Hi Anthony,

Is there any concept of a maturity date that will be built into the Security Agreement or some type of collateral release on the 'Accounts' and 'Proceeds' that would trigger after the expiry of the 4 year period through which the IESO is intended to be responsible for the interest obligations of the OPG Trust vehicle?

Thanks again,

David

Confidential

David – as discussed, please see attached the most recent (Nov 1 version) draft security/priority agreement between IESO and the fair hydro trust.

This document is confidential – please do not forward.

The IESO has not yet confirmed to give any such security – as still being discussed.

Also, you may notice that we have limited any security/priority to the amount due at that point in time and not for the whole/future \$ amounts.

I look forward to discussing.

Regards.
