Joyce,

Can you follow up with Nicole? I believe that you would be the source of this information and could answer her questions. If not, please advise. Thanks.

Hi Andrew,

It was so nice to see you again at the Itron's forecast meeting last week. The meeting was great; the topics have been expanded so much including regulations, pricing, economics and new technologies. I hope you enjoyed it as well.

As I mentioned, would you please direct me to the person within the IESO who does the electricity price forecast?

The OEB made an announcement approximately a week about the price dropping for residential and small business starting May 1st.

<https://www.oeb.ca/newsroom/2017/electricity-prices-dropping-households-and-small-businesses-effective-may-1>

In the announcement, there is a letter from Ministry of Energy dated April 10. A technical briefing has been attached to the letter. On page 10 of the technical briefing (see attached), a graph shows the forecast global adjustment cost from 2017-2035. I have some questions about this graph I would like to ask.

Would you please also connect me with Conrad Fox, I would like ask him some questions about storage.

Thank you,

Nicole Fan, CPA, CMA, MBA
