Subject: FW: Recognition of OFHP Project Team

Egna,

Can you please send out to all Settlements and carbon copy Tina Oswald, Karla Mann, Denise Myers, Kim Marshall and Rachel Zhao

Today the Ontario government passed Bill 132 - Ontario Fair Hydro Plan (OFHP), that will reduce electricity bills by 25% on average for all households and as many as half a million small businesses and farms across the province, starting this summer. The OFHP involves a number of proposed changes to the information provided by LDCs and USMPs to settle RPP and eligible non-RPP consumers, the addition of four new household consumer classes for the Ontario Electricity Support Program (OESP), removal of the OESP and a large portion of RRRP charge from electricity bills, paid for by provincial revenues, a new group of Class A consumers with peak load between 500 kW and 1 MW, and expanded rate reduction through two new programs called Distribution Rate Protection and the First Nations Delivery Credit.

Beginning on Tuesday, July 4th, LDCs and USMPs will be able to submit the necessary information to the IESO through On-line Settlement Forms. The IESO will be reporting consolidated program information to both the Ministry of Energy and the OEB.

Over the past few months, team members from both Change Initiatives and Customer Billing have been working diligently with our partners in IT, Customer Relations and with government officials to make the necessary process, form, tool and documentation changes.

On behalf of the entire Settlements department, I want to extend my thanks to Frank, Shirley, Abbas, Jonathan, Cathryne, Allison, O'Neil, Vesna, Idalin, Gordon and Denise for the hard work that has led us to be successful against rapidly changing requirements and for going above and beyond to meet tight project timelines. We would not have been successful without the contribution of Rachel Zhao from IT and Tina Oswald and Karla Mann from Customer Relations.

There remains much work to do over the summer but I have absolute confidence in our continued ability to work effectively with government to support policy development and to maintain the IESO's reputation for excellence in implementation.

Regards,

Jeannette Briggs Director, Settlements - Corporate Services
