Subject: RE: Consultation Draft - OFHPA General Regulation v5.docx

My comments:

9.(2) -> "regulatory" is misspelled, -> maybe it should just say "the IESO's regulatory asset"

14.(2).1.c -> seems to ignore if markets are not stable or not predictable – what happens then

Nothing from me, I can live with the wording in sections 8, 15 & 16.

June 23, 2017

Hi, Michael. In lieu of attaching a next draft, we are pleased to attach our next set of drafting instructions for the next and final draft of the OFHPA General Regulation (subject to all internal approvals). We note that the language we use to instruct may not be the language which we receive back from Legislative Counsel in the next (final) draft. This is due to Legislative Counsel's drafting and editing processes.

By before noon tomorrow (Saturday), please identify only significant or fatal flaws with these instructions.

Obviously, the earlier in the morning they can be identified the more likelihood there is that we would be in a position to reflect any final changes in the next draft.

Thank you,

James
