Attached is a note on personal income tax energy relief through our tax credits, as well as distributions and some case examples (updates of work we'd done earlier). This support is notional - based on a dollar amount - and intended for all energy costs. We'll be happy to brief if you'd like.

Hi Jyllian,

See attached

1. A note on the relief provided for home energy through the PIT system, and
2. Case Examples that feature all supports provided through various supports for electricity for people at various income levels.

Let us know if Sriram would like us to take him through.

Thanks to all who contributed.

Svetlana

Can I get a note on who gets how much relief on electricity costs through the income tax system? Is it seniors, renters, affected by income, etc.

Thanks

Scott
