My suggested track edits to expand on the \$2B in the memo. Regards.

Subject: IESO Risks - Ontario Fair Hydro Act_V2_LK .docx

Hi Anthony and Susan,

First, thank you Anthony for updating the risk register for mitigation actions taken by the IESO since the first draft of the Fair Hydro Plan risk memo.

I have updated the memo content to reflect the passage of the legislation but would appreciate if both of you could please give it a quick read for any further edits/suggestions.

There were a couple of additional updates that Kim requested be added:

- Quantification of IESO's risk – this is mentioned in the risk register as the \$2B credit facility – I think this requires further explanation/expansion in the actual memo body
- Susan – you may be providing a separate document on this? – risk mitigation around accounting treatment – what the IESO could do to proactively manage this – maybe we can discuss?

I'd appreciate any further edits/comments on this memo, I am aiming to have a draft to Kim tomorrow.

Thanks!

Lia
