Subject: Fair Hydro Plan - Assurances for the IESO
Attachments: Ltr to DM_Fair Hydro Plan_May 1 2017.pdf

As the planning and legislation for the Fair Hydro Plan is continuing to firm up, I sent the attached letter to the Deputy this morning setting out our expectations for assurances from the government in respect of our role under the Plan. I had advised Serge at our regular meeting last week that such a letter would be coming – which was no surprise for him given our earlier conversations with the Ministry (as per my report at the most recent Board meeting), and Steen Hume’s comments at that meeting.

The final version of the letter was worked through with Michael Boll (IESO legal) who has been managing our input on the legislation – and whose input has been much appreciated by Energy – Tim also saw it on the weekend.

As you would recognize, the work on this project continues to make for long days for Kim, Michael and the balance of the team here.
