**Subject:** Re: Consult to IESO - FOI Request ENERGY-18-14 (DM Emails - Fair Hydro) - Due July 9, 2018

Do you recall what exemption was claimed?

The white papers would have formed part of the exempted record set so we wouldn't have disclosed them in their entirety.

I agree record 2 does not relate to "financial/ accounting structure of the Fair Hydro Plan", this was analysis done before the structure that turned into Fair Hydro was landed on. If Ministry insists they wish to include it, we will need to have whoever prepared it review for confidentiality concerns, and I think we could also claim s.13 advice to government exemption, although in this case it should be the government that claims it.

Record 3 does not relate to Fair Hydro at all.

Record 108 – responsive but the email from Michel Picard to Kim Marshall is advice to government (i.e. IESO in this case). We could claim section 13 if the IESO did not want this disclosed to the requester.

Record 127 are the IESO's white papers regarding accounting that was part of Fair Hydro. They are responsive. Crystal or Anushka, do you know if these were released in the other Fair Hydro FOI request, or if we made redactions or claimed exemptions?

Record 179 – this is responsive and I don't see an exemption that is applicable to this record.

Okay, thanks. I think we may want to push back on the ministry for record 2. I agree, it is related to rate mitigation but I do not think it is responsive to the request i.e. "financial/ accounting structure of the Fair Hydro Plan". I was at this briefing and recall that it took place before FHP was conceived. Based on

a request we received from the ministry, we looked at options for reducing rates. None of those options are related to Fair Hydro.

It's your call... but I thought I would give it one more go. If this does get released I think it may need to go through Chuck's group for review too.

Thanks again.  
Anthy

One more record added to the list.

Also, the Ministry replied back that they thought records 2 and 3 were background briefing material related to Fair Hydro. I looked at the records again and record 2 deals with rate mitigation, so it is likely responsive, but record 3 seems to be two different presentations about market renewal and is therefore not responsive. Michael, please confirm that this is accurate.

**Subject:** Consult to IESO - FOI Request ENERGY-18-14 (DM Emails - Fair Hydro) - Due July 9, 2018

Good afternoon Crystal

We are writing to consult IESO about the release of records in response to a request received by the Ministry of Energy under the Freedom of Information and the Protection of Privacy Act (the Act). The request is for:

All emails received or sent by the Deputy Minister of Energy pertaining to the financial/accounting structure of the Fair Hydro Plan.

Time period: Dec 1, 2016 to Jun 30, 2017

The attached 4 records (# 2, 3, 127 and 179 totalling 85 pages) were found responsive to the request and IESO may have an interest in them.

Please advise if IESO has any concerns regarding disclosure of the records.

If you feel the records, or a portion of the records, should be exempt under the Act, please highlight the information on the records and provide your rationale to support any suggested exemptions.

I would appreciate receiving your comments by **Monday, July 9, 2018**... sorry for the short turnaround.

If you have any questions, please call Erin Coulter, FOI Coordinator, at 416-325-8899

Due to the size of the records, will be sending through Enterprise... please confirm once you receive them.

Thanks

Mimi Ng
