Hi Meaghan – can you please give the attached remarks a review today?

FYI, we're still waiting on some information from the ministry re: the Gull Bay/OPG microgrid project, which will help speak to progress on providing clean electricity for those communities where connection isn't financially viable. You'll notice a placeholder within.

Once you share feedback, we'll pass these back to the ministry and ultimately the Feds.

Thank you!

James

Want to take a look through these, keeping in mind the Premier's video script?
