Subject: Re: Materials for Review draft OFHP legislation

I am a little worried by the formula that uses only A+B as all the GA should be in the formula but maybe I am missing how the formula is being used i.e. is CDM not under IESO contact excluded?

I remember Kim saying conservation is excluded from the GA smoothing and I want confirmation this is not the case. Separating out anything that is not flowing through GA settlement would be challenging not insurmountable as anything is possible but a lot of work.

Regards

Jeannette Briggs
