Subject: RE: Fair Hydro Plan

I can address it verbally. I wouldn't put in the plan.

Carole,

Just back from my birding week so catching up. I have not forgotten you query related to director development and will get back to you later today on that.

I am unable to join the Audit telecom tomorrow but am very interested in the topic. I reviewed the materials and have a couple of questions if I may:

1. Was there any change to our risk assessment after we actually saw the legislation content tabled last week?
2. The risk around potential changing government direction will grow I believe as we get into electioneering mode. We have talked in the past about reaching out to the opposition parties and I wondered if that should be included in our remediation plan.

Hope the discussion goes well tomorrow.

Margaret
