Sarah

Attached are edits for the Q&A. In the Key Message section, agree with Nadine that the Panel is specifically looking at the interpretation but I did not make an edit. In the Q&A section, the response clearly mentions interpretation of the standard. In the TOR, it specifically uses "application" and it may be more appropriate to align the key message to the wording in the TOR for consistency. Also, I added the word "thereafter" in the last bullet point under Key Messages. Again, this aligns to the TOR.

The other edit was to the response to Q4.

Thanks

Nelson

Sarah,

A couple of edits-- remove reference to independent, wrt the panel, it was formed as a result of the disagreement with the AG, not the conversions with the AG (see previous briefing material), and it is the interpretation vs. Application of PSAB that they will review. Lastly, last para should read that the panel is expected to deliver its results to the province by the end of the year. No commitments to reporting results publicly by then as a summary may still have to be prepared. N

Subject: Fw: Expert Panel Q&As

Hi Nadine and Nelson,

Comms made some changes to the media Q&As in the attached.

I've given it a quick look over and didn't note any concerns but if you see anything erroneous please let me know asap. They are moving forward with DMO and MO approvals tomorrow.

Thanks
Sarah

Subject: Expert Panel Q&As

Hi Patrick and Sarah,

I've attached the updated Q&A on the expert panel with some changes Communications made. My understanding is these should also be included in the support package for the Chair and as a result we'll need speedy approvals from DMO and MO tomorrow. Can you please let me know if you have any concerns with the attached and we'll move forward with DMO and MO approval.

Many thanks,
Emilie
