Electricity Distributor reasonably expects would apply in respect of Primary Beneficiaries resident in its service area or region.

iii. Based on the product of (i) and (ii), above, and such other considerations as it considers to be directly relevant, each Electricity Distributor would make a written recommendation to the Trustee regarding the aggregate funding amount that the Electricity Distributor anticipates would be utilized under the Program by the Primary Beneficiaries resident in its service area or region (the "**Local Funding Estimate**"). Such recommendation would be accompanied, when submitted to the Trustee, by a detailed explanation regarding the assumptions, financial parameters, suitability considerations and other information underlying the Local Funding Estimate (including the type of information contemplated by the Selections Factors and the Measures Factors, which would be relied upon by the Trustee in its assessment regarding the allocation of available funding to or for the benefit of the Primary Beneficiaries across the specified areas and regions of Ontario.

iv. The Trustee would inform the Electricity Distributor regarding the aggregate of the amount determined by the Trustee to be made available under the Program for Primary Beneficiaries in the Electricity Distributor's designated service area or region (for each Electricity Distributor, its "**Maximum Electricity Distributor Allocation**") and as to any maximum amount that may be paid to or for the benefit of any single Primary Beneficiary **[or group of related Primary Beneficiaries]** located in the servicer area or region of the Electricity Distributor (the "**Maximum Primary Beneficiary Amount**"). The Maximum Electricity Distributor Allocation and Maximum Primary Beneficiary Amount may vary between areas and regions, among the Primary Beneficiaries within such areas and regions, and may be increased by the Trustee from time to time in its discretion.

v. Each Electricity Distributor would apply the principles set forth under "Identification of Primary Beneficiary Payees" in the Principles Annex to identify and make recommendations to the Trustee regarding the amount of funds (if any) to be distributed to or for the benefit of Primary Beneficiaries resident within its service area or region from time to time (the "**Primary Beneficiary Payees**").

vi. Each Electricity Distributor would ensure that the aggregate of the amounts it recommends be distributed to or for the benefit of Primary Beneficiary Payees from time to time does not exceed (1) its Maximum Electricity Distributor Allocation and (2) for any single Primary Beneficiary **[or group of related Primary Beneficiaries]** located in the service area or region of the Electricity Distributor, the lesser of (x) the applicable Maximum Primary Beneficiary Amount and (y) the estimated costs (including any applicable taxes, but excluding any amount payable to the Electricity Distributor by or on behalf of the Primary Beneficiary) to be incurred by or on behalf of such Primary Beneficiary (whether or not such costs have been paid or remain outstanding)

in respect of Eligible Measures applied or to be applied in respect of the Primary Beneficiary's Ontario residence.

vii. The Trustee would provide written confirmation to each Electricity Distributor:

1. Either (x) that the recommendations specified of the Electricity Distributor in clause (v), above, have been accepted, or (y) as to the specific reasons for any non-acceptance; and

2. The amount of the distributions to be paid to or for the benefit of each Primary Beneficiary Payee that is resident in the Electricity Distributor's service area or region.

viii. With respect to each Primary Beneficiary resident in a Electricity Distributor's service area or region that is confirmed as a Primary Beneficiary Payee, the Electricity Distributor would provide the Trustee written confirmation as to:

1. The identity of such Primary Beneficiary Payee; and

2. The amount of the distribution paid to or for the benefit of such Primary Beneficiary Payee.

ix. If the amount of a distribution to be made to a Primary Beneficiary Payee is based on the estimated costs to be incurred by or on behalf of such Primary Beneficiary and, prior to making the distribution to the Primary Beneficiary Payee, the Electricity Distributor determines that the actual costs (including any applicable taxes but excluding any amount payable to the Electricity Distributor by or on behalf of the Primary Beneficiary) incurred or to be incurred by or on behalf of such Primary Beneficiary in respect of Eligible Measures applied or to be applied in respect of the Primary Beneficiary's Ontario residence has or would be less than such estimated costs, then the amount to be distributed to the Primary Beneficiary shall be based on such actual costs.

b. **Making of Distributions to Primary Beneficiaries**

i. It is expected that promptly after the Trustee confirms the identity of a Primary Beneficiary Payee resident in an Electricity Distributor's service area or region and the amount of the distribution to be paid to or for the benefit of such Primary Beneficiary Payee, the Trustee would arrange for payment to or on the direction of the Electricity Distributor of an amount equal to the amount of such distribution.

ii. It is expected that promptly upon receipt of funds in respect of a distribution to be made to a Primary Beneficiary Payee, the Electricity Distributor would arrange for payment of the full amount of such distribution to or for the benefit of the Primary Beneficiary Payee (including by direct payment to a

third party of, or as a reimbursement or rebate of, the costs of applicable Eligible Measures installed at the residence of and for the benefit of the Primary Beneficiary Payee), without reduction or set-off by the Electricity Distributor.

iii. If the amount paid to an Electricity Distributor in respect of a distribution to be made to a Primary Beneficiary exceeds the actual amount of the distribution made to or on behalf of the Primary Beneficiary, it is expected that the Trustee would require Electricity Distributor to return such excess to the Trustee, whereupon the proceeds of such returned amount shall continue to form part of the Assets.

c. **Establishment of Operational, Administrative, Record-Keeping and Other Systems and Policies by Electricity Distributors to facilitate the Program**

i. It is expected that the Electricity Distributor would establish such operational, administrative, record-keeping and other systems and policies as are necessary to facilitate the Program and perform its duties under the ~~Administrative Services~~Implementation Agreement, including systems or policies to: identify Primary Beneficiary Payees; comply with applicable privacy and regulatory laws; communicate with Primary Beneficiaries on behalf of the Trust; assess Eligible Measures; determine the Local Funding Estimate; monitor its recommendations to the Trustee against its Maximum Electricity Distributor Allocation and the Maximum Primary Beneficiary Amount; receive funds from the Trust in respect of distributions to the Primary Beneficiary Payees and transfer such funds to the appropriate recipients for the benefit of the Primary Beneficiary Payees; preparation and timely delivery to Primary Beneficiary Payees of such documents as are required by the *Income Tax Act* (Canada); and create and maintain records in respect of the foregoing.

ii. The Electricity Distributor would set up a separate bank account for the purpose of receiving funds from the Trust in respect of distributions to the Primary Beneficiary Payees and the transfer of such funds to the appropriate recipients for the benefit of the Primary Beneficiary Payees.

d. **Reporting, Record-Keeping, Inspection and Disclosure and Compliance Matters**

i. The Electricity Distributor would provide record-keeping, clerical and bookkeeping services relating to all matters relating to its recommendations and the performance of its other duties and obligations under its ~~Administrative Services~~Implementation Agreement.

ii. The Electricity Distributor would keep and maintain all financial records and non-financial documents and records relating to the provision of services under its ~~Administrative Services~~Implementation Agreement. **[NTD: Consider specifying any particular records regarding individual Primary Beneficiary Payees needed to ensure the proper function of the Trust or the Program]**

iii. The Electricity Distributor would provide to the Trustee quarterly and annual reports ("**Reports**") for the duration of its ~~Administrative Services~~Implementation Agreement. Such Reports would set out, among other things, the amounts of the distributions paid to or for the benefit of applicable Primary Beneficiary Payees, the average distribution amount per such Primary Beneficiary Payee, the Eligible Measures for which distributions have been made, and the uptake of energy efficiency measures.

iv. The Electricity Distributor would agree to provide to the Trustee such information as is necessary for the Trustee to (v) comply with applicable law; (w) prepare financial statements for the Trust; (x) prepare and submit such documents as are required under the *Income Tax Act* (Canada); (y) comply with the Trust's applicable obligations under the Transfer Payment Agreement; and (z) such other matters as the Trustee reasonably requests.

v. The Trustee, its authorized representatives or an independent auditor would be permitted to, at its own expense, on twenty-four hours' notice to the Electricity Distributor and during normal business hours, inspect the records of and information respecting the Electricity Distributor to confirm its compliance with the ~~Administrative Services~~Implementation Agreement, including regarding its processes for recommending the Primary Beneficiary Payees and their respective distribution amounts and regarding the delivery of Trust funds on behalf of the Trustee to or for the benefit of the Primary Beneficiary Payees.

e. **Standard of Care**

i. The Electricity Distributor would be required to agree to perform its duties provided under the ~~Administrative Services~~Implementation Agreement exercising the degree of care, diligence and skill that a reasonably prudent Person would exercise in comparable circumstances.

ii. In performing its duties under the ~~Administrative Services~~Implementation Agreement (including the recommending of Primary Beneficiary Payees to the Trustee), the Electricity Distributor would be required to agree to seek to avoid actual, potential or perceived conflicts of interest.

iii. The Electricity Distributor would be required to agree to that it would not, in performing its obligations under the ~~Administrative Services~~Implementation Agreement, take any action which it knows or ought reasonably to know would cause the Trustee or the Trust to be in violation of any law, rule or regulation applicable to it.

f. **Expenses**

The Electricity Distributor would be eligible to receive reasonable compensation and reimbursement of its actual out-of-pocket costs associated with the performance of its duties and obligations under the ~~Administrative Services~~Implementation Agreement, subject to compliance with requirements substantially equivalent to the Province's

Travel, Meal and Hospitality Expenses Directive. Such compensation amounts and reimbursement entitlements would be specified in the ~~Administrative Services~~Implementation Agreement.

g. **Representations**

The Electricity Distributor would make customary representations to the Trust regarding, among other things, its legal capacity; authorization; non-contravention of law or material contract to which it is a party; and the enforceability of the ~~Administrative Services~~Implementation Agreement.

h. **Indemnification**

The Electricity Distributor would be required to agree to provide customary indemnities to the Trust and the Trustee from and against claims, damages and liabilities which may the Trust or Trustee may suffer or incur as the result of any breach of the ~~Administrative Services~~Implementation Agreement by the Electricity Distributor or its representatives.

The Province wishes to provide Funds to the Recipient to be held, invested, applied and distributed in accordance with the terms of the Declaration of Trust (defined below), in furtherance of the Purpose (as defined in the Declaration of Trust), including having regard to the Principles set forth in Annex A.

CONSIDERATION

In consideration of the mutual covenants and agreements contained in this Agreement and for other good and valuable consideration, the receipt and sufficiency of which is expressly acknowledged, the Parties agree as follows:

ENTIRE AGREEMENT

This agreement (as amended, restated, supplemented or otherwise modified from time to time, the **"Agreement"**), including:

Schedule "A" - General Terms and Conditions
Schedule "B" - Project Specific Information
Schedule "C" - Project - Certain Obligations of the Recipient
Schedule "D" - Budget
Schedule "E" - Payment Plan
Schedule "F" - Reporting
Annex "A" - Principles, and
any amending agreement entered into as provided for below,

constitutes the entire agreement between the Parties with respect to the subject matter contained in this Agreement and supersedes all prior oral or written representations and agreements.

COUNTERPARTS

The Agreement may be executed in any number of counterparts, each of which will be deemed an original, but all of which together will constitute one and the same instrument.

AMENDING THE AGREEMENT

The Agreement may only be amended by a written agreement duly executed by the Parties.

ACKNOWLEDGEMENT

The Recipient:

(a) acknowledges that it has read and understands the provisions contained in the entire Agreement; and

(b) agrees to be bound by the terms and conditions contained in the entire Agreement.

IN WITNESS WHEREOF, the Parties have executed the Agreement on the dates set out below.

SCHEDULE "A"
GENERAL TERMS AND CONDITIONS

1.0 INTERPRETATION AND DEFINITIONS

1.1 Interpretation. For the purposes of interpretation:

(a) words in the singular include the plural and vice-versa;

(b) words in one gender include all genders;

(c) the headings do not form part of the Agreement; they are for reference only and will not affect the interpretation of the Agreement;

(d) any reference to dollars or currency will be in Canadian dollars and currency;

(e) "include", "includes" and "including" denote that the subsequent list is not exhaustive;

(f) where any reference is made in the Agreement to an act to be performed by or for or on behalf of the ~~Affordability Fund Trust~~Recipient, such reference shall be construed and applied for all purposes as if it referred to an act to be performed by or for or on behalf of the Trustee in its capacity as trustee of the ~~Affordability Fund Trust~~Recipient, and, where any reference is made in the Agreement to an act to be performed by or for or on behalf of the Trustee, such reference shall be construed and applied for all purposes as if it referred to an act to be performed by or for or on behalf of the Trustee in its capacity as trustee of the ~~Affordability Fund Trust~~Recipient; and

(g) it is intended that the transfer of the Funds to the Recipient will be a transfer made to a "non-controlled trust" (as that term is given meaning in • applicable to the accounting rules and principles applicable to the Province as of the date of the Agreement), and so if a term or condition of the Agreement is determined to conflict with the requirements applicable to the Province recording the transfers to the Recipient of Funds contemplated hereunder as an expense incurred by the Province on the date of the transfer of Funds under the Agreement otherwise in connection with activities undertaken by the Province with such a "non-controlled trust", then such term or condition shall be given a meaning and shall have an effect insofar as it is possible to interpret such term or condition in a manner that eliminates such conflict while preserving the other provisions of the Agreement and furthering the Purpose.

1.2 Definitions. In the Agreement, the following terms will have the following meanings:

"**Administrative Services Agent**" has the meaning given to such term in the Declaration of Trust.

"Affordability Fund Trust" means the trust established and governed by the Declaration of Trust, and for greater certainty includes such trust operating under any other name that may be designated from time to time by the Trustee in accordance with the Declaration of Trust.

"BPSAA" means the Broader Public Sector Accountability Act, 2010 (Ontario).

"**Beneficiary**" has the meaning given to such term in the Declaration of Trust.

"Budget" means the Recipient's budget attached to the Agreement as Schedule "D".

"Business Day" means any working day, Monday to Friday inclusive, excluding statutory and other holidays, namely: New Year's Day; Family Day; Good Friday; Easter Monday; Victoria Day; Canada Day; Civic Holiday; Labour Day; Thanksgiving Day; Remembrance Day; Christmas Day; Boxing Day and any other day on which the Province has elected to be closed for business.

"**Declaration of Trust**" means the declaration of trust made as of March [•], 2017, under which the ~~Affordability Fund Trust~~Recipient was established, as such declaration of trust may be amended, restated, supplemented or otherwise modified from time to time with the consent of the Province.

"Expiration Date" means the date on which this Agreement will expire and is the date set out in Schedule "B".

"Funds" means the money the Province provides to the Recipient pursuant to the Agreement.

"**Implementation Agents**" has the meaning given to such term in the Declaration of Trust.

"Maximum Funds" means the maximum amount of Funds that the Province will provide the Recipient under the Agreement, as set out in Schedule "B".

"Notice" means any communication given or required to be given pursuant to the Agreement.

"Party" means either the Province or the Recipient.

"**Person**" includes any individual, sole proprietorship, corporation, partnership, joint venture, association, society, club, board, chamber, joint-stock company, trust, trustee, unincorporated or incorporated organization or entity or government or any entity, agency or political subdivision thereof.

"**Program**" has the meaning given to such term in the Declaration of Trust.

"Project" means the undertaking described in Schedule "C".

"**Purpose**" has the meaning given to such term in the Declaration of Trust.

"PSSDA" means the *Public Sector Salary Disclosure Act, 1996* (Ontario).

"Reports" means the reports described in Schedule "F".

"**Trustee**" means, initially, Computershare Trust Company of Canada, and any additional or replacement trustee in its capacity as trustee of the ~~Affordability Fund Trust~~Recipient pursuant to the Declaration of Trust, including the Board of Trustees (as defined in the Declaration of Trust) and each of their respective successors and permitted assigns.

2.0 REPRESENTATIONS, WARRANTIES AND COVENANTS

2.1 General. The Recipient represents, warrants and covenants that:

(a) the Trustee is the trustee of the ~~Affordability Fund Trust~~Recipient; and

(b) the ~~Affordability Fund Trust~~Recipient is, and will continue to be for the term of the Agreement, a trust existing under and governed by the laws of the Province of Ontario.

2.2 Execution of Agreement. The Recipient represents and warrants that it has:

(a) the full power and authority to enter into the Agreement; and

(b) taken all necessary actions to authorize the execution of the Agreement.

2.3 Governance. The Recipient ~~represents, warrants and~~ covenants that it ~~has, and~~ will develop and maintain~~,~~ in writing ~~for the period during which~~until the Agreement is no longer in effect:

(a) decision-making mechanisms and procedures to enable the Recipient to hold, invest, manage, apply and distribute the Funds in accordance with the Declaration of Trust in furtherance of the Purpose; and

(b) procedures to enable the preparation and delivery of all Reports required pursuant to Article 7.0.

2.4 Supporting Documentation. Upon request, the Recipient will provide the Province with proof of the matters referred to in this Article 2.0.

3.0 TERM OF THE AGREEMENT

3.1 Term. The term of the Agreement will commence on the Effective Date and will expire on ~~the later of~~ the Expiration Date ~~and the date on which the Affordability Fund Trust is terminated in accordance with the Declaration of Trust~~.

3.2 Extension. The term of the Agreement may be extended by further agreement between the Parties.

3.3 Extension of the Declaration of Trust. If the Province determines that an extension of the ~~Declaration of Trust (beyond the "~~Final Distribution Date~~"~~ (as defined in the Declaration of Trust) and time for termination~~, each as specified or determined thereunder)~~ of the Declaration of Trust is consistent with and in furtherance of the Purpose and the Province's original intentions and expectations in establishing the Project, the Province may request that the Recipient extend ~~the Declaration of Trust~~such date to a date specified by the Province in a Notice (such date not to be later than •), whereupon the Recipient, so long as the ~~Trustee~~Recipient does not have a reasonable basis to believe that such an extension would be inconsistent with the Purpose or weaken the protections intended for the benefit of the ~~Trustee~~Recipient pursuant to the Declaration of Trust, will undertake such actions as it may consider to be necessary or appropriate to so extend the Declaration of Trust, including by amending the Declaration of Trust to provide for such an extension and to modify any other term or requirement as would be necessary or prudent to conform such term or requirement in light of such extension.

4.0 FUNDS AND CARRYING OUT THE PROJECT

4.1 Funds Provided. The Province will:

(a) provide the Recipient up to the Maximum Funds to be held, invested, applied and distributed in accordance with the terms of the Project and the Declaration of Trust;

(b) provide the Funds to the Recipient in accordance with the Payment Plan attached to the Agreement as Schedule "E"; and

(c) deposit the Funds into an account designated by the Recipient, provided that the account:

(i) resides at a Canadian financial institution; and

(ii) is in the name of the Recipient.

4.2 Timing of Distributions to Beneficiaries. The expectations of the Province regarding when Funds will begin to be distributed by the Recipient to Beneficiaries are set out in Schedule C. The Recipient will have regard to those expectations in the exercise of its discretion ~~as Trustee~~under the Declaration of Trust, in determining when Funds will be distributed to Beneficiaries in furtherance of the Purpose.

4.3 Use of Funds and Project. The Recipient will exercise its rights, duties and discretions under the Declaration of Trust so that the Funds are used, applied and distributed only for and in

furtherance of the Purpose, including having regard to the Principles set forth in Annex A.

4.4 Province's Role Limited to Providing Funds. For greater clarity, the Province's role under the Agreement is limited to providing Funds to the Recipient and the Province is not responsible for carrying out or overseeing the terms of the Declaration of Trust.

4.5 Maximum Funds. The Recipient acknowledges that the Funds available to it pursuant to the Agreement will not exceed the Maximum Funds.

4.6 Funding, Not Procurement. For greater clarity, the Recipient acknowledges that:

(a) it is receiving funding from the Province for the Project and is not providing goods or services to the Province; and

(b) the funding the Province is providing under the Agreement is funding for the purposes of the PSSDA.

5.0 RECIPIENT'S ACQUISITION OF GOODS OR SERVICES, AND DISPOSAL OF ASSETS

5.1 Acquisition. If the Recipient acquires goods, services, or both with or by applying the proceeds of the Funds, it is expected to do so through a process that promotes the best value for money and to take reasonable steps to ensure that its Administrative Services Agent and Implementation Agents also follow a process that promotes the best value for money when acquiring goods and services with or by applying the proceeds of the Funds.

6.0 CONFLICT OF INTEREST

6.1 No Conflict of Interest. Except as expressly permitted by the Declaration of Trust, the Recipient is expected to implement appropriate processes ~~and control~~ to ensure that the Program and the use, ~~apply~~application and ~~distribute~~distribution of the Funds are without an actual, potential or perceived conflict of interest.

6.2 Conflict of Interest Includes. For the purposes of this Article, a conflict of interest includes any circumstances where, except as expressly permitted by the Declaration of Trust:

(a) the Recipient; or

(b) any person who has the capacity to influence the Recipient's decisions,

has outside commitments, relationships or financial interests that could, or could be seen to, interfere with the Recipient's objective, unbiased and impartial judgment relating to the Project, or the Recipient's use, application or distribution of the Funds, or both.

7.0 REPORTING, ACCOUNTING AND REVIEW

7.1 Preparation and Submission. The Recipient will cooperate with the Province to accommodate the Province's on-going information and reporting objectives in order to enable the Province to be aware of the Recipient's activities in furtherance of the Purpose, and to that end the Recipient will be expected, from and following the Original Trustee Replacement Date, to:

(a) submit to the Province at the address referred to in Schedule "B", all Reports in accordance with the timelines and content requirements set out in Schedule "F", or in a form as specified by the Province from time to time, acting reasonably;

(b) submit to the Province at the address referred to in Schedule "B", any other reports as may be reasonably requested by the Province from time to time in accordance with the timelines and content expectations identified by the Province, acting reasonably;

(c) undertake diligent efforts so that such Reports and any such other reports are complete and accurate in all material respects; and

(d) have an authorized signatory of the Recipient sign-off on such Reports and other reports.

7.2 Record Maintenance. The Recipient will keep and maintain financial and other records necessary to permit it to satisfy its obligations under section 7.1 and to permit the Province to exercise its rights under section 7.3.

7.3 Inspection. The Province, its authorized representatives or an independent auditor identified by the Province may, at its own expense, upon twenty-four hours' Notice to the Recipient and during normal business hours, inspect the records of and information respecting the Recipient to confirm its compliance with the terms of this Agreement, including to ensure consistency with the Purpose and, for these purposes, the Province, its authorized representatives or an independent auditor identified by the Province may take one or more of the following actions:

(a) inspect and copy the records and documents referred to in section 7.2;

(b) keep any copies made pursuant to section 7.3(a); and

(c) conduct an audit or investigation of the Recipient in respect of the expenditure of the Funds to confirm that the Funds have been used, applied and distributed for and in furtherance of the Purpose, including a review of the ~~Trust~~Recipient's processes, records, documents, as well as the processes and controls applied to obtain assurance that Funds disbursed to Electricity Distributors were used, applied and distributed for and in furtherance of the Purpose.

7.4 Disclosure. To assist in respect of the rights set out in section 7.3, the Recipient will disclose any information requested by the Province, its authorized representatives or an independent auditor identified by the Province, and will do so in the form requested by the Province, its authorized representatives or an independent auditor identified by the Province, as the case may be.

7.5 No Control of Records. No provision of the Agreement will be construed so as to give the Province any control whatsoever over the Recipient's records.

7.6 Auditor General. For greater certainty, the Province's rights under this Article are in addition to and do not limit any rights provided to the Auditor General pursuant to section 9.1 of the *Auditor General Act* (Ontario).

8.0 COMMUNICATIONS REQUIREMENTS

8.1 Publication. The Recipient will indicate, in any of its Program-related publications, whether written, oral, or visual, that the views expressed in the publication are the views of the Recipient and do not necessarily reflect those of the Province.

9.0 FREEDOM OF INFORMATION AND PROTECTION OF PRIVACY

9.1 FIPPA. The Recipient acknowledges that the Province is bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Province in

connection with the Project or otherwise in connection with the Agreement may be subject to disclosure in accordance with that Act.

10.0 INSURANCE

10.1 Insurance. The Recipient has made enquiries to confirm that insurance policies of the type contemplated in Schedule C are generally available in Canada. **[NTD: This will not be true at the time of signing. Insurance is an "expectation of the Province" prior to distribution of Funds under Schedule C]**

11.0 EVENT OF DEFAULT, CORRECTIVE ACTION AND TERMINATION FOR DEFAULT

11.1 Events of Default. An Event of Default will occur if:

(a) the Recipient fails to perform or observe any covenant in this Agreement and such failure has and continues to have a material adverse effect on the Province and remains unremedied during any Notice period applicable under section 11.2 after the earlier of (i) actual knowledge thereof by the Recipient, or (ii) receipt by the Recipient of Notice thereof from the Province;

(b) any representation or warranty made by the Recipient in the Agreement shall prove to have been incorrect in any material respect when made or deemed made, and, if capable of remedy, continues to be incorrect in any material respect during any Notice period applicable under section 11.2 after the earlier to occur of (i) the actual knowledge thereof by the Recipient or (ii) receipt by the Recipient of Notice thereof from the Province;

(c) it is [determined][manifestly demonstrated by the Province] that the ~~Recipient~~Trustee has breached its Standard of Care (within the meaning given in and context of the Declaration of Trust) in discharging its material duties under the Declaration of Trust, with the result that all or a significant part of the Funds have not been or are not being applied in furtherance of the Purpose or are being applied in a manner that is directly contrary or without regard to the Purpose, and, if such breach is capable of remedy, it continues and remains unremedied during any Notice ~~p~~Period applicable under section 11.2 after the earlier of (i) actual knowledge thereof by the Recipient, or (ii) receipt by the Recipient of Notice thereof from the Province;

(d) an insolvency event shall have occurred and be continuing with respect to the Recipient.

11.2 Consequences of Events of Default and Corrective Action. If an Event of Default occurs, the Province may, at any time, take one or more of the following actions:

(a) provide the Recipient with Notice allowing the Recipient an opportunity to remedy the Event of Default during a specified Notice Period;

(b) seek an order of specific performance, including an order that the Recipient pursue its available remedies against third parties;

(c) require, by Notice of demand, that the Recipient transfer to the Province (without any need for compensation, indemnity or consideration to the Recipient or any Beneficiary or other third party) any and all Assets remaining in the possession or under the control of the Recipient that can reasonably be traced or attributed to the Funds after first providing for the completion and performance by the Recipient of any unperformed contractual obligations of the Recipient undertaken in compliance with the Declaration of Trust on or prior to transfer; and

(d) terminate the Agreement, including immediately, without liability, penalty or costs to the Province upon giving Notice to the Recipient.

The transfer of Funds in accordance with the Agreement is made by the Province with the expressed intention and reservation that the transferred Funds shall be returned to the Province and the entitlements of the Recipient in remaining Funds shall thereby be revoked with reversion thereof to the Province in the circumstances contemplated in Section 11.2(c).

11.3 Opportunity to Remedy. If, in accordance with section 11.2, the Province provides the Recipient with an opportunity to remedy the Event of Default, the Province will provide Notice to the Recipient of:

(a) the particulars of the Event of Default; and

(b) the length of time within which the Recipient may cure such Event of Default without the Province pursuing any other remedy (the "**Notice Period**").

11.4 Recipient not Remedying. If the Province has provided the Recipient with an opportunity to remedy the Event of Default pursuant to section 11.2(a), and:

(a) the Recipient does not remedy the Event of Default within the Notice Period;

(b) it becomes apparent to the Province that the Recipient cannot adequately remedy the Event of Default within the Notice Period; or

(c) the Recipient is not proceeding to remedy the Event of Default in a way that is satisfactory to the Province,

the Province may extend any Notice ~~p~~Period, or initiate any one or more of the actions provided for in section 11.2.

12.0 REPAYMENT

12.1 Debt Due. If, pursuant to the Agreement: the Province demands the payment of any Funds from the Recipient pursuant to section 11.2(c) such Funds or other amount will be deemed to be a debt due and owing to the Province by the Recipient, and the Recipient will pay or return the amount to the Province immediately, unless the Province directs otherwise.

~~**12.2 Interest Rate.** The Province may charge the Recipient interest on any money owing by the Recipient at the then current interest rate charged by the Province of Ontario on accounts receivable.~~

[NTD: the trust is already giving all Assets back. It cannot pay "interest"]

12.2 ~~**12.3**~~ **Payment of Money to Province.** The Recipient will pay any money owing to the Province by cheque payable to the "Ontario Minister of Finance" and delivered to the Province at the address referred to in **[Schedule "B"]**.

12.3 ~~**12.4**~~ **Failure to Repay.** Without limiting the application of section 43 of the Financial Administration Act (Ontario), if the Recipient fails to repay any amount owing under the Agreement, Her Majesty the Queen in right of Ontario may deduct any unpaid amount from any money payable to the Recipient by Her Majesty the Queen in right of Ontario.

13.0 NOTICE

13.1 Notice in Writing and Addressed. Notice will be in writing and will be delivered by email, postage-prepaid mail, personal delivery or fax, and will be addressed to the Province and the Recipient respectively as set out in Schedule "B", or as either Party later designates to the other by Notice.

13.2 Notice Given. Notice will be deemed to have been given:

(a) in the case of postage-prepaid mail, five Business Days after the Notice is mailed; or

(b) in the case of email, personal delivery or fax, one Business Day after the Notice is delivered.

13.3 Postal Disruption. Despite section 13.2(a), in the event of a postal disruption:

(a) Notice by postage-prepaid mail will not be deemed to be received; and

(b) the Party giving Notice will provide Notice by email, personal delivery or by fax.

14.0 SEVERABILITY OF PROVISIONS

14.1 Invalidity or Unenforceability of Any Provision. The invalidity or unenforceability of any provision of the Agreement will not affect the validity or enforceability of any other provision of the Agreement. Any invalid or unenforceable provision will be deemed to be severed.

15.0 WAIVER

15.1 Waivers in Writing. If a Party fails to comply with any term of the Agreement, that Party may only rely on a waiver of the other Party if the other Party has provided a written waiver in accordance with the Notice provisions in Article 13.0. Any waiver must refer to a specific failure to comply and will not have the effect of waiving any subsequent failures to comply.

16.0 INDEPENDENT PARTIES

16.1 Parties Independent. The Recipient acknowledges that it is not an agent, joint venturer, partner or employee of the Province, and the Recipient will not represent itself in any way that might be taken by a reasonable person to suggest that it is, or take any actions that could establish or imply such a relationship.

17.0 ASSIGNMENT OF AGREEMENT OR FUNDS

17.1 Agreement Binding. All rights and obligations contained in the Agreement will extend to and be binding on the Parties' respective heirs, executors, administrators, successors and permitted assigns.

18.0 LIMITATION OF LIABILITY

18.1 This Agreement has been entered into by the Trustee solely in its capacity as trustee of the Recipient and is not binding on the Trustee in any other capacity, whether in tort, contract or otherwise. **The Beneficiaries of the Recipient are not subject to any liability in respect of the Recipient.** Resort may not be had to, nor recourse or satisfaction be sought from, the private property of the Trustee (whether owned by its in its personal capacity or in any other capacity other than in its capacity as Trustee of the Recipient), its directors, officers, employees, or agents, or the private property of any Beneficiary, and resort will be had solely to the property of the Recipient held in trust by the Trustee for the payment, performance or satisfaction of any liability or obligation of the Recipient or the Trustee under this Agreement. However, the foregoing limitations in this section shall not apply where the Trustee has demonstrated gross negligence, bad faith, fraud or wilful misconduct.

19.0 GOVERNING LAW

19.1 Governing Law. The Agreement and the rights, obligations and relations of the Parties will be governed by and construed in accordance with the laws of the Province of Ontario and the applicable federal laws of Canada. Any actions or proceedings arising in connection with the Agreement will be conducted in the courts of Ontario, which will have exclusive jurisdiction over such proceedings.

20.0 FURTHER ASSURANCES

20.1 Agreement into Effect. The Recipient will provide such further assurances as the Province may request from time to time with respect to any matter to which the Agreement pertains, and will otherwise do or cause to be done all acts or things necessary to implement and carry into effect the terms and conditions of the Agreement to their full extent.

20.2 Declaration of Trust. The Trustee covenants that it shall not amend, restate or terminate the Declaration of Trust without obtaining the written consent of the Province in respect of same, such consent not to be unreasonably withheld or delayed.

21.0 JOINT AND SEVERAL LIABILITY

21.1 Joint and Several Liability. Without limiting and subject to section 18.1 and the Declaration of Trust, if the Recipient is comprised of more than one entity, all such entities will be jointly and severally liable to the Province for the fulfillment of the obligations of the Recipient under the Agreement.

22.0 RIGHTS AND REMEDIES CUMULATIVE

22.1 Rights and Remedies Cumulative. The rights and remedies of the Province under the Agreement are cumulative and are in addition to, and not in substitution for, any of its rights and remedies provided by law or in equity.

23.0 ACKNOWLEDGEMENT OF OTHER LEGISLATION AND DIRECTIVES

23.1 Recipient Acknowledges. The Recipient acknowledges that by receiving Funds it may become subject to legislation applicable to organizations that receive funding from the Government of Ontario, including the BPSAA, the PSSDA, and the *Auditor General Act* (Ontario).

24.0 SURVIVAL

24.1 Survival. The following Articles and sections, and all applicable cross-referenced sections and schedules, will continue in full force and effect for a period of seven years from the date of expiry or termination of the Agreement: Article 1.0 and any other applicable definitions, section, 4.5, section 7.1 (to the extent that the Recipient has not provided the Reports to the satisfaction of the Province), sections 7.2, 7.3, 7.4, 7.5, 7.6, Article 8.0, Article 12.0, Article 14.0, Article 16.0, Article 17.0, Article 19.0, Article 20.0, Article 21.0 and Article 24.0.

For the purposes of this Agreement, the "Project" is the distribution of the Funds in accordance with the Declaration of Trust.

It is intended the Project will be undertaken by the Recipient in furtherance of the Purpose and in accordance with the Declaration of Trust. In this regard, it is expected that the Recipient will undertake the Program having regard to the Budget and the Principles set forth in Annex A.

The following are the ~~Provinces~~Province's expectations regarding the circumstances in which the Recipient will begin to distribute any Funds to any Beneficiary.

1. The Original Trustee Replacement Date (as defined in the Declaration of Trust) will have occurred.

2. ~~An administrative services agreement~~The* Administrative Services *Agreement (as defined in the Declaration of Trust) will have been entered into between the Recipient and ~~an~~* ~~Administrative Services~~ *~~Agent providing for the administrative~~Hydro One Limited under which Hydro One Limited shall provide specified administrative ~~and other~~ services to and on behalf of the Trustee.

3. One or more Implementation Agreements (as defined in the Declaration of Trust) will have been entered into between the Recipient and Implementation Agents providing for the services necessary for the Recipient to perform its obligations herein and execute the Project.

4. ~~3.~~ Administrative procedures will have been developed and implemented under which Electricity Distributors (as defined in the Declaration of Trust) will be invited to assist with (a) the identification and selection of Primary Beneficiaries under the Declaration of Trust, (b) the determination of the amount of Funds to be distributed to particular Primary Beneficiaries, and (c) the distribution of Funds to or for the benefit of such Primary Beneficiaries (in each case substantially on the basis contemplated in the Permitted Delegations Annex).

5. ~~4.~~ The Recipient will have obtained commercial general liability insurance from insurers having a secure A.M. Best rating of B+ or greater, or the equivalent, that in the opinion of the Recipient a prudent person similar to the Recipient would maintain, and having an inclusive limit of not less than $2,000,000 per occurrence and providing for contractual liability coverage. If requested, the Recipient will provide the Province (for its information purposes) with copies of the certificates of insurance and policies for such insurance coverage.

The Province recognizes that the foregoing may involve the Recipient entering into agreements as may be the Recipient considers to be necessary or expedient, including any required amendment or amendment and restatement of the Declaration of Trust. Funds may be expended to pay the expenses of the Trustee

in completing these matters. The Recipient will confirm to the Province once such matters have been completed.

SCHEDULE "D"

Recipient's Budget

1. It is expected that the administrative expenses of the ~~Fund~~Recipient, including any administrative expenses of the ~~Recipient (or any administrative services agents~~Administrative Services Agent or any Implementation Agent or other agents retained by the Recipient~~)~~, relating to the establishment of the ~~Affordability Fund Trust~~Recipient and the execution of the Project and satisfying the Requirements (as defined in Schedule "C") and any expenses related to the operation of the ~~Trust~~Recipient and the execution of the Project (including any reimbursable expenses incurred by ~~any~~the Administrative Services Agent or any Implementation Agent (as such terms are defined in the Declaration of Trust), will be no greater than 10 percent of the total Project budget.

2. The only expenditures incurred by the Recipient that are eligible for reimbursement are actual (excluding HST) administrative overhead expenses incurred by or on behalf of the Recipient that directly related to the Recipient or the establishment of the ~~Affordability Fund Trust~~Recipient.

4. Any expenses that have been or may be reimbursed by other parties should not be reimbursed by the ~~Fund~~Recipient.

5. It is expected any travel, meals and hospitality expenses by the Recipient will be consistent with the Province's Travel, Meal and Hospitality Expenses Directive. For purposes of funding entities receiving funding from the Recipient, the following would not be considered eligible claims:

    - Alcohol
    - First-Class travel
    - Meals, snacks and beverages
    - Gratuities
    - Laundry or dry cleaning
    - Valet services
    - Dependent care
    - Home management
    - Personal telephone calls

6. In the event that the Recipient performs any procurements, it is expected that all procurements will reflect the principles of Ontario's Public Service Procurement Directive.

SCHEDULE "E"

PAYMENT PLAN

PAYMENT DATE	MAXIMUM FUNDS TO BE DISBURSED BY THE PROVINCE
Within 7 days of signing the Agreement	$ 100,000,000[1]

[1] **Investment income and proceeds of the Funds are to be applied for the Purpose in accordance with the Declaration of Trust.**

SCHEDULE "F"

REPORTING

From and following the Original Trustee Replacement Date, Reports[2] will be [quarterly] on the basis of the government's fiscal year starting at the execution of this Agreement and continuing until conclusion of the Agreement. Annual Reports will be on a fiscal basis starting at the execution of this Agreement and continuing until conclusion of the Agreement. Quarterly Reports and Annual Reports would be expected to be submitted to the Province within one month following the end of the reporting period that they represent. The Province expects that these Reports would be prepared to demonstrate the impact of the Province's funding and address the following:

- Quarterly Reports would include a report back on the Trustee-developed performance management criteria. Initially, such Quarterly Reports would include details respecting:
    - Amounts disbursed by the Recipient in the previous quarter. It is expected that this information would be provided at the Electricity Distributor level and in the aggregate.
    - Total Affordability Fund investment income earned and accrued to date.
    - Key activities and achievements from the quarter, including the number of participant households per Electricity Distributor, average participant incentive cost per Electricity Distributor, and uptake of energy efficiency measures per Electricity Distributor.
    - Any challenges or modifications to the application, funding, or eligibility processes/rules of the Recipient.
    - Key activities planned for the upcoming quarter.
    - Details of any situation that a reasonable person might interpret as an actual, potential or perceived conflict of interest.
- Annual Reports would include a report back on the Trustee-developed performance management criteria. Initially, such Annual Report would include details respecting:

[2] NTD: Confirm and conform frequency references.

- A description of an Electricity Distributor's application process and the criteria used by the Recipient to distribute funds.
- Any challenges identified by the Recipient or ~~any~~the Administrative Services Agent of any Implementation Agent in achieving the Purpose and proposed solutions, if applicable.
- Lesson learned.
- Electricity Distributor and customer feedback.
- Amounts distributed to Beneficiaries or otherwise disbursed by the Recipient in the previous year. It is expected that this information will be provided by each Electricity Distributor.
- Key activities and achievements from each quarter being reported, including number of participant households per Electricity Distributor, average participant incentive cost per Electricity Distributor, and uptake of energy efficiency measures per Electricity Distributor.
- Total Affordability Fund interest earned and accrued to date.

As part of an Annual Report, the Recipient would also provide the Province with an audited financial statement for the previous year.

Hi Morag,

Please see attached for tracked and clean versions of the TPA and Declaration. The tracked versions are compared to the versions you saw yesterday.

Would it be possible to send us signed copies of the two documents by email by 6:30pm today?

Declaration- Next Steps

· Could you sign two copies of the clean version of the Declaration (one for us and one for you) and email us a scanned copy.

· We will pick up our copy of the original Declaration tomorrow morning.

TPA- Next Steps

· Could you sign three copies of the clean version of the TPA (two for us and one for you) and email us a scanned copy (entire version- including signature and non-signature pages)

· Our Deputy Minister will then sign on three printed copies.

· Tomorrow we will pick up two copies of the TPA that you signed and give you one copy of the TPA our Deputy signed.

Thanks!

Subject: FW: Affordability Fund Trust (Further Revisions to the DoT and TPA)

Hello Lisa,

Please find attached updated versions of the TPA and Declaration. Changes are tracked against the previous versions we had sent you.

There are three main outstanding elements that we are working to address:

1. On page 2 and 10 of the TPA, we need to add Computershare's relevant contact info. Could you kindly add this to the TPA?

2. For now we have left a placeholder for the effective date. We will replace that with tomorrow's date once you review.

3. Both documents have some formatting issues (Blakes is working to address):

- inconsistent page numbering and footers for both the TPA and Declaration

- incorrect sub section numbering in Annex A of the TPA

- Schedule B reference to the hospitality directive needs to be updated

Could you kindly review the TPA and Declaration and give us your final OK. Appreciate if you can let us know by tomorrow morning (Mar 23).

We can then circulate clean versions for your signature.

Thank you,

Emma

DECLARATION OF TRUST

This Declaration of Trust is made as of March 23, 2017, by Computershare Trust Company of Canada, a trust company established under the laws of Canada and licensed to carry on business as a trust company in each of the provinces and territories of Canada (together with its successors and assigns and the other trustees (including the Board of Trustees) contemplated herein, the "**Trustee**").

WHEREAS Computershare Trust Company of Canada, as settlor, wishes to establish a trust to acquire, hold, manage, invest, apply and dispose of certain property for the benefit of certain Beneficiaries as herein described.

NOW THEREFORE Computershare Trust Company of Canada hereby declares that it holds in trust as trustee (a) the sum of ONE HUNDRED DOLLARS ($100) contributed by it on this date and (b) all other property of every type and description which it may hereafter acquire or hold in its capacity as trustee of the Trust and all income therefrom and proceeds thereof, to hold, manage, invest, apply and dispose of same on and subject to the provisions set forth in this Declaration of Trust, including the annexes and schedule attached hereto.

SECTION 1
INTERPRETATION

1.1 Definitions

In this Declaration:

(a) "***Administrative Services Agent***" means each agent, which may include any Electricity Distributor or other Person, appointed from time to time under an Administrative Services Agreement, and its successors and permitted assigns solely in such capacity.

(b) "***Administrative Services Agreement***" means each agreement entered into from time to time by the Trust and one or more Administrative Services Agents or other Persons, in furtherance of the Purpose, under which the Administrative Services Agent agrees to provide specified administrative and other services to and on behalf of the Trustee, as such agreement may be amended, supplemented, restated, renewed or replaced from time to time and includes the agreement entered into on or about the date hereof between the Trustee and Hydro One Limited.

(c) "***Assets***" means, collectively, the following:

(i) the $100 Canadian referred to above, contributed by Computershare Trust Company of Canada on the date hereof;

(ii) all other property which is now or which at any time in the future may be issued, assigned, transferred, provided, donated, gifted and contributed to the Trustee (including pursuant to the Transfer Payment Agreement) to be held in trust pursuant to this Declaration (and which the Trustee is willing to accept and hold);

1.2 Headings and Table of Contents

The insertion of headings and the provision of a table of contents are for convenience of reference only and shall not affect the construction or interpretation of this Declaration.

1.3 References

Unless otherwise specified, all references to Sections are to Sections of this Declaration. The words "hereto", "herein", "hereof", "hereunder" and similar expressions refer to this Declaration and not to any particular Section or other provision of this Declaration.

1.4 Number and Gender

Unless otherwise specified, words importing the singular include the plural and vice versa and words importing gender include all genders.

1.5 Governing Law

This Declaration shall be governed by, and construed and interpreted in accordance with, the laws of the Province of Ontario and of Canada applicable therein.

1.6 Severability

Any provision of this Declaration which is illegal, invalid or unenforceable in any jurisdiction shall not affect the legality, validity or enforceability of the remaining provisions and any such illegality, invalidity or unenforceability in any jurisdiction shall not affect the legality, validity or enforceability of such provision in any other jurisdiction.

1.7 Reference to the Trust and the Trustee

For greater certainty, where any reference is made in this Declaration to an act to be performed by or for or on behalf of the Trust, such reference shall be construed and applied for all purposes as if it referred to an act to be performed by or for or on behalf of the Trustee in its capacity as trustee of the Trust, and, where any reference is made in this Declaration to an act to be performed by or for or on behalf of the Trustee, such reference shall be construed and applied for all purposes as if it referred to an act to be performed by or for or on behalf of the Trustee solely in its capacity as trustee of the Trust. Except as provided under the Transfer Payment Agreement, no Person dealing with the Trust or the Trustee shall be bound to make any enquiry concerning, or has the right to require production of, any evidence of the validity of any act of, or transaction purporting to be made by, the Trustee.

1.8 Defect in Appointment

No action taken by the Trustee will be invalid or ineffective by reason only of any defect in the appointment of the Trustee or the non-compliance by the Trustee with any rules or procedures adopted by the Trustee and which is discovered after the taking of such action.

SECTION 2
CONCERNING THE TRUST

2.1 Objectives

The Trust is established to hold, invest, apply and dispose of the Assets for the benefit of the Beneficiaries in furtherance of the Purpose, as provided for in this Declaration. In furtherance of the Purpose:

(a) the Original Trustee shall hold and invest the Assets as contemplated in this Declaration until the Original Trustee Replacement Date, after which the Board of Trustees shall be duly appointed hereunder; and

(b) the Board of Trustees shall hold, invest, apply and dispose of the Assets in accordance with this Declaration, including by determining the identities of and distributions (if any) to be made to or for the benefit of the Primary Beneficiaries in accordance with Sections 3.1 and 3.2 of this Declaration, having regard to the principles set forth in the Principles Annex and in the manner and on the basis contemplated in the Permitted Delegations Annex, or otherwise by determining the identities of and distributions to be made to or for the benefit of any Residual Beneficiary in accordance with Section 3.3,

in each case and in all respects subject to the terms, limitation and requirements set forth in this Declaration.

2.2 Name of the Trust

The name of the Trust shall be the "Affordability Fund Trust" or such replacement name as the Trustee shall determine and specify from time to time. The Trustee shall hold the Assets and conduct the activities of the Trust under such name or variation thereof (including any variation of such name in the French language). If the Trustee determines to change the name of the Trust, the Trustee may specify and use such other designation or adopt such other name (including any name in the French language) as it considers appropriate and may hold the Assets and conduct the activities of the Trust under such designation or other name.

2.3 Location

The head office and the situs of the administration of the Trust shall be • or such other address in Ontario as the Trustee may determine from time to time.

2.4 Fiscal Year

The fiscal year of the Trust shall end on December 31 of each year.

SECTION 3
DISTRIBUTIONS

3.1 Distributions to Primary Beneficiaries

After the Original Trustee Replacement Date and prior to the Final Distribution Date, the Trustee shall undertake diligent efforts in good faith to distribute the Assets (including capital or income) to the Primary Beneficiaries identified based on the application of the principles specified in the Principles Annex and in the manner and in the amounts determined on the basis contemplated by the Permitted Delegations Annex, in each case in the amounts and to the extent specified herein and therein, subject in all respects to the exercise by the Trustee of its discretion hereunder and to the exclusion of the other Beneficiaries.

3.2 Amount of Distributions to Primary Beneficiaries

For the purposes of determining the amount of distributions to be made to the Primary Beneficiaries, the Trustee shall have regard to and be entitled to rely on the recommendations of and information provided by Electricity Distributors acting as Implementation Agents appointed for the purposes, in the manner and substantially on the terms contemplated in the Permitted Delegations Annex, without any duty or obligation to verify or makes enquiries regarding the basis for or propriety of such recommendations or the accuracy or completeness of such information, except if and to the extent that the Trustee, in its discretion, determines that (i) it has actual knowledge that such recommendations are contrary to the reasonable application of the principles set forth in the Principles Annex or have been made on a basis that is manifestly contrary to such principles or the delegations and activities specified or contemplated to be undertaken under the Permitted Delegations Annex or (b) such information is known by the Trustee to be erroneous, contain a material misrepresentation or is materially incomplete.

3.3 Distributions to Residual Beneficiaries

Prior to the Final Distribution Date, the Trustee shall identify the Residual Beneficiary, or if more than one the Residual Beneficiaries and their respective allocations, by consulting with and having regard to the recommendations of the Ontario Energy Board, based on those charitable organizations which provide support services for Low Income Energy Assistance Program Emergency Financial Assistance (LEAP EFA) and the Ontario Electricity Support Program (OESP) or other charities that OEB may identify as relating to the Purpose. Following the Final Distribution Date, the Trustee shall, subject to compliance with section 7.3 and completion of a final audit, distribute all remaining Assets (including capital or income) to the Residual Beneficiaries, in each case in the amounts and to the extent determined by the Trustee in its discretion hereunder (having consulted with and having had regard to the recommendations of the Ontario Energy Board as aforesaid) and to the exclusion of the other Beneficiaries.

SECTION 4
POWERS OF THE TRUSTEE

4.1 General

Subject to and in compliance with the terms, limitations and restrictions of this Declaration and notwithstanding applicable trust legislation, the Trustee shall have, without other or further authorization, full, exclusive and absolute power, control and authority over the Assets and over the affairs and activities of the Trust to the same extent as if the Trustee were not a trustee, but rather the sole and absolute owner of the Assets in its own right, including such power, control and authority to do all such acts and things as in its sole judgment and discretion are necessary, incidental or desirable for carrying on the affairs and activities of the Trust, with such powers of delegation as may be permitted or otherwise contemplated by this Declaration. Except as expressly provided in this Declaration, the enumeration in this Declaration of any specific power or authority shall not be construed as limiting the aforesaid general power or authority or any other specific power or authority set out herein. Subject to the terms, limitations and restrictions of this Declaration, every discretion or power hereby conferred on the Trustee is an absolute and uncontrolled discretion or power.

4.2 Specifically Enumerated Powers

The Trustee shall have the following specific powers and authorities:

(a) ***Transfer Payment Agreement.*** The Trustee shall have the power to enter into, amend, supplement, modify and perform its obligation under the Transfer Payment Agreement.

(b) ***Contracts and Undertakings.*** The Trustee shall have the power to enter into, amend, supplement, modify and perform its obligation under any contract entered into or undertaking given by the Trustee in furtherance of the Purpose, including any Administrative Services Agreement and any Implementation Agreement.

(c) ***Power to Own, Hold and Manage.*** Subject to section 4.2(d), the Trustee shall have the power to own, hold and manage the Assets in such manner as the Trustee, in its sole and absolute discretion, may consider appropriate or advisable.

(d) ***Power to Invest in Eligible Investments.*** The Trustee shall have the power to invest the Assets only in Eligible Investments, and to change such Eligible Investments at any time and from time to time, all as the Trustee, in its sole and absolute discretion, may consider appropriate or advisable, but always having regard to the Trustee's expectations regarding the timing of payments to be made to the Beneficiaries hereunder. If an investment of Assets in Eligible Investments would not be authorized under the applicable trust laws of Ontario, the Trustee shall nevertheless be permitted to make an investment of the Assets in such Eligible Investments. The Trustee will have no liability for the diminution in the value of any investment in Eligible Investments made hereunder.

(e) ***Power to Dispose of Assets.*** The Trustee shall have the power to sell, convey, assign, transfer, exchange and in any other manner dispose of the Assets or any part or parts thereof free and clear of any and all trusts established under this Declaration, by public or private sale, for cash or on credit, with or without advertisement, and subject to such restrictions, stipulations, agreements and reservations as the Trustee in its sole and absolute discretion may consider appropriate or advisable, and to execute and deliver and perform any agreement, deed, conveyance, transfer or other document or instrument in connection with the foregoing.

(f) ***Power to Apply Assets and Proceeds to Make Distributions to Beneficiaries.*** The Trustee shall have the power to apply the Assets and the proceeds and income derived therefrom to make distributions to the Beneficiaries contemplated by Section 3, and to execute and deliver and perform any agreement, deed, conveyance, transfer or other document or instrument in connection therewith.

(g) ***Power to Delegate and to Appoint Agents, etc.*** The Trustee shall have the power to appoint, employ or contract with any Person as the Trustee in its sole and absolute discretion may consider appropriate or advisable in connection with the activities of the Trust. Without limiting the generality of the foregoing:

(i) the Trustee will have the power at any time and from time to time to appoint, employ or retain consultants, financial advisers, technical advisers, legal counsel, accountants, administrative services agents, implementation agents, insurers, insurance agents and insurance brokers, as the Trustee may require for the

purpose of discharging its duties hereunder and shall not be responsible for or for the actions of any of them, including to:

(A) act for and on behalf of the Trust in connection with any and all matters in any way relating to the negotiation, settlement, entering into, amending, performance and enforcement of the Transfer Payment Agreement, the Administrative Services Agreements, the Implementation Agreements, and any other agreements and contracts to which the Trust becomes a party in accordance with this Declaration;

(B) to provide or cause to be provided any or all kinds of administrative and other services in any way relating to the activities of the Trust;

(C) to act as attorney in fact, agent or trustee in the acquisition, holding, investment, application, sale or other disposition of the Assets and in the handling, prosecuting, defending or settling of any claims of or made against the Trust;

(D) to value the Assets and determine the net income of the Trust; and

(E) to make any filings, elections and submissions (including in respect of taxation matters) in connection with the Trust's compliance with applicable laws and regulatory requirements; and

(ii) the Trustee may pay remuneration and reimbursements from the Assets for services performed for it or on its behalf in the discharge of the trusts hereof without taxation for costs or fees of any counsel, solicitor or attorney.

Without limiting the foregoing, it is expected that the Board of Trustees will seek to enter into Implementation Agreements with Electricity Distributors for the purposes contemplated by the Permitted Delegations Annex, and on such terms and conditions (including terms and conditions as to the payment of reasonable fees and expenses) not inconsistent therewith as the Trustee, in its sole and absolute discretion, may consider appropriate or advisable.

(h) ***Power to Operate Accounts.*** The Trustee shall have the power to (i) open and operate accounts at any chartered bank, trust company or other financial institution in Canada or elsewhere, as the Trustee in its sole and absolute discretion may consider appropriate or advisable; (ii) deposit therein any moneys or securities forming part of the Assets whether or not such deposits will earn interest; (iii) withdraw such deposits at such times and in such manner as the Trustee may determine; (iv) draw, make, endorse, deposit or otherwise deal in cheques, bills of exchange, promissory notes, drafts and other kinds of instruments and securities; and (v) enter into contracts or agreements with any such chartered bank, trust company or other financial institution containing such terms and provisions as the Trustee, in its sole and absolute discretion, may consider appropriate or advisable. In connection therewith, the Trustee shall have no liability or responsibility for any loss which may occur by reason of the failure of any such chartered bank, trust company or other financial institution.

(i) ***Power to Collect, etc.*** The Trustee shall have the power to (i) collect, sue for, receive and give receipts for all sums of money or other property due to the Trust; (ii) consent to extensions

of time for payment or to the renewal of any securities or obligations; (iii) engage or intervene in, prosecute, defend, compound, compromise, abandon or adjust by arbitration or otherwise, any demands, claims, actions, suits or proceedings relating to the Trust or the Assets; (iv) exercise any and all remedies available to the Trustee under any agreement or as may otherwise be available, including any power of foreclosure or sale available at law; (v) in connection with any such foreclosure or sale, purchase or otherwise acquire title to any property and to convey good title thereto free of any and all trusts hereby established, or to take or retake possession of any property secured under any agreement or instrument; (vi) extend the time, with or without security, for the payment or delivery of any debts or property; (vii) execute and deliver releases, acquittances, discharges, agreements or other instruments related thereto; and (viii) pay or satisfy any debts or claims upon any evidence that the Trustee, in its sole and absolute discretion, may determine to be sufficient.

(j) ***Power to Obtain Insurance.*** The Trustee shall have the power to enter into contracts for or in relation to or otherwise obtain policies of insurance for the purpose of insuring the risks associated with the Trust, including to insure the Trustee (including the members of the Board of Trustees) against any risk of loss associated with assuming and performing the duties as Trustee. Without limiting the foregoing, it is expected that the Board of Trustees will obtain commercial general liability insurance from insurers having a secure A.M. Best rating of B+ or greater, or the equivalent, that in the opinion of the Recipient a prudent person similar to the Recipient would maintain, and having an inclusive limit of not less than $2,000,000 per occurrence and providing for contractual liability coverage.

(k) ***Power to Pay Trustee's Fees.*** The Original Trustee shall be entitled to be paid and receive the fees set forth in the Original Trustee's schedule of fees delivered as of or prior to the date hereof as compensation for its services under this Declaration, and to be reimbursed for its out-of-pocket expenses reasonably incurred, in each case from the Assets and without the approval of any Beneficiary or any court. The Original Trustee shall be entitled, in its sole and absolute discretion, to withdraw funds from time to time for such purpose from any account of the Trust. Members of the Board of Trustees shall be entitled to reimbursement for and in respect of their out-of-pocket expenses reasonably incurred in discharging their respective duties and obligations under this Declaration, in each case without the approval of any Beneficiary or any court, provided that the members of the Board of Trustees have general regard to the accountability principles set out in Schedule B to the Principles Annex.

(l) ***Power to Pay Taxes.*** The Trustee shall have the power to (i) pay, deduct, withhold or remit any taxes or assessments which are required by law to be paid, deducted, withheld or remitted together with or from any payment made by the Trustee; (ii) pay all taxes or assessments of whatever kind or nature imposed upon or against the Trust or the Trustee in connection with the Assets or any part thereof; (iii) collect and remit all taxes and assessments of whatever kind or nature required to be collected and remitted by the Trust or the Trustee in connection with their activities or the Assets or any part thereof; (iv) appeal, settle or compromise tax claims or liabilities; and (v) for the foregoing purposes, to make such returns, elections and submissions and do all such other acts and things as the Trustee, in its sole and absolute discretion, may consider appropriate or advisable.

(m) ***Power to Appoint Auditors.*** The Trustee shall have the power to select and appoint and discharge and re-appoint, in its sole and absolute discretion, an auditor or auditors of the Trust and to settle and pay the fees of any such auditor or auditors from any account of the Trust.

(n) ***Form of Accounts.*** The Trustee shall have the power to determine and change from time to time, in its sole and absolute discretion, the method or form in which the accounts of the Trust will be kept and shall not be required to keep or provide accounts in the form usually required by law to be kept or provided by trustees; provided that such method or form reasonably complies with generally accepted accounting principles in effect in Canada to the extent applicable.

(o) ***Title to Assets.*** The Trustee shall have the power to cause all or any part of the Assets to be held by or registered, in its sole and absolute discretion, in the name of any Person.

(p) ***Delegation of Discretion***. The Trustee shall have the power to delegate the right and power to exercise, or concur in the exercise of any discretion or power, conferred on the Trustee in this Declaration or conferred by law to any one or more of its directors, officers, employees, agents, representatives or to such other Person, as the Trustee, in its sole and absolute discretion, may think is appropriate or advisable, including to one or more Administrative Services Agents under an Administrative Services Agreement and to one or more Implementation Agents and their respective employees, officers and directors under a related Implementation Agreement entered into by the Trust substantially on the basis contemplated in the Permitted Delegations Annex. In particular, the Trustee shall have the power to accept, rely on and follow the recommendations of an Electricity Distributor made under and having regard to the Permitted Delegation Annex with respect to the identification of, and the determination of distributions (if any) to be made to, any Primary Beneficiary, except if and in so far as the Trustee has actual knowledge that (1) such Primary Beneficiary did not in fact satisfy the "Selection Factors" specified in the Principles Annex as of the applicable time of determination; and/or (ii) the amount recommended to be distributed to the Primary Beneficiary was not calculated in substantial compliance with, or was calculated in a manner that is manifestly contrary to the requirements set forth or contemplated in, the Permitted Delegation Annex or the applicable Implementation Agreement.

(q) ***Additional Powers.*** The Trustee shall have the power to perform and do all such other acts, to take such steps and to execute all such deeds, transfers, assignments, agreements and other documents and instruments as the Trustee, in its sole and absolute discretion, may consider appropriate or advisable for the carrying out of any of its powers hereunder or of any of the activities of the Trust as herein contemplated, or for the carrying out, promotion or advancement of the interests of the Trust, whether or not any of such acts, things, documents or instruments are herein expressly mentioned. Any good faith determination by the Trustee as to what is necessary, desirable or appropriate to carry out its powers or activities of the Trust as contemplated under this Declaration or to carry out, promote or advance the interests of the Trust shall be conclusive. Any construction of this Declaration or any determination as to the activities of the Trust or the existence of any power or authority hereunder made in good faith by the Trustee, relying upon the advice of counsel, shall be conclusive. In construing the provisions of this Declaration, there shall be a presumption in favour of a grant of power to the Trustee.

SECTION 5
CONCERNING THE TRUSTEE

5.1 Duty of Trustee

In performing its duties and exercising its powers under this Declaration, the Trustee shall act honestly, in good faith and with a view to the best interests of the Trust and the Beneficiaries and

shall exercise that degree of care, diligence and skill that a reasonably prudent trustee would exercise in comparable circumstances (the "**Standard of Care**"). The Trustee shall observe and act in accordance with the terms of, and shall observe and comply with the limitations and restrictions set forth in, this Declaration, including having due regard to the principles set forth in the Principles Annex. To the extent that the Trustee has so delegated any of its duties or powers, it shall be deemed to have satisfied the Standard of Care in respect of the subject matter of such delegation, subject to the Trustee's overall duty as a trustee to exercise prudent oversight in relation to such delegation. Unless required by law, the Trustee will not be required to give any security, bonds or sureties in any jurisdiction for the performance of any of its duties and obligations under this Declaration. The Trustee (including the individual members of the Board of Trustees) will not be required to devote its entire time to the trust activities.

5.2 Limitation of Liability

The Trustee shall not be personally liable in tort, contract or otherwise to any Beneficiary or any other Person for any loss or diminution in the value of the Assets, or for any action or failure to act on the part of the Trustee or any of its employees or agents or any other Person, and shall not be subject to any personal liability for any debts, liabilities, obligations, claims, demands, judgments, costs, charges or expenses incurred by or against the Trust, howsoever arising, and resort will be had solely to the Assets for the payment, performance or satisfaction thereof. No property or assets of the Trustee, owned in its personal capacity or otherwise, will be subject to levy, execution or other enforcement procedures with respect to any obligation under this Declaration. However, the foregoing limitations in this Section shall not apply where the Trustee has demonstrated gross negligence, bad faith, fraud or wilful misconduct.

5.3 Liability of Trustee under Contracts

Any document or instrument creating a liability or obligation of the Trust or of the Trustee will be conclusively deemed to have been executed by the Trustee only in its capacity as Trustee of the Trust and will be binding upon the Trustee only in its capacity as trustee hereunder and resort may not be had to, nor recourse or satisfaction be sought from, the property of the Trustee other than the Assets, whether owned by its in its personal capacity or in any other capacity other than in its capacity as Trustee of the Trust, or from its employees or agents, and in all cases resort will be had solely to the Assets for the payment, performance or satisfaction of any such liability or obligation. However, the foregoing limitations in this Section shall not apply where the Trustee has demonstrated gross negligence, bad faith, fraud or wilful misconduct. Each document or instrument creating a liability or obligation of the Trust or of the Trustee shall contain a provision providing for the aforesaid limitation of liability.

5.4 Funds of the Trustee

The Trustee shall not be required to expend or risk its own funds or otherwise incur financial liability in the performance of any of its duties hereunder, or in the exercise of any of its rights or powers.

5.5 Indemnification of Trustee

In addition to and without limiting any other protection hereunder or otherwise by law of the Trustee and its respective employees, agents, representatives and assigns (in this Section 5.5,

collectively, the "**Representatives**"), the Trustee and its respective Representatives shall be indemnified, defended and saved harmless out of the Assets from, against and in respect of any and all liabilities arising or related to actions taken or omitted to be taken by any agent of the Trustee, losses, claims (including any claim arising out of the assessment of any tax on income by a taxing authority), damages, penalties, fines, actions, suits, demands, levies, assessments, costs, charges, expenses and disbursements (including, without limitation, any and all legal and advisor fees and disbursements) (in this Section 5.5, collectively, the "**Liabilities**") of whatever kind or nature which may at any time be suffered by, imposed upon, incurred by or asserted against the Trustee and its Representatives, whether groundless or otherwise, howsoever arising from or out of any act, omission or error of the Trustee, in each case made in connection with its acting as Trustee hereunder, in each case except and to the extent that the Liabilities are a result from or are caused by gross negligence, wilful misconduct, bad faith or fraud. Further, except as provided in section 5.2, the Trustee shall not be liable to any Beneficiary for any loss or damage relating to any matter regarding the Trust, including any loss or diminution in value of the Assets. Notwithstanding any other provision hereof, the obligations provided for in this section 5.5 shall survive any termination of the Trust, whether by reason of removal or resignation of the Trustee, termination or discharge of this Declaration or otherwise.

5.6 Reliance upon Advice

Subject to section 5.1, in performing its duties and exercising its powers hereunder, the Trustee may rely and may act or not act, and shall be fully protected in relying and acting or not acting, upon (a) any statement, telecopy or other electronic means of communication, writing, notice, resolution, report, opinion or other document or conversation believed by it to be genuine and correct and to have been signed, sent or made by the proper Person; (b) any opinion or advice received or information obtained from auditors, solicitors, or other professional advisers, whether retained by the Trustee or otherwise, and shall not be responsible or held liable for any loss or damage resulting from so relying or acting or not acting; and (c) the advice and actions of any Administrative Services Agent or Implementation Agent, including in connection with the delegations and reliances contemplated under the Permitted Delegations Annex. For greater certainty, it shall not be necessary for the Trustee to ascertain whether or not the Persons who have executed, signed or otherwise issued, authenticated or receipted such papers, writings or documents (including any Administrative Services Agreement or any Implementation Agreement or any other contract entered into by the Trustee) have authority to do so or that they are the same Persons named therein or otherwise to pass upon any requirement of such papers, writing or documents that may be essential for their validity or effectiveness or upon the truth and acceptability.

5.7 Replacement of the Original Trustee

The Persons identified in the Trustee Replacement Annex are hereby appointed to comprise the Advisory Committee contemplated therein (the "**Advisory Committee**"). The Original Trustee shall promptly request that the Advisory Committee make recommendations with respect to the composition of the "Board of Trustees", as contemplated by the Trustee Replacement Annex. The Original Trustee shall have no duty or obligation to investigate the basis for any of the Advisory Committee's recommendations and may rely on such recommendations without any duty of enquiry, supervision or oversight with respect to the activities and decision-making processes adopted by the Advisory Committee in its discretion, in full satisfaction of the Original Trustee's Standard of Care with respect to such matters hereunder. Except where it is manifestly

apparent to the Original Trustee that the individuals recommended by the Advisory Committee to become members of such Board of Trustees are disqualified from so acting on the basis of manifest non-compliance with the "Selection Factors" set forth in the Trustee Replacement Annex, the Original Trustee shall appoint, as members of the Board of Trustees, the six (five voting and one non-voting) individuals recommended for appointment to the Board of Trustees by the Advisory Committee. If the Original Trustee declines to appoint any individual recommended by the Advisory Committee, the Original Trustee will promptly request that the Advisory Committee provide a further recommendation whom the Original Trustee shall appoint as a member of the Board of Trustees unless it is manifestly apparent to the Original Trustee that the individual so recommended is also disqualified from so acting on the basis of manifest non-compliance with the "Selection Factors" set forth in the Trustee Replacement Annex,. Upon the appointment of such six individuals pursuant to this provision and their agreement to act as members of the Board of Trustees, the Original Trustee shall be deemed to have resigned and shall cease to be a trustee (such resignation occurring on the "**Original Trustee Replacement Date**").

5.8 Rules and Procedures of the Board of Trustees

(a) ***Initial Requirements***. As soon as practicable and in any event no later than one month following the Original Trustee Replacement Date, the Board of Trustees is expected to meet to take such decisions and actions as they deem necessary to ensure the proper management and administration of the Trust. The date (and location if in person) of the initial meeting shall be determined by a majority of the Board of Trustees.

(b) ***Meetings.*** Subject to the Board of Trustees' discretion to make such rules and procedures that they may deem desirable, meetings of the Board of Trustees may be held at such time and place as the trustee members of the Board of Trustees may agree upon or as they may fix by resolution for the purpose or if the meeting is called as hereinafter mentioned then at such time as may be designated in the notice calling the meeting. A meeting of the Board of Trustees may be called at any time by any two members of the Board of Trustees by two Business Days' notice given to the members of the Board of Trustees. No notice of any Board of Trustees' meeting shall be necessary when a quorum is present if those comprising the quorum consent to the transaction of the affairs of the Trust and the absent trustee or trustees, if any, either before or after the meeting shall waive in writing notice of the meeting. Meetings of the Board of Trustees may be conducted in person, by telephone, or in such other manner as determined by the Board of Trustees. The Board of Trustees may elect a Chairperson.

(c) ***Quorum.*** At any meeting of the Board of Trustees, a majority of the voting members of the Board of Trustees shall be a quorum irrespective of the number of members in office. The decision of the majority of the voting members where quorum exists shall govern and shall be binding for all purposes and shall be acted upon and carried out in the same manner and with the same effect as if all the voted members concurred therein; provided always that in the case of equality of votes the Chairperson, if any, shall not be entitled to cast a second or deciding vote.

(d) ***Power to Adopt Rules and Procedures.*** The Board of Trustees may make such rules and procedures not inconsistent herewith as it may deem desirable for the proper management and administration of the Trust and the discharge of the responsibilities of the Board of Trustees.

(e) ***Replacement of Members of the Board of Trustees***. The Board of Trustees shall have the power to replace any vacancy arising following the Original Trustee Replacement Date according to such rules and procedures as they deem appropriate subject to compliance with the Selection Factors specified in Trustee Replacement Annex and having regard for such considerations necessary to ensure that the composition of the Board of Trustees will be able to discharge its responsibilities in respect of the Declaration. If necessary, the Board of Trustees may fill any vacancy by application to the Courts of Ontario in the event of an unfilled vacancy.

(f) ***Decisions of the Board of Trustees.*** Decisions and actions of the Board of Trustees shall be made by voting, with each individual voting member having one vote. Subject to quorum requirements, a majority vote shall be determinative in respect of such decisions and actions. Subject to quorum requirements, any decision or action taken by the majority of voting members will represent the decision or action of the Trustee, and not any member of the Board of Trustees.

(g) ***Conflicts of Interest.*** With respect to any matter before the Board of Trustees, to the extent of a conflict of interest, whether actual, perceived or potential, involving a member of the Board of Trustees' personal interests and a matter concerning the Trust, such member shall abstain from voting on the matter or taking any other discretionary action on the matter. For the purposes of the foregoing, no member of the Board of Trustees shall be deemed to have a conflict by reason only that the member holds any office or position with an Electricity Distributor, social services agency or governmental or quasi-governmental agency or entity (such as the Independent Electricity System Operator); provided, however, that in relation to any decision of the Board of Trustees pertaining specifically to a particular Electricity Distributor, any member of the Board of Trustees who is a director, officer or employee of the Electricity Distributor would be expected to recuse himself or herself from participating in deliberations, discussions or voting in respect of such decision.

(h) ***Expense Reimbursements to Members of the Board of Trustees.*** Members of the Board of Trustees shall be entitled to reimbursement for and in respect of their out-of-pocket expenses reasonably incurred in discharging their duties and obligations as members of the Board of Trustees. Members of the Board of Trustees shall serve without compensation.

5.9 Confidentiality

Notwithstanding the resignation or removal and discharge from the trusts and powers reposed in and conferred on the Trustee by this Declaration, or the termination of this Declaration, the Trustee so resigning or removed shall continue to treat as confidential all information relating to the Trust, the Assets and the Beneficiaries and shall only be entitled to make disclosures concerning such information if disclosure is required in the performance of the functions of the resigning or removed Trustee or is ordered by a court of competent jurisdiction or is otherwise required by law. The Trustee shall not be responsible or liable to any Person for any loss or damage arising out of or in any way sustained or incurred in any way relating to any such required disclosure. The obligations arising under this section 5.9 shall survive the termination of the Trust.

5.10 Vesting in Successor Trustee

Any successor trustee (including any reconstituted Board of Trustees) shall automatically become vested with the Assets and with the same powers, rights, duties, responsibilities and trusts as if it, he or she had originally been named as Trustee under this Declaration, without the requirement of any further instrument or act or conveyance, and the Trustee ceasing to act shall execute all such transfers and other documents and do all such other acts or things as may be necessary or desirable to assign, transfer, deliver to, and vest in, the successor trustee, upon the trusts expressed in this Declaration, all the Assets and all the rights, powers and trusts of the Trustee ceasing to act. The expense of any act, document, deed or other instrument or thing required under this Section 5.10, including for greater certainty, outstanding fees and unreimbursed expenses of the Trustee (including any member of the Board of Trustees) ceasing to act, shall be satisfied from the Assets.

5.11 Execution of Instruments

The Trustee shall have the power to execute all deeds, transfers, agreements, promissory notes and other instruments on behalf of the Trust. Such power may be exercised by any one or more Administrative Services Agents acting in accordance with any delegated right to do so pursuant to an applicable Administrative Services Agreement or by any one or more Implementation Agents acting in accordance with any delegated right to do so pursuant to an applicable Implementation Agreement, and any such execution of instrument by an Administrative Services Agent, acting in such capacity as agent of the Trust pursuant to the terms and conditions of an Administrative Services Agreement or by an Implementation Agent acting in such capacity as agent of the Trust pursuant to the terms and conditions of an Implementation Agreement shall in each case be deemed to be a proper execution of such instrument by the Trustee and shall be binding for all purposes on the Trust.

5.12 Decisions by the Trustee

If there is more than one Trustee, decisions of the Trust may be made by a majority of Trustees eligible to vote on the applicable matter. Whenever the Trustees are unable to agree in relation to the commission or omission of any act or howsoever in the execution of the Trust, the decision of a majority of such Trustees shall prevail.

SECTION 6
AMENDMENTS AND SUPPLEMENTS

6.1 Amendments

Subject to the requirements of the Transfer Payment Agreement, the Trustee shall have the power in its sole and absolute discretion from time to time without the approval of any Beneficiary or any court to amend, vary, supplement, replace or restate this Declaration in its entirety or any portion thereof; provided, however that it is expected that any amendment shall be consistent with the intent of the principles set forth in the Principles Annex and with the intended scope and effect of the permitted delegations and activities of any Implementation Agent pursuant to the Permitted Delegations Annex. Without in any way limiting the foregoing, any such amendments, variations, supplements, replacements or restatements may:

(a) add provisions for the replacement of or appointment of additional trustees to act with the Original Trustee prior to the Original Trustee Replacement Date;

(b) in the case of the Original Trustee, add provisions to those contemplated in the Trustee Replacement Annex in respect of the appointment of the members and the formation and empowerment of the Board of Trustees;

(c) in the case of the Original Trustee, vary the terms and requirements applicable to the duties, responsibilities, obligations, liabilities, indemnities, protections, limitations, restrictions, compensation, expense reimbursements and such other matters, in each case as the Advisory Committee may indicate are necessary to be made in order to attract and receive confirmation of appointment of appropriately qualified individuals that the Advisory Committee specifies are to be appointed as members of the Board of Trustees in accordance with its recommendations;

(d) add additional or replace existing Trustees;

(e) add to or reasonably clarify the principles set forth in the Principles Annex;

(f) add to or reasonably clarify the delegations and activities contemplated to be made in the Permitted Delegation Annex;

(g) include provisions for the management of the Trust by the Trustees, including the making of rules, requirements and procedures governing the decision-making of the Board of Trustees;

(h) add provisions for the replacement of members of the Board of Trustees (in addition to those provisions contemplated in section 5.7 and the Trustee Replacement Annex);

(i) provide for the engagement of any Person or Persons as managers, administrators or other service providers to the Trust, including any additional or replacement Administrative Services Agent or Implementation Agent or representative thereof;

(j) specify supplemental procedures for the identification of Primary Beneficiaries and the exchange of information with Electricity Distributors in connection with identifying such Primary Beneficiaries; or

(k) specify procedures for the transfer and transmission of funds from the Trust or any Implementation Agent acting on its behalf and with delegated responsibility over funds constituting Assets, to or for the benefit of, Beneficiaries or their designated representatives, payees or assignees.

6.2 Supplemental Declarations

The Trustee is authorized to execute any supplemental declaration of trust (including one or more amendments and restatements from time to time of this Declaration) to give effect to amendments to this Declaration made pursuant to section 6.1.

SECTION 7
TERMINATION

7.1 Duration

Subject to sections 7.2 and 7.3, the Trust will continue in full force and effect so long as there are any Assets and until all of the debts, liabilities and obligations of the Trust have been paid and satisfied in full.

7.2 Termination and Distribution of Assets

The Trustee shall terminate the Trust and wind up its affairs as soon as practicable after the Final Distribution Date. In connection with the termination of the Trust, the Trustee shall identify the Residual Beneficiaries and distribute or cause to be distributed the remaining Assets, in cash or in kind or partly in each, to the Residual Beneficiaries, in each case in accordance with section 3.3. Despite the foregoing, the Trust will only be terminated and wound up after the Trustee, in its sole and absolute discretion, determines that all debts, liabilities and obligations of the Trust have been paid or otherwise adequately provided for and satisfied and upon receipt of such releases, indemnities and discharges as the Trustee, relying on the opinion of counsel, deems necessary for the protection of the Beneficiaries and for its own protection.

7.3 Distribution of Assets on Final Distribution Date

If the Trust holds Assets on the Final Distribution Date, the Trustee shall pay or provide reserves for the payment, and otherwise shall satisfy, all debts, liabilities and obligations of the Trust and shall provide or arrange to provide such investigations, audits, releases, indemnities and discharges as the Trustee, relying on the opinion of counsel, deems necessary for the protection of the Beneficiaries and for its own protection. Thereafter, any remaining Assets shall be paid to the Residual Beneficiaries in accordance with section 3.3.

SECTION 8
ACCEPTANCE OF TRUSTS

8.1 Acceptance of Trusts

The Trustee hereby accepts the trusts and duties contained in this Declaration and agrees to perform the same upon the terms and conditions hereof until discharged therefrom.

PRINCIPLES ANNEX

The Trustee shall have regard to, but shall not be specifically bound by, the following principles in applying its discretion in relation to the administration of the Trust:

1. Identification of Primary Beneficiary Payees

1.1 Except in exceptional circumstances, a Primary Beneficiary would not be expected to receive a benefit from the Trust unless at the time of consideration it satisfies, in addition to the requirements contemplated in the definition of "Primary Beneficiary", each of the following criteria (the "**Selection Factors**"):

(i) it has a participant agreement with an applicable Electricity Distributor to undertake measures (its "**Energy Plan**") to improve the electricity efficiency and/or promote the conservation of electricity at its Ontario residence;

(ii) its Energy Plan involves one or more Eligible Measures, as may be designated by the Trustee from time to time from;

(iii) it confirms that:

1. the primary purpose of its Energy Plan is the conservation and efficient use by the Primary Beneficiary of electricity, and is not for the purposes of the Primary Beneficiary making a profit;

2. it would otherwise not have the financial resources to undertake the Eligible Measures included in its Energy Plan; and

3. it would otherwise not be eligible to receive amounts in respect of the Eligible Measures as a HAP Eligible Person;

(iv) it has demonstrated a need for financial assistance on the basis that its periodic electricity bills represent a financial burden, relative to its available financial resources; and

(v) such other criteria as the Trustee may determine, including based on the recommendations of Electricity Distributors or other knowledgeable Persons made on the basis and having regard to the delegations contemplated by the Permitted Delegations Annex or any applicable Implementation Agreement.

1.2 It is recognized that, in furthering the Purpose, an efficient basis upon which to allocate funds to the Primary Beneficiaries across different areas and regions within Ontario may be based on the areas and regions serviced by the Electricity Distributors operating within Ontario.

1.3 It would not be contrary to the Purposes if funds are made available by the Trustee to the Primary Beneficiaries unequally across different areas and regions within Ontario, and it is expected that in making such an unequal division it would be appropriate to have regard to:

(i) broad economic parameters of economic activity and the specific financial resources of the residents of the areas and regions, in each case as an indication of the relative need of such residents across the areas and regions;

(ii) electricity use and efficiency levels of residential electricity customers across the areas and regions;

(iii) specific regional indicators of economic weakness and need; and

(iv) such other factors as the Trustee may determine are relevant, including based on the submissions, advice and recommendations of Electricity Distributors or other knowledgeable Persons made on the basis and having regard to the delegations contemplated by the Permitted Delegations Annex or any applicable Implementation Agreement.

1.4 It is recognized that, in furthering the Purpose, the designated Electricity Distributor for an area or region in which a Primary Beneficiary resides would be expected to:

(i) be a reliable source for the purpose of assessing and confirming whether the Primary Beneficiary satisfies the Selection Factors;

(ii) be an efficient intermediary for the purpose of communicating with the Primary Beneficiary, including with respect to matters such as regarding the availability, terms, conditions and intended purposes of Program;

(iii) be able to facilitate an efficient payment of distribution determined to be made to or on behalf of the Primary Beneficiary, having regard to the Electricity Distributor's established practices, procedures and systems for dealing with its customers; and

(iv) have established contractual arrangements with the Primary Beneficiary that may apply to the protection and confidentiality of information provided by or respecting the Primary Beneficiary, which information may be useful in the consideration by the Electricity Distributor in its assessment of whether the Primary Beneficiary satisfies the Selection Factors, which information may not otherwise be available or readily accessible or verifiable by the Trustee.

1.5 It is recognized that, in furthering the Purpose, the Electricity Distributor for an area or region in which a Primary Beneficiary resides will have market and utilization information that may be useful in assessing the relative needs of Primary Beneficiaries within its area or region. Such information is expected to be relevant in assessing the extent to which one such Primary Beneficiary's financial needs and the merits of its Energy Plan are greater or more compelling than those of another such Primary Beneficiary, which comparison may be relevant to the extent that the funds allocable to the Primary Beneficiaries resident in the area or region are otherwise insufficient to meet the requests for funding by all such Primary Beneficiaries.

1.6 Accordingly, it is recognized that, in furthering the Purpose, it is consistent with the Purpose that the recommendations of Electricity Distributors be utilized and relied upon

by the Trustee to guide the process of identifying particular Primary Beneficiaries in making distributions to the Primary Beneficiaries.

1.7 If an Electricity Distributor for a particular area or region is unable or unwilling to assess or confirm the application of the Selection Factors to Primary Beneficiaries residing in the area or region or to make recommendations in relation to such matters, one or more of the following may provide a suitable alternative source of information and for information gathering, assessment and confirmation purposes in relation to such area or region:

(i) other Electricity Distributors operating in adjacent or other areas or regions in Ontario;

(ii) the Ontario Energy Board;

(iii) the Independent Electricity System Operator; and

(iv) anyone else having relevant expertise and access to information regarding the electricity market of the Province, in each case as may be considered relevant by the Trustee.

1.8 To the extent that privacy law or other legal requirements limit an Electricity Distributor from providing or making available specific information respecting the application of the Selection Factors to a particular Primary Beneficiary or group of Primary Beneficiaries, it is recognized that, in furthering the Purpose, it may be appropriate to redact or make generic affected information regarding such Primary Beneficiary in connection with the identification and confirmation of a Primary Beneficiary's eligibility and participation in the Program. If such limitations or restrictions would limit an Electricity Distributor from providing or confirming the name of a particular Primary Beneficiary to the Trustee, then it should be sufficient that such information may be obtained or disseminated on a confidential basis if and when required by the Trustee for the proper administration of the Trust and on that basis such impediments should not disqualify a Primary Beneficiary from participating in the benefits of the Program, provided that the confidential record-keeping of the Electricity Distributor would be available in connection with the application of any applicable legal process predicated on the identification of such Primary Beneficiary for the purposes of substantiating its rights as a Primary Beneficiary of the Trust or as to the validity or subsistence of the Trust.

2. Eligible Measures

2.1 It is expected that the Trust will identify eligible measures that, taking into consideration the principles set forth in the Principles Annex, have regard to the following (the "**Measures Factors**"):

(i) is the measure generally expected to result in reduced electricity consumption by a Primary Beneficiary if properly installed and used;

(ii) is the measure recognized under another Provincial program as being appropriate for achieving electricity conservation among a population analogous to the Primary Beneficiaries;

(iii) does the measure present any unacceptable health or safety considerations, either with respect to the Primary Beneficiary, a party providing or installing the measure, or the physical environment;

(iv) is the measure broadly available to residents across different areas and regions of the Province; or

(v) is the measure a requirement or precursor to another measure, the other measure being one which meets any of the other Measures Factors.

2.2 In identifying and applying the Measures Factors, Electricity Distributors would be expected to have expertise in assessing the suitability of efficiency and conservation measures in their respective areas and regions, which may differ across areas and regions across the Province based on factors (among other things) such as the climate, geography, density, electricity infrastructure, residential structures, and electricity use rates applicable within such areas or regions.

2.3 The measures specified in Schedule A to this Principles Annex may initially be considered to be consistent with the Measures Factors (subject to change as contemplated under the Permitted Delegations Annex).

3. Promotion of the Program

3.1 It is expected that the Trustee will undertake or engage others to undertake diligent efforts to promote the availability, terms and benefits of the Program to Primary Beneficiaries, including by establishing consistent communications through the Electricity Distributors.

3.2 It is expected that the Trustee will acknowledge the financial support of the Province in connection with the establishment and the funding for the Program, including in any external communications to or marketing directed at the Electricity Distributors and the Primary and Residual Beneficiaries. In the Trustee's delegation of any duties or powers to the Electricity Distributors through Implementation Agreements it is expected that Electricity Distributors will acknowledge the financial support of the Province in connection with the program including in any communications or marketing to Primary Beneficiaries.

4. Conduct of the Trust and the Program

4.1 It is expected that administrative expenses of the Board of Trustees and its members, including any expenses relating to the Trust, to the establishment of the Trust and any expenses related to the implementation and operation of the Program, including by or through Electricity Distributors and other relevant entities, will be recognized and subject to reimbursement on a basis that is substantially consistent with the accountability principles set out in Schedule B to this Principles Annex.

4.2 The Trustee is expected to conduct its activities in a manner that complies in all material respects with the Transfer Payment Agreement, including to:

(i) act prudently and in furtherance of the Purpose;

(ii) report not less frequently than annually the results of its activities for information purposes to the Province in connection with the Program;

(iii) comply with the Province's request for any independent verification or audit if determined to be necessary or appropriate by the Province;

(iv) return Assets that have not been distributed if it is determined that the Trustee has breached its Standard of Care in discharging its material duties under the Declaration, and has not cured such material breach despite having been given a reasonable opportunity by the Province to do so in light of the circumstances of such material breach, with the result that all or a significant part of the Assets have not been or are not being applied and distributed in furtherance of the Purpose or are being applied and distributed in a manner that is directly contrary or without regard to the Purpose.

4.3 Electricity Distributors are not intended to directly profit from distributions of funds made from the Trust, although it is recognized that the objectives of electricity efficiency and conservation of Primary Beneficiaries located in the service area or region of an Electricity Distributor, and the cost savings and improved credit worthiness of such Primary Beneficiaries, may be financially beneficial to the Electricity Distributor.

4.4 Distributions from the Trust are intended to allow receiving Primary Beneficiaries to undertake Eligible Measures at no or minimal personal cost.

4.5 Without in any way limiting the discretion of the Board of Trustees to extend the period during which the benefits of the Program may be available to the Primary Beneficiaries, up to and including the Final Distribution Date, it is expected that the Trust Assets would be distributed to Primary Beneficiaries during the period from the Original Trustee Replacement Date to April 30, 2019.

SCHEDULE A TO THE PRINCIPLES ANNEX
INDICATIVE ELIGIBLE MEASURES[1]

Initial Specified Measures
Block Heater Timer (just timer) – rated for outdoor use, have at least a 15 amp/1800 watt capacity, be cold weather resistant, bear a C-UL or CSA certification mark
Power bar with integrated timer, and switched power outlets, four each for a total of 8 outlets, have a total capacity of 15 amps. The switched outlets must remain "live", independent of timer settings, so long as the power bar itself remains switched on. The power bar must bear either a C-UL or CSA certification mark.
Efficient Showerheads (standard) - rated at no more than 4.8 Lpm (1.25 U.S. gpm) and be of the laminar flow type (non-aerating).
Efficient Showerhead (handheld) - rated at no more than 4.8 Lpm (1.25 U.S. gpm) and be of the laminar flow type (non-aerating).
Efficient Aerators (kitchen) - rated no more than 5.7 Lpm (1.5 U.S. gpm), dual threaded to allow installation in both thread type faucets, swivel type with pause lever.
Efficient Aerators (bathroom) - rated no more than 3.8 Lpm (1.0 U.S. gpm), be dual threaded to allow installation in both thread type faucets.
Hot Water Tank Pipe Insulation - $^1/_2$" inside diameter – foam, meets ASTM –C547-00, minimum $^3/_4$" thick
Hot Water Tank Pipe Insulation - $^3/_4$ " inside diameter - – foam, meets ASTM –C547-00, minimum $^3/_4$" thick
Hot Water Tank Insulation - fibreglass R10 (fits up to a 60 gal tank) – not bubble wrap
≤11W ENERGY STAR® Qualified LED A Shape (60W) (minimum 600 Lumen output) (Formerly: 7W – 11W ENERGY STAR® Qualified LED A Shape (60W))

[1] These measures are indicative. Eligible measures added to HAP during the administration of the Trust may also be appropriately considered relevant by the Trustee.

Initial Specified Measures
≤14W ENERGY STAR® Qualified LED A Shape (75W) (minimum 800 Lumen output) (Formerly: 10W – 14W ENERGY STAR® Qualified LED A Shape (75W))
≤23W ENERGY STAR® Qualified LED A Shape (100W) (minimum 1600 Lumen output) (Formerly:17W – 23W ENERGY STAR® Qualified LED A Shape (100W))
≤16W ENERGY STAR® Qualified LED PAR 20 (minimum 600 Lumen output) (Formerly: 8W – 12W ENERGY STAR® Qualified LED PAR 20)
≤16W ENERGY STAR® Qualified LED PAR30 & PAR38 (minimum 600 Lumen output) (Formerly: 8W – 12W ENERGY STAR® Qualified LED PAR 30)
≤23W ENERGY STAR® Qualified LED PAR (minimum 1100 Lumen output) (Formerly: 14W – 18W ENERGY STAR® Qualified LED PAR 38)
≤6W ENERGY STAR® Qualified LED MR 16 / PAR 16 (minimum 250 Lumen output) (Formerly: 7W – 10W ENERGY STAR®
Qualified LED MR 16 / PAR 16 - GU 10 Base)
≤11W ENERGY STAR® Qualified LED MR 16 (minimum 400 Lumen output) (Formerly: 7W – 12W ENERGY STAR® Qualified LED MR 16 GU 5.3 Base)
ENERGY STAR® LED Wet Location Rated PAR lamp ≤ 23 Watt (minimum 1100 Lumen output)
Recessed Downlight Fixture including LED with Light Output >600 and <800 lumens (Retrofit Measure List)
Recessed Downlight Fixture including LED with Light Output >800 lumens (Retrofit Measure List)
Indoor Drying Rack

Extended Measures
Replace refrigerator with ENERGY STAR qualified refrigerator - 15.5 - 16.9 cubic foot top freezer, automatic defrost, refrigerator/ freezer, no through the door ice service
Replace refrigerator with ENERGY STAR qualified refrigerator - 17.0 - 18.4 cubic foot top freezer, automatic defrost, refrigerator/ freezer, no through the door ice service
Replace refrigerator with a refrigerator that has a consumption level of less than 425 kwh, 10 – 12.5 cubic foot top freezer, automatic defrost, refrigerator freezer, no through the door ice service
Replace freezer with ENERGY STAR qualified freezer - 12-14.4 cubic foot freezer
Replace freezer with ENERGY STAR qualified freezer - 14.5 - 16.0 cubic foot freezer
Replace existing window air conditioner with ENERGY STAR qualified window air conditioner - 6,000 – 7,999 BTU/hr with C-UL or CSA certification mark
Replace existing window air conditioner with ENERGY STAR qualified window air conditioner - 8,000 – 9,999 BTU/hr with C-UL or CSA certification mark
Replace existing window air conditioner with ENERGY STAR qualified window air conditioner - 10,000 – 12,000 BTU/hr with C-UL or CSA certification mark
Replace existing dehumidifier with ENERGY STAR qualified portable dehumidifier - 14.2 - 21.2 l/day (30-44.9 pints/day) dehumidifier
Replace existing dehumidifier with ENERGY STAR qualified portable dehumidifier - 21.3 - 25.4 l/day (45-53.9 pints/day) dehumidifier
Replace existing dehumidifier with ENERGY STAR qualified portable dehumidifier - 25.5 - 35.5 l/day (54-75 pints/day) dehumidifier
Programmable Thermostat – line voltage – meets CAN/CSA-C828-06 standard, minimum performance: Droop: 1.5°C, Differential: 0.5°C, Precision 0% within 0.5°C of the original set point of 22°C
Programmable Thermostat – low voltage - meets CAN/CSA-C828-06 standard, minimum performance: Droop: 1.5°C, Differential: 0.5°C, Precision 0% within 0.5°C of the original set point of 22°C

Weatherization Measures
Comprehensive Draft proofing (caulking, foam and weather stripping, and application of same) – lifespan of 20 years plus If one or two component polyurethane foams are used, the products and installations must conform to: • CAN/ULC-S710.1 Standard For Thermal Insulation – Bead Applied One-Component Polyurethane Air Sealant Foam, Part 1: Material Specification. • CAN/ULC-S710.2 Standard For Thermal Insulation – Bead Applied One-Component Polyurethane Air Sealant Foam, Part 2: Application. • CAN/ULC-S711.1 Standard for Thermal Insulation – Bead Applied Two-Component Polyurethane Air Sealant Foam, Part 1: Material Specification • CAN/ULC-S711.2 Standard for Thermal Insulation – Bead Applied Two-Component Polyurethane Air Sealant Foam, Part 1: Material Specification, and Part 2: Application. **Attic Insulation (including installation):**
cellulose: CAN/ULC-S703-01 Amendment 1 - Cellulose Fibre Insulation (CFI) for Buildings OR 2) Mineral Fibre: CAN-ULC-S702-97-EN Standard for Thermal Insulation Mineral Fibre

Weatherization Measures

SCHEDULE B TO THE PRINCIPLES ANNEX
PRINCIPLES APPLICABLE TO EXPENSE REIMBURSEMENTS

1. Funds should be used prudently and responsibly with a focus on accountability and transparency.

2. Expenses for travel, meals and hospitality support the Purpose.

3. Plans for travel, meals, accommodation and hospitality are necessary and economical with due regard for health and safety.

4. Legitimate authorized expenses incurred during the course of furthering the Purpose may be reimbursed.

5. Best practices should be followed, including:

    a. Prior approval to incur expenses is appropriately obtained.

    b. Other options for meetings are always considered before travel is approved, including audio or video conferencing.

    c. Corporate travel cards are to be used for authorized business travel and business related expenses.

PERMITTED DELEGATION ANNEX

1. Under section 4.2(g) of the Declaration, the Trustee has the power to: (a) appoint, employ or retain Implementation Agents for the purpose of discharging its duties and obligations under the Declaration; and (b) enter into, perform, enforce and amend Implementation Agreements.

2. In accordance with section 4.2(g) of the Declaration, consistent with the principles set forth in the Principles Annex, the Trustee or its agent will seek to enter into one or more Implementation Agreements with individual Electricity Distributors under which the Electricity Distributors will act as Implementation Agents to the Trustee. In this manner, the Trustee will delegate certain of its powers and duties to the Electricity Distributors.

3. Under section 5.1 of the Declaration, to the extent the Trustee has delegated any of its duties or powers, it shall be deemed to have satisfied the Standard of Care in respect of the subject matter of such delegation, subject to the Trustee's overall duty to exercise prudent oversight thereof. The Trustee is entitled to rely on an Electricity Distributor to discharge the duties delegated to it, as Implementation Agent, pursuant to an Implementation Agreement as described in this Annex.

4. Accordingly, and without limiting the Trustee's right to delegate under the Declaration and its other rights, powers and discretion as Trustee, the Trustee will be permitted to, and is expected to seek to, enter into Implementation Agreements with Electricity Distributors in order to further the Purpose. Without limiting the Trustee's discretion to negotiate and settle the terms and conditions of such Implementation Agreements, it is expected that such Implementation Agreements will include customary terms and conditions for arrangements of this type and, in addition, would (subject to the acceptance and agreement of the applicable Electricity Distributor counterparty) address the following points in particular:

    a. **Identification of Applicable Primary Beneficiary Payees and Determination of Individual Distribution Amounts**

        i. Each Electricity Distributor would make an initial assessment of the financial needs of Primary Beneficiaries within its designated service area or region, having regard to the Selection Factors set forth in section 1.3 of the Principles Annex, together with applicable economic data, in order to prepare and provide to the Trustee an estimate of the number of Primary Beneficiaries who the Electricity Distributor reasonably expects would satisfy the Selection Factors.

        ii. Each Electricity Distributor would make an initial assessment of the measures it would recommend be included as Eligible Measures, having regard to the Measures Factors set forth in section 2.1 of the Principles Annex, in order to prepare and provide to the Trustee an estimate of the average cost per Primary Beneficiary Payee (as defined below) of such Eligible Measures that the Electricity Distributor reasonably expects would apply in respect of Primary Beneficiaries resident in its service area or region.

        iii. Based on the product of (i) and (ii), above, and such other considerations as it considers to be directly relevant, each Electricity Distributor would make a

written recommendation to the Trustee regarding the aggregate funding amount that the Electricity Distributor anticipates would be utilized under the Program by the Primary Beneficiaries resident in its service area or region (the "**Local Funding Estimate**"). Such recommendation would be accompanied, when submitted to the Trustee, by a detailed explanation regarding the assumptions, financial parameters, suitability considerations and other information underlying the Local Funding Estimate (including the type of information contemplated by the Selections Factors and the Measures Factors) which would be relied upon by the Trustee in its assessment regarding the allocation of available funding to or for the benefit of the Primary Beneficiaries across the specified areas and regions of Ontario.

iv. The Trustee would inform the Electricity Distributor regarding the aggregate of the amount determined by the Trustee to be made available under the Program for Primary Beneficiaries in the Electricity Distributor's designated service area or region (for each Electricity Distributor, its "**Maximum Electricity Distributor Allocation**") and as to any maximum amount that may be paid to or for the benefit of any single Primary Beneficiary located in the service area or region of the Electricity Distributor (the "**Maximum Primary Beneficiary Amount**"). The Maximum Electricity Distributor Allocation and Maximum Primary Beneficiary Amount may vary between areas and regions, among the Primary Beneficiaries within such areas and regions, and may be increased by the Trustee from time to time in its discretion.

v. Each Electricity Distributor would apply the principles set forth under "Identification of Primary Beneficiary Payees" in the Principles Annex to identify and make recommendations to the Trustee regarding the amount of funds (if any) to be distributed to or for the benefit of Primary Beneficiaries resident within its service area or region from time to time (the "**Primary Beneficiary Payees**").

vi. Each Electricity Distributor would ensure that the aggregate of the amounts it recommends be distributed to or for the benefit of Primary Beneficiary Payees from time to time does not exceed (1) its Maximum Electricity Distributor Allocation and (2) for any single Primary Beneficiary located in the service area or region of the Electricity Distributor, the lesser of (x) the applicable Maximum Primary Beneficiary Amount and (y) the estimated costs (including any applicable taxes, but excluding any amount payable to the Electricity Distributor by or on behalf of the Primary Beneficiary) to be incurred by or on behalf of such Primary Beneficiary (whether or not such costs have been paid or remain outstanding) in respect of Eligible Measures applied or to be applied in respect of the Primary Beneficiary's Ontario residence.

vii. The Trustee would provide written confirmation to each Electricity Distributor:

1. Either (x) that the recommendations specified of the Electricity Distributor in clause (v), above, have been accepted, or (y) as to the specific reasons for any non-acceptance; and

2. The amount of the distributions to be paid to or for the benefit of each Primary Beneficiary Payee that is resident in the Electricity Distributor's service area or region.

viii. With respect to each Primary Beneficiary resident in a Electricity Distributor's service area or region that is confirmed as a Primary Beneficiary Payee, the Electricity Distributor would provide the Trustee written confirmation as to:

1. The identity of such Primary Beneficiary Payee; and

2. The amount of the distribution paid to or for the benefit of such Primary Beneficiary Payee.

ix. If the amount of a distribution to be made to a Primary Beneficiary Payee is based on the estimated costs to be incurred by or on behalf of such Primary Beneficiary and, prior to making the distribution to the Primary Beneficiary Payee, the Electricity Distributor determines that the actual costs (including any applicable taxes but excluding any amount payable to the Electricity Distributor by or on behalf of the Primary Beneficiary) incurred or to be incurred by or on behalf of such Primary Beneficiary in respect of Eligible Measures applied or to be applied in respect of the Primary Beneficiary's Ontario residence has or would be less than such estimated costs, then the amount to be distributed to the Primary Beneficiary shall be based on such actual costs.

b. **Making of Distributions to Primary Beneficiaries**

i. It is expected that promptly after the Trustee confirms the identity of a Primary Beneficiary Payee resident in an Electricity Distributor's service area or region and the amount of the distribution to be paid to or for the benefit of such Primary Beneficiary Payee, the Trustee would arrange for payment to or on the direction of the Electricity Distributor of an amount equal to the amount of such distribution.

ii. It is expected that promptly upon receipt of funds in respect of a distribution to be made to a Primary Beneficiary Payee, the Electricity Distributor would arrange for payment of the full amount of such distribution to or for the benefit of the Primary Beneficiary Payee (including by direct payment to a third party of, or as a reimbursement or rebate of, the costs of applicable Eligible Measures installed at the residence of and for the benefit of the Primary Beneficiary Payee), without reduction or set-off by the Electricity Distributor.

iii. If the amount paid to an Electricity Distributor in respect of a distribution to be made to a Primary Beneficiary exceeds the actual amount of the

distribution made to or on behalf of the Primary Beneficiary, it is expected that the Trustee would require Electricity Distributor to return such excess to the Trustee, whereupon the proceeds of such returned amount shall continue to form part of the Assets.

c. **Establishment of Operational, Administrative, Record-Keeping and Other Systems and Policies by Electricity Distributors to facilitate the Program**

i. It is expected that the Electricity Distributor would establish such operational, administrative, record-keeping and other systems and policies as are necessary to facilitate the Program and perform its duties under the Implementation Agreement, including systems or policies to: identify Primary Beneficiary Payees; comply with applicable privacy and regulatory laws; communicate with Primary Beneficiaries on behalf of the Trust; assess Eligible Measures; determine the Local Funding Estimate; monitor its recommendations to the Trustee against its Maximum Electricity Distributor Allocation and the Maximum Primary Beneficiary Amount; receive funds from the Trust in respect of distributions to the Primary Beneficiary Payees and transfer such funds to the appropriate recipients for the benefit of the Primary Beneficiary Payees; preparation and timely delivery to Primary Beneficiary Payees of such documents as are required by the *Income Tax Act* (Canada); and create and maintain records in respect of the foregoing.

ii. The Electricity Distributor would set up a separate bank account for the purpose of receiving funds from the Trust in respect of distributions to the Primary Beneficiary Payees and the transfer of such funds to the appropriate recipients for the benefit of the Primary Beneficiary Payees.

d. **Reporting, Record-Keeping, Inspection and Disclosure and Compliance Matters**

i. The Electricity Distributor would provide record-keeping, clerical and bookkeeping services relating to all matters relating to its recommendations and the performance of its other duties and obligations under its Implementation Agreement.

ii. The Electricity Distributor would keep and maintain all financial records and non-financial documents and records relating to the provision of services under its Implementation Agreement.

iii. The Electricity Distributor would provide to the Trustee quarterly and annual reports ("**Reports**") for the duration of its Implementation Agreement. Such Reports would set out, among other things, the amounts of the distributions paid to or for the benefit of applicable Primary Beneficiary Payees, the average distribution amount per such Primary Beneficiary Payee, the Eligible Measures for which distributions have been made, and the uptake of energy efficiency measures.

iv. The Electricity Distributor would agree to provide to the Trustee such information as is necessary for the Trustee to (v) comply with applicable law;

(w) prepare financial statements for the Trust; (x) prepare and submit such documents as are required under the *Income Tax Act* (Canada); (y) comply with the Trust's applicable obligations under the Transfer Payment Agreement; and (z) such other matters as the Trustee reasonably requests.

v. The Trustee, its authorized representatives or an independent auditor would be permitted to, at its own expense, on twenty-four hours' notice to the Electricity Distributor and during normal business hours, inspect the records of and information respecting the Electricity Distributor to confirm its compliance with the Implementation Agreement, including regarding its processes for recommending the Primary Beneficiary Payees and their respective distribution amounts and regarding the delivery of Trust funds on behalf of the Trustee to or for the benefit of the Primary Beneficiary Payees.

e. **Standard of Care**

i. The Electricity Distributor would be required to agree to perform its duties provided under the Implementation Agreement exercising the degree of care, diligence and skill that a reasonably prudent Person would exercise in comparable circumstances.

ii. In performing its duties under the Implementation Agreement (including the recommending of Primary Beneficiary Payees to the Trustee), the Electricity Distributor would be required to agree to seek to avoid actual, potential or perceived conflicts of interest.

iii. The Electricity Distributor would be required to agree that it would not, in performing its obligations under the Implementation Agreement, take any action which it knows or ought reasonably to know would cause the Trustee or the Trust to be in violation of any law, rule or regulation applicable to it.

f. **Expenses**

The Electricity Distributor would be eligible to receive reasonable compensation and reimbursement of its actual out-of-pocket costs associated with the performance of its duties and obligations under the Implementation Agreement, subject to adherence with the accountability principles set out in Schedule B to the Principles Annex. Such compensation amounts and reimbursement entitlements would be specified in the Implementation Agreement.

g. **Representations**

The Electricity Distributor would make customary representations to the Trust regarding, among other things, its legal capacity; authorization; non-contravention of law or material contract to which it is a party; and the enforceability of the Implementation Agreement.

h. **Indemnification**

The Electricity Distributor would be required to agree to provide customary indemnities to the Trust and the Trustee from and against claims, damages and liabilities which the Trust or Trustee may suffer or incur as the result of any breach of the Implementation Agreement by the Electricity Distributor or its representatives.

TRUSTEE REPLACEMENT ANNEX

1. The Advisory Committee shall consist of the following individuals:

   Brian Bentz, President and Chief Executive Officer at Alectra

   Bryce Conrad, President and Chief Executive Officer at Hydro Ottawa

   Robert Mace, President and Chief Executive Officer at Thunder Bay Hydro

   Ferio Pugliese, Executive Vice President Customer Care and Corporate Affairs at Hydro One

   Terry Young, Vice President Conservation and Corporate Relations at the Independent Electricity System Operator

2. In the event any member of the Advisory Committee resigns or is unable to act, it is expected that the remaining members of the Advisory Committee would appoint another resident of Ontario as a replacement.

3. On or before May 31, 2017, the Advisory Committee shall identify six residents of Ontario who have expressed that they are willing to act as members of the Board of Trustees and who, individually and collectively, satisfy the following criteria (collectively, the "**Selection Factors**"):

   a) each member demonstrates an understanding of the electricity sector including the electricity distribution sector;

   b) each member demonstrates an expertise in conservation and low income programs;

   c) three of the identified individuals will be representatives from separate electricity distributors, two individuals will be representatives from separate social services agencies and one individual member, who will be a non-voting member, will be an employee or representative of the Government of Ontario; and

   d) it is expected that representation by the Government of Ontario will be non-controlling.

4. If the Advisory Committee determines that changes to the Declaration (including to this Trustee Replacement Annex) are necessary in order to (a) replace, or appoint additional trustees to act with, the Original Trustee prior to the Original Trustee Replacement Date or (b) attract and receive confirmation of appointment of appropriately qualified individuals that the Advisory Committee believes would be suitable candidates to serve as members of the Board of Trustees, the Advisory Committee shall make recommendations regarding such necessary changes, including without limitation in respect of (i) any necessary limitations on the nature or scope of the appointment of the members of the Board of Trustees, (ii) the formation and empowerment of the Board of Trustees, and (iii) the duties, responsibilities, obligations, liabilities, indemnities, protections, limitations, restrictions,

compensation, expense reimbursement entitlements of members of the Board of Trustees.

5. The Advisory Committee shall recommend that the Original Trustee appoint the individuals so identified to become the initial members of the Board of Trustees pursuant to section 5.7 of the Declaration.

6. If any of the individuals recommended under paragraph 4 or under this paragraph are not accepted and appointed by the Original Trustee pursuant to section 5.7 of the Declaration, the Advisory Committee shall forthwith identify and recommend an alternative individual or individuals willing to act and whose presence as a member of the Board of Trustees would result in the Trustee collectively satisfying the criteria in paragraph 3 above.

7. Upon the appointment of six trustees (five voting and one non-voting) pursuant to section 5.7 of the Declaration, the Advisory Committee will be functus.

ONTARIO TRANSFER PAYMENT AGREEMENT

THE AGREEMENT, effective as of the 23rd day of March, 2017 (the **"Effective Date"**)

B E T W E E N :

Her Majesty the Queen in right of Ontario
as represented by the Minister of Energy

(the "Province")

- and -

Computershare Trust Company of Canada, in its capacity as trustee of Affordability Fund Trust

(together with its successors and assigns, the "Recipient" and, together with the Province, the "Parties")

BACKGROUND

Computershare Trust Company of Canada is the original trustee of the Affordability Fund Trust.

The Province wishes to provide Funds to the Recipient to be held, invested, applied and distributed in accordance with the terms of the Declaration of Trust (defined below), in furtherance of the Purpose (as defined in the Declaration of Trust), including having regard to the Principles set forth in Annex A.

CONSIDERATION

In consideration of the mutual covenants and agreements contained in this Agreement and for other good and valuable consideration, the receipt and sufficiency of which is expressly acknowledged, the Parties agree as follows:

ENTIRE AGREEMENT

This agreement (as amended, restated, supplemented or otherwise modified from time to time, the **"Agreement"**), including:

Schedule "A" - General Terms and Conditions
Schedule "B" - Project Specific Information
Schedule "C" - Project - Certain Obligations of the Recipient
Schedule "D" - Budget
Schedule "E" - Payment Plan
Schedule "F" - Reporting
Annex "A" - Principles, and
any amending agreement entered into as provided for below,

constitutes the entire agreement between the Parties with respect to the subject matter contained in this Agreement and supersedes all prior oral or written representations and agreements.

COUNTERPARTS

The Agreement may be executed in any number of counterparts, each of which will be deemed an original, but all of which together will constitute one and the same instrument.

AMENDING THE AGREEMENT

The Agreement may only be amended by a written agreement duly executed by the Parties.

ACKNOWLEDGEMENT

The Recipient:

(a) acknowledges that it has read and understands the provisions contained in the entire Agreement; and

(b) agrees to be bound by the terms and conditions contained in the entire Agreement.

IN WITNESS WHEREOF, the Parties have executed the Agreement on the dates set out below.

SCHEDULE "A"
GENERAL TERMS AND CONDITIONS

1.0 INTERPRETATION AND DEFINITIONS

1.1 Interpretation. For the purposes of interpretation:

(a) words in the singular include the plural and vice-versa;

(b) words in one gender include all genders;

(c) the headings do not form part of the Agreement; they are for reference only and will not affect the interpretation of the Agreement;

(d) any reference to dollars or currency will be in Canadian dollars and currency;

(e) "include", "includes" and "including" denote that the subsequent list is not exhaustive;

(f) where any reference is made in the Agreement to an act to be performed by or for or on behalf of the Affordability Fund Trust, such reference shall be construed and applied for all purposes as if it referred to an act to be performed by or for or on behalf of the Recipient in its capacity as trustee of the Affordability Fund Trust, and, where any reference is made in the Agreement to an act to be performed by or for or on behalf of the Recipient, such reference shall be construed and applied for all purposes as if it referred to an act to be performed by or for or on behalf of the Recipient in its capacity as trustee of the Affordability Fund Trust; and

(g) it is intended that the transfer of the Funds to the Recipient will be a transfer made to a trust that is not controlled by the Province (as the term "control" is used in *Government Reporting Entity* at paragraphs PS 1300.07-.24), and so if a term or condition of the Agreement is determined to conflict with the requirements applicable to the Province recording the transfers to the Recipient of Funds contemplated hereunder as an expense incurred by the Province on the date of the transfer of Funds under the Agreement otherwise in connection with activities undertaken by the Province with such a non-controlled trust, then such term or condition shall be given a meaning and shall have an effect insofar as it is possible to interpret such term or condition in a manner that eliminates such conflict while preserving the other provisions of the Agreement and furthering the Purpose.

1.2 Definitions. In the Agreement, the following terms will have the following meanings:

"Administrative Services Agent" has the meaning given such term in the Declaration of Trust.

"Affordability Fund Trust" means the trust established and governed by the Declaration of Trust, and for greater certainty includes such trust operating under any other name that may be designated from time to time by the Recipient in accordance with the Declaration of Trust.

"BPSAA" means the Broader Public Sector Accountability Act, 2010 (Ontario).

"**Beneficiary**" has the meaning given to such term in the Declaration of Trust.

"Budget" means the Recipient's budget attached to the Agreement as Schedule "D".

"Business Day" means any working day, Monday to Friday inclusive, excluding statutory and other holidays, namely: New Year's Day; Family Day; Good Friday; Easter Monday; Victoria Day; Canada Day; Civic Holiday; Labour Day; Thanksgiving Day; Remembrance Day; Christmas Day; Boxing Day and any other day on which the Province has elected to be closed for business.

"**Declaration of Trust**" means the declaration of trust made as of March 23, 2017, under which the Affordability Fund Trust was established, as such declaration of trust may be amended, restated, supplemented or otherwise modified from time to time with the consent of the Province in accordance with Section 20.2.

"Expiration Date" means the date on which this Agreement will expire and is the date set out in Schedule "B".

"Funds" means the money the Province provides to the Recipient pursuant to the Agreement.

"Implementation Agents" has the meaning given such term in the Declaration of Trust.

"Maximum Funds" means the maximum amount of Funds that the Province will provide the Recipient under the Agreement, as set out in Schedule "B".

"Notice" means any communication given or required to be given pursuant to the Agreement.

"Party" means either the Province or the Recipient.

"**Person**" includes any individual, sole proprietorship, corporation, partnership, joint venture, association, society, club, board, chamber, joint-stock company, trust, trustee, unincorporated or incorporated organization or entity or government or any entity, agency or political subdivision thereof.

"**Program**" has the meaning given to such term in the Declaration of Trust.

"Project" means the undertaking described in Schedule "C".

"**Purpose**" has the meaning given to such term in the Declaration of Trust.

"PSSDA" means the *Public Sector Salary Disclosure Act, 1996* (Ontario).

"**Recipient**" means, initially, Computershare Trust Company of Canada, and any additional or replacement trustee in its capacity as trustee of the Affordability Fund Trust pursuant to the Declaration of Trust, including the Board of Trustees (as defined in the Declaration of Trust) and each of their respective successors and permitted assigns.

"Reports" means the reports described in Schedule "F".

2.0 REPRESENTATIONS, WARRANTIES AND COVENANTS

2.1 General. The Recipient represents, warrants and covenants that:

(a) it is the trustee of the Affordability Fund Trust; and

(b) the Affordability Fund Trust is, and will continue to be for the term of the Agreement, a trust existing under and governed by the laws of the Province of Ontario.

2.2 Execution of Agreement. The Recipient represents and warrants that it has:

(a) the full power and authority to enter into the Agreement; and

(b) taken all necessary actions to authorize the execution of the Agreement.

2.3 Governance. The Recipient covenants that it will develop and maintain in writing until the Agreement is no longer in effect:

(a) decision-making mechanisms and procedures to enable the Recipient to hold, invest, manage, apply and distribute the Funds in accordance with the Declaration of Trust in furtherance of the Purpose; and

(b) procedures to enable the preparation and delivery of all Reports required pursuant to Article 7.0.

2.4 **Supporting Documentation.** Upon request, the Recipient will provide the Province with proof of the matters referred to in this Article 2.0.

3.0 TERM OF THE AGREEMENT

3.1 **Term.** The term of the Agreement will commence on the Effective Date and will expire on the Expiration Date.

3.2 **Extension.** The term of the Agreement may be extended by further agreement between the Parties.

3.3 **Extension of the Declaration of Trust.** If the Province determines that an extension of the Final Distribution Date (as defined in the Declaration of Trust) and time for termination of the Declaration of Trust is consistent with and in furtherance of the Purpose and the Province's original intentions and expectations in establishing the Project, the Province may request that the Recipient extend such date to a date specified by the Province in a Notice (such date not to be later than December 31, 2021), whereupon the Recipient, so long as the Recipient does not have a reasonable basis to believe that such an extension would be inconsistent with the Purpose or weaken the protections intended for the benefit of the Recipient pursuant to the Declaration of Trust, will undertake such actions as it may consider to be necessary or appropriate to so extend the Declaration of Trust, including by amending the Declaration of Trust to provide for such an extension and to modify any other term or requirement as would be necessary or prudent to conform such term or requirement in light of such extension.

4.0 FUNDS AND CARRYING OUT THE PROJECT

4.1 **Funds Provided.** The Province will:

(a) provide the Recipient up to the Maximum Funds to be held, invested, applied and distributed in accordance with the terms of the Project and the Declaration of Trust;

(b) provide the Funds to the Recipient in accordance with the Payment Plan attached to the Agreement as Schedule "E"; and

(c) deposit the Funds into an account designated by the Recipient, provided that the account:

(i) resides at a Canadian financial institution; and

(ii) is in the name of the Recipient.

4.2 **Timing of Distributions to Beneficiaries.** The expectations of the Province regarding when Funds will begin to be distributed by the Recipient to Beneficiaries are set out in Schedule C. The Recipient will have regard to those expectations in the exercise of its discretion under the Declaration of Trust, in determining when Funds will be distributed to Beneficiaries in furtherance of the Purpose.

4.3 **Use of Funds and Project.** The Recipient will exercise its rights, duties and discretions under the Declaration of Trust so that the Funds are used, applied and distributed only for and in furtherance of the Purpose, including having regard to the Principles set forth in Annex A.

4.4 **Province's Role Limited to Providing Funds.** For greater clarity, the Province's role under the Agreement is limited to providing Funds to the Recipient and the Province is not responsible for carrying out or overseeing the terms of the Declaration of Trust.

4.5 **Maximum Funds.** The Recipient acknowledges that the Funds available to it pursuant to the Agreement will not exceed the Maximum Funds.

4.6 **Funding, Not Procurement.** For greater clarity, the Recipient acknowledges that:

(a) it is receiving funding from the Province for the Project and is not providing goods or services to the Province; and

(b) the funding the Province is providing under the Agreement is funding for the purposes of the PSSDA.

5.0 RECIPIENT'S ACQUISITION OF GOODS OR SERVICES, AND DISPOSAL OF ASSETS

5.1 **Acquisition.** If the Recipient acquires goods, services, or both with or by applying the proceeds of the Funds, it is expected to do so through a process that promotes the best value for money and to take reasonable steps to ensure that its Administrative Services Agents and Implementation Agents also follow a process that promotes the best value for money when acquiring goods and services with or by applying the proceeds of the Funds.

6.0 CONFLICT OF INTEREST

6.1 **No Conflict of Interest.** Except as expressly permitted by the Declaration of Trust, the Recipient is expected to implement appropriate processes and control to ensure that the Program and the use, application and distribution of the Funds are without an actual, potential or perceived conflict of interest.

6.2 **Conflict of Interest Includes.** For the purposes of this Article, a conflict of interest includes any circumstances where, except as expressly permitted by the Declaration of Trust:

(a) the Recipient; or

(b) any person who has the capacity to influence the Recipient's decisions,

has outside commitments, relationships or financial interests that could, or could be seen to, interfere with the Recipient's objective, unbiased and impartial judgment relating to the Project, or the Recipient's use, application or distribution of the Funds, or both.

7.0 REPORTING, ACCOUNTING AND REVIEW

7.1 **Preparation and Submission.** The Recipient will cooperate with the Province to accommodate the Province's on-going information and reporting objectives in order to enable the Province to be aware of the Recipient's activities in furtherance of the Purpose, and to that end the Recipient will be expected, from and following the Original Trustee Replacement Date, to:

(a) submit to the Province at the address referred to in Schedule "B", all Reports in accordance with the timelines and content requirements set out in Schedule "F", or in a form as specified by the Province from time to time, acting reasonably;

(b) submit to the Province at the address referred to in Schedule "B", any other reports as may be reasonably requested by the Province from time to time in accordance with the timelines and content expectations identified by the Province, acting reasonably;

(c) undertake diligent efforts so that such Reports and any such other reports are complete and accurate in all material respects; and

(d) have an authorized signatory of the Recipient sign-off on such Reports and other reports.

7.2 **Record Maintenance.** The Recipient will keep and maintain financial and other records necessary to permit it to satisfy its obligations under section 7.1 and to permit the Province to exercise its rights under section 7.3.

7.3 **Inspection.** The Province, its authorized representatives or an independent auditor identified by the Province may, at its own expense, upon twenty-four hours' Notice to the Recipient and during normal business hours, inspect the records of and information respecting the Recipient to confirm its compliance with the terms of this Agreement, including to ensure consistency with the Purpose and, for these purposes, the Province, its authorized representatives or an independent auditor identified by the Province may take one or more of the following actions:

(a) inspect and copy the records and documents referred to in section 7.2;

(b) keep any copies made pursuant to section 7.3(a); and

(c) conduct an audit or investigation of the Recipient in respect of the expenditure of the Funds to confirm that the Funds have been used, applied and distributed for and in furtherance of the Purpose, including a review of the Recipient's processes, records, documents, as well as the processes and controls applied to obtain assurance that Funds disbursed to Electricity Distributors were used, applied and distributed for and in furtherance of the Purpose.

7.4 **Disclosure.** To assist in respect of the rights set out in section 7.3, the Recipient will disclose any information requested by the Province, its authorized representatives or an independent auditor identified by the Province, and will do so in the form requested by the Province, its authorized representatives or an independent auditor identified by the Province, as the case may be.

7.5 **No Control of Records.** No provision of the Agreement will be construed so as to give the Province any control whatsoever over the Recipient's records.

7.6 **Auditor General.** For greater certainty, the Province's rights under this Article are in addition to and do not limit any rights provided to the Auditor General pursuant to section 9.1 of the *Auditor General Act* (Ontario).

8.0 COMMUNICATIONS REQUIREMENTS

8.1 **Publication.** The Recipient will acknowledge, in any of its Program-related external communications and marketing whether written, oral, or visual, the financial support of the Province in connection with the establishment and funding of the program, while noting that the views expressed in the publication are the views of the Recipient and do not necessarily reflect those of the Province.

9.0 FREEDOM OF INFORMATION AND PROTECTION OF PRIVACY

9.1 **FIPPA.** The Recipient acknowledges that the Province is bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Province in connection with the Project or otherwise in connection with the Agreement may be subject to disclosure in accordance with that Act.

10.0 Intentionally Deleted

11.0 EVENT OF DEFAULT, CORRECTIVE ACTION AND TERMINATION FOR DEFAULT

11.1 Events of Default. An Event of Default will occur if:

(a) the Recipient fails to perform or observe any covenant in this Agreement and such failure has and continues to have a material adverse effect on the Province and remains unremedied during any Notice Period applicable under section 11.2 after the earlier of (i) actual knowledge thereof by the Recipient, or (ii) receipt by the Recipient of Notice thereof from the Province;

(b) any representation or warranty made by the Recipient in the Agreement shall prove to have been incorrect in any material respect when made or deemed made, and, if capable of remedy, continues to be incorrect in any material respect during any Notice period applicable under section 11.2 after the earlier to occur of (i) the actual knowledge thereof by the Recipient or (ii) receipt by the Recipient of Notice thereof from the Province;

(c) it is determined that the Recipient has breached its Standard of Care (within the meaning given in and context of the Declaration of Trust) in discharging its material duties under the Declaration of Trust, with the result that all or a significant part of the Funds have not been or are not being applied in furtherance of the Purpose or are being applied in a manner that is directly contrary or without regard to the Purpose, and, if such breach is capable of remedy, it continues and remains unremedied during any Notice Period (as defined in section 11.3) applicable under section 11.2 after the earlier of (i) actual knowledge thereof by the Recipient, or (ii) receipt by the Recipient of Notice thereof from the Province;

(d) an insolvency event shall have occurred and be continuing with respect to the Recipient.

11.2 Consequences of Events of Default and Corrective Action. If an Event of Default occurs, the Province may, at any time, take one or more of the following actions:

(a) provide the Recipient with Notice allowing the Recipient an opportunity to remedy the Event of Default during a specified Notice Period;

(b) seek an order of specific performance, including an order that the Recipient pursue its available remedies against third parties;

(c) require, by Notice of demand, that the Recipient transfer to the Province (without any need for compensation, indemnity or consideration to the Recipient or any Beneficiary or other third party) any and all Assets remaining in the possession or under the control of the Recipient that can reasonably be traced or attributed to the Funds after first providing for the completion and performance by the Recipient of any unperformed contractual obligations of the Recipient undertaken in compliance with the Declaration of Trust on or prior to transfer; and

(d) terminate the Agreement, including immediately, without liability, penalty or costs to the Province upon giving Notice to the Recipient.

The transfer of Funds in accordance with the Agreement is made by the Province with the expressed intention and reservation that the transferred Funds shall be returned to the Province and the entitlements of the Recipient in remaining Funds shall thereby be revoked with reversion thereof to the Province in the circumstances contemplated in Section 11.2(c).

11.3 Opportunity to Remedy. If, in accordance with section 11.2, the Province provides the Recipient with an opportunity to remedy the Event of Default, the Province will provide Notice to the Recipient of:

(a) the particulars of the Event of Default; and

(b) the length of time within which the Recipient may cure such Event of Default without the Province pursuing any other remedy (the "Notice Period").

11.4 Recipient not Remedying. If the Province has provided the Recipient with an opportunity to remedy the Event of Default pursuant to section 11.2(a), and:

(a) the Recipient does not remedy the Event of Default within the Notice Period;

(b) it becomes apparent to the Province that the Recipient cannot adequately remedy the Event of Default within the Notice Period; or

(c) the Recipient is not proceeding to remedy the Event of Default in a way that is satisfactory to the Province,

the Province may extend any Notice Period, or initiate any one or more of the actions provided for in section 11.2.

12.0 REPAYMENT

12.1 Debt Due. If, pursuant to the Agreement: the Province demands the payment of any Funds from the Recipient pursuant to section 11.2(c) such Funds or other amount will be deemed to be a debt due and owing to the Province by the Recipient, and the Recipient will pay or return the amount to the Province immediately, unless the Province directs otherwise.

12.2 Payment of Money to Province. The Recipient will pay any money owing to the Province by cheque payable to the "Ontario Minister of Finance" and delivered to the Province at the address referred to in Schedule "B".

12.3 Failure to Repay. Without limiting the application of section 43 of the Financial Administration Act (Ontario), if the Recipient fails to repay any amount owing under the Agreement, Her Majesty the Queen in right of Ontario may deduct any unpaid amount from any money payable to the Recipient by Her Majesty the Queen in right of Ontario.

13.0 NOTICE

13.1 Notice in Writing and Addressed. Notice will be in writing and will be delivered by email, postage-prepaid mail, personal delivery or fax, and will be addressed to the Province and the Recipient respectively as set out in Schedule "B", or as either Party later designates to the other by Notice.

13.2 Notice Given. Notice will be deemed to have been given:

(a) in the case of postage-prepaid mail, five Business Days after the Notice is mailed; or

(b) in the case of email, personal delivery or fax, one Business Day after the Notice is delivered.

13.3 Postal Disruption. Despite section 13.2(a), in the event of a postal disruption:

(a) Notice by postage-prepaid mail will not be deemed to be received; and

(b) the Party giving Notice will provide Notice by email, personal delivery or by fax.

14.0 SEVERABILITY OF PROVISIONS

14.1 Invalidity or Unenforceability of Any Provision. The invalidity or unenforceability of any

provision of the Agreement will not affect the validity or enforceability of any other provision of the Agreement. Any invalid or unenforceable provision will be deemed to be severed.

15.0 WAIVER

15.1 Waivers in Writing. If a Party fails to comply with any term of the Agreement, that Party may only rely on a waiver of the other Party if the other Party has provided a written waiver in accordance with the Notice provisions in Article 13.0. Any waiver must refer to a specific failure to comply and will not have the effect of waiving any subsequent failures to comply.

16.0 INDEPENDENT PARTIES

16.1 Parties Independent. The Recipient acknowledges that it is not an agent, joint venturer, partner or employee of the Province, and the Recipient will not represent itself in any way that might be taken by a reasonable person to suggest that it is, or take any actions that could establish or imply such a relationship.

17.0 ASSIGNMENT OF AGREEMENT OR FUNDS

17.1 Agreement Binding. All rights and obligations contained in the Agreement will extend to and be binding on the Parties' respective heirs, executors, administrators, successors and permitted assigns.

18.0 LIMITATION OF LIABILITY

18.1 This Agreement has been entered into by the Recipient solely in its capacity as trustee of the Affordability Fund Trust and is not binding on the Recipient in any other capacity, whether in tort, contract or otherwise. The Beneficiaries of the Affordability Fund Trust are not subject to any liability in respect of the Affordability Fund Trust. Resort may not be had to, nor recourse or satisfaction be sought from, the private property of the Recipient (whether owned by it in its personal capacity or in any other capacity other than in its capacity as trustee of the Affordability Fund Trust), its directors, officers, employees, or agents, or the private property of any Beneficiary, and resort will be had solely to the Assets (as defined in the Declaration of Trust) for the payment, performance or satisfaction of any liability or obligation of the Recipient under this Agreement. However, the foregoing limitations in this section shall not apply where the Recipient has demonstrated gross negligence, bad faith, fraud or wilful misconduct.

19.0 GOVERNING LAW

19.1 Governing Law. The Agreement and the rights, obligations and relations of the Parties will be governed by and construed in accordance with the laws of the Province of Ontario and the applicable federal laws of Canada. Any actions or proceedings arising in connection with the Agreement will be conducted in the courts of Ontario, which will have exclusive jurisdiction over such proceedings.

20.0 FURTHER ASSURANCES

20.1 Agreement into Effect. The Recipient will provide such further assurances as the Province may request from time to time with respect to any matter to which the Agreement pertains, and will otherwise do or cause to be done all acts or things necessary to implement and carry into effect the terms and conditions of the Agreement to their full extent.

20.2 Declaration of Trust. The Recipient covenants that it shall not amend, restate or terminate the Declaration of Trust without obtaining the written consent of the Province in respect of same, such consent not to be unreasonably withheld or delayed.

21.0 JOINT AND SEVERAL LIABILITY

21.1 Joint and Several Liability. Without limiting and subject to section 18.1 and the Declaration of Trust, if the Recipient is comprised of more than one entity, all such entities will be jointly and severally liable to the Province for the fulfillment of the obligations of the Recipient under the Agreement.

22.0 RIGHTS AND REMEDIES CUMULATIVE

22.1 Rights and Remedies Cumulative. The rights and remedies of the Province under the Agreement are cumulative and are in addition to, and not in substitution for, any of its rights and remedies provided by law or in equity.

23.0 ACKNOWLEDGEMENT OF OTHER LEGISLATION AND DIRECTIVES

23.1 Recipient Acknowledges. The Recipient acknowledges that by receiving Funds it may become subject to legislation applicable to organizations that receive funding from the Government of Ontario, including the BPSAA, the PSSDA, and the *Auditor General Act* (Ontario).

24.0 SURVIVAL

24.1 Survival. The following Articles and sections, and all applicable cross-referenced sections and schedules, will continue in full force and effect for a period of seven years from the date of expiry or termination of the Agreement: Article 1.0 and any other applicable definitions, section, 4.5, section 7.1 (to the extent that the Recipient has not provided the Reports to the satisfaction of the Province), sections 7.2, 7.3, 7.4, 7.5, 7.6, Article 8.0, Article 12.0, Article 14.0, Article 16.0, Article 17.0, Article 19.0, Article 21.0, Article 23.0 and Article 24.0.

SCHEDULE "C"

PROJECT

For the purposes of this Agreement, the "Project" is the distribution of the Funds in accordance with the Declaration of Trust.

It is intended the Project will be undertaken by the Recipient in furtherance of the Purpose and in accordance with the Declaration of Trust. In this regard, it is expected that the Recipient will undertake the Program having regard to the Budget and the Principles set forth in Annex A.

The following are the Province's expectations regarding the circumstances in which the Recipient will begin to distribute any Funds to any Beneficiary.

1. The Original Trustee Replacement Date (as defined in the Declaration of Trust) will have occurred.

2. An Administrative Services Agreement (as defined in the Declaration of Trust) will have been entered into between the Recipient and Hydro One Limited under which Hydro One Limited shall provide specified administrative and other services on behalf of the Recipient.

3. Administrative procedures will have been developed and implemented under which Electricity Distributors (as defined in the Declaration of Trust) will be invited to assist with (a) the identification and selection of Primary Beneficiaries under the Declaration of Trust, (b) the determination of the amount of Funds to be distributed to particular Primary Beneficiaries, and (c) the distribution of Funds to or for the benefit of such Primary Beneficiaries (in each case substantially on the basis contemplated in the Permitted Delegations Annex).

4. The Recipient will have obtained commercial general liability insurance from insurers having a secure A.M. Best rating of B+ or greater, or the equivalent, that in the opinion of the Recipient a prudent person similar to the Recipient would maintain, and having an inclusive limit of not less than $2,000,000 per occurrence and providing for contractual liability coverage. If requested, the Recipient will provide the Province (for its information purposes) with copies of the certificates of insurance and policies for such insurance coverage.

The Province recognizes that the foregoing may involve the Recipient entering into agreements as the Recipient considers to be necessary or expedient, including any required amendment or amendment and restatement of the Declaration of Trust. Funds may be expended to pay the expenses of the Recipient in completing these matters. The Recipient is requested to advise the Province through its quarterly reports on the status of the foregoing.

SCHEDULE "D"

Recipient's Budget

1. It is expected that the administrative expenses of the Recipient, including any administrative expenses of any Administrative Services Agents or any Implementation Agents or any other agents retained by the Recipient, relating to the establishment of the Affordability Fund Trust and addressing the Province's expectations as enumerated in Schedule "C" and any expenses related to the operation of the Affordability Fund Trust and the execution of the Project (including any reimbursable expenses incurred by any Administrative Services Agent or any Implementation Agent (as such terms are defined in the Declaration of Trust)), will be no greater than 10 percent of the total Project budget.

2. The only expenditures incurred by the Recipient that are eligible for reimbursement are actual (excluding HST) administrative overhead expenses incurred by or on behalf of the Recipient that directly related to the Recipient or the establishment of the Affordability Fund Trust.

4. Any expenses that have been or may be reimbursed by other parties should not be reimbursed from the assets of the Affordability Fund Trust.

5. It is expected any travel, meals and hospitality expenses by the Recipient will be consistent with the the accountability principles set out in Schedule B to the Principles Annex. For purposes of funding entities receiving funding from the Recipient, the following would not be considered eligible claims:

    - Alcohol
    - First-Class travel
    - Meals, snacks and beverages
    - Gratuities
    - Laundry or dry cleaning
    - Valet services
    - Dependent care
    - Home management
    - Personal telephone calls

6. In the event that the Recipient performs any procurements, it is expected that all procurements will reflect the principles of Ontario's Public Service Procurement Directive.

SCHEDULE "E"

PAYMENT PLAN

PAYMENT DATE	MAXIMUM FUNDS TO BE DISBURSED BY THE PROVINCE
Within 7 days of signing the Agreement	$ 100,000,000

SCHEDULE "F"

REPORTING

From and following the Original Trustee Replacement Date, Reports will be quarterly on the basis of the government's fiscal year starting at the execution of this Agreement and continuing until conclusion of the Agreement. Annual Reports will be on a fiscal basis starting at the execution of this Agreement and continuing until conclusion of the Agreement. Quarterly Reports and Annual Reports would be expected to be submitted to the Province within one month following the end of the reporting period that they represent. The Province expects that these Reports would be prepared to demonstrate the impact of the Province's funding and address the following:

- Quarterly Reports would include a report back on the trustee-developed performance management criteria. Initially, such Quarterly Reports would include details respecting:
    - Amounts disbursed by the Recipient in the previous quarter. It is expected that this information would be provided at the Electricity Distributor level and in the aggregate.
    - Total Affordability Fund investment income earned and accrued to date.
    - Key activities and achievements from the quarter, including the number of participant households per Electricity Distributor, average participant incentive cost per Electricity Distributor, and uptake of energy efficiency measures per Electricity Distributor.
    - Any challenges or modifications to the application, funding, or eligibility processes/rules of the Recipient.
    - Key activities planned for the upcoming quarter.
    - Details of any situation that a reasonable person might interpret as an actual, potential or perceived conflict of interest.
- Annual Reports would include a report back on the trustee-developed performance management criteria. Initially, such Annual Report would include details respecting:

- A description of an Electricity Distributor's application process and the criteria used by the Recipient to distribute funds.
- Any challenges identified by the Recipient or any Administrative Services Agent in achieving the Purpose and proposed solutions, if applicable.
- Lesson learned.
- Electricity Distributor and customer feedback.
- Amounts distributed to Beneficiaries or otherwise disbursed by the Recipient in the previous year. It is expected that this information will be provided by each Electricity Distributor.
- Key activities and achievements from each quarter being reported, including number of participant households per Electricity Distributor, average participant incentive cost per Electricity Distributor, and uptake of energy efficiency measures per Electricity Distributor.
- Total Affordability Fund interest earned and accrued to date.

As part of an Annual Report, the Recipient would also provide the Province with an audited financial statement for the previous year.

ANNEX A

Principles

Except as otherwise defined herein, capitalized terms used in this Annex A shall have the respective meanings given to such terms in the Declaration of Trust.

The Trustee shall have regard to, but shall not be specifically bound by, the following principles in applying its discretion in relation to the administration of the Trust:

1. Identification of Primary Beneficiary Payees

1.1 Except in exceptional circumstances, a Primary Beneficiary would not be expected to receive a benefit from the Trust unless at the time of consideration it satisfies, in addition to the requirements contemplated in the definition of "Primary Beneficiary", each of the following criteria (the "**Selection Factors**"):

(i) it has a participant agreement with an applicable Electricity Distributor to undertake measures (its "**Energy Plan**") to improve the electricity efficiency and/or promote the conservation of electricity at its Ontario residence;

(ii) its Energy Plan involves one or more Eligible Measures, as may be designated by the Trustee from time to time from;

(iii) it confirms that:

1. the primary purpose of its Energy Plan is the conservation and efficient use by the Primary Beneficiary of electricity, and is not for the purposes of the Primary Beneficiary making a profit;

2. it would otherwise not have the financial resources to undertake the Eligible Measures included in its Energy Plan; and

3. it would otherwise not be eligible to receive amounts in respect of the Eligible Measures as a HAP Eligible Person;

(iv) it has demonstrated a need for financial assistance on the basis that its periodic electricity bills represent a financial burden, relative to its available financial resources; and

(v) such other criteria as the Trustee may determine, including based on the recommendations of Electricity Distributors or other knowledgeable Persons made on the basis and having regard to the delegations contemplated by the Permitted Delegations Annex or any applicable Implementation Agreement.

1.2 It is recognized that, in furthering the Purpose, an efficient basis upon which to allocate funds to the Primary Beneficiaries across different areas and regions within Ontario may be based on the areas and regions serviced by the Electricity Distributors operating within Ontario.

1.3 It would not be contrary to the Purposes if funds are made available by the Trustee to the Primary Beneficiaries unequally across different areas and regions within Ontario, and it is expected that in making such an unequal division it would be appropriate to have regard to:

(i) broad economic parameters of economic activity and the specific financial resources of the residents of the areas and regions, in each case as an indication of the relative need of such residents across the areas and regions;

(ii) electricity use and efficiency levels of residential electricity customers across the areas and regions;

(iii) specific regional indicators of economic weakness and need; and

(iv) such other factors as the Trustee may determine are relevant, including based on the submissions, advice and recommendations of Electricity Distributors or other knowledgeable Persons made on the basis and having regard to the delegations contemplated by the Permitted Delegations Annex or any applicable Implementation Agreement.

1.4 It is recognized that, in furthering the Purpose, the designated Electricity Distributor for an area or region in which a Primary Beneficiary resides would be expected to:

(i) be a reliable source for the purpose of assessing and confirming whether the Primary Beneficiary satisfies the Selection Factors;

(ii) be an efficient intermediary for the purpose of communicating with the Primary Beneficiary, including with respect to matters such as regarding the availability, terms, conditions and intended purposes of Program;

(iii) be able to facilitate an efficient payment of distribution determined to be made to or on behalf of the Primary Beneficiary, having regard to the Electricity Distributor's established practices, procedures and systems for dealing with its customers; and

(iv) have established contractual arrangements with the Primary Beneficiary that may apply to the protection and confidentiality of information provided by or respecting the Primary Beneficiary, which information may be useful in the consideration by the Electricity Distributor in its assessment of whether the Primary Beneficiary satisfies the Selection Factors, which information may not otherwise be available or readily accessible or verifiable by the Trustee.

1.5 It is recognized that, in furthering the Purpose, the Electricity Distributor for an area or region in which a Primary Beneficiary resides will have market and utilization information that may be useful in assessing the relative needs of Primary Beneficiaries within its area or region. Such information is expected to be relevant in assessing the extent to which one such Primary Beneficiary's financial needs and the merits of its Energy Plan are greater or more compelling than those of another such Primary Beneficiary, which comparison may be relevant to the extent that the funds allocable to the Primary Beneficiaries resident in the area or region are otherwise insufficient to meet the requests for funding by all such Primary Beneficiaries.

1.6 Accordingly, it is recognized that, in furthering the Purpose, it is consistent with the Purpose that the recommendations of Electricity Distributors be utilized and relied upon by the Trustee to guide the process of identifying particular Primary Beneficiaries in making distributions to the Primary Beneficiaries.

1.7 If an Electricity Distributor for a particular area or region is unable or unwilling to assess or confirm the application of the Selection Factors to Primary Beneficiaries residing in the area or region or to make recommendations in relation to such matters, one or more of the following may

provide a suitable alternative source of information and for information gathering, assessment and confirmation purposes in relation to such area or region:

(i) other Electricity Distributors operating in adjacent or other areas or regions in Ontario;

(ii) the Ontario Energy Board;

(iii) the Independent Electricity System Operator; and

(iv) anyone else having relevant expertise and access to information regarding the electricity market of the Province, in each case as may be considered relevant by the Trustee.

1.8 To the extent that privacy law or other legal requirements limit an Electricity Distributor from providing or making available specific information respecting the application of the Selection Factors to a particular Primary Beneficiary or group of Primary Beneficiaries, it is recognized that, in furthering the Purpose, it may be appropriate to redact or make generic affected information regarding such Primary Beneficiary in connection with the identification and confirmation of a Primary Beneficiary's eligibility and participation in the Program. If such limitations or restrictions would limit an Electricity Distributor from providing or confirming the name of a particular Primary Beneficiary to the Trustee, then it should be sufficient that such information may be obtained or disseminated on a confidential basis if and when required by the Trustee for the proper administration of the Trust and on that basis such impediments should not disqualify a Primary Beneficiary from participating in the benefits of the Program, provided that the confidential record-keeping of the Electricity Distributor would be available in connection with the application of any applicable legal process predicated on the identification of such Primary Beneficiary for the purposes of substantiating its rights as a Primary Beneficiary of the Trust or as to the validity or subsistence of the Trust.

2. Eligible Measures

2.1 It is expected that the Trust will identify eligible measures that, taking into consideration the principles set forth in the Principles Annex, have regard to the following (the "**Measures Factors**"):

(i) is the measure generally expected to result in reduced electricity consumption by a Primary Beneficiary if properly installed and used;

(ii) is the measure recognized under another Provincial program as being appropriate for achieving electricity conservation among a population analogous to the Primary Beneficiaries;

(iii) does the measure present any unacceptable health or safety considerations, either with respect to the Primary Beneficiary, a party providing or installing the measure, or the physical environment;

(iv) is the measure broadly available to residents across different areas and regions of the Province; or

(v) is the measure a requirement or precursor to another measure, the other measure being one which meets any of the other Measures Factors.

2.2 In identifying and applying the Measures Factors, Electricity Distributors would be expected to have expertise in assessing the suitability of efficiency and conservation measures in their

respective areas and regions, which may differ across areas and regions across the Province based on factors (among other things) such as the climate, geography, density, electricity infrastructure, residential structures, and electricity use rates applicable within such areas or regions.

2.3 The measures specified in Schedule A to this Principles Annex may initially be considered to be consistent with the Measures Factors (subject to change as contemplated under the Permitted Delegations Annex).

3. Promotion of the Program

3.1 It is expected that the Trustee will undertake or engage others to undertake diligent efforts to promote the availability, terms and benefits of the Program to Primary Beneficiaries, including by establishing consistent communications through the Electricity Distributors.

3.2 It is expected that the Trustee will acknowledge the financial support of the Province in connection with the establishment and the funding for the Program, including in any external communications to or marketing directed at the Electricity Distributors and the Primary and Residual Beneficiaries. In the Trustee's delegation of any duties or powers to the Electricity Distributors through Implementation Agreements it is expected that Electricity Distributors will acknowledge the financial support of the Province in connection with the program including in any communications or marketing to Primary Beneficiaries.

4. Conduct of the Trust and the Program

4.1 It is expected that administrative expenses of the Board of Trustees and its members, including any expenses relating to the Trust, to the establishment of the Trust and any expenses related to the implementation and operation of the Program, including by or through Electricity Distributors and other relevant entities, will be recognized and subject to reimbursement on a basis that is substantially consistent with the accountability principles set out in Schedule B to this Principles Annex.

4.2 The Trustee is expected to conduct its activities in a manner that complies in all material respects with the Transfer Payment Agreement, including to:

(i) act prudently and in furtherance of the Purpose;

(ii) report not less frequently than annually the results of its activities for information purposes to the Province in connection with the Program;

(iii) comply with the Province's request for any independent verification or audit if determined to be necessary or appropriate by the Province;

(iv) return Assets that have not been distributed if it is determined that the Trustee has breached its Standard of Care in discharging its material duties under the Declaration, and has not cured such material breach despite having been given a reasonable opportunity by the Province to do so in light of the circumstances of such material breach, with the result that all or a significant part of the Assets have not been or are not being applied and distributed in furtherance of the Purpose or are being applied and distributed in a manner that is directly contrary or without regard to the Purpose.

4.3 Electricity Distributors are not intended to directly profit from distributions of funds made from the Trust, although it is recognized that the objectives of electricity efficiency and conservation of

Primary Beneficiaries located in the service area or region of an Electricity Distributor, and the cost savings and improved credit worthiness of such Primary Beneficiaries, may be financially beneficial to the Electricity Distributor.

4.4 Distributions from the Trust are intended to allow receiving Primary Beneficiaries to undertake Eligible Measures at no or minimal personal cost.

4.5 Without in any way limiting the discretion of the Board of Trustees to extend the period during which the benefits of the Program may be available to the Primary Beneficiaries, up to and including the Final Distribution Date, it is expected that the Trust Assets would be distributed to Primary Beneficiaries during the period from the Original Trustee Replacement Date to April 30, 2019.

SCHEDULE A TO THE PRINCIPLES ANNEX
INDICATIVE ELIGIBLE MEASURES[1]

Initial Specified Measures
Block Heater Timer (just timer) – rated for outdoor use, have at least a 15 amp/1800 watt capacity, be cold weather resistant, bear a C-UL or CSA certification mark
Power bar with integrated timer, and switched power outlets, four each for a total of 8 outlets, have a total capacity of 15 amps. The switched outlets must remain "live", independent of timer settings, so long as the power bar itself remains switched on. The power bar must bear either a C-UL or CSA certification mark.
Efficient Showerheads (standard) - rated at no more than 4.8 Lpm (1.25 U.S. gpm) and be of the laminar flow type (non-aerating).
Efficient Showerhead (handheld) - rated at no more than 4.8 Lpm (1.25 U.S. gpm) and be of the laminar flow type (non-aerating).
Efficient Aerators (kitchen) - rated no more than 5.7 Lpm (1.5 U.S. gpm), dual threaded to allow installation in both thread type faucets, swivel type with pause lever.
Efficient Aerators (bathroom) - rated no more than 3.8 Lpm (1.0 U.S. gpm), be dual threaded to allow installation in both thread type faucets.
Hot Water Tank Pipe Insulation - $^1/_2$" inside diameter – foam, meets ASTM –C547-00, minimum $^3/_4$" thick
Hot Water Tank Pipe Insulation - $^3/_4$ " inside diameter - – foam, meets ASTM –C547-00, minimum $^3/_4$" thick
Hot Water Tank Insulation - fibreglass R10 (fits up to a 60 gal tank) – not bubble wrap
≤11W ENERGY STAR® Qualified LED A Shape (60W) (minimum 600 Lumen output) (Formerly: 7W – 11W ENERGY STAR® Qualified LED A Shape (60W))

[1] These measures are indicative. Eligible measures added to HAP during the administration of the Trust may also be appropriately considered relevant by the Trustee.

Initial Specified Measures
≤14W ENERGY STAR® Qualified LED A Shape (75W) (minimum 800 Lumen output) (Formerly: 10W – 14W ENERGY STAR® Qualified LED A Shape (75W))
≤23W ENERGY STAR® Qualified LED A Shape (100W) (minimum 1600 Lumen output) (Formerly:17W – 23W ENERGY STAR® Qualified LED A Shape (100W))
≤16W ENERGY STAR® Qualified LED PAR 20 (minimum 600 Lumen output) (Formerly: 8W – 12W ENERGY STAR® Qualified LED PAR 20)
≤16W ENERGY STAR® Qualified LED PAR30 & PAR38 (minimum 600 Lumen output) (Formerly: 8W – 12W ENERGY STAR® Qualified LED PAR 30)
≤23W ENERGY STAR® Qualified LED PAR (minimum 1100 Lumen output) (Formerly: 14W – 18W ENERGY STAR® Qualified LED PAR 38)
≤6W ENERGY STAR® Qualified LED MR 16 / PAR 16 (minimum 250 Lumen output) (Formerly: 7W – 10W ENERGY STAR®
Qualified LED MR 16 / PAR 16 - GU 10 Base)
≤11W ENERGY STAR® Qualified LED MR 16 (minimum 400 Lumen output) (Formerly: 7W – 12W ENERGY STAR® Qualified LED MR 16 GU 5.3 Base)
ENERGY STAR® LED Wet Location Rated PAR lamp ≤ 23 Watt (minimum 1100 Lumen output)
Recessed Downlight Fixture including LED with Light Output >600 and <800 lumens (Retrofit Measure List)
Recessed Downlight Fixture including LED with Light Output >800 lumens (Retrofit Measure List)
Indoor Drying Rack

Extended Measures
Replace refrigerator with ENERGY STAR qualified refrigerator - 15.5 - 16.9 cubic foot top freezer, automatic defrost, refrigerator/ freezer, no through the door ice service
Replace refrigerator with ENERGY STAR qualified refrigerator - 17.0 - 18.4 cubic foot top freezer, automatic defrost, refrigerator/ freezer, no through the door ice service
Replace refrigerator with a refrigerator that has a consumption level of less than 425 kwh, 10 – 12.5 cubic foot top freezer, automatic defrost, refrigerator freezer, no through the door ice service
Replace freezer with ENERGY STAR qualified freezer - 12-14.4 cubic foot freezer
Replace freezer with ENERGY STAR qualified freezer - 14.5 - 16.0 cubic foot freezer
Replace existing window air conditioner with ENERGY STAR qualified window air conditioner - 6,000 – 7,999 BTU/hr with C-UL or CSA certification mark
Replace existing window air conditioner with ENERGY STAR qualified window air conditioner - 8,000 – 9,999 BTU/hr with C-UL or CSA certification mark
Replace existing window air conditioner with ENERGY STAR qualified window air conditioner - 10,000 – 12,000 BTU/hr with C-UL or CSA certification mark
Replace existing dehumidifier with ENERGY STAR qualified portable dehumidifier - 14.2 - 21.2 l/day (30-44.9 pints/day) dehumidifier
Replace existing dehumidifier with ENERGY STAR qualified portable dehumidifier - 21.3 - 25.4 l/day (45-53.9 pints/day) dehumidifier
Replace existing dehumidifier with ENERGY STAR qualified portable dehumidifier - 25.5 - 35.5 l/day (54-75 pints/day) dehumidifier
Programmable Thermostat – line voltage – meets CAN/CSA-C828-06 standard, minimum performance: Droop: 1.5°C, Differential: 0.5°C, Precision 0% within 0.5°C of the original set point of 22°C
Programmable Thermostat – low voltage - meets CAN/CSA-C828-06 standard, minimum performance: Droop: 1.5°C, Differential: 0.5°C, Precision 0% within 0.5°C of the original set point of 22°C

Weatherization Measures
Comprehensive Draftproofing (caulking, foam and weather stripping, and application of same) – lifespan of 20 years plus If one or two component polyurethane foams are used, the products and installations must conform to: • CAN/ULC-S710.1 Standard For Thermal Insulation – Bead Applied One-Component Polyurethane Air Sealant Foam, Part 1: Material Specification. • CAN/ULC-S710.2 Standard For Thermal Insulation – Bead Applied One-Component Polyurethane Air Sealant Foam, Part 2: Application. • CAN/ULC-S711.1 Standard for Thermal Insulation – Bead Applied Two-Component Polyurethane Air Sealant Foam, Part 1: Material Specification • CAN/ULC-S711.2 Standard for Thermal Insulation – Bead Applied Two-Component Polyurethane Air Sealant Foam, Part 1: Material Specification, and Part 2: Application. **Attic Insulation (including installation):**

SCHEDULE B TO THE PRINCIPLES ANNEX
PRINCIPLES APPLICABLE TO EXPENSE REIMBURSEMENTS

1. Funds should be used prudently and responsibly with a focus on accountability and transparency.

2. Expenses for travel, meals and hospitality support the Purpose.

3. Plans for travel, meals, accommodation and hospitality are necessary and economical with due regard for health and safety.

4. Legitimate authorized expenses incurred during the course of furthering the Purpose may be reimbursed.

5. Best practices should be followed, including:

    a. Prior approval to incur expenses is appropriately obtained.

    b. Other options for meetings are always considered before travel is approved, including audio or video conferencing.

    c. Corporate travel cards are to be used for authorized business travel and business related expenses.

No problem at all. I'm starting my high level summary based on the following outline…

1) PSAB trust guidance (limited)

2) OPCD Guidance on trusts (controlled vs. non-controlled)

3) PS 1300 assessment

I think we should be fine as a line of defence, especially based on last week's discussion at the ADG.

Hi Michel.

I just wanted to share the final signed docs. Thanks again for all of your help!! I'll be updating my control analysis again this evening. If you have any comments on the revised draft I sent you yesterday, it would be much appreciated.

I attended the PSAB ADG last week, and I've been pondering some of the

discussion. It may influence the final documentation on the accounting, once the control analysis is complete. Would welcome a chat with you on that front when you have some time.

Talk soon,

Nadine

Hi Morag,

Please see attached for tracked and clean versions of the TPA and Declaration. The tracked versions are compared to the versions you saw yesterday.

Would it be possible to send us signed copies of the two documents by email by 6:30pm today?

Declaration- Next Steps

· Could you sign two copies of the clean version of the Declaration (one for us and one for you) and email us a scanned copy.

· We will pick up our copy of the original Declaration tomorrow morning.

TPA- Next Steps

· Could you sign three copies of the clean version of the TPA (two for us and one for you) and email us a scanned copy (entire version- including signature and non-signature pages)

· Our Deputy Minister will then sign on three printed copies.

· Tomorrow we will pick up two copies of the TPA that you signed and give you one copy of the TPA our Deputy signed.

Thanks!

Hello Lisa,

Please find attached updated versions of the TPA and Declaration. Changes are tracked against the previous versions we had sent you.

There are three main outstanding elements that we are working to address:

1. On page 2 and 10 of the TPA, we need to add Computershare's relevant contact info. Could you kindly add this to the TPA?

2. For now we have left a placeholder for the effective date. We will replace that with tomorrow's date once you review.

3. Both documents have some formatting issues (Blakes is working to address):

- inconsistent page numbering and footers for both the TPA and Declaration

- incorrect sub section numbering in Annex A of the TPA

- Schedule B reference to the hospitality directive needs to be updated

Could you kindly review the TPA and Declaration and give us your final OK. Appreciate if you can let us know by tomorrow morning (Mar 23).

We can then circulate clean versions for your signature.

Thank you,

Emma

Control Assessment_Affordability Fund Rev Mar 23 michel.pdf

~~BLAKES COMMENTS ADDED IN COMMENT BUBBLES (3/21/2017)~~

REVISED Control Assessment of Affordability Fund Trust ~~(Rev. Mar 23, 2017)~~ for Inclusion in the Government's Reporting Entity

ISSUE

Would the Ministry of Energy's proposed Affordability Fund Trust (the Affordability Fund or Trust) be assessed as controlled under Public Sector Accounting Board (PSAB) standard on the Government Reporting Entity (PS 1300) and therefore be included in the Province's consolidated financial statements?

RECOMMENDATION

The Affordability Fund Trust is not controlled by the Province based on the analysis in Appendix I. The only two control criteria assessed as indicating potential control, based on the ~~draft~~ TPA and Trust Declaration were the Province's ability to both establish or amend the mission or mandate of the organization and the establishment of borrowing or investment limits or restricting the organization's investments.

The government established the Affordability Fund to support the Ministry of Energy's rate reduction program and the Trust documents restrict the nature of investments in which the Trust can invest to maintain liquidity and stewardship over the funds, these two criteria are met. Although the Province established the Affordability Fund, it does not have the ability to amend the mandate of the Trust but has a protective right over the amendments.

With regards to the government's ability to appoint the governing body of the Trust, as at March 31st, the Trustee and the Advisory Committee ~~will~~ have been appointed through the establishment of the Trust document, ~~but~~ and the Province does~~will~~ not control either party nor will it be able to change either party unilaterally. The government will not control the selection of the Replacement Board of Trustees in accordance with the Trustee selection process.

The Trustees will have unfettered control over the assets and decisions of the Trust, despite the Province's expectation that the Trust consider the principles listed in the Principles Annex and the suggested eligibility measures listed in the Permitted Delegations Annex.

BACKGROUND

The Ministry of Energy ~~plans~~ has transferred ~~to transfer~~ $100M to a recently formed, limited purpose Trust in relation to a new Affordability Fund for the purpose of providing energy efficiency measures to electricity customers who do not qualify for existing low income conservation programs (e.g. the existing Home Assistance Program (HAP), delivered by LDCs under the Conservation First Framework) [and who have difficulty paying their electricity bills].

The Affordability Fund would be available for distributions to beneficiaries, to be identified based on recommendations from LDCs based on ~~factors~~ principles and indicative eligible measures listed in Annex A of the Declaration of Trust [and could include customers in frequent arrears or facing disconnection]. Priority would be given to homes primarily heated by electricity.

In order to provide funding to the Trust, the Ministry of Energy plans ~~to~~ entered in a Transfer Payment Agreement (TPA) with the Trustee of the Trust (Computershare). Computershare will shortly thereafter be replaced by an independent Board of Trustees, to be appointed based on the advice of an independent

Commented [m1]: I know the criteria speaks to both but dopes the province has the ability to amend or only to establish? I believe it is only to amend the mandate. If this is correct, it should soften the yes.

Commented [m2]: Does it have a right to change at all?

Advisory Committee. The Ministry of Energy ~~anticipates~~ entereding into TPA with Computershare and flowing the approved funding ~~prior to March 31st~~on March _, 2017.

The Board of Trustees is expected to be comprised of:

- [six] residents of Ontario who have expressed that they are willing to act as members of the Board of Trustees and who, individually and collectively, satisfy the following criteria (collectively, the "Selection Factors"):

  a) each member demonstrates an understanding of the electricity sector including the electricity distribution sector;
  b) each member demonstrates an expertise in conservation and low income programs;
  c) three of the identified individuals will be representatives from separate electricity distributors, two individuals will be representatives from separate social services agencies and one individual member, who will be a non-voting member, will be an employee or representative of the Government of Ontario; and
  d) it is expected that representation by the Government of Ontario will be non-controlling.

In accordance with the Trust Declaration, The Trust will engage with Hydro One as an initial Administrative Services Agent/Implementation Agent and will have the discretion to engage with other entities as service providers to assist with administering the Trust. It is expected that the Trust would consider using administrative services agreements to clearly document services and expectations. The Trust would distribute funds to identified customers of LDCs across the province (including Hydro One's distribution division) at the discretion of the Trustees, based primarily on the recommendations of the applicable LDCs.

The Declaration of Trust confers broad powers and discretion to the Trustee, to act in the best interest of the beneficiaries. The Trustees are expected to conduct themselves in good faith and give regard to guiding principles set out in the Declaration of Trust (and ~~agreed~~ indicated by the Province in the TPA) in exercising their duties under the Trust Declaration and TPA in distributing funds to LDCs for the benefit of beneficiaries across the province~~, including Hydro One~~.

The Trust Declaration will be subject to further modification by the Trustee, subject to the Province's protective right under the TPA to consent, not to be unreasonably withheld or delayed. The input and involvement of LDCs across the province is anticipated and integral to the success of the Trust in meeting its purpose. The **Principles,** to be considered in the exercise of its discretion**,** ~~will be~~is set out in both the Trust Declaration and the TPA.

In addition, a **Permitted Delegation Annex** forms part of the Declaration of Trust, which refers to an expectation that the Trust would rely on participating LDCs to assist with achieving the purpose of the Trust, including an expectation to (a) appoint, employ or retain ~~Administrative~~ Implementation ~~Services~~ Agents for the purpose of discharging its duties and obligations under the Declaration; and (b) enter into, perform, enforce and amend ~~administrative services~~implementation agreements.

Without limiting the Trustee's discretion to negotiate and settle the terms and conditions of the above-mentioned ~~administrative services~~ implementation agreements, the Permitted Delegation Annex also outlines certain expected components for the Trust to consider for inclusion in the implementation ~~administrative services~~ agreements, recognizing that the ultimate agreements would be subject to negotiation between the Trust and individual Electricity Distributors and the acceptance and agreement of the applicable Electricity Distributor counterparty. The Annex is subject to the Trustee's overall discretion and the Trustees are not bound to use the guidance provided.

CONTROL ANALYSIS

Commented [m3]: I believe the entire document should be analyzed after the signature of the transaction.

Commented [m4]: Is it done already?

Commented [m5]: Not sure they have been appointed as implementation agent in the Trust.

In accordance with PSAB, “the Government Reporting Entity should comprise the organizations that are controlled by the government” (PS 1300.07). PSAB defines control as “the power to govern the financial and operating policies of another organization with expected benefits or the risk of loss to the government from the other organizations activities” (PS 1300.08). Benefits may be financial or non-financial, for example, the government may require the organization to cooperate in pursuing the government’s public policy objectives.

PSAB’s “indicators of control” are the relevant guidance in determining the degree of control for inclusion of the Affordability Fund Trust in the Government Reporting Entity (GRE). In applying this guidance, it is necessary to determine the substance of the relationship between a government and an organization in addition to its legal form. All relevant aspects and implications of the relationship would be considered in determining whether or not the government controls the organization. In addition to PS 1300, consideration is also given the Trust Guidance and One-Time Transfer Guidance developed by OPCD in conjunction with the Office of the Auditor General which are attached as Appendices.

There are a total of 11 PSAB prescribed control indicators that provide evidence of control: 4 persuasive indicators of control and 7 other control indicators. It is the preponderance of evidence that would be considered in assessing whether a government controls an organization.

The following governing documents were reviewed in support of the analysis of the Province’s control over the Affordability Fund Trust:

1. ~~Draft~~ Trust Declaration ~~(March 20 5:30 pm)~~, including related schedules
2. ~~Draft~~ Transfer Payment Agreement ~~(March 20 5:30 pm)~~
3. OPCD Trust Guidance
4. OPCD Guidance on One-Time Transfers

The government’s intention not to interfere with the unfettered discretion of the Trustees in exercising their fiduciary duties is clearly communicated in the TPA and the Trust Declaration. In particular, Schedule A, Section 1.1(g) (Interpretations) of the TPA includes the following:

it is intended that the transfer of the Funds to the Recipient will be a transfer made to a trust that is not controlled by the Province (as the term “control” is used in *Government Reporting Entity* at paragraphs PS 1300.07-.24), and so if a term or condition of the Agreement is determined to conflict with the requirements applicable to the Province recording the transfers to the Recipient of Funds contemplated hereunder as an expense incurred by the Province on the date of the transfer of Funds under the Agreement otherwise in connection with activities undertaken by the Province with such a non-controlled trust, then such term or condition shall be given a meaning and shall have an effect insofar as it is possible to interpret such term or condition in a manner that eliminates such conflict while preserving the other provisions of the Agreement and furthering the Purpose.

Appendix I shows the detailed analysis of the Affordability Fund Trust based on a consideration of the of the PSAB indicators of control.

Specific extracts are included below which demonstrate that the province would not have unilateral power to dissolve the organization and access its assets during the normal course of the Trust's existence. With regards to the control criteria's suggestion of dissolving the organization and accessing assets, it should be noted that there are expected to be no assets at the end of the Trust's existence that could be returned back to the Province. The termination of the Trust at the end of the program and following the Final Distribution Date will be an administrative undertaking by the Trustees. In connection with the termination of the Trust, the Trustee shall identify the Residual Beneficiaries and distribute or cause to be distributed the remaining Assets, in cash or in kind or partly in each, to the Residual Beneficiaries, in each case in accordance with section 3.3. Despite the foregoing, the Trust will only be terminated and wound up after the Trustee, in its sole and absolute discretion, determines that all debts, liabilities and obligations of the Trust have been paid or otherwise adequately provided for and satisfied and upon receipt of such releases, indemnities and discharges as the Trustee, relying on the opinion of counsel, deems necessary for the protection of the Beneficiaries and for its own protection. **7.3 Distribution of Assets on Final Distribution Date** If the Trust holds Assets on the Final Distribution Date, the Trustee shall pay or provide reserves for the payment, and otherwise shall satisfy, all debts, liabilities and obligations of the Trust and shall	X

In weighing the evidence, it would be necessary to consider the indicators collectively as well as individually. For example, where an organization is governed by a publicly elected board, this is not necessarily, in and of itself, sufficient evidence to conclude that the government does not control the organization. Appendix II

ACCOUNTING CONSIDERATIONS FOR GOVERNMENT-FUNDED TRUSTS

DRAFT

Purpose:

The purpose of this guidance is to explore accounting-related considerations related to government-funded trusts which are established by the government to fund a specific purpose or activity. This guidance deals specifically with the difference between controlled and non-controlled trusts, the introduction of accountability provisions which can now be reflected in trust agreements, and key timing considerations for trusts contemplated towards year-end. It is important that these factors be taken into account when establishing a trust, in order to achieve the intended fiscal impact and appropriate accountability over the use of public funds.

Introduction:

Trusts are usually established by way of trust declaration or trust agreement, and are one of several means by which the government can direct funding to support key policy initiatives. Simply stated, trustees hold title to property for the benefit of, and stand in a fiduciary relationship to the beneficiaries. Trustees are accountable to third parties (beneficiaries) for the use and disposition of trust assets and for the funds derived from those trust activities. The trust itself is not a separate legal entity. The trustees carry out the activities of the trust in the name of the trustees.

Generally, direct year-end transfers are the preferred alternative over trusts where the province wants to retain ultimate decision-making authority regarding amounts to be transferred to recipients. Direct transfers are more appropriate where the identity of eligible transfer payment recipients is known and the amounts to be transferred to each recipient can be or has been determined.

Year-end transfers to a trust might be considered where the province desires to delegate to third parties ultimate decision-making authority regarding allocation of amounts amongst eligible beneficiaries.

A trust must be valid for legal purposes in order to be recognized for accounting purposes. Key requirements for a trust to be valid include: an intention to create a trust ('certainty of intention'), certainty of subject-matter of the trust ("certainty of subject matter") and the objects of the trust must be certain ('certainty of objects"). There are generally two different types of trust, a trust in which the objects are the "beneficiaries" and trust in which the objects are a "purpose" (e.g. for charitable purposes). Where a trust is under serious consideration, it is imperative that ministries seek legal advice to ensure that the contemplated trust will be valid.

Trustees are obligated to follow the terms of the trust declaration or trust agreement which will usually detail the powers and duties of the trustees including the number of trustees and how decisions will be made by the trustees.

Controlled versus Non-Controlled Government-Funded Trusts

From an accounting perspective, it is important to distinguish whether the design and governance of a particular trust results in the trust being controlled by the Province for accounting purposes. Control stems from the nature of the relationship between the government and the trust. Financial and operating policies are principles that determine how an organization conducts its activities. The ability to govern these policies is an important element of government control.

The means by which a trust is established, the government's representation among the trustees, the government's involvement in the trust's governance processes and ability to impact trustee discretion in decision-making are but some of the factors to be considered in assessing whether a trust is 'controlled' or 'not controlled' by the government.

In establishing a trust, it is important to achieve the intended relationship between the province and the trust in order to achieve the intended fiscal impact.

Non-Controlled Trusts:

Where trusts are not controlled by the Province, they are excluded from the government reporting entity. For non-controlled trusts, the following accounting would apply to trust funding:

- Where funds provided to the "trust" are unconditional, the Province would record a transfer payment expense for any transfers approved in the current period (and flowed by finalization of public accounts).

- Where funds provided to the "trust" are conditional (i.e. upon the trust completing some specific task or result), the Province would initially record funding to the trust as a prepaid expense until the conditions are met at which time the Province would record a transfer payment expense, with the corresponding credit to prepaid expense. This may occur over a number of fiscal years.

In determining whether a trust is controlled, there are a variety of ways that a government might be perceived to be governing the financial and operating policies of a trust. These include:
- Eliminating or significantly limiting the ability of the trustees to make future decisions
- Directing the financial and operating policies of the trust
- Overruling, modifying or vetoing the financial and operating policies established by the trust.

Specific factors that should be considered in establishing a non-controlled trust include:
- Government representation in the trustees (should be in a minority position), and non-government trustees should be nominated by non-government sources
- Government influence over day-to-day trust governance and trustee discretion to make decisions (e.g. selection of eligibility criteria, selection of recipients).
- degree of influence over how funds are disbursed (i.e. the Declaration of Trust can provide general guidelines but not be overly prescriptive)
- the government's power to unilaterally appoint or remove the majority of trustees
- the government's on-going access to the trust's assets, or right to direct decisions regarding the flow of those assets to specific beneficiaries
- the government's unilateral power to dissolve the trust, except under specified circumstances as stipulated by the trust agreement (i.e. corrective action)
- the government's ability to establish or amend the policies used by the trust to manage accounting, personnel, deployment of resources, etc.

In some cases, it may be advantageous for ministries to provide administrative support to trusts. In these cases it is important that the extent of such support is not so pervasive as to influence or direct the day-to-day financial or operating policies of the trust, otherwise the trust will be deemed controlled and will be subject to consolidation in the government reporting entity.

Controlled Trusts:

If the Province controls the trust (for example, through its power to appoint a majority of the trustees on the board of trustees), the Province would be deemed to have control of the trust, resulting in the trust being accounted for in the same manner as other organizations controlled by the province (i.e. on a consolidated basis). As a result, the Province's contribution to the trust would not be expensed when it is transferred, but rather over time as the funds are disbursed to trust beneficiaries.

Accountability Related Considerations:

The Auditor General has confirmed that the new accountability provisions developed for one-time transfers can also be applied to trusts without impacting the expense treatment of any transfers to non-controlled trusts.

These new accountability provisions will enable the government and the Legislature to:

- obtain assurance that a trust is spending public funds prudently and for the purposes intended and to take corrective action if it is not;
- ensure ministerial accountability to the Legislative Assembly for the trust's activities; and
- ensure that the province is able to take corrective action where warranted and as stipulated under terms of the trust agreement.

It should also be noted that the Auditor General's Act now allows the Province's Legislative Auditor to conduct special audits of any person or organization receiving transfers from the government, including trusts.

To enhance accountability controls over government transfers to non-controlled trusts, Ministries can consider incorporating some or all of the following accountability provisions as part of their trust agreement/declaration without impacting the accounting treatment of the trust.

The inclusion of any of these provisions should not result in a trust being assessed as 'controlled'. Note that the key determinant in identifying appropriate provisions for any individual trust is a ministry's assessment of the **risk** associated with a particular trust, as per the Transfer Payment Directive.

1. **Description of intended use of trust funds**;
    - specific purpose(s) for which the funds are to be used;
    - description of intended recipients and related eligibility criteria*; and,
    - the nature of eligible expenditures relevant to the transfers.

    *Note: avoid *overly prescriptive* eligibility criteria which would effectively eliminate or significantly limit the trustees' discretion to make funding decisions.

2. **Requirement for information**
    - Information to be provided by the trust at a future date (e.g. requirement for trustees to advise the government of trustee-developed performance criteria, and provide annual assessments against those criteria)

3. **Report-back requirement for Public Accountability**
    - information to be provided by the trust at a future date with respect to the stewardship and payment of transfer funds (e.g. audited financial statements, audited list of recipients and amounts funded).

4. **Right to independent verification/audit**
    - The Province reserves the right to audit any transfer payment recipients. The trust agreement should make reference to this fact.

5. **Right to take corrective action**
    - Where stipulated under the trust agreement, the Province reserves the right to re-direct unused funds where results of a trust assessment (where required by the trust agreement) indicate original purpose of the trust is not being achieved, or if there remain unused funds at the end of the trust term.
    - Province may also reserve the right to extend the term of the trust agreement, where funds remain at the end of the trust period.

To qualify for in-year expense treatment, the non-controlled trusts must satisfy the following:

DRAFT

- the decision to establish the trust must have been approved by Treasury Board/Management Board of Cabinet and ratified by Cabinet by March 31st;
- the ministry providing the transfer must have approved appropriations and spending authority by March 31st;
- Trustees must have been identified and signed the trust declaration or agreement to establish a valid trust by March 31st ;
- the trust must be set up and ready to receive funds, and a nominal amount transferred to the trust by March 31s;t ; and,
- the government should have communicated publicly (e.g. in the Budget document) the pending or final establishment of the trust.

In addition, all remaining funds beyond those initially transferred at March 31st should be transferred to the trust by June 30th.

Trusts
Questions and Answers on Trust Guidance

Question: *Where a trust is announced in the Budget document, must the trust be established by March 31st, or could such a trust be established shortly thereafter without impacting the expensing of transfers to the trust in 2007-08?*

Answer: *A trust would have to be established prior to the end of a fiscal period in order to satisfy the recognition criteria for government transfers. If the intended recipient for a government transfer does not exist at March 31st, the province cannot record a payable owing to it under existing accounting standards.*

Question*: Does the transfer of funds to a non-controlled trust need to occur by March 31st or before the date of Public Accounts finalization?*

Answer: *Consistent with the new requirements for one-time transfers, as long as the trust is established by March 31st, the transfer is authorized and a reasonable estimate of the amount can be made, cash payments can be made after year-end.*

Question: *Can beneficiaries of a non-controlled trust include consolidated entities provided that the ultimate selection of recipients is at the discretion of the Trustees?*

Answer: *Any amounts provided to a trust which are in turn be provided to an organization inside the government reporting entity should not be expensed at the time of the transfer to the trust. Any amount that is flowed to a trust with the intention of subsequently flowing the funds to a consolidated entity should not be recorded as an expense to the government.*

Question: *Can a Ministry provide administrative support to a trust without compromising the non-controlled status of the trust?*

Answer: *The government can provide administrative support as long as the extent of government administrative support is <u>not so pervasive</u> so that the government is in substance establishing and managing the trust's policies in the areas of accounting, personnel, compensation, collective bargaining or deployment of resources. Where such administrative support is assessed as pervasive, it could impair the trust's non-controlled trust and the trust will be consolidated onto the province's financial statements.*

Can the following clauses appear in a trust agreement for a non-controlled trust to ensure adequate accountability over public funds without impacting the expense treatment of such trusts?

Question*: Specific description of purpose of the trust (possibly including nominal allocation among various objectives)*
Answer: Yes.

Question: *Can the trust agreement include a specific description of the intended groups of beneficiaries and detailed eligibility criteria.*

Answer: *Specificity should be applied cautiously, so as not to limit the discretion of the trustees in their subsequent grant making processes. For the trust to be considered 'not controlled' it should not be seen as 'establishing the trust's fundamental purpose and eliminating or significantly limiting the ability of the trust to make future decisions by predetermining the financial and operating policies of the trust.*

DRAFT

Question: *Can trustees stipulate that funding is to be provided to beneficiaries on a cost-sharing basis?*
Answer: *Yes.*

Question: *Can the trust agreement include a requirement for a trust to report back to the province on trustee-established performance criteria and results, audit of financial statements, audited recipients and amounts, confirmation that trustees communicated to beneficiaries the intended purpose of the funding, etc.*
Answer: *Yes.*

Question*: Requirement for Trust to publicly post communications on existence, availability of funds, eligibility criteria, recipients and amounts granted to each recipient.*
Answer: *Yes*

Question: *Inclusion of a 'suggested' drawdown schedule over a period of years, with discretion left to Trustees as to actual results.*
Answer: *The inclusion of a drawdown schedule is not suggested for one-time, up-front transfers.*

Question: *Trust agreement can suggest accountability provisions which might be attached by Trustees to beneficiary payments (e.g. specific purpose of funding, requirement for report-back, right to audit, corrective actions).*
Answer: *Yes*

Question: *Trust agreement to reserve the province's right to re-direct any unspent funds to specified parties (e.g. non-consolidated entities or another non-controlled trust) at the end of the trust term, or alternatively to extend the term of the trust where unspent funds remain.*
Answer: *Yes*

Question*: Can the trust agreement include the requirement for evaluations of the trust at certain times (e.g. years 3, 7, 10 of the trust agreement), with the right for the government to decide either to terminate the trust (corrective action) based on the results of the assessment, or extend the trust beyond the initial term as per the agreement.*
Answer: *Yes.*

Question: *Trust agreement can require Trustees to request as part of the funding process that beneficiaries acknowledge receipt of government funding in their public communications on specific projects.*
Answer: *Yes.*

Appendix III

ACCOUNTING TREATMENT FOR ONE-TIME TRANSFERS WITH ENHANCED ACCOUNTABILITY PROVISIONS

Purpose:

The purpose of this guidance is to identify the nature of the accountability provisions which may be associated with one-time transfer payments that qualify for immediate expense treatment in the current period.

Definition of One-time transfers:

One-time transfers are defined as lump-sum operating or capital transfers that

- are not advancing currently planned future transfer payments under an existing on-going program, or
- are not identified as being intended to be spent in specified future periods or over a specified period of time.

Background:

Transfer payments are a means by which the government works with third parties to deliver public services. Transfer payment recipients must be held responsible by the government to deliver the provincially-funded services and be accountable for the funds they receive. Consistent with the *Transfer Payment Accountability Directive, August, 2007*, a risk-based approach is to be followed in designing the appropriate accountability and reporting mechanisms for specific funding agreements.

The current *PSAB Handbook Section 3410, Government Transfers requires that a government transfer should be recognized by a transferring government as an expense in the period the transfer is authorized and all eligibility criteria have been met by the recipient.*

To recognize a liability and expense as at year-end:

- the government must create a valid expectation of the recipient by year-end, leaving the government little or no discretion to avoid but to settle its obligation;
- no significant, contingent actions should be outstanding which if unfulfilled by year end might cause the transfer not to occur.

It is understood that the intention of negotiating a transfer payment agreement following the government's commitment to the recipient is to work out the administrative details of the arrangement, not to change any key elements of the government's commitment. As such, any correspondence which indicates that funds will not be flowed until a TPA is signed should make clear that the nature of additional details to be negotiated is logistical and administrative in nature (bank account info, reporting requirements, etc.)

The government should not suggest or direct the recipients to use the funding for future periods.

DRAFT

To enhance accountability controls over one-time transfers accountability provisions one through five below are required for one-time transfers.

1. **Description of intended use of one-time transfer funds**;
   - specific purpose(s) for which the funds are to be used; and,
   - the nature of eligible expenditures relevant to the transfers.

2. **Report-back requirement for Public Accountability**
   - Periodic reporting on the use of transfer funds, service deliverables, outputs or outcomes achieved.

3. **Right to independent verification/audit**
   - at the discretion of the Province to verify/audit information submitted by the recipient is complete and accurate, and that funds were used for purposes intended.

4. **Right to recover funds (corrective action)**
   - If the funds were not used, or will not be used, for the intended purpose(s), specified services were not delivered, or intended outputs were not achieved, the Province has the right at a future date to recover funds transferred.

5. **Requirement for information** (*this item optional*)
   - information to be provided by the recipient at a future date with respect to the use of transfer funds, service deliverables, outputs or outcomes achieved.

To qualify for in-year expense treatment, the transfers must satisfy the following:

- be approved by Treasury Board / Management Board of Cabinet and then ratified by Cabinet by March 31st;
- the ministry providing the transfer must have approved appropriations and spending authority by March 31st;
- the recipients must be eligible to receive the grant by March 31st (i.e. eligibility criteria have been met prior to March 31st), and the intent to make the transfer payment must be communicated to the recipients by March 31st;
- In addition, funding details including accountability provisions must be communicated to the recipients, and the transfer payments must be made to the recipients prior to the finalization of the Public Accounts (currently June 30th);
- Where funds are flowed to recipients by March 31st, all eligibility criteria are assumed met for accounting purposes[1], and all amounts flowed are recorded as an expense, even where conditions might exist which remain unmet at March 31st.

[1] PS 3410, Government Transfers, states that "no matter how a transfer term is identified in legislation, regulations, by-laws or a transfer agreement (i.e., as an eligibility criterion or a stipulation), the crucial characteristic that distinguishes the substance of these two types of transfer terms is when they are required to be or are met by a recipient. If a term is required to be and is met before the transfer is provided, it is an eligibility criterion for the purposes of this Section. If a transfer term is met after the transfer is provided, it is a stipulation for the purposes of this Section".

No problem at all. I'm starting my high level summary based on the following outline…

1) PSAB trust guidance (limited)

2) OPCD Guidance on trusts (controlled vs. non-controlled)

3) PS 1300 assessment

I think we should be fine as a line of defence, especially based on last week's discussion at the ADG.

Hi Michel.

I just wanted to share the final signed docs. Thanks again for all of your help!! I'll be updating my control analysis again this evening. If you have any comments on the revised draft I sent you yesterday, it would be much appreciated.

I attended the PSAB ADG last week, and I've been pondering some of the discussion. It may influence the final documentation on the accounting, once the control analysis is complete. Would welcome a chat with you on that front when you have some time.

Talk soon,

Nadine

Hi Morag,

Please see attached for tracked and clean versions of the TPA and Declaration. The tracked versions are compared to the versions you saw yesterday.

Would it be possible to send us signed copies of the two documents by email by 6:30pm

today?

Declaration- Next Steps

· Could you sign two copies of the clean version of the Declaration (one for us and one for you) and email us a scanned copy.

· We will pick up our copy of the original Declaration tomorrow morning.

TPA- Next Steps

· Could you sign three copies of the clean version of the TPA (two for us and one for you) and email us a scanned copy (entire version- including signature and non-signature pages)

· Our Deputy Minister will then sign on three printed copies.

· Tomorrow we will pick up two copies of the TPA that you signed and give you one copy of the TPA our Deputy signed.

Thanks!

Hello Lisa,

Please find attached updated versions of the TPA and Declaration. Changes are tracked against the previous versions we had sent you.

There are three main outstanding elements that we are working to address:

1. On page 2 and 10 of the TPA, we need to add Computershare's relevant contact info. Could you kindly add this to the TPA?

2. For now we have left a placeholder for the effective date. We will replace that with tomorrow's date once you review.

3. Both documents have some formatting issues (Blakes is working to address):

- inconsistent page numbering and footers for both the TPA and Declaration

- incorrect sub section numbering in Annex A of the TPA

- Schedule B reference to the hospitality directive needs to be updated

Could you kindly review the TPA and Declaration and give us your final OK. Appreciate if you can let us know by tomorrow morning (Mar 23).

We can then circulate clean versions for your signature.

Thank you,

Emma

Hi Michel.

I just wanted to share the final signed docs. Thanks again for all of your help!! I'll be updating my control analysis again this evening. If you have any comments on the revised draft I sent you yesterday, it would be much appreciated.

I attended the PSAB ADG last week, and I've been pondering some of the discussion. It may influence the final documentation on the accounting, once the control analysis is complete. Would welcome a chat with you on that front when you have some time.

Talk soon,

Nadine

Hi Morag,

Please see attached for tracked and clean versions of the TPA and Declaration. The tracked versions are compared to the versions you saw yesterday.

Would it be possible to send us signed copies of the two documents by email by 6:30pm

today?

Declaration- Next Steps

· Could you sign two copies of the clean version of the Declaration (one for us and one for you) and email us a scanned copy.

· We will pick up our copy of the original Declaration tomorrow morning.

TPA- Next Steps

· Could you sign three copies of the clean version of the TPA (two for us and one for you) and email us a scanned copy (entire version- including signature and non-signature pages)

· Our Deputy Minister will then sign on three printed copies.

· Tomorrow we will pick up two copies of the TPA that you signed and give you one copy of the TPA our Deputy signed.

Thanks!

- Usman

Hello Lisa,

Please find attached updated versions of the TPA and Declaration. Changes are tracked against the previous versions we had sent you.

There are three main outstanding elements that we are working to address:

1. On page 2 and 10 of the TPA, we need to add Computershare's relevant contact info. Could you kindly add this to the TPA?

2. For now we have left a placeholder for the effective date. We will replace that with tomorrow's date once you review.

3. Both documents have some formatting issues (Blakes is working to address):

- inconsistent page numbering and footers for both the TPA and Declaration

- incorrect sub section numbering in Annex A of the TPA

- Schedule B reference to the hospitality directive needs to be updated

Could you kindly review the TPA and Declaration and give us your final OK. Appreciate if you can let us know by tomorrow morning (Mar 23).

We can then circulate clean versions for your signature.

Thank you,

Emma

OK to leave 3.3 as worded, but based on review of the TPA by KPMG and OPCD, still suggest the following…

- Perhaps remove (on second thought) the procurement principles and just leave the generic reference to best value.

- Schedule D – remove reference to 'requirements of Schedule C' as they are no longer requirements

I think that MOE would be willing to push for the change, but in rethinking the reason for the clause in the first place (to avoid being force to pay $ out to charities just because of unanticipated delays), it is likely worth leaving as was originally drafted and seeing if the AG raises any concerns significant enough to threaten the control analysis. The suggestion as discussed (and I thought was agreed to)…

3.2Extension. The term of the Agreement may be extended by further agreement between the Parties.

3.3 Extension of the Declaration of Trust. ~~If the Province determines that an extension of the Declaration of Trust (beyond the "Final Distribution Date" and time for termination, each as specified or determined thereunder) is consistent with and in furtherance of the Purpose and the Province's original intentions and expectations in establishing the Project, the Province may request that the Recipient extend the Declaration of Trust to a date specified by the Province in a Notice (such date not to be later than •), whereupon the Recipient, Where the parties agree under 3.2, to an extension of the date, it is expected that so long as the Trustee does not have a reasonable basis to believe that such an extension would be inconsistent with the Purpose or weaken the protections intended for the benefit of the Trustee pursuant to the Declaration of Trust~~, If under 3.2, the parties agree that the term of the Agreement may be extended, ~~will~~ it is expected that the Trust will undertake such actions as it may consider to be necessary or appropriate to so extend the Declaration of Trust, including by amending the Declaration of Trust to provide for such an extension and to modify any other term or requirement as would be necessary or prudent to conform such term or requirement in light of such extension.

The suggestion as discussed (and I thought was agreed to)…

3.2Extension. The term of the Agreement may be extended by further agreement between the Parties.

3.3 Extension of the Declaration of Trust. ~~If the Province determines that an extension of the Declaration of Trust (beyond the "Final Distribution Date" and time for termination, each as specified or determined thereunder) is consistent with and in furtherance of the Purpose and the Province's original intentions and expectations in establishing the Project, the Province may request that the Recipient extend the Declaration of Trust to a date specified by the Province in a Notice (such date not to be later than •), whereupon the Recipient, Where the parties agree under 3.2, to an extension of the date, it is expected that so long as the Trustee does not have a reasonable basis to believe that such an extension would be inconsistent with the Purpose or weaken the protections intended for the benefit of the Trustee pursuant to the Declaration of Trust~~, If under 3.2, the parties agree that the term of the Agreement may be extended, ~~will~~ it is expected that the Trust will undertake such actions as it may consider to be necessary or appropriate to so extend the Declaration of Trust, including by amending the Declaration of Trust to provide for such an extension and to modify any other term or requirement as

would be necessary or prudent to conform such term or requirement in light of such extension.

OK to leave 3.3 as worded, but based on review of the TPA by KPMG and OPCD, still suggest the following…

- Perhaps remove (on second thought) the procurement principles and just leave the generic reference to best value.

- Schedule D – remove reference to 'requirements of Schedule C' as they are no longer requirements

Nadine,

Michel did reach out to me. I have provided my comments and experience.

Do you have time for a quick call today to understand the requests and objectives around discount rate?

I am available from 10:30 to 11, 2 to 3:30 or after 4:30.

Alec

Alec/Samir,

I'm assuming that your feedback will be through the CEA as in the past? If you think it would be helpful for the Province to provide a response, please let me know. At this time, I'm not contemplating any feedback.

Thanks.

Hi Nadine,

I trust all is well with you.

Do you have any feedback for Jane? Jane is the IASB staff responsible for the Rate-regulated project. I have already shared this with Alec and Samir.

Have a great day,

Hi Michel

I hope that all is well with you.

I am speaking at an event in Brussels next Wednesday and have been asked whether there is any feedback that I can provide on the reaction to IFRS 14 from users or preparers.

I know it's a bit early for a full picture to emerge in Canada yet but is there any useful message that I could pass on to European preparers?

Best regards

Jane

CONFIDENTIALITY AGREEMENT

Confidentiality Agreement

During and for 5 years following the term of the Agreement between **KPMG LLP** (the "Vendor") and Her Majesty the Queen in right of Ontario as represented by the **Treasury Board Secretariat** and during and following the term for 5 years of each Statement of Work entered into by the Vendor and pursuant to the Agreement (collectively, the "Agreements"), the undersigned agrees with the Vendor to use commercially reasonable efforts to keep confidential and secure all Confidential Information to which the undersigned may have access to in the course of the performance of services pursuant to any of the Agreements (including requests for services) or otherwise in connection with any of the Agreements (including requests for services). "Confidential Information" means all information of the Ontario Public Service and of the Client's subcontractors at any tier of subcontracting that is confidential by its nature or in the circumstances in which it is received, including all confidential information in the custody or control of the Ontario Public Service, regardless of whether it is identified as confidential or not, and whether recorded or not, and however fixed, stored, expressed or embodied, which comes into the knowledge, possession or control of the Vendor in connection with any of the Agreements. "Ontario Public Service" means the ministries and other administrative units of Her Majesty the Queen in right of Ontario ("Ontario") over which ministers of Ontario preside, and for the purposes of this Confidentiality Agreement, includes Ontario and Ontario's agencies, boards, commissions and Crown corporations, offices of an officer of the Legislative Assembly or of the Ontario Legislature and Listed Entities, and "**OPS**" has the same meaning.

The undersigned acknowledges that the Client is bound to maintain custody of or control over information, material and records, however recorded, within the meaning of the *Freedom of Information and Protection of Privacy Act* ("FIPPA"). The undersigned agrees to comply with the privacy provisions of the Agreements in the course of providing services pursuant to the Agreements.

The undersigned shall not directly or indirectly disclose, destroy, exploit or use any Confidential Information except for the purpose of performing services pursuant to the Agreements, or as otherwise required in compliance with applicable law, regulation or professional standards. The undersigned shall not copy any Confidential Information, in whole or in part, unless copying is essential for the performance of services pursuant to the Agreements. On each copy, the undersigned must reproduce all notices that appear on the original.

The undersigned acknowledges that the Vendor is obliged to implement and maintain commercially reasonable measures to protect the security and integrity of Confidential Information and to protect it against loss, alteration and destruction and against access by unauthorized persons, and to select, implement, use and maintain appropriate products, tools, measures and procedures to do so. The undersigned covenants and agrees to adhere to all of the measures instituted by the Vendor.

Except as otherwise required in compliance with applicable professional standards, the undersigned agrees to return all Confidential Information, including all copies and portions thereof, to the Vendor or to the Client with no copy kept by the undersigned as soon as the need to possess them ends, at the request of the Client, and in any event, prior to concluding the performance of services pursuant to the applicable Agreements.

Nothing in this agreement shall prevent the Vendor from conducting its engagements for the Treasury Board Secretariat in accordance with firm policies and professional standards, or from conducting its normal review and quality assurance processes with regard to engagements for the Treasury Board Secretariat.

Hi Nadine:

Lee Anne and I have started a high level review of the contaminated sites documents. On first read, we do not expect to have significant comments from a policy perspective. I suspect it will be tomorrow before we get through initial read of the documents though so I would suggest a call late afternoon tomorrow. I am available between 2:30-5:30 tomorrow. We will perform a more detailed analysis against the PSAS standard with a goal of providing any further comments by Feb 23.

Lee Anne will follow up with an email on the other issues we have been discussing related to the IESO. Please let me know your availability for a call tomorrow afternoon.

Thanks,

Suzie

Suzie/Lee Anne,

The OAG will be conducting a follow up audit on our Contaminated Sites management in the coming weeks. We are looking forward to your feedback on the draft policy and guidelines in advance of recirculating them to the ministries and the OAG.

Just wondering if you would like to arrange for a call sometime today to walk through your comments? Otherwise, we'll look forward to receiving your feedback via email.

Thanks in advance.

Suzie/Lee Anne,

Please find attached a draft copy of OPCD's Accounting Policy and Guidelines for your review, as well as the accompanying template summarizing our request related to this item.

As you'll note from the template, the purpose of this initial request is to seek your general/high level feedback, focusing on any comments you may have based on your experience with interjurisdictional policies and guidelines on contaminated sites (including the Federal Government).

It is our plan to recirculate the draft accounting policy and guidelines with the ministries early next week, and subsequently with the AG for additional feedback.

If it is possible to receive your high level feedback by next Tuesday, it would be much appreciated. With regards to the more detailed feedback, if we could receive additional feedback by Feb. 23rd we could take it into consideration in finalizing the document for release in early March.

Please let us know if this timing will work for you.

Regards,

Nadine

Subject: Contaminated Sites Policy & Guidelines (For review)

Suzie/Lee Anne,

Please find attached a draft copy of OPCD's Accounting Policy and Guidelines for your review, as well as the accompanying template summarizing our request related to this item.

As you'll note from the template, the purpose of this initial request is to seek your general/high level feedback, focusing on any comments you may have based on your experience with interjurisdictional policies and guidelines on contaminated sites (including the Federal Government).

It is our plan to recirculate the draft accounting policy and guidelines with the ministries early next week, and subsequently with the AG for additional feedback.

If it is possible to receive your high level feedback by next Tuesday, it would be much appreciated. With regards to the more detailed feedback, if we could receive additional feedback by Feb. 23rd we could take it into consideration in finalizing the document for

release in early March.

Please let us know if this timing will work for you.

Regards,

Nadine

Just weighing in on this – not clear to me how IESO sells an asset with a book value of 30 and OPG Trust recognizes the same asset with a book value of 30.77.

Michel,
Attached is the revised spreadsheet including updated amounts to reflect the additional interest components as provided by OPG in the weekend.
As you'll see, the current year's interest expense is recognized by the Trust which also reports an increase in its intangible asset to include the interest component for future recovery.
The additional amount borrowed does not actually flow through to the IESO, but rather is limited in relevance to the Trust and its financing sources.
I assume that this is doable under IFRS? This would not constitute the 'interest on intangible' issue that was raised earlier?

Call at 9:45 included -- OPCD (Nadine + me), OFA (Ken K), OPG (Alec Cheng and John Mauti) and KPMG (Michel Picard).

We covered the OEB issue again – nothing new.

We discussed how OPG Trust will recognize revenue related to the interest charges from Day 1 – I've asked OPG to ensure they communicate with Energy re: legislation being drafted in line with this understanding and any communication will taking this into account (depending on the level of detail in communications, this may be addressed.) This issue is critical to the Province not having a fiscal impact from the transaction (excluding consideration of any differential in interest rates.)

OPG expects to have a draft whitepaper ready for tomorrow (we haven't seen a draft).

Subject: Electricity -- Update from 8 pm accounting call

Call at 8 included – OPCD (Nadine + me), OFA (Ken K), IESO (Kim Marshall) and KPMG (Michel Picard).

We largely focused on the OEB issue as OPG was not available (planning to speak to them at 9:45 this evening).

Michel and Kim M were at one of the OEB meetings on Friday, but not for the entire meeting. Serge mentioned there were two meetings on Friday. We discussed that tomorrow, it would be best for Steen/Scott Nelms to provide an overview of the meetings with the OEB.

With respect to the accounting implications, we discussed that there is some precedent in Canada for entities applying rate regulated accounting when their own Board acts as the governing body in setting rates. Michel is going to provide the examples he is aware of (NAV Canada, a BC Ferries organization and one other). We need to do some additional due diligence on this, but the idea is whether the IESO Board could act as the governing body.

The wording of the accounting criteria that is at risk is:

(a) The regulated business-type activity's rates for regulated services provided to its customers are established by or are subject to approval by an independent, third-party regulator **or by its own governing board empowered by statute or contract to establish rates that bind customers.**

Because the OEB is not considered independent from an accounting perspective (controlled by the Province), the OEB is viewed as meeting the bolded section above (Nadine – feel free to provide more context). The idea being considered is whether there could be two regulators for IESO – OEB for part of their business and IESO Board another part of their business. I've asked Kim M to speak to this idea tomorrow morning from an accounting perspective re: IESO.

In an already complex transaction structure, it would be simpler for the OEB to regulate the GA smoothing, so in my view, this idea adds complexity and risk to the structure. In

addition, as noted, we need to complete our due diligence on the idea (which folks are working on.)

Thanks Nadine.

I agree with you that reduction of costs is better under US GAAP. Under the potential new standard under IFRS, it will be a revenue rather than a reversal of the expense. BTW, IESO does not show the P/L impact as they would be considered an agent.

I am trying to fine justification to reduce the regulatory asset rather than to create a liability. My preferred treatment as well.

Michel

Hi Michel.

I had a chance to review the draft entries with Cindy, and below are additional considerations. In particular, #3 and #4 have suggested edits. N

The journal entries to reflect the above discussion are as follows:

1. to record the energy purchased from generators

Dr Energy purchased 100

Cr Generators 100

2. to record the amount collected from the distributors

Dr Cash 90

Cr Revenue 90

3. to record the remaining amount to be collected from the distributors over a period of 20-30 years in accordance with legislation and the OEB ‘s direction

Dr Regulatory asset 10 Can IESO record a regulatory asset? In order for costs to be RA, has to be part of IESO’s incurred costs.

Cr Energy Purchased ~~Revenue~~ 10

4. to record the cash received from OPG to finance the remaining 10% payments to the generators

Dr Cash rec’d OPG 10

Cr ~~Due to OPG~~ Regulatory asset 10 The alternative is to eliminate the regulatory asset instead of creating a liability. (CV’s view supports the alt treatment)

5. to record the payments to generators

Dr Generators 100

Cr Cash 100

It's moving at a fast pace, and any control risks would better be id'd sooner than later. I think it would be reasonable for you to review a working draft now. Samir and Alex (legal) should have a current version as of last night. Please let me know if I can help. N

In the absence of IESO selling a regulatory asset to OPG Trust, what is IESO selling? It would seem to be that the transaction would then be more akin to the sale of future revenues, which is typically accounted for as a financing transaction.

I would be interested in understanding more the opportunity to pursue additional discussions with the OEB -- is that door closed?

Normally, in a related party transaction, one party would set up an asset the other party should have a liability (or a reduction of asset). Given this principle, in my view, the proper accounting should be a hit to the Province or IESO books to offset the asset on the sale to OPG reflecting the sale of future cash inflows. Without a regulatory asset, this would result in the deferred amount flowing through the provincial deficit.

Thanks John.

I was thinking that the asset was sold on a daily basis but not necessarily settle on a daily basis.

The reason of the daily sale was to match the energy cost incurred to avoid having an accounting loss.

Instead of daily, the sale could take place on, at least, on a monthly basis to avoid any accounting impact on IESO's monthly income statement. The settlement should be made to meet the cash outflows requirement.

I believe there is a risk for the AG to refuse rate regulated accounting under PSAB. Without the intervention of the OEB, OPG should be able to get a better rating of the bonds.

We've taken it to the extreme of the position that the asset is never on the IESO's books because it settles daily (so it's not a tranche on a quarterly or semi annual basis but basically 365 tranches per year).

What you're suggesting is that OPG recognizes an asset that the IESO so no ability to set up on its own. Doing it daily does not change that fact in my opinion.

My suggestion:
"Desire to be involved" was never a criteria for this plan..... why not compel the OEB to adhere to the legislation and write them in to limit their involvement to ensuring the recovery is as per allowed in the legislation (no ability to alter or really make any decision other than the legislation and subsequent regulation are being followed). All,

As you know by now, the OEB believes that they should not be involved with the approval process of the regulatory asset.

In the absence of regulatory accounting, PSAB requires that the energy purchased (the unrecognized regulatory asset) be expensed immediately.

If the sale contract would be set-up in a way that the unrecognized asset is sold to the OPG Trust on a daily basis, then an offsetting revenue would be recorded.

As IESO is an agent for the market participants, IESO is showing the market transactions in the income statement on a net basis.

Therefore, no impact on the income statement and the sale would be recorded as a receivable from the OPG Trust.

The accounting treatment in the IESO's books should not impact the nature of the asset purchased by the OPG Trust, as I believe it would still be considered an intangible asset.

The new accounting approach would:

· not require the approval of the OEB;
· not require IESO to adopt regulatory accounting under PSAB; and · permit the legislation to be as tight as possible for the right to collect the intangible asset; and · not require the consolidation of the market books.

I would appreciate your comments on the proposed approach above.

Ps: Is this the magic that Andrew was expecting!

Nadine,

To reiterate, OPG will not be commenting or concluding whether we continue to be a GBE for government reporting purposes.

The Province can use our white paper and its conclusions to evaluate the criteria and risks as far as OPG operating in a self standing manner, including this transaction. But as we state, that will depend heavily on the legislation, trust indenture, etc.

Ken reiterated as much in his email (attached).

There will be no risk assessment of conclusion as to GBE status coming from OPG.

Hi John/Alec,

Just following up on my email of last week regarding consideration of OPG as a GBE under the GA cost deferral scenario. I wouldn't anticipate that OPG's status as a GBE would change as a result of the proposed structure (assuming that your stipulated requirements are addressed), but as your risk analysis in the whitepaper acknowledges, uncertainty is inherent. Ken also made a good point earlier today w.r.t. financing rate risks and resulting exposure to OPG's GBE status in the event of financing rate risks and ability to continue to fund the Trust. It is probably worthwhile to raise a risk like this in the analysis.

I'm assuming that the analysis will be completed by your team based on a conversation I had with Cindy last Wednesday in which she mentioned that Ken said that the analysis would be done by OPG. Please let us know when you might have a draft analysis to share, and if you require any assistance.

Hi John.

As mentioned earlier today, I haven't been able to find a prior assessment of OPG as a GBE. You will note that the attached PSAB document includes an electricity sector example in its discussion on GBEs (http://www.frascanada.ca/standards-for-public-sector-entities/resources/reference-materials/item14956.pdf). As a starting assumption, we believe that OPG is appropriately classified as a GBE and this classification has not been questioned by the OAG to date.

The following table provides an overview of the key criteria which need to be assessed in considering whether an entity is a government business enterprise, which are further discussed in the attached handbook extract on section 1300, The Government Reporting Entity. The focus of the current discussion is OPG's ability to maintain its

GBE status under the envisioned transaction structure. Please let us know if we can provide any assistance in completing the analysis of OPG.

Regards,

Nadine

Section 4 - Summary of Evaluation for Government Business Enterprises (PS 1300)

Criteria Applies

Yes/No

Required Characteristics of a Government Business Enterprise

(A) It is a separate legal entity with the power to contract in its own name and that can sue and be sued

(B) It has been delegated the financial and operational authority to carry on a business

(C) It sells goods and services to individuals and organizations outside of the government reporting entity as its principal activity; and

(D) It can, in the normal course of its operations, maintain its operations and meet its liabilities from revenues received from sources outside of the government reporting entity.

Conclusion (Must meet all four characteristics to qualify as a GBE):

Hi John/Alec,

Just following up on my email of last week regarding consideration of OPG as a GBE under the GA cost deferral scenario. I wouldn't anticipate that OPG's status as a GBE would change as a result of the proposed structure (assuming that your stipulated requirements are addressed), but as your risk analysis in the whitepaper acknowledges, uncertainty is inherent. Ken also made a good point earlier today w.r.t. financing rate risks and resulting exposure to OPG's GBE status in the event of financing rate risks and ability to continue to fund the Trust. It is probably worthwhile to raise a risk like this in the analysis.

I'm assuming that the analysis will be completed by your team based on a conversation I had with Cindy last Wednesday in which she mentioned that Ken said that the analysis would be done by OPG. Please let us know when you might have a draft analysis to share, and if you require any assistance.

Regards,

Nadine

Subject: OPG as a GBE

Hi John.

As mentioned earlier today, I haven't been able to find a prior assessment of OPG as a GBE. You will note that the attached PSAB document includes an electricity sector example in its discussion on GBEs (http://www.frascanada.ca/standards-for-public-sector-entities/resources/reference-mate

rials/item14956.pdf). As a starting assumption, we believe that OPG is appropriately classified as a GBE and this classification has not been questioned by the OAG to date.

The following table provides an overview of the key criteria which need to be assessed in considering whether an entity is a government business enterprise, which are further discussed in the attached handbook extract on section 1300, The Government Reporting Entity. The focus of the current discussion is OPG's ability to maintain its GBE status under the envisioned transaction structure. Please let us know if we can provide any assistance in completing the analysis of OPG.

Regards,

Nadine

Section 4 - Summary of Evaluation for Government Business Enterprises (PS 1300)

Criteria Applies

Yes/No

Required Characteristics of a Government Business Enterprise

(A) It is a separate legal entity with the power to contract in its own name and that can sue and be sued

(B) It has been delegated the financial and operational authority to carry on a business

(C) It sells goods and services to individuals and organizations outside of the government reporting entity as its principal activity; and

(D) It can, in the normal course of its operations, maintain its operations and meet its

liabilities from revenues received from sources outside of the government reporting entity.

Conclusion (Must meet all four characteristics to qualify as a GBE):

I am still working the conditions required for OPG to consolidate the Trust. One of the ingredients needed is external debt financing, we may need to soften the financing option to allow for external financing (outside of the OFA). With the OFA being the debt provider, it would appear the OFA should consolidate the Trust.

Hi Suzie, Blake,

We've confirmed that we are able to do an additional one-time extension to the current SOW that is currently in effect to August 10 to March 31, 2019. We are drawing up an amendment to the original SOW for your review and signature. The extension covers the duration of the contract, but keep the ceiling as agreed upon initially.

I will ask Shyrose to send this through to you shortly.

Please call me if you have any questions - 416.325.8027

Thanks,

Hi Suzie - nice to speak with you.

Further to our t/c, attached is the extension we had signed earlier this year to June 30. It has come to our attention that the applicable dates of the original Statement of Work took us to February 10, 2018 (item #5 in the SOW), not December 30 as previously thought. Therefore, our extension for six months does allow us to go through to August 10. In the attachment, I have amended and initialed the dates that take us up to six months. If that meets with your approval, if you can also initial and return a copy for our files, that would be most helpful.

Under that agreement, we'd like to schedule a quick call for next week with yourself, Blake and Lee Anne just to provide an update on where things are at here w.r.t. reporting for the electricity sector and the 2017-18 Public Accounts. We'll work to make ourselves available based on whatever works best for you.

Thanks in advance,
Mark

AMENDMENT 002
To Extend SOW

Name of Project:	Complex Accounting Issues and Accounting for Complex Financing Transactions
Original Agreement Date:	October 31, 2016
Name of Vendor:	Ernst & Young LLP
Original Contract Number:	OSS 227152 (RFS# TBS-OTB-OPCD-16)
Date of Amendment:	August 8, 2018
Amendment Number:	002

1) Amendment Details:

1.1 This amendment hereby exercises the Ministry's right to extend the Statement of Work (SOW) from August 10, 2018 to March 31, 2019.

1.2 The survivability period of the General Management Consulting Vendor of Record (VOR) OSS-00426611 ends on June 15, 2019 therefore; under no circumstances may the Statement of Work extend beyond June 15, 2019.

1.3 This extension is for time only and shall not alter the scale, scope, or deliverables of the initiative as described in the SOW.

1.4 The ceiling value of this initiative shall remain unchanged at $450,000 plus HST as stipulated in the SOW.

1.5 This amendment is subject to the terms and conditions of the Master Agreement, the Statement of Work, and any subsequent Amendments.

1.6 All other terms and conditions of the Statement of Work between Ernst & Young LLP and the Ministry are unchanged.

Hi Suzie, Blake,

We've confirmed that we are able to do an additional one-time extension to the current SOW that is currently in effect to August 10 to March 31, 2019. We are drawing up an amendment to the original SOW for your review and signature. The extension covers the duration of the contract, but keep the ceiling as agreed upon initially.

I will ask Shyrose to send this through to you shortly.

Please call me if you have any questions - 416.325.8027

Thanks,
Mark

Yes – I believe those in attendance at the briefing should include Kim Marshall – IESO and Michel Picard – KPMG as well as John Mauti or Ken Hartwick from OPG, and perhaps EY (although FAO has not focused on the accounting issues re: OPG that much). In addition, we should also be in attendance. We were not in attendance at the technical briefing held for the FAO on FHP and have not had any discussions with them on the accounting. We can help coordinate those folks.

Thanks Cindy – fyi, I've been asked, as part of my call with the FAO this morning, to offer up a briefing for them with KPMG (who provided the external advice on this). Are you guys supportive of this and could help make those arrangements?

Want your input before I offer this up.

Thanks Nadine.

Yes there are restrictions on sharing the report. I needed their permission to share with you and Cindy.

If I get their agreement to meet with a broader crowd, we'd get permission to share the report as well.

Tim,

On yesterday's call you mentioned restrictions on circulating the draft FAO report. I assume that we would be able to share with IESO, OPG (and they in turn with their external advisors), in advance of the meeting/call?

Yes – I believe those in attendance at the briefing should include Kim Marshall – IESO and Michel Picard – KPMG as well as John Mauti or Ken Hartwick from OPG, and perhaps EY (although FAO has not focused on the accounting issues re: OPG that much). In addition, we should also be in attendance. We were not in attendance at the technical briefing held for the FAO on FHP and have not had any discussions with them on the accounting. We can help coordinate those folks.

Thanks Cindy – fyi, I've been asked, as part of my call with the FAO this morning, to offer up a briefing for them with KPMG (who provided the external advice on this). Are you guys supportive of this and could help make those arrangements?

Want your input before I offer this up.

Thanks

CONFIDENTIAL AND PRIVILEGED

Preliminary Draft for Discussion Purposes Only

"Fair Hydro Act"

Article 1 – Purpose

The Province has and continues to encourage the construction and development of facilities for the long-term operation and generation of electricity in the Province using sustainable, lower carbon-based technologies such as new gas-fired generation, renewable facilities, energy from waste and biomass, including under the Province's various procurement, standard offer, feed in tariff and other similar programs (the "Green Generation Initiative"). The long-term benefits of the Green Generation Initiative accrue over time and have benefited and will benefit present and future electricity consumers in the Province.

The imputed costs of the Green Generation Initiative are currently passed through to electricity consumers by way of a monthly adjustment amount (the "Green Costs Adjustment"), which in turn forms part of the overall adjustment calculated by the Independent Electricity System Operator ("IESO") pursuant to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* (the "Global Adjustment"). The Global Adjustment is included as a charge billed to electricity consumers in their monthly electricity invoices.

The Green Costs Adjustment is currently determined each month by reference to the amounts paid by IESO to the generators of electricity in the Province under the Green Generation Initiative, which may be higher than prevailing market price for electricity. These differences arise because IESO has entered into long-term procurement contracts with such generators in order to provide them with long-term price certainty for electricity, and in turn to encourage the generators to develop technologies and to construct and develop facilities consistent with the Green Generation Initiative. In general, whenever amounts payable under these procurement contracts exceed the market price for electricity, the Green Costs Adjustment passes through the amount of such differences as part of the monthly charge to electricity consumers. Such amount then becomes available to IESO to meet its obligations under the procurement contracts. It has been determined that the useful lives of many of the assets encouraged by the Green Generation Initiative will be well in excess of the respective terms of the related procurement contracts, and in many cases may extend over more than one generation of electricity consumers.

Since the benefits to past, present and future electricity consumers from the Green Generation Initiative will not necessarily coincide with the costs currently attributed through the Green Costs Adjustment, based on the respective durations of the procurement contracts, it has been determined that the rate at which the costs associated with the Green Generation Initiative should be passed through to Retail Consumers (as defined in Article 2) should be more closely aligned with the benefits that such Retail Consumers have derived and are expected to derive from the Green Generation Initiative over time. This realignment will be based on principles and parameters that establish a reasonable basis for measuring and allocating the relative costs and benefits of the Green Generation Initiative equitably across present and future Retail Consumers (the "Fair Allocation Plan").

If the Fair Allocation Plan determines that the equitable allocation of the costs associated with the Green Generation Initiative to the Retail Consumers of a particular time period should be reduced below the amount that currently would be charged based on the Green Costs

Adjustment, then the amount payable by such Retail Consumers and in turn available to IESO will, in the aggregate, be less than the amount payable by the IESO to the generators in respect of such period. In this case IESO will need to obtain funding from another source to cover such a shortfall. If a funding obligation is incurred by IESO to cover such a shortfall during one period, the repayment of such funding obligation will be required in a future period, and any related repayments, finance costs, hedging costs and other transaction costs incurred will become payable in one or more future periods. In order for IESO to obtain a reliable and committed source of cash flows to enable IESO to repay such funding amounts when they become due and payable, this Act imposes irrevocable and non-bypassable financial obligations on Retail Consumers to pay amounts incurred in respect of such funding obligations when they become due and payable and establishes a right to invoice and collect such amounts. The right and interest in and to collect such financial obligations will take the form of the Regulatory Asset contemplated in this Act, which will constitute property rights and interests. Interests in the Regulatory Asset may be sold and absolutely assigned by IESO to one or more financing entities, which in turn will finance their acquired interests by incurring funding obligations. The incurrence and payment of such funding obligations will be administered on behalf such financing entities by a financial services agent under the Financing Plan contemplated in this Act. The Financing Plan will seek to reasonably match the payment obligations arising under such funding obligations, to be borne by the future Retail Consumers of the period in which such payment obligations become due, with the benefits of the Green Generation Initiative allocated to such future Retail Consumers under the Fair Allocation Plan.

The purpose of this Act is to establish the basis upon which intergenerational fairness can be achieved by charging the costs and benefits of the Green Generation Initiative to present and future Retail Consumers on an equitable and cost effective basis.

Article 2 - Definitions

In this Act:

> “Absolute Assignee” means a person to whom a Regulatory Asset Owner effects a Disposition.
>
> “Actual” means, in relation to costs, expenses or payments in respect of Funding Obligations during a Reference Period, the actual amount of such costs, expenses or payments paid or made (net of any Finance Reserve Withdrawals applied to pay such amounts), which amounts shall be recorded by the Financial Services Agent whose records shall be determinative for the purposes of this Act except to the extent of a manifest calculation error.
>
> “Additional Funding Charges” means, for a Reference Period in respect of an Absolute Assignee, the fees, charges, expenses, costs, indemnities, reimbursements and other amounts (including any applicable tax amounts) that are or become payable by or on behalf of the Absolute Assignee during the Reference Period and that were incurred or committed to directly or indirectly by the Absolute Assignee in connection with the incurrence of Funding Obligations under the Financing Plan (whether at the time of such incurrence or over the term of the Funding Obligation and whether directly or indirectly), including (without duplication and without limitation): (a) any payment required under an ancillary agreement entered into by, or by the Financial Services Agent on behalf of, the Absolute Assignee under the Financing Plan; (b) any federal, provincial or local taxes, payments in lieu of taxes, franchise fees or license fees imposed on the Absolute

Assignee or incurred by on behalf of the Absolute Assignee under any obligation to pay tax gross-up amounts to counterparties under Funding Obligations; (c) any amounts payable to the Financial Services Agent, including amounts payable to its advisors and outside counsel; (d) any amounts incurred to prepare, confirm, amend and implement the Financing Plan; (e) any amounts payable to any Alternative Collection Agent or Alternative Servicer, including amounts payable to each's advisors and outside counsel; (f) any amounts incurred to make the calculations, determinations or confirmations to be made by or on behalf of the Absolute Assignee; (g) any servicing fees and expenses; (h) any trustee fees and expenses; (i) any legal fees, expenses and disbursements; (j) any accounting fees and expenses; (k) any administrative fees and expenses; (l) any manager or director fees of a Financing Entity; (m) any registration fees and expenses; (n) any placement fees, underwriting fees, fees and related issuing expenses; (o) any rating agency fees; and (p) any other related fees, charges, expenses, costs, indemnities, reimbursements and other amounts that are approved in good faith by the Financial Services Agent for recovery and payment under the Financing Plan.

"Allocation Factor" means, in respect of a Retail Consumer for a Reference Period, the number (expressed as a percentage) determined in respect of the Retail Consumer by the OEB based on the application of the Attribution Methodology in respect of the Reference Period.[1]

"Alternative Collection Agent" means a person appointed under Section 5(11) and in compliance with the requirements set out in Schedule 2 to assume the collection activities and activities of any Electricity Distributor or IESO under Article 5, as agent for and on behalf of the Regulatory Asset Owners.

Article 3 – Transition Charges

(1) **Retail Consumer Obligation to Pay a Transition Charge** – Each Retail Consumer shall pay each Transition Charge charged to it in any Electricity Invoice issued to such Retail Consumer by its Electricity Distributor or by an Alternative Servicer under Section 4(1), in each case on the terms of payment specified in the related Electricity Invoice.

(2) **Indebtedness of Retail Consumers** – Until paid, a Transition Charge charged to a Retail Consumer in an Electricity Invoice shall, together with any applicable late payment fees and finance charges arising under the terms of the Electricity Invoice with respect to such Transition Charge, constitute non-bypassable indebtedness of the Retail Consumer to the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset. Such indebtedness shall constitute a single and separate[8] debt obligation owing by the Retail Consumer, which subject to Article 5 may be enforced independently from any other payment obligation or indebtedness owing by the Retail Consumer under the Electricity Invoice or otherwise.[9]

(3) **No Set-Off or Reduction** – A Retail Consumer may not set-off or reduce (by counterclaim, defense or otherwise) the amount payable by it in respect of any Transition Charge, including any set-off against or in respect of any amount owing or becoming payable to such Retail Consumer by its Electricity Distributor, any Regulatory Asset Owner or any other person.

(4) **Allocation of Retail Consumer Payments** – If an Electricity Distributor receives a payment made by or on behalf of a Retail Consumer in respect of amounts due and payable under one or more Electricity Invoices that is less than the total amount payable thereunder, such payment shall be allocated on a *pro rata* basis to the payment of related Transition Charges and other invoiced amounts and the amount so allocated as a payment of related Transition Charges shall be deemed to constitute a Transition Charge Collection.

(5) **Transition Charges are Irrevocable** – The Transition Charges arising under or in respect of Funding Obligations incurred under the Financing Plan (including any adjustments based on modifications to such Funding Obligations made in compliance with the Financing Plan or as a result of amendments to the Financing Plan made in accordance with Section 9(3)) are deemed to be irrevocable, final and effective without any further action, except to the extent of manifest calculation error. For greater certainty, a Transition Charge may include Finance Amounts for a Reference Period whether or not the payment of such Finance Amounts are inconsistent with the Fair Allocation Plan applicable at the time such payments are due and payable, whether or not the related Funding Obligation was properly incurred under the Financing Plan. In no case shall a Funding Obligation incurred under the Financing Plan be affected by a subsequent amendment to the Fair Allocation Plan.

Article 4 – Invoicing of Transition Charges

(1) **Inclusion of Transition Charges in Electricity Invoices** – Each Electricity Distributor and if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, specify the Transition Charge to be charged to a Retail Consumer pursuant to Section 4(4) in respect of a related Reference Period in each Electricity Invoice issued

[9] Torys has also suggested that deemed conditions of licenses for distributors, retailers and unit sub-metering providers, could be included as conditions, to require them to collect and remit amounts in accordance with this legislation. Consider if it is helpful to integrate the existing regulatory scheme for invoicing and collections (regarding RPP) in the legislation.

by the Electricity Distributor or if applicable by the Alternative Servicer to the Retail Consumer in respect of such Reference Period. Upon the inclusion of a Transition Charge in an Electricity Invoice, the obligation to pay such amount shall be binding on the applicable Retail Consumer.

(2) **Calculation of the Period Transition Charge** – Not later than [35] days prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services Agent on its behalf) shall provide the OEB with written notice of each Estimate of a Finance Amount payable by it or on its behalf in respect of the Reference Period. [35] days prior to the first day of a Reference Period, IESO or Successor IESO if applicable shall specify the IESO Retained Interest Amount and any IESO Financing Costs that are due and payable and remain unpaid on such day. Not later than one month prior to the first day of a Reference Period, the OEB shall calculate the Period Transition Charge applicable to the Reference Period based on the calculations and information set forth in such written notices received from the Absolute Assignees and based on such amounts specified by IESO or Successor IESO, which calculations, information and amounts shall be determinative, except to the extent of manifest calculation error or misstatement.

(3) **Calculation and Attribution of Transition Charges** – Not later than 25 days prior to the first day of a Reference Period, the OEB shall apply the Attribution Methodology to determine the Allocation Factor for each Retail Consumer of the applicable Retail Consumer Group.

(4) **Notice of Transition Charges** – Not later than 20 days prior to the first day of a Reference Period, the OEB shall inform each Electricity Distributor and if applicable any Alternative Servicer of the Transition Charges to be specified in the Electricity Invoices to be issued to each Retail Consumer of the applicable Retail Consumer Group who has a billing address in the Electricity Distributor's Service Area.

(5) **Adjustments** – The amount of any Transition Charge charged to a Retail Consumer and specified as such in an Electricity Invoice shall be determinative of the amount of indebtedness created thereby and owing in respect of such Transition Charge, except to the extent of any manifest calculation error.

(6) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 4 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 4 to impose, attribute, charge, bill and invoice the Transition Charges.

(7) **IESO Successor** – Any IESO Successor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of IESO under Article 4 in the same manner and to the same extent as IESO, including the obligation to calculate and provide notice of Transition Charges.

(8) **Appointment of an Alternative Servicer** – If a Replacement Event occurs in respect of any Electricity Distributor, the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Servicer to perform some or all of the obligations and duties required to be undertaken by such Electricity Distributor under this Article 4, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative

Servicer shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor. Any Electricity Distributor that is replaced under this Section 4(8) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in the performance of such obligations and duties to the Alternative Servicer and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Servicer to perform such obligations and duties on behalf of the Regulatory Asset Owners.

(9) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, the Servicer, Alternative Servicer or any other person who may be authorized to issue Electricity Invoices to Retail Consumers for a failure to impose, attribute, charge, bill or invoice Transition Charges. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure.

(10) **No Set-Off or Reduction –** No Servicer or Electricity Distributor may set off or reduce (by counterclaim, defence or otherwise) the amount payable by it pursuant to this Article 4.

(11) **Regulations** – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Servicer to ensure that Transition Charges are properly charged to Retail Consumers and specified as such in Electricity Invoices.

Article 5 – Collections and Remittances

(1) **Duty to Collect as Agent** – Electricity Distributors or if applicable any Alternative Collection Agent shall, as an agent of the Regulatory Asset Owners, undertake [diligent][reasonable][10] efforts to collect amounts owing by Retail Consumers in respect of Transition Charges charged to such Retail Consumers in Electricity Invoices issued by the Electricity Distributor or if applicable such Alternative Collection Agent.

(2) **Segregation of Transition Charge Collections** – An Electricity Distributor or if applicable any Alternative Collection Agent shall promptly segregate Transition Charge Collections from other payments received by it from Retail Consumers and deposit such Transition Charge Collections into its Regulatory Asset Account.[11] Prior to and following a deposit of Transition Charge Collections having been made into its Regulatory Asset Account, the Electricity Distributor or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners.

(3) **Electricity Distributor Remittances** – On each applicable Remittance Date, an Electricity Distributor shall remit all Transition Charge Collections received by it from Retail Consumers in respect of the related Reference Period to or to the account of IESO or if applicable the Alternative Collection Agent.

---

[10] Mirror collection “standard of care” under applicable legislation.

[11] Consider trying to attach to existing LDC credit enhancements and provide parallel coverage for customer losses.

(4) **Duty to Collect Electricity Distributor Remittances** – IESO or if applicable any Alternative Collection Agent shall, as an agent of the Regulatory Asset Owners, undertake [diligent][reasonable] efforts to accept and collect Electricity Distributor Remittances from Electricity Distributors and Transition Charge Collections from Retail Consumers that pay their Electricity Invoices directly to IESO.[12]

(5) **Segregation of Electricity Distributor Remittances** – IESO and if applicable the Alternative Collection Agent shall promptly segregate Electricity Distributor Remittances from other payments received or held by it and deposit such Electricity Distributor Remittances into its Regulatory Asset Account. Prior to and following a deposit of Electricity Distributor Remittances having been made into its Regulatory Asset Account, IESO or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners.

(6) **IESO Remittances** – On each Settlement Date[13], IESO and if applicable the Alternative Collection Agent shall remit all amounts on deposit in its Regulatory Asset Account (a) first, to or to the account of the Absolute Assignees an amount equal to the Investment Remittance for the related month and (b) second, to IESO (including by IESO retaining such amount) an amount equal to the lesser of (i) the Maximum IESO Recovery for the related month and (ii) the IESO Retained Interest Amount as of the Settlement Date.

(7) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 5 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 5 to collect Transition Charges and make remittances of Electricity Distributor Remittances.

(8) **IESO Successor** – IESO Successor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of IESO under Article 5 in the same manner and to the same extent as IESO, including the obligation to collect Transition Charge Collections, Electricity Distributor Remittances and to remit IESO Remittances.

(9) **Owners of Distribution Assets** - If any person other than an Electricity Distributor acquires distribution system assets in the Province or invoices or collects electricity distribution rates in the Province[14], then such person shall, if requested by the Absolute Assignees, be obligated to act diligently to (a) facilitate the invoicing and collection of any Transition Charges applicable to Retail Consumers in its applicable service area, including all consumers connected to the electricity distribution system assets and taking electric delivery service located within such service area; (b) allocate partial payments by Retail Consumers as provided in this Act; (c) exercise all enforcement rights of the Absolute Assignees for the benefit of an Absolute Assignee; and (d) remit any Transition Charge Collections to the Absolute Assignees or Pledgees, as applicable, each in accordance with its Investment Interest.

[14] This is in anticipation of a possible future restructuring of the distribution system.

(10) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, the Alternative Collection Agent, any owner of electricity distribution system assets in the Province or any other person who may be authorized to collect electricity distribution and use charges from Retail Consumers for a failure to collect Transition Charges, remit or collect Electricity Distributor Remittances or remit IESO Remittances, as and to the extent applicable under Article 5. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure.

(11) **Appointment of an Alternative Collection Agent** – If a Replacement Event occurs in respect of any Electricity Distributor or IESO, the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Collection Agent to perform some or all of the collection, segregation and remittance obligations otherwise required to be undertaken by such Electricity Distributor or IESO, as applicable, under Article 5, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Collection Agent shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor or IESO, as applicable. Any Electricity Distributor or IESO, as applicable, that is replaced under this Section 5(11) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in, to and over the Regulatory Asset, including its Regulatory Asset Account, to the Alternative Collection Agent and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Collection Agent to enforce the Regulatory Asset on behalf of the Absolute Assignees.

(12) **No Set-off, etc.** - The Regulatory Asset, including rights in Transition Charges, Transition Charge Collections, and the interests of a Regulatory Asset Owner, an Absolute Assignee and a Pledgee therein, may not be setoff or reduced (including by counterclaim, surcharge or defense) by any Retail Consumer, any Electricity Distributor, IESO, Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or in connection with any default, bankruptcy, reorganization or other insolvency proceeding of any Electricity Distributor, IESO, Alternative Collection Agent or any owner of distribution system assets in the Province, any affiliate or successor thereof or any other entity or otherwise.[15]

(13) **Sequestration** – If any Electricity Distributor, IESO, the Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or entity authorized to collect Transition Charges, defaults on any required remittance of Transition Charge Collections, Electricity Distribution Remittances or IESO Remittances under Article 5, any court in the Province, upon application by and of the Absolute Assignees acting collectively under the Collective Action Agreement and without limiting any other remedies otherwise available to the Absolute Assignees or Pledgees, shall order the sequestration and payment of the Transition Charge Collections, Electricity

Distribution Remittances and IESO Remittances, as applicable, for the benefit of the Absolute Assignees, each with respect to its Investment Interest, and the Pledgees as applicable.[16]

(14) **Regulations** – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Collection Agent to ensure that rights, interests, entitlements, benefits and proceeds in, to, under and from the Regulatory Asset are of fully realized by some or all of the Absolute Assignees and Pledgees.

Article 6 – The Regulatory Asset

(1) **Composition** – The Regulatory Asset shall constitute a current and irrevocable property right and interest consisting, collectively, of the following rights and interests (without duplication):

a. the right of IESO (i) to record its IESO Retained Interest in its accounts in accordance with Section 8(1), having a stated amount from time to time equal to the IESO Retained Interest Amount; and (ii) to receive IESO Recoveries from time to time in accordance with Section 5(6)(b);

b. the right to impose, bill, invoice, collect and receive Transition Charges from Retail Consumers, including the right to determine the amount of Transition Charges in accordance with this Act;

c. the right to enforce the obligations and indebtedness of each Retail Consumer to pay the Transition Charges charged to the Retail Consumer from time to time in accordance with Article 3, together with all related late payment fees or interest charges arising in respect thereof under the related Electricity Invoices;

d. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Servicer to impose, attribute, charge, bill and invoice the Transition Charges in accordance with Article 4;

e. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Collection Agent to collect, receive and remit amounts received by it in respect of Transition Charges as Electricity Distributor Remittances to or to the account of IESO or if applicable the Alternative Collection Agent in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5;

f. the right to enforce the duties and obligations of IESO and if applicable the Alternative Collection Agent to collect and receive Electricity Distributor Remittances and to remit IESO Remittances to or to the accounts of the

Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset, in each case in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by it to recover payment of Electricity Distributor Remittances in accordance with Article 5;

g. the right to receive and collect all Transition Charge Collections, all Electricity Distributor Remittances and all IESO Remittances in accordance with Article 5;

h. all rights and entitlements under each Regulatory Asset Account and all amounts on deposit in any such Regulatory Asset Account;

i. all Related Rights; and

j. all revenue, collections, claims, payments, money and proceeds of or derived from the rights described in (a) through (i), regardless of whether such revenue, collections, claims, payments and proceeds are imposed, invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

A Regulatory Asset and the property rights and interests therein shall exist whether or not Transition Charges have been imposed, charged, invoiced, accrued or collected and notwithstanding that the imposition, attribution, invoicing and collection of Transition Charges will depend on further actions that may not have occurred.

(2) **Validity of Dispositions** – Despite any limitations or restrictions on a Disposition that may arise by contract or by operation of any applicable law of the Province or any consent requirement applicable to a Disposition that may arise by operation of any applicable law of the Province, a Disposition by IESO to an Absolute Assignee made under the Financing Plan, or by one Absolute Assignee to another Absolute Assignee made under the Financing Plan, shall be permitted and when made shall be valid and enforceable in accordance with the terms of the related Disposition Document and shall be effective to confer upon the Absolute Assignee thereof a valid property right and interest in, to and under the applicable Investment Interest (or relevant portion thereof) in accordance with the terms of such Disposition, provided that the parties to the applicable Disposition Document have expressly stated therein that such Disposition is a sale or other absolute transfer. Without limiting the foregoing, any Disposition that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as a true sale and absolute transfer of the Regulatory Asset Owner's applicable right, title, and interest in, to and under the Regulatory Asset (or relevant portion thereof), and not merely as a Pledge thereof, and upon such Disposition the assigner or seller under the applicable Disposition Document shall retain no right, title or interest in the Investment Interest subject to the Disposition, including all rights under the Investment Interest arising after such Disposition.

(3) **Perfection and Priority of Dispositions** – Any Disposition of an interest in a Regulatory Asset shall be vested, valid, binding and perfected from the time when such Disposition is made. Such Disposition shall be perfected, vested, valid and binding as against the transferring Regulatory Asset Owner and all other persons who have claims of any kind (whether in tort, contract or otherwise) against the transferring Regulatory Asset Owner, irrespective of whether such persons have notice of the Disposition and

the property rights and interests acquired by the Absolute Assignee under such Disposition shall be free and clear of any liens in favour of such other persons.

(4) **Validity of Pledges** – Despite any limitations or restriction on a Pledge that may arise by contract or by operation of any applicable law of the Province or any consent requirement applicable to a Pledge that may arise by operation of any applicable law of the Province, a Pledge by an Absolute Assignee may be made to secure any related Funding Obligation and when made shall be valid and enforceable in accordance with its terms and shall be effective to confer upon the Pledgee a valid security interest in, to and in respect of the related Investment Interest in accordance with the terms of the Pledge. Other than as required by the Financing Plan, no consent of any person shall be required to give effect to a Pledge made to secure any Funding Obligation.

(5) **Perfection and Priority of Pledges** - For purposes of the *Personal Property Security Act* (the "PPSA"), the Regulatory Asset shall be intangible personal property and any Pledge made by an Absolute Assignee in respect of a Funding Obligation may be perfected by filing a financing statement under the PPSA on that basis. All proceeds of a related Investment Interest that are subject to such a Pledge that are received by the Absolute Assignee shall immediately be subject to the such Pledge, and the security interest in such proceeds shall be perfected pursuant to the PPSA.[17] A Pledge perfected under the PPSA shall be a continuously perfected security interest and shall have priority over any other lien or security interest, created by operation of law or otherwise, that may attach to the property rights and interests in the Investment Interest subject to the Pledge unless the Pledgee has otherwise agreed in writing. Subject to the terms of the Collective Action Agreement, a Pledgee shall have a perfected security interest in a related Investment Interest, including the Absolute Assignee's rights and interests in and to Transition Charge Collections or other related proceeds in respect of the Investment Interest and that are deposited in any Regulatory Asset Account or other account of any Electricity Distributor, IESO, Alternative Collection Agent or other person who may have commingled such Transition Charge Collections or such other proceeds with other funds. All provisions of the PPSA shall apply to the Regulatory Asset on the basis that it is intangible personal property, except to the extent otherwise provided in this Section 6(5).

(6) **Enforcement of Property Rights** – The rights of any Regulatory Asset Owner to collect and enforce its rights and interests in, to or in respect of the Regulatory Asset shall be exercised in the manner set forth in Article 5.

(7) **Owners of a Specified Portion of the Regulatory Asset** – A Regulatory Asset Owner may effect a Disposition to an Absolute Assignee of a specified portion of its rights and interests in the Regulatory Asset, including by way of a Disposition of a divided or an undivided interest therein as specified in a related Disposition Document, in each case under the Financing Plan. In no circumstance may the specified portions of the rights and interests in the Regulatory Asset owned by all Regulatory Asset Owners be greater than all of the rights and interests that comprise the Regulatory Asset in the aggregate.

---

[17] Consider whether to simply leave this and have a financing statement be filed under the PPSA. This would normalize the security interest and reduce any adverse suggestion that security would not otherwise arise.

(8) **Collective Action Required** – If a Regulatory Asset Owner's rights and interests in the Regulatory Asset comprises less than the entire property right and interest constituted by the Regulatory Asset, such Regulatory Asset Owner shall only enforce such right and interest on a collective and coordinated basis with each other Regulatory Asset Owner in accordance with the Collective Rights Agreement.

Article 7 – Establishment of the Fair Allocation Plan[18]

(1) Adoption of the Fair Allocation Plan – The Delegate may, [by written declaration,] designate and adopt a Fair Allocation Plan in compliance with Article 7. The Fair Allocation Plan so designated and adopted shall be the Fair Allocation Plan for all purposes of this Act, except if amended, amended and restated or terminated by a further written declaration made by the Delegate in compliance with Section 7(4).

(2) Principles and Parameters – A Fair Allocation Plan shall seek to allocate Future Fair Share of Green Transition Benefits across present and future Retail Consumer Groups on a basis that the Delegate, in its sole and absolute discretion, determines to be equitable, having regard to the following principles and parameters:

1. Future Fair Share of Green Transition Benefits should be allocated over the period ending on the Program End Date.

2. The Fair Allocation Plan should specify the Reference Periods for the purpose of identifying applicable Retail Consumer Groups and allocating Future Fair Share of Green Transition Benefits among them on a relative basis over time.

3. The share of Future Fair Share of Green Transition Benefits allocable to a particular Retail Consumer Group in respect of a Reference Period should be proportionate to a reasonable assessment of the benefits of the Green Generation Initiative to the Retail Consumer Group over such Reference Period.

4. The share of Future Fair Share of Green Transition Benefits to be allocated to a Retail Consumer Group and any future Retail Consumer Group at a particular time should not exceed the Estimated Future Green Transition Benefits, measured in respect of the Reference Periods following such particular time and to the Program End Date.

5. No future Retail Consumer Group should be allocated an unreasonably disproportionate share of Estimated Future Green Transition Benefits. Except in exceptional circumstances or in the case of any reallocation of an Over-Assessed Amount as contemplated in 7, below, the Future Fair Share of Green Transition Benefits to be allocated under a Fair Allocation Plan to any future

---

18 The idea is that the Fair Allocation Plan will be set once at the outset based on the principles and parameters described here, all as applied based on information available and the reasonable expectations and discretion of the delegate at such time. If the expectations are not fulfilled (e.g., generators may choose to retire their facilities at the end of their current procurement contracts and not invest in extending service lives to secure further procurement contracts), the Fair Allocation Plan will be unaffected, unless it is specifically amended (assuming amendments will be permitted by the legislation).

Retail Consumer Group should have regard to *[Insert formula if a year-over-year maximum amount is determined to be appropriate]*.

6. The time value of money should be reflected in the Fair Allocation Plan, in order to equate the relative values of the nominal allocations of Future Fair Share of Green Transition Benefits, calculated in current dollars, to future Retail Consumer Groups over time.

7. To the extent there has been an Over-Assessed Amount, the Fair Allocation Plan may determine that an adjustment should fairly be made to rebate Retail Consumers for such an amount, by reducing the costs otherwise attributable under the Act to such Retail Consumers. The relative costs of the Green Generation Initiative are reflected under the Act by the attribution of Transition Charges to such Consumer Groups, based on the Financing Plan seeking to track the allocations of benefits under the Fair Allocation Plan. Accordingly, the Maximum Transition Charge Amount determined for one or more Retail Consumer Groups having regard to the Fair Allocation Plan otherwise applicable may be appropriately reduced to recognize the effect of the Over-Assessed Amount. In such a case, a determination to reduce the Maximum Transition Charge Amount applicable for certain related Reference Periods should have regard to the principle that the corresponding rebate should be extended to benefit the Consumer Group or Consumer Groups in closest proximity to the Legislative Implementation Date.

(3) **Attribution Methodology** – The Fair Allocation Plan shall specify the Attribution Methodology for the purposes of allocating the Period Transition Charges across the Retail Consumers of a particular Retail Consumer Group. The Attribution Methodology shall result in an attribution of such Transition Charges that is considered by the Delegate to be equitable, and may have regard to such principles and parameters as may be further set forth in a Regulation.

(4) **Amendments of the Fair Allocation Plan** – The Fair Allocation Plan may be amended, amended and restated or terminated by the Delegate, provided that such amendment, amendment and restatement or termination shall (a) not be inconsistent with the principles and parameters set forth in (2) or (3), above, or the Regulation and (b) comply with any restrictions or limitations specified with respect thereto in any Funding Obligation.

Article 8 – The IESO Retained Interest

(1) **Maintain Books of Account** – IESO may maintain books of account to record the IESO Retained Interest Amount and all adjustments thereto from time to time. Such books of account shall be determinative with respect to the amount of IESO's related regulatory asset.

(2) **Limitation on Additions** – IESO shall not record additions to the IESO Retained Interest Amount in respect of IESO Funding Shortfalls (a) if such additions are restricted by the terms of any Disposition Document or the Collective Action Agreement, or (b) on or after •, 2017.

(3) **Dispositions** – IESO may effect a Disposition to an Absolute Assignee if (a) the Absolute Assignee has or will concurrently become bound by the Collective Rights Agreement; (b) the Disposition is effected pursuant to a Disposition Agreement duly executed by IESO; (c) the Financial Services Agent confirms in writing that the Disposition is permitted under the Financing Plan; and (d) the net proceeds payable to IESO from the sale of the related Investment Interest would not exceed the IESO Retained Interest Amount immediately before the time of such Disposition.

(4) **No Continuing Interest in any Investment Interest** – IESO shall have no continuing right or interest in any Investment Interest subject to a Disposition effected by IESO under a Disposition Document to which IESO is a party and IESO shall not assert any such right or interest or take or omit to take any action to exercise or enforce its rights or interests under the IESO Retained Interest if such action or omission would impede or obstruct the rights of any Absolute Assignee or a Pledgee to enforce its rights and interests in any Investment Interest, except if IESO is expressly permitted to take or omit to take such action, respectively, under the related Disposition Document or the Collective Rights Agreement.

(5) **IESO Financing Costs** – IESO shall be entitled in good faith to incur reasonable financing costs (including interest and other reasonable financing charges) reflecting market terms and conditions and which are payable in arrears, in order to finance its ownership of the IESO Retained Interest from time to time.

(6) **IESO Recoveries** – IESO shall, in respect of a month, be entitled to receive from IESO Remittances on a related Settlement Date the amount (if any) available to IESO under Section 5(6)(b).

Article 9 – The Financing Plan

(1) **Power to Prepare, Implement and Amend the Financing Plan** – The Financial Services Agent shall be authorized to prepare, implement and amend the Financing Plan. If the Financial Services Agent is unwilling or unable to prepare and propose the adoption of the Financing Plan, the Delegate may by written declaration designate one or more other persons who shall be authorized to prepare, implement and amend the Financing Plan.

(2) **Terms and Conditions of the Financing Plan** – The Financing Plan shall establish the basis for each Absolute Assignee's funding decisions. The Financing Plan shall have regard to the principles and parameters set forth in Schedule 3 and such other conditions and requirements as may be specified in a written declaration of the Delegate or in accordance with the Regulation.

(3) **OEB Approval** – Any Additional Funding Charge payable to or for the benefit of the Financial Services Agent shall be subject to review and approval by the OEB.

(4) **OEB Review** – The OEB [shall] undertake an annual review of the records maintained by the Financial Services Agent for the purpose of confirming that the Funding Obligations incurred and the Finance Amounts paid by or on behalf of the Absolute Assignees were incurred and paid, respectively, in material conformity with the Financing Plan.

(5) **Replacement of the Administrative Agent** – If the OEB identifies deficiencies or makes recommendations in its review under Section 9(4), the Administrative Agent shall take reasonable measures to remedy such deficiencies if remediable, and shall in any event have regard to the recommendations of the OEB in relation to further actions undertaken by the Financial Services Agent under the Financing Plan. If the Financial Services Agent is unwilling or unable to reflect such recommendations in relation to such further actions, the Delegate may by written declaration designate one or more other persons who shall thereafter become the Financial Services.

(6) **Obligation to Apply IESO Remittances** – The Financial Services Agent shall ensure that amounts transferred to it under Article 5, as agent for and on behalf of the Absolute Assignees, or otherwise in respect of or as proceeds from an applicable Investment Interest shall only be applied or used to pay related Finance Amounts when they are due and payable and for no other purpose.

(7) **Non-Recourse** – The Financing Plan shall be implemented so that Funding Obligations incurred shall be without recourse to or to any assets of the Electricity Distributors, IESO, any Alternative Servicer, any Alternative Collection Agent, the Financial Services Agent, the OEB, the Province or the Lieutenant Governor in Council, other than if and to the extent that such persons or entities are liable for the performance of obligations or duties arising under this Act or expressly agree to become liable pursuant to any Funding Obligation or obligation in relation to a Finance Amount. [All Funding Obligations shall contain a statement to the following effect: "Neither the full faith and credit nor the taxing power of the Province of Ontario is pledged to the payment of the principal of, or interest on, this [obligation].]

(8) **Incurrences are Binding** – Notwithstanding anything to the contrary in this Act, each Disposition made to or by an Absolute Assignee and all amounts payable or becoming due and payable by or on behalf of an Absolute Assignee under or in connection with any obligation purporting to be a Funding Obligation, shall be binding for the purposes of this Act, including in determining the amount of related Transition Charges, despite any impairment or defect resulting from such failure.

[Article 10 – Compliance Matters[19]

(1) **Right of the [OEB] to Inspect Books and Records** - For the purpose of investigating compliance with the provisions of this Act, the OEB shall have the right, jurisdiction, power and authority to examine the books and records of *[Insert names if any]*.

(2) **[OPG's Rate Settings** – When setting other rates for or in respect of OPG, the OEB shall not take into account (a) the administrative or servicing fees charged by OPG as Financial Services Agent [in excess of the actual incremental costs incurred by such person of providing administrative or servicing services]; (b) the cost consequences to OPG of being the Financial Services Agent; or (c) the consequence of OPG

[19] As noted above, the outcome of any regulatory action undertaken by the OEB will not affect Funding Obligations that have been incurred under the Financing Plan. This Article and any potential role for the Auditor General is still under consideration.

consolidating the assets and liabilities of any Financing Entity for OPG's accounting purposes, in each case in setting any regulated payment amounts for OPG.][20]

Article 11 – Undertaking of the Lieutenant Governor in Council[21]

(1) **No Action to limit, alter, or impair or terminate Transition Charges, the Regulatory Asset or Collections** – The [Lieutenant Governor in Council] shall not in any way take or permit any action to reduce, impair, postpone or terminate the obligation of Retail Consumers to pay Transition Charges or to impair the Regulatory Asset or the collection or recovery of Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances, either directly or indirectly, including through the introduction of any bill or the passing of any legislation or regulation having such effect. The amount of Transition Charges determined under this Act shall not be subject in any way to reduction, impairment, postponement or termination as a result of any action taken or failure by the Lieutenant Governor in Council, including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(2) **Undertaking and Agreement** – The [Lieutenant Governor in Council] shall not:

(a) in any way take or permit any action that limits, alters or impairs the value of any Investment Interest;

(b) except as required by the estimates and adjustments made in determining the True-up Amount, reduce, alter or impair Transition Charges that are imposed, billed, invoiced, collected and remitted for the benefit of the Absolute Assignees or any Pledgee from time to time;

(c) permit the amendment, amendment and restatement or termination of the Fair Allocation Plan if such amendment , amendment and restatement or termination would adversely affect the validity or enforceability of any Funding Obligation or the rights of an Absolute Assignee or Pledgee thereunder,

in each case including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(3) **Successor IESO** – If IESO is restructured, dissolved or becomes insolvent or is otherwise incapable of performing its obligations under this Act, Successor IESO shall be established to perform such obligations.

---

[20] As an alternative to this provision, consider clarifying under s. 78.1(4) of the OEB Act (which currently gives the OEB discretion in setting payment amounts subject to O. Reg. 53/05) that the OEB in setting OPG payment amounts for prescribed generation shall not consider OPG's role as Administrative Agent of any Financing Entities associated with the Fair Hydro initiative, perhaps with the exception of any operating fees that may be received by OPG for performing that role.

[21] Under consideration, including the dealers' request for a "servicer guarantee" and a "contractual guarantee" to address a "Change of Law" or if all or a portion of the legislation is *ultra vires*, requiring (at the lenders option), the Province to pay principal and interest on the outstanding debt until maturity or payout the entire debt including any make-wholes.

(4) **Compensation for Failure** – Absolute Assignees shall be compensated for any losses suffered by them as a result of any failure by the Lieutenant Governor in Council to comply with its undertakings and agreements in this Article 11.[22]

(5) **No Wind-up of Financing Entity**. No Financing Entity may be voluntarily wound up, liquidated or dissolved until one year after all of its Funding Obligations are repaid.

(6) **References to the Undertaking and Agreement** – Any non-confidential reference to the Undertaking of the Lieutenant Governor in Council, including in marketing materials and other documentation authorized for use by the Administrative in connection with any Funding Obligation, may be made provided that [*Add conditions to protect the Province*].

Article 12 – Regulations

Regulations may be made under this Act for the purposes described in Sections •,•,• and • and may be promulgated for any of the following purposes:

(a) to set standards and measures regarding the commercially reasonable requirements of the Province associated with an Absolute Assignee incurring Funding Obligations or becoming obligated to pay any Finance Amount, including to establish guidelines regarding all-in funding costs; permitted Additional Funding Charges; required maturities and redemption and termination rights of Funding Obligations; liquidity requirements, in each case to a Financing Plan that is consistent in its effect with the Fair Allocation Plan;

(b) to establish and empower one or more regulated entities to undertake decision-making activities with respect to this Act;

(c) to set out reasonable requirements regarding the appointment or retention of advisors, agents, service providers, contract counterparties, including in relation to 'market terms and conditions' parameters;

(d) to provide for audit and compliance standards applicable to those persons who are or may become obligated or have duties that arise under this Act [or under any Funding Obligation];

(e) to provide for any pre-vetting and approval requirements in relation to any incurrence by an Absolute Assignee of any Funding Obligation or obligation to pay any Finance Amount; and

(f) to provide for appeal and due process considerations in connection with the establishment, adoption, implementation and review of the Fair Allocation Plan or the Financing Plan.

Article 13- Miscellaneous[23]

---

[22] Requested by Torys. For discussion.

[23] OPG would like the specific amendments related to OPG to be included in the Bill.]

(1) **Choice of law** – The law governing, as applicable, the validity, enforceability, attachment, perfection, priority and exercise of remedies with respect to the transfer of an interest or right or creation of a security interest in the Regulatory Asset, any Transition Charge or the Undertaking of the Province shall be the laws of the Province.

(2) **Conflict of law** – In the event of conflict between this Act and any other law of the Province regarding the attachment, assignment or perfection, or the effect of perfection, or priority of any Disposition or Pledge, this Act shall govern to the extent of the conflict.

(3) **No further acts or approvals required** - Notwithstanding any provisions of any law of the Province to the contrary, no approvals, notices or authorizations other than those specified in this Act shall be required with respect to the actions to be taken in compliance with this Act, including under the Financing Plan or in relation to the establishment of the Fair Allocation Plan, and the transactions and contracts authorized in or contemplated by this Act or the Financing Plan, including the incurrence of any Funding Obligation, any Disposition, any Pledge or in the payment and performance of any attendant or incidental contract and any related expenses incurred to facilitate the preparation and implementation of the Financing Plan.

(4) **Effect of invalidity after the Incurrence of any Funding Obligation** - Effective on the date that a Funding Obligation is incurred under this Act, if any provision of this Act is held to be invalid or is invalidated, superseded, replaced, repealed or expires for any reason, that occurrence shall not affect any action allowed under this Act that is taken by any person who is or may become obligated or have duties that arise under this Act and any such action shall remain in full force and effect.

(5) **Severability** - If any Article, Section, paragraph or subparagraph of this Act or the application thereof to any person, circumstance or transaction is held by a court of competent jurisdiction to be unconstitutional or invalid, the unconstitutionality or invalidity shall not affect the constitutionality or validity of any other Article, Section, paragraph or subparagraph of this act or its application or validity to any person, circumstance or transaction, including the irrevocability of Transition Charges, the validity of the Regulatory Asset, the incurrence of any Funding Obligation, any Disposition, any Pledge, or the collection and recovery of Transition Charge Collections. To these ends, the Legislature hereby declares that the provisions of this Act are intended to be severable and that the Legislature would have enacted this Act even if any Article, Section, paragraph or subparagraph of this Act held to be unconstitutional or invalid had not been included in this Act.

Schedule 3[24]

Principles and Parameters for Establishing the Financing Plan

The following principles and parameters provide a guideline as to what a Financing Plan should address:

(1) in respect of each Reference Period, make reference to the allocations of Future Fair Share of Green Transition Benefits to each Reference Group contemplated by the Fair Allocation Plan;

(2) estimate IESO Funding Shortfalls for each Reference Period;

(3) consider alternative funding arrangements suitable to fund the estimated IESO Funding Shortfalls, including short term and/or long term Funding Obligations;

(9) consider quantities, maturities, payment obligations, prepayment or redemption rights and such other features of Funding Obligations so that payments made for a Reference Period reasonably correspond to the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

(4) if the anticipated amount of any Repayment (together with payments of other Finance Amounts) to be made in respect of a Reference Period would materially exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable Retail Consumer Group under the then current Fair Allocation Plan, diligent efforts should be made to determine whether a Refinancing or deferral of such Repayment may be reasonably and cost-effectively effected based on then prevailing market terms, conditions an circumstances;

(5) reflect the assumptions and requirements specified in any contemplated Funding Obligation (e.g., any limit on the maximum amount of Transition Charges charged to a hypothetical Retail Consumer relative to his or her monthly electricity bill, as prescribed by any rating agency that ascribes its credit rating to or in respect of the Funding Obligation having regard to the application of the Allocation Methodology);

(6) incur Funding Obligations from time to time on the best terms available at such time for a financing transaction of the size and type contemplated, and having regarding to the following parameters:

a. whether the Absolute Assignees will require committed access to short term liquidity to cover estimated IESO Funding Shortfalls prior to incurring fixed term Funding Obligations, and the amount and repayment terms of any such required liquidity; provided that any Repayment required to be made under the terms of such short-term liquidity would not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of

Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

b. the basis upon which the Financial Services Agent will select the term to maturity of any other Funding Obligations; provided that any Repayments required to be made under the terms of such Funding Obligations should not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

c. the basis upon which the interest rates applicable to such Funding Obligations would be determined;

d. the reference capital or finance market in which such Funding Obligation would be incurred, including markets outside of Canada if considered by the Financial Services Agent to be appropriate in the circumstances;

e. the currency of payments under such Funding Obligations and, if the Funding Obligations are denominated in a currency other than Canadian dollars, the basis upon which the Financial Services Agent shall cause the applicable Absolute Assignee to enter into hedging transactions to mitigate currency risk, including acceptable minimum and maximum coverage levels, having regard to the availability of related derivatives having notional amounts corresponding to the repayment and maturity profile of such Funding Obligations;

f. the basis upon which the Financial Services Agent will select counterparties under any transaction to be entered into by an Absolute Assignee, including any paying agent, servicer, cash manager, liquidity provider, hedge counterparty, account bank, lender, note trustee, security trustee, paying agent, registrar/transfer agent, financial services agent, arranger or manager;

g. the basis upon which the Financial Services Agent will manage counterparty risk, including by providing for maximum counterparty exposure limits having regard to concentration, credit and other identified risks with respect to individual counterparties or countries;

h. the basis upon which the Financial Services Agent will negotiate and settle Finance Amounts, including the amount of any Redemption Amounts, Finance Reserve Deposits and Additional Funding Charges;

(7) the basis upon which Funding Obligations may be redeemed, prepaid, repurchased or otherwise affected, having regard for the need to minimize debt service charges and other Funding Costs, and the need to maintain a stable funding platform to finance the IESO Funding Shortfalls from time to time on a basis that is consistent with the allocations of Future Fair Share of Green Transition Benefits to applicable Reference Groups under the Fair Allocation Plan;

(8) the basis upon which any Repayments, Funding Costs and Redemption Amounts will be paid, including any defeasance, sinking fund or through other reserves or liquidity facilities;

(9) the basis upon which fees, charges, expenses, costs, indemnities, reimbursements and other amounts payable to or for the benefit of the Financial Services Agent and other agents and service providers to the Absolute Assignees may be determined, allocated and paid;

(10) the timing and basis upon which Finance Reserve Deposits and Finance Reserve Withdrawals may be made;

(11) the basis upon which any obligations for any other Additional Funding Charges may be incurred and paid;

(12) the basis upon which the cash flows arising from time to time or otherwise derived from the Regulatory Asset may otherwise be applied, including in relation to any counterparty enforcement and realization scenario;

(13) the transmittal to [the IESO] of information related to the amounts to be included in the determination of the Period Transition Charge for a Reference Period;

Preliminary Draft for Discussion Purposes Only

"Fair Hydro Act" ~~– Part V.2~~

Article 1 – Purpose[1]

~~IESO has entered into Power Contracts with Generators. The agreed-upon reference prices and quantities set out therein were determined based on commitments made by IESO to provide Generators with long-term price certainty, so as~~The Province has and continues to encourage the construction and development of facilities for the ~~purpose of~~ long-term operation and generation of electricity in the Province using sustainable, lower carbon-based technologies such as new gas-fired generation, renewable facilities, energy from waste and biomass, including under the Province's various procurement, standard offer ~~and~~, feed in tariff and other similar programs (the "Green Generation Initiative"). ~~[The terms of the Power Contracts were intended to approximate the anticipated useful life of the related generation assets]; however, it has been determined that the useful life of many of these assets will be well in excess of the actual term of the related Power Contracts and will extend over more than one generation of ratepayers.~~ The long-term benefits of the Green Generation Initiative accrue over time and have benefited and will benefit present and future ~~ratepayers of the Province. Currently, market prices for electricity are less than the reference prices set out in the Power Contracts, leaving a gap in funding which is funded by charging consumers a "Global Adjustment" (part of which is available to IESO to pay this shortfall).~~electricity consumers in the Province.

The imputed costs of the Green Generation Initiative are currently passed through to electricity consumers by way of a monthly adjustment amount (the "Green Costs Adjustment"), which in turn forms part of the overall adjustment calculated by the Independent Electricity System Operator ("IESO") pursuant to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* (the "Global Adjustment"). The Global Adjustment is included as a charge billed to electricity consumers in their monthly electricity invoices.

~~Each month, the IESO determines the Global Adjustment payable by consumers for the consumption~~The Green Costs Adjustment is currently determined each month by reference to the amounts paid by IESO to the generators of electricity in the Province~~. A component of the Global Adjustment is the amount by which the reference prices in the Power Contracts~~ under the Green Generation Initiative, which may be higher than prevailing market price for electricity. These differences arise because IESO has entered into long-term procurement contracts with such generators in order to provide them with long-term price certainty for electricity, and in turn to encourage the generators to develop technologies and to construct and develop facilities consistent with the Green Generation Initiative. In general, whenever amounts payable under these procurement contracts exceed the market price for electricity~~ for the quantities of electricity specified under the Power Contracts for the relevant period[2]. The relationship between the past, present and future benefits to Ratepayers from~~, the Green Costs Adjustment passes through the amount of such differences as part of the monthly charge to electricity consumers. Such amount then becomes available to IESO to meet its obligations under the procurement contracts. It has been determined that the useful lives of many of the assets encouraged by the Green Generation Initiative~~, on the one hand, and the costs of~~ will be well in

[1] ~~Consider the scope and breadth of the Purpose section. This text is considered to be useful to establish the legislative basis for the statute, which text will be useful in the event of a challenge.~~

excess of the respective terms of the related procurement contracts, and in many cases may extend over more than one generation of electricity consumers.

Since the benefits to past, present and future electricity consumers from the Green Generation Initiative ~~borne by past, present and future Ratepayers through their respective allocations of the Global Adjustment, on the other hand, do not necessarily reflect an equitable allocation of such benefits and costs over time, with the result that an adjustment may be appropriate to address inter-generational fairness considerations. Such an adjustment should reflect~~will not necessarily coincide with the costs currently attributed through the Green Costs Adjustment, based on the respective durations of the procurement contracts, it has been determined that the rate at which the costs associated with the Green Generation Initiative should be passed through to Retail Consumers (as defined in Article 2) should be more closely aligned with the benefits that such Retail Consumers have derived and are expected to derive from the Green Generation Initiative over time. This realignment will be based on principles and parameters that ~~can be applied from time to time in order to~~ establish a reasonable basis for measuring and allocating the relative costs and benefits of the Green Generation Initiative ~~across present and future Ratepayers. A plan to allocate such costs and benefits~~ equitably across present and future ~~Ratepayers may be developed based on those principles and parameters (a~~Retail Consumers (the "Fair Allocation Plan").

If ~~a~~the Fair Allocation Plan determines that the equitable allocation of the ~~Global Adjustment to the Ratepayers~~costs associated with the Green Generation Initiative to the Retail Consumers of a particular time period ~~in respect of the Power Contracts~~ should be reduced below the amount ~~otherwise determined,~~that currently would be charged based on the Green Costs Adjustment, then the amount payable by such ~~Ratepayers to Electricity Distributors in respect of such period,~~Retail Consumers and in turn ~~by the Electricity Distributors to the~~available to IESO~~, would~~ will, in the aggregate, be less than the amount payable by the IESO to the ~~Generators under the Power Contracts~~generators in respect of such period. ~~If the difference is greater than any net Power Contract surpluses available to IESO from earlier periods, IESO will have a funding shortfall.[3] In order for IESO to cover such a funding shortfall for a period,~~In this case IESO will need to obtain funding from another source~~, which could include funding from third party sources operating in public and private capital markets~~ to cover such a shortfall. If a funding obligation is incurred ~~in order to enable the~~by IESO to cover such a ~~funding~~ shortfall during one period, the repayment of such funding obligation will be required in a future period, and any related repayments, finance costs, hedging costs and other transaction costs ~~will be~~ incurred ~~and may~~will become payable in one or more ~~other~~future periods. ~~It will be necessary to provide~~In order for IESO to obtain a reliable and committed source of cash flows to enable IESO to repay such funding ~~obligations and to pay related funding costs with certainty when the funding obligations~~amounts when they become due and payable~~. This Part~~, this Act imposes irrevocable and non-bypassable financial obligations ~~of Ratepayers~~on Retail Consumers to pay amounts incurred in respect of such funding obligations when they become due and payable and establishes a right to invoice and collect such amounts . The right and interest in and to collect such financial obligations~~, which~~ will take the form of the Regulatory Asset contemplated in this ~~Part and~~Act, which will constitute property rights and interests. ~~The~~Interests in the Regulatory Asset ~~will~~may be sold and absolutely assigned ~~and will belong~~by IESO to one or more ~~newly created~~ financing entities, which in turn will finance their ~~purchase of such Regulatory Asset~~acquired interests by incurring funding obligations. The incurrence and payment of such funding obligations will be administered on behalf ~~the~~such financing entities by ~~an administrative~~a financial services agent ~~(initially OPG),~~ under the Financing Plan

contemplated in this ~~Part~~Act. The Financing Plan will seek to reasonably match the payment obligations arising under such funding obligations ~~and~~, to be borne by the future ~~Ratepayers~~Retail Consumers of the period in which such payment obligations become due, with the ~~costs and~~ benefits of the Green Generation Initiative ~~charged~~allocated to such future ~~Ratepayers~~Retail Consumers under the Fair Allocation Plan.

The purpose of this ~~Part~~Act is to establish the basis upon which intergenerational fairness can be achieved by charging the costs and benefits of the Green Generation Initiative to present and future ~~Ratepayers~~Retail Consumers on an equitable and cost effective basis.

Article 2 - Definitions

In this ~~Part~~Act:

> "Absolute Assignee" means a person to whom a Regulatory Asset Owner effects a Disposition.
>
> "Actual" means, in relation to costs, expenses or payments in respect of Funding Obligations during a Reference Period, the actual amount of such costs, expenses or payments paid or made (net of any Finance Reserve Withdrawals applied to pay such amounts), which amounts shall be recorded by the ~~Administrative~~Financial Services Agent whose records shall be determinative for the purposes of this ~~Part in~~Act except to the ~~absence~~extent of a manifest calculation error.
>
> "Additional Funding Charges" means, for a Reference Period in respect of an Absolute Assignee, the fees, charges, expenses, costs, indemnities, reimbursements and other amounts (including any applicable tax amounts) that are or become payable by ~~the Regulatory Asset Owners~~or on behalf of the Absolute Assignee during the Reference Period and that were incurred or committed to directly or indirectly by the Absolute Assignee in connection with the incurrence of Funding Obligations under the Financing Plan (whether at the time of such incurrence or over the term of the Funding Obligation and whether directly or indirectly), including (without duplication and without limitation): (a) any payment required under an ancillary agreement entered into by, or by the ~~Administrative~~Financial Services Agent on behalf of, ~~a Regulatory Asset Owner~~the Absolute Assignee under the Financing Plan; (b) any federal, provincial or local taxes, payments in lieu of taxes, franchise fees or license fees imposed on ~~a Regulatory Asset Owner~~the Absolute Assignee or incurred by on behalf of ~~a Regulatory Asset Owner~~the Absolute Assignee under any obligation to pay tax gross-up amounts to counterparties under Funding Obligations; (c) any amounts payable to the ~~Administrative~~Financial Services Agent, including amounts payable to its advisors and outside counsel; (d) any amounts incurred to prepare, confirm, amend and implement the Financing Plan; (e) any amounts payable to any Alternative Collection Agent or Alternative Servicer, including amounts payable to each's advisors and outside counsel; (f) any amounts incurred to make the calculations, determinations or confirmations to be made by or on behalf of ~~a Regulatory Asset Owner~~the Absolute Assignee; (g) any servicing fees and expenses; (h) any trustee fees and expenses; (i) any legal fees, expenses and disbursements; (j) any accounting fees and expenses; (k) any administrative fees and expenses; (l) any manager ~~of~~or director fees of a Financing Entity; (m) any registration fees and expenses; (n) any placement fees, underwriting fees, fees and related issuing expenses; (o) any rating agency fees; and (p) any other related fees, charges, expenses, costs, indemnities, reimbursements and other amounts that are approved in

good faith by the Financial Services Agent for recovery and payment under the Financing Plan.

~~"Administrative Agent" means [OPG] or, following any Replacement Event, such other person or persons who may be appointed as the administrative agent of the Regulatory Asset Owner under the Financing Plan in compliance with the requirements set out in Schedule 2.~~

"Allocation Factor" means, in respect of a ~~Ratepayer~~Retail Consumer for a Reference Period, the number (expressed as a percentage) determined in respect of the ~~Ratepayer~~Retail Consumer by ~~[IESO]~~the OEB based on the application of the Attribution Methodology in respect of the Reference Period.[4][1]

"Alternative Collection Agent" means a person appointed under Section 5(11) and in compliance with the requirements set out in Schedule 2 to assume the collection activities and activities of any Electricity Distributor or IESO under Article 5, as agent for and on behalf of the Regulatory Asset Owners.

"Alternative Servicer" means a person appointed under Section 4(8) to assume the obligations of the Servicer under Article 4, as agent for and on behalf of the Regulatory Asset Owners.

"Assessed Past Green Transition Costs" means, in respect of a Measurement Date, the aggregate of the imputed costs of the Green Generation Initiative (expressed as an equivalent to current dollars), as reflected in the calculation of the Green Costs Adjustment, which have been charged to Retail Customers through the Global Adjustment on or prior to the Measurement Date.

"Attribution Methodology"[~~5~~2] means the methodology specified in the Fair Allocation Plan for allocating the Period Transition Charges for a Reference Period to ~~the~~ individual ~~Ratepayers~~Retail Consumers of the applicable ~~Ratepayer~~Retail Consumer Group based on its Allocation Factor.

~~"Bypass Charge" means [To be developed].~~[6]

"Collected Amount Adjustment" means, in respect of a ~~Reference~~True-Up Period, the amount (which may be a negative amount) calculated by the Servicer or the ~~Administrative~~Financial Services Agent, as applicable, equal to (a) the Estimate of the

[4] ~~Consider basing~~[1] Confirm that this will be based on forecast volumes of demand (like RPP). To the extent amounts do not get recovered due to differences between forecast and actual, those ~~would~~may be identified and ~~rolled into~~caught by the True-Up.

[5] ~~A key question will be how the overall costs will be spread across the rate base. For example, the~~[2] This allocation may be volumetric ~~or not,~~ or some combination of a flat amount and a volumetric charge. ~~This will also impact any discussion regarding any bypass (e.g., grid exit) charge in connection with the bypass discussion~~Further discussion is required. H&W has raised a concern regarding possible adverse changes after the fact and rating agency considerations. Consider whether hard-coding in the legislation makes sense.

[6] ~~Consideration needs to be given to any amount that will be charged to a ratepayer who successfully bypasses (e.g., leaves the grid). In allocating Transition Charges, considerations would include whether to reserve Bypass Charges and spread them over the life of the program, and correspondingly how to factor those into the calculation of Transition Charges.~~

Finance Amount for the True-Up Period, minus (b) the sum of all Transition Charge Collections for the True-Up Period.~~7~~[3]

"Collective Rights Agreement" means an agreement among all of the Regulatory Asset Owners (including each Absolute Assignee) and each Pledgee that governs the enforcement of their respective rights and interests in, to and under the Regulatory Asset on a coordinated and collective basis.[4]

"Delegate" means the person or persons designated in writing from time to time by the Minister of Energy to undertake the actions and perform the responsibilities ascribed to the "Delegate" under this Act.

"Disposition" means an assignment, transfer, conveyance, sale, contribution, set-over, exchange or other disposition of ~~all or a specified portion (including a specified portion on a divided basis or by way of an undivided interest) of a Regulatory Asset Owner's right, title and interest in, to and under the Regulatory Asset~~an Investment Interest to an Absolute Assignee pursuant to a Disposition Document.

"Disposition Document" means the agreement, deed, conveyance, instrument or other document under which a Regulatory Asset Owner effects a Disposition to an Absolute Assignee.

"Electricity Distributor" means, in respect of a Service Area, the rate regulated distributor licensed ~~by the OEB~~under Part V of the *Ontario Energy Board Act, 1998* in respect of such Service Area, together with and its successors.

"Electricity Distributor Remittances" means, for an Electricity Distributor on a Remittance Date, all Transition Charge Collections received or deemed to be received by the Electricity Distributor prior to the Remittance Date and that have not otherwise been remitted to IESO or if applicable the Alternative Collection Agent in accordance with Section 5(3) , including the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5.

"Electricity Invoice" means an invoice issued by ~~an~~any of a Electricity Distributor (or in its stead, by an Alternative Servicer)~~ or~~, by the Servicer or by a Retailer, in each case to a Retail Consumer that is served by the Electricity Distributor's distribution system in respect of electricity charges, including the cost of electricity, delivery and regulatory charges and related services and amounts incurred, assessed or charged in respect of connectivity to a distribution network in the Electricity Distributor's designated Service Area and in respect of applicable Transition Charges to be charged to the Retail Consumer under this Act.

"Estimate" means~~,~~ (a) in relation to costs, expenses or payments in respect of Funding Obligations or any Finance Amount for a Reference Period, the estimated amount of such costs, expenses or payments determined by the ~~Administrative Agent~~Financial Services Agent; and (b) in relation to an assessment of the benefits of the Green Generation Initiative to any Retail Consumer Group, the estimated value (in current

dollars) of such benefits determined by the Delegate, in each case having regard to the applicable principles and parameters set out in Schedule 1, which estimated amounts shall be determinative as the applicable estimate for the purposes of this ~~Part in~~Act except to the ~~absence~~extent of a manifest calculation error.

"~~Fair Allocation Plan" [has the meaning given in Article 1].~~Estimated Future Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that are expected to accrue to Retail Consumers from the establishment and implementation of the Green Generation Initiative during the period from the Measurement Date to the Program-End Date.

"Estimated Past Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that have accrued to Retail Consumers from the establishment and implementation of the Green Generation Initiative up to and including the Measurement Date.

"Fair Allocation Plan" has the meaning given in Article 1.

"Finance Amount" means, ~~in respect of~~for a Reference Period in respect of an Absolute Assignee, the sum (without duplication) of the following amounts ~~for~~that are or become payable during the Reference Period in respect of the Absolute Assignee: (a) Repayments; (b) Funding Costs; (c) Redemption Amounts; (d) Finance Reserve Deposits; and (e) Additional Funding Charges.~~"Finance Receipts" means, for a Reference Period, all amounts received by or on behalf of the Regulatory Asset Owners during the Reference Period in respect of a Funding Obligation, including from any reimbursement of standby commitment fees or charges paid by a lender, any reimbursement of credit enhancement fees or charges paid by any credit enhancer, any reimbursement of liquidity fees or charges paid by any liquidity provider, any amounts (including any termination payments) paid to the Regulatory Asset Owners under derivatives and any withdrawal made or required to be made from a debt service reserve account or other account established under any indenture, ancillary agreement or other financing document relating to a Funding Obligation.~~

"Finance Reserve Deposits" means, for a Reference Period, the amount by which (a) deposits made or to be made during the Reference Period in order to pre-fund, collateralize, over-collateralize or establish reserves for the ultimate payment of Funding Obligations or for related contingencies specified in the Financing Plan, exceed (b) any Finance Reserve Withdrawals.

"Finance Reserve Withdrawals" means, for a Reference Period, the amount withdrawn during the Reference Period from deposits previously made to pre-fund, collateralize, over-collateralize or establish reserves for the payment of Funding Obligations or to pay amounts in respect of related contingencies that had been specified in the Financing Plan.

"Financial Services Agent" means OPG or, following any Replacement Event, such other person or persons who may be appointed as the Financial Services Agent of the

Absolute Assignees under the Financing Plan in compliance with the requirements set out in Schedule 2.[5]

"Financing Entity" means an entity established in accordance with the Financing Plan to acquire all or an interest in the Regulatory Asset as an Absolute Assignee and to enter into Funding Obligations to finance such acquisition.[8] under the Financing Plan.[6]

"Financing Plan" means the written plan [prepared by the Administrative Agent]Financial Services Agent on behalf of each Absolute Assignee in compliance with Article 89 to set forth the basis upon which, among other things: (a) any Disposition may be made to, financed by or effected by an Absolute Assignee; (b) any Funding Obligations may be incurred in order to fund a Funding Shortfallby an Absolute Assignee, including any Refinancing; (c) any Pledge may be given or effected; (d) any Funding Obligations may be redeemed, prepaid, repurchased, amended or otherwise effected; (e) any obligations for Additional Funding Charges may be incurred and paid; (f) any Repayments, Funding Costs and Redemption Amounts may be paid or provided for; (g) any Finance Reserve Deposits may be made; (h) any Finance Reserve Withdrawals may be made; (i) the establishment and operation of any Financing Entity may be effected; and (ij) the cash flows arising from time to time or otherwise derived from the Regulatory Assetan Investment Interest may otherwise be applied, as the same may be amended, amended and restated or terminated by the Financial Services Agent in compliance with Article 9 from time to time.

"Funding Costs" means, for a Reference Period in respect of an Absolute Assignee, the amount by which (a) the aggregate of all interest and other periodic finance charges accruing due and becoming payable or paid by or on behalf of the Regulatory Asset OwnerAbsolute Assignee during the Reference Period in respect of allits Funding Obligations, including any standby commitment fees or charges paid to any lender, credit enhancement fees or charges paid to any credit enhancer, liquidity fees or charges paid to any liquidity provider, amounts (including any termination payments) paid under derivatives and any deposit amount made or required to fund or replenish a debt service reserve account or other account established under any indenture, ancillary agreement or other financing document relating to aits Funding ObligationObligations, exceeds (b) the aggregate of all Finance Receiptsamounts received by or on behalf of the Absolute Assignee during the Reference Period in respect of a Funding Obligation, including from any reimbursement of standby commitment fees or charges paid by a lender, any reimbursement of credit enhancement fees or charges paid by any credit enhancer, any reimbursement of liquidity fees or charges paid by any liquidity provider, any amounts (including any termination payments) paid to the Absolute Assignee under derivatives and any Finance Reserve Withdrawal made or required to be made from a debt service reserve account or other account established under any indenture, ancillary agreement or other financing document relating to the payment of the Funding Costs payable in respect of a Funding Obligation for the Reference Period.

[5] Discuss whether to accommodate multiple Financial Services Agents. MOE to consider.

[8] OPG has suggested[6] MOE to confirm that the legislation will provide that any Financing Entity that is a wholly-owned subsidiary of OPG (1) would not be subject to Part VI of the *Electricity Act* (Ontario) and (2) in the case of any Financing Entity that is a trust, any income of such trust (for purposes of the *Income Tax Act* (Canada) or the *Taxation Act, 2007* Ontario)) which is paid or made payable to OPG or a wholly-owned subsidiary of OPG as a beneficiary of such trust will not be taken into account in calculating the amount of a payment required to be made by OPG (or such subsidiary) by section 89 or 90 of the Electricity Act. These raise issues for consideration by the stakeholders.

"Funding Obligation" means, in respect of an Absolute Assignee, each payment obligation (including each obligation to pay: principal, interest, premiums and other financing ~~charges, indebtedness,~~charge payments; pass-through payments; payment obligations arising under or in respect of derivatives~~,~~; payment obligations owing to service providers, ~~administrative agents~~Financial Services Agents, finance entity intermediaries, capital markets intermediaries, advisors, lenders, credit enhancement providers, liquidity providers, disbursement counterparties, regulatory agencies and rating agencies; and all ~~taxes payable in connection with the foregoing)~~Additional Funding Charges incurred by or on behalf of ~~a Regulatory Asset Owner~~the Absolute Assignee under the Financing Plan ~~in order to fund a Funding Shortfall for a Reference Period~~, including any Refinancing of another such payment obligation incurred by or on behalf of such Absolute Assignee.[9]

~~"Funding Shortfall" means, for a Reference Period, (a) the amount, if any, by which (i) the IESO Power Contract Net Payment for the Reference Periods, exceeds (ii) the GA Power Contract Contribution for Reference Period, minus (b) the IESO Applied Surplus for the Reference Period.~~[10]Future Fair Share of Green Transition Benefits" means, in respect of a Measurement Date, the sum of (a) the Over-Assessed Amount; and (b) the Estimated Future Green Transition Benefits, in each case as of the Measurement Date.

~~"GA Power Contract Contribution" means, for a Reference Period, the aggregate of the payments to be made by the applicable Ratepayer Group in respect of the portion of the Global Adjustment [attributable to the Power Contracts] in accordance with the Fair Allocation Plan.~~[11]

"Generator" means a generator of electricity that is subject to ~~[this~~the *Electricity Act*~~]~~[12]~~.~~, *1998*.

"Global Adjustment" ~~means the amount calculated from time to time under [Section • of the *Electricity Act*], which includes among other things an amount determined in respect of the costs associated with the Green Generation Initiative, including amounts attributable to the Power Contracts.~~[13]has the meaning given in Article 1.

"Green Costs Adjustment" has the meaning given in Article 1.

"Green Generation Initiative" ~~[~~has the meaning given in Article ~~1]~~.1.

~~[9] OPG has asked whether this should include IESO finance arrangements.~~

~~[10] Consider whether to simplify by referring to the calculations of GA, with vs. without Fair. The issue would be that Fair is then linked into the GA calculation specifically, rather than to the specific assets that are subject to revised amortization under Fair. The constitutional position requires a clear nexus to the assets. Also, confirm whether RPP forecasting variances are to be included.~~

~~[11] IESO to confirm its ability to allocate a shortfall in a given month between what it receives and what it owes under the GA, in order to calculate (a) existing volume-based variances which are rolled into subsequent month GA and trued-up every 6 months under RPP, (b) existing variances attributable to OREC which are funded by the Province, and (c) new variances attributable to Fair Hydro program.]~~

~~[12] Revise once determine whether this will be a standalone Act or remain part of the *Electricity Act*. "Generator is a defined term in other legislation (OEB Act, Electricity Act) so this should ultimately be a distinct term such as "FH Generator" to avoid confusion.~~

~~[13] Note that if adjustments for Fair Hydro program are to be applied after existing GA adjustments, then this may need a new name (such as "FH Adjustment").~~

"IESO" means the Independent Electricity System Operator created pursuant to ~~[insert].~~Part II of the *Electricity Act, 1998*.

"IESO ~~Applied Surplus~~Available Amount" means, for a Reference Period, the lesser of (a) the amount~~,~~ (if any~~,~~) by which (i) the ~~IESO Power Contract Net Payment~~Maximum Transition Charge Amount for the Reference Period, exceeds (ii) ~~the GA Power Contract Contribution~~Period Finance Amount for the Reference Period, and (b) the IESO ~~Unapplied Surplus on the last day of the immediately preceding Reference Period.~~ Retained Interest Amount as of the [35th] day prior to the first day of a Reference Period plus any IESO Financing Costs that are due and payable and remain unpaid as of the [35th] day prior to the first day of a Reference Period.

"IESO Electricity Distribution Receipts" means, for a month, the sum of all amounts payable by Electricity Distributors to IESO during the month pursuant to section • of the *Electricity Act*.

"IESO Financing Costs" means, for a Reference Period, the financing costs (if any) incurred by IESO pursuant to Section 8(4) in order to finance its ownership of the IESO Retained Interest during the Reference Period.

"IESO Funding Shortfall" means, for a month, the amount, if any, by which (a) the IESO Electricity Distribution Receipts that would be payable to IESO for the month if determined without regard to this Act and without regard to the changes made to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* with respect to the Global Adjustment concurrently with this Act, exceeds (b) the IESO Electricity Distribution Receipts payable to IESO for the month[7]; provided that if the amount of any such shortfall is determined to have been based on incomplete information, variances or estimates that were inaccurate, an adjustment shall be made in determining the amount of any subsequent shortfall for the month in which the inaccuracy is identified.

"IESO ~~Power Contract Net Payment" means, for a Reference Period, the amount by which (a) the sum of amounts payable by IESO to the Generators under all Power Contracts for the Reference Period, exceeds (b) the sum of amounts payable by the Generators to IESO under all Power Contracts for the Reference Period.~~Recovery" means each amount remitted to IESO (including by IESO retaining such amount) in respect of the IESO Retained Interest pursuant to Section 5(6)(b), and "IESO Recoveries" means, collectively, all such amounts received by IESO.

~~"IESO Power Contract Net Receipt" means, for a Reference Period, the amount by which (a) the sum of amounts payable by the Generators to IESO under all Power Contracts for the Reference Period, exceeds (b) the sum of amounts payable by IESO to the Generators under all Power Contracts for the Reference Period.~~

"IESO Remittances" means, for a Settlement Date, all Electricity Distributor Remittances received by IESO or if applicable the Alternative Collection Agent prior to the Settlement Date and that have not otherwise been remitted to the Regulatory Asset Owners (each with respect to its Regulatory Asset) in accordance with Section 5(6), including the proceeds of any enforcement action undertaken by IESO or if applicable the Alternative

[7] This has been recast to recognize that the shortfall in the first 4.5 years could exceed the entire GA amount. A more refined approach to describing the concept may be considered.

Collection Agent to recover payment of amounts payable by Electricity Distributors to IESO in accordance with Article 5.

"IESO ~~Successor" means the entity appointed by the Province to succeed to the rights and obligations of IESO as the entity responsible for [managing the Province's power system].~~Retained Interest" means IESO's right, title and ownership interest (if any) in, to and under the Regulatory Asset, which shall exclude each Investment Interest.

"IESO Retained Interest Amount" means, on a day, (a) the sum of all IESO Funding Shortfalls incurred prior to the day, plus (b) the sum of all IESO Funding Costs incurred prior to the day in accordance with Section 8(4), minus (c) the net proceeds received by IESO from or on behalf of each Absolute Assignee as consideration for the Disposition of each Investment Interest paid to IESO by or on behalf of such Absolute Assignee prior to the day, and minus (d) the IESO Recoveries received by IESO prior to the day.

"IESO Successor" means the entity appointed by the Province to succeed to the rights and obligations of IESO as the entity responsible for managing the Province's electricity system.

"Investment Interest" means an ownership interest in, to or under the Regulatory Asset that is acquired by an Absolute Assignee pursuant to a Disposition, which ownership interest may include (without limitation) ownership of a specified portion on a divided basis of the assets comprising the Regulatory Asset and ownership of an undivided ownership interest in the Regulatory Asset, in each case as may be described in the applicable Disposition Document.

"Investment Remittance" means, for a month, the lesser of (a) the aggregate amount of all IESO Remittances for the month, and (b) the sum of the Finance Amounts due and payable by all Absolute Assignees in respect of the month.

"Maximum IESO Recovery" means, for a month, the amount (if any) by which (a) the IESO Remittances for the month, exceed (b) the sum of all Finance Amounts that are due and payable by Absolute Assignees in respect of the month.

"Maximum Transition Charge Amount" means, for a Reference Period, (a) the aggregate amount of Future Fair Share of Green Transition Benefits that are allocable to the applicable Retail Consumer Group in accordance with the Fair Allocation Plan, divided by (b) the applicable Reference Period Length.

"Measurement Date" means [Insert relevant date around the Legislation Implementation Date] and any other date specified as such under the Fair Allocation Plan.

"OEB" means the Ontario Energy Board, together with its successors.

"OPG" means the corporation incorporated as Ontario Power Generation Inc. under the *Business Corporations Act* on December 1, 1998, together with its successors.

~~"IESO Unapplied Surplus" means, at a particular time, the amount, if any, by which (a) the sum of (i) all IESO Power Contract Net Receipts for Reference Periods occurring prior to the time, and (ii) all GA Power Contract Contributions for Reference Periods occurring prior to the time, exceeds (b) the sum of (i) all IESO Power Contract Net~~

~~Payments for Reference Periods occurring prior to the time, and (ii) all IESO Applied Surpluses for Reference Periods occurring prior to the time.~~ Over-Assessed Amount" means, in respect of a Measurement Date, the amount (if any) by which (a) the Assessed Past Green Transition Costs, exceeds (b) the Estimated Past Green Transition Benefits, each as determined as of the Measurement Date.

"Period ~~Transition Charge~~Finance Charges" means, for a Reference Period, the sum of (a) the Estimate of the Finance Amount and (b) the True-Up Amount in respect of the immediately preceding Reference Period.

"Period Transition Charges" means, for a Reference Period, the sum of (a) the Period Finance Charges for the Reference Period and (b) the IESO Available Amount for the Reference Period.

"Pledge" means, in respect of an Investment Interest of an Absolute Assignee, a lien, mortgage, charge or security interest granted to or in favour of a Pledgee by ~~a Regulatory Asset Owner~~the Absolute Assignee in, to and over all or a specified portion (including a specified portion on a divided basis or by way of an undivided interest) of the ~~Regulatory Asset~~Investment Interest.

"Pledgee" means a person to whom ~~a Regulatory Asset Owner~~an Absolute Assignee grants a Pledge.

~~"Power Contracts" means long-term power contracts entered into by IESO with certain Generators, under which IESO has agreed to pay such Generators amounts, determined in respect of quantities of electricity over specified periods, to the extent that applicable market prices for such quantities of electricity during a specified period are less than specified reference prices for such quantities of electricity, and, correspondingly, Generators have agreed to pay IESO amounts if the market prices for such quantities exceed the applicable reference prices for such quantities.~~[14]Program End Date" means •, [2047].

"Province" means the Province of Ontario.

~~"Ratepayer" means present and future [retail] consumers of electricity [in the Province] who are [RPP][or OREC-eligible] consumers, which shall include all such retail consumers who are connected, directly or indirectly and whether a customer of an Electricity Distributor or not, to the transmission and distribution system assets located in the Province and who are taking electric delivery service within the Province, whether or not such retail consumers produce their own electricity or purchase electric generation services from a provider of electric generation services other than the owner of the Province's transmission and distribution system assets and whether or not the transmission and distribution system assets continue to be owned or operated by Electricity Distributors or operated by IESO.~~[15]

~~[14] Consider expanding to include PPAs that are not contracts for differences. Should this contemplate the possibility of additional or amended power contracts?~~

~~[15] Need to describe consumers in a fashion that is broad and not weakened by a bypass risk. Consider terminology to align with the description of the eligible customer class provided by the Ministry, e.g., same as OREC-eligible consumers except for consumers served by Independent Power Authorities (who do not pay GA). Also, consider use of the word "retail", to avoid limiting to customers of retailers and confirm removal of reference to transmission-connected customers.~~

~~"Ratepayer Group" means, in relation to a Reference Period, the Ratepayers who receive Electricity Invoices[16] during the Reference Period.~~

"Redemption Amount" means the amount payable by or on behalf of ~~a Regulatory Asset Owner~~an Absolute Assignee to redeem, prepay or repurchase a Funding Obligation incurred by or on behalf of the Absolute Assignee, including any premium, make-whole or other additional amount becoming payable under the Funding Obligation to give effect to such redemption, prepayment or repurchase.

"Regulatory Asset Owner" means each of (a) IESO, as owner of (and to the extent ~~that it has retained any ownership interest in, to or under the Regulatory Asset~~of) the IESO Retained Interest and (b) each Absolute Assignee, ~~to the extent that it has acquired and owns any ownership interest (including a specified portion on a divided basis or by way of an undivided interest) in, to or under the Regulatory Asset~~as owner of its Investment Interest or Investment Interests, and "Regulatory Asset Owners" means collectively ~~all of the Regulatory Asset Owners~~IESO and each such Absolute Assignee, who together own the entirety of the Regulatory Asset and are required to exercise their individual rights of ownership in accordance with Section 6(7). ~~For greater certainty, where one Regulatory Asset Owner owns the entirety of the Regulatory Asset, "Regulatory Asset Owners" refers to this Regulatory Asset Owner.~~

[16] ~~Expand to include eligible consumers who are not customers of Electricity Distributors (e.g., suite-metered customers).~~

~~"Related Generation Assets" means the [facilities, plants and equipment] constructed, acquired or developed in connection with the Green Generation Initiative.~~

"Related Rights" means~~, with respect to a Regulatory Asset Owner's Regulatory Asset,~~ all rights of any kind (whether in tort, contract or otherwise) that attach or are attendant or incidental to any of the other property rights or interests that comprise such Regulatory Asset.

"Remittance Date" means, in respect of an Electricity Distributor, each day on which it is required to remit Electricity Distribution Remittances to IESO or if applicable the Alternative Collection Agent as specified in accordance with any Funding Obligation or, if no such day is specified in ~~relation to~~accordance with any Funding Obligation, then the Business Day preceding each Settlement Date.

"Repayment Obligation" means an obligation to repay, redeem or repurchase, or to provide for the repayment, redemption or repurchase (including by making a related Finance Reserve Deposit) of, all or a portion of the amount advanced to the ~~Regulatory Asset Owner~~Absolute Assignee under a Funding Obligation.

"Repayment" means a payment by ~~a Regulatory Asset Owner~~an Absolute Assignee made to satisfy a Repayment Obligation, other than to the extent that the payment is made by applying the proceeds of a Refinancing or from Finance Reserve Withdrawals.

"Replacement Event" means any event specified as such in a Funding Obligation.

"Retail Consumer" means:

(a) present and future consumers of electricity in the Province who are (i) consumers designated under section 79.16 of[, and O.Reg 95/05 under,] the *Ontario Energy Board Act, 1998*, or (ii) hold or are deemed to hold an "eligible account" under the *Ontario Rebate for Electricity Consumers Act, 2016*, other than any such consumer who has a contract with a Retailer who uses Retailer Consolidated Billing; and

(b) present and future Retailers who use Retailer Consolidated Billing,

and each case includes all such consumers and Retailers who are connected, directly or indirectly and whether a customer of an Electricity Distributor or not, to the transmission and distribution system assets located in the Province and who are taking electric delivery service within the Province, whether or not such retail consumers produce their own electricity or purchase electric generation services from a provider of electric generation services other than the owner of the Province's transmission and distribution system assets and whether or not the transmission and distribution system assets continue to be owned or operated by Electricity Distributors or operated by IESO.

"Retail Consumer Group" means, in relation to a Reference Period, the Retail Consumers who receive Electricity Invoices during the Reference Period.

"Retailer" means a person who is licensed under Part V of the *Ontario Energy Board Act, 1998* to retail electricity.

"Retailer Consolidated Billing" has the same meaning as in the *Retail Settlement Code* issued by the Ontario Energy Board.

"Service Area" means, in respect of an Electricity Distributor, the geographic area or region in which it is licensed to distribute electricity in accordance with ~~[this~~the *Electricity Act*[17]~~]~~, *1998*.

"Servicer" means ~~[To be determined]~~IESO or IESO Successor, as agent for and on behalf of the Regulatory Asset ~~Owner [To be determined – collective invoicing agent, and consider expanding].~~Owners, for the purposes set forth in Article 4.

"Settlement Date" means the [last Business Day of any month].

Article 3 – Transition Charges

(1) **~~Ratepayer~~Retail Consumer Obligation to Pay a Transition Charge** – Each ~~Ratepayer~~Retail Consumer shall pay each Transition Charge charged to it in any Electricity Invoice issued to such ~~Ratepayer~~Retail Consumer by its Electricity Distributor or by an Alternative Servicer under Section 4(1), in each case on the terms of payment specified in the related Electricity Invoice.

~~[17] Revise once determine whether this will be a standalone Act or remain part of the *Electricity Act*.~~
~~[18] Note that this is the term that describes the "asset" that we are amortizing over a longer period of time.~~

(2) **Indebtedness of ~~Ratepayers~~Retail Consumers** – Until paid, a Transition Charge charged to a ~~Ratepayer~~Retail Consumer in an Electricity Invoice shall, together with any applicable late payment fees and finance charges arising under the terms of the Electricity Invoice with respect to such Transition Charge, constitute non-bypassable indebtedness of the ~~Ratepayer~~Retail Consumer to the Regulatory Asset Owners, ~~(~~each with respect to its respective interest in the Regulatory Asset~~)~~. Such indebtedness shall constitute a single and separate[8] debt obligation owing by the ~~Ratepayer~~Retail Consumer, which subject to Article 5 may be enforced independently from any other payment obligation or indebtedness owing by the ~~Ratepayer~~Retail Consumer under the Electricity Invoice or otherwise.~~[19]~~[9]

(3) **No Set-Off or Reduction** – A ~~Ratepayer~~Retail Consumer may not set-off or reduce (by counterclaim, defense or otherwise) the amount payable by it in respect of any Transition Charge, including any set-off against or in respect of any amount owing or becoming payable to such ~~Ratepayer~~Retail Consumer by its Electricity Distributor, any Regulatory Asset Owner or any other person.

(4) **Allocation of ~~Ratepayer~~Retail Consumer Payments** – If an Electricity Distributor receives a payment made by or on behalf of a ~~Ratepayer~~Retail Consumer in respect of amounts due and payable under one or more Electricity Invoices that is less than the total amount payable thereunder, such payment shall be allocated on a *pro rata* basis to the payment of related Transition Charges and other invoiced amounts and the amount so allocated as a payment of related Transition Charges shall be deemed to constitute a Transition Charge Collection.

(5) **Transition Charges are Irrevocable** – The Transition Charges arising under or in respect of Funding Obligations incurred under the Financing Plan (including any adjustments based on modifications to such Funding Obligations made in compliance with the Financing Plan or as a result of amendments to the Financing Plan made in accordance with Section ~~8~~9(3)) are deemed to be irrevocable, final and effective without any further action, ~~in~~except to the ~~absence~~extent of manifest calculation error. For greater certainty, a Transition Charge may include Finance Amounts for a Reference Period whether or not the payment of such Finance Amounts are inconsistent with the Fair Allocation Plan applicable at the time such payments are due and payable, whether or not the related Funding Obligation was properly incurred under the Financing Plan. In no case shall a Funding Obligation incurred under the Financing Plan be affected by a subsequent amendment to the Fair Allocation Plan.

[8] Determine if this is critical for rating and markets. Logistics under consideration.

~~[19] Torys suggests that we not create a debtor/creditor relationship between ratepayers and regulatory asset owners. Instead, ratepayers would only have relationships with electricity distributors and the Fair program would rely on consumers paying distributors and distributors to collecting those amounts and remitting them to IESO. The current draft goes further to bridge the investors more directly with ratepayers. There are differences in the approaches, including reliance from a credit perspective on the LDCs (rather than an ability to replace the individual LDCs with the investors choice). This depends on the credit analysis, and comfort that a later requirement will not be accommodated without a change in the legislation.~~[9] Torys has also suggested that deemed conditions of licenses for distributors, retailers and unit sub-metering providers, could be included as conditions, to require them to collect and remit amounts in accordance with this legislation. ~~Consideration should be given to whether that achieves the same direct relationship and whether the effectiveness of the current regulatory licensing regime should be suggested as the basis~~Consider if it is helpful to integrate the existing regulatory scheme for ~~a market based credit decision.~~invoicing and collections (regarding RPP) in the legislation.

~~(6)~~ ~~**[Anti-avoidance; No-by-pass** – Transition Charges charged to a Ratepayer in respect of any Finance Amount incurred under with the Financing Plan applicable at the time the related Funding Obligation was incurred may not be avoided and shall be [non-by-passable].]~~

Article 4 – Invoicing of Transition Charges[20]

(1) **Inclusion of Transition Charges in Electricity Invoices** – Each Electricity Distributor and if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, specify the Transition Charge to be charged to a ~~Ratepayer~~Retail Consumer pursuant to Section 4(4) in respect of a related Reference Period in each Electricity Invoice issued by the Electricity Distributor or if applicable by the Alternative Servicer to the ~~Ratepayer~~Retail Consumer in respect of such Reference Period. Upon the inclusion of a Transition Charge in an Electricity Invoice, the obligation to pay such amount shall be binding on the applicable ~~Ratepayer~~Retail Consumer.

(2) **Calculation of the Period Transition Charge** – Not later than [35] days prior to the first day of a Reference Period, each ~~Regulatory Asset Owner~~Absolute Assignee (or the ~~Administrative~~Financial Services Agent on its behalf) shall provide the ~~Servicer~~OEB with written notice of each Estimate of a Finance Amount payable by it or on its behalf in respect of the Reference Period. [35] days prior to the first day of a Reference Period, IESO or Successor IESO if applicable shall specify the IESO Retained Interest Amount and any IESO Financing Costs that are due and payable and remain unpaid on such day. Not later than one month prior to the first day of a Reference Period, the ~~Servicer or if applicable the Alternative Servicer~~[21]OEB shall calculate the Period Transition Charge applicable to the Reference Period based on the calculations and information set forth in such written notices received from the ~~Regulatory Asset Owners, which~~Absolute Assignees and based on such amounts specified by IESO or Successor IESO, which calculations, information and amounts shall be determinative ~~in~~, except to the ~~absence~~extent of manifest calculation error or misstatement.

(3) **Calculation and Attribution of Transition Charges** – Not later than 25 days prior to the first day of a Reference Period, the ~~Servicer or if applicable the Alternative Servicer~~OEB shall apply the Attribution Methodology to determine the Allocation Factor for each ~~Ratepayer~~Retail Consumer of the applicable ~~Ratepayer~~Retail Consumer Group.

(4) **Notice of Transition Charges** – Not later than 20 days prior to the first day of a Reference Period, the ~~Servicer or if applicable the Alternative Servicer~~OEB shall inform each Electricity Distributor and if applicable any Alternative Servicer of the Transition Charges to be specified in the Electricity Invoices to be issued to each ~~Ratepayer~~Retail Consumer of the applicable ~~Ratepayer~~Retail Consumer Group who has a billing address in the Electricity Distributor's Service Area.

(5) **Adjustments** – The amount of any Transition Charge charged to a ~~Ratepayer by the Servicer~~Retail Consumer and specified as such in an Electricity Invoice shall be

determinative of the amount of indebtedness created thereby and owing in respect of such Transition Charge, ~~in~~except to the ~~absence~~extent of any manifest calculation error.

(6) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 4 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 4 to impose, attribute, charge, bill and invoice the Transition Charges.

(7) **IESO Successor** – Any IESO Successor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of IESO under Article 4 in the same manner and to the same extent as IESO, including the obligation to calculate and provide notice of Transition Charges.

(8) **Appointment of an Alternative Servicer** – If a Replacement Event occurs in respect of any Electricity Distributor, the ~~Regulatory Asset Owners~~Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Servicer to perform some or all of the obligations and duties required to be undertaken by such Electricity Distributor under this Article 4, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Servicer shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor. Any Electricity Distributor that is replaced under this Section 4(8) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in the performance of such obligations and duties to the Alternative Servicer and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Servicer to perform such obligations and duties on behalf of the Regulatory Asset Owners.

(9) ~~**Regulatory Asset Owners**~~**Absolute Assignees have Standing** – The ~~Regulatory Asset Owners~~Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, the Servicer, Alternative Servicer or any other person who may be authorized to issue Electricity Invoices to ~~Ratepayers~~Retail Consumers for a failure to impose, attribute, charge, bill or invoice Transition Charges. Any court of the Province ~~[and the OEB]~~ shall have jurisdiction over any actions brought before it by the ~~Regulatory Asset Owners~~Absolute Assignees in relation to any such failure.[22]

(10) **No Set-Off or Reduction –** No Servicer or Electricity Distributor may set off or reduce (by counterclaim, defence or otherwise) the amount payable by it pursuant to this Article 4.

(11) **Regulations** – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor~~,~~ or any Alternative Servicer ~~or any [Alternative Collection Agent]~~ to ensure that Transition Charges are properly charged to ~~Ratepayers~~Retail Consumers and specified as such in Electricity Invoices.

[22] ~~Consider having such matters first go through the OEB, particularly if the obligation to bill, collect or remit is deemed to be a condition of license for distributors, IESO, retailers and unit sub-metering providers, which would be enforceable provisions under the OEB Act and within OEB jurisdiction to enforce.~~

Article 5 – Collections and Remittances

(1) **Duty to Collect as Agent** – Electricity Distributors or if applicable any Alternative Collection Agent shall, as an agent of the Regulatory Asset Owners, undertake [diligent][reasonable][10] efforts~~]~~ to collect amounts owing by ~~Ratepayers~~Retail Consumers in respect of Transition Charges charged to such ~~Ratepayers~~Retail Consumers in Electricity Invoices issued by the Electricity Distributor or if applicable such Alternative Collection Agent.

(2) **Segregation of Transition Charge Collections** – An Electricity Distributor or if applicable any Alternative Collection Agent shall promptly segregate Transition Charge Collections from other payments received by it from ~~Ratepayers~~Retail Consumers and deposit such Transition Charge Collections into its Regulatory Asset Account.[11] Prior to and following a deposit of Transition Charge Collections having been made into its Regulatory Asset Account, the Electricity Distributor or if applicable any Alternative Collection Agent shall hold such amounts in trust for ~~each~~the Regulatory Asset ~~Owner~~Owners.

(3) **Electricity Distributor Remittances** – On each ~~[~~applicable Remittance Date~~]~~, an Electricity Distributor shall remit all Transition Charge Collections received by it from ~~Ratepayers~~Retail Consumers in respect of the related Reference Period to or to the account of IESO or if applicable the Alternative Collection Agent.

(4) **Duty to Collect Electricity Distributor Remittances** – IESO or if applicable any Alternative Collection Agent shall, as an agent of the Regulatory Asset Owners, undertake [diligent][reasonable] efforts to accept and collect Electricity Distributor Remittances from Electricity Distributors and Transition Charge Collections from ~~Ratepayers~~Retail Consumers that pay their Electricity Invoices directly to ~~the Servicer.~~[23]IESO.[12]

(5) **Segregation of Electricity Distributor Remittances** – IESO and if applicable the Alternative Collection Agent shall ~~[~~promptly~~]~~ segregate Electricity Distributor Remittances from other payments received or held by it and deposit such Electricity Distributor Remittances into its Regulatory Asset Account. Prior to and following a deposit of Electricity Distributor Remittances having been made into its Regulatory Asset Account, IESO or if applicable any Alternative Collection Agent shall hold such amounts in trust for ~~each~~the Regulatory Asset ~~Owner~~Owners.

(6) **IESO Remittances** – On each ~~[~~Settlement Date~~]~~[24][13], IESO and if applicable the Alternative Collection Agent shall remit all amounts on deposit in its Regulatory Asset Account (a) first, to or to the account of the ~~Regulatory Asset Owner~~Absolute Assignees an amount equal to the Investment Remittance for the related month and (b) second, to IESO (including by IESO retaining such amount) an amount equal to the lesser of (i) the Maximum IESO Recovery for the related month and (ii) the IESO Retained Interest Amount as of the Settlement Date.

[10] Mirror collection "standard of care" under applicable legislation.
[11] Consider trying to attach to existing LDC credit enhancements and provide parallel coverage for customer losses.
~~[23]~~[12] Consider building this obligation into a deemed condition of licence for the IESO.
~~[24]~~[13] Consider frequency of remittances in light of rating requirements. US rating agencies favour daily remittances.

(7) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 5 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 5 to collect Transition Charges and make remittances of Electricity Distributor Remittances.

(8) **~~Successors of~~ IESO Successor** – ~~Any successor of~~ IESO Successor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of IESO under Article 5 in the same manner and to the same extent as IESO, including the obligation to collect Transition Charge Collections, Electricity Distributor Remittances and to remit IESO Remittances.

(9) **Owners of Distribution Assets** - If any person other than an Electricity Distributor acquires distribution system assets in the Province or invoices or collects electricity distribution rates in the Province~~25~~14, then such person shall, if requested by the ~~Regulatory Asset Owners~~Absolute Assignees, be obligated to act diligently to (a) facilitate the invoicing and collection of any Transition Charges applicable to ~~Ratepayers~~Retail Consumers in its applicable service area, including all consumers connected to the electricity distribution system assets and taking electric delivery service located within such service area; (b) allocate partial payments by ~~Ratepayers~~Retail Consumers as provided in this ~~Part; (c) terminate service to non-paying Ratepayers on the same basis as termination of service is permitted for non-payment of electricity transmission and distribution rates; (d~~Act; (c) exercise all enforcement rights of the ~~Regulatory Asset Owners or Pledgee~~Absolute Assignees for the benefit of ~~a Regulatory Asset Owner or Pledgee~~an Absolute Assignee; and (~~e~~d) remit any Transition Charge Collections to the ~~Regulatory Asset Owner or Pledgee~~Absolute Assignees or Pledgees, as applicable, each in accordance with its ~~Regulatory Asset~~Investment Interest.

(10) **~~Regulatory Asset Owners~~Absolute Assignees have Standing** – The ~~Regulatory Asset Owners and any Pledgee~~Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, the Alternative ~~Servicer~~Collection Agent, any owner of electricity distribution system assets in the Province or any other person who may be authorized to collect electricity distribution and use charges from ~~Ratepayers~~Retail Consumers for a failure to collect Transition Charges, remit or collect Electricity Distributor Remittances or remit IESO Remittances, as and to the extent applicable under Article 5. Any court of the Province ~~[and the OEB]~~ shall have jurisdiction over any actions brought before it by the ~~Regulatory Asset Owners~~Absolute Assignees in relation to any such failure. ~~26~~

(11) **Appointment of an Alternative Collection Agent** – If a Replacement Event occurs in respect of any Electricity Distributor or IESO, the ~~Regulatory Asset Owners~~Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Collection Agent to perform some or all of the collection, segregation and remittance obligations otherwise required to be undertaken by such Electricity Distributor or IESO, as applicable, under Article 5, as and to the extent specified in such appointment. Upon acceptance of such appointment, the

~~25~~14 This is in anticipation of a possible future restructuring of the distribution system. ~~Also, this would cover any OREC-eligible customer (market participant) of IESO.~~

~~26 Consider having such matters first go through the OEB, particularly if the obligation to bill, collect or remit is deemed to be a condition of license for distributors, IESO, retailers and unit sub-metering providers, which would be enforceable provisions under the OEB Act and within OEB jurisdiction to enforce.~~

Alternative Collection Agent shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor or IESO, as applicable. Any Electricity Distributor or IESO, as applicable, that is replaced under this Section 5(11) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in, to and over the Regulatory Asset, including its Regulatory Asset Account, to the Alternative Collection Agent and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Collection Agent to enforce the Regulatory Asset on behalf of the ~~Regulatory Asset Owners~~Absolute Assignees.

(12) **No Set-off, etc.** - The Regulatory Asset, including rights in Transition Charges, Transition Charge Collections, and the interests of a Regulatory Asset Owner, an Absolute Assignee and a Pledgee therein, may not be setoff or reduced (including by counterclaim, surcharge or defense) by any ~~Ratepayer~~Retail Consumer, any Electricity Distributor, IESO, Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or in connection with any default, bankruptcy, reorganization or other insolvency proceeding of any Electricity Distributor, IESO, Alternative Collection Agent or any owner of distribution system assets in the Province, any affiliate or successor thereof or any other entity or otherwise.~~27~~15

(13) **Sequestration** – If any Electricity Distributor, IESO, the Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or entity authorized to collect Transition Charges, defaults on any required remittance of Transition Charge Collections, Electricity Distribution Remittances or IESO Remittances under Article 5, any court in the Province, upon application by ~~the Regulatory Asset Owners or Pledgee~~and of the Absolute Assignees acting collectively under the Collective Action Agreement and without limiting any other remedies otherwise available to the ~~applying party~~Absolute Assignees or Pledgees, shall order the sequestration and payment of the Transition Charge Collections, Electricity Distribution Remittances and IESO Remittances, as applicable, for the benefit of the ~~Regulatory Asset Owners or Pledgee~~Absolute Assignees, each with respect to its ~~Regulatory Asset.~~ Investment Interest, and the Pledgees as applicable.[16]

(14) Regulations – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Collection Agent to ensure that rights, interests, entitlements, benefits and proceeds in, to, under and from the Regulatory Asset are of fully realized by ~~the Regulatory Asset Owner~~some or all of the Absolute Assignees and Pledgees.

Article 6 – The Regulatory Asset

(1) **Composition** – The Regulatory Asset shall constitute ~~an existing, present~~a current and irrevocable property right and interest consisting, collectively, of the following rights and interests ~~of a Regulatory Asset Owner in the following~~ (without duplication):

~~27~~15 Consider whether it makes sense to create a "deemed collection" payment obligation on Electricity Distributors to the extent a ~~Ratepayer~~Retail Consumer reduces its payment of Transition Charges, despite this language~~, and same~~. Same for Electricity Distributor Remittances and IESO Remittances.

[16] Consider adding or substituting this provision for a right to appoint a receiver.

a. the right of ~~a Regulatory Asset Owner to record its portion of the Regulatory Asset in its accounts~~IESO (i) to record its IESO Retained Interest in its accounts in accordance with Section 8(1), having a stated amount from time to time equal to the IESO Retained Interest Amount; and (ii) to receive IESO Recoveries from time to time in accordance with Section 5(6)(b);

b. the right to impose, bill, invoice, collect and receive Transition Charges from ~~Ratepayers~~Retail Consumers, including the right to determine the amount of Transition Charges in accordance with this ~~Part~~Act;

c. the right to enforce the obligations and indebtedness of each ~~Ratepayer~~Retail Consumer to pay the Transition Charges charged to the ~~Ratepayer~~Retail Consumer from time to time in accordance with Article ~~2~~,3, together with all related late payment fees or interest charges arising in respect thereof under the related Electricity Invoices;

d. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Servicer to impose, attribute, charge, bill and invoice the Transition Charges in accordance with Article 4;

e. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Collection Agent to collect, receive and remit amounts received by it in respect of Transition Charges as Electricity Distributor Remittances to or to the account of IESO or if applicable the Alternative Collection Agent in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article ~~4~~5;

f. the right to enforce the duties and obligations of IESO and if applicable the Alternative Collection Agent to collect and receive Electricity Distributor Remittances and to remit IESO Remittances to or to the accounts of the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset, in each case in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by it to recover payment of Electricity Distributor Remittances in accordance with Article ~~4~~5;

g. the right to receive and collect all Transition Charge Collections, all Electricity Distributor Remittances and all IESO Remittances in accordance with Article 5;

h. all rights and entitlements under each Regulatory Asset Account and all amounts on deposit in any such Regulatory Asset Account;

i. all Related Rights; and

j. all revenue, collections, claims, payments, money and proceeds of or derived from the rights described in (a) through (i), regardless of whether such revenue, collections, claims, payments and proceeds are imposed, invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

A Regulatory Asset and the property rights and interests therein shall exist whether or not Transition Charges have been imposed, charged, invoiced, accrued or collected and notwithstanding that the imposition, attribution, invoicing and collection of Transition Charges will depend on further actions that may not have occurred.

(2) **Validity of Dispositions** – Despite any limitations or restrictions on a Disposition that may arise by contract or by operation of any applicable law of the Province ~~[~~or any consent requirement applicable to a Disposition that may arise by ~~contract or by~~ operation of any applicable law of the Province~~]~~, a Disposition by ~~a Regulatory Asset Owner~~IESO to an Absolute Assignee made under the Financing Plan ~~pursuant to a Disposition Document~~, or by one Absolute Assignee to another Absolute Assignee made under the Financing Plan, shall be permitted and when made shall be valid and enforceable in accordance with ~~its~~the terms of the related Disposition Document and shall be effective to confer upon the Absolute Assignee thereof a valid property right and interest in, to and under the ~~Regulatory Asset~~applicable Investment Interest (or relevant portion thereof) in accordance with the terms of such Disposition, provided that the parties to the applicable Disposition Document have expressly stated therein that such Disposition is a sale or other absolute transfer. Without limiting the foregoing, any Disposition that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as a true sale and absolute transfer of the Regulatory Asset Owner's applicable right, title, and interest in, to and under the Regulatory Asset (or relevant portion thereof), and not merely as a Pledge thereof~~. [A Disposition shall not be subject to recharacterization or challenge on any other basis and the validity of a Disposition shall not be affected or impaired by: (a) the commingling of Transition Charge Collections or other proceeds from Transition Charges with other amounts; (b) the retention of any interest (including any partial, residual or subordinated interest, whether direct or indirect) in the Regulatory Asset by the transferring Regulatory Asset Owner; (c) any right to repurchase the Regulatory Asset in favour of the transferring Regulatory Asset Owner; (d) any recourse that an Absolute Assignee may have against the transferring Regulatory Asset Owner; (e) any indemnification rights or obligations provided by the transferring Regulatory Asset Owner; (f) any obligation of the transferring Regulatory Asset Owner to collect and remit Transition Charge Collections on behalf of an Absolute Assignee, including but not limited to, any retention by the transferring Regulatory Asset Owner to bare legal title for the purpose of collecting Transition Charges; or (g) the ascribed or intended treatment of the Disposition by the transferring Regulatory Asset Owner or the Absolute Assignee on any different basis including for tax, financial reporting or other purposes.]~~[28], and upon such Disposition the assigner or seller under the applicable Disposition Document shall retain no right, title or interest in the Investment Interest subject to the Disposition, including all rights under the Investment Interest arising after such Disposition.

(3) **Perfection and Priority of Dispositions** – Any Disposition of an interest in a Regulatory Asset shall be vested, valid, binding and perfected from the time when such Disposition is made. Such Disposition shall be perfected, vested, valid and binding as against the transferring Regulatory Asset Owner and all other persons who have claims of any kind (whether in tort, contract or otherwise) against the transferring Regulatory Asset Owner, irrespective of whether such persons have notice of the Disposition and the property rights and interests acquired by the Absolute Assignee under such Disposition shall be free and clear of any liens in favour of such other persons.

~~[28] Consider if helpful to investors, or delete.~~

(4) **Validity of Pledges** – Despite any limitations or restriction on a Pledge that may arise by contract or by operation of any applicable law of the Province ~~[~~or any consent requirement applicable to a Pledge that may arise by ~~contract or by~~ operation of any applicable law of the Province~~]~~, a Pledge by ~~a Regulatory Asset Owner~~an Absolute Assignee may be made to secure any related Funding Obligation and when made shall be valid and enforceable in accordance with its terms and shall be effective to confer upon the Pledgee a valid security interest in, to and in respect of the ~~Regulatory Asset~~related Investment Interest in accordance with the terms of the Pledge. Other than as required by the Financing Plan, no consent of any person shall be required to give effect to a Pledge made to secure any Funding Obligation.

All proceeds of the Regulatory Asset~~may be perfected by filing a financing statement under the PPSA on that basis. (6) **Enforcement of Property Rights** – The rights of any Regulatory Asset Owner to collect and enforce its rights and interests in, to or in respect of the Regulatory Asset shall be exercised in the manner set forth in Article 5.

(7) **Owners of a Specified Portion of the Regulatory Asset** – A Regulatory Asset Owner may effect a Disposition to an Absolute Assignee of a specified portion of its rights and

interests in the Regulatory Asset, including by way of a Disposition of a divided or an undivided interest therein as specified in a related Disposition Document, in each case under the Financing Plan. In no circumstance may the specified portions of the rights and interests in the Regulatory Asset owned by all Regulatory Asset Owners be greater than all of the rights and interests that comprise the Regulatory Asset in the aggregate.

(8) **Collective Action Required** – If a Regulatory Asset Owner's ~~right~~rights and ~~interest~~interests in the Regulatory Asset comprises less than the entire property right and interest constituted by the Regulatory Asset, such Regulatory Asset Owner shall only enforce such right and interest on a collective ~~[~~and ~~joint]~~coordinated basis with each other Regulatory Asset Owner in accordance with the Collective Rights Agreement.[30]

Article 7 – Establishment of the Fair Allocation Plan[31][18]

(1) Adoption of the Fair Allocation Plan – The ~~[Minister of Energy]~~[32]Delegate may , [by written ~~order~~declaration,] designate and adopt a Fair Allocation Plan in compliance with Article 7. The Fair Allocation Plan so designated and adopted shall be the Fair Allocation Plan for all purposes of this ~~Part~~Act, ~~[~~except if amended, amended and restated or terminated by a further written ~~order issued~~declaration made by the ~~Minister of Energy~~Delegate in compliance with Section ~~•]~~7(4).

(2) Principles and Parameters[33] – A Fair Allocation Plan shall seek to allocate ~~Unrecovered~~Future Fair Share of Green Transition ~~Costs~~Benefits across present and future ~~Ratepayer~~Retail Consumer Groups on a basis that the ~~Minister of Energy~~Delegate, in its sole and absolute discretion, determines to be equitable, having regard to the following principles and parameters[34]:

1. ~~Unrecovered~~Future Fair Share of Green Transition ~~Costs~~Benefits should be allocated over ~~a period not to exceed the later of (a) the estimated remaining useful life of the Related Generating Assets and (b) the remaining term of IESO's commitments under the Power Contracts~~the period ending on the Program End Date.

2. The Fair Allocation Plan should specify the Reference Periods ~~(e.g., 6 month periods),~~ for the purpose of identifying applicable ~~Ratepayer~~Retail Consumer Groups and allocating ~~among them responsibility to bear the Unrecovered~~Future Fair Share of Green Transition ~~Costs~~Benefits among them on a relative basis over time.

[30] ~~This is necessary to ensure that if there are multiple regulatory asset owners and pledgees, they will be coordinated in the application of their rights of enforcement, etc.~~

[31][18] The idea is that the Fair Allocation Plan will be set once at the outset based on the principles and parameters described here, all as applied based on information available and the reasonable expectations and discretion of the delegate at such time. If the expectations are not fulfilled (e.g., generators may choose to retire their facilities at the end of their current ~~Power Contracts~~procurement contracts and not invest in extending service lives to secure further ~~power~~procurement contracts), the Fair Allocation Plan will be unaffected, unless it is specifically amended (assuming amendments will be permitted by the legislation).

[32] ~~Input required. If the MOE is given this power, conform to applicable authorities (e.g., plans and directives).~~

[33] ~~Consideration will be given as to whether these details should be included in the Regulation.~~

[34] ~~We have provided a few examples of what could be the basic principles. These will depend on market considerations, the Province's decision on the required amount of detail and the ability to sustain the legal basis for the program. These examples are not meant to suggest the appropriate balance – just illustrative to advance a discussion among the stakeholders.~~

3. The share of ~~Unrecovered~~Future Fair Share of Green Transition ~~Costs~~Benefits allocable to a particular ~~Ratepayer~~Retail Consumer Group in respect of a Reference Period should be proportionate to a reasonable assessment of the benefits of the Green Generation Initiative to the ~~Ratepayer~~Retail Consumer Group over such Reference Period.

4. The ~~estimated Unrecovered~~share of Future Fair Share of Green Transition ~~Costs~~Benefits to be allocated to a ~~Ratepayer~~Retail Consumer Group and any future ~~Ratepayer~~Retail Consumer Group at a particular time should not exceed the ~~estimated value of the Related Generating Assets based on their remaining useful lives or terms~~Estimated Future Green Transition Benefits, measured in respect of the ~~period~~Reference Periods following such particular time and to the Program End Date.

5. No future ~~Ratepayer~~Retail Consumer Group should ~~bear~~be allocated an unreasonably disproportionate share of ~~the Unrecovered~~Estimated Future Green Transition ~~Costs~~Benefits. Except in exceptional circumstances or in the case of any ~~backward-looking adjustment made~~reallocation of an Over-Assessed Amount as contemplated in 7, below, the ~~share of the Unrecovered~~Future Fair Share of Green Transition ~~Costs~~Benefits to be allocated under a Fair Allocation Plan to any future ~~Ratepayer~~Retail Consumer Group should have regard to *[Insert formula if a year-over-year maximum amount is determined to be appropriate]*[35].

6. ~~A reasonable estimate of the rate of inflation~~The time value of money should be ~~applied~~reflected in the Fair Allocation Plan, in order to equate the relative values of the nominal ~~amount of Unrecovered Transition Costs to be allocable to Ratepayer~~allocations of Future Fair Share of Green Transition Benefits, calculated in current dollars, to future Retail Consumer Groups over time.

7. ~~Backward-looking adjustments to a~~To the extent there has been an Over-Assessed Amount, the Fair Allocation Plan may ~~be made to achieve a fair distribution among Ratepayers of the benefits of the Green Generation Initiative.~~determine that an adjustment should fairly be made to rebate Retail Consumers for such an amount, by reducing the costs otherwise attributable under the Act to such Retail Consumers. The relative costs of the Green Generation Initiative are reflected under the Act by the attribution of Transition Charges to such Consumer Groups, based on the Financing Plan seeking to track the allocations of benefits under the Fair Allocation Plan. Accordingly, the Maximum Transition Charge Amount determined for one or more Retail Consumer Groups having regard to the Fair Allocation Plan otherwise applicable may be appropriately reduced to recognize the effect of the Over-Assessed Amount. In such a case, a determination to reduce the Maximum Transition Charge Amount applicable for certain related Reference Periods should have regard to the principle that the corresponding rebate should be extended to benefit the Consumer Group or Consumer Groups in closest proximity to the Legislative Implementation Date.

(3) Attribution Methodology – The Fair Allocation Plan ~~[~~shall~~]~~ specify ~~an objective methodology (~~the "~~Attribution Methodology~~")~~ for the purposes of allocating the Period

~~[35] Consider if a quantitative limit needs to be included in the legislation.~~

Transition Charges across ~~all of~~ the ~~Ratepayers~~Retail Consumers of a particular ~~Ratepayer~~Retail Consumer Group. The Attribution Methodology shall result in an attribution of such Transition Charges that ~~are~~is considered by the ~~Minister of Energy~~Delegate to be equitable, and may have regard to such principles and parameters as may be further set forth in a Regulation.

(4) ~~**[Confirmation][Review] of the Fair Allocation Plan** – [OEB?][36]~~**Amendments of the Fair Allocation Plan** – The Fair Allocation Plan may be amended, amended and restated or terminated by the Delegate, provided that such amendment, amendment and restatement or termination shall (a) not be inconsistent with the principles and parameters set forth in (2) or (3), above, or the Regulation and (b) comply with any restrictions or limitations specified with respect thereto in any Funding Obligation.

Article 8 – The ~~Financing Plan~~[37]IESO Retained Interest

(1) **Maintain Books of Account** – IESO may maintain books of account to record the IESO Retained Interest Amount and all adjustments thereto from time to time. Such books of account shall be determinative with respect to the amount of IESO's related regulatory asset.

(2) **Limitation on Additions** – IESO shall not record additions to the IESO Retained Interest Amount in respect of IESO Funding Shortfalls (a) if such additions are restricted by the terms of any Disposition Document or the Collective Action Agreement, or (b) on or after •, 2017.

(3) **Dispositions** – IESO may effect a Disposition to an Absolute Assignee if (a) the Absolute Assignee has or will concurrently become bound by the Collective Rights Agreement; (b) the Disposition is effected pursuant to a Disposition Agreement duly executed by IESO; (c) the Financial Services Agent confirms in writing that the Disposition is permitted under the Financing Plan; and (d) the net proceeds payable to IESO from the sale of the related Investment Interest would not exceed the IESO Retained Interest Amount immediately before the time of such Disposition.

(4) **No Continuing Interest in any Investment Interest** – IESO shall have no continuing right or interest in any Investment Interest subject to a Disposition effected by IESO under a Disposition Document to which IESO is a party and IESO shall not assert any such right or interest or take or omit to take any action to exercise or enforce its rights or interests under the IESO Retained Interest if such action or omission would impede or obstruct the rights of any Absolute Assignee or a Pledgee to enforce its rights and interests in any Investment Interest, except if IESO is expressly permitted to take or omit to take such action, respectively, under the related Disposition Document or the Collective Rights Agreement.

(5) **IESO Financing Costs** – IESO shall be entitled in good faith to incur reasonable financing costs (including interest and other reasonable financing charges) reflecting

~~[36] Any approvals or consents by the OEB will be obtained before any Funding Obligation that is dependent on such approval or consent is incurred. Any such approval or consent will be irrevocable and non-appealable. (6) **IESO Recoveries** – IESO shall, in respect of a month, be entitled to receive from IESO Remittances on a related Settlement Date the amount (if any) available to IESO under Section 5(6)(b).

Article 9 – The Financing Plan

(1) **Power to Prepare ~~and~~, Implement and Amend the Financing Plan** – ~~In compliance with a [written order][***MOE to confirm process.***] of the Minister of Energy, the Administrative Agent shall~~The Financial Services Agent shall be authorized to prepare, implement and ~~propose~~amend the~~ adoption of a~~ Financing Plan. If the ~~Administrative~~Financial Services Agent is unwilling or unable to prepare and propose the adoption of ~~a~~the Financing Plan, the ~~Minister of Energy~~Delegate may by written ~~order~~declaration designate one or more other persons who shall be authorized to prepare ~~and~~, implement ~~such a~~and amend the Financing Plan.

(2) ~~**Required**~~ **Terms and Conditions of the Financing Plan** – The Financing Plan shall establish the basis for each Absolute Assignee's funding decisions ~~that have the effect of allocating the Unrecovered Transition Costs across present and future Ratepayer Groups on a basis that is consistent with the Fair Allocation Plan~~. The Financing Plan shall ~~be consistent with~~have regard to the principles~~,~~ and parameters~~, requirements and conditions~~ set forth in Schedule 3 and such other conditions and requirements as may be specified in a written ~~order~~declaration of the ~~Minister of Energy [~~Delegate or in accordance with the Regulation~~]~~.

(3) ~~**Power to Review and Approve the Financing Plan** – The Minister of Energy may, by written order, designate one or more persons to review the Financing Plan and to review and assess the consistency of the Funding Obligations incurred with such Financing Plan, and the Minister of Energy may specify requirements in respect of such review in such written order. The Administrative Agent, or such other person(s) as may be designated by written order of the Minister of Energy made pursuant to Section 8(1), shall make any such amendments to the Financing Plan, and submit a revised Financing Plan to the designated reviewer for approval within [the time period specified in such written order]/[[•] days of such written order].[***Consider periodic amendments to the Financing Plan following an annual review; provided that amendments cannot affect the existing Funding Obligations. Consider the level of oversight the MoE/OEB will have over this process?***]~~**OEB Approval** – Any Additional Funding Charge payable to or for the benefit of the Financial Services Agent shall be subject to review and approval by the OEB.

(4) ~~**Approval of Financing Plan –** The **[OEB]** shall have the power to and shall approve or disapprove of the Financing Plan based solely on whether the Financing Plan is consistent with (i) the principles, parameters, requirements and conditions set forth in Schedule 3, (ii) such other conditions and requirements as may be specified in a written order of the Minister of Energy [or in accordance with the Regulation] [and (iii) the Fair Allocation Plan]. If the **[OEB]** approves the Financing Plan, then such Financing Plan shall be implemented by the Administrative Agent. If the OEB disapproves of the Financing Plan or otherwise fails to approve the Financing Plan, then the Administrative Agent shall re-submit the Financing Plan with such amendments as the Administrative~~

Agent shall consider necessary for the Financing Plan to be approved by the OEB.[38] **OEB Review** – The OEB [shall] undertake an annual review of the records maintained by the Financial Services Agent for the purpose of confirming that the Funding Obligations incurred and the Finance Amounts paid by or on behalf of the Absolute Assignees were incurred and paid, respectively, in material conformity with the Financing Plan.

(5) **Consistency with the Fair Allocation Plan** – Funding Obligations should only be incurred if Repayments and Funding Costs would be borne by present and future Designated Ratepayers on a basis that is [generally] consistent with their respective allocations of the costs and benefits of the Green Generation Initiative contemplated in the Fair Allocation Plan. In that regard, at the time of setting the Fair Allocation Plan for any particular period, the aggregate amount payable during future Reference Periods on account of Funding Obligations incurred on or before the date on which a new Funding Obligation is incurred should not exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable Ratepayer Group contemplated in the Fair Allocation Plan. If, despite the foregoing, the Administrative Agent determines that the anticipated amount of any Repayment (together with payments of other Finance Amounts) to be made in respect of a Reference Period would materially exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable Ratepayer Group under the then current Fair Allocation Plan, the Financing Plan shall require the Administrative Agent to make diligent efforts to determine whether a Refinancing or deferral of such Repayment may be reasonably and cost-effectively effected based on then prevailing market terms, conditions an circumstances, if such a Refinancing or deferral is determined to be available the Financing Plan shall require the Administrative Agent to make diligent efforts to implement such Refinancing or deferral on a basis that is consistent with the Fair Allocation Plan.

(5) **(6) Establishment of Special Purpose Entities** – If the implementation of the Financing Plan contemplates the establishment of one or more special purpose finance entities to incur Funding Obligations as a Financing Entity under the Financing Plan, as an Absolute Assignee and on a basis that limits the recourse for the payment of such Funding Obligations to such Absolute Assignee's interest in, to and under the Regulatory Asset, the Administrative Agent shall have regard to the characteristics specified in Schedule 4 in establishing such special purpose entity.]**Replacement of the Administrative Agent** – If the OEB identifies deficiencies or makes recommendations in its review under Section 9(4), the Administrative Agent shall take reasonable measures to remedy such deficiencies if remediable, and shall in any event have regard to the recommendations of the OEB in relation to further actions undertaken by the Financial Services Agent under the Financing Plan. If the Financial Services Agent is unwilling or unable to reflect such recommendations in relation to such further actions, the Delegate may by written declaration designate one or more other persons who shall thereafter become the Financial Services.

(6) **(7) Obligation to Apply IESO Remittances** – The AdministrativeFinancial Services Agent shall ensure that amounts transferred to it under Article 5, as agent for and on behalf of the Regulatory Asset OwnersAbsolute Assignees, or otherwise in respect of or

as proceeds from ~~the Regulatory Asset~~an applicable Investment Interest shall only be applied or used to pay related Finance Amounts when they are due and payable and for no other purpose.[39]

(7) ~~(8)~~ **Non-Recourse** – The Financing Plan shall be implemented so that Funding Obligations incurred shall be without recourse to or to any assets of the Electricity Distributors, IESO, any Alternative Servicer, ~~and~~any Alternative Collection Agent, the ~~Administrative~~Financial Services Agent, the OEB, the Province or the Lieutenant Governor in Council, other than if and to the extent that such persons or entities are liable for the performance of obligations or duties arising under this ~~Part~~Act or expressly agree to become liable pursuant to any Funding Obligation or obligation in relation to a Finance Amount. [All Funding Obligations shall contain a statement to the following effect: "Neither the full faith and credit nor the taxing power of the Province of Ontario is pledged to the payment of the principal of, or interest on, this [obligation].]

(8) ~~(9)~~ **Incurrences are Binding** – ~~Despite any failure to adhere to the Financing Plan or to comply with any requirement of this Part,~~Notwithstanding anything to the contrary in this Act, each Disposition made to or by an Absolute Assignee and all amounts payable or becoming due and payable by or on behalf of ~~a Regulatory Asset Owner~~an Absolute Assignee under or in connection with any obligation purporting to be a Funding Obligation, shall be binding for the purposes of this ~~Part~~Act, including in determining the amount of related Transition Charges, despite any impairment or defect resulting from such failure.

Article ~~12~~13- Miscellaneous~~45~~23

(1) **Choice of law** – The law governing, as applicable, the validity, enforceability, attachment, perfection, priority and exercise of remedies with respect to the transfer of an interest or right or creation of a security interest in the Regulatory Asset, any Transition Charge or the Undertaking of the Province shall be the laws of the Province.

(2) **Conflict of law** – In the event of conflict between this ~~Part~~Act and any other law of the Province regarding the attachment, assignment or perfection, or the effect of perfection, or priority of any Disposition or Pledge, this ~~Part~~Act shall govern to the extent of the conflict.

(3) **No further acts or approvals required** - Notwithstanding any provisions of any law of the Province to the contrary, no approvals, notices or authorizations other than those specified in this ~~Part~~Act shall be required with respect to the actions to be taken in compliance with this ~~Part~~Act, including under the Financing Plan or in relation to the establishment of the Fair Allocation Plan, and the transactions and contracts authorized in or contemplated by this ~~Part~~Act or the Financing Plan, including the incurrence of any Funding Obligation, any Disposition, any Pledge or in the payment and performance of any attendant or incidental contract and any related expenses incurred to facilitate the preparation and implementation of the Financing Plan.

(4) **Effect of invalidity after the Incurrence of any Funding Obligation** - Effective on the date that a Funding Obligation is incurred under this ~~Part~~Act, if any provision of this ~~Part~~Act is held to be invalid or is invalidated, superseded, replaced, repealed or expires for any reason, that occurrence shall not affect any action allowed under this ~~Part~~Act that is taken by any person who is or may become obligated or have duties that arise under this ~~Part~~Act and any such action shall remain in full force and effect.

Requirements Applicable to Alternative Invoicing Agent/ Alternative Collection Agent

[To be considered.]

Schedule 3[24]

Principles, and Parameters, Requirements and Conditions for Establishing the Financing Plan

The Financing Plan shall have regard to the following principles, and parameters, requirements and conditions:[***Consider others.***] provide a guideline as to what a Financing Plan should address:

(1) the Financing Plan shall, in respect of each Reference Period, describemake reference to the allocations of UnrecoveredFuture Fair Share of Green Transition CostsBenefits to each Reference Group as contemplated by the Fair Allocation Plan;

(2) the Administrative Agent shall make a good faith estimate of theIESO Funding Shortfalls for each Reference Period, based on the terms of the Power Contracts and assumptions considered to be reasonable respecting forward market prices for electricity;

(3) the Administrative Agent shall describeconsider alternative funding arrangements considered to be suitable for the purpose of fundingto fund the estimated IESO Funding Shortfalls, including by reference to short term and/or long term Funding Obligations that could reasonably be incurred by the Regulatory Asset Owners for such purpose;

(9) **(4)** such Funding Obligations shall reflectconsider quantities, maturities, payment obligations, prepayment or redemption rights and such other features of Funding Obligations so that the effect of incurring such Funding Obligations would be that the payments made thereunder in respect of eachfor a Reference Period (including the anticipated Finance Amounts becoming payable in relation to such Funding Obligations) would reasonably correspond to the allocations of UnrecoveredFuture Fair Share of Green Transition CostsBenefits to the applicable Reference Group under the Fair Allocation Plan;

(4) if the anticipated amount of any Repayment (together with payments of other Finance Amounts) to be made in respect of a Reference Period would materially exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable Retail Consumer Group under the then current Fair Allocation Plan, diligent efforts should be made to determine whether a Refinancing or deferral of such Repayment may be reasonably and cost-effectively effected based on then prevailing market terms, conditions an circumstances;

(5) the Financing Plan shall reflect the outcome of a financial model that incorporatesreflect the assumptions and requirements specified in any contemplated Funding Obligation (e.g., any limit on the maximum amount of Transition Charges charged to a hypothetical RatepayerRetail Consumer relative to his or her monthly electricity bill, as prescribed by any rating agency that ascribes its credit rating to or in respect of the Funding Obligation having regard to the application of the Allocation Methodology); [***Consider what outputs from OPG will be tested by the OEB and when. (6) ~~the Administrative Agent, for and on behalf of each Regulatory Asset Owner, shall seek to~~ incur Funding Obligations from time to time on the best terms available at such time for a financing transaction of the size and type contemplated, and having regarding to the following parameters:

a. whether the ~~Regulatory Asset Owners~~Absolute Assignees will require committed access to short term liquidity to cover estimated IESO Funding Shortfalls prior to incurring fixed term Funding Obligations, and the amount and repayment terms of any such required liquidity; provided that any Repayment required to be made under the terms of such short-term liquidity would not obligate ~~a Regulatory Asset Owner~~an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of ~~Unrecovered~~Future Fair Share of Green Transition ~~Costs~~Benefits to the applicable Reference Group under the Fair Allocation Plan;

b. the basis upon which the ~~Administrative~~Financial Services Agent will select the term to maturity of any other Funding Obligations; provided that any Repayments required to be made under the terms of such Funding Obligations ~~shall~~should not obligate ~~a Regulatory Asset Owner~~an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of ~~Unrecovered~~Future Fair Share of Green Transition ~~Costs~~Benefits to the applicable Reference Group under the Fair Allocation Plan;

c. the basis upon which the interest rates applicable to such Funding Obligations would be determined;

d. the reference capital or finance market in which such Funding Obligation would be incurred, including markets outside of Canada if considered by the ~~Administrative~~Financial Services Agent to be appropriate in the circumstances;

e. the currency of payments under such Funding Obligations and, if the Funding Obligations are denominated in a currency other than Canadian dollars, the basis upon which the ~~Administrative~~Financial Services Agent shall cause the applicable ~~Regulatory Asset Owner~~Absolute Assignee to enter into hedging transactions to mitigate currency risk, including acceptable minimum and maximum coverage levels, having regard to the availability of related derivatives having notional amounts corresponding to the repayment and maturity profile of such Funding Obligations;

f. the basis upon which the ~~Administrative~~Financial Services Agent will select counterparties under any transaction to be entered into by ~~a Regulatory Asset Owner~~an Absolute Assignee, including any paying agent, servicer, cash manager, liquidity provider, hedge counterparty, account bank, lender, note

trustee, security trustee, paying agent, registrar/transfer agent, financial services agent, arranger or manager;

g. the basis upon which the ~~Administrative~~Financial Services Agent will manage counterparty risk, including by providing for maximum counterparty exposure limits having regard to concentration, credit and other identified risks with respect to individual counterparties or countries;

h. the basis upon which the ~~Administrative~~Financial Services Agent will negotiate and settle Finance Amounts, including the amount of any Redemption Amounts, Finance Reserve Deposits and Additional Funding Charges;

(7) the basis upon which Funding Obligations may be redeemed, prepaid, repurchased or otherwise affected, having regard for the need to minimize debt service charges and other Funding Costs, and the need to maintain a stable funding platform to finance the IESO Funding ~~Shortfall~~Shortfalls from time to time on a basis that is consistent with the allocations of ~~Unrecovered~~Future Fair Share of Green Transition ~~Costs~~Benefits to applicable Reference Groups under the Fair Allocation Plan;

(8) the basis upon which any Repayments, Funding Costs and Redemption Amounts will be paid, including any defeasance, sinking fund or through other reserves or liquidity facilities;

(9) the basis upon which fees, charges, expenses, costs, indemnities, reimbursements and other amounts payable to or for the benefit of the ~~Administrative~~Financial Services Agent and other agents and service providers to the ~~Regulatory Asset Owners~~Absolute Assignees may be determined, allocated and paid;

(10) the timing and basis upon which Finance Reserve Deposits and Finance Reserve Withdrawals may be made;

(11) the basis upon which any obligations for any other Additional Funding Charges may be incurred and paid;

(12) the basis upon which the cash flows arising from time to time or otherwise derived from the Regulatory Asset may otherwise be applied, including in relation to any counterparty enforcement and realization scenario;

(13) the transmittal to [the IESO] of information related to the amounts to be included in the determination of the Period Transition Charge for a Reference Period;

(14) the basis upon which any Disposition may be made or effected by ~~a Regulatory Asset Owner~~an Absolute Assignee, including parameters for determining the purchase price for the interest in the Regulatory Asset that is the subject matter of such Disposition, and any consents and releases that may be usefully obtained in connection with such Disposition;

(15) ~~a description of each~~describe the requirements applicable to any special purchase entity that will purchase ~~the Regulatory Asset from the IESO~~an Investment Interest, including proposed capitalization, governance, and restrictions on their powers and activities ~~having regard to the parameters in Schedule 4~~; and

~~(1) **Powers and Abilities**:~~

~~a. No part of the revenue or assets of a Regulatory Asset Owner shall enure to the benefit or be distributable to its trustees, officers or directors, as the case may be, or any other private persons, except as may be provided for actual services rendered;~~

~~b. Each Regulatory Asset Owner shall be authorized to:~~

~~i. incur the Funding Obligations contemplated by a Financing Plan and use the proceeds thereof to purchase or acquire, and to own, hold and use the Regulatory Asset;~~

~~ii. contract for servicing of the Restructuring Asset and any bonds contemplated by a Financing Plan and for administrative services; and~~

~~iii. pledge the Regulatory Asset to secure the Funding Obligations incurred by the Regulatory Asset Owner;~~

~~c. So long as any Funding Obligations contemplated under a Financing Plan are outstanding, a Regulatory Asset Owner shall not be authorized to merge or consolidate, directly or indirectly, with any person or entity;~~

~~d. a Regulatory Asset Owner shall not have the power or authority to incur or guarantee or otherwise become obligated to pay any debt or obligations other than what is contemplated under a Financing Plan;~~

~~e. a Regulatory Asset Owner shall cause the proceeds obtained by incurring any Funding Obligation to be placed in one or more separate accounts and used only to purchase the Regulatory Asset and pay any costs as provided for in a Financing Plan; and~~

~~f. so long as the Regulatory Asset is pledged to secure Funding Obligations, the Regulatory Asset Owner must apply revenues from the collection of Transition Charges only to repay such Funding Obligations and other costs as provided for in a Financing Plan.~~

~~(2) **Governance of Regulatory Asset Owner –** A Regulatory Asset Owner shall be created having regard to the following principles:[***OPG to confirm if SPE will be a trust or another type of entity.***]~~

Steve,
We have been corresponding with Torys today and are in the process of preparing a consolidated mark-up reflecting comments from the Dealers and OPG, which will also incorporate some of the comments received this evening from the IESO/Stikemans. We will circulate the consolidated mark-up before tomorrow's meeting.

Stephen,
This version does not reflect the top issues raised by the Dealers. We are sitting down with the Dealers now working on a comprehensive mark-up that we will send later today, but it will not be ready by 2 PM. We would like to use tomorrow's meeting to discuss the mark-up we are preparing rather than a further revised version that will not reflect our feedback.

Preliminary Draft for Discussion Purposes Only

"Fair Hydro Act"

Article 1 – Purpose

The Province has and continues to encourage the construction and development of facilities for the long-term operation and generation of electricity in the Province using sustainable, lower carbon-based technologies such as new gas-fired generation, renewable facilities, energy from waste and biomass, including under the Province's various procurement, standard offer, feed in tariff and other similar programs (the "Green Generation Initiative"). The long-term benefits of the Green Generation Initiative accrue over time and have benefited and will **continue to** benefit present and future electricity consumers in the Province.

The ~~imputed~~**out-of-market** costs of the Green Generation Initiative are currently passed through to electricity consumers by way of a monthly adjustment amount (the "Green Costs Adjustment"), which in turn forms part of the overall adjustment calculated by the Independent Electricity System Operator ("IESO") pursuant to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* (the "Global Adjustment"). ~~The Global Adjustment is included as a charge billed to electricity consumers in their monthly electricity invoices.~~

The Green Costs Adjustment is currently determined each month by reference to the amounts paid by IESO to the generators of electricity in the Province under the Green Generation Initiative~~, which may be higher than prevailing market price for electricity. These differences~~**. These amounts paid by the IESO** arise because IESO has entered into long-term procurement contracts with such generators in order to provide them with ~~long-term price~~**revenue** certainty ~~for electricity~~, and in turn to encourage the generators to develop technologies and to construct and develop facilities consistent with the Green Generation Initiative. ~~In general, whenever amounts payable under these procurement contracts exceed the market price for electricity, the Green Costs Adjustment passes through the amount of such differences as part of the monthly charge to electricity consumers. Such amount then becomes available to IESO to meet its obligations under the~~ **[NTD: This statement is not correct in respect of all IESO procurement contracts.]** It has been determined that the useful lives of many of the assets ~~encouraged by~~**developed under** the Green Generation Initiative will be ~~well~~ in excess of the respective terms of ~~the related~~**their respective** procurement contracts~~, and in many cases may extend over more than one generation of electricity consumers~~.

Since the benefits to past, present and future electricity consumers from the Green Generation Initiative will not necessarily coincide with the costs currently attributed through the Green Costs Adjustment, based on the respective ~~durations~~**terms** of the **applicable** procurement contracts, it has been determined that the rate at which the costs associated with the Green Generation Initiative should be passed through to ~~Retail~~**Regulated** Consumers (as defined in Article 2) should be more closely aligned with the benefits that such ~~Retail~~**Regulated** Consumers have derived and are expected to derive from the Green Generation Initiative over time. This realignment will be based on **general** principles and parameters that establish a reasonable basis for measuring and allocating the relative costs and benefits of the Green Generation Initiative equitably across present and future ~~Retail~~**Regulated** Consumers (the "Fair Allocation

Plan"). **[NTD: There is no explanation as to why realignment is limited to Regulated Consumers.]**

If the Fair Allocation Plan determines that the equitable allocation of the costs associated with the Green Generation Initiative to the ~~Retail~~**Regulated** Consumers of a particular time period should be reduced below the amount that currently would be charged based on the Green Costs Adjustment, then the amount payable by such ~~Retail~~**Regulated** Consumers and in turn available to IESO will, in the aggregate, be less than the amount payable by the IESO to the generators in respect of such period. In this case**,** IESO will need to obtain funding from another source to cover such a shortfall. If a funding obligation is incurred ~~by IESO~~ to cover such a shortfall during ~~one~~**any** period, the repayment of such funding obligation will be required in a future period, and any related repayments, finance costs, hedging costs and other transaction costs incurred will become payable in ~~one or more~~ future periods. In order for IESO to obtain a reliable and committed source of cash flows to enable IESO to repay such funding amounts when they become due and payable, this Act imposes irrevocable and non-bypassable financial obligations on ~~Retail~~**Regulated** Consumers to pay amounts incurred in respect of such funding obligations when they become due and payable and establishes a right to invoice and collect such amounts. The right and interest in and to collect such financial obligations will take the form of the Regulatory Asset contemplated in this Act, which will constitute property rights and interests. Interests in the Regulatory Asset may be sold and absolutely assigned by IESO to one or more financing entities, which in turn will finance their acquired interests by incurring funding obligations. The incurrence and payment of such funding obligations will be administered on behalf **of** such financing entities by a financial services ~~agent~~**manager** under the Financing Plan contemplated in this Act. ~~The Financing Plan will seek to reasonably match the payment obligations arising under such funding obligations, to be borne by the future Retail Consumers of the period in which such payment obligations become due, with the benefits of the Green Generation Initiative allocated to such future Retail Consumers under the Fair Allocation Plan.~~

[NTD: Our strong preference is to limit the introduction to the next paragraph and move defined terms from the previous paragraphs to Article 2]

The purpose of this Act is to establish the basis upon which intergenerational fairness can be achieved by charging the costs and benefits of the Green Generation Initiative to present and future ~~Retail~~**Regulated** Consumers on an equitable and cost effective basis.

Article 2 ~~–~~ Definitions

In this Act: **[NTD: It would be preferable to use plain language definitions in the legislation and leave the more detailed definitions to either the regulations or the agreements contemplated hereunder.]**

"Absolute Assignee" means a person to whom a Regulatory Asset Owner effects a Disposition **other than as security**.

"Actual" means, in relation to costs, expenses or payments in respect of Funding Obligations during a Reference Period, the actual amount of such costs, expenses or payments paid or made (net of any Finance Reserve Withdrawals applied to pay such amounts), which amounts shall be recorded by the Financial Services ~~Agent~~**Manager**

whose records shall be determinative for the purposes of this Act except to the extent of a manifest calculation error.

"Additional Funding Charges" means, for a Reference Period ~~in respect of an Absolute Assignee~~, the fees, charges, expenses, costs, indemnities, reimbursements and other amounts (including any applicable tax amounts) that are or become payable by or on behalf of the Absolute Assignee during the Reference Period and that were incurred or committed to directly or indirectly by the Absolute Assignee in connection with the incurrence of Funding Obligations under the Financing Plan (whether at the time of such incurrence or over the term of the Funding Obligation and whether directly or indirectly), including ~~(without duplication and without limitation): (a) any payment required under an ancillary agreement entered into by, or by the Financial Services Agent on behalf of, the Absolute Assignee under the Financing Plan; (b) any federal, provincial or local taxes, payments in lieu of taxes, franchise fees or license fees imposed on the Absolute Assignee or incurred by on behalf of the Absolute Assignee under any obligation to pay tax gross-up amounts to counterparties under Funding Obligations; (c) any amounts payable to the Financial Services Agent, including amounts payable to its advisors and outside counsel; (d) any amounts incurred to prepare, confirm, amend and implement the Financing Plan; (e) any amounts payable to any Alternative Collection Agent or Alternative Servicer, including amounts payable to each's advisors and outside counsel; (f) any amounts incurred to make the calculations, determinations or confirmations to be made by or on behalf of the Absolute Assignee; (g) any servicing fees and expenses; (h) any trustee fees and expenses; (i) any legal fees, expenses and disbursements; (j) any accounting fees and expenses; (k) any administrative fees and expenses; (l) any manager or director fees of a Financing Entity; (m) any registration fees and expenses; (n) any placement fees, underwriting fees, fees and related issuing expenses; (o) any rating agency fees; and (p) any other related fees, charges, expenses, costs, indemnities, reimbursements and other amounts that are approved in good faith by the Financial Services Agent for recovery and payment under the Financing Plan~~**without limitation such amounts as may be prescribed**.

~~"Allocation Factor" means, in respect of a Retail Consumer for a Reference Period, the number (expressed as a percentage) determined in respect of the Retail Consumer by the OEB based on the application of< *the Attribution Methodology* >in respect of the Reference Period.[1]~~

~~"Alternative Collection Agent" means a person appointed under Section 5(11) and in compliance with the requirements set out in Schedule 2 to assume the collection activities and activities of any Electricity Distributor or IESO under Article 5, as agent for and on behalf of the Regulatory Asset Owners.~~ **[NTD: See section 5(11). Remove this concept globally.]**

"Alternative Servicer" means a person appointed under Section 4(8) to assume the obligations of the Servicer under Article 4, as agent for and on behalf of the Regulatory Asset Owners. **[NTD: We see this, in effect, as the same thing as the IESO Successor; that is, replacement of the master Servicer.]**

[1] ~~Confirm that this will be based on forecast volumes of demand (like RPP). To the extent amounts do not get recovered due to differences between forecast and actual, those may be identified and caught by the True-Up.~~

"Assessed Past Green Transition Costs" means, in respect of a Measurement Date, the aggregate of the imputed costs of the Green Generation Initiative (expressed as an equivalent to current dollars), as reflected in the calculation of the Green Costs Adjustment, which have been charged to Retail Customers through the Global Adjustment on or prior to the Measurement Date.

"Attribution Methodology"[21] means the methodology specified in the Fair Allocation Plan for allocating the Period ~~Transition~~**Finance** Charges for a Reference Period to ~~individual Retail Consumers of the applicable Retail Consumer Group based on its Allocation Factor.~~**Regulated Consumers. [NTD: We understood that the Ministry accepted that the transition charge would be a volumetric rate.][NTD: Can be moved to Regulations.]**

"Collected Amount Adjustment" means, in respect of a True-Up Period, the amount (which may be a negative amount) calculated by the Servicer or the Financial Services ~~Agent~~**Manager**, as applicable, equal to (a) the Estimate of the Finance Amount for the True-Up Period, minus (b) the sum of all Transition Charge Collections for the True-Up Period.[32]

"Collective Rights Agreement" means an agreement among all of the Regulatory Asset Owners (including each Absolute Assignee) ~~and~~**,** each Pledgee**, and the Financial Services Manager** that governs the enforcement of their respective rights and interests in, to and under the Regulatory Asset on a coordinated and collective basis.[4] **[NTD: Move to Regulations.]**

"Delegate" means **any of** the **following** person or persons designated in writing from time to time by the Minister of Energy to undertake the actions and perform the responsibilities ascribed to the "Delegate" under this Act~~.~~**: ●. [NTD: Why is this delegation of authority necessary? This requires further discussion and clarity as to which entity or entities that the Province can select as the Delegate; for example, it would not be acceptable for the Province to select the OEB to be the Delegate. If this is required, an acceptable delegate would be a stakeholder committee comprised of representatives from the Ministry of Energy, the OEB, the IESO, and OPG. In addition, the regulation should prescribe how the stakeholder committee would operate.]**

"Disposition" means an assignment, transfer, conveyance, sale, contribution, set-over, exchange or other disposition of **(a) IESO's right to recover all or any portion of an IESO Funding Shortfall or (b)** an Investment Interest to an Absolute Assignee**, in each case** pursuant to a Disposition Document.

"Disposition Document" means the agreement, deed, conveyance, instrument or other document under which ~~a Regulatory Asset Owner~~**IESO or an Absolute Assignee** effects a Disposition to an Absolute Assignee.

[21] This allocation may be volumetric or some combination of a flat amount and a volumetric charge. Further discussion is required. H&W has raised a concern regarding possible adverse changes after the fact and rating agency considerations. Consider whether hard-coding in the legislation makes sense.

[32] This would pick up adjustments based on actual collection experience, changes in the ~~retail consumer~~**Regulated Consumer** base, changes in the actual costs (versus earlier estimates) included in the Transition Charge calculation, etc.

[4] ~~Consider adding the Financial Services Agent and the Servicer as parties.~~

"Electricity Distributor" means~~, in respect of a Service Area, the~~ **a** rate regulated distributor licensed under Part V of the *Ontario Energy Board Act, ~~1998~~* ~~in respect of such Service Area,~~***1998,*** together with and its successors.

"Electricity Distributor Remittances" means, for an Electricity Distributor on a Remittance Date, all Transition Charge Collections received or deemed to be received **[NTD: estimated to be received? will each Electricity Distributor know?]** by the Electricity Distributor prior to the Remittance Date and that have not otherwise been remitted to ~~IESO~~**Servicer** or if applicable the Alternative Collection Agent in accordance with Section 5(3), including the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5.

"Electricity Invoice" means an invoice issued by ~~any of a~~**an** Electricity Distributor (or in its stead, by an Alternative ~~Servicer~~**Collection Agent**), by the Servicer or by a Retailer, in each case to a ~~Retail~~**Regulated** Consumer that is served by the Electricity Distributor's distribution system in respect of electricity charges, including the cost of electricity, delivery and regulatory charges and related services and amounts incurred, assessed or charged in respect of connectivity to ~~a distribution network in the~~**such** Electricity Distributor's ~~designated Service Area~~**distribution system** and in respect of applicable Transition Charges to be charged to the ~~Retail~~**Regulated** Consumer under this Act. **[NTD: The Alternative Servicer should only invoice for Transition Charges, not the entire invoice. Also, to avoid confusion, we suggest using the word "invoice" in reference to what the IESO sends out to distributors, and "bills" in reference to what distributors send out to consumers.]**

"Estimate" means (a) in relation to costs, expenses or payments in respect of Funding Obligations or any Finance Amount for a Reference Period, the estimated amount of such costs, expenses or payments determined by the Financial Services ~~Agent~~**Manager**; and (b) in relation to an assessment of the benefits of the Green Generation Initiative to ~~any Retail Consumer Group~~**Regulated Consumers**, the estimated value (in current dollars) of such benefits determined by the Delegate, in each case having regard to the applicable principles and parameters set out in Schedule 1, which estimated amounts shall be determinative as the applicable estimate for the purposes of this Act except to the extent of a manifest calculation error.

"Estimated Future Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that are expected to accrue to ~~Retail~~**Regulated** Consumers from the establishment and implementation of the Green Generation Initiative during the period from the Measurement Date to the Program-End Date.

"Estimated Past Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that have accrued to ~~Retail~~**Regulated** Consumers from the establishment and implementation of the Green Generation Initiative up to and including the Measurement Date.

"Fair Allocation Plan" has the meaning given in Article 1.

"Finance Amount" means, for a Reference Period ~~in respect of an Absolute Assignee~~, the sum (without duplication) of the following amounts that are or become payable during the Reference Period in respect of ~~the~~**all** Absolute ~~Assignee~~**Assignees**: (a) Repayments; (b) **Net** Funding Costs; (c) Redemption Amounts; (d) Finance Reserve Deposits; and (e) Additional Funding Charges.

"Finance Reserve Deposits" means, for a Reference Period, the amount by which (a) deposits made or to be made during the Reference Period in order to pre-fund, collateralize, over-collateralize or establish reserves for the ultimate payment of Funding Obligations or for related contingencies specified in the Financing Plan, exceed (b) any Finance Reserve Withdrawals. **[NTD: Move this to regulation.]**

"Finance Reserve Withdrawals" means, for a Reference Period, the amount withdrawn during the Reference Period from deposits previously made to pre-fund, collateralize, over-collateralize or establish reserves for the payment of Funding Obligations or to pay amounts in respect of related contingencies that had been specified in the Financing Plan. **[NTD: Move this to regulation.]**

"Financial Services ~~Agent~~**Manager**" means OPG or, following any Replacement Event **involving OPG**, such other person ~~or persons~~ who may be appointed as the ~~Financial Services Agent~~**financial services manager** of the Absolute Assignees under the Financing Plan in compliance with the requirements set out in Schedule 2.[5]~~3~~

"Financing Entity" means ~~an entity established in accordance with the Financing Plan to acquire all or an interest in the Regulatory Asset as an Absolute Assignee and to enter into Funding Obligations to finance such acquisition under the Financing Plan.~~[6]**any entity established at the initiative of and managed by the Financial Services Manager to support the Financing Plan.**[4]

"Financing Plan" means the written plan prepared by the Financial Services ~~Agent on behalf of each Absolute Assignee in compliance with Article 9 to set forth the basis upon which, among other things: (a) any Disposition may be made to, financed by or effected by an Absolute Assignee; (b) any Funding Obligations may be incurred by an Absolute Assignee, including any Refinancing; (c) any Pledge may be given or effected; (d) any Funding Obligations may be redeemed, prepaid, repurchased, amended or otherwise effected; (e) any obligations for Additional Funding Charges may be incurred and paid; (f) any Repayments, Funding Costs and Redemption Amounts may be paid or provided for; (g) any Finance Reserve Deposits may be made; (h) any Finance Reserve Withdrawals may be made; (i) the establishment and operation of any Financing Entity may be effected; and (j) the cash flows arising from time to time or otherwise derived from an Investment Interest may otherwise be applied,~~**Manager in accordance with Article 9,** as the same may be amended, amended and restated or terminated by the

[5] ~~Discuss whether to accommodate multiple~~[3] **There must only be one** Financial Services ~~Agents. MOE to consider~~**Manager**.

[6]4 MOE to confirm that the legislation will provide that any Financing Entity that is a wholly-owned subsidiary of OPG (1) would not be subject to Part VI of the *Electricity Act* (Ontario) and (2) in the case of any Financing Entity that is a trust, any income of such trust (for purposes of the *Income Tax Act* (Canada) or the *Taxation Act, 2007* Ontario)) which is paid or made payable to OPG or a wholly-owned subsidiary of OPG as a beneficiary of such trust will not be taken into account in calculating the amount of a payment required to be made by OPG (or such subsidiary) by section 89 or 90 of the Electricity Act.

Financial Services ~~Agent~~**Manager** in ~~compliance~~**accordance** with Article 9 from time to time.

~~"Funding Costs" means, for a Reference Period in respect of an Absolute Assignee, the amount by which (a) the aggregate of all interest< *and other periodic finance charges accruing due and becoming payable or paid by or on behalf of the Absolute Assignee during the Reference Period in respect of its Funding Obligations, including* >any standby commitment fees or charges paid to any lender, credit enhancement fees or charges paid to any credit enhancer, liquidity fees or charges paid to any liquidity provider, amounts (including any termination payments) paid under derivatives and any deposit amount made or required to fund or replenish a debt service reserve account or other account established under any indenture, ancillary agreement or other financing document relating to its Funding Obligations, exceeds (b) the aggregate of all amounts received by or on behalf of the Absolute Assignee during the Reference Period in respect of a Funding Obligation, including from any reimbursement of standby commitment fees or charges paid by a lender, any reimbursement of credit enhancement fees or charges paid by any credit enhancer, any reimbursement of liquidity fees or charges paid by any liquidity provider, any amounts (including any termination payments) paid to the Absolute Assignee under derivatives and any Finance Reserve Withdrawal made or required to be made from a debt service reserve account or other account established under any indenture, ancillary agreement or other financing document relating to the payment of the Funding Costs payable in respect of a Funding Obligation for the Reference Period.~~

"Funding Obligation" means, in respect of an Absolute Assignee, each payment obligation (including**, without limitation,** each obligation to pay: principal, interest, premiums and other financing charge payments; pass-through payments; payment obligations arising under or in respect of derivatives; payment obligations owing to service providers, Financial Services ~~Agents~~**Managers**, finance entity intermediaries, capital markets intermediaries, advisors, lenders, credit enhancement providers, liquidity providers, disbursement counterparties, regulatory agencies and rating agencies; and all Additional Funding Charges**)** incurred by or on behalf of the Absolute Assignee under the Financing Plan, including any Refinancing of another such payment obligation incurred by or on behalf of such Absolute Assignee.

"Future Fair Share of Green Transition Benefits" means, in respect of a Measurement Date, the sum of (a) the Over-Assessed Amount; and (b) the Estimated Future Green Transition Benefits, in each case as of the Measurement Date.

~~"Generator" means a generator of electricity that is subject to the *Electricity Act, 1998*.~~

"Global Adjustment" has the meaning given in Article 1.

"Green Costs Adjustment" has the meaning given in Article 1.

"Green Generation Initiative" has the meaning given in Article 1.

"IESO" means the Independent Electricity System Operator created pursuant to Part II of the *Electricity Act, 1998*.

"IESO Available Amount" means, for a Reference Period, the lesser of (a) the amount (if any) by which (i) the Maximum Transition Charge Amount for the Reference Period, exceeds (ii) Period Finance Amount for the Reference Period, and (b) the IESO Retained Interest Amount as of the [35th] day prior to the first day of a Reference Period plus any IESO Financing Costs that are due and payable and remain unpaid as of the [35th] day prior to the first day of a Reference Period.

"IESO Electricity Distribution Receipts" means, for a month, the sum of all amounts payable by Electricity Distributors to IESO , during the month pursuant to section • of the *Electricity Act* in respect of Regulated Consumers. [NTD: IESO indicates that it likely does not work to express in regards to "amounts payable by the LDCs" because settlement between the IESO and LDCs entails payments by LDCs to the IESO and then credits/debits by the IESO to LDCs to reflect RPP shortfalls/overages.]

"IESO Financing Costs" means, for a Reference Period, the financing costs (if any) incurred by IESO pursuant to Section 8(4) in order to finance its ownership of the IESO Retained Interest during the Reference Period.

"IESO Funding Shortfall" means, for a month, the amount, if any, by which (a) the IESO Electricity Distribution Receipts that would be payable to IESO for the month if determined without regard to this Act and without regard to the changes made to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* with respect to the Global Adjustment concurrently with this Act, exceeds (b) the IESO Electricity Distribution Receipts payable to IESO for the month[75]; provided that if the amount of any such shortfall is determined to have been based on incomplete information, variances or estimates that were inaccurate, an adjustment shall be made in determining the amount of any subsequent shortfall for the month in which the inaccuracy is identified. .To the extent reasonably necessary to give effect to this Act, or any transaction contemplated hereby, IESO shall calculate the IESO Funding Shortfall for any month taking into account information provided by the Electricity Distributors and (i) such calculation shall be binding for all purposes; and (ii) any demonstrated inaccuracy in the calculation for any month (including any such resulting from inaccuracies in the information provided by Electricity Distributors) shall be accounted for by adjusting the IESO Funding Shortfall for a subsequent month. [NTD: Need to add the mechanism for IESO to record this shortfall because without that there is no Regulatory Asset. This IESO Funding Shortfall is the regulatory asset owned by IESO.]

"IESO Recovery" means each amount remitted to IESO (including by IESO retaining such amount) in respect of the IESO Retained Interest pursuant to Section 5(6)(b), and "IESO Recoveries" means, collectively, all such amounts received by IESO.

"IESO Remittances" means, for a Settlement Date, all Electricity Distributor Remittances received by IESO or if applicable the Alternative Collection Agent prior to the Settlement Date and that have not otherwise been remitted to the Regulatory Asset Owners (each with respect to its Regulatory Asset) in accordance with Section 5(6), including the proceeds of any enforcement action undertaken by IESO or if applicable the Alternative

[75] This has been recast to recognize that the shortfall in the first 4.5 years could exceed the entire GA amount. A more refined approach to describing the concept may be considered.

Collection Agent to recover payment of amounts payable by Electricity Distributors to IESO in accordance with Article 5.

~~"IESO Retained Interest" means IESO's right, title and ownership interest (if any) in, to and under the Regulatory Asset, which shall exclude each Investment Interest.~~

~~"IESO Retained Interest Amount" means, on a day, (a) the sum of all IESO Funding Shortfalls incurred prior to the day, plus (b) the sum of all IESO Funding Costs incurred prior to the day in accordance with Section 8(4), minus (c) the net proceeds received by IESO from or on behalf of each Absolute Assignee as consideration for the Disposition of each Investment Interest paid to IESO by or on behalf of such Absolute Assignee prior to the day, and minus (d) the IESO Recoveries received by IESO prior to the day.~~

"IESO Successor" means the entity appointed by the Province to succeed to the rights and obligations of IESO as the entity responsible for managing the Province's electricity system.

"Investment Interest" means an ownership interest in, to or under the Regulatory Asset that is acquired by an Absolute Assignee pursuant to a Disposition~~, which ownership interest may include (without limitation) ownership of a specified portion on a divided basis of the assets comprising the Regulatory Asset and ownership of an undivided ownership interest in the Regulatory Asset, in each case as may be described in the applicable Disposition Document~~.

"Investment Remittance" means, for a month, the lesser of (a) the aggregate amount of all IESO Remittances for the month, and (b) the sum of the ~~Finance Amounts~~**Funding Obligations** due and payable by all Absolute Assignees in respect of the month.

~~"Maximum IESO Recovery" means, for a month, the amount (if any) by which (a) the IESO Remittances for the month, exceed (b) the sum of all Finance Amounts that are due and payable by Absolute Assignees in respect of the month.~~

~~"Maximum Transition Charge Amount" means, for a Reference Period, (a) the aggregate amount of Future Fair Share of Green Transition Benefits that are allocable to the applicable Retail Consumer Group in accordance with the Fair Allocation Plan, divided by (b) the applicable Reference Period Length.~~

"Measurement Date" means [Insert relevant date around the Legislation Implementation Date] and any other date specified as such under the Fair Allocation Plan.

"Net Funding Costs" means, for a Reference Period in respect of a Financing Entity, the amount by which (a) the aggregate of all interest, scheduled principal> *and other periodic finance charges accruing due and becoming payable or paid by or on behalf of the Absolute Assignee during the Reference Period in respect of its Funding Obligations, including* <**such amounts as may be prescribed, exceeds (b) the aggregate of all amounts received by or on behalf of the Absolute Assignee during the Reference Period in respect of the Funding Obligations referred to in (a), including such amounts as may be prescribed.**

"OEB" means the Ontario Energy Board, together with its successors.

"OPG" means the corporation incorporated as Ontario Power Generation Inc. under the *Business Corporations Act* on December 1, 1998, together with its successors.

"Over-Assessed Amount" means, in respect of a Measurement Date, the amount (if any) by which (a) the Assessed Past Green Transition Costs, exceeds (b) the Estimated Past Green Transition Benefits, each as determined as of the Measurement Date.

"Period Finance Charges" means, for a Reference Period, the sum of (a) the Estimate of the Finance Amount ~~and~~ (b) the True-Up Amount in respect of the ~~immediately preceding Reference Period. "Period Transition Charges" means, for a Reference Period, the sum of (a) the Period Finance Charges for the Reference Period and (b) the IESO Available Amount for the Reference Period.~~ **applicable True-Up Period and (c) an adjustment amount as may be prescribed to account for estimated collection shortfalls and collection delays in respect of amounts under (a) and (b).**

"Pledge" means, in respect of an Investment Interest of an Absolute Assignee, a lien, mortgage, charge or security interest granted to or in favour of a Pledgee by the Absolute Assignee in, to and over all or a specified portion (including a specified portion on a divided basis or by way of an undivided interest) of the Investment Interest.

"Pledgee" means a person to whom an Absolute Assignee grants a Pledge.

"Program End Date" means •, [2047].

"Province" means the Province of Ontario.

"Redemption Amount" means the amount payable by or on behalf of an Absolute Assignee to redeem, prepay or repurchase a Funding Obligation incurred by or on behalf of the Absolute Assignee, including any premium, make-whole or other additional amount becoming payable under the Funding Obligation to give effect to such redemption, prepayment or repurchase.

"Reference Period" means (a) the period from (and including) the Measurement Date to (and including) ~~June~~**October** 30, 2017, (b) each six month period commencing [May 1st and November 1st] thereafter and (c) any other period specified as such in the Fair Allocation Plan.

~~"Reference Period Length" means, for a Reference Period, the number of months in the Reference Period.~~

"Refinancing" means, in respect of a Funding Obligation incurred by or on behalf of an Absolute Assignee, that the Funding Obligation is repaid or repurchased for cancellation by or on behalf of the Absolute Assignee by applying the net proceeds obtained by the Absolute Assignee incurring one or more other Funding Obligations.

"Regulated Consumer" means consumers of electricity in the Province as prescribed.

[NTD: There are a number of issues with this definition. First, the word "Retail" is a source of confusion as it implies customers of licensed retailers. Really, the purpose of the term is to define the group of consumers that are eligible to receive the benefit of the Fair Hydro program and who will bear the cost of the program over the long term. We have proposed "Regulated Consumer" but you could also use the term "Eligible Consumer" or "Fair Hydro Eligible Consumer" and for purposes of the legislation to say that it is a member of a class of consumers prescribed by the regulations for purposes of the relevant section of the legislation. The regulation would then describe who is in the class. Second, it may not be appropriate to rely on the class of consumers prescribed for the purposes of s. 79.16 or under the OREC Act. Section 79.16 is the section that defines the class of RPP consumers. We understand that the "Fair Hydro Eligible Consumers" are not an identical class to that which is eligible for the RPP or for> ***the Ontario Rebate for Electricity Consumers***<. For example, we have heard that Fair Hydro Eligible Consumers will (a) exclude consumers served by independent power authorities (certain remote communities not served by Hydro One Remotes), and (b) include consumers served by licensed unit sub-metering providers, licensed retailers and certain consumers served directly by the IESO (which may or may not be captured by the classes under 79.16 or OREC). Third, it is not clear why consumers with contracts with retailers who use retailer consolidated billing are removed from the first part of the definition but then added back into the second part of the definition. Fourth, Retailers do not necessarily have physical electricity assets that would be connected to the grid. Some just sell or offer contracts for electricity. As such, the first few lines after (b) are problematic. Fifth, the phrase "purchase electric generation services from a provider of electric generation services other than the owner of the Province's transmission and distribution system assets" does not make sense. A consumer does not purchase generation services from a transmitter or distributor. Rather, a consumer receives distribution services from a distributor. In addition to charging for its distribution services, the distributor also charges the associated transmission costs and commodity costs associated with the volumes delivered. Those commodity costs are the price of the electricity itself and are almost entirely made up of the amounts determined under the global adjustment. Sixth, the phrase "**>*whether or not the transmission and distribution system assets continue to be owned or operated by Electricity Distributors or operated by IESO*<**" does not make sense. Transmission assets are owned and operated by transmitters. Distribution assets are owned and operated by distributors. The IESO does not own but does administer and direct the operation of the transmission system.]

"Regulatory Asset" means the property rights and interests described in Section 6(1), which collectively is comprised of ~~the IESO Retained Interest and~~ each Investment Interest.

"Regulatory Asset Account" means (a) for an Electricity Distributor, any bank account into which the Electricity Distributor deposits or receives Transition Charge Collections; and (b) for the Servicer, any bank account into which ~~IESO~~Servicer deposits or receives Transition Charges~~, Electricity Distributor Remittances or IESO Remittances; and (c) if applicable, for the Alternative Collection Agent, any bank account into which~~

the Alternative Collection Agent deposits or receives Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances.

"Regulatory Asset Owner" means each of (a) IESO, as owner of (and to the extent of) the IESO Retained Interest and (b) each Absolute Assignee, as owner of its Investment Interest or Investment Interests, and "Regulatory Asset Owners" means collectively IESO and each such Absolute Assignee, who together own the entirety of the Regulatory Asset and are required to exercise their individual rights of ownership in accordance with Section 6(7).

"Related Rights" means**, with respect to a Regulatory Asset Owner's Investment Interest,** all rights of any kind (whether in tort, contract or otherwise) that attach or are attendant or incidental to any of the other property rights or interests that comprise such Regulatory Asset**Investment Interest**.

"Remittance Date" means, in respect of an Electricity Distributor, each day on which it is required to remit Electricity Distribution Remittances to IESO**Servicer** or if applicable the Alternative Collection Agent as specified in accordance with any Funding Obligation or, if no such day is specified in accordance with any Funding Obligation, then the Business Day **[NTD: Not defined.]** preceding each Settlement Date. **[NTD: Move to Regulations. Remittances will be in accordance with the current rules.]**

"Repayment Obligation" means an obligation to repay, redeem or repurchase, or to provide for the repayment, redemption or repurchase (including by making a related Finance Reserve Deposit) of, all or a portion of the amount advanced to the Absolute Assignee under a Funding Obligation.

"Repayment" means a payment by an Absolute Assignee made to satisfy a Repayment Obligation, other than to the extent that the payment is made by applying the proceeds of a Refinancing or from Finance Reserve Withdrawals.

"Replacement Event" means any event specified as such in a Funding Obligation.

"Retail Consumer" means:

(a) present and future consumers of electricity in the Province who are (i) consumers designated under section 79.16 of[, and O.Reg 95/05 under,] the *Ontario Energy Board Act, 1998*, or (ii) hold or are deemed to hold an "eligible account" under< *the Ontario Rebate for Electricity Consumers*> *Act, 2016*, other than any such consumer who has a contract with a Retailer who uses Retailer Consolidated Billing; and

(b) present and future Retailers who use Retailer Consolidated Billing,

and each case includes all such consumers and Retailers who are connected, directly or indirectly and whether a customer of an Electricity Distributor or not, to the transmission and distribution system assets located in the Province and who are taking electric delivery service within the Province, whether or not such retail consumers produce their own electricity or purchase electric generation services from a provider of electric generation services other than the owner of the Province's transmission and distribution

~~system assets and <*whether or not the transmission and distribution system assets continue to be owned or operated by Electricity Distributors or operated by IESO*>.~~

~~"Retail Consumer Group" means, in relation to a Reference Period, the Retail Consumers who receive Electricity Invoices during the Reference Period.~~

"Retailer" means a person who is licensed under Part V of the *Ontario Energy Board Act, 1998* to retail electricity.

"Retailer Consolidated Billing" has the same meaning as in the *Retail Settlement Code* issued by the Ontario Energy Board.

~~"Service Area" means, in respect of an Electricity Distributor, the geographic area or region in which it is licensed to distribute electricity in accordance with the *Electricity Act, 1998*.~~

"Servicer" means IESO or IESO Successor, as agent for and on behalf of the Regulatory Asset Owners, for the purposes set forth in Article 4.

"Settlement Date" means the [last Business Day of any month].

"Transition Charge" means, ~~for a Retail~~**the amount recoverable from a Regulated** Consumer in respect of a Reference Period, ~~(a) the Period Transition Charge, (b) multiplied by its Allocation Factor in respect of the Reference Period, divided by (c) the applicable Reference Period Length.~~ **being the Period Finance Charge as allocated to such Regulated Consumer in accordance with Article 4(3) on a monthly basis. [NTD: This needs to be grossed up to account for variability associated with expected uncollectables and remittance delays.] [NTD: Do not need to create parallel process. The definition should be linked to the OEB process for determining the volumetric rate as part of the RPP process (see s. 4(2)). The OEB will determine volumetric rate based on forecast consumption, number of consumers, etc. to recover the Period Finance Charges.]**

"Transition Charge Collection" means any amount received **[or deemed by this Act to have been received] by the Absolute Assignees** upon the collection of a Transition Charge paid by or on behalf of a ~~Retail~~**Regulated** Consumer, including any proceeds arising from the exercise and enforcement of any related rights and interests under or in respect of the Regulatory Asset.

"True-Up Amount" means, in respect of a Reference Period, the amount (which may be a negative amount) calculated by the Financial Services ~~Agent~~**Manager** equal to (a) the >*Actual Finance Amount for such related True-Up Period*<**, minus (b) the** Estimate of the Finance Amount for the related True-Up Period, ~~minus (b) the <*Actual Finance Amount for such related True-Up Period*>~~, plus (c) the Collected Amount Adjustment for such related True-Up Period. **[NTD: need to discuss how this will work for our true-up. What about prior period shortages? An example of how this works needs to be provided.]**

"True-Up Period" means, in relation to a Reference Period, the period from and including the [30th] day immediately preceding the first day of the Reference Period, to but excluding the [30th] day immediately preceding the last day of the Reference Period.

"Undertaking of the Lieutenant Governor in CouncilHer Majesty in right of Ontario" means the undertaking of the Lieutenant Governor in CouncilHer Majesty in right of Ontario given under Section 11(2).

Article 3 – Transition Charges

(1) **RetailRegulated Consumer Obligation to Pay a Transition Charge** – Each RetailRegulated Consumer shall pay each Transition Charge charged to it in any Electricity Invoice issued to such RetailRegulated Consumer by its Electricity Distributor or by an Alternative Servicer under Section 4(1), in each case on the terms of payment specified in the related Electricity Invoice.

(2) **Indebtedness of RetailRegulated Consumers** – Until paid, a Transition Charge charged to a RetailRegulated Consumer in an Electricity Invoice shall, together with any applicable late payment fees and finance charges arising under the terms of the Electricity Invoice with respect to such Transition Charge, constitute non-bypassable indebtedness of the RetailRegulated Consumer to the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset. Such indebtedness shall constitute a single and separate[86] debt obligation owing by the RetailRegulated Consumer, which subject to Article 5 may be enforced independently from any other payment obligation or indebtedness owing by the RetailRegulated Consumer under the Electricity Invoice or otherwise.[97]

(3) **No Set-Off or Reduction** – A RetailRegulated Consumer may not set-off or reduce (by counterclaim, defense or otherwise) the amount payable by it in respect of any Transition Charge, including any set-off against or in respect of any amount owing or becoming payable to such RetailRegulated Consumer by its Electricity Distributor, any Regulatory Asset Owner or any other person.

(4) **Allocation of RetailRegulated Consumer Payments** – If an Electricity Distributor receives a payment made by or on behalf of a RetailRegulated Consumer in respect of amounts due and payable under one or more Electricity Invoices that is less than the total amount payable thereunder, such payment shall be allocated on a *pro rata* basis to the payment of related Transition Charges and other invoiced amounts and the amount so allocated as a payment of related Transition Charges shall be deemed to constitute a Transition Charge Collectionsubject to rights and benefits that are no less favourable than the treatment accorded to other amounts payable to the IESO by the Electricity Distributor.

(5) **Transition Charges are Irrevocable** – The Transition Charges arising under or in respect of Funding Obligations incurred under the Financing Plan (including any

adjustments based on modifications to such Funding Obligations made in compliance with the Financing Plan or as a result of amendments to the Financing Plan made in accordance with Section 9(3)) are deemed to be irrevocable, final and effective without any further action, except to the extent of manifest calculation error. For greater certainty, a Transition Charge may include Finance Amounts for a Reference Period regardless of whether or not the payment of such Finance Amounts are inconsistent with the Fair Allocation Plan applicable at the time such payments are due and payable, and regardless of whether or not the related Funding Obligation was properly incurred under the Financing Plan. In no case shall a Funding Obligation incurred under the Financing Plan be affected by a subsequent amendment to the Fair Allocation Plan.

(6) True-Up of Transition Charges? – [NTD: Include specifics regarding the true-up of the charges and the process for the true-up, but move to Regulations. The True-Up Mechanism should require the Transition Charges to be reviewed and adjusted semi-annually to ensure the expected recovery of amounts sufficient to timely provide all payments in respect of Funding Obligations, provided that in some cases it may need to be adjusted more frequently than semi-annually, e.g., as part of a refinancing.]

(7) Commencement of Invoicing and Collection of Transition Charges – [NTD: Please confirm that as drafted, Transition Charges will begin on the Measurement Date.]

Article 4 – Invoicing of Transition Charges [NTD: Move Article 4 sections (1) to (4) to Regulations. Also note, these sections remain subject to further due diligence by the Dealers.]

(1) **Inclusion of Transition Charges in Electricity Invoices** – Each Electricity Distributor and if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, specify the Transition Charge to be charged to a ~~Retail~~Regulated Consumer pursuant to Section 4(4) in respect of a related Reference Period in each Electricity Invoice issued by the Electricity Distributor or if applicable by the Alternative Servicer to the ~~Retail~~Regulated Consumer in respect of such Reference Period. Upon the inclusion of a Transition Charge in an Electricity Invoice, the obligation to pay such amount shall be binding on the applicable ~~Retail Consumer.~~Regulated Consumer. [NTD: Must capture bills issued to eligible consumers served by unit sub-metering providers, retailers and the IESO – not just distributors][NTD: This provision also needs to address the inclusion of Transition Charges in invoices from the IESO to the LDC, consistent with the current process of how the IESO bills LDCs.]

(2) **Calculation of the Period ~~Transition~~Finance Charge** – Not later than [35] days prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services ~~Agent~~Manager on its behalf) shall provide the OEB with written notice of each Estimate of a Finance Amount payable by it or on its behalf in respect of the Reference Period. ~~[35] days prior to the first day of a Reference Period, IESO or Successor IESO if applicable shall specify the IESO Retained Interest Amount and any IESO Financing Costs that are due and payable and remain unpaid on such day.~~ Not later than one month prior to the first day of a Reference Period, ~~the OEB~~each Absolute Assignee (or the Financial Services Manager on its behalf) shall calculate the Period ~~Transition~~Finance Charge applicable to the Reference Period ~~based on the calculations and information set forth in such written notices received from the Absolute Assignees~~

and based onhaving regard to such amounts specified by IESO or Successor IESOthe Servicer, which calculations, information and amounts shall be accepted by the OEB and shall be determinative, except to the extent of manifest calculation error or misstatement.

(3) **Calculation and Attribution of Transition Charges** – Not later than 25 days prior to the first day of a Reference Period, the OEB shall apply the Attribution Methodology to determine the Allocation Factorallocation of the Transition Charge for each RetailRegulated Consumer of the applicable Retail Consumer Group. **[NTD: We think the OEB would be determining the Fair Hydro recovery rate (on a volumetric basis) that distributors would then be required to charge to consumers]**

(4) **Notice of Transition Charges** – Not later than 20 days prior to the first day of a Reference Period, the OEB shall inform each Electricity Distributor and if applicable any Alternative Servicer of the Transition Charges to be specified in the Electricity Invoices to be issued to each RetailRegulated Consumer of the applicable Retail Consumer Group who has a billing address inwho is served by the Electricity Distributor's Service Area.

(5) **Adjustments** – The amount of any Transition Charge charged to a RetailRegulated Consumer and specified as such in an Electricity Invoice shall be determinative of the amount of indebtedness created thereby and owing in respect of such Transition Charge, except to the extent of any manifest calculation error.

(6) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 4 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 4 to impose, attribute, charge, bill and invoice the Transition Charges.

(7) **IESO Successor** – Any IESO Successor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of IESO under Article 4 in the same manner and to the same extent as IESO, including the obligation to calculate and provide notice of Transition Charges.

(8) **Appointment of an Alternative Servicer** – If a Replacement Event occurs in respect of any Electricity Distributor, the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Servicer to perform some or all of the obligations and duties required to be undertaken by such Electricity Distributor under this Article 4, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Servicer shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor. Any Electricity Distributor that is replaced under this Section 4(8) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in the performance of such obligations and duties to the Alternative Servicer and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Servicer to perform such obligations and duties on behalf of the Regulatory Asset Owners. **[NTD: We would expect the IESO to manage this in accordance with its normal business practices.]**

(9) Absolute Assignees have Standing – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, the Servicer, Alternative Servicer or any other person who may be authorized to issue Electricity Invoices to ~~Retail~~**Regulated** Consumers for a failure to impose, attribute, charge, bill or invoice Transition Charges **or to otherwise comply with this Act**. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure~~.~~ **and may make any interim or final order it thinks fit in this regard. [NTD: We would like to see the sections on "Standing" to bring an action to remain in the legislation (as opposed to being moved to the regulations as we believe we previously suggested) as we see those provisions as part of ensuring a rigorous enforcement scheme for the Financing Entity (and so something that should be difficult for the Province to change going forward).]**

(10) No Set-Off or Reduction – No Servicer or Electricity Distributor may set off or reduce (by counterclaim, defence or otherwise) the amount payable by it pursuant to this Article 4.

(11) Regulations – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Servicer to ensure that Transition Charges are properly charged to ~~Retail~~**Regulated** Consumers and specified as such in Electricity Invoices.

Article 5 – Collections and Remittances [NTD: Move Article 5 sections (3), (6), (9), (12), (13) and (14) to Regulations.]

(1) **Duty to Collect as Agent** – Electricity Distributors or if applicable any Alternative Collection Agent shall, as an agent of the ~~Regulatory Asset Owners, undertake [diligent][reasonable][10] efforts to~~**Servicer,** collect amounts owing by ~~Retail~~**Regulated** Consumers in respect of Transition Charges charged to such ~~Retail~~**Regulated** Consumers in Electricity Invoices issued by the Electricity Distributor or if applicable such Alternative Collection Agent~~.~~ **all in accordance with the Regulations. [NTD: The obligation to collect and remit the Transition Charge should be included as a deemed condition of license for electricity distributors (and retailers and unit sub-metering providers).]**

(2) **Segregation of Transition Charge Collections** – An Electricity Distributor or if applicable any Alternative Collection Agent shall promptly segregate Transition Charge Collections from other payments received by it from ~~Retail~~**Regulated** Consumers and deposit such Transition Charge Collections into its Regulatory Asset Account.[11][8] **[NTD: Determine if this is critical for rating and markets or if segregation can occur in the hands of the IESO]** Prior to and following a deposit of Transition Charge Collections having been made into its Regulatory Asset Account, the Electricity Distributor or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners **or its Pledgee**.

(3) **Electricity Distributor Remittances** – On each applicable Remittance Date, an Electricity Distributor shall remit all **amounts invoiced by the IESO on account of the**

(4) **Duty to Collect Electricity Distributor Remittances** – ~~IESO~~**Servicer** or if applicable any Alternative ~~Collection Agent~~**Servicer** shall, as an agent of the Regulatory Asset Owners, ~~undertake [diligent][reasonable] efforts to~~ accept and collect Electricity Distributor Remittances from Electricity Distributors and Transition Charge Collections from ~~Retail~~**Regulated** Consumers that pay their Electricity Invoices directly to IESO~~.~~[12] **on the same basis as it accepts and collects other charges from such Regulated Consumers.**[9]

(5) **Segregation of Electricity Distributor Remittances** – ~~IESO~~**Servicer** and if applicable the Alternative Collection Agent shall promptly segregate Electricity Distributor Remittances from other payments received or held by it and deposit such Electricity Distributor Remittances into its Regulatory Asset Account. Prior to and following a deposit of Electricity Distributor Remittances having been made into its Regulatory Asset Account, ~~IESO~~**Servicer** or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners **or Pledgee**.

(6) ~~**IESO**~~**Servicer Remittances** – On each Settlement Date[13]10, ~~IESO and if applicable the Alternative Collection Agent~~**Servicer** shall remit all amounts on deposit in its Regulatory Asset Account ~~(a) first,~~ to or to the account of the Absolute Assignees an amount equal to the Investment Remittance for the related month ~~and (b) second, to IESO (including by IESO retaining such amount) an amount equal to the lesser of (i) the Maximum IESO Recovery for the related month and (ii) the IESO Retained Interest Amount as of the Settlement Date~~.

(7) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 5 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 5 to collect Transition Charges and make remittances of Electricity Distributor Remittances.

(8) **IESO** ~~**Successor**~~**Successors** – IESO ~~Successor~~**Successors** shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of IESO under Article 5 in the same manner and to the same extent as IESO, including the obligation to collect Transition Charge Collections, Electricity Distributor Remittances and to remit IESO Remittances.

(9) **Owners of Distribution Assets** - If any person other than an Electricity Distributor acquires distribution system assets in the Province or invoices or collects electricity distribution rates in the Province[14]11, then such person shall, if requested by the Absolute Assignees, be obligated to act diligently to (a) facilitate the invoicing and collection of any Transition Charges applicable to ~~Retail~~**Regulated** Consumers ~~in its~~

applicable service area, including all consumers connected to the electricitysuch person's distribution system assets and taking electric delivery service located within such service area; (b) allocate partial payments by RetailRegulated Consumers as provided in this Act; (c) exercise all enforcement rights of the Absolute Assignees for the benefit of an Absolute Assignee; and (d) remit any Transition Charge Collections to the Absolute Assignees or Pledgees, as applicable, each in accordance with its Investment Interest. [NTD: Such acquisition of a distribution system would require the person to be an electricity distributor; consider deleting since this is covered off by Section 5(7).]

(10) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESOServicer, the Alternative Collection Agent, any owner of electricity distribution system assets in the Province or any other person who may be authorized to collect electricity distribution and use charges from RetailRegulated Consumers for a failure to collect Transition Charges, remit or collect Electricity Distributor Remittances or remit IESO Remittances, as and to the extent applicable under Article 5.5, or to otherwise comply with this Act. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure and may make any interim or final order it thinks fit in this regard.

(11) **Appointment of an Alternative Collection Agent –** If a Replacement Event occurs in respect of any Electricity Distributor or IESO, the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Collection Agent to perform some or all of the collection, segregation and remittance obligations otherwise required to be undertaken by such Electricity Distributor or IESO, as applicable, under Article 5, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Collection Agent shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor or IESO, as applicable. Any Electricity Distributor or IESO, as applicable, that is replaced under this Section 5(11) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in, to and over the Regulatory Asset, including its Regulatory Asset Account, to the Alternative Collection Agent and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Collection Agent to enforce the Regulatory Asset on behalf of the Absolute Assignees.Not Used. [NTD: The Servicer should manage this process.]

(12) **No Set-off, etc.** - The Regulatory Asset, including rights in Transition Charges, Transition Charge Collections, and the interests of a Regulatory Asset Owner, an Absolute Assignee and a Pledgee therein, may not be setoff or reduced (including by counterclaim, surcharge or defense) by any RetailRegulated Consumer, any Electricity Distributor, IESOServicer, Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or in connection with any default, bankruptcy, reorganization or other insolvency proceeding of any Electricity Distributor,

~~IESO~~Servicer, Alternative Collection Agent or any owner of distribution system assets in the Province, any affiliate or successor thereof or any other entity or otherwise.[~~15~~12]

(13) **Sequestration** – If any Electricity Distributor, ~~IESO~~Servicer, the Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or entity authorized to collect Transition Charges, defaults on any required remittance of Transition Charge Collections, Electricity Distribution Remittances or IESO Remittances under Article 5, any court in the Province, upon application by and of the Absolute Assignees acting collectively under the Collective Action Agreement and without limiting any other remedies otherwise available to the Absolute Assignees or Pledgees, shall order the sequestration and payment of the Transition Charge Collections, Electricity Distribution Remittances and IESO Remittances, as applicable, for the benefit of the Absolute Assignees, each with respect to its Investment Interest, and the Pledgees as applicable.[~~16~~13]

[NTD: Suggest considering a more typical remedy such as the ability to appoint a receiver. Concept should be moved to Regulations.]

(14) Regulations – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to ~~IESO~~Servicer, any Electricity Distributor or any Alternative Collection Agent to ensure that rights, interests, entitlements, benefits and proceeds in, to, under and from the Regulatory Asset are of fully realized by some or all of the Absolute Assignees and Pledgees.

Article 6 – The Regulatory Asset

[NTD: We believe that the statute should impose a time limit on the ability of IESO to create additional Regulatory Assets under this Act. It is our expectation that this will be no later than 10 years after the commencement of the program.]

[NTD: In addition, additional language is required to address the acquisition of the Regulatory Asset by the Financing Entity, including reference to the consideration being provided for it, funding upfront costs.]

[NTD: The sale of Regulatory Assets must be restricted to Financing Entities controlled by a single entity (initially, OPG).]

[NTD: For greater certainty, a Financing Entity will not be required to purchase Regulatory Assets from IESO.]

(1) **Composition** – The Regulatory Asset shall constitute a current and irrevocable property right and interest consisting, collectively, of the following rights and interests (without duplication):

[~~15~~12] Consider whether it makes sense to create a "deemed collection" payment obligation on Electricity Distributors to the extent a ~~Retail~~Regulated Consumer reduces its payment of Transition Charges, despite this language. Same for Electricity Distributor Remittances and IESO Remittances.

[~~16~~13] Consider adding or substituting this provision for a right to appoint a receiver.

a. the right of ~~IESO (i)~~**a Regulatory Asset Owner** to record its ~~IESO Retained Interest in its accounts in accordance with Section 8(1), having a stated amount from time to time equal to the IESO Retained Interest Amount; and (ii) to receive IESO Recoveries from time to time in accordance with Section 5(6)(b)~~**portion of the Regulatory Asset in its accounts**;

b. the right to impose, bill, invoice, collect and receive Transition Charges from ~~Retail~~**Regulated** Consumers, including the right to determine the amount of Transition Charges in accordance with this Act;

c. the right to enforce the obligations and indebtedness of each ~~Retail~~**Regulated** Consumer to pay the Transition Charges charged to the ~~Retail~~**Regulated** Consumer from time to time in accordance with Article 3, together with all related late payment fees or interest charges arising in respect thereof under the related Electricity Invoices; **[NTD: Do we really want and need the ability for the Financing Entities to chase after individual consumers?] [NTD: This should be the right to provide notices to the OEB of the amounts required for recovery, which the OEB would then be required to accept for purposes of determining the amount of Transition Charges to be charged to consumers]**

d. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Servicer to impose, attribute, charge, bill and invoice the Transition Charges in accordance with Article 4;

e. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Collection Agent to collect, receive and remit amounts received by it in respect of Transition Charges as Electricity Distributor Remittances to or to the account of ~~IESO~~**Servicer** or if applicable the Alternative Collection Agent in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5;

f. the right to enforce the duties and obligations of ~~IESO~~**Servicer** and if applicable the Alternative Collection Agent to collect and receive Electricity Distributor Remittances and to remit IESO Remittances to or to the accounts of the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset, in each case in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by it to recover payment of Electricity Distributor Remittances in accordance with Article 5;

g. the right to receive and collect all Transition Charge Collections, all Electricity Distributor Remittances and all IESO Remittances in accordance with Article 5;

h. all rights and entitlements under each Regulatory Asset Account and all amounts on deposit in any such Regulatory Asset Account;

i. all Related Rights; and

j. all revenue, collections, claims, payments, money and proceeds of or derived from the rights described in (a) through (i), regardless of whether such revenue, collections, claims, payments and proceeds are imposed, invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

A Regulatory Asset and the property rights and interests therein shall exist whether or not Transition Charges have been imposed, charged, invoiced, accrued or collected and notwithstanding that the imposition, attribution, invoicing and collection of Transition Charges will depend on further actions that may not have occurred. **The Regulatory Asset shall continue to exist until all Funding Obligations and Additional Funding Charges have been paid in full.**

(2) **Validity of Dispositions** – ~~Despite any limitations or restrictions on a Disposition that may arise by contract or by operation of any applicable law of the Province or any consent requirement applicable to a Disposition that may arise by operation of any applicable law of the Province, a~~**A** Disposition by IESO **of all or any part of the IESO Funding Shortfall** to an Absolute Assignee ~~made under the Financing Plan~~, or **a Disposition of all or any part of an Investment Interest** by one Absolute Assignee to another Absolute Assignee made under the Financing Plan, shall be permitted and when made shall be valid and enforceable in accordance with the terms of the related Disposition Document and shall be effective to confer upon the Absolute Assignee thereof a valid property right and interest in, to and under the ~~applicable~~**IESO Funding Shortfall or** Investment Interest**, as applicable** (or relevant portion thereof) in accordance with the terms of such Disposition, provided that the parties to the applicable Disposition Document have expressly stated therein that such Disposition is a sale or other absolute transfer. Without limiting the foregoing, any Disposition that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as a true sale and absolute transfer of the ~~Regulatory Asset Owner's applicable~~**IESO Funding Shortfall or an Absolute Assignee's** right, title~~,~~ and interest in, to and under ~~the Regulatory Asset~~**an Investment Interest, as applicable** (or relevant portion thereof), and not merely as a Pledge thereof, and upon such Disposition the assigner or seller under the applicable Disposition Document shall retain no right, title or interest in the **IESO Funding Shortfall or** Investment Interest **(or relevant portion thereof)** subject to the Disposition, including all rights under the **IESO Funding Shortfall or** Investment Interest arising after such Disposition. **[NTD: Subject to review by Osler/dealers.]**

(3) **Perfection and Priority of Dispositions** – Any Disposition of an interest in a Regulatory Asset shall be vested, valid, binding and perfected from the time when such Disposition is made. Such Disposition shall be perfected, vested, valid and binding as against the **IESO or** transferring Regulatory Asset Owner**, as applicable,** and all other persons who have claims of any kind (whether in tort, contract or otherwise) against **IESO or** the transferring Regulatory Asset Owner, **as the case may be,** irrespective of whether such persons have notice of the Disposition and the property rights and interests acquired by the Absolute Assignee under such Disposition shall be free and clear of any liens in favour of such other persons.

(4) **Validity of Pledges** – ~~Despite any limitations or restriction on a Pledge that may arise by contract or by operation of any applicable law of the Province or any consent~~

~~requirement applicable to a Pledge that may arise by operation of any applicable law of the Province, a~~**A** Pledge by an Absolute Assignee may be made to secure any ~~related~~ Funding Obligation and when made shall be valid and enforceable in accordance with its terms and shall be effective to confer upon the Pledgee a valid security interest in, to and in respect of the related Investment Interest in accordance with the terms of the Pledge. ~~Other than as required by the Financing Plan, no~~**No** consent of**, or notice to,** any person shall be required to give effect to a Pledge made to secure any Funding Obligation.

(5) **Perfection and Priority of Pledges** - For purposes of the *Personal Property Security Act* (the "PPSA"), the Regulatory Asset shall be intangible personal property and any Pledge made by an Absolute Assignee in respect of a Funding Obligation **shall, subject to the terms thereof, give rise to a security interest of which the PPSA applies, and** may be perfected by filing a financing statement under the PPSA on that basis. All proceeds of a related Investment Interest that are subject to such a Pledge that are received by the Absolute Assignee shall immediately be subject to the such Pledge, and the security interest in such proceeds shall be perfected pursuant to the PPSA.~~17~~**14** A Pledge perfected under the PPSA shall be a continuously perfected security interest and shall have priority over any other lien or security interest, created by operation of law or otherwise, that may attach to the property rights and interests in the Investment Interest subject to the Pledge unless the Pledgee has otherwise agreed in writing. ~~Subject to the terms of the Collective Action Agreement, a~~**A** Pledgee shall have a perfected security interest in a related Investment Interest, including the Absolute Assignee's rights and interests in and to Transition Charge Collections or other related proceeds in respect of the Investment Interest and that are deposited in any Regulatory Asset Account or other account of any Electricity Distributor, IESO, Alternative Collection Agent or other person who may have commingled such Transition Charge Collections or such other proceeds with other funds. All provisions of the PPSA shall apply to the Regulatory Asset on the basis that it is intangible personal property, except to the extent otherwise provided in this Section 6(5).

(6) **Enforcement of Property Rights** – The rights of any Regulatory Asset Owner to collect and enforce its rights and interests in, to or in respect of the Regulatory Asset shall be exercised in the manner set forth in Article 5.

(7) **Owners of a Specified Portion of the Regulatory Asset** – A Regulatory Asset Owner may effect a Disposition to an Absolute Assignee of a specified portion of its rights and interests in the Regulatory Asset, including by way of a Disposition of a divided or an undivided interest therein as specified in a related Disposition Document~~, in each case under the Financing Plan~~. In no circumstance may the specified portions of the rights and interests in the Regulatory Asset owned by all Regulatory Asset Owners be greater than all of the rights and interests that comprise the Regulatory Asset in the aggregate.

(8) **Collective Action Required** – If a Regulatory Asset Owner's rights and interests in the Regulatory Asset comprises less than the entire property right and interest constituted by the Regulatory Asset, such Regulatory Asset Owner shall only enforce such right and interest on a collective and coordinated basis with each other Regulatory Asset Owner in accordance with the Collective Rights Agreement. **[NTD: Move to Regulations.]**

~~17~~**14** Consider whether to simply leave this and have a financing statement be filed under the PPSA. This would normalize the security interest and reduce any adverse suggestion that security would not otherwise arise.

Article 7 – Establishment of the Fair Allocation Plan[1815] **[NTD: Move entire Article 7 to Regulations, other than 7(1) and 7(2).]**

(1) **Adoption of the Fair Allocation Plan** – The Delegate may, [by written declaration,] designate and adopt a Fair Allocation Plan in compliance with Article 7. The Fair Allocation Plan so designated and adopted shall be the Fair Allocation Plan for all purposes of this Act, except if amended, amended and restated or terminated by a further written declaration made by the Delegate in compliance with Section 7(4).**[the Regulations]**

(2) **Principles and Parameters** – A Fair Allocation Plan shall seek to allocate Future Fair Share of Green Transition Benefits across present and future Retail Consumer Groups**Regulated Consumers** on a basis that the Delegate, in its sole and absolute discretion, determines to be equitable, having regard to the following principles and parameters:

[NTD: E&Y will need to see the guidelines of the Fair Allocation Plan set in reference to parameters that will allow it to establish a modeling curve]

- **[Inflation period: (between November 2017 – and April 2022) bill increases need to be capped at inflation (assumed at 2% for modeling purposes)]**
- **[Transition Period: (May 2022- April 2027) bills increased at a consistent rate which is set so that the borrowing will not exceed the Trust's capacity, which is determined by the Finance Service Manager]**
- **[Amortization Period: (May 2027-April 2047) equitable distribution of Finance Amount among Regulated Consumers]**

1. Future Fair Share of Green Transition Benefits should be allocated over the period ending on the Program End Date.

2. <*The Fair Allocation Plan should specify the Reference Periods for the purpose of* >identifying applicable Retail Consumer Groups and <*allocating Future Fair Share of Green Transition Benefits among* >them< *on a relative basis over time.* >

2. 3. The share of Future Fair Share of Green Transition Benefits allocable to a particular Retail**Regulated** Consumer Group in respect of a Reference Period should be proportionate to a reasonable assessment of the benefits of the Green Generation Initiative to the Retail**such Regulated** Consumer Group over such Reference Period**, other than**> *in exceptional circumstances*<**.**

[1815] The idea is that the Fair Allocation Plan will be set once at the outset based on the principles and parameters described here, all as applied based on information available and the reasonable expectations and discretion of the delegate at such time. If the expectations are not fulfilled (e.g., generators may choose to retire their facilities at the end of their current procurement contracts and not invest in extending service lives to secure further procurement contracts), the Fair Allocation Plan will be unaffected, unless it is specifically amended (assuming amendments will be permitted by the legislation).

4. The share of Future Fair Share of Green Transition Benefits to be allocated to a Retail Consumer Group and any future Retail Consumer Group at a particular time should not exceed the Estimated Future Green Transition Benefits, measured in respect of the Reference Periods following such particular time and to the Program End Date.

5. No future Retail Consumer Group should be allocated an unreasonably disproportionate share of Estimated Future Green Transition Benefits. Except<- *in exceptional circumstances*> or in the case of any reallocation of an Over-Assessed Amount as contemplated in 7, below, the Future Fair Share of Green Transition Benefits to be allocated under a Fair Allocation Plan to any future Retail Consumer Group should have regard to *[Insert formula if a year-over-year maximum amount is determined to be appropriate].*

3. 6. The time value of money should be reflected in the Fair Allocation Plan, in order to equate the relative values of the nominal allocations of Future Fair Share of Green Transition Benefits, calculated in current dollars, to future Retail Consumer Groups over time.>*The Fair Allocation Plan should specify the Reference Periods for the purpose of* <>*allocating Future Fair Share of Green Transition Benefits among* <**Regulated Consumers**> *on a relative basis over time.* <

7. To the extent there has been an Over-Assessed Amount, the Fair Allocation Plan may determine that an adjustment should fairly be made to rebate Retail Consumers for such an amount, by reducing the costs otherwise attributable under the Act to such Retail Consumers. The relative costs of the Green Generation Initiative are reflected under the Act by the attribution of Transition Charges to such Consumer Groups, based on the Financing Plan seeking to track the allocations of benefits under the Fair Allocation Plan. Accordingly, the Maximum Transition Charge Amount determined for one or more Retail Consumer Groups having regard to the Fair Allocation Plan otherwise applicable may be appropriately reduced to recognize the effect of the Over-Assessed Amount. In such a case, a determination to reduce the Maximum Transition Charge Amount applicable for certain related Reference Periods should have regard to the principle that the corresponding rebate should be extended to benefit the Consumer Group or Consumer Groups in closest proximity to the Legislative Implementation Date.

(3) Attribution Methodology – The Fair Allocation Plan shall specify the Attribution Methodology for the purposes of allocating the Period Transition**Finance** Charges across the Retail**Regulated** Consumers of a particular Retail Consumer Group. The Attribution Methodology shall result in an attribution of such Transition Charges that is considered by the Delegate to be equitable, and may have regard to such principles and parameters as may be further set forth in a Regulation.; **provided that**> *the Attribution Methodology* <**shall not be used to limit the recovery of Transition Charges. [NTD: Can the methodology be adjusted outside an amendment? If so, the rating agencies need to understand the limits of any adjustment.]**

(4) Amendments of the Fair Allocation Plan – The Fair Allocation Plan may be amended, amended and restated or terminated by the Delegate, provided that such amendment, amendment and restatement or termination shall (a) not be inconsistent with the principles and parameters set forth in (2) or (3), above, or the Regulation ~~and~~, (b) comply with any restrictions or limitations specified with respect thereto in any Funding Obligation~~.~~**, and (c) not impair any Regulatory Asset, outstanding Funding Obligation or any Transition Charges. [NTD: If the Fair Allocation Plan is amended, there should be no further Regulatory Assets until the revised Fair Allocation Plan and corresponding Financing Plan have been approved.]**

Article 8 – The IESO ~~Retained Interest~~Funding Shortfall

(1) ~~Maintain Books of Account~~ ~~– IESO may maintain books of account to record the IESO Retained Interest Amount and all adjustments thereto from time to time. Such books of account shall be determinative with respect to the amount of IESO's related regulatory asset.~~**Recording of IESO Funding Shortfall -- IESO will record any IESO Funding Shortfall in its books.**

~~**(2) Limitation on Additions** – IESO shall not record additions to the IESO Retained Interest Amount in respect of IESO Funding Shortfalls (a) if such additions are restricted by the terms of any Disposition Document or the Collective Action Agreement, or (b) on or after •, 2017.~~

(2) ~~**(3)**~~ **Dispositions** – IESO may effect a Disposition **of all or any part of the IESO Funding Shortfall** to an Absolute Assignee if (a) the ~~Absolute Assignee has or will concurrently become bound by the Collective Rights Agreement; (b) the~~ Disposition is effected pursuant to a Disposition Agreement duly executed by IESO; **and** (~~c~~**b**) the Financial Services ~~Agent~~**Manager** confirms in writing that the Disposition **complies with any restrictions or limitations specified with respect thereto in any documents evidencing the Funding Obligations and** is permitted under the Financing Plan~~; and (d) the net proceeds payable to IESO from the sale of the related Investment Interest would not exceed the IESO Retained Interest Amount immediately before the time of such Disposition~~.

(3) ~~**(4)**~~ **No Continuing Interest in any Investment Interest** – IESO shall have no continuing right or interest in any ~~Investment Interest~~**IESO Funding Shortfall** subject to a Disposition effected by IESO under a Disposition Document to which IESO is a party~~and IESO shall not assert any such right or interest or take or omit to take any action to exercise or enforce its rights or interests under the IESO Retained Interest if such action or omission would impede or obstruct the rights of any Absolute Assignee or a Pledgee to enforce its rights and interests in any Investment Interest, except if IESO is expressly permitted to take or omit to take such action, respectively, under the related Disposition Document or the Collective Rights Agreement.~~

~~**(5) IESO Financing Costs** – IESO shall be entitled in good faith to incur reasonable financing costs (including interest and other reasonable financing charges) reflecting market terms and conditions and which are payable in arrears, in order to finance its ownership of the IESO Retained Interest from time to time. **(6) IESO Recoveries** –~~

IESO shall, in respect of a month, be entitled to receive from IESO Remittances on a related Settlement Date the amount (if any) available to IESO under Section 5(6)(b).

Article 9 – The Financing Plan [NTD: Move all of Article 9 to Regulations other than 9(1).]

(1) Power to Prepare, Implement and Amend the Financing Plan – The Financial Services AgentManager shall be authorized to prepare, implement and amend a financing plan for the Financing Entities> *and propose the adoption*< of such financing plan as the Financing Plan. If the Financial Services Agent is unwilling or unable to prepare< *and propose the adoption*> of the Financing Plan, the Delegate may by written declaration designate one or more other persons who shall be authorized to prepare, implement and amend the Financing Plan for the purposes of this Act. The Financial Services Manager shall have the right to withdraw its financing plan as the Financing Plan at any time if it determines that implementing the Financing Plan in such manner would not be in the best interests of a Financing Entity.

(2) TermsPrinciples and ConditionsParameters of the Financing Plan – The Financing Plan shall establish the basis for each Absolute Assignee's funding decisions. The Financing Plan shall have having regard to the principles and parameters set forth in Schedule 3 and such other conditions and requirements as may be specified in a written declaration of the Delegate or in accordance with the Regulation.3.

(3) OEB Approval – Any Additional Funding Charge payable to or for the benefit of the Financial Services AgentManager in respect of services provided by the Financial Services Manager (other than third party costs) shall be subject to review and approval by the OEB.

(4) OEB Review of Financing Plan – The [OEB] [shall] undertake an annual review of the records maintained by the Financial Services AgentManager for the purpose of confirming that the Funding Obligations incurred and the Finance Amounts paid by or on behalf of the Absolute Assignees were incurred and paid, respectively, in material conformity with the Financing Plan. [NTD: We would prefer that this be dealt with by an attestation prepared by an officer of the Financial Services Manager.]

(5) Replacement of the Administrative AgentFinancial Services Manager – If the OEB identifies deficiencies or makes recommendations in its review under Section 9(4), the Administrative AgentFinancial Services Manager shall take reasonable measures to remedy such deficiencies if remediable, and shall in any event have regard to the recommendations of the OEB in relation to further actions undertaken by the Financial Services AgentManager under the Financing Plan. If the Financial Services AgentManager is unwilling or unable to reflect such recommendations in relation to such further actions, the Delegate may by written declaration designate one or more other persons who shall thereafter become the Financial Services. Manager. Any replacement must comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations.

(6) Obligation to Apply IESO Remittances – The Financial Services AgentManager shall ensure that amounts transferred to it under Article 5, as agent for and on behalf of the Absolute Assignees, or otherwise in respect of or as proceeds from an applicable Investment Interest shall only be applied or used to pay related Finance Amounts when

they are due and payable and for no other purpose. **[NTD: This can be dealt with by contract.]**

(7) Non-Recourse – The Financing Plan shall be implemented so that Funding Obligations incurred shall be without recourse to or to any assets of the Electricity Distributors, IESO, any Alternative Servicer, any Alternative Collection Agent, the Financial Services Agent**Manager**, the OEB, the Province or the Lieutenant Governor in Council **or Her Majesty in right of Ontario**, other than if and to the extent that such persons or entities are liable for the performance of obligations or duties arising under this Act or expressly agree to become liable pursuant to any Funding Obligation or obligation in relation to a Finance Amount. [All Funding Obligations shall contain a statement to the following effect: "Neither the full faith and credit nor the taxing power of the Province of Ontario is pledged to the payment of the principal of, or interest on, this [obligation].]

(8) Incurrences are Binding – Notwithstanding anything to the contrary in this Act, each**Each** Disposition made to or by an Absolute Assignee and**,** all amounts payable or becoming due and payable by or on behalf of an Absolute Assignee under or in connection with any obligation purporting to be a Funding Obligation **and each Pledge entered into by an Absolute Assignee**, shall be **valid and** binding for the purposes of this Act, including in determining the amount of related Transition Charges, despite**notwithstanding** any impairment or defect resulting from such failure**defect in the manner in incurrence or any inconsistency with the Fair Allocation Plan or the Financing Plan**.

[Article 10 – Compliance Matters[19][16]

(1) Right of the [OEB] to Inspect Books and Records - For the purpose of investigating compliance with the provisions of this Act, the OEB shall have the right, jurisdiction, power and authority to examine the books and records of *[Insert names if any]*.

(2) [OPG's Rate Settings – When setting other rates for or in respect of OPG, the OEB shall not take into account (a) the administrative or servicing fees charged by OPG as Financial Services Agent**Manager** [in excess of the actual incremental costs incurred by such person of providing administrative or servicing services]; (b) the cost consequences to OPG of being the Financial Services Agent**Manager**; or (c) the consequence of OPG consolidating the assets and liabilities of any Financing Entity for OPG's accounting purposes, in each case in setting any regulated payment amounts for OPG.][20][17]

[19][16] As noted above, the outcome of any regulatory action undertaken by the OEB will not affect Funding Obligations that have been incurred under the Financing Plan. This Article and any potential role for the Auditor General is still under consideration.

[20][17] As an alternative to this provision, consider clarifying under s. 78.1(4) of the OEB Act (which currently gives the OEB discretion in setting payment amounts subject to O. Reg. 53/05) that the OEB in setting OPG payment amounts for prescribed generation shall not consider OPG's role as Administrative Agent**Financial Services Manager** of any Financing Entities associated with the Fair Hydro initiative, perhaps with the exception of any operating fees that may be received by OPG for performing that role.

Article 11 – Undertaking of the ~~Lieutenant Governor in Council~~[21]Her Majesty in right of Ontario[18]

(1) No Action to limit, alter, or impair or terminate Transition Charges, the Regulatory Asset or Collections – ~~The [Lieutenant Governor in Council]~~**Her Majesty in right of Ontario** shall not in any way take or permit **(including by any agency or administrative body)** any action to reduce, impair, postpone or terminate the obligation of ~~Retail~~**Regulated** Consumers to pay Transition Charges or to impair the Regulatory Asset or the collection or recovery of Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances, either directly or indirectly, including through the introduction of any bill or the passing of any legislation or regulation having such effect. The amount of Transition Charges determined under this Act shall not be subject in any way to reduction, impairment, postponement or termination as a result of any action taken or failure by ~~the Lieutenant Governor in Council~~**Her Majesty in right of Ontario (including by any agency or administrative body)**, including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(2) Undertaking and Agreement – ~~The [Lieutenant Governor in Council]~~**Her Majesty in right of Ontario** shall not:

(a) in any way take or permit any action that limits, alters or impairs the value of any Investment Interest;

(b) except as required by the estimates and adjustments made in determining the True-up Amount, reduce, alter or impair Transition Charges that are imposed, billed, invoiced, collected and remitted for the benefit of the Absolute Assignees or any Pledgee from time to time;

(c) permit the amendment, amendment and restatement or termination of the Fair Allocation Plan if such amendment , amendment and restatement or termination would adversely affect the validity or enforceability of any Funding Obligation or the rights of an Absolute Assignee or Pledgee thereunder, **or would not otherwise comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations,**

in each case including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(3) Successor IESO – If IESO is restructured, dissolved or becomes insolvent or is otherwise incapable of performing its obligations under this Act, **an IESO** Successor ~~IESO~~ shall **immediately** be established **by Her Majesty in right of Ontario** to perform such obligations.

~~21~~[18] Under consideration, including the dealers' request for a "servicer guarantee" and a "contractual guarantee" to address a "Change of Law" or if all or a portion of the legislation is *ultra vires*, requiring (at the lenders option), the Province to pay principal and interest on the outstanding debt until maturity or payout the entire debt including any make-wholes. ⊥
In the event of a market disruption that renders it impossible to refinance debt when required (or where financing of amounts required to service the debt is not available because of a market disruption where the Financing Entity was relying on such further issuance of debt until the recovery is set to begin to fund interest), either the Province must step in and payout the debt or there must be the right to recover the debt from ratepayers as it becomes due, notwithstanding the intended rate cut.

(4) Compensation for Failure – Absolute Assignees shall be compensated by Her Majesty in right of Ontario for any losses suffered by them as a result of any failure by ~~the Lieutenant Governor in Council~~Her Majesty in right of Ontario to comply with its undertakings and agreements in this Article 11.~~22~~19

(5) No Wind-up of Financing Entity. No Financing Entity may be voluntarily wound up, liquidated or dissolved until one year after all of its Funding Obligations are repaid. [NTD: This concept can be contained in the Regulations.]

(6) References to the Undertaking and Agreement – Any non-confidential reference to the Undertaking of the ~~Lieutenant Governor in Council~~Her Majesty in right of Ontario, including in marketing materials and other documentation authorized for use by the Administrative in connection with any Funding Obligation, may be made provided that [*Add conditions to protect the Province*].

Article 12 – Regulations

Regulations may be made under this Act for the purposes described in Sections •,•,• and • and may be promulgated for any of the following purposes:

(a) to set standards and measures regarding the commercially reasonable requirements of the Province associated with an Absolute Assignee incurring Funding Obligations or becoming obligated to pay any Finance Amount, including to establish guidelines regarding all-in funding costs; permitted Additional Funding Charges; required maturities and redemption and termination rights of Funding Obligations; liquidity requirements, in each case to a Financing Plan that is consistent in its effect with the Fair Allocation Plan;

(b) to establish and empower one or more regulated entities to undertake decision-making activities with respect to this Act;

(c) to set out reasonable requirements regarding the appointment or retention of advisors, agents, service providers, contract counterparties, including in relation to 'market terms and conditions' parameters;

(d) to provide for audit and compliance standards applicable to those persons who are or may become obligated or have duties that arise under this Act [or under any Funding Obligation];

(e) to provide for any pre-vetting and approval requirements in relation to any incurrence by an Absolute Assignee of any Funding Obligation or obligation to pay any Finance Amount; and

(f) to provide for appeal and due process considerations in connection with the establishment, adoption, implementation and review of the Fair Allocation Plan or the Financing Plan.

Article 13- Miscellaneous~~23~~20

~~22~~19 Requested by ~~Torys~~Dealers. For discussion.

~~23~~20 OPG would like the specific amendments related to OPG to be included in the Bill.]

(1) **Choice of law** – The law governing, as applicable, the validity, enforceability, attachment, perfection, priority and exercise of remedies with respect to the transfer of an interest or right or creation of a security interest in the Regulatory Asset, any Transition Charge or the Undertaking of the Province shall be the laws of the Province.

(2) **Conflict of law** – In the event of conflict between this Act and any other law of the Province regarding the attachment, assignment or perfection, or the effect of perfection, or priority of any Disposition or Pledge, this Act shall govern to the extent of the conflict.

(3) **No further acts or approvals required** - Notwithstanding any provisions of any law of the Province to the contrary, no approvals, notices or authorizations other than those specified in this Act shall be required with respect to the actions to be taken in compliance with this Act, including under the Financing Plan or in relation to the establishment of the Fair Allocation Plan, and the transactions and contracts authorized in or contemplated by this Act or the Financing Plan, including the incurrence of any Funding Obligation, any Disposition, any Pledge or in the payment and performance of any attendant or incidental contract and any related expenses incurred to facilitate the preparation and implementation of the Financing Plan.

(4) **Effect of invalidity after the Incurrence of any Funding Obligation** - Effective on the date that a Funding Obligation is incurred under this Act, if any provision of this Act is held to be invalid or is invalidated, superseded, replaced, repealed or expires for any reason, that occurrence shall not affect any action allowed under this Act that is taken by any person who is or may become obligated or have duties that arise under this Act and any such action shall remain in full force and effect.

(5) **Severability** - If any Article, Section, paragraph or subparagraph of this Act or the application thereof to any person, circumstance or transaction is held by a court of competent jurisdiction to be unconstitutional or invalid, the unconstitutionality or invalidity shall not affect the constitutionality or validity of any other Article, Section, paragraph or subparagraph of this act or its application or validity to any person, circumstance or transaction, including the irrevocability of Transition Charges, the validity of the Regulatory Asset, the incurrence of any Funding Obligation, any Disposition, any Pledge, or the collection and recovery of Transition Charge Collections. To these ends, the Legislature hereby declares that the provisions of this Act are intended to be severable and that the Legislature would have enacted this Act even if any Article, Section, paragraph or subparagraph of this Act held to be unconstitutional or invalid had not been included in this Act.

Schedule 1

Schedule 2

Requirements Applicable to Alternative Invoicing Agent/ Alternative Collection Agent

[To be considered.]

Schedule 3[24]

Principles and Parameters for Establishing the Financing Plan

The following principles and parameters provide a guideline as to what a Financing Plan should address:

~~(1)~~ ~~in respect of each Reference Period, make reference to the allocations of Future Fair Share of Green Transition Benefits to each Reference Group contemplated by the Fair Allocation Plan;~~

~~(2)~~ ~~estimate IESO Funding Shortfalls for each Reference Period;~~

~~(3)~~ ~~consider alternative funding arrangements suitable to fund the estimated IESO Funding Shortfalls, including short term and/or long term Funding Obligations;~~

(1) ~~(9)~~ consider quantities, maturities, payment obligations, prepayment or redemption rights and such other features of Funding Obligations so that payments made for a Reference Period reasonably correspond to the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

(2) ~~(4)~~ if the anticipated amount of any Repayment (together with payments of other Finance Amounts) to be made in respect of a Reference Period would materially exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable ~~Retail Consumer Group~~**Regulated Consumers** under the then current Fair Allocation Plan, diligent efforts should be made to determine whether a Refinancing or deferral of such Repayment may be reasonably and cost-effectively effected based on then prevailing market terms, conditions an circumstances;

(3) ~~(5)~~ reflect the assumptions and requirements specified in any contemplated Funding Obligation (e.g., any limit on the maximum amount of Transition Charges charged to a hypothetical ~~Retail~~**Regulated** Consumer relative to his or her monthly electricity bill, as prescribed by any rating agency that ascribes its credit rating to or in respect of the Funding Obligation **[having regard to the application of the ~~Allocation~~Attribution Methodology][NTD: Are the words in square brackets necessary?]**);

(4) require the Financial Services Manager, for and on behalf of each Regulatory Asset Owner, to use diligent efforts to manage Finance Amounts to be borne by Ratepayers;

(5) include a proposal regarding the compensation of the Financial Services Manager that reflects market terms and conditions; and

(6) ~~incur Funding Obligations from time to time on the best terms available at such time for a financing transaction of the size and type contemplated, and having regarding to the following parameters:~~**require that the Financial Services Manager report annually to**

[24] ~~Awaiting input from Torys based on OPG mark-up of Financing Plan sections.~~

the Ministry of Energy on the operation of the Financing Plan including, in particular, with respect to the amount and terms of the Funding Obligations incurred and the sufficiency of such Funding Obligations for the purpose of funding the estimated Funding Shortfalls in accordance with the Fair Allocation Plan.

~~a. whether the Absolute Assignees will require committed access to short term liquidity to cover estimated IESO Funding Shortfalls prior to incurring fixed term Funding Obligations, and the amount and repayment terms of any such required liquidity; provided that any Repayment required to be made under the terms of such short term liquidity would not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;~~

~~b. the basis upon which the Financial Services Agent will select the term to maturity of any other Funding Obligations; provided that any Repayments required to be made under the terms of such Funding Obligations should not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;~~

~~c. the basis upon which the interest rates applicable to such Funding Obligations would be determined;~~

~~d. the reference capital or finance market in which such Funding Obligation would be incurred, including markets outside of Canada if considered by the Financial Services Agent to be appropriate in the circumstances;~~

~~e. the currency of payments under such Funding Obligations and, if the Funding Obligations are denominated in a currency other than Canadian dollars, the basis upon which the Financial Services Agent shall cause the applicable Absolute Assignee to enter into hedging transactions to mitigate currency risk, including acceptable minimum and maximum coverage levels, having regard to the availability of related derivatives having notional amounts corresponding to the repayment and maturity profile of such Funding Obligations;~~

~~f. the basis upon which the Financial Services Agent will select counterparties under any transaction to be entered into by an Absolute Assignee, including any paying agent, servicer, cash manager, liquidity provider, hedge counterparty, account bank, lender, note trustee, security trustee, paying agent, registrar/transfer agent, financial services agent, arranger or manager;~~

~~g. the basis upon which the Financial Services Agent will manage counterparty risk, including by providing for maximum counterparty exposure limits having regard~~

to concentration, credit and other identified risks with respect to individual counterparties or countries;

h. the basis upon which the Financial Services Agent will negotiate and settle Finance Amounts, including the amount of any Redemption Amounts, Finance Reserve Deposits and Additional Funding Charges;

(7) the basis upon which Funding Obligations may be redeemed, prepaid, repurchased or otherwise affected, having regard for the need to minimize debt service charges and other Funding Costs, and the need to maintain a stable funding platform to finance the IESO Funding Shortfalls from time to time on a basis that is consistent with the allocations of Future Fair Share of Green Transition Benefits to applicable Reference Groups under the Fair Allocation Plan;

(8) the basis upon which any Repayments, Funding Costs and Redemption Amounts will be paid, including any defeasance, sinking fund or through other reserves or liquidity facilities;

(9) the basis upon which fees, charges, expenses, costs, indemnities, reimbursements and other amounts payable to or for the benefit of the Financial Services Agent and other agents and service providers to the Absolute Assignees may be determined, allocated and paid;

(10) the timing and basis upon which Finance Reserve Deposits and Finance Reserve Withdrawals may be made;

(11) the basis upon which any obligations for any other Additional Funding Charges may be incurred and paid;

(12) the basis upon which the cash flows arising from time to time or otherwise derived from the Regulatory Asset may otherwise be applied, including in relation to any counterparty enforcement and realization scenario;

(13) the transmittal to [the IESO] of information related to the amounts to be included in the determination of the Period Transition Charge for a Reference Period;

(14) the basis upon which any Disposition may be made or effected by an Absolute Assignee, including parameters for determining the purchase price for the interest in the Regulatory Asset that is the subject matter of such Disposition, and any consents and releases that may be usefully obtained in connection with such Disposition;

(15) describe the requirements applicable to any special purchase entity that will purchase an Investment Interest, including proposed capitalization, governance, and restrictions on their powers and activities; and

(16) the basis on which any Pledge may be given or effected.

Fair_Hydro_Act Torys_Osler Mark-up April 11 2017 Draft (Torys-Oslers_Apr....pdf

CONFIDENTIAL AND PRIVILEGED

Preliminary Draft for Discussion Purposes Only

"Fair Hydro Act"

Article 1 – Purpose

The Province has and continues to encourage the construction and development of facilities for the long-term operation and generation of electricity in the Province using sustainable, lower carbon-based technologies such as new gas-fired generation, renewable facilities, energy from waste and biomass, including under the Province's various procurement, standard offer, feed in tariff and other similar programs (the "Green Generation Initiative"). The long-term benefits of the Green Generation Initiative accrue over time and have benefited and will continue to benefit present and future electricity consumers in the Province.

The out-of-market costs of the Green Generation Initiative are currently passed through to electricity consumers by way of a monthly adjustment amount (the "Green Costs Adjustment"), which in turn forms part of the overall adjustment calculated by the Independent Electricity System Operator ("IESO") pursuant to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* (the "Global Adjustment").

The Green Costs Adjustment is currently determined each month by reference to the amounts paid by IESO to the generators of electricity in the Province under the Green Generation Initiative. These amounts paid by the IESO arise because IESO has entered into long-term procurement contracts with such generators in order to provide them with revenue certainty, and in turn to encourage the generators to develop technologies and to construct and develop facilities consistent with the Green Generation Initiative. **[NTD: This statement is not correct in respect of all IESO procurement contracts.]** It has been determined that the useful lives of many of the assets developed under the Green Generation Initiative will be in excess of the respective terms of their respective procurement contracts.

Since the benefits to past, present and future electricity consumers from the Green Generation Initiative will not necessarily coincide with the costs currently attributed through the Green Costs Adjustment, based on the respective terms of the applicable procurement contracts, it has been determined that the rate at which the costs associated with the Green Generation Initiative should be passed through to Regulated Consumers (as defined in Article 2) should be more closely aligned with the benefits that such Regulated Consumers have derived and are expected to derive from the Green Generation Initiative over time. This realignment will be based on general principles and parameters that establish a reasonable basis for measuring and allocating the relative costs and benefits of the Green Generation Initiative equitably across present and future Regulated Consumers (the "Fair Allocation Plan"). **[NTD: There is no explanation as to why realignment is limited to Regulated Consumers.]**

If the Fair Allocation Plan determines that the equitable allocation of the costs associated with the Green Generation Initiative to the Regulated Consumers of a particular time period should be reduced below the amount that currently would be charged based on the Green Costs Adjustment, then the amount payable by such Regulated Consumers and in turn available to IESO will, in the aggregate, be less than the amount payable by the IESO to the generators in

respect of such period. In this case, IESO will need to obtain funding from another source to cover such a shortfall. If a funding obligation is incurred to cover such a shortfall during any period, the repayment of such funding obligation will be required in a future period, and any related repayments, finance costs, hedging costs and other transaction costs incurred will become payable in future periods. In order for IESO to obtain a reliable and committed source of cash flows to enable IESO to repay such funding amounts when they become due and payable, this Act imposes irrevocable and non-bypassable financial obligations on Regulated Consumers to pay amounts incurred in respect of such funding obligations when they become due and payable and establishes a right to invoice and collect such amounts. The right and interest in and to collect such financial obligations will take the form of the Regulatory Asset contemplated in this Act, which will constitute property rights and interests. Interests in the Regulatory Asset may be sold and absolutely assigned by IESO to one or more financing entities, which in turn will finance their acquired interests by incurring funding obligations. The incurrence and payment of such funding obligations will be administered on behalf of such financing entities by a financial services manager under the Financing Plan contemplated in this Act.

[NTD: Our strong preference is to limit the introduction to the next paragraph and move defined terms from the previous paragraphs to Article 2]

The purpose of this Act is to establish the basis upon which intergenerational fairness can be achieved by charging the costs and benefits of the Green Generation Initiative to present and future Regulated Consumers on an equitable and cost effective basis.

Article 2 – Definitions

In this Act: **[NTD: It would be preferable to use plain language definitions in the legislation and leave the more detailed definitions to either the regulations or the agreements contemplated hereunder.]**

> "Absolute Assignee" means a person to whom a Regulatory Asset Owner effects a Disposition other than as security.
>
> "Actual" means, in relation to costs, expenses or payments in respect of Funding Obligations during a Reference Period, the actual amount of such costs, expenses or payments paid or made (net of any Finance Reserve Withdrawals applied to pay such amounts), which amounts shall be recorded by the Financial Services Manager whose records shall be determinative for the purposes of this Act except to the extent of a manifest calculation error.
>
> "Additional Funding Charges" means, for a Reference Period, the fees, charges, expenses, costs, indemnities, reimbursements and other amounts (including any applicable tax amounts) that are or become payable by or on behalf of the Absolute Assignee during the Reference Period and that were incurred or committed to directly or indirectly by the Absolute Assignee in connection with the incurrence of Funding Obligations under the Financing Plan (whether at the time of such incurrence or over the term of the Funding Obligation and whether directly or indirectly), including without limitation such amounts as may be prescribed.
>
> **[NTD: See section 5(11). Remove this concept globally.]**

"Alternative Servicer" means a person appointed under Section 4(8) to assume the obligations of the Servicer under Article 4, as agent for and on behalf of the Regulatory Asset Owners. **[NTD: We see this, in effect, as the same thing as the IESO Successor; that is, replacement of the master Servicer.]**

"Assessed Past Green Transition Costs" means, in respect of a Measurement Date, the aggregate of the imputed costs of the Green Generation Initiative (expressed as an equivalent to current dollars), as reflected in the calculation of the Green Costs Adjustment, which have been charged to Retail Customers through the Global Adjustment on or prior to the Measurement Date.

"Attribution Methodology"[1] means the methodology specified in the Fair Allocation Plan for allocating the Period Finance Charges for a Reference Period to Regulated Consumers. **[NTD: We understood that the Ministry accepted that the transition charge would be a volumetric rate.][NTD: Can be moved to Regulations.]**

"Collected Amount Adjustment" means, in respect of a True-Up Period, the amount (which may be a negative amount) calculated by the Servicer or the Financial Services Manager, as applicable, equal to (a) the Estimate of the Finance Amount for the True-Up Period, minus (b) the sum of all Transition Charge Collections for the True-Up Period.[2]

"Collective Rights Agreement" means an agreement among all of the Regulatory Asset Owners (including each Absolute Assignee), each Pledgee, and the Financial Services Manager that governs the enforcement of their respective rights and interests in, to and under the Regulatory Asset on a coordinated and collective basis. **[NTD: Move to Regulations.]**

"Delegate" means any of the following person or persons designated in writing from time to time by the Minister of Energy to undertake the actions and perform the responsibilities ascribed to the "Delegate" under this Act: ●. **[NTD: Why is this delegation of authority necessary? This requires further discussion and clarity as to which entity or entities that the Province can select as the Delegate; for example, it would not be acceptable for the Province to select the OEB to be the Delegate. If this is required, an acceptable delegate would be a stakeholder committee comprised of representatives from the Ministry of Energy, the OEB, the IESO, and OPG. In addition, the regulation should prescribe how the stakeholder committee would operate.]**

"Disposition" means an assignment, transfer, conveyance, sale, contribution, set-over, exchange or other disposition of (a) IESO's right to recover all or any portion of an IESO Funding Shortfall or (b) an Investment Interest to an Absolute Assignee, in each case pursuant to a Disposition Document.

---

[1] This allocation may be volumetric or some combination of a flat amount and a volumetric charge. Further discussion is required. H&W has raised a concern regarding possible adverse changes after the fact and rating agency considerations. Consider whether hard-coding in the legislation makes sense.

[2] This would pick up adjustments based on actual collection experience, changes in the Regulated Consumer base, changes in the actual costs (versus earlier estimates) included in the Transition Charge calculation, etc.

"Disposition Document" means the agreement, deed, conveyance, instrument or other document under which IESO or an Absolute Assignee effects a Disposition to an Absolute Assignee.

"Electricity Distributor" means a rate regulated distributor licensed under Part V of the *Ontario Energy Board Act, 1998*, together with and its successors.

"Electricity Distributor Remittances" means, for an Electricity Distributor on a Remittance Date, all Transition Charge Collections received or deemed to be received **[NTD: estimated to be received? will each Electricity Distributor know?]** by the Electricity Distributor prior to the Remittance Date and that have not otherwise been remitted to Servicer or if applicable the Alternative Collection Agent in accordance with Section 5(3), including the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5.

"Electricity Invoice" means an invoice issued by an Electricity Distributor (or in its stead, by an Alternative Collection Agent), by the Servicer or by a Retailer, in each case to a Regulated Consumer that is served by the Electricity Distributor's distribution system in respect of electricity charges, including the cost of electricity, delivery and regulatory charges and related services and amounts incurred, assessed or charged in respect of connectivity to such Electricity Distributor's distribution system and in respect of applicable Transition Charges to be charged to the Regulated Consumer under this Act. **[NTD: The Alternative Servicer should only invoice for Transition Charges, not the entire invoice. Also, to avoid confusion, we suggest using the word "invoice" in reference to what the IESO sends out to distributors, and "bills" in reference to what distributors send out to consumers.]**

"Estimate" means (a) in relation to costs, expenses or payments in respect of Funding Obligations or any Finance Amount for a Reference Period, the estimated amount of such costs, expenses or payments determined by the Financial Services Manager; and (b) in relation to an assessment of the benefits of the Green Generation Initiative to Regulated Consumers, the estimated value (in current dollars) of such benefits determined by the Delegate, in each case having regard to the applicable principles and parameters set out in Schedule 1, which estimated amounts shall be determinative as the applicable estimate for the purposes of this Act except to the extent of a manifest calculation error.

"Estimated Future Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that are expected to accrue to Regulated Consumers from the establishment and implementation of the Green Generation Initiative during the period from the Measurement Date to the Program-End Date.

"Estimated Past Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that have accrued to Regulated Consumers from the establishment and implementation of the Green Generation Initiative up to and including the Measurement Date.

"Fair Allocation Plan" has the meaning given in Article 1.

"Finance Amount" means, for a Reference Period, the sum (without duplication) of the following amounts that are or become payable during the Reference Period in respect of all Absolute Assignees: (a) Repayments; (b) Net Funding Costs; (c) Redemption Amounts; (d) Finance Reserve Deposits; and (e) Additional Funding Charges.

"Finance Reserve Deposits" means, for a Reference Period, the amount by which (a) deposits made or to be made during the Reference Period in order to pre-fund, collateralize, over-collateralize or establish reserves for the ultimate payment of Funding Obligations or for related contingencies specified in the Financing Plan, exceed (b) any Finance Reserve Withdrawals. **[NTD: Move this to regulation.]**

"Finance Reserve Withdrawals" means, for a Reference Period, the amount withdrawn during the Reference Period from deposits previously made to pre-fund, collateralize, over-collateralize or establish reserves for the payment of Funding Obligations or to pay amounts in respect of related contingencies that had been specified in the Financing Plan. **[NTD: Move this to regulation.]**

"Financial Services Manager" means OPG or, following any Replacement Event involving OPG, such other person who may be appointed as the financial services manager of the Absolute Assignees under the Financing Plan in compliance with the requirements set out in Schedule 2.[3]

"Financing Entity" means any entity established at the initiative of and managed by the Financial Services Manager to support the Financing Plan.[4]

"Financing Plan" means the written plan prepared by the Financial Services Manager in accordance with Article 9, as the same may be amended, amended and restated or terminated by the Financial Services Manager in accordance with Article 9 from time to time.

"Funding Obligation" means, in respect of an Absolute Assignee, each payment obligation (including, without limitation, each obligation to pay: principal, interest, premiums and other financing charge payments; pass-through payments; payment obligations arising under or in respect of derivatives; payment obligations owing to service providers, Financial Services Managers, finance entity intermediaries, capital markets intermediaries, advisors, lenders, credit enhancement providers, liquidity providers, disbursement counterparties, regulatory agencies and rating agencies; and all Additional Funding Charges) incurred by or on behalf of the Absolute Assignee under

---

[3] There must only be one Financial Services Manager.

[4] MOE to confirm that the legislation will provide that any Financing Entity that is a wholly-owned subsidiary of OPG (1) would not be subject to Part VI of the *Electricity Act* (Ontario) and (2) in the case of any Financing Entity that is a trust, any income of such trust (for purposes of the *Income Tax Act* (Canada) or the *Taxation Act, 2007* Ontario)) which is paid or made payable to OPG or a wholly-owned subsidiary of OPG as a beneficiary of such trust will not be taken into account in calculating the amount of a payment required to be made by OPG (or such subsidiary) by section 89 or 90 of the Electricity Act.

the Financing Plan, including any Refinancing of another such payment obligation incurred by or on behalf of such Absolute Assignee.

"Future Fair Share of Green Transition Benefits" means, in respect of a Measurement Date, the sum of (a) the Over-Assessed Amount; and (b) the Estimated Future Green Transition Benefits, in each case as of the Measurement Date.

"Global Adjustment" has the meaning given in Article 1.

"Green Costs Adjustment" has the meaning given in Article 1.

"Green Generation Initiative" has the meaning given in Article 1.

"IESO" means the Independent Electricity System Operator created pursuant to Part II of the *Electricity Act, 1998*.

"IESO Electricity Distribution Receipts" means, for a month, the sum of all amounts payable by Electricity Distributors to IESO , during the month pursuant to section • of the *Electricity Act* in respect of Regulated Consumers. **[NTD: IESO indicates that it likely does not work to express in regards to "amounts payable by the LDCs" because settlement between the IESO and LDCs entails payments by LDCs to the IESO and then credits/debits by the IESO to LDCs to reflect RPP shortfalls/overages.]**

"IESO Funding Shortfall" means, for a month, the amount, if any, by which (a) the IESO Electricity Distribution Receipts that would be payable to IESO for the month if determined without regard to this Act and without regard to the changes made to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* with respect to the Global Adjustment concurrently with this Act, exceeds (b) the IESO Electricity Distribution Receipts payable to IESO for the month[5].To the extent reasonably necessary to give effect to this Act, or any transaction contemplated hereby, IESO shall calculate the IESO Funding Shortfall for any month taking into account information provided by the Electricity Distributors and (i) such calculation shall be binding for all purposes; and (ii) any demonstrated inaccuracy in the calculation for any month (including any such resulting from inaccuracies in the information provided by Electricity Distributors) shall be accounted for by adjusting the IESO Funding Shortfall for a subsequent month. **[NTD: Need to add the mechanism for IESO to record this shortfall because without that there is no Regulatory Asset. This IESO Funding Shortfall is the regulatory asset owned by IESO.]**

"IESO Remittances" means, for a Settlement Date, all Electricity Distributor Remittances received by IESO or if applicable the Alternative Collection Agent prior to the Settlement Date and that have not otherwise been remitted to the Regulatory Asset Owners (each with respect to its Regulatory Asset) in accordance with Section 5(6), including the proceeds of any enforcement action undertaken by IESO or if applicable the Alternative

[5] This has been recast to recognize that the shortfall in the first 4.5 years could exceed the entire GA amount. A more refined approach to describing the concept may be considered.

Collection Agent to recover payment of amounts payable by Electricity Distributors to IESO in accordance with Article 5.

"IESO Successor" means the entity appointed by the Province to succeed to the rights and obligations of IESO as the entity responsible for managing the Province's electricity system.

"Investment Interest" means an ownership interest in, to or under the Regulatory Asset that is acquired by an Absolute Assignee pursuant to a Disposition.

"Investment Remittance" means, for a month, the lesser of (a) the aggregate amount of all IESO Remittances for the month, and (b) the sum of the Funding Obligations due and payable by all Absolute Assignees in respect of the month.

"Measurement Date" means [Insert relevant date around the Legislation Implementation Date] and any other date specified as such under the Fair Allocation Plan.

"Net Funding Costs" means, for a Reference Period in respect of a Financing Entity, the amount by which (a) the aggregate of all interest, scheduled principal and other periodic finance charges accruing due and becoming payable or paid by or on behalf of the Absolute Assignee during the Reference Period in respect of its Funding Obligations, including such amounts as may be prescribed, exceeds (b) the aggregate of all amounts received by or on behalf of the Absolute Assignee during the Reference Period in respect of the Funding Obligations referred to in (a), including such amounts as may be prescribed.

"OEB" means the Ontario Energy Board, together with its successors.

"OPG" means the corporation incorporated as Ontario Power Generation Inc. under the *Business Corporations Act* on December 1, 1998, together with its successors.

"Over-Assessed Amount" means, in respect of a Measurement Date, the amount (if any) by which (a) the Assessed Past Green Transition Costs, exceeds (b) the Estimated Past Green Transition Benefits, each as determined as of the Measurement Date.

"Period Finance Charges" means, for a Reference Period, the sum of (a) the Estimate of the Finance Amount (b) the True-Up Amount in respect of the applicable True-Up Period and (c) an adjustment amount as may be prescribed to account for estimated collection shortfalls and collection delays in respect of amounts under (a) and (b).

"Pledge" means, in respect of an Investment Interest of an Absolute Assignee, a lien, mortgage, charge or security interest granted to or in favour of a Pledgee by the Absolute Assignee in, to and over all or a specified portion (including a specified portion on a divided basis or by way of an undivided interest) of the Investment Interest.

"Pledgee" means a person to whom an Absolute Assignee grants a Pledge.

"Program End Date" means •, [2047].

"Province" means the Province of Ontario.

"Redemption Amount" means the amount payable by or on behalf of an Absolute Assignee to redeem, prepay or repurchase a Funding Obligation incurred by or on behalf of the Absolute Assignee, including any premium, make-whole or other additional amount becoming payable under the Funding Obligation to give effect to such redemption, prepayment or repurchase.

"Reference Period" means (a) the period from (and including) the Measurement Date to (and including) October 30, 2017, (b) each six month period commencing [May 1st and November 1st] thereafter and (c) any other period specified as such in the Fair Allocation Plan.

"Refinancing" means, in respect of a Funding Obligation incurred by or on behalf of an Absolute Assignee, that the Funding Obligation is repaid or repurchased for cancellation by or on behalf of the Absolute Assignee by applying the net proceeds obtained by the Absolute Assignee incurring one or more other Funding Obligations.

"Regulated Consumer" means consumers of electricity in the Province as prescribed.

[NTD: There are a number of issues with this definition. First, the word "Retail" is a source of confusion as it implies customers of licensed retailers. Really, the purpose of the term is to define the group of consumers that are eligible to receive the benefit of the Fair Hydro program and who will bear the cost of the program over the long term. We have proposed "Regulated Consumer" but you could also use the term "Eligible Consumer" or "Fair Hydro Eligible Consumer" and for purposes of the legislation to say that it is a member of a class of consumers prescribed by the regulations for purposes of the relevant section of the legislation. The regulation would then describe who is in the class. Second, it may not be appropriate to rely on the class of consumers prescribed for the purposes of s. 79.16 or under the OREC Act. Section 79.16 is the section that defines the class of RPP consumers. We understand that the "Fair Hydro Eligible Consumers" are not an identical class to that which is eligible for the RPP or for the Ontario Rebate for Electricity Consumers. For example, we have heard that Fair Hydro Eligible Consumers will (a) exclude consumers served by independent power authorities (certain remote communities not served by Hydro One Remotes), and (b) include consumers served by licensed unit sub-metering providers, licensed retailers and certain consumers served directly by the IESO (which may or may not be captured by the classes under 79.16 or OREC). Third, it is not clear why consumers with contracts with retailers who use retailer consolidated billing are removed from the first part of the definition but then added back into the second part of the definition. Fourth, Retailers do not necessarily have physical electricity assets that would be connected to the grid. Some just sell or offer contracts for electricity. As such, the first few lines after (b) are problematic. Fifth, the phrase "purchase electric generation services from a provider of electric generation services other than the owner of the Province's transmission and distribution system assets" does not make sense. A consumer does not purchase generation services from a transmitter or distributor. Rather, a consumer receives distribution services from a distributor. In addition to charging for its distribution services, the distributor also charges the associated

transmission costs and commodity costs associated with the volumes delivered. Those commodity costs are the price of the electricity itself and are almost entirely made up of the amounts determined under the global adjustment. Sixth, the phrase "whether or not the transmission and distribution system assets continue to be owned or operated by Electricity Distributors or operated by IESO" does not make sense. Transmission assets are owned and operated by transmitters. Distribution assets are owned and operated by distributors. The IESO does not own but does administer and direct the operation of the transmission system.]

"Regulatory Asset" means the property rights and interests described in Section 6(1), which collectively is comprised of each Investment Interest.

"Regulatory Asset Account" means (a) for an Electricity Distributor, any bank account into which the Electricity Distributor deposits or receives Transition Charge Collections; and (b) for the Servicer, any bank account into which Servicer deposits or receives Transition Charges, Electricity Distributor Remittances or IESO Remittances.

"Regulatory Asset Owner" means each Absolute Assignee, as owner of its Investment Interest or Investment Interests, and "Regulatory Asset Owners" means collectively each such Absolute Assignee, who together own the entirety of the Regulatory Asset and are required to exercise their individual rights of ownership in accordance with Section 6(7).

"Related Rights" means, with respect to a Regulatory Asset Owner's Investment Interest, all rights of any kind (whether in tort, contract or otherwise) that attach or are attendant or incidental to any of the other property rights or interests that comprise such Investment Interest.

"Remittance Date" means, in respect of an Electricity Distributor, each day on which it is required to remit Electricity Distribution Remittances to Servicer or if applicable the Alternative Collection Agent as specified in accordance with any Funding Obligation or, if no such day is specified in accordance with any Funding Obligation, then the Business Day **[NTD: Not defined.]** preceding each Settlement Date. **[NTD: Move to Regulations. Remittances will be in accordance with the current rules.]**

"Repayment Obligation" means an obligation to repay or to provide for the repayment (including by making a related Finance Reserve Deposit) of, all or a portion of the amount advanced to the Absolute Assignee under a Funding Obligation.

"Repayment" means a payment by an Absolute Assignee made to satisfy a Repayment Obligation, other than to the extent that the payment is made by applying the proceeds of a Refinancing or from Finance Reserve Withdrawals.

"Replacement Event" means any event specified as such in a Funding Obligation.

"Retailer" means a person who is licensed under Part V of the *Ontario Energy Board Act, 1998* to retail electricity.

"Retailer Consolidated Billing" has the same meaning as in the *Retail Settlement Code* issued by the Ontario Energy Board.

"Servicer" means IESO or IESO Successor, as agent for and on behalf of the Regulatory Asset Owners, for the purposes set forth in Article 4.

"Settlement Date" means the [last Business Day of any month].

"Transition Charge" means, the amount recoverable from a Regulated Consumer in respect of a Reference Period, being the Period Finance Charge as allocated to such Regulated Consumer in accordance with Article 4(3) on a monthly basis. **[NTD: This needs to be grossed up to account for variability associated with expected uncollectables and remittance delays.]** **[NTD: Do not need to create parallel process. The definition should be linked to the OEB process for determining the volumetric rate as part of the RPP process (see s. 4(2)). The OEB will determine volumetric rate based on forecast consumption, number of consumers, etc. to recover the Period Finance Charges.]**

"Transition Charge Collection" means any amount received **[or deemed by this Act to have been received]** by the Absolute Assignees upon the collection of a Transition Charge paid by or on behalf of a Regulated Consumer, including any proceeds arising from the exercise and enforcement of any related rights and interests under or in respect of the Regulatory Asset.

"True-Up Amount" means, in respect of a Reference Period, the amount (which may be a negative amount) calculated by the Financial Services Manager equal to (a) the Actual Finance Amount for such related True-Up Period, minus (b) the Estimate of the Finance Amount for the related True-Up Period, , plus (c) the Collected Amount Adjustment for such related True-Up Period. **[NTD: need to discuss how this will work for our true-up. What about prior period shortages? An example of how this works needs to be provided.]**

"True-Up Period" means, in relation to a Reference Period, the immediately preceding Reference Period.

"Undertaking of Her Majesty in right of Ontario" means the undertaking of Her Majesty in right of Ontario given under Section 11(2).

Article 3 – Transition Charges

(1) **Regulated Consumer Obligation to Pay a Transition Charge** – Each Regulated Consumer shall pay each Transition Charge charged to it in any Electricity Invoice issued to such Regulated Consumer by its Electricity Distributor or by an Alternative Servicer under Section 4(1), in each case on the terms of payment specified in the related Electricity Invoice.

(2) **Indebtedness of Regulated Consumers** – Until paid, a Transition Charge charged to a Regulated Consumer in an Electricity Invoice shall, together with any applicable late payment fees and finance charges arising under the terms of the Electricity Invoice with respect to such Transition Charge, constitute non-bypassable indebtedness of the

Regulated Consumer to the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset. Such indebtedness shall constitute a single and separate[6] debt obligation owing by the Regulated Consumer, which subject to Article 5 may be enforced independently from any other payment obligation or indebtedness owing by the Regulated Consumer under the Electricity Invoice or otherwise.[7]

(3) No Set-Off or Reduction – A Regulated Consumer may not set-off or reduce (by counterclaim, defense or otherwise) the amount payable by it in respect of any Transition Charge, including any set-off against or in respect of any amount owing or becoming payable to such Regulated Consumer by its Electricity Distributor, any Regulatory Asset Owner or any other person.

(4) Allocation of Regulated Consumer Payments – If an Electricity Distributor receives a payment made by or on behalf of a Regulated Consumer in respect of amounts due and payable under one or more Electricity Invoices that is less than the total amount payable thereunder, such payment shall be subject to rights and benefits that are no less favourable than the treatment accorded to other amounts payable to the IESO by the Electricity Distributor.

(5) Transition Charges are Irrevocable – The Transition Charges arising under or in respect of Funding Obligations (including any adjustments based on modifications to such Funding Obligations made in compliance with the Financing Plan or as a result of amendments to the Financing Plan made in accordance with Section 9(3)) are deemed to be irrevocable, final and effective without any further action, except to the extent of manifest calculation error. For greater certainty, a Transition Charge may include Finance Amounts for a Reference Period regardless of whether the payment of such Finance Amounts are inconsistent with the Fair Allocation Plan applicable at the time such payments are due and payable, and regardless of whether the related Funding Obligation was properly incurred under the Financing Plan. In no case shall a Funding Obligation incurred under the Financing Plan be affected by a subsequent amendment to the Fair Allocation Plan.

(6) True-Up of Transition Charges? – [NTD: Include specifics regarding the true-up of the charges and the process for the true-up, but move to Regulations. The True-Up Mechanism should require the Transition Charges to be reviewed and adjusted semi-annually to ensure the expected recovery of amounts sufficient to timely provide all payments in respect of Funding Obligations, provided that in some cases it may need to be adjusted more frequently than semi-annually, e.g., as part of a refinancing.]

(7) Commencement of Invoicing and Collection of Transition Charges – [NTD: Please confirm that as drafted, Transition Charges will begin on the Measurement Date.]

---

[6] Determine if this is critical for rating and markets. Logistics under consideration.

[7] Torys has also suggested that deemed conditions of licenses for distributors, retailers and unit sub-metering providers, could be included as conditions, to require them to collect and remit amounts in accordance with this legislation. Consider if it is helpful to integrate the existing regulatory scheme for invoicing and collections (regarding RPP) in the legislation.

Article 4 – Invoicing of Transition Charges [NTD: Move Article 4 sections (1) to (4) to Regulations. Also note, these sections remain subject to further due diligence by the Dealers.]

(1) **Inclusion of Transition Charges in Electricity Invoices** – Each Electricity Distributor and if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, specify the Transition Charge to be charged to a Regulated Consumer pursuant to Section 4(4) in respect of a related Reference Period in each Electricity Invoice issued by the Electricity Distributor or if applicable by the Alternative Servicer to the Regulated Consumer in respect of such Reference Period. Upon the inclusion of a Transition Charge in an Electricity Invoice, the obligation to pay such amount shall be binding on the applicable Regulated Consumer. **[NTD: Must capture bills issued to eligible consumers served by unit sub-metering providers, retailers and the IESO – not just distributors][NTD: This provision also needs to address the inclusion of Transition Charges in invoices from the IESO to the LDC, consistent with the current process of how the IESO bills LDCs.]**

(2) **Calculation of the Period Finance Charge** – Not later than [35] days prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services Manager on its behalf) shall provide the OEB with written notice of each Estimate of a Finance Amount payable by it or on its behalf in respect of the Reference Period. Not later than one month prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services Manager on its behalf) shall calculate the Period Finance Charge applicable to the Reference Period having regard to such amounts specified by the Servicer, which calculations, information and amounts shall be accepted by the OEB and shall be determinative, except to the extent of manifest calculation error or misstatement.

(3) **Calculation and Attribution of Transition Charges** – Not later than 25 days prior to the first day of a Reference Period, the OEB shall apply the Attribution Methodology to determine the allocation of the Transition Charge for each Regulated Consumer. **[NTD: We think the OEB would be determining the Fair Hydro recovery rate (on a volumetric basis) that distributors would then be required to charge to consumers]**

(4) **Notice of Transition Charges** – Not later than 20 days prior to the first day of a Reference Period, the OEB shall inform each Electricity Distributor and if applicable any Alternative Servicer of the Transition Charges to be specified in the Electricity Invoices to be issued to each Regulated Consumer who is served by the Electricity Distributor.

(5) **Adjustments** – The amount of any Transition Charge charged to a Regulated Consumer and specified as such in an Electricity Invoice shall be determinative of the amount of indebtedness created thereby and owing in respect of such Transition Charge, except to the extent of any manifest calculation error.

(6) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 4 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 4 to impose, attribute, charge, bill and invoice the Transition Charges.

(7) **IESO Successor** – Any IESO Successor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of IESO under Article 4 in the same manner and to the same extent as IESO, including the obligation to calculate and provide notice of Transition Charges.

(8) **Appointment of an Alternative Servicer** – If a Replacement Event occurs in respect of any Electricity Distributor, the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Servicer to perform some or all of the obligations and duties required to be undertaken by such Electricity Distributor under this Article 4, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Servicer shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor. Any Electricity Distributor that is replaced under this Section 4(8) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in the performance of such obligations and duties to the Alternative Servicer and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Servicer to perform such obligations and duties on behalf of the Regulatory Asset Owners. **[NTD: We would expect the IESO to manage this in accordance with its normal business practices.]**

(9) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, the Servicer, Alternative Servicer or any other person who may be authorized to issue Electricity Invoices to Regulated Consumers for a failure to impose, attribute, charge, bill or invoice Transition Charges or to otherwise comply with this Act. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure and may make any interim or final order it thinks fit in this regard. **[NTD: We would like to see the sections on "Standing" to bring an action to remain in the legislation (as opposed to being moved to the regulations as we believe we previously suggested) as we see those provisions as part of ensuring a rigorous enforcement scheme for the Financing Entity (and so something that should be difficult for the Province to change going forward).]**

(10) **No Set-Off or Reduction –** No Servicer or Electricity Distributor may set off or reduce (by counterclaim, defence or otherwise) the amount payable by it pursuant to this Article 4.

(11) **Regulations** – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Servicer to ensure that Transition Charges are properly charged to Regulated Consumers and specified as such in Electricity Invoices.

Article 5 – Collections and Remittances [NTD: Move Article 5 sections (3), (6), (9), (12), (13) and (14) to Regulations.]

(1) **Duty to Collect as Agent** – Electricity Distributors or if applicable any Alternative Collection Agent shall, as an agent of the Servicer, collect amounts owing by Regulated Consumers in respect of Transition Charges charged to such Regulated Consumers in

Electricity Invoices issued by the Electricity Distributor or if applicable such Alternative Collection Agent all in accordance with the Regulations. **[NTD: The obligation to collect and remit the Transition Charge should be included as a deemed condition of license for electricity distributors (and retailers and unit sub-metering providers).]**

(2) **Segregation of Transition Charge Collections** – An Electricity Distributor or if applicable any Alternative Collection Agent shall promptly segregate Transition Charge Collections from other payments received by it from Regulated Consumers and deposit such Transition Charge Collections into its Regulatory Asset Account.[8] **[NTD: Determine if this is critical for rating and markets or if segregation can occur in the hands of the IESO]** Prior to and following a deposit of Transition Charge Collections having been made into its Regulatory Asset Account, the Electricity Distributor or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners or its Pledgee.

(3) **Electricity Distributor Remittances** – On each applicable Remittance Date, an Electricity Distributor shall remit all amounts invoiced by the IESO on account of the Transition Charge in respect of the related Reference Period to or to the account of Servicer or if applicable the Alternative Collection Agent. **[NTD: It is the Dealers expectation that the Transition Charge will be paid on the same basis as other amounts invoiced by the IESO, failing which, they will need to be remitted daily.]**

(4) **Duty to Collect Electricity Distributor Remittances** – Servicer or if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, accept and collect Electricity Distributor Remittances from Electricity Distributors and Transition Charge Collections from Regulated Consumers that pay their Electricity Invoices directly to IESO on the same basis as it accepts and collects other charges from such Regulated Consumers.[9]

(5) **Segregation of Electricity Distributor Remittances** – Servicer and if applicable the Alternative Collection Agent shall promptly segregate Electricity Distributor Remittances from other payments received or held by it and deposit such Electricity Distributor Remittances into its Regulatory Asset Account. Prior to and following a deposit of Electricity Distributor Remittances having been made into its Regulatory Asset Account, Servicer or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners or Pledgee.

(6) **Servicer Remittances** – On each Settlement Date[10], Servicer shall remit all amounts on deposit in its Regulatory Asset Account to or to the account of the Absolute Assignees an amount equal to the Investment Remittance for the related month.

---

[8] Consider trying to attach to existing LDC credit enhancements and provide parallel coverage for customer losses.

[9] Consider building this obligation into a deemed condition of licence for the IESO.

[10] Consider frequency of remittances in light of rating requirements. US rating agencies favour daily remittances.

(7) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 5 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 5 to collect Transition Charges and make remittances of Electricity Distributor Remittances.

(8) **IESO Successors** – IESO Successors shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of IESO under Article 5 in the same manner and to the same extent as IESO, including the obligation to collect Transition Charge Collections, Electricity Distributor Remittances and to remit IESO Remittances.

(9) **Owners of Distribution Assets** - If any person other than an Electricity Distributor acquires distribution system assets in the Province or invoices or collects electricity distribution rates in the Province[11], then such person shall, if requested by the Absolute Assignees, be obligated to act diligently to (a) facilitate the invoicing and collection of any Transition Charges applicable to Regulated Consumers connected to such person's distribution system assets; (b) allocate partial payments by Regulated Consumers as provided in this Act; (c) exercise all enforcement rights of the Absolute Assignees for the benefit of an Absolute Assignee; and (d) remit any Transition Charge Collections to the Absolute Assignees or Pledgees, as applicable, each in accordance with its Investment Interest. **[NTD: Such acquisition of a distribution system would require the person to be an electricity distributor; consider deleting since this is covered off by Section 5(7).]**

(10) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, Servicer, the Alternative Collection Agent, any owner of electricity distribution system assets in the Province or any other person who may be authorized to collect electricity distribution and use charges from Regulated Consumers for a failure to collect Transition Charges, remit or collect Electricity Distributor Remittances or remit IESO Remittances, as and to the extent applicable under Article 5, or to otherwise comply with this Act. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure and may make any interim or final order it thinks fit in this regard.

(11) **Not Used. [NTD: The Servicer should manage this process.**]

(12) **No Set-off, etc.** - The Regulatory Asset, including rights in Transition Charges, Transition Charge Collections, and the interests of a Regulatory Asset Owner, an Absolute Assignee and a Pledgee therein, may not be setoff or reduced (including by counterclaim, surcharge or defense) by any Regulated Consumer, any Electricity Distributor, Servicer, Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or in connection with any default, bankruptcy, reorganization or other insolvency proceeding of any Electricity Distributor, Servicer,

[11] This is in anticipation of a possible future restructuring of the distribution system.

Alternative Collection Agent or any owner of distribution system assets in the Province, any affiliate or successor thereof or any other entity or otherwise.[12]

(13) **Sequestration** – If any Electricity Distributor, Servicer, the Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or entity authorized to collect Transition Charges, defaults on any required remittance of Transition Charge Collections, Electricity Distribution Remittances or IESO Remittances under Article 5, any court in the Province, upon application by and of the Absolute Assignees acting collectively under the Collective Action Agreement and without limiting any other remedies otherwise available to the Absolute Assignees or Pledgees, shall order the sequestration and payment of the Transition Charge Collections, Electricity Distribution Remittances and IESO Remittances, as applicable, for the benefit of the Absolute Assignees, each with respect to its Investment Interest, and the Pledgees as applicable.[13]

[NTD: Suggest considering a more typical remedy such as the ability to appoint a receiver. Concept should be moved to Regulations.]

(14) Regulations – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to Servicer, any Electricity Distributor or any Alternative Collection Agent to ensure that rights, interests, entitlements, benefits and proceeds in, to, under and from the Regulatory Asset are of fully realized by some or all of the Absolute Assignees and Pledgees.

Article 6 – The Regulatory Asset

[NTD: We believe that the statute should impose a time limit on the ability of IESO to create additional Regulatory Assets under this Act. It is our expectation that this will be no later than 10 years after the commencement of the program.]

[NTD: In addition, additional language is required to address the acquisition of the Regulatory Asset by the Financing Entity, including reference to the consideration being provided for it, funding upfront costs.]

[NTD: The sale of Regulatory Assets must be restricted to Financing Entities controlled by a single entity (initially, OPG).]

[NTD: For greater certainty, a Financing Entity will not be required to purchase Regulatory Assets from IESO.]

---

[12] Consider whether it makes sense to create a "deemed collection" payment obligation on Electricity Distributors to the extent a Regulated Consumer reduces its payment of Transition Charges, despite this language. Same for Electricity Distributor Remittances and IESO Remittances.

[13] Consider adding or substituting this provision for a right to appoint a receiver.

(1) **Composition** – The Regulatory Asset shall constitute a current and irrevocable property right and interest consisting, collectively, of the following rights and interests (without duplication):

a. the right of a Regulatory Asset Owner to record its portion of the Regulatory Asset in its accounts;

b. the right to impose, bill, invoice, collect and receive Transition Charges from Regulated Consumers, including the right to determine the amount of Transition Charges in accordance with this Act;

c. the right to enforce the obligations and indebtedness of each Regulated Consumer to pay the Transition Charges charged to the Regulated Consumer from time to time in accordance with Article 3, together with all related late payment fees or interest charges arising in respect thereof under the related Electricity Invoices; **[NTD: Do we really want and need the ability for the Financing Entities to chase after individual consumers?] [NTD: This should be the right to provide notices to the OEB of the amounts required for recovery, which the OEB would then be required to accept for purposes of determining the amount of Transition Charges to be charged to consumers]**

d. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Servicer to impose, attribute, charge, bill and invoice the Transition Charges in accordance with Article 4;

e. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Collection Agent to collect, receive and remit amounts received by it in respect of Transition Charges as Electricity Distributor Remittances to or to the account of Servicer or if applicable the Alternative Collection Agent in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5;

f. the right to enforce the duties and obligations of Servicer and if applicable the Alternative Collection Agent to collect and receive Electricity Distributor Remittances and to remit IESO Remittances to or to the accounts of the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset, in each case in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by it to recover payment of Electricity Distributor Remittances in accordance with Article 5;

g. the right to receive and collect all Transition Charge Collections, all Electricity Distributor Remittances and all IESO Remittances in accordance with Article 5;

h. all rights and entitlements under each Regulatory Asset Account and all amounts on deposit in any such Regulatory Asset Account;

i. all Related Rights; and

j. all revenue, collections, claims, payments, money and proceeds of or derived from the rights described in (a) through (i), regardless of whether such revenue, collections, claims, payments and proceeds are imposed, invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

A Regulatory Asset and the property rights and interests therein shall exist whether or not Transition Charges have been imposed, charged, invoiced, accrued or collected and notwithstanding that the imposition, attribution, invoicing and collection of Transition Charges will depend on further actions that may not have occurred. The Regulatory Asset shall continue to exist until all Funding Obligations and Additional Funding Charges have been paid in full.

(2) **Validity of Dispositions** – A Disposition by IESO of all or any part of the IESO Funding Shortfall to an Absolute Assignee, or a Disposition of all or any part of an Investment Interest by one Absolute Assignee to another Absolute Assignee made under the Financing Plan, shall be permitted and when made shall be valid and enforceable in accordance with the terms of the related Disposition Document and shall be effective to confer upon the Absolute Assignee thereof a valid property right and interest in, to and under the IESO Funding Shortfall or Investment Interest, as applicable (or relevant portion thereof) in accordance with the terms of such Disposition, provided that the parties to the applicable Disposition Document have expressly stated therein that such Disposition is a sale or other absolute transfer. Without limiting the foregoing, any Disposition that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as a true sale and absolute transfer of the IESO Funding Shortfall or an Absolute Assignee's right, title and interest in, to and under an Investment Interest, as applicable (or relevant portion thereof), and not merely as a Pledge thereof, and upon such Disposition the assigner or seller under the applicable Disposition Document shall retain no right, title or interest in the IESO Funding Shortfall or Investment Interest (or relevant portion thereof) subject to the Disposition, including all rights under the IESO Funding Shortfall or Investment Interest arising after such Disposition. **[NTD: Subject to review by Osler/dealers.]**

(3) **Perfection and Priority of Dispositions** – Any Disposition of an interest in a Regulatory Asset shall be vested, valid, binding and perfected from the time when such Disposition is made. Such Disposition shall be perfected, vested, valid and binding as against the IESO or transferring Regulatory Asset Owner, as applicable, and all other persons who have claims of any kind (whether in tort, contract or otherwise) against IESO or the transferring Regulatory Asset Owner, as the case may be, irrespective of whether such persons have notice of the Disposition and the property rights and interests acquired by the Absolute Assignee under such Disposition shall be free and clear of any liens in favour of such other persons.

(4) **Validity of Pledges** – A Pledge by an Absolute Assignee may be made to secure any Funding Obligation and when made shall be valid and enforceable in accordance with its terms and shall be effective to confer upon the Pledgee a valid security interest in, to and in respect of the related Investment Interest in accordance with the terms of the

Pledge. No consent of, or notice to, any person shall be required to give effect to a Pledge made to secure any Funding Obligation.

(5) **Perfection and Priority of Pledges** - For purposes of the *Personal Property Security Act* (the "PPSA"), the Regulatory Asset shall be intangible personal property and any Pledge made by an Absolute Assignee in respect of a Funding Obligation shall, subject to the terms thereof, give rise to a security interest of which the PPSA applies, and may be perfected by filing a financing statement under the PPSA on that basis. All proceeds of a related Investment Interest that are subject to such a Pledge that are received by the Absolute Assignee shall immediately be subject to the such Pledge, and the security interest in such proceeds shall be perfected pursuant to the PPSA.[14] A Pledge perfected under the PPSA shall be a continuously perfected security interest and shall have priority over any other lien or security interest, created by operation of law or otherwise, that may attach to the property rights and interests in the Investment Interest subject to the Pledge unless the Pledgee has otherwise agreed in writing. A Pledgee shall have a perfected security interest in a related Investment Interest, including the Absolute Assignee's rights and interests in and to Transition Charge Collections or other related proceeds in respect of the Investment Interest and that are deposited in any Regulatory Asset Account or other account of any Electricity Distributor, IESO, Alternative Collection Agent or other person who may have commingled such Transition Charge Collections or such other proceeds with other funds. All provisions of the PPSA shall apply to the Regulatory Asset on the basis that it is intangible personal property, except to the extent otherwise provided in this Section 6(5).

(6) **Enforcement of Property Rights** – The rights of any Regulatory Asset Owner to collect and enforce its rights and interests in, to or in respect of the Regulatory Asset shall be exercised in the manner set forth in Article 5.

(7) **Owners of a Specified Portion of the Regulatory Asset** – A Regulatory Asset Owner may effect a Disposition to an Absolute Assignee of a specified portion of its rights and interests in the Regulatory Asset, including by way of a Disposition of a divided or an undivided interest therein as specified in a related Disposition Document. In no circumstance may the specified portions of the rights and interests in the Regulatory Asset owned by all Regulatory Asset Owners be greater than all of the rights and interests that comprise the Regulatory Asset in the aggregate.

(8) **Collective Action Required** – If a Regulatory Asset Owner's rights and interests in the Regulatory Asset comprises less than the entire property right and interest constituted by the Regulatory Asset, such Regulatory Asset Owner shall only enforce such right and interest on a collective and coordinated basis with each other Regulatory Asset Owner in accordance with the Collective Rights Agreement. **[NTD: Move to Regulations.]**

---

[14] Consider whether to simply leave this and have a financing statement be filed under the PPSA. This would normalize the security interest and reduce any adverse suggestion that security would not otherwise arise.

Article 7 – Establishment of the Fair Allocation Plan[15] [NTD: Move entire Article 7 to Regulations, other than 7(1) and 7(2).]

(1) **Adoption of the Fair Allocation Plan** – The Delegate may, by written declaration, designate and adopt a Fair Allocation Plan in compliance with Article 7. The Fair Allocation Plan so designated and adopted shall be the Fair Allocation Plan for all purposes of this Act, except if amended, amended and restated or terminated by a further written declaration made by the Delegate in compliance with **[the Regulations]**

(2) **Principles and Parameters** – A Fair Allocation Plan shall seek to allocate Future Fair Share of Green Transition Benefits across present and future Regulated Consumers on a basis that the Delegate, in its sole and absolute discretion, determines to be equitable, having regard to the following principles and parameters:

[NTD: E&Y will need to see the guidelines of the Fair Allocation Plan set in reference to parameters that will allow it to establish a modeling curve]

- [**Inflation period**: (between November 2017 – and April 2022) bill increases need to be capped at inflation (assumed at 2% for modeling purposes)]

- [**Transition Period**: (May 2022- April 2027) bills increased at a consistent rate which is set so that the borrowing will not exceed the Trust's capacity, which is determined by the Finance Service Manager]

- [**Amortization Period**: (May 2027-April 2047) equitable distribution of Finance Amount among Regulated Consumers]

1. Future Fair Share of Green Transition Benefits should be allocated over the period ending on the Program End Date.

2. The share of Future Fair Share of Green Transition Benefits allocable to a particular Regulated Consumer in respect of a Reference Period should be proportionate to a reasonable assessment of the benefits of the Green Generation Initiative to such Regulated Consumer over such Reference Period, other than in exceptional circumstances.

3. The Fair Allocation Plan should specify the Reference Periods for the purpose of allocating Future Fair Share of Green Transition Benefits among Regulated Consumers on a relative basis over time.

---

15 The idea is that the Fair Allocation Plan will be set once at the outset based on the principles and parameters described here, all as applied based on information available and the reasonable expectations and discretion of the delegate at such time. If the expectations are not fulfilled (e.g., generators may choose to retire their facilities at the end of their current procurement contracts and not invest in extending service lives to secure further procurement contracts), the Fair Allocation Plan will be unaffected, unless it is specifically amended (assuming amendments will be permitted by the legislation).

(3) **Attribution Methodology** – The Fair Allocation Plan shall specify the Attribution Methodology for the purposes of allocating the Period Finance Charges across the Regulated Consumers. The Attribution Methodology shall result in an attribution of such Transition Charges that is considered by the Delegate to be equitable, and may have regard to such principles and parameters as may be further set forth in a Regulation; provided that the Attribution Methodology shall not be used to limit the recovery of Transition Charges. **[NTD: Can the methodology be adjusted outside an amendment? If so, the rating agencies need to understand the limits of any adjustment.]**

(4) **Amendments of the Fair Allocation Plan** – The Fair Allocation Plan may be amended, amended and restated or terminated by the Delegate, provided that such amendment, amendment and restatement or termination shall (a) not be inconsistent with the principles and parameters set forth in (2) or (3), above, or the Regulation, (b) comply with any restrictions or limitations specified with respect thereto in any Funding Obligation, and (c) not impair any Regulatory Asset, outstanding Funding Obligation or any Transition Charges. **[NTD: If the Fair Allocation Plan is amended, there should be no further Regulatory Assets until the revised Fair Allocation Plan and corresponding Financing Plan have been approved.]**

Article 8 – The IESO Funding Shortfall

(1) **Recording of IESO Funding Shortfall** -- IESO will record any IESO Funding Shortfall in its books.

(2) **Dispositions** – IESO may effect a Disposition of all or any part of the IESO Funding Shortfall to an Absolute Assignee if (a) the Disposition is effected pursuant to a Disposition Agreement duly executed by IESO; and (b) the Financial Services Manager confirms in writing that the Disposition complies with any restrictions or limitations specified with respect thereto in any documents evidencing the Funding Obligations and is permitted under the Financing Plan.

(3) **No Continuing Interest in any Investment Interest** – IESO shall have no continuing right or interest in any IESO Funding Shortfall subject to a Disposition effected by IESO under a Disposition Document to which IESO is a party.

Article 9 – The Financing Plan [NTD: Move all of Article 9 to Regulations other than 9(1).]

(1) **Power to Prepare, Implement and Amend the Financing Plan** – The Financial Services Manager shall be authorized to prepare, implement and amend a financing plan for the Financing Entities and propose the adoption of such financing plan as the Financing Plan for the purposes of this Act. The Financial Services Manager shall have the right to withdraw its financing plan as the Financing Plan at any time if it determines that implementing the Financing Plan in such manner would not be in the best interests of a Financing Entity.

(2) **Principles and Parameters of the Financing Plan** – The Financing Plan shall establish the basis for each Absolute Assignee's funding decisions having regard to the principles and parameters set forth in Schedule 3.

(3) **OEB Approval** – Any Additional Funding Charge payable to the Financial Services Manager in respect of services provided by the Financial Services Manager (other than third party costs) shall be subject to review and approval by the OEB.

(4) **Review of Financing Plan** – The [OEB] shall undertake an annual review of the records maintained by the Financial Services Manager for the purpose of confirming that the Funding Obligations incurred and the Finance Amounts paid by or on behalf of the Absolute Assignees were incurred and paid, respectively, in material conformity with the Financing Plan. **[NTD: We would prefer that this be dealt with by an attestation prepared by an officer of the Financial Services Manager.]**

(5) **Replacement of the Financial Services Manager** – If the OEB identifies deficiencies or makes recommendations in its review under Section 9(4), the Financial Services Manager shall take reasonable measures to remedy such deficiencies if remediable, and shall in any event have regard to the recommendations of the OEB in relation to further actions undertaken by the Financial Services Manager under the Financing Plan. If the Financial Services Manager is unwilling or unable to reflect such recommendations in relation to such further actions, the Delegate may by written declaration designate one or more other persons who shall thereafter become the Financial Services Manager. Any replacement must comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations.

(6) **Obligation to Apply IESO Remittances** – The Financial Services Manager shall ensure that amounts transferred to it under Article 5, as agent for and on behalf of the Absolute Assignees, or otherwise in respect of or as proceeds from an applicable Investment Interest shall only be applied or used to pay related Finance Amounts when they are due and payable and for no other purpose. **[NTD: This can be dealt with by contract.]**

(7) **Non-Recourse** – The Financing Plan shall be implemented so that Funding Obligations incurred shall be without recourse to or to any assets of the Electricity Distributors, IESO, any Alternative Servicer, any Alternative Collection Agent, the Financial Services Manager, the OEB or Her Majesty in right of Ontario, other than if and to the extent that such persons or entities are liable for the performance of obligations or duties arising under this Act or expressly agree to become liable pursuant to any Funding Obligation or obligation in relation to a Finance Amount.

(8) **Incurrences are Binding** – Each Disposition made to or by an Absolute Assignee, all amounts payable or becoming due and payable by or on behalf of an Absolute Assignee under or in connection with any obligation purporting to be a Funding Obligation and each Pledge entered into by an Absolute Assignee, shall be valid and binding, including in determining the amount of related Transition Charges, notwithstanding any defect in the manner in incurrence or any inconsistency with the Fair Allocation Plan or the Financing Plan.

[Article 10 – Compliance Matters[16]

(1) Right of the [OEB] to Inspect Books and Records - For the purpose of investigating compliance with the provisions of this Act, the OEB shall have the right, jurisdiction, power and authority to examine the books and records of *[Insert names if any]*.

(2) [OPG's Rate Settings – When setting other rates for or in respect of OPG, the OEB shall not take into account (a) the administrative or servicing fees charged by OPG as Financial Services Manager [in excess of the actual incremental costs incurred by such person of providing administrative or servicing services]; (b) the cost consequences to OPG of being the Financial Services Manager; or (c) the consequence of OPG consolidating the assets and liabilities of any Financing Entity for OPG's accounting purposes, in each case in setting any regulated payment amounts for OPG.][17]

Article 11 – Undertaking of the Her Majesty in right of Ontario[18]

(1) No Action to limit, alter, or impair or terminate Transition Charges, the Regulatory Asset or Collections – Her Majesty in right of Ontario shall not in any way take or permit (including by any agency or administrative body) any action to reduce, impair, postpone or terminate the obligation of Regulated Consumers to pay Transition Charges or to impair the Regulatory Asset or the collection or recovery of Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances, either directly or indirectly, including through the introduction of any bill or the passing of any legislation or regulation having such effect. The amount of Transition Charges determined under this Act shall not be subject in any way to reduction, impairment, postponement or termination as a result of any action taken or failure by Her Majesty in right of Ontario (including by any agency or administrative body), including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(2) Undertaking and Agreement – Her Majesty in right of Ontario shall not:

---

[16] As noted above, the outcome of any regulatory action undertaken by the OEB will not affect Funding Obligations that have been incurred under the Financing Plan. This Article and any potential role for the Auditor General is still under consideration.

[17] As an alternative to this provision, consider clarifying under s. 78.1(4) of the OEB Act (which currently gives the OEB discretion in setting payment amounts subject to O. Reg. 53/05) that the OEB in setting OPG payment amounts for prescribed generation shall not consider OPG's role as Financial Services Manager of any Financing Entities associated with the Fair Hydro initiative, perhaps with the exception of any operating fees that may be received by OPG for performing that role.

[18] Under consideration, including the dealers' request for a "servicer guarantee" and a "contractual guarantee" to address a "Change of Law" or if all or a portion of the legislation is *ultra vires*, requiring (at the lenders option), the Province to pay principal and interest on the outstanding debt until maturity or payout the entire debt including any make-wholes.

In the event of a market disruption that renders it impossible to refinance debt when required (or where financing of amounts required to service the debt is not available because of a market disruption where the Financing Entity was relying on such further issuance of debt until the recovery is set to begin to fund interest), either the Province must step in and payout the debt or there must be the right to recover the debt from ratepayers as it becomes due, notwithstanding the intended rate cut.

(a) in any way take or permit any action that limits, alters or impairs the value of any Investment Interest;

(b) except as required by the estimates and adjustments made in determining the True-up Amount, reduce, alter or impair Transition Charges that are imposed, billed, invoiced, collected and remitted for the benefit of the Absolute Assignees or any Pledgee from time to time;

(c) permit the amendment, amendment and restatement or termination of the Fair Allocation Plan if such amendment, amendment and restatement or termination would adversely affect the validity or enforceability of any Funding Obligation or the rights of an Absolute Assignee or Pledgee thereunder, or would not otherwise comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations,

in each case including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(3) **Successor IESO** – If IESO is restructured, dissolved or becomes insolvent or is otherwise incapable of performing its obligations under this Act, an IESO Successor shall immediately be established by Her Majesty in right of Ontario to perform such obligations.

(4) **Compensation for Failure** – Absolute Assignees shall be compensated by Her Majesty in right of Ontario for any losses suffered by them as a result of any failure by Her Majesty in right of Ontario to comply with its undertakings and agreements in this Article 11.[19]

(5) **No Wind-up of Financing Entity**. No Financing Entity may be voluntarily wound up, liquidated or dissolved until one year after all of its Funding Obligations are repaid. **[NTD: This concept can be contained in the Regulations.]**

(6) **References to the Undertaking and Agreement** – Any non-confidential reference to the Undertaking of the Her Majesty in right of Ontario, including in marketing materials and other documentation authorized for use by the Administrative in connection with any Funding Obligation, may be made provided that [*Add conditions to protect the Province*].

Article 12 – Regulations

Regulations may be made under this Act for the purposes described in Sections •,•,• and • and may be promulgated for any of the following purposes:

(a) to set standards and measures regarding the commercially reasonable requirements of the Province associated with an Absolute Assignee incurring Funding Obligations or becoming obligated to pay any Finance Amount, including to establish guidelines regarding all-in funding costs; permitted Additional

[19] Requested by Dealers. For discussion.

Funding Charges; required maturities and redemption and termination rights of Funding Obligations; liquidity requirements, in each case to a Financing Plan that is consistent in its effect with the Fair Allocation Plan;

(b) to establish and empower one or more regulated entities to undertake decision-making activities with respect to this Act;

(c) to set out reasonable requirements regarding the appointment or retention of advisors, agents, service providers, contract counterparties, including in relation to 'market terms and conditions' parameters;

(d) to provide for audit and compliance standards applicable to those persons who are or may become obligated or have duties that arise under this Act [or under any Funding Obligation];

(e) to provide for any pre-vetting and approval requirements in relation to any incurrence by an Absolute Assignee of any Funding Obligation or obligation to pay any Finance Amount; and

(f) to provide for appeal and due process considerations in connection with the establishment, adoption, implementation and review of the Fair Allocation Plan or the Financing Plan.

Article 13- Miscellaneous[20]

(1) **Choice of law** – The law governing, as applicable, the validity, enforceability, attachment, perfection, priority and exercise of remedies with respect to the transfer of an interest or right or creation of a security interest in the Regulatory Asset, any Transition Charge or the Undertaking of the Province shall be the laws of the Province.

(2) **Conflict of law** – In the event of conflict between this Act and any other law of the Province regarding the attachment, assignment or perfection, or the effect of perfection, or priority of any Disposition or Pledge, this Act shall govern to the extent of the conflict.

(3) **No further acts or approvals required** - Notwithstanding any provisions of any law of the Province to the contrary, no approvals, notices or authorizations other than those specified in this Act shall be required with respect to the actions to be taken in compliance with this Act, including under the Financing Plan or in relation to the establishment of the Fair Allocation Plan, and the transactions and contracts authorized in or contemplated by this Act or the Financing Plan, including the incurrence of any Funding Obligation, any Disposition, any Pledge or in the payment and performance of any attendant or incidental contract and any related expenses incurred to facilitate the preparation and implementation of the Financing Plan.

---

[20] OPG would like the specific amendments related to OPG to be included in the Bill.]

(4) **Effect of invalidity after the Incurrence of any Funding Obligation** - Effective on the date that a Funding Obligation is incurred under this Act, if any provision of this Act is held to be invalid or is invalidated, superseded, replaced, repealed or expires for any reason, that occurrence shall not affect any action allowed under this Act that is taken by any person who is or may become obligated or have duties that arise under this Act and any such action shall remain in full force and effect.

(5) **Severability** - If any Article, Section, paragraph or subparagraph of this Act or the application thereof to any person, circumstance or transaction is held by a court of competent jurisdiction to be unconstitutional or invalid, the unconstitutionality or invalidity shall not affect the constitutionality or validity of any other Article, Section, paragraph or subparagraph of this act or its application or validity to any person, circumstance or transaction, including the irrevocability of Transition Charges, the validity of the Regulatory Asset, the incurrence of any Funding Obligation, any Disposition, any Pledge, or the collection and recovery of Transition Charge Collections. To these ends, the Legislature hereby declares that the provisions of this Act are intended to be severable and that the Legislature would have enacted this Act even if any Article, Section, paragraph or subparagraph of this Act held to be unconstitutional or invalid had not been included in this Act.

Schedule 3

Principles and Parameters for Establishing the Financing Plan

The following principles and parameters provide a guideline as to what a Financing Plan should address:

(1) consider quantities, maturities, payment obligations, prepayment or redemption rights and such other features of Funding Obligations so that payments made for a Reference Period reasonably correspond to the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

(2) if the anticipated amount of any Repayment (together with payments of other Finance Amounts) to be made in respect of a Reference Period would materially exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable Regulated Consumers under the then current Fair Allocation Plan, diligent efforts should be made to determine whether a Refinancing or deferral of such Repayment may be reasonably and cost-effectively effected based on then prevailing market terms, conditions an circumstances;

(3) reflect the assumptions and requirements specified in any contemplated Funding Obligation (e.g., any limit on the maximum amount of Transition Charges charged to a hypothetical Regulated Consumer relative to his or her monthly electricity bill, as prescribed by any rating agency that ascribes its credit rating to or in respect of the Funding Obligation **[having regard to the application of the Attribution Methodology][NTD: Are the words in square brackets necessary?]**);

(4) require the Financial Services Manager, for and on behalf of each Regulatory Asset Owner, to use diligent efforts to manage Finance Amounts to be borne by Ratepayers;

(5) include a proposal regarding the compensation of the Financial Services Manager that reflects market terms and conditions; and

(6) require that the Financial Services Manager report annually to the Ministry of Energy on the operation of the Financing Plan including, in particular, with respect to the amount and terms of the Funding Obligations incurred and the sufficiency of such Funding Obligations for the purpose of funding the estimated Funding Shortfalls in accordance with the Fair Allocation Plan.

Steve,
We have been corresponding with Torys today and are in the process of preparing a consolidated mark-up reflecting comments from the Dealers and OPG, which will also incorporate some of the comments received this evening from the IESO/Stikemans. We will circulate the consolidated mark-up before tomorrow's meeting.

CONFIDENTIAL AND PRIVILEGED

Preliminary Draft for Discussion Purposes Only

"Fair Hydro Act"

Article 1 – Purpose

The Province has and continues to encourage the construction and development of facilities for the long-term operation and generation of electricity in the Province using sustainable, lower carbon-based technologies such as new gas-fired generation, renewable facilities, energy from waste and biomass, including under the Province's various procurement, standard offer, feed in tariff and other similar programs (the "Green Generation Initiative"). The long-term benefits of the Green Generation Initiative accrue over time and have benefited and will benefit present and future electricity consumers in the Province.

The imputed costs of the Green Generation Initiative are currently passed through to electricity consumers by way of a monthly adjustment amount (the "Green Costs Adjustment"), which in turn forms part of the overall adjustment calculated by the Independent Electricity System Operator ("IESO") pursuant to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* (the "Global Adjustment"). The Global Adjustment is included as a charge billed to electricity consumers in their monthly electricity invoices.

The Green Costs Adjustment is currently determined each month by reference to the amounts paid by IESO to the generators of electricity in the Province under the Green Generation Initiative, which may be higher than prevailing market price for electricity. These differences arise because IESO has entered into long-term procurement contracts with such generators in order to provide them with long-term price certainty for electricity, and in turn to encourage the generators to develop technologies and to construct and develop facilities consistent with the Green Generation Initiative. In general, whenever amounts payable under these procurement contracts exceed the market price for electricity, the Green Costs Adjustment passes through the amount of such differences as part of the monthly charge to electricity consumers. Such amount then becomes available to IESO to meet its obligations under the procurement contracts. It has been determined that the useful lives of many of the assets encouraged by the Green Generation Initiative will be well in excess of the respective terms of the related procurement contracts, and in many cases may extend over more than one generation of electricity consumers.

Since the benefits to past, present and future electricity consumers from the Green Generation Initiative will not necessarily coincide with the costs currently attributed through the Green Costs Adjustment, based on the respective durations of the procurement contracts, it has been determined that the rate at which the costs associated with the Green Generation Initiative should be passed through to Retail Consumers (as defined in Article 2) should be more closely aligned with the benefits that such Retail Consumers have derived and are expected to derive from the Green Generation Initiative over time. This realignment will be based on principles and parameters that establish a reasonable basis for measuring and allocating the relative costs and benefits of the Green Generation Initiative equitably across present and future Retail Consumers (the "Fair Allocation Plan"). [NTD: The IESO has a number of comments on the

FAP: (i) Is it necessary to include this much detail in the FAP, as opposed to broadly referencing a FAP that will articulate principles/parameters for allocating future deferred amounts, etc., and which will be developed and/or set out in the Regs; (ii) while we appreciate the constitutional issues, we believe there risk in prescribing this much detail in purpose/objects and in how the FAP is engineered, which makes it easier to challenge. Is it not intended to provide for as much flexibility as possible?; (iii) is it intended that the 17% deferred amount is an outcome of the yet to be developed FAP?; (iv) the FAP is in essence a policy-based decision(s) and in the IESO's view would seem to have to necessarily be prepared by the Ministry, albeit with input from relevant experts, including the IESO, LDCs, etc. – as opposed to being delegated to experts]

If the Fair Allocation Plan determines that the equitable allocation of the costs associated with the Green Generation Initiative to the Retail Consumers of a particular time period should be reduced below the amount that currently would be charged based on the Green Costs Adjustment, then the amount payable by such Retail Consumers and in turn available to IESO will, in the aggregate, be less than the amount payable by the IESO to the generators in respect of such period. In this case IESO will need to obtain funding from another source to cover such a shortfall. If a funding obligation is incurred by IESO to cover such a shortfall during one period, the repayment of such funding obligation will be required in a future period, and any related repayments, finance costs, hedging costs and other transaction costs incurred will become payable in one or more future periods. In order for IESO to obtain a reliable and committed source of cash flows to enable IESO to repay such funding amounts when they become due and payable, this Act imposes irrevocable and non-bypassable financial obligations on Retail Consumers to pay amounts incurred in respect of such funding obligations when they become due and payable and establishes a right to invoice and collect such amounts. The right and interest in and to collect such financial obligations will take the form of the Regulatory Asset contemplated in this Act, which will constitute property rights and interests. Interests in the Regulatory Asset may be sold and absolutely assigned by IESO to one or more financing entities, which in turn will finance their acquired interests by incurring funding obligations. The incurrence and payment of such funding obligations will be administered on behalf such financing entities by a financial services agent under the Financing Plan contemplated in this Act. The Financing Plan will seek to reasonably match the payment obligations arising under such funding obligations, to be borne by the future Retail Consumers of the period in which such payment obligations become due, with the benefits of the Green Generation Initiative allocated to such future Retail Consumers under the Fair Allocation Plan.

The purpose of this Act is to establish the basis upon which intergenerational fairness can be achieved by charging the costs and benefits of the Green Generation Initiative to present and future Retail Consumers on an equitable and cost effective basis.

Article 2 - Definitions

In this Act:

> "Absolute Assignee" means a person to whom a Regulatory Asset Owner effects a Disposition.

"Actual" means, in relation to costs, expenses or payments in respect of Funding Obligations during a Reference Period, the actual amount of such costs, expenses or payments paid or made (net of any Finance Reserve Withdrawals applied to pay such amounts), which amounts shall be recorded by the Financial Services Agent whose records shall be determinative for the purposes of this Act except to the extent of a manifest calculation error.

"Additional Funding Charges" means, for a Reference Period in respect of an Absolute Assignee, the fees, charges, expenses, costs, indemnities, reimbursements and other amounts (including any applicable tax amounts) that are or become payable by or on behalf of the Absolute Assignee during the Reference Period and that were incurred or committed to directly or indirectly by the Absolute Assignee in connection with the incurrence of Funding Obligations under the Financing Plan (whether at the time of such incurrence or over the term of the Funding Obligation and whether directly or indirectly), including (without duplication and without limitation): (a) any payment required under an ancillary agreement entered into by, or by the Financial Services Agent on behalf of, the Absolute Assignee under the Financing Plan; (b) any federal, provincial or local taxes, payments in lieu of taxes, franchise fees or license fees imposed on the Absolute Assignee or incurred by on behalf of the Absolute Assignee under any obligation to pay tax gross-up amounts to counterparties under Funding Obligations; (c) any amounts payable to the Financial Services Agent, including amounts payable to its advisors and outside counsel; (d) any amounts incurred to prepare, confirm, amend and implement the Financing Plan; (e) any amounts payable to any Alternative Collection Agent or Alternative Servicer, including amounts payable to each's advisors and outside counsel; (f) any amounts incurred to make the calculations, determinations or confirmations to be made by or on behalf of the Absolute Assignee; (g) any servicing fees and expenses; (h) any trustee fees and expenses; (i) any legal fees, expenses and disbursements; (j) any accounting fees and expenses; (k) any administrative fees and expenses; (l) any manager or director fees of a Financing Entity; (m) any registration fees and expenses; (n) any placement fees, underwriting fees, fees and related issuing expenses; (o) any rating agency fees; and (p) any other related fees, charges, expenses, costs, indemnities, reimbursements and other amounts that are approved in good faith by the Financial Services Agent for recovery and payment under the Financing Plan.

"Allocation Factor" means, in respect of a Retail Consumer for a Reference Period, the number (expressed as a percentage) determined in respect of the Retail Consumer by the OEB based on the application of the Attribution Methodology in respect of the Reference Period.[1] [NTD: Is this needed if OEB determines volumetric rate to recover Period Transition Charge?]

[1] Confirm that this will be based on forecast volumes of demand (like RPP). To the extent amounts do not get recovered due to differences between forecast and actual, those may be identified and caught by the True-Up.

"Alternative Collection Agent" means a person appointed under Section 5(11) and in compliance with the requirements set out in Schedule 2 to assume the obligations of an Electricity Distributor under Article 5.

"Alternative Servicer" means a person appointed under Section 4(8) to assume the obligations of an Electricity Distributor under Article 4.

"Assessed Past Green Transition Costs" means, in respect of a Measurement Date, the aggregate of the imputed costs of the Green Generation Initiative (expressed as an equivalent to current dollars), as reflected in the calculation of the Green Costs Adjustment, which have been charged to Retail Customers through the Global Adjustment on or prior to the Measurement Date.

"Attribution Methodology"[2] means the methodology specified in the Fair Allocation Plan for allocating the Period Transition Charges for a Reference Period to individual Retail Consumers of the applicable Retail Consumer Group based on its Allocation Factor.

"Collected Amount Adjustment" means, in respect of a True-Up Period, the amount (which may be a negative amount) calculated by IESO, a Successor IESO or the Financial Services Agent, as applicable, equal to (a) the Estimate of the Finance Amount for the True-Up Period, minus (b) the sum of all Transition Charge Collections for the True-Up Period.[3]

"Collective Rights Agreement" means an agreement among all of the Regulatory Asset Owners (including each Absolute Assignee) and each Pledgee that governs the enforcement of their respective rights and interests in, to and under the Regulatory Asset on a coordinated and collective basis.[4] [NTD: is there a need to reference this requirement in the legislation?]

"Delegate" means the person or persons designated in writing from time to time by the Minister of Energy to undertake the actions and perform the responsibilities ascribed to the "Delegate" under this Act.

"Disposition" means any actual or purported sale, assignment or transfer of an Investment Interest to an Absolute Assignee, and "Dispose" shall have a corresponding meaning.

---

[2] This allocation may be volumetric or some combination of a flat amount and a volumetric charge. Further discussion is required. H&W has raised a concern regarding possible adverse changes after the fact and rating agency considerations. Consider whether hard-coding in the legislation makes sense.

[3] This would pick up adjustments based on actual collection experience, changes in the retail consumer base, changes in the actual costs (versus earlier estimates) included in the Transition Charge calculation, etc.

[4] Consider adding the Financial Services Agent and the Servicer as parties.

“Disposition Document” means any agreement, deed, conveyance, instrument or other document which relates to a Regulatory Asset or an interest therein. [ND: changes are intended to address partial circularity]

“Electricity Distributor” means, in respect of a Service Area, the rate regulated distributor licensed under Part V of the *Ontario Energy Board Act, 1998* in respect of such Service Area, together with and its successors.

“Electricity Distributor Remittances” means, for an Electricity Distributor on a Remittance Date, all Transition Charge Collections received [or deemed to be received] [NTD: delete deeming language unless it is intended to provide for deemed collections] by the Electricity Distributor prior to the Remittance Date and that have not otherwise been remitted to IESO or if applicable the Alternative Collection Agent in accordance with Section 5(3), including the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5.

“Electricity Invoice” means an invoice issued by any of a Electricity Distributor (or by an Alternative Servicer) to a Retail Consumer that is served by the Electricity Distributor’s distribution system in accordance with Section 4(1) in respect of electricity charges, including the cost of electricity, delivery and regulatory charges and related services and amounts incurred, assessed or charged in respect of connectivity to a distribution network in the Electricity Distributor’s designated Service Area and in respect of applicable Transition Charges to be charged to the Retail Consumer under this Act. [NTD: The Alternative Servicer should only invoice for Transition Charges, not the entire invoice.]

“Estimate” means (a) in relation to costs, expenses or payments in respect of Funding Obligations or any Finance Amount for a Reference Period, the estimated amount of such costs, expenses or payments determined by the Financial Services Agent; and (b) in relation to an assessment of the benefits of the Green Generation Initiative to any Retail Consumer Group, the estimated value (in current dollars) of such benefits determined by the Delegate, in each case having regard to the applicable principles and parameters set out in Schedule 1, which estimated amounts shall be determinative as the applicable estimate for the purposes of this Act except to the extent of a manifest calculation error.

“Estimated Future Green Transition Benefits” means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that are expected to accrue to Retail Consumers from the establishment and implementation of the Green Generation Initiative during the period from the Measurement Date to the Program-End Date.

"Estimated Past Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that have accrued to Retail Consumers from the establishment and implementation of the Green Generation Initiative up to and including the Measurement Date.

"Fair Allocation Plan" has the meaning given in Article 1.

"Finance Amount" means, for a Reference Period in respect of an Absolute Assignee, the sum (without duplication) of the following amounts that are or become payable during the Reference Period by an Absolute Assignee: (a) Repayments; (b) Funding Costs; (c) Redemption Amounts; (d) Finance Reserve Deposits; and (e) Additional Funding Charges. [Should the Repayment Amount not be reduced to anticipate ordinary course refinancings by Finance Entities?]

"Finance Reserve Deposits" means, for a Reference Period, the amount by which (a) deposits made or to be made during the Reference Period in order to pre-fund, collateralize, over-collateralize or establish reserves for the ultimate payment of Funding Obligations or for related contingencies specified in the Financing Plan, exceed (b) any Finance Reserve Withdrawals.

"Finance Reserve Withdrawals" means, for a Reference Period, the amount withdrawn during the Reference Period from deposits previously made to pre-fund, collateralize, over-collateralize or establish reserves for the payment of Funding Obligations or to pay amounts in respect of related contingencies that had been specified in the Financing Plan.

"Financial Services Agent" means OPG or, following any Replacement Event, such other person or persons who may be appointed as the Financial Services Agent of the Absolute Assignees under the Financing Plan in compliance with the requirements set out in Schedule 2.[5]

"Financing Entity" means an entity established in accordance with the Financing Plan to acquire all or an interest in the Regulatory Asset as an Absolute Assignee and to enter into Funding Obligations to finance such acquisition under the Financing Plan.[6]

---

[5] Discuss whether to accommodate multiple Financial Services Agents. MOE to consider.

[6] MOE to confirm that the legislation will provide that any Financing Entity that is a wholly-owned subsidiary of OPG (1) would not be subject to Part VI of the *Electricity Act* (Ontario) and (2) in the case of any Financing Entity that is a trust, any income of such trust (for purposes of the *Income Tax Act* (Canada) or the *Taxation Act, 2007* Ontario)) which is paid or made payable to OPG or a wholly-owned subsidiary of OPG as a beneficiary of such trust will not be taken into account in calculating the amount of a payment required to be made by OPG (or such subsidiary) by section 89 or 90 of the Electricity Act.

"Financing Plan" means the written plan prepared by the Financial Services Agent on behalf of each Absolute Assignee in compliance with Article 9 to set forth the basis upon which, among other things: (a) any Disposition may be made to, financed by or effected by an Absolute Assignee; (b) any Funding Obligations may be incurred by an Absolute Assignee, including any Refinancing; (c) any Pledge may be given or effected; (d) any Funding Obligations may be redeemed, prepaid, repurchased, amended or otherwise effected; (e) any obligations for Additional Funding Charges may be incurred and paid; (f) any Repayments, Funding Costs and Redemption Amounts may be paid or provided for; (g) any Finance Reserve Deposits may be made; (h) any Finance Reserve Withdrawals may be made; (i) the establishment and operation of any Financing Entity may be effected; and (j) the cash flows arising from time to time or otherwise derived from an Investment Interest may otherwise be applied, as the same may be amended, amended and restated or terminated by the Financial Services Agent in compliance with Article 9 from time to time.

"Funding Costs" means, for a Reference Period in respect of an Absolute Assignee, the amount by which (a) the aggregate of all interest and other periodic finance charges accruing due and becoming payable or paid by or on behalf of the Absolute Assignee during the Reference Period in respect of its Funding Obligations, including any standby commitment fees or charges paid to any lender, credit enhancement fees or charges paid to any credit enhancer, liquidity fees or charges paid to any liquidity provider, amounts (including any termination payments) paid under derivatives and any deposit amount made or required to fund or replenish a debt service reserve account or other account established under any indenture, ancillary agreement or other financing document relating to its Funding Obligations, exceeds (b) the aggregate of all amounts received by or on behalf of the Absolute Assignee during the Reference Period [in respect of a Funding Obligation] [NTD: not all receipts may relate to a Funding Obligation] , including from any reimbursement of standby commitment fees or charges paid by a lender, any reimbursement of credit enhancement fees or charges paid by any credit enhancer, any reimbursement of liquidity fees or charges paid by any liquidity provider, any amounts (including any termination payments) paid to the Absolute Assignee under derivatives and any Finance Reserve Withdrawal made or required to be made from a debt service reserve account or other account established under any indenture, ancillary agreement or other financing document relating to the payment of the Funding Costs payable in respect of a Funding Obligation for the Reference Period. [NTD: Make provision for receipts in respect of reserve accounts, i.e Funding Costs should be reduced by interest receipts on reserve accounts]

"Funding Obligation" means, in respect of an Absolute Assignee, each payment obligation (including each obligation to pay: principal, interest, premiums and other financing charge payments; pass-through payments; payment obligations arising under or in respect of derivatives; payment obligations owing to service providers, Financial Services Agents, finance entity intermediaries, capital markets intermediaries, advisors, lenders, credit enhancement providers, liquidity providers, disbursement counterparties, regulatory agencies and rating agencies; and all Additional Funding Charges incurred by

or on behalf of the Absolute Assignee under the Financing Plan, including any Refinancing of another such payment obligation incurred by or on behalf of such Absolute Assignee.

"Future Fair Share of Green Transition Benefits" means, in respect of a Measurement Date, the sum of (a) the Over-Assessed Amount; and (b) the Estimated Future Green Transition Benefits, in each case as of the Measurement Date.

"Generator" means a generator of electricity that is subject to the *Electricity Act, 1998*.

"Global Adjustment" has the meaning given in Article 1.

"Green Costs Adjustment" has the meaning given in Article 1.

"Green Generation Initiative" has the meaning given in Article 1.

"IESO" means (i) the Independent Electricity System Operator created pursuant to Part II of the *Electricity Act, 1998*.

"IESO Available Amount" means, for a Reference Period, the lesser of (a) the amount (if any) by which (i) the Maximum Transition Charge Amount for the Reference Period, exceeds (ii) Period Finance Amount for the Reference Period, and (b) the IESO Retained Interest Amount as of the [35th] day prior to the first day of a Reference Period plus any IESO Financing Costs that are due and payable and remain unpaid as of the [35th] day prior to the first day of a Reference Period.

[NTD: Parking for a moment the commercial law issues around subordination, we are considering whether the conferral upon the IESO of a subordinated residual interest in the Transition Charges cash flow create consolidation issues. It may also impact our ability to book an asset.]

"IESO Electricity Distribution Receipts" means, for a month, the sum of all amounts payable by Electricity Distributors to IESO during the month pursuant to section • of the *Electricity Act*.

"IESO Funding Costs" means, for a Reference Period, the funding costs (if any) incurred by IESO pursuant to Section 8(4) in order to finance its ownership of the IESO Retained Interest during the Reference Period.

"IESO Funding Shortfall" means, for a month, the amount, if any, by which (a) the IESO Electricity Distribution Receipts that would be payable to IESO for the month if determined without regard to this Act and without regard to the changes made to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* with respect to the Global Adjustment concurrently with this Act, exceeds (b) the IESO Electricity Distribution

Receipts payable to IESO for the month[7] [NTD: it likely does not work to express in regards to "amounts payable by the LDCs" because settlement between the IESO and LDC's entails payments by LDCs to the IESO and then credits/debits by the IESO to LDCs to reflect RPP shortfalls/overages]. To the extent reasonably necessary to give effect to this Act, or any transaction contemplated hereby, IESO shall calculate the IESO Funding Shortfall for any month based on information provided by the Electricity Distributors and (i) such calculation shall be binding for all purposes; and (ii) any demonstrated inaccuracy in the calculation for any month (including any such resulting from inaccuracies in the information provided by Electricity Distributors) shall be accounted for by adjusting the IESO Funding Shortfall for a subsequent month.

"IESO Recovery" means each amount remitted to IESO (including by IESO retaining such amount) in respect of the IESO Retained Interest pursuant to Section 5(6)(b), and "IESO Recoveries" means, collectively, all such amounts received by IESO.

"IESO Remittances" means, for a Settlement Date, all Electricity Distributor Remittances received by IESO or an IESO Successor prior to the Settlement Date and that have not otherwise been remitted to the Regulatory Asset Owners (each with respect to its Regulatory Asset) in accordance with Section 5(6), including the proceeds of any enforcement action undertaken by IESO or if applicable the IESO Successor to recover payment of amounts payable by Electricity Distributors to IESO or the IESO Successor in accordance with Article 5.

"IESO Retained Interest" means IESO's right, title and ownership interest (if any) in, to and under the Regulatory Asset, which shall exclude each Investment Interest.

"IESO Retained Interest Amount" means, on a day, (a) the sum of all IESO Funding Shortfalls incurred prior to the day, plus (b) the sum of all IESO Funding Costs incurred prior to the day in accordance with Section 8(4), minus (c) the aggregate net proceeds received by IESO from or on behalf of any Absolute Assignee as consideration for a Disposition prior to the day, and minus (d) the IESO Recoveries received by IESO prior to the day.

"IESO Successor" means any entity appointed by the Province to succeed to the rights and obligations of IESO as the entity responsible for managing the Province's electricity system.

"Investment Interest" means an ownership interest in, to or under the Regulatory Asset that is acquired by an Absolute Assignee pursuant to Section 6(2), which ownership interest may include (without limitation) ownership of a specified portion on a divided basis of the assets comprising the Regulatory Asset and ownership of an undivided

[7] This has been recast to recognize that the shortfall in the first 4.5 years could exceed the entire GA amount. A more refined approach to describing the concept may be considered.

ownership interest in the Regulatory Asset, in each case as may be described in the applicable Disposition Document.

“Investment Remittance” means, for a month, the lesser of (a) the aggregate amount of all IESO Remittances for the month, and (b) the sum of the Finance Amounts due and payable by all Absolute Assignees in respect of the month.

“Maximum IESO Recovery” means, for a month, the amount (if any) by which (a) the IESO Remittances for the month, exceed (b) the sum of all Finance Amounts that are due and payable by Absolute Assignees in respect of the month.

“Maximum Transition Charge Amount” means, for a Reference Period, the aggregate amount of Future Fair Share of Green Transition Benefits that are allocable to the applicable Retail Consumer Group to such Reference Period in accordance with the Fair Allocation Plan. [NTD: When will there be visibility into this process and amount. Is this calculated on a monthly basis or for a Reference Period]

“Measurement Date” means [Insert relevant date around the Legislation Implementation Date] and any other date specified as such under the Fair Allocation Plan.

“OEB” means the Ontario Energy Board, together with its successors.

“OPG” means the corporation incorporated as Ontario Power Generation Inc. under the *Business Corporations Act* on December 1, 1998, together with its successors.

“Over-Assessed Amount” means, in respect of a Measurement Date, the amount (if any) by which (a) the Assessed Past Green Transition Costs, exceeds (b) the Estimated Past Green Transition Benefits, each as determined as of the Measurement Date.

“Period Finance Charges” means, for a Reference Period, the sum of (a) the Estimate of the Finance Amount and (b) the True-Up Amount in respect of the immediately preceding Reference Period.

“Period Transition Charges” means, for a Reference Period, the sum of (a) the Period Finance Charges for the Reference Period and (b) the IESO Available Amount for the Reference Period, calculated in accordance with Section 4(2). [Does this mean that any retained IESO Interest amount is necessarily repaid in the next “Relevant Period, subject to the Maximum Transition Charge Amount?”]

“Pledge” means, in respect of an Investment Interest of an Absolute Assignee, a lien, mortgage, charge or security interest granted to or in favour of a Pledgee by the Absolute Assignee in, to and over all or a specified portion (including a specified portion on a divided basis or by way of an undivided interest) of the Investment Interest.

“Pledgee” means a person to whom an Absolute Assignee grants a Pledge.

"Program End Date" means •, [2047].

"Province" means the Province of Ontario.

"Redemption Amount" means the amount payable by or on behalf of an Absolute Assignee to redeem, prepay or repurchase a Funding Obligation incurred by or on behalf of the Absolute Assignee, including any premium, make-whole or other additional amount becoming payable under the Funding Obligation to give effect to such redemption, prepayment or repurchase.

"Reference Period" means (a) the period from (and including) the Measurement Date to (and including) June 30, 2017, (b) each six month period commencing [May 1st and November 1st] thereafter and (c) any other period specified as such in the Fair Allocation Plan.

"Reference Period Length" means, for a Reference Period, the number of months in the Reference Period.

"Refinancing" means, in respect of a Funding Obligation incurred by or on behalf of an Absolute Assignee, that the Funding Obligation is repaid or repurchased for cancellation by or on behalf of the Absolute Assignee by applying the net proceeds obtained by the Absolute Assignee incurring one or more other Funding Obligations.

"Regulatory Asset" means the property rights and interests described in Section 6(1), which collectively is comprised of the IESO Retained Interest and each Investment Interest.

"Regulatory Asset Account" means (a) for an Electricity Distributor or an Alternative Collection Agent, any bank account into which the Electricity Distributor or such Alternative Collection Agent deposits or receives Transition Charge Collections; (b) for the IESO or an IESO Successor, any bank account into which IESO or the IESO Successor deposits or receives Transition Charges, Electricity Distributor Remittances or IESO Remittances.

"Regulatory Asset Owner" means each of (a) IESO, as owner of (and to the extent of) the IESO Retained Interest and (b) each Absolute Assignee, as owner of its Investment Interest or Investment Interests, and "Regulatory Asset Owners" means collectively IESO and each such Absolute Assignee, who together own the entirety of the Regulatory Asset and are required to exercise their individual rights of ownership in accordance with Section 6(7).

"Related Rights" means all rights of any kind (whether in tort, contract or otherwise) that attach or are attendant or incidental to any of the other property rights or interests that comprise such Regulatory Asset.

"Remittance Date" means, in respect of an Electricity Distributor, each day on which it is required to remit Electricity Distribution Remittances to IESO or if applicable the IESO Successor as specified in accordance with any Funding Obligation or, if no such day is specified in accordance with any Funding Obligation, then the Business Day preceding each Settlement Date.

"Repayment Obligation" means an obligation to repay, redeem or repurchase, or to provide for the repayment, redemption or repurchase (including by making a related Finance Reserve Deposit) of, all or a portion of the amount advanced to the Absolute Assignee under a Funding Obligation.

"Repayment" means a payment by an Absolute Assignee made to satisfy a Repayment Obligation, other than to the extent that the payment is made by applying the proceeds of a Refinancing or from Finance Reserve Withdrawals.

"Replacement Event" [should be defined, perhaps in the regulations]

"Retail Consumer" means:

(a) present and future consumers of electricity in the Province who are (i) consumers designated under section 79.16 of[, and O.Reg 95/05 under,] the *Ontario Energy Board Act, 1998*, or (ii) hold or are deemed to hold an "eligible account" under the *Ontario Rebate for Electricity Consumers Act, 2016*, other than any such consumer who has a contract with a Retailer who uses Retailer Consolidated Billing; and

(b) present and future Retailers who use Retailer Consolidated Billing,

and each case includes all such consumers and Retailers who are connected, directly or indirectly and whether a customer of an Electricity Distributor or not, to the transmission and distribution system assets located in the Province and who are taking electric delivery service within the Province, whether or not such retail consumers produce their own electricity or purchase electric generation services from a provider of electric generation services other than the owner of the Province's transmission and distribution system assets and whether or not the transmission and distribution system assets continue to be owned or operated by Electricity Distributors or operated by IESO.

"Retail Consumer Group" means, in relation to a Reference Period, the Retail Consumers who receive Electricity Invoices during the Reference Period.

"Retailer" means a person who is licensed under Part V of the *Ontario Energy Board Act, 1998* to retail electricity.

"Retailer Consolidated Billing" has the same meaning as in the *Retail Settlement Code* issued by the Ontario Energy Board.

"Service Area" means, in respect of an Electricity Distributor, the geographic area or region in which it is licensed to distribute electricity in accordance with the *Electricity Act, 1998*.

"Settlement Date" means the [last Business Day of any month].

"Transition Charge" means, for a Retail Consumer in respect of a Reference Period, (a) the Period Transition Charge, (b) multiplied by its Allocation Factor in respect of the Reference Period, divided by (c) the applicable Reference Period Length. [NTD: Do not need to create parallel process. The definition should be linked to the OEB process for determining the volumetric rate as part of the RPP process (see s. 4(2)). The OEB will determine volumetric rate based on forecast consumption, number of consumers, etc. to recover the Period Transition Charges.]

"Transition Charge Collection" means any amount received or deemed by this Act to have been received upon the collection of a Transition Charge paid by or on behalf of a Retail Consumer, including any proceeds arising from the exercise and enforcement of any related rights and interests under or in respect of the Regulatory Asset.

"True-Up Amount" means, in respect of a Reference Period, the amount (which may be a negative amount) calculated by the Financial Services Agent equal to (a) the Estimate of the Finance Amount for the related True-Up Period, minus (b) the Actual Finance Amount for such related True-Up Period, plus (c) the Collected Amount Adjustment for such related True-Up Period.

"True-Up Period" means, in relation to a Reference Period, the period from and including the [30th] day immediately preceding the first day of the Reference Period, to but excluding the [30th] day immediately preceding the last day of the Reference Period.

"Undertaking of the Lieutenant Governor in Council" means the undertaking of the Lieutenant Governor in Council given under Section 11(2).

Article 3 – Transition Charges

(1) **Retail Consumer Obligation to Pay a Transition Charge** – Each Retail Consumer shall pay each Transition Charge charged to it in any Electricity Invoice issued to such Retail Consumer by its Electricity Distributor or by an Alternative Servicer under Section 4(1), in each case on the terms of payment specified in the related Electricity Invoice. [Is the intent that IESO can recover the IESO retained interest only through the Transition Charges, subject to the Maximum Transition Charge Amount and after payment of the Assigned Interest?]

(2) **Indebtedness of Retail Consumers** – Until paid, a Transition Charge charged to a Retail Consumer in an Electricity Invoice shall, together with any applicable late payment fees and finance charges arising under the terms of the Electricity Invoice with respect to such Transition Charge, constitute non-bypassable indebtedness of the Retail Consumer

to the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset. Such indebtedness shall constitute a single and separate[8] debt obligation owing by the Retail Consumer, which subject to Article 5 may be enforced independently from any other payment obligation or indebtedness owing by the Retail Consumer under the Electricity Invoice or otherwise.[9]

(3) **No Set-Off or Reduction** – A Retail Consumer may not set-off or reduce (by counterclaim, defense or otherwise) the amount payable by it in respect of any Transition Charge, including any set-off against or in respect of any amount owing or becoming payable to such Retail Consumer by its Electricity Distributor, any Regulatory Asset Owner or any other person.

(4) **Allocation of Retail Consumer Payments** – If an Electricity Distributor receives a payment made by or on behalf of a Retail Consumer in respect of amounts due and payable under one or more Electricity Invoices that is less than the total amount payable thereunder, such payment shall be allocated on a *pro rata* basis to the payment of related Transition Charges and other invoiced amounts and the amount so allocated as a payment of related Transition Charges shall be deemed to constitute a Transition Charge Collection.

(5) **Transition Charges are Irrevocable** – The Transition Charges arising under or in respect of Funding Obligations incurred under the Financing Plan (including any adjustments based on modifications to such Funding Obligations made in compliance with the Financing Plan or as a result of amendments to the Financing Plan made in accordance with Section 9(3)) are deemed to be irrevocable, final and effective without any further action, except to the extent of manifest calculation error. For greater certainty, a Transition Charge may include Finance Amounts for a Reference Period whether or not the payment of such Finance Amounts are inconsistent with the Fair Allocation Plan applicable at the time such payments are due and payable, whether or not the related Funding Obligation was properly incurred under the Financing Plan. In no case shall a Funding Obligation incurred under the Financing Plan be affected by a subsequent amendment to the Fair Allocation Plan.

Article 4 – Invoicing of Transition Charges

(1) **Inclusion of Transition Charges in Electricity Invoices** – Each Electricity Distributor and if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, specify the Transition Charge to be charged to a Retail Consumer pursuant to

[9] Torys has also suggested that deemed conditions of licenses for distributors, retailers and unit sub-metering providers, could be included as conditions, to require them to collect and remit amounts in accordance with this legislation. Section 4(4) in respect of a related Reference Period in each Electricity Invoice issued by the Electricity Distributor or if applicable by the Alternative Servicer to the Retail Consumer in respect of such Reference Period. Upon the inclusion of a Transition Charge in an Electricity Invoice, the obligation to pay such amount shall be binding on the applicable Retail Consumer.

(2) **Calculation of the Period Transition Charge** – Not later than [35] days prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services Agent on its behalf) shall provide the OEB with written notice of each Estimate of a Finance Amount payable by it or on its behalf in respect of the Reference Period. [35] days prior to the first day of a Reference Period, IESO or Successor IESO if applicable shall specify the IESO Retained Interest Amount and any IESO Financing Costs that are due and payable and remain unpaid on such day. Not later than one month prior to the first day of a Reference Period, the OEB shall calculate the Period Transition Charge applicable to the Reference Period based on the calculations and information set forth in such written notices received from the Absolute Assignees and based on such amounts specified by IESO or Successor IESO, which calculations, information and amounts shall be determinative, except to the extent of manifest calculation error or misstatement.

(3) **Calculation and Attribution of Transition Charges** – Not later than 25 days prior to the first day of a Reference Period, the OEB shall apply the Attribution Methodology to determine the Allocation Factor for each Retail Consumer of the applicable Retail Consumer Group.

(4) **Notice of Transition Charges** – Not later than 20 days prior to the first day of a Reference Period, the OEB shall inform each Electricity Distributor and if applicable any Alternative Servicer of the Transition Charges to be specified in the Electricity Invoices to be issued to each Retail Consumer of the applicable Retail Consumer Group who has a billing address in the Electricity Distributor's Service Area.

(5) **Adjustments** – The amount of any Transition Charge charged to a Retail Consumer and specified as such in an Electricity Invoice shall be determinative of the amount of indebtedness created thereby and owing in respect of such Transition Charge, except to the extent of any manifest calculation error.

(6) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 4 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 4 to impose, attribute, charge, bill and invoice the Transition Charges.

(7) **IESO Successor** – Any IESO Successor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of IESO under Article 4 in the same manner and to the same extent as IESO, including the obligation to calculate and provide notice of Transition Charges.

(8) **Appointment of an Alternative Servicer** – If a Replacement Event occurs in respect of any Electricity Distributor, the Absolute Assignees may appoint an Alternative Servicer to perform some or all of the obligations and duties required to be undertaken by such Electricity Distributor under this Article 4, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Servicer shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor. Any Electricity Distributor that is replaced under this Section 4(8) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in the performance of such obligations and duties to the Alternative Servicer and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Servicer to perform such obligations and duties on behalf of the Regulatory Asset Owners.

(9) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, an Alternative Servicer or any other person who may be authorized to issue Electricity Invoices to Retail Consumers for a failure to impose, attribute, charge, bill or invoice Transition Charges.

(10) **Regulations** – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Servicer to ensure that Transition Charges are properly charged to Retail Consumers and specified as such in Electricity Invoices.

Article 5 – Collections and Remittances

(1) **Duty to Collect as Agent** – Electricity Distributors or if applicable any Alternative Collection Agent shall, as an agent of the Regulatory Asset Owners, undertake [diligent][reasonable][10] efforts to collect amounts owing by Retail Consumers in respect of Transition Charges charged to such Retail Consumers in Electricity Invoices issued by the Electricity Distributor or if applicable such Alternative Collection Agent.

(2) **Segregation of Transition Charge Collections** – An Electricity Distributor or if applicable any Alternative Collection Agent shall promptly segregate Transition Charge Collections from other payments received by it from Retail Consumers and deposit such Transition Charge Collections into its Regulatory Asset Account.[11] Prior to and following a deposit of Transition Charge Collections having been made into its Regulatory Asset Account, the Electricity Distributor or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners.

(3) **Electricity Distributor Remittances** – On each applicable Remittance Date, an Electricity Distributor shall remit all Transition Charge Collections received by it from Retail Consumers in respect of the related Reference Period to or to the account of IESO or if applicable the Alternative Collection Agent.

(4) **Duty to Collect Electricity Distributor Remittances** – IESO or if applicable an IESO Successor shall, as an agent of the Regulatory Asset Owners, undertake [diligent][reasonable] efforts to accept and collect Electricity Distributor Remittances from Electricity Distributors and Transition Charge Collections from Retail Consumers that pay their Electricity Invoices directly to IESO.[12]

(5) **Segregation of Electricity Distributor Remittances** – IESO and if applicable an IESO Successor shall promptly segregate Electricity Distributor Remittances from other payments received or held by it and deposit such Electricity Distributor Remittances into its Regulatory Asset Account. Prior to and following a deposit of Electricity Distributor Remittances having been made into its Regulatory Asset Account, IESO or if applicable any IESO Successor shall hold such amounts in trust for the Regulatory Asset Owners.

(6) **IESO Remittances** – (a) on each Settlement Date[13], IESO and if applicable an IESO Successor shall remit all amounts on deposit in its Regulatory Asset Account in respect of the Investment Interest to or to the account of the Absolute Assignees; and (b) on each Settlement Date[14], IESO and if applicable the IESO Successor shall remit all amounts on deposit in its Regulatory Asset Account in respect of the IESO Retained Interest to the IESO. [NTD: to discuss. I had thought that what we had discussed was that IESO could recover the IESO Retained Interest Amount not as part of the Transition Charges, but independently through its own processes. This would require an allocation, but not express subordination. If subordination is required together with a Maximum Transition Charge Amount, consider whether this puts IESO in the position of a residual interest holder and consider impact on ability to book asset, consolidation and prospectus.

(7) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 5 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 5 to collect Transition Charges and make remittances of Electricity Distributor Remittances.

(8) **IESO Successor** – IESO Successor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of IESO under Article 5 in the same

manner and to the same extent as IESO, including the obligation to collect Transition Charge Collections, Electricity Distributor Remittances and to remit IESO Remittances.

(9) **Owners of Distribution Assets** - If any person other than an Electricity Distributor acquires distribution system assets in the Province or invoices or collects electricity distribution rates in the Province[15], then such person shall, if requested by the Absolute Assignees, be obligated to act diligently to (a) facilitate the invoicing and collection of any Transition Charges applicable to Retail Consumers in its applicable service area, including all consumers connected to the electricity distribution system assets and taking electric delivery service located within such service area; (b) allocate partial payments by Retail Consumers as provided in this Act; (c) exercise all enforcement rights of the Absolute Assignees for the benefit of an Absolute Assignee; and (d) remit any Transition Charge Collections to the Absolute Assignees or Pledgees, as applicable, each in accordance with its Investment Interest.

(10) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, an Alternative Collection Agent, any owner of electricity distribution system assets in the Province or any other person who may be authorized to collect electricity distribution and use charges from Retail Consumers for a failure to collect Transition Charges, remit or collect Electricity Distributor Remittances or remit IESO Remittances, as and to the extent applicable under Article 5. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure.

(11) **Appointment of an Alternative Collection Agent** – If a Replacement Event occurs in respect of any Electricity Distributor, the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Collection Agent to perform some or all of the collection, segregation and remittance obligations in respect of the Transition Charges otherwise required to be undertaken by such Electricity Distributor, as applicable, under Article 5, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Collection Agent shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor, as applicable. Any Electricity Distributor that is replaced under this Section 5(11) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in, to and over the Regulatory Asset, including its Regulatory Asset Account, to the Alternative Collection Agent and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Collection Agent to enforce the Regulatory Asset on behalf of the Absolute Assignees.

---

[15] This is in anticipation of a possible future restructuring of the distribution system.

(12) **No Set-off, etc.** - The Regulatory Asset, including rights in Transition Charges, Transition Charge Collections, and the interests of a Regulatory Asset Owner, an Absolute Assignee and a Pledgee therein, may not be setoff or reduced (including by counterclaim, surcharge or defense) by any Retail Consumer, any Electricity Distributor, IESO, Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or in connection with any default, bankruptcy, reorganization or other insolvency proceeding of any Electricity Distributor, IESO, Alternative Collection Agent or any owner of distribution system assets in the Province, any affiliate or successor thereof or any other entity or otherwise.[16]

(13) **Sequestration** – If any Electricity Distributor, IESO, the Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or entity authorized to collect Transition Charges, defaults on any required remittance of Transition Charge Collections, Electricity Distribution Remittances or IESO Remittances under Article 5, any court in the Province, upon application by and of the Absolute Assignees acting collectively under the Collective Action Agreement and without limiting any other remedies otherwise available to the Absolute Assignees or Pledgees, shall order the sequestration and payment of the Transition Charge Collections, Electricity Distribution Remittances and IESO Remittances, as applicable, for the benefit of the Absolute Assignees, each with respect to its Investment Interest, and the Pledgees as applicable.[17]

(14) Regulations – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Collection Agent to ensure that rights, interests, entitlements, benefits and proceeds in, to, under and from the Regulatory Asset are of fully realized by some or all of the Absolute Assignees and Pledgees.

Article 6 – The Regulatory Asset

(1) **Composition** – The Regulatory Asset shall constitute a current and irrevocable property right and interest consisting, collectively, of the following rights and interests (without duplication):

a. the right of IESO (i) to record its IESO Retained Interest in its accounts in accordance with Section 8(1), having a stated amount from time to time equal to the IESO Retained Interest Amount; and (ii) to receive IESO Recoveries from time to time in accordance with Section 5(6)(b);

---

[16] Consider whether it makes sense to create a "deemed collection" payment obligation on Electricity Distributors to the extent a Retail Consumer reduces its payment of Transition Charges, despite this language. Same for Electricity Distributor Remittances and IESO Remittances.

[17] Consider adding or substituting this provision for a right to appoint a receiver.

b. the right to impose, bill, invoice, collect and receive Transition Charges from Retail Consumers, including the right to determine the amount of Transition Charges in accordance with this Act;

c. the right to enforce the obligations and indebtedness of each Retail Consumer to pay the Transition Charges charged to the Retail Consumer from time to time in accordance with Article 3, together with all related late payment fees or interest charges arising in respect thereof under the related Electricity Invoices;

d. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Servicer to impose, attribute, charge, bill and invoice the Transition Charges in accordance with Article 4;

e. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Collection Agent to collect, receive and remit amounts received by it in respect of Transition Charges as Electricity Distributor Remittances to or to the account of IESO or if applicable the IESO Successor in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5;

f. the right to enforce the duties and obligations of IESO and if applicable an IESO Successor to collect and receive Electricity Distributor Remittances and to remit IESO Remittances to or to the accounts of the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset, in each case in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by it to recover payment of Electricity Distributor Remittances in accordance with Article 5;

g. the right to receive and collect all Transition Charge Collections, all Electricity Distributor Remittances and all IESO Remittances in accordance with Article 5;

h. all rights and entitlements under each Regulatory Asset Account and all amounts on deposit in any such Regulatory Asset Account;

i. all Related Rights; and

j. all revenue, collections, claims, payments, money and proceeds of or derived from the rights described in (a) through (i), regardless of whether such revenue, collections, claims, payments and proceeds are imposed, invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

A Regulatory Asset and the property rights and interests therein shall exist whether or not Transition Charges have been imposed, charged, invoiced, accrued or collected and

notwithstanding that the imposition, attribution, invoicing and collection of Transition Charges will depend on further actions that may not have occurred.

(2) **Validity of Dispositions** – [NTD: Addressed in Section 13(3)]. IESO may Dispose of all or any part of its interest in a Regulatory Asset in favour of an Absolute Assignee and, any such Disposition, when made, shall be valid and enforceable in accordance with the terms of the related Disposition Document and shall be effective to confer upon the Absolute Assignee thereof a valid property right and interest in, to and under the applicable Investment Interest (or relevant portion thereof) in accordance with the terms of such Disposition. Without limiting the foregoing, any Disposition that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as a true sale and absolute transfer of the Regulatory Asset Owner's applicable right, title, and interest in, to and under the Regulatory Asset (or relevant portion thereof), and not merely as a Pledge thereof. Upon any Disposition the assigner or seller under the applicable Disposition Document shall retain no right, title or interest in the Investment Interest expressed to be subject to the Disposition.

(3) **Perfection and Priority of Dispositions** – Any Disposition of an interest in a Regulatory Asset shall be vested, valid, binding and perfected from the time when such Disposition is made. Such Disposition shall be perfected, vested, valid and binding as against the transferring Regulatory Asset Owner and all other persons who have claims of any kind (whether in tort, contract or otherwise) against the transferring Regulatory Asset Owner, irrespective of whether such persons have notice of the Disposition and the property rights and interests acquired by the Absolute Assignee under such Disposition shall be free and clear of any liens or other adverse interests in favour of such other persons.

(4) **Validity of Pledges** – [NTD: Section 13(3)], a Pledge by an Absolute Assignee may be made to secure any related Funding Obligation and when made shall be valid and enforceable in accordance with its terms and shall be effective to confer upon the Pledgee a valid security interest in, to and in respect of the related Investment Interest in accordance with the terms of the Pledge. Other than as required by the Financing Plan, no consent of any person shall be required to give effect to a Pledge made to secure any Funding Obligation.

(5) **Perfection and Priority of Pledges** - For purposes of the *Personal Property Security Act* (the "PPSA"), the Regulatory Asset shall be intangible personal property and any Pledge made by an Absolute Assignee in respect of a Funding Obligation shall, subject to the terms thereof, give rise to a security interest of which the PPSA applies, and may be perfected by filing a financing statement under the PPSA on that basis. All proceeds of a related Investment Interest that are subject to such a Pledge that are received by the Absolute Assignee shall immediately be subject to the such Pledge, and the security

interest in such proceeds shall be perfected pursuant to the PPSA.[18] A Pledge perfected under the PPSA shall be a continuously perfected security interest and shall have priority over any other lien or security interest, created by operation of law or otherwise, that may attach to the property rights and interests in the Investment Interest subject to the Pledge unless the Pledgee has otherwise agreed in writing. [Covered by the PPSA]

(6) **Enforcement of Property Rights** – The rights of any Regulatory Asset Owner to collect and enforce its rights and interests in, to or in respect of the Regulatory Asset shall be exercised in the manner set forth in Article 5. [Add Default rights of a Pledgee]

(7) **Owners of a Specified Portion of the Regulatory Asset** – A Regulatory Asset Owner may effect a Disposition to an Absolute Assignee of a specified portion of its rights and interests in the Regulatory Asset, including by way of a Disposition of a divided or an undivided interest therein as specified in a related Disposition Document. In no circumstance may the specified portions of the rights and interests in the Regulatory Asset owned by all Regulatory Asset Owners be greater than all of the rights and interests that comprise the Regulatory Asset in the aggregate.

(8) **Collective Action Required** – If a Regulatory Asset Owner's rights and interests in the Regulatory Asset comprises less than the entire property right and interest constituted by the Regulatory Asset, such Regulatory Asset Owner shall only enforce such right and interest on a collective and coordinated basis with each other Regulatory Asset Owner in accordance with the Collective Rights Agreement.

Article 7 – Establishment of the Fair Allocation Plan[19]

(1) **Adoption of the Fair Allocation Plan** – The Delegate may, [by written declaration,] designate and adopt a Fair Allocation Plan in compliance with Article 7. The Fair Allocation Plan so designated and adopted shall be the Fair Allocation Plan for all purposes of this Act, except if amended, amended and restated or terminated by a further written declaration made by the Delegate in compliance with Section 7(4).

(2) **Principles and Parameters** – A Fair Allocation Plan shall seek to allocate Future Fair Share of Green Transition Benefits across present and future Retail Consumer Groups

---

[18] Consider whether to simply leave this and have a financing statement be filed under the PPSA. This would normalize the security interest and reduce any adverse suggestion that security would not otherwise arise.

19 The idea is that the Fair Allocation Plan will be set once at the outset based on the principles and parameters described here, all as applied based on information available and the reasonable expectations and discretion of the delegate at such time. If the expectations are not fulfilled (e.g., generators may choose to retire their facilities at the end of their current procurement contracts and not invest in extending service lives to secure further procurement contracts), the Fair Allocation Plan will be unaffected, unless it is specifically amended (assuming amendments will be permitted by the legislation).

on a basis that the Delegate, in its sole and absolute discretion, determines to be equitable, having regard to the following principles and parameters:

1. Future Fair Share of Green Transition Benefits should be allocated over the period ending on the Program End Date.

2. The Fair Allocation Plan should specify the Reference Periods for the purpose of identifying applicable Retail Consumer Groups and allocating Future Fair Share of Green Transition Benefits among them on a relative basis over time.

3. The share of Future Fair Share of Green Transition Benefits allocable to a particular Retail Consumer Group in respect of a Reference Period should be proportionate to a reasonable assessment of the benefits of the Green Generation Initiative to the Retail Consumer Group over such Reference Period.

4. The share of Future Fair Share of Green Transition Benefits to be allocated to a Retail Consumer Group and any future Retail Consumer Group at a particular time should not exceed the Estimated Future Green Transition Benefits, measured in respect of the Reference Periods following such particular time and to the Program End Date.

5. No future Retail Consumer Group should be allocated an unreasonably disproportionate share of Estimated Future Green Transition Benefits. Except in exceptional circumstances or in the case of any reallocation of an Over-Assessed Amount as contemplated in 7, below, the Future Fair Share of Green Transition Benefits to be allocated under a Fair Allocation Plan to any future Retail Consumer Group should have regard to *[Insert formula if a year-over-year maximum amount is determined to be appropriate]*.

6. The time value of money should be reflected in the Fair Allocation Plan, in order to equate the relative values of the nominal allocations of Future Fair Share of Green Transition Benefits, calculated in current dollars, to future Retail Consumer Groups over time.

7. To the extent there has been an Over-Assessed Amount, the Fair Allocation Plan may determine that an adjustment should fairly be made to rebate Retail Consumers for such an amount, by reducing the costs otherwise attributable under the Act to such Retail Consumers. The relative costs of the Green Generation Initiative are reflected under the Act by the attribution of Transition Charges to such Consumer Groups, based on the Financing Plan seeking to track the allocations of benefits under the Fair Allocation Plan. Accordingly, the Maximum Transition Charge Amount determined for one or more Retail Consumer Groups having regard to the Fair Allocation Plan otherwise applicable may be appropriately reduced to recognize the effect of the Over-Assessed Amount. In such a case, a determination to reduce the Maximum Transition

Charge Amount applicable for certain related Reference Periods should have regard to the principle that the corresponding rebate should be extended to benefit the Consumer Group or Consumer Groups in closest proximity to the Legislative Implementation Date.

(3) **Attribution Methodology** – The Fair Allocation Plan shall specify the Attribution Methodology for the purposes of allocating the Period Transition Charges across the Retail Consumers of a particular Retail Consumer Group. The Attribution Methodology shall result in an attribution of such Transition Charges that is considered by the Delegate to be equitable, and may have regard to such principles and parameters as may be further set forth in a Regulation.

(4) **Amendments of the Fair Allocation Plan** – The Fair Allocation Plan may be amended, amended and restated or terminated by the Delegate, provided that such amendment, amendment and restatement or termination shall (a) not be inconsistent with the principles and parameters set forth in (2) or (3), above, or the Regulation and (b) comply with any restrictions or limitations specified with respect thereto in any Funding Obligation.

Article 8 – The IESO Retained Interest

(1) **Maintain Books of Account** – IESO may maintain books of account to record the IESO Retained Interest Amount and all adjustments thereto from time to time. Such books of account shall be determinative with respect to the amount of IESO's related regulatory asset. [Is this different from the Regulatory Asset or the IESO Retained Interest?]

(2) **[NTD: Leave to agreements]**

(3) **Dispositions** – IESO may, from time to time, effect a Disposition to an Absolute Assignee if (a) the Absolute Assignee has or will concurrently become bound by the Collective Rights Agreement; (b) the Financial Services Agent confirms in writing that the Disposition is permitted under the Financing Plan; and (c) the net proceeds payable to IESO from the sale of the related Investment Interest would not exceed the IESO Retained Interest Amount immediately before the time of such Disposition. [NTD: Is (c) necessary?]

(4) **No Continuing Interest in any Investment Interest** – IESO shall have no continuing right or interest in any Investment Interest subject to a Disposition effected by IESO under a Disposition Document to which IESO is a party.

(5) **IESO Financing Costs** – IESO may incur reasonable financing costs in order to finance its ownership of the IESO Retained Interest.

(6) **IESO Recoveries** – IESO shall, in respect of a month, be entitled to receive from IESO Remittances on a related Settlement Date the amount (if any) available to IESO under Section 5(6)(b).

Article 9 – The Financing Plan

(1) **Power to Prepare, Implement and Amend the Financing Plan** – The Financial Services Agent shall be authorized to prepare, implement and amend the Financing Plan. If the Financial Services Agent is unwilling or unable to prepare and propose the adoption of the Financing Plan, the Delegate may by written declaration designate one or more other persons who shall be authorized to prepare, implement and amend the Financing Plan.

(2) **Terms and Conditions of the Financing Plan** – The Financing Plan shall establish the basis for each Absolute Assignee's funding decisions. The Financing Plan shall have regard to the principles and parameters set forth in Schedule 3 and such other conditions and requirements as may be specified in a written declaration of the Delegate or in accordance with the Regulation.

(3) **OEB Approval** – Any Additional Funding Charge payable to or for the benefit of the Financial Services Agent shall be subject to review and approval by the OEB.

(4) **OEB Review** – The OEB [shall] undertake an annual review of the records maintained by the Financial Services Agent for the purpose of confirming that the Funding Obligations incurred and the Finance Amounts paid by or on behalf of the Absolute Assignees were incurred and paid, respectively, in material conformity with the Financing Plan.

(5) **Replacement of the Administrative Agent** – If the OEB identifies deficiencies or makes recommendations in its review under Section 9(4), the Administrative Agent shall take reasonable measures to remedy such deficiencies if remediable, and shall in any event have regard to the recommendations of the OEB in relation to further actions undertaken by the Financial Services Agent under the Financing Plan. If the Financial Services Agent is unwilling or unable to reflect such recommendations in relation to such further actions, the Delegate may by written declaration designate one or more other persons who shall thereafter become the Financial Services.

(6) **Obligation to Apply IESO Remittances** – The Financial Services Agent shall ensure that amounts transferred to it under Article 5, as agent for and on behalf of the Absolute Assignees, or otherwise in respect of or as proceeds from an applicable Investment Interest shall only be applied or used to pay related Finance Amounts when they are due and payable and for no other purpose.

(7) **Non-Recourse** – The Financing Plan shall be implemented so that Funding Obligations incurred shall be without recourse to or to any assets of the Electricity Distributors, any Alternative Servicer, any Alternative Collection Agent, IESO, any IESO Successor, the Financial Services Agent, the OEB, the Province or the Lieutenant Governor in Council, other than if and to the extent that such persons or entities are liable for the performance of obligations or duties arising under this Act or expressly agree to become liable

pursuant to any Funding Obligation or obligation in relation to a Finance Amount. [All Funding Obligations shall contain a statement to the following effect: "Neither the full faith and credit nor the taxing power of the Province of Ontario is pledged to the payment of the principal of, or interest on, this [obligation].]

(8) Incurrences are Binding – Each Disposition made to or by an Absolute Assignee, all amounts payable or becoming due and payable by or on behalf of an Absolute Assignee under or in connection with any obligation purporting to be a Funding Obligation and each Pledge entered into by an Absolute Assignee, shall be valid and binding, including in determining the amount of related Transition Charges, notwithstanding any defect in the manner in incurrence or any inconsistency with the Fair Allocation Plan or the Financing Plan.

[Article 10 – Compliance Matters[20]

(1) Right of the [OEB] to Inspect Books and Records - For the purpose of investigating compliance with the provisions of this Act, the OEB shall have the right, jurisdiction, power and authority to examine the books and records of *[Insert names if any]*.

(2) [OPG's Rate Settings – When setting other rates for or in respect of OPG, the OEB shall not take into account (a) the administrative or servicing fees charged by OPG as Financial Services Agent [in excess of the actual incremental costs incurred by such person of providing administrative or servicing services]; (b) the cost consequences to OPG of being the Financial Services Agent; or (c) the consequence of OPG consolidating the assets and liabilities of any Financing Entity for OPG's accounting purposes, in each case in setting any regulated payment amounts for OPG.][21]

Article 11 – Undertaking of the Lieutenant Governor in Council[22]

(1) No Action to limit, alter, or impair or terminate Transition Charges, the Regulatory Asset or Collections – The [Lieutenant Governor in Council] shall not in any way take or permit any action to reduce, impair, postpone or terminate the obligation of Retail Consumers to pay Transition Charges or to impair the Regulatory Asset or the collection

---

[20] As noted above, the outcome of any regulatory action undertaken by the OEB will not affect Funding Obligations that have been incurred under the Financing Plan. This Article and any potential role for the Auditor General is still under consideration.

[21] As an alternative to this provision, consider clarifying under s. 78.1(4) of the OEB Act (which currently gives the OEB discretion in setting payment amounts subject to O. Reg. 53/05) that the OEB in setting OPG payment amounts for prescribed generation shall not consider OPG's role as Administrative Agent of any Financing Entities associated with the Fair Hydro initiative, perhaps with the exception of any operating fees that may be received by OPG for performing that role.

[22] Under consideration, including the dealers' request for a "servicer guarantee" and a "contractual guarantee" to address a "Change of Law" or if all or a portion of the legislation is *ultra vires*, requiring (at the lenders option), the Province to pay principal and interest on the outstanding debt until maturity or payout the entire debt including any make-wholes.

or recovery of Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances, either directly or indirectly, including through the introduction of any bill or the passing of any legislation or regulation having such effect. The amount of Transition Charges determined under this Act shall not be subject in any way to reduction, impairment, postponement or termination as a result of any action taken or failure by the Lieutenant Governor in Council, including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(2) **Undertaking and Agreement** – The [Lieutenant Governor in Council] shall not:

(a) in any way take or permit any action that limits, alters or impairs the value of any Investment Interest;

(b) except as required by the estimates and adjustments made in determining the True-up Amount, reduce, alter or impair Transition Charges that are imposed, billed, invoiced, collected and remitted for the benefit of the Absolute Assignees or any Pledgee from time to time;

(c) permit the amendment, amendment and restatement or termination of the Fair Allocation Plan if such amendment , amendment and restatement or termination would adversely affect the validity or enforceability of any Funding Obligation or the rights of an Absolute Assignee or Pledgee thereunder,

in each case including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(3) **Successor IESO** – If IESO is restructured, dissolved or becomes insolvent or is otherwise incapable of performing its obligations under this Act, Successor IESO shall be established to perform such obligations.

(4) **Compensation for Failure** – Absolute Assignees shall be compensated for any losses suffered by them as a result of any failure by the Lieutenant Governor in Council to comply with its undertakings and agreements in this Article 11.[23]

(5) **No Wind-up of Financing Entity**. No Financing Entity may be voluntarily wound up, liquidated or dissolved until one year after all of its Funding Obligations are repaid.

(6) **References to the Undertaking and Agreement** – Any non-confidential reference to the Undertaking of the Lieutenant Governor in Council, including in marketing materials and other documentation authorized for use by the Administrative in connection with any Funding Obligation, may be made provided that [*Add conditions to protect the Province*].

Article 12 – Regulations

Regulations may be made under this Act for the purposes described in Sections •,•,• and • and may be promulgated for any of the following purposes:

(a) to set standards and measures regarding the commercially reasonable requirements of the Province associated with an Absolute Assignee incurring Funding Obligations or becoming obligated to pay any Finance Amount, including to establish guidelines regarding all-in funding costs; permitted Additional Funding Charges; required maturities and redemption and termination rights of Funding Obligations; liquidity requirements, in each case to a Financing Plan that is consistent in its effect with the Fair Allocation Plan;

(b) to establish and empower one or more regulated entities to undertake decision-making activities with respect to this Act;

(c) to set out reasonable requirements regarding the appointment or retention of advisors, agents, service providers, contract counterparties, including in relation to 'market terms and conditions' parameters;

(d) to provide for audit and compliance standards applicable to those persons who are or may become obligated or have duties that arise under this Act [or under any Funding Obligation];

(e) to provide for any pre-vetting and approval requirements in relation to any incurrence by an Absolute Assignee of any Funding Obligation or obligation to pay any Finance Amount; and

(f) to provide for appeal and due process considerations in connection with the establishment, adoption, implementation and review of the Fair Allocation Plan or the Financing Plan.

Article 13- Miscellaneous[24]

(1) **Choice of law** – The law governing, as applicable, the validity, enforceability, attachment, perfection, priority and exercise of remedies with respect to the transfer of an interest or right or creation of a security interest in the Regulatory Asset, any Transition Charge or the Undertaking of the Province shall be the laws of the Province.

---

[24] OPG would like the specific amendments related to OPG to be included in the Bill.]

(2) **Conflict of law** – In the event of conflict between this Act and any other law of the Province regarding the attachment, assignment or perfection, or the effect of perfection, or priority of any Disposition or Pledge, this Act shall govern to the extent of the conflict.

(3) **No further acts or approvals required** - Notwithstanding any provisions of any law of the Province to the contrary, no approvals, notices or authorizations other than those specified in this Act shall be required with respect to the actions to be taken in compliance with this Act, including under the Financing Plan or in relation to the establishment of the Fair Allocation Plan, and the transactions and contracts authorized in or contemplated by this Act or the Financing Plan, including the incurrence of any Funding Obligation, any Disposition, any Pledge or in the payment and performance of any attendant or incidental contract and any related expenses incurred to facilitate the preparation and implementation of the Financing Plan.

(4) **Effect of invalidity after the Incurrence of any Funding Obligation** - Effective on the date that a Funding Obligation is incurred under this Act, if any provision of this Act is held to be invalid or is invalidated, superseded, replaced, repealed or expires for any reason, that occurrence shall not affect any action allowed under this Act that is taken by any person who is or may become obligated or have duties that arise under this Act and any such action shall remain in full force and effect.

(5) **Severability** - If any Article, Section, paragraph or subparagraph of this Act or the application thereof to any person, circumstance or transaction is held by a court of competent jurisdiction to be unconstitutional or invalid, the unconstitutionality or invalidity shall not affect the constitutionality or validity of any other Article, Section, paragraph or subparagraph of this act or its application or validity to any person, circumstance or transaction, including the irrevocability of Transition Charges, the validity of the Regulatory Asset, the incurrence of any Funding Obligation, any Disposition, any Pledge, or the collection and recovery of Transition Charge Collections. To these ends, the Legislature hereby declares that the provisions of this Act are intended to be severable and that the Legislature would have enacted this Act even if any Article, Section, paragraph or subparagraph of this Act held to be unconstitutional or invalid had not been included in this Act.

Schedule 3[25]

Principles and Parameters for Establishing the Financing Plan

The following principles and parameters provide a guideline as to what a Financing Plan should address:

(1) in respect of each Reference Period, make reference to the allocations of Future Fair Share of Green Transition Benefits to each Reference Group contemplated by the Fair Allocation Plan;

(2) estimate IESO Funding Shortfalls for each Reference Period;

(3) consider alternative funding arrangements suitable to fund the estimated IESO Funding Shortfalls, including short term and/or long term Funding Obligations;

(9) consider quantities, maturities, payment obligations, prepayment or redemption rights and such other features of Funding Obligations so that payments made for a Reference Period reasonably correspond to the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

(4) if the anticipated amount of any Repayment (together with payments of other Finance Amounts) to be made in respect of a Reference Period would materially exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable Retail Consumer Group under the then current Fair Allocation Plan, diligent efforts should be made to determine whether a Refinancing or deferral of such Repayment may be reasonably and cost-effectively effected based on then prevailing market terms, conditions an circumstances;

(5) reflect the assumptions and requirements specified in any contemplated Funding Obligation (e.g., any limit on the maximum amount of Transition Charges charged to a hypothetical Retail Consumer relative to his or her monthly electricity bill, as prescribed by any rating agency that ascribes its credit rating to or in respect of the Funding Obligation having regard to the application of the Allocation Methodology);

(6) incur Funding Obligations from time to time on the best terms available at such time for a financing transaction of the size and type contemplated, and having regarding to the following parameters:

a. whether the Absolute Assignees will require committed access to short term liquidity to cover estimated IESO Funding Shortfalls prior to incurring fixed term Funding Obligations, and the amount and repayment terms of any such required

[25] Awaiting input from Torys based on OPG mark-up of Financing Plan sections.

liquidity; provided that any Repayment required to be made under the terms of such short-term liquidity would not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

b. the basis upon which the Financial Services Agent will select the term to maturity of any other Funding Obligations; provided that any Repayments required to be made under the terms of such Funding Obligations should not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

c. the basis upon which the interest rates applicable to such Funding Obligations would be determined;

d. the reference capital or finance market in which such Funding Obligation would be incurred, including markets outside of Canada if considered by the Financial Services Agent to be appropriate in the circumstances;

e. the currency of payments under such Funding Obligations and, if the Funding Obligations are denominated in a currency other than Canadian dollars, the basis upon which the Financial Services Agent shall cause the applicable Absolute Assignee to enter into hedging transactions to mitigate currency risk, including acceptable minimum and maximum coverage levels, having regard to the availability of related derivatives having notional amounts corresponding to the repayment and maturity profile of such Funding Obligations;

f. the basis upon which the Financial Services Agent will select counterparties under any transaction to be entered into by an Absolute Assignee, including any paying agent, servicer, cash manager, liquidity provider, hedge counterparty, account bank, lender, note trustee, security trustee, paying agent, registrar/transfer agent, financial services agent, arranger or manager;

g. the basis upon which the Financial Services Agent will manage counterparty risk, including by providing for maximum counterparty exposure limits having regard to concentration, credit and other identified risks with respect to individual counterparties or countries;

h. the basis upon which the Financial Services Agent will negotiate and settle Finance Amounts, including the amount of any Redemption Amounts, Finance Reserve Deposits and Additional Funding Charges;

(7) the basis upon which Funding Obligations may be redeemed, prepaid, repurchased or otherwise affected, having regard for the need to minimize debt service charges and other Funding Costs, and the need to maintain a stable funding platform to finance the IESO Funding Shortfalls from time to time on a basis that is consistent with the allocations of Future Fair Share of Green Transition Benefits to applicable Reference Groups under the Fair Allocation Plan;

(8) the basis upon which any Repayments, Funding Costs and Redemption Amounts will be paid, including any defeasance, sinking fund or through other reserves or liquidity facilities;

(9) the basis upon which fees, charges, expenses, costs, indemnities, reimbursements and other amounts payable to or for the benefit of the Financial Services Agent and other agents and service providers to the Absolute Assignees may be determined, allocated and paid;

(10) the timing and basis upon which Finance Reserve Deposits and Finance Reserve Withdrawals may be made;

(11) the basis upon which any obligations for any other Additional Funding Charges may be incurred and paid;

(12) the basis upon which the cash flows arising from time to time or otherwise derived from the Regulatory Asset may otherwise be applied, including in relation to any counterparty enforcement and realization scenario;

(13) the transmittal to [the IESO] of information related to the amounts to be included in the determination of the Period Transition Charge for a Reference Period;

(14) the basis upon which any Disposition may be made or effected by an Absolute Assignee, including parameters for determining the purchase price for the interest in the Regulatory Asset that is the subject matter of such Disposition, and any consents and releases that may be usefully obtained in connection with such Disposition;

(15) describe the requirements applicable to any special purchase entity that will purchase an Investment Interest, including proposed capitalization, governance, and restrictions on their powers and activities; and

(16) the basis on which any Pledge may be given or effected.

CONFIDENTIAL AND PRIVILEGED

Preliminary Draft for Discussion Purposes Only

"Fair Hydro Act"

Article 1 – Purpose

The Province has and continues to encourage the construction and development of facilities for the long-term operation and generation of electricity in the Province using sustainable, lower carbon-based technologies such as new gas-fired generation, renewable facilities, energy from waste and biomass, including under the Province's various procurement, standard offer, feed in tariff and other similar programs (the "Green Generation Initiative"). The long-term benefits of the Green Generation Initiative accrue over time and have benefited and will benefit present and future electricity consumers in the Province.

The imputed costs of the Green Generation Initiative are currently passed through to electricity consumers by way of a monthly adjustment amount (the "Green Costs Adjustment"), which in turn forms part of the overall adjustment calculated by the Independent Electricity System Operator ("IESO") pursuant to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* (the "Global Adjustment"). The Global Adjustment is included as a charge billed to electricity consumers in their monthly electricity invoices.

The Green Costs Adjustment is currently determined each month by reference to the amounts paid by IESO to the generators of electricity in the Province under the Green Generation Initiative, which may be higher than prevailing market price for electricity. These differences arise because IESO has entered into long-term procurement contracts with such generators in order to provide them with long-term price certainty for electricity, and in turn to encourage the generators to develop technologies and to construct and develop facilities consistent with the Green Generation Initiative. In general, whenever amounts payable under these procurement contracts exceed the market price for electricity, the Green Costs Adjustment passes through the amount of such differences as part of the monthly charge to electricity consumers. Such amount then becomes available to IESO to meet its obligations under the procurement contracts. It has been determined that the useful lives of many of the assets encouraged by the Green Generation Initiative will be well in excess of the respective terms of the related procurement contracts, and in many cases may extend over more than one generation of electricity consumers.

Since the benefits to past, present and future electricity consumers from the Green Generation Initiative will not necessarily coincide with the costs currently attributed through the Green Costs Adjustment, based on the respective durations of the procurement contracts, it has been determined that the rate at which the costs associated with the Green Generation Initiative should be passed through to Retail Consumers (as defined in Article 2) should be more closely aligned with the benefits that such Retail Consumers have derived and are expected to derive from the Green Generation Initiative over time. This realignment will be based on principles and parameters that establish a reasonable basis for measuring and allocating the relative costs and benefits of the Green Generation Initiative equitably across present and future Retail Consumers (the "Fair Allocation Plan"). [NTD: The IESO has a number of comments on the FAP: (i) Is it necessary to include this much detail in the FAP, as opposed to broadly referencing a FAP that will articulate principles/parameters for allocating future deferred amounts, etc., and which will be developed and/or set out in the Regs; (ii) while we appreciate the constitutional issues, we believe there risk in prescribing this much detail in purpose/objects and in how the FAP is engineered, which makes it easier to challenge. Is it

not intended to provide for as much flexibility as possible?; (iii) is it intended that the 17% deferred amount is an outcome of the yet to be developed FAP?; (iv) the FAP is in essence a policy-based decision(s) and in the IESO's view would seem to have to necessarily be prepared by the Ministry, albeit with input from relevant experts, including the IESO, LDCs, etc. – as opposed to being delegated to experts]

If the Fair Allocation Plan determines that the equitable allocation of the costs associated with the Green Generation Initiative to the Retail Consumers of a particular time period should be reduced below the amount that currently would be charged based on the Green Costs Adjustment, then the amount payable by such Retail Consumers and in turn available to IESO will, in the aggregate, be less than the amount payable by the IESO to the generators in respect of such period. In this case IESO will need to obtain funding from another source to cover such a shortfall. If a funding obligation is incurred by IESO to cover such a shortfall during one period, the repayment of such funding obligation will be required in a future period, and any related repayments, finance costs, hedging costs and other transaction costs incurred will become payable in one or more future periods. In order for IESO to obtain a reliable and committed source of cash flows to enable IESO to repay such funding amounts when they become due and payable, this Act imposes irrevocable and non-bypassable financial obligations on Retail Consumers to pay amounts incurred in respect of such funding obligations when they become due and payable and establishes a right to invoice and collect such amounts. The right and interest in and to collect such financial obligations will take the form of the Regulatory Asset contemplated in this Act, which will constitute property rights and interests. Interests in the Regulatory Asset may be sold and absolutely assigned by IESO to one or more financing entities, which in turn will finance their acquired interests by incurring funding obligations. The incurrence and payment of such funding obligations will be administered on behalf such financing entities by a financial services agent under the Financing Plan contemplated in this Act. The Financing Plan will seek to reasonably match the payment obligations arising under such funding obligations, to be borne by the future Retail Consumers of the period in which such payment obligations become due, with the benefits of the Green Generation Initiative allocated to such future Retail Consumers under the Fair Allocation Plan.

The purpose of this Act is to establish the basis upon which intergenerational fairness can be achieved by charging the costs and benefits of the Green Generation Initiative to present and future Retail Consumers on an equitable and cost effective basis.

Article 2 - Definitions

In this Act:

"Absolute Assignee" means a person to whom a Regulatory Asset Owner effects a Disposition.

"Actual" means, in relation to costs, expenses or payments in respect of Funding Obligations during a Reference Period, the actual amount of such costs, expenses or payments paid or made (net of any Finance Reserve Withdrawals applied to pay such amounts), which amounts shall be recorded by the Financial Services Agent whose records shall be determinative for the purposes of this Act except to the extent of a manifest calculation error.

"Additional Funding Charges" means, for a Reference Period in respect of an Absolute Assignee, the fees, charges, expenses, costs, indemnities, reimbursements and other amounts (including any applicable tax amounts) that are or become payable by or on behalf of the Absolute Assignee

during the Reference Period and that were incurred or committed to directly or indirectly by the Absolute Assignee in connection with the incurrence of Funding Obligations under the Financing Plan (whether at the time of such incurrence or over the term of the Funding Obligation and whether directly or indirectly), including (without duplication and without limitation): (a) any payment required under an ancillary agreement entered into by, or by the Financial Services Agent on behalf of, the Absolute Assignee under the Financing Plan; (b) any federal, provincial or local taxes, payments in lieu of taxes, franchise fees or license fees imposed on the Absolute Assignee or incurred by on behalf of the Absolute Assignee under any obligation to pay tax gross-up amounts to counterparties under Funding Obligations; (c) any amounts payable to the Financial Services Agent, including amounts payable to its advisors and outside counsel; (d) any amounts incurred to prepare, confirm, amend and implement the Financing Plan; (e) any amounts payable to any Alternative Collection Agent or Alternative Servicer, including amounts payable to each's advisors and outside counsel; (f) any amounts incurred to make the calculations, determinations or confirmations to be made by or on behalf of the Absolute Assignee; (g) any servicing fees and expenses; (h) any trustee fees and expenses; (i) any legal fees, expenses and disbursements; (j) any accounting fees and expenses; (k) any administrative fees and expenses; (l) any manager or director fees of a Financing Entity; (m) any registration fees and expenses; (n) any placement fees, underwriting fees, fees and related issuing expenses; (o) any rating agency fees; and (p) any other related fees, charges, expenses, costs, indemnities, reimbursements and other amounts that are approved in good faith by the Financial Services Agent for recovery and payment under the Financing Plan.

"Allocation Factor" means, in respect of a Retail Consumer for a Reference Period, the number (expressed as a percentage) determined in respect of the Retail Consumer by the OEB based on the application of the Attribution Methodology in respect of the Reference Period.[1] [NTD: Is this needed if OEB determines volumetric rate to recover Period Transition Charge?]

"Alternative Collection Agent" means a person appointed under Section 5(11) and in compliance with the requirements set out in Schedule 2 to assume the ~~collection activities and activities of any~~obligations of an Electricity Distributor ~~or IESO~~ under Article ~~5, as agent for and on behalf of the Regulatory Asset Owners.~~5.

"Alternative Servicer" means a person appointed under Section 4(8) to assume the obligations of ~~the Servicer~~an Electricity Distributor under Article ~~4, as agent for and on behalf of the Regulatory Asset Owners.~~4.

"Assessed Past Green Transition Costs" means, in respect of a Measurement Date, the aggregate of the imputed costs of the Green Generation Initiative (expressed as an equivalent to current dollars),

[1] Confirm that this will be based on forecast volumes of demand (like RPP). To the extent amounts do not get recovered due to differences between forecast and actual, those may be identified and caught by the True-Up.

as reflected in the calculation of the Green Costs Adjustment, which have been charged to Retail Customers through the Global Adjustment on or prior to the Measurement Date.

"Attribution Methodology"[2] means the methodology specified in the Fair Allocation Plan for allocating the Period Transition Charges for a Reference Period to individual Retail Consumers of the applicable Retail Consumer Group based on its Allocation Factor.

"Collected Amount Adjustment" means, in respect of a True-Up Period, the amount (which may be a negative amount) calculated by ~~the Servicer~~IESO, a Successor IESO or the Financial Services Agent, as applicable, equal to (a) the Estimate of the Finance Amount for the True-Up Period, minus (b) the sum of all Transition Charge Collections for the True-Up Period.[3]

"Collective Rights Agreement" means an agreement among all of the Regulatory Asset Owners (including each Absolute Assignee) and each Pledgee that governs the enforcement of their respective rights and interests in, to and under the Regulatory Asset on a coordinated and collective basis.[4] [NTD: is there a need to reference this requirement in the legislation?]

"Delegate" means the person or persons designated in writing from time to time by the Minister of Energy to undertake the actions and perform the responsibilities ascribed to the "Delegate" under this Act.

"Disposition" means ~~an~~any actual or purported sale, assignment~~,~~ or transfer~~, conveyance, sale, contribution, set-over, exchange or other disposition~~ of an Investment Interest to an Absolute Assignee~~ pursuant to a Disposition Document.~~, and "Dispose" shall have a corresponding meaning.

"Disposition Document" means ~~the~~any agreement, deed, conveyance, instrument or other document~~ under~~ which relates to a Regulatory Asset ~~Owner effects a Disposition to an Absolute Assignee~~ or an interest therein. [ND: changes are intended to address partial circularity]

"Electricity Distributor" means, in respect of a Service Area, the rate regulated distributor licensed under Part V of the *Ontario Energy Board Act, 1998* in respect of such Service Area, together with and its successors.

"Electricity Distributor Remittances" means, for an Electricity Distributor on a Remittance Date, all Transition Charge Collections received [or deemed to be received] [NTD: delete deeming language unless it is intended to provide for deemed collections] by the Electricity Distributor prior to the Remittance Date and that have not otherwise been remitted to IESO or if applicable the Alternative Collection Agent in accordance with Section 5(3), including the proceeds of any

[2] This allocation may be volumetric or some combination of a flat amount and a volumetric charge. Further discussion is required. H&W has raised a concern regarding possible adverse changes after the fact and rating agency considerations. Consider whether hard-coding in the legislation makes sense.

[3] This would pick up adjustments based on actual collection experience, changes in the retail consumer base, changes in the actual costs (versus earlier estimates) included in the Transition Charge calculation, etc.

[4] Consider adding the Financial Services Agent and the Servicer as parties.

enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5.

"Electricity Invoice" means an invoice issued by any of a Electricity Distributor (or ~~in its stead,~~ by an Alternative Servicer)~~, by the Servicer or by a Retailer, in each case~~ to a Retail Consumer that is served by the Electricity Distributor's distribution system in accordance with Section 4(1) in respect of electricity charges, including the cost of electricity, delivery and regulatory charges and related services and amounts incurred, assessed or charged in respect of connectivity to a distribution network in the Electricity Distributor's designated Service Area and in respect of applicable Transition Charges to be charged to the Retail Consumer under this Act. [NTD: The Alternative Servicer should only invoice for Transition Charges, not the entire invoice.]

"Estimate" means (a) in relation to costs, expenses or payments in respect of Funding Obligations or any Finance Amount for a Reference Period, the estimated amount of such costs, expenses or payments determined by the Financial Services Agent; and (b) in relation to an assessment of the benefits of the Green Generation Initiative to any Retail Consumer Group, the estimated value (in current dollars) of such benefits determined by the Delegate, in each case having regard to the applicable principles and parameters set out in Schedule 1, which estimated amounts shall be determinative as the applicable estimate for the purposes of this Act except to the extent of a manifest calculation error.

"Estimated Future Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that are expected to accrue to Retail Consumers from the establishment and implementation of the Green Generation Initiative during the period from the Measurement Date to the Program-End Date.

"Estimated Past Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that have accrued to Retail Consumers from the establishment and implementation of the Green Generation Initiative up to and including the Measurement Date.

"Fair Allocation Plan" has the meaning given in Article 1.

"Finance Amount" means, for a Reference Period in respect of an Absolute Assignee, the sum (without duplication) of the following amounts that are or become payable during the Reference Period ~~in respect of the~~by an Absolute Assignee: (a) Repayments; (b) Funding Costs; (c) Redemption Amounts; (d) Finance Reserve Deposits; and (e) Additional Funding Charges. [Should the Repayment Amount not be reduced to anticipate ordinary course refinancings by Finance Entities?]

"Finance Reserve Deposits" means, for a Reference Period, the amount by which (a) deposits made or to be made during the Reference Period in order to pre-fund, collateralize, over-collateralize or

establish reserves for the ultimate payment of Funding Obligations or for related contingencies specified in the Financing Plan, exceed (b) any Finance Reserve Withdrawals.

"Finance Reserve Withdrawals" means, for a Reference Period, the amount withdrawn during the Reference Period from deposits previously made to pre-fund, collateralize, over-collateralize or establish reserves for the payment of Funding Obligations or to pay amounts in respect of related contingencies that had been specified in the Financing Plan.

"Financial Services Agent" means OPG or, following any Replacement Event, such other person or persons who may be appointed as the Financial Services Agent of the Absolute Assignees under the Financing Plan in compliance with the requirements set out in Schedule 2.[5]

"Financing Entity" means an entity established in accordance with the Financing Plan to acquire all or an interest in the Regulatory Asset as an Absolute Assignee and to enter into Funding Obligations to finance such acquisition under the Financing Plan.[6]

"Financing Plan" means the written plan prepared by the Financial Services Agent on behalf of each Absolute Assignee in compliance with Article 9 to set forth the basis upon which, among other things: (a) any Disposition may be made to, financed by or effected by an Absolute Assignee; (b) any Funding Obligations may be incurred by an Absolute Assignee, including any Refinancing; (c) any Pledge may be given or effected; (d) any Funding Obligations may be redeemed, prepaid, repurchased, amended or otherwise effected; (e) any obligations for Additional Funding Charges may be incurred and paid; (f) any Repayments, Funding Costs and Redemption Amounts may be paid or provided for; (g) any Finance Reserve Deposits may be made; (h) any Finance Reserve Withdrawals may be made; (i) the establishment and operation of any Financing Entity may be effected; and (j) the cash flows arising from time to time or otherwise derived from an Investment Interest may otherwise be applied, as the same may be amended, amended and restated or terminated by the Financial Services Agent in compliance with Article 9 from time to time.

"Funding Costs" means, for a Reference Period in respect of an Absolute Assignee, the amount by which (a) the aggregate of all interest and other periodic finance charges accruing due and becoming payable or paid by or on behalf of the Absolute Assignee during the Reference Period in respect of its Funding Obligations, including any standby commitment fees or charges paid to any lender, credit enhancement fees or charges paid to any credit enhancer, liquidity fees or charges paid to any liquidity provider, amounts (including any termination payments) paid under derivatives and any deposit amount made or required to fund or replenish a debt service reserve

"Undertaking of the Lieutenant Governor in Council" means the undertaking of the Lieutenant Governor in Council given under Section 11(2).

Article 3 – Transition Charges

(1) **Retail Consumer Obligation to Pay a Transition Charge** – Each Retail Consumer shall pay each Transition Charge charged to it in any Electricity Invoice issued to such Retail Consumer by its

Electricity Distributor or by an Alternative Servicer under Section 4(1), in each case on the terms of payment specified in the related Electricity Invoice. [Is the intent that IESO can recover the IESO retained interest only through the Transition Charges, subject to the Maximum Transition Charge Amount and after payment of the Assigned Interest?]

(2) **Indebtedness of Retail Consumers** – Until paid, a Transition Charge charged to a Retail Consumer in an Electricity Invoice shall, together with any applicable late payment fees and finance charges arising under the terms of the Electricity Invoice with respect to such Transition Charge, constitute non-bypassable indebtedness of the Retail Consumer to the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset. Such indebtedness shall constitute a single and separate[8] debt obligation owing by the Retail Consumer, which subject to Article 5 may be enforced independently from any other payment obligation or indebtedness owing by the Retail Consumer under the Electricity Invoice or otherwise.[9]

(3) **No Set-Off or Reduction** – A Retail Consumer may not set-off or reduce (by counterclaim, defense or otherwise) the amount payable by it in respect of any Transition Charge, including any set-off against or in respect of any amount owing or becoming payable to such Retail Consumer by its Electricity Distributor, any Regulatory Asset Owner or any other person.

(4) **Allocation of Retail Consumer Payments** – If an Electricity Distributor receives a payment made by or on behalf of a Retail Consumer in respect of amounts due and payable under one or more Electricity Invoices that is less than the total amount payable thereunder, such payment shall be allocated on a *pro rata* basis to the payment of related Transition Charges and other invoiced amounts and the amount so allocated as a payment of related Transition Charges shall be deemed to constitute a Transition Charge Collection.

(5) **Transition Charges are Irrevocable** – The Transition Charges arising under or in respect of Funding Obligations incurred under the Financing Plan (including any adjustments based on modifications to such Funding Obligations made in compliance with the Financing Plan or as a result of amendments to the Financing Plan made in accordance with Section 9(3)) are deemed to be irrevocable, final and effective without any further action, except to the extent of manifest calculation error. For greater certainty, a Transition Charge may include Finance Amounts for a Reference Period whether or not the payment of such Finance Amounts are inconsistent with the Fair Allocation Plan applicable at the time such payments are due and payable, whether or not the related Funding Obligation was properly incurred under the Financing Plan. In no case shall a Funding Obligation incurred under the Financing Plan be affected by a subsequent amendment to the Fair Allocation Plan.

Article 4 – Invoicing of Transition Charges

---

[8] Determine if this is critical for rating and markets. Logistics under consideration.

[9] Torys has also suggested that deemed conditions of licenses for distributors, retailers and unit sub-metering providers, could be included as conditions, to require them to collect and remit amounts in accordance with this legislation. Consider if it is helpful to integrate the existing regulatory scheme for invoicing and collections (regarding RPP) in the legislation.

(1) **Inclusion of Transition Charges in Electricity Invoices** – Each Electricity Distributor and if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, specify the Transition Charge to be charged to a Retail Consumer pursuant to Section 4(4) in respect of a related Reference Period in each Electricity Invoice issued by the Electricity Distributor or if applicable by the Alternative Servicer to the Retail Consumer in respect of such Reference Period. Upon the inclusion of a Transition Charge in an Electricity Invoice, the obligation to pay such amount shall be binding on the applicable Retail Consumer.

(2) **Calculation of the Period Transition Charge** – Not later than [35] days prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services Agent on its behalf) shall provide the OEB with written notice of each Estimate of a Finance Amount payable by it or on its behalf in respect of the Reference Period. [35] days prior to the first day of a Reference Period, IESO or Successor IESO if applicable shall specify the IESO Retained Interest Amount and any IESO Financing Costs that are due and payable and remain unpaid on such day. Not later than one month prior to the first day of a Reference Period, the OEB shall calculate the Period Transition Charge applicable to the Reference Period based on the calculations and information set forth in such written notices received from the Absolute Assignees and based on such amounts specified by IESO or Successor IESO, which calculations, information and amounts shall be determinative, except to the extent of manifest calculation error or misstatement.

(3) **Calculation and Attribution of Transition Charges** – Not later than 25 days prior to the first day of a Reference Period, the OEB shall apply the Attribution Methodology to determine the Allocation Factor for each Retail Consumer of the applicable Retail Consumer Group.

(4) **Notice of Transition Charges** – Not later than 20 days prior to the first day of a Reference Period, the OEB shall inform each Electricity Distributor and if applicable any Alternative Servicer of the Transition Charges to be specified in the Electricity Invoices to be issued to each Retail Consumer of the applicable Retail Consumer Group who has a billing address in the Electricity Distributor's Service Area.

(5) **Adjustments** – The amount of any Transition Charge charged to a Retail Consumer and specified as such in an Electricity Invoice shall be determinative of the amount of indebtedness created thereby and owing in respect of such Transition Charge, except to the extent of any manifest calculation error.

(6) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 4 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 4 to impose, attribute, charge, bill and invoice the Transition Charges.

(7) **IESO Successor** – Any IESO Successor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of IESO under Article 4 in the same manner and to the same extent as IESO, including the obligation to calculate and provide notice of Transition Charges.

(8) **Appointment of an Alternative Servicer** – If a Replacement Event occurs in respect of any Electricity Distributor, the Absolute Assignees ~~shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to~~may appoint an Alternative Servicer to perform some or all of the obligations and duties required to be undertaken by such Electricity Distributor under this Article 4, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Servicer shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor. Any Electricity Distributor that is replaced under this Section 4(8) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in the performance of such obligations and duties to the Alternative Servicer and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Servicer to perform such obligations and duties on behalf of the Regulatory Asset Owners.

(9) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, ~~IESO, the Servicer,~~an Alternative Servicer or any other person who may be authorized to issue Electricity Invoices to Retail Consumers for a failure to impose, attribute, charge, bill or invoice Transition Charges. ~~Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure.~~

~~**(10) No Set-Off or Reduction** – No Servicer or Electricity Distributor may set off or reduce (by counterclaim, defence or otherwise) the amount payable by it pursuant to this Article 4.~~

(10) ~~**(11)**~~ **Regulations** – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Servicer to ensure that Transition Charges are properly charged to Retail Consumers and specified as such in Electricity Invoices.

Article 5 – Collections and Remittances

(1) **Duty to Collect as Agent** – Electricity Distributors or if applicable any Alternative Collection Agent shall, as an agent of the Regulatory Asset Owners, undertake [diligent][reasonable][10] efforts to collect amounts owing by Retail Consumers in respect of Transition Charges charged to such Retail Consumers in Electricity Invoices issued by the Electricity Distributor or if applicable such Alternative Collection Agent.

(2) **Segregation of Transition Charge Collections** – An Electricity Distributor or if applicable any Alternative Collection Agent shall promptly segregate Transition Charge Collections from other payments received by it from Retail Consumers and deposit such Transition Charge Collections into its Regulatory Asset Account.[11] Prior to and following a deposit of Transition Charge Collections having been made into its Regulatory Asset Account, the Electricity Distributor or if

applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners.

(3) **Electricity Distributor Remittances** – On each applicable Remittance Date, an Electricity Distributor shall remit all Transition Charge Collections received by it from Retail Consumers in respect of the related Reference Period to or to the account of IESO or if applicable the Alternative Collection Agent.

(4) **Duty to Collect Electricity Distributor Remittances** – IESO or if applicable ~~any Alternative Collection Agent~~an IESO Successor shall, as an agent of the Regulatory Asset Owners, undertake [diligent][reasonable] efforts to accept and collect Electricity Distributor Remittances from Electricity Distributors and Transition Charge Collections from Retail Consumers that pay their Electricity Invoices directly to IESO.[12]

(5) **Segregation of Electricity Distributor Remittances** – IESO and if applicable ~~the Alternative Collection Agent~~an IESO Successor shall promptly segregate Electricity Distributor Remittances from other payments received or held by it and deposit such Electricity Distributor Remittances into its Regulatory Asset Account. Prior to and following a deposit of Electricity Distributor Remittances having been made into its Regulatory Asset Account, IESO or if applicable any ~~Alternative Collection Agent~~IESO Successor shall hold such amounts in trust for the Regulatory Asset Owners.

(6) **IESO Remittances** – ~~On~~(a) on each Settlement Date[13], IESO and if applicable ~~the Alternative Collection Agent~~an IESO Successor shall remit all amounts on deposit in its Regulatory Asset Account ~~(a) first,~~in respect of the Investment Interest to or to the account of the Absolute Assignees ~~an amount equal to the Investment Remittance for the related month and (b) second, to IESO (including by IESO retaining such amount) an amount equal to the lesser of (i) the Maximum IESO Recovery for the related month and (ii)~~; and (b) on each Settlement Date[14], IESO and if applicable the IESO Successor shall remit all amounts on deposit in its Regulatory Asset Account in respect of the IESO Retained Interest ~~Amount as of the Settlement Date.~~to the IESO. [NTD: to discuss. I had thought that what we had discussed was that IESO could recover the IESO Retained Interest Amount not as part of the Transition Charges, but independently through its own processes. This would require an allocation, but not express subordination. If subordination is required together with a Maximum Transition Charge Amount, consider whether this puts IESO in the position of a residual interest holder and consider impact on ability to book asset, consolidation and prospectus.

(7) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 5 in the same manner and to the same extent as such

Electricity Distributor, including the obligation under Article 5 to collect Transition Charges and make remittances of Electricity Distributor Remittances.

(8) **IESO Successor** – IESO Successor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of IESO under Article 5 in the same manner and to the same extent as IESO, including the obligation to collect Transition Charge Collections, Electricity Distributor Remittances and to remit IESO Remittances.

(9) **Owners of Distribution Assets** - If any person other than an Electricity Distributor acquires distribution system assets in the Province or invoices or collects electricity distribution rates in the Province[~~14~~15], then such person shall, if requested by the Absolute Assignees, be obligated to act diligently to (a) facilitate the invoicing and collection of any Transition Charges applicable to Retail Consumers in its applicable service area, including all consumers connected to the electricity distribution system assets and taking electric delivery service located within such service area; (b) allocate partial payments by Retail Consumers as provided in this Act; (c) exercise all enforcement rights of the Absolute Assignees for the benefit of an Absolute Assignee; and (d) remit any Transition Charge Collections to the Absolute Assignees or Pledgees, as applicable, each in accordance with its Investment Interest.

(10) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, ~~the~~an Alternative Collection Agent, any owner of electricity distribution system assets in the Province or any other person who may be authorized to collect electricity distribution and use charges from Retail Consumers for a failure to collect Transition Charges, remit or collect Electricity Distributor Remittances or remit IESO Remittances, as and to the extent applicable under Article 5. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure.

(11) **Appointment of an Alternative Collection Agent** – If a Replacement Event occurs in respect of any Electricity Distributor ~~or IESO~~, the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Collection Agent to perform some or all of the collection, segregation and remittance obligations in respect of the Transition Charges otherwise required to be undertaken by such Electricity Distributor ~~or IESO~~, as applicable, under Article 5, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Collection Agent shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor ~~or IESO~~, as applicable. Any Electricity Distributor ~~or IESO, as applicable,~~ that is replaced under this Section 5(11) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in, to and over the Regulatory Asset, including its Regulatory Asset Account, to the Alternative Collection Agent and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to

permit the Alternative Collection Agent to enforce the Regulatory Asset on behalf of the Absolute Assignees.

(12) **No Set-off, etc.** - The Regulatory Asset, including rights in Transition Charges, Transition Charge Collections, and the interests of a Regulatory Asset Owner, an Absolute Assignee and a Pledgee therein, may not be setoff or reduced (including by counterclaim, surcharge or defense) by any Retail Consumer, any Electricity Distributor, IESO, Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or in connection with any default, bankruptcy, reorganization or other insolvency proceeding of any Electricity Distributor, IESO, Alternative Collection Agent or any owner of distribution system assets in the Province, any affiliate or successor thereof or any other entity or otherwise.[15]16

(13) **Sequestration** – If any Electricity Distributor, IESO, the Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or entity authorized to collect Transition Charges, defaults on any required remittance of Transition Charge Collections, Electricity Distribution Remittances or IESO Remittances under Article 5, any court in the Province, upon application by and of the Absolute Assignees acting collectively under the Collective Action Agreement and without limiting any other remedies otherwise available to the Absolute Assignees or Pledgees, shall order the sequestration and payment of the Transition Charge Collections, Electricity Distribution Remittances and IESO Remittances, as applicable, for the benefit of the Absolute Assignees, each with respect to its Investment Interest, and the Pledgees as applicable.[16]17

(14) Regulations – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Collection Agent to ensure that rights, interests, entitlements, benefits and proceeds in, to, under and from the Regulatory Asset are of fully realized by some or all of the Absolute Assignees and Pledgees.

Article 6 – The Regulatory Asset

(1) **Composition** – The Regulatory Asset shall constitute a current and irrevocable property right and interest consisting, collectively, of the following rights and interests (without duplication):

a. the right of IESO (i) to record its IESO Retained Interest in its accounts in accordance with Section 8(1), having a stated amount from time to time equal to the IESO Retained Interest Amount; and (ii) to receive IESO Recoveries from time to time in accordance with Section 5(6)(b);

b. the right to impose, bill, invoice, collect and receive Transition Charges from Retail Consumers, including the right to determine the amount of Transition Charges in accordance with this Act;

c. the right to enforce the obligations and indebtedness of each Retail Consumer to pay the Transition Charges charged to the Retail Consumer from time to time in accordance with Article 3, together with all related late payment fees or interest charges arising in respect thereof under the related Electricity Invoices;

d. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Servicer to impose, attribute, charge, bill and invoice the Transition Charges in accordance with Article 4;

e. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Collection Agent to collect, receive and remit amounts received by it in respect of Transition Charges as Electricity Distributor Remittances to or to the account of IESO or if applicable the ~~Alternative Collection Agent~~ IESO Successor in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5;

f. the right to enforce the duties and obligations of IESO and if applicable ~~the Alternative Collection Agent~~an IESO Successor to collect and receive Electricity Distributor Remittances and to remit IESO Remittances to or to the accounts of the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset, in each case in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by it to recover payment of Electricity Distributor Remittances in accordance with Article 5;

g. the right to receive and collect all Transition Charge Collections, all Electricity Distributor Remittances and all IESO Remittances in accordance with Article 5;

h. all rights and entitlements under each Regulatory Asset Account and all amounts on deposit in any such Regulatory Asset Account;

i. all Related Rights; and

j. all revenue, collections, claims, payments, money and proceeds of or derived from the rights described in (a) through (i), regardless of whether such revenue, collections, claims, payments and proceeds are imposed, invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

A Regulatory Asset and the property rights and interests therein shall exist whether or not Transition Charges have been imposed, charged, invoiced, accrued or collected and notwithstanding that the imposition, attribution, invoicing and collection of Transition Charges will depend on further actions that may not have occurred.

(2) **Validity of Dispositions** – ~~Despite any limitations or restrictions on a Disposition that may arise by contract or by operation of any applicable law of the Province or any consent requirement applicable to a Disposition that may arise by operation of any applicable law of the Province, a Disposition by IESO to an Absolute Assignee made under the Financing Plan, or by one Absolute Assignee to another Absolute Assignee made under the Financing Plan, shall be permitted~~[NTD: Addressed in Section 13(3)]. IESO may Dispose of all or any part of its interest in a Regulatory Asset in favour of an Absolute Assignee and, any such Disposition, when made, shall be valid and enforceable in accordance with the terms of the related Disposition Document and shall be effective to confer upon the Absolute Assignee thereof a valid property right and interest in, to and under the applicable Investment Interest (or relevant portion thereof) in accordance with the terms of such Disposition~~, provided that the parties to the applicable Disposition Document have expressly stated therein that such Disposition is a sale or other absolute transfer.~~ . Without limiting the foregoing, any Disposition that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as a true sale and absolute transfer of the Regulatory Asset Owner's applicable right, title, and interest in, to and under the Regulatory Asset (or relevant portion thereof), and not merely as a Pledge thereof~~, and upon such~~. Upon any Disposition the assigner or seller under the applicable Disposition Document shall retain no right, title or interest in the Investment Interest expressed to be subject to the Disposition~~, including all rights under the Investment Interest arising after such Disposition.~~ .

(3) **Perfection and Priority of Dispositions** – Any Disposition of an interest in a Regulatory Asset shall be vested, valid, binding and perfected from the time when such Disposition is made. Such Disposition shall be perfected, vested, valid and binding as against the transferring Regulatory Asset Owner and all other persons who have claims of any kind (whether in tort, contract or otherwise) against the transferring Regulatory Asset Owner, irrespective of whether such persons have notice of the Disposition and the property rights and interests acquired by the Absolute Assignee under such Disposition shall be free and clear of any liens or other adverse interests in favour of such other persons.

(4) **Validity of Pledges** – ~~Despite any limitations or restriction on a Pledge that may arise by contract or by operation of any applicable law of the Province or any consent requirement applicable to a Pledge that may arise by operation of any applicable law of the Province~~[NTD: Section 13(3)], a Pledge by an Absolute Assignee may be made to secure any related Funding Obligation and when made shall be valid and enforceable in accordance with its terms and shall be effective to confer upon the Pledgee a valid security interest in, to and in respect of the related Investment Interest in accordance with the terms of the Pledge. Other than as required by the Financing Plan, no consent of any person shall be required to give effect to a Pledge made to secure any Funding Obligation.

(5) **Perfection and Priority of Pledges** - For purposes of the *Personal Property Security Act* (the "PPSA"), the Regulatory Asset shall be intangible personal property and any Pledge made by an Absolute Assignee in respect of a Funding Obligation shall, subject to the terms thereof, give rise to a security interest of which the PPSA applies, and may be perfected by filing a financing statement

under the PPSA on that basis. All proceeds of a related Investment Interest that are subject to such a Pledge that are received by the Absolute Assignee shall immediately be subject to the such Pledge, and the security interest in such proceeds shall be perfected pursuant to the PPSA.[17][18] A Pledge perfected under the PPSA shall be a continuously perfected security interest and shall have priority over any other lien or security interest, created by operation of law or otherwise, that may attach to the property rights and interests in the Investment Interest subject to the Pledge unless the Pledgee has otherwise agreed in writing. ~~Subject to the terms of the Collective Action Agreement, a Pledgee shall have a perfected security interest in a related Investment Interest, including the Absolute Assignee's rights and interests in and to Transition Charge Collections or other related proceeds in respect of the Investment Interest and that are deposited in any Regulatory Asset Account or other account of any Electricity Distributor, IESO, Alternative Collection Agent or other person who may have commingled such Transition Charge Collections or such other proceeds with other funds. All provisions of the PPSA shall apply to the Regulatory Asset on the basis that it is intangible personal property, except to the extent otherwise provided in this Section 6(5).~~ [Covered by the PPSA]

(6) **Enforcement of Property Rights** – The rights of any Regulatory Asset Owner to collect and enforce its rights and interests in, to or in respect of the Regulatory Asset shall be exercised in the manner set forth in Article 5. [Add Default rights of a Pledgee]

(7) **Owners of a Specified Portion of the Regulatory Asset** – A Regulatory Asset Owner may effect a Disposition to an Absolute Assignee of a specified portion of its rights and interests in the Regulatory Asset, including by way of a Disposition of a divided or an undivided interest therein as specified in a related Disposition Document~~, in each case under the Financing Plan~~. In no circumstance may the specified portions of the rights and interests in the Regulatory Asset owned by all Regulatory Asset Owners be greater than all of the rights and interests that comprise the Regulatory Asset in the aggregate.

(8) **Collective Action Required** – If a Regulatory Asset Owner's rights and interests in the Regulatory Asset comprises less than the entire property right and interest constituted by the Regulatory Asset, such Regulatory Asset Owner shall only enforce such right and interest on a collective and coordinated basis with each other Regulatory Asset Owner in accordance with the Collective Rights Agreement.

Article 7 – Establishment of the Fair Allocation Plan[18][19]

---

[17][18] Consider whether to simply leave this and have a financing statement be filed under the PPSA. This would normalize the security interest and reduce any adverse suggestion that security would not otherwise arise.

[18][19] The idea is that the Fair Allocation Plan will be set once at the outset based on the principles and parameters described here, all as applied based on information available and the reasonable expectations and discretion of the delegate at such time. If the expectations are not fulfilled (e.g., generators may choose to retire their facilities at the end of their current procurement contracts and not invest in extending service lives to secure further procurement contracts), the Fair Allocation Plan will be unaffected, unless it is specifically amended (assuming amendments will be permitted by the legislation).

(1) **Adoption of the Fair Allocation Plan** – The Delegate may, [by written declaration,] designate and adopt a Fair Allocation Plan in compliance with Article 7. The Fair Allocation Plan so designated and adopted shall be the Fair Allocation Plan for all purposes of this Act, except if amended, amended and restated or terminated by a further written declaration made by the Delegate in compliance with Section 7(4).

(2) **Principles and Parameters** – A Fair Allocation Plan shall seek to allocate Future Fair Share of Green Transition Benefits across present and future Retail Consumer Groups on a basis that the Delegate, in its sole and absolute discretion, determines to be equitable, having regard to the following principles and parameters:

1. Future Fair Share of Green Transition Benefits should be allocated over the period ending on the Program End Date.

2. The Fair Allocation Plan should specify the Reference Periods for the purpose of identifying applicable Retail Consumer Groups and allocating Future Fair Share of Green Transition Benefits among them on a relative basis over time.

3. The share of Future Fair Share of Green Transition Benefits allocable to a particular Retail Consumer Group in respect of a Reference Period should be proportionate to a reasonable assessment of the benefits of the Green Generation Initiative to the Retail Consumer Group over such Reference Period.

4. The share of Future Fair Share of Green Transition Benefits to be allocated to a Retail Consumer Group and any future Retail Consumer Group at a particular time should not exceed the Estimated Future Green Transition Benefits, measured in respect of the Reference Periods following such particular time and to the Program End Date.

5. No future Retail Consumer Group should be allocated an unreasonably disproportionate share of Estimated Future Green Transition Benefits. Except in exceptional circumstances or in the case of any reallocation of an Over-Assessed Amount as contemplated in 7, below, the Future Fair Share of Green Transition Benefits to be allocated under a Fair Allocation Plan to any future Retail Consumer Group should have regard to *[Insert formula if a year-over-year maximum amount is determined to be appropriate]*.

6. The time value of money should be reflected in the Fair Allocation Plan, in order to equate the relative values of the nominal allocations of Future Fair Share of Green Transition Benefits, calculated in current dollars, to future Retail Consumer Groups over time.

7. To the extent there has been an Over-Assessed Amount, the Fair Allocation Plan may determine that an adjustment should fairly be made to rebate Retail Consumers for such an amount, by reducing the costs otherwise attributable under the Act to such Retail Consumers. The relative costs of the Green Generation Initiative are reflected under the Act by the attribution of Transition Charges to such Consumer Groups, based on the Financing Plan seeking to track the allocations of benefits under the Fair Allocation Plan. Accordingly, the Maximum Transition Charge Amount determined for one or more Retail

Consumer Groups having regard to the Fair Allocation Plan otherwise applicable may be appropriately reduced to recognize the effect of the Over-Assessed Amount. In such a case, a determination to reduce the Maximum Transition Charge Amount applicable for certain related Reference Periods should have regard to the principle that the corresponding rebate should be extended to benefit the Consumer Group or Consumer Groups in closest proximity to the Legislative Implementation Date.

(3) **Attribution Methodology** – The Fair Allocation Plan shall specify the Attribution Methodology for the purposes of allocating the Period Transition Charges across the Retail Consumers of a particular Retail Consumer Group. The Attribution Methodology shall result in an attribution of such Transition Charges that is considered by the Delegate to be equitable, and may have regard to such principles and parameters as may be further set forth in a Regulation.

(4) **Amendments of the Fair Allocation Plan** – The Fair Allocation Plan may be amended, amended and restated or terminated by the Delegate, provided that such amendment, amendment and restatement or termination shall (a) not be inconsistent with the principles and parameters set forth in (2) or (3), above, or the Regulation and (b) comply with any restrictions or limitations specified with respect thereto in any Funding Obligation.

Article 8 – The IESO Retained Interest

(1) **Maintain Books of Account** – IESO may maintain books of account to record the IESO Retained Interest Amount and all adjustments thereto from time to time. Such books of account shall be determinative with respect to the amount of IESO's related regulatory asset. [Is this different from the Regulatory Asset or the IESO Retained Interest?]

(2) ~~**Limitation on Additions** – IESO shall not record additions to the IESO Retained Interest Amount in respect of IESO Funding Shortfalls (a) if such additions are restricted by the terms of any Disposition Document or the Collective Action Agreement, or (b) on or after •, 2017.~~ **[NTD: Leave to agreements]**

(3) **Dispositions** – IESO may, from time to time, effect a Disposition to an Absolute Assignee if (a) the Absolute Assignee has or will concurrently become bound by the Collective Rights Agreement; (b) the ~~Disposition is effected pursuant to a Disposition Agreement duly executed by IESO; (c) the~~ Financial Services Agent confirms in writing that the Disposition is permitted under the Financing Plan; and (~~d~~c) the net proceeds payable to IESO from the sale of the related Investment Interest would not exceed the IESO Retained Interest Amount immediately before the time of such Disposition. [NTD: Is (c) necessary?]

(4) **No Continuing Interest in any Investment Interest** – IESO shall have no continuing right or interest in any Investment Interest subject to a Disposition effected by IESO under a Disposition Document to which IESO is a party~~ and IESO shall not assert any such right or interest or take or omit to take any action to exercise or enforce its rights or interests under the IESO Retained Interest if such action or omission would impede or obstruct the rights of any Absolute Assignee or a Pledgee to enforce its rights and interests in any Investment Interest, except if IESO is expressly~~

~~permitted to take or omit to take such action, respectively, under the related Disposition Document or the Collective Rights Agreement~~.

(5) **IESO Financing Costs** – IESO ~~shall be entitled in good faith to~~may incur reasonable financing costs ~~(including interest and other reasonable financing charges) reflecting market terms and conditions and which are payable in arrears,~~ in order to finance its ownership of the IESO Retained Interest ~~from time to time.~~ .

(6) **IESO Recoveries** – IESO shall, in respect of a month, be entitled to receive from IESO Remittances on a related Settlement Date the amount (if any) available to IESO under Section 5(6)(b).

Article 9 – The Financing Plan

(1) **Power to Prepare, Implement and Amend the Financing Plan** – The Financial Services Agent shall be authorized to prepare, implement and amend the Financing Plan. If the Financial Services Agent is unwilling or unable to prepare and propose the adoption of the Financing Plan, the Delegate may by written declaration designate one or more other persons who shall be authorized to prepare, implement and amend the Financing Plan.

(2) **Terms and Conditions of the Financing Plan** – The Financing Plan shall establish the basis for each Absolute Assignee's funding decisions. The Financing Plan shall have regard to the principles and parameters set forth in Schedule 3 and such other conditions and requirements as may be specified in a written declaration of the Delegate or in accordance with the Regulation.

(3) **OEB Approval** – Any Additional Funding Charge payable to or for the benefit of the Financial Services Agent shall be subject to review and approval by the OEB.

(4) **OEB Review** – The OEB [shall] undertake an annual review of the records maintained by the Financial Services Agent for the purpose of confirming that the Funding Obligations incurred and the Finance Amounts paid by or on behalf of the Absolute Assignees were incurred and paid, respectively, in material conformity with the Financing Plan.

(5) **Replacement of the Administrative Agent** – If the OEB identifies deficiencies or makes recommendations in its review under Section 9(4), the Administrative Agent shall take reasonable measures to remedy such deficiencies if remediable, and shall in any event have regard to the recommendations of the OEB in relation to further actions undertaken by the Financial Services Agent under the Financing Plan. If the Financial Services Agent is unwilling or unable to reflect such recommendations in relation to such further actions, the Delegate may by written declaration designate one or more other persons who shall thereafter become the Financial Services.

(6) **Obligation to Apply IESO Remittances** – The Financial Services Agent shall ensure that amounts transferred to it under Article 5, as agent for and on behalf of the Absolute Assignees, or otherwise in respect of or as proceeds from an applicable Investment Interest shall only be applied or used to pay related Finance Amounts when they are due and payable and for no other purpose.

(7) Non-Recourse – The Financing Plan shall be implemented so that Funding Obligations incurred shall be without recourse to or to any assets of the Electricity Distributors, ~~IESO,~~ any Alternative Servicer, any Alternative Collection Agent, IESO, any IESO Successor, the Financial Services Agent, the OEB, the Province or the Lieutenant Governor in Council, other than if and to the extent that such persons or entities are liable for the performance of obligations or duties arising under this Act or expressly agree to become liable pursuant to any Funding Obligation or obligation in relation to a Finance Amount. [All Funding Obligations shall contain a statement to the following effect: "Neither the full faith and credit nor the taxing power of the Province of Ontario is pledged to the payment of the principal of, or interest on, this [obligation].]

(8) Incurrences are Binding – ~~Notwithstanding anything to the contrary in this Act, each~~Each Disposition made to or by an Absolute Assignee ~~and~~, all amounts payable or becoming due and payable by or on behalf of an Absolute Assignee under or in connection with any obligation purporting to be a Funding Obligation and each Pledge entered into by an Absolute Assignee, shall be valid and binding ~~for the purposes of this Act~~, including in determining the amount of related Transition Charges, ~~despite~~notwithstanding any ~~impairment or defect resulting from such failure.~~ defect in the manner in incurrence or any inconsistency with the Fair Allocation Plan or the Financing Plan.

[Article 10 – Compliance Matters[~~19~~20]

(1) Right of the [OEB] to Inspect Books and Records - For the purpose of investigating compliance with the provisions of this Act, the OEB shall have the right, jurisdiction, power and authority to examine the books and records of *[Insert names if any]*.

(2) [OPG's Rate Settings – When setting other rates for or in respect of OPG, the OEB shall not take into account (a) the administrative or servicing fees charged by OPG as Financial Services Agent [in excess of the actual incremental costs incurred by such person of providing administrative or servicing services]; (b) the cost consequences to OPG of being the Financial Services Agent; or (c) the consequence of OPG consolidating the assets and liabilities of any Financing Entity for OPG's accounting purposes, in each case in setting any regulated payment amounts for OPG.][~~20~~21]

Article 11 – Undertaking of the Lieutenant Governor in Council[~~21~~22]

[~~19~~20] As noted above, the outcome of any regulatory action undertaken by the OEB will not affect Funding Obligations that have been incurred under the Financing Plan. This Article and any potential role for the Auditor General is still under consideration.

[~~20~~21] As an alternative to this provision, consider clarifying under s. 78.1(4) of the OEB Act (which currently gives the OEB discretion in setting payment amounts subject to O. Reg. 53/05) that the OEB in setting OPG payment amounts for prescribed generation shall not consider OPG's role as Administrative Agent of any Financing Entities associated with the Fair Hydro initiative, perhaps with the exception of any operating fees that may be received by OPG for performing that role.

[~~21~~22] Under consideration, including the dealers' request for a "servicer guarantee" and a "contractual guarantee" to address a "Change of Law" or if all or a portion of the legislation is *ultra vires*, requiring (at the lenders option), the Province to pay principal and interest on the outstanding debt until maturity or payout the entire debt including any make-wholes.

(1) **No Action to limit, alter, or impair or terminate Transition Charges, the Regulatory Asset or Collections** – The [Lieutenant Governor in Council] shall not in any way take or permit any action to reduce, impair, postpone or terminate the obligation of Retail Consumers to pay Transition Charges or to impair the Regulatory Asset or the collection or recovery of Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances, either directly or indirectly, including through the introduction of any bill or the passing of any legislation or regulation having such effect. The amount of Transition Charges determined under this Act shall not be subject in any way to reduction, impairment, postponement or termination as a result of any action taken or failure by the Lieutenant Governor in Council, including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(2) **Undertaking and Agreement** – The [Lieutenant Governor in Council] shall not:

(a) in any way take or permit any action that limits, alters or impairs the value of any Investment Interest;

(b) except as required by the estimates and adjustments made in determining the True-up Amount, reduce, alter or impair Transition Charges that are imposed, billed, invoiced, collected and remitted for the benefit of the Absolute Assignees or any Pledgee from time to time;

(c) permit the amendment, amendment and restatement or termination of the Fair Allocation Plan if such amendment , amendment and restatement or termination would adversely affect the validity or enforceability of any Funding Obligation or the rights of an Absolute Assignee or Pledgee thereunder,

in each case including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(3) **Successor IESO** – If IESO is restructured, dissolved or becomes insolvent or is otherwise incapable of performing its obligations under this Act, Successor IESO shall be established to perform such obligations.

(4) **Compensation for Failure** – Absolute Assignees shall be compensated for any losses suffered by them as a result of any failure by the Lieutenant Governor in Council to comply with its undertakings and agreements in this Article ~~11.~~[22] 11.[23]

(5) **No Wind-up of Financing Entity**. No Financing Entity may be voluntarily wound up, liquidated or dissolved until one year after all of its Funding Obligations are repaid.

(6) **References to the Undertaking and Agreement** – Any non-confidential reference to the Undertaking of the Lieutenant Governor in Council, including in marketing materials and other

documentation authorized for use by the Administrative in connection with any Funding Obligation, may be made provided that [*Add conditions to protect the Province*].

Article 12 – Regulations

Regulations may be made under this Act for the purposes described in Sections •,•,• and • and may be promulgated for any of the following purposes:

(a) to set standards and measures regarding the commercially reasonable requirements of the Province associated with an Absolute Assignee incurring Funding Obligations or becoming obligated to pay any Finance Amount, including to establish guidelines regarding all-in funding costs; permitted Additional Funding Charges; required maturities and redemption and termination rights of Funding Obligations; liquidity requirements, in each case to a Financing Plan that is consistent in its effect with the Fair Allocation Plan;

(b) to establish and empower one or more regulated entities to undertake decision-making activities with respect to this Act;

(c) to set out reasonable requirements regarding the appointment or retention of advisors, agents, service providers, contract counterparties, including in relation to 'market terms and conditions' parameters;

(d) to provide for audit and compliance standards applicable to those persons who are or may become obligated or have duties that arise under this Act [or under any Funding Obligation];

(e) to provide for any pre-vetting and approval requirements in relation to any incurrence by an Absolute Assignee of any Funding Obligation or obligation to pay any Finance Amount; and

(f) to provide for appeal and due process considerations in connection with the establishment, adoption, implementation and review of the Fair Allocation Plan or the Financing Plan.

Article 13- Miscellaneous[~~23~~24]

(1) **Choice of law** – The law governing, as applicable, the validity, enforceability, attachment, perfection, priority and exercise of remedies with respect to the transfer of an interest or right or creation of a security interest in the Regulatory Asset, any Transition Charge or the Undertaking of the Province shall be the laws of the Province.

[~~23~~24] OPG would like the specific amendments related to OPG to be included in the Bill.]

(2) **Conflict of law** – In the event of conflict between this Act and any other law of the Province regarding the attachment, assignment or perfection, or the effect of perfection, or priority of any Disposition or Pledge, this Act shall govern to the extent of the conflict.

(3) **No further acts or approvals required** - Notwithstanding any provisions of any law of the Province to the contrary, no approvals, notices or authorizations other than those specified in this Act shall be required with respect to the actions to be taken in compliance with this Act, including under the Financing Plan or in relation to the establishment of the Fair Allocation Plan, and the transactions and contracts authorized in or contemplated by this Act or the Financing Plan, including the incurrence of any Funding Obligation, any Disposition, any Pledge or in the payment and performance of any attendant or incidental contract and any related expenses incurred to facilitate the preparation and implementation of the Financing Plan.

(4) **Effect of invalidity after the Incurrence of any Funding Obligation** - Effective on the date that a Funding Obligation is incurred under this Act, if any provision of this Act is held to be invalid or is invalidated, superseded, replaced, repealed or expires for any reason, that occurrence shall not affect any action allowed under this Act that is taken by any person who is or may become obligated or have duties that arise under this Act and any such action shall remain in full force and effect.

(5) **Severability** - If any Article, Section, paragraph or subparagraph of this Act or the application thereof to any person, circumstance or transaction is held by a court of competent jurisdiction to be unconstitutional or invalid, the unconstitutionality or invalidity shall not affect the constitutionality or validity of any other Article, Section, paragraph or subparagraph of this act or its application or validity to any person, circumstance or transaction, including the irrevocability of Transition Charges, the validity of the Regulatory Asset, the incurrence of any Funding Obligation, any Disposition, any Pledge, or the collection and recovery of Transition Charge Collections. To these ends, the Legislature hereby declares that the provisions of this Act are intended to be severable and that the Legislature would have enacted this Act even if any Article, Section, paragraph or subparagraph of this Act held to be unconstitutional or invalid had not been included in this Act.

Guidelines for Estimates

[To be considered.]

Schedule 2

Requirements Applicable to Alternative Invoicing Agent/ Alternative Collection Agent

[To be considered.]

Schedule ~~3~~[24]3[25]

Principles and Parameters for Establishing the Financing Plan

The following principles and parameters provide a guideline as to what a Financing Plan should address:

(1) in respect of each Reference Period, make reference to the allocations of Future Fair Share of Green Transition Benefits to each Reference Group contemplated by the Fair Allocation Plan;

(2) estimate IESO Funding Shortfalls for each Reference Period;

(3) consider alternative funding arrangements suitable to fund the estimated IESO Funding Shortfalls, including short term and/or long term Funding Obligations;

(9) consider quantities, maturities, payment obligations, prepayment or redemption rights and such other features of Funding Obligations so that payments made for a Reference Period reasonably correspond to the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

(4) if the anticipated amount of any Repayment (together with payments of other Finance Amounts) to be made in respect of a Reference Period would materially exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable Retail Consumer Group under the then current Fair Allocation Plan, diligent efforts should be made to determine whether a Refinancing or deferral of such Repayment may be reasonably and cost-effectively effected based on then prevailing market terms, conditions an circumstances;

(5) reflect the assumptions and requirements specified in any contemplated Funding Obligation (e.g., any limit on the maximum amount of Transition Charges charged to a hypothetical Retail Consumer relative to his or her monthly electricity bill, as prescribed by any rating agency that ascribes its credit rating to or in respect of the Funding Obligation having regard to the application of the Allocation Methodology);

(6) incur Funding Obligations from time to time on the best terms available at such time for a financing transaction of the size and type contemplated, and having regarding to the following parameters:

a. whether the Absolute Assignees will require committed access to short term liquidity to cover estimated IESO Funding Shortfalls prior to incurring fixed term Funding Obligations, and the amount and repayment terms of any such required liquidity; provided that any Repayment required to be made under the terms of such short-term liquidity would not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that

would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

b. the basis upon which the Financial Services Agent will select the term to maturity of any other Funding Obligations; provided that any Repayments required to be made under the terms of such Funding Obligations should not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

c. the basis upon which the interest rates applicable to such Funding Obligations would be determined;

d. the reference capital or finance market in which such Funding Obligation would be incurred, including markets outside of Canada if considered by the Financial Services Agent to be appropriate in the circumstances;

e. the currency of payments under such Funding Obligations and, if the Funding Obligations are denominated in a currency other than Canadian dollars, the basis upon which the Financial Services Agent shall cause the applicable Absolute Assignee to enter into hedging transactions to mitigate currency risk, including acceptable minimum and maximum coverage levels, having regard to the availability of related derivatives having notional amounts corresponding to the repayment and maturity profile of such Funding Obligations;

f. the basis upon which the Financial Services Agent will select counterparties under any transaction to be entered into by an Absolute Assignee, including any paying agent, servicer, cash manager, liquidity provider, hedge counterparty, account bank, lender, note trustee, security trustee, paying agent, registrar/transfer agent, financial services agent, arranger or manager;

g. the basis upon which the Financial Services Agent will manage counterparty risk, including by providing for maximum counterparty exposure limits having regard to concentration, credit and other identified risks with respect to individual counterparties or countries;

h. the basis upon which the Financial Services Agent will negotiate and settle Finance Amounts, including the amount of any Redemption Amounts, Finance Reserve Deposits and Additional Funding Charges;

(7) the basis upon which Funding Obligations may be redeemed, prepaid, repurchased or otherwise affected, having regard for the need to minimize debt service charges and other Funding Costs, and the need to maintain a stable funding platform to finance the IESO Funding Shortfalls from time to

time on a basis that is consistent with the allocations of Future Fair Share of Green Transition Benefits to applicable Reference Groups under the Fair Allocation Plan;

(8) the basis upon which any Repayments, Funding Costs and Redemption Amounts will be paid, including any defeasance, sinking fund or through other reserves or liquidity facilities;

(9) the basis upon which fees, charges, expenses, costs, indemnities, reimbursements and other amounts payable to or for the benefit of the Financial Services Agent and other agents and service providers to the Absolute Assignees may be determined, allocated and paid;

(10) the timing and basis upon which Finance Reserve Deposits and Finance Reserve Withdrawals may be made;

(11) the basis upon which any obligations for any other Additional Funding Charges may be incurred and paid;

(12) the basis upon which the cash flows arising from time to time or otherwise derived from the Regulatory Asset may otherwise be applied, including in relation to any counterparty enforcement and realization scenario;

(13) the transmittal to [the IESO] of information related to the amounts to be included in the determination of the Period Transition Charge for a Reference Period;

(14) the basis upon which any Disposition may be made or effected by an Absolute Assignee, including parameters for determining the purchase price for the interest in the Regulatory Asset that is the subject matter of such Disposition, and any consents and releases that may be usefully obtained in connection with such Disposition;

(15) describe the requirements applicable to any special purchase entity that will purchase an Investment Interest, including proposed capitalization, governance, and restrictions on their powers and activities; and

(16) the basis on which any Pledge may be given or effected.

Steve,
We have been corresponding with Torys today and are in the process of preparing a consolidated mark-up reflecting comments from the Dealers and OPG, which will also incorporate some of the comments received this evening from the IESO/Stikemans. We will circulate the consolidated mark-up before tomorrow's meeting.

Stephen,
This version does not reflect the top issues raised by the Dealers. We are sitting down with the Dealers now working on a comprehensive mark-up that we will send later today, but it will not be ready by 2 PM. We would like to use tomorrow's meeting to discuss the mark-up we are preparing rather than a further revised version that will not reflect our feedback.

CONFIDENTIAL AND PRIVILEGED

Preliminary Draft for Discussion Purposes Only

"Fair Hydro Act"

Article 1 – Purpose

The Province has and continues to encourage the construction and development of facilities for the long-term operation and generation of electricity in the Province using sustainable, lower carbon-based technologies such as new gas-fired generation, renewable facilities, energy from waste and biomass, including under the Province's various procurement, standard offer, feed in tariff and other similar programs (the "Green Generation Initiative"). The long-term benefits of the Green Generation Initiative accrue over time and have benefited and will **continue to** benefit present and future electricity consumers in the Province.

The ~~imputed~~**out-of-market** costs of the Green Generation Initiative are currently passed through to electricity consumers by way of a monthly adjustment amount (the "Green Costs Adjustment"), which in turn forms part of the overall adjustment calculated by the Independent Electricity System Operator ("IESO") pursuant to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* (the "Global Adjustment"). ~~The Global Adjustment is included as a charge billed to electricity consumers in their monthly electricity invoices.~~

The Green Costs Adjustment is currently determined each month by reference to the amounts paid by IESO to the generators of electricity in the Province under the Green Generation Initiative~~, which may be higher than prevailing market price for electricity. These differences~~**. These amounts paid by the IESO** arise because IESO has entered into long-term procurement contracts with such generators in order to provide them with ~~long-term price~~**revenue** certainty ~~for electricity~~, and in turn to encourage the generators to develop technologies and to construct and develop facilities consistent with the Green Generation Initiative. ~~In general, whenever amounts payable under these procurement contracts exceed the market price for electricity, the Green Costs Adjustment passes through the amount of such differences as part of the monthly charge to electricity consumers. Such amount then becomes available to IESO to meet its obligations under the~~ **[NTD: This statement is not correct in respect of all IESO procurement contracts.]** It has been determined that the useful lives of many of the assets ~~encouraged by~~**developed under** the Green Generation Initiative will be ~~well~~ in excess of the respective terms of ~~the related~~**their respective** procurement contracts~~, and in many cases may extend over more than one generation of electricity consumers~~.

Since the benefits to past, present and future electricity consumers from the Green Generation Initiative will not necessarily coincide with the costs currently attributed through the Green Costs Adjustment, based on the respective ~~durations~~**terms** of the **applicable** procurement contracts, it has been determined that the rate at which the costs associated with the Green Generation Initiative should be passed through to ~~Retail~~**Regulated** Consumers (as defined in Article 2) should be more closely aligned with the benefits that such ~~Retail~~**Regulated** Consumers have derived and are expected to derive from the Green Generation Initiative over time. This realignment will be based on **general** principles and parameters that establish a reasonable basis for measuring and allocating the relative costs and benefits of the Green Generation Initiative equitably across present and future ~~Retail~~**Regulated** Consumers (the "Fair Allocation

Plan"). **[NTD: There is no explanation as to why realignment is limited to Regulated Consumers.]**

If the Fair Allocation Plan determines that the equitable allocation of the costs associated with the Green Generation Initiative to the ~~Retail~~**Regulated** Consumers of a particular time period should be reduced below the amount that currently would be charged based on the Green Costs Adjustment, then the amount payable by such ~~Retail~~**Regulated** Consumers and in turn available to IESO will, in the aggregate, be less than the amount payable by the IESO to the generators in respect of such period. In this case**,** IESO will need to obtain funding from another source to cover such a shortfall. If a funding obligation is incurred ~~by IESO~~ to cover such a shortfall during ~~one~~**any** period, the repayment of such funding obligation will be required in a future period, and any related repayments, finance costs, hedging costs and other transaction costs incurred will become payable in ~~one or more~~ future periods. In order for IESO to obtain a reliable and committed source of cash flows to enable IESO to repay such funding amounts when they become due and payable, this Act imposes irrevocable and non-bypassable financial obligations on ~~Retail~~**Regulated** Consumers to pay amounts incurred in respect of such funding obligations when they become due and payable and establishes a right to invoice and collect such amounts. The right and interest in and to collect such financial obligations will take the form of the Regulatory Asset contemplated in this Act, which will constitute property rights and interests. Interests in the Regulatory Asset may be sold and absolutely assigned by IESO to one or more financing entities, which in turn will finance their acquired interests by incurring funding obligations. The incurrence and payment of such funding obligations will be administered on behalf **of** such financing entities by a financial services ~~agent~~**manager** under the Financing Plan contemplated in this Act. ~~The Financing Plan will seek to reasonably match the payment obligations arising under such funding obligations, to be borne by the future Retail Consumers of the period in which such payment obligations become due, with the benefits of the Green Generation Initiative allocated to such future Retail Consumers under the Fair Allocation Plan.~~

[NTD: Our strong preference is to limit the introduction to the next paragraph and move defined terms from the previous paragraphs to Article 2]

The purpose of this Act is to establish the basis upon which intergenerational fairness can be achieved by charging the costs and benefits of the Green Generation Initiative to present and future ~~Retail~~**Regulated** Consumers on an equitable and cost effective basis.

Article 2 ~~–~~ Definitions

In this Act: **[NTD: It would be preferable to use plain language definitions in the legislation and leave the more detailed definitions to either the regulations or the agreements contemplated hereunder.]**

"Absolute Assignee" means a person to whom a Regulatory Asset Owner effects a Disposition **other than as security**.

"Actual" means, in relation to costs, expenses or payments in respect of Funding Obligations during a Reference Period, the actual amount of such costs, expenses or payments paid or made (net of any Finance Reserve Withdrawals applied to pay such amounts), which amounts shall be recorded by the Financial Services ~~Agent~~**Manager**

whose records shall be determinative for the purposes of this Act except to the extent of a manifest calculation error.

"Additional Funding Charges" means, for a Reference Period ~~in respect of an Absolute Assignee~~, the fees, charges, expenses, costs, indemnities, reimbursements and other amounts (including any applicable tax amounts) that are or become payable by or on behalf of the Absolute Assignee during the Reference Period and that were incurred or committed to directly or indirectly by the Absolute Assignee in connection with the incurrence of Funding Obligations under the Financing Plan (whether at the time of such incurrence or over the term of the Funding Obligation and whether directly or indirectly), including ~~(without duplication and without limitation): (a) any payment required under an ancillary agreement entered into by, or by the Financial Services Agent on behalf of, the Absolute Assignee under the Financing Plan; (b) any federal, provincial or local taxes, payments in lieu of taxes, franchise fees or license fees imposed on the Absolute Assignee or incurred by on behalf of the Absolute Assignee under any obligation to pay tax gross-up amounts to counterparties under Funding Obligations; (c) any amounts payable to the Financial Services Agent, including amounts payable to its advisors and outside counsel; (d) any amounts incurred to prepare, confirm, amend and implement the Financing Plan; (e) any amounts payable to any Alternative Collection Agent or Alternative Servicer, including amounts payable to each's advisors and outside counsel; (f) any amounts incurred to make the calculations, determinations or confirmations to be made by or on behalf of the Absolute Assignee; (g) any servicing fees and expenses; (h) any trustee fees and expenses; (i) any legal fees, expenses and disbursements; (j) any accounting fees and expenses; (k) any administrative fees and expenses; (l) any manager or director fees of a Financing Entity; (m) any registration fees and expenses; (n) any placement fees, underwriting fees, fees and related issuing expenses; (o) any rating agency fees; and (p) any other related fees, charges, expenses, costs, indemnities, reimbursements and other amounts that are approved in good faith by the Financial Services Agent for recovery and payment under the Financing Plan~~**without limitation such amounts as may be prescribed**.

~~"Allocation Factor" means, in respect of a Retail Consumer for a Reference Period, the number (expressed as a percentage) determined in respect of the Retail Consumer by the OEB based on the application of< *the Attribution Methodology* >in respect of the Reference Period.[1]~~

~~"Alternative Collection Agent" means a person appointed under Section 5(11) and in compliance with the requirements set out in Schedule 2 to assume the collection activities and activities of any Electricity Distributor or IESO under Article 5, as agent for and on behalf of the Regulatory Asset Owners.~~ **[NTD: See section 5(11). Remove this concept globally.]**

"Alternative Servicer" means a person appointed under Section 4(8) to assume the obligations of the Servicer under Article 4, as agent for and on behalf of the Regulatory Asset Owners. **[NTD: We see this, in effect, as the same thing as the IESO Successor; that is, replacement of the master Servicer.]**

[1] ~~Confirm that this will be based on forecast volumes of demand (like RPP). To the extent amounts do not get recovered due to differences between forecast and actual, those may be identified and caught by the True-Up.~~

"Assessed Past Green Transition Costs" means, in respect of a Measurement Date, the aggregate of the imputed costs of the Green Generation Initiative (expressed as an equivalent to current dollars), as reflected in the calculation of the Green Costs Adjustment, which have been charged to Retail Customers through the Global Adjustment on or prior to the Measurement Date.

"Attribution Methodology"[21] means the methodology specified in the Fair Allocation Plan for allocating the Period ~~Transition~~**Finance** Charges for a Reference Period to ~~individual Retail Consumers of the applicable Retail Consumer Group based on its Allocation Factor.~~**Regulated Consumers. [NTD: We understood that the Ministry accepted that the transition charge would be a volumetric rate.][NTD: Can be moved to Regulations.]**

"Collected Amount Adjustment" means, in respect of a True-Up Period, the amount (which may be a negative amount) calculated by the Servicer or the Financial Services ~~Agent~~**Manager**, as applicable, equal to (a) the Estimate of the Finance Amount for the True-Up Period, minus (b) the sum of all Transition Charge Collections for the True-Up Period.[32]

"Collective Rights Agreement" means an agreement among all of the Regulatory Asset Owners (including each Absolute Assignee) ~~and~~**,** each Pledgee**, and the Financial Services Manager** that governs the enforcement of their respective rights and interests in, to and under the Regulatory Asset on a coordinated and collective basis.[4] **[NTD: Move to Regulations.]**

"Delegate" means **any of** the **following** person or persons designated in writing from time to time by the Minister of Energy to undertake the actions and perform the responsibilities ascribed to the "Delegate" under this Act~~.~~**: ●. [NTD: Why is this delegation of authority necessary? This requires further discussion and clarity as to which entity or entities that the Province can select as the Delegate; for example, it would not be acceptable for the Province to select the OEB to be the Delegate. If this is required, an acceptable delegate would be a stakeholder committee comprised of representatives from the Ministry of Energy, the OEB, the IESO, and OPG. In addition, the regulation should prescribe how the stakeholder committee would operate.]**

"Disposition" means an assignment, transfer, conveyance, sale, contribution, set-over, exchange or other disposition of **(a) IESO's right to recover all or any portion of an IESO Funding Shortfall or (b)** an Investment Interest to an Absolute Assignee**, in each case** pursuant to a Disposition Document.

"Disposition Document" means the agreement, deed, conveyance, instrument or other document under which ~~a Regulatory Asset Owner~~**IESO or an Absolute Assignee** effects a Disposition to an Absolute Assignee.

[21] This allocation may be volumetric or some combination of a flat amount and a volumetric charge. Further discussion is required. H&W has raised a concern regarding possible adverse changes after the fact and rating agency considerations. Consider whether hard-coding in the legislation makes sense.

[32] This would pick up adjustments based on actual collection experience, changes in the ~~retail consumer~~**Regulated Consumer** base, changes in the actual costs (versus earlier estimates) included in the Transition Charge calculation, etc.

[4] ~~Consider adding the Financial Services Agent and the Servicer as parties.~~

"Electricity Distributor" means~~, in respect of a Service Area, the~~ **a** rate regulated distributor licensed under Part V of the *Ontario Energy Board Act, ~~1998~~* ~~in respect of such Service Area,~~***1998,*** together with and its successors.

"Electricity Distributor Remittances" means, for an Electricity Distributor on a Remittance Date, all Transition Charge Collections received or deemed to be received **[NTD: estimated to be received? will each Electricity Distributor know?]** by the Electricity Distributor prior to the Remittance Date and that have not otherwise been remitted to ~~IESO~~**Servicer** or if applicable the Alternative Collection Agent in accordance with Section 5(3), including the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5.

"Electricity Invoice" means an invoice issued by ~~any of a~~**an** Electricity Distributor (or in its stead, by an Alternative ~~Servicer~~**Collection Agent**), by the Servicer or by a Retailer, in each case to a ~~Retail~~**Regulated** Consumer that is served by the Electricity Distributor's distribution system in respect of electricity charges, including the cost of electricity, delivery and regulatory charges and related services and amounts incurred, assessed or charged in respect of connectivity to ~~a distribution network in the~~**such** Electricity Distributor's ~~designated Service Area~~**distribution system** and in respect of applicable Transition Charges to be charged to the ~~Retail~~**Regulated** Consumer under this Act. **[NTD: The Alternative Servicer should only invoice for Transition Charges, not the entire invoice. Also, to avoid confusion, we suggest using the word "invoice" in reference to what the IESO sends out to distributors, and "bills" in reference to what distributors send out to consumers.]**

"Estimate" means (a) in relation to costs, expenses or payments in respect of Funding Obligations or any Finance Amount for a Reference Period, the estimated amount of such costs, expenses or payments determined by the Financial Services ~~Agent~~**Manager**; and (b) in relation to an assessment of the benefits of the Green Generation Initiative to ~~any Retail Consumer Group~~**Regulated Consumers**, the estimated value (in current dollars) of such benefits determined by the Delegate, in each case having regard to the applicable principles and parameters set out in Schedule 1, which estimated amounts shall be determinative as the applicable estimate for the purposes of this Act except to the extent of a manifest calculation error.

"Estimated Future Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that are expected to accrue to ~~Retail~~**Regulated** Consumers from the establishment and implementation of the Green Generation Initiative during the period from the Measurement Date to the Program-End Date.

"Estimated Past Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that have accrued to ~~Retail~~**Regulated** Consumers from the establishment and implementation of the Green Generation Initiative up to and including the Measurement Date.

"Fair Allocation Plan" has the meaning given in Article 1.

"Finance Amount" means, for a Reference Period ~~in respect of an Absolute Assignee~~, the sum (without duplication) of the following amounts that are or become payable during the Reference Period in respect of ~~the~~**all** Absolute ~~Assignee~~**Assignees**: (a) Repayments; (b) **Net** Funding Costs; (c) Redemption Amounts; (d) Finance Reserve Deposits; and (e) Additional Funding Charges.

"Finance Reserve Deposits" means, for a Reference Period, the amount by which (a) deposits made or to be made during the Reference Period in order to pre-fund, collateralize, over-collateralize or establish reserves for the ultimate payment of Funding Obligations or for related contingencies specified in the Financing Plan, exceed (b) any Finance Reserve Withdrawals. **[NTD: Move this to regulation.]**

"Finance Reserve Withdrawals" means, for a Reference Period, the amount withdrawn during the Reference Period from deposits previously made to pre-fund, collateralize, over-collateralize or establish reserves for the payment of Funding Obligations or to pay amounts in respect of related contingencies that had been specified in the Financing Plan. **[NTD: Move this to regulation.]**

"Financial Services ~~Agent~~**Manager**" means OPG or, following any Replacement Event **involving OPG**, such other person ~~or persons~~ who may be appointed as the ~~Financial Services Agent~~**financial services manager** of the Absolute Assignees under the Financing Plan in compliance with the requirements set out in Schedule 2.[5]~~3~~

"Financing Entity" means ~~an entity established in accordance with the Financing Plan to acquire all or an interest in the Regulatory Asset as an Absolute Assignee and to enter into Funding Obligations to finance such acquisition under the Financing Plan.~~[6]**any entity established at the initiative of and managed by the Financial Services Manager to support the Financing Plan.**[4]

"Financing Plan" means the written plan prepared by the Financial Services ~~Agent on behalf of each Absolute Assignee in compliance with Article 9 to set forth the basis upon which, among other things: (a) any Disposition may be made to, financed by or effected by an Absolute Assignee; (b) any Funding Obligations may be incurred by an Absolute Assignee, including any Refinancing; (c) any Pledge may be given or effected; (d) any Funding Obligations may be redeemed, prepaid, repurchased, amended or otherwise effected; (e) any obligations for Additional Funding Charges may be incurred and paid; (f) any Repayments, Funding Costs and Redemption Amounts may be paid or provided for; (g) any Finance Reserve Deposits may be made; (h) any Finance Reserve Withdrawals may be made; (i) the establishment and operation of any Financing Entity may be effected; and (j) the cash flows arising from time to time or otherwise derived from an Investment Interest may otherwise be applied,~~**Manager in accordance with Article 9,** as the same may be amended, amended and restated or terminated by the

Financial Services ~~Agent~~**Manager** in ~~compliance~~**accordance** with Article 9 from time to time.

~~"Funding Costs" means, for a Reference Period in respect of an Absolute Assignee, the amount by which (a) the aggregate of all interest< *and other periodic finance charges accruing due and becoming payable or paid by or on behalf of the Absolute Assignee during the Reference Period in respect of its Funding Obligations, including* >any standby commitment fees or charges paid to any lender, credit enhancement fees or charges paid to any credit enhancer, liquidity fees or charges paid to any liquidity provider, amounts (including any termination payments) paid under derivatives and any deposit amount made or required to fund or replenish a debt service reserve account or other account established under any indenture, ancillary agreement or other financing document relating to its Funding Obligations, exceeds (b) the aggregate of all amounts received by or on behalf of the Absolute Assignee during the Reference Period in respect of a Funding Obligation, including from any reimbursement of standby commitment fees or charges paid by a lender, any reimbursement of credit enhancement fees or charges paid by any credit enhancer, any reimbursement of liquidity fees or charges paid by any liquidity provider, any amounts (including any termination payments) paid to the Absolute Assignee under derivatives and any Finance Reserve Withdrawal made or required to be made from a debt service reserve account or other account established under any indenture, ancillary agreement or other financing document relating to the payment of the Funding Costs payable in respect of a Funding Obligation for the Reference Period.~~

"Funding Obligation" means, in respect of an Absolute Assignee, each payment obligation (including**, without limitation,** each obligation to pay: principal, interest, premiums and other financing charge payments; pass-through payments; payment obligations arising under or in respect of derivatives; payment obligations owing to service providers, Financial Services ~~Agents~~**Managers**, finance entity intermediaries, capital markets intermediaries, advisors, lenders, credit enhancement providers, liquidity providers, disbursement counterparties, regulatory agencies and rating agencies; and all Additional Funding Charges**)** incurred by or on behalf of the Absolute Assignee under the Financing Plan, including any Refinancing of another such payment obligation incurred by or on behalf of such Absolute Assignee.

"Future Fair Share of Green Transition Benefits" means, in respect of a Measurement Date, the sum of (a) the Over-Assessed Amount; and (b) the Estimated Future Green Transition Benefits, in each case as of the Measurement Date.

~~"Generator" means a generator of electricity that is subject to the *Electricity Act, 1998*.~~

"Global Adjustment" has the meaning given in Article 1.

"Green Costs Adjustment" has the meaning given in Article 1.

"Green Generation Initiative" has the meaning given in Article 1.

"IESO" means the Independent Electricity System Operator created pursuant to Part II of the *Electricity Act, 1998*.

"IESO Available Amount" means, for a Reference Period, the lesser of (a) the amount (if any) by which (i) the Maximum Transition Charge Amount for the Reference Period, exceeds (ii) Period Finance Amount for the Reference Period, and (b) the IESO Retained Interest Amount as of the [35th] day prior to the first day of a Reference Period plus any IESO Financing Costs that are due and payable and remain unpaid as of the [35th] day prior to the first day of a Reference Period.

"IESO Electricity Distribution Receipts" means, for a month, the sum of all amounts payable by Electricity Distributors to IESO , during the month pursuant to section • of the *Electricity Act* in respect of Regulated Consumers. [NTD: IESO indicates that it likely does not work to express in regards to "amounts payable by the LDCs" because settlement between the IESO and LDCs entails payments by LDCs to the IESO and then credits/debits by the IESO to LDCs to reflect RPP shortfalls/overages.]

"IESO Financing Costs" means, for a Reference Period, the financing costs (if any) incurred by IESO pursuant to Section 8(4) in order to finance its ownership of the IESO Retained Interest during the Reference Period.

"IESO Funding Shortfall" means, for a month, the amount, if any, by which (a) the IESO Electricity Distribution Receipts that would be payable to IESO for the month if determined without regard to this Act and without regard to the changes made to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* with respect to the Global Adjustment concurrently with this Act, exceeds (b) the IESO Electricity Distribution Receipts payable to IESO for the month[75]; provided that if the amount of any such shortfall is determined to have been based on incomplete information, variances or estimates that were inaccurate, an adjustment shall be made in determining the amount of any subsequent shortfall for the month in which the inaccuracy is identified. .To the extent reasonably necessary to give effect to this Act, or any transaction contemplated hereby, IESO shall calculate the IESO Funding Shortfall for any month taking into account information provided by the Electricity Distributors and (i) such calculation shall be binding for all purposes; and (ii) any demonstrated inaccuracy in the calculation for any month (including any such resulting from inaccuracies in the information provided by Electricity Distributors) shall be accounted for by adjusting the IESO Funding Shortfall for a subsequent month. [NTD: Need to add the mechanism for IESO to record this shortfall because without that there is no Regulatory Asset. This IESO Funding Shortfall is the regulatory asset owned by IESO.]

"IESO Recovery" means each amount remitted to IESO (including by IESO retaining such amount) in respect of the IESO Retained Interest pursuant to Section 5(6)(b), and "IESO Recoveries" means, collectively, all such amounts received by IESO.

"IESO Remittances" means, for a Settlement Date, all Electricity Distributor Remittances received by IESO or if applicable the Alternative Collection Agent prior to the Settlement Date and that have not otherwise been remitted to the Regulatory Asset Owners (each with respect to its Regulatory Asset) in accordance with Section 5(6), including the proceeds of any enforcement action undertaken by IESO or if applicable the Alternative

[75] This has been recast to recognize that the shortfall in the first 4.5 years could exceed the entire GA amount. A more refined approach to describing the concept may be considered.

Collection Agent to recover payment of amounts payable by Electricity Distributors to IESO in accordance with Article 5.

~~"IESO Retained Interest" means IESO's right, title and ownership interest (if any) in, to and under the Regulatory Asset, which shall exclude each Investment Interest.~~

~~"IESO Retained Interest Amount" means, on a day, (a) the sum of all IESO Funding Shortfalls incurred prior to the day, plus (b) the sum of all IESO Funding Costs incurred prior to the day in accordance with Section 8(4), minus (c) the net proceeds received by IESO from or on behalf of each Absolute Assignee as consideration for the Disposition of each Investment Interest paid to IESO by or on behalf of such Absolute Assignee prior to the day, and minus (d) the IESO Recoveries received by IESO prior to the day.~~

"IESO Successor" means the entity appointed by the Province to succeed to the rights and obligations of IESO as the entity responsible for managing the Province's electricity system.

"Investment Interest" means an ownership interest in, to or under the Regulatory Asset that is acquired by an Absolute Assignee pursuant to a Disposition~~, which ownership interest may include (without limitation) ownership of a specified portion on a divided basis of the assets comprising the Regulatory Asset and ownership of an undivided ownership interest in the Regulatory Asset, in each case as may be described in the applicable Disposition Document~~.

"Investment Remittance" means, for a month, the lesser of (a) the aggregate amount of all IESO Remittances for the month, and (b) the sum of the ~~Finance Amounts~~**Funding Obligations** due and payable by all Absolute Assignees in respect of the month.

~~"Maximum IESO Recovery" means, for a month, the amount (if any) by which (a) the IESO Remittances for the month, exceed (b) the sum of all Finance Amounts that are due and payable by Absolute Assignees in respect of the month.~~

~~"Maximum Transition Charge Amount" means, for a Reference Period, (a) the aggregate amount of Future Fair Share of Green Transition Benefits that are allocable to the applicable Retail Consumer Group in accordance with the Fair Allocation Plan, divided by (b) the applicable Reference Period Length.~~

"Measurement Date" means [Insert relevant date around the Legislation Implementation Date] and any other date specified as such under the Fair Allocation Plan.

"Net Funding Costs" means, for a Reference Period in respect of a Financing Entity, the amount by which (a) the aggregate of all interest, scheduled principal> *and other periodic finance charges accruing due and becoming payable or paid by or on behalf of the Absolute Assignee during the Reference Period in respect of its Funding Obligations, including* <**such amounts as may be prescribed, exceeds (b) the aggregate of all amounts received by or on behalf of the Absolute Assignee during the Reference Period in respect of the Funding Obligations referred to in (a), including such amounts as may be prescribed.**

"OEB" means the Ontario Energy Board, together with its successors.

"OPG" means the corporation incorporated as Ontario Power Generation Inc. under the *Business Corporations Act* on December 1, 1998, together with its successors.

"Over-Assessed Amount" means, in respect of a Measurement Date, the amount (if any) by which (a) the Assessed Past Green Transition Costs, exceeds (b) the Estimated Past Green Transition Benefits, each as determined as of the Measurement Date.

"Period Finance Charges" means, for a Reference Period, the sum of (a) the Estimate of the Finance Amount ~~and~~ (b) the True-Up Amount in respect of the ~~immediately preceding Reference Period. "Period Transition Charges" means, for a Reference Period, the sum of (a) the Period Finance Charges for the Reference Period and (b) the IESO Available Amount for the Reference Period.~~ **applicable True-Up Period and (c) an adjustment amount as may be prescribed to account for estimated collection shortfalls and collection delays in respect of amounts under (a) and (b).**

"Pledge" means, in respect of an Investment Interest of an Absolute Assignee, a lien, mortgage, charge or security interest granted to or in favour of a Pledgee by the Absolute Assignee in, to and over all or a specified portion (including a specified portion on a divided basis or by way of an undivided interest) of the Investment Interest.

"Pledgee" means a person to whom an Absolute Assignee grants a Pledge.

"Program End Date" means •, [2047].

"Province" means the Province of Ontario.

"Redemption Amount" means the amount payable by or on behalf of an Absolute Assignee to redeem, prepay or repurchase a Funding Obligation incurred by or on behalf of the Absolute Assignee, including any premium, make-whole or other additional amount becoming payable under the Funding Obligation to give effect to such redemption, prepayment or repurchase.

"Reference Period" means (a) the period from (and including) the Measurement Date to (and including) ~~June~~**October** 30, 2017, (b) each six month period commencing [May 1st and November 1st] thereafter and (c) any other period specified as such in the Fair Allocation Plan.

~~"Reference Period Length" means, for a Reference Period, the number of months in the Reference Period.~~

"Refinancing" means, in respect of a Funding Obligation incurred by or on behalf of an Absolute Assignee, that the Funding Obligation is repaid or repurchased for cancellation by or on behalf of the Absolute Assignee by applying the net proceeds obtained by the Absolute Assignee incurring one or more other Funding Obligations.

"Regulated Consumer" means consumers of electricity in the Province as prescribed.

[NTD: There are a number of issues with this definition. First, the word "Retail" is a source of confusion as it implies customers of licensed retailers. Really, the purpose of the term is to define the group of consumers that are eligible to receive the benefit of the Fair Hydro program and who will bear the cost of the program over the long term. We have proposed "Regulated Consumer" but you could also use the term "Eligible Consumer" or "Fair Hydro Eligible Consumer" and for purposes of the legislation to say that it is a member of a class of consumers prescribed by the regulations for purposes of the relevant section of the legislation. The regulation would then describe who is in the class. Second, it may not be appropriate to rely on the class of consumers prescribed for the purposes of s. 79.16 or under the OREC Act. Section 79.16 is the section that defines the class of RPP consumers. We understand that the "Fair Hydro Eligible Consumers" are not an identical class to that which is eligible for the RPP or for> ***the Ontario Rebate for Electricity Consumers***<. For example, we have heard that Fair Hydro Eligible Consumers will (a) exclude consumers served by independent power authorities (certain remote communities not served by Hydro One Remotes), and (b) include consumers served by licensed unit sub-metering providers, licensed retailers and certain consumers served directly by the IESO (which may or may not be captured by the classes under 79.16 or OREC). Third, it is not clear why consumers with contracts with retailers who use retailer consolidated billing are removed from the first part of the definition but then added back into the second part of the definition. Fourth, Retailers do not necessarily have physical electricity assets that would be connected to the grid. Some just sell or offer contracts for electricity. As such, the first few lines after (b) are problematic. Fifth, the phrase "purchase electric generation services from a provider of electric generation services other than the owner of the Province's transmission and distribution system assets" does not make sense. A consumer does not purchase generation services from a transmitter or distributor. Rather, a consumer receives distribution services from a distributor. In addition to charging for its distribution services, the distributor also charges the associated transmission costs and commodity costs associated with the volumes delivered. Those commodity costs are the price of the electricity itself and are almost entirely made up of the amounts determined under the global adjustment. Sixth, the phrase "**>*whether or not the transmission and distribution system assets continue to be owned or operated by Electricity Distributors or operated by IESO*<**" does not make sense. Transmission assets are owned and operated by transmitters. Distribution assets are owned and operated by distributors. The IESO does not own but does administer and direct the operation of the transmission system.]

"Regulatory Asset" means the property rights and interests described in Section 6(1), which collectively is comprised of ~~the IESO Retained Interest and~~ each Investment Interest.

"Regulatory Asset Account" means (a) for an Electricity Distributor, any bank account into which the Electricity Distributor deposits or receives Transition Charge Collections; and (b) for the Servicer, any bank account into which ~~IESO~~Servicer deposits or receives Transition Charges~~, Electricity Distributor Remittances or IESO Remittances; and (c) if applicable, for the Alternative Collection Agent, any bank account into which~~

the Alternative Collection Agent deposits or receives Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances.

"Regulatory Asset Owner" means each of (a) IESO, as owner of (and to the extent of) the IESO Retained Interest and (b) each Absolute Assignee, as owner of its Investment Interest or Investment Interests, and "Regulatory Asset Owners" means collectively IESO and each such Absolute Assignee, who together own the entirety of the Regulatory Asset and are required to exercise their individual rights of ownership in accordance with Section 6(7).

"Related Rights" means**, with respect to a Regulatory Asset Owner's Investment Interest,** all rights of any kind (whether in tort, contract or otherwise) that attach or are attendant or incidental to any of the other property rights or interests that comprise such Regulatory Asset**Investment Interest**.

"Remittance Date" means, in respect of an Electricity Distributor, each day on which it is required to remit Electricity Distribution Remittances to IESO**Servicer** or if applicable the Alternative Collection Agent as specified in accordance with any Funding Obligation or, if no such day is specified in accordance with any Funding Obligation, then the Business Day **[NTD: Not defined.]** preceding each Settlement Date. **[NTD: Move to Regulations. Remittances will be in accordance with the current rules.]**

"Repayment Obligation" means an obligation to repay, redeem or repurchase, or to provide for the repayment, redemption or repurchase (including by making a related Finance Reserve Deposit) of, all or a portion of the amount advanced to the Absolute Assignee under a Funding Obligation.

"Repayment" means a payment by an Absolute Assignee made to satisfy a Repayment Obligation, other than to the extent that the payment is made by applying the proceeds of a Refinancing or from Finance Reserve Withdrawals.

"Replacement Event" means any event specified as such in a Funding Obligation.

"Retail Consumer" means:

(a) present and future consumers of electricity in the Province who are (i) consumers designated under section 79.16 of[, and O.Reg 95/05 under,] the *Ontario Energy Board Act, 1998*, or (ii) hold or are deemed to hold an "eligible account" under< *the Ontario Rebate for Electricity Consumers*> *Act, 2016*, other than any such consumer who has a contract with a Retailer who uses Retailer Consolidated Billing; and

(b) present and future Retailers who use Retailer Consolidated Billing,

and each case includes all such consumers and Retailers who are connected, directly or indirectly and whether a customer of an Electricity Distributor or not, to the transmission and distribution system assets located in the Province and who are taking electric delivery service within the Province, whether or not such retail consumers produce their own electricity or purchase electric generation services from a provider of electric generation services other than the owner of the Province's transmission and distribution

~~system assets and <*whether or not the transmission and distribution system assets continue to be owned or operated by Electricity Distributors or operated by IESO*>.~~

~~"Retail Consumer Group" means, in relation to a Reference Period, the Retail Consumers who receive Electricity Invoices during the Reference Period.~~

"Retailer" means a person who is licensed under Part V of the *Ontario Energy Board Act, 1998* to retail electricity.

"Retailer Consolidated Billing" has the same meaning as in the *Retail Settlement Code* issued by the Ontario Energy Board.

~~"Service Area" means, in respect of an Electricity Distributor, the geographic area or region in which it is licensed to distribute electricity in accordance with the *Electricity Act, 1998*.~~

"Servicer" means IESO or IESO Successor, as agent for and on behalf of the Regulatory Asset Owners, for the purposes set forth in Article 4.

"Settlement Date" means the [last Business Day of any month].

"Transition Charge" means, ~~for a Retail~~**the amount recoverable from a Regulated** Consumer in respect of a Reference Period, ~~(a) the Period Transition Charge, (b) multiplied by its Allocation Factor in respect of the Reference Period, divided by (c) the applicable Reference Period Length.~~ **being the Period Finance Charge as allocated to such Regulated Consumer in accordance with Article 4(3) on a monthly basis. [NTD: This needs to be grossed up to account for variability associated with expected uncollectables and remittance delays.] [NTD: Do not need to create parallel process. The definition should be linked to the OEB process for determining the volumetric rate as part of the RPP process (see s. 4(2)). The OEB will determine volumetric rate based on forecast consumption, number of consumers, etc. to recover the Period Finance Charges.]**

"Transition Charge Collection" means any amount received **[or deemed by this Act to have been received] by the Absolute Assignees** upon the collection of a Transition Charge paid by or on behalf of a ~~Retail~~**Regulated** Consumer, including any proceeds arising from the exercise and enforcement of any related rights and interests under or in respect of the Regulatory Asset.

"True-Up Amount" means, in respect of a Reference Period, the amount (which may be a negative amount) calculated by the Financial Services ~~Agent~~**Manager** equal to (a) the >*Actual Finance Amount for such related True-Up Period*<**, minus (b) the** Estimate of the Finance Amount for the related True-Up Period, ~~minus (b) the <*Actual Finance Amount for such related True-Up Period*>~~, plus (c) the Collected Amount Adjustment for such related True-Up Period. **[NTD: need to discuss how this will work for our true-up. What about prior period shortages? An example of how this works needs to be provided.]**

"True-Up Period" means, in relation to a Reference Period, the period from and including the [30th] day immediately preceding the first day of the Reference Period, to but excluding the [30th] day immediately preceding the last day of the Reference Period.

"Undertaking of the Lieutenant Governor in CouncilHer Majesty in right of Ontario" means the undertaking of the Lieutenant Governor in CouncilHer Majesty in right of Ontario given under Section 11(2).

Article 3 – Transition Charges

(1) **RetailRegulated Consumer Obligation to Pay a Transition Charge** – Each RetailRegulated Consumer shall pay each Transition Charge charged to it in any Electricity Invoice issued to such RetailRegulated Consumer by its Electricity Distributor or by an Alternative Servicer under Section 4(1), in each case on the terms of payment specified in the related Electricity Invoice.

(2) **Indebtedness of RetailRegulated Consumers** – Until paid, a Transition Charge charged to a RetailRegulated Consumer in an Electricity Invoice shall, together with any applicable late payment fees and finance charges arising under the terms of the Electricity Invoice with respect to such Transition Charge, constitute non-bypassable indebtedness of the RetailRegulated Consumer to the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset. Such indebtedness shall constitute a single and separate[86] debt obligation owing by the RetailRegulated Consumer, which subject to Article 5 may be enforced independently from any other payment obligation or indebtedness owing by the RetailRegulated Consumer under the Electricity Invoice or otherwise.[97]

(3) **No Set-Off or Reduction** – A RetailRegulated Consumer may not set-off or reduce (by counterclaim, defense or otherwise) the amount payable by it in respect of any Transition Charge, including any set-off against or in respect of any amount owing or becoming payable to such RetailRegulated Consumer by its Electricity Distributor, any Regulatory Asset Owner or any other person.

(4) **Allocation of RetailRegulated Consumer Payments** – If an Electricity Distributor receives a payment made by or on behalf of a RetailRegulated Consumer in respect of amounts due and payable under one or more Electricity Invoices that is less than the total amount payable thereunder, such payment shall be allocated on a *pro rata* basis to the payment of related Transition Charges and other invoiced amounts and the amount so allocated as a payment of related Transition Charges shall be deemed to constitute a Transition Charge Collectionsubject to rights and benefits that are no less favourable than the treatment accorded to other amounts payable to the IESO by the Electricity Distributor.

(5) **Transition Charges are Irrevocable** – The Transition Charges arising under or in respect of Funding Obligations incurred under the Financing Plan (including any

[97] Torys has also suggested that deemed conditions of licenses for distributors, retailers and unit sub-metering providers, could be included as conditions, to require them to collect and remit amounts in accordance with this legislation. Consider if it is helpful to integrate the existing regulatory scheme for invoicing and collections (regarding RPP) in the legislation.

adjustments based on modifications to such Funding Obligations made in compliance with the Financing Plan or as a result of amendments to the Financing Plan made in accordance with Section 9(3)) are deemed to be irrevocable, final and effective without any further action, except to the extent of manifest calculation error. For greater certainty, a Transition Charge may include Finance Amounts for a Reference Period regardless of whether or not the payment of such Finance Amounts are inconsistent with the Fair Allocation Plan applicable at the time such payments are due and payable, and regardless of whether or not the related Funding Obligation was properly incurred under the Financing Plan. In no case shall a Funding Obligation incurred under the Financing Plan be affected by a subsequent amendment to the Fair Allocation Plan.

(6) True-Up of Transition Charges? – [NTD: Include specifics regarding the true-up of the charges and the process for the true-up, but move to Regulations. The True-Up Mechanism should require the Transition Charges to be reviewed and adjusted semi-annually to ensure the expected recovery of amounts sufficient to timely provide all payments in respect of Funding Obligations, provided that in some cases it may need to be adjusted more frequently than semi-annually, e.g., as part of a refinancing.]

(7) Commencement of Invoicing and Collection of Transition Charges – [NTD: Please confirm that as drafted, Transition Charges will begin on the Measurement Date.]

Article 4 – Invoicing of Transition Charges [NTD: Move Article 4 sections (1) to (4) to Regulations. Also note, these sections remain subject to further due diligence by the Dealers.]

(1) **Inclusion of Transition Charges in Electricity Invoices** – Each Electricity Distributor and if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, specify the Transition Charge to be charged to a ~~Retail~~Regulated Consumer pursuant to Section 4(4) in respect of a related Reference Period in each Electricity Invoice issued by the Electricity Distributor or if applicable by the Alternative Servicer to the ~~Retail~~Regulated Consumer in respect of such Reference Period. Upon the inclusion of a Transition Charge in an Electricity Invoice, the obligation to pay such amount shall be binding on the applicable ~~Retail Consumer.~~Regulated Consumer. [NTD: Must capture bills issued to eligible consumers served by unit sub-metering providers, retailers and the IESO – not just distributors][NTD: This provision also needs to address the inclusion of Transition Charges in invoices from the IESO to the LDC, consistent with the current process of how the IESO bills LDCs.]

(2) **Calculation of the Period ~~Transition~~Finance Charge** – Not later than [35] days prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services ~~Agent~~Manager on its behalf) shall provide the OEB with written notice of each Estimate of a Finance Amount payable by it or on its behalf in respect of the Reference Period. ~~[35] days prior to the first day of a Reference Period, IESO or Successor IESO if applicable shall specify the IESO Retained Interest Amount and any IESO Financing Costs that are due and payable and remain unpaid on such day.~~ Not later than one month prior to the first day of a Reference Period, ~~the OEB~~each Absolute Assignee (or the Financial Services Manager on its behalf) shall calculate the Period ~~Transition~~Finance Charge applicable to the Reference Period ~~based on the calculations and information set forth in such written notices received from the Absolute Assignees~~

and based onhaving regard to such amounts specified by IESO or Successor IESOthe Servicer, which calculations, information and amounts shall be accepted by the OEB and shall be determinative, except to the extent of manifest calculation error or misstatement.

(3) **Calculation and Attribution of Transition Charges** – Not later than 25 days prior to the first day of a Reference Period, the OEB shall apply the Attribution Methodology to determine the Allocation Factorallocation of the Transition Charge for each RetailRegulated Consumer of the applicable Retail Consumer Group. **[NTD: We think the OEB would be determining the Fair Hydro recovery rate (on a volumetric basis) that distributors would then be required to charge to consumers]**

(4) **Notice of Transition Charges** – Not later than 20 days prior to the first day of a Reference Period, the OEB shall inform each Electricity Distributor and if applicable any Alternative Servicer of the Transition Charges to be specified in the Electricity Invoices to be issued to each RetailRegulated Consumer of the applicable Retail Consumer Group who has a billing address inwho is served by the Electricity Distributor's Service Area.

(5) **Adjustments** – The amount of any Transition Charge charged to a RetailRegulated Consumer and specified as such in an Electricity Invoice shall be determinative of the amount of indebtedness created thereby and owing in respect of such Transition Charge, except to the extent of any manifest calculation error.

(6) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 4 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 4 to impose, attribute, charge, bill and invoice the Transition Charges.

(7) **IESO Successor** – Any IESO Successor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of IESO under Article 4 in the same manner and to the same extent as IESO, including the obligation to calculate and provide notice of Transition Charges.

(8) **Appointment of an Alternative Servicer** – If a Replacement Event occurs in respect of any Electricity Distributor, the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Servicer to perform some or all of the obligations and duties required to be undertaken by such Electricity Distributor under this Article 4, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Servicer shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor. Any Electricity Distributor that is replaced under this Section 4(8) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in the performance of such obligations and duties to the Alternative Servicer and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Servicer to perform such obligations and duties on behalf of the Regulatory Asset Owners. **[NTD: We would expect the IESO to manage this in accordance with its normal business practices.]**

(9) Absolute Assignees have Standing – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, the Servicer, Alternative Servicer or any other person who may be authorized to issue Electricity Invoices to ~~Retail~~**Regulated** Consumers for a failure to impose, attribute, charge, bill or invoice Transition Charges **or to otherwise comply with this Act**. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure~~.~~ **and may make any interim or final order it thinks fit in this regard. [NTD: We would like to see the sections on "Standing" to bring an action to remain in the legislation (as opposed to being moved to the regulations as we believe we previously suggested) as we see those provisions as part of ensuring a rigorous enforcement scheme for the Financing Entity (and so something that should be difficult for the Province to change going forward).]**

(10) No Set-Off or Reduction – No Servicer or Electricity Distributor may set off or reduce (by counterclaim, defence or otherwise) the amount payable by it pursuant to this Article 4.

(11) Regulations – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Servicer to ensure that Transition Charges are properly charged to ~~Retail~~**Regulated** Consumers and specified as such in Electricity Invoices.

Article 5 – Collections and Remittances [NTD: Move Article 5 sections (3), (6), (9), (12), (13) and (14) to Regulations.]

(1) **Duty to Collect as Agent** – Electricity Distributors or if applicable any Alternative Collection Agent shall, as an agent of the ~~Regulatory Asset Owners, undertake [diligent][reasonable][10] efforts to~~**Servicer,** collect amounts owing by ~~Retail~~**Regulated** Consumers in respect of Transition Charges charged to such ~~Retail~~**Regulated** Consumers in Electricity Invoices issued by the Electricity Distributor or if applicable such Alternative Collection Agent~~.~~ **all in accordance with the Regulations. [NTD: The obligation to collect and remit the Transition Charge should be included as a deemed condition of license for electricity distributors (and retailers and unit sub-metering providers).]**

(2) **Segregation of Transition Charge Collections** – An Electricity Distributor or if applicable any Alternative Collection Agent shall promptly segregate Transition Charge Collections from other payments received by it from ~~Retail~~**Regulated** Consumers and deposit such Transition Charge Collections into its Regulatory Asset Account.[11][8] **[NTD: Determine if this is critical for rating and markets or if segregation can occur in the hands of the IESO]** Prior to and following a deposit of Transition Charge Collections having been made into its Regulatory Asset Account, the Electricity Distributor or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners **or its Pledgee**.

(3) **Electricity Distributor Remittances** – On each applicable Remittance Date, an Electricity Distributor shall remit all **amounts invoiced by the IESO on account of the**

[10] ~~Mirror collection "standard of care" under applicable legislation.~~

[11][8] Consider trying to attach to existing LDC credit enhancements and provide parallel coverage for customer losses.

Transition Charge ~~Collections received by it from Retail Consumers~~ in respect of the related Reference Period to or to the account of ~~IESO~~**Servicer** or if applicable the Alternative Collection Agent. **[NTD: It is the Dealers expectation that the Transition Charge will be paid on the same basis as other amounts invoiced by the IESO, failing which, they will need to be remitted daily.]**

(4) **Duty to Collect Electricity Distributor Remittances** – ~~IESO~~**Servicer** or if applicable any Alternative ~~Collection Agent~~**Servicer** shall, as an agent of the Regulatory Asset Owners, ~~undertake [diligent][reasonable] efforts to~~ accept and collect Electricity Distributor Remittances from Electricity Distributors and Transition Charge Collections from ~~Retail~~**Regulated** Consumers that pay their Electricity Invoices directly to IESO~~.~~[12] **on the same basis as it accepts and collects other charges from such Regulated Consumers.**[9]

(5) **Segregation of Electricity Distributor Remittances** – ~~IESO~~**Servicer** and if applicable the Alternative Collection Agent shall promptly segregate Electricity Distributor Remittances from other payments received or held by it and deposit such Electricity Distributor Remittances into its Regulatory Asset Account. Prior to and following a deposit of Electricity Distributor Remittances having been made into its Regulatory Asset Account, ~~IESO~~**Servicer** or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners **or Pledgee**.

(6) ~~**IESO**~~**Servicer Remittances** – On each Settlement Date[13]10, ~~IESO and if applicable the Alternative Collection Agent~~**Servicer** shall remit all amounts on deposit in its Regulatory Asset Account ~~(a) first,~~ to or to the account of the Absolute Assignees an amount equal to the Investment Remittance for the related month ~~and (b) second, to IESO (including by IESO retaining such amount) an amount equal to the lesser of (i) the Maximum IESO Recovery for the related month and (ii) the IESO Retained Interest Amount as of the Settlement Date~~.

(7) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 5 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 5 to collect Transition Charges and make remittances of Electricity Distributor Remittances.

(8) **IESO** ~~**Successor**~~**Successors** – IESO ~~Successor~~**Successors** shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of IESO under Article 5 in the same manner and to the same extent as IESO, including the obligation to collect Transition Charge Collections, Electricity Distributor Remittances and to remit IESO Remittances.

(9) **Owners of Distribution Assets** - If any person other than an Electricity Distributor acquires distribution system assets in the Province or invoices or collects electricity distribution rates in the Province[14]11, then such person shall, if requested by the Absolute Assignees, be obligated to act diligently to (a) facilitate the invoicing and collection of any Transition Charges applicable to ~~Retail~~**Regulated** Consumers ~~in its~~

[12]9 Consider building this obligation into a deemed condition of licence for the IESO.
[13]10 Consider frequency of remittances in light of rating requirements. US rating agencies favour daily remittances.

applicable service area, including all consumers connected to the electricitysuch person's distribution system assets and taking electric delivery service located within such service area; (b) allocate partial payments by RetailRegulated Consumers as provided in this Act; (c) exercise all enforcement rights of the Absolute Assignees for the benefit of an Absolute Assignee; and (d) remit any Transition Charge Collections to the Absolute Assignees or Pledgees, as applicable, each in accordance with its Investment Interest. [NTD: Such acquisition of a distribution system would require the person to be an electricity distributor; consider deleting since this is covered off by Section 5(7).]

(10) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESOServicer, the Alternative Collection Agent, any owner of electricity distribution system assets in the Province or any other person who may be authorized to collect electricity distribution and use charges from RetailRegulated Consumers for a failure to collect Transition Charges, remit or collect Electricity Distributor Remittances or remit IESO Remittances, as and to the extent applicable under Article 5.5, or to otherwise comply with this Act. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure and may make any interim or final order it thinks fit in this regard.

(11) **Appointment of an Alternative Collection Agent –** If a Replacement Event occurs in respect of any Electricity Distributor or IESO, the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Collection Agent to perform some or all of the collection, segregation and remittance obligations otherwise required to be undertaken by such Electricity Distributor or IESO, as applicable, under Article 5, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Collection Agent shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor or IESO, as applicable. Any Electricity Distributor or IESO, as applicable, that is replaced under this Section 5(11) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in, to and over the Regulatory Asset, including its Regulatory Asset Account, to the Alternative Collection Agent and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Collection Agent to enforce the Regulatory Asset on behalf of the Absolute Assignees.Not Used. [NTD: The Servicer should manage this process.]

(12) **No Set-off, etc.** - The Regulatory Asset, including rights in Transition Charges, Transition Charge Collections, and the interests of a Regulatory Asset Owner, an Absolute Assignee and a Pledgee therein, may not be setoff or reduced (including by counterclaim, surcharge or defense) by any RetailRegulated Consumer, any Electricity Distributor, IESOServicer, Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or in connection with any default, bankruptcy, reorganization or other insolvency proceeding of any Electricity Distributor,

~~IESO~~Servicer, Alternative Collection Agent or any owner of distribution system assets in the Province, any affiliate or successor thereof or any other entity or otherwise.[~~15~~12]

(13) **Sequestration** – If any Electricity Distributor, ~~IESO~~Servicer, the Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or entity authorized to collect Transition Charges, defaults on any required remittance of Transition Charge Collections, Electricity Distribution Remittances or IESO Remittances under Article 5, any court in the Province, upon application by and of the Absolute Assignees acting collectively under the Collective Action Agreement and without limiting any other remedies otherwise available to the Absolute Assignees or Pledgees, shall order the sequestration and payment of the Transition Charge Collections, Electricity Distribution Remittances and IESO Remittances, as applicable, for the benefit of the Absolute Assignees, each with respect to its Investment Interest, and the Pledgees as applicable.[~~16~~13]

[NTD: Suggest considering a more typical remedy such as the ability to appoint a receiver. Concept should be moved to Regulations.]

(14) Regulations – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to ~~IESO~~Servicer, any Electricity Distributor or any Alternative Collection Agent to ensure that rights, interests, entitlements, benefits and proceeds in, to, under and from the Regulatory Asset are of fully realized by some or all of the Absolute Assignees and Pledgees.

Article 6 – The Regulatory Asset

[NTD: We believe that the statute should impose a time limit on the ability of IESO to create additional Regulatory Assets under this Act. It is our expectation that this will be no later than 10 years after the commencement of the program.]

[NTD: In addition, additional language is required to address the acquisition of the Regulatory Asset by the Financing Entity, including reference to the consideration being provided for it, funding upfront costs.]

[NTD: The sale of Regulatory Assets must be restricted to Financing Entities controlled by a single entity (initially, OPG).]

[NTD: For greater certainty, a Financing Entity will not be required to purchase Regulatory Assets from IESO.]

(1) **Composition** – The Regulatory Asset shall constitute a current and irrevocable property right and interest consisting, collectively, of the following rights and interests (without duplication):

[~~15~~12] Consider whether it makes sense to create a "deemed collection" payment obligation on Electricity Distributors to the extent a ~~Retail~~Regulated Consumer reduces its payment of Transition Charges, despite this language. Same for Electricity Distributor Remittances and IESO Remittances.

[~~16~~13] Consider adding or substituting this provision for a right to appoint a receiver.

a. the right of ~~IESO (i)~~**a Regulatory Asset Owner** to record its ~~IESO Retained Interest in its accounts in accordance with Section 8(1), having a stated amount from time to time equal to the IESO Retained Interest Amount; and (ii) to receive IESO Recoveries from time to time in accordance with Section 5(6)(b)~~**portion of the Regulatory Asset in its accounts**;

b. the right to impose, bill, invoice, collect and receive Transition Charges from ~~Retail~~**Regulated** Consumers, including the right to determine the amount of Transition Charges in accordance with this Act;

c. the right to enforce the obligations and indebtedness of each ~~Retail~~**Regulated** Consumer to pay the Transition Charges charged to the ~~Retail~~**Regulated** Consumer from time to time in accordance with Article 3, together with all related late payment fees or interest charges arising in respect thereof under the related Electricity Invoices; **[NTD: Do we really want and need the ability for the Financing Entities to chase after individual consumers?] [NTD: This should be the right to provide notices to the OEB of the amounts required for recovery, which the OEB would then be required to accept for purposes of determining the amount of Transition Charges to be charged to consumers]**

d. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Servicer to impose, attribute, charge, bill and invoice the Transition Charges in accordance with Article 4;

e. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Collection Agent to collect, receive and remit amounts received by it in respect of Transition Charges as Electricity Distributor Remittances to or to the account of ~~IESO~~**Servicer** or if applicable the Alternative Collection Agent in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5;

f. the right to enforce the duties and obligations of ~~IESO~~**Servicer** and if applicable the Alternative Collection Agent to collect and receive Electricity Distributor Remittances and to remit IESO Remittances to or to the accounts of the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset, in each case in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by it to recover payment of Electricity Distributor Remittances in accordance with Article 5;

g. the right to receive and collect all Transition Charge Collections, all Electricity Distributor Remittances and all IESO Remittances in accordance with Article 5;

h. all rights and entitlements under each Regulatory Asset Account and all amounts on deposit in any such Regulatory Asset Account;

i. all Related Rights; and

j. all revenue, collections, claims, payments, money and proceeds of or derived from the rights described in (a) through (i), regardless of whether such revenue, collections, claims, payments and proceeds are imposed, invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

A Regulatory Asset and the property rights and interests therein shall exist whether or not Transition Charges have been imposed, charged, invoiced, accrued or collected and notwithstanding that the imposition, attribution, invoicing and collection of Transition Charges will depend on further actions that may not have occurred. **The Regulatory Asset shall continue to exist until all Funding Obligations and Additional Funding Charges have been paid in full.**

(2) **Validity of Dispositions** – ~~Despite any limitations or restrictions on a Disposition that may arise by contract or by operation of any applicable law of the Province or any consent requirement applicable to a Disposition that may arise by operation of any applicable law of the Province, a~~**A** Disposition by IESO **of all or any part of the IESO Funding Shortfall** to an Absolute Assignee ~~made under the Financing Plan~~, or **a Disposition of all or any part of an Investment Interest** by one Absolute Assignee to another Absolute Assignee made under the Financing Plan, shall be permitted and when made shall be valid and enforceable in accordance with the terms of the related Disposition Document and shall be effective to confer upon the Absolute Assignee thereof a valid property right and interest in, to and under the ~~applicable~~**IESO Funding Shortfall or** Investment Interest**, as applicable** (or relevant portion thereof) in accordance with the terms of such Disposition, provided that the parties to the applicable Disposition Document have expressly stated therein that such Disposition is a sale or other absolute transfer. Without limiting the foregoing, any Disposition that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as a true sale and absolute transfer of the ~~Regulatory Asset Owner's applicable~~**IESO Funding Shortfall or an Absolute Assignee's** right, title~~,~~ and interest in, to and under ~~the Regulatory Asset~~**an Investment Interest, as applicable** (or relevant portion thereof), and not merely as a Pledge thereof, and upon such Disposition the assigner or seller under the applicable Disposition Document shall retain no right, title or interest in the **IESO Funding Shortfall or** Investment Interest **(or relevant portion thereof)** subject to the Disposition, including all rights under the **IESO Funding Shortfall or** Investment Interest arising after such Disposition. **[NTD: Subject to review by Osler/dealers.]**

(3) **Perfection and Priority of Dispositions** – Any Disposition of an interest in a Regulatory Asset shall be vested, valid, binding and perfected from the time when such Disposition is made. Such Disposition shall be perfected, vested, valid and binding as against the **IESO or** transferring Regulatory Asset Owner**, as applicable,** and all other persons who have claims of any kind (whether in tort, contract or otherwise) against **IESO or** the transferring Regulatory Asset Owner, **as the case may be,** irrespective of whether such persons have notice of the Disposition and the property rights and interests acquired by the Absolute Assignee under such Disposition shall be free and clear of any liens in favour of such other persons.

(4) **Validity of Pledges** – ~~Despite any limitations or restriction on a Pledge that may arise by contract or by operation of any applicable law of the Province or any consent~~

~~requirement applicable to a Pledge that may arise by operation of any applicable law of the Province, a~~**A** Pledge by an Absolute Assignee may be made to secure any ~~related~~ Funding Obligation and when made shall be valid and enforceable in accordance with its terms and shall be effective to confer upon the Pledgee a valid security interest in, to and in respect of the related Investment Interest in accordance with the terms of the Pledge. ~~Other than as required by the Financing Plan, no~~**No** consent of**, or notice to,** any person shall be required to give effect to a Pledge made to secure any Funding Obligation.

(5) **Perfection and Priority of Pledges** - For purposes of the *Personal Property Security Act* (the "PPSA"), the Regulatory Asset shall be intangible personal property and any Pledge made by an Absolute Assignee in respect of a Funding Obligation **shall, subject to the terms thereof, give rise to a security interest of which the PPSA applies, and** may be perfected by filing a financing statement under the PPSA on that basis. All proceeds of a related Investment Interest that are subject to such a Pledge that are received by the Absolute Assignee shall immediately be subject to the such Pledge, and the security interest in such proceeds shall be perfected pursuant to the PPSA.~~17~~**14** A Pledge perfected under the PPSA shall be a continuously perfected security interest and shall have priority over any other lien or security interest, created by operation of law or otherwise, that may attach to the property rights and interests in the Investment Interest subject to the Pledge unless the Pledgee has otherwise agreed in writing. ~~Subject to the terms of the Collective Action Agreement, a~~**A** Pledgee shall have a perfected security interest in a related Investment Interest, including the Absolute Assignee's rights and interests in and to Transition Charge Collections or other related proceeds in respect of the Investment Interest and that are deposited in any Regulatory Asset Account or other account of any Electricity Distributor, IESO, Alternative Collection Agent or other person who may have commingled such Transition Charge Collections or such other proceeds with other funds. All provisions of the PPSA shall apply to the Regulatory Asset on the basis that it is intangible personal property, except to the extent otherwise provided in this Section 6(5).

(6) **Enforcement of Property Rights** – The rights of any Regulatory Asset Owner to collect and enforce its rights and interests in, to or in respect of the Regulatory Asset shall be exercised in the manner set forth in Article 5.

(7) **Owners of a Specified Portion of the Regulatory Asset** – A Regulatory Asset Owner may effect a Disposition to an Absolute Assignee of a specified portion of its rights and interests in the Regulatory Asset, including by way of a Disposition of a divided or an undivided interest therein as specified in a related Disposition Document~~, in each case under the Financing Plan~~. In no circumstance may the specified portions of the rights and interests in the Regulatory Asset owned by all Regulatory Asset Owners be greater than all of the rights and interests that comprise the Regulatory Asset in the aggregate.

(8) **Collective Action Required** – If a Regulatory Asset Owner's rights and interests in the Regulatory Asset comprises less than the entire property right and interest constituted by the Regulatory Asset, such Regulatory Asset Owner shall only enforce such right and interest on a collective and coordinated basis with each other Regulatory Asset Owner in accordance with the Collective Rights Agreement. **[NTD: Move to Regulations.]**

~~17~~**14** Consider whether to simply leave this and have a financing statement be filed under the PPSA. This would normalize the security interest and reduce any adverse suggestion that security would not otherwise arise.

Article 7 – Establishment of the Fair Allocation Plan[1815] **[NTD: Move entire Article 7 to Regulations, other than 7(1) and 7(2).]**

(1) **Adoption of the Fair Allocation Plan** – The Delegate may, [by written declaration,] designate and adopt a Fair Allocation Plan in compliance with Article 7. The Fair Allocation Plan so designated and adopted shall be the Fair Allocation Plan for all purposes of this Act, except if amended, amended and restated or terminated by a further written declaration made by the Delegate in compliance with Section 7(4).**[the Regulations]**

(2) **Principles and Parameters** – A Fair Allocation Plan shall seek to allocate Future Fair Share of Green Transition Benefits across present and future Retail Consumer Groups**Regulated Consumers** on a basis that the Delegate, in its sole and absolute discretion, determines to be equitable, having regard to the following principles and parameters:

[NTD: E&Y will need to see the guidelines of the Fair Allocation Plan set in reference to parameters that will allow it to establish a modeling curve]

- **[Inflation period: (between November 2017 – and April 2022) bill increases need to be capped at inflation (assumed at 2% for modeling purposes)]**
- **[Transition Period: (May 2022- April 2027) bills increased at a consistent rate which is set so that the borrowing will not exceed the Trust's capacity, which is determined by the Finance Service Manager]**
- **[Amortization Period: (May 2027-April 2047) equitable distribution of Finance Amount among Regulated Consumers]**

1. Future Fair Share of Green Transition Benefits should be allocated over the period ending on the Program End Date.

2. <*The Fair Allocation Plan should specify the Reference Periods for the purpose of* >identifying applicable Retail Consumer Groups and <*allocating Future Fair Share of Green Transition Benefits among* >them< *on a relative basis over time.* >

2. 3. The share of Future Fair Share of Green Transition Benefits allocable to a particular Retail**Regulated** Consumer Group in respect of a Reference Period should be proportionate to a reasonable assessment of the benefits of the Green Generation Initiative to the Retail**such Regulated** Consumer Group over such Reference Period**, other than**> *in exceptional circumstances*<**.**

[1815] The idea is that the Fair Allocation Plan will be set once at the outset based on the principles and parameters described here, all as applied based on information available and the reasonable expectations and discretion of the delegate at such time. If the expectations are not fulfilled (e.g., generators may choose to retire their facilities at the end of their current procurement contracts and not invest in extending service lives to secure further procurement contracts), the Fair Allocation Plan will be unaffected, unless it is specifically amended (assuming amendments will be permitted by the legislation).

4. The share of Future Fair Share of Green Transition Benefits to be allocated to a Retail Consumer Group and any future Retail Consumer Group at a particular time should not exceed the Estimated Future Green Transition Benefits, measured in respect of the Reference Periods following such particular time and to the Program End Date.

5. No future Retail Consumer Group should be allocated an unreasonably disproportionate share of Estimated Future Green Transition Benefits. Except<- *in exceptional circumstances*> or in the case of any reallocation of an Over-Assessed Amount as contemplated in 7, below, the Future Fair Share of Green Transition Benefits to be allocated under a Fair Allocation Plan to any future Retail Consumer Group should have regard to *[Insert formula if a year-over-year maximum amount is determined to be appropriate].*

3. 6. The time value of money should be reflected in the Fair Allocation Plan, in order to equate the relative values of the nominal allocations of Future Fair Share of Green Transition Benefits, calculated in current dollars, to future Retail Consumer Groups over time.>*The Fair Allocation Plan should specify the Reference Periods for the purpose of* <>*allocating Future Fair Share of Green Transition Benefits among* <**Regulated Consumers**> *on a relative basis over time.* <

7. To the extent there has been an Over-Assessed Amount, the Fair Allocation Plan may determine that an adjustment should fairly be made to rebate Retail Consumers for such an amount, by reducing the costs otherwise attributable under the Act to such Retail Consumers. The relative costs of the Green Generation Initiative are reflected under the Act by the attribution of Transition Charges to such Consumer Groups, based on the Financing Plan seeking to track the allocations of benefits under the Fair Allocation Plan. Accordingly, the Maximum Transition Charge Amount determined for one or more Retail Consumer Groups having regard to the Fair Allocation Plan otherwise applicable may be appropriately reduced to recognize the effect of the Over-Assessed Amount. In such a case, a determination to reduce the Maximum Transition Charge Amount applicable for certain related Reference Periods should have regard to the principle that the corresponding rebate should be extended to benefit the Consumer Group or Consumer Groups in closest proximity to the Legislative Implementation Date.

(3) Attribution Methodology – The Fair Allocation Plan shall specify the Attribution Methodology for the purposes of allocating the Period Transition**Finance** Charges across the Retail**Regulated** Consumers of a particular Retail Consumer Group. The Attribution Methodology shall result in an attribution of such Transition Charges that is considered by the Delegate to be equitable, and may have regard to such principles and parameters as may be further set forth in a Regulation.; **provided that**> *the Attribution Methodology* <**shall not be used to limit the recovery of Transition Charges. [NTD: Can the methodology be adjusted outside an amendment? If so, the rating agencies need to understand the limits of any adjustment.]**

(4) Amendments of the Fair Allocation Plan – The Fair Allocation Plan may be amended, amended and restated or terminated by the Delegate, provided that such amendment, amendment and restatement or termination shall (a) not be inconsistent with the principles and parameters set forth in (2) or (3), above, or the Regulation ~~and~~, (b) comply with any restrictions or limitations specified with respect thereto in any Funding Obligation~~.~~**, and (c) not impair any Regulatory Asset, outstanding Funding Obligation or any Transition Charges. [NTD: If the Fair Allocation Plan is amended, there should be no further Regulatory Assets until the revised Fair Allocation Plan and corresponding Financing Plan have been approved.]**

Article 8 – The IESO ~~Retained Interest~~Funding Shortfall

(1) ~~Maintain Books of Account~~ ~~– IESO may maintain books of account to record the IESO Retained Interest Amount and all adjustments thereto from time to time. Such books of account shall be determinative with respect to the amount of IESO's related regulatory asset.~~**Recording of IESO Funding Shortfall -- IESO will record any IESO Funding Shortfall in its books.**

~~**(2) Limitation on Additions** – IESO shall not record additions to the IESO Retained Interest Amount in respect of IESO Funding Shortfalls (a) if such additions are restricted by the terms of any Disposition Document or the Collective Action Agreement, or (b) on or after •, 2017.~~

(2) ~~**(3)**~~ **Dispositions** – IESO may effect a Disposition **of all or any part of the IESO Funding Shortfall** to an Absolute Assignee if (a) the ~~Absolute Assignee has or will concurrently become bound by the Collective Rights Agreement; (b) the~~ Disposition is effected pursuant to a Disposition Agreement duly executed by IESO; **and** (~~c~~**b**) the Financial Services ~~Agent~~**Manager** confirms in writing that the Disposition **complies with any restrictions or limitations specified with respect thereto in any documents evidencing the Funding Obligations and** is permitted under the Financing Plan~~; and (d) the net proceeds payable to IESO from the sale of the related Investment Interest would not exceed the IESO Retained Interest Amount immediately before the time of such Disposition~~.

(3) ~~**(4)**~~ **No Continuing Interest in any Investment Interest** – IESO shall have no continuing right or interest in any ~~Investment Interest~~**IESO Funding Shortfall** subject to a Disposition effected by IESO under a Disposition Document to which IESO is a party~~and IESO shall not assert any such right or interest or take or omit to take any action to exercise or enforce its rights or interests under the IESO Retained Interest if such action or omission would impede or obstruct the rights of any Absolute Assignee or a Pledgee to enforce its rights and interests in any Investment Interest, except if IESO is expressly permitted to take or omit to take such action, respectively, under the related Disposition Document or the Collective Rights Agreement.~~

~~**(5) IESO Financing Costs** – IESO shall be entitled in good faith to incur reasonable financing costs (including interest and other reasonable financing charges) reflecting market terms and conditions and which are payable in arrears, in order to finance its ownership of the IESO Retained Interest from time to time. **(6) IESO Recoveries** –~~

IESO shall, in respect of a month, be entitled to receive from IESO Remittances on a related Settlement Date the amount (if any) available to IESO under Section 5(6)(b).

Article 9 – The Financing Plan [NTD: Move all of Article 9 to Regulations other than 9(1).]

(1) Power to Prepare, Implement and Amend the Financing Plan – The Financial Services AgentManager shall be authorized to prepare, implement and amend a financing plan for the Financing Entities> *and propose the adoption*< of such financing plan as the Financing Plan. If the Financial Services Agent is unwilling or unable to prepare< *and propose the adoption*> of the Financing Plan, the Delegate may by written declaration designate one or more other persons who shall be authorized to prepare, implement and amend the Financing Plan for the purposes of this Act. The Financial Services Manager shall have the right to withdraw its financing plan as the Financing Plan at any time if it determines that implementing the Financing Plan in such manner would not be in the best interests of a Financing Entity.

(2) TermsPrinciples and ConditionsParameters of the Financing Plan – The Financing Plan shall establish the basis for each Absolute Assignee's funding decisions. The Financing Plan shall have having regard to the principles and parameters set forth in Schedule 3 and such other conditions and requirements as may be specified in a written declaration of the Delegate or in accordance with the Regulation.3.

(3) OEB Approval – Any Additional Funding Charge payable to or for the benefit of the Financial Services AgentManager in respect of services provided by the Financial Services Manager (other than third party costs) shall be subject to review and approval by the OEB.

(4) OEB Review of Financing Plan – The [OEB] [shall] undertake an annual review of the records maintained by the Financial Services AgentManager for the purpose of confirming that the Funding Obligations incurred and the Finance Amounts paid by or on behalf of the Absolute Assignees were incurred and paid, respectively, in material conformity with the Financing Plan. [NTD: We would prefer that this be dealt with by an attestation prepared by an officer of the Financial Services Manager.]

(5) Replacement of the Administrative AgentFinancial Services Manager – If the OEB identifies deficiencies or makes recommendations in its review under Section 9(4), the Administrative AgentFinancial Services Manager shall take reasonable measures to remedy such deficiencies if remediable, and shall in any event have regard to the recommendations of the OEB in relation to further actions undertaken by the Financial Services AgentManager under the Financing Plan. If the Financial Services AgentManager is unwilling or unable to reflect such recommendations in relation to such further actions, the Delegate may by written declaration designate one or more other persons who shall thereafter become the Financial Services. Manager. Any replacement must comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations.

(6) Obligation to Apply IESO Remittances – The Financial Services AgentManager shall ensure that amounts transferred to it under Article 5, as agent for and on behalf of the Absolute Assignees, or otherwise in respect of or as proceeds from an applicable Investment Interest shall only be applied or used to pay related Finance Amounts when

they are due and payable and for no other purpose. **[NTD: This can be dealt with by contract.]**

(7) Non-Recourse – The Financing Plan shall be implemented so that Funding Obligations incurred shall be without recourse to or to any assets of the Electricity Distributors, IESO, any Alternative Servicer, any Alternative Collection Agent, the Financial Services Agent**Manager**, the OEB, the Province or the Lieutenant Governor in Council **or Her Majesty in right of Ontario**, other than if and to the extent that such persons or entities are liable for the performance of obligations or duties arising under this Act or expressly agree to become liable pursuant to any Funding Obligation or obligation in relation to a Finance Amount. [All Funding Obligations shall contain a statement to the following effect: "Neither the full faith and credit nor the taxing power of the Province of Ontario is pledged to the payment of the principal of, or interest on, this [obligation].]

(8) Incurrences are Binding – Notwithstanding anything to the contrary in this Act, each**Each** Disposition made to or by an Absolute Assignee and**,** all amounts payable or becoming due and payable by or on behalf of an Absolute Assignee under or in connection with any obligation purporting to be a Funding Obligation **and each Pledge entered into by an Absolute Assignee**, shall be **valid and** binding for the purposes of this Act, including in determining the amount of related Transition Charges, despite**notwithstanding** any impairment or defect resulting from such failure**defect in the manner in incurrence or any inconsistency with the Fair Allocation Plan or the Financing Plan**.

[Article 10 – Compliance Matters[19][16]

(1) Right of the [OEB] to Inspect Books and Records - For the purpose of investigating compliance with the provisions of this Act, the OEB shall have the right, jurisdiction, power and authority to examine the books and records of *[Insert names if any]*.

(2) [OPG's Rate Settings – When setting other rates for or in respect of OPG, the OEB shall not take into account (a) the administrative or servicing fees charged by OPG as Financial Services Agent**Manager** [in excess of the actual incremental costs incurred by such person of providing administrative or servicing services]; (b) the cost consequences to OPG of being the Financial Services Agent**Manager**; or (c) the consequence of OPG consolidating the assets and liabilities of any Financing Entity for OPG's accounting purposes, in each case in setting any regulated payment amounts for OPG.][20][17]

[19][16] As noted above, the outcome of any regulatory action undertaken by the OEB will not affect Funding Obligations that have been incurred under the Financing Plan. This Article and any potential role for the Auditor General is still under consideration.

[20][17] As an alternative to this provision, consider clarifying under s. 78.1(4) of the OEB Act (which currently gives the OEB discretion in setting payment amounts subject to O. Reg. 53/05) that the OEB in setting OPG payment amounts for prescribed generation shall not consider OPG's role as Administrative Agent**Financial Services Manager** of any Financing Entities associated with the Fair Hydro initiative, perhaps with the exception of any operating fees that may be received by OPG for performing that role.

Article 11 – Undertaking of the ~~Lieutenant Governor in Council~~[21]Her Majesty in right of Ontario[18]

(1) No Action to limit, alter, or impair or terminate Transition Charges, the Regulatory Asset or Collections – ~~The [Lieutenant Governor in Council]~~**Her Majesty in right of Ontario** shall not in any way take or permit **(including by any agency or administrative body)** any action to reduce, impair, postpone or terminate the obligation of ~~Retail~~**Regulated** Consumers to pay Transition Charges or to impair the Regulatory Asset or the collection or recovery of Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances, either directly or indirectly, including through the introduction of any bill or the passing of any legislation or regulation having such effect. The amount of Transition Charges determined under this Act shall not be subject in any way to reduction, impairment, postponement or termination as a result of any action taken or failure by ~~the Lieutenant Governor in Council~~**Her Majesty in right of Ontario (including by any agency or administrative body)**, including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(2) Undertaking and Agreement – ~~The [Lieutenant Governor in Council]~~**Her Majesty in right of Ontario** shall not:

(a) in any way take or permit any action that limits, alters or impairs the value of any Investment Interest;

(b) except as required by the estimates and adjustments made in determining the True-up Amount, reduce, alter or impair Transition Charges that are imposed, billed, invoiced, collected and remitted for the benefit of the Absolute Assignees or any Pledgee from time to time;

(c) permit the amendment, amendment and restatement or termination of the Fair Allocation Plan if such amendment , amendment and restatement or termination would adversely affect the validity or enforceability of any Funding Obligation or the rights of an Absolute Assignee or Pledgee thereunder, **or would not otherwise comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations,**

in each case including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(3) Successor IESO – If IESO is restructured, dissolved or becomes insolvent or is otherwise incapable of performing its obligations under this Act, **an IESO** Successor ~~IESO~~ shall **immediately** be established **by Her Majesty in right of Ontario** to perform such obligations.

~~21~~[18] Under consideration, including the dealers' request for a "servicer guarantee" and a "contractual guarantee" to address a "Change of Law" or if all or a portion of the legislation is *ultra vires*, requiring (at the lenders option), the Province to pay principal and interest on the outstanding debt until maturity or payout the entire debt including any make-wholes. ⊥
In the event of a market disruption that renders it impossible to refinance debt when required (or where financing of amounts required to service the debt is not available because of a market disruption where the Financing Entity was relying on such further issuance of debt until the recovery is set to begin to fund interest), either the Province must step in and payout the debt or there must be the right to recover the debt from ratepayers as it becomes due, notwithstanding the intended rate cut.

(4) Compensation for Failure – Absolute Assignees shall be compensated by Her Majesty in right of Ontario for any losses suffered by them as a result of any failure by ~~the Lieutenant Governor in Council~~Her Majesty in right of Ontario to comply with its undertakings and agreements in this Article 11.~~22~~19

(5) No Wind-up of Financing Entity. No Financing Entity may be voluntarily wound up, liquidated or dissolved until one year after all of its Funding Obligations are repaid. [NTD: This concept can be contained in the Regulations.]

(6) References to the Undertaking and Agreement – Any non-confidential reference to the Undertaking of the ~~Lieutenant Governor in Council~~Her Majesty in right of Ontario, including in marketing materials and other documentation authorized for use by the Administrative in connection with any Funding Obligation, may be made provided that [*Add conditions to protect the Province*].

Article 12 – Regulations

Regulations may be made under this Act for the purposes described in Sections •,•,• and • and may be promulgated for any of the following purposes:

(a) to set standards and measures regarding the commercially reasonable requirements of the Province associated with an Absolute Assignee incurring Funding Obligations or becoming obligated to pay any Finance Amount, including to establish guidelines regarding all-in funding costs; permitted Additional Funding Charges; required maturities and redemption and termination rights of Funding Obligations; liquidity requirements, in each case to a Financing Plan that is consistent in its effect with the Fair Allocation Plan;

(b) to establish and empower one or more regulated entities to undertake decision-making activities with respect to this Act;

(c) to set out reasonable requirements regarding the appointment or retention of advisors, agents, service providers, contract counterparties, including in relation to 'market terms and conditions' parameters;

(d) to provide for audit and compliance standards applicable to those persons who are or may become obligated or have duties that arise under this Act [or under any Funding Obligation];

(e) to provide for any pre-vetting and approval requirements in relation to any incurrence by an Absolute Assignee of any Funding Obligation or obligation to pay any Finance Amount; and

(f) to provide for appeal and due process considerations in connection with the establishment, adoption, implementation and review of the Fair Allocation Plan or the Financing Plan.

Article 13- Miscellaneous~~23~~20

~~22~~19 Requested by ~~Torys~~Dealers. For discussion.

~~23~~20 OPG would like the specific amendments related to OPG to be included in the Bill.]

(1) **Choice of law** – The law governing, as applicable, the validity, enforceability, attachment, perfection, priority and exercise of remedies with respect to the transfer of an interest or right or creation of a security interest in the Regulatory Asset, any Transition Charge or the Undertaking of the Province shall be the laws of the Province.

(2) **Conflict of law** – In the event of conflict between this Act and any other law of the Province regarding the attachment, assignment or perfection, or the effect of perfection, or priority of any Disposition or Pledge, this Act shall govern to the extent of the conflict.

(3) **No further acts or approvals required** - Notwithstanding any provisions of any law of the Province to the contrary, no approvals, notices or authorizations other than those specified in this Act shall be required with respect to the actions to be taken in compliance with this Act, including under the Financing Plan or in relation to the establishment of the Fair Allocation Plan, and the transactions and contracts authorized in or contemplated by this Act or the Financing Plan, including the incurrence of any Funding Obligation, any Disposition, any Pledge or in the payment and performance of any attendant or incidental contract and any related expenses incurred to facilitate the preparation and implementation of the Financing Plan.

(4) **Effect of invalidity after the Incurrence of any Funding Obligation** - Effective on the date that a Funding Obligation is incurred under this Act, if any provision of this Act is held to be invalid or is invalidated, superseded, replaced, repealed or expires for any reason, that occurrence shall not affect any action allowed under this Act that is taken by any person who is or may become obligated or have duties that arise under this Act and any such action shall remain in full force and effect.

(5) **Severability** - If any Article, Section, paragraph or subparagraph of this Act or the application thereof to any person, circumstance or transaction is held by a court of competent jurisdiction to be unconstitutional or invalid, the unconstitutionality or invalidity shall not affect the constitutionality or validity of any other Article, Section, paragraph or subparagraph of this act or its application or validity to any person, circumstance or transaction, including the irrevocability of Transition Charges, the validity of the Regulatory Asset, the incurrence of any Funding Obligation, any Disposition, any Pledge, or the collection and recovery of Transition Charge Collections. To these ends, the Legislature hereby declares that the provisions of this Act are intended to be severable and that the Legislature would have enacted this Act even if any Article, Section, paragraph or subparagraph of this Act held to be unconstitutional or invalid had not been included in this Act.

Schedule 3[24]

Principles and Parameters for Establishing the Financing Plan

The following principles and parameters provide a guideline as to what a Financing Plan should address:

~~(1)~~ ~~in respect of each Reference Period, make reference to the allocations of Future Fair Share of Green Transition Benefits to each Reference Group contemplated by the Fair Allocation Plan;~~

~~(2)~~ ~~estimate IESO Funding Shortfalls for each Reference Period;~~

~~(3)~~ ~~consider alternative funding arrangements suitable to fund the estimated IESO Funding Shortfalls, including short term and/or long term Funding Obligations;~~

(1) ~~(9)~~ consider quantities, maturities, payment obligations, prepayment or redemption rights and such other features of Funding Obligations so that payments made for a Reference Period reasonably correspond to the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

(2) ~~(4)~~ if the anticipated amount of any Repayment (together with payments of other Finance Amounts) to be made in respect of a Reference Period would materially exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable ~~Retail Consumer Group~~**Regulated Consumers** under the then current Fair Allocation Plan, diligent efforts should be made to determine whether a Refinancing or deferral of such Repayment may be reasonably and cost-effectively effected based on then prevailing market terms, conditions an circumstances;

(3) ~~(5)~~ reflect the assumptions and requirements specified in any contemplated Funding Obligation (e.g., any limit on the maximum amount of Transition Charges charged to a hypothetical ~~Retail~~**Regulated** Consumer relative to his or her monthly electricity bill, as prescribed by any rating agency that ascribes its credit rating to or in respect of the Funding Obligation **[having regard to the application of the ~~Allocation~~Attribution Methodology][NTD: Are the words in square brackets necessary?]**);

(4) require the Financial Services Manager, for and on behalf of each Regulatory Asset Owner, to use diligent efforts to manage Finance Amounts to be borne by Ratepayers;

(5) include a proposal regarding the compensation of the Financial Services Manager that reflects market terms and conditions; and

(6) ~~incur Funding Obligations from time to time on the best terms available at such time for a financing transaction of the size and type contemplated, and having regarding to the following parameters:~~**require that the Financial Services Manager report annually to**

the Ministry of Energy on the operation of the Financing Plan including, in particular, with respect to the amount and terms of the Funding Obligations incurred and the sufficiency of such Funding Obligations for the purpose of funding the estimated Funding Shortfalls in accordance with the Fair Allocation Plan.

~~a. whether the Absolute Assignees will require committed access to short term liquidity to cover estimated IESO Funding Shortfalls prior to incurring fixed term Funding Obligations, and the amount and repayment terms of any such required liquidity; provided that any Repayment required to be made under the terms of such short term liquidity would not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;~~

~~b. the basis upon which the Financial Services Agent will select the term to maturity of any other Funding Obligations; provided that any Repayments required to be made under the terms of such Funding Obligations should not obligate an Absolute Assignee to repay an amount in relation to a Reference Period that would have the effect of the Financing Plan permitting incurrences of Funding Obligations payable in such Reference Period that would exceed the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;~~

~~c. the basis upon which the interest rates applicable to such Funding Obligations would be determined;~~

~~d. the reference capital or finance market in which such Funding Obligation would be incurred, including markets outside of Canada if considered by the Financial Services Agent to be appropriate in the circumstances;~~

~~e. the currency of payments under such Funding Obligations and, if the Funding Obligations are denominated in a currency other than Canadian dollars, the basis upon which the Financial Services Agent shall cause the applicable Absolute Assignee to enter into hedging transactions to mitigate currency risk, including acceptable minimum and maximum coverage levels, having regard to the availability of related derivatives having notional amounts corresponding to the repayment and maturity profile of such Funding Obligations;~~

~~f. the basis upon which the Financial Services Agent will select counterparties under any transaction to be entered into by an Absolute Assignee, including any paying agent, servicer, cash manager, liquidity provider, hedge counterparty, account bank, lender, note trustee, security trustee, paying agent, registrar/transfer agent, financial services agent, arranger or manager;~~

~~g. the basis upon which the Financial Services Agent will manage counterparty risk, including by providing for maximum counterparty exposure limits having regard~~

to concentration, credit and other identified risks with respect to individual counterparties or countries;

h. the basis upon which the Financial Services Agent will negotiate and settle Finance Amounts, including the amount of any Redemption Amounts, Finance Reserve Deposits and Additional Funding Charges;

(7) the basis upon which Funding Obligations may be redeemed, prepaid, repurchased or otherwise affected, having regard for the need to minimize debt service charges and other Funding Costs, and the need to maintain a stable funding platform to finance the IESO Funding Shortfalls from time to time on a basis that is consistent with the allocations of Future Fair Share of Green Transition Benefits to applicable Reference Groups under the Fair Allocation Plan;

(8) the basis upon which any Repayments, Funding Costs and Redemption Amounts will be paid, including any defeasance, sinking fund or through other reserves or liquidity facilities;

(9) the basis upon which fees, charges, expenses, costs, indemnities, reimbursements and other amounts payable to or for the benefit of the Financial Services Agent and other agents and service providers to the Absolute Assignees may be determined, allocated and paid;

(10) the timing and basis upon which Finance Reserve Deposits and Finance Reserve Withdrawals may be made;

(11) the basis upon which any obligations for any other Additional Funding Charges may be incurred and paid;

(12) the basis upon which the cash flows arising from time to time or otherwise derived from the Regulatory Asset may otherwise be applied, including in relation to any counterparty enforcement and realization scenario;

(13) the transmittal to [the IESO] of information related to the amounts to be included in the determination of the Period Transition Charge for a Reference Period;

(14) the basis upon which any Disposition may be made or effected by an Absolute Assignee, including parameters for determining the purchase price for the interest in the Regulatory Asset that is the subject matter of such Disposition, and any consents and releases that may be usefully obtained in connection with such Disposition;

(15) describe the requirements applicable to any special purchase entity that will purchase an Investment Interest, including proposed capitalization, governance, and restrictions on their powers and activities; and

(16) the basis on which any Pledge may be given or effected.

Fair_Hydro_Act Torys_Osler Mark-up April 11 2017 Draft (Torys-Oslers_Apr....pdf

CONFIDENTIAL AND PRIVILEGED

Preliminary Draft for Discussion Purposes Only

"Fair Hydro Act"

Article 1 – Purpose

The Province has and continues to encourage the construction and development of facilities for the long-term operation and generation of electricity in the Province using sustainable, lower carbon-based technologies such as new gas-fired generation, renewable facilities, energy from waste and biomass, including under the Province's various procurement, standard offer, feed in tariff and other similar programs (the "Green Generation Initiative"). The long-term benefits of the Green Generation Initiative accrue over time and have benefited and will continue to benefit present and future electricity consumers in the Province.

The out-of-market costs of the Green Generation Initiative are currently passed through to electricity consumers by way of a monthly adjustment amount (the "Green Costs Adjustment"), which in turn forms part of the overall adjustment calculated by the Independent Electricity System Operator ("IESO") pursuant to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* (the "Global Adjustment").

The Green Costs Adjustment is currently determined each month by reference to the amounts paid by IESO to the generators of electricity in the Province under the Green Generation Initiative. These amounts paid by the IESO arise because IESO has entered into long-term procurement contracts with such generators in order to provide them with revenue certainty, and in turn to encourage the generators to develop technologies and to construct and develop facilities consistent with the Green Generation Initiative. **[NTD: This statement is not correct in respect of all IESO procurement contracts.]** It has been determined that the useful lives of many of the assets developed under the Green Generation Initiative will be in excess of the respective terms of their respective procurement contracts.

Since the benefits to past, present and future electricity consumers from the Green Generation Initiative will not necessarily coincide with the costs currently attributed through the Green Costs Adjustment, based on the respective terms of the applicable procurement contracts, it has been determined that the rate at which the costs associated with the Green Generation Initiative should be passed through to Regulated Consumers (as defined in Article 2) should be more closely aligned with the benefits that such Regulated Consumers have derived and are expected to derive from the Green Generation Initiative over time. This realignment will be based on general principles and parameters that establish a reasonable basis for measuring and allocating the relative costs and benefits of the Green Generation Initiative equitably across present and future Regulated Consumers (the "Fair Allocation Plan"). **[NTD: There is no explanation as to why realignment is limited to Regulated Consumers.]**

If the Fair Allocation Plan determines that the equitable allocation of the costs associated with the Green Generation Initiative to the Regulated Consumers of a particular time period should be reduced below the amount that currently would be charged based on the Green Costs Adjustment, then the amount payable by such Regulated Consumers and in turn available to IESO will, in the aggregate, be less than the amount payable by the IESO to the generators in

respect of such period. In this case, IESO will need to obtain funding from another source to cover such a shortfall. If a funding obligation is incurred to cover such a shortfall during any period, the repayment of such funding obligation will be required in a future period, and any related repayments, finance costs, hedging costs and other transaction costs incurred will become payable in future periods. In order for IESO to obtain a reliable and committed source of cash flows to enable IESO to repay such funding amounts when they become due and payable, this Act imposes irrevocable and non-bypassable financial obligations on Regulated Consumers to pay amounts incurred in respect of such funding obligations when they become due and payable and establishes a right to invoice and collect such amounts. The right and interest in and to collect such financial obligations will take the form of the Regulatory Asset contemplated in this Act, which will constitute property rights and interests. Interests in the Regulatory Asset may be sold and absolutely assigned by IESO to one or more financing entities, which in turn will finance their acquired interests by incurring funding obligations. The incurrence and payment of such funding obligations will be administered on behalf of such financing entities by a financial services manager under the Financing Plan contemplated in this Act.

[NTD: Our strong preference is to limit the introduction to the next paragraph and move defined terms from the previous paragraphs to Article 2]

The purpose of this Act is to establish the basis upon which intergenerational fairness can be achieved by charging the costs and benefits of the Green Generation Initiative to present and future Regulated Consumers on an equitable and cost effective basis.

Article 2 – Definitions

In this Act: **[NTD: It would be preferable to use plain language definitions in the legislation and leave the more detailed definitions to either the regulations or the agreements contemplated hereunder.]**

> "Absolute Assignee" means a person to whom a Regulatory Asset Owner effects a Disposition other than as security.
>
> "Actual" means, in relation to costs, expenses or payments in respect of Funding Obligations during a Reference Period, the actual amount of such costs, expenses or payments paid or made (net of any Finance Reserve Withdrawals applied to pay such amounts), which amounts shall be recorded by the Financial Services Manager whose records shall be determinative for the purposes of this Act except to the extent of a manifest calculation error.
>
> "Additional Funding Charges" means, for a Reference Period, the fees, charges, expenses, costs, indemnities, reimbursements and other amounts (including any applicable tax amounts) that are or become payable by or on behalf of the Absolute Assignee during the Reference Period and that were incurred or committed to directly or indirectly by the Absolute Assignee in connection with the incurrence of Funding Obligations under the Financing Plan (whether at the time of such incurrence or over the term of the Funding Obligation and whether directly or indirectly), including without limitation such amounts as may be prescribed.
>
> **[NTD: See section 5(11). Remove this concept globally.]**

"Alternative Servicer" means a person appointed under Section 4(8) to assume the obligations of the Servicer under Article 4, as agent for and on behalf of the Regulatory Asset Owners. **[NTD: We see this, in effect, as the same thing as the IESO Successor; that is, replacement of the master Servicer.]**

"Assessed Past Green Transition Costs" means, in respect of a Measurement Date, the aggregate of the imputed costs of the Green Generation Initiative (expressed as an equivalent to current dollars), as reflected in the calculation of the Green Costs Adjustment, which have been charged to Retail Customers through the Global Adjustment on or prior to the Measurement Date.

"Attribution Methodology"[1] means the methodology specified in the Fair Allocation Plan for allocating the Period Finance Charges for a Reference Period to Regulated Consumers. **[NTD: We understood that the Ministry accepted that the transition charge would be a volumetric rate.][NTD: Can be moved to Regulations.]**

"Collected Amount Adjustment" means, in respect of a True-Up Period, the amount (which may be a negative amount) calculated by the Servicer or the Financial Services Manager, as applicable, equal to (a) the Estimate of the Finance Amount for the True-Up Period, minus (b) the sum of all Transition Charge Collections for the True-Up Period.[2]

"Collective Rights Agreement" means an agreement among all of the Regulatory Asset Owners (including each Absolute Assignee), each Pledgee, and the Financial Services Manager that governs the enforcement of their respective rights and interests in, to and under the Regulatory Asset on a coordinated and collective basis. **[NTD: Move to Regulations.]**

"Delegate" means any of the following person or persons designated in writing from time to time by the Minister of Energy to undertake the actions and perform the responsibilities ascribed to the "Delegate" under this Act: ●. **[NTD: Why is this delegation of authority necessary? This requires further discussion and clarity as to which entity or entities that the Province can select as the Delegate; for example, it would not be acceptable for the Province to select the OEB to be the Delegate. If this is required, an acceptable delegate would be a stakeholder committee comprised of representatives from the Ministry of Energy, the OEB, the IESO, and OPG. In addition, the regulation should prescribe how the stakeholder committee would operate.]**

"Disposition" means an assignment, transfer, conveyance, sale, contribution, set-over, exchange or other disposition of (a) IESO's right to recover all or any portion of an IESO Funding Shortfall or (b) an Investment Interest to an Absolute Assignee, in each case pursuant to a Disposition Document.

---

[1] This allocation may be volumetric or some combination of a flat amount and a volumetric charge. Further discussion is required. H&W has raised a concern regarding possible adverse changes after the fact and rating agency considerations. Consider whether hard-coding in the legislation makes sense.

[2] This would pick up adjustments based on actual collection experience, changes in the Regulated Consumer base, changes in the actual costs (versus earlier estimates) included in the Transition Charge calculation, etc.

"Disposition Document" means the agreement, deed, conveyance, instrument or other document under which IESO or an Absolute Assignee effects a Disposition to an Absolute Assignee.

"Electricity Distributor" means a rate regulated distributor licensed under Part V of the *Ontario Energy Board Act, 1998*, together with and its successors.

"Electricity Distributor Remittances" means, for an Electricity Distributor on a Remittance Date, all Transition Charge Collections received or deemed to be received **[NTD: estimated to be received? will each Electricity Distributor know?]** by the Electricity Distributor prior to the Remittance Date and that have not otherwise been remitted to Servicer or if applicable the Alternative Collection Agent in accordance with Section 5(3), including the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5.

"Electricity Invoice" means an invoice issued by an Electricity Distributor (or in its stead, by an Alternative Collection Agent), by the Servicer or by a Retailer, in each case to a Regulated Consumer that is served by the Electricity Distributor's distribution system in respect of electricity charges, including the cost of electricity, delivery and regulatory charges and related services and amounts incurred, assessed or charged in respect of connectivity to such Electricity Distributor's distribution system and in respect of applicable Transition Charges to be charged to the Regulated Consumer under this Act. **[NTD: The Alternative Servicer should only invoice for Transition Charges, not the entire invoice. Also, to avoid confusion, we suggest using the word "invoice" in reference to what the IESO sends out to distributors, and "bills" in reference to what distributors send out to consumers.]**

"Estimate" means (a) in relation to costs, expenses or payments in respect of Funding Obligations or any Finance Amount for a Reference Period, the estimated amount of such costs, expenses or payments determined by the Financial Services Manager; and (b) in relation to an assessment of the benefits of the Green Generation Initiative to Regulated Consumers, the estimated value (in current dollars) of such benefits determined by the Delegate, in each case having regard to the applicable principles and parameters set out in Schedule 1, which estimated amounts shall be determinative as the applicable estimate for the purposes of this Act except to the extent of a manifest calculation error.

"Estimated Future Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that are expected to accrue to Regulated Consumers from the establishment and implementation of the Green Generation Initiative during the period from the Measurement Date to the Program-End Date.

"Estimated Past Green Transition Benefits" means, in respect of a Measurement Date, the Estimate set forth in the Fair Allocation Plan prepared in accordance with Article 7 of the aggregate value (measured in current dollars) of the benefits that have accrued to Regulated Consumers from the establishment and implementation of the Green Generation Initiative up to and including the Measurement Date.

"Fair Allocation Plan" has the meaning given in Article 1.

"Finance Amount" means, for a Reference Period, the sum (without duplication) of the following amounts that are or become payable during the Reference Period in respect of all Absolute Assignees: (a) Repayments; (b) Net Funding Costs; (c) Redemption Amounts; (d) Finance Reserve Deposits; and (e) Additional Funding Charges.

"Finance Reserve Deposits" means, for a Reference Period, the amount by which (a) deposits made or to be made during the Reference Period in order to pre-fund, collateralize, over-collateralize or establish reserves for the ultimate payment of Funding Obligations or for related contingencies specified in the Financing Plan, exceed (b) any Finance Reserve Withdrawals. **[NTD: Move this to regulation.]**

"Finance Reserve Withdrawals" means, for a Reference Period, the amount withdrawn during the Reference Period from deposits previously made to pre-fund, collateralize, over-collateralize or establish reserves for the payment of Funding Obligations or to pay amounts in respect of related contingencies that had been specified in the Financing Plan. **[NTD: Move this to regulation.]**

"Financial Services Manager" means OPG or, following any Replacement Event involving OPG, such other person who may be appointed as the financial services manager of the Absolute Assignees under the Financing Plan in compliance with the requirements set out in Schedule 2.[3]

"Financing Entity" means any entity established at the initiative of and managed by the Financial Services Manager to support the Financing Plan.[4]

"Financing Plan" means the written plan prepared by the Financial Services Manager in accordance with Article 9, as the same may be amended, amended and restated or terminated by the Financial Services Manager in accordance with Article 9 from time to time.

"Funding Obligation" means, in respect of an Absolute Assignee, each payment obligation (including, without limitation, each obligation to pay: principal, interest, premiums and other financing charge payments; pass-through payments; payment obligations arising under or in respect of derivatives; payment obligations owing to service providers, Financial Services Managers, finance entity intermediaries, capital markets intermediaries, advisors, lenders, credit enhancement providers, liquidity providers, disbursement counterparties, regulatory agencies and rating agencies; and all Additional Funding Charges) incurred by or on behalf of the Absolute Assignee under

[3] There must only be one Financial Services Manager.

[4] MOE to confirm that the legislation will provide that any Financing Entity that is a wholly-owned subsidiary of OPG (1) would not be subject to Part VI of the *Electricity Act* (Ontario) and (2) in the case of any Financing Entity that is a trust, any income of such trust (for purposes of the *Income Tax Act* (Canada) or the *Taxation Act, 2007* Ontario)) which is paid or made payable to OPG or a wholly-owned subsidiary of OPG as a beneficiary of such trust will not be taken into account in calculating the amount of a payment required to be made by OPG (or such subsidiary) by section 89 or 90 of the Electricity Act.

the Financing Plan, including any Refinancing of another such payment obligation incurred by or on behalf of such Absolute Assignee.

"Future Fair Share of Green Transition Benefits" means, in respect of a Measurement Date, the sum of (a) the Over-Assessed Amount; and (b) the Estimated Future Green Transition Benefits, in each case as of the Measurement Date.

"Global Adjustment" has the meaning given in Article 1.

"Green Costs Adjustment" has the meaning given in Article 1.

"Green Generation Initiative" has the meaning given in Article 1.

"IESO" means the Independent Electricity System Operator created pursuant to Part II of the *Electricity Act, 1998*.

"IESO Electricity Distribution Receipts" means, for a month, the sum of all amounts payable by Electricity Distributors to IESO , during the month pursuant to section • of the *Electricity Act* in respect of Regulated Consumers. **[NTD: IESO indicates that it likely does not work to express in regards to "amounts payable by the LDCs" because settlement between the IESO and LDCs entails payments by LDCs to the IESO and then credits/debits by the IESO to LDCs to reflect RPP shortfalls/overages.]**

"IESO Funding Shortfall" means, for a month, the amount, if any, by which (a) the IESO Electricity Distribution Receipts that would be payable to IESO for the month if determined without regard to this Act and without regard to the changes made to section 25.33 of, and O.Reg. 429/4 under, the *Electricity Act* with respect to the Global Adjustment concurrently with this Act, exceeds (b) the IESO Electricity Distribution Receipts payable to IESO for the month[5].To the extent reasonably necessary to give effect to this Act, or any transaction contemplated hereby, IESO shall calculate the IESO Funding Shortfall for any month taking into account information provided by the Electricity Distributors and (i) such calculation shall be binding for all purposes; and (ii) any demonstrated inaccuracy in the calculation for any month (including any such resulting from inaccuracies in the information provided by Electricity Distributors) shall be accounted for by adjusting the IESO Funding Shortfall for a subsequent month. **[NTD: Need to add the mechanism for IESO to record this shortfall because without that there is no Regulatory Asset. This IESO Funding Shortfall is the regulatory asset owned by IESO.]**

"IESO Remittances" means, for a Settlement Date, all Electricity Distributor Remittances received by IESO or if applicable the Alternative Collection Agent prior to the Settlement Date and that have not otherwise been remitted to the Regulatory Asset Owners (each with respect to its Regulatory Asset) in accordance with Section 5(6), including the proceeds of any enforcement action undertaken by IESO or if applicable the Alternative

[5] This has been recast to recognize that the shortfall in the first 4.5 years could exceed the entire GA amount. A more refined approach to describing the concept may be considered.

Collection Agent to recover payment of amounts payable by Electricity Distributors to IESO in accordance with Article 5.

"IESO Successor" means the entity appointed by the Province to succeed to the rights and obligations of IESO as the entity responsible for managing the Province's electricity system.

"Investment Interest" means an ownership interest in, to or under the Regulatory Asset that is acquired by an Absolute Assignee pursuant to a Disposition.

"Investment Remittance" means, for a month, the lesser of (a) the aggregate amount of all IESO Remittances for the month, and (b) the sum of the Funding Obligations due and payable by all Absolute Assignees in respect of the month.

"Measurement Date" means [Insert relevant date around the Legislation Implementation Date] and any other date specified as such under the Fair Allocation Plan.

"Net Funding Costs" means, for a Reference Period in respect of a Financing Entity, the amount by which (a) the aggregate of all interest, scheduled principal and other periodic finance charges accruing due and becoming payable or paid by or on behalf of the Absolute Assignee during the Reference Period in respect of its Funding Obligations, including such amounts as may be prescribed, exceeds (b) the aggregate of all amounts received by or on behalf of the Absolute Assignee during the Reference Period in respect of the Funding Obligations referred to in (a), including such amounts as may be prescribed.

"OEB" means the Ontario Energy Board, together with its successors.

"OPG" means the corporation incorporated as Ontario Power Generation Inc. under the *Business Corporations Act* on December 1, 1998, together with its successors.

"Over-Assessed Amount" means, in respect of a Measurement Date, the amount (if any) by which (a) the Assessed Past Green Transition Costs, exceeds (b) the Estimated Past Green Transition Benefits, each as determined as of the Measurement Date.

"Period Finance Charges" means, for a Reference Period, the sum of (a) the Estimate of the Finance Amount (b) the True-Up Amount in respect of the applicable True-Up Period and (c) an adjustment amount as may be prescribed to account for estimated collection shortfalls and collection delays in respect of amounts under (a) and (b).

"Pledge" means, in respect of an Investment Interest of an Absolute Assignee, a lien, mortgage, charge or security interest granted to or in favour of a Pledgee by the Absolute Assignee in, to and over all or a specified portion (including a specified portion on a divided basis or by way of an undivided interest) of the Investment Interest.

"Pledgee" means a person to whom an Absolute Assignee grants a Pledge.

"Program End Date" means •, [2047].

"Province" means the Province of Ontario.

"Redemption Amount" means the amount payable by or on behalf of an Absolute Assignee to redeem, prepay or repurchase a Funding Obligation incurred by or on behalf of the Absolute Assignee, including any premium, make-whole or other additional amount becoming payable under the Funding Obligation to give effect to such redemption, prepayment or repurchase.

"Reference Period" means (a) the period from (and including) the Measurement Date to (and including) October 30, 2017, (b) each six month period commencing [May 1st and November 1st] thereafter and (c) any other period specified as such in the Fair Allocation Plan.

"Refinancing" means, in respect of a Funding Obligation incurred by or on behalf of an Absolute Assignee, that the Funding Obligation is repaid or repurchased for cancellation by or on behalf of the Absolute Assignee by applying the net proceeds obtained by the Absolute Assignee incurring one or more other Funding Obligations.

"Regulated Consumer" means consumers of electricity in the Province as prescribed.

[NTD: There are a number of issues with this definition. First, the word "Retail" is a source of confusion as it implies customers of licensed retailers. Really, the purpose of the term is to define the group of consumers that are eligible to receive the benefit of the Fair Hydro program and who will bear the cost of the program over the long term. We have proposed "Regulated Consumer" but you could also use the term "Eligible Consumer" or "Fair Hydro Eligible Consumer" and for purposes of the legislation to say that it is a member of a class of consumers prescribed by the regulations for purposes of the relevant section of the legislation. The regulation would then describe who is in the class. Second, it may not be appropriate to rely on the class of consumers prescribed for the purposes of s. 79.16 or under the OREC Act. Section 79.16 is the section that defines the class of RPP consumers. We understand that the "Fair Hydro Eligible Consumers" are not an identical class to that which is eligible for the RPP or for the Ontario Rebate for Electricity Consumers. For example, we have heard that Fair Hydro Eligible Consumers will (a) exclude consumers served by independent power authorities (certain remote communities not served by Hydro One Remotes), and (b) include consumers served by licensed unit sub-metering providers, licensed retailers and certain consumers served directly by the IESO (which may or may not be captured by the classes under 79.16 or OREC). Third, it is not clear why consumers with contracts with retailers who use retailer consolidated billing are removed from the first part of the definition but then added back into the second part of the definition. Fourth, Retailers do not necessarily have physical electricity assets that would be connected to the grid. Some just sell or offer contracts for electricity. As such, the first few lines after (b) are problematic. Fifth, the phrase "purchase electric generation services from a provider of electric generation services other than the owner of the Province's transmission and distribution system assets" does not make sense. A consumer does not purchase generation services from a transmitter or distributor. Rather, a consumer receives distribution services from a distributor. In addition to charging for its distribution services, the distributor also charges the associated

transmission costs and commodity costs associated with the volumes delivered. Those commodity costs are the price of the electricity itself and are almost entirely made up of the amounts determined under the global adjustment. Sixth, the phrase "whether or not the transmission and distribution system assets continue to be owned or operated by Electricity Distributors or operated by IESO" does not make sense. Transmission assets are owned and operated by transmitters. Distribution assets are owned and operated by distributors. The IESO does not own but does administer and direct the operation of the transmission system.]

"Regulatory Asset" means the property rights and interests described in Section 6(1), which collectively is comprised of each Investment Interest.

"Regulatory Asset Account" means (a) for an Electricity Distributor, any bank account into which the Electricity Distributor deposits or receives Transition Charge Collections; and (b) for the Servicer, any bank account into which Servicer deposits or receives Transition Charges, Electricity Distributor Remittances or IESO Remittances.

"Regulatory Asset Owner" means each Absolute Assignee, as owner of its Investment Interest or Investment Interests, and "Regulatory Asset Owners" means collectively each such Absolute Assignee, who together own the entirety of the Regulatory Asset and are required to exercise their individual rights of ownership in accordance with Section 6(7).

"Related Rights" means, with respect to a Regulatory Asset Owner's Investment Interest, all rights of any kind (whether in tort, contract or otherwise) that attach or are attendant or incidental to any of the other property rights or interests that comprise such Investment Interest.

"Remittance Date" means, in respect of an Electricity Distributor, each day on which it is required to remit Electricity Distribution Remittances to Servicer or if applicable the Alternative Collection Agent as specified in accordance with any Funding Obligation or, if no such day is specified in accordance with any Funding Obligation, then the Business Day **[NTD: Not defined.]** preceding each Settlement Date. **[NTD: Move to Regulations. Remittances will be in accordance with the current rules.]**

"Repayment Obligation" means an obligation to repay or to provide for the repayment (including by making a related Finance Reserve Deposit) of, all or a portion of the amount advanced to the Absolute Assignee under a Funding Obligation.

"Repayment" means a payment by an Absolute Assignee made to satisfy a Repayment Obligation, other than to the extent that the payment is made by applying the proceeds of a Refinancing or from Finance Reserve Withdrawals.

"Replacement Event" means any event specified as such in a Funding Obligation.

"Retailer" means a person who is licensed under Part V of the *Ontario Energy Board Act, 1998* to retail electricity.

"Retailer Consolidated Billing" has the same meaning as in the *Retail Settlement Code* issued by the Ontario Energy Board.

"Servicer" means IESO or IESO Successor, as agent for and on behalf of the Regulatory Asset Owners, for the purposes set forth in Article 4.

"Settlement Date" means the [last Business Day of any month].

"Transition Charge" means, the amount recoverable from a Regulated Consumer in respect of a Reference Period, being the Period Finance Charge as allocated to such Regulated Consumer in accordance with Article 4(3) on a monthly basis. **[NTD: This needs to be grossed up to account for variability associated with expected uncollectables and remittance delays.]** **[NTD: Do not need to create parallel process. The definition should be linked to the OEB process for determining the volumetric rate as part of the RPP process (see s. 4(2)). The OEB will determine volumetric rate based on forecast consumption, number of consumers, etc. to recover the Period Finance Charges.]**

"Transition Charge Collection" means any amount received **[or deemed by this Act to have been received]** by the Absolute Assignees upon the collection of a Transition Charge paid by or on behalf of a Regulated Consumer, including any proceeds arising from the exercise and enforcement of any related rights and interests under or in respect of the Regulatory Asset.

"True-Up Amount" means, in respect of a Reference Period, the amount (which may be a negative amount) calculated by the Financial Services Manager equal to (a) the Actual Finance Amount for such related True-Up Period, minus (b) the Estimate of the Finance Amount for the related True-Up Period, , plus (c) the Collected Amount Adjustment for such related True-Up Period. **[NTD: need to discuss how this will work for our true-up. What about prior period shortages? An example of how this works needs to be provided.]**

"True-Up Period" means, in relation to a Reference Period, the immediately preceding Reference Period.

"Undertaking of Her Majesty in right of Ontario" means the undertaking of Her Majesty in right of Ontario given under Section 11(2).

Article 3 – Transition Charges

(1) **Regulated Consumer Obligation to Pay a Transition Charge** – Each Regulated Consumer shall pay each Transition Charge charged to it in any Electricity Invoice issued to such Regulated Consumer by its Electricity Distributor or by an Alternative Servicer under Section 4(1), in each case on the terms of payment specified in the related Electricity Invoice.

(2) **Indebtedness of Regulated Consumers** – Until paid, a Transition Charge charged to a Regulated Consumer in an Electricity Invoice shall, together with any applicable late payment fees and finance charges arising under the terms of the Electricity Invoice with respect to such Transition Charge, constitute non-bypassable indebtedness of the

Regulated Consumer to the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset. Such indebtedness shall constitute a single and separate[6] debt obligation owing by the Regulated Consumer, which subject to Article 5 may be enforced independently from any other payment obligation or indebtedness owing by the Regulated Consumer under the Electricity Invoice or otherwise.[7]

(3) No Set-Off or Reduction – A Regulated Consumer may not set-off or reduce (by counterclaim, defense or otherwise) the amount payable by it in respect of any Transition Charge, including any set-off against or in respect of any amount owing or becoming payable to such Regulated Consumer by its Electricity Distributor, any Regulatory Asset Owner or any other person.

(4) Allocation of Regulated Consumer Payments – If an Electricity Distributor receives a payment made by or on behalf of a Regulated Consumer in respect of amounts due and payable under one or more Electricity Invoices that is less than the total amount payable thereunder, such payment shall be subject to rights and benefits that are no less favourable than the treatment accorded to other amounts payable to the IESO by the Electricity Distributor.

(5) Transition Charges are Irrevocable – The Transition Charges arising under or in respect of Funding Obligations (including any adjustments based on modifications to such Funding Obligations made in compliance with the Financing Plan or as a result of amendments to the Financing Plan made in accordance with Section 9(3)) are deemed to be irrevocable, final and effective without any further action, except to the extent of manifest calculation error. For greater certainty, a Transition Charge may include Finance Amounts for a Reference Period regardless of whether the payment of such Finance Amounts are inconsistent with the Fair Allocation Plan applicable at the time such payments are due and payable, and regardless of whether the related Funding Obligation was properly incurred under the Financing Plan. In no case shall a Funding Obligation incurred under the Financing Plan be affected by a subsequent amendment to the Fair Allocation Plan.

(6) True-Up of Transition Charges? – [NTD: Include specifics regarding the true-up of the charges and the process for the true-up, but move to Regulations. The True-Up Mechanism should require the Transition Charges to be reviewed and adjusted semi-annually to ensure the expected recovery of amounts sufficient to timely provide all payments in respect of Funding Obligations, provided that in some cases it may need to be adjusted more frequently than semi-annually, e.g., as part of a refinancing.]

(7) Commencement of Invoicing and Collection of Transition Charges – [NTD: Please confirm that as drafted, Transition Charges will begin on the Measurement Date.]

---

[6] Determine if this is critical for rating and markets. Logistics under consideration.

[7] Torys has also suggested that deemed conditions of licenses for distributors, retailers and unit sub-metering providers, could be included as conditions, to require them to collect and remit amounts in accordance with this legislation. Consider if it is helpful to integrate the existing regulatory scheme for invoicing and collections (regarding RPP) in the legislation.

Article 4 – Invoicing of Transition Charges [NTD: Move Article 4 sections (1) to (4) to Regulations. Also note, these sections remain subject to further due diligence by the Dealers.]

(1) **Inclusion of Transition Charges in Electricity Invoices** – Each Electricity Distributor and if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, specify the Transition Charge to be charged to a Regulated Consumer pursuant to Section 4(4) in respect of a related Reference Period in each Electricity Invoice issued by the Electricity Distributor or if applicable by the Alternative Servicer to the Regulated Consumer in respect of such Reference Period. Upon the inclusion of a Transition Charge in an Electricity Invoice, the obligation to pay such amount shall be binding on the applicable Regulated Consumer. **[NTD: Must capture bills issued to eligible consumers served by unit sub-metering providers, retailers and the IESO – not just distributors][NTD: This provision also needs to address the inclusion of Transition Charges in invoices from the IESO to the LDC, consistent with the current process of how the IESO bills LDCs.]**

(2) **Calculation of the Period Finance Charge** – Not later than [35] days prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services Manager on its behalf) shall provide the OEB with written notice of each Estimate of a Finance Amount payable by it or on its behalf in respect of the Reference Period. Not later than one month prior to the first day of a Reference Period, each Absolute Assignee (or the Financial Services Manager on its behalf) shall calculate the Period Finance Charge applicable to the Reference Period having regard to such amounts specified by the Servicer, which calculations, information and amounts shall be accepted by the OEB and shall be determinative, except to the extent of manifest calculation error or misstatement.

(3) **Calculation and Attribution of Transition Charges** – Not later than 25 days prior to the first day of a Reference Period, the OEB shall apply the Attribution Methodology to determine the allocation of the Transition Charge for each Regulated Consumer. **[NTD: We think the OEB would be determining the Fair Hydro recovery rate (on a volumetric basis) that distributors would then be required to charge to consumers]**

(4) **Notice of Transition Charges** – Not later than 20 days prior to the first day of a Reference Period, the OEB shall inform each Electricity Distributor and if applicable any Alternative Servicer of the Transition Charges to be specified in the Electricity Invoices to be issued to each Regulated Consumer who is served by the Electricity Distributor.

(5) **Adjustments** – The amount of any Transition Charge charged to a Regulated Consumer and specified as such in an Electricity Invoice shall be determinative of the amount of indebtedness created thereby and owing in respect of such Transition Charge, except to the extent of any manifest calculation error.

(6) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 4 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 4 to impose, attribute, charge, bill and invoice the Transition Charges.

(7) **IESO Successor** – Any IESO Successor shall be bound by the requirements of Article 4 and shall perform and satisfy all duties and obligations of IESO under Article 4 in the same manner and to the same extent as IESO, including the obligation to calculate and provide notice of Transition Charges.

(8) **Appointment of an Alternative Servicer** – If a Replacement Event occurs in respect of any Electricity Distributor, the Absolute Assignees shall, in accordance with the Collective Rights Agreement, be permitted, by an instrument in writing, to appoint an Alternative Servicer to perform some or all of the obligations and duties required to be undertaken by such Electricity Distributor under this Article 4, as and to the extent specified in such appointment. Upon acceptance of such appointment, the Alternative Servicer shall become obligated to perform such assumed obligations in replacement of such Electricity Distributor. Any Electricity Distributor that is replaced under this Section 4(8) shall promptly transfer all rights, powers, privileges and property interests in its possession or within its control in the performance of such obligations and duties to the Alternative Servicer and shall take such further actions, including the execution of instruments, necessary to give full and final effect to such transfer and to permit the Alternative Servicer to perform such obligations and duties on behalf of the Regulatory Asset Owners. **[NTD: We would expect the IESO to manage this in accordance with its normal business practices.]**

(9) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, IESO, the Servicer, Alternative Servicer or any other person who may be authorized to issue Electricity Invoices to Regulated Consumers for a failure to impose, attribute, charge, bill or invoice Transition Charges or to otherwise comply with this Act. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure and may make any interim or final order it thinks fit in this regard. **[NTD: We would like to see the sections on "Standing" to bring an action to remain in the legislation (as opposed to being moved to the regulations as we believe we previously suggested) as we see those provisions as part of ensuring a rigorous enforcement scheme for the Financing Entity (and so something that should be difficult for the Province to change going forward).]**

(10) **No Set-Off or Reduction –** No Servicer or Electricity Distributor may set off or reduce (by counterclaim, defence or otherwise) the amount payable by it pursuant to this Article 4.

(11) **Regulations** – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to IESO, any Electricity Distributor or any Alternative Servicer to ensure that Transition Charges are properly charged to Regulated Consumers and specified as such in Electricity Invoices.

Article 5 – Collections and Remittances [NTD: Move Article 5 sections (3), (6), (9), (12), (13) and (14) to Regulations.]

(1) **Duty to Collect as Agent** – Electricity Distributors or if applicable any Alternative Collection Agent shall, as an agent of the Servicer, collect amounts owing by Regulated Consumers in respect of Transition Charges charged to such Regulated Consumers in

Electricity Invoices issued by the Electricity Distributor or if applicable such Alternative Collection Agent all in accordance with the Regulations. **[NTD: The obligation to collect and remit the Transition Charge should be included as a deemed condition of license for electricity distributors (and retailers and unit sub-metering providers).]**

(2) **Segregation of Transition Charge Collections** – An Electricity Distributor or if applicable any Alternative Collection Agent shall promptly segregate Transition Charge Collections from other payments received by it from Regulated Consumers and deposit such Transition Charge Collections into its Regulatory Asset Account.[8] **[NTD: Determine if this is critical for rating and markets or if segregation can occur in the hands of the IESO]** Prior to and following a deposit of Transition Charge Collections having been made into its Regulatory Asset Account, the Electricity Distributor or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners or its Pledgee.

(3) **Electricity Distributor Remittances** – On each applicable Remittance Date, an Electricity Distributor shall remit all amounts invoiced by the IESO on account of the Transition Charge in respect of the related Reference Period to or to the account of Servicer or if applicable the Alternative Collection Agent. **[NTD: It is the Dealers expectation that the Transition Charge will be paid on the same basis as other amounts invoiced by the IESO, failing which, they will need to be remitted daily.]**

(4) **Duty to Collect Electricity Distributor Remittances** – Servicer or if applicable any Alternative Servicer shall, as an agent of the Regulatory Asset Owners, accept and collect Electricity Distributor Remittances from Electricity Distributors and Transition Charge Collections from Regulated Consumers that pay their Electricity Invoices directly to IESO on the same basis as it accepts and collects other charges from such Regulated Consumers.[9]

(5) **Segregation of Electricity Distributor Remittances** – Servicer and if applicable the Alternative Collection Agent shall promptly segregate Electricity Distributor Remittances from other payments received or held by it and deposit such Electricity Distributor Remittances into its Regulatory Asset Account. Prior to and following a deposit of Electricity Distributor Remittances having been made into its Regulatory Asset Account, Servicer or if applicable any Alternative Collection Agent shall hold such amounts in trust for the Regulatory Asset Owners or Pledgee.

(6) **Servicer Remittances** – On each Settlement Date[10], Servicer shall remit all amounts on deposit in its Regulatory Asset Account to or to the account of the Absolute Assignees an amount equal to the Investment Remittance for the related month.

[8] Consider trying to attach to existing LDC credit enhancements and provide parallel coverage for customer losses.

[9] Consider building this obligation into a deemed condition of licence for the IESO.

[10] Consider frequency of remittances in light of rating requirements. US rating agencies favour daily remittances.

(7) **Successors of Electricity Distributors** – Any successor of an Electricity Distributor shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of such Electricity Distributor under Article 5 in the same manner and to the same extent as such Electricity Distributor, including the obligation under Article 5 to collect Transition Charges and make remittances of Electricity Distributor Remittances.

(8) **IESO Successors** – IESO Successors shall be bound by the requirements of Article 5 and shall perform and satisfy all duties and obligations of IESO under Article 5 in the same manner and to the same extent as IESO, including the obligation to collect Transition Charge Collections, Electricity Distributor Remittances and to remit IESO Remittances.

(9) **Owners of Distribution Assets** - If any person other than an Electricity Distributor acquires distribution system assets in the Province or invoices or collects electricity distribution rates in the Province[11], then such person shall, if requested by the Absolute Assignees, be obligated to act diligently to (a) facilitate the invoicing and collection of any Transition Charges applicable to Regulated Consumers connected to such person's distribution system assets; (b) allocate partial payments by Regulated Consumers as provided in this Act; (c) exercise all enforcement rights of the Absolute Assignees for the benefit of an Absolute Assignee; and (d) remit any Transition Charge Collections to the Absolute Assignees or Pledgees, as applicable, each in accordance with its Investment Interest. **[NTD: Such acquisition of a distribution system would require the person to be an electricity distributor; consider deleting since this is covered off by Section 5(7).]**

(10) **Absolute Assignees have Standing** – The Absolute Assignees, acting together in accordance with the Collective Action Agreement, may bring actions against any Electricity Distributor, Servicer, the Alternative Collection Agent, any owner of electricity distribution system assets in the Province or any other person who may be authorized to collect electricity distribution and use charges from Regulated Consumers for a failure to collect Transition Charges, remit or collect Electricity Distributor Remittances or remit IESO Remittances, as and to the extent applicable under Article 5, or to otherwise comply with this Act. Any court of the Province shall have jurisdiction over any actions brought before it by the Absolute Assignees in relation to any such failure and may make any interim or final order it thinks fit in this regard.

(11) **Not Used. [NTD: The Servicer should manage this process.**]

(12) **No Set-off, etc.** - The Regulatory Asset, including rights in Transition Charges, Transition Charge Collections, and the interests of a Regulatory Asset Owner, an Absolute Assignee and a Pledgee therein, may not be setoff or reduced (including by counterclaim, surcharge or defense) by any Regulated Consumer, any Electricity Distributor, Servicer, Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or in connection with any default, bankruptcy, reorganization or other insolvency proceeding of any Electricity Distributor, Servicer,

[11] This is in anticipation of a possible future restructuring of the distribution system.

Alternative Collection Agent or any owner of distribution system assets in the Province, any affiliate or successor thereof or any other entity or otherwise.[12]

(13) **Sequestration** – If any Electricity Distributor, Servicer, the Alternative Collection Agent or any owner of distribution system assets in the Province or any other person or entity authorized to collect Transition Charges, defaults on any required remittance of Transition Charge Collections, Electricity Distribution Remittances or IESO Remittances under Article 5, any court in the Province, upon application by and of the Absolute Assignees acting collectively under the Collective Action Agreement and without limiting any other remedies otherwise available to the Absolute Assignees or Pledgees, shall order the sequestration and payment of the Transition Charge Collections, Electricity Distribution Remittances and IESO Remittances, as applicable, for the benefit of the Absolute Assignees, each with respect to its Investment Interest, and the Pledgees as applicable.[13]

[NTD: Suggest considering a more typical remedy such as the ability to appoint a receiver. Concept should be moved to Regulations.]

(14) Regulations – Regulations may be enacted for the purpose of specifying further rights, powers, privileges, duties and obligations that shall apply to Servicer, any Electricity Distributor or any Alternative Collection Agent to ensure that rights, interests, entitlements, benefits and proceeds in, to, under and from the Regulatory Asset are of fully realized by some or all of the Absolute Assignees and Pledgees.

Article 6 – The Regulatory Asset

[NTD: We believe that the statute should impose a time limit on the ability of IESO to create additional Regulatory Assets under this Act. It is our expectation that this will be no later than 10 years after the commencement of the program.]

[NTD: In addition, additional language is required to address the acquisition of the Regulatory Asset by the Financing Entity, including reference to the consideration being provided for it, funding upfront costs.]

[NTD: The sale of Regulatory Assets must be restricted to Financing Entities controlled by a single entity (initially, OPG).]

[NTD: For greater certainty, a Financing Entity will not be required to purchase Regulatory Assets from IESO.]

---

[12] Consider whether it makes sense to create a "deemed collection" payment obligation on Electricity Distributors to the extent a Regulated Consumer reduces its payment of Transition Charges, despite this language. Same for Electricity Distributor Remittances and IESO Remittances.

[13] Consider adding or substituting this provision for a right to appoint a receiver.

(1) **Composition** – The Regulatory Asset shall constitute a current and irrevocable property right and interest consisting, collectively, of the following rights and interests (without duplication):

a. the right of a Regulatory Asset Owner to record its portion of the Regulatory Asset in its accounts;

b. the right to impose, bill, invoice, collect and receive Transition Charges from Regulated Consumers, including the right to determine the amount of Transition Charges in accordance with this Act;

c. the right to enforce the obligations and indebtedness of each Regulated Consumer to pay the Transition Charges charged to the Regulated Consumer from time to time in accordance with Article 3, together with all related late payment fees or interest charges arising in respect thereof under the related Electricity Invoices; **[NTD: Do we really want and need the ability for the Financing Entities to chase after individual consumers?] [NTD: This should be the right to provide notices to the OEB of the amounts required for recovery, which the OEB would then be required to accept for purposes of determining the amount of Transition Charges to be charged to consumers]**

d. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Servicer to impose, attribute, charge, bill and invoice the Transition Charges in accordance with Article 4;

e. the right to enforce the duties and obligations of each Electricity Distributor and if applicable the Alternative Collection Agent to collect, receive and remit amounts received by it in respect of Transition Charges as Electricity Distributor Remittances to or to the account of Servicer or if applicable the Alternative Collection Agent in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by the Electricity Distributor or if applicable the Alternative Collection Agent to recover payment of Transition Charges in accordance with Article 5;

f. the right to enforce the duties and obligations of Servicer and if applicable the Alternative Collection Agent to collect and receive Electricity Distributor Remittances and to remit IESO Remittances to or to the accounts of the Regulatory Asset Owners, each with respect to its respective interest in the Regulatory Asset, in each case in accordance with Article 5, including all collections and the proceeds of any enforcement action undertaken by it to recover payment of Electricity Distributor Remittances in accordance with Article 5;

g. the right to receive and collect all Transition Charge Collections, all Electricity Distributor Remittances and all IESO Remittances in accordance with Article 5;

h. all rights and entitlements under each Regulatory Asset Account and all amounts on deposit in any such Regulatory Asset Account;

i. all Related Rights; and

j. all revenue, collections, claims, payments, money and proceeds of or derived from the rights described in (a) through (i), regardless of whether such revenue, collections, claims, payments and proceeds are imposed, invoiced, collected and maintained together with or commingled with other revenue, collections, claims, payments, money and proceeds.

A Regulatory Asset and the property rights and interests therein shall exist whether or not Transition Charges have been imposed, charged, invoiced, accrued or collected and notwithstanding that the imposition, attribution, invoicing and collection of Transition Charges will depend on further actions that may not have occurred. The Regulatory Asset shall continue to exist until all Funding Obligations and Additional Funding Charges have been paid in full.

(2) **Validity of Dispositions** – A Disposition by IESO of all or any part of the IESO Funding Shortfall to an Absolute Assignee, or a Disposition of all or any part of an Investment Interest by one Absolute Assignee to another Absolute Assignee made under the Financing Plan, shall be permitted and when made shall be valid and enforceable in accordance with the terms of the related Disposition Document and shall be effective to confer upon the Absolute Assignee thereof a valid property right and interest in, to and under the IESO Funding Shortfall or Investment Interest, as applicable (or relevant portion thereof) in accordance with the terms of such Disposition, provided that the parties to the applicable Disposition Document have expressly stated therein that such Disposition is a sale or other absolute transfer. Without limiting the foregoing, any Disposition that by its terms is intended to constitute a sale or absolute transfer shall be treated for all purposes as a true sale and absolute transfer of the IESO Funding Shortfall or an Absolute Assignee's right, title and interest in, to and under an Investment Interest, as applicable (or relevant portion thereof), and not merely as a Pledge thereof, and upon such Disposition the assigner or seller under the applicable Disposition Document shall retain no right, title or interest in the IESO Funding Shortfall or Investment Interest (or relevant portion thereof) subject to the Disposition, including all rights under the IESO Funding Shortfall or Investment Interest arising after such Disposition. **[NTD: Subject to review by Osler/dealers.]**

(3) **Perfection and Priority of Dispositions** – Any Disposition of an interest in a Regulatory Asset shall be vested, valid, binding and perfected from the time when such Disposition is made. Such Disposition shall be perfected, vested, valid and binding as against the IESO or transferring Regulatory Asset Owner, as applicable, and all other persons who have claims of any kind (whether in tort, contract or otherwise) against IESO or the transferring Regulatory Asset Owner, as the case may be, irrespective of whether such persons have notice of the Disposition and the property rights and interests acquired by the Absolute Assignee under such Disposition shall be free and clear of any liens in favour of such other persons.

(4) **Validity of Pledges** – A Pledge by an Absolute Assignee may be made to secure any Funding Obligation and when made shall be valid and enforceable in accordance with its terms and shall be effective to confer upon the Pledgee a valid security interest in, to and in respect of the related Investment Interest in accordance with the terms of the

Pledge. No consent of, or notice to, any person shall be required to give effect to a Pledge made to secure any Funding Obligation.

(5) **Perfection and Priority of Pledges** - For purposes of the *Personal Property Security Act* (the "PPSA"), the Regulatory Asset shall be intangible personal property and any Pledge made by an Absolute Assignee in respect of a Funding Obligation shall, subject to the terms thereof, give rise to a security interest of which the PPSA applies, and may be perfected by filing a financing statement under the PPSA on that basis. All proceeds of a related Investment Interest that are subject to such a Pledge that are received by the Absolute Assignee shall immediately be subject to the such Pledge, and the security interest in such proceeds shall be perfected pursuant to the PPSA.[14] A Pledge perfected under the PPSA shall be a continuously perfected security interest and shall have priority over any other lien or security interest, created by operation of law or otherwise, that may attach to the property rights and interests in the Investment Interest subject to the Pledge unless the Pledgee has otherwise agreed in writing. A Pledgee shall have a perfected security interest in a related Investment Interest, including the Absolute Assignee's rights and interests in and to Transition Charge Collections or other related proceeds in respect of the Investment Interest and that are deposited in any Regulatory Asset Account or other account of any Electricity Distributor, IESO, Alternative Collection Agent or other person who may have commingled such Transition Charge Collections or such other proceeds with other funds. All provisions of the PPSA shall apply to the Regulatory Asset on the basis that it is intangible personal property, except to the extent otherwise provided in this Section 6(5).

(6) **Enforcement of Property Rights** – The rights of any Regulatory Asset Owner to collect and enforce its rights and interests in, to or in respect of the Regulatory Asset shall be exercised in the manner set forth in Article 5.

(7) **Owners of a Specified Portion of the Regulatory Asset** – A Regulatory Asset Owner may effect a Disposition to an Absolute Assignee of a specified portion of its rights and interests in the Regulatory Asset, including by way of a Disposition of a divided or an undivided interest therein as specified in a related Disposition Document. In no circumstance may the specified portions of the rights and interests in the Regulatory Asset owned by all Regulatory Asset Owners be greater than all of the rights and interests that comprise the Regulatory Asset in the aggregate.

(8) **Collective Action Required** – If a Regulatory Asset Owner's rights and interests in the Regulatory Asset comprises less than the entire property right and interest constituted by the Regulatory Asset, such Regulatory Asset Owner shall only enforce such right and interest on a collective and coordinated basis with each other Regulatory Asset Owner in accordance with the Collective Rights Agreement. **[NTD: Move to Regulations.]**

---

[14] Consider whether to simply leave this and have a financing statement be filed under the PPSA. This would normalize the security interest and reduce any adverse suggestion that security would not otherwise arise.

Article 7 – Establishment of the Fair Allocation Plan[15] [NTD: Move entire Article 7 to Regulations, other than 7(1) and 7(2).]

(1) **Adoption of the Fair Allocation Plan** – The Delegate may, by written declaration, designate and adopt a Fair Allocation Plan in compliance with Article 7. The Fair Allocation Plan so designated and adopted shall be the Fair Allocation Plan for all purposes of this Act, except if amended, amended and restated or terminated by a further written declaration made by the Delegate in compliance with **[the Regulations]**

(2) **Principles and Parameters** – A Fair Allocation Plan shall seek to allocate Future Fair Share of Green Transition Benefits across present and future Regulated Consumers on a basis that the Delegate, in its sole and absolute discretion, determines to be equitable, having regard to the following principles and parameters:

[NTD: E&Y will need to see the guidelines of the Fair Allocation Plan set in reference to parameters that will allow it to establish a modeling curve]

- [**Inflation period**: (between November 2017 – and April 2022) bill increases need to be capped at inflation (assumed at 2% for modeling purposes)]

- [**Transition Period**: (May 2022- April 2027) bills increased at a consistent rate which is set so that the borrowing will not exceed the Trust's capacity, which is determined by the Finance Service Manager]

- [**Amortization Period**: (May 2027-April 2047) equitable distribution of Finance Amount among Regulated Consumers]

1. Future Fair Share of Green Transition Benefits should be allocated over the period ending on the Program End Date.

2. The share of Future Fair Share of Green Transition Benefits allocable to a particular Regulated Consumer in respect of a Reference Period should be proportionate to a reasonable assessment of the benefits of the Green Generation Initiative to such Regulated Consumer over such Reference Period, other than in exceptional circumstances.

3. The Fair Allocation Plan should specify the Reference Periods for the purpose of allocating Future Fair Share of Green Transition Benefits among Regulated Consumers on a relative basis over time.

---

15 The idea is that the Fair Allocation Plan will be set once at the outset based on the principles and parameters described here, all as applied based on information available and the reasonable expectations and discretion of the delegate at such time. If the expectations are not fulfilled (e.g., generators may choose to retire their facilities at the end of their current procurement contracts and not invest in extending service lives to secure further procurement contracts), the Fair Allocation Plan will be unaffected, unless it is specifically amended (assuming amendments will be permitted by the legislation).

(3) **Attribution Methodology** – The Fair Allocation Plan shall specify the Attribution Methodology for the purposes of allocating the Period Finance Charges across the Regulated Consumers. The Attribution Methodology shall result in an attribution of such Transition Charges that is considered by the Delegate to be equitable, and may have regard to such principles and parameters as may be further set forth in a Regulation; provided that the Attribution Methodology shall not be used to limit the recovery of Transition Charges. **[NTD: Can the methodology be adjusted outside an amendment? If so, the rating agencies need to understand the limits of any adjustment.]**

(4) **Amendments of the Fair Allocation Plan** – The Fair Allocation Plan may be amended, amended and restated or terminated by the Delegate, provided that such amendment, amendment and restatement or termination shall (a) not be inconsistent with the principles and parameters set forth in (2) or (3), above, or the Regulation, (b) comply with any restrictions or limitations specified with respect thereto in any Funding Obligation, and (c) not impair any Regulatory Asset, outstanding Funding Obligation or any Transition Charges. **[NTD: If the Fair Allocation Plan is amended, there should be no further Regulatory Assets until the revised Fair Allocation Plan and corresponding Financing Plan have been approved.]**

Article 8 – The IESO Funding Shortfall

(1) **Recording of IESO Funding Shortfall** -- IESO will record any IESO Funding Shortfall in its books.

(2) **Dispositions** – IESO may effect a Disposition of all or any part of the IESO Funding Shortfall to an Absolute Assignee if (a) the Disposition is effected pursuant to a Disposition Agreement duly executed by IESO; and (b) the Financial Services Manager confirms in writing that the Disposition complies with any restrictions or limitations specified with respect thereto in any documents evidencing the Funding Obligations and is permitted under the Financing Plan.

(3) **No Continuing Interest in any Investment Interest** – IESO shall have no continuing right or interest in any IESO Funding Shortfall subject to a Disposition effected by IESO under a Disposition Document to which IESO is a party.

Article 9 – The Financing Plan [NTD: Move all of Article 9 to Regulations other than 9(1).]

(1) **Power to Prepare, Implement and Amend the Financing Plan** – The Financial Services Manager shall be authorized to prepare, implement and amend a financing plan for the Financing Entities and propose the adoption of such financing plan as the Financing Plan for the purposes of this Act. The Financial Services Manager shall have the right to withdraw its financing plan as the Financing Plan at any time if it determines that implementing the Financing Plan in such manner would not be in the best interests of a Financing Entity.

(2) Principles and Parameters of the Financing Plan – The Financing Plan shall establish the basis for each Absolute Assignee's funding decisions having regard to the principles and parameters set forth in Schedule 3.

(3) OEB Approval – Any Additional Funding Charge payable to the Financial Services Manager in respect of services provided by the Financial Services Manager (other than third party costs) shall be subject to review and approval by the OEB.

(4) Review of Financing Plan – The [OEB] shall undertake an annual review of the records maintained by the Financial Services Manager for the purpose of confirming that the Funding Obligations incurred and the Finance Amounts paid by or on behalf of the Absolute Assignees were incurred and paid, respectively, in material conformity with the Financing Plan. **[NTD: We would prefer that this be dealt with by an attestation prepared by an officer of the Financial Services Manager.]**

(5) Replacement of the Financial Services Manager – If the OEB identifies deficiencies or makes recommendations in its review under Section 9(4), the Financial Services Manager shall take reasonable measures to remedy such deficiencies if remediable, and shall in any event have regard to the recommendations of the OEB in relation to further actions undertaken by the Financial Services Manager under the Financing Plan. If the Financial Services Manager is unwilling or unable to reflect such recommendations in relation to such further actions, the Delegate may by written declaration designate one or more other persons who shall thereafter become the Financial Services Manager. Any replacement must comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations.

(6) Obligation to Apply IESO Remittances – The Financial Services Manager shall ensure that amounts transferred to it under Article 5, as agent for and on behalf of the Absolute Assignees, or otherwise in respect of or as proceeds from an applicable Investment Interest shall only be applied or used to pay related Finance Amounts when they are due and payable and for no other purpose. **[NTD: This can be dealt with by contract.]**

(7) Non-Recourse – The Financing Plan shall be implemented so that Funding Obligations incurred shall be without recourse to or to any assets of the Electricity Distributors, IESO, any Alternative Servicer, any Alternative Collection Agent, the Financial Services Manager, the OEB or Her Majesty in right of Ontario, other than if and to the extent that such persons or entities are liable for the performance of obligations or duties arising under this Act or expressly agree to become liable pursuant to any Funding Obligation or obligation in relation to a Finance Amount.

(8) Incurrences are Binding – Each Disposition made to or by an Absolute Assignee, all amounts payable or becoming due and payable by or on behalf of an Absolute Assignee under or in connection with any obligation purporting to be a Funding Obligation and each Pledge entered into by an Absolute Assignee, shall be valid and binding, including in determining the amount of related Transition Charges, notwithstanding any defect in the manner in incurrence or any inconsistency with the Fair Allocation Plan or the Financing Plan.

[Article 10 – Compliance Matters[16]

(1) Right of the [OEB] to Inspect Books and Records - For the purpose of investigating compliance with the provisions of this Act, the OEB shall have the right, jurisdiction, power and authority to examine the books and records of *[Insert names if any]*.

(2) [OPG's Rate Settings – When setting other rates for or in respect of OPG, the OEB shall not take into account (a) the administrative or servicing fees charged by OPG as Financial Services Manager [in excess of the actual incremental costs incurred by such person of providing administrative or servicing services]; (b) the cost consequences to OPG of being the Financial Services Manager; or (c) the consequence of OPG consolidating the assets and liabilities of any Financing Entity for OPG's accounting purposes, in each case in setting any regulated payment amounts for OPG.][17]

Article 11 – Undertaking of the Her Majesty in right of Ontario[18]

(1) No Action to limit, alter, or impair or terminate Transition Charges, the Regulatory Asset or Collections – Her Majesty in right of Ontario shall not in any way take or permit (including by any agency or administrative body) any action to reduce, impair, postpone or terminate the obligation of Regulated Consumers to pay Transition Charges or to impair the Regulatory Asset or the collection or recovery of Transition Charge Collections, Electricity Distributor Remittances or IESO Remittances, either directly or indirectly, including through the introduction of any bill or the passing of any legislation or regulation having such effect. The amount of Transition Charges determined under this Act shall not be subject in any way to reduction, impairment, postponement or termination as a result of any action taken or failure by Her Majesty in right of Ontario (including by any agency or administrative body), including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(2) Undertaking and Agreement – Her Majesty in right of Ontario shall not:

---

[16] As noted above, the outcome of any regulatory action undertaken by the OEB will not affect Funding Obligations that have been incurred under the Financing Plan. This Article and any potential role for the Auditor General is still under consideration.

[17] As an alternative to this provision, consider clarifying under s. 78.1(4) of the OEB Act (which currently gives the OEB discretion in setting payment amounts subject to O. Reg. 53/05) that the OEB in setting OPG payment amounts for prescribed generation shall not consider OPG's role as Financial Services Manager of any Financing Entities associated with the Fair Hydro initiative, perhaps with the exception of any operating fees that may be received by OPG for performing that role.

[18] Under consideration, including the dealers' request for a "servicer guarantee" and a "contractual guarantee" to address a "Change of Law" or if all or a portion of the legislation is *ultra vires*, requiring (at the lenders option), the Province to pay principal and interest on the outstanding debt until maturity or payout the entire debt including any make-wholes.

In the event of a market disruption that renders it impossible to refinance debt when required (or where financing of amounts required to service the debt is not available because of a market disruption where the Financing Entity was relying on such further issuance of debt until the recovery is set to begin to fund interest), either the Province must step in and payout the debt or there must be the right to recover the debt from ratepayers as it becomes due, notwithstanding the intended rate cut.

(a) in any way take or permit any action that limits, alters or impairs the value of any Investment Interest;

(b) except as required by the estimates and adjustments made in determining the True-up Amount, reduce, alter or impair Transition Charges that are imposed, billed, invoiced, collected and remitted for the benefit of the Absolute Assignees or any Pledgee from time to time;

(c) permit the amendment, amendment and restatement or termination of the Fair Allocation Plan if such amendment, amendment and restatement or termination would adversely affect the validity or enforceability of any Funding Obligation or the rights of an Absolute Assignee or Pledgee thereunder, or would not otherwise comply with the restrictions and limitations specified in the documents evidencing the Funding Obligations,

in each case including through the introduction of any bill or the passing of any legislation or regulation having such effect.

(3) **Successor IESO** – If IESO is restructured, dissolved or becomes insolvent or is otherwise incapable of performing its obligations under this Act, an IESO Successor shall immediately be established by Her Majesty in right of Ontario to perform such obligations.

(4) **Compensation for Failure** – Absolute Assignees shall be compensated by Her Majesty in right of Ontario for any losses suffered by them as a result of any failure by Her Majesty in right of Ontario to comply with its undertakings and agreements in this Article 11.[19]

(5) **No Wind-up of Financing Entity**. No Financing Entity may be voluntarily wound up, liquidated or dissolved until one year after all of its Funding Obligations are repaid. **[NTD: This concept can be contained in the Regulations.]**

(6) **References to the Undertaking and Agreement** – Any non-confidential reference to the Undertaking of the Her Majesty in right of Ontario, including in marketing materials and other documentation authorized for use by the Administrative in connection with any Funding Obligation, may be made provided that [*Add conditions to protect the Province*].

Article 12 – Regulations

Regulations may be made under this Act for the purposes described in Sections •,•,• and • and may be promulgated for any of the following purposes:

(a) to set standards and measures regarding the commercially reasonable requirements of the Province associated with an Absolute Assignee incurring Funding Obligations or becoming obligated to pay any Finance Amount, including to establish guidelines regarding all-in funding costs; permitted Additional

[19] Requested by Dealers. For discussion.

Funding Charges; required maturities and redemption and termination rights of Funding Obligations; liquidity requirements, in each case to a Financing Plan that is consistent in its effect with the Fair Allocation Plan;

(b) to establish and empower one or more regulated entities to undertake decision-making activities with respect to this Act;

(c) to set out reasonable requirements regarding the appointment or retention of advisors, agents, service providers, contract counterparties, including in relation to 'market terms and conditions' parameters;

(d) to provide for audit and compliance standards applicable to those persons who are or may become obligated or have duties that arise under this Act [or under any Funding Obligation];

(e) to provide for any pre-vetting and approval requirements in relation to any incurrence by an Absolute Assignee of any Funding Obligation or obligation to pay any Finance Amount; and

(f) to provide for appeal and due process considerations in connection with the establishment, adoption, implementation and review of the Fair Allocation Plan or the Financing Plan.

Article 13- Miscellaneous[20]

(1) **Choice of law** – The law governing, as applicable, the validity, enforceability, attachment, perfection, priority and exercise of remedies with respect to the transfer of an interest or right or creation of a security interest in the Regulatory Asset, any Transition Charge or the Undertaking of the Province shall be the laws of the Province.

(2) **Conflict of law** – In the event of conflict between this Act and any other law of the Province regarding the attachment, assignment or perfection, or the effect of perfection, or priority of any Disposition or Pledge, this Act shall govern to the extent of the conflict.

(3) **No further acts or approvals required** - Notwithstanding any provisions of any law of the Province to the contrary, no approvals, notices or authorizations other than those specified in this Act shall be required with respect to the actions to be taken in compliance with this Act, including under the Financing Plan or in relation to the establishment of the Fair Allocation Plan, and the transactions and contracts authorized in or contemplated by this Act or the Financing Plan, including the incurrence of any Funding Obligation, any Disposition, any Pledge or in the payment and performance of any attendant or incidental contract and any related expenses incurred to facilitate the preparation and implementation of the Financing Plan.

---

[20] OPG would like the specific amendments related to OPG to be included in the Bill.]

(4) **Effect of invalidity after the Incurrence of any Funding Obligation** - Effective on the date that a Funding Obligation is incurred under this Act, if any provision of this Act is held to be invalid or is invalidated, superseded, replaced, repealed or expires for any reason, that occurrence shall not affect any action allowed under this Act that is taken by any person who is or may become obligated or have duties that arise under this Act and any such action shall remain in full force and effect.

(5) **Severability** - If any Article, Section, paragraph or subparagraph of this Act or the application thereof to any person, circumstance or transaction is held by a court of competent jurisdiction to be unconstitutional or invalid, the unconstitutionality or invalidity shall not affect the constitutionality or validity of any other Article, Section, paragraph or subparagraph of this act or its application or validity to any person, circumstance or transaction, including the irrevocability of Transition Charges, the validity of the Regulatory Asset, the incurrence of any Funding Obligation, any Disposition, any Pledge, or the collection and recovery of Transition Charge Collections. To these ends, the Legislature hereby declares that the provisions of this Act are intended to be severable and that the Legislature would have enacted this Act even if any Article, Section, paragraph or subparagraph of this Act held to be unconstitutional or invalid had not been included in this Act.

Schedule 1

Guidelines for Estimates

[To be considered.]

Schedule 2

Requirements Applicable to Alternative Invoicing Agent/ Alternative Collection Agent

[To be considered.]

Schedule 3

Principles and Parameters for Establishing the Financing Plan

The following principles and parameters provide a guideline as to what a Financing Plan should address:

(1) consider quantities, maturities, payment obligations, prepayment or redemption rights and such other features of Funding Obligations so that payments made for a Reference Period reasonably correspond to the allocations of Future Fair Share of Green Transition Benefits to the applicable Reference Group under the Fair Allocation Plan;

(2) if the anticipated amount of any Repayment (together with payments of other Finance Amounts) to be made in respect of a Reference Period would materially exceed the allocation of the costs and benefits of the Green Generation Initiative to the applicable Regulated Consumers under the then current Fair Allocation Plan, diligent efforts should be made to determine whether a Refinancing or deferral of such Repayment may be reasonably and cost-effectively effected based on then prevailing market terms, conditions an circumstances;

(3) reflect the assumptions and requirements specified in any contemplated Funding Obligation (e.g., any limit on the maximum amount of Transition Charges charged to a hypothetical Regulated Consumer relative to his or her monthly electricity bill, as prescribed by any rating agency that ascribes its credit rating to or in respect of the Funding Obligation **[having regard to the application of the Attribution Methodology][NTD: Are the words in square brackets necessary?]**);

(4) require the Financial Services Manager, for and on behalf of each Regulatory Asset Owner, to use diligent efforts to manage Finance Amounts to be borne by Ratepayers;

(5) include a proposal regarding the compensation of the Financial Services Manager that reflects market terms and conditions; and

(6) require that the Financial Services Manager report annually to the Ministry of Energy on the operation of the Financing Plan including, in particular, with respect to the amount and terms of the Funding Obligations incurred and the sufficiency of such Funding Obligations for the purpose of funding the estimated Funding Shortfalls in accordance with the Fair Allocation Plan.

Tom/Belinda,

Attached are documents related to a procurement of external services related to complex accounting matters. I would like to submit for Karen's signature on Monday, so that we can engage the firm on June 1st as planned. The work to be done is fairly time-sensitive and related to the electricity sector. Please advise of any issues/concerns.

Thanks in advance.

Nadine

MEMORANDUM TO: Karen Hughes
Associate Deputy Minister of Finance
Treasury Board Secretariat

FROM: Nadine Petsche
Director, Accounting Policy and Financial Reporting
Office of the Provincial Controller Division

SUBJECT: **Memo to Award Contract for Complex Accounting Services**

With this memo, I am updating you on my decision to proceed with awarding a contract to KPMG LP with a ceiling price of $299,000 plus HST.

As you are aware, earlier this year a Request for Services (RFS) was issued for Complex Accounting Services. As part of the competitive process, an RFS was issued to five vendors on the Management Consulting Services VOR for complex accounting support which covered the following support for accounting analysis related to Ontario's energy sector:

- Consolidation of the Province's electricity sector entities,
- Control assessments related to electricity sector entities,
- The impact of accounting changes by consolidated organizations on the Province's consolidated financial statements.

Three submissions were received in response to the invitation to quote. The three submissions were reviewed independently by myself and a Manager in the APFR section against the criteria outlined in the RFS document, which included experience and qualifications, and pricing.

Based on the results of the assessments, KPMG LP had the highest overall ranking in both assessments. I will be engaging KPMG LP to provide actuarial support services to the Office of the Provincial Controller, pending your written agreement.

KPMG's team will be well positioned to support OPCD on energy sector related accounting matters. Their extensive experience includes:

- Experience in preparing technical papers and accounting opinion on the application of PSAB standards related to engagement on advisory services related to the Ontario Fair Hydro Plan Act, 2017

…/2

- Advisory services around interpretation, and application of IFRS related to Hydro One and OPG
- Provided training on the new accounting IFRS 14 *Regulatory Deferral Accounts*
- Deep knowledge in accounting for the effect of rate regulation in the Power and Utilities sector under both IFRS and US GAAP frameworks
- Control assessment related to Hydro One under PSAB standards
- Extensive experience in control assessment under PSAB standards as related to GBEs, government restructuring, crown organizations types and reporting for senior governments including Ontario, Saskatchewan, New Brunswick, and the Government of Canada.
- Experience and knowledge with IPSASB standards.

The attached draft Statement of Work has been drafted to reflect the deliverables and timing associated with the complex accounting services under this contract.

As per the TBS FDOA for Consulting Services Agreements valued at or above $100,000, prior written approval from the Deputy Head on the selected vendor and the proposed Agreement is required before the proposed Agreement is signed. In TBS for Consulting Services Agreements valued at or above $100,000 and up to $750,000, the Deputy Minister has delegated this authority to the individual who granted the spending authority for the contract, which is the Associate Deputy Minister.

Commented [MB(1]: Is this correct? My records indicate director approval was requested

As the contract is estimated to be less than $299,999 only my approval is required to award the contract. With this memorandum, I am advising you of my decision and request that you sign this document as evidence of agreement with the vendor selection.

Commented [MB(2]: Contradicts the earlier para

Recommendation:

~~As the contract is estimated at $299,000 (tax excluded) your approval is requested to award the contract to KPMG LP for a period of 15 months (June 1, 2017 to August 30, 2018) with a 3 month extension option in favour of the ministry with no increase in ceiling price.~~

Commented [MB(3]: If the above para holds this para seems redundant

Regards,

Nadine Petsche
Director, Accounting Policy and Financial Reporting
Office of the Provincial Controller Division

I agree with the vendor selection:

Karen Hughes
Associate Deputy Minister

STATEMENT OF WORK- MINISTRIES

Statement of Work for Management Consulting Services

This Statement of Work no. **TBS-OTB-OPCD-21** made in duplicate and effective **June 1, 2017**

KPMG LLP (the "Vendor") and Her Majesty the Queen in Right of Ontario (the "Client") as represented by the President of the Treasury Board enter into this Statement of Work pursuant to the Master Agreement for Management Consulting Services made as of **June 16, 2014** between the Vendor and Her Majesty the Queen in Right of Ontario as represented by the Minister of Government and Consumer Services (such Master Agreement, as from time to time amended, is referred to as the "Master Agreement"). This document and the Master Agreement together comprise a separate Statement of Work between the Vendor and the Client.

In consideration of their respective agreements set out below, the parties agree as follows:

1. *Structure* - The terms and conditions of the Master Agreement are hereby incorporated by reference in this Statement of Work to the same effect as if fully set out in this Statement of Work. This document and the Master Agreement together comprise a separate Statement of Work between the Vendor and the Client. All capitalized terms used in this Statement of Work without definition have the meanings ascribed to them in the Master Agreement. In the event of any conflict or inconsistency between any term or provision of this Statement of Work and any term or provision of the Master Agreement, the terms and provisions of the Master Agreement shall govern.

2. *Statement of Work* - The Vendor agrees to provide to the Client, and the Client agrees to acquire from the Vendor, the Services and Deliverables described in this Statement of Work upon and subject to the terms of this Statement of Work.

3. *Maximum Price:* C$**$299,000**

4. *Project Start Date:* **June 1, 2017**

5. *Project End Date:* **August 30, 2018 (with an option to extend 3 months with no increase to the ceiling price)**

   The Client may, by giving written notice to the Vendor no later than 10 days before the initial Project End Date, extend the agreement for up to 4 additional months, ending December 31, 2018. Additionally, the Client may engage the Vendor in optional follow-on work that will result in changes to the scale and/or scope of the engagement. All additional work will be set out in a mutually agreed upon Change Order in accordance with the terms of the Master Agreement.

6. *Scope of Services and Deliverables* - The Services and Deliverables to be provided by the Vendor under this Statement of Work include the following:

   Working with management of OPCD's Accounting Policy and Financial Reporting Branch (APFR), the consultants will be expected to provide support for accounting analysis related to:

   - Consolidation of the Province's electricity sector entities,
   - Control assessments related to electricity sector entities
   - The impact of accounting changes by consolidated organizations on the Province's consolidated financial statements.
   - If required the service provider will be expected to work with OPCD to present findings and analysis to the Office of the Auditor General.

Commented [MB(1]: Next para mentions 4 months please clarify.

Commented [MB(2]: If I recall you estimated the project to cost 230K and the follow-on work to cost 70K. But now your procurement has come in at 299K so you really have no margin for follow-on work here and should delete this para unless you seek higher approvals that includes an estimated follow-on before you sign the contract.

The consultants may be required to perform the following duties

- Develop issues notes summarizing the analysis and conclusions as input to the Province's financial accounting and reporting processes.
- Collaborate with OPCD and other stakeholders to gather and assess relevant information necessary to inform the analysis
- Present issues paper to senior management
- Support OPCD in presentation of issues analysis and conclusions to the Office of the Auditor General

7. *Ownership and Licences* - **Attachment D** of the Master Agreement forms a part of this Statement of Work.

8. *Communications and Reporting* - The Vendor must describe its process for keeping the Client informed of status, including progress reports and any other types of reports or reporting requirements, and the frequency of reporting.

9. *Contingency Plan* – The Vendor must identify potential areas where problems may arise, and the plan for minimizing risk to the Client.

10. *Work Location* – All meetings will be within Greater Toronto Area.

11. *Working Hours* – The Client's normal working hours are 7.25 hours per day, normal working hours are between 8:15 a.m. to 4:30 p.m., Monday to Friday inclusive. If required, the Vendor must provide Services outside of these normal working hours and on non-Business Day(s).

Nadine:

My comments are attached.

Due to the very short turnaround time to review the Statement of Work, I have not reviewed the RFS to confirm that the Statement of Work is consistent with the RFS. I trust that previously provided legal advice was taken into account as part of the RFS development process and that the attached Statement of Work properly reflects the services and pricing model set out in the RFS.

Please let me know if you have any questions arising out of my comments.

I have not copied Belinda on my response, but it can be shared with her if required.

(Note: I will be leaving at 5pm today and will be out of town this weekend. I will respond to any emails on Sunday night or Monday morning.)

Regards,

Tom

Tom/Belinda,

Attached are documents related to a procurement of external services related to complex accounting matters. I would like to submit for Karen's signature on Monday, so that we can engage the firm on June 1st as planned. The work to be done is fairly time-sensitive and related to the electricity sector. Please advise of any issues/concerns.

Thanks in advance.

Nadine

MEMORANDUM TO: Karen Hughes
Associate Deputy Minister of Finance
Treasury Board Secretariat

FROM: Nadine Petsche
Director, Accounting Policy and Financial Reporting
Office of the Provincial Controller Division

SUBJECT: **Memo to Award Contract for Complex Accounting Services**

With this memo, I am updating you on my decision to proceed with awarding a ~~contract~~ Statement of Work to KPMG LLP **[Note to OPCD: The Statement of Work refers to KPMG as "KPMG LLP". The vendor list on Supply Chain's website indicates the Vendor as "KPMG LLP" as well.]** with a ceiling price of $299,000 plus HST.

Formatted: Highlight

As you are aware, earlier this year a Request for Services (RFS) was issued for Complex Accounting Services. As part of the competitive process, an RFS was issued to five vendors on the Management Consulting Services VOR for complex accounting support which covered the following support for accounting analysis related to Ontario's energy sector:

- Consolidation of the Province's electricity sector entities,
- Control assessments related to electricity sector entities,
- The impact of accounting changes by consolidated organizations on the Province's consolidated financial statements.

Three submissions were received in response to the ~~invitation to quote~~RFS process. The three submissions were reviewed independently by myself and a Manager in the APFR section against the criteria outlined in the RFS document, which included experience and qualifications, and pricing.

Based on the results of the assessments, KPMG LLP had the highest overall ranking in both assessments. I will be engaging KPMG LLP to provide actuarial support services to the Office of the Provincial Controller, pending your written agreement.

KPMG's team will be well positioned to support OPCD on energy sector related accounting matters. Their extensive experience includes:

- Experience in preparing technical papers and accounting opinion on the application of PSAB standards related to engagement on advisory services related to the Ontario Fair Hydro Plan Act, 2017

…/2

- Advisory services around interpretation, and application of IFRS related to Hydro One and OPG
- Provided training on the new accounting IFRS 14 *Regulatory Deferral Accounts*
- Deep knowledge in accounting for the effect of rate regulation in the Power and Utilities sector under both IFRS and US GAAP frameworks
- Control assessment related to Hydro One under PSAB standards
- Extensive experience in control assessment under PSAB standards as related to GBEs, government restructuring, crown organizations types and reporting for senior governments including Ontario, Saskatchewan, New Brunswick, and the Government of Canada.
- Experience and knowledge with IPSASB standards.

The attached draft Statement of Work has been drafted to reflect the deliverables and timing associated with the complex accounting services ~~under this contract~~being provided under the Statement of Work.

As per the TBS FDOA for Consulting Services Agreements valued at or above $100,000, prior written approval from the Deputy Head on the selected vendor and the proposed Agreement is required before the proposed Agreement is signed. In TBS for Consulting Services Agreements valued at or above $100,000 and up to $750,000, the Deputy Minister has delegated this authority to the individual who granted the spending authority for the contract, which is the Associate Deputy Minister.

As the ~~contract~~ Statement of Work is estimated to be less than $299,999 only my approval is required to award the ~~contract~~Statement of Work. [**Note to OPCD: I defer to Belinda on TBS FDOA, but there is nothing above describing delegation by the Associate Deputy Minister to a Director, which is what is required for Director sign-off in this case.**] With this memorandum, I am advising you of my decision and request that you sign this document as evidence of agreement with the vendor selection.

STATEMENT OF WORK- MINISTRIES

Statement of Work for Management Consulting Services

This Statement of Work no. **TBS-OTB-OPCD-21** made in duplicate and effective **June 1, 2017**

KPMG LLP (the "Vendor") and Her Majesty the Queen in Right of Ontario (the "Client") as represented by the President of the Treasury Board enter into this Statement of Work pursuant to the Master Agreement for Management Consulting Services made as of **June 16, 2014** between the Vendor and Her Majesty the Queen in Right of Ontario as represented by the Minister of Government and Consumer Services (such Master Agreement, as from time to time amended, is referred to as the "Master Agreement"). This document and the Master Agreement together comprise a separate Statement of Work between the Vendor and the Client.

In consideration of their respective agreements set out below, the parties agree as follows:

1. *Structure* - The terms and conditions of the Master Agreement are hereby incorporated by reference in this Statement of Work to the same effect as if fully set out in this Statement of Work. This document and the Master Agreement together comprise a separate Statement of Work between the Vendor and the Client. All capitalized terms used in this Statement of Work without definition have the meanings ascribed to them in the Master Agreement. In the event of any conflict or inconsistency between any term or provision of this Statement of Work and any term or provision of the Master Agreement, the terms and provisions of the Master Agreement shall govern.

2. *Statement of Work* - The Vendor agrees to provide to the Client, and the Client agrees to acquire from the Vendor, the Services and Deliverables described in this Statement of Work upon and subject to the terms of this Statement of Work.

3. *Maximum Price:* C$**$299,000**, plus HST

4. *Project Start Date:* **June 1, 2017**

5. *Project End Date:* **August 30, 2018 (with an option to extend 3 months with no increase to the ~~ceiling price~~Maximum Price)**

   The Client may, by giving written notice to the Vendor no later than 10 days before the initial Project End Date, extend the ~~agreement~~ Statement of Work for up to 4 additional months. **[Note to OPCD: Confirm whether it is 3 or 4 months. In the "Project End Date" above, you reference a 3 month extension.]**, ending December 31, 2018. Additionally, the Client may engage the Vendor in optional follow-on work that will result in changes to the scale and/or scope of the engagement. All additional work will be set out in a mutually agreed upon Change Order in accordance with the terms of the Master Agreement. **[Note to OPCD: Please note that additional procurement approvals may be required for the follow-on work. Belinda's team can advise OPCD on the appropriate approvals required, if any.]**

6. *Scope of Services and Deliverables* - The Services and Deliverables to be provided by the Vendor under this Statement of Work include the following:

   Working with management of OPCD's Accounting Policy and Financial Reporting Branch (APFR), the consultants will be expected to provide support for accounting analysis related to:

   - Consolidation of the Province's electricity sector entities,
   - Control assessments related to electricity sector entities

Formatted: Highlight

Formatted: Highlight

Formatted: Font: Bold

- The impact of accounting changes by consolidated organizations on the Province's consolidated financial statements.
- If required the service provider will be expected to work with OPCD to present findings and analysis to the Office of the Auditor General.

The consultants may be required to perform the following duties

- Develop issues notes summarizing the analysis and conclusions as input to the Province's financial accounting and reporting processes.
- Collaborate with OPCD and other stakeholders to gather and assess relevant information necessary to inform the analysis
- Present issues paper to senior management
- Support OPCD in presentation of issues analysis and conclusions to the Office of the Auditor General

[Note to OPCD: This description should be consistent with the RFS description. To the extent the Vendor's submission contains deliverables that you want to ensure is provided by the Vendor, add it to this section.]

7. *Ownership and Licences* - **Attachment D** of the Master Agreement forms a part of this Statement of Work.

8. *Communications and Reporting* — Within [x] days following the entering into of this Statement of Work, t~~T~~he Vendor must describe its process for keeping the Client informed of status, including progress reports and any other types of reports or reporting requirements, and the frequency of reporting. If the description and frequency are accepted by the Client, the Vendor agrees to comply with them. **[Note to OPCD: If the process and frequency has already been described in the Vendor's submission, use the following:** The Vendor must keep the Client informed of status, including progress reports and any other types of reports or reporting requirements, as described in the Vendor's submission, no less frequent that [insert timeframe].]

9. *Contingency Plan* – Within [x] days following the entering into of this Statement of Work, T~~t~~he Vendor must identify potential areas where problems may arise, and the plan for minimizing risk to the Client. If the plan is accepted by the Client, the Vendor shall comply with the plan. **[Note to OPCD: If the process and frequency has already been described in the Vendor's submission, use the following:**

10. *Work Location* – All meetings will be within Greater Toronto Area.

11. *Working Hours* – The Client's normal working hours are 7.25 hours per day, normal working hours are between 8:15 a.m. to 4:30 p.m., Monday to Friday inclusive. If required, the Vendor must provide Services outside of these normal working hours and on non-Business Day(s).

12. *Administrative Services and Supplies* – All administrative services and supplies used by the Vendor to complete the Services will be provided to the Client at no additional charge.

13. *Billing and Payment Process* - **The Vendor shall provide the Client with quarterly billing statements that outline the ~~p~~Per ~~d~~Diem Rate charges no later than 10 Business ~~Billing~~ Days. [Note to OPCD: There is no defined term in the Master Agreement called "Billing Days". Therefore, I have replaced "Billing" with "Business". If there is a difference, you should define Billing Day in this Statement of Work.] after the end of each quarter.**

[Note to OPCD: As previously advised on other procurements, the Management Consulting Service VOR arrangement is intended to be used for fixed price projects. This provision suggests that a Per Diem Rate model is being used. While the Master Agreement does contemplate the possibility of billing on a Per Diem Rate basis, it was intended for Change Orders.

Hi Michel.

Further to our recent discussion, I was hoping you could confirm the expected accounting impact on the Province's books if OPG's results were to be reported on an IFRS (IFRS14) basis. In particular, I have received the following response from OPG regarding the impact of ARO related differences. Perhaps I am taking too simplistic approach, but I would have thought that certain accounting differences between USGAAP and IFRS would be 'cushioned' by the fact that OPG would still expect to be able to recover the costs under a USGAAP basis.

I am currently out of the office, but perhaps we can set up a short call for early next week to discuss?

Thanks in advance.

Nadine

Can you provide clarification regarding OPG's ability to continue rate regulated asset treatment for non-discount rate changes in the year of an ONFA update? You mentioned that IFRS is more rigid in its application of rate regulated accounting, but I would have thought that as long as the types of costs are recoverable under US GAAP (regardless of timing), that they would continue to be reflected on OPG's balance sheet.

By way of recap, the two categories of ARO-related differences for OPG between IFRS and US GAAP are 1) discount rates, and 2) treatment of certain lifecycle costs capitalized under US GAAP that are either expensed in the same period or recognized at a later date under IFRS.

In applying IFRS 14 as part of the IFRS analysis for Provincial consolidation purposes, OPG can include regulatory assets and liabilities only to the extent that: 1) there are differences between IFRS accounting and US GAAP-based cost recovery methodology authorized by the OEB, and 2) these differences are recoverable from ratepayers. Because the costs of the Bruce facilities are determined by the OEB under US GAAP, it

is generally expected that the full amount of IFRS-US GAAP accounting differences for ARO related to these stations would be captured by a regulatory balance. However, this is not the case for some differences related to the Pickering and Darlington facilities because the OEB recovery methodology for these stations does not include an accounting accretion expense component for the time value of money.

Non-discount rate changes can include changes in economic assumptions (e.g., escalation rates), operating assumptions, timing of cash flows, used fuel or waste volumes, and the like. All of these are revaluated in a comprehensive manner in conjunction with each ONFA reference plan update. It has also been OPG's practice under US GAAP (and IFRS) to adjust the accounting ARO for certain non-discount rate changes if they occur between ONFA reference plan updates, provided the change is known, material and identifiable. An example of this would be the anticipated change to the accounting service lives of the Bruce B units following announcement of a contract for their refurbishment. As noted in response to Question 2, in and of itself, making a change between ONFA reference plan updates for a factor such as station end-of-life dates is not expected to trigger a change to OPG's IFRS discount rate established at the time of the most recent ONFA reference plan update.

Whether part of a comprehensive revaluation in conjunction with the ONFA reference plan update or not, where non-discount rate changes impact ARO lifecycle costs that are accounted for differently under IFRS and US GAAP, the full value of the differences for Pickering and Darlington is not expected to be offset by a regulatory balance. The regulatory balance recognized for these stations would be the US GAAP value expected to be recovered from, or repaid to ratepayers in the future.

For example, under IFRS, a change in certain lifecycle costs associated with previously generated nuclear waste or fuel would be expensed in full in the current period, whereas these costs would be capitalized by OPG under US GAAP. The IFRS expense would be measured using the IFRS discount rate; the US GAAP capitalized costs would be calculated using the US GAAP discount rate. Given that the accounting accretion expense for Pickering and Darlington is not recoverable under the OEB methodology, the IFRS regulatory balance would be recorded based on the US GAAP recoverable amount (i.e. the amount capitalized under US GAAP). This means that the portion of IFRS expense equal to the difference between IFRS and US GAAP amounts due to different discount rates would not be offset by a regulatory balance, resulting in income statement volatility under IFRS.

Can you provide clarification regarding OPG's ability to continue rate regulated asset treatment for non-discount rate changes in the year of an ONFA update? You mentioned that IFRS is more rigid in its application of rate regulated accounting, but I would have thought that as long as the types of costs are recoverable under US GAAP (regardless of timing), that they would continue to be reflected on OPG's balance sheet.

By way of recap, the two categories of ARO-related differences for OPG between IFRS and US GAAP are 1) discount rates, and 2) treatment of certain lifecycle costs capitalized under US GAAP that are either expensed in the same period or recognized at a later date under IFRS.

In applying IFRS 14 as part of the IFRS analysis for Provincial consolidation purposes, OPG can include regulatory assets and liabilities only to the extent that: 1) there are differences between IFRS accounting and US GAAP-based cost recovery methodology authorized by the OEB, and 2) these differences are recoverable from ratepayers. Because the costs of the Bruce facilities are determined by the OEB under US GAAP, it is generally expected that the full amount of IFRS-US GAAP accounting differences for ARO related to these stations would be captured by a regulatory balance. However, this is not the case for some differences related to the Pickering and Darlington facilities because the OEB recovery methodology for these stations does not include an accounting accretion expense component for the time value of money.

Non-discount rate changes can include changes in economic assumptions (e.g., escalation rates), operating assumptions, timing of cash flows, used fuel or waste volumes, and the like. All of these are revaluated in a comprehensive manner in conjunction with each ONFA reference plan update. It has also been OPG's practice under US GAAP (and IFRS) to adjust the accounting ARO for certain non-discount rate changes if they occur between ONFA reference plan updates, provided the change is

known, material and identifiable. An example of this would be the anticipated change to the accounting service lives of the Bruce B units following announcement of a contract for their refurbishment. As noted in response to Question 2, in and of itself, making a change between ONFA reference plan updates for a factor such as station end-of-life dates is not expected to trigger a change to OPG's IFRS discount rate established at the time of the most recent ONFA reference plan update.

Whether part of a comprehensive revaluation in conjunction with the ONFA reference plan update or not, where non-discount rate changes impact ARO lifecycle costs that are accounted for differently under IFRS and US GAAP, the full value of the differences for Pickering and Darlington is not expected to be offset by a regulatory balance. The regulatory balance recognized for these stations would be the US GAAP value expected to be recovered from, or repaid to ratepayers in the future.

For example, under IFRS, a change in certain lifecycle costs associated with previously generated nuclear waste or fuel would be expensed in full in the current period, whereas these costs would be capitalized by OPG under US GAAP. The IFRS expense would be measured using the IFRS discount rate; the US GAAP capitalized costs would be calculated using the US GAAP discount rate. Given that the accounting accretion expense for Pickering and Darlington is not recoverable under the OEB methodology, the IFRS regulatory balance would be recorded based on the US GAAP recoverable amount (i.e. the amount capitalized under US GAAP). This means that the portion of IFRS expense equal to the difference between IFRS and US GAAP amounts due to different discount rates would not be offset by a regulatory balance, resulting in income statement volatility under IFRS.

Hi Michel.

Further to our recent discussion, I was hoping you could confirm the expected accounting impact on the Province's books if OPG's results were to be reported on an IFRS (IFRS14) basis. In particular, I have received the following response from OPG regarding the impact of ARO related differences. Perhaps I am taking too simplistic approach, but I would have thought that certain accounting differences between USGAAP and IFRS would be 'cushioned' by the fact that OPG would still expect to be able to recover the costs under a USGAAP basis.

I am currently out of the office, but perhaps we can set up a short call for early next week to discuss?

Thanks in advance.

Hi Stephen. I understand, but the reference noted still suggests that compliance with the directive itself (in full form) would be required. It should just be modified to refer to reference the principles as opposed to 'limitations in the directive' which is very different. N

Met with Pwc late Friday. Not a reg asset but they think OPG Finance Co could set up an asset similar to a royalty or franchise fee concept where OPG has the rights to a portion of future cash flows. May be an intangible asset rather than a financial one.

Problem is whether such legislation would have that asset survive on consolidation since it's that legislation that gave rise to this future right and it's the Province enacting this legislation. Relayed this onto the Provincial controllers office and I think they have EY looking into it.

We're pulling out all the stops to try to make this work.

We'll circle back with Pwc who is following up with their government accounting expert.

Ken fully in the loop as I know there's a meeting Monday afternoon to discuss.

Hi John,

I wanted to circle back on the accounting issue from Friday. My sense is that creating a regulatory asset for OPG is going to be difficult. Have you heard any progress? I am going to get asked tomorrow, how things are going, so if you hear anything please let me know. Is anything the Province can do in legislation to bolster the case that this is OPG's cost?

IIs there any way OPG could finance all of its portion of GA, thereby reducing its annual revenue requirement (akin to nuclear smoothing but on a larger scale)? I realize this would impact OPG's liquidity and solvency ratios. If all borrowing comes from OFA, does the accounting even work? This is a long shot, but I want to make sure we have turned over every stone.

Thanks,
Scott

Normally, in a related party transaction, one party would set up an asset the other party should have a liability (or a reduction of asset). Given this principle, in my view, the proper accounting should be a hit to the Province or IESO books to offset the asset on the sale to OPG reflecting the sale of future cash inflows. Without a regulatory asset, this would result in the deferred amount flowing through the provincial deficit.

Thanks John.

I was thinking that the asset was sold on a daily basis but not necessarily settle on a daily basis.

The reason of the daily sale was to match the energy cost incurred to avoid having an accounting loss.

Instead of daily, the sale could take place on, at least, on a monthly basis to avoid any accounting impact on IESO's monthly income statement. The settlement should be made to meet the cash outflows requirement.

I believe there is a risk for the AG to refuse rate regulated accounting under PSAB. Without the intervention of the OEB, OPG should be able to get a better rating of the bonds.

We've taken it to the extreme of the position that the asset is never on the IESO's books because it settles daily (so it's not a tranche on a quarterly or semi annual basis but basically 365 tranches per year).

What you're suggesting is that OPG recognizes an asset that the IESO so no ability to set up on its own. Doing it daily does not change that fact in my opinion.

My suggestion:
“Desire to be involved” was never a criteria for this plan..... why not compel the OEB to adhere to the legislation and write them in to limit their involvement to ensuring the recovery is as per allowed in the legislation (no ability to alter or really make any decision other than the legislation and subsequent regulation are being followed). Legislation and regulation that directs the OEB to do things is standard practice and is not something that the OEB can determine or dictate.

All,

As you know by now, the OEB believes that they should not be involved with the approval process of the regulatory asset.

In the absence of regulatory accounting, PSAB requires that the energy purchased (the unrecognized regulatory asset) be expensed immediately.

If the sale contract would be set-up in a way that the unrecognized asset is sold to the OPG Trust on a daily basis, then an offsetting revenue would be recorded.

As IESO is an agent for the market participants, IESO is showing the market transactions in the income statement on a net basis.

Therefore, no impact on the income statement and the sale would be recorded as a receivable from the OPG Trust.

The accounting treatment in the IESO’s books should not impact the nature of the asset purchased by the OPG Trust, as I believe it would still be considered an intangible asset.

The new accounting approach would:

· not require the approval of the OEB;
· not require IESO to adopt regulatory accounting under PSAB; and
· permit the legislation to be as tight as possible for the right to collect the intangible asset; and
· not require the consolidation of the market books.

I would appreciate your comments on the proposed approach above.

Ps: Is this the magic that Andrew was expecting!

Kim,

Just wanted to flag these additions to the AG's Audit Planning Report (issued in relation to the Public Accounts audit), as an FYI. Nadine

· Review the working papers of the external auditor of IESO as well as the treatment of significant accounting change related to the Hydro relief initiative

· Review with IESO's external auditors the decision of IESO to adopt US rate regulated accounting which is directly related to the smoothing of the global adjustment (Our Office became aware of this in April 2017 – after the external audit opinion was signed. The audit firm did not make us aware of the significant policy changes in line with our reporting requirements of February 17, 2017). This situation will be reported in Chapter 2 of our 2017 Annual Report.

1.1 Coordination with Agency and Crown Controlled Corporation Auditors

Our work on the audit of the Province of Ontario's consolidated financial statements requires us to place reliance on the work of private sector auditors. As such, we require open and complete communication with these firms to which we issue letters annually requiring the submission of key information to our office so that we can assess the impact of any significant changes in the entity they audit, to our audit of the Province's consolidated financial statements. At no time should they be told not to communicate with our office.

Sections of the Auditor General Act to be aware of include:

· Section 9(2) Audit of agencies of the Crown,

“Where the accounts and financial transactions of an agency of the Crown are not audited by another auditor, the Auditor General shall perform the audit, and, despite any other Act, where the accounts and financial transactions of an agency of the Crown are audited by another auditor, the audit shall be performed under the direction of the Auditor General and such other auditor shall report to the Auditor General.”

· Section 9 (3) Audit of the Crown Controlled Corporation,

“Where the accounts of a Crown controlled corporation are audited other than by the Auditor General, the person or persons performing the audit,

a) shall deliver to the Auditor General forthwith after completion of the audit a copy of their report of their findings and their recommendations to the management and a copy of the audited financial statements of the corporation;

b) shall make available forthwith to the Auditor General, when so requested by the Auditor General, all working papers, reports, schedules and other documents in respect of the audit or in respect of any other audit of the corporation specified in the request;

c) shall provide forthwith to the Auditor General, when so requested by the Auditor General, a full explanation of work performed, tests and examinations made and the results obtained, and any other information within the knowledge of such person or persons in respect of the corporation.”

· Section 9 (4) Additional examination and investigation may apply where we believe additional work is needed

“Where the Auditor General is of the opinion that any information, explanation or document that is provided, made available or delivered to him or her by the auditor or auditors referred to in subsection (2) or (3) is insufficient, the Auditor General may conduct or cause to be conducted such additional examination and investigation of the records and operations of the agency or corporation as the Auditor General considers necessary.”

Hi Michel.

I think that a review of correspondence between the OPA and the OAG when the decision was made w.r.t. reporting the OPA's RR balances as financial assets and liabilities might be a relevant comparative. That was under a different AG at the time (early 2011) and I'm not sure what the expectation may have been per the component auditor's arrangement with the OAG or when the decision may have been communicated by KPMG at the time. Perhaps Kim might know?

I can't really think of any others, except perhaps OPG's and H1's decisions to adopt US GAAP as the basis of external reporting? As above, I don't have any way of knowing the dates that the external auditors would have apprised the AG of the decision.

Hope this helps.

Kim,

Just wanted to flag these additions to the AG's Audit Planning Report (issued in relation to the Public Accounts audit), as an FYI. Nadine

· Review the working papers of the external auditor of IESO as well as the treatment of significant accounting change related to the Hydro relief initiative

· Review with IESO's external auditors the decision of IESO to adopt US rate regulated accounting which is directly related to the smoothing of the global adjustment (Our Office became aware of this in April 2017 – after the external audit opinion was signed. The audit firm did not make us aware of the significant policy changes in line with our reporting requirements of February 17, 2017). This situation will be reported in Chapter 2 of our 2017 Annual Report.

1.1 Coordination with Agency and Crown Controlled Corporation Auditors

Our work on the audit of the Province of Ontario's consolidated financial statements requires us to place reliance on the work of private sector auditors. As such, we require open and complete communication with these firms to which we issue letters annually requiring the submission of key information to our office so that we can assess the impact of any significant changes in the entity they audit, to our audit of the Province's consolidated financial statements. At no time should they be told not to communicate with our office.

Sections of the Auditor General Act to be aware of include:

· Section 9(2) Audit of agencies of the Crown,

"Where the accounts and financial transactions of an agency of the Crown are not audited by another auditor, the Auditor General shall perform the audit, and, despite any other Act, where the accounts and financial transactions of an agency of the Crown are audited by another auditor, the audit shall be performed under the direction of the Auditor General and such other auditor shall report to the Auditor General."

· Section 9 (3) Audit of the Crown Controlled Corporation,

"Where the accounts of a Crown controlled corporation are audited other than by the Auditor General, the person or persons performing the audit,

a) shall deliver to the Auditor General forthwith after completion of the audit a copy of their report of their findings and their recommendations to the management and a copy of the audited financial statements of the corporation;

b) shall make available forthwith to the Auditor General, when so requested by the Auditor General, all working papers, reports, schedules and other documents in respect of the audit or in respect of any other audit of the corporation specified in the request;

c) shall provide forthwith to the Auditor General, when so requested by the Auditor General, a full explanation of work performed, tests and examinations made and the results obtained, and any other information within the knowledge of such person or persons in respect of the corporation."

· Section 9 (4) Additional examination and investigation may apply where we

believe additional work is needed

“Where the Auditor General is of the opinion that any information, explanation or document that is provided, made available or delivered to him or her by the auditor or auditors referred to in subsection (2) or (3) is insufficient, the Auditor General may conduct or cause to be conducted such additional examination and investigation of the records and operations of the agency or corporation as the Auditor General considers necessary.”

Thanks Michel, to clarify we can leave the Province's travel meal and hospitality directive an addendum and state:

...the Board of Trustees have general regard to sorts of limitations as are set forth in the “Travel, Meal and Hospitality Expenses Directive of the Province” specified and amended by the Province from time to time, a copy of the current version of which is attached as Exhibit 1 to the Principles Annex."

Nadine, I thought you were comfortable with this originally, so it sounds like we're good.

All my contracts with the Province stipulate the same requirements. I do not think that this is an issue.

Hi Stephen. I understand, but the reference noted still suggests that compliance with the directive itself (in full form) would be required. It should just be modified to refer to reference the principles as opposed to 'limitations in the directive' which is very different. N

NAV CANADA is completely separate from the Government of Canada and is sometimes described as a quasi crown even though it is not. In 1996 it purchased the Canadian air navigation assets from Transport Canada. It has no shares and no shareholder. The interest groups are represented on its Board but have no equity rights and no one party can control the Board. The Board also has a number of in dependent directors with no interest group affiliation. The public debt is secured only by the assets of the company and their is no third party guarantee. Pursuant to the Air Navigation Services act the company has the right to set and charge rates related to the services it provides subject to the concept in the act that is a not for profit entity

Hope that helps. Let me know if you need anything else

Sorry everyone. To accommodate availability issues, I am going to propose a new meeting time (tomorrow at 1 pm). Having the meeting in advance of Friday morning would be ideal, if it can be done. I will send out another meeting request for tomorrow at 1 pm , so that there is a hold on your calendars. Thanks again and sorry for the confusion.

Hi Michel.

Further to our discussion this morning, I would also like to speak with you regarding an assessment of provincial control over Hydro One following the recent share disposition.

I'll look forward to hearing back from you regarding the AFT item, an next steps w.r.t. the control analysis.

Thanks and have a great weekend.

Dear Kim:

Happy to try to help or provide clarity on the Report. It would be interesting to understand the Province point of view in advance of a meeting. Obviously it goes without saying, that the Controller's Office would need to form their own accounting policy and their auditor would weigh in due course as part of their audit procedures and detailed understanding of the contracts.

I have copied Nadira Singh a senior manager on my team that has been involved with the Report

IESO (draft #1)

Government Business Enterprise ("GBE") analysis

References: IESO's 2015 Financial statements, PS 1300, Electricity Act, 1998 ("EA")

A GBE is defined in the CPA Accounting Handbook, Public Sector Accounting, Introduction to public sector accounting standards paragraph 6.

A GBE is a government organization that has all of the following characteristics:

Characteristics	Guidance and comments	Weighting	Recommendations
(a) It is a separate entity with the power to contract in its own name and that can sue and be sued.	• IESO is a not-for-profit organization, non-taxable, corporation established pursuant to Part II of the *Electricity Act*, 1998. (note 1 to FS) • The IESO is not an agent of the Crown for any purpose, despite the Crown Agency Act. 2014. (EA, 8) • The IESO has the capacity, rights, powers and privileges of a natural person for the purpose of carrying out its objects (EA, 6(3)). • The IESO is subject to various claims, legal actions and investigations that arise in the normal course of business. (note 15 to FS)	• Characteristic is met.	
(b) It has been delegated the financial and operational authority to carry on a business?	• A business is an integrated set of activities and assets that is capable of being conducted and managed for the purpose of providing a return in the form of dividends, lower costs or other economic benefits directly to investors or other owners, members or participants. (IFRS 3, Appendix A))	• Characteristic is met. • IESO's board of directors has been delegated the financial and operational authority to carry on the business. IESO is managing its business to provide other economic benefits to market participants. • The key benefits include: – to direct the operation and maintain the reliability of the IESO-controlled grid; and	• Changing the type of organization from not-for-profit organization to be a for-profit organization would strengthen the argument that IESO is carrying business.

Commented [SG4]: Is this feasible? Would the generators and distributors be ok with this? Wouldn't the profit have to come from the rate payer in the end? And wouldn't it be the rate payers who would be entitled to the profit?

Commented [m5]: My view is that we do not need this to be a GBE.

Commented [NP1]: Doesn't have to be for profit.

	• For example, a GBE may be required to earn a profit while operating within a specified pricing structure. (PS 6420) • The IESO is not an agent of the Crown for any purpose, despite the Crown Agency Act. 2014. (EA, 8) • The business and affairs of the IESO shall be carried on without the purpose of gain and any profits shall be used by the IESO for the purpose of carrying out its objects. (EA, 6(2)) • The IESO's board of directors shall manage and supervise the management of the IESO's business and affairs. (EA, 10(1)) • The board of directors of the IESO may make by-laws regulating the business and affairs of the IESO. (EA, 22(1)) • At least 120 days before the beginning of each fiscal year, the IESO shall submit its proposed business plan for the fiscal year to the Minister for approval. (EA, 24(1)) • The IESO may establish and charge fees to recover, (a) the costs of anything done in connection with the IESO-controlled grid or the IESO-administered markets; (b) the costs of doing anything the IESO is required or permitted to do under this or any other Act; and	– to forecast electricity demand and the adequacy and reliability of electricity resources for Ontario for the short term, medium term and long term. • The OEB has allowed the IESO to retain $10 million of profits in surplus, which is shown as a regulatory deferral account balance in the accumulated surplus (deficit) of the statement of Financial Position.	

	(c) any other type of expenditure the recovery of which is permitted by the regulations (EA, 25(1)) • The Board may approve the proposed expenditure and revenue requirements and the proposed fees or may refer them back to the IESO for further consideration with the Board's recommendations. (EA, 25(4))		
(c) It sells goods and services to individuals and organizations outside of the government reporting entity as its principal activity.	• Selling goods and services involves a direct exchange relationship between the revenues and the goods and services provided. Selling prices are related to the quantity and quality of goods or services sold, and not just to the recovery of administrative costs. Imposed fees and penalties, such as licenses and fines, do not represent sales of goods and services. Insurance premiums charged by a government organization are a sale of a service and not an imposed fee. (PS 1300.29). IESO is permitted to recover the costs of anything done in connection with the IESO-controlled grid or the IESO-administered markets (see above EA, 25(1)). • The objects of IESO include: (a) to exercise the powers and perform the duties assigned to it under this Act, the regulations, directions, the market rules and its licence; (b) to enter into agreements with transmitters to give it authority to	• Characteristic is met. • IESO does not sell goods but provide various services and ancillary services to market participants for the ultimate benefits of the customers of Ontario. • Principal activity is providing services outside of the government reporting entity. • IESO has two OEB approved fees: one for exports and one for withdrawals for use in Ontario and embedded generation, which is generation within an LDCs service territory. All parties charged are market participants registered with the IESO and are charged based on meter readings. • The fees charged to exporters are approximately 20% higher than the other market participants. • The fees charged for the services are determined based on meter readings and a rate per KWh, similar to LDCs and transmission companies in Ontario.	

Commented [SG2]: This suggests it is only a cost recovery structure at the moment (no profit).

Commented [m3]: Agree with her comment. But how is this relevant - what is the issue?

	direct the operation of their transmission systems; (c) to direct the operation and maintain the reliability of the IESO-controlled grid to promote the purposes of this Act; (d) to participate in the development by any standards authority of criteria and standards relating to the reliability of the integrated power system; (e) to establish and enforce criteria and standards relating to the reliability of the integrated power system; (f) to work with the responsible authorities outside of Ontario to co-ordinate the IESO's activities with the activities of those authorities; (g) to operate the IESO-administered markets to promote the purposes of this Act; (h) to engage in activities related to contracting for the procurement of electricity supply, electricity capacity, electricity storage, transmission systems or any part of such systems and conservation resources; (i) to engage in activities related to settlements, payments under a contract entered into under the authority of this Act and payments provided for under this Act or the *Ontario Energy Board Act, 1998*; (j) to engage in activities in support of the goal of ensuring adequate, reliable		

	and secure electricity supply and resources in Ontario; (k) to forecast electricity demand and the adequacy and reliability of electricity resources for Ontario for the short term, medium term and long term; (l) to conduct independent planning for electricity generation, demand management, conservation and transmission; (m) to engage in activities to facilitate the diversification of sources of electricity supply by promoting the use of cleaner energy sources and technologies, including alternative energy sources and renewable energy sources; (n) to engage in activities in support of system-wide goals for the amount of electricity to be produced from different energy sources; (o) to engage in activities that facilitate load management; (p) to engage in activities that promote electricity conservation and the efficient use of electricity; (q) to assist the Board by facilitating stability in rates for certain types of consumers; (r) to collect and make public information relating to the short term, medium term and long term electricity needs of Ontario and the adequacy		

	and reliability of the integrated power system to meet those needs; and (s) to engage in such other objects as may be prescribed by the regulations. (EA, 6) **Part I of the EA, Interpretation:** • "Ancillary services" means services necessary to maintain the reliability of the IESO-controlled grid, including frequency control, voltage control, reactive power and operating reserve services. • "Fees" means, with respect to the IESO, amounts charged by the IESO to recover its costs of operations. • "IESO-controlled grid" means the transmission systems with respect to which, pursuant to agreements, the IESO has authority to direct operations. • "Integrated power system" means the IESO-controlled grid and the structures, equipment and other things that connect the IESO-controlled grid with transmission systems and distribution systems in Ontario and transmission systems outside Ontario. • **Regulations** 161.4 (1) The Lieutenant Governor in Council may make regulations, (d) requiring the IESO, OPA and the Board to enter into contracts relating to the provision of services and such other matters as the Lieutenant		

	Governor in Council considers necessary or advisable, (i) to assist the Board and the Market Surveillance Panel with respect to market surveillance of the IESO-administered markets, (ii) to assist the OPA with respect to the forecasting of electricity demand and the adequacy and reliability of electricity resources for the medium and long term **Conservation measures** • Subject to section 71 of the *Ontario Energy Board Act, 1998* and such limits and criteria as may be prescribed by the regulations, a transmitter, distributor or the IESO may provide services that would assist the Government of Ontario in achieving its goals in electricity conservation, including services related to, (a) the promotion of electricity conservation and the efficient use of electricity; (b) electricity load management; or (c) the promotion of cleaner energy sources, including alternative energy sources and renewable energy sources.		
(d) It can, in the normal course of its operations, maintain its operations and	• IESO is a not-for-profit organization, non-taxable, corporation established pursuant to Part II of the *Electricity Act*, 1998.	• Characteristic is met. • IESO does not receive transfers from the Province of Ontario and has demonstrated its ability of maintaining its operations and meeting its liabilities	

meet its liabilities from revenues received from sources outside of the government reporting entity.	• IESO does not receive transfer from the Province. All its costs are to be recovered from the market participants.	without relying on the Province of Ontario.	

A GBE should, in the normal course of its operations, be able to maintain its operations and meet its liabilities from revenues received from sources outside of the government reporting entity. These revenues include not only amounts from the sale of goods and services, but also transfers received from other governments or sources outside of the government reporting entity. (PS 1300.30)

When determining if an organization can maintain its operations and meet its liabilities with revenues received from outside of the government reporting entity, the following factors should be considered:

(a) the organization's history of maintaining its operations and meeting its liabilities;

(b) whether the organization would continue to maintain its operations and meet its liabilities without relying on sales to, or subsidies in cash or kind from, the government reporting entity;

(c) past, present and future economic conditions within which the organization operates; and

(d) whether the organization has realistic and specific plans that show how it expects to be able to maintain its operations and meet its liabilities in the future. (PS 1300.31)

IESO does not receive transfers from the Province of Ontario and has demonstrated its ability of maintaining its operations and meeting its liabilities without relying on the Province of Ontario. As per the EA, IESO is permitted to recover the costs of anything done in connection with the IESO-controlled grid or the IESO-administered markets. As a result, the fees charged to the market participants cover all the costs incurred by IESO.

Although the IESO has a note payable to the OEFC of $90 million, loans are not considered transfers from a government provided it has the ability to repay the loans received.

Other considerations

The majority of the market participants reports either under IFRS (or US GAAP for OPG and Hydro One). The use of IFRS by IESO would facilitate the comparison with the market participants. It should be noted that the Alberta Electric System Operator ("AESO") a\has adopted IFRS as its accounting framework.

Many of the WSIB organizations across Canada are considered GBE and, as a result, report under IFRS.

Although IESO has received rate orders to recover in its future rates certain costs charged to either the statement of operations or accumulated deficit (e.g. smart metering expenses charge to statement of operations and, actuarial losses and other PSAB transition item charged to accumulated deficit), these costs have not been recognized as regulatory assets as it is unclear whether PSAB permits the recognition of the

Commented [SG7]: Based on discussion, if debt is in IESO, would it still be considered to be sustainable?

Michel – Have they considered the regulatory assets? Or the sale of the assets to OPG?

Commented [SG6]: This would push me to a GNPO status then but I believe that in the "basis of reporting" memo it states that IESO has no counterparties outside the government so leads to OGO being the right classification but there is some judgement involved.

Michel – what does that mean no counterparties outside – All the LDCs are the counterparties and ultimately, the ratepayers.

I do not believe it meets the definition of an GNPO.

"GNPO are entities, normally without transferable ownership interests, organized and operated exclusively for social, educational, professional, religious, health, charitable or any other not-for-profit purpose. A not-for-profit organization's members, contributors and other resource providers do not, in such capacity, receive any financial return directly from the organization."

There is no contributors or contributions received by IESO. IESO provides a service to the generators/transmitters/distributors against a fees that is determined by the OEB to recover all its costs.

economic impacts of rate regulation. As IESO is an entity regulated by the OEB, the use of IFRS by IESO would permit to recognize the economic impacts of rate regulation approved by the OEB.

Conclusion: IESO

PS 1300, DEFINITIONS

.04 A **government component** is an integral part of government, such as a department, ministry or fund. It is not a separate entity with the power to contract in its own name and that can sue and be sued.

.05 A **government organization** is any organization controlled by a government that is a separate entity with the power to contract in its own name and that can sue and be sued.

.06 A **government business enterprise** is a government organization that has all of the following characteristics:

(a) It is a separate entity with the power to contract in its own name and that can sue and be sued.

(b) It has been delegated the financial and operational authority to carry on a business**.**

(c) It sells goods and services to individuals and organizations outside of the government reporting entity as its principal activity.

(d) It can, in the normal course of its operations, maintain its operations and meet its liabilities from revenues received from sources outside of the government reporting entity.

.07 A **government not-for-profit organization** is a government organization that has all of the following characteristics:

(a) It is a separate entity with the power to contract in its own name and that can sue and be sued.

(b) It has counterparts outside the public sector as defined in paragraph .02.

(c) It is an entity normally without transferable ownership interests.

(d) It is an entity organized and operated exclusively for social, educational, professional, religious, health, charitable or any other not-for-profit purpose.

(e) Its members, contributors and other resource providers do not, in such capacity, receive any financial return directly from the organization.

.08 An **other government organization** is a government organization that has all of the following characteristics:

(a) It is a separate entity with the power to contract in its own name and that can sue and be sued.

(b) It is neither a government business enterprise nor a government not-for-profit organization.

.09 A **government partnership** is not a government organization but is a contractual arrangement between the government or a government organization and a party or parties outside of the reporting entity that has all of the following characteristics:

(a) The partners co-operate toward achieving significant, clearly defined common goals.

(b) The partners make a financial investment in the government partnership.

(c) The partners share control of decisions related to the financial and operating policies of the government partnership on an ongoing basis.

(d) The partners share, on an equitable basis, the significant risks and benefits associated with the operations of the government partnership.

25A A **governmental unit** is a government component, government not-for-profit organization or other government organization.

Conclusion: Based on the above definitions, IESO is neither a government component, nor a government not-for-profit organization nor a government partnership. If it is determined that IESO is not a GBE then it would therefore be classified as an OGO.

- For purposes of preparing general purpose financial statements, **GBEs** apply the standards for **publicly accountable enterprises** in Part I of the CPA Canada Handbook – Accounting (i.e. IFRS). (Introduction to public sector accounting standards, paragraph 17)
- For purposes of preparing general purpose financial statements, **OGOs** would normally apply the standards for governments in the PSA Handbook. When these standards do not meet their financial statement users' needs, the standards applicable to publicly accountable enterprises in Part I of the CPA Canada Handbook – Accounting should be considered. The standards determined to be most appropriate should be disclosed and consistently applied. (Introduction to public sector accounting standards, paragraph 19)

PS 1000, GOVERNMENT OPERATIONS

.06 Governments are inherently different from businesses. The unique characteristics of government have reporting implications as outlined in Appendix A.

.07 The objectives of financial reporting for governments and business are not the same. Specifically, the accounting standards for business do not adequately prescribe the recognition, measurement, presentation and disclosure of government financial information that is needed for accountability by governments and useful for decision making by the users of government financial statements.

.08 The goals of government are not the same as those of business. The primary goal of a business is profit and its resources are employed to that end. Investors put up capital in expectation of a return, and financial statements report the success or failure of the business in providing that return. Results of operations are measured and reported in terms of profit or loss and it is added to or deducted from the owners' investment to measure financial position. Annual and accumulated earnings or losses are key measures of the performance of a business.

.09 Governments differ from business in both their objectives and financing. In general, governments provide public services and redistribute wealth for a variety of social and economic purposes. The delivery of a service does not, however, normally give rise to revenue, and the payment of taxes does not necessarily entitle a taxpayer to any particular public service or benefit. Because governments are granted the power to tax, their revenues are not substantially dependent upon voluntary contributions nor on the profitable sale of goods and services in the marketplace. Thus, except for commercial-type activities, the relationship between revenues and costs in any given period is not the same for government as it is for business.

.10 In any given period, a government may finance its operations from tax and other revenues or by borrowing or incurring other liabilities. The financial resources required are forecast and the government's financing plan is set out in the budget. Financial statements report the actual results of government operations and the extent to which revenues raised in the period were or were not sufficient to meet the expenses of that period. Users of the statements look to the operating surplus or deficit for the period, both on its own and in relation to the government's plan, in evaluating the government's fiscal management. Expenses, however, do not necessarily represent the total financial resources required. Governments, for example, also spend, lend and invest in addition to consuming economic resources in each accounting period. It is, therefore, also important to provide information about how a government financed its activities and met its cash requirements.

.11 Over the years, a government accumulates liabilities that must be settled and assets that provide resources for future operations. Information that reports the extent of the financial obligations that will have to be settled, or the extent of the assets that are available for future operations, is useful because it bears directly on future revenue requirements and on a government's ability to settle its obligations and finance its operations.

.12 The information needed to promote accountability and to aid understanding and assessments of government operations extends beyond reporting surpluses or deficits. For example, financial statements should provide information that describes the nature and purpose of government spending and the sources of its revenues and financing. They should also provide information that describes a government's non-financial resources that can be used in future operations and the cost of using those resources in service delivery. They should also provide information on investments and on potential obligations that may result from guarantees or indemnities.

Item 7(iv)Market Account Definitions.pdf

Appendix – Definition of Market Assets and Liabilities

1) Cash, restricted for market activities
   These accounts include incoming and outgoing cash for all market-related activities. Separate cash accounts are maintained for specific Market programs such as: Transmission Rights, Ontario Electricity Support Program, Rural or Remote Rate Protection, Regulated Price Plan and Enforcement, Adjustment, Prepayments, Prudential Cash Deposits and Cash from Demand Response auctions.

2) Market Accounts Receivable
   This account is comprised of billed and accrued receivables to be received from Market Participants.

3) Net Congestion Rent Receivable/Payable
   Market Participants bid in a Transmission Right (TR) auction to win rights over specific transmission lines over a specific period of time (typically 1 month or more). During this time they have temporary rights to collect payments should there be any congestion. This account holds the balance of the congestion rents either import or export congestion that is not paid to TR holders but calculated through settlements.

4) Global Adjustment Other Charges Receivable/Payable
   This account includes costs incurred for the Conservation program, Funds program, Liquidated Damages and Greenfield. These charges are processed through the corporate accounts payable and then recovered through Global Adjustment each month.

5) Interest Receivable
   Interest is earned and accrued on cash and short-term investments on a monthly basis. This account contains the interest that has been accrued until it is received from the banks/securities in the following month.

6) Regulated Price Plan Variance (to become Unrecovered Global Adjustment Expenses)
   Prices for the Regulated Price Plan (RPP) consumers are set every six months by the OEB based on a forecast of the cost of power over the next year. The IESO tracks the variance between the forecast and the actual cost of power in this account. Effective July 1st the rate set by the OEB will be reduced as part of the Ontario Fair Hydro Plan and the resulting regulated asset will be transferred to the financing entity.

7) Revolving Line of Credit
   The IESO has a $975 million Ontario Financing Authority (OFA) credit facility, which is used to fund market liquidity and programs for the Ontario Fair Hydro Plan at a variable interest rate of the Province of Ontario's cost of borrowing for a 30 day term plus 0.25% per annum.

8) HST Receivable/Payable
   This account represents the monthly HST that is either receivable or payable to the CRA.

9) Market Accounts Payable
   This account is comprised of billed and accrued payables to be paid to Market Participants.

10) Prepayments
Market Participants trading in the Financial and Physical markets maintain a deposit or margin call with the IESO. These deposits are used and replenished as the Market Participants are invoiced each month and when they reach their minimum deposit threshold.

11) Market Interest Payable to IESO Corporate
Interest earned on the Market Investment accounts accumulates and is transferred to the corporate ledger at the end of each year.

12) Market Penalties Payable to IESO Corporate
Penalties imposed on Market Participants as a result of late payments are transferred to the corporate ledger at the end of each year.

13) Provision for Future Transmission Rights Activity
In its operation of the Transmission Rights market, on a periodic basis, the IESO will conduct an auction of Transmission Rights. Successful bidders will obtain Transmission Rights for a period of time that will entitle the holder to receive a payment from the IESO equal to the difference between the hourly Ontario energy price and a neighboring jurisdiction (e.g., Ontario/ New York, Ontario/ Quebec, etc.).

14) Provision for Future Ontario Electricity Support Program Activity
The OESP portion of the Ontario Fair Hydro Plan became effective on May 1, 2017. Although the program will eventually be funded by the provincial revenues, the initial funding from the IESO will come from the balance in this variance account which was collected between January 1, 2016 to May 1, 2017.

15) Provision for Future Rural or Remote Rate Protection Activity
The Rural or Remote Rate Protection (RRRP) is a surcharge on all electricity purchasers in Ontario. It is used to fund the Rural and Remote Settlement Credit, which is paid to distributors in rural and remote areas to subsidize their purchases of electricity. This account maintains the variance between what was received and what was paid out under the RRRP program. A portion of the program was moved to the provincial revenues effective July 1, 2017 as part of the Ontario Fair Hydro Plan.

16) Provision for Future Enforcement Activity
This account receives and disburses penalties and payment adjustments arising from IESO enforcement, audit and other activities and reimburses the IESO for any associated costs or expenses. The IESO Board may direct that some or all of the balance be distributed to market participants on a basis to be determined by the Board.

17) Deferred Transmission Rights Revenue
Revenue received as a result of long term Transmission Rights auctions is amortized over 12 months. This account maintains the deferral of all revenue received from these auctions until they reach maturity.

Item 7(iv)Market Account Definitions.pdf

Appendix – Definition of Market Assets and Liabilities

1) Cash, restricted for market activities
   These accounts include incoming and outgoing cash for all market-related activities. Separate cash accounts are maintained for specific Market programs such as: Transmission Rights, Ontario Electricity Support Program, Rural or Remote Rate Protection, Regulated Price Plan and Enforcement, Adjustment, Prepayments, Prudential Cash Deposits and Cash from Demand Response auctions.

2) Market Accounts Receivable
   This account is comprised of billed and accrued receivables to be received from Market Participants.

3) Net Congestion Rent Receivable/Payable
   Market Participants bid in a Transmission Right (TR) auction to win rights over specific transmission lines over a specific period of time (typically 1 month or more). During this time they have temporary rights to collect payments should there be any congestion. This account holds the balance of the congestion rents either import or export congestion that is not paid to TR holders but calculated through settlements.

4) Global Adjustment Other Charges Receivable/Payable
   This account includes costs incurred for the Conservation program, Funds program, Liquidated Damages and Greenfield. These charges are processed through the corporate accounts payable and then recovered through Global Adjustment each month.

5) Interest Receivable
   Interest is earned and accrued on cash and short-term investments on a monthly basis. This account contains the interest that has been accrued until it is received from the banks/securities in the following month.

6) Regulated Price Plan Variance (to become Unrecovered Global Adjustment Expenses)
   Prices for the Regulated Price Plan (RPP) consumers are set every six months by the OEB based on a forecast of the cost of power over the next year. The IESO tracks the variance between the forecast and the actual cost of power in this account. Effective July 1st the rate set by the OEB will be reduced as part of the Ontario Fair Hydro Plan and the resulting regulated asset will be transferred to the financing entity.

7) Revolving Line of Credit
   The IESO has a $975 million Ontario Financing Authority (OFA) credit facility, which is used to fund market liquidity and programs for the Ontario Fair Hydro Plan at a variable interest rate of the Province of Ontario's cost of borrowing for a 30 day term plus 0.25% per annum.

8) HST Receivable/Payable
   This account represents the monthly HST that is either receivable or payable to the CRA.

9) Market Accounts Payable
   This account is comprised of billed and accrued payables to be paid to Market Participants.

10) Prepayments
Market Participants trading in the Financial and Physical markets maintain a deposit or margin call with the IESO. These deposits are used and replenished as the Market Participants are invoiced each month and when they reach their minimum deposit threshold.

11) Market Interest Payable to IESO Corporate
Interest earned on the Market Investment accounts accumulates and is transferred to the corporate ledger at the end of each year.

12) Market Penalties Payable to IESO Corporate
Penalties imposed on Market Participants as a result of late payments are transferred to the corporate ledger at the end of each year.

13) Provision for Future Transmission Rights Activity
In its operation of the Transmission Rights market, on a periodic basis, the IESO will conduct an auction of Transmission Rights. Successful bidders will obtain Transmission Rights for a period of time that will entitle the holder to receive a payment from the IESO equal to the difference between the hourly Ontario energy price and a neighboring jurisdiction (e.g., Ontario/ New York, Ontario/ Quebec, etc.).

14) Provision for Future Ontario Electricity Support Program Activity
The OESP portion of the Ontario Fair Hydro Plan became effective on May 1, 2017. Although the program will eventually be funded by the provincial revenues, the initial funding from the IESO will come from the balance in this variance account which was collected between January 1, 2016 to May 1, 2017.

15) Provision for Future Rural or Remote Rate Protection Activity
The Rural or Remote Rate Protection (RRRP) is a surcharge on all electricity purchasers in Ontario. It is used to fund the Rural and Remote Settlement Credit, which is paid to distributors in rural and remote areas to subsidize their purchases of electricity. This account maintains the variance between what was received and what was paid out under the RRRP program. A portion of the program was moved to the provincial revenues effective July 1, 2017 as part of the Ontario Fair Hydro Plan.

16) Provision for Future Enforcement Activity
This account receives and disburses penalties and payment adjustments arising from IESO enforcement, audit and other activities and reimburses the IESO for any associated costs or expenses. The IESO Board may direct that some or all of the balance be distributed to market participants on a basis to be determined by the Board.

17) Deferred Transmission Rights Revenue
Revenue received as a result of long term Transmission Rights auctions is amortized over 12 months. This account maintains the deferral of all revenue received from these auctions until they reach maturity.

The RPP variance account would make up a large part of the difference ($181,927). Without looking into the details, the balance is probably in the cash account as the OPA did not separate their corporate cash and the cash from market settlements.

I hope this helps.

In 2014 OPA annual report (see below) OPA reported Market contract receivables $538.7M and market contract liabilities $398.8M; whereas IESO report market assets and market liabilities $1.6B (both market assets and liabilities match).

My question is why OPA reported different amounts for market contract receivables and payables? Any thoughts?

What is IAM stand for?

In January 2016, Independent Electricity System Operator (IESO) changed its accounting policy regarding the recognition of market accounts assets and liabilities on its financial statements, and to adopt rate regulated accounting. The change is made to better reflect the assets and liabilities and amounts due to and from market participants held by IESO on behalf of IAM at year end. This change has been applied retroactively and as a result the IESO's 2015-16 comparative financial statements were restated for presentation changes. There is no impact to the accumulated deficit or revenue and expense as the IESO is not party to these transactions as part of market rules. The impact of the IESO's adoption of rate regulated accounting is reflected in the opening accumulated deficit.

Can you please provide fiscal analysis for 2016-17 financials if IESO has to prepare its financials under status quo method (2015 accounting policy) vs. new adopted accounting policy (2016)? We would like to know what would be fiscal impact under current accounting policy (2016 policy) vs. what it would have been without the change (2015 policy).

Please provide this analysis by tomorrow morning as Cindy need this analysis for her Wednesday's SOC briefing.

Kim/Michel,

Cindy and I chatted further on the opportunity to pursue rate regulated accounting (RRA) in the IESO's 2016 f/s.

In contemplating IESO adopting RRA as an OGO, it would strengthen the case to reflect the market books as well (since they would have to reflect RR accounting in order to fairly present the IESO's balance sheet and operations).

Your thoughts?

Hi Stephen. I understand, but the reference noted still suggests that compliance with the directive itself (in full form) would be required. It should just be modified to refer to reference the principles as opposed to 'limitations in the directive' which is very different. N

I think we're no longer contemplating attaching the full Policy. We dropped in your few summary points describing the "principles" in a generic way - did you see that?

Stephen,
I'm just updating my control analysis based on the latest version of the Declaration and the TPA. I came across the following extract which also needs to be revised to reflect reference to 'principles' of the directive only. Sorry for the late notice. Just saw it now. n

Declaration

Power to Pay Trustee's Fees. The Original Trustee shall be entitled to be paid and receive the fees set forth in the Original Trustee's schedule of fees delivered as of or prior to the date hereof as compensation for its services under this Declaration, and to be reimbursed for its out-of-pocket expenses reasonably incurred, in each case from the Assets and without the approval of any Beneficiary or any court. The Original Trustee shall be entitled, in its sole and absolute discretion, to withdraw funds from time to time for such purpose from any account of the Trust. Members of the Board of Trustees shall be entitled to reimbursement for and in respect of their out-of-pocket expenses reasonably incurred in discharging their respective duties and obligations under this Declaration, in each case without the approval of any Beneficiary or any court, provided that the members of the Board of Trustees have general regard to sorts of limitations as are set forth in the "Travel, Meal and Hospitality Expenses Directive of the Province" specified and amended by the Province from time to time, a copy of the current version of which is attached as Exhibit 1 to the Principles Annex.

Thanks Nadine, we're discussing. I'm asking Musab but would you know if KPMG weighed in on this also? It will help inform decision to accept risks.

Emma,
You likely saw the note regarding the TMH directive. It's an important point that I was sure we had covered in length. Hoping that you/Musab/Usman can confirm ASAP so that Stephen can make the changes. n
