For the purpose of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest to which any rate of interest payable under this Agreement that is calculated on any basis other than a full calendar year is equivalent may be determined by multiplying such rate by a fraction, the numerator of which is the actual number of days in the calendar year in which such yearly rate of interest is to be ascertained and the denominator of which is the number of days comprising such other basis. The parties further agree that for the purposes of the *Interest Act* (Canada), (i) the principle of deemed reinvestment of interest shall not apply to any interest calculation under this Agreement, and (ii) the rates of interest stipulated in this Agreement are intended to be nominal rates and not effective rates or yields.

1.17 Currency

Unless stated otherwise, all amounts herein are stated in Canadian Dollars.

1.18 References to Acts of the Financing Entity

For greater certainty, where any reference is made in this Agreement, or in any other instrument executed pursuant hereto or contemplated hereby to which the Financing Entity or the Financing Entity Trustee, as trustee of the Financing Entity, is party, to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against, or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to (i) the Financing Entity or (ii) the Financing Entity Trustee, such reference shall be construed and applied for all purposes as if it referred to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to, the Financing Entity Trustee as trustee of the Financing Entity.

1.19 Judgment Currency

(a) If for the purpose of obtaining judgment in any court or for any other purposes (other than conversions specifically provided for in the agreement under which an Approved Obligation arises), it is necessary to convert any amount due under this Agreement from the currency in which it is due (the "**Original Currency**") into another currency (the "**Second Currency**"), the rate of exchange applied shall be that at which, in accordance with normal banking procedures, the purchaser could purchase, in the New York foreign exchange market, the Original Currency with the Second Currency on the date on which judgment is given. The obligation of the Province in respect of any Original Currency due from it to the Indenture Trustee under this Agreement shall, notwithstanding any judgment or payment in such other currency, be discharged only to the extent that, on the Business Day following receipt of any sum so paid or adjudged to be due under this Agreement in the Second Currency, the Indenture Trustee may, in accordance with normal banking procedures, purchase in the New York foreign exchange market the Original Currency with the amount of the Second Currency so paid or so adjudged to be due; and if the amount of the Original Currency so purchased is less than the amount originally due in the Original Currency, the Province shall indemnify the Indenture Trustee against such loss.

(b) The term "rate of exchange" in this Section 1.19 means the spot rate at which the Indenture Trustee, in accordance with normal practice, is able on the relevant date to purchase the Original Currency with the Second Currency and includes any premium and costs of exchange payable in connection with such purchase.

ARTICLE II
AGREEMENT TO PERFORM APPROVED OBLIGATIONS

2.01 Limited Guarantee

(a) Upon the occurrence of a Protection Event, the Indenture Trustee may deliver a written demand, substantially in the form attached as **[Exhibit A]** (a "**Payment Demand**"), to the Province requiring the Province to make payments in respect of the Approved Obligations at the times, in the amounts and subject to the requirements specified in this Agreement. From and after such delivery of a Payment Demand, the Province shall make the following payments in respect of the Approved Obligations (the "**Limited Guarantee**"), the Financing Entity shall pay, and the Province shall be entitled to be paid, the Subrogation Amounts specified below, and the following terms shall apply:

i. Not less than three (3) Business Days prior to each day when any payment or payments are to be made in respect of one or more Approved Obligations occurring after such delivery of a Payment Demand (each such day, a "**Guarantee Payment Date**"), the Manager shall deliver a written statement setting forth the Aggregate Approved Obligations Amount, if any, in respect of the Approved Obligations that are due and payable on such Guarantee Payment Date, together with a detailed description identifying such Approved Obligations and the nature and amount of payments due and payable thereunder on the Guarantee Payment Date, the aggregate outstanding amount payable by the Financing Entity under such Approved Obligations as of the date of such written statement, and details regarding any default in performance by any party obligated thereunder.

ii. On each such Guarantee Payment Date, the Province shall deposit the Aggregate Approved Obligations Amount into the Protection Account.

iii. On each such Guarantee Payment Date, the Financing Entity and the Indenture Trustee shall ensure that the amounts on deposit in the Protection Account are applied to pay each Beneficiary to whom an amount is due and payable under an Approved Obligation on the Guarantee Payment Date the Approved Obligation Amount for such Beneficiary in respect of such Approved Obligation on such Guarantee Payment Date; provided that if the amount deposited pursuant to clause 2.01(a)ii is insufficient to pay all such Approved Obligation Amounts in full, the amount on deposit in the Protection Account on the Guarantee Payment Date shall be applied to pay Beneficiaries in the order of priority in which such Approved Obligations are payable under the

payment provisions of the Trust Indenture applicable to the making of such payments on the Guarantee Payment Date (each, a "**Beneficiary Payee**" and each payment made to a Beneficiary Payee on a Guarantee Payment Date, a "**Guarantee Payment**").

iv. On the first Guarantee Payment Date and on each subsequent Guarantee Payment Date, Payment Date or other day on which any amount is required to be paid in respect of any Obligations Secured under the Trust Indenture (a "**Subrogation Payment Date**"), the Issuer and the Indenture Trustee shall ensure that the applicable payment provisions of the Trust Indenture shall be applied and operate on the following basis[1]:

(A) If such day is a Guarantee Payment Date, then for each Approved Obligation for which amounts are paid to a Beneficiary Payee on such day pursuant to clause 2.01(a)iii in respect of principal, interest or any other amounts ("**Payable Approved Amounts**"), the amounts payable by the Financing Entity in respect of such amounts for such Approved Obligation shall be reduced by the respective amounts of such payments to the Beneficiary Payee, and equivalent amounts shall be payable by the Financing Entity to the Province as "**Subrogation Amounts**" in respect of such Approved Obligations, such Subrogation Amounts being payable in the same order of priority and with the same entitlements accruing to the Province as applied in respect of the related Payable Approved Amounts which were previously owing to the Beneficiary Payee, and to reflect this subrogation the payments set out in clause 2.01(a)iv(B) below shall be made by the Financing Entity.

(B) If the Province has made all deposits required to be made by it on each Guarantee Payment Date occurring on or before such day in accordance with clause 2.01(a)ii (or the related Approved Obligation Amounts have otherwise all been paid in full), then in respect of each Approved Obligation for which any related Subrogation Amounts have not yet been paid in full to the Province, the Financing Entity shall pay to the Province from amounts available under the Trust Indenture payment provisions and in accordance with the priority of payment provisions in

[1] Explanatory Note: The deletion of the paramountcy provision is acceptable as long as section 2.01 if fully reflected in the Trust Indenture. To be confirmed.

the Trust Indenture the amount that would be payable on such date in satisfaction of the relevant Payable Approved Amounts, as determined without regard to any Guarantee Payment paid on any Guarantee Payment Date and also without regard to the corresponding reduction of the amounts owing to present and former Beneficiary Payees pursuant to subclause 2.01(a)iv(A) up to the amount of the unpaid related Subrogation Amounts.

(C) No Beneficiary having a right to be paid an amount in respect of an Approved Obligation, and no other Person entitled under an Obligation Secured, in each case that ranks equal with or subordinate to the Payable Approved Amount in respect of which a Subrogation Amount is payable to the Province under subclause 2.01(a)iv(B), shall be entitled to make any claim or assert any right in or to the amounts paid or payable to the Province under such subclause (including any right of set-off, offset, reimbursement, contribution or indemnity) and no such Beneficiary or other Person shall have any right or interest in, to or under the Collateral or any proceeds therefrom in respect of any such Subrogation Amount.

(D) For greater certainty, the entitlements of the Province in respect of Subrogation Amounts arising in respect of Payable Approved Obligations that are interest and principal obligations on Notes shall be treated for all purposes of the Trust Indenture as interest and principal obligations, respectively, arising under Notes having the same priority as and any applicable voting rights[2] under the related Approved Obligations, and accordingly the Province (and any successor, assignee or transferee of such entitlements) shall be entitled to all of the rights, entitlements, interests and privileges of a Holder of such a Notes in accordance with the Trust Indenture, as supplemented by the Supplemental Indenture or other indenture document under which the related Approved Obligations were issued.

[2] Explanatory Note: As discussed, the Province understands that voting rights may be muted by the "outstanding" language in the Trust Indenture. Nevertheless, if voting rights would arise under the Trust Indenture they should be available to the Province.

(b) On each Guarantee Payment Date and upon demand by the Province, the Indenture Trustee shall release and pay to the Province free and clear of any Liens any amount remaining on deposit in the Protection Account that has not been applied to pay Guarantee Payments to Beneficiary Payees on the Guarantee Payment Date in accordance with clause 2.01(a)iii or that otherwise remains on deposit in the Protection Account on the relevant date.

(c) In preparing any payment instructions under the Trust Indenture, the Manager shall reflect the amounts payable under Section 2.01(a), if applicable.

(d) The Province shall, as a payee of Subrogation Amounts under clause 2.01(a)iv(B) and as a payee of any amounts payable under clause 2.01(a)v, be a "Specified Creditor" under the Trust Indenture and have the benefit of the Collateral thereunder.

(e) For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation and will be limited to the right to receive the Approved Obligation Amounts, if any, for payment to Beneficiary Payees and will be subject to the priorities and to the Province's rights to Subrogation Amounts, set forth in Section 2.01(a).

(f) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

(g) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid by the Province when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation by their terms.

(h) Any amount payable to the Province in respect of a Subrogation Amount shall bear interest from and including the date of payment by the Province of the related Guarantee Payment to but excluding the date of payment of the Subrogation Amount to the Province, such interest to accrue at the rate equivalent to the applicable interest rate borne by the related Approved Obligation, and such interest amounts shall be added to their respective Subrogated Amounts and shall consequently be payable in the same priority as the relevant Subrogated Amount under clause 2.01(a)iv(B), all such accruing interest amounts to be calculated and added to the Subrogation Amounts by the Manager in its discretion acting in a commercially reasonable fashion.

(i) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee (and to the Beneficiaries, to the extent they are permitted to exercise any rights, interests, or elections under and in accordance with the Trust Indenture) under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits; provided that, for greater certainty, economic loss shall not include any amount in respect of any amount due and payable to a Beneficiary Payee under the Limited Guarantee.

2.02 Intentionally Deleted.

2.03 Absence of Set-off

Subject to applicable law, the Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

2.04 Payment into Protection Account in Satisfaction

(a) On or before the date of delivery of a Payment Demand to the Province, the Indenture Trustee shall cause to be established and maintained an Eligible Deposit Account (the "**Protection Account**") in the name of the Indenture Trustee, bearing a designation clearly indicating that the funds and other property credited thereto are held for the benefit of the Indenture Trustee and the Beneficiaries. The Protection Account shall be under the control of the Indenture Trustee for the benefit of the Beneficiaries. If, at any time, the institution holding the Protection Account ceases to be an Eligible Institution, the FSM shall notify the Indenture Trustee, and the Indenture Trustee upon being notified in writing of such ineligibility (or the FSM on its behalf) shall within 30 days (or such longer period, not to exceed 45 days, so long as the Rating Agency Condition is satisfied) establish a new Protection Account that is an Eligible Deposit Account and shall transfer any funds or other property from such Protection Account to such new Protection Account. From the date each such new Protection Account is established, it shall be the "Protection Account" for purposes of this Agreement. Funds credited to the Protection Account will be invested and held in accordance with Section **[7.03]** of the Trust Indenture on the basis that it is an Issuer Account.

(b) Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Financing Entity and the Indenture Trustee shall ensure that all amounts paid by the Province into the Protection Account on a Guarantee Payment Date in respect of an Approved Obligation are applied to pay the amounts due and payable to the Beneficiary Payee as and to the extent provided for in Section 2.01(a). Upon a

payment having been made by or on behalf of the Province into the Protection Account, the amounts so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiary Payee as provided for in Section 2.01(a) and thereby reduce the amount due and payable to such Beneficiary Payee in respect of the applicable Approved Obligations, whereupon an affected Beneficiary Payee shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid. For greater certainty, the obligations arising in respect of an applicable Approved Obligation shall not be reduced by such payment as the Province shall become entitled to be paid related Subrogation Amounts and the rights contemplated under Section 2.01(a) and Section 5.01 in relation to such continuing obligations.

2.05 Certain Waivers

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety.

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

2.06 Additional Security

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

2.07 Continuing Liability of the Province

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the

account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Approved Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

2.08 Continuance of the Limited Guarantee

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations in accordance with Section 8.01.

2.09 Modifications of Approved Obligations

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements and this Agreement, to:

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine.

ARTICLE III
THE INDENTURE TRUSTEE

3.01 The Indenture Trustee

This Agreement is made in favour of the Indenture Trustee in its capacity as trustee under the Trust Indenture. Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the Indenture Trustee hereunder, but nevertheless, the Indenture Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Agreement. All provisions of the Trust Indenture for the protection of the Indenture Trustee or for facilitating the administration of the trusts or otherwise relating to the Indenture Trustee solely as to its holding of the rights thereunder shall apply *mutatis mutandis* to this Agreement and the Indenture Trustee's duties hereunder.

3.02 Acceptance of Trusts

The Indenture Trustee hereby accepts the trusts hereof and agrees to carry out and discharge the same unless and until a new trustee shall be appointed as contemplated in Section 3.01.

ARTICLE IV
APPROVED OBLIGATIONS

4.01 Approval Process

~~A~~Except as provided in Section 7.02, a Primary Obligation that is not a Certified Primary Obligation shall be an Approved Obligation. A Certified Primary Obligation shall constitute an Approved Obligation if (i) the Adherence Conditions applicable thereto have been satisfied at the time the Primary Obligation was incurred~~,~~ or (ii) the Province, in its sole discretion, designates in writing that it is an Approved Obligation ~~or (iii) the Primary Obligation is a Post-Suspension Refinancing or a Pre-Approved Refinancing~~.

4.02 Adherence Conditions

(a) The following shall be the Adherence Conditions applicable in relation to each Certified Primary Obligation:

i. the Certified Primary Obligation when incurred is an Obligation Secured under the Trust Indenture; and

ii. OPG, as FSM, delivers an Adherence Compliance Certificate in the form attached hereto as Exhibit B signed by the Chief Financial Officer and the Treasurer of OPG, or any two Executive Officers of OPG (for clarity, such certificate is to be provided by such officers in their capacity as officers of OPG acting in its capacity as FSM) and addressed to the Indenture Trustee, on or before the incurrence of the Certified Primary Obligation (provided that delivery may not be more than 5 Business Days before the incurrence of the Certified Primary Obligation); and

iii. the Province has not provided a Suspension Notice to the Indenture Trustee, OPG and the Financing Entity.

(b) Without limiting any obligations of OPG to the Province arising other than pursuant to this Agreement, satisfaction of the Adherence Conditions for a Certified Primary Obligation shall be deemed satisfaction of the Adherence Conditions in respect of all principal, interest and other amounts owing under the Certified Primary Obligation, as such Certified Primary Obligation may be amended, restated, supplemented or modified from time to time.

(c) For greater certainty, there shall be no Adherence Conditions applicable in relation to a Primary Obligation that is not a Certified Primary Obligation.

4.03 Evidence of Satisfaction

An Adherence Compliance Certificate delivered in accordance with clause 4.02(a)ii shall be determinative as to whether the applicable Adherence Condition with respect thereto has been satisfied, notwithstanding that such certificate may include inaccuracies, be incomplete or otherwise be defective or deficient, and such closing certificate may be relied upon by any addressee as conclusive evidence of same. An Adherence Compliance Certificate that purports on its face to be signed by officers specified in clause 4.02(a)ii may be relied upon by any addressee without further enquiry or evidence as to the incumbency or signatures of such officers. If an Adherence Compliance Certificate is not delivered in accordance with the timing requirements of clause 4.02(a)ii such certificate may be delivered at a later date, and be effective as if it had been delivered in accordance with the timing requirement of clause 4.02(a)ii if at the time such certificate was otherwise required to be delivered OPG had delivered to the Province all certifications required by the Province in connection with the adherence of the Limited Guarantee to the Certified Primary Obligation.

ARTICLE V
PROVINCE MATTERS

5.01 Assignment and Subrogation

(a) Upon paying an amount in respect of an Approved Obligation to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee, the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation to the extent of such payment, and shall be entitled to (i) the right and entitlement to be paid and receive the related Subrogation Amounts, (ii) the benefits of the related Collateral and (iii) all proceeds therefrom. The Province shall have and be entitled to enforce all rights and interests (including as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)), under and in respect of such Approved Obligation to the extent of the payment by the Province in respect of the Approved Obligation as an absolute assignee of the applicable Beneficiary, with effect from and after the time of such payment, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing by the Beneficiary to the Financing Entity and unaffected by any other rights or equities that arise thereafter as between the Beneficiary and the Financing Entity. The Indenture Trustee shall recognize the Province as being entitled to all of the rights, interests and entitlements of the Beneficiary (including as a

Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)) in respect and to the extent of the Approved Obligation so paid, determined as of the time of payment, for all purposes under the Trust Indenture, and the Province shall be treated as a Specified Creditor in respect thereof for all purposes under the Trust Indenture and any other agreement under which the Approved Obligation arises.

(b) The Province (i) acknowledges and agrees in favour of the Indenture Trustee that, upon being subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation in accordance with Section 5.01(a), the Province, in its capacity as a Specified Creditor, will be subject to the provisions applicable to Specified Creditors under the Trust Indenture, including Sections **[7.04]** through **[7.11]** and **[8.13]** (Payment Priorities), Section **[7.12]** (Payments Held in Trust), Section **[8.11]** (Control by Controlling Class Creditors), Section **[8.12]** (Limitation on Suits), Section **[8.14]** (Limited Recourse), Article IX (The Indenture Trustee), including all limitations of liability thereunder, Section **[9.14]** (Communications to Specified Creditors) and Section **[16.01]** (No Petition); (ii) consents, requests and authorizes the Issuer and the Indenture Trustee to (x) add the Province to the register of Specified Creditors described in subsection **[13.13(b)]** of the Trust Indenture and (y) disseminate the notice details of the Province to other Specified Creditors for the purposes set out in subsection **[9.14(b)]** of the Trust Indenture, and (iii) confirms that it will execute and deliver, or cause to be executed and delivered, all such further agreements, documents and instruments in connection with this Section 5.01 as the Indenture Trustee may request from time to time for the purpose of giving effect to the terms of this Section 5.01.

5.02 Priorities

For greater certainty, the rights, interests and entitlements of the Province as an assignee and subrogee of and with respect to an Approved Obligation and the Payable Approved Amounts thereunder shall rank equally with the rights, interests and entitlements of a Beneficiary to whom a Limited Guarantee payment is made in respect of, and to the extent of the payment made to satisfy, the Approved Obligation and the Province shall not be subject to postponement or subordination with respect thereto except to the extent of the priorities established in relation to the Approved Obligation under the Trust Indenture in the manner and to the extent contemplated in Section **[7.10]** of the Trust Indenture.

5.03 Intentionally Deleted

5.04 Representations and Warranties

The Province hereby represents and warrants that:

(a) the execution and delivery of, and the performance of its obligations under, this Agreement by the Province have been authorized by all necessary action on the part of the Province;

(b) the execution and delivery of, and the performance of its obligations under, this Agreement by the Province do not result in the violation of any applicable law; and

(c) this Agreement has been duly executed and delivered by the Province.

ARTICLE VI
INDENTURE TRUSTEE MATTERS

6.01 Limited Recourse

No recourse may be taken, directly or indirectly, with respect to the obligations of the Financing Entity under this Agreement, or any certificate or other writing delivered in connection herewith or therewith, against (a) the Financing Entity Trustee in its individual capacity, (b) any owner of a beneficial interest in the Financing Entity or (c) any partner, owner, beneficiary, agent, officer, director, employee or agent of the Financing Entity Trustee in its individual capacity, any holder of a beneficial interest in the Financing Entity or the Financing Entity Trustee or of any successor or assign of the Financing Entity Trustee in its individual capacity, except as any such Person may have expressly agreed (it being understood that the Financing Entity Trustee has no such obligations in its individual capacity).

6.02 Not Responsible for Recitals

The recitals contained herein will be taken as the statements of the Province, the Financing Entity and the FSM, and the Indenture Trustee assumes no responsibility for their correctness. The Indenture Trustee makes no representations as to the validity or sufficiency of this Agreement.

6.03 Representations and Covenants of the Indenture Trustee

The Indenture Trustee represents, warrants and covenants that:

(a) the Indenture Trustee is a trust company organized, existing and in good standing under the laws of Canada;

(b) the Indenture Trustee has full power and authority to execute, deliver and perform this Agreement and has taken all necessary action to authorize the execution, delivery and performance by it of this Agreement;

(c) this Agreement has been duly executed and delivered by the Indenture Trustee and constitutes its legal, valid and binding obligation in accordance with its terms; and

(d) the Indenture Trustee is authorized to carry on the business of a trust company in each of the provinces and territories of Canada. If, notwithstanding the provisions of this subsection 6.03(d), the Indenture Trustee ceases to be so authorized to carry on business, the validity and enforceability of this Agreement shall not be affected in any manner whatsoever by reason only of such event.

ARTICLE VII
SUSPENSION OF ADHERENCE FOR NEW PRIMARY OBLIGATIONS

7.01 Suspension Notice

Upon:

(a) a Program Breach;

(b) a default in the performance, or breach, of any covenants of OPG, as FSM, or OPG, in its corporate capacity, in each case to the Province in connection with its obligations to the Province pursuant to internal requirements and processes in connection with the provision or adherence of the Limited Guarantee to or in respect of any Certified Primary Obligation and the expiration of any applicable cure period;

(c) a representation or warranty made by OPG or a certification made by one or more officers of OPG, in each case whether as FSM or in its corporate capacity, to the Province in connection with its obligations to the Province and its internal requirements and processes in connection with the provision or adherence of the Limited Guarantee to or in respect of any Certified Primary Obligations, proves to be incorrect in any material respect on the date made and the expiration of any applicable cure period; or

(d) the FSM no longer being the Manager or actions having been taken by or on behalf of the Indenture Trustee to remove the FSM as the Manager;

the Province may declare that the Limited Guarantee under this Agreement shall not apply to any Primary Obligations incurred on or after such declaration, excluding Post-Suspension Refinancings or Pre-Approved Refinancings, by delivering a written notice in the form of Exhibit C (a "**Suspension Notice**") to the Indenture Trustee, the FSM and the Financing Entity.

7.02 Suspension

If a Suspension Notice has been provided under Section 7.01 (the provision of such notice being a "**Suspension Event**"), the Limited Guarantee shall not apply in respect of: (i) any Primary Obligation incurred, excluding Post-Suspension Refinancings ~~or Pre-Approved Refinancings~~, or (ii) any amendment of any Primary Obligation that has a Material Effect, unless otherwise agreed to by the Province, in each case, on or after the time such Suspension Notice is delivered.

7.03 Additional Right of the Province Regarding Post-Suspension Refinancings

Following the occurrence of a Suspension Event, the Limited Guarantee shall continue to apply in respect of any Post-Suspension Refinancing (for greater certainty, without regard to the satisfaction of any Adherence Conditions ~~thereto~~); provided that prior to the Financing Entity incurring any Primary Obligation constituting a Post-Suspension Refinancing, the Manager shall provide the Province with at least 30 days' notice of its intention to seek a Post-Suspension Refinancing and prior to incurrence, which notice shall describe the material covenants, events of default, representations and warranties and indemnities of the Financing Entity and other material terms, excluding financial terms, rates and levels, and that shall be in respect of the full amount of the amount becoming due and payable in respect of the applicable Primary Obligation less amounts otherwise available to the Financing Entity from other available or committed sources (the "**Proposal**"), and during such 30 day period the Province may, but is not obligated to, offer to fund such Post-Suspension Refinancing or arrange for another Person to fund such Post-Suspension Refinancing on the same terms as set out in the Proposal or on such other terms as may be considered by the Province to be not more onerous on the Financing Entity and that are acceptable on that basis to the Financing Entity, acting reasonably. If, within such 30-day period, the Province elects to offer to fund such Post-Suspension Refinancing as provided in the preceding sentence, the Manager shall accept such offer; however, if the Province does not elect to offer to fund such Post-Suspension Refinancing, the Manager shall cause the Financing Entity to incur Primary Obligations constituting such a Post-Suspension Refinancing on substantially the same terms as than those set out in the Proposal if the Post-Suspension Refinancing can be completed by the Financing Entity in compliance with the Act, or on such other terms as ~~may be considered by the Financing Entity to be not more onerous on the Province and that are acceptable on that basis to the Province, acting reasonably~~would not have a Material Effect.

7.04 No Impact on Adherence

For greater certainty, the occurrence of a Suspension Event or a failure by the FSM or the Financing Entity to perform its covenants under this Agreement will not invalidate or extinguish the obligations of the Province under the Limited Guarantee in respect of Approved Obligations in existence prior to the occurrence of the Suspension Event or in respect of any Post-Suspension Refinancing.

ARTICLE VIII

8.01 Term of Agreement

This Agreement will continue until the later of: (a) the date that no amount is or may become due and payable by the Province under the Limited Guarantee and (b) the date that no amount is or may become due and payable to the Province in respect of any Subrogation Amount.

Subject: RE: Fair Hydro - Change of Law Protection Agreement

A bit rushed, but here are my comments on the revised Change of Law Protection Agreement:

- In section 4.02(c), add “a Post-Suspension Obligation or a Pre-Approved Refinancing” after “a Certified Primary Obligation”.

- In section 7.03, should this apply to both Post-Suspension Refinancings and Pre-Approved Refinancings”? Also, need to change the clause “the Manager shall accept such Proposal” as it was the Manage that submitted the Proposal to the Province. It should read “the Manager shall accept the Province’s proposal to provide such Post-Suspension Refinancing”. And change the final “;” to a comma before “provided that such Post-Suspension…”

- In section 7.04, add “or Pre-Approved Refinancing” to the end of the sentence.

- In the definition of “Post-Suspension Refinancing”, why is the term “one or more Series of Approved Obligations” being used? Why not simply “one or more Approved Obligations”?

- In the definition of “Pre-Approved Refinancing”, revise to read “… waived its right to object under the Change of Law Process Agreement or otherwise to such Refinancing being an Approved Obligation.”

- In the definition of “Protection Event”, in paragraph (a), change “an event described in

a(i) to a(v)" to "an event described in any of clauses (i) to (v) of this paragraph (a)". Also, it is not correct to say "after collecting the True-up Amount" because this would suggest having collected the True-up Amount". It should say, "and (ii) in respect of the True-up Amount for the Reference Period immediately following the occurrence of an event described in any of clauses (i) to (v) of this paragraph (a)".

- In the new definitions added which refer to "in the Act", change to "in the Act as of the date hereof" (e.g., "True-up Amount").

All,

Attached for your review is a revised draft of the Change of Law Protection Agreement, clean and blacklined to the last version circulated by Blakes and reflecting the meetings held earlier today. As discussed, we need to provide the attached to the rating agencies **by no later than noon tomorrow** in order to meet our end of year financing deadline. Accordingly, we will be circulating a calendar invite to this group for 10 a.m. tomorrow morning to confirm the parties are signed off. If Osler or Blakes have any comments on the attached, we would ask that they be circulated to this group prior to the 10 a.m. call.

Kind regards,

Subject: RE: Fair Hydro - Change of Law Protection Agreement

Hi,

Attached is a revised version of the Change of Law Protection Agreement. I believe that most of the changes reflected from last night's Osler version (blackline is attached) are of a drafting or conforming nature, other than: (1) the Province disagrees that Approved Refinancing terms should be unfettered by adherence conditions post-Suspension Event and (2) the proposed rating-based "materially and adversely" qualification in the definition of Protection Event (and in fact any such qualification) is not acceptable to the Province. With regard to (1), this version comes into line with the proposed approach (i.e., using a modified adherence condition) that was incorporated into the version of the Change of Law Process Agreement I circulated yesterday. A further turn of that Agreement, to conform the open item identified in section 3.02 to the revised Change of Law Protection Agreement, is also included here for your reference.

Please note that the Province is working through the drafting concurrently and so further drafting comments may be provided.

As mentioned yesterday, the Province would like to proceed with the Ministers sign-off briefing early next week, on the basis that these versions (minus the explanatory notes) are now in substantially final form. Please identify if you believe there are other 'must have' points (other than the 2 mentioned above).

Subject: RE: Fair Hydro -- Change of Law Process Agreement

Hi,

Please find (attached) a further turn of the Change of Law Process Agreement, reflecting the Province's comments on the mark-up of the Agreement circulated yesterday afternoon by Torys. The attached blackline shows changes made to yesterday's Torys mark-up.

This version addresses concerns Rocco raised last night, to the extent the Province feels that the issues can be accommodated. For your information, I have set out below responses to Rocco's comments/observations (in CAPs).

The Province would like to proceed with the Ministers briefing early next week, on the basis that this version (minus the explanatory notes) is now in final form. If there are any critical revisions that the other parties believe reflect 'must have' priority, then the Province would like to have a call to discuss them as soon as possible.

Responses to Rocco's Points:

1. The change of the definition of Breach Event in Section 6.01 (i.e., the change

to clause (a) and the addition of clause (b)) will result in an inconsistency with section 7.01(b) of the Change of Law Protection Agreement. This will require further consideration. [AGREED. 7.01(b) and 7.01(c) will need to mirror the cure language we settle on in the Process Agreement (see my earlier comments). Perhaps the "which continues …" language in 7.01(B) can be revised to read: "to the extent that the Province would be entitled to provide a Suspension Notice in accordance with the terms of the agreement or agreements between the Province and OPG under which such obligations, requirements and processes arise". SIMILAR CHANGE FOR 7.01(C).

2. The right of the Province to issue an objection notice under Section 3.04(b) in connection with a Transaction Document provided to the Province which is required for a Refinancing of an Approved Obligation remains an outstanding issue. Clearly, this will depend upon what Adherence Conditions will be required under Section 4.02 of the Change of Law Protection Agreement in order to permit such Refinancing to become an Approved Obligation. If the Adherence Conditions set out in Section 4.02(a) of the Province's draft of the Change of Law Protection Agreement of December 4 were to apply to such Refinancing, to the extent that such refinancing required a change to a Transaction Document (e.g., as a result of a change to some rating agency condition or criteria), the Province's ability to issue an objection notice and thereby prevent the issuance of a Process Certificate under Section 3.01 (by virtue of Section 3.04) would have the effect of preventing a Refinancing. We trust that this was an unintended outcome of the drafting of Section 3.04 and/or the Adherence Conditions applicable to Refinancings. [THAT IS THE INTENDED EFFECT. THE ADHERENCE CONDITIONS WOULD APPLY TO THE REFINANCING, SO IF THE REFINANCING TERMS DEVIATED MATERIALLY (BASED ON THE SUBSTANTIALLY IN THE FORM" THRESHOLD"), THEN OPG WOULD REQUIRE THE PROVINCE NOT TO OBJECT IN ORDER TO PROCEED WITH THOSE NEW TERMS. OTHERWISE, THE REFINANCING COULD INCORPORATE TERMS AND CONDITIONS, WHICH WOULD BIND THE PROVINCE UNDER THE LIMITED GUARANTEE, THAT WOULD BE UNCONSTRAINED AND WITHOUT ANY ACCOUNTABILITY TO THE PROVINCE. IN ROCCO'S EXAMPLE, THAT MIGHT MEAN THAT OPG WOULD NEED TO RESORT TO UNRATED DEBT, IF THE PROVINCE WAS UNWILLING TO ACCEPT THE NEW TERMS. PRESUMABLY EVERYONE WOULD ACT RATIONALLY. HOWEVER, AS A FAILSAFE, OPG COULD OFFER INCREASED PRICING IN ORDER TO ATTRACT INVESTORS TO ACCEPT THE EARLIER VETTED TERMS (BASED ON THE THEN ACCEPTED REVIEWED DOCUMENTATION).]

3. Given that the Indenture Trustee is not a party to the Change of Law Process Agreement, the Province and OPG can amend the terms and conditions of this agreement without the consent of the indenture Trustee. Specified Creditors under an Approved Obligation need to be assured that the Province cannot prevent a Refinancing of an Approved Obligation either by virtue of the objection notice discussed in point #2

above or as a result of a future amendment to the agreement. There are a couple of ways to deal with this point. The first is to a add a beneficiary/third party rights clause in the Change of Law Process Agreement which acknowledges that the Indenture Trustee is a beneficiary of certain provisions of this agreement and as a result, the agreement cannot be amended without the consent of the Indenture Trustee. The second is to ensure that the Adherence Conditions relating to Refinancings under the Change of Law Protection Agreement are not dependent upon the terms of the Change of Law Process Agreement. In light of the desire to not disclose the terms and conditions of the Change of Law Process Agreement to the rating agencies, especially at this late stage in the process, we would expect that the latter approach would be preferable. [THE SUGGESTION REGARDING THE PROVINCE PREVENTING A REFINANCING IS ADDRESSED IN #2. IF THE REFINANCING TERMS WOULD EXCEED THE SCOPE OF THE TRANSACTION DOCUMENTS REVIEWED AND NOT OBJECTED TO BY THE PROVINCE, THEN THAT SUGGESTS THERE IS A MATERIAL EFFECT ON THE PROVINCE AND SO THE PROVINCE WOULD NEED THE ABILITY TO REVIEW AND CONSIDER THE PROPRIETY OF THOSE NEW TERMS FROM ITS PERSPECTIVE. AS FOR THE STANDALONE NATURE OF THE PROCESS AGREEMENT, THE INTENTION IS THAT THE PROCESS AGREEMENT BE UNCOUPLED AND NOT PART OF THE COLLATERAL, AND AS MICHAEL FELDMAN HAS EXPLAINED, LEAVE FUTURE FLEXIBILITY FOR THIS LONG-TERM STRUCTURE. TO ADDRESS ROCCO'S CONCERN THAT THE PROVINCE AND OPG COULD CHANGE THE UNDERLYING OBLIGATIONS APPLICABLE TO ADHERENCE IN RELATION TO A NEW OBLIGATION, REQUIREMENT OR PROCESS IN THE PROCESS AGREEMENT THAT WOULD MAKE A REFINANCING LESS LIKELY TO OCCUR, WE HAVE ADDED AND USED IN THE ATTACHED VERSION A NEW DEFFINTION:

"Approved Refinancing" means a Certified Primary Obligation proposed to be incurred as a Refinancing of an existing Certified Primary Obligation in respect of which the Adherence Conditions had been satisfied on the date such existing Certified Primary Obligation was incurred, that, at the time of incurrence, satisfies each of each of the Adherence Conditions except that the certificate contemplated to be delivered under Section 4.02(b) shall instead confirm that OPG has delivered to the Province a certificate by its applicable officers confirming that OPG would be in compliance with all obligations to the Province and internal requirements and processes in connection with the adherence of the Limited Guarantee to the proposed Certified Primary Obligation that applied as between the Province and OPG on the date of issuance of such existing Certified Primary Obligation." Various references to "Refinancing" in the Protection Agreement can also be revised to refer to "Approved Refinancing", as required.

Subject: RE: Fair Hydro -- Change of Law Process Agreement

I have reviewed the revised draft of the Change of Law Process Agreement that Torys has prepared and would like to pass along the following comments/observations:

1. The change of the definition of Breach Event in Section 6.01 (i.e., the change to clause (a) and the addition of clause (b)) will result in an inconsistency with section 7.01(b) of the Change of Law Protection Agreement. This will require further consideration.

2. The right of the Province to issue an objection notice under Section 3.04(b) in connection with a Transaction Document provided to the Province which is required for a Refinancing of an Approved Obligation remains an outstanding issue. Clearly, this will depend upon what Adherence Conditions will be required under Section 4.02 of the Change of Law Protection Agreement in order to permit such Refinancing to become an Approved Obligation. If the Adherence Conditions set out in Section 4.02(a) of the Province's draft of the Change of Law Protection Agreement of December 4 were to apply to such Refinancing, to the extent that such refinancing required a change to a Transaction Document (e.g., as a result of a change to some rating agency condition or criteria), the Province's ability to issue an objection notice and thereby prevent the issuance of a Process Certificate under Section 3.01 (by virtue of Section 3.04) would have the effect of preventing a Refinancing. We trust that this was an unintended outcome of the drafting of Section 3.04 and/or the Adherence Conditions applicable to Refinancings.

3. Given that the Indenture Trustee is not a party to the Change of Law Process Agreement, the Province and OPG can amend the terms and conditions of this agreement without the consent of the indenture Trustee. Specified Creditors under an Approved Obligation need to be assured that the Province cannot prevent a Refinancing of an Approved Obligation either by virtue of the objection notice discussed in point #2 above or as a result of a future amendment to the agreement. There are a couple of

ways to deal with this point. The first is to a add a beneficiary/third party rights clause in the Change of Law Process Agreement which acknowledges that the Indenture Trustee is a beneficiary of certain provisions of this agreement and as a result, the agreement cannot be amended without the consent of the Indenture Trustee. The second is to ensure that the Adherence Conditions relating to Refinancings under the Change of Law Protection Agreement are not dependent upon the terms of the Change of Law Process Agreement. In light of the desire to not disclose the terms and conditions of the Change of Law Process Agreement to the rating agencies, especially at this late stage in the process, we would expect that the latter approach would be preferable.

Subject: Fair Hydro -- Change of Law Process Agreement

Blakes team,

Please find attached OPG and Torys' comments on the Process Agreement reflecting our discussions from yesterday's call. Please note that this draft is subject to continuing review and comment by Osler and the dealers. As discussed at the tail end of our call yesterday, the section in the Process Agreement that gives the Province the right to object to new and material changes to transaction documents dovetails with the Protection Agreement so additional comments from Oslers may be forthcoming on this draft.

We are working on getting you a revised draft of the Protection Agreement either later today or tomorrow. In the meantime, please let us know if you have any comments or questions on the Process Agreement.

Best Regards,

Nina

AND

COMPUTERSHARE TRUST COMPANY OF CANADA, AS TRUSTEE OF FAIR HYDRO TRUST

AND

ONTARIO POWER GENERATION INC., AS FINANCIAL SERVICES MANAGER AND AS MANAGER OF FAIR HYDRO TRUST

AND

BNY TRUST COMPANY OF CANADA, AS INDENTURE TRUSTEE

CHANGE OF LAW PROTECTION AGREEMENT

Dated as of [■], 2017

This **AGREEMENT**, among Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), Computershare Trust Company of Canada, in its capacity as trustee (the "**Financing Entity Trustee**") of Fair Hydro Trust, a trust organized under the laws of the Province of Ontario (the "**Financing Entity**"), Ontario Power Generation Inc., in its capacity as Manager of the Financing Entity and in its capacity as the Financial Services Manager in accordance with the Act (the "**FSM**") and BNY Trust Company of Canada, a trust company existing under the laws of Canada, as Indenture Trustee, is made and entered into as of [■], 2017.

RECITALS

Pursuant to Subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**"), the Lieutenant Governor in Council may by order, authorize the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to agree to guarantee or indemnify certain debts, obligations, securities or undertakings associated with an Investment Interest.

Pursuant to an Order in Council 1981/2017 (the "**OIC**"), the Lieutenant Governor in Council has, among other things, authorized the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to enter into one or more agreements to guarantee or indemnify the debts, obligations, securities or undertakings of one or more financing entities established or caused to be established pursuant to Subsection 22(2) of the Act by the FSM and that may incur Funding Obligations in connection with one or more Investment Interests.

Pursuant to a Declaration of Trust dated as of ■, 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

The Financing Entity Trustee, in its capacity as trustee of the Financing Entity, and the Indenture Trustee are parties to the Trust Indenture and propose to create and issue series of notes, bonds and other securities as contemplated therein, and to provide security over the assets and undertaking of the Financing Entity in respect of such notes, bonds and securities, as well as other Obligations Secured.

The Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, have determined to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Primary Obligations that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred. This Agreement sets out the terms and conditions of such protections and assurances.

All things necessary to make this Agreement a valid and legally binding agreement of the Province, the Financing Entity, the FSM and the Indenture Trustee, in accordance with the Act, the OIC and the Trust Indenture, have been done.

AGREEMENT OF THE PARTIES

The Manager shall act diligently in the preparation of each such statement and shall provide the Indenture Trustee and the Province with all supporting computations and calculations used by the Manager to prepare each such statement promptly following a request therefor made by the Indenture Trustee or the Province.

1.05 Province Retains Rights of Beneficiaries

Without limiting any rights of subrogation or succession that arise pursuant to applicable law or pursuant to the Province's rights as an assignee, subrogee or pursuant to Section 2.01 or Section 5.01, all of the rights, interests, elections and privileges that would arise in favour of a Beneficiary under the Trust Indenture or other Funding Obligation Agreement under which a related Primary Obligation arises shall automatically arise, vest in and be available to the Province to the extent of the performance by the Province of the Primary Obligation.

1.08 Severability

Each of the provisions contained in this Agreement is distinct and severable and a declaration of invalidity or unenforceability of any such provision or part thereof by a court of competent jurisdiction will not affect the validity or enforceability of any other provision hereof. To the extent permitted by applicable law, the parties waive any provision of law which renders any provision of this Agreement invalid or unenforceable in any respect.

1.09 Governing Law

THIS AGREEMENT WILL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE PROVINCE OF ONTARIO AND THE FEDERAL LAWS OF CANADA APPLICABLE THEREIN, AND THE OBLIGATIONS, RIGHTS AND REMEDIES OF THE PARTIES HEREUNDER SHALL BE DETERMINED IN ACCORDANCE WITH SUCH LAWS.

1.10 Proceedings Against the Crown Act

1.15 Waiver, Amendment

Except as expressly provided in this Agreement, no amendment or waiver of this Agreement will be binding unless executed in writing by the party to be bound thereby. No waiver of any provision of this Agreement will constitute a waiver of any other provision nor will any waiver of any provision of this Agreement constitute a continuing waiver unless otherwise expressly provided. A party's failure or delay in exercising any right under this Agreement will not operate as a waiver of that right. A single or partial exercise of any right will not preclude a party from any other or further exercise of that right or the exercise of any other right.

1.16 Interest Act

For the purpose of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest to which any rate of interest payable under this Agreement that is calculated on any basis other than a full calendar year is equivalent may be determined by multiplying such rate by a fraction, the numerator of which is the actual number of days in the calendar year in which such yearly rate of interest is to be ascertained and the denominator of which is the number of days comprising such other basis. The parties further agree that for the purposes of the *Interest Act* (Canada), (i) the principle of deemed reinvestment of interest shall not apply to any interest calculation under this Agreement, and (ii) the rates of interest stipulated in this Agreement are intended to be nominal rates and not effective rates or yields.

1.17 Currency

Unless stated otherwise, all amounts herein are stated in Canadian Dollars.

1.18 References to Acts of the Financing Entity

For greater certainty, where any reference is made in this Agreement, or in any other instrument executed pursuant hereto or contemplated hereby to which the Financing Entity or the

Financing Entity Trustee, as trustee of the Financing Entity, is party, to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against, or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to (i) the Financing Entity or (ii) the Financing Entity Trustee, such reference shall be construed and applied for all purposes as if it referred to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to, the Financing Entity Trustee as trustee of the Financing Entity.

1.19 Judgment Currency

(a) If for the purpose of obtaining judgment in any court or for any other purposes (other than conversions specifically provided for in the agreement under which an Approved Obligation arises), it is necessary to convert any amount due under this Agreement from the currency in which it is due (the "**Original Currency**") into another currency (the "**Second Currency**"), the rate of exchange applied shall be that at which, in accordance with normal banking procedures, the purchaser could purchase, in the New York foreign exchange market, the Original Currency with the Second Currency on the date on which judgment is given. The obligation of the Province in respect of any Original Currency due from it to the Indenture Trustee under this Agreement shall, notwithstanding any judgment or payment in such other currency, be discharged only to the extent that, on the Business Day following receipt of any sum so paid or adjudged to be due under this Agreement in the Second Currency, the Indenture Trustee may, in accordance with normal banking procedures, purchase in the New York foreign exchange market the Original Currency with the amount of the Second Currency so paid or so adjudged to be due; and if the amount of the Original Currency so purchased is less than the amount originally due in the Original Currency, the Province shall indemnify the Indenture Trustee against such loss.

(b) The term "rate of exchange" in this Section 1.19 means the spot rate at which the Indenture Trustee, in accordance with normal practice, is able on the relevant date to purchase the Original Currency with the Second Currency and includes any premium and costs of exchange payable in connection with such purchase.

ARTICLE II
AGREEMENT TO PERFORM APPROVED OBLIGATIONS

2.01 Limited Guarantee

(a) Upon the occurrence of a Protection Event, the Indenture Trustee may deliver a written demand, substantially in the form attached as **[Exhibit A]** (a "**Payment Demand**"), to the Province requiring the Province to make payments in respect of the Approved Obligations at the times, in the amounts and subject to the requirements specified in this Agreement. From and after such delivery of a

Payment Demand, the Province shall make the following payments in respect of the Approved Obligations (the "**Limited Guarantee**"), the Financing Entity shall pay, and the Province shall be entitled to be paid, the Subrogation Amounts specified below, and the following terms shall apply:

i. Not less than three (3) Business Days prior to each day when any payment or payments are to be made in respect of one or more Approved Obligations occurring after such delivery of a Payment Demand (each such day, a "**Guarantee Payment Date**"), the Manager shall deliver a written statement setting forth the Aggregate Approved Obligations Amount, if any, in respect of the Approved Obligations that are due and payable on such Guarantee Payment Date, together with a detailed description identifying such Approved Obligations and the nature and amount of payments due and payable thereunder on the Guarantee Payment Date, the aggregate outstanding amount payable by the Financing Entity under such Approved Obligations as of the date of such written statement, and details regarding any default in performance by any party obligated thereunder.

ii. On each such Guarantee Payment Date, the Province shall deposit the Aggregate Approved Obligations Amount into the Protection Account.

iii. On each such Guarantee Payment Date, the Financing Entity and the Indenture Trustee shall ensure that the amounts on deposit in the Protection Account are applied to pay each Beneficiary to whom an amount is due and payable under an Approved Obligation on the Guarantee Payment Date the Approved Obligation Amount for such Beneficiary in respect of such Approved Obligation on such Guarantee Payment Date; provided that if the amount deposited pursuant to clause 2.01(a)ii is insufficient to pay all such Approved Obligation Amounts in full, the amount on deposit in the Protection Account on the Guarantee Payment Date shall be applied to pay Beneficiaries in the order of priority in which such Approved Obligations are payable under the payment provisions of the Trust Indenture applicable to the making of such payments on the Guarantee Payment Date (each, a "**Beneficiary Payee**" and each payment made to a Beneficiary Payee on a Guarantee Payment Date, a "**Guarantee Payment**").

iv. On the first Guarantee Payment Date and on each subsequent Guarantee Payment Date, Payment Date or other day on which any amount is required to be paid in respect of any Obligations Secured under the Trust Indenture (a "**Subrogation Payment Date**"), the Issuer and the Indenture

Trustee shall ensure that the applicable payment provisions of the Trust Indenture shall be applied and operate on the following basis[1]:

(A) If such day is a Guarantee Payment Date, then for each Approved Obligation for which amounts are paid to a Beneficiary Payee on such day pursuant to clause 2.01(a)iii in respect of principal, interest or any other amounts ("**Payable Approved Amounts**"), the amounts payable by the Financing Entity in respect of such amounts for such Approved Obligation shall be reduced by the respective amounts of such payments to the Beneficiary Payee, and equivalent amounts shall be payable by the Financing Entity to the Province as "**Subrogation Amounts**" in respect of such Approved Obligations, such Subrogation Amounts being payable in the same order of priority and with the same entitlements accruing to the Province as applied in respect of the related Payable Approved Amounts which were previously owing to the Beneficiary Payee, and to reflect this subrogation the payments set out in clause 2.01(a)iv(B) below shall be made by the Financing Entity.

(B) If the Province has made all deposits required to be made by it on each Guarantee Payment Date occurring on or before such day in accordance with clause 2.01(a)ii (or the related Approved Obligation Amounts have otherwise all been paid in full), then in respect of each Approved Obligation for which any related Subrogation Amounts have not yet been paid in full to the Province, the Financing Entity shall pay to the Province from amounts available under the Trust Indenture payment provisions and in accordance with the priority of payment provisions in the Trust Indenture the amount that would be payable on such date in satisfaction of the relevant Payable Approved Amounts, as determined without regard to any Guarantee Payment paid on any Guarantee Payment Date and also without regard to the corresponding reduction of the amounts owing to present and former Beneficiary Payees pursuant to subclause 2.01(a)iv(A) up to the amount of the unpaid related Subrogation Amounts.

(C) No Beneficiary having a right to be paid an amount in respect of an Approved Obligation, and no other Person entitled under an Obligation Secured, in each case that

[1] Explanatory Note: The deletion of the paramountcy provision is acceptable as long as section 2.01 if fully reflected in the Trust Indenture. To be confirmed.

ranks equal with or subordinate to the Payable Approved Amount in respect of which a Subrogation Amount is payable to the Province under subclause 2.01(a)iv(B), shall be entitled to make any claim or assert any right in or to the amounts paid or payable to the Province under such subclause (including any right of set-off, offset, reimbursement, contribution or indemnity) and no such Beneficiary or other Person shall have any right or interest in, to or under the Collateral or any proceeds therefrom in respect of any such Subrogation Amount.

(D) For greater certainty, the entitlements of the Province in respect of Subrogation Amounts arising in respect of Payable Approved Obligations that are interest and principal obligations on Notes shall be treated for all purposes of the Trust Indenture as interest and principal obligations, respectively, arising under Notes having the same priority as and any applicable voting rights[2] under the related Approved Obligations, and accordingly the Province (and any successor, assignee or transferee of such entitlements) shall be entitled to all of the rights, entitlements, interests and privileges of a Holder of such a Notes in accordance with the Trust Indenture, as supplemented by the Supplemental Indenture or other indenture document under which the related Approved Obligations were issued.

(b) On each Guarantee Payment Date and upon demand by the Province, the Indenture Trustee shall release and pay to the Province free and clear of any Liens any amount remaining on deposit in the Protection Account that has not been applied to pay Guarantee Payments to Beneficiary Payees on the Guarantee Payment Date in accordance with clause 2.01(a)iii or that otherwise remains on deposit in the Protection Account on the relevant date.

(c) In preparing any payment instructions under the Trust Indenture, the Manager shall reflect the amounts payable under Section 2.01(a), if applicable.

(d) The Province shall, as a payee of Subrogation Amounts under clause 2.01(a)iv(B) and as a payee of any amounts payable under clause 2.01(a)v, be a "Specified Creditor" under the Trust Indenture and have the benefit of the Collateral thereunder.

[2] Explanatory Note: As discussed, the Province understands that voting rights may be muted by the "outstanding" language in the Trust Indenture. Nevertheless, if voting rights would arise under the Trust Indenture they should be available to the Province.

(e) For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation and will be limited to the right to receive the Approved Obligation Amounts, if any, for payment to Beneficiary Payees and will be subject to the priorities and to the Province's rights to Subrogation Amounts, set forth in Section 2.01(a).

(f) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

(g) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid by the Province when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation by their terms.

(h) Any amount payable to the Province in respect of a Subrogation Amount shall bear interest from and including the date of payment by the Province of the related Guarantee Payment to but excluding the date of payment of the Subrogation Amount to the Province, such interest to accrue at the rate equivalent to the applicable interest rate borne by the related Approved Obligation, and such interest amounts shall be added to their respective Subrogated Amounts and shall consequently be payable in the same priority as the relevant Subrogated Amount under clause 2.01(a)iv(B), all such accruing interest amounts to be calculated and added to the Subrogation Amounts by the Manager in its discretion acting in a commercially reasonable fashion.

(i) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee (and to the Beneficiaries, to the extent they are permitted to exercise any rights, interests, or elections under and in accordance with the Trust Indenture) under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits; provided that, for greater certainty, economic loss shall not include any amount in respect of any amount due and payable to a Beneficiary Payee under the Limited Guarantee.

2.02 Intentionally Deleted.

2.03 Absence of Set-off

Subject to applicable law, the Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

2.04 Payment into Protection Account in Satisfaction

(a) On or before the date of delivery of a Payment Demand to the Province, the Indenture Trustee shall cause to be established and maintained an Eligible Deposit Account (the "**Protection Account**") in the name of the Indenture Trustee, bearing a designation clearly indicating that the funds and other property credited thereto are held for the benefit of the Indenture Trustee and the Beneficiaries. The Protection Account shall be under the control of the Indenture Trustee for the benefit of the Beneficiaries. If, at any time, the institution holding the Protection Account ceases to be an Eligible Institution, the FSM shall notify the Indenture Trustee, and the Indenture Trustee upon being notified in writing of such ineligibility (or the FSM on its behalf) shall within 30 days (or such longer period, not to exceed 45 days, so long as the Rating Agency Condition is satisfied) establish a new Protection Account that is an Eligible Deposit Account and shall transfer any funds or other property from such Protection Account to such new Protection Account. From the date each such new Protection Account is established, it shall be the "Protection Account" for purposes of this Agreement. Funds credited to the Protection Account will be invested and held in accordance with Section **[7.03]** of the Trust Indenture on the basis that it is an Issuer Account.

(b) Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Financing Entity and the Indenture Trustee shall ensure that all amounts paid by the Province into the Protection Account on a Guarantee Payment Date in respect of an Approved Obligation are applied to pay the amounts due and payable to the Beneficiary Payee as and to the extent provided for in Section 2.01(a). Upon a payment having been made by or on behalf of the Province into the Protection Account, the amounts so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiary Payee as provided for in Section 2.01(a) and thereby reduce the amount due and payable to such Beneficiary Payee in respect of the applicable Approved Obligations, whereupon an affected Beneficiary Payee shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid. For greater certainty, the obligations arising in respect of an applicable Approved Obligation shall not be reduced by such payment as the Province shall become entitled to be paid related Subrogation Amounts and the rights contemplated under Section 2.01(a) and Section 5.01 in relation to such continuing obligations.

2.05 Certain Waivers

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety.

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

2.06 Additional Security

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

2.07 Continuing Liability of the Province

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Approved Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

2.08 Continuance of the Limited Guarantee

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations in accordance with Section 8.01.

2.09 Modifications of Approved Obligations

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements and this Agreement, to:

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine.

ARTICLE III
THE INDENTURE TRUSTEE

3.01 The Indenture Trustee

This Agreement is made in favour of the Indenture Trustee in its capacity as trustee under the Trust Indenture. Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the Indenture Trustee hereunder, but nevertheless, the Indenture Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Agreement. All provisions of the Trust Indenture for the protection of the Indenture Trustee or for facilitating the administration of the trusts or otherwise relating to the Indenture Trustee solely as to its holding of the rights thereunder shall apply *mutatis mutandis* to this Agreement and the Indenture Trustee's duties hereunder.

3.02 Acceptance of Trusts

The Indenture Trustee hereby accepts the trusts hereof and agrees to carry out and discharge the same unless and until a new trustee shall be appointed as contemplated in Section 3.01.

ARTICLE IV
APPROVED OBLIGATIONS

4.01 Approval Process

A Primary Obligation shall constitute an Approved Obligation if (i) the Adherence Conditions applicable thereto have been satisfied at the time the Primary Obligation was incurred, (ii) the Province, in its sole discretion, designates in writing that it is an Approved Obligation or (iii) the Primary Obligation is a Post-Suspension Refinancing or a Pre-Approved Refinancing.

4.02 Adherence Conditions

(a) The following shall be the Adherence Conditions applicable in relation to each Certified Primary Obligation:

i. the Certified Primary Obligation when incurred is an Obligation Secured under the Trust Indenture; and

ii. OPG, as FSM, delivers an Adherence Compliance Certificate in the form attached hereto as Exhibit B signed by the Chief Financial Officer and the Treasurer of OPG, or any two Executive Officers of OPG (for clarity, such certificate is to be provided by such officers in their capacity as officers of OPG acting in its capacity as FSM) and addressed to the Indenture Trustee, on or before the incurrence of the Certified Primary Obligation (provided that delivery may not be more than 5 Business Days before the incurrence of the Certified Primary Obligation); and

iii. the Province has not provided a Suspension Notice to the Indenture Trustee, OPG and the Financing Entity.

(b) Without limiting any obligations of OPG to the Province arising other than pursuant to this Agreement, satisfaction of the Adherence Conditions for a Certified Primary Obligation shall be deemed satisfaction of the Adherence Conditions in respect of all principal, interest and other amounts owing under the Certified Primary Obligation, as such Certified Primary Obligation may be amended, restated, supplemented or modified from time to time.

(c) For greater certainty, there shall be no Adherence Conditions applicable in relation to a Primary Obligation that is not a Certified Primary Obligation.

4.03 Evidence of Satisfaction

An Adherence Compliance Certificate delivered in accordance with clause 4.02(a)ii shall be determinative as to whether the applicable Adherence Condition with respect thereto has been satisfied, notwithstanding that such certificate may include inaccuracies, be incomplete or otherwise be defective or deficient, and such closing certificate may be relied upon by any addressee as conclusive evidence of same. An Adherence Compliance Certificate that purports on its face to be signed by officers specified in clause 4.02(a)ii may be relied upon by any addressee without further enquiry or evidence as to the incumbency or signatures of such officers. If an Adherence Compliance Certificate is not delivered in accordance with the timing requirements of clause 4.02(a)ii such certificate may be delivered at a later date, and be effective as if it had been delivered in accordance with the timing requirement of clause 4.02(a)ii if at the time such certificate was otherwise required to be delivered OPG had delivered to the Province all certifications required by the Province in connection with the adherence of the Limited Guarantee to the Certified Primary Obligation.

ARTICLE V
PROVINCE MATTERS

5.01 Assignment and Subrogation

(a) Upon paying an amount in respect of an Approved Obligation to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee, the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the applicable Beneficiary's

rights and interests under and in respect of the Approved Obligation to the extent of such payment, and shall be entitled to (i) the right and entitlement to be paid and receive the related Subrogation Amounts, (ii) the benefits of the related Collateral and (iii) all proceeds therefrom. The Province shall have and be entitled to enforce all rights and interests (including as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)), under and in respect of such Approved Obligation to the extent of the payment by the Province in respect of the Approved Obligation as an absolute assignee of the applicable Beneficiary, with effect from and after the time of such payment, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing by the Beneficiary to the Financing Entity and unaffected by any other rights or equities that arise thereafter as between the Beneficiary and the Financing Entity. The Indenture Trustee shall recognize the Province as being entitled to all of the rights, interests and entitlements of the Beneficiary (including as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)) in respect and to the extent of the Approved Obligation so paid, determined as of the time of payment, for all purposes under the Trust Indenture, and the Province shall be treated as a Specified Creditor in respect thereof for all purposes under the Trust Indenture and any other agreement under which the Approved Obligation arises.

(b) The Province (i) acknowledges and agrees in favour of the Indenture Trustee that, upon being subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation in accordance with Section 5.01(a), the Province, in its capacity as a Specified Creditor, will be subject to the provisions applicable to Specified Creditors under the Trust Indenture, including Sections **[7.04]** through **[7.11]** and **[8.13]** (Payment Priorities), Section **[7.12]** (Payments Held in Trust), Section **[8.11]** (Control by Controlling Class Creditors), Section **[8.12]** (Limitation on Suits), Section **[8.14]** (Limited Recourse), Article IX (The Indenture Trustee), including all limitations of liability thereunder, Section **[9.14]** (Communications to Specified Creditors) and Section **[16.01]** (No Petition); (ii) consents, requests and authorizes the Issuer and the Indenture Trustee to (x) add the Province to the register of Specified Creditors described in subsection **[13.13(b)]** of the Trust Indenture and (y) disseminate the notice details of the Province to other Specified Creditors for the purposes set out in subsection **[9.14(b)]** of the Trust Indenture, and (iii) confirms that it will execute and deliver, or cause to be executed and delivered, all such further agreements, documents and instruments in connection with this Section 5.01 as the Indenture Trustee may request from time to time for the purpose of giving effect to the terms of this Section 5.01.

5.02 <u>Priorities</u>

For greater certainty, the rights, interests and entitlements of the Province as an assignee and subrogee of and with respect to an Approved Obligation and the Payable Approved Amounts

thereunder shall rank equally with the rights, interests and entitlements of a Beneficiary to whom a Limited Guarantee payment is made in respect of, and to the extent of the payment made to satisfy, the Approved Obligation and the Province shall not be subject to postponement or subordination with respect thereto except to the extent of the priorities established in relation to the Approved Obligation under the Trust Indenture in the manner and to the extent contemplated in Section **[7.10]** of the Trust Indenture.

5.03 Intentionally Deleted

5.04 Representations and Warranties

The Province hereby represents and warrants that:

(a) the execution and delivery of, and the performance of its obligations under, this Agreement by the Province have been authorized by all necessary action on the part of the Province;

(b) the execution and delivery of, and the performance of its obligations under, this Agreement by the Province do not result in the violation of any applicable law; and

(c) this Agreement has been duly executed and delivered by the Province.

ARTICLE VI
INDENTURE TRUSTEE MATTERS

6.01 Limited Recourse

No recourse may be taken, directly or indirectly, with respect to the obligations of the Financing Entity under this Agreement, or any certificate or other writing delivered in connection herewith or therewith, against (a) the Financing Entity Trustee in its individual capacity, (b) any owner of a beneficial interest in the Financing Entity or (c) any partner, owner, beneficiary, agent, officer, director, employee or agent of the Financing Entity Trustee in its individual capacity, any holder of a beneficial interest in the Financing Entity or the Financing Entity Trustee or of any successor or assign of the Financing Entity Trustee in its individual capacity, except as any such Person may have expressly agreed (it being understood that the Financing Entity Trustee has no such obligations in its individual capacity).

6.02 Not Responsible for Recitals

The recitals contained herein will be taken as the statements of the Province, the Financing Entity and the FSM, and the Indenture Trustee assumes no responsibility for their correctness. The Indenture Trustee makes no representations as to the validity or sufficiency of this Agreement.

6.03 Representations and Covenants of the Indenture Trustee

The Indenture Trustee represents, warrants and covenants that:

(a) the Indenture Trustee is a trust company organized, existing and in good standing under the laws of Canada;

(b) the Indenture Trustee has full power and authority to execute, deliver and perform this Agreement and has taken all necessary action to authorize the execution, delivery and performance by it of this Agreement;

(c) this Agreement has been duly executed and delivered by the Indenture Trustee and constitutes its legal, valid and binding obligation in accordance with its terms; and

(d) the Indenture Trustee is authorized to carry on the business of a trust company in each of the provinces and territories of Canada. If, notwithstanding the provisions of this subsection 6.03(d), the Indenture Trustee ceases to be so authorized to carry on business, the validity and enforceability of this Agreement shall not be affected in any manner whatsoever by reason only of such event.

ARTICLE VII
SUSPENSION OF ADHERENCE FOR NEW PRIMARY OBLIGATIONS

7.01 Suspension Notice

Upon:

(a) a Program Breach;

(b) a default in the performance, or breach, of any covenants of OPG, as FSM, or OPG, in its corporate capacity, in each case to the Province in connection with its obligations to the Province pursuant to internal requirements and processes in connection with the provision or adherence of the Limited Guarantee to or in respect of any Certified Primary Obligation and the expiration of any applicable cure period;

(c) a representation or warranty made by OPG or a certification made by one or more officers of OPG, in each case whether as FSM or in its corporate capacity, to the Province in connection with its obligations to the Province and its internal requirements and processes in connection with the provision or adherence of the Limited Guarantee to or in respect of any Certified Primary Obligations, proves to be incorrect in any material respect on the date made and the expiration of any applicable cure period; or

(d) the FSM no longer being the Manager or actions having been taken by or on behalf of the Indenture Trustee to remove the FSM as the Manager;

the Province may declare that the Limited Guarantee under this Agreement shall not apply to any Primary Obligations incurred on or after such declaration, excluding Post-Suspension Refinancings or Pre-Approved Refinancings, by delivering a written notice in

the form of Exhibit C (a "**Suspension Notice**") to the Indenture Trustee, the FSM and the Financing Entity.

7.02 Suspension

If a Suspension Notice has been provided under Section 7.01 (the provision of such notice being a "**Suspension Event**"), the Limited Guarantee shall not apply in respect of: (i) any Primary Obligation incurred, excluding Post-Suspension Refinancings or Pre-Approved Refinancings, or (ii) any amendment of any Primary Obligation that has a Material Effect, unless otherwise agreed to by the Province, in each case, on or after the time such Suspension Notice is delivered.

7.03 Additional Right of the Province Regarding Post-Suspension Refinancings

Following the occurrence of a Suspension Event, the Limited Guarantee shall continue to apply in respect of any Post-Suspension Refinancing (for greater certainty, without regard to the satisfaction of any Adherence Conditions thereto); provided that prior to the Financing Entity incurring any Primary Obligation constituting a Post-Suspension Refinancing, the Manager shall provide the Province with at least 30 days' notice of its intention to seek a Post-Suspension Refinancing and prior to incurrence, which notice shall describe the material covenants, events of default, representations and warranties and indemnities of the Financing Entity and other material terms, excluding financial terms, rates and levels (the "**Proposal**"), and during such 30 day period the Province may, but is not obligated to, offer to fund such Post-Suspension Refinancing or arrange for another Person to fund such Post-Suspension Refinancing on the same terms as set out in the Proposal or on such other terms as may be considered by the Province to be not more onerous on the Financing Entity and that are acceptable on that basis to the Financing Entity, acting reasonably. If, within such 30-day period, the Province elects to offer to fund such Post-Suspension Refinancing as provided in the preceding sentence, the Manager shall accept such offer; however, if the Province does not elect to offer to fund such Post-Suspension Refinancing, the Manager shall cause the Financing Entity to incur Primary Obligations constituting such a Post-Suspension Refinancing on substantially the same terms as than those set out in the Proposal if the Post-Suspension Refinancing can be completed by the Financing Entity in compliance with the Act, or on such other terms as may be considered by the Financing Entity to be not more onerous on the Province and that are acceptable on that basis to the Province, acting reasonably.

7.04 No Impact on Adherence

For greater certainty, the occurrence of a Suspension Event or a failure by the FSM or the Financing Entity to perform its covenants under this Agreement will not invalidate or extinguish the obligations of the Province under the Limited Guarantee in respect of Approved Obligations in existence prior to the occurrence of the Suspension Event or in respect of any Post-Suspension Refinancing.

RECITALS

Pursuant to Subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**"), the Lieutenant Governor in Council may by order, authorize the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to agree to guarantee or indemnify certain debts, obligations, securities or undertakings associated with an Investment Interest.

Pursuant to an Order in Council 1981/2017 (the "**OIC**"), the Lieutenant Governor in Council has, among other things, authorized the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to enter into one or more agreements to guarantee or indemnify the debts, obligations, securities or undertakings of one or more financing entities established or caused to be established pursuant to Subsection 22(2) of the Act by the FSM and that may incur Funding Obligations in connection with one or more Investment Interests.

Pursuant to a Declaration of Trust dated as of ■, 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

The Financing Entity Trustee, in its capacity as trustee of the Financing Entity, and the Indenture Trustee are parties to the Trust Indenture and propose to create and issue series of notes, bonds and other securities as contemplated therein, and to provide security over the assets and undertaking of the Financing Entity in respect of such notes, bonds and securities, as well as other Obligations Secured.

The Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, have determined to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Primary Obligations that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred. This Agreement sets out the terms and conditions of such protections and assurances.

All things necessary to make this Agreement a valid and legally binding agreement of the Province, the Financing Entity, the FSM and the Indenture Trustee, in accordance with the Act, the OIC and the Trust Indenture, have been done.

provisions and in accordance with the ~~applicable Payment Waterfalls~~priority of payment provisions in the Trust Indenture the amount that would be payable on such date in satisfaction of the relevant Payable Approved Amounts, as determined without regard to any Guarantee Payment paid on any Guarantee Payment Date and also without regard to the corresponding reduction of the amounts owing to present and former Beneficiary Payees pursuant to subclause 2.01(a)iv(A) up to the amount of the unpaid related Subrogation Amounts.

(C) No Beneficiary having a right to be paid an amount in respect of an Approved Obligation, and no other Person entitled under an Obligation Secured, in each case that ranks equal with or subordinate to the Payable Approved Amount in respect of which a Subrogation Amount is payable to the Province under subclause 2.01(a)iv(B), shall be entitled to make any claim or assert any right in or to the amounts paid or payable to the Province under such subclause (including any right of set-off, offset, reimbursement, contribution or indemnity) and no such Beneficiary or other Person shall have any right or interest in, to or under the Collateral or any proceeds therefrom in respect of any such Subrogation Amount.

(D) For greater certainty, the entitlements of the Province in respect of Subrogation Amounts arising in respect of Payable Approved Obligations that are interest and principal obligations on Notes shall be treated for all purposes of the Trust Indenture as interest and principal obligations, respectively, arising under Notes having the same priority as and any applicable voting rights[2] under the related Approved Obligations, and accordingly the Province (and any successor, assignee or transferee of such entitlements) shall be entitled to all of the rights, entitlements, interests and privileges of a Holder of such a Notes in accordance with the Trust Indenture, as supplemented by the Supplemental Indenture or other indenture document under which the related Approved Obligations were issued.

[2] Explanatory Note: As discussed, the Province understands that voting rights may be muted by the "outstanding" language in the Trust Indenture. Nevertheless, if voting rights would arise under the Trust Indenture they should be available to the Province.

(b) ~~v.~~ On each Guarantee Payment Date and upon demand by the Province, the Indenture Trustee shall release and pay to the Province free and clear of any Liens any amount remaining on deposit in the Protection Account that has not been applied to pay Guarantee Payments to Beneficiary Payees on the Guarantee Payment Date in accordance with clause 2.01(a)iii or that otherwise remains on deposit in the Protection Account on the relevant date.

(c) ~~vi.~~ In preparing any payment instructions under the Trust Indenture, the Manager shall reflect the amounts payable under Section 2.01(a), if applicable.

(d) ~~vii.~~ The Province shall, as a payee of Subrogation Amounts under clause 2.01(a)iv(B) and as a payee of any amounts payable under clause 2.01(a)v, be a "Specified Creditor" under the Trust Indenture and have the benefit of the Collateral thereunder.

(e) ~~viii.~~ For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation and will be limited to the right to receive the Approved Obligation Amounts, if any, for payment to Beneficiary Payees and will be subject to the priorities and to the Province's rights to Subrogation Amounts, set forth in Section 2.01(a).

(f) ~~ix.~~ Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

(g) ~~x.~~ Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid by the Province when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation by their terms.

(h) ~~xi.~~ Any amount payable to the Province in respect of a Subrogation Amount shall bear interest from and including the date of payment by the Province of the related Guarantee Payment to but excluding the date of payment of the Subrogation Amount to the Province, such interest to accrue at the rate equivalent to the applicable interest rate borne by the related Approved Obligation, and such interest amounts shall be added to their respective Subrogated Amounts and shall consequently be payable in the same priority as the relevant Subrogated Amount under clause 2.01(a)iv(B), all such accruing interest amounts to be calculated and added to the Subrogation Amounts by the Manager in its discretion acting in a commercially reasonable fashion.

(i) ~~xii.~~ The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee (and to the Beneficiaries, to the extent they are permitted to exercise any rights, interests, or elections under and in accordance with the Trust Indenture) under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits; provided that, for greater certainty, economic loss shall not include any amount in respect of any amount due and payable to a Beneficiary Payee under the Limited Guarantee.

~~(b) The Province shall, as a payee of Subrogation Amounts under clause 2.01(a)iv(B), and as a payee of any amounts payable under clause 2.01(a)vi, be a "Specified Creditor" under the Trust Indenture and have the benefit of the Collateral thereunder.~~

~~(c) For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation and will be limited to the right to receive the Approved Obligation Amounts, if any, for payment to Beneficiary Payees and will be subject to the priorities and to the Province's rights to Subrogation Amounts, set forth in Section 2.01(a).~~

~~(d) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.~~

~~(e) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid by the Province when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation by their terms.~~

~~(f) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee (and to the Beneficiaries, to the extent they are permitted to exercise any rights, interests, or elections under and in accordance with the Trust Indenture) under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits; provided that, for greater certainty, economic loss shall not include any amount in respect of any amount due and payable to a Beneficiary Payee under the Limited Guarantee.~~

2.02 Intentionally Deleted.

2.03 Absence of Set-off

Subject to applicable law, the Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

2.04 Payment into Protection Account in Satisfaction

(a) On or before the date of delivery of a Payment Demand to the Province, the Indenture Trustee shall cause to be established and maintained an Eligible Deposit Account (the "**Protection Account**") in the name of the Indenture Trustee, bearing a designation clearly indicating that the funds and other property credited thereto are held for the benefit of the Indenture Trustee and the Beneficiaries. The Protection Account shall be under the control of the Indenture Trustee for the benefit of the Beneficiaries. If, at any time, the institution holding the Protection Account ceases to be an Eligible Institution, the FSM shall notify the Indenture Trustee, and the Indenture Trustee upon being notified in writing of such ineligibility (or the FSM on its behalf) shall within 30 days (or such longer period, not to exceed 45 days, so long as the Rating Agency Condition is satisfied) establish a new Protection Account that is an Eligible Deposit Account and shall transfer any funds or other property from such Protection Account to such new Protection Account. From the date each such new Protection Account is established, it shall be the "Protection Account" for purposes of this Agreement. Funds credited to the Protection Account will be invested and held in accordance with Section **[7.03]** of the Trust Indenture on the basis that it is an Issuer Account.

(b) Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Financing Entity and the Indenture Trustee shall ensure that all amounts paid by the Province into the Protection Account on a Guarantee Payment Date in respect of an Approved Obligation are applied to pay the amounts due and payable to the Beneficiary Payee as and to the extent provided for in Section 2.01(a). Upon a payment having been made by or on behalf of the Province into the Protection Account, the amounts so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiary Payee as provided for in Section 2.01(a) and thereby reduce the amount due and payable to such Beneficiary Payee in respect of the applicable Approved Obligations, whereupon an affected Beneficiary Payee shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid. For greater certainty, the obligations arising in respect of an applicable Approved Obligation shall not be reduced by such payment as the Province shall become entitled to be paid related Subrogation Amounts and the rights contemplated under Section 2.01(a) and Section 5.01 in relation to such continuing obligations.

2.05 Certain Waivers

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety.

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

2.06 Additional Security

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

2.07 Continuing Liability of the Province

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Approved Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

2.08 Continuance of the Limited Guarantee

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations in accordance with Section 8.01.

2.09 Modifications of Approved Obligations

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements and this Agreement, to:

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine.

ARTICLE III
THE INDENTURE TRUSTEE

3.01 The Indenture Trustee

This Agreement is made in favour of the Indenture Trustee in its capacity as trustee under the Trust Indenture. Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the Indenture Trustee hereunder, but nevertheless, the Indenture Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Agreement. All provisions of the Trust Indenture for the protection of the Indenture Trustee or for facilitating the administration of the trusts or otherwise relating to the Indenture Trustee solely as to its holding of the rights thereunder shall apply *mutatis mutandis* to this Agreement and the Indenture Trustee's duties hereunder.

3.02 Acceptance of Trusts

The Indenture Trustee hereby accepts the trusts hereof and agrees to carry out and discharge the same unless and until a new trustee shall be appointed as contemplated in Section 3.01.

ARTICLE IV
APPROVED OBLIGATIONS

4.01 Approval Process

A Primary Obligation shall constitute an Approved Obligation if (i) the Adherence Conditions applicable thereto have been satisfied at the time the Primary Obligation was incurred, (ii) the Province, in its sole discretion, designates in writing that it is an Approved

Obligation or (iii) the Primary Obligation is a Post-Suspension Refinancing or a Pre-Approved Refinancing.

4.02 Adherence Conditions

(a) The following shall be the Adherence Conditions applicable in relation to each Certified Primary Obligation:

i. the Certified Primary Obligation when incurred is an Obligation Secured under the Trust Indenture; and

ii. OPG, as FSM, delivers an Adherence Compliance Certificate in the form attached hereto as Exhibit B~~-1~~ signed by the Chief Financial Officer and the Treasurer of OPG, or any two Executive Officers of OPG (for clarity, such certificate is to be provided by such officers in their capacity as officers of OPG acting in its capacity as FSM) and addressed to the Indenture Trustee, on or before the incurrence of ~~a~~the Certified Primary Obligation (provided that delivery may not be more than 5 Business Days before the incurrence of the Certified Primary Obligation); and

iii. the Province has not provided a Suspension Notice to the Indenture Trustee, OPG and the Financing Entity.

(b) ~~For greater certainty~~Without limiting any obligations of OPG to the Province arising other than pursuant to this Agreement, satisfaction of the Adherence Conditions for a Certified Primary Obligation shall be deemed satisfaction of the Adherence Conditions in respect of all principal, interest and other amounts owing under the Certified Primary Obligation, as such Certified Primary Obligation may be amended, restated, supplemented or modified from time to time~~, without limiting any obligations of OPG to the Province arising other than pursuant to this Agreement~~.

(c) For greater certainty, there shall be no Adherence Conditions applicable in relation to a Primary Obligation that is not a Certified Primary Obligation.

4.03 Evidence of Satisfaction

An Adherence Compliance Certificate delivered in accordance with clause 4.02(a)ii shall be determinative as to whether the applicable Adherence ~~Conditions~~Condition with respect thereto ~~have~~has been satisfied, notwithstanding that such certificate may include inaccuracies, be incomplete or otherwise be defective or deficient, and such closing certificate may be relied upon by any addressee as conclusive evidence of same. An Adherence Compliance Certificate that purports on its face to be signed by officers specified in clause 4.02(a)ii may be relied upon by any addressee without further enquiry or evidence as to the incumbency or signatures of such officers. If an Adherence Compliance Certificate is not delivered in accordance with the timing requirements of clause 4.02(a)ii such certificate may be delivered at a later date, and be effective

as if it had been delivered in accordance with the timing requirement of clause 4.02(a)ii if at the time such certificate was otherwise required to be delivered OPG had delivered to the Province all certifications required by the Province in connection with the adherence of the Limited Guarantee to the Certified Primary Obligation.

ARTICLE V
PROVINCE MATTERS

5.01 Assignment and Subrogation

(a) Upon paying an amount in respect of an Approved Obligation to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee, the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation to the extent of such payment, and shall be entitled to (i) the right and entitlement to be paid and receive the related Subrogation Amounts, (ii) the benefits of the related Collateral and (iii) all proceeds therefrom. The Province shall have and be entitled to enforce all rights and interests (including as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)), under and in respect of such Approved Obligation to the extent of the payment by the Province in respect of the Approved Obligation as an absolute assignee of the applicable Beneficiary, with effect from and after the time of such payment, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing by the Beneficiary to the Financing Entity and unaffected by any other rights or equities that arise thereafter as between the Beneficiary and the Financing Entity. The Indenture Trustee shall recognize the Province as being entitled to all of the rights, interests and entitlements of the Beneficiary (including as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)) in respect and to the extent of the Approved Obligation so paid, determined as of the time of payment, for all purposes under the Trust Indenture, and the Province shall be treated as a Specified Creditor in respect thereof for all purposes under the Trust Indenture and any other agreement under which the Approved Obligation arises.

(b) The Province (i) acknowledges and agrees in favour of the Indenture Trustee that, upon being subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation in accordance with Section 5.01(a), the Province, in its capacity as a Specified Creditor, will be subject to the provisions applicable to Specified Creditors under the Trust Indenture, including Sections **[7.04]** through **[7.11]** and **[8.13]** (Payment Priorities), Section **[7.12]** (Payments Held in Trust), Section **[8.11]** (Control by Controlling Class Creditors),

5.02 Priorities

For greater certainty, the rights, interests and entitlements of the Province as an assignee and subrogee of and with respect to an Approved Obligation and the Payable Approved Amounts thereunder shall rank equally with the rights, interests and entitlements of a Beneficiary to whom a Limited Guarantee payment is made in respect of, and to the extent of the payment made to satisfy, the Approved Obligation and the Province shall not be subject to postponement or subordination with respect thereto except to the extent of the priorities established in relation to the Approved Obligation under the Trust Indenture in the manner and to the extent contemplated in Section **[7.10]** of the Trust Indenture.

5.03 Intentionally Deleted

(c) this Agreement has been duly executed and delivered by the Province.

ARTICLE VI

6.01 Limited Recourse

No recourse may be taken, directly or indirectly, with respect to the obligations of the Financing Entity under this Agreement, or any certificate or other writing delivered in connection

herewith or therewith, against (a) the Financing Entity Trustee in its individual capacity, (b) any owner of a beneficial interest in the Financing Entity or (c) any partner, owner, beneficiary, agent, officer, director, employee or agent of the Financing Entity Trustee in its individual capacity, any holder of a beneficial interest in the Financing Entity or the Financing Entity Trustee or of any successor or assign of the Financing Entity Trustee in its individual capacity, except as any such Person may have expressly agreed (it being understood that the Financing Entity Trustee has no such obligations in its individual capacity).

6.02 Not Responsible for Recitals

The recitals contained herein will be taken as the statements of the Province, the Financing Entity and the FSM, and the Indenture Trustee assumes no responsibility for their correctness. The Indenture Trustee makes no representations as to the validity or sufficiency of this Agreement.

6.03 Representations and Covenants of the Indenture Trustee

The Indenture Trustee represents, warrants and covenants that:

(a) the Indenture Trustee is a trust company organized, existing and in good standing under the laws of Canada;

ARTICLE VII
SUSPENSION OF ADHERENCE FOR NEW PRIMARY OBLIGATIONS

7.01 Suspension Notice

Upon:

(a) a Program Breach;

(b) a default in the performance, or breach, of any covenants of OPG, as FSM, or OPG, in its corporate capacity, in each case to the Province in connection with its

obligations to the Province pursuant to internal requirements and processes in connection with the provision or adherence of the Limited Guarantee to or in respect of any Certified Primary Obligation and the expiration of any applicable cure period;

(c) a representation or warranty made by OPG or a certification made by one or more officers of OPG, in each case whether as FSM or in its corporate capacity, to the Province in connection with its obligations to the Province and its internal requirements and processes in connection with the provision or adherence of the Limited Guarantee to or in respect of any Certified Primary Obligations, proves to be incorrect in any material respect on the date made and the expiration of any applicable cure period; or

(d) the FSM no longer being the Manager or actions having been taken by or on behalf of the Indenture Trustee to remove the FSM as the Manager;

the Province may declare that the Limited Guarantee under this Agreement shall not apply to any Primary Obligations incurred on or after such declaration, excluding Post-Suspension Refinancings or Pre-Approved Refinancings, by delivering a written notice in the form of Exhibit C (a "**Suspension Notice**") to the Indenture Trustee, the FSM and the Financing Entity.

7.02 Suspension

If a Suspension Notice has been provided under Section 7.01 (the provision of such notice being a "**Suspension Event**"), the Limited Guarantee shall not apply in respect of: (i) any Primary Obligation incurred, excluding Post-Suspension Refinancings or Pre-Approved Refinancings, or (ii) any amendment of any Primary Obligation that has a Material Effect, unless otherwise agreed to by the Province, in each case, on or after the time such Suspension Notice is delivered.

7.03 Additional Right of the Province Regarding Post-Suspension Refinancings

Following the occurrence of a Suspension Event, the Limited Guarantee shall continue to apply in respect of any Post-Suspension Refinancing (for greater certainty, without regard to the satisfaction of any Adherence Conditions thereto); provided that prior to the Financing Entity incurring any Primary Obligation constituting a Post-Suspension Refinancing, the Manager shall provide the Province with at least 30 days' notice of its intention to seek a Post-Suspension Refinancing and prior to incurrence, which notice shall ~~include a summary of~~describe the material covenants, events of default, representations and warranties and indemnities of the Financing Entity and other material terms, excluding financial terms, rates and levels (the "**Proposal**"), and during such 30 day period the Province may, but is not obligated to, offer to ~~provide~~fund such Post-Suspension Refinancing or arrange for another Person to ~~provide~~fund such Post-Suspension Refinancing on the same~~, or better,~~ terms as set out in the Proposal or on such other terms as may be considered by the Province to be not more onerous on the Financing Entity and that are acceptable on that basis to the Financing Entity, acting reasonably. If, within such 30-day period, the Province elects to ~~provide~~offer to fund such Post-Suspension

Refinancing as provided in the preceding sentence, the Manager shall accept such ~~Proposal~~offer; however, if the Province does not elect to ~~provide~~offer to fund such Post-Suspension Refinancing, the Manager shall cause the Financing Entity to incur Primary Obligations constituting such a Post-Suspension Refinancing on substantially the same ~~or less onerous~~ terms as than those set out in the Proposal~~; provided that such~~ if the Post-Suspension Refinancing ~~is available on such terms~~can be completed by the Financing Entity in compliance with the Act, or on such other terms as may be considered by the Financing Entity to be not more onerous on the Province and that are acceptable on that basis to the Province, acting reasonably.

7.04 No Impact on Adherence

For greater certainty, the occurrence of a Suspension Event or a failure by the FSM or the Financing Entity to perform its covenants under this Agreement will not invalidate or extinguish the obligations of the Province under the Limited Guarantee in respect of Approved Obligations in existence prior to the occurrence of the Suspension Event or in respect of any Post-Suspension Refinancing.

ARTICLE VIII

Hi,

Attached is a revised version of the Change of Law Protection Agreement. I believe that most of the changes reflected from last night's Osler version (blackline is attached) are of a drafting or conforming nature, other than: (1) the Province disagrees that Approved Refinancing terms should be unfettered by adherence conditions post-Suspension Event and (2) the proposed rating-based "materially and adversely" qualification in the definition of Protection Event (and in fact any such qualification) is not acceptable to the Province. With regard to (1), this version comes into line with the proposed approach (i.e., using a modified adherence condition) that was incorporated into the version of the Change of Law Process Agreement I circulated yesterday. A further turn of that Agreement, to conform the open item identified in section 3.02 to the revised Change of Law Protection Agreement, is also included here for your reference.

Please note that the Province is working through the drafting concurrently and so further drafting comments may be provided.

As mentioned yesterday, the Province would like to proceed with the Ministers sign-off briefing early next week, on the basis that these versions (minus the explanatory notes) are now in substantially final form. Please identify if you believe there are other 'must have' points (other than the 2 mentioned above).

Subject: RE: Fair Hydro -- Change of Law Process Agreement

Hi,

Please find (attached) a further turn of the Change of Law Process Agreement, reflecting the Province's comments on the mark-up of the Agreement circulated yesterday afternoon by Torys. The attached blackline shows changes made to yesterday's Torys mark-up.

This version addresses concerns Rocco raised last night, to the extent the Province feels that the issues can be accommodated. For your information, I have set out below responses to Rocco's comments/observations (in CAPs).

The Province would like to proceed with the Ministers briefing early next week, on the basis that this version (minus the explanatory notes) is now in final form. If there are any critical revisions that the other parties believe reflect 'must have' priority, then the

Province would like to have a call to discuss them as soon as possible.

Responses to Rocco's Points:

1. The change of the definition of Breach Event in Section 6.01 (i.e., the change to clause (a) and the addition of clause (b)) will result in an inconsistency with section 7.01(b) of the Change of Law Protection Agreement. This will require further consideration. [AGREED. 7.01(b) and 7.01(c) will need to mirror the cure language we settle on in the Process Agreement (see my earlier comments). Perhaps the "which continues …" language in 7.01(B) can be revised to read: "to the extent that the Province would be entitled to provide a Suspension Notice in accordance with the terms of the agreement or agreements between the Province and OPG under which such obligations, requirements and processes arise". SIMILAR CHANGE FOR 7.01(C).

2. The right of the Province to issue an objection notice under Section 3.04(b) in connection with a Transaction Document provided to the Province which is required for a Refinancing of an Approved Obligation remains an outstanding issue. Clearly, this will depend upon what Adherence Conditions will be required under Section 4.02 of the Change of Law Protection Agreement in order to permit such Refinancing to become an Approved Obligation. If the Adherence Conditions set out in Section 4.02(a) of the Province's draft of the Change of Law Protection Agreement of December 4 were to apply to such Refinancing, to the extent that such refinancing required a change to a Transaction Document (e.g., as a result of a change to some rating agency condition or criteria), the Province's ability to issue an objection notice and thereby prevent the issuance of a Process Certificate under Section 3.01 (by virtue of Section 3.04) would have the effect of preventing a Refinancing. We trust that this was an unintended outcome of the drafting of Section 3.04 and/or the Adherence Conditions applicable to Refinancings. [THAT IS THE INTENDED EFFECT. THE ADHERENCE CONDITIONS WOULD APPLY TO THE REFINANCING, SO IF THE REFINANCING TERMS DEVIATED MATERIALLY (BASED ON THE SUBSTANTIALLY IN THE FORM" THRESHOLD"), THEN OPG WOULD REQUIRE THE PROVINCE NOT TO OBJECT IN ORDER TO PROCEED WITH THOSE NEW TERMS. OTHERWISE, THE REFINANCING COULD INCORPORATE TERMS AND CONDITIONS, WHICH WOULD BIND THE PROVINCE UNDER THE LIMITED GUARANTEE, THAT WOULD BE UNCONSTRAINED AND WITHOUT ANY ACCOUNTABILITY TO THE PROVINCE. IN ROCCO'S EXAMPLE, THAT MIGHT MEAN THAT OPG WOULD NEED TO RESORT TO UNRATED DEBT, IF THE PROVINCE WAS UNWILLING TO ACCEPT THE NEW TERMS. PRESUMABLY EVERYONE WOULD ACT RATIONALLY. HOWEVER, AS A FAILSAFE, OPG COULD OFFER INCREASED PRICING IN ORDER TO ATTRACT INVESTORS TO ACCEPT THE EARLIER VETTED TERMS (BASED ON THE THEN

ACCEPTED REVIEWED DOCUMENTATION).]

3. Given that the Indenture Trustee is not a party to the Change of Law Process Agreement, the Province and OPG can amend the terms and conditions of this agreement without the consent of the indenture Trustee. Specified Creditors under an Approved Obligation need to be assured that the Province cannot prevent a Refinancing of an Approved Obligation either by virtue of the objection notice discussed in point #2 above or as a result of a future amendment to the agreement. There are a couple of ways to deal with this point. The first is to a add a beneficiary/third party rights clause in the Change of Law Process Agreement which acknowledges that the Indenture Trustee is a beneficiary of certain provisions of this agreement and as a result, the agreement cannot be amended without the consent of the Indenture Trustee. The second is to ensure that the Adherence Conditions relating to Refinancings under the Change of Law Protection Agreement are not dependent upon the terms of the Change of Law Process Agreement. In light of the desire to not disclose the terms and conditions of the Change of Law Process Agreement to the rating agencies, especially at this late stage in the process, we would expect that the latter approach would be preferable. [THE SUGGESTION REGARDING THE PROVINCE PREVENTING A REFINANCING IS ADDRESSED IN #2. IF THE REFINANCING TERMS WOULD EXCEED THE SCOPE OF THE TRANSACTION DOCUMENTS REVIEWED AND NOT OBJECTED TO BY THE PROVINCE, THEN THAT SUGGESTS THERE IS A MATERIAL EFFECT ON THE PROVINCE AND SO THE PROVINCE WOULD NEED THE ABILITY TO REVIEW AND CONSIDER THE PROPRIETY OF THOSE NEW TERMS FROM ITS PERSPECTIVE. AS FOR THE STANDALONE NATURE OF THE PROCESS AGREEMENT, THE INTENTION IS THAT THE PROCESS AGREEMENT BE UNCOUPLED AND NOT PART OF THE COLLATERAL, AND AS MICHAEL FELDMAN HAS EXPLAINED, LEAVE FUTURE FLEXIBILITY FOR THIS LONG-TERM STRUCTURE. TO ADDRESS ROCCO'S CONCERN THAT THE PROVINCE AND OPG COULD CHANGE THE UNDERLYING OBLIGATIONS APPLICABLE TO ADHERENCE IN RELATION TO A NEW OBLIGATION, REQUIREMENT OR PROCESS IN THE PROCESS AGREEMENT THAT WOULD MAKE A REFINANCING LESS LIKELY TO OCCUR, WE HAVE ADDED AND USED IN THE ATTACHED VERSION A NEW DEFFINTION:

"Approved Refinancing" means a Certified Primary Obligation proposed to be incurred as a Refinancing of an existing Certified Primary Obligation in respect of which the Adherence Conditions had been satisfied on the date such existing Certified Primary Obligation was incurred, that, at the time of incurrence, satisfies each of each of the Adherence Conditions except that the certificate contemplated to be delivered under Section 4.02(b) shall instead confirm that OPG has delivered to the Province a certificate by its applicable officers confirming that OPG would be in compliance with all obligations to the Province and internal requirements and processes in connection with

the adherence of the Limited Guarantee to the proposed Certified Primary Obligation that applied as between the Province and OPG on the date of issuance of such existing Certified Primary Obligation." Various references to "Refinancing" in the Protection Agreement can also be revised to refer to "Approved Refinancing", as required.

I have reviewed the revised draft of the Change of Law Process Agreement that Torys has prepared and would like to pass along the following comments/observations:

Blakes team,

Please find attached OPG and Torys' comments on the Process Agreement reflecting our discussions from yesterday's call. Please note that this draft is subject to continuing review and comment by Osler and the dealers. As discussed at the tail end of our call yesterday, the section in the Process Agreement that gives the Province the right to object to new and material changes to transaction documents dovetails with the Protection Agreement so additional comments from Oslers may be forthcoming on this draft.

We are working on getting you a revised draft of the Protection Agreement either later today or tomorrow. In the meantime, please let us know if you have any comments or questions on the Process Agreement.

Best Regards,

Nina

CHANGE OF LAW PROTECTION AGREEMENT

Dated as of [■], 2017

This **AGREEMENT**, among Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), Computershare Trust Company of Canada, in its capacity as trustee (the "**Financing Entity Trustee**") of Fair Hydro Trust, a trust organized under the laws of the Province of Ontario (the "**Financing Entity**"), Ontario Power Generation Inc., in its capacity as Manager of the Financing Entity and in its capacity as the Financial Services Manager in accordance with the Act (the "**FSM**") and BNY Trust Company of Canada, a trust company existing under the laws of Canada, as Indenture Trustee, is made and entered into as of [■], 2017.

RECITALS

Pursuant to Subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**"), the Lieutenant Governor in Council may by order, authorize the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to agree to guarantee or indemnify certain debts, obligations, securities or undertakings associated with an Investment Interest.

Pursuant to an Order in Council 1981/2017 (the "**OIC**"), the Lieutenant Governor in Council has, among other things, authorized the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to enter into one or more agreements to guarantee or indemnify the debts, obligations, securities or undertakings of one or more financing entities established or caused to be established pursuant to Subsection 22(2) of the Act by the FSM and that may incur Funding Obligations in connection with one or more Investment Interests.

Pursuant to a Declaration of Trust dated as of ■, 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

The Financing Entity Trustee, in its capacity as trustee of the Financing Entity, and the Indenture Trustee are parties to the Trust Indenture and propose to create and issue series of notes, bonds and other securities as contemplated therein, and to provide security over the assets and undertaking of the Financing Entity in respect of such notes, bonds and securities, as well as other Obligations Secured.

The Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, have determined to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Primary Obligations that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred. This Agreement sets out the terms and conditions of such protections and assurances.

All things necessary to make this Agreement a valid and legally binding agreement of the Province, the Financing Entity, the FSM and the Indenture Trustee, in accordance with the Act, the OIC and the Trust Indenture, have been done.

1.05 Province Retains Rights of Beneficiaries

Without limiting any rights of subrogation or succession that arise pursuant to applicable law or pursuant to the Province's rights as an assignee, subrogee or pursuant to Section 2.01 or Section 5.01, all of the rights, interests, elections and privileges that would arise in favour of a Beneficiary under the Trust Indenture or other Funding Obligation Agreement under which a related Primary Obligation arises shall automatically arise, vest in and be available to the Province to the extent of the performance by the Province of the Primary Obligation.

1.08 Severability

Each of the provisions contained in this Agreement is distinct and severable and a declaration of invalidity or unenforceability of any such provision or part thereof by a court of competent jurisdiction will not affect the validity or enforceability of any other provision hereof. To the extent permitted by applicable law, the parties waive any provision of law which renders any provision of this Agreement invalid or unenforceable in any respect.

1.09 Governing Law

THIS AGREEMENT WILL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE PROVINCE OF ONTARIO AND THE FEDERAL LAWS OF CANADA APPLICABLE THEREIN, AND THE OBLIGATIONS, RIGHTS AND REMEDIES OF THE PARTIES HEREUNDER SHALL BE DETERMINED IN ACCORDANCE WITH SUCH LAWS.

The parties further agree that for the purposes of the *Interest Act* (Canada), (i) the principle of deemed reinvestment of interest shall not apply to any interest calculation under this Agreement, and (ii) the rates of interest stipulated in this Agreement are intended to be nominal rates and not effective rates or yields.

Unless stated otherwise, all amounts herein are stated in Canadian Dollars.

1.18 References to Acts of the Financing Entity

For greater certainty, where any reference is made in this Agreement, or in any other instrument executed pursuant hereto or contemplated hereby to which the Financing Entity or the Financing Entity Trustee, as trustee of the Financing Entity, is party, to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against, or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to (i) the Financing Entity or (ii) the Financing Entity Trustee, such reference shall be construed and applied for all purposes as if it referred to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to, the Financing Entity Trustee as trustee of the Financing Entity.

ARTICLE II
AGREEMENT TO PERFORM APPROVED OBLIGATIONS

2.01 Limited Guarantee

(a) Upon the occurrence of a Protection Event, the Indenture Trustee may deliver a written demand, substantially in the form attached as Exhibit A (a "**Payment Demand**"), to the Province requiring the Province to make payments in respect of the Approved Obligations at the times, in the amounts and subject to the requirements specified in this Agreement. From and after such delivery of a Payment Demand, the Province shall make the following payments in respect of the Approved Obligations (the "**Limited Guarantee**"), and the Financing Entity shall pay, and the Province shall be entitled to be paid, the Subrogation Entitlements specified below:

i. Not less than 3 Business Days prior to each day when any payment or payments are to be made in respect of one or more Approved Obligations occurring after such delivery of a Payment Demand (each such day, a "**Guarantee Payment Date**"), the Manager shall deliver a written statement setting forth the Aggregate Approved Obligations Amount, if any, in respect of the Approved Obligations that are due and payable on such Guarantee Payment Date, together with a detailed description identifying such Approved Obligations and the nature and amount of payments due and payable thereunder on the Guarantee Payment Date, the aggregate outstanding amount payable by the Financing Entity under such Approved Obligations as of the date of such written statement, and details regarding any default in performance by any party obligated thereunder.

ii. On each such Guarantee Payment Date, the Province shall deposit the Aggregate Approved Obligations Amount into the Protection Account.

iii. On each such Guarantee Payment Date, the Financing Entity and the Indenture Trustee shall ensure that the amounts on deposit in the Protection Account are applied to pay each Beneficiary to whom an amount is due and payable under an Approved Obligation on the Guarantee Payment Date the Approved Obligation Amount for such Beneficiary in respect of such Approved Obligation on such Guarantee Payment Date; provided that if the amount deposited pursuant to clause 2.01(a)ii is insufficient to pay all such Approved Obligation Amounts in full, the amount on deposit in the Protection Account on the Guarantee Payment Date shall be applied to pay Beneficiaries in the order of priority in which such Approved Obligations are payable under the payment provisions of the Trust Indenture applicable to the making of such payments on the Guarantee Payment Date (each, a "**Beneficiary Payee**" and each payment made to a Beneficiary Payee on a Guarantee Payment Date, a "**Guarantee Payment**").

iv. On any Guarantee Payment Date on which an amount is paid by the Province pursuant to clause 2.01(a)ii, the applicable payment provisions of the Trust Indenture shall, notwithstanding any express terms of such provisions set forth in the Trust Indenture to the contrary, be applied and operate on the following basis:

(A) the amount payable to a Beneficiary Payee in respect of an Approved Obligation from amounts available under such payment provisions on such Guarantee Payment Date shall be reduced by the amount of the Guarantee Payment paid to the Beneficiary Payee pursuant to clause 2.01(a)iii in respect of such Approved Obligation on such Guarantee Payment Date;

(B) the Province shall be paid the amount payable to a Beneficiary Payee in respect of an Approved Obligation from amounts available to pay the Beneficiary Payee under such payment provisions on the Guarantee Payment Date, determined without regard to the Guarantee Payment paid on such Guarantee Payment Date and the corresponding reduction of the amount owing to the Beneficiary Payee pursuant to subclause 2.01(a)iv(A) (each such amount payable to the Province being a "**Subrogation Amount**"); and

(C) no Beneficiary having a right to be paid an amount in respect of an Approved Obligation, and no other Person entitled under an Obligation Secured, in each case that ranks equal with or subordinate to an Approved Obligation in respect of which a Subrogation Amount is payable to the Province under subclause 2.01(a)iv(B), shall be entitled to make any claim or assert any right in or to the amounts paid or payable to the Province under such subclause (including any right of set-off, offset, reimbursement, contribution or indemnity) and no such Beneficiary or other Person shall have any right or interest in, to or under the Collateral or any proceeds therefrom in respect of any such Subrogation Amount.

v. On the first day on which a payment is required to be made in respect of any Obligations Secured under the Trust Indenture that occurs after the day on which all amounts payable under all Approved Obligations have been paid in full (whether pursuant to Guarantee Payments, payments made pursuant to the payment provisions of the Trust Indenture, any combination thereof or otherwise) (the "**Determination Date**"), the applicable payment provisions of the Trust Indenture shall,

notwithstanding any express terms of such provisions set forth in the Trust Indenture to the contrary, be applied and operate on the following basis:

(A) the Manager shall calculate each of the following amounts as of and by reference to the Determination Date:

(III) the payment entitlements described in sub-subclauses 2.01(a)v(B)(V) and (VI) shall constitute and be treated as interest and principal obligations, as the context requires, arising under a Series of Notes constituting Junior Subordinated Funding Obligations issued by the Financing Entity to the Province on the Determination Date and conferring upon the Province (and any successor, assignee or transferee of such entitlements), all of the rights, entitlements, interests and privileges of a Holder of such a Series of Notes in accordance with the Trust Indenture, as supplemented by *[Describe applicable Junior Subordinated Series Supplemental Indenture]*;

(IV) and the payment entitlements described in sub-subclause 2.01(a)v(B)(VII) shall constitute and be treated as a payment obligation without any additional rights, entitlements, interests or privileges, other than the right to receive payment in accordance with the applicable payment provisions of the Trust Indenture applicable to Obligations Secured ranking equally with amounts payable on the Obligations Secured having the lowest payment ranking in accordance with the applicable payment provisions of the Trust Indenture to any Person other than OPG; and

(D) no Person entitled under an Obligation Secured that ranks equal with or subordinate to a Final Subrogation Amount shall be entitled to make any claim or assert any right in or to the amounts paid or payable to the Province in respect of such Final Subrogation Amount and no such Person shall have any right or interest in, to or under the Collateral or any proceeds therefrom in respect of any such Final Subrogation Amount.

vi. On any Guarantee Payment Date and on the Determination Date, the Indenture Trustee shall release and pay to the Province free and clear of any Liens any amount remaining on deposit in the Protection Account that has not been applied to pay Guarantee Payments to Beneficiary Payees on

the Guarantee Payment Date in accordance with clause 2.01(a)iii or that otherwise remains on deposit in the Protection Account on the Determination Date.

vii. In preparing any payment instructions under the Trust Indenture, the Manager shall reflect the amounts payable under Section 2.01(a).

(b) The Province shall, as a payee of Subrogation Amounts under clause 2.01(a)iv(B), as a payee of each Final Subrogation Amount under clause 2.01(a)v and as a payee of any amounts payable under clause 2.01(a)vi, be a "Specified Creditor" under the Trust Indenture and have the benefit of the Collateral thereunder.

(c) For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation and will be limited to the right to receive the Approved Obligation Amounts, if any, for payment to Beneficiary Payees and will be subject to the priorities and to the Province's rights to Subrogation Entitlements, set forth in Section 2.01(a).

(d) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

(e) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid by the Province when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation by their terms.

(f) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee (and to the Beneficiaries, to the extent they are permitted to exercise any rights, interests, or elections under and in accordance with the Trust Indenture) under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits; provided that, for greater certainty, economic loss shall not include any amount in respect of any amount due and payable to a Beneficiary Payee under the Limited Guarantee.

2.02 Intentionally Deleted.

2.03 <u>Absence of Set-off</u>

Subject to applicable law, the Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

2.04 Payment into Protection Account in Satisfaction

(a) On or before the date of delivery of a Payment Demand to the Province, the Indenture Trustee shall cause to be established and maintained an Eligible Deposit Account (the "**Protection Account**") in the name of the Indenture Trustee, bearing a designation clearly indicating that the funds and other property credited thereto are held for the benefit of the Indenture Trustee and the Beneficiaries. The Protection Account shall be under the control of the Indenture Trustee for the benefit of the Beneficiaries. If, at any time, the institution holding the Protection Account ceases to be an Eligible Institution, the FSM shall notify the Indenture Trustee, and the Indenture Trustee upon being notified in writing of such ineligibility (or the FSM on its behalf) shall within 30 days (or such longer period, not to exceed 45 days, so long as the Rating Agency Condition is satisfied) establish a new Protection Account that is an Eligible Deposit Account and shall transfer any funds or other property from such Protection Account to such new Protection Account. From the date each such new Protection Account is established, it shall be the "Protection Account" for purposes of this Agreement. Funds credited to the Protection Account will be invested and held in accordance with Section **[7.03]** of the Trust Indenture on the basis that it is an Issuer Account.

(b) Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Financing Entity and the Indenture Trustee shall ensure that all amounts paid by the Province into the Protection Account on a Guarantee Payment Date in respect of an Approved Obligation are applied to pay the amounts due and payable to the Beneficiaries as and to the extent provided for in Section 2.01(a). Upon a payment having been made by or on behalf of the Province into the Protection Account, the amounts so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiaries as provided for in Section 2.01(a) and thereby reduce the amount due and payable to such Beneficiaries in respect of the applicable Approved Obligations, whereupon an affected Beneficiary shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid. For greater certainty, the obligations arising in respect of an applicable Approved Obligation shall not be reduced by such payment as the Province shall become entitled to be paid related Subrogation Entitlements and the rights contemplated under Section 2.01(a) and Section 5.01 in relation to such continuing obligations.

2.05 Certain Waivers

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety.

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

2.06 Additional Security

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

2.07 Continuing Liability of the Province

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Approved Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

2.08 Continuance of the Limited Guarantee

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations in accordance with Section 8.01.

2.09 Modifications of Approved Obligations

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements and this Agreement, to:

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine.

ARTICLE III
THE INDENTURE TRUSTEE

3.01 The Indenture Trustee

This Agreement is made in favour of the Indenture Trustee in its capacity as trustee under the Trust Indenture. Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the Indenture Trustee hereunder, but nevertheless, the Indenture Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Agreement. All provisions of the Trust Indenture for the protection of the Indenture Trustee or for facilitating the administration of the trusts or otherwise relating to the Indenture Trustee solely as to its holding of the rights thereunder shall apply *mutatis mutandis* to this Agreement and the Indenture Trustee's duties hereunder.

3.02 Acceptance of Trusts

The Indenture Trustee hereby accepts the trusts hereof and agrees to carry out and discharge the same unless and until a new trustee shall be appointed as contemplated in Section 3.01.

ARTICLE IV

RECITALS

Pursuant to Subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**"), the Lieutenant Governor in Council may by order, authorize the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to agree to guarantee or indemnify certain debts, obligations, securities or undertakings associated with an Investment Interest.

Pursuant to an Order in Council 1981/2017 (the "**OIC**"), the Lieutenant Governor in Council has, among other things, authorized the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to enter into one or more agreements to guarantee or indemnify the debts, obligations, securities or undertakings of one or more financing entities established or caused to be established pursuant to Subsection 22(2) of the Act by the FSM and that may incur Funding Obligations in connection with one or more Investment Interests.

Pursuant to a Declaration of Trust dated as of ■, 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

The Financing Entity Trustee, in its capacity as trustee of the Financing Entity, and the Indenture Trustee are parties to the Trust Indenture and propose to create and issue series of notes, bonds and other securities as contemplated therein, and to provide security over the assets and undertaking of the Financing Entity in respect of such notes, bonds and securities, as well as other Obligations Secured.

The Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, have determined to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Primary Obligations that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred. This Agreement sets out the terms and conditions of such protections and assurances.

All things necessary to make this Agreement a valid and legally binding agreement of the Province, the Financing Entity, the FSM and the Indenture Trustee, in accordance with the Act, the OIC and the Trust Indenture, have been done.

(D) ~~(E)~~ no Person entitled under an Obligation Secured that ranks equal with or subordinate to a Final Subrogation Amount shall be entitled to make any claim or assert any right in or to the amounts paid or payable to the Province in respect of such Final Subrogation Amount and no such Person shall have any right or interest in, to or under the Collateral or any proceeds therefrom in respect of any such Final Subrogation Amount.

vi. ~~v.~~ On any Guarantee Payment Date and on the Determination Date, the Indenture Trustee shall release and pay to the Province free and clear of any Liens any amount remaining on deposit in the Protection Account that has not been applied to pay Guarantee Payments to Beneficiary Payees on the Guarantee Payment Date in accordance with clause 2.01(a)iii or that otherwise remains on deposit in the Protection Account on the Determination Date.

vii. ~~vi.~~ In preparing any payment instructions under the Trust Indenture, the Manager shall reflect the amounts payable under Section 2.01(a).

(b) The Province shall, as a payee of Subrogation Amounts under clause 2.01(a)iv(B), as a payee of each Final Subrogation Amount under clause 2.01(a)~~(iv)(D)~~v and as a payee of any amounts payable under clause 2.01(a)vi, be a "Specified Creditor" under the Trust Indenture and have the benefit of the Collateral thereunder.

(c) For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation and will be limited to the right to receive the Approved Obligation Amounts, if any, for payment to Beneficiary Payees and will be subject to the priorities and to the Province's rights to Subrogation Entitlements, set forth in Section 2.01(a).

Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits; provided that, for greater certainty, economic loss shall not include any amount in respect of any amount due and payable to a Beneficiary Payee under the Limited Guarantee.

2.02 Intentionally Deleted.

2.03 Absence of Set-off

Subject to applicable law, the Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

2.04 Payment into Protection Account in Satisfaction

(a) On or before the date of delivery of a Payment Demand to the Province, the Indenture Trustee shall cause to be established and maintained an Eligible Deposit Account (the "**Protection Account**") in the name of the Indenture Trustee, bearing a designation clearly indicating that the funds and other property credited thereto are held for the benefit of the Indenture Trustee and the Beneficiaries. The Protection Account shall be under the control of the Indenture Trustee for the benefit of the Beneficiaries. If, at any time, the institution holding the Protection Account ceases to be an Eligible Institution, the FSM shall notify the Indenture Trustee, and the Indenture Trustee upon being notified in writing of such ineligibility (or the FSM on its behalf) shall within 30 days (or such longer period, not to exceed 45 days, so long as the Rating Agency Condition is satisfied) establish a new Protection Account that is an Eligible Deposit Account and shall transfer any funds or other property from such Protection Account to such new Protection Account. From the date each such new Protection Account is established, it shall be the "Protection Account" for purposes of this Agreement. Funds credited to the Protection Account will be invested and held in accordance with Section **[7.03]** of the Trust Indenture on the basis that it is an Issuer Account.

(b) Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Financing Entity and the Indenture Trustee shall ensure that all amounts paid by the Province into the Protection Account on a Guarantee Payment Date in respect of an

Approved Obligation are applied to pay the amounts due and payable to the Beneficiaries as and to the extent provided for in Section 2.01(a). Upon a payment having been made by or on behalf of the Province into the Protection Account, the amounts so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiaries as provided for in Section 2.01(a) and thereby reduce the amount due and payable to such Beneficiaries in respect of the applicable Approved Obligations, whereupon an affected Beneficiary shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid. For greater certainty, the obligations arising in respect of an applicable Approved Obligation shall not be reduced by such payment as the Province shall become entitled to be paid related Subrogation Entitlements and the rights contemplated under Section 2.01(a) and Section 5.01 in relation to such continuing obligations.

2.05 Certain Waivers

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety.

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

2.06 Additional Security

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

2.07 Continuing Liability of the Province

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Approved Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

2.08 Continuance of the Limited Guarantee

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations in accordance with Section 8.01.

2.09 Modifications of Approved Obligations

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements and this Agreement, to:

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine.

ARTICLE III
THE INDENTURE TRUSTEE

3.01 The Indenture Trustee

This Agreement is made in favour of the Indenture Trustee in its capacity as trustee under the Trust Indenture. Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the Indenture Trustee hereunder, but

nevertheless, the Indenture Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Agreement. All provisions of the Trust Indenture for the protection of the Indenture Trustee or for facilitating the administration of the trusts or otherwise relating to the Indenture Trustee solely as to its holding of the rights thereunder shall apply *mutatis mutandis* to this Agreement and the Indenture Trustee's duties hereunder.

3.02 Acceptance of Trusts

The Indenture Trustee hereby accepts the trusts hereof and agrees to carry out and discharge the same unless and until a new trustee shall be appointed as contemplated in Section 3.01.

ARTICLE IV
APPROVED OBLIGATIONS

4.01 Approval Process

A Primary Obligation shall constitute an Approved Obligation if (i) the Adherence Conditions applicable thereto have been satisfied at the time the Primary Obligation was incurred, or (ii) the Province, in its sole discretion, designates in writing that it is an Approved Obligation.

4.02 Adherence Conditions

(a) The following shall be the Adherence Conditions applicable in relation to each Certified Primary Obligation:

i. the Certified Primary Obligation when incurred is an Obligation Secured under the Trust Indenture; and

ii. OPG, as FSM, delivers an Adherence Compliance Certificate in the form attached hereto as Exhibit B-1 signed by the Chief Financial Officer and the Treasurer of OPG, or any two Executive Officers of OPG (for clarity, such certificate is to be provided by such officers in their capacity as officers of OPG acting in its capacity as FSM) and addressed to the Indenture Trustee, on or before the incurrence of a Certified Primary Obligation (provided that delivery may not be more than 5 Business Days before the incurrence of the Certified Primary Obligation);[4] and

iii. the Province has not provided a Suspension Notice to the Indenture Trustee, OPG and the Financing Entity.

[4] ~~Given the importance of this certificate, the form of the Adherence Compliance Certificate is set out in Exhibit B-1 to this Agreement and accordingly this language has been deleted from this para (ii) and is reproduced in the form of certificate attached as Exhibit B-1.~~

(b) The following shall be the Adherence Conditions applicable in relation to each Approved Refinancing:

i. such Approved Refinancing when incurred is an Obligation Secured under the Trust Indenture; and

ii. OPG, as FSM, delivers an Adherence Compliance Certificate in the form attached hereto as Exhibit B-2 signed by the Chief Financial Officer and the Treasurer of OPG, or any two Executive Officers of OPG (for clarity, such certificate is to be provided by such officers in their capacity as officers of OPG acting in its capacity as FSM) and addressed to the Indenture Trustee and the Province, on or before the incurrence of the Approved Refinancing (provided that delivery may not be more than 5 Business Days before the incurrence of such Approved Refinancing).[5]

(c) For greater certainty, ~~(y)~~ satisfaction of the Adherence Conditions for a Certified Primary Obligation or ~~a~~an Approved Refinancing shall be deemed satisfaction of the Adherence Conditions in respect of all principal, interest and other amounts owing under the Certified Primary Obligation or the Approved Refinancing, as applicable~~, as such Certified Primary Obligation or Refinancing may be amended, restated, supplemented or otherwise modified from time to time, and (z) there shall be no Adherence Conditions applicable in relation to a Primary Obligation that is not a Certified Primary Obligation or a Refinancing~~.

(d) Without limiting any obligations of OPG to the Province arising other than pursuant to this Agreement, a Certified Primary Obligation may be amended, restated, supplemented or otherwise modified from time to time.

(e) An Approved Refinancing may not be amended, restated, supplemented or otherwise modified without the consent of the Province.

(f) For greater certainty, there shall be no Adherence Conditions applicable in relation to a Primary Obligation that is not a Certified Primary Obligation or an Approved Refinancing.

4.03 Evidence of Satisfaction

An Adherence Compliance Certificate delivered in accordance with ~~Section~~clause 4.02(a)ii or in accordance with ~~Section~~clause 4.02(b)ii, as the case may be, shall be determinative as to whether the applicable Adherence Conditions with respect thereto have been satisfied,

[5] ~~Given the importance of this certificate, the form of the Adherence Compliance Certificate is set out in Exhibit B-2 to this Agreement.~~

notwithstanding that such certificate may include inaccuracies, be incomplete or otherwise be defective or deficient, and such closing certificate may be relied upon by any addressee as conclusive evidence of same. An Adherence Compliance Certificate that purports on its face to be signed by officers specified in ~~Section~~clause 4.02(a)ii or ~~Section~~clause 4.02(b)ii, as applicable, may be relied upon by any addressee without further enquiry or evidence as to the incumbency or signatures of such officers. If an Adherence Compliance Certificate is not delivered in accordance with the timing requirements of ~~Section~~clause 4.02(a)ii or ~~Section~~clause 4.02(b)ii, as applicable, such certificate may be delivered at a later date, and be effective as if it had been delivered in accordance with the timing requirement of ~~Section~~clause 4.02(a)ii or ~~Section~~clause 4.02(b)ii, as applicable, if at the time such certificate was required to be delivered OPG had delivered to the Province all certifications required by the Province in connection with the adherence of the Limited Guarantee to the Certified Primary Obligation or the Approved Refinancing.

ARTICLE V
PROVINCE MATTERS

5.01 Assignment and Subrogation

(a) Upon paying an amount in respect of an Approved Obligation to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee, the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation to the extent of such payment, including (i) the right and entitlement to be paid and receive the related Subrogation Entitlements, (ii) the benefits of the related Collateral and (iii) all proceeds therefrom. The Province shall have and be entitled to enforce all rights and interests (including as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)), under and in respect of such Approved Obligation to the extent of the payment by the Province in respect of the Approved Obligation as an absolute assignee of the applicable Beneficiary, with effect from and after the time of such payment, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing by the Beneficiary to the Financing Entity and unaffected by any other rights or equities that arise thereafter as between the Beneficiary and the Financing Entity. The Indenture Trustee shall recognize the Province as being entitled to all of the rights, interests and entitlements of the Beneficiary (including as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)) in respect and to the extent of the Approved Obligation so paid, determined as of the time of payment, for all purposes under the Trust Indenture, and the Province shall be treated as a Specified Creditor

in respect thereof for all purposes under the Trust Indenture and any other agreement under which the Approved Obligation arises.

(b) The Province (i) acknowledges and agrees in favour of the Indenture Trustee that, upon being subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation in accordance with Section 5.01(a), the Province, in its capacity as a Specified Creditor, will be subject to the provisions applicable to Specified Creditors under the Trust Indenture, including Sections **[7.04]** through **[7.11]** and **[8.13]** (Payment Priorities), Section **[7.12]** (Payments Held in Trust), Section **[8.11]** (Control by Controlling Class Creditors), Section **[8.12]** (Limitation on Suits), Section **[8.14]** (Limited Recourse), Article IX (The Indenture Trustee), including all limitations of liability thereunder, Section **[9.14]** (Communications to Specified Creditors) and Section **[16.01]** (No Petition); (ii) consents, requests and authorizes the Issuer and the Indenture Trustee to (x) add the Province to the register of Specified Creditors described in subsection **[13.13(b)]** of the Trust Indenture and (y) disseminate the notice details of the Province to other Specified Creditors for the purposes set out in subsection **[9.14(b)]** of the Trust Indenture, and (iii) confirms that it will execute and deliver, or cause to be executed and delivered, all such further agreements, documents and instruments in connection with this Section 5.01 as the Indenture Trustee may request from time to time for the purpose of giving effect to the terms of this Section 5.01.

5.02 Priorities

For greater certainty, the rights, interests and entitlements of the Province as an assignee and subrogee of and with respect to an Approved Obligation shall rank equally with the rights, interests and entitlements of a Beneficiary to whom a Limited Guarantee payment is made in respect of, and to the extent of the payment made to satisfy, the Approved Obligation and the Province shall not be subject to postponement or subordination with respect thereto except to the extent of the priorities established in relation to the Approved Obligation under the Trust Indenture in the manner and to the extent contemplated in Section **[7.10]** of the Trust Indenture.

5.03 Intentionally Deleted

5.04 Representations and Warranties

The Province hereby represents and warrants that:

(a) the execution and delivery of, and the performance of its obligations under, this Agreement by the Province have been authorized by all necessary action on the part of the Province;

(b) the execution and delivery of, and the performance of its obligations under, this Agreement by the Province do not result in the violation of any applicable law; and

(c) this Agreement has been duly executed and delivered by the Province.

ARTICLE VI
INDENTURE TRUSTEE MATTERS

6.01 Limited Recourse

No recourse may be taken, directly or indirectly, with respect to the obligations of the Financing Entity under this Agreement, or any certificate or other writing delivered in connection herewith or therewith, against (a) the Financing Entity Trustee in its individual capacity, (b) any owner of a beneficial interest in the Financing Entity or (c) any partner, owner, beneficiary, agent, officer, director, employee or agent of the Financing Entity Trustee in its individual capacity, any holder of a beneficial interest in the Financing Entity or the Financing Entity Trustee or of any successor or assign of the Financing Entity Trustee in its individual capacity, except as any such Person may have expressly agreed (it being understood that the Financing Entity Trustee has no such obligations in its individual capacity).

6.02 Not Responsible for Recitals

The recitals contained herein will be taken as the statements of the Province, the Financing Entity and the FSM, and the Indenture Trustee assumes no responsibility for their correctness. The Indenture Trustee makes no representations as to the validity or sufficiency of this Agreement.

6.03 Representations and Covenants of the Indenture Trustee[6]

The Indenture Trustee represents, warrants and covenants that:

(a) the Indenture Trustee is a trust company organized, existing and in good standing under the laws of Canada;

(b) the Indenture Trustee has full power and authority to execute, deliver and perform this Agreement and has taken all necessary action to authorize the execution, delivery and performance by it of this Agreement;

(c) this Agreement has been duly executed and delivered by the Indenture Trustee and constitutes its legal, valid and binding obligation in accordance with its terms; and

[6] ~~Explanatory Note: Indenture Trustee representations have been conformed to the MTI and are subject to review and sign off by the Indenture Trustee.~~

(d) the Indenture Trustee is authorized to carry on the business of a trust company in each of the provinces and territories of Canada. If, notwithstanding the provisions of this subsection 6.03(d), the Indenture Trustee ceases to be so authorized to carry on business, the validity and enforceability of this Agreement shall not be affected in any manner whatsoever by reason only of such event.

ARTICLE VII
SUSPENSION OF ADHERENCE FOR NEW PRIMARY OBLIGATIONS

7.01 Suspension Notice

Upon:

(a) a Program Breach;

(b) a default in the performance, or breach, of any covenants of OPG, as FSM, or OPG, in its corporate capacity, in each case to the Province in connection with its obligations to the Province pursuant to internal requirements and processes in connection with the provision or adherence of the Limited Guarantee to ~~the~~or in respect of any Certified Primary ~~Obligations~~Obligation and the expiration of any applicable cure period;

(c) a representation or warranty made by OPG or a certification made by one or more officers of OPG, in each case whether as FSM or in its corporate capacity, to the Province in connection with its obligations to the Province ~~pursuant to~~and its internal requirements and processes in connection with the provision or adherence of the Limited Guarantee to ~~the~~or in respect of any Certified Primary Obligations, proves to be incorrect in any material respect on the date made and~~, if curable, is not cured within thirty (30) days after written notice by the Province to OPG of such misrepresentation~~ the expiration of any applicable cure period; or

(d) the FSM no longer being the Manager or actions having been taken by or on behalf of the Indenture Trustee to remove the FSM as the Manager,

the Province may declare that the Limited Guarantee under this Agreement shall not apply to any Primary Obligations incurred on or after such declaration, other than any Approved Refinancing~~ of an Approved Obligation in respect of which the Adherence Conditions had previously been satisfied or if such Refinancing is otherwise an Approved Obligation~~, by delivering a written notice in the form of Exhibit C (a "**Suspension Notice**") to the Indenture Trustee, the FSM and the Financing Entity.[7]

[7] ~~The paragraph that was deleted from Section 7.01 was modified slightly and moved to the form of the Adherence Compliance Certificate set out in Exhibit B-2 as the Adherence Condition for the Refinancing so that it is clear what conditions have to be satisfied for a Refinancing to be an Approved Obligation. As discussed in our meeting with the principals and in response to the DBRS comments, debt issued on a refinancing of protected debt should continue to be protected debt.~~

7.02 Suspension

If a Suspension Notice has been provided under Section 7.01 (the provision of such notice being a "**Suspension Event**"), the Limited Guarantee shall not apply in respect of: (i) any Primary Obligation incurred or ~~(ii) any amendment of any Primary Obligation that results in an increase to the principal amount of such Primary Obligation, in each case,~~amended on or after the time such Suspension Notice is delivered, other than any Approved Refinancing ~~of an Approved Obligation in respect of which the Adherence Conditions had previously been satisfied or if such Refinancing is otherwise an Approved Obligation~~.

7.03 No Impact on Adherence

For greater certainty, the occurrence of a Suspension Event or a failure by the FSM or the Financing Entity to perform its covenants under this Agreement will not invalidate or extinguish the obligations of the Province under the Limited Guarantee in respect of Approved Obligations in existence prior to the occurrence of the Suspension Event or in respect of any Approved Refinancing ~~of an Approved Obligation in respect of which the Adherence Conditions had previously been satisfied or if such Refinancing is otherwise an Approved Obligation~~.

Draft: December 8, 2017

HER MAJESTY THE QUEEN IN RIGHT OF ONTARIO, AS REPRESENTED BY THE MINISTER OF ENERGY AND THE MINISTER OF FINANCE

AND

ONTARIO POWER GENERATION INC.

CHANGE OF LAW PROCESS AGREEMENT

Dated as of [■], 2017

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**") is made and entered into as of [■], 2017.

RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.

Pursuant to a Declaration of Trust dated as of [■], 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the applicable Adherence Conditions.

Prior to entering into this Agreement, OPG provided the Province with the final forms of certain of the Transaction Documents, as described on Exhibit "A", and the Province has not objected to such forms and hereby confirms to OPG that such Transaction Documents will constitute "Reference Documentation" for purposes of this Agreement.

Prior to entering into this Agreement, OPG, as the FSM, provided the Minister of Energy, in compliance with the Act, with the initial Financing Plan, which includes the initial forecast (the "**Initial Forecast**") setting out OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Obligations Secured to be incurred during the 24 month period from December 1, 2017 to November 30, 2019 (the "**Initial Forecast Period**"). Prior to entering into this Agreement, OPG provided the Province with the initial Protection Agreement Maximum (the "**Initial Protection Agreement Maximum**"). The Province has received the initial Financing Plan and has not disagreed with the Initial Forecast or the Initial Protection Agreement Maximum on the basis of an apparent inaccuracy in the Initial Forecast, an inconsistency between the Initial Forecast and the initial Financing Plan, or as a result of the Initial Protection Agreement Maximum being more than the Initial Forecast.

This Agreement sets out the obligations OPG has agreed to perform and assurances OPG has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the

applicable Adherence Conditions have been satisfied and maintaining information related to the Program Agreements and the Approved Obligations.

All things necessary to make this Agreement a valid and legally binding agreement of OPG and the Province, have been done.

AGREEMENT OF THE PARTIES

In consideration of the respective agreements herein contained, the parties hereto covenant and agree as follows:

ARTICLE II
COVENANTS OF OPG

2.01 Deliveries to the Province

(a) OPG shall promptly deliver to the Province a copy of any proposed change to or replacement of the Financing Plan.

(b) Not less than 10 Business Days, or such lesser period as the Province may agree to in writing, prior to:

(i) any proposed change in the terms or conditions applicable to a Primary Obligation in a previously provided Transaction Document becoming effective or otherwise being used that could reasonably be expected to have a Material Effect[1]; provided, however, that a proposed change in particular financial terms, rates and levels would not be such a material change other than a proposed change to any specific requirements, limitations or parameters with respect to such financial terms, rates and levels that were set forth in the previously provided Transaction Document and that would have a Material Effect, and

(ii) any additional, supplemental[2] or replacement Transaction Document becoming effective or otherwise being used,

OPG shall deliver to the Province a copy of such proposed change to the Transaction Document and any such additional, supplemental or replacement Transaction Document.

(c) Without limiting Subsection 2.01(b), promptly following (i) any change, modification, alteration, amendment, supplement, extension, renewal, compromise, novation, replacement, suspension or waiver of the terms of all or any part of the Approved Obligations or any Collateral therefor being made, (ii) any new, additional, supplemental or replacement instruments, documents, agreements or security being used or granted in connection with all or any part of the Approved Obligations, or (iii) any waiver, release, reconveyance, termination, abandonment, subordination, exchange, substitution, transfer, compound, compromise, liquidation or enforcement of all or any part of the Approved Obligations or any security or guarantee therefor being effected, OPG shall deliver to the Province a detailed description of such event and the reasons for it together with any related documents, agreements and instruments.

---

[1] Explanatory Note: New term to encapsulate and consistently use the materiality language previously incorporated in the "Substantially in the Form" provision.

[2] Explanatory Note: Supplement (e.g., indenture supplement) needs to be captured. Supplement concept has been reinserted.

(d) Promptly following any incurrence of a Funding Obligation or any amendment of a Funding Obligation, OPG shall provide the Province with electronic copies of all related Governing Documents and all other closing documents executed by or on behalf of the Financing Entity in connection with such incurrence or amendment that would affect the Financing Entity's assets or obligations (including, for greater certainty, any related Disclosure Document) and which have not been previously provided to the Province.

(e) Promptly upon request, OPG shall provide the Province with such additional information and documentation as the Province reasonably requests in order to enable the Province to assess the nature and extent of its obligations under the Change of Law Protection Agreement.

2.02 Covenants

(a) OPG shall use commercially reasonable efforts to cause the Financing Entity to:

(i) punctually perform and observe all of the Financing Entity's obligations and agreements contained in the Program Agreements;

(ii) ensure that all Obligations Secured are incurred pursuant to and in accordance with the terms and conditions of the Trust Indenture;

(iii) ensure that no obligations other than the Obligations Secured are incurred by or on behalf of the Financing Entity;

(iv) not engage in any business other than as permitted under the Declaration of Trust or the other Program Agreements and activities ancillary thereto; and

(v) not (unless waived in writing by the Province):

(A) amend, supplement, modify, restate or replace or waive or consent to a postponement of compliance with the terms and conditions on the part of any other party to any of the Program Agreements, if any such supplementation, amendment, modification, restatement, replacement, waiver or consent could reasonably be considered to have a Material Effect; provided, however, that the foregoing does not apply to any supplementation, amendment, modification, restatement, replacement, waiver or consent of, to or in respect of particular financial terms, rates and levels other than a supplementation, amendment, modification, restatement, replacement, waiver or consent to or in respect of any specific requirements, limitations or parameters with respect to such financial terms, rates and levels that were set forth in the applicable Program Agreement and that would have a Material Effect;

(B) extend, renew, compromise, novate, replace, suspend, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, liquidate or enforce the terms of all or any part of the Approved Obligations or any Collateral, if any such action could reasonably be considered to have a Material Effect; provided, however, that the foregoing does not apply to any such action taken in respect of particular financial terms, rates and levels other than such an action taken in respect of any specific requirements, limitations or parameters with respect to such financial terms, rates and levels that were set forth in the applicable Program Agreement and that would have a Material Effect; or

(C) permit the validity or effectiveness of the Change of Law Protection Agreement to be impaired.

(b) OPG shall:

(i) comply, and shall use commercially reasonable efforts to cause compliance by the Financing Entity, with the Act, the General Regulation and any other enactment related thereto;

(ii) punctually perform and observe all of its (including as the FSM and as Manager) obligations and agreements contained in the Program Agreements;

(iii) promptly notify the Province of the creation of any Funding Obligation that is not or would not be an Approved Obligation; and

(iv) notify the Province of (1) the occurrence of any Breach Event and any Program Breach, in each case within 2 Business Days of any such occurrence, and (2) any event or circumstance known to OPG that with the passage of time or the giving of notice would be a Breach Event or a Program Breach, in each case within 1 Business Day of OPG first becoming aware of such event or circumstance; and[3]

(v) after the occurrence of any Protection Event (or any event or circumstance known to OPG that with the passage of time or the giving of notice would be a Protection Event), not, without the Province's prior written consent, permit the Financing Entity to exercise any redemption, pre-payment, early termination or extension right in respect of any Approved Obligation or exercise any other election or privilege in respect of any Approved Obligation, in each case if as a result the obligations applicable to the Approved Obligation under the Change of Law Protection Agreement would be accelerated, delayed or otherwise affected.

[3] Explanatory Note: This is especially needed in light of Province's passive role and reliance on OPG.

(c) The Province and OPG acknowledge that their obligations to each other under the Indemnity Agreement between the Province and OPG dated June 1, 2017 (as amended, the "**Indemnity Agreement**") are not amended by this Agreement and continue in full force and effect, notwithstanding that this Agreement is entered into subsequent to the Indemnity Agreement.

(d) The Province and OPG acknowledge that their obligations to each other under the Indemnity Agreement are not amended by the Change of Law Protection Agreement and continue in full force and effect, notwithstanding that the Change of Law Protection Agreement was entered into subsequent to the Indemnity Agreement.

ARTICLE III
PROCESS CERTIFICATE

3.01 Process Certificate

OPG shall deliver a certificate (the "**Process Certificate**"), signed by the Chief Financial Officer and the Treasurer of OPG or any two Executive Officers of OPG (for clarity, such certificate is to be provided by such officers in their capacity as officers of OPG acting in its capacity as FSM) and addressed to the Province, on or before the incurrence or any amendment of a Funding Obligation, other than any Funding Obligation under which not more than $5,000,000 in the aggregate may become payable by the Financing Entity (provided that delivery may not be more than 5 Business Days before the incurrence or amendment of the Funding Obligation), setting out the following with respect to such Funding Obligation:

(a) the material terms of the Funding Obligation pertaining to (i) in the case of notes, bonds or other securities, the principal amount, interest or discount rate, third party fees, term to maturity, amortization, redemption or extension features, structure and coupon frequency, as applicable, and (ii) in the case of a Derivative Agreement, OPG's best estimate of the expected notional amount, financial terms and pricing, benchmarks, payment structures and early termination rights;

(b) if an existing Funding Obligation is proposed to be amended, material details respecting such amendment, including regarding the applicable details set forth in Subsection 3.01(a), as the context requires;

(c) a statement to the effect that: (i) the Funding Obligation to be incurred or amended (1) will arise under terms and conditions that are Substantially in the Form of the Reference Documentation applicable thereto; (2) in the opinion of the signatories to the Process Certificate, are reasonably incurred or effected in compliance with the Act, the General Regulation, any other enactments related thereto and the applicable Financing Plan; (3) are of a type and are on terms that a reasonably prudent financial services manager would incur in similar circumstances; and (4) reflect, in all material respects, arm's length terms and conditions; and (ii) any Disclosure Document used in connection with the offering

and sale of notes, bonds or other securities is Substantially in the Form of the Reference Documentation;

(d) a statement confirming that any disclosure made in respect of the Funding Obligation (including any Disclosure Document, press release or other written communication prepared for dissemination to third parties in relation to the Funding Obligation) that refers to or describes the terms, effect or adherence of or to this Agreement or the Change of Law Protection Agreement has been made available to the Province prior to use or dissemination, other than where such disclosure was substantially the same as a disclosure previously made;

(e) a statement that no Breach Event has occurred on or prior to the date of the Process Certificate, unless such Breach Event has been waived by the Province in writing; and

(f) confirmation that, at the time the Funding Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments under the Funding Obligation, together with all other outstanding amounts due or becoming due in the future in respect of Repayments under all Approved Obligations, do not and will not exceed the Protection Agreement Maximum applicable on the date that the Process Certificate is delivered; for clarity, Repayments under Obligations Secured owing in currencies other than Canadian dollars will be determined on the date the Process Certificate is delivered hereunder in accordance with the following:

(i) where a Derivative Agreement has been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the hedged value expressed in Canadian dollars; and

(ii) where a Derivative Agreement has not been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the noon spot rate for conversions of any currencies into Canadian dollars.

3.02 Acknowledgement regarding delivery of certificate under Change of Law Protection Agreement

The Province acknowledges and agrees that, concurrent with the delivery of the Process Certificate pursuant to Section 3.01 of this Agreement, the Chief Financial Officer and the Treasurer of OPG or any two Executive Officers of OPG (for clarity, such certificate is to be provided by such officers in their capacity as officers of OPG acting in its capacity as FSM) are authorized to deliver the certificate referred to in Subsection 4.02(a)(ii) of the Change of Law Protection Agreement to the Indenture Trustee confirming that OPG has complied with all of its obligations to the Province and internal requirements and processes in connection with adherence of the Limited Guarantee to the incurrence of the Certified Primary Obligations in respect of which the certificate in Subsection 4.02(a)(ii) of the Change of Law Protection Agreement is being delivered; provided that, upon receipt of a Suspension Notice under the Change of Law

Protection Agreement, OPG covenants not to deliver any further certificates to the Indenture Trustee under Subsection 4.02(a)(ii) of the Change of Law Protection Agreement but, for greater certainty, OPG, as FSM, may deliver a certificate referred to in Subsection 4.02(b)(ii) of the Change of Law Protection Agreement to the Indenture Trustee and the Province in connection with an Approved Refinancing.

3.03 Acknowledgement regarding delivery of Suspension Notice

The parties acknowledge and agree that the Province is entitled to deliver a Suspension Notice under Section 7.01 of the Change of Law Protection Agreement if a Program Breach or Breach Event has occurred. The Province agrees not to deliver a Suspension Notice pursuant to Section 7.01 of the Change of Law Protection Agreement unless a Program Breach or a Breach Event has occurred.

3.04 Meaning of "Reference Documentation"

For the purposes of Subsection 3.01(c), the term "Reference Documentation" shall mean each Transaction Document that, at the relevant time:

(a) is a Transaction Document listed on Exhibit "A"; or

(b) is a Transaction Document (including any amended or amended and restated Transaction Document) provided to the Province in accordance with Subsection 2.01(b) that has not been objected to by the Province, by delivery of an objection notice in writing delivered to OPG, within 10 Business Days after it is provided to the Province.

3.05 Meaning of "Substantially in the Form"

For the purposes of Subsection 3.01(c), the term "Substantially in the Form" shall mean:

(a) with respect to the Reference Documentation referred to in clauses (i) to (xi) of the definition of "Transaction Documents", that there are no differences between the proposed documents and such Reference Documentation that could result in a change in the material terms or conditions applicable to the applicable Primary Obligation that could have a Material Effect; provided, however, that the foregoing does not apply to any particular financial terms, rates and levels set forth in the proposed documents other than to the extent that the forms of Reference Documentation themselves specify specific requirements, limitations or parameters with respect to such financial terms, rates, levels and parameters; and

(b) with respect to the Reference Documentation referred to in clause (xii) of the definition of "Transaction Documents", that there are no material differences between the form and substance of the proposed Disclosure Document and such form of Disclosure Document and that the proposed Disclosure Document complies in all material respects with all applicable securities disclosure requirements relating to the Primary Obligation subject to distribution thereunder.

ARTICLE IV
PROTECTION AGREEMENT MAXIMUM

4.01 Protection Agreement Maximum

(a) Between nine (9) and twelve (12) months prior to the end of the Initial Forecast Period, OPG shall, as the FSM, deliver to the Province an updated forecast setting out the sum of (1) the aggregate amount of Repayments that will arise in the future under Approved Obligations that are then outstanding and (2) OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the period ending 24 months following the Initial Forecast Period, which expectation shall be consistent with the then applicable Financing Plan. Such updated forecast shall be further updated on a similar basis with respect to each successive 24 month period or more frequently if at any time OPG has knowledge that the most recent forecast is materially inaccurate (the Initial Forecast and each such updated forecast, each a "**Forecast**"). Together with each Forecast, OPG shall also provide a revised Protection Agreement Maximum, which may not exceed such Forecast.

(b) Not more than 10 Business Days, or such lesser period as the Province may agree to in writing, following receipt of any further Forecast and notice of the revised Protection Agreement Maximum from OPG pursuant to Section 4.01(a), the Province may disagree with such further Forecast or revised Protection Agreement Maximum on the basis that (i) there appears to be inaccuracies in such further Forecast, (ii) the further Forecast is inconsistent with the Financing Plan, or (iii) the revised Protection Agreement Maximum is more than the further Forecast. If the Province disagrees, OPG shall discuss any discrepancies with the Province, address any inaccuracies and inconsistencies to the reasonable satisfaction of the Province and OPG, and the revised Protection Agreement Maximum will be further revised accordingly and confirmed by an amended notice to the Province.

(c) For clarity, Repayments under Obligations Secured owing in currencies other than Canadian dollars will be valued at the time to be determined for the purposes of this Section 4.01 in accordance with the following:

(i) where a Derivative Agreement has been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the hedged value expressed in Canadian dollars; and

(ii) where a Derivative Agreement has not been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the noon spot rate for conversions of any currencies into Canadian dollars.

ARTICLE V

5.01 Representations and Warranties of OPG

OPG represents and warrants that on the date hereof and on each day that a Primary Obligation is incurred or amended:

(a) The Financing Entity is a trust duly constituted and validly existing under the laws of the Province of Ontario, is duly qualified to carry on its business in each jurisdiction in which it carries on business, and has the power and authority to perform the acts that OPG, as the FSM, may cause it to perform pursuant to this Agreement and to own its property and carry on its business in accordance with the Program Agreements.

(b) OPG is a corporation duly constituted and validly existing under the laws of the Province of Ontario and has the power and authority to enter into and perform its obligations under this Agreement and all instruments and agreements delivered pursuant hereto.

(c) OPG has the power and authority to enter into and perform its obligations as the FSM under the Program Agreements and all instruments and agreements delivered pursuant thereto.

(d) The execution, delivery and performance of this Agreement and every instrument or agreement delivered pursuant hereto or in its capacity as the FSM has been or will be duly authorized by all requisite action by OPG and constitute a valid and binding obligation in accordance with its terms subject to (i) applicable bankruptcy, insolvency, moratorium and similar laws at the time in effect affecting the rights of creditors generally, and (ii) equitable principles which may limit the availability of certain remedies, including the remedy of specific performance.

(e) There are no actions, suits or proceedings pending or, to the knowledge of OPG, threatened against or affecting the Financing Entity at law or in equity or before or by any Governmental Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of the Financing Entity or in the ability of the Financing Entity to perform its obligations under the Program Agreements.

(f) There are no actions, suits or proceedings pending or, to the knowledge of OPG, threatened against or affecting OPG at law or in equity or before or by any Governmental Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of OPG or in the ability of the OPG to perform its obligations under this Agreement or any Program Agreements.

(g) The performance by the Financing Entity of the Program Agreements does not conflict with, will not conflict with, does not result in, and will not result in, any breach of, and does not constitute, a default under, the Declaration of Trust or any agreements or instruments to which the Financing Entity is a party or by which it or any of its property and assets are bound.

(h) Neither the execution nor delivery of this Agreement, the Program Agreements nor any agreements or instruments delivered pursuant hereto or thereto, the consummation of the transactions herein or therein, nor compliance with the terms, conditions and provisions hereof or thereof conflicts with or will conflict with, or results or will result in any breach of, or constitutes a default under, any of the provisions of the constating documents of OPG or any agreements or instruments to which OPG is a party or by which it or any of its property and assets are bound.

(i) No consent, approval or authorization of, or declaration, registration, filing or qualification with, or giving of notice to, or taking of any other action in respect of, any Governmental Authority on the part of OPG is required in connection with the execution and delivery of this Agreement, the Program Agreements or any agreements or instruments delivered pursuant hereto or thereto or the consummation of any of the transactions contemplated hereby or thereby or in connection with the enforcement of this Agreement, the Program Agreements or any agreements or instruments delivered pursuant hereto or thereto, except those which have been obtained.

5.02 Representations and Warranties of the Province

The Province hereby represents and warrants that:

(a) the execution and delivery of, and the performance of its obligations under, this Agreement by the Province have been authorized by all necessary action on the part of the Province;

(b) the execution and delivery of, and the performance of its obligations under, this Agreement by the Province do not result in the violation of any applicable law; and

(c) this Agreement has been duly executed and delivered by the Province.

ARTICLE VI
BREACH EVENTS

6.01 Breach Events

"**Breach Event**" shall mean the occurrence or existence of any one or more of the following:

(a) a default in the performance, or breach, by OPG of Section 2.01(b)(i), Section 2.02(b)(iv)[4] or Section 3.01[5];

(b) a default in the performance, or breach, of any other covenants of OPG under this Agreement (excluding Section 2.01(b)(i), Section 2.02(b)(iv) and Section 3.01), which, if curable in a way such that the default or breach would not have or have had a Material Effect[6], is not so cured within thirty (30) days;

(c) any representation or warranty made by OPG in this Agreement, any certification made in a Process Certificate, or any certification made in a certificate contemplated by Subsection 4.02 of the Change of Law Protection Agreement, proves to be incorrect on the date made and which, if curable in a way such that the incorrect representation or warranty may be remedied without any Material Effect[7] having occurred as a result of the Province's reliance thereon, is not so cured within thirty (30) days; or

(d) OPG is no longer the Manager or actions have been taken by or on behalf of the Indenture Trustee to remove OPG as the Manager.

ARTICLE VII
MISCELLANEOUS

7.01 Term of Agreement

This Agreement will continue for the term of the Change of Law Protection Agreement.

7.02 Notices

Any notice or other communication required or permitted to be given hereunder will be in writing and will be given by prepaid first-class mail, by facsimile or other means of electronic communication or by hand-delivery as hereinafter provided. Any such notice or other communication, if mailed by prepaid first-class mail at any time other than during a general discontinuance of postal service due to strike, lockout or otherwise, will be deemed to have been received on the fourth Business Day after the post-marked date thereof, or if sent by facsimile or other means of electronic communication, will be deemed to have been received on the Business Day following the sending, or if delivered by hand will be deemed to have been received at the time it is delivered to the applicable address noted below either to the individual designated

[4] Explanatory Note: This recognizes that a failure to notify the Province of an event that would allow it to deliver a Suspension Notice cannot itself be cured since that would create a self-defeating loop from the Province's standpoint.

[5] Explanatory Note: This recognizes that a failure to deliver a Process Certificate when required cannot be cured, as this goes to the workability of the corresponding provisions in the Protection Agreement. It would defeat the structure to allow a Protection Agreement certificate to be delivered to satisfy the adherence conditions based on the idea that a default cure period had not yet lapsed in connection with a failure to deliver a Process Certificate.

[6] Explanatory Note: This recognizes that a cure period will only be reasonable if the consequence of a possible cure would be that no Material Effect would be/have been created.

[7] Explanatory Note: Same.

HER MAJESTY THE QUEEN IN RIGHT OF ONTARIO, AS REPRESENTED BY THE MINISTER OF ENERGY AND THE MINISTER OF FINANCE

AND

ONTARIO POWER GENERATION INC.

CHANGE OF LAW PROCESS AGREEMENT

Dated as of [■], 2017

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**") is made and entered into as of [■], 2017.

RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.

Pursuant to a Declaration of Trust dated as of [■], 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the applicable Adherence Conditions.

Prior to entering into this Agreement, OPG provided the Province with the final forms of certain of the Transaction Documents, as described on Exhibit "A", and the Province has not objected to such forms and hereby confirms to OPG that such Transaction Documents will constitute "Reference Documentation" for purposes of this Agreement.

Prior to entering into this Agreement, OPG, as the FSM, provided the Minister of Energy, in compliance with the Act, with the initial Financing Plan, which includes the initial forecast (the "**Initial Forecast**") setting out OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Obligations Secured to be incurred during the 24 month period from December 1, 2017 to November 30, 2019 (the "**Initial Forecast Period**"). Prior to entering into this Agreement, OPG provided the Province with the initial Protection Agreement Maximum (the "**Initial Protection Agreement Maximum**"). The Province has received the initial Financing Plan and has not disagreed with the Initial Forecast or the Initial Protection Agreement Maximum on the basis of an apparent inaccuracy in the Initial Forecast, an inconsistency between the Initial Forecast and the initial Financing Plan, or as a result of the Initial Protection Agreement Maximum being more than the Initial Forecast.

This Agreement sets out the obligations OPG has agreed to perform and assurances OPG has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the

applicable Adherence Conditions have been satisfied and maintaining information related to the Program Agreements and the Approved Obligations.

All things necessary to make this Agreement a valid and legally binding agreement of OPG and the Province, have been done.

AGREEMENT OF THE PARTIES

In consideration of the respective agreements herein contained, the parties hereto covenant and agree as follows:

ARTICLE V
REPRESENTATIONS AND WARRANTIES

5.01 Representations and Warranties of OPG

OPG represents and warrants that on the date hereof and on each day that a Primary Obligation is incurred or amended:

(a) The Financing Entity is a trust duly constituted and validly existing under the laws of the Province of Ontario, is duly qualified to carry on its business in each jurisdiction in which it carries on business, and has the power and authority to perform the acts that OPG, as the FSM, may cause it to perform pursuant to this Agreement and to own its property and carry on its business in accordance with the Program Agreements.

(b) OPG is a corporation duly constituted and validly existing under the laws of the Province of Ontario and has the power and authority to enter into and perform its obligations under this Agreement and all instruments and agreements delivered pursuant hereto.

(c) OPG has the power and authority to enter into and perform its obligations as the FSM under the Program Agreements and all instruments and agreements delivered pursuant thereto.

(d) The execution, delivery and performance of this Agreement and every instrument or agreement delivered pursuant hereto or in its capacity as the FSM has been or will be duly authorized by all requisite action by OPG and constitute a valid and binding obligation in accordance with its terms subject to (i) applicable bankruptcy, insolvency, moratorium and similar laws at the time in effect affecting the rights of creditors generally, and (ii) equitable principles which may limit the availability of certain remedies, including the remedy of specific performance.

(e) There are no actions, suits or proceedings pending or, to the knowledge of OPG, threatened against or affecting the Financing Entity at law or in equity or before or by any Governmental Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of the Financing Entity or in

the ability of the Financing Entity to perform its obligations under the Program Agreements.

(f) There are no actions, suits or proceedings pending or, to the knowledge of OPG, threatened against or affecting OPG at law or in equity or before or by any Governmental Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of OPG or in the ability of the OPG to perform its obligations under this Agreement or any Program Agreements.

(g) The performance by the Financing Entity of the Program Agreements does not conflict with, will not conflict with, does not result in, and will not result in, any breach of, and does not constitute, a default under, the Declaration of Trust or any agreements or instruments to which the Financing Entity is a party or by which it or any of its property and assets are bound.

(h) Neither the execution nor delivery of this Agreement, the Program Agreements nor any agreements or instruments delivered pursuant hereto or thereto, the consummation of the transactions herein or therein, nor compliance with the terms, conditions and provisions hereof or thereof conflicts with or will conflict with, or results or will result in any breach of, or constitutes a default under, any of the provisions of the constating documents of OPG or any agreements or instruments to which OPG is a party or by which it or any of its property and assets are bound.

(i) No consent, approval or authorization of, or declaration, registration, filing or qualification with, or giving of notice to, or taking of any other action in respect of, any Governmental Authority on the part of OPG is required in connection with the execution and delivery of this Agreement, the Program Agreements or any agreements or instruments delivered pursuant hereto or thereto or the consummation of any of the transactions contemplated hereby or thereby or in connection with the enforcement of this Agreement, the Program Agreements or any agreements or instruments delivered pursuant hereto or thereto, except those which have been obtained.

5.02 Representations and Warranties of the Province

The Province hereby represents and warrants that:

(a) the execution and delivery of, and the performance of its obligations under, this Agreement by the Province have been authorized by all necessary action on the part of the Province;

(b) the execution and delivery of, and the performance of its obligations under, this Agreement by the Province do not result in the violation of any applicable law; and

(c) this Agreement has been duly executed and delivered by the Province.

ARTICLE VI
BREACH EVENTS

6.01 Breach Events

"**Breach Event**" shall mean the occurrence or existence of any one or more of the following:

(c) any representation or warranty made by OPG in this Agreement, any certification made in a Process Certificate, or any certification made in a certificate contemplated by Subsection 4.02 of the Change of Law Protection Agreement, proves to be incorrect on the date made and which, if curable in a way such that the incorrect representation or warranty may be remedied without any Material Effect[97] having occurred as a result of the Province's reliance thereon, is not so cured within thirty (30) days; or

(d) OPG is no longer the Manager or actions have been taken by or on behalf of the Indenture Trustee to remove OPG as the Manager.

ARTICLE VII
MISCELLANEOUS

7.01 Term of Agreement

This Agreement will continue for the term of the Change of Law Protection Agreement.

[64] Explanatory Note: This recognizes that a failure to notify the Province of an event that would allow it to deliver a Suspension Notice cannot itself be cured since that would create a self-defeating loop from the Province's standpoint.

[75] Explanatory Note: This recognizes that a failure to deliver a Process Certificate when required cannot be cured, as this goes to the workability of the corresponding provisions in the Protection Agreement. It would defeat the structure to allow a Protection Agreement certificate to be delivered to satisfy the adherence conditions based on the idea that a default cure period had not yet lapsed in connection with a failure to deliver a Process Certificate.

[86] Explanatory Note: This recognizes that a cure period will only be reasonable if the consequence of a possible cure would be that no Material Effect would be/have been created.

[97] Explanatory Note: Same.

7.02 Notices

Any notice or other communication required or permitted to be given hereunder will be in writing and will be given by prepaid first-class mail, by facsimile or other means of electronic communication or by hand-delivery as hereinafter provided. Notice of change of address will also be governed by this Section. In the event of a general discontinuance of postal service due to strike, lock-out or otherwise, notices or other communications will be delivered by hand or sent by facsimile or other means of electronic communication and will be deemed to have been received in accordance with this Section. Notices and other communications will be addressed as follows:

7.04 Enurement

This Agreement will enure to the benefit of and be binding upon the parties hereto and their respective successors and permitted assigns.

Subject: RE: Fair Hydro - Change of Law Protection Agreement

Hi,

Attached is a revised version of the Change of Law Protection Agreement. I believe that most of the changes reflected from last night's Osler version (blackline is attached) are of a drafting or conforming nature, other than: (1) the Province disagrees that Approved Refinancing terms should be unfettered by adherence conditions post-Suspension Event and (2) the proposed rating-based "materially and adversely" qualification in the definition of Protection Event (and in fact any such qualification) is not acceptable to the Province. With regard to (1), this version comes into line with the proposed approach (i.e., using a modified adherence condition) that was incorporated into the version of the Change of Law Process Agreement I circulated yesterday. A further turn of that Agreement, to conform the open item identified in section 3.02 to the revised Change of Law Protection Agreement, is also included here for your reference.

Please note that the Province is working through the drafting concurrently and so further drafting comments may be provided.

As mentioned yesterday, the Province would like to proceed with the Ministers sign-off briefing early next week, on the basis that these versions (minus the explanatory notes) are now in substantially final form. Please identify if you believe there are other 'must have' points (other than the 2 mentioned above).

Subject: RE: Fair Hydro -- Change of Law Process Agreement

Hi,

Please find (attached) a further turn of the Change of Law Process Agreement, reflecting the Province's comments on the mark-up of the Agreement circulated yesterday afternoon by Torys. The attached blackline shows changes made to yesterday's Torys mark-up.

This version addresses concerns Rocco raised last night, to the extent the Province feels that the issues can be accommodated. For your information, I have set out below responses to Rocco's comments/observations (in CAPs).

The Province would like to proceed with the Ministers briefing early next week, on the basis that this version (minus the explanatory notes) is now in final form. If there are

any critical revisions that the other parties believe reflect 'must have' priority, then the Province would like to have a call to discuss them as soon as possible.

Responses to Rocco's Points:

1. The change of the definition of Breach Event in Section 6.01 (i.e., the change to clause (a) and the addition of clause (b)) will result in an inconsistency with section 7.01(b) of the Change of Law Protection Agreement. This will require further consideration. [AGREED. 7.01(b) and 7.01(c) will need to mirror the cure language we settle on in the Process Agreement (see my earlier comments). Perhaps the "which continues …" language in 7.01(B) can be revised to read: "to the extent that the Province would be entitled to provide a Suspension Notice in accordance with the terms of the agreement or agreements between the Province and OPG under which such obligations, requirements and processes arise". SIMILAR CHANGE FOR 7.01(C).

2. The right of the Province to issue an objection notice under Section 3.04(b) in connection with a Transaction Document provided to the Province which is required for a Refinancing of an Approved Obligation remains an outstanding issue. Clearly, this will depend upon what Adherence Conditions will be required under Section 4.02 of the Change of Law Protection Agreement in order to permit such Refinancing to become an Approved Obligation. If the Adherence Conditions set out in Section 4.02(a) of the Province's draft of the Change of Law Protection Agreement of December 4 were to apply to such Refinancing, to the extent that such refinancing required a change to a Transaction Document (e.g., as a result of a change to some rating agency condition or criteria), the Province's ability to issue an objection notice and thereby prevent the issuance of a Process Certificate under Section 3.01 (by virtue of Section 3.04) would have the effect of preventing a Refinancing. We trust that this was an unintended outcome of the drafting of Section 3.04 and/or the Adherence Conditions applicable to Refinancings. [THAT IS THE INTENDED EFFECT. THE ADHERENCE CONDITIONS WOULD APPLY TO THE REFINANCING, SO IF THE REFINANCING TERMS DEVIATED MATERIALLY (BASED ON THE SUBSTANTIALLY IN THE FORM" THRESHOLD"), THEN OPG WOULD REQUIRE THE PROVINCE NOT TO OBJECT IN ORDER TO PROCEED WITH THOSE NEW TERMS. OTHERWISE, THE REFINANCING COULD INCORPORATE TERMS AND CONDITIONS, WHICH WOULD BIND THE PROVINCE UNDER THE LIMITED GUARANTEE, THAT WOULD BE UNCONSTRAINED AND WITHOUT ANY ACCOUNTABILITY TO THE PROVINCE. IN ROCCO'S EXAMPLE, THAT MIGHT MEAN THAT OPG WOULD NEED TO RESORT TO UNRATED DEBT, IF THE PROVINCE WAS UNWILLING TO ACCEPT THE NEW TERMS. PRESUMABLY EVERYONE WOULD ACT RATIONALLY. HOWEVER, AS A FAILSAFE, OPG COULD OFFER INCREASED PRICING IN ORDER TO ATTRACT

INVESTORS TO ACCEPT THE EARLIER VETTED TERMS (BASED ON THE THEN ACCEPTED REVIEWED DOCUMENTATION).]

3. Given that the Indenture Trustee is not a party to the Change of Law Process Agreement, the Province and OPG can amend the terms and conditions of this agreement without the consent of the indenture Trustee. Specified Creditors under an Approved Obligation need to be assured that the Province cannot prevent a Refinancing of an Approved Obligation either by virtue of the objection notice discussed in point #2 above or as a result of a future amendment to the agreement. There are a couple of ways to deal with this point. The first is to a add a beneficiary/third party rights clause in the Change of Law Process Agreement which acknowledges that the Indenture Trustee is a beneficiary of certain provisions of this agreement and as a result, the agreement cannot be amended without the consent of the Indenture Trustee. The second is to ensure that the Adherence Conditions relating to Refinancings under the Change of Law Protection Agreement are not dependent upon the terms of the Change of Law Process Agreement. In light of the desire to not disclose the terms and conditions of the Change of Law Process Agreement to the rating agencies, especially at this late stage in the process, we would expect that the latter approach would be preferable. [THE SUGGESTION REGARDING THE PROVINCE PREVENTING A REFINANCING IS ADDRESSED IN #2. IF THE REFINANCING TERMS WOULD EXCEED THE SCOPE OF THE TRANSACTION DOCUMENTS REVIEWED AND NOT OBJECTED TO BY THE PROVINCE, THEN THAT SUGGESTS THERE IS A MATERIAL EFFECT ON THE PROVINCE AND SO THE PROVINCE WOULD NEED THE ABILITY TO REVIEW AND CONSIDER THE PROPRIETY OF THOSE NEW TERMS FROM ITS PERSPECTIVE. AS FOR THE STANDALONE NATURE OF THE PROCESS AGREEMENT, THE INTENTION IS THAT THE PROCESS AGREEMENT BE UNCOUPLED AND NOT PART OF THE COLLATERAL, AND AS MICHAEL FELDMAN HAS EXPLAINED, LEAVE FUTURE FLEXIBILITY FOR THIS LONG-TERM STRUCTURE. TO ADDRESS ROCCO'S CONCERN THAT THE PROVINCE AND OPG COULD CHANGE THE UNDERLYING OBLIGATIONS APPLICABLE TO ADHERENCE IN RELATION TO A NEW OBLIGATION, REQUIREMENT OR PROCESS IN THE PROCESS AGREEMENT THAT WOULD MAKE A REFINANCING LESS LIKELY TO OCCUR, WE HAVE ADDED AND USED IN THE ATTACHED VERSION A NEW DEFFINTION:

"Approved Refinancing" means a Certified Primary Obligation proposed to be incurred as a Refinancing of an existing Certified Primary Obligation in respect of which the Adherence Conditions had been satisfied on the date such existing Certified Primary Obligation was incurred, that, at the time of incurrence, satisfies each of each of the Adherence Conditions except that the certificate contemplated to be delivered under Section 4.02(b) shall instead confirm that OPG has delivered to the Province a certificate by its applicable officers confirming that OPG would be in compliance with all

obligations to the Province and internal requirements and processes in connection with the adherence of the Limited Guarantee to the proposed Certified Primary Obligation that applied as between the Province and OPG on the date of issuance of such existing Certified Primary Obligation." Various references to "Refinancing" in the Protection Agreement can also be revised to refer to "Approved Refinancing", as required.

Subject: RE: Fair Hydro -- Change of Law Process Agreement

I have reviewed the revised draft of the Change of Law Process Agreement that Torys has prepared and would like to pass along the following comments/observations:

1. The change of the definition of Breach Event in Section 6.01 (i.e., the change to clause (a) and the addition of clause (b)) will result in an inconsistency with section 7.01(b) of the Change of Law Protection Agreement. This will require further consideration.

2. The right of the Province to issue an objection notice under Section 3.04(b) in connection with a Transaction Document provided to the Province which is required for a Refinancing of an Approved Obligation remains an outstanding issue. Clearly, this will depend upon what Adherence Conditions will be required under Section 4.02 of the Change of Law Protection Agreement in order to permit such Refinancing to become an Approved Obligation. If the Adherence Conditions set out in Section 4.02(a) of the Province's draft of the Change of Law Protection Agreement of December 4 were to apply to such Refinancing, to the extent that such refinancing required a change to a Transaction Document (e.g., as a result of a change to some rating agency condition or criteria), the Province's ability to issue an objection notice and thereby prevent the issuance of a Process Certificate under Section 3.01 (by virtue of Section 3.04) would have the effect of preventing a Refinancing. We trust that this was an unintended outcome of the drafting of Section 3.04 and/or the Adherence Conditions applicable to

Refinancings.

3. Given that the Indenture Trustee is not a party to the Change of Law Process Agreement, the Province and OPG can amend the terms and conditions of this agreement without the consent of the indenture Trustee. Specified Creditors under an Approved Obligation need to be assured that the Province cannot prevent a Refinancing of an Approved Obligation either by virtue of the objection notice discussed in point #2 above or as a result of a future amendment to the agreement. There are a couple of ways to deal with this point. The first is to a add a beneficiary/third party rights clause in the Change of Law Process Agreement which acknowledges that the Indenture Trustee is a beneficiary of certain provisions of this agreement and as a result, the agreement cannot be amended without the consent of the Indenture Trustee. The second is to ensure that the Adherence Conditions relating to Refinancings under the Change of Law Protection Agreement are not dependent upon the terms of the Change of Law Process Agreement. In light of the desire to not disclose the terms and conditions of the Change of Law Process Agreement to the rating agencies, especially at this late stage in the process, we would expect that the latter approach would be preferable.

Subject: Fair Hydro -- Change of Law Process Agreement

Blakes team,

Please find attached OPG and Torys' comments on the Process Agreement reflecting our discussions from yesterday's call. Please note that this draft is subject to continuing review and comment by Osler and the dealers. As discussed at the tail end of our call yesterday, the section in the Process Agreement that gives the Province the right to object to new and material changes to transaction documents dovetails with the Protection Agreement so additional comments from Oslers may be forthcoming on this draft.

We are working on getting you a revised draft of the Protection Agreement either later today or tomorrow. In the meantime, please let us know if you have any comments or questions on the Process Agreement.

Best Regards,

Nina

("**OPG**"), as Financial Services Manager (as hereinafter defined), has created a program providing for the offering and issuance of senior secured notes (the "**Senior Notes**"), in one or several offerings. The Issuer is a Financing Entity under the FHPA and the Senior Notes are Funding Obligations being offered for the purposes of the FHPA.

The Senior Notes do not constitute a debt, liability or other obligation of, or interest in, OPG or any of its other affiliates (other than the Issuer). The Senior Notes are not a debt, liability or obligation of the Province of Ontario or any of its political subdivisions, agencies or instrumentalities. The Senior Notes will not be insured or guaranteed by the Province of Ontario, OPG or any of their respective affiliates or any other person or entity, except that the Province of Ontario has agreed to provide a limited guarantee in respect of the Senior Notes following the occurrence of certain events. See *"Change of Law Protection Agreement"*. The Senior Notes will be limited recourse obligations, secured only by the collateral described in this confidential shelf offering memorandum. See *"Capital Markets Platform — Acceleration and Remedies — Limited Recourse"* and *"Risk Factors"*.

The specific terms of any offering of Senior Notes, including, without limitation, the aggregate principal amount of Senior Notes being offered, the currency of the Senior Notes, the issue price (at par, at a discount or at a premium), the issue, delivery and maturity dates, any redemption or repayment provisions, the rating of the Senior Notes at the time of such offering, the interest (either fixed or floating and the circumstances, if any, under which the rate may be adjusted), the interest rate basis and interest payment dates, will be established by the Issuer and set forth in a term sheet (a "**Term Sheet**") that will accompany, be incorporated by reference in and form an integral part of this

confidential shelf offering memorandum. Unless otherwise specified in a Term Sheet, the Senior Notes will not be listed on any securities exchange.

The offering of Senior Notes from time to time (each, an "**Offering**") will be made pursuant to exemptions from the prospectus requirements of applicable securities laws in each of the provinces of Canada only to "accredited investors" (as such term is defined in National Instrument 45-106 – *Prospectus Exemptions* ("**NI 45-106**") and, in the case of a purchaser resident in Ontario, section 73.3(1) of the *Securities Act* (Ontario)) that are purchasing the Senior Notes as principal and that are not individuals unless those individuals are also "permitted clients" (as such term is defined in National Instrument 31-103 – *Registration Requirements, Exemptions and Ongoing Registrant Obligations* ("**NI 31-103**")). Purchasers of Senior Notes will be obliged to establish their qualification to invest in accordance with the requirements of the securities laws of the jurisdiction in which they reside. See *"Representations and Agreements of Purchasers"*. As each Offering will be made pursuant to exemptions from prospectus requirements of applicable securities laws, there will be restrictions on the resale of the Senior Notes. See *"Risk Factors"* and *"Restrictions on Resale"*.

The Senior Notes may be sold by the Issuer directly pursuant to applicable statutory exemptions or through agents designated by the Issuer from time to time (the "**Agents**"). See *"Plan of Distribution"*. Each Term Sheet will identify the Agents engaged to conditionally offer the Senior Notes for sale on a best efforts basis, subject to prior sale, in connection with the applicable Offering of Senior Notes and will also set forth the terms of such Offering of Senior Notes, including the net proceeds to the Issuer and, to the extent applicable, any fees payable to the Agents.

Subscriptions for the Senior Notes will be received subject to rejection or allotment in whole or in part and the right is reserved to close the subscription books at any time without notice. The Senior Notes will be delivered and recorded in book-entry form through CDS Clearing and Depository Services Inc. ("**CDS**") or another depository selected by the Issuer in accordance with the master trust indenture governing the Senior Notes. The Senior Notes will be represented by fully registered book-entry notes held by, or on behalf of, such depository, or a successor thereof, as the custodian of the book-entry notes, in its name or the name of its nominee.

The Senior Notes will be issued under and will be entitled to the benefits of a master trust indenture dated as of December 21, 2017 between the Issuer, as issuer, and BNY Trust Company of Canada, as indenture trustee, as amended, supplemented, restated or otherwise modified from time to time.

In making an investment decision, prospective investors acknowledge that they have not relied on the Agents or any person affiliated with the Agents for investment or other advice and are relying on their own examination of the terms of an Offering, including the merits and risks involved and creditworthiness of the Issuer. Prospective investors are not to construe the contents of this document as legal, tax, accounting or investment advice. Prior to investing in the Senior Notes, prospective investors should consult with their legal, tax, accounting and investment advisors to determine the consequences of an investment in the Senior Notes. See *"Risk Factors"* for a discussion of certain factors that should be considered by prospective purchasers of Senior Notes.

The Issuer is not a "reporting issuer" (as such term is defined under applicable Canadian securities laws) in any jurisdiction. The Issuer will only distribute the Senior Notes in Canada under exemptions from the prospectus requirements of the securities laws of the provinces where they are sold. The Senior Notes may only be traded in Canada under exemptions from the prospectus requirements of the securities laws of the provinces in which they are traded and only through dealers registered or exempt from the dealer registration requirements of applicable Canadian securities laws. See *"Restrictions on Resale"*.

There is currently no secondary market for the Senior Notes. There can be no assurance that a secondary market will develop or, if a secondary market does develop, that it will provide holders of Senior Notes with liquidity for their investment or that it will continue for the term of the applicable Senior Notes. Accordingly, purchasers of the Senior Notes may be required to bear the financial risk of investing in such Senior Notes until the maturity date of such Senior Notes.

No person is authorized to give any information or make any representation other than those contained in this confidential shelf offering memorandum in connection with an Offering and any decision to purchase Senior Notes should be based solely on the information contained herein. The Term Sheet applicable to such Offering and the

investor presentation (the "**Investor Presentation**"), attached hereto as Exhibit 1, are incorporated by reference and included in, respectively, and form an integral part of, this confidential shelf offering memorandum. The information contained in the Investor Presentation is current only as of the date thereof. The Investor Presentation may be updated and replaced by the Issuer in connection with an Offering and such updated Investor Presentation will be attached as Exhibit 1, and will be included in, and form an integral part of, this confidential shelf offering memorandum delivered in respect of such Offering.

This confidential shelf offering memorandum, including the Investor Presentation attached hereto, and any Term Sheets, are provided on a confidential basis to prospective investors for informational use solely in connection with their consideration of the purchase of Senior Notes. Use for any other purpose is not authorized. Each Offering will be made solely on the basis of the information contained herein or incorporated by reference which has been furnished by the Issuer. CAUTION REGARDING FORWARD-LOOKING INFORMATION

Some of the statements contained in this confidential shelf offering memorandum, including those relating to the Issuer's expectations, forecasts, strategic and other statements, are forward-looking information within the meaning of securities laws. Forward-looking information is contained in the summary and in the sections titled *"Ontario's Fair Hydro Plan — Fair Allocation Amount and Financing Plan"*, *"Subordinated Debt"* and *"Risk Factors"* of this confidential shelf offering memorandum and *"Fair Allocation Amount"*, *"Financing Plan / Strategy"*, *"Financing Structure"*, *Aggregate Financing Program"* and *"Consumer Bill Forecast with FHP"* of the Investor Presentation. The forward-looking statements contained in this confidential shelf offering memorandum are presented for the purposes of assisting potential purchasers in making an investment decision regarding the Senior Notes and may not be appropriate for other purposes.

Often, but not always, forward-looking information can be identified by the use of forward-looking terminology such as "may", "will", "expect", "believe", "estimate", "plan", "could", "should", "would", "outlook", "forecast", "anticipate", "foresee", "continue" or the negative of these terms or variations of them or similar terminology. Forward-looking information is based on the reasonable assumptions, estimates, analysis and opinions of management of the Issuer made in light of its experience and perception of trends, current conditions and expected developments, as well as other factors that the Issuer believes to be relevant and reasonable at the date that such statements are made. A variety of factors, many of which are beyond the Issuer's control, may cause actual results to differ materially from the expectations expressed in the forward-looking statements. These factors include, but are not limited to, the following risks:

Judicial, Legislative or Regulatory Risks:

- Future legal action might challenge or invalidate the FHPA and materially adversely affect a holder's investment in the Senior Notes.
- Future legislative action to change the FHPA, the Change of Law Protection Agreement or the electricity market might materially adversely affect a holder's investment in the Senior Notes.
- Future regulatory action to change the rules applicable to the operation of the electricity market might materially adversely affect a holder's investment in the Senior Notes.
- Future judicial action could reduce the value of a holder's investment in the Senior Notes.
- Potential difficulties in enforcing civil liabilities against the Province of Ontario may arise.

Risks Associated with the Unusual Nature of the Investment Asset:

- Clean Energy Adjustments will not be payable until May 1, 2021 and until such time the IESO will be the sole source of funds for payment on the Senior Notes. Amounts paid by the IESO are not available to pay principal on the Senior Notes.
- The Issuer's ability to enforce security granted by the IESO may be significantly impaired or delayed.
- A holder of Senior Notes may experience material payment delays because the source of funds for payment after the Moratorium Period is limited.
- The Clean Energy Adjustment may not be billed after April 30, 2047, unless further regulations to extend that date are passed.
- Foreclosure of the Indenture Trustee's lien on the Investment Interest securing the Senior Notes might not be practical and acceleration of the Senior Notes before maturity might have little practical effect.
- The Issuer may issue multiple Series of Senior Notes secured by the Investment Interest and some decisions affecting holders of Senior Notes may require approval of all Series.
- If a Series of Senior Notes or all Senior Notes are accelerated, a holder of Senior Notes might receive payment of principal sooner or later than expected.
- The Issuer may have a co-ownership interest in the Investment Asset with other Financing Entities.
- If the Clean Energy Adjustment amounts and other funds held in the Issuer Accounts results in investment losses or the investments become illiquid, a holder of Senior Notes might receive payment of principal of and interest on the Senior Notes later than expected.

Servicing, Operating and Consumer Risks

- Payments on the Senior Notes depend on the performance of Electricity Vendors and the IESO in performing their respective obligations under the FHPA and, with respect to the IESO, the Master Transfer and Servicing Agreement.
- Payments on the Senior Notes depend on the performance of OPG as Financial Services Manager and as Manager.
- Inaccurate consumption forecasting or unanticipated delinquencies or write-offs might reduce or delay scheduled payments on the Senior Notes.
- Changes to billing and collection practices may reduce the amount of funds available for payments on the Senior Notes.
- Limits on rights to terminate service to Specified Consumers might make it more difficult to collect the Clean Energy Adjustment.
- It might be difficult for the Issuer to collect the Clean Energy Adjustment from Specified Consumers.
- Delinquent or partial payments of electricity bills may make principal payments on the Senior Notes occur later than expected.
- Indemnification obligations of OPG and the IESO are limited and might not be sufficient to protect the investments in the Senior Notes.
- Power outages could impair payment of the Senior Notes.
- Technological changes that make alternative energy sources more attractive in the future or significant population fluctuations may result in fewer Specified Consumers from whom to collect the Clean Energy Adjustment.

Insolvency-Related Risks

- If the Issuer were to become subject to Canadian Insolvency and Restructuring Laws, the Indenture Trustee's ability to enforce security granted by the Issuer may be significantly impaired or delayed.
- If the IESO were to become subject to Canadian Insolvency and Restructuring Laws, the Transfers of specified portions of the Regulatory Asset by the IESO may not be respected as true sales of the Regulatory Asset.
- If any Electricity Vendor or the IESO were to become subject to Canadian Insolvency and Restructuring Laws, collections that have been commingled may be unrecoverable and the Issuer's ability to enforce its rights against such Electricity Vendor or the IESO may be significantly impaired or delayed.
- If OPG were to become subject to Canadian Insolvency and Restructuring Laws, the Issuer's ability to enforce its rights against OPG may be significantly impaired or delayed and the Issuer's assets and liabilities may be substantively consolidated with those of OPG.
- If the Issuer Trustee were to become subject to Canadian Insolvency and Restructuring Laws, the assets and liabilities of the Issuer may be substantively consolidated with the Issuer Trustee.
- If a Specified Consumer were to become subject to Canadian Insolvency and Restructuring Laws, the Issuer's ability to collect Clean Energy Adjustment amounts from such Specified Consumer may be adversely affected.
- If amounts in the Issuer Accounts for any Series are invested with entities that become subject to insolvency proceedings, the Issuer's ability to make payments to holders of Senior Notes may be adversely affected.

Other Risks:

- The credit ratings are not an indication of the expected rate of payment of principal on the Senior Notes.
- If the ratings on the Senior Notes are withdrawn or revised downward, the value of a holder's investment in the Senior Notes may be adversely affected.
- The credit ratings of the IESO, OPG and the Province of Ontario might affect the market value of the Senior Notes.
- The absence of an established market for the Senior Notes might limit the ability to resell or refinance the Senior Notes.

- Restrictions on resale might limit the ability to resell the Senior Notes.

Please also see *"Risk Factors"*.

The Issuer does not intend, or assume any obligation, to update any forward-looking information except as may be required by applicable law.

SUMMARY

This summary does not contain all the information prospective purchasers should consider before investing in the Senior Notes. Prospective purchasers should read this entire confidential shelf offering memorandum carefully, including the section entitled "Risk Factors". Capitalized terms used and not otherwise defined in this summary have the meanings ascribed to them in the glossary starting on page 95 of this confidential shelf offering memorandum. An index of defined terms used in this summary is provided starting on page 107 of this confidential shelf offering memorandum.

Issuer:	Fair Hydro Trust, a special purpose trust established under the laws of the Province of Ontario.
Manager:	Ontario Power Generation Inc. ("**OPG**"), pursuant to the terms of the Management Agreement.
Limitations:	The Senior Notes do not constitute a debt, liability or other obligation of, or interest in, OPG or any of its other affiliates (other than the Issuer) or of the IESO. The Senior Notes are not a debt, liability or obligation of the Province of Ontario or any of its political subdivisions, agencies or instrumentalities. The Senior Notes will not be insured or guaranteed by the Province of Ontario, OPG, IESO or any of their respective affiliates or any other person or entity, except that the Province of Ontario has agreed to provide a limited guarantee in respect of the Senior Notes following the occurrence of certain events. See "*— Change of Law Protection Agreement*".
Ontario Fair Hydro Plan Act:	On June 1, 2017, the Ontario Legislature passed the Ontario Fair Hydro Plan Act, 2017 (the "FHPA"). The FHPA was enacted to: (i) ensure that Clean Energy Costs and Clean Energy Benefits are fairly allocated among present and future Specified Consumers (a category of consumers that generally is comprised of residential consumers, small businesses and farms); (ii) recognize that Clean Energy Benefits have accrued and will accrue over time and will continue to benefit present and future electricity consumers in Ontario; and (iii) align Clean Energy Costs with Clean Energy Benefits, in order to provide fairness for Specified Consumers over time. As a result, from July 1, 2017 until April 30, 2018, electricity rates payable by Specified Consumers will in effect be the rate that would result in a representative consumer being charged an invoice amount that is 25%[1] less than the rate that would otherwise have been determined by the Ontario Energy Board (the "**OEB**") under its Regulated Price Plan[2] for that period. Under the FHPA, OPG is appointed as Financial Services Manager and is given the authority to, among other things, establish, or cause to be established, one or more Financing Entities to incur Funding Obligations for the purposes prescribed under the FHPA. The Issuer is a Financing Entity under the FHPA and the Notes are Funding Obligations being offered for the purposes of the FHPA. See *"Ontario's Fair Hydro Plan — Background"*.

[1] The 25% reduction includes an 8% rebate equivalent to the provincial portion of the harmonized sales tax previously granted by the Ontario government.

[2] Specified Consumers, as a class, are not a one-to-one equivalent class to the RPP consumer class.

Summary of the Fair Hydro Financing Program:	The implementation of the Fair Hydro Plan is intended to be financed by the Issuer through the Fair Hydro financing program. The program provides for the offering and issuance by the Issuer of Senior Notes, in any number of Series, in one or several Offerings. A Term Sheet will describe particulars of the terms of each Series of Senior Notes and will be incorporated by reference and form an integral part of this confidential shelf offering memorandum. Each Series of Senior Notes will be issued under the Master Trust Indenture, as supplemented by a Supplemental Indenture authorizing that Series.
Transferor and Servicer:	The Independent Electricity System Operator (the "**IESO**") is a non-share corporation established under the *Electricity Act, 1998* (Ontario). As a non-share capital corporation, the IESO does not have any shareholders or owners and is governed by an independent board of directors appointed by the Minister of Energy. The IESO manages the operation and reliability of Ontario's bulk power system and administers the wholesale electricity market. Each month, the IESO will determine the shortfall resulting from the rate reduction mandated by the FHPA and record the amount in a variance account. The IESO has the right, exercisable in accordance with the FHPA, to recover the balance recorded in the variance account from Specified Consumers (such right, the "**Regulatory Asset**"). Pursuant to the Master Transfer and Servicing Agreement, the IESO may, on a monthly basis, offer to Transfer specified portions of the Regulatory Asset to the Issuer in accordance with the FHPA. See *"The Transferor and Servicer"*.
Investment Interest:	Upon completion of a Transfer by the IESO of a specified portion of the Regulatory Asset, the Issuer will acquire an Investment Interest in the Investment Asset, which is a current and irrevocable property right consisting of the rights specified in the FHPA, including the right to impose, invoice, collect, receive and recover the Clean Energy Adjustment from Specified Consumers in accordance with the FHPA. See *"— Clean Energy Adjustment"* below and *"Ontario's Fair Hydro Plan — Regulatory Asset"*, *"Ontario's Fair Hydro Plan — Investment Interest"* and *"The Transferor and Servicer"*.
Clean Energy Adjustment:	The FHPA imposes an irrevocable and non-bypassable charge referred to as the Clean Energy Adjustment that will be determined by the Financial Services Manager and will be converted by the OEB into a cent per kWh rate and added to the electricity invoices sent to Specified Consumers. See *"— Statutory Duties of the OEB"* below. The required Clean Energy Adjustment will be determined by the Financial Services Manager for each month in a Reference Period and consists of the sum (without duplication) of: (i) the estimated Finance Amount in respect of the Reference Period, which will include an estimate of all repayments, redemptions, funding costs (including interest and principal on the Senior Notes), derivative payments, required reserve account deposits, Issuer expenses and taxes, and other amounts paid or payable during such Reference Period, and (ii) the True-up Amount for such Reference Period, all divided by the number of months in the applicable Reference Period.

The "**True-up Amount**" is comprised of the cumulative Finance Amounts in respect of all preceding Reference Periods less the cumulative Clean Energy Adjustment amounts remitted to the Issuer in respect of all preceding Reference Periods plus other anticipated shortfalls. The True-up Amount will also reflect any historical and reasonably foreseeable differences between the estimated and actual Finance Amount; between amounts invoiced and amounts collected due to various factors, including applicable taxes, consumer defaults and delays, billing lags and write-offs; and variations in billings due to variations in electricity consumption. In determining such differences, the Financial Services Manager is required to have regard to amounts payable that were not collected and any amounts in respect of which an overpayment was made, which may include amounts resulting from a default of Specified Consumers, an Electricity Vendor or the IESO, whether in its capacity as an Electricity Vendor or its activities as agent or otherwise under the FHPA. The Financial Services Manager is obligated to calculate the True-up Amount in respect of each Reference Period so long as all Funding Obligations and other Finance Amounts have not been paid in full. The Financial Services Manager may also, at any time during a Reference Period, determine an interim True-up Amount if, among other things, it reasonably forecasts that the collection of the Clean Energy Adjustment will be insufficient to pay the estimated Finance Amount for a Reference Period.

Commencing May 1, 2021, a charge in respect of the Clean Energy Adjustment will be included on invoices sent to Specified Consumers, and collected and remitted to the Issuer to pay amounts owing on the Senior Notes and all other administrative and other financing expenses of the Issuer. Based on the Fair Allocation Amount determined and provided by the Province, from July 1, 2017 until April 30, 2021 (the "**Moratorium Period**"), no Clean Energy Adjustment amounts are permitted to be collected from Specified Consumers. During the Moratorium Period, the sole source of funds for payment of interest on the Senior Notes, and the Issuer's other Carrying Costs, will be the amounts the IESO is obligated to pay under the Regulations during such period. See *"Ontario's Fair Hydro Plan — Clean Energy Adjustment"*. Amounts so contributed by the IESO are not available to pay principal on the Senior Notes.

Non-bypassability:

The FHPA mandates that an amount in respect of the Clean Energy Adjustment shown on an invoice issued to a Specified Consumer is determinative of the amount of the consumer's indebtedness resulting from the Clean Energy Adjustment, and is irrevocable on invoicing such Specified Consumer and may not be set off or bypassed. See *"Ontario's Fair Hydro Plan — Clean Energy Adjustment"*.

Payment of Carrying Costs until July 31, 2021:

The IESO, which is rated A(high) by DBRS and Aa2 by Moody's, is required under the Regulations to pay and remit to the Issuer any amounts charged to the IESO by the Issuer in respect of Carrying Costs incurred in respect of the period from June 1, 2017 to July 31, 2021. Under the Regulations, Carrying Costs include all funding costs, such as interest on the Senior Notes, and other expenses of the Issuer, other than repayment of principal on any debt obligations of the Issuer (such as principal on the Senior Notes).

Pursuant to the Master Transfer and Servicing Agreement, on or before the fourth business day of each calendar month, the Issuer will submit a carrying costs statement to the IESO certifying the amount of Carrying Costs estimated to be incurred by the Issuer in the following month. On or before the 14th business day following receipt of the Issuer's carrying costs statement, the IESO is required to deliver the amount specified therein to the Issuer. See *"The Transferor and Servicer"*. The IESO has a $2 billion unsecured credit facility provided by the Ontario Financing Authority, expiring September 30, 2022, which is permitted to be used by the IESO to pay the Carrying Costs to the Issuer. The amounts paid by the IESO to fund these Carrying Costs will be recorded by the IESO in the variance account and form part of the Regulatory Asset that the IESO is expected to Transfer to the Issuer in a subsequent period. Upon such Transfer, the Issuer will acquire a corresponding Investment Interest.

As security for the performance of the IESO's obligation under the Regulations to pay the Carrying Costs to the Issuer, the IESO has granted the Issuer a first-priority security interest in all accounts receivable owing to the IESO from Electricity Vendors, including amounts owing with respect to the global adjustment charge. See *"The Transferor and Servicer"*. For a further description of the global adjustment charge, see *"The Electricity Industry in Ontario — Electricity Prices"*.

Acceleration of Indebtedness:

A holder of Senior Notes must rely solely on the Clean Energy Adjustment amounts collected and any available reserve accounts for repayment of principal on the Senior Notes. Accordingly, if all or any portion of the principal amount of any indebtedness of the Issuer (including one or more Series of Senior Notes) becomes due and payable during the Moratorium Period and before its scheduled payment date, maturity date or redemption date, the source of funds for repayment of principal may be limited.

If all or any portion of the principal amount of any indebtedness of the Issuer (including one or more Series of Senior Notes) becomes due and payable after the Moratorium Period and before its scheduled payment date, maturity date or redemption date, then the estimated Finance Amount used by the Financial Services Manager to determine the Clean Energy Adjustment for a period will be determined without regard to the fact that such amount has become due and payable, unless and only to the extent that the amount of the Clean Energy Adjustment is capable of being increased based on the Fair Allocation Amount for such period. See *"— Fair Allocation Amount & Financing Plan"* below. However, upon such acceleration, all accelerated Senior Notes will be repaid in full before any further payments of principal are made to holders of subordinated indebtedness, including the subordinated debt held by OPG; therefore, collections of the Clean Energy Adjustment that would otherwise have been available to repay the principal amount of subordinated indebtedness in the absence of acceleration of the Senior Notes will instead be applied to repay accelerated Senior Notes. See *"— Subordinated Debt"* below.

Statutory Duties of the OEB:

The OEB is an independent public regulatory agency established under the *Ontario Energy Board Act, 1998*. The *Ontario Energy Board Act, 1998* provides the OEB with the authority to regulate participants (e.g.

OEB licensees) in Ontario's electricity market, including the activities of transmitters and distributors as well as the IESO (all of whom are Electricity Vendors for the purposes of the FHPA).

Under the Regulations, the OEB is responsible for determining the rates at which Specified Consumers are to be invoiced to recover the Clean Energy Adjustment. The rates are expressed as a cent per kWh rate and are determined by the OEB by dividing (i) the aggregate Clean Energy Adjustment as determined by the Financial Services Manager in respect of the relevant period of time by (ii) a forecast of electricity consumption of Specified Consumers in respect of such period, based on forecast information provided by the IESO to the OEB. See *"The Transferor and Servicer"*.

Statutory Duties of Electricity Vendors:

Electricity is distributed to almost all Specified Consumers in Ontario through a network of local distributors. See "*The Electricity Industry in Ontario*" and the Investor Presentation attached as Exhibit 1 to this confidential shelf offering memorandum for more details regarding the Ontario electricity market and these local distributors.

The FHPA requires Electricity Vendors to invoice their Specified Consumers for a charge in respect of the Clean Energy Adjustment, as determined by applying the rate set by the OEB, which is required to be included as a separate line item on each invoice sent to Specified Consumers. Electricity Vendors are also required to collect, as agent of the Issuer and any other Financing Entities that may be established, amounts in respect of the Clean Energy Adjustment, deposit such amounts into a segregated account established for the purpose of receiving those amounts and hold such amounts in trust for the benefit of the Financing Entities until remitted to the IESO for the benefit of the Financing Entities (initially, only the Issuer). If an Electricity Vendor does not receive payment in full of an invoice issued to a Specified Consumer, the Electricity Vendor shall allocate any payment received to the Clean Energy Adjustment and the other amounts payable under the particular invoice in the manner set out in the FHPA. It is a deemed condition of their distribution license issued by the OEB that Electricity Vendors comply with the FHPA.

As security for any failure of an Electricity Vendor that does not have an investment grade rating from DBRS and Moody's to remit Clean Energy Adjustment amounts collected under the FHPA, the IESO is required, pursuant to the Master Transfer and Servicing Agreement, to provide to the Issuer on or prior to the first day of the first billing period when the Clean Energy Adjustment is being invoiced to Specified Consumers, a letter of credit from a provider that satisfies the Rating Agency Condition or a performance guarantee or such other form of security that is acceptable to the Issuer and that satisfies the Rating Agency Condition. The amount of the security required is based on a formula as set out in the Master Transfer and Servicing Agreement and will be equal to: (a) the product of (i) 50% of estimated Clean Energy Adjustment amounts that are to be collected over a twelve-month period by all such non-investment grade rated Electricity Vendors, and (ii) a fraction equal to 45/365 (representing the 45-day period during which funds are expected to be held by such non-investment grade rated Electricity Vendors prior to being remitted to the Issuer); or (b) such

other lesser amount that satisfies the Rating Agency Condition. See *"The Transferor and Servicer."*

Management Duties of OPG:

Pursuant to the Management Agreement, the Issuer has delegated to OPG, as Manager, all of the powers and duties of managing the Issuer, including determining whether to incur Funding Obligations (including Offerings of Senior Notes) to acquire an Investment Interest or refinance existing Funding Obligations; negotiating and executing, on behalf of the Issuer, all agreements; maintaining accounts and banking records; preparing any offering documents to be furnished by the Issuer to prospective purchasers of Funding Obligations (including the Senior Notes); and preparing financial statements and tax filings on behalf of the Issuer.

In addition to the powers and duties delegated to the Manager under the Management Agreement, OPG is also required to comply with its duties as Financial Services Manager under the FHPA, including preparing the Financing Plan to evaluate whether potential Funding Obligations should be incurred for the purposes of Financing Entities acquiring and financing an Investment Interest, determining the amount of the Clean Energy Adjustment inclusive of the calculation of any True-up Amount, notifying the OEB of the Clean Energy Adjustment inclusive of any True-up Amount and ensuring that Funding Obligations are incurred in a manner consistent with the Financing Plan. OPG may also administer the Investment Interest on behalf of the Issuer and any other Financing Entities. Subject to OEB approval and as provided for in the FHPA, OPG is entitled to charge the Issuer a fee, comprised of a base fee and a variable fee, to earn a return and to recover costs and expenditures incurred by OPG on behalf of the Issuer or in relation to the establishment, management and administration of the Issuer and its Investment Interest. The priority of the Manager's entitlement to fees is subject to the payment priorities set forth in the Master Trust Indenture. The Province of Ontario is the sole shareholder of OPG and thereby has the power to determine the composition of OPG's board of directors. See *"The Electricity Industry in Ontario — Key Industry Participants — Ontario Power Generation Inc."* and *"The Manager"*.

Statutory and Servicing Duties of the IESO:

Following the Moratorium Period, the IESO is required, as agent of the Financing Entities (of which the Issuer is currently the only one), to receive Clean Energy Adjustment amounts paid to it from Electricity Vendors, deposit such amounts promptly into a segregated account established for the purpose of receiving amounts in respect of the Clean Energy Adjustment, hold such amounts in trust on behalf of the Financing Entities (of which the Issuer is currently the only one) and remit such amounts on a monthly basis, subject to daily remittance being required in certain limited circumstances. Pursuant to the Master Transfer and Servicing Agreement, monthly remittances of amounts received in respect of the Clean Energy Adjustment will occur on the 18th business day of each calendar month. In addition, the IESO will provide certain reporting and other servicing duties in favour of the Issuer, including providing forecast information to the OEB and the Issuer, which forecast information will be used by the OEB to forecast electricity consumption of Specified Consumers in respect of the relevant period, making commercially reasonable efforts to cause Electricity Vendors to establish segregated accounts into which Clean Energy Adjustment amounts are deposited, remitting such amounts and

fulfilling certain additional reporting requirements. Generally, all servicing duties provided by the IESO to the Issuer are provided at no cost to the Issuer. However, the Issuer will reimburse the IESO for certain direct costs relating to the performance by the IESO of its duties and obligations under the Master Transfer and Servicing Agreement that are otherwise not recovered or recoverable by the IESO under the *Electricity Act, 1998* (Ontario). See *"The Transferor and Servicer."*

Change of Law Protection Agreement:

Pursuant to the Change of Law Protection Agreement, upon a Protection Event and delivery by the Indenture Trustee of a written payment demand, the Province of Ontario is required to make payments in respect of all "Approved Obligations" when due and payable into the Protection Account (which includes payments of amounts that are due and payable in respect of Senior Notes), although the amount of the Province of Ontario's payment obligations in a particular period may differ depending on whether an Acceleration has occurred. See *"Change of Law Protection Agreement"*. The Issuer and the Indenture Trustee must ensure that amounts deposited into the Protection Account are applied to pay Specified Creditors to whom amounts are due and payable under an Approved Obligation in accordance with the provisions of the Master Trust Indenture. See *"Capital Markets Platform"*.

Generally, an "**Approved Obligation**" under the Change of Law Protection Agreement includes all obligations of the Issuer (except for amounts required to be deposited into any capital account or finance reserve account, or any obligation for the Issuer to pay itself any remaining amounts in the Collection Account pursuant to the Master Trust Indenture), including obligations of the Issuer under the Notes, subject to the satisfaction of certain adherence conditions for those obligations that constitute "Certified Primary Obligations", as defined in the Change of Law Protection Agreement. Subject to certain limited exceptions for refinancings, a "Certified Primary Obligation" includes all Notes, as well as certain other obligations of the Issuer under derivative agreements or under contracts with terms of greater than three years that are not terminable by the Issuer on less than three years' notice under which the Manager, acting reasonably, expects aggregate payments by the Issuer during the term of the contract in an amount in excess of $5,000,000.

It will be a condition to any Offering of Senior Notes that such Senior Notes constitute Approved Obligations under the Change of Law Protection Agreement.

Protection Event:

Each of the following constitutes a "**Protection Event**" for purposes of the Change of Law Protection Agreement:

(a)

(i) the Ontario legislature repeals, and does not replace on an equivalent basis, or amends, the Act or any portion thereof, as in effect on the date hereof;

(ii) the Ontario legislature enacts or amends any other statute;

(iii) the Lieutenant Governor in Council repeals, and does not replace on an equivalent basis, the regulations made under the Act or any portion thereof, as in effect on the date hereof;

(iv) the Lieutenant Governor in Council, a minister of the Crown, an official of the government or a board or commission all the members of which are appointed by the Lieutenant Governor in Council makes or amends any "regulation" (as defined in Part III of the *Legislation Act, 2006*) as in effect on the date hereof; or

(v) the implementation of a change in the organization or structure of the IESO or Ontario's electricity market undertaken at the initiative of the Province of Ontario or an entity controlled by the Province of Ontario,

in each case, that (X) adversely affects the ability of the Issuer to receive amounts in respect of its Investment Interest so that it can pay Approved Obligations when due and payable, in each case determined after taking into account and having regard to (i) any funds available at such time to apply to such Approved Obligations, including in any finance reserve account, capital account or collateral posting account applicable under a derivative agreement, (ii) the availability of any credit enhancement agreement to which the Issuer is a party and (iii) any reasonably expected potential effect of a True-up Amount in the Reference Period immediately following the occurrence of an event described in any of clauses (i) to (v) above, or (Y) adversely affects the enforceability of, or adversely changes, the terms and conditions of the Change of Law Protection Agreement or of any of the agreements under which Approved Obligations arise; or

(b) a court of competent jurisdiction determines that all or a portion of the Act, as in effect on the date hereof, is *ultra vires* or invalid in a way that adversely affects the ability of the Issuer to receive amounts in respect of its Investment Interest so that it can pay Approved Obligations when due and payable and that has the effect of the Issuer not in fact having sufficient funds to pay such Approved Obligations that have become due and payable, in each case determined after taking into account and having regard to (i) any funds available at such time to apply to such Approved Obligations, including in any finance reserve account, capital account or collateral posting account applicable under a derivative agreement, (ii) the availability of any credit enhancement agreement to which the Issuer is a party and (iii) any reasonably expected potential effect of a True-up Amount in the Reference Period immediately following the occurrence of an event described in this paragraph (b).

The occurrence of a Protection Event in and of itself will not result in the acceleration of the Senior Notes.

The Province of Ontario's obligation to make payments under the Change of Law Protection Agreement upon a Protection Event and

subsequent delivery of a written payment demand by the Indenture Trustee is referred to as the "**Limited Guarantee**".

Upon paying amounts when due and payable in respect of Approved Obligations, including the Senior Notes, into the Protection Account, the Province of Ontario will be subrogated and entitled to all of the rights and interests of applicable Specified Creditors (including Noteholders) under and in respect of the Approved Obligations to the extent of the amounts paid.

Under the Change of Law Protection Agreement, the right to deliver a written payment demand on occurrence of a Protection Event to enforce the Limited Guarantee is the only remedy available to the Indenture Trustee (and to Specified Creditors, to the extent they are permitted to exercise any rights, interests or elections under and in accordance with the Master Trust Indenture). Specified Creditors are not permitted to exercise any rights, interests, or elections under the Change of Law Protection Agreement, other than in the manner and to the extent effected and exercised under, in accordance with and subject to the limitations set forth in the Master Trust Indenture (in effect as of the date hereof). See *"Capital Markets Platform — Acceleration and Remedies — Rights of Specified Creditors"*.

Approved Obligations & Adherence Conditions:

Under the Management Agreement, the Manager is required to ensure that all obligations of the Issuer are and remain Approved Obligations under the Change of Law Protection Agreement.

The Limited Guarantee shall apply to all Certified Primary Obligations that meet the following adherence conditions:

(a) the Certified Primary Obligation when incurred is an Obligation Secured under the Master Trust Indenture;

(b) OPG, as Financial Services Manager, delivers a certificate to the Indenture Trustee on or before the incurrence of such obligation certifying that it has complied with all of its obligations to the Province of Ontario and internal requirements and processes in connection with the adherence of the Limited Guarantee to the Certified Primary Obligation; and

(c) the Province of Ontario has not provided a Suspension Notice to the Indenture Trustee, OPG and the Issuer.

All Senior Notes shall constitute Obligations Secured under the Master Trust Indenture and therefore condition (a) above will be satisfied for all Offerings of Senior Notes. It will be a condition to any Offering of Senior Notes that OPG deliver the adherence certificate required pursuant to (b) above or that the Province of Ontario designates in writing that the Senior Notes are Approved Obligations. The Change of Law Protection Agreement provides that delivery of an adherence certificate shall be determinative of satisfaction of this adherence condition, notwithstanding that such certificate may include

inaccuracies, be incomplete or otherwise be defective or deficient, and such certificate may be relied upon as conclusive evidence of same.

Suspension Notice & Post-Suspension Refinancing

The Change of Law Protection Agreement will remain in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations, including all Senior Notes.

However, in the following limited circumstances, the Province of Ontario may deliver a Suspension Notice under the Change of Law Protection Agreement: (i) if there has been an acceleration of Funding Obligations in accordance with the provisions of the Master Trust Indenture or an event of default, early amortization event, termination event or similar event or circumstance (including any event that with the passage of time or the giving of notice would become such an event) of or in respect of the obligations of any party under any Program Agreement; (ii) if there has been an uncured breach of covenant, uncured default in performance, or uncured representation, warranty or certification that proves to be incorrect in any material respect on the date made, in each case of OPG (or its officers, in the case of a certification) to the Province of Ontario in connection with its obligations to the Province of Ontario pursuant to internal requirements and processes in connection with the provision or adherence of the Limited Guarantee to or in respect of any Certified Primary Obligations; or (iii) if the Financial Services Manager is no longer the Manager or actions have been taken by or on behalf of the Indenture Trustee to remove the Financial Services Manager as the Manager.

Upon delivery of a Suspension Notice, the Limited Guarantee shall not apply in respect of obligations incurred by the Issuer (excluding certain refinancings of Approved Obligations as described below) and certain material amendments of outstanding obligations of the Issuer.

Notwithstanding delivery of a Suspension Notice, the Limited Guarantee shall continue to apply to: (i) any Approved Obligations that were incurred prior to the suspension and (ii) any Funding Obligations incurred by the Issuer following a suspension that satisfy the terms and conditions of the Change of Law Protection Agreement, provided that the proceeds of such incurrence are to be used for the purpose of repaying one or more series of Approved Obligations. Accordingly, subject to compliance with the Change of Law Protection Agreement, any Senior Notes or other Funding Obligations that may be issued following a suspension to refinance Senior Notes that were Approved Obligations issued prior to a suspension will continue to have the benefit of the Limited Guarantee.

See *"Change of Law Protection Agreement"*.

Fair Allocation Amount & Financing Plan:

The Fair Allocation Amount is an amount calculated under the FHPA by the Minister of Energy in respect of each Reference Period that, among other things, allocates the estimated value of Clean Energy Costs in proportion to the relative attribution of the value of Clean Energy Benefits among Specified Consumers. See *"Ontario's Fair Hydro Plan"*.

The Financial Services Manager is required to prepare a Financing Plan under the FHPA to evaluate whether potential Funding Obligations

should be incurred by the Issuer or other Financing Entities for the purposes of acquiring an Investment Interest or for the purposes of a Refinancing. In preparing the Financing Plan, the Financial Services Manager must have regard to certain principles, including that Funding Obligations should be incurred such that, along with any Funding Obligations already incurred, the estimated Finance Amount that would, subject to any Refinancing, become due and payable during a Reference Period will reasonably align with the Fair Allocation Amount determined in respect of such Reference Period as of the date the Funding Obligations were incurred.

In other words, the Financing Plan should contemplate the issuance of Funding Obligations from time to time, with terms that would result in Clean Energy Adjustments being payable by Specified Consumers that align with the purposes of the FHPA. Notwithstanding the above, the FHPA provides that each Funding Obligation that is issued is deemed to be consistent with the Financing Plan and to provide for the reasonable alignment of the estimated Finance Amount with the Fair Allocation Amount.

The Financing Plan allows for the issuance of a variety of short and long term debt. See the Investor Presentation attached as Exhibit 1 to this confidential shelf offering memorandum for more details regarding the Financing Plan and the Fair Allocation Amount.

Subordinated Debt:

Concurrent with every issuance of senior debt by the Issuer, including any Offering of Senior Notes, it is expected that OPG will subscribe for subordinated debt and junior subordinated debt of the Issuer in an amount equal to no more than 49% of all of the Issuer's Funding Obligations, approximately 44% of which is expected to be funded through equity investments in OPG by the Province of Ontario with the remaining 5% being funded from OPG's available funds, including all or a portion of the proceeds of any offerings by OPG of medium term notes.

Under the Master Trust Indenture, the Issuer will be required at all times to ensure that: (i) the aggregate outstanding principal amount of all subordinated debt and junior subordinated debt be not less than 35% of the aggregate outstanding principal amount of all of the Issuer's Funding Obligations; and (ii) the aggregate outstanding principal amount of all junior subordinated debt be not less than 10% of the aggregate outstanding principal amount of all of the Issuer's Funding Obligations.

Use of Proceeds:

The proceeds from each Offering may be used for one or more of the following purposes: (i) to acquire an Investment Interest pursuant to the FHPA and the Master Transfer and Servicing Agreement, (ii) to refinance indebtedness of the Issuer (including other Series of Senior Notes), (iii) to pay Offering and related costs of the Issuer and (iv) to fund specific reserve accounts as required.

The Term Sheet for each Offering of Senior Notes will identify the amount of proceeds that will be used for such specified purposes.

Interest Rate:	Fixed, floating or otherwise, as determined by the Issuer and as set out in the Term Sheet applicable to such Offering.
Interest Payment Dates:	As determined from time to time by the Issuer and as set out in the Term Sheet applicable to such Offering.
Principal Accumulation Amount(s):	As determined from time to time by the Issuer and as set out in the Term Sheet applicable to such Offering.
Principal Payment Date(s) and Principal Payment Amount(s):	As determined from time to time by the Issuer and as set out in the Term Sheet applicable to such Offering.
Principal Payment Default Date:	As determined from time to time by the Issuer and as set out in the Term Sheet applicable to such Offering.
Ranking:	Subject to the applicable payment waterfalls set out in the Master Trust Indenture, the Senior Notes will be direct, secured and unsubordinated obligations of the Issuer, and will at all times rank equally and proportionately with each other and all other senior indebtedness issued by the Issuer from time to time pursuant to the Indenture, without discrimination or preference. See "*Capital Markets Platform — Subordination Provisions*", "*Capital Markets Platform — Acceleration and Remedies — Payment Waterfall Upon Acceleration"*.
Security:	All indebtedness and other obligations of the Issuer, including the Senior Notes, will be secured by a first ranking charge against all property and assets of the Issuer, including each Issuer Account (and all funds and property credited thereto), all rights and benefits, and powers of the Issuer under the FHPA and all rights, benefits and power under all Program Agreements, including under the Limited Guarantee. Under the Master Trust Indenture, the Issuer is required to maintain certain reserves: the IESO Cash Reserve Deposit Amount (an amount equal to the aggregate of (i) 0.50% of the aggregate amount of all outstanding senior, subordinated and junior subordinated funding obligations determined as of April 15, 2021, and (ii) an amount estimated as the amount of Carrying Costs payable during May, June and July 2021, provided such amount in (ii) satisfies the Rating Agency Condition) will be deposited by the IESO by April 30, 2021. There is also a Program Cash Reserve Account which will begin to be funded from Clean Energy Adjustments following the Moratorium Period until it reaches the Program Cash Reserve Required Amount (on each Payment Date on and after May 15, 2021, an amount equal to 0.50% of the aggregate amount of all outstanding senior, subordinated and junior subordinated funding obligations determined as of such date, or such lesser amount that satisfies the Rating Agency Condition). Funds in the IESO Cash Reserve Account will be applied to pay Carrying Costs after April 2021 to the extent that funds can be so applied such that the aggregate amount of funds in the IESO Cash Reserve Account and Program Cash Reserve Account is maintained at the Program Cash Reserve Required Amount. In connection with the incurrence of any Series of Notes, the Issuer may (i) establish a Series Account for purposes of accumulating funds used to make principal payments or for purposes of reserving funds to pay finance charges, and/or (ii) enter into a credit enhancement agreement

or liquidity agreement. Whether a Series of Senior Notes has the benefit of a Series Account or any credit enhancement agreement or liquidity agreement will be determined from time to time by the Issuer and set out in the Term Sheet applicable to such Offering.

See "*Capital Markets Platform — Security*".

Priority of Payments:

Prior to an Event of Default and acceleration of the Issuer Funding Obligations (other than Derivative Funding Obligations), amounts available for disbursement will generally be applied in the following order of priority:

- taxes;
- trustee fees, expenses and reimbursement amounts (up to a specified cap);
- payment of or accumulations in respect of interest for Senior Funding Obligations, *pari passu* with payments under derivative agreements (other than termination payments);

- termination payments under derivative agreements where the counterparty is the defaulting party or sole affected party;
- beneficiaries of the Issuer;
- indemnity amounts owing to the Manager; and
- all other obligations not specifically dealt with above.

After an Event of Default and acceleration of the Issuer Funding Obligations (other than Derivative Funding Obligations), amounts available to the Issuer or otherwise held by the Indenture Trustee will generally be applied in the following order of priority:

- taxes;
- trustee fees, expenses and reimbursement amounts;
- interest, fees and other amounts (other than principal) on Senior Funding Obligations and payments under derivative agreements (other than termination payments), *pari passu*, then Subordinated Funding Obligations (other than principal) and then Junior Subordinated Funding Obligations (other than principal);

- all other obligations not specifically dealt with above.

Notwithstanding the above, amounts held in a Series Account will be applied in accordance with the relevant Funding Obligation Agreement and amounts held in the Protection Account will be applied in accordance with the specific written payment statement and would not otherwise modify the provisions of the applicable payment waterfalls set out in the Master Trust Indenture.

THE ELECTRICITY INDUSTRY IN ONTARIO

General Overview

The following summary of the electricity industry in Ontario does not purport to be comprehensive or definitive. It is a general and high-level overview of the historical context and the current manner in which the industry operates, including how real-time energy supply needs are met.

The Ontario electricity industry is principally comprised of three components:

- *Generation*: the production of electricity from various forms of energy, such as wind, solar, hydroelectric, natural gas and nuclear;
- *Transmission*: the transfer of electricity across high-voltage power lines from large generating facilities to local distribution systems and large transmission-connected consumers, as well as to and from inter-jurisdictional entities; and
- *Distribution*: the delivery of electricity within local areas to homes and businesses, as well as the delivery of electricity from small distribution-connected generating facilities, using low voltage power lines.

The structure of Ontario's electricity industry underwent significant changes in the late 1990s and early 2000s. Prior to April 1, 1999, Ontario Hydro, a Crown corporation, supplied most of Ontario's electricity generation and transmission needs. Consistent with initiatives taken in other electricity markets in North America at the time, the electricity industry was restructured in order to encourage greater competition. Ontario's competitive wholesale electricity market was opened by the IESO on May 1, 2002 and the market is used to administer the purchase and sale of wholesale electricity in Ontario.

Since the opening of the competitive market, Ontario's power supply mix has experienced significant change. As a result of provincial government policy, coal-fired generation has been eliminated and a significant amount of new capacity has been added as a result of new natural gas powered capacity, new wind and solar capacity and additional baseload nuclear generation capacity. These changes, along with the transmission and distribution system investments needed to support these changes, have resulted in significantly increased costs of electricity to consumers in Ontario.

While electricity supply in Ontario has increased, the province's electricity demand as reported by the IESO has fallen over the last decade, largely due to changes in economic conditions and conservation measures. Moreover, the addition of smaller scale wind and solar generation embedded in the distribution system has reduced the level of demand that is supplied by transmission-connected generation. Reducing electricity demand by encouraging conservation and demand management has been a key part of the Government of Ontario's plan to reduce greenhouse gas emissions from the province's electricity sector. Shorter-term fluctuations in electricity demand are impacted by variations in seasonal weather conditions.

Real-time energy supply needs are met through the wholesale electricity market administered by the IESO. Generators offer their generation into this real-time energy market, or "spot market", to be scheduled and dispatched by the IESO. The IESO receives hourly offers from electricity generators and importers to provide energy, along with bids to withdraw energy by certain domestic loads and exporters, and then schedules the lowest-cost offers and bids needed to meet demand. Most generators in Ontario also have bilateral contracts with the IESO (i.e. power purchase agreements) and one large generator, OPG, receives OEB-regulated prices, or payment amounts, that provide for payments in addition to wholesale market settlements that are paid to generators.

Key Industry Participants

Ontario Power Generation Inc.

OPG is a corporation formed under the *Business Corporation Act* (Ontario). The Province of Ontario is the sole shareholder of OPG and thereby has the power to determine the composition of OPG's board of directors. In 1999, when Ontario Hydro was split up in anticipation of deregulation, OPG was formed to hold the generation assets of the former Ontario Hydro. OPG has divested itself of certain of those assets, but remains the largest generator in Ontario.

OPG is Ontario's largest clean energy generator. As at the date hereof, OPG operated two nuclear generating stations, 66 hydroelectric generating stations, three thermal generating stations, and one wind power facility. OPG's mandate is to provide low cost power in a safe, clean, reliable and sustainable manner for the benefit of its customers and its sole shareholder, the Province of Ontario. OPG's electricity generation accounts for a significant portion of the total energy generated and injected into Ontario's electricity transmission system. OPG is one of the most experienced and largest generating companies in Canada with a broad set of relationships and capabilities. OPG is also experienced in successful complex financing arrangements of large capital projects, including the recently completed Lower Mattagami project.

Additional information about OPG is provided in the Investor Presentation attached as Exhibit 1 to this confidential shelf offering memorandum and is available at www.opg.com.

The IESO

The IESO is a non-share capital corporation created under the *Electricity Act, 1998* (Ontario). It was created as an amalgamation of two predecessor entities, one of which was also called the IESO ("**Predecessor IESO**") and the other of which was called the Ontario Power Authority ("**OPA**"). Predecessor IESO was responsible for managing the reliability of the provincial transmission system and operating the wholesale electricity markets in Ontario. The OPA was formed to plan the provincial power system and to procure electricity resources. The OPA entered into bilateral power or capacity purchase contracts with generators and other electricity resource providers. These two entities were merged statutorily on January 1, 2015 into the IESO, which now carries out all of these functions. As a non-share capital corporation, the IESO does not have any shareholders or owners and is governed by an independent board of directors appointed by the Minister of Energy.

Additional information about the IESO is provided in the Investor Presentation attached as Exhibit 1 to this confidential shelf offering memorandum and is available at www.ieso.ca.

The Ontario Energy Board

The OEB is a non-share capital corporation created under the *Ontario Energy Board Act, 1998*. The OEB is an independent and impartial administrative tribunal and public regulatory agency. The *Ontario Energy Board Act, 1998* provides the OEB with the authority to license and regulate the participants in Ontario's electricity market, including the activities of the IESO, transmitters and distributors. The IESO and distributors are Electricity Vendors for the purposes of the FHPA.

The OEB has the following objectives in relation to the electricity industry:

(a) to protect the interests of consumers with respect to prices and the adequacy, reliability and quality of electricity service;

(b) to promote the education of consumers;

(c) to promote economic efficiency and cost effectiveness in the generation, transmission, distribution, sale and demand management of electricity and to facilitate the maintenance of a financially viable electricity industry;

(d) to promote electricity conservation and demand management in a manner consistent with the policies of the Province of Ontario, including having regard to the consumer's economic circumstances;

(e) to facilitate the implementation of a smart grid in Ontario; and

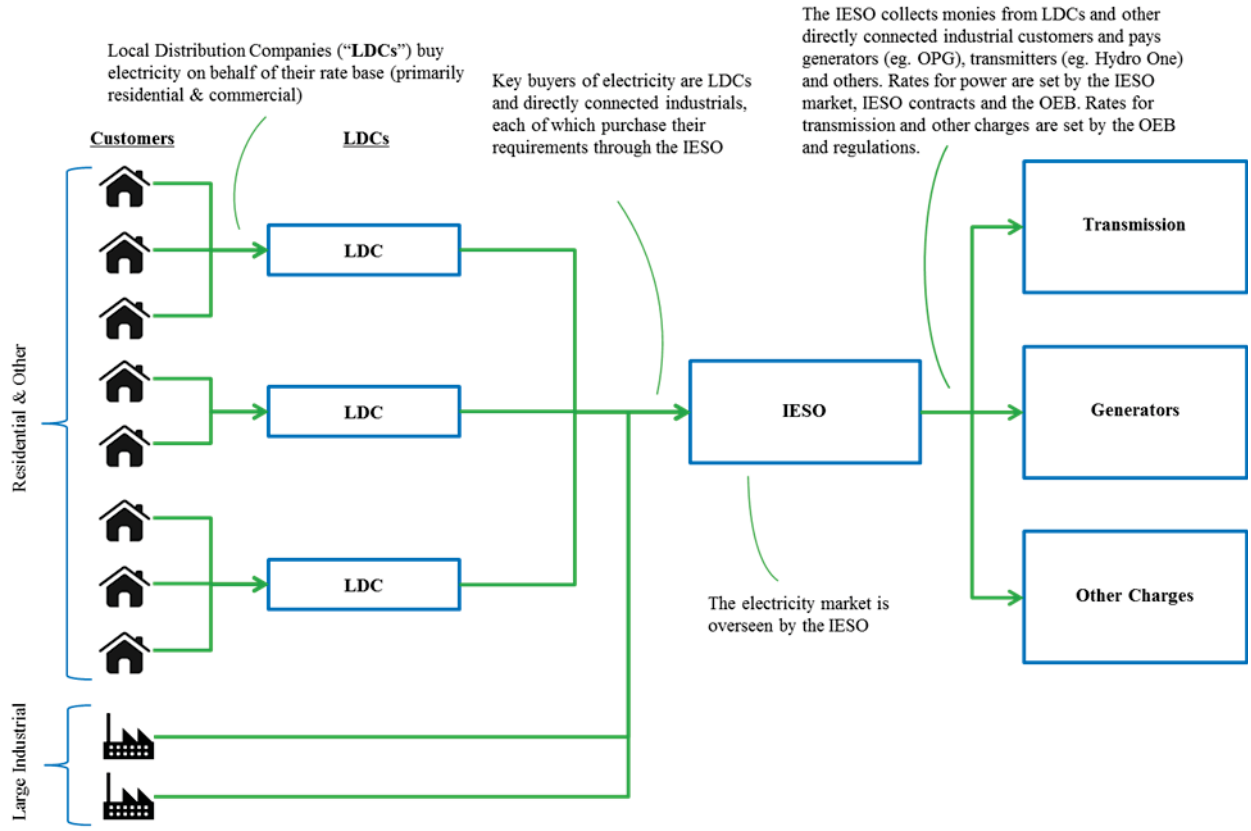
(f) to promote the use and generation of electricity from renewable energy sources in a manner consistent with the policies of the Ontario government, including the timely expansion or reinforcement of transmission systems and distribution systems to accommodate the connection of renewable energy generation facilities.

The OEB is responsible for, among other things, approving transmission and distribution rates in Ontario, as well as payment amounts for OPG's nuclear and hydroelectric generation. It also approves the construction, expansion, or reinforcement of transmission lines greater than two kilometres in length, as well as mergers, acquisitions, amalgamations and divestitures affecting regulated assets and regulated entities, such as distributors and transmitters. The activities of transmitters and distributors are subject to the conditions of their transmission and distribution licenses, as applicable, which require compliance with a number of industry codes issued by the OEB, as well as with the market rules that are administered by the IESO. These codes and other requirements prescribe minimum standards of conduct and service for licensed participants in the electricity market.

Electricity Vendors

As part of the restructuring of Ontario's electricity industry, the province's municipally-owned electricity distributors were reorganized into separate business corporations. These distributors are typically referred to in Ontario as local distribution companies, or "**LDCs**". An LDC is responsible for distributing electricity to customers in its OEB-licensed service territory, and in some cases to other distributors. A service territory may cover large portions or all of a particular municipality, or an otherwise-defined geographic area. Distribution customers include residential, commercial and industrial end-users, as well as institutions such as governments, schools and hospitals. At multi-unit buildings within an LDC's service territory, there may be a unit sub-metering service provider that provides metering services for each individual unit. These sub-metering service providers are also licensed by the OEB.

The following diagram depicts the flow of funds between the key industry participants:



See the Investor Presentation attached as Exhibit 1 to this confidential shelf offering memorandum for more details regarding LDCs.

Electricity Prices

There are two main components that make up the commodity cost of electricity in Ontario, the Hourly Ontario Energy Price ("**HOEP**") and the global adjustment charge.

- The HOEP is set by the IESO based on bids and offers in the real-time energy market that is administered by the IESO.

- The global adjustment charge is established monthly by the IESO in accordance with regulations and is the amount of money necessary to pay certain other costs to generators and other suppliers that are not compensated by the HOEP, including the cost of energy supply contracts with generators and payments made to OPG pursuant to OEB-established payment amounts.

Prior to the FHPA being passed, the amount collected generally over an annual basis by the IESO on account of the HOEP and global adjustment charge was approximately equal to the IESO's current payables to generators and other electricity resource suppliers, subject to certain periodic true-ups, fees and adjustments to keep the IESO whole.

At the request of the Minister of Energy in 2004, the OEB created the "**Regulated Price Plan**" or "**RPP**", which establishes time-of-use and tiered prices primarily for residential, farm and small commercial customers. Prior to the introduction of the FHPA, the RPP prices were reviewed and changed every six months by the OEB based on an updated forecast and any accumulated differences between the amounts collected from RPP consumers and the amount paid to generators in previous periods. RPP prices are now established in accordance with the FHPA. Most

Specified Consumers are billed for electricity based on the Regulated Price Plan, although some Specified Consumers may be invoiced the HOEP and the global adjustment charge by their LDC for electricity they have consumed. The IESO has also stated that there is one Specified Consumer connected directly to the transmission system and settled by the IESO, not an LDC.

While most residential and small commercial consumers in Ontario choose to purchase their electricity under the RPP, consumers in Ontario may instead choose to buy their electricity from an OEB-licensed retailer pursuant to a retail contract that provides a rate for electricity over a specified period. These customers are also required to pay the global adjustment charge in addition to the rate under their retail contract.

In addition to the HOEP and global adjustment charges, or RPP prices, as the case may be, electricity consumers pay a number of other uplifts and charges, such as transmission and distribution tariffs.

ONTARIO'S FAIR HYDRO PLAN

Background

On June 1, 2017, the Ontario Legislature passed the FHPA. From July 1, 2017 until April 30, 2018, electricity rates payable by Specified Consumers (a category of consumers that generally is comprised of residential consumers, small businesses and farms) will in effect be the rate that would result in a representative consumer being charged an invoice amount that is 25%[3] less than the rate that would otherwise have been determined by the OEB for that period absent Ontario's Fair Hydro Plan (such adjustment, together with the further adjustments described below in this section, the "**Fair Adjustment**").

Under the FHPA, a "**Specified Consumer**" is:

(a) a person who has an account with an Electricity Vendor for the supply of electricity in the Province of Ontario and meets any one of the following criteria:

(i) the person has a demand for electricity of 50 kilowatts or less, or such other amount as may be prescribed by the Regulations;

(ii) the person annually uses not more than 250,000 kilowatt hours of electricity, or such other amount as may be prescribed by the Regulations;

(iii) the person carries on a business that is a farming business for the purposes of the *Farm Registration and Farm Organizations Funding Act, 1993* and either holds a valid registration number assigned under that Act or has had the obligation to file a farming business registration form waived pursuant to an order made under subsection 22(6) of that Act;

(iv) the person's account with the Electricity Vendor relates to

(A) a dwelling;

(B) a property within the meaning of the *Condominium Act, 1998*;

(C) a residential complex within the meaning of subsection 2(1) of the *Residential Tenancies Act, 2006*, without regard to section 5 of that Act; or

(D) a property that includes one or more housing units and that is owned or leased by a co-operative within the meaning of the *Co-operative Corporations Act*; or

[3] The 25% reduction includes an 8% rebate equivalent to the provincial portion of the harmonized sales tax previously granted by the Ontario government.

(v) the person satisfies such criteria as may be prescribed by the Regulations; or

(b) such other person as may be prescribed by the Regulations.

Electricity bills for Specified Consumers for the period between May 1, 2018 and April 30, 2019 are to increase by the rate of inflation (or remain unchanged in the event inflation is negative). Permitted increases after April 30, 2019 will be determined by the Ontario government through additional regulations, though the Ontario government has indicated that rate increases will be held to the rate of inflation until 2021.

Under the FHPA, OPG is appointed as Financial Services Manager and given the authority to, among other things, establish, or cause to be established, one or more Financing Entities to incur Funding Obligations to fund the acquisition of an Investment Interest. The Issuer is a Financing Entity under the FHPA and the Senior Notes are Funding Obligations under the FHPA.

Regulatory Asset

Under the FHPA, each month the IESO determines the shortfall that results from the Fair Adjustment as compared to what the IESO would have been entitled to receive without the Fair Adjustment and records this amount, together with the costs of financing the shortfall, the amounts charged to the IESO by the Issuer in respect of the Carrying Costs of the Issuer, when applicable, and certain other amounts in a variance account. The IESO has the right, exercisable in accordance with the FHPA, to recover the balance recorded in the variance account from Specified Consumers (such right, the "**Regulatory Asset**"). The FHPA provides that the OEB shall, from time to time and in accordance with the Regulations, determine and set rates payable by Specified Consumers to allow for the IESO to recover the balance recorded in the variance account and that the IESO shall not be entitled to collect all or part of the balance recorded in the variance account from Specified Consumers before May 1, 2021. The IESO may, in accordance with the FHPA, Transfer a specified portion of the Regulatory Asset to a Financing Entity for a cash purchase price equal to the amount recorded in the variance account in respect of such specified portion of the Regulatory Asset. Upon receipt by the IESO of payment by the Financing Entity, the IESO retains no further right, title or interest in the corresponding Investment Interest.

Investment Interest

By acquiring an Investment Interest, the Financing Entity is financing a portion of the shortfall that gives rise to the Regulatory Asset and, as an owner of the Investment Interest, will be entitled to recover its Finance Amount (the costs of such financing). While a Financing Entity may choose to acquire an Investment Interest by accepting a Transfer of the corresponding specified portion of a Regulatory Asset, it is under no obligation to do so.

If the IESO and a Financing Entity agree to the Transfer of a specified portion of the Regulatory Asset from the IESO, such Transfer results in the creation of a current and irrevocable property right that is immediately vested in the Financing Entity, free and clear of any adverse claim (such right, the "**Investment Asset**", and an ownership interest therein, an "**Investment Interest**"). The Investment Asset consists, collectively, of the following rights and interests of Financing Entities that own an Investment Interest (among other things):

(a) the right and interest to impose, invoice, collect, receive and recover the Clean Energy Adjustment from Specified Consumers, including the right to determine the Clean Energy Adjustment in accordance with the FHPA;

(b) the right to receive, collect and recover the Clean Energy Adjustment that is imposed, invoiced and recoverable under the FHPA, including any amounts in respect of the Clean Energy Adjustment that are held by Electricity Vendors or the IESO;

(c) the right to enforce the duties and obligations under the FHPA of each Electricity Vendor to impose, attribute, charge and invoice for the Clean Energy Adjustment;

(d) the right to enforce the duties and obligations under the FHPA of each Electricity Vendor and the IESO to collect, receive and remit amounts received by it in respect of the Clean Energy Adjustment,

including all collections and the proceeds of any enforcement action undertaken by any Electricity Vendor to recover payment of the Clean Energy Adjustment;

(e) all rights of any kind related to any of the other property rights or interests that comprise the Investment Interest; and

(f) all revenue, collections, claims, payments, money and proceeds of or derived from the rights described in paragraphs (a) to (e), regardless of whether it is invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

Clean Energy Adjustment

The "**Clean Energy Adjustment**" is the amount calculated in accordance with the FHPA and payable by Specified Consumers to cover the cost of financing the shortfall that gives rise to the Regulatory Asset. The Financial Services Manager will determine the amount of the Clean Energy Adjustment payable by Specified Consumers for each month of a Reference Period. The Clean Energy Adjustment is based on an estimate of the amount payable by a Financing Entity in a Reference Period in respect of the Finance Amount and the True-up Amount (each as described below).

The "**Finance Amount**" in respect of the Issuer for a period of time is an amount determined by the Financial Services Manager as follows:

(a) after eliminating any duplication in the following amounts, calculating the sum of the following amounts:

(i) amounts paid or payable during the period in respect of the payment by or on behalf of the Issuer or the provision by or on behalf of the Issuer for the payment of all or a portion of the principal amount advanced to the Issuer under a Funding Obligation;

(ii) interest, commitment fees or other similar costs payable by or on behalf of the Issuer in respect of Funding Obligations that are paid or payable during the period;

(iii) amounts payable by or on behalf of the Issuer to redeem, prepay or repurchase Funding Obligations incurred by or on behalf of the Issuer, including any premium, make-whole or other amount payable to give effect to the prepayment redemption or repurchase, that are paid or payable during the period;

(iv) payments required to be made in respect of any derivative agreements during the period, including ordinary course payments, payments on termination and payments made in connection with margining or collateral arrangements;

(v) amounts deposited, as required under the governing documents of Funding Obligations, into capital accounts or finance reserve accounts during the Reference Period;

(vi) Issuer expenses, including fees (including fees charged by the Financial Services Manager), charges, costs, indemnities, reimbursements and other amounts incurred or committed to by or on behalf of the Issuer as a result of an activity authorized or permitted under the FHPA, and any taxes on such amounts, in each case that are paid or payable during the period;

(vii) taxes paid or payable by or on behalf of the Issuer, incurred directly or indirectly by the Issuer , or for which the Issuer is otherwise liable as a result of any activity, undertaking, transaction or event authorized or permitted under the FHPA that are payable during the period; and

(viii) amounts paid or payable by or on behalf of the Issuer during the period to any guarantor or surety that made a payment of an amount due and payable under a Funding Obligation, including pursuant to a guarantee, indemnity, contract of insurance or agreement entered into under subsection 5(2) or (3) of the FHPA;

(b) after eliminating any duplication in the following amounts, calculating the sum of the following amounts:

(i) amounts withdrawn, as required under the governing documents of Funding Obligations, from capital accounts or finance reserve accounts during the period;

(ii) amounts received during the period in respect of Carrying Costs;

(iii) the aggregate of all amounts received by or on behalf of the Issuer in respect of Funding Obligations during the period;

(iv) the principal amount of Funding Obligations incurred by the Issuer that are applied to refinance existing Funding Obligation during the period;

(v) any payments received in connection with a derivative agreement, including ordinary course receipts, payments received on termination and payments received in connection with margining or collateral arrangements, in each case during the period;

(vi) amounts received by or on behalf of the Issuer as a refund of tax during the period; and

(c) subtracting the sum calculated under (b) from the sum calculated under (a).

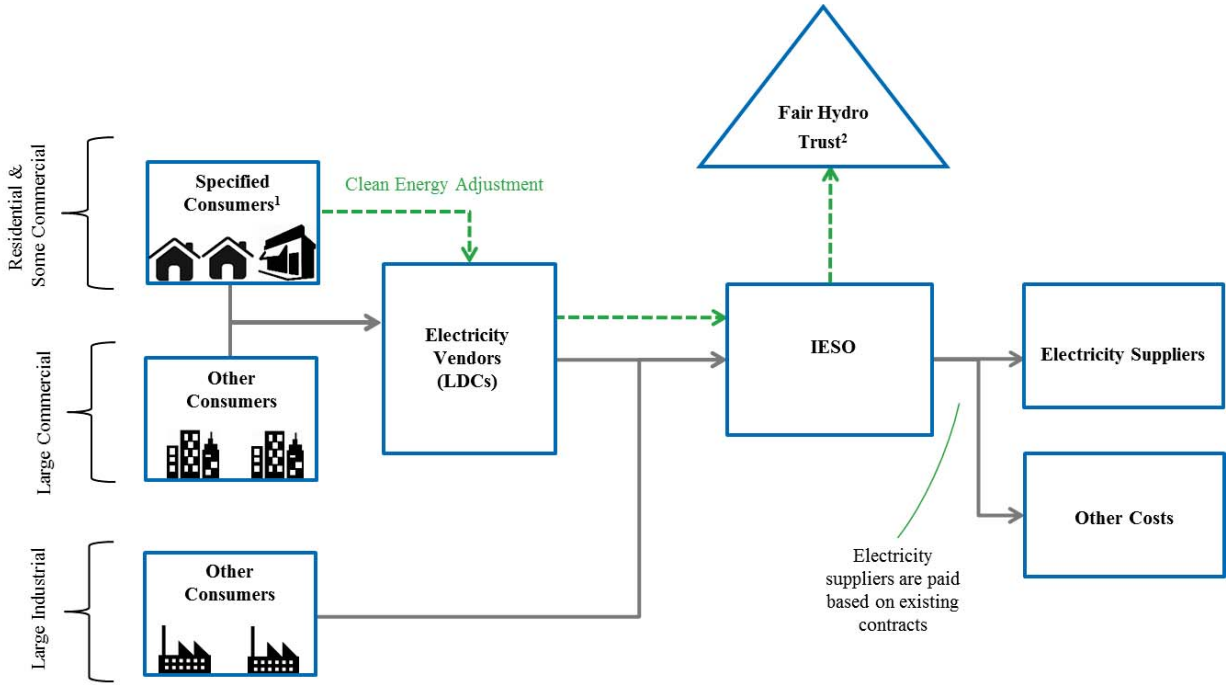
In determining the Clean Energy Adjustment, the Financial Services Manager must also calculate a "**True-up Amount**" in accordance with the Regulations. The True-up Amount is comprised of the cumulative Finance Amounts in respect of all preceding Reference Periods less the cumulative Clean Energy Adjustment amounts remitted to the Issuer in respect of all preceding Reference Periods plus other anticipated shortfalls. The True-up Amount will also reflect any historical and reasonably foreseeable differences between the estimated and actual Finance Amount; between amounts invoiced and amounts collected due to various factors, including applicable taxes, consumer defaults and delays, billing lags and write-offs; and variations in billings due to variations in electricity consumption. In determining such differences, the Financial Services Manager is required to have regard to amounts payable that were not collected and any amounts in respect of which an overpayment was made, which may include amounts resulting from a default of Specified Consumers, an Electricity Vendor or the IESO, whether in its capacity as an Electricity Vendor or its activities as agent or otherwise under the FHPA. The Regulations obligate the Financial Services Manager to calculate the True-up Amount in respect of each Reference Period so long as all Funding Obligations and other Finance Amounts have not been paid in full. After the final scheduled payment date of the Funding Obligation that has the latest maturity date of all outstanding Funding Obligations, the Financial Services Manager will calculate the True-up Amount quarterly. The Financial Services Manager may also at any time during a Reference Period determine an interim True-up Amount if, among other things, it reasonably forecasts that the collection of the Clean Energy Adjustment will be insufficient to pay the estimated Finance Amount for a Reference Period.

The Financial Services Manager must notify the OEB of the Clean Energy Adjustment for each Reference Period. The OEB must accept this amount and will determine the rates at which Specified Consumers are to be invoiced to recover the Clean Energy Adjustment. The rates are expressed as a cent per kWh amount and are determined by the OEB by dividing (i) the Clean Energy Adjustment provided by the Financial Services Manager in respect of the relevant period by (ii) a forecast of electricity consumption of Specified Consumers in respect of such period based on forecast information provided by the IESO. Electricity Vendors are required to invoice their Specified Consumers for the Clean Energy Adjustment, as determined by applying the rate set by the OEB, which is required to be included as a separate line item on each invoice. Electricity Vendors are required to collect, as agent of the Financing Entities (of which the Issuer is currently the only one), amounts in respect of the Clean Energy Adjustment, deposit such amounts into a segregated account established for the purpose of receiving those amounts, and hold such amounts in trust for the benefit of the Financing Entities (of which the Issuer is currently the only one) until remitted

to the IESO for the benefit of the Financing Entities (of which the Issuer is currently the only one). If an Electricity Vendor does not receive payment in full of an invoice issued to a Specified Consumer, the Electricity Vendor shall allocate any payment received to the Clean Energy Adjustment and the other amounts payable under the particular invoice in the manner set out in the FHPA. It is a deemed condition of their licenses that Electricity Vendors comply with their obligations under the FHPA.

An amount in respect of the Clean Energy Adjustment shown on an invoice issued to a Specified Consumer is determinative of the amount of such Specified Consumer's indebtedness resulting from the Clean Energy Adjustment and is irrevocable upon invoicing and may not be set off or bypassed, except to the extent that the invoice reflects a clerical, typographical or calculation-related error. Commencing May 1, 2021, a charge in respect of the Clean Energy Adjustment will be included on invoices sent to Specified Consumers, and collected and remitted to the Issuer to pay amounts owing on the Senior Notes and all other administrative and other financing expenses of the Issuer. From July 1, 2017 until April 30, 2021 (the "**Moratorium Period**"), no Clean Energy Adjustments are permitted to be collected from Specified Consumers. During the Moratorium Period, the sole source of funds for payment on the Senior Notes, and the Issuer's other Carrying Costs, will be the amounts the IESO is obligated to pay to the Issuer under the Regulations during such period. See *"— IESO Payment of Carrying Costs during the Moratorium Period"* below. Once it starts being included on such invoices, the Clean Energy Adjustment will be collected until all outstanding Funding Obligations and other Finance Amounts have been repaid in full. Subject to the FHPA, the Clean Energy Adjustment will be collected and remitted to the Issuer to pay the Finance Amount, including the principal and interest on the Senior Notes and all other administrative and other financing expenses of the Issuer.

The following diagram illustrates the flow of funds under the Fair Hydro Plan.



[1] There is currently one Specified Consumer that is directly connected to the IESO and, accordingly, makes payments, including in respect of the Clean Energy Adjustment, once applicable, directly to the IESO.

[2] Pursuant to the Master Transfer and Servicing Agreement, the IESO may periodically Transfer specified portions of the Regulatory Asset to the Issuer for a corresponding purchase price. Upon completion of a Transfer by the IESO of a specified portion of the Regulatory Asset following payment by the Issuer of the corresponding purchase price, the Issuer will acquire an Investment Interest.

Fair Allocation Amount and Financing Plan

The FHPA was enacted to: (i) ensure that Clean Energy Costs and Clean Energy Benefits are fairly allocated among present and future Specified Consumers; (ii) recognize that Clean Energy Benefits have accrued and will accrue over time and will continue to benefit present and future electricity consumers in Ontario; and (iii) align Clean Energy Costs with Clean Energy Benefits, in order to provide fairness for Specified Consumers over time. Under the FHPA, the Minister of Energy calculates a "**Fair Allocation Amount**", which is an amount for every Reference Period that, among other things, allocates the estimated Clean Energy Costs in proportion to the relative attribution of Clean Energy Benefits among Specified Consumers. Under the FHPA, the Minister of Energy is responsible for determining the Fair Allocation Amount prior to the incurrence of the first Funding Obligation. The Fair Allocation Amount may be changed from time to time in accordance with the FHPA, provided that no change of the Fair Allocation Amount shall affect any Clean Energy Adjustment that arises as a result of a Funding Obligation that has been incurred prior to such change.

OPG, as Financial Services Manager, is required to prepare a Financing Plan to evaluate whether and when potential Funding Obligations should be incurred by a Financing Entity to acquire an Investment Interest or for the purposes of a Refinancing. The Financial Services Manager is required to prepare the Financing Plan having regard to certain prescribed principles, including that Funding Obligations should be incurred such that, along with any Funding Obligations already incurred, the estimated Finance Amount that would, subject to any Refinancing, become due and payable during a Reference Period will reasonably align with the Fair Allocation Amount determined in respect of such Reference Period as of the date the Funding Obligations were incurred. In other words, the Financing Plan should contemplate the issuance of Funding Obligations from time to time, with terms that would result in Clean Energy Adjustments being payable by Specified Consumers that align with the purposes of the FHPA. Notwithstanding the above, the FHPA provides that each Funding Obligation that is issued is deemed to be consistent with the Financing Plan and to provide for the reasonable alignment of the estimated Finance Amount with the Fair Allocation Amount.

The Financing Plan allows for the issuance of a variety of short and long term debt. See the Investor Presentation attached as Exhibit 1 to this confidential shelf offering memorandum for more details regarding the Financing Plan and the Fair Allocation Amount.

Payment of Carrying Costs until July 31, 2021

Commencing May 1, 2021, a charge in respect of the Clean Energy Adjustment will be included on invoices sent to Specified Consumers, and collected and remitted to the Issuer to pay amounts owing on the Senior Notes and all other administrative and financing expenses of the Issuer. The IESO, which is rated A(high) by DBRS and Aa2 by Moody's, is required under the Regulations to pay and remit to the Issuer amounts charged to the IESO by the Issuer in respect of its Carrying Costs incurred in respect of the period from June 1, 2017 to July 31, 2021. Carrying Costs include all funding costs (such as interest on the Senior Notes) and other expenses of the Issuer, other than repayment of principal on any debt obligations of the Issuer (including repayment of principal on the Senior Notes). The amounts paid by the IESO to the Issuer to fund these Carrying Costs will be recorded by the IESO in the variance account and form part of the Regulatory Asset that the IESO is expected to Transfer to the Issuer in a subsequent period. Upon such Transfer, the Issuer will acquire a corresponding Investment Interest pursuant to the FHPA.

Pursuant to the Master Transfer and Servicing Agreement, on or before the fourth business day of each calendar month, the Issuer will submit a carrying costs statement to the IESO certifying the amount of Carrying Costs estimated to be incurred by the Issuer in the following month. On or before the 14th business day following receipt of the Issuer's statement, the IESO is required to deliver the amount specified in the carrying costs statement to the Issuer. See *"The Transferor and Servicer"*. The IESO has a $2 billion unsecured credit facility provided by the Ontario Financing Authority, expiring September 30, 2022, which is permitted to be used by the IESO to pay the Carrying Costs to the Issuer. Furthermore, as security for the performance of its obligations under the Regulations to pay the Carrying Costs to the Issuer, the IESO has granted the Issuer a first-priority security interest in all accounts receivable owing to the IESO from Electricity Vendors, including amounts owing with respect to the global adjustment charge. See *"The Transferor and Servicer"*.

Other Statutory Protections

The FHPA provides certain protection and assurances in respect of the obligations of Specified Consumers to pay amounts in respect of the Clean Energy Adjustment. Generally, no action or omission by the OEB, the Minister of Energy or the Crown, and no regulation under the FHPA, will be effective to reduce, impair, postpone or terminate the obligations of Specified Consumers to pay amounts in respect of the Clean Energy Adjustment or to impair or postpone the invoicing, collection or remittance of the Clean Energy Adjustment. If an Electricity Vendor, the IESO or the Financial Services Manager, has failed, or will fail, to comply with the FHPA, the Issuer may apply to an Ontario court to make an order directing such party to comply and requiring compensation to be provided to the Issuer by such non-compliant party. Additional contractual protections are provided in the Change of Law Protection Agreement described below.

CHANGE OF LAW PROTECTION AGREEMENT

The following brief summary of certain provisions of the Change of Law Protection Agreement does not purport to be comprehensive or definitive. All references in this confidential shelf offering memorandum to the Change of Law Protection Agreement are qualified in their entirety by reference to the Change of Law Protection Agreement and the detailed provisions thereof. The Change of Law Protection Agreement may be reviewed at the principal office of the Issuer Trustee in Toronto, Ontario during normal business hours while any Senior Notes are outstanding.

Pursuant to the Change of Law Protection Agreement, upon a Protection Event and delivery by the Indenture Trustee of a written payment demand, the Province of Ontario is required to make payments of amounts that are due and payable in respect of all Approved Obligations when due and payable into the Protection Account. The Issuer and Indenture Trustee must ensure that amounts deposited into the Protection Account are applied to pay Specified Creditors to whom amounts are due and payable under an Approved Obligation in accordance with the provisions of the Master Trust Indenture. See *"Capital Markets Platform"*. The Province of Ontario's obligation to make such payments under the Change of Law Protection Agreement upon a Protection Event and delivery by the Indenture Trustee of a written payment demand is referred to as the "**Limited Guarantee**".

The payment obligations of the Province of Ontario under the Limited Guarantee differ depending on whether an Acceleration has occurred. If no Acceleration has occurred in respect of any Senior Notes on or before a date on which the Province of Ontario is to perform the Limited Guarantee, the Change of Law Protection Agreement provides that the Province of Ontario is to pay the amounts due and payable on such date in respect of Approved Obligations. If an Acceleration has occurred in respect of any Senior Notes on or before a date on which the Province of Ontario is to perform the Limited Guarantee, the Province of Ontario is to pay the amounts that would be available to be paid on such date in respect of the Approved Obligation on an applicable payment date in respect of the Approved Obligation under the applicable payment provisions of the Master Trust Indenture, determined on the assumption that the amount available for allocation to Specified Creditors in accordance with such applicable payment provisions of the Master Trust Indenture in respect of each relevant month during each Reference Period is equal to the estimated Finance Amount determined in respect of such Reference Period, divided by the number of months in such Reference Period. See *"Capital Markets Platform — Acceleration and Remedies — Limitation on Available Amounts on Acceleration"* for a description of the amounts that would be available to be paid under the Master Trust Indenture in such circumstances.

The Province of Ontario is not obligated to pay or indemnify the Indenture Trustee or any Specified Creditor for consequential, special or punitive damages, or for economic loss or loss of profits (provided that economic loss does not include payments of amounts that are due and payable in respect of the Senior Notes).

Under the Change of Law Protection Agreement, the right to deliver a written payment demand on occurrence of a Protection Event to enforce the Limited Guarantee is the only remedy available to the Indenture Trustee (and to Specified Creditors, to the extent they are permitted to exercise any rights, interests or elections under and in accordance with the Master Trust Indenture). Specified Creditors are not permitted to exercise any rights, interests, or elections under the Change of Law Protection Agreement, other than in the manner and to the extent effected and exercised under, in accordance with and subject to the limitations set forth in the Master Trust Indenture as at December 21, 2017.

In connection with the provision of the Limited Guarantee, OPG, as Financial Services Manager, has entered into a process agreement with the Province of Ontario pursuant to which OPG is required to satisfy certain reporting and other requirements regarding the Issuer's incurrence of, and material amendments to, any Issuer Funding Obligations.

Protection Event

Each of the following constitutes a "**Protection Event**" under the Change of Law Protection Agreement:

(a)

(i) the Ontario legislature repeals, and does not replace on an equivalent basis, or amends, the Act or any portion thereof, as in effect on the date hereof;

(ii) the Ontario legislature enacts or amends any other statute;

(iii) the Lieutenant Governor in Council repeals, and does not replace on an equivalent basis, the regulations made under the Act or any portion thereof, in whole or in part, as in effect on the date hereof;

(iv) the Lieutenant Governor in Council, a minister of the Crown, an official of the government or a board or commission all the members of which are appointed by the Lieutenant Governor in Council makes or amends any "regulation" (as defined in Part III of the *Legislation Act, 2006*) as in effect on the date hereof; or

(v) the implementation of a change in the organization or structure of the IESO or Ontario's electricity market undertaken at the initiative of the Province of Ontario or an entity controlled by the Province of Ontario,

in each case, that (X) adversely affects the ability of the Issuer to receive amounts in respect of its Investment Interest so that it can pay Approved Obligations when due and payable, in each case determined after taking into account and having regard to (i) any funds available at such time to apply to such Approved Obligations, including in any finance reserve account, capital account or collateral posting account applicable under a derivative agreement, (ii) the availability of any credit enhancement agreement to which the Issuer is a party and (iii) any reasonably expected potential effect of a True-up Amount in the Reference Period immediately following the occurrence of an event described in any of clauses (i) to (v) above, or (Y) adversely affects the enforceability of, or adversely changes, the terms and conditions of the Change of Law Protection Agreement or of any of the agreements under which Approved Obligations arise; or

(b) a court of competent jurisdiction determines that all or a portion of the Act, as in effect on the date hereof, is *ultra vires* or invalid in a way that adversely affects the ability of the Issuer to receive amounts in respect of its Investment Interest so that it can pay Approved Obligations when due and payable and that has the effect of the Issuer not in fact having sufficient funds to pay such Approved Obligations that have become due and payable, in each case determined after taking into account and having regard to (i) any funds available at such time to apply to such Approved Obligations, including in any finance reserve account, capital account or collateral posting account applicable under a derivative agreement, (ii) the availability of any credit enhancement agreement to which the Issuer is a party and (iii) any reasonably expected potential effect of a True-up Amount in the Reference Period immediately following the occurrence of an event described in this paragraph (b).

The occurrence of a Protection Event in and of itself will not result in the acceleration of the Senior Notes.

On a Protection Event and payment by the Province of Ontario of amounts in respect of Approved Obligations that are due and payable into the Protection Account, such deposited amounts are applied by the Issuer and Indenture Trustee in the priority of payments governed by the Master Trust Indenture.

Upon the Province of Ontario's payment of amounts in respect of Approved Obligations that are due and payable into the Protection Account, the Province of Ontario will be subrogated and entitled to all of the rights of applicable Specified Creditors (including Noteholders) under and in respect of the Approved Obligations to the extent of the amounts paid. Applicable Specified Creditors in respect of whom amounts were deposited into the Protection Account will not have continuing rights, interests or entitlements (including rights as a secured party) in respect of Approved Obligations to the extent so paid; the Province of Ontario will be the absolute assignee of such rights. The Province of Ontario will have the right to be paid from the Issuer the amounts that the Province of Ontario paid in respect of the Approved Obligations ("**Subrogation Amounts**"), such Subrogation Amounts being payable in the same order of priority and with the same entitlements accruing to the Province of Ontario as applied to the amounts in respect of the Approved Obligations previously owing to Specified Creditors that the Province of Ontario has paid. The Province of Ontario will also be entitled to the benefit of the Collateral and proceeds therefrom to the extent of the amounts paid under the Limited Guarantee.

As payee of Subrogation Amounts, the Province of Ontario will be a Specified Creditor under the Master Trust Indenture. Further, the entitlements of the Province of Ontario to Subrogation Amounts arising in respect of Approved Obligations that are interest and principal obligations on Notes will be treated for all purposes of the Master Trust Indenture as interest and principal obligations, respectively, arising under Notes, having the same priority and any applicable voting rights as under the related Approved Obligations, and accordingly the Province of Ontario will be entitled to all of the rights, entitlements, interests and privileges of a holder of such Notes in accordance with the Master Trust Indenture, as supplemented by the supplemental indenture or other indenture document under which the related Approved Obligations were issued, provided that for purposes of determining voting rights with respect to Notes, Notes in which the Province of Ontario has an interest will be deemed not to be outstanding at any time that a Specified Creditor other than the Province of Ontario has an interest in such Class of Notes.

Approved Obligations & Adherence Conditions

Under the Management Agreement, the Manager is required to ensure that all obligations of the Issuer are and remain Approved Obligations under the Change of Law Protection Agreement.

An "**Approved Obligation**" under the Change of Law Protection Agreement means: (i) a Certified Primary Obligation if the adherence conditions applicable thereto have been satisfied at the time such obligation was incurred; (ii) all other Primary Obligations that are not Certified Primary Obligations (except any Primary Obligation to which the Limited Guarantee will not apply on or after delivery of a Suspension Notice as described below); and (iii) all Certified Primary Obligations that the Province of Ontario, in its sole discretion, designates in writing is an Approved Obligation.

It will be a condition to any Offering of Senior Notes that such Senior Notes constitute Approved Obligations under the Change of Law Protection Agreement.

A "**Primary Obligation**" under the Change of Law Protection Agreements means any Obligation Secured under the Master Trust Indenture (i) that is a Funding Obligation or (ii) that otherwise is a payment obligation of the Issuer that gives rise to a Finance Amount, in each case other than (x) any amounts required to be deposited by or on behalf of the Issuer into any capital account or finance reserve account; and (y) any obligation to pay the Issuer or on the Issuer's direction any remaining amounts in the Collection Account pursuant to the Master Trust Indenture.

A "**Certified Primary Obligation**" means a Primary Obligation: (i) incurred by or on behalf of the Issuer to fund its ownership of an Investment Interest, including any Refinancing, other than a Post-Suspension Refinancing or a Pre-Approved Refinancing (each as defined below), of such a Primary Obligation (for greater certainty, including, in the case of any Certified Primary Obligation permitting funding transactions pursuant to a Funding Obligation Agreement applicable to the Certified Primary Obligation, each individual borrowing or funding utilization thereunder), (ii) incurred by or on behalf of the Issuer upon the Issuer entering into a derivative agreement, in which case the Certified Primary Obligation therefor shall be the Master Agreement applicable to such derivative agreement and not any individual trade confirmation other than a trade confirmation that modifies or purports to override the express terms or conditions of the related Master Agreement, or (iii) incurred by or on behalf of the Issuer upon entering into a contract that has a term of more than three (3) years which is not terminable by the Issuer giving three (3) years' notice or less and expected (as determined by the Manager, acting reasonably) aggregate payments by the

Issuer thereunder during the term of such contract are or would be in excess of $5,000,000 (that, for greater certainty, is not otherwise captured in clauses (i) and (ii) above).

The Limited Guarantee shall apply to all Certified Primary Obligations that meet the following adherence conditions:

(a) the Certified Primary Obligation when incurred is an Obligation Secured under the Master Trust Indenture;

(b) OPG, as Financial Services Manager, delivers a certificate to the Indenture Trustee on or before the incurrence of such obligation certifying, among other things, that OPG has delivered a certificate to the Province of Ontario confirming that OPG has complied with all of its obligations to the Province of Ontario and internal requirements and processes in connection with the adherence of the Limited Guarantee to the Certified Primary Obligation (an "**Adherence Compliance Certificate**"); and

(c) the Province of Ontario has not provided a Suspension Notice to the Indenture Trustee, OPG and the Issuer.

All Senior Notes shall constitute Obligations Secured under the Master Trust Indenture and therefore condition (a) above will be satisfied for all Offerings of Senior Notes. It will be a condition to any Offering of Senior Notes that OPG deliver the adherence certificate required pursuant to (b) above or that the Province of Ontario designates in writing that the Senior Notes are Approved Obligations. The Change of Law Protection Agreement provides that delivery of an adherence certificate shall be determinative of satisfaction of this adherence condition, notwithstanding that such certificate may include inaccuracies, be incomplete or otherwise be defective or deficient, and such certificate may be relied upon as conclusive evidence of same.

Suspension Notice & Post-Suspension Refinancings

The Change of Law Protection Agreement will remain in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations, including the Senior Notes.

However, in the following limited circumstances, the Province of Ontario may deliver a written notice (a "**Suspension Notice**") to the Indenture Trustee, the Financial Services Manager and the Issuer:

(a) an acceleration of Funding Obligations in accordance with the provisions of the Master Trust Indenture or an event of default, early amortization event, termination event or similar event or circumstance (including any event that with the passage of time or the giving of notice would become such an event) of or in respect of the obligations of any party under any Program Agreement;

(b) a default in the performance, or breach, of any covenants of OPG, as Financial Services Manager, or OPG, in its corporate capacity, in each case to the Province of Ontario in connection with its obligations to the Province of Ontario pursuant to internal requirements and processes in connection with the provision or adherence of the Limited Guarantee to or in respect of any Certified Primary Obligation and the expiration of any applicable cure period;

(c) a representation or warranty made by OPG or a certification made by one or more officers of OPG, in each case whether as Financial Services Manager or in its corporate capacity, to the Province of Ontario in connection with its obligations to the Province of Ontario and its internal requirements and processes in connection with the provision or adherence of the Limited Guarantee to or in respect of any Certified Primary Obligations, proves to be incorrect in any material respect on the date made and the expiration of any applicable cure period; or

(d) the Financial Services Manager no longer being the Manager or actions having been taken by or on behalf of the Indenture Trustee to remove the Financial Services Manager as the Manager;

If a Suspension Notice has been provided under the Change of Law Protection Agreement (the provision of such notice being a "**Suspension Event**"), the Limited Guarantee shall not apply in respect of: (i) any Primary Obligation incurred, excluding any Post-Suspension Refinancing, or (ii) any amendment of any Primary Obligation that has a Material Effect, unless otherwise agreed to by the Province of Ontario, in each case, on or after the time such Suspension Notice is delivered.

Following the occurrence of a Suspension Event, the Limited Guarantee shall continue to apply in respect of any Post-Suspension Refinancing; provided that prior to the Financing Entity incurring any Primary Obligation constituting a Post-Suspension Refinancing, the Manager shall provide the Province of Ontario with at least 30 days' notice of its intention to seek a Post-Suspension Refinancing and during such 30-day period the Province of Ontario may, but is not obligated to, offer to fund such Post-Suspension Refinancing or arrange for another Person to fund such Post-Suspension Refinancing on the same terms as set out in the notice or on such other terms as may be considered by the Province of Ontario to be not more onerous on the Financing Entity and that are acceptable on that basis to the Financing Entity, acting reasonably.

A "**Post-Suspension Refinancing**" means a Funding Obligation that is an Obligation Secured and that is incurred on or after the occurrence of a Suspension Event in compliance with the requirements of the Change of Law Protection Agreement, as a Refinancing of one or more Series of Approved Obligations (including any Pre-Approved Refinancing incurred on or after the occurrence of a Suspension Event), in each case the proceeds of which, together with any other funds that may be available, are used solely for the purpose of paying in full such Series of Approved Obligations and any costs and expenses associated with such Refinancing.

A "**Pre-Approved Refinancing**" means a Refinancing of a Certified Primary Obligation in respect of which the Province of Ontario has, prior to the incurrence of such Certified Primary Obligation, agreed shall be an Approved Obligation, subject to compliance with such conditions and requirements as may be specified in such agreement.

A "**Material Effect**" means a material adverse effect on the obligations or the rights of the Province of Ontario under the Limited Guarantee that relates to, and in each case, differs in any material respect from the terms or conditions applicable to any transaction document to which the Limited Guarantee applies and which was previously provided to the Province of Ontario, the following: (i) the timing of or circumstances under which Primary Obligations would or may become due or accrue (including as a result of any default, acceleration, termination, wind-up, liquidation or realization) that, in each case, is inconsistent with the Fair Allocation Amount; (ii) the appointment, obligations or duties of OPG as the Manager; (iii) the existence, powers or authority of the Issuer or the Issuer Trustee; (iv) the obligations of the Indenture Trustee to or in respect of the Province of Ontario as a Specified Creditor; (v) the payment provisions and associated priorities set forth in the Master Trust Indenture; (vi) compliance by the Financial Services Manager with the then applicable Financing Plan; (vii) compliance by the Financial Services Manager or the Issuer with the FHPA; or (viii) the Province of Ontario's rights of subrogation or assignment or its interests as a subrogee or an assignee, that would arise as a result of performing the Limited Guarantee in respect of the applicable Primary Obligation.

Accordingly, notwithstanding delivery of a Suspension Notice, the Limited Guarantee shall continue to apply to: (i) any Approved Obligations that were incurred prior to the Suspension Event and (ii) any Funding Obligations incurred by the Issuer following a Suspension Event if the terms and conditions of the Change of Law Protection Agreement are satisfied and the proceeds of such incurrence are to be used for the purpose of repaying one or more series of Approved Obligations. Accordingly, subject to compliance with the Change of Law Protection Agreement, any Senior Notes or other Funding Obligations that may be issued following a Suspension Event to refinance Senior Notes that were issued prior to a Suspension Event will continue to have the benefit of the Limited Guarantee.

THE ISSUER

The Issuer is an unincorporated open-ended unit trust established under the laws of the Province of Ontario pursuant to the Declaration of Trust. The Issuer Trustee is the sole trustee of the Issuer, which is a Financing Entity established to incur Funding Obligations for the purpose of acquiring Investment Interests pursuant to the FHPA. The principal business address and head office of the Issuer is in Ontario, in the care of the Issuer Trustee at the following address: 100 University Avenue, 11th Floor, Toronto, Ontario M5J 2Y1.

The following brief summary of certain provisions of the Declaration of Trust does not purport to be comprehensive or definitive. All references in this confidential shelf offering memorandum to the Declaration of Trust are qualified in their entirety by reference to the Declaration of Trust and the detailed provisions thereof. The Declaration of Trust may be reviewed at the principal office of the Issuer Trustee in Toronto, Ontario during normal business hours while any Senior Notes are outstanding.

The Declaration of Trust establishes the Issuer to carry on activities for the exclusive benefit of its unitholders, FHP2017 Inc., a wholly-owned subsidiary of OPG, and BNY Trust Company of Canada, the Indenture Trustee under the Master Trust Indenture (collectively, the "**Unitholders**"). The beneficial interest and rights generally of the Unitholders in the Issuer are limited to the right to participate in distributions when and as declared by the Issuer Trustee and distributions upon the termination of the Issuer. The legal ownership of the trust property and the right to conduct the activities of the Issuer are vested exclusively in the Issuer Trustee and no Unitholder has any right of ownership in any of the trust property. Except in limited circumstances provided in the Declaration of Trust, no Unitholder is entitled to interfere with or give any direction to the Issuer Trustee with respect to the affairs of the Issuer or in connection with the exercise of any powers or authorities conferred upon the Issuer Trustee under the Declaration of Trust. The Issuer Trustee will generally have, free from any power or control on the part of the Unitholders, full authority over the trust property and the activities of the Issuer to the same extent as if the Issuer Trustee were the sole and absolute owner thereof. The Unitholders will also not be subject to any liability arising out of the activities of the Issuer.

The Issuer Trustee, on behalf of the Issuer, has entered into a management agreement with OPG, as Manager, whereby all of the powers and duties of managing the Issuer have been delegated to the Manager. See *"The Manager."*

The permitted activities of the Issuer are limited to:

(a) acquiring, owning, holding, administering or entering into agreements regarding the acquisition and servicing of Investment Interests, along with certain other related assets;

(b) managing, selling, assigning, pledging and collecting amounts due on or otherwise dealing with Investment Interests and certain other related assets in accordance with the terms of the Program Agreements;

(c) negotiating, authorizing, executing, delivering, assuming the obligations under and performing its duties under the Program Agreements;

(d) filing with any applicable securities commission one or more prospectuses, offering memoranda, registration statements or documents necessary or desirable to register one or more series of Funding Obligations under the securities laws of any applicable jurisdiction;

(e) authorizing, executing, delivering, issuing and registering one or more series of Funding Obligations;

(f) making payments on Funding Obligations;

(g) pledging its interest in Investment Interests and related assets to the Indenture Trustee in order to secure Funding Obligations; and

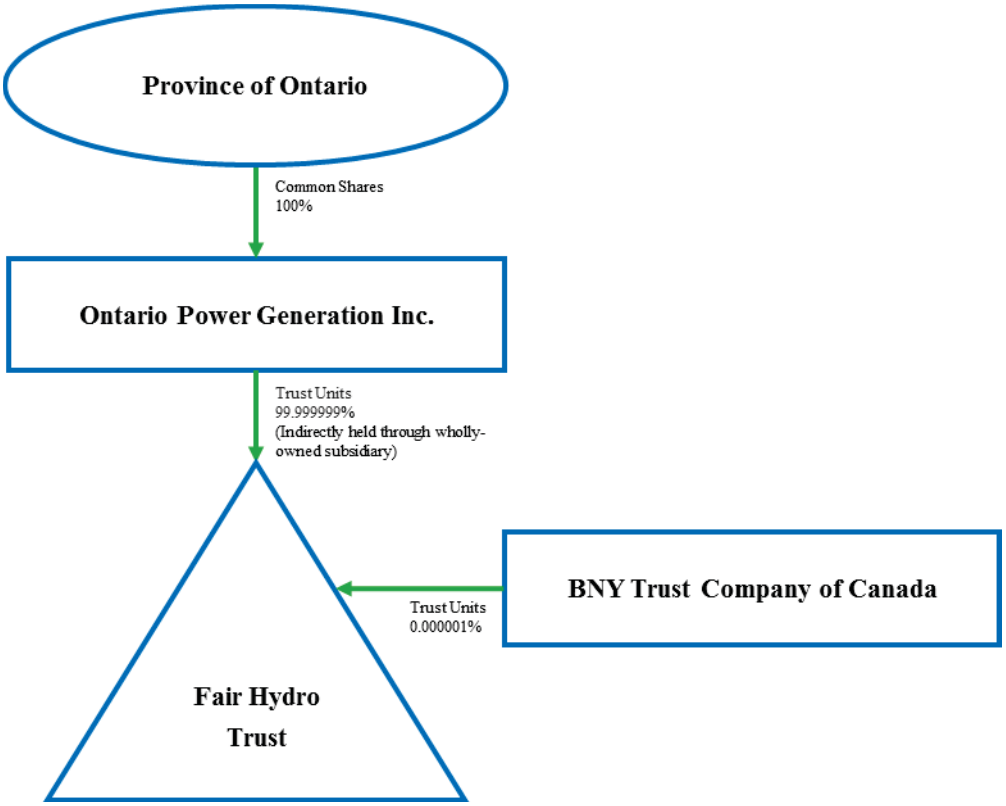
(h) engaging in any lawful act or activity that is incidental to the above-mentioned purposes.

The Issuer Trustee may amend the Declaration of Trust under specified circumstances without the consent of Unitholders provided (i) the amendment will not materially adversely affect the interest of any Unitholder, unless that Unitholder has approved of the amendment in writing, and (ii) in respect of any material amendment, the Rating Agency Condition has been satisfied. The Issuer Trustee is required to provide the Rating Agencies and the Indenture Trustee with a copy of any amendment, variation, supplement, replacement or restatement of the Declaration of Trust.

The consent of the Indenture Trustee, in addition to all other Unitholders, will be required to wind up the Issuer or voluntarily institute or consent to insolvency proceedings against the Issuer while any Funding Obligations remain outstanding. The Issuer Trustee may be removed by the Unitholders at any time by notice in writing delivered to the Issuer Trustee not less than 90 days prior to the date such removal is to take effect. The Issuer Trustee may also be removed by the Unitholders with no prior written notice if it becomes bankrupt or insolvent or it is unable to exercise its duties under the Declaration of Trust. The Issuer Trustee may resign on 120 days' prior written notice to the Unitholders, the Indenture Trustee and the Rating Agencies. No such resignation will be effective until a replacement issuer trustee acceptable to the Unitholders and the Indenture Trustee has been appointed and the Rating Agency Condition has been satisfied.

Each of the Issuer Trustee and its directors, officers, agents, representatives and employees will be indemnified from and against all claims (including any claim arising out of the assessment of any tax on income by a taxing authority), demands, levies, penalties, suits, losses, actions, causes of action, costs, charges, fees and expenses, damages and liabilities whatsoever arising out of, among other things, any action or omission in relation to the execution of the duties of the Issuer Trustee or in relation to the trust property or the activities of the Issuer, except, in each case, for wilful misconduct, gross negligence or failure to comply with the standard of care established by the Declaration of Trust.

The following diagram illustrates the structure of the Issuer and its affiliates.



THE MANAGER

Pursuant to the Management Agreement, the Issuer has delegated to OPG, as Manager, all of the powers and duties of managing the Issuer. The following brief summary of certain provisions of the Management Agreement does not purport to be comprehensive or definitive. All references in this confidential shelf offering memorandum to the Management Agreement are qualified in their entirety by reference to the Management Agreement and the detailed provisions thereof. The Management Agreement may be reviewed at the principal office of the Issuer Trustee in Toronto, Ontario during normal business hours while any Senior Notes are outstanding.

The powers and duties delegated to the Manager under the Management Agreement include, among others:

(a) negotiating and executing, on behalf of the Issuer, the Program Agreements;

(b) maintaining accounts and banking records;

(c) enforcing the rights of the Issuer under the Program Agreements and the FHPA;

(d) determining, in accordance with the Financing Plan, when it is appropriate for the Issuer to incur Funding Obligations;

(e) ensuring that all Primary Obligations of the Issuer are and remain Approved Obligations;

(f) administering all activities of the Issuer in connection with the issuance, sale, payment, repurchase and redemption of the Issuer's Funding Obligations;

(g) preparing, in accordance with applicable securities laws, any offering documents to be furnished by the Issuer to prospective purchasers of Funding Obligations, including the Senior Notes, and ensuring that all statements of the Issuer made therein are at all times true and correct in all material respects;

(h) arranging for compliance by the Issuer with any continuous disclosure obligations;

(i) arranging for the retention of legal counsel, accountants and an auditor for the Issuer;

(j) preparing financial statements and paying taxes on behalf of the Issuer;

(k) preparing a monthly portfolio report setting out information regarding incoming and outgoing cash flows; and

(l) providing such other services as are incidental to the foregoing or as may be agreed upon between the Issuer and the Manager.

The Manager is also required to work with the IESO to develop, on or before January 31, 2020, a written implementation plan identifying the actions to be taken by the IESO and the Issuer to facilitate the OEB, the Issuer, the IESO and Electricity Vendors being prepared to perform their obligations under the FHPA when setting, invoicing and collecting the Clean Energy Adjustment. The Manager will deliver written progress reports to the Issuer and the Indenture Trustee on the status of the implementation plan on or before June 30, 2020, October 31, 2020 and January 31, 2021.

Following the Moratorium Period, the Manager will review a monthly servicer report required to be delivered to the Issuer by the IESO under the Master Transfer and Servicing Agreement and make commercially reasonable efforts to resolve any Electricity Vendor failures or discrepancies identified in such report that have not been remedied or adequately explained by Electricity Vendors. The Manager is obligated to institute any proceedings necessary to compel performance by Electricity Vendors of any obligations or duties under the FHPA, including with respect to the invoicing, collection and remittance of Clean Energy Adjustment amounts. Commencing May 1, 2021 and pursuant to its rights under the Regulations, the Manager (on behalf of the Issuer) shall review, or cause to be reviewed,

on an annual basis, or less frequently as may be determined by the Manager and subject to satisfaction of the Rating Agency Condition, the records maintained by Electricity Vendors with respect to the Clean Energy Adjustment and if there is evidence of material non-compliance by an Electricity Vendor, the Manager will promptly review or cause to be reviewed the records of such Electricity Vendor.

The Manager is obligated to perform its duties under the Management Agreement diligently and in conformity with the Issuer's obligations under each of the Program Agreements and with the FHPA, as applicable, and honestly, in good faith and in the best interest of the Issuer. The Manager must exercise the degree of care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

In addition to the powers and duties delegated to OPG pursuant to the Management Agreement, OPG has also agreed to comply with its duties under the FHPA in its capacity as Financial Services Manager, including:

(a) preparing the Financing Plan to evaluate whether potential Funding Obligations should be incurred by Financing Entities for the purposes of acquiring Investment Interests;

(b) determining the amounts of the Clean Energy Adjustment, inclusive of any True-up Amount;

(c) calculating the True-up Amount;

(d) notifying the OEB of the Clean Energy Adjustment, inclusive of any True-up Amount;

(e) administering the Investment Interests on behalf of Financing Entities in accordance with the Program Agreements;

(f) ensuring that Funding Obligations are incurred in a manner that is consistent with the Financing Plan; and

(g) establishing and charging fees for the services provided under the Management Agreement.

Subject to OEB approval, OPG is entitled to charge the Issuer a fee, comprised of a base fee and a variable fee, to earn a return and to recover costs and expenditures incurred by OPG on behalf of the Issuer or in relation to the establishment, management and administration of the Issuer and its Investment Interest. The priority of the Manager's entitlement to fees is subject to the payment priorities set forth in the Master Trust Indenture.

The Manager is not entitled to resign from its duties or terminate the Management Agreement as long as Funding Obligations remain outstanding. The Manager may be terminated by the Issuer Trustee, with the consent of the Indenture Trustee, or by the Indenture Trustee in accordance with the Master Trust Indenture. No termination of the Manager will be effective until a replacement manager that satisfies the Rating Agency Condition has been approved and has entered into a management agreement with the Issuer whereby the replacement manager agrees to assume, in substance, the obligations of the Manager under the Management Agreement. If the Manager ceases to perform, or inadequately performs, its management duties under the Management Agreement, it might be difficult to find a replacement for the Manager or a successor manager. See "*Risk Factors — Payments on the Senior Notes depend on the performance of OPG as Financial Services Manager and as Manager.*"

The Manager shall provide to the Issuer Trustee an annual certificate confirming compliance with certain matters, including: (i) accurate maintenance of the books and records of the Issuer; (ii) all debt obligations and expenses due and payable by the Issuer have been paid to date; (iii) all required filings with tax and regulatory authorities have been completed to date; and (iv) all material statements and reports to be delivered by the Issuer under the Program Agreements have been delivered and all material statements and reports to be received by the Issuer under the Program Agreements have been received.

The Manager indemnifies the Issuer under the Management Agreement for any losses incurred by the Issuer as a result of the failure of the Manager to perform its obligations under the Management Agreement or any breach by the Manager of its representations and warranties under the Management Agreement or any other Program Agreement to which it is a party, except to the extent such losses result from the willful misconduct, bad faith or gross

negligence of the Issuer. Notwithstanding the foregoing, the Manager is not obligated to indemnify the Issuer under the Management Agreement for any losses resulting from: (i) a breach or failure to perform by a third party under any Program Agreement, the FHPA (excluding any delegation by the Manager under the Management Agreement to a third party); (ii) changes in law, (iii) the validity or applicability of the Change of Law Protection Agreement; (iv) the collectability or sufficiency of the Clean Energy Adjustment or Carrying Costs to satisfy the Issuer Funding Obligations, including the Senior Notes; or (v) any liability of the Issuer incurred after termination of the Management Agreement unless attributable to the actions or omissions of the Manager prior to such termination or in respect of a representation, warranty or covenant that survives such termination.

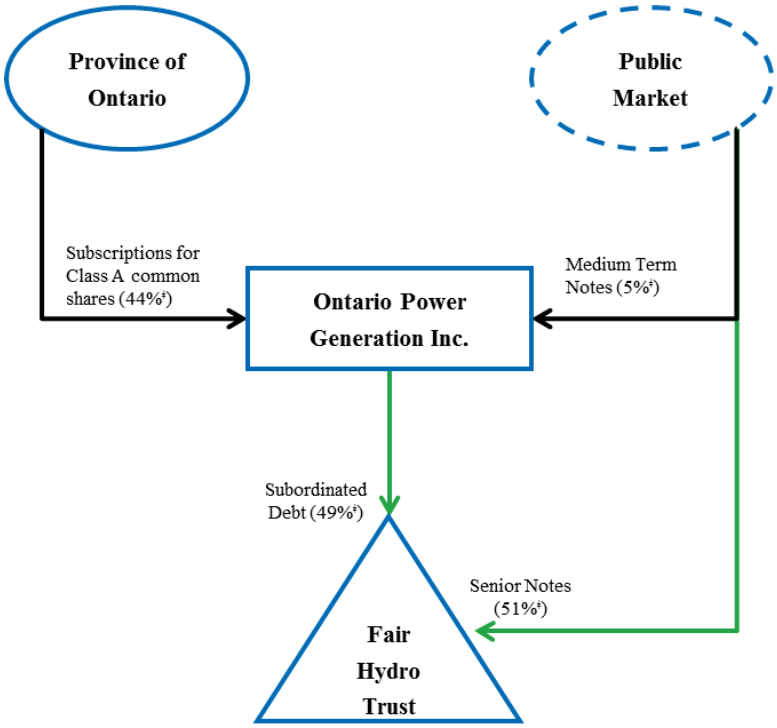
SUBORDINATED DEBT

Concurrent with every issuance of senior debt by the Issuer, including any Offering of Senior Notes, it is expected that OPG will subscribe for subordinated debt and junior subordinated debt of the Issuer in an amount of no more than 49% of all of the Issuer's Funding Obligations, approximately 44% of which is expected to be funded through equity investments in OPG by the Province of Ontario with the remaining approximately 5% being funded from OPG's available funds, including all or a portion of the proceeds of any offerings by OPG of medium term notes.

Under the Master Trust Indenture, the Issuer will be required at all times to ensure that: (i) the aggregate outstanding principal amount of all subordinated debt and junior subordinated debt be equal to not less than 35% of the aggregate outstanding principal amount of all of the Issuer's Funding Obligations; and (ii) the aggregate outstanding principal amount of all junior subordinated debt be equal to not less than 10% of the aggregate outstanding principal amount of all of the Issuer's Funding Obligations.

The Issuer is structured to be bankruptcy remote from OPG insofar as none of OPG, its subsidiaries or holders of its indebtedness will have any recourse whatsoever against the Issuer or its assets other than OPG's rights and remedies as a holder of subordinated debt of the Issuer in accordance with the provisions of that indebtedness. From an accounting perspective, however, the Issuer will be consolidated with OPG.

The following diagram illustrates the expected structure of OPG's investments in subordinated debt of the Issuer.



‡ OPG is expected to acquire up to 49% of the Issuer's outstanding debt in the form of subordinated debt. Actual amounts may vary if OPG acquires less than 49% of the Issuer's outstanding debt.

SHORT TERM INDEBTEDNESS

On December 21, 2017, the Issuer entered into the following supplemental indentures under the Master Trust Indenture for the provision of an aggregate of approximately $1.56 billion in short term indebtedness (collectively, the "**Warehouse Facilities**"), of which a total of $1.179 billion is drawn as of the date hereof:

(a) a warehouse senior series 2017-1 supplemental indenture with, among others, Royal Bank of Canada, as administrative agent for certain commercial paper conduit purchasers and financial institutions named therein, for the provision of an aggregate maximum principal amount of $800,000,000 floating rate variable funding Senior Notes, Series 2017-1 ("**Senior Notes, Series 2017-1**"), of which $601,290,000 is drawn;

(b) a warehouse subordinated series 2017-1 supplemental indenture with, among others, OPG for the provision of an aggregate maximum principal amount of $611,764,705.88 floating rate variable funding Subordinated Notes, Series 2017-1 ("**Subordinated Notes, Series 2017-1**"), of which $459,810,000 is drawn; and

(c) a warehouse junior subordinated series 2017-1 supplemental indenture with, among others, OPG for the provision of an aggregate maximum principal amount of $156,862,745.10 floating rate variable funding Junior Subordinated Notes, Series 2017-1 ("**Junior Subordinated Notes, Series 2017-1**"), of which $117,900,000 is drawn.

The issuance of Senior Notes, Series 2017-1, Subordinated Notes, Series 2017-1 and Junior Subordinated Notes, Series 2017-1 under the Warehouse Facilities described above were used to acquire a $1.179 billion Investment Interest on December 21, 2017.

THE TRANSFEROR AND SERVICER

Pursuant to the Master Transfer and Servicing Agreement, the IESO may periodically Transfer specified portions of the Regulatory Asset to the Issuer. Additional information regarding the IESO, including its most recently published financial statements, is available at www.ieso.ca. Such information does not form part of this confidential shelf offering memorandum and neither the Issuer nor the Agents guarantee the accuracy of such information or has independently verified the accuracy or completeness of any such information or to determine if there has been any omission by the IESO to disclose any facts, information or events which may affect the significance or accuracy of any such financial statements or other information.

The following brief summary of certain provisions of the Master Transfer and Servicing Agreement does not purport to be comprehensive or definitive. All references in this confidential shelf offering memorandum to the Master Transfer and Servicing Agreement are qualified in their entirety by reference to the Master Transfer and Servicing Agreement and the detailed provisions thereof. The Master Transfer and Servicing Agreement may be reviewed at the principal office of the Issuer Trustee in Toronto, Ontario during normal business hours while any Senior Notes are outstanding.

Under the Master Transfer and Servicing Agreement, the IESO may offer, no more frequently than monthly, to Transfer to the Issuer a specified portion of the Regulatory Asset. The Issuer has the right, but not the obligation, to accept the IESO's offer. The IESO is responsible for servicing the Issuer's Investment Interest in accordance with the Regulations and the Master Transfer and Servicing Agreement. Its responsibilities including, among others:

(a) establishing a segregated account to be used for the sole purpose of receiving the Clean Energy Adjustment in respect of the Issuer's Investment Interest and making commercially reasonable efforts to cause Electricity Vendors to do the same;

(b) making commercially reasonable efforts to cause each Electricity Vendor to establish procedures for the invoicing of amounts in respect of the Clean Energy Adjustment;

(c) responding to inquiries by Electricity Vendors with respect to the Clean Energy Adjustment and amounts payable in respect thereof;

(d) reviewing reports submitted to the IESO by Electricity Vendors regarding the collection of Clean Energy Adjustment amounts for material manifest discrepancies;

(e) contacting Electricity Vendors on the occurrence of certain events;

(f) holding Clean Energy Adjustment amounts received in respect of the Issuer's Investment Interest in trust for the benefit of the Issuer and remitting such amounts to the Issuer on the 18th business day of each month, subject to daily remittance being required in certain limited circumstances;

(g) together with the Issuer, settling a form of monthly servicer report to be provided to the Issuer; and

(h) providing forecast information to the OEB and the Issuer, which forecast information will be used by the OEB to forecast electricity consumption of Specified Consumers in respect of the relevant period.

The IESO must follow standards, policies and procedures in performing its servicing duties that are customary for an electricity market operator and administrator that regularly performs settlement functions. The Master Transfer and Servicing Agreement provides for various limitations on the duties and responsibilities of the IESO including that: (i) the IESO provides no guarantee that collections of the Clean Energy Adjustment from Electricity Vendors will equal amounts invoiced or that Clean Energy Adjustment amounts will be sufficient to satisfy the Issuer's Funding Obligations, (ii) the IESO is under no responsibility or obligation to the Issuer with respect to the nature or extent of the Investment Interest, the collectability of the Clean Energy Adjustment or that Clean Energy Adjustment amounts received will be sufficient to satisfy the Issuer's Funding Obligations, (iii) the IESO shall have no liability or responsibility to any person in respect of any forecasts or other information provided, provided only that such forecasts or other information has been prepared and provided in good faith and (iv) the IESO is not responsible for, or in respect of, any amounts not collected by Electricity Vendors from Specified Consumers or not remitted by Electricity Vendors to the IESO. See *"Ontario's Fair Hydro Plan — Clean Energy Adjustment"* and *"Ontario's Fair Hydro Plan — Other Statutory Protections"* with respect to the manner in which the risks associated with incorrect forecasts by the IESO, and shortfalls in Clean Energy Adjustments as a result of amounts not being collected by Electricity Vendors or remitted by Electricity Vendors, are mitigated.

The IESO is required to work with the Manager to develop, on or before January 31, 2020, a written implementation plan identifying the actions to be taken by the IESO and the Issuer to facilitate the OEB, the Issuer, the IESO and Electricity Vendors being prepared to perform their obligations under the FHPA when setting, invoicing and collecting Clean Energy Adjustment amounts. The IESO and the Manager will deliver to the Issuer written progress reports on the status of the implementation plan on or before June 30, 2020, October 31, 2020 and January 31, 2021. The IESO is also required to work with the Issuer to settle a form of monthly servicer report, which will be provided to the Manager on or before the 20th business day after the end of each month in which Clean Energy Adjustment amounts are collected by Electricity Vendors from Specified Consumers, and which report is expected to contain available information regarding the Clean Energy Adjustment amounts billed, collected and remitted by Electricity Vendors, actual electricity consumption compared to forecast electricity consumption and such other information as may be agreed to by the IESO.

Generally, all servicing duties provided by the IESO to the Issuer are provided at no cost to the Issuer. However, the Issuer will reimburse the IESO for its direct costs relating to the performance by the IESO of its duties and obligations under the Master Transfer and Servicing Agreement that are not otherwise recovered by the IESO under the *Electricity Act, 1998* (Ontario), excluding any costs relating to the performance of the IESO's duties and obligations under the FHPA, including its obligation to pay the Carrying Costs to the Issuer.

During the Moratorium Period and extending to July 31, 2021, the IESO, which is rated A(high) by DBRS and Aa2 by Moody's is required under the Regulations to pay and remit to the Issuer amounts charged to the IESO by the Issuer in respect of its Carrying Costs. Under the Regulations, Carrying Costs include all funding costs, such as interest on the Senior Notes, and other expenses of the Issuer, other than repayment of principal on any debt obligations

of the Issuer, including repayment of principal on the Senior Notes. Pursuant to the Master Transfer and Servicing Agreement, on or before the fourth business day of each calendar month, the Issuer will submit a carrying costs statement to the IESO certifying the amount of Carrying Costs estimated to be incurred by the Issuer in the following month. On or before the 14th business day following receipt of the Issuer's carry costs statement, the IESO is required to deliver the amount specified therein to the Issuer. The IESO has a $2 billion unsecured credit facility provided by the Ontario Financing Authority, expiring September 30, 2022, which is permitted to be used by the IESO to pay the Carrying Costs to the Issuer.

As security for the performance of its obligation to pay the Carrying Costs to the Issuer, the IESO has granted the Issuer a first-priority security interest in all accounts receivable owing to the IESO from Electricity Vendors, including amounts owing with respect to the global adjustment charge. The amounts paid by the IESO to fund these Carrying Costs will be recorded by the IESO in the variance account and form part of the Regulatory Asset which is expected to be offered by the IESO for Transfer to the Issuer in a subsequent period. Upon completion of such Transfer, the Issuer will acquire an Investment Interest pursuant to the FHPA.

As security for any failure of Non-Investment Grade Rated Electricity Vendors to remit Clean Energy Adjustment amounts collected under the FHPA, the IESO is required, pursuant to the Master Transfer and Servicing Agreement, to provide to the Issuer on or prior to the first day of the first billing period when the Clean Energy Adjustment is being invoiced to Specified Consumers, a letter of credit from a provider that satisfies the Rating Agency Condition or a performance guarantee or such other form of security that is acceptable to the Issuer and that satisfies the Rating Agency Condition. A "**Non-Investment Grade Rated Electricity Vendor**" means any Electricity Vendor that does not have a rating of: (i) "Baa3" or higher by Moody's, unless otherwise agreed to by Moody's; and (ii) "BBB(low)" or higher by DBRS, unless otherwise agreed to by DBRS.

The amount of security required from the IESO will be calculated on an annual basis and will be equal to the amount determined by the following formula:

((A / B) x C x D / 365 x E)

where A, B, C, D and E are as follows:

A = for the most recently completed twelve-month period, the aggregate amount of energy consumed by Specified Consumers of all Non-Investment Grade Rated Electricity Vendors.

B = for the same twelve-month period used for A, the aggregate amount of energy consumed by all Specified Consumers.

C = for the most current twelve-month forecast period available, the Clean Energy Adjustment amounts estimated to be payable by all Specified Consumers.

D = 45, representing the estimated number of days that total Clean Energy Adjustment amounts are expected to be held by Electricity Vendors or such other number as mutually agreed to in writing by the Issuer and the IESO and that satisfies the Rating Agency Condition.

E = 0.50 or another value as mutually agreed to in writing by the Issuer and the IESO and that satisfies the Rating Agency Condition.

The Master Transfer and Servicing Agreement sets out specific servicer defaults. Upon the occurrence of a servicer default, the Issuer will be entitled to appoint a replacement servicer that will perform the IESO's duties as servicer under the Master Transfer and Servicing Agreement. Any replacement servicer must be permitted under the FHPA to perform the duties of servicer, the Rating Agency Condition must be satisfied and the replacement servicer must enter into a master transfer and servicing agreement with the Issuer having substantially the same terms as the Master Transfer and Servicing Agreement.

The IESO has agreed to indemnify the Issuer for any losses incurred by the Issuer as a result of the failure of the IESO to perform its obligations under the Master Transfer and Servicing Agreement or any other Program

Agreement to which it is a party or the breach by the IESO of any of its representations or warranties under the Master Transfer and Servicing Agreement or any other Program Agreement to which the IESO is a party, except to the extent such losses result from the willful misconduct, bad faith or gross negligence of the Issuer. Notwithstanding the foregoing, the IESO is not obligated to indemnify the Issuer under the Master Transfer and Servicing Agreement for any losses resulting from: (i) a breach or failure to perform by a third party under any Program Agreement or the FHPA (excluding any delegation by the IESO under the Master Transfer and Servicing Agreement to a third party); (ii) changes in law, (iii) the collectability or sufficiency of the Clean Energy Adjustment to satisfy the Issuer's Funding Obligations, including the Senior Notes; or (iv) any liability of the Issuer incurred after termination of the Master Transfer and Servicing Agreement unless attributable to the actions or omissions of the IESO prior to such termination or in respect of a representation, warranty or covenant that survives such termination.

CREDIT RATINGS

Credit ratings are intended to provide investors with an independent measure of the credit quality of securities and are indicators of the likelihood of the payment capacity and willingness of an issuer to meet its financial commitment on an obligation in accordance with the terms of such obligation. The credit ratings accorded to the Senior Notes are not recommendations to purchase, hold or sell such securities inasmuch as such ratings are not a comment upon the market price of the securities or their suitability for a particular investor. There is no assurance that any rating will remain in effect for any given period of time or that any rating will not be revised or withdrawn entirely by a rating agency in the future if, in its judgment, circumstances so warrant.

The Term Sheet for each Offering will identify the rating of the applicable Senior Notes at the time of such Offering.

RATING AGENCY CONDITION

The Program Agreements provide that certain actions are subject to the "**Rating Agency Condition**". In each such case, satisfaction of the Rating Agency Condition requires: (a) that the Issuer has delivered written notice of the proposed action to the Rating Agencies at least ten business days prior to the effective date of such action; and (b) that the Rating Agencies shall have informed the Issuer prior to the effective date of such action that such action will not result in the reduction or withdrawal of the rating in effect with respect to the Notes immediately before the taking of such action. If the Rating Agency Condition is to be satisfied without specifying one or more specific Series or Tranches of Notes, the Rating Agency Condition must be satisfied with respect to all outstanding Series or Tranches of Notes.

CAPITAL MARKETS PLATFORM

The Financial Services Manager has developed a Financing Plan for the Issuer which encompasses an ongoing program which allows for the issuance of a variety of short and long term debt, as well as interest rate and currency swaps and other hedging instruments.

The Master Trust Indenture establishes common security and a set of common covenants given by the Issuer for the benefit of all of its creditors. Notes are issued under Supplemental Indentures and in certain cases, Terms Documents. Borrowings are incurred pursuant to liquidity agreements or loan agreements. Notes and Borrowings incurred by the Issuer are Issuer Funding Obligations. Each Issuer Funding Obligation will be part of a Class and Series of Issuer Funding Obligations, and may include one or more Tranches. A Class designation determines the relative seniority for receipt of cash flows. See *"— Subordination Provisions"*, "*— Payment Waterfalls Prior to Acceleration*" and "*— Acceleration and Remedies — Payment Waterfall Upon Acceleration*". Tranches of Issuer Funding Obligations may differ from each other as to the interest rate, maturity and the timing, sequential order and amount of payments of principal or interest, or both.

The following summary of the principal provisions contained in the Master Trust Indenture does not purport to be comprehensive or definitive. This overview summarizes certain provisions of the Master Trust Indenture and omits descriptions of many provisions which may be considered to be of a customary nature. All references in this confidential shelf offering memorandum to the Master Trust Indenture are qualified in their entirety by reference to the Master Trust Indenture and the detailed provisions thereof. The Master Trust Indenture may be reviewed at the

principal office of the Issuer Trustee in Toronto, Ontario during normal business hours while any Notes are outstanding.

Indenture Trustee

BNY Trust Company of Canada, a trust company governed by the laws of Canada, is the Indenture Trustee under the Master Trust Indenture.

Under the terms of the Master Trust Indenture, the Issuer has agreed to pay the Indenture Trustee reasonable compensation for the performance of its duties under the Master Trust Indenture. The Indenture Trustee has agreed to perform only those duties expressly set forth in the Master Trust Indenture. Many of the duties of the Indenture Trustee are described throughout this confidential shelf offering memorandum. Under the terms of the Master Trust Indenture, the Indenture Trustee's limited responsibilities include the following:

- to authenticate, deliver, cancel and otherwise administer the Notes;
- to serve as the registrar in respect of the Notes;
- to establish and maintain all Issuer Accounts and to maintain accurate records of activity in those accounts;
- to serve as the Paying Agent and distribute and transfer funds at the direction of the Manager in accordance with the terms of the Master Trust Indenture;
- to invest funds in the Issuer Accounts at the direction of the Manager (or its agent);
- to deliver to Specified Creditors notice of any Default, Event of Default, Acceleration Event, Protection Event or Servicer Default of which it has received notice, as required under the Master Trust Indenture; and
- to perform certain other administrative functions identified in the Master Trust Indenture.

In the exercise of its duties, the Indenture Trustee will use the same degree of care and skill as a reasonably prudent person would use in comparable circumstances. When all Issuer Funding Obligations have been satisfied and discharged (see "— *Satisfaction and Discharge*"), the Indenture Trustee will no longer act as Indenture Trustee and will have no fiduciary responsibilities to any remaining Specified Creditors and will act only as security agent for those remaining Specified Creditors. The Indenture Trustee is not liable for any errors of judgment as long as the errors are made in good faith and the Indenture Trustee was not negligent. Furthermore, the Indenture Trustee will not be liable for any action taken or not taken by it in good faith if directed to do so by Extraordinary Resolution. The Indenture Trustee is not required to expend or risk its own funds, or incur any financial liability in the exercise of its duties under the Master Trust Indenture and it will not be obliged to exercise any of its rights under the Master Trust Indenture at the request of any Controlling Class Creditor unless such Controlling Class Creditor has provided it with security or an indemnity reasonably satisfactory to it.

In addition to the Indenture Trustee's compensation and the reimbursement of the Indenture Trustee's expenses in connection with the Master Trust Indenture, the Issuer will indemnify the Indenture Trustee for any loss, liability or expense incurred without negligence or bad faith on its part, arising out of or in connection with the administration of the trusts under the Master Trust Indenture. The payment of all such amounts will be subject to the payment waterfalls set out in the Master Trust Indenture and in certain instances, such amounts will be higher in priority than payments to Noteholders. See "— *Payment Waterfalls Prior to Acceleration — Collection Account*", "— *Payment Waterfalls Prior to Acceleration — Protection Account*" and "— *Acceleration and Remedies — Payment Waterfall Upon Acceleration*".

The Indenture Trustee may resign at any time by giving written notice to the Issuer and it may be removed for any reason by Ordinary Resolution of Controlling Class Creditors. The Indenture Trustee must resign if a material

conflict of interest arises in its role as an Indenture Trustee under the Master Trust Indenture and such conflict of interest is not eliminated within 90 days after the Indenture Trustee becomes aware of such material conflict of interest. The Issuer may remove, or any Controlling Class Creditor who has been a *bona fide* Controlling Class Creditor for at least six months may, on behalf of itself and all other Debtholders, petition any court of competent jurisdiction for the removal of the Indenture Trustee if (i) the Indenture Trustee is no longer eligible to act as trustee under the Master Trust Indenture (and any Supplemental Indenture) and fails to resign after it has received a written request to do so by the Issuer or by any Controlling Class Creditor, (ii) the Indenture Trustee becomes incapable of acting, or (iii) the Indenture Trustee becomes subject to any bankruptcy or insolvency related events. In all such circumstances, the Issuer must appoint a successor Indenture Trustee. Any resignation or removal of the Indenture Trustee and appointment of a successor Indenture Trustee will not become effective until the successor Indenture Trustee accepts the appointment. If an instrument of acceptance by a successor Indenture Trustee has not been delivered to the Indenture Trustee within 30 days of giving notice of resignation or removal, the Indenture Trustee may petition a court of competent jurisdiction to appoint a successor Indenture Trustee.

Any successor Indenture Trustee will execute and deliver to the Issuer and its predecessor Indenture Trustee an instrument accepting such appointment. The successor Indenture Trustee must be a bank, a trust company or a corporation organized and doing business under the laws of Canada or of any province or territory thereof, authorized under such laws to carry on a trust business in each of the provinces and territories of Canada. The Issuer may not, nor may any person directly or indirectly controlling, controlled by, or under common control with the Issuer, serve as Indenture Trustee.

The Indenture Trustee may become the owner or pledgee of Notes and may otherwise deal with the Issuer with the same rights it would have if it were not the Indenture Trustee (subject to its obligation to resign if there is a material conflict).

Conditions Precedent to Incurrence of Obligations Secured

There is no limit on the aggregate amount of indebtedness or other obligations which may be secured under the Master Trust Indenture. However, the Issuer will not be permitted to incur any Issuer Funding Obligations or other obligations unless the Issuer meets the conditions described below under *"— Issuer Funding Obligations"* and *"— Other Obligations Secured"*.

Issuer Funding Obligations

The Issuer may not incur any new Issuer Funding Obligations, or renew or extend any existing Issuer Funding Obligations (in each case, other than Derivative Funding Obligations), unless the conditions described below are met on or prior to the date that the Issuer enters into a definitive agreement in respect of such Issuer Funding Obligations:

(a) the Issuer delivers to the Indenture Trustee and each Rating Agency notice of such incurrence;

(b) the Issuer delivers to the Indenture Trustee and each Rating Agency a certificate to the effect that:

(i) the Issuer reasonably believes that such incurrence will not cause an Adverse Effect; an "**Adverse Effect**" means that such action will at the time of its occurrence (a) result in the occurrence of an Event of Default or any event which with the giving of notice or passage of time, or both, would become an Event of Default, (b) adversely affect the amount or timing of any payment to be made to any Debtholder or Derivative Counterparty pursuant to the Master Trust Indenture or any Program Agreement, (c) materially adversely affect the amount or timing of payments to be made to the Specified Creditors (other than Debtholders and Derivative Counterparties) pursuant to this Indenture or any Program Agreement, or (d) adversely affect the security interest and the rights and remedies of the Indenture Trustee in respect thereof;

(ii) all instruments furnished to the Indenture Trustee conform to the requirements of the Master Trust Indenture and constitute sufficient authority under the Master Trust Indenture for the Indenture Trustee to (A) in the case of an issuance of Notes only, authenticate and

deliver such Notes, and (B) in the case of all other Issuer Funding Obligations, execute and deliver the applicable Funding Obligation Agreement;

(iii) in the case of an issuance of Notes only, the form and terms of the Notes have been established in conformity with the provisions of the Master Trust Indenture;

(iv) the incurrence of such Issuer Funding Obligation is consistent in all material respects with the Financing Plan; see *"Ontario Fair Hydro Plan — Fair Allocation Amount and Financing Plan"*;

(v) the conditions set out in clauses (c), (d), (g) and (k) below are met; and

(vi) such other matters as the Indenture Trustee may reasonably request;

(c) the representations and warranties of the Issuer in the Master Trust Indenture are true and correct in all material respects;

(d) the Rating Agency Condition is satisfied with respect to all outstanding Series or Tranches of Issuer Funding Obligations;

(e) the Indenture Trustee receives either:

(i) a certified copy of the instrument whereby the Province of Ontario designated in writing that such Issuer Funding Obligation is an Approved Obligation as contemplated by the Change of Law Protection Agreement; or

(ii) both (A) an Adherence Compliance Certificate addressed to the Indenture Trustee with respect to such Issuer Funding Obligation delivered in accordance with the Change of Law Protection Agreement; and (B) a certificate signed by the Manager certifying that the Province of Ontario has not provided a Suspension Notice;

(f) the Issuer delivers to the Indenture Trustee copies of the applicable Funding Obligation Agreement, including in the case of Notes, a Supplemental Indenture relating to the applicable Series or Tranche of Notes and, if applicable, a Terms Document relating to the applicable Tranche of Notes;

(g) in the case of Senior Funding Obligations only, the Issuer has Subordinated Funding Obligations and Junior Subordinated Funding Obligations in an aggregate outstanding principal amount equal to not less than 35% of the aggregate outstanding principal amount of the aggregate Senior Funding Obligations, Subordinated Funding Obligations and Junior Subordinated Funding Obligations (after giving effect to such incurrence) and in the case of Subordinated Funding Obligations only, the Issuer has Junior Subordinated Funding Obligations in an aggregate outstanding principal amount equal to not less than 10% of the aggregate outstanding principal amount of the aggregate Senior Funding Obligations, Subordinated Funding Obligations and Junior Subordinated Funding Obligations (after giving effect to such incurrence);

(h) except in the case of Notes, the Issuer delivers to the Indenture Trustee an updated list of the Specified Creditors;

(i) each Debtholder in respect of such Issuer Funding Obligation (or an authorized agent on their behalf) has made the acknowledgements and agreements described below under "— *Acknowledgements of Specified Creditors*";

(j) the Change of Law Protection Agreement is in full force and effect against the Province of Ontario or has been replaced with a new agreement that is in form and substance satisfactory to Controlling Class Creditors pursuant to an Ordinary Resolution;

(k) the conditions precedent, if any, specified in the applicable Funding Obligation Agreement are satisfied; and

(l) in the case of an issuance of Notes only:

(i) the Indenture Trustee receives a certificate for the certification and delivery of the Notes and specifying the particulars relating to such Notes;

(ii) in the case of Notes described in section 163(f)(2)(A) of the Internal Revenue Code, if such Notes are not in registered form (including by reason of a book entry system described in section 163(f) of the United States Internal Revenue Code of 1986), then such Notes are described in section 4701(b)(1)(B) of the United States Internal Revenue Code of 1986 and such section will apply to such Notes; and

(iii) in the case of foreign currency Notes, the Issuer appoints one or more Paying Agents in the appropriate countries, if requested by the Indenture Trustee.

Periodic drawdowns under existing Funding Obligation Agreements will not constitute a new incurrence of Issuer Funding Obligations. However, an increase in the aggregate commitment under an existing Funding Obligation Agreement or the issuance of additional Notes of an outstanding Series or Tranche of Notes will constitute a new incurrence of Issuer Funding Obligations.

The Indenture Trustee is not required to and, except as otherwise provided in a Funding Obligation Agreement, the Issuer is not required to, provide prior notice to or obtain the consent of any Debtholder or any other Specified Creditor to issue any Issuer Funding Obligations.

Other Obligations Secured

The Issuer may incur other obligations (including Derivative Funding Obligations) so long as:

(a) the Issuer delivers to the Indenture Trustee a copy of the agreement giving rise to such obligations;

(b) the Issuer delivers to the Indenture Trustee an updated list of the Specified Creditors;

(c) the counterparty to the agreement giving rise to such obligations makes the acknowledgements and agreements described below under "— *Acknowledgements of Specified Creditors*";

(d) if the obligations are Certified Primary Obligations, the Indenture Trustee receives either:

(i) a certified copy of the instrument whereby the Province of Ontario designated in writing that such obligation is an Approved Obligation as contemplated by the Change of Law Protection Agreement; or

(ii) both (A) an Adherence Compliance Certificate addressed to the Indenture Trustee with respect to such obligation delivered in accordance with the Change of Law Protection Agreement; and (B) a certificate signed by the Manager certifying that the Province of Ontario has not provided a Suspension Notice;

provided that, in respect of derivative agreements, the Issuer will provide notice to each Rating Agency of the identity of the Derivative Counterparty and the terms of any applicable master agreement and schedule.

Derivative Agreements

The Issuer may, from time to time, enter into one or more derivative agreements, which would consist of a currency swap or interest rate swap, a cap (obligating a Derivative Counterparty to make payments if a reference rate is greater than a specified rate), a floor (obligating a Derivative Counterparty to make payments if a reference rate is less than a

specified rate), or a collar (obligating a Derivative Counterparty to make payments if a reference rate is greater than a specified rate and entitling the Derivative Counterparty to receive payments if the same reference rate is less than a lower specified rate), with various counterparties. In general, the Issuer will receive payments from the Derivative Counterparty in exchange for the Issuer's payments to them, to the extent required under the derivative agreements. Payments received by the Issuer will constitute Available Collections.

Acknowledgements of Specified Creditors

Each Specified Creditor must acknowledge and agree in favour of the Indenture Trustee that it is a Specified Creditor under the Master Trust Indenture and that its entitlements as a Specified Creditor are subject to the provisions applicable to Specified Creditors under the Master Trust Indenture including, without limitation, those described under "*— Indenture Trustee*", "*— Payment Waterfalls Prior to Acceleration*", "*— Debtholder Approvals and Meetings — Access to Debtholder Lists*", "*— Acceleration and Remedies — Payment Waterfall Upon Acceleration*", "*— Acceleration and Remedies — Rights of Specified Creditors*", "*— Acceleration and Remedies — Limited Recourse*" and "*— Acceleration and Remedies — No Petition*".

Subordination Provisions

Under the Master Trust Indenture, the Issuer can issue the following classes of Issuer Funding Obligations: "Senior Funding Obligations", "Subordinated Funding Obligations" or "Junior Subordinated Funding Obligations" (each, a "**Class**"). (c) third, to pay all principal that is due and payable on Subordinated Funding Obligations on such Principal Payment Date, so long as after making this payment, the amount remaining in the Principal Accumulation Account at least equals the Required Principal Accumulation Amount (Senior) as of such Principal Payment Date; and

(d) fourth, to pay all principal that is due and payable on Junior Subordinated Funding Obligations on such Principal Payment Date, so long as after making this payment, the amount remaining in the Principal Accumulation Account at least equals the sum of the Required Principal Accumulation Amount (Senior) and the Required Principal Accumulation Amount (Subordinated) as of such Principal Payment Date.

Any amounts remaining after the applications referred to above: (i) to be held in the Principal Accumulation Account for distribution in the above order of priority on the next Interest Payment Date or Principal Payment Date; or (ii) after all Issuer Funding Obligations have been paid in full, to be transferred to the Collection Account.

IESO Cash Reserve Account

On each Payment Date beginning in November, 2021, an amount equal to the lesser of (i) the amounts to be paid or transferred pursuant to items (a) through (e) of the Collection Account Waterfall, and (ii) the amount, if any, by which the amount on deposit in the IESO Cash Reserve Account exceeds the IESO Cash Reserve Required Amount will be withdrawn from the IESO Cash Reserve Account and applied to the making of such payments or transfers in the order provided for in the Collection Account Waterfall.

On each Payment Date, if the amounts available for distribution from the Collection Account and from the preceding sentence are insufficient to pay or transfer items (a) through (e) of the Collection Account Waterfall, an amount equal to such deficiency will be withdrawn from the IESO Cash Reserve Account and applied to the making of such payments or transfers in the order provided for in the Collection Account Waterfall. Amounts in the IESO Cash Reserve Account are not available to pay principal on the Senior Notes. Once all funds in the IESO Cash Reserve Account have been paid out, the IESO Cash Reserve Account will be closed.

Program Cash Reserve Account

If, on any Payment Date, the amount on deposit in the Interest Accumulation Account is less than the sum of the Interest Accrual Amount (Senior), the Interest Accrual Amount (Subordinated) and the Interest Accrual Amount (Junior Subordinated), an amount equal to such deficiency will be withdrawn from the Program Cash Reserve Account and deposited in the Interest Accumulation Account.

If, on any Principal Payment Date, the amount available in the Principal Accumulation Account (in accordance with the provisions applicable thereto) is insufficient to pay all principal that is due and payable on Warehouse Obligations, other Senior Funding Obligations, Subordinated Funding Obligations or Junior Subordinated Funding Obligations, as applicable (see "— *Principal Accumulation Account*"), on such Principal Payment Date (after making the applications provided for in the previous paragraph), amounts on deposit in the Program Cash Reserve Account will be used in the following order of priority (*pro rata* in proportion to the claims represented by each paragraph below except as otherwise noted):

(a) first, to pay the deficiency on principal that is due and payable on Warehouse Obligations on such Principal Payment Date;

(b) second, to pay the deficiency on principal that is due and payable on Senior Funding Obligations (other than Warehouse Obligations) on such Principal Payment Date;

(c) third, to pay the deficiency on principal that is due and payable on Subordinated Funding Obligations on such Principal Payment Date; and

(d) fourth, to pay the deficiency on principal that is due and payable on Junior Subordinated Funding Obligations on such Principal Payment Date.

Any amounts remaining after the applications referred to above: (i) to be held in the Program Cash Reserve Account for distribution in the above order of priority on the next Interest Payment Date or Principal Payment Date; or (ii) after all Issuer Funding Obligations have been paid in full, to be transferred to the Collection Account.

Refinancing Account

On each Principal Payment Date, the Paying Agent will transfer from the Refinancing Account to the Principal Accumulation Account the lesser of (i) the amount on deposit in the Refinancing Account, and (ii) the amount by which the sum of the Principal Accumulation Amounts for all Senior Funding Obligations, Subordinated Funding Obligations and Junior Subordinated Funding Obligations on such Principal Payment Date (without reference

to any refinancing notice) exceeds the amount on deposit in the Principal Accumulation Account. After all Issuer Funding Obligations have been paid in full, any amounts remaining in the Refinancing Account will be transferred to the Collection Account.

Protection Account

On each date in respect of which the Province of Ontario makes a payment pursuant to the Change of Law Protection Agreement, the Paying Agent will, prior to making any payments under any other payment waterfall, distribute all amounts in the Protection Account solely to satisfy payments in respect of Approved Obligations as set out in the written payment statement delivered by the Manager to the Province of Ontario under the Change of Law Protection Agreement in the order of priority the applicable Obligation Secured has under the applicable payment waterfall.

On the Province of Ontario paying any amount in respect of an Approved Obligation into the Protection Account, the Province of Ontario will be subrogated and entitled to each applicable Specified Creditor's rights and interests under and in respect of the Approved Obligation to the extent of the amounts paid to the Specified Creditor out of the Protection Account, and shall be entitled to the right to be paid the applicable Subrogation Amount, the benefits of the Collateral and all proceeds therefrom.

Series Accounts

If, after giving effect to payments made on any Payment Date, the amount in the Collection Account is insufficient to make all required payments to Specified Creditors on such date, amounts on deposit in any Series Account may be withdrawn from such Series Account and allocated to the applicable Specified Creditors in accordance with the related Funding Obligation Agreement.

The Issuer agrees that it will (i) perform and observe all of its obligations and agreements contained in the Master Trust Indenture, the Declaration of Trust, the Master Transfer and Servicing Agreement, the other Program Agreements and in the instruments and agreements relating to the Collateral; (ii) diligently pursue any and all actions to enforce its rights each instrument or agreement included in the Collateral except as expressly provided in any Program Agreement; and (iii) enforce the Servicer's material obligations under the Master Transfer and Servicing Agreement and the Manager's material obligations under the Management Agreement.

The Issuer will deliver, or cause to be delivered to the Indenture Trustee and the Rating Agencies: (i) within 140 days after the end of each fiscal year, audited financial statements of the Issuer; (ii) within 90 days after the end of each fiscal quarter (other than the last fiscal quarter of each fiscal year), unaudited financial statements of the Issuer; and (iii) on an annual basis on or before March 31 of each year, a written statement concerning compliance with the conditions and covenants contained in the Master Trust Indenture and confirming that no Default or Event of Default has occurred or if a material Default or Event of Default has occurred, specifying the details thereof.

No Other Business

The Issuer will not engage in any activity other than the activities set forth in the Declaration of Trust or the other Program Agreements, the material provisions of which are described in this confidential shelf offering memorandum under "The Issuer".

Amendments to Program Agreements

Unless the Rating Agency Condition is satisfied, the Issuer will not make any material amendments to any Program Agreement (other than the Master Trust Indenture and individual trade confirmations under derivative agreements), or enter into any Co-Owner Agreement. Without limiting the foregoing sentence, the Issuer will not:

(a) enter into any Co-Owner Agreement without the consent of Controlling Class Creditors by Ordinary Resolution;

(b) amend, supplement, modify, restate or replace, or waive or consent to a postponement of compliance with the terms and conditions on the part of any other party to, any of the Program Agreements (other than the Master Trust Indenture, the derivative agreements and the Declaration of Trust) if any such amendment, supplement, modification, restatement or replacement, or waiver or consent, could reasonably be considered to be materially prejudicial to the rights or interests of any Specified Creditor(s), except as expressly permitted by such Specified Creditor(s) and subject to the Province of Ontario having been given prior notice;

(c) consent, if consent is required, to the resignation of the Manager under the Management Agreement; or

(d) amend the Declaration of Trust if such amendment would have or reasonably be expected to have an Adverse Effect; provided that if such amendment would have such result, such amendment may only be made if the Issuer has obtained the consent of the Debtholders affected by such amendment by Ordinary Resolution.

Regarding amendments to the Master Trust Indenture or a Supplemental Indenture, see "— *Amendments to Master Trust Indenture*".

Consolidation; Sale of Assets

The Issuer may not consolidate with or merge into any other person, or sell, convey, exchange, transfer or otherwise dispose of any of its properties or assets included in the Collateral to any person (each, a "**transaction**"), unless:

(a) the entity formed by or surviving the consolidation or merger (if other than the Issuer) or the entity that acquires by conveyance or transfer formed by or surviving the consolidation or merger, by conveyance or transfer, as applicable: (i) is a financing entity; (ii) is organized under the laws of Canada or any province or territory thereof; (iii) is not a non-resident for purposes of the *Income Tax Act* (Canada); (iv) is not subject to regulation as an "investment company" under the Investment Company Act, (v) expressly assumes, pursuant to an assignment and/or assumption agreement or supplement, the due and punctual payment of all Obligations Secured then outstanding and the performance or observance of all of the Issuer's agreements and covenants under each of the Program Agreements to which the Issuer is a party; and (vi) in the case of a conveyance or transfer only, expressly agrees, pursuant to such assignment and/or assumption agreement or supplement, that (A) all right, title and interest conveyed or transferred is subject and subordinate to the security interest of the Indenture Trustee and (B) it will make all filings required by applicable securities laws in connection with any Notes;

(b) no Event of Default has occurred and is continuing immediately after the transaction;

(c) the Issuer has delivered to the Indenture Trustee an officer's certificate and an opinion of counsel, each stating that (i) such transaction and the agreements delivered in connection with such transaction comply with the terms and conditions in the Master Trust Indenture, (ii) all conditions precedent in the Master Trust Indenture relating to the transaction have been complied with, and (iii) each agreement delivered in connection with such transaction has been duly authorized,

(d) the Rating Agency Condition has been satisfied with respect to such transaction; and

(e) any action as is necessary to maintain the first priority perfected security interest in the Collateral has been taken.

No Borrowing; Guarantees, Loans; Restricted Payments

The Issuer will not issue, incur, assume, guarantee or otherwise become liable for any indebtedness except for Funding Obligations. Additionally, the Issuer will not, except as contemplated by the Master Trust Indenture or the Declaration of Trust, make any loan or advance or credit to, or guarantee, endorse or otherwise become contingently liable in connection with the obligations of, or own, purchase or acquire any stock, obligations, assets or securities of, or any other interest in, or make any capital contribution to, any other person.

The Issuer is permitted to declare or make payable any amounts to the owner of units in the Issuer as permitted by and in accordance with the Declaration of Trust, and redeem, purchase, retire or otherwise acquire for value any units in the Issuer, provided that the Issuer may only satisfy the distribution declared or made payable, or the redemption or purchase price of such units to the extent that cash or property is available for such purpose, subject to the payment waterfalls provided for in the Master Trust Indenture. If the Issuer is restricted from satisfying the foregoing amounts in cash or property, then the Issuer will satisfy such amounts through the issuance of additional units and/or a promissory note to its unitholders in accordance with the Declaration of Trust.

Subordinated Funding Obligations and Junior Subordinated Funding Obligations

Notwithstanding anything in a Funding Obligation Agreement to the contrary, the Issuer may not redeem any Series or Tranche of Subordinated Funding Obligations or Junior Subordinated Funding Obligations unless the following conditions are satisfied: (i) no Default or Event of Default has occurred and is continuing; (ii) all Issuer Accounts are fully funded in accordance with the Master Trust Indenture and any applicable Funding Obligation Agreement; and (iii) the aggregate outstanding principal amount of Subordinated Funding Obligations and Junior Subordinated Funding Obligations after giving effect to such redemption will not be less than 35% of the aggregate outstanding principal amount of Senior Funding Obligations, Subordinated Funding Obligations and Junior Subordinated Funding Obligations.

The Issuer will not permit (i) the aggregate outstanding principal amount of Subordinated Funding Obligations and Junior Subordinated Funding Obligations to be less than 35% of the aggregate outstanding principal amount of Senior Funding Obligations, Subordinated Funding Obligations and Junior Subordinated Funding Obligations, or (ii) the aggregate outstanding principal amount of Junior Subordinated Funding Obligations to be less than 10% of the aggregate outstanding principal amount of Senior Funding Obligations, Subordinated Funding Obligations and Junior Subordinated Funding Obligations.

Security Matters

The Issuer will not (i) permit any lien, charge, excise, claim, security interest, mortgage or other encumbrance (other than permitted liens) to be created on or extend to the Collateral, (ii) release any security or guarantee in respect of the Collateral, (iii) sell, transfer, exchange or otherwise dispose of any of the Collateral except as expressly permitted under the Master Trust Indenture, or (vi) change its name, jurisdiction of formation or type of organization, unless it has provided the Indenture Trustee and each Rating Agency with prior written notice and it has first made all filings and taken all actions necessary to continue and maintain the Indenture Trustee's first priority security interest in the Collateral.

Other Covenants

In addition to the covenants contained in any Supplemental Indenture or any other Funding Obligation Agreement and the other covenants described in this section, the Issuer agrees that:

- upon the written request of the Indenture Trustee, it will use reasonable commercial efforts, following any (i) termination or resignation of the Servicer, the Manager or the Paying Agent, or (ii) termination, non-renewal or expiry of a liquidity agreement or a credit enhancement agreement, to appoint and enter into an agreement with a successor to such Servicer, Manager or Paying Agent, or replace or renew such liquidity agreement or credit enhancement agreement, in form and substance the same as the previously existing Program Agreement;

- it will not claim any credit on or make any deduction from the principal and interest payable on the Notes or Borrowings (other than amounts withheld or deducted in accordance with the Master Trust Indenture); or

- it will not take any action that would cause it to be treated as engaged in a "trade or business within the United States" for U.S. federal income tax purposes.

Amendments to Master Trust Indenture

Amendments not Requiring Consent of Specified Creditors

The Issuer and the Indenture Trustee may amend, supplement or otherwise modify the Master Trust Indenture or any Supplemental Indenture without the consent of any Specified Creditor upon prior notice to each Rating Agency and the Province of Ontario and delivery by the Issuer to the Indenture Trustee of an officer's certificate to the effect that the Issuer reasonably believes that such amendment will not and is not reasonably expected to have an Adverse Effect. Such amendments to the Master Trust Indenture or any Supplemental Indenture may:

- evidence the succession or successive successions of another Financing Entity to the Issuer, and the assumption by such successor of the covenants of the Issuer in the Master Trust Indenture and the Notes;

- add to the covenants of the Issuer, or have the Issuer surrender any of its rights or powers under the Master Trust Indenture (or any Supplemental Indenture), for the benefit of the Debtholders of any or all Classes, Series or Tranches of Issuer Funding Obligations;

- cure any ambiguity, correct or supplement any provision in the Master Trust Indenture which may be inconsistent with any other provision in the Master Trust Indenture (or any Supplemental Indenture), to correct a clear clerical or administrative error, or make any other provisions for matters or questions arising under the Master Trust Indenture;

- provide for the issuance of any Series or Tranche of Notes and to set forth the terms thereof, and/or to add to the rights of the Noteholders of any Class, Series or Tranche;

- provide for the acceptance of a successor Indenture Trustee under the Master Trust Indenture;

- add any Events of Default relating to any or all Classes, Series or Tranches of Issuer Funding Obligations;

- provide for the consolidation of any financing entity and the Issuer into a single entity or the transfer of assets in any financing entity to the Issuer;

- if the IESO is replaced under the Master Transfer and Servicing Agreement, make any necessary changes to the Master Trust Indenture;

- provide for additional forms of credit enhancement for any Class, Series or Tranche of Issuer Funding Obligations;

- facilitate the issuance of foreign currency Issuer Funding Obligations;

- comply with any regulatory, accounting or tax laws, or changes to any ratings criteria;

- enable the Issuer to file a registration statement for the offering of securities registered under the Securities Act and to comply with Regulation AB thereunder; or

- qualify for sale treatment under generally accepted accounting principles.

The Master Trust Indenture or any Supplemental Indenture may also be amended by the Issuer and the Indenture Trustee without the consent of any Specified Creditor (but with prior notice to each Rating Agency and the Province of Ontario) in the following circumstances, provided that the Issuer delivers to the Indenture Trustee an officer's certificate to the effect that (i) the Issuer reasonably believes that such amendment will not and is not reasonably expected to have an Adverse Effect, and (ii) such amendment is required to comply with law, or to conform or be consistent with the statements contained in this confidential shelf offering memorandum:

- to facilitate compliance with changes in laws or regulations applicable to the Issuer or the transactions governed by the Program Agreements; or

- to cause the provisions of the Master Trust Indenture to conform to or be consistent with or in furtherance of the statements made in this confidential shelf offering memorandum with respect to the Master Trust Indenture or any Supplemental Indenture.

Additionally, the Master Trust Indenture or any Supplemental Indenture may also be amended by the Issuer and the Indenture Trustee without the consent of any Specified Creditor (but with prior notice to each Rating Agency and the Province of Ontario) in the following circumstances, provided that (i) the Issuer delivers to the Indenture Trustee an officer's certificate to the effect that the Issuer reasonably believes that such amendment will not and is not reasonably expected to have an Adverse Effect and (ii) the Rating Agency Condition is satisfied with respect to such amendment:

- to add provisions to, or change in any manner or eliminate any of the provisions of, the Master Trust Indenture or any Supplemental Indenture;

- to modify in any manner the rights of the Specified Creditors under the Master Trust Indenture or any Supplemental Indenture; or

- to provide for those changes necessary for compliance with securities law requirements or banking laws or regulations.

The Indenture Trustee may, but is not obligated to, enter into any amendment which adversely affects its rights, duties, benefits, protections, privileges or immunities under the Master Trust Indenture (or any Supplemental Indenture).

Amendments Requiring Consent of Debtholders

The Issuer and the Indenture Trustee may amend, supplement or otherwise modify and amend the Master Trust Indenture or any Supplemental Indenture for reasons other than those stated in the prior section ("*— Amendments not Requiring Consent of Specified Creditors*"), with prior notice to each Rating Agency and the Province of Ontario, the consent of Debtholders of each Class, Series or Tranche of Issuer Funding Obligations affected by that amendment, supplement or other modification by Ordinary Resolution, and satisfaction of the Rating Agency Condition. However, if the amendment, supplement or other modification would result in any of the following events occurring, it may be made only with the consent of each Debtholder of Issuer Funding Obligations affected thereby and satisfaction of the Rating Agency Condition:

- a change in an Interest Payment Date, Principal Payment Date or Principal Payment Default Date for any Issuer Funding Obligation;

- a reduction in the principal amount of, or interest rate on, any Note, or a change in the method of computing the outstanding principal amount in a manner that is adverse to any Debtholder;

- a reduction in the amount of a discount note payable upon its acceleration;

- a reduction in the percentage in outstanding principal amount of Issuer Funding Obligations of any Class, Series or Tranche, the consent of whose holders is required for modification or amendment of the Master Trust Indenture, any Supplemental Indenture or any related agreement or for waiver of compliance with provisions of the Master Trust Indenture or for waiver of defaults and their consequences provided for in the Master Trust Indenture;

- a modification of any of the provisions governing the amendment of the Master Trust Indenture or any Supplemental Indenture, or waivers of past defaults, except to increase any percentage of Debtholders required to consent to any such amendment or waiver, or to provide that certain other provisions of the Master Trust Indenture cannot be modified or waived without the consent of each Debtholder affected by such modification;

- a change in the city or political subdivision so designated with respect to any Class, Series or Tranche of Notes where any principal of, or interest on, any Note is payable; or

- a change in the method of computing the amount of principal of, or interest on, any Note on any date.

Debtholder Approvals and Meetings

Access to Debtholder Lists

The Indenture Trustee will preserve the names and addresses of all Specified Creditors received by it in its capacity as Note registrar and those which it has received from the Issuer in accordance with the Master Trust Indenture. Three or more Debtholders of any Series or Tranche, each of whom has owned an Issuer Funding Obligation of such Series or Tranche for at least six months, may, by application to the Indenture Trustee in the prescribed form, obtain access to the current list of Debtholders held by the Indenture Trustee for purposes of communicating with other Debtholders concerning their rights under the Master Trust Indenture (or any Supplemental Indenture) or under the applicable Program Agreement.

Debtholder Meetings

The Master Trust Indenture sets out the mechanics for meetings of Debtholders. The Master Trust Indenture provides for meetings of Debtholders of any Class, Series or Tranche of Issuer Funding Obligations, of all Issuer Funding Obligations, of Controlling Class Obligations of a Series or of all Controlling Class Obligations (each of such groups of Debtholders being a "**Debtholder Group**"). The Indenture Trustee will call a meeting of a Debtholder Group upon request of the Issuer or Debtholders of at least 25% in aggregate outstanding principal amount of the applicable Issuer Funding Obligations. If the Indenture Trustee fails to convene, or cause to be convened, such a meeting after 30 days, the Issuer or those Debtholders may convene the meeting. The Indenture Trustee may call a meeting of a Debtholder Group at any time for any purpose. The quorum for any meeting is one or more persons holding (personally or as proxies) not less than 25% of the outstanding principal amount of the Issuer Funding Obligations of the Debtholder Group entitled to vote at such meeting. Each Debtholder who is present, whether in person or by proxy, will have one vote for every $1,000 of outstanding principal amount of applicable Issuer Funding Obligations of which he or she shall be the holder.

Every question submitted to a meeting, except those matters requiring an Extraordinary Resolution, shall be decided by a majority of the votes (an "**Ordinary Resolution**"). Any matter requiring an Extraordinary Resolution shall be decided by the affirmative vote of Controlling Class Creditors holding not less than 66⅔% of the outstanding principal amount of all Controlling Class Obligations (an "**Extraordinary Resolution**"). Such matters include:

- after the security has become enforceable, authorizing the Indenture Trustee to accept, in satisfaction or partial satisfaction, all or any part of the Collateral;

- after the security has become enforceable, sanctioning the selling of the Collateral or any part thereof or interest therein;

- after the security has become enforceable, authorizing the Indenture Trustee or any other person to bid or tender at any sale of the Collateral or any part thereof and take such actions in connection with such sale as it determines to be in the best interests of all Controlling Class Creditors;

- consenting to any compromise or arrangement by the Issuer with any creditor, creditors or class or classes of creditors or with the holders of any securities of the Issuer whose claims are payable from the Collateral;

- restraining any Debtholder from taking or instituting any suit, action or proceeding for the purpose of realizing on the Collateral or for the execution of any trust or power hereunder or for the appointment of a liquidator, receiver or trustee in bankruptcy or to have the Issuer liquidated or for any other remedy hereunder and to direct such Debtholder to waive any Event of Default on which any suit or proceeding is founded;

- requiring the Indenture Trustee (subject to receipt by the Indenture Trustee of reasonable funding and indemnity) to exercise or refrain from exercising any other powers conferred upon it by the Master Trust Indenture of general application to all Classes of Issuer Funding Obligations, including the exercise of any rights of the Issuer under any of the Program Agreements upon the occurrence and during the continuance of an Event of Default, or cancel any declaration of acceleration made pursuant to the Master Trust Indenture upon such terms and/or conditions as may be decided;

- authorizing the Indenture Trustee, for and on behalf of all Debtholders, to file and prove a claim or debt against the Issuer or its property for an amount equivalent to the aggregate amount which may be payable in respect of all Issuer Funding Obligations, to value the Collateral, and to vote such claim or debt at meetings of creditors and generally act for and on behalf of all Debtholders in such proceedings as such Extraordinary Resolution may provide; and

- appointing a committee to exercise, on behalf of all Controlling Class Creditors, any powers of such Controlling Class Creditors as are exercisable by Extraordinary Resolution or other resolution (as specified in the Extraordinary Resolution appointing such committee).

Any resolution or instrument signed by the requisite number of Debtholders or Controlling Class Creditors, as applicable, shall have the same force and effect as a resolution duly passed at a meeting of such Debtholders or Controlling Class Creditors.

Any action or vote taken at a meeting (including by way of written instrument) of Debtholders of a Debtholder Group duly held in accordance with the Master Trust Indenture will be binding on all Debtholders of that Debtholder Group. An Extraordinary Resolution shall bind all Debtholders and all other Specified Creditors.

In determining whether Noteholders of the requisite principal amount have taken any action under the Master Trust Indenture, (i) Senior Notes owned by the Issuer, the Manager or any affiliate of either of them, and (ii) any Class of Notes (or portion thereof) in which the Province of Ontario has an interest will, in each case, be disregarded and deemed not to be outstanding at any time that a Specified Creditor other than the Province of Ontario has an interest in such Class of Notes. In determining whether the Indenture Trustee will be protected in relying upon any such action, only Senior Notes (or, in the case of the Province of Ontario, any Notes) which a responsible officer of the Indenture Trustee knows to be owned by the Issuer, OPG or any affiliate of either of them, or with respect to which the Province of Ontario has an interest pursuant to the Change of Law Protection Agreement, will be so disregarded.

Whenever an action may be taken by Debtholders of a specified percentage of outstanding principal amount of Issuer Funding Obligations and at such time there are outstanding Issuer Funding Obligations of any relevant Series denominated in a foreign currency, then the principal amount of the Issuer Funding Obligations of such Series which will be deemed to be outstanding for purposes of taking such action will be the amount of Canadian dollars which could be obtained for such principal amount at the market exchange rate on the applicable date.

Events of Default

General

Each of the following events is an "**Event of Default**":

(a) the Issuer's failure, for a period of 5 days, to pay interest on any Controlling Class Obligations when such interest becomes due and payable;

(b) the Issuer's failure to pay the principal of any Controlling Class Obligations at the Principal Payment Default Date;

(c) any representation or warranty in the Master Trust Indenture proves to be incorrect in any material respect when made and if capable of remedy, such incorrect representation or warranty is not remedied for a period of 60 days after the Indenture Trustee or Controlling Class Creditors holding at least 25% of the outstanding principal amount of all Controlling Class Obligations have provided written notice to the Issuer requesting remedy of that default and stating that as a result of such default, the interests of such Controlling Class Creditors are materially and adversely affected and continue to be materially and adversely affected during the 60-day period;

(d) the Issuer's default in the performance, or breach, of any other of its covenants or warranties in the Master Trust Indenture, for a period of 60 days after the Indenture Trustee or Controlling Class Creditors holding at least 25% of the outstanding principal amount of all Controlling Class Obligations have provided written notice to the Issuer requesting remedy of that default and stating that as a result of such default, the interests of such Controlling Class Creditors are materially and adversely affected and continue to be materially and adversely affected during the 60-day period;

(e) certain events of bankruptcy or insolvency of the Issuer, or the Issuer fails to maintain its existence or status as a Financing Entity;

(f) the Change of Law Protection Agreement ceases to be in full force and effect against the Province of Ontario, or the validity thereof, or the applicability thereof to the Province of Ontario or any Controlling Class Obligations is disaffirmed by the Province of Ontario;

(g) an Acceleration Event has occurred and Controlling Class Creditors holding at least 25% of the outstanding principal amount of all Controlling Class Obligations have provided written notice to the Issuer and the Indenture Trustee specifying the default;

(h) the Issuer's default in the performance of its covenant to deliver payment instructions for a period of three days after the Indenture Trustee has provided written notice thereof;

(i) at any time, the amounts withdrawn from the Program Cash Reserve Account prior to such time exceed the aggregate of (x) 0.50% of the largest outstanding principal amount of all Senior Funding Obligations, Subordinated Funding Obligations and Junior Subordinated Funding Obligations on or prior to such time, (y) the sum of all amounts deposited to the Program Cash Reserve Account, and (z) all interest and earnings (net of losses and investment expenses), if any, on funds credited to the Program Cash Reserve Account; or

(j) a Servicer Default occurs.

If Controlling Class Obligations constituting 25% or more of the outstanding principal amount of all Controlling Class Obligations have been accelerated in accordance with their Funding Obligation Agreements, the thresholds required in clauses (c), (d) or (g) will be deemed to have been met.

Waiver of Default

Subject to the summary provided for below under "*— Acceleration and Remedies — General*", Controlling Class Creditors may, by Ordinary Resolution, waive any past Default under the Master Trust Indenture so long as the Rating Agency Condition in respect of each Series or Tranche of Controlling Class Obligations has been satisfied.

Acceleration and Remedies

General

If an Event of Default (other than an Event of Default described in paragraph (e) or (f)) occurs and is continuing, either the Indenture Trustee or Controlling Class Creditors holding not less than 50% of the outstanding principal amount of all Controlling Class Obligations (treated as one class) may declare the outstanding principal amount of all Issuer Funding Obligations (other than Derivative Funding Obligations) to be immediately due and payable. If Controlling Class Obligations constituting 50% or more of the outstanding principal amount of all Controlling Class Obligations have been accelerated in accordance with their Funding Obligation Agreements, the 50% threshold required will be deemed to have been met. The occurrence of an Event of Default described in paragraph (e) or (f) results in an automatic acceleration of all Issuer Funding Obligations (other than Derivative Funding Obligations).

A declaration of acceleration or an automatic acceleration may be rescinded by Extraordinary Resolution if (i) the Issuer has paid all overdue interest, principal that has become due (other by reason of acceleration) on Controlling Class Obligations and other amounts set out in the Master Trust Indenture, and (ii) all Events of Default (other than non-payment of principal) have been cured or waived.

If Controlling Class Obligations are accelerated, the Indenture Trustee may amongst other things, (i) apply to a court for an order of sequestration and payment of amounts in respect of the Clean Energy Adjustment in accordance with the FHPA, (ii) take possession of the Collateral, (iii) appoint a receiver with respect to the Collateral, (iv) initiate proceedings in any court for the appointment of a receiver or for sale or foreclosure, (v) exercise rights, remedies, powers, privileges and claims under any Program Agreement, including the right to terminate and replace the Manager or the Servicer, or (vi) take any other action, suit, remedy or proceeding authorized or permitted by the Master Trust Indenture or by applicable law. The Indenture Trustee is not obligated to exercise any of its rights or powers under the Master Trust Indenture at the request or direction of any Controlling Class Creditors unless Controlling Class Creditors offer the Indenture Trustee a reasonable indemnity.

See *"Risk Factors — Risks Associated with the Unusual Nature of the Investment Asset" and "Risk Factors — Insolvency-Related Risks Relating to the Issuer"*.

Limitation on Available Amounts on Acceleration

If all or any portion of the principal amount of any indebtedness of the Issuer (including one or more Series of Senior Notes) becomes due and payable after the Moratorium Period and before its scheduled payment date, maturity date or redemption date, the estimated Finance Amount used by the Financial Services Manager to determine the Clean Energy Adjustment for a period will be determined based on the extent, if any, to which the amount of the Clean Energy Adjustment is capable of being increased based on the Fair Allocation Amount for such period. See *"Ontario's Fair Hydro Plan — Fair Allocation Amount and Financing Plan"*. However, upon such acceleration, all accelerated Senior Notes will be repaid in full before any further payments of principal are made to holders of subordinated indebtedness, including the subordinated debt held by OPG; therefore, collections of the Clean Energy Adjustment that would otherwise have been available to repay the principal amount of subordinated indebtedness in the absence of acceleration of the Senior Notes will instead be applied to repay accelerated Senior Notes. See *"Capital Markets Platform"*.

Payment Waterfall Upon Acceleration

After acceleration of the Issuer Funding Obligations (other than derivative agreements), any money or other property standing to the credit of an Issuer Account (except as set out below) or otherwise collected by the Indenture Trustee will be applied in the following priority:

(a) first, to the payment or remittance of taxes for which a governmental authority is given priority over the Specified Creditors under the laws of the applicable jurisdiction;

(b) second, to pay fees, expenses and reimbursement amounts owing to the Issuer Trustee and the Indenture Trustee;

(c) third, *pari passu* (i) to pay interest, fees and other amounts (other than principal) owing in respect of Senior Funding Obligations and (ii) to pay all Derivative Funding Obligations (other than termination payments);

(d) fourth, to pay interest, fees and other amounts (other than principal) owing in respect of Subordinated Funding Obligations;

(e) fifth, to pay interest, fees and other amounts (other than principal) owing in respect of Junior Subordinated Funding Obligations;

(f) sixth, to pay principal owing in respect of Warehouse Obligations;

(g) seventh, *pari passu* (A) to pay principal owing in respect of Senior Funding Obligations (other than Warehouse Obligations) and (B) to pay termination payments owing to Derivative Counterparties where the Derivative Counterparty is not the defaulting party or the sole affected party;

(h) eighth, to pay fees, expenses and reimbursement amounts owing to the Manager;

(i) ninth, to pay principal owing in respect of Subordinated Funding Obligations;

(j) tenth, to pay principal owing in respect of Junior Subordinated Funding Obligations;

(k) eleventh, to pay termination payments owing to Derivative Counterparties where the Derivative Counterparty is the defaulting party or the sole affected party;

(l) twelfth, to pay all indemnity amounts owing to the Manager;

(m) thirteenth, *pari passu* (i) to the payment or remittance of taxes not previously paid pursuant to paragraph (a), and (ii) to pay all amounts owing to Specified Creditors not specifically referred to above; in each case, including, for each referenced party, any amounts payable to their respective affiliates under the terms of any relevant indemnity; and

(n) fourteenth, to pay any remaining amounts to the Issuer.

However, amounts on deposit in a Series Account will first be used to satisfy all obligations owing to the Debtholders or Derivative Counterparties for whom such Series Account was established. Thereafter, such amounts will be applied in accordance with the priorities set out above. In addition, amounts on deposit in the Protection Account will only be used to satisfy the obligations for which those amounts were deposited.

Rights of Specified Creditors

No Specified Creditor will have the right to institute any proceeding, judicial or otherwise, with respect to the Master Trust Indenture, or for the appointment of a receiver or trustee or similar official, or for any other remedy under the Master Trust Indenture. A Controlling Class Creditor may exercise such rights if:

(a) the Issuer or a Controlling Class Creditor has previously given to the Indenture Trustee written notice of a continuing Event of Default;

(b) Controlling Class Creditors, by Ordinary Resolution, have made written request of the Indenture Trustee to institute the proceeding in its own name as Indenture Trustee;

(c) Controlling Class Creditors have offered the Indenture Trustee a satisfactory indemnity; and

(d) the Indenture Trustee has, for 60 days, failed to institute the proceeding.

Subject to certain powers which may only be exercised by Extraordinary Resolution, Controlling Class Creditors, by Ordinary Resolution, will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Indenture Trustee, or exercising any trust or power conferred on the Indenture Trustee with respect to all Issuer Funding Obligations. However, the Indenture Trustee may decline to follow such direction if it determines (based on advice from counsel) that such direction (i) conflicts with applicable law or the Master Trust Indenture, (ii) has a substantial likelihood of involving the Indenture Trustee in personal liability or (iii) is unjustly prejudicial to Controlling Class Creditors not taking part such direction. See "*— Debtholder Approvals and Meetings — Debtholder Meetings*" for a description of certain powers which may only be exercised by Extraordinary Resolution. Specified Creditors (other than Debtholders) do not have any right to direct the time, method and place of conducting any proceeding for any remedy available to the Indenture Trustee, or exercising any trust or power conferred on the Indenture Trustee. Specified Creditors (other than Debtholders) will only have the right to receive proceeds following an Event of Default.

Limited Recourse

The obligation of the Issuer to pay principal of and interest on the Issuer Funding Obligations or any other amount payable to any Specified Creditor is subject to the allocation and payment provisions in the Master Trust Indenture and the applicable Funding Obligation Agreement and limited to amounts available from the Collateral. Neither the Indenture Trustee, the Manager nor the Issuer Trustee in its individual capacity, nor any holder of any unit in the Issuer, nor any of their respective owners, beneficiaries, agents, officers, directors, employees, successors or assigns will, in the absence of an express agreement to the contrary, be personally liable for the payment of the principal of or interest on the Notes or any other Issuer Funding Obligation, or for the Issuer's covenants and agreements contained in the Master Trust Indenture.

No Petition

Each Specified Creditor, by accepting its rights as a beneficiary under the Master Trust Indenture, agrees that until one year and one day following repayment in full of all Issuer Funding Obligations, it will not commence (or join in commencing) a bankruptcy, insolvency or similar proceeding under the laws of any jurisdiction against the Issuer.

Force Majeure

The Indenture Trustee and the Issuer Trustee will not be responsible or liable for any failure or delay in the performance of their obligations under the Master Trust Indenture arising out of or caused by, directly or indirectly, forces beyond their control, including loss or malfunctions of utilities, communications or computer services.

Satisfaction and Discharge

The Master Trust Indenture will cease to be of further effect with respect to any Class, Series or Tranche of Issuer Funding Obligations when:

(a) (x) in the case of Notes, all Notes of that Class, Series or Tranche which had been outstanding, with certain exceptions set forth in the Master Trust Indenture, have been delivered to the Indenture Trustee for cancellation or been cancelled, or (y) in the case of all other Issuer Funding Obligations, all Issuer Funding Obligations of that Class, Series or Tranche have been paid in full, as certified by the Issuer;

(b) the Issuer has paid all other sums payable by it under the Master Trust Indenture with respect to that Class, Series or Tranche of Issuer Funding Obligations; and

(c) the Issuer has delivered to the Indenture Trustee an officer's certificate and an opinion of external counsel each stating that the conditions precedent in the Master Trust Indenture relating to the satisfaction and discharge with respect to that Class, Series or Tranche of Issuer Funding Obligations have been complied with.

The Master Trust Indenture will cease to be of further effect when all Issuer Funding Obligations have been satisfied and discharged in accordance with the previous paragraph and all other Obligations Secured have been paid in full, as certified by the Issuer.

DESCRIPTION OF SENIOR NOTES

The following description of the Senior Notes is a summary of certain of their material attributes and characteristics, and does not purport to be complete. The terms and conditions set forth in this *"Description of Senior Notes"* section will apply to each Senior Note unless otherwise specified in the Term Sheet applicable to such Offering. For further particulars, reference should be made to the Master Trust Indenture and the Supplemental Indenture and Terms Document, if any, relating to the particular Series or Tranche of Senior Notes.

General

The Senior Notes will be issued under the Master Trust Indenture and will be Funding Obligations issued in connection with the financing program described under the heading "*Capital Markets Platform*". The specific terms and conditions of each Series of Senior Notes will be set forth in the Supplemental Indenture authorizing that Series and the specific terms and conditions of any Tranche of Senior Notes will be set forth in the Supplemental Indenture or the Terms Document authorizing that Tranche.

Under the Master Trust Indenture, the Issuer may issue an unlimited principal amount of Senior Notes. See "*Capital Markets Platform — Conditions Precedent to Incurrence of Obligations Secured — Issuer Funding Obligations*". The Senior Notes will be direct obligations of the Issuer and secured in the manner provided for under the Master Trust Indenture. See "*Capital Markets Platform — Security*".

The Supplemental Indenture or Terms Document will describe the following terms of the Senior Notes:

- the Series designation;
- stated principal amount of the Senior Notes;
- whether such Senior Notes are of a particular Tranche of Senior Notes;
- the currency or currencies in which such Senior Notes will be denominated and in which payments of principal of, and interest on, such Senior Notes will or may be payable;

- the price at which such Series or Tranche of Senior Notes will be issued;
- the times at which such Series or Tranche of Senior Notes may, pursuant to any optional redemption provisions, be redeemed, and the other terms and provisions of any such redemption;
- the rate per annum at which such Series or Tranche of Senior Notes will bear interest, if any, or the formula or index on which such rate will be determined;
- each Interest Payment Date, each Principal Payment Date and the Principal Payment Default Date for such Series or Tranche of Senior Notes;
- the Principal Accumulation Date(s), if any, and Principal Accumulation Amount(s) for such Series of Senior Notes;
- the initial principal amount of such Senior Notes, and the means for calculating the outstanding principal amount of such Series or Tranche of Senior Notes;
- whether or not application will be made to list such Series or Tranche of Notes on any securities exchange;
- any events of default with respect to such Series or Tranche of Senior Notes;
- if such Series or Tranche of Senior Notes will be issued in whole or in part in the form of a global note, the terms and conditions, if any, upon which such global note may be exchanged for other individual Senior Notes, and the depository for such global note;
- if such Class, Series or Tranche of Senior Notes will be issued in whole or in part in registered form, bearer form or both, and if such Senior Notes will be issued with or without coupons;
- if such Class, Series or Tranche will have the benefit of a credit enhancement agreement or liquidity agreement, and the terms and provisions of the applicable agreement;
- the record date for any Interest Payment Date or Principal Payment Date of such Series or Tranche of Senior Notes, if different from the last of the month before the related Interest Payment Date or Principal Payment Date; and
- whether and under what conditions, additional amounts will be payable to Noteholders of such Series or Tranche of Notes.

Limitations

The Senior Notes do not constitute a debt, liability or other obligation of, or interest in, OPG or any of its other affiliates (other than the Issuer) or of the IESO. The Senior Notes are not a debt, liability or obligation of the Province of Ontario or any of its political subdivisions, agencies or instrumentalities. The Senior Notes will not be insured or guaranteed by the Province of Ontario, OPG or any of their respective affiliates or any other person or entity, except that the Province of Ontario has agreed to provide a limited guarantee in respect of the Senior Notes following the occurrence of certain events. See *"Change of Law Protection Agreement"*.

Payments of Principal and Interest

Interest will accrue on the principal balance of each Series or Tranche of Senior Note at the interest rate specified in the related Term Sheet and will be payable on the Interest Payment Date(s) specified in the related Term Sheet. Principal of each Series or Tranche of Senior Notes will be payable in the amounts and on the Principal Payment Date(s) specified in the related Term Sheet. The Term Sheet applicable to a Series or Tranche of Senior Notes will

also set out the Principal Payment Default Date for such Senior Notes, which is the date on which failure to pay the principal amount of such Senior Notes will result in an Event of Default.

On each Payment Date, the Issuer will, to the extent funds are available therefor from the Collection Account (see "*Capital Markets Platform — Payment Waterfalls Prior to Acceleration — Collection Account*"), transfer to the Interest Accumulation Account the aggregate amount of interest that has accrued on each Series of Senior Notes (together with all other amounts to be accrued for other Issuer Funding Obligations). On each Interest Payment Date for a Series or Tranche of Senior Notes, the Paying Agent will pay to the holders of such Senior Notes interest then due on such Senior Notes using amounts available therefor from the Interest Accumulation Account, the Principal Accumulation Account, the IESO Cash Reserve Account, the Program Cash Reserve Account and the Protection Account. See "*Change of Law Protection Agreement*" and "*Capital Markets Platform — Payment Waterfalls Prior to Acceleration*".

On each Payment Date, the Issuer will, to the extent funds are available therefor from the Collection Account (see "*Capital Markets Platform — Payment Waterfalls Prior to Acceleration — Collection Account*"), transfer to the Principal Accumulation Account the aggregate of the amounts the Issuer is required to accumulate for each Series of Senior Notes (together with all other amounts to be accumulated for other Issuer Funding Obligations). The Term Sheet applicable to a Series or Tranche of Senior Notes will set out the Principal Accumulation Amount(s) and the Payment Dates on which such amounts are to be accumulated for such Senior Notes. On each Principal Payment Date for a Series or Tranche of Senior Notes, the Paying Agent will pay to the holders of such Senior Notes the principal then due on such Senior Notes using amounts available therefor from the Principal Accumulation Account, the Program Cash Reserve Account and the Protection Account. See "*Change of Law Protection Agreement*" and "*Capital Markets Platform — Payment Waterfalls Prior to Acceleration*". Holders of Senior Notes may receive principal payments earlier than an expected Principal Payment Date if an optional redemption occurs and may receive principal payments later than an expected Principal Payment Date if there are insufficient Available Collections. See "*Risk Factors*" for a discussion of factors that may affect the timing of principal payments on a Series or Tranche of Senior Notes. It is not an Event of Default if the stated principal amount of a Series or Tranche of Senior Notes is not paid in full on an expected Principal Payment Date. If the stated principal amount of a Senior Note is not paid in full by its Principal Payment Default Date, an Event of Default will occur. See "*Capital Markets Platform — Events of Default*".

Unless otherwise specified in a Term Sheet, the Issuer has designated the Indenture Trustee as its Paying Agent for all Senior Notes having a place of payment in Toronto, Ontario.

Optional Redemption of Senior Notes

If a Supplemental Indenture for any Series or Tranche of Senior Notes states that such Senior Notes will be redeemable, in whole at any time or in part from time to time, such Senior Notes will be redeemable at the option of the Issuer at the redemption price specified in the Supplemental Indenture. If less than all the Senior Notes of any Series or Tranche are to be redeemed at one time, the Senior Notes of such Series or Tranche to be redeemed will be selected by the Indenture Trustee on a pro rata basis according to the principal amount of such Senior Notes registered in the name of each holder thereof, or in such other manner as the Indenture Trustee may consider equitable.

Notice of any redemption will be delivered to each holder of the Senior Notes to be redeemed, electronically or by mail (postage prepaid) at the address of such holder appearing in the Note register (or published in an authorized newspaper in the case of Senior Notes held in bearer form) or otherwise in accordance with the procedures of the depository, at least 15 days but not more than 30 days before the redemption date, except that redemption notices may be delivered more than 30 days prior to the redemption date if the notice is issued in connection with a satisfaction and discharge of the Master Trust Indenture with respect to such Series or Tranche of Senior Notes. The notice of redemption will state (i) the portion of the principal amount thereof to be redeemed (provided that no Senior Notes in an aggregate principal amount of 1,000 units of the applicable currency or less will be redeemed in part), (ii) the redemption date and (iii) the redemption price. Unless the Issuer defaults in payment of the redemption price, on and after the redemption date, interest will cease to accrue on the Senior Notes or portions of the Senior Notes called for redemption. A replacement note in principal amount equal to the unredeemed portion thereof will be issued in the name of the holder thereof upon cancellation of the original note; provided, however, that, in the case of a global note, an appropriate notation may instead be made on such note to decrease the principal amount thereof to an amount equal to the unredeemed portion thereof.

The Term Sheet for each Offering will identify the redemption provisions of the applicable Notes at the time of such Offering.

Purchase for Cancellation

The Issuer may purchase or otherwise acquire, at any time or from time to time, all or any of the outstanding Senior Notes of any Series or Tranche in the market or by invitation for tenders or by private contract at such prices as it may determine in its sole discretion. All such Senior Notes purchased by the Issuer will be cancelled. If, upon a tender, more Senior Notes of a Series or Tranche are tendered at the same lowest price than the Issuer is prepared to accept, the Senior Notes of such Series or Tranche to be purchased will be selected by the Indenture Trustee on a pro rata basis according to the principal amount of such Senior Notes registered in the name of each holder thereof, or in such other manner as the Indenture Trustee may consider equitable.

DEPOSITORY SERVICES

Except as otherwise provided below, the Senior Notes will be issued in "book-entry only" form and must be purchased, transferred, redeemed or exchanged through participants ("**Participants**") in the depository service of a depository chosen by the Issuer (the "**depository**") or its nominee, which include securities brokers and dealers, banks and trust companies. On the closing date of an Offering, the Issuer will cause a global certificate representing the Senior Notes to be delivered to, and registered in the name of, the depository or its nominee. Except as described below, no purchaser of Senior Notes will be entitled to a certificate or other instrument from the Issuer or the depository evidencing that purchaser's ownership thereof, and no purchaser will be shown on the records maintained by the depository except through a book-entry account of a Participant acting on behalf of such purchaser. Each purchaser of Senior Notes will typically receive a customer confirmation of purchase from the registered dealer from which the Senior Notes are purchased in accordance with the practices and procedures of that registered dealer. The practices of registered dealers may vary, but generally, customer confirmations are issued promptly after execution of a customer order. The depository will be responsible for establishing and maintaining book-entry accounts for its Participants having interests in the Senior Notes.

Neither the Issuer, the Indenture Trustee nor the Agents will assume any liability for: (i) any aspect of the records relating to the beneficial ownership of the Senior Notes held by the depository or the payments relating thereto; (ii) maintaining, supervising or reviewing any records relating to the Senior Notes; or (iii) any advice or representation made by or with respect to the depository or those contained in this confidential shelf offering memorandum and relating to the rules governing the depository or any action to be taken by the depository or at the direction of its Participants. The rules governing the depository provide that it acts as the agent and depository for the Participants. As a result, Participants must look solely to the depository and persons, other than Participants, having an interest in the Senior Notes must look solely to Participants for payments made by or on behalf of the Issuer to the depository in respect of the Senior Notes.

If: (i) required by applicable law; (ii) the depository notifies the Issuer in writing that the depository is no longer willing or able to discharge properly the responsibilities of a depository with respect to the Senior Notes and the Issuer is unable to locate a qualified successor; (iii) the Issuer determines the Senior Notes in book-entry only form should be exchanged for definitive certificates and the Issuer delivers a written notice to such effect to the Indenture Trustee; (iv) an Event of Default has occurred and Noteholders holding more than 50% of the Controlling Class Obligations of any Series of Senior Notes determine such book-entry system is no longer in the best interests of the holders of that Series; or (v) the book-entry system is terminated, then certificates representing the Senior Notes will be issued to the beneficial owners of Senior Notes.

Interest on the Senior Notes will be paid directly to CDS while the book-entry only system is in effect. If definitive certificates are issued, interest will be paid by wire transfer of immediately available funds to the accounts specified by the holders thereof or, if no such account is specified, by mailing a cheque to each such holder's registered address. Payment of principal, and the interest due, at maturity, will be paid directly to CDS while the book-entry only system is in effect. If definitive certificates are issued, payment of principal, and interest due, at maturity, will be paid upon surrender thereof at any office of the Trustee or as otherwise specified in the Indenture.

Manner of Effecting Transfer or Redemption

A transfer or redemption of Senior Notes held in "book-entry form" only will be effected through records maintained by the depository or its nominee with respect to interests of Participants, and on the records of Participants with respect to interests of persons other than Participants. Purchasers of such Senior Notes who are not Participants, but who desire to purchase, sell or otherwise transfer ownership of or other interests in the Senior Notes, may do so only through Participants.

DTC, Euroclear and Clearstream, Luxembourg

Where CDS acts as depository for a series of Senior Notes, to the extent the Issuer makes such series of Senior Notes eligible with The Depositary Trust Company ("**DTC**"), Euroclear Bank S.A./N.V., as operator of the Euroclear System ("**Euroclear**") and Clearstream Banking, société anonyme ("**Clearstream, Luxembourg**"), and the Issuer specifies as such in the Term Sheet with respect to the particular series of Senior Notes, holders may hold such series of Senior Notes through the accounts maintained by DTC, Euroclear or Clearstream, Luxembourg, as applicable, as participants in CDS only if they are participants of those systems, or indirectly through organizations which are participants of those systems.

In such case, DTC, Euroclear and Clearstream, Luxembourg will hold omnibus book-entry positions on behalf of their participants through customers' securities accounts in their respective depositaries which in turn will hold such positions in customers' securities accounts in the names of the nominees of the depositaries on the books of CDS. All securities in DTC, Euroclear and Clearstream, Luxembourg are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts.

Transfers of such Senior Notes by persons holding through Euroclear or Clearstream, Luxembourg participants, as applicable, will be effected through CDS, in accordance with CDS rules, on behalf of the relevant European international clearing system by its depositaries; however, such transactions will require delivery of transfer instructions to the relevant European international clearing system by the participant in such system in accordance with its rules and procedures and within its established deadlines (European time). The relevant European international clearing system will, if the transfer meets its requirements, deliver instructions to its depositaries to take action to effect the transfer of the Senior Notes on its behalf by delivering Senior Notes through CDS and receiving payment in accordance with its normal procedures for next-day funds settlement. Payments with respect to the Senior Notes held through Euroclear or Clearstream, Luxembourg will be credited to the cash accounts of Euroclear participants or Clearstream, Luxembourg participants in accordance with the relevant system's rules and procedures, to the extent received by its depositaries.

All information in this confidential shelf offering memorandum concerning CDS, DTC, Euroclear and Clearstream, Luxembourg, reflects the Issuer's understanding of the policies of such organizations which may change at any time without notice.

PLAN OF DISTRIBUTION

The Senior Notes may be sold by the Issuer directly pursuant to applicable statutory exemptions or through agents designated by the Issuer from time to time. Each Term Sheet will identify the Agents engaged in connection with the applicable Offering of Senior Notes and will also set forth the terms of the Offering of Senior Notes, including the net proceeds to the Issuer and, to the extent applicable, any fees payable to the Agents. The Agents will conditionally offer the Senior Notes for sale on a "best efforts" basis, if, as and when issued and delivered by the Issuer in accordance with the conditions contained in an agency agreement (the "**Agency Agreement**") between the Issuer, OPG and the Agents to be entered into on or about the date of each Term Sheet. The Agents will be paid a fee by the Issuer for their services rendered to the Issuer in connection with the offering, issue and sale of the Senior Notes. The obligations of the Agents under the Agency Agreement may be terminated upon the occurrence of certain stated events. The Agents may over-allot or effect transactions which stabilize or maintain the market price of the Senior Notes at a level different than that which might otherwise prevail in the open market. Such transactions, if commenced, may be discontinued at any time.

The Senior Notes may not be offered or sold, directly or indirectly, in Canada or to or for the account of any Canadian resident except, in the case of sales made in any province of Canada, pursuant to an exemption from the prospectus requirements in Section 2.3 of NI 45-106 and, in the case of a purchaser resident in Ontario, section 73.3(2) of the *Securities Act* (Ontario), also known as the "accredited investor" exemption. In addition, Senior Notes will not be offered or sold, directly or indirectly, to individuals unless those individuals are also "permitted clients" within the meaning of NI 31-103.

Resale of the Senior Notes will be subject to restrictions under applicable securities legislation which vary depending on the relevant jurisdictions. **The Senior Notes may only be sold on a basis that is exempt from the prospectus requirements of applicable securities legislation through an appropriately registered dealer or pursuant to an exemption from the registration requirements of applicable securities legislation**. See *"Restrictions on Resale"*.

This confidential shelf offering memorandum does not constitute an offer to sell or a solicitation of an offer to buy any of the Senior Notes in the United States. The Senior Notes have not been and will not be registered under the U.S. Securities Act or any state securities laws and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons (as such term is defined in Regulation S under the U.S. Securities Act) unless the Senior Notes are registered under the U.S. Securities Act and applicable state securities laws or an exemption therefrom is available. In addition, until 40 days after the commencement of an Offering, any offer or sale of the Senior Notes within the United States by any dealer (whether or not participating in an Offering) may violate the registration requirements of the U.S. Securities Act if such offer or sale is made otherwise than in accordance with an exemption from the registration requirements of the U.S. Securities Act. Each Agent has agreed that, except as permitted by an Agency Agreement, it will not offer or sell the Senior Notes as part of the distribution of the Senior Notes at any time within the United States or to, or for the account or benefit of, U.S. persons.

RISK FACTORS

An investment in Senior Notes involves certain risks. Prospective investors in the Senior Notes should carefully consider all the information included in this confidential shelf offering memorandum, including the risks described below, before deciding to invest in the Senior Notes. This section does not describe all risks applicable to the Issuer and is intended only as a summary of certain material risks. In addition, prospective investors should consult their own financial and other legal and tax advisors, and should carefully consider, among other matters, the following discussion of risks before deciding whether to purchase Senior Notes.

Judicial, Legislative or Regulatory Risks

Future legal action might challenge or invalidate the FHPA and materially adversely affect a holder's investment in the Senior Notes.

The Investment Asset is a creation of the FHPA, which became effective on June 1, 2017. The Issuer will be the first Financing Entity under the FHPA to issue Funding Obligations as contemplated under the FHPA. The FHPA or any provisions thereof might be directly contested in courts or otherwise become the subject of litigation. The FHPA is novel legislation in Canada and therefore there are no precedents to rely on to support the validity of the FHPA.

As of the date of this confidential shelf offering memorandum, no such litigation has arisen; however, there can be no assurance that a lawsuit challenging the validity of some portion or all of the FHPA will not be filed in the future or that, if filed, such lawsuit will not be successful. If such a lawsuit were successful, and an invalidation of any relevant underlying legislative or regulatory provision were to result that did not constitute a Protection Event under the Change of Law Protection Agreement, a holder of Senior Notes may lose some or all of their investment in the Senior Notes or experience significant delays in recovering their investment in the Senior Notes. Even if the successful lawsuit constitutes a Protection Event, under the terms of the Change of Law Protection Agreement, the Province of Ontario is not obligated to pay or indemnify the Indenture Trustee or any Specified Creditor for consequential, special or punitive damages, or for economic loss or loss of profits (provided that economic loss does not include any amount in respect of an amount due and payable to a Specified Creditor under the Limited Guarantee).

Future legislative action to change the FHPA, the Change of Law Protection Agreement or the electricity market might materially adversely affect a holder's investment in the Senior Notes.

The FHPA provides that no act or omission of the Crown shall be effective to reduce, impair, postpone or terminate the obligations of Specified Consumers to pay amounts in respect of the Clean Energy Adjustment or to impair or postpone the invoicing, collection or remittance of the Clean Energy Adjustment. Ontario does not have a referendum or initiative process by which the FHPA may be amended or repealed. Therefore, the only way for such provisions of the FHPA to be amended or repealed would be through a subsequent legislative action by the Province of Ontario. A determination by the Province of Ontario that, for political or other reasons, the FHPA should no longer be law in Ontario or that the FHPA should be amended to limit or delay the recovery of Clean Energy Adjustments, could result in a decision to make such an amendment, repeal or revocation. Any such action that adversely affects the ability of the Issuer to receive amounts in respect of the Investment Interest so that it can pay Approved Obligations when due and payable (determined after taking into account certain factors described above in the definition of "Protection Event") would be subject to the Change of Law Protection Agreement. Under the Change of Law Protection Agreement, the Province of Ontario is not obligated to pay or indemnify the Indenture Trustee or any Specified Creditor for consequential, special or punitive damages, or for economic loss or loss of profits (provided that economic loss does not include any amount in respect of an amount due and payable to a Specified Creditor under the Limited Guarantee). See *"Change of Law Protection Agreement"*. However, future legislative action by the Province of Ontario could also be taken that would have the effect of voiding or otherwise rendering invalid the Change of Law Protection Agreement.

Canada does not have any constitutional protection of property rights. While an adverse impact of statutory measures on private property has, in some circumstances, been judicially held to entitle property owners to compensation, such entitlements themselves can also be extinguished by legislation. Accordingly, if the provisions of the FHPA referenced in the previous paragraph were amended or repealed through subsequent legislative action of the Province of Ontario and future legislative action was also taken by the Province of Ontario that had the effect of voiding or otherwise rendering invalid the Change of Law Protection Agreement, a holder of Senior Notes may lose some or all of their investment in the Senior Notes or experience significant delays in recovering their investment in the Senior Notes.

Future judicial action could reduce the value of a holder's investment in the Senior Notes.

The Investment Asset is the creation of the FHPA. There is uncertainty associated with investing in Senior Notes payable from an interest in an asset that depends on legislation for its existence because there is no juridical or regulatory experience implementing and interpreting the legislation or similar legislation in Canada. Because the Investment Asset is a creation of the FHPA, any judicial determination interpreting the FHPA or the Investment Asset might have an adverse effect on a holder of Senior Notes' investment in the Senior Notes.

Potential difficulties in enforcing civil liabilities against the Province of Ontario may arise.

Under the *Proceedings Against the Crown Act* (Ontario), the remedies of injunction and specific performance are not available against the Crown, nor may an order for execution or attachment be made against the Crown, although the remedy of damages is available. Nothing in the Change of Law Protection Agreement or the Program Agreements affects the rights, protections and immunities of the Crown under the *Proceedings Against the Crown Act* (Ontario). As a result, if the Province of Ontario fails to comply with the Change of Law Protection Agreement, the Indenture Trustee's ability to obtain an effective remedy against the Province of Ontario is limited and holders of Senior Notes may lose some or all of their investments in the Senior Notes or experience significant delays in recovering their investments.

Risks Associated with the Unusual Nature of the Investment Asset

Clean Energy Adjustments will not be payable until May 1, 2021 and until such time the IESO will be the sole source of funds for payment on the Senior Notes. Amounts paid by the IESO are not available to pay principal on the Senior Notes.

During the Moratorium Period, no Clean Energy Adjustments are permitted to be collected from Specified Consumers. During the Moratorium Period, a holder of Senior Notes must rely for payment by the Issuer of interest on the Senior

Notes, and the Issuer must rely for payment of all of its Carrying Costs, upon the IESO who is obligated under the Regulations to pay these Carrying Costs to the Issuer. The amounts paid by the IESO with respect to Carrying Costs cannot be applied on account of principal on the Senior Notes. The IESO has granted the Issuer a first-priority security interest in all its accounts receivable from Electricity Vendors, which includes the amounts receivable by the IESO from Electricity Vendors with respect to the global adjustment charge, as security for the performance of its regulatory obligation to pay the Carrying Costs to the Issuer. The IESO also has a $2 billion unsecured credit facility agreement with the Ontario Financing Authority, expiring September 30, 2022, which can be used to pay the Carrying Costs to the Issuer. There can be no assurance that the IESO will continue to have sufficient funds available to pay the Carrying Costs to the Issuer during the Moratorium Period. If the Issuer enforces the security granted to the Issuer by the IESO during this period, there can be no assurance that the IESO's accounts receivable from Electricity Vendors will be sufficient to pay the Carrying Costs to the Issuer and a holder of Senior Notes may suffer material payment delay on the Senior Notes during the Moratorium Period.

The Issuer's ability to enforce security granted by the IESO may be significantly impaired or delayed.

Under various Canadian bankruptcy, insolvency and restructuring statutes or Canadian federal or provincial receivership laws, including the *Bankruptcy and Insolvency Act* (Canada), the *Companies' Creditors Arrangement Act* (Canada), the *Canada Business Corporations Act*, the *Winding-up and Restructuring Act*, and various provincial corporate statutes (collectively, "**Canadian Insolvency and Restructuring Laws**"), the Issuer's ability to enforce security granted by the IESO may be significantly impaired or delayed. In view of the broad discretionary powers of courts under Canadian Insolvency and Restructuring Laws, it is not possible to predict how long payments of Carrying Costs by the IESO or enforcement of any letter of credit or performance guarantee provided by the IESO could be delayed following commencement of a proceeding under Canadian Insolvency and Restructuring Laws by the IESO or whether or when the Issuer would be able to repossess or dispose of the assets over which it holds a security interest. Canadian Insolvency and Restructuring Laws also contemplate the granting of super priority security interests or charges (which could be in priority to the security of existing secured creditors) on the assets of the debtor company to secure the repayment of any amounts to be borrowed to facilitate the insolvency proceeding, any amounts owing for the fees and costs of professionals involved in the insolvency proceeding, obligations of directors of the company with respect to their statutory liabilities and sometimes other amounts.

Canadian Insolvency and Restructuring Laws also contain provisions enabling an obligor to prepare and file a proposal or a plan of arrangement or reorganization for consideration by all or some of its creditors, to be voted on by the various classes of creditors affected thereby. Such a restructuring proposal or plan of arrangement or reorganization, if accepted by the requisite majority of each class of affected creditors and if approved by the relevant Canadian court, would be binding on all creditors of the applicable obligor within the affected classes, including the Issuer, whether or not the Issuer votes in favour of the restructuring proposal or plan of arrangement or reorganization. Such a proposal or plan of arrangement or reorganization may have the effect of compromising certain rights available to the Issuer with respect to the payment of Carrying Costs or enforcement of any security provided by the IESO.

A holder of Senior Notes may experience material payment delays because the source of funds for payment after the Moratorium Period is limited.

A holder of Senior Notes may suffer material payment delays on the Senior Notes if the collateral securing the Senior Notes is insufficient to pay the accrued interest on and the principal amount of those Senior Notes in full. During the Moratorium Period, a holder of Senior Notes must rely for payment by the Issuer of interest on the Senior Notes, and the Issuer must rely on the IESO for the funds necessary to pay its Carrying Costs, upon the IESO who is obligated under the Regulations to pay these Carrying Costs to the Issuer. Amounts paid by the IESO are not available to pay principal on the Senior Notes. After the Moratorium Period, the only source of funds for payments of interest on and principal of the Senior Notes will be the collateral. The collateral for the Senior Notes will include:

- the Investment Interest, including the right to impose, bill, collect and receive Clean Energy Adjustment amounts, inclusive of the True-up Amount;
- the cash and investments on deposit in the accounts held by the Indenture Trustee; and

- the Issuer's rights under various contracts described in this confidential shelf offering memorandum and under the FHPA.

The Senior Notes will not be insured or guaranteed by the Province of Ontario, the IESO, OPG or any of their respective affiliates, the Indenture Trustee or any other person or entity, except pursuant to the Limited Guarantee provided by the Province of Ontario upon the occurrence of a Protection Event. See *"Change of Law Protection Agreement"*. The Senior Notes will be nonrecourse obligations, secured only by the collateral. Delays in payment on the Senior Notes might result in a reduction in the market value of the Senior Notes and, therefore, the value of a holder's investment in the Senior Notes.

The Senior Notes do not constitute a debt, liability or other obligation of, or interest in, OPG or any of its other affiliates (other than the Issuer). The Senior Notes are not a debt or general obligation of the Province of Ontario or any of its political subdivisions, agencies or instrumentalities. However, insofar as the Province of Ontario or any such political subdivision, agency or instrumentality is a Specified Consumer, such governmental entity will be obligated, in its capacity as a Specified Consumer, to pay Clean Energy Adjustment amounts that will be collected and remitted to the Issuer in respect of its Investment Interest securing the Senior Notes.

A holder of Senior Notes must rely for payment of principal of and interest on the Senior Notes solely upon the FHPA, rights to enforcement of the FHPA and of various agreements described in this confidential shelf offering memorandum, collections of Clean Energy Adjustment amounts and cash and investments on deposit in the related accounts held pursuant to the Master Trust Indenture.

The Clean Energy Adjustment may not be billed after April 30, 2047, unless further regulations to extend that date are passed.

The Clean Energy Adjustment may not be billed to Specified Consumers after April 30, 2047, unless further regulations to extend that date are passed. If Clean Energy Adjustment amounts billed through this period are not sufficient to repay the Senior Notes in full and further regulations to extend this date are not passed, apart from amounts in the capital accounts, if any, no other funds will be available to pay the unpaid balance due on the Senior Notes.

Foreclosure of the Indenture Trustee's lien on the Investment Interest securing the Senior Notes might not be practical and acceleration of the Senior Notes before maturity might have little practical effect.

Under the Master Trust Indenture, the Indenture Trustee on behalf of the holders of Senior Notes and other creditors has the right to foreclose or otherwise enforce the lien granted to the Indenture Trustee by the Issuer on the collateral securing the Senior Notes. However, in the event of foreclosure, there is likely to be a limited market, if any, for the collateral. Therefore, foreclosure might not be a realistic or practical remedy. Moreover, although principal of the Senior Notes will be due and payable upon acceleration of the Senior Notes before maturity, under the Regulations, the amount of the Clean Energy Adjustment may not be increased to take into account such acceleration (subject to limited exceptions depending on the Fair Allocation Amount at the time). As a result, this limitation on increases to the Clean Energy Adjustment at the time of any acceleration of the Senior Notes prior to maturity will result in principal of the Senior Notes being paid on acceleration as funds become available. However, upon such acceleration, the priority of principal payments to creditors of the Issuer will result in all accelerated Senior Notes being repaid in full before any further payments of principal are made to holders of subordinated indebtedness of the Issuer. In the event of an acceleration, holders of Senior Notes may be paid sooner or later than originally expected.

The Issuer may issue multiple Series of Senior Notes secured by the Investment Interest and some decisions affecting holders of Senior Notes may require the approval of all Series.

The Issuer may issue multiple Series of Senior Notes all of which will be secured by the collateral securing the Senior Notes. The Issuer may not issue additional Series of Senior Notes if the issuance would not satisfy the Rating Agency Condition and certain other conditions precedent in the Master Trust Indenture. See *"Capital Markets Platform — Conditions Precedent to Incurrence of Obligations Secured — Issuer Funding Obligations"*. If additional Series of Senior Notes are issued, Clean Energy Adjustment amounts collected by or for the benefit of the Issuer will be prorated among the Series of Senior Notes based on the respective amounts of interest and principal due and payable or required to be accumulated in respect of each Series of Senior Notes. Any issuance of additional Series of Senior Notes by the

Issuer could cause reductions or delays in payment on the Senior Notes. In addition, some matters relating to the Senior Notes issued by the Issuer may require the vote of the holders of all Series of Senior Notes. The interests of holders of a particular Series of Senior Notes in these votes might conflict with the interests of the holders of another Series of Senior Notes. Thus, these votes could result in an outcome that is materially unfavorable to holders of a particular Series of Senior Notes.

The Master Trust Indenture contains Events of Default (other than those pertaining to the insolvency of the Issuer or invalidity of the Change of Law Protection Agreement) that can only be declared by Debtholders who hold at least 25% of the outstanding Controlling Class Obligations. If any such Event of Default has occurred and is continuing, Debtholders who hold at least 50% of the outstanding Controlling Class Obligations may accelerate all Issuer Funding Obligations (other than Derivative Funding Obligations). However, it is possible for individual Series of Senior Notes to have their own acceleration events such that those individual Series of Senior Notes may be accelerated while other Series of Issuer Funding Obligations would not be accelerated. In such a case, (i) the allocation of Available Collections to the holders of accelerated Series of Issuer Funding Obligations in a Class would be higher relative to the non-accelerated Series of Issuer Funding Obligations of that Class than it would otherwise be, and (ii) after payment in full of accelerated Senior Notes and other Senior Funding Obligations and once all amounts due and payable on non-accelerated Senior Notes and other Senior Funding Obligations have been satisfied on any principal payment date, amounts remaining for payment of principal would be allocated to the repayment of principal on both accelerated and non-accelerated subordinated debt, as applicable. In certain cases, a declaration of acceleration or an automatic acceleration may also be rescinded by Extraordinary Resolution if (i) the Issuer has paid all overdue interest, principal that has become due (other than by reason of acceleration) on Controlling Class Obligations and other amounts set out in the Master Trust Indenture, and (ii) all Events of Default (other than non-payment of principal) have been cured or waived. See *"Capital Markets Platform — Acceleration and Remedies — General"*.

If a Series of Senior Notes or all Senior Notes are accelerated, a holder of Senior Notes might receive payment of principal sooner or later than expected.

Under certain circumstances it is possible that all outstanding Senior Notes will be accelerated as a Class or that certain Series of Senior Notes will be accelerated while other Series of Senior Notes will not be accelerated. See *"Capital Markets Platform – Acceleration and Remedies"*. The possibility of certain Series of Senior Notes accelerating while other Series of Senior Notes do not accelerate would arise if (i) an Event of Default occurs but Noteholders holding at least 50% of all outstanding Senior Notes do not approve the acceleration of all outstanding Senior Notes, and (ii) holders of Senior Notes of a particular Series approve the acceleration of the Senior Notes of that Series by the requisite majority of holders of that Series as set out in the applicable supplemental indenture for that Series.

If all Senior Notes are accelerated the application of available funds will be as described under *"Capital Markets Platform -- Acceleration and Remedies"* for all Senior Notes. It is possible that holders of 50% or more of the outstanding principal balance of all Senior Notes will approve the acceleration of all Senior Notes even if holders of a particular Series of Senior Notes do not vote in favour of the acceleration of the Senior Notes of that Series.

If only certain Series of Senior Notes are accelerated, then the outstanding principal balance of those Series of Senior Notes will become immediately due and payable but the payment due dates of those Series of Senior Notes that have not been accelerated will not change. In this case, the application of available funds will continue as described under *"Capital Markets Platform -- Payment Waterfalls Prior to Acceleration"*.

Where all Series of Senior Notes or only certain Series of Senior Notes are accelerated, available funds that would otherwise be used to pay the principal amount of subordinated indebtedness will be applied to repay principal of the accelerated Senior Notes. This could result in a holder of Senior Notes that have been accelerated receiving payment of principal sooner than expected. If a Series of Senior Notes has not been accelerated, the payment of principal on such Senior Notes should not occur earlier than expected as the payment due dates for such Senior Notes will not have been accelerated.

Where all Series of Senior Notes or only certain Series of Senior Notes are accelerated, available funds that would otherwise be used to pay the principal amount of the Senior Notes in accordance with the original repayment schedules of such Senior Notes may be applied to repay principal of the accelerated Senior Notes *pari passu* with the principal due on all outstanding Senior Notes (subject to the payment priority given to Warehouse Obligations). If accelerated Senior Notes were not expected to be repaid before a particular Series of Senior Notes at the time the accelerated Senior Notes were issued, the acceleration of such Senior Notes could result in the holder of a particular Series of Senior Notes receiving payment of principal later than expected.

The Issuer may have a co-ownership interest in the Investment Asset with other Financing Entities.

The FHPA authorizes the establishment of one or more Financing Entities that may incur Funding Obligations for the purpose of acquiring Investment Interests. The Master Trust Indenture does not contain any restrictions on the establishment of other Financing Entities or any restrictions on the Transfer by the IESO of specified portions of the Regulatory Asset to other Financing Entities. If additional Funding Obligations are incurred by other Financing Entities to acquire an Investment Interest, the Investment Asset will be co-owned by all Financing Entities (including the Issuer) and consequently Clean Energy Adjustment amounts collected by or for the benefit of the Financing Entities will be prorated among all Investment Interest owners based on the respective amounts of Clean Energy Adjustment amounts invoiced and not yet paid. Any issuance of Funding Obligations by other Financing Entities could cause reductions or delays in payment on the Senior Notes.

If the Clean Energy Adjustment amounts and other funds held in the Issuer Accounts results in investment losses or the investments become illiquid, a holder of Senior Notes might receive payment of principal of and interest on the Senior Notes later than expected.

Funds held in the Issuer Accounts will be invested in Eligible Investments. Eligible Investments include, among other categories, money market funds having a rating in the highest investment category from each applicable Rating Agency. Although investments in these money market funds have traditionally been viewed as highly liquid with a low probability of principal loss, illiquidity and principal losses have been experienced by investors in certain of these funds as a result of disruptions in the financial markets in recent years. If investment losses or illiquidity are experienced, a holder of Senior Notes might experience a delay in payments of principal and interest and a decrease in the value of their investment in the Senior Notes.

Servicing, Operating and Consumer Risks

Payments on the Senior Notes depend on the performance of Electricity Vendors and the IESO.

The Issuer's receipt of Clean Energy Adjustment amounts, which will be used to make payments on the Senior Notes, will depend in part on the skill and diligence of Electricity Vendors and the IESO and their respective successors in performing their respective duties under the FHPA and, with respect to the IESO, the Master Transfer and Servicing Agreement.

The FHPA and the Master Transfer and Servicing Agreement impose new duties and obligations on the IESO and Electricity Vendors. There can be no assurances that the new duties and obligations of the IESO and the Electricity Vendors will be assumed and implemented without difficulty and in accordance with the provisions of the FHPA and the Master Transfer and Servicing Agreement. If the IESO ceases to perform, or inadequately performs, its collection, remittance, forecasting and other functions under the terms of the FHPA and the Master Transfer and Servicing Agreement, it might be difficult to enforce these obligations against the IESO. While the Indenture Trustee has the right to replace the IESO, as servicer, on an Event of Default upon receipt of an Ordinary Resolution, it might be difficult to find a replacement for the IESO or a successor servicer. Also, any successor servicer might have less experience and ability than the IESO and might experience difficulties in collecting Clean Energy Adjustment amounts or providing forecast information, resulting in delays or disruptions to the setting and collection of the Clean Energy Adjustment. Any successor servicer would likely charge fees for the provision of such services and such fees could be material.

If an Electricity Vendor or the IESO fails to collect or remit sufficient Clean Energy Adjustment amounts for any reason, then the IESO's payments to the Issuer in respect of the Clean Energy Adjustments might be delayed or

reduced. In that event, payments on the Senior Notes might be delayed or reduced. In addition, any person into which the IESO may be merged, converted or amalgamated or that may succeed to the properties and assets of the IESO substantially as a whole will assume the role of servicer under the Master Transfer and Servicing Agreement, subject only to the satisfaction of the conditions set forth therein. These conditions do not include either the consent of holders of Senior Notes or satisfaction of the Rating Agency Condition.

Payments on the Senior Notes depend on the performance of OPG as Financial Services Manager and as Manager.

The FHPA imposes new duties and obligations on OPG, as Financial Services Manager, and the Program Agreements impose new duties and obligations on OPG, as Manager. There can be no assurances that the new duties and obligations of OPG will be assumed and implemented without difficulty and in accordance with the provisions of the FHPA and the Program Agreements. If OPG, as Financial Services Manager, ceases to perform, or inadequately performs, its statutory duties under the FHPA, including determining the Clean Energy Adjustment (inclusive of the True-up Amount), the Indenture Trustee will have no right to replace OPG as Financial Services Manager. If OPG ceases to perform, or inadequately performs, its management duties under the Management Agreement, the Indenture Trustee has the right to replace the Manager on an Event of Default upon receipt of an Ordinary Resolution but it might be difficult to find a replacement for OPG or a successor manager. Also, any successor manager might have less experience and ability than OPG, resulting in delays or disruptions to the setting and collection of the Clean Energy Adjustment. Any successor manager would likely charge fees for the provision of such services and such fees could be materially higher than the fees charged by OPG.

Inaccurate consumption forecasting or unanticipated delinquencies or write-offs might reduce or delay scheduled payments on the Senior Notes.

Clean Energy Adjustment amounts will be calculated based upon a forecast of Specified Consumer usage to be newly developed based on forecast information provided by the IESO. Under the Regulations, the IESO is required to provide forecast information to the OEB and the Issuer, which forecast information will be used by the OEB to forecast electricity consumption of Specified Consumers in respect of the relevant period. The amount of the Clean Energy Adjustment collected in any period will depend in part on actual electricity usage by Specified Consumers and the amount of collections and write-offs for Specified Consumers. If the IESO or a successor inaccurately forecasts electricity consumption or if OPG uses inaccurate consumer delinquency or write-off data when setting or adjusting the Clean Energy Adjustment, there could be a shortfall or material delay in collections, which might result in missed or delayed payments of principal and interest on the Senior Notes.

Inaccurate forecasting of electricity consumption by the IESO might result from, among other things unanticipated weather, resulting in less electricity consumption than forecast; general economic conditions being worse than expected, causing Specified Consumers to reduce their electricity consumption; the occurrence of a natural disaster, wind storm or an act of terrorism, cyber-attack or other catastrophic event unexpectedly disrupting electrical service and reducing electricity consumption; unanticipated changes in the market structure of the electric industry; Specified Consumers unexpectedly ceasing business or departing from the Province of Ontario; dramatic and unexpected changes in energy prices resulting in decreased electricity consumption; Specified Consumers consuming less electricity than anticipated because of increased energy prices, unanticipated increases in conservation efforts or unanticipated increases in electricity consumption efficiency; differences or changes in forecasting methodology; or Specified Consumers switching to alternative sources of energy, including self-generation or co-generation of electric power in some cases without using Ontario's transmission or distribution system. Self-generators that receive no transmission or distribution service from the Province of Ontario are not liable for the Clean Energy Adjustment. The FHPA does not require exit fees to be charged to any Specified Consumers that might leave the grid to self-generate.

Inaccurate forecasting of delinquencies or write-offs by OPG could result from, among other things unexpected deterioration of the economy, the occurrence of a natural disaster, an act of war or terrorism or other catastrophic events causing greater write-offs than expected or forcing Electricity Vendors to grant additional payment relief to Specified Consumers; the failure of Electricity Vendors to submit accurate and timely information regarding their collections and write-offs; an unexpected change in law that makes it more difficult for Electricity Vendors to terminate service to nonpaying Specified Consumers, or that requires Electricity Vendors to apply more lenient credit standards for Specified Consumers.

Changes to billing and collection practices may reduce the amount of funds available for payments on the Senior Notes.

The methodology for determining the amount of the Clean Energy Adjustment invoiced to each Specified Consumer is specified in FHPA. None of OPG, the IESO or any Electricity Vendor, as it performs its billing and collection functions on the Issuer's behalf, may change this methodology. However, subject to applicable law, tariff and regulatory requirements, billing and collection arrangements with each Specified Consumer may be changed in a manner that delays or reduces the payments to the Issuer in respect of the Clean Energy Adjustment, which might result in missed or delayed payments of principal and interest on the Senior Notes.

Limits on rights to terminate service to Specified Consumers might make it more difficult to collect the Clean Energy Adjustment.

To the extent that Specified Consumers do not pay for their electricity service, Electricity Vendors will not be able to collect the Clean Energy Adjustment from these Specified Consumers. Electricity Vendors have the ability to terminate service for non-payment subject to the terms of their conditions of service, which conditions must be consistent with the OEB's rules regarding disconnection. Under OEB rules, Electricity Vendors are prohibited from disconnecting or threatening to disconnect homes for non-payment during the winter from November 15 to April 30 every year. Historical rates of non-payment are included in the calculations of the Clean Energy Adjustment, but increases in the rates of non-payment would reduce the Clean Energy Adjustment until it is adjusted through the True-up Amount in a subsequent Reference Period.

It might be difficult for the Issuer to collect the Clean Energy Adjustment from Specified Consumers

Under the FHPA, the Issuer may bring an action against a Specified Consumer for non-payment of the Clean Energy Adjustment, but only an Electricity Vendor may terminate service for failure to pay the Clean Energy Adjustment. The FHPA provides that partial payment of electricity invoices shall be allocated pro rata among the Clean Energy Adjustment and other charges on the invoice. Since the Issuer does not have the threat of termination of service available to enforce payment of the Clean Energy Adjustment, it would need to rely on the Electricity Vendor to threaten to terminate service for nonpayment of other portions of the electricity invoice. This inability might reduce the value of a holder's investment in the Senior Notes.

Delinquent or partial payments of electricity bills may make payments on the Senior Notes occur later than expected.

The amount and the rate of collection of the Clean Energy Adjustment, including the True-up Amount, will impact whether there is a delay in the scheduled payments on the Senior Notes. If the Clean Energy Adjustment amounts are collected at a slower rate than expected, OPG might have to make adjustments to the Clean Energy Adjustment for a subsequent Reference Period through the True-up Amount. Until such adjustments are made or, if those adjustments are not timely and accurate, there may be a delay in payments of principal and interest and a decrease in the value of the Senior Notes.

Indemnification obligations of OPG and the IESO are limited and might not be sufficient to protect the investments in the Senior Notes.

OPG will be obligated under the Management Agreement to indemnify the Issuer and the Indenture Trustee only in specified circumstances. Likewise, the IESO will be obligated under the Master Transfer and Servicing Agreement and the Acknowledgement and Indemnity Agreement to indemnify the Issuer and the Indenture Trustee only in specified circumstances.

Furthermore, neither OPG nor the IESO may have sufficient funds available to satisfy its indemnification obligations, and the amount of any indemnification paid by OPG or the IESO, as applicable, might not be sufficient for holders of Senior Notes to recover all of their investment in the Senior Notes. In addition, if OPG or the IESO becomes obligated to provide indemnification, the ratings on the Senior Notes might be downgraded as a result of the circumstances causing the breach.

Power outages could impair payment of the Senior Notes.

Ontario experiences seasonal conditions typical of southeastern Canada. Summers are usually hot with high temperatures in excess of 20° Celsius. Winters include snow and icy conditions that can be damaging to overhead power lines. Transmission and/or distribution and generation facilities could be damaged depending on weather conditions and usage of electricity could be interrupted temporarily or for long periods of time, reducing the Clean Energy Adjustment amounts collected in one or more Reference Periods.

Technological changes that make alternative energy sources more attractive in the future or significant population fluctuations may result in fewer Specified Consumers from whom to collect the Clean Energy Adjustment.

Technological developments and/or tax or other economic incentives might result in the introduction of economically attractive, more fuel-efficient, more environmentally-friendly and/or more cost-effective alternatives to purchasing electricity through Electricity Vendors for increasing numbers of Specified Consumers. Manufacturers of self-generation facilities may develop smaller-scale, more fuel-efficient on-site generating and/or storage units that can be cost-effective options for a greater number of Specified Consumers. Moreover, an increase in self-service power may result if extreme weather conditions result in regular shortages of grid-supplied energy or if other factors cause grid-supplied energy to be less reliable. Specified Consumers who self-generate their electricity may use it to offset, or eliminate, their consumption from the grid thereby reducing, or eliminating, the Clean Energy Adjustment amounts payable by such Specified Consumers. Technological developments might allow greater numbers of Specified Consumers to reduce or even altogether avoid the payment of Clean Energy Adjustment amounts under such provisions through on-site generation, including where coupled with on-site storage capacity. This might reduce the kilowatt-hours of electric energy delivered to Specified Consumers by means of an Electricity Vendor's system, thereby causing Clean Energy Adjustment charges to the remaining Specified Consumers to increase. Such increases may reduce the collectability of the Clean Energy Adjustment.

Unexpected significant population decreases in the Province of Ontario or Specified Consumers unexpectedly ceasing business or departing from the Province of Ontario may adversely affect the amount of the Clean Energy Adjustment to be invoiced, collected and recovered from Specified Consumers. The decrease in the population of the Province of Ontario may result in fewer Specified Consumers from whom to collect the Clean Energy Adjustment. The increased impact on the remaining Specified Consumers could lead to increased potential consumer defaults and delays, billing lags and write-offs or variations in billing due to variations in electricity consumption.

Insolvency-Related Risks

If the Issuer were to become subject to Canadian Insolvency and Restructuring Laws, the Indenture Trustee's ability to enforce security granted by the Issuer may be significantly impaired or delayed.

Trusts such as the Issuer ordinarily cannot seek protection under the principal Canadian Insolvency and Restructuring Laws (other than a receivership). However, in view of the broad discretionary powers of courts under Canadian Insolvency and Restructuring Laws, the courts' inherent jurisdiction and otherwise, it is not possible to state with certainty that the Issuer could not become subject to Canadian Insolvency and Restructuring Laws. If the Issuer were to become subject to Canadian Insolvency and Restructuring Laws, the Indenture Trustee's ability to enforce security granted by the Issuer may be significantly impaired or delayed. It is not possible to predict how long payments under the Senior Notes could be delayed following commencement of a proceeding under Canadian Insolvency and Restructuring Laws by the Issuer or whether or when the Indenture Trustee would be able to enforce upon or dispose of the assets over which it holds a security interest. Canadian Insolvency and Restructuring Laws also contemplate the granting of super priority security interests or charges (which could be in priority to the security of existing secured creditors) on the assets of the debtor company to secure the repayment of any amounts to be borrowed to facilitate the insolvency proceeding, any amounts owing for the fees and costs of professionals involved in the insolvency proceeding, obligations of directors of the company with respect to their statutory liabilities and sometimes other amounts.

Canadian Insolvency and Restructuring Laws also contain provisions enabling an obligor to prepare and file a proposal or a plan of arrangement or reorganization for consideration by all or some of its creditors, to be voted on by the various classes of creditors affected thereby. Such a restructuring proposal or plan of arrangement or reorganization,

if accepted by the requisite majority of each class of affected creditors and if approved by the relevant Canadian court, would be binding on all creditors of the applicable obligor within the affected classes, including the Indenture Trustee and the Noteholders, whether or not the Indenture Trustee or any holders of Senior Notes votes in favour of the restructuring proposal or plan of arrangement or reorganization. Such a proposal or plan of arrangement or reorganization may have the effect of compromising certain rights available to the Indenture Trustee and the holders of Senior Notes under the Master Trust Indenture or in respect of the collateral.

If the IESO were to become subject to Canadian Insolvency and Restructuring Laws, the Transfers of specified portions of the Regulatory Asset by the IESO may not be respected as true sales of the Regulatory Asset.

Ordinarily, the interests of the Issuer as acquirer of an Investment Interest may be subordinate to statutory deemed trusts and other non-consensual liens, trusts and claims created or imposed by statute or rule of law on the property of the IESO arising prior to the time the corresponding Regulatory Asset was Transferred to the Issuer. This could reduce the amounts that may be available to the Issuer in respect of the Investment Interest and, consequently, the holders of Senior Notes. Section 27(3) of the Act provides that at the time of the Transfer of the Regulatory Asset to a Financing Entity, such Transfer shall be deemed to have been perfected, vested, valid and binding against the IESO and all other persons who have claims of any kind against the IESO. Section 27(4) of the Act provides that section 27(3) applies regardless of whether the persons who have claims have received notice of the Transfer and the property rights and interests acquired by the Transferee shall have priority over any liens in favour of those persons. However, in the event that the IESO becomes insolvent, its insolvency would be subject to federal bankruptcy and insolvency legislation and the effect of these provisions of the Act in such circumstances is untested. The Transfers of the Regulatory Asset to the Issuer will be made in accordance with section 26 of the Act. Section 27(1) of the Act provides that a Transfer of a specified portion of the Regulatory Asset under section 26 constitutes a valid and enforceable absolute assignment, conveyance and sale of the corresponding Investment Interest to the Transferee. Therefore, the Investment Interest would not form part of the assets of the IESO and would not be available to the creditors of the IESO. However, with respect to certain insolvency events relating to the IESO, it is possible that an insolvency administrator or a creditor of the IESO may attempt to argue that the transactions between the IESO and the Issuer are not true sales of the Regulatory Asset. This position, if accepted by a court applying federal bankruptcy and insolvency laws, could prevent timely or ultimate payment of amounts due to the Issuer and, consequently, due from the Issuer to holders of Senior Notes.

These risks are in addition to the insolvency risks of the IESO noted above under *"Risks Associated with the Unusual Nature of the Investment Asset"*.

If the IESO or any Electricity Vendor were to become subject to Canadian Insolvency and Restructuring Laws, collections that have been commingled may be unrecoverable and the Issuer's ability to enforce its rights against the IESO or such Electricity Vendor may be significantly impaired or delayed.

Under the Master Transfer and Servicing Agreement, collections received by the IESO are to be held by the IESO in a segregated account. Until Clean Energy Adjustments are remitted to the IESO by Electricity Vendors, amounts collected by the Electricity Vendors are to be held by Electricity Vendors in segregated accounts. If the IESO or any Electricity Vendor fails to hold collections in a segregated account, then to the extent that funds are commingled and used for the benefit of the IESO or such Electricity Vendor prior to making required deposits, in the event of the liquidation, insolvency, receivership or administration or other proceeding under Canadian Insolvency and Restructuring Laws of the IESO or the Electricity Vendor, the ability of the Issuer to enforce its rights to the collections in a timely manner may be adversely affected and collections that have been commingled may be unrecoverable. In the event of the insolvency of the IESO, the right of the Issuer under the Master Transfer and Servicing Agreement to appoint a replacement servicer may be stayed or prevented.

These risks are in addition to the insolvency risks of the IESO noted above under *"Risks Associated with the Unusual Nature of the Investment Asset"*.

If OPG were to become subject to Canadian Insolvency and Restructuring Laws, the Issuer's ability to enforce its rights against the Manager may be significantly impaired or delayed and the Issuer's assets and liabilities may be substantively consolidated with those of OPG.

Section 53.1 of the *Electricity Act, 1998* (Ontario), as amended by the *Fair Hydro Act, 2017* (Ontario), provides that, regardless of whether a Financing Entity is or is not a subsidiary of OPG: (a) the assets and liabilities of the Financing Entity shall not form part of the assets and liabilities of OPG or any of its subsidiaries (excluding the Financing Entity if it is a subsidiary); and (b) the assets and liabilities of OPG or any of its subsidiaries (excluding the Financing Entity if it is a subsidiary) shall not form part of the assets and liabilities of the Financing Entity. However, in the event that OPG becomes insolvent, its insolvency would be subject to federal bankruptcy and insolvency legislation and the effect of these provisions of the *Electricity Act, 1998* (Ontario), as amended by the *Fair Hydro Act, 2017* (Ontario), in such circumstances is untested. In particular, in the event of the liquidation, insolvency, receivership or administration or other proceeding under Canadian Insolvency and Restructuring Laws of OPG, the ability of the Issuer to enforce certain of its rights in and to the Investment Interest in a timely manner may be adversely affected. Such affected rights may include the right to appoint a replacement Manager. It is possible that the creditors of OPG may attempt to substantively consolidate the assets and liabilities of OPG and the Issuer. The Issuer and OPG have taken steps to minimize this risk. However, no assurance can be given that, in the case of the insolvency of OPG, a court would not order that the Issuer's assets and liabilities be substantively consolidated with those of OPG. Such substantive consolidation would result in all creditors of OPG and the Issuer being paid out of a common pool of assets, with no distinction as to which assets are property of OPG and which assets are property of the Issuer, and could cause payment of the claims of the beneficial owners of the Senior Notes to be subject to substantial delay and to adjustment in timing and amount.

If the Issuer Trustee were to become subject to Canadian Insolvency and Restructuring Laws, the assets and liabilities of the Issuer may be substantively consolidated with the Issuer Trustee.

In the case of the insolvency of the Issuer Trustee, it is possible that the creditors of the Issuer Trustee may attempt to argue that the assets of the Issuer are held by the Issuer Trustee in its personal capacity (and not as trustee of the Issuer) and are to be available to the creditors of the Issuer Trustee. Assuming that the Issuer Trustee deals with the assets of the Issuer in accordance with the provisions of the Declaration of Trust, the assets of the Issuer would not constitute property of the Issuer Trustee available for distribution to the creditors of the Issuer Trustee. An insolvency administrator appointed with respect to the Issuer Trustee may be able to recover from the property of the Issuer a portion of its costs that are incurred until a replacement for the Issuer Trustee, as trustee of the Issuer, is appointed or pending any proceeding in respect of the property of the Issuer. Such costs may exceed the compensation provided for in the Declaration of Trust.

If a Specified Consumer were to become subject to Canadian Insolvency and Restructuring Laws, the Issuer's ability to collect Clean Energy Adjustment amounts from such Specified Consumer may be adversely affected.

The application to a Specified Consumer of Canadian Insolvency and Restructuring Laws and related provincial laws could also affect the ability to collect the Clean Energy Adjustments due for the period prior to the insolvency. Federal bankruptcy laws generally discharge bankrupt Specified Consumers who are individuals of their obligation to pay Clean Energy Adjustment amounts due for the period prior to the individual being discharged from bankruptcy.

If amounts in the Issuer Accounts for any Series are invested with entities that become subject to insolvency proceedings, the Issuer's ability to make payments to holders of Senior Notes may be adversely affected.

Amounts that are on deposit from time to time in the Issuer Accounts for any Series may be invested in Eligible Investments. If insolvency proceedings were to be commenced by or against any entity with which an Eligible Investment is made or which is an issuer, obligor or guarantor of any Eligible Investment, the ability of the Indenture Trustee to enforce its rights in respect of any such Eligible Investment and the ability of the Issuer to make payments to holders of Senior Notes in a timely manner may be adversely affected. In order to reduce this risk, the Eligible Investments must satisfy certain ratings criteria. See "*Rating Agency Condition*".

Other Risks

The credit ratings are not an indication of the expected rate of payment of principal on the Senior Notes.

The Senior Notes will be rated by one or more established rating agencies. A rating is not a recommendation to buy, sell or hold the Senior Notes. The ratings merely analyze the probability that the Issuer will repay the total principal amount of each series of Senior Notes at its final principal payment date (which is later than the Principal Payment Date(s)) and will make timely interest payments. The ratings are not an indication that the rating agencies believe that principal payments are likely to be paid on time according to any expected sinking fund schedule. Thus, the Issuer might repay the principal of a holder of Senior Notes later than expected, which might materially reduce the value of a holder's investment in the Senior Notes.

If the ratings on the Senior Notes are withdrawn or revised downward, the value of a holder's investment in the Senior Notes may be adversely affected.

There is no assurance that any credit rating will remain in effect for any given period of time. The ratings on the Senior Notes may be withdrawn or revised downward at any time without notice, which may have an adverse effect on the market price of the Senior Notes. A rating is not a recommendation to buy, sell or hold the Senior Notes. The ratings merely analyze the probability that the Issuer will repay the total principal amount of each series of Senior Notes at its final principal payment date (which is later than the Principal Payment Date(s)) and will make timely interest payments. The ratings are not an indication that the rating agencies believe that principal payments are likely to be paid on time according to any expected sinking fund schedule. Ratings on the Senior Notes may be lowered, qualified or withdrawn at any time without notice.

The credit ratings of the IESO, OPG and the Province of Ontario might affect the market value of the Senior Notes.

The Senior Notes will not be insured or guaranteed by the Province of Ontario, IESO, OPG or any of their respective affiliates or any other person or entity, except that the Province of Ontario has agreed to provide a limited guarantee in respect of the Senior Notes following the occurrence of certain events. See *"Change of Law Protection Agreement"*. Although neither the IESO nor OPG are obligors in respect of the Senior Notes, a downgrading of the current credit ratings of the IESO, OPG or the Province of Ontario might have an adverse effect on the market value of the Senior Notes, particularly, with respect to the IESO, during the Moratorium Period when no Clean Energy Adjustments are permitted to be collected from Specified Consumers. Credit ratings might change at any time. A rating agency has the authority to revise or withdraw its rating based solely upon its own judgment.

The absence of an established market for the Senior Notes might limit the ability to resell or refinance the Senior Notes.

There is no public market for the Senior Notes, and the Issuer does not intend to apply for a listing of the Senior Notes on any stock exchange. There can be no assurance as to the liquidity of the trading market for the Senior Notes or that a trading market for the Senior Notes will develop.

There is currently no secondary market for the Senior Notes. There can be no assurance that a secondary market will develop or, if a secondary market does develop, that it will provide holders of such Senior Notes with liquidity for their investment or that it will continue for the term of such Senior Notes. Accordingly, purchasers of the Senior Notes may be required to bear the financial risk of investing in the Senior Notes until the maturity date of the Senior Notes.

If an active market does develop for the Senior Notes, the market price on the Senior Notes will depend on many factors including, but not limited to, (i) the Issuer's credit rating and the credit rating of the Senior Notes; (ii) the prevailing interest rates being paid on similar securities; (iii) the Issuer's financial condition and future prospects; and (iv) the overall condition of the economy and the financial markets. The condition of the financial markets and prevailing interest rates have fluctuated in the past and are likely to fluctuate in the future. Fluctuations could have an adverse effect on the market price of the Senior Notes.

The Financial Services Manager has the ability to determine whether to refinance Senior Notes maturing after May 2024 through the issuance of another Series of Senior Notes. However, there can be no assurance that Senior Notes can be refinanced on or before their applicable Principal Payment Default Date.

Restrictions on resale might limit the ability to resell the Senior Notes.

The Senior Notes may not be offered or sold, directly or indirectly, in Canada or to or for the account of any Canadian resident except, in the case of sales made in any province of Canada, pursuant to an exemption from the prospectus requirements under applicable securities laws. The Issuer currently does not intend to file a prospectus or similar document with any securities regulatory authority in Canada qualifying the resale of the Senior Notes to the public in any province of Canada in connection with any Offering of Senior Notes. As a result, the Senior Notes purchased pursuant to this confidential shelf offering memorandum will be subject to restrictions on resale, and may only be resold if a further statutory exemption may be relied upon by the investor or if an appropriate discretionary order or consent is obtained pursuant to applicable securities laws. See "Restrictions on Resale".

(p) it will execute, deliver and file such reports, undertakings and other documents relating to his, her or its purchase of the Senior Notes as may be required by applicable securities laws, regulations and rules, or assist the Issuer and the Agents, as applicable, in obtaining and filing such reports, undertakings and other documents;

In addition, each purchaser of Senior Notes, by purchasing Senior Notes and accepting a purchase confirmation in respect thereof, represents to the Issuer and the Agents for the applicable Offering of Senior Notes that the purchaser:

By purchasing the Senior Notes, the purchaser consents to the disclosure of such information.

LANGUAGE OF DOCUMENTS

Upon receipt of this confidential shelf offering memorandum, each purchaser hereby confirms that it has expressly requested that all documents evidencing or relating in any way to the sale of the Senior Notes described herein (including for greater certainty any purchase confirmation or any notice) be drawn up in the English language only. *En recevant le présent document, chaque acquéreur confirme par les présentes qu'il a expressément demandé que tous les documents qui attestent la vente des débentures décrites dans les présentes ou qui s'y rapportent de quelque manière que ce soit (y compris, plus particulièrement, une confirmation d'achat ou un avis) soient rédigés en langue anglais seulement.*

RESTRICTIONS ON RESALE

The distribution of the Senior Notes in the provinces of Canada is being made on a private placement basis and is therefore exempt from the requirement that the Issuer prepare and file a prospectus with the relevant Canadian securities regulatory authorities. Accordingly, any resale of the Senior Notes must be made: (a) through an appropriately registered dealer or pursuant to an exemption from the dealer registration requirements of applicable provincial securities laws; and (b) in accordance with, or pursuant to an exemption from, the prospectus requirements of applicable provincial securities laws. These resale restrictions may in some circumstances apply to resales made outside of Canada. Purchasers are advised to seek legal advice prior to any resale of the Senior Notes.

Purchasers are advised that the Issuer does not intend to file a prospectus or similar document with any securities regulatory authority in Canada qualifying the resale of the Senior Notes to the public in any province of Canada in connection with any Offering.

Furthermore, each purchaser of Senior Notes, by its purchase thereof, will be deemed to have represented, acknowledged or confirmed, as the case may be, to the Issuer and any dealer who is involved in the sale of the Senior Notes to such purchaser that such purchaser understands that the Senior Notes are subject to transfer and resale restrictions in Canada and that the certificates representing the Senior Notes (or the relevant ownership statement under a direct registration system or other book-entry system) or other applicable document or notice (including this document) will bear or will notify the purchaser of the following legend:

> "EXCEPT IN THE PROVINCE OF MANITOBA, IN ACCORDANCE WITH NATIONAL INSTRUMENT 45-102 — RESALE OF SECURITIES, UNLESS OTHERWISE PERMITTED UNDER CANADIAN SECURITIES LEGISLATION, THE HOLDER OF THIS SECURITY MUST NOT TRADE THE SECURITY BEFORE THE DATE THAT IS FOUR MONTHS AND A DAY AFTER THE LATER OF (I) THE DATE ON WHICH THE SECURITY IS ISSUED; AND (II) THE DATE THE ISSUER BECOMES A REPORTING ISSUER IN ANY PROVINCE OR TERRITORY OF CANADA.
>
> IN THE PROVINCE OF MANITOBA, UNLESS OTHERWISE PERMITTED UNDER APPLICABLE CANADIAN SECURITIES LAWS OR WITH THE PRIOR WRITTEN CONSENT OF THE APPLICABLE REGULATORS, THE HOLDER OF THIS SECURITY MUST NOT TRADE THE SECURITY BEFORE THE DATE THAT IS TWELVE MONTHS AND A DAY AFTER THE DATE THE PURCHASER ACQUIRED THE SECURITY."

The Issuer is not and does not intend to become a reporting issuer.

There is currently no secondary market for the Senior Notes. There can be no assurance that a secondary market will develop or, if a secondary market does develop, that it will provide holders of such Series of Senior Notes with liquidity for their investment or that it will continue for the life of such Senior Notes. Accordingly, purchasers of the Senior Notes may be required to bear the financial risk of investing in the Senior Notes until the maturity date.

REPORTING REQUIREMENTS

The Issuer is not a reporting issuer or the equivalent thereof under the securities legislation in any jurisdiction. Accordingly, the Issuer is not subject to the continuous reporting and disclosure requirements prescribed by such securities legislation. Therefore, there is no requirement that the Issuer comply with such requirements, including, without limitation, the requirements to provide prompt notification of material changes by way of press releases, to formally file disclosure documents with applicable securities regulatory authorities or to prepare and file annual audited financial statements or quarterly unaudited financial statements. However, the Issuer will provide audited annual financial statements and unaudited quarterly financial statements in accordance with the terms of the Master Trust Indenture. See *"Capital Markets Platform — Covenants of the Issuer — Financial Statements; Statement as to Compliance"*.

STATUTORY RIGHTS OF ACTION

Securities legislation in certain of the provinces of Canada provides purchasers, in addition to any other rights they may have at law, with a remedy for rescission or damages where an offering memorandum or any amendment to it, and in some cases, advertising and sales literature used in connection therewith, contains a misrepresentation. These remedies, or notice with respect thereto, must be exercised or delivered, as the case may be, by the purchaser within the time limit prescribed, and are subject to the defences contained, in the applicable securities legislation. Purchasers should refer to the applicable provisions of the securities legislation of their province for the particulars of these rights or consult with a legal advisor. The following is a summary of the rights of rescission or rights to damages available to purchasers of the Senior Notes.

Rights for Purchasers in Ontario

Section 5.2 of Ontario Securities Commission Rule 45-501 — *Ontario Prospectus and Registration Exemptions* provides that when an offering memorandum, such as this confidential shelf offering memorandum, is delivered to an investor to whom securities are distributed in reliance upon the "accredited investor" prospectus exemption in section 73.3 of the *Securities Act* (Ontario) or a predecessor exemption to section 73.3 of the *Securities Act* (Ontario) the right of action referred to in section 130.1 of the *Securities Act* (Ontario) ("**Section 130.1**") is applicable, unless the prospective purchaser is:

(a) an association governed by the *Cooperative Credit Associations Act* (Canada) or a central cooperative credit society for which an order has been made under section 473(1) of that Act;

(b) a bank, loan corporation, trust company, trust corporation, insurance company, treasury branch, credit union, caisse populaire, financial services cooperative, or league that, in each case, is authorized by an enactment of Canada or a jurisdiction of Canada to carry on business in Canada or a jurisdiction of Canada;

(c) a Schedule III bank, meaning an authorized foreign bank named in Schedule III of the *Bank Act* (Canada);

(d) the Business Development Bank of Canada incorporated under the *Business Development Bank of Canada Act* (Canada); or

(e) a subsidiary of any person referred to in paragraphs (a), (b), (c) or (d), if the person owns all of the voting securities of the subsidiary, except the voting securities required by law to be owned by the directors of the subsidiary.

Section 130.1(1) provides such investors who purchase securities offered by an offering memorandum with a statutory right of action against the Issuer of securities for rescission or damages in the event that the offering memorandum and any amendment to it contains a "misrepresentation". The term "misrepresentation" is defined to mean an untrue statement of a material fact or an omission to state a material fact that is required to be stated or that is necessary to make any statement not misleading in the light of the circumstances in which it was made. These remedies, or notice with respect to these remedies, must be exercised or delivered, as the case may be, by the purchaser within the time limits prescribed by applicable securities laws.

Where this confidential shelf offering memorandum is delivered to a prospective purchaser of Senior Notes in connection with a trade made in reliance on section 73.3 of the *Securities Act* (Ontario), and this document contains a misrepresentation, the purchaser will have, without regard to whether the purchaser relied on the misrepresentation, a statutory right of action against the Issuer for damages or, while still the owner of Senior Notes, for rescission, in which case, if the purchaser elects to exercise the right of rescission, the purchaser will have no right of action for damages, provided that the right of action for rescission will be exercisable by the purchaser only if the purchaser commences the action not more than 180 days after the date of the transaction that gave rise to the cause of action; or, in the case of any action other than an action for rescission, the earlier of: (i) 180 days after the plaintiff first had knowledge of the facts giving rise to the cause of action, or (ii) three years after the date of the transaction that gave rise to the cause of action.

The Issuer will not be liable for a misrepresentation if it proves that the purchaser purchased the Senior Notes with knowledge of the misrepresentation.

In an action for damages, the Issuer will not be liable for all or any portion of the damages that the Issuer proves do not represent the depreciation in value of the Senior Notes as a result of the misrepresentation relied upon.

In no case will the amount recoverable for the misrepresentation exceed the price at which the Senior Notes were offered.

The liability of all persons and companies referred to above is joint and several. The Issuer, however, shall not be liable where it is not receiving any proceeds from the distribution of the securities being distributed and the misrepresentation was not based on information provided by the Issuer, unless the misrepresentation, (a) was based on information that was previously publicly disclosed by the Issuer, (b) was a misrepresentation at the time of its previous public disclosure and (c) was not subsequently publicly corrected or superseded by the Issuer prior to the completion of the distribution of the securities being distributed.

The foregoing statutory right of action for rescission or damages conferred is in addition to and without derogation from any other right the purchaser may have at law.

This summary is subject to the express provisions of the *Securities Act* (Ontario) and the regulations and rules made under it, and prospective investors should refer to the complete text of those provisions.

Rights for Purchasers in Saskatchewan

Section 138 of *The Securities Act, 1988* (Saskatchewan), as amended (the "**Saskatchewan Act**") provides that where an offering memorandum (such as this confidential shelf offering memorandum) or any amendment to it is sent or delivered to a purchaser and it contains a misrepresentation (as defined in the Saskatchewan Act), a purchaser who purchases a security covered by the offering memorandum or any amendment to it has, without regard to whether the purchaser relied on the misrepresentation, a right of action for rescission against the Issuer or a selling security holder on whose behalf the distribution is made or has a right of action for damages against:

(a) the Issuer or a selling security holder on whose behalf the distribution is made;

(b) every promoter and trustee of the Issuer or the selling security holder, as the case may be, at the time the offering memorandum or any amendment to it was sent or delivered;

(c) every person or company whose consent has been filed respecting the offering, but only with respect to reports, opinions or statements that have been made by them;

(d) every person who or company that, in addition to the persons or companies mentioned in (a) to (c) above, signed the offering memorandum or the amendment to the offering memorandum; and

(e) every person who or company that sells securities on behalf of the Issuer or selling security holder under the offering memorandum or amendment to the offering memorandum.

Such rights of rescission and damages are subject to certain limitations including the following:

(a) if the purchaser elects to exercise its right of rescission against the Issuer or selling security holder, it will have no right of action for damages against that party;

(b) in an action for damages, a defendant will not be liable for all or any portion of the damages that he, she or it proves do not represent the depreciation in value of the securities resulting from the misrepresentation relied on;

(c) no person or company, other than the Issuer or a selling security holder, will be liable for any part of the offering memorandum or any amendment to it not purporting to be made on the authority of

an expert and not purporting to be a copy of, or an extract from, a report, opinion or statement of an expert, unless the person or company failed to conduct a reasonable investigation sufficient to provide reasonable grounds for a belief that there had been no misrepresentation or believed that there had been a misrepresentation;

(d) in no case will the amount recoverable exceed the price at which the securities were offered; and

(e) no person or company is liable in an action for rescission or damages if that person or company proves that the purchaser purchased the securities with knowledge of the misrepresentation.

In addition, no person or company, other than the Issuer or selling security holder, will be liable if the person or company proves that:

(a) the offering memorandum or any amendment to it was sent or delivered without the person's or company's knowledge or consent and that, on becoming aware of it being sent or delivered, that person or company immediately gave reasonable general notice that it was so sent or delivered; or

(b) with respect to any part of the offering memorandum or any amendment to it purporting to be made on the authority of an expert, or purporting to be a copy of, or an extract from, a report, an opinion or a statement of an expert, that person or company had no reasonable grounds to believe and did not believe that: (i) there had been a misrepresentation, or (ii) the part of the offering memorandum or any amendment to it did not fairly represent the report, opinion or statement of the expert, or was not a fair copy of, or an extract from, the report, opinion or statement of the expert.

Not all defences upon which the Issuer or others may rely are described herein. Please refer to the full text of the Saskatchewan Act for a complete listing.

The liability of all persons and companies referred to above is joint and several.

Similar rights of action for damages and rescission are provided in section 138.1 of the Saskatchewan Act in respect of a misrepresentation in advertising and sales literature disseminated in connection with an offering of securities.

Section 138.2 of the Saskatchewan Act also provides that, subject to certain limitations and defences, where an individual makes a verbal statement to a purchaser that contains a misrepresentation relating to the security purchased and the verbal statement is made either before or contemporaneously with the purchase of the security, the purchaser has, without regard to whether the purchaser relied on the misrepresentation, a right of action for damages against the individual who made the verbal statement.

Section 141(1) of the Saskatchewan Act provides a purchaser with the right to void the purchase agreement and to recover all money and other consideration paid by the purchaser for the securities if the securities are sold in contravention of the Saskatchewan Act, the regulations to the Saskatchewan Act or a decision of the Financial and Consumer Affairs Authority of Saskatchewan.

Section 141(2) of the Saskatchewan Act also provides a right of action for rescission or damages to a purchaser of securities to whom an offering memorandum or any amendment to it was not sent or delivered prior to or at the same time as the purchaser enters into an agreement to purchase the securities, as required by Section 80.1 of the Saskatchewan Act.

The rights of action for damages or rescission under the Saskatchewan Act are in addition to and do not derogate from any other right which a purchaser may have at law.

Section 147 of the Saskatchewan Act provides that no action will be commenced to enforce any of the foregoing rights more than:

(a) in the case of an action for rescission or cancellation, 180 days after the date of the transaction that gave rise to the cause of action; or

(b) in the case of any other action, other than an action for rescission or cancellation, the earlier of:

(i) one year after the plaintiff first had knowledge of the facts giving rise to the cause of action; or

(ii) six years after the date of the transaction that gave rise to the cause of action.

Rights for Purchasers in Nova Scotia

The right of action for rescission or damages described herein is conferred by section 138 of the *Securities Act* (Nova Scotia). Section 138 provides, in the relevant part, that in the event that this confidential shelf offering memorandum (which shall for the purposes hereof be considered to include any document or record incorporated or deemed to be incorporated by reference herein), together with any amendments hereto (which shall for the purposes hereof be considered to include any document or record incorporated or deemed to be incorporated by reference therein), or any advertising or sales literature (as defined in the *Securities Act* (Nova Scotia)) contains an untrue statement of material fact or omits to state a material fact that is required to be stated or that is necessary in order to make any statements contained herein or therein not misleading in light of the circumstances in which it was made (a "misrepresentation"), a purchaser of Senior Notes is deemed to have relied upon such misrepresentation if it was a misrepresentation at the time of purchase and has, subject to certain limitations and defences, a statutory right of action for damages against the Issuer, its trustees, any person who signed this confidential shelf offering memorandum, any selling security holder and the directors of any such selling security holder at the date of this confidential shelf offering memorandum or, alternatively, while still the owner of the Senior Notes, may elect instead to exercise a statutory right of rescission against the Issuer, in which case the purchaser will have no right of action for damages against any person listed above, including the Issuer, provided that, among other limitations:

(a) no action may be commenced to enforce the right of action for rescission or damages by a purchaser resident in Nova Scotia under Section 138 later than 120 days after the date payment was made for the Senior Notes (or after the date on which initial payment was made for the Senior Notes where payments subsequent to the initial payment are made pursuant to a contractual commitment assumed prior to, or concurrently with, the initial payment);

(b) no person will be liable if it proves that the purchaser purchased the Senior Notes with knowledge of the misrepresentation;

(c) no person or company, other than the Issuer, is liable under Section 138 if the person or company proves that:

(i) this confidential shelf offering memorandum, or any amendment hereto, was sent or delivered to the purchaser without the person's or company's knowledge or consent and that, on becoming aware of its delivery, the person or company gave reasonable general notice that it was delivered without the person's or company's knowledge or consent;

(ii) after delivery of this confidential shelf offering memorandum, or the amendment hereto, and before the purchase of the Senior Notes by the purchaser, on becoming aware of any

misrepresentation in this confidential shelf offering memorandum, or the amendment hereto, or any record incorporated or deemed incorporated by reference herein, the person or company withdrew the person's or company's consent to this confidential shelf offering memorandum, or amendment hereto, or such record, and gave reasonable general notice of the withdrawal and the reason for it; or

(iii) with respect to any part of this confidential shelf offering memorandum, or amendment hereto, or any record incorporated or deemed to be incorporated by reference herein, purporting to be made on the authority of an expert, or to be a copy of, or an extract from a report, an opinion or a statement of an expert, the person or company had no reasonable grounds to believe and did not believe that there had been a misrepresentation, or that the relevant part of this confidential shelf offering memorandum, or amendment hereto, or such record, did not fairly represent the report, opinion or statement of the expert, or was not a fair copy of, or extract from, the report, opinion or statement of the expert;

(d) no person or company, other than the Issuer, is liable under Section 138 with respect to any part of this confidential shelf offering memorandum, or amendment hereto, or any record incorporated or deemed incorporated by reference herein, not purporting to be made on the authority of an expert, or to be a copy of, or an extract from, a report, opinion or statement of an expert, unless the person or company failed to conduct a reasonable investigation to provide reasonable grounds for a belief that there had been no misrepresentation, or believed that there had been a misrepresentation;

(e) in the case of an action for damages, no person will be liable for all or any portion of the damages that it proves do not represent the depreciation in value of the Senior Notes resulting from the misrepresentation; and

(f) in no case will the amount recoverable under Section 138 in any action exceed the price at which the Senior Notes were offered to the purchaser.

The liability of all persons or companies referred to above is joint and several with respect to the same cause of action. A defendant who is found liable to pay a sum in damages may recover a contribution, in whole or in part, from a person or company who is jointly and severally liable to make the same payment in the same cause of action unless, in all the circumstances of the case, the court is satisfied that it would not be just and equitable.

The foregoing statutory right of action for rescission or damages conferred by Section 138 of the *Securities Act* (Nova Scotia) is in addition to and without derogation from any other right or remedy available at law or otherwise to the purchaser. This summary is subject to the express provisions of the *Securities Act* (Nova Scotia) and the regulations and rules made under it, and prospective investors should refer to the complete text of those provisions may have at law.

Rights for Purchasers in New Brunswick

Section 2.1 of New Brunswick Securities Commission Rule 45-802 provides that the statutory rights of action in rescission or damages referred to in Section 150 of the *Securities Act* (New Brunswick) ("**Section 150**") apply to information relating to an offering memorandum, such as this confidential shelf offering memorandum, that is provided to a purchaser of securities in connection with a distribution made in reliance on the "accredited investor" prospectus exemption in Section 2.3 of NI 45-106. Section 150 provides investors who purchase securities offered for sale in reliance on an exemption from the prospectus requirements of the *Securities Act* (New Brunswick) with a statutory right of action for damages against (i) the Issuer; (ii) the selling security holder on whose behalf the distribution was made; (iii) every person who was a director of the Issuer as at the date of the offering memorandum; and (iv) every person who signed the offering memorandum in the event that an offering memorandum provided to such investor contains a "misrepresentation". Alternatively, if the investor purchased the securities from a person referred to in (i) or (ii) above, an investor may elect a right of rescission, in which case the investor shall have no right of action for damages. "Misrepresentation" means an untrue statement of a material fact or an omission to state a material fact that is required to be stated or that is necessary to make a statement not misleading in the light of the circumstances in which it was made.

Where this confidential shelf offering memorandum is delivered to a prospective purchaser of Senior Notes in connection with a trade made in reliance on Section 2.3 of NI 45-106, and this document (including any documentation incorporated or deemed to be incorporated by reference) contains a misrepresentation, a purchaser who purchases the securities will be deemed to have relied on the misrepresentation and will have, subject to certain limitations and defences, a statutory right of action against the Issuer for damages or, while still the owner of Senior Notes, for rescission. If the purchaser elects to exercise the right of rescission, the purchaser will have no right of action for damages. The right of action for rescission will be exercisable by the purchaser only if the purchaser commences the action against the defendant, not more than 180 days after the date of the transaction that gave rise to the cause of action; or, in the case of any action other than an action for rescission, the earlier of: (i) one year after the plaintiff first had knowledge of the facts giving rise to the cause of action, or (ii) six years after the date of the transaction that gave rise to the cause of action.

No person other than the Issuer or the selling security holder is liable under Section 150 if the person proves that:

(a) the offering memorandum was delivered to the purchaser without the person's knowledge or consent and that, on becoming aware of its delivery, the person gave written notice to the Issuer that it was delivered without the person's knowledge or consent;

(b) upon becoming aware of a misrepresentation in the offering memorandum the person withdrew the person's consent to the offering memorandum and gave written notice to the Issuer of the withdrawal and the reason for the withdrawal; or

(c) with respect to any part of the offering memorandum purporting to be made on the authority of an expert or purporting to be a copy of, or an extract from, a report, opinion or statement of an expert, the person had no reasonable grounds to believe and did not believe there had been a misrepresentation or that the relevant part of the offering memorandum did not fairly represent the report, opinion or statement of the expert or was not a fair copy of, or extract from, the report, opinion or statement of the expert.

In addition, no person other than the Issuer or the selling security holder is liable under Section 150 with respect to any part of an offering memorandum not purporting to be made on the authority of an expert and not purporting to be a copy of, or an extract from, a report, opinion or statement of an expert unless (i) the person failed to conduct such reasonable investigations as to provide reasonable grounds for a belief that there had been no misrepresentation or (ii) the person believed that there had been misrepresentation.

The defendant will not be liable for a misrepresentation if it proves that the purchaser purchased the Senior Notes with knowledge of the misrepresentation.

In an action for damages, the defendant will not be liable for all or any portion of the damages that the defendant proves do not represent the depreciation in value of the Senior Notes as a result of the misrepresentation relied upon.

In no case will the amount recoverable for the misrepresentation exceed the price at which the Senior Notes were offered.

The liability of all persons referred to above is joint and several.

The foregoing statutory right of action for rescission or damages conferred is in addition to and without derogation from any other right the purchaser may have at law.

This summary is subject to the express provisions of the Securities Act (New Brunswick) and the regulations and rules made under it, and prospective investors should refer to the complete text of those provisions.

    (B) the relevant part of the confidential shelf offering memorandum:

      a. did not fairly represent the report, statement or opinion of the expert, or

      b. was not a fair copy of, or an extract from, the report, statement, or opinion of the expert.

Not all defences upon which the Issuer or others may rely are described herein. Please refer to the full text of the *Securities Act* (Prince Edward Island) for a complete listing.

If the purchaser elects to exercise a right of action for rescission, the purchaser will have no right of action for damages.

In no case will the amount recoverable in any action exceed the price at which the Senior Notes were offered to the purchaser.

In an action for damages, the defendant will not be liable for any damages that the defendant proves do not represent the depreciation in value of the Senior Notes as a result of the misrepresentation.

("**OPG**"), as Financial Services Manager (as hereinafter defined), has created a program providing for the offering and issuance of senior secured notes (the "**Senior Notes**"), in one or several offerings. The Issuer was established in connection with the *Ontario Fair Hydro Plan Act, 2017* (together with the regulations promulgated thereunder, the "**FHPA**"). Under the FHPA, OPG is appointed as financial services manager (in such capacity, the "**Financial Services Manager**") and is given the authority to, among other things, establish, or cause to be established, one or more financing entities (each, a "**Financing Entity**") to incur payment obligations (referred to as "**Funding Obligations**") for the purposes prescribed under the FHPA. The Issuer is a Financing Entity under the FHPA and the Senior Notes are Funding Obligations being offered for the purposes of the FHPA.

The Senior Notes do not constitute a debt, liability or other obligation of, or interest in, OPG or any of its other affiliates (other than the Issuer). The Senior Notes are not a debt, liability or obligation of the Province of Ontario or any of its political subdivisions, agencies or instrumentalities. The Senior Notes will not be insured or guaranteed by the Province of Ontario, OPG or any of their respective affiliates or any other person or entity, except that the Province of Ontario has agreed to provide a limited guarantee in respect of the Senior Notes following the occurrence of certain events. See *"Change of Law Protection Agreement"*. The Senior Notes will be limited recourse obligations, secured only by the collateral described in this confidential shelf offering memorandum. See *"Capital Markets Platform —Acceleration and Remedies — Limited Recourse"* and *"Risk Factors"*.

The specific terms of any offering of Senior Notes, including, without limitation, the aggregate principal amount of Senior Notes being offered, the currency of the Senior Notes, the issue price (at par, at a discount or at a premium), the issue, delivery and maturity dates, any redemption or repayment provisions, the rating of the Senior Notes at the time of such offering, the interest (either fixed or floating and the circumstances, if any, under which the rate may be

adjusted), the interest rate basis and interest payment dates, will be established by the Issuer and set forth in a term sheet (a "**Term Sheet**") that will accompany, be incorporated by reference in and form an integral part of this confidential shelf offering memorandum. Unless otherwise specified in a Term Sheet, the Senior Notes will not be listed on any securities exchange.

The offering of Senior Notes from time to time (each, an "**Offering**") will be made pursuant to exemptions from the prospectus requirements of applicable securities laws in each of the provinces of Canada only to "accredited investors" (as such term is defined in National Instrument 45-106 – *Prospectus Exemptions* ("**NI 45-106**") and, in the case of a purchaser resident in Ontario, section 73.3(1) of the *Securities Act* (Ontario)) that are purchasing the Senior Notes as principal and that are not individuals unless those individuals are also "permitted clients" (as such term is defined in National Instrument 31-103 – *Registration Requirements, Exemptions and Ongoing Registrant Obligations* ("**NI 31-103**")). Purchasers of Senior Notes will be obliged to establish their qualification to invest in accordance with the requirements of the securities laws of the jurisdiction in which they reside. See *"Representations and Agreements of Purchasers"*. As each Offering will be made pursuant to exemptions from prospectus requirements of applicable securities laws, there will be restrictions on the resale of the Senior Notes. See *"Risk Factors"* and *"Restrictions on Resale"*.

The Senior Notes may be sold by the Issuer directly pursuant to applicable statutory exemptions or through agents designated by the Issuer from time to time (the "**Agents**"). See *"Plan of Distribution"*. Each Term Sheet will identify the Agents engaged to conditionally offer the Senior Notes for sale on a best efforts basis, subject to prior sale, in connection with the applicable Offering of Senior Notes and will also set forth the terms of such Offering of Senior Notes, including the net proceeds to the Issuer and, to the extent applicable, any fees payable to the Agents.

Subscriptions for the Senior Notes will be received subject to rejection or allotment in whole or in part and the right is reserved to close the subscription books at any time without notice. The Senior Notes will be delivered and recorded in book-entry form through CDS Clearing and Depository Services Inc. ("**CDS**") or another depository selected by the Issuer in accordance with the master trust indenture governing the Senior Notes. The Senior Notes will be represented by fully registered book-entry notes held by, or on behalf of, such depository, or a successor thereof, as the custodian of the book-entry notes, in its name or the name of its nominee.

The Senior Notes will be issued under and will be entitled to the benefits of a master trust indenture dated as of December 21, 2017 between the Issuer, as issuer, and BNY Trust Company of Canada, as indenture trustee, as amended, supplemented, restated or otherwise modified from time to time.

In making an investment decision, prospective investors acknowledge that they have not relied on the Agents or any person affiliated with the Agents for investment or other advice and are relying on their own examination of the terms of an Offering, including the merits and risks involved and creditworthiness of the Issuer. Prospective investors are not to construe the contents of this document as legal, tax, accounting or investment advice. Prior to investing in the Senior Notes, prospective investors should consult with their legal, tax, accounting and investment advisors to determine the consequences of an investment in the Senior Notes. See *"Risk Factors"* for a discussion of certain factors that should be considered by prospective purchasers of Senior Notes.

The Issuer is not a "reporting issuer" (as such term is defined under applicable Canadian securities laws) in any jurisdiction. The Issuer will only distribute the Senior Notes in Canada under exemptions from the prospectus requirements of the securities laws of the provinces where they are sold. The Senior Notes may only be traded in Canada under exemptions from the prospectus requirements of the securities laws of the provinces in which they are traded and only through dealers registered or exempt from the dealer registration requirements of applicable Canadian securities laws. See *"Restrictions on Resale"*.

There is currently no secondary market for the Senior Notes. There can be no assurance that a secondary market will develop or, if a secondary market does develop, that it will provide holders of Senior Notes with liquidity for their investment or that it will continue for the term of the applicable Senior Notes. Accordingly, purchasers of the Senior Notes may be required to bear the financial risk of investing in such Senior Notes until the maturity date of such Senior Notes.

No person is authorized to give any information or make any representation other than those contained in this confidential shelf offering memorandum in connection with an Offering and any decision to purchase Senior Notes should be based solely on the information contained herein. The Term Sheet applicable to such Offering and the investor presentation (the "**Investor Presentation**"), attached hereto as Exhibit 1, are incorporated by reference and included in, respectively, and form an integral part of, this confidential shelf offering memorandum. The information contained in the Investor Presentation is current only as of the date thereof. The Investor Presentation may be updated and replaced by the Issuer in connection with an Offering and such updated Investor Presentation will be attached as Exhibit 1, and will be included in, and form an integral part of, this confidential shelf offering memorandum delivered in respect of such Offering.

This confidential shelf offering memorandum, including the Investor Presentation attached hereto, and any Term Sheets, are provided on a confidential basis to prospective investors for informational use solely in connection with their consideration of the purchase of Senior Notes. Use for any other purpose is not authorized. Each Offering will be made solely on the basis of the information contained herein or incorporated by reference which has been furnished by the Issuer. No Agent makes any representation or warranty, express or implied, as to the accuracy, adequacy or completeness of such information. Furthermore, no Agent has independently verified the information in this confidential shelf offering memorandum and has no responsibility for the accuracy, adequacy or completeness of any such information.

This confidential shelf offering memorandum does not contain all of the information that would normally appear in a prospectus qualified under applicable Canadian securities laws. Neither the delivery of this confidential shelf offering memorandum, at any time, nor any sales made pursuant hereto, will imply that the information contained herein is correct as of any time subsequent to the date set forth on the face page hereof and the Issuer and the Agents will not update such information except as may be required by applicable law.

CAUTION REGARDING FORWARD-LOOKING INFORMATION

Some of the statements contained in this confidential shelf offering memorandum, including those relating to the Issuer's expectations, forecasts, strategic and other statements, are forward-looking information within the meaning of securities laws. Forward-looking information is contained in the summary and in the sections titled *"Ontario's Fair Hydro Plan — Fair Allocation Amount and Financing Plan"*, *"Subordinated Debt"* and *"Risk Factors"* of this confidential shelf offering memorandum and *"Fair Allocation Amount"*, *"Financing Plan / Strategy"*, *"Financing Structure"*, *Aggregate Financing Program"* and *"Consumer Bill Forecast with FHP"* of the Investor Presentation. The forward-looking statements contained in this confidential shelf offering memorandum are presented for the purposes of assisting potential purchasers in making an investment decision regarding the Senior Notes and may not be appropriate for other purposes.

Often, but not always, forward-looking information can be identified by the use of forward-looking terminology such as "may", "will", "expect", "believe", "estimate", "plan", "could", "should", "would", "outlook", "forecast", "anticipate", "foresee", "continue" or the negative of these terms or variations of them or similar terminology. Forward-looking information is based on the reasonable assumptions, estimates, analysis and opinions of management of the Issuer made in light of its experience and perception of trends, current conditions and expected developments, as well as other factors that the Issuer believes to be relevant and reasonable at the date that such statements are made. A variety of factors, many of which are beyond the Issuer's control, may cause actual results to differ materially from the expectations expressed in the forward-looking statements. These factors include, but are not limited to, the following risks:

Judicial, Legislative or Regulatory Risks:

- Future legal action might challenge or invalidate the FHPA and materially adversely affect a holder's investment in the Senior Notes.
- Future legislative action to change the FHPA, the Change of Law Protection Agreement or the electricity market might materially adversely affect a holder's investment in the Senior Notes.
- Future regulatory action to change the rules applicable to the operation of the electricity market might materially adversely affect a holder's investment in the Senior Notes.
- Future judicial action could reduce the value of a holder's investment in the Senior Notes.
- Potential difficulties in enforcing civil liabilities against the Province of Ontario may arise.

Risks Associated with the Unusual Nature of the Investment Asset:

- Clean Energy Adjustments will not be payable until May 1, 2021 and until such time the IESO will be the sole source of funds for payment on the Senior Notes. Amounts paid by the IESO are not available to pay principal on the Senior Notes.
- The Issuer's ability to enforce security granted by the IESO may be significantly impaired or delayed.
- A holder of Senior Notes may experience material payment delays because the source of funds for payment after the Moratorium Period is limited.
- The Clean Energy Adjustment may not be billed after April 30, 2047, unless further regulations to extend that date are passed.
- Foreclosure of the Indenture Trustee's lien on the Investment Interest securing the Senior Notes might not be practical and acceleration of the Senior Notes before maturity might have little practical effect.
- The Issuer may issue multiple Series of Senior Notes secured by the Investment Interest and some decisions affecting holders of Senior Notes may require approval of all Series.
- If a Series of Senior Notes or all Senior Notes are accelerated, a holder of Senior Notes might receive payment of principal sooner or later than expected.
- The Issuer may have a co-ownership interest in the Investment Asset with other Financing Entities.
- If the Clean Energy Adjustment amounts and other funds held in the Issuer Accounts results in investment losses or the investments become illiquid, a holder of Senior Notes might receive payment of principal of and interest on the Senior Notes later than expected.

Servicing, Operating and Consumer Risks

- Payments on the Senior Notes depend on the performance of Electricity Vendors and the IESO **in performing their respective obligations under the FHPA and, with respect to the IESO, the Master Transfer and Servicing Agreement**.
- Payments on the Senior Notes depend on the performance of OPG as Financial Services Manager and as Manager.
- Inaccurate consumption forecasting or unanticipated delinquencies or write-offs might reduce or delay scheduled payments on the Senior Notes.
- Changes to billing and collection practices may reduce the amount of funds available for payments on the Senior Notes.
- Limits on rights to terminate service to Specified Consumers might make it more difficult to collect the Clean Energy Adjustment.
- It might be difficult for the Issuer to collect the Clean Energy Adjustment from Specified Consumers.
- Delinquent or partial payments of electricity bills may make principal payments on the Senior Notes occur later than expected.
- Indemnification obligations of OPG and the IESO are limited and might not be sufficient to protect the investments in the Senior Notes.
- Power outages could impair payment of the Senior Notes.
- Technological changes that make alternative energy sources more attractive in the future or significant population fluctuations may result in fewer Specified Consumers from whom to collect the Clean Energy Adjustment.

Insolvency-Related Risks

- If the Issuer were to become subject to Canadian Insolvency and Restructuring Laws, the Indenture Trustee's ability to enforce security granted by the Issuer may be significantly impaired or delayed.
- If the IESO were to become subject to Canadian Insolvency and Restructuring Laws, the Transfers of specified portions of the Regulatory Asset by the IESO may not be respected as true sales of the Regulatory Asset.
- If any Electricity Vendor or the IESO were to become subject to Canadian Insolvency and Restructuring Laws, collections that have been commingled may be unrecoverable and the Issuer's ability to enforce its rights against such Electricity Vendor or the IESO may be significantly impaired or delayed.
- If OPG were to become subject to Canadian Insolvency and Restructuring Laws, the Issuer's ability to enforce its rights against OPG may be significantly impaired or delayed and the Issuer's assets and liabilities may be substantively consolidated with those of OPG.
- If the Issuer Trustee were to become subject to Canadian Insolvency and Restructuring Laws, the assets and liabilities of the Issuer may be substantively consolidated with the Issuer Trustee.
- If a Specified Consumer were to become subject to Canadian Insolvency and Restructuring Laws, the Issuer's ability to collect Clean Energy Adjustment amounts from such Specified Consumer may be adversely affected.
- If amounts in the Issuer Accounts for any Series are invested with entities that become subject to insolvency proceedings, the Issuer's ability to make payments to holders of Senior Notes may be adversely affected.

Other Risks:

- The credit ratings are not an indication of the expected rate of payment of principal on the Senior Notes.
- If the ratings on the Senior Notes are withdrawn or revised downward, the value of a holder's investment in the Senior Notes may be adversely affected.
- The credit ratings of the IESO, OPG and the Province of Ontario might affect the market value of the Senior Notes.
- The absence of an established market for the Senior Notes might limit the ability to resell or refinance the Senior Notes.
- Restrictions on resale might limit the ability to resell the Senior Notes.

Please also see *"Risk Factors"*.

The Issuer does not intend, or assume any obligation, to update any forward-looking information except as may be required by applicable law.

SUMMARY

This summary does not contain all the information prospective purchasers should consider before investing in the Senior Notes. Prospective purchasers should read this entire confidential shelf offering memorandum carefully, including the section entitled "Risk Factors". Capitalized terms used and not otherwise defined in this summary have the meanings ascribed to them in the glossary starting on page ~~92~~ 95 of this confidential shelf offering memorandum. An index of defined terms used in this summary is provided starting on page ~~104~~ 107 of this confidential shelf offering memorandum.

Issuer:	Fair Hydro Trust, a special purpose trust established under the laws of the Province of Ontario.
Manager:	Ontario Power Generation Inc. ("**OPG**"), pursuant to the terms of the Management Agreement.
Limitations:	The Senior Notes do not constitute a debt, liability or other obligation of, or interest in, OPG or any of its other affiliates (other than the Issuer) or of the IESO. The Senior Notes are not a debt, liability or obligation of the Province of Ontario or any of its political subdivisions, agencies or instrumentalities. The Senior Notes will not be insured or guaranteed by the Province of Ontario, OPG, IESO or any of their respective affiliates or any other person or entity, except that the Province of Ontario has agreed to provide a limited guarantee in respect of the Senior Notes following the occurrence of certain events. See *"— Change of Law Protection Agreement"*.
Ontario Fair Hydro Plan Act:	On June 1, 2017, the Ontario Legislature passed the Ontario Fair Hydro Plan Act, 2017 (the "FHPA"). The FHPA was enacted to: (i) ensure that Clean Energy Costs and Clean Energy Benefits are fairly allocated among present and future Specified Consumers (a category of consumers that generally is comprised of residential consumers, small businesses and farms); (ii) recognize that Clean Energy Benefits have accrued and will accrue over time and will continue to benefit present and future electricity consumers in Ontario; and (iii) align Clean Energy Costs with Clean Energy Benefits, in order to provide fairness for Specified Consumers over time. As a result, from July 1, 2017 until April 30, 2018, electricity rates payable by Specified Consumers will in effect be the rate that would result in a representative consumer being charged an invoice amount that is 25%[1] less than the rate that would otherwise have been determined by the Ontario Energy Board (the "**OEB**") under its Regulated Price Plan[2] for that period. Under the FHPA, OPG is appointed as Financial Services Manager and is given the authority to, among other things, establish, or cause to be established, one or more Financing Entities to incur Funding Obligations for the purposes prescribed under the FHPA. The Issuer is a Financing Entity under the FHPA and the Notes are Funding Obligations being offered for the purposes of the FHPA. See *"Ontario's Fair Hydro Plan — Background"*.
Summary of the Fair Hydro Financing	The implementation of the Fair Hydro Plan is intended to be financed

[1] The 25% reduction includes an 8% rebate equivalent to the provincial portion of the harmonized sales tax previously granted by the Ontario government.

[2] Specified Consumers, as a class, are not a one-to-one equivalent class to the RPP consumer class.

Program:

by the Issuer through the Fair Hydro financing program. The program provides for the offering and issuance by the Issuer of Senior Notes, in any number of Series, in one or several Offerings. A Term Sheet will describe particulars of the terms of each Series of Senior Notes and will be incorporated by reference and form an integral part of this confidential shelf offering memorandum. Each Series of Senior Notes will be issued under the Master Trust Indenture, as supplemented by a Supplemental Indenture authorizing that Series.

Transferor and Servicer:

The Independent Electricity System Operator (the "**IESO**") is a ~~not for profit~~**non-share** corporation established under the *Electricity Act, 1998* (Ontario). As a non-share capital corporation, the IESO does not have any shareholders or owners and is governed by an independent board of directors appointed by the Minister of Energy. The IESO manages the operation and reliability of Ontario's bulk power system and administers the wholesale electricity market.

Each month, the IESO will determine the shortfall resulting from the rate reduction mandated by the FHPA and record the amount in a variance account. The IESO has the right, exercisable in accordance with the FHPA, to recover the balance recorded in the variance account from Specified Consumers (such right, the "**Regulatory Asset**"). ~~The FHPA provides that the OEB shall, from time to time and in accordance with the Regulations, determine and set rates payable by Specified Consumers to allow for the IESO to recover the balance recorded in the variance account and that the IESO shall not be entitled to collect all or part of the balance recorded in the variance account from Specified Consumers before May 1, 2021.~~ Pursuant to the Master Transfer and Servicing Agreement, the IESO may, on a monthly basis, offer to Transfer specified portions of the Regulatory Asset to the Issuer in accordance with the FHPA. See *"The Transferor and Servicer"*.

Investment Interest:

Upon completion of a Transfer by the IESO of a specified portion of the Regulatory Asset, the Issuer will acquire an Investment Interest in the Investment Asset, which is a current and irrevocable property right consisting of the rights specified in the FHPA, including the right to impose, invoice, collect, receive and recover the Clean Energy Adjustment from Specified Consumers in accordance with the FHPA. See *"— Clean Energy Adjustment"* below and *"Ontario's Fair Hydro Plan — Regulatory Asset"*, *"Ontario's Fair Hydro Plan — Investment Interest"* and *"The Transferor and Servicer"*.

Clean Energy Adjustment:

The FHPA imposes an irrevocable and non-bypassable charge referred to as the Clean Energy Adjustment that will be determined by the Financial Services Manager and will be converted by the OEB into a cent per kWh rate and added to the electricity invoices sent to Specified Consumers. See *"— Statutory Duties of the OEB"* below.

The required Clean Energy Adjustment will be determined by the Financial Services Manager for each month in a Reference Period and consists of the sum (without duplication) of: (i) the estimated Finance Amount in respect of the Reference Period, which will include an estimate of all repayments, redemptions, funding costs **(including interest and principal on the Senior Notes)**, derivative payments,

required **reserve account** deposits, Issuer expenses and taxes, and other amounts paid or payable during such Reference Period, and (ii) the True-up Amount for such Reference Period, all divided by the number of months in the applicable Reference Period.

The "**True-up Amount**" is comprised of the cumulative Finance Amounts in respect of all preceding Reference Periods less the cumulative Clean Energy Adjustment amounts remitted to the Issuer in respect of all preceding Reference Periods plus other anticipated shortfalls. The True-up Amount ~~may~~**will** also reflect **any** historical and reasonably foreseeable differences between the estimated and actual Finance Amount; between amounts invoiced and amounts collected due to various factors, including applicable taxes, consumer defaults and delays, billing lags and write-offs; and variations in billings due to variations in electricity consumption. In determining such differences, the Financial Services Manager is required to have regard to amounts payable that were not collected and any amounts in respect of which an overpayment was made, which may include amounts resulting from a default of Specified Consumers, an Electricity Vendor or the IESO, whether in its capacity as an Electricity Vendor or its activities as agent or otherwise under the FHPA. The Financial Services Manager is obligated to calculate the True-up Amount in respect of each Reference Period so long as all Funding Obligations and other Finance Amounts have not been paid in full. The Financial Services Manager may also, at any time during a Reference Period, determine an interim True-up Amount if, among other things, it reasonably forecasts that the collection of the Clean Energy Adjustment will be insufficient to pay the estimated Finance Amount for a Reference Period.

Commencing May 1, 2021, a charge in respect of the Clean Energy Adjustment will be included on invoices sent to Specified Consumers, and collected and remitted to the Issuer to pay amounts owing on the Senior Notes and all other administrative and other financing expenses of the Issuer. Based on the Fair Allocation Amount **determined and** provided by the Province, from July 1, 2017 until April 30, 2021 (the "**Moratorium Period**"), no Clean Energy Adjustment amounts are permitted to be collected from Specified Consumers. During the Moratorium Period, the sole source of funds for payment **of interest** on the Senior Notes, and the Issuer's other Carrying Costs, will be the amounts the IESO is obligated to pay under the Regulations during such period. See *"Ontario's Fair Hydro Plan — Clean Energy Adjustment"*. **Amounts so contributed by the IESO are not available to pay principal on the Senior Notes.**

Non-bypassability:

The FHPA mandates that an amount in respect of the Clean Energy Adjustment shown on an invoice issued to a Specified Consumer is determinative of the amount of the consumer's indebtedness resulting from the Clean Energy Adjustment, and is irrevocable on invoicing such Specified Consumer and may not be set off or bypassed. See *"Ontario's Fair Hydro Plan — Clean Energy Adjustment"*.

Payment of Carrying Costs

The IESO, which is rated A(high) by DBRS and Aa2 by Moody's, is required under the Regulations to pay and remit to the Issuer any amounts charged to the IESO by the Issuer in respect of Carrying

until July 31, 2021:

Costs incurred in respect of the period from June 1, 2017 to July 31, 2021. Under the Regulations, Carrying Costs include all funding costs, such as interest on the Senior Notes, and other expenses of the Issuer, other than repayment of principal on any debt obligations of the Issuer (such as principal on the Senior Notes).

Pursuant to the Master Transfer and Servicing Agreement, on or before the fourth business day of each calendar month, the Issuer will submit a carrying costs statement to the IESO certifying the amount of Carrying Costs estimated to be incurred by the Issuer in the following month. On or before the 14th business day following receipt of the Issuer's carrying costs statement, the IESO is required to deliver the amount specified therein to the Issuer. See *"The Transferor and Servicer"*. The IESO has a $2 billion unsecured credit facility provided by the Ontario Financing Authority, expiring September 30, 2022, which is permitted to be used **by the IESO** to pay the ~~Issuer's~~ Carrying Costs **to the Issuer**. The amounts paid by the IESO to fund these Carrying Costs will be recorded by the IESO in the variance account and form part of the Regulatory Asset that the IESO is expected to Transfer to the Issuer in a subsequent period. Upon such Transfer, the Issuer will acquire a corresponding Investment Interest.

As security for the performance of ~~its~~**the IESO's** obligation under the Regulations to pay the ~~Issuer's~~ Carrying Costs **to the Issuer**, the IESO has granted the Issuer a first-priority security interest in all accounts receivable owing to the IESO from Electricity Vendors, including amounts owing with respect to the global adjustment charge. See *"The Transferor and Servicer"*. For a further description of the global adjustment charge, see *"The Electricity Industry in Ontario — Electricity Prices"*.

Acceleration of Indebtedness:

A holder of Senior Notes must rely solely on the Clean Energy Adjustment amounts collected and any available reserve accounts for repayment of principal on the Senior Notes. Accordingly, if all or any portion of the principal amount of any indebtedness of the Issuer (including one or more Series of Senior Notes) becomes due and payable during the Moratorium Period and before its scheduled payment date, maturity date or redemption date, the source of funds for repayment of principal may be limited.

If all or any portion of the principal amount of any indebtedness of the Issuer (including one or more Series of Senior Notes) becomes due and payable after the Moratorium Period and before its scheduled payment date, maturity date or redemption date, then the estimated Finance Amount used by the Financial Services Manager to determine the Clean Energy Adjustment for a period will be determined without regard to the fact that such amount has become due and payable, unless and only to the extent that the amount of the Clean Energy Adjustment is capable of being increased based on the Fair Allocation Amount for such period. See *"— Fair Allocation Amount & Financing Plan"* below. However, upon such acceleration, all accelerated Senior Notes will be repaid in full before any further payments of principal are made to holders of subordinated indebtedness, including the subordinated debt held by OPG; therefore, collections of the Clean Energy Adjustment that would otherwise have been available to repay the principal amount of

subordinated indebtedness in the absence of acceleration of the Senior Notes will instead be applied to repay accelerated Senior Notes. See *"— Subordinated Debt"* below.

Statutory Duties of the OEB:

The OEB is an independent public regulatory agency established under the *Ontario Energy Board Act, 1998*. The *Ontario Energy Board Act, 1998* provides the OEB with the authority to regulate participants (e.g. OEB licensees) in Ontario's electricity market, including the activities of transmitters and distributors as well as the IESO (all **of whom are** Electricity Vendors for the purposes of the FHPA).

Under the Regulations, the OEB is responsible for determining the rates at which Specified Consumers are to be invoiced to recover the Clean Energy Adjustment. The rates are expressed as a cent per kWh rate and are determined by the OEB by dividing (i) the aggregate Clean Energy Adjustment as determined by the Financial Services Manager in respect of the relevant period of time by (ii) a forecast of electricity consumption of Specified Consumers in respect of such period, based on forecast information provided by the IESO to the OEB. See ~~*"— Statutory and Servicing Duties of the IESO"* below~~***The Transferor and Servicer"***.

Statutory Duties of Electricity Vendors:

Electricity is distributed to almost all Specified Consumers in Ontario through a network of local distributors. See "*The Electricity Industry in Ontario*" and the Investor Presentation attached as Exhibit 1 to this confidential shelf offering memorandum for more details regarding the Ontario electricity market and these local distributors.

The FHPA requires Electricity Vendors to invoice their Specified Consumers for a charge in respect of the Clean Energy Adjustment, as determined by applying the rate set by the OEB, which is required to be included as a separate line item on each invoice sent to Specified Consumers. Electricity Vendors are also required to collect, as agent of ~~all~~**the Issuer and any other** Financing Entities~~, of which the Issuer is the first~~ **that may be established**, amounts in respect of the Clean Energy Adjustment, deposit such amounts into a segregated account established for the purpose of receiving those amounts and hold such amounts in trust for the benefit of the Financing Entities until remitted to the IESO for the benefit of the Financing Entities (initially, only the Issuer). If an Electricity Vendor does not receive payment in full of an invoice issued to a Specified Consumer, the Electricity Vendor shall allocate any payment received to the Clean Energy Adjustment and the other amounts payable under the particular invoice in the manner set out in the FHPA. It is a deemed condition of their distribution license issued by the OEB that Electricity Vendors comply with the FHPA.

As security for any failure of an Electricity Vendor that does not have an investment grade rating from DBRS and Moody's to remit Clean Energy Adjustment amounts collected under the FHPA, the IESO is required, pursuant to the Master Transfer and Servicing Agreement, to provide to the Issuer on or prior to the first day of the first billing period when the Clean Energy Adjustment is being invoiced to Specified Consumers, a letter of credit from a provider that satisfies

	the Rating Agency Condition or a performance guarantee or such other form of security that is acceptable to the Issuer and that satisfies the Rating Agency Condition. The amount of the security required is based on a formula as set out in the Master Transfer and Servicing Agreement and will be equal to: (a) **the product of** (i) 50% of estimated Clean Energy Adjustment amounts that are to be collected over a twelve-month period by all such non-investment grade rated Electricity Vendors, **and** (ii) ~~multiplied by~~ a fraction equal to 45/365 (representing the 45-day period during which funds are expected to be held by such non-investment grade rated Electricity Vendors prior to being remitted to the Issuer); or (b) such other lesser amount that satisfies the Rating Agency Condition. See *"The Transferor and Servicer."*
Management Duties of OPG:	Pursuant to the Management Agreement, the Issuer has delegated to OPG, as Manager, all of the powers and duties of managing the Issuer, including determining whether to incur Funding Obligations (including Offerings of Senior Notes) to acquire an Investment Interest or refinance existing Funding Obligations; negotiating and executing, on behalf of the Issuer, all agreements; maintaining accounts and banking records; preparing any offering documents to be furnished by the Issuer to prospective purchasers of Funding Obligations (including the Senior Notes); and preparing financial statements and tax filings on behalf of the Issuer. In addition to the powers and duties delegated to the Manager under the Management Agreement, OPG is also required to comply with its duties as Financial Services Manager under the FHPA, including preparing the Financing Plan to evaluate whether potential Funding Obligations should be incurred for the purposes of Financing Entities acquiring and financing an Investment Interest, determining the amount of the Clean Energy Adjustment inclusive of the calculation of any True-up Amount, notifying the OEB of the Clean Energy Adjustment inclusive of any True-up Amount and ensuring that Funding Obligations are incurred in a manner consistent with the Financing Plan. OPG may also administer the Investment Interest on behalf of the Issuer and any other Financing Entities. Subject to OEB approval and as provided for in the FHPA, OPG is entitled to charge the Issuer a fee, comprised of a base fee and a variable fee, to earn a return and to recover costs and expenditures incurred by OPG on behalf of the Issuer or in relation to the establishment, management and administration of the Issuer and its Investment Interest. The priority of the Manager's entitlement to fees is subject to the payment priorities set forth in the Master Trust Indenture. The Province of Ontario is the sole shareholder of OPG and thereby has the power to determine the composition of OPG's board of directors. See *"The Electricity Industry in Ontario — Key Industry Participants — Ontario Power Generation Inc."* and *"The Manager"*.
Statutory and Servicing Duties of the IESO:	Following the Moratorium Period, the IESO is required, as agent of the Financing Entities (of which the Issuer is currently the only one), to receive Clean Energy Adjustment amounts paid to it from Electricity Vendors, deposit such amounts promptly into a segregated account established for the purpose of receiving amounts in respect of the Clean Energy Adjustment, hold such amounts in trust on behalf of the Financing Entities (of which the Issuer is currently the only one)

and remit such amounts on a monthly basis, subject to daily remittance being required in certain limited circumstances. Pursuant to the Master Transfer and Servicing Agreement, monthly remittances of amounts received in respect of the Clean Energy Adjustment will occur on the 18th business day of each calendar month. In addition, the IESO will provide certain reporting and other servicing duties in favour of the Issuer, including providing forecast information to the OEB and the Issuer, **which forecast information will be used by the OEB to forecast electricity consumption of Specified Consumers in respect of the relevant period,** making commercially reasonable efforts to cause Electricity Vendors to establish segregated accounts into which Clean Energy Adjustment amounts are deposited, remitting such amounts and fulfilling certain additional reporting requirements. Generally, all servicing duties provided by the IESO to the Issuer are provided at no cost to the Issuer. However, the Issuer will reimburse the IESO for certain direct costs relating to the performance by the IESO of its duties and obligations under the Master Transfer and Servicing Agreement that are otherwise not recovered or recoverable by the IESO under the *Electricity Act, 1998* (Ontario). See *"The Transferor and Servicer."*

Change of Law Protection Agreement:

Pursuant to the Change of Law Protection Agreement, upon a Protection Event and delivery by the Indenture Trustee of a written payment demand, the Province of Ontario is required to make payments in respect of all "Approved Obligations" when due and payable into the Protection Account (which~~, provided that the Notes are Approved Obligations,~~ includes payments of amounts that are due and payable in respect of **Senior** Notes), although the amount of the Province of Ontario's payment obligations in a particular period may differ depending on whether an Acceleration has occurred. See *"Change of Law Protection Agreement"*. The Issuer and the Indenture Trustee must ensure that amounts deposited into the Protection Account are applied to pay Specified Creditors to whom amounts are due and payable under an Approved Obligation in accordance with the provisions of the Master Trust Indenture. See *"Capital Markets Platform"*.

Generally, an "**Approved Obligation**" under the Change of Law Protection Agreement includes all obligations of the Issuer (except for amounts required to be deposited into any capital account or finance reserve account, or any obligation for the Issuer to pay itself any remaining amounts in the Collection Account pursuant to the Master Trust Indenture), including obligations of the Issuer under the Notes, subject to the satisfaction of certain adherence conditions for those obligations that constitute "Certified Primary Obligations", as defined in the Change of Law Protection Agreement. Subject to certain limited exceptions for refinancings, a "Certified Primary Obligation" includes all Notes, as well as certain other obligations of the Issuer under derivative agreements or under contracts with terms of greater than three years that are not terminable by the Issuer on less than three years' notice under which the Manager, acting reasonably, expects aggregate payments by the Issuer during the term of the contract in an amount in excess of $5,000,000.

It will be a condition to any Offering of Senior Notes that such Senior Notes constitute Approved Obligations under the Change

of Law Protection Agreement.

Protection Event:

Each of the following constitutes a "**Protection Event**" for purposes of the Change of Law Protection Agreement:

(a)

(i) the Ontario legislature repeals, and does not replace on an equivalent basis, or amends, the ~~FHPA~~**Act** or any portion thereof, as in effect on the date hereof;

(ii) the Ontario legislature enacts or amends any other statute;

(iii) the Lieutenant Governor in Council repeals, and does not replace on an equivalent basis, the regulations made under the ~~FHPA~~**Act** or any portion thereof, as in effect on the date hereof;

(iv) the Lieutenant Governor in Council, a minister of the Crown, an official of the government or a board or commission all the members of which are appointed by the Lieutenant Governor in Council makes or amends any "regulation" (as defined in Part III of the *Legislation Act, 2006*) as in effect on the date hereof; or

(v) the implementation of a change in the organization or structure of the IESO or Ontario's electricity market undertaken at the initiative of the Province of Ontario or an entity controlled by the Province of Ontario,

(vi) in each case, that (X) adversely affects the ability of the Issuer to receive amounts in respect of its Investment Interest so that it can pay Approved Obligations when due and payable, in each case determined after taking into account and having regard to (i) any funds available at such time to apply to such Approved Obligations, including in any finance reserve account, capital account or collateral posting account applicable under a derivative agreement, (ii) the availability of any credit enhancement agreement to which the Issuer is a party and (iii) any reasonably expected potential effect of a True-up Amount in the Reference Period immediately following the occurrence of an event described in any of clauses (i) to (v) above, or (Y) adversely affects the enforceability of, or adversely changes, the terms and conditions of the Change of Law Protection Agreement or of any of the agreements under which Approved Obligations arise; or

(b) a court of competent jurisdiction determines that all or a portion of the ~~FHPA~~**Act**, as in effect on the date hereof, is *ultra vires* or invalid in a way that adversely affects the ability of the Issuer to receive amounts in respect of its Investment Interest so that it can pay Approved Obligations when due and payable and that has the effect of the Issuer not in fact having sufficient funds to pay such Approved Obligations that have become due and payable, in each case determined after taking into account and having regard to (i) any funds available at such time to apply to

such Approved Obligations, including in any finance reserve account, capital account or collateral posting account applicable under a derivative agreement, (ii) the availability of any credit enhancement agreement to which the Issuer is a party and (iii) any reasonably expected potential effect of a True-up Amount in the Reference Period immediately following the occurrence of an event described in this paragraph (b).

(c) **The occurrence of a Protection Event in and of itself will not result in the acceleration of the Senior Notes.**

(d) The Province of Ontario's obligation to make payments under the Change of Law Protection Agreement upon a Protection Event and subsequent delivery of a written payment demand by the Indenture Trustee is referred to as the "**Limited Guarantee**".

(e) Upon paying amounts when due and payable in respect of Approved Obligations, including the Senior Notes, into the Protection Account, the Province of Ontario will be subrogated and entitled to all of the rights and interests of applicable Specified Creditors (including Noteholders) under and in respect of the Approved Obligations to the extent of the amounts paid.

(f) **Under the Change of Law Protection Agreement, the right to deliver a written payment demand on occurrence of a Protection Event to enforce the Limited Guarantee is the only remedy available to the Indenture Trustee (and to Specified Creditors, to the extent they are permitted to exercise any rights, interests or elections under and in accordance with the Master Trust Indenture). Specified Creditors are not permitted to exercise any rights, interests, or elections under the Change of Law Protection Agreement, other than in the manner and to the extent effected and exercised under, in accordance with and subject to the limitations set forth in the Master Trust Indenture (in effect as of the date hereof).** **See *"Capital Markets Platform — Acceleration and Remedies — Rights of Specified Creditors".***

Approved Obligations & Adherence Conditions:

Under the Management Agreement, the Manager is required to ensure that all obligations of the Issuer are and remain Approved Obligations under the Change of Law Protection Agreement.

The Limited Guarantee shall apply to all Certified Primary Obligations that meet the following adherence conditions:

(a) the Certified Primary Obligation when incurred is an Obligation Secured under the Master Trust Indenture;

(b) OPG, as Financial Services Manager, delivers a certificate to the Indenture Trustee on or before the incurrence of such obligation certifying that it has complied with all of its obligations to the Province of Ontario and internal requirements and processes in connection with the adherence of the Limited Guarantee to the Certified Primary Obligation; and

(c) the Province of Ontario has not provided a Suspension Notice to

the Indenture Trustee, OPG and the Issuer.

All Senior Notes shall constitute Obligations Secured under the Master Trust Indenture and therefore condition (a) above will be satisfied for all Offerings of Senior Notes. It will be a condition to any Offering of Senior Notes that OPG deliver the adherence certificate required pursuant to (b) above or that the Province of Ontario designates in writing that the Senior Notes are Approved Obligations. The Change of Law Protection Agreement provides that delivery of an adherence certificate shall be determinative of satisfaction of this adherence condition, notwithstanding that such certificate may include inaccuracies, be incomplete or otherwise be defective or deficient, and such certificate may be relied upon as conclusive evidence of same.

Suspension Notice & Post-Suspension Refinancing

The Change of Law Protection Agreement will remain in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations, including all Senior Notes.

However, in the following limited circumstances, the Province of Ontario may deliver a Suspension Notice under the Change of Law Protection Agreement: (i) if there has been an acceleration of Funding Obligations in accordance with the provisions of the Master Trust Indenture or an event of default, early amortization event, termination event or similar event or circumstance (including any event that with the passage of time or the giving of notice would become such an event) of or in respect of the obligations of any party under any Program Agreement; (ii) if there has been an uncured breach of covenant, uncured default in performance, or uncured representation, warranty or certification that proves to be incorrect in any material respect on the date made, in each case of OPG (or its officers, in the case of a certification) to the Province of Ontario in connection with its obligations to the Province of Ontario pursuant to internal requirements and processes in connection with the provision or adherence of the Limited Guarantee to or in respect of any Certified Primary Obligations; or (iii) if the Financial Services Manager is no longer the Manager or actions have been taken by or on behalf of the Indenture Trustee to remove the Financial Services Manager as the Manager.

Upon delivery of a Suspension Notice, the Limited Guarantee shall not apply in respect of obligations incurred by the Issuer (excluding certain refinancings of Approved Obligations as described below) and certain material amendments of outstanding obligations of the Issuer.

Notwithstanding delivery of a Suspension Notice, the Limited Guarantee shall continue to apply to: (i) any Approved Obligations that were incurred prior to the suspension and (ii) any Funding Obligations incurred by the Issuer following a suspension that satisfy the terms and conditions of the Change of Law Protection Agreement, provided that the proceeds of such incurrence are to be used for the purpose of repaying one or more series of Approved Obligations. Accordingly, subject to compliance with the Change of Law Protection Agreement, any Senior Notes or other Funding Obligations that may be issued following a suspension to refinance Senior Notes

that were Approved Obligations issued prior to a suspension will continue to have the benefit of the Limited Guarantee.

See *"Change of Law Protection Agreement"*.

Fair Allocation Amount & Financing Plan:

The Fair Allocation Amount is an amount calculated under the FHPA by the Minister of Energy in respect of each Reference Period that, among other things, allocates the estimated value of Clean Energy Costs in proportion to the relative attribution of the value of Clean Energy Benefits among Specified Consumers. See *"Ontario's Fair Hydro Plan"*.

The Financial Services Manager is required to prepare a Financing Plan under the FHPA to evaluate whether potential Funding Obligations should be incurred by the Issuer or other Financing Entities for the purposes of acquiring an Investment Interest or for the purposes of a Refinancing. In preparing the Financing Plan, the Financial Services Manager must have regard to certain principles, including that Funding Obligations should be incurred such that, along with any Funding Obligations already incurred, the estimated Finance Amount that would, subject to any Refinancing, become due and payable during a Reference Period will reasonably align with the Fair Allocation Amount determined in respect of such Reference Period as of the date the Funding Obligations were incurred.

In other words, the Financing Plan should contemplate the issuance of Funding Obligations from time to time, with terms that would result in Clean Energy Adjustments being payable by Specified Consumers that align with the purposes of the FHPA. Notwithstanding the above, the FHPA provides that each Funding Obligation **that is issued** is deemed to be consistent with the Financing Plan and to provide for the reasonable alignment of the estimated Finance Amount with the Fair Allocation Amount.

The Financing Plan allows for the issuance of a variety of short and long term debt. See the Investor Presentation attached as Exhibit 1 to this confidential shelf offering memorandum for more details regarding the Financing Plan and the Fair Allocation Amount.

Subordinated Debt:

Concurrent with every issuance of senior debt by the Issuer, including any Offering of Senior Notes, it is expected that OPG will subscribe for subordinated debt and junior subordinated debt of the Issuer in an amount equal to no more than 49% of all of the Issuer's Funding Obligations, approximately 44% of which is expected to be funded through equity investments in OPG by the Province of Ontario with the remaining 5% being funded from OPG's available funds, including all or a portion of the proceeds of any offerings by OPG of medium term notes.

Under the Master Trust Indenture, the Issuer will be required at all times to ensure that: (i) the aggregate outstanding principal amount of all subordinated debt and junior subordinated debt be not less than 35% of the aggregate outstanding principal amount of all of the Issuer's Funding Obligations; and (ii) the aggregate outstanding principal amount of all junior subordinated debt be not less than 10%

	of the aggregate outstanding principal amount of all of the Issuer's Funding Obligations.
Use of Proceeds:	The proceeds from each Offering may be used ~~to~~**for one or more of the following purposes:** (i) **to** acquire an Investment Interest pursuant to the FHPA and the Master Transfer and Servicing Agreement, (ii) **to** refinance indebtedness of the Issuer (including other Series of Senior Notes), (iii) **to** pay Offering and related costs of the Issuer and (iv) **to** fund specific reserve accounts as required. The Term Sheet for each Offering of Senior Notes will identify the amount of proceeds that will be used for such specified purposes.
Interest Rate:	Fixed, floating or otherwise, as determined by the Issuer and as set out in the Term Sheet applicable to such Offering.
Interest Payment Dates:	As determined from time to time by the Issuer and as set out in the Term Sheet applicable to such Offering.
Principal Accumulation Amount(s):	As determined from time to time by the Issuer and as set out in the Term Sheet applicable to such Offering.
Principal Payment Date(s) and Principal Payment Amount(s):	As determined from time to time by the Issuer and as set out in the Term Sheet applicable to such Offering.
Principal Payment Default Date:	As determined from time to time by the Issuer and as set out in the Term Sheet applicable to such Offering.
Ranking:	Subject to the applicable payment waterfalls set out in the Master Trust Indenture, the Senior Notes will be direct, secured and unsubordinated obligations of the Issuer, and will at all times rank equally and proportionately with each other and all other senior indebtedness issued by the Issuer from time to time pursuant to the Indenture, without discrimination or preference. See "*Capital Markets Platform — Subordination Provisions*", *"Capital Markets Platform — Acceleration and Remedies — Payment Waterfall Upon Acceleration"*.
Security:	All indebtedness and other obligations of the Issuer, including the Senior Notes, will be secured by a first ranking charge against all property and assets of the Issuer, including each Issuer Account (and all funds and property credited thereto), all rights and benefits, and powers of the Issuer under the FHPA and all rights, benefits and power under all Program Agreements, including under the Limited Guarantee. Under the Master Trust Indenture, the Issuer is required to maintain certain reserves: the IESO Cash Reserve Deposit Amount (an amount equal to the aggregate of (i) 0.50% of the aggregate amount of all outstanding senior, subordinated and junior subordinated funding obligations determined as of April 15, 2021, and (ii) an amount estimated as the amount of Carrying Costs payable during May, June and July 2021, provided such amount in (ii) satisfies the Rating Agency Condition) will be deposited by the IESO by April 30, 2021. There is also a Program Cash Reserve Account which will begin to be

funded from Clean Energy Adjustments following the Moratorium Period until it reaches the Program Cash Reserve Required Amount (on each Payment Date on and after May 15, 2021, an amount equal to 0.50% of the aggregate amount of all outstanding senior, subordinated and junior subordinated funding obligations determined as of such date, or such lesser amount that satisfies the Rating Agency Condition). Funds in the IESO Cash Reserve Account will be applied to pay Carrying Costs after April 2021 to the extent that funds can be so applied such that the aggregate amount of funds in the IESO Cash Reserve Account and Program Cash Reserve Account is maintained at the Program Cash Reserve Required Amount.

In connection with the incurrence of any Series of Notes, the Issuer may (i) establish a Series Account for purposes of accumulating funds used to make principal payments or for purposes of reserving funds to pay finance charges, and/or (ii) enter into a credit enhancement agreement or liquidity agreement. Whether a Series of Senior Notes has the benefit of a Series Account or any credit enhancement agreement or liquidity agreement will be determined from time to time by the Issuer and set out in the Term Sheet applicable to such Offering.

See "*Capital Markets Platform — Security*".

THE ELECTRICITY INDUSTRY IN ONTARIO

General Overview

The following summary of the electricity industry in Ontario does not purport to be comprehensive or definitive. It is a general and high-level overview of the ~~history~~**historical context** and **the current** manner in which the industry operates, including how real-time energy supply needs are met.

The Ontario electricity industry is principally comprised of three components:

- *Generation*: the production of electricity from various forms of energy, such as wind, solar, ~~hydropower~~**hydroelectric**, natural gas and nuclear;
- *Transmission*: the transfer of electricity across high-voltage power lines from **large** generating facilities to local ~~areas~~**distribution systems** and large ~~directly~~ **transmission-**connected consumers**, as well as to and from inter-jurisdictional entities**; and
- *Distribution*: the delivery of electricity within local areas to homes and businesses ~~using lower~~**, as well as the delivery of electricity from small distribution-connected generating facilities, using low** voltage power lines.

The structure of Ontario's electricity industry underwent significant changes in the late 1990s and early 2000s. Prior to April 1, 1999, Ontario Hydro, a Crown corporation, supplied most of Ontario's electricity generation and transmission needs. Consistent with initiatives taken in other electricity markets in North America at the time, the electricity industry was restructured in order to encourage greater competition. Ontario's competitive wholesale electricity market was opened by the IESO on May 1, 2002 and the market is used to administer the purchase and sale of wholesale electricity in Ontario.

Since the opening of the competitive market, Ontario's power supply mix has experienced significant change. As a result of provincial government policy, coal-fired generation has been eliminated and a significant amount of new capacity has been added as a result of new natural gas powered capacity, new wind and solar capacity and additional baseload nuclear generation capacity. These changes**, along with the transmission and distribution system investments needed to support these changes,** have resulted in significantly increased costs of electricity to consumers in Ontario.

While electricity supply in Ontario has increased, the province's electricity demand as reported by the IESO has fallen over the last decade, largely due to changes in economic conditions and conservation measures. Moreover, the addition of smaller scale wind and solar generation embedded in the distribution system has reduced the level of demand that is supplied by transmission-connected generation. Reducing electricity demand by encouraging conservation and demand management has been a key part of the Government of Ontario's plan to reduce greenhouse gas emissions from the province's electricity sector. Shorter-term fluctuations in electricity demand are impacted by variations in seasonal weather conditions.

Real-time energy supply needs are met through the wholesale electricity market administered by the IESO. Generators offer their generation into this real-time energy market, or "spot market", to be scheduled and dispatched by the IESO. The IESO receives hourly offers from electricity generators and importers to provide energy, along with bids **to withdraw energy** by **certain** domestic loads and exporters, and then schedules the lowest-cost offers and bids needed to meet demand. Most generators in Ontario also have bilateral contracts with the IESO ~~or receive~~ **(i.e. power purchase agreements) and one large generator, OPG, receives OEB-**regulated prices, or payment amounts, that provide for payments in addition to wholesale market settlements that are paid to generators.

Key Industry Participants

Ontario Power Generation Inc.

OPG is a corporation formed under the *Business Corporation Act* (Ontario). The Province of Ontario is the sole shareholder of OPG and thereby has the power to determine the composition of OPG's board of directors. In 1999, when Ontario Hydro was split up in anticipation of deregulation, OPG was formed to hold the generation assets of the former Ontario Hydro. OPG has divested itself of certain of those assets, but remains the largest generator in Ontario.

OPG is Ontario's largest clean energy generator. As at the date hereof, OPG operated two nuclear generating stations, 66 hydroelectric generating stations, three thermal generating stations, and one wind power facility. OPG's mandate is to provide low cost power in a safe, clean, reliable and sustainable manner for the benefit of its customers and its sole shareholder, the Province of Ontario. OPG's electricity generation accounts for a significant portion of the total energy generated and injected into Ontario's electricity transmission system. OPG is one of the most experienced and largest generating companies in Canada with a broad set of relationships and capabilities. OPG is also experienced in successful complex financing arrangements of large capital projects, including the recently completed Lower Mattagami project.

Additional information about OPG is provided in the Investor Presentation attached as Exhibit 1 to this confidential shelf offering memorandum and is available at www.opg.com.

The IESO

The IESO is a non-share capital corporation created under the *Electricity Act, 1998* (Ontario). It was created as an amalgamation of two predecessor entities, one of which was also called the IESO ("**Predecessor IESO**") and the other of which was called the Ontario Power Authority ("**OPA**"). Predecessor IESO was responsible for managing the reliability of the provincial transmission system and operating the wholesale electricity markets in Ontario. The OPA was formed to plan the provincial power system and to procure electricity resources. The OPA entered into bilateral power **or capacity** purchase contracts with generators and other electricity resource providers. These two entities were merged statutorily on January 1, 2015 into the IESO, which now carries out all of these functions. As a non-share capital corporation, the IESO does not have any shareholders or owners and is governed by an independent board of directors appointed by the Minister of Energy.

Additional information about the IESO is provided in the Investor Presentation attached as Exhibit 1 to this confidential shelf offering memorandum and is available at www.ieso.ca.

The Ontario Energy Board

The OEB is a non-share capital corporation created under the *Ontario Energy Board Act, 1998*. The OEB is an independent and impartial **administrative tribunal and** public regulatory agency. The *Ontario Energy Board Act, 1998* provides the OEB with the authority to license and regulate the participants in Ontario's electricity market, including the activities of the IESO, transmitters and distributors~~, which~~**. The IESO and distributors** are ~~also~~ Electricity Vendors for the purposes of the FHPA.

The OEB has the following objectives in relation to the electricity industry:

(a) to protect the interests of consumers with respect to prices and the adequacy, reliability and quality of electricity service;

(b) to promote the education of consumers;

(c) to promote economic efficiency and cost effectiveness in the generation, transmission, distribution, sale and demand management of electricity and to facilitate the maintenance of a financially viable electricity industry;

(d) to promote electricity conservation and demand management in a manner consistent with the policies of the Province of Ontario, including having regard to the ~~consumers~~**consumer's** economic circumstances;

(e) to facilitate the implementation of a smart grid in Ontario; and

(f) to promote the use and generation of electricity from renewable energy sources in a manner consistent with the policies of the Ontario government, including the timely expansion or reinforcement of transmission systems and distribution systems to accommodate the connection of renewable energy generation facilities.

The OEB is responsible for, among other things, approving transmission and distribution rates in Ontario, as well as payment amounts for OPG's nuclear and hydroelectric generation. It also approves the construction, expansion, or reinforcement of transmission lines greater than two kilometres in length, as well as mergers, acquisitions, amalgamations and divestitures ~~involving~~**affecting regulated assets and regulated entities, such as** distributors~~,~~ **and** transmitters ~~and other entities which it licenses~~. The activities of transmitters and distributors are subject to the conditions of their transmission and distribution licenses, as applicable, which require compliance with a number of industry codes issued by the OEB, as well as with the market rules that are administered by the IESO. These codes and other requirements prescribe minimum standards of conduct and service for licensed participants in the electricity market.

Electricity Vendors

As part of the restructuring of Ontario's electricity industry, the province's municipally-owned electricity distributors were reorganized into separate business corporations. These distributors are typically referred to in Ontario as local distribution companies, or "**LDCs**". An LDC is responsible for distributing electricity to customers in its OEB-licensed service territory, and in some cases to other distributors. A service territory may cover large portions or all of a particular municipality, or an otherwise-defined geographic area. Distribution customers include residential, commercial and industrial end-users, **as well as institutions** such as governments, schools and hospitals. At multi-unit buildings within an LDC's service territory, there may be a unit sub-metering service provider that provides metering services for each individual unit. These sub-metering service providers are also licensed by the OEB.

Electricity Prices

There are **two** main components that make up the commodity cost of electricity in Ontario, the Hourly Ontario Energy Price ("**HOEP**") and the global adjustment charge.

- The HOEP is set by the IESO based on bids and offers in the real-time energy market that is administered by the IESO.

- The global adjustment charge is established monthly by the IESO in accordance with regulations and is the amount **of money** necessary to pay certain other costs to generators and other suppliers that are not compensated by the HOEP, including the cost of energy supply contracts with generators and payments made to OPG pursuant to OEB-established payment amounts.

Prior to the FHPA being passed, the amount collected generally over an annual basis by the IESO on account of the HOEP and global adjustment charge was approximately equal to the IESO's current payables to generators and other electricity resource suppliers, subject to certain periodic true-ups, fees and adjustments to keep the IESO whole.

At the request of the Minister of Energy in 2004, the OEB created the "**Regulated Price Plan**" or "**RPP**", which establishes time-of-use and tiered prices primarily for residential, farm and small commercial customers. Prior to the introduction of the FHPA, the RPP prices were reviewed and changed every six months by the OEB based on an updated forecast and any accumulated differences between the amounts collected from RPP consumers and the amount paid to generators in previous periods. RPP prices are now established in accordance with the FHPA. Most Specified Consumers are billed for electricity based on the Regulated Price Plan, although some Specified Consumers may be invoiced the HOEP and the global adjustment charge by their LDC for electricity they have consumed. The IESO has also stated that there is one Specified Consumer connected directly to the transmission system and settled by the IESO, not an LDC.

While most residential and small commercial consumers in Ontario choose to purchase their electricity under the RPP, consumers in Ontario may instead choose to buy their electricity from ~~a~~ **an OEB-**licensed retailer pursuant to a retail contract that provides a rate for electricity over a specified period. These customers are also required to pay the global adjustment charge in addition to the rate under their retail contract.

In addition to the HOEP and global adjustment charges, or RPP prices, as the case may be, electricity consumers pay a number of other uplifts and charges, such as transmission and distribution tariffs.

ONTARIO'S FAIR HYDRO PLAN

Background

On June 1, 2017, the Ontario Legislature passed the FHPA. From July 1, 2017 until April 30, 2018, electricity rates payable by Specified Consumers (a category of consumers that generally is comprised of residential consumers, small businesses and farms) will in effect be the rate that would result in a representative consumer being charged an invoice amount that is 25%[3] less than the rate that would otherwise have been determined by the OEB for that period absent Ontario's Fair Hydro Plan (such adjustment, together with the further adjustments described below in this section, the "**Fair Adjustment**").

Under the FHPA, a "**Specified Consumer**" is:

[3] The 25% reduction includes an 8% rebate equivalent to the provincial portion of the harmonized sales tax previously granted by the Ontario government.

(a) a person who has an account with an Electricity Vendor for the supply of electricity in the Province of Ontario and meets any one of the following criteria:

(i) the person has a demand for electricity of 50 kilowatts or less, or such other amount as may be prescribed by the Regulations;

(ii) the person annually uses not more than 250,000 kilowatt hours of electricity, or such other amount as may be prescribed by the Regulations;

(iii) the person carries on a business that is a farming business for the purposes of the *Farm Registration and Farm Organizations Funding Act, 1993* and either holds a valid registration number assigned under that Act or has had the obligation to file a farming business registration form waived pursuant to an order made under subsection 22(6) of that Act;

(iv) the person's account with the Electricity Vendor relates to

(A) a dwelling;

(B) a property within the meaning of the *Condominium Act, 1998*;

(C) a residential complex within the meaning of subsection 2(1) of the *Residential Tenancies Act, 2006*, without regard to section 5 of that Act; or

(D) a property that includes one or more housing units and that is owned or leased by a co-operative within the meaning of the *Co-operative Corporations Act*; or

(v) the person satisfies such criteria as may be prescribed by the Regulations; or

(b) such other person as may be prescribed by the Regulations.

Electricity bills for Specified Consumers for the period between May 1, 2018 and April 30, 2019 are to increase by the rate of inflation (or remain unchanged in the event inflation is negative). Permitted increases after April 30, 2019 will be determined by the Ontario government through additional regulations, though the Ontario government has indicated that rate increases will be held to the rate of inflation until 2021.

Under the FHPA, OPG is appointed as Financial Services Manager and given the authority to, among other things, establish, or cause to be established, one or more Financing Entities to incur Funding Obligations to fund the acquisition of an Investment Interest. The Issuer is a Financing Entity under the FHPA and the Senior Notes are Funding Obligations under the FHPA.

Regulatory Asset

Under the FHPA, each month the IESO determines the shortfall that results from the Fair Adjustment as compared to what the IESO would have been entitled to receive without the Fair Adjustment and records this amount, together with the costs of financing the shortfall, the amounts charged to the IESO by the Issuer in respect of the Carrying Costs of the Issuer**, when applicable,** ~~[~~and certain other amounts~~]~~ ~~***[NTD: IESO to confirm what other amounts are included]***~~ in a variance account. The IESO has the right, exercisable in accordance with the FHPA ~~and the Regulations~~, to recover the balance recorded in the variance account from Specified Consumers (such right, the "**Regulatory Asset**"). The FHPA provides that the OEB shall, from time to time and in accordance with the Regulations, determine and set rates payable by Specified Consumers to allow for the IESO to recover the balance recorded in the variance account and that the IESO shall not be entitled to collect all or part of the balance recorded in the variance account from Specified Consumers before May 1, 2021. The IESO may, in accordance with the FHPA, Transfer a specified portion of the Regulatory Asset to a Financing Entity for a cash purchase price equal to the amount recorded in the variance account in respect of such specified portion of the Regulatory Asset. Upon

receipt by the IESO of payment by the Financing Entity, the IESO retains no further right, title or interest in the corresponding Investment Interest.

Investment Interest

By acquiring an Investment Interest, the Financing Entity is financing a portion of the shortfall that ~~results from~~gives rise to the ~~Fair Adjustment~~Regulatory Asset and, as an owner of the Investment Interest, will be entitled to recover its Finance Amount (the costs of such financing). While a Financing Entity may choose to acquire an Investment Interest by accepting a Transfer of the corresponding specified portion of a Regulatory Asset, it is under no obligation to do so.

If the IESO and a Financing Entity agree to the Transfer of a specified portion of the Regulatory Asset from the IESO, such Transfer results in the creation of a current and irrevocable property right that is immediately vested in the Financing Entity, free and clear of any adverse claim (such right, the "**Investment Asset**", and an ownership interest therein, an "**Investment Interest**"). The Investment Asset consists, collectively, of the following rights and interests of Financing Entities that own an Investment Interest (among other things):

(a) the right and interest to impose, invoice, collect, receive and recover the Clean Energy Adjustment from Specified Consumers, including the right to determine the Clean Energy Adjustment in accordance with the FHPA;

(b) the right to receive, collect and recover the Clean Energy Adjustment that is imposed, invoiced and recoverable under the FHPA, including any amounts in respect of the Clean Energy Adjustment that are held by Electricity Vendors or the IESO;

(c) the right to enforce the duties and obligations under the FHPA of each Electricity Vendor to impose, attribute, charge and invoice for the Clean Energy Adjustment;

(d) the right to enforce the duties and obligations under the FHPA of each Electricity Vendor and the IESO to collect, receive and remit amounts received by it in respect of the Clean Energy Adjustment, including all collections and the proceeds of any enforcement action undertaken by any Electricity Vendor to recover payment of the Clean Energy Adjustment;

(e) all rights of any kind related to any of the other property rights or interests that comprise the Investment Interest; and

(f) all revenue, collections, claims, payments, money and proceeds of or derived from the rights described in paragraphs (a) to (e), regardless of whether it is invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

Clean Energy Adjustment

The "**Clean Energy Adjustment**" is the amount calculated in accordance with the FHPA and payable by Specified Consumers to cover the cost of financing the shortfall that ~~results from~~gives rise to the ~~Fair Adjustment~~Regulatory Asset. The Financial Services Manager will determine the amount of the Clean Energy Adjustment payable by Specified Consumers for each month of a Reference Period. The Clean Energy Adjustment is based on an estimate of the amount payable by a Financing Entity in a Reference Period in respect of the Finance Amount and the True-up Amount (each as described below).

The "**Finance Amount**" in respect of the Issuer for a period of time is an amount determined by the Financial Services Manager as follows:

(a) after eliminating any duplication in the following amounts, calculating the sum of the following amounts:

(i) amounts paid or payable during the period in respect of the payment by or on behalf of the Issuer or the provision by or on behalf of the Issuer for the payment of all or a portion of the principal amount advanced to the Issuer under a Funding Obligation;

(ii) interest, commitment fees or other similar costs payable by or on behalf of the Issuer in respect of Funding Obligations that are paid or payable during the period;

(iii) amounts payable by or on behalf of the Issuer to redeem, prepay or repurchase Funding Obligations incurred by or on behalf of the Issuer, including any premium, make-whole or other amount payable to give effect to the prepayment redemption or repurchase, that are paid or payable during the period;

(iv) payments required to be made in respect of any derivative agreements during the period, including ordinary course payments, payments on termination and payments made in connection with margining or collateral arrangements;

(v) amounts deposited, as required under the governing documents of Funding Obligations, into capital accounts or finance reserve accounts during the Reference Period;

(vi) Issuer expenses, including fees (including fees charged by the Financial Services Manager), charges, costs, indemnities, reimbursements and other amounts incurred or committed to by or on behalf of the Issuer as a result of an activity authorized or permitted under the FHPA, and any taxes on such amounts, in each case that are paid or payable during the period;

(vii) taxes paid or payable by or on behalf of the Issuer, incurred directly or indirectly by the Issuer , or for which the Issuer is otherwise liable as a result of any activity, undertaking, transaction or event authorized or permitted under the FHPA that are payable during the period; and

(viii) amounts paid or payable by or on behalf of the Issuer during the period to any guarantor or surety that made a payment of an amount due and payable under a Funding Obligation, including pursuant to a guarantee, indemnity, contract of insurance or agreement entered into under subsection 5(2) or (3) of the FHPA;

(b) after eliminating any duplication in the following amounts, calculating the sum of the following amounts:

(i) amounts withdrawn, as required under the governing documents of Funding Obligations, from capital accounts or finance reserve accounts during the period;

(ii) amounts received during the period in respect of Carrying Costs;

(iii) the aggregate of all amounts received by or on behalf of the Issuer in respect of Funding Obligations during the period;

(iv) the principal amount of Funding Obligations incurred by the Issuer that are applied to refinance existing Funding Obligation during the period;

(v) any payments received in connection with a derivative agreement, including ordinary course receipts, payments received on termination and payments received in connection with margining or collateral arrangements, in each case during the period;

(vi) amounts received by or on behalf of the Issuer as a refund of tax during the period; and

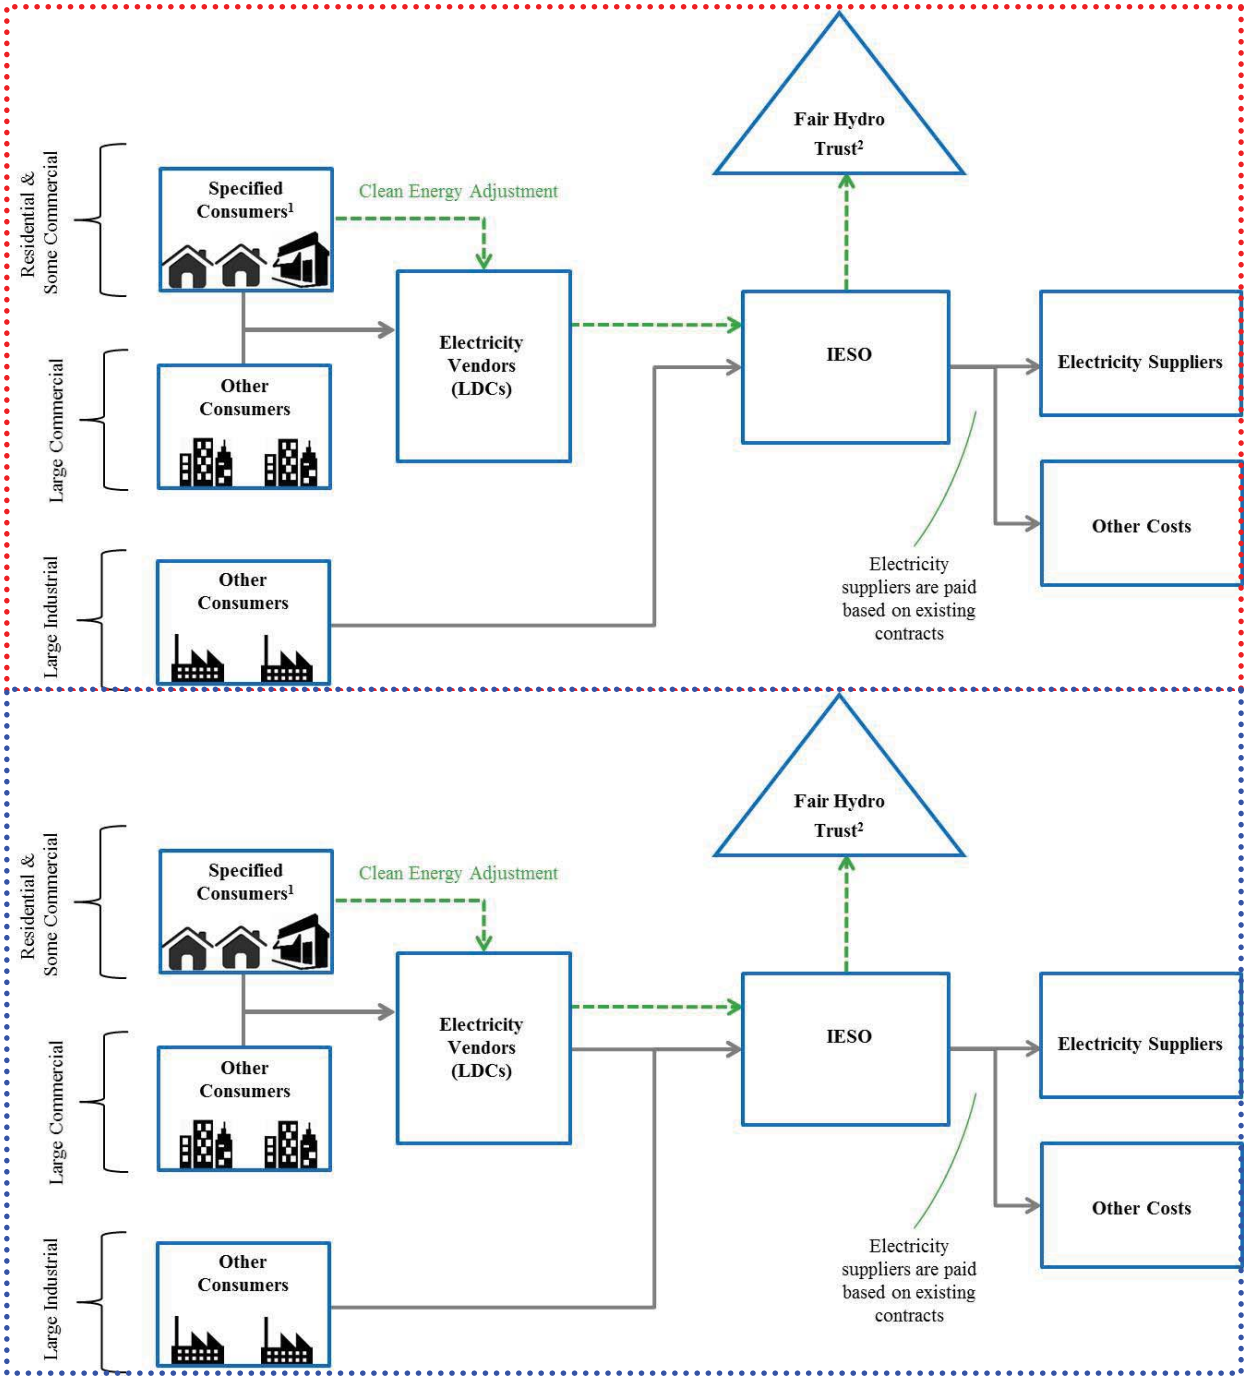
(c) subtracting the sum calculated under (b) from the sum calculated under (a).

In determining the Clean Energy Adjustment, the Financial Services Manager must also calculate a "**True-up Amount**" in accordance with the Regulations. The True-up Amount is comprised of the cumulative Finance Amounts in respect of all preceding Reference Periods less the cumulative Clean Energy Adjustment amounts remitted to the Issuer in respect of all preceding Reference Periods plus other anticipated shortfalls. The True-up Amount ~~may~~**will** also reflect **any** historical and reasonably foreseeable differences between the estimated and actual Finance Amount; between amounts invoiced and amounts collected due to various factors, including applicable taxes, consumer defaults and delays, billing lags and write-offs; and variations in billings due to variations in electricity consumption. In determining such differences, the Financial Services Manager is required to have regard to amounts payable that were not collected and any amounts in respect of which an overpayment was made, which may include amounts resulting from a default of Specified Consumers, an Electricity Vendor or the IESO, whether in its capacity as an Electricity Vendor or its activities as agent or otherwise under the FHPA. The Regulations obligate the Financial Services Manager to calculate the True-up Amount in respect of each Reference Period so long as all Funding Obligations and other Finance Amounts have not been paid in full. After the final scheduled payment date of the Funding Obligation that has the latest maturity date of all outstanding Funding Obligations, the Financial Services Manager will calculate the True-up Amount quarterly. The Financial Services Manager may also at any time during a Reference Period determine an interim True-up Amount if, among other things, it reasonably forecasts that the collection of the Clean Energy Adjustment will be insufficient to pay the estimated Finance Amount for a Reference Period.

The Financial Services Manager must notify the OEB of the Clean Energy Adjustment for each Reference Period. The OEB must accept this amount and will determine the rates at which Specified Consumers are to be invoiced to recover the Clean Energy Adjustment. The rates are expressed as a cent per kWh amount and are determined by the OEB by dividing (i) the Clean Energy Adjustment provided by the Financial Services Manager in respect of the relevant period ~~of time~~ by (ii) a forecast of electricity consumption of Specified Consumers in respect of such period based on forecast information provided by the IESO. Electricity Vendors are required to invoice their Specified Consumers for the Clean Energy Adjustment, as determined by applying the rate set by the OEB, which is required to be included as a separate line item on each invoice. Electricity Vendors are required to collect, as agent of the Financing Entities (of which the Issuer is currently the only one), amounts in respect of the Clean Energy Adjustment, deposit such amounts into a segregated account established for the purpose of receiving those amounts, and hold such amounts in trust for the benefit of the Financing Entities (of which the Issuer is currently the only one) until remitted to the IESO for the benefit of the Financing Entities (of which the Issuer is currently the only one). If an Electricity Vendor does not receive payment in full of an invoice issued to a Specified Consumer, the Electricity Vendor shall allocate any payment received ~~on a *pro rata* basis~~ to the Clean Energy Adjustment and the other amounts payable under the particular invoice in the manner set out in the FHPA. It is a deemed condition of their licenses that Electricity Vendors comply with their obligations under the FHPA. ~~If there are any amounts that are collected by the Electricity Vendor, but not remitted to the IESO to remit to the Issuer during a Reference Period, such shortfall will be included in the True-up Amount for the subsequent period.~~

An amount in respect of the Clean Energy Adjustment shown on an invoice issued to a Specified Consumer is determinative of the amount of such Specified Consumer's indebtedness resulting from the Clean Energy Adjustment and is irrevocable upon invoicing and may not be set off or bypassed, except to the extent that the invoice reflects a clerical, typographical or calculation-related error. Commencing May 1, 2021, a charge in respect of the Clean Energy Adjustment will be included on invoices sent to Specified Consumers, and collected and remitted to the Issuer to pay amounts owing on the Senior Notes and all other administrative and other financing expenses of the Issuer. From July 1, 2017 until April 30, 2021 (the "**Moratorium Period**"), no Clean Energy Adjustments are permitted to be collected from Specified Consumers. During the Moratorium Period, the sole source of funds for payment on the Senior Notes, and the Issuer's other Carrying Costs, will be the amounts the IESO is obligated to pay **to the Issuer** under the Regulations during such period. See *"— IESO Payment of Carrying Costs during the Moratorium Period"* below. Once it starts being included on such invoices, the Clean Energy Adjustment will be collected until all outstanding Funding Obligations and other Finance Amounts have been repaid in full. Subject to the FHPA, the Clean Energy Adjustment will be collected and remitted to the Issuer to pay the Finance Amount, including the principal and interest on the Senior Notes and all other administrative and other financing expenses of the Issuer.

The following diagram illustrates the flow of funds under the Fair Hydro Plan.



[1] There is currently one Specified Consumer that is directly connected to the IESO and, accordingly, makes payments, including in respect of the Clean Energy Adjustment, **once applicable,** directly to the IESO.

[2] Pursuant to the Master Transfer and Servicing Agreement, the IESO may periodically Transfer specified portions of the Regulatory Asset to the Issuer for a corresponding purchase price. Upon completion of a Transfer by the IESO of a specified portion of the Regulatory Asset following payment by the Issuer of the corresponding purchase price, the Issuer will acquire an Investment Interest.

Fair Allocation Amount and Financing Plan

The FHPA was enacted to: (i) ensure that Clean Energy Costs and Clean Energy Benefits are fairly allocated among present and future Specified Consumers; (ii) recognize that Clean Energy Benefits have accrued and will accrue over time and will continue to benefit present and future electricity consumers in Ontario; and (iii) align

Clean Energy Costs with Clean Energy Benefits, in order to provide fairness for Specified Consumers over time. Under the FHPA, the Minister of Energy calculates a "**Fair Allocation Amount**", which is an amount for every Reference Period that, among other things, allocates the estimated Clean Energy Costs in proportion to the relative attribution of Clean Energy Benefits among Specified Consumers. Under the FHPA, the Minister of Energy is responsible for determining the Fair Allocation Amount prior to the incurrence of the first Funding Obligation. The Fair Allocation Amount may be changed from time to time in accordance with the FHPA, provided that no change of the Fair Allocation Amount shall affect any Clean Energy Adjustment that arises as a result of a Funding Obligation that has been incurred prior to such change.

OPG, as Financial Services Manager, is required to prepare a Financing Plan to evaluate whether and when potential Funding Obligations should be incurred by a Financing Entity to acquire an Investment Interest or for the purposes of a Refinancing. The Financial Services Manager is required to prepare the Financing Plan having regard to certain prescribed principles, including that Funding Obligations should be incurred such that, along with any Funding Obligations already incurred, the estimated Finance Amount that would, subject to any Refinancing, become due and payable during a Reference Period will reasonably align with the Fair Allocation Amount determined in respect of such Reference Period as of the date the Funding Obligations were incurred. In other words, the Financing Plan should contemplate the issuance of Funding Obligations from time to time, with terms that would result in Clean Energy Adjustments being payable by Specified Consumers that align with the purposes of the FHPA. Notwithstanding the above, the FHPA provides that each Funding Obligation **that is issued** is deemed to be consistent with the Financing Plan and to provide for the reasonable alignment of the estimated Finance Amount with the Fair Allocation Amount.

The Financing Plan allows for the issuance of a variety of short and long term debt. See the Investor Presentation attached as Exhibit 1 to this confidential shelf offering memorandum for more details regarding the Financing Plan and the Fair Allocation Amount.

Payment of Carrying Costs until July 31, 2021

Commencing May 1, 2021, a charge in respect of the Clean Energy Adjustment will be included on invoices sent to Specified Consumers, and collected and remitted to the Issuer to pay amounts owing on the Senior Notes and all other administrative and financing expenses of the Issuer. The IESO, which is rated A(high) by DBRS and Aa2 by Moody's, is required under the Regulations to pay and remit to the Issuer amounts charged to the IESO by the Issuer in respect of its Carrying Costs incurred in respect of the period from June 1, 2017 to July 31, 2021. Carrying Costs include all funding costs (such as interest on the Senior Notes) and other expenses of the Issuer, other than repayment of principal on any debt obligations of the Issuer (including repayment of principal on the Senior Notes). The amounts paid by the IESO **to the Issuer** to fund these Carrying Costs will be recorded by the IESO in the variance account and form part of the Regulatory Asset that the IESO is expected to Transfer to the Issuer in a subsequent period. Upon such Transfer, the Issuer will acquire a corresponding Investment Interest pursuant to the FHPA.

Pursuant to the Master Transfer and Servicing Agreement, on or before the fourth business day of each calendar month, the Issuer will submit a carrying costs statement to the IESO certifying the amount of Carrying Costs estimated to be incurred by the Issuer in the following month. On or before the 14th business day following receipt of the Issuer's statement, the IESO is required to deliver the amount specified in the carrying costs statement to the Issuer. See *"The Transferor and Servicer"*. The IESO has a $2 billion unsecured credit facility provided by the Ontario Financing Authority, expiring September 30, 2022, which is permitted to be used **by the IESO** to pay the ~~Issuer's~~ Carrying Costs **to the Issuer**. Furthermore, as security for the performance of its obligations under the Regulations to pay the ~~Issuer's~~ Carrying Costs **to the Issuer**, the IESO has granted the Issuer a first-priority security interest in all accounts receivable owing to the IESO from Electricity Vendors, including amounts owing with respect to the global adjustment charge. See *"The Transferor and Servicer"*.

Other Statutory Protections

The FHPA provides certain protection and assurances in respect of the obligations of Specified Consumers to pay amounts in respect of the Clean Energy Adjustment. Generally, no action or omission by the OEB, the Minister of Energy or the Crown, and no regulation under the FHPA, will be effective to reduce, impair, postpone or

terminate the obligations of Specified Consumers to pay amounts in respect of the Clean Energy Adjustment or to impair or postpone the invoicing, collection or remittance of the Clean Energy Adjustment. If an Electricity Vendor, the IESO or the Financial Services Manager, has failed, or will fail, to comply with the FHPA, the Issuer may apply to an Ontario court to make an order directing such party to comply and requiring compensation to be provided to the Issuer by such non-compliant party. Additional contractual protections are provided in the Change of Law Protection Agreement described below.

CHANGE OF LAW PROTECTION AGREEMENT

The following brief summary of certain provisions of the Change of Law Protection Agreement does not purport to be comprehensive or definitive. All references in this confidential shelf offering memorandum to the Change of Law Protection Agreement are qualified in their entirety by reference to the Change of Law Protection Agreement and the detailed provisions thereof. The Change of Law Protection Agreement may be reviewed at the principal office of the Issuer Trustee in Toronto, Ontario during normal business hours while any Senior Notes are outstanding.

Pursuant to the Change of Law Protection Agreement, upon a Protection Event and delivery by the Indenture Trustee of a written payment demand, the Province of Ontario is required to make payments of amounts that are due and payable in respect of all Approved Obligations when due and payable into the Protection Account. The Issuer and Indenture Trustee must ensure that amounts deposited into the Protection Account are applied to pay Specified Creditors to whom amounts are due and payable under an Approved Obligation in accordance with the provisions of the Master Trust Indenture. See *"Capital Markets Platform"*. The Province of Ontario's obligation to make such payments under the Change of Law Protection Agreement upon a Protection Event and delivery by the Indenture Trustee of a written payment demand is referred to as the "**Limited Guarantee**".

The payment obligations of the Province of Ontario under the Limited Guarantee differ depending on whether an Acceleration has occurred. If no Acceleration has occurred in respect of any Senior Notes on or before a date on which the Province of Ontario is to perform the Limited Guarantee, the Change of Law Protection Agreement provides that the Province of Ontario is to pay the amounts due and payable on such date in respect of Approved Obligations. If an Acceleration has occurred in respect of any Senior Notes on or before a date on which the Province of Ontario is to perform the Limited Guarantee, the Province of Ontario is to pay the amounts that would be available to be paid on such date in respect of the Approved Obligation on an applicable payment date in respect of the Approved Obligation under the applicable payment provisions of the Master Trust Indenture, determined on the assumption that the amount available for allocation to Specified Creditors in accordance with such applicable payment provisions of the Master Trust Indenture in respect of each relevant month during each Reference Period is equal to the estimated Finance Amount determined in respect of such Reference Period, divided by the number of months in such Reference Period. **See *"Capital Markets Platform — Acceleration and Remedies — Limitation on Available Amounts on Acceleration"* for a description of the amounts that would be available to be paid under the Master Trust Indenture in such circumstances.**

The Province of Ontario is not obligated to pay or indemnify the Indenture Trustee or any Specified Creditor for consequential, special or punitive damages, or for economic loss or loss of profits (provided that economic loss does not include payments of amounts that are due and payable in respect of the Senior Notes).

Under the Change of Law Protection Agreement, the right to deliver a written payment demand on occurrence of a Protection Event to enforce the Limited Guarantee is the only remedy available to the Indenture Trustee (and to Specified Creditors, to the extent they are permitted to exercise any rights, interests or elections under and in accordance with the Master Trust Indenture). Specified Creditors are not permitted to exercise any rights, interests, or elections under the Change of Law Protection Agreement, other than in the manner and to the extent effected and exercised under, in accordance with and subject to the limitations set forth in the Master Trust Indenture as at December 21, 2017.

In connection with the provision of the Limited Guarantee, OPG, as Financial Services Manager, has entered into a process agreement with the Province of Ontario pursuant to which OPG is required to satisfy certain reporting and other requirements regarding the Issuer's incurrence of, and material amendments to, any Issuer Funding Obligations.

Protection Event

Each of the following constitutes a "**Protection Event**" under the Change of Law Protection Agreement:

(a)

(i) the Ontario legislature repeals, and does not replace on an equivalent basis, or amends, the ~~FHPA~~**Act** or any portion thereof, as in effect on the date hereof;

(ii) the Ontario legislature enacts or amends any other statute;

(iii) the Lieutenant Governor in Council repeals, and does not replace on an equivalent basis, the regulations made under the ~~FHPA~~**Act** or any portion thereof, in whole or in part, as in effect on the date hereof;

(iv) the Lieutenant Governor in Council, a minister of the Crown, an official of the government or a board or commission all the members of which are appointed by the Lieutenant Governor in Council makes or amends any "regulation" (as defined in Part III of the *Legislation Act, 2006*) as in effect on the date hereof; or

(v) the implementation of a change in the organization or structure of the IESO or Ontario's electricity market undertaken at the initiative of the Province of Ontario or an entity controlled by the Province of Ontario,

in each case, that (X) adversely affects the ability of the Issuer to receive amounts in respect of its Investment Interest so that it can pay Approved Obligations when due and payable, in each case determined after taking into account and having regard to (i) any funds available at such time to apply to such Approved Obligations, including in any finance reserve account, capital account or collateral posting account applicable under a derivative agreement, (ii) the availability of any credit enhancement agreement to which the Issuer is a party and (iii) any reasonably expected potential effect of a True-up Amount in the Reference Period immediately following the occurrence of an event described in any of clauses (i) to (v) above, or (Y) adversely affects the enforceability of, or adversely changes, the terms and conditions of the Change of Law Protection Agreement or of any of the agreements under which Approved Obligations arise; or

(b) a court of competent jurisdiction determines that all or a portion of the ~~FHPA~~**Act**, as in effect on the date hereof, is *ultra vires* or invalid in a way that adversely affects the ability of the Issuer to receive amounts in respect of its Investment Interest so that it can pay Approved Obligations when due and payable and that has the effect of the Issuer not in fact having sufficient funds to pay such Approved Obligations that have become due and payable, in each case determined after taking into account and having regard to (i) any funds available at such time to apply to such Approved Obligations, including in any finance reserve account, capital account or collateral posting account applicable under a derivative agreement, (ii) the availability of any credit enhancement agreement to which the Issuer is a party and (iii) any reasonably expected potential effect of a True-up Amount in the Reference Period immediately following the occurrence of an event described in this paragraph (b).

The occurrence of a Protection Event in and of itself will not result in the acceleration of the Senior Notes.

On a Protection Event and payment by the Province of Ontario of amounts in respect of Approved Obligations that are due and payable into the Protection Account, such deposited amounts are applied by the Issuer and Indenture Trustee in the priority of payments governed by the Master Trust Indenture.

Upon the Province of Ontario's payment of amounts in respect of Approved Obligations that are due and payable into the Protection Account, the Province of Ontario will be subrogated and entitled to all of the rights of applicable Specified Creditors (including Noteholders) under and in respect of the Approved Obligations to the

extent of the amounts paid. Applicable Specified Creditors in respect of whom amounts were deposited into the Protection Account will not have continuing rights, interests or entitlements (including rights as a secured party) in respect of Approved Obligations to the extent so paid; the Province of Ontario will be the absolute assignee of such rights. The Province of Ontario will have the right to be paid from the Issuer the amounts that the Province of Ontario paid in respect of the Approved Obligations ("**Subrogation Amounts**"), such Subrogation Amounts being payable in the same order of priority and with the same entitlements accruing to the Province of Ontario as applied to the amounts in respect of the Approved Obligations previously owing to Specified Creditors that the Province of Ontario has paid. The Province of Ontario will also be entitled to the benefit of the Collateral and proceeds therefrom to the extent of the amounts paid under the Limited Guarantee.

As payee of Subrogation Amounts, the Province of Ontario will be a Specified Creditor under the Master Trust Indenture. Further, the entitlements of the Province of Ontario to Subrogation Amounts arising in respect of Approved Obligations that are interest and principal obligations on Notes will be treated for all purposes of the Master Trust Indenture as interest and principal obligations, respectively, arising under Notes, having the same priority and any applicable voting rights as under the related Approved Obligations, and accordingly the Province of Ontario will be entitled to all of the rights, entitlements, interests and privileges of a holder of such Notes in accordance with the Master Trust Indenture, as supplemented by the supplemental indenture or other indenture document under which the related Approved Obligations were issued, provided that for purposes of determining voting rights with respect to Notes, Notes in which the Province of Ontario has an interest will be deemed not to be outstanding at any time that a Specified Creditor other than the Province of Ontario has an interest in such Class of Notes.

Approved Obligations & Adherence Conditions

Under the Management Agreement, the Manager is required to ensure that all obligations of the Issuer are and remain Approved Obligations under the Change of Law Protection Agreement.

An "**Approved Obligation**" under the Change of Law Protection Agreement means: (i) a Certified Primary Obligation if the adherence conditions applicable thereto have been satisfied at the time such obligation was incurred; (ii) all other Primary Obligations that are not Certified Primary Obligations (except any Primary Obligation to which the Limited Guarantee will not apply on or after delivery of a Suspension Notice as described below); and (iii) all Certified Primary Obligations that the Province of Ontario, in its sole discretion, designates in writing is an Approved Obligation.

It will be a condition to any Offering of Senior Notes that such Senior Notes constitute Approved Obligations under the Change of Law Protection Agreement.

A "**Primary Obligation**" under the Change of Law Protection Agreements means any Obligation Secured under the Master Trust Indenture (i) that is a Funding Obligation or (ii) that otherwise is a payment obligation of the Issuer that gives rise to a Finance Amount, in each case other than (x) any amounts required to be deposited by or on behalf of the Issuer into any capital account or finance reserve account; and (y) any obligation to pay the Issuer or on the Issuer's direction any remaining amounts in the Collection Account pursuant to the Master Trust Indenture.

A "**Certified Primary Obligation**" means a Primary Obligation: (i) incurred by or on behalf of the Issuer to fund its ownership of an Investment Interest, including any Refinancing, other than a Post-Suspension Refinancing or a Pre-Approved Refinancing (each as defined below), of such a Primary Obligation (for greater certainty, including, in the case of any Certified Primary Obligation permitting funding transactions pursuant to a Funding Obligation Agreement applicable to the Certified Primary Obligation, each individual borrowing or funding utilization thereunder), (ii) incurred by or on behalf of the Issuer upon the Issuer entering into a derivative agreement, in which case the Certified Primary Obligation therefor shall be the Master Agreement applicable to such derivative agreement and not any individual trade confirmation other than a trade confirmation that modifies or purports to override the express terms or conditions of the related Master Agreement, or (iii) incurred by or on behalf of the Issuer upon entering into a contract that has a term of more than three (3) years which is not terminable by the Issuer giving three (3) years' notice or less and expected (as determined by the Manager, acting reasonably) aggregate payments by the Issuer thereunder during the term of such contract are or would be in excess of $5,000,000 (that, for greater certainty, is not otherwise captured in clauses (i) and (ii) above).

The Limited Guarantee shall apply to all Certified Primary Obligations that meet the following adherence conditions:

(a) the Certified Primary Obligation when incurred is an Obligation Secured under the Master Trust Indenture;

(b) OPG, as Financial Services Manager, delivers a certificate to the Indenture Trustee on or before the incurrence of such obligation certifying, among other things, that OPG has delivered a certificate to the Province of Ontario confirming that OPG has complied with all of its obligations to the Province of Ontario and internal requirements and processes in connection with the adherence of the Limited Guarantee to the Certified Primary Obligation (an "**Adherence Compliance Certificate**"); and

(c) the Province of Ontario has not provided a Suspension Notice to the Indenture Trustee, OPG and the Issuer.

All Senior Notes shall constitute Obligations Secured under the Master Trust Indenture and therefore condition (a) above will be satisfied for all Offerings of Senior Notes. It will be a condition to any Offering of Senior Notes that OPG deliver the adherence certificate required pursuant to (b) above or that the Province of Ontario designates in writing that the Senior Notes are Approved Obligations. The Change of Law Protection Agreement provides that delivery of an adherence certificate shall be determinative of satisfaction of this adherence condition, notwithstanding that such certificate may include inaccuracies, be incomplete or otherwise be defective or deficient, and such certificate may be relied upon as conclusive evidence of same.

Suspension Notice & Post-Suspension Refinancings

The Change of Law Protection Agreement will remain in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations, including the Senior Notes.

However, in the following limited circumstances, the Province of Ontario may deliver a written notice (a "**Suspension Notice**") to the Indenture Trustee, the Financial Services Manager and the Issuer:

(a) an acceleration of Funding Obligations in accordance with the provisions of the Master Trust Indenture or an event of default, early amortization event, termination event or similar event or circumstance (including any event that with the passage of time or the giving of notice would become such an event) of or in respect of the obligations of any party under any Program Agreement;

(b) a default in the performance, or breach, of any covenants of OPG, as Financial Services Manager, or OPG, in its corporate capacity, in each case to the Province of Ontario in connection with its obligations to the Province of Ontario pursuant to internal requirements and processes in connection with the provision or adherence of the Limited Guarantee to or in respect of any Certified Primary Obligation and the expiration of any applicable cure period;

(c) a representation or warranty made by OPG or a certification made by one or more officers of OPG, in each case whether as Financial Services Manager or in its corporate capacity, to the Province of Ontario in connection with its obligations to the Province of Ontario and its internal requirements and processes in connection with the provision or adherence of the Limited Guarantee to or in respect of any Certified Primary Obligations, proves to be incorrect in any material respect on the date made and the expiration of any applicable cure period; or

(d) the Financial Services Manager no longer being the Manager or actions having been taken by or on behalf of the Indenture Trustee to remove the Financial Services Manager as the Manager;

If a Suspension Notice has been provided under the Change of Law Protection Agreement (the provision of such notice being a "**Suspension Event**"), the Limited Guarantee shall not apply in respect of: (i) any Primary

Obligation incurred, excluding any Post-Suspension Refinancing, or (ii) any amendment of any Primary Obligation that has a Material Effect, unless otherwise agreed to by the Province of Ontario, in each case, on or after the time such Suspension Notice is delivered.

Following the occurrence of a Suspension Event, the Limited Guarantee shall continue to apply in respect of any Post-Suspension Refinancing; provided that prior to the Financing Entity incurring any Primary Obligation constituting a Post-Suspension Refinancing, the Manager shall provide the Province of Ontario with at least 30 days' notice of its intention to seek a Post-Suspension Refinancing and during such 30-day period the Province of Ontario may, but is not obligated to, offer to fund such Post-Suspension Refinancing or arrange for another Person to fund such Post-Suspension Refinancing on the same terms as set out in the notice or on such other terms as may be considered by the Province of Ontario to be not more onerous on the Financing Entity and that are acceptable on that basis to the Financing Entity, acting reasonably.

A "**Post-Suspension Refinancing**" means a Funding Obligation that is an Obligation Secured and that is incurred on or after the occurrence of a Suspension Event in compliance with the requirements of the Change of Law Protection Agreement, as a Refinancing of one or more Series of Approved Obligations (including any Pre-Approved Refinancing incurred on or after the occurrence of a Suspension Event), in each case the proceeds of which, together with any other funds that may be available, are used solely for the purpose of paying in full such Series of Approved Obligations and any costs and expenses associated with such Refinancing.

A "**Pre-Approved Refinancing**" means a Refinancing of a Certified Primary Obligation in respect of which the Province of Ontario has, prior to the incurrence of such Certified Primary Obligation, agreed shall be an Approved Obligation, subject to compliance with such conditions and requirements as may be specified in such agreement.

A "**Material Effect**" means a material adverse effect on the obligations or the rights of the Province of Ontario under the Limited Guarantee that relates to, and in each case, differs in any material respect from the terms or conditions applicable to any transaction document to which the Limited Guarantee applies and which was previously provided to the Province of Ontario, the following: (i) the timing of or circumstances under which Primary Obligations would or may become due or accrue (including as a result of any default, acceleration, termination, wind-up, liquidation or realization) that, in each case, is inconsistent with the Fair Allocation Amount; (ii) the appointment, obligations or duties of OPG as the Manager; (iii) the existence, powers or authority of the Issuer or the Issuer Trustee; (iv) the obligations of the Indenture Trustee to or in respect of the Province of Ontario as a Specified Creditor; (v) the payment provisions and associated priorities set forth in the Master Trust Indenture; (vi) compliance by the Financial Services Manager with the then applicable Financing Plan; (vii) compliance by the Financial Services Manager or the Issuer with the FHPA; or (viii) the Province of Ontario's rights of subrogation or assignment or its interests as a subrogee or an assignee, that would arise as a result of performing the Limited Guarantee in respect of the applicable Primary Obligation.

Accordingly, notwithstanding delivery of a Suspension Notice, the Limited Guarantee shall continue to apply to: (i) any Approved Obligations that were incurred prior to the Suspension Event and (ii) any Funding Obligations incurred by the Issuer following a Suspension Event if the terms and conditions of the Change of Law Protection Agreement are satisfied and the proceeds of such incurrence are to be used for the purpose of repaying one or more series of Approved Obligations. Accordingly, subject to compliance with the Change of Law Protection Agreement, any Senior Notes or other Funding Obligations that may be issued following a Suspension Event to refinance Senior Notes that were issued prior to a Suspension Event will continue to have the benefit of the Limited Guarantee.

THE ISSUER

The Issuer is an unincorporated open-ended unit trust established under the laws of the Province of Ontario pursuant to the Declaration of Trust. The Issuer Trustee is the sole trustee of the Issuer, which is a Financing Entity established to incur Funding Obligations for the purpose of acquiring Investment Interests pursuant to the FHPA. The principal business address and head office of the Issuer is in Ontario, in the care of the Issuer Trustee at the following address: 100 University Avenue, 11th Floor, Toronto, Ontario M5J 2Y1.

The following brief summary of certain provisions of the Declaration of Trust does not purport to be comprehensive or definitive. All references in this confidential shelf offering memorandum to the Declaration of Trust are qualified in their entirety by reference to the Declaration of Trust and the detailed provisions thereof. The Declaration of Trust may be reviewed at the principal office of the Issuer Trustee in Toronto, Ontario during normal business hours while any Senior Notes are outstanding.

The Declaration of Trust establishes the Issuer to carry on activities for the exclusive benefit of its unitholders, FHP2017 Inc., a wholly-owned subsidiary of OPG, and BNY Trust Company of Canada, the Indenture Trustee under the Master Trust Indenture (collectively, the "**Unitholders**"). The beneficial interest and rights generally of the Unitholders in the Issuer are limited to the right to participate in distributions when and as declared by the Issuer Trustee and distributions upon the termination of the Issuer. The legal ownership of the trust property and the right to conduct the activities of the Issuer are vested exclusively in the Issuer Trustee and no Unitholder has any right of ownership in any of the trust property. Except in limited circumstances provided in the Declaration of Trust, no Unitholder is entitled to interfere with or give any direction to the Issuer Trustee with respect to the affairs of the Issuer or in connection with the exercise of any powers or authorities conferred upon the Issuer Trustee under the Declaration of Trust. The Issuer Trustee will generally have, free from any power or control on the part of the Unitholders, full authority over the trust property and the activities of the Issuer to the same extent as if the Issuer Trustee were the sole and absolute owner thereof. The Unitholders will also not be subject to any liability arising out of the activities of the Issuer.

The Issuer Trustee, on behalf of the Issuer, has entered into a management agreement with OPG, as Manager, whereby all of the powers and duties of managing the Issuer have been delegated to the Manager. See *"The Manager."*

The permitted activities of the Issuer are limited to:

(a) acquiring, owning, holding, administering or entering into agreements regarding the acquisition and servicing of Investment Interests, along with certain other related assets;

(b) managing, selling, assigning, pledging and collecting amounts due on or otherwise dealing with Investment Interests and certain other related assets in accordance with the terms of the Program Agreements;

(c) negotiating, authorizing, executing, delivering, assuming the obligations under and performing its duties under the Program Agreements;

(d) filing with any applicable securities commission one or more prospectuses, offering memoranda, registration statements or documents necessary or desirable to register one or more series of Funding Obligations under the securities laws of any applicable jurisdiction;

(e) authorizing, executing, delivering, issuing and registering one or more series of Funding Obligations;

(f) making payments on Funding Obligations;

(g) pledging its interest in Investment Interests and related assets to the Indenture Trustee in order to secure Funding Obligations; and

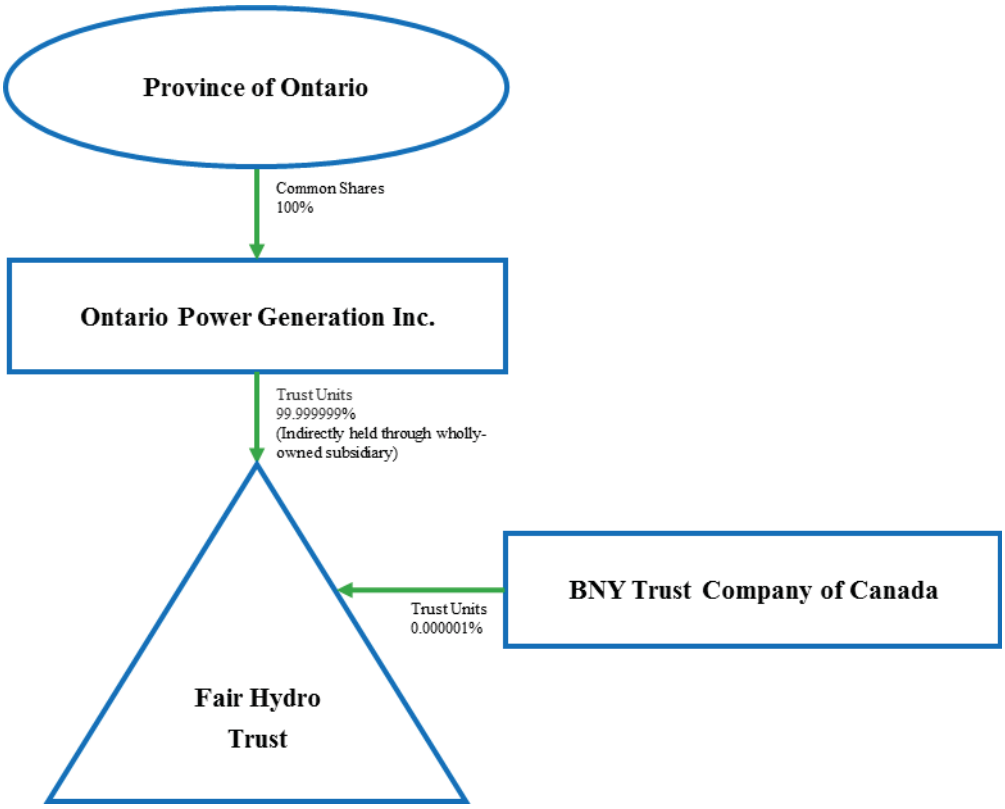
(h) engaging in any lawful act or activity that is incidental to the above-mentioned purposes.

The Issuer Trustee may amend the Declaration of Trust under specified circumstances without the consent of Unitholders provided (i) the amendment will not materially adversely affect the interest of any Unitholder, unless that Unitholder has approved of the amendment in writing, and (ii) in respect of any material amendment, the Rating Agency Condition has been satisfied. The Issuer Trustee is required to provide the Rating Agencies and the Indenture Trustee with a copy of any amendment, variation, supplement, replacement or restatement of the Declaration of Trust.

The consent of the Indenture Trustee, in addition to all other Unitholders, will be required to wind up the Issuer or voluntarily institute or consent to insolvency proceedings against the Issuer while any Funding Obligations remain outstanding. The Issuer Trustee may be removed by the Unitholders at any time by notice in writing delivered to the Issuer Trustee not less than 90 days prior to the date such removal is to take effect. The Issuer Trustee may also be removed by the Unitholders with no prior written notice if it becomes bankrupt or insolvent or it is unable to exercise its duties under the Declaration of Trust. The Issuer Trustee may resign on 120 days' prior written notice to the Unitholders, the Indenture Trustee and the Rating Agencies. No such resignation will be effective until a replacement issuer trustee acceptable to the Unitholders and the Indenture Trustee has been appointed and the Rating Agency Condition has been satisfied.

Each of the Issuer Trustee and its directors, officers, agents, representatives and employees will be indemnified from and against all claims (including any claim arising out of the assessment of any tax on income by a taxing authority), demands, levies, penalties, suits, losses, actions, causes of action, costs, charges, fees and expenses, damages and liabilities whatsoever arising out of, among other things, any action or omission in relation to the execution of the duties of the Issuer Trustee or in relation to the trust property or the activities of the Issuer, except, in each case, for wilful misconduct, gross negligence or failure to comply with the standard of care established by the Declaration of Trust.

The following diagram illustrates the structure of the Issuer and its affiliates.



THE MANAGER

Pursuant to the Management Agreement, the Issuer has delegated to OPG, as Manager, all of the powers and duties of managing the Issuer. The following brief summary of certain provisions of the Management Agreement does not purport to be comprehensive or definitive. All references in this confidential shelf offering memorandum to the Management Agreement are qualified in their entirety by reference to the Management Agreement and the detailed provisions thereof. The Management Agreement may be reviewed at the principal office of the Issuer Trustee in Toronto, Ontario during normal business hours while any Senior Notes are outstanding.

The powers and duties delegated to the Manager under the Management Agreement include, among others:

(a) negotiating and executing, on behalf of the Issuer, the Program Agreements;

(b) maintaining accounts and banking records;

(c) enforcing the rights of the Issuer under the Program Agreements and the FHPA;

(d) determining, in accordance with the Financing Plan, when it is appropriate for the Issuer to incur Funding Obligations;

(e) ensuring that all Primary Obligations of the Issuer are and remain Approved Obligations;

(f) administering all activities of the Issuer in connection with the issuance, sale, payment, repurchase and redemption of the Issuer's Funding Obligations;

(g) preparing, in accordance with applicable securities laws, any offering documents to be furnished by the Issuer to prospective purchasers of Funding Obligations, including the Senior Notes, and ensuring that all statements of the Issuer made therein are at all times true and correct in all material respects;

(h) arranging for compliance by the Issuer with any continuous disclosure obligations;

(i) arranging for the retention of legal counsel, accountants and an auditor for the Issuer;

(j) preparing financial statements and paying taxes on behalf of the Issuer;

(k) preparing a monthly portfolio report setting out information regarding incoming and outgoing cash flows; and

(l) providing such other services as are incidental to the foregoing or as may be agreed upon between the Issuer and the Manager.

The Manager is also required to work with the IESO to develop, on or before January 31, 2020, a written implementation plan identifying the actions to be taken by the IESO and the Issuer to facilitate the OEB, the Issuer, the IESO and Electricity Vendors being prepared to perform their obligations under the FHPA when setting, invoicing and collecting the Clean Energy Adjustment. The Manager will deliver written progress reports to the Issuer and the Indenture Trustee on the status of the implementation plan on or before June 30, 2020, October 31, 2020 and January 31, 2021.

Following the Moratorium Period, the Manager will review a monthly servicer report required to be delivered to the Issuer by the IESO under the Master Transfer and Servicing Agreement and make commercially reasonable efforts to resolve any Electricity Vendor failures or discrepancies identified in such report that have not been remedied or adequately explained by Electricity Vendors. The Manager is obligated to institute any proceedings necessary to compel performance by Electricity Vendors of any obligations or duties under the FHPA, including with respect to the invoicing, collection and remittance of Clean Energy Adjustment amounts. Commencing May 1, 2021 and pursuant to its rights under the Regulations, the Manager (on behalf of the Issuer) shall review, or cause to be reviewed, on an annual basis, or less frequently as may be determined by the Manager and subject to satisfaction of the Rating Agency Condition, the records maintained by Electricity Vendors with respect to the Clean Energy Adjustment and if there is evidence of material non-compliance by an Electricity Vendor, the Manager will promptly review or cause to be reviewed the records of such Electricity Vendor.

The Manager is obligated to perform its duties under the Management Agreement diligently and in conformity with the Issuer's obligations under each of the Program Agreements and with the FHPA, as applicable, and honestly, in good faith and in the best interest of the Issuer. The Manager must exercise the degree of care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

In addition to the powers and duties delegated to OPG pursuant to the Management Agreement, OPG has also agreed to comply with its duties under the FHPA in its capacity as Financial Services Manager, including:

(a) preparing the Financing Plan to evaluate whether potential Funding Obligations should be incurred by Financing Entities for the purposes of acquiring Investment Interests;

(b) determining the amounts of the Clean Energy Adjustment, inclusive of any True-up Amount;

(c) calculating the True-up Amount;

(d) notifying the OEB of the Clean Energy Adjustment, inclusive of any True-up Amount;

(e) administering the Investment Interests on behalf of Financing Entities in accordance with the Program Agreements;

(f) ensuring that Funding Obligations are incurred in a manner that is consistent with the Financing Plan; and

(g) establishing and charging fees for the services provided under the Management Agreement.

Subject to OEB approval, OPG is entitled to charge the Issuer a fee, comprised of a base fee and a variable fee, to earn a return and to recover costs and expenditures incurred by OPG on behalf of the Issuer or in relation to the establishment, management and administration of the Issuer and its Investment Interest. The priority of the Manager's entitlement to fees is subject to the payment priorities set forth in the Master Trust Indenture.

The Manager is not entitled to resign from its duties or terminate the Management Agreement as long as Funding Obligations remain outstanding. The Manager may be terminated by the Issuer Trustee, with the consent of the Indenture Trustee, or by the Indenture Trustee in accordance with the Master Trust Indenture. No termination of the Manager will be effective until a replacement manager that satisfies the Rating Agency Condition has been approved and has entered into a management agreement with the Issuer whereby the replacement manager agrees to assume, in substance, the obligations of the Manager under the Management Agreement. If the Manager ceases to perform, or inadequately performs, its management duties under the Management Agreement, it might be difficult to find a replacement for the Manager or a successor manager. See "*Risk Factors — Payments on the Senior Notes depend on the performance of OPG as Financial Services Manager and as Manager.*"

The Manager shall provide to the Issuer Trustee an annual certificate confirming compliance with certain matters, including: (i) accurate maintenance of the books and records of the Issuer; (ii) all debt obligations and expenses due and payable by the Issuer have been paid to date; (iii) all required filings with tax and regulatory authorities have been completed to date; and (iv) all material statements and reports to be delivered by the Issuer under the Program Agreements have been delivered and all material statements and reports to be received by the Issuer under the Program Agreements have been received.

The Manager indemnifies the Issuer under the Management Agreement for any losses incurred by the Issuer as a result of the failure of the Manager to perform its obligations under the Management Agreement or any breach by the Manager of its representations and warranties under the Management Agreement or any other Program Agreement to which it is a party, except to the extent such losses result from the willful misconduct, bad faith or gross negligence of the Issuer. Notwithstanding the foregoing, the Manager is not obligated to indemnify the Issuer under the Management Agreement for any losses resulting from: (i) a breach or failure to perform by a third party under any Program Agreement, the FHPA (excluding any delegation by the Manager under the Management Agreement to a third party); (ii) changes in law, (iii) the validity or applicability of the Change of Law Protection Agreement; (iv) the collectability or sufficiency of the Clean Energy Adjustment or Carrying Costs to satisfy the Issuer Funding Obligations, including the Senior Notes; or (v) any liability of the Issuer incurred after termination of the Management Agreement unless attributable to the actions or omissions of the Manager prior to such termination or in respect of a representation, warranty or covenant that survives such termination.

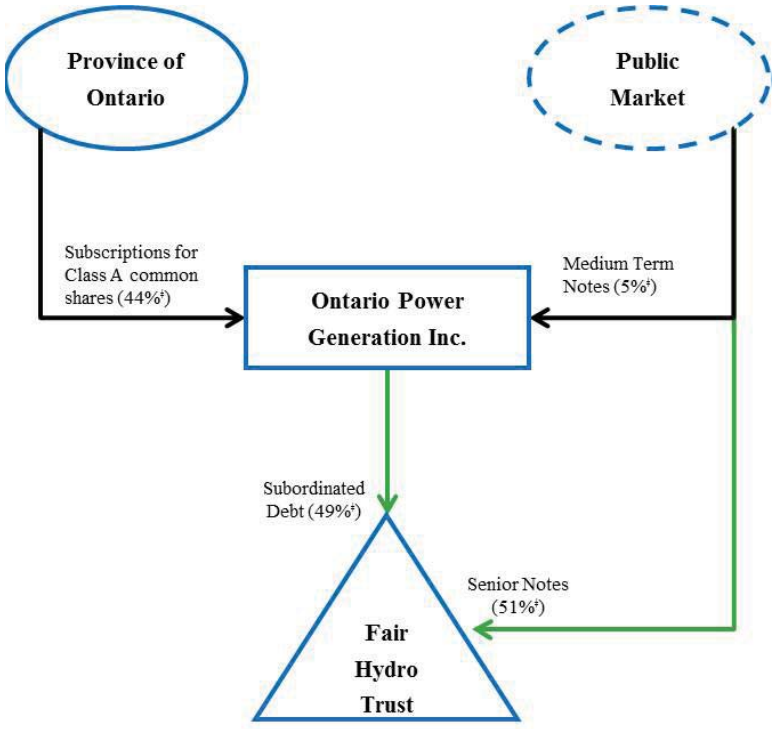
SUBORDINATED DEBT

Concurrent with every issuance of senior debt by the Issuer, including any Offering of Senior Notes, it is expected that OPG will subscribe for subordinated debt and junior subordinated debt of the Issuer in an amount of no more than 49% of all of the Issuer's Funding Obligations, approximately 44% of which is expected to be funded through equity investments in OPG by the Province of Ontario with the remaining ~~approximate~~**approximately** 5% being funded from OPG's available funds, including all or a portion of the proceeds of any offerings by OPG of medium term notes.

Under the Master Trust Indenture, the Issuer will be required at all times to ensure that: (i) the aggregate outstanding principal amount of all subordinated debt and junior subordinated debt be equal to not less than 35% of the aggregate outstanding principal amount of all of the Issuer's Funding Obligations; and (ii) the aggregate outstanding principal amount of all junior subordinated debt be equal to not less than 10% of the aggregate outstanding principal amount of all of the Issuer's Funding Obligations.

The Issuer is structured to be bankruptcy remote from OPG insofar as none of OPG, its subsidiaries or holders of its indebtedness will have any recourse whatsoever against the Issuer or its assets other than OPG's rights and remedies as a holder of subordinated debt of the Issuer in accordance with the provisions of that indebtedness. From an accounting perspective, however, the Issuer will be consolidated with OPG.

The following diagram illustrates the expected structure of OPG's investments in subordinated debt of the Issuer.



ǂ OPG is expected to acquire up to 49% of the Issuer's outstanding debt in the form of subordinated debt. Actual amounts may vary if OPG acquires less than 49% of the Issuer's outstanding debt.

SHORT TERM INDEBTEDNESS

On December 21, 2017, the Issuer entered into the following supplemental indentures under the Master Trust Indenture for the provision of an aggregate of approximately $1.56 billion in short term indebtedness (collectively, the "**Warehouse Facilities**"), of which a total of $1.179 billion is drawn as of the date hereof:

(a) a warehouse senior series 2017-1 supplemental indenture with, among others, Royal Bank of Canada, as administrative agent for certain commercial paper conduit purchasers and financial institutions named therein, for the provision of an aggregate maximum principal amount of $800,000,000 floating rate variable funding Senior Notes, Series 2017-1 ("**Senior Notes, Series 2017-1**"), of which $601,290,000 is drawn;

(b) a warehouse subordinated series 2017-1 supplemental indenture with, among others, OPG for the provision of an aggregate maximum principal amount of $611,764,705.88 floating rate variable funding Subordinated Notes, Series 2017-1 ("**Subordinated Notes, Series 2017-1**"), of which $459,810,000 is drawn; and

(c) a warehouse junior subordinated series 2017-1 supplemental indenture with, among others, OPG for the provision of an aggregate maximum principal amount of $156,862,745.10 floating rate variable funding Junior Subordinated Notes, Series 2017-1 ("**Junior Subordinated Notes, Series 2017-1**"), of which $117,900,000 is drawn.

The issuance of Senior Notes, Series 2017-1, Subordinated Notes, Series 2017-1 and Junior Subordinated Notes, Series 2017-1 under the Warehouse Facilities described above were used to acquire a $1.179 billion Investment Interest on December 21, 2017.

THE TRANSFEROR AND SERVICER

Pursuant to the Master Transfer and Servicing Agreement, the IESO may periodically Transfer specified portions of the Regulatory Asset to the Issuer. Additional information regarding the IESO, including its most recently published financial statements, is available at www.ieso.ca. Such information does not form part of this confidential shelf offering memorandum and neither the Issuer nor the Agents guarantee the accuracy of such information or has independently verified the accuracy or completeness of any such information or to determine if there has been any omission by the IESO to disclose any facts, information or events which may affect the significance or accuracy of any such financial statements or other information.

The following brief summary of certain provisions of the Master Transfer and Servicing Agreement does not purport to be comprehensive or definitive. All references in this confidential shelf offering memorandum to the Master Transfer and Servicing Agreement are qualified in their entirety by reference to the Master Transfer and Servicing Agreement and the detailed provisions thereof. The Master Transfer and Servicing Agreement may be reviewed at the principal office of the Issuer Trustee in Toronto, Ontario during normal business hours while any Senior Notes are outstanding.

Under the Master Transfer and Servicing Agreement, the IESO may offer, no more frequently than monthly, to Transfer to the Issuer a specified portion of the Regulatory Asset. The Issuer has the right, but not the obligation, to accept the IESO's offer. The IESO is responsible for servicing the Issuer's Investment Interest in accordance with the Regulations and the Master Transfer and Servicing Agreement. Its responsibilities including, among others:

(a) establishing a segregated account to be used for the sole purpose of receiving the Clean Energy Adjustment in respect of the Issuer's Investment Interest and making commercially reasonable efforts to cause Electricity Vendors to do the same;

(b) making commercially reasonable efforts to cause each Electricity Vendor to establish procedures for the invoicing of amounts in respect of the Clean Energy Adjustment;

(c) responding to inquiries by Electricity Vendors with respect to the Clean Energy Adjustment and amounts payable in respect thereof;

(d) reviewing reports submitted to the IESO by Electricity Vendors regarding the collection of Clean Energy Adjustment amounts for material manifest discrepancies;

(e) contacting Electricity Vendors on the occurrence of certain events;

(f) holding Clean Energy Adjustment amounts received in respect of the Issuer's Investment Interest in trust for the benefit of the Issuer and remitting such amounts to the Issuer on the 18th business day of each month, subject to daily remittance being required in certain limited circumstances;

(g) together with the Issuer, settling a form of monthly servicer report to be provided to the Issuer; and

(h) providing forecast information to the OEB and the Issuer**, which forecast information will be used by the OEB to forecast electricity consumption of Specified Consumers in respect of the relevant period**.

The IESO must follow standards, policies and procedures in performing its servicing duties that are customary for an electricity market operator and administrator that regularly performs settlement functions. The Master Transfer and Servicing Agreement provides for various limitations on the duties and responsibilities of the IESO including that: (i) the IESO provides no guarantee that collections of the Clean Energy Adjustment from Electricity Vendors will equal amounts invoiced or that Clean Energy Adjustment amounts will be sufficient to

satisfy the Issuer's Funding Obligations, (ii) the IESO is under no responsibility or obligation to the Issuer with respect to the nature or extent of the Investment Interest, the collectability of the Clean Energy Adjustment or that Clean Energy Adjustment amounts received will be sufficient to satisfy the Issuer's Funding Obligations, (iii) the IESO shall have no liability or responsibility to any person in respect of any forecasts or other information provided, provided only that such forecasts or other information has been prepared and provided in good faith and (iv) the IESO is not responsible for, or in respect of, any amounts not collected by Electricity Vendors from Specified Consumers or not remitted by Electricity Vendors to the IESO. **See *"Ontario's Fair Hydro Plan — Clean Energy Adjustment"* and *"Ontario's Fair Hydro Plan — Other Statutory Protections"* with respect to the manner in which the risks associated with incorrect forecasts by the IESO, and shortfalls in Clean Energy Adjustments as a result of amounts not being collected by Electricity Vendors or remitted by Electricity Vendors, are mitigated.**

The IESO is required to work with the Manager to develop, on or before January 31, 2020, a written implementation plan identifying the actions to be taken by the IESO and the Issuer to facilitate the OEB, the Issuer, the IESO and Electricity Vendors being prepared to perform their obligations under the FHPA when setting, invoicing and collecting Clean Energy Adjustment amounts. The IESO and the Manager will deliver to the Issuer written progress reports on the status of the implementation plan on or before June 30, 2020, October 31, 2020 and January 31, 2021. The IESO is also required to work with the Issuer to settle a form of monthly servicer report, which will be provided to the Manager on or before the 20th business day after the end of each month in which Clean Energy Adjustment amounts are collected by Electricity Vendors from Specified Consumers, and which report is expected to contain available information regarding the Clean Energy Adjustment amounts billed, collected and remitted by Electricity Vendors, actual electricity consumption compared to forecast electricity consumption and such other information as may be agreed to by the IESO.

Generally, all servicing duties provided by the IESO to the Issuer are provided at no cost to the Issuer. However, the Issuer will reimburse the IESO for its direct costs relating to the performance by the IESO of its duties and obligations under the Master Transfer and Servicing Agreement that are not otherwise recovered by the IESO under the *Electricity Act, 1998* (Ontario), excluding any costs relating to the performance of the IESO's duties and obligations under the FHPA, including its obligation to pay the ~~Issuer's~~ Carrying Costs **to the Issuer**.

During the Moratorium Period and extending to July 31, 2021, the IESO, which is rated A(high) by DBRS and Aa2 by Moody's is required under the Regulations to pay and remit to the Issuer amounts charged to the IESO by the Issuer in respect of its Carrying Costs. Under the Regulations, Carrying Costs include all funding costs, such as interest on the Senior Notes, and other expenses of the Issuer, other than repayment of principal on any debt obligations of the Issuer, including repayment of principal on the Senior Notes. Pursuant to the Master Transfer and Servicing Agreement, on or before the fourth business day of each calendar month, the Issuer will submit a carrying costs statement to the IESO certifying the amount of Carrying Costs estimated to be incurred by the Issuer in the following month. On or before the 14th business day following receipt of the Issuer's carry costs statement, the IESO is required to deliver the amount specified therein to the Issuer. The IESO has a $2 billion unsecured credit facility provided by the Ontario Financing Authority, expiring September 30, 2022, which is permitted to be used **by the IESO** to pay the ~~Issuer's~~ Carrying Costs **to the Issuer**.

As security for the performance of its obligation to pay the ~~Issuer's~~ Carrying Costs **to the Issuer**, the IESO has granted the Issuer a first-priority security interest in all accounts receivable owing to the IESO from Electricity Vendors, including amounts owing with respect to the global adjustment charge. The amounts paid by the IESO to fund these Carrying Costs will be recorded by the IESO in the variance account and form part of the Regulatory Asset which is expected to be offered by the IESO for Transfer to the Issuer in a subsequent period. Upon completion of such Transfer, the Issuer will acquire an Investment Interest pursuant to the FHPA.

As security for any failure of Non-Investment Grade Rated Electricity Vendors to remit Clean Energy Adjustment amounts collected under the FHPA, the IESO is required, pursuant to the Master Transfer and Servicing Agreement, to provide to the Issuer on or prior to the first day of the first billing period when the Clean Energy Adjustment is being invoiced to Specified Consumers, a letter of credit from a provider that satisfies the Rating Agency Condition or a performance guarantee or such other form of security that is acceptable to the Issuer and that satisfies the Rating Agency Condition. A "**Non-Investment Grade Rated Electricity Vendor**" means any

Electricity Vendor that does not have a rating of: (i) "Baa3" or higher by Moody's, unless otherwise agreed to by Moody's; and (ii) "BBB(low)" or higher by DBRS, unless otherwise agreed to by DBRS.

The amount of security required from the IESO will be calculated on an annual basis and will be equal to the amount determined by the following formula:

((A / B) x C x D / 365 x E)

where A, B, C, D and E are as follows:

A = for the most recently completed twelve-month period, the aggregate amount of energy consumed by Specified Consumers of all Non-Investment Grade Rated Electricity Vendors.

B = for the same twelve-month period used for A, the aggregate amount of energy consumed by all Specified Consumers.

C = for the most current twelve-month forecast period available, the Clean Energy Adjustment amounts estimated to be payable by all Specified Consumers.

D = 45, representing the estimated number of days that total Clean Energy Adjustment amounts are expected to be held by Electricity Vendors or such other number as mutually agreed to in writing by the Issuer and the IESO and that satisfies the Rating Agency Condition.

E = 0.50 or another value as mutually agreed to in writing by the Issuer and the IESO and that satisfies the Rating Agency Condition.

The Master Transfer and Servicing Agreement sets out specific servicer defaults. Upon the occurrence of a servicer default, the Issuer will be entitled to appoint a replacement servicer that will perform the IESO's duties as servicer under the Master Transfer and Servicing Agreement. Any replacement servicer must be permitted under the FHPA to perform the duties of servicer, the Rating Agency Condition must be satisfied and the replacement servicer must enter into a master transfer and servicing agreement with the Issuer having substantially the same terms as the Master Transfer and Servicing Agreement.

The IESO has agreed to indemnify the Issuer for any losses incurred by the Issuer as a result of the failure of the IESO to perform its obligations under the Master Transfer and Servicing Agreement or any other Program Agreement to which it is a party or the breach by the IESO of any of its representations or warranties under the Master Transfer and Servicing Agreement or any other Program Agreement to which the IESO is a party, except to the extent such losses result from the willful misconduct, bad faith or gross negligence of the Issuer. Notwithstanding the foregoing, the IESO is not obligated to indemnify the Issuer under the Master Transfer and Servicing Agreement for any losses resulting from: (i) a breach or failure to perform by a third party under any Program Agreement~~,~~ **or** the FHPA (excluding any delegation by the IESO under the Master Transfer and Servicing Agreement to a third party); (ii) changes in law, (iii) the collectability or sufficiency of the Clean Energy Adjustment to satisfy the Issuer's Funding Obligations, including the Senior Notes; or (iv) any liability of the Issuer incurred after termination of the Master Transfer and Servicing Agreement unless attributable to the actions or omissions of the IESO prior to such termination or in respect of a representation, warranty or covenant that survives such termination.

CREDIT RATINGS

Credit ratings are intended to provide investors with an independent measure of the credit quality of securities and are indicators of the likelihood of the payment capacity and willingness of an issuer to meet its financial commitment on an obligation in accordance with the terms of such obligation. The credit ratings accorded to the Senior Notes are not recommendations to purchase, hold or sell such securities inasmuch as such ratings are not a comment upon the market price of the securities or their suitability for a particular investor. There is no assurance that any rating will remain in effect for any given period of time or that any rating will not be revised or withdrawn entirely by a rating agency in the future if, in its judgment, circumstances so warrant.

The Term Sheet for each Offering will identify the rating of the applicable Senior Notes at the time of such Offering.

RATING AGENCY CONDITION

The Program Agreements provide that certain actions are subject to the "**Rating Agency Condition**". In each such case, satisfaction of the Rating Agency Condition requires: (a) that the Issuer has delivered written notice of the proposed action to the Rating Agencies at least ten business days prior to the effective date of such action; and (b) that the Rating Agencies shall have informed the Issuer prior to the effective date of such action that such action will not result in the reduction or withdrawal of the rating in effect with respect to the Notes immediately before the taking of such action. If the Rating Agency Condition is to be satisfied without specifying one or more specific Series or Tranches of Notes, the Rating Agency Condition must be satisfied with respect to all outstanding Series or Tranches of Notes.

CAPITAL MARKETS PLATFORM

The Financial Services Manager has developed a Financing Plan for the Issuer which encompasses an ongoing program which allows for the issuance of a variety of short and long term debt, as well as interest rate and currency swaps and other hedging instruments.

The Master Trust Indenture establishes common security and a set of common covenants given by the Issuer for the benefit of all of its creditors. Notes are issued under Supplemental Indentures and in certain cases, Terms Documents. Borrowings are incurred pursuant to liquidity agreements or loan agreements. Notes and Borrowings incurred by the Issuer are Issuer Funding Obligations. Each Issuer Funding Obligation will be part of a Class and Series of Issuer Funding Obligations, and may include one or more Tranches. A Class designation determines the relative seniority for receipt of cash flows. See *"— Subordination Provisions"*, "*— Payment Waterfalls Prior to Acceleration*" and "*— Acceleration and Remedies — Payment Waterfall Upon Acceleration*". Tranches of Issuer Funding Obligations may differ from each other as to the interest rate, maturity and the timing, sequential order and amount of payments of principal or interest, or both.

The following summary of the principal provisions contained in the Master Trust Indenture does not purport to be comprehensive or definitive. This overview summarizes certain provisions of the Master Trust Indenture and omits descriptions of many provisions which may be considered to be of a customary nature. All references in this confidential shelf offering memorandum to the Master Trust Indenture are qualified in their entirety by reference to the Master Trust Indenture and the detailed provisions thereof. The Master Trust Indenture may be reviewed at the principal office of the Issuer Trustee in Toronto, Ontario during normal business hours while any Notes are outstanding.

Indenture Trustee

BNY Trust Company of Canada, a trust company governed by the laws of Canada, is the Indenture Trustee under the Master Trust Indenture.

Under the terms of the Master Trust Indenture, the Issuer has agreed to pay the Indenture Trustee reasonable compensation for the performance of its duties under the Master Trust Indenture. The Indenture Trustee has agreed to perform only those duties expressly set forth in the Master Trust Indenture. Many of the duties of the Indenture Trustee are described throughout this confidential shelf offering memorandum. Under the terms of the Master Trust Indenture, the Indenture Trustee's limited responsibilities include the following:

- to authenticate, deliver, cancel and otherwise administer the Notes;
- to serve as the registrar in respect of the Notes;
- to establish and maintain all Issuer Accounts and to maintain accurate records of activity in those accounts;

- to serve as the Paying Agent and distribute and transfer funds at the direction of the Manager in accordance with the terms of the Master Trust Indenture;

- to invest funds in the Issuer Accounts at the direction of the Manager (or its agent);

- to deliver to Specified Creditors notice of any Default, Event of Default, Acceleration Event, Protection Event or Servicer Default of which it has received notice, as required under the Master Trust Indenture; and

- to perform certain other administrative functions identified in the Master Trust Indenture.

In the exercise of its duties, the Indenture Trustee will use the same degree of care and skill as a reasonably prudent person would use in comparable circumstances. When all Issuer Funding Obligations have been satisfied and discharged (see "— *Satisfaction and Discharge*"), the Indenture Trustee will no longer act as Indenture Trustee and will have no fiduciary responsibilities to any remaining Specified Creditors and will act only as security agent for those remaining Specified Creditors. The Indenture Trustee is not liable for any errors of judgment as long as the errors are made in good faith and the Indenture Trustee was not negligent. Furthermore, the Indenture Trustee will not be liable for any action taken or not taken by it in good faith if directed to do so by Extraordinary Resolution. The Indenture Trustee is not required to expend or risk its own funds, or incur any financial liability in the exercise of its duties under the Master Trust Indenture and it will not be obliged to exercise any of its rights under the Master Trust Indenture at the request of any Controlling Class Creditor unless such Controlling Class Creditor has provided it with security or an indemnity reasonably satisfactory to it.

In addition to the Indenture Trustee's compensation and the reimbursement of the Indenture Trustee's expenses in connection with the Master Trust Indenture, the Issuer will indemnify the Indenture Trustee for any loss, liability or expense incurred without negligence or bad faith on its part, arising out of or in connection with the administration of the trusts under the Master Trust Indenture. The payment of all such amounts will be subject to the payment waterfalls set out in the Master Trust Indenture and in certain instances, such amounts will be higher in priority than payments to Noteholders. See "— *Payment Waterfalls Prior to Acceleration — Collection Account*", "— *Payment Waterfalls Prior to Acceleration — Protection Account*" and "— *Acceleration and Remedies — Payment Waterfall Upon Acceleration*".

The Indenture Trustee may resign at any time by giving written notice to the Issuer and it may be removed for any reason by Ordinary Resolution of Controlling Class Creditors. The Indenture Trustee must resign if a material conflict of interest arises in its role as an Indenture Trustee under the Master Trust Indenture and such conflict of interest is not eliminated within 90 days after the Indenture Trustee becomes aware of such material conflict of interest. The Issuer may remove, or any Controlling Class Creditor who has been a *bona fide* Controlling Class Creditor for at least six months may, on behalf of itself and all other Debtholders, petition any court of competent jurisdiction for the removal of the Indenture Trustee if (i) the Indenture Trustee is no longer eligible to act as trustee under the Master Trust Indenture (and any Supplemental Indenture) and fails to resign after it has received a written request to do so by the Issuer or by any Controlling Class Creditor, (ii) the Indenture Trustee becomes incapable of acting, or (iii) the Indenture Trustee becomes subject to any bankruptcy or insolvency related events. In all such circumstances, the Issuer must appoint a successor Indenture Trustee. Any resignation or removal of the Indenture Trustee and appointment of a successor Indenture Trustee will not become effective until the successor Indenture Trustee accepts the appointment. If an instrument of acceptance by a successor Indenture Trustee has not been delivered to the Indenture Trustee within 30 days of giving notice of resignation or removal, the Indenture Trustee may petition a court of competent jurisdiction to appoint a successor Indenture Trustee.

Any successor Indenture Trustee will execute and deliver to the Issuer and its predecessor Indenture Trustee an instrument accepting such appointment. The successor Indenture Trustee must be a bank, a trust company or a corporation organized and doing business under the laws of Canada or of any province or territory thereof, authorized under such laws to carry on a trust business in each of the provinces and territories of Canada. The Issuer may not, nor may any person directly or indirectly controlling, controlled by, or under common control with the Issuer, serve as Indenture Trustee.

The Indenture Trustee may become the owner or pledgee of Notes and may otherwise deal with the Issuer with the same rights it would have if it were not the Indenture Trustee (subject to its obligation to resign if there is a material conflict).

Conditions Precedent to Incurrence of Obligations Secured

There is no limit on the aggregate amount of indebtedness or other obligations which may be secured under the Master Trust Indenture. However, the Issuer will not be permitted to incur any Issuer Funding Obligations or other obligations unless the Issuer meets the conditions described below under *"— Issuer Funding Obligations"* and *"— Other Obligations Secured"*.

Issuer Funding Obligations

The Issuer may not incur any new Issuer Funding Obligations, or renew or extend any existing Issuer Funding Obligations (in each case, other than Derivative Funding Obligations), unless the conditions described below are met on or prior to the date that the Issuer enters into a definitive agreement in respect of such Issuer Funding Obligations:

(a) the Issuer delivers to the Indenture Trustee and each Rating Agency notice of such incurrence;

(b) the Issuer delivers to the Indenture Trustee and each Rating Agency a certificate to the effect that:

(i) the Issuer reasonably believes that such incurrence will not cause an Adverse Effect; an "**Adverse Effect**" means that such action will at the time of its occurrence (a) result in the occurrence of an Event of Default or any event which with the giving of notice or passage of time, or both, would become an Event of Default, (b) adversely affect the amount or timing of any payment to be made to any Debtholder or Derivative Counterparty pursuant to the Master Trust Indenture or any Program Agreement, (c) materially adversely affect the amount or timing of payments to be made to the Specified Creditors (other than Debtholders and Derivative Counterparties) pursuant to this Indenture or any Program Agreement, or (d) adversely affect the security interest and the rights and remedies of the Indenture Trustee in respect thereof;

(ii) all instruments furnished to the Indenture Trustee conform to the requirements of the Master Trust Indenture and constitute sufficient authority under the Master Trust Indenture for the Indenture Trustee to (A) in the case of an issuance of Notes only, authenticate and deliver such Notes, and (B) in the case of all other Issuer Funding Obligations, execute and deliver the applicable Funding Obligation Agreement;

(iii) in the case of an issuance of Notes only, the form and terms of the Notes have been established in conformity with the provisions of the Master Trust Indenture;

(iv) the incurrence of such Issuer Funding Obligation is consistent in all material respects with the Financing Plan; see *"Ontario Fair Hydro Plan — Fair Allocation Amount and Financing Plan"*;

(v) the conditions set out in clauses (c), (d), (g) and (k) below are met; and

(vi) such other matters as the Indenture Trustee may reasonably request;

(c) the representations and warranties of the Issuer in the Master Trust Indenture are true and correct in all material respects;

(d) the Rating Agency Condition is satisfied with respect to all outstanding Series or Tranches of Issuer Funding Obligations;

(e) the Indenture Trustee receives either:

(i) a certified copy of the instrument whereby the Province of Ontario designated in writing that such Issuer Funding Obligation is an Approved Obligation as contemplated by the Change of Law Protection Agreement; or

(ii) both (A) an Adherence Compliance Certificate addressed to the Indenture Trustee with respect to such Issuer Funding Obligation delivered in accordance with the Change of Law Protection Agreement; and (B) a certificate signed by the Manager certifying that the Province of Ontario has not provided a Suspension Notice;

(f) the Issuer delivers to the Indenture Trustee copies of the applicable Funding Obligation Agreement, including in the case of Notes, a Supplemental Indenture relating to the applicable Series or Tranche of Notes and, if applicable, a Terms Document relating to the applicable Tranche of Notes;

(g) in the case of Senior Funding Obligations only, the Issuer has Subordinated Funding Obligations and Junior Subordinated Funding Obligations in an aggregate outstanding principal amount equal to not less than 35% of the aggregate outstanding principal amount of the aggregate Senior Funding Obligations, Subordinated Funding Obligations and Junior Subordinated Funding Obligations (after giving effect to such incurrence) and in the case of Subordinated Funding Obligations only, the Issuer has Junior Subordinated Funding Obligations in an aggregate outstanding principal amount equal to not less than 10% of the aggregate outstanding principal amount of the aggregate Senior Funding Obligations, Subordinated Funding Obligations and Junior Subordinated Funding Obligations (after giving effect to such incurrence);

(h) except in the case of Notes, the Issuer delivers to the Indenture Trustee an updated list of the Specified Creditors;

(i) each Debtholder in respect of such Issuer Funding Obligation (or an authorized agent on their behalf) has made the acknowledgements and agreements described below under "— *Acknowledgements of Specified Creditors*";

(j) the Change of Law Protection Agreement is in full force and effect against the Province of Ontario or has been replaced with a new agreement that is in form and substance satisfactory to Controlling Class Creditors pursuant to an Ordinary Resolution;

(k) the conditions precedent, if any, specified in the applicable Funding Obligation Agreement are satisfied; and

(l) in the case of an issuance of Notes only:

(i) the Indenture Trustee receives a certificate for the certification and delivery of the Notes and specifying the particulars relating to such Notes;

(ii) in the case of Notes described in section 163(f)(2)(A) of the Internal Revenue Code, if such Notes are not in registered form (including by reason of a book entry system described in section 163(f) of the United States Internal Revenue Code of 1986), then such Notes are described in section 4701(b)(1)(B) of the United States Internal Revenue Code of 1986 and such section will apply to such Notes; and

(iii) in the case of foreign currency Notes, the Issuer appoints one or more Paying Agents in the appropriate countries, if requested by the Indenture Trustee.

Periodic drawdowns under existing Funding Obligation Agreements will not constitute a new incurrence of Issuer Funding Obligations. However, an increase in the aggregate commitment under an existing Funding

Obligation Agreement or the issuance of additional Notes of an outstanding Series or Tranche of Notes will constitute a new incurrence of Issuer Funding Obligations.

The Indenture Trustee is not required to and, except as otherwise provided in a Funding Obligation Agreement, the Issuer is not required to, provide prior notice to or obtain the consent of any Debtholder or any other Specified Creditor to issue any Issuer Funding Obligations.

Other Obligations Secured

The Issuer may incur other obligations (including Derivative Funding Obligations) so long as:

(a) the Issuer delivers to the Indenture Trustee a copy of the agreement giving rise to such obligations;

(b) the Issuer delivers to the Indenture Trustee an updated list of the Specified Creditors;

(c) the counterparty to the agreement giving rise to such obligations makes the acknowledgements and agreements described below under "*— Acknowledgements of Specified Creditors*";

(d) if the obligations are Certified Primary Obligations, the Indenture Trustee receives either:

(i) a certified copy of the instrument whereby the Province of Ontario designated in writing that such obligation is an Approved Obligation as contemplated by the Change of Law Protection Agreement; or

(ii) both (A) an Adherence Compliance Certificate addressed to the Indenture Trustee with respect to such obligation delivered in accordance with the Change of Law Protection Agreement; and (B) a certificate signed by the Manager certifying that the Province of Ontario has not provided a Suspension Notice;

provided that, in respect of derivative agreements, the Issuer will provide notice to each Rating Agency of the identity of the Derivative Counterparty and the terms of any applicable master agreement and schedule.

Derivative Agreements

The Issuer may, from time to time, enter into one or more derivative agreements, which would consist of a currency swap or interest rate swap, a cap (obligating a Derivative Counterparty to make payments if a reference rate is greater than a specified rate), a floor (obligating a Derivative Counterparty to make payments if a reference rate is less than a specified rate), or a collar (obligating a Derivative Counterparty to make payments if a reference rate is greater than a specified rate and entitling the Derivative Counterparty to receive payments if the same reference rate is less than a lower specified rate), with various counterparties. In general, the Issuer will receive payments from the Derivative Counterparty in exchange for the Issuer's payments to them, to the extent required under the derivative agreements. Payments received by the Issuer will constitute Available Collections.

Acknowledgements of Specified Creditors

Each Specified Creditor must acknowledge and agree in favour of the Indenture Trustee that it is a Specified Creditor under the Master Trust Indenture and that its entitlements as a Specified Creditor are subject to the provisions applicable to Specified Creditors under the Master Trust Indenture including, without limitation, those described under "*— Indenture Trustee*", "*— Payment Waterfalls Prior to Acceleration*", "*— Debtholder Approvals and Meetings — Access to Debtholder Lists*", "*— Acceleration and Remedies — Payment Waterfall Upon Acceleration*", "*— Acceleration and Remedies — Rights of Specified Creditors*", "*— Acceleration and Remedies — Limited Recourse*" and "*— Acceleration and Remedies — No Petition*".

Subordination Provisions

Under the Master Trust Indenture, the Issuer can issue the following classes of Issuer Funding Obligations: "Senior Funding Obligations", "Subordinated Funding Obligations" or "Junior Subordinated Funding Obligations" (each, a "**Class**"). Interest Accumulation Account

On each Interest Payment Date, the Paying Agent will distribute all amounts on deposit in the Interest Accumulation Account in the following order of priority (*pro rata* in proportion to the claims represented by each paragraph below except as otherwise noted):

(a) first, to pay all interest that is due and payable on Senior Funding Obligations on such Interest Payment Date;

(c) third, to pay all interest that is due and payable on Junior Subordinated Funding Obligations on such Interest Payment Date, so long as after making this payment, the amount remaining in the Interest Accumulation Account at least equals the amount of accrued and unpaid interest on Senior Funding Obligations and Subordinated Funding Obligations as of such Interest Payment Date.

Any amounts remaining after the applications referred to above: (i) to be held in the Interest Accumulation Account for distribution in the above order of priority on the next Interest Payment Date; or (ii) after all Issuer Funding Obligations have been paid in full, to be transferred to the Collection Account.

Principal Accumulation Account

On each Interest Payment Date (after making the applications provided for in the waterfall under "—*Interest Accumulation Account*"), if any interest that is due and payable on Senior Funding Obligations, Subordinated Funding Obligations or Junior Subordinated Funding Obligations has not been paid, an amount equal to such deficiency will be withdrawn from the Principal Accumulation Account and applied to the payment of interest due and payable on such Interest Payment Date, provided that if the amount to be applied pursuant to this paragraph is insufficient to pay all such interest, the application of such amounts will be made first to Senior Funding Obligations, then to Subordinated Funding Obligations, and finally to Junior Subordinated Funding Obligations, in each case, on a *pro rata* basis.

Any amounts remaining after the applications referred to above: (i) to be held in the Principal Accumulation Account for distribution in the above order of priority on the next Interest Payment Date or Principal Payment Date; or (ii) after all Issuer Funding Obligations have been paid in full, to be transferred to the Collection Account.

On each Payment Date, if the amounts available for distribution from the Collection Account and from the preceding sentence are insufficient to pay or transfer items (a) through (e) of the Collection Account Waterfall, an amount equal to such deficiency will be withdrawn from the IESO Cash Reserve Account and applied to the making of such payments or transfers in the order provided for in the Collection Account Waterfall. Amounts in the IESO Cash Reserve Account are not available to pay principal on the Senior Notes. Once all funds in the IESO Cash Reserve Account have been paid out, the IESO Cash Reserve Account will be closed.

Program Cash Reserve Account

If, on any Payment Date, the amount on deposit in the Interest Accumulation Account is less than the sum of the Interest Accrual Amount (Senior), the Interest Accrual Amount (Subordinated) and the Interest Accrual Amount (Junior Subordinated), an amount equal to such deficiency will be withdrawn from the Program Cash Reserve Account and deposited in the Interest Accumulation Account.

After all Issuer Funding Obligations have been paid in full, any amounts remaining in the Refinancing Account will be transferred to the Collection Account.

In addition to the covenants contained in any Supplemental Indenture or any other Funding Obligation Agreement and the other covenants described in this section, the Issuer agrees that:

The Master Trust Indenture or any Supplemental Indenture may also be amended by the Issuer and the Indenture Trustee without the consent of any Specified Creditor (but with prior notice to each Rating Agency and the Province of Ontario) in the following circumstances, provided that the Issuer delivers to the Indenture Trustee an officer's certificate to the effect that (i) the Issuer reasonably believes that such amendment will not and is not reasonably expected to have an Adverse Effect, and (ii) such amendment is required to comply with law, or to conform or be consistent with the statements contained in this confidential shelf offering memorandum:

- to facilitate compliance with changes in laws or regulations applicable to the Issuer or the transactions governed by the Program Agreements; or

- to cause the provisions of the Master Trust Indenture to conform to or be consistent with or in furtherance of the statements made in this confidential shelf offering memorandum with respect to the Master Trust Indenture or any Supplemental Indenture.

Additionally, the Master Trust Indenture or any Supplemental Indenture may also be amended by the Issuer and the Indenture Trustee without the consent of any Specified Creditor (but with prior notice to each Rating Agency and the Province of Ontario) in the following circumstances, provided that (i) the Issuer delivers to the Indenture Trustee an officer's certificate to the effect that the Issuer reasonably believes that such amendment will not and is not reasonably expected to have an Adverse Effect and (ii) the Rating Agency Condition is satisfied with respect to such amendment:

The Indenture Trustee may, but is not obligated to, enter into any amendment which adversely affects its rights, duties, benefits, protections, privileges or immunities under the Master Trust Indenture (or any Supplemental Indenture).

Amendments Requiring Consent of Debtholders

The Issuer and the Indenture Trustee may amend, supplement or otherwise modify and amend the Master Trust Indenture or any Supplemental Indenture for reasons other than those stated in the prior section ("*— Amendments not Requiring Consent of Specified Creditors*"), with prior notice to each Rating Agency and the Province of Ontario, the consent of Debtholders of each Class, Series or Tranche of Issuer Funding Obligations affected by that amendment, supplement or other modification by Ordinary Resolution, and satisfaction of the Rating Agency Condition. However, if the amendment, supplement or other modification would result in any of the following events occurring, it may be made only with the consent of each Debtholder of Issuer Funding Obligations affected thereby and satisfaction of the Rating Agency Condition:

- a change in an Interest Payment Date, Principal Payment Date or Principal Payment Default Date for any Issuer Funding Obligation;

- a modification of any of the provisions governing the amendment of the Master Trust Indenture or any Supplemental Indenture, or waivers of past defaults, except to increase any percentage of Debtholders required to consent to any such amendment or waiver, or to provide that certain other provisions of the Master Trust Indenture cannot be modified or waived without the consent of each Debtholder affected by such modification;

- a change in the city or political subdivision so designated with respect to any Class, Series or Tranche of Notes where any principal of, or interest on, any Note is payable; or

- a change in the method of computing the amount of principal of, or interest on, any Note on any date.

Debtholder Approvals and Meetings

Access to Debtholder Lists

The Indenture Trustee will preserve the names and addresses of all Specified Creditors received by it in its capacity as Note registrar and those which it has received from the Issuer in accordance with the Master Trust Indenture. Three or more Debtholders of any Series or Tranche, each of whom has owned an Issuer Funding Obligation of such Series or Tranche for at least six months, may, by application to the Indenture Trustee in the prescribed form, obtain access to the current list of Debtholders held by the Indenture Trustee for purposes of communicating with other Debtholders concerning their rights under the Master Trust Indenture (or any Supplemental Indenture) or under the applicable Program Agreement.

Debtholder Meetings

The Master Trust Indenture sets out the mechanics for meetings of Debtholders. The Master Trust Indenture provides for meetings of Debtholders of any Class, Series or Tranche of Issuer Funding Obligations, of all Issuer Funding Obligations, of Controlling Class Obligations of a Series or of all Controlling Class Obligations (each of such groups of Debtholders being a "**Debtholder Group**"). The Indenture Trustee will call a meeting of a Debtholder Group upon request of the Issuer or Debtholders of at least 25% in aggregate outstanding principal amount of the applicable Issuer Funding Obligations. If the Indenture Trustee fails to convene, or cause to be convened, such a meeting after 30 days, the Issuer or those Debtholders may convene the meeting. The Indenture Trustee may call a meeting of a Debtholder Group at any time for any purpose. The quorum for any meeting is one or more persons holding (personally or as proxies) not less than 25% of the outstanding principal amount of the Issuer Funding Obligations of the Debtholder Group entitled to vote at such meeting. Each Debtholder who is present, whether in person or by proxy, will have one vote for every $1,000 of outstanding principal amount of applicable Issuer Funding Obligations of which he or she shall be the holder.

Every question submitted to a meeting, except those matters requiring an Extraordinary Resolution, shall be decided by a majority of the votes (an "**Ordinary Resolution**"). Any matter requiring an Extraordinary Resolution shall be decided by the affirmative vote of Controlling Class Creditors holding not less than 66⅔% of the outstanding principal amount of all Controlling Class Obligations (an "**Extraordinary Resolution**"). Such matters include:

- after the security has become enforceable, authorizing the Indenture Trustee to accept, in satisfaction or partial satisfaction, all or any part of the Collateral;

- after the security has become enforceable, sanctioning the selling of the Collateral or any part thereof or interest therein;

- after the security has become enforceable, authorizing the Indenture Trustee or any other person to bid or tender at any sale of the Collateral or any part thereof and take such actions in connection with such sale as it determines to be in the best interests of all Controlling Class Creditors;

- consenting to any compromise or arrangement by the Issuer with any creditor, creditors or class or classes of creditors or with the holders of any securities of the Issuer whose claims are payable from the Collateral;

- restraining any Debtholder from taking or instituting any suit, action or proceeding for the purpose of realizing on the Collateral or for the execution of any trust or power hereunder or for the appointment of a liquidator, receiver or trustee in bankruptcy or to have the Issuer liquidated or for any other remedy hereunder and to direct such Debtholder to waive any Event of Default on which any suit or proceeding is founded;

- requiring the Indenture Trustee (subject to receipt by the Indenture Trustee of reasonable funding and indemnity) to exercise or refrain from exercising any other powers conferred upon it by the Master Trust Indenture of general application to all Classes of Issuer Funding Obligations, including the exercise of any rights of the Issuer under any of the Program Agreements upon the occurrence and during the continuance of an Event of Default, or cancel any declaration of acceleration made pursuant to the Master Trust Indenture upon such terms and/or conditions as may be decided;

- authorizing the Indenture Trustee, for and on behalf of all Debtholders, to file and prove a claim or debt against the Issuer or its property for an amount equivalent to the aggregate amount which may be payable in respect of all Issuer Funding Obligations, to value the Collateral, and to vote such claim or debt at meetings of creditors and generally act for and on behalf of all Debtholders in such proceedings as such Extraordinary Resolution may provide; and

- appointing a committee to exercise, on behalf of all Controlling Class Creditors, any powers of such Controlling Class Creditors as are exercisable by Extraordinary Resolution or other resolution (as specified in the Extraordinary Resolution appointing such committee).

Any resolution or instrument signed by the requisite number of Debtholders or Controlling Class Creditors, as applicable, shall have the same force and effect as a resolution duly passed at a meeting of such Debtholders or Controlling Class Creditors.

Any action or vote taken at a meeting (including by way of written instrument) of Debtholders of a Debtholder Group duly held in accordance with the Master Trust Indenture will be binding on all Debtholders of that Debtholder Group. An Extraordinary Resolution shall bind all Debtholders and all other Specified Creditors.

In determining whether Noteholders of the requisite principal amount have taken any action under the Master Trust Indenture, (i) Senior Notes owned by the Issuer, the Manager or any affiliate of either of them, and (ii) any Class of Notes (or portion thereof) in which the Province of Ontario has an interest will, in each case, be disregarded and deemed not to be outstanding at any time that a Specified Creditor other than the Province of Ontario has an interest in such Class of Notes. In determining whether the Indenture Trustee will be protected in relying upon any such action, only Senior Notes (or, in the case of the Province of Ontario, any Notes) which a responsible officer of the Indenture Trustee knows to be owned by the Issuer, OPG or any affiliate of either of them, or with respect to which the Province of Ontario has an interest pursuant to the Change of Law Protection Agreement, will be so disregarded.

Whenever an action may be taken by Debtholders of a specified percentage of outstanding principal amount of Issuer Funding Obligations and at such time there are outstanding Issuer Funding Obligations of any relevant Series denominated in a foreign currency, then the principal amount of the Issuer Funding Obligations of such Series which will be deemed to be outstanding for purposes of taking such action will be the amount of Canadian dollars which could be obtained for such principal amount at the market exchange rate on the applicable date.

Events of Default

General

Each of the following events is an "**Event of Default**":

(a) the Issuer's failure, for a period of 5 days, to pay interest on any Controlling Class Obligations when such interest becomes due and payable;

(b) the Issuer's failure to pay the principal of any Controlling Class Obligations at the Principal Payment Default Date;

(c) any representation or warranty in the Master Trust Indenture proves to be incorrect in any material respect when made and if capable of remedy, such incorrect representation or warranty is not remedied for a period of 60 days after the Indenture Trustee or Controlling Class Creditors holding at least 25% of the outstanding principal amount of all Controlling Class Obligations have provided written notice to the Issuer requesting remedy of that default and stating that as a result of such default, the interests of such Controlling Class Creditors are materially and adversely affected and continue to be materially and adversely affected during the 60-day period;

(d) the Issuer's default in the performance, or breach, of any other of its covenants or warranties in the Master Trust Indenture, for a period of 60 days after the Indenture Trustee or Controlling Class Creditors holding at least 25% of the outstanding principal amount of all Controlling Class Obligations have provided written notice to the Issuer requesting remedy of that default and stating that as a result of such default, the interests of such Controlling Class Creditors are materially and adversely affected and continue to be materially and adversely affected during the 60-day period;

(e) certain events of bankruptcy or insolvency of the Issuer, or the Issuer fails to maintain its existence or status as a Financing Entity;

(f) the Change of Law Protection Agreement ceases to be in full force and effect against the Province of Ontario, or the validity thereof, or the applicability thereof to the Province of Ontario or any Controlling Class Obligations is disaffirmed by the Province of Ontario;

(g) an Acceleration Event has occurred and Controlling Class Creditors holding at least 25% of the outstanding principal amount of all Controlling Class Obligations have provided written notice to the Issuer and the Indenture Trustee specifying the default;

(h) the Issuer's default in the performance of its covenant to deliver payment instructions for a period of three days after the Indenture Trustee has provided written notice thereof;

(i) at any time, the amounts withdrawn from the Program Cash Reserve Account prior to such time exceed the aggregate of (x) 0.50% of the largest outstanding principal amount of all Senior Funding Obligations, Subordinated Funding Obligations and Junior Subordinated Funding Obligations on or prior to such time, (y) the sum of all amounts deposited to the Program Cash Reserve Account, and (z) all interest and earnings (net of losses and investment expenses), if any, on funds credited to the Program Cash Reserve Account; or

(j) a Servicer Default occurs.

If Controlling Class Obligations constituting 25% or more of the outstanding principal amount of all Controlling Class Obligations have been accelerated in accordance with their Funding Obligation Agreements, the thresholds required in clauses (c), (d) or (g) will be deemed to have been met.

Waiver of Default

Subject to the summary provided for below under "*— Acceleration and Remedies — General*", Controlling Class Creditors may, by Ordinary Resolution, waive any past Default under the Master Trust Indenture so long as the Rating Agency Condition in respect of each Series or Tranche of Controlling Class Obligations has been satisfied.

Acceleration and Remedies

General

If an Event of Default (other than an Event of Default described in paragraph (e) or (f)) occurs and is continuing, either the Indenture Trustee or Controlling Class Creditors holding not less than 50% of the outstanding principal amount of all Controlling Class Obligations (treated as one class) may declare the outstanding principal amount of all Issuer Funding Obligations (other than Derivative Funding Obligations) to be immediately due and payable. If Controlling Class Obligations constituting 50% or more of the outstanding principal amount of all Controlling Class Obligations have been accelerated in accordance with their Funding Obligation Agreements, the 50% threshold required will be deemed to have been met. The occurrence of an Event of Default described in paragraph (e) or (f) results in an automatic acceleration of all Issuer Funding Obligations (other than Derivative Funding Obligations).

A declaration of acceleration or an automatic acceleration may be rescinded by Extraordinary Resolution if (i) the Issuer has paid all overdue interest, principal that has become due (other by reason of acceleration) on Controlling Class Obligations and other amounts set out in the Master Trust Indenture, and (ii) all Events of Default (other than non-payment of principal) have been cured or waived.

If Controlling Class Obligations are accelerated, the Indenture Trustee may amongst other things, (i) apply to a court for an order of sequestration and payment of amounts in respect of the Clean Energy Adjustment in accordance with the FHPA, (ii) take possession of the Collateral, (iii) appoint a receiver with respect to the Collateral, (iv) initiate proceedings in any court for the appointment of a receiver or for sale or foreclosure, (v) exercise rights, remedies, powers, privileges and claims under any Program Agreement, including the right to terminate and replace the Manager or the Servicer, or (vi) take any other action, suit, remedy or proceeding authorized or permitted by the Master Trust Indenture or by applicable law. The Indenture Trustee is not obligated to exercise any of its rights or powers under the Master Trust Indenture at the request or direction of any Controlling Class Creditors unless Controlling Class Creditors offer the Indenture Trustee a reasonable indemnity.

See *"Risk Factors — Risks Associated with the Unusual Nature of the Investment Asset" and "Risk Factors — Insolvency-Related Risks Relating to the Issuer"*.

Limitation on Available Amounts on Acceleration

If all or any portion of the principal amount of any indebtedness of the Issuer (including one or more Series of Senior Notes) becomes due and payable after the Moratorium Period and before its scheduled payment date, maturity date or redemption date, ~~then~~ the estimated Finance Amount used by the Financial Services Manager to determine the Clean Energy Adjustment for a period will be determined ~~without regard to the fact that such amount has become due and payable, unless and only to the extent that~~**based on the extent, if any, to which** the amount of the Clean Energy Adjustment is capable of being increased based on the Fair Allocation Amount for such period. See *"Ontario's Fair Hydro Plan — Fair Allocation Amount and Financing Plan"*. However, upon such acceleration, all accelerated Senior Notes will be repaid in full before any further payments of principal are made to holders of subordinated indebtedness, including the subordinated debt held by OPG; therefore, collections of the Clean Energy Adjustment that would otherwise have been available to repay the principal amount of subordinated indebtedness in the absence of acceleration of the Senior Notes will instead be applied to repay accelerated Senior Notes. See *"Capital Markets Platform"*.

Payment Waterfall Upon Acceleration

After acceleration of the Issuer Funding Obligations (other than derivative agreements), any money or other property standing to the credit of an Issuer Account (except as set out below) or otherwise collected by the Indenture Trustee will be applied in the following priority:

(a) first, to the payment or remittance of taxes for which a governmental authority is given priority over the Specified Creditors under the laws of the applicable jurisdiction;

(b) second, to pay fees, expenses and reimbursement amounts owing to the Issuer Trustee and the Indenture Trustee;

(c) third, *pari passu* (i) to pay interest, fees and other amounts (other than principal) owing in respect of Senior Funding Obligations and (ii) to pay all Derivative Funding Obligations (other than termination payments);

(d) fourth, to pay interest, fees and other amounts (other than principal) owing in respect of Subordinated Funding Obligations;

(e) fifth, to pay interest, fees and other amounts (other than principal) owing in respect of Junior Subordinated Funding Obligations;

(f) sixth, to pay principal owing in respect of Warehouse Obligations;

(g) seventh, *pari passu* (A) to pay principal owing in respect of Senior Funding Obligations (other than Warehouse Obligations) and (B) to pay termination payments owing to Derivative Counterparties where the Derivative Counterparty is not the defaulting party or the sole affected party;

(h) eighth, to pay fees, expenses and reimbursement amounts owing to the Manager;

(i) ninth, to pay principal owing in respect of Subordinated Funding Obligations;

(j) tenth, to pay principal owing in respect of Junior Subordinated Funding Obligations;

(k) eleventh, to pay termination payments owing to Derivative Counterparties where the Derivative Counterparty is the defaulting party or the sole affected party;

(l) twelfth, to pay all indemnity amounts owing to the Manager;

(m) thirteenth, *pari passu* (i) to the payment or remittance of taxes not previously paid pursuant to paragraph (a), and (ii) to pay all amounts owing to Specified Creditors not specifically referred to above; in each case, including, for each referenced party, any amounts payable to their respective affiliates under the terms of any relevant indemnity; and

(n) fourteenth, to pay any remaining amounts to the Issuer.

However, amounts on deposit in a Series Account will first be used to satisfy all obligations owing to the Debtholders or Derivative Counterparties for whom such Series Account was established. Thereafter, such amounts will be applied in accordance with the priorities set out above. In addition, amounts on deposit in the Protection Account will only be used to satisfy the obligations for which those amounts were deposited.

Rights of Specified Creditors

No Specified Creditor will have the right to institute any proceeding, judicial or otherwise, with respect to the Master Trust Indenture, or for the appointment of a receiver or trustee or similar official, or for any other remedy under the Master Trust Indenture. A Controlling Class Creditor may exercise such rights if:

(a) the Issuer or a Controlling Class Creditor has previously given to the Indenture Trustee written notice of a continuing Event of Default;

(b) Controlling Class Creditors, by Ordinary Resolution, have made written request of the Indenture Trustee to institute the proceeding in its own name as Indenture Trustee;

(c) Controlling Class Creditors have offered the Indenture Trustee a satisfactory indemnity; and

(d) the Indenture Trustee has, for 60 days, failed to institute the proceeding.

Subject to certain powers which may only be exercised by Extraordinary Resolution, Controlling Class Creditors, by Ordinary Resolution, will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Indenture Trustee, or exercising any trust or power conferred on the Indenture Trustee with respect to all Issuer Funding Obligations. However, the Indenture Trustee may decline to follow such direction if it determines (based on advice from counsel) that such direction (i) conflicts with applicable law or the Master Trust Indenture, (ii) has a substantial likelihood of involving the Indenture Trustee in personal liability or (iii) is unjustly prejudicial to Controlling Class Creditors not taking part such direction. See "*— Debtholder Approvals and Meetings — Debtholder Meetings*" for a description of certain powers which may only be exercised by Extraordinary Resolution. Specified Creditors (other than Debtholders) do not have any right to direct the time, method and place of conducting any proceeding for any remedy available to the Indenture Trustee, or exercising any trust or power conferred on the Indenture Trustee. Specified Creditors (other than Debtholders) will only have the right to receive proceeds following an Event of Default.

Limited Recourse

The obligation of the Issuer to pay principal of and interest on the Issuer Funding Obligations or any other amount payable to any Specified Creditor is subject to the allocation and payment provisions in the Master Trust Indenture and the applicable Funding Obligation Agreement and limited to amounts available from the Collateral. Neither the Indenture Trustee, the Manager nor the Issuer Trustee in its individual capacity, nor any holder of any unit in the Issuer, nor any of their respective owners, beneficiaries, agents, officers, directors, employees, successors or assigns will, in the absence of an express agreement to the contrary, be personally liable for the payment of the principal of or interest on the Notes or any other Issuer Funding Obligation, or for the Issuer's covenants and agreements contained in the Master Trust Indenture.

No Petition

Each Specified Creditor, by accepting its rights as a beneficiary under the Master Trust Indenture, agrees that until one year and one day following repayment in full of all Issuer Funding Obligations, it will not commence (or join in commencing) a bankruptcy, insolvency or similar proceeding under the laws of any jurisdiction against the Issuer.

Force Majeure

The Indenture Trustee and the Issuer Trustee will not be responsible or liable for any failure or delay in the performance of their obligations under the Master Trust Indenture arising out of or caused by, directly or indirectly, forces beyond their control, including loss or malfunctions of utilities, communications or computer services.

Satisfaction and Discharge

The Master Trust Indenture will cease to be of further effect with respect to any Class, Series or Tranche of Issuer Funding Obligations when:

(a) (x) in the case of Notes, all Notes of that Class, Series or Tranche which had been outstanding, with certain exceptions set forth in the Master Trust Indenture, have been delivered to the Indenture Trustee for cancellation or been cancelled, or (y) in the case of all other Issuer Funding Obligations, all Issuer Funding Obligations of that Class, Series or Tranche have been paid in full, as certified by the Issuer;

(b) the Issuer has paid all other sums payable by it under the Master Trust Indenture with respect to that Class, Series or Tranche of Issuer Funding Obligations; and

(c) the Issuer has delivered to the Indenture Trustee an officer's certificate and an opinion of external counsel each stating that the conditions precedent in the Master Trust Indenture relating to the satisfaction and discharge with respect to that Class, Series or Tranche of Issuer Funding Obligations have been complied with.

The Master Trust Indenture will cease to be of further effect when all Issuer Funding Obligations have been satisfied and discharged in accordance with the previous paragraph and all other Obligations Secured have been paid in full, as certified by the Issuer.

DESCRIPTION OF SENIOR NOTES

The following description of the Senior Notes is a summary of certain of their material attributes and characteristics, and does not purport to be complete. The terms and conditions set forth in this *"Description of Senior Notes"* section will apply to each Senior Note unless otherwise specified in the Term Sheet applicable to such Offering. For further particulars, reference should be made to the Master Trust Indenture and the Supplemental Indenture and Terms Document, if any, relating to the particular Series or Tranche of Senior Notes.

General

The Senior Notes will be issued under the Master Trust Indenture and will be Funding Obligations issued in connection with the financing program described under the heading "*Capital Markets Platform*". The specific terms and conditions of each Series of Senior Notes will be set forth in the Supplemental Indenture authorizing that Series and the specific terms and conditions of any Tranche of Senior Notes will be set forth in the Supplemental Indenture or the Terms Document authorizing that Tranche.

Under the Master Trust Indenture, the Issuer may issue an unlimited principal amount of Senior Notes. See "*Capital Markets Platform — Conditions Precedent to Incurrence of Obligations Secured — Issuer Funding Obligations*". The Senior Notes will be direct obligations of the Issuer and secured in the manner provided for under the Master Trust Indenture. See "*Capital Markets Platform — Security*".

The Supplemental Indenture or Terms Document will describe the following terms of the Senior Notes:

- the Series designation;
- stated principal amount of the Senior Notes;
- whether such Senior Notes are of a particular Tranche of Senior Notes;
- the currency or currencies in which such Senior Notes will be denominated and in which payments of principal of, and interest on, such Senior Notes will or may be payable;

- the price at which such Series or Tranche of Senior Notes will be issued;
- the times at which such Series or Tranche of Senior Notes may, pursuant to any optional redemption provisions, be redeemed, and the other terms and provisions of any such redemption;
- the rate per annum at which such Series or Tranche of Senior Notes will bear interest, if any, or the formula or index on which such rate will be determined;
- each Interest Payment Date, each Principal Payment Date and the Principal Payment Default Date for such Series or Tranche of Senior Notes;
- the Principal Accumulation Date(s), if any, and Principal Accumulation Amount(s) for such Series of Senior Notes;
- the initial principal amount of such Senior Notes, and the means for calculating the outstanding principal amount of such Series or Tranche of Senior Notes;

- any events of default with respect to such Series or Tranche of Senior Notes;
- if such Series or Tranche of Senior Notes will be issued in whole or in part in the form of a global note, the terms and conditions, if any, upon which such global note may be exchanged for other individual Senior Notes, and the depository for such global note;
- if such Class, Series or Tranche of Senior Notes will be issued in whole or in part in registered form, bearer form or both, and if such Senior Notes will be issued with or without coupons;
- if such Class, Series or Tranche will have the benefit of a credit enhancement agreement or liquidity agreement, and the terms and provisions of the applicable agreement;
- the record date for any Interest Payment Date or Principal Payment Date of such Series or Tranche of Senior Notes, if different from the last of the month before the related Interest Payment Date or Principal Payment Date; and
- whether and under what conditions, additional amounts will be payable to Noteholders of such Series or Tranche of Notes.

Limitations

The Senior Notes do not constitute a debt, liability or other obligation of, or interest in, OPG or any of its other affiliates (other than the Issuer) **or of the IESO**. The Senior Notes are not a debt, liability or obligation of the Province of Ontario or any of its political subdivisions, agencies or instrumentalities. The Senior Notes will not **be** insured or guaranteed by the Province of Ontario, OPG or any of their respective affiliates or any other person or entity, except that the Province of Ontario has agreed to provide a limited guarantee in respect of the Senior Notes following the occurrence of certain events. See *"Change of Law Protection Agreement"*.

Payments of Principal and Interest

Interest will accrue on the principal balance of each Series or Tranche of Senior Note at the interest rate specified in the related Term Sheet and will be payable on the Interest Payment Date(s) specified in the related Term Sheet. Principal of each Series or Tranche of Senior Notes will be payable in the amounts and on the Principal Payment Date(s) specified in the related Term Sheet. The Term Sheet applicable to a Series or Tranche of Senior

Notes will also set out the Principal Payment Default Date for such Senior Notes, which is the date on which failure to pay the principal amount of such Senior Notes will result in an Event of Default.

On each Payment Date, the Issuer will, to the extent funds are available therefor from the Collection Account (see "*Capital Markets Platform — Payment Waterfalls Prior to Acceleration — Collection Account*"), transfer to the Interest Accumulation Account the aggregate amount of interest that has accrued on each Series of Senior Notes (together with all other amounts to be accrued for other Issuer Funding Obligations). On each Interest Payment Date for a Series or Tranche of Senior Notes, the Paying Agent will pay to the holders of such Senior Notes interest then due on such Senior Notes using amounts available therefor from the Interest Accumulation Account, the Principal Accumulation Account, the IESO Cash Reserve Account, the Program Cash Reserve Account and the Protection Account. See "*Change of Law Protection Agreement*" and "*Capital Markets Platform — Payment Waterfalls Prior to Acceleration*".

On each Payment Date, the Issuer will, to the extent funds are available therefor from the Collection Account (see "*Capital Markets Platform — Payment Waterfalls Prior to Acceleration — Collection Account*"), transfer to the Principal Accumulation Account the aggregate of the amounts the Issuer is required to accumulate for each Series of Senior Notes (together with all other amounts to be accumulated for other Issuer Funding Obligations). The Term Sheet applicable to a Series or Tranche of Senior Notes will set out the Principal Accumulation Amount(s) and the Payment Dates on which such ~~amount~~**amounts** are to be accumulated for such Senior Notes. On each Principal Payment Date for a Series or Tranche of Senior Notes, the Paying Agent will pay to the holders of such Senior Notes the principal then due on such Senior Notes using amounts available therefor from the Principal Accumulation Account, the Program Cash Reserve Account and the Protection Account. See "*Change of Law Protection Agreement*" and "*Capital Markets Platform — Payment Waterfalls Prior to Acceleration*". Holders of Senior Notes may receive principal payments earlier than an expected Principal Payment Date if an optional redemption occurs and may receive principal payments later than an expected Principal Payment Date if there are insufficient Available Collections. See "*Risk Factors*" for a discussion of factors that may affect the timing of principal payments on a Series or Tranche of Senior Notes. It is not an Event of Default if the stated principal amount of a Series or Tranche of Senior Notes is not paid in full on an expected Principal Payment Date. If the stated principal amount of a Senior Note is not paid in full by its Principal Payment Default Date, an Event of Default will occur. See "*Capital Markets Platform — Events of Default*".

Unless otherwise specified in a Term Sheet, the Issuer has designated the Indenture Trustee as its Paying Agent for all Senior Notes having a place of payment in Toronto, Ontario.

Optional Redemption of Senior Notes

If a Supplemental Indenture for any Series or Tranche of Senior Notes states that such Senior Notes will be redeemable, in whole at any time or in part from time to time, such Senior Notes will be redeemable at the option of the Issuer at the redemption price specified in the Supplemental Indenture. If less than all the Senior Notes of any Series or Tranche are to be redeemed at one time, the Senior Notes of such Series or Tranche to be redeemed will be selected by the Indenture Trustee on a pro rata basis according to the principal amount of such Senior Notes registered in the name of each holder thereof, or in such other manner as the Indenture Trustee may consider equitable.

Notice of any redemption will be delivered to each holder of the Senior Notes to be redeemed, electronically or by mail (postage prepaid) at the address of such holder appearing in the Note register (or published in an authorized newspaper in the case of Senior Notes held in bearer form) or otherwise in accordance with the procedures of the depository, at least 15 days but not more than 30 days before the redemption date, except that redemption notices may be delivered more than 30 days prior to the redemption date if the notice is issued in connection with a satisfaction and discharge of the Master Trust Indenture with respect to such Series or Tranche of Senior Notes. The notice of redemption will state (i) the portion of the principal amount thereof to be redeemed (provided that no Senior Notes in an aggregate principal amount of 1,000 units of the applicable currency or less will be redeemed in part), (ii) the redemption date and (iii) the redemption price. Unless the Issuer defaults in payment of the redemption price, on and after the redemption date, interest will cease to accrue on the Senior Notes or portions of the Senior Notes called for redemption. A replacement note in principal amount equal to the unredeemed portion thereof will be issued in the name of the holder thereof upon cancellation of the original note; provided, however,

that, in the case of a global note, an appropriate notation may instead be made on such note to decrease the principal amount thereof to an amount equal to the unredeemed portion thereof.

The Term Sheet for each Offering will identify the redemption provisions of the applicable Notes at the time of such Offering.

Purchase for Cancellation

The Issuer may purchase or otherwise acquire, at any time or from time to time, all or any of the outstanding Senior Notes of any Series or Tranche in the market or by invitation for tenders or by private contract at such prices as it may determine in its sole discretion. All such Senior Notes purchased by the Issuer will be cancelled. If, upon a tender, more Senior Notes of a Series or Tranche are tendered at the same lowest price than the Issuer is prepared to accept, the Senior Notes of such Series or Tranche to be purchased will be selected by the Indenture Trustee on a pro rata basis according to the principal amount of such Senior Notes registered in the name of each holder thereof, or in such other manner as the Indenture Trustee may consider equitable.

DEPOSITORY SERVICES

Except as otherwise provided below, the Senior Notes will be issued in "book-entry only" form and must be purchased, transferred, redeemed or exchanged through participants ("**Participants**") in the depository service of a depository chosen by the Issuer (the "**depository**") or its nominee, which include securities brokers and dealers, banks and trust companies. On the closing date of an Offering, the Issuer will cause a global certificate representing the Senior Notes to be delivered to, and registered in the name of, the depository or its nominee. Except as described below, no purchaser of Senior Notes will be entitled to a certificate or other instrument from the Issuer or the depository evidencing that purchaser's ownership thereof, and no purchaser will be shown on the records maintained by the depository except through a book-entry account of a Participant acting on behalf of such purchaser. Each purchaser of Senior Notes will typically receive a customer confirmation of purchase from the registered dealer from which the Senior Notes are purchased in accordance with the practices and procedures of that registered dealer. The practices of registered dealers may vary, but generally, customer confirmations are issued promptly after execution of a customer order. The depository will be responsible for establishing and maintaining book-entry accounts for its Participants having interests in the Senior Notes.

Neither the Issuer, the Indenture Trustee nor the Agents will assume any liability for: (i) any aspect of the records relating to the beneficial ownership of the Senior Notes held by the depository or the payments relating thereto; (ii) maintaining, supervising or reviewing any records relating to the Senior Notes; or (iii) any advice or representation made by or with respect to the depository or those contained in this confidential shelf offering memorandum and relating to the rules governing the depository or any action to be taken by the depository or at the direction of its Participants. The rules governing the depository provide that it acts as the agent and depository for the Participants. As a result, Participants must look solely to the depository and persons, other than Participants, having an interest in the Senior Notes must look solely to Participants for payments made by or on behalf of the Issuer to the depository in respect of the Senior Notes.

If: (i) required by applicable law; (ii) the depository notifies the Issuer in writing that the depository is no longer willing or able to discharge properly the responsibilities of a depository with respect to the Senior Notes and the Issuer is unable to locate a qualified successor; (iii) the Issuer determines the Senior Notes in book-entry only form should be exchanged for definitive certificates and the Issuer delivers a written notice to such effect to the Indenture Trustee; (iv) an Event of Default has occurred and Noteholders holding more than 50% of the Controlling Class Obligations of any Series of Senior Notes determine such book-entry system is no longer in the best interests of the holders of that Series; or (v) the book-entry system is terminated, then certificates representing the Senior Notes will be issued to the beneficial owners of Senior Notes.

Interest on the Senior Notes will be paid directly to CDS while the book-entry only system is in effect. If definitive certificates are issued, interest will be paid by wire transfer of immediately available funds to the accounts specified by the holders thereof or, if no such account is specified, by mailing a cheque to each such holder's registered address. Payment of principal, and the interest due, at maturity, will be paid directly to CDS while the

book-entry only system is in effect. If definitive certificates are issued, payment of principal, and interest due, at maturity, will be paid upon surrender thereof at any office of the Trustee or as otherwise specified in the Indenture.

Manner of Effecting Transfer or Redemption

A transfer or redemption of Senior Notes held in "book-entry form" only will be effected through records maintained by the depository or its nominee with respect to interests of Participants, and on the records of Participants with respect to interests of persons other than Participants. Purchasers of such Senior Notes who are not Participants, but who desire to purchase, sell or otherwise transfer ownership of or other interests in the Senior Notes, may do so only through Participants.

DTC, Euroclear and Clearstream, Luxembourg

Where CDS acts as depository for a series of Senior Notes, to the extent the Issuer makes such series of Senior Notes eligible with The Depositary Trust Company ("**DTC**"), Euroclear Bank S.A./N.V., as operator of the Euroclear System ("**Euroclear**") and Clearstream Banking, société anonyme ("**Clearstream, Luxembourg**"), and the Issuer specifies as such in the Term Sheet with respect to the particular series of Senior Notes, holders may hold such series of Senior Notes through the accounts maintained by DTC, Euroclear or Clearstream, Luxembourg, as applicable, as participants in CDS only if they are participants of those systems, or indirectly through organizations which are participants of those systems.

In such case, DTC, Euroclear and Clearstream, Luxembourg will hold omnibus book-entry positions on behalf of their participants through customers' securities accounts in their respective depositaries which in turn will hold such positions in customers' securities accounts in the names of the nominees of the depositaries on the books of CDS. All securities in DTC, Euroclear and Clearstream, Luxembourg are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts.

Transfers of such Senior Notes by persons holding through Euroclear or Clearstream, Luxembourg participants, as applicable, will be effected through CDS, in accordance with CDS rules, on behalf of the relevant European international clearing system by its depositaries; however, such transactions will require delivery of transfer instructions to the relevant European international clearing system by the participant in such system in accordance with its rules and procedures and within its established deadlines (European time). The relevant European international clearing system will, if the transfer meets its requirements, deliver instructions to its depositaries to take action to effect the transfer of the Senior Notes on its behalf by delivering Senior Notes through CDS and receiving payment in accordance with its normal procedures for next-day funds settlement. Payments with respect to the Senior Notes held through Euroclear or Clearstream, Luxembourg will be credited to the cash accounts of Euroclear participants or Clearstream, Luxembourg participants in accordance with the relevant system's rules and procedures, to the extent received by its depositaries.

All information in this confidential shelf offering memorandum concerning CDS, DTC, Euroclear and Clearstream, Luxembourg, reflects the Issuer's understanding of the policies of such organizations which may change at any time without notice.

PLAN OF DISTRIBUTION

The Senior Notes may be sold by the Issuer directly pursuant to applicable statutory exemptions or through agents designated by the Issuer from time to time. Each Term Sheet will identify the Agents engaged in connection with the applicable Offering of Senior Notes and will also set forth the terms of the Offering of Senior Notes, including the net proceeds to the Issuer and, to the extent applicable, any fees payable to the Agents. The Agents will conditionally offer the Senior Notes for sale on a "best efforts" basis, if, as and when issued and delivered by the Issuer in accordance with the conditions contained in an agency agreement (the "**Agency Agreement**") between the Issuer, OPG and the Agents to be entered into on or about the date of each Term Sheet. The Agents will be paid a fee by the Issuer for their services rendered to the Issuer in connection with the offering, issue and sale of the Senior Notes. The obligations of the Agents under the Agency Agreement may be terminated upon the occurrence of certain stated events. The Agents may over-allot or effect transactions which stabilize or maintain the market price of the

Senior Notes at a level different than that which might otherwise prevail in the open market. Such transactions, if commenced, may be discontinued at any time.

The Senior Notes may not be offered or sold, directly or indirectly, in Canada or to or for the account of any Canadian resident except, in the case of sales made in any province of Canada, pursuant to an exemption from the prospectus requirements in Section 2.3 of NI 45-106 and, in the case of a purchaser resident in Ontario, section 73.3(2) of the *Securities Act* (Ontario), also known as the "accredited investor" exemption. In addition, Senior Notes will not be offered or sold, directly or indirectly, to individuals unless those individuals are also "permitted clients" within the meaning of NI 31-103.

Resale of the Senior Notes will be subject to restrictions under applicable securities legislation which vary depending on the relevant jurisdictions. **The Senior Notes may only be sold on a basis that is exempt from the prospectus requirements of applicable securities legislation through an appropriately registered dealer or pursuant to an exemption from the registration requirements of applicable securities legislation**. See *"Restrictions on Resale"*.

This confidential shelf offering memorandum does not constitute an offer to sell or a solicitation of an offer to buy any of the Senior Notes in the United States. The Senior Notes have not been and will not be registered under the U.S. Securities Act or any state securities laws and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons (as such term is defined in Regulation S under the U.S. Securities Act) unless the Senior Notes are registered under the U.S. Securities Act and applicable state securities laws or an exemption therefrom is available. In addition, until 40 days after the commencement of an Offering, any offer or sale of the Senior Notes within the United States by any dealer (whether or not participating in an Offering) may violate the registration requirements of the U.S. Securities Act if such offer or sale is made otherwise than in accordance with an exemption from the registration requirements of the U.S. Securities Act. Each Agent has agreed that, except as permitted by an Agency Agreement, it will not offer or sell the Senior Notes as part of the distribution of the Senior Notes at any time within the United States or to, or for the account or benefit of, U.S. persons.

RISK FACTORS

An investment in Senior Notes involves certain risks. Prospective investors in the Senior Notes should carefully consider all the information included in this confidential shelf offering memorandum, including the risks described below, before deciding to invest in the Senior Notes. This section does not describe all risks applicable to the Issuer and is intended only as a summary of certain material risks. In addition, prospective investors should consult their own financial and other legal and tax advisors, and should carefully consider, among other matters, the following discussion of risks before deciding whether to purchase Senior Notes.

Judicial, Legislative or Regulatory Risks

Future legal action might challenge or invalidate the FHPA and materially adversely affect a holder's investment in the Senior Notes.

The Investment Asset is a creation of the FHPA, which became effective on June 1, 2017. The Issuer will be the first Financing Entity under the FHPA to issue Funding Obligations as contemplated under the FHPA. The FHPA or any provisions thereof might be directly contested in courts or otherwise become the subject of litigation. The FHPA is novel legislation in Canada and therefore there are no precedents to rely on to support the validity of the FHPA.

As of the date of this confidential shelf offering memorandum, no such litigation has arisen; however, there can be no assurance that a lawsuit challenging the validity of some portion or all of the FHPA will not be filed in the future or that, if filed, such lawsuit will not be successful. If such a lawsuit were successful, and an invalidation of any relevant underlying legislative or regulatory provision were to result that did not constitute a Protection Event under the Change of Law Protection Agreement, a holder of Senior Notes may lose some or all of their investment in the Senior Notes or experience significant delays in recovering their investment in the Senior Notes. Even if the successful lawsuit constitutes a Protection Event, under the terms of the Change of Law Protection Agreement, the Province of Ontario is not obligated to pay or indemnify the Indenture Trustee or any Specified Creditor for consequential, special or punitive damages, or for economic loss or loss of profits (provided that economic loss does

not include any amount in respect of an amount due and payable to a Specified Creditor under the Limited Guarantee).

Future legislative action to change the FHPA, the Change of Law Protection Agreement or the electricity market might materially adversely affect a holder's investment in the Senior Notes.

The FHPA provides that no act or omission of the Crown shall be effective to reduce, impair, postpone or terminate the obligations of Specified Consumers to pay amounts in respect of the Clean Energy Adjustment or to impair or postpone the invoicing, collection or remittance of the Clean Energy Adjustment. Ontario does not have a referendum or initiative process by which the FHPA may be amended or repealed. Therefore, the only way for such provisions of the FHPA to be amended or repealed would be through a subsequent legislative action by the Province of Ontario. A determination by the Province of Ontario that, for political or other reasons, the FHPA should no longer be law in Ontario or that the FHPA should be amended to limit or delay the recovery of Clean Energy Adjustments, could result in a decision to make such an amendment, repeal or revocation. Any such action that adversely affects the ability of the Issuer to receive amounts in respect of the Investment Interest so that it can pay Approved Obligations when due and payable (determined after taking into account certain factors described above in the definition of "Protection Event") would be subject to the Change of Law Protection Agreement. Under the Change of Law Protection Agreement, the Province of Ontario is not obligated to pay or indemnify the Indenture Trustee or any Specified Creditor for consequential, special or punitive damages, or for economic loss or loss of profits (provided that economic loss does not include any amount in respect of an amount due and payable to a Specified Creditor under the Limited Guarantee). See *"Change of Law Protection Agreement"*. However, future legislative action by the Province of Ontario could also be taken that would have the effect of voiding or otherwise rendering invalid the Change of Law Protection Agreement.

Canada does not have any constitutional protection of property rights. While an adverse impact of statutory measures on private property has, in some circumstances, been judicially held to entitle property owners to compensation, such entitlements themselves can also be extinguished by legislation. Accordingly, if the provisions of the FHPA referenced in the previous paragraph were amended or repealed through subsequent legislative action of the Province of Ontario and future legislative action was also taken by the Province of Ontario that had the effect of voiding or otherwise rendering invalid the Change of Law Protection Agreement, a holder of Senior Notes may lose some or all of their investment in the Senior Notes or experience significant delays in recovering their investment in the Senior Notes.

Future judicial action could reduce the value of a holder's investment in the Senior Notes.

The Investment Asset is the creation of the FHPA. There is uncertainty associated with investing in Senior Notes payable from an interest in an asset that depends on legislation for its existence because there is no juridical or regulatory experience implementing and interpreting the legislation or similar legislation in Canada. Because the Investment Asset is a creation of the FHPA, any judicial determination interpreting the FHPA or the Investment Asset might have an adverse effect on a holder of Senior Notes' investment in the Senior Notes.

Potential difficulties in enforcing civil liabilities against the Province of Ontario may arise.

Under the *Proceedings Against the Crown Act* (Ontario), the remedies of injunction and specific performance are not available against the Crown, nor may an order for execution or attachment be made against the Crown, although the remedy of damages is available. Nothing in the Change of Law Protection Agreement or the Program Agreements affects the rights, protections and immunities of the Crown under the *Proceedings Against the Crown Act* (Ontario). As a result, if the Province of Ontario fails to comply with the Change of Law Protection Agreement, the Indenture Trustee's ability to obtain an effective remedy against the Province of Ontario is limited and holders of Senior Notes may lose some or all of their investments in the Senior Notes or experience significant delays in recovering their investments.

Risks Associated with the Unusual Nature of the Investment Asset

Clean Energy Adjustments will not be payable until May 1, 2021 and until such time the IESO will be the sole source of funds for payment on the Senior Notes. Amounts paid by the IESO are not available to pay principal on the Senior Notes.

During the Moratorium Period, no Clean Energy Adjustments are permitted to be collected from Specified Consumers. During the Moratorium Period, a holder of Senior Notes must rely for payment by the Issuer of interest on the Senior Notes, and the Issuer must rely for payment of all of its Carrying Costs, upon the IESO who is obligated under the Regulations to pay these Carrying Costs **to the Issuer**. The amounts paid by the IESO **with respect to Carrying Costs** cannot be applied on account of principal on the Senior Notes. The IESO has granted the Issuer a first-priority security interest in all its accounts receivable from Electricity Vendors, which includes the amounts receivable by the IESO from Electricity Vendors with respect to the global adjustment charge, as security for the performance of its regulatory obligation to pay the ~~Issuer's~~ Carrying Costs **to the Issuer**. The IESO also has a $2 billion unsecured credit facility agreement with the Ontario Financing Authority, expiring September 30, 2022, which can be used to pay the ~~Issuer's~~ Carrying Costs **to the Issuer**. There can be no assurance that the IESO will continue to have sufficient funds available to pay the ~~Issuer's~~ Carrying Costs **to the Issuer** during the Moratorium Period. If the Issuer enforces the security granted to the Issuer by the IESO during this period, there can be no assurance that the IESO's accounts receivable from Electricity Vendors will be sufficient to pay the ~~Issuer's~~ Carrying Costs **to the Issuer** and a holder of Senior Notes may suffer material payment delay on the Senior Notes during the Moratorium Period.

The Issuer's ability to enforce security granted by the IESO may be significantly impaired or delayed.

Under various Canadian bankruptcy, insolvency and restructuring statutes or Canadian federal or provincial receivership laws, including the *Bankruptcy and Insolvency Act* (Canada), the *Companies' Creditors Arrangement Act* (Canada), the *Canada Business Corporations Act*, the *Winding-up and Restructuring Act*, and various provincial corporate statutes (collectively, "**Canadian Insolvency and Restructuring Laws**"), the Issuer's ability to enforce security granted by the IESO may be significantly impaired or delayed. In view of the broad discretionary powers of courts under Canadian Insolvency and Restructuring Laws, it is not possible to predict how long payments of Carrying Costs by the IESO or enforcement of any letter of credit or performance guarantee provided by the IESO could be delayed following commencement of a proceeding under Canadian Insolvency and Restructuring Laws by the IESO or whether or when the Issuer would be able to repossess or dispose of the assets over which it holds a security interest. Canadian Insolvency and Restructuring Laws also contemplate the granting of super priority security interests or charges (which could be in priority to the security of existing secured creditors) on the assets of the debtor company to secure the repayment of any amounts to be borrowed to facilitate the insolvency proceeding, any amounts owing for the fees and costs of professionals involved in the insolvency proceeding, obligations of directors of the company with respect to their statutory liabilities and sometimes other amounts.

Canadian Insolvency and Restructuring Laws also contain provisions enabling an obligor to prepare and file a proposal or a plan of arrangement or reorganization for consideration by all or some of its creditors, to be voted on by the various classes of creditors affected thereby. Such a restructuring proposal or plan of arrangement or reorganization, if accepted by the requisite majority of each class of affected creditors and if approved by the relevant Canadian court, would be binding on all creditors of the applicable obligor within the affected classes, including the Issuer, whether or not the Issuer votes in favour of the restructuring proposal or plan of arrangement or reorganization. Such a proposal or plan of arrangement or reorganization may have the effect of compromising certain rights available to the Issuer with respect to the payment of Carrying Costs or enforcement of any security provided by the IESO.

A holder of Senior Notes may experience material payment delays because the source of funds for payment after the Moratorium Period is limited.

A holder of Senior Notes may suffer material payment delays on the Senior Notes if the collateral securing the Senior Notes is insufficient to pay the accrued interest on and the principal amount of those Senior Notes in full. During the Moratorium Period, a holder of Senior Notes must rely for payment by the Issuer of interest on the Senior Notes, and the Issuer must rely ~~for payment of~~**on the IESO for the funds necessary to pay** its Carrying Costs, upon

the IESO who is obligated under the Regulations to pay these Carrying Costs **to the Issuer**. Amounts paid by the IESO are not available to pay principal on the Senior Notes. After the Moratorium Period, the only source of funds for payments of interest on and principal of the Senior Notes will be the collateral. The collateral for the Senior Notes will include:

- the Investment Interest, including the right to impose, bill, collect and receive Clean Energy Adjustment amounts, inclusive of the True-up Amount;
- the cash and investments on deposit in the accounts held by the Indenture Trustee; and
- the Issuer's rights under various contracts described in this confidential shelf offering memorandum and under the FHPA.

The Senior Notes will not be insured or guaranteed by the Province of Ontario, the IESO, OPG or any of their respective affiliates, the Indenture Trustee or any other person or entity, except pursuant to the Limited Guarantee provided by the Province of Ontario upon the occurrence of a Protection Event. See *"Change of Law Protection Agreement"*. The Senior Notes will be nonrecourse obligations, secured only by the collateral. Delays in payment on the Senior Notes might result in a reduction in the market value of the Senior Notes and, therefore, the value of a holder's investment in the Senior Notes.

The Senior Notes do not constitute a debt, liability or other obligation of, or interest in, OPG or any of its other affiliates (other than the Issuer). The Senior Notes are not a debt or general obligation of the Province of Ontario or any of its political subdivisions, agencies or instrumentalities. However, insofar as the Province of Ontario or any such political subdivision, agency or instrumentality is a Specified Consumer, such governmental entity will be obligated, in its capacity as a Specified Consumer, to pay Clean Energy Adjustment amounts that will be collected and remitted to the Issuer in respect of its Investment Interest securing the Senior Notes.

A holder of Senior Notes must rely for payment of principal of and interest on the Senior Notes solely upon the FHPA, rights to enforcement of the FHPA and of various agreements described in this confidential shelf offering memorandum, collections of Clean Energy Adjustment amounts and cash and investments on deposit in the related accounts held pursuant to the Master Trust Indenture.

The Clean Energy Adjustment may not be billed after April 30, 2047, unless further regulations to extend that date are passed.

The Clean Energy Adjustment may not be billed to Specified Consumers after April 30, 2047, unless further regulations to extend that date are passed. If Clean Energy Adjustment amounts billed through this period are not sufficient to repay the Senior Notes in full and further regulations to extend this date are not passed, apart from amounts in the capital accounts, if any, no other funds will be available to pay the unpaid balance due on the Senior Notes.

Foreclosure of the Indenture Trustee's lien on the Investment Interest securing the Senior Notes might not be practical and acceleration of the Senior Notes before maturity might have little practical effect.

Under the Master Trust Indenture, the Indenture Trustee on behalf of the holders of Senior Notes and other creditors has the right to foreclose or otherwise enforce the lien granted to the Indenture Trustee by the Issuer on the collateral securing the Senior Notes. However, in the event of foreclosure, there is likely to be a limited market, if any, for the collateral. Therefore, foreclosure might not be a realistic or practical remedy. Moreover, although principal of the Senior Notes will be due and payable upon acceleration of the Senior Notes before maturity, under the Regulations, the amount of the Clean Energy Adjustment may not be increased to take into account such acceleration (subject to limited exceptions depending on the Fair Allocation Amount at the time). As a result, this limitation on increases to the Clean Energy Adjustment at the time of any acceleration of the Senior Notes prior to maturity will result in principal of the Senior Notes being paid on acceleration as funds become available. However, upon such acceleration, the priority of principal payments to creditors of the Issuer will result in all accelerated Senior Notes being repaid in full before any further payments of principal are made to holders of subordinated indebtedness of the

Issuer. **In the event of an acceleration, holders of Senior Notes may be paid sooner or later than originally expected.**

The Issuer may issue multiple Series of Senior Notes secured by the Investment Interest and some decisions affecting holders of Senior Notes may require the approval of all Series.

The Issuer may issue multiple Series of Senior Notes all of which will be secured by the collateral securing the Senior Notes. The Issuer may not issue additional Series of Senior Notes if the issuance would not satisfy the Rating Agency Condition and certain other conditions precedent in the Master Trust Indenture. See *"Capital Markets Platform — Conditions Precedent to Incurrence of Obligations Secured — Issuer Funding Obligations"*. If additional Series of Senior Notes are issued, Clean Energy Adjustment amounts collected by or for the benefit of the Issuer will be prorated among the Series of Senior Notes based on the respective amounts of interest and principal due and payable or required to be accumulated in respect of each Series of Senior Notes. Any issuance of additional Series of Senior Notes by the Issuer could cause reductions or delays in payment on the Senior Notes. In addition, some matters relating to the Senior Notes issued by the Issuer may require the vote of the holders of all Series of Senior Notes. The interests of holders of a particular Series of Senior Notes in these votes might conflict with the interests of the holders of another Series of Senior Notes. Thus, these votes could result in an outcome that is materially unfavorable to holders of a particular Series of Senior Notes.

The Master Trust Indenture contains Events of Default (other than those pertaining to the insolvency of the Issuer or invalidity of the Change of Law Protection Agreement) that can only be declared by Debtholders who hold at least 25% of the outstanding Controlling Class Obligations. If any such Event of Default has occurred and is continuing, Debtholders who hold at least 50% of the outstanding Controlling Class Obligations may accelerate all Issuer Funding Obligations (other than Derivative Funding Obligations). However, it is possible for individual Series of Senior Notes to have their own acceleration events such that those individual Series of Senior Notes may be accelerated while other Series of Issuer Funding Obligations would not be accelerated. In such a case, (i) the allocation of Available Collections to the holders of accelerated Series of Issuer Funding Obligations in a Class would be higher relative to the non-accelerated Series of Issuer Funding Obligations of that Class than it would otherwise be, and (ii) after payment in full of accelerated Senior Notes and other Senior Funding Obligations and once all amounts due and payable on non-accelerated Senior Notes and other Senior Funding Obligations have been satisfied on any principal payment date, amounts remaining for payment of principal would be allocated to the repayment of principal on both accelerated and non-accelerated subordinated debt, as applicable. In certain cases, a declaration of acceleration or an automatic acceleration may also be rescinded by Extraordinary Resolution if (i) the Issuer has paid all overdue interest, principal that has become due (other than by reason of acceleration) on Controlling Class Obligations and other amounts set out in the Master Trust Indenture, and (ii) all Events of Default (other than non-payment of principal) have been cured or waived. See *"Capital Markets Platform — Acceleration and Remedies — General"*.

If a Series of Senior Notes or all Senior Notes are accelerated, a holder of Senior Notes might receive payment of principal sooner or later than expected.

Under certain circumstances it is possible that all outstanding Senior Notes will be accelerated as a Class or that certain Series of Senior Notes will be accelerated while other Series of Senior Notes will not be accelerated. See *"Capital Markets Platform – Acceleration and Remedies"*. The possibility of certain Series of Senior Notes accelerating while other Series of Senior Notes do not accelerate would arise if (i) an Event of Default occurs but Noteholders holding at least 50% of all outstanding Senior Notes do not approve the acceleration of all outstanding Senior Notes, and (ii) holders of Senior Notes of a particular Series approve the acceleration of the Senior Notes of that Series by the requisite majority of holders of that Series as set out in the applicable supplemental indenture for that Series.

If all Senior Notes are accelerated the application of available funds will be as described under *"Capital Markets Platform -- Acceleration and Remedies"* for all Senior Notes. It is possible that holders of 50% or more of the outstanding principal balance of all Senior Notes will approve the acceleration of all Senior Notes even if holders of a particular Series of Senior Notes do not vote in favour of the acceleration of the Senior Notes of that Series.

If only certain Series of Senior Notes are accelerated, then the outstanding principal balance of those Series of Senior Notes will become immediately due and payable but the payment due dates of those Series of Senior Notes that have not been accelerated will not change. In this case, the application of available funds will continue as described under *"Capital Markets Platform -- Payment Waterfalls Prior to Acceleration"*.

Where all Series of Senior Notes or only certain Series of Senior Notes are accelerated, available funds that would otherwise be used to pay the principal amount of subordinated indebtedness will be applied to repay principal of the accelerated Senior Notes. This could result in a holder of Senior Notes that have been accelerated receiving payment of principal sooner than expected. If a Series of Senior Notes has not been accelerated, the payment of principal on such Senior Notes should not occur earlier than expected as the payment due dates for such Senior Notes will not have been accelerated.

Where all Series of Senior Notes or only certain Series of Senior Notes are accelerated, available funds that would otherwise be used to pay the principal amount of the Senior Notes in accordance with the original repayment schedules of such Senior Notes may be applied to repay principal of the accelerated Senior Notes *pari passu* with the principal due on all outstanding Senior Notes (subject to the payment priority given to Warehouse Obligations). If accelerated Senior Notes were not expected to be repaid before a particular Series of Senior Notes at the time the accelerated Senior Notes were issued, the acceleration of such Senior Notes could result in the holder of a particular Series of Senior Notes receiving payment of principal later than expected.

The Issuer may have a co-ownership interest in the Investment Asset with other Financing Entities.

The FHPA authorizes the establishment of one or more Financing Entities that may incur Funding Obligations for the purpose of acquiring Investment Interests. The Master Trust Indenture does not contain any restrictions on the establishment of other Financing Entities or any restrictions on the Transfer by the IESO of specified portions of the Regulatory Asset to other Financing Entities. If additional Funding Obligations are incurred by other Financing Entities to acquire an Investment Interest, the Investment Asset will be co-owned by all Financing Entities (including the Issuer) and consequently Clean Energy Adjustment amounts collected by or for the benefit of the Financing Entities will be prorated among all Investment Interest owners based on the respective amounts of Clean Energy Adjustment amounts invoiced and not yet paid. Any issuance of Funding Obligations by other Financing Entities could cause reductions or delays in payment on the Senior Notes.

If the Clean Energy Adjustment amounts and other funds held in the Issuer Accounts results in investment losses or the investments become illiquid, a holder of Senior Notes might receive payment of principal of and interest on the Senior Notes later than expected.

Funds held in the Issuer Accounts will be invested in Eligible Investments. Eligible Investments include, among other categories, money market funds having a rating in the highest investment category from each applicable Rating Agency. Although investments in these money market funds have traditionally been viewed as highly liquid with a low probability of principal loss, illiquidity and principal losses have been experienced by investors in certain of these funds as a result of disruptions in the financial markets in recent years. If investment losses or illiquidity are experienced, a holder of Senior Notes might experience a delay in payments of principal and interest and a decrease in the value of their investment in the Senior Notes.

Servicing, Operating and Consumer Risks

Payments on the Senior Notes depend on the performance of Electricity Vendors and the IESO.

The Issuer's receipt of Clean Energy Adjustment amounts, which will be used to make payments on the Senior Notes, will depend in part on the skill and diligence of Electricity Vendors and the IESO and their respective successors in performing their respective duties under the FHPA and, with respect to the IESO, the Master Transfer and Servicing Agreement.

The FHPA and the Master Transfer and Servicing Agreement impose new duties and obligations ~~of~~on the IESO and Electricity Vendors. There can be no assurances that the new duties and obligations of the IESO and the Electricity Vendors will be assumed and implemented without difficulty and in accordance with the provisions of the FHPA and

the Master Transfer and Servicing Agreement. If the IESO ceases to perform, or inadequately performs, its collection, remittance, forecasting and other functions under the terms of the FHPA and the Master Transfer and Servicing Agreement, it might be difficult to enforce these obligations against the IESO. While the Indenture Trustee has the right to replace the IESO, as servicer, on an Event of Default upon receipt of an Ordinary Resolution, it might be difficult to find a replacement for the IESO or a successor servicer. Also, any successor servicer might have less experience and ability than the IESO and might experience difficulties in collecting Clean Energy Adjustment amounts or providing forecast information, resulting in delays or disruptions to the setting and collection of the Clean Energy Adjustment. Any successor servicer would likely charge fees for the provision of such services and such fees could be material.

If an Electricity Vendor **or the IESO** fails to collect or remit sufficient Clean Energy Adjustment amounts for any reason, then the IESO's payments to the Issuer in respect of the Clean Energy Adjustments might be delayed or reduced. In that event, payments on the Senior Notes might be delayed or reduced. In addition, any person into which the IESO may be merged, converted or amalgamated or that may succeed to the properties and assets of the IESO substantially as a whole will assume the role of servicer under the Master Transfer and Servicing Agreement, subject only to the satisfaction of the conditions set forth therein. These conditions do not include either the consent of holders of Senior Notes or satisfaction of the Rating Agency Condition.

Payments on the Senior Notes depend on the performance of OPG as Financial Services Manager and as Manager.

The FHPA imposes new duties and obligations ~~of~~**on** OPG, as Financial Services Manager, and the Program Agreements impose new duties and obligations ~~of~~**on** OPG, as Manager. There can be no assurances that the new duties and obligations of OPG will be assumed and implemented without difficulty and in accordance with the provisions of the FHPA and the Program Agreements. If OPG, as Financial Services Manager, ceases to perform, or inadequately performs, its statutory duties under the FHPA, including determining the Clean Energy Adjustment (inclusive of the True-up Amount), the Indenture Trustee will have no right to replace OPG as Financial Services Manager. If OPG ceases to perform, or inadequately performs, its management duties under the Management Agreement, the Indenture Trustee has the right to replace the Manager on an Event of Default upon receipt of an Ordinary Resolution but it might be difficult to find a replacement for OPG or a successor manager. Also, any successor manager might have less experience and ability than OPG, resulting in delays or disruptions to the setting and collection of the Clean Energy Adjustment. Any successor manager would likely charge fees for the provision of such services and such fees could be materially higher than the fees charged by OPG.

Inaccurate consumption forecasting or unanticipated delinquencies or write-offs might reduce or delay scheduled payments on the Senior Notes.

Clean Energy Adjustment amounts will be calculated based upon a forecast of Specified Consumer usage to be newly developed based on forecast information provided by the IESO. Under the Regulations, the IESO is required to provide ~~a forecast of~~ **forecast information to the OEB and the Issuer, which forecast information will be used by the OEB to forecast** electricity consumption of Specified Consumers **in respect of the relevant period**. The amount of the Clean Energy Adjustment collected in any period will depend in part on actual electricity usage by Specified Consumers and the amount of collections and write-offs for Specified Consumers. If the IESO or a successor inaccurately forecasts electricity consumption or if OPG uses inaccurate consumer delinquency or write-off data when setting or adjusting the Clean Energy Adjustment, there could be a shortfall or material delay in collections, which might result in missed or delayed payments of principal and interest on the Senior Notes.

Inaccurate forecasting of electricity consumption by the IESO might result from, among other things unanticipated weather, resulting in less electricity consumption than forecast; general economic conditions being worse than expected, causing Specified Consumers to reduce their electricity consumption; the occurrence of a natural disaster, wind storm or an act of terrorism, cyber-attack or other catastrophic event unexpectedly disrupting electrical service and reducing electricity consumption; unanticipated changes in the market structure of the electric industry; Specified Consumers unexpectedly ceasing business or departing from the Province of Ontario; dramatic and unexpected changes in energy prices resulting in decreased electricity consumption; Specified Consumers consuming less electricity than anticipated because of increased energy prices, unanticipated increases in conservation efforts or unanticipated increases in electricity consumption efficiency; differences or changes in forecasting methodology; or Specified Consumers switching to alternative sources of energy, including self-generation or co-generation of

electric power in some cases without using Ontario's transmission or distribution system. Self-generators that receive no transmission or distribution service from the Province of Ontario are not liable for the Clean Energy Adjustment. The FHPA does not require exit fees to be charged to any Specified Consumers that might leave the grid to self-generate.

Inaccurate forecasting of delinquencies or write-offs by OPG could result from, among other things unexpected deterioration of the economy, the occurrence of a natural disaster, an act of war or terrorism or other catastrophic events causing greater write-offs than expected or forcing Electricity Vendors to grant additional payment relief to Specified Consumers; the failure of Electricity Vendors to submit accurate and timely information regarding their collections and write-offs; an unexpected change in law that makes it more difficult for Electricity Vendors to terminate service to nonpaying Specified Consumers, or that requires Electricity Vendors to apply more lenient credit standards for Specified Consumers.

Changes to billing and collection practices may reduce the amount of funds available for payments on the Senior Notes.

The methodology for determining the amount of the Clean Energy Adjustment invoiced to each Specified Consumer is specified in FHPA. None of OPG, the IESO or any Electricity Vendor, as it performs its billing and collection functions on the Issuer's behalf, may change this methodology. However, subject to applicable law, tariff and regulatory requirements, billing and collection arrangements with each Specified Consumer may be changed in a manner that delays or reduces the payments to the Issuer in respect of the Clean Energy Adjustment**, which might result in missed or delayed payments of principal and interest on the Senior Notes**.

Limits on rights to terminate service to Specified Consumers might make it more difficult to collect the Clean Energy Adjustment.

To the extent that Specified Consumers do not pay for their electricity service, Electricity Vendors will not be able to collect the Clean Energy Adjustment from these Specified Consumers. Electricity Vendors have the ability to terminate service for non-payment subject to the terms of their conditions of service, which conditions must be consistent with the OEB's rules regarding disconnection. Under OEB rules, Electricity Vendors are prohibited from disconnecting or threatening to disconnect homes for non-payment during the winter from November 15 to April 30 every year. Historical rates of non-payment are included in the calculations of the Clean Energy Adjustment, but increases in the rates of non-payment would reduce the Clean Energy Adjustment until it is adjusted through the True-up Amount in a subsequent Reference Period.

It might be difficult for the Issuer to collect the Clean Energy Adjustment from Specified Consumers

Under the FHPA, the Issuer may bring an action against a Specified Consumer for non-payment of the Clean Energy Adjustment, but only an Electricity Vendor may terminate service for failure to pay the Clean Energy Adjustment. The FHPA provides that partial payment of electricity invoices shall be allocated pro rata among the Clean Energy Adjustment and other charges on the invoice. Since the Issuer does not have the threat of termination of service available to enforce payment of the Clean Energy Adjustment, it would need to rely on the Electricity Vendor to threaten to terminate service for nonpayment of other portions of the electricity invoice. This inability might reduce the value of a holder's investment in the Senior Notes.

Delinquent or partial payments of electricity bills may make payments on the Senior Notes occur later than expected.

The amount and the rate of collection of the Clean Energy Adjustment, including the True-up Amount, will impact whether there is a delay in the scheduled payments on the Senior Notes. If the Clean Energy Adjustment amounts are collected at a slower rate than expected, OPG might have to make adjustments to the Clean Energy Adjustment for a subsequent Reference Period through the True-up Amount. ~~If~~**Until such adjustments are made or, if** those adjustments are not timely and accurate, there may be a delay in payments of principal and interest and a decrease in the value of the Senior Notes.

Indemnification obligations of OPG and the IESO are limited and might not be sufficient to protect the investments in the Senior Notes.

OPG will be obligated under the Management Agreement to indemnify the Issuer and the Indenture Trustee only in specified circumstances. Likewise, the IESO will be obligated under the Master Transfer and Servicing Agreement and the Acknowledgement and Indemnity Agreement to indemnify the Issuer and the Indenture Trustee only in specified circumstances.

Furthermore, neither OPG nor the IESO may have sufficient funds available to satisfy its indemnification obligations, and the amount of any indemnification paid by OPG or the IESO, as applicable, might not be sufficient for holders of Senior Notes to recover all of their investment in the Senior Notes. In addition, if OPG or the IESO becomes obligated to provide indemnification, the ratings on the Senior Notes might be downgraded as a result of the circumstances causing the breach.

Power outages could impair payment of the Senior Notes.

Ontario experiences seasonal conditions typical of southeastern Canada. Summers are usually hot with high temperatures in excess of 20°~~C~~ **Celsius**. Winters include snow and ~~icing~~**icy** conditions that can be damaging to overhead power lines. Transmission and/or distribution and generation facilities could be damaged depending on weather conditions and usage of electricity could be interrupted temporarily or for long periods of time, reducing the Clean Energy Adjustment amounts collected in one or more Reference Periods.

Technological changes that make alternative energy sources more attractive in the future or significant population fluctuations may result in fewer Specified Consumers from whom to collect the Clean Energy Adjustment.

Technological developments and/or tax or other economic incentives might result in the introduction of economically attractive, more fuel-efficient, more environmentally-friendly and/or more cost-effective alternatives to purchasing electricity through Electricity Vendors for increasing numbers of Specified Consumers. Manufacturers of self-generation facilities may develop smaller-scale, more fuel-efficient on-site generating and/or storage units that can be cost-effective options for a greater number of Specified Consumers. Moreover, an increase in self-service power may result if extreme weather conditions result in regular shortages of grid-supplied energy or if other factors cause grid-supplied energy to be less reliable. Specified Consumers who self-generate their electricity may use it to offset, or eliminate, their consumption from the grid thereby reducing, or eliminating, the Clean Energy Adjustment amounts payable by such Specified Consumers. Technological developments might allow greater numbers of Specified Consumers to reduce or even altogether avoid the payment of Clean Energy Adjustment amounts under such provisions through on-site generation, including where coupled with on-site storage capacity. This might reduce the kilowatt-hours of electric energy delivered to Specified Consumers by means of an Electricity Vendor's system, thereby causing Clean Energy Adjustment charges to the remaining Specified Consumers to increase. Such increases may reduce the collectability of the Clean Energy Adjustment.

Unexpected significant population decreases in the Province of Ontario or Specified Consumers unexpectedly ceasing business or departing from the Province of Ontario may adversely affect the amount of the Clean Energy Adjustment to be invoiced, collected and recovered from Specified Consumers. The decrease in the population of the Province of Ontario may result in fewer Specified Consumers from whom to collect the Clean Energy Adjustment. The increased impact on the remaining Specified Consumers could lead to increased potential consumer defaults and delays, billing lags and write-offs or variations in billing due to variations in electricity consumption.

Insolvency-Related Risks

If the Issuer were to become subject to Canadian Insolvency and Restructuring Laws, the Indenture Trustee's ability to enforce security granted by the Issuer may be significantly impaired or delayed.

Trusts such as the Issuer ordinarily cannot seek protection under the principal Canadian Insolvency and Restructuring Laws (other than a receivership). However, in view of the broad discretionary powers of courts under Canadian Insolvency and Restructuring Laws, the courts' inherent jurisdiction and otherwise, it is not possible to state with certainty that the Issuer could not become subject to Canadian Insolvency and Restructuring Laws. If the

Issuer were to become subject to Canadian Insolvency and Restructuring Laws, the Indenture Trustee's ability to enforce security granted by the Issuer may be significantly impaired or delayed. It is not possible to predict how long payments under the Senior Notes could be delayed following commencement of a proceeding under Canadian Insolvency and Restructuring Laws by the Issuer or whether or when the Indenture Trustee would be able to enforce upon or dispose of the assets over which it holds a security interest. Canadian Insolvency and Restructuring Laws also contemplate the granting of super priority security interests or charges (which could be in priority to the security of existing secured creditors) on the assets of the debtor company to secure the repayment of any amounts to be borrowed to facilitate the insolvency proceeding, any amounts owing for the fees and costs of professionals involved in the insolvency proceeding, obligations of directors of the company with respect to their statutory liabilities and sometimes other amounts.

Canadian Insolvency and Restructuring Laws also contain provisions enabling an obligor to prepare and file a proposal or a plan of arrangement or reorganization for consideration by all or some of its creditors, to be voted on by the various classes of creditors affected thereby. Such a restructuring proposal or plan of arrangement or reorganization, if accepted by the requisite majority of each class of affected creditors and if approved by the relevant Canadian court, would be binding on all creditors of the applicable obligor within the affected classes, including the Indenture Trustee and the Noteholders, whether or not the Indenture Trustee or any holders of Senior Notes votes in favour of the restructuring proposal or plan of arrangement or reorganization. Such a proposal or plan of arrangement or reorganization may have the effect of compromising certain rights available to the Indenture Trustee and the holders of Senior Notes under the Master Trust Indenture or in respect of the collateral.

If the IESO were to become subject to Canadian Insolvency and Restructuring Laws, the Transfers of specified portions of the Regulatory Asset by the IESO may not be respected as true sales of the Regulatory Asset.

Ordinarily, the interests of the Issuer as acquirer of an Investment Interest may be subordinate to statutory deemed trusts and other non-consensual liens, trusts and claims created or imposed by statute or rule of law on the property of the IESO arising prior to the time the corresponding Regulatory Asset was Transferred to the Issuer. This could reduce the amounts that may be available to the Issuer in respect of the Investment Interest and, consequently, the holders of Senior Notes. Section 27(3) of the ~~FHPA~~**Act** provides that at the time of the Transfer of the Regulatory Asset to a Financing Entity, such Transfer shall be deemed to have been perfected, vested, valid and binding against the IESO and all other persons who have claims of any kind against the IESO. Section 27(4) of the ~~FHPA~~**Act** provides that section 27(3) applies regardless of whether the persons who have claims have received notice of the Transfer and the property rights and interests acquired by the Transferee shall have priority over any liens in favour of those persons. However, in the event that the IESO becomes insolvent, its insolvency would be subject to federal bankruptcy and insolvency legislation and the effect of these provisions of the ~~FHPA~~**Act** in such circumstances is untested. The Transfers of the Regulatory Asset to the Issuer will be made in accordance with section 26 of the ~~FHPA~~**Act**. Section 27(1) of the ~~FHPA~~**Act** provides that a Transfer of a specified portion of the Regulatory Asset under section 26 constitutes a valid and enforceable absolute assignment, conveyance and sale of the corresponding Investment Interest to the Transferee. Therefore, the Investment Interest would not form part of the assets of the IESO and would not be available to the creditors of the IESO. However, with respect to certain insolvency events relating to the IESO, it is possible that an insolvency administrator or a creditor of the IESO may attempt to argue that the transactions between the IESO and the Issuer are not true sales of the Regulatory Asset. This position, if accepted by a court applying federal bankruptcy and insolvency laws, could prevent timely or ultimate payment of amounts due to the Issuer and, consequently, due from the Issuer to holders of Senior Notes.

These risks are in addition to the insolvency risks of the IESO noted above under *"Risks Associated with the Unusual Nature of the Investment Asset"*.

If the IESO or any Electricity Vendor were to become subject to Canadian Insolvency and Restructuring Laws, collections that have been commingled may be unrecoverable and the Issuer's ability to enforce its rights against the IESO or such Electricity Vendor may be significantly impaired or delayed.

Under the Master Transfer and Servicing Agreement, collections received by the IESO are to be held by the IESO in a segregated account. Until Clean Energy Adjustments are remitted to the IESO by Electricity Vendors, amounts collected by the Electricity Vendors are to be held by Electricity Vendors in segregated accounts. If the IESO or any Electricity Vendor fails to hold collections in a segregated account, then to the extent that funds are commingled and

used for the benefit of the IESO or such Electricity Vendor prior to making required deposits, in the event of the liquidation, insolvency, receivership or administration or other proceeding under Canadian Insolvency and Restructuring Laws of the IESO or the Electricity Vendor, the ability of the Issuer to enforce its rights to the collections in a timely manner may be adversely affected and collections that have been commingled may be unrecoverable. In the event of the insolvency of the IESO, the right of the Issuer under the Master Transfer and Servicing Agreement to appoint a replacement servicer may be stayed or prevented.

These risks are in addition to the insolvency risks of the IESO noted above under *"Risks Associated with the Unusual Nature of the Investment Asset"*.

If OPG were to become subject to Canadian Insolvency and Restructuring Laws, the Issuer's ability to enforce its rights against the Manager may be significantly impaired or delayed and the Issuer's assets and liabilities may be substantively consolidated with those of OPG.

Section 53.1 of the *Electricity Act, 1998* (Ontario), as amended by the *Fair Hydro Act, 2017* (Ontario), provides that, regardless of whether a Financing Entity is or is not a subsidiary of OPG: (a) the assets and liabilities of the Financing Entity shall not form part of the assets and liabilities of OPG or any of its subsidiaries (excluding the Financing Entity if it is a subsidiary); and (b) the assets and liabilities of OPG or any of its subsidiaries (excluding the Financing Entity if it is a subsidiary) shall not form part of the assets and liabilities of the Financing Entity. However, in the event that OPG becomes insolvent, its insolvency would be subject to federal bankruptcy and insolvency legislation and the effect of these provisions of the *Electricity Act, 1998* (Ontario), as amended by the *Fair Hydro Act, 2017* (Ontario), in such circumstances is untested. In particular, in the event of the liquidation, insolvency, receivership or administration or other proceeding under Canadian Insolvency and Restructuring Laws of OPG, the ability of the Issuer to enforce certain of its rights in and to the Investment Interest in a timely manner may be adversely affected. Such affected rights may include the right to appoint a replacement Manager. It is possible that the creditors of OPG may attempt to substantively consolidate the assets and liabilities of OPG and the Issuer. The Issuer and OPG have taken steps to minimize this risk. However, no assurance can be given that, in the case of the insolvency of OPG, a court would not order that the Issuer's assets and liabilities be substantively consolidated with those of OPG. Such substantive consolidation would result in all creditors of OPG and the Issuer being paid out of a common pool of assets, with no distinction as to which assets are property of OPG and which assets are property of the Issuer, and could cause payment of the claims of the beneficial owners of the Senior Notes to be subject to substantial delay and to adjustment in timing and amount.

If the Issuer Trustee were to become subject to Canadian Insolvency and Restructuring Laws, the assets and liabilities of the Issuer may be substantively consolidated with the Issuer Trustee.

In the case of the insolvency of the Issuer Trustee, it is possible that the creditors of the Issuer Trustee may attempt to argue that the assets of the Issuer are held by the Issuer Trustee in its personal capacity (and not as trustee of the Issuer) and are to be available to the creditors of the Issuer Trustee. Assuming that the Issuer Trustee deals with the assets of the Issuer in accordance with the provisions of the Declaration of Trust, the assets of the Issuer would not constitute property of the Issuer Trustee available for distribution to the creditors of the Issuer Trustee. An insolvency administrator appointed with respect to the Issuer Trustee may be able to recover from the property of the Issuer a portion of its costs that are incurred until a replacement for the Issuer Trustee, as trustee of the Issuer, is appointed or pending any proceeding in respect of the property of the Issuer. Such costs may exceed the compensation provided for in the Declaration of Trust.

If a Specified Consumer were to become subject to Canadian Insolvency and Restructuring Laws, the Issuer's ability to collect Clean Energy Adjustment amounts from such Specified Consumer may be adversely affected.

The application to a Specified Consumer of Canadian Insolvency and Restructuring Laws and related provincial laws could also affect the ability to collect the Clean Energy Adjustments due for the period prior to the insolvency. Federal bankruptcy laws generally discharge bankrupt Specified Consumers who are individuals of their obligation to pay Clean Energy Adjustment amounts due for the period prior to the individual being discharged from bankruptcy.

If amounts in the Issuer Accounts for any Series are invested with entities that become subject to insolvency proceedings, the Issuer's ability to make payments to holders of Senior Notes may be adversely affected.

Amounts that are on deposit from time to time in the Issuer Accounts for any Series may be invested in Eligible Investments. If insolvency proceedings were to be commenced by or against any entity with which an Eligible Investment is made or which is an issuer, obligor or guarantor of any Eligible Investment, the ability of the Indenture Trustee to enforce its rights in respect of any such Eligible Investment and the ability of the Issuer to make payments to holders of Senior Notes in a timely manner may be adversely affected. In order to reduce this risk, the Eligible Investments must satisfy certain ratings criteria. See *"Rating Agency Condition"*.

Other Risks

The credit ratings are not an indication of the expected rate of payment of principal on the Senior Notes.

The Senior Notes will be rated by one or more established rating agencies. A rating is not a recommendation to buy, sell or hold the Senior Notes. The ratings merely analyze the probability that the Issuer will repay the total principal amount of each series of Senior Notes at its final principal payment date (which is later than the Principal Payment Date(s)) and will make timely interest payments. The ratings are not an indication that the rating agencies believe that principal payments are likely to be paid on time according to any expected sinking fund schedule. Thus, the Issuer might repay the principal of a holder of Senior Notes later than expected, which might materially reduce the value of a holder's investment in the Senior Notes.

If the ratings on the Senior Notes are withdrawn or revised downward, the value of a holder's investment in the Senior Notes may be adversely affected.

There is no assurance that any credit rating will remain in effect for any given period of time. The ratings on the Senior Notes may be withdrawn or revised downward at any time without notice, which may have an adverse effect on the market price of the Senior Notes. A rating is not a recommendation to buy, sell or hold the Senior Notes. The ratings merely analyze the probability that the Issuer will repay the total principal amount of each series of Senior Notes at its final principal payment date (which is later than the Principal Payment Date(s)) and will make timely interest payments. The ratings are not an indication that the rating agencies believe that principal payments are likely to be paid on time according to any expected sinking fund schedule. Ratings on the Senior Notes may be lowered, qualified or withdrawn at any time without notice.

The credit ratings of the IESO, OPG and the Province of Ontario might affect the market value of the Senior Notes.

The Senior Notes will not be insured or guaranteed by the Province of Ontario, IESO, OPG or any of their respective affiliates or any other person or entity, except that the Province of Ontario has agreed to provide a limited guarantee in respect of the Senior Notes following the occurrence of certain events. See *"Change of Law Protection Agreement"*. Although neither the IESO nor OPG are obligors in respect of the Senior Notes, a downgrading of the current credit ratings of the IESO, OPG or the Province of Ontario might have an adverse effect on the market value of the Senior Notes, particularly, with respect to the IESO, during the Moratorium Period when no Clean Energy Adjustments are permitted to be collected from Specified Consumers. Credit ratings might change at any time. A rating agency has the authority to revise or withdraw its rating based solely upon its own judgment.

The absence of an established market for the Senior Notes might limit the ability to resell or refinance the Senior Notes.

There is no public market for the Senior Notes, and the Issuer does not intend to apply for a listing of the Senior Notes on any stock exchange. There can be no assurance as to the liquidity of the trading market for the Senior Notes or that a trading market for the Senior Notes will develop.

There is currently no secondary market for the Senior Notes. There can be no assurance that a secondary market will develop or, if a secondary market does develop, that it will provide holders of such Senior Notes with liquidity for their investment or that it will continue for the term of such Senior Notes. Accordingly, purchasers of the Senior

Notes may be required to bear the financial risk of investing in the Senior Notes until the maturity date of the Senior Notes.

If an active market does develop for the Senior Notes, the market price on the Senior Notes will depend on many factors including, but not limited to, (i) the Issuer's credit rating and the credit rating of the Senior Notes; (ii) the prevailing interest rates being paid on similar securities; (iii) the Issuer's financial condition and future prospects; and (iv) the overall condition of the economy and the financial markets. The condition of the financial markets and prevailing interest rates have fluctuated in the past and are likely to fluctuate in the future. Fluctuations could have an adverse effect on the market price of the Senior Notes.

The Financial Services Manager has the ability to determine whether to refinance Senior Notes maturing after May 2024 through the issuance of another Series of Senior Notes. However, there can be no assurance that Senior Notes can be refinanced on or before their applicable Principal Payment Default Date.

Restrictions on resale might limit the ability to resell the Senior Notes.

The Senior Notes may not be offered or sold, directly or indirectly, in Canada or to or for the account of any Canadian resident except, in the case of sales made in any province of Canada, pursuant to an exemption from the prospectus requirements under applicable securities laws. The Issuer currently does not intend to file a prospectus or similar document with any securities regulatory authority in Canada qualifying the resale of the Senior Notes to the public in any province of Canada in connection with any Offering of Senior Notes. As a result, the Senior Notes purchased pursuant to this confidential shelf offering memorandum will be subject to restrictions on resale, and may only be resold if a further statutory exemption may be relied upon by the investor or if an appropriate discretionary order or consent is obtained pursuant to applicable securities laws. See "Restrictions on Resale".

managed by that person, if that person is registered or authorized to carry on business as an adviser or the equivalent under the securities legislation of a jurisdiction of Canada or foreign jurisdiction; and (iii) was not created or used solely to purchase or hold securities as an accredited investor as described in paragraph (m) of the definition of "accredited investor" in NI 45-106;

(n) the purchaser has provided applicable certifications and/or other information or documentation to the Agents and the Issuer to evidence its status and criteria for compliance with the relevant category of "accredited investor," understands that the Agents and the Issuer may be required to verify that the purchaser satisfies such criteria, and that the purchaser may be required to provide additional information or documentation to the Agents and the Issuer to evidence such compliance;

(o) the purchaser, if resident in the Province of Québec, has agreed that all documents relating to such purchase be in English only, as more particularly described under the heading "Language of Documents". *L'acquéreur, s'il réside dans la Province de Québec, accepte que tous les documents liés à son acquisition soient en langue anglaise uniquement, tel qu'il est plus amplement décrit sous la rubrique «Langue des documents»*;

(p) it will execute, deliver and file such reports, undertakings and other documents relating to his, her or its purchase of the Senior Notes as may be required by applicable securities laws, regulations and rules, or assist the Issuer and the Agents, as applicable, in obtaining and filing such reports, undertakings and other documents;

(x) it will, if requested by the Issuer or the Agent from whom the purchase confirmation is received, provide evidence of the basis of its above representations; and

In addition, each purchaser of Senior Notes, by purchasing Senior Notes and accepting a purchase confirmation in respect thereof, represents to the Issuer and the Agents for the applicable Offering of Senior Notes that the purchaser:

(a) has been notified by the Issuer:

(i) that the Issuer is required to provide information pertaining to the purchaser of Senior Notes required to be disclosed in Schedule 1 of Form 45-106F1 under NI 45-l06 (including its name, address, telephone number and the number and value of securities purchased), which Form 45-106F1 the Issuer is required to file under NI 45-106;

(ii) that such personal information will be delivered to the applicable Canadian securities regulatory authorities (the "**Commissions**") in accordance with NI 45-106;

(iii) that such personal information is being collected indirectly by the applicable Commission under the authority granted to it in securities legislation;

(iv) that such personal information is being collected for the purposes of the administration and enforcement of securities legislation; and

(v) that the public official in the provinces of Canada who can answer questions about the indirect collection of such personal information is set out in Schedule A of this confidential shelf offering memorandum, and

(b) has authorized the indirect collection of the personal information by the applicable Commission.

By purchasing Senior Notes, the purchaser also acknowledges that its name and other specified information, including the number of Senior Notes it has purchased, may be disclosed to other Canadian securities regulatory authorities and become available to the public in accordance with the requirements of applicable laws and consents to the disclosure of that information. Furthermore, by purchasing the Senior Notes, the purchaser acknowledges that certain information as to its status as an "accredited investor" that the purchaser may have provided to any Agent involved in the trade may be required to be delivered by such Agent to the Issuer under the terms of an Agency

Agreement between the Issuer, OPG and the Agents referred to under "Plan of Distribution". By purchasing the Senior Notes, the purchaser consents to the disclosure of such information.

LANGUAGE OF DOCUMENTS

Upon receipt of this confidential shelf offering memorandum, each purchaser hereby confirms that it has expressly requested that all documents evidencing or relating in any way to the sale of the Senior Notes described herein (including for greater certainty any purchase confirmation or any notice) be drawn up in the English language only. *En recevant le présent document, chaque acquéreur confirme par les présentes qu'il a expressément demandé que tous les documents qui attestent la vente des débentures décrites dans les présentes ou qui s'y rapportent de quelque manière que ce soit (y compris, plus particulièrement, une confirmation d'achat ou un avis) soient rédigés en langue anglais seulement.*

RESTRICTIONS ON RESALE

The distribution of the Senior Notes in the provinces of Canada is being made on a private placement basis and is therefore exempt from the requirement that the Issuer prepare and file a prospectus with the relevant Canadian securities regulatory authorities. Accordingly, any resale of the Senior Notes must be made: (a) through an appropriately registered dealer or pursuant to an exemption from the dealer registration requirements of applicable provincial securities laws; and (b) in accordance with, or pursuant to an exemption from, the prospectus requirements of applicable provincial securities laws. These resale restrictions may in some circumstances apply to resales made outside of Canada. Purchasers are advised to seek legal advice prior to any resale of the Senior Notes.

Purchasers are advised that the Issuer does not intend to file a prospectus or similar document with any securities regulatory authority in Canada qualifying the resale of the Senior Notes to the public in any province of Canada in connection with any Offering.

Furthermore, each purchaser of Senior Notes, by its purchase thereof, will be deemed to have represented, acknowledged or confirmed, as the case may be, to the Issuer and any dealer who is involved in the sale of the Senior Notes to such purchaser that such purchaser understands that the Senior Notes are subject to transfer and resale restrictions in Canada and that the certificates representing the Senior Notes (or the relevant ownership statement under a direct registration system or other book-entry system) or other applicable document or notice (including this document) will bear or will notify the purchaser of the following legend:

> "EXCEPT IN THE PROVINCE OF MANITOBA, IN ACCORDANCE WITH NATIONAL INSTRUMENT 45-102 — RESALE OF SECURITIES, UNLESS OTHERWISE PERMITTED UNDER CANADIAN SECURITIES LEGISLATION, THE HOLDER OF THIS SECURITY MUST NOT TRADE THE SECURITY BEFORE THE DATE THAT IS FOUR MONTHS AND A DAY AFTER THE LATER OF (I) THE DATE ON WHICH THE SECURITY IS ISSUED; AND (II) THE DATE THE ISSUER BECOMES A REPORTING ISSUER IN ANY PROVINCE OR TERRITORY OF CANADA.
>
> IN THE PROVINCE OF MANITOBA, UNLESS OTHERWISE PERMITTED UNDER APPLICABLE CANADIAN SECURITIES LAWS OR WITH THE PRIOR WRITTEN CONSENT OF THE APPLICABLE REGULATORS, THE HOLDER OF THIS SECURITY MUST NOT TRADE THE SECURITY BEFORE THE DATE THAT IS TWELVE MONTHS AND A DAY AFTER THE DATE THE PURCHASER ACQUIRED THE SECURITY."

The Issuer is not and does not intend to become a reporting issuer.

There is currently no secondary market for the Senior Notes. There can be no assurance that a secondary market will develop or, if a secondary market does develop, that it will provide holders of such Series of Senior Notes with liquidity for their investment or that it will continue for the life of such Senior Notes. Accordingly,

purchasers of the Senior Notes may be required to bear the financial risk of investing in the Senior Notes until the maturity date.

REPORTING REQUIREMENTS

The Issuer is not a reporting issuer or the equivalent thereof under the securities legislation in any jurisdiction. Accordingly, the Issuer is not subject to the continuous reporting and disclosure requirements prescribed by such securities legislation. Therefore, there is no requirement that the Issuer comply with such requirements, including, without limitation, the requirements to provide prompt notification of material changes by way of press releases, to formally file disclosure documents with applicable securities regulatory authorities or to prepare and file annual audited financial statements or quarterly unaudited financial statements. However, the Issuer will provide audited annual financial statements and unaudited quarterly financial statements in accordance with the terms of the Master Trust Indenture. See *"Capital Markets Platform — Covenants of the Issuer — Financial Statements; Statement as to Compliance"*.

STATUTORY RIGHTS OF ACTION

Securities legislation in certain of the provinces of Canada provides purchasers, in addition to any other rights they may have at law, with a remedy for rescission or damages where an offering memorandum or any amendment to it, and in some cases, advertising and sales literature used in connection therewith, contains a misrepresentation. These remedies, or notice with respect thereto, must be exercised or delivered, as the case may be, by the purchaser within the time limit prescribed, and are subject to the defences contained, in the applicable securities legislation. Purchasers should refer to the applicable provisions of the securities legislation of their province for the particulars of these rights or consult with a legal advisor. The following is a summary of the rights of rescission or rights to damages available to purchasers of the Senior Notes.

Rights for Purchasers in Ontario

Section 5.2 of Ontario Securities Commission Rule 45-501 — *Ontario Prospectus and Registration Exemptions* provides that when an offering memorandum, such as this confidential shelf offering memorandum, is delivered to an investor to whom securities are distributed in reliance upon the "accredited investor" prospectus exemption in section 73.3 of the *Securities Act* (Ontario) or a predecessor exemption to section 73.3 of the *Securities Act* (Ontario) the right of action referred to in section 130.1 of the *Securities Act* (Ontario) ("**Section 130.1**") is applicable, unless the prospective purchaser is:

(a) an association governed by the *Cooperative Credit Associations Act* (Canada) or a central cooperative credit society for which an order has been made under section 473(1) of that Act;

(b) a bank, loan corporation, trust company, trust corporation, insurance company, treasury branch, credit union, caisse populaire, financial services cooperative, or league that, in each case, is authorized by an enactment of Canada or a jurisdiction of Canada to carry on business in Canada or a jurisdiction of Canada;

(c) a Schedule III bank, meaning an authorized foreign bank named in Schedule III of the *Bank Act* (Canada);

(d) the Business Development Bank of Canada incorporated under the *Business Development Bank of Canada Act* (Canada); or

(e) a subsidiary of any person referred to in paragraphs (a), (b), (c) or (d), if the person owns all of the voting securities of the subsidiary, except the voting securities required by law to be owned by the directors of the subsidiary.

Section 130.1(1) provides such investors who purchase securities offered by an offering memorandum with a statutory right of action against the Issuer of securities for rescission or damages in the event that the offering memorandum and any amendment to it contains a "misrepresentation". The term "misrepresentation" is defined to

mean an untrue statement of a material fact or an omission to state a material fact that is required to be stated or that is necessary to make any statement not misleading in the light of the circumstances in which it was made. These remedies, or notice with respect to these remedies, must be exercised or delivered, as the case may be, by the purchaser within the time limits prescribed by applicable securities laws.

Where this confidential shelf offering memorandum is delivered to a prospective purchaser of Senior Notes in connection with a trade made in reliance on section 73.3 of the *Securities Act* (Ontario), and this document contains a misrepresentation, the purchaser will have, without regard to whether the purchaser relied on the misrepresentation, a statutory right of action against the Issuer for damages or, while still the owner of Senior Notes, for rescission, in which case, if the purchaser elects to exercise the right of rescission, the purchaser will have no right of action for damages, provided that the right of action for rescission will be exercisable by the purchaser only if the purchaser commences the action not more than 180 days after the date of the transaction that gave rise to the cause of action; or, in the case of any action other than an action for rescission, the earlier of: (i) 180 days after the plaintiff first had knowledge of the facts giving rise to the cause of action, or (ii) three years after the date of the transaction that gave rise to the cause of action.

The Issuer will not be liable for a misrepresentation if it proves that the purchaser purchased the Senior Notes with knowledge of the misrepresentation.

In an action for damages, the Issuer will not be liable for all or any portion of the damages that the Issuer proves do not represent the depreciation in value of the Senior Notes as a result of the misrepresentation relied upon.

In no case will the amount recoverable for the misrepresentation exceed the price at which the Senior Notes were offered.

The liability of all persons and companies referred to above is joint and several. The Issuer, however, shall not be liable where it is not receiving any proceeds from the distribution of the securities being distributed and the misrepresentation was not based on information provided by the Issuer, unless the misrepresentation, (a) was based on information that was previously publicly disclosed by the Issuer, (b) was a misrepresentation at the time of its previous public disclosure and (c) was not subsequently publicly corrected or superseded by the Issuer prior to the completion of the distribution of the securities being distributed.

The foregoing statutory right of action for rescission or damages conferred is in addition to and without derogation from any other right the purchaser may have at law.

This summary is subject to the express provisions of the *Securities Act* (Ontario) and the regulations and rules made under it, and prospective investors should refer to the complete text of those provisions.

Rights for Purchasers in Saskatchewan

Section 138 of *The Securities Act, 1988* (Saskatchewan), as amended (the "**Saskatchewan Act**") provides that where an offering memorandum (such as this confidential shelf offering memorandum) or any amendment to it is sent or delivered to a purchaser and it contains a misrepresentation (as defined in the Saskatchewan Act), a purchaser who purchases a security covered by the offering memorandum or any amendment to it has, without regard to whether the purchaser relied on the misrepresentation, a right of action for rescission against the Issuer or a selling security holder on whose behalf the distribution is made or has a right of action for damages against:

(a) the Issuer or a selling security holder on whose behalf the distribution is made;

(b) every promoter and trustee of the Issuer or the selling security holder, as the case may be, at the time the offering memorandum or any amendment to it was sent or delivered;

Section 138 provides, in the relevant part, that in the event that this confidential shelf offering memorandum **(which shall for the purposes hereof be considered to include any document or record incorporated or deemed to be incorporated by reference herein)**, together with any amendments hereto **(which shall for the purposes hereof be considered to include any document or record incorporated or deemed to be incorporated by reference therein)**, or any advertising or sales literature (as defined in the *Securities Act* (Nova Scotia)) contains an untrue statement of material fact or omits to state a material fact that is required to be stated or that is necessary in order to make any statements contained herein or therein not misleading in light of the circumstances in which it was made (a "misrepresentation"), a purchaser of Senior Notes is deemed to have relied upon such misrepresentation if it was a misrepresentation at the time of purchase and has, subject to certain limitations and defences, a statutory right of action for damages against the Issuer, its trustees, any person who signed this confidential shelf offering memorandum, any selling security holder and the directors of any such selling security holder at the date of this confidential shelf offering memorandum or, alternatively, while still the owner of the Senior Notes, may elect instead to exercise a statutory right of rescission against the Issuer, in which case the purchaser will have no right of action for damages against any person listed above, including the Issuer, provided that, among other limitations:

(a) no action ~~will~~**may** be commenced to enforce the right of action for rescission or damages by a purchaser resident in Nova Scotia under Section 138 later than 120 days after the date payment

was made for the Senior Notes (or after the date on which initial payment was made for the Senior Notes where payments subsequent to the initial payment are made pursuant to a contractual commitment assumed prior to, or concurrently with, the initial payment);

(b) no person will be liable if it proves that the purchaser purchased the Senior Notes with knowledge of the misrepresentation;

(c) no person or company, other than the Issuer, is liable under Section 138 if the person or company proves that:

(iii) with respect to any part of this confidential shelf offering memorandum, or amendment hereto, or any record incorporated or deemed to be incorporated by reference ~~therein~~**herein**, purporting to be made on the authority of an expert, or to be a copy of, or an extract from a report, an opinion or a statement of an expert, the person or company had no reasonable grounds to believe and did not believe that there had been a misrepresentation, or that the relevant part of this confidential shelf offering memorandum, or amendment hereto, or such record, did not fairly represent the report, opinion or statement of the expert, or was not a fair copy of, or extract from, the report, opinion or statement of the expert;

(d) no person or company, other than the Issuer, is liable under Section 138 with respect to any part of this confidential shelf offering memorandum, or amendment hereto, or any record incorporated or deemed incorporated by reference ~~therein~~**herein**, not purporting to be made on the authority of an expert, or to be a copy of**,** or an extract from, a report, opinion or statement of an expert, unless the person or company failed to conduct a reasonable investigation to provide reasonable grounds for a belief that there had been no misrepresentation, or believed that there had been a misrepresentation;

A defendant who is found liable to pay a sum in damages may recover a contribution, in whole or in part, from a person or company who is jointly and severally liable to make the same payment in the same cause of action unless, in all the circumstances of the case, the court is satisfied that it would not be just and equitable.

The foregoing statutory right of action for rescission or damages conferred by Section 138 of the *Securities Act* (Nova Scotia) is in addition to and without derogation from any other right or remedy available at law or otherwise to the purchaser. Rights for Purchasers in New Brunswick

Section 2.1 of New Brunswick Securities Commission Rule 45-802 provides that the statutory rights of action in rescission or damages referred to in Section 150 of the *Securities Act* (New Brunswick) ("**Section 150**") apply to information relating to an offering memorandum, such as this confidential shelf offering memorandum, that is provided to a purchaser of securities in connection with a distribution made in reliance on the "accredited investor" prospectus exemption in Section 2.3 of NI 45-106. Section 150 provides investors who purchase securities offered for sale in reliance on an exemption from the prospectus requirements of the *Securities Act* (New Brunswick) with a statutory right of action for damages against (i) the Issuer; (ii) the selling security holder on whose behalf the distribution was made; (iii) every person who was a director of the Issuer as at the date of the offering memorandum; and (iv) every person who signed the offering memorandum in the event that an offering memorandum provided to such investor contains a "misrepresentation". Alternatively, if the investor purchased the securities from a person referred to in (i) or (ii) above, an investor may elect a right of rescission, in which case the investor shall have no right of action for damages. "Misrepresentation" means an untrue statement of a material fact or an omission to state a material fact that is required to be stated or that is necessary to make a statement not misleading in the light of the circumstances in which it was made.

Where this confidential shelf offering memorandum is delivered to a prospective purchaser of Senior Notes in connection with a trade made in reliance on Section 2.3 of NI 45-106, and this document (including any documentation incorporated or deemed to be incorporated by reference) contains a misrepresentation, a purchaser who purchases the securities will be deemed to have relied on the misrepresentation and will have, subject to certain limitations and defences, a statutory right of action against the Issuer for damages or, while still the owner of Senior Notes, for rescission. If the purchaser elects to exercise the right of rescission, the purchaser will have no right of action for damages. The right of action for rescission will be exercisable by the purchaser only if the purchaser commences the action against the defendant, not more than 180 days after the date of the transaction that gave rise to the cause of action; or, in the case of any action other than an action for rescission, the earlier of: (i) one year after the plaintiff first had knowledge of the facts giving rise to the cause of action, or (ii) six years after the date of the transaction that gave rise to the cause of action.

No person other than the Issuer or the selling security holder is liable under Section 150 if the person proves that:

(a) the offering memorandum was delivered to the purchaser without the person's knowledge or consent and that, on becoming aware of its delivery, the person gave written notice to the Issuer that it was delivered without the person's knowledge or consent;

(b) upon becoming aware of a misrepresentation in the offering memorandum the person withdrew the person's consent to the offering memorandum and gave written notice to the Issuer of the withdrawal and the reason for the withdrawal; or

(c) with respect to any part of the offering memorandum purporting to be made on the authority of an expert or purporting to be a copy of, or an extract from, a report, opinion or statement of an expert, the person had no reasonable grounds to believe and did not believe there had been a misrepresentation or that the relevant part of the offering memorandum did not fairly represent the report, opinion or statement of the expert or was not a fair copy of, or extract from, the report, opinion or statement of the expert.

In addition, no person other than the Issuer or the selling security holder is liable under Section 150 with respect to any part of an offering memorandum not purporting to be made on the authority of an expert and not purporting to be a copy of, or an extract from, a report, opinion or statement of an expert unless (i) the person failed to conduct such reasonable investigations as to provide reasonable grounds for a belief that there had been no misrepresentation or (ii) the person believed that there had been misrepresentation.

The defendant will not be liable for a misrepresentation if it proves that the purchaser purchased the Senior Notes with knowledge of the misrepresentation.

In an action for damages, the defendant will not be liable for all or any portion of the damages that the defendant proves do not represent the depreciation in value of the Senior Notes as a result of the misrepresentation relied upon.

In no case will the amount recoverable for the misrepresentation exceed the price at which the Senior Notes were offered.

The liability of all persons referred to above is joint and several.

The foregoing statutory right of action for rescission or damages conferred is in addition to and without derogation from any other right the purchaser may have at law.

For a discussion of the consequences of such declaration, see the confidential shelf offering memorandum under the headings "*Capital Markets Platform – Acceleration and Remedies*" and "*Risk Factors – If a Series of Senior Notes or all Senior Notes are accelerated, a holder of Senior Notes might receive payment of principal sooner or later than expected*".

CERTAIN CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

In the opinion of Torys LLP and Osler, Hoskin & Harcourt LLP, the following summary describes the principal Canadian federal income tax considerations generally applicable under the Income Tax Act (Canada) (the "**Tax Act**") to a holder who acquires Series 2018-1 Senior Notes as beneficial owner pursuant to the Series 2018-1 Senior Notes Offering and who, for purposes of the Tax Act and at all relevant times, deals at arm's length and is not affiliated with the Issuer, and holds Series 2018-1 Senior Notes as capital property (a "**Holder**"). Generally, the Series 2018-1 Senior Notes will be capital property to a Holder provided that the Holder does not acquire or hold the Series 2018-1 Senior Notes in the course of carrying on a business or as part of an adventure or concern in the nature of trade. Certain holders who might not otherwise be considered to hold their Series 2018-1 Senior Notes as capital property may, in certain circumstances, be entitled to treat their Series 2018-1 Senior Notes and any other "Canadian security" (as defined in the Tax Act) owned by them in the taxation year of the election and all subsequent taxation years as capital property by making the irrevocable election permitted by subsection 39(4) of the Tax Act. Such holders are advised to consult their own tax advisors to determine whether such an election is available and desirable in their particular circumstances.

This summary is not applicable to a holder: (i) that is a "financial institution" (as defined in the Tax Act for purposes of the "mark to market property" and "specified debt obligation" rules); (ii) an interest in which is a "tax shelter investment" (as defined in the Tax Act); (iii) that reports its "Canadian tax results" (as defined in the Tax Act) in a currency other than Canadian dollars; or (iv) that has entered into or will enter into a "derivative forward agreement" as defined in the Tax Act in respect of the Series 2018-1 Senior Notes. Any such holders should consult their own tax advisors with respect to an investment in the Series 2018-1 Senior Notes. In addition, this summary does not address the deductibility of interest by a holder who has borrowed money to acquire Series 2018-1 Senior Notes.

On July 18, 2017, the Minister of Finance (Canada) released a consultation paper that included an announcement of its intention to amend the Tax Act to increase the amount of tax applicable to passive investment income earned through a private corporation. No specific amendments to the Tax Act were proposed in connection with this announcement and this summary does not consider the implications of this announcement. On November 18, 2017, the Minister of Finance (Canada) announced that the government intends to move forward with the planned amendments subject to further developments to address concerns of business owners the details of which are not yet available. Holders that are private corporations should consult their own tax advisors regarding the implications of these announcements with respect to their particular circumstances.

This summary is based upon the facts set out in the confidential shelf offering memorandum, the current provisions of the Tax Act and the regulations thereunder (the "**Regulations**"), all specific proposals to amend the Tax Act and the Regulations publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date hereof (the "**Tax Proposals**") and counsel's understanding of the current published administrative policies and practices of the Canada Revenue Agency. There can be no assurance that any Tax Proposals will be implemented in their current form or at all. This summary does not otherwise take into account or anticipate any changes in law or administrative policies and practices, whether by legislative, administrative or judicial action nor does it take into account provincial, territorial or foreign tax legislation or considerations, which may differ significantly from those discussed herein.

This summary is not exhaustive of all possible Canadian federal income tax considerations applicable to an investment in the Series 2018-1 Senior Notes. Moreover, the income and other tax consequences of acquiring, holding or disposing of the Series 2018-1 Senior Notes will vary depending on the Holder's particular circumstances, including the province or territory, or provinces or territories, in which the Holder resides or carries on business. Accordingly, this summary is of a general nature only and is not intended to be legal or tax advice to any particular Holder, and no representations with respect to the income tax consequences to any Holder are made. Investors should consult their own tax advisors for advice with respect to the tax consequences of an investment in the Series 2018-1 Senior Notes based on their particular circumstances. This summary does not address any tax considerations applicable to persons other than Holders and such persons should consult their own tax advisors regarding the consequences of acquiring, holding and disposing of Series 2018-1 Senior Notes under the Tax Act and any jurisdiction in which they may be subject to tax.

Foreign Exchange

For purposes of the Tax Act, all amounts relating to the acquisition, holding or disposition of Series 2018-1 Senior Notes must be expressed in Canadian dollars, including any interest, adjusted cost base and proceeds of disposition. For purposes of the Tax Act, amounts denominated in a currency other than the Canadian dollar generally must be converted into Canadian dollars in accordance with the Tax Act on the date such amounts first arose. A Holder may realize a capital gain or a capital loss on the disposition or deemed disposition of a Series 2018-1 Senior Note by virtue of fluctuations in the value of the U.S. dollar relative to the Canadian dollar. The amount of interest or other amounts required to be included in computing the Holder's income for a taxation year will also be affected by fluctuations in the U.S. dollar relative to the Canadian dollar.

Interest on Series 2018-1 Senior Notes

A Holder that is a corporation, partnership, unit trust or any trust of which a corporation or partnership is a beneficiary will be required to include in computing its income for a taxation year all interest on the Series 2018-1 Senior Notes that accrues or is deemed to accrue to such Holder to the end of the particular taxation year or that becomes receivable or is received by the Holder before the end of that taxation year, including on a redemption or repayment on maturity, except to the extent that such interest was included in computing the Holder's income for a preceding taxation year.

Any other Holder, including an individual, will be required to include in computing its income for a taxation year all interest on the Series 2018-1 Senior Notes that is received or receivable by the Holder in that taxation year (depending upon the method regularly followed by the Holder in computing income), including on a redemption, purchase for cancellation, or repayment on maturity, except to the extent that the interest was included in the Holder's income for a preceding taxation year.

Any premium paid by the Issuer to a Holder on the redemption of a Series 2018-1 Senior Note or a purchase for cancellation of a Series 2018-1 Senior Note (other than in the open market in the manner any such obligation would normally be purchased in the open market by any member of the public), will generally be deemed to be interest received at the time by the Holder to the extent that such premium can reasonably be considered to relate to, and does not exceed the value at the time of the redemption of or purchase for cancellation of, the interest that, would have been paid or payable by the Issuer on the Series 2018-1 Senior Note for a taxation year ending after the redemption or purchase for cancellation, and to the extent such premium was not otherwise included in computing the Holder's income for that taxation year or a previous taxation year.

Where a Holder is required to include in income interest on a Series 2018-1 Senior Note that accrued before such Series 2018-1 Senior Note was acquired by the Holder, the Holder will be entitled to a deduction in computing income of an equivalent amount. The adjusted cost base to the Holder of the Series 2018-1 Senior Note will be reduced by the amount which is so deductible.

If a Series 2018-1 Senior Note is purchased by a Holder at a discount from its face value, the Holder may be required to include an amount equal to such discount in computing income, either in accordance with the deemed interest accrual rules contained in the Tax Act and Regulations or in the taxation year in which an amount in respect of the discount is received or receivable by the Holder. Holders should consult their own tax advisors in these circumstances as the treatment of the discount may vary with the facts and circumstances giving rise to the discount.

Disposition of Series 2018-1 Senior Notes

On a disposition or deemed disposition of a Series 2018-1 Senior Note (including a redemption, purchase for cancellation or repayment at maturity), a Holder will generally be required to include in income any premium deemed to be interest and the amount of interest accrued, or deemed to have accrued, on the Series 2018-1 Senior Note from the date of the last interest payment to the date of disposition to the extent that such amount has not otherwise been included in the Holder's income for the taxation year or a previous taxation year.

A disposition or deemed disposition by a Holder of a Series 2018-1 Senior Note will generally result in the Holder realizing a capital gain (or capital loss) equal to the amount by which the proceeds of disposition, net of any accrued interest or any amount deemed to be interest, exceed (or are exceeded by) the aggregate of the Holder's adjusted cost base thereof and any reasonable costs of disposition.

One half of any capital gain (a "**taxable capital gain**") generally must be included in the Holder's income for the taxation year of the disposition, and one half of any capital loss (an "**allowable capital loss**") realized in a taxation year must be deducted from taxable capital gains realized in that year. Allowable capital losses in excess of taxable capital gains realized in a taxation year may be deducted from net taxable capital gains realized in the three preceding taxation years or any subsequent taxation year, subject to detailed rules contained in the Tax Act in this regard. A capital gain realized by an individual (other than certain specified trusts) may give rise to a liability for alternative minimum tax.

Eligibility for Investment

The Series 2018-1 Senior Notes would, if acquired on the date hereof and if they (i) are issued as part of a single issue of debt of at least $25 million and (ii) have an investment grade rating with certain rating agencies prescribed under the Tax Act, be qualified investments under the Tax Act for a trust governed by a registered retirement savings plan ("**RRSP**"), registered retirement income fund ("**RRIF**"), registered education savings plan ("**RESP**"), registered disability savings plan ("**RDSP**"), tax free savings account ("**TFSA**") and deferred profit sharing plan ("**DPSP**") (except for a trust governed by a DPSP to which the Issuer has made a contribution).

Even if the Series 2018-1 Senior Notes may be qualified investments for a trust governed by an RRSP, RRIF, RESP, RDSP or TFSA, if the Series 2018-1 Senior Notes are "prohibited investments" (as defined in section 207.01 of the Tax Act) for an RRSP, RRIF, RESP, RDSP or TFSA, then a holder of the TFSA or RDSP, a subscriber of the RESP or an annuitant of the RRSP or RRIF, as the case may be, will be subject to a penalty tax as set out in the Tax Act. The Series 2018-1 Senior Notes would not be prohibited investments on the date hereof, provided (i) the holder of the TFSA or RDSP, the subscriber of the RESP or the annuitant of the RRSP or RRIF, as the case may be, deals at arm's length with the Issuer within the meaning of the Tax Act, and (ii) does not have a "significant interest" within the meaning of subsection 207.01(4) of the Tax Act in the Issuer. Investors intending to hold the Series 2018-1 Senior Notes in a TFSA, RRSP, RRIF, RESP or RDSP should consult their own advisors as to whether the Series 2018-1 Senior Notes would be a prohibited investment in their particular circumstances.

CERTAIN CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

In the opinion of Torys LLP and Osler, Hoskin & Harcourt LLP, the following summary describes the principal Canadian federal income tax considerations generally applicable under the Income Tax Act (Canada) (the "**Tax Act**") to a holder who acquires Series 2018-1 Senior Notes as beneficial owner pursuant to the Series 2018-1 Senior Notes Offering and who, for purposes of the Tax Act and at all relevant times, deals at arm's length and is not affiliated with the Issuer, and holds Series 2018-1 Senior Notes as capital property (a "**Holder**"). Generally, the Series 2018-1 Senior Notes will be capital property to a Holder provided that the Holder does not acquire or hold the Series 2018-1 Senior Notes in the course of carrying on a business or as part of an adventure or concern in the nature of trade. Certain holders who might not otherwise be considered to hold their Series 2018-1 Senior Notes as capital property may, in certain circumstances, be entitled to treat their Series 2018-1 Senior Notes and any other "Canadian security" (as defined in the Tax Act) owned by them in the taxation year of the election and all subsequent taxation years as capital property by making the irrevocable election permitted by subsection 39(4) of the Tax Act. Such holders are advised to consult their own tax advisors to determine whether such an election is available and desirable in their particular circumstances.

This summary is not applicable to a holder: (i) that is a "financial institution" (as defined in the Tax Act for purposes of the "mark to market property" and "specified debt obligation" rules); (ii) an interest in which is a "tax shelter investment" (as defined in the Tax Act); (iii) that reports its "Canadian tax results" (as defined in the Tax Act) in a currency other than Canadian dollars; or (iv) that has entered into or will enter into a "derivative forward agreement" as defined in the Tax Act in respect of the Series 2018-1 Senior Notes. Any such holders should consult their own tax advisors with respect to an investment in the Series 2018-1 Senior Notes. In addition, this summary does not address the deductibility of interest by a holder who has borrowed money to acquire Series 2018-1 Senior Notes.

On July 18, 2017, the Minister of Finance (Canada) released a consultation paper that included an announcement of its intention to amend the Tax Act to increase the amount of tax applicable to passive investment income earned through a private corporation. No specific amendments to the Tax Act were proposed in connection with this announcement and this summary does not consider the implications of this announcement. On ~~October~~**November** 18, 2017, the Minister of Finance (Canada) announced that the government intends to move forward with the planned amendments subject to further developments to address concerns of business owners the details of which are not yet available. Holders that are private corporations should consult their own tax advisors regarding the implications of these announcements with respect to their particular circumstances.

This summary is based upon the facts set out in the confidential shelf offering memorandum, the current provisions of the Tax Act and the regulations thereunder (the "**Regulations**"), all specific proposals to amend the Tax Act and the Regulations publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date hereof (the "**Tax Proposals**") and counsel's understanding of the current published administrative policies and practices of the Canada Revenue Agency. There can be no assurance that any Tax Proposals will be implemented in their current form or at all. This summary does not otherwise take into account or anticipate any changes in law or administrative policies and practices, whether by legislative, administrative or judicial action nor does it take into account provincial, territorial or foreign tax legislation or considerations, which may differ significantly from those discussed herein.

This summary is not exhaustive of all possible Canadian federal income tax considerations applicable to an investment in the Series 2018-1 Senior Notes. Moreover, the income and other tax consequences of acquiring, holding or disposing of the Series 2018-1 Senior Notes will vary depending on the Holder's particular circumstances, including the province or territory, or provinces or territories, in which the Holder resides or carries on business. Accordingly, this summary is of a general nature only and is not intended to be legal or tax advice to any particular Holder, and no representations with respect to the income tax consequences to any Holder are made. Investors should consult their own tax advisors for advice with respect to the tax consequences of an investment in the Series 2018-1 Senior Notes based on their particular circumstances. This summary does not address any tax considerations applicable to persons other than Holders and such persons should consult their own tax advisors regarding the consequences of acquiring, holding and disposing of Series 2018-1 Senior Notes under the Tax Act and any jurisdiction in which they may be subject to tax.

Foreign Exchange

For purposes of the Tax Act, all amounts relating to the acquisition, holding or disposition of Series 2018-1 Senior Notes must be expressed in Canadian dollars, including any interest, adjusted cost base and proceeds of disposition. For purposes of the Tax Act, amounts denominated in a currency other than the Canadian dollar generally must be converted into Canadian dollars in accordance with the Tax Act on the date such amounts first arose. A Holder may realize a capital gain or a capital loss on the disposition or deemed disposition of a Series 2018-1 Senior Note by virtue of fluctuations in the value of the U.S. dollar relative to the Canadian dollar. The amount of interest or other amounts required to be included in computing the Holder's income for a taxation year will also be affected by fluctuations in the U.S. dollar relative to the Canadian dollar.

Interest on Series 2018-1 Senior Notes

A Holder that is a corporation, partnership, unit trust or any trust of which a corporation or partnership is a beneficiary will be required to include in computing its income for a taxation year all interest on the Series 2018-1 Senior Notes that accrues or is deemed to accrue to such Holder to the end of the particular taxation year or that becomes receivable or is received by the Holder before the end of that taxation year, including on a redemption or repayment on maturity, except to the extent that such interest was included in computing the Holder's income for a preceding taxation year.

Any other Holder, including an individual, will be required to include in computing its income for a taxation year all interest on the Series 2018-1 Senior Notes that is received or receivable by the Holder in that taxation year (depending upon the method regularly followed by the Holder in computing income), including on a redemption, purchase for cancellation, or repayment on maturity, except to the extent that the interest was included in the Holder's income for a preceding taxation year.

Any premium paid by the Issuer to a Holder on the redemption of a Series 2018-1 Senior Note or a purchase for cancellation of a Series 2018-1 Senior Note (other than in the open market in the manner any such obligation would normally be purchased in the open market by any member of the public), will generally be deemed to be interest received at the time by the Holder to the extent that such premium can reasonably be considered to relate to, and does not exceed the value at the time of the redemption of or purchase for cancellation of, the interest that, would have been paid or payable by the Issuer on the Series 2018-1 Senior Note for a taxation year ending after the redemption or purchase for cancellation, and to the extent such premium was not otherwise included in computing the Holder's income for that taxation year or a previous taxation year.

Where a Holder is required to include in income interest on a Series 2018-1 Senior Note that accrued before such Series 2018-1 Senior Note was acquired by the Holder, the Holder will be entitled to a deduction in computing income of an equivalent amount. The adjusted cost base to the Holder of the Series 2018-1 Senior Note will be reduced by the amount which is so deductible.

If a Series 2018-1 Senior Note is purchased by a Holder at a discount from its face value, the Holder may be required to include an amount equal to such discount in computing income, either in accordance with the deemed interest accrual rules contained in the Tax Act and Regulations or in the taxation year in which an amount in respect of the discount is received or receivable by the Holder. Holders should consult their own tax advisors in these circumstances as the treatment of the discount may vary with the facts and circumstances giving rise to the discount.

Disposition of Series 2018-1 Senior Notes

On a disposition or deemed disposition of a Series 2018-1 Senior Note (including a redemption, purchase for cancellation or repayment at maturity), a Holder will generally be required to include in income any premium deemed to be interest and the amount of interest accrued, or deemed to have accrued, on the Series 2018-1 Senior Note from the date of the last interest payment to the date of disposition to the extent that such amount has not otherwise been included in the Holder's income for the taxation year or a previous taxation year.

A disposition or deemed disposition by a Holder of a Series 2018-1 Senior Note will generally result in the Holder realizing a capital gain (or capital loss) equal to the amount by which the proceeds of disposition, net of any accrued interest or any amount deemed to be interest, exceed (or are exceeded by) the aggregate of the Holder's adjusted cost base thereof and any reasonable costs of disposition.

One half of any capital gain (a "**taxable capital gain**") generally must be included in the Holder's income for the taxation year of the disposition, and one half of any capital loss (an "**allowable capital loss**") realized in a taxation year must be deducted from taxable capital gains realized in that year. Allowable capital losses in excess of taxable capital gains realized in a taxation year may be deducted from net taxable capital gains realized in the three preceding taxation years or any subsequent taxation year, subject to detailed rules contained in the Tax Act in this regard. A capital gain realized by an individual (other than certain specified trusts) may give rise to a liability for alternative minimum tax.

Eligibility for Investment

The Series 2018-1 Senior Notes would, if acquired on the date hereof and if they (i) are issued as part of a single issue of debt of at least $25 million and (ii) have an investment grade rating with certain rating agencies prescribed under the Tax Act, be qualified investments under the Tax Act for a trust governed by a registered retirement savings plan ("**RRSP**"), registered retirement income fund ("**RRIF**"), registered education savings plan ("**RESP**"), registered disability savings plan ("**RDSP**"), tax free savings account ("**TFSA**") and deferred profit sharing plan ("**DPSP**") (except for a trust governed by a DPSP to which the Issuer has made a contribution).

Even if the Series 2018-1 Senior Notes may be qualified investments for a trust governed by an RRSP, RRIF, RESP, RDSP or TFSA, if the Series 2018-1 Senior Notes are "prohibited investments" (as defined in section 207.01 of the Tax Act) for an RRSP, RRIF, RESP, RDSP or TFSA, then a holder of the TFSA or RDSP, a subscriber of the RESP or an annuitant of the RRSP or RRIF, as the case may be, will be subject to a penalty tax as set out in the Tax Act. The Series 2018-1 Senior Notes would not be prohibited investments on the date hereof, provided (i) the holder of the TFSA or RDSP, the subscriber of the RESP or the annuitant of the RRSP or RRIF, as the case may be, deals at arm's length with the Issuer within the meaning of the Tax Act, and (ii) does not have a "significant interest" within the meaning of subsection 207.01(4) of the Tax Act in the Issuer. Investors intending to hold the Series 2018-1 Senior Notes in a TFSA, RRSP, RRIF, RESP or RDSP should consult their own advisors as to whether the Series 2018-1 Senior Notes would be a prohibited investment in their particular circumstances.

RELATIONSHIP BETWEEN THE ISSUER AND THE AGENTS

CIBC World Markets Inc., RBC Dominion Securities Inc. and Goldman Sachs Canada Inc. are each, directly or indirectly, a wholly-owned or majority-owned subsidiary or affiliate of a financial institution which is a lender to the Issuer and to which the Issuer is currently indebted under the terms of the Warehouse Facilities. The Issuer may use a portion of the net proceeds of the Series 2018-1 Senior Notes Offering to repay certain indebtedness under the Warehouse Facilities. Consequently, the Issuer may be considered to be a "connected issuer" of certain of the Agents under applicable Canadian securities legislation. As of the date of this Term Sheet, the Issuer is in compliance with the terms of its indebtedness under the Warehouse Facilities. Since the indebtedness under the Warehouse Facilities was incurred, the financial position of the Issuer has not materially changed. As of ●, 2018, the Issuer had approximately $● outstanding under the Warehouse Facilities. CIBC World Markets Inc., RBC Dominion Securities Inc. and Goldman Sachs Canada Inc. have each advised that the decision to act as Agents for the Series 2018-1 Senior Notes Offering was made independently of the lenders under the Warehouse Facilities and the lenders had no influence as to the determination of the terms of the distribution. None of CIBC World Markets Inc., RBC Dominion Securities Inc. and Goldman Sachs Canada Inc. will receive any benefit in connection with the Series 2018-1 Senior Notes Offering other than its respective portion of the Agents' commission payable by the Issuer.

LEGAL MATTERS

Certain Canadian legal matters in connection with the Series 2018-1 Senior Notes Offering will be passed upon by Torys LLP on behalf of the Issuer and by Osler, Hoskin & Harcourt LLP on behalf of the Agents.

(a) The Offering is to be effected in a manner exempt from the prospectus requirements of Securities Laws. The Notes shall be offered for sale to Purchasers in accordance with the "accredited investor exemption" as defined in section 2.3 of National Instrument 45-106 – *Prospectus Exemptions* of the Canadian Securities Administrators ("**NI 45-106**") and, in the case of Purchasers resident in Ontario, section 73.3(2) of the *Securities Act* (Ontario) (the "**OSA**"). For the purposes of this Agreement, "**Securities Laws**" means the applicable securities acts and laws, and the rules and regulations promulgated thereunder, of the Offering Jurisdictions and the rules, instruments, orders, published policy statements, rulings and notices of the securities regulatory authorities of such jurisdictions.

(b) The Agents will solicit offers to purchase the Notes only from "accredited investors" (as such term is defined in section 1.1 of NI 45-106 or in section 73.3 of the OSA, as the case may be) in the Offering Jurisdictions who are not individuals unless such individuals are "permitted clients" (as such term is defined in National Instrument 31-103 – *Registration Requirements, Exemptions and Ongoing Registrant Requirements* ("**NI 31-103**")), all in accordance with all applicable Securities Laws and this Agreement and on a private placement basis so as not to require the Issuer to file a prospectus in any jurisdiction.

(c) The Agents acknowledge and agree that the Notes will not be registered under the United States Securities Act of 1933, as amended, (the "**1933 Act**") or applicable state securities laws and the Agents shall not offer or sell, directly or indirectly, in the United States of America (including the States and the District of Columbia), its territories, its possessions and other areas subject to its jurisdiction (the "**United States**") or to a U.S. person (as defined in Regulation S under the 1933 Act).

4. **Distribution of Notes**.

(a) The Issuer shall, as soon as reasonably practicable and in any event prior to the Closing Date, use its reasonable commercial efforts to fulfill to the satisfaction of legal counsel to the Agents (the "**Agents' Counsel**"), acting reasonably, all legal requirements to be fulfilled by the Issuer to enable the Notes to be offered for sale and sold in each of the Offering Jurisdictions through the Agents in the manner contemplated herein and without any requirement that a prospectus be filed under the Securities Laws. The Issuer shall also file or cause to be filed with the securities regulatory authorities in the Offering Jurisdictions all information and forms

required to be supplied or filed by it in connection with the Offering under applicable Securities Laws including, without limitation, filing the Offering Memorandum and the reports on Form 45-106F1 required under applicable Securities Laws. Each Agent acknowledges and agrees that it has taken or will take reasonable steps to confirm that each Purchaser of the Notes meets the terms and conditions of the prospectus exemption set forth in section 2.3 of NI 45-106 or section 73.3 of the OSA, as applicable, and obtains and retains, as necessary, relevant information and documentation to evidence the steps taken by such Agent to verify compliance with the exemption in accordance with its usual document retention policies and procedures in compliance with applicable Securities Laws, and will provide to the Issuer forthwith upon request all such information or documentation as the Issuer may reasonably request in good faith and solely for the purpose of verifying compliance with the exemption and assisting the Issuer with complying with its obligations under NI 45-106, including completing Form 45-106F1.

(b) The obligations of the Agents under this Agreement are several and not joint or joint and several. No Agent will be liable for any act, omission, default or conduct by any other Agent or any selling firm appointed by any other Agent.

5. **Deliveries by the Issuer**. The Issuer shall deliver to the Agents:

(a) reasonably promptly upon the Agents' request, such number of commercial copies of the Offering Memorandum to the offices of the Agents as the Agents may reasonably require by notice to the Issuer and an electronic version of the Offering Memorandum; and

(b) concurrently with the preparation thereof, copies of any other documents required to be signed and/or filed by the Issuer under the laws of any Offering Jurisdiction in connection with the Offering, including any Supplementary Material (as defined in Section 6), all of which the Issuer shall complete in form and substance satisfactory to the Agents, acting reasonably, and in compliance with applicable Securities Laws.

6. **Material Change**. For the purposes of this Agreement, the terms "**material change**", "**material fact**" and "**misrepresentation**" have the meanings ascribed thereto in Section 1(1) of the OSA. During the period from the date hereof to the Closing Date, the Issuer shall promptly notify the Agents in writing the full particulars of:

(a) any material change (actual, anticipated or threatened) in the business, affairs, operations, assets, liabilities (absolute, accrued, contingent or otherwise), capital or condition (financial or otherwise) of the Issuer or the Manager, which change is or will likely be of such nature as to result in a misrepresentation in the Offering Memorandum or any Supplementary Material (collectively, the "**Offering Documents**");

(b) any change in any material fact relating to or in respect of the Issuer or the Manager or to the business, affairs, operations, assets, liabilities (absolute, accrued, contingent or otherwise), capital or condition (financial or otherwise) of the Issuer

or the Manager contained in the Offering Documents, which change is or will likely be of such nature as to result in a misrepresentation therein;

(c) any change, to the knowledge of the Issuer, in applicable laws, materially and adversely affecting, or which may materially and adversely affect, the business, operations, affairs, prospects or property of the Issuer, the Notes or the Offering, including, without limitation, the occurrence of a Protection Event (as defined in the Change of Law Protection Agreement (as defined in the Master Trust Indenture)); and

(d) any order of any court or securities regulatory authority preventing or suspending the use of any portion of the Offering Documents, if any, or preventing or suspending the offering or sale of the Notes in accordance with this Agreement.

The Issuer shall first discuss with the Agents in good faith any change in circumstances (actual, anticipated or threatened, financial or otherwise) which is of such a nature that there is reasonable doubt whether notice needs to be given to the Agents pursuant to this Section 6.

The Issuer shall promptly comply with all applicable filings and other requirements under applicable Securities Laws in connection with the matters referred to in subsections (a) to (d) of this Section 6 and shall prepare an amendment or supplement to the Offering Memorandum, and any amendment or supplement thereto (collectively, the "**Supplementary Material**") as may be required by Securities Laws, provided that the Supplementary Material shall be in form and substance satisfactory to the Agents, acting reasonably. Neither the Issuer nor the Agents shall provide to prospective Purchasers any document or other material relating to the Offering other than the Offering Memorandum, any Supplementary Material or any other material previously approved by the Issuer and the Agents from time to time.

7. **Due Diligence**. During the period from the date of this Agreement to the Closing Date, the Agents shall be permitted to conduct such due diligence investigation of the Issuer and its assets, businesses and undertakings, as the Agents, acting reasonably, consider appropriate and to complete formal due diligence question and answer sessions with the Issuer and the Manager and with senior management, legal counsel and the auditor of the Issuer and such other persons as the Agents may reasonably request before the Closing Date. The Issuer and the Manager will make available to the Agents, on a reasonably timely basis, all trust, corporate, business and operating records, financial information, budgets and other information which the Agents may reasonably request, as well as access to appropriate officers and/or senior officers of the Issuer and the Manager (provided, that such access does not unduly interfere with the business operations of the Manager) and advisors and experts retained by the Issuer and/or the Manager in order to enable the Agents to complete their due diligence review.

8. **Offering Documents**. The Issuer and the Manager shall allow the Agents to participate fully in the preparation of the Offering Memorandum and any Supplementary Material and will exercise its reasonable commercial efforts to cause the appropriate officers and/or senior officers of the Issuer and the Manager to make themselves available to provide such assistance with marketing of the Notes as the Agents may reasonably require. The delivery

by the Issuer of the Offering Documents to the Agents will constitute the Issuer's and the Manager's consent to the Agents to the use thereof in connection with the Offering in accordance with the provisions of this Agreement as well as the representation and warranty of the Issuer and the Manager to the Agents that, at the time of such delivery:

(a) the information and statements contained in the Offering Documents (except information and statements relating solely to the Agents and furnished in writing by the Agents for use therein) contain no misrepresentation and contain no untrue statement of a material fact or do not omit to state a material fact regarding the Issuer, the Manager, the Notes or the Program Agreements (as defined in the Master Trust Indenture) that is required to be stated or that is necessary to make a statement not misleading in light of the circumstances in which it was made; and

(b) the Offering Documents comply in all material respects, as applicable, with all Securities Laws.

9. **Representations, Warranties and Covenants of the Issuer**. The Issuer represents and warrants to, and agrees with, the Agents, as follows:

(a) the Issuer is a trust duly constituted and validly existing under the laws of the province of Ontario and Computershare Trust Company of Canada (the "**Issuer Trustee**") has been appointed as trustee of the Issuer pursuant to the declaration of trust dated as of December 20, 2017 (the "**Declaration of Trust**");

(b) the Issuer is duly qualified to carry on its business in each jurisdiction in which it carries on business and is in good standing in each jurisdiction or place in which such qualification is required, except where the failure so to qualify or to be in good standing would not reasonably be expected to materially adversely affect its business, affairs, operations, financial condition, assets, properties, liabilities, capital, ownership or income taken together or have a material adverse effect on the ability of the Issuer to perform its obligations under any of this Agreement and the other Program Agreements (as defined in the Master Trust Indenture and collectively, the "**Transaction Documents**") to which it is a party (an "**Issuer Material Adverse Effect**");

(b) The Issuer agrees that all terms and conditions contained herein will be construed as conditions, that they shall use commercially reasonable efforts to cause such conditions to be complied with, and that any breach or failure by the Issuer to comply with any such conditions, in any material respect, will entitle any of the Agents to terminate their obligations under this Agreement by written notice to that effect given to the Issuer at or prior to the Closing Time. The Agents may waive, in whole or in part, or extend the time for compliance with, any terms and conditions without prejudice to their rights in respect of any other terms and conditions or any other breach, subsequent breach or non-compliance, provided that to be binding on an Agent, any such waiver must be in writing and signed by such Agent.

(ii) any misrepresentation or alleged misrepresentation in the Offering Documents or any untrue statement of a material fact or an omission to state a material fact that is required to be stated or that is necessary to make a statement not misleading in light of the circumstances in which it was made (other than a misrepresentation or any untrue statement of a material fact or an omission to state a material fact that is required to be stated or that is necessary to make a statement not misleading in light of the circumstances in which it was made in the information contained therein relating solely to the Agents which was furnished in writing by the Agents for use therein);

(iii) any order made or any inquiry, investigation or proceeding commenced or threatened by any securities regulatory authority or other competent authority, based on any misrepresentation or any alleged misrepresentation or any untrue statement of a material fact or an omission to state a material fact that is required to be stated or that is necessary to make a statement not misleading in light of the circumstances in which it was made in the Offering Memorandum, which prevents or restricts the trading in or the distribution of the Notes;

(iv) any inaccuracy of any representation or warranty of OPG or the Issuer contained in this Agreement or in any certificate or other document delivered by OPG or the Issuer pursuant hereto; or

(c) Notwithstanding anything contained in this Agreement, it is expressly understood that with respect to its indemnification obligations set out in Section 15(b)(i), (iv) and (v), OPG is not agreeing to indemnify or hold any Indemnified Party harmless with respect to any of the following:

(i) any Losses resulting from any breach by the Issuer of any covenant, term or condition to be performed by it contained in this Agreement or in any document or certificate delivered by the Issuer pursuant hereto caused by a breach or failure to perform on the part of any other third party under any Program Agreement, the Ontario Fair Hydro Plan Act, 2017 or the regulations passed thereunder; provided that this Section 15(c)(i) shall not apply to limit the liability of OPG in respect of any delegation to a third party as provided for in Section 4.7 of the Management Agreement;

(ii) any Losses resulting from changes in law after the date hereof, whether such changes in law are effected by means of any legislative enactment or any final and non-appealable judicial decision, other than Losses resulting solely from OPG's failure to comply with Section 4.1(a)(xiv) of the Management Agreement; or

(iii) any Losses resulting from the validity of the Change of Law Protection Agreement or the applicability thereof to the Province, the Issuer or the Indenture Trustee or any material part thereof being disaffirmed by or on behalf of the Province.

(d) The parties hereto agree that neither the Issuer nor OPG is providing any representations, warranties or covenants in this Agreement or in any document or certificate delivered by OPG or the Issuer pursuant hereto, and shall have no liability to any Indemnified Party, with respect to the collectability of the Clean Energy Adjustment (as defined in the Management Agreement) or the Carrying Costs (as defined in the Management Agreement), or that the Clean Energy Adjustment amounts or Carrying Costs collected will be sufficient to satisfy the Notes, provided that, for greater certainty, the foregoing qualification is not meant to diminish in any way the representations and warranties given by OPG or the Issuer in this Agreement, or in any document or certificate delivered by OPG or the Issuer pursuant hereto, that neither the Shelf Offering Memorandum (except to the extent corrected in the Term Sheet) nor the Term Sheet, as of their respective dates, contain any misrepresentation or contain any untrue statement of a material fact or omit to state a material fact that is required to be stated or that is necessary to make a statement not misleading in light of the circumstances in which such statement was made.

(e) The Issuer and OPG are each referred to in this Section 15 as an "**Indemnifying Party**". Each Indemnifying Party agrees to waive any right such Indemnifying Party may have of first requiring an Indemnified Party to proceed against or enforce any other right, power, remedy or security or claim payment from any other person before claiming under the indemnity in this Section 15. Each Indemnifying Party will not, without the Agents' prior written consent (as the case may be), such consent not to be unreasonably withheld, settle, compromise, consent to the entry

of any judgment in or otherwise seek to terminate any Claim in respect of which indemnification may be sought hereunder (whether or not any Indemnified Party is a party thereto) unless such settlement, compromise, consent or termination includes an unconditional release of each Indemnified Party from any liabilities arising out of such Claim without any admission of negligence, misconduct, liability or responsibility by or on behalf of any Indemnified Party.

(f) Promptly after receiving notice of a Claim against the Agents or any other Indemnified Party or receipt of notice of the commencement of any investigation which is based, directly or indirectly, upon any matter in respect of which indemnification may be sought from an Indemnifying Party, the Agents or any such other Indemnified Party will notify the Indemnifying Party promptly in writing of the particulars thereof, provided that the omission so to notify the Indemnifying Party shall not relieve the Indemnifying Party of any liability which the Indemnifying Party may have to the Agents or any other Indemnified Party except and only to the extent that any such delay in or failure to give notice as herein required prejudices the defence of such Claim or results in any material increase in the liability which the Indemnifying Party has under this Section 15. Each Indemnifying Party shall have 14 calendar days after receipt of the notice to undertake, conduct and control, through counsel of its own choosing and at its own expense, the settlement or defence of the Claim. If the Indemnifying Party undertakes, conducts and controls the settlement or defence of the Claim, the relevant Indemnified Parties shall have the right to participate in the settlement or defence of the Claim at their own cost subject to Section 15(h).

(g) The indemnity in this Section 15 shall cease to apply to an Indemnified Party to the extent that a court of competent jurisdiction in a final judgment that has become non-appealable determines that such Losses to which the Indemnified Party may be subject were primarily caused by the fraud, fraudulent misrepresentation or gross negligence of such Indemnified Party or the Claim being asserted is as a result of a person not being provided with the Offering Memorandum or any Supplementary Material which corrects any misrepresentation or omission or alleged misrepresentation or omission in the Offering Memorandum or any other Supplementary Material due to a failure by the Agents to provide to such person such documents, as applicable, and which the Indemnifying Party has provided to the Agents to provide to such person, and in such event the Indemnified Party shall reimburse to the Indemnifying Party any funds advanced to the Indemnified Party in respect of such Claim.

(h) Each of the Indemnified Parties may retain counsel to separately represent them in the defence of a Claim, which shall be at the applicable Indemnifying Party's expense if: (i) the Indemnifying Party does not promptly assume the defence of the Claim no later than 14 calendar days after receiving actual notice of the Claim, (ii) the Indemnifying Party agrees to such separate representation, or (iii) the Indemnified Party, as the case may be, are advised by counsel that there is an actual or potential conflict between the Indemnifying Party's interests on the one hand and the Indemnified Party's interests on the other hand or additional defences are

available to the Indemnified Parties, which makes representation by the same counsel inappropriate.

(i) In order to provide for just and equitable contribution in circumstances in which the indemnity in this Section 15 is unavailable (other than in accordance with the terms hereof) to the Indemnified Parties or insufficient to hold them harmless in respect of a Claim, the Indemnifying Parties shall jointly and severally contribute to the amount paid or payable by the Agents, as a result of such Claim in such proportion so that the Agents shall be responsible for that portion represented by percentage that the Agents' Fee received by the Agents hereunder bears to the aggregate principal amount of the Notes sold hereunder and the Indemnifying Parties shall be responsible for the balance whether or not they have been sued separately or together, provided, however that each Agent shall not in any event be liable to contribute, in the aggregate, any amount in excess of the Agents' Fee actually received by such Agent. The rights to contribution provided hereunder shall be in addition to and not in derogation of any other right to contribution which the Agents may have by statute or otherwise at law. No person that is determined by a court of competent jurisdiction in a final judgment that has become non-appealable to have engaged in any fraud, fraudulent misrepresentation or gross negligence in connection with any matter that is the subject of the contribution payments contemplated by this Section 15(i) shall be entitled to such contribution.

(j) Each Indemnifying Party hereby constitutes each of the Agents as trustee, respectively, for each of the other Indemnified Parties, as appropriate, of the Indemnifying Party's covenants under the indemnity in this Section 15 with respect to those persons and the Agents agree to accept that trust and to hold and enforce those covenants on behalf of those persons.

(k) The obligations of the Indemnifying Party hereunder are in addition to any liabilities which such Indemnifying Party may otherwise have to the Agents or any other Indemnified Party.

16. **Expenses**. Whether or not the Offering is completed, all expenses of or incidental to the creation, authorization, issue, delivery and sale of the Notes and of or incidental to all other matters in connection with the Offering shall be borne by the Issuer, including, without limitation, reasonable expenses payable in connection with the fees and expenses of counsel to the Issuer, counsel to the Agents and local counsel in each of the Offering Jurisdictions, fees and disbursements of its accountants and auditors and other experts, the Indenture Trustee's fees, fees of ratings agencies and CDS, printing costs, delivery charges, fees and costs incurred in connection with the marketing of the Notes including travel expenses, road-shows, and filing fees (including securities regulatory private placement filing fees and fees payable to the Investment Industry Regulatory Organization of Canada), reasonable and documented out-of-pocket expenses of the Agents and all taxes payable on such fees and expenses.

17. **Severability**. If any provision of this Agreement is determined to be void or unenforceable in whole or in part, it shall be deemed not to affect or impair the validity of any other provision of this Agreement and such void or unenforceable provision shall be severable from this Agreement.

18. **Public Announcement**. For the period commencing on the date hereof and expiring on the Closing Date, and subject to the requirements of the Securities Laws, each of the Issuer and the Manager shall not, without first obtaining the approval of the Agents (such approval not to be unreasonably withheld), and the Agents shall not, without first obtaining the approval of the Issuer and the Manager, make any public communications, verbally, electronically or in writing, including issuing any press release respecting the issue of the Notes.

19. **Survival**. The representations, warranties, covenants, obligations and agreements of the parties contained herein or delivered pursuant hereto shall survive the issuance and sale of the Notes and shall continue in full force and effect notwithstanding any subsequent disposition of the Notes. The Agents shall be entitled to rely on the representations and warranties of the Issuer and the Manager contained in Sections 8, 9 and 10 herein or delivered pursuant hereto notwithstanding any investigation which the Agents may undertake or which may be undertaken on the Agents' behalf.

20. **Acknowledgement of Agents**. Each Agent (i) acknowledges and agrees in favour of the Indenture Trustee that it is a Specified Creditor (as defined in the Master Trust Indenture) under the Master Trust Indenture and its entitlements as a Specified Creditor are subject to the provisions applicable to Specified Creditors under the Master Trust Indenture including, without limitation, Sections 7.04 through 7.11 and 8.13 (Payment Priorities), Section 7.12 (Payments Held in Trust), Section 8.11 (Control by Controlling Class Creditors), Section 8.12 (Limitation on Suits), Section 8.14 (Limited Recourse), Article IX (Indenture Trustee) (including all limitations of liability hereunder), Section 9.14 (Communications to Specified Creditors) and Section 16.01 (No Petition); (ii) irrevocably authorizes and directs the Indenture Trustee on its behalf to take such action (including the execution and delivery of documents of subordination) as may be necessary or appropriate to further assure the priority arrangements provided for in Article VI, Article VII and Section 8.13 of the Master Trust Indenture, and appoints the Indenture Trustee as its agent for any and all such purposes; and (iii) consents, requests and authorizes the Issuer and the Indenture Trustee to (y) add the Agents (or their respective agents) to the register of Specified Creditors described in Section 13.13 of the Master Trust Indenture and (z) disseminate the notice details of the Agents to other Specified Creditors for the purposes set out in subsection 9.14(b) of the Master Trust Indenture.

(a) The Offering is to be effected in a manner exempt from the prospectus requirements of Securities Laws. The Notes shall be offered for sale to Purchasers in accordance with the "accredited investor exemption" as defined in section 2.3 of National Instrument 45-106 – *Prospectus Exemptions* of the Canadian Securities Administrators ("**NI 45-106**") and, in the case of Purchasers resident in Ontario, section 73.3(2) of the *Securities Act* (Ontario) (the "**OSA**"). For the purposes of this Agreement, "**Securities Laws**" means the applicable securities acts and laws, and the rules and regulations promulgated thereunder, of the Offering Jurisdictions and the rules, instruments, orders, published policy statements, rulings and notices of the securities regulatory authorities of such jurisdictions.

(b) The Agents will solicit offers to purchase the Notes only from "accredited investors" (as such term is defined in section 1.1 of NI 45-106 or in section 73.3 of the OSA, as the case may be) in the Offering Jurisdictions who are not individuals unless such individuals are "permitted clients" (as such term is defined in National Instrument 31-103 – *Registration Requirements, Exemptions and Ongoing Registrant Requirements* ("**NI 31-103**")), all in accordance with all applicable Securities Laws and this Agreement and on a private placement basis so as not to require the Issuer to file a prospectus in any jurisdiction.

(c) The Agents acknowledge and agree that the Notes will not be registered under the United States Securities Act of 1933, as amended, (the "**1933 Act**") or applicable state securities laws and the Agents shall not offer or sell, directly or indirectly, in the United States of America (including the States and the District of Columbia), its territories, its possessions and other areas subject to its jurisdiction (the "**United States**") or to a U.S. person (as defined in Regulation S under the 1933 Act).

(d) The Agents will, upon the prior consent of the Issuer, be entitled to offer the Notes to purchasers resident in jurisdictions outside of the United States and Canada, provided that the Agents conduct all such activities in compliance with the applicable laws of any such jurisdictions, and provided that the Agents do not solicit offers to purchase or sell the Notes so as to require registration of the Notes or filing of a prospectus with respect to the Notes under the laws of any jurisdiction or impose any additional obligations on the Issuer.

4. **Distribution of Notes**.

(a) The Issuer shall, as soon as reasonably practicable and in any event prior to the Closing Date, use its reasonable commercial efforts to fulfill to the satisfaction of

legal counsel to the Agents (the "**Agents' Counsel**"), acting reasonably, all legal requirements to be fulfilled by the Issuer to enable the Notes to be offered for sale and sold in each of the Offering Jurisdictions through the Agents in the manner contemplated herein and without any requirement that a prospectus be filed under the Securities Laws. The Issuer shall also file or cause to be filed with the securities regulatory authorities in the Offering Jurisdictions all information and forms required to be supplied or filed by it in connection with the Offering under applicable Securities Laws including, without limitation, filing the Offering Memorandum and the reports on Form 45-106F1 required under applicable Securities Laws. Each Agent acknowledges and agrees that it has taken or will take reasonable steps to confirm that each Purchaser of the Notes meets the terms and conditions of the prospectus exemption set forth in section 2.3 of NI 45-106 or section 73.3 of the OSA, as applicable, and obtains and retains, as necessary, relevant information and documentation to evidence the steps taken by such Agent to verify compliance with the exemption in accordance with its usual document retention policies and procedures in compliance with applicable Securities Laws, and will provide to the Issuer forthwith upon request all such information or documentation as the Issuer may reasonably request in good faith and solely for the purpose of verifying compliance with the exemption and assisting the Issuer with complying with its obligations under NI 45-106, including completing Form 45-106F1.

(b) The obligations of the Agents under this Agreement are several and not joint or joint and several. No Agent will be liable for any act, omission, default or conduct by any other Agent or any selling firm appointed by any other Agent.

5. **Deliveries by the Issuer**. The Issuer shall deliver to the Agents:

(a) reasonably promptly upon the Agents' request, such number of commercial copies of the Offering Memorandum to the offices of the Agents as the Agents may reasonably require by notice to the Issuer and an electronic version of the Offering Memorandum; and

(b) concurrently with the preparation thereof, copies of any other documents required to be signed and/or filed by the Issuer under the laws of any Offering Jurisdiction in connection with the Offering, including any Supplementary Material (as defined in Section 6), all of which the Issuer shall complete in form and substance satisfactory to the Agents, acting reasonably, and in compliance with applicable Securities Laws.

6. **Material Change**. For the purposes of this Agreement, the terms "**material change**", "**material fact**" and "**misrepresentation**" have the meanings ascribed thereto in Section 1(1) of the OSA. During the period from the date hereof to the Closing Date, the Issuer shall promptly notify the Agents in writing the full particulars of:

(a) any material change (actual, anticipated or threatened) in the business, affairs, operations, assets, liabilities (absolute, accrued, contingent or otherwise), capital or condition (financial or otherwise) of the Issuer or the Manager, which change is or will likely be of such nature as to result in a misrepresentation in the Offering

Memorandum or any Supplementary Material (collectively, the "**Offering Documents**");

(b) any change in any material fact relating to or in respect of the Issuer or the Manager or to the business, affairs, operations, assets, liabilities (absolute, accrued, contingent or otherwise), capital or condition (financial or otherwise) of the Issuer or the Manager contained in the Offering Documents, which change is or will likely be of such nature as to result in a misrepresentation therein;

(c) any change, to the knowledge of the Issuer, in applicable laws, materially and adversely affecting, or which may materially and adversely affect, the business, operations, affairs, prospects or property of the Issuer, the Notes or the Offering, including, without limitation, the occurrence of a Protection Event (as defined in the Change of Law Protection Agreement (as defined in the Master Trust Indenture)); and

(d) any order of any court or securities regulatory authority preventing or suspending the use of any portion of the Offering Documents, if any, or preventing or suspending the offering or sale of the Notes in accordance with this Agreement.

The Issuer shall first discuss with the Agents in good faith any change in circumstances (actual, anticipated or threatened, financial or otherwise) which is of such a nature that there is reasonable doubt whether notice needs to be given to the Agents pursuant to this Section 6.

The Issuer shall promptly comply with all applicable filings and other requirements under applicable Securities Laws in connection with the matters referred to in subsections (a) to (d) of this Section 6 and shall prepare an amendment or supplement to the Offering Memorandum, and any amendment or supplement thereto (collectively, the "**Supplementary Material**") as may be required by Securities Laws, provided that the Supplementary Material shall be in form and substance satisfactory to the Agents, acting reasonably. Neither the Issuer nor the Agents shall provide to prospective Purchasers any document or other material relating to the Offering other than the Offering Memorandum, any Supplementary Material or any other material previously approved by the Issuer and the Agents from time to time.

7. **Due Diligence**. During the period from the date of this Agreement to the Closing Date, the Agents shall be permitted to conduct such due diligence investigation of the Issuer and its assets, businesses and undertakings, as the Agents, acting reasonably, consider appropriate and to complete formal due diligence question and answer sessions with the Issuer and the Manager and with senior management, legal counsel and the auditor of the Issuer and such other persons as the Agents may reasonably request before the Closing Date. The Issuer and the Manager will make available to the Agents, on a reasonably timely basis, all trust, corporate, business and operating records, financial information, budgets and other information which the Agents may reasonably request, as well as access to appropriate officers and/or senior officers of the Issuer and the Manager (provided, that such access does not unduly interfere with the business operations of the Manager) and advisors and experts retained by the Issuer and/or the Manager in order to enable the Agents to complete their due diligence review.

8. **Offering Documents**. The Issuer and the Manager shall allow the Agents to participate fully in the preparation of the Offering Memorandum and any Supplementary Material and will exercise its reasonable commercial efforts to cause the appropriate officers and/or senior officers of the Issuer and the Manager to make themselves available to provide such assistance with marketing of the Notes as the Agents may reasonably require. (c) Notwithstanding anything contained in this Agreement, it is expressly understood that with respect to its indemnification obligations set out in Section 15(b)(i), (iv) and (v), OPG is not agreeing to indemnify or hold any Indemnified Party harmless with respect to any of the following:

(i) any Losses resulting from any breach by the Issuer of any covenant, term or condition to be performed by it contained in this Agreement or in any document or certificate delivered by the Issuer pursuant hereto caused by a breach or failure to perform on the part of any other third party under any Program Agreement, the Ontario Fair Hydro Plan Act, 2017 or the regulations passed thereunder; provided that this Section 15(c)(i) shall not apply to limit the liability of OPG in respect of any delegation to a third party as provided for in Section 4.7 of the Management Agreement;

(ii) any Losses resulting from changes in law after the date hereof, whether such changes in law are effected by means of any legislative enactment or any final and non-appealable judicial decision, other than Losses resulting solely from OPG's failure to comply with Section 4.1(a)(xiv) of the Management Agreement; or

(iii) any Losses resulting from the validity of the Change of Law Protection Agreement or the applicability thereof to the Province, the Issuer or the Indenture Trustee or any material part thereof being disaffirmed by or on behalf of the Province.

(d) The parties hereto agree that neither the Issuer nor OPG is providing any representations, warranties or covenants in this Agreement or in any document or certificate delivered by OPG or the Issuer pursuant hereto, and shall have no liability to any Indemnified Party, with respect to the collectability of the Clean Energy Adjustment (as defined in the Management Agreement) or the Carrying Costs (as defined in the Management Agreement), or that the Clean Energy Adjustment amounts or Carrying Costs collected will be sufficient to satisfy the Notes, provided that, for greater certainty, the foregoing qualification is not meant to diminish in any way the representations and warranties given by OPG or the Issuer in this Agreement, or in any document or certificate delivered by OPG or the Issuer pursuant hereto, that neither the Shelf Offering Memorandum (except to the extent corrected in the Term Sheet) nor the Term Sheet, as of their respective dates, contain any misrepresentation or contain any untrue statement of a material fact or omit to state a material fact that is required to be stated or that is necessary to make a statement not misleading in light of the circumstances in which such statement was made.

(e) The Issuer and OPG are each referred to in this Section 15 as an "**Indemnifying Party**". Each Indemnifying Party agrees to waive any right such Indemnifying Party may have of first requiring an Indemnified Party to proceed against or enforce any other right, power, remedy or security or claim payment from any other person before claiming under the indemnity in this Section 15. Each Indemnifying Party will not, without the Agents' prior written consent (as the case may be), such consent not to be unreasonably withheld, settle, compromise, consent to the entry of any judgment in or otherwise seek to terminate any Claim in respect of which indemnification may be sought hereunder (whether or not any Indemnified Party is a party thereto) unless such settlement, compromise, consent or termination includes an unconditional release of each Indemnified Party from any liabilities arising out of such Claim without any admission of negligence, misconduct, liability or responsibility by or on behalf of any Indemnified Party.

(f) Promptly after receiving notice of a Claim against the Agents or any other Indemnified Party or receipt of notice of the commencement of any investigation which is based, directly or indirectly, upon any matter in respect of which indemnification may be sought from an Indemnifying Party, the Agents or any such other Indemnified Party will notify the Indemnifying Party promptly in writing of the particulars thereof, provided that the omission so to notify the Indemnifying Party shall not relieve the Indemnifying Party of any liability which the Indemnifying Party may have to the Agents or any other Indemnified Party except and only to the extent that any such delay in or failure to give notice as herein required prejudices the defence of such Claim or results in any material increase in the liability which the Indemnifying Party has under this Section 15. Each Indemnifying Party shall have 14 calendar days after receipt of the notice to undertake, conduct and control, through counsel of its own choosing and at its own expense, the settlement or defence of the Claim. If the Indemnifying Party undertakes, conducts and controls the settlement or defence of the Claim, the relevant Indemnified Parties shall have the right to participate in the settlement or defence of the Claim at their own cost subject to Section 15(h).

(g) The indemnity in this Section 15 shall cease to apply to an Indemnified Party to the extent that a court of competent jurisdiction in a final judgment that has become non-appealable determines that such Losses to which the Indemnified Party may be subject were primarily caused by the fraud, fraudulent misrepresentation or gross negligence of such Indemnified Party or the Claim being asserted is as a result of a person not being provided with the Offering Memorandum or any Supplementary Material which corrects any misrepresentation or omission or alleged misrepresentation or omission in the Offering Memorandum or any other Supplementary Material due to a failure by the Agents to provide to such person such documents, as applicable, and which the Indemnifying Party has provided to the Agents to provide to such person, and in such event the Indemnified Party shall reimburse to the Indemnifying Party any funds advanced to the Indemnified Party in respect of such Claim.

(h) Each of the Indemnified Parties may retain counsel to separately represent them in the defence of a Claim, which shall be at the applicable Indemnifying Party's expense if: (i) the Indemnifying Party does not promptly assume the defence of the Claim no later than 14 calendar days after receiving actual notice of the Claim, (ii) the Indemnifying Party agrees to such separate representation, or (iii) the Indemnified Party, as the case may be, are advised by counsel that there is an actual or potential conflict between the Indemnifying Party's interests on the one hand and the Indemnified Party's interests on the other hand or additional defences are available to the Indemnified Parties, which makes representation by the same counsel inappropriate.

(i) In order to provide for just and equitable contribution in circumstances in which the indemnity in this Section 15 is unavailable (other than in accordance with the terms hereof) to the Indemnified Parties or insufficient to hold them harmless in respect of a Claim, the Indemnifying Parties shall jointly and severally contribute to the amount paid or payable by the Agents, as a result of such Claim in such proportion so that the Agents shall be responsible for that portion represented by percentage that the Agents' Fee received by the Agents hereunder bears to the aggregate principal amount of the Notes sold hereunder and the Indemnifying Parties shall be responsible for the balance whether or not they have been sued separately or together, provided, however that each Agent shall not in any event be liable to contribute, in the aggregate, any amount in excess of the Agents' Fee actually received by such Agent. The rights to contribution provided hereunder shall be in addition to and not in derogation of any other right to contribution which the Agents may have by statute or otherwise at law. No person that is determined by a court of competent jurisdiction in a final judgment that has become non-appealable to have engaged in any fraud, fraudulent misrepresentation or gross negligence in connection with any matter that is the subject of the contribution payments contemplated by this Section 15(i) shall be entitled to such contribution.

(j) Each Indemnifying Party hereby constitutes each of the Agents as trustee, respectively, for each of the other Indemnified Parties, as appropriate, of the Indemnifying Party's covenants under the indemnity in this Section 15 with

respect to those persons and the Agents agree to accept that trust and to hold and enforce those covenants on behalf of those persons.

(k) The obligations of the Indemnifying Party hereunder are in addition to any liabilities which such Indemnifying Party may otherwise have to the Agents or any other Indemnified Party.

16. **Expenses**. Whether or not the Offering is completed, all expenses of or incidental to the creation, authorization, issue, delivery and sale of the Notes and of or incidental to all other matters in connection with the Offering shall be borne by the Issuer, including, without limitation, reasonable expenses payable in connection with the fees and expenses of counsel to the Issuer, counsel to the Agents and local counsel in each of the Offering Jurisdictions, fees and disbursements of its accountants and auditors and other experts, the Indenture Trustee's fees, fees of ratings agencies and CDS, printing costs, delivery charges, fees and costs incurred in connection with the marketing of the Notes including travel expenses, road-shows, and filing fees (including securities regulatory private placement filing fees and fees payable to the Investment Industry Regulatory Organization of Canada), reasonable and documented out-of-pocket expenses of the Agents and all taxes payable on such fees and expenses.

17. **Severability**. If any provision of this Agreement is determined to be void or unenforceable in whole or in part, it shall be deemed not to affect or impair the validity of any other provision of this Agreement and such void or unenforceable provision shall be severable from this Agreement.

18. **Public Announcement**. For the period commencing on the date hereof and expiring on the Closing Date, and subject to the requirements of the Securities Laws, each of the Issuer and the Manager shall not, without first obtaining the approval of the Agents (such approval not to be unreasonably withheld), and the Agents shall not, without first obtaining the approval of the Issuer and the Manager, make any public communications, verbally, electronically or in writing, including issuing any press release respecting the issue of the Notes.

19. **Survival**. The representations, warranties, covenants, obligations and agreements of the parties contained herein or delivered pursuant hereto shall survive the issuance and sale of the Notes and shall continue in full force and effect notwithstanding any subsequent disposition of the Notes. The Agents shall be entitled to rely on the representations and warranties of the Issuer and the Manager contained in Sections 8, 9 and 10 herein or delivered pursuant hereto notwithstanding any investigation which the Agents may undertake or which may be undertaken on the Agents' behalf.

20. **Acknowledgement of Agents**. Each Agent (i) acknowledges and agrees in favour of the Indenture Trustee that it is a Specified Creditor (as defined in the Master Trust Indenture) under the Master Trust Indenture and its entitlements as a Specified Creditor are subject to the provisions applicable to Specified Creditors under the Master Trust Indenture including, without limitation, Sections 7.04 through 7.11 and 8.13 (Payment Priorities), Section 7.12 (Payments Held in Trust), Section 8.11 (Control by Controlling Class Creditors), Section 8.12 (Limitation on Suits), Section 8.14 (Limited Recourse), Article IX (Indenture Trustee) (including all limitations of liability hereunder), Section 9.14

(Communications to Specified Creditors) and Section 16.01 (No Petition); (ii) irrevocably authorizes and directs the Indenture Trustee on its behalf to take such action (including the execution and delivery of documents of subordination) as may be necessary or appropriate to further assure the priority arrangements provided for in Article VI, Article VII and Section 8.13 of the Master Trust Indenture, and appoints the Indenture Trustee as its agent for any and all such purposes; and (iii) consents, requests and authorizes the Issuer and the Indenture Trustee to (y) add the Agents (or their respective agents) to the register of Specified Creditors described in Section 13.13 of the Master Trust Indenture and (z) disseminate the notice details of the Agents to other Specified Creditors for the purposes set out in subsection 9.14(b) of the Master Trust Indenture.

I. Introduction and Transaction Overview

Introduction

Ontario's Fair Hydro Plan	• The Province of Ontario announced its Fair Hydro Plan ("FHP") on March 2, 2017, which proposed to lower the average electricity bill for eligible customers[1] by 25% (the "Fair Adjustment") • The 25% reduction includes an 8% rebate equivalent to the provincial portion of the harmonized sales tax granted by the Ontario government in January 2017
Legislation	• On June 1, 2017, the Ontario Legislature passed the *Ontario Fair Hydro Plan Act, 2017* (the "FHPA" or the "Act") to give effect to the FHP • The FHPA was enacted to ensure that clean energy costs and clean energy benefits associated with Ontario's clean energy initiatives are fairly allocated among present and future Specified Consumers and to provide fairness for Specified Consumers over time • The FHPA is supplemented by regulations related to the implementation of the FHPA (the "Regulations" and together with the FHPA, the "Legislation") • The FHPA imposes an irrevocable and non-bypassable charge recoverable from Specified Consumers which is referred to as the Clean Energy Adjustment ("CEA"); the CEA will be determined by Ontario Power Generation ("OPG") in accordance with the Legislation in its role as Financial Services Manager ("FSM") under the Act • The CEA will be determined for each six month reference period and converted by the Ontario Energy Board ("OEB") into a $/kWh rate and added to electricity invoices sent to Specified Consumers commencing on May 1, 2021 • From July 1, 2017 to April 30, 2021 (the "Moratorium Period"), no payments in respect of CEA are expected to be collected; during the Moratorium Period and extending to July 31, 2021, the Independent Electricity System Operator ("IESO") is obligated to pay all funding and other expenses of the Trust (excluding principal) (referred to as "Carrying Costs") under the Legislation
Fair Hydro Trust	• The implementation of the Fair Hydro Plan will be financed by the Fair Hydro Trust ("FHT", the "Trust" or the "Issuer") through the issuance of senior, subordinated and junior subordinated notes • Structured to be bankruptcy remote and even though consolidated by OPG on an accounting basis, the Trust is ring fenced from OPG's other creditors • The FHT term notes will be repaid through the CEA payments received from Specified Consumers

[1] Defined as Specified Consumers under the FHPA.

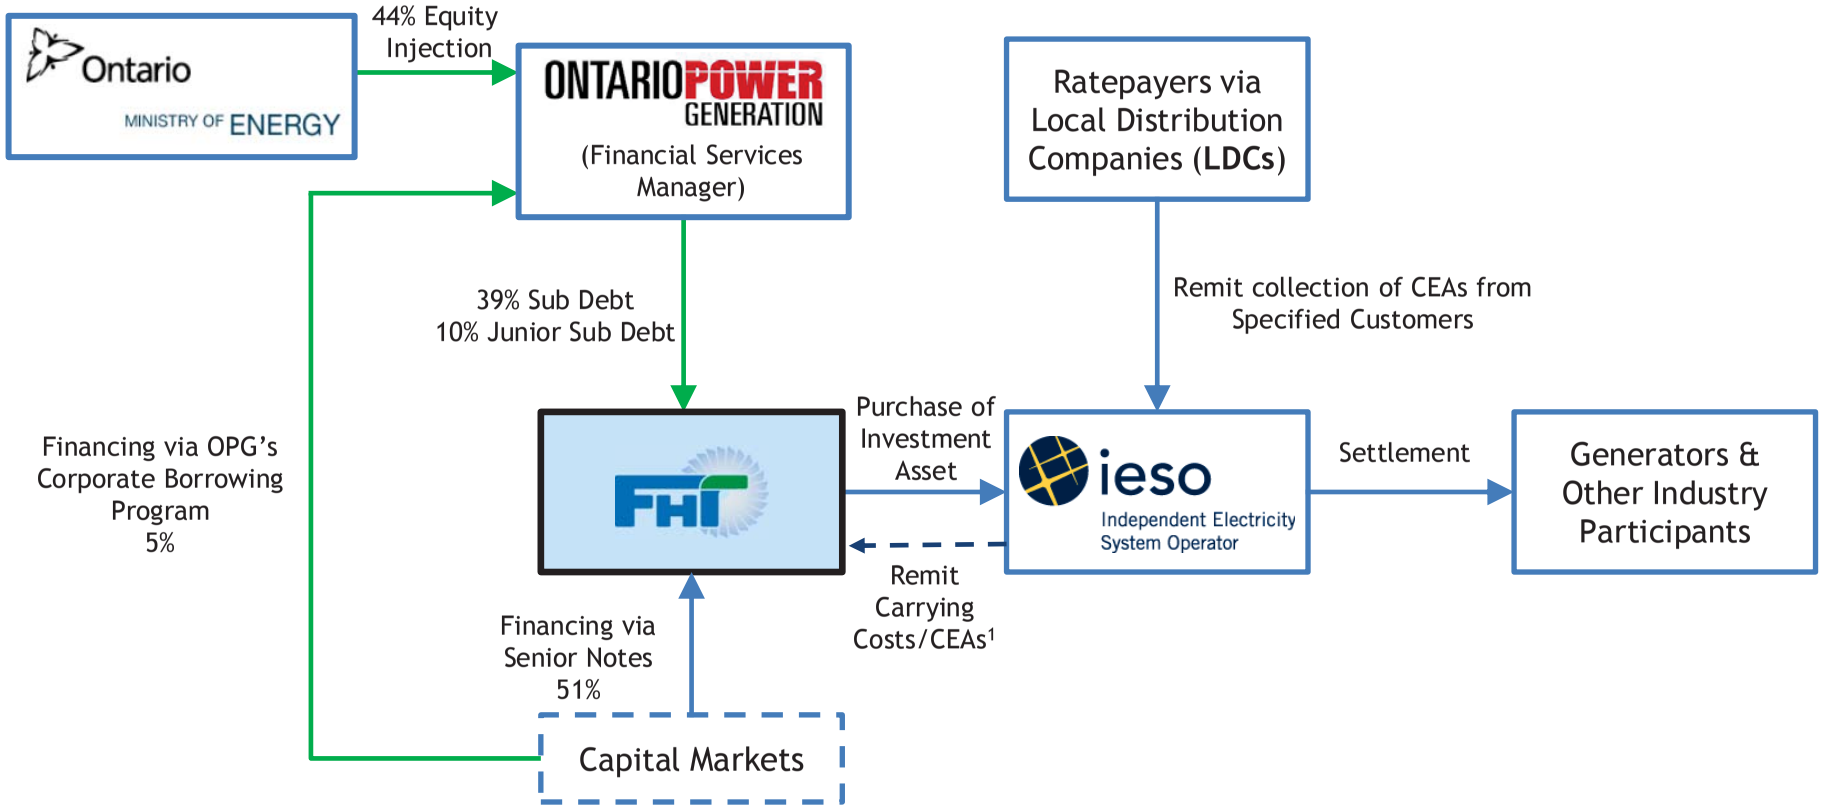
Operating Agents	OPG serving as the Financial Services Manager and the Independent Electricity System Operator as the Servicer		

Transaction Structure

- Concurrent with every issuance of senior notes, it is expected that OPG will purchase subordinated debt and junior subordinated debt of the Trust in an aggregate amount not to exceed 49% of all outstanding debt
  - The subordination amount may vary but must at least be equal to or greater than 35% of all outstanding debt

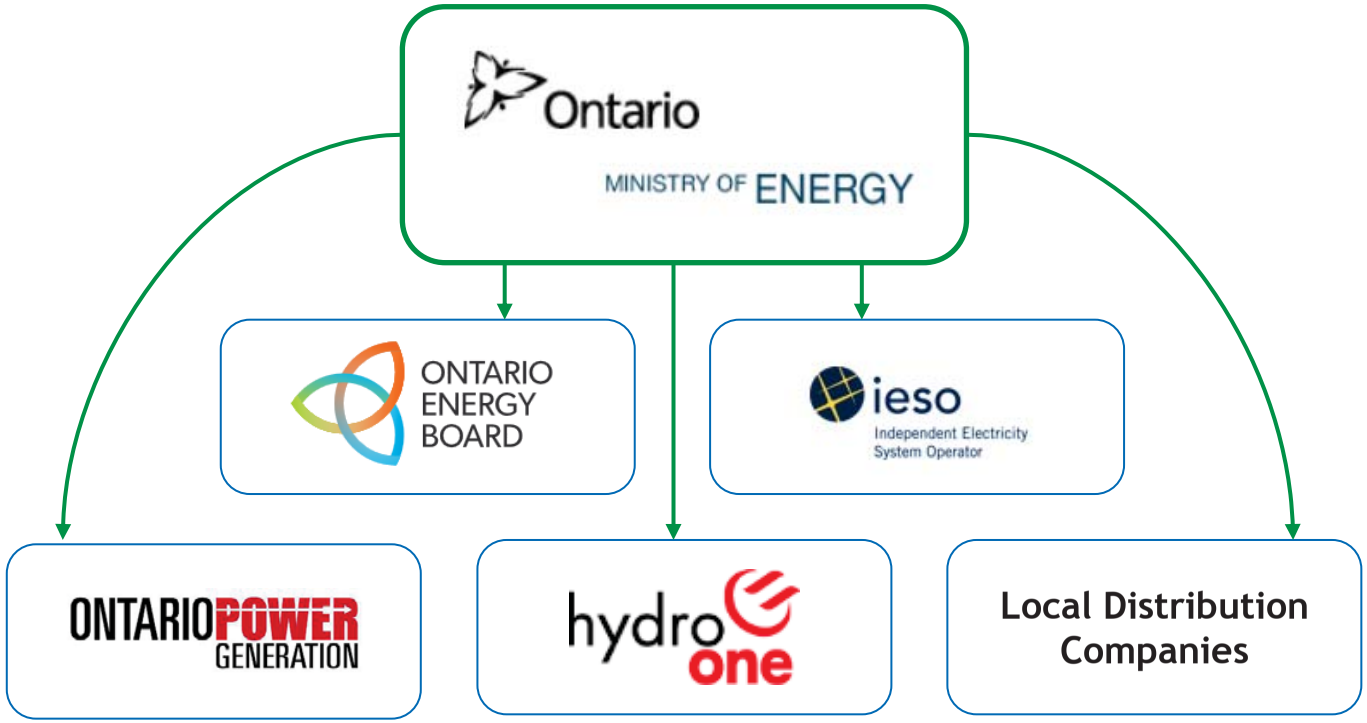


[1] The IESO is required to pay and remit Carrying Costs to the FHT up to July 31, 2021. Commencing May 1, 2021, CEAs will be included on invoices sent to Specified Consumers and collections will be used to pay all funding and other expenses of the Trust. The additional three months of IESO remittances from May 1, 2021 to July 31, 2021 is intended to cover billing and collection lags from the introduction of CEAs.
Note: The diagram above is based on subordinated debt of 49% of all outstanding debt.
Note: The assets and liabilities of the Trust are deemed, under the *Electricity Act, 1998* to exclude the assets and liabilities of OPG, and vice versa.

II. Ontario Electricity Market

Overview of Ontario's Electricity Market

- Highly regulated electricity market comprised primarily of three components: generation, transmission and distribution; ~$22 billion in average annual cash flows[1]
- Transmission rates, distribution rates, and OPG's regulated rates are set by the OEB
- Rates for the majority of the remaining generation supply are set by the wholesale electricity market and by direct contracts with the IESO (e.g. Bruce Power (nuclear), wind, solar, hydroelectric)



[1] Source: "Ontario Planning Outlook – A technical report on the electricity system prepared by the IESO" dated September 1, 2016. The amount represents the mathematical average of the system costs on page 44 in the appendix "Data Tables for the OPO Technical Report".

Key Industry Participants

Participants	Credit Ratings *(DBRS / S&P / Moody's)*	Description
Ontario Ministry of Energy	**AA (l) / A+ / Aa2** [1]	• The Province of Ontario through the Ministry of Energy sets policy for the electricity system
Ontario Energy Board	--	• Independent public regulatory agency established under the *Ontario Energy Board Act, 1998* and has the authority to regulate Ontario's electricity market, including the activities of transmitters and distributors • Sets the regulated price for the commodity cost charged to most residential electricity customers via the Regulated Price Plan ("RPP"); RPP rates are set twice a year (May and November)

Key Industry Participants – LDC Overview

- As part of the restructuring of Ontario's electricity industry under the *Energy Competition Act, 1998*, the municipal electricity utilities became municipally-owned business corporations. The majority of LDCs continue to be municipally-owned, while others have been acquired by Hydro One or private-sector owners
- An LDC, referenced as an Electricity Vendor in the FHPA, is responsible for distributing electricity to customers in its OEB-licensed service territory, and in some cases to other distributors

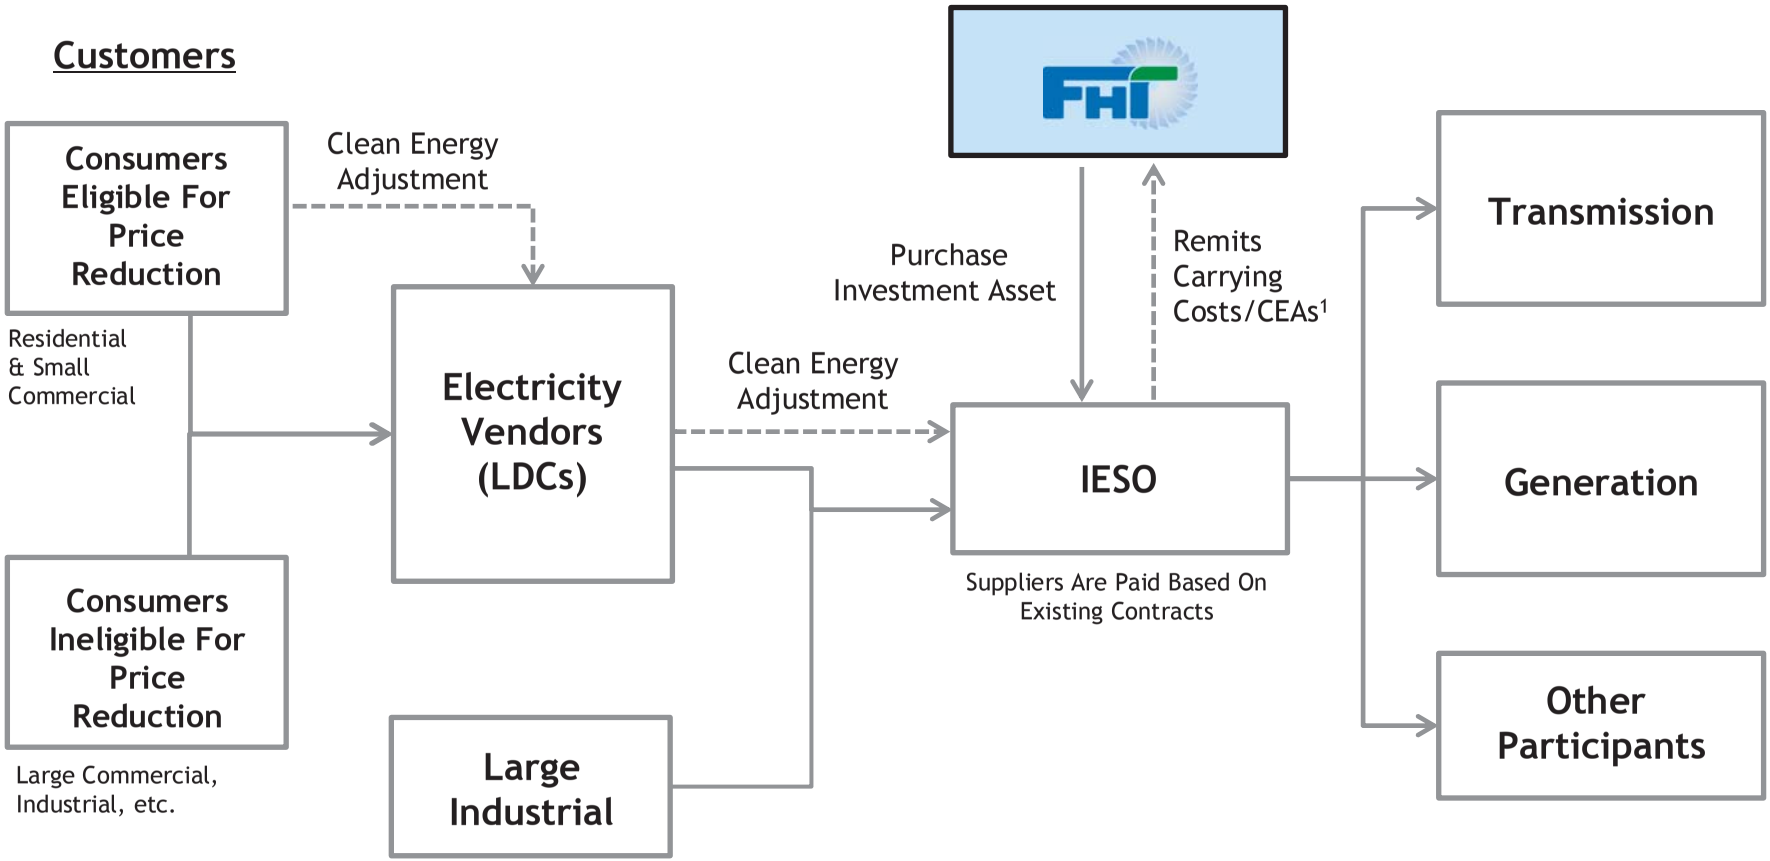
Electricity Market with FHT

- Under the FHPA, each month the IESO determines the IESO deferral (the shortfall that results from the Fair Adjustment together with Carrying Costs paid, financing costs and other related costs)
- FHT will finance the shortfall and is entitled to recover its costs and the principal and interest on its debt through CEAs from Specified Consumers, commencing May 1, 2021



[1] The IESO is required to pay and remit Carrying Costs to the FHT up to July 31, 2021. Commencing May 1, 2021, CEAs will be included on invoices sent to Specified Consumers and collections will be used to pay all funding and other expenses of the Trust. The additional three months of IESO remittances from May 1, 2021 to July 31, 2021 is intended to cover billing and collection lags from the introduction of CEAs.

III. Legislative and Regulatory Framework

Legislation Overview

Purpose	• The FHPA was enacted to ensure that clean energy costs and clean energy benefits are fairly allocated among present and future Specified Consumers • Clean energy costs are costs allocated to Specified Consumers as a result of Ontario's clean energy initiatives; clean energy benefits are benefits that accrue to both present and future electricity consumers
Specified Consumers	• A category of consumers that generally is comprised of residential consumers, small businesses and farms • Includes consumers with a demand for electricity of 50 kW or less or those that use not more than 250,000 kWh of electricity annually
Rate Reduction Period	• **July 1, 2017 – April 30, 2018** – Specified Consumers charged an invoice amount that is 25%[1] less than the regulated rate that would otherwise have been determined by the OEB; the 25% reduction includes an 8% rebate equivalent to the provincial portion of the HST previously granted by the Ontario government • **May 1, 2018 – April 30, 2019** - regulated rate established in the first year of the Rate Reduction Period anticipated to increase by the rate of inflation in Ontario • **May 1, 2019 – April 30, 2021** - rate reductions will be established by future regulation but anticipated to increase by the rate of inflation in Ontario

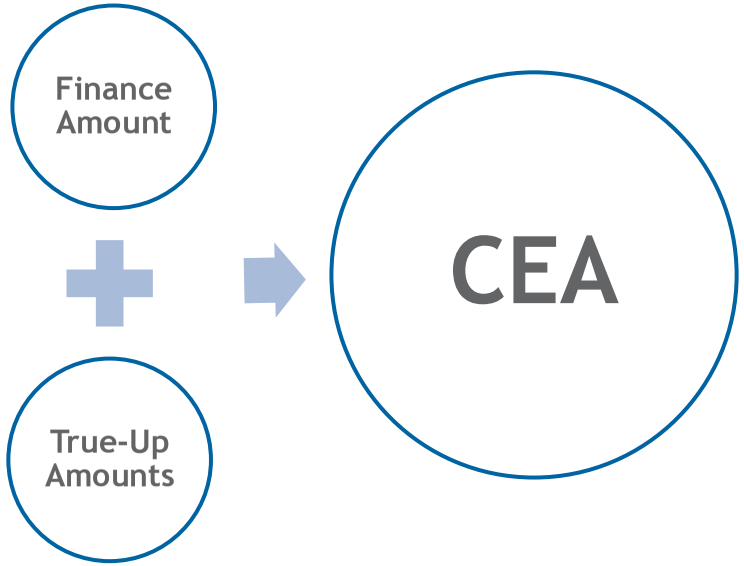
[1] Based on a typical Toronto Hydro customer; the amount of the reduction for any given Specified Consumer may vary from this account.

Legislation Overview, cont'd

Regulatory Asset	• Each month the IESO determines the IESO deferral (the shortfall that results from the Fair Adjustment together with Carrying Costs paid, financing costs and other related costs) and records this amount, in a variance account • The IESO has the right to recover the balance recorded in the variance account from Specified Consumers (such right is the "Regulatory Asset") • The IESO may from time to time transfer a specified portion of the Regulatory Asset to the Trust for a cash purchase price equal to the corresponding amount recorded in the variance account
Investment Asset	• The Trust is not obligated to purchase Regulatory Assets from the IESO • If the IESO and the Trust agree to the transfer of a specified portion of the Regulatory Asset, such transfer results in the creation of a current and irrevocable property right that is immediately vested in the Trust (such right is an "Investment Interest" in an Investment Asset) • By acquiring an Investment Interest, the Trust will be entitled to recover all of its associated financing costs and acquires the right to collect, receive and recover CEAs from Specified Consumers in accordance with the Legislation
Moratorium Period *(July 1, 2017 to April 30, 2021)*	• CEAs are not permitted to be collected from Specified Consumers during this period • The IESO is obligated to pay the Trust all Carrying Costs, excluding repayment of principal on any debt obligations, during the Moratorium Period and extending to July 31, 2021. The Carrying Costs incurred by the IESO will be added to its Regulatory Asset variance account pursuant to the Regulations • As security for the performance of its obligations, the IESO has granted the Trust a first-priority security interest in its accounts receivable owing by Electricity Vendors to the IESO • The IESO has a $2 billion credit facility from the Ontario Financing Authority ("OFA") which can be used, among other things, to fund payments of the Carrying Costs

Clean Energy Adjustments

- Under the FHPA, the CEA is the amount payable by Specified Consumers to cover the financing and other costs related to the acquisition by the Trust of the Investment Asset and the associated costs of the financing, including payment of principal, interest, operating costs of the Trust and funding of reserve accounts
- CEAs shown on an invoice issued to Specified Consumers represent the amount of the consumers' indebtedness and may not be set off or bypassed

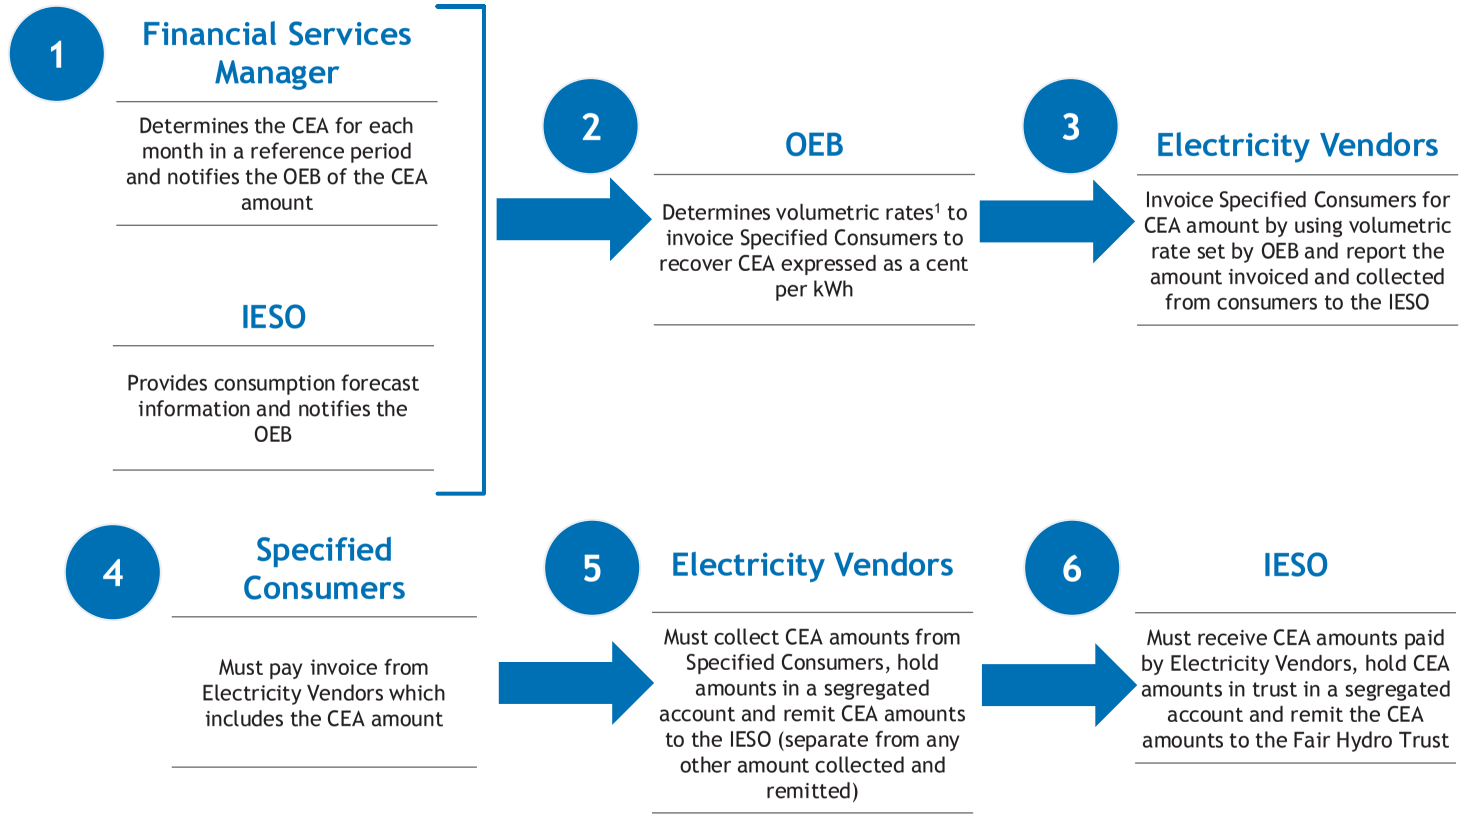


Finance amount is an estimate of the amount payable by the Trust mainly in respect of principal payments, interest costs, Trust expenses and taxes, reserve account deposits and derivative payments

True-up amounts capture the difference between the finance amounts incurred by the Trust and the CEAs collected from Specified Consumers and also include other reasonably foreseeable differences due to various factors (e.g. consumer defaults and delays, billing lags, write-offs and variations in electricity consumption)

Billing and Collection of CEAs

- CEA amounts for billing and collection purposes will be managed outside of the IESO's current settlement processes set out in the Market Rules for electricity invoice amounts
- Collection risk for CEA amounts are mitigated through statutory rights in the FHPA, the obligations of the IESO under the Master Transfer & Servicing Agreement, and the ability to include amounts in the CEA by means of the true-up mechanism
- IESO is required to segregate the CEAs during a monthly period before remitting to FHT. If the IESO's credit rating is downgraded below investment grade, the IESO will be required to remit within two business days of receipt

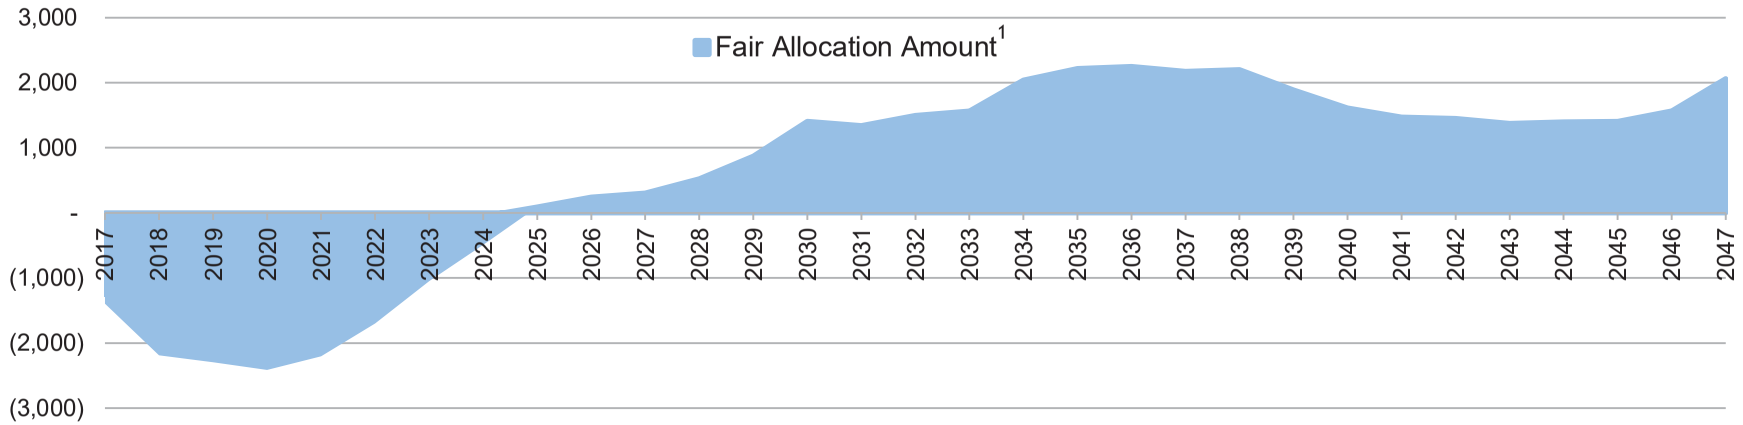


[1] The rates will be determined by dividing the CEA amount by the forecasted energy consumption in the reference period by Specified Consumers.

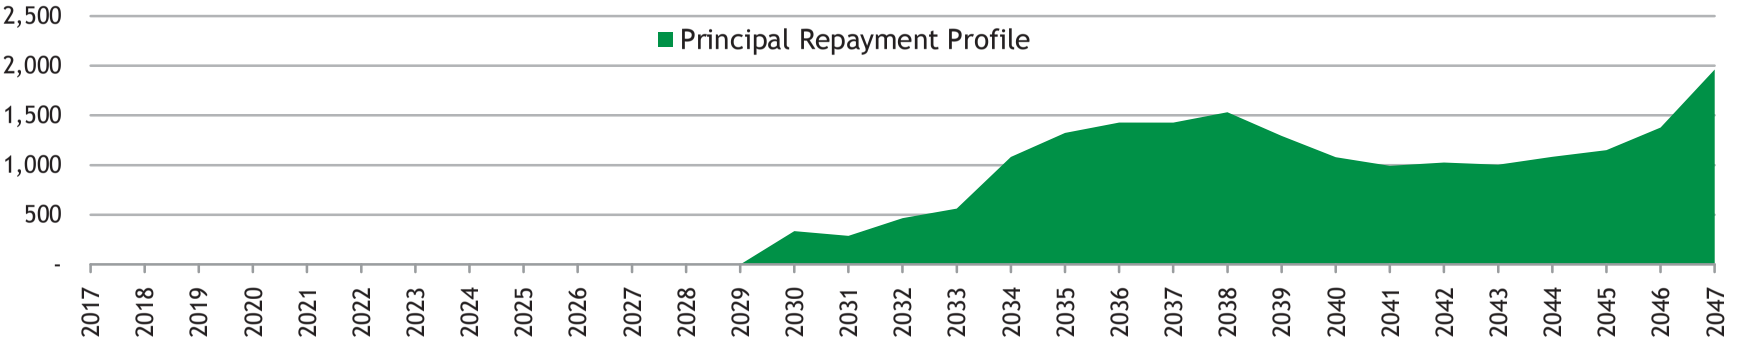
Fair Allocation Amount

- The Fair Allocation Amount ("FAA") is an amount calculated under the FHPA by the Minister of Energy in respect of each reference period that, among other things, allocates the estimated value of clean energy costs in proportion to the relative attribution of the value of clean energy benefits among Specified Consumers

Fair Allocation Amount ($ million)



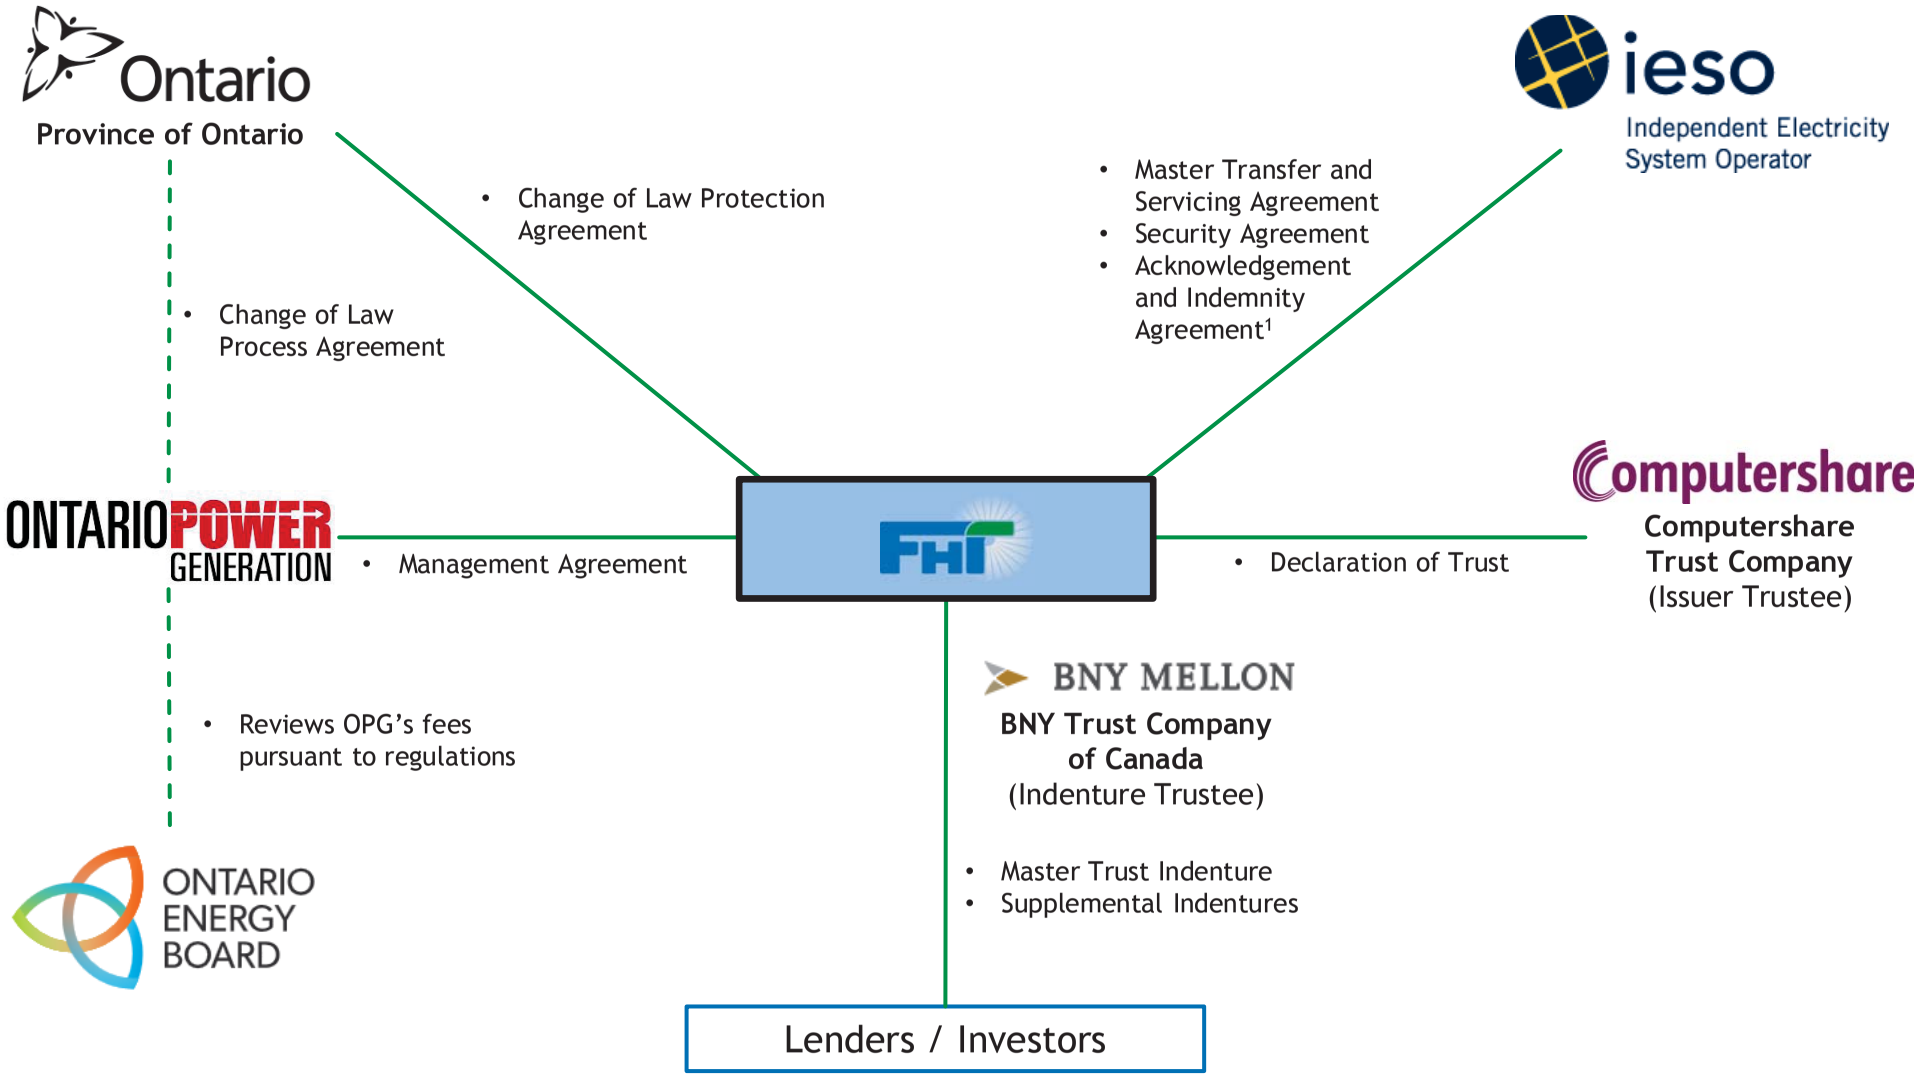
Principal Repayment Profile (derived from the FAA)



[1] Prior to 2025, the above graph of the FAA incorporates the Readjustment Amount. The Readjustment Amount represents the estimated amounts by which Specified Consumers overpaid for clean energy initiatives in the past. It has been incorporated into the FAA to further reduce electricity bills for such consumers.

IV. Contractual Framework

Simplified Contractual Structure



[1] Agreement between IESO and Indenture Trustee.

Contract Highlights

Change of Law Protection Agreement

Purpose	• Provides assurance to Specified Creditors[1] that upon the occurrence of a Protection Event, the Province of Ontario is required to make payments in respect of all Approved Obligations when due and payable
Protection Events	The occurrence of any of the following events: (1) • The Legislature repeals (and does not replace on an equivalent basis) or amends the Act or any portion thereof as in effect on the date hereof • The Legislature enacts or amends any other statute • The Lieutenant Governor in Council repeals (and does not replace on an equivalent basis) the regulations made under the Act or any portion thereof as in effect on the date hereof • The Lieutenant Governor in Council makes or amends any "Regulation" as in effect on the date hereof • The implementation of a change in the organization or structure of the IESO or Ontario's electricity market undertaken at the initiative of the Province or an entity controlled by the Province in each case that adversely affects the ability of the Trust to receive amounts in respect of its Investment Interest so that it can pay Approved Obligations when due and payable, taking into account any funds available in reserve accounts, any credit enhancement available and any reasonably expected potential effect of a true-up amount; or (2) • A court of competent jurisdiction determines that all or a portion of the Act or the regulations made under the Act, is *ultra vires* or invalid in a way that adversely affects the ability of the Trust to receive amounts in respect of its Investment Interest so that it can pay Approved Obligations when due and payable

Note: Additional information on the Change of Law Protection Agreement can be found in the Appendix.

[1] **Specified Creditors** refers to any Person that is owed a payment obligation by the Issuer that gives rise to a Finance Amount in respect of the Issuer.

V. Financing Program

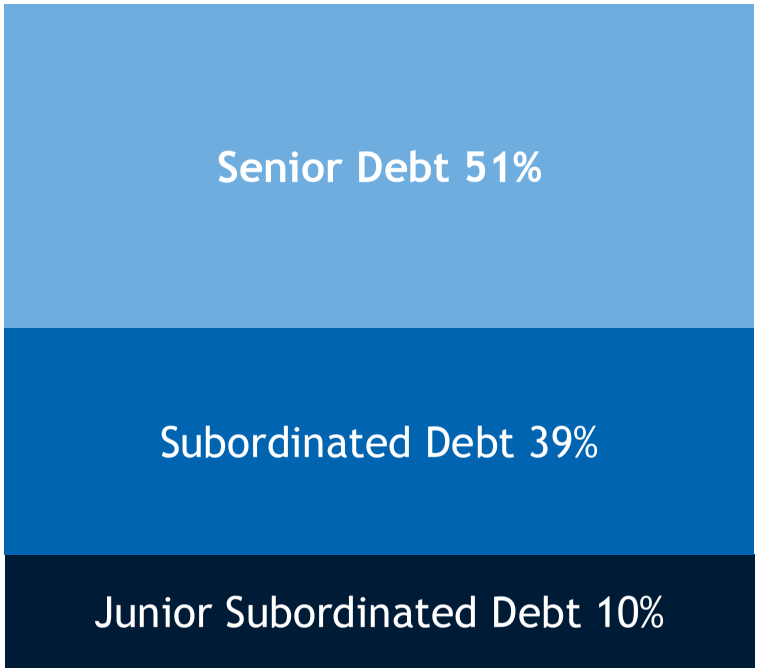
Financing Plan / Strategy

- OPG is responsible for administering the FHT financing program
- Given the size (~$20 billion) and longevity (~10 years) of the FHT financing program, the funding strategy has been designed to provide flexibility
- Warehouse financing (ABCP conduit and bank funded senior debt) and subordinated warehouse debt and junior subordinated warehouse debt funded by OPG will be used to fund monthly Regulatory Asset purchases from the IESO
  - Periodically refinance the warehouse facility through the issuance of term debt (likely access the market 2-3 times per year)
- Term debt can take the form of bullet bonds or could be issued as amortizing bonds

Warehouse Financing	• ABCP conduit and bank funded senior debt with subordinated debt funded by OPG will be used by the Trust to fund monthly Regulatory Asset purchases from the IESO
Term Debt	• Term debt issuances will be used to refinance warehouse financing and the subordinated and junior subordinated warehouse debt funded by OPG • Both Canadian term debt and U.S. term debt market will be considered • Maturity profiles will be structured to ensure reasonable alignment with the FAA (bullet bonds with sinking funds or amortizing bonds) • FHT may issue debt that may be refinanced in the future
Subordinated Debt	• Subordinated debt provides credit enhancement for senior debt (ranks behind senior debt in cash flow waterfall)

Financing Structure

- The Trust will fund Regulatory Asset purchases through the issuance of senior, subordinated and junior subordinated secured debt
- Senior debt (51% anticipated) will be sourced monthly from committed warehouse facilities, and the periodic issuance of term debt
- Subordinated debt (49% anticipated; minimum of 35% required[1]) will be purchased by OPG, primarily funded by equity injections from the Province (44% of 49%) and the remaining portion from OPG (5% of 49%)



Senior Notes
Warehouse facilities and term debt issuances (in Canada and/or the U.S.)

Subordinated Notes
Provided to Trust by OPG via equity injection from the Province

Junior Subordinated Debt
- OPG equity injection (5%) via its corporate borrowing program
- Provided to Trust by OPG via the Province (5%)

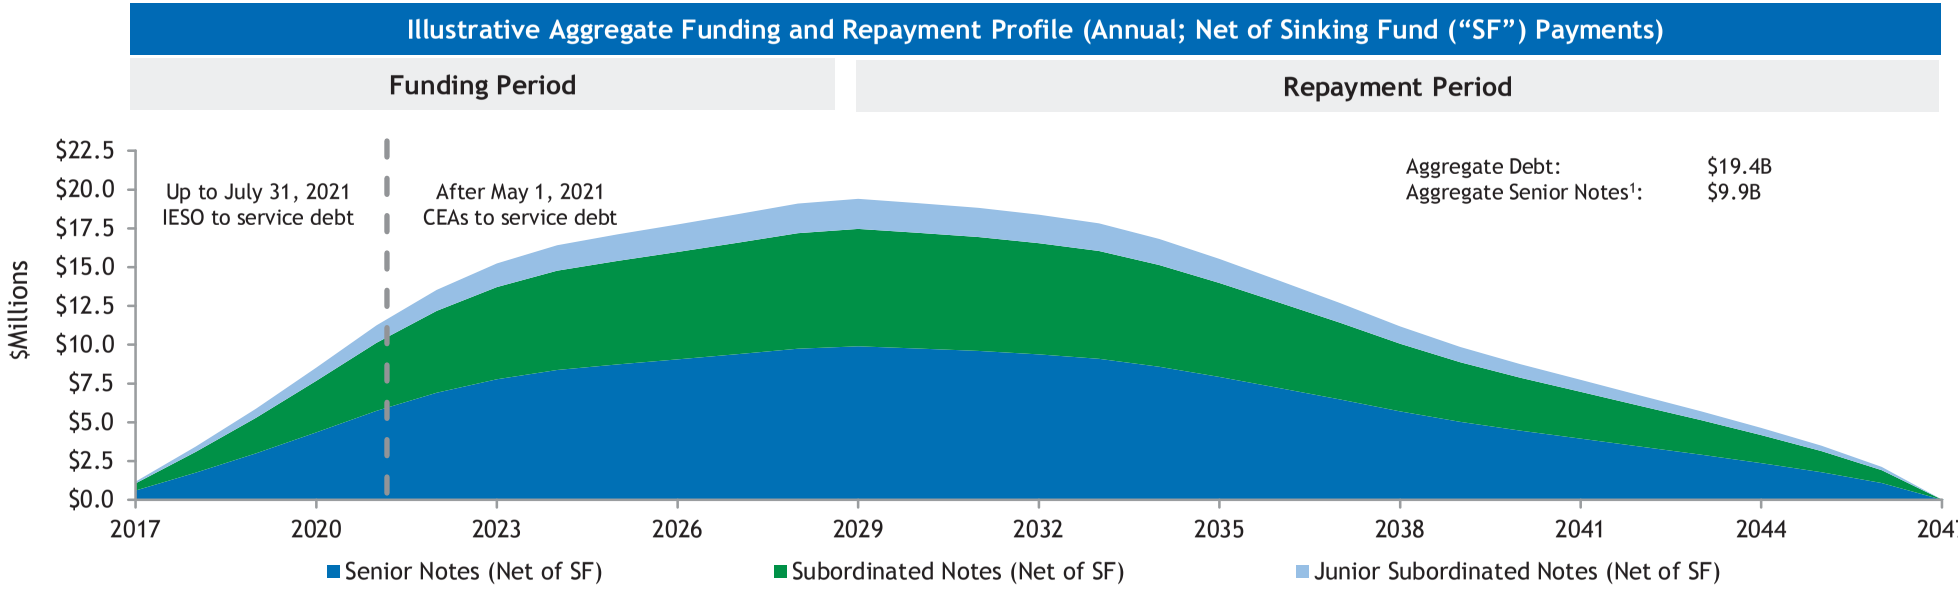
Note: Assumes 49% subordinated debt.

[1] Under the MTI, FHT is required at all times to ensure that all outstanding subordinated and junior subordinated debt be not less than 35% of all outstanding debt.

Aggregate Financing Program

Illustrative Debt Summary - Funding & Repayment Period (Annual)

- Based on the Fair Allocation Amount and the Province's electricity bill reduction targets, the following debt profile for the program is expected, peaking at just under $20 billion by 2029
- Various tranches of debt will be issued periodically during the period of 2018 - 2028, which are expected to mature over a period after 2029



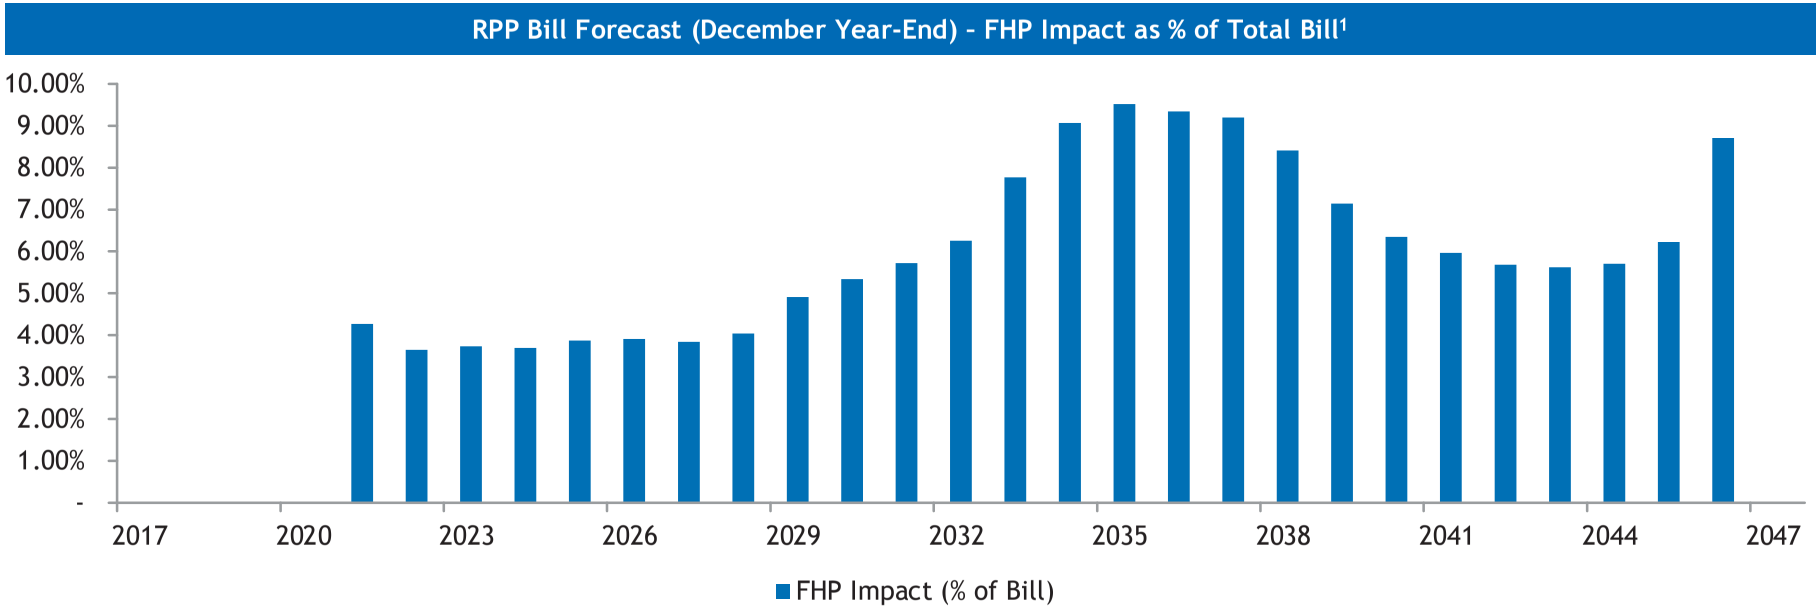
[1] Assumes 51% Senior Notes

Note: During the Moratorium Period and extending three additional months to July 31, 2021, the IESO is required under the Regulations to pay all Carrying Costs. The additional three month period is intended to cover the billing and collection lag from the introduction of Clean Energy Adjustments in May 2021.

Consumer Bill Forecast with FHP

RPP Bill Forecast - FHP Impact % of Total Bill (C$ per Month)

- Over the duration of the Fair Hydro Program, the CEA for the average residential customer is anticipated to remain below 10% of the total electricity bill
- Maximum CEA as a percent of the total bill is forecast to be 10.0%
- Average CEA as a percent of the total bill is forecast to be 6.9%



[1] Presents % of total bill at December year-ends; individual months in any given year may have a higher or lower impact as % of total bill.

Capital Markets Platform

Master Trust Indenture

Parties	• (1) Computershare Trust Company (Issuer Trustee), on behalf of the Trust, acting through OPG as the Manager; (2) BNY Trust Company (Indenture Trustee) on behalf of Specified Creditors
Purpose	• Governs the terms of the debt issued by FHT and cash flow waterfall and collateral structure for all Trust obligations to all Specified Creditors

Key Terms

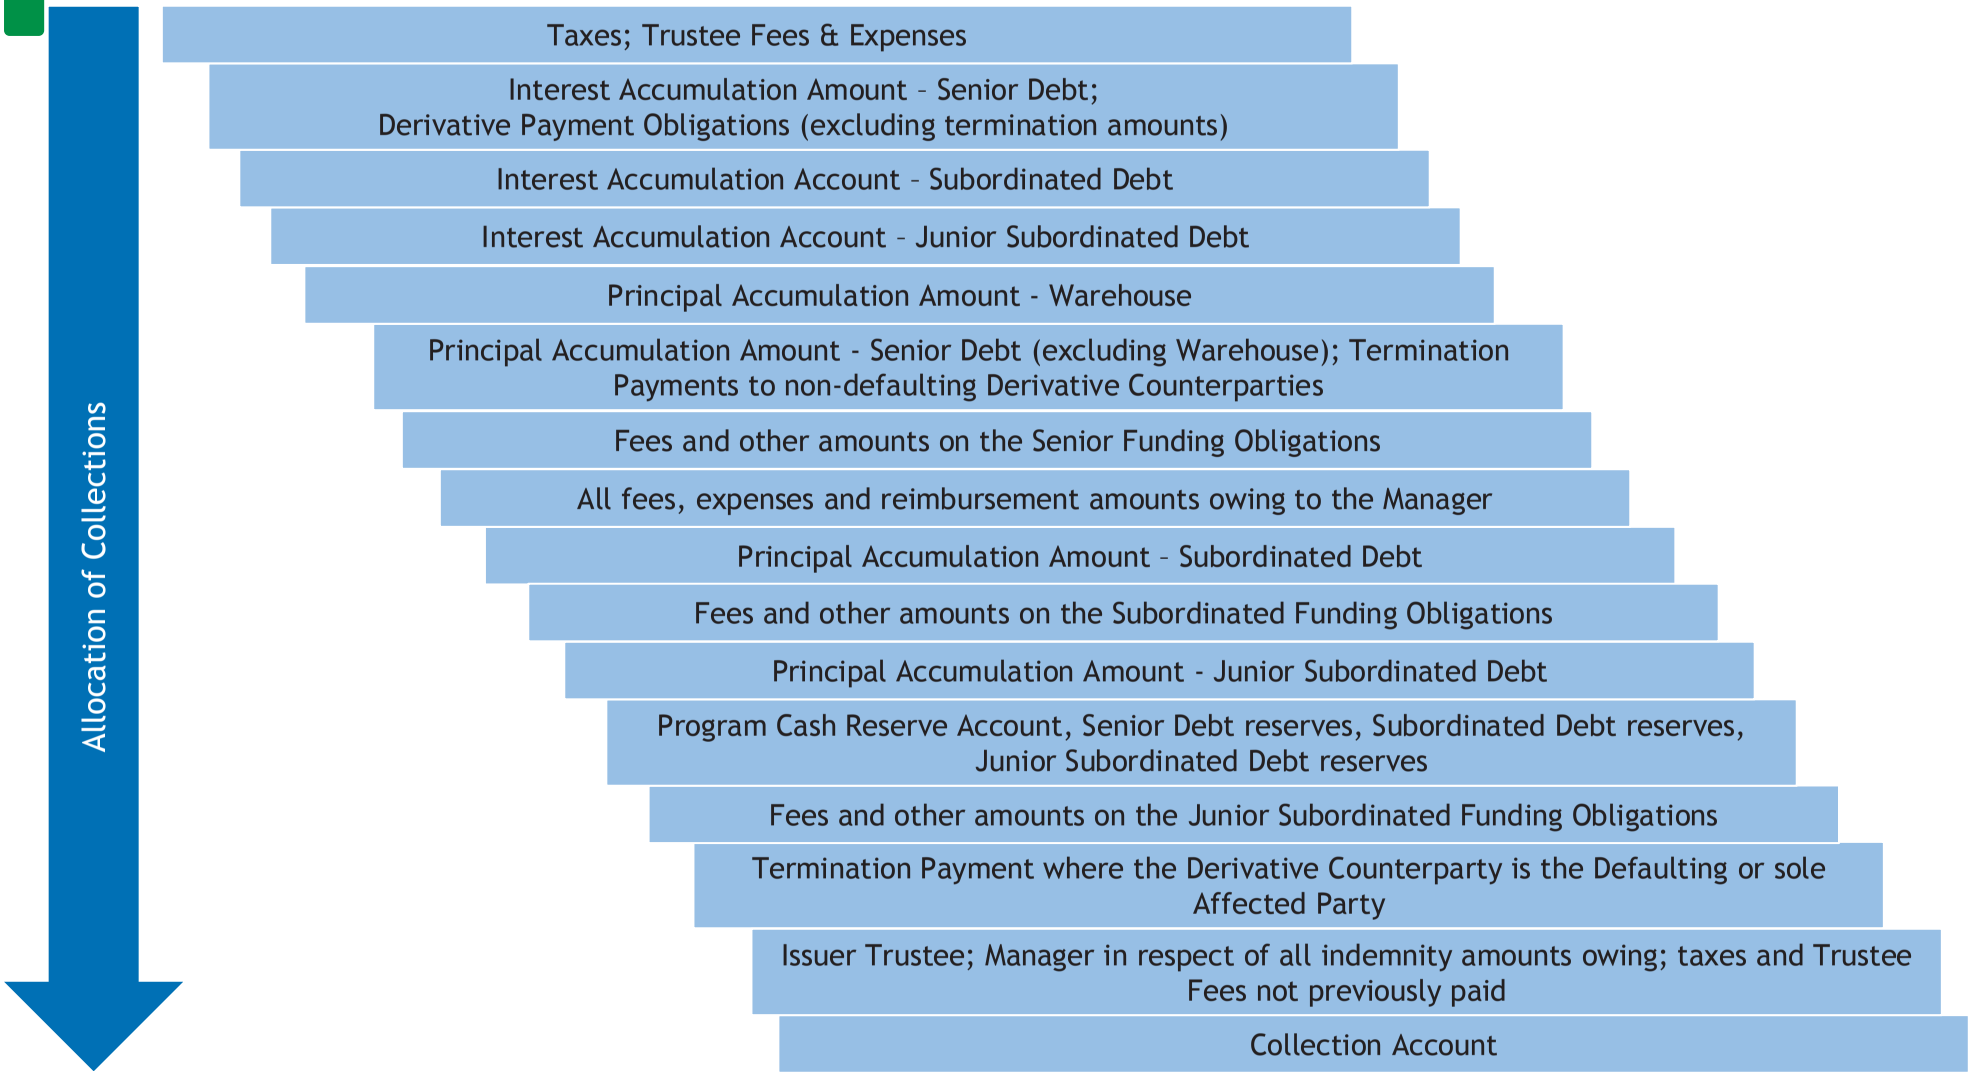
Incurrence of Funding Obligations	• Trust may incur funding obligations under a variety of instruments including: – Note issuances under supplemental indentures – Borrowings under credit agreements – Purchase of notes under note purchase agreements – Letters of Credit/Guarantees under credit enhancement agreements – Liquidity loans under liquidity agreements backing short term notes
Conditions Precedent	• Prior to incurring additional funding obligations, the Trust confirms to the Indenture Trustee and each rating agency that: – the incurrence of such additional obligations will not cause an adverse effect – the incurrence of such additional obligations is materially consistent with the Financing Plan • It will also be a condition precedent that (i) each rating agency confirm that the issuance of such additional funding obligations will not result in a reduction or withdrawal of any existing ratings of outstanding funding obligations and (ii) the Indenture Trustee has received certain assurances as to the applicability of the Change of Law Protection Agreement to such funding obligations

Capital Markets Platform

Master Trust Indenture – Key Terms (cont'd)

Security	• Granted over all assets of the Trust, including the Trust's investment interest, all collections under the MTSA and all accounts
Subordination	• Provides for three different classes of funding obligations – (i) senior – (ii) subordinated – (iii) junior subordinated
Events of Default	• Includes payment and senior defaults, representation and covenant breaches, insolvency and Change of Law Protection Agreement ceasing to be in full force and effect against the Province
Acceleration	• Upon an acceleration, CEAs may be insufficient to repay all amounts becoming due in a period. CEAs for a period will be capped under the Regulation at the otherwise scheduled amounts, plus an additional amount equal to the amounts available under the FAA • However, the amounts received from CEAs after an acceleration will be allocated to pay senior indebtedness before principal amounts owing on subordinated and junior subordinated indebtedness. Accordingly, the subordination of debt across all series of debt should advance the repayment of the principal amount for senior funding obligations • After an acceleration, all Senior Term Notes will be paid pari-passu

Waterfall



Note: This waterfall indicates the priority of payment prior to an Event of Default and acceleration; additional information on the priority of payments after an Event of Default and acceleration can be found in the Offering Memorandum.
Note: After paying interest on the senior debt, no interest payments will be made on the subordinated debt unless there will be sufficient amounts remaining in the Interest Accumulation Account for what should be accumulated for the Senior Notes after making such payments.

VI. Key Risks and Mitigants

Risk Mitigation

Risk	Description of Risk	Mitigants
Political Risk	• Future legislative action to change or challenge/invalidate the Act or the Change of Law Protection Agreement might materially adversely affect a holder's investment in the Notes	• Limited Guarantee provided by the Province of Ontario via the Change of Law Protection Agreement in favour of the Indenture Trustee for lenders/investors in these circumstances
Under Collection	• If the IESO inaccurately forecasts electricity consumption or if OPG uses inaccurate consumer delinquency or write-off data when setting the CEA, there could be a shortfall in collections, which might result in missed or delayed payments of principal and interest on the Notes	• True-up mechanism may result in a delay, but will be corrected in next True-up • Cash reserve and 35%-49% subordination which would first absorb any shortfalls • 6-month reference period • Any shortfall in collections are recoverable from all Specified Consumers
Reliance on IESO and LDCs	• Until July 31, 2021, the Trust is dependent on the IESO to remit payments to the Trust for all Carrying Costs • Receipt of CEAs dependent on the performance of LDCs and IESO • Limited ability to enforce against or replace an LDC	• Highly regulated industry and LDC and IESO are required under law and regulation to perform duties under FHP • IESO has a very strong credit profile and very low losses and grants security over its accounts receivable owed by Electricity Vendors as security during the Moratorium Period • IESO will provide a letter of credit/other security to mitigate commingling risks for CEAs held by non-rated or below investment grade rated LDCs until they are remitted to IESO • LDCs collect security deposits and, when permitted, have the ability to disconnect service for non-payment • $2 billion credit facility from the OFA which can be used by the IESO to pay the Carrying Costs
Size of Charge vs. Bill	• If the charge applied to bills becomes too high, there could be a consumer and/or political backlash	• 20-year repayment period allows for gradual rate increases • Max CEAs as a percent of the total bill over the collection period is forecast to be 10%
Disruptive Technology Risk / Change in Demographics	• Technological developments may result in reduced CEA payments as a result of increased use of alternative energy sources • Population fluctuations may result in fewer Specified Consumers	• True-up mechanism available to offset the reduction in CEAs due to technological advancements or fluctuations in the number of Specified Consumers • Collection shortfalls are allocated among a large base of Specified Consumers

I. Introduction and Transaction Overview

Introduction

Ontario's Fair Hydro Plan	• The Province of Ontario announced its Fair Hydro Plan (FHP) on March 2, 2017, which proposed to lower the average electricity bill for eligible customers[1] ~~(referred to as Specified Consumers)~~ by 25% (the "Fair Adjustment") • The 25% reduction includes an 8% rebate equivalent to the provincial portion of the harmonized sales tax granted by the Ontario government in January 2017 • ~~It is expected that the rate reduction will be in effect until April 30, 2021, with any rate increases until that date limited to the rate of inflation in Ontario~~
Legislation	• On June 1, 2017, the Ontario government passed the *Ontario Fair Hydro Plan Act, 2017* (~~together, with the regulations promulgated thereunder,~~ the "FHPA" or "Act") to give effect to the FHP~~, legislation that reallocates certain electricity costs over time and provides immediate rate relief contemplated by the Fair Hydro Plan to Specified Consumers~~ • The FHPA was enacted to ensure that clean energy costs and clean energy benefits are fairly allocated among present and future Specified Consumers and to provide fairness for Specified Consumers over time • The FHPA is supplemented by regulations related to the implementation of the FHPA (the "Regulations" and together with the FHPA, the "Legislation") • The FHPA imposes an irrevocable and non-bypassable charge recoverable from Specified Consumers and referred to as the Clean Energy Adjustment (CEA); ~~that~~ will be determined by Ontario Power Generation (OPG) in accordance with the Legislation in its role as Financial Services Manager under the Act • The CEA will be determined for each six month reference period and converted by the Ontario Energy Board (OEB) into a $/kWh rate and added to electricity invoices sent to Specified Consumers commencing on May 1, 2021 • From July 1, 2017 to April 30, 2021 (the "Moratorium Period"), no payments in respect of CEA ~~will~~ expected to be collected; during ~~this~~the Moratorium ~~p~~Period the Independent Electricity System Operator (IESO) is obligated to pay all funding and other expenses of the Trust (excluding principal) (referred to as "Carrying Costs") under the ~~Regulations~~Legislation
Fair Hydro Trust	• The implementation of the Fair Hydro Plan will be financed by the Fair Hydro Trust ("FHT", the "Trust" or the "Issuer") through the issuance of senior, subordinated and junior subordinated notes • Structured to be bankruptcy remote and even though consolidated by OPG on an accounting basis is ring fenced from OPG's other creditors • The FHT term notes will be repaid through the CEA payments received from Specified Consumers

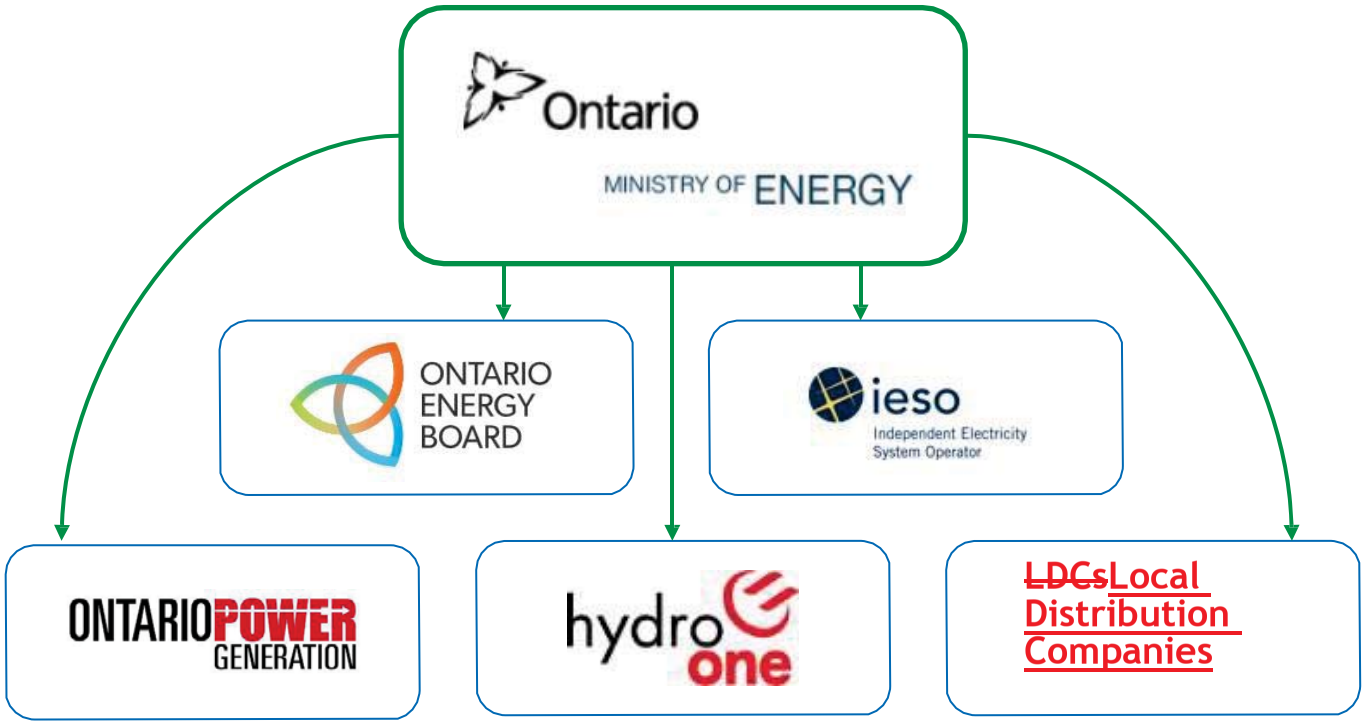
II. Ontario Electricity Market

Overview of Ontario's Electricity Market

- Highly regulated electricity market comprised primarily of three components: generation, transmission and distribution; ~$22 billion in average annual cash flows[1]
- Transmission rates, distribution rates, and OPG's regulated rates are set by the OEB
- Rates for the majority of the remaining generation supply are set by the wholesale electricity market and by direct contracts with the IESO (e.g. Bruce Power (nuclear), wind, solar, hydroelectric)



[1] Source: "Ontario Planning Outlook – A technical report on the electricity system prepared by the IESO" dated September 1, 2016. The amount represents the

mathematical average of the system costs on page 44 in the appendix “Data Tables for the OPO Technical Report”.

Key Industry Participants

Participants	Credit Ratings *(DBRS / S&P / Moody's)*	Description
Ontario Ministry of Energy	AA (l) / A+ / Aa2 [1]	• The Province of Ontario through the Ministry of Energy sets ~~the~~ policy for the electricity system
Ontario Energy Board	--	• Independent public regulatory agency established under the *Ontario Energy Board Act, 1998* and has the authority to regulate Ontario's electricity market, including the activities of transmitters and distributors • Sets the regulated price for the commodity cost charged to most residential electricity customers via the Regulated Price Plan (RPP); RPP rates are set twice a year (May and November)
ieso Independent Electricity System Operator	A(h) / -- / Aa2	• Corporation without share capital ~~Not-for-profit corporation~~ established under the *Electricity Act, 1998 (Ontario)* • Manages the operation and reliability of Ontario's bulk power system and administers the wholesale electricity market
Ontario Power Generation	A(l) / BBB+ / --	• Corporation formed under the *Business Corporation Act (Ontario)*, whose sole shareholder is the Province of Ontario • Principal business is the generation and sale of electricity in Ontario and is Ontario's largest clean energy electricity generator, providing approximately half of the province's electricity
hydro one	A(h) / A / A3	• Ontario's largest electricity transmission and distribution company, delivering electricity to over 1.3 million customers across the province, and to large industrial customers and municipal utilities

[1] The credit ratings noted are for the Province of Ontario.

Key Industry Participants – LDC Overview

- As part of the restructuring of Ontario's electricity industry under the *Energy Competition Act, 1998*, the municipal electricity utilities became municipally-owned business corporations~~, including LDCs~~. The majority of LDCs continue to be municipally-owned, while others have been ~~sold to or~~ acquired by Hydro One or private-sector owners
- An LDC is responsible for distributing electricity to customers in its OEB-licensed service territory, and in some cases to other distributors

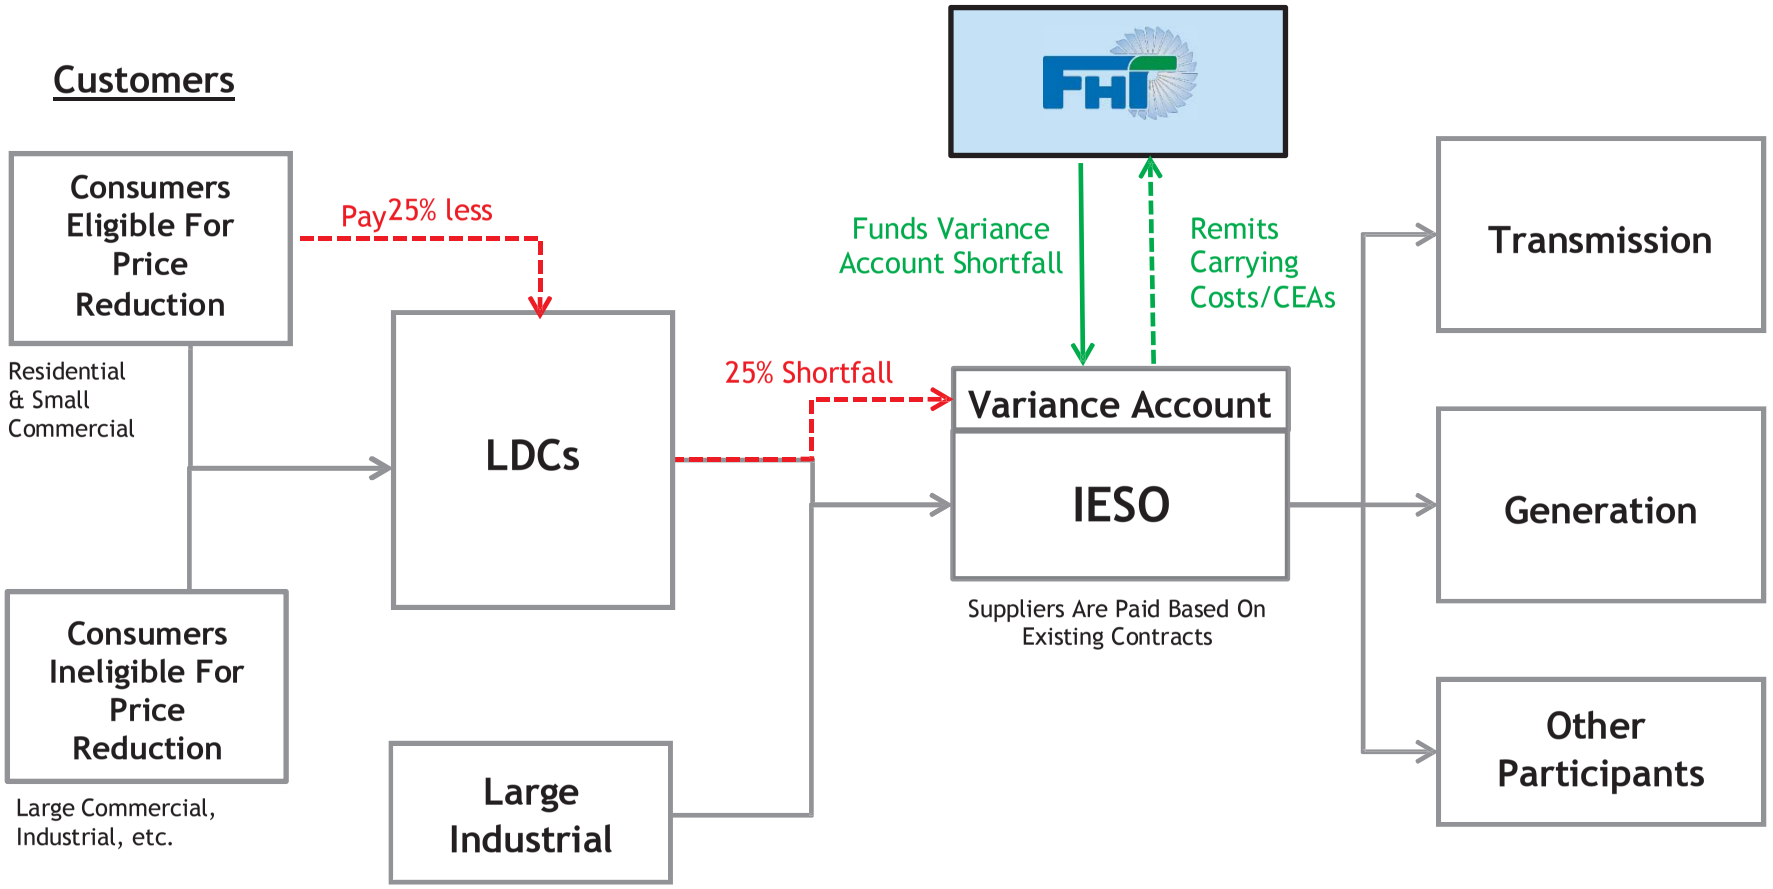
Electricity Market with FHT

- Under the FHPA, each month the IESO determines the IESO deferral (the shortfall that results from the Fair Adjustment) and records this amount, together with financing costs and other related, in a variance account
- FHT will finance the shortfall and is entitled to recover its costs and the principal and interest on its debt through CEAs from Specified Consumers



III. Legislative and Regulatory Framework

Legislation Overview

Purpose	• The FHPA was enacted to ensure that clean energy costs and clean energy benefits are fairly allocated among present and future Specified Consumers • Clean energy costs are costs allocated to consumers as a result of Ontario's clean energy initiatives; clean energy benefits are benefits that accrue to both present and future electricity consumers
Specified Consumers	• A category of consumers that generally is comprised of residential consumers, small businesses and farms • Includes consumers with a demand for electricity of 50 kW or less or those that use not more than 250,000 kWh of electricity annually
Rate Reduction Period	• **July 1, 2017 – April 30, 2018** – Specified Consumers charged an invoice amount that is 25%[1] less than the regulated rate that would otherwise have been determined by the OEB; the 25% reduction includes an 8% rebate equivalent to the provincial portion of the HST previously granted by the Ontario government • **May 1, 2018 – April 30, 2019** - regulated rate established in the first year of the Rate Reduction Period anticipated to increase by the rate of inflation in Ontario • **May 1, 2019 – April 30, 2021** - rate reductions will be established by future regulation but anticipated to increase by the rate of inflation in Ontario

[1] Based on a typical Toronto Hydro customer; the amount of the reduction for any given Specified Consumer may vary from this account.

Legislation Overview, cont'd

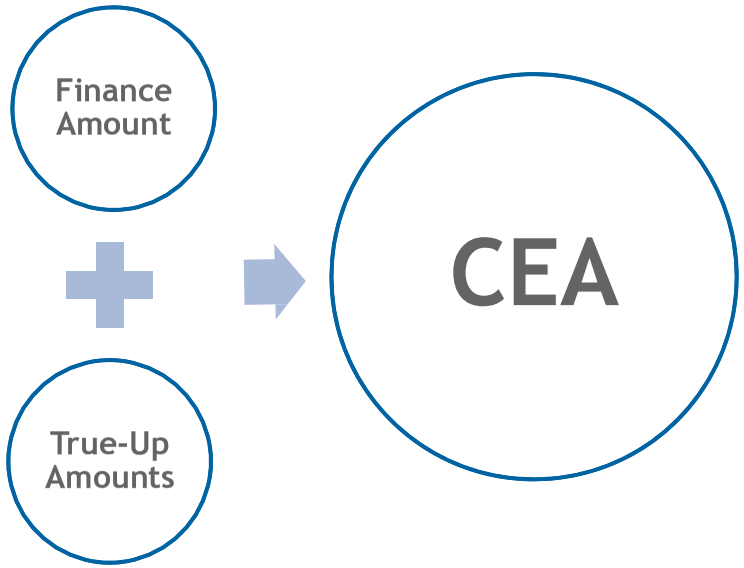
Regulatory Asset	• Each month the IESO determines the IESO deferral (the shortfall that results from the Fair Adjustment) and records this amount, together with the costs of financing the shortfall, in a variance account • The IESO has the right to recover the balance recorded in the variance account from Specified Consumers (such right is the Regulatory Asset) • The IESO may from time to time transfer a specified portion of the Regulatory Asset to the Trust for a cash purchase price equal to the corresponding amount recorded in the
Investment Asset	• The Trust is not obligated to purchase Regulatory Assets from the IESO • If the IESO and the Trust agree to the transfer of a specified portion of the Regulatory Asset, such transfer results in the creation of a current and irrevocable property right that is immediately vested in the Trust (such right is an Investment Interest) • By acquiring an Investment Interest, the Trust will be entitled to recover all of its associated financing costs and acquires the right to ~~impose, invoice,~~ collect, receive and recover CEAs from Specified Consumers in accordance with the Legislation
Moratorium Period *(July 1, 2017 to April 30, 2021)*	• CEAs are not permitted to be collected from Specified Consumers during this period • The IESO is obligated to pay the Trust all Carrying Costs, excluding repayment of principal on any debt obligations, during the Moratorium Period and extending to July 31, 2021. The Carrying Costs incurred by the IESO will be added to its Regulatory Asset variance account pursuant to Regulations • As security for the performance of its obligations, the IESO has granted the Trust a first-priority security interest in ~~all of~~ its accounts receivable owing by Electricity Vendors to the IESO • The IESO has a $2 billion general credit facility from the Ontario Financing Authority (OFA) which can be used among other things to ~~pay~~ fund payments of the Carrying Costs

Clean Energy Adjustments

- Under the FHPA, the CEA is the amount payable by Specified Consumers to cover the cost of the IESO deferral ~~financing the shortfall from the Fair Adjustment~~ and the associated costs of the financing, including payment of principal, operating costs of the Trust and funding of reserve accounts
- CEAs shown on an invoice issued to Specified Consumers represent the amount of the consumers' indebtedness and may not be set off or bypassed

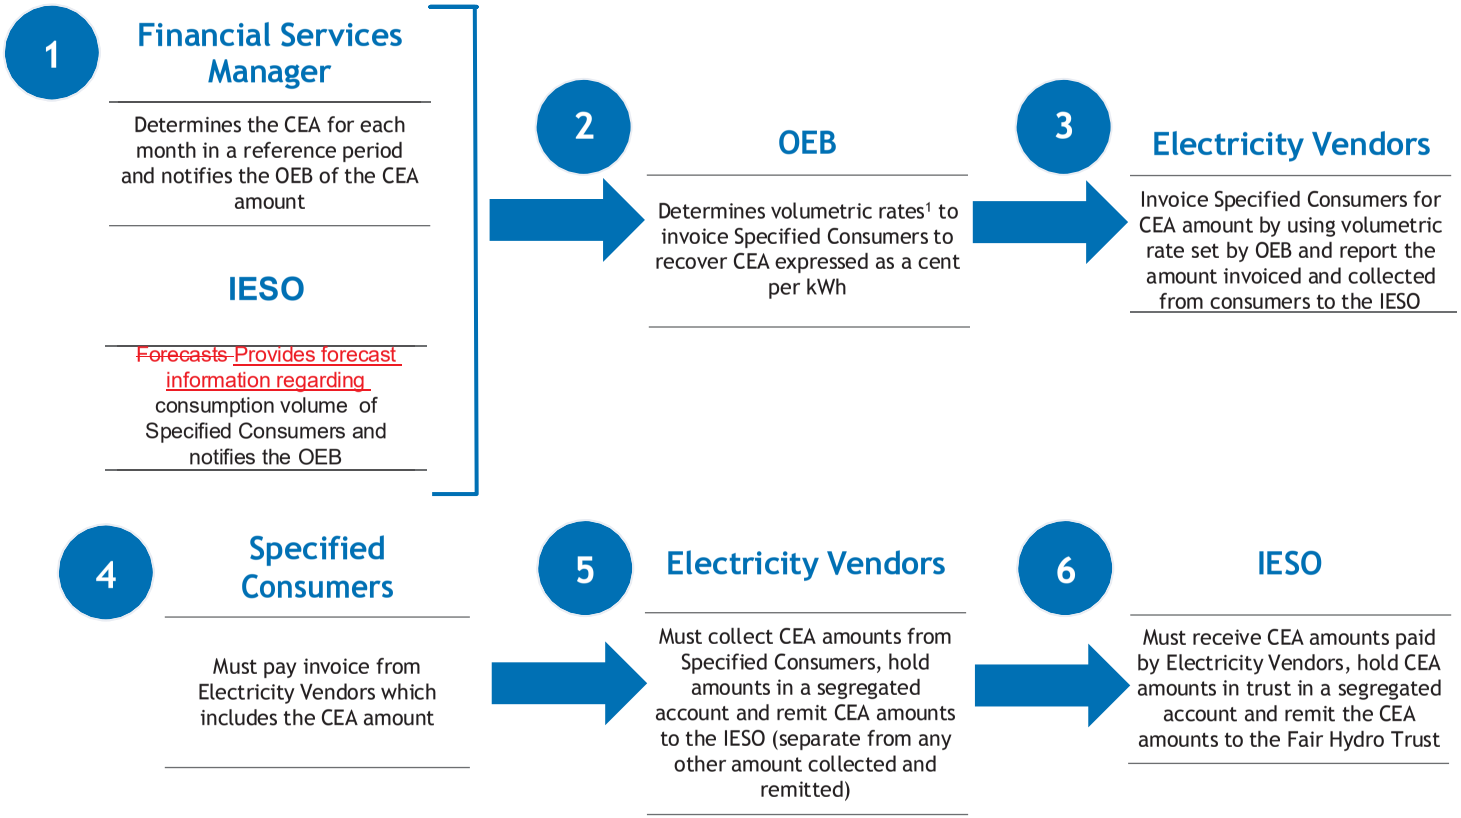
Finance amount is an estimate of the amount payable by the Trust mainly in respect of principal payments, interest costs, Trust expenses and taxes, reserve account deposits and derivative payments

True-up amounts capture the difference between the finance amounts incurred by the Trust and the CEAs collected from Specified Consumers and also include other reasonably foreseeable differences due to various factors (e.g. consumer defaults and delays, billing lags, write-offs and variations in electricity consumption)



Billing and Collection of CEAs

- CEA amounts for billing and collection purposes will be managed outside of the IESO's current settlement processes set out in the Market Rules for electricity invoice amounts
- Collection risk for CEA amounts are mitigated through statutory rights in the FHPA, the ~~collection~~ obligations of the IESO under the Master Transfer & Servicing Agreement ~~(MTSA)~~, and the ability to include amounts in the CEA by means of the ~~into the~~ true up mechanism
- IESO is ~~allowed to commingle~~required to seperate the CEAs during a monthly period before remitting to FHT. If the IESO's credit rating is downgraded below investment grade, ~~it will not be allowed to commingle CEAs and will remit~~the IESO will be required to remit within two business days of receipt

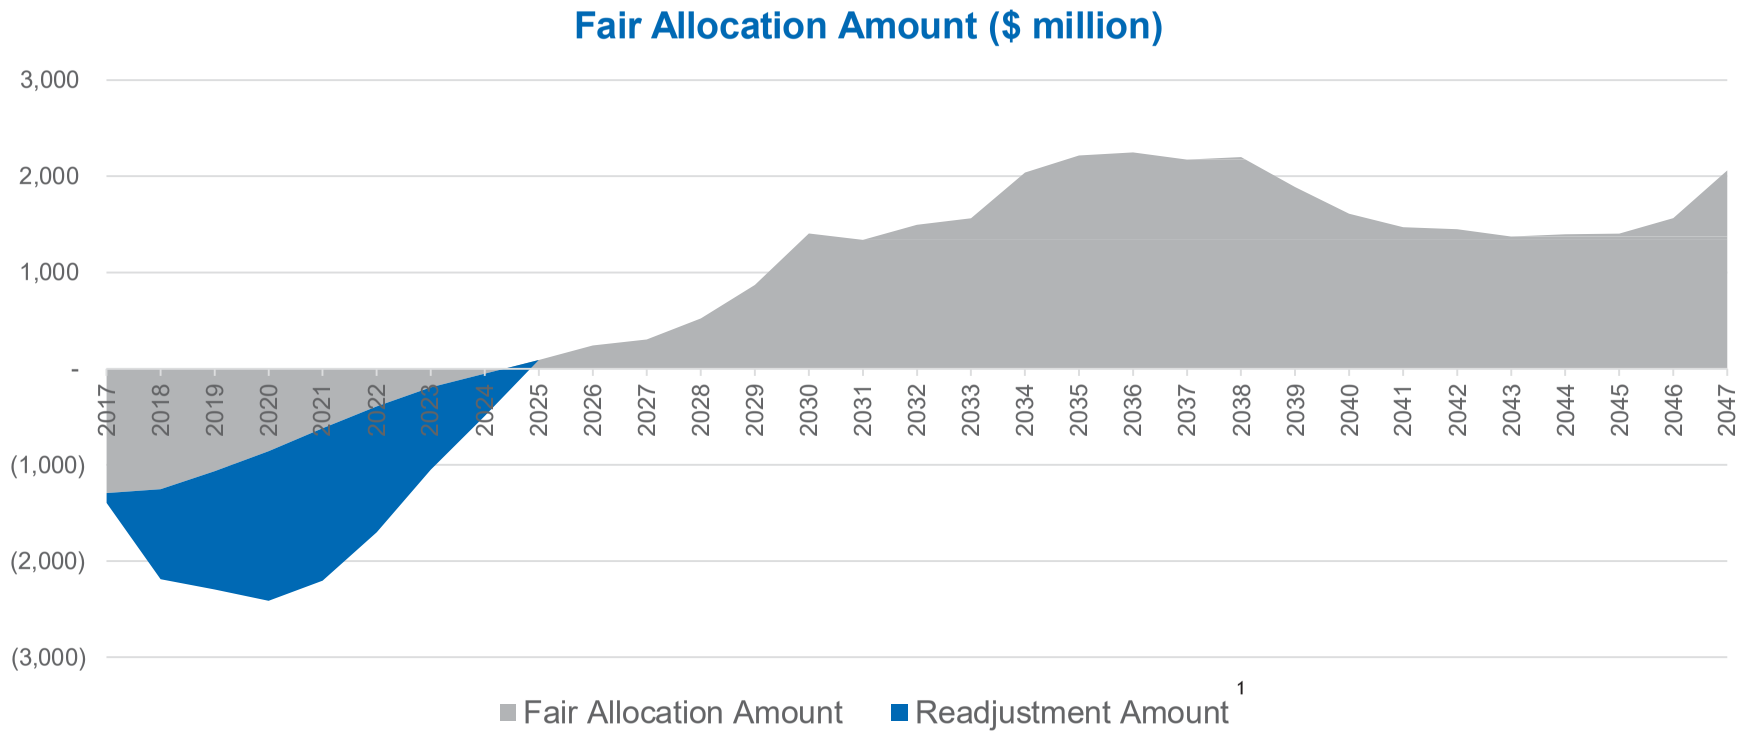


[1] The rates will be determined by dividing the CEA amount by the forecasted energy consumption in the reference period by Specified Consumers.

Fair Allocation Amount

Please refer to the updated Fair Allocation Amount slide in the clean version (slide 19) for updated commentary, graphs and footnote

- The Fair Allocation Amount (FAA) is the estimated clean energy cos reallocated on the basis of estimated clean energy benefits to Specified Consumers in respect of each reference period and includes operating and financing costs of the FHT
- If the FAA is negative, this means that the Minister of Energy has determined that current Specified Consumers have borne more than their fair share of clean energy costs (with the consequent rate reduction for current Specified Consumers); the FAA is expected to be negative until at least May 2024
- The Ministry of Energy may provide updated FAAs to OPG from time-to-time



[1] The Readjustment Amount represents the amounts by which Specified Consumers overpaid for clean energy initiatives in the past. It has been incorporated into the FAA to further reduce electricity bills for such consumers.

V. Financing Program

Financing Plan / Strategy

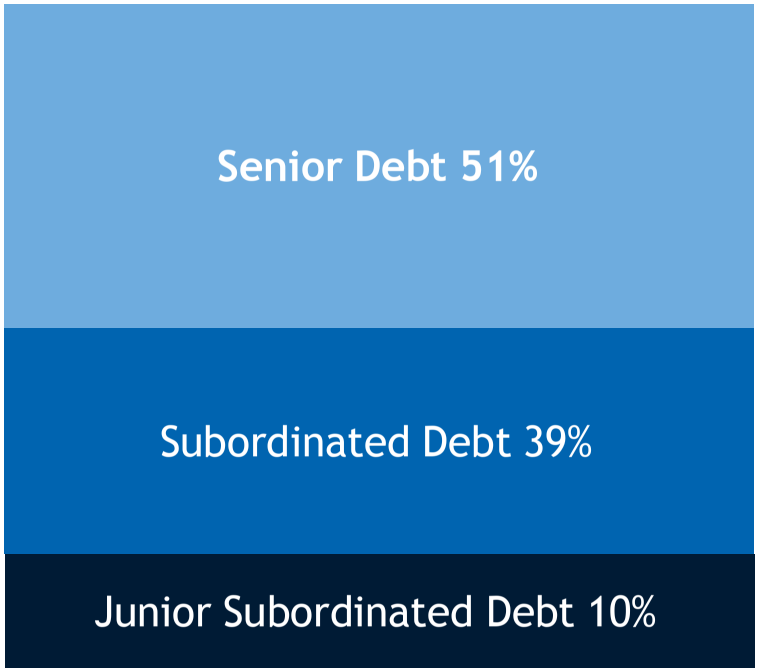
- OPG is responsible for administering the FHT financing program
- Given the size (~$20 billion) and longevity (~10 years) of the FHT financing program, the funding strategy has been designed to provide flexibility
- Warehouse financing (ABCP conduit and bank funded senior debt) and ~~subordinated~~ subordinated warehouse debt and junior subordinated warehouse debt funded by OPG will be used to fund monthly Regulatory Asset purchases from the IESO
  - Periodically refinance the warehouse facility through the issuance of term debt (likely access the market 2-3 times per year)
- Term debt can take the form of bullet bonds or could be issued as amortizing bonds

Warehouse Financing	• ABCP conduit and bank funded senior debt with subordinated debt funded by OPG will be used by the Trust to fund monthly Regulatory Asset purchases from the IESO
Term Debt	• Term debt issuances will be used to refinance warehouse financing and the subordinated debt and junior subordinated debt funded by OPG • Both Canadian term debt and U.S. term debt market will be considered • Maturity profiles will be structured to ensure reasonable alignment with the FAA (bullet bonds with sinking funds or amortizing bonds) • FHT may issue debt that may be refinanced in the future
Subordinated Debt	• Subordinated debt provides credit enhancement for senior debt (ranks behind senior debt in cash flow waterfall)

V. Financing Program

Financing Structure

- The Trust will fund Regulatory Asset purchases through the issuance of senior, subordinated and junior subordinated secured debt
- Senior debt (51%) will be sourced monthly from committed warehouse facilities, and the periodic issuance of term debt
- Subordinated debt (49% anticipated; minimum of 35% required[1]) will be purchased by OPG, primarily funded by equity injections from the Province (44% of 49%) and the remaining portion from OPG (5% of 49%)



Senior Notes
Warehouse facilities and term debt issuances (in Canada and/or the U.S.)

Subordinated Notes
Provided to Trust by OPG via equity injection from the Province

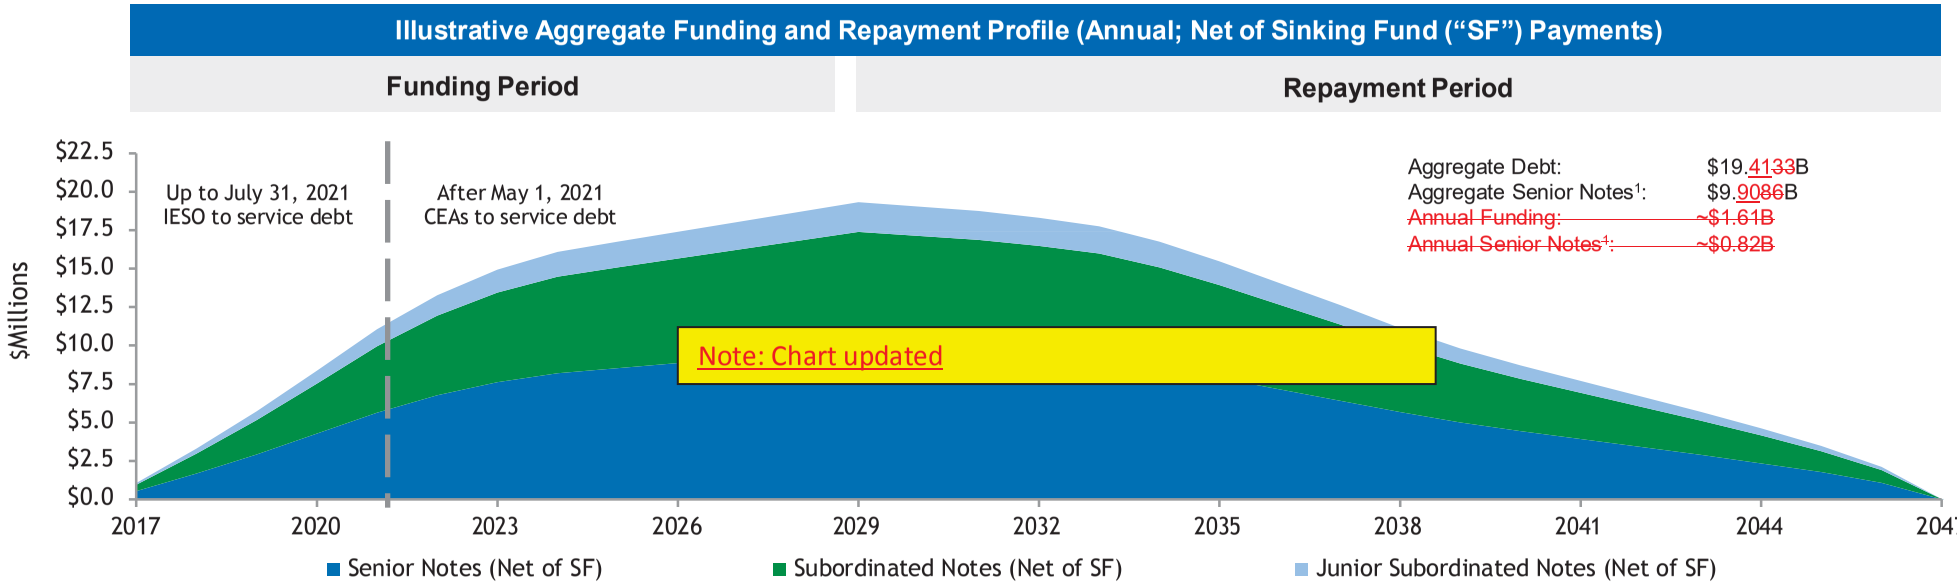
Junior Subordinated Debt
- OPG equity injection (5%) via its corporate borrowing program
- Provided to Trust by OPG via the Province (5%)

[1] Under the MTI, FHT is required at all times to ensure that all outstanding subordinated and junior subordinated debt be not less than 35% of all outstanding debt.
Note: Assumes 49% Subordinated Debt.

Aggregate Financing Program

Illustrative Debt Summary - Funding & Repayment Period (Annual)

- Based on the Fair Allocation Amount and the Province's electricity bill reduction targets, the following debt profile for the program is expected, peaking at just under $20 billion by 2029
- Various tranches of debt will be issued periodically during the period of 2018 - 2028, which are expected to mature over a period after 2029



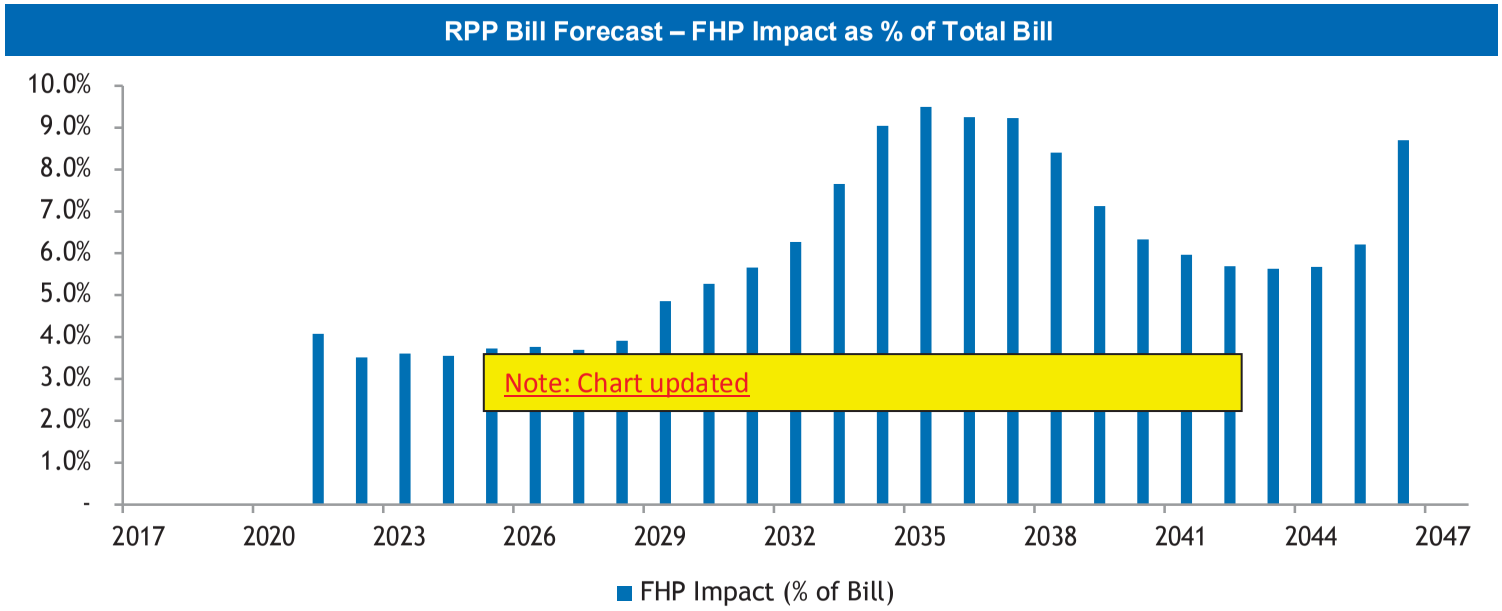
[1] Assumes 51% Senior Notes

Note: During the Moratorium Period and extending three additional months to July 31, 2021, the IESO is required under the Regulations to pay all Carrying Costs. The additional three month period is intended to cover the billing and collection lag from the introduction of Clean Energy Adjustments in May 2021.

Consumer Bill Forecast with FHP

RPP Bill Forecast - FHP Impact % of Total Bill (C$ per Month)

- Over the duration of the Fair Hydro Program, the CEA for the average residential customer is anticipated to remain below 10% of the total electricity bill
- Max CEA as a percent of the total bill is forecast to be 10.01%
- Average CEA as a percent of the total bill is forecast to be 6.9%



Capital Markets Platform

Master Trust Indenture

Conditions Precedent	• Prior to incurring additional funding obligations, the Trust confirms to the Indenture Trustee and each rating agency that: - the incurrence of such additional obligations will not cause an adverse effect - the incurrence of such additional obligations is materially consistent with the Financing Plan • It will also be a condition precedent that (i) each rating agency confirm that the issuance of such additional funding obligations will not result in a reduction or withdrawal of any existing ratings of outstanding funding obligations and (ii) the Indenture Trustee has received certain assurances as to the applicability of the Change of Law Protection Agreement to such funding obligations

Capital Markets Platform

Master Trust Indenture – Key Terms (cont'd)

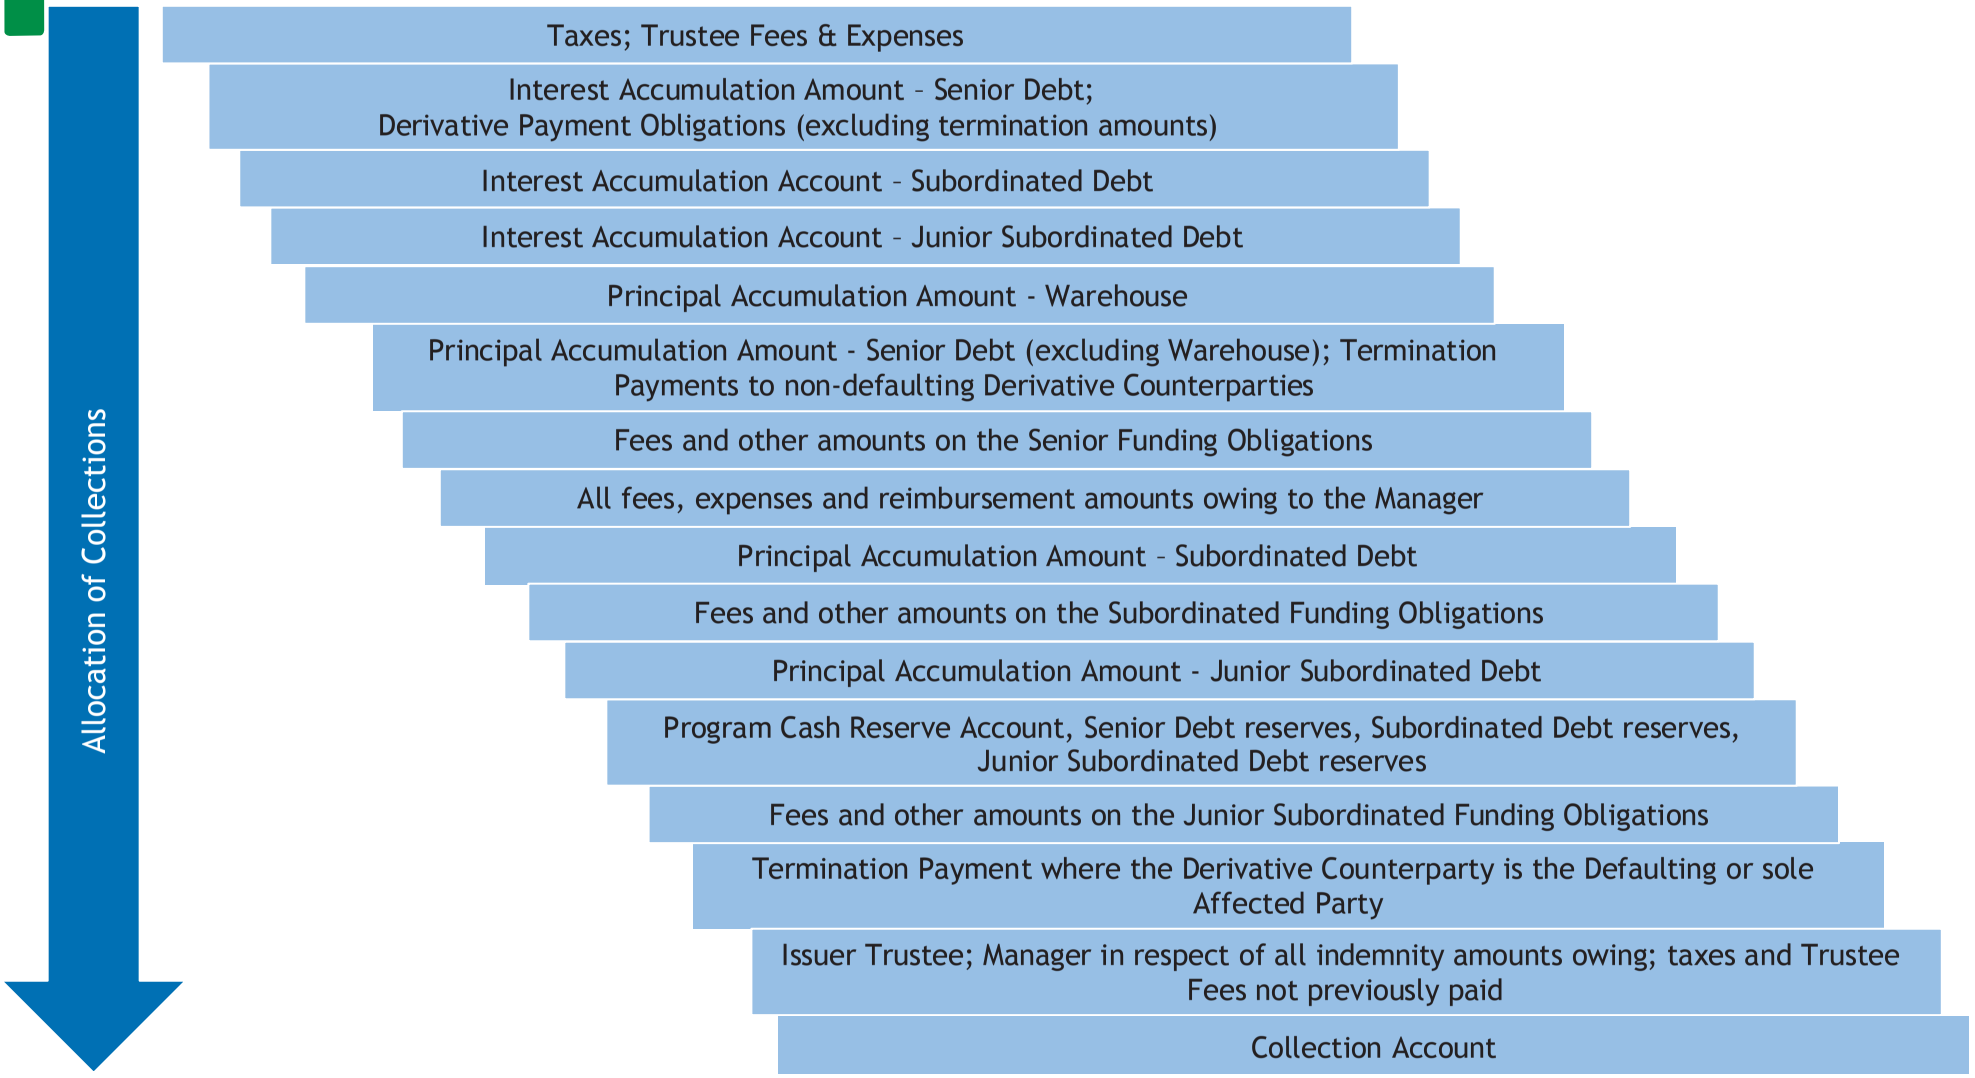
Acceleration	• •Upon an acceleration, CEAs may be insufficient to repay all amounts becoming due in a period. CEAs for a period will be capped ~~CEAs cannot be increased to the level required to immediately repay all outstanding principal following acceleration. The increase in CEAs is limited~~ under the Regulation at the otherwise scheduled amounts, plus an additional amount if the aggregate of those otherwise scheduled amounts would be less than ~~to the amount available per~~ the FAA for the period • However, the amounts received from CEAs after an acceleration will be allocated to pay senior indebtedness before principal amounts owing on subordinated and junior subordinated indebtedness.~~CEAs are allocated to paying the senior indebtedness first.~~ Accordingly, the subordination of debt across all series of debt ~~would~~ should advance the repayment of the principal amount for senior funding obligations • After an acceleration, all Senior Term Notes will be paid parri-passu

Waterfall



Note: This waterfall indicates the priority of payment prior to an Event of Default and acceleration; additional information on the priority of payments after an Event of Default and acceleration can be found in the Offering Memorandum.
Note: After paying interest on the senior debt, no interest payments will be made on the subordinated debt unless there will be sufficient amounts remaining in the Interest Accumulation Account for what should be accumulated for the Senior Notes after making such payments.

I. Introduction and Transaction Overview

Introduction

Ontario's Fair Hydro Plan	• The Province of Ontario announced its Fair Hydro Plan (FHP) on March 2, 2017, which proposed to lower the average electricity bill for eligible customers[1] by 25% (the "Fair Adjustment") • The 25% reduction includes an 8% rebate equivalent to the provincial portion of the harmonized sales tax granted by the Ontario government in January 2017
Legislation	• On June 1, 2017, the Ontario Legislature passed the *Ontario Fair Hydro Plan Act, 2017* (the "FHPA or the "Act") to give effect to the FHP • The FHPA was enacted to ensure that clean energy costs and clean energy benefits are fairly allocated among present and future Specified Consumers and to provide fairness for Specified Consumers over time • The FHPA is supplemented by regulations related to the implementation of the FHPA (the "Regulations" and together with the FHPA, the "Legislation") • The FHPA imposes an irrevocable and non-bypassable charge recoverable from Specified Consumers and referred to as the Clean Energy Adjustment (CEA); will be determined by Ontario Power Generation (OPG) in accordance with the Legislation in its role as Financial Services Manager under the Act • The CEA will be determined for each six month reference period and converted by the Ontario Energy Board ("OEB") into a $/kWh rate and added to electricity invoices sent to Specified Consumers commencing on May 1, 2021 • From July 1, 2017 to April 30, 2021 (the "Moratorium Period"), no payments in respect of CEA are expected to be collected; during the Moratorium Period and extending to July 31, 2021, the Independent Electricity System Operator (IESO) is obligated to pay all funding and other expenses of the Trust (excluding principal) (referred to as "Carrying Costs") under the Legislation
Fair Hydro Trust	• The implementation of the Fair Hydro Plan will be financed by the Fair Hydro Trust ("FHT", the "Trust" or the "Issuer") through the issuance of senior, subordinated and junior subordinated notes • Structured to be bankruptcy remote and even though consolidated by OPG on an accounting basis, is ring fenced from OPG's other creditors • The FHT term notes will be repaid through the CEA payments received from Specified Consumers

[1] Defined as Specified Consumers under the FHPA.

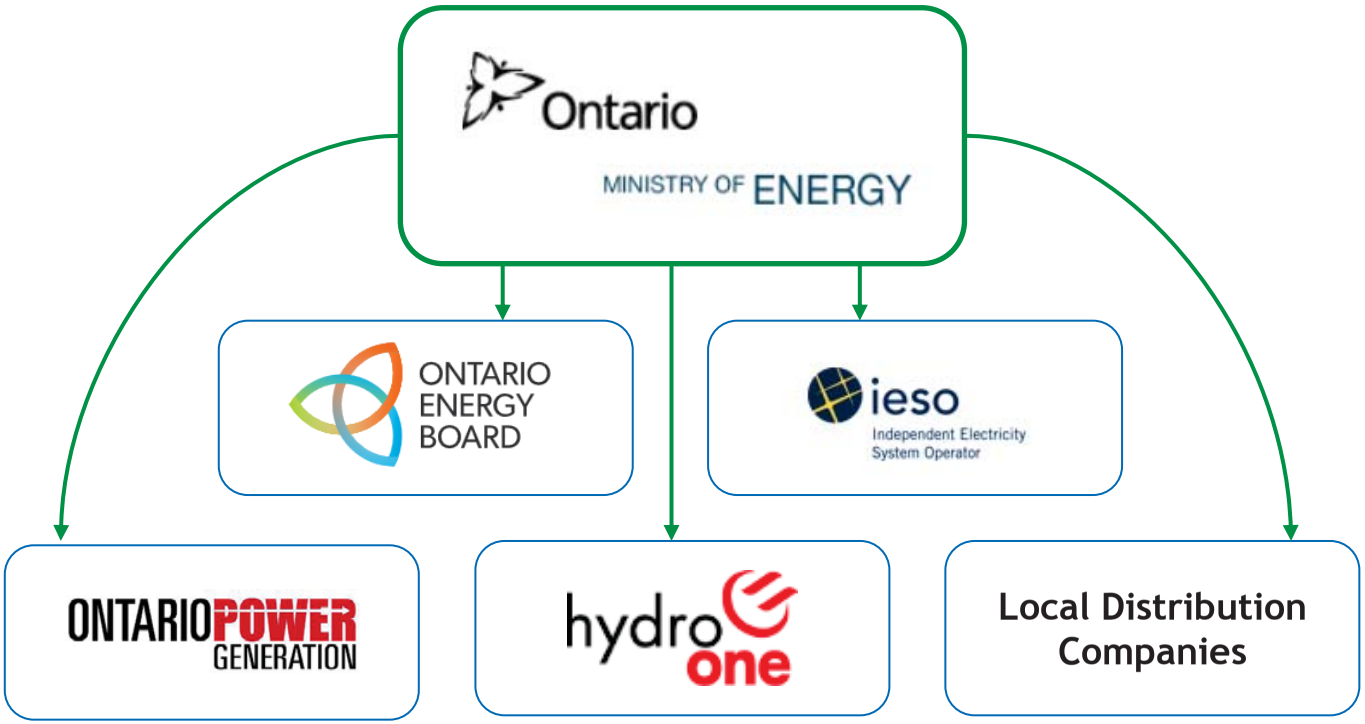
Note: The assets and liabilities of the Trust are deemed, under the *Electricity Act, 1998* to exclude the assets and liabilities of OPG, and vice versa.

II. Ontario Electricity Market

Overview of Ontario's Electricity Market

- Highly regulated electricity market comprised primarily of three components: generation, transmission and distribution; ~$22 billion in average annual cash flows[1]
- Transmission rates, distribution rates, and OPG's regulated rates are set by the OEB
- Rates for the majority of the remaining generation supply are set by the wholesale electricity market and by direct contracts with the IESO (e.g. Bruce Power (nuclear), wind, solar, hydroelectric)



[1] Source: "Ontario Planning Outlook – A technical report on the electricity system prepared by the IESO" dated September 1, 2016. The amount represents the mathematical average of the system costs on page 44 in the appendix "Data Tables for the OPO Technical Report".

Key Industry Participants

Participants	Credit Ratings *(DBRS / S&P / Moody's)*	Description
Ontario Ministry of Energy	**AA (l) / A+ / Aa2** [1]	• The Province of Ontario through the Ministry of Energy sets policy for the electricity system
Ontario Energy Board	--	• Independent public regulatory agency established under the *Ontario Energy Board Act, 1998* and has the authority to regulate Ontario's electricity market, including the activities of transmitters and distributors • Sets the regulated price for the commodity cost charged to most residential electricity customers via the Regulated Price Plan (RPP); RPP rates are set twice a year (May and November)
ieso Independent Electricity System Operator	**A(h) / -- / Aa2**	• Corporation without share capital established under the *Electricity Act, 1998 (Ontario)* • Manages the operation and reliability of Ontario's bulk power system and administers the wholesale electricity market
Ontario Power Generation	**A(l) / BBB+ / --**	• Corporation formed under the *Business Corporation Act (Ontario)*, whose sole shareholder is the Province of Ontario • Principal business is the generation and sale of electricity in Ontario and is Ontario's largest clean energy electricity generator, providing approximately half of the province's electricity
Hydro One	**A(h) / A / A3**	• Ontario's largest electricity transmission and distribution company, delivering electricity to over 1.3 million customers across the province, and to large industrial customers and municipal utilities

[1] The credit ratings noted are for the Province of Ontario.

Key Industry Participants – LDC Overview

- As part of the restructuring of Ontario's electricity industry under the *Energy Competition Act, 1998*, the municipal electricity utilities became municipally-owned business corporations. The majority of LDCs continue to be municipally-owned, while others have been acquired by Hydro One or private-sector owners
- An LDC, referenced as an Electricity Vendor in the FHPA, is responsible for distributing electricity to customers in its OEB-licensed service territory, and in some cases to other distributors

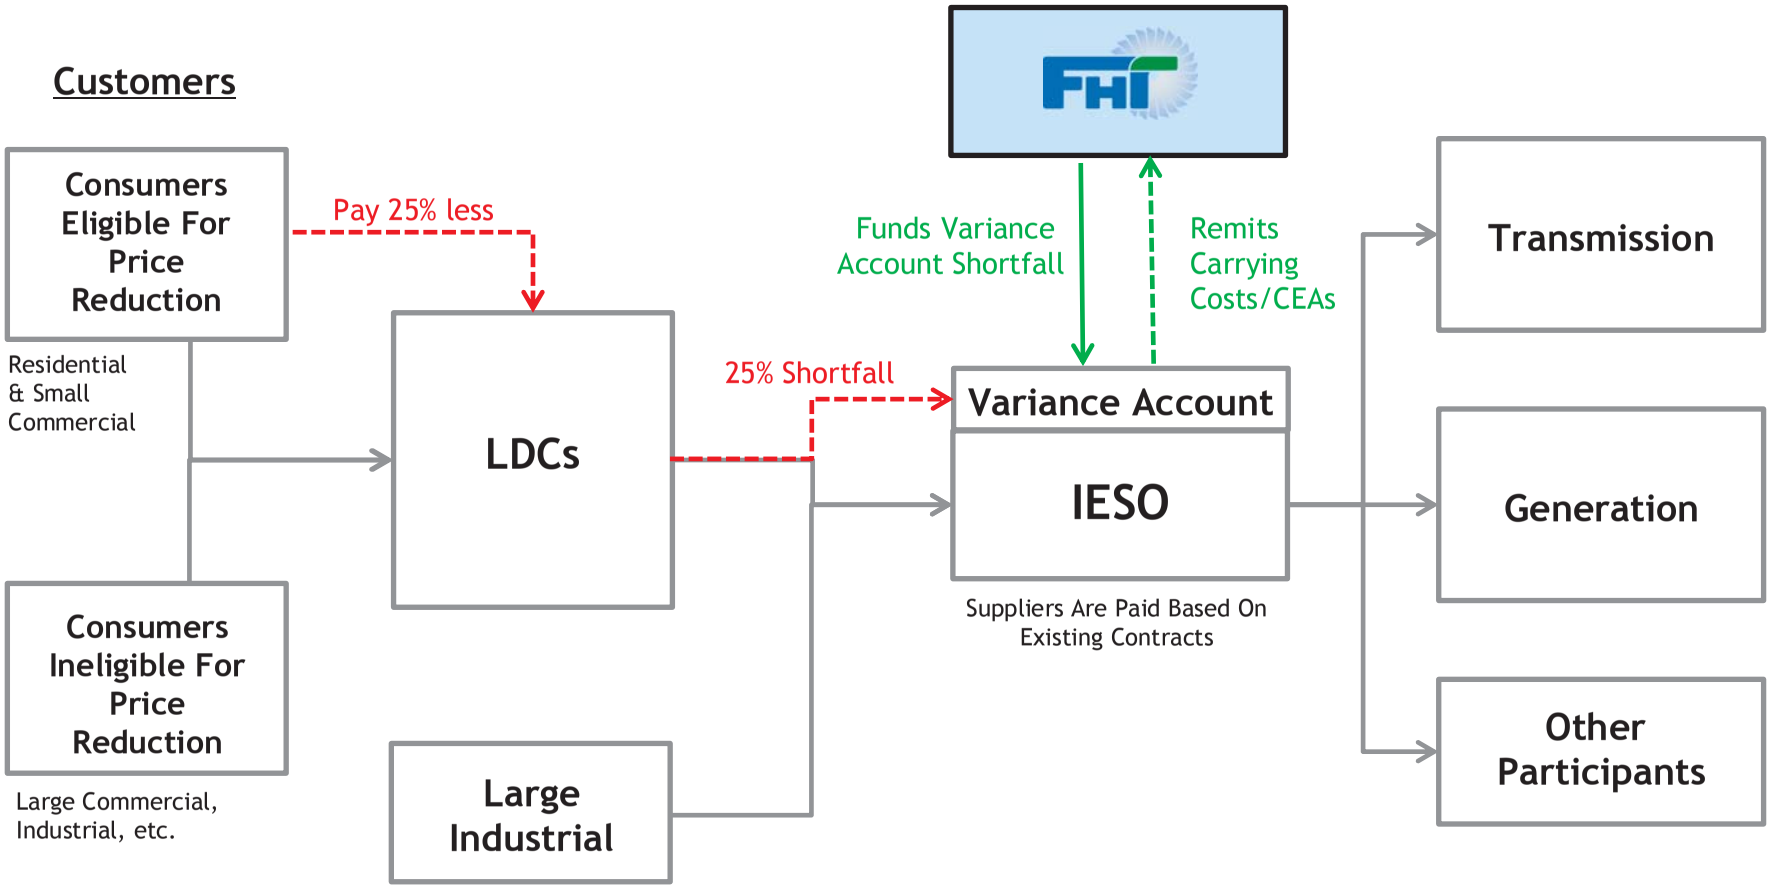
Electricity Market with FHT

- Under the FHPA, each month the IESO determines the IESO deferral (the shortfall that results from the Fair Adjustment) and records this amount, together with financing and other related costs, in a variance account
- FHT will finance the shortfall and is entitled to recover its costs and the principal and interest on its debt through CEAs from Specified Consumers



III. Legislative and Regulatory Framework

Legislation Overview

Purpose	• The FHPA was enacted to ensure that clean energy costs and clean energy benefits are fairly allocated among present and future Specified Consumers • Clean energy costs are costs allocated to consumers as a result of Ontario's clean energy initiatives; clean energy benefits are benefits that accrue to both present and future electricity consumers
Specified Consumers	• A category of consumers that generally is comprised of residential consumers, small businesses and farms • Includes consumers with a demand for electricity of 50 kW or less or those that use not more than 250,000 kWh of electricity annually
Rate Reduction Period	• **July 1, 2017 – April 30, 2018** – Specified Consumers charged an invoice amount that is 25%[1] less than the regulated rate that would otherwise have been determined by the OEB; the 25% reduction includes an 8% rebate equivalent to the provincial portion of the HST previously granted by the Ontario government • **May 1, 2018 – April 30, 2019** - regulated rate established in the first year of the Rate Reduction Period anticipated to increase by the rate of inflation in Ontario • **May 1, 2019 – April 30, 2021** - rate reductions will be established by future regulation but anticipated to increase by the rate of inflation in Ontario

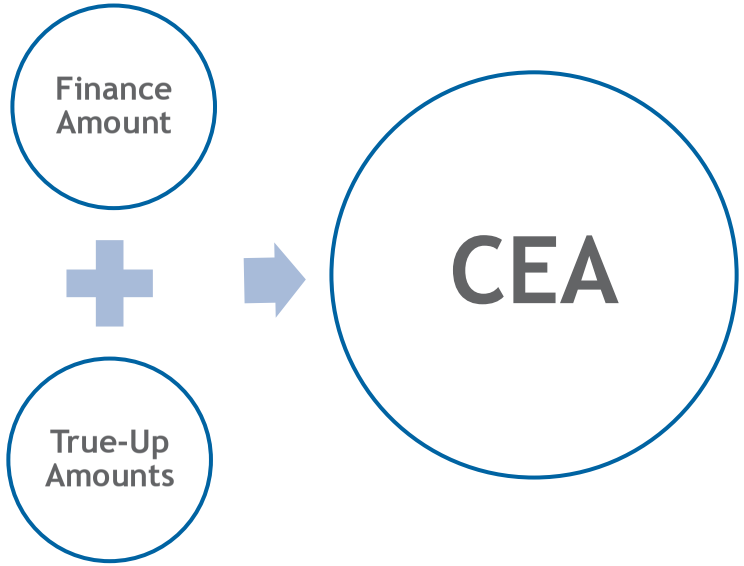
[1] Based on a typical Toronto Hydro customer; the amount of the reduction for any given Specified Consumer may vary from this account.

Legislation Overview, cont'd

Regulatory Asset	• Each month the IESO determines the IESO deferral (the shortfall that results from the Fair Adjustment) and records this amount, together with the costs of financing the shortfall, in a variance account • The IESO has the right to recover the balance recorded in the variance account from Specified Consumers (such right is the Regulatory Asset) • The IESO may from time to time transfer a specified portion of the Regulatory Asset to the Trust for a cash purchase price equal to the corresponding amount recorded in the variance account
Investment Asset	• The Trust is not obligated to purchase Regulatory Assets from the IESO • If the IESO and the Trust agree to the transfer of a specified portion of the Regulatory Asset, such transfer results in the creation of a current and irrevocable property right that is immediately vested in the Trust (such right is an "Investment Interest") • By acquiring an Investment Interest, the Trust will be entitled to recover all of its associated financing costs and acquires the right to collect, receive and recover CEAs from Specified Consumers in accordance with the Act
Moratorium Period *(July 1, 2017 to April 30, 2021)*	• CEAs are not permitted to be collected from Specified Consumers during this period • The IESO is obligated to pay the Trust all Carrying Costs, excluding repayment of principal on any debt obligations, during the Moratorium Period and extending to July 31, 2021. The Carrying Costs incurred by the IESO will be added to its Regulatory Asset variance account pursuant to Regulations • As security for the performance of its obligations, the IESO has granted the Trust a first-priority security interest in its accounts receivable owing by Electricity Vendors to the IESO • The IESO has a $2 billion credit facility from the Ontario Financing Authority (OFA) which can be used, among other things, to fund payments of the Carrying Costs

Clean Energy Adjustments

- Under the FHPA, the CEA is the amount payable by Specified Consumers to cover the cost of the IESO deferral and the associated costs of the financing, including payment of principal, operating costs of the Trust and funding of reserve accounts
- CEAs shown on an invoice issued to Specified Consumers represent the amount of the consumers' indebtedness and may not be set off or bypassed

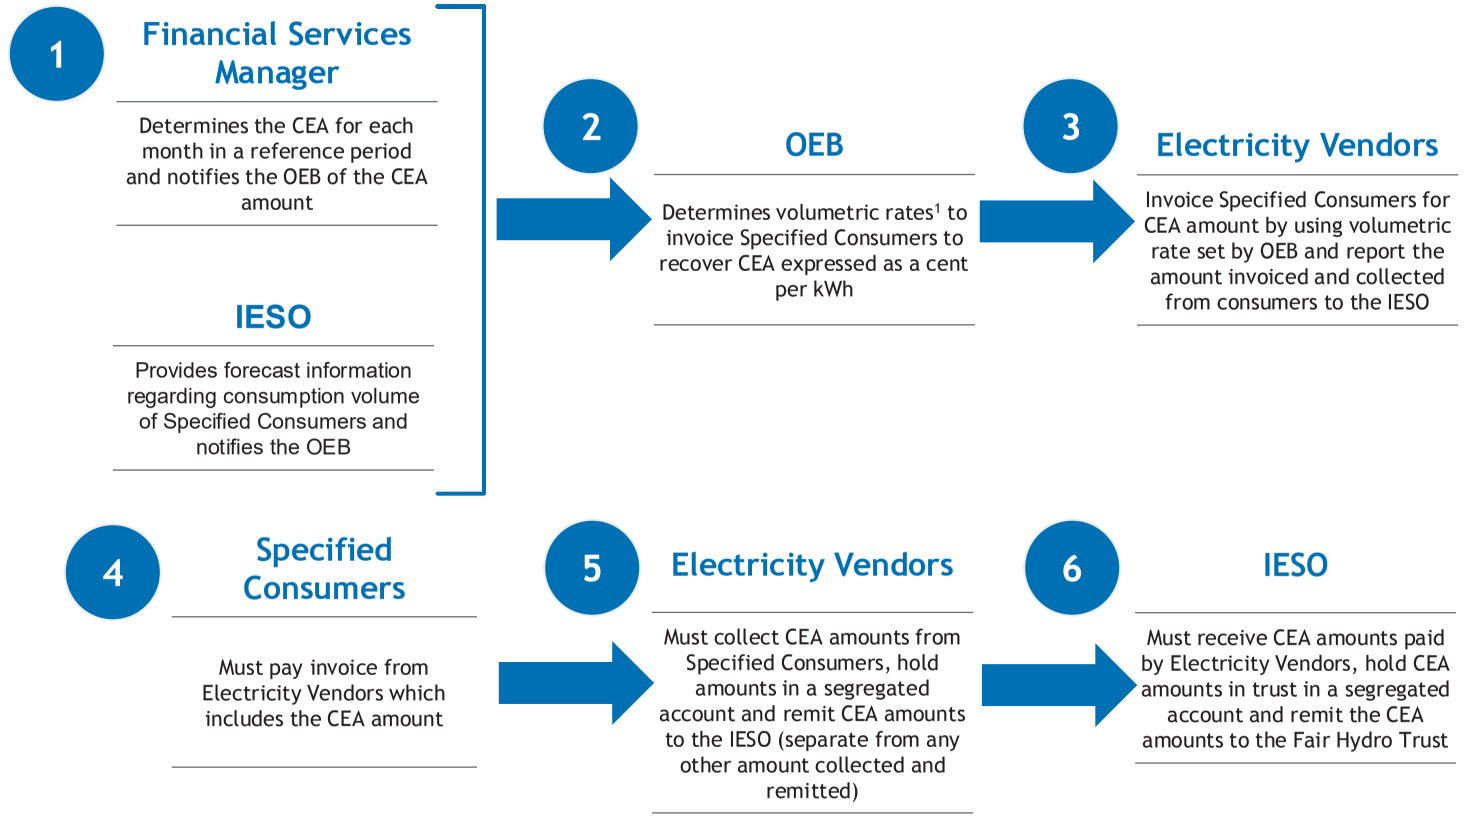


Finance amount is an estimate of the amount payable by the Trust mainly in respect of principal payments, interest costs, Trust expenses and taxes, reserve account deposits and derivative payments

True-up amounts capture the difference between the finance amounts incurred by the Trust and the CEAs collected from Specified Consumers and also include other reasonably foreseeable differences due to various factors (e.g. consumer defaults and delays, billing lags, write-offs and variations in electricity consumption)

Billing and Collection of CEAs

- CEA amounts for billing and collection purposes will be managed outside of the IESO's current settlement processes set out in the Market Rules for electricity invoice amounts
- Collection risk for CEA amounts are mitigated through statutory rights in the FHPA, the obligations of the IESO under the Master Transfer & Servicing Agreement, and the ability to include amounts in the CEA by means of the true up mechanism
- IESO is required to separate the CEAs during a monthly period before remitting to FHT. If the IESO's credit rating is downgraded below investment grade, the IESO will be required to remit within two business days of receipt

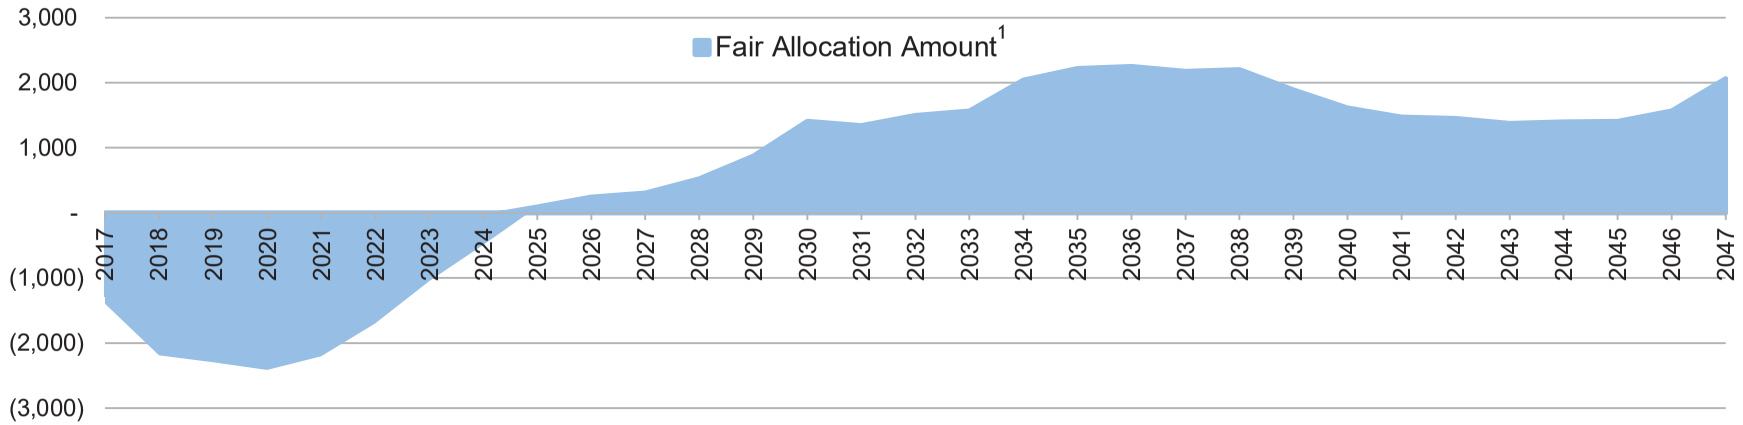


[1] The rates will be determined by dividing the CEA amount by the forecasted energy consumption in the reference period by Specified Consumers.

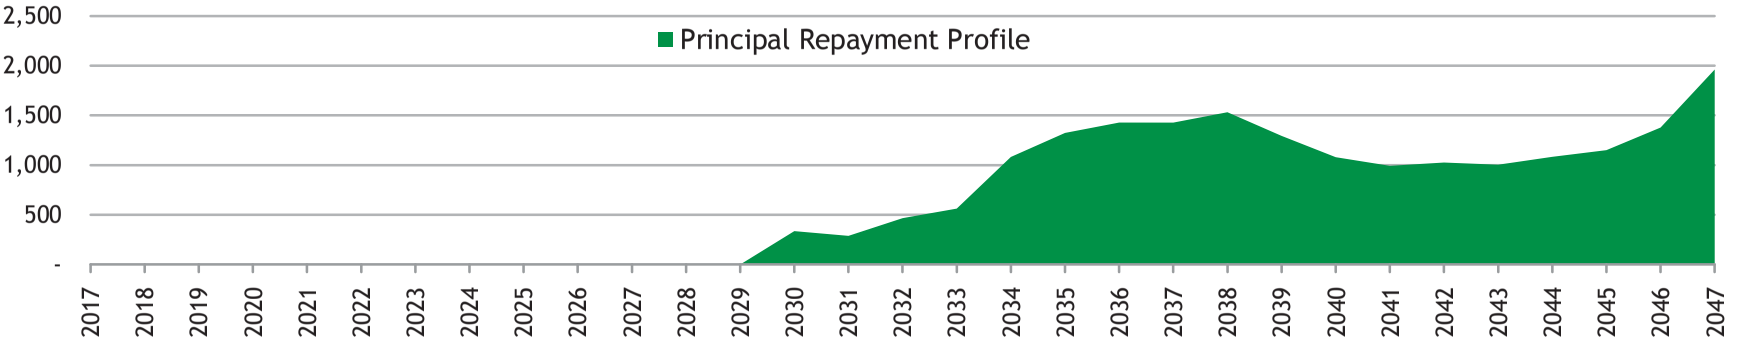
Fair Allocation Amount

- The Fair Allocation Amount ("FAA") is an amount calculated under the FHPA by the Minister of Energy in respect of each reference period that, among other things, allocates the estimated value of clean energy costs in proportion to the relative attribution of the value of clean energy benefits among Specified Consumers

Fair Allocation Amount ($ million)



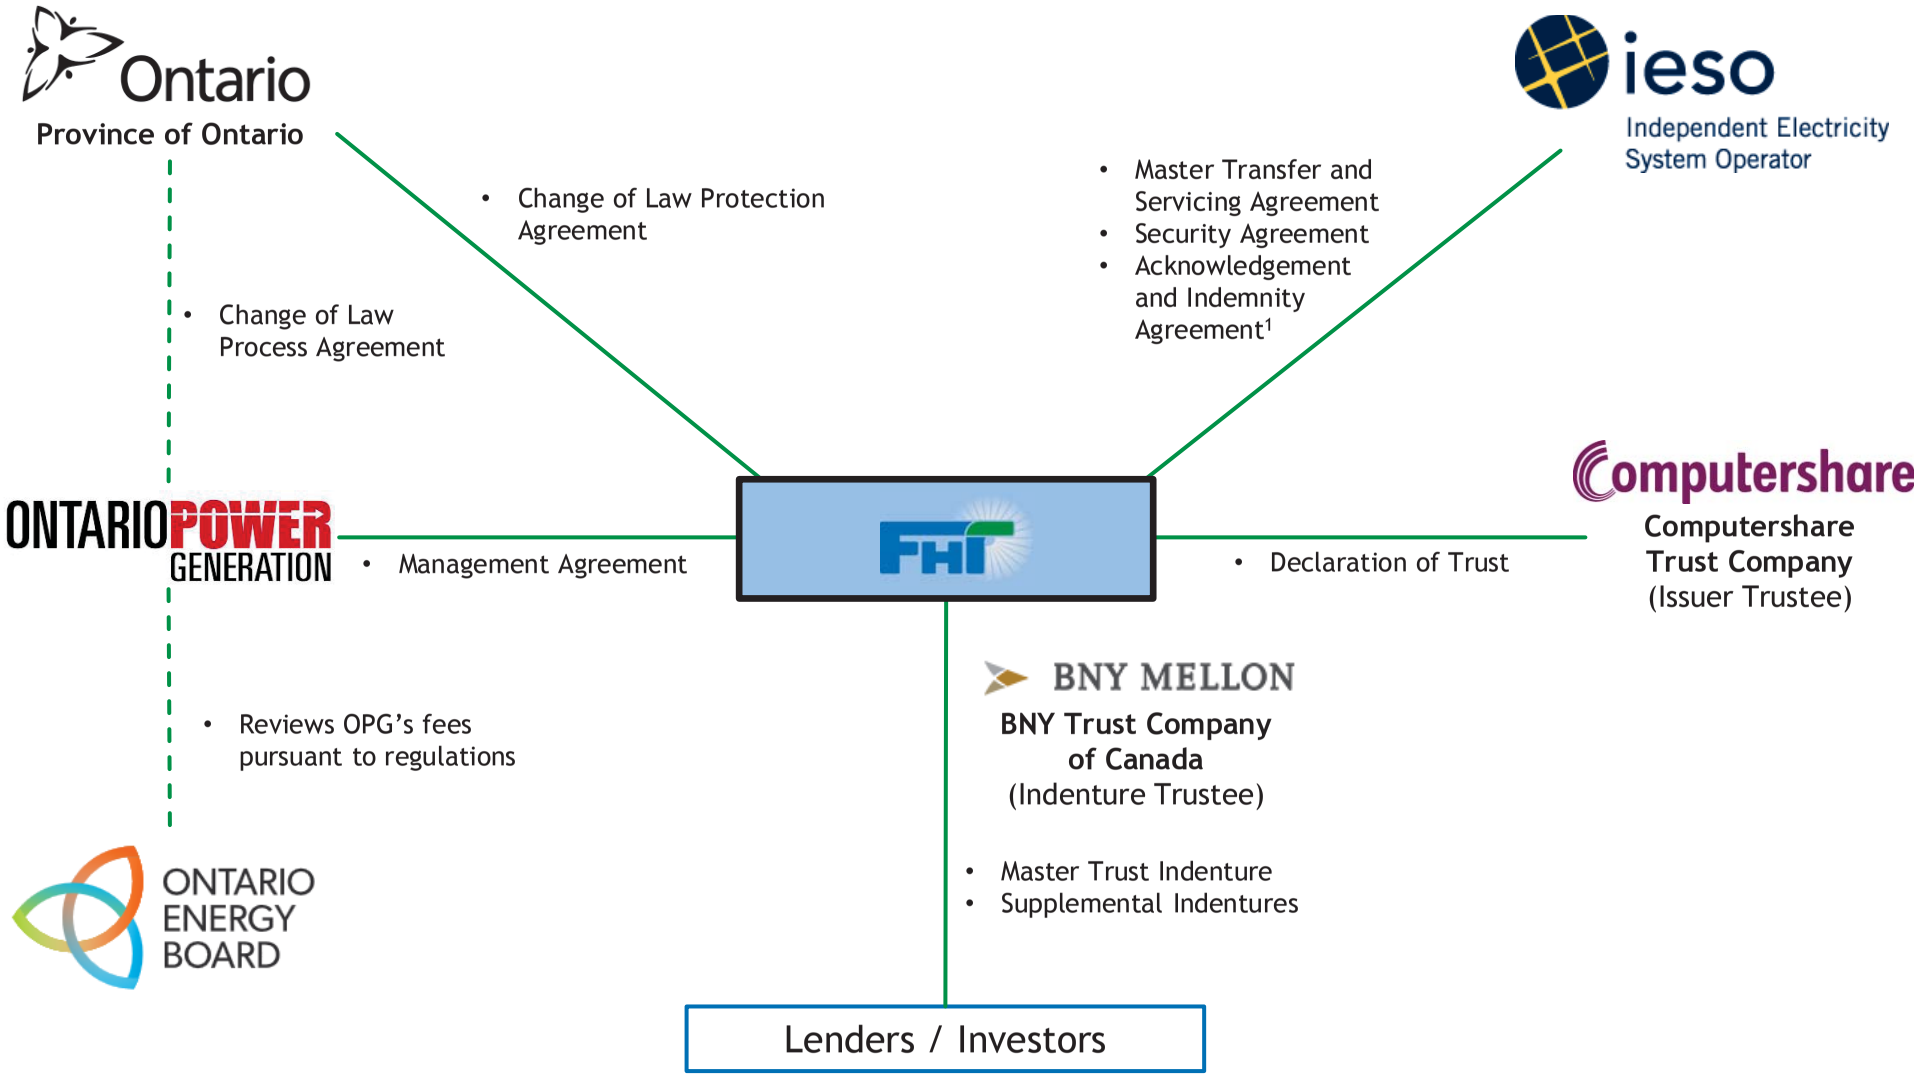
Principal Repayment Profile (derived from the FAA)



[1] Prior to 2025, the above graph of the FAA incorporates the Readjustment Amount. The Readjustment Amount represents the estimated amounts by which Specified Consumers overpaid for clean energy initiatives in the past. It has been incorporated into the FAA to further reduce electricity bills for such consumers.

IV. Contractual Framework

Simplified Contractual Structure



[1] Agreement between IESO and Indenture Trustee.

Contract Highlights

Key Agreements

Change of Law Protection Agreement	• Provides assurance to Specified Creditors[1] that upon the occurrence of a Protection Event that adversely affects the ability of the Trust to pay its obligations when due and payable, the Province of Ontario is required to make payments in respect of all Approved Obligations • OPG as FSM is required to comply with certain conditions prior to the issuance of debt which is to benefit from the Change of Law Protection Agreement
Master Transfer and Servicing Agreement	• Provides for the transfer, by the IESO to the Trust of the Regulatory Asset, and upon such transfer the Trust acquires an Investment Interest • The IESO will be responsible to for servicing the Investment Interest, including receiving CEA amounts from Electricity Vendors and remitting to the Trust
Management Agreement	• Issuer Trustee delegates to OPG, as Manager under the Management Agreement, all powers and duties of managing the Trust • The Manager will determine how and when to incur funding obligations to acquire Investment Interests

Note: Additional information on these key agreements can be found in the Appendix.

[1] **Specified Creditors** are any other Person that is owed a payment obligation by the Issuer that gives rise to a Finance Amount in respect of the Issuer.

Contract Highlights

Other Key Agreements

Security Agreement	• As security for the performance of its obligations under the Regulation to pay the Trust's carrying cost during the Moratorium Period, IESO has granted the Trust a first priority security interest in its accounts receivable owing by Electricity Vendors
Acknowledgement and Indemnity Agreement (IESO)	• IESO, as servicer under the MTSA, acknowledges that a security interest has been granted to the Indenture Trustee thereby assigning as security the rights and benefits of the Issuer under the MTSA to the Indenture Trustee, including the right to enforce the indemnities provided to the issuer with respect to IESO's duties and obligations under the MTSA
Change of Law Process Agreement	• Outlines procedural requirements between the Province and OPG with respect to issuing debt that benefits from the Limited Guarantee under the Change of Law Protection Agreement • Among other things, OPG is required to deliver to the Province a process certificate, outlining the material terms of proposed debt issues and confirm such debt offerings will not cause the protection agreement maximum (as updated from time to time in the Financing Plan) to be exceeded
Declaration of Trust	• Establishes FHT to carry out activities for the exclusive benefit of its unitholders • Specifies the rights and powers of the Issuer Trustee (Computershare) • The Issuer Trustee has delegated all of the powers and duties of managing the Trust to OPG under the Management Agreement

V. Financing Program

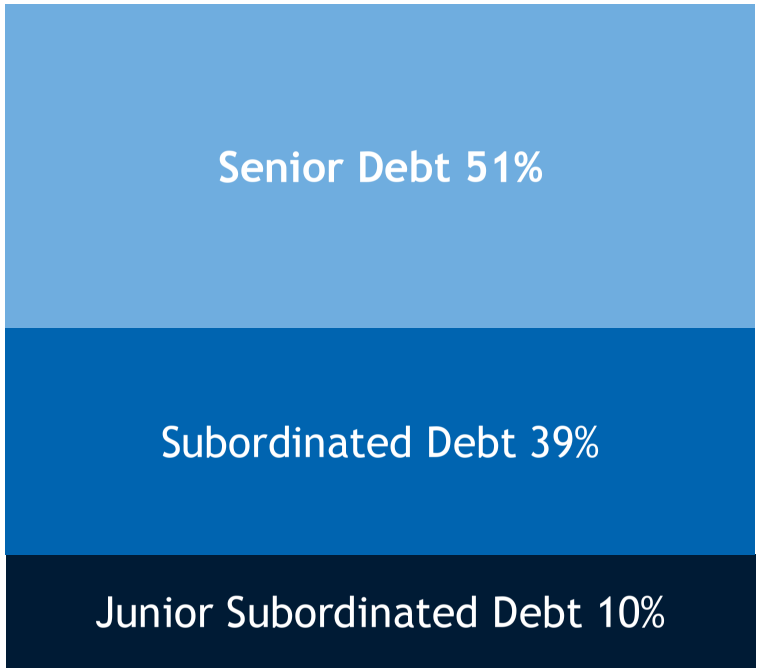
Financing Plan / Strategy

- OPG is responsible for administering the FHT financing program
- Given the size (~$20 billion) and longevity (~10 years) of the FHT financing program, the funding strategy has been designed to provide flexibility
- Warehouse financing (ABCP conduit and bank funded senior debt) and subordinated warehouse debt and junior subordinated warehouse debt funded by OPG will be used to fund monthly Regulatory Asset purchases from the IESO
  - Periodically refinance the warehouse facility through the issuance of term debt (likely access the market 2-3 times per year)
- Term debt can take the form of bullet bonds or could be issued as amortizing bonds

Warehouse Financing	• ABCP conduit and bank funded senior debt with subordinated debt funded by OPG will be used by the Trust to fund monthly Regulatory Asset purchases from the IESO
Term Debt	• Term debt issuances will be used to refinance warehouse financing and the subordinated debt and junior subordinated debt funded by OPG • Both Canadian term debt and U.S. term debt market will be considered • Maturity profiles will be structured to ensure reasonable alignment with the FAA (bullet bonds with sinking funds or amortizing bonds) • FHT may issue debt that may be refinanced in the future
Subordinated Debt	• Subordinated debt provides credit enhancement for senior debt (ranks behind senior debt in cash flow waterfall)

Financing Structure

- The Trust will fund Regulatory Asset purchases through the issuance of senior, subordinated and junior subordinated secured debt
- Senior debt (51%) will be sourced monthly from committed warehouse facilities, and the periodic issuance of term debt
- Subordinated debt (49% anticipated; minimum of 35% required[1]) will be purchased by OPG, primarily funded by equity injections from the Province (44% of 49%) and the remaining portion from OPG (5% of 49%)



Senior Notes
Warehouse facilities and term debt issuances (in Canada and/or the U.S.)

Subordinated Notes
Provided to Trust by OPG via equity injection from the Province

Junior Subordinated Debt
- OPG equity injection (5%) via its corporate borrowing program
- Provided to Trust by OPG via the Province (5%)

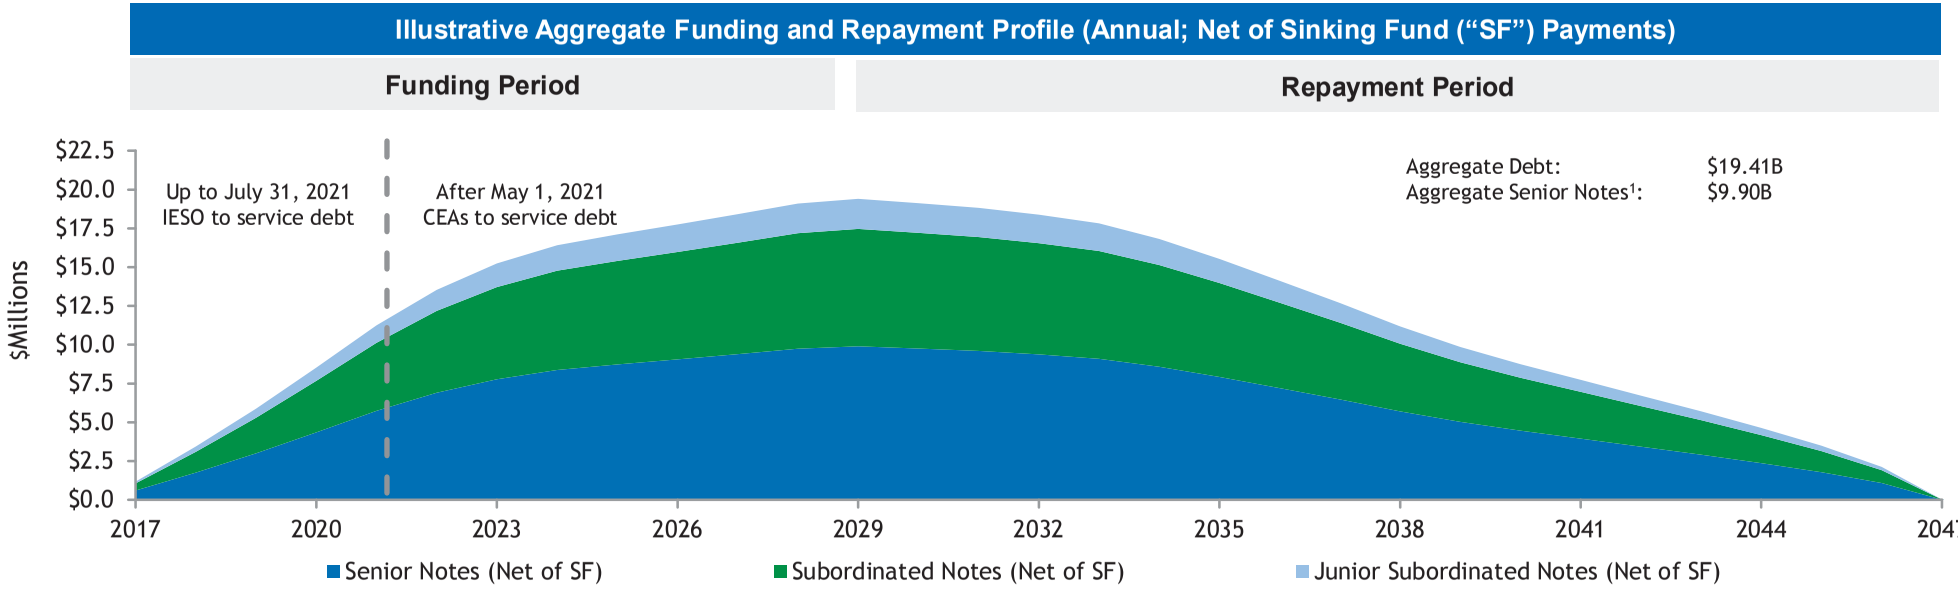
Note: Assumes 49% subordinated debt.

[1] Under the MTI, FHT is required at all times to ensure that all outstanding subordinated and junior subordinated debt be not less than 35% of all outstanding debt.

Aggregate Financing Program

Illustrative Debt Summary - Funding & Repayment Period (Annual)

- Based on the Fair Allocation Amount and the Province's electricity bill reduction targets, the following debt profile for the program is expected, peaking at just under $20 billion by 2029
- Various tranches of debt will be issued periodically during the period of 2018 - 2028, which are expected to mature over a period after 2029



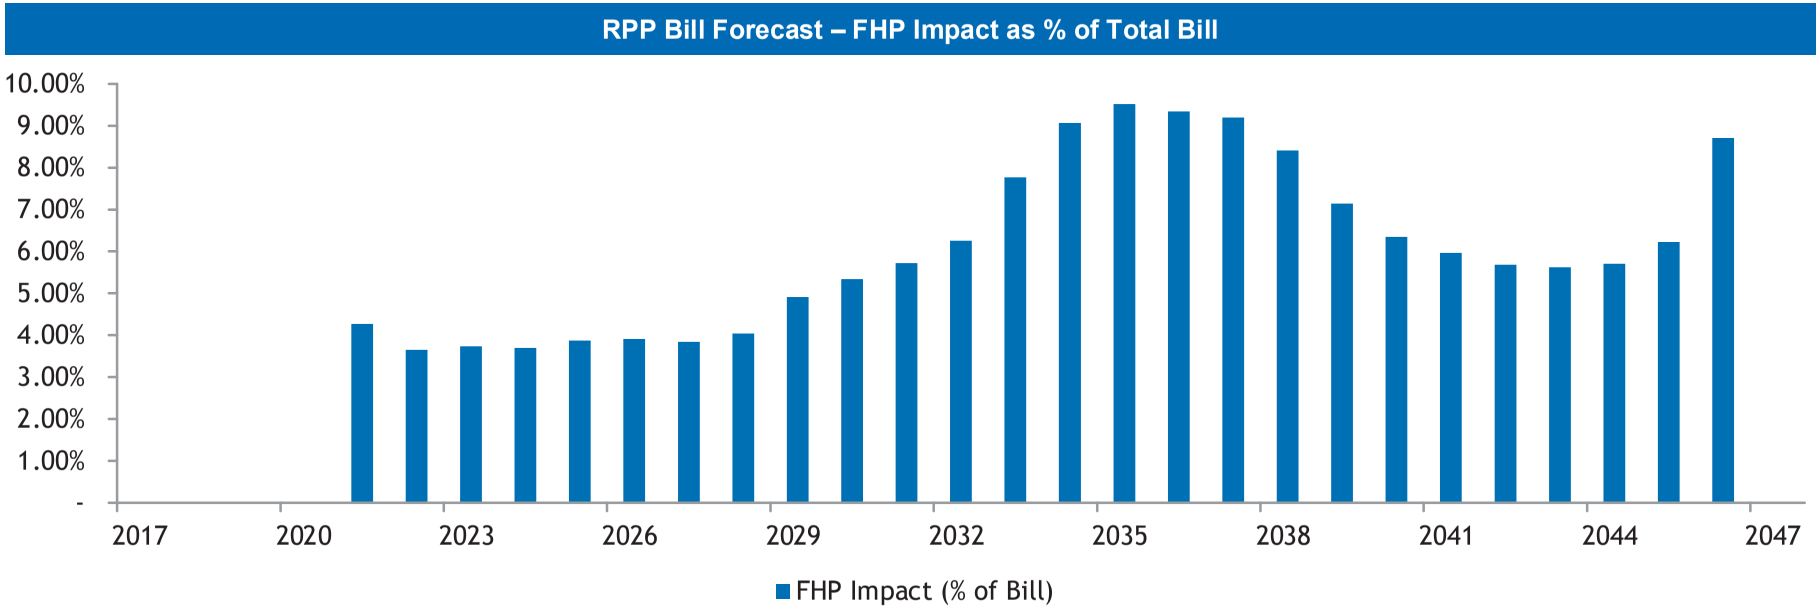
[1] Assumes 51% Senior Notes

Note: During the Moratorium Period and extending three additional months to July 31, 2021, the IESO is required under the Regulations to pay all Carrying Costs. The additional three month period is intended to cover the billing and collection lag from the introduction of Clean Energy Adjustments in May 2021.

Consumer Bill Forecast with FHP

RPP Bill Forecast - FHP Impact % of Total Bill (C$ per Month)

- Over the duration of the Fair Hydro Program, the CEA for the average residential customer is anticipated to remain below 10% of the total electricity bill
- Max CEA as a percent of the total bill is forecast to be 10.0%
- Average CEA as a percent of the total bill is forecast to be 6.9%



Capital Markets Platform

Master Trust Indenture

Parties	• (1) Computershare Trust Company (Issuer Trustee), on behalf of the Trust, acting through OPG as the Manager; (2) BNY Trust Company (Indenture Trustee) on behalf of Specified Creditors
Purpose	• Governs the terms of the debt issued by FHT and cash flow waterfall and collateral structure for all Trust obligations to all Specified Creditors

Key Terms

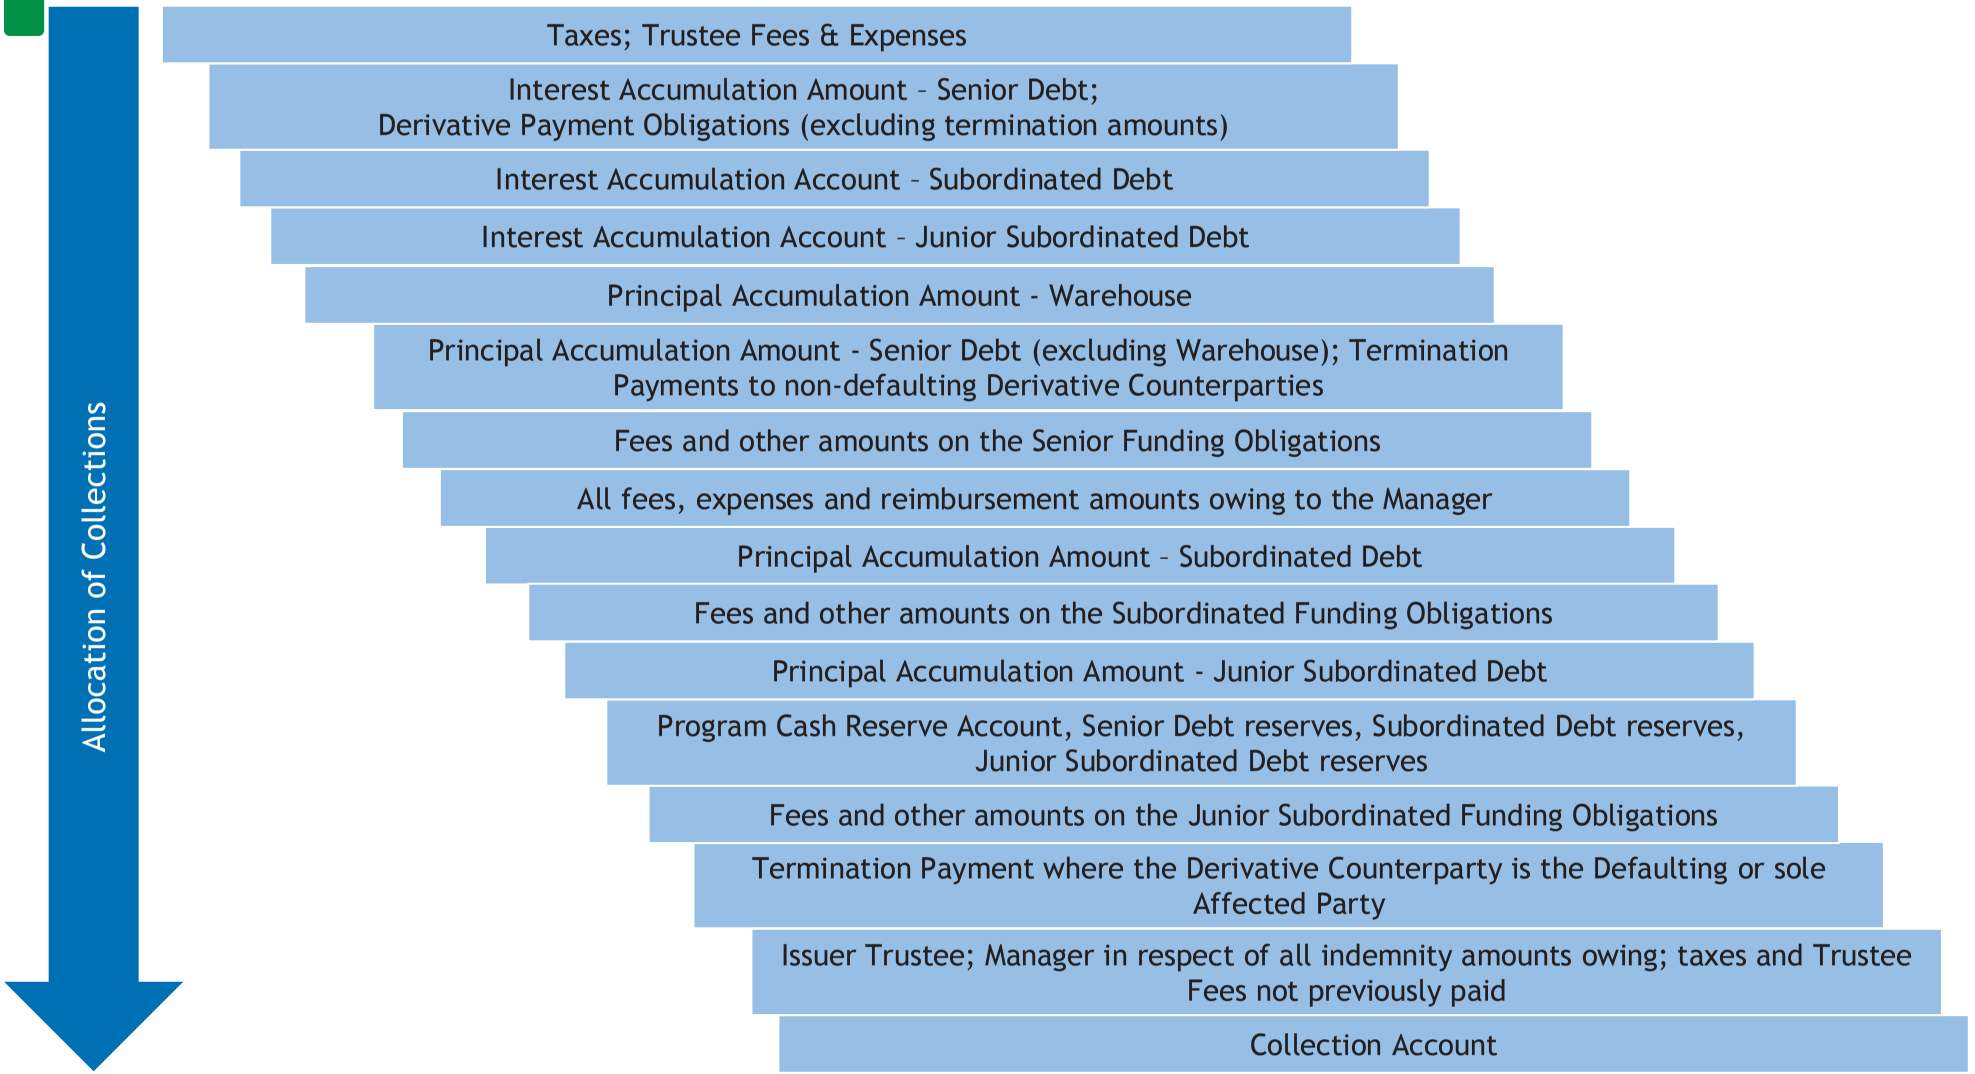
Incurrence of Funding Obligations	• Trust may incur funding obligations under a variety of instruments including: – Note issuances under supplemental indentures – Borrowings under credit agreements – Purchase of notes under note purchase agreements – Letters of Credit/Guarantees under credit enhancement agreements – Liquidity loans under liquidity agreements backing short term notes
Conditions Precedent	• Prior to incurring additional funding obligations, the Trust confirms to the Indenture Trustee and each rating agency that: – the incurrence of such additional obligations will not cause an adverse effect – the incurrence of such additional obligations is materially consistent with the Financing Plan • It will also be a condition precedent that (i) each rating agency confirm that the issuance of such additional funding obligations will not result in a reduction or withdrawal of any existing ratings of outstanding funding obligations and (ii) the Indenture Trustee has received certain assurances as to the applicability of the Change of Law Protection Agreement to such funding obligations

Capital Markets Platform

Master Trust Indenture – Key Terms (cont'd)

Security	• Granted over all assets of the Trust, including the Trust's investment interest, all collections under the MTSA and all accounts
Subordination	• Provides for three different classes of funding obligations – (i) senior – (ii) subordinated – (iii) junior subordinated
Events of Default	• Includes payment and senior defaults, representation and covenant breaches, insolvency and Change of Law Protection Agreement ceasing to be in full force and effect against the Province
Acceleration	• Upon an acceleration, CEAs may be insufficient to repay all amounts becoming due in a period. CEAs for a period will be capped under the Regulation at the otherwise scheduled amounts, plus an additional amount if the aggregate of those otherwise scheduled amounts would be less than the FAA for the period • However, the amounts received from CEAs after an acceleration will be allocated to pay senior indebtedness before principal amounts owing on subordinated and junior subordinated indebtedness. Accordingly, the subordination of debt across all series of debt should advance the repayment of the principal amount for senior funding obligations • After an acceleration, all Senior Term Notes will be paid pari-passu

Waterfall



Note: This waterfall indicates the priority of payment prior to an Event of Default and acceleration; additional information on the priority of payments after an Event of Default and acceleration can be found in the Offering Memorandum.
Note: After paying interest on the senior debt, no interest payments will be made on the subordinated debt unless there will be sufficient amounts remaining in the Interest Accumulation Account for what should be accumulated for the Senior Notes after making such payments.

VI. Key Risks and Mitigants

Risk Mitigation

Risk	Description of Risk	Mitigants
Political Risk	• Future legislative action to change or challenge/invalidate the Act or the Change of Law Protection Agreement might materially adversely affect a holder's investment in the Notes	• Limited Guarantee provided by the Province of Ontario via the Change of Law Protection Agreement in favour of the Indenture Trustee for lenders/investors in these circumstances
Under Collection	• If the IESO inaccurately forecasts electricity consumption or if OPG uses inaccurate consumer delinquency or write-off data when setting the CEA, there could be a shortfall in collections, which might result in missed or delayed payments of principal and interest on the Notes	• True up mechanism may result in a delay, but will be corrected in next True up • Cash reserve and 35%-49% subordination which would first absorb any shortfalls • 6-month reference period • Any shortfall in collections are recoverable from all Specified Consumers
Reliance on IESO and LDCs	• During the Moratorium Period, the Trust is dependent on the IESO to remit payments to the Trust for all Carrying Costs • Receipt of CEAs dependent on the performance of LDCs and IESO • Limited ability to enforce against or replace an LDC	• Highly regulated industry and LDC and IESO are required under law and regulation to perform duties under FHP • IESO has a very strong credit profile and very low losses and grants security over its accounts receivable owed by Electricity Vendors as security during the Moratorium Period • IESO will provide a letter of credit/other security to mitigate commingling risks for CEAs held by non-rated or below investment grade rated LDCs until they are remitted to IESO • LDCs collect security deposits and, when permitted, have the ability to disconnect service for non-payment • $2 billion credit facility from the OFA which can be used by the IESO to pay the Carrying Costs
Size of Charge vs. Bill	• If the charge applied to bills becomes too high, there could be a consumer and/or political backlash	• 20-year repayment period allows for gradual rate increases • Max CEAs as a percent of the total bill over the collection period is forecast to be 10%
Disruptive Technology Risk / Change in Demographics	• Technological developments may result in reduced CEA payments as a result of increased use of alternative energy sources • Population fluctuations may result in fewer Specified Consumers	• True-up mechanism available to offset the reduction in CEAs due to technological advancements or fluctuations in the number of Specified Consumers • Collection shortfalls are allocated among a large base of Specified Consumers

DRAFT: January 17, 2018

This indicative term sheet accompanies, is incorporated by reference in and forms part of the confidential shelf offering memorandum (the "confidential shelf offering memorandum") dated January ●, 2018 of Fair Hydro Trust (the "Issuer") and is subject to all of the restrictions, conditions and limitations set out in the confidential shelf offering memorandum. This term sheet and the confidential shelf offering memorandum constitute an offering of these securities only in those jurisdictions and to those persons where and to whom they may be lawfully offered for sale. The following is not intended to be complete. Prospective investors should review the "Capital Markets Platform" and "Description of Notes" sections of the confidential shelf offering memorandum which contain a more detailed description of certain terms of the Series 2018-1 Senior Notes and the trust indenture (the "Master Trust Indenture") between the Issuer and BNY Trust Company of Canada, acting as trustee, dated December 21, 2017 (and to which the Series 2018-1 Senior Notes will be subject), as supplemented by the term senior series 2018-1 supplemental indenture to the Master Trust Indenture (the "Series 2018-1 Senior Supplemental Indenture") pursuant to which the Series 2018-1 Senior Notes will be issued (together with the Master Trust Indenture, the "Indenture"). In the event of any inconsistency between this indicative term sheet and the confidential shelf offering memorandum, the terms of this indicative term sheet apply. Any statement contained in the confidential shelf offering memorandum or in any document incorporated or deemed to be incorporated by reference in the confidential shelf offering memorandum shall be deemed to be modified or superseded, to the extent that a statement contained herein or in any other subsequent document which is or is deemed to be incorporated by reference in the confidential shelf offering memorandum, modifies or supersedes such prior statement. The modifying or superseding statement need not state that it has modified or superseded a prior statement or include any other information set forth in the document which it modifies or supersedes. The making of such a modifying or superseding statement shall not be deemed an admission for any purposes that the modified or superseded statement, when made, constituted a misrepresentation, an untrue statement of a material fact or an omission to state a material fact that is required to be stated or that is necessary to make a statement not misleading in light of the circumstances in which it was made. Any statement so modified or superseded shall not constitute a part of the confidential shelf offering memorandum, except as so modified or superseded.

CERTAIN CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

In the opinion of Torys LLP and Osler, Hoskin & Harcourt LLP, the following summary describes the principal Canadian federal income tax considerations generally applicable under the Income Tax Act (Canada) (the "**Tax Act**") to a holder who acquires Series 2018-1 Senior Notes as beneficial owner pursuant to the Series 2018-1 Senior Notes Offering and who, for purposes of the Tax Act and at all relevant times, deals at arm's length and is not affiliated with the Issuer, and holds Series 2018-1 Senior Notes as capital property (a "**Holder**"). Generally, the Series 2018-1 Senior Notes will be capital property to a Holder provided that the Holder does not acquire or hold the Series 2018-1 Senior Notes in the course of carrying on a business or as part of an adventure or concern in the nature of trade. Certain holders who might not otherwise be considered to hold their Series 2018-1 Senior Notes as capital property may, in certain circumstances, be entitled to treat their Series 2018-1 Senior Notes and any other "Canadian security" (as defined in the Tax Act) owned by them in the taxation year of the election and all subsequent taxation years as capital property by making the irrevocable election permitted by subsection 39(4) of the Tax Act. Such holders are advised to consult their own tax advisors to determine whether such an election is available and desirable in their particular circumstances.

This summary is not applicable to a holder: (i) that is a "financial institution" (as defined in the Tax Act for purposes of the "mark to market property" and "specified debt obligation" rules); (ii) an interest in which is a "tax shelter investment" (as defined in the Tax Act); (iii) that reports its "Canadian tax results" (as defined in the Tax Act) in a currency other than Canadian dollars; or (iv) that has entered into or will enter into a "derivative forward agreement" as defined in the Tax Act in respect of the Series 2018-1 Senior Notes. Any such holders should consult their own tax advisors with respect to an investment in the Series 2018-1 Senior Notes. In addition, this summary does not address the deductibility of interest by a holder who has borrowed money to acquire Series 2018-1 Senior Notes.

On July 18, 2017, the Minister of Finance (Canada) released a consultation paper that included an announcement of its intention to amend the Tax Act to increase the amount of tax applicable to passive investment income earned through a private corporation. No specific amendments to the Tax Act were proposed in connection with this announcement and this summary does not consider the implications of this announcement. On October 18, 2017, the Minister of Finance (Canada) announced that the government intends to move forward with the planned amendments subject to further developments to address concerns of business owners the details of which are not yet available. Holders that are private corporations should consult their own tax advisors regarding the implications of these announcements with respect to their particular circumstances.

This summary is based upon the facts set out in the confidential shelf offering memorandum, the current provisions of the Tax Act and the regulations thereunder (the "**Regulations**"), all specific proposals to amend the Tax Act and the Regulations publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date hereof (the "**Tax Proposals**") and counsel's understanding of the current published administrative policies and practices of the Canada Revenue Agency. There can be no assurance that any Tax Proposals will be implemented in their current form or at all. This summary does not otherwise take into account or anticipate any changes in law or administrative policies and practices, whether by legislative, administrative or judicial action nor does it take into account provincial, territorial or foreign tax legislation or considerations, which may differ significantly from those discussed herein.

This summary is not exhaustive of all possible Canadian federal income tax considerations applicable to an investment in the Series 2018-1 Senior Notes. Moreover, the income and other tax consequences of acquiring, holding or disposing of the Series 2018-1 Senior Notes will vary depending on the Holder's particular circumstances, including the province or territory, or provinces or territories, in which the Holder resides or carries on business. Accordingly, this summary is of a general nature only and is not intended to be legal or tax advice to any particular Holder, and no representations with respect to the income tax consequences to any Holder are made. Investors should consult their own tax advisors for advice with respect to the tax consequences of an investment in the Series 2018-1 Senior Notes based on their particular circumstances. This summary does not address any tax considerations applicable to persons other than Holders and such persons should consult their own tax advisors regarding the consequences of acquiring, holding and disposing of Series 2018-1 Senior Notes under the Tax Act and any jurisdiction in which they may be subject to tax.

Foreign Exchange

For purposes of the Tax Act, all amounts relating to the acquisition, holding or disposition of Series 2018-1 Senior Notes must be expressed in Canadian dollars, including any interest, adjusted cost base and proceeds of disposition. For purposes of the Tax Act, amounts denominated in a currency other than the Canadian dollar generally must be converted into Canadian dollars in accordance with the Tax Act on the date such amounts first arose. A Holder may realize a capital gain or a capital loss on the disposition or deemed disposition of a Series 2018-1 Senior Note by virtue of fluctuations in the value of the U.S. dollar relative to the Canadian dollar. The amount of interest or other amounts required to be included in computing the Holder's income for a taxation year will also be affected by fluctuations in the U.S. dollar relative to the Canadian dollar.

Interest on Series 2018-1 Senior Notes

A Holder that is a corporation, partnership, unit trust or any trust of which a corporation or partnership is a beneficiary will be required to include in computing its income for a taxation year all interest on the Series 2018-1 Senior Notes that accrues or is deemed to accrue to such Holder to the end of the particular taxation year or that becomes receivable or is received by the Holder before the end of that taxation year, including on a redemption or repayment on maturity, except to the extent that such interest was included in computing the Holder's income for a preceding taxation year.

Any other Holder, including an individual, will be required to include in computing its income for a taxation year all interest on the Series 2018-1 Senior Notes that is received or receivable by the Holder in that taxation year (depending upon the method regularly followed by the Holder in computing income), including on a redemption, purchase for cancellation, or repayment on maturity, except to the extent that the interest was included in the Holder's income for a preceding taxation year.

Any premium paid by the Issuer to a Holder on the redemption of a Series 2018-1 Senior Note or a purchase for cancellation of a Series 2018-1 Senior Note (other than in the open market in the manner any such obligation would normally be purchased in the open market by any member of the public), will generally be deemed to be interest received at the time by the Holder to the extent that such premium can reasonably be considered to relate to, and does not exceed the value at the time of the redemption of or purchase for cancellation of, the interest that, would have been paid or payable by the Issuer on the Series 2018-1 Senior Note for a taxation year ending after the redemption or purchase for cancellation, and to the extent such premium was not otherwise included in computing the Holder's income for that taxation year or a previous taxation year.

Where a Holder is required to include in income interest on a Series 2018-1 Senior Note that accrued before such Series 2018-1 Senior Note was acquired by the Holder, the Holder will be entitled to a deduction in computing income of an equivalent amount. The adjusted cost base to the Holder of the Series 2018-1 Senior Note will be reduced by the amount which is so deductible.

If a Series 2018-1 Senior Note is purchased by a Holder at a discount from its face value, the Holder may be required to include an amount equal to such discount in computing income, either in accordance with the deemed interest accrual rules contained in the Tax Act and Regulations or in the taxation year in which an amount in respect of the discount is received or receivable by the Holder. Holders should consult their own tax advisors in these circumstances as the treatment of the discount may vary with the facts and circumstances giving rise to the discount.

Disposition of Series 2018-1 Senior Notes

On a disposition or deemed disposition of a Series 2018-1 Senior Note (including a redemption, purchase for cancellation or repayment at maturity), a Holder will generally be required to include in income any premium deemed to be interest and the amount of interest accrued, or deemed to have accrued, on the Series 2018-1 Senior Note from the date of the last interest payment to the date of disposition to the extent that such amount has not otherwise been included in the Holder's income for the taxation year or a previous taxation year.

A disposition or deemed disposition by a Holder of a Series 2018-1 Senior Note will generally result in the Holder realizing a capital gain (or capital loss) equal to the amount by which the proceeds of disposition, net of any accrued interest or any amount deemed to be interest, exceed (or are exceeded by) the aggregate of the Holder's adjusted cost base thereof and any reasonable costs of disposition.

One half of any capital gain (a "**taxable capital gain**") generally must be included in the Holder's income for the taxation year of the disposition, and one half of any capital loss (an "**allowable capital loss**") realized in a taxation year must be deducted from taxable capital gains realized in that year. Allowable capital losses in excess of taxable capital gains realized in a taxation year may be deducted from net taxable capital gains realized in the three preceding taxation years or any subsequent taxation year, subject to detailed rules contained in the Tax Act in this regard. A capital gain realized by an individual (other than certain specified trusts) may give rise to a liability for alternative minimum tax.

Eligibility for Investment

The Series 2018-1 Senior Notes would, if acquired on the date hereof and if they (i) are issued as part of a single issue of debt of at least $25 million and (ii) have an investment grade rating with certain rating agencies prescribed under the Tax Act, be qualified investments under the Tax Act for a trust governed by a registered retirement savings plan ("**RRSP**"), registered retirement income fund ("**RRIF**"), registered education savings plan ("**RESP**"), registered disability savings plan ("**RDSP**"), tax free savings account ("**TFSA**") and deferred profit sharing plan ("**DPSP**") (except for a trust governed by a DPSP to which the Issuer has made a contribution).

Even if the Series 2018-1 Senior Notes may be qualified investments for a trust governed by an RRSP, RRIF, RESP, RDSP or TFSA, if the Series 2018-1 Senior Notes are "prohibited investments" (as defined in section 207.01 of the Tax Act) for an RRSP, RRIF, RESP, RDSP or TFSA, then a holder of the TFSA or RDSP, a subscriber of the RESP or an annuitant of the RRSP or RRIF, as the case may be, will be subject to a penalty tax as set out in the Tax Act. The Series 2018-1 Senior Notes would not be prohibited investments on the date hereof, provided (i) the holder of the TFSA or RDSP, the subscriber of the RESP or the annuitant of the RRSP or RRIF, as the case may be, deals at arm's length with the Issuer within the meaning of the Tax Act, and (ii) does not have a "significant interest" within the meaning of subsection 207.01(4) of the Tax Act in the Issuer. Investors intending to hold the Series 2018-1 Senior Notes in a TFSA, RRSP, RRIF, RESP or RDSP should consult their own advisors as to whether the Series 2018-1 Senior Notes would be a prohibited investment in their particular circumstances.

CERTAIN CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

In the opinion of Torys LLP and Osler, Hoskin & Harcourt LLP, the following summary describes the principal Canadian federal income tax considerations generally applicable under the Income Tax Act (Canada) (the "**Tax Act**") to a holder who acquires Series 2018-1 Senior Notes as beneficial owner pursuant to the Series 2018-1 Senior Notes Offering and who, for purposes of the Tax Act and at all relevant times, deals at arm's length and is not affiliated with the Issuer, and holds Series 2018-1 Senior Notes as capital property (a "**Holder**"). Generally, the Series 2018-1 Senior Notes will be capital property to a Holder provided that the Holder does not acquire or hold the Series 2018-1 Senior Notes in the course of carrying on a business or as part of an adventure or concern in the nature of trade. Certain holders who might not otherwise be considered to hold their Series 2018-1 Senior Notes as capital property may, in certain circumstances, be entitled to treat their Series 2018-1 Senior Notes and any other "Canadian security" (as defined in the Tax Act) owned by them in the taxation year of the election and all subsequent taxation years as capital property by making the irrevocable election permitted by subsection 39(4) of the Tax Act. Such holders are advised to consult their own tax advisors to determine whether such an election is available and desirable in their particular circumstances.

This summary is not applicable to a holder: (i) that is a "financial institution" (as defined in the Tax Act for purposes of the "mark to market property" and "specified debt obligation" rules); (ii) an interest in which is a "tax shelter investment" (as defined in the Tax Act); (iii) that reports its "Canadian tax results" (as defined in the Tax Act) in a currency other than Canadian dollars; or (iv) that has entered into or will enter into a "derivative forward agreement" as defined in the Tax Act in respect of the Series 2018-1 Senior Notes. Any such holders should consult their own tax advisors with respect to an investment in the Series 2018-1 Senior Notes. In addition, this summary does not address the deductibility of interest by a holder who has borrowed money to acquire Series 2018-1 Senior Notes.

On July 18, 2017, the Minister of Finance (Canada) released a consultation paper that included an announcement of its intention to amend the Tax Act to increase the amount of tax applicable to passive investment income earned through a private corporation. No specific amendments to the Tax Act were proposed in connection with this announcement and this summary does not consider the implications of this announcement. On October 18, 2017, the Minister of Finance (Canada) announced that the government intends to move forward with the planned amendments subject to further developments to address concerns of business owners the details of which are not yet available. Holders that are private corporations should consult their own tax advisors regarding the implications of these announcements with respect to their particular circumstances.

This summary is based upon the facts set out in the confidential shelf offering memorandum, the current provisions of the Tax Act and the regulations thereunder (the "**Regulations**"), all specific proposals to amend the Tax Act and the Regulations publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date hereof (the "**Tax Proposals**") and counsel's understanding of the current published administrative policies and practices of the Canada Revenue Agency. There can be no assurance that any Tax Proposals will be implemented in their current form or at all. This summary does not otherwise take into account or anticipate any changes in law or administrative policies and practices, whether by legislative, administrative or judicial action nor does it take into account provincial, territorial or foreign tax legislation or considerations, which may differ significantly from those discussed herein.

This summary is not exhaustive of all possible Canadian federal income tax considerations applicable to an investment in the Series 2018-1 Senior Notes. Moreover, the income and other tax consequences of acquiring, holding or disposing of the Series 2018-1 Senior Notes will vary depending on the Holder's particular circumstances, including the province or territory, or provinces or territories, in which the Holder resides or carries on business. Accordingly, this summary is of a general nature only and is not intended to be legal or tax advice to any particular Holder, and no representations with respect to the income tax consequences to any Holder are made. Investors should consult their own tax advisors for advice with respect to the tax consequences of an investment in the Series 2018-1 Senior Notes based on their particular circumstances. This summary does not address any tax considerations applicable to persons other than Holders and such persons should consult their own tax advisors regarding the consequences of acquiring, holding and disposing of Series 2018-1 Senior Notes under the Tax Act and any jurisdiction in which they may be subject to tax.

Foreign Exchange

For purposes of the Tax Act, all amounts relating to the acquisition, holding or disposition of Series 2018-1 Senior Notes must be expressed in Canadian dollars, including any interest, adjusted cost base and proceeds of disposition. For purposes of the Tax Act, amounts denominated in a currency other than the Canadian dollar generally must be converted into Canadian dollars in accordance with the Tax Act on the date such amounts first arose. A Holder may realize a capital gain or a capital loss on the disposition or deemed disposition of a Series 2018-1 Senior Note by virtue of fluctuations in the value of the U.S. dollar relative to the Canadian dollar. The amount of interest or other amounts required to be included in computing the Holder's income for a taxation year will also be affected by fluctuations in the U.S. dollar relative to the Canadian dollar.

Interest on Series 2018-1 Senior Notes

A Holder that is a corporation, partnership, unit trust or any trust of which a corporation or partnership is a beneficiary will be required to include in computing its income for a taxation year all interest on the Series 2018-1 Senior Notes that accrues or is deemed to accrue to such Holder to the end of the particular taxation year or that becomes receivable or is received by the Holder before the end of that taxation year, including on a redemption or repayment on maturity, except to the extent that such interest was included in computing the Holder's income for a preceding taxation year.

Any other Holder, including an individual, will be required to include in computing its income for a taxation year all interest on the Series 2018-1 Senior Notes that is received or receivable by the Holder in that taxation year (depending upon the method regularly followed by the Holder in computing income), including on a redemption, purchase for cancellation, or repayment on maturity, except to the extent that the interest was included in the Holder's income for a preceding taxation year.

Any premium paid by the Issuer to a Holder on the redemption of a Series 2018-1 Senior Note or a purchase for cancellation of a Series 2018-1 Senior Note (other than in the open market in the manner any such obligation would normally be purchased in the open market by any member of the public), will generally be deemed to be interest received at the time by the Holder to the extent that such premium can reasonably be considered to relate to, and does not exceed the value at the time of the redemption of or purchase for cancellation of, the interest that, would have been paid or payable by the Issuer on the Series 2018-1 Senior Note for a taxation year ending after the redemption or purchase for cancellation, and to the extent such premium was not otherwise included in computing the Holder's income for that taxation year or a previous taxation year.

Where a Holder is required to include in income interest on a Series 2018-1 Senior Note that accrued before such Series 2018-1 Senior Note was acquired by the Holder, the Holder will be entitled to a deduction in computing income of an equivalent amount. The adjusted cost base to the Holder of the Series 2018-1 Senior Note will be reduced by the amount which is so deductible.

If a Series 2018-1 Senior Note is purchased by a Holder at a discount from its face value, the Holder may be required to include an amount equal to such discount in computing income, either in accordance with the deemed interest accrual rules contained in the Tax Act and Regulations or in the taxation year in which an amount in respect of the discount is received or receivable by the Holder. Holders should consult their own tax advisors in these circumstances as the treatment of the discount may vary with the facts and circumstances giving rise to the discount.

Disposition of Series 2018-1 Senior Notes

On a disposition or deemed disposition of a Series 2018-1 Senior Note (including a redemption, purchase for cancellation or repayment at maturity), a Holder will generally be required to include in income any premium deemed to be interest and the amount of interest accrued, or deemed to have accrued, on the Series 2018-1 Senior Note from the date of the last interest payment to the date of disposition to the extent that such amount has not otherwise been included in the Holder's income for the taxation year or a previous taxation year.

A disposition or deemed disposition by a Holder of a Series 2018-1 Senior Note will generally result in the Holder realizing a capital gain (or capital loss) equal to the amount by which the proceeds of disposition, net of any accrued interest or any amount deemed to be interest, exceed (or are exceeded by) the aggregate of the Holder's adjusted cost base thereof and any reasonable costs of disposition.

One half of any capital gain (a "**taxable capital gain**") generally must be included in the Holder's income for the taxation year of the disposition, and one half of any capital loss (an "**allowable capital loss**") realized in a taxation year must be deducted from taxable capital gains realized in that year. Allowable capital losses in excess of taxable capital gains realized in a taxation year may be deducted from net taxable capital gains realized in the three preceding taxation years or any subsequent taxation year, subject to detailed rules contained in the Tax Act in this regard. A capital gain realized by an individual (other than certain specified trusts) may give rise to a liability for alternative minimum tax.

Eligibility for Investment

The Series 2018-1 Senior Notes would, if acquired on the date hereof and if they (i) are issued as part of a single issue of debt of at least $25 million and (ii) have an investment grade rating with certain rating agencies prescribed under the Tax Act, be qualified investments under the Tax Act for a trust governed by a registered retirement savings plan ("**RRSP**"), registered retirement income fund ("**RRIF**"), registered education savings plan ("**RESP**"), registered disability savings plan ("**RDSP**"), tax free savings account ("**TFSA**") and deferred profit sharing plan ("**DPSP**") (except for a trust governed by a DPSP to which the Issuer has made a contribution).

Even if the Series 2018-1 Senior Notes may be qualified investments for a trust governed by an RRSP, RRIF, RESP, RDSP or TFSA, if the Series 2018-1 Senior Notes are "prohibited investments" (as defined in section 207.01 of the Tax Act) for an RRSP, RRIF, RESP, RDSP or TFSA, then a holder of the TFSA or RDSP, a subscriber of the RESP or an annuitant of the RRSP or RRIF, as the case may be, will be subject to a penalty tax as set out in the Tax Act. The Series 2018-1 Senior Notes would not be prohibited investments on the date hereof, provided (i) the holder of the TFSA or RDSP, the subscriber of the RESP or the annuitant of the RRSP or RRIF, as the case may be, deals at arm's length with the Issuer within the meaning of the Tax Act, and (ii) does not have a "significant interest" within the meaning of subsection 207.01(4) of the Tax Act in the Issuer. Investors intending to hold the Series 2018-1 Senior Notes in a TFSA, RRSP, RRIF, RESP or RDSP should consult their own advisors as to whether the Series 2018-1 Senior Notes would be a prohibited investment in their particular circumstances.

RELATIONSHIP BETWEEN THE ISSUER AND THE AGENTS

CIBC World Markets Inc., RBC Dominion Securities Inc. and Goldman Sachs Canada Inc. are each, directly or indirectly, a wholly-owned or majority-owned subsidiary or affiliate of a financial institution which is a lender to the Issuer and to which the Issuer is currently indebted under the terms of the Warehouse Facilities. The Issuer may use a portion of the net proceeds of the Series 2018-1 Senior Notes Offering to repay certain indebtedness under the Warehouse Facilities. Consequently, the Issuer may be considered to be a "connected issuer"~~,~~ of certain of the Agents under applicable Canadian securities legislation. As of the date of this Term Sheet, the Issuer is in compliance with the terms of its indebtedness under the Warehouse Facilities. Since the indebtedness under the Warehouse Facilities was incurred, the financial position of the Issuer has not materially changed. As of ●, **2018,** the Issuer had approximately $● ~~billion~~ outstanding under the Warehouse Facilities. CIBC World Markets Inc., RBC Dominion Securities Inc. and Goldman Sachs Canada Inc. have each advised that the decision to act as Agents for the Series 2018-1 Senior Notes Offering was made independently of the lenders under the Warehouse Facilities and the lenders had no influence as to the determination of the terms of the distribution. None of CIBC World Markets Inc., RBC Dominion Securities Inc. and Goldman Sachs Canada Inc. will receive any benefit in connection with the Series 2018-1 Senior Notes Offering other than its respective portion of the Agents' ~~fee~~**commission** payable by the Issuer**.**

Certain Canadian legal matters in connection with the Series 2018-1 Senior Notes Offering will be passed upon by Torys LLP on behalf of the Issuer and by Osler, Hoskin & Harcourt LLP on behalf of the Agents.

CONFIDENTIAL SHELF OFFERING MEMORANDUM

New Issue By Way of Private Placement

January ■, 2018

FAIR HYDRO TRUST

Senior Secured Notes

Fair Hydro Trust (the "**Issuer**"), a special purpose trust established under the laws of the Province of Ontario by Computershare Trust Company of Canada, acting as trustee of the Issuer, and caused to be established by Ontario Power Generation Inc. ("**OPG**"), as Financial Services Manager (as hereinafter defined), has created a program providing for the offering and issuance of senior secured notes (the "**Senior Notes**"), in one or several offerings. The Issuer was established in connection with the *Ontario Fair Hydro Plan Act, 2017* (together with the regulations promulgated thereunder, the "**FHPA**"). Under the FHPA, OPG is appointed as financial services manager (in such capacity, the "**Financial Services Manager**") and is given the authority to, among other things, establish, or cause to be established, one or more financing entities (each, a "**Financing Entity**") to incur payment obligations (referred to as "**Funding Obligations**") for the purposes prescribed under the FHPA. The Issuer is a Financing Entity under the FHPA and the Senior Notes are Funding Obligations being offered for the purposes of the FHPA.

The Senior Notes do not constitute a debt, liability or other obligation of, or interest in, OPG or any of its other affiliates (other than the Issuer). The Senior Notes are not a debt, liability or obligation of the Province of Ontario or any of its political subdivisions, agencies or instrumentalities. The Senior Notes will not be insured or guaranteed by the Province of Ontario, OPG or any of their respective affiliates or any other person or entity, except that the Province of Ontario has agreed to provide a limited guarantee in respect of the Senior Notes following the occurrence of certain events. See *"Change of Law Protection Agreement"*. The Senior Notes will be limited recourse obligations, secured only by the collateral described in this confidential shelf offering memorandum. See *"Capital Markets Platform — Acceleration and Remedies — Limited Recourse"* and *"Risk Factors"*.

The specific terms of any offering of Senior Notes, including, without limitation, the aggregate principal amount of Senior Notes being offered, the currency of the Senior Notes, the issue price (at par, at a discount or at a premium), the issue, delivery and maturity dates, any redemption or repayment provisions, the rating of the Senior Notes at the time of such offering, the interest (either fixed or floating and the circumstances, if any, under which the rate may be adjusted), the interest rate basis and interest payment dates, will be established by the Issuer and set forth in a term sheet (a "**Term Sheet**") that will accompany, be incorporated by reference in and form an integral part of this

confidential shelf offering memorandum. Unless otherwise specified in a Term Sheet, the Senior Notes will not be listed on any securities exchange.

The offering of Senior Notes from time to time (each, an "**Offering**") will be made pursuant to exemptions from the prospectus requirements of applicable securities laws in each of the provinces of Canada only to "accredited investors" (as such term is defined in National Instrument 45-106 – *Prospectus Exemptions* ("**NI 45-106**") and, in the case of a purchaser resident in Ontario, section 73.3(1) of the *Securities Act* (Ontario)) that are purchasing the Senior Notes as principal and that are not individuals unless those individuals are also "permitted clients" (as such term is defined in National Instrument 31-103 – *Registration Requirements, Exemptions and Ongoing Registrant Obligations* ("**NI 31-103**")). Purchasers of Senior Notes will be obliged to establish their qualification to invest in accordance with the requirements of the securities laws of the jurisdiction in which they reside. See *"Representations and Agreements of Purchasers"*. As each Offering will be made pursuant to exemptions from prospectus requirements of applicable securities laws, there will be restrictions on the resale of the Senior Notes. See *"Risk Factors"* and *"Restrictions on Resale"*.

The Senior Notes may be sold by the Issuer directly pursuant to applicable statutory exemptions or through agents designated by the Issuer from time to time (the "**Agents**"). See *"Plan of Distribution"*. Each Term Sheet will identify the Agents engaged to conditionally offer the Senior Notes for sale on a best efforts basis, subject to prior sale, in connection with the applicable Offering of Senior Notes and will also set forth the terms of such Offering of Senior Notes, including the net proceeds to the Issuer and, to the extent applicable, any fees payable to the Agents.

Subscriptions for the Senior Notes will be received subject to rejection or allotment in whole or in part and the right is reserved to close the subscription books at any time without notice. The Senior Notes will be delivered and recorded in book-entry form through CDS Clearing and Depository Services Inc. ("**CDS**") or another depository selected by the Issuer in accordance with the master trust indenture governing the Senior Notes. The Senior Notes will be represented by fully registered book-entry notes held by, or on behalf of, such depository, or a successor thereof, as the custodian of the book-entry notes, in its name or the name of its nominee.

The Senior Notes will be issued under and will be entitled to the benefits of a master trust indenture dated as of December 21, 2017 between the Issuer, as issuer, and BNY Trust Company of Canada, as indenture trustee, as amended, supplemented, restated or otherwise modified from time to time.

In making an investment decision, prospective investors acknowledge that they have not relied on the Agents or any person affiliated with the Agents for investment or other advice and are relying on their own examination of the terms of an Offering, including the merits and risks involved and creditworthiness of the Issuer. Prospective investors are not to construe the contents of this document as legal, tax, accounting or investment advice. Prior to investing in the Senior Notes, prospective investors should consult with their legal, tax, accounting and investment advisors to determine the consequences of an investment in the Senior Notes. See *"Risk Factors"* for a discussion of certain factors that should be considered by prospective purchasers of Senior Notes.

The Issuer is not a "reporting issuer" (as such term is defined under applicable Canadian securities laws) in any jurisdiction. The Issuer will only distribute the Senior Notes in Canada under exemptions from the prospectus requirements of the securities laws of the provinces where they are sold. The Senior Notes may only be traded in Canada under exemptions from the prospectus requirements of the securities laws of the provinces in which they are traded and only through dealers registered or exempt from the dealer registration requirements of applicable Canadian securities laws. See *"Restrictions on Resale"*.

There is currently no secondary market for the Senior Notes. There can be no assurance that a secondary market will develop or, if a secondary market does develop, that it will provide holders of Senior Notes with liquidity for their investment or that it will continue for the term of the applicable Senior Notes. Accordingly, purchasers of the Senior Notes may be required to bear the financial risk of investing in such Senior Notes until the maturity date of such Senior Notes.

No person is authorized to give any information or make any representation other than those contained in this confidential shelf offering memorandum in connection with an Offering and any decision to purchase Senior Notes should be based solely on the information contained herein. The Term Sheet applicable to such Offering and the

investor presentation (the "**Investor Presentation**"), attached hereto as Exhibit 1, are incorporated by reference and included in, respectively, and form an integral part of, this confidential shelf offering memorandum. The information contained in the Investor Presentation is current only as of the date thereof. The Investor Presentation may be updated and replaced by the Issuer in connection with an Offering and such updated Investor Presentation will be attached as Exhibit 1, and will be included in, and form an integral part of, this confidential shelf offering memorandum delivered in respect of such Offering.

This confidential shelf offering memorandum, including the Investor Presentation attached hereto, and any Term Sheets, are provided on a confidential basis to prospective investors for informational use solely in connection with their consideration of the purchase of Senior Notes. Use for any other purpose is not authorized. Each Offering will be made solely on the basis of the information contained herein or incorporated by reference which has been furnished by the Issuer. No Agent makes any representation or warranty, express or implied, as to the accuracy, adequacy or completeness of such information. Furthermore, no Agent has independently verified the information in this confidential shelf offering memorandum and has no responsibility for the accuracy, adequacy or completeness of any such information.

This confidential shelf offering memorandum does not contain all of the information that would normally appear in a prospectus qualified under applicable Canadian securities laws. Neither the delivery of this confidential shelf offering memorandum, at any time, nor any sales made pursuant hereto, will imply that the information contained herein is correct as of any time subsequent to the date set forth on the face page hereof and the Issuer and the Agents will not update such information except as may be required by applicable law.

CAUTION REGARDING FORWARD-LOOKING INFORMATION

Some of the statements contained in this confidential shelf offering memorandum, including those relating to the Issuer's expectations, forecasts, strategic and other statements, are forward-looking information within the meaning of securities laws. Forward-looking information is contained in the summary and in the sections titled *"Ontario's Fair Hydro Plan — Fair Allocation Amount and Financing Plan"*, *"Subordinated Debt"* and *"Risk Factors"* of this confidential shelf offering memorandum and *"Fair Allocation Amount"*, *"Financing Plan / Strategy"*, *"Financing Structure"*, *Aggregate Financing Program"* and *"Consumer Bill Forecast with FHP"* of the Investor Presentation. The forward-looking statements contained in this confidential shelf offering memorandum are presented for the purposes of assisting potential purchasers in making an investment decision regarding the Senior Notes and may not be appropriate for other purposes.

Often, but not always, forward-looking information can be identified by the use of forward-looking terminology such as "may", "will", "expect", "believe", "estimate", "plan", "could", "should", "would", "outlook", "forecast", "anticipate", "foresee", "continue" or the negative of these terms or variations of them or similar terminology. Forward-looking information is based on the reasonable assumptions, estimates, analysis and opinions of management of the Issuer made in light of its experience and perception of trends, current conditions and expected developments, as well as other factors that the Issuer believes to be relevant and reasonable at the date that such statements are made. A variety of factors, many of which are beyond the Issuer's control, may cause actual results to differ materially from the expectations expressed in the forward-looking statements. These factors include, but are not limited to, the following risks:

Judicial, Legislative or Regulatory Risks:

- Future legal action might challenge or invalidate the FHPA and materially adversely affect a holder's investment in the Senior Notes.
- Future legislative action to change the FHPA, the Change of Law Protection Agreement or the electricity market might materially adversely affect a holder's investment in the Senior Notes.
- Future regulatory action to change the rules applicable to the operation of the electricity market might materially adversely affect a holder's investment in the Senior Notes.
- Future judicial action could reduce the value of a holder's investment in the Senior Notes.
- Potential difficulties in enforcing civil liabilities against the Province of Ontario may arise.

Risks Associated with the Unusual Nature of the Investment Asset:

- Clean Energy Adjustments will not be payable until May 1, 2021 and until such time the IESO will be the sole source of funds for payment on the Senior Notes. Amounts paid by the IESO are not available to pay principal on the Senior Notes.
- The Issuer's ability to enforce security granted by the IESO may be significantly impaired or delayed.
- A holder of Senior Notes may experience material payment delays because the source of funds for payment after the Moratorium Period is limited.
- The Clean Energy Adjustment may not be billed after April 30, 2047, unless further regulations to extend that date are passed.
- Foreclosure of the Indenture Trustee's lien on the Investment Interest securing the Senior Notes might not be practical and acceleration of the Senior Notes before maturity might have little practical effect.
- The Issuer may issue multiple Series of Senior Notes secured by the Investment Interest and some decisions affecting holders of Senior Notes may require approval of all Series.
- If a Series of Senior Notes or all Senior Notes are accelerated, a holder of Senior Notes might receive payment of principal sooner or later than expected.
- The Issuer may have a co-ownership interest in the Investment Asset with other Financing Entities.
- If the Clean Energy Adjustment amounts and other funds held in the Issuer Accounts results in investment losses or the investments become illiquid, a holder of Senior Notes might receive payment of principal of and interest on the Senior Notes later than expected.

Servicing, Operating and Consumer Risks

- Payments on the Senior Notes depend on the performance of Electricity Vendors and the IESO.
- Payments on the Senior Notes depend on the performance of OPG as Financial Services Manager and as Manager.
- Inaccurate consumption forecasting or unanticipated delinquencies or write-offs might reduce or delay scheduled payments on the Senior Notes.
- Changes to billing and collection practices may reduce the amount of funds available for payments on the Senior Notes.
- Limits on rights to terminate service to Specified Consumers might make it more difficult to collect the Clean Energy Adjustment.
- It might be difficult for the Issuer to collect the Clean Energy Adjustment from Specified Consumers.
- Delinquent or partial payments of electricity bills may make principal payments on the Senior Notes occur later than expected.
- Indemnification obligations of OPG and the IESO are limited and might not be sufficient to protect the investments in the Senior Notes.
- Power outages could impair payment of the Senior Notes.
- Technological changes that make alternative energy sources more attractive in the future or significant population fluctuations may result in fewer Specified Consumers from whom to collect the Clean Energy Adjustment.

Insolvency-Related Risks

- If the Issuer were to become subject to Canadian Insolvency and Restructuring Laws, the Indenture Trustee's ability to enforce security granted by the Issuer may be significantly impaired or delayed.
- If the IESO were to become subject to Canadian Insolvency and Restructuring Laws, the Transfers of specified portions of the Regulatory Asset by the IESO may not be respected as true sales of the Regulatory Asset.
- If any Electricity Vendor or the IESO were to become subject to Canadian Insolvency and Restructuring Laws, collections that have been commingled may be unrecoverable and the Issuer's ability to enforce its rights against such Electricity Vendor or the IESO may be significantly impaired or delayed.
- If OPG were to become subject to Canadian Insolvency and Restructuring Laws, the Issuer's ability to enforce its rights against OPG may be significantly impaired or delayed and the Issuer's assets and liabilities may be substantively consolidated with those of OPG.
- If the Issuer Trustee were to become subject to Canadian Insolvency and Restructuring Laws, the assets and liabilities of the Issuer may be substantively consolidated with the Issuer Trustee.
- If a Specified Consumer were to become subject to Canadian Insolvency and Restructuring Laws, the Issuer's ability to collect Clean Energy Adjustment amounts from such Specified Consumer may be adversely affected.
- If amounts in the Issuer Accounts for any Series are invested with entities that become subject to insolvency proceedings, the Issuer's ability to make payments to holders of Senior Notes may be adversely affected.

Other Risks:

- The credit ratings are not an indication of the expected rate of payment of principal on the Senior Notes.
- If the ratings on the Senior Notes are withdrawn or revised downward, the value of a holder's investment in the Senior Notes may be adversely affected.
- The credit ratings of the IESO, OPG and the Province of Ontario might affect the market value of the Senior Notes.
- The absence of an established market for the Senior Notes might limit the ability to resell or refinance the Senior Notes.
- Restrictions on resale might limit the ability to resell the Senior Notes.

Please also see *"Risk Factors"*.

The Issuer does not intend, or assume any obligation, to update any forward-looking information except as may be required by applicable law.

SUMMARY

This summary does not contain all the information prospective purchasers should consider before investing in the Senior Notes. Prospective purchasers should read this entire confidential shelf offering memorandum carefully, including the section entitled "Risk Factors". Capitalized terms used and not otherwise defined in this summary have the meanings ascribed to them in the glossary starting on page [92] of this confidential shelf offering memorandum. An index of defined terms used in this summary is provided starting on page [104] of this confidential shelf offering memorandum.

Issuer:	Fair Hydro Trust, a special purpose trust established under the laws of the Province of Ontario.
Manager:	Ontario Power Generation Inc. ("**OPG**"), pursuant to the terms of the Management Agreement.
Limitations:	The Senior Notes do not constitute a debt, liability or other obligation of, or interest in, OPG or any of its other affiliates (other than the Issuer). The Senior Notes are not a debt, liability or obligation of the Province of Ontario or any of its political subdivisions, agencies or instrumentalities. The Senior Notes will not be insured or guaranteed by the Province of Ontario, OPG or any of their respective affiliates or any other person or entity, except that the Province of Ontario has agreed to provide a limited guarantee in respect of the Senior Notes following the occurrence of certain events. See *"— Change of Law Protection Agreement"*.
Ontario Fair Hydro Plan Act:	On June 1, 2017, the Ontario Legislature passed the Ontario Fair Hydro Plan Act, 2017 (the "FHPA"). The FHPA was enacted to: (i) ensure that Clean Energy Costs and Clean Energy Benefits are fairly allocated among present and future Specified Consumers (a category of consumers that generally is comprised of residential consumers, small businesses and farms); (ii) recognize that Clean Energy Benefits have accrued and will accrue over time and will continue to benefit present and future electricity consumers in Ontario; and (iii) align Clean Energy Costs with Clean Energy Benefits, in order to provide fairness for Specified Consumers over time. As a result, from July 1, 2017 until April 30, 2018, electricity rates payable by Specified Consumers will in effect be the rate that would result in a representative consumer being charged an invoice amount that is 25%[1] less than the rate that would otherwise have been determined by the Ontario Energy Board (the "**OEB**") under its Regulated Price Plan[2] for that period. Under the FHPA, OPG is appointed as Financial Services Manager and is given the authority to, among other things, establish, or cause to be established, one or more Financing Entities to incur Funding Obligations for the purposes prescribed under the FHPA. The Issuer is a Financing Entity under the FHPA and the Notes are Funding Obligations being offered for the purposes of the FHPA. See *"Ontario's Fair Hydro Plan — Background"*.

[1] The 25% reduction includes an 8% rebate equivalent to the provincial portion of the harmonized sales tax previously granted by the Ontario government.

[2] Specified Consumers, as a class, are not a one-to-one equivalent class to the RPP consumer class.

Summary of the Fair Hydro Financing Program:	The implementation of the Fair Hydro Plan is intended to be financed by the Issuer through the Fair Hydro financing program. The program provides for the offering and issuance by the Issuer of Senior Notes, in any number of Series, in one or several Offerings. A Term Sheet will describe particulars of the terms of each Series of Senior Notes and will be incorporated by reference and form an integral part of this confidential shelf offering memorandum. Each Series of Senior Notes will be issued under the Master Trust Indenture, as supplemented by a Supplemental Indenture authorizing that Series.
Transferor and Servicer:	The Independent Electricity System Operator (the "**IESO**") is a not-for-profit corporation established under the *Electricity Act, 1998* (Ontario). As a non-share capital corporation, the IESO does not have any shareholders or owners and is governed by an independent board of directors appointed by the Minister of Energy. The IESO manages the operation and reliability of Ontario's bulk power system and administers the wholesale electricity market. Each month, the IESO will determine the shortfall resulting from the rate reduction mandated by the FHPA and record the amount in a variance account. The IESO has the right, exercisable in accordance with the FHPA, to recover the balance recorded in the variance account from Specified Consumers (such right, the "**Regulatory Asset**"). The FHPA provides that the OEB shall, from time to time and in accordance with the Regulations, determine and set rates payable by Specified Consumers to allow for the IESO to recover the balance recorded in the variance account and that the IESO shall not be entitled to collect all or part of the balance recorded in the variance account from Specified Consumers before May 1, 2021. Pursuant to the Master Transfer and Servicing Agreement, the IESO may, on a monthly basis, offer to Transfer specified portions of the Regulatory Asset to the Issuer in accordance with the FHPA. See *"The Transferor and Servicer"*.
Investment Interest:	Upon completion of a Transfer by the IESO of a specified portion of the Regulatory Asset, the Issuer will acquire an Investment Interest in the Investment Asset, which is a current and irrevocable property right consisting of the rights specified in the FHPA, including the right to impose, invoice, collect, receive and recover the Clean Energy Adjustment from Specified Consumers in accordance with the FHPA. See *"— Clean Energy Adjustment"* below and *"Ontario's Fair Hydro Plan — Regulatory Asset"*, *"Ontario's Fair Hydro Plan — Investment Interest"* and *"The Transferor and Servicer"*.
Clean Energy Adjustment:	The FHPA imposes an irrevocable and non-bypassable charge referred to as the Clean Energy Adjustment that will be determined by the Financial Services Manager and will be converted by the OEB into a cent per kWh rate and added to the electricity invoices sent to Specified Consumers. See *"— Statutory Duties of the OEB"* below. The required Clean Energy Adjustment will be determined by the Financial Services Manager for each month in a Reference Period and consists of the sum (without duplication) of: (i) the estimated Finance Amount in respect of the Reference Period, which will include an estimate of all repayments, redemptions, funding costs, derivative payments, required deposits, Issuer expenses and taxes, and other amounts paid or payable during such Reference Period, and (ii) the

True-up Amount for such Reference Period, all divided by the number of months in the applicable Reference Period.
