I've reviewed Lucy's comments and don't think that would warrant any change in the letter as currently drafted. However, they would be good to include in a more formal position paper.

Hi Nadine,

Please see the position paper with some suggested edits included in tracked changes (with comments) as well as a clean version.

Please note the following:

- the comments are to explain my additions - these can be deleted. A couple note that these interpretations are subject to management agreeing that this is their interpretation.
- I have written up the arguments based on the OTPP document references, which are the ones I am familiar with. I have highlighted all the places where these could be expanded to include the OPSEUPP references for completeness to the extent that OPSEUPP works the same way, although the OTPP number is so much bigger that it may not be material to support the OPSEUPP asset on such a detailed basis for this year - although the corresponding references could be useful for future years.

Please let me know if you have any questions on the suggested edits.

Lucy

OK. I'll be in the meeting between 10 and 11. I'll monitor my BB in case it arrives during that time. Thanks.
