AMPCO is interested in arranging a briefing with the appropriate IESO staff in respect to their LTEP submission. AMPCO President Colin Anderson and Chair Mark Passi would be in attendance, as well as perhaps others from the AMPCO board executive.

The intent would be to discuss measures in the attached that AMPCO members believe could be beneficial to help address electricity price sensitivity and to drive further cost savings in the system. AMPCO is also preparing additional thoughts for consideration, both on program recommendations for large industrial stakeholders in the province.
