Flagging Energy advises the AG special report on IESO is tracking for release on Monday. Will likely be an AG press conference. My team will let MO know.

Thinking the Globe reporter may be timing his story to coincide (just my hunch).

Re comms, the special report should continue to be an Energy lead (we're verifying with them). We'll get copies of their materials, and package it together with the issue note we're developing around the Globe media call, so we have everything in one package.

Hi all,

FYI – the AG's special audit on IESO is expected to come out on April 23rd.

Waiting for details as to whether any media events are expected to accompany the report, or if it will just be posted on the AG's website, etc. Will keep you updated.

Alisha
