Subject: market line of credit

Is this correct?

1) Revolving Line of Credit
   The IESO has a $2 billion Ontario Financing Authority (OFA) market facility, which it uses to borrow loans and pay interest at a rate of 1.00%. Each month if needed a loan is taken out to fund variances within the Ontario Fair Hydro Plan. In addition, the IESO has a $475 million facility also with OFA for the ongoing needs of the market.
