

On January 1, 2017, your electricity costs went down 8%.

Ontario's government is reducing electricity costs by rebating an amount equal to the provincial portion of the HST on your monthly hydro bill. That's an 8% rebate for Ontario families, and on average will mean \$130 more in your pocket each year.

This is part of Ontario's plan to help people with the costs of everyday living by reducing electricity costs. Across Ontario, about five million residential consumers, farms, and small businesses will benefit from this rebate.

PowerStream Inc. will implement these savings onto your bill by July 1, 2017. Applicable savings will be retroactive to January 1, 2017.

How Dumb do you think we are?
- then why did my bill go ^{up}??
My cost increased from the last bill by approximately \$30. $\$30 \times 6 \text{ payments} = \180

There is a shortfall of \$50 cost to me - over the \$130 (appr) I may receive - in July!
