Some caveats below (i.e. these haven't been approved at the ADM level yet, so are subject to change (and probably will)). Hope this is helpful for prep though.

Subject: DRAFT ONLY - PA comms package

Hi, Nicole,

The attached material is currently circulating for final review at the director level, within MENE and MOF. Their revisions are due tomorrow morning, with ADM-level sign-off scheduled for early next week. We would suggest sharing this as DM background material only (rather than items to be tabled for P review), and note that the core issues of greatest internal and external interest (deficit and budget-related figures, treatment of hydro-related items, risks and mitigations) are not likely to change substantially as the package makes its way through final approvals. The media QA portion also includes highlighted flags where additional ministry input is required/anticipated.

Let me know if you need anything further on this one.

(Password will follow under separate email.)

Regards,

Amanda
