Subject: updated communications plan for the Indigenous Community Energy Symposium
Attachments: ACEP Symposium Communications Plan_v4.docx

Hi everyone, I think I've incorporated everyone's changes but before sending this to the Ministry, I'd be grateful if you could take one last look. Most of the changes are to the Background section (page 1) and the Key Messages section (page 7). I want to ensure I haven't accidentally stepped in any linguistic minefields.

Tabatha/Michael: Jordan asked for some additional detail about the conservation focus for the Symposium. He also asked that the LTEP references stay, but that I indicate messaging could change once the LTEP is released.

Please let me know if you have any additional comments, questions or concerns. Thanks.

Cheers,

Jane

PS – do we refer to First Nation communities/youth or First Nations communities/youth?

PPS – I have scrapped the reference to issuing a news release as our policy to date has been to NOT issue releases for events like the Stakeholder Summit or Regional Forums.
