Good Afternoon:

Energy / TBS / MoF officials and I have a meeting first thing tomorrow to go through these products; but represent a version that's appropriate enough for your review.

Anticipate edits during the day; but it might be good for you to suggest any comments as well? While we don't know when this report will land, my goal (and have been driving product development this weekend) is to be on a trajectory where we are basically locked by Tuesday.

Hope that you are having an agreeable, albeit somewhat soggy weekend.

Many thanks, in advance.
