Hi team – please see attached. We are canvassing this straw man a bit within PO. Names could change so please don't circulate beyond this group for now. But perhaps we can discuss a bit at priority setting? (I am off-site, sick, but would like to phone in if possible)? Also Caspar, could we add to the 1:1 agenda tomorrow? Best, Karim

PO/CO Priority Planning Agenda

Monday, March 21, 2016

4:00pm – 5:00pm

Room 6401, Whitney Block

- 1) Standing Items
 - a. Planning Calendar
 - b. FPC/Major Projects Futures List
- 2) Committee/Minister's Table Planning
 - c. LRC's Mandate
 - i. Karim asked if there was a way that we could enhance LRC's role in the decision-making process for regulations and legislation, rather than just rubber stamping. So some discussion on whether it would be a good idea to give LRC members informational updates on regs that are going out for consultation (before they come in for decision), or how upcoming regulations relate back to their policy minutes so members understand the basis for the instrument, etc. Chris Huey is going to work up some ideas and this will be on the agenda for next week's meeting.
 - d. PP&D Agenda Planning

Some discussion about what PDG should be discussing on a routine basis – Karim noted that he wanted the committee utilizing and reviewing the MYAP tool regularly.

 - GM flagged that it might be helpful for the committee to see specific items that are rolling out and that can be profiled, particularly from an implementation and communications perspective. I offered up CCAP on the 7th as a potentially good candidate since, if it goes to CAB on the 6th, then it would be good to show PDG how the item has landed and how we're intending to deploy it and communicate it on its launch on the 22nd. PO is going to think about some items that might also work as profile items.
 - e. ROF
 - ii.
 - Karim noted that he wants the MT on RoF to be meeting more often and sooner than its first meeting on May 18th. Apparently there are some reports commissioned by DevCo that should be coming in soon and the ministry should be providing updates at the table. - noted, perhaps Megan can reach out to the ministry on specific timing and content. I would suggest mid-April for an info update as that will have given them the chance to speak to Matawa about CBF.
- 3) Multi-Year Action Plan
 - f. MYAP MO Info Session + PO briefing
- 4) Policy Items for Discussion
 - g. ODB
 - h. Climate Change Action Plan
 - Agreement around the table that the minister's table will be on the 30th, so we need to confirm where we're at with determining quorum, getting the room, etc. - was waiting for outcome of wedge mtgs to send out meeting notice but if we have green light perhaps Dianne could send this out.
 - For Major Projects this week, Gillian wanted only MOECC to come to the meeting (with MOF and TBS) rather than the longer list of ministries. Will confirm with Rob.
 - i. Social Enterprise
 - j. Child Welfare/CFSA
 - k. Highly Skilled Workforce – Update
 - l. Energy East
 - Still good for JEP with minute as is, though I explained the positions of both ministries.
 - Gillian suggested that, in the minute that goes to CAB, that we could find an additional compromise by asking ENERGY to give an informational report back prior to engaging with TransCanada that shows what ENERGY is going to say with respect to each of the interests (and this could be a venue to lay out the specificity that MOECC is desiring, along with other ministries for interests that relate to their mandates). I'm not sure this will solve the issue and ENERGY may be annoyed that they have to report back again before engaging given this is their minute for engaging. Had an offline chat with Phil and he felt similarly and said he would have a chat with her. So we'll have to see where this lands, but we have time given this isn't going to Cabinet until April 6th.
 - Gillian and Karim, and our DM, thought it would be a good idea to invite Minister Murray to JEP. So perhaps Dianne can send an invite for JEP to his office?
 - m. Moving Ontario Forward – Outside GTHA

Decision at Priorities to keep 'em on fpc this week.

Need to confirm that this is their final deck and should be sent out. We should raise your concerns and see if they are willing to update. Eg. Full accounting, more explicit on subsidy risk.

Can deal with path forward (CAB tracking) at FPC.

Also, ministry should note communication points for "items on page 55 of budget". That is, what approvals are needed - including TB.

I gather from Karim's comment that the expectation is that MTO should be looking internally?

Attached is a the doc that I'd propose to table at 12noon today to solicit feedback on the proposed format for the May 9th PD&G presentation.

For ADMs & ECs, of note is that we wouldn't propose to highlight all areas of action on May 9th, but rather to highlight progress, risks and next steps on a few select areas of action (and then to send the remainder to PD&G over the next few months). In the attached note, we'd suggest the following for May 9th:

- o Business Climate
- o Community Hubs
- o Environment and Climate Change
- o Poverty Reduction and Social Inclusion
- o Health System Transformation
- o Highly Skilled Workforce
- o Planning, Land and Resources

All feedback is welcome.

Thanks,
Jay

Hi all,

Seems like just yesterday I was asking...but just a reminder that we are finalizing the PO/CO agenda on Friday's now. Could you please send me any items you would like included on the agenda by noon on Friday?

Also – I've attached the current FPC/MP tracker. Some scheduling challenges next week, so some items will move out. If you have any changes in the out weeks, please flag by this Friday as well.

Thanks,
Rob

Priority Planning Calendar - for 16-08-15 POCO.docx

Here are the updated chart and calendar, I will bring copies to POCO.

The calendar doesn't change in Aug-Sep until we clear each decision though POCO – but for Oct and later I will make changes as requested, knowing the whole calendar will have to be locked down early next month.

At agenda review I said Joe would provide an updated list of the FT requests we have/expect for the TBMBC on Aug 23. Joe is at the Secretary's briefing now, so he will provide that list later, once we have a better idea of what stays on the TBMBC agenda.

TBMBC Tracking 16-11-28 POCO.docx

Priority Planning Calendar - for 16-11-28.docx

Attached are updates coming out of Agenda Review, as they will go into POCO this afternoon.

On the second page of the Change Chart I have organized the items by suggested agendas. Basically over-loading the 7th a bit, and having regular-sized 14th and Jan Cabinets. This means when we push things from the 7th at POCO, it will force decisions on what to knock off completely, or whether to extend Cabinets. I think the likely approach is to get rid of PDG on the 14th, take the time to extend Cabinet, and send all Dec 7 stuff there (maybe the two CC items, so it is an all-CC afternoon on the 14th).

I've also included the bigger chart I've been using recently, which simply organizes by the earliest moment an item could go to Cabinet, with an asterisk showing if an item can wait a cycle or two. I want that on hand simply in case something goes awry and we have to re-organize from scratch.

And the TBMBC chart.

Pixels for the paperless.

Updated change chart for this afternoon.

Also, a three-month outlook document that lists items we are tracking as possibly going Cabinet June-August. It illustrates the last discussion point on the Change chart – that there are too many things planned for the Summer Cabinets. The all-stars are not completely up to date. Ignore the redacted bits and page numbering – nothing to see there.

Also, a three-month outlook document that lists items we are tracking as possibly going Cabinet June-August. It illustrates the last discussion point on the Change chart – that there are too many things planned for the Summer Cabinets. The all-stars are not completely up to date. Ignore the redacted bits and page numbering – nothing to see there.

Good morning folks,

A reminder that we need to take a run, item-by-item, though the buckets we have for Jan-Jun.

We will do that at Agenda Review this morning, and then clean up the list for the POCO meeting this afternoon where we will continue our truncated meeting from Friday to sort out what needs to land before May.

Attached are change chart and the 6-month buckets, as were sent Friday.
