> Orders of the Day

- Opposition Day Motion - *Mr. Brown — Whereas, the Auditor General revealed that the government's Fair Hydro Plan could cost Ontarians up to \$4 billion more than necessary; Whereas, the government passed legislation to make their own accounting rules that serve to dilute the impact of their financial decisions; Whereas, the government's intention in creating the accounting and financing design to handle the costs of the electricity rate reduction was to avoid affecting its fiscal plan; Whereas, the government should have recorded the true financial impact of the Fair Hydro Plan's electricity rate reduction on the Province's budgets and consolidated financial statements; Whereas, the government should have used a financing structure to fund the rate reduction that is least costly for Ontarians; Therefore, the Legislative Assembly of Ontario calls on the Liberal government to issue an apology to the Auditor General and the people of Ontario.*
