Hi Deputy,

Attached is a revised version of the LTEP Cabinet submission. This includes a number of relatively minor edits from Andrew around how we portray the different initiatives.

In this version, there are now placeholders for the outlooks (modeling) section and the bending the cost curve section. We've having a separate briefing with PO on those items on Thursday this week. So the briefing with PO tomorrow will focus on the initiatives themselves. Wanted to share this with you so you are aware. We'll share the modeling with you tomorrow so you can review before it goes to MO.

Thanks,
Hillary
