Dear Mr. Imbrogno and Mr. Campbell,

On behalf of the Standing Committee on Public Accounts, I would like to thank you and your colleagues for attending the hearings on **Electricity Power System Planning (Section 3.05, 2015 Annual Report of the Office of the Auditor General of Ontario)**.

When you appeared before the Committee, certain requests for information were made by Members, as follows:

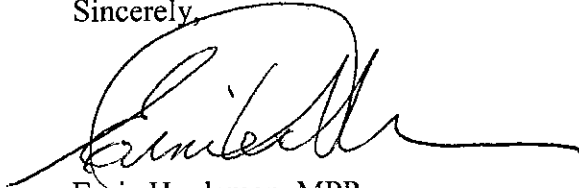

1. Please provide a table showing the cost of the global adjustment over the period 2006 to 2014 for all those elements in the system that are financed by the global adjustment.
2. Please confirm gas prices per kilowatt hour. The Ontario regulated price plan report, October 19, 2016, shows gas prices at 17.3 cents per kilowatt hour.
3. Please provide which price the IESO used in its projection of cost of power from Darlington: the 7.9 cents or the 16 cents per kilowatt hour.
4. Please provide the analysis of the life extension for the Pickering plant.
5. Please provide the detailed Long Term Energy Plan (LTEP) modules.

A copy of the *Hansard* transcript of the hearings before the Standing Committee on Public Accounts on November 16, 2016 is enclosed for your reference. An electronic version is available on the Legislative Assembly website at www.ontla.on.ca.

It would be appreciated if the written responses are received in hardcopy and electronic copy no later than December 16, 2016, for distribution to the Committee.

Thank you for your assistance in this matter. If you require further information, please contact Valerie Quioc Lim, Clerk of the Committee, at 416-325-7352 or at vquioc@ola.org.

Sincerely,
