Subject: Latest version of the ENE - OFHP note

Hi everyone,

Please find attached the latest version of the OFHP assessment note - incorporating feedback from folks today.

Patrick - two things to point out:

- the Ministry requested a new TP line to support "future rate mitigation initiatives". We struck out the minutes related to this request, given a TP can be created in the future once we have a specific future rate mitigation initiative (rather than just creating a placeholder now). However, we thought we would include it on page 12 in case folks do want that minute included.
- We also included the Minute for media buy / ARB request. Let us know if there are any concerns with the language.

Thanks - let us know if there are any concerns. Patrick - we will wait for your ok before we share the note with Energy.

And many thanks to OCPD and COE for all your help and support on this.

Felix
