

2017 Document:

Key Expense Decisions for Priority Investments

February 8, 2017 Updated 530pm

Overview

- Provides proposed themes for the 2017 Budget and identifies alignment with potential existing funding and new scalable requests in the 17-18 PRRT.
- New funding recommendations reflect assessments completed by CO/MOF/TBS to align upcoming policy priorities and mandate letter commitments.
- Choices remain with respect to prioritization of initiatives and timing of implementation which can be considered through the Budget process

Purpose

- To discuss potential scalable priority investments including:
 - 100,000 child care spaces
 - Health at 3% plus some small additional investments
 - Highly Skilled Workforce
 - BGI enhancements supporting transformative technologies
 - Funding for Education labour agreements and higher enrolment
- Future discussions will include:
 - Additional capital investments
 - Funding for Ministry pressures

FISCAL SUMMARY

- **Approved Investments:** Approved initiatives, implementation beginning or just underway
- **Potential Priority Investments:** New funding recommendations reflecting assessments completed by CO/MOF/TBS to align upcoming policy priorities and mandate letter commitments
- **Not Recommended for Approval:** High Fiscal Impact Option (as proposed by ministries) in excess of the recommended Potential Priority Investments

\$ Millions	2017-18	2018-19	2019-20	2020-21	Total

*These investments include tentative agreements with educator sector workers.

MAKING ONTARIO A MORE AFFORDABLE PLACE TO LIVE

OVERARCHING NARRATIVE

Ontario is taking a balanced approach to make life more affordable for families and businesses now and at the same time build for the kind of future we know families need.

The government is investing in priorities that help people in their everyday lives. This includes helping with people's daily costs and monthly bills, improving convenience and choice, and reassuring people that their child or aging parents will receive the best possible care.

APPROVED INITIATIVES, IMPLEMENTATION BEGINNING or JUST UNDERWAY

- **Electricity Price Mitigation** – 8% rebates for residential, small business and farm electricity bills (began Jan 2017)
- **OSAP Reform** – making the program simpler, integrated and fair for students; average tuition free for students with financial need from families with incomes of \$50,000 or lower and more affordable for middle-class families (beginning September 2017)
- **Drive Clean** – eliminating the \$30 fee for vehicle emissions tests (beginning April 1, 2017)
- **UP Express** – reduced one-way fare from \$19 to \$9 with a PRESTO card (began in March 2016)
- **Community Hubs** – make public services more convenient and accessible (Initial planning began in 2015-16)
- **Childcare spaces** - create approximately 3,400 additional childcare spaces starting in 2016-17 school year
- **Digital Government** – enhancing the delivery of public services through the use of technology (plan being developed for release in 2017)
- **Natural Gas Grant Program** – expanding access to communities that do not currently have service (beginning in Spring 2017)
