Promised just one question and then off to church later and prep for dinner for 21.

Michel Picard was on about changes to the OEB Act over the commercial work included in the new legislation for the OFHP. I asked what needed to change and he did not know exactly but want at least OEB review for accounting this as a regulatory asset.

I did note that there were no changes to 78(3) Rates in yesterday's submission of the Act. Do you think it was considered? This section is broadly written and perhaps no change is required. I just wanted to point this out. JB

RE. Social program :

Good morning, please find attached Energy's draft proposal for electricity social programs, shared at the request of Energy policy.

Please review and consider.

Timelines are tight therefore your comments back to myself and Sunita at the earliest opportunity would be welcome.

Thank you.

James

Hey, Jackson – would you please turn this version of the electricity social program legislation into an external draft this morning (as soon as you can given your other priorities)? We have to share this with IESO, OEB and MOF.

Thank you!

Best,

James
