Ali, Liz

Please find attached a draft deck that we have developed that Scott and Helen will likely use for their joint presentation to Deputies on Document Day (currently scheduled for about 3 – 4pm).

This deck will contain much of the same information as the deck we are preparing for TB/MBC's briefing the morning of Document Day -- with the exception of the back-end of the deck, which provides a bit of insight for folks on the fiscal risks and challenges that will colour the decision-making world coming out of the Budget, and will help kick-start our post-budget implementation process.

Liz and I talked about how you would like to have this deck to use with Chiefs, as well as Caucus. I hope this provides a solid base to work from as you prepare for that. If you'd like us to work with you to develop this, please let us know – but we wanted you to have it for this weekend so you can see how these pieces are tracking. You may not want the back part for Chiefs and/or Caucus (might not be the right message for that crowd) so feel free to delete those slides from the end.

Happy to take edits early next week to support your preparation for Document Day or if you'd like to manage this yourself, that's fine too....hope this gets you pointed in the right direction.

We'll continue to update the DM deck to keep it aligned with the TB/MBC deck and the latest language coming out of the paper and comms as required.
