Matt,

Most of the “forms” are handled via tasks through online IESO. As an example you would receive a task to input your banking information, you would receive a task to add the appropriate contacts etc. Please see the attached word document that shows the program participant workflow (we assumed you are using the same authorized representatives as the current OPG organization).

As I mentioned below, David Kwan in Regulatory Affairs at OPG can easily navigate the workflows for you. He has worked through online IESO with relative ease.

I can only think of one agreement that could require legal review which is the participation agreement (I have attached a blank copy). When you initiate register organization process and based on your information you provide, the participation agreement is auto populated and couriered to your authorized representative’s for signature.

Dustin

Anthony,

I followed up on the status of the Trust setup and it won’t be ready for a few weeks. So can we see what forms and agreements the Trust would need to sign ahead of time?

I'll follow up on if the financing entity has been formally setup. Absent that, is it possible to see what the registration docs generically look like?

Matt
Any status on the registration for financing entity – this was discussed yesterday with the lawyers Torys/Stikeman and they were wondering where things stand.

As you know, the IESO is looking to the financing entity to self-report via IESO online portal their costs/interest each month on the 4th business day.

Torlys mentioned they may want to review the registration docs too.

Regards.

Hi Dustin,

We haven't made a request yet as the registering entity has not been created yet. I will contact you when we have that information in the event I require guidance.

Thanks for the follow up,
Matt

Matt/Stuart,

Feel free to contact me below to discuss your registration. Most steps will be handled online. You will need to perform two steps with our department:

1. Register your organization (most steps online) – process typically takes from start to finish – 10 business days
 - a. You need to be a legally registered company to proceed.
2. Register your organization as a program participant (all steps online) – process typically takes from start to finish – 15-20 business days

The person that I deal with on a day to day business that has the most experience with online IESO at OPG is David Kwan in Regulatory Affairs. I believe he could easily perform all of your tasks with little guidance from me.

As always, I am available should you have any questions.
