Ontario Energy Program to reduce Hydro Cost

Your message:

I just received my latest Hydro One bill. It was reduced by the provincial portion of the HST (i.e. 8%). This is no where near the amount your government promised "lower by 25% on average" (from your website). Why is this? 8% is 3 times less than the average you promised. I was expecting some real reduction for an essential service that is grossly over priced. A truthful, non politically correct reason for this would be appreciated.

My feedback concerns:
the ministry
