I've made a few fixes throughout.

Also have a question for you both – we refer to PSAB standards quite a few times throughout. However, yesterday at the ADM sign-off, we changed PSAB standards to public sector accounting standards in the Comms products. Let me know if you want me to make that change in this deck as well.

Subject: Technical Briefing deck

Attached is a first draft of the deck.

Can you both take a read through for any typos, suggestions for additional clarity, etc. and send me through your comments.

We should get a draft to Karen by EOD today.

Thanks,
