Michael has a meeting with Peter during this time so I am rescheduling this meeting to Monday at 1pm.

This meeting will be used to review the existing Ontario Fair Hydro Plan risk matrix, make any adjustments to the assessment results, discuss any potential new risks as well as closing out any risks, and having a general discussion regarding key points to be raised to the board during the update to be provided at the December 5th board meeting.

Attached is the most recent risk assessment and heat map (found on the last page of the memo) for your reference to refresh yourselves for the meeting.

Thank you,

Alexander
