Hey Bronwen,

Attached is the file containing descriptions of THESL's rates, and below is the link to where the files can be found if they'd like to see others.

Subject: Rate Structure

Hi Joyce,

I was trying to find a reference that outlines the various rate structures for residential and business customers in Ontario. I couldn't find anything (easily) on the OEB website and was wondering if you knew if such a thing exists. We want to give it to the consultant who is developing an economic model for a rooftop solar PV study.

Thanks,
Bronwen
