Hi Cindy for your review find attached the draft risk assessment chart we are proposing we use to support the PEMD analysis of the electricity file.

The attached chart will inform both the risks included in the Assessment Note and can serve as a way to track the risks in an ongoing way as the group meets weekly and then after implementation through the Cabinet Office.

We have shared this with PEMD/James Strang for feedback/input.

If you are fine with this Helder/Violetta can speak to it at the rate mitigation meeting tomorrow (as noted I have a conflict)

Let us know if you have any questions.

Thanks

Gary
