Ontario's Fair Hydro Plan and Proposed Changes to the Ontario Electricity Support Program (OESP)

On March 9, 2017, the Ministry of Energy (the "Ministry") posted proposed changes to the Ontario Electricity Support Program (the "OESP") and associated O.Reg. 314/15.

The changes are intended to support the implementation of the Fair Hydro Plan.

The OESP is an income-tested, application based program that lowers electricity costs for the most vulnerable consumers, providing a credit directly on bills. There are two scales: one with basic credits, and an enhanced credit for Indigenous people or those who use electric heat or certain electrically intensive medical devices.
