Subject: Re: Market Renewal Benefits Case Update for Ministry

Jordan

Still on track to complete draft tomorrow. Likely ready for circulation internally around midday or shortly after lunch.

Tom

Subject: RE: Market Renewal Benefits Case Update for Ministry

Hi,

Just following up on this to suggest that we hold off on providing the briefing until next week. I expect Ministry staff will be unduly busy for the remainder of this week with other rate mitigation work.

In the interim, let me know when the revised benefits case is final, and please send our way. It would be helpful from our perspective to have an understanding of the changes.

Cheers,

Jordan

Thanks Tom – is there an existing product that we would use to brief the Ministry on the updated benefits case? Once we've ironed out the final report details, let me know and I will set up a meeting with Energy Supply.

Can you send me the latest version of the updated business case?

Jordan

The intent is still to post the draft report aiming for Wednesday. Leonard K has committed to getting his responses back by tomorrow and we are in the middle of the SE feedback meeting this afternoon. Early next week we will work in any final changes. Is there anything from your perspective?

Hi Tom – I thought I would follow-up on this to see if the intent was still to post something this coming week.

The draft report is scheduled to be released for stakeholder feedback aiming for middle of next week. We are working in feedback from VPs and it will be discussed on Thursday at ELT and there may be some changes arising from the SE/MRWG meeting on Friday that could affect the timing. We would then review and incorporate stakeholder feedback in the final version of the report that will be published before the end of March

Yeah, if we're close to finalizing the benefits case. When do we expect to have a final version ready for review and publication?

Do you also think its worth checking in with Energy Supply or others more directly impacted by the project to give them an update (benefits case/stakeholdering etc)

The 6th is tricky as we have an important DRWG but either of the other two should work, with a slight preference for the 9th.

Barbara and Tom:

Here are the dates and times we've received from the ministry for the session. Can you please let me know what might work on your end?

Many thanks.

6th Mar - from 10am – 12 noon and from 1pm – 4pm
7th Mar - 2:30pm – 4:00pm
9th Mar - 10am – 11am

Glenna,

We can definitely do a presentation for them. Tom will be your point person on arranging this.

Subject: Market renewal presentation to ministry conservation division

Barbara and Tom:

The ministry's conservation group has expressed interest in attending a market renewal presentation by the IESO in the coming weeks. I am hoping that this is something that your team might be able to provide. In addition to the IESO's

standard overview presentation, we would need to cover the topic of how this initiative will work with conservation – its relevance, linkages, impacts, etc.

Please let me know if this is possible for you and I will arrange the session for a mutually convenient time.

Thank you.
