Subject: RE: Business Working Group CFGI Grocery Study

Thanks David

We are working with the Canadian Federation of Independent Grocers on an energy study under direction from MOE. The sector is mostly caught in the middle of our programs (too large for energy consumption thresholds for small business and too small for ICI and mostly not large enough for EPP except Longos). They are also somewhat impacted by late timing of BRI launch (Ottawa specific member comment), and their members will not receive significant benefits under the Fair Hydro Plan.

We want to review with the Working Group what we are doing and why so the input can be used by the working group for potential program recommendations. We also want to advise the Group with respect to communication that would be going out to CFGI members so LDC's are aware, not surprised and ready for follow-up. The initial phase of the work would be completed by the end of August, so ideally we could join on August 9th, but we are open to alternate ways of advising and getting feedback if need be. We expect to be sending communication by e-blasts to their members.

Thanks

Dave

Subject: RE: Business Working Group CFGI Grocery Study

Hi David,

The next BWG meeting is August 9 but at this point the agenda is pretty much locked in. Following that we have a meeting September 7 at the IESO offices.

Can you provide more information on the project and what you would like to get back from the Business Working Group?

David

Subject: Business Working Group CFG Grocery Study

Hi Graham and David,

Do you know when the next Business Working Group is scheduled?

We have been asked to study the Independent Grocery sector to identify opportunities with existing programs for their members and also any gaps that currently exist and we would like to involve the working group formally and get their input as soon as possible.

Thanks

Dave
