~Benefits among them on a relative basis over time.

[30] ~~This is necessary to ensure that if there are multiple regulatory asset owners and pledgees, they will be coordinated in the application of their rights of enforcement, etc.~~

[31][18] The idea is that the Fair Allocation Plan will be set once at the outset based on the principles and parameters described here, all as applied based on information available and the reasonable expectations and discretion of the delegate at such time. If the expectations are not fulfilled (e.g., generators may choose to retire their facilities at the end of their current ~~Power Contracts~~procurement contracts and not invest in extending service lives to secure further ~~power~~procurement contracts), the Fair Allocation Plan will be unaffected, unless it is specifically amended (assuming amendments will be permitted by the legislation).

[32] ~~Input required. If the MOE is given this power, conform to applicable authorities (e.g., plans and directives).~~

[33] ~~Consideration will be given as to whether these details should be included in the Regulation.~~

[34] ~~We have provided a few examples of what could be the basic principles. These will depend on market considerations, the Province's decision on the required amount of detail and the ability to sustain the legal basis for the program. These examples are not meant to suggest the appropriate balance – just illustrative to advance a discussion among the stakeholders.~~

3. The share of ~~Unrecovered~~Future Fair Share of Green Transition ~~Costs~~Benefits allocable to a particular ~~Ratepayer~~Retail Consumer Group in respect of a Reference Period should be proportionate to a reasonable assessment of the benefits of the Green Generation Initiative to the ~~Ratepayer~~Retail Consumer Group over such Reference Period.

4. The ~~estimated Unrecovered~~share of Future Fair Share of Green Transition ~~Costs~~Benefits to be allocated to a ~~Ratepayer~~Retail Consumer Group and any future ~~Ratepayer~~Retail Consumer Group at a particular time should not exceed the ~~estimated value of the Related Generating Assets based on their remaining useful lives or terms~~Estimated Future Green Transition Benefits, measured in respect of the ~~period~~Reference Periods following such particular time and to the Program End Date.

5. No future ~~Ratepayer~~Retail Consumer Group should ~~bear~~be allocated an unreasonably disproportionate share of ~~the Unrecovered~~Estimated Future Green Transition ~~Costs~~Benefits. Except in exceptional circumstances or in the case of any ~~backward-looking adjustment made~~reallocation of an Over-Assessed Amount as contemplated in 7, below, the ~~share of the Unrecovered~~Future Fair Share of Green Transition ~~Costs~~Benefits to be allocated under a Fair Allocation Plan to any future ~~Ratepayer~~Retail Consumer Group should have regard to *[Insert formula if a year-over-year maximum amount is determined to be appropriate]*[35].

6. ~~A reasonable estimate of the rate of inflation~~The time value of money should be ~~applied~~reflected in the Fair Allocation Plan, in order to equate the relative values of the nominal ~~amount of Unrecovered Transition Costs to be allocable to Ratepayer~~allocations of Future Fair Share of Green Transition Benefits, calculated in current dollars, to future Retail Consumer Groups over time.

7. ~~Backward-looking adjustments to a~~To the extent there has been an Over-Assessed Amount, the Fair Allocation Plan may ~~be made to achieve a fair distribution among Ratepayers of the benefits of the Green Generation Initiative.~~determine that an adjustment should fairly be made to rebate Retail Consumers for such an amount, by reducing the costs otherwise attributable under the Act to such Retail Consumers. The relative costs of the Green Generation Initiative are reflected under the Act by the attribution of Transition Charges to such Consumer Groups, based on the Financing Plan seeking to track the allocations of benefits under the Fair Allocation Plan. Accordingly, the Maximum Transition Charge Amount determined for one or more Retail Consumer Groups having regard to the Fair Allocation Plan otherwise applicable may be appropriately reduced to recognize the effect of the Over-Assessed Amount. In such a case, a determination to reduce the Maximum Transition Charge Amount applicable for certain related Reference Periods should have regard to the principle that the corresponding rebate should be extended to benefit the Consumer Group or Consumer Groups in closest proximity to the Legislative Implementation Date.

(3) Attribution Methodology – The Fair Allocation Plan ~~[~~shall~~]~~ specify ~~an objective methodology (~~the "~~Attribution Methodology~~")~~ for the purposes of allocating the Period

~~[35] Consider if a quantitative limit needs to be included in the legislation.~~

Transition Charges across ~~all of~~ the ~~Ratepayers~~Retail Consumers of a particular ~~Ratepayer~~Retail Consumer Group. The Attribution Methodology shall result in an attribution of such Transition Charges that ~~are~~is considered by the ~~Minister of Energy~~Delegate to be equitable, and may have regard to such principles and parameters as may be further set forth in a Regulation.

(4) ~~**[Confirmation][Review] of the Fair Allocation Plan** – [OEB?][36]~~**Amendments of the Fair Allocation Plan** – The Fair Allocation Plan may be amended, amended and restated or terminated by the Delegate, provided that such amendment, amendment and restatement or termination shall (a) not be inconsistent with the principles and parameters set forth in (2) or (3), above, or the Regulation and (b) comply with any restrictions or limitations specified with respect thereto in any Funding Obligation.

Article 8 – The ~~Financing Plan~~[37]IESO Retained Interest

(1) **Maintain Books of Account** – IESO may maintain books of account to record the IESO Retained Interest Amount and all adjustments thereto from time to time. Such books of account shall be determinative with respect to the amount of IESO's related regulatory asset.

(2) **Limitation on Additions** – IESO shall not record additions to the IESO Retained Interest Amount in respect of IESO Funding Shortfalls (a) if such additions are restricted by the terms of any Disposition Document or the Collective Action Agreement, or (b) on or after •, 2017.

(3) **Dispositions** – IESO may effect a Disposition to an Absolute Assignee if (a) the Absolute Assignee has or will concurrently become bound by the Collective Rights Agreement; (b) the Disposition is effected pursuant to a Disposition Agreement duly executed by IESO; (c) the Financial Services Agent confirms in writing that the Disposition is permitted under the Financing Plan; and (d) the net proceeds payable to IESO from the sale of the related Investment Interest would not exceed the IESO Retained Interest Amount immediately before the time of such Disposition.

(4) **No Continuing Interest in any Investment Interest** – IESO shall have no continuing right or interest in any Investment Interest subject to a Disposition effected by IESO under a Disposition Document to which IESO is a party and IESO shall not assert any such right or interest or take or omit to take any action to exercise or enforce its rights or interests under the IESO Retained Interest if such action or omission would impede or obstruct the rights of any Absolute Assignee or a Pledgee to enforce its rights and interests in any Investment Interest, except if IESO is expressly permitted to take or omit to take such action, respectively, under the related Disposition Document or the Collective Rights Agreement.

(5) **IESO Financing Costs** – IESO shall be entitled in good faith to incur reasonable financing costs (including interest and other reasonable financing charges) reflecting

~~[36] Any approvals or consents by the OEB will be obtained before any Funding Obligation that is dependent on such approval or consent is incurred. Any such approval or consent will be irrevocable and non-appealable. Any regulatory action occurring after any incurrence will not affect the related Funding Obligation or underlying rights in the Regulatory Asset.~~

~~[37] Consideration will be given as to whether these details should be included in the Regulation.~~

market terms and conditions and which are payable in arrears, in order to finance its ownership of the IESO Retained Interest from time to time.

(6) **IESO Recoveries** – IESO shall, in respect of a month, be entitled to receive from IESO Remittances on a related Settlement Date the amount (if any) available to IESO under Section 5(6)(b).

Article 9 – The Financing Plan

(1) **Power to Prepare ~~and~~, Implement and Amend the Financing Plan** – ~~In compliance with a [written order][***MOE to confirm process.***] of the Minister of Energy, the Administrative Agent shall~~The Financial Services Agent shall be authorized to prepare, implement and ~~propose~~amend the~~ adoption of a~~ Financing Plan. If the ~~Administrative~~Financial Services Agent is unwilling or unable to prepare and propose the adoption of ~~a~~the Financing Plan, the ~~Minister of Energy~~Delegate may by written ~~order~~declaration designate one or more other persons who shall be authorized to prepare ~~and~~, implement ~~such a~~and amend the Financing Plan.

(2) ~~**Required**~~ **Terms and Conditions of the Financing Plan** – The Financing Plan shall establish the basis for each Absolute Assignee's funding decisions ~~that have the effect of allocating the Unrecovered Transition Costs across present and future Ratepayer Groups on a basis that is consistent with the Fair Allocation Plan~~. The Financing Plan shall ~~be consistent with~~have regard to the principles~~,~~ and parameters~~, requirements and conditions~~ set forth in Schedule 3 and such other conditions and requirements as may be specified in a written ~~order~~declaration of the ~~Minister of Energy [~~Delegate or in accordance with the Regulation~~]~~.

(3) ~~**Power to Review and Approve the Financing Plan** – The Minister of Energy may, by written order, designate one or more persons to review the Financing Plan and to review and assess the consistency of the Funding Obligations incurred with such Financing Plan, and the Minister of Energy may specify requirements in respect of such review in such written order. The Administrative Agent, or such other person(s) as may be designated by written order of the Minister of Energy made pursuant to Section 8(1), shall make any such amendments to the Financing Plan, and submit a revised Financing Plan to the designated reviewer for approval within [the time period specified in such written order]/[[•] days of such written order].[***Consider periodic amendments to the Financing Plan following an annual review; provided that amendments cannot affect the existing Funding Obligations. Consider the level of oversight the MoE/OEB will have over this process?***]~~**OEB Approval** – Any Additional Funding Charge payable to or for the benefit of the Financial Services Agent shall be subject to review and approval by the OEB.

(4) ~~**Approval of Financing Plan –** The **[OEB]** shall have the power to and shall approve or disapprove of the Financing Plan based solely on whether the Financing Plan is consistent with (i) the principles, parameters, requirements and conditions set forth in Schedule 3, (ii) such other conditions and requirements as may be specified in a written order of the Minister of Energy [or in accordance with the Regulation] [and (iii) the Fair Allocation Plan]. If the **[OEB]** approves the Financing Plan, then such Financing Plan shall be implemented by the Administrative Agent. If the OEB disapproves of the Financing Plan or otherwise fails to approve the Financing Plan, then the Administrative Agent shall re-submit the Financing Plan with such amendments as the Administrative~~

Agent shall consider necessary for the Financing Plan to be approved by the OEB.[38] **OEB Review** – The OEB [shall] undertake an annual review of the records maintained by the Financial Services Agent for the purpose of confirming that the Funding Obligations incurred and the Finance Amounts paid by or on behalf of the Absolute Assignees were incurred and paid, respectively, in material conformity with the Financing Plan.

(5) **Consistency with the Fair Allocation Plan** – Funding Obligations should only be incurred if Repayments and Funding Costs would be borne by present and future Designated Ratepayers on a basis that is [generally] consistent with their respective allocations of the costs and benefits of the Green Generation Initiative contemplated in the Fair Allocation Plan. In that regard, at the time of setting the Fair Allocation Plan for any particular period, the aggregate amount payable during future Reference Periods on account of Funding Obligations incurred on or before the date on which a new Funding Obligation is incurred should not exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable Ratepayer Group contemplated in the Fair Allocation Plan. If, despite the foregoing, the Administrative Agent determines that the anticipated amount of any Repayment (together with payments of other Finance Amounts) to be made in respect of a Reference Period would materially exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable Ratepayer Group under the then current Fair Allocation Plan, the Financing Plan shall require the Administrative Agent to make diligent efforts to determine whether a Refinancing or deferral of such Repayment may be reasonably and cost-effectively effected based on then prevailing market terms, conditions an circumstances, if such a Refinancing or deferral is determined to be available the Financing Plan shall require the Administrative Agent to make diligent efforts to implement such Refinancing or deferral on a basis that is consistent with the Fair Allocation Plan.

(5) **(6) Establishment of Special Purpose Entities** – If the implementation of the Financing Plan contemplates the establishment of one or more special purpose finance entities to incur Funding Obligations as a Financing Entity under the Financing Plan, as an Absolute Assignee and on a basis that limits the recourse for the payment of such Funding Obligations to such Absolute Assignee's interest in, to and under the Regulatory Asset, the Administrative Agent shall have regard to the characteristics specified in Schedule 4 in establishing such special purpose entity.]**Replacement of the Administrative Agent** – If the OEB identifies deficiencies or makes recommendations in its review under Section 9(4), the Administrative Agent shall take reasonable measures to remedy such deficiencies if remediable, and shall in any event have regard to the recommendations of the OEB in relation to further actions undertaken by the Financial Services Agent under the Financing Plan. If the Financial Services Agent is unwilling or unable to reflect such recommendations in relation to such further actions, the Delegate may by written declaration designate one or more other persons who shall thereafter become the Financial Services.

(6) **(7) Obligation to Apply IESO Remittances** – The AdministrativeFinancial Services Agent shall ensure that amounts transferred to it under Article 5, as agent for and on behalf of the Regulatory Asset OwnersAbsolute Assignees, or otherwise in respect of or

[38] Once the Financing Plan is reviewed and approved there would be no further OEB review. If there is opportunity for further review, such review will have no impact on prior issued debt. Any further financings would be put on hold until such review is completed (during which time the IESO would again need to fund the shortfall on an interim basis and obtain necessary funding).

as proceeds from ~~the Regulatory Asset~~an applicable Investment Interest shall only be applied or used to pay related Finance Amounts when they are due and payable and for no other purpose.[39]

(7) ~~(8)~~ **Non-Recourse** – The Financing Plan shall be implemented so that Funding Obligations incurred shall be without recourse to or to any assets of the Electricity Distributors, IESO, any Alternative Servicer, ~~and~~any Alternative Collection Agent, the ~~Administrative~~Financial Services Agent, the OEB, the Province or the Lieutenant Governor in Council, other than if and to the extent that such persons or entities are liable for the performance of obligations or duties arising under this ~~Part~~Act or expressly agree to become liable pursuant to any Funding Obligation or obligation in relation to a Finance Amount. [All Funding Obligations shall contain a statement to the following effect: "Neither the full faith and credit nor the taxing power of the Province of Ontario is pledged to the payment of the principal of, or interest on, this [obligation].]

(8) ~~(9)~~ **Incurrences are Binding** – ~~Despite any failure to adhere to the Financing Plan or to comply with any requirement of this Part,~~Notwithstanding anything to the contrary in this Act, each Disposition made to or by an Absolute Assignee and all amounts payable or becoming due and payable by or on behalf of ~~a Regulatory Asset Owner~~an Absolute Assignee under or in connection with any obligation purporting to be a Funding Obligation, shall be binding for the purposes of this ~~Part~~Act, including in determining the amount of related Transition Charges, despite any impairment or defect resulting from such failure.

[Article ~~9~~10 – Compliance Matters[40~~19~~]

(1) **Right of the [OEB] to Inspect Books and Records** - For the purpose of investigating compliance with the provisions of this ~~Part~~Act, the ~~[~~OEB~~]~~ shall have the right, jurisdiction, power and authority to examine the books and records of ~~any person who is or may become obligated or have duties that arise under this Part or any Funding Obligation~~*[Insert names if any]*.

~~(2) **Power to Investigate Compliance and Impose Regulatory Sanctions** - Subject to the limitations set forth regarding the irrevocability of Transition Charges and the Undertaking of the Lieutenant Governor in Council, nothing in this Part shall (a) prevent or preclude the [OEB] from investigating the compliance of any person who is or may become obligated or have duties that arise under this Part [or any Funding Obligation] with the terms and conditions of this Part and requiring compliance by such person therewith; or (b) prevent or preclude the [OEB] or any successor regulator from imposing regulatory sanctions against any person who is or may become obligated or have duties that arise under this Part for its failure to comply with the terms and conditions of this Part[41].~~

(2) ~~(3)~~ **[~~Other Rating~~OPG's Rate Settings** – When setting other rates for or in respect of ~~any person who is or may become obligated or have duties that arise under this Part,~~

[39] ~~We need to work in the idea that there may be Finance Reserve Deposits or other amounts that remain after paying Finance Amounts. Those surplus amounts should be credited back to Ratepayers.~~

[40~~19~~] As noted above, the outcome of any regulatory action undertaken by the OEB will not affect Funding Obligations that have been incurred under the Financing Plan. This Article ~~is~~and any potential role for the Auditor General is still under consideration.

[41] ~~Consider scope of OEB regulation and whether a Financing Entity should be subject to this sort of provision in any event.~~

~~including any Electricity Distributor, IESO, Generator or the Administrative Agent, nothing in this Part shall prevent the [OEB] or any successor regulator from taking~~OPG, the OEB shall not take into account (a) the ~~collection by or attribution to such person of~~ administrative or servicing fees charged by OPG as Financial Services Agent [in excess of the actual incremental costs incurred by such person of providing administrative or servicing services.~~]~~[42]; (b) the cost consequences to OPG of being the Financial Services Agent; or (c) the consequence of OPG consolidating the assets and liabilities of any Financing Entity for OPG's accounting purposes, in each case in setting any regulated payment amounts for OPG.][20]

Article ~~10~~11 – Undertaking of the Lieutenant Governor in Council[43][21]

(1) No Action to limit, alter, or impair or terminate Transition Charges, the Regulatory Asset or Collections – The [Lieutenant Governor in Council] shall not in any way take or permit any action to reduce, impair, postpone or terminate the obligation of ~~Ratepayers~~Retail Consumers to pay Transition Charges or to impair the Regulatory Asset or the collection or recovery of Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances, either directly or indirectly~~[~~, including through the introduction of any bill or the passing of any legislation or regulation~~]~~ having such effect. The amount of Transition Charges determined ~~hereunder~~under this Act shall not be subject in any way to reduction, impairment, postponement or termination as a result of any action taken or failure by the Lieutenant Governor in Council~~[~~, including through the introduction of any bill or the passing of any legislation or regulation~~]~~ having such effect.

(2) Undertaking and Agreement – The [Lieutenant Governor in Council] shall not:

(a) in any way take or permit any action that limits, alters or impairs the value of any Investment Interest;

(b) ~~**(2) Undertaking and Agreement** – The Lieutenant Governor in Council shall not in any way take or permit any action that limits, alters or impairs the value of the Regulatory Asset or,~~ except as required by the estimates and adjustments made in determining the True-up Amount, reduce, alter or impair Transition Charges that are imposed, billed, invoiced, collected and remitted for the benefit of the ~~Regulatory Asset Owners, including any~~ Absolute ~~Assignee from time to time, and~~Assignees or any Pledgee from time to time~~[~~,~~including through the introduction of any bill or the passing of any legislation or regulation~~]~~.;

(c) permit the amendment, amendment and restatement or termination of the Fair Allocation Plan if such amendment , amendment and restatement or termination

[42] ~~OPG has indicated that the risks and cost consequences to OPG of being an~~[20] As an alternative to this provision, consider clarifying under s. 78.1(4) of the OEB Act (which currently gives the OEB discretion in setting payment amounts subject to O. Reg. 53/05) that the OEB in setting OPG payment amounts for prescribed generation shall not consider OPG's role as Administrative Agent ~~or of consolidating a Financing Entity for accounting purposes should not be considered by the OEB in setting the regulated payment amounts for~~of any Financing Entities associated with the Fair Hydro initiative, perhaps with the exception of any operating fees that may be received by OPG for performing that role. ~~To be discussed.]~~

[43] ~~Under consideration~~[21] Under consideration, including the dealers' request for a "servicer guarantee" and a "contractual guarantee" to address a "Change of Law" or if all or a portion of the legislation is *ultra vires*, requiring (at the lenders option), the Province to pay principal and interest on the outstanding debt until maturity or payout the entire debt including any make-wholes.

would adversely affect the validity or enforceability of any Funding Obligation or the rights of an Absolute Assignee or Pledgee thereunder,

in each case including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(3) **Successor IESO** – If IESO is restructured, dissolved or becomes insolvent or is otherwise incapable of performing its obligations under this Act, Successor IESO shall be established to perform such obligations.

(4) ~~[If IESO becomes insolvent or otherwise incapable of performing its obligations under this Part, an IESO Successor will be established that is capable of performing such obligations in order that the Regulatory Asset Owners may appoint the IESO Successor as an Alternative Servicer or Alternative Collection Agent. Regulatory Asset Owners shall be fully~~**Compensation for Failure** – Absolute Assignees shall be compensated for any losses suffered by them as a result of any failure by the Lieutenant Governor in Council to comply with its undertakings and agreements in this Article ~~10(2) for any loss suffered by the Regulatory Asset Owner as a result of such failure.[44]~~11.[22]~~]~~

(5) **No Wind-up of Financing Entity**. No Financing Entity may be voluntarily wound up, liquidated or dissolved until one year after all of its Funding Obligations are repaid.

(6) ~~**(3)**~~ **References to the Undertaking and Agreement** – Any non-confidential reference to the Undertaking of the Lieutenant Governor in Council, including in marketing materials and other documentation authorized for use by the Administrative in connection with any Funding Obligation, may be made provided that [*Add conditions to protect the Province*].

Article ~~11~~12 – Regulations

Regulations may be made under this ~~Part~~Act for the purposes described in Sections •,•,• and • and may be promulgated for any of the following purposes:

(a) to set standards and measures regarding the commercially reasonable requirements of the Province associated with ~~a Regulatory Asset Owner~~an Absolute Assignee incurring Funding Obligations or becoming obligated to pay any Finance Amount, including to establish guidelines regarding all-in funding costs; permitted Additional Funding ~~Costs~~Charges; required maturities and redemption and termination rights of Funding Obligations; liquidity requirements, in each case to a Financing Plan that is consistent in its effect with the Fair Allocation Plan;

(b) to establish and empower one or more regulated entities to undertake decision-making activities with respect to this ~~Part~~Act;

(c) to set out reasonable requirements regarding the appointment or retention of advisors, agents, service providers, contract counterparties, including in relation to 'market terms and conditions' parameters;

[44]22 Requested by Torys. For discussion.

(d) to provide for audit and compliance standards applicable to those persons who are or may become obligated or have duties that arise under this ~~Part~~Act [or under any Funding Obligation];

(e) to provide for any pre-vetting and approval requirements in relation to any incurrence by ~~a Regulatory Asset Owner~~an Absolute Assignee of any Funding Obligation or obligation to pay any Finance Amount; and

(f) to provide for appeal and due process considerations in connection with the establishment, adoption, implementation and review of the Fair Allocation Plan or the Financing Plan.

Article ~~12~~13- Miscellaneous~~45~~23

(1) **Choice of law** – The law governing, as applicable, the validity, enforceability, attachment, perfection, priority and exercise of remedies with respect to the transfer of an interest or right or creation of a security interest in the Regulatory Asset, any Transition Charge or the Undertaking of the Province shall be the laws of the Province.

(2) **Conflict of law** – In the event of conflict between this ~~Part~~Act and any other law of the Province regarding the attachment, assignment or perfection, or the effect of perfection, or priority of any Disposition or Pledge, this ~~Part~~Act shall govern to the extent of the conflict.

(3) **No further acts or approvals required** - Notwithstanding any provisions of any law of the Province to the contrary, no approvals, notices or authorizations other than those specified in this ~~Part~~Act shall be required with respect to the actions to be taken in compliance with this ~~Part~~Act, including under the Financing Plan or in relation to the establishment of the Fair Allocation Plan, and the transactions and contracts authorized in or contemplated by this ~~Part~~Act or the Financing Plan, including the incurrence of any Funding Obligation, any Disposition, any Pledge or in the payment and performance of any attendant or incidental contract and any related expenses incurred to facilitate the preparation and implementation of the Financing Plan.

(4) **Effect of invalidity after the Incurrence of any Funding Obligation** - Effective on the date that a Funding Obligation is incurred under this ~~Part~~Act, if any provision of this ~~Part~~Act is held to be invalid or is invalidated, superseded, replaced, repealed or expires for any reason, that occurrence shall not affect any action allowed under this ~~Part~~Act that is taken by any person who is or may become obligated or have duties that arise under this ~~Part~~Act and any such action shall remain in full force and effect.

(5) **Severability** - If any Article, Section, paragraph or subparagraph of this ~~Part~~Act or the application thereof to any person, circumstance or transaction is held by a court of competent jurisdiction to be unconstitutional or invalid, the unconstitutionality or invalidity shall not affect the constitutionality or validity of any other Article, Section, paragraph or subparagraph of this act or its application or validity to any person, circumstance or transaction, including the irrevocability of Transition Charges, the validity of the Regulatory Asset, the incurrence of any Funding Obligation, any Disposition, any Pledge, or the collection and recovery of Transition Charge Collections. To these ends, the Legislature hereby declares that the provisions of this ~~Part~~Act are intended to be

~~45~~23 OPG would like the specific amendments related to OPG to be included in the Bill.]

severable and that the Legislature would have enacted this ~~Part~~Act even if any Article, Section, paragraph or subparagraph of this ~~Part~~Act held to be unconstitutional or invalid had not been included in this ~~Part~~Act.

Schedule 1

Guidelines for Estimates

[To be considered.]

Schedule 2

Requirements Applicable to Alternative Invoicing Agent/ Alternative Collection Agent

[To be considered.]

Schedule 3[24]

Principles, and Parameters, Requirements and Conditions for Establishing the Financing Plan

The Financing Plan shall have regard to the following principles, and parameters, requirements and conditions:[***Consider others.***] provide a guideline as to what a Financing Plan should address:

(1) the Financing Plan shall, in respect of each Reference Period, describemake reference to the allocations of UnrecoveredFuture Fair Share of Green Transition CostsBenefits to each Reference Group as contemplated by the Fair Allocation Plan;

(2) the Administrative Agent shall make a good faith estimate of theIESO Funding Shortfalls for each Reference Period, based on the terms of the Power Contracts and assumptions considered to be reasonable respecting forward market prices for electricity;

(3) the Administrative Agent shall describeconsider alternative funding arrangements considered to be suitable for the purpose of fundingto fund the estimated IESO Funding Shortfalls, including by reference to short term and/or long term Funding Obligations that could reasonably be incurred by the Regulatory Asset Owners for such purpose;

(9) **(4)** such Funding Obligations shall reflectconsider quantities, maturities, payment obligations, prepayment or redemption rights and such other features of Funding Obligations so that the effect of incurring such Funding Obligations would be that the payments made thereunder in respect of eachfor a Reference Period (including the anticipated Finance Amounts becoming payable in relation to such Funding Obligations) would reasonably correspond to the allocations of UnrecoveredFuture Fair Share of Green Transition CostsBenefits to the applicable Reference Group under the Fair Allocation Plan;

(4) if the anticipated amount of any Repayment (together with payments of other Finance Amounts) to be made in respect of a Reference Period would materially exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable Retail Consumer Group under the then current Fair Allocation Plan, diligent efforts should be made to determine whether a Refinancing or deferral of such Repayment may be reasonably and cost-effectively effected based on then prevailing market terms, conditions an circumstances;

(5) the Financing Plan shall reflect the outcome of a financial model that incorporatesreflect the assumptions and requirements specified in any contemplated Funding Obligation (e.g., any limit on the maximum amount of Transition Charges charged to a hypothetical RatepayerRetail Consumer relative to his or her monthly electricity bill, as prescribed by any rating agency that ascribes its credit rating to or in respect of the Funding Obligation having regard to the application of the Allocation Methodology); [***Consider what outputs from OPG will be tested by the OEB and when. The modelling in the Financing Plan may permit the OEB to check progress against the model from***

[24] Awaiting input from Torys based on OPG mark-up of Financing Plan sections.

~~*time to time, which may provide a basis for the MoE/OEB to require a review/amendment to the Financing Plan if the ongoing operation of the program results in significant deviation from the model. Consider whether this flexibility is desirable.*~~]

(6) ~~the Administrative Agent, for and on behalf of each Regulatory Asset Owner, shall seek to~~ incur Funding Obligations from time to time on the best terms available at such time for a financing transaction of the size and type contemplated, and having regarding to the following parameters:

a. whether the ~~Regulatory Asset Owners~~Absolute Assignees will require committed access to short term liquidity to cover estimated IESO Funding Shortfalls prior to incurring fixed term Funding Obligations, and the amount and repayment terms of any such required liquidity; provided that any Repayment required to be made under the terms of such short-term liquidity would not obligate ~~a Regulatory Asset Owner~~an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of ~~Unrecovered~~Future Fair Share of Green Transition ~~Costs~~Benefits to the applicable Reference Group under the Fair Allocation Plan;

b. the basis upon which the ~~Administrative~~Financial Services Agent will select the term to maturity of any other Funding Obligations; provided that any Repayments required to be made under the terms of such Funding Obligations ~~shall~~should not obligate ~~a Regulatory Asset Owner~~an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of ~~Unrecovered~~Future Fair Share of Green Transition ~~Costs~~Benefits to the applicable Reference Group under the Fair Allocation Plan;

c. the basis upon which the interest rates applicable to such Funding Obligations would be determined;

d. the reference capital or finance market in which such Funding Obligation would be incurred, including markets outside of Canada if considered by the ~~Administrative~~Financial Services Agent to be appropriate in the circumstances;

e. the currency of payments under such Funding Obligations and, if the Funding Obligations are denominated in a currency other than Canadian dollars, the basis upon which the ~~Administrative~~Financial Services Agent shall cause the applicable ~~Regulatory Asset Owner~~Absolute Assignee to enter into hedging transactions to mitigate currency risk, including acceptable minimum and maximum coverage levels, having regard to the availability of related derivatives having notional amounts corresponding to the repayment and maturity profile of such Funding Obligations;

f. the basis upon which the ~~Administrative~~Financial Services Agent will select counterparties under any transaction to be entered into by ~~a Regulatory Asset Owner~~an Absolute Assignee, including any paying agent, servicer, cash manager, liquidity provider, hedge counterparty, account bank, lender, note

trustee, security trustee, paying agent, registrar/transfer agent, financial services agent, arranger or manager;

g. the basis upon which the ~~Administrative~~Financial Services Agent will manage counterparty risk, including by providing for maximum counterparty exposure limits having regard to concentration, credit and other identified risks with respect to individual counterparties or countries;

h. the basis upon which the ~~Administrative~~Financial Services Agent will negotiate and settle Finance Amounts, including the amount of any Redemption Amounts, Finance Reserve Deposits and Additional Funding Charges;

(7) the basis upon which Funding Obligations may be redeemed, prepaid, repurchased or otherwise affected, having regard for the need to minimize debt service charges and other Funding Costs, and the need to maintain a stable funding platform to finance the IESO Funding ~~Shortfall~~Shortfalls from time to time on a basis that is consistent with the allocations of ~~Unrecovered~~Future Fair Share of Green Transition ~~Costs~~Benefits to applicable Reference Groups under the Fair Allocation Plan;

(8) the basis upon which any Repayments, Funding Costs and Redemption Amounts will be paid, including any defeasance, sinking fund or through other reserves or liquidity facilities;

(9) the basis upon which fees, charges, expenses, costs, indemnities, reimbursements and other amounts payable to or for the benefit of the ~~Administrative~~Financial Services Agent and other agents and service providers to the ~~Regulatory Asset Owners~~Absolute Assignees may be determined, allocated and paid;

(10) the timing and basis upon which Finance Reserve Deposits and Finance Reserve Withdrawals may be made;

(11) the basis upon which any obligations for any other Additional Funding Charges may be incurred and paid;

(12) the basis upon which the cash flows arising from time to time or otherwise derived from the Regulatory Asset may otherwise be applied, including in relation to any counterparty enforcement and realization scenario;

(13) the transmittal to [the IESO] of information related to the amounts to be included in the determination of the Period Transition Charge for a Reference Period;

(14) the basis upon which any Disposition may be made or effected by ~~a Regulatory Asset Owner~~an Absolute Assignee, including parameters for determining the purchase price for the interest in the Regulatory Asset that is the subject matter of such Disposition, and any consents and releases that may be usefully obtained in connection with such Disposition;

(15) ~~a description of each~~describe the requirements applicable to any special purchase entity that will purchase ~~the Regulatory Asset from the IESO~~an Investment Interest, including proposed capitalization, governance, and restrictions on their powers and activities ~~having regard to the parameters in Schedule 4~~; and

(16) the basis on which any Pledge may be given or effected.

~~Schedule 4~~

~~Creation of any Special Purpose Entity to become a Regulatory Asset Owner]~~

~~(1) **Powers and Abilities**:~~

~~a. No part of the revenue or assets of a Regulatory Asset Owner shall enure to the benefit or be distributable to its trustees, officers or directors, as the case may be, or any other private persons, except as may be provided for actual services rendered;~~

~~b. Each Regulatory Asset Owner shall be authorized to:~~

~~i. incur the Funding Obligations contemplated by a Financing Plan and use the proceeds thereof to purchase or acquire, and to own, hold and use the Regulatory Asset;~~

~~ii. contract for servicing of the Restructuring Asset and any bonds contemplated by a Financing Plan and for administrative services; and~~

~~iii. pledge the Regulatory Asset to secure the Funding Obligations incurred by the Regulatory Asset Owner;~~

~~c. So long as any Funding Obligations contemplated under a Financing Plan are outstanding, a Regulatory Asset Owner shall not be authorized to merge or consolidate, directly or indirectly, with any person or entity;~~

~~d. a Regulatory Asset Owner shall not have the power or authority to incur or guarantee or otherwise become obligated to pay any debt or obligations other than what is contemplated under a Financing Plan;~~

~~e. a Regulatory Asset Owner shall cause the proceeds obtained by incurring any Funding Obligation to be placed in one or more separate accounts and used only to purchase the Regulatory Asset and pay any costs as provided for in a Financing Plan; and~~

~~f. so long as the Regulatory Asset is pledged to secure Funding Obligations, the Regulatory Asset Owner must apply revenues from the collection of Transition Charges only to repay such Funding Obligations and other costs as provided for in a Financing Plan.~~

~~(2) **Governance of Regulatory Asset Owner –** A Regulatory Asset Owner shall be created having regard to the following principles:[***OPG to confirm if SPE will be a trust or another type of entity.***]~~

~~a. [Number of trustees]~~

~~b. [Replacement of trustees; vacancies; appointment of successors]~~

~~c. [Removal of trustees for neglect of duty or misconduct]~~

~~d. [Quorum and meetings]~~

~~e. [Fiduciary duty]~~

~~f. [Isolation, separateness and other "non-consolidation" and "bankruptcy remoteness" criteria]~~

~~g. [Delegation of powers and duties to administrative agents]~~

~~h. [Delegation of powers and duties to administrative agents]~~

---

All - please find attached a revised draft of the summary legislation circulated by Blakes on April 10 which reflects consolidated comments from OPG and the dealers (and their respective counsel). Please note that the attached remains subject to the continuing review of OPG and the dealers. We will have printed copies of the blackline available at today's meeting.

Best Regards,
Nina

Steve,
We have been corresponding with Torys today and are in the process of preparing a consolidated mark-up reflecting comments from the Dealers and OPG, which will also incorporate some of the comments received this evening from the IESO/Stikemans. We will circulate the consolidated mark-up before tomorrow's meeting.

Stephen,
This version does not reflect the top issues raised by the Dealers. We are sitting down with the Dealers now working on a comprehensive mark-up that we will send later today, but it will not be ready by 2 PM. We would like to use tomorrow's meeting to discuss the mark-up we are preparing rather than a further revised version that will not reflect our feedback.

CONFIDENTIAL AND PRIVILEGED

Preliminary Draft for Discussion Purposes Only

"Fair Hydro Act"

Article 1 – Purpose

The Province has and continues to encourage the construction and development of facilities for the long-term operation and generation of electricity in the Province using sustainable, lower carbon-based technologies such as new gas-fired generation, renewable facilities, energy from waste and biomass, including under the Province's various procurement, standard offer, feed in tariff and other similar programs (the "Green Generation Initiative"). The long-term benefits of the Green Generation Initiative accrue over time and have benefited and will **continue to** benefit present and future electricity consumers in the Province.

The ~~imputed~~**out-of-market** costs of the Green Generation Initiative are currently passed through to electricity consumers by way of a monthly adjustment amount (the "Green Costs Adjustment"), which in turn forms part of the overall adjustment calculated by the Independent Electricity System Operator ("IESO") pursuant to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* (the "Global Adjustment"). ~~The Global Adjustment is included as a charge billed to electricity consumers in their monthly electricity invoices.~~

The Green Costs Adjustment is currently determined each month by reference to the amounts paid by IESO to the generators of electricity in the Province under the Green Generation Initiative~~, which may be higher than prevailing market price for electricity. These differences~~**. These amounts paid by the IESO** arise because IESO has entered into long-term procurement contracts with such generators in order to provide them with ~~long-term price~~**revenue** certainty ~~for electricity~~, and in turn to encourage the generators to develop technologies and to construct and develop facilities consistent with the Green Generation Initiative. ~~In general, whenever amounts payable under these procurement contracts exceed the market price for electricity, the Green Costs Adjustment passes through the amount of such differences as part of the monthly charge to electricity consumers. Such amount then becomes available to IESO to meet its obligations under the~~ **[NTD: This statement is not correct in respect of all IESO procurement contracts.]** It has been determined that the useful lives of many of the assets ~~encouraged by~~**developed under** the Green Generation Initiative will be ~~well~~ in excess of the respective terms of ~~the related~~**their respective** procurement contracts~~, and in many cases may extend over more than one generation of electricity consumers~~.

Since the benefits to past, present and future electricity consumers from the Green Generation Initiative will not necessarily coincide with the costs currently attributed through the Green Costs Adjustment, based on the respective ~~durations~~**terms** of the **applicable** procurement contracts, it has been determined that the rate at which the costs associated with the Green Generation Initiative should be passed through to ~~Retail~~**Regulated** Consumers (as defined in Article 2) should be more closely aligned with the benefits that such ~~Retail~~**Regulated** Consumers have derived and are expected to derive from the Green Generation Initiative over time. This realignment will be based on **general** principles and parameters that establish a reasonable basis for measuring and allocating the relative costs and benefits of the Green Generation Initiative equitably across present and future ~~Retail~~**Regulated** Consumers (the "Fair Allocation

Plan"). **[NTD: There is no explanation as to why realignment is limited to Regulated Consumers.]**

If the Fair Allocation Plan determines that the equitable allocation of the costs associated with the Green Generation Initiative to the ~~Retail~~**Regulated** Consumers of a particular time period should be reduced below the amount that currently would be charged based on the Green Costs Adjustment, then the amount payable by such ~~Retail~~**Regulated** Consumers and in turn available to IESO will, in the aggregate, be less than the amount payable by the IESO to the generators in respect of such period. In this case**,** IESO will need to obtain funding from another source to cover such a shortfall. If a funding obligation is incurred ~~by IESO~~ to cover such a shortfall during ~~one~~**any** period, the repayment of such funding obligation will be required in a future period, and any related repayments, finance costs, hedging costs and other transaction costs incurred will become payable in ~~one or more~~ future periods. In order for IESO to obtain a reliable and committed source of cash flows to enable IESO to repay such funding amounts when they become due and payable, this Act imposes irrevocable and non-bypassable financial obligations on ~~Retail~~**Regulated** Consumers to pay amounts incurred in respect of such funding obligations when they become due and payable and establishes a right to invoice and collect such amounts. The right and interest in and to collect such financial obligations will take the form of the Regulatory Asset contemplated in this Act, which will constitute property rights and interests. Interests in the Regulatory Asset may be sold and absolutely assigned by IESO to one or more financing entities, which in turn will finance their acquired interests by incurring funding obligations. The incurrence and payment of such funding obligations will be administered on behalf **of** such financing entities by a financial services ~~agent~~**manager** under the Financing Plan contemplated in this Act. ~~The Financing Plan will seek to reasonably match the payment obligations arising under such funding obligations, to be borne by the future Retail Consumers of the period in which such payment obligations become due, with the benefits of the Green Generation Initiative allocated to such future Retail Consumers under the Fair Allocation Plan.~~

[NTD: Our strong preference is to limit the introduction to the next paragraph and move defined terms from the previous paragraphs to Article 2]

The purpose of this Act is to establish the basis upon which intergenerational fairness can be achieved by charging the costs and benefits of the Green Generation Initiative to present and future ~~Retail~~**Regulated** Consumers on an equitable and cost effective basis.

Article 2 ~~–~~ Definitions

In this Act: **[NTD: It would be preferable to use plain language definitions in the legislation and leave the more detailed definitions to either the regulations or the agreements contemplated hereunder.]**

"Absolute Assignee" means a person to whom a Regulatory Asset Owner effects a Disposition **other than as security**.

"Actual" means, in relation to costs, expenses or payments in respect of Funding Obligations during a Reference Period, the actual amount of such costs, expenses or payments paid or made (net of any Finance Reserve Withdrawals applied to pay such amounts), which amounts shall be recorded by the Financial Services ~~Agent~~**Manager**

whose records shall be determinative for the purposes of this Act except to the extent of a manifest calculation error.

"Additional Funding Charges" means, for a Reference Period ~~in respect of an Absolute Assignee~~, the fees, charges, expenses, costs, indemnities, reimbursements and other amounts (including any applicable tax amounts) that are or become payable by or on behalf of the Absolute Assignee during the Reference Period and that were incurred or committed to directly or indirectly by the Absolute Assignee in connection with the incurrence of Funding Obligations under the Financing Plan (whether at the time of such incurrence or over the term of the Funding Obligation and whether directly or indirectly), including ~~(without duplication and without limitation): (a) any payment required under an ancillary agreement entered into by, or by the Financial Services Agent on behalf of, the Absolute Assignee under the Financing Plan; (b) any federal, provincial or local taxes, payments in lieu of taxes, franchise fees or license fees imposed on the Absolute Assignee or incurred by on behalf of the Absolute Assignee under any obligation to pay tax gross-up amounts to counterparties under Funding Obligations; (c) any amounts payable to the Financial Services Agent, including amounts payable to its advisors and outside counsel; (d) any amounts incurred to prepare, confirm, amend and implement the Financing Plan; (e) any amounts payable to any Alternative Collection Agent or Alternative Servicer, including amounts payable to each's advisors and outside counsel; (f) any amounts incurred to make the calculations, determinations or confirmations to be made by or on behalf of the Absolute Assignee; (g) any servicing fees and expenses; (h) any trustee fees and expenses; (i) any legal fees, expenses and disbursements; (j) any accounting fees and expenses; (k) any administrative fees and expenses; (l) any manager or director fees of a Financing Entity; (m) any registration fees and expenses; (n) any placement fees, underwriting fees, fees and related issuing expenses; (o) any rating agency fees; and (p) any other related fees, charges, expenses, costs, indemnities, reimbursements and other amounts that are approved in good faith by the Financial Services Agent for recovery and payment under the Financing Plan~~**without limitation such amounts as may be prescribed**.

~~"Allocation Factor" means, in respect of a Retail Consumer for a Reference Period, the number (expressed as a percentage) determined in respect of the Retail Consumer by the OEB based on the application of< *the Attribution Methodology* >in respect of the Reference Period.[1]~~

~~"Alternative Collection Agent" means a person appointed under Section 5(11) and in compliance with the requirements set out in Schedule 2 to assume the collection activities and activities of any Electricity Distributor or IESO under Article 5, as agent for and on behalf of the Regulatory Asset Owners.~~ **[NTD: See section 5(11). Remove this concept globally.]**

"Alternative Servicer" means a person appointed under Section 4(8) to assume the obligations of the Servicer under Article 4, as agent for and on behalf of the Regulatory Asset Owners. **[NTD: We see this, in effect, as the same thing as the IESO Successor; that is, replacement of the master Servicer.]**

[1] ~~Confirm that this will be based on forecast volumes of demand (like RPP). To the extent amounts do not get recovered due to differences between forecast and actual, those may be identified and caught by the True-Up.~~

"Assessed Past Green Transition Costs" means, in respect of a Measurement Date, the aggregate of the imputed costs of the Green Generation Initiative (expressed as an equivalent to current dollars), as reflected in the calculation of the Green Costs Adjustment, which have been charged to Retail Customers through the Global Adjustment on or prior to the Measurement Date.

"Attribution Methodology"[21] means the methodology specified in the Fair Allocation Plan for allocating the Period ~~Transition~~**Finance** Charges for a Reference Period to ~~individual Retail Consumers of the applicable Retail Consumer Group based on its Allocation Factor.~~**Regulated Consumers. [NTD: We understood that the Ministry accepted that the transition charge would be a volumetric rate.][NTD: Can be moved to Regulations.]**

"Collected Amount Adjustment" means, in respect of a True-Up Period, the amount (which may be a negative amount) calculated by the Servicer or the Financial Services ~~Agent~~**Manager**, as applicable, equal to (a) the Estimate of the Finance Amount for the True-Up Period, minus (b) the sum of all Transition Charge Collections for the True-Up Period.[32]

"Collective Rights Agreement" means an agreement among all of the Regulatory Asset Owners (including each Absolute Assignee) ~~and~~**,** each Pledgee**, and the Financial Services Manager** that governs the enforcement of their respective rights and interests in, to and under the Regulatory Asset on a coordinated and collective basis.[4] **[NTD: Move to Regulations.]**

"Delegate" means **any of** the **following** person or persons designated in writing from time to time by the Minister of Energy to undertake the actions and perform the responsibilities ascribed to the "Delegate" under this Act~~.~~**: ●. [NTD: Why is this delegation of authority necessary? This requires further discussion and clarity as to which entity or entities that the Province can select as the Delegate; for example, it would not be acceptable for the Province to select the OEB to be the Delegate. If this is required, an acceptable delegate would be a stakeholder committee comprised of representatives from the Ministry of Energy, the OEB, the IESO, and OPG. In addition, the regulation should prescribe how the stakeholder committee would operate.]**

"Disposition" means an assignment, transfer, conveyance, sale, contribution, set-over, exchange or other disposition of **(a) IESO's right to recover all or any portion of an IESO Funding Shortfall or (b)** an Investment Interest to an Absolute Assignee**, in each case** pursuant to a Disposition Document.

"Disposition Document" means the agreement, deed, conveyance, instrument or other document under which ~~a Regulatory Asset Owner~~**IESO or an Absolute Assignee** effects a Disposition to an Absolute Assignee.

[21] This allocation may be volumetric or some combination of a flat amount and a volumetric charge. Further discussion is required. H&W has raised a concern regarding possible adverse changes after the fact and rating agency considerations. Consider whether hard-coding in the legislation makes sense.

[32] This would pick up adjustments based on actual collection experience, changes in the ~~retail consumer~~**Regulated Consumer** base, changes in the actual costs (versus earlier estimates) included in the Transition Charge calculation, etc.

[4] ~~Consider adding the Financial Services Agent and the Servicer as parties.~~

"Electricity Distributor" means~~, in respect of a Service Area, the~~ **a** rate regulated distributor licensed under Part V of the *Ontario Energy Board Act, ~~1998~~* ~~in respect of such Service Area,~~***1998,*** together with and its successors.

"Electricity Distributor Remittances" means, for an Electricity Distributor on a Remittance Date, all Transition Charge Collections received or deemed to be received **[NTD: estimated to be received? will each Electricity Distributor know?]** by the Electricity Distributor prior to the Remittance Date and that have not otherwise been remitted to ~~IESO~~**Servicer** or if applicable the Alternative Collection Agent in accordance with Section 5(3), including the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5.

"Electricity Invoice" means an invoice issued by ~~any of a~~**an** Electricity Distributor (or in its stead, by an Alternative ~~Servicer~~**Collection Agent**), by the Servicer or by a Retailer, in each case to a ~~Retail~~**Regulated** Consumer that is served by the Electricity Distributor's distribution system in respect of electricity charges, including the cost of electricity, delivery and regulatory charges and related services and amounts incurred, assessed or charged in respect of connectivity to ~~a distribution network in the~~**such** Electricity Distributor's ~~designated Service Area~~**distribution system** and in respect of applicable Transition Charges to be charged to the ~~Retail~~**Regulated** Consumer under this Act. **[NTD: The Alternative Servicer should only invoice for Transition Charges, not the entire invoice. Also, to avoid confusion, we suggest using the word "invoice" in reference to what the IESO sends out to distributors, and "bills" in reference to what distributors send out to consumers.]**

"Estimate" means (a) in relation to costs, expenses or payments in respect of Funding Obligations or any Finance Amount for a Reference Period, the estimated amount of such costs, expenses or payments determined by the Financial Services ~~Agent~~**Manager**; and (b) in relation to an assessment of the benefits of the Green Generation Initiative to ~~any Retail Consumer Group~~**Regulated Consumers**, the estimated value (in current dollars) of such benefits determined by the Delegate, in each case having regard to the applicable principles and parameters set out in Schedule 1, which estimated amounts shall be determinative as the applicable estimate for the purposes of this Act except to the extent of a manifest calculation error.

"Estimated Future Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that are expected to accrue to ~~Retail~~**Regulated** Consumers from the establishment and implementation of the Green Generation Initiative during the period from the Measurement Date to the Program-End Date.

"Estimated Past Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that have accrued to ~~Retail~~**Regulated** Consumers from the establishment and implementation of the Green Generation Initiative up to and including the Measurement Date.

"Fair Allocation Plan" has the meaning given in Article 1.

"Finance Amount" means, for a Reference Period ~~in respect of an Absolute Assignee~~, the sum (without duplication) of the following amounts that are or become payable during the Reference Period in respect of ~~the~~**all** Absolute ~~Assignee~~**Assignees**: (a) Repayments; (b) **Net** Funding Costs; (c) Redemption Amounts; (d) Finance Reserve Deposits; and (e) Additional Funding Charges.

"Finance Reserve Deposits" means, for a Reference Period, the amount by which (a) deposits made or to be made during the Reference Period in order to pre-fund, collateralize, over-collateralize or establish reserves for the ultimate payment of Funding Obligations or for related contingencies specified in the Financing Plan, exceed (b) any Finance Reserve Withdrawals. **[NTD: Move this to regulation.]**

"Finance Reserve Withdrawals" means, for a Reference Period, the amount withdrawn during the Reference Period from deposits previously made to pre-fund, collateralize, over-collateralize or establish reserves for the payment of Funding Obligations or to pay amounts in respect of related contingencies that had been specified in the Financing Plan. **[NTD: Move this to regulation.]**

"Financial Services ~~Agent~~**Manager**" means OPG or, following any Replacement Event **involving OPG**, such other person ~~or persons~~ who may be appointed as the ~~Financial Services Agent~~**financial services manager** of the Absolute Assignees under the Financing Plan in compliance with the requirements set out in Schedule 2.[5]~~3~~

"Financing Entity" means ~~an entity established in accordance with the Financing Plan to acquire all or an interest in the Regulatory Asset as an Absolute Assignee and to enter into Funding Obligations to finance such acquisition under the Financing Plan.~~[6]**any entity established at the initiative of and managed by the Financial Services Manager to support the Financing Plan.**[4]

"Financing Plan" means the written plan prepared by the Financial Services ~~Agent on behalf of each Absolute Assignee in compliance with Article 9 to set forth the basis upon which, among other things: (a) any Disposition may be made to, financed by or effected by an Absolute Assignee; (b) any Funding Obligations may be incurred by an Absolute Assignee, including any Refinancing; (c) any Pledge may be given or effected; (d) any Funding Obligations may be redeemed, prepaid, repurchased, amended or otherwise effected; (e) any obligations for Additional Funding Charges may be incurred and paid; (f) any Repayments, Funding Costs and Redemption Amounts may be paid or provided for; (g) any Finance Reserve Deposits may be made; (h) any Finance Reserve Withdrawals may be made; (i) the establishment and operation of any Financing Entity may be effected; and (j) the cash flows arising from time to time or otherwise derived from an Investment Interest may otherwise be applied,~~**Manager in accordance with Article 9,** as the same may be amended, amended and restated or terminated by the

[5] ~~Discuss whether to accommodate multiple~~[3] **There must only be one** Financial Services ~~Agents. MOE to consider~~**Manager**.

[6]4 MOE to confirm that the legislation will provide that any Financing Entity that is a wholly-owned subsidiary of OPG (1) would not be subject to Part VI of the *Electricity Act* (Ontario) and (2) in the case of any Financing Entity that is a trust, any income of such trust (for purposes of the *Income Tax Act* (Canada) or the *Taxation Act, 2007* Ontario)) which is paid or made payable to OPG or a wholly-owned subsidiary of OPG as a beneficiary of such trust will not be taken into account in calculating the amount of a payment required to be made by OPG (or such subsidiary) by section 89 or 90 of the Electricity Act.

Financial Services ~~Agent~~**Manager** in ~~compliance~~**accordance** with Article 9 from time to time.

~~"Funding Costs" means, for a Reference Period in respect of an Absolute Assignee, the amount by which (a) the aggregate of all interest< *and other periodic finance charges accruing due and becoming payable or paid by or on behalf of the Absolute Assignee during the Reference Period in respect of its Funding Obligations, including* >any standby commitment fees or charges paid to any lender, credit enhancement fees or charges paid to any credit enhancer, liquidity fees or charges paid to any liquidity provider, amounts (including any termination payments) paid under derivatives and any deposit amount made or required to fund or replenish a debt service reserve account or other account established under any indenture, ancillary agreement or other financing document relating to its Funding Obligations, exceeds (b) the aggregate of all amounts received by or on behalf of the Absolute Assignee during the Reference Period in respect of a Funding Obligation, including from any reimbursement of standby commitment fees or charges paid by a lender, any reimbursement of credit enhancement fees or charges paid by any credit enhancer, any reimbursement of liquidity fees or charges paid by any liquidity provider, any amounts (including any termination payments) paid to the Absolute Assignee under derivatives and any Finance Reserve Withdrawal made or required to be made from a debt service reserve account or other account established under any indenture, ancillary agreement or other financing document relating to the payment of the Funding Costs payable in respect of a Funding Obligation for the Reference Period.~~

"Funding Obligation" means, in respect of an Absolute Assignee, each payment obligation (including**, without limitation,** each obligation to pay: principal, interest, premiums and other financing charge payments; pass-through payments; payment obligations arising under or in respect of derivatives; payment obligations owing to service providers, Financial Services ~~Agents~~**Managers**, finance entity intermediaries, capital markets intermediaries, advisors, lenders, credit enhancement providers, liquidity providers, disbursement counterparties, regulatory agencies and rating agencies; and all Additional Funding Charges**)** incurred by or on behalf of the Absolute Assignee under the Financing Plan, including any Refinancing of another such payment obligation incurred by or on behalf of such Absolute Assignee.

"Future Fair Share of Green Transition Benefits" means, in respect of a Measurement Date, the sum of (a) the Over-Assessed Amount; and (b) the Estimated Future Green Transition Benefits, in each case as of the Measurement Date.

~~"Generator" means a generator of electricity that is subject to the *Electricity Act, 1998*.~~

"Global Adjustment" has the meaning given in Article 1.

"Green Costs Adjustment" has the meaning given in Article 1.

"Green Generation Initiative" has the meaning given in Article 1.

"IESO" means the Independent Electricity System Operator created pursuant to Part II of the *Electricity Act, 1998*.

"IESO Available Amount" means, for a Reference Period, the lesser of (a) the amount (if any) by which (i) the Maximum Transition Charge Amount for the Reference Period, exceeds (ii) Period Finance Amount for the Reference Period, and (b) the IESO Retained Interest Amount as of the [35th] day prior to the first day of a Reference Period plus any IESO Financing Costs that are due and payable and remain unpaid as of the [35th] day prior to the first day of a Reference Period.

"IESO Electricity Distribution Receipts" means, for a month, the sum of all amounts payable by Electricity Distributors to IESO , during the month pursuant to section • of the *Electricity Act* in respect of Regulated Consumers. [NTD: IESO indicates that it likely does not work to express in regards to "amounts payable by the LDCs" because settlement between the IESO and LDCs entails payments by LDCs to the IESO and then credits/debits by the IESO to LDCs to reflect RPP shortfalls/overages.]

"IESO Financing Costs" means, for a Reference Period, the financing costs (if any) incurred by IESO pursuant to Section 8(4) in order to finance its ownership of the IESO Retained Interest during the Reference Period.

"IESO Funding Shortfall" means, for a month, the amount, if any, by which (a) the IESO Electricity Distribution Receipts that would be payable to IESO for the month if determined without regard to this Act and without regard to the changes made to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* with respect to the Global Adjustment concurrently with this Act, exceeds (b) the IESO Electricity Distribution Receipts payable to IESO for the month[75]; provided that if the amount of any such shortfall is determined to have been based on incomplete information, variances or estimates that were inaccurate, an adjustment shall be made in determining the amount of any subsequent shortfall for the month in which the inaccuracy is identified. .To the extent reasonably necessary to give effect to this Act, or any transaction contemplated hereby, IESO shall calculate the IESO Funding Shortfall for any month taking into account information provided by the Electricity Distributors and (i) such calculation shall be binding for all purposes; and (ii) any demonstrated inaccuracy in the calculation for any month (including any such resulting from inaccuracies in the information provided by Electricity Distributors) shall be accounted for by adjusting the IESO Funding Shortfall for a subsequent month. [NTD: Need to add the mechanism for IESO to record this shortfall because without that there is no Regulatory Asset. This IESO Funding Shortfall is the regulatory asset owned by IESO.]

"IESO Recovery" means each amount remitted to IESO (including by IESO retaining such amount) in respect of the IESO Retained Interest pursuant to Section 5(6)(b), and "IESO Recoveries" means, collectively, all such amounts received by IESO.

"IESO Remittances" means, for a Settlement Date, all Electricity Distributor Remittances received by IESO or if applicable the Alternative Collection Agent prior to the Settlement Date and that have not otherwise been remitted to the Regulatory Asset Owners (each with respect to its Regulatory Asset) in accordance with Section 5(6), including the proceeds of any enforcement action undertaken by IESO or if applicable the Alternative

[75] This has been recast to recognize that the shortfall in the first 4.5 years could exceed the entire GA amount. A more refined approach to describing the concept may be considered.

Collection Agent to recover payment of amounts payable by Electricity Distributors to IESO in accordance with Article 5.

~~"IESO Retained Interest" means IESO's right, title and ownership interest (if any) in, to and under the Regulatory Asset, which shall exclude each Investment Interest.~~

~~"IESO Retained Interest Amount" means, on a day, (a) the sum of all IESO Funding Shortfalls incurred prior to the day, plus (b) the sum of all IESO Funding Costs incurred prior to the day in accordance with Section 8(4), minus (c) the net proceeds received by IESO from or on behalf of each Absolute Assignee as consideration for the Disposition of each Investment Interest paid to IESO by or on behalf of such Absolute Assignee prior to the day, and minus (d) the IESO Recoveries received by IESO prior to the day.~~

"IESO Successor" means the entity appointed by the Province to succeed to the rights and obligations of IESO as the entity responsible for managing the Province's electricity system.

"Investment Interest" means an ownership interest in, to or under the Regulatory Asset that is acquired by an Absolute Assignee pursuant to a Disposition~~, which ownership interest may include (without limitation) ownership of a specified portion on a divided basis of the assets comprising the Regulatory Asset and ownership of an undivided ownership interest in the Regulatory Asset, in each case as may be described in the applicable Disposition Document~~.

"Investment Remittance" means, for a month, the lesser of (a) the aggregate amount of all IESO Remittances for the month, and (b) the sum of the ~~Finance Amounts~~**Funding Obligations** due and payable by all Absolute Assignees in respect of the month.

~~"Maximum IESO Recovery" means, for a month, the amount (if any) by which (a) the IESO Remittances for the month, exceed (b) the sum of all Finance Amounts that are due and payable by Absolute Assignees in respect of the month.~~

~~"Maximum Transition Charge Amount" means, for a Reference Period, (a) the aggregate amount of Future Fair Share of Green Transition Benefits that are allocable to the applicable Retail Consumer Group in accordance with the Fair Allocation Plan, divided by (b) the applicable Reference Period Length.~~

"Measurement Date" means [Insert relevant date around the Legislation Implementation Date] and any other date specified as such under the Fair Allocation Plan.

"Net Funding Costs" means, for a Reference Period in respect of a Financing Entity, the amount by which (a) the aggregate of all interest, scheduled principal> *and other periodic finance charges accruing due and becoming payable or paid by or on behalf of the Absolute Assignee during the Reference Period in respect of its Funding Obligations, including* <**such amounts as may be prescribed, exceeds (b) the aggregate of all amounts received by or on behalf of the Absolute Assignee during the Reference Period in respect of the Funding Obligations referred to in (a), including such amounts as may be prescribed.**

"OEB" means the Ontario Energy Board, together with its successors.

"OPG" means the corporation incorporated as Ontario Power Generation Inc. under the *Business Corporations Act* on December 1, 1998, together with its successors.

"Over-Assessed Amount" means, in respect of a Measurement Date, the amount (if any) by which (a) the Assessed Past Green Transition Costs, exceeds (b) the Estimated Past Green Transition Benefits, each as determined as of the Measurement Date.

"Period Finance Charges" means, for a Reference Period, the sum of (a) the Estimate of the Finance Amount ~~and~~ (b) the True-Up Amount in respect of the ~~immediately preceding Reference Period. "Period Transition Charges" means, for a Reference Period, the sum of (a) the Period Finance Charges for the Reference Period and (b) the IESO Available Amount for the Reference Period.~~ **applicable True-Up Period and (c) an adjustment amount as may be prescribed to account for estimated collection shortfalls and collection delays in respect of amounts under (a) and (b).**

"Pledge" means, in respect of an Investment Interest of an Absolute Assignee, a lien, mortgage, charge or security interest granted to or in favour of a Pledgee by the Absolute Assignee in, to and over all or a specified portion (including a specified portion on a divided basis or by way of an undivided interest) of the Investment Interest.

"Pledgee" means a person to whom an Absolute Assignee grants a Pledge.

"Program End Date" means •, [2047].

"Province" means the Province of Ontario.

"Redemption Amount" means the amount payable by or on behalf of an Absolute Assignee to redeem, prepay or repurchase a Funding Obligation incurred by or on behalf of the Absolute Assignee, including any premium, make-whole or other additional amount becoming payable under the Funding Obligation to give effect to such redemption, prepayment or repurchase.

"Reference Period" means (a) the period from (and including) the Measurement Date to (and including) ~~June~~**October** 30, 2017, (b) each six month period commencing [May 1st and November 1st] thereafter and (c) any other period specified as such in the Fair Allocation Plan.

~~"Reference Period Length" means, for a Reference Period, the number of months in the Reference Period.~~

"Refinancing" means, in respect of a Funding Obligation incurred by or on behalf of an Absolute Assignee, that the Funding Obligation is repaid or repurchased for cancellation by or on behalf of the Absolute Assignee by applying the net proceeds obtained by the Absolute Assignee incurring one or more other Funding Obligations.

"Regulated Consumer" means consumers of electricity in the Province as prescribed.

[NTD: There are a number of issues with this definition. First, the word "Retail" is a source of confusion as it implies customers of licensed retailers. Really, the purpose of the term is to define the group of consumers that are eligible to receive the benefit of the Fair Hydro program and who will bear the cost of the program over the long term. We have proposed "Regulated Consumer" but you could also use the term "Eligible Consumer" or "Fair Hydro Eligible Consumer" and for purposes of the legislation to say that it is a member of a class of consumers prescribed by the regulations for purposes of the relevant section of the legislation. The regulation would then describe who is in the class. Second, it may not be appropriate to rely on the class of consumers prescribed for the purposes of s. 79.16 or under the OREC Act. Section 79.16 is the section that defines the class of RPP consumers. We understand that the "Fair Hydro Eligible Consumers" are not an identical class to that which is eligible for the RPP or for> ***the Ontario Rebate for Electricity Consumers***<. For example, we have heard that Fair Hydro Eligible Consumers will (a) exclude consumers served by independent power authorities (certain remote communities not served by Hydro One Remotes), and (b) include consumers served by licensed unit sub-metering providers, licensed retailers and certain consumers served directly by the IESO (which may or may not be captured by the classes under 79.16 or OREC). Third, it is not clear why consumers with contracts with retailers who use retailer consolidated billing are removed from the first part of the definition but then added back into the second part of the definition. Fourth, Retailers do not necessarily have physical electricity assets that would be connected to the grid. Some just sell or offer contracts for electricity. As such, the first few lines after (b) are problematic. Fifth, the phrase "purchase electric generation services from a provider of electric generation services other than the owner of the Province's transmission and distribution system assets" does not make sense. A consumer does not purchase generation services from a transmitter or distributor. Rather, a consumer receives distribution services from a distributor. In addition to charging for its distribution services, the distributor also charges the associated transmission costs and commodity costs associated with the volumes delivered. Those commodity costs are the price of the electricity itself and are almost entirely made up of the amounts determined under the global adjustment. Sixth, the phrase "**>*whether or not the transmission and distribution system assets continue to be owned or operated by Electricity Distributors or operated by IESO*<**" does not make sense. Transmission assets are owned and operated by transmitters. Distribution assets are owned and operated by distributors. The IESO does not own but does administer and direct the operation of the transmission system.]

"Regulatory Asset" means the property rights and interests described in Section 6(1), which collectively is comprised of ~~the IESO Retained Interest and~~ each Investment Interest.

"Regulatory Asset Account" means (a) for an Electricity Distributor, any bank account into which the Electricity Distributor deposits or receives Transition Charge Collections; and (b) for the Servicer, any bank account into which ~~IESO~~Servicer deposits or receives Transition Charges~~, Electricity Distributor Remittances or IESO Remittances; and (c) if applicable, for the Alternative Collection Agent, any bank account into which~~

the Alternative Collection Agent deposits or receives Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances.

"Regulatory Asset Owner" means each of (a) IESO, as owner of (and to the extent of) the IESO Retained Interest and (b) each Absolute Assignee, as owner of its Investment Interest or Investment Interests, and "Regulatory Asset Owners" means collectively IESO and each such Absolute Assignee, who together own the entirety of the Regulatory Asset and are required to exercise their individual rights of ownership in accordance with Section 6(7).

"Related Rights" means**, with respect to a Regulatory Asset Owner's Investment Interest,** all rights of any kind (whether in tort, contract or otherwise) that attach or are attendant or incidental to any of the other property rights or interests that comprise such Regulatory Asset**Investment Interest**.

"Remittance Date" means, in respect of an Electricity Distributor, each day on which it is required to remit Electricity Distribution Remittances to IESO**Servicer** or if applicable the Alternative Collection Agent as specified in accordance with any Funding Obligation or, if no such day is specified in accordance with any Funding Obligation, then the Business Day **[NTD: Not defined.]** preceding each Settlement Date. **[NTD: Move to Regulations. Remittances will be in accordance with the current rules.]**

"Repayment Obligation" means an obligation to repay, redeem or repurchase, or to provide for the repayment, redemption or repurchase (including by making a related Finance Reserve Deposit) of, all or a portion of the amount advanced to the Absolute Assignee under a Funding Obligation.

"Repayment" means a payment by an Absolute Assignee made to satisfy a Repayment Obligation, other than to the extent that the payment is made by applying the proceeds of a Refinancing or from Finance Reserve Withdrawals.

"Replacement Event" means any event specified as such in a Funding Obligation.

"Retail Consumer" means:

(a) present and future consumers of electricity in the Province who are (i) consumers designated under section 79.16 of[, and O.Reg 95/05 under,] the *Ontario Energy Board Act, 1998*, or (ii) hold or are deemed to hold an "eligible account" under< *the Ontario Rebate for Electricity Consumers*> *Act, 2016*, other than any such consumer who has a contract with a Retailer who uses Retailer Consolidated Billing; and

(b) present and future Retailers who use Retailer Consolidated Billing,

and each case includes all such consumers and Retailers who are connected, directly or indirectly and whether a customer of an Electricity Distributor or not, to the transmission and distribution system assets located in the Province and who are taking electric delivery service within the Province, whether or not such retail consumers produce their own electricity or purchase electric generation services from a provider of electric generation services other than the owner of the Province's transmission and distribution

~~system assets and <*whether or not the transmission and distribution system assets continue to be owned or operated by Electricity Distributors or operated by IESO*>.~~

~~"Retail Consumer Group" means, in relation to a Reference Period, the Retail Consumers who receive Electricity Invoices during the Reference Period.~~

"Retailer" means a person who is licensed under Part V of the *Ontario Energy Board Act, 1998* to retail electricity.

"Retailer Consolidated Billing" has the same meaning as in the *Retail Settlement Code* issued by the Ontario Energy Board.

~~"Service Area" means, in respect of an Electricity Distributor, the geographic area or region in which it is licensed to distribute electricity in accordance with the *Electricity Act, 1998*.~~

"Servicer" means IESO or IESO Successor, as agent for and on behalf of the Regulatory Asset Owners, for the purposes set forth in Article 4.

"Settlement Date" means the [last Business Day of any month].

"Transition Charge" means, ~~for a Retail~~**the amount recoverable from a Regulated** Consumer in respect of a Reference Period, ~~(a) the Period Transition Charge, (b) multiplied by its Allocation Factor in respect of the Reference Period, divided by (c) the applicable Reference Period Length.~~ **being the Period Finance Charge as allocated to such Regulated Consumer in accordance with Article 4(3) on a monthly basis. [NTD: This needs to be grossed up to account for variability associated with expected uncollectables and remittance delays.] [NTD: Do not need to create parallel process. The definition should be linked to the OEB process for determining the volumetric rate as part of the RPP process (see s. 4(2)). The OEB will determine volumetric rate based on forecast consumption, number of consumers, etc. to recover the Period Finance Charges.]**

"Transition Charge Collection" means any amount received **[or deemed by this Act to have been received] by the Absolute Assignees** upon the collection of a Transition Charge paid by or on behalf of a ~~Retail~~**Regulated** Consumer, including any proceeds arising from the exercise and enforcement of any related rights and interests under or in respect of the Regulatory Asset.

"True-Up Amount" means, in respect of a Reference Period, the amount (which may be a negative amount) calculated by the Financial Services ~~Agent~~**Manager** equal to (a) the >*Actual Finance Amount for such related True-Up Period*<**, minus (b) the** Estimate of the Finance Amount for the related True-Up Period, ~~minus (b) the <*Actual Finance Amount for such related True-Up Period*>~~, plus (c) the Collected Amount Adjustment for such related True-Up Period. **[NTD: need to discuss how this will work for our true-up. What about prior period shortages? An example of how this works needs to be provided.]**

"True-Up Period" means, in relation to a Reference Period, the period from and including the [30th] day immediately preceding the first day of the Reference Period, to but excluding the [30th] day immediately preceding the last day of the Reference Period.

"Undertaking of the Lieutenant Governor in CouncilHer Majesty in right of Ontario" means the undertaking of the Lieutenant Governor in CouncilHer Majesty in right of Ontario given under Section 11(2).

Article 3 – Transition Charges

(1) **RetailRegulated Consumer Obligation to Pay a Transition Charge** – Each RetailRegulated Consumer shall pay each Transition Charge charged to it in any Electricity Invoice issued to such RetailRegulated Consumer by its Electricity Distributor or by an Alternative Servicer under Section 4(1), in each case on the terms of payment specified in the related Electricity Invoice.

(2) **Indebtedness of RetailRegulated Consumers** – Until paid, a Transition Charge charged to a RetailRegulated Consumer in an Electricity Invoice shall, together with any applicable late payment fees and finance charges arising under the terms of the Electricity Invoice with respect to such Transition Charge, constitute non-bypassable indebtedness of the RetailRegulated Consumer to the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset. Such indebtedness shall constitute a single and separate[86] debt obligation owing by the RetailRegulated Consumer, which subject to Article 5 may be enforced independently from any other payment obligation or indebtedness owing by the RetailRegulated Consumer under the Electricity Invoice or otherwise.[97]

(3) **No Set-Off or Reduction** – A RetailRegulated Consumer may not set-off or reduce (by counterclaim, defense or otherwise) the amount payable by it in respect of any Transition Charge, including any set-off against or in respect of any amount owing or becoming payable to such RetailRegulated Consumer by its Electricity Distributor, any Regulatory Asset Owner or any other person.

(4) **Allocation of RetailRegulated Consumer Payments** – If an Electricity Distributor receives a payment made by or on behalf of a RetailRegulated Consumer in respect of amounts due and payable under one or more Electricity Invoices that is less than the total amount payable thereunder, such payment shall be allocated on a *pro rata* basis to the payment of related Transition Charges and other invoiced amounts and the amount so allocated as a payment of related Transition Charges shall be deemed to constitute a Transition Charge Collectionsubject to rights and benefits that are no less favourable than the treatment accorded to other amounts payable to the IESO by the Electricity Distributor.

(5) **Transition Charges are Irrevocable** – The Transition Charges arising under or in respect of Funding Obligations incurred under the Financing Plan (including any

[86] Determine if this is critical for rating and markets. Logistics under consideration.

[97] Torys has also suggested that deemed conditions of licenses for distributors, retailers and unit sub-metering providers, could be included as conditions, to require them to collect and remit amounts in accordance with this legislation. Consider if it is helpful to integrate the existing regulatory scheme for invoicing and collections (regarding RPP) in the legislation.

adjustments based on modifications to such Funding Obligations made in compliance with the Financing Plan or as a result of amendments to the Financing Plan made in accordance with Section 9(3)) are deemed to be irrevocable, final and effective without any further action, except to the extent of manifest calculation error. For greater certainty, a Transition Charge may include Finance Amounts for a Reference Period regardless of whether or not the payment of such Finance Amounts are inconsistent with the Fair Allocation Plan applicable at the time such payments are due and payable, and regardless of whether or not the related Funding Obligation was properly incurred under the Financing Plan. In no case shall a Funding Obligation incurred under the Financing Plan be affected by a subsequent amendment to the Fair Allocation Plan.

(6) True-Up of Transition Charges? – [NTD: Include specifics regarding the true-up of the charges and the process for the true-up, but move to Regulations. The True-Up Mechanism should require the Transition Charges to be reviewed and adjusted semi-annually to ensure the expected recovery of amounts sufficient to timely provide all payments in respect of Funding Obligations, provided that in some cases it may need to be adjusted more frequently than semi-annually, e.g., as part of a refinancing.]

(7) Commencement of Invoicing and Collection of Transition Charges – [NTD: Please confirm that as drafted, Transition Charges will begin on the Measurement Date.]

Article 4 – Invoicing of Transition Charges [NTD: Move Article 4 sections (1) to (4) to Regulations. Also note, these sections remain subject to further due diligence by the Dealers.]

(1) **Inclusion of Transition Charges in Electricity Invoices** – Each Electricity Distributor and if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, specify the Transition Charge to be charged to a ~~Retail~~Regulated Consumer pursuant to Section 4(4) in respect of a related Reference Period in each Electricity Invoice issued by the Electricity Distributor or if applicable by the Alternative Servicer to the ~~Retail~~Regulated Consumer in respect of such Reference Period. Upon the inclusion of a Transition Charge in an Electricity Invoice, the obligation to pay such amount shall be binding on the applicable ~~Retail Consumer.~~Regulated Consumer. [NTD: Must capture bills issued to eligible consumers served by unit sub-metering providers, retailers and the IESO – not just distributors][NTD: This provision also needs to address the inclusion of Transition Charges in invoices from the IESO to the LDC, consistent with the current process of how the IESO bills LDCs.]

(2) **Calculation of the Period ~~Transition~~Finance Charge** – Not later than [35] days prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services ~~Agent~~Manager on its behalf) shall provide the OEB with written notice of each Estimate of a Finance Amount payable by it or on its behalf in respect of the Reference Period. ~~[35] days prior to the first day of a Reference Period, IESO or Successor IESO if applicable shall specify the IESO Retained Interest Amount and any IESO Financing Costs that are due and payable and remain unpaid on such day.~~ Not later than one month prior to the first day of a Reference Period, ~~the OEB~~each Absolute Assignee (or the Financial Services Manager on its behalf) shall calculate the Period ~~Transition~~Finance Charge applicable to the Reference Period ~~based on the calculations and information set forth in such written notices received from the Absolute Assignees~~

and based onhaving regard to such amounts specified by IESO or Successor IESOthe Servicer, which calculations, information and amounts shall be accepted by the OEB and shall be determinative, except to the extent of manifest calculation error or misstatement.

(3) **Calculation and Attribution of Transition Charges** – Not later than 25 days prior to the first day of a Reference Period, the OEB shall apply the Attribution Methodology to determine the Allocation Factorallocation of the Transition Charge for each RetailRegulated Consumer of the applicable Retail Consumer Group. **[NTD: We think the OEB would be determining the Fair Hydro recovery rate (on a volumetric basis) that distributors would then be required to charge to consumers]**

(4) **Notice of Transition Charges** – Not later than 20 days prior to the first day of a Reference Period, the OEB shall inform each Electricity Distributor and if applicable any Alternative Servicer of the Transition Charges to be specified in the Electricity Invoices to be issued to each RetailRegulated Consumer of the applicable Retail Consumer Group who has a billing address inwho is served by the Electricity Distributor's Service Area.

(5) **Adjustments** – The amount of any Transition Charge charged to a RetailRegulated Consumer and specified as such in an Electricity Invoice shall be determinative of the amount of indebtedness created thereby and owing in respect of such Transition Charge, except to the extent of any manifest calculation error.

(6) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 4 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 4 to impose, attribute, charge, bill and invoice the Transition Charges.

(7) **IESO Successor** – Any IESO Successor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of IESO under Article 4 in the same manner and to the same extent as IESO, including the obligation to calculate and provide notice of Transition Charges.

(8) **Appointment of an Alternative Servicer** – If a Replacement Event occurs in respect of any Electricity Distributor, the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Servicer to perform some or all of the obligations and duties required to be undertaken by such Electricity Distributor under this Article 4, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Servicer shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor. Any Electricity Distributor that is replaced under this Section 4(8) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in the performance of such obligations and duties to the Alternative Servicer and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Servicer to perform such obligations and duties on behalf of the Regulatory Asset Owners. **[NTD: We would expect the IESO to manage this in accordance with its normal business practices.]**

(9) Absolute Assignees have Standing – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, the Servicer, Alternative Servicer or any other person who may be authorized to issue Electricity Invoices to ~~Retail~~**Regulated** Consumers for a failure to impose, attribute, charge, bill or invoice Transition Charges **or to otherwise comply with this Act**. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure~~.~~ **and may make any interim or final order it thinks fit in this regard. [NTD: We would like to see the sections on "Standing" to bring an action to remain in the legislation (as opposed to being moved to the regulations as we believe we previously suggested) as we see those provisions as part of ensuring a rigorous enforcement scheme for the Financing Entity (and so something that should be difficult for the Province to change going forward).]**

(10) No Set-Off or Reduction – No Servicer or Electricity Distributor may set off or reduce (by counterclaim, defence or otherwise) the amount payable by it pursuant to this Article 4.

(11) Regulations – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Servicer to ensure that Transition Charges are properly charged to ~~Retail~~**Regulated** Consumers and specified as such in Electricity Invoices.

Article 5 – Collections and Remittances [NTD: Move Article 5 sections (3), (6), (9), (12), (13) and (14) to Regulations.]

(1) **Duty to Collect as Agent** – Electricity Distributors or if applicable any Alternative Collection Agent shall, as an agent of the ~~Regulatory Asset Owners, undertake [diligent][reasonable][10] efforts to~~**Servicer,** collect amounts owing by ~~Retail~~**Regulated** Consumers in respect of Transition Charges charged to such ~~Retail~~**Regulated** Consumers in Electricity Invoices issued by the Electricity Distributor or if applicable such Alternative Collection Agent~~.~~ **all in accordance with the Regulations. [NTD: The obligation to collect and remit the Transition Charge should be included as a deemed condition of license for electricity distributors (and retailers and unit sub-metering providers).]**

(2) **Segregation of Transition Charge Collections** – An Electricity Distributor or if applicable any Alternative Collection Agent shall promptly segregate Transition Charge Collections from other payments received by it from ~~Retail~~**Regulated** Consumers and deposit such Transition Charge Collections into its Regulatory Asset Account.[11][8] **[NTD: Determine if this is critical for rating and markets or if segregation can occur in the hands of the IESO]** Prior to and following a deposit of Transition Charge Collections having been made into its Regulatory Asset Account, the Electricity Distributor or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners **or its Pledgee**.

(3) **Electricity Distributor Remittances** – On each applicable Remittance Date, an Electricity Distributor shall remit all **amounts invoiced by the IESO on account of the**

[10] ~~Mirror collection "standard of care" under applicable legislation.~~

[11][8] Consider trying to attach to existing LDC credit enhancements and provide parallel coverage for customer losses.

Transition Charge ~~Collections received by it from Retail Consumers~~ in respect of the related Reference Period to or to the account of ~~IESO~~**Servicer** or if applicable the Alternative Collection Agent. **[NTD: It is the Dealers expectation that the Transition Charge will be paid on the same basis as other amounts invoiced by the IESO, failing which, they will need to be remitted daily.]**

(4) **Duty to Collect Electricity Distributor Remittances** – ~~IESO~~**Servicer** or if applicable any Alternative ~~Collection Agent~~**Servicer** shall, as an agent of the Regulatory Asset Owners, ~~undertake [diligent][reasonable] efforts to~~ accept and collect Electricity Distributor Remittances from Electricity Distributors and Transition Charge Collections from ~~Retail~~**Regulated** Consumers that pay their Electricity Invoices directly to IESO~~.~~[12] **on the same basis as it accepts and collects other charges from such Regulated Consumers.**[9]

(5) **Segregation of Electricity Distributor Remittances** – ~~IESO~~**Servicer** and if applicable the Alternative Collection Agent shall promptly segregate Electricity Distributor Remittances from other payments received or held by it and deposit such Electricity Distributor Remittances into its Regulatory Asset Account. Prior to and following a deposit of Electricity Distributor Remittances having been made into its Regulatory Asset Account, ~~IESO~~**Servicer** or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners **or Pledgee**.

(6) ~~**IESO**~~**Servicer Remittances** – On each Settlement Date[13]10, ~~IESO and if applicable the Alternative Collection Agent~~**Servicer** shall remit all amounts on deposit in its Regulatory Asset Account ~~(a) first,~~ to or to the account of the Absolute Assignees an amount equal to the Investment Remittance for the related month ~~and (b) second, to IESO (including by IESO retaining such amount) an amount equal to the lesser of (i) the Maximum IESO Recovery for the related month and (ii) the IESO Retained Interest Amount as of the Settlement Date~~.

(7) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 5 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 5 to collect Transition Charges and make remittances of Electricity Distributor Remittances.

(8) **IESO** ~~**Successor**~~**Successors** – IESO ~~Successor~~**Successors** shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of IESO under Article 5 in the same manner and to the same extent as IESO, including the obligation to collect Transition Charge Collections, Electricity Distributor Remittances and to remit IESO Remittances.

(9) **Owners of Distribution Assets** - If any person other than an Electricity Distributor acquires distribution system assets in the Province or invoices or collects electricity distribution rates in the Province[14]11, then such person shall, if requested by the Absolute Assignees, be obligated to act diligently to (a) facilitate the invoicing and collection of any Transition Charges applicable to ~~Retail~~**Regulated** Consumers ~~in its~~

[12]9 Consider building this obligation into a deemed condition of licence for the IESO.
[13]10 Consider frequency of remittances in light of rating requirements. US rating agencies favour daily remittances.
[14]11 This is in anticipation of a possible future restructuring of the distribution system.

applicable service area, including all consumers connected to the electricitysuch person's distribution system assets and taking electric delivery service located within such service area; (b) allocate partial payments by RetailRegulated Consumers as provided in this Act; (c) exercise all enforcement rights of the Absolute Assignees for the benefit of an Absolute Assignee; and (d) remit any Transition Charge Collections to the Absolute Assignees or Pledgees, as applicable, each in accordance with its Investment Interest. [NTD: Such acquisition of a distribution system would require the person to be an electricity distributor; consider deleting since this is covered off by Section 5(7).]

(10) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESOServicer, the Alternative Collection Agent, any owner of electricity distribution system assets in the Province or any other person who may be authorized to collect electricity distribution and use charges from RetailRegulated Consumers for a failure to collect Transition Charges, remit or collect Electricity Distributor Remittances or remit IESO Remittances, as and to the extent applicable under Article 5.5, or to otherwise comply with this Act. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure and may make any interim or final order it thinks fit in this regard.

(11) **Appointment of an Alternative Collection Agent –** If a Replacement Event occurs in respect of any Electricity Distributor or IESO, the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Collection Agent to perform some or all of the collection, segregation and remittance obligations otherwise required to be undertaken by such Electricity Distributor or IESO, as applicable, under Article 5, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Collection Agent shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor or IESO, as applicable. Any Electricity Distributor or IESO, as applicable, that is replaced under this Section 5(11) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in, to and over the Regulatory Asset, including its Regulatory Asset Account, to the Alternative Collection Agent and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Collection Agent to enforce the Regulatory Asset on behalf of the Absolute Assignees.Not Used. [NTD: The Servicer should manage this process.]

(12) **No Set-off, etc.** - The Regulatory Asset, including rights in Transition Charges, Transition Charge Collections, and the interests of a Regulatory Asset Owner, an Absolute Assignee and a Pledgee therein, may not be setoff or reduced (including by counterclaim, surcharge or defense) by any RetailRegulated Consumer, any Electricity Distributor, IESOServicer, Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or in connection with any default, bankruptcy, reorganization or other insolvency proceeding of any Electricity Distributor,

~~IESO~~Servicer, Alternative Collection Agent or any owner of distribution system assets in the Province, any affiliate or successor thereof or any other entity or otherwise.[~~15~~12]

(13) **Sequestration** – If any Electricity Distributor, ~~IESO~~Servicer, the Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or entity authorized to collect Transition Charges, defaults on any required remittance of Transition Charge Collections, Electricity Distribution Remittances or IESO Remittances under Article 5, any court in the Province, upon application by and of the Absolute Assignees acting collectively under the Collective Action Agreement and without limiting any other remedies otherwise available to the Absolute Assignees or Pledgees, shall order the sequestration and payment of the Transition Charge Collections, Electricity Distribution Remittances and IESO Remittances, as applicable, for the benefit of the Absolute Assignees, each with respect to its Investment Interest, and the Pledgees as applicable.[~~16~~13]

[NTD: Suggest considering a more typical remedy such as the ability to appoint a receiver. Concept should be moved to Regulations.]

(14) Regulations – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to ~~IESO~~Servicer, any Electricity Distributor or any Alternative Collection Agent to ensure that rights, interests, entitlements, benefits and proceeds in, to, under and from the Regulatory Asset are of fully realized by some or all of the Absolute Assignees and Pledgees.

Article 6 – The Regulatory Asset

[NTD: We believe that the statute should impose a time limit on the ability of IESO to create additional Regulatory Assets under this Act. It is our expectation that this will be no later than 10 years after the commencement of the program.]

[NTD: In addition, additional language is required to address the acquisition of the Regulatory Asset by the Financing Entity, including reference to the consideration being provided for it, funding upfront costs.]

[NTD: The sale of Regulatory Assets must be restricted to Financing Entities controlled by a single entity (initially, OPG).]

[NTD: For greater certainty, a Financing Entity will not be required to purchase Regulatory Assets from IESO.]

(1) **Composition** – The Regulatory Asset shall constitute a current and irrevocable property right and interest consisting, collectively, of the following rights and interests (without duplication):

[~~15~~12] Consider whether it makes sense to create a "deemed collection" payment obligation on Electricity Distributors to the extent a ~~Retail~~Regulated Consumer reduces its payment of Transition Charges, despite this language. Same for Electricity Distributor Remittances and IESO Remittances.

[~~16~~13] Consider adding or substituting this provision for a right to appoint a receiver.

a. the right of ~~IESO (i)~~**a Regulatory Asset Owner** to record its ~~IESO Retained Interest in its accounts in accordance with Section 8(1), having a stated amount from time to time equal to the IESO Retained Interest Amount; and (ii) to receive IESO Recoveries from time to time in accordance with Section 5(6)(b)~~**portion of the Regulatory Asset in its accounts**;

b. the right to impose, bill, invoice, collect and receive Transition Charges from ~~Retail~~**Regulated** Consumers, including the right to determine the amount of Transition Charges in accordance with this Act;

c. the right to enforce the obligations and indebtedness of each ~~Retail~~**Regulated** Consumer to pay the Transition Charges charged to the ~~Retail~~**Regulated** Consumer from time to time in accordance with Article 3, together with all related late payment fees or interest charges arising in respect thereof under the related Electricity Invoices; **[NTD: Do we really want and need the ability for the Financing Entities to chase after individual consumers?] [NTD: This should be the right to provide notices to the OEB of the amounts required for recovery, which the OEB would then be required to accept for purposes of determining the amount of Transition Charges to be charged to consumers]**

d. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Servicer to impose, attribute, charge, bill and invoice the Transition Charges in accordance with Article 4;

e. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Collection Agent to collect, receive and remit amounts received by it in respect of Transition Charges as Electricity Distributor Remittances to or to the account of ~~IESO~~**Servicer** or if applicable the Alternative Collection Agent in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5;

f. the right to enforce the duties and obligations of ~~IESO~~**Servicer** and if applicable the Alternative Collection Agent to collect and receive Electricity Distributor Remittances and to remit IESO Remittances to or to the accounts of the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset, in each case in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by it to recover payment of Electricity Distributor Remittances in accordance with Article 5;

g. the right to receive and collect all Transition Charge Collections, all Electricity Distributor Remittances and all IESO Remittances in accordance with Article 5;

h. all rights and entitlements under each Regulatory Asset Account and all amounts on deposit in any such Regulatory Asset Account;

i. all Related Rights; and

j. all revenue, collections, claims, payments, money and proceeds of or derived from the rights described in (a) through (i), regardless of whether such revenue, collections, claims, payments and proceeds are imposed, invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

A Regulatory Asset and the property rights and interests therein shall exist whether or not Transition Charges have been imposed, charged, invoiced, accrued or collected and notwithstanding that the imposition, attribution, invoicing and collection of Transition Charges will depend on further actions that may not have occurred. **The Regulatory Asset shall continue to exist until all Funding Obligations and Additional Funding Charges have been paid in full.**

(2) **Validity of Dispositions** – ~~Despite any limitations or restrictions on a Disposition that may arise by contract or by operation of any applicable law of the Province or any consent requirement applicable to a Disposition that may arise by operation of any applicable law of the Province, a~~**A** Disposition by IESO **of all or any part of the IESO Funding Shortfall** to an Absolute Assignee ~~made under the Financing Plan~~, or **a Disposition of all or any part of an Investment Interest** by one Absolute Assignee to another Absolute Assignee made under the Financing Plan, shall be permitted and when made shall be valid and enforceable in accordance with the terms of the related Disposition Document and shall be effective to confer upon the Absolute Assignee thereof a valid property right and interest in, to and under the ~~applicable~~**IESO Funding Shortfall or** Investment Interest**, as applicable** (or relevant portion thereof) in accordance with the terms of such Disposition, provided that the parties to the applicable Disposition Document have expressly stated therein that such Disposition is a sale or other absolute transfer. Without limiting the foregoing, any Disposition that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as a true sale and absolute transfer of the ~~Regulatory Asset Owner's applicable~~**IESO Funding Shortfall or an Absolute Assignee's** right, title~~,~~ and interest in, to and under ~~the Regulatory Asset~~**an Investment Interest, as applicable** (or relevant portion thereof), and not merely as a Pledge thereof, and upon such Disposition the assigner or seller under the applicable Disposition Document shall retain no right, title or interest in the **IESO Funding Shortfall or** Investment Interest **(or relevant portion thereof)** subject to the Disposition, including all rights under the **IESO Funding Shortfall or** Investment Interest arising after such Disposition. **[NTD: Subject to review by Osler/dealers.]**

(3) **Perfection and Priority of Dispositions** – Any Disposition of an interest in a Regulatory Asset shall be vested, valid, binding and perfected from the time when such Disposition is made. Such Disposition shall be perfected, vested, valid and binding as against the **IESO or** transferring Regulatory Asset Owner**, as applicable,** and all other persons who have claims of any kind (whether in tort, contract or otherwise) against **IESO or** the transferring Regulatory Asset Owner, **as the case may be,** irrespective of whether such persons have notice of the Disposition and the property rights and interests acquired by the Absolute Assignee under such Disposition shall be free and clear of any liens in favour of such other persons.

(4) **Validity of Pledges** – ~~Despite any limitations or restriction on a Pledge that may arise by contract or by operation of any applicable law of the Province or any consent~~

~~requirement applicable to a Pledge that may arise by operation of any applicable law of the Province, a~~**A** Pledge by an Absolute Assignee may be made to secure any ~~related~~ Funding Obligation and when made shall be valid and enforceable in accordance with its terms and shall be effective to confer upon the Pledgee a valid security interest in, to and in respect of the related Investment Interest in accordance with the terms of the Pledge. ~~Other than as required by the Financing Plan, no~~**No** consent of**, or notice to,** any person shall be required to give effect to a Pledge made to secure any Funding Obligation.

(5) **Perfection and Priority of Pledges** - For purposes of the *Personal Property Security Act* (the "PPSA"), the Regulatory Asset shall be intangible personal property and any Pledge made by an Absolute Assignee in respect of a Funding Obligation **shall, subject to the terms thereof, give rise to a security interest of which the PPSA applies, and** may be perfected by filing a financing statement under the PPSA on that basis. All proceeds of a related Investment Interest that are subject to such a Pledge that are received by the Absolute Assignee shall immediately be subject to the such Pledge, and the security interest in such proceeds shall be perfected pursuant to the PPSA.~~17~~**14** A Pledge perfected under the PPSA shall be a continuously perfected security interest and shall have priority over any other lien or security interest, created by operation of law or otherwise, that may attach to the property rights and interests in the Investment Interest subject to the Pledge unless the Pledgee has otherwise agreed in writing. ~~Subject to the terms of the Collective Action Agreement, a~~**A** Pledgee shall have a perfected security interest in a related Investment Interest, including the Absolute Assignee's rights and interests in and to Transition Charge Collections or other related proceeds in respect of the Investment Interest and that are deposited in any Regulatory Asset Account or other account of any Electricity Distributor, IESO, Alternative Collection Agent or other person who may have commingled such Transition Charge Collections or such other proceeds with other funds. All provisions of the PPSA shall apply to the Regulatory Asset on the basis that it is intangible personal property, except to the extent otherwise provided in this Section 6(5).

(6) **Enforcement of Property Rights** – The rights of any Regulatory Asset Owner to collect and enforce its rights and interests in, to or in respect of the Regulatory Asset shall be exercised in the manner set forth in Article 5.

(7) **Owners of a Specified Portion of the Regulatory Asset** – A Regulatory Asset Owner may effect a Disposition to an Absolute Assignee of a specified portion of its rights and interests in the Regulatory Asset, including by way of a Disposition of a divided or an undivided interest therein as specified in a related Disposition Document~~, in each case under the Financing Plan~~. In no circumstance may the specified portions of the rights and interests in the Regulatory Asset owned by all Regulatory Asset Owners be greater than all of the rights and interests that comprise the Regulatory Asset in the aggregate.

(8) **Collective Action Required** – If a Regulatory Asset Owner's rights and interests in the Regulatory Asset comprises less than the entire property right and interest constituted by the Regulatory Asset, such Regulatory Asset Owner shall only enforce such right and interest on a collective and coordinated basis with each other Regulatory Asset Owner in accordance with the Collective Rights Agreement. **[NTD: Move to Regulations.]**

~~17~~**14** Consider whether to simply leave this and have a financing statement be filed under the PPSA. This would normalize the security interest and reduce any adverse suggestion that security would not otherwise arise.

Article 7 – Establishment of the Fair Allocation Plan[1815] **[NTD: Move entire Article 7 to Regulations, other than 7(1) and 7(2).]**

(1) **Adoption of the Fair Allocation Plan** – The Delegate may, [by written declaration,] designate and adopt a Fair Allocation Plan in compliance with Article 7. The Fair Allocation Plan so designated and adopted shall be the Fair Allocation Plan for all purposes of this Act, except if amended, amended and restated or terminated by a further written declaration made by the Delegate in compliance with Section 7(4).**[the Regulations]**

(2) **Principles and Parameters** – A Fair Allocation Plan shall seek to allocate Future Fair Share of Green Transition Benefits across present and future Retail Consumer Groups**Regulated Consumers** on a basis that the Delegate, in its sole and absolute discretion, determines to be equitable, having regard to the following principles and parameters:

[NTD: E&Y will need to see the guidelines of the Fair Allocation Plan set in reference to parameters that will allow it to establish a modeling curve]

- **[Inflation period: (between November 2017 – and April 2022) bill increases need to be capped at inflation (assumed at 2% for modeling purposes)]**
- **[Transition Period: (May 2022- April 2027) bills increased at a consistent rate which is set so that the borrowing will not exceed the Trust's capacity, which is determined by the Finance Service Manager]**
- **[Amortization Period: (May 2027-April 2047) equitable distribution of Finance Amount among Regulated Consumers]**

1. Future Fair Share of Green Transition Benefits should be allocated over the period ending on the Program End Date.

2. <*The Fair Allocation Plan should specify the Reference Periods for the purpose of* >identifying applicable Retail Consumer Groups and <*allocating Future Fair Share of Green Transition Benefits among* >them< *on a relative basis over time.* >

2. 3. The share of Future Fair Share of Green Transition Benefits allocable to a particular Retail**Regulated** Consumer Group in respect of a Reference Period should be proportionate to a reasonable assessment of the benefits of the Green Generation Initiative to the Retail**such Regulated** Consumer Group over such Reference Period**, other than**> *in exceptional circumstances*<**.**

[1815] The idea is that the Fair Allocation Plan will be set once at the outset based on the principles and parameters described here, all as applied based on information available and the reasonable expectations and discretion of the delegate at such time. If the expectations are not fulfilled (e.g., generators may choose to retire their facilities at the end of their current procurement contracts and not invest in extending service lives to secure further procurement contracts), the Fair Allocation Plan will be unaffected, unless it is specifically amended (assuming amendments will be permitted by the legislation).

4. The share of Future Fair Share of Green Transition Benefits to be allocated to a Retail Consumer Group and any future Retail Consumer Group at a particular time should not exceed the Estimated Future Green Transition Benefits, measured in respect of the Reference Periods following such particular time and to the Program End Date.

5. No future Retail Consumer Group should be allocated an unreasonably disproportionate share of Estimated Future Green Transition Benefits. Except<- *in exceptional circumstances*> or in the case of any reallocation of an Over-Assessed Amount as contemplated in 7, below, the Future Fair Share of Green Transition Benefits to be allocated under a Fair Allocation Plan to any future Retail Consumer Group should have regard to *[Insert formula if a year-over-year maximum amount is determined to be appropriate].*

3. 6. The time value of money should be reflected in the Fair Allocation Plan, in order to equate the relative values of the nominal allocations of Future Fair Share of Green Transition Benefits, calculated in current dollars, to future Retail Consumer Groups over time.>*The Fair Allocation Plan should specify the Reference Periods for the purpose of* <>*allocating Future Fair Share of Green Transition Benefits among* <**Regulated Consumers**> *on a relative basis over time.* <

7. To the extent there has been an Over-Assessed Amount, the Fair Allocation Plan may determine that an adjustment should fairly be made to rebate Retail Consumers for such an amount, by reducing the costs otherwise attributable under the Act to such Retail Consumers. The relative costs of the Green Generation Initiative are reflected under the Act by the attribution of Transition Charges to such Consumer Groups, based on the Financing Plan seeking to track the allocations of benefits under the Fair Allocation Plan. Accordingly, the Maximum Transition Charge Amount determined for one or more Retail Consumer Groups having regard to the Fair Allocation Plan otherwise applicable may be appropriately reduced to recognize the effect of the Over-Assessed Amount. In such a case, a determination to reduce the Maximum Transition Charge Amount applicable for certain related Reference Periods should have regard to the principle that the corresponding rebate should be extended to benefit the Consumer Group or Consumer Groups in closest proximity to the Legislative Implementation Date.

(3) Attribution Methodology – The Fair Allocation Plan shall specify the Attribution Methodology for the purposes of allocating the Period Transition**Finance** Charges across the Retail**Regulated** Consumers of a particular Retail Consumer Group. The Attribution Methodology shall result in an attribution of such Transition Charges that is considered by the Delegate to be equitable, and may have regard to such principles and parameters as may be further set forth in a Regulation.; **provided that**> *the Attribution Methodology* <**shall not be used to limit the recovery of Transition Charges. [NTD: Can the methodology be adjusted outside an amendment? If so, the rating agencies need to understand the limits of any adjustment.]**

(4) Amendments of the Fair Allocation Plan – The Fair Allocation Plan may be amended, amended and restated or terminated by the Delegate, provided that such amendment, amendment and restatement or termination shall (a) not be inconsistent with the principles and parameters set forth in (2) or (3), above, or the Regulation ~~and~~, (b) comply with any restrictions or limitations specified with respect thereto in any Funding Obligation~~.~~**, and (c) not impair any Regulatory Asset, outstanding Funding Obligation or any Transition Charges. [NTD: If the Fair Allocation Plan is amended, there should be no further Regulatory Assets until the revised Fair Allocation Plan and corresponding Financing Plan have been approved.]**

Article 8 – The IESO ~~Retained Interest~~Funding Shortfall

(1) ~~Maintain Books of Account~~ ~~– IESO may maintain books of account to record the IESO Retained Interest Amount and all adjustments thereto from time to time. Such books of account shall be determinative with respect to the amount of IESO's related regulatory asset.~~**Recording of IESO Funding Shortfall -- IESO will record any IESO Funding Shortfall in its books.**

~~**(2) Limitation on Additions** – IESO shall not record additions to the IESO Retained Interest Amount in respect of IESO Funding Shortfalls (a) if such additions are restricted by the terms of any Disposition Document or the Collective Action Agreement, or (b) on or after •, 2017.~~

(2) ~~**(3)**~~ **Dispositions** – IESO may effect a Disposition **of all or any part of the IESO Funding Shortfall** to an Absolute Assignee if (a) the ~~Absolute Assignee has or will concurrently become bound by the Collective Rights Agreement; (b) the~~ Disposition is effected pursuant to a Disposition Agreement duly executed by IESO; **and** (~~c~~**b**) the Financial Services ~~Agent~~**Manager** confirms in writing that the Disposition **complies with any restrictions or limitations specified with respect thereto in any documents evidencing the Funding Obligations and** is permitted under the Financing Plan~~; and (d) the net proceeds payable to IESO from the sale of the related Investment Interest would not exceed the IESO Retained Interest Amount immediately before the time of such Disposition~~.

(3) ~~**(4)**~~ **No Continuing Interest in any Investment Interest** – IESO shall have no continuing right or interest in any ~~Investment Interest~~**IESO Funding Shortfall** subject to a Disposition effected by IESO under a Disposition Document to which IESO is a party~~and IESO shall not assert any such right or interest or take or omit to take any action to exercise or enforce its rights or interests under the IESO Retained Interest if such action or omission would impede or obstruct the rights of any Absolute Assignee or a Pledgee to enforce its rights and interests in any Investment Interest, except if IESO is expressly permitted to take or omit to take such action, respectively, under the related Disposition Document or the Collective Rights Agreement.~~

~~**(5) IESO Financing Costs** – IESO shall be entitled in good faith to incur reasonable financing costs (including interest and other reasonable financing charges) reflecting market terms and conditions and which are payable in arrears, in order to finance its ownership of the IESO Retained Interest from time to time. **(6) IESO Recoveries** –~~

IESO shall, in respect of a month, be entitled to receive from IESO Remittances on a related Settlement Date the amount (if any) available to IESO under Section 5(6)(b).

Article 9 – The Financing Plan [NTD: Move all of Article 9 to Regulations other than 9(1).]

(1) Power to Prepare, Implement and Amend the Financing Plan – The Financial Services AgentManager shall be authorized to prepare, implement and amend a financing plan for the Financing Entities> *and propose the adoption*< of such financing plan as the Financing Plan. If the Financial Services Agent is unwilling or unable to prepare< *and propose the adoption*> of the Financing Plan, the Delegate may by written declaration designate one or more other persons who shall be authorized to prepare, implement and amend the Financing Plan for the purposes of this Act. The Financial Services Manager shall have the right to withdraw its financing plan as the Financing Plan at any time if it determines that implementing the Financing Plan in such manner would not be in the best interests of a Financing Entity.

(2) TermsPrinciples and ConditionsParameters of the Financing Plan – The Financing Plan shall establish the basis for each Absolute Assignee's funding decisions. The Financing Plan shall have having regard to the principles and parameters set forth in Schedule 3 and such other conditions and requirements as may be specified in a written declaration of the Delegate or in accordance with the Regulation.3.

(3) OEB Approval – Any Additional Funding Charge payable to or for the benefit of the Financial Services AgentManager in respect of services provided by the Financial Services Manager (other than third party costs) shall be subject to review and approval by the OEB.

(4) OEB Review of Financing Plan – The [OEB] [shall] undertake an annual review of the records maintained by the Financial Services AgentManager for the purpose of confirming that the Funding Obligations incurred and the Finance Amounts paid by or on behalf of the Absolute Assignees were incurred and paid, respectively, in material conformity with the Financing Plan. [NTD: We would prefer that this be dealt with by an attestation prepared by an officer of the Financial Services Manager.]

(5) Replacement of the Administrative AgentFinancial Services Manager – If the OEB identifies deficiencies or makes recommendations in its review under Section 9(4), the Administrative AgentFinancial Services Manager shall take reasonable measures to remedy such deficiencies if remediable, and shall in any event have regard to the recommendations of the OEB in relation to further actions undertaken by the Financial Services AgentManager under the Financing Plan. If the Financial Services AgentManager is unwilling or unable to reflect such recommendations in relation to such further actions, the Delegate may by written declaration designate one or more other persons who shall thereafter become the Financial Services. Manager. Any replacement must comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations.

(6) Obligation to Apply IESO Remittances – The Financial Services AgentManager shall ensure that amounts transferred to it under Article 5, as agent for and on behalf of the Absolute Assignees, or otherwise in respect of or as proceeds from an applicable Investment Interest shall only be applied or used to pay related Finance Amounts when

they are due and payable and for no other purpose. **[NTD: This can be dealt with by contract.]**

(7) Non-Recourse – The Financing Plan shall be implemented so that Funding Obligations incurred shall be without recourse to or to any assets of the Electricity Distributors, IESO, any Alternative Servicer, any Alternative Collection Agent, the Financial Services Agent**Manager**, the OEB, the Province or the Lieutenant Governor in Council **or Her Majesty in right of Ontario**, other than if and to the extent that such persons or entities are liable for the performance of obligations or duties arising under this Act or expressly agree to become liable pursuant to any Funding Obligation or obligation in relation to a Finance Amount. [All Funding Obligations shall contain a statement to the following effect: "Neither the full faith and credit nor the taxing power of the Province of Ontario is pledged to the payment of the principal of, or interest on, this [obligation].]

(8) Incurrences are Binding – Notwithstanding anything to the contrary in this Act, each**Each** Disposition made to or by an Absolute Assignee and**,** all amounts payable or becoming due and payable by or on behalf of an Absolute Assignee under or in connection with any obligation purporting to be a Funding Obligation **and each Pledge entered into by an Absolute Assignee**, shall be **valid and** binding for the purposes of this Act, including in determining the amount of related Transition Charges, despite**notwithstanding** any impairment or defect resulting from such failure**defect in the manner in incurrence or any inconsistency with the Fair Allocation Plan or the Financing Plan**.

[Article 10 – Compliance Matters[19][16]

(1) Right of the [OEB] to Inspect Books and Records - For the purpose of investigating compliance with the provisions of this Act, the OEB shall have the right, jurisdiction, power and authority to examine the books and records of *[Insert names if any]*.

(2) [OPG's Rate Settings – When setting other rates for or in respect of OPG, the OEB shall not take into account (a) the administrative or servicing fees charged by OPG as Financial Services Agent**Manager** [in excess of the actual incremental costs incurred by such person of providing administrative or servicing services]; (b) the cost consequences to OPG of being the Financial Services Agent**Manager**; or (c) the consequence of OPG consolidating the assets and liabilities of any Financing Entity for OPG's accounting purposes, in each case in setting any regulated payment amounts for OPG.][20][17]

[19][16] As noted above, the outcome of any regulatory action undertaken by the OEB will not affect Funding Obligations that have been incurred under the Financing Plan. This Article and any potential role for the Auditor General is still under consideration.

[20][17] As an alternative to this provision, consider clarifying under s. 78.1(4) of the OEB Act (which currently gives the OEB discretion in setting payment amounts subject to O. Reg. 53/05) that the OEB in setting OPG payment amounts for prescribed generation shall not consider OPG's role as Administrative Agent**Financial Services Manager** of any Financing Entities associated with the Fair Hydro initiative, perhaps with the exception of any operating fees that may be received by OPG for performing that role.

Article 11 – Undertaking of the ~~Lieutenant Governor in Council~~[21]Her Majesty in right of Ontario[18]

(1) No Action to limit, alter, or impair or terminate Transition Charges, the Regulatory Asset or Collections – ~~The [Lieutenant Governor in Council]~~**Her Majesty in right of Ontario** shall not in any way take or permit **(including by any agency or administrative body)** any action to reduce, impair, postpone or terminate the obligation of ~~Retail~~**Regulated** Consumers to pay Transition Charges or to impair the Regulatory Asset or the collection or recovery of Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances, either directly or indirectly, including through the introduction of any bill or the passing of any legislation or regulation having such effect. The amount of Transition Charges determined under this Act shall not be subject in any way to reduction, impairment, postponement or termination as a result of any action taken or failure by ~~the Lieutenant Governor in Council~~**Her Majesty in right of Ontario (including by any agency or administrative body)**, including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(2) Undertaking and Agreement – ~~The [Lieutenant Governor in Council]~~**Her Majesty in right of Ontario** shall not:

(a) in any way take or permit any action that limits, alters or impairs the value of any Investment Interest;

(b) except as required by the estimates and adjustments made in determining the True-up Amount, reduce, alter or impair Transition Charges that are imposed, billed, invoiced, collected and remitted for the benefit of the Absolute Assignees or any Pledgee from time to time;

(c) permit the amendment, amendment and restatement or termination of the Fair Allocation Plan if such amendment , amendment and restatement or termination would adversely affect the validity or enforceability of any Funding Obligation or the rights of an Absolute Assignee or Pledgee thereunder, **or would not otherwise comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations,**

in each case including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(3) Successor IESO – If IESO is restructured, dissolved or becomes insolvent or is otherwise incapable of performing its obligations under this Act, **an IESO** Successor ~~IESO~~ shall **immediately** be established **by Her Majesty in right of Ontario** to perform such obligations.

~~21~~[18] Under consideration, including the dealers' request for a "servicer guarantee" and a "contractual guarantee" to address a "Change of Law" or if all or a portion of the legislation is *ultra vires*, requiring (at the lenders option), the Province to pay principal and interest on the outstanding debt until maturity or payout the entire debt including any make-wholes. ⊥
In the event of a market disruption that renders it impossible to refinance debt when required (or where financing of amounts required to service the debt is not available because of a market disruption where the Financing Entity was relying on such further issuance of debt until the recovery is set to begin to fund interest), either the Province must step in and payout the debt or there must be the right to recover the debt from ratepayers as it becomes due, notwithstanding the intended rate cut.

(4) Compensation for Failure – Absolute Assignees shall be compensated by Her Majesty in right of Ontario for any losses suffered by them as a result of any failure by ~~the Lieutenant Governor in Council~~Her Majesty in right of Ontario to comply with its undertakings and agreements in this Article 11.~~22~~19

(5) No Wind-up of Financing Entity. No Financing Entity may be voluntarily wound up, liquidated or dissolved until one year after all of its Funding Obligations are repaid. [NTD: This concept can be contained in the Regulations.]

(6) References to the Undertaking and Agreement – Any non-confidential reference to the Undertaking of the ~~Lieutenant Governor in Council~~Her Majesty in right of Ontario, including in marketing materials and other documentation authorized for use by the Administrative in connection with any Funding Obligation, may be made provided that [*Add conditions to protect the Province*].

Article 12 – Regulations

Regulations may be made under this Act for the purposes described in Sections •,•,• and • and may be promulgated for any of the following purposes:

(a) to set standards and measures regarding the commercially reasonable requirements of the Province associated with an Absolute Assignee incurring Funding Obligations or becoming obligated to pay any Finance Amount, including to establish guidelines regarding all-in funding costs; permitted Additional Funding Charges; required maturities and redemption and termination rights of Funding Obligations; liquidity requirements, in each case to a Financing Plan that is consistent in its effect with the Fair Allocation Plan;

(b) to establish and empower one or more regulated entities to undertake decision-making activities with respect to this Act;

(c) to set out reasonable requirements regarding the appointment or retention of advisors, agents, service providers, contract counterparties, including in relation to 'market terms and conditions' parameters;

(d) to provide for audit and compliance standards applicable to those persons who are or may become obligated or have duties that arise under this Act [or under any Funding Obligation];

(e) to provide for any pre-vetting and approval requirements in relation to any incurrence by an Absolute Assignee of any Funding Obligation or obligation to pay any Finance Amount; and

(f) to provide for appeal and due process considerations in connection with the establishment, adoption, implementation and review of the Fair Allocation Plan or the Financing Plan.

Article 13- Miscellaneous~~23~~20

~~22~~19 Requested by ~~Torys~~Dealers. For discussion.

~~23~~20 OPG would like the specific amendments related to OPG to be included in the Bill.]

(1) **Choice of law** – The law governing, as applicable, the validity, enforceability, attachment, perfection, priority and exercise of remedies with respect to the transfer of an interest or right or creation of a security interest in the Regulatory Asset, any Transition Charge or the Undertaking of the Province shall be the laws of the Province.

(2) **Conflict of law** – In the event of conflict between this Act and any other law of the Province regarding the attachment, assignment or perfection, or the effect of perfection, or priority of any Disposition or Pledge, this Act shall govern to the extent of the conflict.

(3) **No further acts or approvals required** - Notwithstanding any provisions of any law of the Province to the contrary, no approvals, notices or authorizations other than those specified in this Act shall be required with respect to the actions to be taken in compliance with this Act, including under the Financing Plan or in relation to the establishment of the Fair Allocation Plan, and the transactions and contracts authorized in or contemplated by this Act or the Financing Plan, including the incurrence of any Funding Obligation, any Disposition, any Pledge or in the payment and performance of any attendant or incidental contract and any related expenses incurred to facilitate the preparation and implementation of the Financing Plan.

(4) **Effect of invalidity after the Incurrence of any Funding Obligation** - Effective on the date that a Funding Obligation is incurred under this Act, if any provision of this Act is held to be invalid or is invalidated, superseded, replaced, repealed or expires for any reason, that occurrence shall not affect any action allowed under this Act that is taken by any person who is or may become obligated or have duties that arise under this Act and any such action shall remain in full force and effect.

(5) **Severability** - If any Article, Section, paragraph or subparagraph of this Act or the application thereof to any person, circumstance or transaction is held by a court of competent jurisdiction to be unconstitutional or invalid, the unconstitutionality or invalidity shall not affect the constitutionality or validity of any other Article, Section, paragraph or subparagraph of this act or its application or validity to any person, circumstance or transaction, including the irrevocability of Transition Charges, the validity of the Regulatory Asset, the incurrence of any Funding Obligation, any Disposition, any Pledge, or the collection and recovery of Transition Charge Collections. To these ends, the Legislature hereby declares that the provisions of this Act are intended to be severable and that the Legislature would have enacted this Act even if any Article, Section, paragraph or subparagraph of this Act held to be unconstitutional or invalid had not been included in this Act.

Schedule 1

Guidelines for Estimates

[To be considered.]

Schedule 2

Requirements Applicable to Alternative Invoicing Agent/ Alternative Collection Agent

[To be considered.]

Schedule 3[24]

Principles and Parameters for Establishing the Financing Plan

The following principles and parameters provide a guideline as to what a Financing Plan should address:

~~(1)~~ ~~in respect of each Reference Period, make reference to the allocations of Future Fair Share of Green Transition Benefits to each Reference Group contemplated by the Fair Allocation Plan;~~

~~(2)~~ ~~estimate IESO Funding Shortfalls for each Reference Period;~~

~~(3)~~ ~~consider alternative funding arrangements suitable to fund the estimated IESO Funding Shortfalls, including short term and/or long term Funding Obligations;~~

(1) ~~(9)~~ consider quantities, maturities, payment obligations, prepayment or redemption rights and such other features of Funding Obligations so that payments made for a Reference Period reasonably correspond to the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

(2) ~~(4)~~ if the anticipated amount of any Repayment (together with payments of other Finance Amounts) to be made in respect of a Reference Period would materially exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable ~~Retail Consumer Group~~**Regulated Consumers** under the then current Fair Allocation Plan, diligent efforts should be made to determine whether a Refinancing or deferral of such Repayment may be reasonably and cost-effectively effected based on then prevailing market terms, conditions an circumstances;

(3) ~~(5)~~ reflect the assumptions and requirements specified in any contemplated Funding Obligation (e.g., any limit on the maximum amount of Transition Charges charged to a hypothetical ~~Retail~~**Regulated** Consumer relative to his or her monthly electricity bill, as prescribed by any rating agency that ascribes its credit rating to or in respect of the Funding Obligation **[having regard to the application of the ~~Allocation~~Attribution Methodology][NTD: Are the words in square brackets necessary?]**);

(4) require the Financial Services Manager, for and on behalf of each Regulatory Asset Owner, to use diligent efforts to manage Finance Amounts to be borne by Ratepayers;

(5) include a proposal regarding the compensation of the Financial Services Manager that reflects market terms and conditions; and

(6) ~~incur Funding Obligations from time to time on the best terms available at such time for a financing transaction of the size and type contemplated, and having regarding to the following parameters:~~**require that the Financial Services Manager report annually to**

[24] ~~Awaiting input from Torys based on OPG mark-up of Financing Plan sections.~~

the Ministry of Energy on the operation of the Financing Plan including, in particular, with respect to the amount and terms of the Funding Obligations incurred and the sufficiency of such Funding Obligations for the purpose of funding the estimated Funding Shortfalls in accordance with the Fair Allocation Plan.

~~a. whether the Absolute Assignees will require committed access to short term liquidity to cover estimated IESO Funding Shortfalls prior to incurring fixed term Funding Obligations, and the amount and repayment terms of any such required liquidity; provided that any Repayment required to be made under the terms of such short term liquidity would not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;~~

~~b. the basis upon which the Financial Services Agent will select the term to maturity of any other Funding Obligations; provided that any Repayments required to be made under the terms of such Funding Obligations should not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;~~

~~c. the basis upon which the interest rates applicable to such Funding Obligations would be determined;~~

~~d. the reference capital or finance market in which such Funding Obligation would be incurred, including markets outside of Canada if considered by the Financial Services Agent to be appropriate in the circumstances;~~

~~e. the currency of payments under such Funding Obligations and, if the Funding Obligations are denominated in a currency other than Canadian dollars, the basis upon which the Financial Services Agent shall cause the applicable Absolute Assignee to enter into hedging transactions to mitigate currency risk, including acceptable minimum and maximum coverage levels, having regard to the availability of related derivatives having notional amounts corresponding to the repayment and maturity profile of such Funding Obligations;~~

~~f. the basis upon which the Financial Services Agent will select counterparties under any transaction to be entered into by an Absolute Assignee, including any paying agent, servicer, cash manager, liquidity provider, hedge counterparty, account bank, lender, note trustee, security trustee, paying agent, registrar/transfer agent, financial services agent, arranger or manager;~~

~~g. the basis upon which the Financial Services Agent will manage counterparty risk, including by providing for maximum counterparty exposure limits having regard~~

to concentration, credit and other identified risks with respect to individual counterparties or countries;

h. the basis upon which the Financial Services Agent will negotiate and settle Finance Amounts, including the amount of any Redemption Amounts, Finance Reserve Deposits and Additional Funding Charges;

(7) the basis upon which Funding Obligations may be redeemed, prepaid, repurchased or otherwise affected, having regard for the need to minimize debt service charges and other Funding Costs, and the need to maintain a stable funding platform to finance the IESO Funding Shortfalls from time to time on a basis that is consistent with the allocations of Future Fair Share of Green Transition Benefits to applicable Reference Groups under the Fair Allocation Plan;

(8) the basis upon which any Repayments, Funding Costs and Redemption Amounts will be paid, including any defeasance, sinking fund or through other reserves or liquidity facilities;

(9) the basis upon which fees, charges, expenses, costs, indemnities, reimbursements and other amounts payable to or for the benefit of the Financial Services Agent and other agents and service providers to the Absolute Assignees may be determined, allocated and paid;

(10) the timing and basis upon which Finance Reserve Deposits and Finance Reserve Withdrawals may be made;

(11) the basis upon which any obligations for any other Additional Funding Charges may be incurred and paid;

(12) the basis upon which the cash flows arising from time to time or otherwise derived from the Regulatory Asset may otherwise be applied, including in relation to any counterparty enforcement and realization scenario;

(13) the transmittal to [the IESO] of information related to the amounts to be included in the determination of the Period Transition Charge for a Reference Period;

(14) the basis upon which any Disposition may be made or effected by an Absolute Assignee, including parameters for determining the purchase price for the interest in the Regulatory Asset that is the subject matter of such Disposition, and any consents and releases that may be usefully obtained in connection with such Disposition;

(15) describe the requirements applicable to any special purchase entity that will purchase an Investment Interest, including proposed capitalization, governance, and restrictions on their powers and activities; and

(16) the basis on which any Pledge may be given or effected.

Fair_Hydro_Act Torys_Osler Mark-up April 11 2017 Draft (Torys-Oslers_Apr....pdf

CONFIDENTIAL AND PRIVILEGED

Preliminary Draft for Discussion Purposes Only

"Fair Hydro Act"

Article 1 – Purpose

The Province has and continues to encourage the construction and development of facilities for the long-term operation and generation of electricity in the Province using sustainable, lower carbon-based technologies such as new gas-fired generation, renewable facilities, energy from waste and biomass, including under the Province's various procurement, standard offer, feed in tariff and other similar programs (the "Green Generation Initiative"). The long-term benefits of the Green Generation Initiative accrue over time and have benefited and will continue to benefit present and future electricity consumers in the Province.

The out-of-market costs of the Green Generation Initiative are currently passed through to electricity consumers by way of a monthly adjustment amount (the "Green Costs Adjustment"), which in turn forms part of the overall adjustment calculated by the Independent Electricity System Operator ("IESO") pursuant to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* (the "Global Adjustment").

The Green Costs Adjustment is currently determined each month by reference to the amounts paid by IESO to the generators of electricity in the Province under the Green Generation Initiative. These amounts paid by the IESO arise because IESO has entered into long-term procurement contracts with such generators in order to provide them with revenue certainty, and in turn to encourage the generators to develop technologies and to construct and develop facilities consistent with the Green Generation Initiative. **[NTD: This statement is not correct in respect of all IESO procurement contracts.]** It has been determined that the useful lives of many of the assets developed under the Green Generation Initiative will be in excess of the respective terms of their respective procurement contracts.

Since the benefits to past, present and future electricity consumers from the Green Generation Initiative will not necessarily coincide with the costs currently attributed through the Green Costs Adjustment, based on the respective terms of the applicable procurement contracts, it has been determined that the rate at which the costs associated with the Green Generation Initiative should be passed through to Regulated Consumers (as defined in Article 2) should be more closely aligned with the benefits that such Regulated Consumers have derived and are expected to derive from the Green Generation Initiative over time. This realignment will be based on general principles and parameters that establish a reasonable basis for measuring and allocating the relative costs and benefits of the Green Generation Initiative equitably across present and future Regulated Consumers (the "Fair Allocation Plan"). **[NTD: There is no explanation as to why realignment is limited to Regulated Consumers.]**

If the Fair Allocation Plan determines that the equitable allocation of the costs associated with the Green Generation Initiative to the Regulated Consumers of a particular time period should be reduced below the amount that currently would be charged based on the Green Costs Adjustment, then the amount payable by such Regulated Consumers and in turn available to IESO will, in the aggregate, be less than the amount payable by the IESO to the generators in

respect of such period. In this case, IESO will need to obtain funding from another source to cover such a shortfall. If a funding obligation is incurred to cover such a shortfall during any period, the repayment of such funding obligation will be required in a future period, and any related repayments, finance costs, hedging costs and other transaction costs incurred will become payable in future periods. In order for IESO to obtain a reliable and committed source of cash flows to enable IESO to repay such funding amounts when they become due and payable, this Act imposes irrevocable and non-bypassable financial obligations on Regulated Consumers to pay amounts incurred in respect of such funding obligations when they become due and payable and establishes a right to invoice and collect such amounts. The right and interest in and to collect such financial obligations will take the form of the Regulatory Asset contemplated in this Act, which will constitute property rights and interests. Interests in the Regulatory Asset may be sold and absolutely assigned by IESO to one or more financing entities, which in turn will finance their acquired interests by incurring funding obligations. The incurrence and payment of such funding obligations will be administered on behalf of such financing entities by a financial services manager under the Financing Plan contemplated in this Act.

[NTD: Our strong preference is to limit the introduction to the next paragraph and move defined terms from the previous paragraphs to Article 2]

The purpose of this Act is to establish the basis upon which intergenerational fairness can be achieved by charging the costs and benefits of the Green Generation Initiative to present and future Regulated Consumers on an equitable and cost effective basis.

Article 2 – Definitions

In this Act: **[NTD: It would be preferable to use plain language definitions in the legislation and leave the more detailed definitions to either the regulations or the agreements contemplated hereunder.]**

> "Absolute Assignee" means a person to whom a Regulatory Asset Owner effects a Disposition other than as security.
>
> "Actual" means, in relation to costs, expenses or payments in respect of Funding Obligations during a Reference Period, the actual amount of such costs, expenses or payments paid or made (net of any Finance Reserve Withdrawals applied to pay such amounts), which amounts shall be recorded by the Financial Services Manager whose records shall be determinative for the purposes of this Act except to the extent of a manifest calculation error.
>
> "Additional Funding Charges" means, for a Reference Period, the fees, charges, expenses, costs, indemnities, reimbursements and other amounts (including any applicable tax amounts) that are or become payable by or on behalf of the Absolute Assignee during the Reference Period and that were incurred or committed to directly or indirectly by the Absolute Assignee in connection with the incurrence of Funding Obligations under the Financing Plan (whether at the time of such incurrence or over the term of the Funding Obligation and whether directly or indirectly), including without limitation such amounts as may be prescribed.
>
> **[NTD: See section 5(11). Remove this concept globally.]**

"Alternative Servicer" means a person appointed under Section 4(8) to assume the obligations of the Servicer under Article 4, as agent for and on behalf of the Regulatory Asset Owners. **[NTD: We see this, in effect, as the same thing as the IESO Successor; that is, replacement of the master Servicer.]**

"Assessed Past Green Transition Costs" means, in respect of a Measurement Date, the aggregate of the imputed costs of the Green Generation Initiative (expressed as an equivalent to current dollars), as reflected in the calculation of the Green Costs Adjustment, which have been charged to Retail Customers through the Global Adjustment on or prior to the Measurement Date.

"Attribution Methodology"[1] means the methodology specified in the Fair Allocation Plan for allocating the Period Finance Charges for a Reference Period to Regulated Consumers. **[NTD: We understood that the Ministry accepted that the transition charge would be a volumetric rate.][NTD: Can be moved to Regulations.]**

"Collected Amount Adjustment" means, in respect of a True-Up Period, the amount (which may be a negative amount) calculated by the Servicer or the Financial Services Manager, as applicable, equal to (a) the Estimate of the Finance Amount for the True-Up Period, minus (b) the sum of all Transition Charge Collections for the True-Up Period.[2]

"Collective Rights Agreement" means an agreement among all of the Regulatory Asset Owners (including each Absolute Assignee), each Pledgee, and the Financial Services Manager that governs the enforcement of their respective rights and interests in, to and under the Regulatory Asset on a coordinated and collective basis. **[NTD: Move to Regulations.]**

"Delegate" means any of the following person or persons designated in writing from time to time by the Minister of Energy to undertake the actions and perform the responsibilities ascribed to the "Delegate" under this Act: ●. **[NTD: Why is this delegation of authority necessary? This requires further discussion and clarity as to which entity or entities that the Province can select as the Delegate; for example, it would not be acceptable for the Province to select the OEB to be the Delegate. If this is required, an acceptable delegate would be a stakeholder committee comprised of representatives from the Ministry of Energy, the OEB, the IESO, and OPG. In addition, the regulation should prescribe how the stakeholder committee would operate.]**

"Disposition" means an assignment, transfer, conveyance, sale, contribution, set-over, exchange or other disposition of (a) IESO's right to recover all or any portion of an IESO Funding Shortfall or (b) an Investment Interest to an Absolute Assignee, in each case pursuant to a Disposition Document.

---

[1] This allocation may be volumetric or some combination of a flat amount and a volumetric charge. Further discussion is required. H&W has raised a concern regarding possible adverse changes after the fact and rating agency considerations. Consider whether hard-coding in the legislation makes sense.

[2] This would pick up adjustments based on actual collection experience, changes in the Regulated Consumer base, changes in the actual costs (versus earlier estimates) included in the Transition Charge calculation, etc.

"Disposition Document" means the agreement, deed, conveyance, instrument or other document under which IESO or an Absolute Assignee effects a Disposition to an Absolute Assignee.

"Electricity Distributor" means a rate regulated distributor licensed under Part V of the *Ontario Energy Board Act, 1998*, together with and its successors.

"Electricity Distributor Remittances" means, for an Electricity Distributor on a Remittance Date, all Transition Charge Collections received or deemed to be received **[NTD: estimated to be received? will each Electricity Distributor know?]** by the Electricity Distributor prior to the Remittance Date and that have not otherwise been remitted to Servicer or if applicable the Alternative Collection Agent in accordance with Section 5(3), including the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5.

"Electricity Invoice" means an invoice issued by an Electricity Distributor (or in its stead, by an Alternative Collection Agent), by the Servicer or by a Retailer, in each case to a Regulated Consumer that is served by the Electricity Distributor's distribution system in respect of electricity charges, including the cost of electricity, delivery and regulatory charges and related services and amounts incurred, assessed or charged in respect of connectivity to such Electricity Distributor's distribution system and in respect of applicable Transition Charges to be charged to the Regulated Consumer under this Act. **[NTD: The Alternative Servicer should only invoice for Transition Charges, not the entire invoice. Also, to avoid confusion, we suggest using the word "invoice" in reference to what the IESO sends out to distributors, and "bills" in reference to what distributors send out to consumers.]**

"Estimate" means (a) in relation to costs, expenses or payments in respect of Funding Obligations or any Finance Amount for a Reference Period, the estimated amount of such costs, expenses or payments determined by the Financial Services Manager; and (b) in relation to an assessment of the benefits of the Green Generation Initiative to Regulated Consumers, the estimated value (in current dollars) of such benefits determined by the Delegate, in each case having regard to the applicable principles and parameters set out in Schedule 1, which estimated amounts shall be determinative as the applicable estimate for the purposes of this Act except to the extent of a manifest calculation error.

"Estimated Future Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that are expected to accrue to Regulated Consumers from the establishment and implementation of the Green Generation Initiative during the period from the Measurement Date to the Program-End Date.

"Estimated Past Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that have accrued to Regulated Consumers from the establishment and implementation of the Green Generation Initiative up to and including the Measurement Date.

"Fair Allocation Plan" has the meaning given in Article 1.

"Finance Amount" means, for a Reference Period, the sum (without duplication) of the following amounts that are or become payable during the Reference Period in respect of all Absolute Assignees: (a) Repayments; (b) Net Funding Costs; (c) Redemption Amounts; (d) Finance Reserve Deposits; and (e) Additional Funding Charges.

"Finance Reserve Deposits" means, for a Reference Period, the amount by which (a) deposits made or to be made during the Reference Period in order to pre-fund, collateralize, over-collateralize or establish reserves for the ultimate payment of Funding Obligations or for related contingencies specified in the Financing Plan, exceed (b) any Finance Reserve Withdrawals. **[NTD: Move this to regulation.]**

"Finance Reserve Withdrawals" means, for a Reference Period, the amount withdrawn during the Reference Period from deposits previously made to pre-fund, collateralize, over-collateralize or establish reserves for the payment of Funding Obligations or to pay amounts in respect of related contingencies that had been specified in the Financing Plan. **[NTD: Move this to regulation.]**

"Financial Services Manager" means OPG or, following any Replacement Event involving OPG, such other person who may be appointed as the financial services manager of the Absolute Assignees under the Financing Plan in compliance with the requirements set out in Schedule 2.[3]

"Financing Entity" means any entity established at the initiative of and managed by the Financial Services Manager to support the Financing Plan.[4]

"Financing Plan" means the written plan prepared by the Financial Services Manager in accordance with Article 9, as the same may be amended, amended and restated or terminated by the Financial Services Manager in accordance with Article 9 from time to time.

"Funding Obligation" means, in respect of an Absolute Assignee, each payment obligation (including, without limitation, each obligation to pay: principal, interest, premiums and other financing charge payments; pass-through payments; payment obligations arising under or in respect of derivatives; payment obligations owing to service providers, Financial Services Managers, finance entity intermediaries, capital markets intermediaries, advisors, lenders, credit enhancement providers, liquidity providers, disbursement counterparties, regulatory agencies and rating agencies; and all Additional Funding Charges) incurred by or on behalf of the Absolute Assignee under

---

[3] There must only be one Financial Services Manager.

[4] MOE to confirm that the legislation will provide that any Financing Entity that is a wholly-owned subsidiary of OPG (1) would not be subject to Part VI of the *Electricity Act* (Ontario) and (2) in the case of any Financing Entity that is a trust, any income of such trust (for purposes of the *Income Tax Act* (Canada) or the *Taxation Act, 2007* Ontario)) which is paid or made payable to OPG or a wholly-owned subsidiary of OPG as a beneficiary of such trust will not be taken into account in calculating the amount of a payment required to be made by OPG (or such subsidiary) by section 89 or 90 of the Electricity Act.

the Financing Plan, including any Refinancing of another such payment obligation incurred by or on behalf of such Absolute Assignee.

"Future Fair Share of Green Transition Benefits" means, in respect of a Measurement Date, the sum of (a) the Over-Assessed Amount; and (b) the Estimated Future Green Transition Benefits, in each case as of the Measurement Date.

"Global Adjustment" has the meaning given in Article 1.

"Green Costs Adjustment" has the meaning given in Article 1.

"Green Generation Initiative" has the meaning given in Article 1.

"IESO" means the Independent Electricity System Operator created pursuant to Part II of the *Electricity Act, 1998*.

"IESO Electricity Distribution Receipts" means, for a month, the sum of all amounts payable by Electricity Distributors to IESO , during the month pursuant to section • of the *Electricity Act* in respect of Regulated Consumers. **[NTD: IESO indicates that it likely does not work to express in regards to "amounts payable by the LDCs" because settlement between the IESO and LDCs entails payments by LDCs to the IESO and then credits/debits by the IESO to LDCs to reflect RPP shortfalls/overages.]**

"IESO Funding Shortfall" means, for a month, the amount, if any, by which (a) the IESO Electricity Distribution Receipts that would be payable to IESO for the month if determined without regard to this Act and without regard to the changes made to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* with respect to the Global Adjustment concurrently with this Act, exceeds (b) the IESO Electricity Distribution Receipts payable to IESO for the month[5].To the extent reasonably necessary to give effect to this Act, or any transaction contemplated hereby, IESO shall calculate the IESO Funding Shortfall for any month taking into account information provided by the Electricity Distributors and (i) such calculation shall be binding for all purposes; and (ii) any demonstrated inaccuracy in the calculation for any month (including any such resulting from inaccuracies in the information provided by Electricity Distributors) shall be accounted for by adjusting the IESO Funding Shortfall for a subsequent month. **[NTD: Need to add the mechanism for IESO to record this shortfall because without that there is no Regulatory Asset. This IESO Funding Shortfall is the regulatory asset owned by IESO.]**

"IESO Remittances" means, for a Settlement Date, all Electricity Distributor Remittances received by IESO or if applicable the Alternative Collection Agent prior to the Settlement Date and that have not otherwise been remitted to the Regulatory Asset Owners (each with respect to its Regulatory Asset) in accordance with Section 5(6), including the proceeds of any enforcement action undertaken by IESO or if applicable the Alternative

[5] This has been recast to recognize that the shortfall in the first 4.5 years could exceed the entire GA amount. A more refined approach to describing the concept may be considered.

Collection Agent to recover payment of amounts payable by Electricity Distributors to IESO in accordance with Article 5.

"IESO Successor" means the entity appointed by the Province to succeed to the rights and obligations of IESO as the entity responsible for managing the Province's electricity system.

"Investment Interest" means an ownership interest in, to or under the Regulatory Asset that is acquired by an Absolute Assignee pursuant to a Disposition.

"Investment Remittance" means, for a month, the lesser of (a) the aggregate amount of all IESO Remittances for the month, and (b) the sum of the Funding Obligations due and payable by all Absolute Assignees in respect of the month.

"Measurement Date" means [Insert relevant date around the Legislation Implementation Date] and any other date specified as such under the Fair Allocation Plan.

"Net Funding Costs" means, for a Reference Period in respect of a Financing Entity, the amount by which (a) the aggregate of all interest, scheduled principal and other periodic finance charges accruing due and becoming payable or paid by or on behalf of the Absolute Assignee during the Reference Period in respect of its Funding Obligations, including such amounts as may be prescribed, exceeds (b) the aggregate of all amounts received by or on behalf of the Absolute Assignee during the Reference Period in respect of the Funding Obligations referred to in (a), including such amounts as may be prescribed.

"OEB" means the Ontario Energy Board, together with its successors.

"OPG" means the corporation incorporated as Ontario Power Generation Inc. under the *Business Corporations Act* on December 1, 1998, together with its successors.

"Over-Assessed Amount" means, in respect of a Measurement Date, the amount (if any) by which (a) the Assessed Past Green Transition Costs, exceeds (b) the Estimated Past Green Transition Benefits, each as determined as of the Measurement Date.

"Period Finance Charges" means, for a Reference Period, the sum of (a) the Estimate of the Finance Amount (b) the True-Up Amount in respect of the applicable True-Up Period and (c) an adjustment amount as may be prescribed to account for estimated collection shortfalls and collection delays in respect of amounts under (a) and (b).

"Pledge" means, in respect of an Investment Interest of an Absolute Assignee, a lien, mortgage, charge or security interest granted to or in favour of a Pledgee by the Absolute Assignee in, to and over all or a specified portion (including a specified portion on a divided basis or by way of an undivided interest) of the Investment Interest.

"Pledgee" means a person to whom an Absolute Assignee grants a Pledge.

"Program End Date" means •, [2047].

"Province" means the Province of Ontario.

"Redemption Amount" means the amount payable by or on behalf of an Absolute Assignee to redeem, prepay or repurchase a Funding Obligation incurred by or on behalf of the Absolute Assignee, including any premium, make-whole or other additional amount becoming payable under the Funding Obligation to give effect to such redemption, prepayment or repurchase.

"Reference Period" means (a) the period from (and including) the Measurement Date to (and including) October 30, 2017, (b) each six month period commencing [May 1st and November 1st] thereafter and (c) any other period specified as such in the Fair Allocation Plan.

"Refinancing" means, in respect of a Funding Obligation incurred by or on behalf of an Absolute Assignee, that the Funding Obligation is repaid or repurchased for cancellation by or on behalf of the Absolute Assignee by applying the net proceeds obtained by the Absolute Assignee incurring one or more other Funding Obligations.

"Regulated Consumer" means consumers of electricity in the Province as prescribed.

[NTD: There are a number of issues with this definition. First, the word "Retail" is a source of confusion as it implies customers of licensed retailers. Really, the purpose of the term is to define the group of consumers that are eligible to receive the benefit of the Fair Hydro program and who will bear the cost of the program over the long term. We have proposed "Regulated Consumer" but you could also use the term "Eligible Consumer" or "Fair Hydro Eligible Consumer" and for purposes of the legislation to say that it is a member of a class of consumers prescribed by the regulations for purposes of the relevant section of the legislation. The regulation would then describe who is in the class. Second, it may not be appropriate to rely on the class of consumers prescribed for the purposes of s. 79.16 or under the OREC Act. Section 79.16 is the section that defines the class of RPP consumers. We understand that the "Fair Hydro Eligible Consumers" are not an identical class to that which is eligible for the RPP or for the Ontario Rebate for Electricity Consumers. For example, we have heard that Fair Hydro Eligible Consumers will (a) exclude consumers served by independent power authorities (certain remote communities not served by Hydro One Remotes), and (b) include consumers served by licensed unit sub-metering providers, licensed retailers and certain consumers served directly by the IESO (which may or may not be captured by the classes under 79.16 or OREC). Third, it is not clear why consumers with contracts with retailers who use retailer consolidated billing are removed from the first part of the definition but then added back into the second part of the definition. Fourth, Retailers do not necessarily have physical electricity assets that would be connected to the grid. Some just sell or offer contracts for electricity. As such, the first few lines after (b) are problematic. Fifth, the phrase "purchase electric generation services from a provider of electric generation services other than the owner of the Province's transmission and distribution system assets" does not make sense. A consumer does not purchase generation services from a transmitter or distributor. Rather, a consumer receives distribution services from a distributor. In addition to charging for its distribution services, the distributor also charges the associated

transmission costs and commodity costs associated with the volumes delivered. Those commodity costs are the price of the electricity itself and are almost entirely made up of the amounts determined under the global adjustment. Sixth, the phrase "whether or not the transmission and distribution system assets continue to be owned or operated by Electricity Distributors or operated by IESO" does not make sense. Transmission assets are owned and operated by transmitters. Distribution assets are owned and operated by distributors. The IESO does not own but does administer and direct the operation of the transmission system.]

"Regulatory Asset" means the property rights and interests described in Section 6(1), which collectively is comprised of each Investment Interest.

"Regulatory Asset Account" means (a) for an Electricity Distributor, any bank account into which the Electricity Distributor deposits or receives Transition Charge Collections; and (b) for the Servicer, any bank account into which Servicer deposits or receives Transition Charges, Electricity Distributor Remittances or IESO Remittances.

"Regulatory Asset Owner" means each Absolute Assignee, as owner of its Investment Interest or Investment Interests, and "Regulatory Asset Owners" means collectively each such Absolute Assignee, who together own the entirety of the Regulatory Asset and are required to exercise their individual rights of ownership in accordance with Section 6(7).

"Related Rights" means, with respect to a Regulatory Asset Owner's Investment Interest, all rights of any kind (whether in tort, contract or otherwise) that attach or are attendant or incidental to any of the other property rights or interests that comprise such Investment Interest.

"Remittance Date" means, in respect of an Electricity Distributor, each day on which it is required to remit Electricity Distribution Remittances to Servicer or if applicable the Alternative Collection Agent as specified in accordance with any Funding Obligation or, if no such day is specified in accordance with any Funding Obligation, then the Business Day **[NTD: Not defined.]** preceding each Settlement Date. **[NTD: Move to Regulations. Remittances will be in accordance with the current rules.]**

"Repayment Obligation" means an obligation to repay or to provide for the repayment (including by making a related Finance Reserve Deposit) of, all or a portion of the amount advanced to the Absolute Assignee under a Funding Obligation.

"Repayment" means a payment by an Absolute Assignee made to satisfy a Repayment Obligation, other than to the extent that the payment is made by applying the proceeds of a Refinancing or from Finance Reserve Withdrawals.

"Replacement Event" means any event specified as such in a Funding Obligation.

"Retailer" means a person who is licensed under Part V of the *Ontario Energy Board Act, 1998* to retail electricity.

"Retailer Consolidated Billing" has the same meaning as in the *Retail Settlement Code* issued by the Ontario Energy Board.

"Servicer" means IESO or IESO Successor, as agent for and on behalf of the Regulatory Asset Owners, for the purposes set forth in Article 4.

"Settlement Date" means the [last Business Day of any month].

"Transition Charge" means, the amount recoverable from a Regulated Consumer in respect of a Reference Period, being the Period Finance Charge as allocated to such Regulated Consumer in accordance with Article 4(3) on a monthly basis. **[NTD: This needs to be grossed up to account for variability associated with expected uncollectables and remittance delays.]** **[NTD: Do not need to create parallel process. The definition should be linked to the OEB process for determining the volumetric rate as part of the RPP process (see s. 4(2)). The OEB will determine volumetric rate based on forecast consumption, number of consumers, etc. to recover the Period Finance Charges.]**

"Transition Charge Collection" means any amount received **[or deemed by this Act to have been received]** by the Absolute Assignees upon the collection of a Transition Charge paid by or on behalf of a Regulated Consumer, including any proceeds arising from the exercise and enforcement of any related rights and interests under or in respect of the Regulatory Asset.

"True-Up Amount" means, in respect of a Reference Period, the amount (which may be a negative amount) calculated by the Financial Services Manager equal to (a) the Actual Finance Amount for such related True-Up Period, minus (b) the Estimate of the Finance Amount for the related True-Up Period, , plus (c) the Collected Amount Adjustment for such related True-Up Period. **[NTD: need to discuss how this will work for our true-up. What about prior period shortages? An example of how this works needs to be provided.]**

"True-Up Period" means, in relation to a Reference Period, the immediately preceding Reference Period.

"Undertaking of Her Majesty in right of Ontario" means the undertaking of Her Majesty in right of Ontario given under Section 11(2).

Article 3 – Transition Charges

(1) **Regulated Consumer Obligation to Pay a Transition Charge** – Each Regulated Consumer shall pay each Transition Charge charged to it in any Electricity Invoice issued to such Regulated Consumer by its Electricity Distributor or by an Alternative Servicer under Section 4(1), in each case on the terms of payment specified in the related Electricity Invoice.

(2) **Indebtedness of Regulated Consumers** – Until paid, a Transition Charge charged to a Regulated Consumer in an Electricity Invoice shall, together with any applicable late payment fees and finance charges arising under the terms of the Electricity Invoice with respect to such Transition Charge, constitute non-bypassable indebtedness of the

Regulated Consumer to the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset. Such indebtedness shall constitute a single and separate[6] debt obligation owing by the Regulated Consumer, which subject to Article 5 may be enforced independently from any other payment obligation or indebtedness owing by the Regulated Consumer under the Electricity Invoice or otherwise.[7]

(3) No Set-Off or Reduction – A Regulated Consumer may not set-off or reduce (by counterclaim, defense or otherwise) the amount payable by it in respect of any Transition Charge, including any set-off against or in respect of any amount owing or becoming payable to such Regulated Consumer by its Electricity Distributor, any Regulatory Asset Owner or any other person.

(4) Allocation of Regulated Consumer Payments – If an Electricity Distributor receives a payment made by or on behalf of a Regulated Consumer in respect of amounts due and payable under one or more Electricity Invoices that is less than the total amount payable thereunder, such payment shall be subject to rights and benefits that are no less favourable than the treatment accorded to other amounts payable to the IESO by the Electricity Distributor.

(5) Transition Charges are Irrevocable – The Transition Charges arising under or in respect of Funding Obligations (including any adjustments based on modifications to such Funding Obligations made in compliance with the Financing Plan or as a result of amendments to the Financing Plan made in accordance with Section 9(3)) are deemed to be irrevocable, final and effective without any further action, except to the extent of manifest calculation error. For greater certainty, a Transition Charge may include Finance Amounts for a Reference Period regardless of whether the payment of such Finance Amounts are inconsistent with the Fair Allocation Plan applicable at the time such payments are due and payable, and regardless of whether the related Funding Obligation was properly incurred under the Financing Plan. In no case shall a Funding Obligation incurred under the Financing Plan be affected by a subsequent amendment to the Fair Allocation Plan.

(6) True-Up of Transition Charges? – [NTD: Include specifics regarding the true-up of the charges and the process for the true-up, but move to Regulations. The True-Up Mechanism should require the Transition Charges to be reviewed and adjusted semi-annually to ensure the expected recovery of amounts sufficient to timely provide all payments in respect of Funding Obligations, provided that in some cases it may need to be adjusted more frequently than semi-annually, e.g., as part of a refinancing.]

(7) Commencement of Invoicing and Collection of Transition Charges – [NTD: Please confirm that as drafted, Transition Charges will begin on the Measurement Date.]

---

[6] Determine if this is critical for rating and markets. Logistics under consideration.

[7] Torys has also suggested that deemed conditions of licenses for distributors, retailers and unit sub-metering providers, could be included as conditions, to require them to collect and remit amounts in accordance with this legislation. Consider if it is helpful to integrate the existing regulatory scheme for invoicing and collections (regarding RPP) in the legislation.

Article 4 – Invoicing of Transition Charges [NTD: Move Article 4 sections (1) to (4) to Regulations. Also note, these sections remain subject to further due diligence by the Dealers.]

(1) **Inclusion of Transition Charges in Electricity Invoices** – Each Electricity Distributor and if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, specify the Transition Charge to be charged to a Regulated Consumer pursuant to Section 4(4) in respect of a related Reference Period in each Electricity Invoice issued by the Electricity Distributor or if applicable by the Alternative Servicer to the Regulated Consumer in respect of such Reference Period. Upon the inclusion of a Transition Charge in an Electricity Invoice, the obligation to pay such amount shall be binding on the applicable Regulated Consumer. **[NTD: Must capture bills issued to eligible consumers served by unit sub-metering providers, retailers and the IESO – not just distributors][NTD: This provision also needs to address the inclusion of Transition Charges in invoices from the IESO to the LDC, consistent with the current process of how the IESO bills LDCs.]**

(2) **Calculation of the Period Finance Charge** – Not later than [35] days prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services Manager on its behalf) shall provide the OEB with written notice of each Estimate of a Finance Amount payable by it or on its behalf in respect of the Reference Period. Not later than one month prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services Manager on its behalf) shall calculate the Period Finance Charge applicable to the Reference Period having regard to such amounts specified by the Servicer, which calculations, information and amounts shall be accepted by the OEB and shall be determinative, except to the extent of manifest calculation error or misstatement.

(3) **Calculation and Attribution of Transition Charges** – Not later than 25 days prior to the first day of a Reference Period, the OEB shall apply the Attribution Methodology to determine the allocation of the Transition Charge for each Regulated Consumer. **[NTD: We think the OEB would be determining the Fair Hydro recovery rate (on a volumetric basis) that distributors would then be required to charge to consumers]**

(4) **Notice of Transition Charges** – Not later than 20 days prior to the first day of a Reference Period, the OEB shall inform each Electricity Distributor and if applicable any Alternative Servicer of the Transition Charges to be specified in the Electricity Invoices to be issued to each Regulated Consumer who is served by the Electricity Distributor.

(5) **Adjustments** – The amount of any Transition Charge charged to a Regulated Consumer and specified as such in an Electricity Invoice shall be determinative of the amount of indebtedness created thereby and owing in respect of such Transition Charge, except to the extent of any manifest calculation error.

(6) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 4 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 4 to impose, attribute, charge, bill and invoice the Transition Charges.

(7) **IESO Successor** – Any IESO Successor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of IESO under Article 4 in the same manner and to the same extent as IESO, including the obligation to calculate and provide notice of Transition Charges.

(8) **Appointment of an Alternative Servicer** – If a Replacement Event occurs in respect of any Electricity Distributor, the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Servicer to perform some or all of the obligations and duties required to be undertaken by such Electricity Distributor under this Article 4, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Servicer shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor. Any Electricity Distributor that is replaced under this Section 4(8) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in the performance of such obligations and duties to the Alternative Servicer and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Servicer to perform such obligations and duties on behalf of the Regulatory Asset Owners. **[NTD: We would expect the IESO to manage this in accordance with its normal business practices.]**

(9) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, the Servicer, Alternative Servicer or any other person who may be authorized to issue Electricity Invoices to Regulated Consumers for a failure to impose, attribute, charge, bill or invoice Transition Charges or to otherwise comply with this Act. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure and may make any interim or final order it thinks fit in this regard. **[NTD: We would like to see the sections on "Standing" to bring an action to remain in the legislation (as opposed to being moved to the regulations as we believe we previously suggested) as we see those provisions as part of ensuring a rigorous enforcement scheme for the Financing Entity (and so something that should be difficult for the Province to change going forward).]**

(10) **No Set-Off or Reduction –** No Servicer or Electricity Distributor may set off or reduce (by counterclaim, defence or otherwise) the amount payable by it pursuant to this Article 4.

(11) **Regulations** – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Servicer to ensure that Transition Charges are properly charged to Regulated Consumers and specified as such in Electricity Invoices.

Article 5 – Collections and Remittances [NTD: Move Article 5 sections (3), (6), (9), (12), (13) and (14) to Regulations.]

(1) **Duty to Collect as Agent** – Electricity Distributors or if applicable any Alternative Collection Agent shall, as an agent of the Servicer, collect amounts owing by Regulated Consumers in respect of Transition Charges charged to such Regulated Consumers in

Electricity Invoices issued by the Electricity Distributor or if applicable such Alternative Collection Agent all in accordance with the Regulations. **[NTD: The obligation to collect and remit the Transition Charge should be included as a deemed condition of license for electricity distributors (and retailers and unit sub-metering providers).]**

(2) **Segregation of Transition Charge Collections** – An Electricity Distributor or if applicable any Alternative Collection Agent shall promptly segregate Transition Charge Collections from other payments received by it from Regulated Consumers and deposit such Transition Charge Collections into its Regulatory Asset Account.[8] **[NTD: Determine if this is critical for rating and markets or if segregation can occur in the hands of the IESO]** Prior to and following a deposit of Transition Charge Collections having been made into its Regulatory Asset Account, the Electricity Distributor or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners or its Pledgee.

(3) **Electricity Distributor Remittances** – On each applicable Remittance Date, an Electricity Distributor shall remit all amounts invoiced by the IESO on account of the Transition Charge in respect of the related Reference Period to or to the account of Servicer or if applicable the Alternative Collection Agent. **[NTD: It is the Dealers expectation that the Transition Charge will be paid on the same basis as other amounts invoiced by the IESO, failing which, they will need to be remitted daily.]**

(4) **Duty to Collect Electricity Distributor Remittances** – Servicer or if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, accept and collect Electricity Distributor Remittances from Electricity Distributors and Transition Charge Collections from Regulated Consumers that pay their Electricity Invoices directly to IESO on the same basis as it accepts and collects other charges from such Regulated Consumers.[9]

(5) **Segregation of Electricity Distributor Remittances** – Servicer and if applicable the Alternative Collection Agent shall promptly segregate Electricity Distributor Remittances from other payments received or held by it and deposit such Electricity Distributor Remittances into its Regulatory Asset Account. Prior to and following a deposit of Electricity Distributor Remittances having been made into its Regulatory Asset Account, Servicer or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners or Pledgee.

(6) **Servicer Remittances** – On each Settlement Date[10], Servicer shall remit all amounts on deposit in its Regulatory Asset Account to or to the account of the Absolute Assignees an amount equal to the Investment Remittance for the related month.

---

[8] Consider trying to attach to existing LDC credit enhancements and provide parallel coverage for customer losses.

[9] Consider building this obligation into a deemed condition of licence for the IESO.

[10] Consider frequency of remittances in light of rating requirements. US rating agencies favour daily remittances.

(7) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 5 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 5 to collect Transition Charges and make remittances of Electricity Distributor Remittances.

(8) **IESO Successors** – IESO Successors shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of IESO under Article 5 in the same manner and to the same extent as IESO, including the obligation to collect Transition Charge Collections, Electricity Distributor Remittances and to remit IESO Remittances.

(9) **Owners of Distribution Assets** - If any person other than an Electricity Distributor acquires distribution system assets in the Province or invoices or collects electricity distribution rates in the Province[11], then such person shall, if requested by the Absolute Assignees, be obligated to act diligently to (a) facilitate the invoicing and collection of any Transition Charges applicable to Regulated Consumers connected to such person's distribution system assets; (b) allocate partial payments by Regulated Consumers as provided in this Act; (c) exercise all enforcement rights of the Absolute Assignees for the benefit of an Absolute Assignee; and (d) remit any Transition Charge Collections to the Absolute Assignees or Pledgees, as applicable, each in accordance with its Investment Interest. **[NTD: Such acquisition of a distribution system would require the person to be an electricity distributor; consider deleting since this is covered off by Section 5(7).]**

(10) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, Servicer, the Alternative Collection Agent, any owner of electricity distribution system assets in the Province or any other person who may be authorized to collect electricity distribution and use charges from Regulated Consumers for a failure to collect Transition Charges, remit or collect Electricity Distributor Remittances or remit IESO Remittances, as and to the extent applicable under Article 5, or to otherwise comply with this Act. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure and may make any interim or final order it thinks fit in this regard.

(11) **Not Used. [NTD: The Servicer should manage this process.**]

(12) **No Set-off, etc.** - The Regulatory Asset, including rights in Transition Charges, Transition Charge Collections, and the interests of a Regulatory Asset Owner, an Absolute Assignee and a Pledgee therein, may not be setoff or reduced (including by counterclaim, surcharge or defense) by any Regulated Consumer, any Electricity Distributor, Servicer, Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or in connection with any default, bankruptcy, reorganization or other insolvency proceeding of any Electricity Distributor, Servicer,

[11] This is in anticipation of a possible future restructuring of the distribution system.

Alternative Collection Agent or any owner of distribution system assets in the Province, any affiliate or successor thereof or any other entity or otherwise.[12]

(13) **Sequestration** – If any Electricity Distributor, Servicer, the Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or entity authorized to collect Transition Charges, defaults on any required remittance of Transition Charge Collections, Electricity Distribution Remittances or IESO Remittances under Article 5, any court in the Province, upon application by and of the Absolute Assignees acting collectively under the Collective Action Agreement and without limiting any other remedies otherwise available to the Absolute Assignees or Pledgees, shall order the sequestration and payment of the Transition Charge Collections, Electricity Distribution Remittances and IESO Remittances, as applicable, for the benefit of the Absolute Assignees, each with respect to its Investment Interest, and the Pledgees as applicable.[13]

[NTD: Suggest considering a more typical remedy such as the ability to appoint a receiver. Concept should be moved to Regulations.]

(14) Regulations – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to Servicer, any Electricity Distributor or any Alternative Collection Agent to ensure that rights, interests, entitlements, benefits and proceeds in, to, under and from the Regulatory Asset are of fully realized by some or all of the Absolute Assignees and Pledgees.

Article 6 – The Regulatory Asset

[NTD: We believe that the statute should impose a time limit on the ability of IESO to create additional Regulatory Assets under this Act. It is our expectation that this will be no later than 10 years after the commencement of the program.]

[NTD: In addition, additional language is required to address the acquisition of the Regulatory Asset by the Financing Entity, including reference to the consideration being provided for it, funding upfront costs.]

[NTD: The sale of Regulatory Assets must be restricted to Financing Entities controlled by a single entity (initially, OPG).]

[NTD: For greater certainty, a Financing Entity will not be required to purchase Regulatory Assets from IESO.]

---

[12] Consider whether it makes sense to create a "deemed collection" payment obligation on Electricity Distributors to the extent a Regulated Consumer reduces its payment of Transition Charges, despite this language. Same for Electricity Distributor Remittances and IESO Remittances.

[13] Consider adding or substituting this provision for a right to appoint a receiver.

(1) **Composition** – The Regulatory Asset shall constitute a current and irrevocable property right and interest consisting, collectively, of the following rights and interests (without duplication):

a. the right of a Regulatory Asset Owner to record its portion of the Regulatory Asset in its accounts;

b. the right to impose, bill, invoice, collect and receive Transition Charges from Regulated Consumers, including the right to determine the amount of Transition Charges in accordance with this Act;

c. the right to enforce the obligations and indebtedness of each Regulated Consumer to pay the Transition Charges charged to the Regulated Consumer from time to time in accordance with Article 3, together with all related late payment fees or interest charges arising in respect thereof under the related Electricity Invoices; **[NTD: Do we really want and need the ability for the Financing Entities to chase after individual consumers?] [NTD: This should be the right to provide notices to the OEB of the amounts required for recovery, which the OEB would then be required to accept for purposes of determining the amount of Transition Charges to be charged to consumers]**

d. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Servicer to impose, attribute, charge, bill and invoice the Transition Charges in accordance with Article 4;

e. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Collection Agent to collect, receive and remit amounts received by it in respect of Transition Charges as Electricity Distributor Remittances to or to the account of Servicer or if applicable the Alternative Collection Agent in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5;

f. the right to enforce the duties and obligations of Servicer and if applicable the Alternative Collection Agent to collect and receive Electricity Distributor Remittances and to remit IESO Remittances to or to the accounts of the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset, in each case in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by it to recover payment of Electricity Distributor Remittances in accordance with Article 5;

g. the right to receive and collect all Transition Charge Collections, all Electricity Distributor Remittances and all IESO Remittances in accordance with Article 5;

h. all rights and entitlements under each Regulatory Asset Account and all amounts on deposit in any such Regulatory Asset Account;

i. all Related Rights; and

j. all revenue, collections, claims, payments, money and proceeds of or derived from the rights described in (a) through (i), regardless of whether such revenue, collections, claims, payments and proceeds are imposed, invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

A Regulatory Asset and the property rights and interests therein shall exist whether or not Transition Charges have been imposed, charged, invoiced, accrued or collected and notwithstanding that the imposition, attribution, invoicing and collection of Transition Charges will depend on further actions that may not have occurred. The Regulatory Asset shall continue to exist until all Funding Obligations and Additional Funding Charges have been paid in full.

(2) **Validity of Dispositions** – A Disposition by IESO of all or any part of the IESO Funding Shortfall to an Absolute Assignee, or a Disposition of all or any part of an Investment Interest by one Absolute Assignee to another Absolute Assignee made under the Financing Plan, shall be permitted and when made shall be valid and enforceable in accordance with the terms of the related Disposition Document and shall be effective to confer upon the Absolute Assignee thereof a valid property right and interest in, to and under the IESO Funding Shortfall or Investment Interest, as applicable (or relevant portion thereof) in accordance with the terms of such Disposition, provided that the parties to the applicable Disposition Document have expressly stated therein that such Disposition is a sale or other absolute transfer. Without limiting the foregoing, any Disposition that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as a true sale and absolute transfer of the IESO Funding Shortfall or an Absolute Assignee's right, title and interest in, to and under an Investment Interest, as applicable (or relevant portion thereof), and not merely as a Pledge thereof, and upon such Disposition the assigner or seller under the applicable Disposition Document shall retain no right, title or interest in the IESO Funding Shortfall or Investment Interest (or relevant portion thereof) subject to the Disposition, including all rights under the IESO Funding Shortfall or Investment Interest arising after such Disposition. **[NTD: Subject to review by Osler/dealers.]**

(3) **Perfection and Priority of Dispositions** – Any Disposition of an interest in a Regulatory Asset shall be vested, valid, binding and perfected from the time when such Disposition is made. Such Disposition shall be perfected, vested, valid and binding as against the IESO or transferring Regulatory Asset Owner, as applicable, and all other persons who have claims of any kind (whether in tort, contract or otherwise) against IESO or the transferring Regulatory Asset Owner, as the case may be, irrespective of whether such persons have notice of the Disposition and the property rights and interests acquired by the Absolute Assignee under such Disposition shall be free and clear of any liens in favour of such other persons.

(4) **Validity of Pledges** – A Pledge by an Absolute Assignee may be made to secure any Funding Obligation and when made shall be valid and enforceable in accordance with its terms and shall be effective to confer upon the Pledgee a valid security interest in, to and in respect of the related Investment Interest in accordance with the terms of the

Pledge. No consent of, or notice to, any person shall be required to give effect to a Pledge made to secure any Funding Obligation.

(5) **Perfection and Priority of Pledges** - For purposes of the *Personal Property Security Act* (the "PPSA"), the Regulatory Asset shall be intangible personal property and any Pledge made by an Absolute Assignee in respect of a Funding Obligation shall, subject to the terms thereof, give rise to a security interest of which the PPSA applies, and may be perfected by filing a financing statement under the PPSA on that basis. All proceeds of a related Investment Interest that are subject to such a Pledge that are received by the Absolute Assignee shall immediately be subject to the such Pledge, and the security interest in such proceeds shall be perfected pursuant to the PPSA.[14] A Pledge perfected under the PPSA shall be a continuously perfected security interest and shall have priority over any other lien or security interest, created by operation of law or otherwise, that may attach to the property rights and interests in the Investment Interest subject to the Pledge unless the Pledgee has otherwise agreed in writing. A Pledgee shall have a perfected security interest in a related Investment Interest, including the Absolute Assignee's rights and interests in and to Transition Charge Collections or other related proceeds in respect of the Investment Interest and that are deposited in any Regulatory Asset Account or other account of any Electricity Distributor, IESO, Alternative Collection Agent or other person who may have commingled such Transition Charge Collections or such other proceeds with other funds. All provisions of the PPSA shall apply to the Regulatory Asset on the basis that it is intangible personal property, except to the extent otherwise provided in this Section 6(5).

(6) **Enforcement of Property Rights** – The rights of any Regulatory Asset Owner to collect and enforce its rights and interests in, to or in respect of the Regulatory Asset shall be exercised in the manner set forth in Article 5.

(7) **Owners of a Specified Portion of the Regulatory Asset** – A Regulatory Asset Owner may effect a Disposition to an Absolute Assignee of a specified portion of its rights and interests in the Regulatory Asset, including by way of a Disposition of a divided or an undivided interest therein as specified in a related Disposition Document. In no circumstance may the specified portions of the rights and interests in the Regulatory Asset owned by all Regulatory Asset Owners be greater than all of the rights and interests that comprise the Regulatory Asset in the aggregate.

(8) **Collective Action Required** – If a Regulatory Asset Owner's rights and interests in the Regulatory Asset comprises less than the entire property right and interest constituted by the Regulatory Asset, such Regulatory Asset Owner shall only enforce such right and interest on a collective and coordinated basis with each other Regulatory Asset Owner in accordance with the Collective Rights Agreement. **[NTD: Move to Regulations.]**

---

[14] Consider whether to simply leave this and have a financing statement be filed under the PPSA. This would normalize the security interest and reduce any adverse suggestion that security would not otherwise arise.

Article 7 – Establishment of the Fair Allocation Plan[15] [NTD: Move entire Article 7 to Regulations, other than 7(1) and 7(2).]

(1) **Adoption of the Fair Allocation Plan** – The Delegate may, by written declaration, designate and adopt a Fair Allocation Plan in compliance with Article 7. The Fair Allocation Plan so designated and adopted shall be the Fair Allocation Plan for all purposes of this Act, except if amended, amended and restated or terminated by a further written declaration made by the Delegate in compliance with **[the Regulations]**

(2) **Principles and Parameters** – A Fair Allocation Plan shall seek to allocate Future Fair Share of Green Transition Benefits across present and future Regulated Consumers on a basis that the Delegate, in its sole and absolute discretion, determines to be equitable, having regard to the following principles and parameters:

[NTD: E&Y will need to see the guidelines of the Fair Allocation Plan set in reference to parameters that will allow it to establish a modeling curve]

- [**Inflation period**: (between November 2017 – and April 2022) bill increases need to be capped at inflation (assumed at 2% for modeling purposes)]

- [**Transition Period**: (May 2022- April 2027) bills increased at a consistent rate which is set so that the borrowing will not exceed the Trust's capacity, which is determined by the Finance Service Manager]

- [**Amortization Period**: (May 2027-April 2047) equitable distribution of Finance Amount among Regulated Consumers]

1. Future Fair Share of Green Transition Benefits should be allocated over the period ending on the Program End Date.

2. The share of Future Fair Share of Green Transition Benefits allocable to a particular Regulated Consumer in respect of a Reference Period should be proportionate to a reasonable assessment of the benefits of the Green Generation Initiative to such Regulated Consumer over such Reference Period, other than in exceptional circumstances.

3. The Fair Allocation Plan should specify the Reference Periods for the purpose of allocating Future Fair Share of Green Transition Benefits among Regulated Consumers on a relative basis over time.

---

15 The idea is that the Fair Allocation Plan will be set once at the outset based on the principles and parameters described here, all as applied based on information available and the reasonable expectations and discretion of the delegate at such time. If the expectations are not fulfilled (e.g., generators may choose to retire their facilities at the end of their current procurement contracts and not invest in extending service lives to secure further procurement contracts), the Fair Allocation Plan will be unaffected, unless it is specifically amended (assuming amendments will be permitted by the legislation).

(3) **Attribution Methodology** – The Fair Allocation Plan shall specify the Attribution Methodology for the purposes of allocating the Period Finance Charges across the Regulated Consumers. The Attribution Methodology shall result in an attribution of such Transition Charges that is considered by the Delegate to be equitable, and may have regard to such principles and parameters as may be further set forth in a Regulation; provided that the Attribution Methodology shall not be used to limit the recovery of Transition Charges. **[NTD: Can the methodology be adjusted outside an amendment? If so, the rating agencies need to understand the limits of any adjustment.]**

(4) **Amendments of the Fair Allocation Plan** – The Fair Allocation Plan may be amended, amended and restated or terminated by the Delegate, provided that such amendment, amendment and restatement or termination shall (a) not be inconsistent with the principles and parameters set forth in (2) or (3), above, or the Regulation, (b) comply with any restrictions or limitations specified with respect thereto in any Funding Obligation, and (c) not impair any Regulatory Asset, outstanding Funding Obligation or any Transition Charges. **[NTD: If the Fair Allocation Plan is amended, there should be no further Regulatory Assets until the revised Fair Allocation Plan and corresponding Financing Plan have been approved.]**

Article 8 – The IESO Funding Shortfall

(1) **Recording of IESO Funding Shortfall** -- IESO will record any IESO Funding Shortfall in its books.

(2) **Dispositions** – IESO may effect a Disposition of all or any part of the IESO Funding Shortfall to an Absolute Assignee if (a) the Disposition is effected pursuant to a Disposition Agreement duly executed by IESO; and (b) the Financial Services Manager confirms in writing that the Disposition complies with any restrictions or limitations specified with respect thereto in any documents evidencing the Funding Obligations and is permitted under the Financing Plan.

(3) **No Continuing Interest in any Investment Interest** – IESO shall have no continuing right or interest in any IESO Funding Shortfall subject to a Disposition effected by IESO under a Disposition Document to which IESO is a party.

Article 9 – The Financing Plan [NTD: Move all of Article 9 to Regulations other than 9(1).]

(1) **Power to Prepare, Implement and Amend the Financing Plan** – The Financial Services Manager shall be authorized to prepare, implement and amend a financing plan for the Financing Entities and propose the adoption of such financing plan as the Financing Plan for the purposes of this Act. The Financial Services Manager shall have the right to withdraw its financing plan as the Financing Plan at any time if it determines that implementing the Financing Plan in such manner would not be in the best interests of a Financing Entity.

(2) Principles and Parameters of the Financing Plan – The Financing Plan shall establish the basis for each Absolute Assignee's funding decisions having regard to the principles and parameters set forth in Schedule 3.

(3) OEB Approval – Any Additional Funding Charge payable to the Financial Services Manager in respect of services provided by the Financial Services Manager (other than third party costs) shall be subject to review and approval by the OEB.

(4) Review of Financing Plan – The [OEB] shall undertake an annual review of the records maintained by the Financial Services Manager for the purpose of confirming that the Funding Obligations incurred and the Finance Amounts paid by or on behalf of the Absolute Assignees were incurred and paid, respectively, in material conformity with the Financing Plan. **[NTD: We would prefer that this be dealt with by an attestation prepared by an officer of the Financial Services Manager.]**

(5) Replacement of the Financial Services Manager – If the OEB identifies deficiencies or makes recommendations in its review under Section 9(4), the Financial Services Manager shall take reasonable measures to remedy such deficiencies if remediable, and shall in any event have regard to the recommendations of the OEB in relation to further actions undertaken by the Financial Services Manager under the Financing Plan. If the Financial Services Manager is unwilling or unable to reflect such recommendations in relation to such further actions, the Delegate may by written declaration designate one or more other persons who shall thereafter become the Financial Services Manager. Any replacement must comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations.

(6) Obligation to Apply IESO Remittances – The Financial Services Manager shall ensure that amounts transferred to it under Article 5, as agent for and on behalf of the Absolute Assignees, or otherwise in respect of or as proceeds from an applicable Investment Interest shall only be applied or used to pay related Finance Amounts when they are due and payable and for no other purpose. **[NTD: This can be dealt with by contract.]**

(7) Non-Recourse – The Financing Plan shall be implemented so that Funding Obligations incurred shall be without recourse to or to any assets of the Electricity Distributors, IESO, any Alternative Servicer, any Alternative Collection Agent, the Financial Services Manager, the OEB or Her Majesty in right of Ontario, other than if and to the extent that such persons or entities are liable for the performance of obligations or duties arising under this Act or expressly agree to become liable pursuant to any Funding Obligation or obligation in relation to a Finance Amount.

(8) Incurrences are Binding – Each Disposition made to or by an Absolute Assignee, all amounts payable or becoming due and payable by or on behalf of an Absolute Assignee under or in connection with any obligation purporting to be a Funding Obligation and each Pledge entered into by an Absolute Assignee, shall be valid and binding, including in determining the amount of related Transition Charges, notwithstanding any defect in the manner in incurrence or any inconsistency with the Fair Allocation Plan or the Financing Plan.

[Article 10 – Compliance Matters[16]

(1) Right of the [OEB] to Inspect Books and Records - For the purpose of investigating compliance with the provisions of this Act, the OEB shall have the right, jurisdiction, power and authority to examine the books and records of *[Insert names if any]*.

(2) [OPG's Rate Settings – When setting other rates for or in respect of OPG, the OEB shall not take into account (a) the administrative or servicing fees charged by OPG as Financial Services Manager [in excess of the actual incremental costs incurred by such person of providing administrative or servicing services]; (b) the cost consequences to OPG of being the Financial Services Manager; or (c) the consequence of OPG consolidating the assets and liabilities of any Financing Entity for OPG's accounting purposes, in each case in setting any regulated payment amounts for OPG.][17]

Article 11 – Undertaking of the Her Majesty in right of Ontario[18]

(1) No Action to limit, alter, or impair or terminate Transition Charges, the Regulatory Asset or Collections – Her Majesty in right of Ontario shall not in any way take or permit (including by any agency or administrative body) any action to reduce, impair, postpone or terminate the obligation of Regulated Consumers to pay Transition Charges or to impair the Regulatory Asset or the collection or recovery of Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances, either directly or indirectly, including through the introduction of any bill or the passing of any legislation or regulation having such effect. The amount of Transition Charges determined under this Act shall not be subject in any way to reduction, impairment, postponement or termination as a result of any action taken or failure by Her Majesty in right of Ontario (including by any agency or administrative body), including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(2) Undertaking and Agreement – Her Majesty in right of Ontario shall not:

---

[16] As noted above, the outcome of any regulatory action undertaken by the OEB will not affect Funding Obligations that have been incurred under the Financing Plan. This Article and any potential role for the Auditor General is still under consideration.

[17] As an alternative to this provision, consider clarifying under s. 78.1(4) of the OEB Act (which currently gives the OEB discretion in setting payment amounts subject to O. Reg. 53/05) that the OEB in setting OPG payment amounts for prescribed generation shall not consider OPG's role as Financial Services Manager of any Financing Entities associated with the Fair Hydro initiative, perhaps with the exception of any operating fees that may be received by OPG for performing that role.

[18] Under consideration, including the dealers' request for a "servicer guarantee" and a "contractual guarantee" to address a "Change of Law" or if all or a portion of the legislation is *ultra vires*, requiring (at the lenders option), the Province to pay principal and interest on the outstanding debt until maturity or payout the entire debt including any make-wholes.

In the event of a market disruption that renders it impossible to refinance debt when required (or where financing of amounts required to service the debt is not available because of a market disruption where the Financing Entity was relying on such further issuance of debt until the recovery is set to begin to fund interest), either the Province must step in and payout the debt or there must be the right to recover the debt from ratepayers as it becomes due, notwithstanding the intended rate cut.

(a) in any way take or permit any action that limits, alters or impairs the value of any Investment Interest;

(b) except as required by the estimates and adjustments made in determining the True-up Amount, reduce, alter or impair Transition Charges that are imposed, billed, invoiced, collected and remitted for the benefit of the Absolute Assignees or any Pledgee from time to time;

(c) permit the amendment, amendment and restatement or termination of the Fair Allocation Plan if such amendment, amendment and restatement or termination would adversely affect the validity or enforceability of any Funding Obligation or the rights of an Absolute Assignee or Pledgee thereunder, or would not otherwise comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations,

in each case including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(3) **Successor IESO** – If IESO is restructured, dissolved or becomes insolvent or is otherwise incapable of performing its obligations under this Act, an IESO Successor shall immediately be established by Her Majesty in right of Ontario to perform such obligations.

(4) **Compensation for Failure** – Absolute Assignees shall be compensated by Her Majesty in right of Ontario for any losses suffered by them as a result of any failure by Her Majesty in right of Ontario to comply with its undertakings and agreements in this Article 11.[19]

(5) **No Wind-up of Financing Entity**. No Financing Entity may be voluntarily wound up, liquidated or dissolved until one year after all of its Funding Obligations are repaid. **[NTD: This concept can be contained in the Regulations.]**

(6) **References to the Undertaking and Agreement** – Any non-confidential reference to the Undertaking of the Her Majesty in right of Ontario, including in marketing materials and other documentation authorized for use by the Administrative in connection with any Funding Obligation, may be made provided that [*Add conditions to protect the Province*].

Article 12 – Regulations

Regulations may be made under this Act for the purposes described in Sections •,•,• and • and may be promulgated for any of the following purposes:

(a) to set standards and measures regarding the commercially reasonable requirements of the Province associated with an Absolute Assignee incurring Funding Obligations or becoming obligated to pay any Finance Amount, including to establish guidelines regarding all-in funding costs; permitted Additional

[19] Requested by Dealers. For discussion.

Funding Charges; required maturities and redemption and termination rights of Funding Obligations; liquidity requirements, in each case to a Financing Plan that is consistent in its effect with the Fair Allocation Plan;

(b) to establish and empower one or more regulated entities to undertake decision-making activities with respect to this Act;

(c) to set out reasonable requirements regarding the appointment or retention of advisors, agents, service providers, contract counterparties, including in relation to 'market terms and conditions' parameters;

(d) to provide for audit and compliance standards applicable to those persons who are or may become obligated or have duties that arise under this Act [or under any Funding Obligation];

(e) to provide for any pre-vetting and approval requirements in relation to any incurrence by an Absolute Assignee of any Funding Obligation or obligation to pay any Finance Amount; and

(f) to provide for appeal and due process considerations in connection with the establishment, adoption, implementation and review of the Fair Allocation Plan or the Financing Plan.

Article 13- Miscellaneous[20]

(1) **Choice of law** – The law governing, as applicable, the validity, enforceability, attachment, perfection, priority and exercise of remedies with respect to the transfer of an interest or right or creation of a security interest in the Regulatory Asset, any Transition Charge or the Undertaking of the Province shall be the laws of the Province.

(2) **Conflict of law** – In the event of conflict between this Act and any other law of the Province regarding the attachment, assignment or perfection, or the effect of perfection, or priority of any Disposition or Pledge, this Act shall govern to the extent of the conflict.

(3) **No further acts or approvals required** - Notwithstanding any provisions of any law of the Province to the contrary, no approvals, notices or authorizations other than those specified in this Act shall be required with respect to the actions to be taken in compliance with this Act, including under the Financing Plan or in relation to the establishment of the Fair Allocation Plan, and the transactions and contracts authorized in or contemplated by this Act or the Financing Plan, including the incurrence of any Funding Obligation, any Disposition, any Pledge or in the payment and performance of any attendant or incidental contract and any related expenses incurred to facilitate the preparation and implementation of the Financing Plan.

---

[20] OPG would like the specific amendments related to OPG to be included in the Bill.]

(4) **Effect of invalidity after the Incurrence of any Funding Obligation** - Effective on the date that a Funding Obligation is incurred under this Act, if any provision of this Act is held to be invalid or is invalidated, superseded, replaced, repealed or expires for any reason, that occurrence shall not affect any action allowed under this Act that is taken by any person who is or may become obligated or have duties that arise under this Act and any such action shall remain in full force and effect.

(5) **Severability** - If any Article, Section, paragraph or subparagraph of this Act or the application thereof to any person, circumstance or transaction is held by a court of competent jurisdiction to be unconstitutional or invalid, the unconstitutionality or invalidity shall not affect the constitutionality or validity of any other Article, Section, paragraph or subparagraph of this act or its application or validity to any person, circumstance or transaction, including the irrevocability of Transition Charges, the validity of the Regulatory Asset, the incurrence of any Funding Obligation, any Disposition, any Pledge, or the collection and recovery of Transition Charge Collections. To these ends, the Legislature hereby declares that the provisions of this Act are intended to be severable and that the Legislature would have enacted this Act even if any Article, Section, paragraph or subparagraph of this Act held to be unconstitutional or invalid had not been included in this Act.

Schedule 1

Guidelines for Estimates

[To be considered.]

Schedule 2

Requirements Applicable to Alternative Invoicing Agent/ Alternative Collection Agent

[To be considered.]

Schedule 3

Principles and Parameters for Establishing the Financing Plan

The following principles and parameters provide a guideline as to what a Financing Plan should address:

(1) consider quantities, maturities, payment obligations, prepayment or redemption rights and such other features of Funding Obligations so that payments made for a Reference Period reasonably correspond to the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

(2) if the anticipated amount of any Repayment (together with payments of other Finance Amounts) to be made in respect of a Reference Period would materially exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable Regulated Consumers under the then current Fair Allocation Plan, diligent efforts should be made to determine whether a Refinancing or deferral of such Repayment may be reasonably and cost-effectively effected based on then prevailing market terms, conditions an circumstances;

(3) reflect the assumptions and requirements specified in any contemplated Funding Obligation (e.g., any limit on the maximum amount of Transition Charges charged to a hypothetical Regulated Consumer relative to his or her monthly electricity bill, as prescribed by any rating agency that ascribes its credit rating to or in respect of the Funding Obligation **[having regard to the application of the Attribution Methodology][NTD: Are the words in square brackets necessary?]**);

(4) require the Financial Services Manager, for and on behalf of each Regulatory Asset Owner, to use diligent efforts to manage Finance Amounts to be borne by Ratepayers;

(5) include a proposal regarding the compensation of the Financial Services Manager that reflects market terms and conditions; and

(6) require that the Financial Services Manager report annually to the Ministry of Energy on the operation of the Financing Plan including, in particular, with respect to the amount and terms of the Funding Obligations incurred and the sufficiency of such Funding Obligations for the purpose of funding the estimated Funding Shortfalls in accordance with the Fair Allocation Plan.

OAG ref to IESO acctg.rtf

From: Petsche, Nadine (TBS) []
To: Picard, Michel [mpicard@kpmg.ca]
Subject: OAG ref to IESO acctg
Date: Thursday, April 13, 2017 15:47:46

Hi Michel. We met with the OAG today and they happened to mention that IESO's f/s are now reflecting US GAAP. I wonder, in light of the adoption of IFRS for OPG and H1, wondering if there might be a potential concern with that messaging? N

All - Please find attached the draft “Intergenerational Fairness in Hydro Rates Act, 2017”. A tremendous amount of work has gone into getting to this draft and much more work is required to get this ready for the House. The goal of sharing this document now is to further the process we have engaged in over the last weeks. In the attached, we have included notes to try to address where the drafting is not yet consistent with our thinking. These notes are neither comprehensive nor complete. They are intended only as flags and as colour to the draft. We have not forgotten the comments that you have already provided and we are continuing to working through the translation of the commercial terms we have been discussing into legislative language.

For ease of reference, included with the draft bill are the partially updated Blakes’ summary, a chart that attempts links the articles in that document to the sections of the bill (which is imperfectly numbered at best) and excerpts from the Electricity Act and the Ontario Energy Board Act, related to the consequential amendments.

In your review, please focus on the broad stroke concepts, rather than the minutia, and keep in mind the cascade of instruments that will be required – legislation first, then regulations and finally commercial agreements. We look forward to discussing the broader concepts on Monday

Fair Hydro Act (April 15 2017) Consultationv4.pdf

This confidential draft document is provided for discussion purposes only. It should not be construed as representing a position adopted by the Government of Ontario on any of the topics included or not included in this document. The notes included in this document are intended only to help facilitate a discussion of the topics to which they relate. Any potential legislation is subject to the approval of the Ontario Legislature.

Confidential Draft

A proposal to create Legislation.

Intergenerational Fairness in Hydro Rates Act, 2017, if enacted

EXPLANATORY NOTE TO BE ADDED BY LEGISLATIVE COUNSEL TO ANY FINAL BILL PRIOR TO INTRODUCTION.

[Notes re this draft:
- all numbering of provisions will need to be re-done
- will need to check all definitions to ensure (1) that they are needed; and (2) that they work properly wherever the term is used in the Bill.
- additional consequential amendments likely required still
- overall organization of provisions still TBC (for now just trying to get all of the elements drafted and will reconsider architecture later)]

Preamble

The Government of Ontario is committed to fostering the development of a clean, modern and reliable electricity system with a diverse supply mix including renewable energy, and to removing barriers to and promoting opportunities for renewable energy projects.

The Government of Ontario has established a regulatory and contractual framework related to the generation and sale of electricity to ensure significant investment in decarbonizing and modernizing the generation of electrical energy and the production therefrom.

Given the long-term benefits that future generations of Ontarians will receive from many of these investments, it is appropriate and fair to raise money in respect of these generating facilities in a manner that allocates the costs of and benefits from these investments fairly among present and future consumers.

Therefore, Her Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:

CONTENTS

PART I
GENERAL

1. Interpretation
2. Purpose
3. Crown bound
4. Protection and guarantee of scheme

PART II
FAIR ADJUSTMENT PERIOD

5. Application of Part
6. Determination of rates, first twelve months
7. Determination of rates, on and after May 1, 2018

PART III
CLEAN ENERGY ADJUSTMENT PERIOD

8. Application of Part
9. Specified consumers to pay clean energy adjustment
10. Irrevocability of clean energy adjustment
11. Determination of clean energy adjustment
12. IESO to invoice electricity vendors
13. Electricity vendor to apply rate
14. Pro rating of payments
15. Electricity vendor, account

PART IV
FAIR ALLOCATION PLAN AND FINANCING PLAN
FAIR ALLOCATION PLAN

8. Minister to prepare plan
8.0.1 Amounts to be allocated
8.2 Compliance

FINANCING PLAN

11. Financial Services Manager to prepare plan
11.1 Compliance with Plan
12. Contents of plan

PART V
THE REGULATORY ASSET [AND INVESTMENT ASSET]

Confidential Draft

22. Regulatory asset established
22.1 Recording of IESO funding shortfall in books
22.2 IESO funding shortfall
23. Transfer of regulatory asset
23.1 Investment asset
24. Transfer of investment asset
26. Administration of investment asset
27. Investment asset owner may grant pledge
28. Collective action required
29. Exercise of rights

PART VI
MISCELLANEOUS

34. Appointment of agent, invoicing or collection
35.1 Not Crown agent
35.2 Sequestration
37. Successors
37.1 Choice of law
38. Conflict
39. No further approvals, etc.
97. Immunity
98. References in marketing materials and offering documents
99. Non-application, Financial Administration Act, s. 28
100. Regulations

PART VII
AMENDMENTS TO OTHER ACTS
ELECTRICITY ACT, 1998
AMENDMENTS TO ONTARIO ENERGY BOARD ACT, 1998

PART VII
COMMENCEMENT AND SHORT TITLE

103. Commencement
104. Short title
Schedule 1 Method for determining amount of clean energy adjustment for reference period

PART I
GENERAL

Interpretation
Definitions

1. (1) In this Act,

"clean energy adjustment" means…

"clean energy initiative" means the policies of the Government of Ontario related to,

(a) fostering the growth of and investment in renewable energy projects [which use cleaner sources of energy],

(b) removing barriers to and promoting opportunities for renewable energy projects, and

(c) promoting a green economy [including conservation and demand management]; ("French")

Confidential Draft

"electricity vendor"[1] means the IESO, a licensed distributor, a licensed retailer or such other person as may be prescribed; ("French")

"Fair Allocation Plan" means a plan prepared under section X; ("French")

"Financial Services Manager" means Ontario Power Generation Inc. or such other entity as may be prescribed; ("French")

"Financing Plan" means a plan prepared under section X; ("French")

"funding obligation" means a payment obligation incurred by or on behalf of the regulatory asset owner or an investment asset owner under section x; ("French")

"holiday" means [O. Reg. 95/05 definition];] ("French")

"IESO" means the Independent Electricity System Operator continued under Part II of the *Electricity Act, 1998*; ("SIERE")

"investment asset" means all or part of the regulatory asset that is deemed to be an investment asset under section x; ("French")

"invoice amount" means the sum of the following amounts:

1. The commodity price of the electricity used during the invoice period.

2. The rates and charges set out in the applicable rate order issued by the Ontario Energy Board under subsection 78 (3) of the *Ontario Energy Board Act, 1998*.

3. Any adjustment required under section 25.33 of the *Electricity Act, 1998*.

4. The amount of any harmonized sales tax payable under Part IX of the *Excise Tax Act* (Canada); ("French")

"licensed distributor" means a person licensed under Part V of the *Ontario Energy Board Act, 1998* to own or operate a distribution system; ("French")

"licensed retailer" means a person who is licensed under Part V of the *Ontario Energy Board Act, 1998* to retail electricity; ("French")

[1] FLS - this is similar to the definition of "electricity vendor" in the Ontario Rebate for Electricity Consumers Act, 2016

Confidential Draft

"Minister" means the Minister of Energy or such other member of the Executive Council as may be assigned the administration of this Act under the *Executive Council Act*; ("ministre")

"prescribed" means prescribed by the regulations; ("prescrit")

"reference period" means,

(a) the period beginning on May 1, 2017 and ending on October 31, 2017,

(b) every six-month period following the period mentioned in clause (a), or such shorter period as may be set out in a Fair Allocation Plan; ("French")

"refinancing" means a repayment or repurchase of a funding obligation for cancellation by or on behalf of the owner of an investment asset by applying the net proceeds obtained by the owner incurring one or more other funding obligations; ("French")

"regulation" means a regulation made under this Act; ("règlement")

"regulatory asset" means the regulatory asset established under section X or, if any part of that regulatory asset has been transferred under this Act, the portion of the regulatory asset that is not deemed to be an investment asset; ("French")

[NOTE: CURRENT PROPOSAL IS THAT THE REGULATORY ASSET WILL REPRESENT THE RIGHT OF RECOVERY. UPON A TRANSFER OF AN INVESTMENT INTEREST, THE QUANTUM OF THE RIGHT OF RECOVERY FOR THE REGULATORY ASSET WILL BE REDUCED. THE TRANSFER OF AN INVESTMENT INTEREST WILL RESULT IN IESO RELINQISHING ANY INTEREST IN THE TRANSFERRED INVESTMENT INTEREST, AND WILL RESULT IN THE TRANSFEREE ACQUIRING THE RIGHT OF RECOVERY OF AN INTEREST IN THE CLEAN ENERGY ADJUSTMENTS DETERMINED BY REFERENCE TO FINANCE AMOUNTS INCURRED BY OR ON BEHALF OF THE TRANSFEREE.]

"representative consumer" means a consumer who meets the criteria set out in subsection (3); ("French")

"specified consumer" means,

(a) a person who has an account with an electricity vendor for the supply of electricity, receives an invoice in respect of the account and meets the criteria set out in subsection (2); or

Confidential Draft

(b) such other person as may be prescribed ("French")

"Toronto Hydro" means Toronto Hydro-Electric System Limited; ("French")

"transfer" means an assignment, conveyance, disposition or sale; ("French")

"weekday means [O. Reg. 95/05 definition]; ("French")

Specified consumers

(2) For the purposes of clause (a) of the definition of "specified consumer" in subsection (1), the person must meet any one of the following criteria:

1. The person has a demand for electricity of 50 kilowatts or less, or such other amount as may be prescribed.

2. The person annually uses not more than 250,000 kilowatt hours of electricity, or such other amount as may be prescribed.

3. The person carries on a business that is a farming business for the purposes of the *Farm Registration and Farm Organizations Funding Act, 1993* and either holds a valid registration number assigned under that Act or the has had the obligation to file a farming business registration form waived pursuant to an order made under subsection 22 (6) of that Act.

4. The person's account with the electricity vendor relates to,

   i. a dwelling,

   ii. a property within the meaning of the *Condominium Act, 1998*,

   iii. a residential complex within the meaning of subsection 2 (1) of the *Residential Tenancies Act, 2006*, without regard to section 5 of that Act, or

   iv. a property that includes one or more housing units and that is owned or leased by a co-operative within the meaning of the *Co-operative Corporations Act*.

5. The person satisfies such criteria as may be prescribed.

Confidential Draft

Invoice amount, exclusions

(2) For the purposes of the definition of "invoice amount" in subsection (1), an invoice amount does not include any of the following amounts:

1. The balance of any amounts carried forward from previous invoices.

2. Penalties or interest.

3. Charges that do not relate to the use of electricity.

4. Any of the following charges that may be set out in an order issued by the Ontario Energy Board under subsection 78 (3) of the *Ontario Energy Board Act, 1998*:

    i. A fixed monthly service charge payable by a generation facility within the meaning of section 56 of the *Ontario Energy Board Act, 1998* and classified as "microFIT".

    ii. A charge labelled as a "specific service charge" or "retail service charge".

    iii. A rate rider.

Representative consumer

(3) For the purposes of the definition of "representative consumer" in subsection (1), the consumer,

(a) purchases electricity directly from Toronto Hydro;

(b) has an account with Toronto Hydro that falls within a residential-rate classification as specified in a rate order made by the Board under section 78 of the Act;

(c) is invoiced by Toronto Hydro on a monthly basis;

(d) is not invoiced by Toronto Hydro for electricity on an equal monthly payment plan or an equal billing plan; and

(e) uses, on average, 750 kilowatt hours of electricity each month.

Confidential Draft

Intention of the Legislature[2]

(5) For greater certainty, all of the provisions of this Act remain in full force and effect, even if some provisions are held to be invalid, the intention of the Legislature being to give separate and independent effect to the extent of its powers to every provision contained in this Act.

Same

(6) The fact that any provision of this Act is held to be invalid or ceases to be in effect for any reason does not affect a funding obligation that was incurred under this Act before the day that the provision was held to be invalid or ceased to be in effect.

Purpose

2. (1) The purposes of this Act are,[3]

(a) to ensure that the costs of the clean energy initiative are fairly distributed among specified customers over time;

(b) to recognize the long-term benefits of the clean energy initiative that accrue over time and will continue to benefit present and future electricity consumers in the Province;

(c) to promote the use of clean energy sources and technologies, including low carbon, alternative energy sources and renewable energy sources, in a manner consistent with the policies of the Government of Ontario;

(d) to promote economic efficiency and sustainability in the generation, transmission, distribution and sale of electricity;

(e) to facilitate the maintenance of a financially viable electricity industry, including by raising money in respect of sites and facilities in the Province for the generation of electrical energy and the production therefrom;[4] and

(f) to protect the interests of consumers with respect to prices and the adequacy, reliability and quality of electricity service.

Crown bound

3. This Act binds the Crown.

[2] FLS: this is from the *Climate Change Mitigation and Low-carbon Economy Act, 2016*
[3] FLS: Please see the *Electricity Act, 1998* for much of the wording proposed in this section.
[4] FLS - as per the note in the Preamble on this language, please see 92A (4) of the *Constitution Act, 1867.*

Confidential Draft

Protection and guarantee of scheme
Prohibition

4. (1) The Crown shall not do anything that would,

(a) hinder, delay, impair or prejudice the charging, collection or remittance of the clean energy adjustment;

(b) except as expressly permitted by this Act, reduce the amount of the clean energy adjustment or lower the priority of the clean energy adjustment over other debts; or

(c) adversely affect an investment asset or a funding obligation.

Clarification with respect to regulations

(2) For greater certainty, the things prohibited under subsection (1) include the making or approving of a regulation under this Act.

Agreements for compensation

(3) The Minister may enter into agreements for the purposes of guaranteeing that compensation will be paid to an investment asset owner for losses suffered as a result of,

(a) a contravention of subsection (1);

(b) a change in law that would adversely affect the rights under this Act of an owner of an investment asset;

(c) approval by the Lieutenant Governor in Council of a Fair Allocation Plan, or an amendment to a Fair Allocation Plan, that fails to recognize the principles set out in section x; or

(d) a final determination by a court of final jurisdiction rendering invalid or ineffective all or any of the provisions of this Act.[5]

IESO obligations

(5) If the IESO fails to carry out its obligations under this Act for any reason, including because the IESO is dissolved or restructured or because it becomes insolvent, the Government of Ontario shall carry out those obligations or ensure they are carried out by another appropriate entity.

Confidential Draft

[5] Note to translator: See s. 9 of the Public Authorities Protection Act.

PART II
FAIR ADJUSTMENT PERIOD

Application of Part

5. This Part applies in respect of the five year period beginning on May 1, 2017 and ending on April 30, 2022.

[NOTE: THIS IS A ROUGH ADAPTATION OF THE "FAIR ADJUSTMENT" CONCEPT. FOR YEARS 2 TO 5, THE LGIC WILL PASS A REGULATION TO LIMIT THE INCREASE TO REDUCED HYDRO BILLS TO REFLECT A FURTHER "FAIR ADJUSTMENT". THE SUM OF ALL FAIR ADJUSTMENTS WILL CORRESPOND TO THE SUM (TIME VALUE ADJUSTED) OF THE PAYMENTS BY PAST RATEPAYERS OF MORE THAN THEIR FAIR SHARE OF THE GREEN COSTS (I.E., AS A RESULT OF THE EXISTING AMORTIZATION RATE OF GREEN COSTS THROUGH THE GA CALCULATION). THE VALUE OF THOSE PAST OVER-PAYMENTS WILL BE A LIMIT ON THE TOTAL AMOUNT OF FAIR ADJUSTMENTS. THE CONCEPT IS MORE FLEXIBILE THAN THE SUGGESTION HERE, WHICH RELATES ONLY TO THE FIRST 5 YEARS – ALTHOUGH THAT IS CERTAINLY THE CURRENT FOCUS. THE IDEA FOR NOW IS THAT THE ACT WILL REDUCE HYDRO BILLS FOR THE FIRST YEAR, AND EACH OF THE FOLLOWING 4 YEARS BY REGULATION – IN AGGREGATE EQUAL TO THE PAST OVER-CHARGES. TO ENSURE THAT THE INCURRENCE OF FUNDING OBLIGATIONS AND CORRESPONDING FINANCE AMOUNTS DO NOT CONFLICT WITH THE FAIR ADJUSTMENT (AND REDUCED HYDRO RATES), THERE WILL BE A MORATORIUM ON CLEAN ENERGY ADJUSTMENTS DURING THE FIRST 5 YEARS (ON BOTH IESO CHARGE THROUGH RECOVERIES AND IN RESPECT OF FINANCE AMOUNTS PAYABLE DURING THESE FIRST 5 YEARS – PROVIDED THAT IF THE LGIC DOES NOT ULTIMATELY DETERMINE THAT A FAIR ADJUSTMENT WILL APPLY IN A YEAR, THE BALANCE, UNDER THE FAP, WILL BE RECOVERABLE BY WAY OF A PASS-THROUGH OF FINANCE AMOUNTS /IESO RECOVERIES. THE IDEA WILL BE THAT THE LGIC WILL DETERMINE THE AMOUNT OF A FAIR ADJUSTMENT PRIOR TO THE RELEVANT PERIOD TO WHICH IT APPLIES. NOTE THAT THE PAST-OVERPAYMENTS WILL BE FACTORED INTO THE FAP ON A GO FORWARD BASIS, IN ADDITION TO THE CONTINUING GREEN COSTS – AND AMORTIZED OVER THE LONGER PERIOD. THE FOLLOWING PROVISION ADDRESSES ONLY THE FIRST YEAR OF THE FAIR ADJUSTMENT.]

Determination of rates, first twelve months

6. (1) The Ontario Energy Board shall determine the rate for electricity payable by a specified consumer for the period beginning on May 1, 2017 and ending on April 30, 2018 in the following manner:

1. Determine the average rate payable by a representative consumer by applying the method set out in subsection (2).

2. Determine the average monthly invoice amount that would be payable by a representative consumer under the rate determined under paragraph 1.

3. Determine the amount that is [# tbc] per cent less than the monthly invoice amount determined under paragraph 2.

4. Determine the average rate payable by a representative consumer that would result in the monthly invoice amount mentioned in paragraph 3 for a representative consumer.

[Note: Query whether 79.16 of the OEBA should be replaced to clearly state that the price-setting work that the OEB does under the RPP is authorized and that the work it must do to accommodate the Fair Adjustments is also authorized going forward.]

Determination of baseline, average rate

(2) For the purposes of paragraph 1 of subsection (1), the follow method applies:[6]

1. The Board shall determine rates in a manner that is consistent with the Standard Supply Service Code issued by the Board.

2. In determining the rates, the Board shall forecast the cost of electricity to be consumed by the consumers to whom the rates apply, taking into consideration adjustments required under section 25.33 of the *Electricity Act, 1998* and shall ensure that the rates reflect those costs.

3. The Board shall set an off-peak period associated with the regulated price referred to as RPEMOFF in section 3.4 of the "Standard Supply Service Code for Electricity Distributors" issued by the Board,

    i. that begins no later than 7 p.m. on every weekday and ends,

        A. no earlier than 7 a.m. on the next day if the next day is a weekday, or

        B. no earlier than 12 a.m. on the next day if the next day is Saturday, Sunday or a holiday, and

[6] FLS: Please see section 6 of O. Reg. 95/05 (a bilingual reg).

Confidential Draft

ii. that begins no later than 12 a.m. on every Saturday, Sunday and holiday and ends no earlier than,

A. 12 a.m. on the next day, if the next day is Saturday, Sunday or a holiday, or

B. 7 a.m. on the next day if the next day is a weekday.

Determination of rates, on and after May 1, 2018

7. On and after May 1, 2018, the Board shall determine the rate for electricity payable by a specified consumer in the following manner:

1. Determine the rate by applying the steps set out in section 6.

2. Adjust the rate determined under paragraph 1 for inflation in accordance with the regulations.

PART III
CLEAN ENERGY ADJUSTMENT PERIOD

Application of Part

8x. This Part applies in respect of the period beginning on May 1, 2022 and ending on April 30, 2047.

[NOTE: CONSISTENT WITH THE EARLIER NOTE, THE MORATORIUM IS LIFTED IF THE LGIC DETERMINES THAT NO FAIR ADJUSTMENT WILL APPLY, IN WHICH CASE CEAs WILL APPLY DURING THE FIRST 5 YEARS. THE DIVISION OF TIME CONTEMPLATED IN THIS DRAFT IS MORE INFLEXIBLE THAN WE HAVE ENVISIONED]

Specified consumers to pay clean energy adjustment

9x. (1) Subject to subsection (1.1), upon receipt of an invoice that includes a clean energy adjustment, a specified consumer shall pay the clean energy adjustment to the electricity vendor in accordance with such terms of payment as may be specified in the invoice, which may include terms relating to late payment fees and interest charges.

[NOTE: MODIFY TO REFLECT THAT THE PAYMENT IS MADE TO AN EV, AS AGENT FOR THE INVESTMENT ASSET OWNERS]

Limitation

(1.1) No clean energy adjustment is payable by a specified consumer on a day before May 1, 2022. [NOTE: MODIFY TO REFLECT EARLIER NOTES]

Confidential Draft

Same

(2) For greater certainty, subsection (1) applies regardless of,

(a) whether payment of the amounts is inconsistent with the Fair Allocation Plan applicable at the time when the payment is due;

(b) whether the payments relate to funding obligations that were incurred in a manner that did not comply with the Financing Plan; and [NOTE: UNDER CONSIDERATION. SEEMS OVERBROAD]

Indebtedness of specified consumer

(4) An unpaid clean energy adjustment that is required to be paid by a specified consumer under this section constitutes indebtedness of the consumer to the investment asset owners in respect of their respective interests in the investment asset.

Same

(5) The indebtedness mentioned in subsection (4) is a single and separate debt obligation owed by the specified consumer and may be enforced independently from any other payment obligation or indebtedness owing by the specified consumer under the invoice or otherwise. [NOTE: ENFORCEMENT WILL BE LIMITED UNDER THE ACT, SO THAT INVESTMENT ASSET OWNERS CAN'T SERVE NOTICES ON RATEPAYERS DIRECTLY, OTHER THAN THROUGH A SPECIFIED AGENT AND PROCESS – SEE BELOW]

Irrevocability of clean energy adjustment

10x. (1) Any clean energy adjustment shown on an invoice issued to a specified consumer under this Act is determinative of the amount of indebtedness created by the adjustment and is irrevocable upon invoicing the consumer and may not be set off or by passed.

Exception

(2) Subsection (1) does not apply to the extent that there is an error in calculations made by the electricity vendor.

Determination of clean energy adjustment

11x. (1) The Ontario Energy Board shall apply the method set out in Schedule 1 to determine the amount of the clean energy adjustment payable on a monthly basis by each electricity vendor on behalf of the electricity vendor's specified consumers. . [NOTE: THE AMOUNTS WILL BE CALCULATED AS FOLLOWS: (1) FSM (FOR ALL IAOs) WILL INFORM OEB OF PERIOD FINANCE AMOUNTS FOR THE REFERENCE PERIOD (IE ESTIMATE OF FAs PLUS PAST TRUE UP ALLOCATION) (2) OEB WILL ATTRIBUTE THAT AGGREGATE AMOUNT

Confidential Draft

BASED ON RPP-LIKE RATE DETERMINATION FOR CUSTOMERS OF THE RELEVANT CLASSES (3) OEB WILL TELL EVs THE RATES APPLICABLE TO THEIR CUSTOMERS, SO THAT THE FULL AMOUNT IN (1) IS RECOVERED (BASED ON EXPECTED COLLECTION RATES AND NONE PAYMENTS)]

True up amount

(2) The Ontario Energy Board may adjust the amount determined under Schedule 1 from time to time to address the any difference between the amount of the clean energy adjustment payable in respect of the reference period and the amount of the clean energy adjustment collected as of the date of the determination. [NOTE: THIS IS ONLY A PARTIAL DESCRIPTION OF THE TRUE UP. SEE EARLIER DRAFTING INSTRUCTION FOR SUGGESTED APPROACH – I.E., DESCRIBE BROADLY THE NATURE OF THE CALCULATION AND THEN SPECIFY THE CALCULATION IN A DETAILED CALCULATION TO BE INCLUDED IN A REGULATION]

Same, regulations

(3) The Lieutenant Governor in Council may make regulations governing the calculation under subsection (2) and how the amount is to be applied to the clean energy adjustment.

Communication to electricity vendors

(4) The Ontario Energy Board shall communicate to each electricity vendor information relating to the clean energy adjustment to be allocated by the electricity vendor to each specified consumer in respect of a reference period. [NOTE: WE ARE NOT SURE THERE IS A ROLE FOR IESO. WE THOUGHT THE PERIOD FINANCE AMOUNTS WOULD BE FORWARED BY FSM TO OEB DIRECTLY]

IESO to invoice electricity vendors

12x. (2) The IESO shall issue an invoice to each electricity vendor for the clean energy adjustments in accordance with the regulations.

IESO to collect

(3) The IESO shall, as an agent of the investment asset owner, make reasonably diligent efforts to collect clean energy adjustments from electricity vendors.

Collection account

(3.1) The IESO shall establish an account in which to record its collection of the following:

1. Amounts remitted from accounts established under section 31.

2. Payments made by specified consumers directly to the IESO as electricity vendor, in respect of clean energy adjustments.

Confidential Draft

Deposit

(4) The IESO shall promptly deposit all amounts received in respect of clean energy adjustments into the account established under subsection (3.1). [NOTE: CONSIDER FEASIBILITY OF DAILY SEGREGATION/ REMITTANCES]

Same, held in trust

(2) The amounts collected are deemed to be held in trust for the investment asset owner.

IESO to remit

(5) The IESO shall remit amounts received in respect of clean energy adjustments to or for the benefit of the regulatory asset owner in accordance with the regulations.

Electricity vendor to apply rate

13x. (1) Each electricity vendor shall [in accordance with the regulations?] determine the proportionate share of clean energy adjustments payable on a monthly basis by each of its specified consumers.

Electricity vendor to invoice specified consumers

(2) The electricity vendor shall issue an invoice to each specified consumer for the applicable amount of clean energy adjustments in accordance with the regulations.

Electricity vendor to collect

(3) Each electricity vendor shall, as an agent of the IESO, make reasonably diligent efforts to collect clean energy adjustments from specified consumers.

Pro rating of payments

14x. (1) This section applies if,

(a) an electricity vendor receives a payment made by or on behalf of a specified consumer in respect of amounts payable under one or more invoices; and

(b) the amount paid is less than the total amount payable.

Same

(2) The electricity vendor shall allocate the payment on a pro rata basis to the clean energy adjustment and other amounts payable under the relevant invoices.

Deposit

(3) The electricity vendor shall deposit the portion of the payment allocated to clean energy adjustments into the account established under X.

Confidential Draft

Electricity vendor, account

15x. (1) Each electricity vendor shall establish and maintain an account into which the electricity vendor deposits or receives only the following:

1. Payments by specified consumers in respect of clean energy adjustments.

2. Portions of payments by specified consumers that are allocated to clean energy adjustments under subsection 30 (2).

3. Any proceeds arising from the exercise and enforcement of any rights and interests under or in respect of the investment asset.

Held in trust

(2) The amounts required to be deposited or received into the account are deemed to be held in trust for the investment asset owner.

Remittance to IESO

(5) The electricity vendor shall remit amounts received in respect of clean energy adjustments to the IESO for the benefit of the investment asset owner in accordance with the regulations.

Payment re regulatory asset

(x) If the total clean energy adjustment payable by specified consumers in respect of a reference period is less than the amount contemplated to be payable under the applicable Fair Allocation Plan, the difference is payable to the IESO by the specified consumers.

[NOTE: REQUIRES FURTHER CONSIDERATION.]

PART IV
FAIR ALLOCATION PLAN AND FINANCING PLAN

Fair Allocation Plan

Minister to prepare plan

8. (1) In order to fairly measure and allocate amounts described in section 8.0.1 as of a specified day among specified consumers for the purposes of this Act, the Minister shall prepare and provide to the Lieutenant Governor in Council a written plan entitled the Fair Allocation Plan to take effect on the specified day.

Amendments to the plan

(2) Subject to the approval of the Lieutenant Governor in Council, the Minister may amend the Fair Allocation Plan from time to time, as the Minister considers appropriate, having regard to the requirements of this Act.

Confidential Draft

Effective date

(3) The Fair Allocation Plan or an amendment to the plan takes effect on the day that the plan or the amendment, as the case may be, is approved by the Lieutenant Governor in Council.

Publication

(4) The Minister shall ensure that the Fair Allocation Plan and any amendments to the plan are made available to the public in a manner that the Minister considers appropriate.

Amounts to be allocated

8.0.1 The amounts referred to in subsection 8 (1) are, in relation to a specified day,

[NOTE: THE IDEA IS THAT THE EXPECTED FUTURE GREEN COSTS WILL BE INCLUDED AS COSTS, AND RATHER THAN AMORTIZING THEM BASED ON THE TERMS OF THE POWER CONTRACTS, THE COSTS WILL BE AMORTIZED AND PASSED THROUGH BASED ON A MORE ACCURATE AMORTIZATION SCHEDULE TIED MORE TO THE COSTS AND BENEFITS OF THE GREEN PLAN OVER THE NEXT 30 YEARS. IN ADDITION, TO THE EXTENT THAT THERE HAVE BEEN OVER-CHARGES (BASED ON THE SHORT AMORTIZATION OF GREEN COSTS) SINCE 2005, THOSE OVERAGES WILL BE ADDED TO THE AMOUNT OF THE FAP COSTS TO BE AMORTIZED OVER THE FUTURE – I.E., THE FUTURE GENERATIONS WOULD HAVE BENEFITED FROM AN ARTIFICALLY LOW SHARE OF THE COSTS SINCE THE RATEPAYERS FOR 2005 – 2017 PAID TOO MUCH, SO WE SHOULD BE ABLE TO ADD THOSE TO THE FUTURE GROUPS AND RECOGNIZE A FAIR ADJUSTMENT FOR CURRENT RATEPAYERS]

(a) the costs incurred by the IESO before that day or expected to be incurred by the IESO on or after that day in relation to,

(i) payments made or expected to be made under section 78.1 of the *Ontario Energy Board Act, 1998*, other than payments made under contracts with Bruce Power L.P or Bruce Power A. L.P. or their successors or assigns, and

(ii) payments made or expected to be made under section 78.5 of the *Ontario Energy Board Act, 1998*; and

(b) such other costs, benefits or amounts as may be prescribed, in respect of the clean energy initiative, made or received before that day or expected to be incurred on or after that day. (“French”)

C.C.Draft

Principles

8.1 In preparing the Fair Allocation Plan or any amendments to the plan, the Minister shall have regard to the following principles:

1. The amounts should not be allocated in respect of any period of time after April 30, 2047.

1.1 At no time should the Fair Allocation Plan impair any investment asset, outstanding funding obligation or clean energy adjustment.

2. The share of the amounts allocated to specified consumers who receive an invoice in respect of a reference period should be proportionate to a reasonable assessment of the benefits derived by those consumers during that reference period.

3. The specified consumers to whom an invoice is issued during a reference period should not bear an unreasonably disproportionate share of the amounts allocated.

4. Adjustments should be made over time if the Minister is of the opinion that specified consumers have paid more than is reasonably proportionate.

5. Allocation of amounts should be determined for each reference period.

6. A reasonable estimate of the rate of inflation should be applied [in accordance with the regulations?].

Compliance

8.2 The IESO and the Financial Services Manager shall not, at any time, exceed the limits set out in the applicable Fair Allocation Plan.

[NOTE: THIS IS TOO STRONG. THE IDEA IS THAT IESO'S RIGHT OF RECOVERY WILL BE LIMITED IN A REFERENCE PERIOD BY THE FAP AMOUNT FOR THE PERIOD, MINUS THE FINANCE AMOUNTS FOR THE PERIOD. IN THIS WAY, THE IESO WILL BE ENTITLED TO PASS-THROUGH RECOVERIES IN A WAY THAT AFFECTS THE HYDRO BILLS OF EACH REFERENCE PERIOD RATEPAYERS IN A WAY THAT TRACKS THE FAP. SIMILARLY, IF IESO HAS TRANSFERRED ITS RECOVERY RIGHTS TO A IAO, THEN THE RELATED CEAs FOR THAT IAO WILL BE INSIDE THE FAP – AGAIN, SO THAT THE RATEPAYERS OF THAT PERIOD DO NOT BEAR A DISPROPORTIONATE BURDEN FOR THOSE COSTS. THESE CONCEPTS ARE REFLECTED IN THE MECHANICS DEALING WITH IESO RECOVERIES AND PASSING THROUGH CEAs, AND SO THIS SECTION CAN PROBABLY BE REMOVED]

fidential Draft

FINANCING PLAN

Financial Services Manager to prepare plan

11. (1) The Financial Services Manager shall prepare and provide to the Minister a plan entitled the Financing Plan for the purpose of ensuring that decisions made under this Act are cost-effective and consistent with the Fair Allocation Plan.

Amendments to approved plan

(2) The financial services manager may propose amendments to the Financing Plan at any time.

[NOTE: THE FINANCING PLAN IS SUPPOSED TO BE FLEXIBLE, UNLIKE THE FAP. FORMAL AMENDMENTS WOULD MAKE THIS TOO RIGID. THE FSM SHOULD KEEP RECORDS OF THE FP OVERTIME, SO THAT FUNDING DECISIONS CAN BE DETERMINED BASED ON THE PRINCIPLES AND THERE IS A MEASURE OF ACCOUNTABILITY FOR THE FSM, INSOFAR AS THE RECORD-KEEPING WILL ALLOW THE MINISTER TO DO A PERIODIC CHECK TO MAKE SURE THAT FUNDING OBLIGATIONS WERE INCURRED IN MATERIAL CONFORMITY WITH THE FSM'S EVOLVING FP. THE CONCEPT OF THE FP IS TO CREATE DISCIPLINE, THOUGHFULNESS AND SOME MEASURE OF ACCOUNTABILITY FOR FSM IN MAKING FINDING DECISIONS.]

Compliance with Plan

11.1 The Financial Services Manager shall comply with the Financing Plan.

[NOTE: PROBABLY TOO RIGID A STATEMENT – SEE ABOVE. ALSO, OPG SEEMS TO HAVE ACCOUNTING ISSUES WITH THIS SORT OF MANDATORY DIRECTION – NEED TO CONFIRM]

Contents of plan

12. (1) The Financing Plan shall be prepared in accordance with the regulations and shall include such matters as may be prescribed, which may include the following:

1. A description of one or more transfers that may be made in respect of the regulatory asset established under Part **.

2. A description of the basis upon which funding obligations may be incurred in a manner that is consistent with the applicable Fair Allocation Plan.

3. A description of the funding obligations mentioned in paragraph 2, which may include the following:

    i. Indebtedness.

Confidential – Draft

ii. Payment obligations arising under or in respect of derivatives.

iii. Payment obligations owing to service providers, administrative agents, finance entity intermediaries, capital markets intermediaries, advisors, lenders, credit enhancement providers, liquidity providers, disbursement counterparties, regulatory agencies and rating agencies.

iv. Refinancing an existing funding obligation by applying the net proceeds obtained by incurring other funding obligations.

[NOTE: PRINCIPLES AND PARAMETERS ARE UNDER CONSIDERATION AND WILL BE INCLUDED IN THE REGULATION.]

Limitation

(1.1) The Financing Plan shall not provide for the payment of the clean energy adjustment by specified consumers before May 1, 2022. [NOTE: WOULD PREFER TO SAY (1) NO CEAs IN THE FIRST 5 YEARS UNTIL, FOR A YEAR, THE LGIC CONFIRMS THAT THERE WILL NOT BE A FAIR ADJUSTMENT FOR THAT YEAR. SEE MECHANICS, ABOVE.]

Special purpose financing entities

(2) If the Financial Services Manager is a prescribed entity, the Financing Plan may, in accordance with the regulations, provide for the establishment by that entity of one or more special purpose financing entities that may incur funding obligations.

[Note: I understand that OPG doesn't need authority to establish a SPV beyond existing OPG authority under the EA, but do you still want something like subs. (2) for an entity other than OPG? It almost makes it look like OPG is not authorized to do so, since the provision singles out prescribed entities. Need to consider further]

[NOTE: THIS CONCEPT SHOULD BE MOVED TO THE REGULATION]

Limit on liquidation, etc. of [special purpose funding entities]

(3) The Financing Plan shall not provide for a [special purpose funding entity] tbe be liquidated, dissolved or voluntarily wound-up until at least one year after all of the funding obligations the entity has incurred have been satisfied. [NOTE: MOVE TO THE REGULATION]

Prohibition

(3) The Financing Plan shall not provide for funding obligations to be incurred with any recourse to any assets of the electricity vendors, the IESO, the Ontario Energy Board, the Province or the Lieutenant Governor in Council, except to the extent that any of these persons or entities may be liable to perform obligations or duties arising under this Act or under the express terms of a funding obligation.

Confidential – Draft for discussion purposes only

Funding obligations unaffected by amendment to Fair Allocation Plan

(4) No change to a funding obligation shall result from an amendment to the Fair Allocation Plan that is made after the funding obligation has been incurred.

[Note: Consider Article 8 (9) entitled "incurrences are binding" -- I believe we have already stated in the Part dealing with the regulatory asset that the rights are enforceable etc. even if charges have been imposed in a manner that does not follow the Financing Plan. Is more drafting required?]

PART V
THE REGULATORY ASSET [AND INVESTMENT ASSET]

Regulatory asset established

22. (1) The IESO has property rights and interests, which together constitute a regulatory asset, in the recovery of the IESO funding shortfall.

[Note to draft - Is it sufficient to say "*property rights and interests in the recovery of the IESO funding shortfall"?* Does that convey the right to enforce other parties' obligations that would allow for the shortfall to be recovered by the IESO?]

Limitation

(1.1) The right to recover the IESO funding shortfall under subsection (1) is subject to the following limits:

1. The amount recovered in respect of a reference period may not exceed the amount by which the [fair allocation] in respect of a reference period exceeds the amount of the clean energy adjustment for the reference period. [NOTE: CONSIDER IF THIS SHOULD BE A MAXIMUM OR A MANDATORY FLOW-THROUGH. IF THE IESO RECOVERIES PLUS CEAs FOR A PERIOD ARE LESS THAN THE FAIR ALLOCATION FOR A PERIOD, THEN THE RATEPAYERS OF THE PERIOD WILL BENEFIT FROM A LESSER SHARE OF THE COSTS THAN WOULD BE INDICATED BY THE FAP]
2. No part of the funding shortfall shall be recovered before May 1, 2022. [NOTE: TOO RIGID. SEE CONCEPT OF FAIR ADJUSTMENT, ABOVE]

Same

(2) The establishment of the regulatory asset is not affected by any failure to impose, attribute, invoice, accrue or collect the clean energy adjustment.

Recording of IESO funding shortfall in books

22.1 (1) Subject to the approval by order of the Ontario Energy Board, the IESO shall record the IESO funding shortfall from time to time in its books. [NOTE: THIS SHOULD ALSO INCLUDE ADJUSTMENTS WHEN THERE IS A TRANSFER OR RECOVERY – I.E., THE REGULATORY ASSET AMOUNT RECORDED SHOULD BE REDUCED]

Confidential Draft

Order

(2) The Ontario Energy Board may, in accordance with the regulations, by order specify how the IESO funding shortfall must be recorded.

Recording in books determinative

(3) A recording in its books is determinative of the amount of IESO funding shortfall at the time of the recording.

IESO funding shortfall

22.2 (1) The IESO shall determine the IESO funding shortfall for each month in a reference period by calculating the difference between the following amounts:

1. The sum of all invoice amounts issued to specified consumers for the month.

2. The sum of all invoice amounts that would have been issued to specified consumers for the month if paragraphs 1 and 2 of section 7.2 did not apply.

[Note: Should the value of any consideration received as part of a transfer be reflected in this section?]

Same

(2) The determination under subsection (1) shall be made based on the amount of electricity actually used by specified consumers during the reference period.

[NOTE: FUNDING SHORTFALL DESCRIPTION MAY ALSO RELFECT ADJUSTMENT BASED ON ESTIMATE TO ACTUAL FROM EARLIER MONTH]

Transfer of regulatory asset

23. (1) The IESO may transfer the regulatory asset in accordance with the Financing Plan.

Consideration

(2) The IESO may receive consideration for the transfer of the regulatory asset, subject to the following rules:

1. The prospective owner of the investment asset to be acquired through the transfer shall pay to the IESO an amount equal to all or part of the IESO funding shortfall. [NOTE: INVESTMENT ASSET TO BE BASED ON FACE VALUE SO THAT THE IESO RECOVERY IS DOLLAR-FOR-DOLLAR. THIS MEANS THAT ACCRUALS WILL BE NEEDED FOR INITIAL PERIOD, RATHER THAN THE TRUST BUYING INVESTMENT INTERESTS AT A DISCOUNT AND HOLDING BACK ISSUE PROCEEDS TO FUND THOSE AMOUNTS.]

Confidential Draft

2. Upon receipt of the payment, the IESO shall record the payment as a reduction of the AGGREGATE IESO funding shortfall in its books.

3. Upon receipt of the payment, the IESO shall have no continuing right or interest in, or maintain any right to recover all or any part of the transferred regulatory asset.

Investment asset

Regulatory asset deemed to be investment asset upon transfer

23.1 Upon transfer of the regulatory asset or a portion of the regulatory asset, the regulatory asset or portion is deemed to be an investment asset and is vested in the investment asset owner.

[NOTE: DEEMING LANGUAGE TO ADDRESS TRANSFER AND CONVEYANCE IS UNDER CONSIDERATION.]

[NOTE: THE ASSET TRANSFERRED BY IESO WILL BE A RIGHT OF RECOVERY, BY REFERENCE TO CEAs. THE ASSET ACQUIRED WILL BE AN "INVESTMENT INTEREST", BEING A SHARE (THE TERMS AND ENTITLEMENTS OF WHICH WILL BE DETERMINED UNDER A COLLECTIVE RIGHTS AGREEMENT) OF THE RIGHTS AND RELATED PROCEEDS FROM THE RIGHT TO BILL, ETC., CEAs. THE SUM OF ALL INVESTMENT INTERESTS WILL BE THE "INVESTMENT ASSET".]

Same

(2) An investment asset constitutes a current and irrevocable property right and interest consisting, collectively, of the following rights and interests without duplication:

1. The right to impose, bill, invoice, collect and receive the clean energy adjustment from specified consumers, including the right to determine the amount of the clean energy adjustment in accordance with this Act.

2. The right to receive and collect all amounts in respect of the clean energy adjustment that are imposed, billed and invoiced under this Act, including any amounts that all amounts in respect of the clean energy adjustment that are held by electricity vendors or other prescribed parties.

3. All rights and entitlements under such accounts as may be prescribed by regulation and all amounts on deposit in such accounts.

4. The right to enforce the duties and obligations under this Act of each electricity vendor to impose, attribute, charge, bill and invoice the clean energy adjustment.

Confidential Draft

5. The right to enforce the duties and obligations under this Act of each electricity vendor to collect, receive and remit amounts received by it in respect of the clean energy adjustment, including all collections and the proceeds of any enforcement action undertaken by an electricity vendor to recover payment of the clean energy adjustment.

6. All rights of any kind (whether in tort, contract or otherwise) that attach or are attendant or incidental to any of the other property rights or interests that comprise the regulatory asset owner's regulatory asset.

7. All revenue, collections, claims, payments, money and proceeds of or derived from the rights described in paragraphs 1 to 6, regardless of whether such revenue, collections, claims, payments and proceeds are imposed, invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

Same

(3) An investment asset is not affected by failure to impose, attribute, invoice, accrue or collect the clean energy adjustment.

No set off, etc.

(4) The investment asset shall not be set off or reduced by any person in any circumstance, including,

(a) by a consumer, an electricity vendor, the IESO, an agent of the investment asset owner or an owner of distribution system assets in the Province; [NOTE: IF THE MECHANICS FOR CASH FLOWS ADOPT THE PRE-EXISTING METHODS AND TERMS AMONG IESO, LDCs AND RATEPAYERS, THIS PROVISION WILL NEED TO RECOGNIZE THAT THOSE TERMS WILL PREVAIL AND NOT BE AFFECTED BY THE NEUTERING OF SET-OFF, ETC.]

(b) in connection with any default, bankruptcy, reorganization or other insolvency proceeding of a person mentioned in clause (a); [NOTE: CONSIDER IN CONTEXT OF FEDERAL BANKRUPTCY POWERS]

(c) by any affiliate or successor of a person mentioned in clause (a).

Transfer of investment asset

24. The investment asset owner may transfer all or a portion of its rights and interests in an investment asset to any other investment asset owner, including by way of a transfer of a divided or an undivided interest, in accordance with the Financing Plan.

Confidential Draft

Validity of transfer

25. (1) A transfer of a regulatory asset or an investment asset under this Act that is expressed to be a sale or an absolute assignment is a valid and enforceable sale and absolute assignment of the regulatory asset or investment asset, as the case may be, and confers upon the owner of the investment asset acquired a valid property right and interest in, to and under the applicable investment asset in accordance with the terms of the transfer.

Same

(2) Without limiting subsection (1), any transfer that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as an absolute transfer of IESO's right to recover the IESO funding shortfall or an investment asset owner's right, title and interest in, to and under an investment asset, as applicable (or relevant portion thereof), and not merely as a pledge thereof, and upon such absolute transfer the transferor shall retain no right, title or interest in regulatory asset or the investment asset (or relevant portion thereof) subject to the transfer, including all rights to recover the IESO funding shortfall or the investment asset arising after such transfer. [NOTE: ADDRESSES POSSIBLE RECHARACTERIZATION CONSIDERATIONS. MARKET WILL EXPECT TO SEE THIS GIVEN SECURITIZATION CONCEPTS IN PLAY.]

Deemed perfection, etc.

(3) At the time a transfer of a regulatory asset or an investment asset is made, the transfer shall be deemed to have been and shall be perfected, vested, valid and binding as against the transferor and all other persons who have claims of any kind against the transferor.

Priority of transfer, assignment, etc.

(4) Subsection (3) applies regardless of whether the persons who have claims have received notice of the transfer and the property rights and interests acquired by the owner of the investment asset shall have priority over any liens in favour of such other persons.

Administration of investment asset

26. (1) The Financial Services Manager shall administer an investment asset on behalf of the owner of the investment asset. [NOTE: TO BE ELABORATED]

Review of costs

(2) The Ontario Energy Board shall review the administrative costs of the Financial Services Manager. [NOTE: TO BE ELABORATED]

Confidential Draft

Investment asset owner may grant pledge

27. (1) The owner of an investment asset may grant a pledge to or in favour of a person in, to and over all or a specified portion of its right, title and interest in, to and under the investment asset in connection with any funding obligation.

Types of pledge

(2) A pledge may be a lien, mortgage, charge, right of set-off or security interest.

Validity

(3) The pledge may be made to secure a funding obligation and when granted shall be valid and enforceable in accordance with its terms and shall be effective to confer upon the person to whom the pledge is granted a valid security interest in, to and in respect of the investment asset in accordance with the terms of the pledge.

[Note: Additional content relating to the PPSA has not yet been addressed in any detail. Please review all subsections that contain the (x) below and advise what is needed. Some of this content was already covered by some of the numbered subsections in this draft.]

Perfection and priority of pledges

(x) For purposes of the *Personal Property Security Act*, the regulatory asset shall be intangible personal property and any pledge made by the owner of an investment asset in respect of a funding obligation shall, subject to the terms of the funding obligation, give rise to a security interest in respect of which that Act applies and may be perfected by filing a financing statement under that Act on that basis.

Same

(x) All provisions of the *Personal Property Security Act* shall apply to the regulatory asset on the basis that it is intangible personal property, except to the extent otherwise provided in this section.

Same

(x) All proceeds of a related [Investment Interest?] that are subject to the pledge that are received by the owner of the investment asset shall immediately be subject to the pledge, and the security interest in the proceeds shall be perfected pursuant to the *Personal Property Security Act.*

Same

(x) A pledge perfected under the *Personal Property Security Act* shall be a continuously perfected security interest and shall have priority over any other lien or security interest, created by operation of law or otherwise, that may attach to the property rights and interests in the [Investment Interest?] subject to the pledge unless the pledgee has otherwise agreed in writing.

Confidential Draft

Same

(x) A pledgee shall have a perfected security interest in a related investment interest, including the owner of the investment asset's rights and interests in and to [the clean energy adjustment?] or other related proceeds in respect of the investment interest and that are deposited in any [which account?] or other account of any [Electricity Distributor, IESO, Alternative Servicer or other person who may have commingled such Transition Charge Collections or such other proceeds with other funds].

Proceeds

(8) All proceeds of the investment asset that are subject to the pledge and that are received by the investment asset owner shall immediately be subject to the pledge and shall be perfected without any physical delivery of the proceeds, registration of any financing statement or any further act.

Perfection

(9) The pledge shall be a continuously perfected security interest and shall have priority over any other lien, created by operation of law or otherwise, that may subsequently attach to the property rights and interests in the investment asset subject to the Pledge, subject to the written consent of the person to whom the pledge has been granted.

Same

(10) The person to whom the pledge has been granted shall have a perfected security interest in revenues or other proceeds that are deposited in any [investment asset account] or other account of any electricity vendor, the IESO, an agent of an electricity vendor or the IESO or other person who may have commingled such revenues or other proceeds with other funds.

Collective action required

28. If the investment asset owner owns a right or interest in the investment asset that comprises less than the entire property right and interest constituted by the investment asset, the right or interest shall only be enforced by the investment asset owner collectively and in coordination with all other investment asset owners, and any agreement among that collective in furtherance of the collective action shall be valid and binding on the investment asset owner as a collective in accordance with its terms. [Note: It seems that successors may need to be addressed here. Also Pledgees have not yet been addressed in this draft.]

Exercise of rights

29. The rights of the investment asset owner to collect and enforce its rights and interests in, to and in respect of the investment asset shall be exercised in accordance with section [xx].

Confidential Draft

PART VI
MISCELLANEOUS

Appointment of agent, invoicing or collection

34. If a prescribed circumstance applies, the Lieutenant Governor in Council may by regulation appoint a person to carry out some or all of the obligations of an electricity vendor under this Act in the place of an electricity vendor with respect to invoicing or collection.

Not Crown agent

35.1 For greater certainty, no agent appointed under this Act is an agent of the Crown for any purpose, despite the *Crown Agency Act*.

Sequestration

35.2 [Note: Still to be drafted:
If any Electricity Distributor, IESO, Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or entity authorized to collect clean energy adjustments, defaults on any required remittance of Clean energy adjustment Collections, Electricity Distribution Remittances or IESO Remittances under Article 5, any court in the Province, upon application by a Regulatory Asset Owner or Pledgee and without limiting any other remedies available to the applying party, shall order the sequestration and payment of the Clean energy adjustment Collections, Electricity Distribution Remittances and IESO Remittances, as applicable, for the benefit of the Regulatory Asset Owner or Pledgee.] [Such order shall remain in full force and effect notwithstanding any bankruptcy, reorganization, or other insolvency proceedings with respect to any Electricity Distributor, IESO, Alternative Collection Agent or any owner of distribution system assets in the Province or other person or entity authorized to collect Clean energy adjustments, as applicable.]

Successors

37. [Note: Articles 4 (6) and (7) and Articles 5 (7) and (8) are rules about successors to distributors and the IESO being bound by specific requirements. Still to be drafted.]

Choice of law

37.1 The law governing, as applicable, the validity, enforceability, attachment, perfection, priority and exercise of remedies with respect to the transfer of an interest or right or creation of a security interest in the regulatory asset, the clean energy adjustment or the undertaking of the Crown under section x shall be the laws of the Province.

Conflict

38. The provisions of this Act [and the regulations?] apply despite any provision of any other Act regarding the attachment, assignment or perfection, or the effect of perfection or priority of any transfer or PLEDGE,

Confidential – Draft for discussion purposes only

No further approvals, etc.

39. Despite any requirement under any Act, no approvals, notices or authorizations other than those specified in this Act are required with respect to the actions to be taken in compliance with this Act, including actions to be taken under the Financing Plan or in relation to the establishment of the Fair Allocation Plan.

Immunity

97x. (1) No action or other proceeding for damages shall be instituted against any employee of the Province, IESO, OPG or OEB for any act done in good faith in the execution or intended execution of any duty or authority under this Act or for any alleged neglect or default in the execution in good faith of any duty or authority under this Act.

Same

(2) Despite subsections 5 (2) and (4) of the *Proceedings Against the Crown Act*, subsection (1) does not relieve the Crown of liability in respect of a tort committed by a person mentioned in subsection (1) to which it would otherwise be subject.

References in marketing materials and offering documents

98x. No person shall include, in marketing materials or offering documents relating to the financing of funding obligations, references to any rights, obligations, guarantees or undertakings arising under this section unless the prescribed requirements, if any, are satisfied.

Non-application, Financial Administration Act, s. 28[7]

99x. Section 28 of the *Financial Administration Act* does not apply with respect to any transaction or agreement or undertaking required, permitted, contemplated or authorized, directly or indirectly, under this Act.

Regulations

100x. The Lieutenant Governor in Council may make regulations,

(b) governing the inclusion of adjustments under this Act on invoices, which may include requiring notice to be provided by electricity vendors to specified persons regarding the adjustments.

[Note: reg-making powers to be dealt with in subsequent draft]

Confidential Draft

[7] FLS - see s. 51 of the Electricity Act, 1998

PART VII[8]
AMENDMENTS TO OTHER ACTS

ELECTRICITY ACT, 1998

200x. (1) Subsection 6 (1) of the *Electricity Act, 1998* would be amended by adding the following clauses:

(q.1) to enter into agreements or arrangements with [any special purpose financing entities established under (name of new Fair Hydro Act?)];

(q.2) to engage in activities related to making payments to and receiving payments from [any special purpose financing entities established under (name of new Fair Hydro Act?)], as required under that Act, and to engage in related settlement activities;

(q.3) to engage in activities related to the transfer of the regulatory asset created under [(name of new Fair Hydro Act?)], which activities may include,

(i) incurring liabilities in relation to the regulatory asset

(ii) transferring the regulatory asset to [any special purpose financing entities established under (name of new Fair Hydro Act?)];

(iii) transferring the regulatory asset to third parties;

(q.4) acting as a recovery agent under the [(name of new Fair Hydro Act?)];

201x. Subsection 53.1 (1) of the Act would be repealed and the following substituted:

Objects of Ontario Power Generation Inc.

53.1 (1) The objects of Ontario Power Generation Inc. include, in addition to any other objects, the following:

1. Owning and operating generation facilities.
2. Establishing, operating and supervising the activities of [any special purpose financing entities established under (name of new Fair Hydro Act?)].

[8] FLS: These amendments are drawn from previous drafting contained in gov2016.146.e05 (which was drafted as amendments to the EA, 1998).

Confidential Draft

3. Providing financial and other support to the IESO in its activities under the [name of new Fair Hydro Act?].

4. Engaging in such financing, borrowing, lending and related activities and transactions to support the IESO with short-term or long-term financing.

5. Providing equity, not exceeding the prescribed amount, to support the financing capacity [any special purpose financing entities established under (name of new Fair Hydro Act?)].

[Note: Still to draft:
-for the new Fair Hydro Bill: *if OPG is the Financial Services Manager, it shall be required to provide an accounting of the amounts it charges the trust for the financing entity to the OEB 60 days in advance of the commencement of the fiscal year for the OPG trust/special purpose vehicle*]

Subsidiaries

(1.1) Ontario Power Generation Inc. may create one or more subsidiaries in order to more efficiently conduct its activities or achieve its objects.

202x. Section 89 of the Act would be amended by adding the following subsection:

Exception

(4) The requirement in subsection (1) to pay an amount to the Financial Corporation does not apply in respect of amounts payable to Ontario Power Generation Inc. or a subsidiary of Ontario Power Generation Inc. as a result of its functions as the Financial Services Manager under [new Act].

203x. Section 90 of the Act would be amended by adding the following subsection:

Exception

(4) The requirement in subsection (1) to pay an amount to the Financial Corporation does not apply in respect of amounts payable to Ontario Power Generation Inc. or a subsidiary of Ontario Power Generation Inc. as a result of its functions as the Financial Services Manager under [new Act].

[Note: Drafting still to be added to the EA consequential amendments: ***All fees charged by OPG as the FSM shall be approved by the OEB before they are included in the calculation of clean energy adjustments.]***

Confidential Draft

AMENDMENTS TO ONTARIO ENERGY BOARD ACT, 1998

204x. Subsection 1 (1) of the *Ontario Energy Board Act, 1998* would be amended by adding the following paragraph:

6. To facilitate the implementation of the [TBD - language should link up with language from new Act.]

205x. Section 71 of the Act would be amended by adding the following subsection

[Note - still need to draft new subs. 70 (2.1) - instructions on pp. 8-9 of Rider instructions rec'd April 14th]

Short Title - this proposal for legislation would, if approved by the Legislature, have a short title to be determined by Government.

Timing – this proposal for legislation would, if approved by the Legislature, come into force on a date to be established by Government.

Confidential Draft

SCHEDULE 1
METHOD FOR DETERMINING AMOUNT OF CLEAN ENERGY ADJUSTMENT FOR REFERENCE PERIOD

[NOTE: CEAs WILL BE DETERMINED BASED ON AN ESTIMATE OF COSTS AND REPAYMENTS FOR AN UPCOMING PERIOD, AND BE TRUED UP TO ACTUAL COSTS AND REPYAMENTS IN THE NEXT FOLLOWING PERIOD. THESE MECHANICS CAN BE SEEN IN THE SUMMARY DOCUMENT – "PERIOD FINANCE AMOUNTS" AND SECONDARY DEFINITIONS. THIS FORMULAIC APPROACH IS PREFERRED TO ESTABLISH A SUM CERTAIN OF THE DEBT REPRESENTED BY THE CEAs, ONCE BILLED. IT MAY BE USEFUL TO CREATE A DEFINITION TO ENCOMPASS ALL CEAs FOR A PERIOD, SINCE A CEA IS THE AMOUNT BILLED TO A PARTICULAR CUSTOMER]

1. The amount of the clean energy adjustment for a reference period shall be determined by calculating the sum of the following:

1. The sum of all payments made by owners of an investment asset [during the reference period?] to satisfy an obligation to repay, redeem or repurchase, or to provide for the repayment, redemption or repurchase, of all or a portion of the amount advanced to the owners under a funding obligation, excluding any payment made by applying the proceeds of a refinancing.

[Note: Para. 1 is the definition of "repayment" from the Blakes doc. However, that definition include bracketed text that says: (*including making Finance Reserve Deposits).* I don't understand this because (1) Finance Reserve Deposit is listed as a separate line item in the definition of "finance amount" (see para. 4 below). In order to avoid duplication, can we exclude "finance reserve deposits" from para. 1?]

[NOTE THAT SHOULD LIMIT CONCEPT OF RESERVE DEPOSITS AS INCURRENCES IF IT WOULD MEAN THAT THE PROCEEDS FROM A TRANSFER WOULD BE REDUCED FROM FACE VALUE WITH THE RESULT THAT IESO WOULD BE TRANSFERRING IAs AT A DISCOUNT]

2. The sum of all funding costs for the reference period, as determined under section 2 to this Schedule.

3. The sum of all amounts payable by or on behalf of owners of investment assets to redeem, prepay or repurchase a funding obligation, including any premium, make-whole or other amount becoming payable under a funding obligation to give effect to the redemption, prepayment or repurchase.

Confidential – Draft for discussion purposes only

[Note: Para. 3 is the definition of "redemption amount" from the Blakes doc.]
[Note: What is meant by "make-whole" -- need some assistance in order to translate this term accurately. Do you have any examples of bilingual legislation where this term has been used?]

4. The balance of the finance reserve at the end of the reference period, as determined under section 3 to this Schedule.

5. The sum of any other amounts payable by owners of investment assets for the reference period that were incurred or committed to directly or indirectly in connection with the incurrence of funding obligations under the Financing Plan during the reference period, which may include such amounts as may be prescribed.

[Note: Para. 5 is based on the definition of "additional funding charges".]

Funding costs

2. For the purposes of paragraph 2 of section 1 to this Schedule, the funding costs for a reference period are determined by taking the following steps:

1. Calculate the aggregate of all interest and other periodic finance charges accruing, due and becoming payable or paid by or on behalf of owners of investment assets during the reference period in respect of all funding obligations, including the following:

    i. Standby commitment fees or charges paid to any lender.

    ii. Credit enhancement fees or charges paid to any credit enhancer.

    iii. Liquidity fees or charges paid to any liquidity provider.

    iv. Payments, including termination payments, made under derivatives.

    v. Deposits made or required to fund or replenish a debt service reserve account or other account established under any indenture, ancillary agreement or other financing document relating to a funding obligation.

2. Calculate the aggregate of all amounts received by or on behalf of the owners of investment assets during the reference period in respect of a funding obligation, including reimbursement of any amounts referred to in subparagraphs 1 i to v.

[Note: Para. 2 is the definition of "finance receipts" in the Blakes doc.]

Confidential Draft

3. Subtract the amount calculated under paragraph 2 from the amount calculated under paragraph 1.

Finance reserve balance

3. (1) For the purposes of paragraph 4 of section 1 to this Schedule, the balance of the finance reserve at the end of the reference period is determined by taking the following steps:

[Note: This section is a modification of the definitions provided in the Blakes document for "Finance Reserve Deposits" and "Finance Reserve Withdrawals". The proposed definition of "FR deposit" involved a subtraction of the "FR withdrawal" so the term 'deposit' was not really descriptive of a pure deposit but rather the balance.]

1. Calculate the sum of all amounts deposited [to what account?] during the reference period in order to pre-fund, collateralize, over-collateralize or establish reserves for the ultimate payment of funding obligations or for related contingencies specified in the Financing Plan.

2. Calculate the sum of all amounts withdrawn from the account during the reference period from deposits previously made [e.g. during a previous reference period?] as described in paragraph 1.

3. Subtract the amount calculated under paragraph 2 from the amount calculated under paragraph 1.

EXCERPTS FROM THE ELECTRICITY ACT AND ONTARIO ENERGY BOARD ACT

RELATED TO CONSEQUENTIAL AMENDMENTS

Electricity Act, 1998

Purposes of *Electricity Act, 1998*

1. The purposes of this Act include the following:

(a) to ensure the adequacy, safety, sustainability and reliability of electricity supply in Ontario through responsible planning and management of electricity resources, supply and demand;

(a.1) to establish a mechanism for energy planning;

(b) to encourage electricity conservation and the efficient use of electricity in a manner consistent with the policies of the Government of Ontario;

(c) to facilitate load management in a manner consistent with the policies of the Government of Ontario;

(d) to promote the use of cleaner energy sources and technologies, including alternative energy sources and renewable energy sources, in a manner consistent with the policies of the Government of Ontario;

(e) to provide generators, retailers, market participants and consumers with non-discriminatory access to transmission and distribution systems in Ontario;

(f) to protect the interests of consumers with respect to prices and the adequacy, reliability and quality of electricity service;

(g) to promote economic efficiency and sustainability in the generation, transmission, distribution and sale of electricity;

(g.1) to facilitate the alteration of ownership structures of publicly-owned corporations that transmit, distribute or retail electricity;

(g.2) to facilitate the disposition, in whole or in part, of the Crown's interest in corporations that transmit, distribute or retail electricity, and to make the proceeds of any such disposition available to be appropriated for any Government of Ontario purpose;

(h) to ensure that Ontario Hydro's debt is repaid in a prudent manner and that the burden of debt repayment is fairly distributed;

(i) to facilitate the maintenance of a financially viable electricity industry; and

(j) to protect corridor land so that it remains available for uses that benefit the public, while recognizing the primacy of transmission uses. 2004, c. 23, Sched. A, s. 1; 2014, c. 7, Sched. 7, s. 1; 2015, c. 20, Sched. 9, s. 1; 2016, c. 10, Sched. 2, s. 1.

Objects of the IESO

6 (1) The objects of the IESO are,

(a) to exercise the powers and perform the duties assigned to it under this Act, the regulations, directions, the market rules and its licence;

(b) to enter into agreements with transmitters to give it authority to direct the operation of their transmission systems;

(c) to direct the operation and maintain the reliability of the IESO-controlled grid to promote the purposes of this Act;

(d) to participate in the development by any standards authority of criteria and standards relating to the reliability of the integrated power system;

(e) to establish and enforce criteria and standards relating to the reliability of the integrated power system;

(f) to work with the responsible authorities outside of Ontario to co-ordinate the IESO's activities with the activities of those authorities;

(g) to operate the IESO-administered markets to promote the purposes of this Act;

(h) to engage in activities related to contracting for the procurement of electricity supply, electricity capacity, electricity storage, transmission systems or any part of such systems and conservation resources;

(i) to engage in activities related to settlements, payments under a contract entered into under the authority of this Act and payments provided for under this Act or the *Ontario Energy Board Act, 1998*;

(j) to engage in activities in support of the goal of ensuring adequate, reliable and secure electricity supply and resources in Ontario;

(k) to forecast electricity demand and the adequacy and reliability of electricity resources for Ontario for the short term, medium term and long term;

(l) to conduct independent planning for electricity generation, demand management, conservation and transmission;

(m) to engage in activities to facilitate the diversification of sources of electricity supply by promoting the use of cleaner energy sources and technologies, including alternative energy sources and renewable energy sources;

(n) to engage in activities in support of system-wide goals for the amount of electricity to be produced from different energy sources;

(o) to engage in activities that facilitate load management;

(p) to engage in activities that promote electricity conservation and the efficient use of electricity;

(q) to assist the Board by facilitating stability in rates for certain types of consumers;

(r) to collect and make public information relating to the short term, medium term and long term electricity needs of Ontario and the adequacy and reliability of the integrated power system to meet those needs; and

(s) to engage in such other objects as may be prescribed by the regulations. 2014, c. 7, Sched. 7, s. 3 (1); 2016, c. 10, Sched. 2, s. 3.

Objects of Ontario Power Generation Inc.

53.1 (1) The objects of Ontario Power Generation Inc. include, in addition to any other objects, owning and operating generation facilities. 2002, c. 1, Sched. A, s. 11.

Status

(2) Ontario Power Generation Inc. and its subsidiaries are not agents of Her Majesty for any purpose, despite the *Crown Agency Act*. 2002, c. 1, Sched. A, s. 11.

Rights of the Minister

53.2 The Minister, on behalf of Her Majesty in right of Ontario, may acquire and hold shares of Ontario Power Generation Inc. 2002, c. 1, Sched. A, s. 11.

Corporations to hold shares

53.3 (1) The Lieutenant Governor in Council may cause corporations to be incorporated under the *Business Corporations Act* for the purpose of acquiring and holding shares in Ontario Power Generation Inc. 2002, c. 1, Sched. A, s. 11.

Same

(2) Shares in a corporation incorporated pursuant to subsection (1) may be acquired and held in the name of Her Majesty in right of Ontario by a member of the Executive Council designated by the Lieutenant Governor in Council. 2002, c. 1, Sched. A, s. 11.

Crown agent

(3) A corporation incorporated pursuant to subsection (1) is an agent of Her Majesty for all purposes. 2002, c. 1, Sched. A, s. 11.

Dividends paid to Crown agent

(4) If an agent of Her Majesty in right of Ontario is paid dividends in respect of shares of Ontario Power Generation Inc., the agent shall pay the dividends to the Financial Corporation, less any amount that it considers is required to pay obligations it has assumed under clause 122 (1) (a). 2002, c. 1, Sched. A, s. 11.

Reporting requirements

53.4 (1) Ontario Power Generation Inc. shall, within 90 days after the end of every fiscal year, submit to the Minister an annual report on its affairs during that fiscal year, signed by the chair of the board of directors. 2002, c. 1, Sched. A, s. 11.

Same

(2) The Minister shall submit the annual report to the Lieutenant Governor in Council and shall then table the report in the Assembly. 2002, c. 1, Sched. A, s. 11.

Same

(3) Ontario Power Generation Inc. may give its annual report to other persons before the Minister complies with subsection (2). 2002, c. 1, Sched. A, s. 11.

Additional reports and information

(4) Ontario Power Generation Inc. shall give such other reports and information to the Minister of Finance or to the Minister as each of them may require from time to time. 2002, c. 1, Sched. A, s. 11.

Residual power of the Crown

53.5 Nothing in this Part restricts the powers of Her Majesty in right of Ontario or any member of the Executive Council at common law or under any Act, whether as a shareholder or otherwise. 2002, c. 1, Sched. A, s. 11.

[. . .]

Payments in lieu of federal corporate tax

89 (1) If Hydro One Inc., a subsidiary of Hydro One Inc., Ontario Power Generation Inc. or a subsidiary of Ontario Power Generation Inc. is exempt under subsection 149 (1) of the *Income Tax Act* (Canada) from the payment of tax under that Act, it shall pay to the Financial Corporation in respect of each taxation year an amount equal to the amount of the tax that it would be liable to pay under that Act if it were a corporation to which that subsection did not apply. 1998, c. 15, Sched. A, s. 89 (1); 2002, c. 1, Sched. A, s. 15 (1); 2007, c. 7, Sched. 12, s. 2.

Corridor land

(1.1) The amount payable under subsection (1) by a person or entity from whom corridor land is transferred by section 114.2 shall be determined, for the taxation year in which the transfer occurs and for subsequent taxation years, as if the transfer did not occur. 2002, c. 1, Sched. A, s. 15 (2).

Payments to Minister of Finance

(2) After Part V is repealed under section 84.1, all payments required by this section shall be paid to the Minister of Finance, instead of to the Financial Corporation. 1998, c. 15, Sched. A, s. 89 (2); 2000, c. 42, s. 31.

Commencement of new taxation year

(3) A corporation that is required to make payments under this section shall be deemed, for the purposes of this section, to commence a new taxation year on the day this section comes into force.

Payments in lieu of provincial corporate tax

90 (1) If Hydro One Inc., a subsidiary of Hydro One Inc., Ontario Power Generation Inc. or a subsidiary of Ontario Power Generation Inc. is exempt under subsection 57 (1) of the *Corporations Tax Act* from the payment of tax under that Act for a taxation year that ends before January 1, 2009, it shall pay to the Financial Corporation in respect of each taxation year ending before that day an amount equal to the total amount of tax that it would be liable to pay under Parts II, II.1 and III of that Act for that year if it were a corporation to which that subsection did not apply. 2007, c. 7, Sched. 12, s. 3 (3).

Same

(1.0.1) If Hydro One Inc., a subsidiary of Hydro One Inc., Ontario Power Generation Inc. or a subsidiary of Ontario Power Generation Inc. is exempt under subsection 27 (2) of the *Taxation Act, 2007* from the payment of tax under that Act for a taxation year that ends after December 31, 2008, it shall pay to the Financial Corporation in respect of each taxation year ending after that day an amount equal to the total amount of tax that it would be liable to pay under Divisions B, C and E of Part III of that Act for the taxation year if it were a corporation to which that subsection did not apply. 2007, c. 7, Sched. 12, s. 3 (3).

Corridor land

(1.1) The amount payable under subsection (1) by a person or entity from whom corridor land is transferred by section 114.2 shall be determined, for the taxation year in which the transfer occurs and for subsequent taxation years, as if the transfer did not occur. 2002, c. 1, Sched. A, s. 16 (2).

Payments to Minister of Finance

(2) After Part V is repealed under section 84.1, all payments required by this section shall be paid to the Minister of Finance, instead of to the Financial Corporation. 1998, c. 15, Sched. A, s. 90 (2); 2000, c. 42, s. 32.

Commencement of new taxation year

(3) A corporation that is required to make payments under this section shall be deemed, for the purposes of this section, to commence a new taxation year on the day this section comes into force. 1998, c. 15, Sched. A, s. 90 (3).

Ontario Energy Board Act, 1998

1 (1) The Board, in carrying out its responsibilities under this or any other Act in relation to electricity, shall be guided by the following objectives:

1. To protect the interests of consumers with respect to prices and the adequacy, reliability and quality of electricity service.

1.1 To promote the education of consumers.

2. To promote economic efficiency and cost effectiveness in the generation, transmission, distribution, sale and demand management of electricity and to facilitate the maintenance of a financially viable electricity industry.

3. To promote electricity conservation and demand management in a manner consistent with the policies of the Government of Ontario, including having regard to the consumer's economic circumstances.

4. To facilitate the implementation of a smart grid in Ontario.

5. To promote the use and generation of electricity from renewable energy sources in a manner consistent with the policies of the Government of Ontario, including the timely expansion or reinforcement of transmission systems and distribution systems to accommodate the connection of renewable energy generation facilities. 2004, c. 23, Sched. B, s. 1; 2009, c. 12, Sched. D, s. 1; 2015, c. 29, s. 7.

Licence conditions

70 (1) A licence under this Part may prescribe the conditions under which a person may engage in an activity set out in section 57 and a licence may also contain such other conditions as are appropriate having regard to the objectives of the Board and the purposes of the *Electricity Act, 1998*. 1998, c. 15, Sched. B, s. 70 (1).

Approvals, etc., with or without holding hearing

(1.1) The Board may, with or without a hearing, grant an approval, consent or make a determination that may be required for any of the matters provided for in a licensee's licence. 2009, c. 12, Sched. D, s. 10.

Examples of conditions

(2) The conditions of a licence may include provisions,

(a) specifying the period of time during which the licence will be in effect;

(b) requiring the licensee to provide, in the manner and form determined by the Board, such information as the Board may require;

(c) requiring the licensee to enter into agreements with other persons on specified terms (including terms for a specified duration) approved by the Board relating to its trading or operations or for the connection to or use of any lines or plant owned or operated by the licensee or the other party to the agreement;

(d) governing the conduct of the licensee, including the conduct of,

(i) a transmitter or distributor as that conduct relates to its affiliates,

(ii) a distributor as that conduct relates to a retailer,

(ii.1) a distributor or suite meter provider as such conduct relates to,

(A) the disconnection of the supply of electricity to a consumer, including the manner in which and the time within which the disconnection takes place or is to take place, and with respect to a low-volume consumer, periods during which the disconnection may not take place,

(B) the manner, timing and form in which the notice under subsection 31 (2) of the *Electricity Act, 1998* is to be provided to the consumer, and

(C) subject to the regulations, the manner and circumstances in which security is to be provided or not to be provided by a consumer to a distributor or suite meter provider, including,

(1) the interest rate to be applied to amounts held on deposit and payable by the distributor or suite meter provider to the consumer for the amounts,

(2) the manner and time or times by which the amounts held on deposit may or must be paid or set-off against amounts otherwise due or payable by the consumer,

(3) the circumstances in which security need not be provided or in which specific arrangements in respect of security may or must be provided by the distributor or suite meter provider to the consumer, and

(4) such other matters as the Board may determine in respect of security deposits,

(iii) a retailer, and

(iv) a generator, retailer or person licensed to engage in an activity described in clause 57 (f) or an affiliate of that person as that conduct relates to the abuse or possible abuse of market power;

(d.1) governing conditions relating to any matter prescribed by regulation in respect of retailers of electricity in relation to the retailing of electricity, subject to any regulations made under this Act;

(e) specifying methods or techniques to be applied in determining the licensee's rates;

(f) requiring the licensee to maintain specified accounting records, prepare accounts according to specified principles and maintain organizational units or separate accounts for separate businesses in order to prohibit subsidies between separate businesses;

(g) specifying performance standards, targets and criteria;

(h) specifying connection or retailing obligations to enable reasonable demands for electricity to be met;

(i) specifying information reporting requirements relating to the source of electricity and emissions caused by the generation of electricity;

(j) requiring the licensee to expand or reinforce its transmission or distribution system in accordance with market rules in such a manner as the IESO or the Board may determine;

(k) requiring the licensee to enter into an agreement with the IESO that gives the IESO the authority to direct operations of the licensee's transmission system;

(l) REPEALED: 2016, c. 10, Sched. 2, s. 15.

(m) requiring licensees, where a directive has been issued under section 28.2, to implement such steps or such processes as the Board or the directive requires in order to address risks or liabilities associated with customer billing and payment cycles in respect of the cost of electricity at the retail and at the wholesale levels and risks or liabilities associated with non-payment or default by a consumer or retailer. 1998, c. 15, Sched. B, s. 70 (2); 2003, c. 3, s. 47 (1); 2004, c. 23, Sched. B, s. 11 (1-3); 2010, c. 8, s. 38 (10, 11); 2016, c. 10, Sched. 2, s. 15; 2017, c. 1, s. 2 (1).

Deemed conditions of licences, transmitters and distributors

(2.1) Every licence issued to a transmitter or distributor shall be deemed to contain the following conditions:

1. The licensee is required to provide, in accordance with such rules as may be prescribed by regulation and in the manner mandated by the market rules or by the Board, priority connection access to its transmission system or distribution system for renewable energy generation facilities that meet the requirements prescribed by regulation made under subsection 26 (1.1) of the *Electricity Act, 1998*.
2. The licensee is required to prepare plans, in the manner and at the times mandated by the Board or as prescribed by regulation and to file them with the Board for approval for,

i. the expansion or reinforcement of the licensee's transmission system or distribution system to accommodate the connection of renewable energy generation facilities, and

ii. the development and implementation of the smart grid in relation to the licensee's transmission system or distribution system.

3. The licensee is required, in accordance with a plan referred to in paragraph 2 that has been approved by the Board or in such other manner and at such other times as mandated by the Board or prescribed by regulation,

i. to expand or reinforce its transmission system or distribution system to accommodate the connection of renewable energy generation facilities, and

ii. to make investments for the development and implementation of the smart grid in relation to the licensee's transmission system or distribution system. 2009, c. 12, Sched. D, s. 10.

Deemed condition of licences, unit sub-meter provider, *Ontario Clean Energy Benefit Act, 2010*

(2.2) Every licence issued to a unit sub-meter provider is deemed to contain the condition that the unit sub-meter provider is required to comply with the *Ontario Clean Energy Benefit Act, 2010* and the regulations made under it. 2010, c. 26, Sched. 13, s. 17 (2).

Deemed condition of licences, unit sub-meter provider, *Ontario Rebate for Electricity Consumers Act, 2016*

(2.3) Every licence issued to a unit sub-meter provider is deemed to contain the condition that the unit sub-meter provider is required to comply with the *Ontario Rebate for Electricity Consumers Act, 2016* and the regulations made under it. 2016, c. 19, s. 17 (2).

TOR_2528-#23107566-v13-_Fair_Hydro_Act_.pdf

CONFIDENTIAL AND PRIVILEGED

Preliminary Draft for Discussion Purposes Only

"Fair Hydro Act"

Article 1 – Purpose

The Province has and continues to encourage the construction and development of facilities for the long-term operation and generation of electricity in the Province using sustainable, lower carbon-based technologies such as new gas-fired generation, renewable facilities, energy from waste and biomass, including under the Province's various procurement, standard offer, feed in tariff and other similar programs (the "Green Generation Initiative"). The long-term benefits of the Green Generation Initiative accrue over time and have benefited and will continue to benefit present and future electricity consumers in the Province.

The out-of-market costs of the Green Generation Initiative are currently passed through to electricity consumers by way of a monthly adjustment amount (the "Green Costs Adjustment"), which in turn forms part of the overall adjustment calculated by the Independent Electricity System Operator ("IESO") pursuant to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* (the "Global Adjustment").

The Green Costs Adjustment is currently determined each month by reference to the amounts paid by IESO to the generators of electricity in the Province under the Green Generation Initiative. These amounts paid by the IESO arise because IESO has entered into long-term procurement contracts with such generators in order to provide them with revenue certainty, and in turn to encourage the generators to develop technologies and to construct and develop facilities consistent with the Green Generation Initiative. It has been determined that the useful lives of many of the assets developed under the Green Generation Initiative will be in excess of the respective terms of their respective procurement contracts.

Since the benefits to past, present and future electricity consumers from the Green Generation Initiative will not necessarily coincide with the costs currently attributed through the Green Costs Adjustment, based on the respective terms of the applicable procurement contracts, it has been determined that the rate at which the costs associated with the Green Generation Initiative should be passed through to Regulated Consumers (as defined in Article 2) should be more closely aligned with the benefits that such Regulated Consumers have derived and are expected to derive from the Green Generation Initiative over time. This realignment will be based on general principles and parameters that establish a reasonable basis for measuring and allocating the relative costs and benefits of the Green Generation Initiative equitably across present and future Regulated Consumers (the "Fair Allocation Plan").

If the Fair Allocation Plan determines that the equitable allocation of the costs associated with the Green Generation Initiative to the Regulated Consumers of a particular time period should be reduced below the amount that currently would be charged based on the Green Costs Adjustment, then the amount payable by such Regulated Consumers and in turn available to IESO will, in the aggregate, be less than the amount payable by the IESO to the generators in respect of such period. In this case, IESO will need to obtain funding from another source to cover such a shortfall. If a funding obligation is incurred to cover such a shortfall during any period, the repayment of such funding obligation will be required in a future period, and any related repayments, finance costs, hedging costs and other transaction costs incurred will become payable in future periods. In order for IESO to obtain a reliable and committed source

of cash flows to enable IESO to repay such funding amounts when they become due and payable, this Act imposes irrevocable and non-bypassable financial obligations on Regulated Consumers to pay amounts incurred in respect of such funding obligations when they become due and payable and establishes a right to invoice and collect such amounts. The right and interest in and to collect such financial obligations will take the form of the Regulatory Asset contemplated in this Act, which will constitute property rights and interests. Interests in the Regulatory Asset may be sold and absolutely assigned by IESO to one or more financing entities, which in turn will finance their acquired interests by incurring funding obligations. The incurrence and payment of such funding obligations will be administered on behalf of such financing entities by a financial services manager under the Financing Plan contemplated in this Act.

The purpose of this Act is to establish the basis upon which intergenerational fairness can be achieved by charging the costs and benefits of the Green Generation Initiative to present and future Regulated Consumers on an equitable and cost effective basis.

Article 2 – Definitions

In this Act:

> "Absolute Assignee" means a person to whom a Regulatory Asset Owner effects a Disposition other than as security.
>
> "Actual" means, in relation to costs, expenses or payments in respect of Funding Obligations during a Reference Period, the actual amount of such costs, expenses or payments paid or made (net of any Finance Reserve Withdrawals applied to pay such amounts), which amounts shall be recorded by the Financial Services Manager whose records shall be determinative for the purposes of this Act except to the extent of a manifest calculation error.
>
> "Additional Funding Charges" means, for a Reference Period the fees, charges, expenses, costs, indemnities, reimbursements and other amounts (including any applicable tax amounts) that are or become payable by or on behalf of any Absolute Assignee during the Reference Period and that were incurred or committed to directly or indirectly by the Absolute Assignee in connection with the incurrence of Funding Obligations under the Financing Plan (whether at the time of such incurrence or over the term of the Funding Obligation and whether directly or indirectly), including without limitation such amounts as may be prescribed.
>
> "Alternative Servicer" means a person appointed under Section 4(8) to assume the obligations of the Servicer under Article 4, as agent for and on behalf of the Regulatory Asset Owners.
>
> "Assessed Past Green Transition Costs" means, in respect of a Measurement Date, the aggregate of the imputed costs of the Green Generation Initiative (expressed as an equivalent to current dollars), as reflected in the calculation of the Green Costs Adjustment, which have been charged to Regulated Customers through the Global Adjustment on or prior to the Measurement Date.

"Attribution Methodology"[1] means the methodology specified in the Fair Allocation Plan for allocating the Period Finance Charges for a Reference Period to Regulated Consumers.

"Collected Amount Adjustment" means, in respect of a True-Up Period, the amount (which may be a negative amount) calculated by the Servicer or the Financial Services Manager, as applicable, equal to (a) the Estimate of the Finance Amount for the True-Up Period, minus (b) the sum of all Transition Charge Collections for the True-Up Period and minus [(c) the amounts by which amounts remitted by Electricity Distributors pursuant to Section 5(4) exceeded the corresponding amount of Transition Charges Actually paid by Regulated Consumers.][2]

"Collective Rights Agreement" means an agreement among all of the Regulatory Asset Owners (including each Absolute Assignee), each Pledgee, and the Financial Services Manager that governs the enforcement of their respective rights and interests in, to and under the Regulatory Asset on a coordinated and collective basis.

"Delegate" means any of the following person or persons designated in writing from time to time by the Minister of Energy to undertake the actions and perform the responsibilities ascribed to the "Delegate" under this Act: ●[3].

"Disposition" means an assignment, transfer, conveyance, sale, contribution, set-over, exchange or other disposition (or, in the case of the IESO Funding Shortfall, a release by IESO of its right to recover such amount in order to enable an Absolute Assignee to recover such amount) of (a) IESO's right to recover all or any portion of an IESO Funding Shortfall or (b) an Investment Interest, in each case to an Absolute Assignee pursuant to a Disposition Document.

"Disposition Document" means the agreement, deed, conveyance, instrument or other document under which IESO or an Absolute Assignee effects a Disposition to an Absolute Assignee.

"Electricity Distributor" means a rate regulated distributor licensed under Part V of the *Ontario Energy Board Act, 1998*, together with and its successors.

"Electricity Distributor Remittances" means, for an Electricity Distributor on a Remittance Date, all Transition Charge Collections received or deemed to be received by the Electricity Distributor prior to the Remittance Date and that have not otherwise been remitted to Servicer or if applicable the Alternative Collection Agent in accordance with Section 5(3), including the proceeds of any enforcement action undertaken by the

---

[1] This allocation may be volumetric or some combination of a flat amount and a volumetric charge. Further discussion is required. H&W has raised a concern regarding possible adverse changes after the fact and rating agency considerations. Consider whether hard-coding in the legislation makes sense.

[2] This is intended to pick up adjustments based on actual collection experience, changes in the Regulated Consumer base, changes in the actual costs (versus earlier estimates) included in the Transition Charge calculation, etc. The actual calculation needs work.

[3] Placeholder for delegation once deterermined.

Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5.[4]

"Electricity Invoice" means an invoice issued by an Electricity Distributor (or in its stead, by an Alternative Collection Agent), by the Servicer or by a Retailer, in each case to a Regulated Consumer that is served by the Electricity Distributor's distribution system in respect of electricity charges, including the cost of electricity, delivery and regulatory charges and related services and amounts incurred, assessed or charged in respect of connectivity to such Electricity Distributor's distribution system and in respect of applicable Transition Charges to be charged to the Regulated Consumer under this Act.

"Estimate" means (a) in relation to costs, expenses or payments in respect of Funding Obligations or any Finance Amount for a Reference Period, the estimated amount of such costs, expenses or payments determined by the Financial Services Manager; and (b) in relation to an assessment of the benefits of the Green Generation Initiative to Regulated Consumers, the estimated value (in current dollars) of such benefits determined by the Delegate, in each case having regard to the applicable principles and parameters set out in Schedule 1, which estimated amounts shall be determinative as the applicable estimate for the purposes of this Act except to the extent of a manifest calculation error.

"Estimated Future Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that are expected to accrue to Regulated Consumers from the establishment and implementation of the Green Generation Initiative during the period from the Measurement Date to the Program-End Date.

"Estimated Past Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that have accrued to Regulated Consumers from the establishment and implementation of the Green Generation Initiative up to and including the Measurement Date.

"Fair Allocation Plan" has the meaning given in Article 1.

"Finance Amount" means, for a Reference Period, the sum (without duplication) of the following amounts that are or become payable during the Reference Period in respect of any Absolute Assignee: (a) Repayments; (b) Net Funding Costs; (c) Redemption Amounts; (d) Finance Reserve Deposits; and (e) Additional Funding Charges.

"Finance Reserve Deposits" means, for a Reference Period, the amount by which (a) deposits made or to be made during the Reference Period in order to pre-fund, collateralize, over-collateralize or establish reserves for the ultimate payment of Funding Obligations or for related contingencies specified in the Financing Plan, exceed (b) any Finance Reserve Withdrawals.

---

[4] Suggestion is that LDCs remit based on estimates and then true-up, based on current arrangements for remittances by LDCs to IESO. *

"Finance Reserve Withdrawals" means, for a Reference Period, the amount withdrawn during the Reference Period from deposits previously made to pre-fund, collateralize, over-collateralize or establish reserves for the payment of Funding Obligations or to pay amounts in respect of related contingencies that had been specified in the Financing Plan.

"Financial Services Manager" means OPG or, following any Replacement Event involving OPG, such other person who may be appointed as the financial services manager of the Absolute Assignees under the Financing Plan in compliance with the requirements set out in Schedule 2.[5]

"Financing Entity" means any entity established in accordance with the Financing Plan to be an Absolute Assignee and that is managed by the Financial Services Manager.[6]

"Financing Plan" means the written plan prepared by the Financial Services Manager in accordance with Article 9, as the same may be amended, amended and restated or terminated by the Financial Services Manager in accordance with Article 9 from time to time.

"Funding Obligation" means, in respect of an Absolute Assignee, each payment obligation (including each obligation to pay: principal, interest, premiums and other financing charge payments; pass-through payments; payment obligations arising under or in respect of derivatives; payment obligations owing to service providers, Financial Services Managers, finance entity intermediaries, capital markets intermediaries, advisors, lenders, credit enhancement providers, liquidity providers, disbursement counterparties, regulatory agencies and rating agencies; and all Additional Funding Charges) incurred by or on behalf of the Absolute Assignee under the Financing Plan, including any Refinancing of another such payment obligation incurred by or on behalf of such Absolute Assignee.

"Future Fair Share of Green Transition Benefits" means, in respect of a Measurement Date, the sum of (a) the Over-Assessed Amount; and (b) the Estimated Future Green Transition Benefits, in each case as of the Measurement Date.

"Global Adjustment" has the meaning given in Article 1.

"Green Costs Adjustment" has the meaning given in Article 1.

"Green Generation Initiative" has the meaning given in Article 1.

---

[5] There must only be one Financial Services Manager.

[6] MOE to confirm that the legislation will provide that any Financing Entity that is a wholly-owned subsidiary of OPG (1) would not be subject to Part VI of the *Electricity Act* (Ontario) and (2) in the case of any Financing Entity that is a trust, any income of such trust (for purposes of the *Income Tax Act* (Canada) or the *Taxation Act, 2007* Ontario)) which is paid or made payable to OPG or a wholly-owned subsidiary of OPG as a beneficiary of such trust will not be taken into account in calculating the amount of a payment required to be made by OPG (or such subsidiary) by section 89 or 90 of the Electricity Act.

"IESO" means the Independent Electricity System Operator created pursuant to Part II of the *Electricity Act, 1998*.

"IESO Electricity Distribution Receipts" means, for a month, the sum of all amounts payable by Electricity Distributors to IESO , during the month pursuant to section • of the *Electricity Act* in respect of Regulated Consumers. **[NTD: IESO indicates that it likely does not work to express in regards to "amounts payable by the LDCs" because settlement between the IESO and LDCs entails payments by LDCs to the IESO and then credits/debits by the IESO to LDCs to reflect RPP shortfalls/overages.]**

"IESO Funding Shortfall" means, for a month, the amount, if any, by which (a) the IESO Electricity Distribution Receipts that would be payable to IESO for the month if determined without regard to this Act and without regard to the changes made to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* with respect to the Global Adjustment concurrently with this Act, exceeds (b) the IESO Electricity Distribution Receipts payable to IESO for the month.To the extent reasonably necessary to give effect to this Act, or any transaction contemplated hereby, IESO shall calculate the IESO Funding Shortfall for any month taking into account information provided by the Electricity Distributors and (i) such calculation shall be binding for all purposes; and (ii) any demonstrated inaccuracy in the calculation for any month (including any such resulting from inaccuracies in the information provided by Electricity Distributors) shall be accounted for by adjusting the IESO Funding Shortfall for a subsequent month.

"IESO Recovery" means each amount received by IESO in accordance with its right to recover IESO Funding Shortfalls pursuant to section 25.33 of the Electricity Act and Ontario Regulation 430/04, as amended, and "IESO Recoveries" means, collectively, all such amounts received by IESO.[7]

"IESO Remittances" means, for a Settlement Date, all Electricity Distributor Remittances received by IESO or if applicable the Alternative Collection Agent prior to the Settlement Date and that have not otherwise been remitted to the Regulatory Asset Owners (each with respect to its Regulatory Asset) in accordance with Section 5(6), including the proceeds of any enforcement action undertaken by IESO or if applicable the Alternative Collection Agent to recover payment of amounts payable by Electricity Distributors to IESO in accordance with Article 5.

"IESO Regulatory Interest Amount" means, on a day, (a) the sum of all IESO Funding Shortfalls incurred prior to the day, minus (b) the net proceeds received by IESO from or on behalf of each Absolute Assignee as consideration for the Disposition of each Investment Interest paid to IESO by or on behalf of such Absolute Assignee prior to the day, and minus (c) the IESO Recoveries received by IESO prior to the day.

---

[7] IESO will be entitled to record the IESO Funding Shortfall amount in a variance account. The OEB will eliminate and dispose of the variance account balance as part of the RPP adjustment process under the OEB Act , with an applicable OEB accounting order. See Article 8 for corresponding adjustments based on Dispositions. These will need to be tied together.

“IESO Successor” means the entity appointed by the Province to succeed to the rights and obligations of IESO as the entity responsible for managing the Province’s electricity system.

“Investment Interest” means an ownership interest in, to or under the Regulatory Asset that is acquired by an Absolute Assignee pursuant to a Disposition.

“Investment Remittance” means, for a month, the lesser of (a) the aggregate amount of all IESO Remittances for the month, and (b) the sum of the Finance Amounts due and payable by all Absolute Assignees in respect of the month.

“Measurement Date” means [Insert relevant date around the Legislation Implementation Date] and any other date specified as such under the Fair Allocation Plan.

“Net Funding Costs” means, for a Reference Period, the amount by which (a) the aggregate of all interest, scheduled principal and other periodic finance charges accruing due and becoming payable or paid by or on behalf of any Absolute Assignee during the Reference Period in respect of its Funding Obligations, including such amounts as may be prescribed, exceeds (b) the aggregate of all amounts received by or on behalf of the Absolute Assignee during the Reference Period in respect of the Funding Obligations referred to in (a), and such other or different amounts as may be prescribed.

“OEB” means the Ontario Energy Board, together with its successors.

“OPG” means the corporation incorporated as Ontario Power Generation Inc. under the *Business Corporations Act* on December 1, 1998, together with its successors.

“Over-Assessed Amount” means, in respect of a Measurement Date, the amount (if any) by which (a) the Assessed Past Green Transition Costs, exceeds (b) the Estimated Past Green Transition Benefits, each as determined as of the Measurement Date.

“Period Finance Charges” means, for a Reference Period, the sum of (a) the Estimate of the Finance Amount (b) the True-Up Amount in respect of the applicable True-Up Period and (c) [an adjustment amount as may be prescribed to account for estimated collection shortfalls and collection delays in respect of amounts under (a) and (b).]

“Pledge” means, in respect of an Investment Interest of an Absolute Assignee, a lien, mortgage, charge or security interest granted to or in favour of a Pledgee by the Absolute Assignee in, to and over all or a specified portion (including a specified portion on a divided basis or by way of an undivided interest) of the Investment Interest.

“Pledgee” means a person to whom an Absolute Assignee grants a Pledge.

“Program End Date” means •, [2047].

“Province” means the Province of Ontario.

“Redemption Amount” means the amount payable by or on behalf of an Absolute Assignee to redeem, prepay or repurchase a Funding Obligation incurred by or on behalf of the Absolute Assignee, including any premium, make-whole or other additional

amount becoming payable under the Funding Obligation to give effect to such redemption, prepayment or repurchase.

"Reference Period" means (a) the period from (and including) the Measurement Date to (and including) October 30, 2017, (b) each six month period commencing [May 1st and November 1st] thereafter and (c) any other period specified as such in the Fair Allocation Plan.

"Refinancing" means, in respect of a Funding Obligation incurred by or on behalf of an Absolute Assignee, that the Funding Obligation is repaid or repurchased for cancellation by or on behalf of the Absolute Assignee by applying the net proceeds obtained by the Absolute Assignee incurring one or more other Funding Obligations.

"Regulated Consumer" means consumers of electricity in the Province [as prescribed][8].

"Regulated Consumer Group" means, in relation to a Reference Period, the Regulated Consumers who receive Electricity Invoices during the Reference Period.

"Regulatory Asset" means the property rights and interests described in Section 6(1), which collectively is comprised of each Investment Interest.

"Regulatory Asset Account" means (a) for an Electricity Distributor, any bank account into which the Electricity Distributor deposits or receives Transition Charge Collections; and (b) for the Servicer, any bank account into which Servicer deposits or receives Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances.

"Regulatory Asset Owner" means each Absolute Assignee, as owner of its Investment Interest or Investment Interests, and "Regulatory Asset Owners" means collectively each such Absolute Assignee, who together own the entirety of the Regulatory Asset and are required to exercise their individual rights of ownership in accordance with Section 6(7).

"Related Rights" means, with respect to a Regulatory Asset Owner's Investment Interest, all rights of any kind (whether in tort, contract or otherwise) that attach or are attendant or incidental to any of the other property rights or interests that comprise such Investment Interest.

"Remittance Date" means, in respect of an Electricity Distributor, each day on which it is required to remit Electricity Distribution Remittances to Servicer or if applicable the Alternative Collection Agent as specified in accordance with any Funding Obligation or, if no such day is specified in accordance with any Funding Obligation, then the business day preceding each Settlement Date.

"Repayment Obligation" means an obligation to repay, redeem or repurchase, or to provide for the repayment, redemption or repurchase (including by making a related Finance Reserve Deposit) of, all or a portion of the amount advanced to the Absolute Assignee under a Funding Obligation.

---

[8] To be included in the legislation once settled.

"Repayment" means a payment by an Absolute Assignee made to satisfy a Repayment Obligation, other than to the extent that the payment is made by applying the proceeds of a Refinancing or from Finance Reserve Withdrawals.

"Replacement Event" means any event specified as such in a Funding Obligation.

"Retailer" means a person who is licensed under Part V of the *Ontario Energy Board Act, 1998* to retail electricity.

["Retailer Consolidated Billing" has the same meaning as in the *Retail Settlement Code* issued by the Ontario Energy Board.]

"Servicer" means IESO or IESO Successor, as agent for and on behalf of the Regulatory Asset Owners, for the purposes set forth in Article 4.

"Settlement Date" means the [last business day of any month].

"Transition Charge" means, the amount recoverable from a Regulated Consumer in respect of a Reference Period[9], being the Period Finance Charge as allocated to such Regulated Consumer in accordance with Article 4(3) on a monthly basis. **[Note that this allocation will be based on the OEB process for determining the volumetric rate as part of the RPP process (see s. 4(2)). The OEB will determine volumetric rate based on forecast consumption, number of consumers, etc. to recover the Period Finance Charges.]**

"Transition Charge Collection" means any amount received **[or deemed by this Act to have been received]** upon the collection of a Transition Charge paid by or on behalf of a Regulated Consumer, including any proceeds arising from the exercise and enforcement of any related rights and interests under or in respect of the Regulatory Asset.

"True-Up Amount" means, in respect of a Reference Period, the amount (which may be a negative amount) calculated by the Financial Services Manager equal to (a) the Actual Finance Amount for such related True-Up Period, minus (b) the Estimate of the Finance Amount for the related True-Up Period, plus (c) the Collected Amount Adjustment for such related True-Up Period.[10]

---

[9] Note that Transition Charges will be calculated by reference to Funding Obligations and Finance Amounts incurred under the Financing Plan. The directive will be that no payment obligations will be incurred for payment before 2022, to accommodate the "Fair Adjustment".

[10] True-up calculation is under consideration. In this summary, a calculated true-up amount is contemplated to be included in the Period Finance Amount calculation, in order to achieve a sum certain and actionable debt. The suggestion is that the true-up mechanism be based generally on a calculation process to be described in the Regulation, which would require Transition Charges to be reviewed and adjusted semi-annually (or more frequently) to ensure the expected recovery of amounts sufficient to timely provide all payments in respect of Finance Amounts. It has been proposed that the scope of the true-up will exclude any 'leakage' at the Financing Entity Level (e.g., entity-level tax; litigation; losses) but will include shortfalls that are currently socialized through the LDC/IESO system. Note that the proposal

"True-Up Period" means, in relation to a Reference Period, the immediately preceding Reference Period.[11]

"Undertaking of Her Majesty in right of Ontario" means the undertaking of Her Majesty in right of Ontario given under Section 11(2).[12]

Article 3 – Transition Charges

(1) **Regulated Consumer Obligation to Pay a Transition Charge** – Each Regulated Consumer shall pay each Transition Charge charged to it in any Electricity Invoice issued to such Regulated Consumer by its Electricity Distributor or by an Alternative Servicer under Section 4(1), in each case on the terms of payment specified in the related Electricity Invoice.

(2) **Indebtedness of Regulated Consumers** – Until paid, a Transition Charge charged to a Regulated Consumer in an Electricity Invoice shall, together with any applicable late payment fees and finance charges arising under the terms of the Electricity Invoice with respect to such Transition Charge, constitute non-bypassable indebtedness of the Regulated Consumer to the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset. Such indebtedness shall constitute a single and separate[13] debt obligation owing by the Regulated Consumer, which subject to Article 5 may be enforced independently from any other payment obligation or indebtedness owing by the Regulated Consumer under the Electricity Invoice or otherwise.[14]

(3) **No Set-Off or Reduction** – A Regulated Consumer may not set-off or reduce (by counterclaim, defense or otherwise) the amount payable by it in respect of any Transition Charge, including any set-off against or in respect of any amount owing or becoming payable to such Regulated Consumer by its Electricity Distributor, any Regulatory Asset Owner or any other person.

(4) **Allocation of Regulated Consumer Payments** – If an Electricity Distributor receives a payment made by or on behalf of a Regulated Consumer in respect of amounts due and payable under one or more Electricity Invoices that is less than the total amount payable thereunder, such payment shall be allocated on a *pro rata* basis to the payment of related Transition Charges and other invoiced amounts and the amount so allocated as a payment of related Transition Charges shall be deemed to constitute a Transition Charge Collection.

---

to include a section detailing the true-up mechanism (Oslers 3(6) has not been included here since the outcome of the calculation is already built into the Period Finance Amount concept.

[11] Timing of calculation under consideration, given that amount will need to be reflected in customer invoices.

[12] Under consideration.

[13] Determine if this is critical for rating and markets. Logistics under consideration.

[14] Torys has also suggested that deemed conditions of licenses for distributors, retailers and unit sub-metering providers, could be included as conditions, to require them to collect and remit amounts in accordance with this legislation. Consider if it is helpful to integrate the existing regulatory scheme for invoicing and collections (regarding RPP) in the legislation.

(5) Transition Charges are Irrevocable – The Transition Charges arising under or in respect of Funding Obligations (including any adjustments based on modifications to such Funding Obligations made in compliance with the Financing Plan or as a result of amendments to the Financing Plan made in accordance with Section 9(3)) are deemed to be irrevocable, final and effective without any further action, except to the extent of manifest calculation error. For greater certainty, a Transition Charge may include Finance Amounts for a Reference Period regardless of whether the payment of such Finance Amounts are inconsistent with the Fair Allocation Plan applicable at the time such payments are due and payable, and regardless of whether the related Funding Obligation was properly incurred under the Financing Plan. In no case shall a Funding Obligation incurred under the Financing Plan be affected by a subsequent amendment to the Fair Allocation Plan.

(6) True-Up of Transition Charges – [See True-Up Amount].

Article 4 – Invoicing of Transition Charges

(1) Inclusion of Transition Charges in Electricity Invoices – Each Electricity Distributor and if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, specify the Transition Charge to be charged to a Regulated Consumer pursuant to Section 4(4) in respect of a related Reference Period in each Electricity Invoice[15] issued by the Electricity Distributor or if applicable by the Alternative Servicer to the Regulated Consumer in respect of such Reference Period. Upon the inclusion of a Transition Charge in an Electricity Invoice, the obligation to pay such amount shall be binding on the applicable Regulated Consumer.

(2) Calculation of the Period Finance Charge – Not later than [35] days prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services Manager on its behalf) shall provide the OEB with written notice of each Estimate of a Finance Amount payable by it or on its behalf in respect of the Reference Period. Not later than one month prior to the first day of a Reference Period, the Financial Services Manager on behalf of each Absolute Assignee shall calculate the Period Finance Charge applicable to the Reference Period having regard to such amounts specified by the Servicer, which calculations, information and amounts shall be determinative, except to the extent of manifest calculation error or misstatement.

(3) Basis for Attributing Transition Charges – Not later than 25 days prior to the first day of a Reference Period, the OEB shall determine a [Fair Hydro Recovery Rate] (on a volumetric basis) on which Electricity Distributors will attribute Transition Charges to consumers under 4(4).

(4) Notice of Transition Charges – Not later than 20 days prior to the first day of a Reference Period, the OEB shall inform each Electricity Distributor and if applicable any

---

[15] Intention is to include bills issued to eligible consumers served by unit sub-metering providers, retailers and the IESO – not just distributors and to address the inclusion of Transition Charges in the paperwork from the IESO to the LDC in a manner that is consistent with the current process of how the IESO bills LDCs.

Alternative Servicer of the [Fair Hydro Recovery Rate] to be applied by the Electiricy Distributor to attribute Transition Charges to each Regulated Consumer who is served by the Electricity Distributor for inclusion in the Electricity Invoices to be issued to the Regulated Consumers.

(5) **Adjustments** – The amount of any Transition Charge charged to a Regulated Consumer and specified as such in an Electricity Invoice shall be determinative of the amount of indebtedness created thereby and owing in respect of such Transition Charge, except to the extent of any manifest calculation error.

(6) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 4 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 4 to impose, attribute, charge, bill and invoice the Transition Charges.

(7) **Appointment of an Alternative Servicer** – If a Replacement Event occurs in respect of any Electricity Distributor, IESO shall perform some or all of the obligations and duties required to be undertaken by such Electricity Distributor under this Article 4. Any Electricity Distributor that is replaced under this Section 4(7) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in the performance of such obligations and duties to IESO and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit IESO or a person designated by IESO to perform such obligations and duties on behalf of the Regulatory Asset Owners.

(8) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, the Servicer, Alternative Servicer or any other person who may be authorized to issue Electricity Invoices to Regulated Consumers for a failure to impose, attribute, charge, bill or invoice Transition Charges or to otherwise comply with this Act. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure and may make any interim or final order it thinks fit in this regard.

(9) **No Set-Off or Reduction –** No Servicer or Electricity Distributor may set off or reduce (by counterclaim, defence or otherwise) the amount payable by it pursuant to this Article 4.

(10) **Regulations** – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Servicer to ensure that Transition Charges are properly charged to Regulated Consumers and specified as such in Electricity Invoices.

Article 5 – Collections and Remittances

(1) **Duty to Collect as Agent** – Electricity Distributors or if applicable any Alternative Collection Agent shall, as an agent of the Servicer, undertake commercially reasonable efforts to collect amounts owing by Regulated Consumers in respect of Transition Charges charged to such Regulated Consumers in Electricity Invoices issued by the

Electricity Distributor or if applicable such Alternative Collection Agent, all in accordance with the Regulations. [16]

(2) **Segregation of Transition Charge Collections** – If prescribed, an Electricity Distributor or if applicable any Alternative Collection Agent shall promptly segregate Transition Charge Collections from other payments received by it from Regulated Consumers and deposit such Transition Charge Collections into its Regulatory Asset Account.[17] Prior to and following a deposit of Transition Charge Collections having been made into its Regulatory Asset Account, the Electricity Distributor or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners or a Pledgee.[18]

(3) **Electricity Distributor Remittances** – On each applicable Remittance Date, an Electricity Distributor shall remit all [Transition Charge Collections received by it from Regulated Consumers] [amounts invoiced to it by the IESO on account of Transition Charges][19] in respect of the related Reference Period to or to the account of Servicer or if applicable the Alternative Collection Agent.

(4) **Duty to Collect Electricity Distributor Remittances** – Servicer or if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, accept and undertake commercially reasonable efforts to collect Electricity Distributor Remittances from Electricity Distributors and Transition Charge Collections from Regulated Consumers that pay their Electricity Invoices directly to IESO, all in accordance with the Regulations.

(5) **Segregation of Electricity Distributor Remittances** – Servicer and if applicable the Alternative Collection Agent shall promptly segregate Electricity Distributor Remittances from other payments received or held by it and deposit such Electricity Distributor Remittances into its Regulatory Asset Account. Prior to and following a deposit of Electricity Distributor Remittances having been made into its Regulatory Asset Account, Servicer or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners or any Pledgee.

(6) **Servicer Remittances** – On each Settlement Date[20], Servicer shall remit all amounts on deposit in its Regulatory Asset Account to or to the account of the Absolute Assignees an amount equal to the Investment Remittance for the related month.

(7) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 5 in the same manner and to

---

[16] Note that the obligation to collect and remit the Transition Charge will be included as a deemed condition of license for electricity distributors (and retailers and unit sub-metering providers).]

[17] Consider trying to attach to existing LDC credit enhancements and provide parallel coverage for customer losses.

[18] Consider whether there is a more efficient way to treat collections through the existing LDC/IESO processes. Intention is to provide scope in the Regulations.

[19] Dealer suggestion under consideration. Impact on LDCs and parallel commercial arrangements to be assessed.

[20] Consider frequency of remittances in light of rating requirements. US rating agencies favour daily remittances.

the same extent as such Electricity Distributor, including the obligation under Article 5 to collect Transition Charges and make remittances of Electricity Distributor Remittances.

(8) **IESO Successors** – IESO Successors shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of IESO under Article 5 in the same manner and to the same extent as IESO, including the obligation to collect Transition Charge Collections, Electricity Distributor Remittances and to remit IESO Remittances.

(9) **Owners of Distribution Assets** - If any person other than an Electricity Distributor acquires distribution system assets in the Province or invoices or collects electricity distribution rates in the Province[21], then such person shall, if requested by the Absolute Assignees, be obligated to act diligently to (a) facilitate the invoicing and collection of any Transition Charges applicable to Regulated Consumers connected to such person's distribution system assets; (b) allocate partial payments by Regulated Consumers as provided in this Act; (c) exercise all enforcement rights of the Absolute Assignees for the benefit of an Absolute Assignee; and (d) remit any Transition Charge Collections to the Absolute Assignees or Pledgees, as applicable, each in accordance with its Investment Interest.

(10) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, Servicer, the Alternative Collection Agent, any owner of electricity distribution system assets in the Province or any other person who may be authorized to collect electricity distribution and use charges from Regulated Consumers for a failure to collect Transition Charges, remit or collect Electricity Distributor Remittances or remit IESO Remittances, as and to the extent applicable under Article 5, or to otherwise comply with this Act. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure and may make any interim or final order it thinks fit in this regard.

(11) **No Set-off, etc.** - The Regulatory Asset, including rights in Transition Charges, Transition Charge Collections, and the interests of a Regulatory Asset Owner, an Absolute Assignee and a Pledgee therein, may not be setoff or reduced (including by counterclaim, surcharge or defense) by any Regulated Consumer, any Electricity Distributor, Servicer, Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or in connection with any default, bankruptcy, reorganization or other insolvency proceeding of any Electricity Distributor, Servicer, Alternative Collection Agent or any owner of distribution system assets in the Province, any affiliate or successor thereof or any other entity or otherwise.[22]

(12) **Sequestration** – If any Electricity Distributor, Servicer, the Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or entity authorized to collect Transition Charges, defaults on any required remittance of

---

[21] This is in anticipation of a possible future restructuring of the distribution system.

[22] Consider whether it makes sense to create a "deemed collection" payment obligation on Electricity Distributors to the extent a Regulated Consumer reduces its payment of Transition Charges, despite this language. Same for Electricity Distributor Remittances and IESO Remittances.

Transition Charge Collections, Electricity Distribution Remittances or IESO Remittances under Article 5, any court in the Province, upon application by and of the Absolute Assignees acting collectively under the Collective Action Agreement and without limiting any other remedies otherwise available to the Absolute Assignees or Pledgees, shall (i) order the sequestration and payment of the Transition Charge Collections, Electricity Distribution Remittances and IESO Remittances, as applicable, for the benefit of the Absolute Assignees, each with respect to its Investment Interest, and the Pledgees as applicable and (ii) appoint a receiver to take control of the amounts sequestered.[23]

(13) **Regulations** – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to Servicer, any Electricity Distributor or any Alternative Collection Agent to ensure that rights, interests, entitlements, benefits and proceeds in, to, under and from the Regulatory Asset are of fully realized by some or all of the Absolute Assignees and Pledgees.

Article 6 – The Regulatory Asset[24]

(1) **Composition** – The Regulatory Asset shall constitute a current and irrevocable property right and interest consisting, collectively, of the following rights and interests (without duplication):

a. the right of a Regulatory Asset Owner to record its Investment Interest in its accounts;

b. the right to impose, bill, invoice, collect and receive Transition Charges from Regulated Consumers, including the right to determine the amount of Transition Charges in accordance with this Act;

c. the right to enforce the obligations and indebtedness of each Regulated Consumer to pay the Transition Charges charged to the Regulated Consumer from time to time in accordance with Article 3, together with all related late payment fees or interest charges arising in respect thereof under the related Electricity Invoices; the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Servicer to impose, attribute, charge, bill and invoice the Transition Charges in accordance with Article 4;

d. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Collection Agent to collect, receive and remit amounts received by it in respect of Transition Charges as Electricity Distributor Remittances to or to the account of Servicer or if applicable the Alternative

---

[23] Consider adding or substituting this provision for a right to appoint a receiver.

[24] It is anticipated that Investment Interests will only be sold to Financing Entities controlled by OPG. Sales will occur on a negotiated basis, and deal-specific covenants will be included in transaction documents – to supplement these arrangements.

Collection Agent in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5;

e. the right to enforce the duties and obligations of Servicer and if applicable the Alternative Collection Agent to collect and receive Electricity Distributor Remittances and to remit IESO Remittances to or to the accounts of the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset, in each case in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by it to recover payment of Electricity Distributor Remittances in accordance with Article 5;

f. the right to receive and collect all Transition Charge Collections, all Electricity Distributor Remittances and all IESO Remittances in accordance with Article 5;

g. all rights and entitlements under each Regulatory Asset Account and all amounts on deposit in any such Regulatory Asset Account;

h. all Related Rights; and

i. all revenue, collections, claims, payments, money and proceeds of or derived from the rights described in (a) through (i), regardless of whether such revenue, collections, claims, payments and proceeds are imposed, invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

A Regulatory Asset and the property rights and interests therein shall exist whether or not Transition Charges have been imposed, charged, invoiced, accrued or collected and notwithstanding that the imposition, attribution, invoicing and collection of Transition Charges will depend on further actions that may not have occurred. The Regulatory Asset shall continue to exist until all Funding Obligations have been paid in full.

(2) **Validity of Dispositions** – A Disposition by IESO of its right to recover all or any part of the IESO Funding Shortfall to an Absolute Assignee, or a Disposition of all or any part of an Investment Interest by one Absolute Assignee to another Absolute Assignee made under the Financing Plan, shall be permitted and when made shall be valid and enforceable in accordance with the terms of the related Disposition Document and shall be effective to confer upon the Absolute Assignee thereof a valid property right and interest in, to and under IESO's right to recover the IESO Funding Shortfall or the Investment Interest, as applicable (or relevant portion thereof) in accordance with the terms of such Disposition, provided that the parties to the applicable Disposition Document have expressly stated therein that such Disposition is a sale or other absolute transfer. Without limiting the foregoing, any Disposition that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as a true sale and absolute transfer of IESO's right to recover the IESO Funding Shortfall or an Absolute Assignee's right, title and interest in, to and under an Investment Interest, as applicable (or relevant portion thereof), and not merely as a Pledge thereof, and upon such Disposition the assigner or seller under the applicable Disposition Document shall retain no right, title or interest in IESO's right to recover the IESO Funding Shortfall or the

Investment Interest (or relevant portion thereof) subject to the Disposition, including all rights to recover the IESO Funding Shortfall or under the Investment Interest arising after such Disposition.

(3) **Perfection and Priority of Dispositions** – Any Disposition of an interest in a Regulatory Asset shall be vested, valid, binding and perfected from the time when such Disposition is made. Such Disposition shall be perfected, vested, valid and binding as against the IESO or transferring Regulatory Asset Owner, as applicable, and all other persons who have claims of any kind (whether in tort, contract or otherwise) against IESO or the transferring Regulatory Asset Owner, as the case may be, irrespective of whether such persons have notice of the Disposition and the property rights and interests acquired by the Absolute Assignee under such Disposition shall be free and clear of any liens in favour of such other persons.

(4) **Validity of Pledges** – A Pledge by an Absolute Assignee may be made to secure any Funding Obligation and when made shall be valid and enforceable in accordance with its terms and shall be effective to confer upon the Pledgee a valid security interest in, to and in respect of the related Investment Interest in accordance with the terms of the Pledge. No consent of, or notice to, any person shall be required to give effect to a Pledge made to secure any Funding Obligation.

(5) **Perfection and Priority of Pledges** - For purposes of the *Personal Property Security Act* (the "PPSA"), the Regulatory Asset shall be intangible personal property and any Pledge made by an Absolute Assignee in respect of a Funding Obligation shall, subject to the terms thereof, give rise to a security interest in respect of which the PPSA applies, and may be perfected by filing a financing statement under the PPSA on that basis. All proceeds of a related Investment Interest that are subject to such a Pledge that are received by the Absolute Assignee shall immediately be subject to the such Pledge, and the security interest in such proceeds shall be perfected pursuant to the PPSA.[25] A Pledge perfected under the PPSA shall be a continuously perfected security interest and shall have priority over any other lien or security interest, created by operation of law or otherwise, that may attach to the property rights and interests in the Investment Interest subject to the Pledge unless the Pledgee has otherwise agreed in writing. A Pledgee shall have a perfected security interest in a related Investment Interest, including the Absolute Assignee's rights and interests in and to Transition Charge Collections or other related proceeds in respect of the Investment Interest and that are deposited in any Regulatory Asset Account or other account of any Electricity Distributor, IESO, Alternative Collection Agent or other person who may have commingled such Transition Charge Collections or such other proceeds with other funds. All provisions of the PPSA shall apply to the Regulatory Asset on the basis that it is intangible personal property, except to the extent otherwise provided in this Section 6(5).

(6) **Enforcement of Property Rights** – The rights of any Regulatory Asset Owner or Pledgee to collect and enforce its rights and interests in, to or in respect of the Regulatory Asset shall be exercised in the manner set forth in Article 5.

---

[25] Consider whether to simply leave this and have a financing statement be filed under the PPSA. This would normalize the security interest and reduce any adverse suggestion that security would not otherwise arise.

(7) **Owners of a Specified Portion of the Regulatory Asset** – A Regulatory Asset Owner may effect a Disposition to an Absolute Assignee of a specified portion of its rights and interests in the Regulatory Asset, including by way of a Disposition of a divided or an undivided interest therein as specified in a related Disposition Document. In no circumstance may the specified portions of the rights and interests in the Regulatory Asset owned by all Regulatory Asset Owners be greater than all of the rights and interests that comprise the Regulatory Asset in the aggregate.

(8) **Collective Action Required** – If a Regulatory Asset Owner's rights and interests in the Regulatory Asset comprises less than the entire property right and interest constituted by the Regulatory Asset, such Regulatory Asset Owner shall only enforce such right and interest on a collective and coordinated basis with each other Regulatory Asset Owner in accordance with the Collective Rights Agreement.

Article 7 – Establishment of the Fair Allocation Plan[26]

(1) **Adoption of the Fair Allocation Plan** – The Delegate may, by written declaration, designate and adopt a Fair Allocation Plan in compliance with Article 7. The Fair Allocation Plan so designated and adopted shall be the Fair Allocation Plan for all purposes of this Act, except if amended, amended and restated or terminated by a further written declaration made by the Delegate in compliance with [the Regulations]**.**

(2) **Principles and Parameters** – A Fair Allocation Plan shall seek to allocate Future Fair Share of Green Transition Benefits across present and future Regulated Consumers on a basis that the Delegate, in its sole and absolute discretion, determines to be equitable, having regard to the following principles and parameters:

1. Future Fair Share of Green Transition Benefits should be allocated over the period ending on the Program End Date.

2. The Fair Allocation Plan should specify the Reference Periods for the purpose of identifying applicable Regulated Consumer Groups and allocating Future Fair Share of Green Transition Benefits among them on a relative basis over time.

3. The share of Future Fair Share of Green Transition Benefits allocable to a particular Regulated Consumer in respect of a Reference Period should be proportionate to a reasonable assessment of the benefits of the Green Generation Initiative to such Regulated Consumer over such Reference Period, other than in exceptional circumstances.

4. The share of Future Fair Share of Green Transition Benefits to be allocated to a Regulated Consumer Group and any future Regulated Consumer Group at a particular time should not exceed the Estimated Future Green Transition

---

26 The idea is that the Fair Allocation Plan will be set once at the outset based on the principles and parameters described here, all as applied based on information available and the reasonable expectations and discretion of the delegate at such time. If the expectations are not fulfilled (e.g., generators may choose to retire their facilities at the end of their current procurement contracts and not invest in extending service lives to secure further procurement contracts), the Fair Allocation Plan will be unaffected, unless it is specifically amended (assuming amendments will be permitted by the legislation).

Benefits, measured in respect of the Reference Periods following such particular time and to the Program End Date.

5. No future Regulated Consumer Group should be allocated an unreasonably disproportionate share of Estimated Future Green Transition Benefits. Except in exceptional circumstances or in the case of any reallocation of an Over-Assessed Amount as contemplated in 7, below, the Future Fair Share of Green Transition Benefits to be allocated under a Fair Allocation Plan to any future Regulated Consumer Group should have regard to *[Insert formula if a year-over-year maximum amount is determined to be appropriate]*.

6. The time value of money should be reflected in the Fair Allocation Plan, in order to equate the relative values of the nominal allocations of Future Fair Share of Green Transition Benefits, calculated in current dollars, to future Regulated Consumer Groups over time.

7. To the extent there has been an Over-Assessed Amount, the Fair Allocation Plan may determine that an adjustment should fairly be made to rebate Regulated Consumers for such an amount, by reducing the costs otherwise attributable under the Act to such Regulated Consumers. The relative costs of the Green Generation Initiative are reflected under the Act by the attribution of Transition Charges to such Consumer Groups, based on the Financing Plan seeking to track the allocations of benefits under the Fair Allocation Plan. Accordingly, the Maximum Transition Charge Amount determined for one or more Regulated Consumer Groups having regard to the Fair Allocation Plan otherwise applicable may be appropriately reduced to recognize the effect of the Over-Assessed Amount. In such a case, a determination to reduce the Maximum Transition Charge Amount applicable for certain related Reference Periods should have regard to the principle that the corresponding rebate should be extended to benefit the Consumer Group or Consumer Groups in closest proximity to the Legislative Implementation Date.

(3) Attribution Methodology – The Fair Allocation Plan shall specify the Attribution Methodology for the purposes of allocating the Period Finance Charges across the Regulated Consumers. The Attribution Methodology shall result in an attribution of such Transition Charges that is considered by the Delegate to be equitable, and may have regard to such principles and parameters as may be further set forth in a Regulation; provided that the Attribution Methodology shall not be used to limit the recovery of Transition Charges.

(4) Amendments of the Fair Allocation Plan – The Fair Allocation Plan may be amended, amended and restated or terminated by the Delegate, provided that such amendment, amendment and restatement or termination shall (a) not be inconsistent with the principles and parameters set forth in (2) or (3), above, or the Regulation, (b) comply with any restrictions or limitations specified with respect thereto in any Funding

Obligation, and (c) not impair any Regulatory Asset, outstanding Funding Obligations or any Transition Charges.[27]

Article 8 – The IESO Funding Shortfall

(1) Recording of IESO Funding Shortfall – Subject to 8(3), IESO will record any IESO Funding Shortfall [in its books] [in a variance account established in accordance with section 25.33 of the Electricity Act / Ontario Regulation 430/04, as amended].

(2) Adjustments – IESO will record it [its books][its variance account] all adjustments to the IESO Regulatory Asset Amount from time to time. Such books of account shall be determinative with respect to the amount of IESO's related regulatory asset.

(3) Limitation on Additions – Subject to 8(3), IESO shall not record additions to the IESO Regulatory Asset Amount in respect of IESO Funding Shortfalls (a) if such additions are restricted by the terms of any Disposition Document or the Collective Action Agreement, or (b) on or after •, 2017.

(4) Dispositions – IESO may effect a Disposition of its right to recover all or any part of the IESO Regulatory Asset Amount to an Absolute Assignee if (a) the Absolute Assignee has or will concurrently become bound by the Collective Rights Agreement; (b) the Disposition is effected pursuant to a Disposition Agreement duly executed by IESO; and (c) the Financial Services Manager confirms in writing that the Disposition complies with any restrictions or limitations specified with respect thereto in any documents evidencing the Funding Obligations and is permitted under the Financing Plan.

(5) No Continuing Interest in any Investment Interest – IESO shall have no continuing right or interest in, or maintain any right to recover all or any part of, any IESO Regulatory Asset Amount that is subject to a Disposition effected by IESO under a Disposition Document to which IESO is a party.

(6) IESO Recoveries – IESO shall, in respect of a month, be entitled to receive from IESO Remittances on a related Settlement Date the amount (if any) of any IESO Recoveries.

Article 9 – The Financing Plan

(1) Power to Prepare, Implement and Amend the Financing Plan – The Financial Services Manager shall be authorized to prepare, implement and amend a financing plan [for the Financing Entities] and propose the adoption of such financing plan as the Financing Plan for the purposes of this Act. [The Financial Services Manager shall have the right to withdraw its financing plan as the Financing Plan at any time if it determines that implementing the Financing Plan in such manner would not be in the best interests of a Financing Entity.]

---

[27] It is anticipated that the terms of any rated financing will restrict further issuances pending a RAC in relation to any changes to the FAP.

(2) Principles and Parameters of the Financing Plan – The Financing Plan shall establish the basis for each Absolute Assignee's funding decisions, having regard to the principles and parameters set forth in Schedule 3.

(3) OEB Approval – [Any Additional Funding Charge payable to the Financial Services Manager in respect of services provided by the Financial Services Manager (other than third party costs) shall be subject to review and approval by the OEB.][28]

(4) Review of Financing Plan – The [OEB shall undertake an annual review of the records maintained by the Financial Services Manager for the purpose of confirming that the Funding Obligations incurred and the Finance Amounts paid by or on behalf of the Absolute Assignees were incurred and paid, respectively, in material conformity with the Financing Plan.] [29]

(5) Replacement of the Financial Services Manager – If the OEB identifies deficiencies or makes recommendations in its review under Section 9(4), the Financial Services Manager shall take reasonable measures to remedy such deficiencies if remediable, and shall in any event have regard to the recommendations of the OEB in relation to further actions undertaken by the Financial Services Manager under the Financing Plan. If the Financial Services Manager is unwilling or unable to reflect such recommendations in relation to such further actions, the Delegate may by written declaration designate one or more other persons who shall thereafter become the Financial Services Manager. [Any replacement financial services manager must comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations.]

(6) Obligation to Apply IESO Remittances – The Financial Services Manager shall ensure that amounts transferred to it [under Article 5, as agent for and on behalf of the Absolute Assignees], or otherwise in respect of or as proceeds from an applicable Investment Interest shall only be applied or used to pay related Finance Amounts when they are due and payable and for no other purpose.

(7) Non-Recourse – The Financing Plan shall be implemented so that Funding Obligations incurred shall be without recourse to or to any assets of the Electricity Distributors, IESO, any Alternative Servicer, any Alternative Collection Agent, the Financial Services Manager, the OEB or Her Majesty in right of Ontario, other than if and to the extent that such persons or entities are liable for the performance of obligations or duties arising under this Act or expressly agree to become liable pursuant to any Funding Obligation or obligation in relation to a Finance Amount.

(8) Incurrences are Binding – Each Disposition made to or by an Absolute Assignee, all amounts payable or becoming due and payable by or on behalf of an Absolute Assignee under or in connection with any obligation purporting to be a Funding Obligation and each Pledge entered into by an Absolute Assignee, shall be valid and binding, including in determining the amount of related Transition Charges, notwithstanding any defect in the manner of incurrence or any inconsistency with the Fair Allocation Plan or the Financing Plan.

---

[28] Under consideration.

[29] Under consideration.

[Article 10 – Compliance Matters[30]

(1) Right of the [OEB] to Inspect Books and Records - For the purpose of investigating compliance with the provisions of this Act, the OEB shall have the right, jurisdiction, power and authority to examine the books and records of *[Insert names if any]*.

(2) [OPG's Rate Settings – When setting other rates for or in respect of OPG, the OEB shall not take into account (a) the administrative or servicing fees charged by OPG as Financial Services Manager [in excess of the actual incremental costs incurred by such person of providing administrative or servicing services]; (b) the cost consequences to OPG of being the Financial Services Manager; or (c) the consequence of OPG consolidating the assets and liabilities of any Financing Entity for OPG's accounting purposes, in each case in setting any regulated payment amounts for OPG.][31]

Article 11 – Undertaking of the Her Majesty in right of Ontario[32]

(1) No Action to limit, alter, or impair or terminate Transition Charges, the Regulatory Asset or Collections – Her Majesty in right of Ontario shall not in any way take or permit (including by any agency or administrative body) any action to reduce, impair, postpone or terminate the obligation of Regulated Consumers to pay Transition Charges or to impair the Regulatory Asset or the collection or recovery of Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances, either directly or indirectly, including through the introduction of any bill or the passing of any legislation or regulation having such effect. The amount of Transition Charges determined under this Act shall not be subject in any way to reduction, impairment, postponement or termination as a result of any action taken or failure by Her Majesty in right of Ontario (including by any agency or administrative body), including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(2) Undertaking and Agreement – Her Majesty in right of Ontario shall not:

(a) in any way take or permit any action that limits, alters or impairs the value of any Investment Interest;

---

[30] As noted above, the outcome of any regulatory action undertaken by the OEB will not affect Funding Obligations that have been incurred under the Financing Plan. This Article and any potential role for the Auditor General is still under consideration.

[31] As an alternative to this provision, consider clarifying under s. 78.1(4) of the OEB Act (which currently gives the OEB discretion in setting payment amounts subject to O. Reg. 53/05) that the OEB in setting OPG payment amounts for prescribed generation shall not consider OPG's role as Financial Services Manager of any Financing Entities associated with the Fair Hydro initiative, perhaps with the exception of any operating fees that may be received by OPG for performing that role.

[32] Under consideration, including the dealers' request for (1) a "servicer guarantee" (2) a "contractual guarantee" to address a "Change of Law" or if all or a portion of the legislation is *ultra vires*, requiring (at the lenders option), the Province to pay principal and interest on the outstanding debt until maturity or payout the entire debt including any make-wholes and (3) in the event of a market disruption that renders it impossible to refinance debt when required (or where financing of amounts required to service the debt is not available because of a market disruption where the Financing Entity was relying on such further issuance of debt until the recovery is set to begin to fund interest), a covenant by the Province to step in and payout the debt or to recover the debt from ratepayers as it becomes due, notwithstanding the intended Fair Adjustment.

(b) except as required by the estimates and adjustments made in determining the True-up Amount, reduce, alter or impair Transition Charges that are imposed, billed, invoiced, collected and remitted for the benefit of the Absolute Assignees or any Pledgee from time to time;

(c) permit the amendment, amendment and restatement or termination of the Fair Allocation Plan if such amendment, amendment and restatement or termination would adversely affect the validity or enforceability of any Funding Obligation or the rights of an Absolute Assignee or Pledgee thereunder, or would not otherwise comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations,

in each case including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(3) **Successor IESO** – If IESO is restructured, dissolved or becomes insolvent or is otherwise incapable of performing its obligations under this Act, an IESO Successor shall immediately be established by Her Majesty in right of Ontario to perform such obligations.

(4) **Compensation for Failure** – Absolute Assignees shall be compensated by Her Majesty in right of Ontario for any losses suffered by them as a result of any failure by Her Majesty in right of Ontario to comply with its undertakings and agreements in this Article 11.[33]

(5) **No Wind-up of Financing Entity**. No Financing Entity may be voluntarily wound up, liquidated or dissolved until one year after all of its Funding Obligations are repaid.

(6) **References to the Undertaking and Agreement** – Any non-confidential reference to the Undertaking of the Her Majesty in right of Ontario, including in marketing materials and other documentation authorized for use by the Administrative in connection with any Funding Obligation, may be made provided that [*Add conditions to protect the Province*].

Article 12 – Regulations

Regulations may be made under this Act for the purposes described in Sections •,•,• and • and may be promulgated for any of the following purposes:

(a) to set standards and measures regarding the commercially reasonable requirements of the Province associated with an Absolute Assignee incurring Funding Obligations or becoming obligated to pay any Finance Amount, including to establish guidelines regarding all-in funding costs; permitted Additional Funding Charges; required maturities and redemption and termination rights of Funding Obligations; liquidity requirements, in each case to a Financing Plan that is consistent in its effect with the Fair Allocation Plan;

[33] Requested by Dealers. For discussion.

(b) to establish and empower one or more regulated entities to undertake decision-making activities with respect to this Act;

(c) to set out reasonable requirements regarding the appointment or retention of advisors, agents, service providers, contract counterparties, including in relation to 'market terms and conditions' parameters;

(d) to provide for audit and compliance standards applicable to those persons who are or may become obligated or have duties that arise under this Act [or under any Funding Obligation];

(e) to provide for any pre-vetting and approval requirements in relation to any incurrence by an Absolute Assignee of any Funding Obligation or obligation to pay any Finance Amount; and

(f) to provide for appeal and due process considerations in connection with the establishment, adoption, implementation and review of the Fair Allocation Plan or the Financing Plan.

Article 13- Miscellaneous[34]

(1) **Choice of law** – The law governing, as applicable, the validity, enforceability, attachment, perfection, priority and exercise of remedies with respect to the transfer of an interest or right or creation of a security interest in the Regulatory Asset, any Transition Charge or the Undertaking of the Province shall be the laws of the Province.

(2) **Conflict of law** – In the event of conflict between this Act and any other law of the Province regarding the attachment, assignment or perfection, or the effect of perfection, or priority of any Disposition or Pledge, this Act shall govern to the extent of the conflict.

(3) **No further acts or approvals required** - Notwithstanding any provisions of any law of the Province to the contrary, no approvals, notices or authorizations other than those specified in this Act shall be required with respect to the actions to be taken in compliance with this Act, including under the Financing Plan or in relation to the establishment of the Fair Allocation Plan, and the transactions and contracts authorized in or contemplated by this Act or the Financing Plan, including the incurrence of any Funding Obligation, any Disposition, any Pledge or in the payment and performance of any attendant or incidental contract and any related expenses incurred to facilitate the preparation and implementation of the Financing Plan.

(4) **Effect of invalidity after the Incurrence of any Funding Obligation** - Effective on the date that a Funding Obligation is incurred under this Act, if any provision of this Act is held to be invalid or is invalidated, superseded, replaced, repealed or expires for any reason, that occurrence shall not affect any action allowed under this Act that is taken by

---

[34] OPG would like the specific amendments related to OPG to be included in the Bill.]

any person who is or may become obligated or have duties that arise under this Act and any such action shall remain in full force and effect.

(5) **Severability** - If any Article, Section, paragraph or subparagraph of this Act or the application thereof to any person, circumstance or transaction is held by a court of competent jurisdiction to be unconstitutional or invalid, the unconstitutionality or invalidity shall not affect the constitutionality or validity of any other Article, Section, paragraph or subparagraph of this act or its application or validity to any person, circumstance or transaction, including the irrevocability of Transition Charges, the validity of the Regulatory Asset, the incurrence of any Funding Obligation, any Disposition, any Pledge, or the collection and recovery of Transition Charge Collections. To these ends, the Legislature hereby declares that the provisions of this Act are intended to be severable and that the Legislature would have enacted this Act even if any Article, Section, paragraph or subparagraph of this Act held to be unconstitutional or invalid had not been included in this Act.

Schedule 1

Guidelines for Estimates

[To be considered.]

Schedule 2

Requirements Applicable to Alternative Invoicing Agent/ Alternative Collection Agent

[To be considered.]

Schedule 3

Principles and Parameters for Establishing the Financing Plan

The following principles and parameters provide a guideline as to what a Financing Plan should address:

(1) in respect of each Reference Period, make reference to the allocations of Future Fair Share of Green Transition Benefits to each Reference Group contemplated by the Fair Allocation Plan;

(2) estimate IESO Funding Shortfalls for each Reference Period;

(3) consider alternative funding arrangements suitable to fund the estimated IESO Funding Shortfalls, including short term and/or long term Funding Obligations;

(4) consider quantities, maturities, payment obligations, prepayment or redemption rights and such other features of Funding Obligations so that payments made for a Reference Period reasonably correspond to the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

(5) if the anticipated amount of any Repayment (together with payments of other Finance Amounts) to be made in respect of a Reference Period would materially exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable Regulated Consumers under the then current Fair Allocation Plan, diligent efforts should be made to determine whether a Refinancing or deferral of such Repayment may be reasonably and cost-effectively effected based on then prevailing market terms, conditions an circumstances;

(6) reflect the assumptions and requirements specified in any contemplated Funding Obligation (e.g., any limit on the maximum amount of Transition Charges charged to a hypothetical Regulated Consumer relative to his or her monthly electricity bill, as prescribed by any rating agency that ascribes its credit rating to or in respect of the Funding Obligation);

(7) require the Financial Services Manager, for and on behalf of each Regulatory Asset Owner, to use [diligent efforts to manage Finance Amounts to be borne by Ratepayers];

(8) include a proposal regarding the compensation of the Financial Services Manager that reflects market terms and conditions; and

(9) [require that the Financial Services Manager report annually to the Ministry of Energy on the operation of the Financing Plan including, in particular, with respect to the amount and terms of the Funding Obligations incurred and the sufficiency of such Funding Obligations for the purpose of funding the estimated Funding Shortfalls in accordance with the Fair Allocation Plan.]

(10) incur Funding Obligations from time to time on the best terms available at such time for a financing transaction of the size and type contemplated, and having regarding to the following parameters:

a. whether the Absolute Assignees will require committed access to short term liquidity to cover estimated IESO Funding Shortfalls prior to incurring fixed term Funding Obligations, and the amount and repayment terms of any such required liquidity; provided that any Repayment required to be made under the terms of such short-term liquidity would not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

b. the basis upon which the Financial Services Agent will select the term to maturity of any other Funding Obligations; provided that any Repayments required to be made under the terms of such Funding Obligations should not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

c. the basis upon which the interest rates applicable to such Funding Obligations would be determined;

d. the reference capital or finance market in which such Funding Obligation would be incurred, including markets outside of Canada if considered by the Financial Services Agent to be appropriate in the circumstances;

e. the currency of payments under such Funding Obligations and, if the Funding Obligations are denominated in a currency other than Canadian dollars, the basis upon which the Financial Services Agent shall cause the applicable Absolute Assignee to enter into hedging transactions to mitigate currency risk, including acceptable minimum and maximum coverage levels, having regard to the availability of related derivatives having notional amounts corresponding to the repayment and maturity profile of such Funding Obligations;

f. the basis upon which the Financial Services Agent will select counterparties under any transaction to be entered into by an Absolute Assignee, including any paying agent, servicer, cash manager, liquidity provider, hedge counterparty, account bank, lender, note trustee, security trustee, paying agent, registrar/transfer agent, financial services agent, arranger or manager;

g. the basis upon which the Financial Services Agent will manage counterparty risk, including by providing for maximum counterparty exposure limits having regard to concentration, credit and other identified risks with respect to individual counterparties or countries;

h. the basis upon which the Financial Services Agent will negotiate and settle Finance Amounts, including the amount of any Redemption Amounts, Finance Reserve Deposits and Additional Funding Charges;

(11) the basis upon which Funding Obligations may be redeemed, prepaid, repurchased or otherwise affected, having regard for the need to minimize debt service charges and other Funding Costs, and the need to maintain a stable funding platform to finance the IESO Funding Shortfalls from time to time on a basis that is consistent with the allocations of Future Fair Share of Green Transition Benefits to applicable Reference Groups under the Fair Allocation Plan;

(12) the basis upon which any Repayments, Funding Costs and Redemption Amounts will be paid, including any defeasance, sinking fund or through other reserves or liquidity facilities;

(13) the basis upon which fees, charges, expenses, costs, indemnities, reimbursements and other amounts payable to or for the benefit of the Financial Services Agent and other agents and service providers to the Absolute Assignees may be determined, allocated and paid;

(14) the timing and basis upon which Finance Reserve Deposits and Finance Reserve Withdrawals may be made;

(15) the basis upon which any obligations for any other Additional Funding Charges may be incurred and paid;

(16) the basis upon which the cash flows arising from time to time or otherwise derived from the Regulatory Asset may otherwise be applied, including in relation to any counterparty enforcement and realization scenario;

(17) the transmittal to [the IESO] of information related to the amounts to be included in the determination of the Period Transition Charge for a Reference Period;

(18) the basis upon which any Disposition may be made or effected by an Absolute Assignee, including parameters for determining the purchase price for the interest in the Regulatory Asset that is the subject matter of such Disposition, and any consents and releases that may be usefully obtained in connection with such Disposition;

(19) describe the requirements applicable to any special purchase entity that will purchase an Investment Interest, including proposed capitalization, governance, and restrictions on their powers and activities; and

(20) the basis on which any Pledge may be given or effected.

[NTD: E&Y will need to see the guidelines of the Fair Allocation Plan set in reference to parameters that will allow it to establish a modeling curve]

- [**Inflation period**: (between November 2017 – and April 2022) bill increases need to be capped at inflation (assumed at 2% for modeling purposes)]

- [**Transition Period**: (May 2022- April 2027) bills increased at a consistent rate which is set so that the borrowing will not exceed the Trust's capacity, which is determined by the Finance Service Manager]

- [**Amortization Period**: (May 2027-April 2047) equitable distribution of Finance Amount among Regulated Consumers]

TOR_2528-#23107566-vpdf-_Fair_Hydro_Act_.pdf

CONFIDENTIAL AND PRIVILEGED

Preliminary Draft for Discussion Purposes Only

"Fair Hydro Act"

Article 1 – Purpose

The Province has and continues to encourage the construction and development of facilities for the long-term operation and generation of electricity in the Province using sustainable, lower carbon-based technologies such as new gas-fired generation, renewable facilities, energy from waste and biomass, including under the Province's various procurement, standard offer, feed in tariff and other similar programs (the "Green Generation Initiative"). The long-term benefits of the Green Generation Initiative accrue over time and have benefited and will continue to benefit present and future electricity consumers in the Province.

The ~~imputed~~out-of-market costs of the Green Generation Initiative are currently passed through to electricity consumers by way of a monthly adjustment amount (the "Green Costs Adjustment"), which in turn forms part of the overall adjustment calculated by the Independent Electricity System Operator ("IESO") pursuant to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* (the "Global Adjustment"). ~~The Global Adjustment is included as a charge billed to electricity consumers in their monthly electricity invoices.~~

The Green Costs Adjustment is currently determined each month by reference to the amounts paid by IESO to the generators of electricity in the Province under the Green Generation Initiative~~, which may be higher than prevailing market price for electricity. These differences~~. These amounts paid by the IESO arise because IESO has entered into long-term procurement contracts with such generators in order to provide them with ~~long-term price~~revenue certainty~~ for electricity~~, and in turn to encourage the generators to develop technologies and to construct and develop facilities consistent with the Green Generation Initiative. ~~In general, whenever amounts payable under these procurement contracts exceed the market price for electricity, the Green Costs Adjustment passes through the amount of such differences as part of the monthly charge to electricity consumers. Such amount then becomes available to IESO to meet its obligations under the procurement contracts.~~ It has been determined that the useful lives of many of the assets ~~encouraged by~~developed under the Green Generation Initiative will be ~~well~~ in excess of the respective terms of ~~the related~~their respective procurement contracts~~, and in many cases may extend over more than one generation of electricity consumers~~.

Since the benefits to past, present and future electricity consumers from the Green Generation Initiative will not necessarily coincide with the costs currently attributed through the Green Costs Adjustment, based on the respective ~~durations~~terms of the applicable procurement contracts, it has been determined that the rate at which the costs associated with the Green Generation Initiative should be passed through to ~~Retail~~Regulated Consumers (as defined in Article 2) should be more closely aligned with the benefits that such ~~Retail~~Regulated Consumers have derived and are expected to derive from the Green Generation Initiative over time. This realignment will be based on general principles and parameters that establish a reasonable basis for measuring and allocating the relative costs and benefits of the Green Generation Initiative equitably across present and future ~~Retail~~Regulated Consumers (the "Fair Allocation Plan").

If the Fair Allocation Plan determines that the equitable allocation of the costs associated with the Green Generation Initiative to the ~~Retail~~Regulated Consumers of a particular time period

should be reduced below the amount that currently would be charged based on the Green Costs Adjustment, then the amount payable by such ~~Retail~~Regulated Consumers and in turn available to IESO will, in the aggregate, be less than the amount payable by the IESO to the generators in respect of such period. In this case, IESO will need to obtain funding from another source to cover such a shortfall. If a funding obligation is incurred ~~by IESO~~ to cover such a shortfall during ~~one~~any period, the repayment of such funding obligation will be required in a future period, and any related repayments, finance costs, hedging costs and other transaction costs incurred will become payable in ~~one or more~~ future periods. In order for IESO to obtain a reliable and committed source of cash flows to enable IESO to repay such funding amounts when they become due and payable, this Act imposes irrevocable and non-bypassable financial obligations on ~~Retail~~Regulated Consumers to pay amounts incurred in respect of such funding obligations when they become due and payable and establishes a right to invoice and collect such amounts. The right and interest in and to collect such financial obligations will take the form of the Regulatory Asset contemplated in this Act, which will constitute property rights and interests. Interests in the Regulatory Asset may be sold and absolutely assigned by IESO to one or more financing entities, which in turn will finance their acquired interests by incurring funding obligations. The incurrence and payment of such funding obligations will be administered on behalf of such financing entities by a financial services ~~agent~~manager under the Financing Plan contemplated in this Act. ~~The Financing Plan will seek to reasonably match the payment obligations arising under such funding obligations, to be borne by the future Retail Consumers of the period in which such payment obligations become due, with the benefits of the Green Generation Initiative allocated to such future Retail Consumers under the Fair Allocation Plan.~~

The purpose of this Act is to establish the basis upon which intergenerational fairness can be achieved by charging the costs and benefits of the Green Generation Initiative to present and future ~~Retail~~Regulated Consumers on an equitable and cost effective basis.

Article 2 ~~-~~ Definitions

In this Act:

> "Absolute Assignee" means a person to whom a Regulatory Asset Owner effects a Disposition other than as security.
>
> "Actual" means, in relation to costs, expenses or payments in respect of Funding Obligations during a Reference Period, the actual amount of such costs, expenses or payments paid or made (net of any Finance Reserve Withdrawals applied to pay such amounts), which amounts shall be recorded by the Financial Services ~~Agent~~Manager whose records shall be determinative for the purposes of this Act except to the extent of a manifest calculation error.
>
> "Additional Funding Charges" means, for a Reference Period ~~in respect of an Absolute Assignee,~~ the fees, charges, expenses, costs, indemnities, reimbursements and other amounts (including any applicable tax amounts) that are or become payable by or on behalf of ~~the~~any Absolute Assignee during the Reference Period and that were incurred or committed to directly or indirectly by the Absolute Assignee in connection with the incurrence of Funding Obligations under the Financing Plan (whether at the time of such incurrence or over the term of the Funding Obligation and whether directly or indirectly), including ~~(without duplication and without limitation): (a) any payment required under an ancillary agreement entered into by, or by the Financial Services Agent on behalf of, the~~

~~Absolute Assignee under the Financing Plan; (b) any federal, provincial or local taxes, payments in lieu of taxes, franchise fees or license fees imposed on the Absolute Assignee or incurred by on behalf of the Absolute Assignee under any obligation to pay tax gross-up amounts to counterparties under Funding Obligations; (c) any amounts payable to the Financial Services Agent, including amounts payable to its advisors and outside counsel; (d) any amounts incurred to prepare, confirm, amend and implement the Financing Plan; (e) any amounts payable to any Alternative Collection Agent or Alternative Servicer, including amounts payable to each's advisors and outside counsel; (f) any amounts incurred to make the calculations, determinations or confirmations to be made by or on behalf of the Absolute Assignee; (g) any servicing fees and expenses; (h) any trustee fees and expenses; (i) any legal fees, expenses and disbursements; (j) any accounting fees and expenses; (k) any administrative fees and expenses; (l) any manager or director fees of a Financing Entity; (m) any registration fees and expenses; (n) any placement fees, underwriting fees, fees and related issuing expenses; (o) any rating agency fees; and (p) any other related fees, charges, expenses, costs, indemnities, reimbursements and other amounts that are approved in good faith by the Financial Services Agent for recovery and payment under the Financing Plan~~without limitation such amounts as may be prescribed.

~~"Allocation Factor" means, in respect of a Retail Consumer for a Reference Period, the number (expressed as a percentage) determined in respect of the Retail Consumer by the OEB based on the application of the Attribution Methodology in respect of the Reference Period.[1]~~

"Alternative ~~Collection Agent~~Servicer" means a person appointed under Section ~~5(11) and in compliance with the requirements set out in Schedule 2 to assume the collection activities and activities of any Electricity Distributor or IESO under Article 5, as agent for and on behalf of the Regulatory Asset Owners."Alternative Servicer" means a person appointed under Section~~ 4(8) to assume the obligations of the Servicer under Article 4, as agent for and on behalf of the Regulatory Asset Owners.

"Assessed Past Green Transition Costs" means, in respect of a Measurement Date, the aggregate of the imputed costs of the Green Generation Initiative (expressed as an equivalent to current dollars), as reflected in the calculation of the Green Costs Adjustment, which have been charged to ~~Retail~~Regulated Customers through the Global Adjustment on or prior to the Measurement Date.

"Attribution Methodology"~~[2]~~[1] means the methodology specified in the Fair Allocation Plan for allocating the Period ~~Transition~~Finance Charges for a Reference Period to ~~individual Retail~~Regulated Consumers~~ of the applicable Retail Consumer Group based on its Allocation Factor~~.

"Collected Amount Adjustment" means, in respect of a True-Up Period, the amount (which may be a negative amount) calculated by the Servicer or the Financial Services ~~Agent~~Manager, as applicable, equal to (a) the Estimate of the Finance Amount for the True-Up Period, minus (b) the sum of all Transition Charge Collections for the True-Up Period~~.~~[3] and minus [(c) the amounts by which amounts remitted by Electricity

~~[1] Confirm that this will be based on forecast volumes of demand (like RPP). To the extent amounts do not get recovered due to differences between forecast and actual, those may be identified and caught by the True-Up.~~

~~[2]~~[1] This allocation may be volumetric or some combination of a flat amount and a volumetric charge. Further discussion is required. H&W has raised a concern regarding possible adverse changes after the fact and rating agency considerations. Consider whether hard-coding in the legislation makes sense.

Distributors pursuant to Section 5(4) exceeded the corresponding amount of Transition Charges Actually paid by Regulated Consumers.][2]

"Collective Rights Agreement" means an agreement among all of the Regulatory Asset Owners (including each Absolute Assignee) ~~and~~, each Pledgee, and the Financial Services Manager that governs the enforcement of their respective rights and interests in, to and under the Regulatory Asset on a coordinated and collective basis.[4]

"Delegate" means ~~the~~any of the following person or persons designated in writing from time to time by the Minister of Energy to undertake the actions and perform the responsibilities ascribed to the "Delegate" under this Act; ●[3].

"Disposition" means an assignment, transfer, conveyance, sale, contribution, set-over, exchange or other disposition ~~of an Investment Interest~~(or, in the case of the IESO Funding Shortfall, a release by IESO of its right to recover such amount in order to enable an Absolute Assignee to recover such amount) of (a) IESO's right to recover all or any portion of an IESO Funding Shortfall or (b) an Investment Interest, in each case to an Absolute Assignee pursuant to a Disposition Document.

"Disposition Document" means the agreement, deed, conveyance, instrument or other document under which ~~a Regulatory Asset Owner~~IESO or an Absolute Assignee effects a Disposition to an Absolute Assignee.

"Electricity Distributor" means~~, in respect of a Service Area, the~~ a rate regulated distributor licensed under Part V of the *Ontario Energy Board Act, ~~1998~~* ~~in respect of such Service Area,~~*1998*, together with and its successors.

"Electricity Distributor Remittances" means, for an Electricity Distributor on a Remittance Date, all Transition Charge Collections received or deemed to be received by the Electricity Distributor prior to the Remittance Date and that have not otherwise been remitted to ~~IESO~~Servicer or if applicable the Alternative Collection Agent in accordance with Section 5(3), including the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5.[4]

"Electricity Invoice" means an invoice issued by ~~any of a~~an Electricity Distributor (or in its stead, by an Alternative ~~Servicer~~Collection Agent), by the Servicer or by a Retailer, in each case to a ~~Retail~~Regulated Consumer that is served by the Electricity Distributor's distribution system in respect of electricity charges, including the cost of electricity, delivery and regulatory charges and related services and amounts incurred, assessed or charged in respect of connectivity to ~~a distribution network in the~~such Electricity Distributor's ~~designated Service Area~~distribution system and in respect of applicable Transition Charges to be charged to the ~~Retail~~Regulated Consumer under this Act.

[32] This ~~would~~is intended to pick up adjustments based on actual collection experience, changes in the ~~retail consumer~~Regulated Consumer base, changes in the actual costs (versus earlier estimates) included in the Transition Charge calculation, etc. The actual calculation needs work.

[4] ~~Consider adding the Financial Services Agent and the Servicer as parties.~~

[3] Placeholder for delegation once deterermined.

[4] Suggestion is that LDCs remit based on estimates and then true-up, based on current arrangements for remittances by LDCs to IESO. *

"Estimate" means (a) in relation to costs, expenses or payments in respect of Funding Obligations or any Finance Amount for a Reference Period, the estimated amount of such costs, expenses or payments determined by the Financial Services ~~Agent~~Manager; and (b) in relation to an assessment of the benefits of the Green Generation Initiative to ~~any Retail Consumer Group~~Regulated Consumers, the estimated value (in current dollars) of such benefits determined by the Delegate, in each case having regard to the applicable principles and parameters set out in Schedule 1, which estimated amounts shall be determinative as the applicable estimate for the purposes of this Act except to the extent of a manifest calculation error.

"Estimated Future Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that are expected to accrue to ~~Retail~~Regulated Consumers from the establishment and implementation of the Green Generation Initiative during the period from the Measurement Date to the Program-End Date.

"Estimated Past Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that have accrued to ~~Retail~~Regulated Consumers from the establishment and implementation of the Green Generation Initiative up to and including the Measurement Date.

"Fair Allocation Plan" has the meaning given in Article 1.

"Finance Amount" means, for a Reference Period ~~in respect of an Absolute Assignee~~, the sum (without duplication) of the following amounts that are or become payable during the Reference Period in respect of ~~the~~any Absolute Assignee: (a) Repayments; (b) Net Funding Costs; (c) Redemption Amounts; (d) Finance Reserve Deposits; and (e) Additional Funding Charges.

"Finance Reserve Deposits" means, for a Reference Period, the amount by which (a) deposits made or to be made during the Reference Period in order to pre-fund, collateralize, over-collateralize or establish reserves for the ultimate payment of Funding Obligations or for related contingencies specified in the Financing Plan, exceed (b) any Finance Reserve Withdrawals.

"Finance Reserve Withdrawals" means, for a Reference Period, the amount withdrawn during the Reference Period from deposits previously made to pre-fund, collateralize, over-collateralize or establish reserves for the payment of Funding Obligations or to pay amounts in respect of related contingencies that had been specified in the Financing Plan.

"Financial Services ~~Agent~~Manager" means OPG or, following any Replacement Event involving OPG, such other person ~~or persons~~ who may be appointed as the ~~Financial Services Agent~~financial services manager of the Absolute Assignees under the Financing Plan in compliance with the requirements set out in Schedule 2.[5]

[5] ~~Discuss whether to accommodate multiple~~There must only be one Financial Services ~~Agents. MOE to consider~~Manager.

"Financing Entity" means ~~an~~any entity established in accordance with the Financing Plan to ~~acquire all or an interest in the Regulatory Asset as~~be an Absolute Assignee and ~~to enter into Funding Obligations to finance such acquisition under the Financing Plan~~that is managed by the Financial Services Manager.[6]

"Financing Plan" means the written plan prepared by the Financial Services ~~Agent on behalf of each Absolute Assignee in compliance with Article 9 to set forth the basis upon which, among other things: (a) any Disposition may be made to, financed by or effected by an Absolute Assignee; (b) any Funding Obligations may be incurred by an Absolute Assignee, including any Refinancing; (c) any Pledge may be given or effected; (d) any Funding Obligations may be redeemed, prepaid, repurchased, amended or otherwise effected; (e) any obligations for Additional Funding Charges may be incurred and paid; (f) any Repayments, Funding Costs and Redemption Amounts may be paid or provided for; (g) any Finance Reserve Deposits may be made; (h) any Finance Reserve Withdrawals may be made; (i) the establishment and operation of any Financing Entity may be effected; and (j) the cash flows arising from time to time or otherwise derived from an Investment Interest may otherwise be applied,~~Manager in accordance with Article 9, as the same may be amended, amended and restated or terminated by the Financial Services ~~Agent~~Manager in ~~compliance~~accordance with Article 9 from time to time.

~~"Funding Costs" means, for a Reference Period in respect of an Absolute Assignee, the amount by which (a) the aggregate of all interest and other periodic finance charges accruing due and becoming payable or paid by or on behalf of the Absolute Assignee during the Reference Period in respect of its Funding Obligations, including any standby commitment fees or charges paid to any lender, credit enhancement fees or charges paid to any credit enhancer, liquidity fees or charges paid to any liquidity provider, amounts (including any termination payments) paid under derivatives and any deposit amount made or required to fund or replenish a debt service reserve account or other account established under any indenture, ancillary agreement or other financing document relating to its Funding Obligations, exceeds (b) the aggregate of all amounts received by or on behalf of the Absolute Assignee during the Reference Period in respect of a Funding Obligation, including from any reimbursement of standby commitment fees or charges paid by a lender, any reimbursement of credit enhancement fees or charges paid by any credit enhancer, any reimbursement of liquidity fees or charges paid by any liquidity provider, any amounts (including any termination payments) paid to the Absolute Assignee under derivatives and any Finance Reserve Withdrawal made or required to be made from a debt service reserve account or other account established under any indenture, ancillary agreement or other financing document relating to the payment of the Funding Costs payable in respect of a Funding Obligation for the Reference Period.~~

"Funding Obligation" means, in respect of an Absolute Assignee, each payment obligation (including each obligation to pay: principal, interest, premiums and other financing charge payments; pass-through payments; payment obligations arising under

[6] MOE to confirm that the legislation will provide that any Financing Entity that is a wholly-owned subsidiary of OPG (1) would not be subject to Part VI of the *Electricity Act* (Ontario) and (2) in the case of any Financing Entity that is a trust, any income of such trust (for purposes of the *Income Tax Act* (Canada) or the *Taxation Act, 2007* Ontario)) which is paid or made payable to OPG or a wholly-owned subsidiary of OPG as a beneficiary of such trust will not be taken into account in calculating the amount of a payment required to be made by OPG (or such subsidiary) by section 89 or 90 of the Electricity Act.

or in respect of derivatives; payment obligations owing to service providers, Financial Services ~~Agents~~Managers, finance entity intermediaries, capital markets intermediaries, advisors, lenders, credit enhancement providers, liquidity providers, disbursement counterparties, regulatory agencies and rating agencies; and all Additional Funding Charges) incurred by or on behalf of the Absolute Assignee under the Financing Plan, including any Refinancing of another such payment obligation incurred by or on behalf of such Absolute Assignee.

"Future Fair Share of Green Transition Benefits" means, in respect of a Measurement Date, the sum of (a) the Over-Assessed Amount; and (b) the Estimated Future Green Transition Benefits, in each case as of the Measurement Date.

~~"Generator" means a generator of electricity that is subject to the *Electricity Act, 1998*.~~

"Global Adjustment" has the meaning given in Article 1.

"Green Costs Adjustment" has the meaning given in Article 1.

"Green Generation Initiative" has the meaning given in Article 1.

"IESO" means the Independent Electricity System Operator created pursuant to Part II of the *Electricity Act, 1998*.

~~"IESO Available Amount" means, for a Reference Period, the lesser of (a) the amount (if any) by which (i) the Maximum Transition Charge Amount for the Reference Period, exceeds (ii) Period Finance Amount for the Reference Period, and (b) the IESO Retained Interest Amount as of the [35th] day prior to the first day of a Reference Period plus any IESO Financing Costs that are due and payable and remain unpaid as of the [35th] day prior to the first day of a Reference Period.~~

"IESO Electricity Distribution Receipts" means, for a month, the sum of all amounts payable by Electricity Distributors to IESO , during the month pursuant to section • of the *Electricity Act*~~.~~ in respect of Regulated Consumers. **[NTD: IESO indicates that it likely does not work to express in regards to "amounts payable by the LDCs" because settlement between the IESO and LDCs entails payments by LDCs to the IESO and then credits/debits by the IESO to LDCs to reflect RPP shortfalls/overages.]**

~~"IESO Financing Costs" means, for a Reference Period, the financing costs (if any) incurred by IESO pursuant to Section 8(4) in order to finance its ownership of the IESO Retained Interest during the Reference Period.~~

"IESO Funding Shortfall" means, for a month, the amount, if any, by which (a) the IESO Electricity Distribution Receipts that would be payable to IESO for the month if determined without regard to this Act and without regard to the changes made to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* with respect to the Global Adjustment concurrently with this Act, exceeds (b) the IESO Electricity Distribution Receipts payable to IESO for the month[7]~~; provided that if the amount of any such shortfall is determined to have been based on incomplete information, variances or estimates that were inaccurate, an adjustment shall be made in determining the amount~~

[7] ~~This has been recast to recognize that the shortfall in the first 4.5 years could exceed the entire GA amount. A more refined approach to describing the concept may be considered.~~

~~of any subsequent shortfall for the month in which the inaccuracy is identified. .~~To the extent reasonably necessary to give effect to this Act, or any transaction contemplated hereby, IESO shall calculate the IESO Funding Shortfall for any month taking into account information provided by the Electricity Distributors and (i) such calculation shall be binding for all purposes; and (ii) any demonstrated inaccuracy in the calculation for any month (including any such resulting from inaccuracies in the information provided by Electricity Distributors) shall be accounted for by adjusting the IESO Funding Shortfall for a subsequent month.

"IESO Recovery" means each amount ~~remitted to IESO (including~~received by IESO ~~retaining such amount) in respect of the IESO Retained Interest pursuant to Section 5(6)(b)~~in accordance with its right to recover IESO Funding Shortfalls pursuant to section 25.33 of the Electricity Act and Ontario Regulation 430/04, as amended, and "IESO Recoveries" means, collectively, all such amounts received by IESO.[7]

"IESO Remittances" means, for a Settlement Date, all Electricity Distributor Remittances received by IESO or if applicable the Alternative Collection Agent prior to the Settlement Date and that have not otherwise been remitted to the Regulatory Asset Owners (each with respect to its Regulatory Asset) in accordance with Section 5(6), including the proceeds of any enforcement action undertaken by IESO or if applicable the Alternative Collection Agent to recover payment of amounts payable by Electricity Distributors to IESO in accordance with Article 5.

"IESO ~~Retained Interest" means IESO's right, title and ownership interest (if any) in, to and under the Regulatory Asset, which shall exclude each Investment Interest."IESO Retained~~Regulatory Interest Amount" means, on a day, (a) the sum of all IESO Funding Shortfalls incurred prior to the day, ~~plus (b) the sum of all IESO Funding Costs incurred prior to the day in accordance with Section 8(4), minus (c~~minus (b) the net proceeds received by IESO from or on behalf of each Absolute Assignee as consideration for the Disposition of each Investment Interest paid to IESO by or on behalf of such Absolute Assignee prior to the day, and minus (~~d~~c) the IESO Recoveries received by IESO prior to the day.

"IESO Successor" means the entity appointed by the Province to succeed to the rights and obligations of IESO as the entity responsible for managing the Province's electricity system.

"Investment Interest" means an ownership interest in, to or under the Regulatory Asset that is acquired by an Absolute Assignee pursuant to a Disposition~~, which ownership interest may include (without limitation) ownership of a specified portion on a divided basis of the assets comprising the Regulatory Asset and ownership of an undivided ownership interest in the Regulatory Asset, in each case as may be described in the applicable Disposition Document~~.

"Investment Remittance" means, for a month, the lesser of (a) the aggregate amount of all IESO Remittances for the month, and (b) the sum of the Finance Amounts due and payable by all Absolute Assignees in respect of the month.

[7] IESO will be entitled to record the IESO Funding Shortfall amount in a variance account. The OEB will eliminate and dispose of the variance account balance as part of the RPP adjustment process under the OEB Act , with an applicable OEB accounting order. See Article 8 for corresponding adjustments based on Dispositions. These will need to be tied together.

~~"Maximum IESO Recovery" means, for a month, the amount (if any) by which (a) the IESO Remittances for the month, exceed (b) the sum of all Finance Amounts that are due and payable by Absolute Assignees in respect of the month.~~

~~"Maximum Transition Charge Amount" means, for a Reference Period, (a) the aggregate amount of Future Fair Share of Green Transition Benefits that are allocable to the applicable Retail Consumer Group in accordance with the Fair Allocation Plan, divided by (b) the applicable Reference Period Length.~~

"Measurement Date" means [Insert relevant date around the Legislation Implementation Date] and any other date specified as such under the Fair Allocation Plan.

"Net Funding Costs" means, for a Reference Period, the amount by which (a) the aggregate of all interest, scheduled principal and other periodic finance charges accruing due and becoming payable or paid by or on behalf of any Absolute Assignee during the Reference Period in respect of its Funding Obligations, including such amounts as may be prescribed, exceeds (b) the aggregate of all amounts received by or on behalf of the Absolute Assignee during the Reference Period in respect of the Funding Obligations referred to in (a), and such other or different amounts as may be prescribed.

"OEB" means the Ontario Energy Board, together with its successors.

"OPG" means the corporation incorporated as Ontario Power Generation Inc. under the *Business Corporations Act* on December 1, 1998, together with its successors.

"Over-Assessed Amount" means, in respect of a Measurement Date, the amount (if any) by which (a) the Assessed Past Green Transition Costs, exceeds (b) the Estimated Past Green Transition Benefits, each as determined as of the Measurement Date.

"Period Finance Charges" means, for a Reference Period, the sum of (a) the Estimate of the Finance Amount ~~and~~ (b) the True-Up Amount in respect of the ~~immediately preceding Reference Period. "Period Transition Charges" means, for a Reference Period, the sum of (a) the Period Finance Charges for the Reference Period and (b) the IESO Available Amount for the Reference Period.~~ applicable True-Up Period and (c) [an adjustment amount as may be prescribed to account for estimated collection shortfalls and collection delays in respect of amounts under (a) and (b).]

"Pledge" means, in respect of an Investment Interest of an Absolute Assignee, a lien, mortgage, charge or security interest granted to or in favour of a Pledgee by the Absolute Assignee in, to and over all or a specified portion (including a specified portion on a divided basis or by way of an undivided interest) of the Investment Interest.

"Pledgee" means a person to whom an Absolute Assignee grants a Pledge.

"Program End Date" means •, [2047].

"Province" means the Province of Ontario.

"Redemption Amount" means the amount payable by or on behalf of an Absolute Assignee to redeem, prepay or repurchase a Funding Obligation incurred by or on behalf of the Absolute Assignee, including any premium, make-whole or other additional

amount becoming payable under the Funding Obligation to give effect to such redemption, prepayment or repurchase.

"Reference Period" means (a) the period from (and including) the Measurement Date to (and including) ~~June~~October 30, 2017, (b) each six month period commencing [May 1st and November 1st] thereafter and (c) any other period specified as such in the Fair Allocation Plan.

~~"Reference Period Length" means, for a Reference Period, the number of months in the Reference Period.~~

"Refinancing" means, in respect of a Funding Obligation incurred by or on behalf of an Absolute Assignee, that the Funding Obligation is repaid or repurchased for cancellation by or on behalf of the Absolute Assignee by applying the net proceeds obtained by the Absolute Assignee incurring one or more other Funding Obligations.

"Regulated Consumer" means consumers of electricity in the Province [as prescribed][8].

"Regulated Consumer Group" means, in relation to a Reference Period, the Regulated Consumers who receive Electricity Invoices during the Reference Period.

"Regulatory Asset" means the property rights and interests described in Section 6(1), which collectively is comprised of ~~the IESO Retained Interest and~~ each Investment Interest.

"Regulatory Asset Account" means (a) for an Electricity Distributor, any bank account into which the Electricity Distributor deposits or receives Transition Charge Collections; and (b) for the Servicer, any bank account into which ~~IESO deposits or receives Transition Charges, Electricity Distributor Remittances or IESO Remittances; and (c) if applicable, for the Alternative Collection Agent, any bank account into which the Alternative Collection Agent~~Servicer deposits or receives Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances.

"Regulatory Asset Owner" means ~~each of (a) IESO, as owner of (and to the extent of) the IESO Retained Interest and (b)~~ each Absolute Assignee, as owner of its Investment Interest or Investment Interests, and "Regulatory Asset Owners" means collectively ~~IESO and~~ each such Absolute Assignee, who together own the entirety of the Regulatory Asset and are required to exercise their individual rights of ownership in accordance with Section 6(7).

"Related Rights" means, with respect to a Regulatory Asset Owner's Investment Interest, all rights of any kind (whether in tort, contract or otherwise) that attach or are attendant or incidental to any of the other property rights or interests that comprise such ~~Regulatory Asset~~Investment Interest.

"Remittance Date" means, in respect of an Electricity Distributor, each day on which it is required to remit Electricity Distribution Remittances to ~~IESO~~Servicer or if applicable the Alternative Collection Agent as specified in accordance with any Funding Obligation or, if no such day is specified in accordance with any Funding Obligation, then the ~~Business Day~~business day preceding each Settlement Date.

[8] To be included in the legislation once settled.

"Repayment Obligation" means an obligation to repay, redeem or repurchase, or to provide for the repayment, redemption or repurchase (including by making a related Finance Reserve Deposit) of, all or a portion of the amount advanced to the Absolute Assignee under a Funding Obligation.

"Repayment" means a payment by an Absolute Assignee made to satisfy a Repayment Obligation, other than to the extent that the payment is made by applying the proceeds of a Refinancing or from Finance Reserve Withdrawals.

"Replacement Event" means any event specified as such in a Funding Obligation.

~~"Retail Consumer" means:~~

~~(a) present and future consumers of electricity in the Province who are (i) consumers designated under section 79.16 of[, and O.Reg 95/05 under,] the *Ontario Energy Board Act, 1998*, or (ii) hold or are deemed to hold an "eligible account" under the *Ontario Rebate for Electricity Consumers Act, 2016*, other than any such consumer who has a contract with a Retailer who uses Retailer Consolidated Billing; and~~

~~(b) present and future Retailers who use Retailer Consolidated Billing,~~

~~and each case includes all such consumers and Retailers who are connected, directly or indirectly and whether a customer of an Electricity Distributor or not, to the transmission and distribution system assets located in the Province and who are taking electric delivery service within the Province, whether or not such retail consumers produce their own electricity or purchase electric generation services from a provider of electric generation services other than the owner of the Province's transmission and distribution system assets and whether or not the transmission and distribution system assets continue to be owned or operated by Electricity Distributors or operated by IESO.~~

~~"Retail Consumer Group" means, in relation to a Reference Period, the Retail Consumers who receive Electricity Invoices during the Reference Period.~~

"Retailer" means a person who is licensed under Part V of the *Ontario Energy Board Act, 1998* to retail electricity.

[["Retailer Consolidated Billing" has the same meaning as in the *Retail Settlement Code* issued by the Ontario Energy Board.]]

~~"Service Area" means, in respect of an Electricity Distributor, the geographic area or region in which it is licensed to distribute electricity in accordance with the *Electricity Act, 1998*.~~

"Servicer" means IESO or IESO Successor, as agent for and on behalf of the Regulatory Asset Owners, for the purposes set forth in Article 4.

"Settlement Date" means the [last ~~Business Day~~business day of any month].

"Transition Charge" means, ~~for a Retail~~the amount recoverable from a Regulated Consumer in respect of a Reference Period~~, (a) the Period Transition Charge, (b) multiplied by its Allocation Factor in respect of the Reference Period, divided by (c) the~~

~~applicable Reference Period Length.~~[9], being the Period Finance Charge as allocated to such Regulated Consumer in accordance with Article 4(3) on a monthly basis. **[Note that this allocation will be based on the OEB process for determining the volumetric rate as part of the RPP process (see s. 4(2)). The OEB will determine volumetric rate based on forecast consumption, number of consumers, etc. to recover the Period Finance Charges.]**

"Transition Charge Collection" means any amount received **[or deemed by this Act to have been received]** upon the collection of a Transition Charge paid by or on behalf of a ~~Retail~~Regulated Consumer, including any proceeds arising from the exercise and enforcement of any related rights and interests under or in respect of the Regulatory Asset.

"True-Up Amount" means, in respect of a Reference Period, the amount (which may be a negative amount) calculated by the Financial Services ~~Agent~~Manager equal to (a) the Actual Finance Amount for such related True-Up Period, minus (b) the Estimate of the Finance Amount for the related True-Up Period, ~~minus (b) the Actual Finance Amount for such related True-Up Period,~~ plus (c) the Collected Amount Adjustment for such related True-Up Period.[10]

"True-Up Period" means, in relation to a Reference Period, the ~~period from and including the [30th] day~~ immediately preceding ~~the first day of the Reference Period, to but excluding the [30th] day immediately preceding the last day of the~~ Reference Period.[11]

"Undertaking of ~~the Lieutenant Governor in Council~~Her Majesty in right of Ontario" means the undertaking of ~~the Lieutenant Governor in Council~~Her Majesty in right of Ontario given under Section 11(2).[12]

Article 3 – Transition Charges

(1) **~~Retail~~Regulated Consumer Obligation to Pay a Transition Charge** – Each ~~Retail~~Regulated Consumer shall pay each Transition Charge charged to it in any Electricity Invoice issued to such ~~Retail~~Regulated Consumer by its Electricity Distributor

[9] Note that Transition Charges will be calculated by reference to Funding Obligations and Finance Amounts incurred under the Financing Plan. The directive will be that no payment obligations will be incurred for payment before 2022, to accommodate the "Fair Adjustment".

[10] True-up calculation is under consideration. In this summary, a calculated true-up amount is contemplated to be included in the Period Finance Amount calculation, in order to achieve a sum certain and actionable debt. The suggestion is that the true-up mechanism be based generally on a calculation process to be described in the Regulation, which would require Transition Charges to be reviewed and adjusted semi-annually (or more frequently) to ensure the expected recovery of amounts sufficient to timely provide all payments in respect of Finance Amounts. It has been proposed that the scope of the true-up will exclude any 'leakage' at the Financing Entity Level (e.g., entity-level tax; litigation; losses) but will include shortfalls that are currently socialized through the LDC/IESO system. Note that the proposal to include a section detailing the true-up mechanism (Oslers 3(6) has not been included here since the outcome of the calculation is already built into the Period Finance Amount concept.

[11] Timing of calculation under consideration, given that amount will need to be reflected in customer invoices.

[12] Under consideration.

or by an Alternative Servicer under Section 4(1), in each case on the terms of payment specified in the related Electricity Invoice.

(2) Indebtedness of ~~Retail~~Regulated Consumers – Until paid, a Transition Charge charged to a ~~Retail~~Regulated Consumer in an Electricity Invoice shall, together with any applicable late payment fees and finance charges arising under the terms of the Electricity Invoice with respect to such Transition Charge, constitute non-bypassable indebtedness of the ~~Retail~~Regulated Consumer to the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset. Such indebtedness shall constitute a single and separate[~~8~~13] debt obligation owing by the ~~Retail~~Regulated Consumer, which subject to Article 5 may be enforced independently from any other payment obligation or indebtedness owing by the ~~Retail~~Regulated Consumer under the Electricity Invoice or otherwise.[~~9~~14]

(3) No Set-Off or Reduction – A ~~Retail~~Regulated Consumer may not set-off or reduce (by counterclaim, defense or otherwise) the amount payable by it in respect of any Transition Charge, including any set-off against or in respect of any amount owing or becoming payable to such ~~Retail~~Regulated Consumer by its Electricity Distributor, any Regulatory Asset Owner or any other person.

(4) Allocation of ~~Retail~~Regulated Consumer Payments – If an Electricity Distributor receives a payment made by or on behalf of a ~~Retail~~Regulated Consumer in respect of amounts due and payable under one or more Electricity Invoices that is less than the total amount payable thereunder, such payment shall be allocated on a *pro rata* basis to the payment of related Transition Charges and other invoiced amounts and the amount so allocated as a payment of related Transition Charges shall be deemed to constitute a Transition Charge Collection.

(5) Transition Charges are Irrevocable – The Transition Charges arising under or in respect of Funding Obligations ~~incurred under the Financing Plan~~ (including any adjustments based on modifications to such Funding Obligations made in compliance with the Financing Plan or as a result of amendments to the Financing Plan made in accordance with Section 9(3)) are deemed to be irrevocable, final and effective without any further action, except to the extent of manifest calculation error. For greater certainty, a Transition Charge may include Finance Amounts for a Reference Period regardless of whether ~~or not~~ the payment of such Finance Amounts are inconsistent with the Fair Allocation Plan applicable at the time such payments are due and payable, and regardless of whether ~~or not~~ the related Funding Obligation was properly incurred under the Financing Plan. In no case shall a Funding Obligation incurred under the Financing Plan be affected by a subsequent amendment to the Fair Allocation Plan.

(6) True-Up of Transition Charges – [See True-Up Amount].

Article 4 – Invoicing of Transition Charges

[~~8~~13] Determine if this is critical for rating and markets. Logistics under consideration.

[~~9~~14] Torys has also suggested that deemed conditions of licenses for distributors, retailers and unit sub-metering providers, could be included as conditions, to require them to collect and remit amounts in accordance with this legislation. Consider if it is helpful to integrate the existing regulatory scheme for invoicing and collections (regarding RPP) in the legislation.

(1) **Inclusion of Transition Charges in Electricity Invoices** – Each Electricity Distributor and if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, specify the Transition Charge to be charged to a ~~Retail~~Regulated Consumer pursuant to Section 4(4) in respect of a related Reference Period in each Electricity Invoice[15] issued by the Electricity Distributor or if applicable by the Alternative Servicer to the ~~Retail~~Regulated Consumer in respect of such Reference Period. Upon the inclusion of a Transition Charge in an Electricity Invoice, the obligation to pay such amount shall be binding on the applicable ~~Retail~~Regulated Consumer.

(2) **Calculation of the Period ~~Transition~~Finance Charge** – Not later than [35] days prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services ~~Agent~~Manager on its behalf) shall provide the OEB with written notice of each Estimate of a Finance Amount payable by it or on its behalf in respect of the Reference Period~~. [35] days prior to the first day of a Reference Period, IESO or Successor IESO if applicable shall specify the IESO Retained Interest Amount and any IESO Financing Costs that are due and payable and remain unpaid on such day~~. Not later than one month prior to the first day of a Reference Period, the ~~OEB~~Financial Services Manager on behalf of each Absolute Assignee shall calculate the Period ~~Transition~~Finance Charge applicable to the Reference Period ~~based on the calculations and information set forth in such written notices received from the Absolute Assignees and based on~~having regard to such amounts specified by ~~IESO or Successor IESO~~the Servicer, which calculations, information and amounts shall be determinative, except to the extent of manifest calculation error or misstatement.

(3) ~~**Calculation and Attribution of**~~**Basis for Attributing Transition Charges** – Not later than 25 days prior to the first day of a Reference Period, the OEB shall ~~apply the Attribution Methodology to determine the Allocation Factor for each Retail Consumer of the applicable Retail Consumer Group~~determine a [Fair Hydro Recovery Rate] (on a volumetric basis) on which Electricity Distributors will attribute Transition Charges to consumers under 4(4).

(4) **Notice of Transition Charges** – Not later than 20 days prior to the first day of a Reference Period, the OEB shall inform each Electricity Distributor and if applicable any Alternative Servicer of the [Fair Hydro Recovery Rate] to be applied by the Electricy Distributor to attribute Transition Charges to ~~be specified~~each Regulated Consumer who is served by the Electricity Distributor for inclusion in the Electricity Invoices to be issued to ~~each Retail Consumer of the applicable Retail Consumer Group who has a billing address in the Electricity Distributor's Service Area.~~the Regulated Consumers.

(5) **Adjustments** – The amount of any Transition Charge charged to a ~~Retail~~Regulated Consumer and specified as such in an Electricity Invoice shall be determinative of the amount of indebtedness created thereby and owing in respect of such Transition Charge, except to the extent of any manifest calculation error.

(6) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 4 in the same manner and to

[15] Intention is to include bills issued to eligible consumers served by unit sub-metering providers, retailers and the IESO – not just distributors and to address the inclusion of Transition Charges in the paperwork from the IESO to the LDC in a manner that is consistent with the current process of how the IESO bills LDCs.

the same extent as such Electricity Distributor, including the obligation under Article 4 to impose, attribute, charge, bill and invoice the Transition Charges.

~~(7)~~ ~~**IESO Successor** – Any IESO Successor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of IESO under Article 4 in the same manner and to the same extent as IESO, including the obligation to calculate and provide notice of Transition Charges.~~

(7) ~~(8)~~ **Appointment of an Alternative Servicer** – If a Replacement Event occurs in respect of any Electricity Distributor, ~~the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Servicer to~~IESO shall perform some or all of the obligations and duties required to be undertaken by such Electricity Distributor under this Article ~~4, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Servicer shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor.~~ 4. Any Electricity Distributor that is replaced under this Section 4(~~8~~7) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in the performance of such obligations and duties to ~~the Alternative Servicer~~IESO and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit ~~the Alternative Servicer~~IESO or a person designated by IESO to perform such obligations and duties on behalf of the Regulatory Asset Owners.

(8) ~~(9)~~ **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, the Servicer, Alternative Servicer or any other person who may be authorized to issue Electricity Invoices to ~~Retail~~Regulated Consumers for a failure to impose, attribute, charge, bill or invoice Transition Charges or to otherwise comply with this Act. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure and may make any interim or final order it thinks fit in this regard.

(9) ~~(10)~~ **No Set-Off or Reduction –** No Servicer or Electricity Distributor may set off or reduce (by counterclaim, defence or otherwise) the amount payable by it pursuant to this Article 4.

(10) ~~(11)~~ **Regulations** – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Servicer to ensure that Transition Charges are properly charged to ~~Retail~~Regulated Consumers and specified as such in Electricity Invoices.

Article 5 – Collections and Remittances

(1) **Duty to Collect as Agent** – Electricity Distributors or if applicable any Alternative Collection Agent shall, as an agent of the ~~Regulatory Asset Owners~~Servicer, undertake ~~[diligent]~~[commercially reasonable~~]~~[10] efforts to collect amounts owing by ~~Retail~~Regulated Consumers in respect of Transition Charges charged to such ~~Retail~~Regulated

~~[10] Mirror collection "standard of care" under applicable legislation.~~

Consumers in Electricity Invoices issued by the Electricity Distributor or if applicable such Alternative Collection Agent~~.~~, all in accordance with the Regulations. [16]

(2) **Segregation of Transition Charge Collections** – ~~An~~If prescribed, an Electricity Distributor or if applicable any Alternative Collection Agent shall promptly segregate Transition Charge Collections from other payments received by it from ~~Retail~~Regulated Consumers and deposit such Transition Charge Collections into its Regulatory Asset Account.~~11~~[17] Prior to and following a deposit of Transition Charge Collections having been made into its Regulatory Asset Account, the Electricity Distributor or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners~~.~~ or a Pledgee.[18]

(3) **Electricity Distributor Remittances** – On each applicable Remittance Date, an Electricity Distributor shall remit all [Transition Charge Collections received by it from ~~Retail~~Regulated Consumers] [amounts invoiced to it by the IESO on account of Transition Charges][19] in respect of the related Reference Period to or to the account of ~~IESO~~Servicer or if applicable the Alternative Collection Agent.

(4) **Duty to Collect Electricity Distributor Remittances** – ~~IESO~~Servicer or if applicable any Alternative ~~Collection Agent~~Servicer shall, as an agent of the Regulatory Asset Owners, accept and undertake ~~[diligent]~~[commercially reasonable~~]~~ efforts to ~~accept and~~ collect Electricity Distributor Remittances from Electricity Distributors and Transition Charge Collections from ~~Retail~~Regulated Consumers that pay their Electricity Invoices directly to IESO, all in accordance with the Regulations.~~12~~

(5) **Segregation of Electricity Distributor Remittances** – ~~IESO~~Servicer and if applicable the Alternative Collection Agent shall promptly segregate Electricity Distributor Remittances from other payments received or held by it and deposit such Electricity Distributor Remittances into its Regulatory Asset Account. Prior to and following a deposit of Electricity Distributor Remittances having been made into its Regulatory Asset Account, ~~IESO~~Servicer or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners or any Pledgee.

(6) **~~IESO~~Servicer Remittances** – On each Settlement Date~~13~~[20], ~~IESO and if applicable the Alternative Collection Agent~~Servicer shall remit all amounts on deposit in its Regulatory Asset Account ~~(a) first,~~ to or to the account of the Absolute Assignees an amount equal to the Investment Remittance for the related month~~ and (b) second, to IESO (including by IESO retaining such amount) an amount equal to the lesser of (i) the Maximum IESO Recovery for the related month and (ii) the IESO Retained Interest Amount as of the Settlement Date~~.

[16] Note that the obligation to collect and remit the Transition Charge will be included as a deemed condition of license for electricity distributors (and retailers and unit sub-metering providers).]

~~11~~[17] Consider trying to attach to existing LDC credit enhancements and provide parallel coverage for customer losses.

[18] Consider whether there is a more efficient way to treat collections through the existing LDC/IESO processes. Intention is to provide scope in the Regulations.

[19] Dealer suggestion under consideration. Impact on LDCs and parallel commercial arrangements to be assessed.

~~12 Consider building this obligation into a deemed condition of licence for the IESO.~~

~~13~~[20] Consider frequency of remittances in light of rating requirements. US rating agencies favour daily remittances.

(7) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 5 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 5 to collect Transition Charges and make remittances of Electricity Distributor Remittances.

(8) **IESO ~~Successor~~Successors** – IESO ~~Successor~~Successors shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of IESO under Article 5 in the same manner and to the same extent as IESO, including the obligation to collect Transition Charge Collections, Electricity Distributor Remittances and to remit IESO Remittances.

(9) **Owners of Distribution Assets** - If any person other than an Electricity Distributor acquires distribution system assets in the Province or invoices or collects electricity distribution rates in the Province[~~14~~21], then such person shall, if requested by the Absolute Assignees, be obligated to act diligently to (a) facilitate the invoicing and collection of any Transition Charges applicable to ~~Retail~~Regulated Consumers ~~in its applicable service area, including all consumers~~ connected to ~~the electricity~~such person's distribution system assets ~~and taking electric delivery service located within such service area~~; (b) allocate partial payments by ~~Retail~~Regulated Consumers as provided in this Act; (c) exercise all enforcement rights of the Absolute Assignees for the benefit of an Absolute Assignee; and (d) remit any Transition Charge Collections to the Absolute Assignees or Pledgees, as applicable, each in accordance with its Investment Interest.

(10) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, ~~IESO~~Servicer, the Alternative Collection Agent, any owner of electricity distribution system assets in the Province or any other person who may be authorized to collect electricity distribution and use charges from ~~Retail~~Regulated Consumers for a failure to collect Transition Charges, remit or collect Electricity Distributor Remittances or remit IESO Remittances, as and to the extent applicable under Article ~~5.~~5, or to otherwise comply with this Act. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure and may make any interim or final order it thinks fit in this regard.

~~(11) **Appointment of an Alternative Collection Agent** – If a Replacement Event occurs in respect of any Electricity Distributor or IESO, the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Collection Agent to perform some or all of the collection, segregation and remittance obligations otherwise required to be undertaken by such Electricity Distributor or IESO, as applicable, under Article 5, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Collection Agent shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor or IESO, as applicable. Any Electricity Distributor or IESO, as applicable, that is replaced under this Section 5(11) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in, to and over the Regulatory Asset, including its Regulatory Asset Account, to the Alternative Collection Agent and shall take such further actions, including the execution of instruments, necessary to give full and final~~

[~~14~~21] This is in anticipation of a possible future restructuring of the distribution system.

~~effect to such transfer and to permit the Alternative Collection Agent to enforce the Regulatory Asset on behalf of the Absolute Assignees.~~

(11) ~~(12)~~ **No Set-off, etc.** - The Regulatory Asset, including rights in Transition Charges, Transition Charge Collections, and the interests of a Regulatory Asset Owner, an Absolute Assignee and a Pledgee therein, may not be setoff or reduced (including by counterclaim, surcharge or defense) by any ~~Retail~~Regulated Consumer, any Electricity Distributor, ~~IESO~~Servicer, Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or in connection with any default, bankruptcy, reorganization or other insolvency proceeding of any Electricity Distributor, ~~IESO~~Servicer, Alternative Collection Agent or any owner of distribution system assets in the Province, any affiliate or successor thereof or any other entity or otherwise.~~15~~22

(12) ~~(13)~~ **Sequestration** – If any Electricity Distributor, ~~IESO~~Servicer, the Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or entity authorized to collect Transition Charges, defaults on any required remittance of Transition Charge Collections, Electricity Distribution Remittances or IESO Remittances under Article 5, any court in the Province, upon application by and of the Absolute Assignees acting collectively under the Collective Action Agreement and without limiting any other remedies otherwise available to the Absolute Assignees or Pledgees, shall (i) order the sequestration and payment of the Transition Charge Collections, Electricity Distribution Remittances and IESO Remittances, as applicable, for the benefit of the Absolute Assignees, each with respect to its Investment Interest, and the Pledgees as applicable~~.~~16 and (ii) appoint a receiver to take control of the amounts sequestered.23

(13) ~~(14)~~ **Regulations** – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to ~~IESO~~Servicer, any Electricity Distributor or any Alternative Collection Agent to ensure that rights, interests, entitlements, benefits and proceeds in, to, under and from the Regulatory Asset are of fully realized by some or all of the Absolute Assignees and Pledgees.

Article 6 – The Regulatory Asset24

(1) **Composition** – The Regulatory Asset shall constitute a current and irrevocable property right and interest consisting, collectively, of the following rights and interests (without duplication):

a. the right of ~~IESO (i)~~a Regulatory Asset Owner to record its ~~IESO Retained~~Investment Interest in its accounts~~ in accordance with Section 8(1), having a stated amount from time to time equal to the IESO Retained Interest Amount; and (ii) to receive IESO Recoveries from time to time in accordance with Section 5(6)(b)~~;

~~15~~22 Consider whether it makes sense to create a "deemed collection" payment obligation on Electricity Distributors to the extent a ~~Retail~~Regulated Consumer reduces its payment of Transition Charges, despite this language. Same for Electricity Distributor Remittances and IESO Remittances.

~~16~~23 Consider adding or substituting this provision for a right to appoint a receiver.

24 It is anticipated that Investment Interests will only be sold to Financing Entities controlled by OPG. Sales will occur on a negotiated basis, and deal-specific covenants will be included in transaction documents – to supplement these arrangements.

b. the right to impose, bill, invoice, collect and receive Transition Charges from ~~Retail~~Regulated Consumers, including the right to determine the amount of Transition Charges in accordance with this Act;

c. the right to enforce the obligations and indebtedness of each ~~Retail~~Regulated Consumer to pay the Transition Charges charged to the ~~Retail~~Regulated Consumer from time to time in accordance with Article 3, together with all related late payment fees or interest charges arising in respect thereof under the related Electricity Invoices; the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Servicer to impose, attribute, charge, bill and invoice the Transition Charges in accordance with Article 4;

~~**d.** the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Servicer to impose, attribute, charge, bill and invoice the Transition Charges in accordance with Article 4;~~

d. ~~**e.**~~ the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Collection Agent to collect, receive and remit amounts received by it in respect of Transition Charges as Electricity Distributor Remittances to or to the account of ~~IESO~~Servicer or if applicable the Alternative Collection Agent in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5;

e. ~~**f.**~~ the right to enforce the duties and obligations of ~~IESO~~Servicer and if applicable the Alternative Collection Agent to collect and receive Electricity Distributor Remittances and to remit IESO Remittances to or to the accounts of the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset, in each case in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by it to recover payment of Electricity Distributor Remittances in accordance with Article 5;

f. ~~**g.**~~ the right to receive and collect all Transition Charge Collections, all Electricity Distributor Remittances and all IESO Remittances in accordance with Article 5;

g. ~~**h.**~~ all rights and entitlements under each Regulatory Asset Account and all amounts on deposit in any such Regulatory Asset Account;

h. ~~**i.**~~ all Related Rights; and

i. ~~**j.**~~ all revenue, collections, claims, payments, money and proceeds of or derived from the rights described in (a) through (i), regardless of whether such revenue, collections, claims, payments and proceeds are imposed, invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

A Regulatory Asset and the property rights and interests therein shall exist whether or not Transition Charges have been imposed, charged, invoiced, accrued or collected and

notwithstanding that the imposition, attribution, invoicing and collection of Transition Charges will depend on further actions that may not have occurred. The Regulatory Asset shall continue to exist until all Funding Obligations have been paid in full.

(2) **Validity of Dispositions** – ~~Despite any limitations or restrictions on a~~A Disposition ~~that may arise by contract or by operation of any applicable law of the Province or any consent requirement applicable to a Disposition that may arise by operation of any applicable law of the Province, a Disposition by~~by IESO of its right to recover all or any part of the IESO Funding Shortfall to an Absolute Assignee ~~made under the Financing Plan~~, or a Disposition of all or any part of an Investment Interest by one Absolute Assignee to another Absolute Assignee made under the Financing Plan, shall be permitted and when made shall be valid and enforceable in accordance with the terms of the related Disposition Document and shall be effective to confer upon the Absolute Assignee thereof a valid property right and interest in, to and under ~~the applicable~~IESO's right to recover the IESO Funding Shortfall or the Investment Interest, as applicable (or relevant portion thereof) in accordance with the terms of such Disposition, provided that the parties to the applicable Disposition Document have expressly stated therein that such Disposition is a sale or other absolute transfer. Without limiting the foregoing, any Disposition that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as a true sale and absolute transfer of ~~the Regulatory Asset Owner's applicable~~IESO's right to recover the IESO Funding Shortfall or an Absolute Assignee's right, title~~,~~ and interest in, to and under ~~the Regulatory Asset~~an Investment Interest, as applicable (or relevant portion thereof), and not merely as a Pledge thereof, and upon such Disposition the assigner or seller under the applicable Disposition Document shall retain no right, title or interest in IESO's right to recover the IESO Funding Shortfall or the Investment Interest (or relevant portion thereof) subject to the Disposition, including all rights to recover the IESO Funding Shortfall or under the Investment Interest arising after such Disposition.

(3) **Perfection and Priority of Dispositions** – Any Disposition of an interest in a Regulatory Asset shall be vested, valid, binding and perfected from the time when such Disposition is made. Such Disposition shall be perfected, vested, valid and binding as against the IESO or transferring Regulatory Asset Owner, as applicable, and all other persons who have claims of any kind (whether in tort, contract or otherwise) against IESO or the transferring Regulatory Asset Owner, as the case may be, irrespective of whether such persons have notice of the Disposition and the property rights and interests acquired by the Absolute Assignee under such Disposition shall be free and clear of any liens in favour of such other persons.

(4) **Validity of Pledges** – ~~Despite any limitations or restriction on a Pledge that may arise by contract or by operation of any applicable law of the Province or any consent requirement applicable to a Pledge that may arise by operation of any applicable law of the Province, a~~A Pledge by an Absolute Assignee may be made to secure any ~~related~~ Funding Obligation and when made shall be valid and enforceable in accordance with its terms and shall be effective to confer upon the Pledgee a valid security interest in, to and in respect of the related Investment Interest in accordance with the terms of the Pledge. ~~Other than as required by the Financing Plan, no~~No consent of, or notice to, any person shall be required to give effect to a Pledge made to secure any Funding Obligation.

(5) **Perfection and Priority of Pledges** - For purposes of the *Personal Property Security Act* (the "PPSA"), the Regulatory Asset shall be intangible personal property and any Pledge made by an Absolute Assignee in respect of a Funding Obligation shall, subject to the terms thereof, give rise to a security interest in respect of which the PPSA applies, and may be perfected by filing a financing statement under the PPSA on that basis. All proceeds of a related Investment Interest that are subject to such a Pledge that are received by the Absolute Assignee shall immediately be subject to the such Pledge, and the security interest in such proceeds shall be perfected pursuant to the PPSA.[17][25] A Pledge perfected under the PPSA shall be a continuously perfected security interest and shall have priority over any other lien or security interest, created by operation of law or otherwise, that may attach to the property rights and interests in the Investment Interest subject to the Pledge unless the Pledgee has otherwise agreed in writing. ~~Subject to the terms of the Collective Action Agreement, a~~A Pledgee shall have a perfected security interest in a related Investment Interest, including the Absolute Assignee's rights and interests in and to Transition Charge Collections or other related proceeds in respect of the Investment Interest and that are deposited in any Regulatory Asset Account or other account of any Electricity Distributor, IESO, Alternative Collection Agent or other person who may have commingled such Transition Charge Collections or such other proceeds with other funds. All provisions of the PPSA shall apply to the Regulatory Asset on the basis that it is intangible personal property, except to the extent otherwise provided in this Section 6(5).

(6) **Enforcement of Property Rights** – The rights of any Regulatory Asset Owner or Pledgee to collect and enforce its rights and interests in, to or in respect of the Regulatory Asset shall be exercised in the manner set forth in Article 5.

(7) **Owners of a Specified Portion of the Regulatory Asset** – A Regulatory Asset Owner may effect a Disposition to an Absolute Assignee of a specified portion of its rights and interests in the Regulatory Asset, including by way of a Disposition of a divided or an undivided interest therein as specified in a related Disposition Document~~, in each case under the Financing Plan~~. In no circumstance may the specified portions of the rights and interests in the Regulatory Asset owned by all Regulatory Asset Owners be greater than all of the rights and interests that comprise the Regulatory Asset in the aggregate.

(8) **Collective Action Required** – If a Regulatory Asset Owner's rights and interests in the Regulatory Asset comprises less than the entire property right and interest constituted by the Regulatory Asset, such Regulatory Asset Owner shall only enforce such right and interest on a collective and coordinated basis with each other Regulatory Asset Owner in accordance with the Collective Rights Agreement.

Article 7 – Establishment of the Fair Allocation Plan[18][26]

(1) Adoption of the Fair Allocation Plan – The Delegate may, ~~[~~by written declaration,~~]~~ designate and adopt a Fair Allocation Plan in compliance with Article 7. The Fair

[17][25] Consider whether to simply leave this and have a financing statement be filed under the PPSA. This would normalize the security interest and reduce any adverse suggestion that security would not otherwise arise.

[18][26] The idea is that the Fair Allocation Plan will be set once at the outset based on the principles and parameters described here, all as applied based on information available and the reasonable expectations and discretion of the delegate at such time. If the expectations are not fulfilled (e.g., generators may choose to retire their facilities at the end of their current procurement contracts and not invest in extending service lives to secure further procurement contracts), the Fair Allocation Plan will be unaffected, unless it is specifically amended (assuming amendments will be permitted by the legislation).

Allocation Plan so designated and adopted shall be the Fair Allocation Plan for all purposes of this Act, except if amended, amended and restated or terminated by a further written declaration made by the Delegate in compliance with ~~Section 7(4).~~[the Regulations].

(2) **Principles and Parameters** – A Fair Allocation Plan shall seek to allocate Future Fair Share of Green Transition Benefits across present and future ~~Retail Consumer Groups~~Regulated Consumers on a basis that the Delegate, in its sole and absolute discretion, determines to be equitable, having regard to the following principles and parameters:

1. Future Fair Share of Green Transition Benefits should be allocated over the period ending on the Program End Date.

2. The Fair Allocation Plan should specify the Reference Periods for the purpose of identifying applicable ~~Retail~~Regulated Consumer Groups and allocating Future Fair Share of Green Transition Benefits among them on a relative basis over time.

3. The share of Future Fair Share of Green Transition Benefits allocable to a particular ~~Retail~~Regulated Consumer ~~Group~~ in respect of a Reference Period should be proportionate to a reasonable assessment of the benefits of the Green Generation Initiative to ~~the Retail~~such Regulated Consumer ~~Group~~ over such Reference Period~~.~~, other than in exceptional circumstances.

4. The share of Future Fair Share of Green Transition Benefits to be allocated to a ~~Retail~~Regulated Consumer Group and any future ~~Retail~~Regulated Consumer Group at a particular time should not exceed the Estimated Future Green Transition Benefits, measured in respect of the Reference Periods following such particular time and to the Program End Date.

5. No future ~~Retail~~Regulated Consumer Group should be allocated an unreasonably disproportionate share of Estimated Future Green Transition Benefits. Except in exceptional circumstances or in the case of any reallocation of an Over-Assessed Amount as contemplated in 7, below, the Future Fair Share of Green Transition Benefits to be allocated under a Fair Allocation Plan to any future ~~Retail~~Regulated Consumer Group should have regard to *[Insert formula if a year-over-year maximum amount is determined to be appropriate]*.

6. The time value of money should be reflected in the Fair Allocation Plan, in order to equate the relative values of the nominal allocations of Future Fair Share of Green Transition Benefits, calculated in current dollars, to future ~~Retail~~Regulated Consumer Groups over time.

7. To the extent there has been an Over-Assessed Amount, the Fair Allocation Plan may determine that an adjustment should fairly be made to rebate ~~Retail~~Regulated Consumers for such an amount, by reducing the costs otherwise attributable under the Act to such ~~Retail~~Regulated Consumers. The relative costs of the Green Generation Initiative are reflected under the Act by the attribution of Transition Charges to such Consumer Groups, based on the Financing Plan seeking to track the allocations of benefits under the Fair

Allocation Plan. Accordingly, the Maximum Transition Charge Amount determined for one or more ~~Retail~~Regulated Consumer Groups having regard to the Fair Allocation Plan otherwise applicable may be appropriately reduced to recognize the effect of the Over-Assessed Amount. In such a case, a determination to reduce the Maximum Transition Charge Amount applicable for certain related Reference Periods should have regard to the principle that the corresponding rebate should be extended to benefit the Consumer Group or Consumer Groups in closest proximity to the Legislative Implementation Date.

(3) Attribution Methodology – The Fair Allocation Plan shall specify the Attribution Methodology for the purposes of allocating the Period ~~Transition~~Finance Charges across the ~~Retail~~Regulated Consumers~~ of a particular Retail Consumer Group~~. The Attribution Methodology shall result in an attribution of such Transition Charges that is considered by the Delegate to be equitable, and may have regard to such principles and parameters as may be further set forth in a Regulation; provided that the Attribution Methodology shall not be used to limit the recovery of Transition Charges.

(4) Amendments of the Fair Allocation Plan – The Fair Allocation Plan may be amended, amended and restated or terminated by the Delegate, provided that such amendment, amendment and restatement or termination shall (a) not be inconsistent with the principles and parameters set forth in (2) or (3), above, or the Regulation~~ and~~, (b) comply with any restrictions or limitations specified with respect thereto in any Funding Obligation~~.~~, and (c) not impair any Regulatory Asset, outstanding Funding Obligations or any Transition Charges.[27]

Article 8 – The IESO ~~Retained Interest~~Funding Shortfall

(1) Recording of IESO Funding Shortfall – Subject to 8(3), IESO will record any IESO Funding Shortfall [in its books] [in a variance account established in accordance with section 25.33 of the Electricity Act / Ontario Regulation 430/04, as amended].

(2) ~~(1) Maintain Books of Account~~ ~~– IESO may maintain books of account to record the IESO Retained Interest~~**Adjustments** – IESO will record it [its books][its variance account] all adjustments to the IESO Regulatory Asset Amount ~~and all adjustments thereto~~ from time to time. Such books of account shall be determinative with respect to the amount of IESO's related regulatory asset.

(3) ~~(2)~~ Limitation on Additions – Subject to 8(3), IESO shall not record additions to the IESO ~~Retained Interest~~ Regulatory Asset Amount in respect of IESO Funding Shortfalls (a) if such additions are restricted by the terms of any Disposition Document or the Collective Action Agreement, or (b) on or after •, 2017.

(4) ~~(3)~~ Dispositions – IESO may effect a Disposition of its right to recover all or any part of the IESO Regulatory Asset Amount to an Absolute Assignee if (a) the Absolute Assignee has or will concurrently become bound by the Collective Rights Agreement; (b) the Disposition is effected pursuant to a Disposition Agreement duly executed by IESO; and (c) the Financial Services ~~Agent~~Manager confirms in writing that the Disposition complies with any restrictions or limitations specified with respect thereto in any documents evidencing the Funding Obligations and is permitted under the Financing

[27] It is anticipated that the terms of any rated financing will restrict further issuances pending a RAC in relation to any changes to the FAP.

Plan; and (d) the net proceeds payable to IESO from the sale of the related Investment Interest would not exceed the IESO Retained Interest Amount immediately before the time of such Disposition.

(5) (4) **No Continuing Interest in any Investment Interest** – IESO shall have no continuing right or interest in any Investment Interest, or maintain any right to recover all or any part of, any IESO Regulatory Asset Amount that is subject to a Disposition effected by IESO under a Disposition Document to which IESO is a party and IESO shall not assert any such right or interest or take or omit to take any action to exercise or enforce its rights or interests under the IESO Retained Interest if such action or omission would impede or obstruct the rights of any Absolute Assignee or a Pledgee to enforce its rights and interests in any Investment Interest, except if IESO is expressly permitted to take or omit to take such action, respectively, under the related Disposition Document or the Collective Rights Agreement.

(5) **IESO Financing Costs** – IESO shall be entitled in good faith to incur reasonable financing costs (including interest and other reasonable financing charges) reflecting market terms and conditions and which are payable in arrears, in order to finance its ownership of the IESO Retained Interest from time to time.

(6) **IESO Recoveries** – IESO shall, in respect of a month, be entitled to receive from IESO Remittances on a related Settlement Date the amount (if any) available to of any IESO under Section 5(6)(b) Recoveries.

Article 9 – The Financing Plan

(1) **Power to Prepare, Implement and Amend the Financing Plan** – The Financial Services Agent Manager shall be authorized to prepare, implement and amend a financing plan [for the Financing Plan. If the Financial Services Agent is unwilling or unable to prepare Entities] and propose the adoption of such financing plan as the Financing Plan, the Delegate may by written declaration designate one or more other persons who shall be authorized to prepare, implement and amend the Financing Plan. for the purposes of this Act. [The Financial Services Manager shall have the right to withdraw its financing plan as the Financing Plan at any time if it determines that implementing the Financing Plan in such manner would not be in the best interests of a Financing Entity.]

(2) **Terms Principles and Conditions Parameters of the Financing Plan** – The Financing Plan shall establish the basis for each Absolute Assignee's funding decisions. The Financing Plan shall have, having regard to the principles and parameters set forth in Schedule 3 and such other conditions and requirements as may be specified in a written declaration of the Delegate or in accordance with the Regulation. 3.

(3) **OEB Approval** – [Any Additional Funding Charge payable to or for the benefit of the Financial Services Manager in respect of services provided by the Financial Services Agent Manager (other than third party costs) shall be subject to review and approval by the OEB.][28]

(4) **OEB Review of Financing Plan** – The [OEB [shall] undertake an annual review of the records maintained by the Financial Services Agent Manager for the purpose of

[28] Under consideration.

confirming that the Funding Obligations incurred and the Finance Amounts paid by or on behalf of the Absolute Assignees were incurred and paid, respectively, in material conformity with the Financing Plan.][29]

(5) Replacement of the ~~Administrative Agent~~Financial Services Manager – If the OEB identifies deficiencies or makes recommendations in its review under Section 9(4), the ~~Administrative Agent~~Financial Services Manager shall take reasonable measures to remedy such deficiencies if remediable, and shall in any event have regard to the recommendations of the OEB in relation to further actions undertaken by the Financial Services ~~Agent~~Manager under the Financing Plan. If the Financial Services ~~Agent~~Manager is unwilling or unable to reflect such recommendations in relation to such further actions, the Delegate may by written declaration designate one or more other persons who shall thereafter become the Financial Services~~.~~ Manager. [Any replacement financial services manager must comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations.]

(6) Obligation to Apply IESO Remittances – The Financial Services ~~Agent~~Manager shall ensure that amounts transferred to it [under Article 5, as agent for and on behalf of the Absolute Assignees], or otherwise in respect of or as proceeds from an applicable Investment Interest shall only be applied or used to pay related Finance Amounts when they are due and payable and for no other purpose.

(7) Non-Recourse – The Financing Plan shall be implemented so that Funding Obligations incurred shall be without recourse to or to any assets of the Electricity Distributors, IESO, any Alternative Servicer, any Alternative Collection Agent, the Financial Services ~~Agent~~Manager, the OEB~~, the Province or the Lieutenant Governor in Council~~ or Her Majesty in right of Ontario, other than if and to the extent that such persons or entities are liable for the performance of obligations or duties arising under this Act or expressly agree to become liable pursuant to any Funding Obligation or obligation in relation to a Finance Amount. ~~[All Funding Obligations shall contain a statement to the following effect: "Neither the full faith and credit nor the taxing power of the Province of Ontario is pledged to the payment of the principal of, or interest on, this [obligation].]~~

(8) Incurrences are Binding – ~~Notwithstanding anything to the contrary in this Act, each~~Each Disposition made to or by an Absolute Assignee ~~and~~, all amounts payable or becoming due and payable by or on behalf of an Absolute Assignee under or in connection with any obligation purporting to be a Funding Obligation and each Pledge entered into by an Absolute Assignee, shall be valid and binding ~~for the purposes of this Act~~, including in determining the amount of related Transition Charges, ~~despite~~notwithstanding any ~~impairment or defect resulting from such failure~~defect in the manner of incurrence or any inconsistency with the Fair Allocation Plan or the Financing Plan.

[Article 10 – Compliance Matters~~19~~30

[29] Under consideration.

~~19~~30 As noted above, the outcome of any regulatory action undertaken by the OEB will not affect Funding Obligations that have been incurred under the Financing Plan. This Article and any potential role for the Auditor General is still under consideration.

(1) Right of the [OEB] to Inspect Books and Records - For the purpose of investigating compliance with the provisions of this Act, the OEB shall have the right, jurisdiction, power and authority to examine the books and records of *[Insert names if any]*.

(2) [OPG's Rate Settings – When setting other rates for or in respect of OPG, the OEB shall not take into account (a) the administrative or servicing fees charged by OPG as Financial Services ~~Agent~~Manager [in excess of the actual incremental costs incurred by such person of providing administrative or servicing services]; (b) the cost consequences to OPG of being the Financial Services ~~Agent~~Manager; or (c) the consequence of OPG consolidating the assets and liabilities of any Financing Entity for OPG's accounting purposes, in each case in setting any regulated payment amounts for OPG.]~~20~~31

Article 11 – Undertaking of the ~~Lieutenant Governor in Council~~[21]Her Majesty in right of Ontario[32]

(1) No Action to limit, alter, or impair or terminate Transition Charges, the Regulatory Asset or Collections – ~~The [Lieutenant Governor in Council]~~Her Majesty in right of Ontario shall not in any way take or permit (including by any agency or administrative body) any action to reduce, impair, postpone or terminate the obligation of ~~Retail~~Regulated Consumers to pay Transition Charges or to impair the Regulatory Asset or the collection or recovery of Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances, either directly or indirectly, including through the introduction of any bill or the passing of any legislation or regulation having such effect. The amount of Transition Charges determined under this Act shall not be subject in any way to reduction, impairment, postponement or termination as a result of any action taken or failure by ~~the Lieutenant Governor in Council~~Her Majesty in right of Ontario (including by any agency or administrative body), including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(2) Undertaking and Agreement – ~~The [Lieutenant Governor in Council]~~Her Majesty in right of Ontario shall not:

(a) in any way take or permit any action that limits, alters or impairs the value of any Investment Interest;

(b) except as required by the estimates and adjustments made in determining the True-up Amount, reduce, alter or impair Transition Charges that are imposed, billed, invoiced, collected and remitted for the benefit of the Absolute Assignees or any Pledgee from time to time;

~~20~~31 As an alternative to this provision, consider clarifying under s. 78.1(4) of the OEB Act (which currently gives the OEB discretion in setting payment amounts subject to O. Reg. 53/05) that the OEB in setting OPG payment amounts for prescribed generation shall not consider OPG's role as ~~Administrative Agent~~Financial Services Manager of any Financing Entities associated with the Fair Hydro initiative, perhaps with the exception of any operating fees that may be received by OPG for performing that role.

~~21~~32 Under consideration, including the dealers' request for (1) a "servicer guarantee" ~~and~~(2) a "contractual guarantee" to address a "Change of Law" or if all or a portion of the legislation is *ultra vires*, requiring (at the lenders option), the Province to pay principal and interest on the outstanding debt until maturity or payout the entire debt including any make-wholes and (3) in the event of a market disruption that renders it impossible to refinance debt when required (or where financing of amounts required to service the debt is not available because of a market disruption where the Financing Entity was relying on such further issuance of debt until the recovery is set to begin to fund interest), a covenant by the Province to step in and payout the debt or to recover the debt from ratepayers as it becomes due, notwithstanding the intended Fair Adjustment.

(c) permit the amendment, amendment and restatement or termination of the Fair Allocation Plan if such amendment , amendment and restatement or termination would adversely affect the validity or enforceability of any Funding Obligation or the rights of an Absolute Assignee or Pledgee thereunder, or would not otherwise comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations,

in each case including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(3) **Successor IESO** – If IESO is restructured, dissolved or becomes insolvent or is otherwise incapable of performing its obligations under this Act, an IESO Successor ~~IESO~~ shall immediately be established by Her Majesty in right of Ontario to perform such obligations.

(4) **Compensation for Failure** – Absolute Assignees shall be compensated by Her Majesty in right of Ontario for any losses suffered by them as a result of any failure by ~~the Lieutenant Governor in Council~~Her Majesty in right of Ontario to comply with its undertakings and agreements in this Article ~~11.[22]~~11.[33]

(5) **No Wind-up of Financing Entity**. No Financing Entity may be voluntarily wound up, liquidated or dissolved until one year after all of its Funding Obligations are repaid.

(6) **References to the Undertaking and Agreement** – Any non-confidential reference to the Undertaking of the ~~Lieutenant Governor in Council~~Her Majesty in right of Ontario, including in marketing materials and other documentation authorized for use by the Administrative in connection with any Funding Obligation, may be made provided that [*Add conditions to protect the Province*].

Article 12 – Regulations

Regulations may be made under this Act for the purposes described in Sections •,•,• and • and may be promulgated for any of the following purposes:

(a) to set standards and measures regarding the commercially reasonable requirements of the Province associated with an Absolute Assignee incurring Funding Obligations or becoming obligated to pay any Finance Amount, including to establish guidelines regarding all-in funding costs; permitted Additional Funding Charges; required maturities and redemption and termination rights of Funding Obligations; liquidity requirements, in each case to a Financing Plan that is consistent in its effect with the Fair Allocation Plan;

(b) to establish and empower one or more regulated entities to undertake decision-making activities with respect to this Act;

(c) to set out reasonable requirements regarding the appointment or retention of advisors, agents, service providers, contract counterparties, including in relation to 'market terms and conditions' parameters;

[22][33] Requested by ~~Torys~~Dealers. For discussion.

(d) to provide for audit and compliance standards applicable to those persons who are or may become obligated or have duties that arise under this Act [or under any Funding Obligation];

(e) to provide for any pre-vetting and approval requirements in relation to any incurrence by an Absolute Assignee of any Funding Obligation or obligation to pay any Finance Amount; and

(f) to provide for appeal and due process considerations in connection with the establishment, adoption, implementation and review of the Fair Allocation Plan or the Financing Plan.

Article 13- Miscellaneous[2334]

(1) **Choice of law** – The law governing, as applicable, the validity, enforceability, attachment, perfection, priority and exercise of remedies with respect to the transfer of an interest or right or creation of a security interest in the Regulatory Asset, any Transition Charge or the Undertaking of the Province shall be the laws of the Province.

(2) **Conflict of law** – In the event of conflict between this Act and any other law of the Province regarding the attachment, assignment or perfection, or the effect of perfection, or priority of any Disposition or Pledge, this Act shall govern to the extent of the conflict.

(3) **No further acts or approvals required** - Notwithstanding any provisions of any law of the Province to the contrary, no approvals, notices or authorizations other than those specified in this Act shall be required with respect to the actions to be taken in compliance with this Act, including under the Financing Plan or in relation to the establishment of the Fair Allocation Plan, and the transactions and contracts authorized in or contemplated by this Act or the Financing Plan, including the incurrence of any Funding Obligation, any Disposition, any Pledge or in the payment and performance of any attendant or incidental contract and any related expenses incurred to facilitate the preparation and implementation of the Financing Plan.

(4) **Effect of invalidity after the Incurrence of any Funding Obligation** - Effective on the date that a Funding Obligation is incurred under this Act, if any provision of this Act is held to be invalid or is invalidated, superseded, replaced, repealed or expires for any reason, that occurrence shall not affect any action allowed under this Act that is taken by any person who is or may become obligated or have duties that arise under this Act and any such action shall remain in full force and effect.

(5) **Severability** - If any Article, Section, paragraph or subparagraph of this Act or the application thereof to any person, circumstance or transaction is held by a court of competent jurisdiction to be unconstitutional or invalid, the unconstitutionality or invalidity shall not affect the constitutionality or validity of any other Article, Section, paragraph or subparagraph of this act or its application or validity to any person, circumstance or transaction, including the irrevocability of Transition Charges, the validity of the Regulatory Asset, the incurrence of any Funding Obligation, any Disposition, any Pledge, or the collection and recovery of Transition Charge Collections. To these ends, the Legislature hereby declares that the provisions of this Act are intended to be severable and that the Legislature would have enacted this Act even if any Article,

[2334] OPG would like the specific amendments related to OPG to be included in the Bill.]

Section, paragraph or subparagraph of this Act held to be unconstitutional or invalid had not been included in this Act.

Schedule 1

Guidelines for Estimates

[To be considered.]

Schedule 2

Requirements Applicable to Alternative Invoicing Agent/ Alternative Collection Agent

[To be considered.]

Schedule 3[24]

Principles and Parameters for Establishing the Financing Plan

The following principles and parameters provide a guideline as to what a Financing Plan should address:

(1) in respect of each Reference Period, make reference to the allocations of Future Fair Share of Green Transition Benefits to each Reference Group contemplated by the Fair Allocation Plan;

(2) estimate IESO Funding Shortfalls for each Reference Period;

(3) consider alternative funding arrangements suitable to fund the estimated IESO Funding Shortfalls, including short term and/or long term Funding Obligations;

(4) ~~(9)~~ consider quantities, maturities, payment obligations, prepayment or redemption rights and such other features of Funding Obligations so that payments made for a Reference Period reasonably correspond to the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

(5) ~~(4)~~ if the anticipated amount of any Repayment (together with payments of other Finance Amounts) to be made in respect of a Reference Period would materially exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable ~~Retail Consumer Group~~Regulated Consumers under the then current Fair Allocation Plan, diligent efforts should be made to determine whether a Refinancing or deferral of such Repayment may be reasonably and cost-effectively effected based on then prevailing market terms, conditions an circumstances;

(6) ~~(5)~~ reflect the assumptions and requirements specified in any contemplated Funding Obligation (e.g., any limit on the maximum amount of Transition Charges charged to a hypothetical ~~Retail~~Regulated Consumer relative to his or her monthly electricity bill, as prescribed by any rating agency that ascribes its credit rating to or in respect of the Funding Obligation ~~having regard to the application of the Allocation Methodology~~);

(7) require the Financial Services Manager, for and on behalf of each Regulatory Asset Owner, to use [diligent efforts to manage Finance Amounts to be borne by Ratepayers];

(8) include a proposal regarding the compensation of the Financial Services Manager that reflects market terms and conditions; and

(9) [require that the Financial Services Manager report annually to the Ministry of Energy on the operation of the Financing Plan including, in particular, with respect to the amount and terms of the Funding Obligations incurred and the sufficiency of such Funding

[24] ~~Awaiting input from Torys based on OPG mark-up of Financing Plan sections.~~

Obligations for the purpose of funding the estimated Funding Shortfalls in accordance with the Fair Allocation Plan.]

(10) ~~**(6)**~~ incur Funding Obligations from time to time on the best terms available at such time for a financing transaction of the size and type contemplated, and having regarding to the following parameters:

a. whether the Absolute Assignees will require committed access to short term liquidity to cover estimated IESO Funding Shortfalls prior to incurring fixed term Funding Obligations, and the amount and repayment terms of any such required liquidity; provided that any Repayment required to be made under the terms of such short-term liquidity would not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

b. the basis upon which the Financial Services Agent will select the term to maturity of any other Funding Obligations; provided that any Repayments required to be made under the terms of such Funding Obligations should not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

c. the basis upon which the interest rates applicable to such Funding Obligations would be determined;

d. the reference capital or finance market in which such Funding Obligation would be incurred, including markets outside of Canada if considered by the Financial Services Agent to be appropriate in the circumstances;

e. the currency of payments under such Funding Obligations and, if the Funding Obligations are denominated in a currency other than Canadian dollars, the basis upon which the Financial Services Agent shall cause the applicable Absolute Assignee to enter into hedging transactions to mitigate currency risk, including acceptable minimum and maximum coverage levels, having regard to the availability of related derivatives having notional amounts corresponding to the repayment and maturity profile of such Funding Obligations;

f. the basis upon which the Financial Services Agent will select counterparties under any transaction to be entered into by an Absolute Assignee, including any paying agent, servicer, cash manager, liquidity provider, hedge counterparty, account bank, lender, note trustee, security trustee, paying agent, registrar/transfer agent, financial services agent, arranger or manager;

g. the basis upon which the Financial Services Agent will manage counterparty risk, including by providing for maximum counterparty exposure limits having regard to concentration, credit and other identified risks with respect to individual counterparties or countries;

h. the basis upon which the Financial Services Agent will negotiate and settle Finance Amounts, including the amount of any Redemption Amounts, Finance Reserve Deposits and Additional Funding Charges;

(11) ~~(7)~~ the basis upon which Funding Obligations may be redeemed, prepaid, repurchased or otherwise affected, having regard for the need to minimize debt service charges and other Funding Costs, and the need to maintain a stable funding platform to finance the IESO Funding Shortfalls from time to time on a basis that is consistent with the allocations of Future Fair Share of Green Transition Benefits to applicable Reference Groups under the Fair Allocation Plan;

(12) ~~(8)~~ the basis upon which any Repayments, Funding Costs and Redemption Amounts will be paid, including any defeasance, sinking fund or through other reserves or liquidity facilities;

(13) ~~(9)~~ the basis upon which fees, charges, expenses, costs, indemnities, reimbursements and other amounts payable to or for the benefit of the Financial Services Agent and other agents and service providers to the Absolute Assignees may be determined, allocated and paid;

(14) ~~(10)~~ the timing and basis upon which Finance Reserve Deposits and Finance Reserve Withdrawals may be made;

(15) ~~(11)~~ the basis upon which any obligations for any other Additional Funding Charges may be incurred and paid;

(16) ~~(12)~~ the basis upon which the cash flows arising from time to time or otherwise derived from the Regulatory Asset may otherwise be applied, including in relation to any counterparty enforcement and realization scenario;

(17) ~~(13)~~ the transmittal to [the IESO] of information related to the amounts to be included in the determination of the Period Transition Charge for a Reference Period;

(18) ~~(14)~~ the basis upon which any Disposition may be made or effected by an Absolute Assignee, including parameters for determining the purchase price for the interest in the Regulatory Asset that is the subject matter of such Disposition, and any consents and releases that may be usefully obtained in connection with such Disposition;

(19) ~~(15)~~ describe the requirements applicable to any special purchase entity that will purchase an Investment Interest, including proposed capitalization, governance, and restrictions on their powers and activities; and

(20) ~~(16)~~ the basis on which any Pledge may be given or effected.

[NTD: E&Y will need to see the guidelines of the Fair Allocation Plan set in reference to parameters that will allow it to establish a modeling curve]

- [**Inflation period**: (between November 2017 – and April 2022) bill increases need to be capped at inflation (assumed at 2% for modeling purposes)]
- [**Transition Period**: (May 2022- April 2027) bills increased at a consistent rate which is set so that the borrowing will not exceed the Trust's capacity, which is determined by the Finance Service Manager]
- [**Amortization Period**: (May 2027-April 2047) equitable distribution of Finance Amount among Regulated Consumers]

Subject: Ontario Fair Hydro Plan
Date: Thursday, April 13, 2017 10:44:50

Hi Everyone,

This will be a meeting to discuss the Ontario Fair Hydro Plan (OFHP).

The meeting will be held at Blakes and the main contact on site will be Lindsay Dicks (416-863-4347 or Lindsay.Dicks@blakes.com). Please inform Lindsay if there will be additional people attending from your group because she will need to pass this information along to their security desk.

Please only forward this invitation to your respective teams if their participation is necessary for the facilitation of this meeting, as the boardroom has limited capacity.

Any materials available for this meeting will be provided in a future update.

Given that this meeting follows a holiday, if you are unable to attend in person or prefer to do so from your own office, please use the following conference call information:

Toll-free dial-in number: 1-866-633-1033
Local dial-in number: 416-212-8013
Conference ID: 3164921#

If there are any additional scheduling needs or updates, please contact Joseph Pau (416-326-1018 or Joseph.Pau@ontario.ca).

Thanks,

Hi Everyone,

This will be a meeting to discuss the Ontario Fair Hydro Plan (OFHP).

The meeting will be held at Blakes and the main contact on site will be Lindsay Dicks (416-863-4347 or Lindsay.Dicks@blakes.com). Please inform Lindsay if there will be additional people attending from your group because she will need to pass this information along to their security desk.

Please only forward this invitation to your respective teams if their participation is necessary for the facilitation of this meeting, as the boardroom has limited capacity.

Any materials available for this meeting will be provided in a future update.

Given that this meeting follows a holiday, if you are unable to attend in person or prefer to do so from your own office, please use the following conference call information:

Toll-free dial-in number: 1-866-633-1033
Local dial-in number: 416-212-8013
Conference ID: 3164921#

If there are any additional scheduling needs or updates, please contact Joseph Pau (416-326-1018 or Joseph.Pau@ontario.ca).

Thanks,

All - Please find attached the draft “Intergenerational Fairness in Hydro Rates Act, 2017”. A tremendous amount of work has gone into getting to this draft and much more work is required to get this ready for the House. The goal of sharing this document now is to further the process we have engaged in over the last weeks. In the attached, we have included notes to try to address where the drafting is not yet consistent with our thinking. These notes are neither comprehensive nor complete. They are intended only as flags and as colour to the draft. We have not forgotten the comments that you have already provided and we are continuing to working through the translation of the commercial terms we have been discussing into legislative language.

For ease of reference, included with the draft bill are the partially updated Blakes’ summary, a chart that attempts links the articles in that document to the sections of the bill (which is imperfectly numbered at best) and excerpts from the Electricity Act and the Ontario Energy Board Act, related to the consequential amendments.

In your review, please focus on the broad stroke concepts, rather than the minutia, and keep in mind the cascade of instruments that will be required – legislation first, then regulations and finally commercial agreements. We look forward to discussing the broader concepts on Monday

Fair Hydro Act (April 15 2017) Consultationv4.pdf

This confidential draft document is provided for discussion purposes only. It should not be construed as representing a position adopted by the Government of Ontario on any of the topics included or not included in this document. The notes included in this document are intended only to help facilitate a discussion of the topics to which they relate. Any potential legislation is subject to the approval of the Ontario Legislature.

Confidential Draft

A proposal to create Legislation.

Intergenerational Fairness in Hydro Rates Act, 2017, if enacted

EXPLANATORY NOTE TO BE ADDED BY LEGISLATIVE COUNSEL TO ANY FINAL BILL PRIOR TO INTRODUCTION.

[Notes re this draft:
- all numbering of provisions will need to be re-done
- will need to check all definitions to ensure (1) that they are needed; and (2) that they work properly wherever the term is used in the Bill.
- additional consequential amendments likely required still
- overall organization of provisions still TBC (for now just trying to get all of the elements drafted and will reconsider architecture later)]

Preamble

The Government of Ontario is committed to fostering the development of a clean, modern and reliable electricity system with a diverse supply mix including renewable energy, and to removing barriers to and promoting opportunities for renewable energy projects.

The Government of Ontario has established a regulatory and contractual framework related to the generation and sale of electricity to ensure significant investment in decarbonizing and modernizing the generation of electrical energy and the production therefrom.

Given the long-term benefits that future generations of Ontarians will receive from many of these investments, it is appropriate and fair to raise money in respect of these generating facilities in a manner that allocates the costs of and benefits from these investments fairly among present and future consumers.

Therefore, Her Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:

PART VII
COMMENCEMENT AND SHORT TITLE

103. Commencement
104. Short title
Schedule 1 Method for determining amount of clean energy adjustment for reference period

PART I
GENERAL

Interpretation
Definitions

1. (1) In this Act,

"clean energy adjustment" means…

"clean energy initiative" means the policies of the Government of Ontario related to,

(a) fostering the growth of and investment in renewable energy projects [which use cleaner sources of energy],

(b) removing barriers to and promoting opportunities for renewable energy projects, and

(c) promoting a green economy [including conservation and demand management]; ("French")

Confidential Draft

"electricity vendor"[1] means the IESO, a licensed distributor, a licensed retailer or such other person as may be prescribed; ("French")

"Fair Allocation Plan" means a plan prepared under section X; ("French")

"Financial Services Manager" means Ontario Power Generation Inc. or such other entity as may be prescribed; ("French")

"Financing Plan" means a plan prepared under section X; ("French")

"funding obligation" means a payment obligation incurred by or on behalf of the regulatory asset owner or an investment asset owner under section x; ("French")

"holiday" means [O. Reg. 95/05 definition];] ("French")

"IESO" means the Independent Electricity System Operator continued under Part II of the *Electricity Act, 1998*; ("SIERE")

"investment asset" means all or part of the regulatory asset that is deemed to be an investment asset under section x; ("French")

"invoice amount" means the sum of the following amounts:

1. The commodity price of the electricity used during the invoice period.

2. The rates and charges set out in the applicable rate order issued by the Ontario Energy Board under subsection 78 (3) of the *Ontario Energy Board Act, 1998*.

3. Any adjustment required under section 25.33 of the *Electricity Act, 1998*.

4. The amount of any harmonized sales tax payable under Part IX of the *Excise Tax Act* (Canada); ("French")

"licensed distributor" means a person licensed under Part V of the *Ontario Energy Board Act, 1998* to own or operate a distribution system; ("French")

"licensed retailer" means a person who is licensed under Part V of the *Ontario Energy Board Act, 1998* to retail electricity; ("French")

[1] FLS - this is similar to the definition of "electricity vendor" in the Ontario Rebate for Electricity Consumers Act, 2016

Confidential Draft

"Minister" means the Minister of Energy or such other member of the Executive Council as may be assigned the administration of this Act under the *Executive Council Act*; ("ministre")

"prescribed" means prescribed by the regulations; ("prescrit")

"reference period" means,

(a) the period beginning on May 1, 2017 and ending on October 31, 2017,

(b) every six-month period following the period mentioned in clause (a), or such shorter period as may be set out in a Fair Allocation Plan; ("French")

"refinancing" means a repayment or repurchase of a funding obligation for cancellation by or on behalf of the owner of an investment asset by applying the net proceeds obtained by the owner incurring one or more other funding obligations; ("French")

"regulation" means a regulation made under this Act; ("règlement")

"regulatory asset" means the regulatory asset established under section X or, if any part of that regulatory asset has been transferred under this Act, the portion of the regulatory asset that is not deemed to be an investment asset; ("French")

[NOTE: CURRENT PROPOSAL IS THAT THE REGULATORY ASSET WILL REPRESENT THE RIGHT OF RECOVERY. UPON A TRANSFER OF AN INVESTMENT INTEREST, THE QUANTUM OF THE RIGHT OF RECOVERY FOR THE REGULATORY ASSET WILL BE REDUCED. THE TRANSFER OF AN INVESTMENT INTEREST WILL RESULT IN IESO RELINQISHING ANY INTEREST IN THE TRANSFERRED INVESTMENT INTEREST, AND WILL RESULT IN THE TRANSFEREE ACQUIRING THE RIGHT OF RECOVERY OF AN INTEREST IN THE CLEAN ENERGY ADJUSTMENTS DETERMINED BY REFERENCE TO FINANCE AMOUNTS INCURRED BY OR ON BEHALF OF THE TRANSFEREE.]

"representative consumer" means a consumer who meets the criteria set out in subsection (3); ("French")

"specified consumer" means,

(a) a person who has an account with an electricity vendor for the supply of electricity, receives an invoice in respect of the account and meets the criteria set out in subsection (2); or

Confidential Draft

(b) such other person as may be prescribed ("French")

"Toronto Hydro" means Toronto Hydro-Electric System Limited; ("French")

"transfer" means an assignment, conveyance, disposition or sale; ("French")

"weekday means [O. Reg. 95/05 definition]; ("French")

Specified consumers

(2) For the purposes of clause (a) of the definition of "specified consumer" in subsection (1), the person must meet any one of the following criteria:

1. The person has a demand for electricity of 50 kilowatts or less, or such other amount as may be prescribed.

2. The person annually uses not more than 250,000 kilowatt hours of electricity, or such other amount as may be prescribed.

3. The person carries on a business that is a farming business for the purposes of the *Farm Registration and Farm Organizations Funding Act, 1993* and either holds a valid registration number assigned under that Act or the has had the obligation to file a farming business registration form waived pursuant to an order made under subsection 22 (6) of that Act.

4. The person's account with the electricity vendor relates to,

   i. a dwelling,

   ii. a property within the meaning of the *Condominium Act, 1998*,

   iii. a residential complex within the meaning of subsection 2 (1) of the *Residential Tenancies Act, 2006*, without regard to section 5 of that Act, or

   iv. a property that includes one or more housing units and that is owned or leased by a co-operative within the meaning of the *Co-operative Corporations Act*.

5. The person satisfies such criteria as may be prescribed.

Confidential Draft

Invoice amount, exclusions

(2) For the purposes of the definition of "invoice amount" in subsection (1), an invoice amount does not include any of the following amounts:

1. The balance of any amounts carried forward from previous invoices.

2. Penalties or interest.

3. Charges that do not relate to the use of electricity.

4. Any of the following charges that may be set out in an order issued by the Ontario Energy Board under subsection 78 (3) of the *Ontario Energy Board Act, 1998*:

    i. A fixed monthly service charge payable by a generation facility within the meaning of section 56 of the *Ontario Energy Board Act, 1998* and classified as "microFIT".

    ii. A charge labelled as a "specific service charge" or "retail service charge".

    iii. A rate rider.

Representative consumer

(3) For the purposes of the definition of "representative consumer" in subsection (1), the consumer,

(a) purchases electricity directly from Toronto Hydro;

(b) has an account with Toronto Hydro that falls within a residential-rate classification as specified in a rate order made by the Board under section 78 of the Act;

(c) is invoiced by Toronto Hydro on a monthly basis;

(d) is not invoiced by Toronto Hydro for electricity on an equal monthly payment plan or an equal billing plan; and

(e) uses, on average, 750 kilowatt hours of electricity each month.

Confidential Draft

Intention of the Legislature[2]

(5) For greater certainty, all of the provisions of this Act remain in full force and effect, even if some provisions are held to be invalid, the intention of the Legislature being to give separate and independent effect to the extent of its powers to every provision contained in this Act.

Same

(6) The fact that any provision of this Act is held to be invalid or ceases to be in effect for any reason does not affect a funding obligation that was incurred under this Act before the day that the provision was held to be invalid or ceased to be in effect.

Purpose

2. (1) The purposes of this Act are,[3]

(a) to ensure that the costs of the clean energy initiative are fairly distributed among specified customers over time;

(b) to recognize the long-term benefits of the clean energy initiative that accrue over time and will continue to benefit present and future electricity consumers in the Province;

(c) to promote the use of clean energy sources and technologies, including low carbon, alternative energy sources and renewable energy sources, in a manner consistent with the policies of the Government of Ontario;

(d) to promote economic efficiency and sustainability in the generation, transmission, distribution and sale of electricity;

(e) to facilitate the maintenance of a financially viable electricity industry, including by raising money in respect of sites and facilities in the Province for the generation of electrical energy and the production therefrom;[4] and

(f) to protect the interests of consumers with respect to prices and the adequacy, reliability and quality of electricity service.

Crown bound

3. This Act binds the Crown.

[2] FLS: this is from the *Climate Change Mitigation and Low-carbon Economy Act, 2016*
[3] FLS: Please see the *Electricity Act, 1998* for much of the wording proposed in this section.
[4] FLS - as per the note in the Preamble on this language, please see 92A (4) of the *Constitution Act, 1867.*

Confidential Draft

Protection and guarantee of scheme
Prohibition

4. (1) The Crown shall not do anything that would,

(a) hinder, delay, impair or prejudice the charging, collection or remittance of the clean energy adjustment;

(b) except as expressly permitted by this Act, reduce the amount of the clean energy adjustment or lower the priority of the clean energy adjustment over other debts; or

(c) adversely affect an investment asset or a funding obligation.

Clarification with respect to regulations

(2) For greater certainty, the things prohibited under subsection (1) include the making or approving of a regulation under this Act.

Agreements for compensation

(3) The Minister may enter into agreements for the purposes of guaranteeing that compensation will be paid to an investment asset owner for losses suffered as a result of,

(a) a contravention of subsection (1);

(b) a change in law that would adversely affect the rights under this Act of an owner of an investment asset;

(c) approval by the Lieutenant Governor in Council of a Fair Allocation Plan, or an amendment to a Fair Allocation Plan, that fails to recognize the principles set out in section x; or

(d) a final determination by a court of final jurisdiction rendering invalid or ineffective all or any of the provisions of this Act.[5]

IESO obligations

(5) If the IESO fails to carry out its obligations under this Act for any reason, including because the IESO is dissolved or restructured or because it becomes insolvent, the Government of Ontario shall carry out those obligations or ensure they are carried out by another appropriate entity.

Confidential Draft

[5] Note to translator: See s. 9 of the Public Authorities Protection Act.

PART II
FAIR ADJUSTMENT PERIOD

Application of Part

5. This Part applies in respect of the five year period beginning on May 1, 2017 and ending on April 30, 2022.

[NOTE: THIS IS A ROUGH ADAPTATION OF THE "FAIR ADJUSTMENT" CONCEPT. FOR YEARS 2 TO 5, THE LGIC WILL PASS A REGULATION TO LIMIT THE INCREASE TO REDUCED HYDRO BILLS TO REFLECT A FURTHER "FAIR ADJUSTMENT". THE SUM OF ALL FAIR ADJUSTMENTS WILL CORRESPOND TO THE SUM (TIME VALUE ADJUSTED) OF THE PAYMENTS BY PAST RATEPAYERS OF MORE THAN THEIR FAIR SHARE OF THE GREEN COSTS (I.E., AS A RESULT OF THE EXISTING AMORTIZATION RATE OF GREEN COSTS THROUGH THE GA CALCULATION). THE VALUE OF THOSE PAST OVER-PAYMENTS WILL BE A LIMIT ON THE TOTAL AMOUNT OF FAIR ADJUSTMENTS. THE CONCEPT IS MORE FLEXIBILE THAN THE SUGGESTION HERE, WHICH RELATES ONLY TO THE FIRST 5 YEARS – ALTHOUGH THAT IS CERTAINLY THE CURRENT FOCUS. THE IDEA FOR NOW IS THAT THE ACT WILL REDUCE HYDRO BILLS FOR THE FIRST YEAR, AND EACH OF THE FOLLOWING 4 YEARS BY REGULATION – IN AGGREGATE EQUAL TO THE PAST OVER-CHARGES. TO ENSURE THAT THE INCURRENCE OF FUNDING OBLIGATIONS AND CORRESPONDING FINANCE AMOUNTS DO NOT CONFLICT WITH THE FAIR ADJUSTMENT (AND REDUCED HYDRO RATES), THERE WILL BE A MORATORIUM ON CLEAN ENERGY ADJUSTMENTS DURING THE FIRST 5 YEARS (ON BOTH IESO CHARGE THROUGH RECOVERIES AND IN RESPECT OF FINANCE AMOUNTS PAYABLE DURING THESE FIRST 5 YEARS – PROVIDED THAT IF THE LGIC DOES NOT ULTIMATELY DETERMINE THAT A FAIR ADJUSTMENT WILL APPLY IN A YEAR, THE BALANCE, UNDER THE FAP, WILL BE RECOVERABLE BY WAY OF A PASS-THROUGH OF FINANCE AMOUNTS /IESO RECOVERIES. THE IDEA WILL BE THAT THE LGIC WILL DETERMINE THE AMOUNT OF A FAIR ADJUSTMENT PRIOR TO THE RELEVANT PERIOD TO WHICH IT APPLIES. NOTE THAT THE PAST-OVERPAYMENTS WILL BE FACTORED INTO THE FAP ON A GO FORWARD BASIS, IN ADDITION TO THE CONTINUING GREEN COSTS – AND AMORTIZED OVER THE LONGER PERIOD. THE FOLLOWING PROVISION ADDRESSES ONLY THE FIRST YEAR OF THE FAIR ADJUSTMENT.]

Determination of rates, first twelve months

6. (1) The Ontario Energy Board shall determine the rate for electricity payable by a specified consumer for the period beginning on May 1, 2017 and ending on April 30, 2018 in the following manner:

1. Determine the average rate payable by a representative consumer by applying the method set out in subsection (2).

2. Determine the average monthly invoice amount that would be payable by a representative consumer under the rate determined under paragraph 1.

3. Determine the amount that is [# tbc] per cent less than the monthly invoice amount determined under paragraph 2.

4. Determine the average rate payable by a representative consumer that would result in the monthly invoice amount mentioned in paragraph 3 for a representative consumer.

[Note: Query whether 79.16 of the OEBA should be replaced to clearly state that the price-setting work that the OEB does under the RPP is authorized and that the work it must do to accommodate the Fair Adjustments is also authorized going forward.]

Determination of baseline, average rate

(2) For the purposes of paragraph 1 of subsection (1), the follow method applies:[6]

1. The Board shall determine rates in a manner that is consistent with the Standard Supply Service Code issued by the Board.

2. In determining the rates, the Board shall forecast the cost of electricity to be consumed by the consumers to whom the rates apply, taking into consideration adjustments required under section 25.33 of the *Electricity Act, 1998* and shall ensure that the rates reflect those costs.

3. The Board shall set an off-peak period associated with the regulated price referred to as RPEMOFF in section 3.4 of the "Standard Supply Service Code for Electricity Distributors" issued by the Board,

    i. that begins no later than 7 p.m. on every weekday and ends,

        A. no earlier than 7 a.m. on the next day if the next day is a weekday, or

        B. no earlier than 12 a.m. on the next day if the next day is Saturday, Sunday or a holiday, and

[6] FLS: Please see section 6 of O. Reg. 95/05 (a bilingual reg).

Confidential Draft

ii. that begins no later than 12 a.m. on every Saturday, Sunday and holiday and ends no earlier than,

A. 12 a.m. on the next day, if the next day is Saturday, Sunday or a holiday, or

B. 7 a.m. on the next day if the next day is a weekday.

Determination of rates, on and after May 1, 2018

7. On and after May 1, 2018, the Board shall determine the rate for electricity payable by a specified consumer in the following manner:

1. Determine the rate by applying the steps set out in section 6.

2. Adjust the rate determined under paragraph 1 for inflation in accordance with the regulations.

PART III
CLEAN ENERGY ADJUSTMENT PERIOD

Application of Part

8x. This Part applies in respect of the period beginning on May 1, 2022 and ending on April 30, 2047.

[NOTE: CONSISTENT WITH THE EARLIER NOTE, THE MORATORIUM IS LIFTED IF THE LGIC DETERMINES THAT NO FAIR ADJUSTMENT WILL APPLY, IN WHICH CASE CEAs WILL APPLY DURING THE FIRST 5 YEARS. THE DIVISION OF TIME CONTEMPLATED IN THIS DRAFT IS MORE INFLEXIBLE THAN WE HAVE ENVISIONED]

Specified consumers to pay clean energy adjustment

9x. (1) Subject to subsection (1.1), upon receipt of an invoice that includes a clean energy adjustment, a specified consumer shall pay the clean energy adjustment to the electricity vendor in accordance with such terms of payment as may be specified in the invoice, which may include terms relating to late payment fees and interest charges.

[NOTE: MODIFY TO REFLECT THAT THE PAYMENT IS MADE TO AN EV, AS AGENT FOR THE INVESTMENT ASSET OWNERS]

Limitation

(1.1) No clean energy adjustment is payable by a specified consumer on a day before May 1, 2022. [NOTE: MODIFY TO REFLECT EARLIER NOTES]

Confidential Draft

Same

(2) For greater certainty, subsection (1) applies regardless of,

(a) whether payment of the amounts is inconsistent with the Fair Allocation Plan applicable at the time when the payment is due;

(b) whether the payments relate to funding obligations that were incurred in a manner that did not comply with the Financing Plan; and [NOTE: UNDER CONSIDERATION. SEEMS OVERBROAD]

Indebtedness of specified consumer

(4) An unpaid clean energy adjustment that is required to be paid by a specified consumer under this section constitutes indebtedness of the consumer to the investment asset owners in respect of their respective interests in the investment asset.

Same

(5) The indebtedness mentioned in subsection (4) is a single and separate debt obligation owed by the specified consumer and may be enforced independently from any other payment obligation or indebtedness owing by the specified consumer under the invoice or otherwise. [NOTE: ENFORCEMENT WILL BE LIMITED UNDER THE ACT, SO THAT INVESTMENT ASSET OWNERS CAN'T SERVE NOTICES ON RATEPAYERS DIRECTLY, OTHER THAN THROUGH A SPECIFIED AGENT AND PROCESS – SEE BELOW]

Irrevocability of clean energy adjustment

10x. (1) Any clean energy adjustment shown on an invoice issued to a specified consumer under this Act is determinative of the amount of indebtedness created by the adjustment and is irrevocable upon invoicing the consumer and may not be set off or by passed.

Exception

(2) Subsection (1) does not apply to the extent that there is an error in calculations made by the electricity vendor.

Determination of clean energy adjustment

11x. (1) The Ontario Energy Board shall apply the method set out in Schedule 1 to determine the amount of the clean energy adjustment payable on a monthly basis by each electricity vendor on behalf of the electricity vendor's specified consumers. . [NOTE: THE AMOUNTS WILL BE CALCULATED AS FOLLOWS: (1) FSM (FOR ALL IAOs) WILL INFORM OEB OF PERIOD FINANCE AMOUNTS FOR THE REFERENCE PERIOD (IE ESTIMATE OF FAs PLUS PAST TRUE UP ALLOCATION) (2) OEB WILL ATTRIBUTE THAT AGGREGATE AMOUNT

Confidential Draft

BASED ON RPP-LIKE RATE DETERMINATION FOR CUSTOMERS OF THE RELEVANT CLASSES (3) OEB WILL TELL EVs THE RATES APPLICABLE TO THEIR CUSTOMERS, SO THAT THE FULL AMOUNT IN (1) IS RECOVERED (BASED ON EXPECTED COLLECTION RATES AND NONE PAYMENTS)]

True up amount

(2) The Ontario Energy Board may adjust the amount determined under Schedule 1 from time to time to address the any difference between the amount of the clean energy adjustment payable in respect of the reference period and the amount of the clean energy adjustment collected as of the date of the determination. [NOTE: THIS IS ONLY A PARTIAL DESCRIPTION OF THE TRUE UP. SEE EARLIER DRAFTING INSTRUCTION FOR SUGGESTED APPROACH – I.E., DESCRIBE BROADLY THE NATURE OF THE CALCULATION AND THEN SPECIFY THE CALCULATION IN A DETAILED CALCULATION TO BE INCLUDED IN A REGULATION]

Same, regulations

(3) The Lieutenant Governor in Council may make regulations governing the calculation under subsection (2) and how the amount is to be applied to the clean energy adjustment.

Communication to electricity vendors

(4) The Ontario Energy Board shall communicate to each electricity vendor information relating to the clean energy adjustment to be allocated by the electricity vendor to each specified consumer in respect of a reference period. [NOTE: WE ARE NOT SURE THERE IS A ROLE FOR IESO. WE THOUGHT THE PERIOD FINANCE AMOUNTS WOULD BE FORWARED BY FSM TO OEB DIRECTLY]

IESO to invoice electricity vendors

12x. (2) The IESO shall issue an invoice to each electricity vendor for the clean energy adjustments in accordance with the regulations.

IESO to collect

(3) The IESO shall, as an agent of the investment asset owner, make reasonably diligent efforts to collect clean energy adjustments from electricity vendors.

Collection account

(3.1) The IESO shall establish an account in which to record its collection of the following:

1. Amounts remitted from accounts established under section 31.

2. Payments made by specified consumers directly to the IESO as electricity vendor, in respect of clean energy adjustments.

Confidential Draft

Deposit

(4) The IESO shall promptly deposit all amounts received in respect of clean energy adjustments into the account established under subsection (3.1). [NOTE: CONSIDER FEASIBILITY OF DAILY SEGREGATION/ REMITTANCES]

Same, held in trust

(2) The amounts collected are deemed to be held in trust for the investment asset owner.

IESO to remit

(5) The IESO shall remit amounts received in respect of clean energy adjustments to or for the benefit of the regulatory asset owner in accordance with the regulations.

Electricity vendor to apply rate

13x. (1) Each electricity vendor shall [in accordance with the regulations?] determine the proportionate share of clean energy adjustments payable on a monthly basis by each of its specified consumers.

Electricity vendor to invoice specified consumers

(2) The electricity vendor shall issue an invoice to each specified consumer for the applicable amount of clean energy adjustments in accordance with the regulations.

Electricity vendor to collect

(3) Each electricity vendor shall, as an agent of the IESO, make reasonably diligent efforts to collect clean energy adjustments from specified consumers.

Pro rating of payments

14x. (1) This section applies if,

(a) an electricity vendor receives a payment made by or on behalf of a specified consumer in respect of amounts payable under one or more invoices; and

(b) the amount paid is less than the total amount payable.

Same

(2) The electricity vendor shall allocate the payment on a pro rata basis to the clean energy adjustment and other amounts payable under the relevant invoices.

Deposit

(3) The electricity vendor shall deposit the portion of the payment allocated to clean energy adjustments into the account established under X.

Confidential Draft

Electricity vendor, account

15x. (1) Each electricity vendor shall establish and maintain an account into which the electricity vendor deposits or receives only the following:

1. Payments by specified consumers in respect of clean energy adjustments.

2. Portions of payments by specified consumers that are allocated to clean energy adjustments under subsection 30 (2).

3. Any proceeds arising from the exercise and enforcement of any rights and interests under or in respect of the investment asset.

Held in trust

(2) The amounts required to be deposited or received into the account are deemed to be held in trust for the investment asset owner.

Remittance to IESO

(5) The electricity vendor shall remit amounts received in respect of clean energy adjustments to the IESO for the benefit of the investment asset owner in accordance with the regulations.

Payment re regulatory asset

(x) If the total clean energy adjustment payable by specified consumers in respect of a reference period is less than the amount contemplated to be payable under the applicable Fair Allocation Plan, the difference is payable to the IESO by the specified consumers.

[NOTE: REQUIRES FURTHER CONSIDERATION.]

PART IV
FAIR ALLOCATION PLAN AND FINANCING PLAN

Fair Allocation Plan

Minister to prepare plan

8. (1) In order to fairly measure and allocate amounts described in section 8.0.1 as of a specified day among specified consumers for the purposes of this Act, the Minister shall prepare and provide to the Lieutenant Governor in Council a written plan entitled the Fair Allocation Plan to take effect on the specified day.

Amendments to the plan

(2) Subject to the approval of the Lieutenant Governor in Council, the Minister may amend the Fair Allocation Plan from time to time, as the Minister considers appropriate, having regard to the requirements of this Act.

Confidential Draft

Effective date

(3) The Fair Allocation Plan or an amendment to the plan takes effect on the day that the plan or the amendment, as the case may be, is approved by the Lieutenant Governor in Council.

Publication

(4) The Minister shall ensure that the Fair Allocation Plan and any amendments to the plan are made available to the public in a manner that the Minister considers appropriate.

Amounts to be allocated

8.0.1 The amounts referred to in subsection 8 (1) are, in relation to a specified day,

[NOTE: THE IDEA IS THAT THE EXPECTED FUTURE GREEN COSTS WILL BE INCLUDED AS COSTS, AND RATHER THAN AMORTIZING THEM BASED ON THE TERMS OF THE POWER CONTRACTS, THE COSTS WILL BE AMORTIZED AND PASSED THROUGH BASED ON A MORE ACCURATE AMORTIZATION SCHEDULE TIED MORE TO THE COSTS AND BENEFITS OF THE GREEN PLAN OVER THE NEXT 30 YEARS. IN ADDITION, TO THE EXTENT THAT THERE HAVE BEEN OVER-CHARGES (BASED ON THE SHORT AMORTIZATION OF GREEN COSTS) SINCE 2005, THOSE OVERAGES WILL BE ADDED TO THE AMOUNT OF THE FAP COSTS TO BE AMORTIZED OVER THE FUTURE – I.E., THE FUTURE GENERATIONS WOULD HAVE BENEFITED FROM AN ARTIFICALLY LOW SHARE OF THE COSTS SINCE THE RATEPAYERS FOR 2005 – 2017 PAID TOO MUCH, SO WE SHOULD BE ABLE TO ADD THOSE TO THE FUTURE GROUPS AND RECOGNIZE A FAIR ADJUSTMENT FOR CURRENT RATEPAYERS]

(a) the costs incurred by the IESO before that day or expected to be incurred by the IESO on or after that day in relation to,

(i) payments made or expected to be made under section 78.1 of the *Ontario Energy Board Act, 1998*, other than payments made under contracts with Bruce Power L.P or Bruce Power A. L.P. or their successors or assigns, and

(ii) payments made or expected to be made under section 78.5 of the *Ontario Energy Board Act, 1998*; and

(b) such other costs, benefits or amounts as may be prescribed, in respect of the clean energy initiative, made or received before that day or expected to be incurred on or after that day. (“French”)

C.C.Draft

Principles

8.1 In preparing the Fair Allocation Plan or any amendments to the plan, the Minister shall have regard to the following principles:

1. The amounts should not be allocated in respect of any period of time after April 30, 2047.

1.1 At no time should the Fair Allocation Plan impair any investment asset, outstanding funding obligation or clean energy adjustment.

2. The share of the amounts allocated to specified consumers who receive an invoice in respect of a reference period should be proportionate to a reasonable assessment of the benefits derived by those consumers during that reference period.

3. The specified consumers to whom an invoice is issued during a reference period should not bear an unreasonably disproportionate share of the amounts allocated.

4. Adjustments should be made over time if the Minister is of the opinion that specified consumers have paid more than is reasonably proportionate.

5. Allocation of amounts should be determined for each reference period.

6. A reasonable estimate of the rate of inflation should be applied [in accordance with the regulations?].

Compliance

8.2 The IESO and the Financial Services Manager shall not, at any time, exceed the limits set out in the applicable Fair Allocation Plan.

[NOTE: THIS IS TOO STRONG. THE IDEA IS THAT IESO'S RIGHT OF RECOVERY WILL BE LIMITED IN A REFERENCE PERIOD BY THE FAP AMOUNT FOR THE PERIOD, MINUS THE FINANCE AMOUNTS FOR THE PERIOD. IN THIS WAY, THE IESO WILL BE ENTITLED TO PASS-THROUGH RECOVERIES IN A WAY THAT AFFECTS THE HYDRO BILLS OF EACH REFERENCE PERIOD RATEPAYERS IN A WAY THAT TRACKS THE FAP. SIMILARLY, IF IESO HAS TRANSFERRED ITS RECOVERY RIGHTS TO A IAO, THEN THE RELATED CEAs FOR THAT IAO WILL BE INSIDE THE FAP – AGAIN, SO THAT THE RATEPAYERS OF THAT PERIOD DO NOT BEAR A DISPROPORTIONATE BURDEN FOR THOSE COSTS. THESE CONCEPTS ARE REFLECTED IN THE MECHANICS DEALING WITH IESO RECOVERIES AND PASSING THROUGH CEAs, AND SO THIS SECTION CAN PROBABLY BE REMOVED]

fidential Draft

FINANCING PLAN

Financial Services Manager to prepare plan

11. (1) The Financial Services Manager shall prepare and provide to the Minister a plan entitled the Financing Plan for the purpose of ensuring that decisions made under this Act are cost-effective and consistent with the Fair Allocation Plan.

Amendments to approved plan

(2) The financial services manager may propose amendments to the Financing Plan at any time.

[NOTE: THE FINANCING PLAN IS SUPPOSED TO BE FLEXIBLE, UNLIKE THE FAP. FORMAL AMENDMENTS WOULD MAKE THIS TOO RIGID. THE FSM SHOULD KEEP RECORDS OF THE FP OVERTIME, SO THAT FUNDING DECISIONS CAN BE DETERMINED BASED ON THE PRINCIPLES AND THERE IS A MEASURE OF ACCOUNTABILITY FOR THE FSM, INSOFAR AS THE RECORD-KEEPING WILL ALLOW THE MINISTER TO DO A PERIODIC CHECK TO MAKE SURE THAT FUNDING OBLIGATIONS WERE INCURRED IN MATERIAL CONFORMITY WITH THE FSM'S EVOLVING FP. THE CONCEPT OF THE FP IS TO CREATE DISCIPLINE, THOUGHFULNESS AND SOME MEASURE OF ACCOUNTABILITY FOR FSM IN MAKING FINDING DECISIONS.]

Compliance with Plan

11.1 The Financial Services Manager shall comply with the Financing Plan.

[NOTE: PROBABLY TOO RIGID A STATEMENT – SEE ABOVE. ALSO, OPG SEEMS TO HAVE ACCOUNTING ISSUES WITH THIS SORT OF MANDATORY DIRECTION – NEED TO CONFIRM]

Contents of plan

12. (1) The Financing Plan shall be prepared in accordance with the regulations and shall include such matters as may be prescribed, which may include the following:

1. A description of one or more transfers that may be made in respect of the regulatory asset established under Part **.

2. A description of the basis upon which funding obligations may be incurred in a manner that is consistent with the applicable Fair Allocation Plan.

3. A description of the funding obligations mentioned in paragraph 2, which may include the following:

    i. Indebtedness.

Confidential – Draft

ii. Payment obligations arising under or in respect of derivatives.

iii. Payment obligations owing to service providers, administrative agents, finance entity intermediaries, capital markets intermediaries, advisors, lenders, credit enhancement providers, liquidity providers, disbursement counterparties, regulatory agencies and rating agencies.

iv. Refinancing an existing funding obligation by applying the net proceeds obtained by incurring other funding obligations.

[NOTE: PRINCIPLES AND PARAMETERS ARE UNDER CONSIDERATION AND WILL BE INCLUDED IN THE REGULATION.]

Limitation

(1.1) The Financing Plan shall not provide for the payment of the clean energy adjustment by specified consumers before May 1, 2022. [NOTE: WOULD PREFER TO SAY (1) NO CEAs IN THE FIRST 5 YEARS UNTIL, FOR A YEAR, THE LGIC CONFIRMS THAT THERE WILL NOT BE A FAIR ADJUSTMENT FOR THAT YEAR. SEE MECHANICS, ABOVE.]

Special purpose financing entities

(2) If the Financial Services Manager is a prescribed entity, the Financing Plan may, in accordance with the regulations, provide for the establishment by that entity of one or more special purpose financing entities that may incur funding obligations.

[Note: I understand that OPG doesn't need authority to establish a SPV beyond existing OPG authority under the EA, but do you still want something like subs. (2) for an entity other than OPG? It almost makes it look like OPG is not authorized to do so, since the provision singles out prescribed entities. Need to consider further]

[NOTE: THIS CONCEPT SHOULD BE MOVED TO THE REGULATION]

Limit on liquidation, etc. of [special purpose funding entities]

(3) The Financing Plan shall not provide for a [special purpose funding entity] tbe be liquidated, dissolved or voluntarily wound-up until at least one year after all of the funding obligations the entity has incurred have been satisfied. [NOTE: MOVE TO THE REGULATION]

Prohibition

(3) The Financing Plan shall not provide for funding obligations to be incurred with any recourse to any assets of the electricity vendors, the IESO, the Ontario Energy Board, the Province or the Lieutenant Governor in Council, except to the extent that any of these persons or entities may be liable to perform obligations or duties arising under this Act or under the express terms of a funding obligation.

Confidential – Draft for discussion purposes only

Funding obligations unaffected by amendment to Fair Allocation Plan

(4) No change to a funding obligation shall result from an amendment to the Fair Allocation Plan that is made after the funding obligation has been incurred.

[Note: Consider Article 8 (9) entitled "incurrences are binding" -- I believe we have already stated in the Part dealing with the regulatory asset that the rights are enforceable etc. even if charges have been imposed in a manner that does not follow the Financing Plan. Is more drafting required?]

PART V
THE REGULATORY ASSET [AND INVESTMENT ASSET]

Regulatory asset established

22. (1) The IESO has property rights and interests, which together constitute a regulatory asset, in the recovery of the IESO funding shortfall.

[Note to draft - Is it sufficient to say "*property rights and interests in the recovery of the IESO funding shortfall"?* Does that convey the right to enforce other parties' obligations that would allow for the shortfall to be recovered by the IESO?]

Limitation

(1.1) The right to recover the IESO funding shortfall under subsection (1) is subject to the following limits:

1. The amount recovered in respect of a reference period may not exceed the amount by which the [fair allocation] in respect of a reference period exceeds the amount of the clean energy adjustment for the reference period. [NOTE: CONSIDER IF THIS SHOULD BE A MAXIMUM OR A MANDATORY FLOW-THROUGH. IF THE IESO RECOVERIES PLUS CEAs FOR A PERIOD ARE LESS THAN THE FAIR ALLOCATION FOR A PERIOD, THEN THE RATEPAYERS OF THE PERIOD WILL BENEFIT FROM A LESSER SHARE OF THE COSTS THAN WOULD BE INDICATED BY THE FAP]
2. No part of the funding shortfall shall be recovered before May 1, 2022. [NOTE: TOO RIGID. SEE CONCEPT OF FAIR ADJUSTMENT, ABOVE]

Same

(2) The establishment of the regulatory asset is not affected by any failure to impose, attribute, invoice, accrue or collect the clean energy adjustment.

Recording of IESO funding shortfall in books

22.1 (1) Subject to the approval by order of the Ontario Energy Board, the IESO shall record the IESO funding shortfall from time to time in its books. [NOTE: THIS SHOULD ALSO INCLUDE ADJUSTMENTS WHEN THERE IS A TRANSFER OR RECOVERY – I.E., THE REGULATORY ASSET AMOUNT RECORDED SHOULD BE REDUCED]

Confidential Draft

Order

(2) The Ontario Energy Board may, in accordance with the regulations, by order specify how the IESO funding shortfall must be recorded.

Recording in books determinative

(3) A recording in its books is determinative of the amount of IESO funding shortfall at the time of the recording.

IESO funding shortfall

22.2 (1) The IESO shall determine the IESO funding shortfall for each month in a reference period by calculating the difference between the following amounts:

1. The sum of all invoice amounts issued to specified consumers for the month.

2. The sum of all invoice amounts that would have been issued to specified consumers for the month if paragraphs 1 and 2 of section 7.2 did not apply.

[Note: Should the value of any consideration received as part of a transfer be reflected in this section?]

Same

(2) The determination under subsection (1) shall be made based on the amount of electricity actually used by specified consumers during the reference period.

[NOTE: FUNDING SHORTFALL DESCRIPTION MAY ALSO RELFECT ADJUSTMENT BASED ON ESTIMATE TO ACTUAL FROM EARLIER MONTH]

Transfer of regulatory asset

23. (1) The IESO may transfer the regulatory asset in accordance with the Financing Plan.

Consideration

(2) The IESO may receive consideration for the transfer of the regulatory asset, subject to the following rules:

1. The prospective owner of the investment asset to be acquired through the transfer shall pay to the IESO an amount equal to all or part of the IESO funding shortfall. [NOTE: INVESTMENT ASSET TO BE BASED ON FACE VALUE SO THAT THE IESO RECOVERY IS DOLLAR-FOR-DOLLAR. THIS MEANS THAT ACCRUALS WILL BE NEEDED FOR INITIAL PERIOD, RATHER THAN THE TRUST BUYING INVESTMENT INTERESTS AT A DISCOUNT AND HOLDING BACK ISSUE PROCEEDS TO FUND THOSE AMOUNTS.]

Confidential Draft

2. Upon receipt of the payment, the IESO shall record the payment as a reduction of the AGGREGATE IESO funding shortfall in its books.

3. Upon receipt of the payment, the IESO shall have no continuing right or interest in, or maintain any right to recover all or any part of the transferred regulatory asset.

Investment asset

Regulatory asset deemed to be investment asset upon transfer

23.1 Upon transfer of the regulatory asset or a portion of the regulatory asset, the regulatory asset or portion is deemed to be an investment asset and is vested in the investment asset owner.

[NOTE: DEEMING LANGUAGE TO ADDRESS TRANSFER AND CONVEYANCE IS UNDER CONSIDERATION.]

[NOTE: THE ASSET TRANSFERRED BY IESO WILL BE A RIGHT OF RECOVERY, BY REFERENCE TO CEAs. THE ASSET ACQUIRED WILL BE AN "INVESTMENT INTEREST", BEING A SHARE (THE TERMS AND ENTITLEMENTS OF WHICH WILL BE DETERMINED UNDER A COLLECTIVE RIGHTS AGREEMENT) OF THE RIGHTS AND RELATED PROCEEDS FROM THE RIGHT TO BILL, ETC., CEAs. THE SUM OF ALL INVESTMENT INTERESTS WILL BE THE "INVESTMENT ASSET".]

Same

(2) An investment asset constitutes a current and irrevocable property right and interest consisting, collectively, of the following rights and interests without duplication:

1. The right to impose, bill, invoice, collect and receive the clean energy adjustment from specified consumers, including the right to determine the amount of the clean energy adjustment in accordance with this Act.

2. The right to receive and collect all amounts in respect of the clean energy adjustment that are imposed, billed and invoiced under this Act, including any amounts that all amounts in respect of the clean energy adjustment that are held by electricity vendors or other prescribed parties.

3. All rights and entitlements under such accounts as may be prescribed by regulation and all amounts on deposit in such accounts.

4. The right to enforce the duties and obligations under this Act of each electricity vendor to impose, attribute, charge, bill and invoice the clean energy adjustment.

Confidential Draft

5. The right to enforce the duties and obligations under this Act of each electricity vendor to collect, receive and remit amounts received by it in respect of the clean energy adjustment, including all collections and the proceeds of any enforcement action undertaken by an electricity vendor to recover payment of the clean energy adjustment.

6. All rights of any kind (whether in tort, contract or otherwise) that attach or are attendant or incidental to any of the other property rights or interests that comprise the regulatory asset owner's regulatory asset.

7. All revenue, collections, claims, payments, money and proceeds of or derived from the rights described in paragraphs 1 to 6, regardless of whether such revenue, collections, claims, payments and proceeds are imposed, invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

Same

(3) An investment asset is not affected by failure to impose, attribute, invoice, accrue or collect the clean energy adjustment.

No set off, etc.

(4) The investment asset shall not be set off or reduced by any person in any circumstance, including,

(a) by a consumer, an electricity vendor, the IESO, an agent of the investment asset owner or an owner of distribution system assets in the Province; [NOTE: IF THE MECHANICS FOR CASH FLOWS ADOPT THE PRE-EXISTING METHODS AND TERMS AMONG IESO, LDCs AND RATEPAYERS, THIS PROVISION WILL NEED TO RECOGNIZE THAT THOSE TERMS WILL PREVAIL AND NOT BE AFFECTED BY THE NEUTERING OF SET-OFF, ETC.]

(b) in connection with any default, bankruptcy, reorganization or other insolvency proceeding of a person mentioned in clause (a); [NOTE: CONSIDER IN CONTEXT OF FEDERAL BANKRUPTCY POWERS]

(c) by any affiliate or successor of a person mentioned in clause (a).

Transfer of investment asset

24. The investment asset owner may transfer all or a portion of its rights and interests in an investment asset to any other investment asset owner, including by way of a transfer of a divided or an undivided interest, in accordance with the Financing Plan.

Confidential Draft

Validity of transfer

25. (1) A transfer of a regulatory asset or an investment asset under this Act that is expressed to be a sale or an absolute assignment is a valid and enforceable sale and absolute assignment of the regulatory asset or investment asset, as the case may be, and confers upon the owner of the investment asset acquired a valid property right and interest in, to and under the applicable investment asset in accordance with the terms of the transfer.

Same

(2) Without limiting subsection (1), any transfer that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as an absolute transfer of IESO's right to recover the IESO funding shortfall or an investment asset owner's right, title and interest in, to and under an investment asset, as applicable (or relevant portion thereof), and not merely as a pledge thereof, and upon such absolute transfer the transferor shall retain no right, title or interest in regulatory asset or the investment asset (or relevant portion thereof) subject to the transfer, including all rights to recover the IESO funding shortfall or the investment asset arising after such transfer. [NOTE: ADDRESSES POSSIBLE RECHARACTERIZATION CONSIDERATIONS. MARKET WILL EXPECT TO SEE THIS GIVEN SECURITIZATION CONCEPTS IN PLAY.]

Deemed perfection, etc.

(3) At the time a transfer of a regulatory asset or an investment asset is made, the transfer shall be deemed to have been and shall be perfected, vested, valid and binding as against the transferor and all other persons who have claims of any kind against the transferor.

Priority of transfer, assignment, etc.

(4) Subsection (3) applies regardless of whether the persons who have claims have received notice of the transfer and the property rights and interests acquired by the owner of the investment asset shall have priority over any liens in favour of such other persons.

Administration of investment asset

26. (1) The Financial Services Manager shall administer an investment asset on behalf of the owner of the investment asset. [NOTE: TO BE ELABORATED]

Review of costs

(2) The Ontario Energy Board shall review the administrative costs of the Financial Services Manager. [NOTE: TO BE ELABORATED]

Confidential Draft

Investment asset owner may grant pledge

27. (1) The owner of an investment asset may grant a pledge to or in favour of a person in, to and over all or a specified portion of its right, title and interest in, to and under the investment asset in connection with any funding obligation.

Types of pledge

(2) A pledge may be a lien, mortgage, charge, right of set-off or security interest.

Validity

(3) The pledge may be made to secure a funding obligation and when granted shall be valid and enforceable in accordance with its terms and shall be effective to confer upon the person to whom the pledge is granted a valid security interest in, to and in respect of the investment asset in accordance with the terms of the pledge.

[Note: Additional content relating to the PPSA has not yet been addressed in any detail. Please review all subsections that contain the (x) below and advise what is needed. Some of this content was already covered by some of the numbered subsections in this draft.]

Perfection and priority of pledges

(x) For purposes of the *Personal Property Security Act*, the regulatory asset shall be intangible personal property and any pledge made by the owner of an investment asset in respect of a funding obligation shall, subject to the terms of the funding obligation, give rise to a security interest in respect of which that Act applies and may be perfected by filing a financing statement under that Act on that basis.

Same

(x) All provisions of the *Personal Property Security Act* shall apply to the regulatory asset on the basis that it is intangible personal property, except to the extent otherwise provided in this section.

Same

(x) All proceeds of a related [Investment Interest?] that are subject to the pledge that are received by the owner of the investment asset shall immediately be subject to the pledge, and the security interest in the proceeds shall be perfected pursuant to the *Personal Property Security Act.*

Same

(x) A pledge perfected under the *Personal Property Security Act* shall be a continuously perfected security interest and shall have priority over any other lien or security interest, created by operation of law or otherwise, that may attach to the property rights and interests in the [Investment Interest?] subject to the pledge unless the pledgee has otherwise agreed in writing.

Confidential Draft

Same

(x) A pledgee shall have a perfected security interest in a related investment interest, including the owner of the investment asset's rights and interests in and to [the clean energy adjustment?] or other related proceeds in respect of the investment interest and that are deposited in any [which account?] or other account of any [Electricity Distributor, IESO, Alternative Servicer or other person who may have commingled such Transition Charge Collections or such other proceeds with other funds].

Proceeds

(8) All proceeds of the investment asset that are subject to the pledge and that are received by the investment asset owner shall immediately be subject to the pledge and shall be perfected without any physical delivery of the proceeds, registration of any financing statement or any further act.

Perfection

(9) The pledge shall be a continuously perfected security interest and shall have priority over any other lien, created by operation of law or otherwise, that may subsequently attach to the property rights and interests in the investment asset subject to the Pledge, subject to the written consent of the person to whom the pledge has been granted.

Same

(10) The person to whom the pledge has been granted shall have a perfected security interest in revenues or other proceeds that are deposited in any [investment asset account] or other account of any electricity vendor, the IESO, an agent of an electricity vendor or the IESO or other person who may have commingled such revenues or other proceeds with other funds.

Collective action required

28. If the investment asset owner owns a right or interest in the investment asset that comprises less than the entire property right and interest constituted by the investment asset, the right or interest shall only be enforced by the investment asset owner collectively and in coordination with all other investment asset owners, and any agreement among that collective in furtherance of the collective action shall be valid and binding on the investment asset owner as a collective in accordance with its terms. [Note: It seems that successors may need to be addressed here. Also Pledgees have not yet been addressed in this draft.]

Exercise of rights

29. The rights of the investment asset owner to collect and enforce its rights and interests in, to and in respect of the investment asset shall be exercised in accordance with section [xx].

Confidential Draft

PART VI
MISCELLANEOUS

Appointment of agent, invoicing or collection

34. If a prescribed circumstance applies, the Lieutenant Governor in Council may by regulation appoint a person to carry out some or all of the obligations of an electricity vendor under this Act in the place of an electricity vendor with respect to invoicing or collection.

Not Crown agent

35.1 For greater certainty, no agent appointed under this Act is an agent of the Crown for any purpose, despite the *Crown Agency Act*.

Sequestration

35.2 [Note: Still to be drafted:
If any Electricity Distributor, IESO, Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or entity authorized to collect clean energy adjustments, defaults on any required remittance of Clean energy adjustment Collections, Electricity Distribution Remittances or IESO Remittances under Article 5, any court in the Province, upon application by a Regulatory Asset Owner or Pledgee and without limiting any other remedies available to the applying party, shall order the sequestration and payment of the Clean energy adjustment Collections, Electricity Distribution Remittances and IESO Remittances, as applicable, for the benefit of the Regulatory Asset Owner or Pledgee.] [Such order shall remain in full force and effect notwithstanding any bankruptcy, reorganization, or other insolvency proceedings with respect to any Electricity Distributor, IESO, Alternative Collection Agent or any owner of distribution system assets in the Province or other person or entity authorized to collect Clean energy adjustments, as applicable.]

Successors

37. [Note: Articles 4 (6) and (7) and Articles 5 (7) and (8) are rules about successors to distributors and the IESO being bound by specific requirements. Still to be drafted.]

Choice of law

37.1 The law governing, as applicable, the validity, enforceability, attachment, perfection, priority and exercise of remedies with respect to the transfer of an interest or right or creation of a security interest in the regulatory asset, the clean energy adjustment or the undertaking of the Crown under section x shall be the laws of the Province.

Conflict

38. The provisions of this Act [and the regulations?] apply despite any provision of any other Act regarding the attachment, assignment or perfection, or the effect of perfection or priority of any transfer or PLEDGE,

Confidential – Draft for discussion purposes only

No further approvals, etc.

39. Despite any requirement under any Act, no approvals, notices or authorizations other than those specified in this Act are required with respect to the actions to be taken in compliance with this Act, including actions to be taken under the Financing Plan or in relation to the establishment of the Fair Allocation Plan.

Immunity

97x. (1) No action or other proceeding for damages shall be instituted against any employee of the Province, IESO, OPG or OEB for any act done in good faith in the execution or intended execution of any duty or authority under this Act or for any alleged neglect or default in the execution in good faith of any duty or authority under this Act.

Same

(2) Despite subsections 5 (2) and (4) of the *Proceedings Against the Crown Act*, subsection (1) does not relieve the Crown of liability in respect of a tort committed by a person mentioned in subsection (1) to which it would otherwise be subject.

References in marketing materials and offering documents

98x. No person shall include, in marketing materials or offering documents relating to the financing of funding obligations, references to any rights, obligations, guarantees or undertakings arising under this section unless the prescribed requirements, if any, are satisfied.

Non-application, Financial Administration Act, s. 28[7]

99x. Section 28 of the *Financial Administration Act* does not apply with respect to any transaction or agreement or undertaking required, permitted, contemplated or authorized, directly or indirectly, under this Act.

Regulations

100x. The Lieutenant Governor in Council may make regulations,

(b) governing the inclusion of adjustments under this Act on invoices, which may include requiring notice to be provided by electricity vendors to specified persons regarding the adjustments.

[Note: reg-making powers to be dealt with in subsequent draft]

Confidential Draft

[7] FLS - see s. 51 of the Electricity Act, 1998

PART VII[8]
AMENDMENTS TO OTHER ACTS

ELECTRICITY ACT, 1998

200x. (1) Subsection 6 (1) of the *Electricity Act, 1998* would be amended by adding the following clauses:

(q.1) to enter into agreements or arrangements with [any special purpose financing entities established under (name of new Fair Hydro Act?)];

(q.2) to engage in activities related to making payments to and receiving payments from [any special purpose financing entities established under (name of new Fair Hydro Act?)], as required under that Act, and to engage in related settlement activities;

(q.3) to engage in activities related to the transfer of the regulatory asset created under [(name of new Fair Hydro Act?)], which activities may include,

(i) incurring liabilities in relation to the regulatory asset

(ii) transferring the regulatory asset to [any special purpose financing entities established under (name of new Fair Hydro Act?)];

(iii) transferring the regulatory asset to third parties;

(q.4) acting as a recovery agent under the [(name of new Fair Hydro Act?)];

201x. Subsection 53.1 (1) of the Act would be repealed and the following substituted:

Objects of Ontario Power Generation Inc.

53.1 (1) The objects of Ontario Power Generation Inc. include, in addition to any other objects, the following:

1. Owning and operating generation facilities.
2. Establishing, operating and supervising the activities of [any special purpose financing entities established under (name of new Fair Hydro Act?)].

[8] FLS: These amendments are drawn from previous drafting contained in gov2016.146.e05 (which was drafted as amendments to the EA, 1998).

Confidential Draft

3. Providing financial and other support to the IESO in its activities under the [name of new Fair Hydro Act?].

4. Engaging in such financing, borrowing, lending and related activities and transactions to support the IESO with short-term or long-term financing.

5. Providing equity, not exceeding the prescribed amount, to support the financing capacity [any special purpose financing entities established under (name of new Fair Hydro Act?)].

[Note: Still to draft:
-for the new Fair Hydro Bill: *if OPG is the Financial Services Manager, it shall be required to provide an accounting of the amounts it charges the trust for the financing entity to the OEB 60 days in advance of the commencement of the fiscal year for the OPG trust/special purpose vehicle*]

Subsidiaries

(1.1) Ontario Power Generation Inc. may create one or more subsidiaries in order to more efficiently conduct its activities or achieve its objects.

202x. Section 89 of the Act would be amended by adding the following subsection:

Exception

(4) The requirement in subsection (1) to pay an amount to the Financial Corporation does not apply in respect of amounts payable to Ontario Power Generation Inc. or a subsidiary of Ontario Power Generation Inc. as a result of its functions as the Financial Services Manager under [new Act].

203x. Section 90 of the Act would be amended by adding the following subsection:

Exception

(4) The requirement in subsection (1) to pay an amount to the Financial Corporation does not apply in respect of amounts payable to Ontario Power Generation Inc. or a subsidiary of Ontario Power Generation Inc. as a result of its functions as the Financial Services Manager under [new Act].

[Note: Drafting still to be added to the EA consequential amendments: ***All fees charged by OPG as the FSM shall be approved by the OEB before they are included in the calculation of clean energy adjustments.]***

Confidential Draft

AMENDMENTS TO ONTARIO ENERGY BOARD ACT, 1998

204x. Subsection 1 (1) of the *Ontario Energy Board Act, 1998* would be amended by adding the following paragraph:

6. To facilitate the implementation of the [TBD - language should link up with language from new Act.]

205x. Section 71 of the Act would be amended by adding the following subsection

[Note - still need to draft new subs. 70 (2.1) - instructions on pp. 8-9 of Rider instructions rec'd April 14th]

Short Title - this proposal for legislation would, if approved by the Legislature, have a short title to be determined by Government.

Timing – this proposal for legislation would, if approved by the Legislature, come into force on a date to be established by Government.

Confidential Draft

SCHEDULE 1
METHOD FOR DETERMINING AMOUNT OF CLEAN ENERGY ADJUSTMENT FOR REFERENCE PERIOD

[NOTE: CEAs WILL BE DETERMINED BASED ON AN ESTIMATE OF COSTS AND REPAYMENTS FOR AN UPCOMING PERIOD, AND BE TRUED UP TO ACTUAL COSTS AND REPYAMENTS IN THE NEXT FOLLOWING PERIOD. THESE MECHANICS CAN BE SEEN IN THE SUMMARY DOCUMENT – "PERIOD FINANCE AMOUNTS" AND SECONDARY DEFINITIONS. THIS FORMULAIC APPROACH IS PREFERRED TO ESTABLISH A SUM CERTAIN OF THE DEBT REPRESENTED BY THE CEAs, ONCE BILLED. IT MAY BE USEFUL TO CREATE A DEFINITION TO ENCOMPASS ALL CEAs FOR A PERIOD, SINCE A CEA IS THE AMOUNT BILLED TO A PARTICULAR CUSTOMER]

1. The amount of the clean energy adjustment for a reference period shall be determined by calculating the sum of the following:

1. The sum of all payments made by owners of an investment asset [during the reference period?] to satisfy an obligation to repay, redeem or repurchase, or to provide for the repayment, redemption or repurchase, of all or a portion of the amount advanced to the owners under a funding obligation, excluding any payment made by applying the proceeds of a refinancing.

[Note: Para. 1 is the definition of "repayment" from the Blakes doc. However, that definition include bracketed text that says: (*including making Finance Reserve Deposits).* I don't understand this because (1) Finance Reserve Deposit is listed as a separate line item in the definition of "finance amount" (see para. 4 below). In order to avoid duplication, can we exclude "finance reserve deposits" from para. 1?]

[NOTE THAT SHOULD LIMIT CONCEPT OF RESERVE DEPOSITS AS INCURRENCES IF IT WOULD MEAN THAT THE PROCEEDS FROM A TRANSFER WOULD BE REDUCED FROM FACE VALUE WITH THE RESULT THAT IESO WOULD BE TRANSFERRING IAs AT A DISCOUNT]

2. The sum of all funding costs for the reference period, as determined under section 2 to this Schedule.

3. The sum of all amounts payable by or on behalf of owners of investment assets to redeem, prepay or repurchase a funding obligation, including any premium, make-whole or other amount becoming payable under a funding obligation to give effect to the redemption, prepayment or repurchase.

Confidential – Draft for discussion purposes only

[Note: Para. 3 is the definition of "redemption amount" from the Blakes doc.]
[Note: What is meant by "make-whole" -- need some assistance in order to translate this term accurately. Do you have any examples of bilingual legislation where this term has been used?]

4. The balance of the finance reserve at the end of the reference period, as determined under section 3 to this Schedule.

5. The sum of any other amounts payable by owners of investment assets for the reference period that were incurred or committed to directly or indirectly in connection with the incurrence of funding obligations under the Financing Plan during the reference period, which may include such amounts as may be prescribed.

[Note: Para. 5 is based on the definition of "additional funding charges".]

Funding costs

2. For the purposes of paragraph 2 of section 1 to this Schedule, the funding costs for a reference period are determined by taking the following steps:

1. Calculate the aggregate of all interest and other periodic finance charges accruing, due and becoming payable or paid by or on behalf of owners of investment assets during the reference period in respect of all funding obligations, including the following:

    i. Standby commitment fees or charges paid to any lender.

    ii. Credit enhancement fees or charges paid to any credit enhancer.

    iii. Liquidity fees or charges paid to any liquidity provider.

    iv. Payments, including termination payments, made under derivatives.

    v. Deposits made or required to fund or replenish a debt service reserve account or other account established under any indenture, ancillary agreement or other financing document relating to a funding obligation.

2. Calculate the aggregate of all amounts received by or on behalf of the owners of investment assets during the reference period in respect of a funding obligation, including reimbursement of any amounts referred to in subparagraphs 1 i to v.

[Note: Para. 2 is the definition of "finance receipts" in the Blakes doc.]

Confidential Draft

3. Subtract the amount calculated under paragraph 2 from the amount calculated under paragraph 1.

Finance reserve balance

3. (1) For the purposes of paragraph 4 of section 1 to this Schedule, the balance of the finance reserve at the end of the reference period is determined by taking the following steps:

[Note: This section is a modification of the definitions provided in the Blakes document for "Finance Reserve Deposits" and "Finance Reserve Withdrawals". The proposed definition of "FR deposit" involved a subtraction of the "FR withdrawal" so the term 'deposit' was not really descriptive of a pure deposit but rather the balance.]

1. Calculate the sum of all amounts deposited [to what account?] during the reference period in order to pre-fund, collateralize, over-collateralize or establish reserves for the ultimate payment of funding obligations or for related contingencies specified in the Financing Plan.

2. Calculate the sum of all amounts withdrawn from the account during the reference period from deposits previously made [e.g. during a previous reference period?] as described in paragraph 1.

3. Subtract the amount calculated under paragraph 2 from the amount calculated under paragraph 1.

EXCERPTS FROM THE ELECTRICITY ACT AND ONTARIO ENERGY BOARD ACT

RELATED TO CONSEQUENTIAL AMENDMENTS

Electricity Act, 1998

Purposes of *Electricity Act, 1998*

1. The purposes of this Act include the following:

(a) to ensure the adequacy, safety, sustainability and reliability of electricity supply in Ontario through responsible planning and management of electricity resources, supply and demand;

(a.1) to establish a mechanism for energy planning;

(b) to encourage electricity conservation and the efficient use of electricity in a manner consistent with the policies of the Government of Ontario;

(c) to facilitate load management in a manner consistent with the policies of the Government of Ontario;

(d) to promote the use of cleaner energy sources and technologies, including alternative energy sources and renewable energy sources, in a manner consistent with the policies of the Government of Ontario;

(e) to provide generators, retailers, market participants and consumers with non-discriminatory access to transmission and distribution systems in Ontario;

(f) to protect the interests of consumers with respect to prices and the adequacy, reliability and quality of electricity service;

(g) to promote economic efficiency and sustainability in the generation, transmission, distribution and sale of electricity;

(g.1) to facilitate the alteration of ownership structures of publicly-owned corporations that transmit, distribute or retail electricity;

(g.2) to facilitate the disposition, in whole or in part, of the Crown's interest in corporations that transmit, distribute or retail electricity, and to make the proceeds of any such disposition available to be appropriated for any Government of Ontario purpose;

(h) to ensure that Ontario Hydro's debt is repaid in a prudent manner and that the burden of debt repayment is fairly distributed;

(i) to facilitate the maintenance of a financially viable electricity industry; and

(j) to protect corridor land so that it remains available for uses that benefit the public, while recognizing the primacy of transmission uses. 2004, c. 23, Sched. A, s. 1; 2014, c. 7, Sched. 7, s. 1; 2015, c. 20, Sched. 9, s. 1; 2016, c. 10, Sched. 2, s. 1.

Objects of the IESO

6 (1) The objects of the IESO are,

(a) to exercise the powers and perform the duties assigned to it under this Act, the regulations, directions, the market rules and its licence;

(b) to enter into agreements with transmitters to give it authority to direct the operation of their transmission systems;

(c) to direct the operation and maintain the reliability of the IESO-controlled grid to promote the purposes of this Act;

(d) to participate in the development by any standards authority of criteria and standards relating to the reliability of the integrated power system;

(e) to establish and enforce criteria and standards relating to the reliability of the integrated power system;

(f) to work with the responsible authorities outside of Ontario to co-ordinate the IESO's activities with the activities of those authorities;

(g) to operate the IESO-administered markets to promote the purposes of this Act;

(h) to engage in activities related to contracting for the procurement of electricity supply, electricity capacity, electricity storage, transmission systems or any part of such systems and conservation resources;

(i) to engage in activities related to settlements, payments under a contract entered into under the authority of this Act and payments provided for under this Act or the *Ontario Energy Board Act, 1998*;

(j) to engage in activities in support of the goal of ensuring adequate, reliable and secure electricity supply and resources in Ontario;

(k) to forecast electricity demand and the adequacy and reliability of electricity resources for Ontario for the short term, medium term and long term;

(l) to conduct independent planning for electricity generation, demand management, conservation and transmission;

(m) to engage in activities to facilitate the diversification of sources of electricity supply by promoting the use of cleaner energy sources and technologies, including alternative energy sources and renewable energy sources;

(n) to engage in activities in support of system-wide goals for the amount of electricity to be produced from different energy sources;

(o) to engage in activities that facilitate load management;

(p) to engage in activities that promote electricity conservation and the efficient use of electricity;

(q) to assist the Board by facilitating stability in rates for certain types of consumers;

(r) to collect and make public information relating to the short term, medium term and long term electricity needs of Ontario and the adequacy and reliability of the integrated power system to meet those needs; and

(s) to engage in such other objects as may be prescribed by the regulations. 2014, c. 7, Sched. 7, s. 3 (1); 2016, c. 10, Sched. 2, s. 3.

Objects of Ontario Power Generation Inc.

53.1 (1) The objects of Ontario Power Generation Inc. include, in addition to any other objects, owning and operating generation facilities. 2002, c. 1, Sched. A, s. 11.

Status

(2) Ontario Power Generation Inc. and its subsidiaries are not agents of Her Majesty for any purpose, despite the *Crown Agency Act*. 2002, c. 1, Sched. A, s. 11.

Rights of the Minister

53.2 The Minister, on behalf of Her Majesty in right of Ontario, may acquire and hold shares of Ontario Power Generation Inc. 2002, c. 1, Sched. A, s. 11.

Corporations to hold shares

53.3 (1) The Lieutenant Governor in Council may cause corporations to be incorporated under the *Business Corporations Act* for the purpose of acquiring and holding shares in Ontario Power Generation Inc. 2002, c. 1, Sched. A, s. 11.

Same

(2) Shares in a corporation incorporated pursuant to subsection (1) may be acquired and held in the name of Her Majesty in right of Ontario by a member of the Executive Council designated by the Lieutenant Governor in Council. 2002, c. 1, Sched. A, s. 11.

Crown agent

(3) A corporation incorporated pursuant to subsection (1) is an agent of Her Majesty for all purposes. 2002, c. 1, Sched. A, s. 11.

Dividends paid to Crown agent

(4) If an agent of Her Majesty in right of Ontario is paid dividends in respect of shares of Ontario Power Generation Inc., the agent shall pay the dividends to the Financial Corporation, less any amount that it considers is required to pay obligations it has assumed under clause 122 (1) (a). 2002, c. 1, Sched. A, s. 11.

Reporting requirements

53.4 (1) Ontario Power Generation Inc. shall, within 90 days after the end of every fiscal year, submit to the Minister an annual report on its affairs during that fiscal year, signed by the chair of the board of directors. 2002, c. 1, Sched. A, s. 11.

Same

(2) The Minister shall submit the annual report to the Lieutenant Governor in Council and shall then table the report in the Assembly. 2002, c. 1, Sched. A, s. 11.

Same

(3) Ontario Power Generation Inc. may give its annual report to other persons before the Minister complies with subsection (2). 2002, c. 1, Sched. A, s. 11.

Additional reports and information

(4) Ontario Power Generation Inc. shall give such other reports and information to the Minister of Finance or to the Minister as each of them may require from time to time. 2002, c. 1, Sched. A, s. 11.

Residual power of the Crown

53.5 Nothing in this Part restricts the powers of Her Majesty in right of Ontario or any member of the Executive Council at common law or under any Act, whether as a shareholder or otherwise. 2002, c. 1, Sched. A, s. 11.

[. . .]

Payments in lieu of federal corporate tax

89 (1) If Hydro One Inc., a subsidiary of Hydro One Inc., Ontario Power Generation Inc. or a subsidiary of Ontario Power Generation Inc. is exempt under subsection 149 (1) of the *Income Tax Act* (Canada) from the payment of tax under that Act, it shall pay to the Financial Corporation in respect of each taxation year an amount equal to the amount of the tax that it would be liable to pay under that Act if it were a corporation to which that subsection did not apply. 1998, c. 15, Sched. A, s. 89 (1); 2002, c. 1, Sched. A, s. 15 (1); 2007, c. 7, Sched. 12, s. 2.

Corridor land

(1.1) The amount payable under subsection (1) by a person or entity from whom corridor land is transferred by section 114.2 shall be determined, for the taxation year in which the transfer occurs and for subsequent taxation years, as if the transfer did not occur. 2002, c. 1, Sched. A, s. 15 (2).

Payments to Minister of Finance

(2) After Part V is repealed under section 84.1, all payments required by this section shall be paid to the Minister of Finance, instead of to the Financial Corporation. 1998, c. 15, Sched. A, s. 89 (2); 2000, c. 42, s. 31.

Commencement of new taxation year

(3) A corporation that is required to make payments under this section shall be deemed, for the purposes of this section, to commence a new taxation year on the day this section comes into force.

Payments in lieu of provincial corporate tax

90 (1) If Hydro One Inc., a subsidiary of Hydro One Inc., Ontario Power Generation Inc. or a subsidiary of Ontario Power Generation Inc. is exempt under subsection 57 (1) of the *Corporations Tax Act* from the payment of tax under that Act for a taxation year that ends before January 1, 2009, it shall pay to the Financial Corporation in respect of each taxation year ending before that day an amount equal to the total amount of tax that it would be liable to pay under Parts II, II.1 and III of that Act for that year if it were a corporation to which that subsection did not apply. 2007, c. 7, Sched. 12, s. 3 (3).

Same

(1.0.1) If Hydro One Inc., a subsidiary of Hydro One Inc., Ontario Power Generation Inc. or a subsidiary of Ontario Power Generation Inc. is exempt under subsection 27 (2) of the *Taxation Act, 2007* from the payment of tax under that Act for a taxation year that ends after December 31, 2008, it shall pay to the Financial Corporation in respect of each taxation year ending after that day an amount equal to the total amount of tax that it would be liable to pay under Divisions B, C and E of Part III of that Act for the taxation year if it were a corporation to which that subsection did not apply. 2007, c. 7, Sched. 12, s. 3 (3).

Corridor land

(1.1) The amount payable under subsection (1) by a person or entity from whom corridor land is transferred by section 114.2 shall be determined, for the taxation year in which the transfer occurs and for subsequent taxation years, as if the transfer did not occur. 2002, c. 1, Sched. A, s. 16 (2).

Payments to Minister of Finance

(2) After Part V is repealed under section 84.1, all payments required by this section shall be paid to the Minister of Finance, instead of to the Financial Corporation. 1998, c. 15, Sched. A, s. 90 (2); 2000, c. 42, s. 32.

Commencement of new taxation year

(3) A corporation that is required to make payments under this section shall be deemed, for the purposes of this section, to commence a new taxation year on the day this section comes into force. 1998, c. 15, Sched. A, s. 90 (3).

Ontario Energy Board Act, 1998

1 (1) The Board, in carrying out its responsibilities under this or any other Act in relation to electricity, shall be guided by the following objectives:

1. To protect the interests of consumers with respect to prices and the adequacy, reliability and quality of electricity service.

1.1 To promote the education of consumers.

2. To promote economic efficiency and cost effectiveness in the generation, transmission, distribution, sale and demand management of electricity and to facilitate the maintenance of a financially viable electricity industry.

3. To promote electricity conservation and demand management in a manner consistent with the policies of the Government of Ontario, including having regard to the consumer's economic circumstances.

4. To facilitate the implementation of a smart grid in Ontario.

5. To promote the use and generation of electricity from renewable energy sources in a manner consistent with the policies of the Government of Ontario, including the timely expansion or reinforcement of transmission systems and distribution systems to accommodate the connection of renewable energy generation facilities. 2004, c. 23, Sched. B, s. 1; 2009, c. 12, Sched. D, s. 1; 2015, c. 29, s. 7.

Licence conditions

70 (1) A licence under this Part may prescribe the conditions under which a person may engage in an activity set out in section 57 and a licence may also contain such other conditions as are appropriate having regard to the objectives of the Board and the purposes of the *Electricity Act, 1998*. 1998, c. 15, Sched. B, s. 70 (1).

Approvals, etc., with or without holding hearing

(1.1) The Board may, with or without a hearing, grant an approval, consent or make a determination that may be required for any of the matters provided for in a licensee's licence. 2009, c. 12, Sched. D, s. 10.

Examples of conditions

(2) The conditions of a licence may include provisions,

(a) specifying the period of time during which the licence will be in effect;

(b) requiring the licensee to provide, in the manner and form determined by the Board, such information as the Board may require;

(c) requiring the licensee to enter into agreements with other persons on specified terms (including terms for a specified duration) approved by the Board relating to its trading or operations or for the connection to or use of any lines or plant owned or operated by the licensee or the other party to the agreement;

(d) governing the conduct of the licensee, including the conduct of,

(i) a transmitter or distributor as that conduct relates to its affiliates,

(ii) a distributor as that conduct relates to a retailer,

(ii.1) a distributor or suite meter provider as such conduct relates to,

(A) the disconnection of the supply of electricity to a consumer, including the manner in which and the time within which the disconnection takes place or is to take place, and with respect to a low-volume consumer, periods during which the disconnection may not take place,

(B) the manner, timing and form in which the notice under subsection 31 (2) of the *Electricity Act, 1998* is to be provided to the consumer, and

(C) subject to the regulations, the manner and circumstances in which security is to be provided or not to be provided by a consumer to a distributor or suite meter provider, including,

(1) the interest rate to be applied to amounts held on deposit and payable by the distributor or suite meter provider to the consumer for the amounts,

(2) the manner and time or times by which the amounts held on deposit may or must be paid or set-off against amounts otherwise due or payable by the consumer,

(3) the circumstances in which security need not be provided or in which specific arrangements in respect of security may or must be provided by the distributor or suite meter provider to the consumer, and

(4) such other matters as the Board may determine in respect of security deposits,

(iii) a retailer, and

(iv) a generator, retailer or person licensed to engage in an activity described in clause 57 (f) or an affiliate of that person as that conduct relates to the abuse or possible abuse of market power;

(d.1) governing conditions relating to any matter prescribed by regulation in respect of retailers of electricity in relation to the retailing of electricity, subject to any regulations made under this Act;

(e) specifying methods or techniques to be applied in determining the licensee's rates;

(f) requiring the licensee to maintain specified accounting records, prepare accounts according to specified principles and maintain organizational units or separate accounts for separate businesses in order to prohibit subsidies between separate businesses;

(g) specifying performance standards, targets and criteria;

(h) specifying connection or retailing obligations to enable reasonable demands for electricity to be met;

(i) specifying information reporting requirements relating to the source of electricity and emissions caused by the generation of electricity;

(j) requiring the licensee to expand or reinforce its transmission or distribution system in accordance with market rules in such a manner as the IESO or the Board may determine;

(k) requiring the licensee to enter into an agreement with the IESO that gives the IESO the authority to direct operations of the licensee's transmission system;

(l) REPEALED: 2016, c. 10, Sched. 2, s. 15.

(m) requiring licensees, where a directive has been issued under section 28.2, to implement such steps or such processes as the Board or the directive requires in order to address risks or liabilities associated with customer billing and payment cycles in respect of the cost of electricity at the retail and at the wholesale levels and risks or liabilities associated with non-payment or default by a consumer or retailer. 1998, c. 15, Sched. B, s. 70 (2); 2003, c. 3, s. 47 (1); 2004, c. 23, Sched. B, s. 11 (1-3); 2010, c. 8, s. 38 (10, 11); 2016, c. 10, Sched. 2, s. 15; 2017, c. 1, s. 2 (1).

Deemed conditions of licences, transmitters and distributors

(2.1) Every licence issued to a transmitter or distributor shall be deemed to contain the following conditions:

1. The licensee is required to provide, in accordance with such rules as may be prescribed by regulation and in the manner mandated by the market rules or by the Board, priority connection access to its transmission system or distribution system for renewable energy generation facilities that meet the requirements prescribed by regulation made under subsection 26 (1.1) of the *Electricity Act, 1998*.
2. The licensee is required to prepare plans, in the manner and at the times mandated by the Board or as prescribed by regulation and to file them with the Board for approval for,

i. the expansion or reinforcement of the licensee's transmission system or distribution system to accommodate the connection of renewable energy generation facilities, and

ii. the development and implementation of the smart grid in relation to the licensee's transmission system or distribution system.

3. The licensee is required, in accordance with a plan referred to in paragraph 2 that has been approved by the Board or in such other manner and at such other times as mandated by the Board or prescribed by regulation,

i. to expand or reinforce its transmission system or distribution system to accommodate the connection of renewable energy generation facilities, and

ii. to make investments for the development and implementation of the smart grid in relation to the licensee's transmission system or distribution system. 2009, c. 12, Sched. D, s. 10.

Deemed condition of licences, unit sub-meter provider, *Ontario Clean Energy Benefit Act, 2010*

(2.2) Every licence issued to a unit sub-meter provider is deemed to contain the condition that the unit sub-meter provider is required to comply with the *Ontario Clean Energy Benefit Act, 2010* and the regulations made under it. 2010, c. 26, Sched. 13, s. 17 (2).

Deemed condition of licences, unit sub-meter provider, *Ontario Rebate for Electricity Consumers Act, 2016*

(2.3) Every licence issued to a unit sub-meter provider is deemed to contain the condition that the unit sub-meter provider is required to comply with the *Ontario Rebate for Electricity Consumers Act, 2016* and the regulations made under it. 2016, c. 19, s. 17 (2).

TOR_2528-#23107566-v13-_Fair_Hydro_Act_.pdf

CONFIDENTIAL AND PRIVILEGED

Preliminary Draft for Discussion Purposes Only

"Fair Hydro Act"

Article 1 – Purpose

The Province has and continues to encourage the construction and development of facilities for the long-term operation and generation of electricity in the Province using sustainable, lower carbon-based technologies such as new gas-fired generation, renewable facilities, energy from waste and biomass, including under the Province's various procurement, standard offer, feed in tariff and other similar programs (the "Green Generation Initiative"). The long-term benefits of the Green Generation Initiative accrue over time and have benefited and will continue to benefit present and future electricity consumers in the Province.

The out-of-market costs of the Green Generation Initiative are currently passed through to electricity consumers by way of a monthly adjustment amount (the "Green Costs Adjustment"), which in turn forms part of the overall adjustment calculated by the Independent Electricity System Operator ("IESO") pursuant to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* (the "Global Adjustment").

The Green Costs Adjustment is currently determined each month by reference to the amounts paid by IESO to the generators of electricity in the Province under the Green Generation Initiative. These amounts paid by the IESO arise because IESO has entered into long-term procurement contracts with such generators in order to provide them with revenue certainty, and in turn to encourage the generators to develop technologies and to construct and develop facilities consistent with the Green Generation Initiative. It has been determined that the useful lives of many of the assets developed under the Green Generation Initiative will be in excess of the respective terms of their respective procurement contracts.

Since the benefits to past, present and future electricity consumers from the Green Generation Initiative will not necessarily coincide with the costs currently attributed through the Green Costs Adjustment, based on the respective terms of the applicable procurement contracts, it has been determined that the rate at which the costs associated with the Green Generation Initiative should be passed through to Regulated Consumers (as defined in Article 2) should be more closely aligned with the benefits that such Regulated Consumers have derived and are expected to derive from the Green Generation Initiative over time. This realignment will be based on general principles and parameters that establish a reasonable basis for measuring and allocating the relative costs and benefits of the Green Generation Initiative equitably across present and future Regulated Consumers (the "Fair Allocation Plan").

If the Fair Allocation Plan determines that the equitable allocation of the costs associated with the Green Generation Initiative to the Regulated Consumers of a particular time period should be reduced below the amount that currently would be charged based on the Green Costs Adjustment, then the amount payable by such Regulated Consumers and in turn available to IESO will, in the aggregate, be less than the amount payable by the IESO to the generators in respect of such period. In this case, IESO will need to obtain funding from another source to cover such a shortfall. If a funding obligation is incurred to cover such a shortfall during any period, the repayment of such funding obligation will be required in a future period, and any related repayments, finance costs, hedging costs and other transaction costs incurred will become payable in future periods. In order for IESO to obtain a reliable and committed source

of cash flows to enable IESO to repay such funding amounts when they become due and payable, this Act imposes irrevocable and non-bypassable financial obligations on Regulated Consumers to pay amounts incurred in respect of such funding obligations when they become due and payable and establishes a right to invoice and collect such amounts. The right and interest in and to collect such financial obligations will take the form of the Regulatory Asset contemplated in this Act, which will constitute property rights and interests. Interests in the Regulatory Asset may be sold and absolutely assigned by IESO to one or more financing entities, which in turn will finance their acquired interests by incurring funding obligations. The incurrence and payment of such funding obligations will be administered on behalf of such financing entities by a financial services manager under the Financing Plan contemplated in this Act.

The purpose of this Act is to establish the basis upon which intergenerational fairness can be achieved by charging the costs and benefits of the Green Generation Initiative to present and future Regulated Consumers on an equitable and cost effective basis.

Article 2 – Definitions

In this Act:

> "Absolute Assignee" means a person to whom a Regulatory Asset Owner effects a Disposition other than as security.
>
> "Actual" means, in relation to costs, expenses or payments in respect of Funding Obligations during a Reference Period, the actual amount of such costs, expenses or payments paid or made (net of any Finance Reserve Withdrawals applied to pay such amounts), which amounts shall be recorded by the Financial Services Manager whose records shall be determinative for the purposes of this Act except to the extent of a manifest calculation error.
>
> "Additional Funding Charges" means, for a Reference Period the fees, charges, expenses, costs, indemnities, reimbursements and other amounts (including any applicable tax amounts) that are or become payable by or on behalf of any Absolute Assignee during the Reference Period and that were incurred or committed to directly or indirectly by the Absolute Assignee in connection with the incurrence of Funding Obligations under the Financing Plan (whether at the time of such incurrence or over the term of the Funding Obligation and whether directly or indirectly), including without limitation such amounts as may be prescribed.
>
> "Alternative Servicer" means a person appointed under Section 4(8) to assume the obligations of the Servicer under Article 4, as agent for and on behalf of the Regulatory Asset Owners.
>
> "Assessed Past Green Transition Costs" means, in respect of a Measurement Date, the aggregate of the imputed costs of the Green Generation Initiative (expressed as an equivalent to current dollars), as reflected in the calculation of the Green Costs Adjustment, which have been charged to Regulated Customers through the Global Adjustment on or prior to the Measurement Date.

"Attribution Methodology"[1] means the methodology specified in the Fair Allocation Plan for allocating the Period Finance Charges for a Reference Period to Regulated Consumers.

"Collected Amount Adjustment" means, in respect of a True-Up Period, the amount (which may be a negative amount) calculated by the Servicer or the Financial Services Manager, as applicable, equal to (a) the Estimate of the Finance Amount for the True-Up Period, minus (b) the sum of all Transition Charge Collections for the True-Up Period and minus [(c) the amounts by which amounts remitted by Electricity Distributors pursuant to Section 5(4) exceeded the corresponding amount of Transition Charges Actually paid by Regulated Consumers.][2]

"Collective Rights Agreement" means an agreement among all of the Regulatory Asset Owners (including each Absolute Assignee), each Pledgee, and the Financial Services Manager that governs the enforcement of their respective rights and interests in, to and under the Regulatory Asset on a coordinated and collective basis.

"Delegate" means any of the following person or persons designated in writing from time to time by the Minister of Energy to undertake the actions and perform the responsibilities ascribed to the "Delegate" under this Act: ●[3].

"Disposition" means an assignment, transfer, conveyance, sale, contribution, set-over, exchange or other disposition (or, in the case of the IESO Funding Shortfall, a release by IESO of its right to recover such amount in order to enable an Absolute Assignee to recover such amount) of (a) IESO's right to recover all or any portion of an IESO Funding Shortfall or (b) an Investment Interest, in each case to an Absolute Assignee pursuant to a Disposition Document.

"Disposition Document" means the agreement, deed, conveyance, instrument or other document under which IESO or an Absolute Assignee effects a Disposition to an Absolute Assignee.

"Electricity Distributor" means a rate regulated distributor licensed under Part V of the *Ontario Energy Board Act, 1998*, together with and its successors.

"Electricity Distributor Remittances" means, for an Electricity Distributor on a Remittance Date, all Transition Charge Collections received or deemed to be received by the Electricity Distributor prior to the Remittance Date and that have not otherwise been remitted to Servicer or if applicable the Alternative Collection Agent in accordance with Section 5(3), including the proceeds of any enforcement action undertaken by the

---

[1] This allocation may be volumetric or some combination of a flat amount and a volumetric charge. Further discussion is required. H&W has raised a concern regarding possible adverse changes after the fact and rating agency considerations. Consider whether hard-coding in the legislation makes sense.

[2] This is intended to pick up adjustments based on actual collection experience, changes in the Regulated Consumer base, changes in the actual costs (versus earlier estimates) included in the Transition Charge calculation, etc. The actual calculation needs work.

[3] Placeholder for delegation once deterermined.

Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5.[4]

"Electricity Invoice" means an invoice issued by an Electricity Distributor (or in its stead, by an Alternative Collection Agent), by the Servicer or by a Retailer, in each case to a Regulated Consumer that is served by the Electricity Distributor's distribution system in respect of electricity charges, including the cost of electricity, delivery and regulatory charges and related services and amounts incurred, assessed or charged in respect of connectivity to such Electricity Distributor's distribution system and in respect of applicable Transition Charges to be charged to the Regulated Consumer under this Act.

"Estimate" means (a) in relation to costs, expenses or payments in respect of Funding Obligations or any Finance Amount for a Reference Period, the estimated amount of such costs, expenses or payments determined by the Financial Services Manager; and (b) in relation to an assessment of the benefits of the Green Generation Initiative to Regulated Consumers, the estimated value (in current dollars) of such benefits determined by the Delegate, in each case having regard to the applicable principles and parameters set out in Schedule 1, which estimated amounts shall be determinative as the applicable estimate for the purposes of this Act except to the extent of a manifest calculation error.

"Estimated Future Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that are expected to accrue to Regulated Consumers from the establishment and implementation of the Green Generation Initiative during the period from the Measurement Date to the Program-End Date.

"Estimated Past Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that have accrued to Regulated Consumers from the establishment and implementation of the Green Generation Initiative up to and including the Measurement Date.

"Fair Allocation Plan" has the meaning given in Article 1.

"Finance Amount" means, for a Reference Period, the sum (without duplication) of the following amounts that are or become payable during the Reference Period in respect of any Absolute Assignee: (a) Repayments; (b) Net Funding Costs; (c) Redemption Amounts; (d) Finance Reserve Deposits; and (e) Additional Funding Charges.

"Finance Reserve Deposits" means, for a Reference Period, the amount by which (a) deposits made or to be made during the Reference Period in order to pre-fund, collateralize, over-collateralize or establish reserves for the ultimate payment of Funding Obligations or for related contingencies specified in the Financing Plan, exceed (b) any Finance Reserve Withdrawals.

---

[4] Suggestion is that LDCs remit based on estimates and then true-up, based on current arrangements for remittances by LDCs to IESO. *

"Finance Reserve Withdrawals" means, for a Reference Period, the amount withdrawn during the Reference Period from deposits previously made to pre-fund, collateralize, over-collateralize or establish reserves for the payment of Funding Obligations or to pay amounts in respect of related contingencies that had been specified in the Financing Plan.

"Financial Services Manager" means OPG or, following any Replacement Event involving OPG, such other person who may be appointed as the financial services manager of the Absolute Assignees under the Financing Plan in compliance with the requirements set out in Schedule 2.[5]

"Financing Entity" means any entity established in accordance with the Financing Plan to be an Absolute Assignee and that is managed by the Financial Services Manager.[6]

"Financing Plan" means the written plan prepared by the Financial Services Manager in accordance with Article 9, as the same may be amended, amended and restated or terminated by the Financial Services Manager in accordance with Article 9 from time to time.

"Funding Obligation" means, in respect of an Absolute Assignee, each payment obligation (including each obligation to pay: principal, interest, premiums and other financing charge payments; pass-through payments; payment obligations arising under or in respect of derivatives; payment obligations owing to service providers, Financial Services Managers, finance entity intermediaries, capital markets intermediaries, advisors, lenders, credit enhancement providers, liquidity providers, disbursement counterparties, regulatory agencies and rating agencies; and all Additional Funding Charges) incurred by or on behalf of the Absolute Assignee under the Financing Plan, including any Refinancing of another such payment obligation incurred by or on behalf of such Absolute Assignee.

"Future Fair Share of Green Transition Benefits" means, in respect of a Measurement Date, the sum of (a) the Over-Assessed Amount; and (b) the Estimated Future Green Transition Benefits, in each case as of the Measurement Date.

"Global Adjustment" has the meaning given in Article 1.

"Green Costs Adjustment" has the meaning given in Article 1.

"Green Generation Initiative" has the meaning given in Article 1.

---

[5] There must only be one Financial Services Manager.

[6] MOE to confirm that the legislation will provide that any Financing Entity that is a wholly-owned subsidiary of OPG (1) would not be subject to Part VI of the *Electricity Act* (Ontario) and (2) in the case of any Financing Entity that is a trust, any income of such trust (for purposes of the *Income Tax Act* (Canada) or the *Taxation Act, 2007* Ontario)) which is paid or made payable to OPG or a wholly-owned subsidiary of OPG as a beneficiary of such trust will not be taken into account in calculating the amount of a payment required to be made by OPG (or such subsidiary) by section 89 or 90 of the Electricity Act.

"IESO" means the Independent Electricity System Operator created pursuant to Part II of the *Electricity Act, 1998*.

"IESO Electricity Distribution Receipts" means, for a month, the sum of all amounts payable by Electricity Distributors to IESO , during the month pursuant to section • of the *Electricity Act* in respect of Regulated Consumers. **[NTD: IESO indicates that it likely does not work to express in regards to "amounts payable by the LDCs" because settlement between the IESO and LDCs entails payments by LDCs to the IESO and then credits/debits by the IESO to LDCs to reflect RPP shortfalls/overages.]**

"IESO Funding Shortfall" means, for a month, the amount, if any, by which (a) the IESO Electricity Distribution Receipts that would be payable to IESO for the month if determined without regard to this Act and without regard to the changes made to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* with respect to the Global Adjustment concurrently with this Act, exceeds (b) the IESO Electricity Distribution Receipts payable to IESO for the month.To the extent reasonably necessary to give effect to this Act, or any transaction contemplated hereby, IESO shall calculate the IESO Funding Shortfall for any month taking into account information provided by the Electricity Distributors and (i) such calculation shall be binding for all purposes; and (ii) any demonstrated inaccuracy in the calculation for any month (including any such resulting from inaccuracies in the information provided by Electricity Distributors) shall be accounted for by adjusting the IESO Funding Shortfall for a subsequent month.

"IESO Recovery" means each amount received by IESO in accordance with its right to recover IESO Funding Shortfalls pursuant to section 25.33 of the Electricity Act and Ontario Regulation 430/04, as amended, and "IESO Recoveries" means, collectively, all such amounts received by IESO.[7]

"IESO Remittances" means, for a Settlement Date, all Electricity Distributor Remittances received by IESO or if applicable the Alternative Collection Agent prior to the Settlement Date and that have not otherwise been remitted to the Regulatory Asset Owners (each with respect to its Regulatory Asset) in accordance with Section 5(6), including the proceeds of any enforcement action undertaken by IESO or if applicable the Alternative Collection Agent to recover payment of amounts payable by Electricity Distributors to IESO in accordance with Article 5.

"IESO Regulatory Interest Amount" means, on a day, (a) the sum of all IESO Funding Shortfalls incurred prior to the day, minus (b) the net proceeds received by IESO from or on behalf of each Absolute Assignee as consideration for the Disposition of each Investment Interest paid to IESO by or on behalf of such Absolute Assignee prior to the day, and minus (c) the IESO Recoveries received by IESO prior to the day.

---

[7] IESO will be entitled to record the IESO Funding Shortfall amount in a variance account. The OEB will eliminate and dispose of the variance account balance as part of the RPP adjustment process under the OEB Act , with an applicable OEB accounting order. See Article 8 for corresponding adjustments based on Dispositions. These will need to be tied together.

“IESO Successor” means the entity appointed by the Province to succeed to the rights and obligations of IESO as the entity responsible for managing the Province’s electricity system.

“Investment Interest” means an ownership interest in, to or under the Regulatory Asset that is acquired by an Absolute Assignee pursuant to a Disposition.

“Investment Remittance” means, for a month, the lesser of (a) the aggregate amount of all IESO Remittances for the month, and (b) the sum of the Finance Amounts due and payable by all Absolute Assignees in respect of the month.

“Measurement Date” means [Insert relevant date around the Legislation Implementation Date] and any other date specified as such under the Fair Allocation Plan.

“Net Funding Costs” means, for a Reference Period, the amount by which (a) the aggregate of all interest, scheduled principal and other periodic finance charges accruing due and becoming payable or paid by or on behalf of any Absolute Assignee during the Reference Period in respect of its Funding Obligations, including such amounts as may be prescribed, exceeds (b) the aggregate of all amounts received by or on behalf of the Absolute Assignee during the Reference Period in respect of the Funding Obligations referred to in (a), and such other or different amounts as may be prescribed.

“OEB” means the Ontario Energy Board, together with its successors.

“OPG” means the corporation incorporated as Ontario Power Generation Inc. under the *Business Corporations Act* on December 1, 1998, together with its successors.

“Over-Assessed Amount” means, in respect of a Measurement Date, the amount (if any) by which (a) the Assessed Past Green Transition Costs, exceeds (b) the Estimated Past Green Transition Benefits, each as determined as of the Measurement Date.

“Period Finance Charges” means, for a Reference Period, the sum of (a) the Estimate of the Finance Amount (b) the True-Up Amount in respect of the applicable True-Up Period and (c) [an adjustment amount as may be prescribed to account for estimated collection shortfalls and collection delays in respect of amounts under (a) and (b).]

“Pledge” means, in respect of an Investment Interest of an Absolute Assignee, a lien, mortgage, charge or security interest granted to or in favour of a Pledgee by the Absolute Assignee in, to and over all or a specified portion (including a specified portion on a divided basis or by way of an undivided interest) of the Investment Interest.

“Pledgee” means a person to whom an Absolute Assignee grants a Pledge.

“Program End Date” means •, [2047].

“Province” means the Province of Ontario.

“Redemption Amount” means the amount payable by or on behalf of an Absolute Assignee to redeem, prepay or repurchase a Funding Obligation incurred by or on behalf of the Absolute Assignee, including any premium, make-whole or other additional

amount becoming payable under the Funding Obligation to give effect to such redemption, prepayment or repurchase.

"Reference Period" means (a) the period from (and including) the Measurement Date to (and including) October 30, 2017, (b) each six month period commencing [May 1st and November 1st] thereafter and (c) any other period specified as such in the Fair Allocation Plan.

"Refinancing" means, in respect of a Funding Obligation incurred by or on behalf of an Absolute Assignee, that the Funding Obligation is repaid or repurchased for cancellation by or on behalf of the Absolute Assignee by applying the net proceeds obtained by the Absolute Assignee incurring one or more other Funding Obligations.

"Regulated Consumer" means consumers of electricity in the Province [as prescribed][8].

"Regulated Consumer Group" means, in relation to a Reference Period, the Regulated Consumers who receive Electricity Invoices during the Reference Period.

"Regulatory Asset" means the property rights and interests described in Section 6(1), which collectively is comprised of each Investment Interest.

"Regulatory Asset Account" means (a) for an Electricity Distributor, any bank account into which the Electricity Distributor deposits or receives Transition Charge Collections; and (b) for the Servicer, any bank account into which Servicer deposits or receives Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances.

"Regulatory Asset Owner" means each Absolute Assignee, as owner of its Investment Interest or Investment Interests, and "Regulatory Asset Owners" means collectively each such Absolute Assignee, who together own the entirety of the Regulatory Asset and are required to exercise their individual rights of ownership in accordance with Section 6(7).

"Related Rights" means, with respect to a Regulatory Asset Owner's Investment Interest, all rights of any kind (whether in tort, contract or otherwise) that attach or are attendant or incidental to any of the other property rights or interests that comprise such Investment Interest.

"Remittance Date" means, in respect of an Electricity Distributor, each day on which it is required to remit Electricity Distribution Remittances to Servicer or if applicable the Alternative Collection Agent as specified in accordance with any Funding Obligation or, if no such day is specified in accordance with any Funding Obligation, then the business day preceding each Settlement Date.

"Repayment Obligation" means an obligation to repay, redeem or repurchase, or to provide for the repayment, redemption or repurchase (including by making a related Finance Reserve Deposit) of, all or a portion of the amount advanced to the Absolute Assignee under a Funding Obligation.

---

[8] To be included in the legislation once settled.

"Repayment" means a payment by an Absolute Assignee made to satisfy a Repayment Obligation, other than to the extent that the payment is made by applying the proceeds of a Refinancing or from Finance Reserve Withdrawals.

"Replacement Event" means any event specified as such in a Funding Obligation.

"Retailer" means a person who is licensed under Part V of the *Ontario Energy Board Act, 1998* to retail electricity.

["Retailer Consolidated Billing" has the same meaning as in the *Retail Settlement Code* issued by the Ontario Energy Board.]

"Servicer" means IESO or IESO Successor, as agent for and on behalf of the Regulatory Asset Owners, for the purposes set forth in Article 4.

"Settlement Date" means the [last business day of any month].

"Transition Charge" means, the amount recoverable from a Regulated Consumer in respect of a Reference Period[9], being the Period Finance Charge as allocated to such Regulated Consumer in accordance with Article 4(3) on a monthly basis. **[Note that this allocation will be based on the OEB process for determining the volumetric rate as part of the RPP process (see s. 4(2)). The OEB will determine volumetric rate based on forecast consumption, number of consumers, etc. to recover the Period Finance Charges.]**

"Transition Charge Collection" means any amount received **[or deemed by this Act to have been received]** upon the collection of a Transition Charge paid by or on behalf of a Regulated Consumer, including any proceeds arising from the exercise and enforcement of any related rights and interests under or in respect of the Regulatory Asset.

"True-Up Amount" means, in respect of a Reference Period, the amount (which may be a negative amount) calculated by the Financial Services Manager equal to (a) the Actual Finance Amount for such related True-Up Period, minus (b) the Estimate of the Finance Amount for the related True-Up Period, plus (c) the Collected Amount Adjustment for such related True-Up Period.[10]

---

[9] Note that Transition Charges will be calculated by reference to Funding Obligations and Finance Amounts incurred under the Financing Plan. The directive will be that no payment obligations will be incurred for payment before 2022, to accommodate the "Fair Adjustment".

[10] True-up calculation is under consideration. In this summary, a calculated true-up amount is contemplated to be included in the Period Finance Amount calculation, in order to achieve a sum certain and actionable debt. The suggestion is that the true-up mechanism be based generally on a calculation process to be described in the Regulation, which would require Transition Charges to be reviewed and adjusted semi-annually (or more frequently) to ensure the expected recovery of amounts sufficient to timely provide all payments in respect of Finance Amounts. It has been proposed that the scope of the true-up will exclude any 'leakage' at the Financing Entity Level (e.g., entity-level tax; litigation; losses) but will include shortfalls that are currently socialized through the LDC/IESO system. Note that the proposal

"True-Up Period" means, in relation to a Reference Period, the immediately preceding Reference Period.[11]

"Undertaking of Her Majesty in right of Ontario" means the undertaking of Her Majesty in right of Ontario given under Section 11(2).[12]

Article 3 – Transition Charges

(1) **Regulated Consumer Obligation to Pay a Transition Charge** – Each Regulated Consumer shall pay each Transition Charge charged to it in any Electricity Invoice issued to such Regulated Consumer by its Electricity Distributor or by an Alternative Servicer under Section 4(1), in each case on the terms of payment specified in the related Electricity Invoice.

(2) **Indebtedness of Regulated Consumers** – Until paid, a Transition Charge charged to a Regulated Consumer in an Electricity Invoice shall, together with any applicable late payment fees and finance charges arising under the terms of the Electricity Invoice with respect to such Transition Charge, constitute non-bypassable indebtedness of the Regulated Consumer to the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset. Such indebtedness shall constitute a single and separate[13] debt obligation owing by the Regulated Consumer, which subject to Article 5 may be enforced independently from any other payment obligation or indebtedness owing by the Regulated Consumer under the Electricity Invoice or otherwise.[14]

(3) **No Set-Off or Reduction** – A Regulated Consumer may not set-off or reduce (by counterclaim, defense or otherwise) the amount payable by it in respect of any Transition Charge, including any set-off against or in respect of any amount owing or becoming payable to such Regulated Consumer by its Electricity Distributor, any Regulatory Asset Owner or any other person.

(4) **Allocation of Regulated Consumer Payments** – If an Electricity Distributor receives a payment made by or on behalf of a Regulated Consumer in respect of amounts due and payable under one or more Electricity Invoices that is less than the total amount payable thereunder, such payment shall be allocated on a *pro rata* basis to the payment of related Transition Charges and other invoiced amounts and the amount so allocated as a payment of related Transition Charges shall be deemed to constitute a Transition Charge Collection.

---

to include a section detailing the true-up mechanism (Oslers 3(6) has not been included here since the outcome of the calculation is already built into the Period Finance Amount concept.

[11] Timing of calculation under consideration, given that amount will need to be reflected in customer invoices.

[12] Under consideration.

[13] Determine if this is critical for rating and markets. Logistics under consideration.

[14] Torys has also suggested that deemed conditions of licenses for distributors, retailers and unit sub-metering providers, could be included as conditions, to require them to collect and remit amounts in accordance with this legislation. Consider if it is helpful to integrate the existing regulatory scheme for invoicing and collections (regarding RPP) in the legislation.

(5) Transition Charges are Irrevocable – The Transition Charges arising under or in respect of Funding Obligations (including any adjustments based on modifications to such Funding Obligations made in compliance with the Financing Plan or as a result of amendments to the Financing Plan made in accordance with Section 9(3)) are deemed to be irrevocable, final and effective without any further action, except to the extent of manifest calculation error. For greater certainty, a Transition Charge may include Finance Amounts for a Reference Period regardless of whether the payment of such Finance Amounts are inconsistent with the Fair Allocation Plan applicable at the time such payments are due and payable, and regardless of whether the related Funding Obligation was properly incurred under the Financing Plan. In no case shall a Funding Obligation incurred under the Financing Plan be affected by a subsequent amendment to the Fair Allocation Plan.

(6) True-Up of Transition Charges – [See True-Up Amount].

Article 4 – Invoicing of Transition Charges

(1) Inclusion of Transition Charges in Electricity Invoices – Each Electricity Distributor and if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, specify the Transition Charge to be charged to a Regulated Consumer pursuant to Section 4(4) in respect of a related Reference Period in each Electricity Invoice[15] issued by the Electricity Distributor or if applicable by the Alternative Servicer to the Regulated Consumer in respect of such Reference Period. Upon the inclusion of a Transition Charge in an Electricity Invoice, the obligation to pay such amount shall be binding on the applicable Regulated Consumer.

(2) Calculation of the Period Finance Charge – Not later than [35] days prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services Manager on its behalf) shall provide the OEB with written notice of each Estimate of a Finance Amount payable by it or on its behalf in respect of the Reference Period. Not later than one month prior to the first day of a Reference Period, the Financial Services Manager on behalf of each Absolute Assignee shall calculate the Period Finance Charge applicable to the Reference Period having regard to such amounts specified by the Servicer, which calculations, information and amounts shall be determinative, except to the extent of manifest calculation error or misstatement.

(3) Basis for Attributing Transition Charges – Not later than 25 days prior to the first day of a Reference Period, the OEB shall determine a [Fair Hydro Recovery Rate] (on a volumetric basis) on which Electricity Distributors will attribute Transition Charges to consumers under 4(4).

(4) Notice of Transition Charges – Not later than 20 days prior to the first day of a Reference Period, the OEB shall inform each Electricity Distributor and if applicable any

---

[15] Intention is to include bills issued to eligible consumers served by unit sub-metering providers, retailers and the IESO – not just distributors and to address the inclusion of Transition Charges in the paperwork from the IESO to the LDC in a manner that is consistent with the current process of how the IESO bills LDCs.

Alternative Servicer of the [Fair Hydro Recovery Rate] to be applied by the Electiricy Distributor to attribute Transition Charges to each Regulated Consumer who is served by the Electricity Distributor for inclusion in the Electricity Invoices to be issued to the Regulated Consumers.

(5) **Adjustments** – The amount of any Transition Charge charged to a Regulated Consumer and specified as such in an Electricity Invoice shall be determinative of the amount of indebtedness created thereby and owing in respect of such Transition Charge, except to the extent of any manifest calculation error.

(6) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 4 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 4 to impose, attribute, charge, bill and invoice the Transition Charges.

(7) **Appointment of an Alternative Servicer** – If a Replacement Event occurs in respect of any Electricity Distributor, IESO shall perform some or all of the obligations and duties required to be undertaken by such Electricity Distributor under this Article 4. Any Electricity Distributor that is replaced under this Section 4(7) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in the performance of such obligations and duties to IESO and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit IESO or a person designated by IESO to perform such obligations and duties on behalf of the Regulatory Asset Owners.

(8) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, the Servicer, Alternative Servicer or any other person who may be authorized to issue Electricity Invoices to Regulated Consumers for a failure to impose, attribute, charge, bill or invoice Transition Charges or to otherwise comply with this Act. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure and may make any interim or final order it thinks fit in this regard.

(9) **No Set-Off or Reduction –** No Servicer or Electricity Distributor may set off or reduce (by counterclaim, defence or otherwise) the amount payable by it pursuant to this Article 4.

(10) **Regulations** – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Servicer to ensure that Transition Charges are properly charged to Regulated Consumers and specified as such in Electricity Invoices.

Article 5 – Collections and Remittances

(1) **Duty to Collect as Agent** – Electricity Distributors or if applicable any Alternative Collection Agent shall, as an agent of the Servicer, undertake commercially reasonable efforts to collect amounts owing by Regulated Consumers in respect of Transition Charges charged to such Regulated Consumers in Electricity Invoices issued by the

Electricity Distributor or if applicable such Alternative Collection Agent, all in accordance with the Regulations. [16]

(2) **Segregation of Transition Charge Collections** – If prescribed, an Electricity Distributor or if applicable any Alternative Collection Agent shall promptly segregate Transition Charge Collections from other payments received by it from Regulated Consumers and deposit such Transition Charge Collections into its Regulatory Asset Account.[17] Prior to and following a deposit of Transition Charge Collections having been made into its Regulatory Asset Account, the Electricity Distributor or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners or a Pledgee.[18]

(3) **Electricity Distributor Remittances** – On each applicable Remittance Date, an Electricity Distributor shall remit all [Transition Charge Collections received by it from Regulated Consumers] [amounts invoiced to it by the IESO on account of Transition Charges][19] in respect of the related Reference Period to or to the account of Servicer or if applicable the Alternative Collection Agent.

(4) **Duty to Collect Electricity Distributor Remittances** – Servicer or if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, accept and undertake commercially reasonable efforts to collect Electricity Distributor Remittances from Electricity Distributors and Transition Charge Collections from Regulated Consumers that pay their Electricity Invoices directly to IESO, all in accordance with the Regulations.

(5) **Segregation of Electricity Distributor Remittances** – Servicer and if applicable the Alternative Collection Agent shall promptly segregate Electricity Distributor Remittances from other payments received or held by it and deposit such Electricity Distributor Remittances into its Regulatory Asset Account. Prior to and following a deposit of Electricity Distributor Remittances having been made into its Regulatory Asset Account, Servicer or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners or any Pledgee.

(6) **Servicer Remittances** – On each Settlement Date[20], Servicer shall remit all amounts on deposit in its Regulatory Asset Account to or to the account of the Absolute Assignees an amount equal to the Investment Remittance for the related month.

(7) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 5 in the same manner and to

---

[16] Note that the obligation to collect and remit the Transition Charge will be included as a deemed condition of license for electricity distributors (and retailers and unit sub-metering providers).]

[17] Consider trying to attach to existing LDC credit enhancements and provide parallel coverage for customer losses.

[18] Consider whether there is a more efficient way to treat collections through the existing LDC/IESO processes. Intention is to provide scope in the Regulations.

[19] Dealer suggestion under consideration. Impact on LDCs and parallel commercial arrangements to be assessed.

[20] Consider frequency of remittances in light of rating requirements. US rating agencies favour daily remittances.

the same extent as such Electricity Distributor, including the obligation under Article 5 to collect Transition Charges and make remittances of Electricity Distributor Remittances.

(8) **IESO Successors** – IESO Successors shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of IESO under Article 5 in the same manner and to the same extent as IESO, including the obligation to collect Transition Charge Collections, Electricity Distributor Remittances and to remit IESO Remittances.

(9) **Owners of Distribution Assets** - If any person other than an Electricity Distributor acquires distribution system assets in the Province or invoices or collects electricity distribution rates in the Province[21], then such person shall, if requested by the Absolute Assignees, be obligated to act diligently to (a) facilitate the invoicing and collection of any Transition Charges applicable to Regulated Consumers connected to such person's distribution system assets; (b) allocate partial payments by Regulated Consumers as provided in this Act; (c) exercise all enforcement rights of the Absolute Assignees for the benefit of an Absolute Assignee; and (d) remit any Transition Charge Collections to the Absolute Assignees or Pledgees, as applicable, each in accordance with its Investment Interest.

(10) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, Servicer, the Alternative Collection Agent, any owner of electricity distribution system assets in the Province or any other person who may be authorized to collect electricity distribution and use charges from Regulated Consumers for a failure to collect Transition Charges, remit or collect Electricity Distributor Remittances or remit IESO Remittances, as and to the extent applicable under Article 5, or to otherwise comply with this Act. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure and may make any interim or final order it thinks fit in this regard.

(11) **No Set-off, etc.** - The Regulatory Asset, including rights in Transition Charges, Transition Charge Collections, and the interests of a Regulatory Asset Owner, an Absolute Assignee and a Pledgee therein, may not be setoff or reduced (including by counterclaim, surcharge or defense) by any Regulated Consumer, any Electricity Distributor, Servicer, Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or in connection with any default, bankruptcy, reorganization or other insolvency proceeding of any Electricity Distributor, Servicer, Alternative Collection Agent or any owner of distribution system assets in the Province, any affiliate or successor thereof or any other entity or otherwise.[22]

(12) **Sequestration** – If any Electricity Distributor, Servicer, the Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or entity authorized to collect Transition Charges, defaults on any required remittance of

---

[21] This is in anticipation of a possible future restructuring of the distribution system.

[22] Consider whether it makes sense to create a "deemed collection" payment obligation on Electricity Distributors to the extent a Regulated Consumer reduces its payment of Transition Charges, despite this language. Same for Electricity Distributor Remittances and IESO Remittances.

Transition Charge Collections, Electricity Distribution Remittances or IESO Remittances under Article 5, any court in the Province, upon application by and of the Absolute Assignees acting collectively under the Collective Action Agreement and without limiting any other remedies otherwise available to the Absolute Assignees or Pledgees, shall (i) order the sequestration and payment of the Transition Charge Collections, Electricity Distribution Remittances and IESO Remittances, as applicable, for the benefit of the Absolute Assignees, each with respect to its Investment Interest, and the Pledgees as applicable and (ii) appoint a receiver to take control of the amounts sequestered.[23]

(13) **Regulations** – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to Servicer, any Electricity Distributor or any Alternative Collection Agent to ensure that rights, interests, entitlements, benefits and proceeds in, to, under and from the Regulatory Asset are of fully realized by some or all of the Absolute Assignees and Pledgees.

Article 6 – The Regulatory Asset[24]

(1) **Composition** – The Regulatory Asset shall constitute a current and irrevocable property right and interest consisting, collectively, of the following rights and interests (without duplication):

a. the right of a Regulatory Asset Owner to record its Investment Interest in its accounts;

b. the right to impose, bill, invoice, collect and receive Transition Charges from Regulated Consumers, including the right to determine the amount of Transition Charges in accordance with this Act;

c. the right to enforce the obligations and indebtedness of each Regulated Consumer to pay the Transition Charges charged to the Regulated Consumer from time to time in accordance with Article 3, together with all related late payment fees or interest charges arising in respect thereof under the related Electricity Invoices; the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Servicer to impose, attribute, charge, bill and invoice the Transition Charges in accordance with Article 4;

d. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Collection Agent to collect, receive and remit amounts received by it in respect of Transition Charges as Electricity Distributor Remittances to or to the account of Servicer or if applicable the Alternative

---

[23] Consider adding or substituting this provision for a right to appoint a receiver.

[24] It is anticipated that Investment Interests will only be sold to Financing Entities controlled by OPG. Sales will occur on a negotiated basis, and deal-specific covenants will be included in transaction documents – to supplement these arrangements.

Collection Agent in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5;

e. the right to enforce the duties and obligations of Servicer and if applicable the Alternative Collection Agent to collect and receive Electricity Distributor Remittances and to remit IESO Remittances to or to the accounts of the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset, in each case in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by it to recover payment of Electricity Distributor Remittances in accordance with Article 5;

f. the right to receive and collect all Transition Charge Collections, all Electricity Distributor Remittances and all IESO Remittances in accordance with Article 5;

g. all rights and entitlements under each Regulatory Asset Account and all amounts on deposit in any such Regulatory Asset Account;

h. all Related Rights; and

i. all revenue, collections, claims, payments, money and proceeds of or derived from the rights described in (a) through (i), regardless of whether such revenue, collections, claims, payments and proceeds are imposed, invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

A Regulatory Asset and the property rights and interests therein shall exist whether or not Transition Charges have been imposed, charged, invoiced, accrued or collected and notwithstanding that the imposition, attribution, invoicing and collection of Transition Charges will depend on further actions that may not have occurred. The Regulatory Asset shall continue to exist until all Funding Obligations have been paid in full.

(2) **Validity of Dispositions** – A Disposition by IESO of its right to recover all or any part of the IESO Funding Shortfall to an Absolute Assignee, or a Disposition of all or any part of an Investment Interest by one Absolute Assignee to another Absolute Assignee made under the Financing Plan, shall be permitted and when made shall be valid and enforceable in accordance with the terms of the related Disposition Document and shall be effective to confer upon the Absolute Assignee thereof a valid property right and interest in, to and under IESO's right to recover the IESO Funding Shortfall or the Investment Interest, as applicable (or relevant portion thereof) in accordance with the terms of such Disposition, provided that the parties to the applicable Disposition Document have expressly stated therein that such Disposition is a sale or other absolute transfer. Without limiting the foregoing, any Disposition that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as a true sale and absolute transfer of IESO's right to recover the IESO Funding Shortfall or an Absolute Assignee's right, title and interest in, to and under an Investment Interest, as applicable (or relevant portion thereof), and not merely as a Pledge thereof, and upon such Disposition the assigner or seller under the applicable Disposition Document shall retain no right, title or interest in IESO's right to recover the IESO Funding Shortfall or the

Investment Interest (or relevant portion thereof) subject to the Disposition, including all rights to recover the IESO Funding Shortfall or under the Investment Interest arising after such Disposition.

(3) **Perfection and Priority of Dispositions** – Any Disposition of an interest in a Regulatory Asset shall be vested, valid, binding and perfected from the time when such Disposition is made. Such Disposition shall be perfected, vested, valid and binding as against the IESO or transferring Regulatory Asset Owner, as applicable, and all other persons who have claims of any kind (whether in tort, contract or otherwise) against IESO or the transferring Regulatory Asset Owner, as the case may be, irrespective of whether such persons have notice of the Disposition and the property rights and interests acquired by the Absolute Assignee under such Disposition shall be free and clear of any liens in favour of such other persons.

(4) **Validity of Pledges** – A Pledge by an Absolute Assignee may be made to secure any Funding Obligation and when made shall be valid and enforceable in accordance with its terms and shall be effective to confer upon the Pledgee a valid security interest in, to and in respect of the related Investment Interest in accordance with the terms of the Pledge. No consent of, or notice to, any person shall be required to give effect to a Pledge made to secure any Funding Obligation.

(5) **Perfection and Priority of Pledges** - For purposes of the *Personal Property Security Act* (the "PPSA"), the Regulatory Asset shall be intangible personal property and any Pledge made by an Absolute Assignee in respect of a Funding Obligation shall, subject to the terms thereof, give rise to a security interest in respect of which the PPSA applies, and may be perfected by filing a financing statement under the PPSA on that basis. All proceeds of a related Investment Interest that are subject to such a Pledge that are received by the Absolute Assignee shall immediately be subject to the such Pledge, and the security interest in such proceeds shall be perfected pursuant to the PPSA.[25] A Pledge perfected under the PPSA shall be a continuously perfected security interest and shall have priority over any other lien or security interest, created by operation of law or otherwise, that may attach to the property rights and interests in the Investment Interest subject to the Pledge unless the Pledgee has otherwise agreed in writing. A Pledgee shall have a perfected security interest in a related Investment Interest, including the Absolute Assignee's rights and interests in and to Transition Charge Collections or other related proceeds in respect of the Investment Interest and that are deposited in any Regulatory Asset Account or other account of any Electricity Distributor, IESO, Alternative Collection Agent or other person who may have commingled such Transition Charge Collections or such other proceeds with other funds. All provisions of the PPSA shall apply to the Regulatory Asset on the basis that it is intangible personal property, except to the extent otherwise provided in this Section 6(5).

(6) **Enforcement of Property Rights** – The rights of any Regulatory Asset Owner or Pledgee to collect and enforce its rights and interests in, to or in respect of the Regulatory Asset shall be exercised in the manner set forth in Article 5.

---

[25] Consider whether to simply leave this and have a financing statement be filed under the PPSA. This would normalize the security interest and reduce any adverse suggestion that security would not otherwise arise.

(7) **Owners of a Specified Portion of the Regulatory Asset** – A Regulatory Asset Owner may effect a Disposition to an Absolute Assignee of a specified portion of its rights and interests in the Regulatory Asset, including by way of a Disposition of a divided or an undivided interest therein as specified in a related Disposition Document. In no circumstance may the specified portions of the rights and interests in the Regulatory Asset owned by all Regulatory Asset Owners be greater than all of the rights and interests that comprise the Regulatory Asset in the aggregate.

(8) **Collective Action Required** – If a Regulatory Asset Owner's rights and interests in the Regulatory Asset comprises less than the entire property right and interest constituted by the Regulatory Asset, such Regulatory Asset Owner shall only enforce such right and interest on a collective and coordinated basis with each other Regulatory Asset Owner in accordance with the Collective Rights Agreement.

Article 7 – Establishment of the Fair Allocation Plan[26]

(1) **Adoption of the Fair Allocation Plan** – The Delegate may, by written declaration, designate and adopt a Fair Allocation Plan in compliance with Article 7. The Fair Allocation Plan so designated and adopted shall be the Fair Allocation Plan for all purposes of this Act, except if amended, amended and restated or terminated by a further written declaration made by the Delegate in compliance with [the Regulations]**.**

(2) **Principles and Parameters** – A Fair Allocation Plan shall seek to allocate Future Fair Share of Green Transition Benefits across present and future Regulated Consumers on a basis that the Delegate, in its sole and absolute discretion, determines to be equitable, having regard to the following principles and parameters:

1. Future Fair Share of Green Transition Benefits should be allocated over the period ending on the Program End Date.

2. The Fair Allocation Plan should specify the Reference Periods for the purpose of identifying applicable Regulated Consumer Groups and allocating Future Fair Share of Green Transition Benefits among them on a relative basis over time.

3. The share of Future Fair Share of Green Transition Benefits allocable to a particular Regulated Consumer in respect of a Reference Period should be proportionate to a reasonable assessment of the benefits of the Green Generation Initiative to such Regulated Consumer over such Reference Period, other than in exceptional circumstances.

4. The share of Future Fair Share of Green Transition Benefits to be allocated to a Regulated Consumer Group and any future Regulated Consumer Group at a particular time should not exceed the Estimated Future Green Transition

---

26 The idea is that the Fair Allocation Plan will be set once at the outset based on the principles and parameters described here, all as applied based on information available and the reasonable expectations and discretion of the delegate at such time. If the expectations are not fulfilled (e.g., generators may choose to retire their facilities at the end of their current procurement contracts and not invest in extending service lives to secure further procurement contracts), the Fair Allocation Plan will be unaffected, unless it is specifically amended (assuming amendments will be permitted by the legislation).

Benefits, measured in respect of the Reference Periods following such particular time and to the Program End Date.

5. No future Regulated Consumer Group should be allocated an unreasonably disproportionate share of Estimated Future Green Transition Benefits. Except in exceptional circumstances or in the case of any reallocation of an Over-Assessed Amount as contemplated in 7, below, the Future Fair Share of Green Transition Benefits to be allocated under a Fair Allocation Plan to any future Regulated Consumer Group should have regard to *[Insert formula if a year-over-year maximum amount is determined to be appropriate]*.

6. The time value of money should be reflected in the Fair Allocation Plan, in order to equate the relative values of the nominal allocations of Future Fair Share of Green Transition Benefits, calculated in current dollars, to future Regulated Consumer Groups over time.

7. To the extent there has been an Over-Assessed Amount, the Fair Allocation Plan may determine that an adjustment should fairly be made to rebate Regulated Consumers for such an amount, by reducing the costs otherwise attributable under the Act to such Regulated Consumers. The relative costs of the Green Generation Initiative are reflected under the Act by the attribution of Transition Charges to such Consumer Groups, based on the Financing Plan seeking to track the allocations of benefits under the Fair Allocation Plan. Accordingly, the Maximum Transition Charge Amount determined for one or more Regulated Consumer Groups having regard to the Fair Allocation Plan otherwise applicable may be appropriately reduced to recognize the effect of the Over-Assessed Amount. In such a case, a determination to reduce the Maximum Transition Charge Amount applicable for certain related Reference Periods should have regard to the principle that the corresponding rebate should be extended to benefit the Consumer Group or Consumer Groups in closest proximity to the Legislative Implementation Date.

(3) Attribution Methodology – The Fair Allocation Plan shall specify the Attribution Methodology for the purposes of allocating the Period Finance Charges across the Regulated Consumers. The Attribution Methodology shall result in an attribution of such Transition Charges that is considered by the Delegate to be equitable, and may have regard to such principles and parameters as may be further set forth in a Regulation; provided that the Attribution Methodology shall not be used to limit the recovery of Transition Charges.

(4) Amendments of the Fair Allocation Plan – The Fair Allocation Plan may be amended, amended and restated or terminated by the Delegate, provided that such amendment, amendment and restatement or termination shall (a) not be inconsistent with the principles and parameters set forth in (2) or (3), above, or the Regulation, (b) comply with any restrictions or limitations specified with respect thereto in any Funding

Obligation, and (c) not impair any Regulatory Asset, outstanding Funding Obligations or any Transition Charges.[27]

Article 8 – The IESO Funding Shortfall

(1) Recording of IESO Funding Shortfall – Subject to 8(3), IESO will record any IESO Funding Shortfall [in its books] [in a variance account established in accordance with section 25.33 of the Electricity Act / Ontario Regulation 430/04, as amended].

(2) Adjustments – IESO will record it [its books][its variance account] all adjustments to the IESO Regulatory Asset Amount from time to time. Such books of account shall be determinative with respect to the amount of IESO's related regulatory asset.

(3) Limitation on Additions – Subject to 8(3), IESO shall not record additions to the IESO Regulatory Asset Amount in respect of IESO Funding Shortfalls (a) if such additions are restricted by the terms of any Disposition Document or the Collective Action Agreement, or (b) on or after •, 2017.

(4) Dispositions – IESO may effect a Disposition of its right to recover all or any part of the IESO Regulatory Asset Amount to an Absolute Assignee if (a) the Absolute Assignee has or will concurrently become bound by the Collective Rights Agreement; (b) the Disposition is effected pursuant to a Disposition Agreement duly executed by IESO; and (c) the Financial Services Manager confirms in writing that the Disposition complies with any restrictions or limitations specified with respect thereto in any documents evidencing the Funding Obligations and is permitted under the Financing Plan.

(5) No Continuing Interest in any Investment Interest – IESO shall have no continuing right or interest in, or maintain any right to recover all or any part of, any IESO Regulatory Asset Amount that is subject to a Disposition effected by IESO under a Disposition Document to which IESO is a party.

(6) IESO Recoveries – IESO shall, in respect of a month, be entitled to receive from IESO Remittances on a related Settlement Date the amount (if any) of any IESO Recoveries.

Article 9 – The Financing Plan

(1) Power to Prepare, Implement and Amend the Financing Plan – The Financial Services Manager shall be authorized to prepare, implement and amend a financing plan [for the Financing Entities] and propose the adoption of such financing plan as the Financing Plan for the purposes of this Act. [The Financial Services Manager shall have the right to withdraw its financing plan as the Financing Plan at any time if it determines that implementing the Financing Plan in such manner would not be in the best interests of a Financing Entity.]

---

[27] It is anticipated that the terms of any rated financing will restrict further issuances pending a RAC in relation to any changes to the FAP.

(2) Principles and Parameters of the Financing Plan – The Financing Plan shall establish the basis for each Absolute Assignee's funding decisions, having regard to the principles and parameters set forth in Schedule 3.

(3) OEB Approval – [Any Additional Funding Charge payable to the Financial Services Manager in respect of services provided by the Financial Services Manager (other than third party costs) shall be subject to review and approval by the OEB.][28]

(4) Review of Financing Plan – The [OEB shall undertake an annual review of the records maintained by the Financial Services Manager for the purpose of confirming that the Funding Obligations incurred and the Finance Amounts paid by or on behalf of the Absolute Assignees were incurred and paid, respectively, in material conformity with the Financing Plan.] [29]

(5) Replacement of the Financial Services Manager – If the OEB identifies deficiencies or makes recommendations in its review under Section 9(4), the Financial Services Manager shall take reasonable measures to remedy such deficiencies if remediable, and shall in any event have regard to the recommendations of the OEB in relation to further actions undertaken by the Financial Services Manager under the Financing Plan. If the Financial Services Manager is unwilling or unable to reflect such recommendations in relation to such further actions, the Delegate may by written declaration designate one or more other persons who shall thereafter become the Financial Services Manager. [Any replacement financial services manager must comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations.]

(6) Obligation to Apply IESO Remittances – The Financial Services Manager shall ensure that amounts transferred to it [under Article 5, as agent for and on behalf of the Absolute Assignees], or otherwise in respect of or as proceeds from an applicable Investment Interest shall only be applied or used to pay related Finance Amounts when they are due and payable and for no other purpose.

(7) Non-Recourse – The Financing Plan shall be implemented so that Funding Obligations incurred shall be without recourse to or to any assets of the Electricity Distributors, IESO, any Alternative Servicer, any Alternative Collection Agent, the Financial Services Manager, the OEB or Her Majesty in right of Ontario, other than if and to the extent that such persons or entities are liable for the performance of obligations or duties arising under this Act or expressly agree to become liable pursuant to any Funding Obligation or obligation in relation to a Finance Amount.

(8) Incurrences are Binding – Each Disposition made to or by an Absolute Assignee, all amounts payable or becoming due and payable by or on behalf of an Absolute Assignee under or in connection with any obligation purporting to be a Funding Obligation and each Pledge entered into by an Absolute Assignee, shall be valid and binding, including in determining the amount of related Transition Charges, notwithstanding any defect in the manner of incurrence or any inconsistency with the Fair Allocation Plan or the Financing Plan.

---

[28] Under consideration.

[29] Under consideration.

[Article 10 – Compliance Matters[30]

(1) Right of the [OEB] to Inspect Books and Records - For the purpose of investigating compliance with the provisions of this Act, the OEB shall have the right, jurisdiction, power and authority to examine the books and records of *[Insert names if any]*.

(2) [OPG's Rate Settings – When setting other rates for or in respect of OPG, the OEB shall not take into account (a) the administrative or servicing fees charged by OPG as Financial Services Manager [in excess of the actual incremental costs incurred by such person of providing administrative or servicing services]; (b) the cost consequences to OPG of being the Financial Services Manager; or (c) the consequence of OPG consolidating the assets and liabilities of any Financing Entity for OPG's accounting purposes, in each case in setting any regulated payment amounts for OPG.][31]

Article 11 – Undertaking of the Her Majesty in right of Ontario[32]

(1) No Action to limit, alter, or impair or terminate Transition Charges, the Regulatory Asset or Collections – Her Majesty in right of Ontario shall not in any way take or permit (including by any agency or administrative body) any action to reduce, impair, postpone or terminate the obligation of Regulated Consumers to pay Transition Charges or to impair the Regulatory Asset or the collection or recovery of Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances, either directly or indirectly, including through the introduction of any bill or the passing of any legislation or regulation having such effect. The amount of Transition Charges determined under this Act shall not be subject in any way to reduction, impairment, postponement or termination as a result of any action taken or failure by Her Majesty in right of Ontario (including by any agency or administrative body), including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(2) Undertaking and Agreement – Her Majesty in right of Ontario shall not:

(a) in any way take or permit any action that limits, alters or impairs the value of any Investment Interest;

---

[30] As noted above, the outcome of any regulatory action undertaken by the OEB will not affect Funding Obligations that have been incurred under the Financing Plan. This Article and any potential role for the Auditor General is still under consideration.

[31] As an alternative to this provision, consider clarifying under s. 78.1(4) of the OEB Act (which currently gives the OEB discretion in setting payment amounts subject to O. Reg. 53/05) that the OEB in setting OPG payment amounts for prescribed generation shall not consider OPG's role as Financial Services Manager of any Financing Entities associated with the Fair Hydro initiative, perhaps with the exception of any operating fees that may be received by OPG for performing that role.

[32] Under consideration, including the dealers' request for (1) a "servicer guarantee" (2) a "contractual guarantee" to address a "Change of Law" or if all or a portion of the legislation is *ultra vires*, requiring (at the lenders option), the Province to pay principal and interest on the outstanding debt until maturity or payout the entire debt including any make-wholes and (3) in the event of a market disruption that renders it impossible to refinance debt when required (or where financing of amounts required to service the debt is not available because of a market disruption where the Financing Entity was relying on such further issuance of debt until the recovery is set to begin to fund interest), a covenant by the Province to step in and payout the debt or to recover the debt from ratepayers as it becomes due, notwithstanding the intended Fair Adjustment.

(b) except as required by the estimates and adjustments made in determining the True-up Amount, reduce, alter or impair Transition Charges that are imposed, billed, invoiced, collected and remitted for the benefit of the Absolute Assignees or any Pledgee from time to time;

(c) permit the amendment, amendment and restatement or termination of the Fair Allocation Plan if such amendment, amendment and restatement or termination would adversely affect the validity or enforceability of any Funding Obligation or the rights of an Absolute Assignee or Pledgee thereunder, or would not otherwise comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations,

in each case including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(3) **Successor IESO** – If IESO is restructured, dissolved or becomes insolvent or is otherwise incapable of performing its obligations under this Act, an IESO Successor shall immediately be established by Her Majesty in right of Ontario to perform such obligations.

(4) **Compensation for Failure** – Absolute Assignees shall be compensated by Her Majesty in right of Ontario for any losses suffered by them as a result of any failure by Her Majesty in right of Ontario to comply with its undertakings and agreements in this Article 11.[33]

(5) **No Wind-up of Financing Entity**. No Financing Entity may be voluntarily wound up, liquidated or dissolved until one year after all of its Funding Obligations are repaid.

(6) **References to the Undertaking and Agreement** – Any non-confidential reference to the Undertaking of the Her Majesty in right of Ontario, including in marketing materials and other documentation authorized for use by the Administrative in connection with any Funding Obligation, may be made provided that [*Add conditions to protect the Province*].

Article 12 – Regulations

Regulations may be made under this Act for the purposes described in Sections •,•,• and • and may be promulgated for any of the following purposes:

(a) to set standards and measures regarding the commercially reasonable requirements of the Province associated with an Absolute Assignee incurring Funding Obligations or becoming obligated to pay any Finance Amount, including to establish guidelines regarding all-in funding costs; permitted Additional Funding Charges; required maturities and redemption and termination rights of Funding Obligations; liquidity requirements, in each case to a Financing Plan that is consistent in its effect with the Fair Allocation Plan;

[33] Requested by Dealers. For discussion.

(b) to establish and empower one or more regulated entities to undertake decision-making activities with respect to this Act;

(c) to set out reasonable requirements regarding the appointment or retention of advisors, agents, service providers, contract counterparties, including in relation to 'market terms and conditions' parameters;

(d) to provide for audit and compliance standards applicable to those persons who are or may become obligated or have duties that arise under this Act [or under any Funding Obligation];

(e) to provide for any pre-vetting and approval requirements in relation to any incurrence by an Absolute Assignee of any Funding Obligation or obligation to pay any Finance Amount; and

(f) to provide for appeal and due process considerations in connection with the establishment, adoption, implementation and review of the Fair Allocation Plan or the Financing Plan.

Article 13- Miscellaneous[34]

(1) **Choice of law** – The law governing, as applicable, the validity, enforceability, attachment, perfection, priority and exercise of remedies with respect to the transfer of an interest or right or creation of a security interest in the Regulatory Asset, any Transition Charge or the Undertaking of the Province shall be the laws of the Province.

(2) **Conflict of law** – In the event of conflict between this Act and any other law of the Province regarding the attachment, assignment or perfection, or the effect of perfection, or priority of any Disposition or Pledge, this Act shall govern to the extent of the conflict.

(3) **No further acts or approvals required** - Notwithstanding any provisions of any law of the Province to the contrary, no approvals, notices or authorizations other than those specified in this Act shall be required with respect to the actions to be taken in compliance with this Act, including under the Financing Plan or in relation to the establishment of the Fair Allocation Plan, and the transactions and contracts authorized in or contemplated by this Act or the Financing Plan, including the incurrence of any Funding Obligation, any Disposition, any Pledge or in the payment and performance of any attendant or incidental contract and any related expenses incurred to facilitate the preparation and implementation of the Financing Plan.

(4) **Effect of invalidity after the Incurrence of any Funding Obligation** - Effective on the date that a Funding Obligation is incurred under this Act, if any provision of this Act is held to be invalid or is invalidated, superseded, replaced, repealed or expires for any reason, that occurrence shall not affect any action allowed under this Act that is taken by

---

[34] OPG would like the specific amendments related to OPG to be included in the Bill.]

any person who is or may become obligated or have duties that arise under this Act and any such action shall remain in full force and effect.

(5) **Severability** - If any Article, Section, paragraph or subparagraph of this Act or the application thereof to any person, circumstance or transaction is held by a court of competent jurisdiction to be unconstitutional or invalid, the unconstitutionality or invalidity shall not affect the constitutionality or validity of any other Article, Section, paragraph or subparagraph of this act or its application or validity to any person, circumstance or transaction, including the irrevocability of Transition Charges, the validity of the Regulatory Asset, the incurrence of any Funding Obligation, any Disposition, any Pledge, or the collection and recovery of Transition Charge Collections. To these ends, the Legislature hereby declares that the provisions of this Act are intended to be severable and that the Legislature would have enacted this Act even if any Article, Section, paragraph or subparagraph of this Act held to be unconstitutional or invalid had not been included in this Act.

Schedule 1

Guidelines for Estimates

[To be considered.]

Schedule 2

Requirements Applicable to Alternative Invoicing Agent/ Alternative Collection Agent

[To be considered.]

Schedule 3

Principles and Parameters for Establishing the Financing Plan

The following principles and parameters provide a guideline as to what a Financing Plan should address:

(1) in respect of each Reference Period, make reference to the allocations of Future Fair Share of Green Transition Benefits to each Reference Group contemplated by the Fair Allocation Plan;

(2) estimate IESO Funding Shortfalls for each Reference Period;

(3) consider alternative funding arrangements suitable to fund the estimated IESO Funding Shortfalls, including short term and/or long term Funding Obligations;

(4) consider quantities, maturities, payment obligations, prepayment or redemption rights and such other features of Funding Obligations so that payments made for a Reference Period reasonably correspond to the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

(5) if the anticipated amount of any Repayment (together with payments of other Finance Amounts) to be made in respect of a Reference Period would materially exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable Regulated Consumers under the then current Fair Allocation Plan, diligent efforts should be made to determine whether a Refinancing or deferral of such Repayment may be reasonably and cost-effectively effected based on then prevailing market terms, conditions an circumstances;

(6) reflect the assumptions and requirements specified in any contemplated Funding Obligation (e.g., any limit on the maximum amount of Transition Charges charged to a hypothetical Regulated Consumer relative to his or her monthly electricity bill, as prescribed by any rating agency that ascribes its credit rating to or in respect of the Funding Obligation);

(7) require the Financial Services Manager, for and on behalf of each Regulatory Asset Owner, to use [diligent efforts to manage Finance Amounts to be borne by Ratepayers];

(8) include a proposal regarding the compensation of the Financial Services Manager that reflects market terms and conditions; and

(9) [require that the Financial Services Manager report annually to the Ministry of Energy on the operation of the Financing Plan including, in particular, with respect to the amount and terms of the Funding Obligations incurred and the sufficiency of such Funding Obligations for the purpose of funding the estimated Funding Shortfalls in accordance with the Fair Allocation Plan.]

(10) incur Funding Obligations from time to time on the best terms available at such time for a financing transaction of the size and type contemplated, and having regarding to the following parameters:

a. whether the Absolute Assignees will require committed access to short term liquidity to cover estimated IESO Funding Shortfalls prior to incurring fixed term Funding Obligations, and the amount and repayment terms of any such required liquidity; provided that any Repayment required to be made under the terms of such short-term liquidity would not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

b. the basis upon which the Financial Services Agent will select the term to maturity of any other Funding Obligations; provided that any Repayments required to be made under the terms of such Funding Obligations should not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

c. the basis upon which the interest rates applicable to such Funding Obligations would be determined;

d. the reference capital or finance market in which such Funding Obligation would be incurred, including markets outside of Canada if considered by the Financial Services Agent to be appropriate in the circumstances;

e. the currency of payments under such Funding Obligations and, if the Funding Obligations are denominated in a currency other than Canadian dollars, the basis upon which the Financial Services Agent shall cause the applicable Absolute Assignee to enter into hedging transactions to mitigate currency risk, including acceptable minimum and maximum coverage levels, having regard to the availability of related derivatives having notional amounts corresponding to the repayment and maturity profile of such Funding Obligations;

f. the basis upon which the Financial Services Agent will select counterparties under any transaction to be entered into by an Absolute Assignee, including any paying agent, servicer, cash manager, liquidity provider, hedge counterparty, account bank, lender, note trustee, security trustee, paying agent, registrar/transfer agent, financial services agent, arranger or manager;

g. the basis upon which the Financial Services Agent will manage counterparty risk, including by providing for maximum counterparty exposure limits having regard to concentration, credit and other identified risks with respect to individual counterparties or countries;

h. the basis upon which the Financial Services Agent will negotiate and settle Finance Amounts, including the amount of any Redemption Amounts, Finance Reserve Deposits and Additional Funding Charges;

(11) the basis upon which Funding Obligations may be redeemed, prepaid, repurchased or otherwise affected, having regard for the need to minimize debt service charges and other Funding Costs, and the need to maintain a stable funding platform to finance the IESO Funding Shortfalls from time to time on a basis that is consistent with the allocations of Future Fair Share of Green Transition Benefits to applicable Reference Groups under the Fair Allocation Plan;

(12) the basis upon which any Repayments, Funding Costs and Redemption Amounts will be paid, including any defeasance, sinking fund or through other reserves or liquidity facilities;

(13) the basis upon which fees, charges, expenses, costs, indemnities, reimbursements and other amounts payable to or for the benefit of the Financial Services Agent and other agents and service providers to the Absolute Assignees may be determined, allocated and paid;

(14) the timing and basis upon which Finance Reserve Deposits and Finance Reserve Withdrawals may be made;

(15) the basis upon which any obligations for any other Additional Funding Charges may be incurred and paid;

(16) the basis upon which the cash flows arising from time to time or otherwise derived from the Regulatory Asset may otherwise be applied, including in relation to any counterparty enforcement and realization scenario;

(17) the transmittal to [the IESO] of information related to the amounts to be included in the determination of the Period Transition Charge for a Reference Period;

(18) the basis upon which any Disposition may be made or effected by an Absolute Assignee, including parameters for determining the purchase price for the interest in the Regulatory Asset that is the subject matter of such Disposition, and any consents and releases that may be usefully obtained in connection with such Disposition;

(19) describe the requirements applicable to any special purchase entity that will purchase an Investment Interest, including proposed capitalization, governance, and restrictions on their powers and activities; and

(20) the basis on which any Pledge may be given or effected.

[NTD: E&Y will need to see the guidelines of the Fair Allocation Plan set in reference to parameters that will allow it to establish a modeling curve]

- [**Inflation period**: (between November 2017 – and April 2022) bill increases need to be capped at inflation (assumed at 2% for modeling purposes)]

- [**Transition Period**: (May 2022- April 2027) bills increased at a consistent rate which is set so that the borrowing will not exceed the Trust's capacity, which is determined by the Finance Service Manager]

- [**Amortization Period**: (May 2027-April 2047) equitable distribution of Finance Amount among Regulated Consumers]

TOR_2528-#23107566-vpdf-_Fair_Hydro_Act_.pdf

CONFIDENTIAL AND PRIVILEGED

Preliminary Draft for Discussion Purposes Only

"Fair Hydro Act"

Article 1 – Purpose

The Province has and continues to encourage the construction and development of facilities for the long-term operation and generation of electricity in the Province using sustainable, lower carbon-based technologies such as new gas-fired generation, renewable facilities, energy from waste and biomass, including under the Province's various procurement, standard offer, feed in tariff and other similar programs (the "Green Generation Initiative"). The long-term benefits of the Green Generation Initiative accrue over time and have benefited and will continue to benefit present and future electricity consumers in the Province.

The ~~imputed~~out-of-market costs of the Green Generation Initiative are currently passed through to electricity consumers by way of a monthly adjustment amount (the "Green Costs Adjustment"), which in turn forms part of the overall adjustment calculated by the Independent Electricity System Operator ("IESO") pursuant to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* (the "Global Adjustment"). ~~The Global Adjustment is included as a charge billed to electricity consumers in their monthly electricity invoices.~~

The Green Costs Adjustment is currently determined each month by reference to the amounts paid by IESO to the generators of electricity in the Province under the Green Generation Initiative~~, which may be higher than prevailing market price for electricity. These differences~~. These amounts paid by the IESO arise because IESO has entered into long-term procurement contracts with such generators in order to provide them with ~~long-term price~~revenue certainty~~ for electricity~~, and in turn to encourage the generators to develop technologies and to construct and develop facilities consistent with the Green Generation Initiative. ~~In general, whenever amounts payable under these procurement contracts exceed the market price for electricity, the Green Costs Adjustment passes through the amount of such differences as part of the monthly charge to electricity consumers. Such amount then becomes available to IESO to meet its obligations under the procurement contracts.~~ It has been determined that the useful lives of many of the assets ~~encouraged by~~developed under the Green Generation Initiative will be ~~well~~ in excess of the respective terms of ~~the related~~their respective procurement contracts~~, and in many cases may extend over more than one generation of electricity consumers~~.

Since the benefits to past, present and future electricity consumers from the Green Generation Initiative will not necessarily coincide with the costs currently attributed through the Green Costs Adjustment, based on the respective ~~durations~~terms of the applicable procurement contracts, it has been determined that the rate at which the costs associated with the Green Generation Initiative should be passed through to ~~Retail~~Regulated Consumers (as defined in Article 2) should be more closely aligned with the benefits that such ~~Retail~~Regulated Consumers have derived and are expected to derive from the Green Generation Initiative over time. This realignment will be based on general principles and parameters that establish a reasonable basis for measuring and allocating the relative costs and benefits of the Green Generation Initiative equitably across present and future ~~Retail~~Regulated Consumers (the "Fair Allocation Plan").

If the Fair Allocation Plan determines that the equitable allocation of the costs associated with the Green Generation Initiative to the ~~Retail~~Regulated Consumers of a particular time period

should be reduced below the amount that currently would be charged based on the Green Costs Adjustment, then the amount payable by such ~~Retail~~Regulated Consumers and in turn available to IESO will, in the aggregate, be less than the amount payable by the IESO to the generators in respect of such period. In this case, IESO will need to obtain funding from another source to cover such a shortfall. If a funding obligation is incurred ~~by IESO~~ to cover such a shortfall during ~~one~~any period, the repayment of such funding obligation will be required in a future period, and any related repayments, finance costs, hedging costs and other transaction costs incurred will become payable in ~~one or more~~ future periods. In order for IESO to obtain a reliable and committed source of cash flows to enable IESO to repay such funding amounts when they become due and payable, this Act imposes irrevocable and non-bypassable financial obligations on ~~Retail~~Regulated Consumers to pay amounts incurred in respect of such funding obligations when they become due and payable and establishes a right to invoice and collect such amounts. The right and interest in and to collect such financial obligations will take the form of the Regulatory Asset contemplated in this Act, which will constitute property rights and interests. Interests in the Regulatory Asset may be sold and absolutely assigned by IESO to one or more financing entities, which in turn will finance their acquired interests by incurring funding obligations. The incurrence and payment of such funding obligations will be administered on behalf of such financing entities by a financial services ~~agent~~manager under the Financing Plan contemplated in this Act. ~~The Financing Plan will seek to reasonably match the payment obligations arising under such funding obligations, to be borne by the future Retail Consumers of the period in which such payment obligations become due, with the benefits of the Green Generation Initiative allocated to such future Retail Consumers under the Fair Allocation Plan.~~

The purpose of this Act is to establish the basis upon which intergenerational fairness can be achieved by charging the costs and benefits of the Green Generation Initiative to present and future ~~Retail~~Regulated Consumers on an equitable and cost effective basis.

Article 2 ~~-~~ Definitions

In this Act:

> "Absolute Assignee" means a person to whom a Regulatory Asset Owner effects a Disposition other than as security.
>
> "Actual" means, in relation to costs, expenses or payments in respect of Funding Obligations during a Reference Period, the actual amount of such costs, expenses or payments paid or made (net of any Finance Reserve Withdrawals applied to pay such amounts), which amounts shall be recorded by the Financial Services ~~Agent~~Manager whose records shall be determinative for the purposes of this Act except to the extent of a manifest calculation error.
>
> "Additional Funding Charges" means, for a Reference Period ~~in respect of an Absolute Assignee,~~ the fees, charges, expenses, costs, indemnities, reimbursements and other amounts (including any applicable tax amounts) that are or become payable by or on behalf of ~~the~~any Absolute Assignee during the Reference Period and that were incurred or committed to directly or indirectly by the Absolute Assignee in connection with the incurrence of Funding Obligations under the Financing Plan (whether at the time of such incurrence or over the term of the Funding Obligation and whether directly or indirectly), including ~~(without duplication and without limitation): (a) any payment required under an ancillary agreement entered into by, or by the Financial Services Agent on behalf of, the~~

~~Absolute Assignee under the Financing Plan; (b) any federal, provincial or local taxes, payments in lieu of taxes, franchise fees or license fees imposed on the Absolute Assignee or incurred by on behalf of the Absolute Assignee under any obligation to pay tax gross-up amounts to counterparties under Funding Obligations; (c) any amounts payable to the Financial Services Agent, including amounts payable to its advisors and outside counsel; (d) any amounts incurred to prepare, confirm, amend and implement the Financing Plan; (e) any amounts payable to any Alternative Collection Agent or Alternative Servicer, including amounts payable to each's advisors and outside counsel; (f) any amounts incurred to make the calculations, determinations or confirmations to be made by or on behalf of the Absolute Assignee; (g) any servicing fees and expenses; (h) any trustee fees and expenses; (i) any legal fees, expenses and disbursements; (j) any accounting fees and expenses; (k) any administrative fees and expenses; (l) any manager or director fees of a Financing Entity; (m) any registration fees and expenses; (n) any placement fees, underwriting fees, fees and related issuing expenses; (o) any rating agency fees; and (p) any other related fees, charges, expenses, costs, indemnities, reimbursements and other amounts that are approved in good faith by the Financial Services Agent for recovery and payment under the Financing Plan~~without limitation such amounts as may be prescribed.

~~"Allocation Factor" means, in respect of a Retail Consumer for a Reference Period, the number (expressed as a percentage) determined in respect of the Retail Consumer by the OEB based on the application of the Attribution Methodology in respect of the Reference Period.[1]~~

"Alternative ~~Collection Agent~~Servicer" means a person appointed under Section ~~5(11) and in compliance with the requirements set out in Schedule 2 to assume the collection activities and activities of any Electricity Distributor or IESO under Article 5, as agent for and on behalf of the Regulatory Asset Owners."Alternative Servicer" means a person appointed under Section~~ 4(8) to assume the obligations of the Servicer under Article 4, as agent for and on behalf of the Regulatory Asset Owners.

"Assessed Past Green Transition Costs" means, in respect of a Measurement Date, the aggregate of the imputed costs of the Green Generation Initiative (expressed as an equivalent to current dollars), as reflected in the calculation of the Green Costs Adjustment, which have been charged to ~~Retail~~Regulated Customers through the Global Adjustment on or prior to the Measurement Date.

"Attribution Methodology"~~[2]~~[1] means the methodology specified in the Fair Allocation Plan for allocating the Period ~~Transition~~Finance Charges for a Reference Period to ~~individual Retail~~Regulated Consumers~~ of the applicable Retail Consumer Group based on its Allocation Factor~~.

"Collected Amount Adjustment" means, in respect of a True-Up Period, the amount (which may be a negative amount) calculated by the Servicer or the Financial Services ~~Agent~~Manager, as applicable, equal to (a) the Estimate of the Finance Amount for the True-Up Period, minus (b) the sum of all Transition Charge Collections for the True-Up Period~~.~~[3] and minus [(c) the amounts by which amounts remitted by Electricity

~~[1] Confirm that this will be based on forecast volumes of demand (like RPP). To the extent amounts do not get recovered due to differences between forecast and actual, those may be identified and caught by the True-Up.~~

~~[2]~~[1] This allocation may be volumetric or some combination of a flat amount and a volumetric charge. Further discussion is required. H&W has raised a concern regarding possible adverse changes after the fact and rating agency considerations. Consider whether hard-coding in the legislation makes sense.

Distributors pursuant to Section 5(4) exceeded the corresponding amount of Transition Charges Actually paid by Regulated Consumers.][2]

"Collective Rights Agreement" means an agreement among all of the Regulatory Asset Owners (including each Absolute Assignee) ~~and~~, each Pledgee, and the Financial Services Manager that governs the enforcement of their respective rights and interests in, to and under the Regulatory Asset on a coordinated and collective basis.[4]

"Delegate" means ~~the~~any of the following person or persons designated in writing from time to time by the Minister of Energy to undertake the actions and perform the responsibilities ascribed to the "Delegate" under this Act; ●[3].

"Disposition" means an assignment, transfer, conveyance, sale, contribution, set-over, exchange or other disposition ~~of an Investment Interest~~(or, in the case of the IESO Funding Shortfall, a release by IESO of its right to recover such amount in order to enable an Absolute Assignee to recover such amount) of (a) IESO's right to recover all or any portion of an IESO Funding Shortfall or (b) an Investment Interest, in each case to an Absolute Assignee pursuant to a Disposition Document.

"Disposition Document" means the agreement, deed, conveyance, instrument or other document under which ~~a Regulatory Asset Owner~~IESO or an Absolute Assignee effects a Disposition to an Absolute Assignee.

"Electricity Distributor" means~~, in respect of a Service Area, the~~ a rate regulated distributor licensed under Part V of the *Ontario Energy Board Act, ~~1998~~* ~~in respect of such Service Area,~~*1998*, together with and its successors.

"Electricity Distributor Remittances" means, for an Electricity Distributor on a Remittance Date, all Transition Charge Collections received or deemed to be received by the Electricity Distributor prior to the Remittance Date and that have not otherwise been remitted to ~~IESO~~Servicer or if applicable the Alternative Collection Agent in accordance with Section 5(3), including the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5.[4]

"Electricity Invoice" means an invoice issued by ~~any of a~~an Electricity Distributor (or in its stead, by an Alternative ~~Servicer~~Collection Agent), by the Servicer or by a Retailer, in each case to a ~~Retail~~Regulated Consumer that is served by the Electricity Distributor's distribution system in respect of electricity charges, including the cost of electricity, delivery and regulatory charges and related services and amounts incurred, assessed or charged in respect of connectivity to ~~a distribution network in the~~such Electricity Distributor's ~~designated Service Area~~distribution system and in respect of applicable Transition Charges to be charged to the ~~Retail~~Regulated Consumer under this Act.

[32] This ~~would~~is intended to pick up adjustments based on actual collection experience, changes in the ~~retail consumer~~Regulated Consumer base, changes in the actual costs (versus earlier estimates) included in the Transition Charge calculation, etc. The actual calculation needs work.

[4] ~~Consider adding the Financial Services Agent and the Servicer as parties.~~

[3] Placeholder for delegation once deterermined.

[4] Suggestion is that LDCs remit based on estimates and then true-up, based on current arrangements for remittances by LDCs to IESO. *

"Estimate" means (a) in relation to costs, expenses or payments in respect of Funding Obligations or any Finance Amount for a Reference Period, the estimated amount of such costs, expenses or payments determined by the Financial Services ~~Agent~~Manager; and (b) in relation to an assessment of the benefits of the Green Generation Initiative to ~~any Retail Consumer Group~~Regulated Consumers, the estimated value (in current dollars) of such benefits determined by the Delegate, in each case having regard to the applicable principles and parameters set out in Schedule 1, which estimated amounts shall be determinative as the applicable estimate for the purposes of this Act except to the extent of a manifest calculation error.

"Estimated Future Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that are expected to accrue to ~~Retail~~Regulated Consumers from the establishment and implementation of the Green Generation Initiative during the period from the Measurement Date to the Program-End Date.

"Estimated Past Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that have accrued to ~~Retail~~Regulated Consumers from the establishment and implementation of the Green Generation Initiative up to and including the Measurement Date.

"Fair Allocation Plan" has the meaning given in Article 1.

"Finance Amount" means, for a Reference Period ~~in respect of an Absolute Assignee~~, the sum (without duplication) of the following amounts that are or become payable during the Reference Period in respect of ~~the~~any Absolute Assignee: (a) Repayments; (b) Net Funding Costs; (c) Redemption Amounts; (d) Finance Reserve Deposits; and (e) Additional Funding Charges.

"Finance Reserve Deposits" means, for a Reference Period, the amount by which (a) deposits made or to be made during the Reference Period in order to pre-fund, collateralize, over-collateralize or establish reserves for the ultimate payment of Funding Obligations or for related contingencies specified in the Financing Plan, exceed (b) any Finance Reserve Withdrawals.

"Finance Reserve Withdrawals" means, for a Reference Period, the amount withdrawn during the Reference Period from deposits previously made to pre-fund, collateralize, over-collateralize or establish reserves for the payment of Funding Obligations or to pay amounts in respect of related contingencies that had been specified in the Financing Plan.

"Financial Services ~~Agent~~Manager" means OPG or, following any Replacement Event involving OPG, such other person ~~or persons~~ who may be appointed as the ~~Financial Services Agent~~financial services manager of the Absolute Assignees under the Financing Plan in compliance with the requirements set out in Schedule 2.[5]

[5] ~~Discuss whether to accommodate multiple~~There must only be one Financial Services ~~Agents. MOE to consider~~Manager.

"Financing Entity" means ~~an~~any entity established in accordance with the Financing Plan to ~~acquire all or an interest in the Regulatory Asset as~~be an Absolute Assignee and ~~to enter into Funding Obligations to finance such acquisition under the Financing Plan~~that is managed by the Financial Services Manager.[6]

"Financing Plan" means the written plan prepared by the Financial Services ~~Agent on behalf of each Absolute Assignee in compliance with Article 9 to set forth the basis upon which, among other things: (a) any Disposition may be made to, financed by or effected by an Absolute Assignee; (b) any Funding Obligations may be incurred by an Absolute Assignee, including any Refinancing; (c) any Pledge may be given or effected; (d) any Funding Obligations may be redeemed, prepaid, repurchased, amended or otherwise effected; (e) any obligations for Additional Funding Charges may be incurred and paid; (f) any Repayments, Funding Costs and Redemption Amounts may be paid or provided for; (g) any Finance Reserve Deposits may be made; (h) any Finance Reserve Withdrawals may be made; (i) the establishment and operation of any Financing Entity may be effected; and (j) the cash flows arising from time to time or otherwise derived from an Investment Interest may otherwise be applied,~~Manager in accordance with Article 9, as the same may be amended, amended and restated or terminated by the Financial Services ~~Agent~~Manager in ~~compliance~~accordance with Article 9 from time to time.

~~"Funding Costs" means, for a Reference Period in respect of an Absolute Assignee, the amount by which (a) the aggregate of all interest and other periodic finance charges accruing due and becoming payable or paid by or on behalf of the Absolute Assignee during the Reference Period in respect of its Funding Obligations, including any standby commitment fees or charges paid to any lender, credit enhancement fees or charges paid to any credit enhancer, liquidity fees or charges paid to any liquidity provider, amounts (including any termination payments) paid under derivatives and any deposit amount made or required to fund or replenish a debt service reserve account or other account established under any indenture, ancillary agreement or other financing document relating to its Funding Obligations, exceeds (b) the aggregate of all amounts received by or on behalf of the Absolute Assignee during the Reference Period in respect of a Funding Obligation, including from any reimbursement of standby commitment fees or charges paid by a lender, any reimbursement of credit enhancement fees or charges paid by any credit enhancer, any reimbursement of liquidity fees or charges paid by any liquidity provider, any amounts (including any termination payments) paid to the Absolute Assignee under derivatives and any Finance Reserve Withdrawal made or required to be made from a debt service reserve account or other account established under any indenture, ancillary agreement or other financing document relating to the payment of the Funding Costs payable in respect of a Funding Obligation for the Reference Period.~~

"Funding Obligation" means, in respect of an Absolute Assignee, each payment obligation (including each obligation to pay: principal, interest, premiums and other financing charge payments; pass-through payments; payment obligations arising under

[6] MOE to confirm that the legislation will provide that any Financing Entity that is a wholly-owned subsidiary of OPG (1) would not be subject to Part VI of the *Electricity Act* (Ontario) and (2) in the case of any Financing Entity that is a trust, any income of such trust (for purposes of the *Income Tax Act* (Canada) or the *Taxation Act, 2007* Ontario)) which is paid or made payable to OPG or a wholly-owned subsidiary of OPG as a beneficiary of such trust will not be taken into account in calculating the amount of a payment required to be made by OPG (or such subsidiary) by section 89 or 90 of the Electricity Act.

or in respect of derivatives; payment obligations owing to service providers, Financial Services ~~Agents~~Managers, finance entity intermediaries, capital markets intermediaries, advisors, lenders, credit enhancement providers, liquidity providers, disbursement counterparties, regulatory agencies and rating agencies; and all Additional Funding Charges) incurred by or on behalf of the Absolute Assignee under the Financing Plan, including any Refinancing of another such payment obligation incurred by or on behalf of such Absolute Assignee.

"Future Fair Share of Green Transition Benefits" means, in respect of a Measurement Date, the sum of (a) the Over-Assessed Amount; and (b) the Estimated Future Green Transition Benefits, in each case as of the Measurement Date.

~~"Generator" means a generator of electricity that is subject to the *Electricity Act, 1998*.~~

"Global Adjustment" has the meaning given in Article 1.

"Green Costs Adjustment" has the meaning given in Article 1.

"Green Generation Initiative" has the meaning given in Article 1.

"IESO" means the Independent Electricity System Operator created pursuant to Part II of the *Electricity Act, 1998*.

~~"IESO Available Amount" means, for a Reference Period, the lesser of (a) the amount (if any) by which (i) the Maximum Transition Charge Amount for the Reference Period, exceeds (ii) Period Finance Amount for the Reference Period, and (b) the IESO Retained Interest Amount as of the [35th] day prior to the first day of a Reference Period plus any IESO Financing Costs that are due and payable and remain unpaid as of the [35th] day prior to the first day of a Reference Period.~~

"IESO Electricity Distribution Receipts" means, for a month, the sum of all amounts payable by Electricity Distributors to IESO , during the month pursuant to section • of the *Electricity Act*~~.~~ in respect of Regulated Consumers. **[NTD: IESO indicates that it likely does not work to express in regards to "amounts payable by the LDCs" because settlement between the IESO and LDCs entails payments by LDCs to the IESO and then credits/debits by the IESO to LDCs to reflect RPP shortfalls/overages.]**

~~"IESO Financing Costs" means, for a Reference Period, the financing costs (if any) incurred by IESO pursuant to Section 8(4) in order to finance its ownership of the IESO Retained Interest during the Reference Period.~~

"IESO Funding Shortfall" means, for a month, the amount, if any, by which (a) the IESO Electricity Distribution Receipts that would be payable to IESO for the month if determined without regard to this Act and without regard to the changes made to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* with respect to the Global Adjustment concurrently with this Act, exceeds (b) the IESO Electricity Distribution Receipts payable to IESO for the month[7]~~; provided that if the amount of any such shortfall is determined to have been based on incomplete information, variances or estimates that were inaccurate, an adjustment shall be made in determining the amount~~

[7] ~~This has been recast to recognize that the shortfall in the first 4.5 years could exceed the entire GA amount. A more refined approach to describing the concept may be considered.~~

~~of any subsequent shortfall for the month in which the inaccuracy is identified. .~~To the extent reasonably necessary to give effect to this Act, or any transaction contemplated hereby, IESO shall calculate the IESO Funding Shortfall for any month taking into account information provided by the Electricity Distributors and (i) such calculation shall be binding for all purposes; and (ii) any demonstrated inaccuracy in the calculation for any month (including any such resulting from inaccuracies in the information provided by Electricity Distributors) shall be accounted for by adjusting the IESO Funding Shortfall for a subsequent month.

"IESO Recovery" means each amount ~~remitted to IESO (including~~received by IESO ~~retaining such amount) in respect of the IESO Retained Interest pursuant to Section 5(6)(b)~~in accordance with its right to recover IESO Funding Shortfalls pursuant to section 25.33 of the Electricity Act and Ontario Regulation 430/04, as amended, and "IESO Recoveries" means, collectively, all such amounts received by IESO.[7]

"IESO Remittances" means, for a Settlement Date, all Electricity Distributor Remittances received by IESO or if applicable the Alternative Collection Agent prior to the Settlement Date and that have not otherwise been remitted to the Regulatory Asset Owners (each with respect to its Regulatory Asset) in accordance with Section 5(6), including the proceeds of any enforcement action undertaken by IESO or if applicable the Alternative Collection Agent to recover payment of amounts payable by Electricity Distributors to IESO in accordance with Article 5.

"IESO ~~Retained Interest" means IESO's right, title and ownership interest (if any) in, to and under the Regulatory Asset, which shall exclude each Investment Interest."IESO Retained~~Regulatory Interest Amount" means, on a day, (a) the sum of all IESO Funding Shortfalls incurred prior to the day, ~~plus (b) the sum of all IESO Funding Costs incurred prior to the day in accordance with Section 8(4), minus (c~~minus (b) the net proceeds received by IESO from or on behalf of each Absolute Assignee as consideration for the Disposition of each Investment Interest paid to IESO by or on behalf of such Absolute Assignee prior to the day, and minus (~~d~~c) the IESO Recoveries received by IESO prior to the day.

"IESO Successor" means the entity appointed by the Province to succeed to the rights and obligations of IESO as the entity responsible for managing the Province's electricity system.

"Investment Interest" means an ownership interest in, to or under the Regulatory Asset that is acquired by an Absolute Assignee pursuant to a Disposition~~, which ownership interest may include (without limitation) ownership of a specified portion on a divided basis of the assets comprising the Regulatory Asset and ownership of an undivided ownership interest in the Regulatory Asset, in each case as may be described in the applicable Disposition Document~~.

"Investment Remittance" means, for a month, the lesser of (a) the aggregate amount of all IESO Remittances for the month, and (b) the sum of the Finance Amounts due and payable by all Absolute Assignees in respect of the month.

[7] IESO will be entitled to record the IESO Funding Shortfall amount in a variance account. The OEB will eliminate and dispose of the variance account balance as part of the RPP adjustment process under the OEB Act , with an applicable OEB accounting order. See Article 8 for corresponding adjustments based on Dispositions. These will need to be tied together.

~~"Maximum IESO Recovery" means, for a month, the amount (if any) by which (a) the IESO Remittances for the month, exceed (b) the sum of all Finance Amounts that are due and payable by Absolute Assignees in respect of the month.~~

~~"Maximum Transition Charge Amount" means, for a Reference Period, (a) the aggregate amount of Future Fair Share of Green Transition Benefits that are allocable to the applicable Retail Consumer Group in accordance with the Fair Allocation Plan, divided by (b) the applicable Reference Period Length.~~

"Measurement Date" means [Insert relevant date around the Legislation Implementation Date] and any other date specified as such under the Fair Allocation Plan.

"Net Funding Costs" means, for a Reference Period, the amount by which (a) the aggregate of all interest, scheduled principal and other periodic finance charges accruing due and becoming payable or paid by or on behalf of any Absolute Assignee during the Reference Period in respect of its Funding Obligations, including such amounts as may be prescribed, exceeds (b) the aggregate of all amounts received by or on behalf of the Absolute Assignee during the Reference Period in respect of the Funding Obligations referred to in (a), and such other or different amounts as may be prescribed.

"OEB" means the Ontario Energy Board, together with its successors.

"OPG" means the corporation incorporated as Ontario Power Generation Inc. under the *Business Corporations Act* on December 1, 1998, together with its successors.

"Over-Assessed Amount" means, in respect of a Measurement Date, the amount (if any) by which (a) the Assessed Past Green Transition Costs, exceeds (b) the Estimated Past Green Transition Benefits, each as determined as of the Measurement Date.

"Period Finance Charges" means, for a Reference Period, the sum of (a) the Estimate of the Finance Amount ~~and~~ (b) the True-Up Amount in respect of the ~~immediately preceding Reference Period. "Period Transition Charges" means, for a Reference Period, the sum of (a) the Period Finance Charges for the Reference Period and (b) the IESO Available Amount for the Reference Period.~~ applicable True-Up Period and (c) [an adjustment amount as may be prescribed to account for estimated collection shortfalls and collection delays in respect of amounts under (a) and (b).]

"Pledge" means, in respect of an Investment Interest of an Absolute Assignee, a lien, mortgage, charge or security interest granted to or in favour of a Pledgee by the Absolute Assignee in, to and over all or a specified portion (including a specified portion on a divided basis or by way of an undivided interest) of the Investment Interest.

"Pledgee" means a person to whom an Absolute Assignee grants a Pledge.

"Program End Date" means •, [2047].

"Province" means the Province of Ontario.

"Redemption Amount" means the amount payable by or on behalf of an Absolute Assignee to redeem, prepay or repurchase a Funding Obligation incurred by or on behalf of the Absolute Assignee, including any premium, make-whole or other additional

amount becoming payable under the Funding Obligation to give effect to such redemption, prepayment or repurchase.

"Reference Period" means (a) the period from (and including) the Measurement Date to (and including) ~~June~~October 30, 2017, (b) each six month period commencing [May 1st and November 1st] thereafter and (c) any other period specified as such in the Fair Allocation Plan.

~~"Reference Period Length" means, for a Reference Period, the number of months in the Reference Period.~~

"Refinancing" means, in respect of a Funding Obligation incurred by or on behalf of an Absolute Assignee, that the Funding Obligation is repaid or repurchased for cancellation by or on behalf of the Absolute Assignee by applying the net proceeds obtained by the Absolute Assignee incurring one or more other Funding Obligations.

"Regulated Consumer" means consumers of electricity in the Province [as prescribed][8].

"Regulated Consumer Group" means, in relation to a Reference Period, the Regulated Consumers who receive Electricity Invoices during the Reference Period.

"Regulatory Asset" means the property rights and interests described in Section 6(1), which collectively is comprised of ~~the IESO Retained Interest and~~ each Investment Interest.

"Regulatory Asset Account" means (a) for an Electricity Distributor, any bank account into which the Electricity Distributor deposits or receives Transition Charge Collections; and (b) for the Servicer, any bank account into which ~~IESO deposits or receives Transition Charges, Electricity Distributor Remittances or IESO Remittances; and (c) if applicable, for the Alternative Collection Agent, any bank account into which the Alternative Collection Agent~~Servicer deposits or receives Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances.

"Regulatory Asset Owner" means ~~each of (a) IESO, as owner of (and to the extent of) the IESO Retained Interest and (b)~~ each Absolute Assignee, as owner of its Investment Interest or Investment Interests, and "Regulatory Asset Owners" means collectively ~~IESO and~~ each such Absolute Assignee, who together own the entirety of the Regulatory Asset and are required to exercise their individual rights of ownership in accordance with Section 6(7).

"Related Rights" means, with respect to a Regulatory Asset Owner's Investment Interest, all rights of any kind (whether in tort, contract or otherwise) that attach or are attendant or incidental to any of the other property rights or interests that comprise such ~~Regulatory Asset~~Investment Interest.

"Remittance Date" means, in respect of an Electricity Distributor, each day on which it is required to remit Electricity Distribution Remittances to ~~IESO~~Servicer or if applicable the Alternative Collection Agent as specified in accordance with any Funding Obligation or, if no such day is specified in accordance with any Funding Obligation, then the ~~Business Day~~business day preceding each Settlement Date.

[8] To be included in the legislation once settled.

"Repayment Obligation" means an obligation to repay, redeem or repurchase, or to provide for the repayment, redemption or repurchase (including by making a related Finance Reserve Deposit) of, all or a portion of the amount advanced to the Absolute Assignee under a Funding Obligation.

"Repayment" means a payment by an Absolute Assignee made to satisfy a Repayment Obligation, other than to the extent that the payment is made by applying the proceeds of a Refinancing or from Finance Reserve Withdrawals.

"Replacement Event" means any event specified as such in a Funding Obligation.

~~"Retail Consumer" means:~~

~~(a) present and future consumers of electricity in the Province who are (i) consumers designated under section 79.16 of[, and O.Reg 95/05 under,] the *Ontario Energy Board Act, 1998*, or (ii) hold or are deemed to hold an "eligible account" under the *Ontario Rebate for Electricity Consumers Act, 2016*, other than any such consumer who has a contract with a Retailer who uses Retailer Consolidated Billing; and~~

~~(b) present and future Retailers who use Retailer Consolidated Billing,~~

~~and each case includes all such consumers and Retailers who are connected, directly or indirectly and whether a customer of an Electricity Distributor or not, to the transmission and distribution system assets located in the Province and who are taking electric delivery service within the Province, whether or not such retail consumers produce their own electricity or purchase electric generation services from a provider of electric generation services other than the owner of the Province's transmission and distribution system assets and whether or not the transmission and distribution system assets continue to be owned or operated by Electricity Distributors or operated by IESO.~~

~~"Retail Consumer Group" means, in relation to a Reference Period, the Retail Consumers who receive Electricity Invoices during the Reference Period.~~

"Retailer" means a person who is licensed under Part V of the *Ontario Energy Board Act, 1998* to retail electricity.

[["Retailer Consolidated Billing" has the same meaning as in the *Retail Settlement Code* issued by the Ontario Energy Board.]]

~~"Service Area" means, in respect of an Electricity Distributor, the geographic area or region in which it is licensed to distribute electricity in accordance with the *Electricity Act, 1998*.~~

"Servicer" means IESO or IESO Successor, as agent for and on behalf of the Regulatory Asset Owners, for the purposes set forth in Article 4.

"Settlement Date" means the [last ~~Business Day~~business day of any month].

"Transition Charge" means, ~~for a Retail~~the amount recoverable from a Regulated Consumer in respect of a Reference Period~~, (a) the Period Transition Charge, (b) multiplied by its Allocation Factor in respect of the Reference Period, divided by (c) the~~

~~applicable Reference Period Length.~~[9], being the Period Finance Charge as allocated to such Regulated Consumer in accordance with Article 4(3) on a monthly basis. **[Note that this allocation will be based on the OEB process for determining the volumetric rate as part of the RPP process (see s. 4(2)). The OEB will determine volumetric rate based on forecast consumption, number of consumers, etc. to recover the Period Finance Charges.]**

"Transition Charge Collection" means any amount received **[or deemed by this Act to have been received]** upon the collection of a Transition Charge paid by or on behalf of a ~~Retail~~Regulated Consumer, including any proceeds arising from the exercise and enforcement of any related rights and interests under or in respect of the Regulatory Asset.

"True-Up Amount" means, in respect of a Reference Period, the amount (which may be a negative amount) calculated by the Financial Services ~~Agent~~Manager equal to (a) the Actual Finance Amount for such related True-Up Period, minus (b) the Estimate of the Finance Amount for the related True-Up Period, ~~minus (b) the Actual Finance Amount for such related True-Up Period,~~ plus (c) the Collected Amount Adjustment for such related True-Up Period.[10]

"True-Up Period" means, in relation to a Reference Period, the ~~period from and including the [30th] day~~ immediately preceding ~~the first day of the Reference Period, to but excluding the [30th] day immediately preceding the last day of the~~ Reference Period.[11]

"Undertaking of ~~the Lieutenant Governor in Council~~Her Majesty in right of Ontario" means the undertaking of ~~the Lieutenant Governor in Council~~Her Majesty in right of Ontario given under Section 11(2).[12]

Article 3 – Transition Charges

(1) **~~Retail~~Regulated Consumer Obligation to Pay a Transition Charge** – Each ~~Retail~~Regulated Consumer shall pay each Transition Charge charged to it in any Electricity Invoice issued to such ~~Retail~~Regulated Consumer by its Electricity Distributor

[9] Note that Transition Charges will be calculated by reference to Funding Obligations and Finance Amounts incurred under the Financing Plan. The directive will be that no payment obligations will be incurred for payment before 2022, to accommodate the "Fair Adjustment".

[10] True-up calculation is under consideration. In this summary, a calculated true-up amount is contemplated to be included in the Period Finance Amount calculation, in order to achieve a sum certain and actionable debt. The suggestion is that the true-up mechanism be based generally on a calculation process to be described in the Regulation, which would require Transition Charges to be reviewed and adjusted semi-annually (or more frequently) to ensure the expected recovery of amounts sufficient to timely provide all payments in respect of Finance Amounts. It has been proposed that the scope of the true-up will exclude any 'leakage' at the Financing Entity Level (e.g., entity-level tax; litigation; losses) but will include shortfalls that are currently socialized through the LDC/IESO system. Note that the proposal to include a section detailing the true-up mechanism (Oslers 3(6) has not been included here since the outcome of the calculation is already built into the Period Finance Amount concept.

[11] Timing of calculation under consideration, given that amount will need to be reflected in customer invoices.

[12] Under consideration.

or by an Alternative Servicer under Section 4(1), in each case on the terms of payment specified in the related Electricity Invoice.

(2) Indebtedness of ~~Retail~~Regulated Consumers – Until paid, a Transition Charge charged to a ~~Retail~~Regulated Consumer in an Electricity Invoice shall, together with any applicable late payment fees and finance charges arising under the terms of the Electricity Invoice with respect to such Transition Charge, constitute non-bypassable indebtedness of the ~~Retail~~Regulated Consumer to the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset. Such indebtedness shall constitute a single and separate[~~8~~13] debt obligation owing by the ~~Retail~~Regulated Consumer, which subject to Article 5 may be enforced independently from any other payment obligation or indebtedness owing by the ~~Retail~~Regulated Consumer under the Electricity Invoice or otherwise.[~~9~~14]

(3) No Set-Off or Reduction – A ~~Retail~~Regulated Consumer may not set-off or reduce (by counterclaim, defense or otherwise) the amount payable by it in respect of any Transition Charge, including any set-off against or in respect of any amount owing or becoming payable to such ~~Retail~~Regulated Consumer by its Electricity Distributor, any Regulatory Asset Owner or any other person.

(4) Allocation of ~~Retail~~Regulated Consumer Payments – If an Electricity Distributor receives a payment made by or on behalf of a ~~Retail~~Regulated Consumer in respect of amounts due and payable under one or more Electricity Invoices that is less than the total amount payable thereunder, such payment shall be allocated on a *pro rata* basis to the payment of related Transition Charges and other invoiced amounts and the amount so allocated as a payment of related Transition Charges shall be deemed to constitute a Transition Charge Collection.

(5) Transition Charges are Irrevocable – The Transition Charges arising under or in respect of Funding Obligations ~~incurred under the Financing Plan~~ (including any adjustments based on modifications to such Funding Obligations made in compliance with the Financing Plan or as a result of amendments to the Financing Plan made in accordance with Section 9(3)) are deemed to be irrevocable, final and effective without any further action, except to the extent of manifest calculation error. For greater certainty, a Transition Charge may include Finance Amounts for a Reference Period regardless of whether ~~or not~~ the payment of such Finance Amounts are inconsistent with the Fair Allocation Plan applicable at the time such payments are due and payable, and regardless of whether ~~or not~~ the related Funding Obligation was properly incurred under the Financing Plan. In no case shall a Funding Obligation incurred under the Financing Plan be affected by a subsequent amendment to the Fair Allocation Plan.

(6) True-Up of Transition Charges – [See True-Up Amount].

Article 4 – Invoicing of Transition Charges

[~~8~~13] Determine if this is critical for rating and markets. Logistics under consideration.

[~~9~~14] Torys has also suggested that deemed conditions of licenses for distributors, retailers and unit sub-metering providers, could be included as conditions, to require them to collect and remit amounts in accordance with this legislation. Consider if it is helpful to integrate the existing regulatory scheme for invoicing and collections (regarding RPP) in the legislation.

(1) **Inclusion of Transition Charges in Electricity Invoices** – Each Electricity Distributor and if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, specify the Transition Charge to be charged to a ~~Retail~~Regulated Consumer pursuant to Section 4(4) in respect of a related Reference Period in each Electricity Invoice[15] issued by the Electricity Distributor or if applicable by the Alternative Servicer to the ~~Retail~~Regulated Consumer in respect of such Reference Period. Upon the inclusion of a Transition Charge in an Electricity Invoice, the obligation to pay such amount shall be binding on the applicable ~~Retail~~Regulated Consumer.

(2) **Calculation of the Period ~~Transition~~Finance Charge** – Not later than [35] days prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services ~~Agent~~Manager on its behalf) shall provide the OEB with written notice of each Estimate of a Finance Amount payable by it or on its behalf in respect of the Reference Period~~. [35] days prior to the first day of a Reference Period, IESO or Successor IESO if applicable shall specify the IESO Retained Interest Amount and any IESO Financing Costs that are due and payable and remain unpaid on such day~~. Not later than one month prior to the first day of a Reference Period, the ~~OEB~~Financial Services Manager on behalf of each Absolute Assignee shall calculate the Period ~~Transition~~Finance Charge applicable to the Reference Period ~~based on the calculations and information set forth in such written notices received from the Absolute Assignees and based on~~having regard to such amounts specified by ~~IESO or Successor IESO~~the Servicer, which calculations, information and amounts shall be determinative, except to the extent of manifest calculation error or misstatement.

(3) ~~**Calculation and Attribution of**~~**Basis for Attributing Transition Charges** – Not later than 25 days prior to the first day of a Reference Period, the OEB shall ~~apply the Attribution Methodology to determine the Allocation Factor for each Retail Consumer of the applicable Retail Consumer Group~~determine a [Fair Hydro Recovery Rate] (on a volumetric basis) on which Electricity Distributors will attribute Transition Charges to consumers under 4(4).

(4) **Notice of Transition Charges** – Not later than 20 days prior to the first day of a Reference Period, the OEB shall inform each Electricity Distributor and if applicable any Alternative Servicer of the [Fair Hydro Recovery Rate] to be applied by the Electricy Distributor to attribute Transition Charges to ~~be specified~~each Regulated Consumer who is served by the Electricity Distributor for inclusion in the Electricity Invoices to be issued to ~~each Retail Consumer of the applicable Retail Consumer Group who has a billing address in the Electricity Distributor's Service Area.~~the Regulated Consumers.

(5) **Adjustments** – The amount of any Transition Charge charged to a ~~Retail~~Regulated Consumer and specified as such in an Electricity Invoice shall be determinative of the amount of indebtedness created thereby and owing in respect of such Transition Charge, except to the extent of any manifest calculation error.

(6) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 4 in the same manner and to

[15] Intention is to include bills issued to eligible consumers served by unit sub-metering providers, retailers and the IESO – not just distributors and to address the inclusion of Transition Charges in the paperwork from the IESO to the LDC in a manner that is consistent with the current process of how the IESO bills LDCs.

the same extent as such Electricity Distributor, including the obligation under Article 4 to impose, attribute, charge, bill and invoice the Transition Charges.

~~(7)~~ ~~**IESO Successor** – Any IESO Successor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of IESO under Article 4 in the same manner and to the same extent as IESO, including the obligation to calculate and provide notice of Transition Charges.~~

(7) ~~(8)~~ **Appointment of an Alternative Servicer** – If a Replacement Event occurs in respect of any Electricity Distributor, ~~the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Servicer to~~IESO shall perform some or all of the obligations and duties required to be undertaken by such Electricity Distributor under this Article ~~4, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Servicer shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor.~~ 4. Any Electricity Distributor that is replaced under this Section 4(~~8~~7) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in the performance of such obligations and duties to ~~the Alternative Servicer~~IESO and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit ~~the Alternative Servicer~~IESO or a person designated by IESO to perform such obligations and duties on behalf of the Regulatory Asset Owners.

(8) ~~(9)~~ **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, the Servicer, Alternative Servicer or any other person who may be authorized to issue Electricity Invoices to ~~Retail~~Regulated Consumers for a failure to impose, attribute, charge, bill or invoice Transition Charges or to otherwise comply with this Act. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure and may make any interim or final order it thinks fit in this regard.

(9) ~~(10)~~ **No Set-Off or Reduction –** No Servicer or Electricity Distributor may set off or reduce (by counterclaim, defence or otherwise) the amount payable by it pursuant to this Article 4.

(10) ~~(11)~~ **Regulations** – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Servicer to ensure that Transition Charges are properly charged to ~~Retail~~Regulated Consumers and specified as such in Electricity Invoices.

Article 5 – Collections and Remittances

(1) **Duty to Collect as Agent** – Electricity Distributors or if applicable any Alternative Collection Agent shall, as an agent of the ~~Regulatory Asset Owners~~Servicer, undertake ~~[diligent]~~[commercially reasonable~~]~~[10] efforts to collect amounts owing by ~~Retail~~Regulated Consumers in respect of Transition Charges charged to such ~~Retail~~Regulated

~~[10] Mirror collection "standard of care" under applicable legislation.~~

Consumers in Electricity Invoices issued by the Electricity Distributor or if applicable such Alternative Collection Agent~~.~~, all in accordance with the Regulations. [16]

(2) **Segregation of Transition Charge Collections** – ~~An~~If prescribed, an Electricity Distributor or if applicable any Alternative Collection Agent shall promptly segregate Transition Charge Collections from other payments received by it from ~~Retail~~Regulated Consumers and deposit such Transition Charge Collections into its Regulatory Asset Account.~~11~~[17] Prior to and following a deposit of Transition Charge Collections having been made into its Regulatory Asset Account, the Electricity Distributor or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners~~.~~ or a Pledgee.[18]

(3) **Electricity Distributor Remittances** – On each applicable Remittance Date, an Electricity Distributor shall remit all [Transition Charge Collections received by it from ~~Retail~~Regulated Consumers] [amounts invoiced to it by the IESO on account of Transition Charges][19] in respect of the related Reference Period to or to the account of ~~IESO~~Servicer or if applicable the Alternative Collection Agent.

(4) **Duty to Collect Electricity Distributor Remittances** – ~~IESO~~Servicer or if applicable any Alternative ~~Collection Agent~~Servicer shall, as an agent of the Regulatory Asset Owners, accept and undertake ~~[diligent]~~[commercially reasonable~~]~~ efforts to ~~accept and~~ collect Electricity Distributor Remittances from Electricity Distributors and Transition Charge Collections from ~~Retail~~Regulated Consumers that pay their Electricity Invoices directly to IESO, all in accordance with the Regulations.~~12~~

(5) **Segregation of Electricity Distributor Remittances** – ~~IESO~~Servicer and if applicable the Alternative Collection Agent shall promptly segregate Electricity Distributor Remittances from other payments received or held by it and deposit such Electricity Distributor Remittances into its Regulatory Asset Account. Prior to and following a deposit of Electricity Distributor Remittances having been made into its Regulatory Asset Account, ~~IESO~~Servicer or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners or any Pledgee.

(6) **~~IESO~~Servicer Remittances** – On each Settlement Date~~13~~[20], ~~IESO and if applicable the Alternative Collection Agent~~Servicer shall remit all amounts on deposit in its Regulatory Asset Account ~~(a) first,~~ to or to the account of the Absolute Assignees an amount equal to the Investment Remittance for the related month~~ and (b) second, to IESO (including by IESO retaining such amount) an amount equal to the lesser of (i) the Maximum IESO Recovery for the related month and (ii) the IESO Retained Interest Amount as of the Settlement Date~~.

[16] Note that the obligation to collect and remit the Transition Charge will be included as a deemed condition of license for electricity distributors (and retailers and unit sub-metering providers).]

~~11~~[17] Consider trying to attach to existing LDC credit enhancements and provide parallel coverage for customer losses.

[18] Consider whether there is a more efficient way to treat collections through the existing LDC/IESO processes. Intention is to provide scope in the Regulations.

[19] Dealer suggestion under consideration. Impact on LDCs and parallel commercial arrangements to be assessed.

~~12 Consider building this obligation into a deemed condition of licence for the IESO.~~

~~13~~[20] Consider frequency of remittances in light of rating requirements. US rating agencies favour daily remittances.

(7) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 5 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 5 to collect Transition Charges and make remittances of Electricity Distributor Remittances.

(8) **IESO ~~Successor~~Successors** – IESO ~~Successor~~Successors shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of IESO under Article 5 in the same manner and to the same extent as IESO, including the obligation to collect Transition Charge Collections, Electricity Distributor Remittances and to remit IESO Remittances.

(9) **Owners of Distribution Assets** - If any person other than an Electricity Distributor acquires distribution system assets in the Province or invoices or collects electricity distribution rates in the Province[~~14~~21], then such person shall, if requested by the Absolute Assignees, be obligated to act diligently to (a) facilitate the invoicing and collection of any Transition Charges applicable to ~~Retail~~Regulated Consumers ~~in its applicable service area, including all consumers~~ connected to ~~the electricity~~such person's distribution system assets ~~and taking electric delivery service located within such service area~~; (b) allocate partial payments by ~~Retail~~Regulated Consumers as provided in this Act; (c) exercise all enforcement rights of the Absolute Assignees for the benefit of an Absolute Assignee; and (d) remit any Transition Charge Collections to the Absolute Assignees or Pledgees, as applicable, each in accordance with its Investment Interest.

(10) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, ~~IESO~~Servicer, the Alternative Collection Agent, any owner of electricity distribution system assets in the Province or any other person who may be authorized to collect electricity distribution and use charges from ~~Retail~~Regulated Consumers for a failure to collect Transition Charges, remit or collect Electricity Distributor Remittances or remit IESO Remittances, as and to the extent applicable under Article ~~5.~~5, or to otherwise comply with this Act. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure and may make any interim or final order it thinks fit in this regard.

~~(11) **Appointment of an Alternative Collection Agent** – If a Replacement Event occurs in respect of any Electricity Distributor or IESO, the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Collection Agent to perform some or all of the collection, segregation and remittance obligations otherwise required to be undertaken by such Electricity Distributor or IESO, as applicable, under Article 5, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Collection Agent shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor or IESO, as applicable. Any Electricity Distributor or IESO, as applicable, that is replaced under this Section 5(11) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in, to and over the Regulatory Asset, including its Regulatory Asset Account, to the Alternative Collection Agent and shall take such further actions, including the execution of instruments, necessary to give full and final~~

[~~14~~21] This is in anticipation of a possible future restructuring of the distribution system.

~~effect to such transfer and to permit the Alternative Collection Agent to enforce the Regulatory Asset on behalf of the Absolute Assignees.~~

(11) ~~(12)~~ **No Set-off, etc.** - The Regulatory Asset, including rights in Transition Charges, Transition Charge Collections, and the interests of a Regulatory Asset Owner, an Absolute Assignee and a Pledgee therein, may not be setoff or reduced (including by counterclaim, surcharge or defense) by any ~~Retail~~Regulated Consumer, any Electricity Distributor, ~~IESO~~Servicer, Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or in connection with any default, bankruptcy, reorganization or other insolvency proceeding of any Electricity Distributor, ~~IESO~~Servicer, Alternative Collection Agent or any owner of distribution system assets in the Province, any affiliate or successor thereof or any other entity or otherwise.~~15~~22

(12) ~~(13)~~ **Sequestration** – If any Electricity Distributor, ~~IESO~~Servicer, the Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or entity authorized to collect Transition Charges, defaults on any required remittance of Transition Charge Collections, Electricity Distribution Remittances or IESO Remittances under Article 5, any court in the Province, upon application by and of the Absolute Assignees acting collectively under the Collective Action Agreement and without limiting any other remedies otherwise available to the Absolute Assignees or Pledgees, shall (i) order the sequestration and payment of the Transition Charge Collections, Electricity Distribution Remittances and IESO Remittances, as applicable, for the benefit of the Absolute Assignees, each with respect to its Investment Interest, and the Pledgees as applicable~~.~~16 and (ii) appoint a receiver to take control of the amounts sequestered.23

(13) ~~(14)~~ **Regulations** – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to ~~IESO~~Servicer, any Electricity Distributor or any Alternative Collection Agent to ensure that rights, interests, entitlements, benefits and proceeds in, to, under and from the Regulatory Asset are of fully realized by some or all of the Absolute Assignees and Pledgees.

Article 6 – The Regulatory Asset24

(1) **Composition** – The Regulatory Asset shall constitute a current and irrevocable property right and interest consisting, collectively, of the following rights and interests (without duplication):

a. the right of ~~IESO (i)~~a Regulatory Asset Owner to record its ~~IESO Retained~~Investment Interest in its accounts~~ in accordance with Section 8(1), having a stated amount from time to time equal to the IESO Retained Interest Amount; and (ii) to receive IESO Recoveries from time to time in accordance with Section 5(6)(b)~~;

~~15~~22 Consider whether it makes sense to create a "deemed collection" payment obligation on Electricity Distributors to the extent a ~~Retail~~Regulated Consumer reduces its payment of Transition Charges, despite this language. Same for Electricity Distributor Remittances and IESO Remittances.

~~16~~23 Consider adding or substituting this provision for a right to appoint a receiver.

24 It is anticipated that Investment Interests will only be sold to Financing Entities controlled by OPG. Sales will occur on a negotiated basis, and deal-specific covenants will be included in transaction documents – to supplement these arrangements.

b. the right to impose, bill, invoice, collect and receive Transition Charges from ~~Retail~~Regulated Consumers, including the right to determine the amount of Transition Charges in accordance with this Act;

c. the right to enforce the obligations and indebtedness of each ~~Retail~~Regulated Consumer to pay the Transition Charges charged to the ~~Retail~~Regulated Consumer from time to time in accordance with Article 3, together with all related late payment fees or interest charges arising in respect thereof under the related Electricity Invoices; the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Servicer to impose, attribute, charge, bill and invoice the Transition Charges in accordance with Article 4;

~~**d.** the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Servicer to impose, attribute, charge, bill and invoice the Transition Charges in accordance with Article 4;~~

d. ~~**e.**~~ the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Collection Agent to collect, receive and remit amounts received by it in respect of Transition Charges as Electricity Distributor Remittances to or to the account of ~~IESO~~Servicer or if applicable the Alternative Collection Agent in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5;

e. ~~**f.**~~ the right to enforce the duties and obligations of ~~IESO~~Servicer and if applicable the Alternative Collection Agent to collect and receive Electricity Distributor Remittances and to remit IESO Remittances to or to the accounts of the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset, in each case in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by it to recover payment of Electricity Distributor Remittances in accordance with Article 5;

f. ~~**g.**~~ the right to receive and collect all Transition Charge Collections, all Electricity Distributor Remittances and all IESO Remittances in accordance with Article 5;

g. ~~**h.**~~ all rights and entitlements under each Regulatory Asset Account and all amounts on deposit in any such Regulatory Asset Account;

h. ~~**i.**~~ all Related Rights; and

i. ~~**j.**~~ all revenue, collections, claims, payments, money and proceeds of or derived from the rights described in (a) through (i), regardless of whether such revenue, collections, claims, payments and proceeds are imposed, invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

A Regulatory Asset and the property rights and interests therein shall exist whether or not Transition Charges have been imposed, charged, invoiced, accrued or collected and

notwithstanding that the imposition, attribution, invoicing and collection of Transition Charges will depend on further actions that may not have occurred. The Regulatory Asset shall continue to exist until all Funding Obligations have been paid in full.

(2) **Validity of Dispositions** – ~~Despite any limitations or restrictions on a~~A Disposition ~~that may arise by contract or by operation of any applicable law of the Province or any consent requirement applicable to a Disposition that may arise by operation of any applicable law of the Province, a Disposition by~~by IESO of its right to recover all or any part of the IESO Funding Shortfall to an Absolute Assignee ~~made under the Financing Plan~~, or a Disposition of all or any part of an Investment Interest by one Absolute Assignee to another Absolute Assignee made under the Financing Plan, shall be permitted and when made shall be valid and enforceable in accordance with the terms of the related Disposition Document and shall be effective to confer upon the Absolute Assignee thereof a valid property right and interest in, to and under ~~the applicable~~IESO's right to recover the IESO Funding Shortfall or the Investment Interest, as applicable (or relevant portion thereof) in accordance with the terms of such Disposition, provided that the parties to the applicable Disposition Document have expressly stated therein that such Disposition is a sale or other absolute transfer. Without limiting the foregoing, any Disposition that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as a true sale and absolute transfer of ~~the Regulatory Asset Owner's applicable~~IESO's right to recover the IESO Funding Shortfall or an Absolute Assignee's right, title~~,~~ and interest in, to and under ~~the Regulatory Asset~~an Investment Interest, as applicable (or relevant portion thereof), and not merely as a Pledge thereof, and upon such Disposition the assigner or seller under the applicable Disposition Document shall retain no right, title or interest in IESO's right to recover the IESO Funding Shortfall or the Investment Interest (or relevant portion thereof) subject to the Disposition, including all rights to recover the IESO Funding Shortfall or under the Investment Interest arising after such Disposition.

(3) **Perfection and Priority of Dispositions** – Any Disposition of an interest in a Regulatory Asset shall be vested, valid, binding and perfected from the time when such Disposition is made. Such Disposition shall be perfected, vested, valid and binding as against the IESO or transferring Regulatory Asset Owner, as applicable, and all other persons who have claims of any kind (whether in tort, contract or otherwise) against IESO or the transferring Regulatory Asset Owner, as the case may be, irrespective of whether such persons have notice of the Disposition and the property rights and interests acquired by the Absolute Assignee under such Disposition shall be free and clear of any liens in favour of such other persons.

(4) **Validity of Pledges** – ~~Despite any limitations or restriction on a Pledge that may arise by contract or by operation of any applicable law of the Province or any consent requirement applicable to a Pledge that may arise by operation of any applicable law of the Province, a~~A Pledge by an Absolute Assignee may be made to secure any ~~related~~ Funding Obligation and when made shall be valid and enforceable in accordance with its terms and shall be effective to confer upon the Pledgee a valid security interest in, to and in respect of the related Investment Interest in accordance with the terms of the Pledge. ~~Other than as required by the Financing Plan, no~~No consent of, or notice to, any person shall be required to give effect to a Pledge made to secure any Funding Obligation.

(5) **Perfection and Priority of Pledges** - For purposes of the *Personal Property Security Act* (the "PPSA"), the Regulatory Asset shall be intangible personal property and any Pledge made by an Absolute Assignee in respect of a Funding Obligation shall, subject to the terms thereof, give rise to a security interest in respect of which the PPSA applies, and may be perfected by filing a financing statement under the PPSA on that basis. All proceeds of a related Investment Interest that are subject to such a Pledge that are received by the Absolute Assignee shall immediately be subject to the such Pledge, and the security interest in such proceeds shall be perfected pursuant to the PPSA.[17][25] A Pledge perfected under the PPSA shall be a continuously perfected security interest and shall have priority over any other lien or security interest, created by operation of law or otherwise, that may attach to the property rights and interests in the Investment Interest subject to the Pledge unless the Pledgee has otherwise agreed in writing. ~~Subject to the terms of the Collective Action Agreement, a~~A Pledgee shall have a perfected security interest in a related Investment Interest, including the Absolute Assignee's rights and interests in and to Transition Charge Collections or other related proceeds in respect of the Investment Interest and that are deposited in any Regulatory Asset Account or other account of any Electricity Distributor, IESO, Alternative Collection Agent or other person who may have commingled such Transition Charge Collections or such other proceeds with other funds. All provisions of the PPSA shall apply to the Regulatory Asset on the basis that it is intangible personal property, except to the extent otherwise provided in this Section 6(5).

(6) **Enforcement of Property Rights** – The rights of any Regulatory Asset Owner or Pledgee to collect and enforce its rights and interests in, to or in respect of the Regulatory Asset shall be exercised in the manner set forth in Article 5.

(7) **Owners of a Specified Portion of the Regulatory Asset** – A Regulatory Asset Owner may effect a Disposition to an Absolute Assignee of a specified portion of its rights and interests in the Regulatory Asset, including by way of a Disposition of a divided or an undivided interest therein as specified in a related Disposition Document~~, in each case under the Financing Plan~~. In no circumstance may the specified portions of the rights and interests in the Regulatory Asset owned by all Regulatory Asset Owners be greater than all of the rights and interests that comprise the Regulatory Asset in the aggregate.

(8) **Collective Action Required** – If a Regulatory Asset Owner's rights and interests in the Regulatory Asset comprises less than the entire property right and interest constituted by the Regulatory Asset, such Regulatory Asset Owner shall only enforce such right and interest on a collective and coordinated basis with each other Regulatory Asset Owner in accordance with the Collective Rights Agreement.

Article 7 – Establishment of the Fair Allocation Plan[18][26]

(1) Adoption of the Fair Allocation Plan – The Delegate may, ~~[~~by written declaration,~~]~~ designate and adopt a Fair Allocation Plan in compliance with Article 7. The Fair

[17][25] Consider whether to simply leave this and have a financing statement be filed under the PPSA. This would normalize the security interest and reduce any adverse suggestion that security would not otherwise arise.

[18][26] The idea is that the Fair Allocation Plan will be set once at the outset based on the principles and parameters described here, all as applied based on information available and the reasonable expectations and discretion of the delegate at such time. If the expectations are not fulfilled (e.g., generators may choose to retire their facilities at the end of their current procurement contracts and not invest in extending service lives to secure further procurement contracts), the Fair Allocation Plan will be unaffected, unless it is specifically amended (assuming amendments will be permitted by the legislation).

Allocation Plan so designated and adopted shall be the Fair Allocation Plan for all purposes of this Act, except if amended, amended and restated or terminated by a further written declaration made by the Delegate in compliance with ~~Section 7(4).~~[the Regulations].

(2) **Principles and Parameters** – A Fair Allocation Plan shall seek to allocate Future Fair Share of Green Transition Benefits across present and future ~~Retail Consumer Groups~~Regulated Consumers on a basis that the Delegate, in its sole and absolute discretion, determines to be equitable, having regard to the following principles and parameters:

1. Future Fair Share of Green Transition Benefits should be allocated over the period ending on the Program End Date.

2. The Fair Allocation Plan should specify the Reference Periods for the purpose of identifying applicable ~~Retail~~Regulated Consumer Groups and allocating Future Fair Share of Green Transition Benefits among them on a relative basis over time.

3. The share of Future Fair Share of Green Transition Benefits allocable to a particular ~~Retail~~Regulated Consumer ~~Group~~ in respect of a Reference Period should be proportionate to a reasonable assessment of the benefits of the Green Generation Initiative to ~~the Retail~~such Regulated Consumer ~~Group~~ over such Reference Period~~.~~, other than in exceptional circumstances.

4. The share of Future Fair Share of Green Transition Benefits to be allocated to a ~~Retail~~Regulated Consumer Group and any future ~~Retail~~Regulated Consumer Group at a particular time should not exceed the Estimated Future Green Transition Benefits, measured in respect of the Reference Periods following such particular time and to the Program End Date.

5. No future ~~Retail~~Regulated Consumer Group should be allocated an unreasonably disproportionate share of Estimated Future Green Transition Benefits. Except in exceptional circumstances or in the case of any reallocation of an Over-Assessed Amount as contemplated in 7, below, the Future Fair Share of Green Transition Benefits to be allocated under a Fair Allocation Plan to any future ~~Retail~~Regulated Consumer Group should have regard to *[Insert formula if a year-over-year maximum amount is determined to be appropriate]*.

6. The time value of money should be reflected in the Fair Allocation Plan, in order to equate the relative values of the nominal allocations of Future Fair Share of Green Transition Benefits, calculated in current dollars, to future ~~Retail~~Regulated Consumer Groups over time.

7. To the extent there has been an Over-Assessed Amount, the Fair Allocation Plan may determine that an adjustment should fairly be made to rebate ~~Retail~~Regulated Consumers for such an amount, by reducing the costs otherwise attributable under the Act to such ~~Retail~~Regulated Consumers. The relative costs of the Green Generation Initiative are reflected under the Act by the attribution of Transition Charges to such Consumer Groups, based on the Financing Plan seeking to track the allocations of benefits under the Fair

Allocation Plan. Accordingly, the Maximum Transition Charge Amount determined for one or more ~~Retail~~Regulated Consumer Groups having regard to the Fair Allocation Plan otherwise applicable may be appropriately reduced to recognize the effect of the Over-Assessed Amount. In such a case, a determination to reduce the Maximum Transition Charge Amount applicable for certain related Reference Periods should have regard to the principle that the corresponding rebate should be extended to benefit the Consumer Group or Consumer Groups in closest proximity to the Legislative Implementation Date.

(3) Attribution Methodology – The Fair Allocation Plan shall specify the Attribution Methodology for the purposes of allocating the Period ~~Transition~~Finance Charges across the ~~Retail~~Regulated Consumers~~ of a particular Retail Consumer Group~~. The Attribution Methodology shall result in an attribution of such Transition Charges that is considered by the Delegate to be equitable, and may have regard to such principles and parameters as may be further set forth in a Regulation; provided that the Attribution Methodology shall not be used to limit the recovery of Transition Charges.

(4) Amendments of the Fair Allocation Plan – The Fair Allocation Plan may be amended, amended and restated or terminated by the Delegate, provided that such amendment, amendment and restatement or termination shall (a) not be inconsistent with the principles and parameters set forth in (2) or (3), above, or the Regulation~~ and~~, (b) comply with any restrictions or limitations specified with respect thereto in any Funding Obligation~~.~~, and (c) not impair any Regulatory Asset, outstanding Funding Obligations or any Transition Charges.[27]

Article 8 – The IESO ~~Retained Interest~~Funding Shortfall

(1) Recording of IESO Funding Shortfall – Subject to 8(3), IESO will record any IESO Funding Shortfall [in its books] [in a variance account established in accordance with section 25.33 of the Electricity Act / Ontario Regulation 430/04, as amended].

(2) ~~(1) Maintain Books of Account~~ ~~– IESO may maintain books of account to record the IESO Retained Interest~~**Adjustments** – IESO will record it [its books][its variance account] all adjustments to the IESO Regulatory Asset Amount ~~and all adjustments thereto~~ from time to time. Such books of account shall be determinative with respect to the amount of IESO's related regulatory asset.

(3) ~~(2)~~ Limitation on Additions – Subject to 8(3), IESO shall not record additions to the IESO ~~Retained Interest~~ Regulatory Asset Amount in respect of IESO Funding Shortfalls (a) if such additions are restricted by the terms of any Disposition Document or the Collective Action Agreement, or (b) on or after •, 2017.

(4) ~~(3)~~ Dispositions – IESO may effect a Disposition of its right to recover all or any part of the IESO Regulatory Asset Amount to an Absolute Assignee if (a) the Absolute Assignee has or will concurrently become bound by the Collective Rights Agreement; (b) the Disposition is effected pursuant to a Disposition Agreement duly executed by IESO; and (c) the Financial Services ~~Agent~~Manager confirms in writing that the Disposition complies with any restrictions or limitations specified with respect thereto in any documents evidencing the Funding Obligations and is permitted under the Financing

[27] It is anticipated that the terms of any rated financing will restrict further issuances pending a RAC in relation to any changes to the FAP.

Plan; and (d) the net proceeds payable to IESO from the sale of the related Investment Interest would not exceed the IESO Retained Interest Amount immediately before the time of such Disposition.

(5) (4) **No Continuing Interest in any Investment Interest** – IESO shall have no continuing right or interest in any Investment Interest, or maintain any right to recover all or any part of, any IESO Regulatory Asset Amount that is subject to a Disposition effected by IESO under a Disposition Document to which IESO is a party and IESO shall not assert any such right or interest or take or omit to take any action to exercise or enforce its rights or interests under the IESO Retained Interest if such action or omission would impede or obstruct the rights of any Absolute Assignee or a Pledgee to enforce its rights and interests in any Investment Interest, except if IESO is expressly permitted to take or omit to take such action, respectively, under the related Disposition Document or the Collective Rights Agreement.

(5) **IESO Financing Costs** – IESO shall be entitled in good faith to incur reasonable financing costs (including interest and other reasonable financing charges) reflecting market terms and conditions and which are payable in arrears, in order to finance its ownership of the IESO Retained Interest from time to time.

(6) **IESO Recoveries** – IESO shall, in respect of a month, be entitled to receive from IESO Remittances on a related Settlement Date the amount (if any) available to of any IESO under Section 5(6)(b) Recoveries.

Article 9 – The Financing Plan

(1) **Power to Prepare, Implement and Amend the Financing Plan** – The Financial Services Agent Manager shall be authorized to prepare, implement and amend a financing plan [for the Financing Plan. If the Financial Services Agent is unwilling or unable to prepare Entities] and propose the adoption of such financing plan as the Financing Plan, the Delegate may by written declaration designate one or more other persons who shall be authorized to prepare, implement and amend the Financing Plan. for the purposes of this Act. [The Financial Services Manager shall have the right to withdraw its financing plan as the Financing Plan at any time if it determines that implementing the Financing Plan in such manner would not be in the best interests of a Financing Entity.]

(2) **Terms Principles and Conditions Parameters of the Financing Plan** – The Financing Plan shall establish the basis for each Absolute Assignee's funding decisions. The Financing Plan shall have, having regard to the principles and parameters set forth in Schedule 3 and such other conditions and requirements as may be specified in a written declaration of the Delegate or in accordance with the Regulation. 3.

(3) **OEB Approval** – [Any Additional Funding Charge payable to or for the benefit of the Financial Services Manager in respect of services provided by the Financial Services Agent Manager (other than third party costs) shall be subject to review and approval by the OEB.][28]

(4) **OEB Review of Financing Plan** – The [OEB [shall] undertake an annual review of the records maintained by the Financial Services Agent Manager for the purpose of

[28] Under consideration.

confirming that the Funding Obligations incurred and the Finance Amounts paid by or on behalf of the Absolute Assignees were incurred and paid, respectively, in material conformity with the Financing Plan.][29]

(5) Replacement of the ~~Administrative Agent~~Financial Services Manager – If the OEB identifies deficiencies or makes recommendations in its review under Section 9(4), the ~~Administrative Agent~~Financial Services Manager shall take reasonable measures to remedy such deficiencies if remediable, and shall in any event have regard to the recommendations of the OEB in relation to further actions undertaken by the Financial Services ~~Agent~~Manager under the Financing Plan. If the Financial Services ~~Agent~~Manager is unwilling or unable to reflect such recommendations in relation to such further actions, the Delegate may by written declaration designate one or more other persons who shall thereafter become the Financial Services~~.~~ Manager. [Any replacement financial services manager must comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations.]

(6) Obligation to Apply IESO Remittances – The Financial Services ~~Agent~~Manager shall ensure that amounts transferred to it [under Article 5, as agent for and on behalf of the Absolute Assignees], or otherwise in respect of or as proceeds from an applicable Investment Interest shall only be applied or used to pay related Finance Amounts when they are due and payable and for no other purpose.

(7) Non-Recourse – The Financing Plan shall be implemented so that Funding Obligations incurred shall be without recourse to or to any assets of the Electricity Distributors, IESO, any Alternative Servicer, any Alternative Collection Agent, the Financial Services ~~Agent~~Manager, the OEB~~, the Province or the Lieutenant Governor in Council~~ or Her Majesty in right of Ontario, other than if and to the extent that such persons or entities are liable for the performance of obligations or duties arising under this Act or expressly agree to become liable pursuant to any Funding Obligation or obligation in relation to a Finance Amount. ~~[All Funding Obligations shall contain a statement to the following effect: "Neither the full faith and credit nor the taxing power of the Province of Ontario is pledged to the payment of the principal of, or interest on, this [obligation].]~~

(8) Incurrences are Binding – ~~Notwithstanding anything to the contrary in this Act, each~~Each Disposition made to or by an Absolute Assignee ~~and~~, all amounts payable or becoming due and payable by or on behalf of an Absolute Assignee under or in connection with any obligation purporting to be a Funding Obligation and each Pledge entered into by an Absolute Assignee, shall be valid and binding ~~for the purposes of this Act~~, including in determining the amount of related Transition Charges, ~~despite~~notwithstanding any ~~impairment or defect resulting from such failure~~defect in the manner of incurrence or any inconsistency with the Fair Allocation Plan or the Financing Plan.

[Article 10 – Compliance Matters~~19~~30

[29] Under consideration.

~~19~~30 As noted above, the outcome of any regulatory action undertaken by the OEB will not affect Funding Obligations that have been incurred under the Financing Plan. This Article and any potential role for the Auditor General is still under consideration.

(1) Right of the [OEB] to Inspect Books and Records - For the purpose of investigating compliance with the provisions of this Act, the OEB shall have the right, jurisdiction, power and authority to examine the books and records of *[Insert names if any]*.

(2) [OPG's Rate Settings – When setting other rates for or in respect of OPG, the OEB shall not take into account (a) the administrative or servicing fees charged by OPG as Financial Services ~~Agent~~Manager [in excess of the actual incremental costs incurred by such person of providing administrative or servicing services]; (b) the cost consequences to OPG of being the Financial Services ~~Agent~~Manager; or (c) the consequence of OPG consolidating the assets and liabilities of any Financing Entity for OPG's accounting purposes, in each case in setting any regulated payment amounts for OPG.]~~20~~31

Article 11 – Undertaking of the ~~Lieutenant Governor in Council~~[21]Her Majesty in right of Ontario[32]

(1) No Action to limit, alter, or impair or terminate Transition Charges, the Regulatory Asset or Collections – ~~The [Lieutenant Governor in Council]~~Her Majesty in right of Ontario shall not in any way take or permit (including by any agency or administrative body) any action to reduce, impair, postpone or terminate the obligation of ~~Retail~~Regulated Consumers to pay Transition Charges or to impair the Regulatory Asset or the collection or recovery of Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances, either directly or indirectly, including through the introduction of any bill or the passing of any legislation or regulation having such effect. The amount of Transition Charges determined under this Act shall not be subject in any way to reduction, impairment, postponement or termination as a result of any action taken or failure by ~~the Lieutenant Governor in Council~~Her Majesty in right of Ontario (including by any agency or administrative body), including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(2) Undertaking and Agreement – ~~The [Lieutenant Governor in Council]~~Her Majesty in right of Ontario shall not:

(a) in any way take or permit any action that limits, alters or impairs the value of any Investment Interest;

(b) except as required by the estimates and adjustments made in determining the True-up Amount, reduce, alter or impair Transition Charges that are imposed, billed, invoiced, collected and remitted for the benefit of the Absolute Assignees or any Pledgee from time to time;

~~20~~31 As an alternative to this provision, consider clarifying under s. 78.1(4) of the OEB Act (which currently gives the OEB discretion in setting payment amounts subject to O. Reg. 53/05) that the OEB in setting OPG payment amounts for prescribed generation shall not consider OPG's role as ~~Administrative Agent~~Financial Services Manager of any Financing Entities associated with the Fair Hydro initiative, perhaps with the exception of any operating fees that may be received by OPG for performing that role.

~~21~~32 Under consideration, including the dealers' request for (1) a "servicer guarantee" ~~and~~(2) a "contractual guarantee" to address a "Change of Law" or if all or a portion of the legislation is *ultra vires*, requiring (at the lenders option), the Province to pay principal and interest on the outstanding debt until maturity or payout the entire debt including any make-wholes and (3) in the event of a market disruption that renders it impossible to refinance debt when required (or where financing of amounts required to service the debt is not available because of a market disruption where the Financing Entity was relying on such further issuance of debt until the recovery is set to begin to fund interest), a covenant by the Province to step in and payout the debt or to recover the debt from ratepayers as it becomes due, notwithstanding the intended Fair Adjustment.

(c) permit the amendment, amendment and restatement or termination of the Fair Allocation Plan if such amendment , amendment and restatement or termination would adversely affect the validity or enforceability of any Funding Obligation or the rights of an Absolute Assignee or Pledgee thereunder, or would not otherwise comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations,

in each case including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(3) **Successor IESO** – If IESO is restructured, dissolved or becomes insolvent or is otherwise incapable of performing its obligations under this Act, an IESO Successor ~~IESO~~ shall immediately be established by Her Majesty in right of Ontario to perform such obligations.

(4) **Compensation for Failure** – Absolute Assignees shall be compensated by Her Majesty in right of Ontario for any losses suffered by them as a result of any failure by ~~the Lieutenant Governor in Council~~Her Majesty in right of Ontario to comply with its undertakings and agreements in this Article ~~11.[22]~~11.[33]

(5) **No Wind-up of Financing Entity**. No Financing Entity may be voluntarily wound up, liquidated or dissolved until one year after all of its Funding Obligations are repaid.

(6) **References to the Undertaking and Agreement** – Any non-confidential reference to the Undertaking of the ~~Lieutenant Governor in Council~~Her Majesty in right of Ontario, including in marketing materials and other documentation authorized for use by the Administrative in connection with any Funding Obligation, may be made provided that [*Add conditions to protect the Province*].

Article 12 – Regulations

Regulations may be made under this Act for the purposes described in Sections •,•,• and • and may be promulgated for any of the following purposes:

(a) to set standards and measures regarding the commercially reasonable requirements of the Province associated with an Absolute Assignee incurring Funding Obligations or becoming obligated to pay any Finance Amount, including to establish guidelines regarding all-in funding costs; permitted Additional Funding Charges; required maturities and redemption and termination rights of Funding Obligations; liquidity requirements, in each case to a Financing Plan that is consistent in its effect with the Fair Allocation Plan;

(b) to establish and empower one or more regulated entities to undertake decision-making activities with respect to this Act;

(c) to set out reasonable requirements regarding the appointment or retention of advisors, agents, service providers, contract counterparties, including in relation to 'market terms and conditions' parameters;

[22][33] Requested by ~~Torys~~Dealers. For discussion.

(d) to provide for audit and compliance standards applicable to those persons who are or may become obligated or have duties that arise under this Act [or under any Funding Obligation];

(e) to provide for any pre-vetting and approval requirements in relation to any incurrence by an Absolute Assignee of any Funding Obligation or obligation to pay any Finance Amount; and

(f) to provide for appeal and due process considerations in connection with the establishment, adoption, implementation and review of the Fair Allocation Plan or the Financing Plan.

Article 13- Miscellaneous[2334]

(1) **Choice of law** – The law governing, as applicable, the validity, enforceability, attachment, perfection, priority and exercise of remedies with respect to the transfer of an interest or right or creation of a security interest in the Regulatory Asset, any Transition Charge or the Undertaking of the Province shall be the laws of the Province.

(2) **Conflict of law** – In the event of conflict between this Act and any other law of the Province regarding the attachment, assignment or perfection, or the effect of perfection, or priority of any Disposition or Pledge, this Act shall govern to the extent of the conflict.

(3) **No further acts or approvals required** - Notwithstanding any provisions of any law of the Province to the contrary, no approvals, notices or authorizations other than those specified in this Act shall be required with respect to the actions to be taken in compliance with this Act, including under the Financing Plan or in relation to the establishment of the Fair Allocation Plan, and the transactions and contracts authorized in or contemplated by this Act or the Financing Plan, including the incurrence of any Funding Obligation, any Disposition, any Pledge or in the payment and performance of any attendant or incidental contract and any related expenses incurred to facilitate the preparation and implementation of the Financing Plan.

(4) **Effect of invalidity after the Incurrence of any Funding Obligation** - Effective on the date that a Funding Obligation is incurred under this Act, if any provision of this Act is held to be invalid or is invalidated, superseded, replaced, repealed or expires for any reason, that occurrence shall not affect any action allowed under this Act that is taken by any person who is or may become obligated or have duties that arise under this Act and any such action shall remain in full force and effect.

(5) **Severability** - If any Article, Section, paragraph or subparagraph of this Act or the application thereof to any person, circumstance or transaction is held by a court of competent jurisdiction to be unconstitutional or invalid, the unconstitutionality or invalidity shall not affect the constitutionality or validity of any other Article, Section, paragraph or subparagraph of this act or its application or validity to any person, circumstance or transaction, including the irrevocability of Transition Charges, the validity of the Regulatory Asset, the incurrence of any Funding Obligation, any Disposition, any Pledge, or the collection and recovery of Transition Charge Collections. To these ends, the Legislature hereby declares that the provisions of this Act are intended to be severable and that the Legislature would have enacted this Act even if any Article,

[2334] OPG would like the specific amendments related to OPG to be included in the Bill.]

Section, paragraph or subparagraph of this Act held to be unconstitutional or invalid had not been included in this Act.

Schedule 1

Guidelines for Estimates

[To be considered.]

Schedule 2

Requirements Applicable to Alternative Invoicing Agent/ Alternative Collection Agent

[To be considered.]

Schedule 3[24]

Principles and Parameters for Establishing the Financing Plan

The following principles and parameters provide a guideline as to what a Financing Plan should address:

(1) in respect of each Reference Period, make reference to the allocations of Future Fair Share of Green Transition Benefits to each Reference Group contemplated by the Fair Allocation Plan;

(2) estimate IESO Funding Shortfalls for each Reference Period;

(3) consider alternative funding arrangements suitable to fund the estimated IESO Funding Shortfalls, including short term and/or long term Funding Obligations;

(4) ~~(9)~~ consider quantities, maturities, payment obligations, prepayment or redemption rights and such other features of Funding Obligations so that payments made for a Reference Period reasonably correspond to the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

(5) ~~(4)~~ if the anticipated amount of any Repayment (together with payments of other Finance Amounts) to be made in respect of a Reference Period would materially exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable ~~Retail Consumer Group~~Regulated Consumers under the then current Fair Allocation Plan, diligent efforts should be made to determine whether a Refinancing or deferral of such Repayment may be reasonably and cost-effectively effected based on then prevailing market terms, conditions an circumstances;

(6) ~~(5)~~ reflect the assumptions and requirements specified in any contemplated Funding Obligation (e.g., any limit on the maximum amount of Transition Charges charged to a hypothetical ~~Retail~~Regulated Consumer relative to his or her monthly electricity bill, as prescribed by any rating agency that ascribes its credit rating to or in respect of the Funding Obligation ~~having regard to the application of the Allocation Methodology~~);

(7) require the Financial Services Manager, for and on behalf of each Regulatory Asset Owner, to use [diligent efforts to manage Finance Amounts to be borne by Ratepayers];

(8) include a proposal regarding the compensation of the Financial Services Manager that reflects market terms and conditions; and

(9) [require that the Financial Services Manager report annually to the Ministry of Energy on the operation of the Financing Plan including, in particular, with respect to the amount and terms of the Funding Obligations incurred and the sufficiency of such Funding

[24] ~~Awaiting input from Torys based on OPG mark-up of Financing Plan sections.~~

Obligations for the purpose of funding the estimated Funding Shortfalls in accordance with the Fair Allocation Plan.]

(10) ~~**(6)**~~ incur Funding Obligations from time to time on the best terms available at such time for a financing transaction of the size and type contemplated, and having regarding to the following parameters:

a. whether the Absolute Assignees will require committed access to short term liquidity to cover estimated IESO Funding Shortfalls prior to incurring fixed term Funding Obligations, and the amount and repayment terms of any such required liquidity; provided that any Repayment required to be made under the terms of such short-term liquidity would not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

b. the basis upon which the Financial Services Agent will select the term to maturity of any other Funding Obligations; provided that any Repayments required to be made under the terms of such Funding Obligations should not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

c. the basis upon which the interest rates applicable to such Funding Obligations would be determined;

d. the reference capital or finance market in which such Funding Obligation would be incurred, including markets outside of Canada if considered by the Financial Services Agent to be appropriate in the circumstances;

e. the currency of payments under such Funding Obligations and, if the Funding Obligations are denominated in a currency other than Canadian dollars, the basis upon which the Financial Services Agent shall cause the applicable Absolute Assignee to enter into hedging transactions to mitigate currency risk, including acceptable minimum and maximum coverage levels, having regard to the availability of related derivatives having notional amounts corresponding to the repayment and maturity profile of such Funding Obligations;

f. the basis upon which the Financial Services Agent will select counterparties under any transaction to be entered into by an Absolute Assignee, including any paying agent, servicer, cash manager, liquidity provider, hedge counterparty, account bank, lender, note trustee, security trustee, paying agent, registrar/transfer agent, financial services agent, arranger or manager;

g. the basis upon which the Financial Services Agent will manage counterparty risk, including by providing for maximum counterparty exposure limits having regard to concentration, credit and other identified risks with respect to individual counterparties or countries;

h. the basis upon which the Financial Services Agent will negotiate and settle Finance Amounts, including the amount of any Redemption Amounts, Finance Reserve Deposits and Additional Funding Charges;

(11) ~~(7)~~ the basis upon which Funding Obligations may be redeemed, prepaid, repurchased or otherwise affected, having regard for the need to minimize debt service charges and other Funding Costs, and the need to maintain a stable funding platform to finance the IESO Funding Shortfalls from time to time on a basis that is consistent with the allocations of Future Fair Share of Green Transition Benefits to applicable Reference Groups under the Fair Allocation Plan;

(12) ~~(8)~~ the basis upon which any Repayments, Funding Costs and Redemption Amounts will be paid, including any defeasance, sinking fund or through other reserves or liquidity facilities;

(13) ~~(9)~~ the basis upon which fees, charges, expenses, costs, indemnities, reimbursements and other amounts payable to or for the benefit of the Financial Services Agent and other agents and service providers to the Absolute Assignees may be determined, allocated and paid;

(14) ~~(10)~~ the timing and basis upon which Finance Reserve Deposits and Finance Reserve Withdrawals may be made;

(15) ~~(11)~~ the basis upon which any obligations for any other Additional Funding Charges may be incurred and paid;

(16) ~~(12)~~ the basis upon which the cash flows arising from time to time or otherwise derived from the Regulatory Asset may otherwise be applied, including in relation to any counterparty enforcement and realization scenario;

(17) ~~(13)~~ the transmittal to [the IESO] of information related to the amounts to be included in the determination of the Period Transition Charge for a Reference Period;

(18) ~~(14)~~ the basis upon which any Disposition may be made or effected by an Absolute Assignee, including parameters for determining the purchase price for the interest in the Regulatory Asset that is the subject matter of such Disposition, and any consents and releases that may be usefully obtained in connection with such Disposition;

(19) ~~(15)~~ describe the requirements applicable to any special purchase entity that will purchase an Investment Interest, including proposed capitalization, governance, and restrictions on their powers and activities; and

(20) ~~(16)~~ the basis on which any Pledge may be given or effected.

[NTD: E&Y will need to see the guidelines of the Fair Allocation Plan set in reference to parameters that will allow it to establish a modeling curve]

- [**Inflation period**: (between November 2017 – and April 2022) bill increases need to be capped at inflation (assumed at 2% for modeling purposes)]
- [**Transition Period**: (May 2022- April 2027) bills increased at a consistent rate which is set so that the borrowing will not exceed the Trust's capacity, which is determined by the Finance Service Manager]
- [**Amortization Period**: (May 2027-April 2047) equitable distribution of Finance Amount among Regulated Consumers]

Update

This meeting has been extended from 2:00pm until 4:00pm.

Hi Everyone,

This will be a meeting to discuss the Ontario Fair Hydro Plan (OFHP).

The meeting will be held at Blakes and the main contact on site will be Lindsay Dicks (416-863-4347 or Lindsay.Dicks@blakes.com). Please inform Lindsay if there will be additional people attending from your group because she will need to pass this information along to their security desk.

To the representatives from OPG, please forward this meeting invitation to your respective outside counsel for their attendance.

Any materials available for this meeting will be provided in a future update.

If you are unable to attend in person, please use the following conference call information:

Toll-free dial-in number: 1-866-633-1033
Local dial-in number: 416-212-8013

Conference ID: 3164921#

If there are any additional scheduling needs or updates, please contact Joseph Pau (416-326-1018 or Joseph.Pau@ontario.ca).

Thanks,

Update

This meeting has been extended from 2:00pm until 4:00pm.

Hi Everyone,

This will be a meeting to discuss the Ontario Fair Hydro Plan (OFHP).

The meeting will be held at Blakes and the main contact on site will be Lindsay Dicks (416-863-4347 or Lindsay.Dicks@blakes.com). Please inform Lindsay if there will be additional people attending from your group because she will need to pass this information along to their security desk.

To the representatives from OPG, please forward this meeting invitation to your respective outside counsel for their attendance.

Any materials available for this meeting will be provided in a future update.

If you are unable to attend in person, please use the following conference call information:

Toll-free dial-in number: 1-866-633-1033
Local dial-in number: 416-212-8013

Conference ID: 3164921#

If there are any additional scheduling needs or updates, please contact Joseph Pau (416-326-1018 or Joseph.Pau@ontario.ca).

Thanks,

Hi Everyone,

This will be a meeting to discuss the Ontario Fair Hydro Plan (OFHP).

The meeting will be held at Blakes and the main contact on site will be Lindsay Dicks (416-863-4347 or Lindsay.Dicks@blakes.com). Please inform Lindsay if there will be additional people attending from your group because she will need to pass this information along to their security desk.

Please only forward this invitation to your respective teams if their participation is necessary for the facilitation of this meeting, as the boardroom has limited capacity.

Any materials available for this meeting will be provided in a future update.

Given that this meeting follows a holiday, if you are unable to attend in person or prefer to do so from your own office, please use the following conference call information:

Toll-free dial-in number: 1-866-633-1033
Local dial-in number: 416-212-8013
Conference ID: 3164921#

If there are any additional scheduling needs or updates, please contact Joseph Pau (416-326-1018 or Joseph.Pau@ontario.ca).

Thanks,

Attachment 1: FHP Memo - Draft V3 21-Jul-2017np .docx

Hi Lee Anne.

Just sharing my comments/feedback on the latest draft paper. Please let me know if you have any questions. Cindy has not had a chance to review, and will likely have additional comments and suggested edits.

Thanks and have a great weekend.

Nadine

FHP Memo - Draft V3 21-Jul-2017np .pdf

Disclaimer

Ernst & Young LLP (“EY”) prepared the attached Report only for the OPCD. EY did not perform its services on behalf of, or to serve the needs of, any other person or entity. Accordingly, EY expressly disclaims any duties or obligations to any other person or entity based its use of the attached Report. Any other person or entity must perform its own due diligence inquiries and procedures for all purposes, including, but not limited to, satisfying itself as to the financial condition and control environment of the Province or any of the other entities involved, as well as the appropriateness of the accounting for any particular situation addressed by the Report.

EY did not perform an audit, review, examination or other form of attestation (as those terms are defined by the CPA Canada) of the financial statements of the Province or any other entities involved. Accordingly, EY did not express any form of assurance on the accounting matters, financial statements, any financial or other information or internal controls of the Province or any of the other entities involved. EY did not conclude on the appropriate accounting treatment based on specific facts or recommend which accounting policy/treatment the Province or any of the other entities involved should select or adopt.

The observations relating to accounting matters that EY provided to the OPCD were designed to assist them in reaching their own conclusions and do not constitute our concurrence with or support of the accounting or reporting of the Province or the other entities involved. The Province and the other entities involved are each responsible for the preparation of their own financial statements, including all of the judgments inherent in preparing them.

Introduction

Ontario's consolidated financial reports are prepared in accordance with the accounting principles for governments recommended by the Public Sector Accounting Board (PSAB) of the Chartered Professional Accountants of Canada (CPA Canada). In order to meet the needs of users, including the legislature and the public, for accountability in government reporting and decision making, it is essential that public sector financial statements reflect the economic substance of the government's activities.

Commented [OPCD1]: (comment only) For costs which will be funded through the rate base, it is important that both the balance sheet (net debt) and the statement of operations (net deficit/surplus) take into account those costs which will not have to be covered through current or future taxes.

In March 2017, the Government of Ontario (the Province) announced its Fair Hydro Plan (FHP). In assessing the appropriate accounting treatment for the Global Adjustment refinancing (GA Refinancing) component of the FHP on Ontario's consolidated financial statements, the Office of the Provincial Controller considered the authoritative guidance issued by PSAB, as well as the accounting assessments of the Independent Electricity System Operator (IESO) and Ontario Power Generation (OPG) management, including the accounting opinions of their external accounting advisors. Given the complexity of the GA Refinancing structure, the exercise of professional judgement is necessary to ensure that key financial reporting objectives of transparency and accountability are best served. This accounting analysis considers currently available information, including efforts underway by the International Accounting Standards Board as related to rate regulated accounting. It also draws upon publicly available information including previous studies and bases for conclusions dealing with rate-regulated accounting, both in the public sector and the private sector.

Background

The FHP will reduce electricity bills for Regulated Price Plan (RPP) customers (as well as those non-RPP consumers who receive the 8% rebate as specified in the Ontario Rebate for Electricity Act, 2016) by approximately 25% for a period of one year, starting in the summer of 2017, and limit the increase in electricity bills to the rate of inflation over the following four years.

Because distribution rates vary across the province and customers use different amounts of electricity, the goal in calculating the new RPP electricity prices is to achieve a 25% reduction for a "proxy" customer, which is established under the Fair Hydro Act, 2017 (FHP Act) as a residential customer of Toronto Hydro who uses 750 kWh of electricity a month, pays time-of-use RPP electricity prices and has the time-of-use consumption profile of a typical residential customer.

The measures that make up the 25% average reduction include:

1. Spreading the cost of Ontario's clean energy investments over the expected lifecycle of the generation infrastructure assets. This is expected to account for ~~15~~18-~~17~~19% of the overall reduction.
2. Shifting the cost of the Ontario Electricity Support Program (OESP) and Rural or Remote Rate Protection (RRRP) program from ratepayers to taxpayer-funded programs.
3. An 8% rebate equal to the provincial portion of the HST, which took effect on January 1, 2017.

Under the first measure, the Province will borrow funds to pay a portion of current electricity costs, thereby temporarily reducing the amount paid by eligible ratepayers. The deferred amounts, including interest and other costs, will be recoverable from ratepayers through future rates over an estimated 18-year period starting in approximately 2028. In other words, the impact of #1 above is fully borne by the ratepayers – it is a shift in the timing of payment for the clean energy investments, while the impacts of #2 and #3 are reducing the cost to the ratepayer, but at the cost of the taxpayer.

Objective

The objective of this memo is to assess the appropriate accounting ~~impact of~~for the first measure of the FHP (i.e. deferred recovery of clean energy costs) on the consolidated financial statements of the Province in accordance with PSAS. **[NTD – Consider if document should discuss #2 and #3. This would contrast the different treatment by the Province]**

Background

The Ontario Energy Board (OEB) has been established by the Province to be Ontario's independent energy regulator.

In accordance with Section 78(3.1) of the Ontario Energy Board Act, 1998 (the OEB Act), the OEB is responsible for determining electricity commodity prices for RPP consumers. Section 78(3.3) of the OEB Act requires the OEB to forecast the cost of electricity used by RPP consumers and ensure the prices they are charged reflect that cost. The rate setting process is highly complex and involves numerous forecasts and estimates. As a result, the OEB regulatory framework allows for variances between the actual cost of supplying electricity and the amount collected from RPP consumers.

In setting the rates for RPP consumers, Section 78(3.3) of the OEB Act requires the OEB to settle any such variances through rates over a 12-month period. This is achieved through a price adjustment charged or credited to RPP consumers. This adjustment forms part of the Global Adjustment paid by consumers.

The IESO is the administrator of Ontario's wholesale electricity market. The IESO settles the market with all participants, as an agent.

As part of its role as market administrator, the IESO calculates the market price for electricity (the Market Clearing Price, or MCP) by running the bids and offers of the market participants through an algorithm. The actual cost of supplying electricity, however, is greater than the MCP as certain generators are paid additional amounts relating to the cost of clean energy initiatives they have undertaken. From a government policy perspective, decisions as to what is in the best interest of the public regarding electricity generation in Ontario are not based solely on economics, they are also influenced by environmental, social and political factors. Accordingly, generators receive compensation for investing in clean energy infrastructure when it is relatively less economical. In these instances, the IESO (and previously the XXX) entered into contracts to pay the generators the excess costs (plus a reasonable rate of return thereon) over an extended period of time, typically 20 years. The amounts paid to the generators under the terms of these contracts are currently included in the rates set by the OEB (as part of the Global Adjustment) with the intention they will be recovered from consumers in the same period they are paid to the generators. As previously noted, the complexity of the rate setting process results in variances between the amount paid to the generators and the amount collected from RPP consumers.

Under existing legislation, the IESO is required to fund any cash shortfall relating to differences arising between the actual cost of supplying electricity and the amount collected from RPP consumers. In accordance with Section 25.33(5) of the Electricity Act, 1998 (the Electricity Act), the IESO has established and maintains a variance account to track these temporary differences (the original variance account) for subsequent settlement with ratepayers. Cash shortfalls in the IESO arising from the original variance account are funded through financing provided by the OFA.

As described below, once the FHP is implemented, the cost of supplying electricity to RPP consumers that is paid to generators will no longer be fully collected over a 12-month period~~, but over a longer period defined by legislation~~.

Under the FHP, while generators would continue to be paid over a twenty year period as contracted, the amounts paid by the IESO to the generators would be recovered from ratepayers over a thirty year period. ~~Deferring the recovery of these costs from the consumers on a longer-term basis would create a significant interim cash shortfall for the IESO.~~

Section 24(1) of the Ontario Fair Hydro Plan Act (the FHP Act) requires th~~e~~at IESO ~~to~~ establish and maintain a variance account (separate from the original variance account described above) to track the cash shortfall specifically resulting from the implementation of the FHP (the FHP variance account). Due to the longer recovery period, and additional recoverable financing and management fee costs, the balance in the account is forecast to increase significantly. The balance in this variance account is defined in Section 1(1) of the FHP Act to be a regulatory asset[1]. The IESO is entitled under Section 25 of the FHP Act to recover the regulatory asset from RPP consumers in the future, which will be achieved through the OEB setting rates to allow for such recovery. Section 26 of the FHP Act also permits the IESO to transfer or sell the regulatory asset to a financing entity to fund its cash shortfall, thus commoditizing the future cash flow stream.

The Province has requested that OPG administer the deferral of the Global Adjustment under the FHP because of OPG's participation in the market, the regulatory knowledge OPG possesses and the ~~potential~~ expected ability to consolidate the accounting of the related activity ~~and accounting with~~ in the financial statements of OPG. To fulfill this role, OPG intends to establish a financing entity (OPG Trust) ~~to~~ which would have a choice to purchase the IESO's regulatory asset on a monthly basis ~~and~~ which ~~eliminate~~would eliminate any cash shortfall in the IESO. Through this arrangement, OPG Trust will finance these purchases through a combination of provincial borrowing (flowed through OPG as an equity investment), amounts advanced from OPG and direct borrowing from capital markets.

Basis of Accounting

In accordance with PSAS 1300.07, the government reporting entity (GRE) for the Province comprises government components and those organizations that are controlled by the government.

As defined in the Introduction to PSAS, the following types of organizations are controlled by the government: (a) government business enterprises (GBE), government non-for profit organizations (GNPO), and other government organizations (OGO).

[1] To avoid confusion in the remainder of this document, the term regulatory asset will refer to the defined term in the FHP Act and the term regulated asset or rate-regulated asset (RRA) will refer to an asset recognized for accounting purposes.

Commented [OPCD2]: Might generators have refurbishment costs to achieve a longer estimated service life, and how are those reflected in the model. No impact on accounting assumed.

Commented [OPCD3]: Maybe remove? Confusing. Not sure how the 30 year period was determined.

Commented [OPCD4]: RRAs have been commoditized in other markets, both in Canada and the US (more so in the US)

Commented [OPCD5]: OPG retains discretion, not required to purchase.

GNPOs and OGOs are considered government units and, in accordance with PSAS 1300.27, are consolidated in the GRE on a line-by-line basis. For consolidation purposes, the financial information of government units is required to be prepared in accordance with PSAS.

GBEs, on the other hand, are accounted for in the GRE using the modified equity method as prescribed by PSAS 1300.35. Under the modified equity method, which is described in detail in PSAS 3070, INVESTMENTS IN GOVERNMENT BUSINESS ENTERPRISES, the equity method of accounting is modified only to the extent that the GBE's accounting principles (which are required to be IFRS in accordance with paragraph 17 of the Introduction to PSAS) are not adjusted to conform to those of the government.

As documented in Schedule 8 to the consolidated financial statements of the Province, the IESO is an OGO and OPG is a GBE. The current accounting for these entities is as follows:

		ENTITY STATEMENTS	GRE STATEMENTS	
ENTITY	**CLASSIFICATION**	**GAAP**	**ACCOUNTING METHOD**	**GAAP**
IESO	OGO	PSAS[1]	Consolidation	PSAS
OPG	GBE	US GAAP[2]	Modified equity method	IFRS[3]

1. For purposes of preparing general purpose financial statements, an OGO applies PSAS unless those standards do not meet the needs of its financial statement users. In that situation, IFRS should be considered and the most appropriate set of standards applied.
2. Although a GBE is required to apply IFRS for purposes of preparing general purpose financial statements, the Ontario Securities Commission has approved an exemption that allows OPG to apply US GAAP up to January 1, 2019 for purposes of filing its financial statements with the OSC.
3. OPG applies IFRS 14, which permits it to continue to account for rate-regulated activities using US GAAP guidance for its general purpose financial statements.

Commented [OPCD6]: Suggested rewording for clarity (PSAS, PSAS+4200, IFRS).

This memo does not reconsider the classification of these existing entities (i.e. is based on the existing classification of the entities based on past published Public Accounts).

As discussed in detail in a subsequent section, OPG expects that it will control OPG Trust. If this is the case, OPG Trust will be consolidated by OPG and, therefore, reflected in the GRE through the modified equity accounting of OPG under IFRS. If, however, it is determined that OPG Trust is controlled by the Province, OPG Trust will either (a) be consolidated in the GRE on a line-by-line basis under PSAS if determined to be an OGO, or (b) reflected in the GRE through modified equity accounting under IFRS if determined to be a GBE.

Example

For simplicity, the following example will be used in this document to illustrate the accounting impact of the FHP on the various entities involved:

- Ratepayer bill is currently $588, and the 17% reduction related to the FHP is $100.
- The Province directly borrows 44%, or $44, to make an equity contribution to OPG, which OPG then loans to OPG Trust.
- OPG directly borrows 5%, or $5, and loans it to OPG Trust.
- OPG Trust directly borrows 51%, or $51, from capital markets.

Analysis

IESO

The IESO is presently classified as an OGO and prepares its standalone, general purpose financial statements in accordance with PSAS, which is consistent with the basis of presentation required for purposes of consolidating the IESO into the GRE. Under PSAS, the entity has selected to apply PSAB accounting standards to meet its user needs. ~~Under PSAS, the IESO would also have the option of reporting based on IFRS. If the IESO were classified as a GBE, it would also report based on IFRS. Since the IESO has rate regulated balances, it would likely report using IFRS14, consistent with the IFRS related information provided by both Hydro One and OPG which are rate regulated.~~

Commented [OPCD7]: Tie to user needs (see FN 1 to table above).

Current State

Effective January 1, 2016, the IESO adopted on a retrospective basis a new accounting policy that requires its market-settlement activities[2] to be reflected in the financial statements. Under the new policy, the assets and liabilities recognized on the IESO's statement of financial position relating to the IESO-administered markets include cash, amounts due from market participants, interest receivable, revolving line of credit, HST receivable, amounts due to market participants and other liabilities. The IESO's statement of operations and accumulated surplus ~~financial statements~~ does not include the revenue and expenses of the financial transactions of market participants within the IESO-administered markets. This indicates IESO management has taken the position that the IESO is an agent, not a principal, in the IESO-administered markets and, accordingly, records revenue on a net basis.

PSAS doesn't provide any specific guidance as to how it should be determined whether an entity is acting as a principal or an agent in the context of revenue recognition, but both IFRS and US GAAP do. The relevant guidance in IFRS is as follows:

IAS 18.8

Revenue includes only the gross inflows of economic benefits received and receivable by the entity on its own account. Amounts collected on behalf of third parties such as sales taxes, goods and services taxes and value added taxes are not economic benefits which flow to the entity and do not result in increases in equity. Therefore, they are excluded from revenue. Similarly, in an agency relationship, the gross inflows of economic benefits include amounts collected on behalf of the principal and which do not result in increases in equity for the entity. The amounts collected on behalf of the principal are not revenue. Instead, revenue is the amount of commission.

IAS 18.IE21

Determining whether an entity is acting as a principal or as an agent (2009 amendment).

Paragraph 8 states that 'in an agency relationship, the gross inflows of economic benefits include amounts collected on behalf of the principal and which do not result in increases in equity for the entity. The amounts collected on behalf of the principal are not revenue. Instead, revenue is the amount of commission.' Determining whether an entity is acting as a principal or as an agent requires judgement and consideration of all relevant facts and circumstances.

An entity is acting as a principal when it has exposure to the significant risks and rewards associated with the sale of goods or the rendering of services. Features that indicate that an entity is acting as a principal include:

a) the entity has the primary responsibility for providing the goods or services to the customer or for fulfilling the order, for example by being responsible for the acceptability of the products or services ordered or purchased by the customer;

b) the entity has inventory risk before or after the customer order, during shipping or on return;

Commented [OPCD8]: Footnote below from a staff training module but may not be from an acctg perspective, or accurate. Consider deleting if not appropriate/accurate.

[2] The IESO itself does not buy or sell electricity. It administers the wholesale electricity market by authorizing market participants, publishing system forecasts and market information, producing statements and invoices, and performing financial settlement transactions for the markets.

c) the entity has latitude in establishing prices, either directly or indirectly, for example by providing additional goods or services; and

d) the entity bears the customer's credit risk for the amount receivable from the customer.

An entity is acting as an agent when it does not have exposure to the significant risks and rewards associated with the sale of goods or the rendering of services. One feature indicating that an entity is acting as an agent is that the amount the entity earns is predetermined, being either a fixed fee per transaction or a stated percentage of the amount billed to the customer.

Application of the above IFRS guidance supports the conclusion that the IESO is an agent in the market-settlement process and, therefore, recognizing revenue on a net basis is appropriate. IESO has completed a more thorough analysis of their position that it is an agent in the settlement of the market and reconsideration of that decision is not the topic of this memo.

The IESO is required by legislation to carry out its operations without the purpose of gain or profit~~, making the IESO a self-sustaining entity~~. Other than the amounts the IESO is permitted to keep in accordance with its own rate order from the OEB to cover its internal operating costs, which makes it a self-sustaining entity, all amounts the IESO receives from market participants must be paid out to other market participants who have regulatory or contractual rights to receive payments from those collected amounts.

In the context of applying the principal vs. agent guidance, the amounts the IESO is permitted to keep in accordance with its own rate order from the OEB to cover its internal operating costs are recorded as system fee revenue in the IESO's financial statements. System fees are not characterized as being part of the IESO-administered markets. Accordingly, any references to the IESO-administered markets in this document exclude system fees.

As stated in the IESO financial statements, the IESO-administered markets is a balancing system, and as such, the net position of market accounts will ultimately settle to a nil balance in accordance with market rules. However, due to settlement timing differences, the net position of market accounts will not be in a nil position from a cash flow perspective at the end of any reporting period.

This raises a question as to how a cash flow deficit related to the market-settlement process should be accounted for in the financial statements of the IESO. Two approaches are as follows:

1. The cash flow deficit is recognized as an asset when it occurs and then derecognized in the period in which it is settled. Under this approach, the net position of market accounts will always be in a nil balance in the IESO's balance sheet and there is no impact on the IESO's income statement.
2. The cash flow deficit is recognized as a charge to income when it occurs and then reversed through income in the period in which it is settled.

IESO management has concluded it is appropriate to recognize existing cash flow deficits arising from the market-settlement process as an asset. This is evidenced by the fact the components of the market accounts net to a nil closing balance at year end in the IESO's financial statements for the year ended December 31, 2016. These financial statements also explicitly state there is no impact to the accumulated deficit or revenues and expenses as the IESO is not party to these transactions as per the market rules.

Although the IESO's financial statements include the following accounting policy on regulated assets and liabilities, the asset relating to the cash flow deficit discussed above has not been specifically labeled as a regulated asset:

As a rate-regulated entity, the IESO, in appropriate circumstances establishes regulated assets or liabilities and thereby defers the impact on the statement of operations of certain expenses or revenues because they are probable to be collected or refunded to market participants through future billings. The IESO has applied guidance from United States Generally Accepted Accounting Principles (US GAAP) Topic 980, Regulated Operations, in this policy.

The only two balances specifically labeled as being recognized in the IESO's financial statements under the above policy are (i) unrecovered smart metering expenses, and (ii) unrecovered PSAB transition items. IESO management has, however, indicated in discussions that the cash flow deficit/surplus associated with the original variance account is also considered to be a regulated asset/liability under ASC 980 even though it has been presented as part of the Market Accounts balances in the statement of financial position.

Impact of FHP

The implementation of the FHP results in the IESO establishing and maintaining the FHP variance account to track the resulting cash flow deficit, the balance of which is defined for the purposes of the FHP Act to be a 'regulatory asset'.

The act of legislating the balance in the FHP variance account to be a regulatory asset does not, in and of itself, result in its recognition as an asset for accounting purposes. Accordingly, the primary issue at hand is whether the legislated regulatory asset is eligible for recognition as an asset in both the standalone financial statements of the IESO and the consolidated financial statements of the GRE. As discussed in a later section, the conclusion reached with respect to ~~When~~ the appropriate accounting for the FHP in the standalone financial statements of the IESO as an OGO reporting under PSAS ~~are considered in isolation, the impact of the conclusion reached on this issue would be eliminated to the extent the regulatory asset has been sold to OPG Trust by the end of the reporting period. The conclusion remains significant, however, due to its~~may impact ~~on~~ the consolidated financial statements of the GRE~~, which is discussed in a later section~~.

Formatted: Highlight

Commented [OPCD9]: If was a GBE reporting IFRS, would be different; if was an OGO reporting under IFRS as of March 31st, would be different.

Formatted: Highlight

As noted above, the IESO has adopted a policy to apply the U.S. GAAP guidance in ASC 980 in connection with accounting for rate regulated assets. IESO management has applied this guidance and concluded the regulatory asset created by the FHP can be recognized as a regulated asset for accounting purposes in the financial statements of the IESO. The IESO's auditors, KPMG, concur with this position, as evidenced from the following excerpt from a draft letter issued by KPMG on May 16, 2017 (the KPMG Letter):

We have considered the foregoing analysis and management's conclusion. We concur that the variance account created by Bill 132 will meet the criteria for the recognition of a regulatory asset stated in ASC 980-340-25-1. Furthermore, we have also considered the criteria stated in ASC 980-10-15-2 and believe that IESO should be allowed to continue to use the guidance for regulated operations of Topic 980.

Commented [NPP10]: Insert reference to consistency with previous treatment of OPA (2013 Terry Gabriel email).

Commented [OPCD11]: Terry's email (provided) was from OPA's perspective which referenced RRA. Not sure how helpful it may or may not be here. If not, please ignore comment.

Recognizing the regulatory asset as a regulated asset for accounting purposes in the financial statements of the IESO in accordance with ASC 980 is appropriate only if all of the following conditions are met:

a) the operations of the IESO (or the relevant portion thereof) are within the scope of ASC 980 based on the criteria in ASC 980-10-15-2,
b) the FHP variance account meets the criteria in ASC 980-340-25-1 for capitalization as a regulatory asset, and
c) ASC 980 is an appropriate source of GAAP under PSAS.

Each of these items is addressed in turn:

a) Scope of ASC 980

ASC 980-10-15-2 states the following:

The guidance in the Regulated Operations Topic applies to general-purpose external financial statements of an entity that has regulated operations that meet all of the following criteria:

a) The entity's rates for regulated services or products provided to its customers are established by or are subject to approval by an independent, third-party regulator or by its own governing board empowered by statute or contract to establish rates that bind customers.
b) The regulated rates are designed to recover the specific entity's costs of providing the regulated services or products. This criterion is intended to be applied to the substance of the regulation, rather than its form. If an entity's regulated rates are based on the costs of a group of entities and the entity is so large in relation to the group of entities that its costs are, in essence, the group's costs, the regulation would meet this criterion for that entity.
c) In view of the demand for the regulated services or products and the level of competition, direct and indirect, it is reasonable to assume that rates set at levels that will recover the entity's costs can be charged to and collected from customers.

The Office of the Auditor General of Ontario (OAGO) does not believe the IESO meets the criteria to be within the scope of ASC 980. This is evidenced by the following statement included in *Legislated Accounting Included in Bill 132, Including the Proposed Ontario Fair Hydro Plan Act, 2017 – Submission to Standing Committee on Justice Policy* dated May 25, 2017 (OAGO Submission):

Moreover, IESO is not engaging in rate-regulated activities, and the contracts under its administration were never subject to rate regulation.

Ontario's electricity industry is rate-regulated. Rates paid by electricity consumers are regulated by the OEB such that over time rates equal cost plus, where applicable, a reasonable rate of return. Providing electricity to consumers involves several different parties, including generators, transmitters, distributors and the IESO. Some of these parties engage in rate-regulated activities, some do not.

The IESO serves an important and active role in Ontario's electricity market, irrespective of the fact that it records market transactions on net basis in the financial statements. The IESO balances the supply of and demand for electricity in Ontario and directs its flow across the province's transmission lines, oversees the wholesale electricity market, where the price of energy is determined, and administers the rules that govern the market. In determining whether the IESO has regulated operations, the focus is on whether the rates the IESO charges its customers are regulated and not whether the costs incurred by the IESO are regulated (although a number of them are).

The following supports the position of IESO management that the above criteria are met and the IESO's operations are within the scope of ASC 980:

The entity's rates for regulated services or products provided to its customers are established by or are subject to approval by an independent, third-party regulator or by its own governing board empowered by statute or contract to establish rates that bind customers.

As noted in a research paper issued in 2001 by a taskforce established by the CICA (the CICA Research Report), there is a view held by some that, with respect to rate regulation in the public sector, there is usually no *independent, third-party regulator* because the government controls both the enterprise and the regulatory agency. Accordingly, it is important to point out that independence is not required to meet the criteria in ASC 980-10-15-2(a). The requirement is an *independent, third-party regulator* or *its own governing board empowered by statute or contract*. In fact, paragraph 64 of the Basis for Conclusions for FAS 71, ACCOUNTING FOR THE EFFECTS OF CERTAIN TYPES OF REGULATION (which is the pre-codified version of ASC 980), specifically states that the criteria in ASC 980-10-15-2(a) was modified so as not to preclude application by government utilities with rates set by their own governing board.

The OEB has been established by the Province to be Ontario's independent energy regulator and, therefore, is considered the governing board of the IESO. The OEB's mandate and authority come from the *Ontario Energy Board Act, 1998*, the *Electricity Act, 1998*, and a number of other provincial statutes. As described in more detail below, the IESO's rates are established in accordance with these statutes.

In the context of its market-settlement role, the IESO's 'customers' are the Market Participants buying electricity from the IESO-controlled grid. All Market Participants are required to execute a Participation Agreement with the IESO. In accordance with Article 3.1 of the standard Participation Agreement, each Market Participant has agreed to be bound by and to comply with all of the provisions of the Market Rules, which includes the following:

Chapter 9, Section 1.2.3
Notwithstanding any other provision within the market rules, market participants shall remit to the IESO such applicable settlement amounts and other payments as may be required under the relevant provisions of the Electricity Act, 1998, the Ontario Energy Board Act, 1998 and any related regulations, as amended from time to time.

The IESO's operations meet the criteria in ASC 980-10-15-2(a) because the rates charged by the IESO are based on statutes. As discussed in more detail below, the rates are designed to recover the IESO's

expenditure for providing the regulated services and the pass-through costs related to the energy purchased from the generators and to government programs.

The main components of invoices issued by the IESO to Market Participants are as follows:

- Commodity Charges
  - Hourly Ontario Energy Price
  - Global Adjustment
- Wholesale Market Service Charges
  - IESO Administration Fee
  - Uplift Charges
  - Rural and Remote Electricity Rate Protection
- Wholesale Transmission Charges
- Debt Retirement Charge

Each component is determined as follows:

Commodity Charges

In accordance with Section 25.33(1) of the Electricity Act, the IESO is required to price electricity to recover costs:

Electricity pricing to reflect costs

IESO to make adjustments

25.33 (1) The IESO shall, through its billing and settlement systems, make adjustments in accordance with the regulations that ensure that, over time, payments by classes of market participants in Ontario that are prescribed by regulation reflect,

a) amounts paid to generators, the Financial Corporation and distributors, whether the amounts are determined under the market rules or under section 78.1, 78.2 or 78.5 of the Ontario Energy Board Act, 1998;

b) amounts paid to entities with whom the IESO has a procurement contract, as determined under the procurement contract; and

c) such amounts as may be prescribed that are paid or incurred by the IESO in relation to the Ontario Fair Hydro Plan Act, 2017. *2014, c. 7, Sched. 7, s. 8 (1); 2017, c. 16, Sched. 1, s. 43 (2).*

Market Participants are initially invoiced for consumed electricity at the Hourly Ontario Energy Price (HOEP), which is calculated as the average of the twelve market clearing prices set in each hour. In accordance with Section 25.33(5) of the Electricity Act, the IESO is required to track differences between the amounts invoiced to Market Participants at HOEP and actual costs incurred in a variance account:

Variance accounts

(5) The IESO shall establish and maintain such variance accounts as may be necessary to record all amounts payable or receivable by it under this section or under the Ontario Fair Hydro Plan Act, 2017. *2004, c. 23, Sched. A, s. 37; 2014, c. 7, Sched. 7, s. 8 (5); 2017, c. 16, Sched. 1, s. 43 (5).*

Sections 3.1 and 3.3 of the OEB Act require the variance account to be settled over a twelve-month period, which is done through the Global Adjustment on a Market Participant's invoice:

Annual rate plan and separate rates for situations prescribed by regulation

(3.1) The Board shall, in accordance with rules prescribed by the regulations, approve or fix separate rates for the retailing of electricity,

a) to such different classes of consumers as may be prescribed by the regulations; and

b) for such different situations as may be prescribed by the regulations. 2004, c. 23, Sched. B, s. 14 (1).

Rates to reflect cost of electricity

(3.3) In approving or fixing rates under subsection (3.1),

a) the Board shall forecast the cost of electricity to be consumed by the consumers to whom the rates apply, taking into consideration the adjustments required under section 25.33 of the Electricity Act, 1998 *and shall ensure that the rates reflect these costs; and*

b) the Board shall take into account balances in the IESO's variance accounts established under section 25.33 of the Electricity Act, 1998 *and shall make adjustments with a view to eliminating those balances within 12 months or such shorter time periods as the Minister may direct. 2004, c. 23, Sched. B, s. 14 (1); 2014, c. 7, Sched. 23, s. 6 (2).*

Although the implementation of the FHP involves the deferral of costs over an extended period of time, it does not change the IESO's obligation under the OEB Act to price electricity to recover incurred costs in full. The deferral relating to the FHP is tracked in a separate variance account in accordance with Section 24(1) of the Fair Hydro Plan Act, 2017 (the FHP Act):

Variance account to be established, maintained

24 (1) The IESO shall establish and maintain a variance account in which it records the following:

1. The IESO deferral for each month.

2. All payments received by the IESO resulting from the exercise of the right of recovery under section 25 and any transfer under section 26.

3. Such other adjustments as may be prescribed, including adjustments in respect of the period that commences on or after May 1, 2017 and before the day this section comes into force.

The right for the IESO to recover the variance account is set out in Section 25 of the FHP Act:

Regulatory asset established

25 (1) Effective May 1, 2017, the IESO has the right, exercisable in accordance with this Act and the regulations, to recover the balance recorded in the variance account from specified consumers.

Board to set rates

(2) Subject to subsection (3), the Board shall, from time to time and in accordance with the regulations, determine and set rates payable by specified consumers to allow for the IESO to recover the balance recorded in the variance account.

Limitation

(3) The IESO shall not be entitled to collect all or part of the balance recorded in the variance account from specified consumers before May 1, 2021.

Wholesale Market Service Charges

The IESO charges Market Participants administrative fees to operate the wholesale electricity market and manage the electric power system in Ontario. These fees are required to be approved by the OEB under Section 25(1) of the Electricity Act on an annual basis.

Review of requirements and fees

25 (1) The IESO shall, at least 60 days before the beginning of each fiscal year, submit its proposed expenditure and revenue requirements for the fiscal year and the fees it proposes to charge during the fiscal year to the Board for review, but shall not do so until after the Minister approves the IESO's proposed business plan for the fiscal year under section 24. 2014, c. 7, Sched. 7, s. 3 (1).

Uplift charges

Need details

Commented [LAP12]: Uplift charges are comprised of a number of things. To ask IESO for help to summarize succinctly.

RRRP charges

The RRRP program provides a rate subsidy to rural and remote residential customers who face higher distribution costs. Under the FHP Act, the cost of the RRRP program has shifted from ratepayers to

provincial revenues and, therefore, is no longer a component of the IESO's invoice.

Wholesale Transmission Charge
This charge to LDCs and some large consumers covers the cost incurred by transmission companies to construct and maintain the high-voltage transmission lines needed to transport electricity from generating stations to LDCs or consumers. In accordance with Section 78(1) of the OEB Act, the rate for this service is approved by the OEB.

Debt Retirement Charge
When the Ontario electricity sector was restructured in April 1999, the Ontario Electricity Financial Corporation (OEFC) took on $20.9 million of stranded debt from Ontario Hydro. The OEFC services and retires the stranded debt with cash flows from a number of sources in the electricity sector, one of those currently being debt retirement charges paid by certain ratepayers (ratepayers cease paying debt retirement charges April 1, 2018).

Under Regulation 494/01, DEBT RETIREMENT CHARGE – ADMINISTRATION, the IESO is appointed as a collector of debt retirement charges (Section 2) and is required to collect a debt retirement charge on behalf of the OEFA from every entity who withdraws electricity from the IESO-controlled grid (Section 6(2)). The prescribed rate for the debt retirement charge is set out in Regulation 493/01, DEBT RETIREMENT CHARGE – RATES AND EXEMPTIONS.

The regulated rates are designed to recover the specific entity's costs of providing the regulated services or products.

As discussed in detail above, the IESO is required by statute to set prices to recover costs.

In view of the demand for the regulated services or products and the level of competition, direct and indirect, it is reasonable to assume that rates set at levels that will recover the entity's costs can be charged to and collected from customers.

As discussed in detail above, the IESO is required by statute to set prices to recover costs.

The majority of the monthly amount invoiced by the IESO to Market Participants represents a direct flow through of costs as they are incurred, but there are certain types of costs for which recovery may be deferred. For those deferred costs, the IESO is dependent on the future consumption of electricity by rate-payers to fully recover costs.

Based on relatively short recovery periods, it is reasonable to assume there will be sufficient demand to recover the deferred costs that currently exist. Specifically:

- RPP and RRRP variance accounts are recovered over twelve months in accordance with Section 3.3(b) of the OEB Act. *(Note - Under the FHP, responsibility for the cost of the RRRP program is being transferred to the Provincial budget and rate-payers will no longer be directly charged)*
- The Smart Metering Entity charge is recovered over the period from May 1, 2013 to October 31, 2018 in accordance with ~~XX~~OEB Decision and Order EB-2015-0298.

Under the FHP, responsibility for the cost of the OESP program is being transferred to the Provincial budget and rate-payers will no longer be charged for the cost of this program. The OESP variance account, which is currently in a credit balance, will be used to fund the cost of the program until

Commented [LAP13]: To confirm with Energy if all costs have shifted.

Commented [LAP14]: CV to determine if there is anything else to add from IESO's analysis.

Commented [LAP15]: To confirm with Energy if all costs have shifted.

depleted.

Although the timing of the recovery of the FHP variance account has not yet been established by the OEB, the wording and intent of the proposed legislation is clear that it is intended by law to be recoverable over a period of 30 years. Given the nature and extent of customer demand for the power generated and distributed in Ontario, both at this time and projected in the future, it is reasonable to conclude that there will be sufficient demand to recover the regulatory asset. This conclusion, which is supported by Figure 19: Ontario's Forecast Electricity Production in Achieving Balance – Ontario's Long-Term Energy Plan, will need to be continually evaluated throughout the recovery period. The willingness of unrelated third parties to fund the purchase of the regulatory asset from the IESO by OPG Trust also demonstrates the belief that sufficient demand will exist to permit its future recovery.

In addition to the general scope requirements of ASC 980 discussed above, specific consideration is made as to whether the following scope exception in ASC 980-10-15-7 applies to the FHP:

The guidance in the Regulated Operations Topic does not apply to any of the following transactions:

a) *Accounting for price controls that are imposed by governmental action in times of emergency, high inflation, or other unusual conditions, or accounting for contracts in general. However, if the terms of a contract between an entity and its customer are subject to regulation and the criteria of paragraph 980-10-15-2 are met with respect to that contract, the guidance in this Topic shall apply.*

Based on the discussion below, this scope exemption is not applicable to the FHP.

Electricity cost reductions resulting from the FHP do not represent price controls imposed by the Province in a time of emergency, high inflation, or other unusual conditions. As noted in the 2017 budget speech, the 2017 Ontario Budget – A Stronger, Healthier Ontario, the FHP is a fairer way to share the costs of building a cleaner, more modern and reliable electricity generation system. In particular, the budget speech states:

Commented [NPP16]: Navigant report/other support

Recognizing that existing electricity infrastructure is expected to last for decades to come, the Province would refinance the cost of those capital investments to ensure that system costs are more equitably distributed over time.

The following paragraph from the Basis for Conclusion for FAS 71 also provides some insight as to the specific concerns relating to government imposed price controls that resulted in the scope exception in ASC 980-10-15-7(a):

70. The first scope limitation of paragraph 8—excluding accounting for price controls imposed by governmental action in times of emergency, high inflation, or other unusual conditions—was included in the Discussion Memorandum. Price controls imposed in periods of unusual conditions are not expected to be applied consistently over an extended period. Indeed, their duration usually is limited by statute. In that environment, assurance of future benefits cannot be provided by probable future actions of the price control regulator because that regulator may not exist at a given future date.

The implementation of the FHP does not create the type of environment described in FAS 71.BC70 as it is governed by the OEB and there is no concern the OEB will not continue to exist.

The second part of the scope exception in ASC 980-10-15-7(a) relating to the accounting for contracts is further explained in the following paragraph from the Basis for Conclusion for FAS 71:

71. Accounting for contracts in general was also excluded from the scope of the Discussion Memorandum. The economic effects of cost reimbursement contracts are in some respects similar to the economic effects of the type of regulation addressed by this Statement. However, most contracts tend to be relatively short-term, whereas regulation of enterprises covered by this Statement is expected to continue beyond the foreseeable future. The Board noted that other authoritative literature addresses contract accounting and concluded that it should exclude the general issue of contract accounting from the scope of this Statement.

Although the impetus for the FHP relates to term of contracts the IESO has entered into with certain generators, the FHP does not change the existing accounting for these contracts.

Application of ASC 980-340-25-1 to the regulatory asset

ASC 980-340-25-1 states the following:

Rate actions of a regulator can provide reasonable assurance of the existence of an asset. An entity shall capitalize all or part of an incurred cost that would otherwise be charged to expense if both of the following criteria are met:

- *a) It is probable (as defined in Topic 450) that future revenue in an amount at least equal to the capitalized cost will result from inclusion of that cost in allowable costs for rate-making purposes.*
- *b) Based on available evidence, the future revenue will be provided to permit recovery of the previously incurred cost rather than to provide for expected levels of similar future costs. If the revenue will be provided through an automatic rate-adjustment clause, this criterion requires that the regulator's intent clearly be to permit recovery of the previously incurred cost.*

A cost that does not meet these asset recognition criteria at the date the cost is incurred shall be recognized as a regulatory asset when it does meet those criteria at a later date.

The following supports the IESO's position that the FHP variance account meets the above criteria for capitalization:

It is probable (as defined in Topic 450) that future revenue in an amount at least equal to the capitalized cost will result from inclusion of that cost in allowable costs for rate-making purposes.
The following excerpts from the FHP Act make it clear that the IESO is entitled to recover the regulatory asset through rates in the future: *Variance account to be established, maintained* *24 (1) The IESO shall establish and maintain a variance account in which it records the following:* *1. The IESO deferral for each month.* *2. All payments received by the IESO resulting from the exercise of the right of recovery under section 25 and any transfer under section 26.* *3. Such other adjustments as may be prescribed, including adjustments in respect of the period that commences on or*

after May 1, 2017 and before the day this section comes into force.

Recording determinative

(2) Subject to the correction of any obvious error by the IESO, its recording of the balance in the variance account is determinative of the balance as of the time of the recording.

Regulatory asset established

25 (1) Effective May 1, 2017, the IESO has the right, exercisable in accordance with this Act and the regulations, to recover the balance recorded in the variance account from specified consumers.

Board to set rates

(2) Subject to subsection (3), the Board shall, from time to time and in accordance with the regulations, determine and set rates payable by specified consumers to allow for the IESO to recover the balance recorded in the variance account.

Limitation

(3) The IESO shall not be entitled to collect all or part of the balance recorded in the variance account from specified consumers before May 1, 2021.

The recovery of the regulatory asset is, however, dependent on future consumption of electricity by rate-payers. Although the timing of the recovery of the regulatory asset has not yet been established by statute, the recovery period is intended to be 30 years. Given the nature and extent of customer demand for the power generated and distributed in Ontario, both at this time and projected in the future, it is reasonable to conclude that it is probable there will be sufficient demand in the future to recover the regulatory asset. This conclusion, which is supported by Figure 19: Ontario's Forecast Electricity Production in Achieving Balance – Ontario's Long-Term Energy Plan (Appendix B), will need to be continually evaluated throughout the recovery period. The willingness of unrelated third parties (e.g., investors) to fund the purchase of the regulatory asset from the IESO by OPG Trust also demonstrates the belief that sufficient demand will exist to permit its future recovery.

Based on available evidence, the future revenue will be provided to permit recovery of the previously incurred cost rather than to provide for expected levels of similar future costs. If the revenue will be provided through an automatic rate-adjustment clause, this criterion requires that the regulator's intent clearly be to permit recovery of the previously incurred cost.

Based on the above excerpts from the FHP Act, it is clear the IESO will be recovering costs previously incurred rather than providing for expected levels of similar future costs.

ASC 980 is an acceptable source of guidance under PSAS[3]

In assessing whether ASC 980-340-25-1 is an acceptable source of guidance under PSAS, Paragraph 5 of PSAS 1150, GENERALLY ACCEPTED ACCOUNTED PRINCIPLES, states the following:

When the primary sources of GAAP do not deal with the accounting and reporting in financial statements of transactions or events encountered by the public sector reporting entity, or additional guidance is needed to apply a primary source to specific circumstances, the selection of an appropriate accounting policy requires the exercise of professional judgment. In these circumstances, a public sector reporting entity should adopt accounting policies and disclosures that are consistent with:

a) the primary sources of GAAP; and

[3] If the accounting for GBEs were to change in the future such that line by line consolidation is required using PSAS, the importance of this consideration increases significantly.

b) the application of the concepts described in FINANCIAL STATEMENT CONCEPTS, Section PS 1000.

Related guidance is also provided in PSAS 1150.18-.20:

Paragraphs PS 1150.19-.24 identify some of the other sources that a public sector reporting entity might consult to assist in selecting accounting policies and disclosures that comply with paragraph PS 1150.05.

Pronouncements issued by other bodies authorized to issue accounting standards may be useful sources to consult. For example, accounting pronouncements published with the authority of the Canadian Accounting Standards Board (AcSB), International Accounting Standards Board (IASB), US Federal Accounting Standards Advisory Board (FASAB), US Governmental Accounting Standards Board (GASB), or International Public Sector Accounting Standards Board (IPSASB) are often important sources to consult on matters not covered by primary sources of GAAP or for assistance in applying a primary source of GAAP to specific circumstances.

When a public sector reporting entity chooses to consult a source described in paragraph PS 1150.19, it applies professional judgment and evaluates the source in the context of the relative manner in which the standard setter requires its pronouncements to be applied, as well as in the context of the related pronouncement. When an accounting standard setter does not have a conceptual framework that is similar to the concepts referred to in paragraph PS 1150.05(b), the public sector reporting entity needs to ensure that the selected source is consistent with those concepts.

Since PSAS does not specifically address the treatment of costs incurred that will be recovered through regulatory operations in future periods, the IESO would not be precluded from following the guidance in ASC 980-340-25-1. However, PSAS 1000.05 makes it clear that in order to do so, it must first be demonstrated that such guidance is consistent with the application of the concepts described in PSAS 1000, FINANCIAL STATEMENT CONCEPTS.

The relevant guidance in PSAS 1000 relating to the recognition of an asset is as follows:

PSAS 1000.35

Assets are economic resources controlled by a government as a result of past transactions or events and from which future economic benefits are expected to be obtained.

PSAS 1000.36

Assets have three essential characteristics:

a) they embody future economic benefits that involve a capacity, singly or in combination with other assets, to provide goods and services, to provide future cash inflows, or to reduce cash outflows;
b) the public sector entity can control the economic resource and access to the future economic benefits; and
c) the transaction or event giving rise to the public sector entity's control has already occurred.

PSAS 1000.37

An item is not an asset of a government if it lacks one or more of the essential characteristics listed in the preceding paragraph. Thus, for example, an item does not qualify as an asset of a government if the item involves:

a) *no future economic benefit;*
b) *future economic benefit, but the government cannot obtain it; or*
c) *future economic benefit that the government may obtain, but the events or circumstances that give the government control of the benefit have not yet occurred*

The following supports the IESO's position that the regulatory asset possesses the three essential characteristics of an asset:

Embody future economic benefits that involve a capacity, singly or in combination with other assets, to provide goods and services, to provide future cash inflows, or to reduce cash outflows

The following excerpts from the FHP Act make it clear that the IESO is entitled to recover the regulatory asset through rates in the future:

Variance account to be established, maintained

24 (1) The IESO shall establish and maintain a variance account in which it records the following:

1. The IESO deferral for each month.

2. All payments received by the IESO resulting from the exercise of the right of recovery under section 25 and any transfer under section 26.

3. Such other adjustments as may be prescribed, including adjustments in respect of the period that commences on or after May 1, 2017 and before the day this section comes into force.

Recording determinative

(2) Subject to the correction of any obvious error by the IESO, its recording of the balance in the variance account is determinative of the balance as of the time of the recording.

Regulatory asset established

25 (1) Effective May 1, 2017, the IESO has the right, exercisable in accordance with this Act and the regulations, to recover the balance recorded in the variance account from specified consumers.

Board to set rates

(2) Subject to subsection (3), the Board shall, from time to time and in accordance with the regulations, determine and set rates payable by specified consumers to allow for the IESO to recover the balance recorded in the variance account.

Limitation

(3) The IESO shall not be entitled to collect all or part of the balance recorded in the variance account from specified consumers before May 1, 2021.

Accordingly, the regulatory asset, by statute, has the capacity to provide future cash inflows.

While perhaps obvious, paragraph 13 of PSAS 3210, ASSETS, confirms the generation of future cash flows represents a future economic benefit:

The future economic benefits embodied in an asset may also be in the form of generating future cash inflows. Cash inflows benefit the public sector entity because cash can be used to purchase or to provide goods and services, redistribute wealth or settle liabilities. Benefits in the form of cash inflows relate to resources, such as loans receivable, inventory for resale and portfolio investments. Also, some public sector resources generate cash inflows because they have user fees associated with them.

The ability of the regulatory asset to generate future cash flows is dependent on the future consumption of electricity by rate-payers. Although the timing of the recovery of the regulatory asset has not yet been established by statute, the recovery period is intended to be 30 years. Given the nature and extent of customer demand for the power generated and distributed in Ontario, both at this time and projected in the future, sufficient demand is expected to exist in the future to recover the regulatory asset. This conclusion, which is supported by Figure 19: Ontario's Forecast Electricity

Production in Achieving Balance – Ontario's Long-Term Energy Plan, will need to be continually evaluated throughout the recovery period. The willingness of unrelated third parties to fund the purchase of the regulatory asset from the IESO by OPG Trust also demonstrates the belief that sufficient demand will exist to permit its future recovery.

The public sector entity can control the economic resource and access to the future economic benefits

Paragraph 16 of PSAS 3210, ASSETS, states the following:

A public sector entity controls the economic resource and access to the future economic benefits when it:

- *a) can benefit from the economic resource through its capacity to provide goods and services, to provide future cash inflows or to reduce cash outflows;*
- *b) can deny or regulate access to those benefits by others; and*
- *c) is exposed to the risks associated with the economic resource.*

The IESO can benefit from the regulatory asset through its capacity to provide future cash inflows in one of two ways:

1. *Collection through future rates*

Section 25 of the FHP gives the IESO the right to recover the regulatory asset through future rates:

Regulatory asset established

25 (1) Effective May 1, 2017, the IESO has the right, exercisable in accordance with this Act and the regulations, to recover the balance recorded in the variance account from specified consumers.

Board to set rates

(2) Subject to subsection (3), the Board shall, from time to time and in accordance with the regulations, determine and set rates payable by specified consumers to allow for the IESO to recover the balance recorded in the variance account.

2. *Sale to a financing entity*

Section 26 of the FHP Act permits the IESO to sell the regulatory asset:

26 (1) The IESO may from time to time, in accordance with this Act and the regulations, transfer a specified portion of the regulatory asset to a financing entity in accordance with this section.

Agreement

(2) An agreement between the IESO and a financing entity in relation to the transfer of a specified portion of the regulatory asset shall provide for consideration of a payment by the financing entity to the IESO in an amount equal to the amount of the specified portion.

Effect of payment

(3) Upon receipt by the IESO of the payment by the financing entity,

- *(a) the balance in the variance account shall be reduced by the amount of the payment;*
- *(b) the regulatory asset shall be adjusted accordingly;*
- *(c) the financing entity shall acquire a corresponding investment interest; and*
- *(d) the IESO shall retain no further right, title or interest in the corresponding investment interest.*

Since (a) the statutory right to recover the regulatory asset belongs solely to the IESO, and (b) the IESO is permitted, but not required, to sell the regulatory asset, the IESO can deny or regulate access to the future economic benefits of the regulatory asset by others.

The IESO is exposed to the risks associated with the regulatory asset, with the primary risk being that collection through the mechanism set out in Section 25 of the FHP Act is dependent on the future

Commented [LAP17]: CV - Are there other examples to provide as analogies – anything in tangible capital assets?

.31 *When conditions indicate that a tangible capital asset no longer contributes to a government's ability to provide goods and services, or that the value*

.07 *When there has been a loss in value of a portfolio investment that is other than a temporary decline, the investment should be written down to recognize the loss. The write-down should be included in the statement of operations. In the case of an item in the fair value category, a reversal of any net remeasurements should be reported in the statement of remeasurement gains and losses.*

Commented [OPCD18]: See comment on OPCD 19)

consumption of electricity by rate-payers.

The above analysis supports the position that the IESO controls the regulatory asset and access to the future economic benefits.

In reaching this conclusion, consideration was given to the following excerpt included on Page 37 of the 2008 Annual Report of the OAGO:

With regard to the second characteristic, we simply point again to the legacy of the former Ontario Hydro and its stranded debt. This in our view provides concrete evidence that even in monopoly situations governments do not have sufficient assurance that an enterprise will generate enough profits in future years to recover all of its past costs.

Although there needs to be sufficient assurance regarding the recovery of past costs, all relevant facts and circumstances need to be taken into consideration. Accordingly, the stranded debt of Ontario Hydro can be a relevant to the analysis, but not determinative on its own. As noted in the previous section, the recoverability of past costs will be continually assessed.

Commented [OPCD19]: CV to review wording (past does not predict future).

The transaction or event giving rise to the public sector entity's control has already occurred

When evaluating whether a transaction or event gives rise to control, the following guidance from PSAS 3210, ASSETS, provides helpful guidance:

.26
The past transaction or event that gives rise to control of an economic resource resulting from exchange agreements or contracts usually occurs at the point of exchange. This arises when substantially all the benefits and risks of ownership have been transferred to the public sector entity and normally coincides with the disbursement of funds, exchange of other assets or assumption of liabilities.
.28
The existence of a law, by-law or policy in relation to a particular program is not a past transaction or event that gives rise to control of an economic resource. Control does not exist until the underlying event occurs.
.29
The past transaction or event giving rise to control of an economic resource must have occurred by the financial statement date. Legislation having retroactive application cannot create a past transaction or event. Any economic resources related to that legislation would be accounted for in the current and relevant future periods, not in the period of the effective date of the legislation.

In the case of the regulatory asset, the above guidance in PSAS 3210 makes it clear that it is not the statute itself that is the transaction or event giving rise to the asset, it is the incurrence of costs for which recovery is provided for under statute. Accordingly, control over the economic benefits of the regulatory asset occurs when the IESO incurs a cash flow deficit that is recorded in the FHP variance account in accordance with Section 24(1) of the FHP Act:

24 (1) The IESO shall establish and maintain a variance account in which it records the following:

1. The IESO deferral for each month.

2. All payments received by the IESO resulting from the exercise of the right of recovery under section 25 and any transfer under section 26.

3. Such other adjustments as may be prescribed, including adjustments in respect of the period that commences on or after May 1, 2017 and before the day this section comes into force.

At this point in time, the IESO has incurred a cash outflow for which it is entitled to recover under Section 25 of the FHP Act:

Regulatory asset established

25 (1) Effective May 1, 2017, the IESO has the right, exercisable in accordance with this Act and the regulations, to recover the balance recorded in the variance account from specified consumers.

Board to set rates

(2) Subject to subsection (3), the Board shall, from time to time and in accordance with the regulations, determine and set rates payable by specified consumers to allow for the IESO to recover the balance recorded in the variance account.

The following excerpt from the IFRS Staff Paper on Rate-Regulated Activities prepared for discussion at the June 2017 IASB meeting presents a consistent view and dismisses the potential dissenting view that the transaction or event giving rise to the IESO's control is the future consumption of electricity by rate-payers:

A right arises from the rate-adjustment mechanism if the entity has already partially or fully fulfilled a regulatory requirement (past event) but the current regulated rate does not yet reflect the compensation that the entity is entitled to in exchange. Even though the entity cannot compel its customers to buy the regulated goods or services, the entity's right to charge an increased future regulated rate has the potential to produce for the entity an inflow of economic benefits that are not available to other parties. That right will be consumed as the entity includes the rate increase in future regulated rates and will lead to an inflow of economic benefits if customers pay the increased future regulated rate for the future delivery of goods or services.

In April 2011, Torys LLP issued a letter to OPG relating to the legal basis of OPG's regulatory deferral and variance accounts which, as evidenced by the following excerpts, also takes the position that the transaction or event giving rise to the asset is the incurrence of costs for which recovery is provided for under statute:

OPG's deferral and variance accounts are established either by regulation or by orders of the Ontario Energy Board (the "OEB") through the proper exercise of its jurisdiction as the administrative tribunal responsible for regulating the electricity industry in Ontario. The establishing of such an account pursuant to regulation or the granting of approval by the OEB to establish such an account confers upon OPG a right to record amounts in the account and to account for the amounts recorded on the basis that they have been prudently incurred.

The OEB has broad jurisdiction in setting payment amounts for OPG and it would not be reasonable for the legislature to have given the OEB the legislative power to authorize the establishment of accounts without also giving the OEB the power to dispose of the amounts recorded in such accounts, including in circumstances where there is no future output. Moreover, to interpret the applicable legislation in a manner that only allows for payment amounts on a volumetric basis is in our view unreasonable because it would not be consistent with the rules of statutory interpretation.

Commented [OPCD20]: Recovery not dependent on future output (eg. OPG would be able to recover, even if the entity stopped producing). Would similar apply to situation of declining demand?

Another potential dissenting view is contained on page 37 of the 2008 Annual Report of the OAGO:

With regard to the third characteristic, we do not believe that a rate-regulation decision can be considered a transaction or event giving rise to an asset or obligation because, as stated above, from the level of the government's consolidated financial statements such a decision is an internal event between two government-controlled entities. An equivalent analysis for rate-regulated liabilities leads to the same conclusion. PSAB standards preclude the inclusion of both gains and losses from such inter-company transactions. Therefore, our contention is that, at the consolidated financial statement level, rate-regulated assets and liabilities have no place and should be removed upon consolidation of the government's controlled entities.

It should be noted, however, that the OAGO's belief that a rate-regulation decision cannot be considered a transaction or event giving rise to an asset or obligation is not contrary to the IESO's position. As noted above, it is not the statute itself that is being considered the transaction or event giving rise to the asset, it is the incurrence of costs for which recovery is provided for under statute.

In addition, one could argue the creation of the relevant statutes is not an internal event from the

point of view of the consolidated government. Statutes must be passed by the Legislative Assembly of Ontario to become law. Since the Legislative Assembly is comprised of elected members, it can be viewed as the government's governing body.

Concluding the regulatory asset possesses the three essential characteristics of an asset in PSAS 1000.05 then begs the question as to whether the application of the guidance in ASC 980 is even necessary in this particular situation. Consistent with the statement in ASC 980 –340-25-1 that *rate actions of a regulator can provide reasonable assurance of the existence of an asset,* ASC 980 provides guidance as to how to apply the primary source of PSAS in the regulatory environment.

In a letter from the OAGO to the Board of Directors of the IESO dated June 22, 2017 (the OAGO Letter), the OAGO makes the following statement:

Commented [OPCD21]: The paper includes references to all relevant documents to support a robust analysis. Assume this is both appropriate and acceptable.

The definitions of an asset in the PSAS and FASB Conceptual Framework are similar. Similar to PSAS, rate regulated deferral accounts do not generally meet the definition of an asset in the FASB's Conceptual Framework.

However, the following excerpts from the Basis for Conclusions for FAS 71 (paragraph 58 in particular), clearly support that ASC 980 is an application of, not an exception from, the basic definition of an asset in the Conceptual Framework:

Economic Effects of Regulation

56. The second threshold issue in the Discussion Memorandum was: "Does rate regulation introduce an economic dimension in some circumstances that should affect the application of generally accepted accounting principles to rate-regulated enterprises?"

57. Most respondents to the Discussion Memorandum indicated that rate regulation does introduce such an economic dimension in some circumstances. Respondents cited the cause-and-effect relationship of costs and revenues as the principal economic effect of regulation that affects accounting for regulated enterprises. They noted that cost might be one factor used by unregulated enterprises to establish prices, but it would often not be the most important factor. Usually, prices are limited by the market. An unregulated enterprise might desire to price its goods or services at a level that would recover all costs and a reasonable profit; however, the market might not permit that price. Alternatively, an unregulated enterprise might be able to increase its prices and its profit if competition does not limit its prices. In either case, cost often is not the principal determinant of prices. In contrast, for an enterprise with prices regulated on the basis of its costs, allowable costs are the principal factor that influences its prices.

58. The economic effect cited by most respondents is the ability of a regulatory action to create a future economic benefit—the essence of an asset. For example, consider a regulated enterprise that incurs costs to repair damage caused by a major storm. If the regulator approves recovery of the costs through rates over some future period or is expected to do so, the rate action of the regulator creates a new asset that offsets the reduction in the damaged asset. The enterprise has probable future economic benefits—the additional revenue that will result from including the cost in allowable costs for rate-making purposes. The future benefits are obtained or controlled by the enterprise as a result of a past event—incurring the cost that results in the rate order. Thus, the criteria of Concepts Statement 3 for an asset are met.

The fact that many Canadian rate-regulated entities recognized regulated assets under Part V of the CPA Canada Handbook – *Pre-changeover Accounting Standards* (Part V GAAP) further supports the position that regulated assets do meet the basic definition of an asset under PSAS. Although Part V GAAP refers to rate regulation in several standards, it does not include cost capitalization guidance equivalent to ASC 980-340-25-1. It does, however, specify in paragraph 32B of Section 1100, *Generally accepted accounting principles*, that Section 1100 applies to the recognition and measurement of assets and liabilities arising from rate regulation beginning January 1, 2009. Since Section 1100.04 only permits the use of an alternate source of GAAP if it is consistent with Part V GAAP, regulated assets need to meet the basic definition of an asset under Part V GAAP in order to be recognized. The Part V GAAP definition of an asset in Section 1000, *Financial Statement Concepts* is consistent with the PSAS definition.

The CICA Research Report also concluded regulated assets meet the basic definition of an asset under Part V GAAP:

In the Study Group's view, the economic benefits and obligations created by rate regulation and resulting from past transactions or events, and the changes in these amounts, meet the definition of a financial statement element set out in Handbook Section 1000.

The OAGO Letter suggests that IFRS should be consulted prior to referring to ASC 980 under PSAS's GAAP hierarchy in PSAS 1150 and points out the following:

- In 2005 the International Financial Reporting Interpretations Committee (IFRIC) indicated the US GAAP recognition criteria for regulated assets were not fully consistent with IFRS and could not be applied by analogy.
- When the question of rate regulated accounting was posed to the IFRIC again in 2008, the IFRIC noted the topic had been previously addressed and there was a well-established practice of first time IFRS adopters ceasing rate regulated accounting and removing regulatory deferral accounts from their financial statements.
- In the Basis for Conclusions on IFRS 14, IFRS 14.BC30 noted the differences in the recognition criteria between IFRS and ASC 980 resulted in almost all existing regulatory deferral accounts being derecognized upon transition to IFRS.

It should be noted, however, that the IASB's project on rate-regulated activities is still in progress and the OAGO Letter does not reference more recent and relevant activity. In September 2014, the IASB issued Discussion Paper DP/2014/02, *Reporting the Financial Effects of Rate Regulation*. The Discussion Paper presents the opposing views as to whether regulatory deferral account balances meet the definitions of an asset or a liability and specifically states the following in paragraph 5.09:

Consequently, the IASB has not formed a preliminary view on whether regulatory deferral account balances meet either the current or proposed revised Conceptual Framework definitions of an asset and a liability. It will use the input received from the responses to this Discussion Paper and the Conceptual Framework project to help it assess whether to develop any specific accounting guidance or requirements for rate-regulated activities.

In addition, the most recent paper issued by the IASB staff in June 2017 includes the following:

17. During the May 2017 Board meeting we also considered the interaction between the definitions of assets and liabilities and the characteristics of defined rate regulation (see paragraphs 5 and 6). We concluded that a combination of those characteristics suggested that the rights and obligations created

by the rate-adjustment mechanism are assets and liabilities, as those terms are expected to be defined in the forthcoming revised Conceptual Framework for Financial Reporting.

The Exposure Draft ED/2015/3, *Conceptual Framework for Financial Reporting*, defines an asset as follows:

4.5 An asset is a present economic resource controlled by the entity as a result of past events.
4.6 An economic resource is a right that has the potential to produce economic benefits.

This recent activity suggests that it would be premature to assume that the IASB will conclude that regulatory deferral account balances will not meet the definitions of an asset or a liability.

Once it is determined that the regulatory asset meets the basic characteristics of an asset in PSAS 1000.36, consideration also needs to be made as to what type of asset it is. This is important because PSAS 1000.58 does not permit the recognition of intangible assets:

In the absence of appropriate public sector recognition and measurement criteria for intangibles, all intangibles, including those that have been purchased, developed, constructed or inherited in right of the Crown, are not recognized as assets in government financial statements. The intangible often called "human capital" that embodies the talent or intellectual capital of government employees is not recognized as an asset under existing accounting principles.

PSAS 1000 identifies two types of assets: financial assets and non-financial assets and provides the following commentary:

.39 Financial assets are assets that could be used to discharge existing liabilities or finance future operations and are not for consumption in the normal course of operations.

.40 A financial asset is any asset that is:

- *a) Cash*
- *b) a realizable asset that is convertible to cash;*
- *c) a contractual right to receive cash or another financial asset from another party;*
- *d) a contractual right to exchange financial instruments with another party under conditions that are potentially favourable to the government;*
- *e) an equity instrument of another entity;*
- *f) an investment in a government business enterprise or government business partnership;*
- *g) a financial claim on an outside organization or individual; or*
- *h) an inventory or item for sale that meets the criteria in FINANCIAL STATEMENT PRESENTATION, paragraph PS 1201.055.*

.41 Non-financial assets include tangible capital assets, and other assets such as prepaid expenses and inventories of supplies.

.42 Non-financial assets are acquired, constructed or developed assets that do not normally provide resources to discharge existing liabilities, but instead:

- *a) are normally employed to deliver government services;*
- *b) may be consumed in the normal course of operations; and*
- *c) are not for sale in the normal course of operations.*

PSAS 3210, ASSETS, also provides some relevant guidance:

.24 Non-financial resources include all items of a fixed or permanent nature (such as tangible capital property), claims to goods and services (such as prepaid items) and consumable goods (such as inventories of supplies). Non-financial resources also include intangibles, Crown lands and natural resources.

.25 Certain non-financial resources are, however, not given accounting recognition as assets in government financial statements. For example, all government intangibles, and all natural resources and Crown lands that have not been purchased by the government, are not given accounting recognition in government financial statements. A government's non-financial

assets, as defined in FINANCIAL STATEMENT CONCEPTS, Section PS 1000, comprise the recognized non-financial resources of a government.

Although PSAS does not permit the recognition of intangibles, it also does not provide a definition of intangibles. In absence of specific guidance in PSAS as to what constitutes an intangible, U.S. GAAP is probably the most appropriate source to consult, in light of the fact that it deals specifically with regulated assets. Under U.S. GAAP, a regulated asset is not treated as an intangible. ASC 980 contains separate subsections for 'Intangibles – Goodwill and Other' and 'Other Assets and Deferred Costs' and regulated assets are included in the guidance on 'Other Assets and Deferred Costs'.

In accordance with PSAS 1201.040(a), financial assets are presented separately on the statement of financial position. The IESO classifies its regulated assets (i.e., the original variance account and the regulated assets relating to unrecovered smart metering expenses and unrecovered PSAB transition items) as financial assets. Consistent with these other regulated assets, ~~The~~ the regulatory asset created under the FHP meets the definition of a financial asset in PSAS 1000.39 since it will be available to discharge existing liabilities or finance future operations. Although the regulatory asset is not available to discharge liabilities existing at the date of the statement of financial position, that is no different than, for example, accounts receivable. ~~does not meet the criteria in PSAS 1000.40 to be a financial asset as it does not represent a current contractual right to receive cash. Accordingly, the regulatory asset is a non-financial resource. As noted above, to be recognized as an asset in the financial statements a non-financial resource cannot be an intangible.~~

~~Although PSAS does not permit the recognition of intangibles, it also does not provide a definition of intangibles. While PSAS 1000.40 provides a finite list of items that represent financial assets, the guidance in PSAS 1000.41 .42 on non-financial assets is less definitive, using words like "such as" and "normally". In absence of specific guidance in PSAS as to what constitutes an intangible, U.S. GAAP is probably the most appropriate source to consult, in light of the fact that it deals specifically with regulated assets. Under U.S. GAAP, a regulated asset is not treated as an intangible. ASC 980 contains separate subsections for 'Intangibles – Goodwill and Other' and 'Other Assets and Deferred Costs' and regulated assets are included in the guidance on 'Other Assets and Deferred Costs'. Consistent with the treatment under U.S. GAAP, the regulatory asset is categorized as an other asset under PSAS and recognized in the financial statements as a non-financial asset.~~

By recognizing the regulatory asset as a financial asset, the FHP will have a neutral impact on both the Province's net debt and accumulated deficit, which ~~is~~appears appropriate and aligned ~~consistent~~ with the intent of guidance in PSAS 1100, Financial statement objectives:

Financial statements should present information to describe the government's financial position at the end of the accounting period. Such information should be useful in evaluating:

a) the government's ability to finance its activities and to meet its liabilities and contractual obligations; and
b) *the government's ability to provide future services.*

A government's net debt is an important indicator of a government's financial position, highlighting the financial affordability of future government service provision. A net debt position represents a "lien" on the ability of the government to apply financial resources and future revenues to provide services. Non-financial assets are added to net debt to calculate the other indicator of a government's financial position — its accumulated surplus or deficit. Non-financial assets are "prepaid service potential". Reporting a government's recognized non-financial resources as part of its financial position provides

Commented [OPCD22]: REVIEW

Commented [OPCD23]: Would inserting reference to precedents of RRA commoditizing be helpful?

information necessary for a more complete understanding of a government's debt position, financial position and future operating requirements.

Governments provide public services and redistribute wealth for a variety of social and economic purposes. To meet those objectives, governments need information about the cost of services and the affordability of services. An understanding of the extent of the financial "lien" the government has on its ability to provide future services as a result of past transactions and events is essential information. Governments also need to have an appreciation of the magnitude of the total economic resources they have on hand to deliver services. A government's net financial resources / net debt position, assessed in combination with the non-financial resources position of the government, provides a measure of the net recognized economic resources available to the government at the financial statement date to provide services in the future.

If the regulatory asset is not recognized as a financial asset, the Province's net debt will increase significantly, suggesting that the Province has a much higher future revenue requirement. This would be inaccurate, however, since the regulatory asset is going to be recovered under statute from electricity consumers, not taxpayers.

Commented [OPCD24]: If not recognized, then impact on annual surplus/deficit is significant as well, and under Balanced Budget Legislation would have material impacts which would be contrary to the public interest (based on ON's practice of defining balanced budget based on PSAS).

……

Debits and Credits

Based on the example provided earlier, the IESO pays the contracted power generator $400 for electricity used by the ratepayer and collects $300 from the ratepayer through their local distribution company (LDC). The $100 recovery shortfall is recorded in a variance account created by Bill 132 and deemed to be a regulatory asset. The IESO sells the regulatory asset to OPG Trust for $100 to obtain cash to make up the shortfall.

The accounting for the above transactions in the financial statements of the IESO, which are prepared in accordance with PSAS, depends on whether the regulatory asset is eligible for recognition as an asset for accounting purposes under PSAS. To avoid confusion in the remainder of this document, the term regulatory asset will refer to the defined term in the FHP Act and the term regulated asset or rate-regulated asset (RRA) will refer to an asset recognized for accounting purposes. The following table illustrates the journal entries to be booked by the IESO under both scenarios:

Scenario A – Regulated Asset			**Scenario B – Not a Regulated Asset**		
Market Settlement					
DR	Cash	300	DR	Cash	300
DR	Asset	100	DR	Expense	100
CR	Cash	(400)	CR	Cash	(400)
Sale of Regulatory Asset to OPG Trust					
DR	Cash	100	DR	Cash	100
CR	Asset	(100)	CR	Gain	(100)

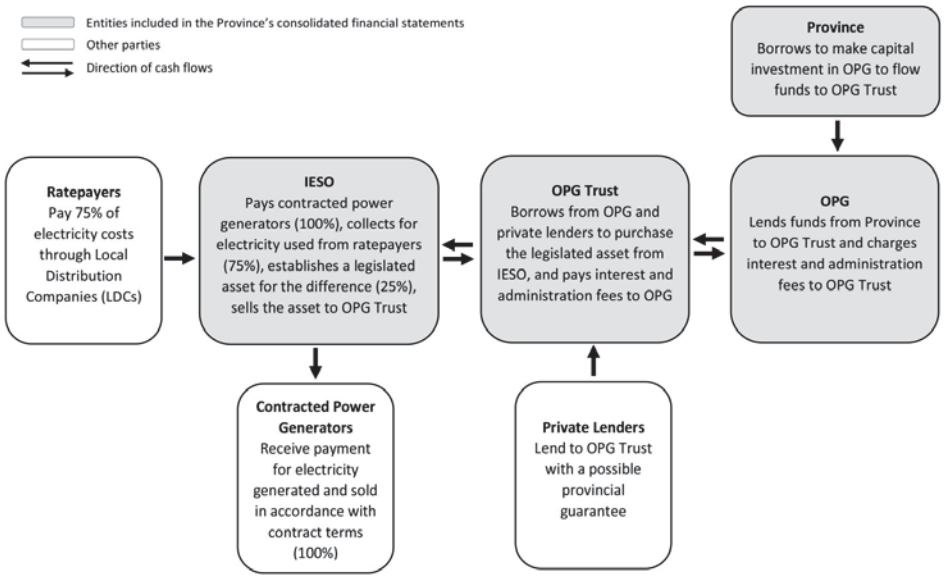
Commented [OPCD25]: Consider inserting 2 additional lines for impact on net debt and impact on annual surplus/deficit? If not sold by the end of the year, will have a loss on the IESO f/s and the province's f/s.

At any given point in time, the accounting result will be the same under both scenarios provided the cash shortfall has been fully funded. If a funding deficit exists, however, the deficit would be recognized

as an asset under Scenario A and recognized as an expense under Scenario B. A funding deficit may arise due to, for example, temporary timing differences between the creation and sale of a regulatory asset. A funding deficit may also arise if OPG Trust (or another financing entity) ceases to purchase the IESO's regulatory assets on an on-going basis.

APPENDIX A

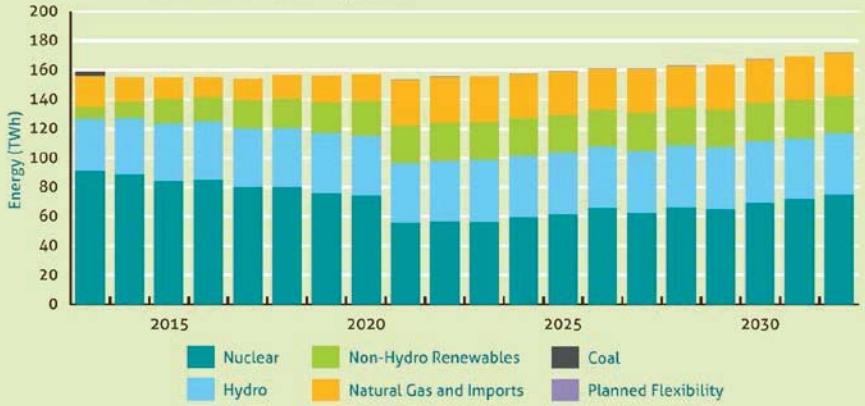
Proposed Legislated Transaction Structure
Prepared by the Office of the Auditor General of Ontario



Commented [OPCD26]: Can chart be expanded to include impact on CFS (consolidation of IESO reflecting RRA on CFS, Interest Income from OPG through revenue of GBE will help to offset borrowing costs incurred by Province on equity injection).

APPENDIX B

Figure 19: Ontario's Forecast Electricity Production (TWh)



Notes: The Planned Flexibility identified in Figure 19 is required to meet peak requirements and represents less than 1 TWh of energy per year. Forecasting of electricity production includes the expectation of imports and exports of electricity in all years. Imports and exports are an important component in managing the operation of the electricity system. As a result, electricity production forecast exceeds the forecast Ontario consumer demand.

Attachment 1: FHP Memo - Draft V3 21-Jul-2017np .docx

Hi Lee Anne.

Just sharing my comments/feedback on the latest draft paper. Please let me know if you have any questions. Cindy has not had a chance to review, and will likely have additional comments and suggested edits.

Thanks and have a great weekend.

Nadine

FHP Memo - Draft V3 21-Jul-2017np .pdf

Disclaimer

Ernst & Young LLP (“EY”) prepared the attached Report only for the OPCD. EY did not perform its services on behalf of, or to serve the needs of, any other person or entity. Accordingly, EY expressly disclaims any duties or obligations to any other person or entity based its use of the attached Report. Any other person or entity must perform its own due diligence inquiries and procedures for all purposes, including, but not limited to, satisfying itself as to the financial condition and control environment of the Province or any of the other entities involved, as well as the appropriateness of the accounting for any particular situation addressed by the Report.

EY did not perform an audit, review, examination or other form of attestation (as those terms are defined by the CPA Canada) of the financial statements of the Province or any other entities involved. Accordingly, EY did not express any form of assurance on the accounting matters, financial statements, any financial or other information or internal controls of the Province or any of the other entities involved. EY did not conclude on the appropriate accounting treatment based on specific facts or recommend which accounting policy/treatment the Province or any of the other entities involved should select or adopt.

The observations relating to accounting matters that EY provided to the OPCD were designed to assist them in reaching their own conclusions and do not constitute our concurrence with or support of the accounting or reporting of the Province or the other entities involved. The Province and the other entities involved are each responsible for the preparation of their own financial statements, including all of the judgments inherent in preparing them.

Introduction

Ontario's consolidated financial reports are prepared in accordance with the accounting principles for governments recommended by the Public Sector Accounting Board (PSAB) of the Chartered Professional Accountants of Canada (CPA Canada). In order to meet the needs of users, including the legislature and the public, for accountability in government reporting and decision making, it is essential that public sector financial statements reflect the economic substance of the government's activities.

Commented [OPCD1]: (comment only) For costs which will be funded through the rate base, it is important that both the balance sheet (net debt) and the statement of operations (net deficit/surplus) take into account those costs which will not have to be covered through current or future taxes.

In March 2017, the Government of Ontario (the Province) announced its Fair Hydro Plan (FHP). In assessing the appropriate accounting treatment for the Global Adjustment refinancing (GA Refinancing) component of the FHP on Ontario's consolidated financial statements, the Office of the Provincial Controller considered the authoritative guidance issued by PSAB, as well as the accounting assessments of the Independent Electricity System Operator (IESO) and Ontario Power Generation (OPG) management, including the accounting opinions of their external accounting advisors. Given the complexity of the GA Refinancing structure, the exercise of professional judgement is necessary to ensure that key financial reporting objectives of transparency and accountability are best served. This accounting analysis considers currently available information, including efforts underway by the International Accounting Standards Board as related to rate regulated accounting. It also draws upon publicly available information including previous studies and bases for conclusions dealing with rate-regulated accounting, both in the public sector and the private sector.

Background

The FHP will reduce electricity bills for Regulated Price Plan (RPP) customers (as well as those non-RPP consumers who receive the 8% rebate as specified in the Ontario Rebate for Electricity Act, 2016) by approximately 25% for a period of one year, starting in the summer of 2017, and limit the increase in electricity bills to the rate of inflation over the following four years.

Because distribution rates vary across the province and customers use different amounts of electricity, the goal in calculating the new RPP electricity prices is to achieve a 25% reduction for a "proxy" customer, which is established under the Fair Hydro Act, 2017 (FHP Act) as a residential customer of Toronto Hydro who uses 750 kWh of electricity a month, pays time-of-use RPP electricity prices and has the time-of-use consumption profile of a typical residential customer.

The measures that make up the 25% average reduction include:

1. Spreading the cost of Ontario's clean energy investments over the expected lifecycle of the generation infrastructure assets. This is expected to account for ~~15~~18-~~17~~19% of the overall reduction.
2. Shifting the cost of the Ontario Electricity Support Program (OESP) and Rural or Remote Rate Protection (RRRP) program from ratepayers to taxpayer-funded programs.
3. An 8% rebate equal to the provincial portion of the HST, which took effect on January 1, 2017.

Under the first measure, the Province will borrow funds to pay a portion of current electricity costs, thereby temporarily reducing the amount paid by eligible ratepayers. The deferred amounts, including interest and other costs, will be recoverable from ratepayers through future rates over an estimated 18-year period starting in approximately 2028. In other words, the impact of #1 above is fully borne by the ratepayers – it is a shift in the timing of payment for the clean energy investments, while the impacts of #2 and #3 are reducing the cost to the ratepayer, but at the cost of the taxpayer.

Objective

The objective of this memo is to assess the appropriate accounting ~~impact of~~for the first measure of the FHP (i.e. deferred recovery of clean energy costs) on the consolidated financial statements of the Province in accordance with PSAS. **[NTD – Consider if document should discuss #2 and #3. This would contrast the different treatment by the Province]**

Background

The Ontario Energy Board (OEB) has been established by the Province to be Ontario's independent energy regulator.

In accordance with Section 78(3.1) of the Ontario Energy Board Act, 1998 (the OEB Act), the OEB is responsible for determining electricity commodity prices for RPP consumers. Section 78(3.3) of the OEB Act requires the OEB to forecast the cost of electricity used by RPP consumers and ensure the prices they are charged reflect that cost. The rate setting process is highly complex and involves numerous forecasts and estimates. As a result, the OEB regulatory framework allows for variances between the actual cost of supplying electricity and the amount collected from RPP consumers.

In setting the rates for RPP consumers, Section 78(3.3) of the OEB Act requires the OEB to settle any such variances through rates over a 12-month period. This is achieved through a price adjustment charged or credited to RPP consumers. This adjustment forms part of the Global Adjustment paid by consumers.

The IESO is the administrator of Ontario's wholesale electricity market. The IESO settles the market with all participants, as an agent.

As part of its role as market administrator, the IESO calculates the market price for electricity (the Market Clearing Price, or MCP) by running the bids and offers of the market participants through an algorithm. The actual cost of supplying electricity, however, is greater than the MCP as certain generators are paid additional amounts relating to the cost of clean energy initiatives they have undertaken. From a government policy perspective, decisions as to what is in the best interest of the public regarding electricity generation in Ontario are not based solely on economics, they are also influenced by environmental, social and political factors. Accordingly, generators receive compensation for investing in clean energy infrastructure when it is relatively less economical. In these instances, the IESO (and previously the XXX) entered into contracts to pay the generators the excess costs (plus a reasonable rate of return thereon) over an extended period of time, typically 20 years. The amounts paid to the generators under the terms of these contracts are currently included in the rates set by the OEB (as part of the Global Adjustment) with the intention they will be recovered from consumers in the same period they are paid to the generators. As previously noted, the complexity of the rate setting process results in variances between the amount paid to the generators and the amount collected from RPP consumers.

Under existing legislation, the IESO is required to fund any cash shortfall relating to differences arising between the actual cost of supplying electricity and the amount collected from RPP consumers. In accordance with Section 25.33(5) of the Electricity Act, 1998 (the Electricity Act), the IESO has established and maintains a variance account to track these temporary differences (the original variance account) for subsequent settlement with ratepayers. Cash shortfalls in the IESO arising from the original variance account are funded through financing provided by the OFA.

As described below, once the FHP is implemented, the cost of supplying electricity to RPP consumers that is paid to generators will no longer be fully collected over a 12-month period~~, but over a longer period defined by legislation~~.

Under the FHP, while generators would continue to be paid over a twenty year period as contracted, the amounts paid by the IESO to the generators would be recovered from ratepayers over a thirty year period. ~~Deferring the recovery of these costs from the consumers on a longer-term basis would create a significant interim cash shortfall for the IESO.~~

Section 24(1) of the Ontario Fair Hydro Plan Act (the FHP Act) requires th~~e~~at IESO ~~to~~ establish and maintain a variance account (separate from the original variance account described above) to track the cash shortfall specifically resulting from the implementation of the FHP (the FHP variance account). Due to the longer recovery period, and additional recoverable financing and management fee costs, the balance in the account is forecast to increase significantly. The balance in this variance account is defined in Section 1(1) of the FHP Act to be a regulatory asset[1]. The IESO is entitled under Section 25 of the FHP Act to recover the regulatory asset from RPP consumers in the future, which will be achieved through the OEB setting rates to allow for such recovery. Section 26 of the FHP Act also permits the IESO to transfer or sell the regulatory asset to a financing entity to fund its cash shortfall, thus commoditizing the future cash flow stream.

The Province has requested that OPG administer the deferral of the Global Adjustment under the FHP because of OPG's participation in the market, the regulatory knowledge OPG possesses and the ~~potential~~ expected ability to consolidate the accounting of the related activity ~~and accounting with~~ in the financial statements of OPG. To fulfill this role, OPG intends to establish a financing entity (OPG Trust) ~~to~~ which would have a choice to purchase the IESO's regulatory asset on a monthly basis ~~and~~ which ~~eliminate~~would eliminate any cash shortfall in the IESO. Through this arrangement, OPG Trust will finance these purchases through a combination of provincial borrowing (flowed through OPG as an equity investment), amounts advanced from OPG and direct borrowing from capital markets.

Basis of Accounting

In accordance with PSAS 1300.07, the government reporting entity (GRE) for the Province comprises government components and those organizations that are controlled by the government.

As defined in the Introduction to PSAS, the following types of organizations are controlled by the government: (a) government business enterprises (GBE), government non-for profit organizations (GNPO), and other government organizations (OGO).

[1] To avoid confusion in the remainder of this document, the term regulatory asset will refer to the defined term in the FHP Act and the term regulated asset or rate-regulated asset (RRA) will refer to an asset recognized for accounting purposes.

Commented [OPCD2]: Might generators have refurbishment costs to achieve a longer estimated service life, and how are those reflected in the model. No impact on accounting assumed.

Commented [OPCD3]: Maybe remove? Confusing. Not sure how the 30 year period was determined.

Commented [OPCD4]: RRAs have been commoditized in other markets, both in Canada and the US (more so in the US)

Commented [OPCD5]: OPG retains discretion, not required to purchase.

GNPOs and OGOs are considered government units and, in accordance with PSAS 1300.27, are consolidated in the GRE on a line-by-line basis. For consolidation purposes, the financial information of government units is required to be prepared in accordance with PSAS.

GBEs, on the other hand, are accounted for in the GRE using the modified equity method as prescribed by PSAS 1300.35. Under the modified equity method, which is described in detail in PSAS 3070, INVESTMENTS IN GOVERNMENT BUSINESS ENTERPRISES, the equity method of accounting is modified only to the extent that the GBE's accounting principles (which are required to be IFRS in accordance with paragraph 17 of the Introduction to PSAS) are not adjusted to conform to those of the government.

As documented in Schedule 8 to the consolidated financial statements of the Province, the IESO is an OGO and OPG is a GBE. The current accounting for these entities is as follows:

		ENTITY STATEMENTS	GRE STATEMENTS	
ENTITY	**CLASSIFICATION**	**GAAP**	**ACCOUNTING METHOD**	**GAAP**
IESO	OGO	PSAS[1]	Consolidation	PSAS
OPG	GBE	US GAAP[2]	Modified equity method	IFRS[3]

1. For purposes of preparing general purpose financial statements, an OGO applies PSAS unless those standards do not meet the needs of its financial statement users. In that situation, IFRS should be considered and the most appropriate set of standards applied.
2. Although a GBE is required to apply IFRS for purposes of preparing general purpose financial statements, the Ontario Securities Commission has approved an exemption that allows OPG to apply US GAAP up to January 1, 2019 for purposes of filing its financial statements with the OSC.
3. OPG applies IFRS 14, which permits it to continue to account for rate-regulated activities using US GAAP guidance for its general purpose financial statements.

Commented [OPCD6]: Suggested rewording for clarity (PSAS, PSAS+4200, IFRS).

This memo does not reconsider the classification of these existing entities (i.e. is based on the existing classification of the entities based on past published Public Accounts).

As discussed in detail in a subsequent section, OPG expects that it will control OPG Trust. If this is the case, OPG Trust will be consolidated by OPG and, therefore, reflected in the GRE through the modified equity accounting of OPG under IFRS. If, however, it is determined that OPG Trust is controlled by the Province, OPG Trust will either (a) be consolidated in the GRE on a line-by-line basis under PSAS if determined to be an OGO, or (b) reflected in the GRE through modified equity accounting under IFRS if determined to be a GBE.

Example

For simplicity, the following example will be used in this document to illustrate the accounting impact of the FHP on the various entities involved:

- Ratepayer bill is currently $588, and the 17% reduction related to the FHP is $100.
- The Province directly borrows 44%, or $44, to make an equity contribution to OPG, which OPG then loans to OPG Trust.
- OPG directly borrows 5%, or $5, and loans it to OPG Trust.
- OPG Trust directly borrows 51%, or $51, from capital markets.

Analysis

IESO

The IESO is presently classified as an OGO and prepares its standalone, general purpose financial statements in accordance with PSAS, which is consistent with the basis of presentation required for purposes of consolidating the IESO into the GRE. Under PSAS, the entity has selected to apply PSAB accounting standards to meet its user needs. ~~Under PSAS, the IESO would also have the option of reporting based on IFRS. If the IESO were classified as a GBE, it would also report based on IFRS. Since the IESO has rate regulated balances, it would likely report using IFRS14, consistent with the IFRS related information provided by both Hydro One and OPG which are rate regulated.~~

Commented [OPCD7]: Tie to user needs (see FN 1 to table above).

Current State

Effective January 1, 2016, the IESO adopted on a retrospective basis a new accounting policy that requires its market-settlement activities[2] to be reflected in the financial statements. Under the new policy, the assets and liabilities recognized on the IESO's statement of financial position relating to the IESO-administered markets include cash, amounts due from market participants, interest receivable, revolving line of credit, HST receivable, amounts due to market participants and other liabilities. The IESO's statement of operations and accumulated surplus ~~financial statements~~ does not include the revenue and expenses of the financial transactions of market participants within the IESO-administered markets. This indicates IESO management has taken the position that the IESO is an agent, not a principal, in the IESO-administered markets and, accordingly, records revenue on a net basis.

PSAS doesn't provide any specific guidance as to how it should be determined whether an entity is acting as a principal or an agent in the context of revenue recognition, but both IFRS and US GAAP do. The relevant guidance in IFRS is as follows:

IAS 18.8

Revenue includes only the gross inflows of economic benefits received and receivable by the entity on its own account. Amounts collected on behalf of third parties such as sales taxes, goods and services taxes and value added taxes are not economic benefits which flow to the entity and do not result in increases in equity. Therefore, they are excluded from revenue. Similarly, in an agency relationship, the gross inflows of economic benefits include amounts collected on behalf of the principal and which do not result in increases in equity for the entity. The amounts collected on behalf of the principal are not revenue. Instead, revenue is the amount of commission.

IAS 18.IE21

Determining whether an entity is acting as a principal or as an agent (2009 amendment).

Paragraph 8 states that 'in an agency relationship, the gross inflows of economic benefits include amounts collected on behalf of the principal and which do not result in increases in equity for the entity. The amounts collected on behalf of the principal are not revenue. Instead, revenue is the amount of commission.' Determining whether an entity is acting as a principal or as an agent requires judgement and consideration of all relevant facts and circumstances.

An entity is acting as a principal when it has exposure to the significant risks and rewards associated with the sale of goods or the rendering of services. Features that indicate that an entity is acting as a principal include:

a) the entity has the primary responsibility for providing the goods or services to the customer or for fulfilling the order, for example by being responsible for the acceptability of the products or services ordered or purchased by the customer;

b) the entity has inventory risk before or after the customer order, during shipping or on return;

Commented [OPCD8]: Footnote below from a staff training module but may not be from an acctg perspective, or accurate. Consider deleting if not appropriate/accurate.

[2] The IESO itself does not buy or sell electricity. It administers the wholesale electricity market by authorizing market participants, publishing system forecasts and market information, producing statements and invoices, and performing financial settlement transactions for the markets.

c) the entity has latitude in establishing prices, either directly or indirectly, for example by providing additional goods or services; and

d) the entity bears the customer's credit risk for the amount receivable from the customer.

An entity is acting as an agent when it does not have exposure to the significant risks and rewards associated with the sale of goods or the rendering of services. One feature indicating that an entity is acting as an agent is that the amount the entity earns is predetermined, being either a fixed fee per transaction or a stated percentage of the amount billed to the customer.

Application of the above IFRS guidance supports the conclusion that the IESO is an agent in the market-settlement process and, therefore, recognizing revenue on a net basis is appropriate. IESO has completed a more thorough analysis of their position that it is an agent in the settlement of the market and reconsideration of that decision is not the topic of this memo.

The IESO is required by legislation to carry out its operations without the purpose of gain or profit~~, making the IESO a self-sustaining entity~~. Other than the amounts the IESO is permitted to keep in accordance with its own rate order from the OEB to cover its internal operating costs, which makes it a self-sustaining entity, all amounts the IESO receives from market participants must be paid out to other market participants who have regulatory or contractual rights to receive payments from those collected amounts.

In the context of applying the principal vs. agent guidance, the amounts the IESO is permitted to keep in accordance with its own rate order from the OEB to cover its internal operating costs are recorded as system fee revenue in the IESO's financial statements. System fees are not characterized as being part of the IESO-administered markets. Accordingly, any references to the IESO-administered markets in this document exclude system fees.

As stated in the IESO financial statements, the IESO-administered markets is a balancing system, and as such, the net position of market accounts will ultimately settle to a nil balance in accordance with market rules. However, due to settlement timing differences, the net position of market accounts will not be in a nil position from a cash flow perspective at the end of any reporting period.

This raises a question as to how a cash flow deficit related to the market-settlement process should be accounted for in the financial statements of the IESO. Two approaches are as follows:

1. The cash flow deficit is recognized as an asset when it occurs and then derecognized in the period in which it is settled. Under this approach, the net position of market accounts will always be in a nil balance in the IESO's balance sheet and there is no impact on the IESO's income statement.
2. The cash flow deficit is recognized as a charge to income when it occurs and then reversed through income in the period in which it is settled.

IESO management has concluded it is appropriate to recognize existing cash flow deficits arising from the market-settlement process as an asset. This is evidenced by the fact the components of the market accounts net to a nil closing balance at year end in the IESO's financial statements for the year ended December 31, 2016. These financial statements also explicitly state there is no impact to the accumulated deficit or revenues and expenses as the IESO is not party to these transactions as per the market rules.

Although the IESO's financial statements include the following accounting policy on regulated assets and liabilities, the asset relating to the cash flow deficit discussed above has not been specifically labeled as a regulated asset:

As a rate-regulated entity, the IESO, in appropriate circumstances establishes regulated assets or liabilities and thereby defers the impact on the statement of operations of certain expenses or revenues because they are probable to be collected or refunded to market participants through future billings. The IESO has applied guidance from United States Generally Accepted Accounting Principles (US GAAP) Topic 980, Regulated Operations, in this policy.

The only two balances specifically labeled as being recognized in the IESO's financial statements under the above policy are (i) unrecovered smart metering expenses, and (ii) unrecovered PSAB transition items. IESO management has, however, indicated in discussions that the cash flow deficit/surplus associated with the original variance account is also considered to be a regulated asset/liability under ASC 980 even though it has been presented as part of the Market Accounts balances in the statement of financial position.

Impact of FHP

The implementation of the FHP results in the IESO establishing and maintaining the FHP variance account to track the resulting cash flow deficit, the balance of which is defined for the purposes of the FHP Act to be a 'regulatory asset'.

The act of legislating the balance in the FHP variance account to be a regulatory asset does not, in and of itself, result in its recognition as an asset for accounting purposes. Accordingly, the primary issue at hand is whether the legislated regulatory asset is eligible for recognition as an asset in both the standalone financial statements of the IESO and the consolidated financial statements of the GRE. As discussed in a later section, the conclusion reached with respect to ~~When~~ the appropriate accounting for the FHP in the standalone financial statements of the IESO as an OGO reporting under PSAS ~~are considered in isolation, the impact of the conclusion reached on this issue would be eliminated to the extent the regulatory asset has been sold to OPG Trust by the end of the reporting period. The conclusion remains significant, however, due to its~~may impact ~~on~~ the consolidated financial statements of the GRE~~, which is discussed in a later section~~.

Formatted: Highlight

Commented [OPCD9]: If was a GBE reporting IFRS, would be different; if was an OGO reporting under IFRS as of March 31st, would be different.

Formatted: Highlight

As noted above, the IESO has adopted a policy to apply the U.S. GAAP guidance in ASC 980 in connection with accounting for rate regulated assets. IESO management has applied this guidance and concluded the regulatory asset created by the FHP can be recognized as a regulated asset for accounting purposes in the financial statements of the IESO. The IESO's auditors, KPMG, concur with this position, as evidenced from the following excerpt from a draft letter issued by KPMG on May 16, 2017 (the KPMG Letter):

We have considered the foregoing analysis and management's conclusion. We concur that the variance account created by Bill 132 will meet the criteria for the recognition of a regulatory asset stated in ASC 980-340-25-1. Furthermore, we have also considered the criteria stated in ASC 980-10-15-2 and believe that IESO should be allowed to continue to use the guidance for regulated operations of Topic 980.

Commented [NPP10]: Insert reference to consistency with previous treatment of OPA (2013 Terry Gabriel email).

Commented [OPCD11]: Terry's email (provided) was from OPA's perspective which referenced RRA. Not sure how helpful it may or may not be here. If not, please ignore comment.

Recognizing the regulatory asset as a regulated asset for accounting purposes in the financial statements of the IESO in accordance with ASC 980 is appropriate only if all of the following conditions are met:

a) the operations of the IESO (or the relevant portion thereof) are within the scope of ASC 980 based on the criteria in ASC 980-10-15-2,
b) the FHP variance account meets the criteria in ASC 980-340-25-1 for capitalization as a regulatory asset, and
c) ASC 980 is an appropriate source of GAAP under PSAS.

Each of these items is addressed in turn:

a) Scope of ASC 980

ASC 980-10-15-2 states the following:

The guidance in the Regulated Operations Topic applies to general-purpose external financial statements of an entity that has regulated operations that meet all of the following criteria:

a) The entity's rates for regulated services or products provided to its customers are established by or are subject to approval by an independent, third-party regulator or by its own governing board empowered by statute or contract to establish rates that bind customers.
b) The regulated rates are designed to recover the specific entity's costs of providing the regulated services or products. This criterion is intended to be applied to the substance of the regulation, rather than its form. If an entity's regulated rates are based on the costs of a group of entities and the entity is so large in relation to the group of entities that its costs are, in essence, the group's costs, the regulation would meet this criterion for that entity.
c) In view of the demand for the regulated services or products and the level of competition, direct and indirect, it is reasonable to assume that rates set at levels that will recover the entity's costs can be charged to and collected from customers.

The Office of the Auditor General of Ontario (OAGO) does not believe the IESO meets the criteria to be within the scope of ASC 980. This is evidenced by the following statement included in *Legislated Accounting Included in Bill 132, Including the Proposed Ontario Fair Hydro Plan Act, 2017 – Submission to Standing Committee on Justice Policy* dated May 25, 2017 (OAGO Submission):

Moreover, IESO is not engaging in rate-regulated activities, and the contracts under its administration were never subject to rate regulation.

Ontario's electricity industry is rate-regulated. Rates paid by electricity consumers are regulated by the OEB such that over time rates equal cost plus, where applicable, a reasonable rate of return. Providing electricity to consumers involves several different parties, including generators, transmitters, distributors and the IESO. Some of these parties engage in rate-regulated activities, some do not.

The IESO serves an important and active role in Ontario's electricity market, irrespective of the fact that it records market transactions on net basis in the financial statements. The IESO balances the supply of and demand for electricity in Ontario and directs its flow across the province's transmission lines, oversees the wholesale electricity market, where the price of energy is determined, and administers the rules that govern the market. In determining whether the IESO has regulated operations, the focus is on whether the rates the IESO charges its customers are regulated and not whether the costs incurred by the IESO are regulated (although a number of them are).

The following supports the position of IESO management that the above criteria are met and the IESO's operations are within the scope of ASC 980:

The entity's rates for regulated services or products provided to its customers are established by or are subject to approval by an independent, third-party regulator or by its own governing board empowered by statute or contract to establish rates that bind customers.

As noted in a research paper issued in 2001 by a taskforce established by the CICA (the CICA Research Report), there is a view held by some that, with respect to rate regulation in the public sector, there is usually no *independent, third-party regulator* because the government controls both the enterprise and the regulatory agency. Accordingly, it is important to point out that independence is not required to meet the criteria in ASC 980-10-15-2(a). The requirement is an *independent, third-party regulator* or *its own governing board empowered by statute or contract*. In fact, paragraph 64 of the Basis for Conclusions for FAS 71, ACCOUNTING FOR THE EFFECTS OF CERTAIN TYPES OF REGULATION (which is the pre-codified version of ASC 980), specifically states that the criteria in ASC 980-10-15-2(a) was modified so as not to preclude application by government utilities with rates set by their own governing board.

The OEB has been established by the Province to be Ontario's independent energy regulator and, therefore, is considered the governing board of the IESO. The OEB's mandate and authority come from the *Ontario Energy Board Act, 1998*, the *Electricity Act, 1998*, and a number of other provincial statutes. As described in more detail below, the IESO's rates are established in accordance with these statutes.

In the context of its market-settlement role, the IESO's 'customers' are the Market Participants buying electricity from the IESO-controlled grid. All Market Participants are required to execute a Participation Agreement with the IESO. In accordance with Article 3.1 of the standard Participation Agreement, each Market Participant has agreed to be bound by and to comply with all of the provisions of the Market Rules, which includes the following:

Chapter 9, Section 1.2.3
Notwithstanding any other provision within the market rules, market participants shall remit to the IESO such applicable settlement amounts and other payments as may be required under the relevant provisions of the Electricity Act, 1998, the Ontario Energy Board Act, 1998 and any related regulations, as amended from time to time.

The IESO's operations meet the criteria in ASC 980-10-15-2(a) because the rates charged by the IESO are based on statutes. As discussed in more detail below, the rates are designed to recover the IESO's

expenditure for providing the regulated services and the pass-through costs related to the energy purchased from the generators and to government programs.

The main components of invoices issued by the IESO to Market Participants are as follows:

- Commodity Charges
  - Hourly Ontario Energy Price
  - Global Adjustment
- Wholesale Market Service Charges
  - IESO Administration Fee
  - Uplift Charges
  - Rural and Remote Electricity Rate Protection
- Wholesale Transmission Charges
- Debt Retirement Charge

Each component is determined as follows:

Commodity Charges

In accordance with Section 25.33(1) of the Electricity Act, the IESO is required to price electricity to recover costs:

Electricity pricing to reflect costs

IESO to make adjustments

25.33 (1) The IESO shall, through its billing and settlement systems, make adjustments in accordance with the regulations that ensure that, over time, payments by classes of market participants in Ontario that are prescribed by regulation reflect,

a) amounts paid to generators, the Financial Corporation and distributors, whether the amounts are determined under the market rules or under section 78.1, 78.2 or 78.5 of the Ontario Energy Board Act, 1998;

b) amounts paid to entities with whom the IESO has a procurement contract, as determined under the procurement contract; and

c) such amounts as may be prescribed that are paid or incurred by the IESO in relation to the Ontario Fair Hydro Plan Act, 2017. *2014, c. 7, Sched. 7, s. 8 (1); 2017, c. 16, Sched. 1, s. 43 (2).*

Market Participants are initially invoiced for consumed electricity at the Hourly Ontario Energy Price (HOEP), which is calculated as the average of the twelve market clearing prices set in each hour. In accordance with Section 25.33(5) of the Electricity Act, the IESO is required to track differences between the amounts invoiced to Market Participants at HOEP and actual costs incurred in a variance account:

Variance accounts

(5) The IESO shall establish and maintain such variance accounts as may be necessary to record all amounts payable or receivable by it under this section or under the Ontario Fair Hydro Plan Act, 2017. *2004, c. 23, Sched. A, s. 37; 2014, c. 7, Sched. 7, s. 8 (5); 2017, c. 16, Sched. 1, s. 43 (5).*

Sections 3.1 and 3.3 of the OEB Act require the variance account to be settled over a twelve-month period, which is done through the Global Adjustment on a Market Participant's invoice:

Annual rate plan and separate rates for situations prescribed by regulation

(3.1) The Board shall, in accordance with rules prescribed by the regulations, approve or fix separate rates for the retailing of electricity,

a) to such different classes of consumers as may be prescribed by the regulations; and

b) for such different situations as may be prescribed by the regulations. 2004, c. 23, Sched. B, s. 14 (1).

Rates to reflect cost of electricity

(3.3) In approving or fixing rates under subsection (3.1),

a) the Board shall forecast the cost of electricity to be consumed by the consumers to whom the rates apply, taking into consideration the adjustments required under section 25.33 of the Electricity Act, 1998 *and shall ensure that the rates reflect these costs; and*

b) the Board shall take into account balances in the IESO's variance accounts established under section 25.33 of the Electricity Act, 1998 *and shall make adjustments with a view to eliminating those balances within 12 months or such shorter time periods as the Minister may direct. 2004, c. 23, Sched. B, s. 14 (1); 2014, c. 7, Sched. 23, s. 6 (2).*

Although the implementation of the FHP involves the deferral of costs over an extended period of time, it does not change the IESO's obligation under the OEB Act to price electricity to recover incurred costs in full. The deferral relating to the FHP is tracked in a separate variance account in accordance with Section 24(1) of the Fair Hydro Plan Act, 2017 (the FHP Act):

Variance account to be established, maintained

24 (1) The IESO shall establish and maintain a variance account in which it records the following:

1. The IESO deferral for each month.

2. All payments received by the IESO resulting from the exercise of the right of recovery under section 25 and any transfer under section 26.

3. Such other adjustments as may be prescribed, including adjustments in respect of the period that commences on or after May 1, 2017 and before the day this section comes into force.

The right for the IESO to recover the variance account is set out in Section 25 of the FHP Act:

Regulatory asset established

25 (1) Effective May 1, 2017, the IESO has the right, exercisable in accordance with this Act and the regulations, to recover the balance recorded in the variance account from specified consumers.

Board to set rates

(2) Subject to subsection (3), the Board shall, from time to time and in accordance with the regulations, determine and set rates payable by specified consumers to allow for the IESO to recover the balance recorded in the variance account.

Limitation

(3) The IESO shall not be entitled to collect all or part of the balance recorded in the variance account from specified consumers before May 1, 2021.

Wholesale Market Service Charges

The IESO charges Market Participants administrative fees to operate the wholesale electricity market and manage the electric power system in Ontario. These fees are required to be approved by the OEB under Section 25(1) of the Electricity Act on an annual basis.

Review of requirements and fees

25 (1) The IESO shall, at least 60 days before the beginning of each fiscal year, submit its proposed expenditure and revenue requirements for the fiscal year and the fees it proposes to charge during the fiscal year to the Board for review, but shall not do so until after the Minister approves the IESO's proposed business plan for the fiscal year under section 24. 2014, c. 7, Sched. 7, s. 3 (1).

Uplift charges

Need details

Commented [LAP12]: Uplift charges are comprised of a number of things. To ask IESO for help to summarize succinctly.

RRRP charges

The RRRP program provides a rate subsidy to rural and remote residential customers who face higher distribution costs. Under the FHP Act, the cost of the RRRP program has shifted from ratepayers to

provincial revenues and, therefore, is no longer a component of the IESO's invoice.

Wholesale Transmission Charge
This charge to LDCs and some large consumers covers the cost incurred by transmission companies to construct and maintain the high-voltage transmission lines needed to transport electricity from generating stations to LDCs or consumers. In accordance with Section 78(1) of the OEB Act, the rate for this service is approved by the OEB.

Debt Retirement Charge
When the Ontario electricity sector was restructured in April 1999, the Ontario Electricity Financial Corporation (OEFC) took on $20.9 million of stranded debt from Ontario Hydro. The OEFC services and retires the stranded debt with cash flows from a number of sources in the electricity sector, one of those currently being debt retirement charges paid by certain ratepayers (ratepayers cease paying debt retirement charges April 1, 2018).

Under Regulation 494/01, DEBT RETIREMENT CHARGE – ADMINISTRATION, the IESO is appointed as a collector of debt retirement charges (Section 2) and is required to collect a debt retirement charge on behalf of the OEFA from every entity who withdraws electricity from the IESO-controlled grid (Section 6(2)). The prescribed rate for the debt retirement charge is set out in Regulation 493/01, DEBT RETIREMENT CHARGE – RATES AND EXEMPTIONS.

The regulated rates are designed to recover the specific entity's costs of providing the regulated services or products.

As discussed in detail above, the IESO is required by statute to set prices to recover costs.

In view of the demand for the regulated services or products and the level of competition, direct and indirect, it is reasonable to assume that rates set at levels that will recover the entity's costs can be charged to and collected from customers.

As discussed in detail above, the IESO is required by statute to set prices to recover costs.

The majority of the monthly amount invoiced by the IESO to Market Participants represents a direct flow through of costs as they are incurred, but there are certain types of costs for which recovery may be deferred. For those deferred costs, the IESO is dependent on the future consumption of electricity by rate-payers to fully recover costs.

Based on relatively short recovery periods, it is reasonable to assume there will be sufficient demand to recover the deferred costs that currently exist. Specifically:

- RPP and RRRP variance accounts are recovered over twelve months in accordance with Section 3.3(b) of the OEB Act. *(Note - Under the FHP, responsibility for the cost of the RRRP program is being transferred to the Provincial budget and rate-payers will no longer be directly charged)*
- The Smart Metering Entity charge is recovered over the period from May 1, 2013 to October 31, 2018 in accordance with ~~XX~~OEB Decision and Order EB-2015-0298.

Under the FHP, responsibility for the cost of the OESP program is being transferred to the Provincial budget and rate-payers will no longer be charged for the cost of this program. The OESP variance account, which is currently in a credit balance, will be used to fund the cost of the program until

Commented [LAP13]: To confirm with Energy if all costs have shifted.

Commented [LAP14]: CV to determine if there is anything else to add from IESO's analysis.

Commented [LAP15]: To confirm with Energy if all costs have shifted.

depleted.

Although the timing of the recovery of the FHP variance account has not yet been established by the OEB, the wording and intent of the proposed legislation is clear that it is intended by law to be recoverable over a period of 30 years. Given the nature and extent of customer demand for the power generated and distributed in Ontario, both at this time and projected in the future, it is reasonable to conclude that there will be sufficient demand to recover the regulatory asset. This conclusion, which is supported by Figure 19: Ontario's Forecast Electricity Production in Achieving Balance – Ontario's Long-Term Energy Plan, will need to be continually evaluated throughout the recovery period. The willingness of unrelated third parties to fund the purchase of the regulatory asset from the IESO by OPG Trust also demonstrates the belief that sufficient demand will exist to permit its future recovery.

In addition to the general scope requirements of ASC 980 discussed above, specific consideration is made as to whether the following scope exception in ASC 980-10-15-7 applies to the FHP:

The guidance in the Regulated Operations Topic does not apply to any of the following transactions:

a) *Accounting for price controls that are imposed by governmental action in times of emergency, high inflation, or other unusual conditions, or accounting for contracts in general. However, if the terms of a contract between an entity and its customer are subject to regulation and the criteria of paragraph 980-10-15-2 are met with respect to that contract, the guidance in this Topic shall apply.*

Based on the discussion below, this scope exemption is not applicable to the FHP.

Electricity cost reductions resulting from the FHP do not represent price controls imposed by the Province in a time of emergency, high inflation, or other unusual conditions. As noted in the 2017 budget speech, the 2017 Ontario Budget – A Stronger, Healthier Ontario, the FHP is a fairer way to share the costs of building a cleaner, more modern and reliable electricity generation system. In particular, the budget speech states:

Commented [NPP16]: Navigant report/other support

Recognizing that existing electricity infrastructure is expected to last for decades to come, the Province would refinance the cost of those capital investments to ensure that system costs are more equitably distributed over time.

The following paragraph from the Basis for Conclusion for FAS 71 also provides some insight as to the specific concerns relating to government imposed price controls that resulted in the scope exception in ASC 980-10-15-7(a):

70. The first scope limitation of paragraph 8—excluding accounting for price controls imposed by governmental action in times of emergency, high inflation, or other unusual conditions—was included in the Discussion Memorandum. Price controls imposed in periods of unusual conditions are not expected to be applied consistently over an extended period. Indeed, their duration usually is limited by statute. In that environment, assurance of future benefits cannot be provided by probable future actions of the price control regulator because that regulator may not exist at a given future date.

The implementation of the FHP does not create the type of environment described in FAS 71.BC70 as it is governed by the OEB and there is no concern the OEB will not continue to exist.

The second part of the scope exception in ASC 980-10-15-7(a) relating to the accounting for contracts is further explained in the following paragraph from the Basis for Conclusion for FAS 71:

71. Accounting for contracts in general was also excluded from the scope of the Discussion Memorandum. The economic effects of cost reimbursement contracts are in some respects similar to the economic effects of the type of regulation addressed by this Statement. However, most contracts tend to be relatively short-term, whereas regulation of enterprises covered by this Statement is expected to continue beyond the foreseeable future. The Board noted that other authoritative literature addresses contract accounting and concluded that it should exclude the general issue of contract accounting from the scope of this Statement.

Although the impetus for the FHP relates to term of contracts the IESO has entered into with certain generators, the FHP does not change the existing accounting for these contracts.

Application of ASC 980-340-25-1 to the regulatory asset

ASC 980-340-25-1 states the following:

Rate actions of a regulator can provide reasonable assurance of the existence of an asset. An entity shall capitalize all or part of an incurred cost that would otherwise be charged to expense if both of the following criteria are met:

- *a) It is probable (as defined in Topic 450) that future revenue in an amount at least equal to the capitalized cost will result from inclusion of that cost in allowable costs for rate-making purposes.*
- *b) Based on available evidence, the future revenue will be provided to permit recovery of the previously incurred cost rather than to provide for expected levels of similar future costs. If the revenue will be provided through an automatic rate-adjustment clause, this criterion requires that the regulator's intent clearly be to permit recovery of the previously incurred cost.*

A cost that does not meet these asset recognition criteria at the date the cost is incurred shall be recognized as a regulatory asset when it does meet those criteria at a later date.

The following supports the IESO's position that the FHP variance account meets the above criteria for capitalization:

It is probable (as defined in Topic 450) that future revenue in an amount at least equal to the capitalized cost will result from inclusion of that cost in allowable costs for rate-making purposes.
The following excerpts from the FHP Act make it clear that the IESO is entitled to recover the regulatory asset through rates in the future: *Variance account to be established, maintained* *24 (1) The IESO shall establish and maintain a variance account in which it records the following:* *1. The IESO deferral for each month.* *2. All payments received by the IESO resulting from the exercise of the right of recovery under section 25 and any transfer under section 26.* *3. Such other adjustments as may be prescribed, including adjustments in respect of the period that commences on or*

after May 1, 2017 and before the day this section comes into force.

Recording determinative

(2) Subject to the correction of any obvious error by the IESO, its recording of the balance in the variance account is determinative of the balance as of the time of the recording.

Regulatory asset established

25 (1) Effective May 1, 2017, the IESO has the right, exercisable in accordance with this Act and the regulations, to recover the balance recorded in the variance account from specified consumers.

Board to set rates

(2) Subject to subsection (3), the Board shall, from time to time and in accordance with the regulations, determine and set rates payable by specified consumers to allow for the IESO to recover the balance recorded in the variance account.

Limitation

(3) The IESO shall not be entitled to collect all or part of the balance recorded in the variance account from specified consumers before May 1, 2021.

The recovery of the regulatory asset is, however, dependent on future consumption of electricity by rate-payers. Although the timing of the recovery of the regulatory asset has not yet been established by statute, the recovery period is intended to be 30 years. Given the nature and extent of customer demand for the power generated and distributed in Ontario, both at this time and projected in the future, it is reasonable to conclude that it is probable there will be sufficient demand in the future to recover the regulatory asset. This conclusion, which is supported by Figure 19: Ontario's Forecast Electricity Production in Achieving Balance – Ontario's Long-Term Energy Plan (Appendix B), will need to be continually evaluated throughout the recovery period. The willingness of unrelated third parties (e.g., investors) to fund the purchase of the regulatory asset from the IESO by OPG Trust also demonstrates the belief that sufficient demand will exist to permit its future recovery.

Based on available evidence, the future revenue will be provided to permit recovery of the previously incurred cost rather than to provide for expected levels of similar future costs. If the revenue will be provided through an automatic rate-adjustment clause, this criterion requires that the regulator's intent clearly be to permit recovery of the previously incurred cost.

Based on the above excerpts from the FHP Act, it is clear the IESO will be recovering costs previously incurred rather than providing for expected levels of similar future costs.

ASC 980 is an acceptable source of guidance under PSAS[3]

In assessing whether ASC 980-340-25-1 is an acceptable source of guidance under PSAS, Paragraph 5 of PSAS 1150, GENERALLY ACCEPTED ACCOUNTED PRINCIPLES, states the following:

When the primary sources of GAAP do not deal with the accounting and reporting in financial statements of transactions or events encountered by the public sector reporting entity, or additional guidance is needed to apply a primary source to specific circumstances, the selection of an appropriate accounting policy requires the exercise of professional judgment. In these circumstances, a public sector reporting entity should adopt accounting policies and disclosures that are consistent with:

a) the primary sources of GAAP; and

[3] If the accounting for GBEs were to change in the future such that line by line consolidation is required using PSAS, the importance of this consideration increases significantly.

b) the application of the concepts described in FINANCIAL STATEMENT CONCEPTS, Section PS 1000.

Related guidance is also provided in PSAS 1150.18-.20:

Paragraphs PS 1150.19-.24 identify some of the other sources that a public sector reporting entity might consult to assist in selecting accounting policies and disclosures that comply with paragraph PS 1150.05.

Pronouncements issued by other bodies authorized to issue accounting standards may be useful sources to consult. For example, accounting pronouncements published with the authority of the Canadian Accounting Standards Board (AcSB), International Accounting Standards Board (IASB), US Federal Accounting Standards Advisory Board (FASAB), US Governmental Accounting Standards Board (GASB), or International Public Sector Accounting Standards Board (IPSASB) are often important sources to consult on matters not covered by primary sources of GAAP or for assistance in applying a primary source of GAAP to specific circumstances.

When a public sector reporting entity chooses to consult a source described in paragraph PS 1150.19, it applies professional judgment and evaluates the source in the context of the relative manner in which the standard setter requires its pronouncements to be applied, as well as in the context of the related pronouncement. When an accounting standard setter does not have a conceptual framework that is similar to the concepts referred to in paragraph PS 1150.05(b), the public sector reporting entity needs to ensure that the selected source is consistent with those concepts.

Since PSAS does not specifically address the treatment of costs incurred that will be recovered through regulatory operations in future periods, the IESO would not be precluded from following the guidance in ASC 980-340-25-1. However, PSAS 1000.05 makes it clear that in order to do so, it must first be demonstrated that such guidance is consistent with the application of the concepts described in PSAS 1000, FINANCIAL STATEMENT CONCEPTS.

The relevant guidance in PSAS 1000 relating to the recognition of an asset is as follows:

PSAS 1000.35

Assets are economic resources controlled by a government as a result of past transactions or events and from which future economic benefits are expected to be obtained.

PSAS 1000.36

Assets have three essential characteristics:

a) they embody future economic benefits that involve a capacity, singly or in combination with other assets, to provide goods and services, to provide future cash inflows, or to reduce cash outflows;
b) the public sector entity can control the economic resource and access to the future economic benefits; and
c) the transaction or event giving rise to the public sector entity's control has already occurred.

PSAS 1000.37

An item is not an asset of a government if it lacks one or more of the essential characteristics listed in the preceding paragraph. Thus, for example, an item does not qualify as an asset of a government if the item involves:

a) *no future economic benefit;*
b) *future economic benefit, but the government cannot obtain it; or*
c) *future economic benefit that the government may obtain, but the events or circumstances that give the government control of the benefit have not yet occurred*

The following supports the IESO's position that the regulatory asset possesses the three essential characteristics of an asset:

Embody future economic benefits that involve a capacity, singly or in combination with other assets, to provide goods and services, to provide future cash inflows, or to reduce cash outflows

The following excerpts from the FHP Act make it clear that the IESO is entitled to recover the regulatory asset through rates in the future:

Variance account to be established, maintained

24 (1) The IESO shall establish and maintain a variance account in which it records the following:

1. The IESO deferral for each month.

2. All payments received by the IESO resulting from the exercise of the right of recovery under section 25 and any transfer under section 26.

3. Such other adjustments as may be prescribed, including adjustments in respect of the period that commences on or after May 1, 2017 and before the day this section comes into force.

Recording determinative

(2) Subject to the correction of any obvious error by the IESO, its recording of the balance in the variance account is determinative of the balance as of the time of the recording.

Regulatory asset established

25 (1) Effective May 1, 2017, the IESO has the right, exercisable in accordance with this Act and the regulations, to recover the balance recorded in the variance account from specified consumers.

Board to set rates

(2) Subject to subsection (3), the Board shall, from time to time and in accordance with the regulations, determine and set rates payable by specified consumers to allow for the IESO to recover the balance recorded in the variance account.

Limitation

(3) The IESO shall not be entitled to collect all or part of the balance recorded in the variance account from specified consumers before May 1, 2021.

Accordingly, the regulatory asset, by statute, has the capacity to provide future cash inflows.

While perhaps obvious, paragraph 13 of PSAS 3210, ASSETS, confirms the generation of future cash flows represents a future economic benefit:

The future economic benefits embodied in an asset may also be in the form of generating future cash inflows. Cash inflows benefit the public sector entity because cash can be used to purchase or to provide goods and services, redistribute wealth or settle liabilities. Benefits in the form of cash inflows relate to resources, such as loans receivable, inventory for resale and portfolio investments. Also, some public sector resources generate cash inflows because they have user fees associated with them.

The ability of the regulatory asset to generate future cash flows is dependent on the future consumption of electricity by rate-payers. Although the timing of the recovery of the regulatory asset has not yet been established by statute, the recovery period is intended to be 30 years. Given the nature and extent of customer demand for the power generated and distributed in Ontario, both at this time and projected in the future, sufficient demand is expected to exist in the future to recover the regulatory asset. This conclusion, which is supported by Figure 19: Ontario's Forecast Electricity

Production in Achieving Balance – Ontario's Long-Term Energy Plan, will need to be continually evaluated throughout the recovery period. The willingness of unrelated third parties to fund the purchase of the regulatory asset from the IESO by OPG Trust also demonstrates the belief that sufficient demand will exist to permit its future recovery.

The public sector entity can control the economic resource and access to the future economic benefits

Paragraph 16 of PSAS 3210, ASSETS, states the following:

A public sector entity controls the economic resource and access to the future economic benefits when it:

- *a) can benefit from the economic resource through its capacity to provide goods and services, to provide future cash inflows or to reduce cash outflows;*
- *b) can deny or regulate access to those benefits by others; and*
- *c) is exposed to the risks associated with the economic resource.*

The IESO can benefit from the regulatory asset through its capacity to provide future cash inflows in one of two ways:

1. *Collection through future rates*

Section 25 of the FHP gives the IESO the right to recover the regulatory asset through future rates:

Regulatory asset established

25 (1) Effective May 1, 2017, the IESO has the right, exercisable in accordance with this Act and the regulations, to recover the balance recorded in the variance account from specified consumers.

Board to set rates

(2) Subject to subsection (3), the Board shall, from time to time and in accordance with the regulations, determine and set rates payable by specified consumers to allow for the IESO to recover the balance recorded in the variance account.

2. *Sale to a financing entity*

Section 26 of the FHP Act permits the IESO to sell the regulatory asset:

26 (1) The IESO may from time to time, in accordance with this Act and the regulations, transfer a specified portion of the regulatory asset to a financing entity in accordance with this section.

Agreement

(2) An agreement between the IESO and a financing entity in relation to the transfer of a specified portion of the regulatory asset shall provide for consideration of a payment by the financing entity to the IESO in an amount equal to the amount of the specified portion.

Effect of payment

(3) Upon receipt by the IESO of the payment by the financing entity,

- *(a) the balance in the variance account shall be reduced by the amount of the payment;*
- *(b) the regulatory asset shall be adjusted accordingly;*
- *(c) the financing entity shall acquire a corresponding investment interest; and*
- *(d) the IESO shall retain no further right, title or interest in the corresponding investment interest.*

Since (a) the statutory right to recover the regulatory asset belongs solely to the IESO, and (b) the IESO is permitted, but not required, to sell the regulatory asset, the IESO can deny or regulate access to the future economic benefits of the regulatory asset by others.

The IESO is exposed to the risks associated with the regulatory asset, with the primary risk being that collection through the mechanism set out in Section 25 of the FHP Act is dependent on the future

Commented [LAP17]: CV - Are there other examples to provide as analogies – anything in tangible capital assets?

.31 *When conditions indicate that a tangible capital asset no longer contributes to a government's ability to provide goods and services, or that the value*

.07 *When there has been a loss in value of a portfolio investment that is other than a temporary decline, the investment should be written down to recognize the loss. The write-down should be included in the statement of operations. In the case of an item in the fair value category, a reversal of any net remeasurements should be reported in the statement of remeasurement gains and losses.*

Commented [OPCD18]: See comment on OPCD 19)

consumption of electricity by rate-payers.

The above analysis supports the position that the IESO controls the regulatory asset and access to the future economic benefits.

In reaching this conclusion, consideration was given to the following excerpt included on Page 37 of the 2008 Annual Report of the OAGO:

With regard to the second characteristic, we simply point again to the legacy of the former Ontario Hydro and its stranded debt. This in our view provides concrete evidence that even in monopoly situations governments do not have sufficient assurance that an enterprise will generate enough profits in future years to recover all of its past costs.

Although there needs to be sufficient assurance regarding the recovery of past costs, all relevant facts and circumstances need to be taken into consideration. Accordingly, the stranded debt of Ontario Hydro can be a relevant to the analysis, but not determinative on its own. As noted in the previous section, the recoverability of past costs will be continually assessed.

Commented [OPCD19]: CV to review wording (past does not predict future).

The transaction or event giving rise to the public sector entity's control has already occurred

When evaluating whether a transaction or event gives rise to control, the following guidance from PSAS 3210, ASSETS, provides helpful guidance:

.26
The past transaction or event that gives rise to control of an economic resource resulting from exchange agreements or contracts usually occurs at the point of exchange. This arises when substantially all the benefits and risks of ownership have been transferred to the public sector entity and normally coincides with the disbursement of funds, exchange of other assets or assumption of liabilities.
.28
The existence of a law, by-law or policy in relation to a particular program is not a past transaction or event that gives rise to control of an economic resource. Control does not exist until the underlying event occurs.
.29
The past transaction or event giving rise to control of an economic resource must have occurred by the financial statement date. Legislation having retroactive application cannot create a past transaction or event. Any economic resources related to that legislation would be accounted for in the current and relevant future periods, not in the period of the effective date of the legislation.

In the case of the regulatory asset, the above guidance in PSAS 3210 makes it clear that it is not the statute itself that is the transaction or event giving rise to the asset, it is the incurrence of costs for which recovery is provided for under statute. Accordingly, control over the economic benefits of the regulatory asset occurs when the IESO incurs a cash flow deficit that is recorded in the FHP variance account in accordance with Section 24(1) of the FHP Act:

24 (1) The IESO shall establish and maintain a variance account in which it records the following:

1. The IESO deferral for each month.

2. All payments received by the IESO resulting from the exercise of the right of recovery under section 25 and any transfer under section 26.

3. Such other adjustments as may be prescribed, including adjustments in respect of the period that commences on or after May 1, 2017 and before the day this section comes into force.

At this point in time, the IESO has incurred a cash outflow for which it is entitled to recover under Section 25 of the FHP Act:

Regulatory asset established

25 (1) Effective May 1, 2017, the IESO has the right, exercisable in accordance with this Act and the regulations, to recover the balance recorded in the variance account from specified consumers.

Board to set rates

(2) Subject to subsection (3), the Board shall, from time to time and in accordance with the regulations, determine and set rates payable by specified consumers to allow for the IESO to recover the balance recorded in the variance account.

The following excerpt from the IFRS Staff Paper on Rate-Regulated Activities prepared for discussion at the June 2017 IASB meeting presents a consistent view and dismisses the potential dissenting view that the transaction or event giving rise to the IESO's control is the future consumption of electricity by rate-payers:

A right arises from the rate-adjustment mechanism if the entity has already partially or fully fulfilled a regulatory requirement (past event) but the current regulated rate does not yet reflect the compensation that the entity is entitled to in exchange. Even though the entity cannot compel its customers to buy the regulated goods or services, the entity's right to charge an increased future regulated rate has the potential to produce for the entity an inflow of economic benefits that are not available to other parties. That right will be consumed as the entity includes the rate increase in future regulated rates and will lead to an inflow of economic benefits if customers pay the increased future regulated rate for the future delivery of goods or services.

In April 2011, Torys LLP issued a letter to OPG relating to the legal basis of OPG's regulatory deferral and variance accounts which, as evidenced by the following excerpts, also takes the position that the transaction or event giving rise to the asset is the incurrence of costs for which recovery is provided for under statute:

OPG's deferral and variance accounts are established either by regulation or by orders of the Ontario Energy Board (the "OEB") through the proper exercise of its jurisdiction as the administrative tribunal responsible for regulating the electricity industry in Ontario. The establishing of such an account pursuant to regulation or the granting of approval by the OEB to establish such an account confers upon OPG a right to record amounts in the account and to account for the amounts recorded on the basis that they have been prudently incurred.

The OEB has broad jurisdiction in setting payment amounts for OPG and it would not be reasonable for the legislature to have given the OEB the legislative power to authorize the establishment of accounts without also giving the OEB the power to dispose of the amounts recorded in such accounts, including in circumstances where there is no future output. Moreover, to interpret the applicable legislation in a manner that only allows for payment amounts on a volumetric basis is in our view unreasonable because it would not be consistent with the rules of statutory interpretation.

Commented [OPCD20]: Recovery not dependent on future output (eg. OPG would be able to recover, even if the entity stopped producing). Would similar apply to situation of declining demand?

Another potential dissenting view is contained on page 37 of the 2008 Annual Report of the OAGO:

With regard to the third characteristic, we do not believe that a rate-regulation decision can be considered a transaction or event giving rise to an asset or obligation because, as stated above, from the level of the government's consolidated financial statements such a decision is an internal event between two government-controlled entities. An equivalent analysis for rate-regulated liabilities leads to the same conclusion. PSAB standards preclude the inclusion of both gains and losses from such inter-company transactions. Therefore, our contention is that, at the consolidated financial statement level, rate-regulated assets and liabilities have no place and should be removed upon consolidation of the government's controlled entities.

It should be noted, however, that the OAGO's belief that a rate-regulation decision cannot be considered a transaction or event giving rise to an asset or obligation is not contrary to the IESO's position. As noted above, it is not the statute itself that is being considered the transaction or event giving rise to the asset, it is the incurrence of costs for which recovery is provided for under statute.

In addition, one could argue the creation of the relevant statutes is not an internal event from the

point of view of the consolidated government. Statutes must be passed by the Legislative Assembly of Ontario to become law. Since the Legislative Assembly is comprised of elected members, it can be viewed as the government's governing body.

Concluding the regulatory asset possesses the three essential characteristics of an asset in PSAS 1000.05 then begs the question as to whether the application of the guidance in ASC 980 is even necessary in this particular situation. Consistent with the statement in ASC 980 –340-25-1 that *rate actions of a regulator can provide reasonable assurance of the existence of an asset,* ASC 980 provides guidance as to how to apply the primary source of PSAS in the regulatory environment.

In a letter from the OAGO to the Board of Directors of the IESO dated June 22, 2017 (the OAGO Letter), the OAGO makes the following statement:

Commented [OPCD21]: The paper includes references to all relevant documents to support a robust analysis. Assume this is both appropriate and acceptable.

The definitions of an asset in the PSAS and FASB Conceptual Framework are similar. Similar to PSAS, rate regulated deferral accounts do not generally meet the definition of an asset in the FASB's Conceptual Framework.

However, the following excerpts from the Basis for Conclusions for FAS 71 (paragraph 58 in particular), clearly support that ASC 980 is an application of, not an exception from, the basic definition of an asset in the Conceptual Framework:

Economic Effects of Regulation

56. The second threshold issue in the Discussion Memorandum was: "Does rate regulation introduce an economic dimension in some circumstances that should affect the application of generally accepted accounting principles to rate-regulated enterprises?"

57. Most respondents to the Discussion Memorandum indicated that rate regulation does introduce such an economic dimension in some circumstances. Respondents cited the cause-and-effect relationship of costs and revenues as the principal economic effect of regulation that affects accounting for regulated enterprises. They noted that cost might be one factor used by unregulated enterprises to establish prices, but it would often not be the most important factor. Usually, prices are limited by the market. An unregulated enterprise might desire to price its goods or services at a level that would recover all costs and a reasonable profit; however, the market might not permit that price. Alternatively, an unregulated enterprise might be able to increase its prices and its profit if competition does not limit its prices. In either case, cost often is not the principal determinant of prices. In contrast, for an enterprise with prices regulated on the basis of its costs, allowable costs are the principal factor that influences its prices.

58. The economic effect cited by most respondents is the ability of a regulatory action to create a future economic benefit—the essence of an asset. For example, consider a regulated enterprise that incurs costs to repair damage caused by a major storm. If the regulator approves recovery of the costs through rates over some future period or is expected to do so, the rate action of the regulator creates a new asset that offsets the reduction in the damaged asset. The enterprise has probable future economic benefits—the additional revenue that will result from including the cost in allowable costs for rate-making purposes. The future benefits are obtained or controlled by the enterprise as a result of a past event—incurring the cost that results in the rate order. Thus, the criteria of Concepts Statement 3 for an asset are met.

The fact that many Canadian rate-regulated entities recognized regulated assets under Part V of the CPA Canada Handbook – *Pre-changeover Accounting Standards* (Part V GAAP) further supports the position that regulated assets do meet the basic definition of an asset under PSAS. Although Part V GAAP refers to rate regulation in several standards, it does not include cost capitalization guidance equivalent to ASC 980-340-25-1. It does, however, specify in paragraph 32B of Section 1100, *Generally accepted accounting principles*, that Section 1100 applies to the recognition and measurement of assets and liabilities arising from rate regulation beginning January 1, 2009. Since Section 1100.04 only permits the use of an alternate source of GAAP if it is consistent with Part V GAAP, regulated assets need to meet the basic definition of an asset under Part V GAAP in order to be recognized. The Part V GAAP definition of an asset in Section 1000, *Financial Statement Concepts* is consistent with the PSAS definition.

The CICA Research Report also concluded regulated assets meet the basic definition of an asset under Part V GAAP:

In the Study Group's view, the economic benefits and obligations created by rate regulation and resulting from past transactions or events, and the changes in these amounts, meet the definition of a financial statement element set out in Handbook Section 1000.

The OAGO Letter suggests that IFRS should be consulted prior to referring to ASC 980 under PSAS's GAAP hierarchy in PSAS 1150 and points out the following:

- In 2005 the International Financial Reporting Interpretations Committee (IFRIC) indicated the US GAAP recognition criteria for regulated assets were not fully consistent with IFRS and could not be applied by analogy.
- When the question of rate regulated accounting was posed to the IFRIC again in 2008, the IFRIC noted the topic had been previously addressed and there was a well-established practice of first time IFRS adopters ceasing rate regulated accounting and removing regulatory deferral accounts from their financial statements.
- In the Basis for Conclusions on IFRS 14, IFRS 14.BC30 noted the differences in the recognition criteria between IFRS and ASC 980 resulted in almost all existing regulatory deferral accounts being derecognized upon transition to IFRS.

It should be noted, however, that the IASB's project on rate-regulated activities is still in progress and the OAGO Letter does not reference more recent and relevant activity. In September 2014, the IASB issued Discussion Paper DP/2014/02, *Reporting the Financial Effects of Rate Regulation*. The Discussion Paper presents the opposing views as to whether regulatory deferral account balances meet the definitions of an asset or a liability and specifically states the following in paragraph 5.09:

Consequently, the IASB has not formed a preliminary view on whether regulatory deferral account balances meet either the current or proposed revised Conceptual Framework definitions of an asset and a liability. It will use the input received from the responses to this Discussion Paper and the Conceptual Framework project to help it assess whether to develop any specific accounting guidance or requirements for rate-regulated activities.

In addition, the most recent paper issued by the IASB staff in June 2017 includes the following:

17. During the May 2017 Board meeting we also considered the interaction between the definitions of assets and liabilities and the characteristics of defined rate regulation (see paragraphs 5 and 6). We concluded that a combination of those characteristics suggested that the rights and obligations created

by the rate-adjustment mechanism are assets and liabilities, as those terms are expected to be defined in the forthcoming revised Conceptual Framework for Financial Reporting.

The Exposure Draft ED/2015/3, *Conceptual Framework for Financial Reporting*, defines an asset as follows:

4.5 An asset is a present economic resource controlled by the entity as a result of past events.
4.6 An economic resource is a right that has the potential to produce economic benefits.

This recent activity suggests that it would be premature to assume that the IASB will conclude that regulatory deferral account balances will not meet the definitions of an asset or a liability.

Once it is determined that the regulatory asset meets the basic characteristics of an asset in PSAS 1000.36, consideration also needs to be made as to what type of asset it is. This is important because PSAS 1000.58 does not permit the recognition of intangible assets:

In the absence of appropriate public sector recognition and measurement criteria for intangibles, all intangibles, including those that have been purchased, developed, constructed or inherited in right of the Crown, are not recognized as assets in government financial statements. The intangible often called "human capital" that embodies the talent or intellectual capital of government employees is not recognized as an asset under existing accounting principles.

PSAS 1000 identifies two types of assets: financial assets and non-financial assets and provides the following commentary:

.39 Financial assets are assets that could be used to discharge existing liabilities or finance future operations and are not for consumption in the normal course of operations.

.40 A financial asset is any asset that is:

- *a) Cash*
- *b) a realizable asset that is convertible to cash;*
- *c) a contractual right to receive cash or another financial asset from another party;*
- *d) a contractual right to exchange financial instruments with another party under conditions that are potentially favourable to the government;*
- *e) an equity instrument of another entity;*
- *f) an investment in a government business enterprise or government business partnership;*
- *g) a financial claim on an outside organization or individual; or*
- *h) an inventory or item for sale that meets the criteria in FINANCIAL STATEMENT PRESENTATION, paragraph PS 1201.055.*

.41 Non-financial assets include tangible capital assets, and other assets such as prepaid expenses and inventories of supplies.

.42 Non-financial assets are acquired, constructed or developed assets that do not normally provide resources to discharge existing liabilities, but instead:

- *a) are normally employed to deliver government services;*
- *b) may be consumed in the normal course of operations; and*
- *c) are not for sale in the normal course of operations.*

PSAS 3210, ASSETS, also provides some relevant guidance:

.24 Non-financial resources include all items of a fixed or permanent nature (such as tangible capital property), claims to goods and services (such as prepaid items) and consumable goods (such as inventories of supplies). Non-financial resources also include intangibles, Crown lands and natural resources.

.25 Certain non-financial resources are, however, not given accounting recognition as assets in government financial statements. For example, all government intangibles, and all natural resources and Crown lands that have not been purchased by the government, are not given accounting recognition in government financial statements. A government's non-financial

assets, as defined in FINANCIAL STATEMENT CONCEPTS, Section PS 1000, comprise the recognized non-financial resources of a government.

Although PSAS does not permit the recognition of intangibles, it also does not provide a definition of intangibles. In absence of specific guidance in PSAS as to what constitutes an intangible, U.S. GAAP is probably the most appropriate source to consult, in light of the fact that it deals specifically with regulated assets. Under U.S. GAAP, a regulated asset is not treated as an intangible. ASC 980 contains separate subsections for 'Intangibles – Goodwill and Other' and 'Other Assets and Deferred Costs' and regulated assets are included in the guidance on 'Other Assets and Deferred Costs'.

In accordance with PSAS 1201.040(a), financial assets are presented separately on the statement of financial position. The IESO classifies its regulated assets (i.e., the original variance account and the regulated assets relating to unrecovered smart metering expenses and unrecovered PSAB transition items) as financial assets. Consistent with these other regulated assets, ~~The~~ the regulatory asset created under the FHP meets the definition of a financial asset in PSAS 1000.39 since it will be available to discharge existing liabilities or finance future operations. Although the regulatory asset is not available to discharge liabilities existing at the date of the statement of financial position, that is no different than, for example, accounts receivable. ~~does not meet the criteria in PSAS 1000.40 to be a financial asset as it does not represent a current contractual right to receive cash. Accordingly, the regulatory asset is a non-financial resource. As noted above, to be recognized as an asset in the financial statements a non-financial resource cannot be an intangible.~~

~~Although PSAS does not permit the recognition of intangibles, it also does not provide a definition of intangibles. While PSAS 1000.40 provides a finite list of items that represent financial assets, the guidance in PSAS 1000.41 .42 on non-financial assets is less definitive, using words like "such as" and "normally". In absence of specific guidance in PSAS as to what constitutes an intangible, U.S. GAAP is probably the most appropriate source to consult, in light of the fact that it deals specifically with regulated assets. Under U.S. GAAP, a regulated asset is not treated as an intangible. ASC 980 contains separate subsections for 'Intangibles – Goodwill and Other' and 'Other Assets and Deferred Costs' and regulated assets are included in the guidance on 'Other Assets and Deferred Costs'. Consistent with the treatment under U.S. GAAP, the regulatory asset is categorized as an other asset under PSAS and recognized in the financial statements as a non-financial asset.~~

By recognizing the regulatory asset as a financial asset, the FHP will have a neutral impact on both the Province's net debt and accumulated deficit, which ~~is~~appears appropriate and aligned ~~consistent~~ with the intent of guidance in PSAS 1100, Financial statement objectives:

Financial statements should present information to describe the government's financial position at the end of the accounting period. Such information should be useful in evaluating:

a) the government's ability to finance its activities and to meet its liabilities and contractual obligations; and
b) *the government's ability to provide future services.*

A government's net debt is an important indicator of a government's financial position, highlighting the financial affordability of future government service provision. A net debt position represents a "lien" on the ability of the government to apply financial resources and future revenues to provide services. Non-financial assets are added to net debt to calculate the other indicator of a government's financial position — its accumulated surplus or deficit. Non-financial assets are "prepaid service potential". Reporting a government's recognized non-financial resources as part of its financial position provides

Commented [OPCD22]: REVIEW

Commented [OPCD23]: Would inserting reference to precedents of RRA commoditizing be helpful?

information necessary for a more complete understanding of a government's debt position, financial position and future operating requirements.

Governments provide public services and redistribute wealth for a variety of social and economic purposes. To meet those objectives, governments need information about the cost of services and the affordability of services. An understanding of the extent of the financial "lien" the government has on its ability to provide future services as a result of past transactions and events is essential information. Governments also need to have an appreciation of the magnitude of the total economic resources they have on hand to deliver services. A government's net financial resources / net debt position, assessed in combination with the non-financial resources position of the government, provides a measure of the net recognized economic resources available to the government at the financial statement date to provide services in the future.

If the regulatory asset is not recognized as a financial asset, the Province's net debt will increase significantly, suggesting that the Province has a much higher future revenue requirement. This would be inaccurate, however, since the regulatory asset is going to be recovered under statute from electricity consumers, not taxpayers.

Commented [OPCD24]: If not recognized, then impact on annual surplus/deficit is significant as well, and under Balanced Budget Legislation would have material impacts which would be contrary to the public interest (based on ON's practice of defining balanced budget based on PSAS).

……

Debits and Credits

Based on the example provided earlier, the IESO pays the contracted power generator $400 for electricity used by the ratepayer and collects $300 from the ratepayer through their local distribution company (LDC). The $100 recovery shortfall is recorded in a variance account created by Bill 132 and deemed to be a regulatory asset. The IESO sells the regulatory asset to OPG Trust for $100 to obtain cash to make up the shortfall.

The accounting for the above transactions in the financial statements of the IESO, which are prepared in accordance with PSAS, depends on whether the regulatory asset is eligible for recognition as an asset for accounting purposes under PSAS. To avoid confusion in the remainder of this document, the term regulatory asset will refer to the defined term in the FHP Act and the term regulated asset or rate-regulated asset (RRA) will refer to an asset recognized for accounting purposes. The following table illustrates the journal entries to be booked by the IESO under both scenarios:

Scenario A – Regulated Asset			**Scenario B – Not a Regulated Asset**		
Market Settlement					
DR	Cash	300	DR	Cash	300
DR	Asset	100	DR	Expense	100
CR	Cash	(400)	CR	Cash	(400)
Sale of Regulatory Asset to OPG Trust					
DR	Cash	100	DR	Cash	100
CR	Asset	(100)	CR	Gain	(100)

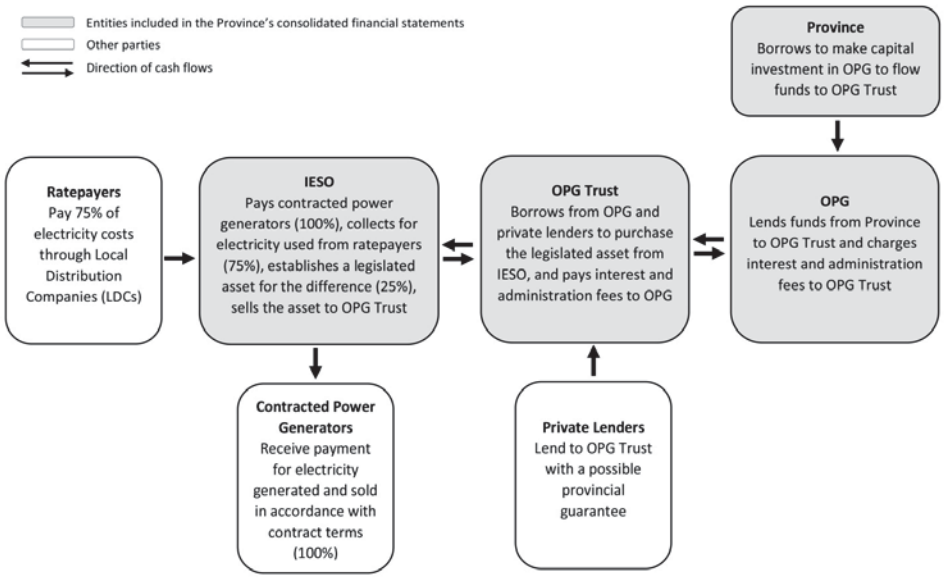
Commented [OPCD25]: Consider inserting 2 additional lines for impact on net debt and impact on annual surplus/deficit? If not sold by the end of the year, will have a loss on the IESO f/s and the province's f/s.

At any given point in time, the accounting result will be the same under both scenarios provided the cash shortfall has been fully funded. If a funding deficit exists, however, the deficit would be recognized

as an asset under Scenario A and recognized as an expense under Scenario B. A funding deficit may arise due to, for example, temporary timing differences between the creation and sale of a regulatory asset. A funding deficit may also arise if OPG Trust (or another financing entity) ceases to purchase the IESO's regulatory assets on an on-going basis.

APPENDIX A

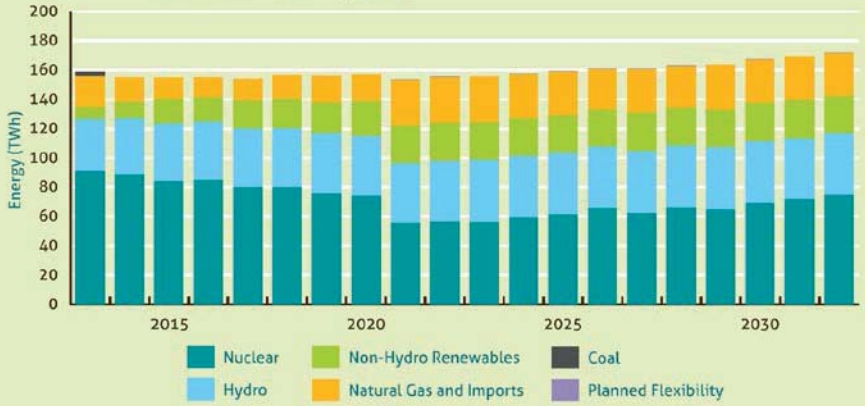
Proposed Legislated Transaction Structure
Prepared by the Office of the Auditor General of Ontario



Commented [OPCD26]: Can chart be expanded to include impact on CFS (consolidation of IESO reflecting RRA on CFS, Interest Income from OPG through revenue of GBE will help to offset borrowing costs incurred by Province on equity injection).

APPENDIX B

Figure 19: Ontario's Forecast Electricity Production (TWh)



Notes: The Planned Flexibility identified in Figure 19 is required to meet peak requirements and represents less than 1 TWh of energy per year. Forecasting of electricity production includes the expectation of imports and exports of electricity in all years. Imports and exports are an important component in managing the operation of the electricity system. As a result, electricity production forecast exceeds the forecast Ontario consumer demand.
