Subject: RE: Energy Storage/GA Reg 429/04

We are also updating 429/04 for Ontario Fair Hydro Plan Act changes. Any idea if this is being done on the same schedule?

Looping in Tam and Bev who are IESO leads on this Implementation Directive. Bev has setup an internal meeting next week to discuss scope of the implementation plan; this development will impact that plan.

Subject: Energy Storage/GA Reg 429/04

Importance: High

Just had a call from Ministry staff who have been directed by the MO to move quickly (by end of October?) to propose changes to Reg 429/04 and the treatment to GA for certain classes of energy storage facilities. They're aware of the possible conflict with the Implementation Directive. I'll get more information soon (i.e. scope of change, what classes they have in mind, etc.), but given timing, we do need to set up some time to review what they're thinking very soon, say mid-next week. For now this is a staff-level discussion. I'll push for a meeting at Adelaide. Let me know what your availability is.

Many thanks,
David
