### Part 2 – Description of Change

#### Description of Change

The following information will be included in a revised version of the affected document on or about, the "Valid To" date provided in Part 1.

Note: Charge Types 1142 and 1192 were effective June 1, 2017. Charge Types 705-706, 755-756, 1143-1145, 1193-1195 and 1753 were effective July 1, 2017. Charge Types 6000 and 6050 are effective November 1, 2017.

Changes will be applied to document IMP\_SPEC\_0005 as follows:

# 1.

## 1.1

## 1.2

## 1.3

## 1.4

## 1.5

### 1.5.1

### 1.5.2

### 1.5.3

#### 1.5.4 Variance Statement Timelines

A new statement type "Variance", has been defined to support the Ontario Fair Hydro Plan (charge types 6000 and 6050). The timelines for the issuance of *settlement statements* of this type are as follows:

Table 1.2: Variance Settlement Statement Timelines

| Item                                               | Current Settlement Timelines                                                          |
|----------------------------------------------------|---------------------------------------------------------------------------------------|
| Variance <i>Preliminary Settlements Statements</i> | 16 <i>business days</i> after the last <i>trading day</i> of the month it pertains to |
| Variance <i>Final Settlement Statements</i>        | 26 <i>business days</i> after the last <i>trading day</i> of the month it pertains to |

## 2. Settlement Statement Files

---

Each preliminary statement file contains the best available settlement data for the *trading day* being settled. Also included in the file may be new settlement line items pertaining to *trading days* prior to the *trading day* to which the *settlement statement* pertains to (i.e. the “primary trading date”) but have not been included on any previous *preliminary settlement statement*. No settlement detail line items for prior dates can be included if the final statement for those days have been issued. The *preliminary settlement statement* provides each *market participant* with an opportunity to review *settlement amounts* pertaining to a particular *trading day*. After a predetermined *Notice of Disagreement* filing period (*IESO* “Market Rules” ref. Ch. 9, Section 6.6), a *final settlement statement* is generated.

Each final statement file contains the settlement line items provided in the *preliminary settlement statement* and any adjustment line items to the *preliminary settlement statement*. The calculations will be based on the best available settlement data at the time of settlement for the corresponding *trading day*.

The file name format of the file available through the IESO Reports Site Interface { XE "Transmitter" } will be as follows:

[security level {‘CNF’: Confidential}] [‘-’] [market participant short name] [‘\_’] [file type {‘ST’: Statement File}] [‘-’] [statement type {‘P’: Physical (“real-time” market settlement statement) or {‘F’: Financial or {‘V’: Variance}}}] [‘-’] [settlement type {‘P’: Preliminary or {‘F’: Final}}] [‘\_’] [primary trade date {YYYYMMDD}] [‘\_’] [version number identifying whether this report file was regenerated ‘v1’] [‘.txt’]

For example: “CNF-HONI\_ST-P-P\_20010131\_v1.txt”

The file contains a confidential report,

The data contained is for HONI – Hydro One Networks Inc.,

It is a { XE "Transmitter" } { XE "Transmission Tariff" } Settlement Statement File (‘ST’),

It relates to the Physical Market,

It is related to the Final Settlement Statement { XE "Final Settlement Statement" } Transmission Tariff { XE "Transmission Tariff" } Charges,

It relates to the month of January 2001,

As version is “1” this file is the original run for that date. Each *settlement statement* file is composed of four general sections. The first of these sections is a header record providing information such as statement number, statement type, primary trade date, and the *billing period* total to date. Following this section is a summary section of all charges by *charge type* and trading date. The third section is a detail section that lists each charge incurred by the *market participant* as well as any related charge information. The final section includes all manual line items entered by the *IESO*.

The following is a detailed description of the data fields in the Statement File.

### 2.1 General Description of Statement File

#### 2.1.1 Statement File Header Record

This record will supply information that can be used to identify the contents of the *settlement statement* file for the RT market or the *settlement statement* file that contains EFM/TR settlement data.

**Table 2-1: Statement File Header Record Description**

| Field                        | Type    | Max Field Length | Domain               | Description                                                                                                                                                                                                                                                                                      |
